

Tutor Profiles

Adam P.

Favorite Courses to Tutor: Calculus

Passionate about tutoring because: It's the broadest field of engineering and since I love all aspects of engineering, covering a wide range of different topics appealed to me.

Major: None yet

Future goal: I would love to get an internship soon and go right into a job straight out of college.

Enjoys: I enjoy useless skills, such as yo-yoing, rubix cubes, and uni-cycling. I also love theater as I was a theater kid in high school.

Adam S.

Favorite Courses to Tutor: Spanish 110, 120, and 211

Passionate about tutoring because: I find it rewarding to assist others in learning because I learn from them just as much as they might learn from me.

Major: Spanish and Wildlife Biology

Minor: Latin American Studies

Future goal: To conduct research and public education about animals all around the world and to perhaps one day open my own animal sanctuary.

Enjoys: Listening to music, spending time outdoors, and talking about both of those.

Ally

Favorite Courses to Tutor: Organic Chemistry (it's a puzzle!) and Biology 108.

Passionate about tutoring because: I love giving students advice and tips for how to succeed in their classes. I also like the satisfaction of helping someone understand a difficult concept.

Major: Biology

Minor: Chemistry with a Biomedical Sciences emphasis

Chose my major because: I love biology. Learning about the human body is amazing. There's so many things taking place in our body without us even knowing it. My goal is to attend medical school and hopefully become a gastroenterologist.

Enjoys: Playing tennis for fun

Amir

Favorite Courses to Tutor: Economics

Passionate about tutoring because: I have a passion for teaching

Major: Economics

Future goal: Social Consortium

Chose my major because: Its an interesting mix of philosophy and math that is applicable to everyday life

Research/Internships : McNair Scholar Program, Job Quality Index Research and Green Jobs Research

Future goal: to become a full time teacher

Enjoys: Spending time with family, exercise and playing board games

Ben

Favorite Courses to Tutor: Math courses like Calc 1

Passionate about tutoring because: It's incredibly rewarding to help someone else learn

Major: Computer Science

Chose my major because: Electronics have always been a passion of mine and I excel with logical statements

Future Goal: I hope to work in a field involving robotics

Enjoys: Video games, sports, music, and movies

Doung

Favorite Courses to Tutor: Math 210, 220; Physics 240, 250

Passionate about tutoring because: MaST has given me the opportunity to gain knowledge of oneself and others. It reinforces my ability to communicate clearly, logically, and creatively.

Major: Physics (BS)

Minor: Astronomy

Chose my major because: I always have the innate desire to understand how things work. And I think physics is the most basic of the sciences that can help me in doing so.

Enjoys: drawing and photography

Bryan

Favorite Courses to Tutor: All math

Passionate about tutoring because: I believe it can turn the tables on negative stigma students have about difficult courses.

Major: iPhD Mathematics (w/ physics codiscipline)

Minor: History

Chose my major because: I had an inspiring calculus 2 teacher.

Research/Internships: COVID-19 mathematical modeling (current)

Future goal: To be a biostatistician.

Enjoys: Video games, going to the arcade, learning mathematics.

Ciara

Favorite Courses to Tutor: Spanish 110, 120, and 211

Passionate about tutoring because: I love helping people understand Spanish.

Major: Communications - Journalism

Minor: Spanish

Future Goal: Get my Bachelor's and begin working for a news station, doing the big three: writing, recording, and editing.

Enjoys: Reading, writing, planning, and training in the martial arts

Grace

Major: Physics (BS) and dual degree in Mathematics (BS/MS)

Research/Internships: I designed, executed, and analyzed a sun-tracking solar panel system. This summer, I will be participating in an REU in Ohio and doing research in nuclear physics (gamma ray spectroscopy).

Future goal: obtain my PhD in Physics and do research in a field (maybe theoretical particle physics).

Greg

Passionate about tutoring because: I want to put what I have learned to use and help students. I also want to try an educational career approach.

Major: Math and Physics

Minor: Economics

Chose my major because: I want to attend graduate school, but I'm not sure of my career yet so I want my options open.

Research/Internships: Caruso Research Group

Jacob

Favorite Courses to Tutor: CJC Stats and Math for Liberal Arts

Passionate about tutoring because: I was once not the best at math so I know how it feels and I know how important good help is.

