

Introduction

Catalog of Undergraduate Programs

Catalog of Graduate and Professional Programs

Catalog Archives

The academic program catalogs of the university are available online only. The undergraduate programs and the graduate & professional programs catalogs cover all of the academic programs of UMKC.

General undergraduate academic rules and regulations and graduate academic regulations and information apply to all undergraduate and graduate programs, respectively.

Prospective students should be aware that the University reserves the right to make changes in admission requirements, fees and other specifications in the catalog.

The web site address for the catalogs is <http://umkc.edu/catalog>.

These catalogs are the official record of degree program requirements. Students are expected to become thoroughly familiar with all academic regulations and requirements of this catalog pertaining to their program of study and to comply with its provisions.

University Accreditation

“Accreditation” is the primary means of assuring and improving the quality of higher education institutions and programs in the United States. Active for the past 100 years, this private, voluntary system of self-examination and peer review has been central to the creation of a U.S. higher education enterprise that is outstanding in many respects.

-- [Council for Higher Education Accreditation](#)

The University of Missouri - Kansas City is accredited by The Higher Learning Commission and is a member of the North Central Association.

The Higher Learning Commission
North Central Association of Colleges and Schools
30 North LaSalle Street, Chicago, IL 60602
(312) 263-0456
<http://www.ncahlc.org>

The Higher Learning Commission accredits UMKC as a whole. Specific undergraduate, graduate, and professional programs, are also accredited by other programmatic accrediting agencies. The accredited programs and their accrediting agencies are identified in the applicable academic unit and/or program information sections of the catalog.

- UMKC AIDS Policy Statement
- Academic Honesty and Student Code of Conduct

Telcommunications Services for the Speech and Hearing Impaired

UMKC offices and departments may be reached through Relay Missouri, a telecommunications relay service for those who are hearing or speech impaired. Trained relay agents ensure the calls are completed. The toll-free Relay Missouri access numbers:

(800) 735-2966 (Text Telephone)
(800) 735-2466 (Voice)

Statement of Human Rights

The Board of Curators and UMKC are committed to the policy of equal opportunity, regardless of race, color, religion, sex, sexual orientation, national origin, age, disability and status as a Vietnam era veteran. The [Division of Diversity, Access & Equity](#) is responsible for all relevant programs.

Student's Right-To-Know

In accordance with Public Law 101-542, UMKC reports 71 percent of its first-time freshmen return the second year.

The UMKC Police Department publishes an annual campus report on personal safety and crime statistics. The report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings owned or controlled by UMKC; and on public property within, or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault and other matters.

The report is available at the UMKC Police Department, Room 214B, 4825 Troost Building or via the Web site: <http://www.umkc.edu/safetyreport>.

Notice of Nondiscrimination

Students, staff, faculty, visitors, applicants for admission and employment, and all unions or professional agreements holding collective bargaining or professional agreements with the University of Missouri-Kansas City are hereby notified that this institution does not discriminate on the basis of race, color, national origin, religion, sex, age, disability, veteran status, or sexual orientation in compliance with Title VI, Title IX, Title VII of the Civil Rights Act of 1964, as amended, and Sections 501, 503, 504, and 505 of the Rehabilitation Acts of 1973, as amended.

Any person who feels they have been discriminated against or who have inquiries regarding this institution's compliance with the foregoing regulations may contact UMKC's Affirmative Action Director by visiting

UMKC AIDS Policy Statement

To address special needs of the University of Missouri-Kansas City, the following policy is in effect:

Faculty, staff and students should be aware that discrimination on the basis of race, color, religion, national origin, ancestry, sex, sexual orientation, age and handicap (to include AIDS), is prohibited by state law. All are expected to conduct university-related activities without any such discrimination. Failure to fulfill these obligations may subject faculty, staff and students to disciplinary action. Such action shall be taken in accordance with the following University of Missouri procedures: Rules of Procedure in Student Disciplinary Matters and the Dismissal for Cause Procedure.

Those who feel they may have been discriminated against may use the Grievance Procedure for Administrative, Service and Support Staff; Discrimination Grievance Procedure for Students; and Academic Grievance Procedures.

This statement is based on the recommendations of the Missouri Human Rights Commission and is in accordance with the statements of professional responsibility and codes of ethics of the Association of American Medical Colleges, the American Medical Association, the American Dental Association, and the National League of Nursing.

Academic Honesty

The Board of Curators of the University of Missouri recognizes that academic honesty is essential for the intellectual life of the University. Faculty members have a special obligation to expect high standards of academic honesty in all student work. Students have a special obligation to adhere to such standards. Academic dishonesty, including cheating, plagiarism or sabotage, is adjudicated through the University of Missouri Student Conduct Code and Rules of Procedures in Student Conduct Matters.

See the Policy Section of the Appendices to this catalog for a complete reading of these regulations. There are also academic honor codes in the schools of pharmacy, dentistry, medicine, nursing and law.

- School of Pharmacy Honor Codes
- School of Medicine Honor Codes
- School of Dentistry Honor Codes
- School of Nursing Honor Codes
- School of Law Honor Codes

Academic Programs

Academic Programs

Catalog of Undergraduate Programs

Catalog of Graduate and Professional Programs

Undergraduate Programs

Catalog of Undergraduate Programs

All undergraduate programs have two required components: a general education program and a major program in a particular field of study. General education program requirements vary within and between academic units. Links to general education requirements are provided here by unit for those units that have undergraduate programs.

- GENERAL EDUCATION
 - College of Arts and Sciences [A&S]
 - School of Biological Sciences [SBS]
 - Henry W. Bloch School of Business and Public Administration [BLOCH]
 - School of Computing and Engineering [SCE]
 - School of Dentistry [DENTISTRY]
 - School of Education [EDUCATION]
 - School of Medicine [MEDICINE]
 - Conservatory of Music and Dance [CONSERVATORY]
 - School of Nursing [NURSING]
 - School of Pharmacy [PHARMACY]

Undergraduate fields of study are listed in capital letters. The actual baccalaureate degrees to be earned with a major in the field of study are shown in parentheses linked to degree program requirements. The academic unit administering the degree program is shown in brackets linked to general information about the unit, including location and contact information. Special emphasis areas, if any, for the degree program are indented beneath the major field of study. Only special emphasis areas shown here appear on students' official transcripts. Minors and Certificates, if any, are also listed by field of study. Minors appear on students' official transcripts. Other differences within degree programs, such as differences in concentrations, focuses, and tracks, may signify alternatives in meeting degree requirements, but do not appear on students' official transcripts and are not listed here.

Special Admission Cases

Early Admission from High School

Superior high school students who have completed all of the requirements for graduation from high school but who will not receive a high school diploma until their class graduates will be considered for admission based on the criteria under Regular Admission from High School. The applicant's high school principal or counselor must certify that graduation requirements have been met and written parental approval is required.

Dual High School-University Enrollment

Superior high school students may be admitted in a special student category for the purpose of taking one or two University courses concurrently with their final year or two of high school.

Students must submit Visiting High School Student applications that include high school recommendations. Students are admitted on the basis of academic standards that exceed those required for admission from high school. Admissions are limited and governed by space available in and prerequisites for the desired course or courses.

Trial Admission

High school graduates who do not meet the standards for regular admission from high school may, in some cases, be admitted to the University on a conditional trial basis. The student must earn a 2.0 grade-point average to be eligible to enroll the following semester.

Students who do not meet the core requirements for admission, in some cases, may also be admitted conditionally once they provide evidence of enrollment in the coursework needed. Students can choose from several options during their senior year in high school or the summer before their freshman year to gain regular admission.

UMKC encourages students to choose one of the following options to fulfill the core requirements:

- Take coursework in the required area at UMKC during the summer prior to the fall semester of their freshman year.
- Enroll in college-level coursework in the required area at an accredited community college or four-year institution.
- Complete the required coursework through correspondence or independent study.

Dual Credit Course Transferability

The University of Missouri assures the transfer of five courses taken as dual credit in high school delivered by institutions that are listed by the CBHE as being in compliance with the dual credit policy. Dual credit courses are defined as courses taken for both college and high school credit that were delivered in a high school by a high school teacher. The transferability of more than five dual credit courses will be evaluated on a course-by-course basis. There will be no limit on the number of courses that are accepted in transfer. This is consistent with the policy of the CBHE, stated in the *Credit Transfer: Guidelines for Student Transfer and Articulation Among Missouri Colleges and Universities*, for students who request to transfer credit without completing a two-year degree or being certified as completing a general

education curriculum.

GED High School

Any individual may apply for admission on the basis of passing the General Educational Development (GED) tests after the individual's high school class has graduated. Passing scores must be achieved in each area of the GED. The student also is required to present an ACT composite score of 24. Students not meeting this criteria may be considered for a trial admission.

Special Admission from Accredited High Schools

Graduates of accredited high schools that do not provide class rank are required to have a minimum ACT composite score of 24 and completion of the 17 units of college-preparatory curriculum. Students not meeting this criteria may be considered for a trial admission.

Home Schooled

Graduates of home schooled programs are required to have a minimum ACT composite score of 24 and completion of the 17 units of college-preparatory curriculum. Students not meeting this criteria may be considered for a trial admission.

Application for Admission

Qualified students seeking admission must submit:

1. Completed application form at the
 - o online site at <http://www.umkc.edu/admissions> by clicking on "Apply Now" and creating an account
 - or- from the
 - o download site at <http://onestop.umkc.edu/forms.cfm>

A nonrefundable application fee of \$35 (domestic) or \$50 (international) is required in either case.

2. High school transcripts with class rank (if applicant has fewer than 24 transfer college hours).
3. Official transcripts from each previous institution attended.
4. ACT score (if applicant has fewer than 24 transfer college hours).

Note: Certain academic programs require additional supporting documentation.

Transfer Admission

Students who have completed 24 or more semester hours of college-level work are eligible for admission if they have attained an overall grade-point average (GPA) of at least 2.0 (on a 4.0 scale) in all college-level courses attempted at previous institutions.

Note: Academic units may have more stringent requirements. Check the section of the catalog that describes the degree you are seeking.

A. Regular Admission

Students transferring from other colleges or universities should submit the following to the Office of Admissions:

1. Completed UMKC application form at <http://www.umkc.edu/admissions/decision.asp> with nonrefundable \$35 (domestic) or \$50 (international) application fee. /li>
2. Official transcripts from all colleges and universities attended.

A transferring student who has completed fewer than 24 hours of college-level coursework must apply under the procedures for admission as a freshman and must have at least a 2.0 overall GPA in all college work attempted. These students must submit the following to the Office of Admissions:

1. High school transcript with class rank and ACT score (if less than 24 college credits).
2. Official transcript of all college courses completed and courses in which the student is currently enrolled.

B. Special Admission

Students from other colleges or universities of recognized standing who do not have a 2.0 GPA may be admitted upon special petition to the Office of Admissions, provided the admission is approved by the academic unit.

C. Transfer Within the University of Missouri System

For students transferring between campuses of the University of Missouri System, the following University of Missouri policy is applicable: "Any course that leads to an undergraduate degree on any campus of the University of Missouri shall be accepted in transfer toward the same degree on each campus of the University offering said degree."

For each student of the University, there will be calculated two cumulative grade-point averages. One is the campus GPA that will be calculated by procedures defined at the campus. The second is the University of Missouri GPA, which will include all grades and credits attempted at any University of Missouri campus, including all grades, credits and points for any courses that are repeated.

Any student attempting to transfer between University of Missouri campuses to UMKC should be aware that their cumulative University of Missouri GPA will be used to determine their admissibility.

D. Transfer of College Credit from Other Colleges and Universities

Refer to the [General Undergraduate Academic Regulations and Information](#) section of the catalog. Students who have completed an associate of arts (A.A.) degree from a Missouri college oriented toward a baccalaureate degree and have a cumulative GPA of 2.0 (on a 4.0 scale) are admissible to the University, but not necessarily to specific programs. For the additional admission requirements of specific degree programs, refer to the appropriate sections of the catalog.

An associate of science (A.S.) degree is a specialized degree and students should consult the specific degree program in which they are interested or the Office of Admissions to determine their admissibility and the transfer of credit.

Midwest Student Exchange Program

The Midwest Student Exchange Program (MSEP) is an interstate initiative established by the Midwestern Higher Education Commission to increase educational opportunities for students in its member states. This program enables residents of Wisconsin, Kansas, Michigan, Minnesota, Missouri, Nebraska and North Dakota to enroll in designated institutions and selected programs at reduced tuition levels outside of their home state.

Metro Rate

The Metro Rate is a program benefiting undergraduate, non-professional students who are legal residents of Johnson, Leavenworth, Miami or Wyandotte counties in Kansas. These students will be assessed educational fees equivalent to those of a Missouri resident (the "in-state" rate). Questions about the Metro Rate may be directed to the Office of Admissions.

Former Student Readmission

General

Former students who have not attended another institution since leaving UMKC and who were in good academic standing at the time they left, may be eligible to return to UMKC by completing a Request to Re-Enroll Form. Students should contact the Office of Admissions at (816) 235-**1111** to determine if they may re-enter without reapplication and to obtain the appropriate form.

Other former students who wish to return to UMKC must apply for readmission. In general, the current policies for admission from other colleges and universities as outlined above apply to the readmission of students who formerly attended the University of Kansas City or UMKC.

Academic Amnesty Policy and Procedures

See the Policy section in the Appendix of this catalog.

Applicability of Previous Catalogs

Current admission requirements as outlined previously will apply to applicants for readmission. Fulfillment of the general degree requirements in effect at the time of original admission may be selected by readmitted undergraduate students instead of current ones, provided not more than one calendar year plus one term has elapsed since the last enrollment at UMKC and that they have not interrupted UMKC work by completing 12 or more semester hours at another college or university.

Visiting and Community Student Admission

Students from other institutions who wish to attend UMKC to transfer courses back to their home institutions may be admitted as Visiting Students for a term. Students are encouraged to check with officials at their home institution to guarantee that UMKC courses are transferable and fulfill their program's degree requirements.

Students who are members of the community and who do not wish to earn a degree at UMKC, but are not currently seeking a degree at another institution, may apply as Community Students.

Students may obtain a Visiting/Community Student Application form at <http://www.umkc.edu/admissions/decision.asp> or from the Office of Admissions. Not all academic programs are open to visiting/community students. Some academic units require that the non-degree seeking student be certified by the home institution as a student in good standing. Consult the application for specific program and course eligibility.

Policy on Admission Credentials

All credentials submitted in support of the application for admission become the property of UMKC.

Timing of Applications

The Office of Admissions will begin accepting admission applications Sept. 1 of the year preceding the Fall Semester for which the student is applying. High school seniors will be evaluated on the basis of six or more completed semesters of high school work.

Dates of Application

The preferred dates for admission application from high school are as follows:

Fall Semester:	April 1
Spring Semester:	Nov. 1
Summer Session:	May 1

However, applicants are urged to apply well before the above dates. To be considered for scholarships, students should be admitted by **March 1**. Some academic units have earlier deadlines. Refer to those sections of the catalog.

Six-Year Med Program

Students interested in applying to the Six-Year Medical Program should refer to the School of Medicine Timetable for Applying to get information on application deadlines.

PharmD. Program

Students interested in applying to the PharmD. program, should refer to the School of Pharmacy PharmD. Admission Page to get information on application deadlines.

Policies on Regular Admission - Medicine

General

The School of Medicine's Council on Selection carefully reviews applicants to the six-year combined baccalaureate/M.D. program. Academic potential, as evidenced by the quality of high school courses, rank in class and admission test scores, and personal qualities such as leadership in school or community, stamina, reliability, motivation for medicine and range of interests, are considered. Applicants who appear to be well qualified are invited to the UMKC campus for interviews. If invited, the applicants are notified in writing and required to be present at the scheduled date and time of the interviews. Residency in Missouri will be considered before all other factors in selecting students for this program. (See the School of Medicine section of the catalog for complete details.)

Admissions Test - Medical Program

The American College Testing Program, called the ACT, examination is required for all in-state applicants. The Scholastic Aptitude Test, called the SAT, is accepted for out-of-state applicants in some instances.

Deadline for Application - Medical Program

The deadline for application for Year 1 is Nov. 1 of the year preceding the one for which the student is applying. By this date, a completed application form must be received, and all other required credentials, application supplements, test scores, references and six-semester high school transcript, should be in process and sent as soon as possible. The earliest date for applying is Aug. 1 of the year preceding entry.

Other Requirements - Medical Program

An advance deposit of \$100 is required on acceptance.

Policies on Admission of International Students

General Admission Policies

International students are expected to meet the requirements for admission from secondary schools or from other colleges and universities as outlined below.

Students from secondary schools are expected to have a satisfactory secondary school record of a B grade or equivalent and proof of adequate English proficiency, as well as a written statement of purpose.

International transfer students from other colleges or universities of recognized standing must have above-average grades in all previous college study. Only credit appropriate to the curricula at this institution will be accepted toward a degree. Students transferring from other institutions in the United States must submit the International Transfer Form or other evidence of release from the previous program by their former foreign-student advisers and the equivalent of one semester's work at those institutions before admission will be granted.

An official statement of finances indicating sufficient funds available to meet all educational and other fees and living expenses for the duration of the studies is required.

Policies on admission from other colleges and universities as stated elsewhere will be applied. A \$50 application fee for new/renewal applicants is required. The application fees are non-refundable.

Priority Deadline for Application for Admission - International

UMKC generally follows a "rolling admissions" policy: i.e., admission action is taken as soon as the application file is complete. All international students should apply for admission (this includes taking all necessary tests and filing all required application forms and academic records) by the following priority deadlines:

Fall Semester: April 1*
Spring Semester: Oct. 1*
Summer Session: April 1*

*For application for assistantships, scholarships, etc., the priority deadline is Feb. 1. Several academic units have

different deadlines as outlined in the current admission application materials.

UMKC reserves the right to consider applicants for the most appropriate semester.

Required Academic Records - International

Students must provide complete and official certificates of all degrees, diplomas, mark sheets, grade reports and examination records. All materials must be in English. Secondary-school records must be submitted as well as college/university transcripts or credentials. All previous undergraduate work must include syllabi of courses taken with literal translations.

English Proficiency Requirement

International students are required to establish proof of adequate English proficiency as part of the admission process.

Applicants from countries in which English is not the native language (or if it is one of the official languages but is not necessarily the first language of the majority of the population) are required to present satisfactory *Test of English as Foreign Language* (TOEFL) scores to satisfy this requirement. The minimum score is 500/173 CBT (Computer Based Test). Exceptions to this policy:

1. Non-native speakers from post-secondary institutions in English-speaking countries [e.g., the United States, Antigua, Australia, Bahamas, Barbados, Barbuda, Belize, Canada, Dominica, Fiji, Gambia, Ghana, Guyana, Ireland, Jamaica, Liberia, Maritius, New Zealand, Papua New Guinea, Sierra Leone, Solomon Islands, South Africa, St. Christopher (St. Kitts), St. Lucia, St. Vincent, Tobago, Trinidad, Uganda, United Kingdom (England, Scotland, Wales, and Northern Ireland), Zambia and Zimbabwe, provided they have spent a minimum of two years in successful full-time study, and English was the medium of instruction.
2. Permanent residents who have resided in the United States for two or more years.
3. In lieu of TOEFL, UMKC accepts the placement recommendations of the ELS Language Centers.

Other Admission Policies - International

Credit by Examination/Transfer Credit

For information on UMKC credit by examination policy, the transfer credit policy and course equivalency tables, the student is referred to the International Student Affairs Web site (<http://www.umkc.edu/isao>).

Extended Offer of Admission

An offer of admission, granted on a regular basis for a given term, may be extended for up to one calendar year from the term first granted. However, if the applicant attends another college or university after the original offer of admission, a new application must be submitted and official transcripts of the additional work must be furnished.

Applicants must request such an extended offer and for a specific term by contacting the International Student Affairs Office. This request should be made in writing well in advance of the term desired. Individual financial support documentation must be renewed annually.

Provisional Admission - International

The International Student Affairs Office is authorized by certain academic units to admit on a provisional admission basis when certain applicants have not been enrolled at UMKC before. This category of admission is designed for use just before a given term pending receipt of credentials and the determination of eligibility for regular admission.

Conditional Admission

Students with **no TOEFL** or **low TOEFL** may be considered for admission to certain academic programs. Contact the International Student Affairs Office.

Post-Bachelor's Classification-International

If international students do not want to work toward an advanced degree or are ineligible for graduate-level credit, they may be considered for admission as bachelor's degree students if they file credentials with the International Student Affairs Office that indicate an undergraduate degree has been earned from an accredited institution. Students may take undergraduate-level courses numbered 300 or 400 for undergraduate credit while in that status, but they may not enroll in courses numbered 500 or higher. In general, the previously outlined policies for admission of transfer students are applicable.

Exceptions - International

Exceptions to admission policies must be approved by the appropriate authority in the college or school to which the students are applying. The International Student Affairs Office should be contacted regarding forms and procedures.

Registration with International Student Adviser

Admitted international students must first report to the Office of the International Student Affairs prior to their first registration at UMKC. Once admitted, international students must show proper and regular progress toward their degrees.

Health Insurance

At each registration session, international students must present health insurance containing repatriation and medical evacuation. Effective fall 1998, international students are required to purchase exclusive, mandatory UMKC health insurance.

English Proficiency Evaluation

All international students subject to the TOEFL requirement are required to be evaluated (unless they have scored 600/CBT 250 or higher) by the Applied Language Institute staff at UMKC regarding the level of their English proficiency. If any weakness in that level of proficiency is revealed, appropriate coursework will be required to assure that the student's success is not jeopardized.

Freshman Admission

Regular Admission from High School

Admission to UMKC is designed to reflect a student's probable success at the University. Since fall 1997, UMKC has admitted students according to the Missouri Coordinating Board for Higher Education's (CBHE) category of "selective institution." Selective institutions admit first-time, full-time degree-seeking students and transfer students who have completed 24 or fewer credit hours, who attain a combined percentile score, resulting from the addition of their high school percentile rank and the percentile rank attained on a national normalized test, i.e. ACT or SAT, which equals or exceeds 120 points. Students achieving a score of 24 or better on the ACT College Entrance Examination, or its equivalent on the SAT, are automatically admitted to selective institutions.

The required ACT/class rank combinations are as follows:

HSCR P	ACT Composite Standard Score	SAT V & M Standard Score
94 and above	17	800-830
86-93	18	840-880
78-85	19	890-920
69-77	20	930-960
62-68	21	970-1000
54-61	22	1010-1040
48-53	23	1050-1090
47 and below	24	1100 or higher

Admitted students are expected to have followed a college-preparatory curriculum that includes at least 17 units of credit (with each unit equaling one year in class), as follows:

- Four units of English, one of which may be in speech or debate (two units emphasizing composition or writing skills are required).
- Four units of mathematics (Algebra I or higher). This requirement may be satisfied by the completion of courses in middle school, junior high or senior high.
- Three units of science (not including General Science). The three units of science must include a laboratory course and must include units from at least two of the following areas: physical science, biology, physics, chemistry and earth sciences. This requirement may be satisfied by the completion of courses in middle school, junior high or senior high.
- Three units of social studies.
- One unit of fine arts, to be taken in visual arts, music (e.g., band, orchestra, music appreciation, music theory), dance or theater.
- Two units of a single foreign language or American sign language. This requirement may be satisfied by completion of courses in middle school, junior high or senior high.

Admission Enhancement Policy

Any student attending a Missouri high school who ranks in the top 10 percent of his or her graduating class and completes the college preparatory curriculum which includes at least 17 units of credit (four units of English, four units of math, three units of social studies, three units of science, two units of foreign language and one unit of fine art), will be eligible for automatic admission to any of the University of Missouri campuses. An ACT/SAT score is required to be submitted by each student who applies to the University.

Further, any student who graduates from a school that does not rank its graduates, but who has taken a college preparatory curriculum which includes the 17 units of credit noted above and who achieves a 3.5 GPA on a 4.0 scale in these core courses will be eligible for automatic admission to any of the University of Missouri campuses. Again, an ACT/SAT score has to be submitted by each student who applies to the University.

The University seeks a heterogeneous body reflecting diversity of race, ethnicity, age, geography (national and international) and physical ability. Factors given prime consideration for admission to undergraduate study are an applicant's previous academic success and the quality of the record submitted. Applicants who do not meet the criteria set forth above may be considered by applying to the director of admissions. Additional factors include:

- Extensive extracurricular activity involving school, church or community.
- Outstanding talent and/or ability.
- Number and scope of college preparatory courses.
- Evidence of marked improvement over time in the applicant's high school academic record.
- Significant work experience and/or family responsibilities.
- Supporting evidence in the form of an essay attesting to one or more of the above, written by the student.

Additional Requirements

Applicants for the Conservatory of Music, Engineering programs, School of Pharmacy and baccalaureate/M.D combined programs should consult the appropriate sections of this catalog for additional requirements.

Application Forms

Online Application Forms on the Web

Online application forms for

- Undergraduate Students
- Transfer Students
- Graduate Students (Masters, D.M.A. and Counseling Psychology Ph.D.)
- International Students
- Visiting Students
- MD only

can be accessed by clicking on "Apply Now" and creating an account at <http://www.umkc.edu/admissions>.

Academic Calendar/Semester Hours

The University operates on the semester system with the academic year divided into the Fall and Spring semesters. Fall semesters start in August and end in December. Spring semesters begin in January and end in May. Summer terms vary in length during the months of June and July. Courses are occasionally offered during the periods between terms, in January, May and August, and these periods are called intersessions.

The unit of credit is the semester hour which represents a subject pursued one period weekly for one semester of approximately 16 weeks or for a total of approximately 16 periods for one term of any length. Normally, the lecture or recitation period is 50 minutes long and the laboratory/studio period is one hour and 50 minutes long. The typical class carries three semester hours of credit.

Please refer to <http://www.umkc.edu/registrar/acal.asp> for the most up-to-date academic calendar.

Transcripts

Official transcripts are issued only to other educational institutions, employers, state departments of education and similar agencies. Transcripts are issued at the written request or authorization of students. Students may secure a transcript of their UMKC permanent academic records from the UMKC Records Office. Transcripts stamped "Issued to Student" are not considered official by UMKC. Partial transcripts of permanent academic records which contain only a portion of the courses completed at UMKC are not issued. No transcript may be issued to or for students who are indebted to the University until the debt has been cleared.

Registration & Records Office

The Registration & Records Office (Web site <http://www.umkc.edu/registrar>) maintains all official academic student records. Additional responsibilities of this office include scheduling of classrooms, certifying student academic information, evaluating domestic transfer work, and reporting enrollment statistics to state and federal agencies. The Registration & Records Office, in cooperation with the academic units on campus, assumes the responsibility for monitoring and enforcing academic policies and regulations.

This section contains information on the general UMKC academic policies that apply to all undergraduate students. The faculties of the academic units may have more specific rules and requirements. Students are required to learn and abide by the policies of their academic unit in addition to the general policies.

Classification of Students/Student Levels

Undergraduate students are classified by the number of semester hours completed at the beginning of each semester. A student with:

- Fewer than 30 credit hours completed is classified as a freshman.
- Fewer than 60 but at least 30 credit hours completed is classified as a sophomore.
- Fewer than 90 but at least 60 credit hours completed is classified as a junior.
- At least 90 credit hours completed is classified as a senior.

A student who has completed a bachelor's degree and enrolls for undergraduate credit will be classified as a senior.

Privacy Rights

UMKC complies with the Family Educational Rights and Privacy Act (FERPA), which governs the release of student academic records. Student academic records are considered confidential between the student and the University, and will not be released to a third party without the written consent of the student except as provided within FERPA and UMKC policy. (For a detailed explanation, see Policy on Student Records in the Policy Section of the Appendices.)

Certain information about students is considered directory information and directory information may be released to anyone without a student's signed written consent unless the student submits a written request to restrict release of directory information. All students will be listed by name with address, e-mail and telephone number in a student directory which may be in electronic format. If release of information is restricted, a student's name and related information will be excluded from the student directory. Directory information restrictions may take up to 15 working days to process after the request is submitted by the student. All students' names will be printed in the commencement program regardless of the directory information restriction.

Course Numbering

Courses are numbered according to the following plan:

0000-0099	Remedial Courses (No college credit)
0100-0299	Lower Level Undergraduate Courses
0300-0499	Upper Level Undergraduate Courses (Some upper level courses may be taken for graduate credit)
0500-2999	Currently Not Used
3000-4999	Dental Hygiene Undergraduate Courses
5000-5999	Graduate Level Courses
6000-6999	School of Dentistry Courses
7000-7999	School of Pharmacy Courses
8000-8999	School of Law Courses
9000-9999	School of Medicine Courses

Academic Loads, Full- and Part-Time Status

Normal Academic Load

A normal academic load for undergraduate students during the Fall and Spring semesters is 15 credit hours. For Summer sessions, the normal load is 8 semester hours.

Full-Time Load

Undergraduate students enrolled in 12 or more credit hours of coursework are considered full-time students. For Summer sessions, six or more hours constitute full-time enrollment. The designation of full-time is for academic purposes only and does not apply to assessment of fees.

Overloads

Undergraduate registration in more than 17 semester hours must be approved by the academic unit. For Summer sessions, approval is required for programs of 9 or more semester hours.

Restricted Loads

Limitations on the size of academic load for which students register may be imposed by the dean or faculty adviser. Students on probation generally are required to restrict their academic programs to a minimal full-time load until they have returned to good standing.

Financial Aid - Summer Term - Academic Load Requirements:

Undergraduate degree seeking students who are enrolled in the summer term are required to be enrolled in a minimum of 6 hours in order to be considered half-time for loan eligibility in the Financial Aid & Scholarships Office and for loan deferment reporting to the National Student Clearinghouse.

Transfer and External Sources of Credit

Transfer and External Sources of Credit

Transfer students should refer to the policies and procedures outlined in the Undergraduate Admissions section of the catalog when seeking admission to the University. UMKC accepts credit in transfer from regionally accredited institutions of recognized standing, both public and private. It also awards credit through examination programs as described in the Credit by Examination section of the catalog.

The Registration & Records Office applies established guidelines and precedents in determining transfer course equivalencies and applicability, as listed below. A student's academic unit is responsible for all final decisions on the applicability of transfer coursework, and must review and approve any exceptions that may be made for an individual student.

Transfer credit is evaluated and posted according to the following general guidelines:

- *All undergraduate college coursework attempted* at accredited institutions will be recorded on the UMKC transcript of students seeking an undergraduate degree, regardless of whether or not it is applicable to a UMKC degree. Credit accepted from another institution may or may not be applicable to specific degree programs. The University reserves the right to make the decision regarding applicability.
- Courses that are *remedial, preparatory or non-college-level* will not be added to the total hours or used to satisfy degree requirements. The Registrar's Office will refer to the transcript key or catalog of the sending institution in making a determination as to the level or purpose of the course in question.
- Transferred courses will be considered upper-division (junior-senior level) and count toward the total number of *upper-division hours* required if they are earned at a four-year institution and designated by that institution's course numbering system as upper division courses.
- A transferred course will retain the *original number of credit hours* for which it was taken at the previous institution, even if the equivalent UMKC course is worth a different number of hours.
- Courses transferred from institutions which award *quarter hours* will be converted into semester hours at the rate of 1 quarter hour = 2/3 semester hour.
- In general, courses with a grade of *D or higher* will receive full credit in transfer. For some degree programs, a course with a grade of D may not be used to satisfy specific requirements. A transfer student would be required to repeat a specified course on the same basis as a "native" UMKC student who earned a D in the equivalent course.
- Coursework of *any age* will be accepted in transfer to satisfy general education requirements and electives. If transfer credit is more than 15 years old, or of a specific technical or scientific nature, students may be required to repeat courses that are part of a major or field concentration. Individual UMKC academic units may impose more restrictive coursework age requirements.
- Non-University of Missouri System *grades and grade points* do not transfer, although the grades earned in transfer courses are printed on the transcript. An admission grade-point average that considers all attempted coursework is computed at the time of application, and an overall GPA will be computed at any time a student applies for admission to a more selective program within the University. The UMKC transcript reflects the total number of accepted hours earned from all sources, but only calculates the UMKC/UM grade-point average. Students transferring into UMKC with a certified core should see the appropriate School or College section of this catalog for requirements beyond the core to complete a specific baccalaureate degree.

Transferring Within the University of Missouri System

University of Missouri Policy states that "*Any course that leads to an undergraduate degree on any campus of the University of Missouri shall be accepted in transfer toward the same degree on each campus of the University offering said degree.*" Students transferring within the UM system are still required to satisfy the course and residency requirements of the campus from which they wish to graduate. Grades, including D and F grades, and grade points earned will also transfer and be included in the cumulative UM grade-point average.

Transferring from a Community or Junior College

The University of Missouri-Kansas City abides by the Coordinating Board of Higher Education articulation agreement between Missouri public institutions. The agreement with CBHE states that *students who have earned an associate of arts degree from a Missouri institution that requires, at minimum, the general education core outlined by the CBHE, and a 2.0 GPA, will be admitted with junior standing and considered to have completed the lower-division general education requirements.* This does not exempt the student from meeting the requirement for foreign language or any specialized lower-division degree requirements specified by the academic unit. Particular programs within the University require a higher GPA and/or specific prerequisite courses to be completed before admission.

Courses taken at a community or junior college not culminating in an associate's degree, courses taken at a community or junior college beyond the associate's degree, and courses/degrees transferred from an institution outside the State of Missouri without an articulation agreement with UMKC will be evaluated for applicability to any particular degree program on a *course-by-course basis*. Regardless of the number of hours transferred from a community or junior college, at least the final 30 hours must be earned at UMKC.

Credit by Examination

UMKC offers superior students options to enhance or accelerate their academic programs through credit by examination. Students may earn college credit by demonstrating sufficient knowledge or proficiency in a certain area. The Registration and Records Office can provide more detailed information regarding the specific exams accepted and scores required. Students may earn up to 30 semester hours of credit through the following options:

- *Advanced Placement (AP)* examinations may count for UMKC degree credit if the exam and score are acceptable. (Note: UMKC awards credit for specific scores on certain Advanced Placement exams, administered by the College Entrance Exam Board, not simply for enrollment in advanced placement courses at the high school level. Credit cannot be determined from high school or previous college transcripts.)
- *International Baccalaureate (IB)* examinations are tests taken as the culmination of a special high school study program. Several of the Higher Level exams count for credit if the score earned is a 5 or higher.
- *College Level Examination Program (CLEP)* exams are acceptable for credit in certain areas of study. UMKC accepts only the CLEP Subject Exams. Not all subjects are accepted. Credit is not given for any CLEP General examination. No CLEP Subject Exam may be taken in the final 30 hours of coursework leading to a degree.

See <http://www.umkc.edu/registrar/creditbyexam.asp> for information on minimum scores needed on each exam to earn credit.

Credit by Departmental Examination may be earned if a student has previous knowledge or proficiency in an area of study and arranges to take a departmentally administered examination. The department involved must be willing to offer a test that measures the same level of proficiency as is required to earn credit for enrollment in the course. Frequently this is the final exam for the course. Before taking a departmental examination, students must register in the Registration and Records office and obtain a Credit by Departmental Examination form. The charge for attempting credit by departmental exam is equal to 1 credit hour.

Eligibility for credit by departmental examination requires:

1. Enrollment at UMKC in the semester in which the examination is administered.
2. No enrollment in the course that is subject of the examination during the last three terms.
3. Achieve a grade of C or above on the examination in order to receive credit.

Correspondence and Extension Credit

A maximum of 12 semester hours of correspondence or extension work from an accredited institution will be accepted in transfer provided the work parallels UMKC's offerings. Up to 30 hours of distance learning credit may be used to satisfy degree requirements subject to approval by the undergraduate student's academic unit.

Credit for Military Training

Students who have served in the armed forces may be eligible to receive college credit for courses completed through the military or occupational specialty training. The American Council of Education recommendations in *A Guide to the Evaluation of Educational Experiences in the Armed Services* generally serve as a basis for granting such credit. To count toward a degree, the credit recommended must be appropriate to the student's curriculum. UMKC does not grant credit for military science or for courses that are strictly military/vocational in content.

Missouri Higher Education Articulation Agreement

The Missouri Coordinating Board for Higher Education (CBHE) has adopted statewide general education goals to facilitate transfer among Missouri institutions of higher education. To that end, signatory schools have selected courses to meet these goals and to fit within the CBHE's 42-credit-hour core of general education.

With completion of this "core" noted on their transcripts, students may transfer to participating Missouri colleges and universities, and this 42 credit general education core will be accepted as equivalent to the receiving institution's 42-credit core. Institutions may require transfer students to complete additional general education requirements beyond the 42-hour core when these requirements are also required of their native students.

When UMKC students planning to transfer to another Missouri institution complete the 42 hour transferable core, they may go to the advising and student services offices in their academic units to apply for certification of completion of the general education core. Once completion of the core is verified, a statement will appear on the student's transcript. A student should apply for certification well in advance of requesting a transcript be sent to another Missouri institution.

Please note that the CBHE core may not be as specific as the general education requirements for baccalaureate degrees at any particular institution. Students who intend to complete their degrees at UMKC must complete the general education requirements of the specific bachelor's degree they wish to earn. Similarly, students transferring to UMKC whose transcripts do not certify their completion of the core at another institution must complete all the general education requirements of the UMKC degree they wish to earn.

Below are the UMKC courses students may elect to take if they wish to complete the 42 credit hour transferable core prior to transferring to another Missouri institution:

1. Communicating (9 credit hours)

To develop students' effective use of the English language and quantitative and other symbolic systems essential to their success in school and in the world.

1. Writing and Critical Analysis: Students must satisfactorily complete ENGLISH 110 and 225. In addition, students must pass the Written English Proficiency Test (WEPT) or satisfactorily complete ENGLISH 299. A student earning a score of 30 or better on the ACT English subtest or 690 or better on the SAT Verbal, may be exempt from the English 110 requirement.
2. Oral Augmentation/Speech. Students must satisfactorily complete COMM-ST 110.

2. Higher Order Thinking, Managing Information and Valuing (6 credit hours)

To develop students' ability to distinguish among opinions, facts, and inferences. Students must successfully complete 6 hours from at least two different fields, chosen from the following list:

- o PHILOS 210 or 222
- o HISTORY 201, 202, 206 or 208
- o ANTHRO 103
- o SOCIOL 103
- o COMP-SCI 100 or above
- o MATH 160 or above

These courses, in addition to the remainder of the general education block of 42 hours, satisfy the three skill area goals of Higher Order Thinking, Managing Information and Valuing.

3. Social and Behavioral Sciences (9 credit hours)

To develop students' understanding of themselves and the world around them through study of content and the processes used by historians and social and behavioral scientists to discover, describe, explain and predict human behavior and social systems.

1. Constitution course chosen from: HISTORY 101 or 102 or 360R or POL-SCI 210
2. Six additional credit hours from at least one field other than above, chosen from Economics, History, Political Science, Psychology, Sociology, Social Science, Geography or Criminal Justice

4. Humanities and Fine Arts (6 credit hours)

To develop students' understanding of the ways in which humans have addressed their condition through imaginative work in the humanities and fine arts.

1. One 3 credit hour course chosen from English, Communication Studies, Foreign Language or Philosophy
2. One 3 credit hour course chosen from Art/Art History, Conservatory or Theatre.
5. Mathematics (3 credit hours)
To develop students' understanding of fundamental mathematical concepts and their applications.
MATH 110 or higher (including MATH 116)
6. Life and Physical Sciences (8 credit hours)
To develop students' understanding of the principles and laboratory procedures of life and physical sciences and to cultivate their abilities to apply the empirical methods of scientific inquiry.
One Life Science and one Physical Science, to include at least one laboratory component.
7. Total General Education Core Credit Hours
One additional credit hour from any of the above areas to total 42 hours.
Students should consult with advisers in their primary academic unit to determine which additional courses may be used as alternatives to satisfy the General Education Core.

Registration

Registration (Adds, Drops, Withdrawals)

Eligible students may register during the registration period that is announced in Pathway, the Registration Quick Guide and via UMKC e-mail. Students who are not registered will not receive academic credit and cannot attend classes. All registration and changes in registration must be processed by the [UMKC Registration and Records Office](#) either in person or using an approved electronic format such as Pathway.

A class schedule is published prior to each semester in Pathway and lists courses offered, meeting times and locations. The University reserves the right to cancel without notice any course listed in the schedule for any semester, or to withdraw any course that does not have adequate enrollment at the close of the registration period.

Concurrent Enrollment

Students may not earn and apply degree credit from another college or university at the same time as earning degree credit at UMKC *except with the prior approval* of the UMKC academic unit involved. Notification of this exception when approved by the academic unit must be forwarded to the UMKC Registration & Records Office.

Additions

Students who want to add a class to their official term registration may do so at any time through the first week of classes. Those students who are not authorized to self-advise will have an advising hold in Pathway and must obtain the approval of their academic unit prior to adding classes.

Withdrawals

Students may withdraw from a course at any time between initial registration and the end of the 12th week of classes (fall and spring semesters). Students who are not authorized to self-advise must have the approval of the academic unit. After the eighth week, undergraduate students will be assessed academically and, if they are failing at the time of withdrawal, they will be given a grade of WF (withdrawn failing) at the discretion of the faculty member. A WF is calculated in the grade-point average the same as a grade of F.

Official Withdrawals

Official withdrawals can be done by mail when a student is unable to appear in person (for example, if you are out of town or suffering from an illness or accident) or if the Registration Office is closed or Pathway is down (for example, during a power outage) and you wish to receive a certain refund. The postmark on the envelope is used as the refund date.

Total Withdrawals

Students wishing to withdraw from all of their classes must complete an exit interview questionnaire available at <https://www.umkc.edu/stu-aff/exit/login.cfm>. If you received financial aid for the Summer/Fall 2008 semester you may be required to pay back all or a portion of the aid you received

Actions that are not considered official notification of withdrawal

- Assuming classes will be cancelled for nonpayment.
- Failure to attend class.
- Giving notice to an instructor.
- Stopping payment on a check used to pay fees.
- Crossing out courses on a schedule.
- Returning only partial payment to the Cashier's Office.
- Verbal notice to any University office or employee.

Total Withdrawals

Students who withdraw from the University by dropping all hours during any given semester and who are receiving financial aid must contact the Student Loan and Accounting Office before withdrawal can be completed. Students must officially withdraw through the Registrar's Office. Failure to pay fees, failure to receive or refuse financial aid, giving notice to an instructor, or failure to attend class does not constitute an official withdrawal from UMKC.

Cancellation of Enrollment for Financial Delinquency

Classes are not automatically cancelled for non-payment. It is the responsibility of all students to withdraw from classes if they will not be attending the semester. If a student withdraws from classes, he or she may still owe the University full or partial fees in accordance with the UMKC fee refund policy. A minimum payment is required by the first payment deadline regardless of when a student registers in courses for a given semester. Pending financial aid and scholarships do not constitute a minimum payment of fees if an outstanding balance remains. If anticipated financial aid is not received or is not sufficient to cover charges, the student remains responsible for all or remaining charges incurred for the semester.

Grading Options and Auditing Courses

Grading Options and Auditing Courses

Auditing a Course

A student must obtain the consent of the instructor in order to audit a course. Courses that ordinarily may not be audited are studio courses in art, performance courses in the Department of Communication Studies and laboratory courses in the sciences.

A student registered in a course for audit is expected to attend class. Therefore, an auditor may be administratively withdrawn from a course when, in the judgement of the instructor and upon approval by the dean, the attendance record justifies such action.

Change from Audit to Credit

Students may change status in a course from audit to credit during the first week of the term provided they have approval of the faculty and academic unit. This change must be initiated in the advising office of the appropriate academic unit and must be completed in the UMKC Registration & Records Office.

Change from Credit to Audit

Students may change their status in a course from credit to audit any time prior to the end of the fourth week of any Fall or Spring semester, or prior to the end of the second week of any summer session. This change must be initiated in the advising office and must be completed in the UMKC Registration & Records Office.

Credit/No Credit Option

Sophomores, juniors and seniors in good standing may elect to take one course per semester on a credit/no credit (CR/NC) basis. The credit/no credit option may not be used for courses in the major nor the minor, nor for courses taken to fulfill the general degree requirements. Students may not elect this option when they are repeating a course.

The credit/no credit option must be elected at the time of initial registration for a term and cannot be changed subsequently. A grade of C- or better must be earned to earn credit; D and F grades receive no credit. Grades of CR or NC do not earn grade points and they do not affect the grade-point average. Courses elected on this option are subject to regular academic regulations, including course load, withdrawal, etc.

The credit/no credit option is not available for students pursuing a bachelor of liberal arts degree.

Grading

The following is the grading and grade-point system at UMKC:

Letter Grade	Description	Points per Semester Hour
A	The highest grade	4.0
A-		3.7
B+		3.3
B	Work of distinction	3.0
B-		2.7
C+		2.3
C	Average work	2.0
C-		1.7
D+		1.3
D	Passing, but unsatisfactory	1.0
D-		0.7
F	Failure without credit	0.0
NR	Not Reported	0.0
WF	Withdrew failing	0.0
W	Withdrew; no	-

	academic assessment	
I	Incomplete	-
AT	Audit	-
CR	Credit only	-
NC	No Credit	-
P	Passing	-
S	Satisfactory	-

In terms prior to and including 1985, any of the above grades might be preceded by an R indicating a repeated course. These grades are not included in either total hours or the grade-point average. (Examples: RC, RD, RF.) Since 1985, all grades, including those in repeated courses, are included in the GPA calculation. For the 1993 Fall Semester, UMKC began using the plus/minus grading system for grades A, B, C, and D. The grade of A+ is valid only for students in the School of Law.

Grade-Point Average

The following minimum grade-point average policy applies to all undergraduate students:

- Students must maintain a 2.0 GPA in their coursework at the University of Missouri.
- Academic units may impose additional grade-point requirements.
- In general, the UM GPA is calculated by dividing the total grade points earned in courses on any UM campus by the total number of graded semester hours attempted. If a course attempted within UM is repeated, the previous hours and grade point remain in the student's GPA. Courses taken credit/no credit, courses earning grades of S, P, I or AT, and courses transferred from non-University of Missouri institutions are not included in the UM GPA calculations.

Incomplete Grades

An instructor may assign the grade of I (incomplete) to students who have been unable to complete the work of the course because of illness or serious reasons beyond their control. An incomplete grade is appropriate only when enough work in the course has been completed for students to finish the remaining work without re-enrolling in the course or attending additional classes. The work must be completed within one calendar year or the incomplete grade will automatically lapse to an F.

Repeated Courses

When undergraduate students repeat courses, they can request to have only the grade for the final attempt used in calculating their GPA. THE COURSE REPEAT POLICY WILL NOT AUTOMATICALLY BE APPLIED TO A STUDENT'S GPA. After completing a retaken course, a student must submit a REQUEST FOR GPA ADJUSTMENT FORM to his/her academic advisor. The recalculation of a student's GPA is reflected only in the calculation of that student's current cumulative GPA and will not retroactively affect calculations for dean's list, graduation and honors, eligibility for financial aid and veterans' benefits and scholarships, athletic eligibility, discounts for insurance, or any other area.

- The GPA recalculation policy is applicable only to undergraduate students who repeat a course in which they earned a D+ or less and in which academic dishonesty was not involved.
- Students can only replace grades if the original and the repeated course are taken at UMKC.
- Repeated courses must be taken Fall 2007 or later.
- Repeated courses may not be taken on a CR/NC basis.
- Original grades cannot be replaced with a 'W', 'WF', 'I', or 'T.'
- No more than 15 semester hours can be dropped from the calculation of a student's GPA by repeating course work.
- Requests approved for GPA recalculation will prefix the original grade with an "R." Transcripts will note that such grades are excluded from GPA calculations.

Refer to the appropriate School or College section of the undergraduate catalog for information on specific rules for course repeats. Some academic units may have more stringent requirements on course repeats.

Academic Standing

Academic Standing

The Dean's List

At the end of each semester the names of full-time undergraduate students ranking in the upper 10 percent of their class for that term are announced and published on the permanent roll known as the dean's list. Students must complete a minimum full-time program of 12 graded hours to qualify for the dean's list. The credit/no credit option may not be used as part of the 12 graded hours. The permanent academic records for qualifying students are annotated to reflect this distinction. Grade reports indicate students who are candidates for the dean's list.

Petitions for Exception to Normal Academic Policy

Students have a right to appeal administrative policies or decisions with which they do not agree. Any such appeals, called Petitions for Exception, must be made in writing and submitted to the appropriate authority in the college or school in which the student is registered.

Academic Amnesty

The academic amnesty policy gives students who did not perform adequately in their undergraduate enrollment at UMKC a second chance to pursue their academic goals. The complete Academic Amnesty policy and procedures are printed in the appendix of the UMKC Undergraduate Catalog.

Academic Probation and Ineligibility

Undergraduate degree-seeking students' academic status is assessed at the end of every term, whether the student is full-time or part-time for that term. A summer session is considered the same as a semester for the purpose of the following regulations:

1. In general, students will be placed on academic probation whenever their official UM grade-point average falls below 2.0 (C average). Some academic units may have a higher grade-point average requirement. First time college freshman admitted to UMKC on the basis of high school records, who have grade-point averages between 1.50 and 1.99 at the end of the first semester of either full- or part-time study will be placed on academic warning. Students on academic warning must achieve an overall 2.0 average by the end of their second semester or be placed on regular probation. After that, they would be subject to the regular probation requirements.
2. Students on academic probation will be restored to good standing whenever the UM grade-point average reaches 2.0 or the GPA level established by their academic units.
3. Students on academic probation must maintain the grade-point average required by their academic units during each subsequent semester or summer session while they are on probation. Otherwise they are ineligible to re-enroll without the approval of the academic units.
4. Students on academic probation must remove themselves from probation within three successive semesters (including the semester in which they originally were placed on probation). Otherwise they are ineligible to re-enroll without the approval of the academic units.
5. Students are responsible for knowing their academic status by referring to Pathway and their permanent transcript.

Graduation

Graduation

Students who anticipate graduating must file an application for graduation before the end of the fourth week of the semester in which they intend to graduate. Commencement is optional and participating in commencement does not mean that a student has graduated. The application for graduation triggers a degree check. The degree check is conducted following the recording of grades for the semester in which the student anticipates graduation. All degree requirements must be fulfilled, including documentation of all requirements in UMKC's Registration & Records Office before the next semester after anticipated graduation begins. Diplomas may be picked up in person in the Registration & Records Office beginning 40 days following the last day of the semester. Diplomas that are not picked up in person will be mailed two weeks after they are initially made available. Replacement and duplicate diplomas can be ordered for a small fee from UMKC Registration & Records Office.

Declaration of Major

Following the completion of 60 credit hours of acceptable college work, students must complete the *Declaration of Major* form from the UMKC's Registration & Records Office and obtain signatures from the designated dean's representative. Students who want to change an officially declared degree program must repeat the declaration process.

Baccalaureate degree-seeking students must fulfill the specific requirements for a degree program as outlined in the appropriate catalog section. Regardless of the number of hours transferred, a minimum of 12 hours in the major field of study must be earned in residence at UMKC. Check with an academic adviser for information on the number of departmental residence hours required for a specific degree program.

Double Major and Double Degree

A *double major* may be earned when a student completes two full majors, generally within the 120 hours required for a single degree. The specific major requirements of each major must be fulfilled. The diploma will indicate both majors. If the two degree programs are administered by different academic units, the major requirements of both academic units, as well as the general education requirements, must be fulfilled, as specified by the department or academic unit responsible for the primary degree. The double major is only available in B.A./B.A. or B.S./B.S. combinations.

A *double degree* may be earned when a student completes a minimum of 150 hours, completing the general education and major requirements for each of two majors. Students who earn a double degree will receive two diplomas simultaneously. If the two degree programs are administered by different academic units, the general degree requirements and major requirements of both academic units must be completed.

The B.A./M.D. *dual degree* program has different requirements and is subject to separate regulations. See the School of Medicine section of this catalog.

Changes in Degree Requirements

The University of Missouri reserves the right at all times to discontinue, modify or otherwise change its degree programs when it determines it is in the best interest of the University. Students have the following options:

- Students who enter as first-time freshmen or transfer students may fulfill the degree requirements in effect at the time of their original admission to their degree program, provided there has not been a lapse in attendance at UMKC of more than one consecutive calendar year plus one term.
- Students accepted into any two-plus-two program (between UMKC and a community college) may fulfill the degree requirements in effect at the time of their original admission to the community college, provided no more than two years have elapsed since that original admission and enrollment has been continuous.
- Students may fulfill degree requirements in effect at the start of their senior year, provided that they have not had a lapse in attendance during the senior year at UMKC of more than one consecutive calendar year plus one term.

Minimum Hours

The general minimum UMKC requirement in semester hours of acceptable college work for an undergraduate degree is 120 semester hours (150 for a double degree). However, a number of undergraduate and first professional degrees have higher minimum requirements as indicated in the specific school's section of this catalog. A minimum of 30 hours must be earned at UMKC, regardless of the number and level of hours earned at another institution.

Assessment Requirements

The University of Missouri Board of Curators, other state entities, and the national college accrediting agency require the University to assess the effectiveness of academic programs. All undergraduate students must take a test of general education and complete a major field assessment prior to being granted a baccalaureate degree. Graduation depends on completion of assessment requirements.

Written English Proficiency Test (WEPT)

Candidates for all baccalaureate degrees must pass the UMKC Written English Proficiency Test *before enrolling in required junior-level writing or writing intensive courses*. Students who register for the required junior-level course without first passing the WEPT may be removed from enrollment or may not receive credit for the course.

The WEPT is given twice each fall and spring semester and once in the summer. The dates of the test appear regularly on the Academic Calendar (www.umkc.edu/registrar/acal.asp). Notification also is posted and announced each semester prior to the test's administration. Students who wish to take the test must register and obtain preparatory materials from the English Department a few days prior to each test administration.

Students should take the test after completing the second required English composition course and after completing 45 hours of credit. Students who have not completed 45 hours will not be allowed to take the test.

Junior-Senior Hours

Undergraduate degree-seeking students are required to earn credit in at least 36 credit hours of coursework numbered 300 and above at UMKC. In the case of transfer credit, the coursework must be numbered as junior-senior level work by the transferring institution.

Residence Requirements

The final 30 consecutive credit hours of coursework must be taken at UMKC. Students must be registered in the College or school in which the degree is awarded. In "Completion Programs" at another institution, the final 30 hours prior to enrollment at the completion program institution must be taken at UMKC.

General Course Requirements

The individual academic unit sections of the catalog are the official sources of details on the general course requirements pertinent to the different degrees.

Time Limit on Degree Credit

Credit over 15 years old at the time of application for graduation may not be applicable to a degree. Such credit may be subject to validation, at the discretion of the school/ department involved, before it can be used to satisfy degree requirements.

Application for Graduation

Written application for graduation is required and should be filed before enrolling in the final 30 credit hours of coursework. Students should turn the graduation application form into their home School or College (Academic Unit). The academic unit will send the graduation application to the Registration & Records Office. The application must be submitted no later than the deadline date published each semester in the on-line UMKC Academic Calendar in order to graduate for that semester.

Graduation with Latin Honors

Undergraduate students who are approved by faculty and who graduate in the top five percent will be awarded their bachelor's degrees with Summa Cum Laude honors. Students in the next 5 percent will be awarded their bachelor's degrees with Magna Cum Laude honors, and students in the next 10 percent will be awarded their bachelor's degrees with Cum Laude honors. M.D., D.D.S., J.D. and Pharm.D. students are eligible to be awarded their degrees with Latin honors as determined by the Dean of their respective schools within the constraints of the Latin honors policy as established by the Faculty Senate.

General Graduate Academic Regulations

The minimum academic regulations and degree requirements for graduate study at UMKC, as outlined in the subsections that follow, have been determined by the UMKC graduate faculty through representation on the Graduate Council and the Committee of Graduate Officers, and apply to all graduate programs. Individual schools and departments may adopt additional and more stringent requirements for admission, retention and degrees that take priority over these minimum regulations. These additional requirements are detailed under the various fields of study in this catalog.

Academic Loads

Full-Time Academic Load Definition for Graduate Students without Assistantship Appointments

Graduate students enrolled in nine or more credits during a regular semester or five credits during a summer session are considered full-time students. All students registered for fewer than those specified totals are classified as part-time students, unless they hold a teaching or research appointment at UMKC. This designation of full time is for academic purposes only and does not apply to assessment of fees or degree program residency requirements.

Full-Time Academic Loads for Graduate Teaching and Graduate Research Assistants (GTAs/GRAs)

Full-time enrollment for students holding graduate teaching assistant or graduate research assistant appointments is six hours in a regular semester or three hours in a summer session. GTAs/GRAs are expected to make normal progress toward their degrees and should enroll in a minimum of six hours per semester (three credits in the summer session). However, GTA/GRA appointees who have completed all required coursework for the degree and who are working full time on research need only enroll for the minimum of three credits.

Note that this policy in no way alters the residency requirements and criteria for doctoral degrees. Further, international students holding GTA/GRA appointments also must abide by requirements of the U.S. Immigration Service and should consult the international student adviser before reducing their course loads.

Special Cases: Requests for GTA/GRA Appointments Greater than Half Time and Requests for Exemption from Social Security Withholding for GTAs/GRAs

GTA/GRA appointments are normally restricted to no more than 20 hours per week (.5 full-time employee). Requests for GTA/GRA appointments greater than .5 FTE must be submitted to the School of Graduate Studies prior to the beginning of the appointment and must be accompanied by a statement from the student's major adviser that the additional work load will neither place the student at risk academically nor impede the student's academic progress.

Graduate students holding GTA/GRA appointments are automatically exempt from Social Security withholding tax as long as they are enrolled in at least six credit hours. If the student's enrollment falls below six credit hours, the student's academic unit may certify his or her eligibility for continued exemption for one of the following two reasons:

- The GRA is a doctoral student working in a research laboratory as a component of the educational requirement and is enrolled in the minimum number of research hours required for doctoral students who have passed comprehensive examinations.
- The GTA or GRA is a graduate student enrolled in fewer than six credit hours because it is the student's exit semester.

Certification forms are available in the School of Graduate Studies office. The form requires signatures from the student's major adviser and the principal graduate adviser of the student's academic unit. After these individuals have signed the form, it must be sent to the School of Graduate Studies for recommendation. The School of Graduate

Studies forwards the completed request to the Payroll Office for final action on the request.

Restricted Academic Loads

Limitation on the size of the academic load for which graduate students can register might be imposed by the dean or faculty adviser. Generally, students on probation are required to restrict the academic program to a minimum full-time load until they have returned to good standing.

Interpretation of Full-Time and Half-Time Status of Graduate Students for Purposes of Certification to Lending/Funding Agencies

To be eligible for certification of *full-time status* as a graduate student by the Registrar's Office, a student must meet at least one of the following conditions:

- Enrollment in nine credit hours.
- Half-time (.5 FTE) GTA or GRA appointment and enrollment in six or more hours.
- Quarter-time (.25 FTE) GTA or GRA appointment and enrollment in seven hours.
- Ph.D., D.M.A. and Ed.D. candidates who have passed their doctoral comprehensive examinations and are enrolled in one hour (not to exceed 10 semesters of certification under this category).

To be eligible for certification of *half-time status* as a graduate student by the Registrar's Office, a student must meet at least one of the following conditions:

- Enrollment in five credit hours.
- Half-time (.5 FTE) GTA or GRA appointment and enrollment in three credit hours.
- Quarter-time (.25 FTE) GTA or GRA appointment and enrollment in five credit hours.

Special Cases and Limitations on Registrar's Certification to Lending/Funding Agencies:

- Ph.D. or D.M.A. students who have not taken and passed their doctoral comprehensive examinations and who do not meet one of the other enrollment qualifications for certification and Master's/Educational-Specialist students not qualifying for certification under one of the categories listed above may petition the principal graduate adviser in their academic unit for special consideration. If, based on a review of the student's petition, the principal graduate adviser believes there is sufficient reason for certifying the student for full-time or half-time status, the principal graduate adviser may submit a request to the Registrar's Office.
- Work to satisfy an incomplete grade or grades from a previous term or terms does not count toward certification. Therefore, a class may be used only in status calculation for one term. Since the hours are used in status calculation during the original term of enrollment, that is the only term that the hours may be counted.
- Status may not be calculated nor certified for future terms.

Financial Aid - Summer Term - Academic Load Requirements:

Graduate degree seeking students who are enrolled in the summer term are required to be enrolled in a minimum of 5 hours in order to be considered half-time for loan eligibility in the Financial Aid & Scholarships Office and for loan deferment reporting to the National Student Clearinghouse. Ph.D., D.M.A. and Ed.D. candidates who have passed their doctoral comprehensive examinations and are enrolled in one hour (not to exceed 10 semesters of certification under this category) are exempt from this requirement

Changes in Enrollment

Information given in this section reflects minimum campus standards for graduate students' changes of enrollment. Because each academic unit has the prerogative to set more stringent rules, students should consult the principal graduate adviser or graduate officer in their major area of study for unit or discipline-specific rules. All changes in enrollment by graduate students must be initiated in the office of the principal graduate adviser (Arts and Sciences) or graduate officer of the respective unit and completed in the Registration Office.

Additions

Students who want to enroll in an additional course may do so during the first week of the term provided they have the approval of the faculty adviser. Course additions or late enrollments after the first week of the term generally are not allowed.

Withdrawals

Graduate students may withdraw from a course at any time prior to the first day of the final examination period, provided the permission of the faculty adviser has been obtained and notification to the instructor has been made. However, after the mid-term, students will be academically assessed. If failing at the time of withdrawal, students will be graded "WF" (withdrawn failing). [*Note: Individual academic units may have earlier deadlines for withdrawal.*]

Change from Audit to Credit

Graduate students may change status in a course from audit to credit during the first week of the term, provided they have the approval of the faculty adviser and have notified the course instructor.

Change from Credit to Audit

Graduate students may change status in a course from credit to audit any time prior to the final examination period, provided they have the consent of the course instructor and the approval of the faculty adviser. [*Note: Individual academic units may have earlier deadlines and may have program-specific restrictions on retaking audited courses for credit.*]

Withdrawal for Financial Delinquency

If students fail to fulfill financial obligations with the University after adequate notice, withdrawal from all courses during that term will result.

Enrollment/Readmission Policy

Until the time they have completed all coursework on their approved programs of study, graduate students in good standing who have not enrolled for only one semester may re-enroll without applying for readmission. Students who attend other schools in the interim must submit transcripts of such work from each institution attended. Graduate students are considered inactive after a lapse of two or more regular semesters of enrollment. Subsequently, inactive graduate students who want to continue must follow the same admission procedures as those required for new applicants. After a lapse of three or more terms, graduate students will re-enter under requirements in effect at the time of readmission.

Continuous Graduate Enrollment Requirement

After completing all courses included in the planned programs or plans of study for degrees, all degree-seeking graduate students must remain continuously enrolled in each regular semester up to and including the semester in which their degrees are awarded. This requirement applies also to the summer term for students whose degrees are being awarded at the end of a summer term. This continuous enrollment must be for a minimum of one-hour credit in research and thesis, research and dissertation, or other work designated by the department or school. When no suitable credit registration is available, or when students have previously enrolled in at least the minimum number of 5599 (thesis) or 5699 (dissertation) or equivalent credits required on their programs or plans of study, students may fulfill the continuous enrollment requirement by registration in continuous graduate enrollment (5899) for no academic credit. Interruption of continuous registration due to failure to comply with this requirement will result in the need for readmission under requirements then in effect. Academic units may require retroactive enrollment as a condition of readmission.

Continuous Graduate Enrollment (5899):

Courses designated as 5899, Continuous Graduate Enrollment, are charged at the rate established for one credit hour. Registration, by mail or in person, must be completed by the end of the first week of a regular semester or of a summer session. Students may obtain a reference number for 5899 from the Registration and Records office.

Enrollment Classifications

Post-Baccalaureate, Non-Graduate Student Classification:

Students who have earned a baccalaureate degree and who are seeking only additional undergraduate courses may be admitted under a post-baccalaureate (code 4-E) classification. Students in this classification are restricted to enrollment in courses numbered 499 and below and may not take any courses for graduate credit. Courses taken while classified as a code 4-E student may not be included for credit on a graduate degree program at a later date. Code 4-E students wanting to reclassify as graduate students for a future term must reapply and be regularly admitted to the graduate programs in which they want to seek advanced degrees. ***Degree-Seeking and Non-Degree-Seeking Graduate Student Classifications:***

Students admitted to any of the graduate classifications (whether degree seeking or non-degree seeking) will be enrolled automatically for graduate credit in courses numbered 300 to 499 unless they indicate on their enrollment forms that they do not want graduate credit for the course or the instructor specifies the course may only be taken for undergraduate credit. Courses numbered 299 and below may not be taken for graduate credit, are not calculated in a student's graduate grade-point average and cannot be included as credit courses on a graduate student's program of study.

The following six admissions categories are used for degree-seeking graduate students at UMKC:

1. *Regular Master's Degree Seeking - (Code 6)* Degree-seeking graduate students admitted to a master's degree program without reservation.
2. *Conditional Master's Degree Seeking - (Code 6-V)*. Degree-seeking graduate students admitted to a master's-level degree program who have not yet fulfilled all admissions requirements specified by the academic unit responsible for the degree program.
3. *Regular Educational-Specialist Degree Seeking - (Code 7)*. Degree-seeking graduate students admitted to an Educational-Specialist degree program in the School of Education without reservation.
4. *Conditional Educational-Specialist Degree Seeking - (Code 7-V)*. Degree-seeking graduate students admitted to an Educational-Specialist degree program who have not yet fulfilled all admissions requirements specified by the School of Education.
5. *Regular Doctoral Degree Seeking - (Code 8)*. Degree-seeking graduate students admitted to a doctoral degree program (Ph.D. or D.M.A.) without reservation.
6. *Conditional Doctoral Degree Seeking - (Code 8-V)*. Degree-seeking graduate students admitted to a Ph.D. or D.M.A. program who have not yet fulfilled all admission requirements specified by the academic unit responsible for the degree program.

Full admission of code 6-V, 7-V and 8-V students to a degree program and appropriate reclassification are subject to students' removal of deficiencies and approval of satisfactory performance.

Admission to graduate study and to a particular degree program is no guarantee that students will be advanced to candidacy or granted a higher degree. All candidates are expected to perform at a consistently high level and to satisfy all the requirements for the degree. The final determination, as to whether or not students will be recommended for a graduate degree, is made by the graduate faculty in the fields concerned. The graduate faculty reserves the right to deal with exceptional cases on individual merit.

Degree-seeking graduate students who plan to change their field of study must reapply for admission and be regularly admitted to the desired graduate program in the new department or school.

The following three admission categories are used for non-degree-seeking graduate students:

1. *Non-Regular Graduate - Continuing Education, Non-Degree-Seeking Student - (Code 6-H)*. Students taking courses for graduate credit through the Division of Continuing Education. It should be noted that admission to this category (generally through self-certification) does not constitute regular admission to a graduate program at UMKC. However, on the recommendation of the adviser and approval by the graduate officer, a limited number of graduate credit courses (normally no more than six credit hours) may be applied to individual degree programs after students have been regularly admitted to do graduate study (see Application for Graduate Study, above).
2. *Visiting Graduate Student - (Code 6-C)*. This includes students who have been properly certified as graduate students at an accredited institution other than UMKC, and have permission to enroll in specific courses (including 5000-level courses) at UMKC. *Note: Students who have previously been enrolled in a UMKC graduate program must have been in good academic standing at the end of their last UMKC graduate enrollment to take graduate courses as a visiting graduate student.*
3. *Graduate Special Non-Degree Seeking - (Code 6-G)*. This classification is used for two categories of students: (1) Community access, non-degree-seeking students wanting access to graduate level courses not available through

continuing education; and (2) Potential graduate applicants, not meeting requirements for conditional admission and wanting to take graduate-level courses in order to qualify for admission. The following restrictions apply to 6-G Classification graduate students:

- o Students apply to the academic unit, if declared. If undeclared, students are admitted as undeclared graduate students in the College of Arts and Sciences.
- o All graduate academic regulations apply.
- o Students must have a baccalaureate degree prior to admission.
- o Students are subject to the campus graduate academic probation and ineligibility policies.
- o Students with a 6-G classification are not eligible for financial aid.
- o International students may not be issued I-20 forms for admission under a 6-G classification.
- o International students considered under the 6-G classification must meet the University standards for evidence of English proficiency.
- o Students admitted under this classification must reapply to the academic unit and be admitted to a graduate degree program in order to be changed to degree-seeking status.
- o At the discretion of a department or area, the graduate-level courses completed with a grade of B (3.0) or better while classified as a 6-G student may be applied toward a graduate degree in that department or area. Of the courses listed on a degree, no more than 12 semester credit hours may have been completed while enrolled as a 6-G student.

All non-degree-seeking graduate students (6-C, 6-G and 6-H) wishing to enter a degree program must reapply for and be regularly admitted to the department or school from which they want to receive an advanced degree.

Exceptions to Academic Regulations

Campuswide Exceptions

Petitions for an exception to a campuswide graduate academic regulation must originate with the student. It must be processed through the graduate officer and dean or program director in charge of the student's graduate degree program and forwarded to the dean of the School of Graduate Studies. Only the dean, or the designated representative, are authorized to grant an exception to the graduate academic regulations applying to all graduate students. Petitions must be in writing and include (1) the reason for requesting the exception and a detailed justification from the student; (2) recommendation for action by the appropriate graduate officer; (3) recommendation for action by the department or division chair (if applicable); and (4) recommendation for action by the appropriate dean or program director. The graduate dean or designated representative will review the petition and related documentation and render a decision which will be communicated in writing to the academic dean or director, the graduate officer, the student and the registrar.

Program-Specific Exceptions

Petitions for exception to a program-specific academic regulation are handled within the academic unit's degree program. A graduate student who has petitioned for an exception to a program-specific academic regulation and whose petition has been denied may appeal the decision to the dean of the School of Graduate Studies if all other remedies open to the appellant have been exhausted at the department and college, school or program level. Appeals to the dean of the School of Graduate Studies must be made in writing within 14 consecutive days from the date the student received the written notice of the petition decision. The dean of the School of Graduate Studies will investigate the case and take appropriate action in a timely manner. The decision of the graduate dean, as the chancellor's designated representative, is final and will be communicated in writing to the student, the graduate officer, the academic dean or director and the registrar.

Graduate Courses and Grading Policies

Course Designations

In general, courses numbered 5000 and above are open only to regularly admitted graduate and Ph.D. students.

Courses numbered 300 to 499 are upper division junior- and senior-level courses. Graduate students who enroll in such courses have the option of designating them, at the time of enrollment, as being "not for graduate credit." If the student chooses this option, the grade will not be included in the student's graduate grade-point average and the course may not be included on the graduate or Ph.D. program/plan of study and will not count toward a graduate degree. In order for a 300- or 400-level course to be accepted for graduate credit, students will be expected to do supplementary work (additional reading, projects, papers and contact hours with the instructor) and to demonstrate graduate-level competency and achievement in the subject. Also, students must take the course for graduate

credit and complete it with a grade of B- (2.7) or better. The total number of acceptable 300- to 400-level courses to be applied to requirements for a graduate degree may not exceed 40 percent of the total number of courses applied to graduate or non-interdisciplinary doctoral-degree requirements, or one-third of the total number of courses on the approved Interdisciplinary Ph.D. plan of study.

Courses at the 100- and 200-level are not available for graduate credit and will not be applied toward the number of hours required for a graduate degree.

Courses numbered 5580 to 5589 generally are reserved for seminars, workshops and special topics. Consult individual degree programs for possible restrictions on such offerings. The course numbers 5590 to 5598 usually are reserved for non-thesis research, directed studies and readings. Courses numbered 5599 are restricted to research leading to a thesis. Considering this numbering system, no more than 40 percent of courses numbered 5590 to 5599, or other courses which fall in the categories listed above for that course number range, may be applied to a graduate degree program of study, with the exception of the Interdisciplinary Ph.D. study.

Courses numbered 5695 to 5699 are restricted to research leading to a dissertation. Continuous Graduate Enrollment is numbered 5899.

Note: The numbering of graduate courses in the School of Dentistry differs from the system described above.

Course Restrictions

Policy on Admission of Undergraduates to Graduate-Level Courses:

In addition to regularly admitted graduate students, seniors who meet the requirements below, and who have obtained the necessary approvals and received permission from the School of Graduate Studies may enroll in a limited number of courses numbered in the 5000 series and above, or may enroll in appropriate 300- and 400-level courses for graduate credit.

Minimum requirements:

- Seniors within 12 credits of graduation who have a 3.0 GPA or better in their college work; or
- Seniors within 30 credits of graduation who have a 3.5 GPA in their college work.

To request permission to take a graduate-level course, the senior must:

1. Obtain a request to take graduate-level course form and an advising transcript from the Registrar's Office. (Forms also are available on-line at <http://sgs.umkc.edu/forms/index.asp>.)
2. Fill out the request to take graduate-level course form, attach a copy of the advising transcript to the form and seek written approval on the form from the course instructor; the dean or director of the academic unit in which the requested course is offered; and the student's undergraduate adviser.
3. Once the above steps have been completed, submit the form to the School of Graduate Studies for final approval. This last step should occur no later than four weeks before regular registration.

This policy does not generally apply to 5000-level courses in the Bloch School of Business and Public Administration open exclusively to graduate students. However, Bloch School seniors may begin work on the M.B.A., M.P.A. or M.S. in accounting degree if pre-approved by the Bloch School based on their formal application and admission to the graduate degree program.

This procedure is intended to allow a degree of flexibility in planning the academic programs of degree-seeking seniors who clearly have shown academic merit and plan to pursue advanced study after graduation. This option is not available for post-baccalaureate students (code 4-E).

In all cases, eligible students may enroll in no more than six credits of graduate-level courses or courses for graduate credit through this procedure. In addition, first-semester seniors who enroll in graduate-level courses are limited to a total enrollment of no more than 15 hours for the semester. Graduate-level courses (5000 and above) are to be selected from those courses generally offered to first-semester or first-year graduate students. Courses such as special topics, individual studies and directed research designed for advanced graduate students are not eligible under these provisions.

Students may petition that the courses can be taken for graduate credit or undergraduate credit. Credit may be applied to requirements for a graduate or a bachelor's degree, but not both.

Requests by students who meet all the requirements stated above will be approved by the dean of the School of Graduate Studies or designated representative. In exceptional cases, students who do not meet the requirements stated above may present a petition to the dean of the School of Graduate Studies. Such petitions must be presented to the school no later than four weeks before the beginning of the term for which enrollment is sought.

Students who do not meet the above criteria but who register for a graduate-level course will be withdrawn administratively from the course. Fees paid for the course will be refunded.

Graduate-Credit, Continuing Education Courses:

Graduate-credit courses are offered on an irregular basis at both off-campus and on-campus locations through the Division of Continuing Education, in conjunction with various instructional divisions.

Students may enroll in such courses and earn graduate credit without being regularly admitted to a graduate program. However, application of such credits toward an advanced degree can be determined only after students have been regularly admitted to graduate study. Such application depends upon the acceptance of students and the course by the respective department or division offering the degree. Students are responsible for determining whether these credits will satisfy the requirements of their particular educational goals and should make such determination before registering for the course.

Grading System

The following is the grading and grade-point system at UMKC:

Letter Grade	Description	Points per Semester Hour
A	The highest grade	4.0
A-		3.7
B+		3.3
B	Work of distinction	3.0
B-		2.7
C+		2.3
C	Average work	2.0
C-		1.7
D+		1.3
D	Passing, but unsatisfactory	1.0
D-		0.7
F	Failure without credit	0.0
NR	Not Reported	0.0
WF	Withdrew failing	0.0
W	Withdrew; no academic assessment	-
I	Incomplete	-
AT	Audit	-
CR	Credit only	-
NC	No Credit	-
P	Passing	-
S	Satisfactory	-

In terms prior to and including 1985, any of the above grades might be preceded by an R indicating a repeated course. These grades are not included in either total hours or the grade-point average. (Examples: RC, RD, RF.) Since 1985, all grades, including those in repeated courses, are included in the GPA calculation. For the 1993 Fall Semester, UMKC began using the plus/minus grading system for grades A, B, C and D. The grade of A+ is valid only for students in the School of Law.

Incomplete Grades

An instructor may give a grade of incomplete (I) to students who have been unable to complete the work of the course because of illness or other valid reasons beyond their control. Students who receive an incomplete must complete the required work within one calendar year to avoid an F (failure without credit). The instructor may specify a shorter

completion period. A grade of incomplete is only appropriate when enough work in the course has been completed that the student can finish the remaining work without re-enrolling in the course in question, or by attending additional classes. In other instances, students should withdraw. Students cannot re-enroll in a course for which an incomplete remains on the record.

This policy is exclusive of those courses which are considered directed individual studies; internships; special topics; practicums; research and thesis; and research and dissertation courses. Because completion of such courses will quite often span several terms, incomplete grades assigned in such courses will not automatically lapse to an "F" grade after one calendar year, but will adhere to the completion period specified by the instructor.

Policy on Repeated Graduate-Credit Courses

Whenever students repeat a graduate-credit course, they must submit a course repeat form to the Registration and Records Office no later than the fourth week of the term. Students seeking graduate degrees are limited to repeating no more than 20 percent of the credits applicable toward a graduate degree. If approved by the school or department or Interdisciplinary Ph.D. supervisory committee, students may repeat a course once to improve the grade-point average or satisfy the program requirements. The second grade received will be used to calculate the grade-point average that will be used in satisfying degree requirements.

Requirements for Retention

Graduate Probation Policy

Graduate students, regardless of classification, must maintain a 3.0 (B) grade-point average in all coursework taken for graduate credit at UMKC and must meet any additional academic requirements imposed by the school, department or Interdisciplinary Ph.D. discipline. Students are responsible for keeping apprised of their academic status by referring to term grades and their permanent academic record on file in the UMKC Registration and Records Office.

Whenever the cumulative GPA for UMKC courses taken for graduate credit by a graduate student of any classification falls below 3.0, the student's status for the next term becomes: "On Probation - See principal graduate adviser." (Interdisciplinary Ph.D. students will be directed to consult their interim adviser or research adviser.) The principal graduate adviser, interim adviser or research adviser will review the student's progress and provide counsel, and the following conditions apply:

- A graduate student on probation who is not restored to good academic standing by the end of two successive regular semesters following the term in which the cumulative GPA fell below 3.0 will be declared ineligible to re-enroll.
- While on probation, a graduate student must achieve a 3.0 term GPA in order to enroll for the following term.
- A graduate student on probation will not be restored to good standing until a cumulative graduate-credit GPA of at least 3.0 is achieved.

Ineligibility for Further Graduate Study

Ineligibility Following Academic Probation

In the case of ineligibility following academic probation, the graduate student may present a petition for re-enrollment to the principal graduate adviser of the student's academic program. Petitions will be reviewed by the graduate faculty member responsible for the student's degree program. That faculty member will make a written recommendation to the appropriate administrative levels within that academic unit approving or denying of the petition. The approval or denial action may include:

- Approval for further graduate study in the student's current field of study and in the same classification but on a restricted probation basis (as defined in written contract).
- Approval for further graduate study in the student's current field of study in a different student classification and on a restricted basis.
- Denial for further graduate study in the student's current field but approval for undergraduate study only.
- Denial for further study, either graduate or undergraduate, in the student's current field of study.

Ineligibility Due to Unsatisfactory Progress or Performance

When a department or school or Interdisciplinary Ph.D. supervisory committee, irrespective of a student's grade-

point average, considers a graduate student's performance to be unsatisfactory, that department, school or committee may recommend to the dean or director of the academic unit in which the student's degree is housed that the student be reclassified or declared ineligible for further study. The dean or director reviews the recommendation and conveys a decision to the respective faculty group and the student.

Students in programs other than the Interdisciplinary Ph.D. program who have been declared ineligible due to unsatisfactory progress or performance may appeal such decisions to the dean of the School of Graduate Studies, as designee of the chancellor. Students in the Interdisciplinary Ph.D. program may appeal such decisions to the provost, as designee of the chancellor. Such appeals must be made in writing within 14 consecutive days after receipt of the notification to the student of the decision.

The decision of the graduate dean or provost, as the chancellor's designated representative in such cases, is final and will be communicated in writing to the following:

1. The student
2. The graduate faculty review group(s)
3. The academic dean or director
4. The registrar

Requirements for Graduation

Program of Study

Graduate education is intended to answer the personal needs of students and the special needs of society not satisfied through undergraduate training. Graduate degrees indicate that the holders have sufficiently mastered a program in a particular field to pursue creative projects in that specialty. The degrees are awarded for completion of a coherent program -- formalized as the program or plan of study -- designed to assure the mastery of specified knowledge and skills. Forms for specifying individual programs or plans of study are available from the principal graduate adviser (Arts and Sciences) or graduate officer of the academic unit.

Students may elect to fulfill either the degree requirements in effect at the time of their original admission (provided there has not been a lapse in attendance at UMKC of more than two consecutive terms) or the degree requirements in effect at the time of advisement into a planned graduate program of study.

No course at the 300- or 400-level taken on a credit/no credit basis; no 300- or 400-level course with a grade below B- (2.7); and no 5000-level or higher course with a grade below C (2.0), will count toward any advanced degree program. Additionally, 80 percent of the credits for the degree must be passed with a grade of B (3.0) or better. Students admitted to the combined J.D./MBA program must receive grades of B or better in 80 percent of Bloch School courses. Because of different grading standards, the transferred law hours are not included in the 80 percent calculation. Degree programs may have requirements which are more stringent. If so, the program requirement takes precedence over the campus minimums.

Thesis and Dissertation Preparation and Approval Process

Formatting Regulations:

Some master's degree programs have a thesis requirement and some have a thesis option. All Ph.D. degree programs at UMKC require a dissertation. The School of Graduate Studies, guided by the Graduate Officers Committee, establishes the format regulations for theses and dissertations (T/Ds) at UMKC. Degree candidates are responsible for familiarizing themselves with and adhering to the standards of the latest edition of the "Manual for Writers of Term Papers, Theses and Dissertations" edited by Kate Turabian. They also must become familiar with the special format regulations for title page; abstract format and length; approval page; order of manuscript sections; paper; page numbering; heading levels; margins; and type style and size; which are outlined in the "University of Missouri-Kansas City Guide to Formatting Theses and Dissertations" which is available online at sgs.umkc.edu/guidellin/index.asp. Bibliographic references must follow Turabian guidelines unless the student's academic program has an alternate bibliographic reference format approved by, and on file with, the School of Graduate Studies. Candidates should check with the principal graduate adviser in their respective academic units to determine the approved bibliographic reference format standard for their degree programs. Any variances from the standards outlined in the "University of Missouri-Kansas City Guide to Formatting Theses and Dissertations", Turabian and discipline-approved bibliographic reference styles must be requested in writing and approved in advance by the dean of the School of Graduate Studies. A copy of

the dean's official letter authorizing exceptions to formatting standards must be included as an appendix to the T/D.

The School of Graduate Studies provides formatting workshops at the beginning of each fall and spring semester. In addition, degree candidates may schedule individual conferences with the school's T/D Formatting Specialist during the first four weeks of the fall or spring semester and the first two weeks of the summer term to make sure they have interpreted the formatting guidelines correctly and to seek guidance on specialized formatting problems. Candidates should call the School of Graduate Studies office, (816) 235-**1161**, for time and place of workshops or to schedule a formatting conference.

Supervisory Committee Review and Approval of T/Ds:

Approval of the T/D begins with the degree candidate's supervisory committee. Candidates work closely with their research advisers while writing the various sections of the manuscript. The candidate's supervisory committee shall ensure that the scholarly content and style of the T/D is in keeping with recognized standards of the chosen discipline(s). Graduate degree candidates should periodically provide all members of their supervisory committee with preliminary drafts of the T/D for review and comment. Final drafts of the T/D, which incorporate all substantive revisions supervisory committee members have previously requested, should be submitted to all members of the candidate's supervisory committee at least eight weeks before the expected date of graduation. For both master's and doctoral-level degree candidates, when the supervisory committee members feel the work is complete and ready for final defense by the candidate, the committee members notify the supervisory committee chair by completing a Master's Pre-Oral Defense form or Doctoral Dissertation Pre-Oral Defense form and forwarding it to the supervisory committee chair. The supervisory committee chair and student may then schedule a final defense of the work.

School of Graduate Studies Review and Certification of Acceptance of T/Ds:

The deadline for submitting the T/D to the School of Graduate Studies for certification of acceptance is printed in the calendar section of the schedule of classes for each term. The actual date varies, but it is approximately six weeks before the end of the fall or spring semesters and four weeks before the end of the summer session. Prior to the published deadline for the term in which the degree candidates expect to graduate, they must present the following to the School of Graduate Studies office:

- One unbound copy of the T/D in final form, but not printed on archival quality, acid-free paper.
- The signed Preliminary Approval of T/D by Supervisory Committee form.

T/Ds normally will not be accepted for review for graduation during the current term unless they are received in the School of Graduate Studies by the published deadline. In the school, the T/D is reviewed by a Thesis/Dissertation Formatting Specialist for conformity to the campus formatting standards and by the graduate dean for quality of content. The school's review process generally takes from two to four weeks. The candidate will be notified to pick up the T/D and make all necessary formatting corrections before resubmitting the T/D to the School of Graduate Studies. Candidates who are out of the city must make arrangements to have the copy picked up locally or returned, collect, by messenger service.

Candidates should print a copy of the approval page from the T/D on archival quality, acid-free paper meeting the requirements specified in the formatting guide, and take it to their T/D defense, and the supervisory committee members should sign the approval page in black ink. A copy of the approval page with the original signatures must be included in at least one copy of the T/D that is deposited in the libraries. The remainder of the manuscript should not be printed on the archival quality, acid-free paper until after the defense because the supervisory committee members may suggest final corrections or changes during the defense itself.

After the T/D defense, the student should submit a corrected final draft on plain paper to the School of Graduate Studies. This draft should be accompanied by the Master's Thesis Final Evaluation forms or Doctoral Dissertation Final Evaluation forms completed by each committee member. The graduate dean will review the thesis or dissertation for certification of acceptance. If the T/D has significant formatting problems, it will be returned to the candidate without further review or certification. The candidate will be required to make all necessary formatting corrections and resubmit the T/D to the School of Graduate Studies. If this happens, the candidate's graduation may be delayed. Enrollment in an additional term of continuous-graduate enrollment may be required.

Preliminary approval forms, Master's Thesis Preliminary and Final evaluation forms and Doctoral Dissertation Preliminary and Final evaluation forms are available from the School of Graduate Studies office in the Administrative Center (5115 Oak St.) and online at sgs.umkc.edu/guidelin/index.asp.

When both components of the School of Graduate Studies review of the T/D are complete, the candidate is notified. If further format corrections are required, the School of Graduate Studies will hold the certificate of acceptance

until appropriate revisions are made and rechecked by the formatting specialist. The candidate then picks up the certified copy of the T/D and the certificate of acceptance from the School of Graduate Studies office and may make final copies to deposit in the library. (See Final Thesis Examination and Supervisory Committee Approval under Master's Degrees Academic Regulations and Final Dissertation Examination under Doctoral Degree Programs (Ed.D., Ph.D., D.M.A.) later in this section.) Candidates who are out of the city must make arrangements to have the certified copy picked up locally or returned, collect, by messenger service.

Deposit of T/Ds with the Library:

The candidate makes any final revisions requested by committee members at the defense or the School of Graduate Studies and prints two copies on archival quality, acid-free paper, as specified in the formatting guide. The final step in the process is deposit of these two, unbound copies of the T/D with the appropriate UMKC library. Theses and dissertations must be published on microfilm through ProQuest Information and Learning University Microfilms International (UMI) Dissertation Information Service. There is a fee for microfilming. As an added optional service, UMI will handle the copyrighting process for theses and dissertations, if desired. The libraries require payment for both the required and optional UMI fees, in the form of a cashier's check or money order made out to ProQuest Information and Learning, at the time of deposit. Candidates should check with the Reference Librarian to confirm the current amount of these fees. **Deposit must be accomplished no later than the Friday immediately preceding the first day of classes for the next term.**

Application for Graduation

Completing degree requirements does not automatically result in conferral of the degree. Students must request that the University review their academic record and certify that degree requirements have been met. To make this request, students must file applications for graduation with the registrar no later than the end of the fourth week of the semester in which the degrees will be completed. Students graduating at the end of the summer session must file an application for graduation no later than the end of the second week of the summer session. An approved program/plan of study must be on file with the registrar at the time the student makes application to graduate. Filing applications for graduation initiates degree checks in the Registrar's Office. The students and their advisers receive a degree checklist which indicates any deficiencies the students must clear. Students should contact their advisers if there are questions about the checklist. The application for graduation also places candidates' names in the commencement program. In addition, when completion of degree requirements have been certified by the registrar, the Registrar's Office authorizes the diploma order.

Specific term deadlines for all graduate requirements are announced in the schedule of classes for each term. Students are responsible for being aware of and meeting these deadlines.

The registrar will certify degree completion if students' academic records (transcripts) show that they have completed all of the requirements listed on the approved program/plan of study.

Commencement

Advanced degree candidates are urged to attend commencement. Students should arrange for rental or purchase of a cap and gown at the University Bookstore at least six weeks before the graduation date.

Time Limit on Degree Credit for Master's and Educational-Specialist Degrees

Credit over seven years old at the time of graduation, which is included on the master's or educational-specialist program of study and has not been applied to a previous degree, may not be counted toward the fulfillment of a graduate degree program unless validated to the satisfaction of the department or school and the School of Graduate Studies. Petitions and affidavits for this purpose may be obtained from the School of Graduate Studies. A maximum of 30 percent of the student's program of study may be validated under this procedure.

In connection with an authorized leave of absence, an exception to the time limitation may be approved in advance.

Graduate Admission Policies and Procedures

Graduate admission committees in each academic unit review applications and make recommendations for admission. Applicants must satisfy both the general campus requirements and the program-specific admission criteria for graduate study. The minimum general requirements follow.

Graduate Admission Requirements

The following are minimum requirements for admission to graduate study in all UMKC graduate programs:

1. A bachelor's or first-level professional degree from a regionally accredited institution.
2. A satisfactory academic record.

For program-specific requirements, applicants should consult the pertinent degree program listing in this catalog.

Many UMKC graduate degree programs require satisfactory scores from either the Graduate Record Examination (general and/or subject tests), the Miller Analogies Test or the Graduate Management Admissions Test. Other academic units may require other national examinations. Test applications and information can be obtained from the UMKC Counseling, Health and Testing Center, (816) 235-**1635**, or by contacting the Educational Testing Service <http://www.ets.org>.

Graduate Study Application Procedure

In general, applications for admission to graduate study should be obtained from and returned to the admissions office. Complete contact information for admissions can be found in the [Application Forms](#) section of undergraduate admissions in the undergraduate catalog or from the UMKC Web site home page.

Because some academic units have special application packets, applicants requesting application materials should be sure to specify the program to which they plan to apply. Admission to a degree program is subject to the recommendations of the graduate faculty in the degree program area and the dean of the academic unit in which the program is offered. Graduate admission decisions by the academic dean or designated representative are final.

Applicants must submit an official transcript from the school where their bachelor's degrees were obtained. Unless the transcript of the degree-granting institution includes the complete record of undergraduate work taken at all other schools, an official transcript from each of the other institutions also must be supplied. In addition, applicants must submit an official transcript from each school where other coursework has been taken or degrees have been obtained after the bachelor's degree. All credentials submitted in support of the application for admission become UMKC property and will not be returned to students, nor will UMKC release copies of such credentials to a third party.

The graduate degree programs at UMKC have varying schedules for receiving, reviewing and acting on applications for admission. Before applying, applicants should contact the principal graduate adviser or graduate officer for the chosen degree to determine program-specific deadlines. Lists of the names of the current graduate officers and principal graduate advisers are available, on request, from the School of Graduate Studies.

International graduate applicants should refer to International Graduate Student Applicant and Student Information later in this section.

Master's Degrees Academic Regulations

The following general campus regulations pertain specifically to the master's degree. Master's students also should refer to Graduate Academic Regulations earlier in this catalog section for regulations common to all graduate degrees at UMKC and to specific degree program requirements in other sections of this catalog.

Adviser/Supervisory Committee

Upon admission to a graduate program, a student seeking a master's degree will contact the appropriate department chairman of the College of Arts and Sciences or the graduate officer of the professional school or program. This person will assign the student an adviser who is a member of the graduate faculty. When research and a thesis are degree requirements or the student has selected a thesis option, the Arts and Sciences department chair or the school's graduate officer will appoint two additional faculty members to serve on the graduate student's supervisory committee. The chair and a majority of the members of a master's student supervisory committee must be full members of the graduate faculty.

Qualifying Examination

If required, a qualifying examination must be passed before a master's program is filed with the graduate officer. The department or school will notify students of the time and date of the examination. The results of the qualifying examination will be reported to the registrar. With the approval of the adviser and the supervisory committee, if such exists, students may take the qualifying examination a second time.

Master's Degree Program of Study

In consultation with the adviser or the supervisory committee, the master's student plans a program of study in accordance with the minimum requirements listed here and the specific degree requirements listed elsewhere in this catalog. Forms for specifying individual programs of study are available from the principal graduate adviser or graduate officer of each academic unit. Students should file this program of study with the departmental principal graduate adviser (College of Arts and Sciences) or the graduate officer in their academic units before 60 percent of the coursework applicable to the degree is completed. In the College of Arts and Sciences, the principal graduate adviser secures required departmental approval and forwards the program of study to the graduate officer of the college.

After the proposed program has been approved, as required by the academic unit, the unit's graduate officer will distribute copies of the program of study to the registrar, the student's adviser or chair of the student's supervisory committee, the principal graduate adviser (Arts and Sciences) and the student.

The approved master's degree program of study must include a minimum of 30 graduate credits. No more than 40 percent of the credits on the program may be 300- and 400-level courses. At least 60 percent of the credits must be at the 5000 level or higher. Further, up to six credits may be allowed for Research and Thesis (5599). Other demonstrations of skills considered by the department or school as comparable to the thesis may be accepted. No more than 40 percent of the courses applied toward a master's degree program of study may be in the non-thesis research, directed studies, readings or research and thesis categories. Such courses normally fall in the 5500 to 5599 range, but the numerical designations may vary among academic units.

Program Changes:

Subsequent changes in the program of study must be approved by the student's adviser, the supervisory committee and the appropriate dean or department chair. The graduate officer will inform the registrar of such changes. If cumulative changes in courses or degree requirements exceed four, a new program of study should be filed.

Dual Degree Programs at the Master's Level

Dual-degree programs allow students to simultaneously pursue degrees at the master's level in two fields of study. Students must complete at least 80 percent (rounded up) of the credit hours required for each degree separately. Students must satisfy admission, course and examination requirements of both degree programs.

Transfer Credit Policy for Master's Degrees

A maximum of 20 percent of the graduate credit hours appearing on the program of study (rounded up) may be transferred from a recognized graduate school for a master's degree at UMKC. Such transfer credits must meet with approval of the student's supervisory committee and appropriate principal graduate adviser (College of Arts and Sciences) or graduate officer and be in accordance with all of the following criteria:

1. The coursework must be:
 - o Offered by an accredited school.
 - o Applied toward a graduate degree at the host institution and taken for graduate credit.
 - o Approved by the appropriate graduate faculty.
2. A grade of B (3.0) or higher for 300- and 400-level courses and C (2.0) or higher for 5000-level courses or other courses restricted to graduate students only must have been earned. (CR or P will be accepted on receipt of a statement from the institution where credit was received of letter grade equivalent meeting grade standards as stated above.)

Transfer credit may be allowed for correspondence courses, provided the credits meet the criteria outlined in 1 and 2 above. Transfer credit will not be accepted for research and thesis/dissertation hours (defined by UMKC), travel experience or work/life experience. Foreign university transfer credit must meet the above criteria as attested by the registrar.

A majority of the coursework applicable to any graduate degree at UMKC must be completed at UMKC. UM traveling scholar credits are not considered transfer credits. However, the sum total of credits from other UM campuses, and other transfer credits (not more than 20 percent of the total credits) cannot exceed 14 credits on a 30-credit master's degree program, or a proportional equivalent (approximately 46 percent) on programs exceeding 30 credits; and must be within the limits stated above.

A student who has been awarded a master's degree at UMKC or another regionally accredited graduate school may petition the faculty to apply up to six hours of graduate credit earned on the first degree toward meeting the requirements of a second master's degree. Credit, so approved, not from UMKC will be subject to all preceding transfer credit criteria.

See the sections on specific degree programs for requirements pertaining to transfer credit for educational-specialist and doctoral degrees.

After approval of the program of study, graduate credit may be earned at another institution only with prior approval of the dean of the School of Graduate Studies. Forms to request such approval are available from the Registration and Records Office. A current catalog of the institution where the course is to be taken or an official catalog description of each course must be attached to the request form. The official transcript for such work must be forwarded to the Registration Office upon completion of the course.

Final Master's Competency Examination

The final master's competency examination, if required, will be written, oral or both at the discretion of the school or department, and will be passed no later than three weeks prior to the anticipated date of graduation. Students will submit a request for the examination to the adviser no less than two weeks before the examination is to be taken. The candidate's supervisory committee chair will report the results of the final competency examination in writing to the candidate and to the principal graduate adviser (Arts and Sciences) or graduate officer, who will then inform the registrar.

Thesis Preparation and Approval

For regulations pertaining to thesis preparation and approval, the reader is directed to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this section.

Final Thesis Examination and Supervisory Committee Approval

The format and procedures of the final examination in defense of the thesis are determined by the supervisory committee and its chair. This examination may not be administered when UMKC is not officially in session. The defense of the thesis is approved when a majority of the supervisory committee members recommend approval and sign the Report of the Result of Final Master's Thesis Examination form and the committee approval page in the thesis.

Within 48 hours of the defense, the supervisory committee chair shall report the results of the final thesis examination in writing to the candidate and to the departmental principal graduate adviser (Arts and Sciences) or graduate officer, who then informs the registrar.

Deposit of Approved Thesis with Libraries

For regulations pertaining to deposit of approved thesis with libraries, refer to Thesis and Dissertation Preparation

and Approval Process, included under Graduate Academic Regulations in this section.

Doctoral Degree Programs (Ed.D., Ph.D., D.M.A.)

The Ed.D., Ph.D. and D.M.A. degree programs at UMKC have the following elements in common:

- Appointment of supervisory committees.
- Approval of doctoral programs or plans of study.
- Satisfaction of a doctoral residency requirement.
- Satisfactory completion of a doctoral comprehensive examination in order to advance to candidacy.

In addition, all Ph.D. programs and the Ed.D. program have the following elements in common:

- A work of original research or scholarship reported in dissertation form.
- Formal defense of the candidate's dissertation.

The specific requirements for satisfying these common elements may vary from program to program. Doctoral students are also subject to most of the minimum general graduate academic regulations and degree requirements listed in previous portions of this catalog section.

The following general regulations are minimum requirements. Each degree program may have regulations that are more stringent and would take precedence over the minimums stated previously. Refer also to graduate regulations described in previous sections that are common to all graduate or doctoral students and to degree requirements listed under the academic unit sections of this catalog.

Supervisory Committee

At the request of the non-interdisciplinary Ph.D. student, the D.M.A. student or the Ed.D. student, and upon the recommendation of the student's adviser, the graduate officer for the degree program will appoint a supervisory committee consisting of at least three members of the graduate faculty, including the student's adviser. While the chair of the initial supervisory committee can be a member of the graduate faculty, once the student has reached the dissertation stage, the committee must be chaired by a member of the University of Missouri doctoral faculty.

Non-interdisciplinary Ph.D. and D.M.A. student dissertation committees must have at least five members and Ed.D. student dissertation committees must have at least four members. The majority of the members of the non-interdisciplinary Ph.D., Ed.D. and D.M.A. dissertation committees must be doctoral faculty or regular graduate faculty members. All five members of Interdisciplinary Ph.D. student supervisory and dissertation committees must hold doctoral faculty status. See the Interdisciplinary Ph.D. academic regulations section for additional specifications for Interdisciplinary Ph.D. supervisory committees.

Qualifying Examination

The qualifying examination, if required, will be given before the doctoral program of study is filed with the graduate officer. At the discretion of the school or department and the supervisory committee, a master's degree from UMKC in the area of intended specialization may be considered as a substitute for the qualifying examination. Students must submit a request to take the qualifying examination to the appropriate department chair in the College of Arts and Sciences or the dean of that professional school. The results of the qualifying examination will be reported to the graduate officer, who will inform the student and the registrar. With approval of the adviser and supervisory committee, students may take the qualifying examination a second time.

Doctoral Programs of Study

Students should plan their programs of study in consultation with their advisers and supervisory committees. Forms for specifying individual programs of study are available from the principal graduate adviser or graduate officer of each academic unit. It is recommended that students file this program of study with the graduate officer in their academic units before 60 percent of the coursework applicable to the degree is completed. (*Interdisciplinary Ph.D. students must file their proposed plans of study and form their supervisory committees within 12 months of being fully admitted.*) No more than 40 percent of the program may be 300- and 400-level courses. After the proposed program has been approved, as required by the academic unit, the unit's graduate officer will distribute copies of the program of study to the registrar, the adviser and the student.

Subsequent changes in the program of study must be approved by the student's adviser, supervisory committee, the dean or department chairperson of the school in whose area the specialization is offered and the graduate officer, who also will inform the registrar of such changes. If cumulative changes in courses and degree requirements exceed four, a revised program of study should be filed.

Transfer Credit

Graduate credit earned before entering a UMKC doctoral program may be applied to the doctoral degree if it is of acceptable quality and appropriate to the student's program of study as determined by the student's academic unit or supervisory committee. The total amount of graduate credit earned before admission to a UMKC doctoral program and applied to the doctoral degree cannot exceed half the number of credit hours, exclusive of dissertation research credits, required for the degree. All graduate coursework, completed prior to admission and not used to earn the master's degree or educational-specialist degree, must be no more than seven years old at the time the doctoral program of study is approved.

After admission to the doctoral program, if a student wishes to take graduate coursework at another institution and apply it to his or her doctoral program, the student must receive written approval from the doctoral program's graduate officer or from the student's supervisory committee chair, as appropriate, before the coursework is taken. Such coursework is not considered as transfer credit. Upon completion of the coursework, the student must have the official transcript forwarded to the UMKC registrar.

Residency Requirements

Interdisciplinary Ph.D. Students:

Interdisciplinary Ph.D. students entering the program after the fall 2000 semester must satisfy the doctoral residency requirement by satisfactory completion of at least 21 credits, exclusive of dissertation research, in no more than 18 months. When satisfying the residency requirement, all Interdisciplinary Ph.D. students are subject to the following restrictions:

1. The doctoral residency requirement must be satisfied no later than the end of the semester in which the student completes his or her comprehensive examinations.
2. Students must achieve a cumulative graduate grade-point average of at least 3.0 in all courses counted toward satisfying the residency requirement.
3. Dissertation research credits (696 to 699) may not be counted toward satisfying the doctoral residency requirement

Interdisciplinary Ph.D. students who entered the program prior to the spring semester 2001 may choose to use the preceding residency requirement guidelines or the following guidelines that were in effect prior to that term: Three consecutive semesters (fall-spring-fall or spring-fall-spring) or three consecutive terms including one summer session (a fall and spring semester plus one adjacent summer session) of full-time enrollment after full admission to the program. In general, nine hours in a fall or spring semester or five hours in a summer session is considered full-time enrollment for graduate students. The following are several exceptions to this general rule:

- For purposes of fulfilling the Ph.D. residency requirement, six hours enrollment in the fall or spring and three hours enrollment in the summer will be considered full-time enrollment for a Ph.D. student with at least a .25 FTE GTA/GRA appointment.
- For purposes of fulfilling the Ph.D. residency requirement, six hours enrollment in the fall or spring and three hours enrollment in the summer will be considered full-time enrollment for Ph.D. students who are UMKC employees, with academic appointments of at least .5 FTE.
- The credit-hour requirement to be classified as a full-time student and to satisfy the Ph.D. residency requirement for students who hold full-time teaching appointments at regionally accredited four-year institutions of higher education will be the same as for students holding a GTA/GRA appointment at UMKC.

Non-Interdisciplinary Ph.D. and Ed.D. Students:

The residency requirement for the Ed.D. student or non-interdisciplinary Ph.D. may be satisfied using the same guidelines stipulated for Interdisciplinary Ph.D. students, or in any one of the following alternate ways:

1. Two consecutive semesters of 12 credits each term of resident coursework at UMKC following the completion of at least 24 credits of graduate study.
2. Three terms of eight credits each term of resident coursework at UMKC, to be completed within 18 months and

following the completion of at least 24 credits of graduate study.

3. Two consecutive semesters of nine credits each term of resident coursework at UMKC while employed at least half time for the University in teaching or research and following the completion of at least 24 credits of graduate study.

D.M.A. Students:

The residency requirement for the D.M.A. may be satisfied in any one of the following ways:

1. Two consecutive semesters with a minimum of nine credits each.
2. One semester with a minimum of nine credits and two summer sessions with a minimum of five credits each, provided that the full-time semester is adjacent to one of the summer sessions. It is expected that the summer sessions be consecutive.
3. Completion of 24 credits within 18 consecutive months.

Comprehensive Examination

To advance to degree candidacy, doctoral students are required to pass a comprehensive examination. D.M.A. students selecting a non-dissertation option may satisfy the comprehensive examination requirement during their final semester. For all other doctoral students, the comprehensive examination must be successfully completed at least seven months before the date of graduation:

- For graduation in May: Nov. 1.
- For graduation in July: Dec. 1.
- For graduation in December: May 1.

The following requirements must have been met before students can take the comprehensive examination(s):

1. Assignment of a supervisory committee.
2. Successful completion of the qualifying examination, if required.
3. Filing and approval of the program of study and completion of essentially all coursework required for the degree.
4. If required by the academic unit, satisfactory demonstration of foreign language proficiency through accepted coursework or other evidence specified by the student's supervisory committee.
5. Completion of residency in most cases.

The comprehensive examination may be written, oral or both. Through their advisers, students will apply to the graduate officer in their academic unit for an examining committee to be composed of a minimum of five members of the graduate faculty. This committee shall consist of members of students' supervisory committees and such others as the graduate officer may select.

The examination will be arranged and supervised by the adviser. It will generally terminate within one month after it starts. Upon satisfactory completion of the examination, the student's adviser sends a report of the results of the examination, with the signatures of all members of the examining committee, to the graduate officer, who, in turn, informs the student and the registrar.

A student is considered to have passed the comprehensive examination if all, or all but one member, of the examining committee vote that the candidate passes. If failure is reported, the examining committee will either recommend termination of status as a doctoral student or suggest additional work or other remedial measures. Furthermore, a student who has failed may not take a second examination for at least 12 weeks. Failure of a second comprehensive examination shall automatically preclude candidacy at this institution.

Program Time Constraints

The doctoral student must take and pass the doctoral comprehensive examination and advance to candidacy within five years from the beginning of doctoral coursework (within four years if entering with a master's degree in the same or closely related field). After the establishment of degree candidacy, a maximum of five years will be allowed for completion of degree requirements. Failure to complete the work within the periods specified will necessitate re-evaluation of the entire program and may result in a notice of termination. In compelling circumstances and on the written recommendation of a majority of the student's supervisory committee members, the dean of the School of Graduate Studies may grant a one-year extension. Some academic units may impose more stringent time requirements.

Required Enrollment

See Continuous Graduate Enrollment Requirement, included in the Graduate Academic Regulations part of this section.

Dissertation and Completion of Degree

Doctoral Dissertation Requirement

All UMKC Ph.D. degrees and the Ed.D. degree require a dissertation as the final component of the program. The dissertation is also a requirement in some D.M.A. programs and an option in others. The doctoral faculty view the dissertation as one of the most important aspects of the student's experience because:

- It is a work of original research or scholarship that makes a contribution to existing knowledge.
- It is an educational experience that demonstrates the candidate's mastery of research methods and tools of the specialized fields.
- It demonstrates the candidate's ability to address a major intellectual problem.

For regulations pertaining to formatting the dissertation and the process for approval, the reader is directed to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this catalog section.

Final Dissertation Examination

Final examinations in defense of the dissertation are open to all members of the doctoral faculty, who may attend as interested observers. The format and procedures of the defense are determined by the supervisory committee and its chair. The date, time and location must be announced and published at least two weeks before each final examination takes place. This examination may be conducted only after the dissertation has been approved by the dean of the School of Graduate Studies, and may not be administered when UMKC is not officially in session.

The defense of the dissertation is approved when a majority of the supervisory committee recommend approval and sign the Report of the Result of Final Doctoral Examination form. Within 48 hours of the defense, the supervisory committee chair will report the results of the final dissertation examination in writing to the candidate. For non-interdisciplinary doctoral candidates, the supervisory committee chair also will report the results of the defense to the principal graduate adviser (Arts and Sciences) or graduate officer. The departmental principal graduate adviser (Arts and Sciences) or graduate officer, in turn, informs the registrar.

Deposit of Approved Dissertation with Libraries

For regulations pertaining to deposit of the approved dissertation with the libraries, refer to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this catalog section.

International Graduate Student Admission Policies and Procedures

General Graduate Admission Policies

Minimum Admission Requirements

Graduates of schools outside the U.S. may be considered for admission to a graduate degree program at UMKC, subject to the following criteria.

1. They must have completed a course of study at least the equivalent of a U.S. baccalaureate degree.
2. They must have above-average grades in previous college study.
3. They are required to establish proof of adequate English proficiency as part of the UMKC admissions process. Applicants from countries in which English might be one of the official languages, but is not necessarily the first language of the majority of the population, must attain a minimum composite score of either 550(PBT), 213(CBT), or 80(iBT) on the Test of English as a Foreign Language (TOEFL), or a score of 6.0 on the IELTS to be considered for admission.* The results of the examination must be received in the UMKC International Student Affairs Office before the application deadline. Exceptions to this policy:

- o Non-native speakers who hold degrees or diplomas from post-secondary institutions in English-speaking countries (such as the United States, Antigua, Australia, Bahamas, Barbuda, Belize, Canada, Dominica, Fiji, Gambia, Ghana, Guyana, Ireland, Jamaica, Liberia, Mauritius, New Zealand, Sierra Leone, Solomon Islands, South Africa, St. Christopher (St. Kitts), St. Lucia, St. Vincent, Tobago, Trinidad, Uganda, United Kingdom [England, Scotland, Wales and Northern Ireland], Zambia and Zimbabwe), provided they have spent a minimum of two years in successful full-time study there and English was the medium of instruction.
 - o International transfer students from other institutions in the United States or Canada who have spent a minimum of two years in successful full-time study.
4. In addition to 1 through 3 above, international graduate students must satisfy any program-specific admission criteria. For instance, the Graduate Management Admission Test (GMAT) is required for applicants for graduate study toward the M.B.A. degree. Several programs require TOEFL scores that are well above the minimum stated previously. The Graduate Record Examination (GRE), including the appropriate Advanced Test, is either required or strongly recommended for all other international graduate applicants. International students planning to apply are directed to consult the appropriate degree program listing for additional criteria and medical requirements.

*For TOEFL information contact

The Educational Testing Service
Princeton, NJ 08541, U.S.A.
<http://www.ets.org>

For IELTS contact

The International English Language Testing System
<http://www.ielts.org>

Detailed information can be obtained from U.S. embassies, consulates general, bi-national centers and other offices throughout the world.

Deadline for Application for Admission

As noted in the general section on graduate admissions, the graduate degree programs at UMKC have varying schedules for receiving, reviewing and acting on applications for admission. Applicants are directed to the program listings elsewhere in this catalog. This institution reserves the right to consider applicants for the most appropriate term. Generally, international students applying from overseas will be considered for admission to the fall semester only.

Required Academic Records for International Applicants

Applicants must provide complete and official certificates, in English, of all degrees, diplomas, mark sheets, grade reports and examination records. Secondary school records must be submitted in all cases in addition to the college/university transcripts or credentials.

Student Financial Statement

International students must present evidence of sufficient finances to cover their university and personal expenses while they are attending UMKC. A prescribed financial statement must be completed and returned with their other application materials. UMKC will not assume any financial responsibility for international students. Students seeking admission to the graduate level after an undergraduate program must submit a new financial support statement.

Additional Information and Forms

International applicants to graduate programs who want more information and forms to apply for admission can go to <http://www.umkc.edu/isao> or write:

International Student Affairs

University of Missouri-Kansas City

5100 Rockhill Road

Kansas City, MO 64110-2499, U.S.A.

Forms to apply for graduate admission can also be downloaded from one of the following Web sites:

- Application forms for admission to master's degree programs, the doctor of musical arts programs and the Ph.D. in counseling psychology: <http://onestop.umkc.edu/forms.cfm>.
- Application forms for admission to the Interdisciplinary Ph.D. program: <http://sgs.umkc.edu/iphd/index.asp>.

International Graduate Student Academic Regulations

In addition to the minimum graduate academic regulations and degree requirements common to all graduate students or specific to their particular degree programs, international graduate students at UMKC are subject to the following special requirements and regulations:

Registration with Student Adviser

Admitted international students must clear their attendance and register at the office of the international student adviser prior to their first registration at UMKC. Once admitted, international graduate students must show satisfactory and regular progress toward their graduate degrees.

Health Insurance

International students are required to purchase UMKC mandatory, exclusive health insurance.

English Proficiency Requirements

Proficiency in written and spoken English is essential to international graduate students' success in their degree programs at UMKC. To ensure that all international graduate students either already have, or have an opportunity to acquire, these necessary skills at a level appropriate to their degree program, the Graduate Officers Committee supports the following guidelines:

- Current minimum TOEFL scores for entering students and graduate teaching assistants should be strictly adhered to by all academic units without exception.
- Prior to their first enrollment in classes at UMKC, newly admitted international graduate students must take the English Evaluation Examination conducted by the UMKC Applied Language Institute (ALI) unless they are exempted from this requirement by virtue of having achieved a TOEFL score of at least 600/CBT 250.
- Based on results of the English Evaluation Examination scores, such students must enroll in and successfully complete the applied language courses indicated as necessary by the student's academic unit in consultation with the UMKC Applied Language Institute.
- Prospective international graduate students should be aware that required coursework in English as a second language may add extra time to their individual graduate programs of study.
- The only international graduate students exempted from this policy are the following:
 - Native English speakers from English-speaking countries such as Canada, England, the Republic of Ireland, Australia and New Zealand.
 - Non-native English speakers who hold degrees or diplomas from post-secondary institutions in English-speaking countries (such as the United States, Canada, England, the Republic of Ireland, Australia and New Zealand) provided that they have spent a minimum of two years of successful full-time study and English was the medium of instruction.

Policy on Award of Teaching Assistantships

In 1986, the Missouri State Legislature and the University of Missouri Board of Curators adopted a policy which seeks to

guarantee effective, high quality instruction for undergraduates. The state has mandated, and the Board of Curators fully supports the ruling, that graduate students who did not receive both their primary and secondary education in a nation or territory in which English is the primary language may not hold a teaching appointment during their first term of enrollment at any public institution of higher education in the state of Missouri. In addition, all such students shall be tested for their ability to communicate orally in English in a classroom setting and, those students who have not previously lived in the United States shall be given a cultural orientation to prepare them for teaching prior to receiving an appointment.

At UMKC, the following standards are in effect for graduate students whose first language is not English and who wish to be considered for graduate teaching assistant (GTA) appointments:

- They must have been enrolled at UMKC at least one term prior to receiving a GTA appointment.
- They must have attained a minimum official TOEFL score of 550/cbt 213.
- They must take the SPEAK (Speaking Proficiency English Assessment Kit) test and receive a score of 52 or higher. This test is offered once, at no charge, through UMKC's Applied Language Institute (ALI) to graduate students whose first language is not English and who have attained the required minimal TOEFL score of 550/cbt 213.
- If they have not previously lived in the United States, they must participate in the cultural orientation program provided by the School of Graduate Studies. The orientation covers policies and procedures pertaining to teaching and grading; a profile of UMKC's student body; an introduction to degrees offered at UMKC; an overview of the U.S. system of higher education and teaching strategies and techniques. The orientation program is held over several days during the week prior to the beginning of classes for the fall semester.
- Early in the fall semester, they must present a simulated 8-10 minute lecture or laboratory demonstration that will be videotaped for review and approval of their verbal communication skills by the dean or director of the programs in which they will have a GTA appointment and by the School of Graduate Studies.

Graduate Teaching Assistant Certification for Students Whose First Language is not English:

A graduate student whose first language is not English must have satisfied each of the above standards in order to be certified to accept a GTA appointment. Graduate students whose first language is not English and who are interested in being considered for appointment as teaching assistants may make arrangements for the required SPEAK test through the ALI office, which is located at 5301 Rockhill Road. To schedule SPEAK tests, students may call (816) 235-**1233**. This phone has a voice message box; students should leave a name and phone number if no one is present to take their call.

For information on dates, or to register for the next Cultural Orientation series, contact the School of Graduate Studies (816) 235-**1161**.

If students do not make the required minimum score on the first taking of the SPEAK test, or if their videotaped simulated lecture is not approved, they must enroll in ENGLISH 300F Special Studies in Culture Research and Pedagogy for IGTAAs. This one-credit-hour course is offered during the last eight weeks of each fall term. If students do not make the required minimum score on the SPEAK test when it is re-administered during ENGLISH 300F, they must then enroll in the three-credit-hour course, ENGLISH 300F: Academic English/International Grad Teaching Assistants and Applicants in a subsequent semester.

Exceptions to any of these certification standards must be authorized by the dean of the School of Graduate Studies. Departments wishing to request an exception for a student must submit a written petition for exception to the graduate dean, including full justification supporting the request, prior to the beginning of the term for which the GTA appointment is sought.

UM Traveling Scholar Program

This cooperative program is designed to provide breadth and depth in the opportunities for graduate study offered at the four campuses of the University of Missouri. Advanced graduate students are permitted to enroll on other UM campuses in courses that are not available on their home campus. Normally, enrollment at the host campus is limited to no more than two courses per semester. Only students in good standing who have been admitted to a graduate degree program on the home campus may participate.

Courses completed at the host campus must be applicable toward requirements for the degree sought by students at the home campus, either by way of transfer credit or as resident courses. Interested students should contact the School of Graduate Studies or their principal graduate adviser for additional information.

Cooperative Doctoral Degrees

Through the UM cooperative doctoral program, graduate faculty members who hold membership in the doctoral faculty of the University of Missouri are eligible to serve as directors of doctoral dissertations on their resident campus, as well as on any of the other three campuses offering a doctoral degree in the doctoral-faculty member's academic field. Students who want to pursue doctoral degree programs in conjunction with one of the other three campuses of the University of Missouri may do so in accordance with the guidelines listed below. The registrars at UMC, UMR, or UMSL can provide information on admission procedures for the doctoral programs on their respective campuses. The cooperative program is particularly appropriate for students seeking a doctoral degree that is not offered at the campus where they currently are enrolled. Direct specific inquiries regarding participation by doctoral faculty on the UMKC campus to the dean or chairperson of the UMKC academic unit offering a graduate program in the desired field of study.

In the following guidelines, the terms primary campus, graduate school or dean refer to that granting the degree.

- Students must be accepted by the department or area granting the degree and must comply with all the rules of the primary graduate school and discipline/area regulations.
- The dissertation adviser must be a member of the doctoral faculty of the University.
- Advisory/supervisory committees, comprehensive committees and oral committees, as required, will be appointed by the primary graduate dean in consultation with the graduate dean on the participating campus, drawing on faculty on both the cooperating and primary campus:
 1. The makeup of each committee normally will be recommended by the major adviser with the approval of the appropriate director of graduate studies/department chair/divisional dean as per normal campus procedures.
 2. In cases where students are on a cooperating campus:
 1. The adviser/supervisory committee chair may or may not be on the same campus. If that person is on the cooperating campus, at least three of the five members of the committee will be from the primary campus.
 2. Students must complete the residency requirement on the primary campus. Exceptions to this ruling must be justified fully with emphasis on quality and cost considerations and must have the approval of the primary graduate dean.
- Selection of the cooperating departments and preparation of a program must be completed at the earliest possible moment and communicated via the primary graduate dean to the participants involved. Both graduate deans will maintain program files relative to students. Respective graduate deans are responsible for the quality of that portion of the cooperative program that is performed on their campus and under the jurisdiction of their faculty.
- Reporting of the degree shall be the responsibility of the primary campus. The cooperating campus shall be given credit in terms of student credit hours and/or dissertation credits for the work completed on that campus and shall provide suitable recognition of dissertation advisers and the committee members.

Graduate Teaching and Research Assistantships

Financial support for graduate students is most frequently provided through the academic unit in which the student is enrolled. This support may be in the form of a Graduate Teaching Assistantship (GTA), a Graduate Research Assistantship (GRA) or a named fellowship. The stipend amounts and number of awards vary from unit to unit. Students interested in consideration for such support should contact the principal graduate adviser or graduate officer in the respective unit for information on application procedures and deadlines.

Each semester, students who hold GTA or GRA appointments also may be recommended by their academic units for chancellor's GTA/GRA fee remission awards. These awards cover the basic graduate educational fee for six credit hours.

For students who are not residents of Missouri, an additional benefit of having a GTA or GRA appointment is that it qualifies them for a chancellor's non-resident fee remission. A minimum FTE of 25 percent (a full-time equivalent of 100 percent is 40 hours) is required to be eligible for this award.

Federally Supported Sources of Financial Aid

Graduate students who are U.S. citizens or permanent residents and who are enrolled at least half-time, with financial need demonstrated via the FFS analysis, may be considered for aid through the College Work Study Program. They also may apply for a Perkins Loan (formerly NDSL) or a Guaranteed Student Loan. Additional information on these programs is available from the

Staff members are available for information, inquiries and assistance with applications from 8 a.m. to 5 p.m. weekdays.

Institutionally Supported Fellowship and Award Competitions

The School of Graduate Studies administers a number of annual competitions for graduate fellowships. Fellowship stipends vary from \$5,500 to \$15,000. Some include remission of portions of the graduate education fees and all include remission of non-resident fees, if applicable. Detailed information and application forms are available from the School of Graduate Studies office. Applications normally are due in the early spring (usually by February 1) for fellowships to be awarded for the following academic year. Application deadlines, eligibility and selection criteria, and PDF versions of the application forms are posted on the School of Graduate Studies Web site: <http://sgs.umkc.edu>.

Mission and Administrative Organization of Graduate Education

UMKC currently offers more than 50 graduate degrees at the master's, educational specialist and doctoral levels, plus a number of graduate certificates. Graduate students represent about 26 percent of the total campus enrollment. The graduate student population is diverse in ethnicity, gender and racial background. As an urban university, our programs strive to accommodate adult working students. Nearly two-thirds of all graduate students are enrolled part time and the average age is 35.

The Graduate Council, representing a cross section of campus graduate faculty, sets policy, establishes minimum graduate education standards and monitors the quality of graduate education at UMKC. The graduate faculty in the various graduate degree programs may set standards more stringent than the minimums outlined in this catalog section, and in such cases, the program standards take precedence over the campuswide minimum regulations. The School of Graduate Studies is responsible for monitoring compliance to the campuswide minimum graduate academic regulations; providing leadership and coordination of all graduate programs; and serves as the academic home for students admitted to the Interdisciplinary Ph.D. program. Information on the Interdisciplinary Ph.D. program may be found in the School of Graduate Studies section of this catalog.

Division of Student Affairs

University of Missouri-Kansas City
 Admissions
 5100 Rockhill Road
 Kansas City, MO 64110-2499

Director: Jennifer E. DeHaemers  

This office is responsible for recruitment, admissions and orientation. See the General Undergraduate Admissions Policies and Procedures section of this catalog for additional information.

Admissions

The Office of Admissions coordinates the admission of students to undergraduate, graduate and professional programs at the University of Missouri-Kansas City. Applicants to the School of Law and School of Dentistry should refer to those sections of the catalog. International students should apply through the International Student Affairs Office.

Recruitment

The office also coordinates the recruitment of students to undergraduate programs. Staff participate in a number of recruiting activities across the state of Missouri, including college fair programs, high school visits, community college visits and employer sponsored career fairs. Requests for information about UMKC and its academic programs are handled through the mailing services of the Office of Admissions. E-mail us at admit@umkc.edu for information.

Orientation

The Office of Admissions coordinates orientation programs for new freshmen and transfer students. Admitted students receive information about orientation in late spring. Orientation is mandatory for new freshmen, optional for transfer students and includes initial academic advising.

Welcome Center

The Welcome Center is the central location for greeting campus visitors, including prospective students and their families. Campus visits usually include a tour and an opportunity for guests to meet with an Admissions representative, an academic adviser in their area of interest and the Financial Aid and Scholarships Office. Customized tours are also available for groups or individuals who have specialized interests or needs.

Career Services

Career Services

[4825 Troost Avenue](#) , Suite 205

(816) 235-**1636**

Fax: (816) 235-**5534**

careerservices@umkc.edu

<http://www.career.umkc.edu>

Director: Candice Stice  

The Career Services staff is a select group of professionals representing a wide array of backgrounds. All are trained in current trends and provide a variety of programs and services in career planning, life planning and development.

Professional staff can assist students in career exploration and effective career decision-making. The Career Services Center offers ED 160, Career and Life Planning, in the fall and spring semesters for two credit hours. A&S 170 (PACE) Career and Life Development is offered every spring semester for three credits.

Career planning services include choosing an academic major, assessment of interests and values, goal clarification and enhancing skills such as resume writing, interviewing and conducting a job search. Students have access to a library of current reference materials related to career planning. Students may schedule individual appointments with career counselors for purposes of career assessment.

To enhance placement of UMKC students and graduates, Career Services maintains on-campus recruitment programs, sponsors job fairs and career days and develops and maintains contact with local, national and international employers.

Students can find part-time jobs, internships and cooperative education programs to supplement their income, as well as gain work experience while in school. Visit our Web site (www.career.umkc.edu) and watch the [University News](#) for activities sponsored by Career Services and for on-campus recruiting schedules.

All students preparing for graduation can be a part of the employment database and on-campus recruiting program. This provides immediate and direct access to full-time career opportunities. Full-time and part-time positions, internships and on-campus interviewing information can be accessed from our Web site.

Career Services also provides a full range of career planning and development services for alumni of the University

of Missouri system, alumni of other colleges and universities and the community. An employment database provides information on full-time jobs that are available to registrants. For additional information, call (816) 235-1636.

Center for Academic Development

Center for Academic Development

[SASS](#) , Room 210
5014 Rockhill Road
(816) 235-1174
Fax: (816) 235-5156
cad@umkc.edu
<http://www.umkc.edu/cad>

Director: Glen Jacobs 

The Center for Academic Development (CAD) offers a wide range of services and programs to students from 8 a.m.-5 p.m. Monday through Friday and at other times by appointment. The center's services include the following:

Supplemental Instruction

Supplemental Instruction (SI) is an academic support model that utilizes peer assisted study sessions. The SI program targets traditionally difficult academic courses and provides regularly scheduled, out-of-class review sessions. The SI study sessions are informal seminars in which students compare notes, discuss readings and develop organizational tools and predict test items. This form of academic assistance is attached directly to selected courses at the undergraduate, graduate and professional school levels. SI services are announced at the beginning of each semester by the course professor and SI leader. This program was developed at UMKC in 1973 and is used in hundreds of colleges and universities around the world. The center also conducts training workshops and provides technical assistance to other institutions.

Video-Based Supplemental Instruction

The Video-Based Supplemental Instruction program (VSI) is a highly structured approach to learning that helps students master course content as they develop and refine reasoning and critical thinking skills. In VSI, professors of core curriculum courses record their lectures on videotape and students are enrolled in a video section of the college course. In the video sections, trained facilitators use the taped lectures as a tool and guide students through the learning cycle.

Upward Bound

Project First/Upward Bound is a federally funded TRIO program authorized by Congress through the Higher Education Act. Upward Bound provides tutorial sessions, college and academic advising, spring break college tours, ACT/SAT workshops, financial aid workshops, student leadership conferences and a six-week summer residential experience to first-generation/low-income high school students. UMKC Upward Bound has produced alumni that have completed graduate school, are currently enrolled in medical school, law school, or are in successful careers.

UMKC Coaching Program

The UMKC Coaching Program provides first-year students with the skills necessary for their journey at UMKC by assisting them in becoming engaged with the University community and promoting lifelong learning through critical thinking and social awareness. Each student is paired with a peer coach who works one-on-one with the student to set goals, refine study skills and explore resources available at the University. Additionally, students are placed in groups led by UMKC faculty or staff members. The groups meet weekly to enhance critical-thinking skills and study skills.

Jumpstart

Jumpstart Kansas City is a local affiliate site of Jumpstart for Young Children, Inc. This campus-based AmeriCorps

program recruits, trains and pairs work-study supported college students with preschool children in Head Start and other low-income early learning programs. Throughout the school year and through a special summer program, college students help preschool children develop the skills needed to be successful in school. Jumpstart focuses on promoting school success for young children, encouraging strong family involvement and training college students to be future teachers and leaders.

Math Resource Center

The Math Resource Center (MRC) is dedicated to providing individual attention to math students, and to increasing retention efforts. The MRC is staffed by trained part-time tutors who offer assistance to UMKC students at no additional cost. Students may work individually or in small groups with tutors. Textbooks, solution manuals, videotapes, content-specific handouts and study guides are also available.

UMKC Trustees' Scholars Program

The Center for Academic Development (CAD), in conjunction with the UMKC Trustees, Offices of Admissions, Financial Aid, Residential Life and other Student Affairs departments, coordinates the UMKC Trustees' Scholars Program. The UMKC Trustees' Scholars Program is an exciting scholarship that provides a fully funded, full educational and experiential program to a select group of 10 entering freshman seeking an undergraduate degree at UMKC. Students must meet two of the three academic criteria: 3.0 or higher ACT, top 5 percent of his/her high school class and/or a 3.5 cumulative high school GPA in the core unit curriculum. In addition, all recipients are evaluated on their proven community or school involvement and leadership ability.

Counseling, Health and Testing Center

Counseling, Health and Testing Center

[4825 Troost Avenue](#) , Suite 206

(816) 235-**1635**

Fax: (816) 235-**5534**

<http://www.umkc.edu/chtc>

Director: Marita Barkis, Ph.D.

The Counseling, Health and Testing Center combines multiple services to promote the emotional, mental and physical well-being and academic success of the campus community. Dr. Barkis is the executive level director over all these services and the Director to the Counseling and Testing Center. The Counseling and Testing services are described in detail below and links are provided to all other service area descriptions.

Counseling

[4825 Troost Avenue](#) , Suite 206

(816) 235-**1635**

<http://www.umkc.edu/chtc/counseling>

Associate Director of Counseling: Arnold Abels, Ph.D.

The Center provides confidential personal counseling services for students and University employees. Consultations with students, faculty, staff and parents are available.

Counseling services are provided by licensed psychologists, consulting psychiatrists and pre- and post-doctoral interns, as well as master's and doctoral practicum students in psychology.

Individual and relationship counseling are the most frequently used services. Counseling for couples is available when one or both partners is affiliated with UMKC. Individual counseling can focus on such concerns as depression, procrastination, anxiety, eating disorders, loss, loneliness, indecision, academic problems, crisis intervention, stress management and the development of better social skills. Relationship counseling focuses on improving or understanding relationships like those between roommates, friends, partners, spouses, parents and children. Counseling

offers opportunities for people to understand themselves better, to manage emotional problems and to grow in their ability to be effective in relationships with others.

A variety of group counseling services are also offered. Groups are often open to anyone and may be for general emotional enhancement or for a specific focus like stress reduction or eating disorders.

Psychological assessment services are offered by the center to help clients better understand their emotional or learning concerns. The Assess for Success program specifically assesses learning concerns and attention deficit disorder. Call and ask for the Assess for Success program for more information.

The Center offers workshops and presentations for students and staff on a variety of topics. Student organizations that have program needs can contact the office.

The Alcohol and Drug Coordinator for the campus offers related individual services, assessments and outreach programs. The Coordinator can be acontacted at x5352.

Visits to the center and the contents of discussions with the staff are strictly confidential. No information regarding clients is released to any person or agency, including University personnel, without the client's written permission, unless mandated by state law.

All students, faculty and staff are eligible for services. Students receive up to eight free counseling sessions every 12 months and additional sessions are \$15/hour. Faculty and staff can receive services for \$20/hour. Reduced fees are charged for testing. There are limited hours on Hospital Hill. Call (816) 235-**1635** for an appointment or additional information.

Testing

[4825 Troost Avenue](#), Suite 206
(816) 235-**1635**
<http://www.umkc.edu/chtc/testing>

Associate Director of Testing: Jim Wanser

Administrative Assistant: Shannon Justice

The Center offers a full range of testing services to both students and community constituents. Services include the administration of all exams offered through PROMETRIC, including the GRE, TOEFL, MCAT, CPA, USMLE, etc. In addition, the ACT, PCAT, LSAT, MAT, and C-Base are routinely offered for admission requirements. For licensure and certification, the PRAXIS and CFP are offered on all national test dates. Students frequently use the CLEP program, as well as test proctoring services for correspondence, on-line, or distance education courses.

The Center also offers Microsoft Office Specialist exams that are utilized by the Bloch School of Business. University exit exams (MAPP and Major Field Exams) are also administered through the TestingCenter.

The Testing Center is open Tuesday through Saturday from 7:30 am to 4:30 pm. All tests are administered by appointment on space available bases. Government issued I.D. (driver's license, passport, or military I.D.) is required for all exams and there are prepaid fees associated with most exams. Test registration is typically on-line or through the TestingCenter at (816) 235-**1635**. Metered parking is available for those without permits.

Financial Aid and Scholarships Office

Financial Aid and Scholarships Office

[Administrative Center](#), Room 101
5115 Oak Street
(816) 235-**1154** (Kansas City Metro)
1-800-775-8652 (Outside of Metro)
Fax: (816) 235-**5511**
finaid@umkc.edu
<http://www.umkc.edu/finaid>

Director: Jan Brandow 

The Financial Aid and Scholarships Office has two major functions: (1) to provide financial assistance to students who otherwise would be unable to attend UMKC and (2) to administer campus-wide merit- and talent-based scholarship programs. Extensive information plus a number of free scholarship search opportunities are available on our web page.

Financial aid is intended as a supplement to the students' own resources. Families are expected to contribute from income and assets to the extent they are able, and students are expected to contribute from assets, summer employment and part-time employment during the school year. Costs for students vary greatly, but only modest budgets can be supported through financial aid programs. Students who have high standards of living or large debts may find that financial aid funds alone will not be sufficient.

To apply for aid, students must apply for admission or readmission to UMKC and must submit a Free Application for Federal Student Aid (FAFSA). For priority treatment, the FAFSA should be filed by March 1 preceding the academic year in which financial aid is desired.

In awarding aid, the Financial Aid and Scholarships Office will determine the student's eligibility for amounts and types of aid. Most aid packages are awarded for the academic-award year (fall and spring terms), but aid for late spring or summer term applicants is awarded as funds are available.

The types of student financial aid are:

- Scholarships and grants, which are gift aid amounts not requiring repayment.
- Long-term loans repayable after termination of schooling at low interest rates.
- Short-term loans repayable within the same academic period.
- Employment in the Federal Work-Study Program.

To be eligible for most aid, students must maintain satisfactory academic progress, and be regularly enrolled in at least a half-time academic course load. Federal programs also require U.S. citizenship or permanent residency. Many programs require financial need, although student loans are generally available regardless of financial need.

UMKC defines and measures what is considered satisfactory progress toward certificate/degree completion for financial aid eligibility. The policy falls within federal guidelines and must measure quality (GPA) and quantity (number of credit hours completed). The policy is different for undergraduate, graduate and professional students. Students enrolling in their first semester at UMKC and students who are readmitted to UMKC are considered to be making satisfactory progress. Eligibility is checked at the end of each semester. This policy is applicable with respect to eligibility for all types of federal, state and university financial aid administered by the UMKC Financial Aid and Scholarships Office. Satisfactory Academic Progress requirements are detailed on the following Web site: <http://www.umkc.edu/finaid>.

New freshman and transfer students accepted to the University by March 1 are automatically considered for several merit-based institutional scholarships. In addition, incoming freshman and transfer students may apply for competitive scholarships online at <http://www.umkc.edu/finaid> by February 1. Scholarship recipients must be enrolled full-time and earn a specified GPA for renewal. All offers of scholarship and aid eligibility are made in writing to students completing the application process.

Most types of aid are applied directly to the student's fee charges. Any remaining balance of aid and any checks from outside sources are normally disbursed by check to the student or by direct deposit to the student's bank account through the Cashier's Office. Aid is generally available in proportionate amounts at regular registration periods. Earnings in the Federal Work-Study Program, however, are paid biweekly for actual hours worked.

Aid recipients are responsible for promptly informing the Financial Aid and Scholarships Office of any changes in financial status, reduction of course load, changes from undergraduate to graduate status, or total withdrawal. Address changes should be made promptly through the UMKC Registration and Records Office.

Aid from all sources, including external ones, must not exceed the federally regulated cost of attendance. For that reason, students must report all aid awarded through other sources to the Financial Aid and Scholarships Office.

For the most up-to-date information regarding specific financial aid awards available at UMKC visit the Financial Aid and Scholarships Web site at <http://www.umkc.edu/finaid>.

Institute for Professional Preparation

Institute for Professional Preparation

5310 Harrison Street
(816) 235-1196
ipp@umkc.edu
<http://www.umkc.edu/ipp>

Director: Jane Jolley 

The Institute for Professional Preparation, founded in 1981, maintains the goal of training students to use scientific knowledge, the scientific method, logic and the application of higher order thinking skills for academic success. The Institute prepares medical students for their national board licensure examinations (USMLE Step 1, Step 2 and Step 3) and specialty board examinations. The Institute also provides preparation programs for the ACT, GRE, LSAT, and PCAT examinations.

The technique of Supplemental Instruction is the cornerstone for the instructional methods used in the IPP medical student programs. The institute serves as a consultant with allopathic and osteopathic medical schools in program development, both nationally and around the world.

International Student Affairs

International Student Affairs

[International Student Affairs Office](#)

5235 Rockhill Road
Tel: (816) 235-1113
Fax: (816) 235-6577
isao@umkc.edu
<http://www.umkc.edu/isao>

Director: Sandy Gault

This School is authorized under Federal Law to enroll nonimmigrant students. The International Student Affairs Office (ISAO) directs and coordinates the recruitment and admission of all UMKC nonimmigrant visa holders. ISAO ensures that international students have a successful and productive experience at UMKC and in Kansas City, promotes and supports cultural opportunities that benefit the UMKC community and ensures adherence to institutional and federal regulations.

Programs and support services provided by this office include the following: arrival and housing services, host individual and family programs, post-arrival and predeparture orientation for international students and scholars, visa advising, international practical training assistance, referral to campus services, liaison with academic advisers, monthly newsletters, support for the International Student Council, campus nationality groups and social and cultural programming.

Individuals who have been granted **asylum** or **refugee** status in the United States and individuals who have been granted lawful **permanent resident** status should apply for admission through the UMKC Admissions Office located in the Administrative Center. Along with their application for admission, these individuals should submit a copy of their I-94 arrival card (for asylum or refugee) or permanent resident card (green card) as evidence of their status. A copy of the Employment Authorization Document (EAD card) will not be considered as proof of permanent resident status.

UMKC applicants and students will be considered as international students if they entered the United States on a nonimmigrant visa and have a permanent resident application pending with U.S. Immigration.

Multicultural Student Affairs

Multicultural Student Affairs

University Center, room 160
Phone: (816) 235-1109
Fax: (816) 235-5645
msa@umkc.edu
<http://www.umkc.edu/msa>

Director: Catherine Kironde-Ross  

The mission of the Multicultural Student Affairs office is **to enhance and improve the college experience of students of color**. This mission is accomplished by:

- Maintaining an open door policy.
- Interacting with and assisting students, informal mentoring and coaching assisting students locate and utilize campus resources.
- Planning a variety of activities and events throughout the academic year that stimulate educational, cultural and social growth. These activities include panel discussions, lectures and traditional events such as African American History Month, Hispanic Heritage Month, and the Multicultural Graduation Reception.
- Supporting and advising multicultural student organizations including TAASU (the African American Student Union), ALAS (the Association of Latin American Students), NSBE (the National Society of Black Engineers), NAACP (the National Association for the Advancement of Colored People) and NPHC (the National Pan-Hellenic Council).
- Encouraging and supporting students to get involved in campus activities and organizations and to take advantage of the many leadership opportunities available on campus.
- Collaborating with other departments, academic units and student organizations to further enhance our programs so that we can adequately meet the needs of students of color at UMKC.

Through these services and programs, we assist students of color to become integrated into the academic and social systems of campus life. Our office serves to complement the classroom experience of students at UMKC.

Multicultural Student Affairs also directs the activities of the African American History and Culture House (affectionately known simply as the Culture House). The mission of the Culture House is to increase and enrich the general understanding of African American history and culture. The Culture House serves as a place for students to study, hang out, attend events and meetings and meet other students. The Culture House has study and meeting areas, an art gallery, a computer lab and a TV lounge. The Culture House also sponsors events throughout the year. Recent events include *Kids Day at the Culture House*, *Lunch with Edward P. Jones* and *Let's Talk about Hair*. The Culture House Gallery highlights the works of local artists. During the 2007-08 academic year, the Culture House Gallery hosted the following exhibits: *They Came to Fight*, *Carnival* and *Dolls*.

For more information about Multicultural Student Affairs, visit our Web site at <http://www.umkc.edu/msa>.

Office of the Registrar

Office of the Registrar

5115 Oak Street
(816) 235-1213
Fax: (816) 235-5513
registrar@umkc.edu
<http://www.umkc.edu/registrar>

Registrar: Douglas E. Swink

Services provided by the Registration and Records Office include the following:

- Preparation of the schedule of classes.
- Registration for students in all UMKC academic units.

- Administration of degree processing.
- Monitoring of undergraduate and graduate student academic probation.
- Maintenance of all official permanent student records.
- Issuance of class lists, grade rolls, transcripts and enrollment reports.

See the Academic Regulations and Information section earlier in this catalog for additional information and complete contact information.

Veterans Affairs

The Veterans Certifying Official in Registration and Records must be contacted for certification of enrollment for the Department of Veterans Affairs and should be notified of changes in enrollment. Failure to do so can result in overpayments or the failure to receive benefits. It is the responsibility of the students to contact this office for services or information. The phone number is (816) 235-**1123**.

Residence Halls

All of UMKC's residential facilities are conveniently located on the west side of campus, near the University Center (cafeteria), Swinney Recreation Center and within easy walking distance to all other Volker campus buildings. UMKC's newest facility is Oak Place Apartments, a 500 bed apartment complex serving the needs of second year students through graduate students. The apartments are fully furnished with all utilities paid in 1, 2 and 4 bedroom units. In addition to the apartments, Oak Street Residence Hall, a 561-bed hall designed into 11 community areas. This residential community features semi-private bathrooms, social and quiet study lounges, music practice rooms, kitchenettes on every floor, large indoor and outdoor recreation and lounging areas and a high-tech classroom. The Cherry Street Residence Hall, housing up to 326 students, also offers many recreational and student-oriented amenities, as well as a computer lab. Both UMKC residence halls have Ethernet hook-ups for every student, cable television hook-ups and microwave/refrigerator units all in student rooms.

(816) 235-**5696**
Fax: (816) 235-**6363**
disability@umkc.edu
<http://www.umkc.edu/disability>

Assistant Director: R. Scott Laurent 

The office is committed to ensuring that students with disabilities feel welcomed and supported at UMKC, that they are engaged in the campus community, that they feel that UMKC is their university and that UMKC is responsive to their unique needs.

Student Disability Services provides programming and supportive services at no charge to students with a disability. Our primary mission is the provision of reasonable and appropriate academic accommodations. While all accommodations are based on the functional limitations caused by a disability, common accommodations are extended exam time, peer notetakers, exams in reduced distraction rooms, textbooks in alternate formats and sign language interpreters. Other accommodations may be available depending on the need caused by the disability.

To receive services through this office, students must have a disability that has been documented by a qualified medical or clinical professional. The documentation should be comprehensive, usually not more than three years old, and should detail the functional limitations caused by the disability. For further information on documenting your disability please see our website at <http://www.umkc.edu/disability>. Students should contact the office as soon as possible to arrange for accommodations so as to avoid delays in the provision of accommodations.

Administrator/Nurse Practitioner: Sandra Handley, R.N., Ph.D., B.C., F.N.P. 

Student Health and Wellness provides health care and wellness services to UMKC students. Student Health provides assessment of acute and chronic health problems and treatment and/or referral as appropriate. In addition to illness-based services, other health services include: well-woman exams, blood pressure measurement, contraceptive counseling, first aid (non-emergent), immunizations (Hepatitis A and B, meningitis, MMR, tetanus and flu shots in season), physical examinations, STD testing, allergy injections with student-furnished serum and tuberculosis screening.

Student Health is open daily, appointments are requested. Walk-ins may be accepted on a space-available basis. To determine whether a visit is needed, a student may contact Student Health at (816) 235-**6133** or studenthealth@umkc.edu to discuss symptoms. Selected health information is also available at <http://www.umkc.edu/chtc/health>.

Student Health personnel include nurse practitioners, registered nurses and administrative personnel. When a health problem requires resources beyond Student Health, personnel will assist the student with an appropriate referral.

There is no charge to UMKC students for a Student Health visit, however, additional services or laboratory testing may involve a charge. Students will be made aware of any charges before they are incurred. Charges may be paid with cash, check or charged to the student's UMKC account.

Health promotion services include informational brochures, updated web information, health fairs, and classroom presentations. A student desiring specific health information may contact Student Health and Wellness by phone or e-mail.

A part-time pharmacy is also available at Student Health. The pharmacy carries a variety of medications. Prescriptions can be paid for with cash, check or charged to a student account. For further information or specific questions, call the pharmacist at 816-235-6103.

Student Health can be accessed by UMKC shuttle. Metered parking is also available outside the building (75 cents/hour).

Interim Director: Shelby Coxon

Hours

Monday- Thursday	8 a.m. - 6 p.m.
Friday	8 a.m. - 5 p.m.

College is more than classrooms. The Student Life Office is UMKC's central resource for co-curricular and extracurricular involvement, making the University experience more educational, more interesting and most importantly, more fun. The mission of the Student Life Office is to provide services and programs that are responsive to student development through the social, cultural, recreational, educational and lifelong learning needs of the campus and surrounding community.

The campus programs at UMKC give an added dimension to students' academic experiences by offering opportunities for personal development and growth. There are many opportunities to participate in campus activities sponsored and funded by various student organizations. In addition to advising student councils, student government and more than 260 campus organizations in their programming efforts, the office also is responsible for administration of the student activity budget, leadership education programs, various publications, Communiversy and all Greek organizations. LGBT Programs and Services improves the quality of lesbian, gay, bisexual and transgender students' college experience by enhancing their personal and academic development and success, offering a source of support, facilitating social interaction in a safe environment, fostering a sense of belonging, promoting leadership skills and raising awareness and educating the campus about LGBT history and culture. Questions regarding any of these activities, including student conduct issues, may be directed to the Student Life Office staff at the above number. For more information, visit <http://www.umkc.edu/stulife>.

Activity and Program Council (APC)

As part of UMKC's emerging future, the Activity & Program Council plays an integral role in bringing the vision, mission and values of the university to life. Student activities are essential to creating a vibrant campus life experience. The high quality programs provided by the student programming board allow students to engage in *Energized Collaborative Communities* that focus on *Diversity, Inclusiveness and Respect* while teaching the value of *Integrity and Accountability*.

The purpose of the Activity & Program Council is to provide quality, social, educational and entertainment-based activities and programs to the UMKC student body and community that address emotional, intellectual, occupational, physical, social and spiritual well-being.

The Activity & Program Council strives to build school spirit and to provide individual students with opportunities in leadership development, programming, and arts and events management. For more information about the Activity & Program Council, visit <http://www.apcactivities.com> or call (816) 235-**1457**. The Events Hotline is (816) 235-**1212**.

Associated Students of University of Missouri (ASUM)

This is an organization that represents and advocates the interests and welfare of Missouri students before the General Assembly, the Board of Curators, the Governor and other executive agencies.

ASUM sponsors a variety of programs on campus throughout the year to increase student awareness and involvement in the legislative process. To contact ASUM call (816) 235-**1231**.

Campuswide Honor Societies

- **The Delta Alpha Chapter of Mortar Board** at UMKC is one of the nearly 200 national chapters of this senior honor society. Juniors are annually selected for membership on the basis of scholarship, leadership and campus and community service. UMKC's Mortar Board chapter, installed in 1973, emphasizes University service.
- **Omicron Delta Kappa** is a national leadership honor society of students and faculty members, with circles on more than 200 college campuses throughout the country. The society recognizes and encourages the achievement of superior scholarship and leadership. Membership is granted on the basis of merit. Once achieved, it becomes as much an obligation and responsibility in citizenship as it is a mark of highest distinction and honor. In addition to the prestige that accompanies membership in Omicron Delta Kappa, all members are expected to engage cooperatively in effective leadership and services for the good of the institution and the community.
- **Phi Kappa Phi**, founded in 1897, was the first national honor society to recognize superior scholarship in all fields of study and to take into membership the highest-ranking student from all branches of learning. UMKC's chapter was constituted and installed with 16 faculty members on March 28, 1969. The national honor society replaced Torch and Scroll, the scholastic honorary which had served the University of Kansas City and then the University of Missouri-Kansas City. Each year, the highest-ranking students in the University are elected into membership.
- **Golden Key** is a international academic honors organization dedicated to excellence. The society is interdisciplinary and unites the talents of the brightest undergraduate students in America. Students qualify on the basis of objective academic criteria. No more than the top 15 percent of the juniors and seniors enrolled may be eligible. Members are actively involved with various community service projects.
- **Order of Omega** is the leadership honor society for social Greek organizations. The purpose of Order of Omega is to recognize those Greeks who attain a high academic and leadership standard, to bring together the most representative fraternity and sorority members to address local or intercollegiate affairs and to bring together members of the faculty, alumni and Greek system on a basis of mutual interest, understanding and helpfulness.
- **Alpha Sigma Lambda** provides an association for and recognition of academically outstanding adult/returning students in continuing higher education. The society is a nonprofit organization devoted to the advancement of scholarship.
- **Phi Beta Delta** was founded in 1986 and established itself as a national organization in 1987 with 38 chapters. The goal is to recognize the scholarly achievement of international students and scholars, U.S. students who have studied abroad and faculty and staff who are involved in international activities. They serve as a vehicle for development of academic-based international programming, provide an on-campus network of faculty, staff and students involved in international endeavors and works to extend this network to thousands of members in chapters nationwide.
- **Alpha Lambda Delta** honors excellent academic achievement by students in their first and second year of study in higher education. The society has numerous programs to encourage continued superior classroom performance, such as awards, national workshops, campus activities, scholarships, fellowships and loans for undergraduate, graduate and professional study.

