### Dialogues Concerning Two Views of Intelligent Design as a Science: Part 1

Evolutionary biologists try to define science by limiting its investigations to purely law-like and mechanical (naturalistic) explanations. Dr. Marshall will demonstrate the methodological equivalence of ID and Darwinian evolution as theories for the origins of the species (including humans). Professor Schmitz will show that ID as presented to the public is not a science. Dr. Marshall is a Professor of Chemistry at UMKC and postdoctoral position at Stanford University with degrees from the University of Washington in Seattle and UMC School of Medicine.

### Dialogues Concerning Two Views of Intelligent Design as a Science: Part 2

Dr. Marshall will demonstrate the methodological equivalence of ID and Darwinian evolution as theories for the origins of the species (including humans). He will show that there is no reason to exclude the consideration of intelligence from truly scientific research. Professor Schmitz will show that ID as presented to the public is not a science. Dr. Marshall is a Professor of Chemistry at UMKC and postdoctoral position at Stanford University with degrees from the University of Washington in Seattle and UMC School of Medicine.

### Your Contributions are Welcome!

#### Dear Friend,

Community has an amazing history and an exciting story to tell:

- Classes, workshops and seminars that you won't find anywhere else
- The largest all volunteer adult education program in the country
- 35 years in existence and an unchanged class fee structure for the last 6 years

The real story is not in the numbers, it's in the people and the effects that Community has had on their lives: The new interests explored, businesses established, college courses that were tested in the Community lab, and relationships created. Community has been at the center of new friendships, sharing and education—we have created a real community of learning and sharing.

Sadly, our major fundraiser had to be discontinued; and we need to raise \$10,000 which would cover fees for the grant writer and cover increased printing costs. We are asking our most dedicated and involved community members to help Community reach this goal. We hope you will consider including Community in your giving plans this year.

\$5 buys 33 catalogs (we print 120,000 per year)

\$25 pays for 1 phone for 1 month (we have 3 lines)

\$50 pays for van rental to distribute class catalogs for 1 day (we distribute 19 days per year)

On behalf of the Advisory Board and the staff of Community, we wish you another wonderful semester and hope you're able to attend Community classes again and contribute to our campaign.

Sincerely,

Rev. Scott Myers

Advisory Board President