Major: Criminal Justice and Criminology

Minor: History

Chose my major because: I find the criminal justice system very interesting and want to pursue a career in law.

Future goal: To become a prosecutor in the Criminal justice system.

Enjoys: Fishing, hiking, and riding my motorcycle

Karan

Favorite Courses to Tutor: Organic Chemistry, General Chemistry, and Cell Biology

Passionate about tutoring because: It offers me a way to help out my fellow peers and grow with them.

Minor: Biology and Public Health

Chose my major because: I enjoy learning about science and applying the knowledge I learn to everyday life.

Future Goal: to go to dental school. I also want to do dental research as well as chemistry-related research.

Enjoys: I enjoy listening to music, watching movies, photography, and spending time with my family.

Kayla

Favorite Courses to Tutor: Chem 211 and Calc 210!

Passionate about tutoring because: I really love helping people, and breaking down the information for others is a great way for me to learn and connect what I'm learning now.

Major: I'm a Biology (BS) major, pre-medical

Minor: I minor in Chemistry and would love to add Bioethics

Chose my major because: I want to help people

Future Goal: I know this is redundant, but helping others is my driving force

Enjoys: I love to read, write, and play games. I'm also learning to draw! Still a beginner though.

Lauren

Passionate about tutoring because: of the supportive environment. Everyone's questions are important and worth exploring. It is exciting to be part of a program that helps students embrace subjects that may be challenging for them.

Major: Biological Sciences (BS)

Minor: Chemistry and Psychology

Chose my major because: I think biology is one of the most fascinating and dynamic subjects a person can study. Just ask my roommate, thanks to me, he's heard more science facts than he ever expected in his lifetime

Lexi

Major: Biology

Minor: Chemistry & Spanish

Future Goal: In the future, I hope to become a Physician Assistant and have a positive impact on those I help by improving their quality of life.

Enjoys: My favorite things are traveling, learning about other cultures, and doing things I've never done before.

Lydia

Major: French

Favorite Courses to Tutor: French

Passionate about tutoring because: I love helping students understand the subjects I love to study! Lending a helping hand and making students feel comfortable working through things they're struggling with brings me so much joy. You aren't alone! College is hard, and I'm excited that we get to be in this together

Minor : German Studies

Chose my major because: I have been studying French since I was thirteen, and loved it ever since. I hope to become a French teacher someday!

Future Goal : Teaching French

Enjoys : I love Jesus! Reading the Bible is my favorite pastime. I also love reading, playing piano, being outside, and spending time with friends and family

Makenna

Favorite Courses to Tutor: Anatomy and Biology Courses
Passionate about tutoring because: I know classes can be overwhelming, and I enjoy easing some of that stress by helping people break down concepts and better understand their course material!
Major: Six Year B.A./M.D.- Liberal Arts
Minor: Chemistry
Chose my major because: I love medicine and was drawn to all that the six-year program had to offer.
Enjoys: I enjoy reading, traveling, and trying new foods.
Bit of Advice: Never be afraid to ask for help! We are here because everyone needs help sometimes. I know SI/Tutoring has helped me many times, and I hope it will do the same for you.

Manal

Major: Chemistry
Favorite Courses to Tutor: Gen Chem and Calc 1
Passionate about tutoring because I love seeing people feel accomplished! No one should ever think that they are incompetent.
Minor: Spanish and Biology
Chose my major because: Chemistry is the essence of everything. I want to work on food manufacturing and sustainability in the future, and that's essentially just chemistry.
Research/Internships : I've dabbled with fruit flies and gut flora with the assistance of uBiome
Future Goal : I'd love to be a food chemist! Maybe I could open a coffee shop, too. It'd also be a dream to learn Debussy on the piano.

Enjoys : Reading, playing the piano, hanging out with friends, and being a barista!

Mary

Major: Biology

Favorite Courses to Tutor: Cell biology, precalculus and calculus, and general psychology.

Passionate about tutoring because : I know that it can be a bit of a struggle to understand material when in a class full of students. One on one learning really helps for smooth understanding of often tricky subjects. I know from experience, and want to be the person who helps make that lightbulb moment for other students.

Major : Chemistry

Minor : Psychology

Chose my major because: I chose chemistry as

my major not only because it goes well with my pre-med track, but because I also enjoy learning about the minor chemistry details that are so often overlooked but still very crucial in medicine and day to day life.