For more information about campuswide honor societies call (816) 235-**1407**.

Clubs and Organizations

A wide variety of interests -- cultural, educational, recreational and social -- can be pursued through involvement in the more than 260 campus clubs and organizations. Students can extend classroom studies or foster new interests as members of student organizations. They can also build lasting friendships, receive academic encouragement or play a part in the functioning of the University as a student government officer. To obtain more information, visit <http://www.umkc.edu/stulife> or call (816) 235-1407.

CommUniversity

(816) 235-1448

<http://www.umkc.edu/commu>

CommUniversity is an informal learning program offering non-credit courses to UMKC students for free, and the Greater Kansas City community for a small fee. More than 900 classes are offered each year by volunteers from the campus and community. Classes range from art and health to outdoor adventure and psychic topics. Call (816) 235-1448 for a free schedule of classes.

Departmental Honorary and Professional Societies

Several academic disciplines offer honor societies that select members on the basis of grades and class standings. In the College of Arts and Sciences, the departments of sociology/criminal justice and criminology, communication studies, economics, English, geosciences, history, physics, political science and psychology all have national honorary organizations. The schools of Biological Sciences, Business and Public Administration, Conservatory and Dance, Dentistry, Education, Engineering, Law, Medicine and Pharmacy offer both honorary and professional societies. There are also honorary organizations designated specifically for students in the Greek system and international and non-traditional students. For specific membership requirements, contact the academic department listed or the Student Life Office.

HelpLine

[Administrative Center](#), Room 336

5115 Oak Street

(816) 235-2222

FAX: (816) 235-6504

helpline@umkc.edu

<http://www.umkc.edu/helpline>

The UMKC HelpLine/Ombudsman function offers a confidential, independent and neutral resource for problem solving and information sharing for our campus community. Contact the HelpLine with questions and concerns about University policies and procedures. The HelpLine serves students, staff, faculty and the community via phone, e-mail, walk-ins and appointments. For more information, visit <http://www.umkc.edu/helpline/>. The HelpLine is located in the Office of the Vice Chancellor for Student Affairs and Enrollment Management in the Administrative Center room 336, and can be contacted at (816) 235-2222 or via e-mail at helpline@umkc.edu. The HelpLine is also the contact for information on the Student Accident and Sickness Insurance.

Leadership Programs

Students lead UMKC. The Student Life Office is committed to helping students discover and develop their abilities to lead themselves, their organizations and the University. First-year students can participate in the Emerging Leaders program, an intensive non-credit course exploring theoretical and practical applications of leadership. Under the auspices of the Involvement Challenge, each fall students attend Ropes Courses, challenging themselves to overcome physical and mental obstacles while developing team leadership skills. At advanced levels, students can explore leadership across cultural boundaries in the Multicultural Leadership Workshop, engage key University-level leadership issues with administrators at the Vice Chancellor's Leadership Consortium and put their leadership into practice through service to the Student Government Association and school councils. Finally, the following are programs that enhance students' leadership experience - International Student Leadership Workshop, Graduate Student Leadership Workshop, Noodles at Noon Series and the Outside the Box Series. For more information visit <http://www.umkc.edu/stulife> or call (816) 235-1407.

LGBT Programs and Services

[University Center](#) , Room G7
5000 Holmes Street
(816) 235-**1639**
Fax: (816) 235-**5522**
lgbtoffice@umkc.edu

Program Coordinator: David Greene 

We aim to provide a safe, supportive and welcoming environment for all lesbian, gay, bisexual, transgender (LGBT) and heterosexual ally individuals. Through our campus-based programming we aim to further the personal growth and academic success of LGBT students, while educating and raising awareness among non-LGBT campus constituents. The UMKC Safe Space Training Program provides resources and information on creating safe and inclusive environments for LGBT people. In collaboration with the Office of Residential Life, the LGBT Housing Liaison is a para-professional student who lives onsite in the residence halls and provides educational programs, social activities, and support for LGBT residents. The LGBT Lounge in G7 University Center features comfortable sofas, complimentary coffee and tea daily (8 a.m. - noon), computers with internet access, wireless capabilities, LGBT magazines and journals, as well as a large and diverse collection of LGBT books, texts and films available for check out, friendly and knowledgeable staff and access to information and resources on a wide range of LGBT topics. A resource kit is available for check out to educators in the Kansas City so that they may enrich their curriculum.

Parents' Council

The UMKC Parents' Council is made up of parents of UMKC students who want to make a difference in their students' lives by taking an active role in the University. The council serves as the communicative liaison between fellow parents of UMKC students and the University. The primary purpose of the Parents' Council is to give parents an opportunity to engage with UMKC and includes developing a closer relationship between UMKC, its students and their parents; keeping parents informed about UMKC activities and events shaping the campus; provide a forum for concerns to be voiced to UMKC leadership; bringing facts about UMKC to an extended audience of prospective students and the general public; support all students education and provide contacts with UMKC employees. For more information, contact the Student Life office at (816) 235-**1407**.

Social Fraternities and Sororities

Fraternities and sororities incorporate nearly every aspect of student development, from social events to leadership training to character edification. The Student Life Office, through direct advising to the chapters, helps UMKC's chapters become increasingly stronger and more vital components of campus life. The Greek Leadership Institute provides programming to ensure the chapters live to their ideals of philanthropy, education, involvement, character and tradition.

Currently, UMKC has 13 national social fraternities and sororities. There are also two local sororities, Delta Rho and Beta Sigma Phi, and a Latin fraternity, Lambda Theta Phi. The national groups are members of one of three governing bodies for Greeks at UMKC.

The Panhellenic Council is an association of the national social sororities for women, which at UMKC includes Alpha Delta Pi, Chi Omega and Delta Zeta. Their primary recruitment season is during the fall semester.

The Interfraternity Council is comprised of four men's fraternities: Beta Theta Pi, Lambda Chi Alpha, Sigma Alpha Epsilon, and Sigma Phi Epsilon. Recruitment is held throughout the school year.

The National Panhellenic Council is comprised of members from the sororities of Alpha Kappa Alpha, Delta Sigma Theta and Sigma Gamma Rho, and the fraternities of Alpha Phi Alpha, Phi Beta Sigma, and Kappa Alpha Psi. Their primary recruitment is held during spring semester, January through May.

Student Government Association (SGA)

This student governing body is composed of the following elected officers - president, executive vice-president, administrative vice-president, comptroller and representatives from all of the academic units and the Residence Hall. This governing body is involved in student concerns, elections, student publications and the student fee allocation process.

Each academic unit has a council to serve the needs of the students in that area. The council elections are held annually.

For more information visit <http://www.umkc.edu/sga> or call (816) 235-1426.

University News

(816) 235-1393

<http://www.unews.com>

The *University News* student newspaper is published weekly for the UMKC student community. Students interested in becoming involved with the campus newspaper should call (816) 235-1393.

Swinney Recreation Center

Swinney Recreation Center

[Swinney Recreation Center](#)

5030 Holmes Street

(816) 235-2712: Campus Recreation

Fax: (816) 235-5470

src@umkc.edu

<http://www.umkc.edu/src>

Director: Marsha Pirtle

Swinney Recreation Center includes the following:

- A 25-meter indoor/outdoor pool.
- A 1/8-mile indoor track.
- A 1/4-mile competitive outdoor track.
- Handball, racquetball and squash courts.
- A fitness training center.
- A wellness center.
- Numerous aerobic training machines.
- Five multipurpose courts.

All students who have paid the multipurpose fee are eligible to use the center. Student membership in the center runs from the first day of class of the current semester to the first day of class of the following semester.

In conjunction with the Swinney Recreation Center, the UMKC Campus Recreation/Intramural Department offers a variety of individual and team sports and programs. Student Intramural Leagues consist of Flag Football, Volleyball, Basketball, Kickball, Softball and Ultimate Frisbee. Individual tournaments include Table Tennis, Golf Chipping, Three Point Shot and many others. For students, faculty/staff and SRC members, activities range from aerobics and swimming lessons (group or private).

University Center

University Center

(816) 235-**1638**
Fax: (816) 235-**5522**
womens-center@umkc.edu
<http://www.umkc.edu/womenc>

Director: Brenda L. Bethman

The mission of the Women's Center at the University of Missouri-Kansas City is to advocate, educate, and provide support services for the achievement of women's equity at the University and within the community at large.

In support of this mission, the Women's Center:

- Facilitates student development through co-curricular experiences that affirm students' identities and foster leadership opportunities;
- Assists the University in achieving its retention goals by offering programming and services that promote student success;
- Recognizes, celebrates, and promotes awareness of the multicultural realities of women's lives, particularly across race, sexual orientation, gender expression and identity, class, age, and abilities;
- Develops women leaders by providing mentoring opportunities and leadership development programs;
- Develops and sponsors programming that enhances the skills of women and assists in their development as students, scholars, and professionals;
- Fosters awareness of the effects of gender roles on women and men;
- Coordinates the UMKC Violence Prevention and Response project by offering support services, referrals, advocacy, and educational and prevention programs around issues of gender violence. This project is funded by a grant from the Office on Violence Against Women in the U.S. Department of Justice;
- Builds alliances and promotes collaboration among University departments and community organizations to utilize existing resources to effectively serve a diverse community of women;
- Promotes the effective and constructive feminist activism of UMKC students, staff, faculty and community members;
- Serves as a resource for the campus and Greater Kansas City communities on issues related to women's lives.

Student Affairs Offices Located in Academic Units

College of Arts and Sciences

Office of Associate Dean for Student Affairs
[Scofield Hall](#), Room 313
711 E. 51 Street
(816) 235-**2534**
<http://cas.umkc.edu>

Associate Dean: Thomas C. Sandreczki [Conta](#)

The associate dean coordinates programs and support to meet curricular and co-curricular needs of undergraduate students.

Staff in the Arts and Sciences Academic Advising Office (9 Scofield Hall) and Program for Adult College Education (PACE, 104 Scofield Hall) provide academic advising to prospective and current students and referrals to faculty advisers, evaluate transfer work and transcripts, monitor degree progress, process class lists, grade rolls, petitions and special requests, conduct graduation degree checks, assist with freshman and transfer orientations, serve as liaisons to

other UMKC and community college advising offices and represent the College at other special programs and recruiting events.

Through the dean's office, coordination and support are also provided for numerous areas related to academic programs, including:

- Curriculum and program development.
- Academic standards, grading and appeals.
- Articulation efforts.
- Assessment measures.
- Catalog production.
- Commencement exercises.
- Scholarships.
- First Year Experience program.
- Enrollment management.
- Various recruitment and retention activities.

In these efforts, the associate dean and staff work with the College of Arts and Sciences faculty and staff, and also coordinate with other University of Missouri academic programs, community colleges and other student affairs offices, including the Office of Admissions, Registration and Records, Financial Aid and Scholarships, Center for Academic Development, Student Life, etc.

Henry W. Bloch School of Business and Public Administration

Office of Student Services
[Bloch School](#), Room 115
5110 Cherry Street
(816) 235-2215
bloch@umkc.edu
<http://www.bloch.umkc.edu>

Assistant Dean for Student Services: Kami Thomas

Staff in the Bloch School Student Services office provide academic support to meet the needs of undergraduate and graduate students. Assistance is provided to prospective, admitted and currently enrolled students in the bachelor's of business administration, master's of business administration, master's of public administration, bachelor's of science in accounting, and master's of science in accounting.

Staff provide academic advising and referral to University resources and support services, determine admissibility to various degree programs and assess preparedness for academic work in the Bloch School.

Other services include scholarship administration, graduation degree checks and notification of insufficient academic progress. Student Services staff work with faculty and other staff to coordinate academic policies and procedures, class schedules, room assignments and enrollment information.

School of Biological Sciences

Undergraduate Programs Office
[Biological Sciences Building](#), Room 016
5007 Rockhill Road
(816) 235-**2580**
sbs-undergrad@umkc.edu
<http://sbs.umkc.edu>

Director of Curriculum: Lynda S. Plamann

The Director of Curriculum coordinates all student matters for undergraduate students pursuing degrees in the School of Biological Sciences. Advisers in the office provide pre-admissions information, registration advising, information about research opportunities, honors programs, career choices and pursuit of advanced degrees, as well as processing degree checks, add-drops and other procedural matters.

The School of Biological Sciences provides academic advising for all undergraduate students each semester prior to registration. Information and appointments can be obtained by calling (816) 235-**2580**.

Graduate students in the school receive advising and administrative support from the School of Biological Sciences Graduate Programs Office. Students may obtain information from that office by calling (816) 235-**2352**.

School of Computing and Engineering

Student Services -- Computer Science Electrical Engineering

Anna Simmons
556 Flarsheim Hall

simmonsal@umkc.edu
<http://www.csee.umkc.edu/>

Student Services -- Civil and Mechanical Engineering

352 Flarsheim Hall
(816) 235-**5550**
cme@umkc.edu
<http://www.sce.umkc.edu/cme>

Both the CME and CSEE departments in the School of Computing and Engineering provide advising and counseling to prospective students who are planning to major in SCE degree programs. In addition both offices enroll all visiting and community students wanting to take courses offered within SCE. Following admission and acceptance into SCE programs, students are assigned a faculty advisor and all SCE students are required to be advised each semester and should contact the department offices for appointments.

Scholarship information for the School of Computing & Engineering can be obtained by visiting <http://www.sce.umkc.edu> and clicking "SCE Scholarships."

The School of Computing and Engineering also participates in UMKC's Interdisciplinary Ph.D. program. For more information visit <http://sgs.umkc.edu>.

School of Dentistry

Office of Student Programs
[Dental School](#), Room 420
650 E. 25th Street
(816) 235-2080
dentistry@umkc.edu
<http://dentistry.umkc.edu>

Assistant Dean for Student Programs: John W. Killip

The Office of Student Programs (OSP) at the School of Dentistry functions within three primary areas of focus and responsibility: admissions/recruitment, student records and student support services.

Representative services/activities provided by the OSP include identification and counseling of potential applicants, processing applications to the school, registration and maintenance of student records, initial assistance in financial aid and counseling and housing.

The majority of students' needs and services are provided directly by the office. For others, office personnel furnish initial assistance, with subsequent referral to other student affairs offices (e.g., UMKC's Counseling and Testing Center, Career Services, Financial Aid and Scholarships Office, etc.), as necessary. In this regard, the OSP serves as a liaison with these University departments.

The OSP also is responsible for a health careers opportunity program. Through the several components of this program, minority and educationally disadvantaged students interested in dentistry are identified, and their opportunity for enrollment and retention in dental school to the point of graduation is enhanced.

School of Education

Office of Student Services
[Education Building](#), Room 129
615 E. 52nd Street
(816) 235-2234
education@umkc.edu
<http://education.umkc.edu>

Assistant Dean: Ginny Miller

The School of Education Student Services office mission is to facilitate student success by providing quality services and support in the spirit of building a community of learners. The office is a referral and resource for all students in the School of Education. Primary responsibilities are to provide quality advising for undergraduates and to coordinate the processing of certification. The staff also assists with recruitment events, contact with prospective students, freshmen and transfer orientation, admissions to teacher education, School of Education scholarship materials, commencement and other student-centered activities.

Advising

Academic advisers are available to meet with undergraduate education and pre-education majors and those seeking teacher certification. In addition, all students are assigned a faculty adviser who is available for assistance in program and career planning. Appointments are required.

Certification

Certification applications and testing information for Missouri and Kansas is kept on file in the Student Services office. The staff processes all applications for education-related certification.

School of Graduate Studies

Office of Student Affairs
[Administrative Center](#), Room 348
5115 Oak Street
(816) 235-**1161**
graduate@umkc.edu
<http://sgs.umkc.edu>

Manager of Student Services: Constance Smith Mahone 

The School of Graduate Studies is the academic home for students enrolled in the Interdisciplinary Ph.D. program, monitoring student progress and providing a variety of support services for the students enrolled in the program. The school coordinates training for Graduate Teaching Assistants, processes requests for graduate student travel support and, in conjunction with the Graduate Student Fellowship and Awards Committee, administers a number of campus graduate competitions. The School of Graduate Studies also works with departments in the Division of Student Affairs to provide programs of special interest to graduate students. Staff members advise students seeking information about graduate study and direct inquires to the appropriate academic unit's principal graduate adviser. The Manager of Student Services also serves in an ombuds role for persons applying to graduate study.

School of Law

Office of Student Services
[School of Law](#), Room 1-200
500 E. 52nd Street
(816) 235-**1644**
<http://www.umkc.edu/law>

Director of Law School Admissions:
Debbie Brooks (brooksdv@umkc.edu)
Director of Student Support Services:
Nicole Francis (francisn@umkc.edu)
Director of Law School Career Services:
Gerald Beechum (beechumg@umkc.edu)

The Dean's Office at the School of Law performs various activities that affect potential or current students. These activities include: recruitment, admissions, student records, academic advising and counseling, course scheduling, registration, designation of scholarship recipients, retention, career services and other support services.

The Assistant Dean supervises Law School admissions, career services and student support services. This office relates on a day-to-day basis with students, administrators and staff in student affairs and various other departments, including Financial Aid and Scholarships, Registration and Records, Campus Police, Cashier's Office and the University Counseling and Testing Center. Prospective students should direct their inquiries to the Director of Law School Admissions. The Director of Student Support Services is available to address the questions and concerns of current students. The Director of Law School Career Services provides assistance to current law students and graduates seeking summer, part-time and permanent employment.

School of Medicine

Office of Student Affairs
[School of Medicine](#), Room M4205
2411 Holmes Street, Dean's Office
(816) 235-**1900**
medicine@umkc.edu
<http://research.med.umkc.edu>

The Office of Student Affairs at the Medical School provides a variety of support services to meet the needs of currently enrolled students and graduates of the School of Medicine. The staff work in close conjunction with the Financial Aid and Scholarships Office in assisting students in finding additional sources of support through extramural scholarship and loan programs. The Office of Student Affairs staff works closely with student organizations and interest groups in support of ongoing activities, special events and projects.

The staff provide career information to students and counsels and assists students in applying for postgraduate residency training programs.

Other student services include: serving as liaison for student reports with the Association of American Medical Colleges, National Resident Matching Program and National Board of Medical Examiners; providing letters of recommendation for extramural electives, residencies, fellowship programs and scholarships; student honors and awards; and alumni support services.

Student Affairs also coordinates the academic advising for students. There is an office for first and second year students on the Volker Campus that facilitates registration and scheduling as well as a learning resource specialist for instruction in learning basic medical sciences, supplemental instruction and tutoring. There are educational team coordinators for the third through sixth year students who facilitate scheduling and registration, as well as serving as liaisons with the core clerkships. There is also a learning resource specialist for this group who primarily works with step one preparation, as well as assistance in the basic science courses in year three.

Conservatory of Music and Dance

Office of the Associate Dean
[Grant Hall](#), Room 138
5228 Charlotte Street
(816) 235-**2900**
conservatory@umkc.edu
<http://conservatory.umkc.edu>

The Office of the Associate Dean at the Conservatory of Music and Dance provides registration assistance, as well as advising, admissions and scholarship information to all prospective, admitted and currently enrolled graduate and undergraduate students. Three additional staff members in the Associate Dean's Office are the student services coordinators for the Conservatory. These coordinators assist undergraduate and graduate students with curricular and co-curricular concerns and act as liaisons with other University offices.

Information needed to complete your admission or enrollment process can be obtained in the Office of the Associate Dean. Students can get add/drop forms, advisers' signatures and petition/appeals forms in this office.

School of Nursing

Office of Student Services
Health Sciences Building
Hospital Hill Campus
2464 Charlotte Street
(816) 235-**1700**
nurses@umkc.edu
<http://nursing.umkc.edu>

Manager of Student Services: Judy Jellison

The Office of Student Services at the School of Nursing provides numerous services to meet the needs of current students and individuals desiring admission to the School of Nursing. This office coordinates all activities related to admission, advisement, enrollment, registration, graduation, and other student support services. The office assists students seeking financial aid and scholarship monies.

The Office of Student Services maintains student records for graduates and current students and provides assistance to nursing student organizations. In addition, Student Services personnel provide information to prospective students and the community at large regarding UMKC and the School of Nursing.

School of Pharmacy

Office of Student Services
Health Sciences Building

pharmacy@umkc.edu
<http://pharmacy.umkc.edu>

Associate Dean of Student Affairs: Wayne M. Brown
Director of Student Affairs: Shelly M. Janasz

The Student Services office at the School of Pharmacy provides those essential services that develop, maintain and support currently enrolled undergraduate and professional students, and those pre-pharmacy students desiring admission to the UMKC School of Pharmacy. The School of Pharmacy offers degree programs leading to the Bachelor of Science in Pharmaceutical Sciences, Doctor of Pharmacy and graduate level degrees in pharmaceutical sciences and pharmacology.

Student support services include academic advising, short-term counseling referral, assistance in identifying scholarships, financial aid, and part-time employment, remediation and retention programs, records retention, registration and progression, assistance to student organizations with professional projects. The Student Services office works closely with the director of alumni affairs within the School in developing programs that link current students and alumni. Staff and administrators in the office also serve on a number of School and University committees and task forces, and are responsible for drafting reports to pharmacy agencies such as the American Association of Colleges of Pharmacy and the Accreditation Council for Pharmacy Education.

The Student Services office at the School of Pharmacy coordinates activities with other departments in the Division of Student Affairs to provide programs of special interest to pharmacy students. The office also works as a liaison to other academic units and student affairs' departments on campus, as well as state licensing boards. It assists the School of Pharmacy faculty in administering curricular functions, class scheduling, course and instructor evaluations, admissions and retention policies and the faculty advising process.

Several annual events are sponsored through the office including: the admissions interview process, doctor of pharmacy orientation, professional dedication ceremony, achievers of excellence celebration, pharmacy career day, graduation awards banquet and commencement, Grand Rounds' seminars and senior exit day.

Description

The [University Libraries](#) consist of the Miller Nichols Library, the Health Sciences Library and the Dental Library, and we partner with the Leon E. Bloch Law Library. Our mission states that the University Libraries is an essential partner in intellectual discovery, knowledge creation, and empowerment.

The University Libraries provide research facilities, resources and services in support of academic programs. We partner with the campus [Office of Services for Students with Disabilities](#) (OSSD) and are committed to providing services and assistance to all members of the UMKC Community. Information about [services for individuals with disabilities](#) can be found on the Web site at <http://library.umkc.edu/disability> and by calling 816-235-1508 or the Miller Nichols Library Reference Desk at 816-235-1534. The Library accepts calls through the National Relay Service (711) and the Missouri Relay Service (800-735-2966).

The [Miller Nichols Library](#) serves primarily the [College of Arts and Sciences](#), the [Conservatory of Music and Dance](#), and the schools of [business and public administration](#), [education](#), [pharmacy](#), [biological sciences](#) and [computing and engineering](#). Specialized libraries are located in the schools of [law](#), [dentistry](#) and [medicine](#). UMKC faculty, students and staff have access to all collections and services, subject to the policies in effect at each library location.

Other Collections:

- [Marr Sound Archives](#) (Miller Nichols Library)
- [Music/Media](#) (Miller Nichols Library)
- [Dr. Kenneth J. LaBudde Special Collections](#) (Miller Nichols Library)
- [Western Historical Manuscript Collection](#) (Newcomb Hall)

Leon E. Bloch Law Library

Leon E. Bloch Law Library

(816) 235-1650
<http://www.umkc.edu/law/library>

The [Leon E. Bloch Law Library](#) is a comfortable, efficient and user-friendly facility located in the School of Law at 52nd and Oak streets and open to both students and members of the public. All UMKC students may check materials out with a current student ID.

The library contains holdings in all major areas of legal scholarship and practice, including international, comparative and government materials. Most of the collection is on open shelves, with ample research and study space provided by tables and study carrels, and dedicated work space provided for student editors of the UMKC Law Review and the Urban Lawyer.

The library has highly qualified reference librarians with many years of legal practice as well as library experience. Reference librarians are available during the regular semester as follows:

Monday - Thursday 9 a.m. - 7 p.m.
Friday 9 a.m. - 5 p.m.
Sunday 3 p.m. - 7 p.m.

However, please note that access to the library is restricted after 7:00 p.m. to law students and faculty. Exceptions may be made for other students needing to do research, on a case-by-case basis.

The physical collection is augmented by subscription databases, an international interlibrary loan system, and a state-

wide lending consortium, including the university and law libraries of the University of Missouri - Columbia, Saint Louis University and Washington University, with 18 million items held within the state-wide system.

Electronic Resource Center:

Technology has reshaped legal research in ways that will forever alter how attorneys and judges approach their work. The information professionals of the [Leon E. Bloch Law Library](#) have embraced this transformation by providing wireless networking throughout the law building and the Jerry Haley Electronic Resource Center (JHERC). The JHERC includes 40 Pentium-processor equipped computers, an instructional lab, Internet access, and numerous subscription databases.

The lab also includes printers, a scanner and a dedicated workstation for the visually impaired. Librarians provide instruction in legal information technologies during the first-year legal research and writing course, at a special research "boot camp" during spring intersession, and in upper-level courses and extra-curricular activities as needed.

Law Library and Resource Center Hours

Monday - Thursday 7 a.m. - Midnight
Friday 7 a.m. - 7 p.m.
Saturday 9 a.m. - 5 p.m.
Sunday Noon - Midnight

However, please note that access to the library is restricted after 7:00 p.m. to law students and faculty. Exceptions may be made for other students needing to do research, on a case-by-case basis. Summer, spring break and intersession hours are available at <http://www1.law.umkc.edu/Library/HOURS.HTM>.

College of Arts & Sciences Major and Minor Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must declare a major. The College strongly encourages students to consult faculty advisers and the UMKC Career Services Office counselors for assistance in choosing suitable academic and career goals. To select a major, students must file a "Declaration of Major" form in the Arts and Sciences Advising Office, 9 Scofield Hall. For specific requirements for majors, see the earlier College section on Degree Program (Major) and the appropriate academic department section in the pages to follow.

Degree Program Major

The undergraduate degree-seeking student in the College must fulfill the requirements for a degree program (major) as specified in the appropriate part of this catalog. The minimum is 26 semester hours.

A minimum of 12 semester hours in the degree program (major) must be earned in the major department at UMKC. A minimum of a C average in the major is required.

The College encourages students to seek advising early in their academic careers regarding choice of a major. Students must file a formal "Declaration of Major" form in the Arts and Sciences Advising Office.

Double Major

A double major is a program in which a student completes in total two full majors. The degree requirements of each of the two majors must be fulfilled and there can be no more than nine hours in common between the two. The two departments must approve the final program. The degree will indicate both majors, e.g. bachelor of arts, English and sociology.

Combined and Dual Degree Programs

In coordination with several of the professional schools, the College of Arts and Sciences students may earn combined degrees. Combined degree programs are offered in dentistry, law and medicine. In the combined degree program, 30 credit hours in the professional schools may count toward the fulfillment of the baccalaureate degree. All degree requirements of the College must be fulfilled. The professional hours are generally considered upper-level elective (blanket) credit. In this manner, the two degrees are earned concurrently and the student's program is accelerated considerably. Students are advised to check with the advising offices of the appropriate schools before making their plans.

Dual degrees are awarded to students who complete all requirements for double majors in the College and also earn 150 total credit hours. The general education requirements for both degrees, if different, must be completed as well. Additionally, the College cooperates with the School of Education to enable students in elementary and secondary education to earn dual degrees in the School of Education and the College of Arts and Sciences.

Earning a Second Bachelor's Degree

Students wishing to earn a second bachelor's degree, whether or not the first was earned at UMKC or another college or university, must complete a minimum of 30 additional hours. Of those 30 additional hours, a minimum of 12 must be taken in the major department. The student must also fulfill any additional general education requirements and major requirements in effect when the student is admitted or readmitted to pursue the second bachelor's degree.

Minor Program

An academic minor may be taken in many departments in the College by students enrolled in a B.A., B.S., or the B.L.A. degree program. The academic minor is optional and must be declared no later than the beginning of the student's senior year.

A minimum of 18 hours is required in the minor area. At least nine of those hours must be upper-division courses. The courses and total number of hours are determined by the department or departments granting the minor. A minimum of nine hours for the minor must be earned at UMKC.

A student interested in a minor should consult a departmental adviser. Minors offered in the College include the following: anthropology; art history; studio art; black studies; chemistry; classical and ancient studies; communication studies; criminal justice and criminology; economics; English writing; English language and literature; environmental studies; family studies; film studies; French; geography; geology; German; gerontology; history; healing and the humanities; Judaic studies; mathematics; philosophy; physics; political science; sociology; Spanish; theater; and women's and gender studies.

Exceptions

Exceptions to academic regulations must be approved by the Academic Standards Committee of the College of Arts and Sciences. To seek exceptions, students must file a "Petition for Exception" form in the Arts and Sciences Advising Office, 9 Scofield Hall.

CAS Statement of Purpose

The primary academic missions of the College of Arts and Sciences are teaching, research and service. Through these functions, the College serves the community, the state and society at large. The research and scholarship of the College's faculty not only expand the body of knowledge generally, but also enrich and enhance its teaching and instructional programs.

Most departments of the College offer both undergraduate and graduate study. The College enables students to develop the creative, analytical and communication skills which sustain a lifelong educational process. In addition to serving its own students, the College provides instruction in the liberal arts and sciences for students in the UMKC professional schools. Through its continuing education division and certificate programs, the College also serves individuals and groups in the community.

The general degree requirements designated by the College give students a breadth of knowledge, enabling them to understand and appreciate the many facets of human experience, to make meaningful relationships between the various fields of knowledge, and to increase their understanding of themselves, their interests and special abilities. The general requirements and introductory courses allow for maximum freedom in selection of a major field of study and provide the basic knowledge for that particular field or for the choice of a bachelor of liberal arts degree with no major.

Work in the major field of study provides students with a comprehensive and systematic introduction to a field of scholarship and prepares them to function in the professional fields of their choice. Should a student choose to go beyond the baccalaureate degree, the major provides a solid basis for graduate study. The objective of the total academic program of the College is to engage students in study that will enable them to work competently in their chosen fields or pursue graduate work, while at the same time developing a breadth of knowledge in the arts and sciences. In that way, students can understand their specializations in the larger context of the intellectual and social life of the community.

Graduate-level studies provide students with advanced instruction and/or independent research in the major field of study. Students pursuing master's-level work in a major field or a Ph.D. in Clinical Psychology are directed to the relevant department or program listing in the Arts and Sciences section of this catalog and to the General Graduate Academic Regulations and Information section of this catalog. Those planning other Ph.D.-level studies are directed to UMKC's Interdisciplinary Ph.D. program listing in the School of Graduate Studies section of this catalog.

CAS The Superior Student

The College offers superior students various means to enhance or accelerate their academic programs.

Dual Credit High School/College Program (HSCP)

The College offers advanced students in many Kansas City area high schools the opportunity to earn UMKC credit prior to high school graduation through the [High School/College Program](#). Qualified students may enroll in introductory college courses that meet general requirements for a bachelor's degree.

Credit by Examination

Students may gain credit by any or all of the four methods listed below:

- [International Baccalaureate \(IB\)](#).
- [Advanced Placement \(AP\)](#).
- [College Level Examination Program \(CLEP\)](#).
- [Departmental Exam](#).

See the General Undergraduate Academic Regulations and Information section of this catalog for additional information.

Fellowships and Awards

The Center for International Academic Programs (CIAP) assists students who want to apply for major fellowships that support continued undergraduate study and graduate school. The CIAP Web site identifies an extensive list of these fellowships for both national and international study, including, but not limited to the Truman, Goldwater, Udall, Fulbright, Rhodes, Marshall, Jack Kent Cooke, NSEP Boren, and Rotary. These are highly competitive awards that demand careful planning and a commitment of time and effort. All fellowships require applicants to have a high GPA. In addition, typical eligibility criteria include a record of community service, evidence of undergraduate research or original work, strong faculty references, and a commitment to future academic or public service. A number of the fellowships require an on-campus review and nomination before a candidate can move forward to the national competition. Most of these fellowships provide substantial financial support as well as opportunities for travel and specialized seminars with fellow grantees. For additional information please call (816) 235-5759 or visit <http://www.umkc.edu/international>.

Honors Program

Details of the Honors Program can be found in the [Honors Program](#) section of the College's portion of this catalog.

Independent Study

The opportunity to undertake independent study is offered by many departments in the College to students who qualify. Generally, the student receives the individual attention of a professor in the chosen field of study and completes a project that may involve any topic considered appropriate by that professor to the academic needs of the student. Typical kinds of independent study include: special reading topics, creative work in the humanities, research projects, performances in the arts or fieldwork experiences.

Undergraduate Research

Undergraduate research opportunities are available in many disciplines within the College. Interested students should speak with faculty members in their major department. When selecting a faculty mentor for undergraduate research, students should consider their own research or creative project ideas, courses they have taken, as well as faculty research interests.

CAS Advising System

Scofield Hall , Room 9
711 E. 51st Street
(816) 235-1148
<http://cas.umkc.edu/advising>

Our Vision:

Guiding, supporting, and inspiring students to achieve academic excellence

Our Mission:

The mission of the UMKC College of Arts and Sciences Academic Advising Office is to guide students toward academic success in higher education.

Advisers within the College are directly responsible for advising current and prospective Arts and Sciences students on general education requirements and how to apply them to their degree program. Advisers assist students with selecting majors, monitoring academic progression, and fulfilling graduation requirements while educating them on campus resources, university policies and procedures, and options for graduate or professional schools. Advisers are role models who teach students how to navigate through the educational journey encouraging students to actively engage themselves in their education. The Academic Advising Office creates an atmosphere promoting autonomous life-long learning where students accept responsibility and ownership for their personal academic progression, degree completion, and goal achievement.

Advisers within the College are committed to serve as a bridge among students, faculty, and staff. The Academic Advising Office provides training and development for professional and faculty advisers to ensure they are effectively meeting the needs of students. Advisers support the College's commitment to educate students in the arts and sciences providing them with a breadth of knowledge valuable to the intellectual and social community. Advising allows for the promotion of understanding of these general education goals which play a key role in the development of students becoming productive contributors to society. Due to the unique relationship between advisers and students, advisers play an integral role in recruitment, retention, and student success for the College of Arts and Sciences and UMKC as a whole.

As students progress through their higher education journey at UMKC, the Academic Advising Office fosters and encourages students toward achieving academic success.

Faculty and staff advisers:

- Assist students in choosing majors and planning their academic programs.
- Inform students about the general education requirements of the College and relate them to their major requirements.
- Advise students on class selection and registration.
- Offer advice on educational and career goal setting.
- Assist students in locating support services on campus.
- Perform degree audits and graduation status checks.
- Connect students with faculty on campus.
- Review academic policies and procedures with students.
- Help students with other related issues and problems of an academic nature.

Academic advising responsibilities are distributed among faculty advisers and professional advisers in the College of Arts and Sciences Academic Advising Office in the following manner:

- Undergraduate and graduate faculty advisers in each department or program:
 - Advise students in their major field of study.
 - Advise students about departmental student organizations as well as internship or undergraduate research opportunities within the department.
 - Advise students concerning graduate study requirements.
- Professional and graduate-student advisers in the Arts and Sciences Academic Advising Office:
 - Advise bachelor of liberal arts students, including students in the Program for Adult College Education (PACE).
 - Advise students who have not yet declared a major or are on probation.
 - Help all undergraduates with special requests and problems.
 - Evaluate transfer courses.
 - Conduct degree audits prior to graduation on all bachelor's degree-seeking students.

While academic advising is not required for all students, it is recommended that students seek academic advising each semester to avoid problems later. Certain undergraduate majors do require academic advising each semester. Students

required to secure an adviser's approval and release before enrolling include:

- All freshmen.
- General studies and undeclared students.
- Probationary students.
- Students requesting overloads or credit/no credit option.
- Undergraduate majors in art, chemistry, physics and theater.
- Graduate majors in chemistry, English, geosciences, sociology, and theatre.

When the next semester's course schedule is published on the UMKC Web site, students should contact their academic adviser. Students who promptly seek academic advising have a better chance of securing their first choice of courses and times. While the Arts and Sciences Advising Office sees students on an appointment as well as walk-in basis, most faculty advisers require an appointment.

Additional Resources

Freshmen and transfer students are encouraged to enroll in Arts & Sciences 100. This course focuses on providing students with information and skills that will help them choose a major and develop numerous strategies for academic success.

The Career Services Center provides workshops for students at all levels on decision making and career connections with liberal arts majors. Student paraprofessionals offer opportunities for individual counseling as well as group sessions concerning choosing majors, finding internships and employment.

Graduate Student Advising

Faculty advisers in each department assist students in planning their academic programs and inform them about the degree requirements of the programs. Graduate students required to secure an adviser's approval before enrolling include majors in chemistry, English, geosciences, sociology and theatre. The [Career Services Center](#) provides workshops for students on decision making and career connections.

College of Arts and Sciences General Education Requirements

Requirements for Bachelor's Degrees

The College offers three degree options: the Bachelor of Arts, the bachelor of science and the bachelor of liberal arts. The general education requirements for all bachelor of arts and bachelor of science degrees are listed below. For information on the bachelor of liberal arts, please see the College's Liberal Arts section of the catalog.

Differences between B.A. and B.S. General Requirements

The general requirements for the bachelor of arts and bachelor of science degrees are the same, with two exceptions:

- The bachelor of science degree requires a minimum of 60 hours in math and science.
- The bachelor of science degree does not require any foreign language.

Students may earn a bachelor of science degree in the following disciplines:

- Chemistry
- Environmental Studies
- Geography
- Geology
- Mathematics and Statistics
- Physics

In all instances, students should contact the appropriate department concerning its requirements for a bachelor of science degree.

General Education Requirements

A. Communication (12 credit hours)

Every student must complete the following:

1. First Year Writing course. ENGLISH 110 or HMNTY 105P. This requirement may be satisfied by scoring 30 or higher on the English subsection of the ACT or 690 or higher on the verbal subsection of the SAT.
2. Sophomore-level Writing Intensive course. ENGLISH 225 or HMNTY 202P.
3. The [UMKC Written English Proficiency Test \(WEPT\)](#). The WEPT is a prerequisite for all writing intensive courses and should be taken after a student has completed ENGLISH 225 and 45 credit hours. The WEPT is also a graduation requirement for all students. Those who fail the WEPT twice must take ENGLISH 299; this course, which does not count towards the degree, will serve as the WEPT for students who earn a C- or better in the course.
4. Junior/Senior-level Writing Intensive (WI) course. Upper-level (300/400-level) Writing Intensive courses are designated with WI or PW following the course number. Writing Intensive courses should be completed during the junior or senior year and after the completion of the three requirements above.
5. One course in which oral argumentation is a major focus. This requirement is met by the courses
 - COMM-ST 110, 212, 213, 254P, 311, 343,
 - THEATER 121 or
 - HMNTY 404PW.

B. Mathematical, Symbolic and Logical Reasoning (6 credit hours minimum)

Every student must complete the following:

1. MATH 110 or higher (except MATH 125), or demonstrate competency equivalent to four units (years) of acceptable high school mathematics, beginning with Algebra I or higher.
2. One course requiring extensive use of mathematical, symbolic or logical reasoning. This requirement is met by the courses
 - Any mathematics course at or above the 200 level (under the curricular designation of Mathematics or Statistics and offered in the mathematics department); or
 - PHILOS 222. (Note: PHILOS 222 may be chosen here only if it has not been chosen as the philosophy requirement below.)

C. Foreign Language and Culture (13 credit hours)

Every student must complete the following:

1. Three semesters of the same foreign language (110, 120 and 211) are required for all B.A. degrees.
 - Students with high school or other foreign language experience are strongly recommended to take the language placement exam, which can be accessed on the Department of Foreign Languages website. Regardless of the level of placement, students must complete a sophomore-level course (211 or above).
 - Students who have satisfactorily completed two years of a foreign language in high school will be exempt from the 110 college-level course and will be required to complete only two additional (120 college-level and above) courses in that same language.
 - Students who completed four years of the same foreign language in high school must complete only one additional sophomore-level (211 or above) course in that same language.
 - Full-time, degree-seeking students whose education through eighth grade, or the equivalent, has been in a language other than English shall be exempt from the foreign language requirement for the general education requirements. Students must contact the Department of Foreign Languages to obtain a letter of exemption. Other speakers of a foreign language (i.e. heritage speakers) do not qualify for a complete exemption from the foreign language requirement, and would need to take at least one 3-credit hour course at the appropriate level.
 - Students will not receive college credit towards a degree for any of the above exemptions.
2. One course that focuses on cultural perspectives of an interdependent global environment. This requirement is met by

the courses

- ART 315
- HISTORY 201, 202, 206, 208
- GEOG 200, 202,
- GERMAN 410/410A
- SOCIOL 103
- POL-SCI 220
- ECON 412 or
- UPD 260.

D. Computer and Information Technology (3 credit hours)

Every student must demonstrate competence equivalent to a programming course or software application course that includes substantial computer experience. This requirement is met by one of the following courses

- ART 114,
- A&S 100,
- COMP-SCI 100, 101, 105P or
- A computer application course in the student's major/program.

E. Literature and Philosophy (6 credit hours)

Every student must complete the following:

1. One of the following literature courses
 - CLASSICS 210, 319,
 - ENGLISH 205, 213, 214, 215, 241, 311, 317, 319, 321, 323, 325, 326, 327, 331, 333, 356
 - HMNTY 203P,
 - WLD-LIT 210, 220,
 - FRENCH 301, 303, 304,
 - GERMAN 301,
 - SPANISH 301, 303, 304, 373, 374, 401 or 402.

2. One of the following courses
 - PHILOS 210,
 - PHILOS 221,
 - PHILOS 222, (Note: PHILOS 222 may be chosen here only if it has not been chosen as the symbolic and logical reasoning requirement above) or
 - HMNTY 106P.

F. Distribution Requirements for General Education

1. Social and Behavioral Sciences (three courses, 9 hours). The nine hours chosen to complete the social and behavioral sciences distribution requirement in (a.) and (b.) below must come from at least two different departments.

a. Constitution Requirement:

Every student must fulfill the Missouri state requirement to take a course covering the United States Constitution and the Missouri State Constitution before graduation. Courses that satisfy this requirement are

- HISTORY 101, 102, 360R (American History),
- POL-SCI 210 (American Government), POL-SCI 409P or
- SOC-SCI 102P.

b. Distribution Electives:

Every student must also complete two courses from the social and behavioral sciences. Students may select courses from the following departments/areas:

- American Studies
- Anthropology

- o Criminal Justice and Criminology
 - o Economics
 - o Geography (regional or cultural, which includes GEOG 105, 200, 202, 210, 300, 309, 311, 329, 332, 333, 340, 341, 342, 350, 351, 352, 355, 403, 405, 410, 415, 435, 437, 460, 489 or 496 only)
 - o History
 - o Political Science
 - o Psychology
 - o Sociology
 - o SOC-SCI 210 or 220
2. Physical and Biological Sciences (two courses, 8 hours minimum). Every student must complete at least two lecture courses in the physical and/or biological sciences. One of the courses must be a lecture/laboratory combination. Students may select courses from the following departments/areas:
- o Chemistry
 - o Environmental Science
 - o Geography (physical geography only, which includes GEOG 150, 203, 215, 314, 317, 319, 335, 336, 360, 398, 401, 402, 404, 406, 426, 430, 435, 442, 444, 448 or 450)
 - o Geology
 - o Natural Science
 - o Physical Science
 - o Physics
 - o Biology
3. Humanities and Fine Arts (two courses, 6 hours).

a. Fine Arts:

Every student must complete one of the following courses:

- o ART-HIST 110, 110P, or any upper-level (300/400) course in art history
- o Environmental Design ENV-DSN 110
- o THEATRE 130, 210
- o Conservatory CONSVTY 120

b. Humanities:

Every student must complete one additional course from any of the following departments/areas:

- o Art (Studio)
- o Art History
- o Communication Studies
- o English
- o Foreign Languages
- o Humanities
- o Philosophy
- o Theater

4. Interdisciplinary Cluster Course (one course, 3 hours). Every student is required to complete a junior/senior interdisciplinary cluster course. Cluster courses provide opportunities to study special themes or historical periods from the perspective of several different disciplines at once and to show how different disciplines complement each other to form a more comprehensive understanding of a given topic. See the subsection below on "Interdisciplinary Cluster Courses" for additional information and a list of approved cluster courses.

G. Capstone Course

All students in a major must complete a course designated as a capstone course in their major.

H. Additional Requirements and Restrictions

- A minimum of 120 total credit hours is required for graduation.
- At least 36 credit hours must be at the 300-400 level.

- A 2.0 overall GPA is required for graduation. However, the required major GPA may be higher, as determined by each department individually.
- A maximum of 3 hours of one-credit activity courses in physical education may be applied toward the 120 minimum

Interdisciplinary Cluster Courses

Cluster courses provide opportunities to study special themes or historical periods from the perspective of two or more different disciplines at once. Each course is developed to integrate with one or more courses in other fields to show how different disciplines complement each other to form a more comprehensive understanding of a given topic. All courses within a given cluster meet at the same time, so the students can all meet together periodically to explore the cluster theme. In some clusters, the classes meet together all the time so that the different disciplines are integrated throughout the course.

As part of the B.A. and B.S. humanities area requirement, the College requires that all students, including humanities majors, take an interdisciplinary cluster course (specially designated courses taught by faculty from at least two different departments, one of which must be in the Division of Humanities or the Department of History). Students should also discuss with their advisers how cluster courses fit into their personal degree programs. As a general guide, individual courses in each cluster:

- Count toward fulfillment of the humanities requirement for the B.A., B.S., and B.A./M.D. degrees.
- Count, if they are numbered 300 or above, toward the 36 junior-senior hours of electives required for graduation.
- Count toward fulfillment of the departmental requirements for majors in the field in which the course is taken.
- Can be taken for graduate credit if numbered 300 or above, with departmental approval.

The following is a partial list of cluster courses now available. There are no prerequisites for any of these courses. See entries under the relevant departments for more detailed explanations of the contents of each course.

- ***Aesthetic Issues in the Arts***

Transfers with Certified 42-hour block from another Missouri institution

Students transferring into the College of Arts and Sciences with a certified 42-hour block of general education credit from another Missouri institution must complete the following additional general education requirements for baccalaureate degrees in the College:

Bachelor of Arts

- Three semesters of the same foreign language.
- Interdisciplinary junior/senior Cluster course.
- Written English Proficiency Test (WEPT).
- Junior/senior level Writing Intensive course.

Bachelor of Liberal Arts

- Written English Proficiency Test (WEPT).
- Junior/senior level Writing Intensive course.

Bachelor of Science

- Interdisciplinary junior/senior Cluster course.
- Written English Proficiency Test (WEPT).
- Junior/senior level Writing Intensive course.
- 60 total credit hours (including hours in the major) of math and science.

UMKC's 42-Credit Hour Certified General Education Core **for Students Transferring to Another Missouri Institution**

College of Arts and Sciences students wishing to complete the 42-hour core should also consult with an academic adviser in the Arts and Sciences Advising Office, 9 Scofield Hall.

CAS Arts and Sciences Student Council

The council aims to provide an interdisciplinary body in which Arts and Sciences students can provide input on decisions and policies of the College. The council works to enhance student-faculty interaction and communication; allocate its authorized budget; and ensure that Arts and Sciences students' needs, desires and attitudes are correctly represented to the administration.

College of Arts & Sciences General Undergraduate Academic Regulations

Registration Approvals

In addition to the information below, see the earlier College section entitled Advising System.

All freshmen, general studies and undeclared students are required to secure an adviser's approval to register for classes. In addition, undergraduate majors in art, chemistry, physics and theatre, and graduate students in chemistry, English, geosciences, sociology and theatre must secure adviser's approval to register.

Any student on academic or special contract probation, requesting an overload, or requesting the credit/no credit option, must secure an adviser's approval before completing registration.

Students must have the signature of the instructor or faculty adviser on a special consent form before they are allowed to register in any art courses beyond the 100-level, Arts and Sciences 350 (Honors Tutorial), Special Topics, Directed Field Experience, Directed Readings, Individual Research or any other courses specified by a department.

All students in the College are also subject to any special signatures required by other academic units at UMKC.

Repeated Courses

If a course is repeated at one of the four UM campuses, the hours and grade points of both the original and repeated courses are used in computing the grade-point average. Only the earned hours from the last repeated enrollment will apply toward degree requirements or total hours required for graduation.

Professional School Credit

A maximum of 30 acceptable semester hours (2.0 GPA or better) of study in professional schools may be applied toward the bachelor's degree. Acceptable professional schools for this purpose are law, dentistry, optometry, pharmacy, nursing and medicine. This credit is elective credit and does not satisfy any specific degree requirement.

Writing Intensive Requirement

Writing Intensive courses, designated with a WI or PW following the course number, are intended to help students learn to express themselves formally and coherently in discursive prose. Writing in this connection is to be regarded not as a corpus of art or information to which students should be exposed, but as a crucial skill, the teaching of which is among the primary missions of the College. It is assumed that extended and intensive writing can be equated with contemplation and concentration on the subject matter; students learn by writing in any field.

Each Writing Intensive course includes several writing assignments and these assignments form an integral part of students' efforts to progress in the course. A review and revision cycle is used with systematic feedback. The students' writing might address philosophical concerns, methods, or specific topics, but their work is always based on exposure to published expository writing. While the exercises may take different forms, they may include:

1. Prewriting; e.g., outlines, journals, free-writing exercises and organizational notes.
2. Submission of preliminary drafts for oral and written responses by the instructor (peer response also might be incorporated).
3. Revision of content, organization, mechanics and style.

Students will prepare a number of different assignments of varying lengths and intent. An extended essay or term paper is expected in all Writing Intensive classes. Examinations may incorporate essay questions.

Hour and GPA Requirement

A minimum of 120 hours is required for graduation. Of those hours, 36 must be at the 300-400 level. A minimum cumulative grade-point average of 2.0 is required as well as a 2.0 in the major. (Some majors have additional GPA requirements. Students should consult the appropriate section of this catalog for their major.)

Residence Requirements

The general minimum residence requirement for the undergraduate degree is the final 30 consecutive semester hours of coursework. In the case of students using 30 hours in a UMKC professional school to complete their undergraduate degree, the residence requirement becomes the final consecutive 30 hours of the College's coursework prior to entrance into the professional school.

Written English Proficiency Requirement

The WEPT is a prerequisite for all Writing Intensive courses and should be taken after a student has completed English 225 and 45 credit hours. The WEPT is also a graduation requirement for all students. Those who fail the WEPT twice must take English 299; this course, which does not count towards the degree, will satisfy the WEPT requirement for students who earn a C- or better in the course.

The WEPT is given twice each fall and spring semester and once in the summer; the dates of the test appear regularly on the [Academic Calendar](#) in the [Schedule of Classes](#).

For additional information on the WEPT, such as frequently asked questions, how to prepare for the WEPT, and how to document and cite sources, see the [Department of English Web page](#). Other information about the WEPT can be found in the general requirements for the College's bachelor of arts, bachelor of science and bachelor of liberal arts degrees, as well as the General Undergraduate Academic Regulations and Information section of this catalog.

Graduation Procedure

After completion of 90 credit hours, students should file an "Application for Graduation" form in the Arts and Sciences Academic Advising Office, Scofield 9. After the application is filed, a review of the student's transcript is prepared, and the student is contacted through UMKC student e-mail to come to the Advising Office for an audit of the general education requirements. During this degree audit process, the following are checked:

- The student's transcript is compared to the general education requirements. All remaining general education requirements are outlined and discussed.
- The student's information is reviewed to insure all majors and minors, as appropriate, have been declared.
- The student's total hours, junior/senior level hours, residence requirements, the minimum major and minor hours, and grade-point average are reviewed.

After the general education portion of the degree audit is complete, the student is given a major degree audit form and a copy of his/her transcript to take to the major adviser for completion. When the major portion of the degree audit has been completed, the student is responsible for returning it to the Arts and Sciences Advising Office. This process is repeated for any additional majors and/or minors.

There are several other important components of the graduation process that the student is solely responsible for completing:

- All students are required to take the MAPP, administered by the Assessment Office.
- Students with majors must also check with their department to see if a Major Field Exam is required.
- Students should have their degree audit updated every semester to make sure they are still making progress towards graduating during the semester for which they have applied.
- Students are responsible for making sure their address and telephone numbers are correct in the student information system. This should be checked each semester.
- Students must check their UMKC e-mail account regularly for important and relevant graduation and other information.
- Any incomplete grade on a student's transcript must be completed and recorded in the Registrar's Office by the end of the semester in which he/she is graduating.
- Any missing transcripts must be received by the Office of Admissions by the end of the semester in which a student is graduating.

Reapplying for Graduation

If a student does not graduate in the semester for which he/she has applied, he/she must reapply for graduation in the Arts and Sciences Advising Office. The College cannot extend a student's application to the next semester without written notification from the student.

Exceptions

Exceptions to academic regulations must be approved by the Academic Standards Committee of the College of Arts and Sciences. To seek exceptions, students must file a "Petition for Exception" form in the Arts and Sciences Advising Office, 9 Scofield Hall.

CAS Study Abroad Programs

[Center for International Academic Programs](#)

5325 Rockhill Road

(816) 235-5759

<http://www.umkc.edu/international>

In collaboration with the Center for International Academic Programs, the College helps make available to its students a variety of study abroad programs that provide an exciting way to add a global dimension to their UMKC education through exploring and sharing the cultures of other countries.

Study abroad programs are available for a summer, semester or academic year. Students can earn credit towards their degree, and with careful planning, they should lose no time toward graduation. Study abroad is affordable since financial aid and scholarships are applicable to many programs, and other grants and scholarships are available specifically for study abroad.

The exchange university consortium, Mid-American Universities International, InterFuture, foreign exchanges offered through the Department of Foreign Languages and Literatures, and the Missouri-London program are among the many program choices available. Among the possible destinations are:

Argentina	England	Korea	Scotland
Australia	Finland	Lithuania	Slovenia
Austria	France	Malta	South Africa
Belgium	Germany	Mexico	Spain
Chile	Greece	Netherlands	Sweden
Costa Rica	Iceland	New Zealand	Switzerland
Czech Republic	Ireland	Norway	
Denmark	Italy	Portugal	

For more information regarding study abroad and related scholarships, please visit <http://www.umkc.edu/international>. Additionally, the UMKC Study Abroad Coordinator is available at (816) 235-5790.

Pre-Professional Programs

Prerequisites for advanced professional programs in law and the health professions can be satisfied as a part of any degree program in the College of Arts and Sciences.

Pre-Medicine, Pre-Dentistry and Pre-Health Advising:

Please see the additional catalog section on *Pre-Medicine/Pre-Health* for more detailed information on pre-medicine, pre-dentistry and pre-health.

Program Director:

Bachelor of Arts in American Studies

Student Learning Outcomes

Students graduating with a baccalaureate degree in American Studies will:

- Be able to think in a truly interdisciplinary way about issues and ideas that contribute to a comprehensive view of American culture.
- Be able to integrate a variety of disciplines to create a topic or theme of their choice for research that culminates in a major paper or other form of presentation (film, art, music, photography).
- Be able to write clearly and present ideas effectively.
- Be able to work independently.

Students graduating with a baccalaureate degree in American Studies will be prepared for entry into graduate programs, professional programs or into public sector or private sector employment.

Program Requirements

The American Studies major is an interdisciplinary approach to the study of the culture of the United States, and is open to selected students in good standing.

A student interested in majoring in American Studies should consult with the director, who will act as the student's adviser if he or she is admitted to the program. Superior work is expected from all students.

A major requires at least 36 credits, including:

1. Six hours of introductory courses that focus on American Studies and introduce the student to interdisciplinary methodology and the literature of American Studies: AMER-ST 250 and AMER-ST 251 (PACE equivalent AMER-ST 341P and AMER-ST 302P).
2. A three-hour integrating seminar (AMER-ST 440WI), in which the student produces an interdisciplinary seminar paper based on his or her coursework and its prerequisite, AMER-ST 400.
3. The remaining 24 hours of coursework must come from at least three relevant departments and must be approved by the director and the core faculty from American Studies. The courses must represent an interdisciplinary focus on a particular theme or issue in American life.

Programs are tailored to the individual student and therefore tend to vary widely. They include courses from such departments as art and art history, communication studies, economics, English, history, philosophy, political science, psychology, sociology (including anthropology) and others as appropriate. They may also include work from other relevant units, such as the Conservatory of Music and Dance.

PACE students wishing to major in American Studies should refer to the PACE section of this catalog for details.

AUPD Department Description

The Department of Architecture, Urban Planning and Design has two degree tracks to choose from.

One degree track is a B.A. in Urban Planning and Design. This degree program is a four-year degree and can be completed at UMKC in its entirety.

The second track leads to a degree in one of the following professional areas: architecture, landscape architecture and interior architecture. This track is a two-year program, offered in conjunction with Kansas State University's College of Architecture, Planning and Design.

UMKC is an urban university, and architecture, urban planning and design is consistent with our vision for our community and region. Kansas City is a great urban laboratory. Few American cities have the planning and design tradition of Kansas City. We think this sets us apart, and places the students within a professional community with unmatched resources, whether one is studying architecture, interior architecture, landscape architecture or urban planning and design.

As the United States population continues to grow and is concentrated in metropolitan areas, urban planning and design is becoming a societal imperative. Planners address diverse public issues affecting where people live, work, and play; where they shop and receive health care; how they get from place to place; what our communities look like; and how we use our resources.

AUPD Financial Aid

Many scholarships and student financial aid alternatives are available. Every year approximately 80 percent of our students have some form of scholarship. For students who qualify, UMKC can be a great resource for scholarship assistance. Contact the UMKC Financial Aid Office (phone: (816) 235-1154 Web site: <http://www.umkc.edu/finaid>) for scholarship information.

AUPD Admission and Advising

Admission to the Department of Architecture, Urban Planning and Design is selective. Seats are limited to 36 incoming students in the Architectural Studies curriculum. Interested students can call or e-mail the department and schedule an appointment for a visit with one of our advisers. On-campus location, contact information and mailing address appear at the beginning of this section.

AUPD Student Activities

The department supports two student organizations, AIAS and PDS, on the UMKC Campus.

The [American Institute of Architecture Students](#) (AIAS) is a national student organization for students studying architecture and related fields. Many times the professionals serve as mentors to students on various capacities. Every year students attend national and regional AIAS meetings around the country.

Planning and Design Students (PDS) is a student organization for students studying Urban Planning and Design. The students interact with the local APA ([American Planning Association](#)) chapter in a variety of activities. A group of students attend the national conventions that are held in various locations around the country every year.

The [American Public Works Association](#) (APWA) is a student organization that consists of a multi-disciplinary group of students (i.e. Engineering, Geosciences, Public Administration) from across the campus. The APWA's national office is in Kansas City, and UMKC is the first campus to initiate an APWA student group. This organization allows students to

interact with private industry, as well as governmental agency professionals.

AUPD Open House

The department hosts an open house on the Friday before Thanksgiving every year. An exhibition of student work is on display and representatives from the scholarship office also are on hand to answer questions. Check the AUPD Web site for exact dates for this event. Information appears at the beginning of this section.

Architectural Studies

Architectural Studies is a two-year cooperative program with Kansas State University that began in 1987. The accredited curriculum at the KSU College of Architecture Planning and Design is offered at UMKC for the first two years of study. After successfully completing the coursework at UMKC, students are eligible for entry to Kansas State University, College of Architecture Planning and Design. There, students can study architecture, interior architecture and landscape architecture.

Architectural Accreditation

The Kansas State University College of Architecture, Planning and Design (with which the UMKC Architectural Studies Program collaboratively participates) is accredited by the National Architectural Accrediting Board (NAAB).

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes two types of degrees: the bachelor of architecture and the master of architecture.

A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.

Master's degree programs may consist of a pre-professional undergraduate degree and professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Architecture Courses

Bachelor of Arts in Urban Planning and Design

Student Learning Outcomes

Students graduating with a baccalaureate degree in planning should have significant exposure to each of the basic subject areas of knowledge, skills and values.

Knowledge of

- Structure and functions of urban settlements.
- History and theory of planning processes and practices.
- Administrative, legal and political aspects of plan-making and policy implementation.
- Familiarity with at least one area of specialized knowledge of a particular subject or set of issues.

Skill in

- Problem formulation, research skills and data gathering.
- Quantitative analysis and computers.
- Written, oral and graphic communication.
- Collaborative problem solving, plan-making and program design.

- Synthesis and application of knowledge to practice.

Value in

- Issues of equity, social justice, economic welfare and efficiency in the use of resources.
- The role of government and citizen participation in a democratic society and the balancing of individual and collective rights and interests.
- Respect for diversity of views and ideologies.
- The conservation of natural resources and of the significant social and cultural heritages embedded in the built environment.
- The ethics of professional practice and behavior, including the relationship to clients and the public, and the role of citizens in democratic participation.

Program Requirements

The Urban Planning and Design program provides an innovative curriculum that incorporates a combination of broad liberal arts courses, with a core of professional planning classes, coupled with a series of design studios. The design studio represents a forum where students employ a creative process, infused with knowledge gained from supporting courses, to generate holistic urban planning and design solutions. Urban design projects will engage professionals, civic officials, neighborhood leaders and government officials into an important dialogue.

Urban Planning and Design Courses_

Architectural Studies

Architectural Studies is a two-year cooperative program with Kansas State University that began in 1987. The accredited curriculum at the KSU College of Architecture Planning and Design is offered at UMKC for the first two years of study. Art and Art History Department Description

The Department of Art and Art History serves a variety of students, ranging from the non-major to the professionally oriented. The department offers programs leading to the bachelor of arts degree in art, art history and studio art. The master of arts is offered in art history and studio art. The department also participates in the Interdisciplinary Ph.D. program.

In the undergraduate program, art history serves as humanities electives for non-majors, as part of the program for studio majors and as a major field for students who wish a liberal arts major or who wish to pursue graduate study in this field.

Studio art courses are open to non-majors who meet the appropriate prerequisites. After completing a foundation program, studio students can take work in a number of areas: drawing, painting, printmaking, graphic design, photography and electronic media. The program serves both the general studio major and those students seeking further professional training or employment in art-related fields.

There are four degree programs within the undergraduate major offered by the Department of Art and Art History: studio art, art history, general art and a combined art/art history major. In addition, the department works with the School of Education to offer a dual degree in studio art and secondary education.

Completion of an undergraduate degree with above-average performance in either art history or studio art is normally a prerequisite for further study on the graduate level.

Art and Art History Special Resources/Programs

The Nelson-Atkins Museum of Art

The University of Missouri-Kansas City is fortunate to be adjacent to one of the most comprehensive and distinguished art museums in the country, the Nelson-Atkins Museum of Art. In addition to having ready access to the gallery's collection, advanced students may be privileged to use the museum's other facilities, such as the reference library, the acquisition records or the museum's collections. Use of these facilities is undertaken only after consultation with a member of the faculty. Admission to the museum is free to everyone.

The department also maintains a close relationship with the museum through joint appointments, student internships and other cooperative programs. Museum curators also lecture in art history at UMKC.

Art and Art History Undergraduate Admission Requirements and Advanced Placement Procedures

For the prospective art history major, no previous special training is required, but a background in English, history, literature or foreign language is useful.

The department does not necessarily expect its studio majors to have previous studio art training, and any student may enroll in some introductory studio courses. In order to take studio classes beyond the introductory level, any student new to the department must submit a portfolio for review to determine placement in the appropriate level of the curriculum. This assessment will incorporate a review of the student's transcripts and portfolio and usually entails a personal interview. The department must be contacted for instructions concerning the submission of portfolios and for admission into any upper-level studio course. This should be done at least three weeks prior to registration to ensure time to review each case.

Portfolio Review Procedures

The portfolio submitted by a new student for advanced placement in studio classes will be reviewed by a panel of faculty members whose recommendations will determine the conditions of the initial enrollment. Subsequent performance in coursework in the department will determine the student's future advancement in the curriculum.

Slides and/or photographs are acceptable, and these should be clearly labeled as to name, medium, size, date and other pertinent information. Original works can be submitted for review, provided they are delivered in a compact fashion and are promptly retrieved by the candidate. No more than three works that are too large for a tie-portfolio may be submitted.

A portfolio should demonstrate two things. First, it should provide a visual demonstration of the technical skills of the applicant's previous studio experience. Second, it should contain a representative sample of recent work, particularly as it might relate to prospective study in our department.

Therefore, examples of jewelry, ceramics or other craft-oriented projects can be omitted since these are not part of our course offerings.

Bachelor of Arts: Art History

Student Learning Outcomes

1. Students graduating with a baccalaureate degree in Art History will:
 - o Have a basic knowledge of both Western and Non-Western art history.
 - o Have developed effective writing skills.
 - o Be able to understand the context of information contained in scholarly publications.
2. Students graduating with a baccalaureate degree in Art History will be prepared for entry into a graduate program, or the job market.

Program Description

Art History Curriculum

In addition to the general education fine arts course, ART 110, five types of courses are offered: survey courses, topical courses, seminars, independent study and cluster courses.

The general education fine arts course is a lecture-discussion course that introduces students to the characteristics and history of the visual arts.

Formal study of the history of art begins with survey courses. There are three such courses in Western art and two in non-Western art. There are no prerequisites for these courses, but sophomore standing or higher is advised. These courses are assigned 300-level numbers. They cannot be taken for graduate credit. Students are encouraged to take ART 301, 302 and 303 sequentially if possible.

Topical or specialized courses reflect the expertise and research strengths of the faculty members. The prerequisite for one of these courses is the relevant survey course, or permission of the instructor. These courses are assigned 400-level numbers, and they can be taken for either undergraduate or graduate credit.

Seminars are titled generically by major periods or cultural divisions in the history of art (e.g. Baroque art, 19th-century art). When a seminar is offered, a specific topic will be announced and listed in the schedule of classes. These are considered advanced-level courses and are thus assigned 400- and 500-level numbers. Enrollment will be granted by permission of the student's departmental adviser on the basis of previous study in art history or cognate fields. Undergraduate participation in a graduate-level seminar is feasible for selected students through enrollment in a suitably titled, independent-study course.

A small group of independent-study courses, titled generically by major periods or cultural divisions in the history of art, are assigned 490-level numbers. Enrollment in these courses is granted only by the instructor who will supervise the study. (These students are carried as an overload by the instructor except in special cases.) Graduate credit is possible only when a student is admitted to graduate study.

Cluster courses are taught through the program of integrated studies in the humanities. These are interdisciplinary courses offered in conjunction with one or more similar courses in cognate disciplines, but in our case, with an emphasis on the knowledge base appropriate to the history of art.

Degree Requirements

1. The three Western surveys: ART 301, 302 and 303.
2. At least three topical/specialized courses (400-level with at least two different faculty).
3. At least two non-Western courses (survey or topical/specialized).
4. At least nine hours of studio art: ART 112, 121 and 131 are recommended.
5. College-mandated capstone course: ART 482.
6. At least 12 hours each in two cognate fields (e.g. history, literature).

Grade-point Average Requirements

All art history majors are required to maintain a minimum of 2.5 GPA in art history courses.

Any regularly admitted student can declare a major in art history. ART 110, Introduction to the Visual Arts, will not be accepted as one of the required art history courses. The department recommends that the foreign language requirement for the B.A. degree should be taken in either French or German.

For transfer students wishing to major in art history, an evaluation of previously completed courses in art history will be made at the time of their first meeting with a departmental adviser, and their departmental record will be annotated as to the equivalencies given to the UMKC requirements. In any case, regardless of the amount of previously completed art history courses, a transfer student majoring in art history must take at least two topical/specialized courses with two different faculty members.

The Combined Major in Art History and History

The department also participates in a combined major in art history and history. For students majoring in either department, this program permits the option of a combined program of integrated studies in both subjects. The combined program is especially intended for the superior student who wishes to explore in-depth the integrated effects of political, religious, economic and artistic developments of selected periods in Western European and American history.

Enrollment in the combined program will be plotted by the coordinators of the program in both departments working individually with each student. A detailed set of requirements is available on request, but the combined major requires 39 hours with 18 specified hours in the primary department; nine specified hours in the secondary department; nine restricted elective hours; and a three-hour capstone course (directed studies) in which a student pursues a senior project related to a problem of study common to history and art history and directed by faculty members in both disciplines.

Minor in Art History

A minor in art history may be earned by completing 18 hours of art history taken in consultation with a faculty adviser.

Bachelor of Arts: Studio Art

Student Learning Outcomes

1. Students graduating with a baccalaureate degree in Studio Art will:
 - o Have the basic skills for the practice of art in one or more specialized disciplines.
 - o Be aware of the latest advances in adapting technology for the creation of works of art, including appropriate software and hardware skills.
2. Students graduating with a baccalaureate degree in Studio Art will be prepared for entry into a professional school, a graduate program or the job market.

Studio Art Curriculum

The offerings in studio are divided into four general classifications:

- Foundation studio (100-200)
- Intermediate studio (300)
- Advanced studio (400)
- Graduate studio (5500)

The foundation studio courses are required for all studio majors. They consist of introductory courses in two-dimensional and three-dimensional design and drawing. Additional courses are considered basic preparation for intermediate-level work in some areas of studio art. Normally a student is required to complete 100-level courses before 200-level work. These two levels are completed in the first two years unless a student has received advanced placement through a portfolio review.

The intermediate level consists of courses in specific studio areas such as drawing, painting, printmaking, graphic design, photography, digital imaging and computer multimedia. These courses have a 300 designation, and they are generally taken in the junior year.

The advanced level consists of courses with a 400 designation. Above-average performance in 300-level prerequisite courses is usually required for enrollment in an advanced course. Frequently the specific permission of the instructor is also required. Courses below the 400 level may not be taken for graduate credit, except with special permission from the Department of Art and Art History.

Degree Requirements

1. The foundation studio program or its approved equivalents: ART 112, 121 and 131.
2. A minimum of 24 studio credit hours to include courses from at least three different studio areas (drawing, painting, printmaking, graphic design, photography, digital imaging and computer multimedia). At least 12 credit hours must be on the 300 or 400 level.
3. College-mandated capstone course ART 499WI or ART 423WI.
4. Art history: three courses from the survey sequence (ART 301, ART 302, ART 303, ART 315, ART 319) and one 400-level Art History elective course. Total Art History requirements: 12 credit hours. Up to six additional credit hours in Art History can be counted toward the 24 studio credit hours mentioned in requirement number two.

Grade-point Average Requirements

All studio art majors are required to maintain a minimum 2.5 GPA in studio art courses.

Suggested Plan of Study - Studio Art

The foundation studio program should be completed in the first two years along with at least two of the required art history courses and as many general education requirements as possible.

In the third year, emphasis should be on intermediate studio courses and intermediate art history courses. Arts and sciences general degree requirements should be completed.

The senior year should consist of advanced studio courses, advanced art history courses and electives.

Teacher Certification in Art

Developed with the School of Education, this curriculum provides students with extensive studio training and a strong foundation in aesthetics and art history. The final portion of the program involves courses in education and field experience, including student teaching. Students graduate with dual degrees in studio art and secondary education.

In addition to art courses required for the studio degree, students should be aware that state requirements for certification in art require art courses in specific areas. The following degree requirements illustrate the curriculum that students can expect to design with approval of the department of Art and Art History and the School of Education.

Degree Requirements

Part One: Studio Art

1. Foundation courses (18 hrs.): ART 112, ART 121, ART 131, ART 212, ART 221 and ART 224.
2. Four intermediate-level courses (12 hrs.): Ceramics/Clay Sculpture and Fiber Arts/Sculpture (courses available, by agreement, through the Kansas City Art Institute; plus two courses from the following: ART 114, ART 206, ART 308 or ART 309, ART 311 and ART 322.
3. Three upper-level courses (9 hrs.).
4. College-mandated capstone course ART 499WI.
5. Art history: three courses from the survey sequence ART 301, ART 302, or ART 303, or ART 315, or ART 319 and one 400-level Art History elective course. Total Art History requirements: 12 credit hours.

Part Two: Professional Education

Certification as an Art teacher (K-12) in either Kansas or Missouri requires that a student complete specific additional requirements in the School of Education. A separate application for teacher education is required. For further information, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Grade-point Average Requirements

Art education majors must maintain a 2.5 GPA in studio art courses.

Minor in Studio Art Requirements

A minor in studio art may be earned by completing 21 hours of studio art taken in consultation with a faculty adviser.

Bachelor of Arts: Art

Student Learning Outcomes

1. Students graduating with a baccalaureate degree in Art will have a basic knowledge of the general areas of studio art and art history.
2. Students graduating with a baccalaureate degree in Art will need additional preparation if, in the future, they decide to enter a graduate program or the job market.

Degree Requirements

1. Art history: ART 301, ART 302 and ART 303, one non-Western course (300-400 level), and one 400-level course for a total of 15 hours.
2. A minimum of nine hours of basic studio courses (100-200 level).
3. College-mandated capstone course ART 499WI.
4. The general art major must complete at least 30 semester hours of art courses, and at least 18 must be on the 300-400 level.

Grade-point Average Requirements

The general art major must maintain at least a minimum 2.0 GPA in all art courses in order to continue in the major and to graduate.

Suggested Plan of Study

This option is sufficiently flexible so that no special schedule planning is required. However, it is recommended that 100- and 200-level courses in art be completed within the first five semesters to give ample opportunity to schedule the 300- and 400-level classes required.

Master of Arts: Art History

Student Learning Outcomes

1. Students graduating with an MA in Art History will:
 - Have an advanced knowledge of specialized areas of art history.
 - Be able to communicate information both orally and in written form.
2. Students graduating with an MA in Art History will be prepared for entry into a PhD program or the job market.

The Department of Art and Art History offers the master of arts degree in art history and in studio art.

General Nature of the Program

In studio art, the program offers emphasis in drawing, painting, graphic arts, printmaking, photography and electronic media. In art history, coursework in both Western and non-Western art is available.

Applications for Graduate Study

Applications for the MA in Art History are considered on a rolling basis, but students who would like to begin in the fall semester are encouraged to submit complete applications by March 15 of that year; those who would like to begin in the spring semester should submit their applications by November 1 of the preceding year. Submission by those dates will ensure maximum choice in course work. M.A. students who wish to be considered for GTA-ships during the following academic year must submit their applications by March 15.

Art History Classification of Entering Students

Admission to the graduate program in art history requires a B.A. or equivalent degree and sufficient undergraduate study in art history to provide a sound foundation for advanced study. Ideally, this foundation would include a solid grounding in the history of Western art, some study of non-Western art, and sufficient advanced-level work to indicate that a student can succeed in the specialized or topical courses and seminars associated with graduate study. Admission review is done by a committee of the faculty.

The applicant should have, in addition to a good general education in the humanities, 18 to 24 credit hours in art history with a grade-point average of 3.0 or better. Students with fewer hours and/or a restricted exposure to other humanities and fine arts courses, or having inconsistent grades, are eligible for admission to the graduate program on the basis of recent evidence indicating the potential for success, such as performance in UMKC 400-level courses, or through papers and exams for courses elsewhere. If there are some deficiencies in preparation that can be met readily by one or two undergraduate survey courses, a student will be admitted to graduate study. However, the survey courses must be taken for undergraduate credit before the student is allowed to take the qualifying examination that is required for advancement to degree candidacy.

Applicants lacking the minimum preparation deemed necessary for admission to graduate-level study in art history may make up their deficiency through enrollment in selected undergraduate courses offered by the department. These will be determined after consultation with a faculty adviser and in all cases must include 400-level work. Progress will be reviewed at the end of each term, and if warranted, reclassification to graduate status will occur prior to the start of the next semester.

Requirements for Graduation

All degree candidates are required to take a minimum of 30 graduate credits, including ART 5501, Scope and Methods of Art History, and a maximum of 6 credit hours of ART 5599, Research and Thesis. Other courses are determined in consultation with the adviser and the supervising committee for the thesis.

Special Requirements

Requirements for Retention

A student must maintain a graduate grade-point average of 3.0. In extenuating circumstances, a student may petition the Department of Art and Art History to be continued as a graduate student for one term (or 6 hours) if the graduate GPA falls below 3.0. The deficiency must be remedied during the approved probationary period if the student is to be continued.

Reading knowledge of French, German, or Italian for M.A. Students in Art History

M.A. students must acquire a reading knowledge of one foreign language considered essential to advanced study in art history before beginning the M.A. thesis. Students are encouraged to acquire this skill as early as possible in their graduate studies, so they may use it in graduate seminars and research papers. This requirement is most often fulfilled by three semesters at the college level, with a grade of B or better in the third semester. Students who believe they have acquired a sufficient reading knowledge, but have not completed three semesters of language training at the college level, may petition the graduate adviser to take a reading exam in that language. Normally,

however, three semesters of college-level study are necessary to achieve sufficient mastery.

The Thesis or Final Project in Art History

The final requirement for the M.A. degree in Art History is the M.A. thesis, which is normally begun two semesters before a student completes the degree. The thesis is an approved project that demonstrates capacity for independent work of a suitably high level of proficiency, one utilizing the primary sources available on the topic in English and in the foreign language that meets the program requirement, as well as the major relevant secondary sources. This project, selected in conjunction with the thesis adviser most often develops from a seminar paper, and its presentation must conform to the requirements of the School of Graduate Studies.

Graduate Credit

Instructor's approval for each course is required, and this is contingent upon previous training.

Master of Arts: Studio Art

Student Learning Outcomes

1. Students graduating with an MA in Studio Art will:
 - Have an advanced knowledge of a specialized area of studio art.
 - Be proficient in adapting technology for the creation of works of art, including computer skills and digital photography.
2. Students graduating with an MA in Studio Art will be prepared for entry into an MFA program or the job market.

The Department of Art and Art History offers the master of arts degree in art history and in studio art.

General Nature of the Program

In studio art, the program offers emphasis in drawing, painting, graphic arts, printmaking, photography and electronic media. In art history, coursework in both Western and non-Western art is available.

Applications for Graduate Study

Applications for graduate study in the Department of Art and Art History should be submitted at least one semester in advance of the application deadline. Applicants in studio art should apply by March 1 for the fall semester and by October 15 for the spring semester. There is no summer semester admission. Portfolios must be included with the applications. After portfolio review and classification by the department, an appointment for advisement will be arranged.

Studio Art Classification of Entering Students

In all cases, evidence of adequate preparatory work in the area of the proposed course is required. Admittance to graduate-credit classes is given only after a review of transcripts and portfolio. A student with an accredited B.A. in art or B.F. A. in art (or with equivalent studio background) may enroll in ART 495 or ART 498A to ART 498N for graduate credit. Instructor's approval for each course is required, and this is contingent upon previous training (normally at least 28 hours of junior-senior studio work) and proven performance.

Requirements for Graduation

All degree candidates are required to take a minimum of 36 graduate credits, including at least three courses in art history and [ART 5599](#), Research and Thesis. Additional courses are determined in consultation with the adviser and the supervising committee for the thesis.

Special Requirements

Requirements for Retention

A student must maintain a graduate grade-point average of 3.0. In extenuating circumstances, a student may petition the Department of Art and Art History to be continued as a graduate student for one term (or 6 hours) if the graduate GPA falls below 3.0. The deficiency must be remedied during the approved probationary period if the student is to be continued.

The Qualifying Examination

The qualifying examination is scheduled on demand. Students must have completed at least 9 hours of graduate study to be eligible, and the exam should be taken before 15 hours of graduate study applicable to the program are completed. A major purpose of the qualifying exam is to determine the readiness of students to be degree candidates; therefore, the examination is a review, both of the general competency of a student in the chosen field of study and of the plans for the thesis. Based on the results of the qualifying examination, a planned program will be prepared; and a supervisory committee will be appointed. Specific details concerning the qualifying examination will be publicized at the time that the examinations are scheduled.

The Thesis or Final Project

In the last term of candidacy, a student must complete an approved project that demonstrates capacity for independent work of a suitably high level of proficiency. This project in a studio medium is selected in conjunction with the thesis adviser. If a production thesis is selected, students must present a written statement of purpose and make an oral defense of thesis before their supervisory committee. In addition, a photographic record of the project must be made and presented to the department to be held in its visual resources collection.

Graduate Credit

Instructor's approval for each course is required, and this is contingent upon previous training (normally at least 28 hours of junior-senior studio work) and proven performance.

Chemistry Department Description

The Department of Chemistry offers programs of study leading to the bachelor of arts, bachelor of science and master of science degrees, and participates in UMKC's Interdisciplinary Ph.D. program. To the extent that each program is flexible (see degree requirements), it is possible to specialize at the graduate level in the areas of analytical, inorganic, organic, physical or polymer chemistry.

Chemistry Undergraduate Programs

Career Implication of the Bachelor's Degree

The Department of Chemistry offers two bachelor of science degree programs. Both require a minimum of 43 credit hours of chemistry courses; they are designed for those who want to work in the field of chemistry. The American Chemical Society approved degree is based on the guidelines established by the American Chemical Society (ACS) and specifically requires Organic and Inorganic Synthesis (CHEM 382) and a Biochemistry course (either CHEM 367 or LS BIOCHEM numbered 341 or higher). Many of those receiving the bachelor of science degree have gone on to graduate work, professional schools, and advanced degrees. Others have gone directly into the chemical industry (laboratory assistants).

In contrast, the bachelor of arts degree is more flexible because it requires only a minimum of 26 credit hours of chemistry. The bachelor of arts student is shown a minimum of what chemistry is about. By choosing suitable courses, this degree prepares the individual with the chemical background for work in other areas. Examples include technical librarian, medical technologist, business administration, public health, and sales or advertising in the chemical industry. The majority of students pursuing the bachelor of arts in chemistry do so in preparation for professional schools, such as medicine, dentistry, and pharmacy. The bachelor of arts can also provide a student with a background in chemistry equivalent to that of a bachelor of science, but tailored to the individual's desires.

Teacher Certification in Chemistry

Certification as a middle school (grades 5-9) or secondary (grades 9-12) chemistry teacher in either Kansas or Missouri requires that a student complete specific requirements in biology, chemistry, environmental science, geology, physics and the School of Education. A separate application for teacher education is required. For

further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Admission Requirements

Other than University of Missouri admission requirements, there are no special prerequisites for beginning either the bachelor of arts or the bachelor of science program. High-school chemistry and a good working knowledge of algebra and arithmetic are desirable for entering the bachelor of science program. It should be noted that much of the bachelor of science program, and some of the bachelor of arts program, are highly structured in the order which chemistry courses must be taken. It is assumed that transfer students, Associates degree students, and junior college students should have begun the appropriate course sequence in their previous schools. All students are required to consult with the Chemistry Undergraduate Adviser before their registration at UMKC.

Advising

Those seeking either a bachelor of science or a bachelor of arts degree should see the Chemistry Department's principal undergraduate adviser or the department chair at the earliest possible time. Students who major in Chemistry must see the Undergraduate Adviser each semester prior to enrolling in courses.

Honors Program

Students with outstanding records of achievement may be eligible to enroll in special honors courses. Such courses are designated by the letter H preceding the course number, or special arrangements can be made with instructors of regular courses. Students enrolled in the special courses should consult with their faculty adviser to arrange for optimal degree planning.

Prerequisites and Corequisites

A minimum grade of C- or higher is required for all prerequisite and corequisite courses for all students taking courses within the Department of Chemistry. In exceptional cases, students may receive written consent from the Chemistry Undergraduate Adviser to waive this requirement. Students must be concurrently enrolled in all corequisite courses. In exceptional cases, students may receive written consent of the Curriculum Committee by obtaining a petition form from the Department to waive this requirement.

Graduate Study in Chemistry

The Chemistry Department offers the master of science degree, with an emphasis in analytical, inorganic, organic, physical, or polymer chemistry.

Doctor of philosophy (Ph.D.) programs at UMKC are interdisciplinary. Students desiring to study at the doctoral level in the discipline of chemistry (as the coordinating unit) must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific admission requirements for the doctoral degree may be found in the General Graduate Academic Regulations and Information section of this catalog.

Students pursuing an Interdisciplinary Ph.D. degree, who have selected chemistry as one of their disciplines, should consult the School of Graduate Studies section of this catalog for degree requirements, and other academic regulations applicable to their degree programs.

General Nature of the Graduate Program

Both the master of science degree and interdisciplinary Ph.D. degree with chemistry as the coordinating discipline have the basic aim of training students to work independently in chemistry. Both programs train the student through a broad but flexible base of coursework for further education, but the interdisciplinary Ph.D. places a greater emphasis on original research.

There are two programs or tracks that lead to the master of science in chemistry: the research and the non-thesis tracks. The interdisciplinary Ph.D. with chemistry as the coordinating unit is only research track. (For further information on the Interdisciplinary Ph.D. Program, see the chemistry discipline within the School of Graduate Studies section of this catalog.)

Research Facilities

Major Instrumentation:

- Varian Inova 400 MHz NMR spectrometer.
- Bruker 250 MHz NMR spectrometer with solid state probe.
- IBM 200 Electron Spin Resonance Spectrometer.
- AA and ICP-AA spectrophotometers.
- CARY-1 UV-Visible dual beam spectrophotometer.
- Cambridge Structural Database Subscription (Van Horn).
- Raman and Infrared Spectroscopy Lab (Durig).
- Positron Annihilation and Gamma-ray Spectroscopy Lab (Jean).
- ABI Pioneer peptide synthesizer.
- Sprint BioCad liquid chromatography system.
- Finnigan MAT Double Focusing mass spectrometer.

Research Instrumentation:

- Ocean Optics UV-Vis-NIR and other UV-Visible spectrophotometers.
- Metrohm Titrando system with "PC Control" software.
- BAS Epsilon electrochemistry apparatus (Peng).
- Shimadzu HPLC (Van Horn).
- Shimadzu RF-5301PC Fluorescence spectrophotometer.
- Perkin Elmer Polarimeter (Buszek).

Support Facilities:

- Computer and Electronics Shop.
- Chemical Stores.

On Campus Resources:

- Jasco J-710 Circular Dichroism Spectropolarimeter (School of Biological Sciences).
- Varian 600 MHz NMR Spectrometer (School of Biological Sciences, Laity).
- ESI-mass spectrometer and Triple-Quad LC-ESI MS with nanospray adaptor (School of Pharmaceutical Sciences).
- Machine Shop (Department of Physics).

Computer facilities include UMKC's Academic Research servers using HP's Itanium technology and numerous personal computers located in the Spencer Chemistry Building and Flarsheim Hall for teaching and research purposes. A computational research laboratory is also housed in the department with a number of high-speed workstations and modern software.

Bachelor of Arts: Chemistry

Student Learning Outcomes

Bachelor of Arts in Chemistry

1. Students graduating with a baccalaureate degree in chemistry should be proficient in the basic skills of chemistry. They will:

- Have a functional knowledge of all the basic areas of chemistry including analytical, organic, physical, inorganic and biochemistry.
- Be able to integrate their knowledge in these areas and use their critical thinking skills in order to become problem solvers.
- Be proficient in chemistry laboratories, especially with respect to:
 - Following and understanding general laboratory practice guidelines, especially proper laboratory safety.
 - Performing chemical analyses.
 - Performing simple chemical synthesis.
 - Understanding and using modern chemical instrumentation.

- Be able to articulate clearly scientific information, both in written and oral forms.
- Be able to use effectively the scientific literature.

2. Students graduating with a baccalaureate degree in chemistry will be prepared for entry into professional schools (e. g., medical, dental, pharmaceutical, or veterinary), graduate programs, or chemical industries.

Degree Requirements

The minimum departmental requirements for this degree are:

1. The equivalent of one year of general chemistry ([CHEM 211](#), CHEM 211, CHEM 212R and CHEM 212LR).
2. PHYSICS 210, PHYSICS 220 and [MATH 110](#) (or math exception based on high school math courses).
3. [CHEM 341WI](#) (writing intensive, for which the WEPT is an enforced prerequisite.)
4. Any combination of 300-level and 400-level chemistry courses (exceptions noted below; see 5, 6, 7 and 11) to bring the total credit hours to 26. Certain biochemistry courses (offered by the School of Biological Sciences) also may be included in this total. Please confer with the principal undergraduate adviser.
5. No more than three hours total in [CHEM 395](#), [CHEM 399](#), [CHEM 495](#) and [CHEM 499](#) may be used in meeting the major course requirements.
6. [CHEM 320](#) and [CHEM 321](#) may not both be counted toward the required number of credit hours. ([CHEM 321](#) + [CHEM 322R](#) and [CHEM 320](#) + [CHEM 322R](#) are both acceptable combinations for meeting, in part, the bachelor of arts departmental course requirements, although the [CHEM 320](#) + [CHEM 322R](#) combination is not preferred. The combinations [CHEM 320](#) + [CHEM 321](#) and [CHEM 320](#) + [CHEM 321](#) + [CHEM 322R](#) are not acceptable.)
7. Similarly, either [CHEM 330](#)-or- the combination [CHEM 431](#) + [CHEM 432](#) is acceptable, but the combination [CHEM 330](#) + [CHEM 431](#) + [CHEM 432](#) is not acceptable.
8. All majors must receive a C- or better in all chemistry courses with an overall chemistry GPA of 2.0 for graduation.
9. A minimum grade of C- is required for all prerequisite courses (including physics and mathematics courses). In exceptional cases, students may receive written consent of the instructor and the Chemistry Undergraduate Adviser to waive this requirement.
10. Each chemistry major must be advised by the Chemistry Undergraduate Adviser every semester.
11. In order to meet The College's residency requirement for a major in Chemistry, a minimum of 12 credit hours must be completed in the Department of Chemistry at UMKC, of which 9 of the 12 hours must be at the 300/400 level. While credit as a result of advanced placement (AP) scores and courses in Biochemistry (LS-BIOC 341, LS-BIOC 365, or LS-BIOC 366) may be used towards meeting major requirements, they do not count towards the residency requirement.

Total Chemistry Credit Hours: 26 (or more)

Bachelor of Science: Chemistry

Student Learning Outcomes

Bachelor of Science in Chemistry

1. Students graduating with a baccalaureate degree in chemistry should be proficient in the basic skills of chemistry. They will:

- Have a functional knowledge of all the basic areas of chemistry including analytical, organic, physical, inorganic and biochemistry.
- Be able to integrate their knowledge in these areas and use their critical thinking skills in order to become problem solvers.
- Be proficient in chemistry laboratories, especially with respect to:
 - Following and understanding general laboratory practice guidelines, especially proper laboratory safety.
 - Performing chemical analyses.
 - Performing simple chemical synthesis.
 - Understanding and using modern chemical instrumentation.
- Be able to articulate clearly scientific information, both in written and oral forms.
- Be able to use effectively the scientific literature.

2. Students graduating with a baccalaureate degree in chemistry will be prepared for entry into professional schools (e. g., medical, dental, pharmaceutical, or veterinary), graduate programs, or chemical industries.

Degree Requirements

The Chemistry Department bachelor of science degree is approved by the American Chemical Society (ACS). There are two types of bachelor of science degrees. Both require a minimum of 43 credit hours in chemistry. An ACS-approved B.S. degree requires taking 2 credit hours of [CHEM 382](#), and 3 credit hours of [CHEM 367](#) or [LS-BIOC 341](#) or higher*. The other type of B.S. degree does not require [CHEM 382](#) or [CHEM 367](#), or [LS-BIOC 341](#). This program includes:

1. General chemistry ([CHEM 211](#), CHEM 211L, CHEM 212R, CHEM 212LR).
2. Organic chemistry ([CHEM 321](#), CHEM 321L, CHEM 322R, CHEM 322L).
3. Analytical chemistry ([CHEM 341](#), CHEM 442R).
4. Physical chemistry ([CHEM 431](#), CHEM 437WI [writing intensive for which the WEPT is an enforced prerequisite], CHEM 432).
5. Chemical literature ([CHEM 410](#)).
6. Inorganic chemistry ([CHEM 382*](#), CHEM 451R).
7. A biochemistry course* ([CHEM 367](#)) or ([LS-BIOC 341](#) or higher).
8. A minimum of 3 credit hours of advanced work in either chemistry (courses numbered 400 or higher), mathematics (courses other than [MATH 250](#) that have [MATH 220](#) as a prerequisite), biology (courses numbered 300 or higher), or physics (courses numbered 300 or higher).
9. [MATH 210](#), MATH 220, MATH 250.
10. One year of engineering physics. [PHYSICS 240](#) and PHYSICS 250.
11. The total credit hours of laboratory time in the required courses and any advanced elective laboratories must be at least 12. No more than 3 hours of [CHEM 495](#) and [CHEM 499](#) may be used in meeting the major course requirements.
12. [CHEM 499](#) cannot be used to meet both laboratory requirements and the 3 hours of advanced work.
13. All majors must receive a C- or better in all chemistry courses with an overall chemistry GPA of 2.0 for graduation.
14. A minimum grade of C- is required for all prerequisite courses (including physics and mathematics courses). In exceptional cases, students may receive written consent by submitting a petition to the Chemistry Undergraduate Curriculum Committee which has to be approved to waive this requirement.
15. Each chemistry major must be advised by the Chemistry Undergraduate Adviser every semester.
16. In order to meet The College's residency requirement for a major in Chemistry, a minimum of 12 credit hours must be completed in the Department of Chemistry at UMKC, of which 9 out of the 12 hours must be at the 300/400 level. While credit as a result of advanced placement (AP) scores and courses in Biochemistry ([LS-BIOC 341](#), [LS-BIOC 365](#), or [LS-BIOC 366](#)) may be used towards meeting major requirements, they do not count towards the residency requirement.

Suggested Plan of Study

Because plans of study are dependent on the students' backgrounds and preparation, each student admitted should develop a plan of study in conjunction with an adviser in the department. General chemistry, organic chemistry, calculus and physics should be completed by the end of the second year. Physical chemistry should be taken in the third year. Students should note that although a fair amount of flexibility is available for setting up a plan of study, the structured nature of prerequisites and corequisites in chemistry, physics, and mathematics necessitates very careful organization of any program.

For students starting at UMKC as freshmen, the department recommends the following plan of study to fulfill the major requirements for a bachelor of science degree in chemistry:

Chemistry Courses	Courses in Other Disciplines
Freshman CHEM 211 (4) CHEM 211L (1) CHEM 212R (4) CHEM 212LR (1)	MATH 210 (4) MATH 220 (4)
Sophomore CHEM 321 (3) CHEM 321L (1) CHEM 322R (3) CHEM 322L (1)	MATH 250 (4) PHYSICS 240 (5) PHYSICS 250 (5)
Junior CHEM 341 (4) CHEM 431 (3) CHEM 432 (3) CHEM 442R (3) CHEM 437WI (3)	4XX+ in CHEM (3) -or- 3XX+ in BIOL, PHYSICS -or- MATH (3)
Senior CHEM 410 (1) CHEM 451R (3) CHEM 367* (3) -or- LS-BIOC 341* (3)	

-or-
CHEM 3XX** -or- 4XX** (3)
CHEM 382* (2)
-or-
CHEM 499** (2)

Total Chemistry Credit Hours: 43

*Required for ACS-approved degree.

**For non-ACS-approved degree.

Minor in Chemistry

Students may elect to obtain a minor in chemistry in conjunction with a major in another academic discipline. The minimum departmental requirements are 18 credit hours of chemistry with at least 9 of these hours from courses at the 300 or 400 level. To meet The College's residency requirement for a minor in Chemistry, students must complete 9 credit hours from the Department of Chemistry at UMKC, and 6 of those 9 hours must be courses at the 300 or 400 level. While credit as a result of advanced placement (AP) scores and courses in Biochemistry (LS-BIOC 341, LS-BIOC 365, or LS-BIOC 366) may be used towards meeting minor requirements, they do not count towards meeting the residency requirement. In addition, the minor courses must be selected from more than one area of chemistry and a minimum grade of a C- is required for all minor and prerequisite courses.

Master of Science: Chemistry

Student Learning Outcomes

The Department of Chemistry offers two master of science degrees. The non-thesis M.S. program has an emphasis on coursework, while the thesis-based degree has an emphasis on both coursework and original research. Graduating chemistry M.S. students will be exposed to the most recent advances in chemical sciences. In addition, thesis-based M.S. students will experience the excitement of performing guided research.

The following student learning outcomes are expected for our educational process:

Non-Thesis Master of Science in Chemistry

At the end of their studies, students will:

- Have an extensive knowledge of the basic areas of chemistry (inorganic, organic, physical, analytical, and biochemistry).
- Be familiar with the recent advances in the basic areas of chemistry.
- Have the ability to communicate scientific information clearly and precisely, both written and oral forms.
- Have the ability to read, understand, and use scientific literature.
- Have had the opportunity to work with others as part of a team to solve scientific problems.

Thesis-Based Master of Science in Chemistry

At the end of their studies, students will:

- Have an extensive knowledge of the basic areas of chemistry (inorganic, organic, physical, analytical, and biochemistry) with an extensive knowledge in at least one area.
- Have done extensive research through a project.
- Have the ability to recognize scientific problems, formulate questions and answers, and carry out strategies for solving them.
- Have the ability to read, understand, and use scientific literature.
- Have the ability to communicate scientific information clearly and precisely, both written and oral forms.
- Have some understanding of the principles and applications of modern instrumentation, computation, experimental design, and data analysis.

Requirements for Admission

Applicants should have the equivalent of an American Chemical Society (ACS)-approved bachelor's degree in chemistry. This degree includes the equivalent of: one year of general chemistry, quantitative analysis, one year of organic chemistry, one year of physical chemistry, physical chemistry laboratory, instrumental analysis, inorganic chemistry, one year of physics, and three semesters of calculus, and the ACS-recommended distribution of advanced courses and course credits. (For example, see UMKC's B.S. program in chemistry in the undergraduate catalog.) Applicants should take particular note of the physical chemistry requirement. They may be admitted as provisional students if they have a limited number of undergraduate deficiencies. At the time that admission is offered, applicants will be notified of any requirements to be met for reclassification as fully admitted. Undergraduate courses included in these requirements must be completed with grades of C- or higher.

Applicants from foreign countries, who have an official language other than English, must achieve scores of at least 550 (paper-based), 213 (computer-based), or 80 (internet-based) on the Test of English as a Foreign Language (TOEFL) to be considered for admission.

Placement Examinations

Incoming students must take placement examinations in analytical, inorganic, organic, and physical chemistry. Placement examinations are typically administered the week before the first week of classes of the fall and spring semesters. Students scoring below the 50th percentile in the organic and/or physical chemistry exams are required to enroll in CHEM 5520R and/or CHEM 5530, respectively. Enrollment in other graduate organic or physical chemistry courses is not permitted until CHEM 5520R or CHEM 5530, respectively, is (are) successfully completed. CHEM 5530 is currently offered concurrently with CHEM 431 or 432. A student is required to take either CHEM 5530/CHEM 431 or 5530/432 or both, depending on his/her performances in the various sub-disciplines of the physical chemistry placement exam. Should a student be required to take both CHEM 5530/431 and 5530/432, the average grade of the two CHEM 5530 courses will be considered for the fulfillment of the physical chemistry deficiency. Two grades of C+ (2.3 out of 4.0) or lower, or one grade of less than C- (1.7 out of 4.0) in CHEM 5520R or CHEM 5530, will result in termination from the degree program. These courses may not be counted toward the M.S. coursework requirements listed below. Students must complete all additional coursework required as a result of the placement exams by the end of their first three regular semesters.

Graduate Program Committee

Upon admission to M.S. program in chemistry, students will be advised by the department's principal graduate adviser, acting on behalf of the chemistry graduate program committee. Based on the committee's evaluation of the students' transcripts and placement exam scores, the principal graduate adviser will inform students of any deficiencies and how they should be removed. The principal graduate adviser also will advise students on course curriculum. For the thesis degree, the curriculum advising is performed by the research adviser (once they have been selected). The graduate program committee serves as the supervisory committee for non-thesis M.S. students.

Seminar Attendance

Full-time M.S. students are required to attend all regularly scheduled and special departmental seminars and colloquia. Part-time students are also required to attend these seminars but may petition the Chair of the Department of Chemistry to waive this requirement all but one semester. Such students will be required either to attend and participate fully during one semester, including the presentation of a one-hour seminar (see details below), or to present two one-hour seminars in lieu of full participation.

Minimum Requirements for Master of Science Degree

In addition to the requirements listed here, all M.S. students are subject to the all general M.S. requirements of the University. See the [School of Graduate Studies](#) section of this catalog for a complete listing.

Non-Thesis Program

Time Constraints and Financial Assistance

The non-thesis M.S. degree program is intended primarily for students currently employed in a chemically related industry. Full-time, non-thesis M.S. students are required to complete all of the requirements for their degree within four years. Part-time non-thesis M.S. students are required to complete all requirements for their degree within seven years. Non-thesis M.S. students are not eligible for financial support from the Department of Chemistry.

Coursework

The emphasis of this program is coursework. Non-thesis M.S. students are required to complete a minimum of 31 credit hours of graduate-level coursework. Non-thesis M.S. Students are required to complete:

1. Three credit hours must be from Organic Chemistry courses: CHEM 5521R or CHEM 5522.
2. Three credit hours from Physical Chemistry courses: CHEM 5531, CHEM 5532, CHEM 5533, CHEM 5534, or CHEM 5535.
3. Nine hours from Analytical, Inorganic, Polymer, Bioorganic, and Environmental Chemistry courses: CHEM 5541R, CHEM 5551R, CHEM 5571R, CHEM 5567, or CHEM 5587.
4. One credit hour seminar presentation (CHEM 5611).
5. The remaining 15 credit hours, among which up to 6 credit hours of directed studies (CHEM 5590) may be applied, may be taken from courses approved by the graduate program committee.

Students who receive a grade of C+ (2.3) or less in more than two courses applicable to the M.S. program, or who have a cumulative grade-point average of less than 3.0 on courses applicable toward the M.S. degree after completing 18 or more credit hours of such courses, will be terminated from the degree program. Grades received for CHEM 5590 and any undergraduate-level courses are not included in the minimum GPA calculation.

Students who have received a grade of B- (2.7) or better in graduate chemistry coursework taken as part of a degree program at another institution may have up to 6 credit hours of equivalent required coursework waived upon approval of a majority of the graduate program committee. A written request for this approval must be submitted within one year of full admission to the M.S. program.

Seminars

Students must present a one-hour literature seminar based on a topic of their choice which has been approved by the Department of Chemistry Chair (or a designee). Students must register for CHEM 5611 the semester of this presentation. This seminar will include an exhaustive review of the pertinent literature and discussion of both present and future implications of research in this area. An abstract is to be posted and distributed one week prior to the presentation date.

Thesis Program

Time Constraints and Financial Assistance

Full-time thesis M.S. students are required to complete all of the requirements for their degree within four years. In compelling circumstances, and on the written recommendation of a majority of the Supervisory Committee, a single extension for up to one year may be requested for approval by the Chair of the Department of Chemistry. Part-time thesis M.S. students are required to complete all of their requirements for their degree within seven years.

Full-time thesis M.S. students may receive financial support from the Department of Chemistry for a maximum of two-and-one-half years. Students from countries having an official language other than English, and who wish to be supported as GTAs, must take the SPEAK test before the end of their first semester on campus if necessary. Part-time thesis M.S. students are not eligible for financial support from the Department of Chemistry.

Research Adviser and Supervisory Committee

Full-time students must select a research adviser from the graduate faculty of the Department of Chemistry and a supervisory committee by the end of their first regular (i.e., fall or spring) semester on campus. Part-time students must select their research adviser and supervisory committee by the end of their third year after enrollment in their first course as an M.S. student at UMKC.

The research adviser becomes the chairperson of the supervisory committee, which includes at least two additional members of the graduate faculty. Students and their supervisory committee shall plan a program of study which, when met, will qualify students for the M.S. degree. This program of study must be approved by the supervisory committee, the department chair, and the principal graduate adviser prior to the completion of 15 hours of coursework applicable to the degree. The supervisory committee is responsible for conducting the final thesis examination for students in the thesis program.

Coursework

The emphasis of this program is research. A minimum of 31 credit hours (including research and thesis) is required. Full-time, research M.S. students should be able to complete the formal coursework requirement no later than the end of their second year. Thesis M.S. students are required to complete:

Three credit hours in one of the following Physical Chemistry courses: CHEM 5531, 5532, 5533, 5534, or 5535.

Three credit hours in Organic Chemistry: CHEM 5521R or CHEM 5522.

Six credit hours from graduate level chemistry courses numbered from CHEM 5541 to CHEM 5589.

Two additional graduate-level courses for a minimum of 6 credit hours.

One credit hour seminar presentation (CHEM 5611).

In addition to the formal coursework requirements, a minimum of 6 credit hours of research and thesis (CHEM 5599) are required. Research and thesis (CHEM 5599) work must be done under the direction of the student's research adviser.

Up to 6 credit hours of directed studies (CHEM 5590) may be applied toward the degree requirements. Additional coursework may be substituted for part or all of (CHEM 5590) on approval of the student's supervisory committee.

The selected courses must be approved by the student's supervisory committee. Students who receive a grade of C+ (2.3) or lower in more than two courses applicable to the M.S. program or who have a GPA lower than 3.0 on courses (not including CHEM 5590, CHEM 5599 or any undergraduate courses) applicable toward the M.S. degree after completing 18 or more credit hours of such courses, will be terminated from the degree program.

Students, who have received a grade of B- (2.7) or better in graduate coursework taken as part of a degree program at another institution, may transfer up to 6 credit hours of this work on approval of a majority of the student's committee. A written request for this approval must be submitted within one year of full admission to the program.

Seminar Presentation (CHEM 5611)

Students must present a one-hour seminar based on their thesis research project. This seminar will include an exhaustive review of the literature pertinent to their project, a description of the objectives, the proposed methodology, and the significance of this research. Students must register for CHEM 5611 and present this seminar during the semester following selection of their research adviser and committee.

Thesis Defense

The candidate's thesis must be prepared following all of the guidelines required by the UMKC School of Graduate Studies. All supervisory committee members must receive a final draft of the thesis for approval of form and content at least two weeks before submission to the Dean of the School of Graduate Studies. Candidates should submit preliminary drafts of their thesis to their supervisory committee well in advance of this deadline. After the thesis is certified for acceptance by the Dean of the School of Graduate Studies, the student must present an oral defense of his/her research in the form of a thesis seminar. The supervisory committee will make a final determination of the acceptability of the thesis immediately following this presentation. Only minor changes may be made to the thesis at this point.

Emphasis Areas

Analytical

Research in analytical chemistry is focused on:

- Gas chromatography.
- Mass spectrometry.
- Fourier transform infrared, Raman and positron annihilation spectroscopy techniques.

Inorganic

Research in inorganic chemistry is focused on:

- Bioinorganic chemistry, including synthetic and mechanistic coordination chemistry of essential and toxic metal ions.
- Inorganic reactions including thermodynamic and kinetic aspects of metal-ligand interactions in aqueous and other media.
- Correlation of electronic structure calculations with experimental measurements.
- Bioinorganic chemistry of the heaviest metals.
- Development of new synthetic methodology to novel organic-inorganic hybrids.
- Polymer-silicate composites.

Organic

Research in organic chemistry is focused on:

- Synthesis and molecular architecture of bile acids and benzenoid hydrocarbons.
- Synthesis and physical studies of novel host-guest systems.
- Total synthesis of complex natural products.
- Development of new synthetic methods.
- Development of new scaffolds and reagents for combinatorial chemistry.
- Medicinal chemistry.
- Chemical biology.
- Synthesis and elucidation of natural products and antitumor agents.
- Biomimetic materials chemistry of cyclodextrin derivatives.
- Immobilized enzymes for "green" enantioselective catalysis.

Physical

Research in physical chemistry is focused on:

- Using infrared and Raman spectroscopy to determine molecular conformations.
- Developing infrared spectroscopic techniques for the analysis of environmental pollutants.
- Using *ab initio* and semiempirical computational methods to predict chemical and physical properties of interesting chemical species.
- Quantitative structure activity relationships.
- Physical and biological properties of dental materials.
- Characterization of electronic and free-volume properties in materials.
- Positron and positronium chemistry.
- Organic conductivity and superconductivity.
- Brownian dynamic simulation.
- Developing and using solid-state NMR methods for structural and dynamical studies of proteins and peptides.

Polymer

Research in polymer chemistry is focused on:

- Synthesis of novel organic and organometallic polymers.
- Novel dendrimers and their applications.
- Core-shell nanoparticles as functional materials.
- Hybrid polymers for molecular electronics.

- Characterization of electronic/optical/photophysical properties of polymers.
- Study of free volume, phase transition, relaxation phenomena, and gas diffusion of polymers and polymer blends.
- Semiconducting polymers.

Classical and Ancient Studies

Classical and Ancient Studies Program

Faculty Coordinators:

Jeff Rydberg-Cox  

James Falls  

- Classical and Ancient Studies Concentration and Minor
- Classical and Ancient Studies (CLASSICS) Courses

Classical and Ancient Studies Concentration and Minor

The Classical and Ancient Studies concentration provides a flexible program for the study of history, literature, art, culture, and language of the Ancient Mediterranean world. Students can complete a concentration or minor in Classical and Ancient Studies in conjunction with the bachelor of liberal arts degree (B.L.A.) or they can declare a Classical and Ancient Studies minor in conjunction with a major (B.A.) in another discipline.

Students wishing to complete the concentration in classical studies must take a minimum of 30 hours in at least three departments from the approved list of courses. The minor in classical studies requires 18 hours from the approved list.

The courses chosen for a program of study may vary widely based on the interests of each student; the faculty coordinators will help you select a curriculum suited to your individual interests, whether it be Greece and Rome or the Ancient Near East with a focus on history, philosophy, art history, or literature.

Students pursuing this course of study are encouraged to study at least one ancient language and to take an introductory level course that will provide them with a broad introduction to the ancient world (Art History 110, History 201, or Philosophy 210). Students wishing to pursue graduate studies in classics should plan to take both Greek and Latin.

Course Offerings

Classical and Ancient Studies:

- CLASSICS 210 Foundations of World Literature
(also listed as World Literature 210)
- CLASSICS 310WI Ancient Philosophy
- CLASSICS 318 Bible as Literature
- CLASSICS 319 Myth and Literature
- CLASSICS 340A Ancient Literature in Translation
- CLASSICS 369 Introduction to Prehistoric
and Classical Archaeology
- CLASSICS 430 Plato
- CLASSICS 431 Aristotle
- CLASSICS 467 Myth and Ritual
- CLASSICS 469 Archaeology and Biblical History
- CLASSICS 470 Ancient Egypt
- CLASSICS 471 Ancient Greece
- CLASSICS 472 Ancient Rome
- CLASSICS 470P Ancient World: The Social History

of the Ancient World
CLASSICS 471P Ancient World: The Political Structure
of the Ancient World

Communication Studies Department Description

The department offers courses leading to a bachelor of arts in communication studies.

The bachelor of arts in communication studies degree offers three areas of emphasis:

- Interpersonal and Public Communication
- Journalism and Mass Communication
- Film and Media Arts

The Interpersonal and Public Communication emphasis offers study in the areas of public address and rhetoric, interpersonal and intercultural communication, organizational communication and areas associated with human communication behavior.

The Journalism and Mass Communication emphasis offers concentrated study in select areas including print and electronic journalism, radio, television, journalism and advertising.

The Film and Media Arts emphasis offers a comprehensive approach to film, digital video and new media production.

In addition to the communication studies bachelor's degree, the UMKC debate program operates from the Department of Communication Studies. Students interested in joining the team may submit applications to the director of debate.

Special Laboratories

The department has fully equipped production facilities, including a state-of-the-art production studio, film and video editing suites, student radio and audio labs and digital imaging labs. Media production students have access to non-linear digital film and video editing (Avid, Final Cut Pro, iMovie and Pro Tools) and linear tape editing; a three-camera studio with jib arm; computer-controlled lighting; and broadcast standard digital special effects capabilities. Camera production for Super-8mm and 16mm film is also supported, along with growing digital imaging tools and web-based applications. These facilities are housed in the department's media labs in Haag Hall.

The nationally syndicated literary program "New Letters on the Air" is produced in association with the department and is broadcast on KCUR-FM, the 100,000-watt public radio station licensed to the University of Missouri-Kansas City. Internships are available to qualified students; they should contact the department for more information.

Special Awards and Scholarships

The Alex and Josephine B. Coleman Scholarship is awarded each year to an outstanding junior- or senior-level student. The award recognizes meritorious undergraduate work in communications and encourages program completion. The Suzanne Crispin Williams Scholarship is awarded annually to a non-traditional returning female student in Communication Studies or Women's Studies. A Film Finishing Fund provides grants to intermediate and advanced production students and the Student Film League holds showcases of student film and video projects. Cash prizes may

be awarded for winning entries. The Faye Kircher Public Speaking Contest is held in the fall and spring semesters. Students enrolled in ComS 110 courses are selected by their classmates for participation in the public speaking contest. Cash prizes are awarded.

Career Implications

Communication students may find rewarding careers in the multifaceted communication industry. The program is excellent preparation for careers in business, industry, health, public relations, advertising, radio, video and film production.

Further Educational Opportunities

The B.A. in communication studies prepares students for advanced study in communication studies, film and media, as well as in graduate programs such as law, medicine, business, public administration and those associated with the applied and performing arts.

Internship Program

The Communication Studies Department strongly recommends the internship experience as a means of linking theory to practice, and preparing students to work effectively in professional settings. Internships provide students with on-the-job experience which is both practical and purposeful.

The Internship course number is COMS 484. Each intern is required to enroll in at least one credit hour. One credit hour requires 75 hours of internship work. Two credit hours require 150 hours of internship work. Three credit hours require 225 hours of internship work. Four credit hours require 300 hours of internship work.

Information on Internship Opportunities is available in the department office. The coordinator for the Internship Program is Carol Koehler.

Advising System

The department recommends that students check the current program requirements in the department office before filing the declaration of major form. Students may wish to consult the principal undergraduate adviser Linda Kurz.

Financial Aid

Students with University work-study assignments are welcomed as student assistants in various aspects of the department's activities.

Bachelor of Arts: Communication Studies

Student Learning Outcomes

The Department of Communication Studies offers a variety of program areas, including speech communication, print and electronic journalism, advertising, public relations, media theory and history, as well as radio, television, and film/video production. While each of these program areas have distinct outcomes in regard to professional competence, the faculty makes a strong effort to work collaboratively to assure that the measure of success in earning a degree in Communication Studies is defined in three departmental outcome goals which we seek to make one in the learning process:

1. Oral and written communication competence.
2. The development of critical thinking skills.
3. The development of both social and professional skills.

We recognize that the development of "professional skills" involve both general and specific outcomes. General outcomes include producing students who display professional standards in regard to interpersonal, intercultural, and organizational communication skills, as well as professional work habits (punctuality, reliability, ethical discernment, teambuilding, etc.). Specific professional skills taught in the Department prepare students to succeed in the professional areas of business communication, health communication, advertising, public relations, film, broadcasting, and journalism.

The Department makes a conscious effort to assess our curricula, teaching, as well as learning processes, and student/faculty

competence, on the basis of student learning outcomes. We take pride in our reputation as a "teaching" department.

These outcome goals must equally serve students who will be immediately entering the workplace following the attainment of their undergraduate degree, as well as those who will be entering graduate school programs in a wide variety of academic areas (law, business, speech communication, journalism, film, among others).

In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above. For example, in a film/media production class, student work is not only graded on professional standards of technical skill, but also on the ability of the student to give an oral presentation concerning their film/video production, as well as the ability to turn in written work that demonstrates an ability to apply a critical/theoretical/historical analysis of the production. The same approach is likewise applied to professional internships.

Core Program Requirements

The department provides an multidisciplinary approach so students can satisfy their educational and occupational needs across multiple, firmly grounded degree tracks. Regardless of the emphasis, students are required to satisfactorily complete the department's core courses. Students must maintain a 2.0 GPA in their major field. A grade of "D" in a course within the major will not be accepted for credit in the program. With prior permission, three hours of elective credit from another department may be accepted as Communication Studies elective credit. At least 18 of 33 credit hours must be at the 300- or 400-level. Transfer students must complete a minimum of 15 credit hours within the department.

Required Core Courses: (6 Hours)		Hours
COMM-ST 110	Fundamentals of Effective Speaking and Listening	3
COMM-ST 483	Seminar in Communication Studies	3

The program of study for the bachelor of arts in communication studies consists of 33 total credit hours. Students are expected to work closely with a departmental adviser in designing an undergraduate program of study for their emphasis. Only three credit hours within the 33 hours for a major may be taken in one-hour courses. Each emphasis requires at least three hours of writing-intensive courses.

Note: Students must successfully complete the WEPT Exam before enrolling in any writing intensive courses.

Interpersonal and Public Communication Emphasis

In addition to the department's six hours of core courses, three hours of Interpersonal and three hours of Public communication courses are required. Twelve hours of Interpersonal and Public electives are also required. Nine hours of departmental electives complete the emphasis for a total of 33 credit hours.

Interpersonal Communication: (3 Hours)		Hours
COMM-ST 343	Group Dynamics	3
COMM-ST 344WI	Communication in Organizational Settings	3
COMM-ST 377WI	Interpersonal Communication	3
COMM-ST 378	Computer-Mediated Communication	3
COMM-ST 431	Colloquium in Interpersonal Dynamics	3
COMM-ST 444WI	Intercultural Communication	3
Public Communication: (3 Hours)		
COMM-ST 213	Argumentation and Critical Thought	3
COMM-ST 312	Advanced Public Speaking	3
COMM-ST 317	Persuasion	3
COMM-ST 341/WI	Rhetorical Theory and Criticism	3
COMM-ST 446	Principles of Advertising	3
COMM-ST 448	Principles of Public Relations	3

COMM-ST 484	Communication Studies Activities	1-4
Interpersonal and Public Electives: (12 hours)		
COMM-ST 213	Argumentation and Critical Thought	3
COMM-ST 312	Advanced Public Speaking	3
COMM-ST 317	Persuasion	3
COMM-ST 341WI	Rhetorical Theory and Criticism	3
COMM-ST 343	Group Dynamics	3
COMM-ST 344WI	Communication in Organizational Settings	3
COMM-ST 377WI	Interpersonal Communication	3
COMM-ST 378	Computer-Mediated Communication	3
COMM-ST 400	Special Studies	1-3
COMM-ST 431	Colloquium in Interpersonal Dynamics	3
COMM-ST 444WI	Intercultural Communication	3
COMM-ST 446	Principles of Advertising	3
COMM-ST 448	Principles of Public Relations	3
COMM-ST 484	Communication Studies Activities	1-4

Film and Media Arts Emphasis

In addition to the 6 credit hours of the department's core courses, the Film and Media Arts emphasis requires COMM-ST 230 - Introduction to Film Studies (3 cr. hrs) and 24 hours of Film and Media Arts electives for a total of 33 credit hours.

Required Courses: (3 Hours)
Hours

COMM-ST 230 Introduction to Film Studies 3

Film and Media Arts Electives: (24 Hours)

COMM-ST 220 Modern Communications Media 3

COMM-ST 250 Introduction to Media Production 3

COMM-ST 281 Animation 3

COMM-ST 320 Mass Media, Culture and Society 3

COMM-ST 339 Film Theory and Criticism 3

COMM-ST 341WI Rhetorical Theory & Criticism

COMM-ST 351WI Fundamentals of Writing for
the Media 3

COMM-ST 354 Introduction to Screenwriting 3

	COMM-ST 363	Radio Production I	3
COMM-ST 373	Intermediate Media Production		3
COMM-ST 376	History of the Film Industry		3
COMM-ST 380	Contemporary Issues in the Mass Media		3
COMM-ST 384	Documentary Film		3
COMM-ST 385	Documentary Production		3
COMM-ST 391	The Worlds of Alfred Hitchcock		3
COMM-ST 392	Great Directors of Foreign Film		3
COMM-ST 393	History of the Hollywood Musical		3
COMM-ST 394	The World of "Film Noir"		3
COMM-ST 400	Special Studies	1-3	
COMM-ST 402CD	American Social Film: Silver Screen & the American Dream		3
COMM-ST 403CE	Radical Changes Since 1945		3
COMM-ST 454	Advanced Screenwriting		3
COMM-ST 457	Producing and Distributing Media		3
COMM-ST 470	Directing		3
COMM-ST 471	Advanced Media Production		3

COMM-ST 478	Media Law	3
COMM-ST 484	Communication Studies Activities	1-4
COMM-ST 498	Special Problems in Communication Studies	1-6

Journalism and Mass Communications Emphasis

In addition to the department's six credit hours of core courses, the Journalism and Mass Communication emphasis requires six hours: COMM-ST 220 and 303WI. An additional 21 hours of Journalism and Mass Communication electives are required, for a total of 33 hours.

Required Courses: (6 Hours)		Hours
COMM-ST 220	Modern Communications Media	3
COMM-ST 303WI	Introduction to Journalism	3
Journalism and Mass Communication Electives: (21 Hours)		
COMM-ST 265	Media Photoimaging	3
COMM-ST 311	Radio & Television Performance	3
COMM-ST 314WI	Reporting	3
COMM-ST 320	Mass Media, Culture and Society	3
COMS-ST 331/WI	Mass Media in America	3
COMM-ST 341/ WI	Rhetorical Theory and Criticism	3
COMM-ST 351WI	Fundamentals of Writing for the Media	3
COMM-ST 361	Broadcast Management	3
COMM-ST 363	Radio Production I	3
COMM-ST 371	Intermediate Video Production	3
COMM-ST 380	Contemporary Issues in the Mass Media	3
COMM-ST 384	Documentary Film	3
COMM-ST 388	Media Ethics	3
COMM-ST 400	Special Studies	1-3
COMM-ST 402CD	American Social Film: Silver Screen & American Dream	3
COMM-ST 432	Press, Politics and Public Policy	3
COMM-ST 446	Principles of Advertising	3
COMM-ST 448	Principles of Public Relations	3
COMM-ST 456	Electronic Journalism	3
COMM-ST 462	Public Broadcasting	3
COMM-ST 466	Electronic Journalism Performance	3
COMM-ST 478	Media Law	3
COMM-ST 484	Communication Studies Activities	1-4

Minor in Communication Studies

Minor in Communication Studies

A minor in communication studies may be earned by completing two required courses (COMM-ST 110 and 308), plus another 12 credit hours in any 300-400 level courses within the department. Students may declare their minor by meeting with the undergraduate adviser and filing a completed Declaration of Major Form (available in 202 Haag Hall) with a current copy of their transcript. A grade of "D" in a course within the minor will not be accepted for credit in the program.

Required Courses: (6 Hours)
Hours

COMM-ST 110	Fundamentals of Effective Speaking and Listening	3
COMM-ST 308	Introduction to the Study of Human Communication	3

Minor in Film Studies

A minor may be earned in the study of the film medium and the use of film and mass media for artistic, cultural and social purposes. (Not available to ComS majors.)

Required Courses: (6 Hours)
Hours

COMM-ST 230	Introduction to Film Studies	3
COMM-ST 376	History of the American Film Industry	3
Electives: (12 hours)		
COMM-ST 220	Modern Communications Media	3
COMM-ST 250	Introduction to Media Production	3
COMM-ST 320	Mass Media, Culture and Society	3
COMM-ST 339	Film Theory and Criticism	3
COMM-ST 341WI	Rhetorical Theory & Criticism	
COMM-ST 351WI	Fundamentals of Writing for the Media	3
COMM-ST 354	Introduction to Screenwriting	3
COMM-ST 363	Radio Production I	3
COMM-ST 373	Intermediate Media Production	3
COMM-ST 380	Contemporary Issues in the Mass Media	3
COMM-ST 384	Documentary Film	3
COMM-ST 385	Documentary Production	3
COMM-ST 391	The Worlds of Alfred Hitchcock	3
COMM-ST 392	Great Directors of Foreign Film	3
COMM-ST 393	History of the Hollywood Musical	3

Department of Criminal Justice and Criminology Description

The Department of Criminal Justice and Criminology offers programs of study leading to the following degrees:

- Bachelor of Arts in Criminal Justice and Criminology
- Master of Science in Criminal Justice and Criminology

A program minor is available in Criminal Justice and Criminology.

The mission of the department is to extend knowledge about the nature of crime and criminal justice. This mission includes continuing participation by faculty in significant criminological research; other scholarly endeavors; and inviting students to join in that activity by:

- Learning the core materials of the discipline.
- Acquiring research skills.
- Assisting in faculty research.
- Becoming involved in student activities that supplement coursework and research.

Within the context of a liberal arts education, the program offers an interdisciplinary approach to study the criminal justice system. The program is designed to develop the intellectual skills required to function effectively as a field practitioner and to provide the knowledge base for careers as planners, administrators and researchers. The course offerings emphasize issues and problems relevant to policy considerations in criminal justice.

Department Activities

Academic Advising

Student academic advising is a continuous process in the department. Undergraduate advisers are available for consultation throughout the academic year. The department recommends that students check the program requirements in the department office before filing the declaration of major form. Undergraduate majors are encouraged to consult with the department to establish a tentative plan of study. Students should leave their mail and e-mail addresses with the department office so that they can receive notifications concerning the class time table, new classes, and other departmental information of interest to majors.

Financial Assistance

Students can receive financial assistance through various campus scholarships, loan programs, grants and the work-study program. Students who are interested should contact the Financial Aid and Scholarships Office.

Federal Law Enforcement Officers Association Scholarship in Criminal Justice & Criminology

The Federal Law Enforcement Officers Association is the largest professional association for federal law enforcement officers. FLEOA is a volunteer association representing more than 25,000 federal agents from over 65 federal law enforcement agencies providing a legislative voice for its members.

Eligibility Criteria:

- Undergraduate student majoring in Criminal Justice & Criminology
- 3.0 minimum GPA
- At least 24 hours completed at UMKC

Cooperative Programs

The department cooperates with several other programs on the campus by jointly listing courses at the undergraduate level. Students may benefit from combining one of these areas of study with their major:

- Gerontology
- Honors program

- Urban Studies
- Women's and Gender Studies

Career Implications of the B.A. in CJC

The B.A. curriculum is designed to prepare students for entry-level positions and middle-management careers in the public and private sectors of police and security services, adult and juvenile justice systems and post-adjudicatory services such as probation, parole and related private organizations, as well as federal, state and local administrative agencies. The program is intended to augment skills that are developed in the training programs and academies of service agencies and to develop new talent for the wide variety of agencies and organizations that administer our legal institutions. In addition to the foregoing variety of career roles, CJC majors can exercise career options in consulting, government, human services, journalism and urban planning, and with the appropriate graduate training, in teaching social work, criminology and law.

Career Implications of the M.S. in CJC

The master of science degree in criminal justice and criminology is intended to prepare students for careers in field practice, research, administration and program evaluation in public and private justice-related agencies. Students also may find the degree a useful prelude to law school or doctoral study in criminal justice, criminology, sociology, political science or public administration. Career opportunities are not restricted to those traditionally defined as criminal justice (i.e., law enforcement or correctional administration). Options include program planning, policy evaluation and investigative work for state and federal regulatory agencies, management and planning for private security agencies; and research and evaluation for legislative and public and private advisory agencies. Students with the M.S. degree also may find some teaching opportunities open to them, although permanent employment in institutions of higher education usually requires a doctoral degree.

Master of Science in CJC: Program Description

The M.S. degree in CJC offers coursework that emphasizes policy analysis of criminal justice and criminology issues. The M.S.-CJC degree may serve as a terminal degree for those seeking appropriate study and academic credentials to qualify for management and administrative positions in justice-related agencies. The degree may also serve as preparation for advanced study in criminology and criminal justice at the doctoral level. Depending upon personal academic or career goals, students may concentrate studies in the treatment and research area, or the area of justice agency development and management.

BA in Criminal Justice and Criminology

Student Learning Outcomes

Graduates of the UMKC's Undergraduate Criminal Justice & Criminology Degree Program will:

- Have specific knowledge of the three major areas of America's Criminal Justice system (Police, Courts, and Corrections).
- Understand how each sub-system within the Criminal Justice system operates, and how they interact with one another.
- Have knowledge of the major criminological theories that attempt to explain delinquent and criminal behavior.
- Be able to read, understand, and utilize selections from the Criminal Justice & Criminology academic literature base, pertaining to a particular subject within Criminal Justice and Criminology.
- Possess the ability to craft a brief, organized and coherent essay in response to a question, problem, or issue.
- Know what career options are available to them with the credential of a B.A. in Criminal Justice & Criminology, and how to pursue those career options.

Degree Requirements

The B.A. degree requires a total of 36 credit hours in addition to the general education requirements for a degree in The College of Arts and Sciences.

For students selecting the CJC major, required courses are the following:

CJC 101	Introduction to Criminal Justice	3
CJC 319	Theoretical Criminology	3
CJC 363*	Introduction to Statistics in Sociology/Criminal Justice	3
CJC 470WI**	Capstone: Criminal Justice and Criminology	3
CJC 483 or CJC 486	Methods of Sociological Research Methods of Program Evaluation	3 3

* MATH 235 is not a substitute for CJC 363.

**Students are expected to take CJC 470WI after they finish all other CJC courses. CJC 470WI is open only to CJC majors in their last semester of coursework.

Two of the following are also required:

CJC 250	Introduction to Policing	3
CJC 260	Principles and Practices of Criminal Courts	3
CJC 265	Delinquency and Juvenile Justice	3
CJC 270	Principles of Corrections	3

Students should receive a grade of no lower than C- in the core required courses (CJC 101, 319, 363, 483, and 470WI) and an overall GPA of 2.0 in the major.

It is suggested that students broaden their course choices by selecting related offerings in English (especially those courses that stress writing skills), philosophy, history, geography, political science, psychology, sociology and public administration.

Transfer students may be credited with a maximum of 15 Criminal Justice and Criminology credit hours (the introductory course plus 12 hours of electives) from other institutions. Students with more than one academic major may apply only 3 credit hours (usually the required research methods course) from another degree program toward the CJC major.

In selecting courses to fulfill the 15 credit hours of CJC electives, CJC majors and minors should be aware of the following restrictions:

- * No more than 6 credit hours of Directed Studies in Criminal Justice and Criminology (CJC 490) may be used to fulfill CJC elective requirements.
- * Participation in only one Internship in Criminal Justice (CJC 491) may be used to fulfill CJC elective requirements.
- * No more than 3 credit hours of Topics in Criminal Justice and Criminology (CJC 492) may be used to fulfill CJC elective requirements.

Students who are pursuing the CJC major or minor are strongly encouraged to meet with their adviser each semester to review their progress toward degree completion, as well as to determine the appropriateness of coursework selected.

Minor in Criminal Justice and Criminology

Undergraduate students can obtain a CJC minor. A minimum of 18 credit hours is required, including the introductory courses CJC 101 and CJC 483. At least 9 of the 18 credit hours must be in courses at the 300 or 400 level, in addition to at least 9 credit hours taken from UMKC. Only 3 credit hours from the major field of study may be applied toward a CJC minor.

Master of Science: Criminal Justice and Criminology

Application Procedures

Applicants must submit an application for admission to UMKC and transcripts of their undergraduate work to the university Office of Admissions. Additionally, applicants must submit a writing sample to the department's Admissions Committee. This writing sample should be a two to three page letter requesting admission to the program. In the letter, applicants should identify how their undergraduate education and their work or personal experience has prepared them for graduate study in the area of criminal justice and criminology. Also, the letter should address how applicants view study in our graduate program as fitting with their future career or educational goals. The writing sample is to be sent directly to the principal graduate adviser for the M.S.-CJC program at the department address. Applicants for the spring term must have all materials to the admissions committee by November 1, and those applying for fall semester or summer term admission must have materials in by April 1.

The department strongly recommends that application materials be submitted at least five months before the anticipated date of initial enrollment to ensure all materials will be on hand in time for review.

Decisions regarding admission to the graduate program are made by the graduate faculty of the program. Materials are reviewed with attention to past academic performance and substantive areas of study that would prepare students for CJC graduate study.

Admission Requirements

The minimum admission requirements for entrance into the M.S.-CJC program include the following:

1. Completed an undergraduate degree, from an accredited university or college, with coursework in the socio-behavioral sciences sufficient to prepare for graduate-level study in the criminal justice and criminology field.
2. Achieved a minimum of 2.75 GPA in all undergraduate work, with a 3.0 GPA for courses within the socio-behavioral sciences area.
3. Completed undergraduate courses in statistics, research methods, and theories of crime.

The application process is competitive. Satisfaction of the minimum criteria stated above does not guarantee admission to the graduate program of study. Students are admitted according to their rank in the applicant pool and consideration of the adequacy of departmental resources.

Students who do not meet admission requirements, but who otherwise show promise for graduate work, may be admitted provisionally to the program. Provisional admission means deficiencies must be corrected before a student is fully admitted as a degree-seeking student in the M.S.-CJC program. Typical deficiencies include a need to take undergraduate coursework to prepare for graduate study in this program, or to demonstrate scholastic ability in graduate-level courses.

Student Learning Outcomes

Graduates from the Master of Science in Criminal Justice and Criminology program will:

- Have knowledge as to the character and recent trends in crime in the United States.
- Understand the major elements that shape and impact the development of justice system policies in response to crime.
- Have knowledge with respect to various models for defining the scope and operation of the criminal justice system.
- Have specific knowledge regarding recent developments in criminological theories that attempt to explain delinquent and criminal behavior.
- Be able to employ elements of qualitative and/or quantitative research methods to design scientific-based projects to examine issues related to criminal justice or criminal behavior.
- Have knowledge and understanding of statistical methods, processes, and tests to understand and interpret scientific research findings from the criminal justice and criminology literature.
- Have specific knowledge and understanding of current literature, research, and issues in a cognitive area related to criminal justice chosen by the student.

The M.S.-CJC degree requires successful completion of 30 credit hours of graduate work. Within these 30 hours, students may elect to complete a thesis or pursue the non-thesis option.

A core of six courses is required of all students. The required courses include:

Required Courses:Hours

CJC 5501	Proseminar to the Criminal Justice System	3
CJC 5580	Policy and Decision Making in Criminal Justice	3
CJC 5516	Intermediate Quantitative Methods (Statistics)	3
CJC 5518	Advanced Theoretical Criminology	3
CJC 5510	Sociological Research Methods I	3
-or-		
CJC 5511	Sociological Research Methods II	3

In addition, one of the following courses is required:

CJC 5551	Seminar in Policing	3
CJC 5570	Contemporary Corrections and Correctional Policy	3
CJC 5575	Correctional Rehabilitation and Treatment	3

The required graduate courses in statistics, research methods and theory demand completion of prerequisite courses in these areas from the student's undergraduate work. Those who have not had such courses may be required to take the prerequisite course(s) prior to enrolling in the graduate course. Beyond the required courses, students must complete an additional 12 hours of academic work. This work may include thesis hours, courses in independent directed studies, classes from the CJC curriculum, or courses from other disciplines. The content of those 12 hours of study will reflect the student's choice with respect to thesis or non-thesis options.

Those electing to write a thesis as part of their graduate work can receive up to 6 hours credit (CJC 5599) for preparation of the thesis. In addition to writing the thesis students must successfully complete an oral defense of that thesis before their supervisory committee. The research topic of the thesis will address some issue of specific interest to the student. Through courses, literature review, and analyses conducted in developing the thesis, students are expected to become proficient in their specific thesis topic area.

Those electing the non-thesis option will take coursework and directed studies related to a cognate area. Their 12 hours of study beyond the required courses will address the area of specialization, or cognate area, selected by the student. There are five possible cognate areas from which to choose:

1. Policing.
2. Legal aspects of the criminal justice process.
3. Corrections.
4. Women and crime.
5. Juvenile justice, delinquency and gangs.

In their final semester, these students must successfully complete written comprehensive exams covering topic areas from the required courses as well as their cognate area of study.

Students must complete at least 3 hours of graduate work each semester (fall and spring) in order to maintain their standing in the program. At minimum, a 3.0 GPA must be attained in all work offered for graduate credit. Students should consult the General Graduate Academic Regulations and Information section of the UMKC catalog for regulations that apply to all graduate students.

Economics Department Description

The Department of Economics is committed to promoting excellence in broad-based undergraduate programs; graduate and interdisciplinary doctoral education; research; and community, university and professional service. The department focuses its research, teaching and service efforts on the urban mission of the University by fostering a diversity of research and teaching perspectives for faculty and students.

The department offers an undergraduate major that can be completed either through day or evening classes and is a major participant in PACE (Program for Adult College Education).

Center for Economic Information

Haag Hall, Room 210
5120 Rockhill Road
(816) 235-1394
<http://www.umkc.edu/cei/>

The Center for Economic Information was established in November 1994 with the goal of making local, regional and national information accessible to economic decision-makers in the Kansas City metropolitan area. The CEI is affiliated with the Department of Economics and the College of Arts and Sciences.

The center is involved in research, teaching and outreach activities. The primary expertise of the center is in application of information technology for economic analysis.

Missouri Council for Economic Education

The department houses the Missouri Council for Economic Education (MCEE). MCEE is the statewide provider of economic education training for elementary and secondary education.

Social Science Consortium

The department is the administrative home of the Social Science Consortium. The SSC is a co-discipline for the Interdisciplinary Ph.D. program. The SSC faculty is drawn from the departments of economics, political science and sociology.

Our Students

The department provides undergraduate service courses to the College of Arts and Sciences, the Bloch School, and the School of Computing and Engineering. Undergraduate major participate in a variety of visiting lecture programs and faculty colloquialism through the Economics Club and the Omicron Delta Epsilon (the economics honorary society).

Faculty and Facilities

Faculty members of the department maintain active, extensive research programs and a strong commitment to teaching -- holding four outstanding teaching awards. Faculty members have served as presidents for national and regional economic associations and lectured and conducted research in the Fulbright Program, the Ford Foundation, the U.S. Department of Commerce, and the U.S. Department of Labor. Faculty members have established national and international reputations in a number of research fields. For a small faculty, the department has ranked high among other economics departments at comparable institutions nationally.

Current regular faculty membership consists of six professors, three associate professors, two assistant professors and four lecturers. The faculty are cooperative and highly interactive with students, resulting in several team-taught PACE block classes, other team-taught classes and collaborative research.

The Department of Economics and the Center for Economic Information are housed in Haag Hall. Faculty and other department programs are housed in Manheim Hall. Students have access to state-of-the-art computer labs and classrooms.

Information

You may request information about economics programs by calling the department's main number, (816) 235-1314; visiting the Web site, <http://cas.umkc.edu/econ/>; or sending an information request via e-mail to economics@umkc.edu.

For specific information on the undergraduate degree program, contact Frederick Lee  , Undergraduate Adviser, (816) 235-2543 or <mailto:leefs@umkc.edu>.

Department Goals

As part of its urban mission, the department continues to expand its research, grants and service performance through the Center for Economic Information.

The immediate goals of the department are to:

1. Establish a nationally recognized reputation for research of planning based on GIS analysis through the CEI.
2. Expand UMKC's high-quality Interdisciplinary Ph.D. program, which uses the resources of the CEI and extensive, applied research experience of the department's faculty.
3. Maintain the highest standards of teaching quality in undergraduate and graduate programs.

Interdisciplinary Ph.D. in Economics and Social Sciences

The Department of Economics participates in the Interdisciplinary Ph.D. program.

The department also administers and participates in the Social Science Consortium which is a co-discipline in the Interdisciplinary Ph.D. program. For information about these programs see the School of Graduate Studies section in this catalog, contact the Department of Economics, (816) 235-1314, or Frederic Lee  , graduate adviser, (816) 235-2543, or leefs@umkc.edu.

Bachelor of Arts: Economics

Student Learning Outcomes

Upon graduating with a B.A. degree in Economics:

- Students will be able to distinguish the attributes of a variety of economic theories and policies.
- Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
- Students will have knowledge of statistical methods that will become part of their problem-solving toolset.
- Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
- All students will have undertaken a research project in conjunction with a local community development corporation as part of an academic service learning assignment. In fact, there will be many opportunities to be actively engaged with the Kansas City community through our community service requirement in various courses.
- Students will be better problem solvers and better-informed citizens.

Career Implications

The undergraduate degree in economics is excellent preparation for graduate study in economics and most other academic disciplines, as well as law and business. A degree in economics opens a wide range of career choices including teaching, government service, finance, banking and insurance. It is excellent preparation for a career in business, public administration and management.

Advising System

Students in the program should consult Professor Frederick Lee, (816) 235-2543 and E-mail: leefs@umkc.edu, for undergraduate advising.

Program of Study

The department offers a bachelor of arts in economics.

Honor Society

The Zeta chapter of the Omicron Delta Epsilon International Honor Society in Economics is on campus. Information on this organization can be obtained from Ben Young. The society is open to all undergraduate students with at least 12 hours of economics and a 3.0 GPA in economics and related courses. Graduate students in economics with a 3.0 GPA also may join.

Special Award

The Joe E. Brown Institutional Economics Award is given each year to an undergraduate student for outstanding academic performance in the study of institutional theory.

The Bachelor of Arts in Economics

This program requires a minimum of 30 hours and a maximum of 45 hours of courses in the department. A minimum 2.0 GPA in the major is required for graduation.

Related courses in anthropology, English, geography, philosophy, history, political science, psychology, sociology, accounting and computer programming are recommended to satisfy the College of Arts and Sciences requirements for graduation. In addition, MATH 210 Calculus I is recommended for the student's program of study.

The following courses are required:

ECON 201 Introduction to Economics I
ECON 202 Introduction to Economics II
ECON 301 Macroeconomic Analysis
ECON 302 Microeconomic Analysis
ECON 406WI History of Economic Thought
ECON 425 Intermediate Economic Statistics
ECON 451 Institutional Economic Theory
ECON 499WI Capstone Colloquium

MATH 110 College Algebra and MATH 235 Elementary Statistics or their equivalents are prerequisites for ECON 425.

ECON 421 is recommended for students who plan to do graduate work in economics.

Six hours of elective economics courses are required.

Undergraduate Minor in Economics

The minor in economics is open to all students and consists of a minimum of 18 hours (six courses) in economics.

The courses are

ECON 201 Introduction to Economics I
ECON 202 Introduction to Economics II
ECON 3XX or 4XX (12)

Twelve hours in 300- to 400-level courses must be approved by the economics undergraduate adviser.

Teacher Certification in Social Studies

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and the School of Education. A separate application for teacher education is required.

For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

PACE Degree in Liberal Arts

The department participates in several courses in PACE: leading to concentrations in human resources or a program for working adults in a weeknight/weekend format. These courses include

Economics Pace Courses

ECON 366 Art Markets
SOC-SCI 395C Economics of Energy
ECON 202P Introduction to Economics II
ECON 395I Views of a Good Society
ECON 201P Introduction to Economics
(Independent Study)
SOC-SCI 397A The Economics of Public Process
(Independent Study)

ECON 301P Macroeconomic Analysis
ECON 406WI History of Economic Thought
ECON 331P Money and Banking
ECON 397CP Current Macroeconomic Issues

ECON 302P Microeconomic Analysis
SOC-SCI 397B The Economics of Public Process

ECON 353 Financial Analysis and
the Economy
SOC-SCI 395B The Economics of the Law
SOC-SCI 305P Economic Principles and
Application of Accounting

SOC-SCI 438P Labor History and Economic Policy
HISTORY 400Z Topics: KC Labor History
ECON 486 Labor Economics
SOC-SCI 490C Readings in Labor Economics
HMNTY 401PW Culture of the Working Class

Master of Arts: Economics

Student Learning Outcomes

Students graduating with a master's degree in economics will:

- Have an advanced knowledge of the basic areas of the field.
- Be able to integrate their knowledge with critical thinking skills.
- Be able to articulate their knowledge, both orally and in writing.
- Be able to effectively research the literature of this field.

The Department of Economics offers a master of arts degree. The M.A. program seeks to provide students with a broad level of competence in economics. Students are encouraged to extend the reach of their scholarship to acquire a wide-ranging foundation in addition to technical mastery of theory and quantitative methods. This is done through the combination of required and elective courses.

Career Implications

The master of arts in economics is designed as a preparation for further graduate training at the doctoral level and for professional positions in industry, business, government, teaching and research. Courses may be taken in areas other than economics with the approval of the graduate adviser.

Advising System

Students should consult with the graduate adviser, Frederic Lee , (816) 235-2543, leefs@umkc.edu, to plan their

graduate program of study.

Admission Requirements

Students may be admitted for graduate study in economics if they have a baccalaureate degree in economics from an accredited college or university with an overall grade-point average of at least 2.5 on the 4.0 scale (or the equivalent). Applicants whose undergraduate GPA is less than 2.5 may be considered for admission upon petition to the Graduate Admission Committee of the Department of Economics.

Students who have a baccalaureate degree with an overall undergraduate GPA of 2.5 or better and who did not major in economics may be admitted to the program upon consultation with the department's graduate adviser and on demonstrating proficiency in the following areas:

- Intermediate Macroeconomic Analysis
- Intermediate Microeconomic Analysis
- Introductory Statistics

All students with less than a 2.5 (4.0 scale) GPA prior to admission shall be required to take the general Graduate Record Examinations (GRE) and obtain a score of 1000 or greater on the verbal and quantitative and at least a 4.0 on the analytical portions.

International students who have studied less than two years (full time) in a U.S. academic program or a comparable program in an English-speaking country are required to have TOEFL score of 550 or above or 213 on the computer-based test.

Degree Requirements

Thirty hours of graduate work are required for the M.A. in economics. The following required courses (15 hours) and their prerequisites are listed:

ECON 5501 Advanced Macroeconomic Analysis
(ECON 301 Macroeconomic Analysis)
ECON 5502 Advanced Microeconomic Analysis
(ECON 302 Microeconomic Analysis and
5521 Mathematical Economics)
ECON 5521 Mathematical Economics
ECON 5525 Econometric Methods
(ECON 425 Int. Economic Statistics)
ECON 5551 Advanced Institutional Theory
(ECON 451 Institutional Economic Theory)

Substitutions for the above prerequisites may be approved by the graduate adviser.

ECON 5521 is waived if students have completed ECON 421 or its equivalent. In the event students have not had ECON 421 they should take ECON 5521. Calculus is strongly recommended as a prerequisite for ECON 5521.

ECON 425 is required for all students who have not had it, or something very much like it.

ECON 451 is required for all students who have not had an approved substitute - see graduate adviser.

An additional 15 hours of coursework must be completed. Up to nine of these hours may be in selected 400-level courses in economics and related disciplines, upon consultation with the graduate adviser. Graduate credit toward the M.A. in economics is not given for courses at the 300 level. No more than 6 hours of ECON 5590, Special Topics, may be counted toward graduation.

For students not entering in the fall semester, it is strongly recommended that ECON 5521 (Mathematical Economics) be taken at the first opportunity. The prerequisites for graduate courses are very important and must be completed prior to enrollment in courses with prerequisites. Graduate students in economics must also comply with the general graduate academic regulations as found in the School of Graduate Studies section of this catalog.

Requirements for Retention

Students are expected to maintain a high degree of academic excellence. Students must maintain a minimum 3.0 graduate grade-point average. A student who receives a grade of C+ or lower will receive an academic warning.

Students who receive a grade of C or C- in two classes, or a grade of D+ or lower in one class, will be dropped from the program. A maximum of 3 hours of 2.0 (C) in graduate courses will be permitted to count toward graduation. A 3.0 (B) must be earned in all undergraduate courses approved for graduate credit and in ECON 5590 and ECON 5599.

A student is required to fill out a "program of study" with the graduate adviser before the completion of 15 hours of coursework. At that time, the graduate committee will consider the student's performance and make a recommendation with regard to retention of the student. After being approved by the College of Arts and Sciences graduate officer, the program of study is filed with the UMKC Records Office and may be amended upon consultation with the graduate adviser.

Requirements for Graduation

Students on the elective courses track are required to complete 15 hours beyond the required courses. Of these, 6 hours must be at the 5500 level. Students on the project track complete a supervised applied research project which counts as part of the 15 hours beyond the required courses. The number of hours for the project depends on its scope and is determined by students and their project adviser. For more information about the project, see the graduate adviser. Depending on the scope of the project, students are required to take 3 to 6 hours from among the following courses:

ECON 5591 Research & Planning Seminar (required)
ECON 5599 Research and Thesis (ECON 5591 prerequisite)

Department Description

The Department of English Language and Literature offers programs of study that lead to the Bachelor of Arts, the Master of Arts, the Master of Fine Arts, and the Interdisciplinary Doctor of Philosophy degrees. In the undergraduate program, students may pursue a general English program, or they may choose an emphasis in creative writing or secondary English education. Four minors in English are offered: Language and Literature; Creative Writing; Writing; and Manuscript, Print Culture, and Editing. M.A. in English students may focus their studies on Literature or may elect the the Language and Literature track or the Manuscript, Print Culture, and Editing track. The M.F.A. in Creative Writing and Media Arts is an interdisciplinary program leading to a terminal degree. English is an academic discipline eligible for full participation in the University's Interdisciplinary Ph.D. program.

The Department of English includes faculty who have a broad range of professional competence in the study of literature and language, and who are trained to teach courses in British and American literature, linguistics, American culture, film, creative writing, and composition. The department believes the study and teaching of literature and language to be an important means of preserving and vitalizing our humanistic tradition.

Publications

The Department of English and the College of Arts and Sciences publish *New Letters*, a continuation of *The University Review*, which for over 50 years published the works of new and distinguished writers. *New Letters* continues to provide a medium for the best imaginative writing available.

The Department of English sponsors the publication of *Number One*, a magazine of student poetry and fiction, and *The Sosland Journal*, a collection of award-winning student essays from the Ilus W. Davis contest.

BkMk Press, operated under the auspices of the College of Arts and Sciences and housed in the Department of English, publishes books of high-quality poetry and prose by professional writers.

Greater Kansas City Writing Project

The English Language and Literature Department, in conjunction with several local school districts, sponsors the Greater Kansas City Writing Project (GKCWP), a graduate in-service program for teachers of writing (K-14). This program consists of summer graduate credit workshops and school district in-service sessions throughout the academic year. The GKCWP is an official National Writing Project affiliate.

Related Information, Opportunities, and Conferences

The Department of English sponsors undergraduate and graduate student conferences, a writers' reading series, two summer creative writing workshops (the Mark Twain Workshop and the *New Letters* Writers Conference), and annual contests for the Barbara Storck Poetry and Short Story Award and the Ilus W. Davis Award in Expository Writing. The Department offers additional scholarships for creative writers and students in literature, including the Diversity in English Scholarship for undergraduates. Graduate students are also eligible for the Farnsworth Fellowship. I-PhD students can apply for the Ilus Davis Doctoral Teaching Fellowship. The Department also offers courses and an annual conference for English teachers as part of its continuing education function.

Career Implications of the Undergraduate Degree

The English major is recommended for students interested in a broad, general background in the humanities and in the skills of analysis, synthesis, and self-expression. It is excellent preparation for medicine, business, and law, as well as for further literary study in graduate school.

In addition to careers in education, writing, and editing, English majors with writing and editorial skills find that they are desirable candidates for positions in businesses where effective communication and written evaluation are required.

