SPECIAL REGISTRATION PROCEDURES
FOR VISITORS AND TEMPORARY RESIDENTS

The United States has a proud tradition of welcoming immigrants and visitors. This tradition is renewed and enriched by each and every law-abiding immigrant and visitor. New regulations addressing special registration have been put into effect to help ensure the safety of all persons in the United States -- citizens, residents, and visitors as well. We appreciate your understanding and cooperation in complying with the special registration procedures.

NON-COMPLIANCE

If you do not comply with the special registration requirements or other terms of your admission to the United States during your stay, you will be considered out of status. You may be subject to arrest, detention, fines and/or removal from the United States, and any future application for an immigration benefit from the United States may be denied. Decisions will be made on an individual basis, dependent on the circumstances of each case.

HOW TO COMPLY

Now that you have been registered, there are a few more special registration procedures that you must follow. Please take the time to read these instructions carefully. Keep them with you, as it is your legal responsibility to follow them and no further reminders will be issued.

FOR ALL REGISTRANTS LEAVING THE UNITED STATES

- You must register your departure before you depart. In order to do that, you must appear in person before an inspecting officer at a designated port of departure (a list is attached) and leave from that port on the same day.

REGISTRANTS PRESENT IN THE UNITED STATES

- You may be required, at the discretion of the Department of Homeland Security (DHS), to report in person to a U.S. Immigration and Customs Enforcement (ICE) office and show that you are following your travel plans or the statement of intentions made when you entered. You will receive separate notice to the last address you reported to DHS if you are required to report to an ICE office during your stay in the United States. Again, it is important that you notify DHS of any change in address.

REGISTRANTS WHO CHANGE ADDRESSES, EMPLOYERS, OR SCHOOLS WHILE IN THE UNITED STATES

- You must notify DHS in writing within 10 days of the change, except that you do not have to repeat an address change already reported through the Student and Exchange Visitor System (SEVIS) separately with DHS. Notification must be made by filling out and mailing a change address form for aliens subject to special registration, Form AR-11SR. ;

This document provides additional information and helpful tips to make it easier for you to follow the special registration procedures.

FOR ALL REGISTRANTS LEAVING THE UNITED STATES

If you leave the United States after October 1, 2002, including visits to Mexico, Canada, or adjacent islands, you must register your departure by appearing in person on the date of your departure before an inspecting officer at a designated port of departure (a list is attached). Additionally, you must depart from the United States from the designated port at which your departure was registered. If you do not appear in person on the date of your departure before an inspecting officer, you may be denied admission to the United States at a later date. A list of the designated ports and instructions on where to register your departure is attached for your information. It is also available on the Internet at www.uscis.gov and from the National Customer Service Center (1-800-375-5283 or TTY 1-800-767-1833 for the hearing impaired).

If you are just passing through the United States en route to another country and you are intending to depart from a non-designated port on the day of your arrival, your departure information will be collected during the arrival registration.

WAIVERS

A waiver for relief from the departure portion of the special registration requirement or a waiver of future admission registrations may be requested in writing. There is no form to request a waiver; a letter is sufficient. Example of the circumstances that might warrant a waiver includes, but is not limited to the following: a representative of a foreign government who was issued a visitor's visa in lieu of a diplomatic visa, an individual who should be exempt from special registration but was registered in error (such as an individual entering with a diplomat's visa), or an individual who is eligible for the frequent traveler exception to registration. More information about waivers from the special registration requirements can be found at 8 CFR section 264.1(f)(7), and on the website www.uscis.gov. If a request for a waiver is not approved in writing before your departure, you must report to the port-of-departure office and comply with the departure requirements set out in these materials. Failure to do so may result in your being denied future admission to the United States.

All waiver requests should be sent to the U.S. Customs and Border Protection (CBP) Field Office Director for the port from which you intend to depart or (for

frequent travelers) the port for which you most frequently arrive in the United States. A list of addresses for the CBP Field Offices is attached, and also can be found at www.uscis.gov. Please provide a detailed description of the relief that you are seeking, your name, date-of-birth, Fingerprint Identification Number (which is reflected on the Form I-94 you are given at the time your registration is completed), a 1'x1' passport style photograph, your alien registration number (A-number), if one has been assigned to you, and any documents that support your application. For example, if you are a crewmember who has been registered on a prior trip and is seeking relief from registration upon arrival, in addition to the items referenced above, please provide a letter from your employer that indicates your need for a waiver, job status, and the frequency of entry. If your waiver is approved you may have to report for an interview before a CBP officer and you may be required to provide your fingerprints.

ADDITIONAL REQUIRED INTERVIEWS

Who must report for an additional interview?

At the discretion of DHS, anyone who has been registered at a United States port of entry on or after September 11, 2002 as part of the special registration procedures and who is in the United States may be required to report for additional interviews. You will be given a specific and individual notice if you are required to report for additional interviews.

Where must I go for an additional interview?

If you are notified that you must report for an additional interview, your notification will advise you as to the time and place of the interview, which will occur at a local ICE office. When you report for your follow-up interview, let an ICE employee or security guard know that you are there for a special registration interview. An ICE officer will request proof of identity, such as your passport, and then direct you to the officer who will conduct the interview.

What will happen at the additional interview?

At the additional interview, your identity will be verified through a fingerprint scan and photograph. You also will be asked questions to verify your compliance with the immigration laws.

What should I bring with me to the interview?

If necessary, you may bring someone to translate for you. You should bring your Form I-94 (Arrival – Departure Record) and any written documents available to show the interviewing officer that you are doing what you said you were going to do when you entered the United States. For example:

- If you are visiting the United States as a tourist, you could bring hotel receipts, ticket stubs from places that you have gone or transportation that you have

used, credit card receipts in your name that indicate a city or state that you have visited, etc.

- If you are staying with friends or relatives, you could bring documents showing their name and address, such as a postmarked envelope or bill.
- If you are in the United States because of a job, you could bring a payroll stub, an employment contract, a letter from your employer, etc.
- If you are in the United States to go to school, you could bring your class schedule, official notification of your grade(s), your class or yearbook picture, student identification card, evidence of participation in extracurricular activities, etc.

For the purpose of the interview, it is in your favor to bring as much documentation as possible.

CHANGE OF ADDRESS OR EMPLOYER

If you change your address or employer, you must notify DHS by mail within 10 days of the change. You should use a Form AR-11 SR (Alien's Change of Address Card – Special Registration). A copy of the form is attached for your convenience. It is also available on the Internet at www.uscis.gov and by mail from the Immigration Forms Distribution Center (1-800-870-3979), and at immigration offices.

When completing the form, you should:

- copy the FIN (Fingerprint Identification Number) that was written on your I-94 (Arrival – Departure Record) when you entered the United States or at any other interview on the last line of the form where indicated, and
- mail to the address noted on the form.

While not required, it is to your benefit to keep a copy of your completed form and to request and keep a receipt to document the date on which you mailed the AR-11 SR and the address to which it was mailed.

Some student and exchange visitors are also subject to monitoring under the Student and Exchange Visitor Information System (SEVIS). If you are such an alien and DHS is electronically notified of changes in information through SEVIS, that notification fulfills your obligations for special registration purposes, and you do not also need to fill out a form AR-11. However, if you fail to utilize the SEVIS system to report a change, you must do so using the AR-11.