Research/Internships : I am looking into pharmaceutical internships and hospital based research, but have yet to commit to any projects.

Future Goal : To become a psychiatrist.

Enjoys : reading, casual hiking, spending time with family, and eating!

Matt

Major: Mathematics

Favorite Courses to Tutor: Algebra

Passionate about tutoring because: Teaching is learning is teaching

Minor: Law, History, National Security Studies

Chose my major because: I find math relaxing

Research/Internships: Dr. Bani's projects for his diff equa courses

Future Goal : Adjunct professor

Enjoys: Coaching swimming, boardgames, sci-fi

Mimi

Favorite Courses to Tutor: Calculus and Chemistry
Passionate about tutoring because: I am given the opportunity to help other students achieve their best and inspire them on a personal and academic level.

Major: Chemistry and Biology

Minor: Mathematics

Chose my major because: they help fulfill my prerequisites requirement for graduate school and my future career but genetics and upper biology classes were the classes that really got me interested in biology and the study of life itself. I love that it's so integrative and have so many approaches. I have always wanted to know how things work and I allowed the courses I took in biology to become the path to figure out what I really want to know more about.

Future goal: to become an OB-GYN physician.

Enjoys: I enjoy playing tennis and hanging out with my family.

Nauy

Favorite Courses to Tutor: Biology and Organic Chemistry

Passionate about tutoring because: I enjoy collaborating with students to help solve a problem.

Major: Biology

Minor: Chemistry

Research/Internships: I went to Vietnam this summer to be a part of a medical internship with IVHQ. I got to shadow doctors and connect with the local people!

Chose my major because: It allowed me to take courses that I not only enjoy learning about but also find that they help me in furthering my education to become a physician.

Future goal: To become a doctor and give back to my community.

Enjoys: Tennis, eating, and traveling

Nghi

Favorite Courses to Tutor: Chem 321/322, Bio 202, Math 210.

Passionate about tutoring because: I want to help people to success in their classes. I love to talk to other students and share with them any advice or tips that I have. It will be a great pleasure to see the students I tutor improve every day.

Major: Chemistry with Pre- Pharmacy emphasis

Minor: Biology

Chose my major because: I loved chemistry since I was in high school. The application of chemistry is present everywhere in our lives. This truly inspires me to formulate ideas about how different compounds and structures can be used to enhance the lives of humanity.

Research/Internships: Volunteer research assistant in

the Chemistry department and two-month summer internship at Novartis (the pharmaceutical company) in Vietnam.

Future goal: Become a successful pharmacist and contribute to the innovation of practice of medicine in the world.

Nikoloz

Favorite Courses to Tutor: Math 210 & 220

Passionate about tutoring because: is just the honor of saying that I am a tutor.

Major: Computer Science (BS)

Chose my major because: I am good at STEM and I like working remotely and travelling so I think my major is a good fit.

Future goal: Get Master's degree and become professional software engineer.

Richard

Favorite Courses to Tutor: Calculus. Math topics usually hinge on one or two key points that you can focus on to help the student understand the larger topic and its applications

Passionate about tutoring because: I like to see new people and talk about different subjects/problems, then work toward a solution together. The different problems are fun, but also sometimes challenging.

Major: Computer Science (B.S.) and Mathematics & Statistics (B.S.)

Minor: German

Tanvi

Favorite Courses to Tutor: French, Chemistry, and Maths

Passionate about tutoring because: I can make a difference!

Major: 6 Year BA/MD

Minor: French and Chemistry

Chose my major because: I love helping people!

Future Goal: To work with Doctors Without Borders

Enjoys: I love rappelling, swimming, playing tennis, and watching movies.

Tony

Favorite Courses to Tutor: Math 110, 210, & 220.

Passionate about tutoring because: when people finally get that “Aha” moment after not understanding how the math behind a subject works, it makes me happy for them. Math should feel empowering and eye opening, not stressful and confusing. I especially like watching people come back and constantly improve their skills/confidence.

Major: ECE/Physics

Minor: Mathematics

Chose my major because: Math and science are my passions. I want to apply myself and make a difference in as many people’s lives as possible.

Research/Internship: Caruso Research Group Research Assistant