Advising System

All undergraduate English majors are assigned to the Director of Undergraduate Studies, who is the undergraduate faculty advisor.

Undergraduate Admission Requirements

Preparation

Transfer students should enter the English major with soundly developed writing and reading skills and a general familiarity with the major authors and literary movements of English and American literature.

Honors Credit

The letter H appearing before undergraduate English courses in the regular schedule designates honors credit.

Internships and Other Opportunities

Through the resources of the metropolitan media and publishing houses, as well as the on-campus facilities of the national literary journal *New Letters*, the literary publisher BkMk Press, and the academic journal, *Eighteenth Century Theory & Interpretation*, students may gain experience in writing and editing. With the approval of the supervising faculty, as well as the Director of Undergraduate Studies, students may intern with these media for credit. They may also serve on the staff of the student literary journal, *Number One*. The Undergraduate English Council, a social club focused on literary activities, offers additional opportunities, such as open-mic nights and an annual symposium in conjunction with its Literature for Life week.

Interdisciplinary Ph.D in English

English is an academic discipline eligible for full participation in UMKC's Interdisciplinary Ph.D. Program. Students interested in this study should review the School of Graduate Studies catalog for general and discipline-specific admission criteria, academic regulations, and degree requirements. Interested students should contact the Department's doctoral program advisor.

Teacher Certification in English

Certification as a middle school (grades 5-9) or secondary (grades 9-12) English teacher in either Kansas or Missouri requires that a student complete specific requirements in English and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Master of Arts: English

Student Learning Outcomes

Students graduating with an M.A. in English will be able to:

- Develop a critical understanding of the ways in which texts exist within broader aesthetic, social, and political contexts.
- Develop the ability to investigate the reception(s) of texts within their own time periods and at subsequent historical moments.
- Master the structural principles that have shaped traditional literary genres and forms, (e.g., sonnets, villanelles, bildungsromans, etc.).
- Appreciate the value of studying both the broad sweep of many texts within and across historical periods and the in-depth exploration of a single text.
- Express themselves well, both orally and in writing, to serve as eloquent advocates for their interpretive positions, and to disagree with civility.
- Engage with the vast array of information technologies available to them, including conducting research on-line, using classroom Web sites to further discussion with their peers and teachers, and connecting with the scholarly world beyond UMKC.
- Invite others to join in conversations about texts and language, either as teachers themselves or more informally in their lives beyond the classroom.
- Appreciate the beauties of language and share in the joy of textual interaction.
- Create their own innovative creative and scholarly writing that engages the principles listed above.

The Department of English offers three graduate programs: the Master of Arts: English; the Master of Fine Arts: Creative Writing and Media Arts; and the Interdisciplinary Ph.D.

Master of Arts: English

The Department of English offers the Master of Arts in English, which focuses on literary study, as well as two tracks that allow students to concentrate their studies in a particular area: 1) Language and Literature, and 2) Manuscript, Print Culture, and Editing. Through courses in English and American literature, creative and expository writing, film, linguistics, composition/rhetoric, literary criticism, the history of books and print culture, as well as editing, these programs of study are designed to prepare students for teaching, research, and writing careers, for careers in editing, and for further study at the doctoral level.

The 34-hour M.A. in English is designed for students desiring a general background in English and American literature and is strongly recommended for students planning further graduate study in English and/or American literature.

The Language and Literature track is designed for students who wish to combine graduate study of literature with the study of linguistics and/or composition and rhetoric. This track is recommended for students interested in teaching in community colleges or secondary schools and for students interested in pursuing the Ph.D. in composition and rhetoric or linguistics.

The Manuscript, Print Culture, and Editing track is designed for students who wish to combine the study of literature with the study of book history, print culture, and editing. This track is recommended for students interested in editorial careers, offering several internship experiences in print and online media, and for students interesting in pursuing the Ph. D. in book history and print culture.

Members of the graduate faculty are assigned as advisers to newly admitted M.A. students. New graduate students should meet with their advisers as soon as possible to prepare an official program of study.

Admission

The application process is competitive. Satisfying the admission requirements does not guarantee admission to the program.

The applicant must hold:

- a B.A. in English, or a B.A. degree that includes at least 30 hours of sophomore-, junior- or senior-level English courses, or the equivalent. Applicants with fewer than 30 hours of undergraduate English courses may be admitted and assigned additional coursework as part of their program. These extra hours are added to the hours required for graduation.
- a 3.0 cumulative grade-point average in undergraduate work and a 3.0 average in undergraduate English coursework. In unusual circumstances, the graduate committee may consider applicants with lower grade-point averages.

The applicant must submit:

- a complete application to the university. The university application should be sent to the UMKC Admissions Office. All other materials should be sent to Graduate Programs, Department of English, Cockefair Hall 106.
- a complete Application for Admission to the Master of Arts: English.
- a recommended 60 percent or higher score on the verbal aptitude portion of the Graduate Record Exam (GRE).
- a writing sample that demonstrates the applicant's writing abilities in up to 15 pages of recent academic prose.
- a statement of purpose that describes the applicant's academic and professional objectives. In an essay of 400 to 500 words, applicants should discuss in detail their interest in their emphasis area and their research or writing in the area.
- three letters of recommendation that evaluate the applicant's readiness for graduate study written by three professors or others who know the applicant's abilities and potential well.

Students may not take more than six hours of graduate credit in English before entering the program as a "fully admitted" student.

M.A. in English Degree Requirements

Students must earn 34 graduate credits to complete the M.A. in English. Of these credits, at least 15 hours must be at graduate level (courses numbered 5000 and above) and taught by a member of the graduate faculty and at least 9 hours must be in 5000-level seminars or other 5000-level courses which are not cross-listed with 400-level courses.

Students must take ENGLISH 5000 and successfully complete one hour of ENGLISH 5599 for their "Culminating Experience."

Students must maintain a 3.0 (B) grade-point average to remain in the M.A. program and to complete the degree.

By the time of graduation from the M.A. program, students must fulfill a foreign language requirement by satisfactorily completing (with a C or better) two years (four university semesters) of the same foreign language. With the approval of their advisor, students may fulfill the fourth semester of the requirement by taking ENGLISH 5503: Old English. Alternatively, the foreign language requirement may be satisfied by scoring a "C" on the final exam of the second-year, second-semester course in a foreign language.

Students must remain continuously enrolled, except in summer, for a minimum of 1 credit hour per semester. ENGLISH 5899 is the continuous enrollment course number.

Students must complete a formal Program of Study and have it signed within a year after admission. A final Program of Study must be submitted and signed during the semester a student files to graduate.

Students must complete all coursework within seven years.

Students must take at least one course from five of the seven designated areas, including at least one course from areas I & II, one course from areas III & IV, and one course from areas V-VII:

I. Criticism and Scholarship

ENGLISH 447/5547, 5550G, 5555G

II. Language and Rhetoric

ENGLISH 400CH, 445/5545, 470, 5519, 5520, 5550J, 5550M, 5555J, 5555M

III. Literature Through the Middle Ages

ENGLISH 400CF, 412/5512, 422/5522, 452/5552, 5503, 5550A, 5550R, 5555A

IV. Renaissance Literature

ENGLISH 400CA, 413/5513, 414/5514, 423/5523, 451/5551, 452/5552, 461/5561, 5550B, 5555B, 5555R

V. Late 17th- and 18th-Century Literature

ENGLISH 415/5515, 416/5516, 426/5526,

* ENGLISH 455/5556,

ENGLISH 462/5562, 5550C, 5555C

VI. Nineteenth-Century Literature

** ENGLISH 410/5510,

- * ENGLISH 416/5516,
ENGLISH 418/5518, 426/5526,
- ** ENGLISH 440/5540,
- * ENGLISH 455/5556,
ENGLISH 5550D, 5550E, 5555D

VII. Twentieth-Century Literature

- ** ENGLISH 410/5510,
ENGLISH 417/5517, 427/5527, 428/5528,
- ** ENGLISH 440/5540
ENGLISH 453/5553, 463/5563, 465/5565, 5550F, 5555E, 5555F

*Satisfies 18th- or 19th-Century requirement, depending on the content.

**Satisfies 19th- or 20th-Century requirement, depending on the content.

Other courses in the catalog may satisfy an area requirement if the content is appropriate, e.g., ENGLISH 5550H Graduate Seminar: Studies in Fiction or ENGLISH 433/5533 Histories of Writing, Reading, and Publishing.

Language and Literature Track

If desired, a student may elect the Language and Literature Track when obtaining the M.A. in English. At least 12 hours selected from the following list of courses are required: ENGLISH 445/5545, 447/5547, 470, 5519, 5520, 5550G/5555G, 5550J/5555J, 5550M/5555M, and 5550P. For students interested in teaching in community colleges or secondary schools or in pursuing a Ph.D. in composition and rhetoric, ENGLISH 5519 is highly recommended. ENGLISH 5519 is required for graduate teaching assistants.

In addition to the requirements for areas I & II, students must take at least one course from three of the five remaining areas (III-VII), including at least one course from areas III-IV and at least one course from areas V-VII.

Manuscript, Print Culture, and Editing Track

If desired, a student may elect the Manuscript, Print Culture, and Editing Track when obtaining the M.A. in English. This track examines the social, cultural, economic, and political history of the written word. It considers relationships among authors, editors, publishers, printers, illustrators, and booksellers as well as the reception of texts by readers, reviewers, and critics. In addition, it allows students to study the production of texts through the centuries while also gaining hands-on editing experience through internal and external publishing internships. Students will take a wide variety of courses covering a range of historical periods that have a significant emphasis on the history of reading, writing, and authorship as well as courses that focus on aspects of contemporary publishing and editing.

This track also follows the distribution requirements for the M.A. in English, and it requires that students take twelve (12) of the 34 required credit hours in courses that have been designated as ones fulfilling the goals of the concentration in Manuscript, Print Culture, and Editing; some courses will always be so designated, including the following:

- ENGLISH 448 External Internship
- ENGLISH 449A Publication Practicum
- ENGLISH 449B Publication Practicum
- ENGLISH 5501 Magazine Editing
- ENGLISH 5533 Histories of Writing, Reading, and Publishing
- ENGLISH 5541 Girls and Print Culture

The following courses may also be used to fulfill the requirements for the concentration in Manuscript, Print Culture, and Editing if approved by the Graduate Committee. Each semester, courses so designated will be listed on the Department of English website: ENGLISH 5508, 5510, 5512, 5513, 5514, 5515, 5516, 5517, 5518, 5522, 5523, 5526, 5527, 5528, 5531, 5534, 5540, 5545, 5550A, 5550B, 5550C, 5550D, 5550E, 5550F, 5550I, 5551, 5552, 5553, 5555A, 5555B, 5555C, 5555D, 5555E, 5555F, 5555I, 5556, 5561, 5562, 5563, 5565. New courses may receive the designation if approved by the Department of English's Graduate Committee.

Students who elect the concentration must complete ENGLISH 5599 Culminating Experience (1) on a topic related to the study of Manuscript, Print Culture, and Editing.

Culminating Experience

At the end of their M.A. course work (either in the last semester or the second to last semester), all M.A. students in English will revise a seminar paper (written in a previous course and/or in their area of interest) under the guidance of a faculty mentor. The goal of the revisions will be to create a polished paper of about 20-30 pages that could be the basis for a conference paper, a writing sample, or a publishable article.

Students will enroll in one hour of ENGLISH 5599 in order to work on this final paper with their chosen faculty mentor.

Final papers will be reviewed by a faculty committee that will rotate each semester. The committee will consist of two assigned members of the graduate faculty appointed by the Director of Graduate Studies, who will work with the student's faculty mentor.

Students will turn in their revised papers to their mentors and the review committee at least two weeks prior to the end of the semester. The mentor is responsible for arranging a meeting with the student and the review committee before the end of the semester in which ENGLISH 5599 is taken. After conducting a discussion about the paper and providing feedback for the student, the mentor and the review committee will assign a grade of pass or fail.

In addition to the department requirements above, graduate students in English must comply with the requirements listed in the General Graduate Academic Regulations and Information section of this catalog.

Master of Fine Arts: Creative Writing and Media Arts

The Department of English offers the degree Master of Fine Arts (M.F.A.) in Creative Writing and Media Arts. This interdisciplinary degree includes coursework in allied programs in Communication Studies and Theatre. The 42-hour program provides learning opportunities in writing, literary publishing, broadcasting, screen and stage writing, and production skills. The M.F.A. is a terminal degree in the field of creative writing and is designed to prepare students for careers as literary artists, authors, playwrights, poets, teachers, and screenwriters.

Admission

The application process is competitive. Satisfying the admission requirements does not guarantee admission to the program.

The applicant must hold:

- a B.A. in English, or a B.A. degree that includes at least 30 hours of sophomore-, junior- or senior-level English courses, or the equivalent. Applicants with fewer than 30 hours of undergraduate English courses may be admitted and assigned additional coursework as part of their program. These extra hours are added to the hours required for graduation.
- a 3.0 cumulative grade-point average in undergraduate work and a 3.0 average in undergraduate English coursework. In unusual circumstances, the Graduate Committee may consider applicants with lower grade-point averages.

The applicant must submit:

- a complete application to the university. The university application should be sent to the UMKC Admissions Office. All other materials should be sent to Graduate Programs, Department of English, Cockefair Hall 106.
- a complete application for admission to the M.F.A. in Creative Writing and Media Arts.
- a recommended 60 percent or higher score on the verbal aptitude portion of the Graduate Record Exam (GRE).
- a writing sample that demonstrates the applicant's writing abilities. A sample up to 20 pages long, in a single emphasis area (poetry, fiction, creative nonfiction, playwriting or screenwriting) is required (6-10 poems, 1-2 stories, essays, novel chapters, or dramatic-work excerpts).
- a statement of purpose that describes the applicant's academic and professional objectives. In an essay of 400 to 500 words, applicants should discuss in detail their interest in their emphasis area (poetry, fiction, creative nonfiction, playwriting or screenwriting), and their experience and goals in the area.
- three letters of recommendation that evaluate the applicant's readiness for graduate study written by three professors or others who know the applicant's abilities and potential well.

Students may not take more than six hours of graduate credit in English before entering the program as a "fully admitted" student.

M.F.A. in Creative Writing and Media Arts Degree Requirements

Students must earn 42 graduate credit-hours beyond the bachelor's degree. Of these, at least 18 hours must be at the graduate level (courses numbered 5000 and above) and taught by a member of UMKC's graduate faculty.

Students must maintain a 3.0 (B) grade-point average to remain in the M.F.A. program and to complete the degree.

Students must fulfill a foreign language requirement by satisfactorily completing (with a C or better) two years of the same foreign language at the university level. Unless taken above the 200 level, these courses will not count toward

graduation. With the approval of their advisor, students can fulfill the fourth semester of the requirement by taking ENGLISH 5503: Old English or another course approved by the student's advisor and the Director of Creative Writing. Alternatively, the foreign language requirement may be satisfied by scoring a C on the final exam of the second-year, second-semester course in a foreign language.

Students must remain continuously enrolled, except in summer, for a minimum of 1 credit hour per semester. ENGLISH 5899 is the continuous enrollment course number.

Students must complete a formal Program of Study and have it signed within a year after admission. A final Program of Study must be submitted and signed during the semester a student files to graduate.

Students must complete all coursework within seven years.

Students must focus on one or more of the following genres:

English: Poetry, Fiction, or Creative Nonfiction

Communications Studies: Screenwriting

Theatre: Playwriting

Residency requirements: a minimum of 33 hours must be completed at UMKC.

Requirements for M.F.A. Thesis

In consultation with the faculty, the student will choose a thesis committee comprised of three members: a thesis director from the M.F.A. faculty and two other faculty members approved by the director and selected from the M.F.A. faculty, the faculty of another institution, or the faculties of the Departments of English, Communication Studies, or Theatre. Under the guidance of the thesis director, the student will complete a publishable or producible manuscript of one of the following:

- Book of poems (48-80 pages)
- Book of short stories or creative non-fiction essays (180 pages)
- Novel or novel-length non-fiction essay (minimum of 180 pages)
- Full-length play or several one-act plays
- Full-length screenplay or several short screenplays
- Full-length cross-genre work, with the permission of the thesis director

At the completion of the writing project, the student will meet with his or her committee for a one-hour defense of the thesis.

Advisors may approve courses in other departments that may be highly valuable for particular student programs, e. g., History for documentary film, Foreign Language for translation, Philosophy for aesthetics and theoretical/experimental approaches, and Art. Collaborative directed studies may be offered to allow two or more students to use two or more genres/media. Students may also seek collaborative opportunities in the Conservatory of Music and Dance and in Computer Science.

In addition to the department requirements above, graduate students in English must comply with the requirements listed in the General Graduate Academic Regulations and Information section of this catalog.

Graduate Assistantships

Assistantships

The Department of English offers a limited number of Graduate Teaching Assistantships on a competitive basis. Applications for Graduate Teaching Assistantships are considered in January for the following fall semester. All Graduate Teaching Assistants are expected to enroll in at least six hours per semester. Graduate Teaching Assistantships may be awarded to students who demonstrate readiness to become teachers in freshman- and sophomore-level English courses. Graduate Teaching Assistants must undergo a pre-semester orientation and attend mentoring meetings twice monthly with the GTA mentor and fellow graduate teachers. GTAs are also required to enroll in ENGLISH 5519. Normally M.A. and M.F.A. students will receive a maximum of two years of GTA funding; Interdisciplinary Ph.D. students will receive a maximum of three years of GTA funding, and those who complete both an M.A. and an Interdisciplinary Ph.D. in the department will receive a maximum of four years of GTA funding. These terms are contingent upon a successful yearly review of performance in the classroom and adequate academic performance. M.A. students who have completed 21 hours or more of coursework may not have their assistantships renewed without making a special appeal to the Graduate Committee justifying the need for continuing support. All GTAs must submit a brief statement of their intent to renew their GTA position to the Graduate Committee each year before the January 15 admissions deadline.

Bachelor of Arts: English

Student Learning Outcomes

1. Students will develop the ability to read texts closely, critically, and analytically.
2. Students will become proficient writers.
3. Students will master a range of literary approaches that place texts within a cultural history and that explore texts (written, oral, musical, visual) as art, as language, and as cultural production.

Bachelor of Arts: English

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 33-hour program, but no credit will be given for courses in which the grade is below C-.

Students may pursue a general program in English leading to the Bachelor of Arts degree, or they may choose an emphasis area in creative writing or secondary English education.

The Bachelor of Arts in English program is recommended for students interested in a broad general background in the humanities with a concentration in literature and language and for those interested in obtaining a firm foundation for further study in graduate school. English majors planning to attend graduate school are strongly urged to take two years of a foreign language.

The emphasis areas for prospective teachers of secondary English and of creative writing are for students with more specialized interests.

Requirements for the B.A. in English

The Bachelor of Arts in English is designed for students desiring a broad general background in English and American literature (a). To receive a B.A. in English, students must complete the following 33-hour program (b). At least 18 of the 33 required credit hours listed below must be taken within the English department at UMKC:

All of the following (15 credits):

ENGLISH 311 American Literature I
ENGLISH 317 British Literature I
ENGLISH 321 American Literature II
ENGLISH 323 Shakespeare
ENGLISH 327 British Literature II

One of the following (3 credits):

ENGLISH 310 Introduction to Linguistics Language Science
ENGLISH 320 Structure of English
ENGLISH 330 History of the English Language
ENGLISH 342WI Women and Rhetoric
ENGLISH 445 History and Principles of Rhetoric
ENGLISH 470 Introduction to Descriptive Linguistics

At least two of the following pre-1900 courses (6 credits):

ENGLISH 300 Cluster Course: Clio & Other Muses
ENGLISH 300CY Cluster Course: Ancient World/Cinema
ENGLISH 318 Bible as Literature
ENGLISH 319 Myth and Literature
ENGLISH 325 Arthurian Legends
ENGLISH 340A Classical Literature in Translation
ENGLISH 350 The 18th Century Novel
ENGLISH 355 The Novel Before 1900
ENGLISH 356 Studies in Poetry
ENGLISH 400CA Cluster Course: Images of the Human Body in Renaissance
ENGLISH 400CF Courts and Culture in the Middle Ages
ENGLISH 404 Old English
ENGLISH 412 Chaucer

ENGLISH 413 Renaissance Literature I
ENGLISH 414 Milton
ENGLISH 415 Restoration and Early 18th-Century British Literature
ENGLISH 416 The Romantic Period
ENGLISH 418 19th-Century American Literature
ENGLISH 422 Medieval Literature
ENGLISH 423 Renaissance Literature II
ENGLISH 425 18th-Century British Literature II
ENGLISH 426 The Victorian Period
ENGLISH 431 Late 18th-Century British Literature
ENGLISH 433 Histories of Reading, Writing, and Publishing (if content is appropriate)
ENGLISH 451 Shakespeare Comedies and Histories
ENGLISH 452 Early English Drama
ENGLISH 455 Studies in the Novel 1740-1900
ENGLISH 461 Shakespeare Tragedies and Romances
ENGLISH 462 Restoration and 18th-Century Drama

Two additional courses (6 credits):

Two additional 300- or 400-level literature courses in English (c)

Capstone experience--one of the following (3 credits):

ENGLISH 499 Senior Tutorial (d)

Any 400 level English course in literature or linguistics that is cross-listed with a graduate level course in English

(a) Students contemplating graduate work in English are urged to take at least one course from each of the major periods of English and American literature.

(b) English courses in which students receive a grade below C- will not count toward fulfilling this requirement.

(c) No more than one course in creative writing (ENGLISH 312, ENGLISH 315, ENGLISH 339, ENGLISH 429B, ENGLISH 432, ENGLISH 435, ENGLISH 436, ENGLISH 437, ENGLISH 438) and no courses in journalism (ENGLISH 313WI, ENGLISH 401WI, ENGLISH 402) or expository writing (ENGLISH 301WI, ENGLISH 304WI, ENGLISH 305WI, ENGLISH 307WI, ENGLISH 430WI, ENGLISH 450) may be counted toward the basic 33-hour requirement for the regular English major.

(d) Requires approval of Director of Undergraduate Studies.

Correspondence Courses

The English Language and Literature Department will accept no more than six hours of correspondence credit toward the completion of the 33-hour program.

Bachelor of Arts: English Emphasis in Creative Writing

Requirements for the Bachelor of Arts: English, Creative Writing Emphasis

This emphasis area is designed for students interested in writing, as well as literary study.

To graduate with a creative writing emphasis, students must take the following 33-hour program. At least 18 of the 33 required credit hours listed below must be taken within the English department at UMKC (a):

The following course (3 credits):

ENGLISH 323 Shakespeare

One of the following (3 credits):

ENGLISH 213 Introduction to Drama

ENGLISH 214 Introduction to Fiction

ENGLISH 215 Introduction to Poetry

One of the following sequences (6 credits):

ENGLISH 311/321 American Literature I/II

ENGLISH 317/327 British Literature I/II

ENGLISH 331/333 African American Literature I/II

One of the following (3 credits):

ENGLISH 310 Introduction to Linguistics Language Science

ENGLISH 320 Structure of English

ENGLISH 330 History of the English Language

ENGLISH 342WI Women and Rhetoric

ENGLISH 445 History and Principles of Rhetoric
ENGLISH 470 Introduction to Descriptive Linguistics

One of the following (3 credits):

ENGLISH 300CD American Social Film: Silver Screen American Dream
ENGLISH 300CE Radical Changes Since 1945
ENGLISH 300 Clio & The Other Muses: Hist & Culture 5th-Century Athens
ENGLISH 300CY Ancient World/Cinema
ENGLISH 318 Bible as Literature
ENGLISH 319 Myth and Literature
ENGLISH 325 Arthurian Legends
ENGLISH 326 Modern and Contemporary Irish Literature
ENGLISH 331 African American Literature I
ENGLISH 332WI African American Novel
ENGLISH 333 African American Literature II
ENGLISH 336 Contemporary American Literature
ENGLISH 340A Classical Literature in Translation
ENGLISH 342WI Women And Rhetoric
ENGLISH 344WI Women & Literary Culture: Genre Focus
ENGLISH 345WI Women And Literary Culture: Historical Focus
ENGLISH 350 The 18th Century Novel
ENGLISH 355 The Novel Before 1900
ENGLISH 356 Studies in Poetry
ENGLISH 360 The Modern Novel
ENGLISH 365 Contemporary Novel
ENGLISH 375 Colonial Literature
ENGLISH 378 Asian American Literature
ENGLISH 400CA Cluster Course: Images of the Human Body in Renaissance
ENGLISH 400CF Courts and Culture in the Middle Ages
ENGLISH 400CQ Sinai And Olympus: Two Views Of Man And God
ENGLISH 404 Old English
ENGLISH 408 Harlem Renaissance
ENGLISH 410 Black Women Writers
ENGLISH 412 Chaucer
ENGLISH 413 Renaissance Literature I
ENGLISH 414 Milton
ENGLISH 415 Restoration and Early 18th-Century British Literature
ENGLISH 416 The Romantic Period
ENGLISH 417 Modern Poetry
ENGLISH 418 19th-Century American Literature
ENGLISH 422 Medieval Literature
ENGLISH 423 Renaissance Literature II
ENGLISH 425 18th-Century British Literature II
ENGLISH 426 The Victorian Period
ENGLISH 427 Contemporary Poetry
ENGLISH 428 20th-Century American Literature
ENGLISH 431 Late 18th-Century British Literature
ENGLISH 433 Histories Of Writing, Reading, and Publishing
ENGLISH 434 Postcolonial Literature
ENGLISH 440 American Culture
ENGLISH 441 Girls And Print Culture
ENGLISH 451 Shakespeare Comedies and Histories
ENGLISH 452 Early English Drama
ENGLISH 453 Modern Drama, 1880-1945
ENGLISH 455 Studies in the Novel 1740-1900
ENGLISH 461 Shakespeare Tragedies and Romances
ENGLISH 462 Restoration and 18th-Century Drama
ENGLISH 463 Contemporary Drama II
ENGLISH 465 Studies In The Modern Novel

One of the following sequences (6 credits):

ENGLISH 312 / ENGLISH 432 Creative Writing I Fiction and Advanced Creative Writing Prose
ENGLISH 312 / ENGLISH 437 Creative Writing I Fiction and Prose Forms
ENGLISH 315 / ENGLISH 436 Creative Writing Poetry and Poetic Forms
ENGLISH 315 / ENGLISH 437 Creative Writing Poetry and Prose Forms

Two additional writing courses not included above (6 credits):

ENGLISH 312 Creative Writing I Fiction
ENGLISH 315 Creative Writing Poetry
ENGLISH 405 Magazine Editing
ENGLISH 432 Advanced Creative Writing Prose
ENGLISH 435 Advanced Creative Writing Poetry
ENGLISH 436 Poetic Forms
ENGLISH 437 Prose Forms
ENGLISH 438 The New Letters Writing Conference
ENGLISH 448 External Internship
ENGLISH 449A Publication Practicum

The following may also qualify as additional writing courses (b):

THEATRE 437 Playwriting I
THEATRE 438 Playwriting II
ENGLISH 303WI Introduction to Journalism
ENGLISH 313WI Reporting
ENGLISH 316WI Literary Nonfiction
ENGLISH 339 Creative Writing: Screenwriting
ENGLISH 401WI Feature Writing
ENGLISH 429B Advanced Creative Writing: Screenwriting

Capstone experience - One of the following (3 credits):

ENGLISH 432 Advanced Creative Writing Prose
ENGLISH 435 Advanced Creative Writing Poetry
ENGLISH 436 Poetic Forms
ENGLISH 437 Prose Forms
ENGLISH 499 Senior Tutorial (c)

- (a) English courses in which students receive a grade below C- will not count toward fulfilling this requirement.
(b) Requires approval of the Director of Undergraduate Studies or the Director of Creative Writing.
(c) Students must complete a poetry or prose sequence with distinguished work before applying to the instructor for permission to take this course. Permission of the Director of Undergraduate Studies or the Director of Creative Writing is required.

Minor in Language and Literature

Language and Literature Minor (21 credit hours)

The minor in Language and Literature is designed for students desiring a general background in English. Students must take the following courses (a):

All of the following (9 credits)

ENGLISH 311 American Literature I
ENGLISH 317 Introduction to British Literature I
ENGLISH 323 Shakespeare

One of the following (3 credits):

ENGLISH 321 American Literature II
ENGLISH 327 British Literature II
ENGLISH 331 African American Literature I
ENGLISH 333 African American Literature II

One of the following (3 credits):

ENGLISH 310 Introduction to Linguistics/Language Science
ENGLISH 320 Structure of English
ENGLISH 330 History of the English Language
ENGLISH 342WI Women and Rhetoric
ENGLISH 445 History and Principles of Rhetoric
ENGLISH 470 Introduction to Descriptive Linguistics

Two additional courses in literature or linguistics, at least one of which must be at the 300 level or above (6 credits)

(a) English courses in which students receive a grade below C- will not count toward fulfilling these requirements.

Minor in Creative Writing

Creative Writing Minor (21 credit hours)

This minor is designed for students who are eager to give focused attention to developing their talents in poetry or fiction writing. Students must complete the following requirements (a):

One genre course in creative writing (3 credits):

ENGLISH 214 Introduction to Fiction

-or-

ENGLISH 215 Introduction to Poetry

Students are expected to elect the course that will prepare for a concentration in poetry or fiction.

One writing sequence in poetry or fiction (6 credits):

ENGLISH 312 / ENGLISH 432: Creative Writing I Fiction/ Advanced Creative Writing Prose

ENGLISH 312 / ENGLISH 437: Creative Writing I Fiction/ Prose Forms

ENGLISH 315 / ENGLISH 435: Creative Writing Poetry/ Advanced Creative Writing Poetry

ENGLISH 315 / ENGLISH 436: Creative Writing Poetry/ Poetic Forms

Two additional courses in creative writing, in addition to those taken for the writing sequence (6 credits):

THEATRE 437 Playwriting I

THEATRE 438 Playwriting II

ENGLISH 312 Creative Writing I Fiction

ENGLISH 315 Creative Writing Poetry

ENGLISH 316WI Literary Nonfiction

ENGLISH 339 Creative Writing: Screenwriting

ENGLISH 405 Magazine Editing

ENGLISH 429B Creative Writing: Advanced Screenwriting

ENGLISH 432 Advanced Creative Writing Prose

ENGLISH 435 Advanced Creative Writing Poetry

ENGLISH 436 Poetic Forms

ENGLISH 437 Prose Forms

ENGLISH 438 The New Letters Writing Conference

ENGLISH 448 External Internship

ENGLISH 449B Advanced Creative Writing: Screenwriting

ENGLISH 499 Senior Tutorial (b)

Some courses in Communication Studies, Theatre, or Foreign Languages may also be applicable with the permission of the Director of Undergraduate Studies or the Director of Creative Writing.

Two courses focused on literature (6 credits):

ENGLISH 311 American Literature I

ENGLISH 317 British Literature I

ENGLISH 321 American Literature II

ENGLISH 323 Shakespeare

ENGLISH 325 Arthurian Legends

ENGLISH 326 Modern and Contemporary Irish Literature

ENGLISH 327 British Literature II

ENGLISH 331 African American Literature I

ENGLISH 332WI African American Novel

ENGLISH 333 African American Literature II

ENGLISH 336 Contemporary American Literature

ENGLISH 342WI Women And Rhetoric

ENGLISH 344WI Women and Literary Culture: Genre Focus

ENGLISH 345WI Women And Literary Culture: Historical Focus

ENGLISH 350 The 18th Century Novel

ENGLISH 355 The Novel Before 1900

ENGLISH 356 Studies in Poetry

ENGLISH 360 The Modern Novel

ENGLISH 365 Contemporary Novel

ENGLISH 375 Colonial Literature
ENGLISH 378 Asian American Literature
ENGLISH 404 Old English
ENGLISH 408 Harlem Renaissance
ENGLISH 410 Black Women Writers
ENGLISH 412 Chaucer
ENGLISH 413 Renaissance Literature I
ENGLISH 414 Milton
ENGLISH 415 Restoration and Early 18th-Century British Literature
ENGLISH 416 The Romantic Period
ENGLISH 417 Modern Poetry
ENGLISH 418 19th-Century American Literature
ENGLISH 422 Medieval Literature
ENGLISH 423 Renaissance Literature II
ENGLISH 425 18th-Century British Literature II
ENGLISH 426 The Victorian Period
ENGLISH 427 Contemporary Poetry
ENGLISH 428 20th-Century American Literature
ENGLISH 431 Late 18th-Century British Literature
ENGLISH 433 Histories Of Writing, Reading, and Publishing
ENGLISH 434 Postcolonial Literature
ENGLISH 440 American Culture
ENGLISH 441 Girls And Print Culture
ENGLISH 451 Shakespeare Comedies and Histories
ENGLISH 452 Early English Drama
ENGLISH 453 Modern Drama, 1880-1945
ENGLISH 455 Studies in the Novel 1740-1900
ENGLISH 461 Shakespeare Tragedies and Romances
ENGLISH 462 Restoration and 18th-Century Drama
ENGLISH 463 Contemporary Drama II
ENGLISH 465 Studies In The Modern Novel

- (a) English courses in which students receive a grade below C- will not count toward fulfilling these requirements.
(b) Students must complete the writing sequence in poetry or prose before applying to the instructor for permission to take ENGLISH 499. Permission of the Director of Undergraduate Studies is required.

Minor in Writing

Writing Minor (18 credit hours)

The writing minor requires that students take the following 18-hour program (a):

Students must complete six of the following courses. No more than two courses in poetry and/or fiction may be counted toward the writing minor.

THEATRE 437 Playwriting I
THEATRE 438 Playwriting II
ENGLISH 301WI Writing and the Academy
ENGLISH 303WI Introduction to Journalism
ENGLISH 304WI Writing and Technology
ENGLISH 305WI Theory and Practice of Composition
ENGLISH 307WI Writing in Cultural Contexts
ENGLISH 312 Creative Writing I Fiction
ENGLISH 313WI Reporting
ENGLISH 315 Creative Writing Poetry
ENGLISH 316WI Literary Nonfiction
ENGLISH 339 Creative Writing: Screenwriting
ENGLISH 342WI Women and Rhetoric
ENGLISH 401WI Feature Writing
ENGLISH 405 Magazine Editing
ENGLISH 429B Advanced Creative Writing: Screenwriting
ENGLISH 432 Advanced Creative Writing Prose
ENGLISH 435 Advanced Creative Writing Poetry
ENGLISH 436 Poetic Forms

ENGLISH 437 Prose Forms
ENGLISH 445 Histories and Principles of Rhetoric

Other WI courses may count toward the minor in writing with the permission of the Director of Undergraduate Studies or the Composition Committee.

(a) English courses in which students receive a grade below C- will not count toward fulfilling these requirements.

Minor in Manuscript, Print Culture, and Editing

Manuscript, Print Culture, and Editing Minor (21 credit hours)

The Manuscript, Print Culture, and Editing minor examines the social, cultural, economic, and political history of the written word. It considers relationships among authors, editors, publishers, printers, illustrators, and booksellers as well as the reception of texts by readers, reviewers, and critics. This minor allows students to study the production of texts through the centuries while also gaining hands-on editing experience through internal and external publishing internships. Students will take a wide variety of courses covering a range of historical periods that have a significant emphasis on the history of reading, writing, and authorship as well as courses that focus on aspects of contemporary publishing and editing.

One of the following (3 credits)

ENGLISH 311 American Literature I
ENGLISH 317 British Literature I

One of the following (3 credits):

ENGLISH 321 American Literature II
ENGLISH 327 British Literature II
ENGLISH 331 African American Literature I
ENGLISH 333 African American Literature II

One of the following (3 credits):

ENGLISH 310 Introduction to Linguistics
ENGLISH 320 Structure of English
ENGLISH 330 History of the English Language

FOUR of the following (12 credits):

ENGLISH 405 Magazine Editing
ENGLISH 433 Histories of Reading, Writing, and Publishing (repeatable with different focus)
ENGLISH 441 Girls and Print Culture (repeatable with different focus)
ENGLISH 448 External Internship*
ENGLISH 449A Publication Practicum
ENGLISH 449B Publication Practicum

The following courses may also be used to fulfill the requirements for the concentration in Magazine, Print Culture, and Editing when the instructor elects this designation. Each semester, courses so designated will be listed on the Department of English website:

ENGLISH 408, 410, 412, 413, 414, 415, 416, 417, 418, 422, 423, 425, 426, 427, 428, 431, 434, 440, 445, 451, 452, 453, 455, 461, 462, 463, 465.

*External Internship must be coordinated with a publishing house and approved by the Director of Undergraduate Studies.

Department Description

The Department of Foreign Languages and Literatures offers programs of study leading to the bachelor of arts degree in French, German and Spanish and graduate-level work leading to a master of arts in romance languages and literatures (French and Spanish). In addition, undergraduate minors are offered in French, German and Spanish.

Language instruction also is offered in Arabic, Chinese, Greek, Italian and Latin.

Career Implications

Aside from pursuing teaching careers, holders of degrees in foreign languages are in demand by government, the media and international business in growing numbers, as the need for increased sophistication and expertise in international affairs continues to expand. Multinational companies and organizations now view foreign language skills as an asset in a prospective employee. In the past 10 years this notion has become widespread in such areas as business, industry, commerce, civil service, education, law, communications media and health services. The changing conditions of international economics, politics and communications indicate that this trend will continue.

Higher Educational Applications

Reading knowledge of a foreign language is a requisite for many graduate degrees. Foreign language proficiency, moreover, is gaining increasing importance on all levels of university instruction as curricula are internationalized. Scholars and professionals in many fields have long recognized the need for, and advantages of, foreign language competency for improved international communication and effective conduct of basic and applied research.

Special Resources

Study Abroad

UMKC has exchange and study agreements with other institutions in many parts of the world. Students have an opportunity to spend a year or a semester of study at the University of Seville in Spain, the University of Lyon II in France, the University of Klagenfurt in Austria and the University of Veracruz in Xalapa, Mexico. Summer programs are held at the University of Veracruz, Mexico; the University of Granada, Spain; and the University of Lyon II, France.

The department encourages students to travel and study abroad on our programs or those offered by any accredited American university. It should be noted, however, that the department must approve in advance any courses taken abroad for major or graduate credit. Interested students should contact the appropriate departmental adviser.

Language Resource Center

A modern facility housing audio, video and computer equipment and both general use and specialized software is located in 109 Scofield Hall. The purpose of the lab is to supplement and support in-class foreign language learning. Tutoring services for students of French, German and Spanish are provided free of charge. Conversation hours are also held in the Language Resource Center. All language students are encouraged to take advantage of the resources of the LRC.

Suggested Four-Year Plan of Study for the B.A. Degree

Year I

	<i>First Semester</i>	
	Hours	
110*	5	
Curricular Requirements and Electives	10-11	
<i>Second Semester</i>		
120*	5	
Curricular Requirements and Electives	10-11	

Year II

	<i>First Semester</i>	
211*	3	
Curricular Requirements and Electives	9-13	
<i>Second Semester</i>		
221*	3	
Curricular Requirements and Electives	9-13	

Year III

	<i>First Semester</i>	
315*	3	
300/400 Literature and Civilization	6-9	
Curricular Requirements and Electives	3-6	
<i>Second Semester</i>		
325*	3	
300/400 Literature and Civilization	6-9	
Curricular Requirements and Electives	3-6	

Year IV

	<i>First Semester</i>	
		3
415*		
400 Literature	3-6	
499* Senior Seminar (Spanish) - Fall	3	
Electives	6-9	
<i>Second Semester</i>		
425	3	
400 Literature	3-6	
499* Senior Seminar (French, German) - Spring	3	
Electives	6-9	

* Required course

Requirements for Teacher Certification in

Foreign Languages

Certification as a Foreign Language teacher (K-12) in either Kansas or Missouri requires that a student complete specific requirements in Spanish, French or German and the School of Education. A separate application for teacher education is required. For further information about the program, contact Dr. Reckley Vallejos, reckleya@umkc.edu, and the School of Education at (816) 235-2234.

Master of Arts: Romance Languages

Student Learning Outcomes

M.A. in romance languages, with an emphasis in either French or Spanish

Students graduating with an M.A. in romance languages will:

- Obtain specialized knowledge of either Hispanic or French and Francophone cultures, especially of their literatures as foundational paradigms for inquiry into language and cultural phenomena.
- Develop skill in reflective inquiry.
- Analyze cultural products, process and perspectives with a variety of interpretive strategies.
- Attain superior reading, writing, listening and speaking proficiency in the primary language studied, and intermediate reading proficiency in the secondary language studied.

The master of arts degree program provides necessary training in French or Spanish language and literature for those who want to teach those languages at the secondary school or junior college level. It also serves students who plan to continue with studies at the doctoral level. Other employment opportunities can be found in government, business and industry, publishing houses, foundations, etc.

Admission Requirements

A bachelor's degree from an accredited institution with a 3.0 (B) grade-point average in the subject area and a 2.75 overall GPA is required for admission.

The Graduate Record Examination (Advanced Achievement) is recommended, and two letters of recommendation are required. Students' transcripts with accompanying data are carefully evaluated.

Applicants with inadequate preparation may be required to make up deficiencies by taking more than the standard 30 hours of coursework.

Courses taken prior to admission into a graduate program will not count for graduate credit.

Requirements for Retention

If students' graduate grade-point averages fall below 3.0 (B), they may take coursework only on the 300 and 400 levels until a 3.0 graduate grade-point average has been achieved. Coursework completed under this condition will not count toward the master's degree.

Transfer Credit

No more than 9 hours of transfer credit are normally allowed toward degree requirements.

Advising

Students interested in pursuing a master's degree in Romance languages should meet with the appropriate principal graduate adviser before beginning studies:

French: Kathy M. Krause
(816) 235-1340, krausek@umkc.edu

Spanish: Louis Imperiale

(816) 235-2822, imperialel@umkc.edu

In consultation with the adviser, a course of study will be planned listing the courses that will satisfy requirements for the degree. Prior to registration each semester, candidates must meet with their advisers for approval of their course programs. They also must seek their adviser's endorsement whenever a change in the agreed course of study is necessary.

M.A. Degree Requirements

1. The program of study consists of 30 hours with a minimum of 18 hours at the 5500 level and a maximum of 12 hours on the 300 and 400 levels. A minimum GPA of 3.0 is required in all graduate work. It is highly recommended that students take courses in as many areas, genres and periods as possible in order to achieve both breadth and depth of knowledge. Students must obtain approval of their study programs by the graduate adviser before each term.
2. Students must demonstrate ability to read, speak and write, idiomatically and with accuracy, the language in which the M.A. degree is being pursued.
3. Final Examination: Spanish students must take a final written examination covering the coursework taken for the degree; French students must take a final oral examination.
4. Second Language Proficiency: In addition to the mastery of the target language, students must demonstrate a reading knowledge of a second language in one of the following ways:
 - o Taking a reading examination in French, Spanish, Italian, German or Latin administered or approved by the department or given by the Educational Testing Service.
 - o Achieving a grade of 3.0 (B) or better in a 3-hour 200-level language course.
 - o Achieving a grade of 2.0 (C) or better in each of two 300-level courses or in one 400-level literature or civilization course.

Bachelor of Arts: French, German, Spanish

Student Learning Outcomes

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines:

- To attain advanced reading, writing, listening and speaking proficiency in the language studied.
- To obtain a broad base of knowledge and perspectives on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
- To understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
- To understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
- To develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

Foreign Language Requirements

1. Undergraduate General Education Requirements.
2. Credit by examination
3. Graduate and Doctoral students may be required to demonstrate satisfactory completion of foreign language proficiency through accepted coursework or other evidence. Students should check with their academic unit about specific foreign language proficiency requirements.

Attendance and Course Level

Class attendance

The nature of language acquisition is such that regular attendance, throughout the semester, is expected of all students enrolled for credit.

Course Levels

Course levels are generally indicated by the first digit of the course number. For example, 100-level courses are first-year courses, 200-level classes represent second-year courses, etc. Accordingly, students entering a 200-level French course must have completed French 110 and 120 or their equivalent. Successful completion of a second-year course (normally 211 and 221 or their equivalent) is required of all students who want to enroll in 300- or 400-level courses. Exceptions must have the approval of the student's adviser.

The Department of Foreign Languages and Literatures offers a program of study leading to the bachelor of arts in French, German or Spanish.

Undergraduate Advisers:

French: Gayle Levy
(816) 235-2820, levyg@umkc.edu
German: K. Scott Baker
(816) 235-2823, bakerks@umkc.edu
Spanish: Rebecca Lee
(816) 235-2827, leerebe@umkc.edu

General Information

Initial Advising and Placement

A language placement exam is strongly recommended for all students with previous foreign language experience in French, German or Spanish. The placement exam or the recommendation of a foreign language adviser will best determine a student's level, contributing to his or her success. Contact the department office for more information.

Consultation with an adviser is recommended for students who intend to major or minor in foreign languages.

Transfer Credit

Transfer students normally may expect to continue their foreign language study at the next comparable level. On consultation with their advisers or the course instructors, and after taking the placement exam, students may be advised to do either remedial or more advanced coursework. No more than nine hours of transfer credit for 200- to 400-level courses are normally allowed toward degree requirements.

Credit for study at a foreign institution will be granted, provided the courses proposed for study abroad have been approved in advance by a departmental adviser and endorsed by the chair of the department. When advance endorsement for credit is not obtained from the department, the credit is subject to approval by the department chair.

In cases where students have been engaged in an extended period (e.g., a year) of formal study at an approved

academic institution abroad, transfer credit of more than nine hours may be granted, if approved by the chair of the department.

Credit by Examination

Beginning-level courses (110, 120) are not applicable toward requirements for the major. College credit for them may be earned by examination.

CLEP credit is available for the first 10 hours of French, German or Spanish. Contact Testing Services to arrange for the exam. A passing score is necessary to receive credit. (No more than 30 of a student's total hours may be earned by examination.)

Departmental testing, "Credit by Examination," also is available. Students should first speak to the appropriate undergraduate adviser. Generally, arrangements are made with an instructor to take the final examination with the appropriate class. Forms are available at Registration. The signatures of the registrar, instructor, dean and cashier must be obtained, in that order. The fee must be paid and the instructor must receive the signed, completed form before the student may take the examination. A minimum grade of C is necessary to receive credit.

Degree Requirements

Students may choose to major in French, German or Spanish or to pursue a double major by satisfying requirements in each of two languages and literatures, or in a language plus another discipline.

The department recommends study of a second foreign language and relevant work in other disciplines such as English, history, art history, etc.

In consultation with the adviser, a course of study will be devised listing required courses, credits received and courses that still need to be taken to satisfy requirements for the degree. It will be signed by the student and the adviser. Majors must consult with their departmental advisers before registration and need to obtain approval of their course programs each semester. They also must seek their adviser's consent whenever a change in the agreed course of study is necessary.

The following departmental requirements must be met:

1. Students must complete a minimum of 30 credit hours beyond 110 and 120 in the same language and literature. Normally, at least 18 of the 30 hours required for the major must be taken in this department. For more details concerning 300- and 400-level course requirements for degrees in French, German and Spanish, see the following.
2. Special arrangements for study-abroad credit can be made with the chair on a case-by-case basis.
3. A 2.0 grade-point average in the major is required for graduation.
4. Composition and conversation courses through at least 415 are required and 425 is highly recommended. Prospective teachers must take 425.
5. Native speakers majoring in their own languages will complete a minimum of 21 credit hours in courses numbered 300 and above, but normally not including 315 or 325. A native speaker is defined as a person who speaks the target language fluently and who has completed formal schooling through the secondary school level, or equivalent, in the target language.
6. French majors must complete a total of 15 credit hours of 300- and 400-level literature and civilization courses. Of these, nine credit hours must be at the 400 level and must include the Senior Seminar (Capstone Course), French 499.
7. German majors must complete at least 15 hours of 300- and 400-level literature and culture courses, including the Senior Seminar (Capstone Course), German 499.
8. Spanish majors must complete at least 15 hours of literature and civilization courses, of which at least six hours must be at the 400 level and must include the Senior Seminar (Capstone Course), Spanish 499.
9. French 435 and German 304 and 340 do not count toward a major.
10. Certain cluster courses may be counted toward the language major, to be determined through consultation with the course instructor and the foreign language chair.

German Studies Minor

The German Studies minor consists of 18 hours selected from the list of approved courses, of which a minimum of 6 credits must be in German Language and a minimum of 9 credits must be upper-division coursework. Up to 6 credits may come from classes listed in the Associated Course List, but these courses apply only if the student's project focuses on a German topic. A capstone project is also required. A maximum of six hours may apply to both a German minor and a German Studies minor.

Approved Course Offerings :

Foreign Languages and Literatures:

German Language

- GERMAN 110, 120: Elementary German I & II
- GERMAN 211, 221: Second-Year German I & II
- GERMAN 315, 325: Intermediate Conversation and Composition I & II
- GERMAN 415, 425: Advanced Conversation and Composition I & II

German Literature

- GERMAN 301, Introduction to Literary Studies
- GERMAN 307, From the Middle Ages to the Baroque
- GERMAN 308, From the Enlightenment through the 19th Century
- GERMAN 310, Classical Period of German Literature
- GERMAN 340, Society and Literature in 20th-Century Germany (in English)
- GERMAN 400, Rainer Maria Rilke
- GERMAN 401, Bertolt Brecht
- GERMAN 411, Romanticism
- GERMAN 412, The German Novelle
- GERMAN 421, 19th-Century Drama
- GERMAN 422, Contemporary Drama
- GERMAN 426, 20th-Century German Literature

German Culture and Film

- GERMAN 304, Aspects of Contemporary German Culture (in English)
- GERMAN 305, Current Events in Germany
- GERMAN 306, Aspects of Contemporary German Culture
- GERMAN 341, Survey of German Film 1920-1980 (in English)
- GERMAN 342, Contemporary German Film 1980- (in English)
- GERMAN 345, The Antifascist Tradition in Germany
- GERMAN 453, Women's Voices in Germany and Austria

Interdisciplinary Cluster Courses:

- Foreign Language 400CM/History 400CM, Nazi-Occupied Europe and The Holocaust

History:

- HISTORY 300G/5500G, Holy Roman Empire
- HISTORY 436R/536 Modern German History, 1890-1990
- HISTORY 437A, Imperial Germanies, 1848-1918
- HISTORY 437B, First German Republics, 1917-1935
- HISTORY 437C, The Third Reich, 1930-1950
- HISTORY 437D, Cold War Germanies, 1941-1991

Philosophy:

- PHILOS 436, Kant

Associated Course Offerings:

Art History:

- ART-HIST 301, 302, 303: Survey of Western Art
- ART-HIST 415WI, Romanticism
- ART-HIST 416WI, Later 19th Century Painting and Sculpture
- ART-HIST 424, Early 20th Century European Painting and Sculpture
- ART-HIST 445, Northern European Art: 15th and 16th Centuries
- ART-HIST 449, Art and Architecture in the Age of Enlightenment

Interdisciplinary Cluster Courses:

- HISTORY 400CF, Courts and Culture in the High Middle Ages
- HISTORY 400CI, Culture, Kultur, Civilisation: Identity Formation in the Middle Class

History:

- HISTORY 413/513, Renaissance
- HISTORY 414/514, Reformation
- HISTORY 415/515, 17th and 18th Century European History
- HISTORY 417R/517, 19th Century European History
- HISTORY 418R/518, 20th Century European History

HISTORY 419R/519, Contemporary European History: 1950-2000

- HISTORY 430, The Ordeal of Total War: Europe 1900-1950

Musicology (Conservatory):

- CONSVTY 554, Medieval Music

- CONSVTY 557, Music of the Classical Era

- CONSVTY 558, Music of the Romantic Era

- CONSVTY 559A, Music since 1900: 1900-1945

- CONSVTY 560B, Nationalism

Philosophy:

- PHILOS 332, Existentialism

Political Science:

- POL-SCI 220, Introduction to Comparative Politics

- POL-SCI 451, International Politics in Europe

The Minor: French, German, Spanish

The growing need for experts in the international aspects of academic and professional fields has led to a renewed interest in the foreign language minor as a complement to a student's training in a major field. In increasing numbers, students completing baccalaureate degrees in the Henry W. Bloch School of Business and Public Administration, in the Conservatory of Music and in other departments of The College of Arts and Sciences have selected a course of study that includes a minor in a foreign language. Majors in all fields are urged to discuss this possibility with their advisers.

Requirements for Program Minor

An academic minor in a given language requires a minimum of 18 hours consisting of six hours of second-year courses or above plus 12 hours of courses at the 300 and 400 levels. FRENCH 435 and GERMAN 304 do not count toward a minor.

Geosciences (Geology, Geography, Environmental Studies)

Department Description

The Department of Geosciences offers programs of study leading to bachelor of science and bachelor of arts degrees in environmental studies, geography and geology. The department offers a master of science degree in Environmental and Urban Geosciences. The department also participates in the Interdisciplinary Ph.D. program. The department also offers a graduate-level Waste Management Certificate Program. Students who designate geosciences (environmental studies, geology or geography focus) on their application for admission to the doctoral program must meet admission and other requirements available from the department. See the School of Graduate Studies section in the Graduate Catalog for more information about doctoral programs. The department takes a leading role in the undergraduate interdisciplinary environmental studies program. Courses offered by the department can be used to fulfill the requirements of the Missouri Department of Education for earth science, science-math, and social science teaching specialties.

Students majoring in environmental studies, geography or geology obtain a broad liberal arts education during their undergraduate career and at the same time receive sound fundamental training in the geosciences. Departmental faculty members are committed to educating non-majors about the earth and environmental sciences as well as those students who plan to pursue careers in the geosciences.

All undergraduate majors in the Department of Geosciences (including Environmental Studies) must maintain a minimum grade-point average above 2.0 in all courses taken to fulfill departmental degree requirements. This minimum GPA also applies to all credit hours transferred from other institutions.

Special Resources/Services

Geosciences Museum

The Geosciences Museum, founded by Richard L. Sutton, M.D., is located in Room 271, R.H. Flarsheim Hall. It contains relief models and interactive displays, along with a full range of 2,500 spectacular mineral and fossil specimens from all over the world. Hours of operation are 8:30 a.m. to 4:30 p.m. weekdays and 10:00 a.m. to 4:00 p.m. Saturdays, whenever school is in session. Admission is free.

Center for Applied Environmental Research (CAER)

The Center for Applied Environmental Research <http://cas.umkc.edu/caer> is administered by the Geosciences Department and directed by Professor Syed E. Hasan. The center is a resource for governmental agencies, private firms, and the general public in matters of the environment. Its programs address such matters as environmental geophysics, geochemistry, underground space, foundation stability, waste management, geologic hazards, environmental justice, natural resource assessment, and land-use planning.

Undergraduate Admission Requirements

Prospective students desiring to major in the geosciences programs should enroll in as much work as possible in mathematics, English composition and sciences during their high school years.

Students transferring from other colleges or universities should have taken required non-departmental 100- and 200-level courses listed under degree programs in this catalog prior to arriving at UMKC. For example, geology students should take mineralogy during their first fall semester and should have already completed the chemistry prerequisite by that time. In addition, it would be desirable for B.S. majors to have completed a semester of calculus. To assure that students transferring from other institutions of higher education can continue in an uninterrupted plan of study in the fields of geology, geography or environmental studies, it is advisable that they acquaint themselves with the departmental degree requirements listed in this catalog as well as the two-year timetable of course offerings available from the department advisors, prior to registration.

Career for Geography, Geology and Environmental Studies Graduates

Geography

Students of geography at UMKC are offered a well-rounded education leading to promising career prospects; the market for geographers is global. Geography is centrally concerned with the whole range of interrelations between human beings and the natural and built environments. Geography graduates find work in commerce; government and public administration; city and regional planning; natural resource management and environmental conservation; historic preservation; landscape design; pollution control; weather-forecasting; climatological and agricultural analysis; statistical analysis; government and commercial map-making; transportation; the travel and tourism industry; market analysis and development; diplomacy; and national and international economic development programs. Experience with geographic information science (GIS) and remote sensing technologies is a great advantage in all these fields. Well-educated geographers are often involved in the crafting of policy and legislation, in the practice of law, in consulting, in publishing and in education.

Geology

Geology graduates have numerous employment opportunities, especially in areas relating to the environment, to engineering and to applied geology. Training in urban and environmental geology will prepare graduates to develop and evaluate environmental impacts, deal with waste management issues; model groundwater flow; handle laboratory and field instrumentation; and assess natural hazards. Geologic studies of soils, energy, mineral and water resources, and the environment are essential for private industry, as well as for governmental agencies. Graduates may also join state and federal geological surveys. The petroleum industry was for many years the principal employer of geologists. However, currently the best employment opportunities are in the area of the environment.

Environmental Studies

Environmental issues such as climate variation, atmospheric pollutants and non-point-source water pollution are complex issues. The general public is ill-equipped to evaluate these issues and must rely on experts. The need for environmental education and professionals in the field of the environment has never been greater.

Given these needs, employment opportunities are unlimited and are likely to remain so for decades. Specific careers available to those who hold an environmental studies degree lie with companies and agencies that deal with engineering, environmental geology, environmental law, environmental health and safety, emergency response, environmental training, environmental chemistry, politics and social issues.

Teacher Certification in Earth Science or Social Science

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Earth Science teacher in either Kansas or Missouri requires that a student complete specific requirements in Biology, Chemistry, Environmental Studies, Geology, Physics and in the School of Education. Certification as a middle school (grades 5-9) or secondary (grades 9-12) Social Science teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and in the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-**2234**.

Departmental Activities

Advising System

Students who wish to major in geology, geography or environmental studies should seek advice from the department at the earliest possible time. Transfer students, including those from local community colleges, should see faculty advisers in the department prior to admission to UMKC. All full-time faculty members serve as department advisers, but lead roles are designated to particular faculty for each discipline. Individuals may make advising appointments at any time during the semester by phone at (816) 235-**1334** or by e-mail at geosciences@umkc.edu.

Practicums and Internships

The nature of the fields of atmospheric science, environmental studies, geology, and geography necessitates practical in-class and laboratory exercises; field trips and fieldwork; working seminars and independent projects of a practical nature. More explanation of specific courses can be found in the individual course descriptions. Internships are available with local organizations.

Financial Aid and Transportation Costs

A variety of scholarships and student financial aid alternatives are available to students accepted for regular enrollment. (See the Financial Aid Web site <http://www.umkc.edu/finaid> for more information.) Scholarships available solely to geosciences students include the Richard J. Gentile Scholarship, the Peck-Williams-Garstang Scholarship, the Truman Stauffer Scholarship, the Denis Ward Scholarship, and the Greater Kansas City Gem and Mineral Show Association Scholarship. Please note that certain field courses and field trips necessitate that some travel costs are at the expense of the individual student.

Environmental Studies Program

Program Director:

Caroline P. Davies

Participating Architecture, Urban Planning and Design Faculty:

Joy Swallow, Michael Frisch, Jacob Wagner

Participating Chemistry Faculty:

Yanching (Jerry) Jean, Kathleen Kilway, J. David VanHorn, Charles Wurrey

Participating Civil and Mechanical Engineering Faculty:

John Kevern

Participating Computing and Engineering Faculty:

Deborah O'Bannon, Jerry Richardson

Participating Economics Faculty:

Michael Kelsay, Mathew Forstater

Participating Education Faculty:

A. Louis Odom

Participating Geosciences Faculty:

Jimmy Adegoke, Raymond Coveney, Caroline Davies, Steven Driever, Syed Hasan, Daniel Hopkins, Wei Ji, Jejung Lee, James Murowchick, Tina Niemi, Julie Urbanik

Participating History Faculty:

John Herron

Participating Law Faculty:

John Ragsdale

Participating Philosophy Faculty:

James Sheppard

Participating Political Science Faculty:

Reginald Bassa

Program Description

The interdisciplinary environmental studies degree program of The College of Arts and Sciences provides educational opportunities for undergraduate students along two distinct tracks leading to a bachelor of arts degree in environmental studies or a bachelor of science degree in environmental studies. The program is designed to meet pressing needs in the workforce and the urban community, producing college graduates who are broadly educated in issues of the environment and who can communicate effectively. The core of the program consists of a unique blend of required courses supplemented by key electives dependent upon the particular interests and needs of students. Required courses span the fields of the biological, physical, and social sciences and the humanities. (See the Environmental Studies Web site <http://cas.umkc.edu/esp> for more information.)

Geography and Geology Programs

Professors:

Raymond M. Coveney Jr. (principal graduate adviser), Steven L. Driever (principal undergraduate geography adviser; director, Urban Studies), Syed E. Hasan (director, CAER), Wei Ji (graduate geography adviser), Tina Niemi (principal undergraduate geology adviser)

Associate Professors:

Jimmy Adegoke (chair), Caroline P. Davies (undergraduate environmental studies adviser, BS; director, Environmental Studies Program), Daniel P. Hopkins (undergraduate environmental studies adviser, B.A.), James B. Murowchick

Assistant Professors:

Jejung Lee

Visiting Assistant Professors:

Jullie L. Urbanik

Professors Emeriti:

Richard J. Gentile, Edwin D. Goebel, Paul L. Hilpman, Eldon J. Parizek

Program Description

The department has offered geography and geology courses since 1934. The geography and geology programs of the Department of Geosciences include both bachelor of arts and bachelor of science degrees. The department also offers a master of science degree in environmental and urban geosciences (formerly the master of science in urban environmental geology degree). Students who designate geosciences as their coordinating discipline for the interdisciplinary doctoral program must meet admission and other requirements available from the department. See the [School of Graduate Studies](#) section of the graduate catalog for more information about doctoral programs.

Advanced Certificate Program in GIS

Recognizing the important role GIS now plays in shaping understanding of the environment and in the management of public resources, professors from Geosciences, Urban Planning and Design, Criminal Justice and Criminology, and Computing and Engineering created a technology-based curriculum designed to prepare students for a variety of careers in the rapidly growing GIS job market. For completion of the certificate program, the student is required to finish the coursework of 17-18 credit hours in order to receive a certificate.

Required Two Core Courses (8 credit hours) Hours

GEOG 203 Introduction to Geographic Information Systems 4

GEOG 401/5507 Advanced Geographic Information Science 4

Choose Three from the Following (9-10 credit hours)

GEOG 402/5502 Environmental Remote Sensing and Digital Image Analysis 4

GEOG 444/5544 Geocomputation for Earth and Environmental Sciences 3

GEOG 448/5548 Satellite Climatology 3

GEOG 5598D Special Topics in Advanced GIS and Remote Sensing 3

UPD 300 Quantative Methods in Planning 3

UPD 400 Advanced GIS for Urban Planning 3

CJC 5592 Advanced GIS for Crime Analysis 3

E&C-ENGR 484/5590IP Introduction to Digital Image Processing 3

COMP-SCI 352 Data Structures and Algorithms 3

COMP-SCI 471 Database Design, Implementation and Validation 3

Students and working professionals enrolled in the Advanced GIS Certificate Program will become proficient in using GIS and remote sensing techniques to address various environmental and urban issues. They will receive practical GIS experience and supplement their knowledge of geography, geology, environmental studies, and urban studies and planning. For more information go to Web site at <http://cas.umkc.edu/geo/advGis.html>

Graduate Certificate in Waste Management

In keeping with the demand for trained professionals in the field of waste management, a new Graduate Certificate Program in Waste Management was launched in 2003. The program is designed for professionals working in the waste management industry who desire advanced knowledge in the field but do not have the time to enroll in a graduate degree program that may take up to two years to complete. The graduate certificate program is designed to meet this need and also to enable students holding a bachelor's degree in an appropriate discipline to improve their knowledge in the waste management field and to prepare them to enter the waste management industry with advanced knowledge at the graduate level. The carefully designed curriculum for this program consists of 15 credit hours of course work that covers every important aspect of waste management. Field visits to waste disposal facilities and a 5-day OSHA-approved Hazardous Waste Operator Training (HAZWOPER) course are included in the curriculum.

Required Courses

ENV-SCI 310 Field Experience in Waste Management
GEOLOGY 335 Introduction to Waste Management
GEOLOGY 5512 Geology and Hazardous Waste Management
GEOLOGY 5534 Hazardous Waste Operation Management
GEOLOGY 5570 Hydrogeology
GEOLOGY 5597 Graduate Seminar

Master of Science : Environmental and Urban Geosciences

Students in all graduate programs in which the Department of Geosciences participates are required to complete and publicly defend their thesis or dissertation before they can be awarded their M.S. or doctoral degree. Doctoral students must also pass a comprehensive examination.

The Department of Geosciences offers a master of science degree in environmental and urban geosciences, the only such program in North America. This unique program prepares students, depending on their emphasis area, for advanced study of different facets of the environment including: environmental issues and geospatial methods (GIS and Remote Sensing), natural hazards, environmental remediation, waste management, air and water pollution, resource evaluation and management, geoarchaeology, historical geography, and urban land use and planning. Although the program allows students to select an emphasis area for more intensive study, all students are required to complete a core curriculum and a thesis.

Admissions Requirements

For full admission to the graduate degree program in environmental and urban geosciences (Code 6, degree-seeking status), the following requirements must be met:

1. Completion of an undergraduate degree with a major in a geosciences field (such as environmental studies, geography, or geology) and a grade-point average of at least 3.0 (A = 4.0) overall, as well as in the major.
2. Submission of scores on the Graduate Record Examination (GRE) is not required but highly recommended.
3. Two letters of recommendation from academic and/or professional referees.

With department approval, students with non-geoscience undergraduate degrees may be admitted on a non-regular degree-seeking basis (Code 6-V). After successfully completing recommended courses for the appropriate undergraduate geoscience degree, including prerequisites, these students may be granted degree-seeking status.

Graduate Assistantships

Teaching and research assistantships are awarded on a competitive basis to incoming graduate students. Assistantship applications and all supporting materials should be submitted by March 15 for fall enrollment. GRE scores may be used to assign assistantships.

Core Curriculum

Hours

GEOG 5544 Spatial Data Analysis 3
GEOG 5595 Graduate Seminar I 1
/GEOLOGY 5595
GEOG 5597 Graduate Seminar II 3

/GEOLOGY 5597
GEOG 5599 Research and Thesis 3-6
/GEOLOGY 5599

Areas of Concentration

Students must select one of the following areas of concentration:

Environmental Geography and Geographic Information Science

The Environmental Geography and Geographic Information Science area of concentration will prepare students with a wide range of knowledge on environmental issues and geospatial methods (GIS, remote sensing, and environmental modeling). Required courses for students in this area are:

Hours

GEOG 5502 Environmental Remote Sensing 4
GEOG 5506 Global Environmental Change 3
GEOG 5507 Advanced Geographic Information Science 4

Based on student interest and departmental research priorities, students may also take courses in such areas as biogeography, climatology, ecosystem management, hydrology, and quaternary environments.

Environmental Geology

The Environmental Geology area of concentration provides opportunities for advanced study of geology with emphasis on human interaction with the environment. Hydrogeology, neotectonics, geochemistry, and environmental hazards and remediation are among the possible specialties a student could pursue in this emphasis area. Required courses for students in this area are:

Hours

GEOLOGY 5551 Geotechnics 4
GEOLOGY 5570 Hydrogeology 3

One of the following:

GEOLOGY 5531 X-ray Methods in Geosciences

-and-

GEOL 5532 ICPMS Applications 4
GEOLOGY 5535 Aqueous Geochemistry 3
GEOLOGY 5541 Environmental Geophysics 3

Other coursework may include appropriate geology courses, as well as related departmental courses, especially those in geographic information science.

Urban and Cultural Geography

Students choosing this area of concentration can pursue studies in cultural geography, historical geography, history of cartography, geoarchaeology, regional analysis and development, and urban geography and planning. Required courses for students in this area are:

Hours

GEOG 5503 History and Philosophy of Geography 3
GEOG 5507 Advanced Geographic Information Science 4
GEOG 5509 Urban Geography 3

Other coursework may include appropriate geography courses, as well as related departmental courses and cognate courses in other departments. Requirements for Retention

1. For newly admitted graduate students, elimination of all undergraduate deficiencies (if any) in the undergraduate major and its supporting prerequisites is required upon or before the completion of the first 12 hours of coursework for graduate credit. No graduate credit can be given for undergraduate courses taken to remove deficiencies.
2. All students are required to pass a qualifying examination administered by the department during their first year.
3. A 3.0 (B) average or better must be maintained in all graduate coursework. In addition, a 3.0 (B) average and a satisfactory balance of grades must be maintained in the approved program of study, or the student will be subject to either probationary status or dismissal from the program.

Requirements for Graduation

1. Formal acceptance of a planned program of study and research is required by the department and the graduate officer of the College. Such a program must comprise at least 30 graduate credit hours (approved by the supervisory

committee), including 3 to 6 hours of thesis credit, and completion of the core curriculum and emphasis area requirements. No more than 40 percent of the program may be 300- to 400-level courses, and at least 18 credit hours must be at the 5500 level or above.

2. A formal written thesis is required of all students, and its format must be in accordance with guidelines of School of Graduate Studies.
3. A final examination is required, including oral examination of thesis research and related coursework.
4. Satisfactory compliance with all applicable requirements of the School of Graduate Studies is required, including continuous enrollment and residency.

Natural Science/Social Sciences Area Requirements

The following geosciences courses count toward the natural science requirements of the College of Arts and Sciences:

ENV-SCI 110L Understanding the Earth Laboratory
ENV-SCI 110R Understanding the Earth
GEOG 203 Intro to Geographic Information Systems
GEOG 215 Intro to Weather and Climate
GEOG 314 Principles of Geomorphology
GEOG 317 Cartography
GEOG 319 Descriptive and Synoptic Meteorology
GEOG 335 Introduction to Waste Management
GEOG 360 Principles of Biogeography
GEOG 401 Advanced Geographic Information Science
GEOG 402 Environmental Remote Sensing
GEOG 404 Biogeography and Landscape Ecology
GEOG 406 Global Environmental Change
GEOG 435 Geoarchaeology
GEOG 442 Quaternary Environments
GEOG 444 Geocomputation for Earth and Environmental Sciences
GEOG 448 Satellite Climatology
All **Geology** courses

Social Science Area Requirements

All **Geography** courses **except the above** count toward the social science requirements of the College of Arts and Sciences.

Advanced Certificate Program in GIS

Recognizing the important role GIS now plays in shaping understanding of the environment and in the management of public resources, professors from Geosciences, Urban Planning and Design, Criminal Justice and Criminology, and Computing and Engineering created a technology-based curriculum designed to prepare students for a variety of careers in the rapidly growing GIS job market. For completion of the certificate program, the student is required to finish the coursework of 17-18 credit hours in order to receive a certificate.

Required Two Core Courses (8 credit hours) Hours

GEOG [203](#) Introduction to Geographic Information Systems 4
GEOG [401/5507](#) Advanced Geographic Information Science 4

Choose Three from the Following (9-10 credit hours)

GEOG [402/5502](#) Environmental Remote Sensing and Digital Image Analysis 4
GEOG [444/5544](#) Geocomputation for Earth and Environmental Sciences 3
GEOG [448/5548](#) Satellite Climatology 3
GEOG [5598D](#) Special Topics in Advanced GIS and Remote Sensing 3

Students and working professionals enrolled in the Advanced GIS Certificate Program will become proficient in using GIS and remote sensing techniques to address various environmental and urban issues. They will receive practical GIS experience and supplement their knowledge of geography, geology, environmental studies, and urban studies and planning. For more information go to Web site at <http://cas.umkc.edu/geo/advGis.html>

Student Learning Outcomes

Geosciences and Environmental Studies students complete a written major field examination focusing on the subject area for each undergraduate program prior to receiving a degree (B.A./B.S. Environmental Studies; B.A./B.S. Geography; B.A./B.S. Geology).

Bachelor of Science/Bachelor of Arts: Environmental Studies

Degree Requirements

B.A. Environmental Studies:

B.A. Program Coordinator:

Minimum Core Courses from Above: 53

Distribution Electives and
General Education Requirements: 70

Minimum Total Hours: 123

Note: The B.S. degree requires at least 60 credit hours of science and mathematics. In addition to the core courses and other required courses listed above, environmental studies majors seeking a bachelor of science degree and selecting a geosciences emphasis must take a minimum of an additional 12 credit hours in geology or physical geography. A list of approved courses may be found below.

Environmental Studies Minor

B.A. Program Coordinator:

Daniel P. Hopkins, Geosciences, (816) 235-1334;

Students pursuing the bachelor of arts degree who wish to obtain a minor in environmental studies must take at least 18 credit hours of coursework from the following list, a minimum of nine credit hours at the 300- or 400-level and a minimum of nine credit hours at UMKC. The program of study is to be planned with a program coordinator.

Required Courses:

Hours

ENV-SCI 110R	Understanding the Earth	3
ENV-SCI 110L	Understanding the Earth Lab	2
ENV-SCI 210	Issues in Environmental Science	3

One of the following electives:

ECON 420*	Environment, Resources and Economic Growth	3
HISTORY 364R*	Nature, Culture and the Human Experience	3
HISTORY 365A*	American Environmental History	3
PHILOS 370*	Environmental Ethics	3
PSYCH 403*	Environmental Psychology	3
POL-SCI 435*	Politics of the Environment	3

*May not be counted in both required and elective categories.

Electives

See the electives listed under B.A. Environmental Studies.

B.S. Program Coordinator:

Caroline Davies, Geosciences, (816) 235-1334;

Students pursuing the bachelor of science degree who wish to obtain a minor in environmental studies must take at least 18 credit hours of coursework from the following list, a minimum of nine credit hours at the 300- or 400-level and a minimum of nine credit hours at UMKC. The program of study is to be planned with a program coordinator.

GEOG 203	Intro to GIS	4
GEOG 317	Cartography	4
GEOG 398	Field Trip	1
GEOG 499WI	Senior Seminar	3
Any Three Courses (Human and Regional Geography):		
GEOG 210	Human Geography	3
GEOG 309	Urban Geography	3
GEOG 311	Economic Geography	3
GEOG 329	World Political Geography	3
GEOG 332	Cultural Geography	3
GEOG 333	Introduction to Urban Planning	3
GEOG 341	Regional Geography of South America	3
GEOG 350	Regional Geography of Europe	3
GEOG 403WI	History and Philosophy Geography	3
GEOG 437	Population Geography	3
GEOG 460	Transportation Geography	3
Other Regional Courses: One or two 300-level courses		3-6
Any Four Courses (Physical Geography):		
GEOG 215	Intro to Weather and Climate	4
GEOG 314	Principles of Geomorphology	4
GEOG 319	Descriptive and Synoptic Meteorology	4
GEOG 335	Introduction to Waste Management	3
GEOG 336	Principles of Soil Science	3
GEOG 360	Principles of Biogeography	3
GEOG 402	Environmental Remote Sensing & Digital Image Analysis(NS)	4

GEOG 404	Biogeography and Landscape Ecology	3	
GEOG 406	Global Environmental Change		3
GEOG 426	Paleoecology: Microfossils and Climate Change		3
GEOG 430	Energy Resources	3	
GEOG 435	Geoarchaeology	3	
GEOG 442	Quaternary Environments	3	
GEOG 444	Spatial Data Analysis	3	
GEOG 448	Satellite Climatology	3	
Supporting Requisites (3 Hours):**			
MATH 235	Statistics	3	

*For a B.S. degree, a minimum of 60 hours of physical sciences and mathematics is required. A minimum of 26 hours of courses in the major at the 300-level or above is required for all programs in the Department of Geosciences leading to the B.A. or B.S. degree.

**B.S. students in the Department of Geosciences are not required to take foreign languages.

Bachelor of Science/Bachelor of Arts: Geology

Bachelor of Arts: Geology

Required Courses:

** Physics for Science and Engineering (240/250) are the preferred courses for the professional degree.* High school biology satisfies this requirement.

Geography and Geology Minors

Academic minors are offered in geography (18 hours) and in geology (18 hours). At least nine of the hours needed for the minor must be taken at UMKC. The minor programs are sufficiently flexible to enable students with diverse backgrounds to choose relevant coursework from the department's offerings. The programs are structured to ensure that students gain an appreciation of the breadth of the minor field. The minor should be declared as early as possible, but not later than the beginning of the student's senior year. Up to eight hours of coursework may simultaneously count in both the major and minor areas, where applicable. This applies to departmental and non-departmental students.

Undergraduate Minor in Geography

A minor in geography may be obtained with a minimum of 18 semester hours of coursework in this discipline (at least nine of which must be at the 300- and 400-level).

Either ENV-SCI 110R Understanding the Earth (5 hours with lab) -or- GEOG 105 Introduction to the Elements of Geography (3 hours) is required.

Note: GEOG 398, 417, 489 and 499WI do not count as credit in a minor program in geography.

Undergraduate Minor in Geology

A minor in geology may be obtained with a minimum of 18 semester hours of coursework in this discipline (at least nine of which must be at the 300- and 400-level).

GEOLOGY 220 General Geology (5 hours with lab) -and- GEOLOGY 250 Field Methods(Campus) (3hours) -or- GEOLOGY 251 Field Methods(Off-campus) (3 hours) are required.

Note: GEOLOGY 398, 417 and 499WI do not count as credit in a minor program in geology.

- Graduate History Courses

Department Description

The faculty of the Department of History believe history is an essential component of a liberal arts education. As an important part of the curriculum, historical study enables students to understand the interaction of many aspects of state, society and culture, and the dynamics of human change. It offers a valuable perspective on contemporary problems as well as knowledge of the past for its own inherent interest.

Departmental offerings, at the undergraduate and graduate levels, include the major areas of historical concern such as American history and ancient, medieval and modern European history. In recognition of the role of a university in its community -- local, national and world -- the department offers courses in urban and social history; the history of science; Asian and Middle Eastern history; Judaic Studies; religious studies; women's and gender studies; and black studies. The department is also vitally involved in interdisciplinary courses and programs.

Desirable Preparation for Undergraduate Admission

Students wishing to major in history should acquire as broad a background as possible in subjects related to their historical interests. Both secondary school and community college courses in history should be supplemented with courses in other social sciences and the humanities. Students interested in the history of science should emphasize studies in physical and biological sciences.

The discipline is broad in scope and methods. Faculty members believe a logical and systematic selection of courses in other disciplines will complement the study of history. They encourage prospective majors to consult with them in preparing an integrated course of study.

Career Implications of the Bachelors Degree

The bachelor of arts degree in history provides students with general preparation for a wide range of occupations. Most majors follow business and professional careers and receive benefits both personally and professionally from the development of analytical skills and examination of relevant subject matter in history courses. The bachelor of arts degree in history is more directly applicable to careers in law, teaching, museum work, archival work, administration of historical agencies and selected positions in government. The principal undergraduate adviser can offer counsel on careers for graduates in history in both the private and public sectors.

Individuals seeking careers as teachers and professional historians may pursue advanced degrees on this campus. The department offers the master of arts degree and participates in the Interdisciplinary Ph.D. program. Students interested in graduate studies should contact the principal graduate adviser, Andrew Bergerson, or for the Interdisciplinary Ph.D. program, contact Carla L. Klausner  .

Department Activities

Advising

Counseling is key to a meaningful and profitable course of study in the department. Students should consult the principal undergraduate faculty adviser regarding selection of courses and for help in academic matters. Students may select an adviser, or an adviser can be appointed by the principal undergraduate adviser. Faculty office hours and prospective schedules of courses are posted in the department office, located in 203 Cockefair Hall and on the department Web site <http://cas.umkc.edu/history>. The department offers printed guides to the requirements for its graduate degrees.

Special Programs

Teaching Certification in Social Studies

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in history, political science, economics, geography, behavioral sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

History and Philosophy of Science

The Department of History, in cooperation with the Department of Philosophy and the various departments of science throughout the University, offers a flexible program in the history and philosophy of science. For more information, contact William B. Ashworth at 816-926-8719 or by e-mail ashwortb@lhl.lib.mo.us

Applied History

Courses offered by the department prepare graduates for a variety of careers in historical agencies or in the study and preservation of cultural artifacts. For further information concerning archival methodology, consult Linna Place at (816) 235-**5394** or by e-mail placel@umkc.edu. For course offerings in material culture, contact Miriam Forman-Brunell at (816) 235-**5220** or by e-mail forman-brunellm@umkc.edu.

Honorary Organization

The department sponsors a chapter of the national history fraternity Phi Alpha Theta. Admission into the fraternity requires a 3.2 GPA in a minimum of 12 upper-level credit hours. The fraternity sponsors programs and lectures during the school year, and members often are invited to read papers at the regional conventions of the fraternity. The chapter sponsor is James S. Falls. Contact him at (816) 235-**2545** or by e-mail fallsj@umkc.edu.

History Club

Another organization available to students is the History Club, founded in 1999 with the purpose of promoting the study of history. The club is open to all students, history majors and nonmajors. The club sponsor is James S. Falls. Contact him at (816) 235-**2545** or by e-mail fallsj@umkc.edu.

Interdisciplinary Ph.D. in History

History is an academic discipline eligible for full participation in UMKC's Interdisciplinary Ph.D. Program. Students interested in this study should review the School of Graduate Studies section for general and discipline-specific admission criteria, academic regulations, and degree requirements. Interested students should contact the department's doctoral program adviser, Carla Klausner  .

Master of Arts: History

Student Learning Outcomes

This master's program is designed for students who have already completed a non-terminal baccalaureate degree with a major in history or a related field. Students may pursue this master's degree as a terminal degree or leave open the option of continuing to a doctorate. In this program, students will typically develop an in-depth knowledge of three fields of historical scholarship in their areas of interest, including chronology, bibliography, major themes and interpretations. Students may find that they develop these interests in the process of their interaction with the department faculty. In the process of developing this advanced knowledge, students will also be expected to master the skills of historical scholarship. They will learn:

- How to think critically about and conduct effective research into the past.
- How to compose this research into an eloquent story about the past on the basis of primary, secondary and theoretical sources in critical debate with other historians about historical events, interpretations, methodology, theory and historiography.
- How to communicate their histories in a variety of oral and written modes appropriate to professional historians (in book reviews, articles, conference-style presentations, peer debate and with academic honesty).

The Department of History offers two options leading to the master of arts degree. Both require 36 credit hours.

- M.A. in History with Thesis. This degree is for students who want to keep open the option of continuing their education beyond this degree.
- M.A. in history without Thesis. This degree is for students wishing to conclude their history education with this degree.

Admission Requirements

The Department of History will consider for admission as a regular graduate student any student:

- Whose undergraduate major was History.
- Who had a 3.0 grade-point average in History courses and a 3.0 grade-point average overall.

Applicants who do not hold an undergraduate degree in History, but whose baccalaureate program included substantial training in History and/or related subjects, may also be considered for regular admission.

In order to be admitted into the program, applicants must provide evidence that they have scored

- A minimum of 500 on the verbal portion and/or
- A minimum of 3.5 on the analytical writing portion of the GRE test
- A minimum score of 80 (internet) or 550 (paper) or 213 (computer) on the TOEFL and a minimum score of 4.0 is required for English as Second Language speakers.

and submit:

1. A completed admissions application.
2. All required test results.

Most materials can be completed and submitted online.

1. Complete the admissions application online at www.umkc.edu/admissions/.
2. Send copies of your official test results and letters of recommendation to:

Mailing Address

University of Missouri-Kansas City
Admissions
5100 Rockhill Road
Kansas City, MO 64110-2499

You may also wish to send a copy to

finaid@umkc.edu
<http://www.umkc.edu/finaid>

Student Orientation (The Graduate Student Barbeque)

The Department of History hosts an annual graduate student barbeque on the third Sunday in September, at which:

- Students are introduced to the program curriculum and administration.
- Graduate students are encouraged to build working relationships with faculty and peers.
- Faculty mentors/advisers are identified for each student.

Minimum Expectations

Students must demonstrate satisfactory progress towards the completion of their degree. In all courses students must

1. Receive a grade of 2.67 or higher in all courses taken in the History Department.
2. Maintain a minimum cumulative 3.0 graduate GPA.
3. Adhere rigorously and conscientiously to academic standards of honesty (see below).
4. Demonstrate serious commitment to scholarship and intellectual engagement.
5. Abide by all requirements of the School of Graduate Studies (see School of Graduate Studies section of the Graduate and Professional Catalog), in addition to those of the Department of History.

In terms of administrative procedures, they must punctually file the following forms, each of which must be approved by the M.A. adviser, the faculty adviser and the other members of the supervisory committee:

1. A tentative program of study, and the form listing the initial members of their Supervisory Committee, by the 15th of October or 15th of March before the completion of their 15th credit hour.
2. A final program of study, and the form listing the final members of their supervisory committee, by the 15th of October or 15th of March before the completion of their 30th credit hour.

Extenuating Circumstances

Students incapable of meeting administrative deadlines may request an extension from the M.A. adviser. These requests must be made in writing in advance of the deadlines. Incompletes will be given only when there are legitimate reasons for not completing course requirements on time, and only when there are reasonable expectations that work can be completed within the time allowed by the School of Graduate Studies (maximum of one year).

Probation

Failing any of these conditions means that the student is not making satisfactory progress towards the completion of her/his degree. In that case, the student will be placed on probation and will have to petition the department, through a letter to the M.A. adviser and graduate committee, for permission to resume his or her studies the following semester. The department will then recommend a reasonable plan for remediation. If the student fails to meet the standards set by the department, the student will be declared ineligible for enrollment and dropped from the program.

Academic Dishonesty

Plagiarism is an inexcusable act in the view of the History faculty. Any student guilty thereof will be liable to expulsion from the program. A detailed statement by the faculty is available in the History office and online (cas.umkc.edu/history/StudentConduct.htm).

Research dishonesty refers to any conduct that is intended to mislead or communicate false research data or results, or which communicates such data or results in reckless disregard of their false or misleading character. Illustrations of

research dishonesty include, but are not limited to, the following:

- False or misleading statements or publications concerning research data or results.
- Intentional or reckless distortion or misinterpretation of research data or results.
- Use of research methods which the researcher knows to be unreliable or which produce erroneous results, unless appropriately explained in publications and reports of the research.
- Release of research data or scholarly efforts of other persons, and representing them as one's own or failing to give appropriate credit to their sources.
- Misuse of the work of others or misrepresentation of authorship as that of the student.

The Supervisory Committee

The supervisory committee consists of three full-time, regular members of the UMKC History department who are also members of the graduate faculty, with the student's faculty adviser serving as chair of this committee.

- For Non-Thesis students, the supervisory committee will ordinarily serve as the final examining committee. In consultation with the supervisory committee, the student should select fields for examination.
- For Thesis students, the supervisory committee will serve as the readers for the thesis.

With the approval of the faculty adviser:

- One member of the committee may be a full-time, regular member of another UMKC department so long as that person is also a member of the graduate faculty.
- A fourth member may be added to the committee from the adjunct graduate faculty or from the graduate faculty of another institution.

Final Masters Examination for Non-Thesis Students

Candidates for the M.A. degree without thesis will be examined in any three fields. (See List of Fields offered by regular graduate faculty.) In each, the student must demonstrate mastery of the historical knowledge:

1. Including chronology, bibliography, major themes and interpretations.
2. Implying that the student's knowledge significantly exceeds his or her class work.
3. Reflecting an in-depth knowledge of that field of historical scholarship.

In all of the fields, students must also demonstrate mastery of the skills of historical scholarship. This means:

- In writing and orally, to summarize a body of literature and take a critical position in that historiographic debate.
- To use particular historical facts to draw interpretive conclusions.
- To use historical interpretations to engage in critical debates about how history should be written.

In terms of procedure, students will typically:

1. Propose a list of no fewer than 15 landmark monographs and essays to each committee member that reflect the trends and debates in the field for which they are responsible.
2. Meet with the individual member of the faculty to discuss these texts (possibly as part of Non-Thesis Reading/Research 5597).

When the student has demonstrated his/her preparedness to each individual member of the committee, the faculty committee will

1. Meet to develop an integrated set of questions for that particular student's exam.
2. Meet with the student in advance of the examination to explain what is expected.

Written exams will be held on the Monday, Tuesday and Wednesday of the 4th week before "finals week". The student will typically be given:

1. One exam per field.

2. One exam per day.
3. Three hours for each exam.
4. A choice of questions for each exam.

At least one week later, but before classes are finished, the student will be examined orally for no more than two hours in which the exam is discussed by faculty and students and follow-up questions are posed. Students are encouraged to reflect on their own written examinations. Each examiner will evaluate the examination according to the following scale: Superior, Good, Fair, and Inferior (Fail). A grade of Fair or better in all three fields is required for the award of the master's degree.

Fields of Study

AREAS	CHRONOLOGICAL/NATIONAL	TOPICAL/INTERDISCIPLINARY
1. EUROPE	a. Medieval Europe b. Early Modern Europe c. Modern Europe	a. Material Culture & Everyday Life b. History of Science or Medicine c. Area Focus: Medieval Italy; Britain; Modern Germany d. Women, Gender, & Family e. State Formation & National Identity f. Global Interactions
2. MIDDLE EAST	a. Medieval Jewish/Islamic b. Ottoman c. Modern Middle East	a. Material Culture & Everyday Life b. Women, Gender, & Family c. State Formation & National Identity d. Comparative Religions e. Global Interactions
3. LATIN AMERICA	a. Encounter & Colonial b. Post-Independence	a. Identity & Culture b. Post-Independence b. Women, Gender, & Family c. State Formation & National Identity d. Area Focus: Mexico, Central America; Cuba; Puerto Rico, the Southern Cone e. Global Interactions

4. EAST ASIA	<ul style="list-style-type: none"> a. Pre-1600 b. Post-1600 	<ul style="list-style-type: none"> a. Area Focus: Japan; China b. Women, Gender, & Family c. Fields of History offered by Regular Graduate Faculty:

William B. Ashworth, Jr. Science, Renaissance, Early Modern European

Andrew S. Bergerson Modern European, Modern German, Everyday Life, Material Culture, German Studies

Jessey J. C. Choo Premodern East Asia, China, Japan, Religion, Women, Gender, Everyday Life, Material Culture

Gary L. Ebersole Religious, Japanese, Cultural

James S. Falls Ancient, Medieval English

Miriam Forman-Brunell Women, Gender, Sexuality, United States Social, Everyday Life, Material Culture

Viviana Grieco Precolonial, Colonial, and Modern Latin American

John Herron Environmental, Western United States, 19th and 20th Century United States

Carla L. Klausner Islamic, Ottoman, Modern Middle East, Medieval Europe, Medieval Jewish

Pellom McDaniels III	American Studies, Black Studies, Sports, Masculinity
Dennis Merrill	U.S. Diplomatic, Contemporary United States, Modern Latin America, Globalization, International Relations
Linda Mitchell	Medieval English and Irish, Women
Diane Mutti Burke	19th Century American, Southern United States, Women, Gender, United States Social
Lynda S. Payne	Modern British, Science, Medicine, Gender, The Body, Women, Early Modern European
Louis W. Potts	Early United States, Colonial U. S., Technology, United States Constitutional, Communities & Identities
Shona Kelly Wray	Early Modern European, Medieval European, Renaissance

Adjunct Graduate Faculty

Linna Place	American Studies, Public History
MaryAnn Wynkoop	American Studies

Master's Thesis (for the Thesis Option)

Candidates for the M.A. degree with thesis will be required to write an original piece of historical scholarship based on their own research in primary sources and to make a contribution to the existing literature on the subject. By the 15th of October or 15th of March (before the completion of their 30th credit hour) the students must submit a research proposal for the thesis, approved by the faculty adviser, to the M.A. adviser for filing. Students should:

1. Meet regularly with the faculty adviser during research and writing.
2. Solicit the advice of the other members of the committee before submitting a final draft to the entire committee.

The completed thesis will:

1. Summarize the literature/s relating to this area of research and take a critical position in it/them, engaging questions about chronology, bibliography, major themes and interpretations.
2. Explain and justify its theory and methodology.
3. Tell a story about the past eloquently on the basis of primary sources.
4. Comply with academic standards of honest and disciplinary standards of evidence.
5. Comply with all formal and administrative, University-wide guidelines for thesis submission. (Students are highly encouraged to attend a workshop offered by the School of Graduate Studies on proper thesis format held typically during the third week of each semester. See Appendix for links to formatting guide.)

The final draft of the thesis is due no later than two semesters after the completion of coursework. Written requests for extensions to this deadline, approved by the faculty adviser, should be submitted to the M.A. adviser in advance of this deadline. Students must abide by the Completion Timeline for Theses and Dissertations prescribed by the School of Graduate Studies (see Appendix for links.)

Defense of Master's Thesis

Candidates for an M.A. degree with thesis will be required to defend their thesis in an oral examination, advertised and open to the public, in which the student will

1. Make a 20 minute conference-style presentation of his/her research.

2. Respond to questions from the audience and the committee about events, interpretation, theory, method and historiography.

Each examiner will evaluate the thesis according to the following scale: Superior, Good, Acceptable, Acceptable with Revisions, and Unacceptable (Fail). A grade of Acceptable or better by all members of the committee is required for the award of the master's degree.

Honary Organizations

The department sponsors a chapter of the national history honorary, Phi Alpha Theta. Admission into the honorary requires a 3.2 grade-point average in a minimum of 12 credits of graduate work. The honorary sponsors programs and lectures during the school year, and members are often invited to read papers at the regional conventions. Membership in Phi Alpha Theta is noted on each honoree's official transcript.

Program options:

The Department of History offers two options leading toward the Master of Arts degree (both requiring 36 credits):

- the M.A. in History with thesis: the option for students wishing to keep open the option of continuing their education beyond this degree, and
- the M.A. in History without thesis: the option for students wishing to conclude their History education with this degree.

Language Requirements

The M.A. in History with thesis will require demonstration of foreign language competency if the subject matter requires it. The faculty adviser will determine how this requirement should be fulfilled. The M.A. in History without thesis does not require foreign language competency.

Course Requirements

Students seeking to fulfill either program option are required to complete a minimum of 36 credits of graduate-level work which must include completing the following courses with a grade of 2.67 (B-) or better:

1. How To-History I & II (Hist 5581 and 5582) for a total of 6 credits,
2. A minimum of two graduate level Colloquia (Hist 5585 and/or 5586) for a minimum of 6 credits, and
3. A minimum of one Research Seminar (Hist 5587) for 3 credits.

The department encourages students to take all of the remaining courses in their curriculum (21 credits) in the History department at the 5500 level. With the approval of the student's faculty adviser, however, students may take up to 6 credits at the 400 level if these fit with their overall program of study. Students may also take up to 9 credits in courses outside the department provided:

1. They are demonstrably graduate level courses.
2. They clearly relate to the student's program of study.
3. The student receives the approval of her/his supervisory committee.

Students may transfer up to 20% of the graduate credit hours appearing on the final program of study from another recognized graduate school.

Non-Thesis students may take up to 6 credits of Non Thesis Research/Readings (HISTORY 5597) in which they receive one on one instruction in areas of their own special interest (a course offered at the discretion of individual instructors).

Thesis-option students must take at least 1 and no more than 6 credits of Thesis Research/Readings (HISTORY 5599R) in which they receive one-on-one mentoring as they develop their own contribution to knowledge based upon extensive research, reflection, and careful analysis (a course offered at the discretion of individual instructors).

How To-History

These foundational courses in the doing of history are offered in a two-semester sequence in the evening.

- In Part I (Fall semester), students will learn about the major trends in historiography by reading the “great books” of historical scholarship and learn the basics of historical criticism; the major assignment is a literature review that will aid the students in preparing for How To-History II.
- In Part II (Spring semester), students will learn the research methodologies and professional obligations of historians; the major assignment is a viable research prospectus that will aid the students in preparing for their Research Seminar.

Colloquia

These courses form the knowledge base for the graduate and doctoral program. Divided for purely administrative reasons into “American” and “World”, students are encourage to take as many of these as can fit into their Program of Study. One of each is offered each Fall and Spring semester in the evening. In them, students will

1. Read broadly and learn about the major trends in the historiography of a particular historical problem, place, period, or specialization.
2. Develop fundamental skills of the professional historian such as the ability to write academic book reviews, make conference-style presentations, and discuss among peers the work of other historians critically.

This course typically culminates in the production of a term paper and/or literature review on a subject of the student’s interest that could serve as the context for a future research project or comprehensive examination field.

Research Seminars

Subjects include:

- Communities and Identities
- Gender, Sexuality and the Body
- Globalization and Internationalism
- Material Culture and Everyday Life
- Region and the Environment
- Science, Technology and Medicine
- Texts and Ideas

On a rotating basis, two of these courses are offered in the Spring semester in the evenings. Students may take two in the same semester only with the approval of their Faculty Advisor. In them, students will

- read a few examples of this field of scholarship,
- propose a viable research project with a professional prospectus,
- conduct historical research,
- write up the results to demonstrate a contribution to the existing literature,
- make conference-style presentations of their research, and
- discuss the work of other historians critically among peers.

This course culminates in the production of an article-length “publishable” paper based on primary research. Students writing superior papers will participate in a Graduate Student Conference at the end of the Spring semester. All masters students will attend this conference as an audience.

Dual-Numbered Courses (300/5500 & 400/5500)

Offered at a variety of times each semester, these courses expose graduate students further to major trends in the historiography of larger historical problems, places, periods, or specializations and allow them to hone their skills at academic history. Often taught in conjunction with undergraduate courses in the same subject area, graduate students in these courses will be held to a higher standard of knowledge and performance.

The Annual Graduate Student Conference

The History Department will host an annual Graduate Student Conference on Thursday afternoon and evening of the reading period in the Winter Semester (typically the last week in April or the first week in May). Graduate students should mark this on their calendar ahead of time so that they can attend as required by the program. In it, students will

- demonstrate their expertise in a research agenda of their own creation,
- present their research to peers and faculty,
- comment constructively and critically on the research of others,
- engage critical questions in public, and
- celebrate their academic achievements that year.

At the conclusion to this conference, the faculty will present two student participants with the Carla Klausner Award for the Best Paper-Presentation in History and the Lynda Payne Award for the Best Poster Presentation in History.

Bachelor of Arts: History

Student Learning Outcomes

The Department of History has developed a set of carefully crafted learning objectives. Simply put, history majors are expected to acquire specified levels of knowledge, perspectives and skills through the study of the past. The learning objectives are designed to help students succeed in their undergraduate history major, as independent, creative and self-directed learners. More important, they will help students to be successful in their pursuit of a career and to hold a lifelong appreciation for the humanities and social sciences. The objectives are enumerated as follows:

Knowledge of the Past

Students studying history will:

- Acquire knowledge of the world's civilizations and peoples, and their political, economic, social and cultural histories.
- Gain in-depth knowledge of a historical field by specializing in one of several departmental concentrations.
- Gain exposure to a range of historical subjects outside the concentration.
- Complete at least one course that examines a non-western society.

Perspectives

Students studying history will:

- Develop a historical understanding of an increasingly multicultural society and interdependent world.
- Understand the variety and complexity of the human experience and foster an appreciation for processes of change.
- Comprehend how constructions of class, race and gender dynamically shape social structures, national identities and all forms of human relationships;
- Realize the interlocking relationships among science, technology, the environment and society.
- Appreciate the value of interdisciplinary perspectives and methods.

Analysis and Interpretation

Students studying history will:

- Critically evaluate secondary, textual evidence by identifying a thesis, noting sources and methods used in argument, discerning the conclusions and determining the perspective, bias and reliability of the argument.
- Think critically, and master the art of interpretive analysis based on the widest possible array of primary sources: written, material and other cultural texts.

Research and Communication

Students studying history will:

- Locate printed and online information sources to research a topic exhaustively.
- Write clear, well organized, properly documented and grammatical prose.

General College Requirements

The student must fulfill the requirements of the general college program as outlined in Undergraduate Academic Regulations and Information.

History Department Requirements

1. Each major shall concentrate in one area: American, European, Latin American or Global, or devise a thematic concentration and have it approved by the chair of the undergraduate studies committee.
2. Two prerequisite courses (six hours) are required in either World History (HISTORY 206 and 208) or Western Civilization (HISTORY 201 and 202). These courses may also fulfill the UMKC general education requirements.
3. Ten courses in history at the upper division, 300-400 level, are required (30 hours)
4. A maximum of five of the ten courses, or 50 percent of upper division coursework, must fall into students' field of concentration.
5. The other half of upper division coursework must be outside the students' field of concentration, including History 301WI, History 498WI, and a non-western course (unless non-western is the area of concentration).
6. All history majors are required to complete HISTORY 301WI Historiography and Method and HISTORY 498WI Senior Capstone as part of their 30-hour upper division requirement. These courses cannot be taken in the same semester and are not offered in the summer. Students must pass the WEPT prior to enrolling in these courses.
7. All majors will take at least one history department course that examines a non-western society. Non-western societies include socio-cultural groups that are not of European origins or that have evolved a distinctive non-European identity. In our department, non-Western courses include those which deal with:
 - o Africa
 - o Asia
 - o Latin America
 - o Non-European Peoples of the Middle East
 - o Indigenous North Americans
8. History majors are strongly urged to pursue competence in a foreign language by continuing their foreign language training beyond the 13-hour general education requirement.
9. All history majors at UMKC are required to establish and maintain a portfolio of their undergraduate work. The portfolio is a measurement tool that will allow students and faculty mentors to monitor intellectual growth, acquisition and sharpening of skills, and mastery of historical knowledge while at UMKC. The online portfolio may include any written or visual assignment completed at UMKC. It must include at least the following:
 - o One book review
 - o One historiographical essay
 - o One exam essay
 - o HISTORY 301WI Research Prospectus
 - o HISTORY 498WI Senior Capstone Research Paper

You should strive to make your portfolio materials as impressive as possible. Choose your best exam essay. If you received back a book review or historiographical assignment with suggestions for editing and revision, make the revisions and polish the paper before submitting it to the portfolio. Your HISTORY 301WI Research Prospectus and your HISTORY 498WI Senior Capstone should undergo several drafts before you submit them for grading. Again, make any changes that your professors suggest, and give the papers one last proofread and polishing before adding them to your portfolio. You will be responsible for managing your portfolio electronically.

Concentrations

The History department's course offerings, all of historical knowledge, can be categorized in any number of ways. The fields of concentration reflect an appreciation for the value of studying the past through multiple lenses. Students may choose to concentrate their undergraduate history education in a particular chronological period and region. Or they may choose course offerings that fall into coherent topics that lend themselves to transnational analysis over extended periods of time.

- Chronological/Regional Concentrations:
 - o Antiquity
 - o Medieval and Early Modern
 - o Modern U.S.
 - o Modern Europe
 - o Non-Western
- Topical/Thematic Concentrations:
 - o Class, Race and Gender
 - o Global
 - o Material Culture and Everyday Life
 - o Science, Medicine and the Environment

Courses by Concentration

In reviewing the following list of concentrations and courses, keep in mind that new courses focused on specific topics relevant to professors' research interests are offered every semester, though they are not listed below.

Antiquity

HISTORY 400C Introduction to Prehistoric & Classical Archeology

Minor in History

A minor in history may be earned with a minimum of 18 credit hours of coursework in the discipline (at least 12 of which must be at the 300- and 400-level). A maximum of six of the 18 credit hours may be taken in two of the 100- and 200-level survey courses.

- Program Description

Program Description

The UMKC Honors Program seeks to attract exceptionally motivated and academically talented undergraduates from every school and college at the University to study in an environment that encourages excellence.

Traditional and nontraditional undergraduates will develop their academic and leadership skills within the context of a broad, interdisciplinary education, which will ultimately prepare them for graduate studies and professional careers.

The UMKC Honors Program is designed to enrich the college experience of the most outstanding students through the integration of traditional and novel approaches to learning from the behavioral and social sciences, the humanities, the hard sciences and other divisions of the University.

In Honors, students enjoy small classes taught by some of the best professors, guaranteeing a stimulating intellectual challenge.

Honors Credit

In order to accomplish these goals, all honors students have the opportunity to enroll in honors courses and a weekly interdisciplinary colloquium taught by some of the best faculty on campus. Colloquium allows honors students to meet informally on a regular basis to discuss and debate important issues. The Honors Colloquium introduces students to a different theme each semester, selected based on faculty and student research interests. Here all the honors students, freshmen and seniors alike, meet with the UMKC faculty and distinguished guest lecturers on subjects ranging from the environment to religion, from the fine arts to astronomy.

Honors credit may also be received from:

- Specially designed honors courses
- Independent study
- Directed readings
- Undergraduate research
- Honors contracts
- Honors discussion groups
- Senior Honors Thesis
- Study Abroad

Honors students are encouraged and supported in the conduct of research and the publication and presentation of their work regionally and nationally. As seniors, honors students have the option to complete a six-credit-hour project, the Senior Honors Thesis. Those who complete an honors thesis in addition to the basic honors requirements are designated as Honors Scholars.

Program Initiatives

On campus UMKC offers a supportive atmosphere to encourage integrative thinking through an exciting Living/Learning Community and specialized advising with Honors Faculty Fellows. Leadership skills are honed through special institutes and unique seminars where students reflect on and analyze their community-service experiences. Finally, with an eye toward giving students a leg up on their graduate school and career goals, honors students are strongly encouraged to conduct innovative individual and collaborative research or artistic activity in the form of the Senior Honors Thesis.

Some of the other advantages that the UMKC Honors Program offers students include:

- Priority enrollment for courses during registration.
- Community service and service-learning programs designed specifically for honors students.
- Specially designated general education courses for honors students.
- Tickets to all UMKC Theatre productions.
- Graduate-level borrowing privileges at Miller Nichols Library.
- Individual advising to prepare honors students to compete for national scholarships (i.e., Rhodes, Marshall, Truman and Goldwater, see www.umkc.edu/international/Fellowships_Initial.htm).

Admission to the Honors Program

To be considered for admission, a first-year student should:

1. Score in the top 10 percent on the ACT or SAT.
2. Rank in the top 10 percent of their high school class.

Students not meeting these criteria may apply for admission to the Honors Program. For incoming freshmen, a total of 28 hours of honors credit is required to receive a bachelor's degree with general honors.

Transfer students generally need to meet at least one of the following criteria:

- Fulfill those criteria set for first-year students.
- Have a GPA of at least 3.7.
- Have participated in their previous college's Honors Program.

Continuing UMKC students are encouraged to apply to the Honors Program. Minimum requirements for admission are a 3.5 UMKC grade-point average and the recommendation of two UMKC professors.

The Honors Program application may be found at the Honors website <http://cas.umkc.edu/honors>.

Continued Participation in the Honors Program

Honors students are required to register for the Honors Colloquium at least three-fourths of the time they are enrolled in the UMKC Honors Program. Additionally, a minimum overall grade-point average of 3.2 is required for all honors students for continued participation in the Honors Program. Students whose overall grade-point average drops below a 3.2 have a one-semester grace period during which time they can remain in the Honors Program while they work on bringing their cumulative grade-point average above the 3.2 minimum. If, at the end of the grace period, the student's grade-point average is still below a 3.2, the student will be dropped from the Honors Program. In view of certain extenuating circumstances, and in consultation with the student's academic adviser, the director of the Honors Program may choose to allow the student to remain in the program.

Honors Living-Learning Community

The UMKC Honors Program, in collaboration with the Department of Residential Life, sponsors the Honors Living-Learning Community. Located in UMKC's Oak Hall, this community of honors students has the opportunity to live and learn together through cohort classes, special programs and events, informal interaction with UMKC faculty, social activities and community service. The program is designed to build cohesive community among the honors students, promote student and faculty engagement and provide continuity of the intellectual learning experience outside of the classroom.

Study Abroad

Members of the UMKC Honors Program are strongly encouraged to spend a summer, a semester or a year studying in a foreign country. Taking classes and living abroad is one of the most personally and intellectually fulfilling experiences a student can have while an undergraduate. The Honors Program organizes a summer study abroad program to Uppsala, Sweden, but in consultation with the Honors Director, students can earn honors credit by participating in any study abroad program. For more information on Study Abroad, see <http://www.umkc.edu/international>.

The Honors House

The Honors Program is pleased to invite all honors students to make use of the Honors House: 5317-19 Holmes, 3rd Floor. Members of the Program have free access to space where they can meet, study, conduct discussion sessions, etc.

SEARCH: Students Engaged in Artistic and Academic Research

Honors students completing the senior honors thesis or undergraduate research are encouraged to present their findings at the annual SEARCH Symposium for Research and Creative Achievements. The purpose of this symposium is to display and celebrate undergraduate participation in outstanding research and other creative endeavors. Presentations may be in the form of poster presentations or other performance media displaying creative works.

For more information, see the [SEARCH](#) section in the catalog.

Interdisciplinary Minors and Certificate Programs

Interdisciplinary Minors and Certificate Programs

Undergraduate Interdisciplinary Minors and Certificates

Students interested in pursuing an interdisciplinary-type major should consult the Bachelor of Liberal Arts major in the Arts and Sciences section of this catalog.

Those students who plan to declare a minor are encouraged to consider the following interdisciplinary minors, as well as those minors listed under separate departments and programs in the Arts and Sciences section of this catalog. In all cases, students are to consult with a faculty coordinator to ensure that their course of study meets the requirements for a minor within the bachelor's degree they are earning.

In some of the fields listed below, Certificate Programs are available. The specific program of study should be planned under advisement of a faculty coordinator.

- Black Studies Minor
- Family Studies Minor
- Gerontology Minor and Certificate Program
- Healing and Humanities Minor
- Hospitality Studies Minor
- Judaic Studies Minor

Graduate Interdisciplinary Certificates

- Graduate Certificate in Gerontology

Graduate Certificate in Gerontology

A graduate gerontology certificate program is offered through the College of Arts and Sciences Continuing Education Division and the Center on Aging Studies. The certificate can be completed either in conjunction with a graduate degree program or as a free-standing credential. Students in such diverse fields as sociology, psychology, nursing, dental hygiene, pharmacy, law, social work and education have completed the certificate. Students enrolled in a degree program must declare their intention to pursue the certificate to their adviser and to the gerontology adviser in the Center on Aging Studies. As the number and proportion of older adults in the population increases, career opportunities in a variety of arenas are on the rise.

Required Courses

Eighteen credit hours are required to complete the minor or certificate:

Required CoursesHours

A&S <u>5500</u>	Interdisciplinary Colloquium on Aging	3
Sociology Core (Choose one)		
SOCIOL 410R	Aging in Contemporary Society	3
SOCSC 411P	Aging in American Society: Past and Present	4
SOCIOL 5554	Sociology of the Aging Woman	3
SOCIOL 5560	Sociology of Death & Dying	3

SOCIOL 5580 Special Topics (Approved 3-credit special topics course can meet the Sociology requirement.) 3

Psychology Core (Choose one)

PSYCH 5540 The Psychology of Aging 3
 PSYCH 5543 Adult Development and Aging 3

Health/Biology Core (Requires three credit hours)

NAT-SCI 430PC Biological & Ethical Issues in Aging 3
 NURSE 5530A The Experience of Health in Aging: Physiological 1
 NURSE 5530B The Experience of Health in Aging: Relationship 1
 NURSE 5530C The Experience of Health in Aging: Community 1

Field Practicum

A&S 5592 Field Practicum in Aging 3

Elective Courses

Three elective credit hours can be taken to complete the program. Students should contact the gerontology adviser or the [Center on Aging Studies Web site](#) for a current list of courses available for elective credit. Students wishing to enroll in the certificate program must meet all requirements for admission to UMKC and to their intended major academic unit (if applicable). They must declare their intention to pursue the certificate to their adviser and to the gerontology adviser in the Center on Aging Studies. For information on enrollment, contact the gerontology program adviser at the Center on Aging Studies.

Black Studies Minor

Faculty Coordinator:

Mathew Forstater , Associate Professor of Economics and Black Studies and Interim Coordinator, Black Studies (816) 235-5862

Black Studies is inherently interdisciplinary, and students who choose this minor will acquire a broad-based knowledge and understanding of the issues and research methodologies that have shaped scholarship in African-American studies. They will have the chance to learn specifics about the history, literature, artistic expression and cultural contexts of Africans and African Americans here in the United States, as well as in other parts of the world. They should also have an enhanced perspective of their major discipline after completing the minor. The addition of a minor is especially useful for students outside history or English studies who want to study African-American studies, but do not have that opportunity in their specific major.

Students earning a minor in Black Studies take at least 18 credit hours of coursework, a minimum of nine hours at the 300- or 400-level, and a minimum of nine hours must be earned at UMKC. The program of study is planned with a faculty coordinator.

Required Courses	Hours
A&S 334/5502 Introduction to African-American Studies	3

One of the following:

ENGLISH 331 African-American Literature Survey I	3
ENGLISH 333 African-American Literatures Survey II	3

One of the following:

HISTORY 394 African-American History Before 1877	3
HISTORY 395 African-American History Since 1877	3

Electives

ART 315/497H Art of African, Oceanic and New World Cultures	3
ART 300CD/497H The African Diaspora in the Arts and Culture	3

ART 300CF/497H	African/African-American	
ANTHRO 300CF/ SOCIOL 300CF	Women and Creativity	3
ART 442	Art of Sub-Saharan Africa	3
ART 497H/5571	African Influences on New World Cultures	3
ECON 314	Race, Class and Gender: Theory, History and Policy	3
ECON 495D	Area Studies in Economics-Africa	3
ENGLISH 410	Black Women Writers	3
SOCIOL 310R	Families and the Life Course	3
SOCIOL 313R	Sociology of Women	3
SOCIOL 322	Race and Ethnic Relations	3
Additional courses with significant Black Studies content with approval of faculty coordinator		3

Family Studies Minor

Haag Hall , Room 208
5100 Rockhill Road
(816) 235-2529

Program Director:

Deborah B. Smith , Associate Professor, Department of Sociology, (816) 235-2529

Through its Family Studies Program, the College of Arts and Sciences offers a family studies minor for matriculated undergraduate students interested in the welfare and empowerment of American families. This interdisciplinary academic curriculum introduces participants to the sociological and psychological foundations of families, as well as the historical, political and social climates in which they exist. Students who complete the 18-hour (nine hours core and nine hours elective) course of study will have expanded career opportunities in areas such as human services, health care, law, communications, program development and academic research.

Students wishing to complete a minor must declare their intention to their adviser and to the Family Studies Program Director. Completion of the minor is recorded on the student's transcript.

The following classes can be used toward the nine credit hours of core requirements:

- SOC [310R](#) Families and the Life Course or PSYCH [453P](#) Family Life Cycle: Developmental Approach to Understanding Family Dynamics (Note: These two classes are equivalent. Do not take both SOC 310R and PSYCH 453P.)
- SOC [211](#) Social and Psychological Development Through the Life Cycle
- PSYCH [322](#) Child Psychology (Note: PSYCH [210](#) is a prerequisite for this course.)
- Other classes can be used toward the required nine credit hours of electives for the family studies minor.

For a list of classes fulfilling the Family Studies Minor elective requirements each semester, please contact the Family Studies Program Director.

Healing and Humanities Minor

Healing and Humanities Minor

Scofield Hall, Room 9
711 E. 51st Street

Faculty Coordinator/Program Adviser:

Cary Lyon, Director of Pre-Health Programs, (816) 235-5874

The interdisciplinary minor in healing and humanities enables students to explore the complicated nature of health care issues by integrating knowledge from the arts and humanities with the social and natural sciences. The minor is particularly appropriate for students considering health-related professions, complementing other scientific, clinical and professional preparation. Health care careers are projected to be among the fastest-growing fields in the 21st century. America's changing health care environment increasingly calls for individuals who understand the complexity of factors affecting healing and who are able to take a humane, holistic approach.

The healing and humanities curriculum enables pre-health and health professions students to develop an interdisciplinary foundation for a future health care career. To earn a minor in healing and humanities, students must earn at least 18 credit hours from the list of approved courses below and other courses as approved by the program adviser. Credits must be earned in at least three departments or curricular designations. At least nine credit hours must be upper-division (i.e., 300 or 400), and at least nine must be earned at UMKC. Students may select from among a wide variety of courses offered by many participating departments. The program adviser is available to provide academic advice on course selection and degree requirements, as well as career guidance. Students interested in the healing and humanities minor should consult with the program adviser to plan a program of study.

Approved Courses:

- American Studies 350 Medical Humanities and American Studies
- Anthropology 328 Anthropology of the Body
- Art 300CA Images of the Human Body in the Renaissance (Interdisciplinary Cluster Course)
- Art 300CH Healing and the Arts (Interdisciplinary Cluster Course)
- Art 300CM Body Images in Medicine and the Arts (Interdisciplinary Cluster Course)
- Arts and Sciences 100 (First Year Seminar, Pre-Health sections only)
- Arts and Sciences 240 Analysis of Medical Terminology
- Arts and Sciences 304CM Body Images in Medicine and the Arts (Interdisciplinary Cluster Course)
- Arts and Sciences 365P Introduction of Substance Abuse Counseling: Theory and Practice
- Arts and Sciences 420 Literature: A Healing Art
- Arts and Sciences 492 Field Practicum in Aging
- Chemistry 206 Human Nutrition
- Communication Studies 140 Principles of Communication
- Communications Studies 344 Communication in Organizational Settings
- Communication Studies 377 Interpersonal Communication
- Communications Studies 431 Colloquium in Interpersonal Dynamics: Health Communication
- Communications Studies 444WI Intercultural Communications
- Communication Studies 400CT Healing and Cultural Diversity (Interdisciplinary Cluster Course)
- Criminal Justice and Criminology 317 Policies of Drug Use and Control
- Economics 465 The Economics of Health and Medicine
- English 225 (Writing, Healing, and the Humanities sections only)
- English 300CO Issues in Death and Dying (Interdisciplinary Cluster Course)
- English 400CA Images of the Human Body in the Renaissance (Interdisciplinary Cluster Course)
- History 412B The Black Death and Late Medieval Society
- History 428A History of the Body
- History 428B Women Medicine: Patients and Practitioners from Antiquity to Present
- Humanities 408P Images of Aging in Literature
- Humanities 490P Perceptions and Images of Disabilities in Literature and Film
- Interdisciplinary Studies 350P Interdisciplinary Perspectives on Aging: Readings and Film
- Interdisciplinary Studies 401P The Natural Life Cycle
- Interdisciplinary Studies 402P Literature and Life Sciences
- Interdisciplinary Studies 403P Stages of Growth
- Interdisciplinary Studies 420P Brain and Behavior
- Medicine 418R Medicine, Literature and Law (3 credit hours applicable to minor)
- Medicine 494R Medical Humanities Selective (3 credit hours applicable to minor)
- Natural Science 430PC Biological and Ethical Issues in Aging (Interdisciplinary Cluster Course)
- Philosophy 300CK Controversy and Choice in Life and Sciences
- Philosophy 315 Logic and Methodology in the Health and Social Sciences
- Philosophy 321 Introductory Ethics
- Philosophy 334 Philosophy of Science
- Philosophy 338 Philosophy of Biology
- Philosophy 360 Current Issues in Bioethics

- Philosophy 400CO Issues in Death and Dying (Interdisciplinary Cluster Course)
- Philosophy 401PC Biological and Ethical Issues in Aging (Interdisciplinary Cluster Course)
- Psychology 215 Meditation, Self-Hypnosis, and Biofeedback
- Psychology 300CT Healing and Cultural Diversity (Interdisciplinary Cluster Course)
- Psychology 320 Ethnic and Minority Perspectives in Psychology
- Psychology 328 Psychology of Human Sexual Behavior
- Psychology 331 An Introduction to Health Psychology
- Psychology 406P Introduction to Developmental Disabilities
- Psychology 410 Abnormal Language
- Psychology 418 Biopsychology I
- Psychology 419 Biopsychology II
- Psychology 430 Introduction to Community Psychology and Community Mental Health
- Psychology 433 Abnormal Psychology
- Psychology 440 The Psychology of Aging
- Psychology 441 Adult Development and Aging
- Religious Studies 494RS Death in History of Religion
- Religious Studies 496RS The Body in the History of Religion
- Social Science 411P Aging in America: Past and Present
- Sociology 211 Social and Psychological Development through the Life Cycle
- Sociology 303CA Perspectives in Science and Healing (Interdisciplinary Cluster Course)
- Sociology 303CO Issues in Death and Dying (Interdisciplinary Cluster Course)
- Sociology 303CT Healing and Cultural Diversity (Interdisciplinary Cluster Course)
- Sociology 316 Sociology of Death and Dying
- Sociology 317 Policies of Drug Use and Control
- Sociology 328 Anthropology of the Body
- Sociology 410R Aging in Contemporary Society
- Sociology 416 Aging and Developmental Disabilities
- Sociology 417 Practicum in Aging and Developmental Disabilities
- Sociology 439 Social Meanings of Illness, Suffering and Healing
- Sociology 440R Sociology of Medicine
- Spanish 216 Spanish for the Health Sciences
- Theatre 300CH Healing and the Arts (Interdisciplinary Cluster Course)

Gerontology Minor and Certificate Programs

5215 Rockhill Road
 (816) 235-2186
<http://cas.umkc.edu/cas>

Program Director:

Linda M. Breytspraak , Director, Center on Aging Studies, (816) 235-1744

Program Adviser:

Lois Fitzpatrick , Center on Aging Studies, (816) 235-2182

An interdisciplinary gerontology minor and a gerontology certificate program are offered through The College of Arts and Sciences Continuing Education Division and the Center on Aging Studies. The minor is available to any undergraduate enrolled in a bachelor's degree program. The certificate can be completed either in conjunction with a degree program or as a free-standing credential. Students in such diverse fields as sociology, psychology, nursing, dental hygiene, pharmacy and education have completed the certificate. Students must declare their intention to pursue the certificate or minor to their adviser and to the gerontology adviser in the Center on Aging Studies. As the number and proportion of older adults in the population increases, career opportunities in a variety of arenas are on the rise.

Eighteen credit hours are required to complete the minor or certificate.

Required Courses

Sociology Core (choose one)Hours		
SOCIOL 410R	Aging in Contemporary Society	3
SOCIOL 411P	Aging in American Society: Past and Present	4
Psychology Core (choose one)		
PSYCH 440	The Psychology of Aging	3

PSYCH 441	Adult Development and Aging	3
Health/Biology Core (3 credit hours)		
NURSE 430A	The Experience of Health	
NURSE 430B	in Aging (All 3 are	
NURSE 430C	(required to satisfy core.)	3
NURSE 430PC	Biological and Ethical	
	Issues in Aging	3
Field Practicum		
A&S 492	Field Practicum in Aging	3
Elective Courses		
Electives *		6

* Six elective credit hours can be taken to complete the program. Students should contact the gerontology adviser or <http://cas.umkc.edu/cas/undergrad.htm> for a current list of courses available for elective credit.

Judaic Studies Minor and Concentration

The [Department of History](#) is a major participant in the Judaic Studies Minor and Concentration.

For a minor in Judaic Studies, students must complete a minimum of 18 hours of coursework. These courses should include:

1. History 475 History of Ancient Israel.
2. History 476 Medieval Jewish History.
3. History 477 Modern Jewish History.

In addition, students should take several semesters of Hebrew language. The remaining credits may consist of electives approved by the Interim Judaic Studies adviser.

For a concentration in Judaic Studies, a student must complete 15 hours of coursework that includes the History courses listed above. Those pursuing the concentration are also encouraged to include study of the Hebrew language.

For further information, contact Dr. Carla Klausner , Professor of History and Interim Director of Judaic Studies.

Minor in Hospitality Studies

The Minor in Hospitality Studies is not currently available.

The Hospitality Studies minor may be completed in conjunction with any undergraduate degree. Students pursuing the hospitality studies minor must take a minimum of 18 credit hours of approved coursework. A minimum of 9 credit hours must be taken at UMKC, and a minimum of 9 credit hours must be at the 300- or 400-level. The courses required for the minor are:

- ECON323P: Administration in the Service Industry (4 credit hours)
- SOC-SCI375P: Contemporary Issues in the Service Industry (4 credit hours)
- ECON423P: Legal and Social Issues of the Hospitality Industry (4 credit hours)
- SOC-SCI465P: Human Resources in the Service Industry (4 credit hours)
- Electives (to be approved by the Faculty Coordinator) (2 credit hours)

Liberal Arts

BLA Program Description

The College of Arts and Sciences offers the bachelor of liberal arts (B.L.A.) degree for individuals who seek scientific literacy, an understanding of the social sciences and an appreciation of the humanities. The B.L.A. is an alternative to the B.A./B.S. degree programs and is for individuals who do not wish to commit themselves to a specialty, whose aspirations are not served by a traditional major, and who desire maximum flexibility in course selection. Additional students who have found the B.L.A. degree particularly beneficial are those who have matriculated into the six-year medical program and pursue the combined B.L.A./M.D. degrees and those students wishing to apply to the UMKC School of Law through the Early Entry Law Program.

The B.L.A. degree can also be earned through the Program for Adult College Education, PACE. This program makes it possible for individuals with full-time work or home responsibilities to complete a baccalaureate degree in a reasonable time by attending class in the evenings and on weekends, by registering for the corresponding independent study courses, by connecting to online courses via the Internet, and through approved internships.

For a detailed description of this program, see the Program for Adult College Education (PACE) section in the program listings under the College's section of the catalog.

Potential for Graduate Study

Students completing the B.L.A. degree have the potential to pursue graduate study in many areas. One option is the master of arts in liberal studies, a master's degree similar in structure to the B.L.A., which continues the tradition of interdisciplinary work in the College at the intermediate level between baccalaureate and doctoral work. Students completing the B.L.A. degree who wish to continue their education at the graduate level are strongly encouraged to seek counsel from a graduate adviser in that discipline early in their undergraduate career.

- Bachelor of Liberal Arts
 - Program Requirements

Bachelor of Liberal Arts (B.L.A.)

Curriculum Degree Requirements

Hour Requirements and Eligibility

At least 30 hours of coursework in the arts and sciences must be earned before declaration of intent to pursue a bachelor of liberal arts (B.L.A.) degree. Additionally, at least 30 hours of coursework must be earned after declaration of intent to pursue the B.L.A.

A 2.0 GPA is required to declare intent to pursue the B.L.A. and a 2.0 overall GPA is required by the University of Missouri for graduation.

A minimum of 120 hours is required for graduation. At least 90 of these hours must be earned in the arts and sciences. At least 36 of the total hours must be at the junior/senior (300-400) level in the College of Arts and Sciences.

The credit/non-credit option is not available for students pursuing this degree.

Area Requirements and Limitations Applicable to This Degree

The B.L.A. degree is separated into three divisions:

- Humanities
- Natural Sciences/Math
- Social Sciences

At least 21 hours must be earned from each division above; however, no more than 60 hours from any one division may be applied toward the B.L.A. degree. Additionally, coursework must be taken from at least two departments in each division, with no more than 21 hours taken in any one department.

Students should note that some departments within the College of Arts and Sciences (for example, geosciences and history departments) offer coursework that can be applied to more than one division. Students should consult with an adviser in selecting coursework to ensure that they receive proper credit in the various divisions required for the degree.

Students are encouraged to identify one of the three divisions as an area of concentration up to the 60-credit-hour maximum. The curriculum of this concentration area should match the student's particular interests and should be designed in conjunction with an adviser. Additionally, students who wish to have a more specific focus within a division of the B.L.A. degree may elect to complete a minor through an academic department.

Minor Option

Students may elect to complete a minor by working with the departmental adviser corresponding to the minor selected. Students must keep in mind that the 21-hour maximum in any one department still applies to students pursuing a minor through the B.L.A. degree.

Among the minimum 21 hours in each division, the following specific requirements must be included:

Humanities Division

All students pursuing the B.L.A. degree must complete a minimum of 21 credit hours in the humanities division. A maximum of 60 credit hours from the humanities may be applied toward the B.L.A. degree. Additionally, a maximum of 21 credit hours may be taken from any one department. Students may select humanities courses from the following departments/areas:

- Architectural Studies (ENVD).
- Art and Art History.
- Communication Studies.
- English.
- Foreign Languages.
- Philosophy.
- Theatre.
- Other courses designated specifically as Humanities.

Specific requirements include:

1. ENGLISH 110 or HMNTY 105P.
 - This requirement should be taken as early as possible, preferably in the first semester of enrollment.
 - This requirement may be satisfied by scoring a 30 or higher on the English subsection of the ACT or a 690 on the verbal subsection of the SAT.
2. ENGLISH 225 or Humanities 202P. Students are encouraged to complete this requirement during their sophomore year.
3. The UMKC Written English Proficiency Test (WEPT). The WEPT is a prerequisite for all Writing Intensive courses and should be taken after a student has completed English 225 and 45 credit hours. The WEPT is also a graduation requirement for all students. Those who fail the WEPT twice must take English 299; this course, which does not count toward the degree, will satisfy the WEPT requirement for students who earn a C- or better in the course. The WEPT is given twice each semester; the dates of the test appear regularly on the academic calendar in the Schedule of Classes.
4. A Writing Intensive course. Writing Intensive courses are designated with WI or PW following the course number. Writing intensive courses should be completed during the junior or senior year and after the completion of the three requirements above.

Natural Sciences/Math Division

All students pursuing the B.L.A. degree must complete a minimum of 21 credit hours in the natural sciences/math division. A maximum of 60 credit hours from natural sciences/math may be applied toward the B.L.A. degree. Additionally, a maximum of 21 credit hours may be taken from any one department. Students may select natural science/math courses from the following departments/areas:

- Chemistry.
- Computer Science or Information Technology.

- Environmental Science.
- Geography (physical geography only, which includes: [150](#), [203](#), [215](#), [314](#), [317](#), [319](#), [335](#), [336](#), [360](#), [401](#), [402](#), [404](#), [406](#), [426](#), [430](#), [435](#), [442](#), [444](#), [448](#), or [450](#)).
- Geology.
- Mathematics.
- Physical Science.
- Physics.
- Biology.
- Other courses designated specifically as Natural Science.

Specific requirements include:

1. Mathematics (3 hours minimum). To fulfill this requirement, each student must:
 - Demonstrate mathematical competency equivalent to four units (years) of acceptable high school mathematics, beginning with Algebra I or higher; or
 - Complete Mathematics [110](#), [116](#), [120](#), [160](#) or [210](#).
2. Laboratory Science Course (4 hours minimum). At least one science course of the minimum 21 hours in this division must include a laboratory component.

Social Sciences Division

All students pursuing the B.L.A. degree must complete a minimum of 21 credit hours in the social sciences division. A maximum of 60 credit hours from the social sciences may be applied toward the B.L.A. degree. Additionally, a maximum of 21 credit hours may be taken from any one department. Students may select social science courses from the following departments/areas:

- Criminal Justice and Criminology.
- Economics.
- Geography (regional or cultural, which includes [105](#), [200](#), [202](#), [210](#), [300](#), [309](#), [311](#), [329](#), [332](#), [333](#), [340](#), [341](#), [342](#), [350](#), [351](#), [352](#), [355](#), [398](#), [403](#), [405](#), [410](#), [415](#), [435](#), [437](#), [460](#), [489](#), or [496](#) only).
- History.
- Political Science.
- Psychology.
- Sociology.
- Urban Planning and Design (UPD).
- Other courses designated specifically as Social Science.

Specific requirements include a Constitution Requirement (three hours minimum). Every student must fulfill the Missouri state requirement to take a course covering the United States Constitution and the Missouri State Constitution before graduation. Courses that satisfy this requirement are:

- History [101](#), [102](#) or [360R](#) (American History);
- Political Science [210](#) (American Government); or
- Social Science [102P](#).

Liberal Studies Program

Liberal Studies Program

Note: The Master of Liberal Studies program is not accepting any more applications for the 2009-2010 academic year.

Prof. Tom Poe

- Program Description
- Master of Arts in Liberal Studies
 - Admission to the Program
 - Requirements for Completion of the Degree
- Relationship of the MALS to Interdisciplinary Doctoral Degrees

Program Description

The master of arts in liberal studies (MALS) degree program enables mature individuals to pursue part-time, interdisciplinary studies at the graduate level without specializing in any one subject area. Offered at night and during the weekend, courses provide participants the opportunity to extend the best experiences of baccalaureate liberal education to the graduate level. Students admitted to the program will identify their own interests within the wide array of graduate courses in The College of Arts and Sciences and will plan individualized programs of study with the cooperation of the director of the program.

The end result of each participant's matriculation should be a challenging experience that samples the richness of literature, the fine arts, history and those principles of the social and natural sciences that affect our lives. UMKC is fortunate to have the additional cultural resources of a wide array of museums, libraries, archives, and special exhibits within the Kansas City area. Many of the courses available for the M.A. in liberal studies curriculum are designed to take specific advantage of these community resources.

The 21st Century: Complex Communities, Cultures and Critical Choices

The broader unifying experience of courses, offered M.A. in liberal studies participants, is the opportunity to explore some of the basic issues affecting life in modern urban America. Students explore problems such as the environment, international conflict and social problems of the modern city, topics which are not single topics of study, but intricate, complex issues. The interdisciplinary nature of the M.A. in liberal studies coursework provides the mechanism to look at these problems, and others, with a deeper understanding of exactly how contemporary problems are interrelated with one another and with past history.

Each semester, the critical choices theme is reflected through the offering of at least one of the following courses:

- A&S 5510 Methods of Inquiry: An Interdisciplinary History of the 1930s
- A&S 5511 Methods of Inquiry: An Interdisciplinary History of the 1940s
- A&S 5512 Methods of Inquiry: An Interdisciplinary History of the 1950s
- A&S 5513 Methods of Inquiry: An Interdisciplinary History of the 1960s
- A&S 5514 Critical Choices: Methods of Inquiry in Science

Each of these courses is designed to explore, in an interdisciplinary manner, interrelationships among contemporary issues and past history and influences upon contemporary decision making.

Relationship of the MALS to Interdisciplinary Doctoral Degrees

The College of Arts and Sciences has a strong tradition of interdisciplinary studies at both the baccalaureate and doctoral levels.

For the bachelor of arts and bachelor of liberal arts degrees, The College's integrated studies in the humanities curriculum (more commonly known as "cluster courses") and the Program for Adult College Education (PACE) are two programs that consist almost entirely of interdisciplinary coursework. At the advanced level of doctoral work, most of the departments in the College participate in the campus Interdisciplinary Ph.D. program, which requires studies in at least two fields.

The M.A. in liberal studies degree continues the tradition of interdisciplinary work in the college at the intermediate level between baccalaureate and doctoral work. In a few cases, students completing this degree may find the transition to doctoral work as the appropriate next step. However, students should recognize that the degree is not designed to provide students in the program with specific subject skills usually associated with targeted career objectives in traditional research areas.

Students interested in coordinating their M.A. in liberal studies coursework with future doctoral work at UMKC are strongly encouraged to make this intent known at the outset of their work. Without initial planning conducted with a committee of doctoral faculty, a student's master's coursework may not be appropriate to later doctoral studies.

Master of Liberal Studies

Admission

Note: The Master of Liberal Studies program is not accepting any more applications for the 2009-2010 academic year.

Individuals admitted to the program must have a baccalaureate or equivalent degree, and mature academic interests. A minimum undergraduate 3.0 GPA is desirable but can be offset by professional and career accomplishments outside academe. Individuals applying for admission to the program also are required to have an in-depth interview with the program director. Approval is required before any student is officially accepted into the program. The director also functions as principal graduate adviser in this program and approves each participant's individual plan of study.

Program Requirements

The degree is a 36 credit hour program. Generally, each participant's plan of study will consist of three parts; however, exceptions in the plan of study may be approved by the director to accommodate an individual's specific interests or special education or career backgrounds. The three parts of the matriculation plan include:

1. Introductory seminar, which must be completed before any other coursework.
2. The body of coursework itself.
3. A final capstone seminar, taken during the last semester.

A written thesis is not required, but individuals who wish to complete a thesis project may apply three credit hours toward their degree requirements. An individual who works well independently and who has a particular interest that lends itself to detailed research is especially encouraged to consider the thesis option. With the thesis option, the participant will select a faculty adviser other than the director of the program, who will direct the plan of study and research.

Program participants begin by enrolling in A&S 5509: Critical Choices: Methods of Inquiry into the Liberal Arts. On completion of this required three hour introductory seminar, which is described below, participants earn 30 credit hours based on an individual study plan. In advance of each semester, a list will be published of departmental courses open to M.A. in liberal studies participants and offered at night and during the weekends. Program participants are also free to enroll in any other course offered in The College of Arts and Sciences, as long as they meet the entry requirements of the instructor and the department. At the conclusion of the program, individuals enroll in a required three hour capstone seminar, A&S 5520: Critical Choices: Final Research Project and Capstone Seminar, described later.

A&S 5509 Critical Choices: Methods of Inquiry into the Liberal Arts (3 hours)

Offered each fall and spring semester, this required seminar meets four weekends throughout the semester. Team-taught by faculty from the humanities and the social and natural sciences, the class also includes guest presentations by other faculty in various fields and research librarians. The goals of the seminar are:

1. Refresh the research skills of adults who may be returning to formal classes for the first time in many years.
2. Provide an introduction to a vast array of research resources.
3. Refine writing skills.
4. Help each student define his or her area of emphasis within the program.

Sessions introduce participants to the use of the Miller Nichols Library on the main UMKC campus, as well as other area libraries, such as the Linda Hall Library of Science and Technology, the Truman Library and the Nelson-Atkins Museum of Art. The seminar also studies the different methods and research issues addressed by the humanities, sciences, and social sciences. The seminar also provides opportunity for each student to define an individual research question as a unifying theme in the selection of classes throughout his or her matriculation and as a final project to be investigated in the capstone seminar of the program, A&S 5520.

Individual Study Plans (30 hours)

A benefit of the MALS program is that it does not conform to any single fixed curriculum. Individuals develop their own plans of study in consultation with the director of the program or a graduate adviser designated by the program director. No more than three courses (9 hours) may be taken within any one department without permission of the department and the director of the program. Two courses (6 hours) may be taken from another school at the university outside of The College of Arts and Sciences. No more than 12 hours at the 400 level (or 300 level when permitted by the department) can be applied to the plan of study.

Students are free to identify their own areas of study, or to choose from among the following areas of focus:

- Black Studies
- Communication and Film Studies
- Executive Leadership
- Hospitality Studies

For students who wish to write a thesis, up to three hours may be applied toward the completion of the degree. Students are encouraged to exercise this option concurrently with the capstone seminar or soon after its completion.

A&S 5520: Critical Choices: Final Research Project and Capstone Seminar (3 hours)

This course brings together MALS participants in the last semester of their work. Each participant in the seminar defines a final project and spends a semester developing it and presenting the findings to the group at the conclusion of the course. Each project is intended to be thought-provoking, and to cut across disciplinary lines in the examination of a question relevant to the area of emphasis that the student has followed throughout the program. In addition, guest faculty representing the humanities, the social sciences, and the natural sciences help students understand how contemporary issues and problems are interrelated with one another and with past history.

Department Description

The [Department of Mathematics and Statistics](#) offers coursework leading to the bachelor of arts and bachelor of science degrees in mathematics. The graduate degrees available are the master of science degree, with concentrations in either mathematics or statistics, and the department participates in the UMKC School of Graduate Studies Interdisciplinary Ph.D. program. Qualified students can select mathematics as the coordinating unit or a co-discipline when applying for admission or preparing their plans of study. See the School of Graduate Studies section in the Graduate Catalog for more information about the Ph.D. program.

These programs are designed to develop the student's own knowledge of mathematics or statistics, and to provide the tools and understanding necessary for the study of other scientific and quantitative fields.

The Department of Mathematics and Statistics has an institutional membership in the American Mathematical Society.

Advising System

Advising is on an individual basis with senior mathematics faculty members. Appointments for advising may be made by contacting the department, the undergraduate adviser, or the principal graduate adviser.

Library Resources

In addition to the Miller Nichols Library, the department has full access to the holdings and services of the [Linda Hall Library of Science and Technology](#), a privately endowed institution of international prominence. The Linda Hall Library subscribes to more than 700 mathematics journals and maintains a large and growing collection of mathematics books.

Teacher Certification in Mathematics

Certification as a middle school (grades 5-9) or secondary school (grades 9-12) Mathematics teacher in either Kansas or Missouri requires that a student complete specific requirements both in Mathematics and in the [School of Education](#). A separate application for teacher education is required. For further information, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Interdisciplinary Ph.D. in Mathematics

UMKC offers an Interdisciplinary Ph.D. program. Students desiring to study at the doctoral level in mathematics must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific requirements appears in the School of Graduate Studies section of this catalog. For more details visit the department Web site (<http://cas.umkc.edu/math>).

Master of Science: Mathematics

Student Learning Outcomes

1. Students graduating with an M.A. or M.S. degree will, at a higher level than required for the baccalaureate degree:
 - o Have a broad understanding of several branches of mathematics and how they are related.
 - o Be able to read and/or listen to documents and discussions having mathematical content, with an appropriate level of understanding, exhibit a high level of mathematical literacy.
 - o Be able to read, write, and understand mathematical proofs, and construct mathematical proofs as appropriate.
 - o Be able to reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
 - o Be able to clearly articulate mathematical information accurately and effectively, using a form, structure and style that suit the purpose (including written and face-to-face presentation).
 - o Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.
 - o Be able to independently acquire further mathematical knowledge without guidance.
2. Students graduating with an M.A. or M.S. will be prepared for entry into professional schools, graduate programs, or the job market.

Degree Requirements

The master's program gives the student broad training in basic higher-level mathematics or statistics. A **concentration is available in either mathematics or statistics**.

At least **30 credit hours** of approved coursework in the department are required for the master's degree, and at least 18 credit hours of those must be at the 5500 level in the department. Courses numbered below 400 do not carry graduate credit for mathematics graduate students. Courses previously taken for undergraduate credit may not be credited toward a graduate degree. Independent Study courses (490 or 5590) in the department are not counted toward the degree unless approved by department graduate advisors. Prior to completing 15 hours of study, students are required to submit a Master Plan of Study to the department graduate advisor. Master's degree students are also required to attend the department Graduate Seminar at least 5 times each semester, unless other arrangements are made with a department graduate advisor.

All master's degree candidates must take **six core courses** (all at the 5500 level) in the selected concentration area. For concentration in Mathematics, those courses are MATH 5509, MATH 5513, MATH 5532, MATH 5510, MATH 5521, and MATH 5545. For concentration in Statistics, those courses are STAT 5501, STAT 5537, STAT 5551, STAT 5547, STAT 5565, and STAT 5572. For more details about the M.S. degree requirements, please refer to the departmental Web site (<http://cas.umkc.edu/math>).

Bachelor of Arts/Bachelor of Science: Mathematics

Student Learning Outcomes

Bachelor of Arts or Bachelor of Science in Mathematics

1. Students graduating with a B.A. or B.S. degree in Mathematics and Statistics will:

- Have a broad understanding of several branches of mathematics and how they are related.
- Be able to read and/or listen to documents and discussions having mathematical content, with an appropriate level of understanding, exhibit a high level of mathematical literacy.
- Be able to read, write, understand mathematical proofs and construct mathematical proofs as appropriate.
- Be able to reason with and apply mathematical concepts, principles and methods, while analyzing and evaluating problems (both theoretical and practical) and plan strategies for their solution.
- Be able to clearly articulate mathematical information accurately and effectively, using a form, structure and style that suit the purpose (including written and face-to-face presentation).
- Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.
- Be able to independently acquire further mathematical knowledge without guidance.

2. Students graduating with a baccalaureate degree in Mathematics and Statistics will be prepared for entry into professional schools, graduate programs, or the job market.

Bachelor of Arts or Bachelor of Science in Mathematics

The undergraduate curriculum in the [Department of Mathematics and Statistics](#) is comprised of courses in the broad areas of algebra, analysis, mathematics for teachers, applied mathematics and statistics.

Degree Requirements

For a bachelor's degree in mathematics, students must satisfy the general requirements of The College of Arts and Sciences and complete the program described below.

Degree requirements are MATH 210, 220 and 250, and a minimum of 21 hours of coursework in mathematics or statistics at the 300-level or above, including MATH 300, the capstone course MATH 402, and either MATH 410 or MATH 420. To obtain a bachelor's degree in Mathematics, at least four of the courses at the 300 level or above must be completed in the Department of Mathematics and Statistics at UMKC.

The bachelor of science degree in mathematics requires a minimum of 60 credit hours of combined mathematics and science coursework.

Suggested Plan of Study

Because of the diversity of acceptable programs available, a four-year plan of study is not suggested. Students are cautioned, however, that certain mathematics courses must be taken in the appropriate sequence. Students should consult with a department mathematics adviser to plan a program of study.

Minor in Mathematics

A minor in mathematics may be obtained by completing a total of 20 hours of mathematics courses at the 200-level or above, including Calculus I and II, and three courses at the 300-level or above in the department.

Military Science

Military Science

Kansas City, MO 64110-2499

Assistant Professors:

Lt. Col. (USAR) Larry G. Chipman; Lt. Col. (USAR) Mark W. Lenneville; Lt. Col. (USAR) Gerald R. Sewell; Lt. Col. (USAR) Kevin Winn; Master Sgt. (USAR) William K. Quinley; Sgt. 1st Class (USAR) Pamela Morgan

- Program Description
- Two-Year Instruction
- Financial Assistance
- Department of Military Science Curriculum
- Military Science Courses

Program Description

The Army Reserve Officers Training Corps provides college-trained officers for the U.S. Army and Army Reserve. With the exception of a five-week paid summer camp, all instruction is presented on campus. Various field training exercises are conducted to further enrich students' leadership skills.

A commission as a second lieutenant in the U.S. Army, Army Reserve or National Guard is awarded to individuals who have successfully completed the ROTC program and obtained a baccalaureate degree from UMKC. Currently, college graduates who are commissioned through ROTC are placed on either active duty, the reserves or National Guard duty, depending on their desires and on the needs of the service at the time of graduation. The length and type of obligation will depend on the scholarship awarded.

Two-Year Instruction

ROTC instruction usually is presented over the four years of traditional full-time study. This also allows commissioning at the same time graduation requirements are met. However, a two-year program is available for students who were unable to take the first two years of instruction and want to earn a commission.

Financial Assistance

Financial assistance is available through the U.S. Army Scholarship Program. Two-, three- and four-year scholarships are awarded each year to selected students who are enrolled or will enroll in the Army ROTC program. The scholarships provide payment of tuition, fees, textbooks and a monthly tax-free payment of \$200 for the duration of the scholarship, not to exceed 10 months for each year of the scholarship. These scholarships are available for both undergraduate and graduate students. Non-scholarship contracted cadets in the advanced portion of ROTC receive \$200 each month, not to exceed 10 months per year for two years. Students are furnished free textbooks for military science classes.

The Simultaneous Membership Program (SMP) allows students to be a member of a National Guard or Reserve unit while enrolled in ROTC. Advanced course SMP students receive E5 pay, plus \$200 per month from ROTC, plus any Active Duty GI Bill entitlement.

Department of Military Science Curriculum

All students are eligible to take Military Science 100- and 200-level courses without any military obligation. However, Military Science 300- and 400-level courses are reserved for students who have a signed contract with ROTC to become an officer upon graduation.

 - History (HIST)
 - Humanities (HUMN)
 - Integrated Studies (INTG)
 - Interdisciplinary Studies (INTDIS)
 - Natural Science (NATSC)
 - Philosophy (PHIL)
 - Physical Science (PHYSC)
 - Political Science (POLSC)
 - Psychology (PSYCH)
 - Social Science (SOCSC)
 - Sociology (SOCIOL)

Program Description

The Program for Adult College Education (PACE) provides an alternative for students who have difficulty pursuing a bachelor's degree due to employment, family responsibilities or other obligations. PACE provides a nontraditional method for earning a bachelor's degree through courses in a special weeknight, weekend and independent study format. PACE courses are normally presented in 12-hour blocks, arranged by theme or issue. There are also numerous Internet, web-assisted and second eight week courses.

Bachelor of Liberal Arts Degree (B.L.A.)

The B.L.A. with or without a minor/concentration is the most popular degree offered through PACE. This degree program allows enhanced flexibility in selection of academic areas of study for students whose aspirations are not served by a traditional major. Research has shown that individuals with the breadth of knowledge and skills provided by a liberal arts education are in demand by employers. The B.L.A. provides:

- Broad knowledge and understanding of the natural sciences, social sciences, arts and humanities.
- Maximum flexibility in course selection.
- Critical thinking and problem-solving abilities.
- Personal satisfaction and self-esteem.
- Multicultural issues awareness.
- Ability to adapt and work as a team.
- Increased awareness of values and ethical questions.
- Interpersonal skills.
- Written and oral communication skills.

Bachelor of Liberal Arts Degree (B.L.A.) with a Minor/Concentration Area

The B.L.A. with a minor/concentration area is designed to allow all the advantages of a liberal arts education while providing an indication of a student's special area of interest. Minors earned in conjunction with the B.L.A. are reflected on official transcripts. However, typically it is necessary for students pursuing a minor to take a required course outside of the PACE curriculum. Concentrations are informal academic designations and are not reflected on official transcripts. However, successful completion of concentration requirements is recognized by a certificate. Requirements are typically established jointly between PACE and the respective academic department within the College of Arts and Sciences. Typically, 18 credit hours are required in related interdisciplinary fields to qualify for a concentration. Some concentrations may require the combination of PACE and regular departmental coursework. The following concentration areas can be primarily obtained through PACE course offerings:

- American Studies
- Black Studies
- Chemistry
- Commercial Economics
- Communication Studies
- Computer Media & Technology
- Criminal Justice and Criminology
- Disability Studies
- Economics
- English
- Environmental Studies
- Family Studies
- History
- Political Science
- Psychology
- Sociology
- Spanish
- Visual Technology and Art Design

Bachelor of Arts or Bachelor of Science Majors and Minors in Conjunction with PACE

Students can meet B.A./B.S. general degree requirements through the PACE program and, in conjunction with designated disciplines, pursue a major or minor. Degrees associated with an academic unit's evening division are recommended for this process. Students should refer to the associated departmental requirements in the UMKC undergraduate catalog and consult a Department Advisor and a PACE Advisor.

Entry into Graduate/Professional Degree Programs and PACE

The PACE Program provides to students the ability to achieve rigorous academic preparation for graduate and professional degree programs. The B.L.A. is recognized as an appropriate degree for a number of graduate/professional programs at UMKC and elsewhere (e.g., Master of Arts in Liberal Studies, Accounting, Law, Education, Public Administration, Business Administration, Medicine and Health degrees). Many PACE students continue their studies in graduate degree programs.

Entry into Certificate Programs and PACE

PACE also participates in certificate programs such as those offered in disability studies, gerontology, substance abuse and in the degree completion program for individuals who have satisfactorily completed the Kansas City, Mo. Regional Police Academy training. UMKC grants 30 hours of elective credit toward the B.A. in criminal justice and criminology or the bachelor of liberal arts degree for completion of the academy.

PACE Academic Advising

The PACE program takes a highly personalized approach to the academic needs of nontraditional students. Students will work with an academic advisor who will assist them from admissions, through the academic process, to graduation. Students can consult the Student Services Coordinator from the PACE Office, for issues that impact their academic goals. Students wishing to combine PACE coursework with other academic programs and degrees should consult an academic adviser in the College of Arts and Sciences Advising Office or the PACE Student Services Coordinator.

