**Paranormal Investigations: The Basics**

Learn how to conduct investigations from experienced paranormal investigators. What typical paranormal activity do clients and investigators encounter? What sort of equipment is typically used and how does it work? How is an investigation structured, and what techniques are used? What are some of the common pitfalls that plague beginning investigators? This is a stand-alone session for the beginning investigator, but also for those that are simply curious about the paranormal. Mark Stinson is the Co-Founder and Lead-Investigator for Ghost Vigil Investigations, a paranormal investigation organization based out of Kansas City. Ghost Vigil is a TAPS Family team. Jamie King is the Case Manager and Lead Planner for Ghost Vigil Investigations.

**Paranormal Investigations: The Theories**

How does the paranormal work? How does the paranormal work? What is a ghost? How does it interact with the living? We will discuss the basics of Psi-Theory at length, but also cover some of the other possibilities, including supernatural, time-variations, energy fields, stone/water storage, and other theories. This class will deepen your thinking and understanding of paranormal activity. Mark is the co-founder and lead investigator for Ghost Vigil Investigations, a paranormal investigation organization. Jamie King is the Case Manager and Lead Planner for Ghost Vigil Investigations.

**Peacemakers**

"Peace is the breath of our spirit. It wells up from within the depths of our being to refresh, to heal, to inspire," Universal Peace Covenant. Innately, we all want to be at peace within ourselves and around ourselves. What are the elements that make for peace? Please join us in this two hour interactive session as we attempt to understand the beauty behind a smile, the warmth of love, the sharing of respect for one another, the joy of service, the discovery of our divine intelligence, the core of our value. We will establish our ideals, our purpose and the actions we will take to bring peace on earth.

**Learn to Curl: An Olympic Sport**

The sport of Curling will experience its fourth time as an Olympic Medal Sport in 2010 but did you know that this 400 year old Scottish sport is played by over 1.5 million people worldwide? Taught alongside actual curling matches each week, our "Learn to Curl" program consists of a 15 minute video tape on the sport of curling, followed by a question and answer period. Those who are comfortable standing on ice will use the remaining time trying the various techniques (delivery of the rock, sweeping and game strategy) demonstrated by curlers of the Kansas City Curling Club. You are encouraged to join us after the games as we socialize (broomstack). Wear loose fitting clothes that will keep you warm to 40 degrees and a clean pair of rubber soled shoes (i.e. sneakers).

**KKFI'S EXCITING NEW ECOLOGY PROGRAM**

EcoRadio KC is a locally-produced, weekly exploration of positive  
solutions to the challenges we face as we work to create a healthier  
future for our community and all species. The show will explore  
a wide range of topics, including local & regenerative agriculture,  
energy conservation & efficiency, justice, ecovillages, alternative  
medicine, indigenous peoples, clean energy, local food systems,  
biofuels, the need for multicultural participation in social change,  
global warming & climate disruption, extinction, green building and  
chemistry, and consumerism.