 - Special Services

- Scholarly Presentations
- Undergraduate Programs
 - Bachelor of Arts: Philosophy
 - Student Learning Outcomes
 - Program Requirements
 - Minor in Philosophy
- Undergraduate Philosophy (PHILOS) Courses
- Graduate Philosophy (PHILOS) Courses

Department Description

The Department of Philosophy offers a program of study leading to the bachelor of arts degree in philosophy. Courses are offered that develop critical and analytical skills, acquaint students with the history of philosophy and apply philosophy to issues of living.

Students who major in other disciplines can gain special insight into their majors with a philosophy minor. Focused minors are available for students who major in the social and health sciences, the humanities, computer science and the performing and fine arts.

Career Implications of the Degree

The bachelor's degree in philosophy is a prerequisite for graduate work in philosophy and is also appropriate preparation for graduate work in the other humanities disciplines, as well as the social sciences. Studying philosophy as an undergraduate can also prepare one for the study of law and for any other profession requiring flexibility of thought and the ability to read and write with care.

Advising System

Although all faculty members of the department are available for student advising, the department has an undergraduate adviser to whom questions about the philosophy program should be directed.

Special Services

The Philosophy Circle is a student organization sponsoring various scholarly and social activities in the department. These activities are open to anyone interested in philosophy.

Scholarly Presentations

Many visiting philosophers present scholarly papers to the Philosophy Department during the academic year. In addition, organizations such as the Kansas City Area Philosophical Association, the Central States Philosophical Association and other professional societies occasionally meet in Kansas City. Students are cordially invited to attend these activities.

Bachelor of Arts: Philosophy

Student Learning Outcomes

Bachelor of Arts in Philosophy

Students graduating with a baccalaureate degree in philosophy will:

- Have an understanding of the central figures and themes in the history of philosophy.
- Possess the critical reasoning skills necessary to effectively analyze and critique abstract concepts and arguments.
- Be able to develop and defend philosophical arguments, both orally and in writing.
- Be able to apply critical reasoning skills in a wide range of career settings.

Degree Requirements

Philosophy majors are required to complete 30 credit hours of philosophy coursework. Required courses include:

- PHILOS 210 Foundations of Philosophy (3)
- PHILOS 222 Foundations of Logic and Scientific Method (3)
- PHILOS 310WI Ancient Philosophy (3)
- PHILOS 320WI Descartes to Hume (3)
- PHILOS 321 Ethics (3)

No more than nine credit hours of the 30 required hours may be at the 100- or 200-level. To graduate with a major in philosophy, students must pass all courses included in the 30 credit hours required for the degree with a grade of C or higher. This requirement also applies to transfer courses.

Students who intend to do graduate work in philosophy are urged to take PHILOS 423: Symbolic Logic, and to develop reading knowledge of a foreign language. In most cases, it would be best to know German or French.

Minor in Philosophy

Requirements for the Minor

Philosophy minors are required to complete a total of 18 credit hours, including PHILOS 210 or 222 (three hours), PHILOS 310WI and 320WI (six hours), and any 300- or 400-level philosophy courses (nine hours). Students must achieve a grade of C or better in a course for it to count toward the minor. Students can work with the departmental adviser to tailor focused minors that coordinate with their major.

Department Description

The Department of Physics offers programs of study leading to the bachelor of arts, bachelor of science and, with the School of Computing and Engineering, offers a 5 year course of study that results in a bachelor of science of Physics **and** a bachelor of science in Electrical & Computer Engineering. The Department of Physics also offers a master of science degree, and participates in UMKC's Interdisciplinary Ph.D. program.

To learn more about the Department of Physics, please click [here](#).

Undergraduate Admissions

Other than University of Missouri admission requirements, there are no special prerequisites for beginning either the bachelor of arts or the bachelor of science program. High-school physics and a good working knowledge of algebra and arithmetic are desirable for entering the bachelor of science program. However, any deficiencies may be overcome by taking the appropriate coursework. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor before beginning the major.

Career Implications of Bachelor's Degrees

The bachelor's degree is recommended for students interested in seeking employment in industrial, government and private organizations that require a strong scientific background.

Physics is an ideal discipline for an undergraduate degree, because students carry over the reasoning skills and problem-solving strategies developed by physics to virtually every field of endeavor.

There are job opportunities in physics for holders of degrees at all levels. With a bachelors degree, the graduate is more likely to:

- Teach science in high school rather than in a college or university.
- Engage in development or applied research rather than in basic research.
- Work in an industrial or government laboratory rather than in a fundamental research laboratory.
- Work in many other areas that use the rigorous training and problem-solving skills of a physics major.

Graduates with physics degrees who enter fields other than science and technology generally find that the rigorous training they receive in a physics program helps their career advancement.

Teacher Certification in Physics

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Physics teacher in either Kansas or Missouri requires that a student complete specific requirements in Biology, Chemistry, Environmental Science, Geology, Physics and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

The above plan of study is given only as a model. Individual programs may vary as circumstances require.

Graduate Programs

The Department of Physics offers a master of science degree with thesis and non-thesis options. The Department of Physics is an academic discipline eligible for full participation in UMKC's Interdisciplinary Ph.D. program. Qualified students can select physics as their coordinating unit or co-discipline when applying for admission or preparing their Ph. D. plan of study. (See the School of Graduate Studies section of this catalog for details about the Interdisciplinary Ph. D. program.)

For information about our undergraduate program please click [here](#).

Interdisciplinary Ph.D. Program Regulations

Regulations

The Department of Physics is a full participant in the Interdisciplinary Ph.D. Program. The doctoral studies committee of the department has the primary responsibility for administering the program within the department. The committee consists of all physics doctoral faculty members with an elected committee chairperson.

See the School of Graduate Studies section in this catalog and the departmental graduate brochure for general and discipline-specific regulations for Interdisciplinary Ph.D. study with physics as a coordinating unit discipline or co-discipline.

Master of Science: Physics

Student Learning Outcomes

Students graduating with an M.S. in physics will:

- Have an advanced knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinking skills in order to become problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Students graduating with an M.S. in physics will be prepared for entry into professional schools, graduate programs or the job market.

The Department of Physics offers a master of science degree with thesis and non-thesis options. The Department of Physics is an academic discipline eligible for full participation in UMKC's Interdisciplinary Ph.D. program. Qualified students can select physics as their coordinating unit or co-discipline when applying for admission or preparing their Ph. D. plan of study. (See the School of Graduate Studies section of this catalog for details about the Interdisciplinary Ph. D. program.)

Graduate Admissions

To be admitted to the graduate program, a student must meet the general admission requirements for the School of Graduate Studies and have undergraduate preparation in physics. An undergraduate major in physics is not required, and deficiencies in completed coursework may be overcome by taking additional undergraduate-level courses for graduate credit. Applicants are encouraged to take both the Graduate Record Examination (GRE) aptitude test and physics test. International students must take the Test of English as a Foreign Language (TOEFL). Admission will be based on academic record and other information such as letters of reference, GRE score and personal interview. See the School of Graduate Studies section in this catalog for requirements for admission to the Interdisciplinary Ph.D. program.

Career Implications of the Master's Degree

The master's degree programs in physics are intended to serve the following groups:

- Those who wish to obtain a master of science degree but do not expect to go further in graduate work.
- Those who intend to work toward a Ph.D. in physics after obtaining the M.S. degree.
- Those who wish to take graduate courses in physics as part of a program in some other discipline or for educational or professional reasons.
- Those who wish to obtain an Interdisciplinary Ph.D. degree from UMKC in two or more academic disciplines, one of which is physics.

The career implications for students with an M.S. degree in physics and seeking employment are similar to those with B. S. degrees, but they will have a more advanced standing and experience in science department activities.

A student who is entering the graduate program with the objective of earning a master of science degree will select or be assigned an adviser. This assignment should be made during the first semester, if possible. Together, the student and the adviser will work out the complete program of study for the master of science degree. Students entering UMKC's Interdisciplinary Ph.D. program, and choosing physics as one of their academic disciplines, must follow the academic regulations of the School of Graduate Studies as set forth in the School of Graduate Studies section in this

catalog. All graduate students in physics who have completed more than 6 graduate credit hours must take a departmental examination in the fall.

Scholarships, Fellowships and Assistantships

Financial support is available through fellowships, teaching assistantships, research assistantships or hourly student wages. Students wishing to be considered for an assistantship must so specify in their letters and application forms.

Description of the Program

The master of science degree may be earned by fulfilling the requirements for the master of science with thesis or the master of science without thesis. A full-time graduate student seeking a master of science degree will normally be expected to take the thesis option. The without-thesis option is mainly designed for part-time students who already have career employment.

Requirements for the M.S. Degree With Thesis

1. 30 graduate credit hours with the following constraints:
 - At least fifteen (15) hours from M.S. Core Courses;
 - At least fifteen (15) hours of M.S. Elective Courses with no more than six (6) hours from Physics 5599;
2. A comprehensive written examination covering all basic areas of undergraduate and graduate physics;
3. A satisfactory* thesis, written and defended;
4. General requirements set by the School of Graduate Studies.

Requirements for the M.S. Degree Without Thesis

1. 33 graduate credit hours with the following constraints:
 - At least fifteen (15) credit hours of core M.S. courses;
 - No more than twelve (12) credit hours of 400-level courses;
 - At least six (6) credit hours of 500-level M.S. Elective courses.
2. A comprehensive final written examination covering all areas of basic undergraduate and graduate physics.

All graduate students must maintain a grade-point average of 3.0 (A = 4.0). A student who chooses the thesis option must maintain satisfactory progress on a research project. There are no language requirements for the M.S. degree.

Graduate students should consult with the graduate adviser** prior to enrollment.

M.S. Core Courses

PHYSICS 5510: Theoretical Mechanics I
PHYSICS 5520: Electromagnetic Theory I
PHYSICS 5530: Quantum Mechanics I
PHYSICS 5540: Statistical Physics I
PHYSICS 5521: Electromagnetic Theory II
PHYSICS 5531: Quantum Mechanics II

M.S. Elective Courses

PHYSICS 5500: Methods Of Mathematical Physics I
PHYSICS 5501: Methods Of Mathematical Physics II
PHYSICS 5511: Theoretical Mechanics II
PHYSICS 5535: Optical Properties Of Matter
PHYSICS 5541: Statistical Physics II
PHYSICS 5550: Atomic And Molecular Structure
PHYSICS 5560: Nuclear Physics
PHYSICS 5570: Quantum Theory of Solids I
PHYSICS 5590: Topics In Physics

PHYSICS 5595L: Computer Interfacing Laboratory
 PHYSICS 5599: Research And Thesis
 PHYSICS 410: Thermal Physics
 PHYSICS 413: Computational Physics
 PHYSICS 420: Optics
 PHYSICS 425LW: Optics Laboratory
 PHYSICS 445 L: Modern Physics Laboratory
 PHYSICS 450: Introduction To Solid State Physics
 PHYSICS 460: Electricity And Magnetism I
 PHYSICS 461: Electricity And Magnetism II
 PHYSICS 472: Introduction To Quantum Mechanics
 PHYSICS 475 L: Nuclear Physics Laboratories
 PHYSICS 480: Electron Microscopy
 PHYSICS 481: Electron Microscopy II
 PHYSICS 482: X-Ray Analysis: Theory And Practice

*Satisfactory is determined by the students committee

**Prof. Da-Ming Zhu, Flarsheim 250K, 816-235-5326, zhud@umkc.edu

Bachelor of Science: Physics

Student Learning Outcomes

Students graduating with a baccalaureate degree in Physics will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinkingskills in order to become problem solvers.
- Be able to clearly articulate scientific information, bothorally and in writing.
- Be able to effectively use the scientific literature.

Students graduating with a baccalaureate degree in Physics will be prepared for entry into professional schools, graduate programs or the job market.

Program Requirements

The bachelor of science degree is recommended for students interested in seeking employment in industrial, government and private organizations that require a strong scientific background.

A basic knowledge of mathematics is necessary for the study of physics. The study of mathematics should begin in the freshman year.

Gen. Ed. Req. / Electives	11
Total	32

The above plan of study is given only as a model. Individual programs may vary as circumstances require.

B.A. Curriculum Requirements

Student Learning Outcomes

Students graduating with a baccalaureate degree in Physics will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinking skills in order to become problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Students graduating with a baccalaureate degree in Physics will be prepared for entry into professional schools, graduate programs or the job market.

Program Requirements

The bachelor of arts degree offers greater flexibility than either the BS or the 3/2 Physics/Engineering program since it requires a minimum of 38 credit hours of physics, in contrast to 49 for the BS. The majority of students pursuing the bachelor of arts in physics do so in preparation for a teaching career.

The B.A. degree with a major in physics must include:

1. Physics for Science and Engineering (PHYSICS 240, 250), 10 credit hours; in special cases, General Physics (PHYSICS 210, 220), 8 credit hours;
2. Advanced Physics Laboratory (PHYSICS 385L, 395L), 6 credit hours; and
3. An additional 22 credit hours in physics courses numbered 300 or above.

In addition to the above requirements, any other requirements set by The College of Arts and Sciences must be satisfied.

Physics Minor

Students majoring in other disciplines in the College of Arts and Sciences may elect to minor in physics.

A minor in physics will require a total of 20 credit hours in physics, including either Physics 210 and 220 (8 credit hours) or Physics 240 and 250 (10 credit hours), with the remaining hours from any 300- or 400-level physics courses.

3/2 Physics/Engineering

PHYSICOMP-SCI/Engineering Course of Study

Course of study for the five year combined PHYSICOMP-SCI/EE Degree

Year I

Fall Semester

MATH 210-Calculus I

COMM-ST 110-Fund. Effective Speaking and Listening

CHEM 211/211L-General Chemistry I

Humanities Requirement

Department Description

The Department of Political Science offers courses leading to the degrees of bachelor of arts and master of arts.

The undergraduate major in political science is based on the principles of a liberal arts education, with special attention devoted to philosophies, institutions, processes and behavioral aspects of politics.

Undergraduate Admissions

Students planning to major or minor in political science should declare their choice officially, and consult the department chair for program advice as early as possible.

Career Implications of the Bachelor's Degree

Political science, in addition to serving as an excellent core discipline for a liberal arts education, may also serve as vocational and professional preparation for students whose interest and abilities might lead them into the following areas:

- Law school and legal careers
- Electoral politics
- Government service
- Not-for-profit and public-interest organization employment
- Business and finance
- Teaching and research
- Public and private political research and consulting services
- Electronic and print journalism

Teacher Certification in Social Studies

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-**2234**.

Department Activities

Advising

The department chair serves as the principal undergraduate adviser and does final degree checks. However, students may choose any member of the department as their regular adviser. A faculty member other than the chair serves as principal graduate adviser.

Constitutions of the United States and Missouri

Students may fulfill the state requirement for the study of state and national constitutions by taking [Political Science 210](#), American Government. This course also counts toward the social science-area requirement within The College of Arts and Sciences curriculum.

Internships

The department has an active internship program. Information on local, regional, national and international programs of interest to undergraduates in political science is posted on departmental bulletin boards and is available from faculty members. Credit is given for successful completion of internship programs approved by the department.

Special Services

The department occasionally invites distinguished political scientists from other universities to visit UMKC to provide lectures for its students and to meet with them for questions and discussions. Additionally, when it is appropriate, public officials, civil servants, foreign officials and others active in public affairs speak to political science classes as part of the academic program.

Independent study in the form of tutorials is available in two courses: [497](#) and [498](#) (depending on student qualifications). In either case, without exception, the student must propose a topic for study, have the approval of the adviser and have the written consent of the instructor with whom the tutorial is to be taken before registration for the course. UMKC Honors Program participants may take any course in the department for honors credit by making special arrangements, involving extra work, with the instructor.

Honorary Society

A chapter of Pi Sigma Alpha, the national political science honorary society, has been active at UMKC since 1975. Each year Pi Sigma Alpha seeks to recognize the best students of politics in order to -- according to its national constitution -- "stimulate productive scholarship and intelligent interest in the subject of government."

Special Scholarships

Each year outstanding graduating seniors are selected to receive the department's highest honors, the Ruth L. Gant Memorial Scholarship and the Cornelius Roach Scholarship.

Randall L. Miller Scholarship. Established 2005 in memory of Randall Miller, this \$1,500 award will be given to students who are both citizens of Missouri and come from a household with an annual income of \$40,000 or less. Full guidelines are still being developed.

In addition, Roach Book Awards -- intended to help defray the costs of books -- are presented each semester, when resources permit, to declared political science majors who meet departmental standards of excellence.

Master of Arts: Political Science

The master of arts degree in political science offers intensive study across the range of major subfields in politics and government. Because of the breadth of its focus, the M.A. is designed as a terminal degree for most students.

Student Learning Outcomes

The master's program in political science is designed to give students a broad background in the field. In each class research and writing skills are emphasized. Students who intend to go into Ph.D. programs should choose the thesis option.

Admissions

To be admitted as a regular graduate student in political science, an applicant must have an adequate background in the social sciences. An undergraduate degree in political science is recommended but not required. The department does require applicants to have earned a 3.0 grade-point average in their last 60 credit hours of undergraduate coursework, as well as in their major field of study.

The application process is competitive. Satisfying minimum criteria does not guarantee admission to the graduate program; students are admitted according to their rank in the applicant pool and the adequacy of departmental resources. Applicants must submit:

1. A completed UMKC application for admission.
2. Official transcripts of all previous college work.
3. Scores from the Graduate Record Examination (General).
4. A letter of application to the principal master's adviser expressing personal plans and interests in graduate work in political science.
5. Two letters of recommendation from professors, employers or others qualified to assess academic potential.

All application materials should be sent to the UMKC Office of Admissions for transmittal to the Department of Political Science for an admissions decision.

Applicants whose records do not meet the requirements of undergraduate academic performance, or whose application submissions are incomplete, may be admitted as non-regular graduate students, depending on individual circumstances. Only regular graduate students may apply for the M.A. degree. Admission under any circumstances is no guarantee of retention.

Requirements for Retention

Graduate students are expected to maintain a high degree of academic excellence. After completion of nine credit hours of coursework in political science at UMKC, the academic performance and status of each student will be reviewed by the faculty and a departmental decision will be made as to retention of the student in the graduate program.

Students whose grade-point averages fall below 3.0 (B) for more than two semesters may be dropped from the program. A 3.0 grade-point average is required for graduation.

Temporary grades of "incomplete" will be granted only rarely by political science faculty, only in extraordinary circumstances beyond the control of the student, and only if there are reasonable expectations that the work can be completed. Except in thesis courses, all grades of incomplete will be automatically converted to F's after one year.

The faculty of the Department of Political Science views plagiarism and academic dishonesty as inexcusable. Any student found guilty of these will be dropped from the program.

Students also should consult the School of Graduate Studies section in this catalog for general academic regulations that apply to all graduate students at UMKC.

Requirements for Graduation

The master of arts degree in political science requires the successful completion of either of the following sets of requirements:

- Non-Thesis Option - 33 semester hours of approved coursework.
- Thesis Option - 24 semester hours of approved coursework and 6 hours of thesis (POL-SCI 5599: Research and Thesis). Students must gain permission to write a thesis. An oral defense of the thesis is required. Those who anticipate further graduate work toward the doctorate are advised to write a thesis.

All M.A. candidates must successfully complete POL-SCI 5680 (Traditions, Theories and Trends in Political Science). For a 300- or 400-level course to be accepted for graduate credit, students will be expected to do supplementary work (additional reading, projects, papers and contact hours with instructor) and to demonstrate graduate-level competency and achievement in the subject, and the students must take the course for graduate credit and complete it with a grade of B or better.

No more than nine credit hours of 300- or 400-level coursework taken for graduate credit will count toward the M.A. in political science. No course taken for undergraduate credit at UMKC may be repeated for graduate credit. In either the 30-hour thesis option or the 33-hour non-thesis option, no more than six hours of readings, independent study or directed studies credit (other than thesis hours) may be counted toward the requirements for the M.A.

No more than six hours of approved credit may be transferred from another recognized graduate school, and no more than six hours of pre-approved graduate coursework in other UMKC departments will be accepted toward the degree.

Students should consult the principal master's adviser in selecting approved courses to assure progress toward completion of the degree and to meet their needs and interests in graduate study.

Minor in Political Science

A minor in political science requires the successful completion of 18 semester hours of coursework within the discipline. At least 12 credits must be at the 300- to 400-level and at least nine must be earned at UMKC.

Bachelor of Arts: Political Science

Student Learning Outcomes

The Department strives to give students an understanding of the political process within the United States, within other political systems, and between countries and other international actors. We also attempt to develop research skills through methods courses and our Senior Seminar.

The success of the program is measured by the large number of students who go to outstanding professional and graduate schools. Additionally, we use the Major Field Exam to evaluate our program. All students write a Senior Thesis in the Senior Seminar. That thesis is presented to the rest of the department and defended before them.

Degree Requirements

The department requirement for a major is 30 hours of political science.

Required Courses

Students must take the following political science courses:

- POL-SCI 210 American Government
- POL-SCI 220 Comparative Politics
- POL-SCI 490 Senior Seminar
- or-
- POL-SCI 492WI Senior Seminar (Capstone)

At least 24 hours of political science coursework (including POL-SCI 490 or POL-SCI 492WI) must be at the 300- to 400- level, and at least 12 hours must be earned at UMKC. Students transferring from other institutions should check as soon as possible to determine which of their credits will transfer as 300- to 400-level political science courses.

A political science degree will be granted only to those who have achieved at least a 2.0 GPA in their approved departmental program.

The major in political science serves both to foster a liberal arts education and to meet a range of pre-professional educational objectives. Courses POL-SCI 210 and POL-SCI 220 should be taken as early as possible. Because there are optional ways for students to meet the remainder of the requirements for the major, students should meet with the department's undergraduate adviser to develop a program of study that suits their educational goals.

Political science majors are required to take at least one 300-400 level course in at least four of the following eight subfields. There are often changes and additions to this list, and some courses are not taught regularly. Meet with the department's undergraduate adviser for more informatio.

Approaches to the Study of Politics

- POL-SCI 303 Political Behavior
- POL-SCI 318 Political Psychology

Political Theory

- POL-SCI 301 Western Political Philosophy

- POL-SCI 317 Revolutionary Origins Of The Modern State
- POL-SCI 353 Chinese Politics
- POL-SCI 354 Politics In Russia
- POL-SCI 355 Politics In Eastern And Central Europe
- POL-SCI 357 European Politics
- POL-SCI 358 Latin American Politics
- POL-SCI 369 Politics Of The Middle East
- POL-SCI 425 Comparative Politics
- POL-SCI 428 Political Culture And Political Behavior

International Relations

- POL-SCI 306 International Relations
- POL-SCI 307 The United Nations: Politics And Economics

- POL-SCI 327 Nationalism And Ethnic Conflict
- POL-SCI 336 American Foreign Policy
- POL-SCI 435P Politics Of The Environment
- POL-SCI 432 National Security Policy
- POL-SCI 451 International Politics In Europe

American National Politics

- POL-SCI 308 Politics, Parties And Pressure Groups
- POL-SCI 309 Public Opinion And Voting Behavior
- POL-SCI 310 Parliamentary Systems
- POL-SCI 312 Mass Media And American Politics
- POL-SCI 315 Public Policy
- POL-SCI 319 Campaigns And Elections
- POL-SCI 326 Racial & Ethnic Politics
- POL-SCI 343 The Politics of Social Security
- POL-SCI 406 Presidential Politics
- POL-SCI 406P Political Leadership
- POL-SCI 407 Congressional Politics
- POL-SCI 407P Politics Of Representation
- POL-SCI 408 Judicial Politics
- POL-SCI 409 Bureaucratic Politics
- POL-SCI 409P Bureaucratic Politics

American State and Local Politics

- POL-SCI 313 Politics In The American States
- POL-SCI 314 Local Governments
- POL-SCI 328 State And Local Government
- POL-SCI 424 Urban Politics and Community Power Structures
- POL-SCI 438 Urban Politics

Study Abroad Programs, Experiential Courses and Internships

- POL-SCI 491 Internship
- Other courses specifically approved by the undergraduate adviser

Note: Courses POL-SCI 497 and POL-SCI 498 will only satisfy a subfield requirement if it is approved by the undergraduate adviser.

UMKC Pre-Law Program

The UMKC Pre-law Program is designed to help you make wise decisions about becoming a lawyer. It provides advice and information concerning the best possible path for each individual student, from the first semester of undergraduate courses to admission into law school.

The first thing to note about joining the Program is that it is not a major. There is no one major that prepares you for law school. In fact, there are over 30 majors at UMKC that a student may choose from and be on track for entrance into law school.

To garner the skills necessary for success, the pre-law student should select a curriculum that hones and develops superior writing skills, along with excellent oral communication, logical reasoning, and critical reading skills.

It is not enough, however, to be prepared for the academic rigors of law school. You'll want to ask yourself the following questions:

- Do you really want to become a lawyer?
- What law schools should you apply to?
- What does it mean to be a lawyer?
- What area of the law do you want to practice in?
- What are the alternative careers available to someone with a law degree?

When you have made the decision to pursue acceptance into law school, you'll need details on how to go about successfully presenting yourself to the admissions committee in your application. The Program provides answers to the following questions:

- What do you need to do to apply to law school?
- What do you need to do to succeed in law school?
- How can you afford law school?

90+ Program

UMKC's School of Law and The College of Arts and Sciences offer the motivated student a faster track to a legal education. While an undergraduate degree is usually a requirement for admission into law school, UMKC offers students the opportunity to start law school after completing as little as 90 undergraduate credit hours. Students then complete their undergraduate degree with law school credits. By overlapping credits, students can shorten the length of time necessary for completing their education by as much as one year.

90+ Participation

A student's first 30 hours at UMKC's School of Law may fulfill as many as 30 credit hours of non-Arts and Sciences electives towards an undergraduate degree. Therefore, if a student completes all of the general education, major, and upper-level requirements, leaving only elective credits to receive an undergraduate degree, the student may apply to the law school at UMKC.

If accepted, the student can start law school without having actually received an undergraduate bachelor's degree. The student will receive the undergraduate degree after earning the requisite amount of law school credits necessary to fulfill the remaining amount of undergraduate elective credits (up to 30 hours).

Any student who is pursuing a degree in The College of Arts and Sciences may participate. The 90+ program does not guarantee admission into UMKC's School of Law. Participants must apply and otherwise qualify for law school admission by having a competitive undergraduate GPA and LSAT score.

Road to Admission

Any interested student should meet early and often with the pre-law advisor. Given the number of requirements that must be satisfied in such a short period of time, potential 90+ students must monitor their progress with great care.

There are a number of necessary tasks to be completed by the student in order to qualify for the 90+ Program:

- The final 30 hours prior to enrolling in UMKC's School of Law must be from courses in UMKC's College of Arts and Sciences.
- Requirements to be completed prior to enrollment at UMKC's School of Law:
 - All general education requirements
 - All major requirements (and those for a minor if student chooses to complete a minor)
 - 36 hours of junior/senior (300/400-level) coursework
- Application for Graduation: After earning approximately 60-75 credit hours, the interested student should apply for graduation in the Arts and Sciences Advising Office (Scofield Room 9). Students should note on the application for graduation that they are 90+ Program candidates. As part of the graduation process, the student must schedule an audit with her/his major/minor advisors after applying for graduation. A general education audit will also be done, requiring the student to meet again with an advisor in the A&S Advising Office. The audit should be completed by the end of the fall semester prior to starting law school.

Students that are able to finish any necessary requirements prior to enrollment at the School of Law are encouraged to create a plan with the pre-law advisor directly after all audits are complete.

- Letter of Interest: After applying for graduation and completing the audit, the student must contact the pre-law advisor to arrange to have a letter sent to UMKC's School of Law stating that there is a plan in place that will allow the student to complete all requirements prior to enrolling in the law school the following fall. The advisor will send the letter after the meeting, if it is evident that the student has established a workable plan to finish the requirements, and the student has begun the required parts of the application to the law school. This process should be completed as early as possible during the student's last year of undergraduate study.

UMKC College Mock Trial Program

The UMKC College Mock Trial program is a member of the American Mock Trial Association (AMTA). At the beginning of every school year, AMTA provides a case which is available to all members on its website. Using the case materials and the various rules of evidence and procedure (based on the rules that govern practice in United States federal courts), the student teams of 6-8 present the case in front of judges in competitions against teams from around the Midwest, as well as the entire nation. Students can participate either as attorneys, witnesses, or both.

Mock Trial is an excellent activity for those students who are considering attending law school for several reasons. First, it provides the student with a taste of one aspect of being a lawyer: trial litigation. While the mock trials are not perfect replicas of a real-world trial, they are structured in the same format and they do call upon the same skills that a real trial lawyer needs to succeed. The experience can prove valuable in that it can help students decide if they really want to attend law school and go on to practice law. Moreover, mock trial helps the student develop those skills that make trial lawyers successful, such as:

- Superior oral communication skills
- The ability to quickly develop and articulate a logical, persuasive argument
- An understanding of the rules of evidence

Of course, the UMKC College Mock Trial program is not just for pre-law students. The oral communication and logical reasoning skills that are honed in mock trial will benefit all students, regardless of their intended vocation. Doctors, politicians, business persons, pharmacists, teachers, accountants, and just about every other potential profession rely to some degree on these skills.

Requirements for Joining the Team

Participation is only open to current UMKC undergraduate students who do not have a prior graduate or professional degree or prior UMKC students who have graduated within 120 days of the tournament. This is an official AMTA requirement.

Students interested in becoming members of the program should contact the coach, Derek Moorhead, at derekmoorhead@msn.com.

Department Description

The Department of Psychology is focused on behavioral science contributions to health and healthcare. Our faculty members are national and international leaders in research on areas such as HIV/AIDS, tobacco use, obesity and eating disorders, cancer, neuropsychological functioning, safety and violence and community factors in health. We have strong and active collaborations with important community partners such as Saint Luke's Hospital, the Cancer Institute, Mid America Heart Institute, the Kansas City Free Health Clinic, University of Kansas Medical Center and Truman Medical Center. At the undergraduate level, the department offers a general program of study leading to the bachelor of arts degree in psychology. A psychology minor is available to students majoring in other disciplines. Graduate programs are also offered by the Department of Psychology. See the "Degree Programs" link at the Department of Psychology Web site, <http://cas.umkc.edu/psyc>, for information on current graduate degree offerings.

Career Implications of the Degree

Psychology is a broad discipline incorporating material from the natural sciences, other social sciences and the humanities. The study of psychology entails an examination of the human condition that is relevant to a wide range of occupations. A psychology major serves as the basis for an excellent liberal arts education and also serves as an excellent introduction to the world of scientific inquiry. Psychology students learn about the important concepts that underlie current scientific thought and they receive training in the application of psychological research methods.

The educational background obtained by a student majoring in psychology will prove useful in a variety of professional settings and will provide adequate preparation for entry-level positions in a variety of fields. Graduates with bachelor's degrees in psychology have established careers in such diverse areas as:

- Business and industry
- Child care
- General healthcare
- Gerontology
- Mental health services
- Probation and parole
- Public relations and marketing
- Research or laboratory assisting
- Services for the developmentally disabled
- Social services

For students interested in pursuing a career in the field of psychology, a psychology major is clearly a logical beginning. There are positions available to job candidates with bachelor's degrees in psychology; however, most professional opportunities in psychology require advanced degrees (i.e., master's, doctorate). Students who want to pursue a career in psychology are advised to prepare for graduate study. The psychology major at UMKC offers a solid educational foundation for students who plan to work toward advanced degrees in the field.

Department Activities

Bernard Lubin Memorial Speaker Series

This speaker series is sponsored by UMKC's Department of Psychology and is named in memory of Dr. Bernard Lubin, Curator's Professor Emeritus, to honor his contributions and dedication to the field of psychology. To learn about scheduled speaker events, see http://cas.umkc.edu/psyc/News_Events.asp.

Honor Society

The department has a chapter of Psi Chi, the national honor society in psychology. Each year Psi Chi presents a variety of educational and social programs. Membership is open to students at both undergraduate and graduate levels. Regular meetings are held throughout the academic year. For more information, see the Psi Chi Web site at <http://cas.umkc.edu/psyc/psichi/index.htm>.

Psychology Activity Committee

The focus of the Psychology Activity Committee (PAC) is to coordinate graduate student and student-faculty social events, enhance communication between the members of various graduate programs in the department, and coordinate educational events to support the professional development of students in the graduate programs. The committee and the events planned are open to graduate students within the Department of Psychology.

Advising System

For Undergraduate Psychology Program information, please contact the Psychology Advising Office at umkcpuga@umkc.edu (816) 235-1092.

For UMKC College of Arts & Sciences general education requirements, please contact the College of Arts & Sciences Advising Office directly at (816) 235-1148.

See the psychology advising Web site, <http://cas.umkc.edu/psyc/undergrad/advising.htm>, for more information.

Financial Aid

Part-time graduate teaching and research assistantship positions are available in the department. Students interested in GTA/ GRA positions should contact the department chair. In addition, information is available about positions in the community in areas related to psychology.

Doctor of Philosophy: Clinical Program (Health Emphasis)

Contact Person:

Cathy Rawlings 

<http://cas.umkc.edu/psyc/GCPhD.asp>

Note: The information on the Department of Psychology web pages (link above) supersedes information in this Department of Psychology catalog section, as the catalog is updated only once per year.

The Psychology Ph.D. is a full-time, day-time clinical program of graduate study that provides professional education in the entry-level science and practice of clinical psychology. Within this broader context, the program also integrates clinical and epidemiological research with the health and life sciences, providing science-practice training in clinical health psychology. Based on a scientist-practitioner model, the program seeks to:

- Enhance the public health, broadly defined, through rigorous training of students (education mission).
- Provide an accessible resource for the integration of behavioral sciences and health research and healthcare (service mission).
- Develop knowledge and enhance health outcomes through empirical research (research and evaluation mission).
- Incorporate integrity and respect for human and intellectual diversity in all our activities (human mission).

The program's clinical training and services are grounded in a commitment to the integration of science and practice. Program faculty and students are actively involved in community and healthcare systems to promote a high quality of life for all.

* UMKC also offers a Ph.D. in Counseling Psychology through the School of Education. For information on that program, please see <http://education.umkc.edu/CEP>.

Interdisciplinary Doctor of Philosophy: Non-clinical Health Psychology

Minimum degree program requirements for the Interdisciplinary Ph.D. program and discipline-specific requirements for psychology are provided in School of Graduate Studies section of the catalog. A complete description of the program, the admissions policies, and curriculum are provided on the Department of Psychology Web site (<http://cas.umkc.edu/psyc>).

Master of Arts: Psychology

Program Description

Director:

Lisa Terre  

Please visit the Department of Psychology website for application and deadline information for this program at www.umkc.edu/psychology

The master of arts in psychology program prepares students for careers that require the application of psychological principles to the workplace or community settings. The program involves training in theory, research design and statistics, and the application of principles to real world situations. The program provides advanced training both for recent graduates and for individuals who have been in the work force for a number of years. Although some students subsequently enter doctoral programs and complete Ph.D.s, many immediately accept challenging jobs in the public, private or non-profit sector. Students may complete the program on a full- or part-time basis, however to ensure the timeliness of training, all program requirements must be completed within five years from admission. There are two program concentrations reflecting the strengths of our faculty:

- Health Psychology
- Quantitative Methods and Research Design

Both concentrations offer thesis and non-thesis options. The program is research oriented and provides many opportunities to gain valuable experience in conducting research and includes experimental studies working with human participants in a variety of areas. See faculty interests and on-going projects on the departmental home page www.umkc.edu/psychology.

Potential applicants should be aware that the psychology M.A. is not designed to prepare students for professional practice as a psychologist. Further, completion of an M.A. in Health Psychology is not adequate preparation for either the practice of psychology or use of the term "psychologist," both of which are regulated by state statute. Students interested in the practice of psychology should consider the Clinical Psychology Ph.D. program described under the Department of Psychology listing.

Student Learning Outcomes

Master of Arts Program in Health Psychology

By the end of the M.A. program in health psychology, students will demonstrate that they can:

1. Apply theoretical principles from psychology to the development of prevention interventions aimed at a range of health-related problems.
2. Summarize and critique the psychology literature, particularly within the field of health psychology.
3. Design empirical studies which allow for the testing of a health psychology hypothesis.
4. Demonstrate knowledge of the range of univariate and multivariate statistical techniques that are used within the field of health psychology.
5. Communicate both orally and in writing at a level that is appropriate for professionals in either the applied or academic health psychology field.

Master of Arts Program in Quantitative Psychology

By the end of the M.A. program in quantitative psychology, students will demonstrate that they can:

1. Summarize and critique the psychology literature, particularly within their chosen area of specialization.
2. Demonstrate their understanding of the range of experimental and non-experimental research designs used in psychological research.
3. Develop research instruments and demonstrate their psychometric properties.
4. Demonstrate knowledge of the range of univariate and multivariate statistical techniques that are used in psychology.
5. Communicate both orally and in writing at a level that is appropriate for professionals in either their chosen area of area of concentration.

Thesis Option:

Those students who hope to pursue additional graduate training (i.e., Ph.D.) are strongly encouraged to select the thesis option. Students who select this option work closely with their M.A. thesis adviser to develop an empirical project, which is evaluated and approved by a committee chosen by the student and his/her adviser. Students are expected to work independently during all aspects of the thesis, including design, data collection, analysis, and write-up. A final report is written by the student, approved by the thesis committee, and submitted to the Graduate School for credit towards the master's degree. The thesis must fulfill the requirements of the School of Graduate Studies, described in the Graduate Catalog. A minimum of 36 credit hours are required, including six hours of supervised research (Psych 5590).

Non-Thesis Option:

Those students who seek to immediately apply their skills in work settings and do not plan to pursue additional graduate training (i.e., Ph.D.) are encouraged to select the non-thesis option. A minimum of 36 credit hours are required, including six hours of supervised research (Psych 5590) resulting in an independent project.

Suggested Plan of Study

Concentration in Quantitative Methods/Research Design

The Quantitative Methods/Research Design concentration is designed for students who seek rigorous training in research design and statistical analysis. Acquiring skills in these areas will prepare students for additional graduate training as well as for immediate application in a work setting. Quantitatively skilled professionals are employed in a variety of settings including: university departments such as psychology, marketing, management, education, medical and biological research programs, personnel management programs, government, industry, market research firms, large-scale mental testing corporations, software development companies and consulting firms.

One key component of training is six credit hours of research and thesis (thesis option) or directed research (non-thesis option) in which students will, under the direct supervision of faculty, apply the skills they have learned in the classroom to real-world problems and research questions. With the support of their faculty mentor, students in the non-thesis option can collaborate with other professionals outside of the department.

Quantitative Methods/Research Design

Thesis Option:Hours

PSYCH 5516	Advanced Quantitative Methods	3
PSYCH 5517	Multiple Regression and Multivariate Analysis	3
PSYCH 5538	Development and Evaluation of Assessment Tools	3
PSYCH 5601	Experimental Methods in Design and Analysis I	3

PSYCH 5590	Directed Research	6
Psychology Electives*		9
Electives**		6

Total36

* Psychology electives must be 5500 level or above, unless prior written approval is obtained from your psychology adviser and the course instructor. Documentation of completion of additional work in undergraduate courses must be filed with the department in order to obtain graduate credit.

** Courses at the 5500 level or above from other UMKC departments may be used to fulfill these requirements; however, prior written approval from your psychology adviser is required.

Concentration in Health Psychology

The Health Psychology concentration offers students the opportunity to develop an understanding of the impact of behavioral, biological, cognitive, environmental and social variables on mental and physical health. Drawing on the research strengths of our faculty, the concentration is particularly appropriate for students who need advanced work to strengthen their profiles in preparation for application to Ph.D. programs, or for those who wish to explore graduate-level work before making a commitment to Ph.D. training. Students take core classes in the major areas of Health Psychology and can develop expertise in a chosen area via additional course selections and research.

Potential applicants should be aware that the Psychology M.A. is not designed to prepare students for professional practice as a psychologist. Further, completion of an M.A. in Health Psychology is not adequate preparation for either the practice of psychology or use of the term "psychologist," both of which are regulated by state statute. Students interested in the practice of psychology should consider the Clinical Psychology Ph.D. program described under the Department of Psychology listing.

Requirements for Retention

A detailed list of requirements for retention can be found in the Master of Arts section in the Psychology Degree Program handbook.

Doctor of Philosophy: Clinical Psychology

Student Learning Outcomes

Students completing the Clinical Psychology (Health Emphasis) Ph.D. Program will demonstrate:

1. Competence in the evaluation, conduct, and dissemination of research.
2. Entry-level skill in the delivery of empirically-supported clinical services, including science-practice integration in assessment, treatments, and preventive interventions.
3. Ethical conduct and high professional standards in research and clinical situations, including sensitivity to issues of diversity in research and practice.
4. Knowledge in the theoretical and scientific foundations of clinical health psychology and skill in clinical health psychology research and evidence-based, entry-level practice, as it is integrated within the broader context of clinical psychology.
5. Understanding of the breadth areas of scientific psychology and their application to clinical and clinical health psychology.

Admission Criteria

The program is designed for applicants with a prior bachelor's or master's level degree. New students are admitted in fall semester only. Because the program receives applications from many more qualified individuals than can be admitted, admission is competitive (see links to detailed information below). All application materials must be *received by Jan. 15* to be considered for admission the following fall. [Visit the Clinical Psychology program Web page for current application procedures and links to other helpful application resources.](#)

The following are minimum criteria recommended for admission:

1. A bachelor's degree in Psychology, Counseling, Special Education or other health-related discipline such as Pre-Med or Nursing. Satisfactory completion of prior coursework in Introductory/General Psychology, Experimental Methods/Research Design and Statistics/Quantitative Methods is required. Satisfactory completion of prior coursework in at least two of the following areas is also strongly recommended: Abnormal Psychology, Personality, Biopsychology, Sensation and Perception, Cognitive Psychology, Motivation, Social Psychology.
2. Undergraduate GPA of 3.0 or graduate GPA of 3.5. Alternative criteria may be accepted at the discretion of the admissions committee if there is good reason to believe the regular criteria do not adequately portray the student's potential to do quality work in the program. However, admission to the program is highly competitive, and we seek to admit students with a general history of excellence. A disclosure of the average GPA of [students recently admitted](#) to the program can be accessed through the program Web page.
3. Competitive Graduate Record Examination scores from the general test (GRE Math + Verbal greater than 1100; Analytical Writing score of at least 4.5). Students whose scores fall below this recommended minimum may present additional evidence of their capacity to do quality doctoral-level work. Such additional evidence will be considered and accepted at the discretion of the Clinical Admissions Committee. A disclosure of the GRE scores of [students recently admitted](#) to the program can be accessed through the program Web page.
4. Demonstrated evidence of interest in clinical health research. [The program follows a mentorship model.](#) Therefore, applicants whose research interests are similar to those of the faculty will be given higher consideration. A listing of program faculty interests and research can be accessed through the [Clinical Psychology program Web page](#).
5. History of personal conduct consistent with the ability to adhere to high standards of student conduct, as outlined in the UMKC Standard for Student Conduct, and professional conduct as outlined by the [American Psychological Association](#) and state licensure boards.

Because clinical and health psychology are empirically-based disciplines, the program emphasizes continuous involvement in research and practice. For this reason, *students primarily interested in psychotherapy and clinical or counseling practice without a strong interest in the scientific aspect of the scientist/practitioner model would be better served by other programs.*

The program typically accepts four students each year. Applicants are evaluated based on the following dimensions:

1. Academic potential
2. Research potential
3. Interpersonal skills and other indications of potential for clinical work
4. Professional identity and involvement
5. Evidence of high ethical standards

The program follows the [American Psychological Association Guidelines for Graduate School Offers and Acceptances](#).

Admission Procedure

New students are admitted in fall semester only. Because the program receives applications from many more qualified individuals than can be admitted, admission into the program is highly competitive. A disclosure of relevant data [for students recently admitted](#) to the program can be accessed through the program Web page. All application materials must be received by January 15th to be considered for admission in the following fall. Please see the [Clinical Psychology program webpage](#) for current application procedures.

The program follows the [American Psychological Association Guidelines for Graduate School Offers and Acceptances](#).

Requirements for Retention

A detailed description of program policies and procedures, including the requirements for retention, is available in the student handbook which can be accessed through the [Clinical Psychology program webpage](#).

The following represents the program's core curriculum.

First Year

Fall Semester	Hours
PSYCH 5509 Assessment I: Intellectual & Cognitive Assessment	3
PSYCH 5516 Quantitative Analysis I: Regression & Analysis of Variance	3
PSYCH 5533 Psychopathology	3
PSYCH 5625 Evidenced based Clinical Practice	
-or-	
PSYCH 5632 Health Psychology Interventions	3
PSYCH 5590 Directed Research	
-or-	
PSYCH 5599 Thesis(1)	1
Total Hours	13

Spring Semester	Hours
PSYCH 5510 Assessment Methods in Professional Counseling	3
PSYCH 5517 Quantitative Analysis II: Advanced Topics in Regression & Multivariate Data Analysis	3
PSYCH 5580 Intro to Clinical Skills	3
PSYCH 5590 Directed Research

Spring SemesterHours

PSYCH 0000 Core Psychology (4) or Special
Topics in Health Psychology 3
PSYCH 5650 Clinical Practicum 1
PSYCH 5696 Pre-Dissertation(5) 2

Total Hours 6

Summer Term Hours

PSYCH 5650 Clinical Practicum(optional)(2) 1

Fourth Year

Fall Semester Hours

PSYCH 0000 Core Psychology (4) 3
PSYCH 5650 Clinical Practicum 1
PSYCH 5699 Research & Dissertation (5) 2

Total Hours 6

Spring SemesterHours

PSYCH 0000 Core Psychology (4) 3
PSYCH 5650 Clinical Practicum 1
PSYCH 5699 Research & Dissertation(5) 2

Total Hours 6

Fifth Year

Fall Semester Hours

PSYCH 5660	Clinical Health Psychology Internship (6)	1
PSYCH 5699	Research & Dissertation(7)	1
Total Hours		2

Spring SemesterHours

PSYCH 5660	Clinical Health Psychology Internship (6)	1
PSYCH 5699	Research & Dissertation(7)	1
Total Hours		2

Core Psychology = PSYCH 5521 Advanced Social; PSYCH 5507 Cognitive Psychology OR PSYCH 5505 Motivation; PSYCH 5518 Advanced Biopsychology; PSYCH 5515 Advanced Systems and History of Psychology; Developmental Requirement (e.g., PSYCH 5522 Contemporary Issues in Developmental Psychology; PSYCH 5543 Adult Development/Aging)

Note: This represents the currently recommended sequencing of courses. Students may be allowed to alter this sequencing, with prior approval of the faculty adviser and DCT. This sequencing is also subject to change based on course availability in a given semester as determined by the program.

(1) Students are required to officially enroll in and accumulate 6 hours of research credit over their first 2 years in the program (6 credit hours of graduate level research credit are required to receive the M.A.). If the master's thesis project has been waived or completed, **formal enrollment in directed research still is required**. It is expected that all students will be actively involved in research and evaluated on their research performance every fall and spring semester. Students who have had the M.A. requirement waived need only take 1 credit hour of research in each semester of the second year. However, students will still need to accumulate the additional 8 research credit hours required over and above the master's thesis requirement to reach the graduate school of 12 research credit hours for the Ph.D.

(2) The program requires that students enroll in practicum each regular fall and spring semester of the second, third, and fourth years. Students may complete additional clinical hours in summer practicum to improve their competitiveness for internships. Official enrollment is optional, although documentation of supervised hours is required for those to be included.

(3) Evidenced Based Clinical Practice and Health Psychology Interventions are both required, however, these courses will be offered in alternate years.

(4) There are 5 core course requirements (see list at the bottom of the core curriculum). In some areas (e.g. Developmental) alternative courses may be used to fulfill the requirement.

(5) The School of Graduate Studies requires at least 12 hours of graduate research credit to graduate with a Ph.D. Our program requires a total of 8 research credit hours (pre-dissertation and dissertation) beyond the 6 required for the master's thesis for graduation. You may accumulate these hours in any way you wish as long as you complete the additional 8 hours prior to graduation. However, you must **first pass comps** before enrolling in dissertation units.

(6) Due to variable internship start and end dates you may only officially complete your internship after the end of the spring semester. In these cases an incomplete grade will be given until official completion of the internship. Note that the university generally requires students to be enrolled in the semester that they graduate. However, providing all other program requirements have been completed by the end of the spring semester (such as the dissertation) the DCT will request that summer enrollment be waived for students graduation in the summer. If all other requirements are not completed you will be required to enroll in at least one credit hour (for example, if your dissertation is not yet defended you will enroll in 1 credit of research for the summer semester.

(7) Students who defend their dissertations prior to the fifth year do not register for continuing dissertation hours. Students, fifth year or beyond, who have not successfully defended the dissertation are required to enroll in 1 credit hour of Dissertation each fall and spring semester until it is completed.

Bachelor of Arts: Psychology

For questions regarding the Undergraduate Psychology Program, or to schedule an appointment with a Psychology Adviser, please contact the Psychology Advising Office at umkcpuga@umkc.edu or (816) 235-1092. If the advisers are unavailable, please contact the Department of Psychology Office (816) 235-1318 to schedule an appointment with a Psychology Adviser.

The Undergraduate Psychology Program is designed to provide majors with a base of scientific knowledge in psychology, as well as a broad background in the field for students who want to pursue graduate study.

See <http://cas.umkc.edu/psyc/undergrad/advising.htm> for more information.

Student Learning Outcomes

Students graduating with a B.A. in Psychology will:

- Possess a fundamental understanding of the theories, methods and concepts of psychology.
- Comprehend the value of the scientific method for understanding human behavior and solving social and behavioral problems.
- Develop a life-long learning orientation, including critical thinking and reasoning skills.
- Be prepared for highly competitive post-baccalaureate academic programs as well as post-graduation employment throughout the state, region and nation.

Program Requirements

Majors are required to complete a minimum of 31 hours of coursework in psychology. Of the 31 hours of required coursework in psychology, a minimum of 22 hours must be completed at UMKC. The major is comprised of general, core area and elective courses.

General Courses (13 hours)

Students must complete the following four general courses:

1. PSYCH 210 General Psychology
2. PSYCH 316 Quantitative Methods in Psychology
3. PSYCH 302WI Experimental Psychology -and-
4. PSYCH 415 History and Systems of Psychology

Note: PSYCH 316, 302WI and 415 must be completed at UMKC.

Core Area and Elective Courses (18 hours)

The remaining hours comprise a minimum of four core area courses and two 300-400 level elective courses. A minimum of one course must be taken from each core area.

Students may transfer core areas and/or psychology electives approved by the Department of Psychology. However, a minimum of 22 credit hours must be taken from the Department of Psychology at UMKC.

Core Area A:

- PSYCH 312 Social Psychology -or-
- PSYCH 322 Child Psychology

Core Area B:

- PSYCH 323 Theory and Methods of Personality -or-

- PSYCH 433 Abnormal Psychology

Core Area C:

- PSYCH 308 Sensation and Perception -or-
- PSYCH 418 Biopsychology

Core Area D:

- PSYCH 304 Learning -or-
- PSYCH 405 Motivation -or-
- PSYCH 407 Cognitive Psychology

Two Elective Courses:

A minimum of two (300-400 level) elective courses in psychology must be selected. See <http://cas.umkc.edu/psyc/undergrad/advising.htm>, for a complete list of undergraduate psychology courses that may serve as these electives. A maximum of 3 credit hours for Psychology 490, Directed Research, may be used toward fulfilling elective requirement.

Music Therapy/Psychology Double Majors

For students double-majoring in Music Therapy and Psychology:

- CONS 260 Clinical Foundations of Music Therapy
can fulfill one of the two required psychology elective courses.
- CONS 435 Psychological Foundations of Music
can fulfill either the third or fourth core area course.

Other Requirements

A grade of "C-" or higher must be achieved for any course to apply toward the major in psychology. When you have completed 90 credit hours, contact Arts and Sciences Advising (Scofield Hall, room 9) to conduct a senior audit. They will give you the materials you need for the psychology audit (completed at Psychology Advising, 4825 Troost, suite 110).

Completion of PSYCH 316 at Another Institution

If a student has completed PSYCH 316 at another institution, with a C- or better, he/she may petition to take an exam demonstrating mastery of PSYCH 316 course content. A score of 70 percent or above must be earned on the exam. The exam may only be attempted once. See a Psychology Adviser for more information.

Psychology Minor/Double Major

Eighteen hours of coursework in psychology are required for a psychology minor with at least 12 of those hours at the upper-division level. Of the 18 hours of required coursework in psychology, a minimum of nine hours must be completed at UMKC. An additional two (300/400-level) elective courses are required and must be selected from courses taught in the Department of Psychology at UMKC. A grade of "C-" or higher must be achieved for any course to apply toward the minor in psychology.

The following are required of all psychology majors and minors:

- PSYCH 210 General Psychology (3)
- PSYCH 302WI Experimental Psychology (4)
- PSYCH 316 Quantitative Methods In Psychology (3)
- PSYCH 415 History And Systems Of Psychology (3)

Note: PSYCH 302WI, 316 and 415 must be completed at UMKC.

Conservatory of Music and Dance students in the bachelor of arts in music with a music therapy emphasis program who also want to major in psychology may apply up to six hours of courses taken in the Conservatory toward the psychology major. Specifically, CONSVTY 260, Clinical Foundations of Music Therapy, can be counted as one of the two required electives; and CONSVTY 435, Psychological Foundations of Music, may fulfill core area C or D (308/418 or 304/405/450).

Suggested Plan of Study

Before beginning a psychology major or minor, students should meet with a Psychology Adviser as the choice of electives strongly depends on students' educational and career intentions.

In general, students should complete PSYCH 316 and 302WI as early as possible. PSYCH 415 is to be taken during the senior year.

For students planning to attend graduate school in psychology, it is also desirable to complete a directed individual research course (PSYCH 490) well before graduation. Students wishing to take PSYCH 490 must contact a professor who will agree to supervise their work. Together they will discuss the possibility of doing research in an area of mutual interest. Additionally, students must complete a PSYCH 490 application prior to course registration. PSYCH 490 must be taken with a full-time faculty member.

Recommended Plan of Study

PSYCH 210 General Psychology must be completed prior to enrollment in upper division (300 - 400 level) courses. The department recommends completing this course as part of the General Education requirements.

Semester 1:

- PSYCH 316 Quantitative Methods in Psychology
- One Core Area A or B Course*

Semester 2:

- PSYCH 302WI Experimental Psychology
- One Core Area A or B Course*

Semester 3:

- Two Core Area C and D Courses*

Semester 4:

- PSYCH 415 History and Systems of Psychology
- Required Psychology Elective 1
- Required Psychology Elective 2

* The plan of study requires a minimum of one course from each of the four Core Areas.

General Advice for Developing a Plan of Study

Note that the Department of Psychology varies course offerings each semester. Not all courses are offered every year. Students with the required prerequisite courses who are interested in a particular elective or core area course should enroll when it is offered.

Do not plan to complete coursework by taking courses during the summer. The department usually offers some courses during the summer term, but doesn't guarantee that all required courses will be offered.

Make sure the pre-requisites for courses are met prior to enrollment. Students who do not meet course pre-requisites

will be asked to drop from the course during the first week of the term. At that time alternative courses may no longer be open.

Description of Program

The Center for Religious Studies (http://cas.umkc.edu/religious_studies) offers an interdisciplinary, cross-cultural and socio-historical approach to the study of religion. The Center is a consortium of several area institutions of higher education that have pooled their resources to participate in the UMKC Interdisciplinary Ph.D. program. Students in religious studies are introduced to the many dimensions of religious belief, practice and expression found in human cultures across time and space.

In addition to graduate courses, the Center offers a number of undergraduate courses on topics such as gender and religion, women and religion, the anthropology of religion, religion in America, and immigration and religion. Related courses relevant to the study of religion will be found under the listings of other departments and programs.

Department Description

The School of Social Work offers a program of study leading to the master's in social work degree and a professional career in social work. Started in 1999, the M.S.W. program is the result of collaborative efforts by the University of Missouri System, UMKC and many social service agencies in the Kansas City metropolitan area. The M.S.W. program received initial accreditation in May, 2003 with reaffirmation of accreditation granted in 2007.

The mission of the UMKC M.S.W. program is the preparation of competent professionals for advanced generalist social work practice in the urban environment. The M.S.W. program emphasizes three themes across the curriculum: empowerment and social and economic justice; strengths perspective and asset building; and community building.

Achieving proficiency in each of these competency areas results in an M.S.W. graduate with the ability to practice across a variety of social service settings and with a specialty set of skills individualized through the selection of elective courses.

Career Implications

Why consider an advanced degree in social work? Above all, the degree is flexible and versatile. For example, social workers are employed in public social service agencies, nonprofit organizations, medical settings, schools, community-based clinics and residential settings. The social work perspective looks not only at individual thoughts, feelings and actions, but also at the social environment as a primary arena for opportunities for change. On behalf of the people they serve, social workers have strong interests in social policy and advocacy, as well as social science research and policy and program evaluation.

Program Description

The program educates advanced generalist social work practitioners for professional responsibilities in today's challenging human service field. To accommodate working students' schedules, many classes are scheduled for late afternoons, evenings and weekends.

As adult learners, students have opportunities to choose assignments and electives fitting their learning needs. Faculty members view students as active co-directors of the learning process. Group discussion and debate; role playing; and other experiential activities complement readings and written assignments.

The practice-oriented curriculum is focused on advanced generalist social work practice in an urban environment. It is an eclectic theory base for viewing human behavior in the social environment; skills for operating in a multidisciplinary agency and community environment; research methods with practical application to agency practice; and approaches to working with culturally diverse populations.

The full-time, regular M.S.W. program offers a two-year, 60-credit curriculum combining classroom and field experience. For students who already have a B.S.W. degree, the full-time advanced standing program includes 36 credits during a summer semester and one full-time year of coursework with a supervised field practicum. Any student may attend part-time but must complete the M.S.W. in four years.

The foundation year includes coursework in generalist social work practice theory and skills, social policy, human behavior in the social environment, social work research and a generalist field practicum experience in a social service agency 16 hours a week.

In the concentration level year, the curriculum focuses on advanced generalist method within an urban context. Students select four electives with a requirement of at least one elective in Integrative content area and at least one elective in Advanced Methodological approaches to Social Work practice. Students explore individualized interest by their selection of electives. Then a second field practicum for 16 hours a week provides advanced generalist experience and supervision.

Field Practicum

The practicum program uses agencies throughout the metropolitan area to offer experiences at both foundation and advanced levels. Students typically spend two days in the field and are mentored by an M.S.W. practitioner employed by the agency. Students spend a required number of hours in face-to-face contact with clients; in agency meetings; in individual or group supervision; and in the community. In some cases, students who already are social service employees can arrange to complete one year of their field placements at their own agencies.

Admissions

The majority of applicants to M.S.W. programs have a variety of undergraduate degrees. Some people have life or work experience in other fields and are ready for a career change. Others have worked in the human service field and are ready to pursue an M.S.W. degree to advance in their careers.

Applicants who already have a B.S.W. degree can consider the advanced standing program if they have received the B.S.W. degree within the last five years and had a 3.0 grade-point average in the B.S.W. major.

For both the regular and advanced standing programs, applicants should request an admissions packet from the School of Social Work at 816-235-1025. The packet contains an information folder, a program application, and a graduate student application from the University.

In addition to standard materials, applicants must submit an essay in response to the questions:

1. "What social need do you hope to address as a professional social worker?"
2. "What groups of people or what organizational settings might best utilize your personal and professional talents?"

Three confidential references from people able to assess the applicant's work and academic experience and professional potential are required. Students must send this material directly to the program.

While personal interviews are not required, the M.S.W. Admissions Committee may request a meeting with an applicant. Applicants with questions about the program may attend public information sessions, which are scheduled once a month in the Social Work office.

The program is inclusive and draws from a diverse applicant pool. Toward this end, program faculty members make regular community presentations to diverse groups, and work with the Office of Student Affairs to link with student organizations representing women; people of color; gays and lesbians; international students; and students with disabilities. Complete admission requirements include:

1. An application submitted as instructed.
2. A bachelor's degree from an accredited college or university. The applicant's undergraduate education must reflect a sound liberal arts foundation, including courses in the humanities, as well as in the social and behavioral sciences, and human biology.
3. An undergraduate grade-point average of 3.0 or better for the last 60 hours of coursework.
4. In some cases, students may be admitted on a provisional basis if they have less than 3.0 GPA, meet all other admissions requirements, and have submitted a written statement asking to be considered for admission based on: (1) completion of 6 hours of relevant graduate-level coursework, acceptable to the faculty, with a grade-point average of 3.0, reported on an official transcript or (2) evidence of sustained commitment and significant contribution in the field of human services.
5. The program does not give academic credit for life experience or previous work experience.
6. Student transfers from other accredited M.S.W. programs may apply to the program. Some or all of a student's completed coursework will be considered for transferred credit.
7. All applicants transferring from other M.S.W. programs in which they are currently enrolled must be in good standing with the program.

Student Advising

M.S.W. students can seek information and support from the faculty. After admission to the program, students attend an orientation, receive a Student Handbook, and are assigned an academic adviser from the faculty. Ongoing contact with the adviser ensures that a plan of study is meeting the expectations of the student and the guidelines of the M.S.W. program. Part-time students will find the adviser particularly helpful in planning the sequence and the timing of courses and field work. When a student selects a field placement, the field practicum director and a faculty field liaison work with the student and the agency to ensure a quality learning experience. In addition, the M.S.W. program director and the M.S.W. student organization offer opportunities for students to discuss their experience in the program and in the field.

Professional Status

After graduation, students are well prepared to accept a professional social work position with populations at-risk in a variety of social service, mental health, medical, or community settings.

Both Missouri and Kansas offer an exam to license specialist clinical social workers after two years of supervised practice in direct services. For social workers who plan to practice at this level, Kansas statutes require completion of graduate or continuing education courses in psychopathology and diagnostic skills. Students who are considering clinical licensure in Kansas are encouraged to take this course as an elective prior to graduation from the M.S.W. program.

Master of Social Work

Student Learning Outcomes

The knowledge and skill learning outcomes for graduates from the UMKC M.S.W. Program include the ability to:

1. Apply critical thinking skills within professional contexts, including synthesizing and applying appropriate theories and knowledge to practice interventions.
2. Practice within the values and ethics of the social work profession and with an understanding of, and respect for, the positive value of diversity.
3. Demonstrate the professional use of self.
4. Understand the forms and mechanisms of oppression and discrimination and the strategies and skills of change that advance social and economic justice.
5. Understand and interpret the history of the social work profession and its current structures and issues.
6. Apply the knowledge and skills of a generalist social work perspective to practice with systems of all sizes.
7. Apply the knowledge and skills of advanced social work practice in an area of concentration.
8. Critically analyze and apply knowledge of bio-psycho-social variables that affect individual development and behavior, and use theoretical frameworks to understand the interactions among individuals and between individuals and social systems (i.e., families, groups, organizations, and communities).
9. Analyze the impact of social policies on client systems, workers, and agencies and demonstrate skills for influencing policy formulation and change.
10. Evaluate relevant research studies and apply findings to practice, and demonstrate skills in quantitative and qualitative research design, data analysis, and knowledge dissemination.
11. Conduct empirical evaluations of their own practice interventions and those of other relevant systems.
12. Use communication skills differentially with a variety of client populations, colleagues, and members of the community.
13. Use supervision and consultation appropriate to advanced practice in an area of concentration.
14. Function within the structure of organizations and service delivery systems and seek necessary organizational change.

Plan of Study

The following course of study is a typical schedule for a full-time student. A student must complete all foundation level courses before taking any concentration level courses. The plan of study is subject to change.

Regular Program

Fall

- SOC-WK 5510 Foundation Field Practicum I (3)
SOC-WK 5530 Human Behavior: Individuals in the Social Environment (3)
SOC-WK 5532 Foundations of Social Work Practice I (3)
SOC-WK 5534 Social Welfare Programs and Policies (3)
SOC-WK 5536 Social Work Research Methods (3)

Spring

- SOC-WK 5511 Foundation Field Practicum II (3)
SOC-WK 5531 Human Behavior: Families, Groups, Organizations, and Communities (3)
SOC-WK 5533 Foundations of Social Work Practice II (3)
SOC-WK 5535 Social Welfare Policy Practice (3)
SOC-WK 5537 Statistical Applications in Social Work Research (3)

Fall

- SOC-WK 5512 Advanced Field Practicum I (3)
SOC-WK 5540 Advanced Social Work Practice I (3)

SOC-WK 5550 Social Work Practice and Program
Evaluation I (3)
XXX Advanced Methods Elective (3)
XXX Integrative Content Elective (3)

Spring

SOC-WK 5513 Advanced Field Practicum II (3)
SOC-WK 5541 Advanced Social Work Practice II (3)
SOC-WK 5579 Capstone Seminar in Social Work (3)
XXX Advanced Methods Elective (3)
XXX Integrative Content Elective (3)

Advanced Standing Program

Advanced standing students must enroll in the following required summer courses; unless SOC-WK 5531, 5535 and 5537 are completed prior to summer matriculation.

SOC-WK 5538 Advanced Standing Seminar: Contemporary
Trends in Social Work Practice (3)
SOC-WK 5539 Advanced Standing Seminar: Emerging Issues
in Social Welfare Policy and Research (3)

Advanced standing students then complete a comparable advanced-level year curriculum with other program students.

Curriculum Requirements

The graduate social work program grants the M.S.W. degree when students have completed the following degree requirements:

1. 60 credit hours of class (48 hours) and field (12 hours) for regular program students.
2. 36 credit hours of class (30 hours) and field (6 hours) for advanced standing students.
3. To remain in good standing, students must maintain a cumulative GPA of 3.0.
4. Part-time students must demonstrate acceptable progress towards the degree.
5. Students take four electives in the concentration year, with one elective from Integrative Content electives (Aging, Mental Health and Substance Abuse, Children, Youth and Families or School Social Work) and one elective from Advanced Methods electives required.

Note: For students with disabilities or special learning needs, the program works closely with the Office of Disabled Student Services regarding special accommodations.

Department Description

The Department of Sociology offers programs of study leading to:

- Bachelor of Arts in Sociology
- Master of Arts in Sociology

Program minors are available in:

- Sociology
- Anthropology
- Family Studies
- Women's and Gender Studies
- Gerontology

Sociology also participates as a co-discipline in UMKC's Interdisciplinary Ph.D. program. The mission of the department is to extend knowledge about the nature of social life. In the process of learning about social life, students will

have opportunities to develop critical thinking and research skills and to apply classroom learning through experiences in community organizations and agencies. Department faculty members are committed to excellence in teaching and work to assist students in developing a foundation for moving into a career.

Department Activities

Academic Advising

Student academic advising is a continuous process in the department. Undergraduate advisers are available for consultation throughout the academic year. The department recommends that students check the program requirements in the department office before filing the Declaration of Major form. Undergraduate majors are encouraged to consult with the department to establish a tentative plan of study. Students should leave their mail and e-mail addresses with the department office so that they can receive notifications concerning the class time table, new classes, and other departmental information of interest to majors.

Financial Assistance

Students can receive financial assistance through various campus scholarships, loan programs, grants and the work-study program. Students who are interested should contact the Financial Aid and Scholarships Office.

Sociology Club and Honor Society

The Sociology Club is open to all students majoring in Sociology as well as students who are interested in this field but have not yet declared a major. Club activities include service projects in the community, sponsorship of community speakers on campus, participation in local and regional professional meetings, and learning about internships and research opportunities. The department has a chapter of Alpha Kappa Delta, a national honorary society for Sociology students.

Special Student Award

A special award was established as a memorial to Edward Tomich, Ph.D., professor of Sociology from 1964 to 1976. On the recommendation of the department faculty, the Edward Tomich Award is given annually to a senior student majoring in Sociology who exemplifies an indomitable spirit; a commitment to the struggle for human welfare; an unquenchable thirst for knowledge and personal growth; an unwillingness to be cowed by authority or the superficialities of status; a readiness to ask the more difficult questions while being ready to accept the uncertainty of answers; and an appreciation of the value of theoretical knowledge about human interaction in everyday life.

Cooperative Programs

The department cooperates with several other programs on the campus by jointly listing courses at the undergraduate level. Students may benefit from combining one of these areas of study with their major:

- Black Studies
- Family Studies
- Gerontology
- Honors program
- Urban Studies
- Women's and Gender Studies
- Criminal Justice & Criminology

Center on Aging Studies

Haag Hall, Room 208
(816) 235-1747
<http://cas.umkc.edu/cas>

The Center on Aging Studies, which is part of the College of Arts and Sciences, is an interdisciplinary unit concerned with education, research, resource development and community activities designed to understand and improve

living conditions of the older population. Among the areas of research and training are health care systems and health promotion, caregiving, grandparents raising grandchildren, volunteerism, intergenerational relationships, Social Security, social identity and self development, and aging in other cultures. The Center seeks to bridge the gap between knowledge and its application in the development of services and policies.

The Center, in conjunction with the College of Arts and Sciences Continuing Education Division, administers undergraduate and graduate certificate programs in Gerontology. Students also can complete a minor in Gerontology. Students interested in this area of study should contact the Center on Aging Studies at (816) 235-1747.

The Center on Aging Studies has built on its location in the heartland with emphasis on issues of aging in rural and urban areas. The Center works closely with the University of Missouri Extension throughout the state.

Career Implications

The B.A. curriculum in Sociology is designed to prepare students for a variety of career paths, including:

- Future graduate work in Sociology in order to become a professor, researcher, or applied Sociologist.
- Entry-level positions throughout the business, human services, and government sectors. Employers look for people with the skills that an undergraduate education in Sociology provides.
- Careers in journalism, politics, public relations, business, or public administration--fields that involve the kind of investigative skills and ability to work with diverse groups that Sociologists learn.
- Professions such as law, education, medicine, social work, and counseling--fields that all draw on the rich fund of knowledge from Sociology.

Admission Requirements

High school students are encouraged to take a general college preparatory curriculum. Additional courses in Mathematics, English, foreign languages and the social sciences, such as Economics, Anthropology, Psychology and Sociology are recommended. Students planning to transfer from a community college are encouraged to take at least 6 credit hours of Sociology (including introductory Sociology), college Algebra and English composition. A maximum of 12 hours of transfer credits, including introductory Sociology, can be counted toward satisfaction of the major field requirements.

Career Implications of the M.A. in Sociology

Some M.A. recipients go directly into teaching at the community college or high school level. Others enter the corporate, nonprofit and government worlds in areas such as directors of research, policy analysis, consulting, human resource management and program management. Some may become a director in a social service agency. For outstanding students, the M.A. is preparation for doctoral level studies.

Interdisciplinary Ph.D. in Sociology

Sociology is currently participating in UMKC's Interdisciplinary Ph.D. program as a co-discipline. Students interested in this study should review the School of Graduate Studies section of this catalog for general and discipline-specific admission criteria, academic regulations and degree requirements. Additional information may be found at the department's Web site (<http://cas.umkc.edu/soc>). Interested persons may also contact the department's doctoral program adviser at (816) 235-2975.

Master of Arts in Sociology

Student Learning Outcomes

Students with a M.A. in Sociology should be able to:

- **Examine** the role and relevance of the sociological perspective for graduate students who will have the knowledge and skills necessary to pursue either a Ph.D. in a related field or to engage in enhanced study, research, and/or application of sociological method and theory.
- **Reflect on** contemporary issues and controversies in Sociology, and advance sociological research through their own creative engagement with social theories and methods.
- **Explore** the theoretical and methodological perspectives in a chosen specialty area to elaborate the historical development and contemporary manifestation of social inequalities.
- **Advance** critical research and writing skills for professional development and civic engagement such that graduate students will deepen their professional commitment to community.

Admission Requirements

Regular admission to the Sociology Master's program typically requires a baccalaureate degree in Sociology from an accredited college or university with an overall undergraduate GPA 2.6, and a GPA of 3.0 in both (a) the junior and senior years and (b) Sociology coursework.

Students who do not meet these above requirements may be accepted conditionally to the program. For these students to gain full admission to the program, they must first demonstrate aptitude for coursework in Sociology by passing three critical undergraduate courses with at least an 80%: Social Theory, Research Methods, and Statistics (equivalent to SOCIOL 361, 362 and 363). While not a requirement for conditional acceptance, we strongly advise applicants to take at least one (preferably all three) of these courses prior to applying to the program.

Application Procedures

Applicants for the fall semester admission must have all materials submitted by March 1, or February 15 to be considered for graduate teaching or research assistantships available each year. Applicants for the spring semester must submit all materials by November 1. A complete application packet includes the following materials submitted to the university's Office of Admissions:

- The UMKC general application form, available at <http://www.umkc.edu/admissions>;
- All undergraduate transcripts;
- Three letters of recommendation, preferably from former instructors; and
- A two to three page statement outlining your goals for graduate study, the nature of your interest in Sociology, current UMKC faculty whose areas of expertise match your interests, any past experiences that are relevant, as well as your future plans.

In addition, we strongly encourage the student to arrange a personal interview with the principal graduate adviser or other appropriate department faculty prior to or during the admission process.

Curriculum Requirements

This program requires 30 credit hours of coursework. The following core courses (15 credits) are required of all students and should be taken early in the program:

Required Courses:Hours

SOCIOL 5501	Social Theory I	3
SOCIOL 5502	Social Theory II	3
SOCIOL 5510	Sociological Research Methods I	3
SOCIOL 5511	Sociological Research Methods II	3
SOCIOL 5516	Intermediate Statistics	3

In addition to the required courses, students must complete an additional 15 credit hours, generally fulfilled by taking graduate-level courses from the Sociology curriculum. Specifically, these 15 hours beyond the core courses may include up to 6 credit hours of thesis research, up to 3 credit hours of independent/directed studies, up to 6 credit

hours of 400-level coursework in the department, and/or up to 6 credit hours of graduate coursework from other disciplines with the approval of the Sociology principal graduate advisor. In no case can more than 3 one-credit courses be part of the program of study.

Students are expected to earn a GPA of 3.0 or above in the core courses and an overall GPA of 3.0. Those who do not meet this requirement will be subject to review by the departmental graduate standards committee. Students who do not perform at a satisfactory level can be placed on probation and/or terminated from the program.

Students must complete at least 3 credit hours of graduate work each semester (fall and spring) for the first 2 years of the program and at least 1 credit hour each subsequent semester (fall and spring) to maintain their standing in the program.

By the midpoint of the program, a student should have selected at least 3 faculty members to serve on the master's committee and filed a program of study.

Students may complete the M.A. requirements in Sociology through either: (a) the thesis option, or (b) the comprehensive exam option.

Options

Students may complete the M.A. requirements in Sociology through either: (a) the thesis option, or (b) the comprehensive exam option. We strongly advise students to pursue the thesis option as this provides the greatest flexibility with respect to future study and employment choices.

Thesis Option

For this option, 6 credits of the 30 required hours are used for the completion of the master's thesis. An oral defense of the thesis is required. Students who aspire to further study at the doctoral level should select the thesis option.

Comprehensive Exam Option

This option requires 30 hours of graduate coursework. Near completion of all coursework, students choosing this option must pass a comprehensive exam comprised of 3 parts: (1) sociological theory; (2) research methods and statistics; and (3) a substantive area of the student's choice in consultation with the principal graduate adviser or the student's committee chair.

Minors in Sociology and Anthropology

Students are urged to confer with a department adviser to plan a minor. To declare a minor, students must file a completed declaration form with a current copy of their transcript.

Minor in Sociology

Undergraduate students can minor in Sociology. 18 credit hours of Sociology courses are required for a minor, including the introductory course, SOCIOL 101. At least 9 of the 18 credit hours must be in courses at the 300- or 400-level. Where courses are cross-listed in the major and minor, only 3 credit hours can be applied to both. No more than three 1-credit courses of Special Topics in Sociology (SOCIOL 300__) may be used to fulfill Sociology minor requirements.

Minor in Anthropology

Anthropology is a holistic and cross-culturally comparative science that is uniquely qualified to prepare students for multicultural work and social environments in the U.S. and abroad. Careers for Anthropologists, however, lie in all areas of human interaction. Anthropologists are especially attractive to companies and government agencies that work with and for national minorities and in foreign countries.

Students will be introduced to the subject and methods of cultural anthropology, examining its foundations and current trends in theory and applications. Students earning a minor in Anthropology take 3 credit hours of required coursework (ANTHRO 103, Introduction to Cultural Anthropology) and 15 credit hours of elective courses, which result in a total of 18 hours. Electives can be planned around an area of specialization. At least 9 of the 18 credit hours must be in courses at the 300- or 400-level. Where courses are cross-listed in the major and minor, only 3 credit hours can be

applied to both. Students should consult with the program coordinator to select the appropriate courses.

Bachelor of Arts: Sociology

Student Learning Outcomes

Graduates of the Bachelor of Arts in Sociology degree program will be able to:

- **Examine** the role and relevance of the sociological perspective for contemporary social life. Thus students will gain knowledge of the fundamentals in Sociology, such as the foundations of human practice, belief, and organization.
- **Reflect on** contemporary issues and controversies in the academic discipline of Sociology. Thus students will be able to examine issues of inequality, cultural difference, and social stratification from a comparative perspective, applying sociological principles and concepts to their own lives.
- **Explore** the basic theoretical and methodological perspectives, both in the social sciences and in a chosen specialty area. Thus students will have the capacity to critically evaluate and engage contemporary issues, trends in theory, and instruments of social analysis.
- **Advance** the critical research, thinking, and writing skills that are integral to professional development and civic engagement. Thus students will apply the fundamentals of sociology to both experience and an enhanced interest in community engagement.

Program Requirements

The bachelor of arts degree in sociology requires a total of 30 credit hours in addition to the general requirements for a degree in the College of Arts and Sciences.

For students selecting the Sociology major, required courses are the following:

	Hours
SOCIOL 101 Sociology: An Introduction	3
SOCIOL 103 Intro. to Cultural Anthropology	3
SOCIOL 361 Social Theory	3
SOCIOL 362 Methods of Sociological Research	3
SOCIOL 363* Intro. to Statistics	3
SOCIOL 404WI** Sociology Capstone: Senior Seminar	3

*MATH 235 is not a substitute for SOCIOL 363.

**All majors are required to take a writing intensive course within the Department of Sociology (SOCIOL 404WI fulfills this requirement).

Other degree requirements include:

1. A 2.0 grade-point average in the 30 hours credited toward the major.
2. A minimum grade of C- in all required courses (SOCIOL 101, 103, 361, 362, 363, and 404WI).
3. Completion of the general degree requirements of the College of Arts and Sciences with a minimum GPA of 2.0.
4. No more than three 1-credit courses of Special Topics in Sociology (SOCIOL 300R) may be used to fulfill Sociology elective requirements.

Focus Areas for Major

Majors may develop a focus within the major in one of the areas outlined below. These focus areas are designed to aid the student in selecting a plan of study related to personal or career interests.

Sexualities, Families, and the Life Course:

- SOCIOL 211 Social And Psychological Development Through The Life Cycle
- SOCIOL 310R Families And The Life Course
- SOCIOL 316 Sociology Of Death And Dying
- SOCIOL 318 Sociology of the Aging Woman
- SOCIOL 374 Anthropology of Childhood
- SOCIOL 410R Aging In Contemporary Society
- SOCIOL 411 Sociology Of Human Sexuality
- SOCIOL 416 Aging And Developmental Disabilities
- SOCIOL 417 Practicum In Aging And Developmental Disabilities
- SOCIOL 440R Sociology Of Medicine

Inequalities: Race, Class, Gender and Nations:

- SOCIOL 302 Social Stratification
- SOCIOL 303CW Cluster Course: Introduction To Women's Studies
- SOCIOL 314 Anthropology of Gender
- SOCIOL 322 Race And Ethnic Relations
- SOCIOL 324 Diversity and You
- SOCIOL 348 Latin American Immigrants and Refugees in the U.S.
- SOCIOL 351 Gender, Work And Social Change
- SOCIOL 433 Immigration and the City
- SOCIOL 441 Developing Countries

Community Engagement:

- SOCIOL 310R Families And The Life Course
- SOCIOL 317 Policies Of Drug Use And Control
- SOCIOL 319 Theoretical Criminology
- SOCIOL 331 Urban Anthropology
- SOCIOL 332 Sociology Of Political Life
- SOCIOL 335R Introduction To Social Work: Principles And Practice

- ANTHRO 346 Cultures Of The African Diaspora
- ANTHRO 347 Anthropology of Religion

Field Experience and Directed Individual Study

Several courses at the 300 and 400 level are set aside for individual study--either as readings or research courses. The readings course (SOCIOL 397) has variable credit from 1 to 3 credit hours, and individual contracts are made with faculty members prior to a student selecting the course. The individual research course, SOCIOL 398, has variable credit from 1 to 6 credit hours, and individual contracts must be made with faculty prior to enrolling in the course. The department also offers internship courses (SOCIOL 390R and 391), which require considerable work outside the classroom, often in an agency setting. Students are restricted to 6 credit hours of any combination of field experience, directed individual study and research toward the 30 hours required in the sociology major.

Department Description

The Department of Theatre offers the following degrees:

Bachelor of Arts,

Master of Arts centered in theater history and dramatic literature or playwriting, either of which may include dramaturgy,

Master of Fine Arts in acting or design and technology.

The department has a unique mandate. It is the only department in the state university system of Missouri empowered to grant the M.F.A. degree in theatre, the terminal degree for candidates preparing for a career in the professional theater. Accordingly, the main thrust of the department is its master of fine arts programs that prepare professional actors, designers and technicians for the regional repertory and commercial production companies of the United States. Training in the master of fine arts programs is performance and production oriented. The unique arrangement by which the Department of Theatre and the Kansas City Repertory Theatre coexist, interact and support each other while using the same facilities provides ideal opportunities for candidates.

A training ensemble of experienced professionals is maintained to teach classes and address candidates' needs. In addition to the regular faculty, guest directors and visiting teachers are brought in from the professional world outside and from the ranks of the Kansas City Repertory Theatre to enhance training opportunities. Accreditation is by the National Association of Schools of Theatre. The Department is also a member of the University/Resident Theatre Association.

Advising System

Advising services for **undergraduate** theatre majors are coordinated by the undergraduate director, Gary Holcombe , (816) 235-2544.

Graduate theatre students may contact the student affairs representative, Cindy Stofiel (stofielc@umkc.edu, 816-235-6683), with general questions. The major professor in each area approves enrollment for each semester.

Assistantships

Graduate assistantships are available in the following areas: acting, costume, lighting, stage management, scene shop carpentry, scene painting, sound, property construction, house management, technical direction, publicity and departmental assistance with THEATER 130 Foundations of Fine Arts: Theater.

Master of Arts in Theatre

Student Learning Outcomes

Students who complete the M.A. in Theatre will have:

- Studied a broad representative sampling of world dramatic literature.
- Mastered an overview of the history of the theatre, along with some specialized knowledge of a chosen era, aesthetic movement or artist in a historical-cultural context.
- Learned the research skills that will make it possible to pursue an advanced degree.
- Demonstrated ability to communicate ideas in clear and correct writing in English.
- Become familiar enough with various components of the art of the stage to be able to interact effectively with theatre professionals.

The M.A. degree in theatre is a research-oriented, two-year degree that will prepare students for admission to Ph.D. programs. Students may plan their programs centered on theatre history and dramatic literature or on playwriting, either one with an optional component in dramaturgy. Opportunities exist for M.A. students to serve as dramaturg or assistant to the director of academic and professional productions. A thesis is required to complete the degree. M.A. students are subject to the [General Graduate Academic Requirements](#) of the University for graduate study.

Master of Fine Arts in Acting

Student Learning Outcomes

Students graduating with an M.F.A. in Acting from UMKC should be expected to demonstrate the following:

- A detailed understanding of their individual processes as actors through which they find the physical, vocal, emotional and intellectual availability to meet the requirements of a given role. This shall include but not be limited to:
 - A working knowledge of the human voice as a primary means of communication.
 - A working knowledge of the human body as a primary means of communication.
 - A working knowledge of the human psyche as a primary means of motivation.
 - A working knowledge of research methods through which to gain an understanding of the circumstantial life of a character.
- An experiential knowledge of theatrical performance genres from classical roots through contemporary theatre.
- A strong familiarity with a wide range of dramatic literature.
- The ability to work with directors of varying working processes and communication styles.
- The ability to work in collaboration with an ensemble of artists.

The acting program is a three-year, minimum 60-credit-hour professional actor-training program interacting with the Kansas City Repertory Theatre, a professional Equity LORT B Theatre. M.F.A. students are subject to the General Graduate Academic Requirements of the University for graduate study.

First Year

The first year of training is a highly disciplined, process-oriented period of study including: a morning group warm-up; collaboration class which integrates students and faculty from each area of study; intensive breath and vocal production; basic speech work; introductory dialect work; text analysis; individualized fitness and nutritional programs, alignment and self-use process; physical approaches to characterization including physical isolations and effort shape; neutral, extreme and character mask work; ballroom dance. We pursue intensive exploration of creative technique, based on Constantin Stanislavski, Stella Adler and Morris Carnovsky's principles of theatrical truth; building a character; and ensemble play. Performance work includes the first-year "Creativity Project", that usually is inspired by classical material. Other projects may center around social issues of the day or character searches.

Second Year

In the second year of training the student actor continues with a morning warm-up; collaboration class; Fitzmaurice voice production along with continued speech and dialect work and a focus on heightened text and extended voice; private and ensemble singing tutorials; stage combat (unarmed, rapier, dagger, broad sword and quarter staff); subtle energy work; period-style movement including social convention and dance; Commedia dell' arte characterization, mask work and personal clown; continued work on acting Shakespeare; intensive work on Moliere verse text integrated with the period-style movement and comic technique; restoration or other heightened language text; and application of the actor's process to audition technique and contemporary text. Essential Meisner work is folded into exploration of creative technique. Second-year actors begin public performance work with guest and faculty directors on new, contemporary and period plays chosen specifically for the training. Occasionally, roles at the Kansas City Repertory Theatre, and other professional theatres in town, are available for second-year actors.

Third Year

Third year actors continue to apply their craft to challenging studies in many styles of plays; they deepen their understanding and application of Meisner technique and work on ongoing solo and ensemble exploration in personal clown; foil and saber fencing; singing; tutorials in speech and movement as well as voiceover workshops and acting for the camera. Public performance work intensifies with specific productions chosen to challenge the actor's art within the training program. Actors also, when applicable, audition for Kansas City Repertory productions and are cast, when appropriate, in roles or as understudies. Actors also audition and perform, when appropriate, in other Kansas City professional Equity theatres. In May, the actors are showcased in New York, as part of the New League Showcase sponsored by the Alliance for the Development of Theatre Artists, Inc., and sometimes showcased in Chicago and/or Los Angeles. All students who are considered "in good standing" participate in showcase.

Retention

In addition to being expected to maintain at least a 3.0 grade-point average, all M.F.A. acting candidates will be evaluated by the performance faculty at the end of each semester to determine whether they have shown satisfactory progress to warrant continuation in the program.

Master of Fine Arts - Design and Technology

Student Learning Outcomes

Students graduating with an M.F.A. in Design and Technology from UMKC will have a detailed understanding of their individual processes as designers through:

- Design - mastering interpretation, collaboration and idea development.
- Technical Skills - mastering the tools of production.
- History - mastering research, text analysis and dramatic history.
- Production - mastering the artistic merging of design, history and technical skills through the experiences of numerous and varied productions.
- Entrepreneurship - mastering the business of the profession and career growth.

Upon completion of the course of study, graduates will have created portfolios of such quality as to effectively introduce themselves to the profession as artists ready for assignments.

This is a three-year program requiring a minimum of 60 credit hours.
Students majoring in design and technology may choose to specialize in:

- Design (scenic design, costume design or costume technology, lighting design, sound design).
- Technical direction.
- Stage management.

Design Emphasis

Those choosing a design emphasis will be prepared to compete for United Scenic Artist Local 829 membership as scenic designers, lighting designers, costume designers or sound designers. They also will be prepared to design in professional theatre centers and in major universities and colleges.

Technology Emphasis

Technical Direction

Candidates specializing in technology will be trained to compete for jobs as technical directors or assistant technical directors and other supervisory technical positions, or other entertainment-business-related positions.

Stage Management

Stage management candidates serve as assistant stage managers the first semester or first year, as stage managers the second year, and serve a residency in the last semester. They also work as production assistants for the Kansas City Repertory Theatre shows. Candidates in stage management are trained to compete for jobs as Actors' Equity stage managers and take classes on the Actors' Equity LORT rule book.

General Requirements

The portfolio to be presented for admission should include:

1. Artistic renderings.
2. Drafted materials.
3. Photographs and slides.
4. Resume and references.

Only students who have demonstrated satisfactory progress in required skills and professional discipline during the first year will be invited by the faculty to return for a second year. During the second year, the design and technology students will concentrate on areas of interest, choosing advanced courses and working in the appropriate production areas. Third-year residency allows students to continue to emphasize design or technology coursework while undertaking major design or technology projects with productions in the Department of Theatre, the Kansas City Repertory Theatre or other professional environments. The concluding requirements of the M.F.A. degree for the design and technology candidate will be classroom projects, produced work and final presentations of portfolios. M.F.A. students are subject to the General Graduate Academic Requirements of the University for graduate study.

Bachelor of Arts in Theatre

Student Learning Outcomes

Upon completion of the B.A. in Theatre, a student will have:

- demonstrated an ability to communicate ideas in clear and correct writing.
- studied a sampling of world dramatic literature.
- experienced an overview of the working theatre: in performance, design, direction, and technical production.
- learned the basic skills that will make it possible to pursue an advanced degree in performance, design, technical production or theatre history.
- assimilated the etiquette and ethics of interacting with others in the theatrical profession.

The main objective of the B.A. in Theatre is to give students a broad education. The degree requirements for the B.A. in Theatre furnish our majors with a well-rounded education in all aspects of THEATREer. While the program is broad in its scope, it allows students the opportunity to develop specific areas of interest by choosing from one of three tracks.

General THEATRE Track

The general Theatre track is for students who want the flexibility to explore all areas of THEATREer. They can choose from a wide variety of courses including stage management, design, performance and playwriting.

Performance Track

Students interested in performance may select the performance track. Courses are geared toward students who want a professional career as an actor or want to prepare for placement in a top graduate program. Students receive instruction in voice, movement, acting, Shakespeare and specialty areas such as stage combat or physical THEATREer.

Design/Tech Track

The design/tech track offers students interested in areas of technical THEATREer and design the opportunity to develop the skills necessary to work in the professional THEATREer or attend a top graduate school. Within this track students might choose to emphasize a particular area of design. Students can focus their studies in scenic design, costume design, lighting design, sound design or stage management.

All Tracks

Production experience as well as internship opportunities give undergraduate THEATREer majors the chance to apply classroom theory to practical situations. Taking part as a crewmember, designer or performer in one of the departmental productions is an integral part of the THEATREer experience at UMKC. In a typical year there are two undergraduate productions in addition to as many as seven department productions, providing plenty of opportunity. The department also has relationships with many professional THEATREers. Internships and job opportunities frequently occur from these relationships.

Departmental Requirements - 49 total hours

Required Courses - 29 hours

- THEATRE 113 Introduction to Technical Production
- THEATRE 180 Theatre Production
- THEATRE 210 Introduction to Design for the Theatre
- THEATRE 350 Theatre History I
- THEATRE 351WI Theatre History II (Writing Intensive)
- THEATRE 378 Stage Management I
- THEATRE 380 Theatre Production
- THEATRE 415 Beginning Directing (Capstone)
- THEATRE 400 or 497 Theatre Outreach / Internship

Track Requirements - 20 hours

Undergraduates can choose from the following tracks:

- General Theatre
- Performance
- Design/Tech

Contact the Theatre Department for track requirements.

Minimum Grade Requirements

Students must get a grade of C or above in required courses in the major.

Non-Departmental Requirements - six total hours

Six credits total in music and art (three hours each)

Theatre Minor

A minor in theater consists of a minimum of 18 credit hours, including THEATRE 130, and 15 additional hours approved by a theater faculty adviser. A minimum of nine hours must be completed at the 300-400 level.

Master of Arts in Theatre

Student Learning Outcomes

Students who complete the M.A. in Theatre will have:

- Studied a broad representative sampling of world dramatic literature.
- Mastered an overview of the history of the theatre, along with some specialized knowledge of a chosen era, aesthetic movement or artist in a historical-cultural context.
- Learned the research skills that will make it possible to pursue an advanced degree.
- Demonstrated ability to communicate ideas in clear and correct writing in English.
- Become familiar enough with various components of the art of the stage to be able to interact effectively with theatre professionals.

The M.A. degree in theater is a research-oriented, two-year degree that will prepare students for admission to Ph.D. programs. Students may plan their programs centered on theater history and dramatic literature or on playwriting, either one with an optional component in dramaturgy. Opportunities exist for M.A. students to serve as dramaturg or assistant to the director of academic and professional productions. A thesis is required to complete the degree. M.A. students are subject to the General Graduate Academic Requirements of the University for graduate study.

- Program Description
- Bachelor of Arts: Urban Studies
 - Student Learning Outcomes
 - Program Requirements
- B.A. Urban Studies - M.P.A. Program
- Urban Studies Courses

Program Description

The urban studies major is for students who desire the breadth and depth of interdisciplinary study in preparation for advanced study in neighborhood and community development, community organization and social services, and urban management and public policy. Interested students should contact the urban studies director for advising no later than the beginning of their junior year.

The urban studies major is also for students who plan to enter specific careers in public service upon completion of the baccalaureate degree. The program is intended to provide a solid base for graduate study and the knowledge and experience necessary for employment in the public sector.

The urban studies major requires an internship comprising field placement in an agency of city, county, state or federal government; in the private sector; or in private nonprofit organizations.

B.A. (Urban Studies) - M.P.A. Program

This program allows urban studies majors to complete a B.A. in urban studies in The College of Arts and Sciences and a master's in public administration in the Henry W. Bloch School of Business and Public Administration in five years. The program allows students to take M.P.A. courses to satisfy urban studies and M.P.A. requirements, which reduces the number of courses needed to complete both degrees.

Students interested in this option should contact the Cookingham Institute of Public Affairs in the Bloch School at (816) 235-**2894**.

Bachelor of Arts: Urban Studies

Student Learning Outcomes

Students graduating with a baccalaureate degree in this field will:

- Have a functional knowledge of its basic areas of knowledge.
- Be able to integrate knowledge with critical thinking skills.
- Be able to articulate knowledge, both orally and in writing.
- Be able to conduct and report on independent research.

It is recommended that students planning an urban studies major take ENV-SCI 110R, ENV-SCI 210, or GEOLOGY 220 to satisfy part of the natural sciences area general degree requirements of the College. ENV-DSN 110 should be elected as one of the humanities area courses. In preparation for the core requirements of the urban studies major, the student should take ECON 201, SOCIOL 101, GEOG 105 and PSYCH 210.

Requirements (48 hours)

Core Courses (24 hours)

All urban studies majors are required to take the following core requirements:

- URBAN ST 101 Introduction to Urban Studies
- GEOG 309 Urban Geography
- STAT 236 Applied Statistics for Public Administration
 - or-
 - SOCIOL 363 Introduction to Statistics in Sociology/Criminal Justice
- UPD 260 History of Urban Planning
 - or-
 - HISTORY 300B Special Studies: Kansas City History
- POL-SCI 438 Urban Politics
 - or-
 - POL-SCI 328 State and Local Government
- ECON 336 Kansas City Economy
 - or-
 - ECON 458 Urban Economics
- SOCIOL 362 Methods of Sociological Research
 - or-
 - UPD 300 Quantative Planning Methods and Techniques
- ECON 314 Race, Class and Gender: Theory, History and Policy
 - or-
 - SOCIOL 322 Race and Ethnic Relations
- POL-SCI 310 African Americans and the Political Process
- URBAN ST 499WI Urban Studies Seminar

Concentration (18 hours)

In addition to the core requirements, 18 hours must be taken in an area of concentration:

- Community Development and Housing
- Community Organization and Social Services
- Urban Policy/Management

In consultation with an adviser, selected by the student or designated by the program director, students are expected to develop a program (reflecting interest and applicability to career goals) in one area of concentration: a required course and five electives from those listed under the concentration chosen. Students may not double count any core courses toward the 18 hours.

Community Development and Housing Concentration

Required Course:

- URBAN ST 340 Neighborhood and Community Development
- or-
- UPD 340 Neighborhood and Community Development

Electives (choose five):

- ART & ART HIST 353 Design & Form of KC
- ENV-DSN 110 The Meaning of Architecture
- ENV-DSN 201 Environmental Design Studio I
- ENV-DSN 202 Environmental Design Studio II
- ECON 336 Kansas City Economy
- GEOG 203 Intro to Geographic Information Systems (GIS)
- GEOG 311 Economic Geography
- GEOG 317 Cartography
- GEOG 333 Geography Elements of Urban Planning
- GEOG 401 Advanced Geographic Information Systems (GIS)
- GEOG 437 Population Geography
- SOCIOL 331 Urban Anthropology
- SOCIOL 337 Community Development in Urban America
- SOCIOL 431 Social Organization of the City
- UPD 203 GIS for Urban Planning
- UPD 260 History of Planning and Urban Design
- UPD 280 Land Use Planning
- UPD 310 Planning & Design Studio I
- UPD 312 Planning & Design Studio II
- UPD 320 Planning Theory
- UPD 400 Advanced GIS for Urban Planning
- UPD 420 Transportation Planning
- UPD 430 Planning for Historic Preservation
- UPD 450 Planning Law & Practices
- UPD 472 Urban Redevelopment

Community Organization and Social Services Concentration

Required Course:

- ANTHRO 331 Urban Anthropology
- or-
- SOCIOL 331 Urban Anthropology

Electives (choose five):

- CJC 101 Introduction to Criminal Justice
- CJC 317 Policies of Drug Use & Control
- ECON 314 Race, Class, and Gender: Theory, History, and Policy
- GEOG 203 Intro to Geographic Information Systems (GIS)
- GEOG 437 Population Geography
- HISTORY 353 Immigrants and Immigration in American History
- PSYCH 406P Introduction to Developmental Disabilities

- PSYCH 407P Developmental Disabilities and Community Life
- PSYCH 430 Introduction to Community Psychology
- SOCIOL 211 Social & Psychological Development
- SOCIOL 302 Social Stratification
- SOCIOL 322 Race and Ethnic Relations
- SOCIOL 331 Urban Anthropology
- SOCIOL 335R Introduction to Social Work
- SOCIOL 337 Community Development in Urban America
- SOCIOL 348 Latin American Immigrants and Refugees in the United States
- SOCIOL 431 Social Organization of the City
- SOCIOL 433 Immigration and the City

Urban Policy/Management Concentration

Required Course

- PUB-ADM 415 Issues in Public Administration

Electives (choose five):

- ECON 435 Public Finance
- ECON 437 State and Local Government Finance
- ECON 450R Regional Economics
- ECON 458 Urban Economics
- GEOG 203 Introduction to Geographic Information Systems (GIS)
- GEOG 311 Economic Geography
- GEOG 333 Geographic Elements of Urban Planning
- GEOG 437 Population Geography
- PHILOS 450WI Ethics and Government
- POL-SCI 314 Politics of Kansas City Metro
- POL-SCI 328 State and Local Government
- PSYCH 403 Environmental Psychology
- PUB-ADM 310 Introduction to Public Administration
- PUB-ADM 497 Urban Environmental Policy
- UPD 203 GIS for Urban Planning
- UPD 280 Land Use Planning
- UPD 420 Transportation Planning
- UPD 432 Urban Environmental Planning and Design
- UPD 450 Planning Law and Practice

Internship (6 hours)

In developing internships, students should first contact the urban studies director.

The student is expected to participate in work activities in a community organization and receive instruction from agency staff. For each three hours of internship the student must spend 120 hours on site. In addition, the student is evaluated academically.

The internship may be repeated up to a maximum of three semesters and should be taken as URBAN ST 495 Urban Studies Internship. Other internship courses may satisfy this requirement with approval of the adviser.

Summary

During the first 60 hours of coursework, students are advised to fulfill prerequisites for core courses and for required courses in the urban studies concentration they choose. At the same time, students should fulfill general graduation requirements, where possible, through completion of courses listed under General Degree Requirements in Arts and Sciences.

When prerequisites and general requirements have been satisfied, students must complete for the urban studies major:

- Core course requirements: 24 hours

- Concentration requirements: 18 hours
- Internship: 6 hours

Total hours required for the major in urban studies: 48

Women's and Gender Studies

Women's and Gender Studies Concentration and Minor

- Minor in Women's and Gender Studies
- Concentration in Women's and Gender Studies
- Certificate in Girls' Studies
- Interdisciplinary Course Listing
- Women's and Gender Studies Courses

Program Description

First established in the 1980s, Women's and Gender Studies at UMKC is one of 650 such programs in the United States. WGS is both an inter- and multi-disciplinary academic program devoted to the critical analysis of how gender, race, class, ethnicity and sexuality contribute to the diversity of women's and men's experiences. The program's interdisciplinary nature and cross-cultural academic training broadens students' understanding of gender and the experiences of women and men, girls and boys, in all cultures and societies. WGS focuses on issues relating to gender in the social sciences, the humanities, law, medicine and nursing. By placing gender at the center of scholarly inquiry, we not only examine the assumptions, methods, insights and claims of the traditional academic curriculum, but broaden it through our research interests, publications and courses to add cutting-edge feminist research, scholarship and activism.

A minor in Women's and Gender Studies requires 18 credits. Nine credits must be in upper division courses (that is, 300 and 400) and no more than nine credits may overlap with your major. Reading/independent study courses on selected topics may be arranged with individual faculty members. WGS courses are offered by numerous departments in the College of Arts and Sciences, as well as in the Schools of Law, Medicine and Nursing.

More information is available on the Women's and Gender Studies program website at http://cas.umkc.edu/wgs/minor_concentration.html

Educational Goals and Student Learning Outcomes

The educational goals for students in the Women's and Gender Studies program are:

- To explore the historical development and contemporary manifestation of gender-based inequalities.
- To generate new knowledges about women's lives and resistances in U.S. and global contexts.
- To advance critical research, thinking and writing skills as integral to professional development and political engagement.
- To foster understandings about how to transform inequalities of race, class, gender and nations through direct engagement with communities in service learning.

Specifically, students will have the opportunity to acquire certain knowledge, skills and experience:

Knowledge

Students studying Women's and Gender Studies will acquire knowledge about:

- The multidisciplinary nature and interdisciplinary methods of Women's and Gender Studies scholarship.
- The historical and contemporary cultural, social, political and economic contexts of gender in the United States and globally.
- The interaction of gender with other culturally constructed categories, such as race, age, etc., in order to foster a greater understanding of diversity.

Skills

Students studying Women's and Gender Studies will have the skills to:

- Think across disciplines.
- Understand and utilize the theories and methods of the various disciplines that contribute to Women's and Gender Studies.
- Apply their knowledge to a variety of careers in business, nonprofit work and the public sector, as well as be qualified for graduate studies in any social science.
- Be knowledgeable activists for the human rights of all women and men, irrespective of cultural biases and stereotypes.

Experience

Students studying Women's and Gender Studies will be experienced in:

- Academic research and analysis in a variety of academic fields and disciplines.
- Professional and respectful interactions with disagreeing others in public discussions of gender issues (students will become teachers).
- Always maintain a recognition of human diversity and analyze each human issue from a race, class and gender perspective (at a minimum).

Certificate in Girls' Studies

The undergraduate Certificate in Girls' Studies enables students to utilize gender and age to examine girls' lives and girlhood from historical, psychological, anthropological, political, religious and rhetorical perspectives.

The Certificate in Girls' Studies is designed to complement any major, minor or concentration in the humanities, social sciences and biological sciences. The certificate will increase educational opportunities of students pursuing graduate work and/or professional careers in education, law, social service, medicine, mental health, child advocacy organizations and businesses that address the needs of girls in the United States and abroad. The purpose of the Girls' Studies curriculum is to:

- Examine age and generation as forces within past and present cultures and societies.
- Cultivate new insights into topics and methods of inquiry that view girls as a unique category distinct from women and children.
- Encourage critical thinking through cross-cultural comparisons of girls across lines of race, class, ethnicity, religion, sexualities and societies.
- Examine the continuities and changes between girls' social realities and girlhood as a cultural construction of gendered ideals.
- Examine how girls accommodate, negotiate and/or resist prevailing ideals of girlhood.
- Question changing definitions of girlhood and the shifting boundaries between girlhood and womanhood over time and place.
- Discover ways to empower girls and to diminish the threats they face in their everyday lives.

Requirements for the Certificate in Girls' Studies

The Certificate in Girls' Studies may be earned in conjunction with B.A. or B.S. degrees or as a free-standing credential available to non-matriculated students. Students are required to complete nine credit hours in three different disciplines chosen from the courses listed below.

Required Course:

- HISTORY 300D Girlhood and Boyhood in America (3)

Sample Electives:

- ANTHRO 300 (special topics) (3)
- CJC 390 New Dimensions for Criminal Justice Topic (3)
- EDUC 497 Individual Study (3)

- ENGLISH 441 Girls and Print Culture (3)
- HISTORY 400CW Introduction to Women's Studies
- PSYCH 490 Directed Individual Research (3)

With approval from the academic adviser, students pursuing the certificate may also enroll in directed readings courses in order to examine specific subject areas (e.g. eating disorders) not covered in other courses.

Minor in Women's and Gender Studies

The minor in WGS offers an excellent inter- and multi-disciplinary curriculum that examines women, girls and gender throughout history and across cultures. WGS courses teach critical thinking through an examination of the historical and contemporary problems facing women locally, nationally and globally. Students expand their understanding of gender difference, cultural diversity and social change as they complete an 18-hour program of study from among a wide variety of classes in numerous fields and disciplines. WGS courses in history, sociology, psychology, criminal justice, English, religion, anthropology, political science, law and other areas enable students to pursue a specialized focus which enhances their major in the humanities, social sciences or natural sciences. The minor also provides sufficient flexibility to allow for the creation of a course of study especially suited to the individual interests of students.

Requirements for the Minor

A minor in Women's and Gender Studies requires 18 credits. Nine credits must be in upper division courses (that is, 300 and 400) and no more than nine credits may overlap with your major. Reading courses on selected topics may be arranged with individual faculty members.

Previously taken courses that focused on women, girls and gender may already count toward a minor. A maximum of six hours of other coursework may be applied to the minor. An appointment is required with the WGS director.

Women's and Gender Studies
[Haag Hall](#)

Room 204

(816) 235-5854

Concentration in Women's and Gender Studies

The WGS concentration provides greater depth and breadth than the 18-credit minor while still preserving the flexibility and focus of an interdisciplinary approach to the study of women and changing notions of gender. The concentration also serves as a valuable complement to any major field of study leading to a bachelor of arts or science degree.

Unlike the traditional discipline-based major, the Women's and Gender Studies Concentration encourages students to pursue their studies systematically across the Arts and Sciences curriculum by providing a broad range of courses on women, gender, girls and masculinities. The three required courses are designed to introduce students to:

1. The study of women.
2. Theories of gender.
3. The diverse methods of inquiry employed by gender scholars.

The concentration also requires students to take classes in no less than three different disciplines (e.g., history, English and anthropology) in order to:

- Identify the parallels between disciplines.
- Foster critical thinking about accepted categories and constructs.
- Acquire key concepts and knowledge of fundamental issues.
- Develop a basic vocabulary.
- Expand familiarity with major works, thinkers and directions in the field of Women's and Gender Studies.

Students may choose from an approved list of courses in which women and/or gender are the central category of analyses. Individualized readings courses on selected topics also may be arranged with WGS faculty members. And, as new courses with a significant Women's Studies component are offered, students pursuing the concentration may request course approval from the UMKC Advisement Center.

Requirements for the Concentration

There are three required courses (nine credits):

- ANTHRO 414 Feminist Theories (or other courses on feminist theory)
- ANTHRO 300CL/HISTORY 400CW/SOC 303CW/AMER-ST 400CW Introduction to Women's Studies
- WGS 499 Research Seminar (or other research course)

The remaining 15 credits must be selected from a variety of disciplines.

History and Description of School

The School of Biological Sciences was established (originally as the School of Basic Life Sciences) in 1985. The School's vision is "to better the quality of life through excellence in education and research." This vision is realized through the provision of quality education at the undergraduate and graduate levels, the expansion of knowledge through scientific research, and the application of scientific information for the advancement of human welfare. The School has been designated as an eminence program by the curators of the University of Missouri, and as such is a unit targeted for expansion and development.

Research by faculty, as well as graduate and undergraduate students, is focused on cellular and molecular aspects of modern biology, with emphases in molecular genetics, cell biology and structural biology. Advances in these areas will provide fundamental knowledge for biotechnology, molecular medicine, environmental remediation and computational biology. Students are encouraged to gain hands-on research experience, involving them in the process of creating knowledge and equipping them to shape the future.

Quality curriculum combined with research-active faculty and state-of-the-art equipment, provide students with an outstanding opportunity to expand critical thinking and problem solving skills while developing an in-depth understanding of the molecular, cellular, and genetic foundations of biological sciences.

Undergraduate Programs and Admissions

Students may pursue programs of study leading to the following degrees:

- Bachelor of science in biology
- Bachelor of science in biology with the cellular and molecular basis of health and disease emphasis
- Bachelor of science in biology with the bioinformatics emphasis
- Bachelor of science in biology with the biotechnology emphasis
- Bachelor of science in biology with the pre-dentistry concentration
- Bachelor of science in medical technology
- Bachelor of arts in biology

Courses taught by the School of Biological Sciences support academic programs within the schools of Nursing, Dentistry, Medicine, Pharmacy and Education, and departments within the College of Arts and Sciences. An undergraduate minor in biology and a variety of courses that may interest non-biology majors are available to complement other fields of study, or to satisfy general education requirements of other academic units. A background in biology combined with non-science skills creates many career possibilities.

Students interested in pursuing undergraduate degree programs offered by the School of Biological Sciences are admitted through the [UMKC Office of Admissions](#). Transfer students should contact the University admissions office and the School of Biological Sciences for information about transfer admissions and evaluation of transfer coursework. Transfer admission eligibility includes an overall grade-point average of at least 2.0 for all college-level coursework attempted at previous institutions, an overall GPA of at least 2.0 in courses used to fulfill School of Biological Sciences major requirements, and a University of Missouri Biology GPA of at least 2.0.

A Bachelor's Degree in Biology - Career Options

Our programs prepare students for a variety of career opportunities. Some students choose careers in the pharmaceutical or biotech industries, while others opt for graduate study in areas such as bioinformatics, forensics, or cell biology. In addition, a biology major is an excellent choice for students planning careers in medicine, veterinary medicine, dentistry, optometry, physical therapy, and other health professions.

The bachelor of science in biology curriculum fulfills the admissions requirements for most medical schools and incorporates intermediate and upper-level biology courses specifically recommended by medical school admissions officers. Those who wish to follow the pre-med track have the option to pursue the bachelor of science in biology with the cellular and molecular basis of health and disease emphasis, and those pursuing the pre-dental track may earn a bachelor of science in biology with a pre-dentistry concentration.

Undergraduate Advising

The School of Biological Sciences' team of well-trained academic advisers assists undergraduate students in developing individual plans of study. As teaching faculty, the advisers are uniquely qualified to help students understand and address course selection and professional development issues. Students will find the School of Biological Sciences Undergraduate Programs Handbook, which contains the latest information about degree requirements, academic rules, and related matters, on Blackboard under Biological Sciences Advising. Information on time management, reading and note-taking skills, communicating with professors, and taking exams can also be found on the Biological Sciences Advising site in Blackboard. To facilitate progress toward the student's degree, and to ensure that courses selected provide an appropriate academic program, students are required to participate in advising each semester before registering for classes.

Students enrolled in double majors or degree programs are advised by both academic units. The primary academic unit generally has the major advising responsibility. However, for issues pertaining specifically to a biology degree, an adviser at the School of Biological Sciences must be consulted.

Students are responsible for becoming familiar with all academic regulations of the campus as outlined in the catalog and in other University documents, including the SBS Undergraduate Programs Handbook.

Pre-Medicine, Pre-Dentistry and Pre-Health Professions Academic Advising

The School of Biological Sciences' experienced team of advisers is knowledgeable about admission requirements and application processes for health profession programs. It is important for students considering eventual application to

medical, dental, or veterinary school or other professional programs to consult early and often with a School of Biological Sciences adviser about appropriate course selection and additional preparation.

Advisers assist the student in investigating programs throughout the country and in planning an individualized undergraduate course of study. In addition they host informational meetings/workshops about aspects of planning for a health professions career, provide information on admission exam preparation, assist in the application process and in developing a personal statement, and help the student work with Career Services to compile a letter of recommendation file. Each student receives support and encouragement during all phases of the application process. Students are strongly encouraged to take advantage of adviser expertise by discussing their career plans beginning with their first semester at UMKC. Please see the additional catalog section on Pre-Medicine/Pre-Health for other information.

Teacher Certification in Biology

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Biology teacher in either Kansas or Missouri requires that a student complete specific requirements in Biology, Chemistry, Environmental Science, Geology, Physics and the School of Education. A separate application for teacher education is required. For further information about the program, consult the [School of Education](#) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Graduate Programs

The School of Biological Sciences offers programs of study leading to a master of science degree in cellular and molecular biology. In addition, a master of arts degree in biology is offered. The school participates in UMKC's Interdisciplinary Ph.D. program in Cell Biology/Biophysics and Molecular Biology/Biochemistry.

Graduates with research experience in cell biology and biophysics or molecular biology and biochemistry may enter careers in many areas, including biotechnology, pharmaceuticals, academia or governmental research involving the environment, agriculture, energy, defense or health.

Graduate Admissions

Admission to the school's graduate programs is competitive and students are encouraged to apply early. Applications are reviewed by an admissions committee that evaluates students on the basis of past performance and evidence of ability to pursue graduate studies successfully. The school admits students to its doctoral and master's degree programs throughout the year; however, early application (by Feb. 15) is advised to receive consideration for assistantships and other financial support.

Information on admission to master's or Ph.D. degree programs may be found at the Graduate Programs Web site at <http://www.umkc.edu/sbs/graduate/>, in the [Graduate Academic Regulations and Information](#) section of this catalog, by e-mail to sbs-grad@umkc.edu, or by writing to our graduate programs office at the mailing address at the beginning of this section.

Graduate teaching assistantships, graduate research assistantships and fellowships are available through the school and are awarded on a competitive basis. Currently, all fully admitted, full-time doctoral students receive financial support.

To be eligible for admission to the School of Biological Sciences' graduate programs, the applicant must:

- Possess a bachelor's degree in biological sciences or a related field with a minimum of 120 credit hours, or possess an advanced degree in a health sciences field.
- Have an undergraduate GPA of at least 3.0.
- Have sufficient background coursework to undertake graduate studies in biological sciences.
- Have acceptable scores in the Graduate Record Examination aptitude tests.
- Submit three letters of recommendation from individuals familiar with the student's academic performance and scientific abilities.

Students may be admitted with certain deficiencies, with the stipulation that these can be removed early in the course of study.

Advising

New students will be advised by the principal graduate adviser until they have selected their permanent research adviser. The graduate programs office will contact students in advance of their first semester for information about advising and registration.

Students are responsible for becoming familiar with all academic regulations of the campus as outlined in the catalog and in other University documents.

Laboratories

The School of Biological Sciences has modern, well-equipped laboratories organized into the following divisions:

Division of Cell Biology and Biophysics

This division houses the laboratories of anatomy, biophysics, developmental biology, cell biology, microbiology, neurobiology, structural biology and virology.

Division of Molecular Biology and Biochemistry

This division houses the laboratories of biochemistry, genetics, genetic engineering, membrane biochemistry, molecular biology, macromolecular structure, neurophysiology and cellular and molecular physiology.

Organizations and Activities

A campuswide biological sciences seminar program is organized and administered by the school. Throughout the year, weekly advanced research seminars are held, featuring presentations by nationally recognized visiting scientists and campus faculty.

The School of Biological Sciences has both graduate and undergraduate student organizations that meet periodically for scientific discussions and social events.

Requirements for Retention

General requirements for retention of graduate students are described in the Graduate Academic Regulations and Information section of this catalog. For all graduate students, a 3.0 (B) GPA is required for satisfactory progress. No F grades are permitted.

Any doctoral student who receives more than one C grade in a basic course will be dropped from the doctoral program.

Any master's student who receives more than two C grades or more than one C and one D grade in graduate courses will be dropped from the program.

Doctor of Philosophy Study

The Ph.D. program at UMKC is interdisciplinary. Students interested in studies at the doctoral level in the disciplines of cell biology and biophysics, *or* molecular biology and biochemistry, should apply to the Interdisciplinary Ph.D. program in the School of Graduate Studies. Students interested in a combination of cell biology and biophysics *with* molecular biology and biochemistry should apply to our graduate programs at <http://sbs.umkc.edu/programs/graduate/application.html> or by writing to the mailing address at the [beginning of this section](#).

Detailed information on the general and discipline-specific admission requirements for the Ph.D. is found in the [School of Graduate Studies](#) section of this catalog, with specific details on the school's Web site at <http://www.umkc.edu/iphd>.

Students pursuing Interdisciplinary Ph.D. studies who have selected cell biology and biophysics, or molecular biology and biochemistry as one of their disciplines should consult the [School of Graduate Studies](#) section of this catalog for degree requirements and other academic regulations applicable to their degree program.

Master of Arts in Biology

Degree Requirements

The master of arts program of study requires a minimum of 36 credit hours. No more than 40 percent of the program may be at the 300- to 400-level; the balance must be at the 5500-level or above. Master of Arts Topics in Biology, BIOL 5592, is required on an approved topic for an extensive investigation with oral presentation. This investigation may be accomplished through literature search or laboratory experimentation. No more than six hours of BIOL 5591, Directed Individual Studies, may be applied to this program.

Students typically pursue the master of arts in biology and a certificate in the Truman Medical Center Nurse Anesthesia Program concurrently. For information about admission and degree requirements, students interested in the CRNA certificate should first contact the [School of Nurse Anesthesia](#) at Truman Medical Center, and then contact the School of Biological Sciences. Admission by both programs is required.

Master of Science in Cellular and Molecular Biology

Degree Requirements

Thesis option	Hours
LS-MBB 5561/5562 General Biochemistry I and II	8
LS-CBB 5530/5520 Cell and Molecular Biology I and II	6
LS-MBB 5611-or- LS-CBB 5612 Seminar	1
LS-MBB 5599-or- LS-CBB 5599 Thesis Research	6
Electives	9
Total	30

Elective courses may be selected from the following list or from other alternatives approved by the School of Biological Sciences Graduate Programs Committee: LS-CBB 5505, 5520, 5530, 5566, 5569, 5596, 5597; LS-MBB 5503, 5565, 5567, 5596, 5597. A limited number of credit hours of upper-level undergraduate courses may be allowed.

Students pursuing the thesis option must also satisfactorily complete written and oral thesis exams.

Non-thesis option	Hours
LS-MBB 5561/5562 General Biochemistry I and II	8
LS-CBB 5530/5520 Cell and Molecular Biology I and II	6
LS-MBB 5611 -or- LS-CBB 5612 Seminar	1
Electives	21
Total	36

Elective courses may be selected from the following list or from other alternatives approved by the School of Biological Sciences Graduate Programs Committee: LS-CBB 5505, 5520, 5530, 5538, 5566, 5569, 5596, 5597; LS-MBB 5503, 5538, 5565, 5567, 5596, 5597. A limited number of credit hours of upper-level undergraduate courses may be allowed.

Emphasis in Bioinformatics

The emphasis in bioinformatics is a degree option with specific requirements.

This degree option trains students in the fundamental principles of bioinformatics and prepares them for careers in research, medical and corporate settings. Students will learn how to manage and analyze data stored in databases, become familiar with the various computational tools and techniques available to analyze biological data, become familiar with the types of questions and problems within biology that lend themselves to bioinformatics analysis and gain proficiency with a variety of statistical techniques necessary to analyze genomic, proteomic and integrated biological data sets.

Emphasis requirements, in addition to the specified degree requirements.

Required electives:	Hours
DSOM 5508 Statistical Analysis in Business -or- MIS 5552 Data Base Management	3
BIOLOGY 5519 Principles of Evolution	3
BIOLOGY 5525 Bioinformatics and Data Analysis	3
Total	9

School of Biological Sciences General Education Requirements

To earn a bachelor's degree in a program administered by the School of Biological Sciences, students must satisfy requirements in each of the areas listed below:

A. Communicating (9 credit hours)

To develop students' effective use of the English language and quantitative and other symbolic systems essential to their success in school and in the world. Students should be able to read and listen critically, and to write and speak with thoughtfulness, clarity, coherence and persuasiveness.

1. Writing and Critical Analysis: Students must satisfactorily complete ENGLISH 110 and ENGLISH 225. In addition, students must pass the Written English Proficiency Test (WEPT) or satisfactorily complete ENGLISH 299. A student earning a score of 30 or better on the ACT English subtest or 690 or better on the SAT Verbal, may be exempt from the ENGLISH 110 requirement.
2. Oral Augmentation/Speech: Students must satisfactorily complete COMM-ST 110 or COMM-ST 140.

B. Higher Order Thinking, Managing Information, and Valuing (6 credit hours)

To develop students' ability to distinguish among opinions, facts, and inferences; to identify underlying or implicit assumptions; to make informed judgments; and to solve problems by applying evaluative standards. To develop students' abilities to locate, organize, store, retrieve, evaluate, synthesize, and annotate information from print, electronic, and other sources in preparation for solving problems and making informed decisions. To develop students' abilities to understand the moral and ethical values of a diverse society and to understand that many courses of action are guided by value judgments about the way things ought to be. Students should be able to make informed decisions through identifying personal values and the values of others and through understanding how such values develop. They should be able to analyze the ethical implications of choices made on the basis of these values. Students must successfully complete 6 hours from at least two different fields, chosen from the following list:

- PHILOS 210 or PHILOS 222

- HISTORY 201, HISTORY 202, HISTORY 206 or HISTORY 208
- ANTHRO 103
- SOCIOL 101 or SOCIOL 103
- COMP-SCI 100 or above
- MATH 210 or STAT 235

These courses, in addition to the remainder of the general education block of 42 hours, satisfy the three skill area goals of Higher Order Thinking, Managing Information, and Valuing. Courses chosen from this list may also be used to satisfy other general education requirements where appropriate.

C. Social and Behavioral Sciences (9 credit hours)

To develop students' understanding of themselves and the world around them through study of content and the processes used by historians and social and behavioral scientists to discover, describe, explain and predict human behavior and social systems. Students must understand the diversities and complexities of the cultural and social world, past and present, and come to an informed sense of self and others. (Students must fulfill the state statute requirements for the United States and Missouri constitutions.)

1. Constitution course chosen from: HISTORY 101, HISTORY 102, HISTORY 360R or POL-SCI 210 (3 hours).
2. Six additional credit hours from at least one field other than above, chosen from economics, history, political science, psychology, sociology, social science, geography, criminal justice (6 hours).

D. Humanities and Fine Arts (6 credit hours)

To develop students' understanding of the ways in which humans have addressed their condition through imaginative work in the humanities and fine arts; to deepen their understanding of how that imaginative process is informed and limited by social, cultural, linguistic, and historical circumstances; and to appreciate the world of the creative imagination as a form of knowledge.

1. One 3 credit hour course chosen from English, communication studies, foreign Language, or philosophy.
2. One 3 credit hour course chosen from art/art history, conservatory or theater.

E. Mathematics (3 credit hours)

To develop students' understanding of fundamental mathematical concepts and applications. Students should develop a level of quantitative literacy that would enable them to make decisions and solve problems, and which could serve as a basis for continued learning. (The mathematics requirement for general education should have the same prerequisite(s) and level of rigor as college algebra.)

- MATH 110 or higher (including MATH 116).
- Students majoring in Biology will fulfill this requirement with the biology major's mathematics requirement of MATH 210, Calculus I, or STAT 235, Statistics.

F. Life and Physical Sciences (8 credit hours)

To develop students' understanding of the principles and laboratory procedures of life and physical sciences and to cultivate their abilities to apply the empirical methods of scientific inquiry. Students should understand how scientific discovery changes theoretical views of the world, informs our imaginations, and shapes human history. Students should also understand that science is shaped by historical and social contexts.

- One life science and one physical science, to include at least one laboratory component.
- Students majoring in biology will fulfill this requirement as a part of their major.

G. Total Credit Hours

In addition to the specific area requirements listed above, students must meet other University graduation requirements including, but not limited to, 120 total credit hours, 60 credit hours from a four-year institution if coursework is transferred from a non-Missouri institution, unless described otherwise in a specific articulation agreement with the School of Biological Sciences; 36 junior/senior level credit hours, taking the MAPP Exam and the Major Field Exam, residency requirements, minimum GPA standards, and other requirements that may be specified.

Requirements for a Minor in Biology

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Lab	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Lab	1
BIOLOGY 202/ td>	Cell Biology	3
BIOLOGY 206	Genetics	3

One laboratory course chosen from LS-ANATO 118L, BIOLOGY 312WL, LS-MCRB 313L, LS-MCRB 313WL, LS-BIOC 360L, LS-BIOC 360WL, BIOLOGY 328L or BIOLOGY 328WL.

Seven hours of upper-level biology majors courses.

The seven hours may include any of the upper-level lab courses listed above.

Total Biology hours: 21

Standards that must be met for the minor:

1. Only grades of C- or better will be allowed to count toward fulfillment of the required 21 hours of biology coursework.
2. Students seeking a biology minor must have a minimum cumulative 2.0 UM biology GPA in courses used to fulfill the minor requirements.
3. At least 11 of the 21 required hours must be earned from the School of Biological Sciences.
4. At least 4 of the 7 hours of junior/senior level coursework must be earned from the School of Biological Sciences.

Bioinformatics Emphasis

This instructional program incorporates courses from biology, computer science and mathematics. Students will obtain skills for the analysis of complex data, extraction of information from genomic and proteomic databases, and the design and development of software and algorithms to support these activities.

The curriculum of general education and biology majors courses, combined with the mathematics, chemistry and physics components is designed to provide undergraduate students with a clear program for the undergraduate background needed for a career in bioinformatics or to provide them with a solid, biologically oriented curriculum to pursue graduate level research in this area.

A. Biology course requirements

1. The following core courses (17 credit hours):

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3

2. Emphasis course requirements (9 credit hours)

		Hours
LS-BIOC 425	Bioinformatics	3
LS-BIOC 430	Molecular Biology and Genetic Engineering	3
BIOLOGY 405	Introduction to Evolution	3

3. Biology laboratory courses: LIFE-SCI 360WL taken with the writing intensive option and one additional lab course are required for a minimum of 5 credit hours.

		Hours
LS-BIOC 360WL	Laboratory in Biochemistry and Molecular Biology (WI)	3
BIOLOGY 312WL	Lab in Developmental Biology, Genetics & Cell Biology (WI)	3
LS-MCRB 313L or LS-MCRB 313WL	Laboratory in Microbiology (WI)	3
BIOLOGY 328L or BIOLOGY 328WL	Lab in Histology and Cellular Ultrastructure (WI)	3
LS-ANATO 118L	Introductory Anatomy Lab	2

4. Biology Synthesis requirement (Choose a total of 3 credit hours)

		Hours
BIOLOGY 498WI	Critical Analysis of Biological Issues (WI)	3
LIFE-SCI 490WI	Senior Seminar (WI)	3
LIFE-SCI 499	Undergraduate Research	1-3
LIFE-SCI 497	Special Topics	1-3

5. Students must complete additional biology majors coursework for a total of 42 credit hours of biology courses with grades of C- or better. At least 26 of these must be at the 300- or 400-level. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences. The UM Biology GPA must be 2.0 or higher.

B. Physical sciences and mathematics requirements

All of the following courses are required. A grade of C- or better is required in each course used to fulfill these requirements.

		Hours
COMP-SCI 101	Problem Solving and Programming I	3
COMP-SCI 191	Discrete Structures	3
COMP-SCI 201	Problem Solving and Programming II	3
MATH 210	Calculus I	4
MATH 220	Calculus II	4
STAT 235	Statistics	3
PHYSICS 210 or PHYSICS 240	General Physics I or Physics for Science and Engineering I	4-5
PHYSICS 220 or PHYSICS 250*	General Physics II or Physics for Science and Engineering II*	4-5
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry Laboratory I	1
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry Laboratory II	1

*Students may choose LS401, Biophysical Principles (3 credit hours), as an alternative to Physics 250. A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Biotechnology Emphasis

This instructional program is designed to prepare students for careers in the biotechnology industry as well as careers in basic biological research. A B.S. degree in Biology with the Biotechnology Emphasis also is appropriate for those students who wish to pursue advanced degrees in cell and molecular biology, genetics, microbiology or biochemistry.

A. Biology course requirements

1. Core courses (17 credit hours):

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3

2. Emphasis course requirements (12 credit hours):

		Hours
LS-MCRB 313	Introduction to Microbiology	3
BIOLOGY 409	Developmental Biology	3
LS-BIOC 425	Bioinformatics	3
LS-BIOC 430	Molecular Biology and Genetic Engineering	3

3. Laboratory course requirements (9 credit hours; 6 of these must be WI):

		Hours
LS-MCRB 313L or LS-MCRB 313WL	Laboratory in Microbiology	3
BIOLOGY 312WL	Lab in Developmental Biology, Genetics & Cell Biology	3
LS-BIOC 360L or LS-BIOC 360WL	Lab in Biochemistry and Molecular Biology	3

4. Biology synthesis requirement (Choose a total of 3 credit hours):

		Hours
BIOLOGY 498WI	Critical Analysis of Biological Issues (WI)	3
LIFE-SCI 490WI	Senior Seminar (WI)	3
LIFE-SCI 499	Undergraduate Research	1-3
LIFE-SCI 497	Special Topics	1-3

5. Students must complete additional biology majors coursework to total at least 42 credit hours of biology courses with grades of C- or better. At least 26 of these must be at the 300- or 400-level. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences. The UM Biology GPA must be at least 2.0.

B. Physical sciences and mathematics requirements

All of the following courses are required. A grade of C- or better is required in each course used to fulfill these requirements.

		Hours
COMP-SCI 101	Problem Solving and Programming I	3
STAT 235	Statistics	3
MATH 210	Calculus I	4

MATH 220	Calculus II	4
PHYSICS 210 or PHYSICS 240	General Physics I or Physics for Science and Engineering I	4-5
PHYSICS 220 or PHYSICS 250*	General Physics II or Physics for Science and Engineering II*	4-5
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry Laboratory I	1
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry Laboratory II	1

*Students may choose LIFE-SCI 401, Biophysical Principles (3 credit hours), as an alternative to PHYSICS 250. A minimum of 120 credit hours is required, and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Cellular and Molecular Basis of Health and Disease Emphasis

This instructional program fully prepares individuals for admission to a professional school in medicine, including allopathic, osteopathic or podiatric medicine programs. By completing the requirements of the bachelor's of science in biology with the cellular and molecular basis of health and disease emphasis, students will complete all of the minimum prerequisites and the upper level biology electives which are highly recommended by most medical schools.

The courses selected provide a foundation of knowledge in modern cellular and molecular biology, essential for understanding medical science. The curriculum of general education and biology majors courses, combined with the mathematics, chemistry and physics components, provides the background essential to understanding the latest diagnostic and treatment technologies.

General education requirements are the same as for all students seeking a bachelor's degree in biology. Completion of the emphasis requirements will be noted on the UMKC transcript. Through proper planning with a School of Biological Sciences adviser, biology majors can use their electives and general education requirements to complete the healing and humanities minor.

A. Biology course requirements

1. Core courses (17 credit hours)

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3

2. Emphasis course requirements (15 credit hours)

		Hours
LS-PHYS 316	Principles of Physiology	3
LS-MCRB 313	Microbiology	3
BIOLOGY 409	Developmental Biology	3
LS-BIOC 430	Molecular Biology and Genetic Engineering	3
LS-MCRB 431 or		

3. Laboratory course requirements (minimum of 5 credit hours, must include LS-MCRB 313WL.)

		Hours
LS-MCRB 313WL	Lab in Microbiology (WI)	3
Elective (Choose at least 2 credit hours from the following)		
BIOLOGY 312WL	Lab in Developmental Biology, Genetics & Cell Biology	3
BIOLOGY 328L or BIOLOGY 328WL	Lab in Histology and Cellular Ultrastructure	3
LS-BIOC 360L or LS-BIOC 360WL	Lab in Biochemistry and Molecular Biology	3
LS-ANATO 118L	Introductory Anatomy Lab	2

4. Biology Synthesis requirement (Choose a total of 3 credit hours)

		Hours
BIOLOGY 498WI	Critical Analysis of Biological Issues	3
LIFE-SCI 490WI	Senior Seminar	3
LIFE-SCI 499	Undergraduate Research	1-3
LIFE-SCI 497	Special Topics	1-3

5. A total of 42 credit hours of biology courses must be completed with grades of C- or better. At least 26 of these must be at the 300- or 400-level. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences. The Microbiology laboratory course must be writing intensive. The UM Biology GPA must be at least 2.0.

B. Physical sciences and mathematics requirements

All of the following courses are required. A grade of C- or better is required in each course used to fulfill these requirements.

		Hours
MATH 210	Calculus I	4
MATH 220 or STAT 235	Calculus II or Elementary Statistics	3-4
PHYSICS 210 or PHYSICS 240	General Physics I or Physics for Science and Engineering I	4-5
PHYSICS 220 or PHYSICS 250*	General Physics II or Physics for Science and Engineering II	4-5
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry Laboratory I	1
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry Laboratory II	1

*Students may choose LIFE-SCI 401, Biophysical Principles (3 credit hours), as an alternative to PHYSICS 250. A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Suggested Plan of Study

This is a general plan that may be adjusted to accommodate individual background interests, abilities and career objectives.

Freshman Year

Fall Semester		Hours
BIOLOGY 108*	General Biology I	3
BIOLOGY 108L*	General Biology I Lab	1
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
General Education Requirement (ex: ENGL 110)		3
Total:		12

Spring Semester		Hours
BIOLOGY 109*	General Biology II	3
BIOLOGY 109L*	General Biology II Lab	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
General Education Requirement (ex. COMST 110 or 140)		3
General Education Requirement (ex. Higher Order Thinking elective)		3
Total:		15

*General Biology II may be taken before General Biology I if desired.

Sophomore Year

Fall Semester		Hours
BIOLOGY 202	Cell Biology	3
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry I Lab	1
MATH 210*	Calculus I	4
General Education Requirement (ex. English 225)		3
General Education Requirement (ex. Constitution requirement)		3
Total:		17

* Prerequisite MATH 110 or 4 years HS Math including Algebra II, and Trigonometry.

Spring Semester		Hours
BIOLOGY 206	Genetics	3
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry II Lab	1
MATH 220 or	Calculus II or Elementary	
STAT 235	Statistics	3-4
BIOLOGY ____	Biology Elective	3
Total:		13-14

Junior Year

Fall Semester		Hours
LS-BIOC 341	Basic Biochemistry	3
BIOLOGY ____	Biology Elective	3
PHYSICS 210 or	General Physics I or	
PHYSICS 240	Physics for Science and Engineering I	4-5
General Education Requirement (ex. Humanities Elective)		3
Elective		2
Total:		15-16

Spring Semester		Hours
BIOLOGY ____	Biology Elective	3

BIOLOGY ____	Biology Lab Elective	3
PHYSICS 220or	General Physics II or	
PHYSICS 250	Physics for Science and Engineering II	4-5
General Education Requirement (ex. Higher Order Thinking elective)		3
Elective		2
Total:		15-16

Senior Year

Fall Semester		Hours
BIOLOGY ____	Biology Elective	3
BIOLOGY ____	Biology Elective	3
BIOLOGY ____	Biology Lab Elective	3
General Education Requirement (ex. Social & Behavioral Science Elective)		3
General Education Requirement (ex. Fine Art Elective)		3
Total:		15
Spring Semester		
BIOLOGY ____	Biology Synthesis	3
General Education Requirement (ex. Social and Behavioral Science Elective)		3
BIOLOGY ____	Biology Elective	3
Elective		3
Elective		3
Total:		15

Students must complete a total of 42 credit hours of biology courses with grades of C- or better and maintain a cumulative UM Biology GPA of at least 2.0. 26 of these credit hours must be junior/senior level and must include LSBIOC 341, a biology synthesis course, and two laboratory courses. One Biology Lab must be Writing Intensive.

Pre-Dentistry Concentration

This instructional program fully prepares individuals for admission to a professional school in dentistry. By completing the requirements of the bachelor's of science in biology with the pre-dentistry concentration, students will complete all of the minimum prerequisites and upper level electives suggested by dental schools across the United States. The courses selected provide a foundation of knowledge in modern dentistry, essential for understanding dental science. The curriculum of general education and biology majors courses, combined with the mathematics, chemistry and physics components, provides the background essential to understanding the latest diagnostic and treatment technologies.

General education requirements are the same as for all students seeking a bachelor's degree in biology. Through proper planning with a School of Biological Sciences adviser, biology majors can use their elective general education requirements to complete the healing and humanities minor.

A. Biology course requirements

1. Core courses (17 credit hours)

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3

2. Concentration course requirements (17 credit hours)

		Hours
LS-ANATO 118	Introductory Anatomy	3
LS-PHYS 316	Principles of Physiology	3
LS-MCRB 313	Introduction to Microbiology	3
BIOLOGY 409	Developmental Biology	3
BIOLOGY 328	Histology	2
LS-MCRB 435 or LS-BIOC 430	Immunology or Molecular Biology and Genetic Engineering	3

3. Required laboratory courses (BIOLOGY 328WL must be taken using the writing intensive option.)

		Hours
BIOLOGY 328WL	Laboratory in Histology and Cellular Ultrastructure (WI)	3
LS-ANATO 118L	Introductory Anatomy Laboratory	2

4. Biology Synthesis requirement (Choose a total of 3 credit hours)

		Hours
BIOLOGY 498WI	Critical Analysis of Biological Issues	3
LIFE-SCI 490WI	Senior Seminar	3
LIFE-SCI 499	Undergraduate Research	1-3
LIFE-SCI 497	Special Topics	1-3

5. Students must complete additional biology majors coursework to total 42 credit hours of biology courses with grades of C- or better. At least 26 of these must be at the 300- or 400-level. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences. The UM biology GPA must be at least 2.0.

B. Physical sciences and mathematics requirements

All of the following courses are required. A grade of C- or better is required in each course used to fulfill these requirements.

		Hours
MATH 210	Calculus I	4
MATH 220 or STAT 235	Calculus II or Elementary Statistics	3-4
PHYSICS 210 or PHYSICS 240	General Physics I or Physics for Science and Engineering I	4-5
PHYSICS 220 or PHYSICS 250*	General Physics II or Physics for Science and Engineering II*	4-5
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry Laboratory I	1
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry Laboratory II	1

*Students may choose LIFE-SCI 401, Biophysical Principles (3 credit hours) as an alternative to PHSYICS 250.

A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level.

Bachelor of Science in Medical Technology

In the B.S. in medical technology program, the typical student spends the first three years completing the general education and basic science course requirements for the baccalaureate degree on the UMKC campus.

A final 12-month course of clinical studies is completed in an affiliated hospital program accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Affiliated clinical programs are located at North Kansas City Hospital and Saint Luke's Hospital. Admission into the medical technology degree program does not ensure acceptance by an affiliated hospital.

Degree Requirements

In addition to the general education requirements outlined previously, students pursuing a B.S. degree in medical technology must meet the following requirements:

A. Biology Course Requirements

A total of 32 credit hours of biology courses must be completed with grades of C- or better and at least 16 of these must be at the 300/400-level. Ten credit hours from the 30-credit-hour clinical year is counted toward the 42 credit hours required for a B.S. degree. A minimum of 16 credit hours of biology courses must be taken at the School of Biological Sciences.

1. The following courses are required:

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3
LS-PHYS 316	Principles of Physiology	3
LS-MCRB 313	Microbiology	3
LS-MCRB 313WL	Laboratory in Microbiology	3
LS-MCRB 435	Immunology	3

2. In addition, students must take three or more hours, one hour of which must be upper-level, to be chosen from:

		Hours
BIOLOGY 328	Histology	2
BIOLOGY 328L or BIOLOGY 328WL	Laboratory in Histology and Cellular Ultrastructure (WI)	3
LS-ANATO 118	Introductory Anatomy	3
LS-ANATO 118L	Introductory Anatomy Lab	2
LS-MCRB 431	Virology	3
LIFE-SCI 401	Biophysical Principles	3
LS-BIOC 430	Molecular Biology and Genetic Engineering	3
LS-BIOC 360L or LS-BIOC 360WL	Laboratory in Biochemistry and Molecular Biology	3

B. Additional Science and Mathematics Course Requirements

The following courses in mathematics, physics and chemistry are required with grades of C- or better.

		Hours
MATH 210 or STAT 235	Calculus I Elementary Statistics	4 3
PHYSICS 210	General Physics I	4
PHYSICS 220	General Physics II	4
CHEM 211	General Chemistry I	4

CHEM 211L	Experimental General Chem. I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chem. II	1
CHEM 320	Elementary Organic Chemistry	4
CHEM 320L	Experimental Organic Chemistry	1
CHEM 341	Analytical Chemistry I: Quantitative Analysis	4

C. Clinical Program

Students must satisfactorily complete a clinical program at an affiliated hospital. This will allow the student to earn 30 credit hours toward the bachelor's degree. Ten of the clinical hours are allowed as upper-level biology credit toward the 42 hours required and 20 clinical hours are allowed as upper-level general science credit. Completion of the clinical program fulfills the Biology synthesis requirement, and the Major Field Exam is waived as the student is off campus their final year.

Elective Courses for the Non-Biology Major

Students in other academic units are encouraged to select courses in the School of Biological Sciences to meet their general education requirements and to complement their major area of study. Suggested courses include BIOLOGY 102, 102L, LS-ANATO 118, 118L, LS-MCRB 112, and LS-PHYS 117. BIOLOGY 108, 109, 202, 206 and upper-level courses for which prerequisites have been satisfied are recommended for those students who wish to gain a strong foundation in biological sciences. Students enrolling in these biology majors' courses should have a solid background in high school biology and chemistry.

Bachelor of Arts in Biology

Student Learning Outcomes

Students earning a B.A. from the School of Biological Sciences:

- Will have acquired fundamental knowledge in the biological sciences.
- Will have acquired specialized knowledge in cellular, molecular and biochemical aspects of modern biology.
- Will have acquired knowledge in the supporting areas of math and science, including chemistry, physics and statistics or calculus.
- Will have been encouraged to participate in discovery through faculty-directed individual research projects.
- Will have pursued interests in areas of biology beyond the core curriculum through elective coursework.
- Will have demonstrated proficiency in scientific writing.
- Will have acquired the skills needed to independently attain knowledge on topics in biology through literature research.
- Will have completed an individualized plan of study that will prepare them to be competitive in applications for admission to graduate degree programs, professional programs, or technical/industrial careers.
- Will have obtained a well-rounded general education in oral and written communication, humanities and the social sciences.
- Will have been encouraged to consider historical, cultural and ethical impacts and aspects of biology.

The B.A. degree program in biology is designed to accommodate students who want a solid background in the biological sciences, but who need less rigorous studies in the supporting sciences of chemistry, mathematics and physics. It is also recommended for students who plan to pursue double majors.

Degree Requirements

In addition to meeting the general education degree requirements outlined previously, students pursuing the B.A. degree in biology must meet the following requirements:

A. Biology Course Requirements

1. The following core courses (17 credit hours):

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3

2. One of the following biology laboratory courses (minimum 2 credit hours).

		Hours
BIOLOGY 312WL	Laboratory in Developmental Biology, Genetics and Cell Biology	3
LS-MCRB 313L or LS-MCRB 313WL	Laboratory in Microbiology	3
BIOLOGY 328L or BIOLOGY 328WL	Laboratory in Histology and Cellular Ultrastructure	3
LS-BIOC 360L or LS-BIOC 360WL	Laboratory in Biochemistry and Molecular Biology	3
LS-ANATO 118L	Introductory Anatomy Laboratory	2

3. Biology Synthesis requirement (Choose a total of 3 credit hours.)

		Hours
BIOLOGY 498WI	Critical Analysis of Biological Issues (WI)	3
LIFE-SCI 490WI	Senior Seminar (WI)	3
LIFE-SCI 499	Undergraduate Research	1-3
LIFE-SCI 497	Special Topics	1-3

4. Students must complete additional biology majors coursework to total at least 38 credit hours of biology courses with grades of C- or better. At least 24 of these must be at the 300- or 400-level. One of these courses must be writing intensive. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences. The UM Biology GPA must be at least 2.0.

B. Additional Science and Mathematics Course Requirements

The following courses must be completed with grades of C- or better:

		Hours
MATH 210 or STAT 235	Calculus I Elementary Statistics	3-4
PHYSICS 210	General Physics I	4
CHEM 211	General Chemistry I	4

CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
CHEM 320	Elementary Organic Chemistry	4
CHEM 320L	Experimental Organic Chemistry	1

Bachelor of Science in Biology

Students earning a B.S. from the School of Biological Sciences:

- Will have acquired fundamental knowledge in the biological sciences.
- Will have acquired specialized knowledge in cellular, molecular and biochemical aspects of modern biology.
- Will have acquired knowledge in the supporting areas of math and science, including chemistry, physics and statistics or calculus.
- Will have been encouraged to participate in discovery through faculty-directed individual research projects.
- Will have pursued interests in areas of biology beyond the core curriculum through elective coursework.
- Will have demonstrated proficiency in scientific writing.
- Will have acquired the skills needed to independently attain knowledge on topics in biology through literature research.
- Will have completed an individualized plan of study that will prepare them to be competitive in applications for admission to graduate degree programs, professional programs, or technical/industrial careers.
- Will have obtained a well-rounded general education in oral and written communication, humanities and the social sciences.
- Will have been encouraged to consider historical, cultural and ethical impacts and aspects of biology.

Program Requirements

The B.S. degree program is a rigorous curriculum designed for students interested in preparing for graduate studies or a professional school, or pursuing entry level employment in a science-related field.

Requirements

In addition to the general education requirements, students pursuing the B.S. degree in biology must meet the following requirements:

A. Biology Course Requirements

1. The following core courses (17 credit hours) are required.

		Hours
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
BIOLOGY 202	Cell Biology	3
BIOLOGY 206	Genetics	3
LS-BIOC 341	Basic Biochemistry	3

2. Two of the following laboratory courses are required for a minimum of 5 credit hours. One of these courses must be a Writing Intensive (WI) course. The second may be taken using the non-WI option.

		Hours
BIOLOGY 312L or BIOLOGY 312WL	Laboratory in Developmental Biology, Genetics and Cell Biology (WI)	3
LS-MCRB 313L or	Laboratory in Microbiology(WI)	

LS-MCRB 313WL		3
BIOLOGY 328L or	Laboratory in Histology and	
BIOLOGY 328WL	Cellular Ultrastructure (WI)	3
LS-BIOC 360L or	Laboratory in Biochemistry	
LS-BIOC 360WL	and Molecular Biology (WI)	3
LS-ANATO 118L	Introductory Anatomy Laboratory	2

3. The Biology Synthesis requirement may be met by a total of 3 credit hours chosen from the following:

		Hours
BIOLOGY 498WI	Critical Analysis of Biological Issues (WI)	3
LIFE-SCI 490WI	Senior Seminar (WI)	3
LIFE-SCI 499	Undergraduate Research	1-3
LIFE-SCI 497	Special Topics	1-3

4. Students must complete additional biology majors coursework for a total of 42 credit hours of biology courses with grades of C- or better. 26 of these hours must be junior/senior level. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences.

B. Physical Sciences and Mathematics Course Requirements

The following courses must be completed with grades of C- or better.

		Hours
MATH 210	Calculus I	4
MATH 220 or	Calculus II or Elementary	
STAT 235	Statistics	3-4
PHYSICS 210 or	Gen. Physics I or Physics	
PHYSICS 240	for Science and Engineering I	4-5
PHYSICS 220 or	Gen. Physics II or Physics for	
PHYSICS 250*	Science and Engineering II*	4-5
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry Laboratory I	1
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry Laboratory II	1

* Students may choose LIFE-SCI 401 Biophysical Principles (3 credit hours) as an alternative to PHYSICS 250.

Suggested Plan of Study

This is a general plan that may be adjusted to accommodate individual background interests, abilities and career objectives.

Freshman Year

Fall Semester		Hours
BIOLOGY 108*	General Biology I	3
BIOLOGY 108L*	General Biology I Lab	1
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
General Education Requirement (ex: COMM-ST 110)		3
Total:		12

Spring Semester		Hours
BIOLOGY 109*	General Biology II	3
BIOLOGY 109L*	General Biology II Lab	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
General Education Requirement (ex. ENGLISH 110)		3
General Education Requirement (ex. Higher Order Thinking elective)		3
Total:		15

*General Biology II may be taken before General Biology I if desired.

Sophomore Year

Fall Semester		Hours
BIOLOGY 202	Cell Biology	3
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry I Lab	1
MATH 210*	Calculus I	4
General Education Requirement (ex. ENGLISH 225)		3
General Education Requirement (ex. Constitution requirement)		3
Total:		17

* Prerequisite MATH 110 or 4 years HS Math including Algebra II, and Trigonometry.

Spring Semester		Hours
BIOLOGY 206	Genetics	3
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry II Lab	1
MATH 220 or	Calculus II or Elementary	
STAT 235	Statistics	3-4
BIOLOGY ____	Biology Elective	3
Total:		13-14

Junior Year

Fall Semester		Hours
LS-BIOC 341	Basic Biochemistry	3
BIOLOGY ____	Biology Elective	3
PHYSICS 210 or	General Physics I or	
PHYSICS 240	Physics for Science and Engineering I	4-5
General Education Requirement (ex. Humanities Elective)		3
Elective		2
Total:		15-16

Spring Semester		Hours
BIOLOGY ____	Biology Elective	3

BIOLOGY ____	Biology Lab Elective	3
PHYSICS 220 or	General Physics II or	
PHYSICS 250	Physics for Science and Engineering II	4-5
General Education Requirement (ex. Higher Order Thinking elective)		
Elective		2
Total:		15-16

Senior Year

Fall Semester		Hours
BIOLOGY ____	Biology Elective	3
BIOLOGY ____	Biology Elective	3
BIOLOGY ____	Biology Lab Elective	3
General Education Requirement (ex. Social & Behavioral Science Elective)		
General Education Requirement (ex. Fine Art Elective)		3
Total:		15
Spring Semester		
BIOLOGY ____	Biology Synthesis	3
General Education Requirement (ex. Social and Behavioral Science Elective)		
BIOLOGY ____	Biology Elective	3
Elective		3
Elective		3
Total:		15

Students must complete a total of 42 credit hours of biology courses with grades of C- or better and maintain a cumulative UM Biology GPA of at least 2.0. 26 of these credit hours must be junior/senior level and must include LS-BIOC 341, a biology synthesis course, and two laboratory courses. One Biology Lab must be Writing Intensive.

The Honors Program

The School of Biological Sciences offers a biology honors program for bachelor of science undergraduate students interested in pursuing rigorous preparation for advanced professional training and scientific careers. The program combines a requirement for high levels of academic achievement with hands-on undergraduate research with a faculty mentor. Biology honors students are included in all scholarly and social events of the School of Biological Sciences graduate program. Students are encouraged to apply by contacting the School of Biological Sciences Undergraduate Programs Office.

Freshman students may be accepted into the honors program if they are in the top 10 percent of their high school graduating class and have a composite score greater than 1300 on the SAT, 1350 on the recentered SAT, or 30 on the ACT. Eligible students may also be accepted at the end of their freshman year or later (until the beginning of their junior year or 70 credit hours). Requirements for admission at the end of the freshman or sophomore year for UMKC students or transfer students include:

1. A 3.5 minimum undergraduate GPA.
2. A 3.5 undergraduate GPA in sciences/mathematics.
3. Satisfactory progress to that point in the B.S. degree program, including completion (minimally) of CHEM 211 and 212R, MATH 210, and BIOLOGY 108 and 109 or equivalents, with grades of B or better.
4. An interview to explore the student's interests and identify an appropriate faculty mentor.

Graduation with a B.S. in biology with honors will be noted on the official university transcript and records of those students who:

1. Complete all of the B.S. degree requirements.
2. Complete at least two semesters (4 credit hours total) of undergraduate honors research LS 499M with a grade of B or better.
3. Maintain a 3.5 UM GPA; 3.5 science/mathematics UM GPA.

4. Successfully complete a semester of honors seminar LS HONORS 490WI.
5. Satisfactory completion of of an undergraduate (senior) research thesis.

Requirements for retention in the Biology Honors Program include the following:

1. Students must maintain a 3.5 minimum UM cumulative GPA and a 3.5 minimum Math-Science GPA to be in good standing in the biology honors program.
2. Should either the cumulative or Math-Science GPA drop below 3.5, but not below 3.2 in any given semester, the student will be retained in the biology honors program for an additional semester. The student must restore the GPA to the 3.5 minimum at the end of that semester. A student who has less than a 3.2 cumulative UM GPA at the end of any semester will be dropped from the biology honors program.
3. Students must make satisfactory progress in the biology honors program, as determined by the SBS Academic Standards Committee, in order to be retained in the program.

Requirements for Bachelor of Arts in Biology for combined BA/MD Dual Degree Program

1. General education requirements are the same for all students pursuing a Bachelor's degree in SBS. Students in the 6 yr BA/MD program will apply specific courses required by the medical program to fulfill these requirements.

2. Physical sciences and mathematics requirements: All of the following courses are required.

A grade of C- or better is required in each course used to fulfill these requirements.

MATH 210 or STAT 235	Calculus I or Elementary Statistics	3-4 cr. hr.
PHYSICS 210 or 240	General Physics I or Physics for Science and Engineering I	4-5 cr. hr.
CHEM 211	General Chemistry I	4 cr. hr.
CHEM 211L	Experimental General Chemistry I	1 cr. hr.
CHEM 212R	General Chemistry II	4 cr. hr.
CHEM 212LR	Experimental General Chemistry II	1 cr. hr.
CHEM 320	Elementary Organic Chemistry	4 cr. hr.
CHEM 320L	Experimental Organic Chemistry	1 cr. hr.

3. Biology course requirements. Biology courses that fulfill the BA degree requirements are listed below. A total of 38 credit hours of biology courses is required and at least 24 of these must be at the 300 or 400 level. A minimum of 21 credit hours of biology courses must be earned from UMKC SBS. A grade of C- or better is required in each course used to fulfill these requirements.

A. All of the following courses are required of all students seeking the BA degree in Biology. These core curriculum requirements constitute a total of 17 credit hours plus 2 credit hours of elective upper level biology.

BIOLOGY 108	General Biology I	3 cr. hr.
BIOLOGY 108L	General Biology I Lab	1 cr. hr.
BIOLOGY 109	General Biology II	3 cr. hr.
BIOLOGY 109L	General Biology II Lab	1 cr. hr.
BIOLOGY 202	Cell Biology	3 cr. hr.
BIOLOGY 206	Genetics	3 cr. hr.
BMS 9265	Human Biochemistry	5 cr. hr.

B. The following courses are required for 10 credit hours.

LS-MCRB 313	Microbiology	3 cr. hr.
BMS 9296, 9297,		
BMS 9298, 9299	Human Structure Function	7 cr. hr.

C. The following laboratory courses are required.

LS-MCRB 313WL	Laboratory in Microbiology	3 cr. hr.
LS-ANATO 119L	Functional Anatomy Lab I	1 cr. hr.

D. Dual Degree requirement

LS-ANATO 119	Functional Anatomy I	3 cr. hr.
--------------	----------------------	-----------

E. Biology Synthesis Requirement
(Choose a total of 3 credit hours)

BIOLOGY 498WI	Critical Analysis of Biological Issues	3 cr. hr.
LIFE-SCI 490WI	Senior Seminar	3 cr. hr.
LIFE-SCI 497	Special Topics	1-3 cr. hr.
LIFE-SCI 499	Undergraduate Research	1-3 cr. hr.

F. Additional 3 credit hours of upper level biology coursework is needed to complete the total of 38 required credit hours in biology, 24 of which must be junior/senior level and one of which must be a writing intensive course. Selected course should not duplicate topics or course material from Human Structure Function series.

4. The UM Biology GPA must be at least 2.0.

5. A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

About the Bloch School

Degree Programs

The Bloch School offers the degrees of bachelor of business administration (B.B.A.), bachelor of science in accounting (B.S. in accounting), master of business administration (MBA), master of public administration (M.P.A.) and the master of science in accounting (M.S. in accounting). Within the MBA program there is an Executive MBA (EMBA) offering. Additionally, the School has two joint degree programs with the UMKC School of Law, the J.D./MBA and the J.D./M.P.A. degrees, and also participates in the Interdisciplinary Ph.D. program. For those students who are enrolled in non-business undergraduate degree programs at UMKC, the Bloch School offers a business minor.

History

The University has offered business courses since 1933. In 1953, with the support and encouragement of the Kansas City community, the School of Business Administration was established. Since that time, the Bloch School has grown to a student body of 1,500 and a faculty of approximately 45 professional educators. In January 1988, the School was renamed for Henry W. Bloch, co-founder of H&R Block, and moved into a newly expanded building.

Mission and Vision

The Henry W. Bloch School of Business and Public Administration prepares entrepreneurial and innovative leaders to meet the demands of a changing world and advances knowledge and practice through excellent teaching, scholarship, outreach and service.

The Bloch School is a dynamic urban school of business and public administration serving its community and the larger world through excellent teaching, scholarship, outreach, and service. Our graduates are recognized for their innovative solutions to the challenges of a changing global marketplace, entrepreneurial mindset, ethical conduct and critical thinking skills. Our creative scholarship enhances both theoretical understanding and practical applications, and our service and outreach activities advance careers by expanding access to learning and professional development.

Accreditation

The Bloch School is accredited by AACSB International - The Association to Advance Collegiate Schools of Business and by the National Association of Schools of Public Affairs and Administration (NASPAA).

Advising and Student Services

Staff in the Student Services Office, room 115 of the Bloch School, assist students in applying for admission, planning programs and registering for courses. Freshmen and junior students must be advised each semester and advising is required for new students. Advising information can be found at <http://www.bloch.umkc.edu/current-students/student-services/advising/index.aspx>. Faculty of the School's four curricular departments are also available to discuss students' programs. Students in the MPA and MSA programs are advised by departmental faculty.

Scholarships

The Bloch School offers numerous scholarships for students enrolled in Bloch degree programs. Information and applications are available on the Bloch School Web site at <http://www.bloch.umkc.edu/current-students/bloch-scholarships/index.aspx>. February 1 is the deadline for the majority of these scholarships, which are awarded for the following academic year. For information on loans, grants and other financial aid, contact the UMKC Student Financial Aid and Scholarships Office.

Internships

Students who want to experience work opportunities while in school are encouraged to take their learning beyond the classroom through internships. For-credit internships typically carry one to three hours of credit. To earn academic credit, students should identify a Bloch School faculty member qualified and willing to supervise an internship, complete an internship form available on the Bloch School Web site at <http://www.bloch.umkc.edu/current-students/student-services/forms/index.aspx> and enroll in an approved internship course. Interested students may contact the UMKC Career Services Office or refer to the Bloch School Career Launcher (available on Blackboard for students admitted to the Bloch School) for internship opportunities.

International Study Abroad

Bloch School students have the opportunity to study abroad for credit. Students may study for a semester, an academic year or in a special summer program at business schools in Europe and other parts of the world. The Bloch School maintains bilateral exchange agreements with business schools in the United Kingdom, France, Germany, Mexico and Spain. Students who are interested in study abroad opportunities should contact the Bloch School Student Services Office or the UMKC Center for International Academic Programs.

Undergraduate Policies and Procedures

Admission Requirements

Admission to undergraduate programs is available in the fall, spring and summer semesters. Students can elect to attend classes full-time or part-time and although the majority of courses are offered during the day, courses are also offered in the evening. Both first-time college students and transfer students are eligible to be admitted to the Bloch School if they meet regular UMKC entrance requirements. Those transferring from other institutions must have 2.5 cumulative and University of Missouri (UM) GPAs. Applicants should go to the Bloch School Web site at <http://www.bloch.umkc.edu/> for current course and grade requirements and for application materials and deadlines.

Retention Standards

Students in the bachelor of business administration (B.B.A.) or the bachelor of science in accounting (B.S. in accounting) programs are required to maintain a 2.25 cumulative University of Missouri GPA while enrolled in these programs. Students with GPAs that fall below the minimum 2.25 requirement are placed on probation and are allowed two successive semesters (including the summer semester, if enrolled) to restore their GPAs to the required 2.25. While on probation, undergraduates must achieve a 2.25 term GPA in order to enroll for the ensuing term. If a student's term GPA is below a 2.25 or, if after two successive semesters, the cumulative University of Missouri GPA is still below a 2.25, the student will become academically ineligible to enroll. Good standing is achieved only if the GPAs are 2.25. A 2.25 average in all junior/senior in-major courses is required as well.

Graduation Requirements

All students must pass the Written English Proficiency Test (WEPT) before enrolling in MGT 301 (Effective Business Communication). Information regarding the WEPT is given in the academic calendar and can be found online at <http://cas.umkc.edu/english/programs/writing/wept.htm>.

The B.B.A. and B.S. in accounting degrees will be awarded on satisfaction of the following:

1. Completion of the degree requirements: minimum of 123 credit hours.
2. Achievement of a 2.25 GPA; satisfactory academic standing is based on:
 - o Cumulative GPA of 2.25 for all University of Missouri courses; and
 - o GPA of 2.25 for all required junior- and senior-level, in-major courses.
3. Completion of the final 30 consecutive semester hours of coursework at UMKC.
4. Completion of the Written English Proficiency Test, the Measure of Academic Proficiency and Progress, the Major Field Assessment Test and other assessment exercises as assigned by the Bloch faculty.
5. Filing of a required application for graduation at the beginning of the senior year.

Students are responsible for ensuring their course of study falls within program guidelines. Students should contact the Bloch School Student Services Office for current policies and program requirements. Updates to programs can also be found on the Bloch School Web site at <http://www.bloch.umkc.edu/>.

Academic Loads

See the General Undergraduate Academic Regulations and Information section of this catalog.

Concurrent Enrollment

For the policy on earning credit at another college concurrently with credit at UMKC, see the General Undergraduate Academic Regulations and Information section of this catalog.

Credit by Exam

Students who have received credit by exam from a previous institution must present certified scores to the UMKC Records Office. These scores must be acceptable to the department at UMKC housing the subject area. Credit by exam is not permitted after admission into the junior/senior portion of Bloch School programs. Bloch School freshmen and sophomore students should talk with an academic adviser in the Student Services Office about credit by exam restrictions.

Credit/No Credit

All undergraduate courses in the Bloch School must be taken for a letter grade, except for internship courses (496) which are taken credit/no credit.

Exceptions

Exceptions to academic regulations must be approved by the Bloch School Student Services Office or the curricular department. To seek exceptions, students must file a Petition for Exception to Academic Policy, available in the Student Services Office, room 115 of the Bloch School. Written requests are also accepted via e-mail.

Independent Study

Students are limited to a total of six hours of Bloch School internship/independent study coursework, numbering 496 and 497. Interested students should consult with an adviser in the Bloch School Student Services Office.

Graduate Policies and Procedures

Admission Requirements

Admission to Bloch School graduate programs is based on evaluation of qualifications. Applicants to the MBA and M.S. in accounting programs are considered for admission based on their scores on the Graduate Management Admission Test (GMAT), undergraduate cumulative grade point averages and other criteria established by the faculty. Applicants to the Executive MBA (EMBA) program are considered for admission based on educational record and career history, quality and length of professional and managerial experience, strength of personal interview and one written essay, two references and support of employer. A GMAT score is not required for application to the EMBA program, but may be requested by faculty. Applicants to the M.P.A. program are considered for admission on the basis of undergraduate cumulative grade point average and Graduate Record Examination (GRE) scores (verbal and quantitative sections). The emphasis in health services administration in the M.P.A. program has additional admission requirements. Application materials describing these requirements can be found on the Bloch School Web site at <http://www.bloch.umkc.edu/>

Most classes are offered on weekday evenings. Selected courses may be offered in an intensive weekend format. EMBA courses are offered on weekends.

Retention and Graduation Requirements for Graduate Students

All students enrolled in any of the Bloch School graduate programs (MBA, EMBA, M.S. in accounting and M.P.A.) must maintain a minimum 3.0 grade point average (GPA) in all courses for which graduate credit is given. Students with GPAs that fall below the minimum 3.0 are placed on probation and are allowed two successive semesters (including the summer semester, if enrolled) to restore their GPAs to the required 3.0 level. No course with a grade below B- (2.7), in any 300- or 400-level course, or below C (2.0) in any 5000-level course or above, will count toward any advanced degree program; however, the grade will be included in the calculation of the student's GPA. Eighty percent of the credits for the degree must be passed with a grade of B (3.0) or better.

An official program of study must be filed with the Bloch School Student Services Office once an emphasis area has been declared. For the M.P.A. program, this must occur once a student has reached 18 hours. This form constitutes a contract and must be signed by the student, faculty adviser and department chair. Any changes to the program must be approved on a new form by the same three individuals.

Students are responsible for ensuring their course of study falls within the program guidelines. Students should contact the Bloch School Student Services Office for any updates to policies and program requirements. Updates to the programs can also be found on the Bloch School Web site at <http://www.bloch.umkc.edu/>.

All students must file an application for graduation and program of study by the announced campus deadline during the student's last semester in the program (students are encouraged to submit these forms earlier if possible). This application and the program of study must be filed by the announced deadline in order to obtain the degree. Both documents can be found on the Bloch School Web site at <http://www.bloch.umkc.edu/current-students/student-services/forms/index.aspx>.

Transfer Credit

Students may transfer up to 20 percent of the graduate credit hours required for their program (for the MBA and M.S. in accounting, this applies only to courses beyond the core and is limited to six hours). Coursework must be from an accredited institution, with a grade of B or better, and appropriate to the student's program. Also, the coursework must have been completed within seven years of completion of all requirements for the degree. Evaluation of transfer credit is done by faculty and requires documentation provided by the student.

Independent Study

Students are limited to no more than six hours of independent study/internship and no more than three hours of any one practicum, including the small business practicum. For the M.P.A. program, students are limited to a total of six hours, of which three credit hours can be an internship. Interested students should consult with an adviser in the Bloch School Student Services Office.

Student Organizations

Student Organizations

Beta Alpha Psi

UMKC's Epsilon Delta chapter of Beta Alpha Psi, the national scholastic and professional accounting fraternity, provides opportunities for self-development and association among student members, practicing accountants and accounting faculty. Activities include technical programs presented by members and professionals, tutoring, taxpayer assistance, field trips and social events.

Beta Gamma Sigma

Beta Gamma Sigma is a national honor society for students in business administration and accounting, including students, faculty, members of the administrative staff, alumni and honorary members. Membership is by election from graduate students in the upper 20 percent of their graduating class, with a minimum 3.5 GPA, and seniors in the top 10 percent of their graduating class. Invitations are extended to qualifying students each spring.

Bloch School Student Association

The Bloch School Student Association (BSSA) (BSSA) elects a board of directors to represent the student body on various campus and school administrative committees and sponsors a number of activities and events.

Entrepreneurship and Innovation Club

The Ei Club facilitates the growth of entrepreneurship and innovation across the entire UMKC campus campus. Through the Institute for Entrepreneurship and Innovation, the Kansas City metropolitan area. The club Ei Club helps facilitate and offer: offers networking opportunities with entrepreneurs, business leaders, entrepreneurs, inventors and

academics, academics; seminars and lunches with successful entrepreneurs, entrepreneurs; training in public speaking, internship opportunities, opportunities; advising in entrepreneurship and innovation and the opportunity to compete participate in the Institute for Entrepreneurship Institute's Venture Creation Challenge and Innovation's annual business plan competition. other programs. For additional information, e-mail: entrepreneurship@umkc.edu or visit the Institute's website.

Delta Sigma Pi

Delta Sigma Pi, the nation's largest professional business fraternity, is open to students interested in all fields of business. Through professional speakers and seminars, developmental workshops and interactive social events with business leaders, faculty members and prominent alumni, the fraternity provides students an excellent opportunity to explore the business environment while still concentrating on academics.

Financial Management Association

The Financial Management Association serves as a medium for students to become acquainted with finance practitioners and their activities. FMA also highlights what the industry expects from new graduates and how students can best prepare themselves to become successful professionals in today's job market.

Public Administration Student Association

Public Administration Student Association (PASA) PASA is made up of MPA and I.Ph.D. students who are interested in networking and socializing with students and faculty outside the classroom to enrich their experience at UMKC. PASA's purpose is to engage students academically, professionally, and socially in the study and practice of public administration.

Students in Free Enterprise

SIFE is one of the largest student organizations in the world with teams on more than 1,600 college and university campuses in the United States and in more than 40 countries throughout the world. Working together as a team, SIFE students apply their classroom experiences to develop and implement educational outreach programs that educate individuals in their communities about the principles of market economics, success skills, environmental sustainability, entrepreneurship, financial literacy and business ethics. At the end of the year, teams present their year's efforts and compete at regional competitions, with the winners going on to national and international competitions. The UMKC SIFE team has been very successful in these competitions, winning awards and receiving national attention.

Doctor of Philosophy

Through the Department of Public Affairs, and the Institute for Entrepreneurship and Innovation (IEI), the Bloch School participates in the Interdisciplinary Ph.D. program. Information about discipline-specific admission and program requirements may be found in the School of Graduate Studies section of this catalog. Those interested in doctoral study also may wish to contact the coordinators of doctoral studies for these programs, Dr. Nicholas Peroff, Public Affairs,  at (816) 235-2341 and Dr. Mark Parry, IEI,  at (816) 235-6724.

Master of Business Administration

Student Learning Outcomes

The Bloch School MBA graduate will develop a professional perspective for a career in business, and will be able to:

- Communicate effectively in both oral and written forms.
- Develop an understanding of the functional skills of financial reporting, analysis, and markets; domestic and global economic environments of organizations; creation and distribution of goods and services; and human behavior in organizations; and their inter-relationship.
- Gain a perspective of ethical and global business issues.
- Understand the influence of political, social, legal and regulatory, and environmental and technological issues on business.
- Manage the impact of demographic diversity on organizations.
- Use and apply quantitative analysis skills.
- Demonstrate appropriate use of computerized business applications.

The Bloch School offers a master of business administration (MBA) and an executive master of business administration (EMBA). Students enrolling in the MBA program are required to choose among eight emphasis areas, and their programs will consist of between 30 and 48 credit hours. Most MBA students attend evening courses on a part-time basis and admission is available in the fall, spring and summer semesters. EMBA students enter a cohort-based, lockstep program that offers an integrated curriculum with the themes of leadership, strategic thinking, and innovation woven throughout the program. This full-time program meets three times per month, (one Friday/Saturday and one additional Saturday) over a 21-month period, with admission taking place only in the fall.

MBA core courses stress the knowledge and skills needed to deal with an organization and its personnel. The functional courses (accounting, finance, production, economics and marketing) develop specialized knowledge and skills. In addition, the MBA program stresses leadership and the related social and public responsibilities for those in business.

The Curriculum

The MBA degree requires a minimum of 30 hours and a maximum of 48 hours, depending upon the student's educational background. (Of the total 30-48 hours, 12-18 hours beyond the core must be outside the student's area of emphasis).

Students may pursue the MBA program full-time or part-time. Students who have completed the Bloch School B.B.A. or B.S. in accounting programs with grades of C or better in required courses, and who have met MBA admissions standards, may enter directly into the courses beyond the core of the MBA program and complete the degree requirements with 30 hours of coursework. Additionally, students who have completed an undergraduate business degree from an AACSB-accredited institution and have met the MBA admissions standards, are waived from the core with a grade of C or better in the equivalent undergraduate courses.

Students with prior coursework in business (C or better grades) may be exempted from up to 18 credit hours of the 48 required for the degree. Waivers and exemptions are determined based on documentation provided by the student. **Note:** Students who repeat courses that have been waived from their program may not count the repeated course for credit toward their degree.

Previous college work in business is not required, but students with no preparation in mathematics and computer applications must complete Math 110 and MIS 202.

1. Core Courses: 24 Hours

- ACCTNG 5517 Survey of Accounting
- DSOM 5508 Statistical Analysis in Business
- DSOM 5519 Supply Chain and Operations Management
- FIN 5501 Economics for Administration
- FIN 5532 Financial Management
- MGT 5505 Organizational Behavior
- MGT 5510 Legal & International Environment of Business
- MKT 5531 Contemporary Marketing Management

2. Beyond Core Courses: 24-30 Hours

The minimum of 30 credit hours must be completed for the MBA degree, with additional hours possibly required based on educational background. The following must be completed:

- MGT 5537 Competitive Strategies
- Emphasis Area (12 hours)
- Electives (9-15 hours outside of emphasis)

MBA Emphasis Areas

The MBA program offers advanced study in eight emphasis areas:

- Entrepreneurship

- Finance
- General Management
- International Business
- Leadership and Change in Human Systems
- Management of Information Systems
- Marketing
- Operations Management

Each emphasis area is comprised of 12 hours. No more than 12 hours from any one area (beyond the core) can be used toward the MBA. For the most current information on emphasis areas, consult the Bloch School Web site at <http://www.bloch.umkc.edu/graduate/mba/mba-emphasis/index.aspx>.

Students can, with the consent of appropriate faculty, select any other Bloch courses that might fit within the emphasis areas listed below (courses outside the Bloch School require special approval). Students are strongly encouraged to work closely with an adviser in planning their programs so that the courses they choose will be of interest and benefit to them while fulfilling the requirements of the degree. Emphasis areas follow.

Entrepreneurship (12 hours)

Four courses selected from the following:

- ENT 5515 Entrepreneurship & Innovation Boot Camp
- ENT 5525 Entrepreneurship: Managing Creativity and Innovation
- ENT 5535 Small Business Management and Entrepreneurship
- ENT 5541 Personal Entrepreneurial Strategy
- ENT 5542 Technology & New Ventures I
- ENT 5543 Technology & New Ventures II
- ENT 5545 Entrepreneurship and New Venture Creation
- ENT 5585 Venture Capital Finance and Investment
- ENT 5587 Seminar in Entrepreneurship
- ENT 5591 Small Business Management Practicum
- ENT 5597 Independent Research in Entrepreneurship
- Any other course approved by Entrepreneurship faculty.

Finance (12 hours)

- FIN 5550 Advanced Financial Management Theory and Policies

Plus nine hours selected from the following:

- FIN 5551 International Financial Management
- FIN 5552 Global Financial Markets and Institutions
- FIN 5553 Investment Analysis
- FIN 5556 Management of Financial Intermediaries
- FIN 5557 Derivative Securities
- FIN 5559 Strategic Financial Management
- FIN 5582 Seminar in Finance

General Management (12 hours)

Select one course from four of the following course areas: Leadership and Change in Human Systems, Law and Society, Strategy and Planning, International Business, or Entrepreneurship (a list of courses in each area is available on the Bloch School Web site at <http://www.bloch.umkc.edu/graduate/mba/mba-emphasis/index.aspx#gm>).

International Business (12 hours)

Four courses selected from the following:

- DSOM 5544 Supply Chain and Logistics Management
- FIN 5551 International Financial Management

- FIN 5552 Global Financial Markets and Institutions
- MGT 5545 International Management
- MGT 5550 The Operation of International Business
- MGT 5552 International Study in Business
- MKT 5555 International Marketing

Leadership & Change in Human Systems (12 hours)

Four courses selected from the following:

- MGT 5516 Leading Teams
- MGT 5533 Leadership and Change in Organizations
- MGT 5560 Strategic Human Resources
- MGT 5566 Strategic Staffing
- MGT 5567 Total Rewards Management

Management of Information Systems (12 hours)

Four courses selected from the following:

- ACCTNG 5567 Information Systems Control and Audit
- MIS 5529 Decision Support & Expert Systems
- MIS 5552 Data Base Management
- MIS 5554 Systems Analysis, Design and Engineering
- MIS 5558 Management and Economics of Computing
- MIS 5569 Information Systems Consulting
- MIS 5580 Seminar in Information Systems

Additional elective courses may be selected from the following:

- DSOM 5514 Forecasting Theory & Applications
- DSOM 5542 ERP - Enterprise Resource Planning Systems
- DSOM 5543 Project Management
- DSOM 5544 ERP - Supply Chain and Logistics Management

Marketing (12 hours)

- MKT 5575 Advanced Marketing Strategy

Plus nine hours selected from the following:

- MKT 5539 Management in Direct Marketing
- MKT 5560 Buyer Behavior
- MKT 5561 Promotional Strategies in Marketing
- MKT 5562 Marketing Research
- MKT 5555 International Marketing

Additional elective courses may be selected from the following:

- MIS 5552 Data Base Management
- DSOM 5514 Forecasting Theory and Applications
- ECON 5525 Econometric Methods

Students may confer with a faculty member to select courses that concentrate in Marketing Research and Analysis, Direct Marketing, or other fields; students with an interest in Direct Marketing should complete the following courses: MKT 5539 and MIS 5552. These are not, however, separate emphasis areas.

Operations Management (12 hours)

Required nine hours:

- DSOM 5542 ERP - Enterprise Resource Planning Systems
- DSOM 5543 Project Management
- DSOM 5544 ERP - Supply Chain and Logistics Management

Select one of the following:

- DSOM 5540 Service Operations Management
- DSOM 5541 Total Quality Management

Two or more electives should be selected from the following:

- DSOM 5514 Forecasting Theory and Applications
- ACCTNG 5556 Cost Management
- MIS 5502 Elements of Management Information Systems

Note: Students should ensure that prerequisites are taken in the proper sequence. Prerequisites and program requirements may change. Consult the Bloch School Web site at <http://www.bloch.umkc.edu/> for current information.

Executive MBA Program

<http://www.bloch.umkc.edu/graduate/emba/index.aspx>

The Bloch Executive MBA (EMBA) is a highly-selective degree program for experienced professionals. The program offers a comprehensive integrated curriculum, field experiences, and four residencies. It is distinguished by an emphasis on cohort-learning, teamwork, hands-on projects, leadership coaching and development, and learning activities that contribute substantial value to participants, employers, and the larger community.

Students are admitted each spring to a new EMBA cohort through a special application process. Students begin coursework in late summer and program completion requires 21 months.

The program is composed of 16 semester-long, graduate-level courses and of four week-long immersion residencies that are focused on leadership, innovation, public policy and the global marketplace. A variety of teaching formats are employed, including case studies, group projects, simulations and role playing, fieldwork, interactive discussions, and renowned guest lecturers. Daylong classes meet three days per month (one Friday/ Saturday and one additional Saturday). Classes do not meet in the summer. To ensure that all students are up to speed on academic and business basics, the program starts with self-paced, on-line tutorials in key subject areas, such as finance, accounting, statistics and economics.

Executive Master of Business Administration (EMBA)

Graduates of the Bloch School's EMBA program will gain the business knowledge skills needed to excel as executives, entrepreneurs, and leaders. The EMBA graduate will:

- Define, analyze and evaluate decisions through an integrated analysis by using tools found in the major disciplines in the fields of business.
- Devise solutions for a variety of business problems and issues by using cohesive and logical reasoning patterns.
- Conceptualize a complex issue into a coherent written statement and oral presentation.
- Integrate leadership ideas and insights gleaned from coursework and deftly apply these to complex leadership scenarios. In addition, our students will show a much greater awareness of their own leadership strengths and development areas, and will be engaged in the lifelong process of taking action to strengthen their leadership competencies.
- Be exposed to and will comprehend the forces and personalities that shape America's business policy by working effectively in business policy teams.

Admissions Requirements

The EMBA is designed for experienced professionals who typically possess a minimum of 8 years of work experience with growing responsibilities for managing people, projects, and/or budgets. Admissions decisions are based on a combination of a solid academic record, demonstrated professional achievement, and evidence of a strong

commitment to learning and to career development. Further information on the Bloch EMBA program is available at (816) 235-2370 or at the program's web site <http://www.bloch.umkc.edu/graduate/emba/index.aspx>.

The Curriculum

Leadership Residency

- **Financial Decisions and Societal Goals** provides an overview of approaches to business strategy rooted in financial modeling and analysis. The focus is on identifying and developing strategic sensibilities that executives confront in the face of complexity and uncertainty.
- **Team and Community Building** kicks off the program to create relationships among the participants and faculty that facilitate and accelerate learning and to introduce students to the concepts and material in the leadership curriculum.

Semester 1

- **Leadership and Organizations** focuses on how organizations work and how leaders can set direction, marshal resources, and build support to move initiatives forward. The course provides tools and tactics for assessing organization needs and constraints through multiple lenses, and assessing one's own leadership strengths and weaknesses for development and alignment with organization needs.
- **Managerial Economics** studies the relationships between the economic theory and system as a whole and the ways in which their functioning is affected by the behavior of the interdependent sectors of which they are composed. Students will explore the major factors and determinants of economic prospects relevant to profit-maximizing production and pricing decisions for the firm.
- **Marketing Management** examines the role of marketing in driving profitable revenue growth in companies. Focus is placed on tools and approaches to analyzing and understanding customer needs—including the roles of market research and brand equity—and the development of integrated marketing plans to deliver to these needs.
- **Financial Reporting Systems** introduces generally accepted accounting principles and concepts along with the preparation and analysis of financial statements.

Semester 2

- **Organizational Finance** will give students a thorough introduction to financial management that blends appropriate amounts of relevant theory with practical application. Topics include discounting techniques and applications, evaluating capital expenditures, estimating cost of capital, and valuing stocks and bonds.
- **Influence, Persuasion and Change** presents ideas, strategies and tools for leading change in complex organizations. The course challenges students to think through the execution of change strategies through assessment or organizational power dynamics and appropriate influence styles for achieving results. Emphasis is placed on analyzing those attributes and skills most critical for building influence, especially in change initiatives, and on defining an ethical approach to leading, influencing, and persuading others.
- **Public Policy Context for Business Decisions** is designed to provide intensive exposure to the forces and personalities in Washington that shape America's business policy. EMBA participants learn how to understand and anticipate the impact of public policy on their businesses and how to become more effective participants in the national decision-making process. *(The course culminates in the 5 day Washington, D.C. residency.)*
- **Applied Statistical Methods** investigates the use of detailed sample data for purposes of estimating, predicting, forecasting, and explaining correlations among varied observations. Students will apply the concepts of probability theory, central tendency, sampling, inference, modeling, and forecasting to help solve managerial problems and support decision processes.

Innovation Residency

•

Entrepreneurship and Innovation Immersion is designed to give students a strong entrepreneurial mindset and to provide students with an understanding of the process for identifying and evaluating business opportunities. The immersion exposes students to complex and difficult new business creation and innovation tasks firms undertake to create profitable businesses and satisfied customers. A business simulator is used to serve as a continuing, evolving "case" in which course participants working in teams assume an entrepreneur or general manager's role. Students will execute true-to-life business decisions and compete with other students in a virtual business world.

Semester 3

- **Leadership Accountability and the Legal Implications** highlights the accountabilities of leaders and the challenges they face in the rapidly changing business environment. The course studies the political, social, ethical, and global environment in which American business organizations operate and the impact on today's leaders. Topics include creating and maintaining affiliate relationships and joint ventures, as well as prohibitions on anti-competitive behavior, protection of intellectual property, operating within a regulated environment and securities law.
- **Strategic Management** develops economic principles essential for the formulation and evaluation of strategy including industry analysis, strategic positioning and the boundaries of the firm. The course also addresses the capacity of executive leadership to create and communicate a clear direction for a company's future.
- **Operations Management for World Class Competitiveness** examines the basic principles and strategic use of managing the production and distribution of goods and services. This course positions operations as an important tool for achieving strategic leadership through competitive advantage. The managerial integration of OM functions with corporate strategy provides frameworks and tools for dramatically improving business processes.
- **Information Technology as a Strategic Tool** examines the critical linkage between an organization's business, cultural and information technology strategies. In organizations today, information technology has become a key component in accomplishing strategic and operational goals. The course provides concepts and a framework for understanding and enhancing the role IT can play in innovation, change, and continuous organizational learning.

Semester 4

- **Leadership, Strategy and Human Resources** focuses on the leader as a catalyst in developing high-performance, market-based cultures and as a human resources strategist in marshalling the workforce. Geared to the general manager, the course presents ideas and tools for building, bonding, and linking the workforce to accomplish the organization's mission. Topics include ideas and tools for identifying, recruiting, and retaining talent, developing and coaching subordinates, appraising and rewarding performance, and delegating to balance control and risk.
- **Global Initiatives in Management** examines the management of contemporary international business organizations in a global economy. The inter-relationship and impact of political, economic, social and technological factors is studied, together with the complex challenges of strategy and execution in global companies. ***(This course includes the 10 day, international residency experience in a major business center abroad.)***
- **Integrated Business Strategies - Capstone Course** integrates the disciplines of business to help the student develop an integrated understanding of business planning and strategy. Students will use cases and simulation to plan and test alternative business strategies in a competitive environment. The course examines the critical factors involved in strategic decision making.

The fourth course in the final semester is a student's choice from among two electives:

- **Innovation and Entrepreneurship** covers the entrepreneurial and innovation process from conception to birth of the new business. It looks at both process and people involved in assessing ideas, exploiting opportunities, and converting concepts into high-growth businesses. Application of these processes will be extended to both start-ups as well as new business groups within existing organizations, with an emphasis on nurturing a climate of innovation. Students will identify opportunities for high-growth potential new enterprises, develop a business plan, and present their plans to a panel of potential investors and/or senior managers. Topics covered include organization form, funding sources, the start-up team, and the product launch. **OR**

Advanced Topics in Finance covers financial topics of value to today's executive. The topics will address timely, emerging issues such as investments, valuation, mergers and acquisitions, and enterprise risk management.

Combined J.D./MBA Program

The Bloch School and UMKC School of Law offer the combined J.D. and MBA program. Students must satisfy the admission and degree requirements for each school. For further information, contact the School of Law or consult the Bloch School Web site at <http://www.bloch.umkc.edu/graduate/mba/jd-mba-joint-program/index.aspx>.

Master of Public Administration

Student Learning Outcomes

Graduates of the Master of Public Administration will acquire organizational, leadership, and managerial knowledge and skills to effectively lead public service organizations. Specifically, the students will:

- Demonstrate analytical/decision-making skills, including the appropriate use of technology applications.
- Use administrative and organizational skills.
- Practice strong communication skills.
- Show an understanding of ethical issues in managing public service organizations.
- Demonstrate self-confidence as a leader to deal with the non-standard solution (often termed ambiguity).
- Develop the ability to work in teams and network with other public administrators.
- Develop an appreciation of diversity within communities.

Public service offers a career filled with excitement, challenge, and significance. Opportunities are numerous, ranging from positions in local, state, national and international agencies to those in health institutions and nonprofit organizations. There has never been a greater opportunity for public service leaders and executives who can apply their knowledge and skills to solving the most important leadership and community challenges facing these organizations in an increasingly complex and changing world. The master of public administration degree program is offered through the Department of Public Affairs.

The Curriculum

The M.P.A. degree will be awarded on completion of 36 semester hours, consisting of 21 hours of required core courses, 9 to 12 hours in a selected emphasis area and up to 6 hours of electives. An internship is recommended for any student without substantial work experience in public, nonprofit or health administration. Individual courses may be waived if a student presents evidence of adequate undergraduate study, but other courses for graduate credit must be substituted to meet the minimum of 36 hours. **Note:** Students who repeat courses that have been waived from their program may not count the repeated course toward their degree.

Core Curriculum (21 hours)

The following courses are required for each student:

- PUB-ADM 5510 Research Methods in Public Administration
- PUB-ADM 5526 The Politics of Administration
- PUB-ADM 5548 Leadership for Public Service
- MGT 5513 Economic Policy and Managerial Control
- or-
- FIN 5501 Economics for Administration
- PUB-ADM 5525 Financial Accountability and Policy Development
- PUB-ADM 5544 Program Evaluation & Analysis
- PUB-ADM 5530 Capstone Seminar in Public Administration

Students selecting the health services administration emphasis have the following core requirements:

- PUB-ADM 5510 Research Methods in Public Administration

- PUB-ADM 5526 The Politics of Administration
- PUB-ADM 5548 Leadership for Public Service
- PUB-ADM 5530 Capstone Seminar in Public Administration
- HLTH-ADM 5578 The Evaluation and Control of Health Services
- HLTH-ADM 5571 Financial Management Issues in Health and Human Service Organizations
- HLTH-ADM 5585 Seminar in Health Services Administration: Economics of Health and Medicine

Electives (Up to 6 hours)

Elective courses may be selected from public administration, including courses in the student's chosen emphasis area. Courses may also be selected from political science, economics, psychology, sociology, as well as from other graduate fields with approval of the faculty adviser.

Emphasis Areas (9-12 hours)

Students seeking the master of public administration degree may specialize in three emphasis areas:

- Health Services Administration
- Nonprofit Management
- Urban Administration

A student may also tailor a general or specific program in order to meet individual talents, needs or job requirements. Such a program must be developed in consultation with a faculty adviser. Each course is worth three credits unless otherwise noted.

Health Services Administration (9 hours)

- HLTH-ADM 465 Contemporary Issues in Urban Public Health
- HLTH-ADM 5575 Long-Term Care Policy and Administration
- HLTH-ADM 5577 Health Service Administration and the Health Professions
- HLTH-ADM 5585 Seminar in Health Services Administration
- HLTH-ADM 5586 Supervised Research in Health Services Administration (independent study or internship)

Nonprofit Management (12 hours)

- PUB-ADM 455 Nonprofit Leadership Issues
- PUB-ADM 495 Voluntarism, Philanthropy and the Nonprofit Sector in the United States
- PUB-ADM 5551 Strategic Management in Nonprofit Organizations
- PUB-ADM 5552 Community Organizations and Public Policy
- PUB-ADM 5553 Legal Framework and Financial Management in Nonprofit Organizations
- PUB-ADM 5555 Topics in Nonprofit Fundraising (1-2 hours each)
- PUB-ADM 5556 Innovation in Nonprofit Management and Leadership
- PUB-ADM 5585 Seminar: Social Entrepreneurship (1-3 hours)
- HLTH-ADM 5571 Financial Management Issues in Health and Human Services Organizations

Students choosing the nonprofit emphasis should choose **at least six** of their twelve emphasis area credit hours from among the following courses: PUB-ADM 495, PUB-ADM 5551, PUB-ADM 5552, PUB-ADM 5553, and PUB-ADM 5556.

Urban Administration (9 hours)

Required:

- PUB-ADM 5535 Urban Policy and Administration

Two courses selected from the following:

- PUB-ADM 5536 Managing Urban Economic Development
- PUB-ADM 5538 Comparative Urban Administration

- PUB-ADM 5539 Urban and Regional Planning for Urban Administrators
- PUB-ADM 5552 Community Organizations and Public Policy
- PUB-ADM 5565 Topics in Community Economic Development (1 credit hour each)
- PUB-ADM 5581 Seminar in Urban Administration
- PUB-ADM 5595 Internship*

* Students choosing the urban administration emphasis are allowed no more than three hours of internship to fulfill the emphasis area. Additional internship hours will count as electives.

Note: Students should ensure that prerequisites are taken in the proper sequence. Prerequisites and program requirements may change. Consult the Bloch School Web site at <http://www.bloch.umkc.edu> for current information.

The B.A. (Urban Affairs)/M.P.A. Program

Students obtaining a B.A. in Urban Affairs in the College of Arts and Sciences may pursue early admission to the master's degree program in public administration and obtain a master's degree in one additional year. The program allows students to utilize some of the M.P.A. courses to satisfy urban affairs requirements, thereby reducing the number of courses needed to complete both degrees.

The B.B.A./M.P.A. Program

Students completing the bachelor of business administration may complete their M.P.A. degree in one additional year at UMKC (three semesters) if they meet entrance requirements for the public administration graduate program. For more information about this option, contact the Bloch School Student Services Office.

Combined J.D./M.P.A. Program

The Bloch School and the UMKC School of Law offer a combined J.D. and M.P.A. program. Students must satisfy the admission and degree requirements for each school. Students *fully admitted* to the School of Law are exempt from the GRE requirement for admission to the M.P.A. program. For further information, contact the School of Law or consult the Bloch School Web site at <http://www.bloch.umkc.edu/graduate/mpa/jd-mpa-joint-program/index.aspx>.

Master of Science in Accounting

Student Learning Outcomes

Graduates of the Master of Science in Accounting degree program will:

- Meet requirements needed for entry into the profession.
- Demonstrate the essential knowledge, skills and abilities to work effectively in teams.
- Define, analyze and devise solutions for structured and unstructured problems and issues by using cohesive and logical reasoning patterns for evaluating information, materials, and data.
- Recognize and analyze ethical problems and choose and defend resolutions for practical situations that occur in accounting in accordance with the accountant's professional responsibility.
- Conceptualize a complex issue into a coherent written statement.

Advances in technology and organizational sophistication -- in corporations, not-for-profit organizations, government and public accounting -- are causing dynamic changes in the accounting profession. Such developments require that the educational experience of the accountant be expanded.

Unified Five-Year Program

The approach of the Department of Accountancy to these expanded educational needs is a unified five-year program of study, leading to the bachelor of science in accounting and the master of science in accounting degrees. Students may pursue advanced study in accounting, audit, and taxation. The program is designed with flexibility to allow students the following options:

- Completion of the entire five years at UMKC.
- Entry into the program as an undergraduate transfer student.
- Entry into the program at the graduate level with completion of an undergraduate degree at another university.

Note: Full admission to the graduate program is available to applicants with accounting or non-accounting backgrounds.

The Curriculum

The master of science in accounting program encompasses advanced analysis in a variety of areas. The total hours required are dependent on the focus of the student's undergraduate coursework. Students may be exempt from certain course requirements based on prior business and accounting coursework and grades earned, with exemptions determined at the time of initial advising and enrollment. Students with no preparation in mathematics and computer applications must complete Math 110 and MIS 202. **Note:** Students who repeat courses that have been waived from their program may not count the repeated course for credit toward their degree.

M.S. in Accounting - Non-Accounting Undergraduates

This program is designed for students with little or no undergraduate accounting coursework. It provides comprehensive coverage of accounting topics necessary for a professional career in the field. Completion of the program also qualifies students for the various examinations leading to professional certification. Stage One identifies prerequisite accounting and business courses that provide the foundation for the Stage Two courses required for the M.S. in accounting degree. Stage One courses may be waived based on equivalent undergraduate coursework taken as part of a bachelor of business administration degree from UMKC or equivalent program. This program is outlined below.

Stage One

- ACCTNG 307 Cost Management **-or-**
ACCTNG 5556 Cost Management
- ACCTNG 310 Intermediate Accounting I
-or-
ACCTNG 5558 Financial Accounting Theory
- ACCTNG 350 Accounting Systems & Controls
- ACCTNG 5517 Survey of Accounting
- FIN 5501 Economics for Administration
- DSOM 5519 Supply Chain and Operations Management
- MKT 5531 Contemporary Marketing Management
- FIN 5532 Financial Management
- DSOM 5508 Statistical Methods for Administrative Decisions
- MGT 5505 Organizational Behavior
- MGT 5510 Legal and International Environment of Business
-or-
MGT 5506 Contract Negotiation and Dispute Resolution
-or-
MGT 5508 Law of Business Associations

Stage Two

(30 credit hours beyond Stage One)

- ACCTNG 311 Intermediate Accounting II

- ACCTNG 5560 Introduction to Auditing
- ACCTNG 5559 Advanced Financial Accounting Theory
- ACCTNG 421 Governmental/Not-for-Profit Accounting
- ACCTNG 409/5557 Introduction to Income Taxation
- ACCTNG 5570 level course in Managerial Accounting
- ACCTNG 5570 level course in Financial Accounting
- ACCTNG 5570 level course in Auditing
- ACCTNG 5570 level course in Tax
- Approved Accounting elective, 5561 or higher

M.S. in Accounting - Accounting Undergraduate

Students with an undergraduate degree in accounting may complete the M.S. in accounting program in a minimum of 30 semester hours. Examples of focus areas which students may select follow:

Accounting/Audit Focus (30 hours)

- ACCTNG 5570 Level in managerial accounting, tax, auditing, and financial accounting (12 hours)
- Approved electives in audit or financial accounting (6 hours)
- Approved electives (up to 12 hours)

Taxation Focus (30 hours)

- ACCTNG 5571, 5572, 5573, 5574, 5576 (15 hours)
- ACCTNG 5570 Level in financial accounting, managerial accounting and audit (9 hours)
- Approved electives (6 hours)

Note: Students should ensure that prerequisites are taken in the proper sequence. Prerequisites and program requirements may change. Consult the Bloch School Web site at <http://www.bloch.umkc.edu>.

Undergraduate General Education Requirements for The Bloch School

General Education Requirements

The following courses (Preparatory and Basic Skills Requirements) should be completed prior to entering the junior/senior portion of the bachelor of business administration (B.B.A.) and bachelor of science in accounting (B.S. in accounting) programs. These courses should be taken during the freshman and sophomore years. Differences in requirements between the two undergraduate programs are noted.

Preparatory and Basic Skills Requirements

Humanities (12 hours)

COMM-ST 110	Fund. of Eff. Speaking & Listening	3
ENGLISH 110	Freshman English I	3
ENGLISH 225	English II	3
PHILOS 210	Foundations of Philosophy or classroom-based Foreign Language	3

(AP, CLEP, & department credit by exam accepted)

Natural Sciences (8 hours)

Students may choose courses from astronomy, biology, chemistry, earth science, environmental science, geology, physical geography, physical science and physics. A laboratory component is required.

Social Sciences (6 hours)

Courses may be selected from American studies, anthropology, criminal justice and criminology, geography, history, political science, psychology and sociology. As part of the six hours, and as required by state law, all students must study the United States and Missouri constitutions.

Fine Arts (3 hours)

Students may select a course from art, art history, conservatory or theater.

Basic Skills (24 hours)

ACCTNG 210	Introduction to Financial Accounting	3
ACCTNG 211	Introduction to Managerial Accounting	3
MIS 202	Computer Applications in Management	3
ECON 201	Introduction to Economics I	3
ECON 202	Introduction to Economics II	3
MATH 110	College Algebra	3
MATH 206	Brief Calculus and Matrix Algebra	3
STAT 235	Elementary Statistics	3
Approved Electives (4-7 hours)		

Students pursuing the B.B.A. degree must complete seven hours of approved electives; students in the B.S. in accounting program must complete four hours of approved electives. A maximum of two hours of PE activity is accepted. Applied or military science and vocational courses may not be taken for elective credit.

General Education Requirements for Students Transferring from Other Missouri Institutions with a Certified 42-Hour Core Curriculum

Students transferring into the Bloch School of Business and Public Administration with a certified 42-hour block of general education credit from another Missouri institution must complete additional coursework for baccalaureate degrees from the Bloch School. These courses include:

ACCTNG 210	Introduction to Financial Accounting	3	
ACCTNG 211	Introduction to Managerial Accounting	3	
MIS 202	Computer Applications in Management	3	
ECON 201	Introduction to Economics I	3	
ECON 202	Introduction to Economics II	3	
MATH 110	College Algebra	3	
MATH 206	Brief Calculus and Matrix Algebra	3	
STAT 235	Elementary Statistics	3	
PHILOS 210	Foundations of Philosophy(or foreign language)	3	
Written English Proficiency Test (WEPT)			

The preceding requirements can be satisfied by equivalent courses from other institutions. Additionally, some of the courses may satisfy general education requirements in the 42-hour core. Check with individual institutions for more information.

UMKC's 42-Credit Hour Certified General Education Core for Students Transferring to Another Missouri Institution

Bloch School students wishing to complete the 42-hour core should also consult with an academic adviser in the Student Services Office, room 115 of the Bloch School.

Bachelor of Business Administration

Student Learning Outcomes

Upon graduation from the B.B.A. program, a student will be able to:

- Demonstrate technical competence in domestic and global business through the study of major disciplines within the fields of business.
- Define, analyze and devise solutions for structured and unstructured business problems and issues by using cohesive and logical reasoning patterns for evaluating information, materials and data.
- Conceptualize a complex issue into a coherent written statement and oral presentation.
- Demonstrate the essential knowledge, skills, and abilities to work effectively in teams.
- Exhibit competence in the uses of technology and information systems in modern organizational operations.
- Demonstrate the fundamentals of creating and managing innovation, and new business development for high-growth potential entities.

Courses for the B.B.A. program are listed below. All students must complete the core curriculum and choose one of four emphasis areas:

- Enterprise Management
- Entrepreneurship
- Finance
- Marketing

Prior to enrolling in any course, students must ensure they have completed the necessary prerequisites. Seniors in the B.B.A. program may begin work on the MBA degree if pre-approved by the Bloch School based on their formal application to the MBA program.

Core B.B.A. Curriculum (39 hours)

- DSOM 309 Intermediate Business Statistics
- DSOM 326 Production/Operations Management
- ECON 302 Microeconomic Analysis
- ENT 460 Creating the Enterprise
- FIN 325 Financial Management
- MGT 301 Effective Business Communication
- MGT 302 Effective Business Research and Presentations
- MGT 306 Legal, Ethical and Regulatory Environment of Business
- MGT 330 Understanding the Individual in the Organization
- MGT 355 Organizational Effectiveness and Leadership
- MGT 471 Strategic Management
- MIS 402 Information Technology Impact & Business Process
- MKT 324 Marketing Concepts

General Electives (9 hours)

Emphasis Areas (15 hours)

Enterprise Management

- DSOM 346 Management Analysis
- MGT 337 Managing Human Capital
- MGT 370 International Management

Plus two courses selected from the following:

- DSOM 431 Quality and Process Improvement
- ENT 332 Managing the New Venture
- FIN 419 Financial Statement Analysis
- MIS 415 Managing the Information Systems Resource
- MKT 348 Market Analysis

Entrepreneurship

Required Courses:

- ENT 215 or ENT 315 Introduction to Entrepreneurship
- ENT 327 Creating the New Venture **OR** ENT 328 Creating the E-Business
- ENT 332 Managing the New Venture

In addition, students must select two of the following electives:

- ENT 341 Technology Entrepreneurship
- ENT 361: New Product Development
- ENT 364: Entrepreneurial Management
- ENT 412: Entrepreneurial Finance and Venture Capital Investment
- ENT 425: Corporate Entrepreneurship
- ENT 432: Entrepreneurial Marketing and Selling
- ENT 446 Entrepreneurial Selling and Sales Force Management
- ENT 491 Entrepreneurial Consulting

Students in the Entrepreneurship emphasis will be permitted to waive the Bloch School capstone course, ENT 460; replacing it with a 300- or 400-level Bloch School elective.

Finance

- FIN 340 Global Financial Markets and Institutions
- FIN 345 Investments
- FIN 435 Advanced Corporate Finance

Plus two courses selected from the following:

- ENT 412 Entrepreneurial Finance and Venture Capital Investment
- FIN 419 Financial Statement Analysis
- FIN 427 Debt Instruments and Markets
- FIN 428 Commercial Bank Management

Marketing

- MKT 335 Consumer Behavior
- MKT 348 Market Analysis
- MKT 480 Marketing Strategy

Plus two courses selected from the following:

- ENT 361 New Product Development
- MKT 418 Sales and Promotion Strategies
- MKT 442 Internet/Direct Marketing
- MKT 476 Services Marketing

Note: Students should ensure that prerequisites are taken in the proper sequence. Prerequisites and program requirements may change. Consult the Bloch School Web site at <http://www.bloch.umkc.edu/> for current information.

Bachelor of Science in Accounting

Student Learning Outcomes

Upon graduation from the B.S. in accounting program, a student will be able to:

- Demonstrate entry-level technical competence in financial accounting, taxation, cost/managerial and auditing. The competency level is not sufficient to meet the technical requirements for professional certification but will serve as the technical foundation for graduate education.
- Demonstrate technical competence in domestic and global business through the study of major disciplines within the fields of business.
- Define, analyze and devise solutions for structured and unstructured accounting problems and issues by using cohesive and logical reasoning patterns for evaluating information, materials and data.
- Recognize and apply the AICPA code of professional conduct to ethical problems that occur in accounting practice.
- Conceptualize a complex issue into a coherent written statement and oral presentation.
- Demonstrate the essential skills, knowledge and abilities to work effectively in teams.
- Exhibit competence in the uses of technology and information systems in modern organizational and accounting operations.

Students seeking an accounting career have the option of selecting a four-year B.S. in accounting degree program or a unified five-year B.S./M.S. in accounting degree (see M.S. in accounting requirements). These programs cover the subject matter that is tested on the Uniform Certified Public Accountants (CPA) Examination and other certification examinations. Seniors in the B.S. in accounting program may begin work on the master of science in accounting degree if pre-approved by the Department of Accountancy based on their formal application to the master of science in accounting program. Courses for the B.S. in accounting program are listed below, and must be completed by all students in the degree program.

Junior Year - First Semester

ACCTNG 307 Cost Management
ACCTNG 310 Intermediate Accounting I
DSOM 309 Intermediate Business Statistics
MGT 301 Effective Business Communication
Economics Elective (ECON 301, 302 or 331)

Junior Year - Second Semester

ACCTNG 311 Intermediate Accounting II
ACCTNG 350 Accounting Systems and Controls
MKT 324 Marketing Concepts
DSOM 326 Production/Operations Management
MGT 330 Understanding the Individual
in the Organization
MGT 302 Effective Business Research and Presentations

Senior Year - First Semester

ACCTNG 405 Auditing
ACCTNG 408 Federal Income Taxation
FIN 325 Financial Management
MGT 306 Legal, Ethical and Regulatory
Environment of Business
ACCTNG 420 Advanced Accounting

Senior Year - Second Semester

ACCTNG 409 Advanced Tax
ACCTNG 421 Governmental/Not-for-Profit Accounting
MGT 320 Law of Commercial Transactions
MGT 471 Strategic Management
ENT 460 Creating the Enterprise
Approved Finance Elective

Note: Students should ensure that prerequisites are taken in the proper sequence. Prerequisites and program requirements may change.

Business Administration Minors

Students interested in business may complete a minor in either business administration or entrepreneurship. The minors are open to degree-seeking undergraduate students, with the exception of students pursuing a degree in programs that do not recognize minors. Additionally, students pursuing a degree in business or accounting are not eligible for the minor in Business Administration.

Business Administration Minor

The minor consists of the following coursework and is subject to the student satisfying all applicable prerequisites.

Required for admission to the Business minor:

MIS 202: Computer Applications in Management

ACCTNG 210: Introduction to Financial Accounting

Required courses:

MKT 324: Marketing Concepts

FIN 325: Financial Management

MGT 330: Understanding the Individual in the Organization

Business elective:

One 300/400 level course OR ENT 215/315: Introduction to Entrepreneurship

Total hours for Business Administration minor: 18

Entrepreneurship Minor

The Entrepreneurship minor is designed to help students acquire and refine their entrepreneurial skills. The minor is intended both for Bloch School students and for students outside of the Bloch School who would like to bring an entrepreneurial perspective to their major field of study.

Required courses:

ENT 215/315: Introduction to Entrepreneurship

ENT 327: Creating the New Venture **OR** ENT 328: Creating the E-Business

Entrepreneurship electives:

Students must also complete four additional entrepreneurship electives from an approved list that includes the following courses:

ENT 332: Managing the New Venture

ENT 341: Technology Entrepreneurship

ENT 361: New Product Development

ENT 364: Entrepreneurial Management

ENT 412: Entrepreneurial Finance and Venture Capital Investment

ENT 432: Entrepreneurial Marketing and Selling

Students have the option of replacing up to two entrepreneurship electives with two discipline-related electives that are consistent with their entrepreneurial focus. These electives must be selected from an approved list of courses offered by the School that houses their major discipline.

Total hours for Entrepreneurship minor: 18

Students must achieve a minimum GPA of 2.25 in all Bloch School courses. Transfer students with equivalent course credit will be required to take a more advanced course in that same area. Students are limited to 30 hours of coursework in the Bloch School. All coursework toward the minors must be completed at UMKC.

Students interested in the Business Administration or Entrepreneurship minors should contact staff in the Bloch School Student Services Office, room 115.

Special Programs and Centers

Bloch Executive Education Center

[Bloch School](#)

Bloch Executive Education Center

5110 Cherry, Suite 305

(816) 235-5439

<http://www.bloch.umkc.edu/execed>

Bloch Executive Education is the Kansas City area's university partner for non-degree programs that support organizational transformation initiatives and leadership development for the executive life-long learner. The Center offers custom and open enrollment programs as well as those designed to engage the business, government, and non-profit communities in thoughtful discussion about current topics that affect commerce locally and abroad. Custom programs are designed in concert with corporate clients to meet a specific need of the organization. Open enrollment programs are available to executives and aspiring leaders based on personal and professional competency needs. Our nationally-recognized faculty of instructors and practitioners provoke thought and challenge perspectives through relevant curricula that feature innovative thought, research insights, and business best practices.

Center for International Business

[Bloch School](#)

5110 Cherry St.

<http://www.bloch.umkc.edu/centers-institutes/center-for-international-business/index.aspx>

The Center for International Business at the Bloch School promotes and supports academic study and research in international business. The objectives of the Center include: (1) developing and maintaining international course offerings that support the curricula for the B.B.A., MBA and the EMBA programs; (2) promoting and supporting Bloch School faculty and student involvement in academic exchange programs with international partner business schools throughout the world; (3) maintaining the International Business Information Research Directory (IBIRD) with Web site links to important country and subject information sources and (4) engaging in liaison and outreach activities with UMKC and Kansas City organizations involved in international activities.

Cookingham Institute of Urban Affairs

Bloch School

511> Cherry St.

(816) 235-2894

<http://www.bloch.umkc.edu/centers-institutes/lpcookingham/index.aspx>

The Cookingham Institute promotes community building and development as a means to contribute to urban area revitalization through scholarship, practice, and community involvement. Students become engaged in applied, interdisciplinary research and work with government, business, and nonprofit entities, as the Institute partners with national organizations to bring cutting-edge practices to Kansas City. Cookingham also contributes to community dialogue through Institute grants, contracts, and a variety of other means.

Institute for Entrepreneurship and Innovation

[Bloch School](#)

4747 Troost Ave. 5110 Cherry Street
(816) 235-6200
<http://www.entrepreneurship.bloch.umkc.edu/>

The mission of the Institute for Entrepreneurship and Innovation (IEI) at UMKC is to inspire, nurture and empower students across all disciplines to become entrepreneurs and innovators. World-class faculty at the cutting edge of researching, creating and disseminating knowledge in entrepreneurship drive the curriculum development of the curriculum and the students' educational experience. IEI's goal is that experiential learning will be the basis for all Institute programs, beginning with the Entrepreneurship and Innovation Boot Camp (ENT 215/315: Introduction to Entrepreneurship) and carrying through to the development of commercial real-world ventures in as part of the Student Ventures Program.

UMKC Innovation Center

[Bloch School](#)

4747 Troost Ave.
(816) 235-6600
<http://umkcinnovates.com/>

From whiteboard to boardroom, the UMKC Innovation Center partners with the university and the community to spark entrepreneurial efforts within our region and across the country. With a suite of high-impact programs, the Center helps emerging and existing business owners, whether they are student, faculty or community-based, hone their business basics, evaluate commercialization opportunities, and connect with the right resources at the right time.

KCSOURCELINK KCSOURCELINK/U.S.SOURCELINK/MOSOURCELINK

[Bloch School](#)

The UMKC Institute for Entrepreneurship and Innovation Center
4747 Troost Ave.
(816) 235-6500
<http://kcsourcelink.com/>

KCSOURCELINK connects a network of more than 140 150 resource providers in the Kansas City area that offer business-building services for small business success. Its mission is to help small business grow and prosper by providing business owners easy access to needed services. Aspiring and existing business owners are referred to the appropriate resource through the hotline number and Web site. Through U.S.SOURCELINK, the Innovation Center is implementing similar networks across the country. MOSOURCELINK is one of these networks, providing business support across the state of Missouri.

Lewis White Real Estate Center

[Bloch School](#)

5110 Cherry St.
(816) 235-6288
<http://www.bloch.umkc.edu/centers-institutes/lewis-white-real-estate-center/index.aspx>

The Lewis White Real Estate Center (LWREC) is a comprehensive center that focuses on educating the next generation of real estate leaders in Kansas City and beyond, conducting state-of-the-art research in the field of real estate and providing an educational resource for the community. This newly established center will assist the Bloch School faculty in producing students at both the graduate and undergraduate levels who are qualified to fill entry level and leadership positions in the real estate industry. Additionally, the LWREC strives to better understand the financial risks and

rewards of real estate development, particularly in an urban context, as well as the relationship between public policy and urban development.

Midwest Center for Nonprofit Leadership

[Bloch School](#)

5110 Cherry St.
(816) 235-2305
<http://www.mcnl.org/>

The Midwest Center for Nonprofit Leadership is the Bloch School's education and research outreach center dedicated to building the capacity of nonprofit public service organizations in the Midwest. The Center's mission is to enhance the performance and effectiveness of nonprofit organizations and their leaders through high quality, community-oriented education, research and facilitation services. Center faculty, fellows and students support nonprofit organizations as educators, advisers and facilitators in areas such as governing board development, management development, strategic planning, strategic organizational and financial management, and the leadership of major change initiatives. The Center also operates a Nonprofit Resource Center that is open to students and all members of the community.

UMKC Small Business and Technology Development Center

[Bloch School](#)

The UMKC Institute for Entrepreneurship and Innovation Center
4747 Troost Ave.
(816) 235-6063
<http://www.bloch.umkc.edu/sbdc>

The Missouri Small Business Development Centers, a partner with the University of Missouri Extension business development programs, educate individuals to successfully start, run and grow small and entrepreneurial businesses that build a viable economic base, improve lives and enhance communities. The SBTDC provides counseling in topics such as business plan development, financial management, marketing and more. Training programs include start-up, business plans, accounting, cash flow, management and marketing. Information and technology resources include computerized patent, trademark and copyright searches; exporting leads; product design, testing and quality control; manufacturing studies; and plant layout. The SBTDC helps both established businesses and those that are just beginning. The SBTDC is also a leader in creating unique programs that support a particular industry focus. Artist, Inc., for example is a professional development program for all types of artists wishing to create and grow businesses.

Missouri and Heartland Procurement Technical Assistance Centers

[Bloch School](#)

The UMKC Institute for Entrepreneurship and Innovation Center
4747 Troost Ave.
(816) 235-2891
<http://www.moptac.net/>
<http://www.heartlandptac.org/>

The work of PTAC nationwide is to provide businesses with the marketing know-how and technical tools they need to obtain and perform successfully under federal, state and local government contracts. PTAC consultants match government agencies that need products to the companies that can deliver them and assist the company with bidding and contracting. The consultants also help with government registrations and certifications.

General Description

History

The University has offered engineering degree programs since 1956. Increased technology demands during the mid-80s, combined with a generous gift from Sprint, led to the development of UMKC's high-tech Computer Science and Telecommunications Program in 1984. These disciplines were combined in 2001 to form the School of Computing and Engineering (SCE).

Mission

The mission of the School of Computing and Engineering is to provide competitive educational opportunities and focused research in computing and engineering generating the technical work force and research needed for economic development.

Departments and Degree Programs

The School of Computing and Engineering has two departments:

- [Civil and Mechanical Engineering](#)
- [Computer Science Electrical Engineering](#)

Each department offers undergraduate and graduate degrees. The Civil and Mechanical Engineering Department offers B.S. in Civil Engineering, B.S. in Mechanical Engineering, M.S. in Civil Engineering, and M.S. in Mechanical Engineering. The Computer Science Electrical Engineering Department offers B.A./B.S. in Computer Science, B.S. in Electrical & Computer Engineering, Bachelor of Information Technology (B.I.T), M.S. in Computer Science, and M.S. in Electrical Engineering. All undergraduate degrees are accredited by ABET, Inc. except for the B.A. in Computer Science for which accreditation has not been requested.

The School also participates in UMKC's Interdisciplinary Ph.D. program through four disciplines: computer science, electrical and computer engineering, engineering (for civil and mechanical engineering) and telecommunications and computer networking. (See the School of Graduate Studies section of this catalog for details about the Interdisciplinary Ph.D. Program.)

SCE Undergraduate Scholarships

There are several School of Computing and Engineering scholarships available exclusively for SCE undergraduate students. To be eligible, applicants must be accepted to both UMKC and an SCE undergraduate degree program. All award recipients must maintain full-time student enrollment (minimum 12 credit hours/semester) throughout the academic year of the award.

Applications are due by January 31 for full consideration for the next fall semester's scholarship awards; however applications are accepted and kept on file year-round should additional awards become available. Current SCE scholarship recipients must re-apply each year before January 31 to be considered for the next academic year. For the most current list of scholarships, qualifications and applications please visit the SCE Scholarship Web page at <http://www.umkc.edu/sce> or e-mail UMKC-SCEScholarships@umkc.edu for additional information.

SCE scholarships include:

- James E. Allen Memorial Engineering Scholarship
- Computing and Engineering Alumni Scholarship
- John and Phyllis Anderson Engineering Scholarship
- KC Metro Chapter of American Public Works Association (APWA) Scholarship
- American Society of Civil Engineers (ASCE) Scholarship
- Ken Clark Pizza & Lunch Scholarship
- DST Computer Science Scholarship
- SCE Faculty & Staff Scholarship
- SCE FIRST Robotics Scholarship
- Robert C. Harmon Engineering Scholarship
- HDR Engineering Scholarship and Internship opportunity
- Richard Hetherington CS/IT Scholarship
- Information Products, Inc. Engineering Scholarship
- Kansas City Power & Light Engineering Scholarship
- Kristin J. Loeffelholz Memorial Engineering Scholarship
- Forrest & Joan Lowe Engineering Scholarship
- Doris Markham Swinney Scholarship
- Yolande & Stanley Niu Engineering Scholarship
- Mary Anne and William Osborne Scholarship
- Lee & Mary Louise Rankin Memorial Scholarship
- Ruskin Air and Sound Control Engineering Scholarship and Internship Opportunity
- Jerrold Stach Memorial Scholarship
- Martin Ashton Swinney Memorial Scholarship
- Western Chapter Missouri Society of Professional Engineers Auxiliary Scholarship

Other scholarships are available through the UMKC Financial Aid and Scholarship Office. For more information, refer to <http://www.sfa.umkc.edu>.

Financial Assistance

The University has a number of financial programs, scholarships and awards for the benefit of our students, see <http://www.sfa.umkc.edu/site> for opportunities available to all UMKC students. Opportunities specifically for undergraduate SCE students include a number of scholarships (see the section below). The following are available to first-time degree applicants to UMKC:

- The Chancellor's Nonresident Award (CNR) is available to new SCE domestic students who must pay non-resident tuition.
- The Dean's International Award for Computing and Engineering (DICE) is available to new SCE international students.

Both CNR and DICE awards are decided at the same time that the admission decision is made and no specific application form is required. The CNR and DICE are competitive awards and awarded only to the best qualified applicants. The amount of the CNR award is the Nonresident Fee Differential (up to 9 hours per semester for graduate students, 12 hours for undergraduate students), and the amount of the DICE award is maximally 85% of the Nonresident Fee Differential, depending on the student's qualification. Both the CNR and DICE are renewable if minimum grade-point averages are maintained of 3.00 for undergraduates and 3.50 for graduate students.

Graduate Student Financial Assistance

Scholarships and Awards

There are two types of scholarships and awards available to incoming MS students. No special application form is required to be submitted; the graduate admission committee makes this decision based on the regular application material submitted by the applicants.

Domestic Students (CNR)

For U.S. citizens/permanent residents who are nonresidents of Missouri, a number of nonresident tuition waiver scholarships, known as the chancellor's nonresident (CNR) award, is available for our best applicants; the amount of this award is equal to the nonresident fee differential (currently valued at approximately \$7,800 per year for students taking a full-time load each semester.) The CNR is renewable if a 3.50 GPA is maintained.

Domestic Students (GEM)

A qualified applicant can also apply for a fellowship through the GEM (the National Consortium for Graduate Degrees for Minorities in Engineering and Science) program, which is to U.S. citizens from underrepresented groups; our school is one of the selected schools certified by GEM. For additional information on GEM, go to <http://www.gemfellowship.org/>.

International Students (DICE)

For international students, the Dean's International Award for Computing and Engineering (DICE) is a competitive award available to the most qualified applicants. The amount of this new award is currently valued at up to \$7,300 per year for students taking a full load each semester. This award is only for students newly admitted to SCE and is determined at the time of admission. The DICE is renewable if a 3.50 GPA is maintained.

Graduate Assistantships

A limited number of graduate assistantships are available each semester. Research assistantships are available through various faculty conducting funded research, and information on these can be obtained from individual faculty. Most faculty with funded research programs will award research assistantships to students they have been able to observe in classroom performance. A limited number of graduate assistantships are available to fully-enrolled graduate students with excellent academic performance and solid communications skills. The actual number of assistantships available each semester is based on total student enrollment. Typically, awards are for quarter-time support, with three-eighths or half-time support a possibility and may include tuition fee waivers. Priority is given to students with excellent communication skills and to students in the Interdisciplinary Ph.D. program. International students must also pass a SPEAK test, administered at UMKC's Applied Language Institute and can not be considered for an assistantship during their first semester of enrollment. Students must apply for these opportunities by sending their application materials by e-mail to griffiths@umkc.edu.

Master of Science in Electrical Engineering

Student Learning Outcomes

Upon graduating, students will have demonstrated that they can apply the core technologies from computer science and from their chosen emphasis areas. They will have developed an analytical mindset and understand the limitations of current theories and technologies. They will be able to design a system under realistic constraints, which they are able to implement using modern tools and techniques. They will have had an opportunity to take in-depth course work in the area of computer networking, telecommunications, software engineering and bioinformatics.

Admission Requirements

Applicants for master's level graduate studies in electrical and computer engineering should have a GPA of at least 3.0 on a 4.0 scale for the last 60 semester hours of relevant undergraduate coursework in electrical engineering and/or computer engineering. However, if that GPA is below 3.0 but more than 2.75, and if other indicators promise success in the program, rules may still allow probationary admission. The department will notify the applicant by letter after careful examination of the application packet. The following documents are required for admission consideration:

1. Application for admission.
2. Official transcripts of all college coursework.
3. Graduate engineering supplemental application.
4. Official results of the Graduate Record Exam (GRE) general test. The applicant must score in at least the 75th percentile on the quantitative portion of the GRE. Admission to our degree programs is competitive and a higher score is recommended.
5. (For international students only) A minimum test score of TOEFL 550 or CBT 213 or IBT 79 is needed. International students must also place in the top 25 percent of his or her graduating class.
6. Three letters of recommendation for students with a GPA less than 3.0 for the last 60 hours of undergraduate work.

Note: High GRE verbal and quantitative scores and strong letters of recommendation may compensate for lower TOEFL scores and GPAs.

Acceptance or Denial

After thoroughly considering an applicant's record, one of the following actions will be taken:

Normal Acceptance

The student is accepted unconditionally.

Normal Acceptance with Pre-program Requirements

This category applies to an otherwise qualified applicant who has a bachelor of science degree from an approved program, but not in electrical engineering, computer engineering, or a similarly named engineering discipline. The student will be notified in writing of any make-up requirements specified by the master's committee.

Probationary Acceptance

Applicants with marginal credentials may be admitted conditionally. They will have to receive a B or better in each course in the first 12 hours of graduate coursework. In addition, make-up requirements may be set forth by the master's committee.

Non-Acceptance

The student is not admitted. The student will be notified in writing of the admission denial. The letter may specify under what conditions a future application would be more favorably considered.

Starting the Program

When accepted into the program, the student's first contact is with the electrical engineering principal graduate adviser. At this initial meeting, a review will be made of the student's status in the program and the student will be required to provide a tentative program of study within the first semester. Such a program should reflect the prerequisite courses that have been prescribed and that may have to be taken prior to taking courses for graduate credit.

The most immediate concern is for the courses to be taken in the first semester. The principal graduate adviser will help the student select those initial courses. Within the first semester, the student will be assigned an academic adviser who will be the primary contact for the student until the student graduates under the non-thesis option. If the student decides to follow the thesis option, a thesis adviser will replace the academic adviser. In either case, it is the responsibility of the student to devise, after consultation with their advisers, a program of study using the degree requirements worksheet and the course planning worksheet. This should be submitted to the graduate officer, usually by the end of the second semester.

The master's committee is in charge of handling procedural issues related to the M.S. program in electrical engineering. Any request for exception to the rules should be handled as described below related to petitioning procedures.

Degree Requirements

To earn a master of science in electrical engineering, the student must satisfy the general degree requirements and complete coursework that fulfills the requirements according to the thesis or non-thesis option. The specific requirements for the power engineering focus area are listed separately.

Specific Requirements for the Thesis Option:

1. Complete a minimum of three hours and a maximum of six hours E&C-ENGR 5599 Research.
2. Pass a final examination, which is an oral defense of the thesis.
3. Satisfy all common requirements (see below).

Specific Requirements for the Non-Thesis Option:

1. The following courses do not count toward this degree option: E&C-ENGR 5599, E&C-ENGR 5600 or E&C-ENGR 5690.
2. Satisfy all common requirements (see below).

Common Requirements and Limitations for both Thesis Option and Non-Thesis Option:

(Note that the specific requirements for the power engineering focus area are listed separately.)

1. At least 30 credit hours of 400-, 5500- or 5600-level coursework, completed within the past six years.
2. At least 21 hours of 5500/5600-level coursework.
3. At least 24 hours of E&C-ENGR course work, see also below.
4. At least one three-hour course, at the 5500/5600-level, in each of three different concentration areas, with at least two of the areas in E&C-ENGR; a list concentration areas with their courses is provided below.
5. Up to three credit hours of E&C-ENGR 5597 Directed Readings and E&C-ENGR 5697 Advanced Directed Readings, are allowed.
6. The following courses can be used to satisfy degree requirements and can be counted as equivalent to E&C-ENGR courses: COMP-SCI 5511, COMP-SCI 5513, COMP-SCI 5514, COMP-SCI 5517, COMP-SCI 5520, COMP-SCI 5522 and COMP-SCI 5594.
7. No more than six credit hours of transferable graduate coursework from another institution or from other degree programs within UMKC, as approved by the student's graduate faculty adviser.
8. The courses E&C-ENGR 402WI, E&C-ENGR 403WI, E&C-ENGR 493R, E&C-ENGR 494R (or their equivalents) do not count for graduate credit.

Specific Requirements and Limitations for the Electric Power Focus:

1. At least 30 credit hours of 400-, 5500- or 5600-level coursework, completed within the past six years.
2. At least 21 hours of 5500/5600-level coursework.
3. At least 18 hours of E&C-ENGR course work, with at least 12 hours of E&C-ENGR course work in the power concentration.
4. At least one three-hour course, at the 5500/5600-level, in each of three different concentration areas, with at least two of the areas in E&C-ENGR.

5. Up to three hours of E&C-ENGR 5597 Directed Readings and E&C-ENGR 5697 Advanced Directed Readings, is allowed.
6. The following courses can be used to satisfy the power focus requirements. (Note: the course E&C-ENGR 5567 is currently being developed and will be added to the catalog as soon as it has been approved.) ECE460, E&C-ENGR 466, E&C-ENGR 468, E&C-ENGR 470, E&C-ENGR 472, E&C-ENGR 5536, E&C-ENGR 5567, E&C-ENGR 5568, E&C-ENGR 5590AE, E&C-ENGR 5590MC, E&C-ENGR 5660, E&C-ENGR 5664, E&C-ENGR 5670, E&C-ENGR 5672, BA 5519 and BA 5532.
7. The following courses can be used to satisfy degree requirements and can be counted as equivalent to E&C-ENGR courses: COMP-SCI 5511, COMP-SCI 5513, COMP-SCI 5514, COMP-SCI 5517, COMP-SCI 5520, COMP-SCI 5522 and COMP-SCI 5594.
8. The following courses do not count toward this degree option: E&C-ENGR 5599, E&C-ENGR 5600 or E&C-ENGR 5690.
9. No more than six (6) credit hours of transferable graduate coursework from another institution or from other degree programs within UMKC, as approved by the student's graduate faculty adviser.
10. The courses E&C-ENGR 402WI, E&C-ENGR 403, E&C-ENGR 461, E&C-ENGR 493R, E&C-ENGR 494R (or their equivalents) do not count for graduate credit.

Concentration Areas

The faculty provide research and concentration area coursework in:

- Communication and information processing (signal and image processing, electro-optical systems, neural networks).
- Computers and digital systems (computer arithmetic, computer architecture and computer and digital systems).
- Wireless communications (system design, propagation modeling, antenna design, wireless networking, electromagnetic modeling).
- Power (electromechanical conversion I, electromechanical conversion II, power system I, power system II, electrical power distribution systems, reliability of electric power systems, economics of power systems, power systems stability, lightning and switching surges in power systems, application of power electronics in power systems, power systems relaying, direct current power systems, contracts and law for engineers and microcomputer control of power generation systems).
- Computer networking

Thesis Option

The Comprehensive Final Examination is required of all candidates for the master of science degree under the thesis option. It is arranged by the graduate faculty adviser. It is to be conducted prior to the deadline date established by the Graduate School for the semester of intended graduation. Prior to the date of the examination, each member of the committee is furnished a copy of the candidate's final thesis for review and discussion at the time of the final examination.

If pursuing the thesis option, the thesis must be submitted in complete typewritten form to the adviser and supervisory committee at least six weeks before the date the advanced degree is to be conferred. Also, the supervisory committee must have access to the thesis at least one week before the date of the defense. Students must comply with all rules and regulations governing theses outlined in the general catalog under General Graduate Academic Regulations and Information.

Directed Readings

Up to three hours of E&C-ENGR 5597 Directed Readings and E&C-ENGR 5697 Advanced Directed Readings, is allowed toward the master of science in electrical engineering. Such a course must be approved in advance (i.e., before the student takes the course) by the student's thesis/supervisory committee and the graduate committee. The following information must be furnished:

- Title of the course.
- Detailed syllabus for the course.
- Textbook and references.
- The manner in which the course will be conducted (i.e. meetings, assignments, etc.).
- The manner in which the students are assessed (i.e. how many exams, presentations, reports, etc.).
- The course which it replaces, if appropriate.
- Name(s) of the instructor(s).
- Name(s) of the student(s.)
- Reasons for offering this course in a directed readings format.

Fast Track (B.S./C.S)

See the Fast Track section under Electrical and Computer Engineering in the undergraduate catalog for information about the Fast Track Electrical Engineering Program.

Graduate Assistantships

Research Assistantships are available through various faculty conducting funded research, and information on these can be obtained from individual faculty. Most faculty with funded research programs will award research assistantships to students whose performance they have been able to observe in the class room.

A limited number of graduate assistantships are available to fully-enrolled graduate students with excellent academic performance and solid communications skills.

Typically, awards are for quarter-time, three-eighths, or half-time support, and may include tuition fee waivers. Priority will be given to students with excellent communication skills and to students in the Interdisciplinary Ph.D. program. International students who wish to be considered for a Graduate Assistantship must pass a SPEAK test, administered at UMKC's Applied Language Institute and can not be considered for a teaching assistantship during their first semester of enrolment. Furthermore, they may be asked to present a simulated lecture that will be videotaped for review. Students must apply for these opportunities by sending their application materials to the Department of Civil and Mechanical Engineering (alberts@umkc.edu) or to the Department of Computer Science Electrical Engineering (griffiths@umkc.edu).

Educational Objectives

- Students have the professional skills that prepare them for immediate employment in civil or mechanical engineering.
- Students apply the necessary problem-solving, design, and application skills for successful careers in civil or mechanical engineering.
- Students have the educational foundation and communication skills that prepare them for diverse career paths.
- Students succeed in the complex social, business, and technical environment in which their engineering contributions will be utilized.

Undergraduate Admissions

First-Time Admission

First-time college student applicants to the undergraduate program will be admitted if they obtain: (1) an ACT mathematics score of at least 25; and (2) an ACT composite score of at least 24, or a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the standard criteria but do meet UMKC general admission requirements, and have other indicators that demonstrate potential for success, may be conditionally admitted to the Civil and Mechanical Engineering Department. The student may apply for acceptance into the civil or mechanical engineering discipline after meeting the terms of the conditional admission.

High school students planning to apply to the civil or mechanical engineering program should pursue a college preparatory program that emphasizes mathematics, science and communication skills.

Re-admission

Students seeking re-admission must have been in good academic standing when last enrolled, otherwise, re-admission requires a formal review by the department upon written appeal by the student.

Transfer Admission

Non-first-time college students (transfer students) will be admitted provided they have at least a 2.0 cumulative GPA and a last-term GPA of at least a 2.0 at each institution attended. Otherwise, a formal review with a written appeal by the department is required. GPA's are computed using only transferable coursework applicable toward the civil or mechanical engineering degree. Coursework satisfactorily completed at other universities or colleges is transferable as applicable. Engineering courses are accepted only if they are from ABET-accredited engineering programs or have been approved as part of a transfer articulation agreement.

International Students

International students transferring from non-ABET-accredited engineering programs are required to have the equivalent of a 2.5 cumulative GPA, with a cumulative GPA of at least 2.0 and a last-term GPA of at least 2.0 at each institution attended. GPA's are computed using only transferable coursework (*As defined below*) applicable towards the civil or mechanical engineering degree.

International Transfer Credit

Unless the international institution is recognized by ABET, only sophomore level (200 level) or below coursework may be transferred by petition and review of the academic committee. Final acceptance of transfer credit by petition requires completion of one academic year of probation. Any identified deficiencies during that probation period will, on the review of the academic committee, require remedial coursework.

Visiting Student Admission

Visiting students who wish to take undergraduate civil or mechanical engineering coursework will be required to show proof of having met prerequisites to the course desired to be taken with a grade of "C" or better. Registration is done by the department upon written permission from the visiting student. Enrollment of visiting students in undergraduate civil or mechanical coursework will be done on the Friday before the start of the semester on a space available basis. (For instance if the semester begins on Monday, January 12, then enrollment is done on Friday, January 9.)

Visiting undergraduate students cannot use the KCASE program for SCE classes.

Scholarships

A list of scholarships and financial aid is available on the Financial Aid webpage at <http://www.sfa.umkc.edu/>. Application information regarding these scholarships is available from the department office. Engineering students are also eligible to apply for SCE Scholarships (<http://www.sce.umkc.edu>). Information regarding these scholarships may also be obtained from the Department office.

Advising and Registration

The civil and mechanical engineering programs assign a faculty member to be the student's academic adviser throughout the duration of their study. Students may request a change of adviser assignment. Students are required to meet with their faculty adviser every semester prior to registration for the following semester. The faculty adviser guides the student in selecting courses that are necessary for completion of degree requirements, and answers questions regarding elective course programs and options. During the advising period, the faculty adviser determines whether the student is meeting degree requirements by reviewing the program advisement form. Any exceptions to the normal procedure must be approved by written petition. Specific information regarding registration is found in the UMKC Class Schedule and on the UMKC Web site.

Civil Engineering

The American Society of Civil Engineers (ASCE) defines civil engineering as "the profession in which a knowledge of the mathematical and physical sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize economically, the materials and forces of nature for the progressive well-being of humanity in creating, improving and protecting the environment, in providing facilities for community living, industry and transportation, and in providing structures for the use of humankind". The CE program aims to prepare students with a breadth and depth in the technical knowledge so that they can work immediately in most areas of the profession including geotechnical engineering; hydraulics, hydrology, environmental engineering; structural engineering; and transportation/ traffic engineering.

Civil Engineering Program Description

The program offers the bachelor's degree and the master's degree in civil engineering and participates in the UMKC Interdisciplinary Ph.D. program. The Bachelor of Science in Civil Engineering is accredited by the Engineering Accreditation Commission of

Accreditation Board for Engineering and Technology (ABET)
111 Market Place, Suite 1050
Baltimore, MD 21202-4012
(410) 347-7700
<http://www.abet.org>

The Master of Science in Civil Engineering has both thesis and non-thesis options. Students interested in pursuing a doctoral degree in civil engineering may select engineering as a discipline when applying for admission into the Interdisciplinary Ph.D. program.

To accommodate part-time and working students, most of the undergraduate classes are conducted in the afternoons and graduate classes are conducted in the evenings.

The civil engineering program has a rich history in Kansas City. The University of Kansas City offered a General Engineering degree in the 1950's. The master's program in civil engineering was started in 1964 and later the undergraduate program was added in the early 1970s. Since 1977, the undergraduate program in civil engineering has been independently accredited by ABET. The program became a part of the School of Computing and Engineering (SCE) in January 2001 and is housed in Flarsheim Hall.

Civil Engineering Career Opportunities

Kansas City is one of the premier centers of engineering design in the country. Numerous civil infrastructure design and construction firms with national and international reputation are headquartered in Kansas City. This offers a unique opportunity to our students, many of whom participate actively as interns or as employees with these firms during the course of their study, thereby, getting a balanced blend of course work and practical experience.

Job opportunities abound for engineering majors. In terms of starting salaries and the number of job offers, engineering graduates compare favorably with all other graduates. In addition, the civil engineering curriculum at UMKC equips the graduate with the analytic decision-making skills necessary to pursue diverse technical, managerial and entrepreneurial career opportunities.

Program Activities

Students enjoy many group activities outside the classroom. They participate in regional and national competitions, design and erect bridges and concrete canoes, and participate in Engineers' Week activities. They have been winning their share of awards and have had fun doing it.

The School of Computing and Engineering has a number of societies open to all engineering students. These include the SCE Student Council, and the student chapters of the American Society of Civil Engineers (ASCE), the Missouri Society of Professional Engineers (MSPE), the National Society of Black Engineers (NSBE), the Society of Women Engineers (SWE) and the Structural Engineering Association of Kansas and Missouri (SEAKM). In these organizations, students have an opportunity to develop their career through association with other civil engineering students, the faculty, and active members of the profession. The chapters hold monthly meetings, field trips and other activities such as competing in the steel bridge and concrete canoe competitions. Membership is open to all engineering students.

Several national engineering honorary societies have also been established to recognize academic excellence. Tau Beta Pi is for all engineering majors. Assembly of Civil Engineering Scholars (ACES) is an honorary society for civil engineering students.

Application for Graduation

Students should apply for graduation when they register for their final semester's course work. Requirements for graduation include the following:

1. The student's last 30 hours must be taken at the University of Missouri-Kansas City.
2. The overall grade-point average in all enrollments in all University of Missouri course work must be at least 2.0.
3. The grade-point average in the last enrollment in all engineering course work must be at least 2.0.

A grade-point average deficiency may be removed by repeating a course or by taking additional courses that qualify as eligible electives in the curriculum.

Students are required to take the Academic Profile Test, which is a general education test, before they can graduate. This test is administered by the UMKC Undergraduate Assessment Office (816) 235-5820 and may be taken any time after the student has completed a total of 80 credit hours from any institution. The object of this test is to assess the effectiveness of university course work and the score is not part of the student's permanent record.

Students are also required to complete a department exit interview in the last semester that they are enrolled.

Mechanical Engineering

Mechanical engineering (ME) is one of the broadest of the engineering disciplines, therefore, mechanical engineers are the generalists of the engineering profession. Mechanical engineers design, construct, test, and operate many types of mechanical, thermal and biological devices. They are involved in almost every industry, including aerospace, automotive, bioengineering, communications, electronics, energy, food processing, HVAC, manufacturing, power generation and refrigeration, as well as business, government, and academia. The ME program aims to prepare students with a breadth and depth in technical knowledge so that they can work immediately in most of the areas of the profession.

Mechanical Engineering Program Description

The program offers the bachelor's degree and the master's degree in mechanical engineering and participates in the UMKC Interdisciplinary Ph.D. program. The Bachelor of Science in Mechanical Engineering is accredited by the Engineering Accreditation Commission of

ABET
111 Market Place, Suite 1050

This offers a unique opportunity to our students, many of whom participate actively as interns or as employees with these firms during the course of their study, thereby getting a balanced blend of course work and practical experience.

Job opportunities abound for engineering majors. In terms of starting salaries and the number of job offers, engineering graduates compare favorably with all other graduates. In addition, the mechanical engineering curriculum at UMKC equips the graduate with the analytic decision-making skills necessary to pursue diverse technical, managerial and entrepreneurial career opportunities.

Civil Engineering Specialty Areas

UMKC's Civil Engineering Program has faculty members who are active in research with funding from numerous local and national industries and government agencies.

Research and study are available in the following specialties:

- Environmental and Water Resources
- Structures and Materials
- Transportation

For more information, log onto: <http://www.sce.umkc.edu/cme/research/>.

Doctoral Studies in Civil Engineering

Civil Engineering participates in the Interdisciplinary Ph.D. program of the University of Missouri-Kansas City as part of the engineering discipline. Students interested in pursuing a doctoral degree in civil engineering may select engineering as a discipline when applying for admission into the Interdisciplinary Ph.D. Program. See the School of Graduate Studies section of this catalog for general and discipline-specific admission requirements and regulations for Interdisciplinary Ph.D. study with engineering as one of the desired disciplines.

Mechanical Engineering

Mechanical engineering (ME) is one of the broadest of the engineering disciplines, therefore, mechanical engineers are the generalists of the engineering profession. Mechanical engineers design, construct, test and operate many types of mechanical, thermal and biological devices. They are involved in almost every industry, including aerospace, automotive, bioengineering, communications, electronics, energy, food processing, HVAC, manufacturing, power generation and refrigeration, as well as business, government and academia. The ME program aims to prepare students with a breadth and depth in technical knowledge so that they can work immediately in most areas of the profession.

Mechanical Engineering Specialty Areas

UMKC's Mechanical Engineering Program has faculty members who are active in research with funding from numerous local and national industries and government agencies.

Research and study are available in the following specialties:

- Biomechanics
- Power
- Refrigeration Applications

Graduate Academic Regulations

Transfer of Graduate Credits

- With permission of the student's graduate adviser, up to six credit hours of transfer graduate coursework may be transferred from other non-University of Missouri institutions.
- With permission of the student's graduate adviser, up to 14 credit hours of transfer graduate coursework may be transferred from other University of Missouri institutions.
- However, at least 16 credit hours of graduate coursework must be taken at UMKC.

Academic Standing

A graduate student must maintain a cumulative GPA of 3.0 for all graduate coursework taken during the course of graduate studies. Should the cumulative GPA fall below 3.0, the student will be placed on probation. A student on probation must bring the cumulative GPA to a 3.0 by the end of the next semester or face possible dismissal.

Application for Graduation

Students should apply for graduation when they register for their final semester of coursework. All students must complete and file with the Department Office both the UMKC Application for Graduation form and the Departmental Program of Study form. Students selecting the *project* or *thesis* option must also file a Departmental Report of the Master's Examining Committee form. Students selecting the *thesis* option must file a Master's Thesis Report form and have their thesis approved by the UMKC Graduate School.

Master of Science in Civil Engineering

The civil engineering program offers graduate students an opportunity to get a state-of-the-art education in dynamic, challenging and professionally significant specialty areas. Master's students are allowed to take up to half of their credits in other fields, such as management, geosciences etc., to encourage them to broaden their education beyond the civil engineering field. To accommodate part-time and working students, graduate classes are conducted in the evenings. There are three degree options for earning a master's in civil engineering: coursework only, project or thesis options. For further information call (816) 235-5550 or e-mail sce@umkc.edu.

- Master of Science with *coursework only* requires the completion of a minimum of 30 credit hours of graduate coursework (300-level or higher). The graduate coursework must include at least 18 credit hours of 5500/5600-level courses.
- Master of Science with *project* requires the completion of a minimum of 30 credit hours, which includes 27 credit hours of graduate coursework (300-level or higher) and three credit hours of independent project (CIV-ENGR 5500). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a report prepared per the adviser's guidelines and present the project work in front of a three-member project examining committee.
- Master of Science with *thesis* requires the completion of a minimum of 30 credit hours, which includes 24 credit hours of approved graduate coursework (300-level or higher) and six credit hours of thesis work (CIV-ENGR 5599). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a thesis prepared per the graduate school guidelines and orally defend the thesis work in front of a three-member thesis examining committee.

A minimum of three credit hours of advanced mathematics from an approved course list is required for the M.S. degree in Civil Engineering. Exceptions are available by petition to the CME Graduate Committee.

In addition, half of the required credit hours may be earned in other fields, such as management, geosciences etc., to allow students to broaden their education beyond the civil engineering field.

Other specifications for students pursuing the project or thesis option:

1. The student must request to schedule a project or thesis defense in the first half of the semester in which the student plans to defend.
2. The written part of the project/thesis must be completed and given to all the committee members at least ten days prior to the defense date.
3. The defense date and an abstract must be advertised to the CME faculty and students at least one week prior to the scheduled defense date.

Master of Science in Mechanical Engineering

The mechanical engineering program offers graduate students an opportunity to get a state-of-the-art education in dynamic, challenging and professionally significant specialty areas. Master's students are allowed to take up to half of their credits in other fields, such as management, mathematics, etc., to encourage them to broaden their education beyond the mechanical engineering field. To accommodate part-time and working students, graduate classes are conducted in the evenings. There are three degree options for earning a master's in mechanical engineering: coursework only, project or thesis options. For further information call (816) 235-5550 or e-mail sce@umkc.edu.

- Master of Science with *coursework only* option requires the completion of a minimum of 30 credit hours of graduate coursework (300-level or higher). The graduate coursework must include at least 18 credit hours of 5500/5600-level courses.
- Master of Science with *project* requires the completion of a minimum of 30 credit hours, which includes 27 credit hours of graduate coursework (300-level or higher) and three credit hours of independent project (MEC-ENGR 5500F). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a report prepared per the adviser's guidelines and present the project work in front of a three-member project examining committee.
- Master of Science with *thesis* option requires the completion of a minimum of 30 credit hours of graduate coursework (300-level or higher). The graduate coursework must include at least 24 credit hours of approved graduate coursework (300-level or higher) and six credit hours of thesis work (MEC-ENGR 5599). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a thesis prepared per the graduate school guidelines and orally defend the thesis work in front of a three-member thesis examining committee.

A minimum of six credit hours of advanced mathematics from an approved course list is required for the M.S. degree in Mechanical Engineering. Exceptions are available by petition to the CME Graduate Committee.

In addition, half of the required credit hours may be earned in other fields, such as management, mathematics, etc., to allow students to broaden their education beyond the mechanical engineering field.

Other specifications for students pursuing the project or thesis option:

1. The student must request to schedule a project or thesis defense in the first half of the semester in which the student plans to defend.
2. The written part of the project/thesis must be completed and given to all the committee members at least ten days prior to the defense date.
3. The defense date and an abstract must be advertised to the CME faculty and students at least one week prior to the scheduled defense date.

Undergraduate Academic Regulations for Civil and Mechanical Engineering

Transfer of General Education Credits

Students Transferring from Other Missouri Institutions with a Certified 42-Hour General Education Core Curriculum

Students transferring into an undergraduate engineering program with a certified 42-hour block of general education credit from another Missouri institution typically would be required to complete additional degree specific coursework for baccalaureate degrees depending on the different degree programs pursued. A student should consult with an academic adviser to obtain the specific details.

UMKC's 42-Credit Hour Certified General Education Core for Students Transferring to Another Missouri Institution

Civil Engineering students wishing to complete the 42-hour core should also consult with an academic adviser by contacting the Department Office at (816) 235-**5550**.

C Prerequisite Rule

A grade of "C" (2.0) or better must be earned in every course which is a prerequisite for an engineering course.

Audits

A student cannot take a course for audit and later expect to take the same course for credit in the degree program. For that reason, students must not audit any courses required in their program, unless credit has already been established. To audit an elective course, written consent from both the student's adviser and the instructor of the course is required. After the first week of classes, a student cannot change from credit to audit or audit to credit.

Repeat of Courses

No courses taken within the University of Missouri system may be repeated if a grade of C or better has been obtained. All grades in each attempt count toward cumulative grade-point calculation.

Petitions

To receive an exception from stated departmental guidelines or curriculum, the student must file a petition in the Department Office. To receive transfer credit for courses taken at another institution after admission to Civil Engineering, the student must file a petition in the Department Office.

Withdrawals

A student may withdraw from a course without academic assessment by completing a Drop/Add form before the deadline given in the UMKC Schedule of Classes.

Academic Standing

The University tries to assure that students progress satisfactorily toward their goals and receive clear warning when they do not. To this end, engineering adheres to a clear policy, but provides for exceptions in unusual cases. The interest of the student is paramount.

A student is in good academic standing when term and cumulative grade-point averages (GPA) from the University of Missouri system are 2.0 or higher in courses necessary for an engineering degree. Students will be placed on academic probation if, when in good academic standing, they earn a term GPA of less than 2.0 but greater than 1.0. Students may also be placed on academic probation at the time of initial admission or readmission because they do not fully meet the minimum standards. Students earning a term GPA of less than 1.0, or a term GPA of less than 2.0 while on academic probation become ineligible for continuation of studies. The academic standing statements found at the top of semester grade reports are defined as follows:

- Now In Good Standing - Term and cumulative GPA greater than 2.0.
- Now On Probation - Term or cumulative GPA less than 2.0.
- Academically Ineligible - Term GPA less than 1.0 or two consecutive semesters with term or cumulative GPA less than 2.0.

When a student becomes academically ineligible, the student is not allowed to continue academic studies. Any pre-registration of course work will be canceled. In order to continue academic studies, the student must appeal to the Civil and Mechanical Engineering Department in writing.

Now in Good Standing

A student whose term and cumulative grade-point averages (GPA) from the University of Missouri system are 2.0 or higher, in courses necessary for an engineering degree, is in good academic standing. A term is defined as a fall semester, spring semester or summer session.

Now on Probation

A student will be placed on academic probation if, when in good academic standing, the student earns a term GPA of less than 2.0 but greater than 1.0. A student may also be placed on academic probation at the time of initial admission or readmission because the student does not fully meet the minimum requirements.

Probationary Term

After being placed on academic probation, the student's next semester of enrollment (the probationary term) must result in the completion of at least 12 hours of course work necessary for an engineering degree. A student will be returned to good standing if, at the end of the probationary term, the student's term and cumulative GPAs are 2.0 or higher in courses necessary for an engineering degree.

Academically Ineligible

A student will become academically ineligible if any of the following apply:

- The student receives a term GPA of less than 1.0.
- The student receives a term GPA of less than 2.0 for the probationary term.
- The student receives a cumulative GPA of less than 2.0 for the probationary term.
- The student fails to complete at least 12 hours of course work necessary for an engineering degree during the probationary term.

Satisfactory Academic Progress

Students will be expected to maintain continuous satisfactory academic progress and can be removed from the civil or mechanical engineering program after evaluation by the Civil and Mechanical Engineering Academic Committee which finds satisfactory academic progress is not being made.

Academic Appeals

If a student has become academically ineligible, the student may be allowed to continue academic studies, provided that the student successfully appeals to the Academic Appeals Committee. The primary concern of the Appeals Committee is the likelihood of the student's future success. Accordingly, any appeal should include causes for the student's past poor performance and reasons for expecting better performance in the future. When the Appeals Committee allows a student to re-enroll, it may set conditions such as courses to be taken, minimum grades, total hours, etc. to which the student must adhere.

If a student has become academically ineligible and wishes to enroll on a part-time basis, the student must appeal to the Academic Appeals Committee and document the reasons for part-time enrollment. Such documentation might include a written doctor's statement for medical reasons or a written employer's statement for work reasons. If work is given as the reason for part-time enrollment, the following guidelines shall apply:

Work Hours/Week Minimum Credit Hours

30+	6
20+	9
0-19	12

Application for Graduation

Students should apply for graduation when they register for their final semester's course work. Requirements for graduation include the following:

1. The student's last 30 hours must be taken at the University of Missouri-Kansas City.
2. The overall grade-point average in all enrollments in all University of Missouri course work must be at least 2.0.
3. The grade-point average in the last enrollment in all engineering course work (CE, ECE, ME) must be at least 2.0.

A grade-point average deficiency may be removed by repeating a course or by taking additional courses that qualify as eligible electives in the curriculum.

Students are required to take the Academic Profile Test, which is a general education test, before they can graduate. This test is administered by the UMKC Office of Testing Services (816) 235-5820 and may be taken any time after the student has completed a total of 80 credit hours from any institution. The object of this test is to assess the effectiveness of university course work and the score is not part of the student's permanent record.

Students are also required to complete a department exit interview in the last semester that they are enrolled.

Bachelor of Science in Civil Engineering

The Bachelor of Science in Civil Engineering prepares students with a breadth and depth in the technical knowledge so that they can work immediately in most areas of the profession including geotechnical engineering; environmental engineering; hydraulics; and structural engineering.

Student Learning Outcomes

Engineering programs must demonstrate that their students attain:

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Curriculum Requirements

The civil engineering curriculum requires a minimum of 126 hours of coursework and satisfies the UMKC General Education requirements.

Total Hours	15	Year 1	Fall Semester Hours	
MATH 210(a)			Calculus I	4
CHEM 211/211L			General Chemistry w/Lab	5
MEC-ENGR 130			Engineering Graphics w/Lab	3
MEC-ENGR 111			Essential Engineering	3
Total Hours	15	Year 1	Spring Semester Hours	
MATH 220			Calculus II	4
PHYSICS 240			Engineering Physics I	5
COMM-ST 110			Fund. Eff. Speaking and Listening	3
ENGLISH 225(b)			English II	3
Total Hours	18	Year 2	Fall Semester Hours	
MATH 250			Calculus III	4
PHYSICS 250			Engineering Physics II	5

Constitution Req:			POL-SCI 210/HISTORY 101/102/360R	3
Total Hours	14	Year 4	Fall Semester Hours	
CIV-ENGR 411			Systems Design I	2
CIV-ENGR 422			Reinforced Concrete	3
CIV-ENGR 481			Highway and Traffic Engineering	3
CIV-ENGR Technical			or Non-technical Electives(d)	6
Total Hours	15	Year 4	Spring Semester Hours	
CIV-ENGR 412			Systems Design II	3
CIV-ENGR Technical			or Non-technical Electives(d)	9
General Education(e)				3
Total Hours	126			

Note: Civil engineering students must complete three (3) applied skills requirements prior to graduating. (Machine Shop Safety class must be completed prior to using any tools in university sponsored activities and facilities.)

- (a) Prerequisite: Four units of high school math including trigonometry; or MATH 120; or MATH 110 and MATH 125.
- (b) Prerequisite: ACT English score of 30; or SAT Verbal score of 630; or AP English Lang/Comp score of 4; or ENGLISH 110.
- (c) Written English Proficiency Test (WEPT) required before enrollment. Contact English Department for details.
- (d) CIV-ENGR Technical and non-technical electives are engineering courses approved by the department. Nine hours of approved technical electives must be completed.
- (e) English, ComStudies, Philosophy or Foreign Language 2XX level or above.

Bachelor of Science in Mechanical Engineering

The Bachelor of Science in Mechanical Engineering prepares students with a breadth and depth in technical knowledge so that they can work immediately in most areas of the profession.

Student Learning Outcomes

Engineering programs must demonstrate that their students attain:

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The Mechanical Engineering curriculum requires a minimum of 126 hours of coursework and satisfies the UMKC General Education requirements.

Total Hours 15 Year 1 Fall Semester Hours	
MATH 210(a) Calculus I	4
CHEM 211/211L General Chemistry w/Lab	5
MEC-ENGR 130 Engineering Graphics w/Lab	3
MEC-ENGR 111 Essential Engineering	3
Total Hours 15 Year 1 Spring Semester Hours	
MATH 220 Calculus II	4
PHYSICS 240 Engineering Physics I	5
COMM-ST 110 Eff. Speaking and Listening	3
ENGLISH 225(b) English II	3
Total Hours 18 Year 2 Fall Semester Hours	
MATH 250 Calculus III	4
PHYSICS 250 Engineering Physics II	5
CIV-ENGR 275 Engineering Statics	3
MEC-ENGR 219 Computer Programming for Engineers	3
CIV-ENGR 211 The Engineering Enterprise	3
Total Hours 16 Year 2 Spring Semester Hours	
MATH 345 Ordinary Differential Equations	4
CIV-ENGR 276 Strength of Materials	3
MEC-ENGR 220 Electric Circuits	3
MEC-ENGR 299 Engineering Thermodynamics	3
MEC-ENGR 285 Engineering Dynamics	3
Total Hours 16 Year 3 Fall Semester Hours	
CIV-ENGR 319 Engr. Statistics and Computation	3
MEC-ENGR 324 Engineering Materials w/Lab	4
CIV-ENGR 351 Fluid Mechanics	3
MEC-ENGR 352 Inst. and Meas. Lab I	3
MEC-ENGR 360 Thermal System Design	3
Total Hours 15 Year 3 Spring Semester Hours	
MEC-ENGR 306 Computer-Aided Engineering	3
MEC-ENGR 362 Inst. and Meas. Lab II	3
MEC-ENGR 380 Manufacturing Methods	3
MEC-ENGR 385 System Dynamics	3
MEC-ENGR 399 Heat and Mass Transfer	3
Total Hours 15 Year 4 Fall Semester Hours	
MEC-ENGR 415 Feedback Control Systems	3
MEC-ENGR 456WI(c) Mech. Component Design	3
MEC-ENGR Technical Elective	3
CIV-ENGR 311 The Technical Entrepreneur	3

Constitution Req: POL-SCI 210/HISTORY 101/102/360R	3
Total Hours 16 Year 4 Spring Semester Hours	
MEC-ENGR 496WI(c) Mechanical Design Synthesis	4
MEC-ENGR Energy Systems Design Elective(e)	3
MEC-ENGR Technical Electives(d)	6
General Education(f)	3
Total Hours	126

Note: Mechanical engineering students must complete three (3) applied skills requirements prior to graduating. (Machine Shop Safety class must be completed prior to using any tools in university sponsored activities and facilities.)

- (a) Prerequisite: Four units of high school math including trigonometry; or Math 120; or Math 110 and Math 125.
- (b) Prerequisite: ACT English score of 30; or SAT Verbal score of 630; or AP English Lang/Comp score of 4; or Engl 110.
- (c) Written English Proficiency Test (WEPT) required before enrollment. Contact English Department for details.
- (d) MEC-ENGR Technical electives are engineering courses approved by the department.
- (e) MEC-ENGR 440 Heating and Air Conditioning or MEC-ENGR 451 Power Plant Design.
- (f) English, ComStudies, Philosophy or Foreign Language 2XX level or above.

Graduate Admissions

Master's Program in Civil or Mechanical Engineering

The School of Computing and Engineering was created in January 2001 by combining the Computer Science Telecommunications Program with the former Coordinated Engineering Program.

The UMKC graduate student has the opportunity to get a state-of-the-art education in dynamic, challenging and professionally significant specialty areas.

Degrees Offered

- Master of Science in Civil Engineering (MSCE)
- Master of Science in Mechanical Engineering (MSME)

Assistantships

The school has numerous assistantship positions available each semester. Typically, awards are for quarter-time or half-time support and include tuition fee waivers.

Admission Requirements

A baccalaureate degree in civil or mechanical engineering or related disciplines with a grade point average (GPA) of at least 3.0 in the last 60 hours of undergraduate engineering coursework is required. Pre-program requirements may be specified in case the Bachelor's degree is in a discipline different to which the candidate is applying.

The following documents are required for admission consideration:

- Application for admission
- Official transcripts of all college coursework
- TOEFL score (for international students only); a minimum test score of 550 on the paper-based test or 213 on the computer-based test is needed for acceptance in any graduate engineering program. For tests taken after Sept. 26, 2005, the minimum required score is 80. *TOEFL requirements may be waived for applicants with a baccalaureate from an ABET accredited program.*
- Three letters of recommendation from professors at previous institutions or mentors at work
- Official results of the Graduate Record Exam (GRE) are required for all applicants. A cumulative score of at least 1100 (verbal + quantitative) with 85% on the quantitative portion. *GRE requirements may be waived for applicants with a baccalaureate from an ABET accredited program who have passed the Fundamentals of Engineering (FE) exam and have work experience.*

CONDITIONAL admission may be granted when the minimum GPA and GRE requirements are not met, however, other indicators promise applicant's success in the program. To be fully admitted as a "Regular Master's Degree Seeking" student, the candidate must obtain a grade of "B" or better in the first nine-hours of coursework and submit a satisfactory GRE score within the first semester of their program.

International Students: Use the international application form and return the application, along with required supporting materials, to the University of Missouri-Kansas City, Office of International Student Affairs, 5100 Rockhill Road, Kansas City, MO 64110-2499, USA. The telephone number is (816) 235-1113.

Doctoral Program in Civil or Mechanical Engineering

For the Doctoral Program in Civil or Mechanical Engineering, admission information can be found at the School of Graduate Studies website under the link for prospective students: <http://sgs.umkc.edu>. The telephone number is (816) 235-1111.

UMKC offers an Interdisciplinary Ph.D. (IPHD) program which consists of two disciplines:

- Coordinating Discipline
- Co-Discipline

Students in civil or mechanical engineering are encouraged to choose *Engineering* as the Coordinating Discipline. Admission requirements and Co-Discipline options can be found at the School of Graduate Studies website under the link for *Engineering*.

Student Organizations

CSEE encourages every student to actively participate in a student organization that matches his or her interests. The SCE **Student Council** addresses the needs of the students within the School of Computing and Engineering. These organizations include:

SCE Student Council, who represents, supports and provides an orderly method for government for all students enrolled in the School of Computing and Engineering.

[ACM \(Association for Computing Machinery\)](#) is the leading professional organization in Computer Science and Information Technology and its [student chapter](#) is very active. Among others, it sponsors and participates in numerous programming and web design contests.

[AITP \(Association of Information Technology Professionals\)](#) caters to the interest of both information technology students and business students. Their office is in the Henry W. Bloch School of Business and Public Administration.

[IEEE](#) is the world's leading professional association for the advancement of technology. As such, many (if not most) electrical and computer engineers, computer scientists, and information technology professionals are members of IEEE. Our student chapter, one of 452 branch chapters, won the prestigious *Region 5 RAB Student Branch Membership Growth and Leadership Award* in 2003, the *Region 5 Student Branch Web Site Contest* in 2005 and 2008, and was *Runner Up* in the *IEEE International Student Branch Web Site Contest*, also in 2005. The IEEE also sponsors our robotics team.

[Eta Kappa Nu](#) is the Honor Society in Electrical and Computer Engineering. The student chapter at UMKC, Theta Pi, was installed in 1980.

[Upsilon Pi Epsilon](#) is the International Honor Society for the computing and information discipline. A [UPE student chapter](#) was founded in 2004.

Advising & Registration

For advising in regard to their degree programs, students need to contact the CSEE Department Office. Each student is assigned a faculty adviser. The goal is to have the same faculty member be the student's academic adviser throughout the duration of his/her study. Students are required to meet with their faculty adviser every semester prior to registration for the following semester. The student may call the CSEE Department office to schedule this appointment. The faculty adviser guides the student in selecting courses that are necessary for completion of degree requirements and answers questions regarding elective course programs and options. During the advising period, the faculty adviser determines whether the student is meeting degree requirements by reviewing the program advisement form. Any deviations by a student are corrected immediately. Specific information regarding registration is found in the UMKC Class Schedule and on the UMKC Web site.

Program Description: Bachelor of Science and Bachelor of Arts in Computer Science

These degree programs serve to give the student excellent preparation for careers in computer science, for graduate study, or for fields where CS is an important ingredient. Students receive a strong technical background in computer science, which is coupled with a broad, general education. The BS degree prepares for a career path where the student contributes to the continued development of technology infrastructure, (operating systems, browsers, applications, softwares, networking, etc). The BA degree prepares for a career path where the student contributes to advancing infrastructures tailored for specific areas, often outside the core areas of computer science. A Fast Track Option for completing both a BS in CS and a MS in CS in five years is available, ([see below](#)). Furthermore, a minor in Computer Science is available as well. Contact info: (816) 235-1193, or see our web page csee@umkc.edu.

Educational Objectives

The undergraduate degrees in CS are designed so graduates will attain employment and advance their careers in industry, government and academia. BS students find employment in CS related fields, and BA students will find employment in fields where computing is an important ingredient. Some graduates will achieve appropriate certifications and/or pursue advanced study in computer science or other graduate fields. Graduates will be engaged in lifelong learning and thereby advance in their careers.

Career Implications

Computers of all sizes and descriptions appear in every area of the public and private sectors. Consequently, employment prospects for computer science degree holders remain steady. Current projections have the demand for computer science graduates exceeding the supply for many years to come. The range of opportunities open to the new graduate in computer science is impressive.

Computer science graduates are employed as members of technical staffs, software engineers, programming or systems analysts, and scientific or applications programmers by some of the nation's largest companies. These companies include computer manufacturers, other electronics manufacturers, the communications industry, the defense industry, engineering firms and other commercial concerns.

Program Description: Bachelor of Science in Electrical and Computer Engineering

The Bachelor of Science in Electrical and Computer Engineering (BS-ECE) is accredited by the Engineering Accreditation Commission of

ABET
111 Market Place, Suite 1050
Baltimore, MD 21202-4012
(410) 347-7700
<http://www.abet.org/>

The ECE degree program is designed to provide the key elements of both an electrical engineering and a computer engineering curriculum. It also provides additional courses that involve the business and entrepreneurial aspects of engineering. Graduates of this program are prepared for larger breadth in job opportunities than are typically available in a traditional electrical engineering program. A Fast Track Option for completing both a BS in ECE and a MS in EE in five years is available, (see below). For additional information or an advising appointment, please contact our office by phone (816) 235-**1193** or e-mail to <mailto:csee@umkc.edu>.

Educational Objectives

The undergraduate degree in ECE is designed so that graduates will attain employment in electrical and/or computer engineering and advance their careers in this field or areas such as business and law. Some graduates will become registered professional engineers and/or pursue advanced studies.

Career Implications

Job opportunities abound for engineering majors. In terms of starting salaries and the number of job offers, engineering graduates compare favorably with other graduates. In addition, the ECE curriculum at UMKC equips the graduate with the analytical decision-making skills necessary to pursue diverse technical, managerial and entrepreneurial career opportunities.

Program Description: Bachelor of Science in Electrical Engineering

The Bachelor of Science in Electrical Engineering (BS-EE) is accredited by the Engineering Accreditation Commission of

ABET
111 Market Place, Suite 1050
Baltimore, MD 21202-4012
(410) 347-7700
<http://www.abet.org>

and has been so accredited since 1978. The degree is being phased out and students are no longer accepted into this degree program. Students are strongly encouraged to consider enrolling in our degree program leading to the Bachelor of Science in Electrical and Computer Engineering (BS-ECE). Please call (816) 235-1193, or e-mail sce@umkc.edu.)

Graduate Student Financial Assistance

A variety of financial awards are available to our graduate students. The most common awards are the Chancellor's nonresident awards (CNR) and the Deans International Computing and Engineering awards (DICE). Both are awarded on a competitive basis to our best applicants only during initial enrollment. Limited graduate assistantships are also available; however they are usually not available to incoming master's level students in their first semester.

Scholarships and Awards

There are two types of scholarships and awards available to incoming MS students. No special application form is required to be submitted; the graduate admission committee makes this decision based on the regular application material submitted by the applicants.

Domestic Students (CNR)

For U.S. citizens/permanent residents who are nonresidents of Missouri, a number of nonresident tuition waiver scholarships, known as the chancellor's nonresident (CNR) award, is available for our best applicants; the amount of this award is equal to the nonresident fee differential (currently valued at approximately \$7,800 per year for students taking a full-time load each semester.) The CNR is renewable if a 3.50 GPA is maintained.

Domestic Students (GEM)

A qualified applicant can also apply for a fellowship through the GEM (the National Consortium for Graduate Degrees for Minorities in Engineering and Science) program, which is to U.S. citizens from underrepresented groups; our school is one of the selected schools certified by GEM. For additional information on GEM, go to <http://www.gemfellowship.org/>.

International Students (DICE)

For international students, the Dean's International Award for Computing and Engineering (DICE) is a competitive award available to the most qualified applicants. The amount of this new award is currently valued at up to \$7,300 per year for students taking a full load each semester. This award is only for students newly admitted to SCE and is determined at the time of admission. The DICE is renewable if a 3.50 GPA is maintained.

Graduate Assistantships

A limited number of graduate assistantships are available each semester. Research assistantships are available through various faculty conducting funded research, and information on these can be obtained from individual faculty. Most faculty with funded research programs will award research assistantships to students they have been able to observe in classroom performance. A limited number of graduate assistantships are available to fully-enrolled graduate students with excellent academic performance and solid communications skills. The actual number of assistantships available each semester is based on total student enrollment. Typically, awards are for quarter-time support, with three-eighths or half-time support a possibility and may include tuition fee waivers. Priority is given to students with excellent communication skills and to students in the Interdisciplinary Ph.D. program. International students must also pass a SPEAK test, administered at UMKC's Applied Language Institute and can not be considered for an assistantship during their first semester of enrollment. Students must apply for these opportunities by sending their application materials by e-mail to griffiths@umkc.edu.

CSEE Graduate Programs

The Department of Computer Science Electrical Engineering offers a Master of Science in Computer Science (MS-CS) and Master of Science in Electrical Engineering (MS-EE). Also, our department houses three disciplines in support of the Interdisciplinary Ph.D. program of UMKC:

- Computer Science
- Electrical and Computer Engineering
- Telecommunication and Computer Networking

For more information on the doctoral program, see the description Interdisciplinary Ph.D. Program in the School of Graduate Studies section of this catalog.

Program Description: Master of Science in Computer Science

The University of Missouri-Kansas City has created an exciting and uniquely designed program of graduate study in computer science. Significant changes are always occurring within this discipline in recent years and our graduate program in computer science reflects those changes, providing in-depth education in the new technology and skills most in demand in this growing industry.

The UMKC graduate student has the unique opportunity to get a concentrated state-of-the-art education in some of the most dynamic, challenging and professionally significant specialty areas. This is made possible by unusual advantages which the UMKC program possesses:

- An interdisciplinary approach to new technology.
- Faculty who are each actively pursuing research in these areas.

Students can earn an M.S. degree in computer science with an emphasis in:

- Bioinformatics
- Networking and Telecommunications
- Software Engineering and Systems

Many courses are offered in these emphasis areas. Contact us for more information by phone: (816) 235-1193 or send an e-mail <mailto:csee@umkc.edu>

Program Description: Master of Science in Electrical Engineering

The University of Missouri-Kansas City has created an exciting and uniquely designed program of graduate study leading to the master of science in electrical engineering. This degree offers several options: thesis or non-thesis, with the latter available with an electric power focus area. In the thesis option, the student has the opportunity to engage in research that builds upon coursework to reach the forefront in the chosen area. This degree option prepares graduates for a wide variety of future opportunities, whether it be in corporate research, product development, management or entrepreneurial endeavors. It also prepares graduates for doctoral studies. The overall goal is to put graduates into a position to be leading technology developers and innovators. The non-thesis option provides the student opportunities to study areas such as wireless communications, signal processing, computer architectures, digital systems, VLSI design, embedded system design, low-power chip design, image processing, computational electromagnetics, antenna theory, computer networking and neural networks. Alternately, the student can select the electric power focus, designed to fit easily into the schedule of full-time working engineers. The specialty has been developed in coordination with industry, engineering firms and utilities. Contact info: (816) 235-1193, csee@umkc.edu.

Doctoral Studies in Computer Science or Electrical Engineering

The Department of Computer Science Electrical Engineering also participates in the Interdisciplinary Ph.D. program of the University of Missouri-Kansas City. This program is administered through the School of Graduate Studies at the University of Missouri-Kansas City and requires a student to select both a coordinating discipline and a co-discipline. Many doctoral students choose both coordinating and co-disciplines in our department or the School of Computing and Engineering, but other disciplines can be taken as well. Three such disciplines are housed in our department:

- [Computer Science](#)
- [Electrical and Computer Engineering](#)
- [Telecommunication and Computer Networking](#)

These were formerly known as computer networking, software architecture and telecommunications networking. See the [School of Graduate Studies](#) section of this catalog for details about the [Interdisciplinary Ph.D. program](#).

Master of Science in Electrical Engineering

To earn a master of science in electrical engineering, the student must satisfy the general degree requirements and complete coursework that fulfills the requirements according to the thesis or non-thesis option. The specific requirements for the power engineering focus area are listed separately.

Specific Requirements for the Thesis Option:

1. Complete a minimum of three hours and a maximum of six hours ECE [5599](#) Research.
2. Pass a final examination, which is an oral defense of the thesis.
3. Satisfy all common requirements (see below).

Specific Requirements for the Non-Thesis Option:

1. The following courses do not count toward this degree option: ECE [5599](#), ECE [5600](#) or ECE [5690](#).
2. Satisfy all common requirements (see below).

Common Requirements and Limitations for both Thesis Option and Non-Thesis Option:

(Note that the specific requirements for the power engineering focus area are listed separately.)

1. At least 30 credit hours of 400-, 5500- or 5600-level coursework, completed within the past six years.
2. At least 21 hours of 5500/5600-level coursework.
3. At least 24 hours of ECE course work, see also below.
4. At least one three-hour course, at the 5500/5600-level, in each of three different concentration areas, with at least two of the areas in ECE; a list concentration areas with their courses is provided below.
5. Up to three credit hours of ECE [5597](#) Directed Readings and ECE [5697](#) Advanced Directed Readings, are allowed.
6. The following courses can be used to satisfy degree requirements and can be counted as equivalent to ECE courses: CS [5511](#), CS [5513](#), CS [5514](#), CS [5517](#), CS [5520](#), CS [5522](#) and CS [5594](#).
7. No more than six credit hours of transferable graduate coursework from another institution or from other degree programs within UMKC, as approved by the student's graduate faculty adviser.
8. The courses ECE [402WI](#), ECE [403WI](#), ECE [493R](#), ECE [494R](#) (or their equivalents) do not count for graduate credit.

Specific Requirements and Limitations for the Electric Power Focus:

1. At least 30 credit hours of 400-, 5500- or 5600-level coursework, completed within the past six years.
2. At least 21 hours of 5500/5600-level coursework.
3. At least 18 hours of ECE course work, with at least 12 hours of ECE course work in the power concentration.
4. At least one three-hour course, at the 5500/5600-level, in each of three different concentration areas, with at least two of the areas in ECE.
5. Up to three hours of ECE [5597](#) Directed Readings and ECE [5697](#) Advanced Directed Readings, is allowed.
6. The following courses can be used to satisfy the power focus requirements. (Note: the course ECE 5567 is currently being developed and will be added to the catalog as soon as it has been approved.) ECE [460](#), ECE [466](#), ECE [468](#), ECE [470](#), ECE [472](#), ECE [5536](#), ECE 5567, ECE [5568](#), ECE [5590AE](#), ECE [5590MC](#), ECE [5660](#), ECE [5664](#), ECE [5670](#), ECE [5672](#), BA [5519](#) and BA [5532](#).
7. The following courses can be used to satisfy degree requirements and can be counted as equivalent to ECE courses: CS

[5511](#), CS [5513](#), CS [5514](#), CS [5517](#), CS [5520](#), CS [5522](#) and CS [5594](#).

8. The following courses do not count toward this degree option: ECE [5599](#), ECE [5600](#) or ECE [5690](#).
9. No more than six (6) credit hours of transferable graduate coursework from another institution or from other degree programs within UMKC, as approved by the student's graduate faculty adviser.
10. The courses ECE [402WI](#), ECE [403](#), ECE [461](#), ECE [493R](#), ECE [494R](#) (or their equivalents) do not count for graduate credit.

Concentration Areas

The faculty provide research and concentration area coursework in:

- Communication and information processing (signal and image processing, electro-optical systems, neural networks).
- Computers and digital systems (computer arithmetic, computer architecture and computer and digital systems).
- Wireless communications (system design, propagation modeling, antenna design, wireless networking, electromagnetic modeling).
- Power (electromechanical conversion I, electromechanical conversion II, power system I, power system II, electrical power distribution systems, reliability of electric power systems, economics of power systems, power systems stability, lightning and switching surges in power systems, application of power electronics in power systems, power systems relaying, direct current power systems, contracts and law for engineers and microcomputer control of power generation systems).
- Computer networking

Bachelor of Information Technology

Student Learning Outcomes

Prior to graduation, students will develop a sound analytical mindset based in a foundation of algorithmic principles and computer science theories. They will demonstrate a basic understanding of the necessary technologies and tools that pertain to the construction of software processes, components, or programs of varying complexity to solve problems. They will demonstrate the ability to develop and deploy computer systems in a user oriented environment, and work effectively on teams to manage system development projects. They will understand their professional, ethical and social responsibilities and communicate effectively with a range of audiences. They will recognize the need for, and will be able to engage in, continuing professional development.

In particular, they will apply the core technologies from computer science and information technology when solving problems in such areas as:

- Software development
- Network operation and administration
- Digital media
- Database administration
- Web engineering

They will develop an in-depth understanding of the business context where these technologies will be employed and will have appropriate business experience through the internship program.

Admission Requirements

Although there are no specific admission requirements to this undergraduate degree program other than those specified for admission to the University of Missouri-Kansas City, students contemplating a major in information technology are strongly urged to take as many science and mathematics courses in secondary school as possible. Students without the prerequisite preparation must take the needed coursework before enrolling in courses required for the bachelor's degree. Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the undergraduate program committee.

Transfer students (i.e., from community colleges) will be admitted provided they have at least a 2.0 cumulative GPA; however, a higher GPA is strongly recommended for students pursuing this rigorous degree program. Their coursework is accepted for transfer credit per university-wide policy, but will replace degree requirements only if a grade of C or higher is obtained and if either their content is equivalent to course requirements of the degree program/courses at the University of Missouri-Kansas City or the transfer is approved as part of a transfer articulation agreement. Not all courses taken at other institutions will transfer, and if they transfer, they might not satisfy specific degree requirements. Students taking courses at other institutions are welcome (and encouraged) to check the transferability of coursework before

taking these courses at the home institution.

Curriculum Requirements

Coursework requirements for the B.I.T. degree are categorized into several areas totaling at least 120 hours of study.

Computer Science/Information Technology (42 Hours)

COMP-SCI 101 Prob. Solv. & Prog I
COMP-SCI 191 Discrete Structures I
COMP-SCI 201 Prob. Solv & Prog II
COMP-SCI 281 Intro to Computer Architecture
COMP-SCI 291 Discrete Structures II
COMP-SCI 304WI Ethics and Professionalism
COMP-SCI 352 Data Structures & Algorithms
COMP-SCI 431 Intro. to Operating Systems
COMP-SCI 441 Prog. Lang. Design & Implementation
COMP-SCI 470 Intro. to Database Mgmt. Systems

-or-

COMP-SCI 471 Database Design, Implementation & Validation
INFO-TEC 222 Multimedia Production & Concepts

INFO-TEC 321 Intro. to Computing Resources Admin.
INFO-TEC Advanced Programming Specialty Elective*
INFO-TEC Course Specialty I*
INFO-TEC Course Specialty II*
* Networking (COMP-SCI 420, 421 or 490NA) or
Programming (INFO-TEC 350, COMP-SCI 461, 423, 456 or 475)

General Education Synthesis (3 Hours)

COMP-SCI 451 Software Engineering

Anatomy of Business (18 Hours)

ACCTNG 210 Principles of Accounting
ACCTNG 211 Intro. to Managerial Accounting
MKT 324 Elements of Marketing Concepts
DSOM 326 Operations Management
Business Electives:

(Choose two of the following)

MGT 306, MGT 330, FIN 325, ENT 215,

Life and Physical Sciences (8-10 Hours)

One Life Science
One Physical Science
To include at least one laboratory component

Mathematics (7 Hours)

MATH 210 Calculus I
STAT 235 Statistics

Social and Behavioral Sciences (9 Hours)

HISTORY 101, 102, 360R or POL-SCI 210
(Meets MO constitution requirement)
ECON 202 Introduction to Economics II
Elective: Criminal Justice, Geography, Economics, History,
Political Science, Psychology, Social Science or Sociology

Prerequisite: Sophomore standing
Elective: English, Communication Studies, Philosophy
or Foreign Language
Elective: Art/Art History, Conservatory or
Theater

Internship Requirement (6 Hours)General Electives (9 Hours)Total Minimum Requirement: 120 hours

Specialty Areas

B.I.T. students may take courses from the following speciality areas:

Media Design

INFO-TEC 222.

Networking

INFO-TEC 321, COMP-SCI 420, COMP-SCI 421 or COMP-SCI 490NA.

Programming

INFO-TEC 350, COMP-SCI 461, COMP-SCI 423, COMP-SCI 456 or COMP-SCI 475.

Other courses are routinely available as special topics courses, such as INFO-TEC 490. Please see your adviser or check the actual course offerings.

Four Year Program Sample

The following sample four-year program, designed for incoming freshmen, illustrates the careful planning necessary to complete the B.I.T. degree. All students are urged to construct such a four-year plan, in consultation with a B.I.T. degree adviser, as early as possible. While subsequent changes are likely, maintaining a four-year plan provides a coherent path toward the degree.

Courses marked (b) below meet B.I.T. requirements and those marked (g) below meet UMKC general education requirements.

First SemesterHours

COMP-SCI 101(b)	Problem Solv. & Programming	3

Bachelor of Science/Bachelor of Arts in Computer Science

Student Learning Outcomes

Prior to graduation, students will develop a sound analytical mindset based in a foundation of mathematics, algorithmic principles, computer organization, and computer science theories. They will use current technologies, skills and tools necessary to design and implement system components under realistic constraints to solve problems of varying complexity. They will work effectively on teams to manage system development projects. They will understand their professional, ethical and social responsibilities and communicate effectively with a range of audiences. They will recognize the need for, and are able to engage in, continuing professional development.

In particular, they will apply the core technologies from computer science when solving problems in such areas as

- Networking
- Data structures and algorithms
- Software development and systems
- Operating Systems

They will have had an opportunity to concentrate their coursework in computer networking, software systems or bioinformatics.

Admission Requirements

Although there are no specific admission requirements to this undergraduate degree program other than those specified for admission to the University of Missouri-Kansas City, students contemplating a major in computer science are strongly urged to take as many science and mathematics courses in secondary school as possible. Students without the recommended preparation must take prerequisite coursework in order to prepare for enrollment in courses required for the bachelor's degree.

Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the undergraduate program committee.

Transfer students (i.e., from community colleges) will be admitted provided they have at least a 2.0 cumulative GPA; however, a higher GPA is strongly recommended for students pursuing this rigorous degree program. Their coursework is accepted for transfer credit per university-wide policy, but will replace degree requirements only if a grade of C or higher is obtained and if either their content is equivalent to course requirements of the degree program/courses at the University of Missouri-Kansas City or the transfer is approved as part of a transfer articulation agreement. Not all courses taken at other institutions will transfer, and if they transfer, they might not satisfy specific degree requirements. Students taking courses at other institutions are welcome (and encouraged) to check the transferability of coursework before taking these courses at the home institution.

Curriculum Requirements

The requirements for the B.A. in Computer Science are listed in column **BA**, those for the B.S. in Computer Science are listed in column **BS**.

--	------------	------------

Concentration Areas

Students pursuing the B.S. degree in Computer Science are required to take two additional advanced elective courses (at the 400 level), with which they can tailor their degree to their specific needs. Students have the option to pursue the emphasis area in *Bioinformatics* or to pursue one of the concentration areas of *Computer and Telecommunications Networking* or *Software Engineering*.

Bioinformatics

The courses required for the emphasis area in Bioinformatics can be accommodated within the current plan of study, if properly chosen. They are: BIOLOGY 108-General Biology I w/Lab, BIOLOGY 109-General Biology II w/Lab, BIOLOGY 202-Cell Biology, BIOLOGY 206-Genetics, CHEM 211-General Chemistry I w/Lab, CHEM 212-General Chemistry w/Lab, COMP-SCI 490MB, MetaModels of Biology, COMP-SCI 490BI-Introduction to Bioinformatics, and either COMP-SCI 471-Database Design, Implementation and Validation, or COMP-SCI 470-Introduction to DBMS.

Computer and Telecommunications Networking

For the concentration in Computer and Telecommunications Networking, students may take the CS advanced electives from the following list of courses: COMP-SCI 411, COMP-SCI 416, COMP-SCI 420, COMP-SCI 421, COMP-SCI 423. Courses offered as special topics (CS 490) that are relevant to this concentration may also count, such as Network Analysis, Network Security.

Software Engineering

For the concentration in Software Engineering, students may take the CS advanced electives from the following list of courses: COMP-SCI 456, COMP-SCI 457, COMP-SCI 458, COMP-SCI 461, COMP-SCI 464, COMP-SCI 493. Courses offered as special topics (COMP-SCI 490) that are relevant to this concentration may also count.

Four Year Program Sample

The following sample four-year program, designed for incoming freshmen, illustrates the careful planning necessary to complete the B.S.-C.S. degree. All students are urged to construct such a four-year plan, in consultation with a Computer Science degree adviser, as early as possible. While subsequent changes are likely, maintaining a four-year plan provides a coherent path toward the degree. Since the B.A.-C.S. degree requires a subset of courses as far as Computer Science and Mathematics are concerned, they are not shown separately.

Fast Track Program in Computer Science

This program offers students an opportunity to meet the full requirements of the existing BS and MS degree programs in a shorter time period than the separate degree programs by completing a B.S. degree in Computer Science within four years and then completing an M.S. degree in Computer Science in their fifth year. Please contact our department for additional info or clarification on the information below, by calling (816) 235-1193, or sending an e-mail to <mailto:csee@umkc.edu>

Admission Requirements for Fast Track

Students must meet the following entrance requirements:

1. High School GPA of 3.50 GPA (out of 4.00).
2. ACT Math of 28 or higher.
3. No single grade below C (2.00) in any coursework in STEM (Science, Technical, Engineering or Mathematics) fields from another college.
4. Cumulative GPA of 3.00 in any previous college credit.
5. Must start at UMKC/CSEE within one year of High School graduation.

Students are expected to follow the recommended curriculum (although deviations are possible) and must maintain:

1. UMKC cumulative GPA of 3.50 or higher.
2. A minimal course grade of 2.00 or higher for every course attempted in the CSEE department.

Students are admitted into the graduate program in the spring semester of their fourth year. Upon successful completion of the first four years, the students will be eligible for an assistantship. The assistantship is renewable for the second semester of the fifth year only if they complete at least nine credit hours during their first semester with at least a 3.50 GPA.

Program Description

Students will begin with the existing undergraduate degree programs in the school. They will take the same classes as other undergraduates, carrying 15-18 credit hours per semester. If they continue to meet the requirements, they will be invited to take graduate level classes before they graduate with a BS degree. After graduating with a BS degree, they will continue with the graduate program.

Five Year Program Sample

The computer science curriculum requires a total of 150 hours of undergraduate and graduate coursework and satisfies the requirements for both the B.S. in CS and M.S. in CS degrees. This is a sample only, and adjustments can be made for particular situations, please see an adviser to tailor a degree program.

(a) Constitution Requirement may be satisfied by taking either HIST 101, 102, 360R or POLSC 210. (b) Fine Arts electives include art/art history, conservatory or theatre. (c) Social and Behavioral Science electives include criminal justice, economics, geography, history, political science, psychology, social science or sociology. (d) Graduate credit enrollment has degree specific requirements and faculty adviser will work out details of the program in consultation with the student.

Requirements for Graduation

Credit Hour Requirements:

The BS and MS program in Computer Science requires:

- 120 Undergraduate Credit Hours,
- 30 Graduate Credit Hours, and
- 150 Total Credit Hours.

Academic Requirements:

The academic requirements for both degrees are identical to the requirements for the two degree when considered separately, with a few additions and exceptions.

1. Students enrolled in the plan must maintain a 3.50 cumulative GPA for all UMKC coursework.
2. Students must receive a minimum grade of C (2.0) in every course attempted in the CSEE Department.
3. Students should follow the recommended sample program in order to graduate within five years, but variations are possible.
4. The degree requirements for a BS in CS includes four CS advanced electives: (CS 420 or CS 421), (CS 470 or CS 471), plus two additional CS advanced electives. For students in the Fast Track, at least two of these four courses must be from the approved list of courses that graduate students can count towards their graduate studies, thus they must take (at least) two courses from from CS 411, CS 421, CS 423, CS 457, CS 458, CS 461, (CS 470 or CS 471, not both), CS 493 and CS 494R.
5. Students must be admitted to the Graduate School in the spring semester of their fourth year.
6. Upon successful completion of the first four years, the students will be eligible for a graduate assistantship.
7. The degree requirements for the Fast Track M.S. in CS is identical to that of the M.S. in CS under the 'non-thesis' option, composed of the 30 hours of graduate credit in combination with the two courses taken as an undergraduate

that were selected from the list above.

For additional details, please contact our Department by phone (816) 235-1193 or by e-mail <mailto:sce@umkc.edu>

Bachelor of Science in Electrical and Computer Engineering

Student Learning Outcomes

Prior to graduation, students will have demonstrated that they have an ability to apply knowledge of mathematics, science, and engineering, that they can design and conduct experiments, including the analysis and interpretation of data. They can design a system, circuit, or process to meet desired needs within realistic constraints. They can effectively work on a team to identify, formulate, and solve engineering problems. They understand their professional and ethical responsibilities. They are able to communicate effectively, and have received the broad education necessary to understand the impact of engineering solutions in a broader context. They recognize the need for, and are able to engage in life-long learning. They are able to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Admission Requirements

High school students planning to apply to the electrical and computer engineering program should pursue a college preparatory program that emphasizes mathematics, science and communication skills.

First-time college student applicants to the undergraduate program in electrical and computer engineering will be admitted if they obtain:

1. An ACT mathematics score of at least 25 and
2. An ACT composite score of at least 24 or a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the above criteria but do meet UMKC general admission requirements may be admitted on probation.

Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the degree program committee.

Transfer students will be admitted provided they have at least a 2.0 cumulative GPA; however, a higher GPA is strongly recommended for students pursuing this rigorous degree program. Degree program courses for which the student received a C or higher are accepted only if they are from ABET-accredited engineering or computing degree programs or have been approved as part of a transfer articulation agreement.

Concentration Areas

In order to graduate, a student must choose four senior electives. Of these four courses, three must have the E&C-ENGR curricular designation. Furthermore, of these four, at least two must be from within one concentration area. The following concentration areas are recognized:

Communication and Networking

E&C-ENGR 412, E&C-ENGR 474, E&C-ENGR 476, COMP-SCI 420, COMP-SCI 421 or COMP-SCI 423.

Computer and VLSI Systems

E&C-ENGR 416, E&C-ENGR 424 or COMP-SCI 457.

Control and Power

E&C-ENGR 458R, E&C-ENGR 460, E&C-ENGR 461 or E&C-ENGR 466.

Signal and Image Processing

E&C-ENGR 416, E&C-ENGR 480, E&C-ENGR 484 or E&C-ENGR 486.

Other courses, such as special topics courses, might fall in an emphasis area provided that this is approved by the course and curriculum committee. Furthermore, qualified students might be able to take graduate level courses, see adviser. There are some other courses available when there is sufficient demand for these courses, such as ECE482.

Four Year Program Sample

The following sample four-year program, designed for incoming freshmen, illustrates the careful planning necessary to complete the BS in E&C-ENGR degree. All students are urged to construct such a four-year plan, in consultation with an E&C-ENGR degree adviser, as early as possible. While subsequent changes are likely, maintaining a four-year plan provides a coherent path toward the degree. The markings (1) through (7) refer to notes and are explained at the bottom of the table.

Total Hours:	125

- (a) Students with HS chemistry may petition to take BIOLOGY 108/108L instead.
- (b) Constitution Requirement may be satisfied by taking either HISTORY 101, 102, 360R or POL-SCI 210.
- (c) Or ECON 202 Economics II.
- (d) Prereq.: ACT English score at least 30, SAT Verbal score at least 630, AP English Lang/Comp score at least 4, or ENGLISH 110.
- (e) See options and limitations for senior electives under curriculum requirements.
- (f) Fine Arts electives include art/art history, conservatory or theatre.
- (g) Social and Behavioral Science electives include criminal justice, economics, geography, history, political science, psychology, social science or sociology.

Fast Track Electrical and Computer Engineering/Electrical Engineering Program

This program offers students an opportunity to meet the full requirements of the existing programs of BS in ECE and MS in EE in a shorter time period than the separate degree programs by completing a B.S. degree in Electrical and Computing Engineering within four years and then completing an M.S. degree in Electrical Engineering in their fifth year. Please contact our department for additional info or clarification by phone (816) 235-1193 or by e-mail <mailto:csee@umkc.edu>

Admission Requirements for Fast Track

Students must meet the following entrance requirements:

1. High School GPA of 3.50 GPA (out of 4.00).
2. ACT Math of 28 or higher.
3. No single grade below C (2.00) in any coursework in STEM (Science, Technical, Engineering or Mathematics) fields from another college.
4. Cumulative GPA of 3.00 in any previous college credit.
5. Must start at UMKC/CSEE within one year of High School graduation.

Students are expected to follow the recommended curriculum (although deviations are possible) and must maintain:

1. UMKC cumulative GPA of 3.50 or higher, and
2. A minimal course grade of 2.00 or higher for every course attempted in the CSEE department.

Students are admitted into the graduate program in the spring semester of their fourth year. Upon successful completion of the first four years, the students will be eligible for an assistantship. The assistantship is renewable for the second semester of the fifth year only if they complete at least nine credit hours during their first semester with at least a 3.50 GPA.

Requirements for Graduation

Credit Hour Requirements:

The Fast Track combination of a bachelor's program in Electrical and Computer Engineering and a master's program in Electrical Engineering requires:

- 120 Undergraduate Credit Hours
- 30 Graduate Credit Hours, and
- 150 Total Credit Hours.

Academic Requirements:

The curricular requirements for both degrees are identical to the requirements for the two degrees when considered separately, with a few additions and exceptions.

1. Students enrolled in the plan must maintain a 3.50 cumulative GPA for all UMKC coursework.
2. Students must receive a minimum grade of C (2.0) for every course attempted in the CSEE Department.
3. Students should follow the recommended sample program in order to graduate within five years, but variations are possible.
4. The bachelor's degree in Electrical and Computer Engineering will be awarded after 126 credit hours have been earned. (120 as an undergraduate and 6 as a graduate student.) There are a number of courses available for this purpose, e.g. ECE 412, ECE 416, ECE 424, ECE 458R, ECE 460, ECE 461, ECE 466, ECE 474, and ECE 476.
5. Students must be admitted to the Graduate School in the spring semester of their fourth year.

For additional details, please contact our Department by phone (816) 235-1193 or by e-mail <mailto:csee@umkc.edu>

Five Year Program Sample

Students should follow the sample program as listed for the BS in ECE degree and should apply for the graduate degree prior to enrolling for the Spring semester of their fourth year, so that they will take six hours of elective courses as a graduate student. During their fifth year, they could enroll in 12 credit hours each semester or make use of the Summer semester between their fourth and fifth year to take a course or special project, if offered.

Minor in Computer Science

For students to obtain a minor in Computer Science, they must satisfy all University degree requirements (see the General Undergraduate Academic Regulations and Information section in this catalog), satisfy the requirements as set forth by the major degree (major department, major academic unit) and must obtain a GPA of 2.0 or higher in the eight courses (24 credit hours) specified below, with no individual computer science grade below a C (2.0).

There are no other requirements specifically required by the minor, although some of the courses do have prerequisites from outside of SCE. In particular, MATH 110 and MATH 210 are prerequisites for COMP-SCI 101, COMP-SCI 191 and COMP-SCI 352.

Computer Science Minor		
Hours		
COMP-SCI 101	Problem Solving & Programming I	3
COMP-SCI 191	Discrete Structures I	3
COMP-SCI 201	Problem Solving and Programming II	3
COMP-SCI 281	Introduction to Computer Architecture	3
COMP-SCI 291	Discrete Structures II	3
COMP-SCI 352	Data Structures and Algorithms	3
COMP-SCI 4XX	Two Senior Level Electives	6
Total Credit Hour Requirement		24

Program Description: Bachelor of Information

Technology

The use of computers in commerce and industry keeps the college educated IT professional at the forefront of occupational demand. The Bachelor of Information Technology (B.I.T.) program prepares for a career path where the student contributes to the continued deployment of technology infrastructure, (operating systems, browsers, applications, softwares, networking, etc.). It blends both CS, IT, and Business coursework and requires an internship for the completion of the degree. The degree is accredited by ABET, see www.abet.org. Students wishing to do graduate work in Computer Science should work towards the Bachelor of Science degree in Computer Science. Please contact our department for more info, please call (816) 235-1193, or e-mail to <mailto:csee@umkc.edu>

Educational Objectives

The degree of Bachelor in I.T. is designed so that graduates will attain employment in an IT related field. Some graduates will achieve appropriate certifications and/or will pursue advanced study in business, IT or other fields. Graduates will be engaged in lifelong learning and thereby advance in their careers.

Career Implications

There remains a large and growing number of unfulfilled IT positions both nationwide and within the Kansas City area. B.I.T. graduates are typically employed as software developers, network specialists, web developers, information system operators, programmer analysts, digital media specialists and database administrators. The need of the future is for students with an analytic and problem solving mindset who are able to adapt quickly to an ever-changing environment.

Undergraduate Academic Regulations

All students pursuing an undergraduate degree in the Department of CSEE, i.e. the Bachelor in Information Technology (IT), B.A. in Computer Science (CS), B.S. in CS, or B.S. in Electrical and Computer Engineering (ECE), must follow all academic regulations as specified in the following sections.

Academic Load

For a student to complete the degree in four years, it is imperative that the student takes about 15 credit hours worth of coursework each semester (not including summer). The 4-year program samples shown for each degree below are meant as a planning guideline for students. For a student wanting to complete **both an undergraduate degree and a graduate degree** in five years should consult the appropriate section on our Fast Track Program.

Academic Standing

The University tries to assure that students progress satisfactorily toward their goals and receive clear warning when they do not. To this end, this academic program adheres to a clear policy, but provides for exceptions in unusual cases. The interest of the student is paramount.

Good Academic Standing

A student is in good academic standing when term grade-point average (T-GPA), cumulative grade-point average (C-GPA), and grade-point average in courses necessary for their degree program (D-GPA) from the University of Missouri system are all 2.0 or higher. If a student starts a semester in good academic standing, and receives a T-GPA or D-GPA less than 2.00 (but higher than 1.00), then the student is placed on *academic probation*. If a student starts a semester in good academic standing, and receives a T-GPA or D-GPA less than 1.00, then the student becomes *ineligible* to continue their degree objective.

Academic Probation

A student who is placed on probation must return to good academic standing in one or two semesters, under the following restrictions: If the T-GPA, D-GPA, and C-GPA are all 2.0 or higher at the end of the first semester, then the student is returned to Good Academic Standing. If the T-GPA is 2.0 or higher for the first probationary semester, then the student will be allowed to enroll for a second and final probationary semester. If the T-GPA is less than 1.0, the student becomes *ineligible* to continue their degree objective. Note: Students may also be placed on academic probation at the time of initial admission or readmission because they do not fully meet the minimum standards.

Academic Ineligibility

Students become *ineligible* to continue their degree objective if either T-GPA or D-GPA is less than 1.0, or if the T-GPA is less than 2.0 in a probationary semester.

Grade Reports

The academic standing statements found at the top of semester grade reports are only calculated from T-GPA and C-GPA (the D-GPA is not incorporated and will be calculated by your adviser) and are defined as follows:

- Now In Good Standing - Term and cumulative GPA greater than 2.0.
- Now On Probation - Term or cumulative GPA less than 2.0.
- Academically Ineligible - Term GPA less than 1.0 or two consecutive semesters with term or cumulative GPA less than 2.0.

Repeating a Course

Please see the Request for [GPA Adjustment Form](#) available at the Registrar's website about retaking a course for which a D + or less was earned.

Auditing a Course

A student cannot take a course for audit and later expect to take the same course for credit in the degree program. For that reason, students must not audit any courses required in their program, unless credit has already been established.

To audit an elective course, written consent from both the student's adviser and the instructor of the course is required. After the first week of classes, a student cannot change from credit to audit or audit to credit.

Academic Dishonesty

A student enrolling in any UMKC course is expected to exhibit high standards of academic honesty in all works, and are expected to refrain from cheating and plagiarism. Rules governing any suspected violation are clearly spelled out elsewhere in the UMKC catalog. Instructors are obligated to report any cases of alleged academic dishonesty, and any violation will result in sanctions being imposed on the student, ranging from a warning, probation, loss of financial aid, loss of privileges, suspension, and dismissal. Please note that both receiving and giving unauthorized assistance is considered academically dishonest.

Petitioning

Any exception to academic policy and regulations regarding the degree requirements (e.g. transfer courses taken elsewhere, course waivers, waivers of residency) must be requested through a written petition. The petition form is available from the CSEE Department Office. The completed petition that includes an explanation for the petition should be submitted to the CSEE Department Office with any necessary documents attached. The Degree Program Coordinator or his/her designee will review such petitions and will communicate the result to the student.

Graduation Requirement

For students to obtain an undergraduate degree in the Department of CSEE, they must have passed the courses as specified in various categories under the header Curriculum Requirement for the desired degree, B.I.T, B.A. in CS, B.S. in CS, or B.S. in ECE. In addition, there are a number of University-wide degree requirements and a number of restrictions that apply:

1. ENGLISH 299 does not count towards the degree requirements.
2. A minimum of 36 credit hours from junior/senior level courses must be included.
3. The GPA from all courses attempted at the University of Missouri must be at least 2.0.
4. The GPA from all courses attempted in the major must be at least 2.0.
5. Can count individual coursework in CS, ECE, or IT toward the degree if at least a C (2.0) is earned.
6. Can transfer individual coursework in CS, ECE, or IT toward the degree if the coursework is from an ABET accredited degree program in either computing or engineering or if the coursework is part of a transfer articulation agreement for which the student received at least a C (2.0).
7. The final 30 consecutive credit hours of course work must be taken at UMKC.

8. Participation in University-sponsored assessment tests is a prerequisite for graduation; and exit interview may also be required.

Students who have completed 90 hours of credits should file an application for graduation and make an appointment for a degree check. Appointments may be made by calling (816) 235-**1193**. Students who are pursuing a second undergraduate degree must complete a minimum of 30 additional credit hours from UMKC, of which a minimum of 12 credit hours are from junior/senior level courses.

CSEE Undergraduate Programs

The CSEE department administers undergraduate degree programs in:

- Computer Science (B.A. in CS)
- Computer Science (B.S. in CS, ABET accredited)
- Electrical and Computer Engineering (B.S. in ECE, ABET accredited)
- Information Technology (Bachelor of IT, ABET accredited)

A Fast Track Option for completing both an undergraduate degree and a masters degree within five years is available for CS and ECE/EE, as described below. Furthermore, a minor in computer science is available as well.

The two degrees in computer science are the bachelor of arts in computer science (B.A. with a liberal arts perspective), and bachelor of science in computer science (B.S. with a more thorough technical perspective). The B.S. degree is accredited by ABET and has optional concentrations or emphasis areas in software engineering, computer networking and bioinformatics. The degree prepares the student for work in these industries, as well as for pursuing further graduate education in these areas. The bachelor of science in electrical and computer engineering (B.S.) is for students wanting to pursue a career in electrical engineering or electrical and computer engineering. The bachelor of information technology (B.I.T.) degree is accredited by ABET and caters to the needs of the IT industry and uniquely blends both computer science and business coursework.

Certified General Education Core at Another Missouri Institution

Students wanting to transfer into the CSEE department with a certified 42-hour block of general education credit from another Missouri institution are strongly encouraged to consult an academic adviser in our department in addition to the adviser at their home institution. Contact the department office at (816) 235-**1193**. This ensures coursework taken in this block also satisfies specific degree requirements in our department.

Department Description

The CSEE Department has about 28 full-time faculty members, including a Curators' professor, a UMKC Trustee's professor and one Fulbright Senior Specialist. Our faculty is at the forefront in research with funding from NSF and industries. We have strong partnerships with:

- Black & Veatch
- Burns & McDonnell
- Cerner
- Garmin
- General Electric
- Honeywell
- Sprint Nextel

most of which are headquartered in the Kansas City area. Within UMKC, there are ongoing collaborations with most other schools.

In the life sciences area, we have partnerships with life and health sciences schools at UMKC and life sciences partners in the Kansas City area through the Kansas City Area Life Sciences Institute (KCALSI).

We have research strengths in the following areas:

- Networking and Telecommunications (design, protocols, routing, security, teletraffic modeling and analysis, monitoring, performance modeling, RF/wireless communication, optical, mobile computing, sensors, queueing theory, etc.).

- Software Engineering and Systems (object-oriented design and analysis, database/information management, middleware, intelligent agents, peer-to-peer computing, mobile databases, data mining, knowledge discovery, intrusion detection, etc.).
- Biomedical Informatics (machine learning and data mining methods for biological and medical data, modeling biological systems, biomedical information representation and sequence & structural analyses of biomolecules).
- Communications, Signal and Image Processing (digital signal processing, computational electromagnetics, RF and antenna theory and design, biomedical image processing, biometrics, neural networks, etc.).
- Computer Engineering (VLSI and mixed-signals chip design, performance and design of low power devices (including memories), embedded systems, System-On-Chip (SOC) and ASIC/FPGA design).
- Algorithms (complexity, distributed and parallel computations, graph, optimization, and combinatorial algorithms).

The CSEE department is committed to excellence in teaching. We stay on the top of the technology curve and continually offer new courses in emerging/hot topics. Our graduates are sought after by regional as well as national companies.

Approximately 645 students were enrolled in the CSEE department in the Fall 2008 semester: 275 at the undergraduate level (all degree programs), 335 at the masters level (both CS and EE), and 35 students participated in UMKC's Interdisciplinary Ph.D. program through a discipline in CSEE.

CSEE Graduate Academic Regulations

For smooth completion of the degree program, a student must follow various academic regulations as described below:

Program of Study

A graduate degree indicates mastery of a coherent program in a chosen field and the ability to engage in creative projects in that specialty. The program of study is vital in assuring the completion of a formal program of study designed to ensure the mastery of specified knowledge and skills.

Forms for the program of study specification may be obtained from the CSEE Department Office. It is required that the program be approved by the student's graduate adviser and the graduate committee chair in the semester in which the student will complete 12 credit hours toward the degree, which is usually during the second semester of enrollment. It is then forwarded to the graduate officer for further approval and handling.

Once a program of study has been approved, it is the student's responsibility to ensure that all curricular requirements and prerequisites are satisfied. If a change in the approved program is needed, a petition must be submitted to the student's adviser who forwards it to the graduate committee for approval. It is not expected that more than four courses will change from the original program of study. If more than four courses are changed, then a new program of study should be filed.

Advising

Initially, the student will be advised by the academic adviser assigned to them during the first semester of enrollment. In order to enroll in any course, the student must have the signature of the adviser. No student can enroll without such a signature. If a student enrolls in a class without their adviser's signature or approval, that class may not count toward graduation requirements. Also see the section "Starting the Program".

In the semester that results in 12 hours of credit toward the master's degree, students should decide between a thesis option and a non-thesis option. If students decide on a non-thesis option, they should consult with their adviser and submit a plan of study for approval. If students decide on a thesis option, they should seek a thesis adviser, who then also becomes the academic adviser. The thesis adviser must be a full member of the graduate faculty and, in collaboration with the student, will then appoint two other graduate or associate graduate faculty members to be on the student's thesis committee. The thesis committee may consist of more than three members, but the majority of committee members must have full graduate faculty status. Again, a plan of study must be submitted for approval.

Academic Loads

A graduate student enrolled in the fall or spring semester in nine or more credit hours is considered full time. A graduate student enrolled in the summer semester in five or more credit hours is considered full time. Any student enrolled in less than the above number of hours is considered part time. A student who is enrolled for six credit hours during a regular semester may be considered full time if the student has at least a quarter-time graduate assistantship. A student's academic load may be restricted as deemed fit by the student's graduate adviser or the CSEE master's committee.

International students will be required to take an English Proficiency Test administered by the International Student Affairs Office. Performance on the test may result in the requirement that the student take one or more English language courses during the first semester.

Students holding graduate assistantships should take a minimum of six credit hours during each of the fall and spring semesters and a minimum of three credit hours during the summer session. However, GA/GTA/GRAs who have completed all coursework and who are working on research need to enroll in only one credit hour. International students must abide by the requirements of the U.S. Immigration Service and should consult the [International Student Affairs Office](#) regarding this matter.

Enrollment Policies

To remain in good standing, the student must enroll for at least one semester during each calendar year until all the courses in the program of study are completed. After this time, the student must be continuously enrolled each fall and spring semester until the degree is awarded. The student must be enrolled in the semester in which the degree will be received. Students working as graduate assistants during the summer must be enrolled during the summer semester. Failure to follow the above policies will result in a need to apply for new admission to the program under the degree requirements in effect at the time of re-admission.

Academic Standing

The student must maintain at least a 3.0 GPA every semester. Deficiency courses, if any, must be passed with a B (3.0) or higher. A 400-level course in which the student receives a grade lower than B (3.0) can not be used to satisfy the degree requirements. Similarly, a 5000-level course in which the student receives a grade lower than C (2.0) can not be used to satisfy the degree requirements. However, all grades for courses taken for graduate credit shall be used in the calculation of the current GPA. No more than one grade below B (3.0) in a course taken for graduate credit can be applied toward the degree. If a student receives three grades below B (3.0) in courses taken for graduate credit or taken to fulfill a deficiency requirement, or if a student receives a grade below C (2.0) in a course taken for graduate credit or taken to fulfill a deficiency requirement, then the student will be ineligible to enroll.

Academic Dishonesty

A student enrolling in any UMKC course is expected to exhibit high standards of academic honesty in all works, and are expected to refrain from cheating and plagiarism. Rules governing any suspected violation are clearly spelled out elsewhere in the UMKC catalog (www.umkc.edu/umkc/catalog/html/append/policy/0040.html.) Instructors are obligated to report any cases of alleged academic dishonesty, and any violation will result in sanctions being imposed on the student, ranging from a warning, probation, loss of financial aid, loss of privileges, suspension, and dismissal. Please note that both receiving and giving unauthorized assistance is considered academically dishonest.

Petitions

Any exception to academic policy and regulations or to the degree requirements (e.g. deficiency waiver) must be requested through a written petition. The petition form is available from the CSEE Department Office and on the Web; the completed petition which includes an explanation for the petition should be submitted to the CSEE Department Office. The degree program coordinator or his/her designee will review petitions and communicate the result to the student. It is important that the petition include any necessary documents as attachments for a timely decision.

Ineligibility

Ineligible students may petition the CSEE graduate committee to be re-enrolled. Such petitions will be reviewed by the graduate committee whose ruling is final. An ineligible student will only be approved for further graduate study under the terms of a restrictive probation in the form of a written contract between the student and the CSEE department. The CSEE department may render a student ineligible regardless of the student's GPA. Such procedures are rare and will involve a recommendation to the dean of the School of Graduate Studies.

Auditing a Course

A graduate student should not take a course for audit if that student plans to take the course for credit. Once a course has been audited by a student, the student cannot take the course for credit later in the program.

A graduate student cannot change a course to audit after the eighth week of the fall and spring semesters or after the fourth week of the summer semester. Changes to audit status must have the permission of the course instructor, as well as be within the allowable period.

Master of Science in Computer Science

Student Learning Outcomes

Upon graduating, students will have demonstrated that they can apply the core technologies from computer science and from their chosen emphasis areas. They will have developed an analytical mindset and understand the limitations of current theories and technologies. They will be able to design a system under realistic constraints, which they are able to implement using modern tools and techniques. They will have had an opportunity to take in-depth course work in the area of computer networking, telecommunications, software engineering and bioinformatics.

Admission Requirements

The University of Missouri-Kansas City's graduate program in computer science will accept college and university graduates whose past performance indicates an ability to succeed in graduate study in computer science. This ability can be demonstrated by the following undergraduate preparation.

1. A sound background in computer science as indicated by an above-average understanding (e.g. a cumulative GPA in CS coursework of 3.0 or better with no single course grade lower than 2.0) of the content of the following courses:
 - o Problem Solving and Programming I (COMP-SCI 101)
 - o Problem Solving and Programming II (COMP-SCI 201)
 - o Introduction to Computer Architecture (COMP-SCI 281)
 - o Discrete Structures I and II (COMP-SCI 191, 291)
 - o Data Structures and Algorithms (COMP-SCI 352)
 - o Applied Probability (COMP-SCI 394R)
 - o Introduction to Operating Systems (COMP-SCI 431)
 - o Advanced Computer Architecture (COMP-SCI 481)
2. A sound background in mathematics as indicated by an above average understanding (e.g. a GPA of 3.0 or better with no single course grade lower than 2.0) of calculus (minimum of 10 hours) and of the content of at least two additional upper-level courses in areas such as linear algebra, differential equations, abstract algebra, numerical analysis or mathematical logic.
3. A GPA of 3.0 or better in all undergraduate work.
4. Official results of the Graduate Record Exam (GRE) general test. The applicant must score in at least the 75th percentile on the quantitative portion of the GRE. Admission to our degree programs is competitive and a higher score is recommended.
5. For international students, a minimum test score of TOEFL 550 or CBT 213 or IBT 79 is needed.
6. Prospective students who want to be considered for acceptance to the M.S. degree program should submit the following documents:
 - o Transcripts for all graduate and undergraduate work completed so far; syllabi of these courses (or a URL to these) is strongly suggested.
 - o Copies of academic and scholarly diplomas received.
 - o GRE scores and, for international students, TOEFL scores, as well as a statement of purpose, i.e. a one- or two-page essay in which the prospective students indicate their career objectives.

It is possible that a prospective student has obtained a solid understanding of either computer science or mathematics through work or other experience rather than formal study. These students must submit a detailed

description of such experience and ask a supervisor to write a letter of reference supporting the application.

Applications will be reviewed by the master's committee when all documentation is received. For full consideration for the semester indicated, completed applications should be received by the following dates:

- For fall semester admission (semester starts in August):
 - U.S. students/permanent residents: June 1.
 - International students: Jan. 15.
- For spring semester admission (semester starts in January):
 - U.S. students/permanent residents: Nov. 1 of the preceding year.
 - International students: Oct. 1 of the preceding year.

U.S. citizens or permanent residents should submit application forms and required supporting materials to:

Mailing Address

University of Missouri-Kansas City
Office of Admissions
120 Administrative Center
5100 Rockhill Road
Kansas City, MO 64110-2499

Their telephone number is (816) 235-**1111** and their e-mail address is admit@umkc.edu.

International students should use the international application form and return the application, along with required supporting materials to:

Mailing Address

University of Missouri-Kansas City
Office of International Student Affairs
5100 Rockhill Road
Kansas City, MO 64110-2499

Their telephone number is (816) 235-**1113** and their e-mail address is isao@umkc.edu.

Prospective students can request additional information or request information regarding their application by contacting UMKC at the above addresses or by sending e-mail to: csee@umkc.edu.

Starting the Program

When accepted into the program, the student's first contact is with the computer science principal graduate adviser or with members of the graduate committee during the orientation session. The most immediate concern is for the courses to be taken in the first semester. The principal graduate adviser will help the student select those initial courses. At this initial meeting, a review will be made of the student's status in the program and the student will be required to provide a tentative program of study within the first semester. Such a program should reflect the deficiency and prerequisite courses that have been prescribed and may have to be taken prior to taking courses for graduate credit.

Within the first semester, the student will be assigned a graduate adviser (faculty) who will then become the primary contact person for that student until a thesis adviser (for thesis option) is selected. The chair of the CSEE graduate committee or his/her designee will notify the student of the identity of the specific graduate adviser. It will be the responsibility of students, in conjunction with their advisers/chairs, to devise a program of study using the degree requirements worksheet and the course planning worksheet. This should be submitted to the graduate committee, usually by the end of the second semester. The CSEE graduate committee is in charge of handling procedural issues related to the M.S. program in computer science. Any request for exception to rules, regulations or policies should be directed to this committee.

Deficiencies

The graduate committee reviews and evaluates all applications for admissions to the M.S. degree programs. Frequently, they review applications from students whose past academic record show strong positive indications for success as a graduate student, yet have not satisfied all courses needed for full admission. The committee may offer these students admission to the program on a conditional basis and compile a list of "deficiency courses". The successful completion of these courses with a grade of B or better will be a condition of full admission to the program. The student is then required to complete all such deficiencies as a contractual obligation at the earliest opportunity.

The committee creates this list based on the transcripts and syllabus submitted by the applicant. However, it is possible that applicants have indeed satisfied one or more of their listed deficiencies. In these cases, the student should contact their academic adviser as soon as possible in the first semester to initiate a petition to waive the deficiencies in question. The written petition with all the needed supporting documentation (such as course syllabus) attached, must be submitted no later than six weeks (two weeks for summer) after the start of the first semester of enrollment. The decision of the committee is final and can be one of three:

- The waiver is granted.
- The student is allowed to take an examination.
- The waiver is denied and the student must pass the class with a B (3.0) or higher.

The committee's decision is final, so it is important that students consult with their adviser to ensure that all the proper documentation supporting the waiver is submitted.

If the student is allowed to take an examination, it must take place no later than the second semester of enrollment. Deficiency examinations are offered once each semester and the student may take the exam only once. If the student does not perform satisfactorily on the exam, then the student must enroll in the course to satisfy the deficiency requirement.

All deficiencies shall be satisfied within three semesters of admission. If deficiencies are not satisfied within this time period, enrollment will be limited to deficiency courses until all deficiencies have been satisfied.

Graduate Course Prerequisites

Note that there are graduate level courses that have an undergraduate course as prerequisite and that not all undergraduate courses can be taken for graduate credit.

Core Requirements

All students are required to complete a core curriculum of COMP-SCI 5592 and two courses selected from COMP-SCI 5520, COMP-SCI 5551 or COMP-SCI 5566.

Emphasis Areas

All students are required to complete courses in an emphasis area. Students following the thesis option must complete at least nine credit hours from 5500/5600-level courses in this area. Students following the non-thesis option must complete at least 12 credit hours from 5500/5600-level courses in this area. The approved emphasis areas and associated courses are:

- **Bioinformatics**
COMP-SCI 5560, COMP-SCI 5566, COMP-SCI 5567, COMP-SCI 5570, COMP-SCI 5590 CI and others.
- **Networking and Telecommunications**
COMP-SCI 5511, COMP-SCI 5513, COMP-SCI 5514, COMP-SCI 5517, COMP-SCI 5520, COMP-SCI 5521, COMP-SCI 5522, COMP-SCI 5526 and others.
- **Software Engineering and Systems**
COMP-SCI 5531, COMP-SCI 5551, COMP-SCI 5552, COMP-SCI 5554, COMP-SCI 5570, COMP-SCI 5572, COMP-SCI 5670 and others.

Secondary Concentrations

All students are required to complete at least two 5500/5600-level courses in a concentration different from their emphasis area. Pre-approved concentrations and associated courses are:

- Bioinformatics
COMP-SCI 5560, 5566, 5567, 5570, 5590 CI and others.
- Networking and Telecommunications
COMP-SCI 5511, 5513, 5514, 5517, 5520, 5521, 5522, 5526 and others.
- Software Engineering and Systems
COMP-SCI 5531, 5551, 5552, 5554, 5570, 5572, 5670 and others.

If a student desires a concentration other than these, a petition must be submitted to the graduate committee requesting that a concentration be recognized for the student's specific degree plan. It should specifically state which courses the student wants to include in this concentration, it should explain why these courses together form a coherent group and how these courses fit the student's academic goals. Students must seek permission before including other courses in their program of study.

Please note that many of our bioinformatics courses also count towards a MS in Bioinformatics, administered in the Department of Informatic Medicine and Personalized Health in the School of Medicine. Please contact Dr. Stan Edlavitch for more information, 1000 East 24th Street, 5th Floor, Phone: 816-235-6617, Email: edlavitchs@umkc.edu.

Degree Requirements

To earn an M.S. degree in computer science, the student must satisfy both the general master of science degree requirements of the University of Missouri-Kansas City and the requirements of the CSEE Department for either the thesis or non-thesis option as outlined below.

Specific Requirements for the Thesis Option:

1. Complete a minimum of 27 hours of approved coursework for graduate credit with a cumulative GPA of at least 3.0.
2. Additionally, complete a minimum of three hours COMP-SCI 5599 Research and Thesis.
3. Complete a minimum of nine hours in the emphasis area.
4. Contact a thesis adviser in the semester in which the student completes 12 hours of graduate work.
5. Present evidence of research abilities in the form of a master's thesis resulting from enrollment in at least three hours of COMP-SCI 5599 Research and Thesis.
6. Pass a general oral examination which may cover all the work covered in the student's graduate program.
7. Satisfy all common requirements (see below).

Specific Requirements for the Non-Thesis Option:

1. Complete a minimum of 36 hours of approved coursework for graduate credit with a cumulative GPA of at least 3.0.
2. Complete a minimum of 12 hours in the emphasis area.
3. Contact an adviser after completing 12 hours of graduate work to complete the program of study.
4. Satisfy all common requirements (see below).

Common Requirements and Limitations for Both Options:

1. Satisfy the core requirement, presently COMP-SCI 5592 and two of the three courses: COMP-SCI 5520, COMP-SCI 5551, and COMP-SCI 5566.
2. Complete a minimum of six hours in the secondary concentration.
3. Each student must have a plan of study approved by both the student's supervisory committee and the graduate officer before the end of the semester in which the student completes 12 credit hours of graduate work.
4. No more than nine credit hours total from any transferred coursework taken outside the CSEE department and from COMP-SCI 411, COMP-SCI 421, COMP-SCI 423, COMP-SCI 457, COMP-SCI 458, COMP-SCI 461, (only one of COMP-SCI 470 and COMP-SCI 471), COMP-SCI 493 and COMP-SCI 494R can be used to satisfy degree requirements; these courses cannot be identical to courses already taken for a prior degree and must be completed with a 3.0 or higher GPA for each course used. Other 300- and 400-level courses do not count toward fulfillment of degree requirements.

5. No more than three hours of COMP-SCI 5597 (directed readings) can be used to satisfy degree requirements. All COMP-SCI 5597 courses to be applied to the master of science in computer science degree requirements must be approved by the SCE Master's Committee at least six weeks before classes begin.
6. No more than one course grade below 3.0 may be applied toward the degree requirements.

Transfer Credit

Not more than six hours of graduate credit may be transferred from another recognized graduate school or from another academic unit within UMKC. Transfer credit may be applied toward the master's degree requirements on the approval of the student's graduate adviser and the Master's Committee. No credit hours may be transferred when those hours have been used toward the completion of any other degree program, graduate or undergraduate. The total amount of transfer credit and credit from approved COMP-SCI 400-level classes shall not exceed nine hours.

Thesis Option

Master's degree candidates in computer science who decide to do the thesis option are required to demonstrate knowledge and maturity in the discipline by completing at least three hours of COMP-SCI 5599 - Research and Thesis. Students may enroll in more than three hours of COMP-SCI 5599, however, only three hours may be applied toward the degree. The research program will be defined by the student in conjunction with the student's thesis committee. Under the direction of the thesis adviser, the student will investigate a topic of current interest in computer science and prepare a master's thesis on that topic.

The final requirement for conferral of the M.S. degree is defense of the thesis, where the supervisory committee is the examining body. The thesis must be submitted in complete typewritten form to the adviser and supervisory committee at least six weeks before the date the advanced degree is to be conferred. Also, the supervisory committee must have access to the thesis at least one week before the date of the defense. Students must comply with all rules and regulations governing theses outlined in the general catalog under General Graduate Academic Regulations and Information.

Directed Readings Courses

Up to three hours of COMP-SCI 5597 Directed Readings is allowed toward a master of science. Such a course must be approved in advance (i.e., before the student takes the course) by the professor supervising the course and the graduate committee. The following information must be furnished:

- Title of the course.
- Detailed syllabus for the course.
- Textbook and references.
- The manner in which the course will be conducted (i.e. meetings, assignments, etc.).
- The manner in which the students are assessed (i.e. how many exams, presentations, reports, etc.).
- The course which it replaces, if appropriate.
- Name(s) of the instructor(s).
- Name(s) of the student(s).
- Reasons for offering this course in a directed readings format.

Fast Track (B.S./C.S)

See the Fast Track section under Computer Science in the undergraduate catalog for information about the [Fast Track Computer Science Program](#).

Doctoral Studies in Computer Science or Electrical Engineering

The Department of Computer Science Electrical Engineering also participates in the Interdisciplinary Ph.D. program of the University of Missouri-Kansas City. This program is administered through the School of Graduate Studies at the University of Missouri-Kansas City and requires a student to select both a coordinating discipline and a co-discipline. Many doctoral students choose both coordinating and co-disciplines in our department or the School of Computing and Engineering, but other disciplines can be taken as well. Three such disciplines are housed in our department:

- [Computer Science](#)
- [Electrical and Computer Engineering](#)
- [Telecommunication and Computer Networking](#)

These were formerly known as computer networking, software architecture and telecommunications networking. See the [School of Graduate Studies](#) section of this catalog for details about the [Interdisciplinary Ph.D. program](#).

Financial Assistance for Doctoral Students

Graduate assistantships are available to prospective doctoral students, but are highly competitive. Currently, most full-time Ph.D. students in the CSEE department are supported either as a graduate assistant or as graduate research assistant, or as graduate teaching assistant.

Doctoral students already in the program are eligible to apply for several fellowships available from the School of Graduate Studies. Check the School of Graduate Studies Web site at www.umkc.edu/sqs/financial.asp for additional information.

Master of Science in Electrical Engineering

Student Learning Outcomes

Upon graduating, students will have demonstrated that they can apply the core technologies from their chosen emphasis areas within electrical engineering and/or computer engineering. They will have developed an analytical mindset and acquired a skill set with engineering tools to design and implement solutions to overcome engineering challenges in society. They will also have had an opportunity to take in-depth course work in the area of computer engineering, digital signal processing, computational electromagnetics and antenna theory, telecommunications, power engineering and computer networking.

Admission Requirements

Applicants for master's level graduate studies in electrical and computer engineering should have a GPA of at least 3.0 on a 4.0 scale for the last 60 semester hours of relevant undergraduate coursework in electrical engineering and/or computer engineering. However, if that GPA is below 3.0 but more than 2.75, and if other indicators promise success in the program, rules may still allow probationary admission. The department will notify the applicant by letter after careful examination of the application packet. The following documents are required for admission consideration:

1. Application for admission.
2. Official transcripts of all college coursework.
3. Graduate engineering supplemental application.
4. Official results of the Graduate Record Exam (GRE) general test. The applicant must score in at least the 75th percentile on the quantitative portion of the GRE. Admission to our degree programs is competitive and a higher score is recommended.
5. (For international students only) A minimum test score of TOEFL 550 or CBT 213 or IBT 79 is needed. An international student must also place in the top 25 percent of his or her graduating class.
6. Two letters of recommendation for students with a GPA less than 3.0 for the last 60 hours of undergraduate work.

Note: High GRE verbal and quantitative scores and strong letters of recommendation may compensate for lower TOEFL scores and GPAs.

Acceptance or Denial

After thoroughly considering an applicant's record, one of the following actions will be taken:

Normal Acceptance

The student is accepted unconditionally.

Normal Acceptance with Pre-program Requirements

This category applies to an otherwise qualified applicant who has a bachelor of science degree from an approved program, but not in electrical engineering, computer engineering, or a similarly named engineering discipline. The student will be notified in writing of any make-up requirements specified by the master's committee.

Probationary Acceptance

Applicants with marginal credentials may be admitted conditionally. They will have to receive a B or better in each course in the first 12 hours of graduate coursework. In addition, make-up requirements may be set forth by the master's committee.

Non-Acceptance

The student is not admitted. The student will be notified in writing of the admission denial. The letter may specify under what conditions a future application would be more favorably considered.

Starting the Program

When accepted into the program, the student's first contact is with the electrical engineering principal graduate adviser. At this initial meeting, a review will be made of the student's status in the program and the student will be required to provide a tentative program of study within the first semester. Such a program should reflect the prerequisite courses that have been prescribed and that may have to be taken prior to taking courses for graduate credit.

The most immediate concern is for the courses to be taken in the first semester. The principal graduate adviser will help the student select those initial courses. Within the first semester, the student will be assigned an academic adviser who will be the primary contact for the student until the student graduates under the non-thesis option. If the student decides to follow the thesis option, a thesis adviser will replace the academic adviser. In either case, it is the responsibility of the student to devise, after consultation with their advisers, a program of study using the degree requirements worksheet and the course planning worksheet. This should be submitted to the graduate officer, usually by the end of the second semester.

The master's committee is in charge of handling procedural issues related to the M.S. program in electrical engineering. Any request for exception to the rules should be handled as described below related to petitioning procedures.

Degree Requirements

To earn a master of science in electrical engineering, the student must satisfy the general degree requirements and complete coursework that fulfills the requirements according to the thesis or non-thesis option. The specific requirements for the power engineering focus area are listed separately.

Specific Requirements for the Thesis Option:

1. Complete a minimum of three hours and a maximum of six hours E&C-ENGR 5599 Research.
2. Pass a final examination, which is an oral defense of the thesis.
3. Satisfy all common requirements (see below).

Specific Requirements for the Non-Thesis Option:

1. The following courses do not count toward this degree option: E&C-ENGR 5599, E&C-ENGR 5600 or E&C-ENGR 5690.
2. Satisfy all common requirements (see below).

Common Requirements and Limitations for both Thesis Option and Non-Thesis Option:

(Note that the specific requirements for the power engineering focus area are listed separately.)

1. At least 30 credit hours of 400-, 5500- or 5600-level coursework, completed within the past six years.
2. At least 21 hours of 5500/5600-level coursework.
3. At least 24 hours of E&C-ENGR course work, see also below.
4. At least one three-hour course, at the 5500/5600-level, in each of three different concentration areas, with at least two of the areas in E&C-ENGR; a list concentration areas with their courses is provided below.
5. Up to three credit hours of E&C-ENGR 5597 Directed Readings and E&C-ENGR 5697 Advanced Directed Readings, are allowed.
6. No more than six credit hours of transferable graduate coursework from another institution or from other degree programs within UMKC, as approved by the student's graduate faculty adviser.
7. The courses E&C-ENGR 402WI, E&C-ENGR 403WI, E&C-ENGR 493R, E&C-ENGR 494R (or their equivalents) do not count for graduate credit.

Specific Requirements and Limitations for the Electric Power Focus:

1. At least 30 credit hours of 400-, 5500- or 5600-level coursework, completed within the past six years.
2. At least 21 hours of 5500/5600-level coursework.
3. At least 18 hours of E&C-ENGR course work, with at least 12 hours of E&C-ENGR course work in the power concentration.
4. At least one three-hour course, at the 5500/5600-level, in each of three different concentration areas, with at least two of the areas in E&C-ENGR.
5. Up to three hours of E&C-ENGR 5597 Directed Readings and E&C-ENGR 5697 Advanced Directed Readings, is allowed.
6. The following courses can be used to satisfy the power focus requirements. (Note: the course E&C-ENGR 5567 is currently being developed and will be added to the catalog as soon as it has been approved.) ECE460, E&C-ENGR 466, E&C-ENGR 468, E&C-ENGR 470, E&C-ENGR 472, E&C-ENGR 5536, E&C-ENGR 5567, E&C-ENGR 5568, E&C-ENGR 5590AE, E&C-ENGR 5590MC, E&C-ENGR 5660, E&C-ENGR 5664, E&C-ENGR 5670, E&C-ENGR 5672, BA 5519 and BA 5532.
7. The following courses do not count toward this degree option: E&C-ENGR 5599, E&C-ENGR 5600 or E&C-ENGR 5690.
8. No more than six (6) credit hours of transferable graduate coursework from another institution or from other degree programs within UMKC, as approved by the student's graduate faculty adviser.
9. The courses E&C-ENGR 402WI, E&C-ENGR 403, E&C-ENGR 461, E&C-ENGR 493R, E&C-ENGR 494R (or their equivalents) do not count for graduate credit.

Concentration Areas

The faculty provide research and concentration area coursework in:

- Communication and information processing (signal and image processing, electro-optical systems, neural networks).
- Computers and digital systems (computer arithmetic, computer architecture and computer and digital systems).
- Wireless communications (system design, propagation modeling, antenna design, wireless networking, electromagnetic modeling).
- Power (electromechanical conversion I, electromechanical conversion II, power system I, power system II, electrical power distribution systems, reliability of electric power systems, economics of power systems, power systems stability, lightning and switching surges in power systems, application of power electronics in power systems, power systems relaying, direct current power systems, contracts and law for engineers and microcomputer control of power generation systems).
- Networking and Telecommunications (design, protocols, routing, security, teletraffic, modeling and analysis, performance modeling).

Thesis Option

The Comprehensive Final Examination is required of all candidates for the master of science degree under the thesis option. It is arranged by the graduate faculty adviser. It is to be conducted prior to the deadline date established by the Graduate School for the semester of intended graduation. Prior to the date of the examination, each member of the committee is furnished a copy of the candidate's final thesis for review and discussion at the time of the final examination.

If pursuing the thesis option, the thesis must be submitted in complete typewritten form to the adviser and supervisory committee at least six weeks before the date the advanced degree is to be conferred. Also, the supervisory committee must have access to the thesis at least one week before the date of the defense. Students must comply with all rules and regulations governing theses outlined in the general catalog under General Graduate Academic Regulations and Information.

Directed Readings

Up to three hours of E&C-ENGR 5597 Directed Readings and E&C-ENGR 5697 Advanced Directed Readings, is allowed toward the master of science in electrical engineering. Such a course must be approved in advance (i.e., before the student takes the course) by the professor supervising the course and the graduate committee. The following information must be furnished:

- Title of the course.
- Detailed syllabus for the course.
- Textbook and references.
- The manner in which the course will be conducted (i.e. meetings, assignments, etc.).
- The manner in which the students are assessed (i.e. how many exams, presentations, reports, etc.).
- The course which it replaces, if appropriate.
- Name(s) of the instructor(s).
- Name(s) of the student(s.)
- Reasons for offering this course in a directed readings format.

Fast Track (B.S/C.S)

See the Fast Track section under Electrical and Computer Engineering in the undergraduate catalog for information about the Fast Track Electrical Engineering Program.

General Information

All statements in this section are announcements of present policies, requirements (admission and academic progress), curricula, fees and services. They are subject to change at any time without prior notice. They are not to be regarded as offers to contract.

History

The UMKC School of Dentistry traces its roots to 1881, when the Kansas City Dental College was founded as a department of the Kansas City Medical College. In 1919 the Kansas City Dental College merged with Western Dental College to form the Kansas City Western Dental College. It became the School of Dentistry of the University of Kansas City in 1941. In 1963 the school became the School of Dentistry at UMKC.

Continuous and distinguished service for more than 100 years has established the School of Dentistry as an important institution throughout the nation.

Over the years, the school's educational standards and opportunities have increased as the school has consistently demonstrated its ability to educate well-qualified dentists and dental hygienists to contribute to the improvement of oral health. As an affirmation of this, the D.D.S., the graduate certificate programs: advanced education in general dentistry, periodontics, oral and maxillofacial radiology, oral and maxillofacial surgery, endodontics, and orthodontics and dentofacial orthopedics, and the B.S. in dental hygiene are fully accredited by the Commission on Dental Accreditation of the American Dental Association.

The school is situated on the Hospital Hill campus, where Truman Medical Center, Children's Mercy Hospital and the UMKC schools of medicine, nursing, and pharmacy are also located.

Goals

The School of Dentistry is a center for dental education, research and service. The goals of the school are to:

- Prepare graduates in dentistry and dental hygiene to deliver patient care with a scientific basis and a caring manner.
- Instill a professional and societal responsibility in all students that will prepare them to become community leaders and address the public need.
- Provide practitioners and educators with continuing education opportunities to learn recent advances in dentistry and related fields.
- Contribute to the advancement of dentistry through basic, applied and educational research.
- Provide advanced education programs in dental research, education, general dentistry and dental specialties.
- Be a resource in oral health care for the public and community leaders.

Facilities

Clinic

Occupies 16,000 square feet; 279 fully equipped dental operatories; approximately 58,000 patient visits per year; internal, full-service prescription laboratories. Each patient treatment cubicle is equipped with electronic treatment record computer terminals. The computer-based student/patient clinical record management system is central to the efficient operation of the dental clinic.

Classrooms

Three large lecture halls and thirteen smaller classrooms. Lecture halls are equipped with networked computers and modern projection systems.

Laboratories

Two dental preclinical simulation facilities with fully equipped working stations; an anatomical model laboratory.

Library

Part of the university-wide library system: approximately 26,000-volume collection; more than 365 periodical subscriptions; extensive reference services; instructional resource library, extensively equipped for independent study with a variety of audiovisual equipment and 37 networked computers; Postgraduate Dental Career Opportunity Center provides information on dental practices for sale, and those in need of associates, advanced educational programs, armed services opportunities, dental hygiene and dental educational opportunities.

Hospital Affiliations

Teaching relationships exist with Kansas City Veterans Affairs Hospital, Children's Mercy Hospital, Saint Luke's Hospital, Truman Medical Center Hospital Hill, Truman Medical Center Lakewood, Richard Cabot Medical Clinic, Samuel Rodgers Community Health Center, Cabot Clinic and Swope Parkway Health Center.

Miscellaneous

The school also supports a full-service Biomedical Communication Department that contributes significantly to its educational and administrative missions. The Health Sciences Bookstore supplies all textbook, and some supply needs of the student body; it is housed on the Hospital Hill Campus.

Research Programs

Research plays a prominent role in the School of Dentistry. The Interdisciplinary Ph.D. program, and the advanced dental and dental hygiene educational programs all have strong research components. The intent of these advanced programs is to expose the student to basic and translational research, and clinical application. Research and the scientific method are formal parts of the educational program of all dental school students, contributing to their education, as well as serving to advance science and dentistry. Grants from external funding currently amount to more than \$8 million per year. Many of the researchers who have obtained these grants serve as mentors for dental students participating in the Dental Summer Scholars Program. In this selective program, a limited number of students gain an eight-week research experience in the mentor's area of research interest.

Outreach Programs

In keeping with its goal of developing in its students a sense of professional and societal responsibilities, and an awareness of community needs and problems, the school offers numerous outreach opportunities to students in all of its programs. Individuals associated with more than 30 community-based organizations, agencies or projects are provided oral health care by UMKC students and faculty. Representative of these are the Kansas City Free Health Clinic, Dental Care With A Heart program (dental care for homeless and/or economically needy persons), Northeast Missouri Area Health Education Center Dental Clinic, Theodosia, Mo., project (serving the underserved in rural settings), Special Olympics Oral Health Screening project (providing oral health assessments to mentally or developmentally disabled persons), and international programs in Honduras, Nicaragua and Guatemala.

Academic/Student Support Services

Academic Monitor

The academic monitor of the School of Dentistry conducts a comprehensive academic support program which includes sessions to refine learning test taking skills and to provide assistance in coursework, as needed. An interceptive system of continuous academic monitoring is in effect. Students who may be experiencing academic difficulty during a term are identified and advised. This results in an individualized plan of action to overcome any deficiencies. In addition, personal counseling assistance is available to all students who state or demonstrate a need.

Office of Student Programs

The Dental School's Office of Student Programs is concerned with three primary areas of focus and responsibility:

- Admissions/recruitment
- Student records
- Student support services

The majority of student services are provided by this office. In other cases, the student is referred to the appropriate University student affairs offices if necessary. Student Support Services provide financial aid (initial assistance and

referral), counseling services (initial assistance and referral), a housing file and referral, a part-time job file and referral, and other services.

Financial Aid

Financial assistance is available from a number of sources, primarily those programs supported by federal legislation (such as the Federal Direct Loan programs and Health Professions Student Loan). Information on most financial aid programs available to School of Dentistry students may be found in the School of Dentistry section of the Financial Aid Charts at <http://www.umkc.edu/finaid/>. Additional information may be gathered from

Office of Student Programs
School of Dentistry
(816) 235-2080

or from

University of Missouri-Kansas City
Financial Aid and Scholarships Office
101 AC
5100 Rockhill Road
Kansas City, MO 64110-2499
(816) 235-1154

The student should apply for aid as soon as possible after acceptance into the particular program of study.

Grading System

The grading and grade-point system used by all academic programs in the School of Dentistry is defined by the University. It is outlined in the General Graduate Academic Regulations and Information section of this catalog. The School of Dentistry does not use the + and - grading option; grades rendered are A, B, C, etc.

Incomplete Grades

An instructor may give an incomplete grade (I) to a student who, because of illness or other valid reasons beyond the student's control, has been unable to complete the work in a course. A student who receives an incomplete, and who subsequently does not elect to withdraw from the course, must complete the required work by a date specified by the instructor. Failure to complete required work by this date is cause for the incomplete to be changed to an F (failure without credit). This is exclusive of those courses that are considered directed individual studies, internships, special topics, practicums, and research and thesis courses.

An incomplete is appropriate when enough work in the course has been completed that the student can finish the remaining work without re-enrolling in the course in question or attending additional classes. Otherwise students should initiate withdrawal (but only with permission).

Students may not re-enroll in a course for which an incomplete remains on their records.

Degrees Offered

The School of Dentistry offers a four-year professional program leading to the doctor of dental surgery (D.D.S.) degree, and the bachelor of science degree in dental hygiene (B.S.). The School offers graduate programs leading to a master of science degree in oral biology or in dental hygiene education (M.S.), and graduate certificates in recognized dental clinical specialties. In addition, the school participates in UMKC's Interdisciplinary Ph.D. program through the discipline of oral biology. Please refer to the School of Graduate Studies section of the catalog for information on admission criteria and degree requirements.

Academic Standards

Professional education in the health sciences manifests characteristics that are distinct from other advanced educational programs. Academic standards of the School of Dentistry are established to ensure that the public, whose health will be entrusted to graduates of the School's programs, will receive care of professionally acceptable quality and that the care will be provided in an ethical and professional manner. The School's academic requirements are described in the following two sets of standards, one for scholarly achievement and one for professional conduct.

Standards of Scholarship

1. Pre-doctoral dental and pre-baccalaureate dental hygiene students must maintain at least a 2.5 GPA each semester in dental school. Failure to attain a 2.5 GPA in any semester will result in the students being placed on probation for the next semester. All students who are placed on probation must review their academic progress with the chair of the Academic Standards Committee. A second consecutive semester with a GPA below 2.5 will result in dismissal from the School. A total of three semesters with GPAs below 2.5 will result in dismissal from the School. For a semester to count toward removing students from probation, they must be enrolled full-time (at least 5 hours in summer or 12 hours in fall or spring semesters). Two semesters separated by a summer session in which the student is enrolled in less than five credit hours will be considered consecutive semesters.
2. Failure of any course (receiving a grade of F or No Credit) will necessitate additional work to remove or replace the F or No Credit. The course may be repeated at another dental school or dental hygiene program, with the approval of the associate dean for academic affairs, or during the next offering of the course at this school. Students will receive whatever grade they earn in the repeated courses and both grades will appear on their transcript and be included in the grade-point average. Students who fail only one course in a given semester may petition the course instructor for a remediation program if their failure was the result of performance slightly below acceptable standard (e.g., 60 percent where 65 percent is required for passing, or poor performance on one section of the course with acceptable performance in other sections). Any remediation program can take whatever form the course instructor deems appropriate. Possible examples:
 - o Independent study for a number of weeks followed by an examination.
 - o Remedial summer laboratory work followed by a laboratory examination.
 - o A series of written exercises followed by an examination.If students successfully complete a remediation program, their grades of F or No Credit will be changed to grades of D or Credit. A second failure or No Credit in the remediated course will result in dismissal from the program.
3. Any student who fails a course will be required to meet with the Academic Affairs dean to prepare an altered curriculum plan that includes the completion of this course for the Committee's approval. An approved altered curriculum plan may result in an extension of the academic program because the student has demonstrated difficulty in dealing with the standard curriculum and may need additional coursework, review and/or supplemental instruction to successfully complete the curriculum.

Standards of Professional Conduct

1. Dental and dental hygiene students must achieve and consistently demonstrate acceptable levels of personal hygiene and dress.
2. Dental and dental hygiene students must achieve and consistently demonstrate concern for patients, peers, and others. Dental and dental hygiene health care providers have a duty to ensure:
 1. That patients are treated according to their desires and must be included in treatment decisions.
 2. Patient confidentiality in the entire range of the provider-patient relationship which includes dental records.
 3. That no harm or potential harm is done to the patient either through intent, ignorance, lack of preparation for the patient encounter, lack of skill, personal impairment of any kind.
 4. That no patient is "abandoned" which is defined as discontinuance of care without just cause and without giving the patient adequate notice and the opportunity to obtain the services of another provider.
 5. That the patient's welfare (i.e. the provision of competent and timely delivery of dental care within the bounds of clinical circumstances as presented by the patient such as needs, desires and values) is paramount and takes precedence above all else. This also includes the obligation to: 1) identify and report perioral signs of abuse and neglect and to consult with faculty to report suspected cases to proper authorities as required by law; and, 2) report instances of faulty treatment whether intentional or not, to the appropriate faculty member.
 6. That all people including patients, staff, faculty and all other individuals are treated fairly, respectfully, and without prejudice.
 7. All standards and requirements of patient care established by the School of Dentistry are followed.
3. Dental and dental hygiene students' behavior must exemplify the highest moral and ethical standards. The following represent conduct that is incompatible with these standards:
 1. Any behavior that tends to gain an unfair advantage for any student in an academic matter. This includes, but is not necessarily limited to, the following guidelines:
 - No student shall during an examination have, use, or solicit any unauthorized information or material (written or oral), copy from another student's paper or discuss the examination with any other person.
 - No student shall during an examination knowingly give any unauthorized aid to another student.
 - No student shall acquire by any means knowledge of the contents of an examination yet to be given.
 - No student shall fraudulently claim for credit any classroom, clinical, laboratory, or other procedure or

assignment performed by an unauthorized person, including a fellow student.

2. Anyone who has reasonable cause to believe that a student has acted unethically is obligated to bring the matter to the attention of the assistant dean for student programs or his/her designee who will follow the process identified in the Preliminary Procedures section of the UMKC School of Dentistry Honor Council Due Process Procedures for Violations of the Standards of Professional Conduct, to determine whether there has been a violation and whether charges should be brought.
4. Serious deficiencies in conduct as listed in the School of Dentistry Standards of Professional Conduct, or as outlined in Section 200.010, Standards of Conduct, of the University of Missouri Collected Rules and Regulations, by a dental or dental hygiene student shall be reported to the assistant dean for student programs or his/her representative, who will initiate the process as listed under "Preliminary Procedures".

Oral Biology Interdisciplinary Ph.D.

The Ph.D. program at UMKC is interdisciplinary. This program is described in more detail in the Oral Biology I.Ph.D. Program within the Graduate Studies section of this catalog.

Students interested in studies at the doctoral level in the discipline of oral biology should apply to the Interdisciplinary Ph.D. program in the School of Graduate Studies.

Detailed information on the general and discipline-specific admission requirements for the Ph.D. can be found in the School of Graduate Studies section of this catalog.

Academic Standards and Procedures: Advanced Education/Graduate Students

The following academic standards and the procedures to be used in dealing with cases of academic difficulty apply to students in all advanced education/graduate programs of the School of Dentistry.

Standards of Scholarship

1. Graduate students, regardless of classification, must maintain a 3.0 (B) GPA for all coursework taken for graduate credit at UMKC.
2. Graduate students must maintain a 3.0 (B) GPA in their graduate dental certificate specialty coursework.*
3. Grades in graduate dental certificate specialty area coursework must be B or better. Any graduate dental certificate specialty area course that is graded below B must be repeated.*

* Applies only to students enrolled in graduate dental certificate programs.

Probation

1. Whenever the overall GPA for UMKC courses taken for graduate credit by a graduate student of any classification falls below 3.0 (B), the student's status for the next term becomes "On probation - See principal graduate adviser." The principal graduate adviser will review the student's progress and provide counsel, and the following conditions apply:
 1. A graduate student on probation who is not restored to good academic standing by the end of two successive semesters will be declared ineligible to re-enroll.
 2. While on probation, a graduate student must achieve a 3.0 term GPA to enroll for the ensuing term.
 3. A graduate student on probation will not be restored to good standing until a cumulative graduate-credit GPA of at least 3.0 is achieved.
2. Whenever the overall GPA for courses taken in the student's graduate dental certificate specialty area falls below 3.0, the student will be placed on probation and the following conditions apply: *
 1. A graduate student on probation who is not restored to good academic standing by the end of two successive semesters will be declared ineligible to re-enroll.
 2. While on probation, a graduate student must achieve a 3.0 graduate dental certificate specialty area GPA to enroll for the ensuing term.
 3. A graduate student on probation will not be restored to good standing until a graduate dental certificate specialty area GPA of at least 3.0 is achieved.

* Applies only to students enrolled in graduate dental certificate programs.

Dismissal

1. A graduate student who is on probation and fails to attain an overall GPA of at least 3.0 by the end of two successive semesters will be dismissed from the program.
2. A graduate student who is on probation and fails to attain a 3.0 term GPA for the succeeding term will be dismissed.
3. A graduate student who is on probation and fails to attain a graduate dental certificate specialty area GPA of at least 3.0 by the end of two successive semesters will be dismissed from the program.*
4. A graduate student who is on probation and fails to attain a 3.0 graduate dental certificate specialty area GPA for the succeeding term will be dismissed.*
5. A graduate student who receives more than four hours of 2.0 (C) grades or below for courses included in the student's graduate program of studies will be dismissed.*

* Applies only to students enrolled in graduate dental certificate programs.

Appeal

Any student who is dismissed from the program has the right to appeal that decision. Appeals must be made in writing to the associate dean for academic affairs within one week from the time the student receives a notice of dismissal. The associate dean for academic affairs in conjunction with the chair of the Advanced Education Committee shall select a hearing panel of five members of the Advanced Education Committee to hear the student's appeal. At least one member of the hearing panel will be a student. The program director of the program in which the appealing student is enrolled shall be ineligible to sit on the panel. The hearing panel will be chaired by the associate dean for academic affairs. A meeting of the hearing panel will be scheduled within two weeks of the receipt of the student's appeal. During the time the appeal process is being conducted the student shall be allowed to continue in the program.

The hearing panel shall be provided with written statements from the student and the program director as well as all relevant records and documents. The program director or designated substitute and the appealing student must attend the hearing to provide additional information and answer questions from the hearing panel. Other individuals who have information relevant to the situation may be invited to present their information and answer questions for the panel. The student may have an adviser present to advise the student, but this adviser shall be limited to providing advice to the student.

After reviewing the information and conducting the hearing, the hearing panel shall make its recommendation regarding disposition of the case to the dean. All five appointed members of the hearing panel shall have a vote. In case of a tie, the associate dean for academic affairs shall cast the deciding vote. The dean of the School of Dentistry will make the final decision and communicate that decision to the student and the program director.

About the undergraduate program in Dental Hygiene

Dental hygiene is a rapidly growing and increasingly dynamic allied health profession for qualified persons who wish to participate as active members of a health field. Service to mankind is the primary purpose of health professions. The dental hygienist with a baccalaureate degree accomplishes this objective through a variety of challenging and rewarding opportunities.

There is informal evidence that a nine-month dental hygiene program existed at UMKC (then the Kansas City Western Dental College) in 1922-23, as did a one-year program during the '30s. However, concrete documentation indicates that the official program began in 1952.

The program in dental hygiene is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council on Post-Secondary Accreditation and the U.S. Department of Education.

The student at UMKC can earn a bachelor of science degree in dental hygiene in two ways. The first alternative offers an opportunity for the student who has completed two academic years of liberal arts pre-requisites at any accredited community/junior college, college or university to matriculate into the entry level clinical dental hygiene program. The second alternative provides for the licensed dental hygienist with a certificate or associate degree an opportunity to earn a baccalaureate degree (degree completion).

Licensure Examinations

To practice dental hygiene legally, the student must take and successfully pass a written examination, the National Dental Hygiene Board Examination. This examination is administered to all dental hygiene students in the country approximately six weeks prior to their graduation. The student also must successfully complete a clinical examination and an examination on the dental laws of the desired state of licensure. After written and clinical examinations have been completed, the graduate may apply for licensure in any state. Additional information regarding these examinations and the licensure process is given during the dental hygiene program.

Professional Associations

The School of Dentistry encourages students to participate in professional association activities. Dental hygiene students are encouraged to join and participate actively in the Student American Dental Hygienists' Association, the UMKC Dental Hygienists' Alumni Association and the Kansas City Association of Dental Research. Through participation in these associations, students can network with and become familiar with the professional opportunities and activities of area dental health professionals.

Job Opportunities

The major responsibilities of the dental hygienist are preventive in nature. In the private dental office, the dental hygienist may be responsible for providing patient education, exposing and processing dental radiographs, conducting head and neck examinations, as well as providing a thorough oral prophylaxis, non-surgical periodontal therapy, local anesthesia, diet analysis and other services as delegated by the licensed dentist. In some large offices the dental hygienist may serve as a manager of office procedures. Dental hygiene services vary from state to state according to the laws that govern the practice of dental hygiene.

In public health and community agencies, the dental hygienist is concerned with the oral health of the community being served. Major responsibilities may be assessing the oral health of a given population or developing and implementing a dental health program. In hospitals and nursing homes, the dental hygienist may function as a health educator, a clinician or a resource person. In other instances, hygienists are employed for clinical and descriptive research projects.

Although the majority of dental hygiene graduates are involved in private practice, the following practice settings may also be available:

- Federal, state and local health departments.
- Hospitals and nursing homes.
- School districts.
- Health maintenance organizations.
- Educational programs for dental, dental hygiene and dental assisting students.
- Private and public centers for pediatric, geriatric and other special needs groups.

Graduates can take advantage of the Dental School's job placement assistance service. The School of Dentistry's library maintains an extensive database of job opportunities in several states. Faculty members are available for job-placement counseling to assist graduates with placement decisions.

Scholarships and Awards

During the last semester of the program, dental hygiene students who have distinguished themselves are eligible to be selected from the graduating class to become members of Sigma Phi Alpha, a national dental hygiene honor society. Students who receive this honor exhibit outstanding character and service during the professional program.

The Greater Kansas City Dental Hygienists' Association sponsors a Community Service Award; the Missouri Dental Hygienists' Association sponsors the Outstanding Dental Hygiene Graduate Award; and the UMKC Dental Hygienists' Alumni Association sponsors the Outstanding Clinician Award. These awards are presented annually to graduating seniors.

The Dr. James E. Herbertson Memorial Scholarship is presented annually to a student who has excelled in the dental hygiene program.

In addition to the University and federal financial aid opportunities, the Division of Dental Hygiene has numerous scholarship sources available to dental hygiene students. Students must meet financial and academic qualifications. Contact the division for more information.

Academic Standards

Academic Standards

Professional education in the health sciences manifests characteristics that are distinct from other advanced educational programs. Academic standards of the School of Dentistry are established to ensure that the public, whose health will be entrusted to graduates of the school's programs, will receive care of professionally acceptable quality and that the care will be provided in an ethical and professional manner. The School's Academic Requirements are described in the following two sets of standards, one for scholarly achievement and one for professional conduct, located in the [Graduate Catalog](#).

Attendance

Regular attendance at all classes and clinical sessions is required during the professional program. The student is responsible for familiarization with all classroom and clinical requirements and assignments.

Scholastic Honesty

The Division of Dental Hygiene assumes all students are enrolled to learn. Any cheating is contradictory to the purposes of students and this institution. Any dishonesty detected in a course (including during examinations or in submitting plagiarized material) may result in an F grade in the course, and may be cause for dismissal or suspension from the Division of Dental Hygiene.

Repeated Courses

A dental hygiene student who wishes to repeat a course must submit a course repeat form to the UMKC Registration Office no later than the end of the fourth week of the term if that repeat is to be included in GPA calculations. Students who are repeating a course must have prior approval of the director of the Division of Dental Hygiene.

Advanced Placement

The general examination offered by the College Level Examination Program (CLEP) will not be accepted for degree credit. However, credit received through specific or subject examinations will apply toward a bachelor of science degree in dental hygiene. Although hours of credit may be received in natural sciences, it is preferred that an applicant to the dental hygiene program complete the specific science prerequisites.

For more information regarding admission to either the basic preparation or degree completion program in dental hygiene, contact the Division of Dental Hygiene.

Related Information

Expenses (Basic Preparation)

Approximate expenses for the basic preparation dental hygiene program are listed below. These do not include room and board, expenses for personal items or educational fees.

Instrument rental and supplies (entire program)	\$4,075
Textbooks (entire program)	\$2,663
Uniforms, lab coats, etc. (entire program)	\$ 600
National, regional and state licensure fees	\$1,200
Professional association fee	\$ 45

Note: Fees are subject to change without notice. An advance deposit of \$100 is required on admission to the program. This payment shall be credited to the student's educational fee upon enrollment. The fee is non-refundable except by special order of the dean of the School of Dentistry and as approved by the director of admissions.

Financial Assistance

In addition to the University's financial aid services, the UMKC Dental Hygienists' Alumni Association (UMKC DHAA) has several scholarship funds and grants for dental hygiene students who are in need of financial assistance and who qualify academically. For more information, contact the division director.

Bachelor of Science in Dental Hygiene

Student Learning Outcomes

The following competencies have been adopted by the faculty in the Division of Dental Hygiene as the skills, knowledge and values every graduate must be able to consistently and independently demonstrate to qualify for graduation. The School of Dentistry, Division of Dental Hygiene assessment plan calls for these competencies to be assessed throughout the classroom, laboratory and patient care experiences during the student's tenure in the program in the form of papers, case study presentations, student portfolios, clinical competency examinations, community assessment and other appropriate assessment measures.

The UMKC dental hygiene graduate will be competent in:

- Assessing persons of all ages and stages of life.
- Treatment planning and case presentation for persons of all ages/stages of life.
- Health education strategies for the prevention of disease and the promotion of health.
- Provision of preventive and therapeutic dental hygiene services for persons of all ages/stages of life.
- Use of support procedures to facilitate the provision of dental hygiene care.
- Infection and hazard control procedures to prevent transmission of infectious diseases.
- Management procedures (emergency management, communication, etc.)
- Community oral health strategies.
- Utilization of information technology to assist in evidence-based decision making.

Students must complete the required writing intensive courses within the dental hygiene curriculum with a grade of "C" or higher thereby meeting the WEPT requirement for BSDH candidates.

This clinical entry level program is for the individual who wants to go into the field of dental hygiene. The primary goals of the basic preparation bachelor of science degree program in dental hygiene are to prepare dental hygienists to perform competently in clinical practice and to perform competently in clinical practice and/ or community oral health program planning, clinical teaching, special patient care, practice management and research.

Admission to the Basic Preparation Program

Admission is on a selective basis and requires more than simply meeting certain course or GPA requirements. Factors considered in the selection process are the candidates' academic credentials, letters of evaluation, a personal interview, motivation and all other information submitted by the candidates. Formal applications for admission to the dental hygiene program must be submitted no later than Feb. 1 of the year that the student desires admission. Classes formally begin each year at the end of August. Minimum requirements and credentials for application are all of the following:

1. Graduation from an accredited high school or its equivalent.
2. Satisfactory completion of approximately two academic years or 60 semester hours of college. (The 60 semester hours must satisfy the general education requirements, which are specified later in this section. All general education requirements must be completed prior to entrance into the dental hygiene program.)
3. Application to UMKC.
4. Supplemental application for admission to the Division of Dental Hygiene.
5. College transcripts of all college coursework.
6. A cumulative college GPA of at least 2.5.
7. A college science GPA of at least 2.5.
8. Three evaluation and reference forms.
9. Personal interview with at least two members of the Dental Hygiene Admissions Committee (interviews will be scheduled after February).
10. For international applicants, a satisfactory TOEFL score (at least 550 on the paper test or 213 on the computer-based version).

Notification of Admission

Applications for admission are reviewed by the School of Dentistry Dental Hygiene Student Admissions Committee. After a decision is reached on an application, notification of acceptance is made by mail. The applicant has 30 days from the date of the acceptance letter to make a required non-refundable \$100 deposit. This deposit is applied to enrollment fees.

Several applicants are placed on an alternates list. In the event that a position becomes available, an applicant from this list is chosen to fill the vacancy. Alternates may be accepted through the first week of the program.

General Education Requirements

Program Prerequisites

Students must complete a minimum of 60 semester hours prior to entry. Credits will be granted for courses taken at other institutions which are substantially equivalent to those offered at the University of Missouri-Kansas City, provided a grade of C or above was received. Credit hours listed with the required courses shown below may vary according to the educational institution. It is recommended that you consult with your adviser.

The following courses must be completed prior to entering the dental hygiene program:

	(9 hours)	Hours
Communicating		
ENGLISH 110	English I	3
ENGLISH 225	English II	3
COMM-ST 110	Effective Speaking	3
Mathematics	(3 hours)	
MATH 110	College Algebra	3
Higher-order Thinking, Managing Information and Valuing	(6 hours)	6
	(Choose at least two different fields from the following:)	
PHILOS 210 or 222		
HISTORY 201, 202, 206 or 208		
ANTHRO 102 or 103		
COMP-SCI 100 or above		
MATH 160 or above		
Humanities and Fine Arts		6
	One 3 credit hour course chosen from English, Communication Studies, Foreign Language or Philosophy AND one 3 credit hour course from Art/Art History, Conservatory or Theater.	
Social and Behavioral Sciences	(9 hours)	
	General Sociology	3
	General Psychology	3
	Constitution Course	3
Biological and Physical Sciences	(13-19 hours)	
	Chemistry	4-6
	(Must be equivalent to UMKC CHEM 211)	
	Microbiology	3-5
	Anatomy	3-4
	Physiology	3-4
	(If taking a combined Anatomy & Physiology course, it must be a sequence of two semesters.)	
Electives	(10-15 hours)	10-15
	Computer application courses are highly recommended.	

Program Requirements

The dental hygiene program begins in August of each year and continues for two academic years with a summer session between years. For more information, contact the program director.

First Year

Fall Semester		Hours
BMS 3065	Head and Neck Anatomy	2
DENT-HYG 3000	Dental Morphology and Occlusion	2
DENT-HYG 3020	Dental Radiology	2
DENT-HYG 3080	Introduction to the Practice of Dental Hygiene	4
DENT-HYG 3080L	Pre-clinical Dental Hygiene	2
DENT-HYG 3320	Oral Health Education	2
LS-PHYS 3070	Oral Physiology	3
Total		17
Spring Semester		
DENT-HYG 3210	Applied Biochemistry	2
DENT-HYG 3200	Histology and Pathology	3
DENT-HYG 3220	Dental Biomaterials	2

Total		18
Spring Semester		
DENT-HYG 4210	Practice Management & Juris	3
DENT-HYG 4220	Community Oral Health Field Exp.	2
DENT-HYG 4260	Senior Seminar	2
DENT-HYG 4260C	Dental Hygiene Clinic IV	4
Electives (Select one)		
DENT-HYG 4380	Research Practicum	2-4
DENT-HYG 4340	Community Dentistry Practicum	2-4
DENT-HYG 4320	Special Patient Care Practicum	2-4
DENT-HYG 4350	Perio Co-therapy Practicum	1-4
DENT-HYG 4660	Independent Study	1-4
DENT-HYG 4330	Oncology Practicum	1-4
Total		12-15
Total Hours		70-73

A minimum of 124 semester hours is required for a bachelor's degree in dental hygiene.

The Division of Dental Hygiene reserves the privilege of making changes and improvements in course sequence and content to assure the best dental hygiene education for its students.

Admission to the Degree Completion Program

This program is designed for students who have completed formal dental hygiene programs at other educational institutions and desire to continue their education toward a baccalaureate degree.

Formal applications for admission to this program must be submitted by Feb. 1 for the class beginning in August of each year. The program may be completed on a full- or part-time basis. Basic requirements and credentials for admission are all of the following:

1. Graduation from an accredited dental hygiene program.
2. Results and successful completion of the National Board Examination for dental hygiene.
3. High school transcripts.
4. Complete college transcripts.
5. Satisfactory grade point average.
6. Application for admission to UMKC.
7. Supplemental application for admission to the Division of Dental Hygiene.
8. Three reference forms (including one from the director of the accredited dental hygiene program attended).
9. An interview with the admissions committee

All students enrolled in the degree completion program must complete the general education requirements of the Division of Dental Hygiene prior to completion of the baccalaureate degree. Refer to the general education requirements stated under the description of the basic preparation program for a listing of those courses. Courses that the student has not completed will be included in the individual program of study for that student.

An individual program of study will be developed for each student depending on the number of college hours completed previously. The following courses are available through the Division of Dental Hygiene:

Hours

DENT-HYG 5595*	Scientific Writing	1
DENT-HYG 4020*	Local Anesthesia and Pain Control	2
DENT-HYG 4040*	Research and Instruction	1-2
DENT-HYG 4500*	Seminar in Health Care Issues	1-2
DENT-HYG 4620*	Principles of Dental Hygiene Education	3
DENT-HYG 4080*	Introduction to Research Design	2
DENT-HYG 4625	Dental Hygiene Administration	3
DENT-HYG 4600*	Advanced Clinic Concepts and Practicum	2-4
DENT-HYG 4640	Student Teaching and Conference I	2-4
DENT-HYG 4680*	Dental Hygiene Clinical Instruction I	2-4
DENT-HYG 4685	Dental Hygiene Clinical Instruction II	2-4
DENT-HYG 4650	Student Teaching and Conference II	2-4
DENT-HYG 4630	Practicum in Dental Hygiene Administration	2-4
DENT-HYG 4635	Practicum in Clinical Supervision	2-4
DENT-HYG 4380	Research Practicum	2-4
DENT-HYG 4660	Independent Study	2-4
DENT-HYG 4340	Community Dentistry Practicum	2-4
DENT-HYG 4350	Periodontics Co-Therapy Practicum	3
DENT-HYG 4330	Oncology Practicum	2-4
DENT-HYG 4320	Special Patient Care Practicum	3

* Required courses in the degree completion curriculum.

The student must complete 30 credit hours in residence and have a minimum of 124 semester hours for a baccalaureate degree in dental hygiene. Electives may be taken in the School of Dentistry, College of Arts and Sciences, School of Education or Henry W. Bloch School of Business and Public Administration. The particular choice of study will be determined by each student in consultation with the director of the degree completion program.

Student Learning Outcomes

The following competencies have been adopted by the faculty to assure our graduates are adequately prepared to succeed in the dynamic job market of their chosen area of expertise. The assessment plan provides direct and indirect measures of these competencies through exit interview, portfolio, California critical thinking skills test, Information Competency exam, and publication rate.

The competencies expected of a graduate are:

- Managing self (ability to take responsibility for one's own education and performance, including the awareness, development and application of one's own skills and competencies).
- Managing Information (ability to pose a researchable question, collect evidence, understand and apply evidence and use technology to manage literature and data).
- Communicating (interacting effectively with a variety of individuals and groups to facilitate the gathering, integrating and conveying of information in many forms; i.e., verbal, written, visual).
- Managing people and tasks (the ability to direct, plan, organize and coordinate work done by others; involves making decisions, motivating people and managing conflict).
- Mobilizing innovation and change (conceptualizing and setting in motion ways of initiating and managing change that involves significant departures from the current mode).
- Ethical decision making (ability to consider ethical issues and assess consequences of decision making).

Admission Information

Any college student or graduate can apply for admission to the four-year doctor of dental surgery program. A student should be a U.S. citizen or permanent resident of the U.S. Priority is given to Missouri residents. The School also has contractual or other agreements with the states of Kansas, Arkansas, New Mexico and Hawaii to consider qualified residents for acceptance from those states. Preferred consideration will be given to applicants who are residents and high school graduates of the states listed. Other expectations may be considered on an individual basis.

Candidates may be considered for acceptance after successful completion of a minimum of 90 hours of college credit. After completion of a minimum of 120 hours of college credit, the accepted applicant will be eligible to enroll in the School of Dentistry. All candidates for this program are encouraged to complete a baccalaureate degree before entry. In fact, college degree-holders with a broad educational background are the preference of the Dental Student Admission Committee.

Admission is on a selective basis and requires more than meeting course or college-hour requirements. Factors considered in the selection process are the candidates' academic credentials, including Dental Admission Test (DAT) scores, letters of evaluation, personal interview, evidence of the subjective criteria identified in a later section, and all other information submitted by the candidates. Approximately 100 candidates are admitted to the D.D.S. program annually.

Those who want to apply for admission must apply online through the AADSAS Application Service administered by the American Dental Education Association at <http://www.adea.org/>. Candidates must submit applications no later than Oct. 1 of the year prior to desired enrollment. **Sept. 1 is the UMKC preference deadline date for UMKC to receive application materials.** Be aware that approximately 4-8 weeks are required by AADSAS to process applications and deliver them to the dental school.

Counseling by the School of Dentistry's admissions staff is available to those interested in applying for admission. It is advisable to seek this counseling early in the college program.

GPA/College Hour Minimums

The following are the Dental Student Admission Committee's guidelines for GPA/college semester credit hour/Dental Admission Test (DAT) minimums and preferences:

- Preference will be given to candidates with 90 or more semester hours of college credit at the time of application with a science GPA of 3.40 or higher and/or a DAT academic average of 17 or higher - the overall GPA will be considered although it will not receive the same weight as the science GPA.
- A candidate with 90 or more semester hours of college credit at the time of application with a science GPA of 3.00 and a DAT academic average of 16 or higher can be considered for an interview - the overall GPA will be considered although it will not receive the same weight as the science GPA.
- **The minimum science GPA which will be considered for an interview is 3.0.**
- It should be noted that no more than 60 hours of college credit can be earned at a community college and preference will be given to candidates who complete the science prerequisites at a four-year institution.

A broad liberal education culminating in a bachelor's degree is strongly encouraged of applicants seeking admission into this program. Recent history indicates that admission of a candidate who does not have a B.S./B.A. degree or who is not likely have one at the time of enrollment in the D.D.S. program is rather rare.

Pre-Dental Course Requirements

There is no required college major for admission to the School of Dentistry. However, certain courses are required prior to entering:

Biology

A minimum of four semesters of biology with labs. In particular, we require general biology I, anatomy, physiology and cell biology. Other courses that have counterparts in the dental curriculum (i.e., histology, neuroscience, microbiology) are strongly recommended.

Chemistry

A minimum of two semesters of general chemistry with labs (Chemistry I and Chemistry II).

A minimum of two semesters of organic chemistry with labs (Organic Chemistry I and Organic Chemistry II).

Physics

A minimum of two semester of physics with labs (Physics I and Physics II).

English

A minimum of 6 credit hours of English composition. (Courses in speech are not acceptable as substitutes for English composition.)

Other

It is advantageous to have course credit in mathematics, formal logic, biochemistry, business, social/behavioral sciences (such as psychology), communication skills, computer science, the humanities and applied arts (such as sculpting, jewelry making, etc.).

Dental Admission Test

All dental school applicants must take the Dental Admission Test (DAT) administered by the American Dental Association. The DAT is given throughout the year by computer at designated testing centers, and a score must be submitted to be fully considered.

DAT scores are based on a range of 1 to 30, with 19.0 generally being the national average of accepted dental students. The Dental Student Admission Committee prefers that a candidate's DAT scores be 17 or higher to be considered for admission.

For more information or to request a DAT application go to <http://www.ada.org>. Contact the School of Dentistry's Office of Student Programs at (816) 235-2080 (local) or (800) 776-8652 (toll-free) to learn about our online DAT Prep Course.

Personal Interview

A personal interview at the School of Dentistry is required of applicants completing the necessary college hours, grade-point average and DAT requirements. The interview is by invitation only, an applicant for admission may not request it.

Candidate Subjective Criteria

When considering candidates for possible admission, the UMKC School of Dentistry's Dental Student Admission Committee (DSAC) reviews the entire scope of information that is available on each applicant. For each candidate the sources of this information include the academic record (i.e., overall GPA, science GPA and Dental Admission Test scores), AADSAS essay, responses to items on the UMKC School of Dentistry's Application Survey, letters of reference, interview assessment, and any other information provided by the candidate (e.g., personal statement). Specifically, the committee will expect evidence of the following factors in making the difficult choices among candidates:

1. Demonstrated investigation of the profession of dentistry. It is strongly suggested that candidates observe in a minimum of five different dental offices (the offices of general dentists and specialists) and acquire a minimum of 80-100 hours of dental office observation, preference is given to candidates who have worked in a dental office.
2. Evidence of social conscience and compassion (i.e., caring attitude, sensitivity to those in need, significant community activities). It is strongly suggested that this be active and ongoing participation in volunteer activities.
3. Indication of fundamental personal character (i.e., integrity, maturity, self-reliance, leadership skills).
4. Evidence of critical thinking and problem solving ability (e.g., performance in courses requiring this skill such as in laboratory segments, in formal logic or in research experiences).
5. Significant and sustained level of academic achievement based on full course loads with evidence of a broad science and liberal arts education (i.e., fine arts, business, mathematics, humanities, computer science, etc.).
6. Established effective interpersonal/communication skills (i.e., an ability to communicate orally and in writing, a capacity to listen, a personality conducive to forming personal and/or professional relationships, an involvement in a range of extracurricular activities, especially those in which significant leadership roles have been taken).

7. Demonstrated ability to balance full academic schedules with extracurricular involvement and/or employment (i.e., effective/efficient management of time).

Because the Dental School Admission Committee looks closely at information from all sources included in an applicant's file, it is in the candidate's best interest that this information is consistent among sources. This is especially true with information supplied directly by the candidate (i.e., AADSAS essay, UMKC School of Dentistry's Application Survey, interview and/or personal statement). You are strongly encouraged to review all written materials for consistency and accuracy before submission.

Finally, before developing these written materials, the candidate is strongly encouraged to honestly and critically assess himself/herself on all the qualities identified. Following this process, the candidate is urged to review drafts of these documents collectively (e.g., to check for completeness, accuracy and consistency) and to evaluate himself/herself comprehensively as if he/she were a member of the Dental Student Admission Committee. Where the candidate feels a question may arise from Committee review, the applicant is encouraged to address this in a personal statement/letter to the Committee.

Technical Standards

The dental degree signifies that the holder is a dentist who has received sufficient training in dental education to practice dentistry. It follows that graduates must have acquired and demonstrated the knowledge, skills and abilities to function in a broad variety of clinical situations and to render a wide spectrum of dental care.

While each application is reviewed individually, it is necessary that each candidate be able to observe and perform each task required by the curriculum of the school. Similarly, the school does not consider the waiver of required examinations a reasonable accommodation for individuals with learning disabilities. Learning disabled students, when appropriate, may be granted additional time on required examinations, be examined in separate testing facilities, or accommodated in other reasonable ways, but they will not be exempted from the requirement to take and pass such examinations. (Candidates with disabilities should contact the UMKC Office of Services for Students with Disabilities for information regarding definition and documentation of learning disabilities.)

Candidates for admission into the D.D.S. program must possess abilities and skills in the following areas to satisfactorily complete the curriculum:

Observation

Candidates must be able to accurately observe laboratory experiments, preclinical demonstrations, clinical laboratory procedures and patient-care activities.

Communication

Candidates must be able to communicate effectively and sensitively with patients and with all members of the health care team.

Motor

Candidates must have physical dexterity to master all aspects of patient care. They must be able to execute motor movements required to arrive at a diagnosis and treatment plan, and to provide patient care, including emergency treatment.

Intellectual-Conceptual, Integrative and Quantitative Abilities

A candidate must have intellectual-conceptual, integrative and quantitative abilities that include measurement, calculation, reasoning, analysis and synthesis. Problem solving, one of the critical skills demanded of dentists, requires all of these intellectual abilities. In addition, the candidate must be able to comprehend three-dimensional relationships and understand the spatial relationship of structures.

Emotional and Behavioral Attributes

In addition to these skills, candidates must possess the high moral and ethical standards demanded of dentists and

must possess the capability required for full utilization of intellectual abilities, the exercise of good judgment, the prompt completion of responsibilities attendant to the diagnosis, treatment planning and care of patients, and the development of mature, sensitive and effective professional relationships with patients. Candidates must be able to cope with taxing workloads and to function effectively under stress. A candidate must also be able to adapt to changing environments, to display flexibility and to learn to function in the face of uncertainties in the clinical problems of many patients. In addition, personal qualities such as compassion, integrity, concern for others, interpersonal skills, interest and motivation should be assessed during the admissions and education processes. Technological accommodation can be made for some inadequacies in certain areas, but a candidate must be able to perform in a reasonably independent manner.

Notification of Admission

Applications for admission are reviewed by the Dental Student Admission Committee. In accordance with the guidelines of the American Dental Education Association, no notification of the admission decision is made to a candidate before Dec. 1 of the academic year prior to that applicant's class graduation date.

Formal Notification

After a decision is reached on an application, notification of acceptance is made by mail. The applicant has 45 days from the date of an acceptance letter to make a required nonrefundable \$200 deposit. If notification of acceptance is made after Jan. 1, the candidate must submit the deposit within 30 days of the date of acceptance.

Several individuals are placed on a list of alternates. In the event that a position becomes available, an applicant from this list is chosen to fill the vacancy. Notification of alternate status will be sent by mail.

Notification of denial is also sent by mail. If applicants are interested in reapplying, they should make an appointment with a School of Dentistry director of admissions to discuss the reason for the denial. An explanation of the admission decision and advice will be offered to applicants to enhance their future applications.

Minority Recruitment Program

The School of Dentistry has an active recruitment program to encourage and assist qualified minority students, particularly those from under-represented groups in the dental profession, to pursue careers in dentistry. Native Americans, African Americans and Hispanics are strongly encouraged to seek admission to the school. Students desiring information should contact the Director of Minority Recruitment and Special Programs within the Office of Student Programs (816) 235-2080.

Reserved Admission Program

The Reserved Admission Program for the Doctor of Dental Surgery degree at the UMKC School of Dentistry enables highly motivated, ambitious, talented students to pursue their dream of becoming a dentist. Entry into the program is available to students from Missouri and Kansas who are in the early years of their undergraduate education.

This program is composed of three stages with the first two stages requiring formal application and review. The first stage is acceptance as a Provisional Reserved Admission Program Student. This step may be accomplished immediately following the completion of a minimum of but not more than four semesters of college credit while being continuously enrolled in full-time course loads. In the second stage, Provisional Reserved Admission Program Students apply for full Reserved Admission status at the end of their undergraduate sophomore year. Students with full admission into the Reserved Admission Program are assured a seat in the D.D.S. class matriculating in August following the completion of their undergraduate studies, provided they meet the criteria for maintaining their status. The third stage is matriculation at the School of Dentistry.

For more information about this program or to request an application, contact the School of Dentistry's Office of Student Programs. (816) 235-2080.

Disability Services

Federal law prohibits UMKC and the School of Dentistry from making pre-admission inquiry about disabilities. Information regarding disabilities given voluntarily or received inadvertently will not adversely affect any admission decision. Any accepted applicant requiring special services because of disability should notify the Office of Services for Students with Disabilities for accommodation services (816-235-5696).

Cost Estimates

The estimated cost (exclusive of living costs) for the four-year D.D.S. curriculum at the School of Dentistry is \$131,371. The amount is based on fees established and costs existing at the time of printing. This is itemized by type of expense and by year.

Note: Educational fees and books/equipment costs are subject to change without notice.

First Year (Fall and Spring Semesters)

Books, Equipment and Supplies	\$7,710
Educational Fees (Resident)	\$23,689
First-Year Total	\$31,399

Second Year (Fall and Spring Semesters)

Books, Equipment and Supplies	\$6,257
Educational Fees (Resident)	\$23,689
Second-Year Total	\$29,946

Third Year (one 13-week Summer term plus Fall and Spring Semesters)

Books, Equipment and Supplies	\$5,512
Educational Fees (Resident)	\$29,612
Third-Year Total	\$35,124

Fourth Year (one 13-week Summer term plus Fall and Spring Semesters)

Books, Equipment and Supplies	\$5,290
Educational Fees (Resident)	\$29,612
Fourth-Year Total	\$34,902

Four-Year Total	\$131,371	Non-Non-resident students are assessed an additional \$11,761 each fall and spring semester and \$5,880 for each of the two summer terms.
------------------------	-----------	---

Agreements are in place for residents of Kansas, Arkansas, New Mexico and Hawaii to receive waivers of the non-resident fees.

Student Organizations/Activities

Dental students qualify for membership in a variety of student organizations. Most are affiliated with national dental organizations. Students can also participate in other non-dentistry oriented organizations.

Doctor of Dental Surgery

Student Learning Outcomes

1. Apply the fundamental principles of the biomedical and behavioral sciences as they relate to the promotion and provision of oral health care. (CODA 2-12-16; ADEA Domain 3)
2. Apply legal, ethical and regulatory principles to the provision of oral health care, including practice management. (CODA 2-19-21; ADEA Domain 2, 3 & 5)
3. Apply interpersonal and communication skills to empathetically and effectively care for diverse patient populations and function in the health care environment. (CODA 2-17, 2-19; ADEA Domain 3 & 4).
4. Apply critical thinking and problem solving skills to provide evidence-based patient-centered care. (CODA 2-23; ADEA Domain 1).
5. Evaluate various models of oral health management and care delivery. (CODA 2-18; ADEA Domain 5).
6. Participate in improving the oral health of individuals, families, and groups in the community through oral health promotion, education and interaction with other health professions. (CODA 2-17, 2-19; ADEA Domain 3 & 4)
7. Manage medical emergencies and complications that may occur during dental treatment. (CODA 2-25, 2-27; ADEA Domain 6).
8. Recognize and manage pain and anxiety, trauma, hemorrhage, and infection of the orofacial complex by selection, administration or prescription of pharmacological or non-pharmacologic agents in the treatment of dental patients. (CODA 2-25; ADEA Domain 6).
9. Demonstrate competence in providing oral health care within the scope of general dentistry for children, adolescents, adults, and special needs patients. (CODA 2-25; ADEA Domain 6). This includes:
 - o Perform a complete dental examination to arrive at a diagnosis of the patient's oral condition/s.
 - o Develop, present and implement an integrated treatment plan to address a patient's oral health needs.
 - o Prevent, identify and manage periodontal conditions.
 - o Prevent, identify and manage pulpal and periradicular conditions.
 - o Identify and manage patients with oral surgical needs.
 - o Identify and manage malocclusions.
 - o Manage restorative procedures for single defective teeth, or to restore function in patients with partial or complete edentulism.
 - o Treat patients with soft tissue lesions and oral manifestations of systemic diseases.
10. Demonstrate the ability to self-assess competency and the outcomes of care. (CODA 2-22; ADEA Domain 6).

Program Requirements

The school offers a four-year, eight-semester, two-summer-term curriculum leading to the doctor of dental surgery (D.D.S.) degree. This curriculum is designed to prepare graduates in dentistry to deliver patient care with a scientific basis and a caring manner. As such, it provides a sound background in the biomedical, behavioral and clinical sciences with an emphasis on comprehensive oral health care. Exposure to clinical dentistry in the first semester of the first year is a hallmark of this curriculum.

The first year of dental school focuses on instruction in the biomedical sciences that provide a foundation for clinical studies. The first-year student also studies introductory courses in oral diagnosis and dental restorative techniques in a pre-clinical setting. Early clinical exposure is further emphasized through clinic-based courses in both the first and the second semesters. Acquisition of basic diagnostic skills and background knowledge is a goal of the first year of the curriculum.

Biomedical science courses extend into the second year; however, the major thrust of the second year is devoted to pre-clinical technique coursework of increasing complexity. In the preclinical laboratory courses, students continue

learning the fundamental procedures of dentistry: operative dentistry, prosthodontics (fixed and removable), and endodontics. Clinically, students are introduced to the basic essential skills needed in preventive periodontics. Classroom lecture sessions are also conducted in each of these areas of dentistry along with didactic courses in periodontics, oral diagnosis, oral radiology, and oral surgery.

The primary emphasis of the third year of the curriculum is the clinical practice of dentistry. The general clinic is organized into subunits called teams. Each team includes an established set of faculty and staff. Patients are assigned to students for comprehensive care, from diagnosis and treatment planning through procedures necessary for successful case completion. While the emphasis of the third and fourth years of the dental curriculum is gaining clinical experience, students also attend advanced classes in periodontics, prosthodontics, oral surgery, orthodontics, pediatric dentistry, operative dentistry and oral diagnosis/oral medicine.

The fourth year involves extensive clinical practice. There are a few seminar sessions and formal courses (e.g., practice management), but the student's major responsibility is to perfect diagnostic, patient-management and technical-treatment skills and demonstrate competence in all the skills required by the faculty of the School of Dentistry.

An outline of the four-year curriculum by semester is given below.

First Year

Fall Semester		Hours
BIOLOGY 203	Cell Biology	3.0
BMS 9300	Human Gross Anatomy I	5.0
BMS 9308	Histology I	2.5
DENT 6306	Introduction to Ethics & Professionalism	1.0
DENT 6310C	Clinical Assisting	3.0
DENT 6316	Dental Morphology (Lec/Lab)	3.0
DENT 6328	Clinical Decision Making	1.0
LS-BIOC 304	Biochemistry & Nutrition	4.0
Total Hours		22.5

Spring Semester		Hours
BMS 9301	Human Gross Anatomy II	5.0
DENT 6305	Operative Dent I Lecture	1.0
DENT 6305L	Operative Dent I Lab.	2.0
DENT 6314C	Intro. Oral Diagnosis	3.0
DENT 6317	Dental Occlusion	3.0
DENT 6335	Applied Neuroscience	2.0
DENT 6350	Histopathology	2.5
LS-PHYS 401	Physiology Lecture	5.0
Total Hours		23.5

Second Year

Fall Semester		Hours
DENT 6315C	Preventive Periodontics	3.0
DENT 6410	Operative Dent II Lecture	1.0
DENT 6410L	Operative Dent II Lab	2.0
DENT 6412	Anesthesiology I Lecture	1.0
DENT 6414	Pathology I Lecture	4.0
DENT 6416	Comp. Removable Pros I Lec.	1.0
DENT 6416L	Comp. Removable Pros I Lab.	2.0
DENT 6422	Fixed Prosthodontics I Lec.	1.0
DENT 6422L	Fixed Prosthodontics I Lab	2.0
DENT 6426	Oral Radiology	2.0
DENT 6435	Endodontics I Lecture	1.0
DENT 6436	Ortho: Growth and Development	1.0
LS-MCRB 4180	Microbiology	4.0
Total Hours		25.0

Spring Semester		Hours
DENT 6411	Operative Dent. III	1.0

DENT 6415	Pathology II	2.0
DENT 6417	Rem. Partial Prosthodontics	3.0
DENT 6420	Perio. I	2.0
DENT 6423	Fixed Pros. II Lecture	1.0
DENT 6423L	Fixed Pros. II Lab.	2.0
DENT 6431	Ped. Dent. I Lecture	1.0
DENT 6439	Med Emergencies	1.0
DENT 6440	Oral Surgery I	1.0
DENT 6442	Endodontics II Lecture	1.0
DENT 6442L	Endodontics II Lab	2.0
DENT 6524	Prin. Med/Phys. Diagnosis	2.0
DENT 6526	Ortho I Lecture	1.0
DENT 6526L	Ortho I Lab	2.0
DENT 6556	Radiographic Interpretation	0.5
DENT 6564	Dental Pharmacology	2.0
Total Hours		24.5

Third Year

Summer Semester		Hours
DENT 6537	Oral Oncology	0.5
DENT 6565	Bridge Course	2.0
CLINIC		8.0
Total Hours		10.5

Fall Semester		Hours
DENT 6312	Dental Behavioral Science I	1.0
DENT 6318	Dental Biomaterials Lecture	1.0
DENT 6424	Oral DX and Oral Medicine	2.0
DENT 6502	Grand Rounds I	1.0
DENT 6516	Periodontics III	1.0
DENT 6521	Oral Surgery II	1.0
DENT 6538	Orthodontics II	1.0
DENT 6441C	Treatment Planning	2.0
DENT 6460C	Review of Pre-Clinical Dentistry	2.0
CLINIC		9.0
Total Hours		21.0

Spring Semester		Hours
DENT 6522	Oral Surgery III	1.0
DENT 6527	Therapeutics	2.0
DENT 6534	Advanced Prosthodontics	1.0
DENT 6559	Dx & Mgt. Orofacial Pain	1.0
DENT 6595	Implant Dentistry	1.0
DENT 6602	Grand Rounds II	1.0
DENT 6633	Intro. Public Dental Health	1.0
DENT 6634	Extramural Clinical Rotations I	1.0
CLINIC		15.0
Total Hours		24.0

Fourth Year

Summer Semester		Hours
DENT 6558	Radiographic Interpretation II	0.5
DENT 6650	Applied Ethics	0.5
CLINIC		9.0
Total Hours		10.0

Fall Semester		Hours
DENT 6429	Dent Behavioral Science II	1.0
DENT 6514	Pathology III	1.0
DENT 6603	Grand Rounds III	1.0
DENT 6610	Anxiety and Pain Control	1.0
DENT 6613	Perio. Treatment Planning	1.0
DENT 6614	Dent for Special Patient	2.0
DENT 6617	Pediatric Dent. Seminar	0.5

DENT 6630	Practice Management I	1.0
DENT 6635	Extramural Clinical Rotations II	1.0
CLINIC		10.0
Total Hours		19.5

Spring Semester		Hours
DENT 6600	Rev. Clinical Dent.	1.0
DENT 6604	Grand Rounds IV	1.0
DENT 6605	Review of Clinical Dentistry II	1.0
DENT 6618	Jurisprudence	1.0
DENT 6631	Practice Management II	1.0
CLINIC		16.0
Total Hours		21.0

Graduation Requirements

Satisfactory completion of the program including:

1. Demonstration of competencies expected of a graduating student.
2. A passing grade on all sections of Part I and Part II of the National Board Dental Examinations.
3. A cumulative grade-point average of 2.5 or higher for the student's period as a dental student.
4. A demonstrated ability to meet the standards for professional conduct.

Advanced Education Programs

Advanced Education Programs

Chair, Advanced Education Committee:
Mary P. Walker, D.D.S., Ph.D.

The School of Dentistry offers advanced education curricula leading to graduate certificates in each of six clinical dental specialty areas (endodontics, oral and maxillofacial radiology, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, pediatric dentistry, and periodontics), certificates in general dentistry, and master of science degrees in either oral biology or dental hygiene education. The School participates in the Interdisciplinary Ph.D. program through the Department of Oral Biology. Oral Biology's research focus areas are: Biomaterials/Bioengineering of Biological Tissues & Replacements, Mineralized Tissue Biology and Translational and Clinical Research.

Application Information

Applicants to any advanced education program of the School of Dentistry must submit all of the following information:

1. Curriculum vitae.
2. Original essay of one page describing their professional goals.
3. Reference (by a minimum of three individuals capable of evaluating the academic potential of the candidates for advanced education program study);
4. Transcripts (from undergraduate, dental, graduate and professional schools attended).
5. National board scores.
6. Class rank in dental school (if applicable).
7. UMKC Application fee of \$45.00 domestic, \$50.00 international

Additional information, as identified below, must be supplied by international student applicants:

1. TOEFL scores (minimum of 550 on the paper test or 213 on the computer based version) or a demonstrated proficiency in the English language (if English is not the primary language of the applicant).
2. Financial statement (guarantee of full financial support or of sufficient financial resources *for the entire cost of the program, including living expenses*).

Advanced education programs (except where indicated) accept the UMKC Application Form. International applicants must use the UMKC International Application for Admission. These forms are available from the Office of Student Programs of the School of Dentistry or at the www.umkc.edu/dentistry/assets/forms/advancededucation.htm Web site. The application and required supporting documents should be sent to the chairman of the Advanced Education Committee, c/o Office of Student Programs, at the address at the beginning of this section.

In addition, the programs in advanced education in general dentistry and oral and maxillofacial surgery also accept the Postdoctoral Application Support Services (PASS) application. Information on the application support service and application form is available from the Office of Student Programs of the School of Dentistry at the address at the beginning of this section, at <http://www.adea.org/>, and at the admissions phone numbers at the beginning of this section. All required PASS materials should be submitted with the completed PASS application to:

PASS
 1625 Massachusetts Ave. N.W.
 Suite 101
 Washington, D.C. 20036

The remainder of the information required by the advanced education programs should be sent to the Office of Student Programs.

General questions concerning advanced education programs should be directed to the chairman of the Advanced Education

Committee at the mailing address at the beginning of this section or at (816) 235-2825. However, specific questions regarding any advanced education program should be directed to the pertinent program director. Graduate program directors along with their telephone numbers are identified in a subsequent section.

International applicants must have a U.S. or Canadian D.D.S. or D.M.D. from an accredited CDA or CDAC program to be considered for advanced education programs, except the programs in Oral Biology and Oral Radiology.

Financial Assistance

Eligible advanced education students (i.e., those who have earned a D.D.S. or D.M.D. degree from a Commission on Dental Accreditation or Canadian Dental Accrediting Commission accredited program or who hold valid licenses to practice dentistry in one or more states of the United States) in the graduate certificate program of endodontics, general dentistry, oral and maxillofacial radiology, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, pediatric dentistry and periodontics receive an annual financial assistance based on patient treatment fees.

Eligible graduate students in general dentistry, orthodontics and dentofacial orthopedics, periodontics and endodontics, participate in an incentive-based clinical income sharing program; 33 percent of the net fees *collected* for clinical treatment provided by a resident in one of these programs will be paid to the student. Net *collected* clinical fees are defined as gross clinical fees *collected* less scheduled laboratory fees incurred as a part of the treatment procedures and less any waivers granted (except those authorized for payment to the resident by the assistant dean for clinical programs).

Financial aid for advanced education students is also available in the form of a limited number of Chancellor's Non-Resident Awards or graduate research assistantships. The Chancellor's Non-Resident Award provides for the non-resident tuition only (i.e., the difference between Missouri resident and nonresident fees), while the graduate research assistantship includes a stipend plus an award equivalent to the basic education fees (at regular graduate student fee rate and *not* at the graduate dental student fee rate) for 6 hours of graduate credit for both fall and spring semesters. Both categories of awards are made on a competitive basis, with quality of academic record as a major criterion. History of research experience or potential for research in the graduate program also serves to identify candidates for the graduate research assistantship.

Other forms of financial aid may be available from federal loan programs (depending on whether or not lending limits have been reached) or from other funding agencies.

Enrollment Fees

Below are outlined the various enrollment fees per term for all advanced education programs at the School of Dentistry except those for the M.S. in oral biology, the Interdisciplinary Ph.D. and the M.S. in dental hygiene education programs (see subsequent part of this catalog section). These fees assume enrollment in three or more credit hours for the summer session, and six or more credit hours for each of the fall and spring semesters. Most programs require fewer credit hours than those per term.

Note: Indicated fees are correct at time of printing. However, fees are subject to change without notice.

Summer Term

\$2,731.20	
Educational Fee (Resident)	
Educational Fee (Non-resident)	\$5,432.50
Activity/Building/Computing/Health Fees	\$112.17

Fall/Spring Semester (Each)

Educational Fee (Resident)	\$ 5,462.40
Educational Fee (Non-resident)	\$10,905.00
Activity/Building/Computing/Health Fees	\$224.33

Students in Cooperative Programs

Students enrolled in programs (e.g., Pediatric Dentistry, Oral and Maxillofacial Surgery) operated jointly by the School of Dentistry and other institutions, such as Children's Mercy Hospital and Truman Medical Center, must remain in good standing with both organizations cooperating in the program. A student who is dismissed by either of the cooperating institutions is ineligible to continue in the program.

Dental Graduate Certificate Programs

A graduate certificate program is offered in each of the following areas:

- Advanced Education in General Dentistry
- Endodontics
- Oral and Maxillofacial Radiology
- Oral and Maxillofacial Surgery
- Orthodontics and Dentofacial Orthopedics
- Periodontics

General Nature of Programs

Each certificate program curriculum is designed to prepare the student for specialty practice and to help the student meet the educational training requirements for examination by the appropriate American dental specialty board. All programs begin with the summer term (the first week of July) except for graduate dental hygiene education, which begins with the fall semester. Programs vary in length from 12 to 72 months.

Application Deadline

Application deadline dates for graduate dental certificate programs are as follows:

Advanced Education in General Dentistry	October 1	<p>This deadline date for receipt of applications at the school This deadline date for receipt of applications at the school is one year before the anticipated enrollment in the program.</p> <p>Graduate dental certificate programs in endodontics, orthodontics and dentofacial orthopedics, oral and maxillofacial radiology and periodontics, require the UMKC application and the associated supplemental information that was previously indicated. This application material should be sent to:</p> <p>Chairman, Advanced Education Committee c/o Office of Student Programs UMKC School of Dentistry 650 E. 25th St. Kansas City, MO 64108-2795</p>
Endodontics	August 15	
Oral and Maxillofacial Radiology	January 1	
Oral and Maxillofacial Surgery	August 15	
Orthodontics	September 5	
Periodontics	August 15	

The remaining graduate dental certificate programs (i.e., advanced education in general dentistry, oral and maxillofacial surgery, require either a UMKC application (and associated supplemental information) or application through the Postdoctoral Application Support Services (PASS). A completed PASS application and other materials required by the service should be sent to the address given on the application or as provided earlier. **The PASS application should not be sent to UMKC.** Be aware that approximately three weeks is required by the service to process PASS applications and deliver them to the designated programs. The length of this processing period should be considered by the candidate in order to meet relevant application deadlines.

The graduate certificate programs in oral and maxillofacial surgery, orthodontics and dentofacial orthopedics participate in the National Matching Services (MATCH) process. Candidates to these programs must also submit to MATCH completed Applicant Agreement and Rank Order List forms by the deadline dates established by MATCH. There are two phases of the MATCH process, each with its deadline date for receipt of Rank Order List forms from applicants. The Phase I deadline (typically toward the end of November each year) is for applicants to the orthodontics and dentofacial orthopedics program. The Phase II deadline (typically in the middle of January annually) is for those applying for admission to the oral and maxillofacial surgery and pediatric dentistry programs.

Necessary forms to participate in the MATCH process may be obtained from:

National Matching Services
595 Bay Street
Suite 300
Toronto, Ontario M5G 2C2

Requirements and Procedure for Admission

Admission to a graduate dental certificate program is competitive. Primary focus is on the applicant's academic record while in dental school, including national board scores. Emphasis is also placed on information gathered from letters of evaluation and curriculum vitae (such as quality of professional practice experience, continuing education experience, research activities, leadership and involvement and participation in professional societies and community service). Another fundamental source of information is supplied by a personal on-site interview that is required of most programs and is by invitation.

Applicants to a graduate dental certificate program must hold a D.D.S. degree or equivalent from a program accredited either by the Commission on Dental Accreditation (CDA) or the Canadian Dental Accrediting Commission (CDAC). **Graduate of foreign dental schools, however, are eligible to apply for admission only to the certificate program in oral and maxillofacial radiology.**

Admission

The Advanced Education Committee (AEC) serves as the admission review board for each of the graduate dental certificate programs. Each program has its own admission review board. At a minimum, the admission review board consists of the respective program director and at least two other full-time faculty members.

Each program's admission review board submits its recommendations for acceptance to the AEC for consideration. Recommendations for acceptance include those identified as prime candidates (equal in number to the number of available residencies in the program) and those who serve as "alternates." Acceptance or denial of each recommended candidate is made by the AEC.

Program Description: Advanced Education in General Dentistry

Director:

John W. Thurmond, D.D.S., M.S., Diplomate, American Board of General Dentistry

Faculty:

Dean A. Elledge, D.D.S., M.S., Frank B. Gardner, D.D.S., Sam E. Hayes, D.D.S., David L. Moore, D.D.S., M.D., David J. Thein, D.D.S., M.S.D., Gregory A. Thompson, D.D.S.

The advanced education in general dentistry program is a 12-month program beginning in July for eight residents and is designed to refine and advance knowledge and clinical competency and proficiency in the practice of general dentistry. The program bridges the gap between dental school and dental practice. Clinical instruction is offered in all of the clinical disciplines. The didactic component provides postgraduate training in the basic and behavioral sciences, as well as the clinical sciences and practice management. Upon completion of this program a certificate in general dentistry will be awarded.

An optional second year of residency is offered for two students. The emphases during this year of the program are in advanced restorative and implant dentistry.

Eligibility

An applicant for this program must be a citizen of the United States or a foreign national having a visa permitting permanent residence in the United States. Applicants must also submit evidence of graduation from a school of dentistry accredited by the Commission on Dental Accreditation or the Canadian Dental Accrediting Commission, or verification from the dean

of an accredited dental school that the applicant will graduate during the current academic year.

Tuition and Fees

Estimated school tuition can be obtained at the Advanced Education Enrollment Fees section of this catalog. If selected for the program there is a \$750 nonrefundable acceptance fee which must be paid within two weeks of the time of acceptance of the position. More information will be provided to the applicant once he/she is accepted into the program.

Financial Assistance

Up-to-date additional information on financial assistance can be obtained at <http://www.sfa.umkc.edu/>

Stipend

No stipend is available. Residents receive income generated from their clinical practice of general dentistry. The income paid is approximately 33 percent of the net fees collected for clinical treatment they provide in the program. Net collected clinical fees are defined as gross clinic fees collected, less scheduled laboratory fees incurred as a part of the treatment procedures, and/or less any fee waivers granted (see also Financial Assistance section)

Applications

Application to this program is either through UMKC or through the Postdoctoral Application Support Services (PASS). Use the link <http://dentistry.umkc.edu/assets/forms/advancededucation2.asp> for greater detail on both. The deadline for receipt of application at the school is Oct. 1 of the year prior to planned enrollment.

Interview

Competitive applicants will be invited to Kansas City for an interview with the program director and other selected faculty and staff. If invited, the interview is a required part of the application process and funding is the responsibility of the applicant.

Point of Contact

To request further information, please contact either the Office of Student Programs at (816) 235-2080 or dds@umkc.edu; or the program director, Dr. John W. Thurmond at (816) 235-2164 or thurmondj@umkc.edu.

Program Description: Endodontics

Director:

James C. Kulild, D.D.S., M.S., Diplomate, American Board of Endodontics

Faculty:

James A. Dryden, D.D.S., M.S., Diplomate, American Board of Endodontics, Ron Riley, D.D.S., Diplomate, American Board of Endodontics; Charles Lee, D.D.S., Felix G. Quiason, D.D.S., Edward W. Grimes, D.D.S., Diplomate, American Board of Endodontics; Jim Tinnan, D.D.S., Diplomate, American Board of Endodontics; Robert H. Altomare, D.D.S., Barton W. Putnam, D.D.S.; Dan Lavitt, D.D.S., M.S., Diplomate, American Board of Endodontics

Program Overview

The endodontics postgraduate program is designed to prepare a dentist for a career in clinical endodontics, research and teaching. The overall goal is to educate dentists to become competent clinical endodontists who will serve the public and the profession at a high level of excellence. It stresses the importance of knowledge and skills in the diagnosis, prevention, and treatment of diseases associated with the dental pulp and related periapical tissues. Didactic and clinical training is also conducted in other related areas within the scope of practice of the field of endodontics as established by the Endodontic Standards of the Commission on Dental Accreditation. The correlation of basic sciences and clinical sciences is an integral part of the program. A research project is required and comprehensive examinations must be successfully completed. The program is also designed to prepare the graduate endodontist to challenge the requirements for certification as a Diplomate by the American Board of Endodontics. Individuals who successfully complete this advanced education program will be awarded a Certificate in Endodontics.

Accreditation

The program in endodontics is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of "approval without reporting requirements". The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611.

Eligibility

An applicant for this program must be a citizen of the United States or a foreign national having a visa permitting permanent residence in the United States. Applicants must also submit evidence of graduation from a school of dentistry accredited by the American Dental Association or the Canadian Dental Association.

Program Duration

The 24-month program covers six continuous semesters and begins on July 1.

Number of Residents

There are generally two first-year and two second-year residents.

General Applicant Information

Applicants must have successfully completed Part I of the National Dental Board at the time of application and Part II by the time of matriculation. Applicants must have demonstrated English reading, writing and speaking proficiency and a minimum score of 550 on the TOEFL examination or 213 on the computer version of the TOEFL examination. Applications must be submitted using applications furnished by the Office of Student Programs, UMKC School of Dentistry. Use the link <http://dentistry.umkc.edu/assets/forms/advancededucation2.asp> to receive a brochure describing the program and application materials. The program deadline date for receipt of all completed application materials is Aug. 15.

Graduate Medical Education (GME) Stipends

Currently, residents are eligible for GME stipends of approximately \$21,000 per year. This is a federal, not School of Dentistry, program and is subject to current federal guidelines and availability of funds.

Income from Endodontics Program Practice

Residents will be paid approximately 33 percent of the net fees collected for clinical treatment they provide in the program. Net collected clinical fees are defined as gross clinic fees collected, less scheduled laboratory fees incurred as a part of the treatment procedures, and/or less any fee waivers granted. Generally, this amounts to between \$20,000-\$30,000 additional income per year.

Extramural Employment

Residents are not allowed to practice outside of the endodontic program.

Tuition and Fees

Estimated school tuition costs can be found in the Fees section of this catalog. If selected for the program, there is a \$1,000 nonrefundable acceptance fee which must be paid within two days of the time of acceptance of the position. More information will be provided to the applicant once he/she is accepted into the program.

Instruments and Equipment

Residents will be required to lease their dental instruments through the school and purchase some other instruments and equipment. The school employs a centralized sterilization program for the lease instruments. Additionally, each resident is required to purchase an endodontic operating microscope head with beam splitter and attachment to accommodate a minimum 4 mega pixel digital camera which must also be purchased. A list of other required instruments and textbooks will be provided when an applicant is selected to attend the program. Estimated cost

for purchases for the 24-month program are approximately \$20,000. Estimated lease expenses are approximately \$6,400 for the 24-month program, \$1,600 per each fall and spring semesters. Currently, there are no charges for leased instruments for the summer semesters.

Postgraduate Endodontic Clinic

The postgraduate endodontic clinic is a true state-of-the-art facility made possible by the generous donations of Mrs. Virginia Stowers, Dr. Ben Johnson, and other benefactors. All rooms are equipped with resident-purchased dental operating microscopes. Each room has its own x-ray head, Adec track light system, and ASI dental unit carts complete with air-driven high and low speed fiber optic handpieces, two electric handpieces, two ultrasonics, dual micro irrigators, micro air syringes, and curing light. The program is linked into the all-electronic paperless patient record management system which also integrates the digital x-ray sensors available in each operatory. Please go to the clinic web page at http://dentistry.umkc.edu/bec_patient/endodontics.htm for a 360 degree photo tour. Also please see http://dentistry.umkc.edu/bec_patient/stowers.htm for more information about faculty, residents and staff.

Study Areas

Residents have excellent dedicated office space with high-speed computer and printer support connected to a high-speed LAN. The program also has a dedicated seminar room for literature reviews, case presentation, lectures, etc.

Financial Assistance

Up-to-date additional information on financial assistance can be found in the School of Dentistry portion of the Financial Aid Charts at <http://www.sfa.umkc.edu/>.

Interview

Competitive applicants will be invited to Kansas City for an interview with the program director and other selected faculty and staff. If invited, the interview is a required part of the application process, and travel expenses are the responsibility of the applicant.

Point of Contact

To request further information, please contact either the Office of Student Programs at (816) 235-2080 or dds@umkc.edu; or the program director, Dr. James C. Kulild, at (816) 235-2749 or kulildj@umkc.edu.

Program Description: Oral and Maxillofacial Radiology

Director:

Jerald O. Katz, D.M.D., M.S., Diplomate, American Board of Oral and Maxillofacial Radiology

Faculty:

Vandana Kumar, B.S.D., M.S., Diplomate, American Board of Oral and Maxillofacial Radiology, Richard Massoth, Ph.D.

Stipend

Students may be eligible for a stipend. Contact program director for details.

The 24-month program begins July 1 and leads to certification in oral and maxillofacial radiology. The 30-month program leads to certification in oral and maxillofacial radiology and a master of science degree in oral biology. A separate application process is required for admission into the master's program.

The curriculum is designed so that at the completion of the program, the graduate will be eligible to take the American Board of Oral and Maxillofacial Radiology exam. If accepted into the master of science in oral biology program, additional courses and original research are required. On satisfactory completion of a thesis and the required courses, the master of science degree will be awarded.

One student is accepted into the program per year. Applicants with a D.D.S./D.M.D. degree from a school accredited by the American Dental Association or Canadian Dental Association are preferred. Graduates of dental programs not so accredited will be considered on a case-by-case basis.

Point of Contact

To request further information, please contact the Office of Student Programs at (816) 235-2080 or the program director, Dr. Jerald Katz, at (816) 235-2138 or katzj@umkc.edu.

Program Description: Oral and Maxillofacial Surgery

Director:
Brett L. Ferguson, D.D.S., Diplomate, American Board of Oral and Maxillofacial Surgery (ABOMS)

Faculty:
John Bellome, D.D.S., Diplomate, ABOMS; Matthew Hlavacek, D.D.S., M.D., Diplomate, ABOMS; Perrin S. Jungbluth, D.D.S., M.D., Diplomate; Ronald McAmis, D.D.S., Diplomate, ABOMS; Steve Prstovich, D.D.S., M.D., Diplomate, ABOMS; Rudane E. Shultz, D.D.S., Diplomate, ABOMS

Stipend

First Year	\$44,000	Second Year	\$45,500
Third Year	\$47,000	Fourth Year	\$48,500
Fifth Year	\$50,000	Sixth Year	\$52,000

This six-year program, which begins in July, is open to applicants who have a doctoral degree in dentistry from an ADA-accredited dental school, and who are interested in completing both a medical degree and certificate of residency training in oral and maxillofacial surgery.

The program divides the training between the oral and maxillofacial surgery residency program and the curriculum of the School of Medicine. This program provides in-depth coverage of orthognathic surgery, reconstructive surgery, implant surgery, temporomandibular joint surgery, trauma, dento-alveolar surgery and anesthesia, as well as all required basic science and clinical medicine courses for the doctor of medicine degree. A thesis is not required; however, publication in peer-reviewed journals is a requirement of the training program.

An interdisciplinary Ph.D. program is offered through the School of Graduate Studies as an elective for qualified and interested program residents. This will require additional years of study and clinical experience, and will also require a thesis. Separate application to this program will be made after beginning the residency.

Openings are limited to two individuals each year, and new residents must be prepared to begin their training on July 1. Applicants accepted into this program must have the necessary training to obtain a permanent dental license in the state of Missouri prior to the start of their training. Residents are required to enroll in both the UMKC School of Dentistry and UMKC School of Medicine, depending on course and residency requirements being fulfilled in a given term. Appropriate fees from both schools are applicable.

To be considered for admission to the UMKC School of Medicine, one must be a United States citizen or be a permanent resident of the United States; if the applicant holds a permanent resident visa, a copy should be included in your application materials.

Interested applicants must apply through the Postdoctoral Application Support Services (PASS); this program also participates in the National Matching Services (MATCH). Use the link <http://dentistry.umkc.edu/assets/forms/advancededucation2.asp>. for more details regarding additional information to be supplied by the applicant.

Deadline for receipt of application at the school is August 15 of the year prior to anticipated enrollment. A by-invitation interview is a required part of the application process.

Please note that score results of the MCAT examination *are not* a requirement of this program.

Questions about this program may be answered by contacting the program director's office at (816) 404-4356.

Program Description: Orthodontics and Dentofacial Orthopedics

Director:

Jeff Nickel, D.M.D., MSc, Ph.D.

Faculty:

Laura Iwasaki, D.D.S., MSc, Ph.D., Leo Rogers Chair; Don Thompson, D.D.S., M.S.D, Clinic Director; Steve Billings, D. D.S.; Dustin Burleson, D.D.S.; Bob Craven, D.D.S.; Frank Crist, D.D.S., M.S.; John Dorsch, D.D.S., M.S.; Vance Dykhouse, D.D.S., M.S.; Scott Hamilton, D.D.S., M.S.D.; Dennis Harper, D.D.S., M.S.; David Jones, D.D.S., M.S.D.; Kurt Muehlebach, D.D.S.; James Osborne, D.D.S.; Ingrid Reed, D.D.S., M.S.; Jeff Thompson, D.D.S., M.S.; Don Wilson, D.D.S.; Ling Ye, Ph.D.

Program Overview

The advanced education program in orthodontics and dentofacial orthopedics has existed since 1946. Approximately 350 UMKC orthodontists have graduated from the UMKC program and are located in many states and some foreign countries.

This is a full-time, 30 month program that begins in July. It is designed to prepare the student for community practice of orthodontics and dentofacial orthopedics. Curriculum emphasis is placed on the edgewise technique and on interceptive and functional treatment. Management of craniofacial anomalies is taught didactically and clinically in association with the craniofacial team at Children's Mercy Hospital. Objective inquiry and statistical validation are emphasized in all aspects of this program. Completion of an original research project and paper is required. The computerized clinic facility is a working-research model that simulates the private practice environment. Courses, clinics, and dedicated research time are organized to facilitate the completion of an M.S. or Ph.D. degree in oral biology. A separate application is required for the M.S. or Ph.D. program.

Application and Acceptance

Applications are considered from the following groups:

- Fourth-year dental students from ADA or CDA accredited schools who are in the top 50 percent of their graduating class.
- Graduates of schools who ranked in the top 50 percent of their graduating classes and have satisfactorily completed a general practice residency or other dental specialty program prior to application.
- Graduates of a School of Dentistry who ranked in the top 50 percent of their class and have been in general practices.

Selection of candidates is a twofold process. First, candidates are stratified on the basis of academic and professional performance. GRE scores, Class standing, national board performance, specialty program, practice experience, leadership roles in organized dental groups, dental school teaching, research experience and recommendations are considered.

Secondly, applicants meeting screening criteria are invited for interviews. All interviews are conducted at the School of Dentistry on the same day and all invited candidates must attend this session to be eligible for final selection into the class. If offered a position in a class, this offer, like all offers from the University, is contingent upon a successful background screening. In order to begin the background screening, you must complete a Disclosure form and return it to Human Resources within two business days. Four residents are accepted into this program annually.

Application for admission must be received at the school on or before Sept. 5th of the year prior to planned enrollment.

Applications may be requested from the Office of Student Programs at (816) 235-2080. The Web site at <http://www.umkc.edu/orthodontics/> contains a link to Student Programs.

Stipend

Thirty-three percent of clinical fee collections (as defined in the Financial Assistance section).*

*Available to eligible program residents (i.e., those who have earned a D.D.S./D.M.D. degree from an American Dental Association- or a Canadian Dental Association-accredited program).

Tuition and Fees

Estimated tuition costs may be found in the fees section of this catalog. There are additional fees for books, camera and required meeting attendance associated with this program.

Instruments

Residents are required to pay an "instrument usage" fee to the school. All instruments are provided and are maintained by the Central Sterilization program of the school.

Financial Assistance

Up-to-date information on additional financial assistance may be found in the school financial aids charts at <http://www.sfa.umkc.edu/>.

Program Description: Periodontics

Director:

Simon R. MacNeill, B.D.S., D.D.S., Diplomate, American Board of Periodontology

Faculty:

John W. Rapley, D.D.S., M.S., Department Chair, Diplomate, American Board of Periodontology; Nancy Newhouse, D.D.S., M.S., Diplomate, American Board of Periodontology; Lynn Friesen, D.D.S., M.S., Diplomate, American Board of Periodontology; Mark Edwards, D.D.S. Diplomate, American Board of Periodontology; David Thein, D.D.S., M.S.D.; Keerthana Satheesh, B.D.S., D.D.S, M.S., Diplomate, American Board of Periodontology; Asvin Vasanthan, B.D.S., D.D.S., M.S. Diplomate, American Board of Periodontology; Charles M. Cobb, D.D.S., M.S., Ph.D., Diplomate, American Board of Periodontology; David May, D.D.S., Diplomate, American Board of Periodontology; Dan B. Ang, D.D.S., M.S.

Program Overview

The periodontic postgraduate program is designed to prepare a dentist for a career in clinical periodontics, research and teaching. It enables the resident to acquire a depth of understanding in oral biology; to become acquainted with the problems in the biology and pathology of oral tissues, and to adequately treat these problems with the most current knowledge and techniques. Program students will be encouraged to use interdisciplinary approaches in the solution of research and clinical problems. The program is designed to provide for the profession and the community, competent bio-clinicians who will become key professionals in clinical practice, research, and teaching. Didactic and clinical training will also be conducted in other related areas within the scope of practice of the field of periodontics as established by the Periodontic Standards of the Council on Dental Accreditation. The correlation of basic sciences and clinical sciences is an integral part of the program. A research project is required and comprehensive examinations must be successfully completed. Original research leading to the Master of Science is possible. Admission into the M.S. program requires a separate application, and the student will apply for admission following successful enrollment into the periodontic program. Meeting all eligibility criteria of the M.S. program is necessary for acceptance into the periodontics program. The program is also designed to prepare the graduate periodontist to challenge the requirements for certification as a diplomate by the American Board of Periodontology. Individuals who successfully complete this advanced education program will be awarded a Certificate in Periodontics.

Eligibility

An applicant for this program must be a citizen of the United States or a foreign national having a visa permitting permanent residence in the United States. Applicants must also submit evidence of graduation from a school of dentistry accredited by the Commission on Dental Accreditation or the Canadian Dental Accrediting Commission, or verification from the dean of an accredited dental school that the applicant will graduate during the current academic year.

Program Duration

The 36-month program covers nine continuous semesters and begins on July 1.

Number of Residents

Two students are accepted into the program each year.

General Applicant Information

The program deadline date for receipt of all required completed application materials is August 15th of the year preceding planned enrollment. Applicants must have successfully completed Part I of the National Dental Board at the time of application and Part II by the time of matriculation. Applicants must have demonstrated English reading, writing and speaking proficiency and a minimum score of 575 (written) or 250 (computer) on the TOEFL examination.

Selection is based on academic standing in dental school (grade-point average, class standing and National Board scores) and experience (years in practice, teaching or research, advanced training or degrees, publications, activity in organized dentistry and participation in continuing education). Three letters of recommendation are required.

Applications

Applications must be submitted using applications furnished by the Office of Student Programs, UMKC School of Dentistry. Use the link <http://dentistry.umkc.edu/assets/forms/advancededucation2.asp> to receive a brochure describing the program and application materials.

Stipend

No stipend is available.

Income from Periodontic Program Practice

Residents will be paid approximately 33 percent of the net fees collected for clinical treatment they provide in the program. Net collected clinical fees are defined as gross clinic fees collected, less scheduled laboratory fees incurred as a part of the treatment procedures, and/or less any fee waivers granted (see also Financial Assistance section).

Tuition and Fees

Estimated school tuition can be obtained at the Advanced Education Enrollment Fees section of this catalog. If selected for the program there is a \$500 nonrefundable acceptance fee which must be paid within two days of the time of acceptance of the position. More information will be provided to the applicant once he/she is accepted into the program.

Instruments and Equipment

Residents will be required to lease some dental equipment through the school as well as purchase other instruments and equipment. The school employs a new centralized sterilization program for the lease equipment. A list of other required instruments and textbooks will be provided when an applicant is selected to attend the program.

Financial Assistance

Up-to-date additional information on financial assistance can be obtained at <http://www.sfa.umkc.edu/>.

Interview

Competitive applicants will be invited to Kansas City for an interview with the program director and other selected faculty and staff. If invited, the interview is a required part of the application process and funding is the responsibility of the applicant.

Accreditation

The program in periodontics is fully accredited by the Commission on Dental Accreditation. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611.

Study Areas

Residents have a dedicated office space with computer and printer support connected to a high-speed LAN. The program also has a dedicated seminar room for literature reviews, case presentation, lectures, etc.

Point of Contact

To request further information, contact the Office of Student Programs at (816) 235-2080 or dds@umkc.edu; or the program director, Dr. Simon R. MacNeill, at (816) 235-2119 or macneills@umkc.edu.

Graduate Certificate in Advanced Education in General Dentistry

Student Learning Outcomes

Residents on completion of the AEGD program will have the knowledge and experience to provide comprehensive multidisciplinary oral health care at a level of skill and competency beyond that achieved in their pre-doctoral training. It is expected that they will be able to provide this care to a broad and diverse patient population which includes the medically compromised and those with special needs.

The objectives of the didactic and clinical experiences is to broaden and strengthen the scope and level of residents competencies and proficiencies in the practice of dentistry.

Patients are treated in a comprehensive manner with clinical emphasis on:

- Diagnosis and treatment planning of complex and multidisciplinary cares.
- Management of oral facial pain including the TMJ patient.
- The importance of occlusion in all aspects of dentistry.
- Contemporary endodontics and periodontics.
- Oral surgery including surgical principles and techniques for dental implants.
- Current esthetic dentistry techniques.
- Advanced restorative/prosthetic treatment including dental implants.

Educational formats used are: formal courses, lectures, seminars, literature reviews, assigned readings, hands-on courses, case presentation, attendance at continuing education, guest speakers, treatment planning conferences, clinical demonstrations and chairside clinical teaching.

Graduation Requirements

Requirements for a Certificate in Advanced Education in General Dentistry (AEGD)

Successful completion includes:

1. Maintaining a 3.0 GPA for all assigned didactic and clinical course work
2. Maintenance of all required clinical documentation
3. Maintenance of a program portfolio as designed by the program director
4. Progressively increase resident's scope of practice and increase clinical competencies beyond that of a graduate of a four year D.D.S. (D.M.D.) program
5. Provide dental care to a diverse population in an ethical, competent, compassionate and professional manner
6. Achieve established program "goals and objectives" established by the Council of Dental Accreditation (CODA) of the American Dental Association
7. Coordinate and participate in community service projects
8. Comply with all policies established by UMKC, School of Dentistry and AEGD program director

Graduate Certificate in Endodontics

Student Learning Outcomes

The following listing of skills required by the Standards for Advanced Specialty Education Programs in Endodontics are assessed through seminars, examinations, one-on-one discussions, papers, presentations, laboratory exercises, mock board exercises, and clinical care on patients.

The graduate will demonstrate applied knowledge and clinical skills in the following areas:

1. Anatomy of soft and hard tissues of the head and neck with particular emphasis on the teeth and their supporting structures.
2. Embryology, histology and physiology of the pulpal/periradicular complex.
3. Microbial ecology of the oral flora and the microbiologic aspects of caries, and pulpal and periradicular diseases.
4. Infectious and immunologic processes in oral health and disease.
5. Pathophysiology as it relates to diseases of the pulpal/periradicular complex and orofacial pain.
6. Mechanisms of inflammation and wound healing with emphasis on the pulpal/periradicular/periodontal complex.
7. Oral medicine and pathology as they relate to the differential diagnosis and management of clinical conditions that may require endodontic treatment.
8. Pharmacotherapeutic agents used in the management of systemic diseases that may influence the management of patients requiring endodontic treatment.
9. Mechanisms, interactions and effects of drugs used in the prevention, diagnosis and treatment of pulpal and periradicular pathoses.
10. Principles of biostatistics, research design, research methodology, scientific writing, and critical evaluation of the literature.
11. Biomaterial science as it relates to endodontics.
12. Collect, organize, analyze and interpret data from the medical and dental histories and clinical evaluation to determine their relationship to the patient's endodontic treatment.
13. Perform tests and clinical examinations and interpret the significance of the data in the differential diagnosis of clinical conditions arising from injury to the pathosis of pulp and periradicular tissues.
14. Expose, process and interpret radiographs and/or take and interpret digital images.
15. Establish differential interpretations of lesions and normal anatomic structures through radiographs or digital images.
16. Formulate a diagnosis, prognosis, and treatment plan for conditions that require endodontic treatment in support of the total oral health of the patient, requesting information/consultation from other healthcare professionals as needed.
17. Provide appropriate emergency treatment to relieve pain and resolve infections of endodontic origin.
18. Recognize and manage, or prevent, endodontic pain and associated anxiety using physical, chemical and psychological modalities.
19. Provide nonsurgical and surgical endodontic treatment.
20. Retreat endodontically-treated teeth using both non-surgical and surgical techniques.
21. Evaluate the results of endodontic treatment and determine whether additional evaluation/treatment is required.
22. Provide space for intraradicular restorations and cores in endodontically treated teeth.
23. Communicate to patients the nature of their endodontic conditions and the value of treatment to their overall oral health.
24. Communicate with other health care professionals, interpreting their assessments and integrating this information into the treatment of the patient.
25. Provide vital pulp therapy.
26. Perform root-end closure procedures.
27. Evaluate, diagnose and manage traumatic injuries to teeth and their supporting structures.
28. Provide endodontic treatment for the medically compromised patient.
29. Develop a differential diagnosis of orofacial pain.
30. Diagnose and treat periodontal disease and defects in conjunction with the treatment of the specific tooth undergoing endodontic therapy; treatment should be provided in consultation with the individuals who will assume the responsibility for the completion or supervision of any additional periodontal maintenance or treatment.
31. Place intraradicular restorations and cores in endodontically treated teeth; when the patient is referred, this treatment is accomplished in consultation with the restorative dentist.
32. Perform non-surgical and surgical endodontic procedures using microscopy.
33. Perform intracoronal bleaching procedures.
34. The history of endodontics, teaching methodology, ethics.
35. Endodontic endosseous implants, osseointegrated implants and techniques for placement of implants, and orthodontic extrusion procedures.

Program Requirements

Course	Course Number	Credit Hours
Endodontology 1	ENDO 5701	1 to 6
Endodontology 2	ENDO 5702	1 to 6
Endodontology 3	ENDO 5703	1 to 6
Endodontology 4	ENDO 5704	1 to 6
Endodontology 5	ENDO 5705	1 to 6

Oral Physiology	BIO-SCI 5760	2
Pharmacology	BIO-SCI 5759	2
Dental Biomaterials	BIO-SCI 5739	1

Graduation Requirements

1. Satisfactory completion of all clinical and basic science core courses as outlined for the endodontic curriculum.
2. Satisfactory completion of all endodontic courses and seminars.
3. Achievement of clinical competency in endodontics.
4. Grades of at least "B" in all basic and clinical sciences and endodontic courses. Courses that are audited will require 100% attendance and residents will be tested on course content during the annual endodontic oral and written examinations. Failure by any resident to meet the 100% attendance requirement for any audited courses will result in written and/or oral examinations in those courses at the discretion of the Program Director. Residents are entitled to due process in accordance with guidelines contained in the Student Handbook on Academic and Other Policies.
5. The goal for each resident is to complete at least 200 clinical endodontic cases. These cases will include, but not be limited to, the following: nonsurgical, surgical, retreatment, vital pulp treatment, apexification, trauma, medically compromised, endo-perio, restoration of endodontically treated teeth, and bleaching. The cases treated should include as many and as varied types of cases, in order to give the broadest exposure and experience necessary to graduate as the best qualified endodontist. A list of all cases will be maintained by the resident. The completed cases will be reviewed on a monthly and quarterly basis by the Program Director. An annual report of all cases is due July 1.
6. A series of 24 completely documented cases, representing various types of treatment accomplished by the student. These cases will be submitted in a written format using the format of the American Board of Endodontics. These cases will be placed in a binder suitable for placement in the Endodontic Library, complete with slides, photomicrographs of the biopsy, and all pertinent radiographs (including recalls). These cases are due as established on the resident schedule.
7. Documented research. A suitable project approved by the Research Advisors and the Program Director, conduct of the research, collection of data, analysis of results, and preparation of a manuscript suitable for submission to a refereed journal must be completed before the conclusion of the program. If, for whatever reason, a waiver is granted by the Program Director for an extension of the submission deadline date, the resident may forfeit the right of first-authorship. A request to submit the research findings at the oral research presentations at the Annual Session of the AAE is required.
8. Attendance at all scheduled classes, seminars, clinics, and meetings is mandatory. Attendance is also required for all consultant lecturers established by the Program Director or the person he has delegated this responsibility. This may involve an occasional evening or weekend event. Absences will not be acceptable and will be reflected in a lowering of course grades on the semester evaluation report, and could result in additional assignments such as written literature review reports.

Graduate Certificate in Oral and Maxillofacial Radiology

Student Learning Outcomes

The following learning outcomes have been adopted by the faculty as the skills and knowledge that must be demonstrated by every student to qualify for graduation. These outcomes are assessed in the classroom, laboratory and clinic using examinations, papers, presentations and review of clinical performance. Graduates should be able to:

- Determine appropriate imaging examinations, based on clinical examination and interpretation of medical and dental history.
- Utilize conventional and advanced imaging modalities in the oral and maxillofacial region. Make and interpret images of the oral and maxillofacial region and produce written interpretive reports.
- Conduct research related to oral and maxillofacial radiology.
- Teach physical and biological principles of radiology as relates to dentistry.
- Serve as consultant to medicine and dentistry concerning issues related to oral and maxillofacial radiology.
- Assess radiation safety and protection in the dental practice environment.
- Maintain proficiency in the specialty of oral and maxillofacial radiology through ongoing critical evaluation of the scientific literature and attendance at professional meetings and continuing education courses.

Graduate Certificate in Oral and Maxillofacial Surgery

Student Learning Outcomes

Oral and Maxillofacial Surgery is the specialty of dentistry which includes the diagnosis, surgical and adjunctive treatment of diseases, injuries and defects involving both the functional and aesthetic aspects of the hard and soft tissues of the oral and maxillofacial regions. The following learning outcomes have been developed and adopted by the Commission on Dental Accreditation and the faculty in oral and maxillofacial surgery at the University of Missouri – Kansas City Schools of Dentistry and Medicine. The goals, skills, and knowledge every graduate must demonstrate to qualify for graduation are assessed through the classroom, the outpatient clinic, hospital/surgicenter operating rooms, mock Board exercises, seminars, presentations, and one-on-one discussions. Hospitals included are Children's Mercy Hospital, St. Luke's Hospital of Kansas City, Truman Medical Centers Hospital Hill and Lakewood.

The graduate in oral and maxillofacial surgery will demonstrate applied knowledge and clinical skills in the following areas:

1. Continuous certification in Basic Life Support, Advanced Cardiac Life Support, Advanced Trauma Life Support, and Pediatric Advanced Life Support.
2. Minimum duration of 72 months of full-time study with a minimum of 30 months devoted to clinical oral and maxillofacial surgery.
3. Six months of the senior year with responsibilities of Chief Resident.
4. Present patients in a pre- and post-operative format.
5. Maintenance of a surgical log.
6. Coursework and training as requirements for the medical degree at the University of Missouri – Kansas City School of Medicine, to include a general surgery residency preliminary year within the integrated MD/oral and maxillofacial surgery training program.
7. Minimum duration of four months of anesthesia to include mandated daily attendance, daily lectures, on-call participation, and an intended workload of approximately 250 general anesthesia cases.
8. Medical service will include a minimum of two months of clinical medical experience and will be at the medical student/resident intern level or higher and may include rotations on medical specialty services.
9. Surgical service will include a minimum of four months of general surgery experience and will be at the surgery student/resident with a commensurate level of responsibility (operate at a PGY-1 level or higher and is on the regular on-call schedule).
10. Two additional months of clinical surgical or medical education will be assigned.
11. Weekly departmental seminars and conferences to provide instruction in the broad scope of oral and maxillofacial surgery and related sciences and will include retrospective audits, clinical pathological conferences, tumor conferences, and guest lectures. The resident will prepare and present departmental conferences.
12. Instruction in the basic biomedical sciences will include anatomy (including growth and development), physiology, pharmacology, microbiology, and pathology. This instruction will be met through the completion of the requirements for the MD as well as the certificate in oral and maxillofacial surgery. Anatomy lectures will include surgical approaches to the maxillofacial region and graft donor sites.
13. A physical diagnosis program will be started upon entrance into the residency. This will include a structure, didactic, and clinical course in physical diagnosis and will be provided by faculty privileged to perform history/physical exams. Competency in physical diagnosis will be documented and will occur in the first year of the program.
14. Clinical oral and maxillofacial surgery will include a complete, progressively graduated sequence of outpatient, inpatient, and emergency room experiences. Exposure to major and minor surgical principles will be integrated

throughout the duration of the program. Outpatient oral and maxillofacial surgery experiences will include the management of traumatic injuries and pathologic conditions, dentoalveolar surgery, the placement of implant devices, augmentations, and other hard and soft tissue surgery including mucogingival surgery.

15. Ambulatory general anesthesia and deep sedation will include both the general anesthesia rotation of four months and the outpatient surgery experience which includes general anesthesia/deep sedation on adult and pediatric patients. This includes competence in managing the airway. In addition, all residents will obtain training and experience in all aspects of parenteral and inhalation sedation techniques. Inpatient surgical experience will include admission and management of patients.
16. Major surgery will include surgery on adults and children to include trauma, pathology, orthognathic surgery, reconstructive, and aesthetic surgery. In the trauma category, surgical management of mandibular fractures, maxillary fractures, zygomaticomaxillary fractures, nasal fractures, naso frontal orbital ethmoidal fractures, and repair of facial, oral, soft tissue injuries, and injuries to specialized structures. Pathology will include treatment of sinus procedures, TMJ pathology, cystectomy of bone and soft tissue, sialolithotomy, sialoadenectomy, management of head/neck infections, fifth-nerve surgery, and surgical management of benign and malignant neoplasms. Orthognathic surgery will include correction of functional and aesthetic orofacial and craniofacial deformities of the mandible, maxilla, zygoma, and other facial bones. Reconstructive and aesthetic surgery will include bone grafting and soft tissue grafting and insertion of implants. This includes competence in harvesting of bone and soft tissue grafts. Reconstructive surgery will also include augmentation procedures, TMJ reconstruction, insertion of craniofacial implants, and management of continuity defects. Dental implant training will include didactic and clinical experience in the management of implant placement, diagnosis, treatment planning, site preparation, grafting procedures, implant placement, and management of complications. Aesthetic surgery will include rhinoplasty, scar revision, blepharoplasty, genioplasty, and lipectomy.
17. Medical school curriculum will include formal courses in biostatistics, human gross anatomy, human microscopic and developmental anatomy, human neuroanatomy, medical microbiology, general/clinical pathology, pharmacology, clinical pharmacology, behavioral science and medicine, correlative medicine, docent rotation, psychiatry, obstetrics/gynecology, pediatrics, surgery, family medicine, emergency medicine, and continuing care clinic.

Graduate Certificate in Orthodontics and Dentofacial Orthopedics

Student Learning Outcomes

The following learning outcomes have been developed and adopted by the faculty. These goals, skills and knowledge every graduate must demonstrate to qualify for graduation. The Department of Orthodontics and Dentofacial Orthopedics require these outcomes be assessed in the classroom, the laboratory, and through treatment of clinical cases over the 26-month program. Their competencies are assessed through examinations, presentations of papers, and clinical treatment comprehensive examinations.

1. Demonstrate a commitment to learning, professionalism, societal responsibility, and contributing to generalizable knowledge through research
2. Demonstrate a commitment to the addressing the concerns of patients and the delivery of quality care.
3. Demonstrate the level of proficiency expected of an orthodontic specialist in the areas of diagnosis, treatment planning, and analysis of treatment outcomes.

Program Requirements

Residents enrolled in the Orthodontics and Dentofacial Orthopedics Advanced Education Program must complete the following requirements:

1. Complete a 30 month program of clinical training, didactic course work, and undergraduate teaching.
2. Complete a hypothesis driven research project and produce a manuscript for submission to a scientific journal accessible through PUBMED®.
3. Maintain a 3.0 GPA for 39 credit hours of core curriculum (see below).
4. Meet Student Learning Outcomes of the Orthodontics and Dentofacial Orthopedics section of the UMKC School of Dentistry.
5. Take the Phase II examination of the American Board of Orthodontics during the second year of residency.

Required Core Curriculum:

Course #	Credit Hours
BIO-SCI 5706 Growth and Development I	1
BIO-SCI 5707 Growth and Development II	1
ORTHOD 5726 Cephalometrics I	2
ORTHOD 5727 Cephalometrics II	2
ORTHOD 5704 Orthodontics and Dentofacial Orthopedics I	1
ORTHOD 5705 Orthodontics and Dentofacial Orthopedics II	1
ORTHOD 5706 Orthodontics and Dentofacial Orthopedics III	1
ORTHOD 5707 Orthodontics and Dentofacial Orthopedics IV	1
ORTHOD 5708 Orthodontics and Dentofacial Orthopedics V	1
ORTHOD 5709 Orthodontics and Dentofacial Orthopedics VI	1
ORTHOD 5710 Orthodontics and Dentofacial Orthopedics VII	1
ORTHOD 5711 Orthodontics and Dentofacial Orthopedics VIII	2
BIO-SCI 5739 Dental Biomaterials for the Dental Specialist	1
BIO-SCI 5740 Pathology	2
BIO-SCI 5760 Physiology of Oral Hard Tissues	2
BIO-SCI 5704 TMD: Evaluation and Management	2
BMS 5701 Head and Neck Anatomy	2
RES-ME 5700 Introduction to Research Methodology	2
RES-ME 5704 Introduction to Biostatistics	3
BIO-SCI 5751 Elements of the Scientific Method	1
BIO-SCI 5752 Research Methods in Oral Biology	2
BIO-SCI 5799 Research and Thesis	6
RES-ME 5703 Thesis Writing	1

Graduate Certificate in Periodontics

Student Learning Outcomes

The following learning outcomes have been developed and adopted by the faculty. These goals, skills, and knowledge must be demonstrated by every graduate to qualify for graduation. The Department of Periodontics assess these outcomes in the classroom, the laboratory, and through treatment of clinical cases over the length of the program, using examinations, presentation of papers, and review of clinical treatment.

The competencies expected of a graduate are:

- Have an understanding of the biology and pathology of the periodontium.
- Be soundly based in the interpretation of the dental literature in periodontics.
- Be clinically competent to conceptualize, rationalize and defend periodontal therapy in advanced cases. In addition, he/she should be aware of and have performed current therapeutically accepted periodontal modalities.
- Be innovative and logically reason using prior biological information.
- Be worthy of the title "Specialist".
- Be able to communicate, motivate and educate patients and general dentists on their level.
- Believe in the necessity of continuing education and self-enrichment.
- Assume leadership in the advancement of periodontics in his/her community. He/she also should be active in the American Academy of Periodontology.
- Be able to demonstrate an organizational ability to collect and present data.
- Be able to interpret the collected data and subsequently to diagnose, prognosticate and develop a Comprehensive Treatment Plan.
- Be able to evaluate, critically, the results of therapy.
- Be able to demonstrate his/her ability to perform all the above activities in a professional manner.
- Design, conduct and present a research project. Each research project must be written in a format suitable for publication.

Master of Science in Oral Biology

Department of Oral Biology

Chairman, Department of Oral Biology:

J. David Eick, Ph.D.

Director of Graduate Research Programs, Department of Oral Biology

Mary P. Walker, D.D.S., Ph.D.

Doctoral Faculty Participation:

Cynthia Amyot, H. Clark Anderson (A), Cielo Barragan-Adjemian, Lynda Bonewald, Charles M. Cobb (E), Sarah Dallas, J. David Eick, Jian Q. Feng (A), Alan Glaros (E), Jeffrey Gorski, Laura Iwasaki, Mark Johnson, Carole McArthur, Jeffrey Nickel, John Purk, Michael Reed, Ronald Sakaguchi (A), Paulette Spencer (E), Mary Walker, Yong Wang, Karen Williams, Ling Ye

- General Nature of the Program
- Admission Information
- Master of Science: Oral Biology
 - Student Learning Outcomes
 - Program Requirements
 - Thesis Research
 - Thesis Writing
 - Other Requirements

General Nature of the Program

The School of Dentistry offers a program leading to an M.S. in oral biology. Separate applications are required for the master of science program in oral biology. The goal of the program is to introduce students to the scientific method and to assist them in developing academic careers. The program includes advanced work in basic, behavioral and clinical sciences relating to dentistry. The coursework and thesis present an opportunity for the student to cross traditional departmental lines and undertake an interdisciplinary approach to the study of problems related to oral biology. On successful completion of all necessary coursework and thesis requirements, the student is awarded a master of science degree in oral biology.

Admission Information

Eligibility

All applicants for the master of science in oral biology program must first meet UMKC requirements for admission as a graduate student (see Graduate Academic Regulations and Information earlier in this catalog.)

To be eligible for admission to the master of science in oral biology program, an applicant either must hold a baccalaureate degree or a D.D.S. or equivalent degree. In general, he or she should have a minimum cumulative GPA of 3.0 (based on a 4.0 scale) for all undergraduate work, including dental school (if applicable).

Admission Procedure

Requests for information, including application materials, should be directed to:

Chairman, Advanced Education Committee
c/o Office of Student Programs
UMKC School of Dentistry
650 East 25th Street
Kansas City, MO 64108-2795

All application materials should be submitted prior to Feb. 1 for students wishing to begin their study in the Fall Semester; however, applications will be considered throughout the year.

Completed applications should be sent to the address above. The completed application packet is forwarded to the Department of Oral Biology for evaluation.

Evaluation Criteria for Admission:

Transcripts

Analysis of transcripts from all prior institutions is required. Under special circumstances (e.g., class standing), consideration may be given to applicants whose GPA is 2.5-3.0.

Letters of Recommendation

Three letters of recommendation are required from current or former teachers who are familiar with the applicant's past achievements and research ability/potential.

Letter From Applicant

A letter describing why the candidate is interested in pursuing a master of science in oral biology, how the experience of the program may be used by the candidate in the future, and a list of potential research interests must be submitted by the applicant.

Interviews

Interviews are not required. However, interviews will be arranged upon the candidate's request at the School of Dentistry. Successful interviews may enhance the candidate's chance of acceptance.

The chairman of the Advanced Education Committee will notify the applicant regarding acceptance status.

Master of Science in Oral Biology

Student Learning Outcomes

OBJECTIVES

In addition to writing a research proposal, completing a research project, and writing a thesis, a minimum of 30 credit hours including the core curriculum is required for the MS Degree. The course curriculum will be developed in consultation with the Oral Biology Director of Graduate Research Programs and faculty who serve on the supervisory committee. The developed program of study will meet the student's individual needs and research interests, satisfy discipline-specific requirements, and assure upon graduation that students are able to:

- Demonstrate appropriate depth and breadth of knowledge in their discipline
- Use scholarship and research skills to evaluate the literature and make evidence-based decisions
- Work effectively in a collaborative environment
- Effectively communicate results of their research to diverse audiences
- Apply ethical principles to all aspects of their professional life
- Think critically and creatively as clinicians and researchers
- Develop skills to become good mentors and communicators
- Successfully complete the CITI Research Ethics Tutorial at: <http://www.umkc.edu/research/Support/IRB/trainings.html>. When finished, the Certificate of Successful Completion will be printed and turned in to the Oral Biology Administrative Office to be placed in the student's file.

Program Requirements

The candidate enrolled in this program must complete a minimum of 30 semester hours of coursework. These courses must be listed on the form "Master's Degree Program of Study" (available from the Department of Oral Biology office) and must be signed by the thesis adviser, members of the thesis committee, and chair of the Department of Oral Biology.

The required core curriculum will consist of the following courses:

- BIO-SCI 5751 Elements of the Scientific Method
- BIO-SCI 5752 Research Methods in Oral Biology
- BIO-SCI 5799 Research and Thesis
- RES-ME 5700 Introduction to Research Methodology
- RES-ME 5703 Thesis Writing
- RES-ME 5704 Introduction to Biostatistics

The thesis committee may require additional courses. This catalog contains listings of appropriate graduate level courses. Some examples of additional courses applicable to the program:

- BIO-SCI 5710 Molecular Genetics and Cranial Facial Biology
- BIO-SCI 5739 Dental Biomaterials for the Dental Specialist
- BIO-SCI 5740 Oral Pathology I
- BIO-SCI 5743 Advanced Seminar in Biomaterials
- BIO-SCI 5747 Research Instrumentation
- BIO-SCI 5759 Special Problems in Pharmacology
- BIO-SCI 5760 Physiology of Oral Hard Tissues
- BIO-SCI 5802 Immunopathology
- BIO-SCI 5805 Molecular Biology of Oral Microflora
- BIO-SCI 5806 Oral Microbiology and Infectious Disease
- BIO-SCI 5830 Structural Characterization of Dental Biomaterials
- OR-BIO 5700 Embryonic Development of the Face and Oral Cavity

Of the 30 semester hours, no more than 6 semester hours of graduate work taken at institutions other than UMKC may be transferred. The transfer of 6 graduate credit hours includes those courses deemed appropriate to the student's program of study by the thesis committee.

The student must conduct an original investigation in a basic, behavioral or clinical science area and write a thesis describing the research and reporting the results of the study. The student will be required to successfully defend the thesis in a final oral examination at a university-wide seminar. No qualifying examination or language examination is required for the degree.

Enrollment in BIO-SCI 5799 Research and Thesis is required as a part of the student's program of study. To reflect the student's research involvement in activities that will ultimately lead to the completion of the thesis, multiple semesters of enrollment in this course are allowed. Cumulative credit for this course may not exceed 6 hours. Until the thesis is successfully completed and defended, a grade of incomplete (I) is given for each term of enrollment in this course. On successful defense and completion of the thesis, incomplete grades will be changed to an appropriate letter grade.

While the master of science program in oral biology can be pursued simultaneously with dental specialty certificate programs, it is likely that such a student can expect to spend 6 months or longer beyond the period designated for the certificate program to obtain the master of science in oral biology.

Thesis Research

The major criterion of the master of science in oral biology is original research. This original research may be conducted in basic, behavioral or clinical sciences. Adherence to all standards established by the School of Graduate Studies is necessary for final acceptance and approval of the thesis.

Thesis Committee

Each student is responsible for selecting a thesis committee chair who must be an Oral Biology faculty member. The selection of a thesis chair must be completed within the student's first semester of study and approved by the Department of Oral Biology Director of Graduate Research Programs. Once the chair is selected, the student and the chair will select two or more additional faculty members to serve on the thesis committee. One additional member of the thesis committee must be a member of the Department of Oral Biology and all of the faculty selected must be members of the graduate faculty. Committee members should be selected for their ability to provide additional advice and resources to augment the thesis research of the student.

Following committee selection, the Program of Study form must be completed. This document serves as the record of selected committee members and required courses for each student. The Program of Study form and example course lists (for concurrent specialty certificate program students) are available on the Oral Biology Web site at dentistry.umkc.edu/oralbiology/educationalresources.htm. The completed Program of Study must be signed by all committee members; the Department of Oral Biology Director of Graduate Research Programs; the Department of Oral Biology Chair; and the Dean or Graduate Officer, School of Dentistry. The completed form must meet all Department of Oral Biology and School of Graduate Studies requirements.

All thesis committee members must approve a thesis research proposal before the research project is initiated. The thesis committee members also advise and guide the students in the successful completion of their research and determine when the M.S. thesis is complete.

Thesis

Original research will be used to construct a formal thesis conforming to the standards set by the School of Graduate Studies (see University of Missouri-Kansas City Guide to Formatting Graduate Theses, which can be obtained at the UMKC Dental Library). At least ten weeks prior to graduation, the completed thesis must be submitted to the thesis committee for its preliminary approval.

After all members of the thesis committee have read and given preliminary approval to the content of the thesis, and the instructor(s) of the course RES-ME 5703 Thesis Writing has given preliminary approval to the format of the thesis, and at least six weeks prior to graduation, the original typewritten copy must be submitted to the School of Graduate Studies for certification by the dean of Graduate Faculties and Research. After the thesis has been certified for acceptance by the dean of Graduate Faculties and Research, the thesis committee will require the student to defend the thesis. School of Dentistry regulations require students to defend their theses by presenting university-wide seminars on their research. In addition to the required distribution of copies (see the UMKC Guide to Formatting Graduate Theses and the [General Graduate Academic Regulations and Information](#) section of this catalog), a copy of the thesis also must be received for retention by the Dental Library of the School of Dentistry.

5703 Thesis Writing

The methods of preparing, organizing, and presenting research findings using scientific writing format will be reviewed for completing a thesis. This course is required for the Master of Science degrees in Oral Biology and Dental Hygiene Education.

Other Requirements

Students will be expected to comply with all rules, regulations and requirements specified in the General Graduate Academic Regulations and Information section of this catalog.

Master of Science Degree in Dental Hygiene Education

Dental Hygiene Education Program

- Customized Plan of Study

About the graduate program in Dental Hygiene Education

The master of science degree in dental hygiene education program provides the educational and professional environment to enrich dental hygienists through a collaborative experience resulting in competent graduates able to pursue diverse innovative career opportunities. Candidates may pursue graduate studies with a concentration in teacher preparation (clinical and classroom teaching) and research. Additional opportunities are available in areas of gerontology, special patient care and health services administration for campus students.

The graduate program has a rich history of preparing dental hygienists for leadership roles in academia and industry. The program is housed in the School of Dentistry and is one of the few such graduate programs in dental hygiene in the country.

The graduate program is specifically designed to be flexible and innovative to meet the candidates' educational goals and objectives for careers in the dental hygiene profession, as well as to help meet the dental hygiene faculty and administrative needs of accredited dental hygiene and dental assisting programs. The majority of courses are available online.

Courses may be chosen from a wide variety offered in the School of Dentistry, School of Administration, College of Arts and Sciences, School of Nursing, or any other academic unit at the University of Missouri-Kansas City. The 36 credit hour graduate program may be completed on a full- or part-time basis. The core curriculum is completed online with the exception of 2 (3 credit hour) courses. These must be taken and transferred from an accredited institution (See course descriptions designated by an *). However, the Research Methods and Biostatistics courses are offered onsite at UMKC SOD. Full time students are *required to attend a minimum of two academic years.*

Basic knowledge and experience in conducting research is gained through related course work. The completion of a thesis or research project (manuscript ready for publication) is required as part of the graduate student's academic program. The topic should be aligned with the ADHA National Research Agenda, which can be found at www.adha.org. The thesis/research project is completed through the collaborative efforts of the graduate candidate and a supervisory committee. The chairperson of the graduate committee must be a member of UMKC Graduate Faculty. If the student is completing a thesis, the student should visit the following website for more information: <http://sgs.umkc.edu/guidelin/index.asp>

Requirements for Admission

Graduation from an accredited school or program of dental hygiene, a baccalaureate degree from an accredited college or university, and a satisfactory academic undergraduate record are required. The deadline for application is Feb. 1 for the class beginning the following Fall semester. An interview is a required component of the admissions process. Interviews are granted to candidates for this program by invitation only. Application forms and information may be obtained from the Director, Graduate Dental Hygiene Education, Division of Dental Hygiene, at the address at the beginning of [this section](#). Enrollment is limited.

Questions about this program may be answered by contacting the program director's office at (816) 235-2049 or villalpandot@umkc.edu.

Completed applications **must be submitted to the Director of Graduate Dental Hygiene Education at the above address** by Feb. 1 for the class beginning the following Fall semester. The required application materials must include:

1. UMKC application for admission.
2. Supplemental application for admission.
3. Narrative statement.
4. Official transcripts of all previous academic work.
5. Three completed recommendation forms (including one from the director of the dental hygiene program attended).
6. A letter of intent sent to the director of graduate dental hygiene education explaining the applicant's main area of graduate dental hygiene interest (clinical and classroom teaching, special patient care, health services administration, gerontology or advanced clinician).

Job Opportunities

Graduate students in dental hygiene may prepare for careers in clinical and classroom education, research, administration, gerontology or special patient care in hospital or community-based settings. Availability of positions for graduates of the master of science degree program has been excellent in these career areas. Assuming the number of dental hygiene programs in the country remains at about 260, the need for highly qualified educators, researchers and administrators with master's degrees in dental hygiene education will remain strong. Students who plan a career in teaching, research or administration may consider graduate work leading to a Ph.D. degree.

School Activities

The philosophy of the graduate program advocates individualized career planning and advising students to help meet their specific needs and interests in an atmosphere conducive to enhancing the students' critical thinking, decision making and self-evaluative skills as health care professionals.

Graduate students have the opportunity to spend one semester as an extern at another dental hygiene institution or health care facility. This usually is determined by the graduate student's specialization and preference for the extern site, as well as established criteria for the externship. This experience has proved invaluable for most graduate students selecting this option.

Educational Fees

Students in this program are assessed educational fees (as of the 2008-09 academic year) as follows.

	Summer Semester	Fall Semester	Spring Semester
Educational Fee (resident)	\$298.70 per credit hour	\$298.70 per credit hour	\$298.70 per credit hour
Education Fee (nonresident)	\$472.50 per credit hour	\$472.50 per credit hour	\$472.50 per credit hour
Activity Fee (1)	\$15.72 per credit hour	\$15.72 per credit hour	\$15.72 per credit hour
Student Health Fee (1)	\$3.86 per credit hour	\$3.86 per credit hour	\$3.86 per credit hour
Multipurpose Bldg. Fee	\$15.00	\$30.00	\$30.00
Info Tech/Computing (2)	\$12.20 per credit hour	\$12.20 per credit hour	\$12.20 per credit hour
ASUM Fee (1)	\$.15 per credit hour	\$.15 per credit hour	\$.15 per credit hour
Collegiate Readership Fee	\$1.36	\$2.72	\$2.72

(1) 12 credit hour maximum, Fall & Spring (6 credit hour maximum Summer).

(2) No credit hour maximum.

(3) 10 credit hour maximum, Fall & Spring (6 credit hour maximum Summer).

Out of state students who complete coursework on a part-time basis are eligible for in-state tuition. To be eligible for this, the student must enroll in no more than 6 credit in the fall and spring semesters and no more than 3 credit hours in the summer to qualify.

Note: Fees are subject to change without notice.

Scholarships

Graduate research assistantships and nonresident tuition-waiver awards are available to students on a competitive basis. The American Dental Hygienist's Association awards scholarships to dental hygienists at the master's degree level on a competitive basis. Please contact the director of graduate dental hygiene education for more details of possible funding for graduate studies through the Division of Dental Hygiene.

Customized Plan of Study

The graduate program is flexible and innovative in its tailoring to the interests and needs of the graduate student. Both a thesis and non-thesis option are available for the master's degree program. In addition, the program allows students to enroll on either a part-time or full-time basis. The typical length of study for the thesis track is two years. Entering students will begin coursework in the Fall semester. An innovative distance education option allows the candidate the prestige of a graduate education with the convenience of online technology. Interested candidates are advised to consult with the program director.

The curriculum is designed to provide meaningful academic experiences and activities for each graduate student as matched with program coursework offerings, facilities and resources. Typical courses for the graduate program depend on the graduate student's area of concentration. A classroom and clinical teaching area of concentration includes classroom and clinical student teaching with dental hygiene and dental students, curriculum concepts and practicum, special problems in dental hygiene, principles of testing, introduction to research methodology, biostatistics, periodontics and local anesthesia. A wide variety of electives may be chosen from those offered in the School of Dentistry, the Henry W. Bloch School of Business and Public Administration, the School of Education, the College of Arts and Sciences, the School of Nursing or any other academic unit at UMKC.

The School of Dentistry provides an ideal environment for graduate students to interact with clinical and basic science dental faculty and other advanced-education specialty students for an exchange of ideas, knowledge and resources. In addition, graduate dental hygiene students actively participate in lectures, seminars, and practical and independent study that address their needs and interests for their future careers.

Graduate students are required to design and conduct a research project in fulfillment of their research requirement for both the thesis and non-thesis options of the program. This is accomplished under the supervision of a research advisory committee. Basic knowledge and skills in conducting research are gained through research coursework offered both in the School of Dentistry and on the UMKC campus. Funding for graduate student research is often available from the Dental School Rinehart Foundation, as well as other external funding sources.

Master of Science: Dental Hygiene Education

Student Learning Outcomes

Competencies Expected of a UMKC Graduate in the Graduate Dental Hygiene Program

A set of 6 competencies have been developed for students. These are employment-oriented and include skills required to function in the workplace.

1.0: Our Graduates will be competent in managing themselves:

- 1.1 Posses the ability to take responsibility for one's own education and performance.
- 1.2 Keep current on developments in the dental hygiene profession
- 1.3 Posses the ability to manage several tasks at one time effectively
- 1.4 Allocate time efficiently by setting priorities
- 1.5 Posses the ability to identify problems and find creative solutions.

2.0: Our Graduates will be competent in managing information:

- 2.1 Posses the ability to access information through the use of databases and other electronic medias
- 2.2 Posses the ability to pose a researchable question, develop hypotheses, collect evidence and address hypotheses
- 2.3 Posses the ability to organize information and utilize it effectively
- 2.4 Possess the ability to draw conclusions after weighing evidence, facts and ideas
- 2.5 Posses the ability to convey findings through written communication

3.0: Our graduates will be competent in communicating:

- 3.1 Posses the ability to interact effectively with people whose attitudes and opinions are different than own.
- 3.2 Posses the ability to convey information in many forms i.e. verbal, written and visual.
- 3.3 Posses the ability to effectively present information through technology.
- 3.4 Work cooperatively in groups

Program Requirements

Required Courses

DENT-HYG 4020	Local Anesthesia and Pain Control
DENT-HYG 4040	Introduction to Research and Instruction
DENT-HYG 5500	Educational Methodologies
DENT-HYG 5510	Student Teaching and Conference I
DENT-HYG 5516	Special Issues in Higher Education
DENT-HYG 5530	Clinical Instruction and Conference
DENT-HYG 5553	Seminar in Advanced Clinical Techniques and Methodologies
DENT-HYG 5595	Scientific Writing
DENT-HYG 5599	Research and Thesis
RES-ME 5700	Intro. to Research Methodology (or its equivalent)
RES-ME 5703	Thesis Writing (thesis option only)
RES-ME 5704	Introduction to Biostatistics (or its equivalent)

Total number of credit hours required for completion of the graduate program is 36 credit hours for either the thesis or non-thesis option.

Other Requirements

Students will be expected to comply with all rules, regulations and requirements in the General Graduate Academic Regulations and Information section of this catalog.

Retention Requirements

Graduate students, regardless of classification, must maintain a 3.0 (B) grade-point average in all coursework taken for graduate credit at UMKC and must meet any additional academic requirements imposed by the school, department or Interdisciplinary Ph.D. discipline. Students are responsible for keeping apprised of their academic status by referring to term grades and their permanent academic record on file in the UMKC Registration and Records Office.

Whenever the cumulative GPA for UMKC courses taken for graduate credit by a graduate student of any classification falls below 3.0, the student's status for the next term becomes: "On Probation - See principal graduate adviser." (Interdisciplinary Ph.D. students will be directed to consult their interim adviser or research adviser.) The principal graduate adviser, interim adviser or research adviser will review the student's progress and provide counsel, and the following conditions apply:

- A graduate student on probation who is not restored to good academic standing by the end of two successive regular semesters following the term in which the cumulative GPA fell below 3.0 will be declared ineligible to re-enroll.
- While on probation, a graduate student must achieve a 3.0 term GPA in order to enroll for the following term.
- A graduate student on probation will not be restored to good standing until a cumulative graduate-credit GPA of at least 3.0 is achieved.

Graduation Requirements

Requirements include:

1. A 3.0 GPA.
2. Successful completion of 36 credit hours with a thesis or non-thesis option.
3. Prepare and present a table clinic at the Midwest Dental Conference during the Spring Semester.
4. All other requirements for graduation as stated in the General Graduate Academic Regulations and Information section of this catalog.
5. Successful completion of a portfolio as presented in DHGR 5516. The final portfolio must be turned into the program director six weeks prior to the student's anticipated graduation date.

History and Mission

History

The School of Education, organized officially as a separate academic division in 1954, was the result of the University of Kansas City's involvement in professional education since 1940. At that early date the University was offering an M.A. in education, heavily liberal-arts laden, with most classes conducted in the summer and evenings. An undergraduate major in elementary education was established in 1952, and the first University of Kansas City doctoral program, the Ph.D. in education, was inaugurated with the organizing of the school in 1954. Since 1954, the school has grown to include three disciplinary divisions with 19 programs, offering bachelor of arts, master of arts, educational specialist, education doctorate and doctor of philosophy degree programs. Several degree and certification programs are offered in cooperation with the the School of Biological Sciences, the Conservatory of Music and the College of Arts and Sciences.

Mission

The mission of the School of Education is to empower professionals to become reflective practitioners committed to a more just and democratic society. This mission is centered on five key values which embody the knowledge, skills and dispositions expected of our candidates across the School of Education. The goals defined by individual programs are more specific subsets of these broader goals:

1. Academic excellence.
2. Inquiry leading to reflective decision-making and problem-solving.
3. Skilled and knowledgeable professionals working collaboratively.
4. Democracy and social justice.
5. Creating caring and safe environments.

Curricula Objectives

The UMKC School of Education has been committed to professional education in the Kansas City metropolitan area for over 50 years. Throughout the School's history, faculty have an established record of involvement in educational reform - exemplified through innovative teaching methods, action-based research, and community-focused programs preparing teachers, administrators, and mental health professionals for the challenges in urban communities today and for the future.

The primary objectives of the School of Education, which stem from our conceptual framework, mission, and values, are:

- To provide sound theoretical foundations and practical skills at the undergraduate and graduate levels required for competent performance by teachers, administrators and special-services personnel in schools, colleges and universities in a culturally pluralistic society.
- To provide graduate education and research skills which are supportive of and lead to advanced levels of scholarly achievement.
- To provide a diversity of specialized education and training programs for persons engaged in educational roles in non-school settings such as governmental agencies, social service agencies, mental and physical health care institutions, business and industrial organizations and private practice.
- To provide leadership, consultation and other support services for quality improvement in planning and conducting educational programs in schools, higher education institutions, and community agencies and organizations.
- To provide professional development opportunities for educators at all levels through specially designed programs in research, continuing education instruction, in-service programs and workshops.
- To impact the student learning in classrooms and communities throughout Missouri and the Kansas City metropolitan region in positive and meaningful ways.
- To make original contributions to the broad field of professional education through basic and applied research by both faculty and students with specific emphasis on issues of urban education.

Accreditation

The teacher education programs of the School of Education are accredited at the bachelor's, master's, educational specialist and doctoral levels by the National Council for Accreditation of Teacher Education for the preparation of elementary teachers, secondary teachers and other school personnel.

The School of Education is a member of the American Association of Colleges of Teacher Education.

The Ph.D. program in Counseling Psychology is accredited by the American Psychological Association.

Programs for the preparation of teachers and other school personnel are approved by the Missouri Department of Elementary and Secondary Education.

Advising and Student Services

The School of Education Student Services Office mission is to facilitate student success by providing quality services and support in the spirit of building a community of learners. The office is a referral and resource for all students in the School of Education. Primary responsibilities are to provide quality advising for undergraduates and to coordinate the processing of certification. The staff also assists with recruitment events, contact with prospective students, freshmen and transfer orientation, admissions to teacher education, School of Education scholarship materials, commencement and other student-centered activities.

Academic advisers are available to meet with undergraduate education majors and those seeking teacher certification. Academic advisers can be reached by contacting Education Student Services at (816) 235-2234.

Additionally, each student is assigned a faculty adviser. Faculty advisers are available for assistance in program and career planning. Graduate students are encouraged to contact their department within the first semester to connect with their faculty adviser.

Scholarships

Student Organizations

The *School of Education Student Government* strives to expand the students' academic concerns and abilities, promote students' involvement in the School of Education and the University, act on all matters concerning students' welfare, aid faculty and students in cooperative work and promote a professional attitude and feeling of responsibility.

The *American Psychological Association -- Student Affiliate Group* encourages professional development within the field of counseling psychology. It also serves as a meeting time for the members to discuss issues and concerns of the counseling psychology doctoral program. It encourages students to organize educational, social and fund raising events, and to act as a liaison with the counseling psychology faculty and the UMKC community.

The *Higher Education Student Association* (HESA) is a student-run organization founded to further the understanding of the purpose and practices of higher education. HESA's purpose is to serve the specific and current needs of students enrolled in or interested in the Higher Education Administration program at UMKC. The goals of the organization are to:

- Create a community among higher education administration students, faculty, and alumni
- Provide a forum for the exchange of ideas on current issues in higher education
- Offer professional experiences in conference participation, planning and organization
- Network with other Higher Education Student associations
- Assist in the professional advancement of members

The *Kansas City Council of the International Reading Association* works closely with the Division of Curriculum and Instructional Leadership and language and literacy faculty to provide programs that acquaint teachers and administrators with issues, special methods and materials in the field of reading education.

Pi Lambda Theta recognizes persons of superior scholastic achievement and high potential for professional leadership; to stimulate independently thinking educators who can ask critical questions to improve educational decision-making.

The purpose of the *Student Personnel Association* is to create a sense of community among students interested in the study of higher education by providing opportunities to interact with each other and discuss common issues and concerns, encouraging social unity and promoting the educational development of members.

Phi Delta Kappa is an honorary education society with the purpose of improving schooling through research and shared information. The national organization publishes high-quality materials in the field of education, and the local chapter sponsors workshops, informational meetings and service projects.

The *Student Missouri State Teachers Association* promotes professional ideals by developing communication, interaction and cooperation among existing chapters, coordinates their major activities, projects and programs, aids in the establishment of new chapters, and establishing and meeting Student-MSTA membership goals. Activities provide personal growth, leadership training and experiences. The activities also provide opportunities by which students may observe and share the work of the teachers in every aspect. This is to promote and cultivate high quality teaching in the education profession.

Special Services

Reading Clinic

Diagnostic and remedial services in reading are available for elementary and high school students who are having difficulty in reading. Contact the Division of Curriculum and Instructional Leadership at (816) 235-**2245** for additional information.

Public School Centers

A number of public schools in the Kansas City metropolitan area cooperate with the School of Education by making available their facilities and staffs for observations, student teaching and demonstrations. These schools are designated centers because of the close relationships that have been developed between UMKC and public schools. The use of the centers ensures that observations and student teaching are closely interwoven with the coursework throughout the program to provide close union of theory and practice. During student teaching, students are under the guidance of cooperating teachers and members of the University's education staff. Weekly seminars are a required part of the program.

Placement

There is a significant local and national demand for teachers. More than 7,000 teaching positions exist in the greater Kansas City area. In addition to those local opportunities, School of Education graduates hold teaching positions across the nation.

Students or graduates seeking a teaching or administrative position are urged to register and keep their records current in the Career Services Office, 4825 Troost, phone (816) 235-**1636** or check their Web site: <http://www.career.umkc.edu/>.

Technology Learning Laboratory

The School of Education Technology Learning Laboratory is available for all School of Education students, faculty and staff. Individualized instruction is available by appointment, call (816) 235-**2250**. Computers with the PC and Mac platforms are available.

Office of Continuing Education

Through Continuing Education, hundreds of courses are offered to teachers and other community members throughout the Greater Kansas City area and beyond. Credit and non-credit courses are offered throughout the year at various locations and at various time. Continuing Education has numerous online offerings to fit any schedule. For course topics and additional information, visit our Web site at <http://education.umkc.edu/CE/> or call (816) 235-**1188**.

Division of Urban Leadership and Policy Studies in

Education

Chair:

Dianne Smith, Ph.D. 
(816) 235-2458

Areas of Study and Degrees

- M.A. Educational Administration; Emphasis Areas: Administration (Elementary or Secondary), Higher Educational Administration
- Ed.S. Educational Administration; Emphasis Areas: Administration (Elementary or Secondary), Special Education Administration
- Ed.D. Educational Administration; Emphasis Areas: Administration (Elementary or Secondary); Higher Educational Administration
- Ph.D. Interdisciplinary (Urban Leadership and Policy Studies in Education with other disciplines) (See School of Graduate Studies <http://www.umkc.edu/sgs>)

Student Academic Assessment Policy

The National Council for Accreditation of Teacher Education, the accreditation body for the School of Education, has standards which require that candidates demonstrate the knowledge, skills and professional dispositions necessary for educators and educational leaders. The academic assessment of a student in the School of Education is a significant event for both the student and the faculty. It represents an evaluation by the faculty of student competency in academic skills and/or in other critical areas of professional conduct.

At any point during the student's matriculation through the program, the faculty retains the right to review any student behavior that may affect the welfare of the student or others. Such a review may result in the student being encouraged to receive additional support and assistance or possibly not being permitted to continue in the program. The following are offered as examples of behaviors that are the basis for evaluation of student progress:

1. Failure to maintain academic standards (e.g., 3.0 GPA).
2. Academic dishonesty (e.g., cheating, plagiarism).
3. Unethical or unprofessional behavior which could include but is not limited to, dishonesty; lack of collegiality, cooperation, or responsibility; inability to handle stress; abrasiveness; lack of timeliness; to name a few.
4. Behaviors that obstruct the leadership process and/or threaten the welfare of the student or others (e.g., verbal abuse, physical abuse, active substance abuse).
5. Failure to comply with established University or Program timetables, requirements, and policies (e.g., failure to meet time limits for completion of degree program).
6. Violation of federal, state, or local laws on UMKC premises or at UMKC sponsored or supervised activities.
7. Consideration may be given to other circumstances as they arise.

Procedures for Student Evaluation

To protect student interests as well as the rights of faculty to uphold the academic and professional standards of the academic program, the following steps may be taken as part of the academic review process.

1. If a concern about student behavior develops within the context of a course or at a field experience, the course instructor and/or field supervisor documents concerns and notifies the student's faculty adviser. The instructor meets with the student (and the faculty adviser if needed) to outline deficiencies and establish a remedial course of action (if appropriate). Chronological time frames may be established to evaluate performance. Others (i.e., program faculty or professionals and agents outside the university) who have university-related concerns about a student outside of the context of a course may communicate their concerns directly to the appropriate division chair or the Dean's Office. (Such discussions are governed by the Family Educational Rights and Privacy Act.)
2. If the instructor(s) has made a reasonable determination with adequate documentation that a pattern of severe problems exists, he or she warrants additional action beyond that already taken. Then the instructor will communicate the concerns, actions taken and their outcomes to the faculty adviser and Division Chair and request a hearing panel be assembled to review the student's status.
3. The student will be informed in writing by the Division Chair of the concerns and a hearing will be set by the Dean's Office with the program faculty (at least three faculty, in addition to the faculty member filing the complaint, must be

present) and the student. An Associate Dean will present the scenario(s) and the student will have a right to respond to the allegations. The hearing panel may ask questions of both parties. The student may bring another person of support to the hearing but this individual may not speak on behalf of the student. The student will receive copies of all written documentation related to the allegations in advance of the hearing. This hearing will determine the student's status in the program.

4. The program faculty will notify the student in writing of the outcome of the hearing and make a recommendation to the Dean.
5. The student has a right to appeal the decision of the program faculty and must notify the Dean in writing within ten business days of the faculty decision. Another hearing will take place between the student and the Dean or his/her designee. The Dean reviews the recommendation and conveys a decision to the respective faculty group and the student.
6. Students who have been declared ineligible due to unsatisfactory progress or performance may appeal such decisions to the Dean of the School of Graduate Studies, as designee of the Chancellor. This appeal must be made in writing within 14 consecutive days after receipt of the registrar's notification to the student of the decision. The Dean of the School of Graduate Studies will review the full record of the case and the appeal document.
7. The decision of the Graduate Dean, as the Chancellor's designated representative in such cases, is final and will be communicated in writing to:
 1. The student
 2. The graduate faculty review group(s)
 3. The academic dean
 4. The registrar

Faculty Scholastic Activity and Research Interests

Faculty in Urban Leadership and Policy Studies have a wide variety of experiences and interests. Faculty members engage in research and consult on education-related issues in both public and higher education. The faculty are committed to multiculturalism and the importance of diversity in education settings. They advise students in research and administrative endeavors, and help them achieve their professional career goals.

Centers and Projects

<http://education.umkc.edu/centers.asp>

Kansas City Regional Professional Development Center

The Kansas City Regional Professional Development Center (KCRPDC), instituted at UMKC's School of Education in July 1995, is composed of a support team of professional developers who work with schools and school districts in Clay, Jackson and Platte counties. Funded by the Department of Elementary and Secondary Education, the purpose of the center is to increase the performance of K-12 students in the region by building the capacity of Missouri's teaching and administrative staff through professional development. For more information call (816) 235-**5627**.

The following state-funded, school improvement programs are located within the KCRPDC:

Accelerated Schools

Accelerated Schools is a school improvement initiative based on Henry Levin's work. UMKC hosted the state's first Accelerated Schools Center, in which the staff works with approximately 80 schools. Accelerated Schools teaches a philosophy and a process for bringing about school improvement. For more information call (816) 235-**2442**.

Missouri Assessment Program (MAP)

The goal of the Missouri Assessment Program (MAP) is to raise achievement for all students. Regional facilitators train senior leaders nominated by district administrators. The senior leaders, in turn, share their work and experiences with MAP teams in their own buildings or districts. The professional development provides teachers a foundation for performance-based assessment. For more information call (816) 235-**2497**.

STARR Teachers

Select Teachers As Regional Resources (STARR) teachers are outstanding classroom teachers who are granted sabbaticals from their school districts to work with educators at the district, school and classroom levels. STARR teachers deliver

and facilitate professional development to promote active, hands-on learning by students in all subject areas. Call (816) 235-**2483** for more information.

Economic Education Center

The Economic Education Center is one of a network of centers across the state and nation. The center is affiliated with the Missouri Council for Economic Education (MCEE), which in turn is a part of the National Council for Economic Education. The goal of the Center for Economic Education is to strengthen and support the teaching of economics in K-12 area schools. In keeping with this goal, the center provides graduate coursework, in-service programs and workshops to area teachers. The Economics Education Resource Collection, housed in the Instructional Materials Center in the School of Education, provides resource materials to area teachers.

Center for the Study of Metropolitan Problems in Education

The center was established in 1964 to conduct research on important issues in urban education. Topics emphasized in research have included school desegregation, compensatory education, reform of urban schools and demographic trends affecting metropolitan education. The center maintains a small collection of documents and research reports regarding urban education and it conducts or helps to conduct evaluation studies bearing on local projects involving urban education. Additional information may be obtained by calling (816) 235-**2448**.

Missouri Council of Teachers of Mathematics

The Missouri Council of Teachers of Mathematics is a 501(c)3 not-for-profit organization dedicated to supporting and improving mathematics teaching and learning at all levels. With a membership of more than 2,000, the organization has a long history of quality activities and programs. Affiliated with the National Council of Teachers of Mathematics, MCTM maintains strong contacts with the national agenda and with its own affiliated groups within the state. For more information visit MCTM at <http://www.MoCTM.org>.

Berkley Child and Family Development Center

The Berkley Child and Family Development Center provides quality care and education for young children and serves as a research training site for UMKC students. The center is administered through the School of Education and is part of the academic unit. It is accredited through the National Association for the Education of Young Children and licensed by the state of Missouri. Enrollment is open to the University population and the community for children ages 3 months to 6 years old. During the summer, programming is also provided for children ages 6 to 11 years old. Tuition assistance scholarships are available and are awarded based upon financial need. The center is accessible to children with special needs. To inquire about enrollment or a tour of the facility call (816) 235-**2600**.

Missouri Center for Safe Schools

The purpose of this center is to provide a clearinghouse where urban, suburban and rural schools across Missouri can get information and ongoing assistance to help them develop promising and effective ways of dealing with the kinds of serious problems school violence represents. For additional information call (816) 235-**5657**.

Institute for Urban Education (IUE): Description

The Institute for Urban Education (IUE) is a four-year undergraduate program that leads to a degree in elementary or middle school education with a focus in the teaching of math, science, and literacy. The program is specifically targeted to develop teachers for urban schools. The mission of UMKC's Institute for Urban Education (IUE) is to partner with our community to prepare exemplary educators for urban settings. Exemplary educators are change agents who demonstrate cultural, pedagogical, subject matter, school, and interpersonal competencies.

IUE program goals are based on a set of key principles and express knowledge, skills and dispositions. These goals reflect the current knowledge base of teacher education as well as a commitment to the preparation of teachers who will be able to practice in schools as they are, and schools as they might be. The goals of the IUE are consistent with those of the School of Education Teacher Preparation program.

Students receiving IUE scholarships will make a commitment to teach in an urban district following graduation in exchange for financial support. Questions regarding the IUE's programs and offerings should be directed to an IUE representative at (816) 235-**2472**.

Program Curriculum

The design of the IUE curriculum strives to prepare exemplary teachers who will positively affect student achievement. The curriculum of the IUE will prepare exemplary teachers for urban schools through an emphasis on content knowledge and culturally-responsive pedagogy, opportunities for students to gain cultural awareness and exploring cultural identities, field experiences aligned with coursework often taught in urban classrooms, and beginning teacher support. The following areas are cornerstones of the IUE:

- *Emphasis on Math, Science and Literacy content and pedagogy* The IUE curriculum includes a strong content component aligned with knowledge of how individuals learn content. The content focus of the IUE is math, science, and literacy. Students in the IUE will take math and/or science content courses nearly every semester of the program. Many of these courses are taken in alignment with teaching methods courses, allowing the students to see the immediate K-8 classroom application of content. Additionally, the content and pedagogical courses of the IUE have been designed in alignment with national and state math, science and literacy standards for elementary and middle school teachers.
- *Focus on social justice and multicultural education* The IUE curriculum emphasizes cultural awareness, culturally-relevant pedagogy and immersion in urban schools. Students in the IUE are involved in field experiences in urban schools and communities every semester of the program. Aligned with these field experiences is a seminar course, allowing students to work closely with faculty exploring the political and social nature of teaching. Immersion in urban schools will help IUE students understand the culture of urban schools, the realities of urban life and learn how to teach in culturally relevant ways, connecting pedagogy to the lives of their students.
- *Summer cultural experiences* In order to gain a broad and deep understanding of urban communities, students in the IUE are provided with many opportunities to work and socialize in that area. One such opportunity is the Summer Community Experience in which students will be fully immersed in the Kansas City community, gaining experience of other cultures and the community resources available to teachers and families. Designed with community leaders, the summer cultural experience is a six-week intensive program where students will work with local agencies to explore and serve urban communities. This experience occurs between the sophomore and junior years.
- *Innovative classes taught in urban school classrooms* The IUE curriculum teaches students how to apply culturally relevant and responsive teaching practices through modeling, field experiences and courses taught in urban school classrooms. These experiences allow IUE students to witness how to make necessary curricular accommodations and modifications within their teaching behaviors to meet the needs of diverse students. Through courses taught in urban school classrooms, students see the immediate application of culturally relevant and responsive teaching and will learn how to make pedagogical modifications to address the cultures present in the classroom and make content meaningful to students.

Division of Counseling and Educational Psychology

Chair:

Nancy Murdock, Ph.D. 
(816) 235-2722

Areas of Study and Degrees

- M.A. Counseling and Guidance; Emphasis Areas: School Counseling, Gerontological Counseling, Mental Health and Couples and Family
- Ed.S. Counseling and Guidance; Emphasis Areas: School Counseling, Mental Health and Marriage and Family
- Ph.D. Counseling Psychology

Faculty Scholastic Activity and Research Interests

The faculty in Counseling and Educational Psychology embodies a diverse gathering of expertise and interest. Faculty members conduct research in a wide variety of counseling and education-related areas, direct grant programs, and counsel clients in therapy. Individual and cultural diversity is paramount to the division, and faculty members attend to diversity issues in both coursework and research. Faculty members are invested in advising students in research, evaluation and counseling endeavors in order to help them achieve their educational goals.

Division of Curriculum and Instructional Leadership

Chair:

Susan Adler, Ph.D. 
(816) 235-2460

Areas of Study and Degrees

- B.A. Early Childhood Education
- B.A. Elementary Education
- B.A. Middle School Education (English, Mathematics, Science, Social Studies)
- B.A. Secondary Education; Certification areas: Art, English, Foreign Language (French, German, Spanish), Mathematics, Natural Sciences (Biology, Chemistry, Earth Science, Physics) and Social Sciences

Undergraduate students may also elect to pursue a dual degree between Education and Arts and Sciences. Secondary education majors may earn a B.A. or B.S. degree in a major in the College of Arts and Sciences. Elementary and early childhood education majors may earn a bachelor of liberal arts degree in the College of Arts and Sciences. Contact the advising office of the College of Arts and Sciences for more details.

- M.A. Curriculum and Instruction; Emphasis Areas: Early Childhood, Elementary, General, Learning Technologies, Multicultural Education, Subject Matter Specialty and Teaching English to Speakers of Other Languages
- M.A. Reading Education (Elementary, Secondary, Special)
- M.A. Special Education (Mild/Moderate Cross-Categorical Disabilities)
- Ed.S. Curriculum and Instruction,
- Ed.S. Reading Education
- Ph.D. Interdisciplinary (Education and other disciplines) (See School of Graduate Studies <http://sgs.umkc.edu/>)

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
 - Teachers recognize individual differences in their students and adjust their practice accordingly.
 - Teachers have an understanding of how students develop and learn.
 - Teachers treat students equitably.
 - Teachers' mission extends beyond understanding the cognitive capacity of their students.
2. Teachers know the subjects they teach. (Curriculum Design, Content Knowledge)
 - Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
 - Teachers expose their students to different modes of critical thinking.
 - Teachers teach students to think analytically about content.
3. Teachers know how to teach those subjects to students. (Pedagogy, Technology in Instruction)
 - Teachers command specialized knowledge of how to convey a subject to students.
 - Teachers generate multiple paths to knowledge.
 - Teachers have knowledge of available curricular resources including technological innovations.
4. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
 - Teachers call on multiple methods to meet their goals.
 - Teachers orchestrate learning in small and large group settings.
 - Teachers place a premium on student engagement.
 - Teachers regularly assess student progress.
 - Teachers are mindful of their principle objectives.
5. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
 - Teachers are continually making difficult choices that test their judgment.
 - Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
 - Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.
6. Teachers are members of learning communities. (Professional Activism)
 - Teachers contribute to school effectiveness by collaborating with other professionals.
 - Teachers work collaboratively with parents.
 - Teachers take advantage of community resources.

Student Academic Assessment Policy

The National Council for Accreditation of Teacher Education, the accreditation body for the School of Education, has standards which require that candidates demonstrate the knowledge, skills and professional dispositions necessary for educators and educational leaders. The academic assessment of a student in the School of Education is a significant event for both the student and the faculty. It represents an evaluation by the faculty of student competency in academic skills and/or in other critical areas of professional conduct.

At any point during the student's matriculation through the program, the faculty retains the right to review any student behavior that may affect the welfare of the student or others. Such a review may result in the student being encouraged to receive additional support and assistance or possibly not being permitted to continue in the program. The following are offered as examples of behaviors that are the basis for evaluation of student progress:

1. Failure to maintain academic standards (e.g., 3.0 GPA).
2. Academic dishonesty (e.g., cheating, plagiarism).
3. Unethical or unprofessional behavior which could include but is not limited to, dishonesty; lack of collegiality, cooperation, or responsibility; inability to handle stress; abrasiveness; lack of timeliness; to name a few.
4. Behaviors that obstruct the leadership process and/or threaten the welfare of the student or others (e.g., verbal abuse, physical abuse, active substance abuse).
5. Failure to comply with established University or Program timetables, requirements, and policies (e.g., failure to meet time limits for completion of degree program).
6. Violation of federal, state, or local laws on UMKC premises or at UMKC sponsored or supervised activities.
7. Consideration may be given to other circumstances as they arise.

Procedures for Student Evaluation

To protect student interests as well as the rights of faculty to uphold the academic and professional standards of the academic program, the following steps may be taken as part of the academic review process.

1. If a concern about student behavior develops within the context of a course or at a field experience, the course instructor and/or field supervisor documents concerns and notifies the student's faculty adviser. The instructor meets with the student (and the faculty adviser if needed) to outline deficiencies and establish a remedial course of action (if appropriate). Chronological time frames may be established to evaluate performance. Others (i.e., program faculty or professionals and agents outside the university) who have university-related concerns about a student outside of the context of a course may communicate their concerns directly to the appropriate division chair or the Dean's Office. (Such discussions are governed by the Family Educational Rights and Privacy Act.)
2. If the instructor(s) has made a reasonable determination with adequate documentation that a pattern of severe problems exists, he or she warrants additional action beyond that already taken. Then the instructor will communicate the concerns, actions taken and their outcomes to the faculty adviser and Division Chair and request a hearing panel be assembled to review the student's status.
3. The student will be informed in writing by the Division Chair of the concerns and a hearing will be set by the Dean's Office with the program faculty (at least three faculty, in addition to the faculty member filing the complaint, must be present) and the student. An Associate Dean will present the scenario(s) and the student will have a right to respond to the allegations. The hearing panel may ask questions of both parties. The student may bring another person of support to the hearing but this individual may not speak on behalf of the student. The student will receive copies of all written documentation related to the allegations in advance of the hearing. This hearing will determine the student's status in the program.
4. The program faculty will notify the student in writing of the outcome of the hearing and make a recommendation to the Dean.
5. The student has a right to appeal the decision of the program faculty and must notify the Dean in writing within ten business days of the faculty decision. Another hearing will take place between the student and the Dean or his/her designee. The Dean reviews the recommendation and conveys a decision to the respective faculty group and the student.
6. Students who have been declared ineligible due to unsatisfactory progress or performance may appeal such decisions to the Dean of the School of Graduate Studies, as designee of the Chancellor. This appeal must be made in writing within 14 consecutive days after receipt of the registrar's notification to the student of the decision. The Dean of the School of Graduate Studies will review the full record of the case and the appeal document.
7. The decision of the Graduate Dean, as the Chancellor's designated representative in such cases, is final and will be communicated in writing to:
 1. The student
 2. The graduate faculty review group(s)
 3. The academic dean
 4. The registrar

Faculty Scholastic Activity and Research Interests

Faculty in Curriculum and Instruction have a wide variety of experiences and interests. Several faculty members conduct research on achievement and pedagogy for at-risk students, direct grant programs and work intensely and collaboratively in school settings. Faculty emphasize the importance of technology in the classroom and incorporate this content into their work. They are active in national and regional professional associations, in which many hold offices. Faculty in Curriculum and Instruction strive to facilitate high levels of professional development and leadership skills and help their students achieve their educational goals.

General Information on Master of Arts Degrees

Requirements for the Master of Arts

Requirements for a master's degree include a minimum of 30 credit hours but vary according to the major and emphasis area. Regardless of program length, at least 60 percent of the coursework on the degree program must be numbered 5500 or above. At least 3.0 GPA must be maintained, with no grade lower than a C earned in any 5500-level course. A maximum of 20 percent of coursework numbered 5500 or above on the master's program may have grades of C. Any courses on the 300 and 400 level to be included in a master of arts program must be taken for graduate credit and only by arrangement with the adviser. No grade lower than B- may earned in any 300- or 400-level course to be used toward a graduate degree.

As soon as possible after regular admission to graduate study, the student should meet with a faculty adviser to develop a program of study. This program must be filed with the Education Student Services Office prior to completion of the last 15 hours of coursework. Program revisions may be requested later but also must be approved by the student's adviser and the dean's representative.

Twenty percent of resident graduate coursework may be transferred from other accredited universities' graduate programs. A maximum of 49 percent of acceptable graduate work (no grade below B) may be transferred from other campuses of the University of Missouri. Credits are transferred only with the recommendation of the adviser and the consent of the dean's representative in the School of Education. Transfer credit must not be more than seven years old at the time of program completion.

Transfer credit may be allowed for correspondence courses, provided the credits meet the above criteria. A maximum of six semester hours of continuing education courses that have been taken for graduate credit (workshops, special topics) may be included on a master's program. Students must provide a letter from the transfer institution clarifying the grade equivalent for transfer work posted as "credit" or "pass."

For regular courses taken through continuing education at UMKC to apply on degree programs, the student must be admitted to graduate study and have an approved program on file, including the continuing education courses.

The amount of workshop credit, either 498 or 470 series courses, that can apply toward a master's degree can not exceed more than 9 credit hours or more than 25 percent of the total degree program.

Credit more than seven years old at the time of degree completion must be validated. To validate a course, the student must meet with the instructor of the current equivalent course to devise a plan in which the student's current knowledge of the coursework can be assessed. Faculty may ask the student to write a paper, review current literature, or take examinations to determine whether the student's knowledge of the subject is acceptable. A maximum of 30 percent of the student's program of study may be validated under this procedure. All validation must be completed prior to the completion of the final semester of enrollment for the degree.

A thesis is not required for the master of arts degree, although the option for a thesis is available. A final integrating experience or independent or group research study may be required of those not selecting the thesis option.

Requirements for Retention

Students must:

1. Meet all admission requirements.
2. File a planned program of study in consultation with a faculty adviser and have it approved by the dean's representative in the Education Student Services Office.

3. Complete all coursework listed on the approved program of study.
4. Maintain an acceptable graduate GPA with no grades below B- (3.0) in 300- or 400-level courses, no grades below C (2.0) in any 5500-level course, at least 80 percent of the degree program completed with grades of A or B, and a 3.0 average maintained in all graduate coursework, regardless of whether the courses are on the actual degree program.
5. Apply for the degree (graduation) by the posted deadline during the final term of enrollment.
6. Enroll in at least one credit hour during the term they intend to graduate.

Master of Arts: Curriculum and Instruction

The master of arts in Curriculum and Instruction is a degree sought by teachers and others who wish to enhance their knowledge base for application in the classroom and to increase Prek-12 student learning. There are seven emphasis areas from which to choose:

- General
- Early Childhood
- Elementary
- Subject Matter (Art, English, Math, Science, Social Studies)
- Multicultural Education
- Teaching English to Speakers of Other Languages
- Learning Technologies

Requirements for Admission

Students admitted to School of Education graduate programs are governed by School of Education requirements and those of the School of Graduate Studies. Students seeking advanced degrees also should consult the School of Graduate Studies section for regulations applicable to all graduate students.

Students with a baccalaureate degree and teacher's certification from a school of education may apply for all graduate programs or may enter with a baccalaureate degree (including a departmental major in a liberal arts program). Work toward a master of arts degree can begin during any semester.

Criteria for admission include an appropriate GPA and an overall record of achievement. A baccalaureate degree with a 3.0 GPA or above (on a 4.00 scale), or a master's degree or other post-baccalaureate degree from an institution accredited by a regional accrediting agency is required for regular admission to the School of Education at the graduate level. Applicants who do not possess a post-baccalaureate degree and whose undergraduate GPA is between 2.50 and 2.99 are eligible for conditional admission and are required to complete the requirements described below. Applicants who do not meet the necessary admissions requirements may appeal to the Division Chair.

Conditional applicants must meet with a faculty adviser and are required to take four courses prescribed by the division for the degree in which the student intends to pursue. Applicants must achieve a grade of B or better in each of the courses (a course may be repeated only once). Two of these courses must be at the 5500 level.

Students who successfully complete the conditional period are eligible for regular admission to the School of Education at the master's level. Only when conditional students are reclassified as degree-seeking may they file a program of study.

Students who do not successfully complete the conditional period will be permanently reclassified to post-bachelor status and will be allowed enrollment for undergraduate credit only. Post-bachelor students may not enroll in classes numbered 5500 or above.

Degree Requirements

There is an 18-credit-hour core to all programs. This core includes coursework in the humanistic, behavioral, research, assessment and multicultural and urban focus foundation areas. In addition to these core courses, students complete 18 additional hours in their emphasis area.

Core Courses

Humanistic Studies (one course required)Hours
 EDUC-UL 5525 Cultural Foundations of Education 3

EDUC-UL 5526	Philosophical Foundations of Education	3
EDUC-UL 5527	Historical Foundations of Education	3
Behavioral Studies (one course required)		
EDUC-R&P 5502	Advanced Educational Psychology	3
EDUC-R&P 5510	Child Behavior and Development	3
EDUC-R&P 5512	Adolescent Development & the School	3
EDUC-R&P 5513	Human Development Across the Lifespan	3
Research (one course required)		
EDUC-R&P 5505	Statistical Methods I	3
EDUC-R&P 5508	Principles and Methods of Research	3
EDUC-C&I 5544	Quantitative Research in English as a Second Language	3
Assessment (one course required)		
EDUC-C&I 5554	Assessment in Science Education	3
EDUC-C&I 5596	Classroom Assessment	3
EDUC-SP 5508	Evaluation of Abilities and Achievement in Special Education	3
TCH-ED 442	Classroom Observation, Assessment, & Screening in Early Childhood Classrooms	3
EDUC-R&P 5522	Principles and Methods of Testing	3
Multicultural and Urban Focus (one course required)		
EDUC-C&I 5560	Teaching & Learning in an Urban Classroom	3
EDUC-C&I 5561	Teaching Diverse Populations in Today's Classrooms	3
EDUC-C&I 5562	Multicultural Perspectives in Education	3
EDUC-C&I 5563	Teaching for Equity and Social Justice	3
Culminating Experience (one course required)		
EDUC-C&I 5575	Internship	3
EDUC-C&I 5595	Action Research	3

General Emphasis

Total Hours Required
36

The general option is the most flexible and allows students to create a program to meet their desire to become an accomplished teacher. This degree may be pursued concurrently with teacher certification. Additional coursework is required for certification. In addition to the core courses, students take coursework related to their educational role and supporting coursework in curriculum and instruction.

Courses Related to the Student's Educational Role

Twelve credit hours of approved coursework may be taken in any college or school of the University. They should form a coherent body of work related to the student's educational goals.

Supporting Courses

Six credit hours of coursework offered by the Division of Curriculum and Instructional Leadership are required.

Early Childhood Emphasis

Total Hours Required 36

The following courses are required in addition to the core courses listed.

The early childhood emphasis is for those who hold elementary or early childhood teacher certification, or for those who are interested in the field of early care. The master's degree alone does not lead to certification in early childhood. Additional courses are required to obtain certification to teach early childhood education.

Early Childhood Courses Hours

(Fifteen hours, including one practicum course, are required)

TCH-ED 440	Introduction to Early Childhood Education	3
TCH-ED 442	Observation, Assessment and Screening	3
TCH-ED 450	Integrating Early Childhood Curriculum	4
TCH-ED 451	Child Guidance in the Classroom	3
TCH-ED 452	Family & Program Relations	4
TCH-ED 453	Learning from Parents	2
TCH-ED 454	Human Relations	3
EDUC-C&I 5576	Administration of Early Childhood Education Programs	3
EDUC-C&I 5578	Play and the Early Childhood Environment	3
EDUC-C&I 5579	Theory and Issues in Early Childhood	3
EDUC-C&I 5580	Curriculum for Early Childhood	3
EDUC-C&I 5581	Infant/Toddler Programs: Theory, Research, and Practice	3
EDUC-C&I 5582	Program Models for Early Childhood Education	3
EDUC-C&I 5583	Supervision in Early Childhood Education	3

Culminating Experience (two three-hour courses)
An approved special project, internship or thesis is required to integrate academic work.

EDUC-C&I 5575	Internship in Early Childhood Education	3
EDUC-C&I 5584	Individual Studies in Early Childhood Education or Action Research	3
EDUC 5599	Research and Thesis	3

Elementary Emphasis

Total Hours Required 36

The following courses are required in addition to the core courses listed.

This emphasis is for elementary teachers or those teachers who are interested in gaining perspective on elementary strategies. It does not lead to elementary certification.

Curriculum in Basic Content (four courses required)	Hours
EDUC-C&I 5504 Social Studies Curriculum	
EDUC-C&I 5522 Language Arts in the -or- Elementary School	3
EDUC-C&I 5523 Advanced Literature for Children	3
EDUC-C&I 5531 Diagnosis and Remediation of Math Learning Problems	3
EDUC-C&I 5553 Curriculum and Instruction in Science	3
EDUC-C&I 5539 Mathematics Curriculum Development	3
Multicultural and Urban Focus (one course required)	
EDUC-C&I 5560 Teaching & Learning in an Urban Classroom	3
EDUC-C&I 5561 Teaching Diverse Populations in Today's Classrooms	3
EDUC-C&I 5562 Multicultural Perspectives in Education	3
EDUC-C&I 5563 Teaching for Equity and Social Justice	3
Culminating Experience	
EDUC-C&I 5516 Philosophical and Family Issues in Special Education	3

Subject Matter (Art, English, Math, Science, Social Studies) Emphasis

Total Hours Required 36

The following courses are required in addition to the core courses listed.

Curriculum in the Designated Subject Matter Area (one course required)	Hours
EDUC-C&I 5504 Social Studies Curriculum	3
EDUC-C&I 5520 English Curriculum in the Middle and High School	3
EDUC-C&I 5522 Language Arts in the Elementary School	3
EDUC-C&I 5539 Mathematics Curriculum Development	3
EDUC-C&I 5551 Science Curriculum in the Middle and High School	3
EDUC-C&I 5566 Specialized Secondary Curriculum in Social Studies	3

Subject Matter Concentration

Nine hours of coursework related to the student's teaching area are required. The courses would typically be taken in a

department of the College of Arts and Sciences, the School of Biological Sciences or be subject-related courses in the School of Education.

Secondary Art

EDUC-C&I 5513	Effective Communication in the Classroom	3
EDUC-C&I 5515	Integrated Arts as a Model for Classroom Instruction	3
EDUC-C&I 5523	Advanced Literature for Children	3
EDUC-SP 5516	Philosophical and Family Issues in Special Education	3
	Coursework in graduate art history	3
	Coursework in graduate studio art	3

Secondary English

EDUC 414	English Language Study	3
EDUC 440	Literature for Adolescents	3
EDUC-C&I 5520	Specialized Secondary School Curriculum in English	3
	Coursework related to your area of specialization, typically English courses	6
	Elective coursework in Curriculum and Instructional Leadership (EDCI)	3

Secondary Mathematics

EDUC-C&I 5511	Developing Multidisciplinary Problem Solving Skills	3
EDUC-C&I 5536	Specialized Secondary School Curriculum Mathematics	3
EDUC-C&I 5539	Mathematics Curriculum Development	3
	Coursework related to your area of specialization, typically math courses	6
	Elective coursework in Curriculum and Instructional Leadership (EDCI)	3

Secondary Natural Science

EDUC-C&I 5551	Science Curriculum in the Middle and High School	3
EDUC-C&I 5553	Curriculum and Instruction in Science	3
	Coursework related to your area of specialization, typically science courses	9
	Elective coursework in Curriculum and Instructional Leadership (EDCI)	3

Secondary Social Studies

EDUC-C&I 5566	Social Studies Curriculum in the Middle and High School	3
EDUC-C&I 5506	Curriculum Design	3
-or-		
EDUC-C&I 5591	Curriculum and Instruction for the 21st Century	3
	Coursework related to your area of specialization, typically history courses	9
	Coursework with Multicultural & Urban Focus	3

Multicultural Education Emphasis

Total Hours Required 36

This emphasis is for teachers or practitioners who are interested in developing competency for multicultural teaching. Students will have the option of selecting a focus area in Cultural Diversity, Urban Teaching and Working with Limited English Proficient Learners. The program does not lead to teacher certification.

The following courses are required in addition to the core courses listed:

Curriculum in Multicultural Education	Hours
EDUC-C&I 5508 Motivating Students through Culturally Responsive Pedagogy	3
EDUC-C&I 5548 English as a Second Language in Content Areas	3
EDUC-C&I 5560 Teaching and Learning in Urban Schools	3
EDUC-C&I 5561 Teaching Diverse Populations in Today's Classrooms	3
EDUC-C&I 5562 Multicultural Perspectives in Education	3
EDUC-C&I 5563 Teaching for Equity and Social Justice	3

Emphasis in Teaching English as a Second Language

Total Hours Required 36

This program leads to an endorsement to teach English to speakers of other languages in schools for those who already possess a teaching certificate for elementary or secondary education. Others may take the degree program for personal enrichment and for use outside of public education.

The following courses are required in addition to the core courses listed:

Teaching English as a Second Language	Hours
EDUC-C&I 5545 Linguistics for ESOL Teachers	3
-or-	
ENGLISH 470 Introduction to Descriptive Linguistics	3
EDUC-C&I 5546 Intercultural communication	3
EDUC-C&I 5547 Second Language Acquisition	3
EDUC-C&I 5548 English as a Second Language in Content Areas	3
EDUC-C&I 5549 Practicum in English as a Second Language	3
FRN-LNG 494 Methods of Teaching a Foreign Language	3

An elective course related to teaching English to speakers of other languages. Courses must be approved by a faculty adviser.

Learning Technologies Emphasis

This program of study is designed to develop educators capable of implementing new technologies effectively in a variety of learning environments.

Total Hours Required 36

The following courses are required in addition to the core courses listed:

Curriculum in Technology	Hours
EDUC-C&I 5549 Practicum: Design of Technology Project	3
EDUC-C&I 5570 Curriculum and Instruction in Technology	3
EDUC-C&I 5571 Cognition and Technology	3
EDUC-C&I 5572 Assessing the Role of Technology in Education	3
EDUC-C&I 5573 Development of Learning Technologies Programs	3
EDUC-C&I 5589 Culminating Event: Thesis	3
EDUC-C&I 5595 Action Research	3

Master of Arts: Reading Education

The Division of Curriculum and Instructional Leadership offers a program of study leading to the Master of Arts Degree in Reading Education. A reading teacher certification program is also available to those who hold a prior teaching certificate for public schools and have a minimum of two years teaching experience.

Objectives for the master of arts vary according to candidates' career objectives. In general, candidates should expect:

1. To develop competencies in:
 - o Reading instruction for elementary and/or secondary, college and adult students.
 - o Individual assessment and instructional intervention strategies for diverse learners and struggling readers.
 - o Knowledge of the strategies and techniques used in reading research, and experience in reading and reporting such research.
2. To meet requirements for certification as a Special Reading Teacher grades K-12. (Initial teaching certification at the elementary, middle or secondary level required.)
3. To meet all professional standards specified by the Professional Standards and Ethics Committee of the International Reading Association.

The 36-credit-hour program of study consists of the reading requirements, humanistic and behavioral studies requirements, and electives.

Reading Requirements for the Major Area

Note: Reading courses are being revised and renumbered. The new designation EDRD will be in place beginning Spring 2010.

A minimum of 21 credit hours of reading coursework is required and must include:

- EDUC 434 Classroom Diagnosis and Correction of Reading Problems (*Will be EDRD 5502 Early Literacy and Language Development after Fall 2009*)
- EDUC 439 Content Area Reading and Language Development (*Will be EDRD 439 after Fall 2009*)
- EDUC 5501 Teaching of Reading (*Will be EDRD 5501 after Fall 2009*)
- EDUC 5534 Reading Assessment and Evaluation (*Will be EDRD 5511 Reading Assessment and Evaluation after Fall 2009*)
- EDUC 5542 Introduction to Diagnostic and Treatment Procedures in Reading (*Will be EDRD 5510 Classroom Based Literacy Assessment and Intervention after Fall 2009*)
- EDUC 5575R Internship in Reading (*Will be EDRD 5520 Practicum in Reading after Fall 2009*)
- EDUC 5590R Seminar in Reading (*Will be EDRD 5515 Seminar in Reading after Fall 2009*)

Humanistic Studies

A minimum of 3 hours must include one of the following courses:

- EDUL 5525 Cultural Foundations of Education
- EDUL 5526 Philosophical Foundations of Education
- EDUL 5527 Historical Foundations of Education

Behavioral Studies

A minimum of 3 hours must include one of the following courses:

- EDRP 5502 Advanced Educational Psychology
- EDRP 5510 Child Behavior and Development
- EDRP 5512 Adolescent Development
- EDRP 5513 Life Span Human Development

Multicultural and Urban Focus

A minimum of 3 hours must include one of the following courses:

- EDCI 5560 Teaching & Learning in an Urban Classroom
- EDCI 5561 Teaching Diverse Populations in Today's Classrooms
- EDCI 5562 Teaching for Equity and Social Justice
- EDCI 5563 Multicultural Perspectives in Education
- EDSP 5516 Philosophical and Family Issues in Special Education

Electives

Six credit hours of coursework related to the major area of reading/literacy are needed to satisfy this requirement. This coursework must be approved by the student's faculty adviser. Reading electives include the following:

- EDRD 5530 Reading Instruction for K-12 English Language Learners
- EDRD 5531 Teaching Reading Improvement: Secondary, College Adult Level
- EDRD 5601 Organizing and Guiding the Reading Program
- EDRD 5650 Dyslexia and Related Learning Disorders

Final Examination

Students must pass a written examination covering their reading coursework.

Master of Arts: Special Education

The master of arts in special education is a degree sought by teachers and others who wish to enhance their knowledge and skills in working with children and adolescents with exceptional learning needs. The Division of Curriculum and Instructional Leadership offers a program of study leading to the degree of master of arts in special education. The focus of the master's degree is in **Mild-Moderate/Cross-Categorical (MM/CC) Disabilities**. The program prepares educators to teach students, to serve as advocates for children and their families, and to work collaboratively with colleagues in K-12 educational settings, including public and charter schools, private schools, residential centers and hospital programs.

Admission Requirements

Candidates entering the master's program with emphasis in MM/CC disabilities must hold a baccalaureate degree and have an overall 2.75 GPA or higher on a 4.0 scale. Official admission to the University of Missouri-Kansas City graduate school is required. All candidates must pass the School of Education Proficiency Examinations in Computer Literacy and Writing Literacy.

Candidates who do not hold initial teaching certification in elementary or secondary education must pass the College Basic Academic Subjects Examination (CBASE), with a score of 235 or greater, prior to filing an official program of study. Informational packets for the CBASE can be obtained from Student Services in the School of Education.

Program Requirements

Program requirements vary depending on the combination of degree and certification desired. Three program options ranging from 36-66 hours provide opportunities for candidates to earn a master's degree with or without special education teaching certification.

- Program Option 1: Initial Certification plus Master's Degree - 66 hours
- Program Option 2: Master's Degree with Special Education Endorsement for Those with Previous Certification - 36-51 hours
- Program Option 3: Master's Degree Only - 36 hours

For specific degree requirements, contact the Division of Curriculum and Instructional Leadership at (816) 235-**2245** or e-mail education@umkc.edu.

Certification

Courses required for certification in Missouri and Kansas are typically completed as part of the MM/CC program. Arrangements can be made for obtaining temporary certification in MM/CC in Missouri only; however, employment in the field is required. Because the requirements for certification vary from state to state, it is important to plan a course of study carefully with a special education faculty adviser during the first semester of coursework at UMKC.

General Information on Educational Specialist Degrees

The goal of the educational specialist degree is to develop personnel who are highly competent practitioners/specialists in specific fields of education. The program of study will place emphasis on the extension of the students' abilities to apply theory, methodology and techniques to practical problems related to the individual's field. The breadth of studies will be consistent with the guidelines suggested by the appropriate professional organization. Graduates are expected to be competent translators of practices and research.

The educational specialist degree can be earned in counseling and guidance, educational administration, reading education, or curriculum and instruction.

Requirements for Admission

Students are eligible for consideration for admission to the Ed.S. degree program in the School of Education when they have met at least one of the following requirements:

- Students must be eligible for regular admission to the School of Education at the graduate level (undergraduate GPA must be at least 3.0 on a 4.0 scale); if applicants have earned graduate credit, their graduate GPA must be at least 3.0.
- The completion of a master's degree from an accredited institution of higher education and a cumulative graduate GPA

of at least 3.0.

Applicants who have met one of the above requirements for admission to the School of Education at the Ed.S. level must also meet the divisional admission requirements for the specific degree program (educational administration, counseling and guidance, curriculum and instruction, or reading education). Consult the section of the catalog outlining the requirements of the divisions.

All educational specialist degree-seeking students are governed both by School of Education requirements and those of the School of Graduate Studies.

Program Requirements

A minimum of 60 hours of approved graduate work beyond the bachelor's degree is required for the educational specialist degree, with at least 60 percent of the courses numbered 5500 and above. Any courses on the 300 and 400 level included in the Ed.S. program of study must be accepted by the adviser and taken for graduate credit.

As soon as possible after admission to graduate study, students should seek to meet with a faculty member in the major to plan a program of study. This program must be filed in the Education Student Services Office and approved by the dean's representative when students still have at least 18 hours of coursework beyond the master's degree to complete. A majority of new coursework applied to any graduate degree to be completed at UMKC must be taken at UMKC. Transfer credit not included in a master's degree must not be more than 7 years old *at the time of degree completion or graduation*.

Transfer credit may be allowed for correspondence courses, provided the credits meet the criteria for graduate coursework. A maximum of 6 credit hours of continuing education credit (workshops, special topics) taken for graduate credit may be included on an Ed.S. program.

The number of hours of workshop credit, either 498- or 470-series courses, that can be used on an Ed.S. degree program will be limited to 9 hours.

UMKC credit more than seven years old at the time of degree completion that has not been included on a master's degree is not applicable to an Ed.S. degree unless validated to the satisfaction of the School of Education and the School of Graduate Studies. A maximum of 30 percent of coursework on the student's program of study may be validated under this procedure. All validation must be completed by the end of the final semester of enrollment.

The coursework is divided into the following study areas:

Specialization (21-42 hours)

The specialization is defined as a body of coursework associated with the area of concentration or major. Such courses might deal with the theory, research and methodology of the field.

Supporting Area(s) (9-15 hours each)

In addition to specific courses in a field of study, there are those courses which expand the competence of the specialist. These supporting areas might include study in one or two related areas, or study might be an intensive development of specific skills within the field.

Culminating Experience (3-12 hours)

All students should be able to demonstrate an ability to perform satisfactorily in situations approximating the intended role or specialization. While such experience may be included in regular coursework, at least 3 hours of supervised practicum, internship or field experience should be accomplished where the practice is the focus of the course.

Humanistic and Behavioral Studies (6-12 hours)

The success of a specialist may also depend on a broader understanding and interpretation of the concepts related to the problems and practices of the field, as revealed by study in humanistic and behavioral sciences. Courses or seminars in educational history, philosophy, psychology or sociology, or other appropriate courses, might be included in this area.

Residency

Enrollment as a full-time graduate student during one semester (5 credit hours during summer sessions, 9 credit hours during fall and spring semesters) is required for the educational specialist degree.

Final Examination

Students are required to pass a final examination in the major field or an oral examination upon the completion of the practicum or internship for the educational specialist degree.

Requirements for Retention

Students should assume responsibility for the following steps:

1. Complete all admission requirements.
2. With the faculty adviser, establish a program of study and have it approved by the dean's representative.
3. Complete all courses listed on the program of study.
4. Maintain an acceptable GPA (Grades below B- in 300- or 400-level courses taken for graduate credit will not be accepted on the program of study. No grade lower than a C in any 5500-level course is acceptable. A minimum of 80 percent of the program must be completed with grades of A or B. Additionally, students must maintain a 3.0 (B) average in all graduate coursework, regardless of whether the courses are on the actual program of study.
5. Apply for the degree (graduation) by the posted deadline during their final term of enrollment. Students are required to be enrolled in at least one credit hour during the term the degree requirements are to be completed.

General Information on Doctoral Degrees

The School of Education offers a Ph.D. degree program in Counseling Psychology that is accredited by the American Psychological Association since 1985. The School also participates, through the School of Graduate Studies, in the Interdisciplinary Ph.D. program. Two disciplines, education and urban leadership and policy studies in education are offered through the School of Education. Students may select one or both of those disciplines in addition to disciplines offered through other academic units across campus.

All but a select few Ph.D. programs at UMKC are interdisciplinary. Students desiring to study at the doctoral level in education and/or urban leadership and policy studies in education (which includes the foundation areas of educational theory and educational administration) must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific admission requirements may be found in the School of Graduate Studies section of the catalog.

Educational Administration, Ed.D.

The Doctorate of Education Degree (Ed.D.) in Educational Administration has been designed to meet the needs of aspiring administrators in urban and metropolitan school districts and colleges/universities. There are two focus areas within the Ed.D. program: P-12 school administration and higher education administration.

Coordinators:

Loyce Caruthers , (816) 235-1044, caruthersl@umkc.edu (P-12)

Bonita Butner , (816) 235-2325, butnerb@umkc.edu (Higher Ed)

Criteria for Admission to P-12 focus:

1. Completed UMKC application and ULAPSIE supplemental application.
2. Official transcripts from each college attended.
3. Educational Specialist degree or equivalent from an accredited institution with G.P.A. of at least 3.65 in Educational Administration.

4. Graduate Record Examination: quantitative, verbal and analytical writing.
5. Four professional or academic letters of reference.
6. An autobiographical statement that includes your professional goals and how the doctoral degree will help you in achieving these goals, and a description of some of your leadership accomplishments.
7. A writing sample, which gives evidence of your writing ability. The sample may be a previous course paper, a chapter from thesis, a published article, etc. Send copies for documents will not be returned.
8. Successful completion of three hours or equivalent of Statistical Methods 1 (EDRP 5505) **-and-** three hours or equivalent of Principles and Methods of Research (EDRP 5508) with a grade of B or higher.

Curriculum

The Doctorate of Education program will consist of 33 hours of inter-disciplinary course work and a 9 hour Applied Research Dissertation Project. The Doctoral Applied Research Study will include the identification of a study to be conducted that is grounded in educational policy in the public arena. A theoretical construct for the study will be developed including a research design, a review of the literature, and a presentation of the findings of the study in a public setting as well as to the doctoral committee. It is expected that students will complete this program during a four year period of time.

Doctor of Education: Focus in Higher Education Administration

The doctoral program with a focus in Higher Education Administration is designed to prepare administrative leaders for positions in community colleges and four-year colleges and universities. The program may also be appropriate for individuals working in government agencies and business and industry. Therefore, students may come to the program from a variety of fields, backgrounds, and types of higher education institutions.

Criteria for Admission to Higher Education Focus:

Admission to the Higher Education doctoral program is a separate procedure from admission to the Graduate School and is based on successful acceptance into the University of Missouri-Kansas City graduate School and the Higher Education program. This requires submission of the following:

1. Completed UMKC application and Higher Education supplemental application.
2. Official transcripts from each college attended.
3. Graduate Record Exam: quantitative, verbal and writing portion
4. A letter of intent including a brief statement of the reason for pursuing a doctoral degree in Higher Education and a brief discussion about the match between the applicant's needs and the program offering.
5. A vita or resume providing a summary of leadership activities, work experiences, and scholarly activity.
6. Three letters of recommendation (on forms provided in application packet) are required. One letter may be from a personal reference; two letters must be professional references.
7. An interview will be scheduled with at least two faculty members as the final step in the admission process. Interview topics will be wide-ranging, including personal goals and objectives, current issues in education, and successful college experiences. The interview is designed to acquire information concerning the applicant's oral skills and critical thinking skills. The applicant will also have the opportunity to garner additional information about the program.

Curriculum

The program consists of 90 semester hours beyond the baccalaureate degree inclusive of the dissertation. The Ed.D. is an applied degree designed for the advanced student who wishes to achieve a superior level of competency in his/her professional field with emphasis on practice and leadership in an urban setting. The degree requires students to demonstrate proficiency in independent research in higher education and make original contributions to the body of knowledge related to higher education. The program is structured on a cohort model with admission every three years. Admitted students must agree to take courses as prescribed in order to complete all courses in a three year.

Counseling Psychology, Ph.D.

The Ph.D. degree in counseling psychology has been fully accredited by the American Psychological Association since 1985. The counseling psychology program emphasizes multicultural and individual diversity within a scientist-practitioner model. Consistent with the University's urban/metropolitan mission, this diverse faculty is committed to educating future counseling psychologists to improve the welfare of individuals and communities through scholarship and applied interventions.

Student Learning Outcomes

The program faculty encourages students to develop primary identification with the core values of counseling psychology. These values emphasize:

- Assets, strengths and positive mental health
- Respect for cultural and individual diversity
- Scientific foundation for all activities
- Developmental models of human growth
- Relatively brief counseling interventions
- Person-environment interaction
- Education
- Career/vocational development

Counseling psychologists recognize the value of human diversity. The program emphasizes faculty and student competence in dealing with the broad range of diversity in both practice and science settings. Our commitment to cultural and individual diversity is reflected in:

- Faculty composition
- Student recruitment
- Scholarship
- Course content and offerings
- Practicum opportunities
- Community service and consultation

Education in counseling psychology follows a developmental model in which science-practice integration is emphasized throughout the program. Early and progressive training is provided in research, culminating in professionals who can design, conduct and evaluate research relevant for counseling psychologists. Similarly, early and progressive training in practice activity is emphasized.

Program graduates will apply the values of counseling psychology to their work in a variety of employment settings, and as scientist-practitioners, their practice is informed by research and approached with a scientific attitude.

Counseling psychologists abide by the American Psychological Association Ethical Principles and Codes of Conduct. Students will understand the ethical, legal and professional issues related to the science and practice of counseling psychology.

More information about the program can be found at <http://education.umkc.edu/CEP/>.

Admission Criteria

The program is designed for bachelor's-level and master's-level applicants. A prerequisite background of core courses is required prior to acceptance into the program. These courses include undergraduate or graduate level: general psychology, theories of personality, tests and measurement, abnormal psychology, experimental psychology and introductory statistics. Students who have two or fewer deficiencies may be admitted. Such students must complete these deficiencies within one year of beginning study.

Recommended minimum for bachelor's level applicants:

- The completion of a bachelor's degree with a major in psychology.
- GRE combined verbal and quantitative scores of 1,000, plus the writing score of 4.5 or above, obtained within the last five years.

- An overall undergraduate 3.0 GPA covering all college work taken prior to the bachelor's degree.

Recommended minimum for master's level applicants:

- The completion of a master's degree or equivalent in counseling or a closely related area.
- GRE combined verbal and quantitative scores of 1,000, plus the writing score of 4.5 or above, obtained within the last five years.
- An overall undergraduate 3.0 GPA or graduate 3.5 GPA with an undergraduate 2.75 GPA.

Individual applicants will be evaluated using the following dimensions: academic potential, interpersonal skills, contribution to program diversity, research potential and professional identity and involvement. Candidates are also evaluated on the basis of the fit between their research interests and those of program faculty.

Alternative Criteria: students who do not meet the regular recommended criteria may be admitted under alternative criteria provided there is good reason to believe that the regular criteria do not adequately manifest the student's potential to do quality work in the program.

Admission Procedures:

Using the above criteria, the applicant screening committee will typically select up to 30 applicants to be offered interviews. Personal interviews may be requested, but are not required. From those interviewed, selected applicants will be offered admission. In addition, the committee selects a list of those who were interviewed to serve as alternates. Candidates offered admissions will be required to respond to the invitation by April 15 or within 15 days after notification.

Admission Requirements

Application packets for the Counseling Psychology Program can be obtained from the program's Web site: <http://education.umkc.edu/CEP/phd/index.asp> If needed, you may contact the UMKC Office of Admissions either by phone (816) 235-**1111**, or by e-mail admit@umkc.edu. You may also contact the Counseling Psychology Program at (816) 235-**2722**.

Applications are accepted only for the fall semester and must be completed and received by January 1. Application materials must be submitted to two separate offices on campus: A. The UMKC Admissions Office, **-and-** B. The Counseling Psychology Admissions Committee.

A. Materials to be sent to the UMKC Admissions Office:

1. UMKC application for admission (May be completed electronically at <http://www.umkc.edu/admissions>.)
2. Application fee (May be completed electronically at <http://www.umkc.edu/admissions>.)
3. Official transcripts from all post-secondary institutions.
4. Official Graduate Record Examination (GRE) scores, including the GRE writing scores, sent directly from ETS.

Please submit the UMKC Admissions Office materials to:

UMKC Office of Admissions
University of Missouri-Kansas City
120 Administrative Center
5100 Rockhill Road
Kansas City, MO 64110-2499

B. Materials to be sent to Counseling Psychology:

1. Cover sheet for the Ph.D. in Counseling Psychology;
2. Photocopy of the UMKC Application for Admission. **Please be aware that if you submit your UMKC Application for Admission on line, you must print it out before you submit it or it will be lost. If you didn't print the Application out before it was submitted, please either print what you can or print out a copy of the application and fill it out by hand.*
3. Personal statement. Submit a concise (two to three pages) statement concerning some or all of the following:
 - Your self reflection/perception
 - Your Professional goals and interests

- Your research knowledge, experience, and interest
 - Your views on multiculturalism and diversity
4. Curriculum vitae including the following information:
 - Personal information (address, phone, e-mail)
 - Educational background
 - Relevant clinical and research experience
 - Recent volunteer work
 - Honors or awards
 - Membership/leadership in professional organizations
 - Presentations and publications
 1. Three letters of recommendation from raters who know you professionally or in academic settings. (They can not be friends or relatives.)
 - Raters should address your suitability for professional studies in a mental health service profession.
 - Raters should have knowledge of your interpersonal and intellectual functioning and skills in research, counseling and written and oral communication.
 - Raters should enclose their letters of recommendation along with the provided rating sheet in an envelope and sign their names across the back of the envelope.
 - Letters in sealed envelopes should be collected by the applicant and submitted with all other application materials.
 4. Photocopy of transcripts.
 5. Photocopy of GRE scores.

*Admission to graduate studies does not guarantee admission to the Doctor of Philosophy degree program in Counseling Psychology.

Interdisciplinary, Ph.D.

Refer to the School of Graduate Studies <http://sgs.umkc.edu/> for more information.

Master of Arts: Counseling and Guidance

The Counseling and Guidance Program has as its primary purpose the preparation of professional counselors. The master's degree is the first professional degree in counseling. Graduates holding this degree will gain the basic understanding and skills necessary for professional practice as a counselor.

The program currently offers four emphasis areas leading to the M.A. degree: Elementary and Secondary School Counseling, Couples and Family Counseling, Mental Health Counseling and Gerontological Counseling. **Students are not currently being admitted in the General or Substance Abuse Counseling Emphases areas.**

Those electing the school counseling emphasis will, upon successful completion of the coursework and passing of the Praxis Exam for counseling, be eligible for school counselor certification in Missouri. The other counseling emphases are designed for students who wish to work in a variety of settings other than the public schools. Those earning degrees in counseling become employed in community colleges, four-year colleges, specialized areas in large universities (e.g. career planning and placement), the court system and community-based mental health services. Many students go on for advanced degrees. Students in this program will take all of the coursework needed to be eligible for licensure as a professional counselor in the state of Missouri. Students may also arrange their internship setting placements similar to

those in which they plan to work.

Student Learning Outcomes

The goal of the master's program in Counseling and Guidance is to develop competent counseling practitioners who are eligible for licensure or certification in Missouri and Kansas.

Graduates demonstrate skills and knowledge in the following areas:

- Theories of counseling
- The counseling relationship
- Human growth and development
- Social and cultural foundations of counseling
- Career development
- Assessment
- Research methods
- Counseling skills
- Professional identity
- Ethical standards and issues
- Psychopathology and Diagnosis
- Program development and management (school counseling emphasis)

Admissions

Courses for the master's program in Counseling and Guidance are primarily offered at the Volker campus. Select school counseling courses are offered at the UMKC Northland campus; however, not all courses will be made available at that site. Applications for the program are accepted twice a year: by Sept. 1 to be admitted for the spring semester or by March 1 to be admitted for the fall semester. Application materials must be sent to both the UMKC Office of Admissions and the Division of Counseling and Educational Psychology. It is suggested that students apply to the University as soon as possible to allow for processing time. Materials sent to the UMKC Admissions Office should be **received** by the application deadlines; materials sent to the Division of Counseling and Educational Psychology can be **postmarked** by the application deadlines.

Admission Criteria:

- Overall undergraduate 2.75 GPA or better, or 3.0 or better (4.0 scale) in the last 60 semester hours.
- Graduate Record Exam (GRE) score of 900 (Verbal + Quantitative) or a GRE Verbal score of 450 or better, and a minimum Analytic writing score of 4.0.
- Three letters of reference (use rating forms in application packet). In addition to the provided rating form, references should include a statement of applicant's strengths and areas of further development either in a separate letter or on the back of the rating form.
- Statement defining academic and professional goals.
- MA Counseling and Guidance Application.

Applying to the Program

Students who wish to apply to the program will have to submit two separate applications, one to the University (see A. below) and one to the Division of Counseling and Educational Psychology (see B. below).

A. Send to the UMKC Admission office:

1. Application for Admissions (available on-line at www.umkc.edu/admissions).
2. \$35 (domestic) or \$50 (international) non-refundable application fee.
3. Official transcripts from all colleges/universities previously attended (in sealed envelope or sent directly from universities).
4. Graduate Record Exam (GRE) (official copy).

Mailing Address

University of Missouri-Kansas City
Office of Admissions
120 Administrative Center

5100 Rockhill Road
Kansas City, MO 64110-2499

B. Send to the Counseling and Guidance office:

1. M.A. Counseling and Guidance Application <http://education.umkc.edu/CEP/masters/admission.asp> (detailed instructions available on the application).
2. Graduate Record Exam (official or issued to student).
3. Three letters of reference (use rating forms in the application packet).
4. Statement defining personal and professional goals.

(1) Many people with a teaching certificate already have this course. You may not need to retake it.

(2) Required for those who do not hold a current teaching certificate

Master of Arts: Educational Administration

General Nature of the Program

The master of arts degree in educational administration, accredited by the National Council for Certification of Teacher Education, is designed to provide entry-level preparation for students planning careers in school administration.

The course of study includes a sequence of basic and advanced studies and other applied learning experiences. Students have the opportunity to develop understanding and skills through seminar courses, individual study, and the practice of inquiry in addition to study in required courses. The program is designed to support a focus on professional effectiveness and to foster research, evaluation and assessment activities for students. Instruction and mentored practical experiences will make frequent use of and reference to evaluation and assessment of student performance.

Emphasis Area: School (Grades K-12) Administration

The master's program with emphasis in school administration is designed to prepare leaders for 21st century schools. These leaders must begin now to envision the nature of a global technical-information-based society and the schooling such a society will require. Assumptions based on available knowledge concerning these schools will be made in designing the M.A. program for students. Students will be expected to develop "Learning Organizational Culture" schools and demonstrate competency to develop:

1. Into a facilitator of relationships and outcomes that enhance the effective operation of the school.
2. Collaborative and participative planning and decision-making structures (teams).
3. Support networks from the community and in the school.
4. School organizations as cultures of renewal, risk, problem-solving, trust and caring.
5. School culture of reflective and critical thought concerning learning theory and practice.

On completion of the program, students will be equipped to envision and embrace an information-based, developmental society. Students begin their program of study with a cohort group of other potential school leaders and will take a series of 6-credit-hour block courses. Each cohort will work collaboratively throughout its studies and be led by University faculty and school leaders from throughout the greater Kansas City region.

Students will develop professional portfolios, including both individual and group projects, over the course of their degree program. While the three-block sequence is intended for school leaders at every level, it is expected that students will tailor their elective coursework and their culminating experience (practicum or internship) to the building level at which they hold their teaching credentials.

Students who complete the master of arts in educational administration may be recommended for initial certification as a building administrator (Kansas) or principal (Missouri). Students must complete the Educational Specialist to earn advanced principal certification in Missouri. Advanced certification is required to be a principal in an AAA-rated school district. Administrative assessment (the School Leaders Licensure Assessment) is required in Missouri.

Coordinator:

Gus Jacob , (816) 235-2454, jacoba@umkc.edu

Admissions

Admission and retention for the M.A. in educational administration, with an emphasis in school (K-12) administration, requires that the following steps be successfully completed:

Admission into Program

- Undergraduate at least 2.75 GPA.
- Valid professional teaching certificate.
- One year teaching experience.
- Essay statement regarding past, present and future career goals (500 words or less).
- At least three letters of recommendation.

Acceptance into Practicum

- Successful completion of all coursework (1) with a B grade or better.
- Recommendation of the faculty based on content portfolio examination relative to competencies completed that are consistent with MoStep, Educational Leadership Constituent Council (ELCC), School of Education and ULAPSIE Division standards and dispositions.

Program Completion and Recommendation for Administrative Certificate

- Recommendation of the faculty based on content portfolio examination relative to competencies completed that are consistent with MoStep, Educational Leadership Constituent Council (ELCC), School of Education and ULAPSIE Division standards and dispositions.
- Successful completion of the practicum, which includes the employment portfolio.
- Recommendation of the faculty based on coursework completion, development of an administrative platform and exit presentation.
- Completion of the student exit survey.

Post-Program Completion

- Student completion of ULAPSIE graduate survey relative to preparation program and ELCC standards.
- Employer survey completion (supervisor).
- Virtual coaching.
- Focus groups comprised of first-, second- and third-year administrators.

(1) No more than 6 post-undergraduate/graduate credit hours may transfer into the M.A. program.

(2) Students must file a **Program Plan of Study** while enrolled in the Block Course EDUC-UL 5501.

(3) The Block I Portfolio requirement aims to move students toward intellectual competence and understanding of School of Education and division academic standards (i.e., Educational Leadership Constituent Consortium (ELCC) national standards and MoSTEP state standards).

(4) EDUC-UL 5501 is the prerequisite to EDUC-UL 5502; and EDUC-UL 5502 is the prerequisite to EDUC-UL 5503. These courses are mandatory and *cannot* be waived. Students must enroll in these courses in sequence.

Degree Requirements

Theoretical and Functional Aspects of Educational Administration (27 hours)

Required core for all level principals:Hours

EDUC-UL 5501*	Foundations of School Leadership and Organization (Block I)	6
EDUC-UL 5502*	Building Administration & Management (Block II)	6
EDUC-UL 5503*	Student, Staff & Organization Development (Block III)	6
EDUC-UL 5507	School Supervision	3
EDUC-UL 5515	Governmental & Legal Aspects of Education	3
EDUC-UL 5574	Administrative Practicum	3

* EDUC-UL 5501, 5502 and 5503 must be taken sequentially.

EDUC-UL 5501 is offered in the fall and spring semesters only.

Related and Supporting Areas: Curriculum, Humanistic, Behavioral, Research (12 hours)

Curriculum (Required 3 hours)HoursSelect one course:

EDUC-C&I 5505	Introduction to Curriculum Theory	3
EDUC-C&I 5506	Curriculum Design	3
EDUC-C&I 5591	Curriculum & Instruction for the 21st Century	3

Humanistic (Required 3 hours)Select one course:

EDUC-UL 5524	Phil. Inquiry and Education	3
--------------	-----------------------------	---

EDUC-UL 5526	Phil. Foundations of Education	3
EDUC-UL 5527	Hist. Foundations of Education	3

Behavioral (Required 3 hours)Select one course:

EDUC-R&P 5502	Advanced Educational Psychology	3
EDUC-R&P 5510	Child Behavior and Development	3
EDUC-UL 5525	Cultural Foundations of Education	3
EDUC-UL 5528	Sociological Found. of Education	3
EDUC-R&P 5512*	Adolescent Devel. and the School (Meets Middle School cert. requirements)	3
EDUC-R&P 5604	Cognitive Processes in Learning & Instruction	3

Research (Required 3 hours)Select one course:

EDUC-R&P 5505	Statistical Methods I	3
EDUC-R&P 5508	Principles and Methods of Research (Required for Kansas Certification)	3
EDUC-R&P 5522	Principles of Testing	3

Principal Certification

Students seeking administrative certification must first offer proof of holding valid teaching certification at the same level (i.e., elementary or secondary), and have a minimum of two years teaching experience. The M.A. is offered with certification concentrations in elementary school administration or secondary school administration. Additional coursework is required for certification as a middle school administrator.

Those who complete the master of arts in educational administration may be recommended for initial certification as a building administrator (Kansas) or principal (Missouri). Students must complete the educational specialist degree to earn advanced principal certification in Missouri. In addition to completion of the academic program, Missouri requires all prospective administrators to successfully complete the School Leaders Licensure Assessment.

Emphasis Area: Higher Education

The graduate program in Educational Administration with an emphasis in Higher Education prepares administrators and educators for the demands of leadership in colleges or universities and other institutional settings. Through a comprehensive master's program for individuals wanting a graduate degree or through coursework taken for professional development, the program supports administrative leaders and educators who seek to enhance their professional competencies and effectiveness in today's increasingly diverse work place.

Student programs of study at the master's level are developed to reflect required core courses that provide all master's level students with fundamental understandings of higher education, student development, organizational leadership and diversity. In addition, the program offers a range of cognate courses that are tailored to meet specific student interests or learning goals in administrative leadership or student affairs administration. Advising materials and meetings with faculty enable students to create academic programs that meet their unique learning needs. Unless indicated, all courses are available to non-degree seeking students for professional development.

All master's level students will design a full-term internship in collaboration with an on-site supervisor and the instructor of the fieldwork course. The purpose of the internship is to provide students with guided opportunities to enhance skills, expand their professional experience base, and apply course learning in new settings.

Admissions

The Higher Education faculty review all admissions applications and make admission decisions. Admission for the M.A. in educational administration, with an emphasis in Higher Education, requires that the following steps be successfully completed:

Admission Requirements

1. **Full admission** to the Higher Education Program requires:
 - o Completion of the UMKC graduate admission application.
 - o An undergraduate 3.0 GPA or higher.
 - o GRE (Verbal/Quantitative/Essay) Scores.
 - o Two Letters of Reference.
 - o A written statement of purpose (500 words maximum) that outlines the student's rationale for application to the program and learning goals.
2. Students who do not meet the undergraduate grade-point average or who have not taken the GRE can receive conditional admission to the program. The GRE must be taken during the first semester of enrollment and students must complete a minimum of six hours of core requirements with a grade of "B" or better within the first two semesters of enrollment.
3. Application deadlines are as follows:
 - o Apr. 1 for summer term
 - o July 1 for fall term
 - o Nov. 1 for spring term

Required Core Courses (18 credit hours)Hours

EDUL 5550	Organization and Administration of Higher Education	3
EDUL 5556	The College Student	3
EDUL 5560	Leadership in Higher Education	3

EDRP 5505	Statistical Methods I	3

Note: The student may select courses from other disciplines to meet elective hours. All coursework must be approved by the advisor.

Master of Arts: Reading Education

The Division of Curriculum and Instructional Leadership offers a program of study leading to the Master of Arts Degree in Reading Education. A reading teacher certification program is also available to those who hold a prior teaching certificate for public schools and have a minimum of two years teaching experience.

Objectives for the master of arts vary according to candidates' career objectives. In general, candidates should expect:

1. To develop competencies in:
 - o Reading instruction for elementary and/or secondary, college and adult students.
 - o Individual diagnosis and treatment of sub-optimal to severely disabled readers.
 - o Knowledge of the strategies and techniques used in reading research, and experience in reading and reporting such research.
2. To meet requirements for certification as a Special Reading Teacher grades K-12. (Initial teaching certification at the elementary, middle or secondary level required.)
3. To meet all professional standards specified by the Professional Standards and Ethics Committee of the International Reading Association.

The 36-credit-hour program of study consists of the reading requirements, humanistic and behavioral studies requirements, and electives.

Reading Requirements for the Major Area

A minimum of 21 credit hours of reading coursework is required and must include:

- EDUC 434 Classroom Diagnosis and Correction of Reading Problems
- EDUC 439 Content Area Reading and Language (4-12)
- EDUC 5501 Teaching of Reading
- EDUC 5534 Reading Assessment and Evaluation
- EDUC 5542 Introduction to Diagnostic and Treatment Procedures in Reading
- EDUC 5575R Internship in Reading
- EDUC 5590R Seminar in Reading

Humanistic Studies

A minimum of 3 hours must include one of the following courses:

- EDUC-UL 5525 Cultural Foundations of Education
- EDUC-UL 5526 Philosophical Foundations of Education
- EDUC-UL 5527 Historical Foundations of Education

Behavioral Studies

A minimum of 3 hours must include one of the following courses:

- EDUC-R&P 5502 Advanced Educational Psychology
- EDUC-R&P 5510 Child Behavior and Development
- EDUC-R&P 5512 Adolescent Development
- EDUC-R&P 5513 Life Span Human Development

Multicultural and Urban Focus

A minimum of 3 hours must include one of the following courses:

- EDUC-C&I 5560 Teaching & Learning in an Urban Classroom
- EDUC-C&I 5561 Teaching Diverse Populations in Today's Classrooms
- EDUC-C&I 5562 Multicultural Perspectives in Education
- EDUC-C&I 5563 Teaching for Equity and Social Justice

Electives

Six credit hours of coursework related to the major area of reading/literacy are needed to satisfy this requirement. This coursework must be approved by the student's faculty adviser.

Final Examination

Students must pass a written examination covering their reading coursework.

Master of Arts: Special Education

The master of arts in special education is a degree sought by teachers and others who wish to enhance their knowledge and skills in working with children and adolescents with exceptional learning needs. The Division of Curriculum and Instructional Leadership offers a program of study leading to the degree of master of arts in special education. The focus of the master's degree is in **Mild-Moderate/Cross-Categorical (MM/CC) Disabilities**. The program prepares educators to teach students, to serve as advocates for children and their families, and to work collaboratively with colleagues in K-12 educational settings, including public and charter schools, private schools, residential centers and hospital programs.

Admission Requirements

Candidates entering the master's program with emphasis in MM/CC disabilities must hold a baccalaureate degree and have an overall 2.75 GPA or higher on a 4.0 scale. Official admission to the University of Missouri-Kansas City graduate school is required. All candidates must pass the School of Education Proficiency Examinations in Computer Literacy and Writing Literacy.

Candidates who do not hold initial teaching certification in elementary or secondary education must pass the College Basic Academic Subjects Examination (CBASE), with a score of 235 or greater, prior to filing an official program of study. Informational packets for the CBASE can be obtained from Student Services in the School of Education.

Program Requirements

Program requirements vary depending on the combination of degree and certification desired. Three program options ranging from 36-66 hours provide opportunities for candidates to earn a master's degree with or without special education teaching certification.

- Program Option 1: Initial Certification plus Master's Degree - 66 hours
- Program Option 2: Master's Degree with Special Education Endorsement for Those with Previous Certification - 36-51 hours
- Program Option 3: Master's Degree Only - 36 hours

For specific degree requirements, contact the Division of Curriculum and Instructional Leadership at (816) 235-**2241** or e-mail education@umkc.edu.

Certification

Courses required for certification in Missouri and Kansas are typically completed as part of the MM/CC program. Arrangements can be made for obtaining temporary certification in MM/CC in Missouri only; however, employment in the field is required. Because the requirements for certification vary from state to state, it is important to plan a course of study carefully with a special education faculty adviser during the first semester of coursework at UMKC.

Educational Specialist: Educational Administration

The educational specialist degree with **emphasis in school administration** (accredited by the National Council for Accreditation of Teacher Education and the Missouri Department of Elementary and Secondary Education) prepares teachers for specialization in school leadership and administration. The program also provides an opportunity for practicing administrators to enhance their professional skills and to connect with other practitioners from the metropolitan area and region. To this end, the program's emphasis is the development of broad understanding and experiences across the whole professional field, the acquisition of in-depth knowledge in at least one specialized field in educational administration, and integrative experiences demonstrating the application of theory to practice.

The program of study will be planned in accord with the candidates' professional goals. Emphasis areas include:

- General administration (school superintendents and other central office administrators)
- Secondary principals or assistant principals
- Elementary principals or assistant principals

Although not essential to completion of the educational specialist degree, the master of arts may be earned by the candidate at approximately the halfway point.

Students are not currently being admitted in the Special Education emphasis area of the Ed.S. in Educational Administration program.

Requirements for Admission

Candidates must:

1. Possess a bachelor's or master's degree.
2. Have compatible teacher certification if seeking administrative certification (i.e., to be an elementary principal one must be an elementary teacher).
3. Have at least two years of professional education experience.
4. Meet unconditional admission requirements of the School of Graduate Studies, the School of Education and the Division of Urban Leadership and Policy Studies.

Curriculum

A minimum of 36 credit hours is required in the major area. Individual programs will be designed with the assistance of the faculty adviser to develop competencies in the theoretical, technical and functional aspects of educational administration. The basic prerequisite course for the K-12 program is:

- EDUC-UL 5501, Foundations of School Leadership and Organization

The basic prerequisite course for the higher educational administration program is:

- EDUC-UL 5550, Organization and Administration of Higher Education

Completion of one of the following is required in all programs:

- EDUC-UL 5574 Administrative Practicum
- EDUC-UL 5570 Administrative Practicum in Higher Educational Administration
- EDUC-UL 5575 Internship in Administration
- EDUC-UL 5571 Internship in Higher Educational Administration

Candidates are required to complete 18-27 credit hours of work in the supporting areas in education and humanistic and behavioral studies. Courses in the field of educational psychology, history of education, philosophy of education, sociology of education, curriculum, counseling, anthropology and approved courses from the Henry W. Bloch School of Business and Public Administration or from the behavioral sciences or humanities are considered appropriate. Also required are both of the following:

- EDUC-R&P 5508, Principles and Methods of Research
- A second approved research course, such as statistics or a computer language.

Note: Students should identify a faculty adviser in urban leadership and policy studies in education at the time of

admission to the School of Education. Final program planning is a joint responsibility of the candidate, the faculty adviser and the candidate's committee.

The committee, consisting of three members of the faculty, is established for each candidate early in the program of study. This committee and the candidate work cooperatively in reviewing progress in the program, planning the field project and making arrangements for the oral examination. The committee makes recommendations to the dean of the School of Education regarding the candidate's program and the satisfactory completion of graduation requirements.

Requirements for Graduation

In addition to the general School of Education graduate degree requirements, the Ed.S. degree in educational administration also requires:

1. EDUC-UL 5574 Administrative Practicum
-or-
EDUC-UL 5570 Administrative Practicum in Higher Education
-or-
EDUC-UL 5575 Administrative Internship
-or-
EDUC-UL 5571 Administrative Internship in Higher Educational Administration.
2. A planned field experience.
3. A written project.
4. A final oral examination upon completion of the administrative practicum or internship.
5. The educational specialist degrees designed to meet state certification requirements for school superintendency and special education administration have specific course requirements in addition to the above.

Educational Specialist: Counseling and Guidance

The Educational Specialist degree in counseling and guidance is a post-masters program designed for experienced counselors who desire to improve, update or add another area to their professional expertise.

Emphasis areas include mental health counseling and school counseling.

Students are not currently being admitted for the General, Couples and Family Counseling, or Substance Abuse Counseling emphases in the Ed.S. degree program.

The Educational Specialist program has four options: expand the area of their master's degree, re-specialize in a different emphasis area, become certified as a school counselor, or add an emphasis area. Those electing the School Counseling emphasis will, upon successful completion of the coursework and passing of the Praxis Exam for counseling, become eligible for school counselor certification in Missouri. The other counseling emphases are designed for students who wish to work in a variety of settings other than the public schools. Those earning degrees in counseling become employed in community colleges, four-year colleges, specialized areas in large universities (e.g. career planning and placement, drug and alcohol counseling), the court system and community-based mental health services.

Student Learning Outcomes

Graduates demonstrate skills and knowledge in the following areas:

- Theories of counseling
- The counseling relationship
- Human growth and development
- Social and cultural foundations of counseling
- Career development
- Assessment
- Research methods
- Counseling skills
- Professional identity
- Ethical standards and issues
- Psychopathology and Diagnosis (for graduates from the Mental Health and Substance Abuse emphasis areas only)
- Program development and management (school counseling emphasis)
- Counseling supervision

Requirements for Admission

Applicants must:

1. Satisfy all requirements for unconditional admission to the School of Graduate Studies.
2. Hold a master's degree in counseling from an accredited institution.
3. Have completed courses in theories and methods of counseling and in counseling practicum with grades no lower than B.
4. Have a graduate GPA of at least 3.25 on a 4.0 scale.
5. A minimum verbal score of 450 or a combined verbal and quantitative score of 900, and a minimum analytical writing score of 4.0 on the GRE is required for consideration under regular admission criteria. The GRE requirement can be waived if the applicant is a graduate of a master's degree program equivalent to the UMKC Master's degree in Counseling and Guidance (at least 48 credit hours) with a graduate 3.75 GPA.

Admission Procedures

Individuals must make a formal application to the Division of Counseling and Educational Psychology for admission into the educational specialist program. Applications are accepted and reviewed on an ongoing basis.

Send the following materials:

1. UMKC Application for Admission.
2. Application Fee : \$35.
3. Official transcripts from all post-secondary institutions.
4. Official GRE scores.

to the following address:

Mailing Address

University of Missouri-Kansas City
UMKC Admissions
120 Administrative Center
5100 Rockhill Road
Kansas City, MO 64110-2499

Send the following materials:

1. Cover sheet for the Education Specialist Degree in Counseling and Guidance Program.
2. Three letters of recommendation.
 - o Raters should address your suitability for professional studies in mental health.
 - o Raters should have knowledge of your interpersonal and intellectual functioning and skills in research, counseling and written and oral communication.
 - o Raters should enclose their letters of recommendation along with the provided rating sheet in an envelope and sign their names across the back of the envelope.
 - o All letters should be collected by the applicant and returned with all other application materials, **or** raters may mail directly to the Education Specialist Counseling and Guidance Admissions Committee.
3. Personal statement.
 - o Submit a concise two-three page statement concerning your professional goals.
 - o Include your professional and applied interests/experiences.
4. Self-addressed stamped envelope.

to the following address:

Mailing Address

University of Missouri-Kansas City
Counseling and Educational Psychology
215 Education
5100 Rockhill Road
Kansas City, MO 64110-2499

Curriculum

Program of study must include the equivalent of the current M.A. degree in Counseling and Guidance at UMKC plus an additional emphasis-area minimum of 18 credit hours. Coursework is dependent on the emphasis option chosen and will be determined with the help of an adviser. Students must maintain a B average in all coursework associated with the Ed.S. program.

- No grade below B in professional counseling courses will be acceptable.
- Students are required to confer with advisers prior to enrolling in any course leading to the educational specialist degree.
- Courses at the 5600 level cannot be taken until students are admitted to the Ed.S. program.

(1) Many people with a teaching certificate already have this course.

You may not need to retake it.

(2) Required for those who do not hold a current teaching certificate.

The Educational Specialist in School Counseling also requires satisfactory completion of the Praxis II: School Guidance and Counseling examination and completion of portfolio requirements.

Requirements for Graduation

Students must complete all courses in the Ed.S. program with at least a 3.0 (B) final GPA.

Students must apply for graduation by the posted deadline during their final term of enrollment. All students must be enrolled during the term they intend to graduate.

More information about the program can be found at http://education.umkc.edu/CEP/ed_specialist/index.asp

Educational Specialist: Curriculum and Instruction

The goal of the educational specialist degree in Curriculum and Instruction **emphasis in Curriculum Theory and Leadership** is to build on the master's degree in curriculum and instruction on the theme of Transformative Leadership. The degree is designed for educators who want to assume positions in instructional leadership. The program requires course work in four major areas:

- Curriculum Theory
- Diverse Learners
- Becoming a Learning Leader
- Transforming Practice

It is assumed that most candidates will have a degree in an area related to the field of education. Their faculty advisor, however, may require additional course work in a specialty area such as math education. This would depend upon the applicant's background, previous coursework and anticipated school role.

Students are not currently being admitted for the Early Childhood Education, Elementary or Middle School Specialty, Multicultural Education, or Subject Matter Specialty emphases in the Ed.S. program in Curriculum and Instruction.

Program Goals

The Educational Specialist Degree in Curriculum & Instruction is designed to further enhance the skills and knowledge necessary to collaborate with other educators and lead in the development of learning opportunities which:

- promote the learning, growth and development of all students, valuing the differences which diverse learners bring to the school experience;
- demonstrate understanding of how knowledge is created, organized and linked to other disciplines;
- convey subjects to diverse learners through multiple pathways;
- equitably manage and monitor student learning;
- promote reflective teaching and decision-making;
- encourage the development of learning communities which include education professionals, parents and communities.

Admission Requirements

Applications are accepted on a rolling basis and may be obtained from and submitted to the Office of Admissions.

Students are eligible for full admission to the Ed.S. program in curriculum and instruction if they have met two of the three following requirements:

- Master's degree in an educational area with a minimum grade point average of 3.25
- Two years of teaching experience
- Graduate Record Exam (GRE) with score of 500 or better on Verbal component

Program Requirements

A minimum of 36 hours of approved graduate work beyond the master's degree is required for the educational specialist degree, with at least 60 percent of the courses numbered 5500 and above. Any courses on the 300 and 400 level included in the Ed.S. program of study must be accepted by the advisor and taken for graduate credit.

As soon as possible after admission to graduate study, students should seek to meet with a faculty member in the major to plan a program of study. This program must be filed in the Education Student Services Office and approved by the dean's representative when students still have at least 18 hours beyond the master's degree to complete. A majority (80%) of new coursework applied to any graduate degree to be completed at UMKC must be taken at UMKC. Transfer credit not included in a master's degree *must not be more than 7 years old at the time of degree completion or graduation.*

Transfer credit may be allowed for correspondence courses, provided the credits meet the criteria for graduate coursework. A maximum of 6 credit hours of continuing education credit (workshops, special topics) taken for graduate credit may be included on an Ed.S. program.

UMKC credit more than seven years old at the time of degree completion that has not been included on a master's degree is not applicable to an Ed.S. degree unless validated to the satisfaction of the School of Education and the School of Graduate Studies. A maximum of 30 percent of coursework on the student's program of study may be validated under this procedure.

All validation must be completed by the end of the final semester of enrollment.

Curriculum Summary

The coursework is divided into the following study areas:

- Becoming a Learning Leader 12 hours
- Diverse Learners 9 hours
- Curriculum Theory 6 hours
- Transforming Practice 9 hours

Becoming a Learning Leader (12 hours)

EDUC-UL 5523 Administrative Roles for Instructional Leadership

EDUC-C&I 5513 Effective Communication in the Classroom

EDUC-R&P 5589 Special Topic: Adult Development

EDUC-C&I 5570 Curriculum and Instruction in Technology

Working with Diverse Learners (9 hours)

EDUC-R&P 5522 Principles of Testing **or** EDUC-C&I 5619 Curriculum Evaluation

EDUC-C&I 5562 Teaching for Equity and Social Justice **or** EDUC-C&I 5563 Multicultural Perspectives in Education

EDUC-C&I 5589 Special Topics: Facilitating Differential Instruction (including ELL, special education and gifted)

Curriculum Theory (6 hours)

EDUC-C&I 5505 Introduction to Curriculum Theory **or** EDUC-C&I 5506 Curriculum Design

EDUC-C&I 5618 Survey of Research in Curriculum **or** EDUC-C&I 5620 Seminars in Theories Related to Curriculum

Transforming Practice (9 hours)

EDUC-R&P 5505 Statistics or

EDUC-R&P 5508 Principles and Methods of Research

-and-

EDUC-C&I 5621 Culminating Project in Curriculum and Instruction (6 hours)

-or-1

EDUC-C&I 5621 Culminating Project in Curriculum and Instruction (3 hours)

-and-

EDUC-C&I 5595 Action Research (3 hours)

The culminating project is an experience designed by the student with the assistance and approval of the advisor. The culminating project includes the selection of a topic relevant to the student's course of study, a review of current research and trends, and the design of a plan of action, the implementation of that action and reflective analysis of the experience.

¹The Culminating experience is to be taken toward the end of the program just prior to sitting for comprehensive examination.

Residency

One full-time summer session or one full-time semester is required.

Program Committee

Final program planning is the joint responsibility of the candidate, the advisor and the candidate's committee. The

committee shall consist of three faculty members, all from curriculum and instruction or two faculty members from curriculum and instruction and a faculty member from another division of the School of Education or University.

This committee and the candidate shall work cooperatively in reviewing progress in the program, planning the culminating experience and making arrangements for the comprehensive examination.

Comprehensive Examination

Students are required to pass a comprehensive examination in curriculum upon the completion of the culminating experience. This four-hour examination may be either written or oral, at the discretion of the committee.

Educational Administration, Ed.D.

The Doctorate of Education Degree in Educational Administration has been designed to meet the needs of aspiring administrators in urban and metropolitan school districts and in area colleges and universities.

Coordinator:

Loyce Caruthers, (816) 235-1044, caruthersl@umkc.edu for P-12 administration program
Bonita Butner, (816) 235-2325, butnerb@umkc.edu for higher educational administration program

Criteria for Admission:

1. Completed UMKC application and ULAPSIE supplemental application.
2. Official transcripts from each college attended.
3. Educational Specialist degree or equivalent from an accredited institution with G.P.A. of at least 3.65 in Educational Administration.
4. Graduate Record Examination: quantitative, verbal and analytical writing.
5. Four professional or academic letters of reference.
6. An autobiographical statement that includes your professional goals and how the doctoral degree will help you in achieving these goals, and a description of some of your leadership accomplishments.
7. A writing sample, which gives evidence of your writing ability. The sample may be a previous course paper, a chapter from thesis, a published article, etc. Send copies for documents will not be returned.
8. Successful completion of three hours or equivalent of Statistical Methods 1 (EDRP 5505) -and- three hours or equivalent of Principles and Methods of Research (EDRP 5508) with a grade of B or higher.

Curriculum

The Doctorate of Education program will consist of 33 hours of inter-disciplinary course work and a 9 hour Applied Research Dissertation Project. The Doctoral Applied Research Study will include the identification of a study to be conducted that is grounded in educational policy in the public arena. A theoretical construct for the study will be developed including a research design, a review of the literature, and a presentation of the findings of the study in a public setting as well as to the doctoral committee. It is expected that students will complete this program during a four year period of time.

Counseling Psychology, Ph.D.

The Ph.D. degree in counseling psychology has been fully accredited by the American Psychological Association since 1985. The counseling psychology program emphasizes multicultural and individual diversity within a scientist-practitioner model. Consistent with the University's urban/metropolitan mission, this diverse faculty is committed to educating future counseling psychologists to improve the welfare of individuals and communities through scholarship and applied interventions.

Student Learning Outcomes

The program faculty encourages students to develop primary identification with the core values of counseling psychology. These values emphasize:

- Assets, strengths and positive mental health
- Respect for cultural and individual diversity
- Scientific foundation for all activities
- Developmental models of human growth
- Relatively brief counseling interventions
- Person-environment interaction
- Education
- Career/vocational development

Counseling psychologists recognize the value of human diversity. The program emphasizes faculty and student competence in dealing with the broad range of diversity in both practice and science settings. Our commitment to cultural and individual diversity is reflected in:

- Faculty composition
- Student recruitment
- Scholarship
- Course content and offerings
- Practicum opportunities
- Community service and consultation

Education in counseling psychology follows a developmental model in which science-practice integration is emphasized throughout the program. Early and progressive training is provided in research, culminating in professionals who can design, conduct and evaluate research relevant for counseling psychologists. Similarly, early and progressive training in practice activity is emphasized.

Program graduates will apply the values of counseling psychology to their work in a variety of employment settings, and as scientist-practitioners, their practice is informed by research and approached with a scientific attitude. Counseling psychologists abide by the American Psychological Association Ethical Principles and Codes of Conduct. Students will understand the ethical, legal and professional issues related to the science and practice of counseling psychology. More information about the program can be found at <http://education.umkc.edu/CEP/>.

Admission Criteria

The program is designed for bachelor's-level and master's-level applicants. A prerequisite background of core courses is required prior to acceptance into the program. These courses include undergraduate or graduate level: general psychology, theories of personality, tests and measurement, abnormal psychology, experimental psychology and introductory statistics. Students who have two or fewer deficiencies may be admitted. Such students must complete these deficiencies within one year of beginning study.

Recommended minimum for bachelor's level applicants:

- The completion of a bachelor's degree with a major in psychology.
- GRE combined verbal and quantitative scores of 1,000, plus the writing score of 4.5 or above, obtained within the last five years.
- An overall undergraduate 3.0 GPA covering all college work taken prior to the bachelor's degree.

Recommended minimum for master's level applicants:

- The completion of a master's degree or equivalent in counseling or a closely related area.
- GRE combined verbal and quantitative scores of 1,000, plus the writing score of 4.5 or above, obtained within the last five years.
- An overall undergraduate 3.0 GPA or graduate 3.5 GPA with an undergraduate 2.75 GPA.

Individual applicants will be evaluated using the following dimensions: academic potential, interpersonal skills, contribution to programs diversity, research potential and professional identity and involvement. Candidates are also evaluated on the basis of the fit between their research interests and those of program faculty.

Alternative Criteria: students who do not meet the regular recommended criteria may be admitted under alternative criteria provided there is good reason to believe that the regular criteria do not adequately manifest the student's potential to do quality work in the program.

Admission Procedures:

Using the above criteria, the applicant screening committee will typically select up to 30 applicants to be offered interviews. Personal interviews may be requested, but are not required. From those interviewed, selected applicants will be offered admission. In addition, the committee selects a list of those who were interviewed to serve as alternates. Candidates offered admissions will be required to respond to the invitation by April 15 or within 15 days after notification.

Admission Requirements

Application packets for the Counseling Psychology Program can be obtained from the program's Web site: <http://education.umkc.edu/CEP/phd/index.asp> If needed, you may contact the UMKC Office of Admissions either by phone (816) 235-1111, or by e-mail admit@umkc.edu. You may also contact the Counseling Psychology Program at (816) 235-2722.

Applications are accepted only for the fall semester and must be completed and received by Jan. 15. Application materials must be submitted to two separate offices on campus: A. The UMKC Admissions Office, -and- B. The Division of Counseling and Educational Psychology.

A. Materials to be sent to the UMKC Admissions Office:

1. UMKC application for admission (May be completed electronically at <http://www.umkc.edu/admissions>.)
2. Application fee (May be completed electronically at <http://www.umkc.edu/admissions>.)
3. Official transcripts from all post-secondary institutions.
4. Official Graduate Record Examination (GRE) (taken within the last five years).

B. Materials to be sent to the Division of Counseling and Educational Psychology:

1. Curriculum vitae including the following information:

- Personal information (address, phone, e-mail)
- Educational background
- Relevant clinical and research experience
- Recent volunteer work
- Honors or awards
- Membership/leadership in professional organizations
- Presentations and publications

2. Three letters of recommendation, with evaluation forms as provided by UMKC:

- Raters should address your suitability for professional studies in a mental health service profession.
- Raters should have knowledge of your interpersonal and intellectual functioning and skills in research, counseling and written and oral communication.
- Raters should enclose their letters of recommendation along with the provided rating sheet in an envelope and sign their names across the back of the envelope.
- Letters in sealed envelopes should be collected by the applicant and submitted with all other application materials.

3. Personal statement (2-3 pages) detailing professional goals, including research and applied interests.
4. Photocopy of the UMKC application for admission.
5. Photocopy of transcripts.

6. Photocopy of GRE scores.
7. Cover sheet for the Ph.D. in Counseling Psychology.
8. Self-addressed stamped envelope.

Admission to the Teacher Education Program

Students new to UMKC should send transcripts and applications for admission to:

UMKC Office of Admissions
5100 Rockhill Road
Kansas City, MO 64110-2499

Students seeking teacher certification should apply for admission to the School of Education when they anticipate completion of the majority of their prerequisite coursework with a cumulative 2.75 GPA. Applications for the middle school, secondary and K-12 programs are accepted until February 1 for admission the subsequent summer semester. Applications for the elementary and early childhood programs are accepted until July 1 with priority given to applications received by February 1 for admission the subsequent fall semester.

1. Initial admission at the freshman or sophomore level will be as a pre-education major to the School of Education in accordance with regular UMKC admissions standards. For students interested in music education, admission will be to the Conservatory of Music and Dance, which is discussed further in that section of the catalog.
2. Admission to Teacher Education:
 - o Completion of a majority of specific prerequisite and subject area coursework with a 2.75 cumulative GPA and 2.5 content area GPA
 - o Score results from the ACT or SAT (if graduated from high school in past 5 years)
 - o A score of 235 or greater on each segment of the College Basic Academic Subjects Examination (C-BASE)
 - o Completion of an oral communications class, English Composition I & II and a required math class or its equivalent with grades of C or better (students who have less than a C grade in mathematics may take the subject area CLEP)
 - o Clearance of an FBI background check as required by the Missouri Department of Elementary and Secondary Education
 - o Acceptance by the Teacher Education Admissions Committee based on one essay selected from prompts on the application form and two letters of recommendation indicating an appropriate disposition to educating children
3. Admission to student teaching requires:
 - o Recommendations from methods teachers.
 - o A cumulative 2.75 GPA.
 - o A subject area 2.5 GPA.
 - o Completion of all education courses with grades of C or better.
 - o Review and approval of the teacher work sample.
 - o Middle school, secondary and K-12 education majors must have passed the PRAXIS II content examination required by Missouri.
 - o Students must pass an FBI background check as required by the Missouri Department of Elementary and Secondary Education.

Post-Baccalaureate Programs

Students who have earned a degree in another field and wish to become certified teachers should apply to the teacher education program by the process outlined above. Academic work completed prior to admission will be reviewed on a course-by-course basis. Coursework in the subject area and the professional education sequence is required of all students as are general education courses specifically required for certification.

Advising

Students pursuing an education major receive academic advising through the School of Education Student Services Office, room 129. In addition, all students are assigned a faculty adviser who will be available for assistance in program and career planning.

Academic advisers help students select courses appropriate to their major, investigate possible alternatives in education and outline course schedules based on future offerings that will allow students to complete their program in a timely manner. Academic advisers also refer students to faculty members for specific guidance in selection of subject matter courses and to other University support units, such as Counseling Services and the Financial Aid and Scholarships Office as needs indicate.

An academic advising appointment is required of all Teacher Education (TE) students prior to registration each semester. Call (816) 235-**2234** to set up an appointment.

Retention

Education majors are expected to maintain a quality of achievement significantly above minimum UMKC standards for degree work. Individual student progress will be monitored throughout the program. Satisfactory progress is required of all students for retention in the teacher preparation program. Students are expected to maintain academic standards, perform satisfactorily in clinical courses, refrain from academic dishonesty, comply with the established University and teacher education timetables and requirements, and refrain from unethical or unprofessional behavior or behaviors that obstruct the training process or threaten the welfare of the student or others. Other circumstances involving student behavior will be addressed by the faculty on an individual basis.

Title II Notice

Title II of the Higher Education Act requires that every institution of higher education provide public information regarding the pass rate of the institution's graduates on the teacher certification or licensure assessment of the state in which the institution is located. Additionally, Title II requires that a comparison of each program's pass rate be made with the average pass rate in the state.

Graduates of the teacher education program at UMKC have achieved a 99 percent pass rate on the Praxis II, a nationally normed examination required by the State of Missouri for certification purposes. The average pass rate in Missouri is 97 percent.

Recommendation for Teacher Certification

Although the School of Education may recommend persons for certification to teach in Missouri, the requirements for certification are determined by the state. The State of Missouri requires that any individual seeking to be a teacher complete an accredited college or university's teacher education program. Individuals seeking certification must meet the program requirements established by UMKC as approved and accredited by the Missouri Department of Elementary and Secondary Education regardless of previously completed college coursework. Post-baccalaureate students are encouraged to consider entering the field of education but should be prepared to complete the specific content area and professional education courses required for certification.

In cooperation with the Missouri Department of Elementary and Secondary Education and the National Council for Accreditation of Teacher Education, UMKC is responsible for recommending students and alumni for teacher certification. Requests for certification are initiated by students. The School of Education will also make recommendations to other state's departments of education.

The certification and data manager in the School of Education Student Services Office serves as a certification officer for teachers, counselors and administrators at UMKC.

Information for Missouri certification can be accessed on-line at http://dese.mo.gov/divteachqual/teachcert/forms.html#Frequently_Requested_Forms or can be requested in the UMKC School of Education Student Services Office. Certification application materials and information for Kansas can be obtained directly from the state at <http://www.ksde.org>. Students should apply for certification early in their final semester to prevent delay in receiving the

certificate. Institutional recommendations for certification are made only for students who have completed a UMKC School of Education degree or the equivalent in the appropriate certification area. To establish a basis for the institutional recommendation, all students who do not earn a degree at UMKC, who are seeking an additional endorsement to teach, administer, or counsel, must take at least 12 hours of coursework planned with an adviser in the School of Education.

Most states, including Missouri and Kansas, have additional testing requirements for certification. It is the student's responsibility to obtain this information and satisfy those testing requirements prior to applying for certification. In addition, the states of Missouri and Kansas require that all candidates for certification submit fingerprints to be used for state and national background checks before any certificate is issued.

On completion of the appropriate degree, recommendation for Missouri* certification can be achieved in the following areas:

- Early Childhood Teacher (birth-3rd grade), B.A. early childhood education
- Elementary Teacher (1-6), B.A. elementary education
- Middle School Teacher (5-9), B.A. middle school education/subject area specialty (language arts, mathematics, science and social studies)
- Secondary Teacher (9-12), B.A. secondary education/subject matter specialty: English, mathematics, science (requires an emphasis in biology, chemistry, earth science, or physics), unified science (requires an emphasis in biology, chemistry, earth science, or physics), and social studies.
- Teacher (K-12), B.M.E. (Bachelor of Music Education) music education/choral/instrumental; B.A. secondary education: foreign language (French, German, Spanish), Art
- School Counselor (1-8), M.A. counseling and guidance/elementary
- School Counselor (7-12), M.A. counseling and guidance/secondary
- Teaching English to Speakers of Other Languages (K-12), M.A. curriculum and instruction/TESOL
- Principal (K-8) M.A. educational administration/elementary (initial); Ed.S. educational administration/elementary (advanced)
- Principal (7-12) M.A. educational administration/secondary (initial); Ed.S. educational administration/secondary (advanced)
- Middle Level Principal (5-9), M.A. educational administration
- Special Education Administration, Ed.S. special education administration
- Special Reading Teacher (K-12), M.A., Ed.S. reading education
- Mild/Moderate Cross-Categorical disabilities(K-12), M.A. special education
- Superintendency, Ed.S. educational administration

* Kansas and other state's certification subjects and levels are similar. Contact the School of Education Student Services Office for information.

Provisional Certification

The State of Missouri allows individuals who hold a bachelor's degree to be provisionally certified to teach provided the individual is within 12 credit hours of completing a teacher certification program. The Missouri school district that wishes to employ such an individual for a teaching position must complete an application for provisional certificate. The student then brings the application to the certification officer for the School of Education for completion of an academic contract.

Criminal Record Check

Missouri State law requires all persons working in the public schools to have passed a criminal background check as done by the FBI and Missouri Highway Patrol. Students applying for teacher certification will have to request an FBI background check from DESE. Forms and instructions are available directly from DESE (<http://www.dese.mo.gov/divteachqual/teachcert/aprequestbc.html>) or in the Student Services Office.

State of Missouri Grade-Point Average Requirement

All persons certified to teach in public elementary middle, and secondary schools in Missouri, except for non-academic vocational and 45- and 90-day substitute teachers, must have an overall 2.5 GPA or higher (on a 4.0 scale).

Missouri Certification Testing

Missouri has established a requirement that all prospective teachers must take a competency examination prior to certification. All students must pass the Praxis II Specialty Area Test appropriate to their field of study prior to graduation for certification in Missouri. All test results must be sent directly to the UMKC School of Education. Passing scores have been established by the Missouri Department of Elementary and Secondary Education. Contact the School of

Education Student Services Office for more information.

Bachelor of Arts: Early Childhood Education

Students who complete this program will earn the bachelor of arts in early childhood education (birth to grade 3). Successful completion of this program includes a professional teacher's work sample. This results in eligibility for UMKC's recommendation for teacher certification in a self-contained early childhood/elementary classroom setting with children birth through grade three in Missouri, contingent on meeting state testing requirements. Completing four additional classes (10 credit hours) will allow certification for grades 1-6.

A 2.75 cumulative GPA is required at completion of the program. Grades of C or better are required in all professional education classes. Consult with an academic adviser to determine specific course requirements.

Graduation and Certification Requirements

All undergraduate students must abide by the School of Education Policies and Procedures and by the Undergraduate Admission Policies and Procedures in this catalog.

All students completing an undergraduate teacher education degree must meet the following conditions in order to graduate and be recommended for teacher certification:

- 2.75 cumulative GPA.
- Completion of at least 120 credit hours if earning first bachelor's degree.
- "C" or higher in all Education courses.
- "C" or higher in all subject-area courses required for Middle School and Secondary degrees.
- Successful completion of the Teacher Work Sample.
- Passing score on the certification exam(s) required by the State of Missouri.

All students completing a baccalaureate degree program in the School of Education must apply to graduate by the posted deadline during their final semester of enrollment. The deadline for making application to graduate is posted on each term's academic calendar and on each student's registration materials. See your academic advisor for questions about these requirements.

Institute for Urban Education (IUE): Admission and Program Requirements

Admission to the Institute for Urban Education

The Institute for Urban Education is a four year undergraduate program designed to prepare exemplary educators for urban schools. The IUE curriculum combines content courses with teaching methods courses to fully prepare students for teaching in urban schools. Degree programs in the IUE include elementary education, middle school math, middle school science, and middle school English. Graduates of the IUE teacher preparation programs may be certified to teach in both Missouri and Kansas. In exchange for financial assistance, IUE graduates make a commitment to teach in an IUE partner urban school for a minimum of four years upon graduation.

The program is scholarship-based and students are selected through a multi-step admission process. The priority deadline for IUE applications is March 1. The following items make a complete application to the IUE:

1. General UMKC Admission

Applicants to the Institute for Urban Education must first be accepted into UMKC.

Applications are available at <http://www.umkc.edu/admissions/>. A \$35 application fee payable to UMKC is required of students not already admitted to UMKC. (The fee is \$45 when submitting a paper application.) Indicate on the admissions application that you are applying to the Institute for Urban Education.

UMKC's Admissions Office processes admissions applications as they are received. Please note it may take up to four to six weeks to be accepted into UMKC. Only after you are admitted will your information be shared with the IUE office.

2. Personal Statement

Please attach to your UMKC Application for Admission a typed personal statement of approximately **750** words, addressing your interest and commitment to urban education. You may also explain why you have chosen education and why you think you will be an effective teacher in an urban school.

3. Supplemental application and supporting materials

In addition to the UMKC Application for Admission, you must also apply to the Institute for Urban Education.

4. References

Two letters of reference are required. At least one should be from an educator or from someone familiar with your past experience working with youth. Both letters should be submitted using the attached reference forms located on the IUE application. They should be kept confidential, signed and submitted in sealed envelopes to the address listed on the forms. Do not ask relatives to provide a letter for you.

5. FAFSA

All students must complete the Federal Application for Federal Student Aid (FAFSA) each year. The form can be found at <http://www.fafsa.ed.gov/> and must be submitted between Jan. 1 and March 1 of each year

6. UMKC General Scholarship Application

IUE applicants also are required to complete the Application for UMKC General Scholarships each year. Forms are available at <http://www.sfa.umkc.edu/>.

7. Personal Interview

Files of applicants admitted to UMKC will be reviewed by the IUE and potential finalists will be contacted for personal interviews.

Program Requirements

Students admitted to the IUE must meet the following requirements to continue in the program:

- Maintain a cumulative GPA of 3.0 or higher.
- Meet the professional expectations for students of the IUE.
- Meet the expectations as indicated on the pre-service teacher assessments, each semester.
- Complete the Federal Application for Financial Student Aid (FAFSA), each year.
- Pass a FBI background check as required by the Missouri Department of Elementary and Secondary Education (DESE).
- Complete the College Basic Subjects Exam (CBASE) with scores of 235 or better prior to year three of the IUE program.
- Make a commitment to teach in an urban district for up to four years following graduation in exchange for the financial support, for those receiving IUE scholarships.

Bachelor of Arts: Elementary Education

Students who complete this program will earn the bachelor of arts in elementary education. Successful completion of this program includes a teacher work sample and meeting Missouri state certification testing requirements. This results in eligibility for UMKC's recommendation for elementary certification (grades first-sixth) in Missouri.

A 2.75 cumulative GPA is required at completion of program. Grades of C or better are required in all subject matter and professional education classes. Consult with an academic adviser to determine specific course requirements.

Bachelor of Arts: Secondary Education

The Bachelor of Arts in Secondary Education is to be taken with an emphasis in the subject to be taught. Dual degrees in secondary education and subject area are possible with additional coursework. Check with an adviser for specific information. Successful completion of this program includes a professional portfolio and meeting Missouri state certification testing requirements. This results in eligibility for UMKC's recommendation for secondary education certification (grades 9-12) in Missouri. The subjects available include:

- Art (K-12)
- Biology
- Chemistry
- Earth Science
- English
- Foreign Language (K-12)
- Mathematics
- Physics
- Social Sciences

Note: Music Education majors should check degree requirements with the Conservatory of Music and Dance.

General education and subject matter requirements vary with the field to be taught. Students must consult with an adviser to determine specific requirements. Students who already have a bachelor's degree may be required to complete subject area requirements that were not part of their prior degree program in addition to the professional education requirements.

Subject Matter Area

Students must consult with their academic adviser concerning specific requirements for arts and sciences and for education. Typically between 30 and 50 hours of subject matter specific coursework is required to attain the subject major.

A 2.75 cumulative GPA is required at completion of the program. Grades of C or better are required in all subject matter and professional education classes. Consult with an academic adviser to determine specific course requirements.

Teacher Education Student Learning Outcomes

The School of Education subscribes to the Missouri Standards for Teacher Education Programs (MoSTEP).

Missouri Standards for Teacher Education Programs (MoSTEP)

Performance Standards for Education Professionals

The School of Education ensures that candidates possess the knowledge, skills and competencies defined as appropriate to their area(s) of responsibility.

General Education for Initial Teacher Preparation

The School of Education ensures that candidates have completed general studies courses and experiences in the liberal arts and sciences.

Quality Indicators:

- The general studies include the arts, communications, history, literature, mathematics, philosophy, sciences and the social sciences.
- The general studies incorporate multi-cultural and global perspectives.

Content, Professional, Pedagogical and Integrative Studies for Initial Teacher Preparation

The School of Education ensures that candidates have completed a program of content, professional, pedagogical and integrative studies.

MoSTEP Standards/Program Goals

Goal No. 1: The preservice teacher understands the central concepts, tools of inquiry and structures of the discipline(s) within the context of a global society and creates learning experiences that make these aspects of subject matter meaningful for students.

Performance Indicators: The preservice teacher:

1. Designs and knows the discipline applicable to the certification area(s) (as defined by Missouri State Subject Area Competencies).
2. Presents the subject matter in multiple ways.
3. Uses students' prior knowledge.
4. Engages students in the methods of inquiry used in the discipline.
5. Creates interdisciplinary learning.

Goal No. 2: The preservice teacher understands how students learn and develop, and provides learning opportunities that support the intellectual, social and personal development of all students.

Performance Indicators: The preservice teacher:

1. Knows and identifies child/adolescent development.
2. Strengthens prior knowledge with new ideas.
3. Encourages student responsibility.

4. Knows theories of learning.

Goal No. 3: The preservice teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.

Performance Indicators: The preservice teacher:

1. Identifies prior experience, learning styles, strengths and needs.
2. Designs and implements individualized instruction based on prior experience, learning styles, strengths and needs.
3. Knows when and how to access specialized services to meet students' needs.
4. Connects instruction to students' prior experiences and family, culture and community.

Goal No. 4: The preservice teacher recognizes the importance of long-range planning and curriculum development and develops, implements and evaluates curriculum based upon student, district and state performance standards.

Performance Indicators: The preservice teacher:

1. Selects and creates learning experiences that are appropriate for curriculum goals, relevant to learners and based upon principles of effective instruction (e.g., encourages exploration and problem solving, building new skills from those previously acquired).
2. Creates lessons and activities that recognize individual needs of diverse learners and variations in learning styles and performance.
3. Evaluates plans relative to long and short-term goals and adjusts them to meet student needs and to enhance learning.

Goal No. 5: The preservice teacher uses a variety of instructional strategies to encourage students' development of critical thinking, problem solving and performance skills.

Performance Indicators: The preservice teacher:

1. Selects alternative teaching strategies, materials and technology to achieve multiple instructional purposes and to meet student needs.
2. Engages students in active learning that promotes the development of critical thinking, problem solving and performance capabilities.

Goal No. 6: The preservice teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning and self-motivation.

Performance Indicators: The preservice teacher:

1. Knows motivation theories and behavior management strategies and techniques.
2. Manages time, space, transitions and activities effectively.
3. Engages students in decision making.

Goal No. 7: The beginning teacher models effective verbal, nonverbal and media communication techniques to foster active inquiry, collaboration and supportive interaction in the classroom.

Performance Indicators: The preservice teacher:

1. Models effective verbal/non-verbal communication skills.
2. Demonstrates sensitivity to cultural, gender, intellectual and physical ability differences in classroom communication and in responses to students' communications.
3. Supports and expands learner expression in speaking, writing, listening and other media.
4. Uses a variety of media communication tools.

Goal No. 8: The preservice teacher understands and uses formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social and physical development of the learner.

Performance Indicators: The preservice teacher:

1. Employs a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, teacher-made tests, performance tasks, projects, student self-assessments, authentic assessments and standardized tests) to enhance and monitor her or his knowledge of learning, to evaluate student progress and performances and to modify instructional approaches and learning strategies.
2. Uses assessment strategies to involve learners in self-assessment activities, to help them become aware of their learning behaviors, strengths, needs and progress and to encourage them to set personal goals for learning.
3. Evaluates the effect of class activities on both the individual and the class as a whole, collecting information through observation of classroom interactions, questioning and analysis of student work.
4. Maintains useful records of student work and performances and can communicate student progress knowledgeably and responsibly, based on appropriate indicators, to student, parents and other colleagues.

Goal No. 9: The preservice teacher is a reflective practitioner who continually assesses the effects of choices and actions on others. This reflective practitioner actively seeks out opportunities to grow professionally and utilizes the assessment and professional growth to generate more learning for more students.

Performance Indicators: The preservice teacher:

1. Applies a variety of self-assessment and problem-solving strategies for reflecting on practice, their influences on students' growth and learning, and the complex interactions between them.
2. Uses resources available for professional development.
3. Practices professional ethical standards.

Goal No. 10: The preservice teacher fosters relationships with school colleagues, parents and educational partners in the larger community to support student learning and well-being.

Performance Indicators: The preservice teacher:

1. Participates in collegial activities designed to make the entire school a productive learning environment.
2. Talks with and listens to students, is sensitive and responsive to signs of distress and seeks appropriate help as needed to solve students' problems.
3. Seeks opportunities to develop relationships with the parents and guardians of students, and seeks to develop cooperative partnerships in support of student learning and well-being.
4. Identifies and uses the appropriate school personnel and community resources to help students reach their full potential.

Goal No. 11: The preservice teacher understands theories and applications of technology in educational settings and has adequate technological skills to create meaningful learning opportunities for all students.

Performance Indicators: The preservice teacher:

1. Demonstrates an understanding of instructional technology concepts and operations.
2. Plans and designs effective learning environments and experiences supported by informational and instructional technology.
3. Implements curriculum plans that include methods and strategies for applying informational and instructional technology to maximize student learning.
4. Uses technological applications to facilitate a variety of effective assessment and evaluation strategies.
5. Uses technology to enhance personal productivity and professional practice.
6. Demonstrates an understanding of the social, ethical, legal and human issues surrounding the use of technology in Pre-K-12 schools and applies that understanding in practice.

Undergraduate Programs

The School of Education offers the following undergraduate degree programs:

- B.A., Early Childhood Education
- B.A., Elementary Education
- B.A., Middle School Education
- B.A., Secondary Education

Students may contact the School of Education Student Services Office for specific program information.

Students may also elect to pursue a dual degree between Education and Arts and Sciences. Secondary education majors may earn a B.A. or B.S. degree in a major in the College of Arts and Sciences. Elementary and early childhood education majors may earn a bachelor of liberal arts degree in the College of Arts and Sciences. Contact the advising office of the College of Arts and Sciences for more details.

Educational Specialist: Reading Education

Requirements for the Educational Specialist (Ed.S.) Degree in Reading Education support the professional development of all reading or literacy specialists; including classroom teachers, reading/literacy specialists, and literacy coaches. The Ed. S. degree is intended for those who wish to develop high levels of expertise in the Standards for Reading Professionals developed by the International Reading Association's Committee on Standards and Ethics. The objectives of the Ed.S. in Reading Education are:

1. To ensure that the competencies in the discipline (reading education) have been attained and meet professional agency standards.
2. To develop competencies in:
 - Organizing, supervising and evaluating reading programs and classroom literacy instruction.
 - Translating literacy research findings into practices.
 - Reading/literacy assessment and diagnostic procedures.
 - Working with severely reading disabled to dyslexic children.
 - Teaching reading at the secondary, junior college, college and adult levels.
 - Conducting teacher training workshops at the teacher in-service level.
 - Performing the duties of reading specialist and literacy coach.

Requirements for Admission

Candidate must:

- Be admitted to the UMKC School of Graduate Studies.
- Possess a bachelor's degree and a teaching certificate.
- Have at least two years of teaching experience (or its equivalent).
- Have completed a minimum of six credit hours of graduate-level (5500) courses in reading education taken at UMKC. It is not necessary to have a master's degree to enter the program.

Curriculum

A minimum of 60 post-B.A. hours are required including a minimum of 30 credit hours beyond the master's degree.

Curriculum Summary

Hours	
Reading Concentration	21-42
Supporting Area(s)	9-12
Practicum	6-12
Humanistic and Behavioral Studies	6-12
Total (minimum)	60

Curriculum Detail

Reading Concentration (21-42 hours) and Practicum (6-12 hours)

TCH-ED 427 Reading in the Secondary School

EDUC 434 Classroom Diagnosis and Correction of Reading Problems (Will be EDRD 5502 Early Literacy and Language Development after Fall 2009.)
EDUC 439 Content Reading and Language Development (Will be EDRD 439 after Fall 2009.)
EDUC 5501 The Teaching of Reading (Will be EDRD 5501 after Fall 2009.)
EDUC 5534 Reading Assessment and Evaluation (Will be EDRD 5511 Reading Assessment and Evaluation after Fall 2009.)
EDUC 5542 Introduction Diagnostic and Treatment Procedures in Reading (Will be EDRD 5510 Classroom Based Literacy Assessment and Intervention after Fall 2009.)
EDUC 5575R Internship in Reading (Will be EDRD 5520 Practicum in Reading after Fall 2009.)
EDUC 5590R Seminar in Reading (Will be EDRD 5515 Seminar in Reading after Fall 2009.)
EDRD 5530 Reading Instruction for K-12 English Language Learners
EDRD 5531 Teaching Reading Improvement: Secondary, College, Adult Level
EDUC 5601 Organizing and Guiding the Reading Program (Will be EDRD 5601 after Fall 2009.)
EDUC 5640 Apprenticeship and Conference in College Training (Will be EDRD 5640 after Fall 2009.)
EDUC 5650 Dyslexia and Related Learning Disabilities (Will be EDRD 5650 after Fall 2009.)
EDUC 5690 Special Problems (Note: Field Project Class) (Will be EDRD 5690 after Fall 2009.)
Supporting Area(s) (9-12 hours)
Select courses from Urban Leadership and/or Curriculum and Instruction

Humanistic and Behavioral Studies(6-12 hours)

EDUC-R&P 5502 Advanced Educational Psychology
EDUC-R&P 5510 Child Behavior and Development
EDUC-R&P 5512 Adolescent Development and the School
EDUC-UL 5524 Philosophical Inquiry and Education
EDUC-UL 5525 Cultural Foundations of Education
EDUC-UL 5526 Philosophical Foundations of Education
EDUC-UL 5527 Historical Foundations of Education
EDUC-UL 5528 Sociological Foundations of Education
Requirements for Graduation

Candidates must pass an examination in the major field and complete a reading/literacy field project.

ULPSE Student Learning Outcomes

The mission of the UMKC division of Urban Leadership and Policy Studies in Education (ULAPSIE) is to prepare and professionally advance educational leaders who are in the fields of Prek-12 and higher education. Faculty members are committed to students to ensure that they become knowledgeable, skilled, and highly effective transformational educational leaders in their schools/educational institutions communities.

Conceptual Framework and Program Goals

Goal No. 1: Educational leaders who are in the fields of Prek-12 and higher education foster learning, listening, reflection and renewal.

1. Students will develop a philosophical vision of educational institutions with high standards.
2. Students will reflect on the role of leadership in multiple community settings.

NCATE Standard 1, Elements 2, 5, 6 and 8; MoSTEP Standard 1.3.1

Goal No. 2. Educational leaders who are in the fields of Prek-12 and higher education promote diversity, equity and social justice.

1. Students will systematically and coherently frame the particular educational and social issues in schools and communities.
2. Students will identify and critically analyze those aspects of organization and culture of educational institutions regarding social justice and equity.
3. Students will plan practicum/internship projects that reflect a theme of social justice, equity, and diversity.

NCATE Standard 1, Elements 2, 5, 6 and 8; NCATE Standard 4, Elements 1, 2, 3 and 4; MOSTEP Standards 1.3.2 and 1.3.4

Goal No. 3. Educational leaders who are in the fields of Prek-12 and higher education emphasize critical inquiry, dialogue, effective communication and the importance of positive human relationships.

1. Students will explain and apply essential elements of theory and practice that are important to the successful exercise of leadership and management in public service organizations, as well as reflect upon their leadership skills and style.
2. Students will demonstrate how they would forge learning environments that are trustful and allow critical dialogue around issues of curriculum/pedagogical strategies and race, class, gender, ethnicity, socioeconomic, sexual orientation and disability.
3. Students will facilitate safe and effective learning environments for children and adults.

NCATE Standard 1, Elements 2, 5, 6 and 8; NCATE Standard 4, Elements 1, 2, 3 and 4; MoSTEP Standards 1.3.3, 1.3.5 and 1.3.2

Goal No. 4. Educational leaders who are in the fields of Prek-12 and higher education enhance the capacity of individuals to be education entrepreneurs and leaders of organizations, which reflect state-of-the-art practices and traditions.

1. Students will engage in ongoing professional development activities that encourage continued learning.
2. Students will use multiple forms of technology to advance student and adult growth.
3. Students will use TaskStream to develop formative and summative portfolio.
4. Students will understand leadership as lateral relationships, including organizational politics and conflict resolution.
5. Students will enhance their ability to diagnose organizational behavior by encouraging multi-frame thinking and analysis.

NCATE Standard 1, Elements 2, 5, 6 and 8; NCATE Standard 2, Elements 1, 2 and 3; MoSTEP Standards 1.3.2, 1.3.6 and 1.3.4

Goal No. 5. Educational leaders who are in the fields of Prek-12 and higher education create meaningful educational processes and experiences.

1. Students will create effective models of communication between leaders and constituents within educational institutions and communities.
2. Students will engage in dialogue that uncovers themes/patterns relevant to education in society.

NCATE Standard 1, Elements 2, 5, 6 and 8; MoSTEP Standard 1.3.1

Goal No. 6. Educational leaders who are in the fields of Prek-12 and higher education develop into transformational/constructivist leaders.

1. Students will develop and implement policy that is inclusive and equitable.
2. Students will write a theoretical analysis that addresses educational reform.
3. Students will learn how to make curricular content culturally relevant and meaningful.
4. Students will construct knowledge that reflects an understanding of the social and institutional context of schooling in the United States.

NCATE Standard 1, Elements 2, 5, 6 and 8; MoSTEP Standard 1.3.5

Goal No. 7. Educational leaders who are in the fields of Prek-12 and higher education create democratic educational institutions.

1. Students will practice reflexivity by keeping a reflection journal.
2. Students will demonstrate an understanding of a learning community that values individual and diverse voices.
3. Students will demonstrate an understanding of democracy as active citizenry participation in educational institutions and communities.
4. Students will explore power relations within educational institutions.
5. Students will formulate ways in which ethical and moral values promote day-to-day democratic practices in educational institutions and communities.

NCATE Standard 1, Elements 2, 5, 6 and 8; MoSTEP 1.3.6

General Information

The School of Graduate Studies is responsible for monitoring compliance to the campuswide minimum graduate academic regulations, which are explained in detail in the General Graduate Academic Regulations and Information section of this catalog. Working with and through the Graduate Council and Graduate Officers Committee, the School also provides leadership and coordination of all graduate programs, offers programs to prepare graduate students for faculty positions in a variety of educational settings, and administers a number of competitive graduate fellowships.

The School also serves as the academic and administrative home for students admitted to the Interdisciplinary Ph.D. program. All other graduate students are admitted to the school or college in which their degree programs are housed.

Interdisciplinary Leadership Certificate in Disability Studies

The Interdisciplinary Leadership in Disability Studies certificate program is offered through the School of Graduate Studies and the Institute for Human Development. Disability Studies is a relatively new, interdisciplinary field that studies disability from a social and cultural context. The certificate can be completed either in conjunction with a graduate degree program or as a free-standing credential. Students in such diverse fields as sociology, psychology, nursing, pharmacy, law, social work, public administration, urban planning and design and education are well suited for this certificate. Students who receive the certificate will be prepared to influence public policy, professional practice, societal arrangements and cultural values that shape the meaning of disability.

- Certificate Program Requirements

Interdisciplinary Ph.D. Program

Mission, Philosophy and History

The world of the future will require scholars with a global approach to problem solving. It will no longer be enough to know one area, one discipline, one field. Inquiry and discovery are crossing disciplines. For example, the insights of the science of chaos are the products of mathematics, computer science, meteorology, astronomy and biology. Study of aging draws on sociology, psychology, pharmacy, the life sciences and education. For this reason, in 1990, UMKC developed and introduced an interdisciplinary doctoral degree program that spans traditional boundaries among disciplines.

The goal for Interdisciplinary Ph.D. studies at UMKC is to help students develop knowledge and skills for independent research on the fundamental questions of the present and the future. The program is designed to provide self-directed students with academic training at the highest level, while allowing their participation as colleagues in research of fundamental importance. UMKC is dedicated, within the framework of its interdisciplinary program leading to the Ph.D., to provide education of the highest quality.

Scholars in the program fully participate in their own learning, guided by our philosophy that facts must be tempered by values and that true excellence in scholarship demands a far-reaching context of knowledge. The program has grown rapidly. In the fall 2006 term, more than 360 students were enrolled in the Interdisciplinary Ph.D. program. Nearly 350 students have graduated during the program's existence.

The following five core values underscore UMKC's Interdisciplinary Ph.D. program:

Education First: Learning is enhanced by a search for knowledge across discipline boundaries.

Therefore, the program:

- Is student-centered.
- Enables students to acquire the skills of interdisciplinary scholarship and research.
- Broadens students' exposure to multiple academic fields.

Discovery and Innovation: Interdisciplinary research draws on discipline-based knowledge, generating integrated solutions to problems that cross discipline boundaries.

Therefore, the program:

- Is problem-oriented.
- Integrates the attributes of a broad-based interdisciplinary approach with the grounding of a traditional academic focus.
- Provides a solid grounding in theories, concepts and methodologies of two or more disciplines.

Integrity and Accountability: Self-reflection and individual responsibility.

Therefore, the program:

- Incorporates a model of continuous quality improvement.

Diversity, Inclusiveness and Respect: Learning thrives in an environment open to a diversity of ideas, cultural backgrounds, discipline perspectives and approaches to problems.

Therefore, the program:

- Instills an appreciation of different disciplines.
- Integrates the disciplinary perspectives to give students the methodological and theoretical tools to thrive in a wide range of scholarly and professional environments.

Energized, Collaborative Communities: Society derives great benefit from collaborative efforts that transcend discipline boundaries to solve problems. Therefore, the program:

- Prepares individuals to be multi-functional; to combine disparate skills to solve problems.

Program Administration

Quality control of the Interdisciplinary Ph.D. program rests with those faculty members certified by the University of Missouri to chair and serve on doctoral supervisory committees. These doctoral faculty members are responsible for the design and implementation of a student's doctoral plan of study and for the assessment of the qualifications of a student they recommend to the curators for the Ph.D. degree. To help students formulate an appropriate plan of study, the doctoral faculty are divided into five broad groups corresponding to research interests and expertise. The groupings do not preclude an interdisciplinary plan of study and research involving more than one of these five groups, but are intended only to provide a structure that will assist students and doctoral faculty in developing a plan of study for each Interdisciplinary Ph.D. student. A 15-member executive committee of the doctoral faculty, chaired by the dean of the School of Graduate Studies, formulates the policies that govern Interdisciplinary Ph.D. studies. Ten members of the committee are elected by the doctoral faculty. The chancellor, in view of the election results and in consultation with the dean of the School of Graduate Studies, appoints five members. There are three members from each of the five broad research areas. This process ensures representation from across the primary areas of responsibility assigned to the campus by the curators. The Interdisciplinary Ph.D. Executive Committee is also charged with formulating, monitoring and reviewing goals of the Interdisciplinary Ph.D. program and recommending changes in goals, procedures and policies to the faculty. Any proposed major change must be ratified by the doctoral faculty of the campus.

Doctoral Faculty Participation in the Interdisciplinary Ph.D. Program

On Oct. 7, 1974, the University of Missouri Doctoral Council approved the creation of a UM doctoral faculty to identify, on all four UM campuses, qualified faculty members to direct doctoral dissertations in their disciplines. Uniform minimum standard criteria for doctoral faculty membership apply to all four campuses. In UMKC's Interdisciplinary Ph.D. program, all members of a student's supervisory committee must be regular, adjunct or emeritus members of the UM doctoral faculty, and the research adviser must be from the UMKC campus.

For purposes of the Interdisciplinary Ph.D. program, a discipline is defined as an academic unit, such as a department or division (with a chair/head) within a school, college or academic program. To be able to participate as a discipline in the Interdisciplinary Ph.D. program, a discipline, meeting the above definition, must have at least four regular doctoral-faculty members.

Doctoral Faculty Discipline Affiliation

Doctoral faculty in each participating discipline are listed with the discipline-specific information. The code (A) next to a name indicates adjunct doctoral faculty status. The code (E) indicates emeritus status. The code (D) indicates the faculty member has regular doctoral faculty affiliations in more than one discipline.

Continuing doctoral faculty are reviewed for five-year reappointment and nominations for new appointments are considered throughout each academic year. Consequently, the list of doctoral faculty is dynamic and subject to change. Current lists are available from the School of Graduate Studies.

Interdisciplinary Doctoral Student Council

The UMKC Interdisciplinary Doctoral Student Council (originally called the Doctoral Student Association) was formed in 1991 to provide an opportunity for doctoral students to interact with each other and to support the students in their academic and research endeavors. The council sponsors a variety of social and academic programs throughout the year. Membership in the UMKC Interdisciplinary Doctoral Student Council is open to all dually enrolled Interdisciplinary Ph.D. students. Doctoral students in other UMKC programs are eligible to be associate members and are welcome to participate in all Interdisciplinary Doctoral Student Council activities but are not eligible to vote or serve on the executive committee. The council is governed by an executive committee consisting of three representatives with coordinating disciplines in each of the following five areas: physical, mathematical, computer and engineering sciences; biological and chemical sciences; social and behavioral sciences; humanities and the arts; and administrative and information sciences. Any eligible doctoral student who wishes to have his or her name placed on the ballot must contact the School of Graduate Studies office by Sept. 15 of each year. Elections are held by mail and ballots must be returned by Oct. 15 to be counted. Terms of office are for one year and representatives may serve up to three consecutive one-year terms on the Executive Committee.

Program Description

Applicants must meet both the general and the discipline-specific criteria for admission and be recommended for admission by the doctoral faculty review groups in at least two disciplines. Upon approval by the graduate dean, students are admitted to the School of Graduate Studies. The School of Graduate Studies monitors student progress in the program, enforces program regulations and facilitates communication among the disciplines. A discipline coordinator, usually a doctoral faculty member, coordinates admission reviews and tracking of students within each discipline.

Doctoral students in this program take coursework and conduct their research in at least two disciplines. The content of their program of study is not predetermined, but formulated by them, in consultation with UMKC doctoral faculty, to meet their individual needs and research interests and satisfy discipline-specific requirements. The program structure and these requirements follow from the five core values of UMKC:

1. Education first
2. Discovery and innovation
3. Integrity and accountability
4. Diversity, inclusiveness and respect
5. Energized, collaborative communities

These core values guide the expectations for our students, who upon graduation will be able to:

1. Demonstrate appropriate depth and breadth of knowledge in their disciplines.
2. Use skills of interdisciplinary scholarship and research to integrate multiple discipline perspectives; and effectively communicate the results of their research to diverse audiences.

3. Use self-reflection for personal and professional improvement.
4. Understand and value diverse approaches to problems.
5. Work effectively in a collaborative environment.

Disciplines participating for the fall 2007 admissions cycle:

Administrative and Information Sciences

Entrepreneurship and Innovation (Henry W. Bloch School of Business and Public Administration)
Public Affairs and Administration (Henry W. Bloch School of Business and Public Administration)
Urban Leadership and Policy Studies in Education (School of Education)

Biological and Chemical Sciences

Cell Biology and Biophysics (School of Biological Sciences)
Molecular Biology and Biochemistry (School of Biological Sciences)
Chemistry (College of Arts and Sciences)
Oral Biology (School of Dentistry)
Pharmaceutical Sciences (School of Pharmacy)
Pharmacology (School of Pharmacy)

Humanities and Arts

Art History (College of Arts and Sciences)
English (College of Arts and Sciences)
Music Education (Conservatory of Music and Dance)
Religious Studies (College of Arts and Sciences)

Physical, Mathematical, Engineering and Computer Sciences

Engineering (School of Computing and Engineering (SCE))
Geosciences (College of Arts and Sciences)
Mathematics (College of Arts and Sciences)
Physics (College of Arts and Sciences)
Telecommunication and Computer Networking (SCE)
Computer Science (SCE)
Electrical and Computer Engineering (SCE)

Social and Behavioral Sciences

Economics (College of Arts and Sciences)
Curriculum and Instruction (School of Education)
History (College of Arts and Sciences)
Psychology (College of Arts and Sciences)
Social Sciences Consortium: Economics, Political Science and Sociology
(*only available as a co-discipline option*)

The above list of participating disciplines constitutes a dynamic list that can change annually as members are added to or dropped from the doctoral faculty, or as the resources in various academic units change. Applicants should contact the School of Graduate Studies Office for information about modifications to the above list that might have occurred since this catalog was prepared.

Admission to UMKC's School of Graduate Studies' Interdisciplinary Ph.D. program is highly competitive. Enrollment in the program is limited, and admission is granted only to students who have a mature commitment to advanced study and scholarship. Admission is also subject to availability of adequate faculty and other resources within an applicant's chosen disciplines.

After being admitted to the Interdisciplinary Ph.D. program, and no later than the end of the semester in which the student completes his or her comprehensive examinations, each student must satisfy the interdisciplinary doctoral residency requirement by completing at least 21 credits, exclusive of dissertation research (5696-5699), in no more than 18 months. Students may be admitted either provisionally or fully to the program; however, within the first 12 months of being fully admitted, each student must develop a Plan of Study proposal in consultation with the doctoral faculty members who have agreed to serve on the student's supervisory committee. Although no fixed set of courses is required, students are expected to prepare a rigorous plan of study that includes at least 30 didactic course hours beyond the baccalaureate degree, exclusive of thesis and dissertation research credits. More credit hours may be required by either the student's supervisory committee, the student's disciplines, the Interdisciplinary Ph.D. Executive Committee, or the dean of the School of Graduate Studies. The number of credits included on the plan of study shall be predicated upon the extent of the student's previous academic preparation, the discipline-specific requirements of the student's disciplines, and the nature of the student's field of study.

Students must take and pass a comprehensive examination containing components of each discipline to which they have been admitted to determine if they are ready to advance to candidacy and the final phases of their Ph.D. program. Typically the comprehensive examination will be conducted as the student nears completion of the didactic coursework listed on his or her plan of study. The final phases of the program shall comprise:

- Completion of significant research.
- A written dissertation acceptable to the doctoral faculty.
- Successful oral defense of the research work and dissertation.

Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission

When preparing an application for admission, applicants must choose two or more disciplines of primary interest. The applicant also must designate which one of the disciplines is to become the applicant's coordinating unit for initial advising, record-keeping and receiving/sending mail in the event that admission is granted. A student's research adviser must be affiliated with the student's coordinating unit discipline.

Application for admission to Interdisciplinary Ph.D. study is made to the dean of the School of Graduate Studies through the UMKC Admissions Office or, in the case of international applicants, through the UMKC International Student Affairs Office (ISAO). For additional program information, applicants should contact the School of Graduate Studies. E-mail requests may be sent to graduate@umkc.edu; the phone number is (816) 235-**1161**. Application information and an online application system are also available from the Web site: <http://www.umkc.edu/iphd/>

5100 Rockhill Road
Kansas City, MO 64110-2499

The general criteria for admission for Interdisciplinary Ph.D. program study are as follows:

- Graduate Record Examination (GRE) scores will be evaluated by the disciplines *[If an applicant's GRE scores are more than seven years old, and other predictors of ability to do doctoral-level work in the applicant's file are marginal, the applicant may be asked to retake the GRE general test before an admission decision is made].*
- A grade-point average of at least 2.75 (on a 4.0 scale) covering all college work taken prior to the bachelor's degree, or a grade-point average of at least 3.0 covering all post-baccalaureate work completed to date.
- Recommendation for provisional or full admission by the doctoral faculty review group in **at least two** participating disciplines.

Graduates of schools outside the United States may be considered for admission to this doctoral program at UMKC, subject to the following criteria.

1. They must have completed a course of study at least the equivalent of a U.S. baccalaureate degree.
2. They must have above-average grades in previous college study.

3. They are required to establish proof of adequate English proficiency as part of the UMKC admissions process. Applicants from countries in which English might be one of the official languages, but is not necessarily the first language of the majority of the population, must attain a minimum composite score of either 550(PBT), 213(CBT) or 80(iBT) on the Test of English as a Foreign Language (TOEFL), or a score of 6.0 on the IELTS to be considered for admission.* The results of the examination must be received in the UMKC International Student Affairs Office before the application deadline. Exceptions to this policy:
 - o Non-native speakers who hold degrees or diplomas from post-secondary institutions in English-speaking countries (such as the United States, Antigua, Australia, Bahamas, Barbuda, Belize, Canada, Dominica, Fiji, Gambia, Ghana, Guyana, Ireland, Jamaica, Liberia, Mauritius, New Zealand, Sierra Leone, Solomon Islands, South Africa, St. Christopher (St. Kitts), St. Lucia, St. Vincent, Tobago, Trinidad, Uganda, United Kingdom [England, Scotland, Wales and Northern Ireland], Zambia and Zimbabwe), provided they have spent a minimum of two years in successful full-time study there and English was the medium of instruction.
 - o International transfer students from other institutions in the United States or Canada who have spent a minimum of two years in successful full-time study.
4. In addition to 1 through 3 above, international graduate students must satisfy any program-specific admission criteria. For instance, the Graduate Management Admission Test (GMAT) is required for applicants for graduate study toward the M.B.A. degree. Several programs require TOEFL scores that are well above the minimum stated previously. The Graduate Record Examination (GRE), including the appropriate Advanced Test, is either required or strongly recommended for all other international graduate applicants. International students planning to apply are directed to consult the appropriate degree program listing for additional criteria and medical requirements.

*In the United States, the Educational Testing Service, Princeton, NJ 08541, U.S.A., can be contacted for application forms to take this test.

Contact <http://www.ils.org/> for information on the International English Testing System. Detailed information can be obtained from U.S. embassies, consulates general, bi-national centers and other offices throughout the world.

Participating disciplines may establish whatever additional criteria or higher standards they consider to be appropriate and such discipline-specific criteria will take precedence over the general criteria. Applicants should note that several discipline areas have set more rigorous admission requirements, and a number of discipline areas have established qualifying requirements for students who intend to include that discipline in their doctoral programs. These discipline-specific requirements range from specific prerequisite coursework, to successful completion of a qualifying examination, to having the equivalent of a master's degree in the area, to having higher scores on specific segments of the GRE and are listed in greater detail later in this section.

Students may apply for admission with or without meeting the general criteria of the School of Graduate Studies and any additional criteria established by the discipline areas. Meeting these criteria does not automatically make any student eligible for admission. In exceptional circumstances, students who do not meet the general criteria of the School of Graduate Studies and the disciplines may be admitted.

The School of Graduate Studies' minimum requirements for admission to the Interdisciplinary Ph.D. program are determined by the doctoral faculty in the academic units in which the student will be doing work, and by the UMKC doctoral faculty through representation on the Interdisciplinary Ph.D. Executive Committee. Admission to the program is subject to availability of adequate faculty and other resources within an applicant's chosen disciplines and the approvals of the dean of the School of Graduate Studies and the Interdisciplinary Ph.D. Executive Committee.

Application Procedure

The deadlines for applications varies by discipline.

Although new students in most disciplines may be accepted in all terms, some disciplines will only consider applications for the fall term.

Applicants are responsible for:

1. Submitting a completed **Application for Admission or Readmission to Interdisciplinary Ph.D. Studies** form to the UMKC Admissions Office, or in the case of international applicants, to the UMKC International Student Affairs Office (ISAO). All applications must be accompanied by the appropriate non-refundable application fee (\$35 for domestic applicants or \$50 for international applicants).
2. Submitting a *one-page narrative statement* outlining professional background and educational plans with the completed application form.
3. Having the following supplementary documentation sent to the UMKC Admissions Office:
 - o *Official test scores (GRE, TOEFL, etc.)*. The applicant must request the testing agency to send official GRE test scores to the School of Graduate Studies. The Educational Testing Service does not report GRE scores more than 20 years old or scores more than five years old but earned since Sept. 30, 1985.

- o *Official transcripts from all colleges attended.* All applicants must submit an official transcript from the school where their bachelor's degrees were obtained. This transcript must show all courses, grades and credits attempted or completed at the undergraduate level. Unless the transcript of the degree-granting institution shows the complete record of undergraduate work taken at all other schools, an official transcript from each of the other institutions must be supplied. In addition, applicants must submit an official transcript from each school where other coursework has been taken or degrees have been obtained after the bachelor's degree.
- o *Three letters of recommendation.*
- o *Any supplemental material requested by the discipline(s).* Note that several disciplines require professional writing samples, tentative outlines of plans of study, or other supplemental materials to complete the application packet. Applicants should consult the discipline-specific information to determine whether supplemental materials are required by the disciplines they select.
- o *Resumes / vita*

International applicants must submit the following additional forms:

1. Summary of Education Experiences by Years form.
2. Official Statement of Finances form.
3. If transferring from another U.S. institution, a Supplemental Information form.

All credentials submitted in support of the application for admission to the Interdisciplinary Ph.D. program become UMKC property. They will not be returned to the applicants and UMKC cannot copy them for release to a third party.

Once the UMKC Admissions Office or the ISAO has received the application, application fee (if applicable), and transcripts of previous work, the application file is transmitted to the School of Graduate Studies. The School of Graduate Studies notifies each applicant by mail when the application packet has been forwarded to them. If required test scores, recommendation forms or supplementary documentation appropriate to the applicant's discipline selections are missing at that time, the applicant will be advised of the date by which all materials must be received in order to have the application reviewed by the faculty review groups in the specified disciplines for admission in the terms requested. The School of Graduate Studies transmits completed application files to the doctoral faculty review groups in each discipline the applicant has indicated on the application form.

Faculty review groups usually will not take action on an application unless all supporting documentation is on file. Applicants with files that are incomplete at the time the discipline(s) review applications will be so notified and asked whether they wish to have their applications updated for consideration for admission in a subsequent term.

An applicant can expect the review and recommendation process to take approximately 30 days from the time all supporting documentation has been received. The faculty review groups in some disciplines review all applications as a group, while in other disciplines, applications are reviewed and acted upon on a revolving basis, as received. The review and recommendation process within the disciplines varies in length depending upon the disciplines' review policies.

For questions about the contents of their admission files, or to determine whether their applications have been transmitted to the School of Graduate Studies for review, applicants may call the Admissions Office (816) 235-**1111**. International applicants may check on the status of their applications by contacting the ISAO at <http://www.umkc.edu/isao/>. Once the application has been transmitted to the School of Graduate Studies, applicants may call (816) 235-**1161** for information on the status of their applications.

Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements

The following requirements pertain specifically to students pursuing Interdisciplinary Ph.D. programs. However, Interdisciplinary Ph.D. students are subject to, and also should refer to, those regulations common to all graduate students and the dissertation requirements common to all doctoral students included in the General Graduate Academic Regulations and Information section of this catalog. Students should also consult the specific requirements for the disciplines to which they have been admitted. Where discipline requirements are more stringent than the general requirements, the discipline requirements take precedence.

Change of Discipline by Admitted Students

Once a student is admitted to Interdisciplinary Ph.D. study, any change of disciplines requires a full review process by the disciplines, similar to the initial admission review. Forms to initiate this review may be obtained from the School of Graduate Studies or downloaded from their Web site: <http://www.umkc.edu/iphd>.

Interim Advisor

Once an Interdisciplinary Ph.D. student is admitted to the School of Graduate Studies, the dean, upon recommendation from the student's disciplines, identifies a doctoral-faculty member from each discipline to serve as the student's interim adviser in that discipline. Students who have had minimal prior graduate study will be encouraged to explore research opportunities before choosing fields of endeavor.

As the student progresses and develops focused research interests, the interim advisers are expected to assist in identifying potential research advisers among doctoral-faculty members in appropriate research areas with whom the student can discuss research plans. The interim advisers also provide academic guidance until the student selects a research adviser, has satisfied all qualifying requirements and is classified as fully admitted. The interim adviser in the student's coordinating-unit discipline reports on the student's progress to the dean of the School of Graduate Studies. If another faculty member has not been identified as the research adviser by the time the student is fully admitted and ready to formulate the plan of study, the interim adviser in the coordinating unit-discipline will automatically become the student's research adviser.

Qualifying Requirements for Full Admission

Admission to the Interdisciplinary Ph.D. program is granted on a provisional or fully admitted basis as determined by the doctoral faculty review group of the student's chosen discipline(s). Upon their acceptance as provisional Ph.D. students, applicants are notified of the specific qualifying requirements they must satisfy before they can be classified as fully admitted Ph.D. students. Provisional admission does not guarantee advancement to full admission, and full admission does not guarantee advancement to Ph.D. candidacy.

At the end of each academic year, the interim adviser reports the provisional Ph.D. student's progress toward satisfying the qualifying requirements to the dean of the School of Graduate Studies. When all qualifying requirements have been completed, the interim adviser requests that the student's classification be changed to fully admitted.

Research Adviser and Supervisory Committee

The chair and a majority of the members of a student's supervisory committee must be from disciplines certified as eligible to participate in the Ph.D. program. The student's research adviser must be a regular doctoral faculty member from the student's coordinating unit discipline.

The adviser assists the student in identifying other members of the doctoral faculty to form a supervisory committee appropriate to the student's research goals. A request for appointment of supervisory committee is included as part of the written proposal for the student's Ph.D. plan of study.

The supervisory committee shall consist of at least five members of the doctoral faculty, with a maximum of three from any one discipline and at least one from each chosen discipline. An outside reader may also be included on the supervisory committee as a non-voting member.

With one exception, that no more than one member of an Interdisciplinary Ph.D. student's supervisory committee may be an adjunct doctoral faculty member, and the adjunct member may not be counted toward the mandated representation from each discipline on the committee. Students with religious studies as their coordinating unit discipline may include two adjunct doctoral faculty members from religious studies on their supervisory committees. An adjunct doctoral faculty member can serve as co-chair but not as sole chair of an Interdisciplinary Ph.D. supervisory committee.

Annual Evaluation of Progress

During the spring semester, Interdisciplinary Ph.D. students, using forms provided by the School of Graduate Studies, must submit a summary of their accomplishments over the previous year and a projection of the progress they intend to make during the next academic year. Forms are submitted to their interim advisers or, if their supervisory committees have been formed, to the chairs of their supervisory committee. The faculty adviser or supervisory committee chair will review the student's report and meet with the student to discuss the student's progress and plans for the coming year. They will provide the student and the School of Graduate Studies with a copy of the

completed evaluation form. This process should be completed by no later than the end of the spring semester each year. Failure to meet this requirement may result in a hold being placed on the student's enrollment.

Plan of Study

After being granted full-admission status, a student chooses a research adviser and forms a supervisory committee. In consultation with the research adviser and other members of the proposed supervisory committee, the student prepares a proposed Ph.D. plan of study, obtains all required signatures and submits the proposed plan to the School of Graduate Studies for review and final approval by the Interdisciplinary Ph.D. Executive Committee. This submission will typically be accomplished during the first semester that the student is classified as fully admitted, and *must occur within 12 months* from the time that status has been achieved.

In addition to any coursework completed prior to admission that is being credited toward discipline-specific requirements, the written Interdisciplinary Ph.D. plan of study includes courses and other activities at UMKC that should normally be completed approximately two years from the time the Ph.D. student is fully admitted, a statement about overall plans for study and research, and a list of the proposed members of the supervisory committee.

The Interdisciplinary Ph.D. Plan of Study Guidelines:

- The plan of study must include coursework from all the student's disciplines and must satisfy all of the applicable discipline-specific core requirements.
- The plan of study must include at least 30 didactic hours beyond the baccalaureate degree, exclusive of thesis or dissertation research hours, in courses taken at UMKC or courses taken at another institution and approved for transfer by the student's supervisory committee.
- Didactic coursework on the plan of study will include a minimum of nine credit hours in a co-discipline area.
- No more than 60 percent of the total coursework taken at UMKC and listed on the plan of study, exclusive of thesis or dissertation research hours, will be in any one discipline.
- All plans of study must include a minimum of 12 hours of dissertation research (5696-5699) credit.
- At least two-thirds of the total courses included on the plan of study must be numbered 5500 or above if taken at UMKC, or, if taken from an institution with a course-numbering system that differs from UMKC's, they must be courses intended primarily for graduate students.
- UMKC courses at the 100 and 200 levels, and courses with equivalent lower-division numbers taken at another institution, are not available for graduate credit and may not be applied toward the hours required for the degree nor included in the discipline percentages.
- At least 75 percent of the coursework on the plan, exclusive of dissertation credits, must be in disciplines certified as eligible to participate in the Interdisciplinary Ph.D. program.
- Students' needs will be examined on a case-by-case basis by their supervisory committees, and appropriate language or related research skill requirements will be incorporated into each student's plan of study.
- The plan of study will include a brief description of the course focus and the name of the supervising professor for any independent study courses listed.
- The plan of study will specify which courses are being used to satisfy the residency requirement.
- The plan of study will outline the comprehensive examination expectations.
- The plan of study will include a preliminary research proposal for the dissertation research, including key bibliographic references.

If modifications to discipline-specific requirements are made after the student is admitted, the student has the option of proceeding under either the requirements in place at the time he or she entered the Ph.D. program or the current requirements.

Plan of Study Approval Process

Once the supervisory committee members and student have agreed on and signed the plan of study, appropriate academic officers corresponding to the student's choice of disciplines [dean(s) or program director(s), department chair(s), division head(s), etc.], must then review and certify by signature that the courses and all other resources are currently available at UMKC and in the respective units for the student to initiate the plan of study. The student then submits the certified plan of study to the dean of the School of Graduate Studies for review and approval by the appropriate subcommittees of the Interdisciplinary Ph.D. Executive Committee.

The subcommittees of the Interdisciplinary Ph.D. Executive Committee will accept Ph.D. plan of study proposals for review only if:

- The Ph.D. coursework falls within the guidelines outlined above.
- The student will enroll at UMKC for dissertation credit under the supervision of a UMKC member of the UM doctoral

faculty.

- The plan includes written assurance from the appropriate academic officers that:
 1. adequate faculty, laboratories, library support and all other necessary resources are presently available at UMKC to support the proposed Ph.D. plan of study, and
 2. the courses included in the plan are either presently available at UMKC or can be taken by the student as a visiting student in a time period less than that required to satisfy the residency requirements on the other campus.

The appropriate Interdisciplinary Ph.D. executive committee subcommittees will review the certified plan of study within 60 calendar days and will either recommend to the dean of the School of Graduate Studies approval of the plan as presented or will return the plan to the student with recommendations for modification. Once the proposed plan of study and supervisory committee are approved by the Interdisciplinary Ph.D. executive committee, the dean of the School of Graduate Studies will confirm the appointment of those doctoral-faculty members who will serve as the student's supervisory committee and file the plan with the registrar. Any further modifications of the plan of study must be made in consultation with the student's supervisory committee and major modifications must be approved by the Interdisciplinary Ph.D. Executive Committee.

Residency Requirement

Interdisciplinary Ph.D. students must satisfy the doctoral residency requirement by satisfactory completion of at least 21 credits, exclusive of dissertation research, in no more than 18 months. When satisfying the residency requirement, all Interdisciplinary Ph.D. students are subject to the following restrictions:

1. The doctoral residency requirement must be satisfied no later than the end of the semester in which the student completes his or her comprehensive examinations.
2. Students must achieve a cumulative graduate grade-point average of at least 3.0 in all courses counted toward satisfying the residency requirement.
3. Dissertation research credits (5696-5699) may not be counted toward satisfying the doctoral residency requirement.

Transfer Credit

Interdisciplinary Ph.D. plans of study are tailored to the needs of individual students based on their prior academic work as evidenced by transcripts and other credentials. An approved plan of study may recognize class work from other institutions as determined by the student's supervising committee, either as qualifying courses or as relevant to a program of study.

Comprehensive Examination

To advance to degree candidacy, Interdisciplinary Ph.D. students are required to pass a comprehensive examination that integrates components of each discipline to which they have been admitted. Either the written or oral or both component(s) of the comprehensive examination must include an evaluation of the student's ability to integrate content, theory and/or methods from each specified discipline. The doctoral comprehensive examinations must be completed at least seven months before the date of graduation.

The following requirements must have been met before students can take the comprehensive examination(s):

1. Successful completion of all qualifying requirements and full admission to the School of Graduate studies.
2. Appointment of a research adviser and supervisory committee.
3. Filing and approval of the Ph.D. plan of study and completion of essentially all coursework or other study required for the degree.

The student must be enrolled when taking the comprehensive examination. Comprehensive examinations are not administered when UMKC is not officially in session. The comprehensive examination may be written, oral or both. A student, through his or her adviser, applies to the dean of the School of Graduate Studies for an examining committee. This committee consists of members of the student's supervisory committee and others approved by the dean of the School of Graduate Studies. The examination is arranged and conducted by the examining committee. Upon completion of the examination, the student's research adviser sends a report of the results, carrying the signatures of all members of the examining committee, to the dean of the School of Graduate Studies, who then informs the student and the registrar. A student is considered to have passed the comprehensive examination if no more than 20 percent of the committee members vote for failure of the student. If failure is reported, the examining committee will either recommend termination as a Ph.D. student or suggest additional work or other remedial measures. Furthermore, a student who has failed may not take a second examination for at least 12 weeks. Failure of the second comprehensive examination shall automatically preclude candidacy at this institution.

Program Time Constraints

The doctoral student must take and pass the doctoral comprehensive examination and advance to candidacy within five years from the beginning of doctoral coursework (within four years if entering with a master's degree in the same or closely related field). After the establishment of degree candidacy, a maximum of five years will be allowed for completion of degree requirements. Failure to complete the work within the periods specified will necessitate re-evaluation of the entire program and may result in a notice of termination. In compelling circumstances and on the written recommendation of a majority of the student's supervisory committee members, the dean of the School of Graduate Studies may grant a one-year extension. Some academic units may impose more stringent time requirements.

Dissertation Research Proposal Development and Approval

The student's supervisory committee must approve the research activities associated with a dissertation. These activities must be performed under the direct and continuing supervision of the supervisory committee chair. If the proposed research involves the use of human subjects, animals or radioactive materials, the student and the research adviser must obtain prior written approval of the proposed research by the appropriate Institutional Review Board, the Animal Care and Use Committee or the Radiation Safety Committee.

For the approval process, the Ph.D. candidate must submit a brief dissertation research proposal. The dissertation proposal shall include the following:

- An abstract.
- A statement regarding the general purpose of the research.
- Background information, including a review of the relevant literature, the rationale for the research and a concise statement of the hypotheses to be investigated and/or the research questions to be answered.
- Methods.
- Appropriate protocol or application if human subjects, animals or radioactive materials are to be used in the research.

This proposal must be approved in writing by all members of the student's supervisory committee and filed with the School of Graduate Studies. It is in the best interest of the Ph.D. student to complete the approval process of the dissertation research proposal before significant progress is made on the completion of the dissertation. Any important changes in the research outlined in the proposal must be approved by the supervisory committee.

Dissertation and Completion of Degree

Doctoral Dissertation Requirement

All UMKC Ph.D. degrees require a dissertation as the final component of the program. The doctoral faculty view the dissertation as one of the most important aspects of the student's experience because:

- It is a work of original research or scholarship that makes a contribution to existing knowledge.
- It is an educational experience that demonstrates the candidate's mastery of research methods and tools of the specialized fields.
- It demonstrates the candidate's ability to address a major intellectual problem.

For regulations pertaining to formatting the dissertation and the process for approval, the reader is directed to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this catalog section.

Final Dissertation Examination

Final examinations in defense of the dissertation are open to all members of the doctoral faculty, who may attend as interested observers. The format and procedures of the defense are determined by the supervisory committee and its chair. The date, time and location must be announced and published at least two weeks before each final examination takes place. This examination may be conducted only after the dissertation has been approved by the dean of the School of Graduate Studies, and may not be administered when UMKC is not officially in session.

The defense of the dissertation is approved when a majority of the supervisory committee recommend approval and sign the Report of the Result of Final Doctoral Examination form. Within 48 hours of the defense, the supervisory committee chair will report the results of the final dissertation examination in writing to the candidate.

Deposit of Approved Dissertation with Libraries

For regulations pertaining to deposit of the approved dissertation with the libraries, please refer to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this catalog section.

Appeal Process

Students should process any petitions for waiver of policy or other academic appeals to their interim advisers or research advisers. The advisers should attach their recommendation and forward the request to the doctoral faculty review groups within the disciplines.

If the appeal does not require a policy decision, action on the appeal may be handled at the discipline level. If a policy decision is required or if, after action by the discipline, the student wishes a higher level of review of the case, the appeal or petition, complete with documentation of all reviews up to that point, may be forwarded to the dean of the School of Graduate Studies for action or referral to the appropriate subcommittees of the Interdisciplinary Ph.D. Executive Committee.

Mission and Administrative Organization of Graduate Education

UMKC currently offers more than 50 graduate degrees at the master's, educational specialist and doctoral levels, plus a number of graduate certificates. Graduate students represent about 26 percent of the total campus enrollment. The graduate student population is diverse in ethnicity, gender and racial background. As an urban university, our programs strive to accommodate adult working students. Nearly two-thirds of all graduate students are enrolled part time and the average age is 35.

The Graduate Council, representing a cross section of campus graduate faculty, sets policy, establishes minimum graduate education standards and monitors the quality of graduate education at UMKC. The graduate faculty in the various graduate degree programs may set standards more stringent than the minimums outlined in this catalog section, and in such cases, the program standards take precedence over the campuswide minimum regulations. The School of Graduate Studies is responsible for monitoring compliance to the campuswide minimum graduate academic regulations; providing leadership and coordination of all graduate programs; and serves as the academic home for students admitted to the Interdisciplinary Ph.D. program. Information on the [Interdisciplinary Ph.D. program](#) may be found in the School of Graduate Studies section of this catalog.

Interdisciplinary Ph.D. Discipline-Specific Requirements

All Interdisciplinary Ph.D. applicants and students must first meet the general requirements of the School of Graduate Studies for admission and retention in the Interdisciplinary Ph.D. program. (General Graduate Academic Regulations and Information, Application Procedure and Minimum Criteria for Admission, Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.) In addition to these general academic regulations that have been outlined in previous sections of the general catalog, disciplines may set more stringent discipline-specific requirements that take priority over the general requirements. Discipline-specific requirements for disciplines eligible to participate in the Interdisciplinary Ph.D. program are listed in alphabetical order by name of discipline. These guidelines are subject to ongoing review and revision, and the doctoral faculty reserves the right to make judicious changes in discipline-specific requirements. The student is referred to coordinators in the disciplines for the most current information.

Student Learning Outcomes

The course requirements for the program are not predetermined, but rather formulated by the student in consultation with the UMKC doctoral faculty who will serve on their supervisory committee, to meet the student's individual needs and research interests, satisfy discipline-specific requirements and assure upon graduation students are able to:

- Demonstrate appropriate depth and breadth of knowledge in their disciplines.
- Use skills of interdisciplinary scholarship and research to integrate multiple perspectives.
- Work effectively in a collaborative environment.
- Effectively communicate results of their research to diverse audiences.
- Understand and value diverse approaches to problems.
- Use self-reflection for personal and professional improvement.

Art History

Discipline Coordinator

Maude Southwell Wahlman, (816) 235-2986, wahlmanm@umkc.edu

[Click here to see Art and Art History faculty who are members of the doctoral faculty.](#)

Art History is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

In addition to the general criteria for admission, applicants will be expected to have an undergraduate degree in art history, anthropology or history and an undergraduate minimum GPA of at least 3.0 on a 4.0 scale. An M.A. in art history is desired. Prerequisite coursework: Survey of World Arts. New students will be considered for admission for fall and spring semesters. Submit applications by Jan. 31 for fall admission or Sept. 1 for spring. In addition to the required application form, test scores, recommendations and transcripts, applicants must provide a written research plan and a research writing example. Presently only students with an interest in non-Western arts are encouraged to apply.

Suggested Compatible Co-disciplines

Curriculum and instruction, economics, English, history, religious studies and sociology.

Core Requirements

Art History as a Coordinating Discipline

Required courses:

ART 5501 Scope and Methods of Art History*
ART 5573 Visual Arts Administration*
Seminars in African, African-American, MesoAmerican and
Native American Arts.

* Research methodology courses.

Remaining credits depend upon what courses the student has taken before coming into the program. Students will generally design a total plan of study (coordinating discipline and co-discipline coursework) that includes 60 hours beyond the baccalaureate degree or 30 hours beyond the master's degree if in Art History.

Art History as a Co-discipline

Required courses:

ART 5501 Scope and Methods of Art History

Seminars in African, African-American, MesoAmerican or Native American Arts.

Remaining credits depend upon what courses the student has taken before coming into the program.

Requirements for Comprehensive Exams

Oral and written comprehensive exams are required, with questions based on courses taken.

Other Special Discipline-Specific Requirements

Two foreign language requirements: As determined by the Faculty Advisory Committee for each student, who will master a reading knowledge of two foreign languages, for the coordinating-unit discipline of art history and for art history as a co-discipline. The foreign language requirement should be satisfied by the time 18 hours of graduate credit have been taken toward the Interdisciplinary Ph.D. The Faculty Advisory Committee must include two art historians. Students must meet with their Faculty Advisory Committee at least once each semester. Students must complete Annual Evaluation forms each spring.

Cell Biology and Biophysics

Discipline Coordinator

Karen Bame, (816) 235-2243, bamek@umkc.edu

[Click here to see Cell Biology and Biophysics faculty who are members of the Doctoral Faculty](#)

Cell Biology and Biophysics is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

No additional requirements. Due to the sequencing of coursework, new students selecting cell biology and biophysics as their coordinating unit will normally only be admitted in the fall term. In general, initial admission will be granted into an M. S. track leading to full admission to the Ph.D. program.

Qualifying Requirements for Full Admission

Minimum of 16 hours of approved graduate coursework at UMKC toward the Ph.D. program with a grade-point average of at least 3.0. International students must establish English proficiency.

Suggested Compatible Co-disciplines

Other sciences such as chemistry, molecular biology and biochemistry, pharmaceutical science, pharmacology, oral biology, or physics.

Core Program Requirements

For Students with this Discipline as their Coordinating Unit

Minimum Core

33 credit hours of courses and 15 credit hours of dissertation research for a total of 48 credit hours of post-baccalaureate credits, distributed as indicated below. The core courses should be completed by the end of the second academic year after admission to the graduate program on a full-time basis (individual arrangements will be made for part-time students).

- 30-credit-hour minimum core of courses and competencies.
 - 13 to 17 credits in cell biology and biophysics (5500-level or higher), including:

- LS-CBB 5596 or 5597 Advanced Experimental Cell Biology and Biophysics (two credits)
- LS-CBB 5612 Seminar in Cell Biology and Biophysics (two credits)
- LS-CBB 5530 Cellular and Molecular Biology I (three credits)
- LS-CBB 5520 Cellular and Molecular Biology II (three credits)
- LS-CBB 5501 Graduate Biophysical Principles
- 3 to 6 credits selected from among the following three-credit-hour courses: LS-CBB 5566 Membrane Biochemistry, LS-CBB 5569 Structural Biology, LS-CBB 5504 Graduate Virology, or LS-CBB 5505 Molecular and Cellular Neurobiology.
- LS-CBB 5690/LS-MBB 5690 Analytical Methods (five credits)
- 9 to 12 credits in related disciplines. Related disciplines are molecular biology and biochemistry, chemistry, pharmaceutical sciences, pharmacology and oral biology, although others are not precluded.

Seminar courses are part of this component of required courses, up to a maximum of three for the program, as are additional credits of Advanced Experimental Molecular or Cell Biology (a total of four credits in experimental laboratory courses, independent of thesis research, is required). 5700-level courses may not be used to satisfy cell biology and biophysics discipline-specific course requirements.

Any of the above courses, whether part of the primary or related discipline requirements, will be credited toward the 30-credit Ph.D. course requirement if taken as part of any graduate program at UMKC and if a grade of B or better is received.

- At least 15 credit hours of dissertation research in cell biology and biophysics.

In addition to basic 30-credit course core, each student's supervisory committee may require up to nine credit hours in additional elective courses in any University-approved doctoral discipline as preparation for specific areas of research. No more than seven credit hours of 5500-level courses, or their equivalent, can be taken at institutions outside UMKC.

For Students with this Discipline as a Co-discipline

Students who select this discipline as a co-discipline must take a minimum of 11 credit hours of core courses, plus seminars, including the following:

- LS-MBB 5561 General Biochemistry I (four credits)
- LS-MBB 5562 General Biochemistry II (four credits)
- LS-CBB 5612 or LS-MBB 5611 (1 credit)
- A sufficient amount of other core courses to constitute the required percentage of their overall program of study. 5700-level courses may not be used to satisfy cell biology discipline-specific course requirements.

Other Discipline-Specific Special Requirements

Students with this discipline as a coordinating unit must participate in the teaching program of the School of Biological Sciences.

Students with this discipline as a coordinating unit or co-discipline must participate in seminars.

Retention in Program

No more than one C grade will be permitted in basic core coursework. If a student with this discipline as the coordinating-unit discipline receives more than one C grade in a basic course, he or she will be dropped from the doctoral program. Students with this discipline as a co-discipline who receive more than one C grade will be dropped from the discipline.

A minimum grade of B in LS-MBB 5561 and 5562 is required to remain as a doctoral student in this discipline.

For students with this discipline as their coordinating-unit discipline, no more than two C grades will be allowed in any courses and no D or F grades are permitted. A student who receives more than two C grades or a D/F grade will be recommended for termination from the doctoral program.

The doctoral faculty in cell biology and biophysics meets formally at the end of each academic year to discuss and evaluate all graduate students' progress. Each student's committee also meets with the student at least once a year. After the annual doctoral-faculty meeting, each student receives a written evaluation of his or her status and a report is placed in the student's file.

Comprehensive Examination Regulations

Full-time students with cell biology as their coordinating-unit discipline must take their comprehensive examination before the beginning of the third academic year after admission to Ph.D. study. Part-time Ph.D. students in this discipline must complete their comprehensive examination immediately after completion of the 25-hour course requirement on their Ph.D. plan of study.

Format

For students with this discipline as their coordinating-unit discipline, written and oral examinations are required.

Written Portion

The written examination, for students who have cell biology and biophysics as their primary discipline, has two components. The first component consists of a written, general comprehensive examination testing an integrated knowledge of material acquired through the courses and the seminar series in the coordinating-unit discipline and co-discipline. The second component of the written examination consists of an NIH-style grant proposal that the student will prepare. The topic of the research proposal will be determined by the student in consultation with the student's supervisory committee.

Oral Portion

The oral examination has two aspects: (1) questions covering the grant proposal prepared by the student for the written examination and (2) other related material in the student's area of specialization, including fundamental knowledge of the student's chosen disciplines.

Chemistry

Discipline Coordinator

Kathleen Kilway, (816) 235-2289, kilwayk@umkc.edu

[Click here to see Chemistry faculty who are members of the doctoral faculty.](#)

Chemistry is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Admission Requirements

Chemistry as a Coordinating Unit

Normally, only applications to full-time academic status will be considered. To qualify for full admission (Note: full admission is unrelated to full-time academic status), applicants are expected to have the equivalent of an American Chemical Society-approved bachelor's degree in chemistry, which includes coursework in general chemistry, analytical chemistry, one year of organic chemistry, inorganic chemistry and one year of physical chemistry requiring calculus and physics as prerequisites. (For example, see UMKC's B.S. program in the Chemistry section in this catalog.) Applicants will be admitted as provisional students with a limited number of undergraduate deficiencies. They will be notified, at the time admission is offered, of any requirements to be met for reclassification as fully admitted. Undergraduate courses included in these requirements must be completed with grades of "C" or higher.

Recommended Compatible Co-disciplines

Curriculum and instruction, engineering, geosciences, mathematics, pharmaceutical sciences, physics, and pharmacology.

Chemistry as a Co-discipline

Applicants are expected to have undergraduate coursework in general chemistry and organic chemistry. Applicants accepted as provisional students will be notified, at the time admission is offered, of any requirements to be met for reclassification as fully admitted. Undergraduate courses included in these requirements must be completed with grades of "C" or higher.

Core Requirements

Chemistry as a Coordinating Unit

Coursework Requirements

Students are to see the principal graduate adviser, or their research adviser, for advising and signature prior to registering each semester.

Students must successfully complete a minimum of one course from Group A; one course from Group B; one additional course from Group A or B; one elective course (three credit hours) from any course numbered 5500 or above, except for those excluded below; and one credit hour of chemistry seminar (CHEM 5611). A grade of C+ (2.3) or less in more than two chemistry courses applicable to the Ph.D. program will result in termination from Ph.D. candidacy.

Group A: CHEM 5531, 5532, 5533, 5534, 5535 and 5541R

Group B: CHEM 5521R, 5522, 5551R and 5571R

Excluded as electives: CHEM 5511, 5512, 5520R, 5530, 5540R, 5590, 5595, 5598, 5599, 5611, 5612, 5613, 5699, 5899.

In addition, students must successfully complete nine credit hours of 400-level or above coursework in their co-discipline (s). (A minimum of three of these credit hours must be at the 5500+ level.) Students may be required to take additional courses as outlined by their plan of study.

Any of the above chemistry courses will be credited toward the Ph.D. coursework requirement if taken as part of any previous graduate program at UMKC and a grade of B- (2.7) or better is received. Also, students who have received a grade of B- (2.7) or better in graduate chemistry coursework taken as part of a degree program at another institution may have up to six credit hours of equivalent required coursework waived upon approval of a majority of the supervisory committee. A written request for this waiver is to be submitted and approved before submission of the student's plan of study.

Courses/Experiences Providing Instruction in Research Methodology

Expertise in research methodology will be acquired under the mentorship of the research adviser and supervisory committee. The student's progress will be assessed annually by his/her supervisory committee and the results will be forwarded to the School of Graduate Studies.

Number of Credit Hours Required beyond Bachelor's Degree

A minimum of 13 credit hours of chemistry courses (including chemistry seminar) and 24 credit hours of dissertation research plus a minimum of nine credit hours of co-discipline courses are required. However, up to six credit hours of chemistry may be waived, as described above under Coursework Requirements.

Chemistry as a Co-discipline

Coursework Requirements

Students are required to complete a minimum of three courses (nine credit hours) at the 400-level or above from classes offered by the Department of Chemistry or in conjunction with other units as approved in the student's plan of study. At least three of these credit hours must be at the 5500+ level and taken from courses offered by the Department of Chemistry. The systematic courses CHEM 5520R, 5530 and 5540R may be used to satisfy the "400-level or above" requirement, but not the "5500+ level" requirement. CHEM 5590, 5599 and 5699 may not be used to satisfy these requirements. Students who receive a grade of C+ (2.3) or less in two or more courses used to satisfy these requirements will be disqualified from using Chemistry as their co-discipline.

Any of the above chemistry courses will be credited toward the Ph.D. coursework requirement if taken as part of any previous

graduate program at UMKC and if a grade of B- (2.7) or better is received. Transfer credit from another institution cannot be applied to Chemistry's co-discipline requirement.

Special Requirements

Chemistry as a Coordinating Unit

Placement Examinations

Incoming students take placement examinations in analytical, inorganic, organic and physical chemistry. Placement examinations are typically administered the week preceding the first week of classes of the fall and spring semesters. Students scoring below the 50th percentile in the organic and/or physical chemistry exams are required to enroll in CHEM 5520R and/or CHEM 5530, respectively. Enrollment in other graduate organic or physical chemistry courses is not permitted until CHEM 5520R and/or CHEM 5530, respectively, is(are) successfully completed. Two grades of C+ (2.3) or lower, or one grade of less than C- (1.7) in CHEM 5520R / CHEM 5530 will result in termination from the degree program. These courses may not be counted toward the coursework requirements above. Students must complete all additional coursework required as a result of the placement exam scores by the end of their first three regular semesters.

Research Adviser

Full-time students are to select a research adviser from the doctoral faculty of the Department of Chemistry and a supervisory committee by the end of their first regular (e.g. fall or spring) semester on campus.

Seminar

Students are required to attend and participate in all regularly scheduled and special Chemistry Department seminars and colloquia. Students are required to present a one-hour chemistry seminar (CHEM 5611) during their second year following full admission to the Ph.D. program, based on their dissertation research project. This seminar will include a thorough review of the literature pertinent to their project and a description of the objectives, the proposed methodology and the significance of this research. An abstract is to be posted and distributed one week prior to the presentation date.

Time Constraints and Financial Support

Students must complete all requirements for their degree within seven years from the date of full admission to the Ph.D. program. Under compelling circumstances and on the written recommendation of a majority of the supervisory committee, a single extension for up to one year may be requested for approval by the dean of the School of Graduate Studies. Full-time (as defined in the current UMKC catalog) Ph.D. students may receive financial support (in the form of fellowships or teaching assistantships) from the Department of Chemistry for a maximum of five years. Students from countries not having English as their first language, and who are to be supported as graduate teaching assistants, are to take the SPEAK test before the end of the first week of their first semester on campus. They are to enroll in English 100E their first semester on campus if necessary.

Dissertation

Students must complete a minimum of 24 credit hours of dissertation research (CHEM 5699). All supervisory committee members are to receive a final draft of the dissertation for approval of form and content at least two weeks before submission to the dean of the School of Graduate Studies for certification. Candidates should submit preliminary drafts well in advance of this deadline. After the dissertation is certified for acceptance, the student must present an oral defense of his/her research in the form of a dissertation seminar. The supervisory committee will make a final determination of the acceptability of the dissertation immediately following this presentation. Only minor changes may be made to the dissertation at this point.

Expectations for Interdisciplinary Work

Chemistry as a Coordinating Unit

Students develop and pursue a plan of study that includes coursework from the coordinating unit and co-discipline(s). The interdisciplinary nature of the student's program is emphasized in the comprehensive examination, which includes material from all disciplines in the plan of study.

Chemistry as a Co-discipline

The Department of Chemistry will cooperate with the student's coordinating unit in assessing the interdisciplinary nature of the student's progress.

Comprehensive Examination Guidelines

Chemistry as Coordinating Unit

A written comprehensive examination will be prepared and administered by the examination committee (consisting of the student's supervisory committee and others selected by the dean of the School of Graduate Studies) before completion of the student's third year following full admission to the Ph.D. program. This examination will be based on the student's coursework and on general knowledge in all areas of his/her specialization. All efforts will be made to emphasize the multidisciplinary nature of the student's program in this examination. If the student fails the written portion of the comprehensive examination, he/she may petition the examination committee to allow for a single opportunity to retake it. This second examination must be completed no earlier than 12 weeks and no later than six months from the date of completion of the first examination.

After successful completion of the written portion of the comprehensive examination, an independent research proposal will be prepared describing a research project not related to the student's current research. The topic is to be approved by the examination committee. An abstract is to be posted and distributed, and a written copy of this proposal (in standard NSF or NIH format) given to all members of the examination committee at least one week prior to presentation in a proposal seminar. This seminar must be presented to all members of the examination committee within seven weeks of the completion date of the written portion of the comprehensive examination. The research proposal and proposal seminar are part of the comprehensive examination.

Chemistry as a Co-discipline

The comprehensive examination will be determined by the student's coordinating unit in cooperation with the co-discipline(s).

Computer Science

Discipline Coordinator

Vijay Kumar, (816) 235-2366, kumarv@umkc.edu

[Click here to see Computer Science faculty who are members of the doctoral faculty.](#)

Computer Science is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

A student who meets the minimum discipline requirements stated below will be considered for regular full admission to the Ph.D. program. In case a student who meets the requirements partially but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of student's interest, availability of adviser, the quality of previous work, etc. A student not qualifying for admission to the Ph.D. program may be automatically considered for admission to the M.S. computer science program.

Academic Preparation

The applicant must have a bachelor's degree and/or a master's degree in computer science, computer engineering, electronics, communications engineering or any other field requiring substantial training in at least one of the above fields and in mathematics with a GPA of 3.5 or better, cumulative as well as in the major field; and a GPA of 3.5 or better in all post-baccalaureate or post-master's degree work.

Aptitude for Advanced Work

The student must demonstrate an aptitude for advanced-level work through national/international standardized examinations such as the GRE. The expected performance level is the 70th percentile in the quantitative portion of the GRE examination. The student must also show an excellent performance in all of his or her coursework.

Proficiency in English

The student must demonstrate his or her proficiency in oral and written communication in English through national/international standardized English examinations such as TOEFL, verbal portion of the GRE, etc. The expected proficiency level is the 50th percentile in the verbal portion of the GRE or a TOEFL score of 263 or above (230 CBT). UMKC students may also satisfy this requirement by obtaining an English Proficiency Certification from the English Department. **[Note:** As per University policy, all international students go through the English proficiency test upon arrival to the campus, regardless of their scores in TOEFL or verbal portion of GRE or any other test. A student's adviser may also require the student to take the above test, irrespective of the student's native language. As a result of this test, the student may be required to improve his or her oral and written communication in English before enrollment in the courses of the chosen disciplines.]

Recommendations

The student must provide at least **three** recommendation letters, identifying clearly his or her academic achievements and exceptional quality, from the professors from his or her previous institution(s). If the applicant has been out of school for several years, recommendation letters from his or her supervisors (technical) will be acceptable. However, even in this situation, a recommendation letter from his or her last academic institution is highly recommended. A recommendation from a faculty member in the Computer Science Electrical Engineering (CSEE) Department at UMKC must be provided if the student has taken courses from or worked with the CSEE faculty.

Statement of Goals and Objectives

The applicant must provide a 250- to 500-word essay on his or her goals and objectives of pursuing the Ph.D. in the chosen fields. This is an important document for reviewing the application. Applicants, therefore, are advised to provide a clear account of their academic achievements and plan for higher study.

Admission at an Advanced Level

An applicant who has already completed significant graduate coursework (15 or more semester hours of post-master's work or 30 or more hours of post-bachelor's work) toward a Ph.D. at another institution must provide reasons for changing institutions. The applicant must also provide a letter of endorsement from a computer science doctoral faculty member indicating willingness to be the student's research adviser.

Alternate Admission Criteria

The applicant may have received a bachelor's degree or a master's degree in computer science, computer engineering, electrical engineering or electronics, or any other related field with substantial training in mathematics. An applicant not meeting the minimum admission requirements, or not having sufficient academic preparation (stated below under prerequisite knowledge) for advanced work in the chosen coordinating discipline(s), may be considered for provisional admission by the CSEE Department Ph.D. committee if the committee sees high potential and preparation for advanced work from the rest of the applicant's credentials. Evidence of high potential might be pertinent work experience, published papers or extremely high achievement in related areas. In any case, the required GPA (or GPAs) must be at least 3.0 and the coursework deficiencies for doctoral study in computer science must not be more than 18 semester hours. Applicants with an established research or publication record in a quantitative science are encouraged to apply.

Qualifying Requirements for Full Admission

Prerequisite Knowledge

It is expected that a Ph.D. applicant selecting Computer Science as the coordinating discipline have the level of preparation represented by the following courses. An applicant with only a B.S. degree in computer science must have at least a GPA of 3.25/4.0 and an applicant with at least a year of graduate work must have at least a GPA of 3.5/4.0 before attempting advanced study.

- Computer Science: COMP-SCI 291, COMP-SCI 352, COMP-SCI 394R, COMP-SCI 431, COMP-SCI 451, COMP-SCI 470,

COMP-SCI 481.

- Mathematics: MATH 300.

Length of Time to Complete Qualifying Requirements:

When a student is admitted provisionally, the CSEE Ph.D. Committee will specify, and the UMKC Interdisciplinary Executive Committee will confirm, the conditions and length of time available to satisfy them to achieve full admission status.

Suggested Compatible Co-disciplines

Telecommunications and computer networking, electrical and computer engineering, mathematics, physics, chemistry (computational focus), engineering (civil and mechanical focus), cell biology and biophysics, molecular biology and biochemistry, oral biology, pharmaceutical sciences, pharmacology, geosciences, and economics. A co-discipline outside of this list may be considered in exceptional cases.

Core Program Requirements

The amount of work required for the Ph.D. depends on the student's level of preparation. For example, a student entering the Ph.D. program after earning a bachelor's degree may expect to do significantly more work compared to the student who enters after earning a master's degree.

Computer Science as a Co-Discipline

A Ph.D. student selecting Computer Science as co-discipline is expected to have the level of preparation represented by the following courses before attempting advanced study:

- COMP-SCI 352, COMP-SCI 394R, COMP-SCI 451, COMP-SCI 470, Mathematics: (Full Calculus Series: MATH 210 - Calculus I, MATH 220 - Calculus II, MATH 250 - Calculus III).

A Ph.D. student must clear the qualifying test and comprehensive test before defending his or her dissertation. The discipline's course requirements and qualifying test procedure is described below.

Discipline Course Requirements and Qualifying Test

The total Interdisciplinary Ph.D. course credit (didactic) requirement is 30 hours which is divided into (a) coordinating discipline (12 credits), (b) co-discipline (9 credits), and (c) the rest 9 credits can be completed either by doing graduate level courses at UMKC in any participating discipline or credits can be transferred from students' previous institution. This credit transfer must be approved by the Ph.D. committee of Computer Science Electrical Engineering department of SCE.

Ph.D. Qualifying Test for Computer Science Discipline

The qualifying test is conducted to confirm that the student has a sound understanding of the fundamentals of computer science and has developed good problem solving skills and research potential. This document includes the syllabus and describes the procedure for taking the qualifying test in Computer Science discipline.

Eligibility

The student must be fully admitted to the Ph. D program at UMKC. Students admitted provisionally will have to satisfy all requirements stipulated in the letter of admission before being fully admitted.

Duration for clearing Qualifying Test

A student, irrespective of being full-time or part-time, must take the qualifying test by the third semester from the date he/she is fully admitted. For example, if a student is fully admitted in Fall 2009, then he/she must take the qualifying test in Fall 2010. Failure to do so will disqualify the student from continuing in the Ph.D. program. Upon consultation with his/her interim advisor, a student may opt to clear the qualifying test earlier than the third semester. If a student fails the qualifying test in the first attempt then he/she MUST retake it in the subsequent semester. Failure to clear the test in the second attempt disqualifies the student from remaining in the Ph.D. program.

Qualifying Test Dates

Qualifying tests are administered twice a year, on the second Friday of April and November.

Qualifying Test Procedure

1. Registration: Eligible Ph. D. students must register to take the test. The registration deadline is March 31 for the April test and October 31 for the November test. Eligible students should send an e-mail with the following information to the Student Services Coordinator (Coretta Carter) and the Discipline Coordinator.

- a. Name
- b. ID
- c. E-mail
- d. Coordinating discipline and Co-discipline
- e. Interim advisor's name
- f. Preferred semester for taking the test.

2. Registration Notification: Students will be notified by e-mail.

3. Taking the Test: Students take the test on the prescribed date.

Test Duration: Four hours.

Test Result

The Discipline coordinator will make the result of the test available within two weeks from the date of the test. The minimum passing grade is 70%. The result could be one of the following.

a. Pass: The student proceeds to the next level of the Ph. D. curriculum. He/She prepares the plan of study and finalizes the composition of his/her supervisory committee. The plan is submitted to the graduate office for approval.

b. Fail: If a student fails then he/she must retake and clear the test in the subsequent semester. Failure to clear the test in the second attempt will disqualify the student to continue with Ph. D. program.

c. Case for discussion: If a student secures between 67% and 70%, then the case will be reviewed. This discussion is open to any doctoral faculty member of the discipline. If the decision of the committee is a Fail on the second attempt then the student cannot continue in the Ph. D. program.

Test Format

The test will have two parts: (a) Fundamental part and (b) Discipline part. A student will answer a set of questions from each part as indicated on the test.

Contents of the Fundamental part

The qualifying test will contain questions from the topics listed below. The questions in the Fundamental part will be based on the material typically taught in the specified undergraduate courses. The students must have a sound understanding of these topics and are expected to demonstrate this in their answers.

Fundamental Part: A student must answer at least ONE question from each of the following areas.

- a. Discrete Structures (Based on COMP-SCI 191 and COMP-SCI 291)
- b. Data structures and Algorithms (Based on COMP-SCI 352)
- c. Basic Probability and Modeling (Based on COMP-SCI 394R)
- d. Operating Systems (Based on COMP-SCI 431)

Contents of the Discipline part

The questions in the Discipline part will be based on undergraduate and graduate material. The syllabi of each area list a

set of topics from where questions will be selected.

Discipline Part: A student must select any TWO of the following areas to answer the required set of questions specified on the test.

- a. Bioinformatics (Based on COMP-SCI 5566)
- b. Cryptography (Based on COMP-SCI 5596A).
- c. Databases (Based on COMP-SCI 470 and COMP-SCI 5570).
- d. Design and Analysis of Algorithms (Based on COMP-SCI 5592)
- e. Performance Modeling (Based on COMP-SCI 494R and COMP-SCI 5594)
- f. Software Engineering (Based on COMP-SCI 451 and COMP-SCI 5551)

Computer Science as Co-discipline

A student will answer any 4 questions from the entire test. For example, a student may select all four questions from any one part or from both parts combined.

Ph. D. Qualifying Test Syllabus

The syllabus lists the main topics in each area. Students are strongly advised to consult the listed textbooks to prepare for the test.

1. Discrete Structures

Mathematical induction, Relations, Counting methods (Permutation, Combination, Pigeon-hole principle), Recurrent relations, Graph theory.

Reference book

- Discrete Mathematics by Richard Johnsonbaugh.

2. Data Structures and Algorithms

Basic knowledge of algorithm complexity (Big-Oh, Big-Omega, Big Theta, best, worst, and average case analysis, etc.), Binary trees, Binary search trees, AVL trees, Heaps, B-trees, B+ trees, Graphs, Hashing (Static, Dynamic, and Extendible), Huffman codes, Divide-and-conquer, Searching, Sorting, In-order, Pre-order, and Post-order traversals, Breadth first, Depth first graph traversal), Spanning trees, and Shortest path.

Reference books

- Data Structures and Algorithm Analysis in C++ by Mark Allen Weiss, Addison Wesley.
- A Practical Introduction to Data Structures and Algorithm Analysis by Clifford A. Shaffer, Prentice Hall.

3. Basic Probability and Modeling

Sample spaces and events; Conditional probabilities; Discrete random variables (Binomial, Geometric, Poisson), Continuous random variables (Uniform, Exponential, Normal, Gamma), Moment generating functions, Moments and expectation, and Conditional expectation.

Reference books

- Introduction to Probability Models by Ross, Academic Press.
- Probability and Statistics with Reliability, Queuing and Computer Science Applications (Chapters 1-5), 2nd Edition, K. S. Trivedi, John Wiley & Sons.

4. Operating Systems

Process Management (synchronization, concurrency, deadlock), Memory management, Process and Job scheduling, Performance models (expected behavior), and File Systems.

Reference books

- Operating System Concepts by Silberschatz and Galvin, John Wiley.
- Operating Systems: Design and Implementations by Tannenbaum, Prentice Hall.

5. Bioinformatics

Algorithms for Sequence and Structural analysis of Biopolymers (Pairwise Sequence analysis, Multiple Sequence Analysis, Structural alignment, Structure prediction, Phylogenetics), Bioinformatic Databases & Ontologies, Bioinformatic Approaches to System-wide studies.

Reference books

- Bioinformatics: Sequence and Genome Analysis by David Mount. Cold Spring Harbor (2nd edition).

6. Cryptography

Conventional and Public-key crypto-algorithms, including DES, RSA, Discrete-Logarithm based algorithms, Diffie-Hellman public-key distribution algorithm, mental poker, secret sharing, secure email, SSL, X.509, and Wireless security.

Reference books

- Cryptography and Network Security: Principles and Practice", 4/E by William Stallings. Prentice-Hall.

7. Database Systems

Database Modeling, E-R Model, Relational Data Model, Data storage and Indexing schemes, Relational Database Design (Functional Dependencies and Modification anomalies), Relational Algebra and Relational Calculus, Query Processing and Optimization, Transaction Management (Transaction structure, transaction processing, serial and concurrent execution, and concurrency control mechanisms), Database Recovery.

Reference books

- Fundamentals of Database Systems, Elmasri/Navathe, Addison-Wesley.
- Database Management Systems, Ramakrishnan and Gehrke, McGraw-Hill.
- Concurrency Control and Recovery in Database Systems, Bernstein, Hadzilacos, and Goodman. AW. This book is out of print but freely available on the internet (http://www1.sce.umkc.edu/~kumarv/cs570/text_book/complete-CCM-book.pdf)

8. Algorithms

Divide and Conquer method, Dynamic programming, Greedy algorithms, Depth-first and Breadth-first search, Shortest path algorithms, Minimum spanning trees, NP-completeness.

Reference books

- Introduction to Algorithms. Second Edition. T.H. Corman, C.E. Leiserson, R. L. Rivest, C. Stein. McGraw Hill.
- The Design and Analysis of Computer Algorithms. A.V. Aho, J.E. Hopcroft, J.D. Ullman. Addison-Wesley.

9. Performance Modeling

Construction of probabilistic models for performance prediction of computer systems or components, The Poisson Process, Properties of the exponential distribution, State classification (Periodic, Irreducible, Homogeneous, and Ergodic Markov chains), and M/M/1 type models.

Reference books

- Queuing Systems I, (Chapters 1-4), L. Kleinrock, John Wiley
- Probability Models, (Chapters 4, 5, and 8.1-8.3) S. Ross, Academic Press
- Probability, Statistics & Queuing Theory, (Chapters 4-5.2) A. Allen, Academic Press
- Probability & Statistics with Reliability, Queuing (Chapters 6-8.4) K. Trivedi, Wiley.

10. Software Engineering

Software process models, Software measurement, Metrics for software quality, Software project estimation techniques and models, Requirement analysis and analysis modeling, Software architecture, Software design methods, and Software design patterns, Real-time Software design, Software testing methods, Object-Oriented concepts and principles (UML analysis/design/testing), Formal methods for software engineering, Software reuse, CASE tools.

Reference books

- Software Engineering: A Practitioner's Approach by Roger Pressman McGraw-Hill.
- Object-Oriented methods: Principles & Practice by Ian Graham, Addison-Wesley

Comprehensive Examination Guidelines

The Comprehensive Exam is administered by the supervisory committee of the candidate. A student can either take a written test or opt for an oral presentation covering both coordinating and co-discipline areas. Discussion with and agreement from the student's supervisory committee is required before choosing the desired option.

The candidates should contact the CSEE Division office and the chair of their doctoral committee for additional information.

Financial Aid

All admitted international and non-resident Ph.D. students automatically receive financial aid in the form of significantly reduced fees. In addition, they can apply to various forms of financial aid (such as graduate research assistantships, graduate teaching assistantships, graduate fellowships) through the Computer Science Electrical Engineering Department and the School of Graduate Studies. Note that a GTA can only be awarded to a student after the student has successfully demonstrated his or her teaching potential to a committee and has successfully passed the English language test. Contact the discipline coordinator for more information.

Curriculum and Instruction

Discipline Coordinator

Omiunota Ukpokodu, (816) 235-2469, ukpokodun@umkc.edu

[Click here to see Curriculum and Instruction faculty who are members of the doctoral faculty.](#)

Curriculum and Instruction is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Applicants who designate curriculum and instruction as their coordinating unit will be expected to have a grade-point average of at least 2.75 (on a 4.0 scale), covering all college work taken prior to the bachelor's degree, or a GPA of at least 3.5, covering all post-baccalaureate work completed to date.

If the discipline is selected as the coordinating unit and the dissertation research will have a primary orientation in curriculum and instruction, the student must obtain the agreement of a member of the doctoral faculty in curriculum and instruction to serve as research adviser before the student can be admitted.

The applicant must provide the following supplementary documentation:

1. Written recommendations from appropriate professors and practitioners in the field (selected by student).
2. Brief narrative stating research interest
3. GRE score requirement of a combined minimum score of 1000 on the verbal and quantitative section and 4.00 on the analytic writing section.

In addition, an applicant should make contact with at least one participating doctoral faculty to discuss research/discipline interest and support for his/her application.

Alternate Admission Criteria

An applicant whose admissions profile does not satisfy the Ph.D. general criteria but whose aggregate GRE score of 1000 on the combined verbal and quantitative section and 4.00 on the analytic writing section may be considered for recommendation for admission with curriculum and instruction as either the coordinating-unit discipline or as a co-discipline. In addition to written recommendations, an autobiographical sketch, writing samples and written agreement from a curriculum and instruction doctoral faculty member to serve on the applicant's supervisory committee, an applicant wishing to be considered under alternate admission criteria must submit a letter stating why he or she feels his or her credentials are equal to the GRE criterion of 1000 on the verbal and quantitative and 4.00 on the analytic section.

Provisional Admission Criteria

Applicants with aggregate GRE scores below 1300 may be considered for admission on a provisional basis. Provisional acceptance criteria for doctoral study with curriculum and instruction as the coordinating-unit discipline include:

1. A GPA that meets the general guidelines for the program.
2. A strong endorsement of a doctoral faculty member in curriculum and instruction who can assure the faculty that at least one other curriculum and instruction doctoral faculty member will serve on the student's supervisory committee.
3. Submission of a writing sample of choice.
4. Letters of reference.
5. A persuasive letter from the student.

Doctoral faculty in curriculum and instruction are limited to no more than two provisional doctoral students at a time.

Provisional acceptance criteria for doctoral study with curriculum and instruction as the co-discipline include: a) a GPA that meets the general guidelines for the program, b) a separate letter of justification from a doctoral faculty member in curriculum and instruction and c) a writing sample of choice. A suggested limitation is one provisional student with curriculum and instruction as a co-discipline per doctoral faculty member.

Additionally, all students so accepted, whether with curriculum and instruction as the coordinating-unit discipline or a co-discipline, must submit a plan of study to include 12 semester hours of coursework. The plan must be approved by the student's coordinating-unit discipline faculty adviser and, if curriculum and instruction is the co-discipline, the proposed co-disciplinary study adviser. Students would be expected to maintain a B or better GPA, at the 5500- or 5600-level courses. These courses need to be taken within a two-year time frame to maintain the provisional status. Once these, or other possible stated provisions, have been met, the provisional student automatically will be reclassified to doctoral student status in the discipline.

Qualifying Requirements for Full Admission

All students must have completed 12 hours of 5500- or 5600-level courses at UMKC with grades of B or better in each course to be eligible for full-admission status.

Students admitted under alternate or provisional criteria will be notified upon acceptance of any coursework deficiencies they must satisfy or other preparation they must undertake prior to full admission.

Suggested Compatible Co-disciplines

Urban leadership and policy studies in education, music education, chemistry, psychology, history, mathematics, physics, and public affairs and administration.

Core Program Requirements

Ph.D. study in curriculum and instruction prepares students with diverse academic and professional backgrounds to meet equally diverse career and scholarly goals. Moreover, rather than being a homogeneous field with a relatively uniform approach to Ph.D. study, curriculum and instruction encompasses several separate specialized areas, each with its own requirements and expectations regarding doctoral work. Hence, students accepted for the Interdisciplinary Ph.D. program with curriculum and instruction as their co-discipline may have backgrounds in one of the educational fields represented in the School of Education, in one of the disciplines represented in the College of Arts and Sciences, or in a professional field such as criminology, computer science or law. Students accepted with curriculum and instruction as their coordinating-unit discipline would typically have prior academic training and experience in curriculum and instruction. Advisers would tend to be specialists in reading education, physical education, special education, educational psychology, mathematics education, science education or curriculum and instruction.

The doctoral student in curriculum and instruction may be preparing for teaching and research in higher education, for a curricular or supervisory position in a public school district or for work in a government agency, private foundation or an educational training role in business and industry. Consequently, a single set of minimum standards cannot possibly fit all Ph.D. programs for which curriculum and instruction is the coordinating or co-disciplinary unit. Instead, sensitivity to individual student needs and goals, as well as regard for the different approaches to doctoral study represented in the several fields within curriculum and instruction, require flexibility and diversity in program planning.

Within the context described, a minimum of 24 hours in curriculum and instruction is required of students with curriculum and instruction as their coordinating-unit discipline and a minimum of 12-15 hours in curriculum and instruction is expected of students selecting curriculum and instruction as their co-discipline. In no case will a program be drawn up or approved that contains only coursework previously completed. Additional requirements may be set by the student's doctoral supervisory committee on the basis of the individual's program goals, previous academic preparation and relevant prior experiences.

Comprehensive Examination Guidelines

The student may obtain discipline-specific information on comprehensive examination guidelines from his or her research adviser.

Economics

Discipline Coordinators

Advising: L. Randall Wray, (816) 235-**5687**, wrayr@umkc.edu

Admissions: Frederic Lee, (816) 235-**2543**, leefs@umkc.edu

[Click here to see Economics faculty who are members of the doctoral faculty.](#)

Economics is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

In addition to the general criteria for admission, the criteria for admission to the Interdisciplinary Ph.D. program in economics are:

1. A combined score of at least 1,000 on the verbal and quantitative and at least a 4.0 on the analytical portions of the general Graduate Record Examination.
2. A grade-point average of at least 3.0 (on a 4.0 scale) covering all college work taken prior to the bachelor's degree, or a grade-point average of at least 3.0 (on a 4.0 scale) covering all post-baccalaureate work completed to date.
3. Recommendations for provisional or full admission by the doctoral faculty review group in at least two participating disciplines.
4. Applicants for whom English is not the native language and have studied less than two years (full time) in a U.S. academic program or a comparable program in an English-speaking country are required to obtain a TOEFL score of at least 550 on the paper-based test or 213 on the computer-based test. In addition, to qualify for **full admission** status, international students must achieve a score of at least 4.0 on the Test of Written English (TWE) portion of the TOEFL examination. Students admitted provisionally because of the TWE requirement may take a TWE equivalency test through UMKC's Applied Language Institute once they arrive on campus.
5. Applicants must have at least 18 undergraduate semester credit hours in economics, including intermediate

microeconomics and macroeconomics and a course in elementary statistics. In addition, it is strongly recommended that applicants have some of the following courses: econometrics, mathematical economics, history of economic thought, heterodox economics, economic history, calculus and linear algebra. Students with fewer than 18 credit hours will be admitted only on a provisional status.

6. Applicants matriculated into the M.A. economics program at UMKC may apply for admission to the Interdisciplinary Ph.D. program in economics as soon as they have completed 15 credit hours and have earned a grade-point average of 3.25 or better.
7. Applicants who wish to transfer to the UMKC Interdisciplinary Ph.D. program in economics from other institutions must have obtained a grade-point average of at least 3.0 covering all their graduate work. Transfer students must apply for transfer credits toward the Interdisciplinary Ph.D. as soon as possible after completion of a minimum of 12 credits at UMKC with a grade-point average of 3.0 or better. Up to 30 transfer credit hours may be granted. No transfer credit will be granted for any courses not relevant to the Interdisciplinary Ph.D. in Economics or for any course with a GPA of less than 3.0.

The deadline for receipt of completed applications and supporting documentation is Feb. 1 for the fall semester and Sept. 1 for the spring semester.

Alternate Admission Criteria

Applicants who do not fit the above criteria may petition the economics doctoral committee with evidence of scholarly publication, research and recommendations, but the decision rests with the committee.

Qualifying Requirements for Full Admission

At the time admission is offered, provisional students will be notified of any course deficiencies or qualifying requirements to be met for full admission. The faculty will make a decision with regard to full admission based upon the student's performance in meeting the qualifying requirements.

Suggested Compatible Co-disciplines

Curriculum and instruction, history, public affairs and administration, urban leadership and policy studies in education, and the Social Science Consortium.

Core Program Requirements

For students with this discipline as their coordinating unit

The Interdisciplinary Ph.D. in economics consists of a minimum of 18 required coursework credit hours in economics--including ECON 5506, 5551, 5601, 5602, 5625 and 5688 or SOC-SCI 5688. If the student has not taken the prerequisites to ECON 5601, 5602 and 5625, he/she will be required to take ECON 5501, 5502, 5521, and 5525 -- and additional 12 coursework credit hours (or, a total of 30 hours). All students are strongly urged to take two fields in economics, each consisting of two three-credit hour courses for a total of 12 additional coursework credit hours. These courses will be taken in economics and at least one additional field such as sociology, history, public administration, education, mathematics, political science, geosciences, computer science or others, provided that such fields participate in the doctoral program. Required Courses - 30 hours

- ECON 5501 Advanced Macro-Economic Analysis (prerequisite, ECON 301 Macroeconomic Analysis)
 - ECON 5502 Advanced Macro-Economic Analysis (prerequisite, ECON 302)
 - ECON 5506 Advanced History of Economic Thought (prerequisite, graduate standing)
 - ECON 5521 Mathematical Economics (Calculus I strongly recommended)
 - ECON 5525 Econometric Methods(prerequisite, ECON 425 Intermediate Economic Statistics)
 - ECON 5551 Advanced History of Economic Thought (prerequisite, ECON 451 Institutional Economic theory and Interdisciplinary Ph.D. standing)
 - ECON 5601 Advanced Institutional Theory (prerequisite, ECON 5501 Advanced Macro-Economic Analysis)
 - ECON 5602 Colloquium in Advanced Microeconomics (prerequisite, ECON 5502 Advanced Micro-Economic Analysis)
 - ECON 5625 Colloquium in Econometrics (prerequisite, ECON 5525 Econometric Methods)
 - ECON 5688 Colloquium in Political Economy (prerequisite, ECON 5506 Advanced History of Economic Thought or ECON 5551 Advanced Institutional Theory)
-
- Coursework in an outside field or fields, depending upon the requirements of co-discipline regulations;
 - Dissertation and oral examination, 12 hours.

For students with this discipline as a co-discipline

Those students taking economics as a co-discipline will take a minimum of 12 hours in economics, at the graduate level, including:

- ECON 5501 Advanced Macro-Economic Analysis (prerequisite, ECON 301 or equivalent)
- ECON 5502 Advanced Macro-Economic Analysis (prerequisite, ECON 302 or equivalent)

Comprehensive Examination Guidelines

Coordinating-discipline students are required to pass a qualifying examination in economics theory--micro, macro and political economy, and in quantitative methods. Students taking field concentrations must pass a comprehensive examination in those fields, or meet the requirement by an alternative means that is accepted by the department.

Co-discipline students must receive grades of "B" or better in ECON 5501 and ECON 5502. In addition, the oral portion of the comprehensive examination will require students to integrate knowledge between topics in economics and the student's coordinating unit.

Electrical and Computer Engineering

Discipline Coordinator

Khosrow Sohraby, (816) 235-2361, sohrabyk@umkc.edu

[Click here to see Electrical and Computer Engineering faculty who are members of the doctoral faculty.](#)

Electrical and Computer Engineering is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

A student who meets the minimum discipline requirements stated below will be considered for regular admission to the Ph. D. program. A student who does not meet some of the requirements but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of student's interest, the quality of previous work, etc. A student not qualifying for admission to the Ph.D. program may be considered for admission to the M.S. computer science or electrical engineering program. Requirements for admission are similar whether the applicant is requesting electrical and computer engineering as the coordinating discipline or co-discipline.

Academic Preparation

The applicant must have a bachelor's degree and/or a master's degree in electrical and/or computer engineering, electronics, communications engineering or any other field requiring substantial training in at least one of the above fields and in mathematics with a GPA of 3.5 or better, cumulative as well as in the major field; and a GPA of 3.5 or better in all post-baccalaureate or post-master's degree work.

Aptitude for Advanced Work

The student must demonstrate an aptitude for advanced-level work through national/international standardized examinations such as the GRE. The expected performance level is the 85th percentile in the quantitative portion of the GRE examination.

Proficiency in English

The student must demonstrate his or her proficiency in oral and written communication in English through national/international standardized English examinations such as TOEFL, verbal portion of the GRE, etc. The expected proficiency

level is the 50th percentile in the verbal portion of the GRE or a TOEFL score of 263 or above. UMKC students may also satisfy this requirement by obtaining an English Proficiency Certification from the English Department. (**Note:** As per University policy, all international students are tested for proficiency in English upon arrival on campus, irrespective of their scores in TOEFL or verbal portion of GRE, or any other test. A student's adviser may also require the student to take the above test, irrespective of the student's native language. As a result of this test, the student may be required to improve his or her oral and written communication in English before enrollment in the courses of the chosen disciplines.)

Recommendations

The student must provide at least three recommendation letters from the professors from his or her previous institution(s). If the applicant has been out of school for several years, recommendation letters from his or her supervisors (technical) will be acceptable. However, even in this situation, a recommendation letter from his or her last academic institution is highly recommended. A recommendation from a faculty member in the Computer Science Electrical Engineering (CSEE) Department at UMKC must be provided if the student has taken courses from or worked with the CSEE faculty.

Statement of Goals and Objectives

The applicant must provide a 250- to 500-word essay on his or her goals and objectives of pursuing the Ph.D. in the chosen fields.

Admission at an Advanced Level

An applicant who has already completed significant graduate coursework (15 or more semester hours of the post-master's work or 30 or more hours of the post-bachelor's work) toward a Ph.D. at another institution must provide reasons for changing institutions. The applicant must also provide a letter of endorsement from a doctoral faculty member in electrical and computer engineering indicating willingness to be the student's research adviser.

Alternate Admission Criteria

The applicant may have received a bachelor's degree or a master's degree in computer science, computer engineering, electrical engineering or electronics, or any other related field with substantial training in mathematics. An applicant not meeting the minimum admission requirements, or not having sufficient academic preparation (stated below under prerequisite knowledge) for advanced work in the chosen discipline(s), may be considered for provisional admission by the CSEE Department's Ph.D. committee if the committee sees high potential for advanced work from the rest of the applicant's credentials. Evidence of high potential might be pertinent work experience, published papers or extremely high achievement in related areas. In any case, the required GPA (or GPAs) must be at least 3.0 and the coursework deficiencies in software architecture must not be more than 18 semester hours. Applicants with an established research or publication record in a quantitative science are encouraged to apply to this discipline.

Qualifying Requirements for Full Admission

Prerequisite Knowledge

A Ph.D. student selecting electrical and computer engineering as the coordinating discipline is expected to have the level of preparation represented by a four-year undergraduate degree in electrical/computer engineering.

A student not having an undergraduate degree in electrical/computer engineering may be admitted provisionally if the admission committee determines that the student has a strong aptitude for research and is willing to take prerequisite courses as determined by the admission committee based on the student's academic record.

Suggested Compatible Co-disciplines

Computer science, telecommunication and computer networking, mathematics, physics and engineering (civil and mechanical focus). A co-discipline outside of this list may be considered only in exceptional cases.

Core Program Requirements

The amount of work required for the Ph.D. depends on the student's level of preparation. For example, a student entering the Ph.D. program after earning a bachelor's degree may expect to do significantly more work compared to a student who enters after earning a master's degree.

Qualifying and Comprehensive Examination Guidelines

The Qualifying Exam is a written test administered by the CSEE Department's Ph.D. committee. The test questions are from a set of fundamental courses in electrical and computer engineering.

The Comprehensive Exam is administered by the doctoral committee of the candidate. A student can either take a written test or opt for an oral presentation covering both coordinating and co-discipline areas. Discussion with and agreement from the student's doctoral committee is required before choosing the best option. Candidates should contact the CSEE Department's office and the chair of their doctoral committee for more information.

Electrical and Computer Engineering as a Co-Discipline

The student who chooses electrical and computer engineering as a co-discipline may obtain information on qualifying exam and comprehensive exam requirements from the discipline coordinator.

Financial Aid

Various forms of financial aids (such as graduate research assistantships, graduate teaching assistantships, graduate fellowships) are available through the Computer Science and Electrical Engineering Department and the School of Graduate Studies. Contact the discipline coordinator for more information.

Engineering

Discipline Coordinator

Ganesh Thiagarajan, (816) 235-1288, ganesh@umkc.edu

[Click here to see Engineering faculty who are members of the doctoral faculty.](#)

Engineering is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

A student who satisfies the general requirements for admission and also meets the minimum discipline requirements stated below will be considered for regular admission to the Ph.D. program with engineering as a discipline. A student who does not meet some of the requirements but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of the student's interest, the quality of previous work, etc. Requirements for admission are the same whether the applicant is requesting engineering as the coordinating-unit discipline or co-discipline.

1. The applicant must have a bachelor's degree or a master's degree in civil or mechanical engineering or related disciplines with a grade-point average of at least 3.0 in the last 60 hours of undergraduate engineering coursework. In addition, a GPA of 3.5 or better in all post-baccalaureate coursework is required. Pre-program requirements may be specified in case the bachelor's degree is in a discipline different than that to which the candidate is applying.
2. The student must demonstrate an aptitude for advanced-level work by obtaining a cumulative GRE score of at least 1100 (verbal + quantitative) and by ranking at least in the 85th percentile on the quantitative portion of the examination. GRE requirements may be waived if the applicant has passed the fundamentals of Engineering (FE) exam.
3. TOEFL scores are required for international students without prior U.S. degrees. There are two TOEFL tests. One is paper-based; one is computer-based. A minimum score of 550 on the paper-based test (which corresponds to 213 on the computer-based test) is required.
4. The student must provide at least three recommendation letters from professors at previous institutions or mentors at work.
5. The applicant must provide a 500- to 750-word essay on his or her goals and objectives in pursuing the Ph.D. in the chosen fields.
6. Provisional admission may be granted if the minimum GPA and GRE requirements are not met, but other indicators promise the student's success in the program. To be fully admitted to the Interdisciplinary Ph.D. program, the provisionally admitted student must obtain a grade of B or better in the first nine hours of coursework and submit a satisfactory GRE score within their first year of the program.

Suggested Compatible Co-disciplines

Possible co-disciplines include but are not restricted to chemistry, computer science, electrical and computer engineering, geosciences, mathematics, molecular biology and biochemistry, oral biology, physics, and telecommunication and computer networking.

Core Program Requirements

Engineering as Coordinating Discipline

A minimum of 60 credit hours of approved graduate coursework (300-level or higher) beyond the baccalaureate, including dissertation research hours (CIV-ENGR 5699, E&C-ENGR 5699 or MEC-ENGR 5699), are required. Of these, at least two-thirds must be at 5500/5600-level. The graduate coursework may include courses taken at UMKC or other institutions and approved for transfer by the student's supervisory committee. A minimum of 12 credit hours of dissertation research (CIV-ENGR 5699, E&C-ENGR 5699 or MEC-ENGR 5699) is required.

Example Minimum Requirements Beyond Master of Science Degree

	Hours
Coordinating discipline (Engineering)	9
Co-discipline (e.g. Mathematics or Physics)	12
Dissertation research	12
Total beyond M.S. degree (typically 30 hours)	33

Engineering as Co-discipline

A student electing engineering as co-discipline will be required to complete 12 credit hours in engineering graduate courses, of which at least six hours must be at the 5500/5600-level.

Qualifying Examination Guidelines

A qualifying exam will be completed by the Ph.D. student as a core program requirement. The exam will be administered by the graduate committee in conjunction with the research adviser in the first year of study. The exam will consist of two parts: (1) a written exam based on core areas in civil/mechanical engineering OR an engineering problem related to the student's emphasis area AND, (2) an oral defense of the exam and other discipline fundamentals or the problem solution. The department will keep a record of whether the student has passed or failed the exam. The student may request one more attempt to retake the exam in the event of a failed grade. The student will be recommended for termination from the doctoral program after two failed attempts.

Comprehensive Examination Guidelines

To advance to degree candidacy, an Interdisciplinary Ph.D. student is required to pass a comprehensive examination administered by the student's research adviser and supervisory committee. This comprehensive exam will consist of two parts. Part One will be a written exam over the student's Ph.D. coursework. Part Two will be an oral defense of the student's dissertation research proposal.

English

Discipline Coordinator

John Barton  , (816) 235-5206, bartonjc@umkc.edu

[Click here to see English faculty who are members of the doctoral faculty.](#)

English is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

For new students selecting English as a discipline, admission will normally be for the fall term. Application dossiers must be complete by Jan. 15.

Applicants who select English as their coordinating-unit discipline will be expected to have the M.A. in English or equivalent coursework as determined by the English department doctoral committee. Applicants who select English as a co-discipline should have completed a master's degree or equivalent coursework. In most cases, students will be expected to have completed, with a grade of B or better, 12 hours of English courses at the 300- or 400-level (or appropriate equivalents) that are approved by the English department doctoral committee.

An applicant who plans to pursue a degree with English as a discipline is required to provide the English department doctoral committee with the names of three individuals who are academically or professionally qualified to assess the applicant's ability to pursue doctoral work. References submitted to the School of Graduate Studies for admission to doctoral studies may be judged by the English department doctoral committee as sufficient evaluation, but the department reserves the right to request further information.

Applicants also are required to submit samples of written work to the English department doctoral committee. The applicant's narrative statement, submitted with the application form, should provide a well-focused justification of the proposed course of study that is compatible with the department's resources. Applicants should consult with the Interdisciplinary Ph.D. coordinator in English for advice on the preparation of the narrative. Applicants may also seek advice on the narrative from doctoral committee members with special expertise in the applicant's chosen fields of study.

Applications will be evaluated by a committee of the doctoral faculty in the English department; the committee will recommend to the department chair and dean of the School of Graduate Studies whether the applicant should be admitted. These English-specific requirements apply to all applicants intending to have English as coordinating-unit discipline or co-discipline.

Students who expect to write a dissertation that draws primarily on research in English must apply for English as their coordinating-unit discipline.

In cases where an applicant has not yet met the foreign language requirement or GRE scores are still pending, provisional admission may be recommended.

Alternate Admission Criteria

The department's required GRE score is independent of, and takes precedence over, the School of Graduate Studies' minimum of 1500 points.

Qualifying Requirements for Full Admission

In addition to the below criteria, the committee considers the applicant's writing sample, letters of recommendation, personal statement, and the overall viability of the applicant's proposed dissertation project.

English as Coordinating-unit Discipline

GRE scores

Either (1) a general verbal score in the 60th percentile or better; or (2) a score in the 60th percentile or better in the

English subject examination.

Relevant Foreign Language Skills

Applicants must demonstrate facility in a foreign language relevant to study in English. The language requirement will ordinarily be met by two years of satisfactory college-level language study. Students may be required to demonstrate additional language skills to undertake or complete their dissertations.

English as a Co-discipline

GRE scores

A general verbal score in the 60th percentile or better.

Foreign Language Skills

Demonstrate foreign language competence in the same manner as students with English as the coordinating-unit discipline.

Suggested Compatible Co-disciplines

Curriculum and instruction, religious studies, history, psychology and sociology.

Core Program Requirements

All students who list English as a discipline, whether as coordinating-unit discipline or co-discipline, are required to take ENGLISH 5500, Introduction to Graduate Study in English or its equivalent.

Students admitted with English as the coordinating-unit discipline are subject to the following requirements:

- Only English courses numbered 400 or above will be accepted for the Ph.D. degree. Courses taken in other disciplines may be taken at the 300-level or above.
- No grade below B in any course will be accepted to apply toward the Ph.D. degree.
- In most cases, no more than one-third of coursework in English, exclusive of credit for dissertation work, that is classified as independent study will be accepted for the Ph.D. degree.
- Students will be expected to complete the majority of their coursework at UMKC.
- In certain cases, exceptions to these requirements may be allowed.

Other Discipline-Specific Special Requirements

For foreign language requirement, see "Qualifying Requirements for Full Admission" for this discipline.

Comprehensive Examination Guidelines

Before advancing to Ph.D. candidacy, students whose coordinating discipline is English will take three examinations: a written general examination, an oral interdisciplinary subject examination and a co-disciplinary examination. The examinations must be taken within a year of completing coursework. Prior to taking exams, students must have an assigned supervisory committee, an approved plan of study on file with the School of Graduate Studies and completed all required coursework. See Comprehensive Examination guidelines from the School of Graduate Studies for full details.

The general examination is a six hour exam, written in two three-hour sittings. This exam is administered by the English faculty on the supervisory committee, led by the chair of the committee. The subject examination is a two-hour oral interdisciplinary exam that is administered by the entire supervisory committee, led by the chair of the committee. The co-disciplinary exam will be administered by the co-disciplinary faculty on the supervisory committee.

Exam areas shall be designated at the time of the submission of the program of study. These may be changed only with the consent of the entire supervisory committee. Exam questions shall not be distributed in advance for either the general or subject examination. At least six months before the student plans to take his or her exams, the student shall notify committee members of his or her choice of areas/periods and submit a tentative reading list of primary and critical works for all examinations. The supervisory committee shall then meet to approve the areas and review the proposed

reading list and address any oversights or imbalances.

The general examination consists of two parts, each covered in a three-hour sitting and each receiving equal weight. The examination is designed to test the breadth of the candidate's knowledge in the fields in question. The student will choose two areas in which he or she wishes to be examined, whether periods of literary history (e.g., British 19th century, American literature from 1865, British and American literature since 1945) or other areas of expertise (e.g., linguistics, history of the language, rhetoric, genre studies, literacy studies). The reading list, which is subject to the approval of the supervisory committee, should consist of works from the selected periods or areas of expertise which have achieved broad recognition or influence.

For the oral interdisciplinary subject examination, the student will prepare in advance, in the period specified above, a tentative reading list on the subject of the proposed dissertation for approval or revision by the supervisory committee. The subject examination will deal with current scholarship and methodology as well as with primary sources and other standard works in the field. The exam will be administered in a single two-hour sitting.

For students whose co-discipline is English, a single three-hour written examination will be designed in consultation with the coordinating discipline.

Doctoral Dissertation Requirement

The dissertation defense will be a one and a half hour discussion of the dissertation that includes all members of the Supervisory Committee. The majority of the committee must vote for approval of the dissertation in order for the student to graduate. See the SGS guidelines for further procedures and deadlines.

Entrepreneurship

Discipline Coordinator

Michael Song, (816) 235-5841, songmi@umkc.edu

[Click here to see Entrepreneurship and Innovation faculty who are members of the doctoral faculty.](#)

Entrepreneurship and Innovation is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Program Intent

The Ph.D. program in Entrepreneurship and Innovation is designed to train and develop research and teaching scholars in entrepreneurship and innovation. The Institute for Entrepreneurship and Innovation (IEI) has established a research agenda that focuses on the ways in which entrepreneurs develop, lead and transform today's dynamic global businesses. Specifically, the Institute is assessing the values and risks of emerging technologies and investigating effective techniques for market opportunity analysis and the identification of new ventures in high-tech industries. In addition, the Institute is examining the success and failure factors of high-tech start-up firms, as well as the links between entrepreneurship, government policy, innovation, economic development and global competitiveness.

Discipline-Specific Admission Requirements

We expect prospective students to hold an undergraduate or master's degree in business administration, entrepreneurship, marketing, mathematics, economics, statistics, engineering or science. Students are expected to have completed a master's level intermediate statistical analysis course prior to enrolling in the program. All students must submit an application to the Interdisciplinary Ph.D. Program and to the Institute for Entrepreneurship and Innovation. The student must complete the Interdisciplinary Ph.D. application and prepare a formal written statement outlining his or her interests in and preparation for the program. To enter the entrepreneurship program, the applicant is expected to have an overall GPA of at least 3.3 on all quantitative course work. Applicants should pay particular attention to the narrative statement that accompanies their application. The IEI doctoral faculty gives substantial weight to this statement. It should provide a clear description of the applicant's intellectual interests, how those interests evolved and should describe the research direction(s) that the applicant intends to pursue.

Suggested Compatible Co-disciplines

Economics, Mathematics, Social Science, engineering, computer science, physics, public administration.

Program Requirements

Students who select entrepreneurship and innovation as their coordinating discipline must complete 12 credit hours of coursework in entrepreneurship theory and 12 credit hours in research methods. In addition, students must select 16 credit hours in electives from classes offered by their co-discipline or other departments. Students in the entrepreneurship program will take nine hours of coursework a semester for the first two years and three to six hours of coursework a semester for the third year while working as research assistants for designated faculty. The fourth and fifth years will be devoted to graduate research assistance and the dissertation. Upon completion of the coursework, students are expected to successfully complete a written examination in entrepreneurship. During the doctoral program, students are also required to participate in the Teaching Effectiveness Training program and teach two courses. In addition, each student must complete at least one academic paper per year that will be submitted to a national research conference (by the end of the first year) or to top refereed academic journals.

Core Program Requirements

Theory

- ENT 5691 Doctoral Seminar in Theoretical Foundations of Entrepreneurship I or an approved elective
- ENT 5692 Doctoral Seminar in Theoretical Foundations of Entrepreneurship II
- ENT 5693 Doctoral Seminar in Technology, Innovation, and Entrepreneurship
- ENT 5694 Doctoral Seminar in Theories of the Firm and Strategy

Research Methods

- BDS 5548 Multivariate Statistical Analysis I
- ENT 5681 Multivariate Statistical Analysis II
- ENT 5682 Structural Equation Modeling
- ENT 5683 Mathematical Models for Entrepreneurship

Requirements for Entrepreneurship as a Co-discipline

Students who select entrepreneurship as a co-discipline must complete four doctoral seminars (12 credits) in Entrepreneurship Theory. Specific classes must be approved by the program director.

Other Discipline-Specific Special Requirements

A faculty supervisory committee is appointed by the program director at the end of the second year to assist each student in constructing a program of study that fits that individual's background and interests. Students select one major area of specialization and complete requirements in an additional minor area that supports their major area of specialization. Throughout the program, doctoral students receive support and training that hone their skills as researchers, teachers and course developers. Any deviations from the program requirements must be recommended by the supervisory committee and must be approved by the program director.

Research paper

Each student must complete at least one academic paper per year. The first-year paper must be submitted to a national research conference by the end of the first year of the program. All other papers must be submitted to top refereed academic journals. Each student must have at least two "revise/resubmit" or accepted academic papers before graduating from the program. Failure to meet these research and publication requirements will result in the student being placed on probation or being dismissed from the program. Faculty will set a deadline by which doctoral students must complete an independent research paper and present their findings in a research workshop. The research project is supervised by a faculty adviser on a topic selected by the student and approved by the faculty adviser.

Comprehensive Examination and Admission to Candidacy

To be eligible to apply for candidacy, students must maintain an overall GPA of at least 3.3. Admission to candidacy is a formal University process signifying that a student has completed specific degree requirements and that the faculty

expects that the student will successfully complete the degree program. Students are admitted to candidacy upon completion of the comprehensive examination in entrepreneurship. The supervisory committee administers this test after all area requirements are completed.

Dissertation

After earning candidacy, students must successfully complete a dissertation that demonstrates their ability to identify a significant research question or problem in entrepreneurship and apply appropriate research techniques to its resolution. The dissertation must be an original and independent piece of work. Dissertations are supervised by a reading committee. After the dissertation has been written to the satisfaction of the reading committee, the student defends his or her dissertation research in a final oral examination by program faculty.

In-Residence Study

A doctoral student must spend at least four years of full-time in-residence study beyond the baccalaureate degree. Experience has shown that the probability of successful completion of the program diminishes substantially unless the student is committed to full-time, in-residence work until all requirements are fulfilled. Prospective students should plan on full-time studies, including the summer semester, from the time of enrollment until the completion of the dissertation.

Teaching Effectiveness Training

Each year the academic market places increasing weight on teaching skills. Many business schools, in fact, now require teaching presentations of all prospective faculty. All students are required to participate in the Teaching Effectiveness Training Program. Students will observe other instructors, including someone teaching their spring course assignment, draft a syllabus, and receive feedback on a microteaching session. Teaching assistants assigned to teach core courses will receive additional guidance from faculty course coordinators.

During the doctoral program, students will be required to teach two courses. They will receive feedback from peer classroom observations and an opportunity to share experiences and ideas informally at lunch gatherings of teaching assistants. Students are expected to put together formal teaching presentations that aid them both in the interview process and in the transition to full-time, tenure-track faculty.

Application Review Process and Timetable

Applications for admission and financial aid must be complete, including all supporting materials, by February 1 of each year. Applicants should take the GMAT or GRE in November or earlier because scores from later examinations will not arrive by the admissions deadline.

Geosciences

Discipline Coordinator

Raymond Coveney, (816) 235-2980, coveneyr@umkc.edu

[Click here to see Geosciences faculty who are members of the doctoral faculty.](#)

Geosciences is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Specific admission requirements defined by the faculty of the Department of Geosciences follow the guidelines established by the School of Graduate Studies. Typically, a student would be expected to hold an undergraduate or master's degree in geology, geography or a closely related field. Opportunities within the department range from the physical sciences to the humanities. Because of the wide range of faculty expertise, and in keeping with the general spirit of the entire interdisciplinary program, the faculty of the Department of Geosciences has deliberately chosen to establish broad guidelines for admission of Interdisciplinary Ph.D. students. All prospective graduate students must attain a GPA of 3.0 or above, on a 4.0 grading scale, in all university work prior to admission. Three letters of recommendation from

professors as well as a proposal from the prospective student detailing goals and expectations are needed for an evaluation of the application.

Non-native English-speaking applicants seeking geosciences as a coordinating discipline must demonstrate proficiency in English. This requirement can be satisfied by obtaining English proficiency certification from the UMKC English Department.

Suggested Compatible Co-disciplines

Faculty members in the Department of Geosciences conduct research in applied geophysics, engineering and environmental geology, stratigraphy, geochemistry, GIS, mineral deposits, neotectonics, geoarcheology, geomorphology, Quaternary environments, cultural and historical geography (Europe, Latin America, the Caribbean and West Africa) and historical cartography. Suitable co-disciplines for the Interdisciplinary Ph.D. program are practically unlimited (see www.iml.umkc.edu/geo for possibilities). Consultation with the principal graduate advisers for geology and geography would be a good way for the student to explore the possibilities. Previous and existing geology students have designated co-disciplines of chemistry, curriculum and instruction and physics. Previous geography Ph.D. students have designated curriculum and instruction as a co-discipline. Other excellent possibilities would include political science, economics, history and sociology.

Core Program Requirements

Specific core program requirements follow the guidelines established by the School of Graduate Studies and are otherwise defined by the student's supervisory committee in consultation with each individual student.

Other Discipline-Specific Special Requirements

While there is no set minimum number of hours for all students, at least 50 percent of the course credit hours for students who select geosciences as their coordinating unit must be taken in the Department of Geosciences. Students who have selected geosciences as a coordinating unit or a co-discipline are expected to take no less than three courses from the Department of Geosciences as determined by their supervisory committee. Other special requirements are defined by the student's supervisory committee in individual consultation with each student. All geosciences students (coordinating or co-discipline) are expected to successfully complete a qualifying examination in their subject area, devised by departmental faculty, by the end of their first two semesters of residency.

Comprehensive Examination Guidelines

Comprehensive examinations of all Ph.D. students who select the Department of Geosciences as the coordinating unit will contain both written and oral components and may include questions from each of the co-disciplines and from related fields as determined by the student's examining committee. The committee consists of the student's supervisory committee and others who may be appointed by the dean of the School of Graduate Studies.

Interdisciplinary Work

The faculty of the Department of Geosciences are committed to an interdisciplinary approach and expect that all Ph.D. students, whether enrolled in the coordinating or the co-disciplinary category, will complete courses and conduct research with this principle in mind.

History

Discipline Coordinator

Carla Klausner, (816) 235-2540, klausnerc@umkc.edu

[Click here to see History faculty who are members of the doctoral faculty.](#)

History is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Except in unusual circumstances, students who select History as a discipline in the Interdisciplinary Ph.D. program must begin their work during the fall term. Applications must be received by the School of Graduate Studies no later than Feb. 15. The doctoral faculty of the Department of History will review applications and make their recommendations for admission by the end of March. Applications that are incomplete as of Feb. 15, and completed applications submitted after this deadline, may not be considered until the following year.

Applicants who choose History as their coordinating discipline, or applicants whose coursework in History will comprise at least 50 percent of the Ph.D. plan of study, must meet the criteria for admission specified by the School of Graduate Studies. In addition, they must:

1. Possess a master's degree in History or its equivalent.
2. Have earned a GPA of 3.5 in graduate courses.

Students who choose History as a co-discipline and whose coursework in History will constitute less than 50 percent of the Ph.D. plan of study must meet the criteria for admission specified by the School of Graduate Studies. In addition, they must fulfill other entrance requirements specified by the doctoral faculty of the Department of History. These requirements are established on an individual basis.

All applicants for admission must submit:

1. A sample of written work.
2. A brief statement of academic and professional goals.
3. A 1,000-word essay that specifies a dissertation topic, demonstrates its interdisciplinary nature and shows how historical methods and approaches would be utilized.
4. A signed mentorship form.
Coordinating discipline students must have a statement of support from at least two members of the department willing to serve on the student's supervisory committee.
Co-discipline students must have a statement of support from at least one member of the department willing to serve on the supervisory committee

Applicants who do not meet the requirements specified above may be granted provisional admission by the doctoral faculty of the Department of History. An applicant admitted provisionally receives notification of deficiencies and of the conditions which must be met before the doctoral faculty will again consider an applicant for full admission.

The doctoral faculty of the Department of History, in consultation with the History faculty as a whole, makes recommendations to the dean of the School of Graduate Studies on each application for admission. These recommendations reflect the majority vote of the doctoral faculty.

Applicants are advised that meeting the criteria of the School of Graduate Studies and the Department of History does not automatically result in admission to the Interdisciplinary Ph.D. program. When making recommendations to the School of Graduate Studies, the History faculty considers other factors as well, particularly the availability of faculty qualified to work in the applicant's area of interest and the availability of library resources and research materials.

Alternate Admission Criteria

In exceptional cases, candidates who do not meet either the School of Graduate Studies' or the History Department's minimum requirements for admission may be admitted under alternate criteria. The doctoral faculty of the department have adopted the following alternate criteria, one or more of which will be used to assess the applicant's ability: satisfactory performance in 5500- or above-level classes taken in the department's master's degree

program; positive, written recommendations of our faculty willing to work with the applicant who have evaluated his/her previous work; satisfactory completion of specified courses in the department before consideration or reconsideration of a candidate's application; publications or comparable professional achievements related to the study of History.

The Plan of Study

If full admission is granted, the student who chooses History as a discipline must satisfy the residency requirements of the School of Graduate Studies, and must fulfill the course requirements of the Ph.D. plan of study as prepared by the student and his/her advisor(s) and approved by the Interdisciplinary Ph.D. Executive Committee.

A student whose coordinating discipline is History will be required to list at least 18 hours of graduate-level history courses (exclusive of dissertation credits) on the plan of study. These will include: 3 hours of HISTORY 5581GR (How To History I) if this course or its equivalent has not been taken before; 3 hours of HISTORY 5582GR (How To History II); 3 graduate colloquia; and at least one graduate-level research seminar. The remainder of the program must be in courses numbered 5550 or above.

Students for whom history is a co-discipline will be required to take, at the minimum, the five core courses of the department's M.A. program: HISTORY 5581GR (How To History I); HISTORY 5582GR (How To History II); HISTORY 5587R (Research Seminar); and two graduate colloquia. In exceptional or unusual circumstances, some of these hours may be waived upon petition to the student's supervisory committee.

Any student who switches disciplines in the course of his or her graduate career, either adding history as the coordinating or co-discipline, or changing history from the co-discipline to the coordinating discipline, must fulfill all of the requisite doctoral requirements in history for that level (e.g., number of course hours, distribution requirements, exams).

Comprehensive Examination

The School of Graduate Studies guidelines for the comprehensive examination can be found [here](#).

The History Department requires that the comprehensive examination of a student listing History as a discipline include both a written and an oral component. The History members of the supervisory Committee will determine the structure and duration of the History component of the comprehensive exam.

For students with History as the coordinating discipline, there is a list of doctoral fields appended below. The written comprehensives will consist of three examinations, the first from a Chronological/National field; the second from a Topical/Interdisciplinary field; and the third from either the Chronological/National or Topical/Interdisciplinary list of fields.

For co-discipline students, the written comprehensives will consist of questions drawn from one of the Chronological/National fields, and questions from one of the Topical/Interdisciplinary fields appended below.

For both coordinating and co-discipline students, it is assumed that each examination will include an historiographical component.

Written comprehensives will be administered in the first two weeks of November and the first two weeks of March, unless the supervisory committee has allowed an exception.

In the oral examination conducted by the supervisory committee, both coordinating and co-discipline students will be expected to answer questions of an interdisciplinary nature.

A student with History as either a coordinating or co-discipline is considered to have passed the comprehensive examination if the History member/s of the examining committee vote that the candidate passes, and if no more than 20 percent of the examining committee vote to fail the student. If failure is reported, the examining committee will either recommend termination as a Ph.D. student or suggest additional work or other remedial measures. Furthermore, a student who has failed may not take a second examination for at least 12 weeks. Failure of a second comprehensive examination shall automatically preclude candidacy at this institution.

Dissertation Requirements

A student for whom History is a discipline must meet the requirements of the History Department for the discipline, as well as those of the School of Graduate Studies. On a Ph.D. plan of study, where history is the coordinating discipline, there

must be a minimum of 12 credits in HISTORY 5699R (dissertation hours).

The final examination in defense of the dissertation is open to all members of the doctoral faculty, who may attend as interested observers. The supervisory committee and its chair will determine the format and procedures of the defense. The date, time and location must be announced and published at least two weeks before each final examination takes place.

For a student with History as a discipline, this examination may be conducted only after the dissertation has been approved by the History member/s of the supervisory committee, and may not be administered when UMKC is not officially in session.

the defense of the dissertation is approved when a majority of the supervisory committee, including the History member/s of the committee, recommends approval and signs the Report of Result of Final Doctoral Examination form. Within 48 hours of the defense, the supervisory committee chair will report the results of the final dissertation examination in writing to the candidate.

Language Requirements

Those students for whom history comprises 50 percent or more of the program of study, or whose dissertation will utilize sources in a foreign language or languages, must demonstrate competency either through a passing satisfactory score on the ETS language examination or through a special examination approved by the student's examining committee.

Those students for whom history comprises less than 50 percent of the plan of study and whose dissertation will not utilize sources in a foreign language will ordinarily not be required to demonstrate language competency. It is strongly urged, however, that all Ph.D. students choosing history as a primary discipline will pursue the development of foreign language skills or equivalent (quantitative) research skills.

Retention in the Doctoral Program

A doctoral student must maintain a 3.0 grade-point average in each semester of coursework taken at UMKC. A person receiving a failing grade in a class will normally not be retained in the doctoral program. In exceptional cases, such a student may petition to be placed on probation for one semester.

A student who falls below a 3.0 grade-point average, or whose work is deemed unsatisfactory at any stage of doctoral work by the history member/s of the supervisory committee, with the concurrence of a majority of the resident doctoral faculty of the department, may be declared ineligible for further study.

History Department Policies Regarding Doctoral Faculty

No doctoral student shall be permitted to form a supervisory committee on which the only History faculty members are former faculty at UMKC or adjunct faculty members. Refer to the Web site of the School of Graduate Studies for a list of current doctoral faculty.

Ordinarily, emeritus professors of doctoral faculty status in History shall be allowed to serve on doctoral committees for no more than five years after retirement. Such service shall only be on committees that the required faculty member was already on at the time of retirement. Emeritus faculty members can have their doctoral status extended beyond five years only if at least two-thirds of the members of the History doctoral faculty vote to approve this.

Emeritus professors in History cannot chair dissertation committees. They can, however, co-chair with the approval of a majority of the regular resident doctoral faculty.

The history department adheres to the guidelines of the American Historical Association with regard to student ethics and the responsible conduct of research. The AHA Statement on Standards of Professional Conduct can be found at <http://www.historians.org/pubs/Free/ProfessionalStandards.cfm>.

Doctoral Fields

AREAS	CHRONOLOGICAL/ NATIONAL	TOPICAL/INTERDISCIPLINARY
EUROPE	a. Medieval Europe b. Early Modern Europe	a. Material Culture & Everyday Life b. History of Science or Medicine

	c. Modern Europe	c. Area Focus: Medieval Italy; Britain; Modern Germany d. Women, Gender, & Family e. State Formation & National Identity f. Global Interactions
MIDDLE EAST	a. Medieval Jewish/Islamic b. Ottoman c. Modern Middle East	a. Material Culture & Everyday Life b. Women, Gender, & Family c. State Formation & National Identity d. Comparative Religions e. Global Interactions
LATIN AMERICA	a. Encounter & Colonial b. Post-Independence	a. Identity & Culture b. Women, Gender, & Family c. State Formation & National Identity d. Area Focus: Mexico, Central America; Cuba; Puerto Rico, the Souther Cone e. Global Interactions

Mathematics

Discipline Coordinator

Noah Rhee, (816) 235-2854, rheen@umkc.edu

[Click here to see Mathematics faculty who are members of the doctoral faculty.](#)

Mathematics is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

For students with Mathematics as Coordinating Discipline:

To get full admission, an applicant should have preferably a Master's degree in Mathematics/Statistics, or at least a Bachelor's degree in Mathematics/Statistics with strong records that include graduate level courses in Mathematics/Statistics courses offered by an accredited college or university. An applicant may be given a provisional admission if the above conditions are not met, provided one of the following two conditions is satisfied: a Bachelor's degree in Mathematics/Statistics from an accredited college or university, or a Bachelor's degree in another subject including evidence of a strong performance in at least three Mathematics courses beyond Calculus I, II, and III.

For students with Mathematics as Co-discipline:

To get full admission, an applicant should have a Bachelor's degree in Mathematics/Statistics from an accredited college or university, or a Bachelor's degree in another subject including evidence of a strong performance in at least three Mathematics courses beyond Calculus I, II, and III. An applicant with Mathematics as Co-discipline may get a provisional admission if the above conditions are not fully satisfied at the time of application.

Qualifying Requirements for Students with Mathematics as a Coordinating Discipline

A student who has an MS degree in Mathematics/Statistics from an accredited college or university with full admission is automatically qualified to the interdisciplinary PhD program in the Department of Mathematics and Statistics. A student who has a BS degree in Mathematics/Statistics with less than 18 hours of graduate work needs to take the deficient graduate courses from the 6 core courses in the department's MS program and receive a GPA 3.0 or better in all the courses taken and a student's grades on all the courses taken can include no more than one C (C means C or C+) and no more than one B- to be qualified. A student who has a BS degree in Mathematics/Statistics without any graduate course work needs to take the 6 core courses in the department's MS program and receive a GPA 3.0 or better in all the 6 core courses taken and a student's grades on all the courses taken can include no more than one C (C means C or C+) and no more than one B- to be qualified.

Suggested Compatible Co-disciplines

cell biology and biophysics, molecular biology and biochemistry, computer science, telecommunication and computer networking, electrical and computer engineering, chemistry, curriculum and instruction, physics, geosciences and engineering.

Program Requirements

The requirements for the Ph.D. fall into five major categories: coursework, special requirements set by the supervisory committee, interdisciplinary work, comprehensive examination and dissertation.

Mathematics as Coordinating Unit

A student can have either mathematics or statistics as the emphasis area when the student declares mathematics as the coordinating unit.

After fully admitted, students must take at least six 5500-level courses (at least 18 credit hours) in mathematics or statistics. Transfer credit may be accepted (in accordance with the minimum 21 credit residency requirement set by the School of Graduate Studies). Students must satisfy the co-discipline coursework requirement set forth by the co-discipline. The student's supervisory committee may require more courses if such courses are appropriate to the student's area of research. The student's dissertation must represent a significant contribution to mathematics or statistics. Refer to the department Web site for more details.

Mathematics as a Co-discipline

The number of hours required in mathematics for a student who chooses mathematics as a co-discipline will be at least 12 graduate credit hours. up to six of these credit hours may be at the 400-level. Students must receive a GPA of 3.0 or better on all courses taken and a student's grades on all the courses taken can include no more than one C (C means C or C+) and more more than one B-.

The student with mathematics as the coordinating-unit discipline must pass a comprehensive examination in mathematics or statistics after completing nine hours at the 5500-level or above and completing any special requirements and interdisciplinary requirements. An oral examination will be given after a student passes the comprehensive examination.

Molecular Biology and Biochemistry

Discipline Coordinator

Karen Bame, (816) 235-2243, bamek@umkc.edu

[Click here to see Molecular Biology and Biochemistry faculty who are members of the Doctoral Faculty](#)

Molecular Biology and Biochemistry is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

No additional requirements. Due to the sequencing of coursework, new students selecting molecular biology and biochemistry as their coordinating unit will normally only be admitted in the fall term. In general, initial admission will be granted into an M. S. track leading to full admission to the Ph.D. program.

Qualifying Requirements for Full Admission

Minimum of 16 hours of approved graduate coursework at UMKC toward the Ph.D. program with a grade-point average of at least 3.0. International students must establish English proficiency.

Suggested Compatible Co-disciplines

Other sciences, such as chemistry, cell biology and biophysics, pharmaceutical sciences, pharmacology, oral biology and physics.

Core Program Requirements

For Students with this Discipline as the Coordinating Unit

Minimum core requirement is 33 course credit hours and 15 dissertation research credits in molecular biology and biochemistry for a total of 48 post-baccalaureate credit hours, distributed as indicated below:

Discipline courses required:

- Biochemistry LS-MBB 5561 (4 credits)
- Biochemistry LS-MBB 5562 (4 credits)
- Experimental Molecular Biology LS-MBB 5596 or LS-MBB 5597 (2 credits)
- Seminar in Molecular Biology and Biochemistry LS-MBB 5611 (2 credits)
- LS-MBB 5690 / LS-CBB 5690 Analytical Methods (5 credits)

An additional 3 credits must be selected from among the following courses for a total of 20:

- Eukaryotic Molecular Biology, LS-MBB 5503 (3 credits)
- Structure and Function of Proteins, LS-MBB 5565 (3 credits)
- Physical Biochemistry, LS-MBB 5567 (3 credits)

- Graduate Developmental Biology, LS-MBB 5509 (3 credits)

Related Discipline Courses Required

Ten additional course credit hours in one related discipline or combination of disciplines. Related disciplines are defined as cell biology and biophysics, chemistry, pharmaceutical sciences, pharmacology, oral biology or other. Seminar courses may be part of this component of required courses, up to a maximum of three for the program, as are two additional credits of advanced experimental molecular or cell biology.

Electives

Each student's supervisory committee may require additional courses in any University-approved doctoral discipline as preparation for specific areas of research. These additional requirements may not exceed nine credit hours beyond the 30 credits required for the basic course core. These electives may be taken at any time during enrollment as a graduate student, up to the semester prior to that in which the dissertation defense will occur. No more than seven course credit hours of 5500-level courses, or their equivalent, can be taken at institutions outside UMKC. Remember that 5700-level courses may not be used to satisfy course requirements for the program.

For Students with this Discipline as a Co-discipline

Students who select this discipline as a co-discipline must take a minimum of 11 credit hours of core courses, including:

- LS-MBB 5561 General Biochemistry I (4 credits)
- LS-MBB 5562 General Biochemistry II (4 credits)
- LS-MBB 5611 or LS-CBB 5612 (1 credit)
- Plus sufficient additional core courses to constitute the required percentage of the overall program of study.

Other Discipline-Specific Special Requirements

Research

The School of Biological Sciences offers research opportunities in many areas of modern life sciences that address problems of basic life processes at the cellular, subcellular and molecular levels. Graduate studies offered with primary participation of the faculty in the Division of Molecular Biology and Biochemistry are based on the belief that training for research can be best accomplished by having an appropriate breadth of background coursework, combined with a depth of specialization in a particular research area. The faculty have established guidelines that have a minimum of formal requirements so that students have the flexibility to advance at a pace consistent with development of the individual. Diligence, creativity and independent thinking are the qualities desired in the candidate's dissertation work.

Teaching

As part of their graduate training, all Ph.D. students with molecular biology and biochemistry as the coordinating-unit discipline participate in the teaching program of the School of Biological Sciences. This is an important component of preparation for a career in academia or other institutions and aids in the development of effective communication skills.

Seminars

Students will participate in seminars in which current developments in various areas of life sciences will be discussed and explored. Students also will present seminars on their own work or on work in the current scientific literature. The latter is taken as part of the core of graduate-level courses in the coordinating or co-disciplines.

Course Restrictions

5700-level courses may not be used to satisfy molecular biology and biochemistry discipline-specific course requirements.

Dissertation

The dissertation abstract and proposal must be submitted to and approved by the supervisory committee prior to beginning the third academic year of study after enrollment in the Ph.D. program.

Retention in Program

For students with this discipline as their coordinating-unit discipline, no more than one C grade in a core course or two C grades in any course, and no D or F grades, are permitted. A student who receives more than two C grades will be recommended for termination from the doctoral program. A student who receives a D or F grade will be dropped from the program.

The doctoral faculty in molecular biology and biochemistry meets formally at the end of each academic year to discuss and evaluate the progress of all graduate students. Each student's committee also meets with the student at least once a year. After the annual doctoral faculty meeting, all students receive written evaluations of their status and a report is placed in each student's file.

Comprehensive Examination Guidelines

To become a Ph.D. candidate, the student must pass a comprehensive exam that may be taken on completion of essentially all of the coursework specified in the student's study plan and on satisfactorily fulfilling the requirements for full admission. This must be done before the *beginning* of the third academic year after admission to UMKC with graduate student status, or (for part-time students) immediately after completion of 25 credit hours approved by the discipline-doctoral program at UMKC. This exam will be administered by the student's supervisory committee and will test the student's knowledge of background material, as well as the student's ability to analyze and interpret information and solve problems.

Written Portion

The written examination for students who have molecular biology and biochemistry as their primary discipline has two components. The first component consists of a written, general comprehensive exam testing an integrated knowledge of material acquired through the courses and the seminar components in the primary and secondary disciplines. The second component of the written examination consists of an NIH-style grant proposal that the student will prepare. The topic of the research proposal will be determined by the student in consultation with the student's supervisory committee.

Oral Portion

The oral examination also has two aspects: (1) questions covering the grant proposal prepared by the student for the written examination and (2) other related material in the student's area of specialization, including fundamental knowledge of the primary and secondary disciplines.

Music Education

Discipline Coordinator

Lindsey Williams, (816) 235-2354, williamslin@umkc.edu

a

[Click here to see Music Education faculty who are members of the doctoral faculty.](#)

Music Education is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

In addition to the general criteria, applicants selecting music education as a discipline must:

- Have an aggregate minimum undergraduate GPA of 3.0 and graduate GPA of 3.5 on a 4.0 scale.
- Submit a thesis or equivalent evidence of written scholarship.
- Have a combined score of 1500 on the verbal, quantitative and analytical sections of the GRE with no individual score below 350.
- Have an acceptable on-campus interview with doctoral faculty members from this discipline.

- Demonstrate comprehensive musicianship through videotape, performance, classroom teaching, audition or jury.
- Have a minimum of three years K-12 teaching or music therapy clinical experience or the equivalent.
- Perform an applied audition.

Alternate Admission Criteria

Applicants may ask to be considered under the following alternate admission criteria:

- Have an undergraduate GPA of 3.0 or a graduate GPA of 3.5.
- Submit a thesis or equivalent evidence of written scholarship.
- Score 900 or above on the SAT with both the verbal and math scores above 400; or score 21 or above on the ACT.
- Have an acceptable off-campus interview with at least two UMKC music education/therapy doctoral faculty or have two written recommendations from UMKC doctoral faculty.
- Have a minimum of three years K-12 teaching/clinical experience or the equivalent.
- Demonstrate comprehensive musicianship through a cassette tape or videotape.
- Perform an applied audition.

Qualifying Requirements for Full Admission

- Have a GPA of at least 3.5 in courses to be counted for the degree.
- Have an acceptable interview with members of the student's supervisory committee.
- Have acceptable scores on designated tests covering music history, music theory and music education/therapy.

Suggested Compatible Co-disciplines

Curriculum and instruction is the primary co-discipline. Other potential co-disciplines can be considered by students in consultation with coordinating discipline coordinator and faculty.

Core Program Requirements

Music education will function only as a coordinating unit in the UMKC Interdisciplinary Ph.D. program. Because of this, the following minimum standards apply only to students with music education as their coordinating unit.

Research

Two important goals for students with music education as their coordinating discipline and education as a co-discipline will be to develop research skills and increase their awareness of important research literature. Through introductory courses at the Conservatory, students will become acquainted with research techniques, problems and literature in music education/therapy. Additional research courses in the School of Education and other academic units will provide more tools for structuring research designs and analyzing data. Students in the program will assist their faculty mentors in research while developing a research agenda of their own. The number and nature of research classes placed on each student's program of study will be determined by the background, goals and interests of the student.

Teaching Techniques and Philosophies

While students may have widely divergent career goals, ranging from becoming a district music supervisor in a K-12 program, training undergraduate music therapists or being a college choral conductor, all will be actively involved in the education process in some form. To develop a comprehensive acquaintance with education at all levels, Ph.D. students will enroll in methods classes, will be assigned to observe and teach undergraduate classes at UMKC and will observe and help supervise student teachers in local K-12 schools. Courses in the Conservatory, the School of Education and other academic units will help students efficiently interpret the techniques and philosophies they observe in the classroom, determine their own goals and philosophies, and consequently, become better teachers.

Because faculty members from the Conservatory and the School of Education strongly believe that theories, philosophies and techniques associated with teaching carry more meaning for those who have experienced the teaching environment, the Ph.D. requires three years of K-12 teaching experience, music therapy clinical practice or the equivalent for admission to the program.

Seminars and Core Courses

While research and teaching are areas of great importance, it is anticipated that most students will need theoretical information to structure their teaching and research endeavors. Courses in theories of learning in general and in music, as well as seminars on the latest teaching techniques and methodologies, will give students a knowledge base to better facilitate their own teaching and to prepare future students to teach. Particular attention will be given to cultivating critical thinking skills in students and nurturing multicultural values.

Program Requirements

It is anticipated that most students selecting music education and education as their disciplines will have completed a master's degree in music education or a related field. Students with backgrounds in music therapy are also encouraged to apply.

While total degree-hour requirements for the Ph.D. will vary depending on each student's career goals, previous experience and training, it is anticipated that for most students, course requirements will include 35 to 45 pre-dissertation hours. If a student has completed a bachelor's or master's degree in some area other than music education/therapy, additional work beyond this approximate range will probably be required. No specific course requirements are designated. Depending on the previous work of the individual and the career direction sought, each program of study, including foreign language requirements, will be considered on an individual basis.

Co-discipline Requirements

Curriculum and instruction is the primary co-discipline for music education in the Interdisciplinary Ph.D. program. It is anticipated there will be many permutations which are a product of this combination. A student's interests in School of Education classes may gravitate toward research, administration, counseling, philosophical and historical foundations or an infinite number of additional possibilities. Within the spirit of flexibility, which is the essence of the Interdisciplinary Ph.D. program, students are allowed to enroll in other fields of study such as history, philosophy, psychology, art and non-music education/therapy Conservatory classes. The primary area of study outside music education and/or music therapy will constitute from 15 to 50 percent of pre-dissertation hours in the planned program of study.

Comprehensive Examination Guidelines

Written and oral comprehensive exams will be taken during the semester when the student completes all, or (in some special cases) nearly all, of the classes outlined in the planned program of study or the semester immediately following the completion of classes. This could include the summer term, depending on the availability of supervisory committee members. The exams must be scheduled with the supervisory committee no later than four weeks before they are to occur. No particular period is designated specifically for comprehensive exams; however, the oral exam should be taken the week following the written portion. The comprehensive exam will include a total of 18-24 hours of written and oral questions. The hours will be divided between the coordinating unit of music education (not to exceed 60 percent of the total number of hours on the exam) and the co-discipline of education (15-40 percent of the hours) so as to reflect the student's planned program. Exams in the coordinating area of music education will include 12-18 hours of written questions in the student's major area (e.g., choral music education, general music education, instrumental music education). A Ph.D. student may elect to substitute written research projects previously approved by the supervisory committee for this portion of the exam. Examples of such projects would include, but are not limited to, preliminary research distinct from the dissertation or the development of a curriculum project for a designated level and subject matter. In addition, a two-hour oral exam pertaining to research projects and courses completed by the student, a three-hour written exam relating to general knowledge of music research techniques and procedures, and a one-hour written exam pertaining to music education or music therapy history and philosophy will be required.

Oral Biology

Discipline Coordinator

Mary P. Walker, Director of Graduate Research Programs (816) 235-2825, walkermp@umkc.edu

[Click here to see Oral Biology faculty who are members of the doctoral faculty.](#)

Oral Biology is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Overview

In concert with the School of Graduate studies, the Department of Oral Biology offers a doctoral program that must include the in-depth study of at least two disciplines. Students in the Oral Biology program can choose to participate in any of the department's three areas of research focus:

Biomaterials/Bioengineering of Biological Tissues and Replacements

The overall goal of this program is to apply an integrated approach involving innovative computer modeling and organic synthesis, novel biocompatibility evaluation, comprehensive materials characterization, and mechanistic development of improved dental biomaterials. A new thrust to this program is an engineering component that emphasizes micro- and nano-structure/property characterization of natural biomaterials such as bone, dentin, and enamel as a tissue engineering approach to the development of replacement materials.

Mineralized Tissue Biology

This program is aimed at determining basic biological mechanisms and the cause and treatment of disease of bone and teeth during development and in the adult. Approaches include the use of basic in vitro methods combined with genomics, proteomics, bioinformatics, and transgenic technology.

Translational and Clinical Research

Translational and clinical research involves results from clinical observations translating into basic research and incorporates basic research findings into clinical assessment and practice. The identification, characterization and synthesis of materials for clinical use requires the combined efforts and expertise of clinical scientists, biostatisticians, bioengineers, geneticists, life scientists, chemists, physicists, and computer scientists.

Program

The Interdisciplinary Ph.D. program is composed of a significant supervised research effort along with courses in areas such as dental biomaterials, research design, clinical research methodology, statistics, grantsmanship, biochemistry, proteomics, genomics, histology, and pathology. The primary didactic effort will be in oral biology (biomaterials/bioengineering of biological tissues and replacements, mineralized tissue biology, or translational/clinical research) and the student will select a secondary area of concentration from other Interdisciplinary Ph.D. discipline(s).

Duration

The length of the program is dependent on the academic background and abilities of the applicant and may vary from two to five years. The program culminates with an Interdisciplinary Ph.D. in Oral Biology degree and the designated co-discipline or co-disciplines.

Objectives

The course requirements for the IPhD are not predetermined, but rather are formulated by the student in consultation with the Oral Biology Director of Graduate Research Programs and the doctoral faculty who will serve on their supervisory committee. The developed program of study will meet the student's individual needs and research interests, satisfy discipline-specific requirements, and assure upon graduation that students are able to:

- Demonstrate appropriate depth and breadth of knowledge in their disciplines
- Use skills of interdisciplinary scholarship and research to integrate multiple perspectives
- Work effectively in a collaborative environment
- Effectively communicate results of their research to diverse audiences
- Use objective assessment for personal and professional improvement and development
- Apply ethical principles to all aspects of their professional life
- Think critically and creatively as a self-directed interdisciplinary researcher
- Develop skills to become good mentors and communicators
- Successfully complete the CITI Research Ethics Tutorial at: <https://www.citiprogram.org/default.asp>. Upon completion they will print the Certificate of Successful Completion, and turn it in to the Oral Biology Administrative Office to be placed in their file

Eligibility

An applicant must meet the minimum general requirements for admission to Interdisciplinary Ph.D. study at the University of Missouri-Kansas City and must satisfy grade point average requirements as stated in the admission requirements section of the Academic Regulations and Information of Doctor of Philosophy Studies at the University of Missouri-Kansas City (<http://sgs.umkc.edu/iphd/index.asp>). To advance to candidate status, the student must successfully complete written and oral comprehensive examinations relevant to their coordinating and co-discipline(s).

Discipline-Specific Admission Requirements

In addition to the general minimum requirements for admission to interdisciplinary Ph.D. study, an applicant must hold either (1) a baccalaureate degree or (2) a D.D.S. or equivalent degree. In general, an applicant will be expected to have a minimum cumulative GPA of 3.0 (based on a 4.0 scale) for all undergraduate work, including dental school (if applicable).

All application materials should be submitted prior to March 1 for students wishing to begin their study in the fall semester; however, applications will be accepted throughout the year. Evaluation criteria include the following:

- Transcripts. Analysis of transcripts from all prior institutions is required. Under special circumstances (e.g., class standing) consideration may be given to applicants whose GPA is 2.5 to 3.0.
- Letters of recommendation. Three letters of recommendation are required from current or former teachers who are familiar with the applicant's past achievements and research ability.
- Letter from applicant. The applicant must submit a letter describing why he or she is interested in pursuing interdisciplinary Ph.D. study in oral biology, how the experience of the program may be used by the candidate in the future, and a list of potential research interests.
- Interviews. Interviews are not required; however, interviews are preferred and will be arranged upon the candidate's request. Successful interviews may enhance the candidate's chance of acceptance.

Suggested Compatible Co-disciplines

Cell biology and biophysics, entrepreneurship and innovation, molecular biology and biochemistry, pharmacology, chemistry, physics, engineering, computer science, electrical and computer engineering, telecommunication and computer networking, curriculum and instruction, public affairs and administration (public health emphasis) and mathematics.

Core Program Requirements

The required minimum core curriculum for students with oral biology as a discipline will consist of a minimum of nine credit hours in oral biology. See minimum course requirements below. The student's supervisory committee may require additional courses for an Interdisciplinary Ph.D. program which includes the department of oral biology as the coordinating-unit discipline or as a co-discipline. Ph.D. students with oral biology as their coordinating unit must either complete these courses at UMKC or must have completed equivalent coursework at approved institutions at the time of their admission to the Interdisciplinary Ph.D. program. Students are referred to other sections of the current UMKC general catalog for listings of appropriate graduate-level courses.

In accordance with the general requirements for the Interdisciplinary Ph.D. program, a Ph.D. student must prepare a plan of study in conjunction with his or her dissertation supervisor and supervisory committee during the first year of Ph.D. studies. A student's plan of study must include coursework in oral biology as well as in at least one other discipline.

Minimum Coursework Requirements

Coursework must satisfy all discipline-specific requirements and may include additional courses as appropriate to the student's research focus. Course selection will be made in conjunction with the Department of Oral Biology Director of Graduate Research Programs and the committee chair.

General requirements are listed below:

- The plan must include coursework from all of the student's disciplines
- No more than 60 percent of the total coursework taken at UMKC and included on the Ph.D. Plan of Study, exclusive of dissertation hours, may be from any one discipline
- Coursework from disciplines other than the ones to which the student has been admitted may be included on the Plan of Study and counted in the total percentage
- No more than 25 percent of the total coursework may be from disciplines not formally participating in the

Interdisciplinary Ph.D. Program

- The Plan must include at least 30 didactic hours beyond the baccalaureate degree, exclusive of dissertation research hours, in courses taken at UMKC or in courses taken at another institution which are approved for transfer by the student's Supervisory Committee
- The Plan must include a minimum of 9 credit hours, exclusive of dissertation research hours, in a co-discipline area to which the student has been admitted
- The Plan must include at least 12 hours of dissertation credits

The required core curriculum will consist of the following courses:

Course Name/Number	Course Title	Credit Hours
BIO-SCI 5751	Elements of the Scientific Method	1
BIO-SCI 5752	Research Methods in Oral Biology	1-5
RES-ME 5700	Introduction to Research Methodology	2-3
RES-ME 5704	Introduction to Biostatistics	2-3
RES-ME 5706	Dissertation Writing	1

Dissertation credits required (no less than 12)

Course Name/Number	Course Title	Credit Hours
OR-BIO 5699	Dissertation Research	1-12

Examples of additional courses applicable to the program:

Course Name/Number	Course Title	Credit Hours
BIO-SCI 5700	Biomaterials Teaching	2
BIO-SCI 5704	Temporomandibular Disorders: Evaluation and Management	2
BIO-SCI 5706	Growth and Development I	1
BIO-SCI 5707	Growth and Development II	1-2
BIO-SCI 5710	Molecular Genetics and Cranial Facial Biology	2
BIO-SCI 5739	Dental Biomaterials for the Dental Specialist	1
BIO-SCI 5740	Oral Pathology I	2
BIO-SCI 5742	Dental Biomaterials for the Restorative and General Dentist	2
BIO-SCI 5743	Advanced Seminar in Biomaterials	1-2
BIO-SCI 5747	Research Instrumentation Used in Dental Biomaterials	2-4
BIO-SCI 5750	Special Problems in Dental Biomaterials	2-4
BIO-SCI 5759	Special Problems in Pharmacology	2
BIO-SCI 5760	Physiology of Oral Hard Tissues	2
BIO-SCI 5790	Directed Research in Oral Biology	1-6
BIO-SCI 5801	Readings in Immunology	1-3
BIO-SCI 5802	Immunopathology	2
BIO-SCI 5805	Molecular Biology of Oral Microflora	3
BIO-SCI 5830	Structural Characterization of Dental Biomaterials	3
SGS 5550A or SGS 5550B or SGS 5550C	Special Topics in the Responsible Conduct of Research	3
SGS 5550D or SGS 5550E or SGS 5550F	Special Topics in the Responsible Conduct of Research	3

Departmental Research Orientation

Enrollment in BIO-SCI 5751 Elements of the Scientific Method required

- IPhD students will select and rotate through a minimum of four laboratories in the Department of Oral Biology conducting a short research project in each. At the end of the semester, a report is required reviewing the research

project and instrumentation in each laboratory. Students are also required to attend the weekly Department of Oral Biology Seminar Series and the monthly Professional Development Seminar Series. Research presentations cover a variety of biological, engineering and psychological disciplines relevant to oral science education and the oral health care profession. Presentations will be by faculty, students, and invited guest lecturers.

Enrollment in BIO-SCI 5752 Research Methods in Oral Biology required

- As the student identifies a research focus for the dissertation project, they will begin reviewing the literature and relevant instrumentation in conjunction with a selected research advisor.

Seminar Series

- Graduate students are expected to attend the weekly Department of Oral Biology Seminar Series and the monthly Professional Development Seminar Series
 - Information available from Department of Oral Biology website at <http://dentistry.umkc.edu/oralbiology/oralbiologyseminar.htm>

Thesis and Dissertation Defense Exams

- Graduate students are expected to attend all thesis and dissertation defense exams

Other Discipline-Specific Special Requirements

Dissertation Research

In accordance with general Interdisciplinary Ph.D. program requirements, each student with oral biology as the coordinating-unit discipline must submit a dissertation proposal, prepared in consultation with the student's supervisory committee, which describes an interdisciplinary program of original research on a significant problem in oral biology. The proposal will be reviewed by the student's Ph.D. supervisory committee. The student may be required to revise and resubmit the proposal to the supervisory committee. A copy of the accepted proposal will then be forwarded to the dean of the School of Graduate Studies.

The student must provide evidence that a substantial portion of the dissertation will be submitted for publication to refereed journals. Such proof may be in the form of a manuscript in preparation for submission or a submitted manuscript. The student must submit the complete dissertation, in typewritten or letter-quality printed form, to his or her faculty adviser for review and preliminary approval at least eight weeks before the expected date of graduation.

Appeals

In the event of disputes or special requests concerning a student's Ph.D. program, written appeals or documentation must first be submitted to the student's supervisory committee. If a resolution of the problem cannot be affected at that level, the written appeals process must then progress through the following levels:

1. Doctoral studies committee of the Department of Oral Biology.
2. Interdisciplinary Ph.D. Executive Committee.
3. Dean, School of Graduate Studies.

Academic Retention

A 3.0 or better grade-point average is required of all work applicable to the Interdisciplinary Ph.D. program. A Ph.D. student with oral biology as a discipline is subject to termination from the Interdisciplinary Ph.D. program if: (1) his or her grade-point average falls below 3.0; (2) more than four hours of C (2.0) grades are received; or (3) any grade of D or F is received.

A recommendation for termination from the program will be made by the student's supervisory committee to the Department of Oral Biology and forwarded to the Interdisciplinary Ph.D. executive committee and the dean of the School of Graduate Studies.

Comprehensive Examination Guidelines

A comprehensive examination will be administered to all students enrolled in the Interdisciplinary Ph.D. program whose subject emphasis area is oral biology. The examination includes both written and oral components. Content of the comprehensive examination will be tailored to the student's field of research interest and prepared with input from all members of the student's supervisory committee.

Oral Biology as a Co-discipline

- The Plan of Study must include a minimum of 9 approved credit hours, exclusive of dissertation research hours, in the Oral Biology co-discipline area
- At least one member of the Department of Oral Biology doctoral faculty must serve on the dissertation committee
- The Department of Oral Biology Director of Graduate Research Programs will serve as the interim adviser to co-discipline Interdisciplinary Ph.D. students.

Students will select courses applicable to their program from the following list with guidance from the Department of Oral Biology Director of Graduate Research Programs.

Course Name/Number	Course Title	Credit Hours
BIO-SCI 5751	Elements of the Scientific Method	1
BIO-SCI 5752	Research Methods in Oral Biology	1-5
RES-ME 5700	Introduction to Research Methodology	2-3
RES-ME 5704	Introduction to Biostatistics	2-3
BIO-SCI 5710	Molecular genetics and Cranial Facial Biology	2
BIO-SCI 5739	Dental Biomaterials for the Dental Specialist	1
BIO-SCI 5742	Dental Biomaterials for the Restorative and General Dentist	2
BIO-SCI 5743	Advanced Seminar in Biomaterials	1-2
BIO-SCI 5760	Physiology of Oral Hard Tissues	2
SGS 5550A or SGS 5550B or SGS 5550C	Special Topics in the Responsible Conduct of Research	3
SGS 5550D or SGS 5550E or SGS 5550F	Special Topics in the Responsible Conduct of Research	3

Pharmaceutical Sciences

Discipline Coordinator

Ashim Mitra, (816) 235-1615, mitraa@umkc.edu

[Click here to see Pharmaceutical Sciences faculty who are members of the doctoral faculty.](#)

Pharmaceutical Sciences is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Due to course sequencing, new students will ordinarily be accepted only in the fall term. Applicants must hold a professional degree in pharmacy (Pharm.D. or B.S.) or a baccalaureate degree in a related field such as chemistry, biology or mathematics with an undergraduate GPA of at least 3.0 on a 4.0 scale. Students who hold a master's degree in an appropriate discipline may be admitted on satisfaction of the general requirements of the School of Graduate Studies.

Qualifying Requirements for Full Admission

Admission depends on agreement of a member of the doctoral faculty in the discipline to serve as research advisor. All students are admitted provisionally except those holding an M.S. in pharmaceutical sciences. Full admission will be granted on satisfactory completion of 16 credit hours of courses recommended by the provisional pharmaceutical sciences faculty advisor during the first calendar year on campus. Students seeking admission to the pharmaceutical sciences discipline of the Interdisciplinary Ph.D. program should have completed coursework in calculus, organic chemistry, physical chemistry, biochemistry, microbiology, human anatomy and physiology where appropriate to their interests. Graduate students will be given a placement examination administered by the coordinating-unit discipline faculty

in order to assess undergraduate preparation for graduate-level study. Deficiencies existing on admission must be discussed with the interim faculty advisor during the first two semesters of graduate work. Course equivalency is determined by the pharmaceutical-science discipline faculty on a case-by-case basis. Students are required to pass the discipline placement exams before appearing for the comprehensive exams administered by the supervisory committee.

On admission, all students are assigned interim faculty advisors as stated in the letter of admission. Graduate students must adhere to the guidelines as stated in the School of Pharmacy Graduate Programs section of this catalog pertaining to selection and changes of faculty advisors.

Suggested Compatible Co-disciplines

Pharmacology, chemistry, cell biology and biophysics, molecular biology and biochemistry and oral biology.

Core Program Requirements

Pharmaceutical Sciences as the Coordinating Unit

The minimum graduate credit hours generally required for the Ph.D. degree with pharmaceutical sciences as a discipline are 40 in didactic coursework, credit for presentation of three seminars and 20 dissertation research credits. Specific courses in pharmaceutical science will be agreed upon in consultation with the coordinating-discipline supervisory faculty. Students will take a minimum of five courses offered by the coordinating-unit discipline. Attendance at all seminars in the coordinating-unit discipline is required, except when there is a scheduling conflict or an excuse approved by the seminar chair.

Three credit hours of statistics, plus 15 credit hours in pharmaceutical science coursework and 22 credit hours in one or a combination of related co-disciplines are all required.

Other electives. A supervisory committee may require that additional coursework be taken to prepare the student in a specific research area.

Pharmaceutical Sciences as Co-discipline

The pharmaceutical sciences doctoral faculty member(s) of the supervisory committee will confer regarding the student's program of study and recommend appropriate courses offered by the co-discipline. Generally, courses in the co-discipline will constitute successful completion of at least 20 percent of the approved course of study. All students choosing pharmaceutical sciences as a co-discipline must complete at least three graduate-level courses in pharmaceutical sciences compatible with research objectives recommended by the supervisory committee.

Other Discipline-Specific Special Requirements

Requirements for Retention

Students who receive two C grades or one D grade in didactic courses are subject to dismissal from the program. A student who receives one F grade will not be retained. Students will not be allowed to attain more than one C grade in a co-discipline course.

Appeals

Appeals by graduate students on matters pertaining to research or studies in the discipline will be routed initially to the supervisory committee and managed according to the appropriate procedures established for the Division of Pharmaceutical Sciences, School of Pharmacy.

Comprehensive Examination Guidelines

Ph.D. students who choose pharmaceutical sciences as the coordinating discipline must successfully pass a qualifying examination given by the division prior to applying to take their written and oral comprehensive examinations. Once the qualifying examination has been successfully completed, the comprehensive examinations will be given after the student has completed the majority of didactic coursework requirements but not later than the end of the third year. The examinations will be administered by the student's supervisory committee. The comprehensive examinations (written and oral) must be passed before a doctoral student can be admitted to

candidacy. Before the comprehensive examination can be taken, the student must submit and have accepted a research proposal in a form satisfactory to the supervisory committee. The comprehensive examination will be administered by the student's supervisory committee and will consist of both written and oral components.

Pharmacology

Discipline Coordinator

Dr. Anil Kumar, (816) 235-1792, kumaran@umkc.edu

Assistant Yvonne McCommon, Pharmacology@umkc.edu

[Click here to see Pharmacology faculty who are members of the Doctoral Faculty.](#)

Pharmacology is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Due to course sequencing, new students will ordinarily be accepted only in the fall term. Applicants must hold a professional degree in pharmacy (Pharm.D. or B.S.) or a baccalaureate degree in biological, chemical science or health science. In special situations, baccalaureate degrees in other disciplines will be evaluated for possible admission. For graduates of foreign schools, the applicant must have completed a course of study at least the equivalent of a U.S. baccalaureate degree.

Prospective students must have an aggregate minimum grade-point average of 3.0 on a 4.0 scale for all college work taken prior to the bachelor's degree, or an aggregate GPA of at least 3.5 on all post-baccalaureate work to date (minimum of nine hours). For graduates of foreign schools, the applicant must have above-average grades in previous college study.

Prospective students must have a minimum aggregate GRE score of 1000 out of 1600 for verbal and quantitative and 3.5 out of 6.0 for analytical writing or combined 1500 out of 2400 for verbal, quantitative and analytical.

For graduates of foreign schools, the applicant must have a minimum score of 550 on written or 213 computer-based or 80 on Internet-based TOEFL exam or alternatively, a minimum score of 6 on the IELTS.

Qualifying Requirements for Full Admission

Students seeking admission to the pharmacology discipline of the Interdisciplinary Ph.D. program should have completed coursework in organic chemistry I and II, biochemistry I and II, calculus, anatomy, microbiology, physiology I and II and a biostatistics course. Deficiencies existing on admission must be satisfied during the first two semesters of graduate work. In addition, during the first year of graduate study, provisional Ph.D. students with pharmacology as a discipline must complete the following courses with a grade of B or better: PHARM 5519 (four hours), PHARM 5520 (five hours) and PHARM 5615 (three hours) or their equivalents. Equivalency is determined by the pharmacology discipline faculty on a case-by-case basis.

Suggested Compatible Co-disciplines

Pharmaceutical sciences, cell biology and biophysics, chemistry, molecular biology and biochemistry or other related fields in health sciences that offer Ph.D. degrees.

Core Program Requirements

Pharmacology as Coordinating-unit Discipline

Specific course requirements will be determined by the student in consultation with the research adviser and the supervisory committee. Generally, 65 post-baccalaureate credit hours, including 20 hours of research and dissertation and 45 hours of coursework, are required for the Ph.D. degree. No more than 27 credit hours (60 percent) can be obtained from a single discipline (preferably in pharmacology). The remaining 18 credit hours (40 percent) can be obtained from one or more participating disciplines. No more than 25 percent of the coursework (~11 credits) from non-participating disciplines will be counted toward the Ph.D. degree. More co-disciplines will be required. As many as 15 credits may be allowed for

courses taken in a master's degree program at another institution with the concurrence of the student's supervisory committee.

The total of 27 hours required for pharmacology as the coordinating discipline will be composed of PHARM 5519 (four credits), PHARM 5520 (five credits), PHARM 5615 (three credits), three hours of PHARM 5580C (pharmacology seminar) and 12 additional hours of advanced courses (5500-level or above) in pharmacology or toxicology as approved by the supervisory committee.

In the remaining 18 hours, three credit hours of statistics (EDUC-R&P 5505), one credit hour of ethical research (SGS 5590A), plus 14 credit hours in one or a combination of co-disciplines, which may include cell biology and biophysics, chemistry, molecular biology and biochemistry, oral biology, pharmaceutical sciences or other pertinent areas as approved by the supervisory committee.

Other Electives

A supervisory committee may require that additional coursework be taken to prepare the student in a specific research area. This additional requirement may not exceed six credit hours, may be taken in any approved doctoral discipline and must be completed prior to the semester in which the dissertation defense occurs.

Pharmacology as Co-discipline

Students who apply for Pharmacology as a co-discipline should have completed coursework equivalent to Pharmacy Physiology I and II (LS-PHYS 399 and 400) and Human Biochemistry I and II (BIO-SCI 365 and 366), which are offered at UMKC. Deficiencies existing on admission must be satisfied during the first two semesters of graduate work. When pharmacology is chosen as the co-discipline, the minimum course requirements are completion of PHARM 5519 (four credits), PHARM 5520 (five credits) and one credit hour of seminar (PHARM 5580C), plus sufficient courses constituting the required percentage of their program of study, as approved by the supervisory committee. No C grade in any core course will be permitted. Students who receive more than one C grade on elective courses will be dropped from pharmacology as a co-discipline. Students must take and successfully pass a written and oral comprehensive examination administered by the supervisory committee members from the Division of Pharmacology. Co-discipline students should take the pharmacology comprehensive examination no later than one semester after completing their required co-discipline coursework.

Other Discipline-Specific Special Requirements

Additional Coursework

Students will be expected to complete at least three credit hours of statistics. Students are expected to take sufficient computer courses or training as to be proficient in word processing and the use of spread sheets and data bases.

Retention in Program

Graduate students are required to maintain a cumulative grade-point average of B (3.0 on a 4.0 scale). In any semester when the cumulative GPA falls below 3.0, the graduate student will automatically be placed on probation. The student is allowed one semester to return to good academic standing (cumulative GPA of 3.0). A graduate student should not let the cumulative GPA fall below 3.0 in two semesters throughout the entire program. Students who receive a grade of C in six credit hours or more, or who receive a grade lower than C, or one no-credit grade will be dismissed from the graduate school. Any C grade in courses offered by the pharmacology division should be repeated no more than once.

Appeals

For special requests or disputes concerning a student's Ph.D. program, written appeals with documentation must first be submitted to the student's supervisory committee. If a resolution of the problem cannot be obtained at the supervisory committee level, the written appeals process must then progress through the following levels:

1. Division Chair, pharmacology.
2. Graduate Programs Committee, School of Pharmacy.
3. Interdisciplinary Ph.D. Executive Committee.
4. Dean, School of Graduate Studies.

Comprehensive Examination Guidelines

The graduate school requires that a student demonstrate adequate intellectual mastery of the field of specialization and of appropriate co-discipline fields by passing a comprehensive doctoral qualifying examination before being admitted into candidacy for the Ph.D. degree. To satisfy this requirement the student must pass two parts of the comprehensive examination given by the supervisory committee within 6 months after full admission to the graduate study at UMKC.

The comprehensive examination must be taken before the beginning of the student's third year after admission to full-time graduate study at UMKC. The comprehensive examination consists of both written and oral components. The format of the comprehensive examination consists of the writing and oral defense of a research proposal in the style of an NIH grant. This topic of the proposal is in an area distinct from the student's intended dissertation project and approved by the committee in advance of the examination.

Written Examination

The written examination will consist of a National Institutes of Health (NIH) grant proposal including Specific Aims, Methods, and Research Design sections; budget pages are unnecessary. The content will integrate fundamental knowledge from both the coordinating discipline and co-disciplines. The written proposal must be submitted to the supervisory committee at least two weeks in advance of the oral portion of the examination.

Oral Examination

The oral examination shall consist of the student's presentation of their grant to the supervisory committee in order that the committee can evaluate the student's critical thought process and the student's ability to develop and defend an original research proposal. The oral examination includes (1) questions covering the grant proposal prepared by the student for the written examination and (2) other related material in the student's area of specialization, including fundamental knowledge of the coordinating discipline and co-discipline(s).

On satisfactory completion of the written and oral portions of the comprehensive examination, the student becomes a candidate for the Ph.D. In the event a student does not pass the examination, one additional attempt may be made at a date no sooner than 12 weeks, and within one year, of the original attempt. A student who fails either the written or the oral examination a second time will be automatically dropped from the program.

A student must pass the doctoral comprehensive examination and advance to Ph.D. candidacy within four years from the beginning of doctoral coursework (within three years if entering with a master's degree in the same or closely related field). After the establishment of degree candidacy, a maximum of four years will be allowed for completion of degree requirements (three years for students with a master's degree). Failure to complete the work within the periods specified will necessitate re-evaluation of the entire program and may result in a notice of termination.

Physics

Discipline Coordinator

Da-Ming Zhu, (816) 235-5326, zhud@umkc.edu

[Click here to see Physics faculty who are members of the doctoral faculty.](#)

Physics is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

For admission to the program, an applicant must meet both the Interdisciplinary Ph.D. and specific physics admission requirements. The doctoral studies committee of the Department of Physics will review applications and make admission recommendations to the Interdisciplinary Ph.D. Executive Committee. The basic criterion for admission is the likelihood that an applicant will be successful in the Interdisciplinary Ph.D. program, particularly in the research component of the program. All applicants must satisfy the doctoral studies committee that they meet this criterion through such evidence as transcripts, letters of recommendation, statements of purpose, GRE scores (general and subject), performance on the department written examination, etc. Furthermore, a member of the doctoral faculty must

be willing to accept the applicant as a research student. International students are required to have a TOEFL score of at least 550 (213 CBT) for admission and 575 (230 CBT) to be eligible for a teaching assistantship.

Qualifying Requirements for Full Admission

In addition to the above requirements, applicants must meet the following minimum requirements for the appropriate category listed below to be considered for full admission with physics as a discipline. The doctoral studies committee may recommend provisional admission for those applicants who fail to meet these requirements.

Applicants for admission to the Interdisciplinary Ph.D. program electing physics as their coordinating discipline must have a bachelor's or master's degree in physics or the equivalent. Those applicants holding only a bachelor's degree will be expected to provide exceptionally strong evidence of their academic ability and research capability in physics.

Applicants for admission to the Interdisciplinary Ph.D. program electing physics as their co-discipline must hold at least a bachelor's degree in a compatible field. These applicants must have successfully completed coursework in physics beyond a first (general or engineering physics) introductory course and must have mathematical background sufficient for advanced coursework in physics.

Suggested Compatible Co-disciplines

Computer science, mathematics, chemistry, geosciences, electrical and computer engineering, telecommunication and computer networking, curriculum and instruction, and engineering.

Core Program Requirements

The credit hour requirement for Ph.D. students with physics as a discipline will depend on the student's entering status and individual program.

Physics as a Coordinating Unit

For Ph.D. students with physics as the coordinating discipline, the following are the core graduate-level courses:

- PHYSICS 5500 and 5501 Methods of Mathematical Physics I, II
- PHYSICS 5510 and 5511 Theoretical Mechanics I, II
- PHYSICS 5520 and 5521 Electromagnetic Theory I, II
- PHYSICS 5530 and 5531 Quantum Mechanics I, II
- PHYSICS 5540 Statistical Physics I
- PHYSICS 5550 Atomic and Molecular Structure
- PHYSICS 5630 Advanced Quantum Theory

Students with physics as their coordinating-unit discipline must either complete these courses at UMKC or must have already completed equivalent coursework at approved institutions at the time of their admission to the Interdisciplinary Ph.D. program at UMKC.

Physics as a Co-discipline

A student selecting physics as a co-discipline will be required to complete 12 credit hours in physics courses. Up to six of these credit hours may be at the 400 level.

Other Discipline-Specific Special Requirements

Retention in Program

Ph.D. students with physics as their coordinating-unit discipline must maintain a 3.25 grade-point average. Students with physics as a co-discipline must maintain a 3.0 GPA in physics courses. A student's failure to maintain the minimum GPA will result in a probationary status for the following semester. A failure to remove the GPA deficiency during the probationary semester will then result in the student's dismissal from the Interdisciplinary Ph.D. program.

Appeals

Exceptions to any of the discipline-specific regulations must be approved by the student's supervisory committee and by the physics doctoral studies committee. In the event of disputes or special requests concerning a student's Ph.D. program, written appeals and/or documentation must first be submitted to the student's supervisory committee. If a resolution of the problem cannot be affected at that level, the written appeals process must then progress through the following levels: (1) Doctoral studies committee of the Physics Department; (2) Interdisciplinary Ph.D. Executive Committee; (3) Dean of the School of Graduate Studies.

Comprehensive Examination Guidelines

Physics as Coordinating Unit

Departmental Written Examination

During April of each year, the Department of Physics will administer a written, multi-level examination of all active M.S.-level students in physics and Interdisciplinary Ph.D. students with physics as their coordinating-unit discipline. The four-part examination will be given during four sessions of four hours each on consecutive Saturdays. Each part of the examination will contain questions at the advanced undergraduate and graduate levels. The following subject areas will be addressed by the four parts of the examination:

1. Mechanics and mathematical physics.
2. Electromagnetism and optics.
3. Modern physics, relativity and quantum mechanics.
4. Thermodynamics, statistical mechanics and condensed matter physics.

Students may pass the written examination at the following ascending levels of achievement:

1. Master's degree passing - necessary for the M.S. degree.
2. Ph.D. qualifying - necessary for admission to or retention in the Interdisciplinary Ph.D. program.
3. Ph.D. comprehensive passing - necessary to advance to Ph.D. candidacy.

Students need only pass the written examination once at any given achievement level. But, all graduate students must attempt the exam every year until they pass it at the appropriate level, unless they are granted an exception via a petition to the physics doctoral studies committee.

A maximum of two attempts at each level will be permitted, and any student who does not attempt the examination when required to do so will be deemed to have failed the examination. Students who are required to take this examination are encouraged to consult with the Department of Physics for detailed information concerning procedures and regulations for the examination.

Comprehensive Examination by Committee

The comprehensive examination administered by the student's supervisory committee can be taken only after the student has passed the departmental written examination at the Ph.D. comprehensive level. It may be oral, written or both and may include the student's dissertation proposal and associated background material.

Physics as Co-discipline

The student's supervisory committee will determine the comprehensive examination for students with physics as a co-discipline.

Political Science

Discipline Coordinator

Robert K. Evanson, (816) 235-5217, evansonr@umkc.edu

[Click here to see Political Science faculty who are members of the doctoral faculty.](#)

Note: The political science discipline is accepting applications for the co-discipline only.

Political Science is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Applicants who designate political science as their coordinating unit must have an M.A. in political science or a related field with a 3.0 GPA and scores ranking above the 70th percentile on either the verbal or the analytical section of the GRE, or a combined score of 1200 in the two sections. All applicants also must submit samples of written work, including a one- or two-page preliminary proposal for an interdisciplinary plan of study and fulfill other requirements for full admission as determined by the political science doctoral faculty.

Applicants who designate political science as a co-discipline must have earned at least a 3.0 GPA in 12 or more hours in political science or closely related courses or otherwise demonstrate sufficient background in the discipline. Applicants must also submit samples of written work, including a one- or two-page preliminary proposal for an interdisciplinary plan of study and fulfill other requirements for full admission as determined by the political science doctoral faculty.

The political science doctoral faculty will recommend to the dean of the School of Graduate Studies whether or not an applicant should be admitted. It should be understood that a student who satisfies the criteria of the School of Graduate Studies and the requirements of the Department of Political Science may or may not be granted full admission to the Ph.D. program. Availability of faculty and resources will be among the factors determining admission.

Qualifying Requirements for Full Admission

Applicants who designate political science as their coordinating-unit discipline and lack an M.A. in political science or a related field may be admitted provisionally pending completion of an M.A. in political science at UMKC. Applicants who have an M.A. in another field but lack adequate preparation in political science may be admitted provisionally pending completion of designated undergraduate courses in the discipline. For full admission, applicants must also present a master's thesis or its equivalent in graduate-level written work and demonstrate acceptable research skills.

Students who designate political science as a co-discipline but lack adequate preparation in political science may be admitted provisionally, pending completion of designated undergraduate courses in the discipline.

Suggested Compatible Co-disciplines

Economics, history, public affairs and administration, psychology, sociology and urban leadership and policy studies in education.

Core Program Requirements

Students with political science as their coordinating-unit discipline must take at least 12 hours in political science after the M.A., other than the dissertation. They also must take at least 12 hours in their co-discipline(s). If a co-discipline requires more than 12 hours, its requirement takes precedence. In general, students must take whatever specific courses are deemed necessary by their committees.

The amount of work required for the Ph.D. depends on the student's level of preparation. A student entering the Ph.D. program without an M.A. in political science may expect to do significantly more work than that required of a student with such a degree in hand.

Students with political science as their co-discipline must take at least 12 hours in political science as designated by their committees.

Comprehensive Examination Guidelines

These examinations are given twice a year. Further information is available from the department.

Psychology

Discipline Coordinator

Lisa Terre, (816) 235-1066, terrel@umkc.edu

[Click here to see Psychology faculty who are members of the doctoral faculty.](#)

Psychology is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Note on Licensure and Use of the Term "Psychologist" or "Counselor": The Psychology discipline is NOT an appropriate choice for people who wish to practice as psychologists or counselors. Moreover, completion of an Interdisciplinary Ph.D. with Psychology as one of its components **cannot** be expected to legitimize the use of the title "Psychologist" or "Counselor" (which are restricted by statute). For students seeking to become license-eligible psychologists, there are two UMKC programs you may wish to consider: The Clinical Psychology Ph.D. program (in the Department of Psychology) and the Counseling Psychology Ph.D. program (in the School of Education).

The Psychology Department recognizes that combining the capabilities of doctoral faculty in more than one discipline is of great value for certain talented and creative students. Selecting psychology as a primary or secondary discipline would be appropriate for students who wish to (a) apply a psychological perspective or theory to a problem generally associated with another discipline, such as the application of social psychological theory to voting behavior (political science) or (b) Integrate knowledge from multiple disciplines to address a particular area of concern (such as combining psychology with linguistics or biology). In short, the psychology discipline is for people who wish to apply psychological perspectives and/or methods to their scholarly pursuits.

The psychology faculty who participate in the Interdisciplinary Ph.D. have a broad range of interests. However, as a small faculty, we can not cover every possible area. As such, our priority will be to take students into the discipline who have an identified area of scholarship that **complements the interests of one of our participating faculty** so that we can provide the quality of educational experience that our students deserve.

Discipline-Specific Admission Requirements

Psychology as Coordinating Unit

Psychology is appropriate as a coordinating unit for Interdisciplinary Ph.D. study for the exceptional student who has a thorough background in psychology. The following minimal requirements must be fulfilled:

1. B.S. or B.A. in psychology or an advanced degree in a related discipline (e.g., counseling, special education).
2. At least a score of 1200 on the verbal and quantitative sections of the GRE is preferred. However, applicants with scores that do not meet this criterion will be considered if there is other exceptional evidence of promise for doctoral study.
3. Undergraduate GPA of 3.0 or better.

Beyond these minimal requirements, students are considered on a case-by-case basis and are required to submit the following information in addition to the standard application for Interdisciplinary Ph.D. study and necessary supporting documentation:

1. An up-to-date resume or vitae.
2. Reprints of all publications, if applicable.
3. Detailed statement of applicant's career and professional goals.

Psychology as Co-discipline

Psychology is appropriate as a co-discipline for the exceptional student who demonstrates a clear aptitude for graduate study of psychology. The following minimal requirements must be fulfilled:

1. Minimum combined score of 1200 on the verbal and quantitative sections of the GRE. However, applicants with scores that do not meet this criterion will be considered if there is other exceptional evidence of promise for doctoral study.
2. Undergraduate GPA of 3.0.
3. B.A. or B.S. degrees in psychology are not required. However, prior to admission, students must have received a grade of B or better or the equivalent in the following undergraduate courses: Introduction to Psychology, Statistics and Experimental Psychology. Comparable coursework taken at other institutions will be considered if the coursework was recently completed.

Application Review Process and Timetable

Admission is considered for fall semester only. Application deadline is Jan. 15 for fall.

Suggested Compatible Co-disciplines

Although a wide range of disciplines are compatible with psychology (such as curriculum and instruction, public affairs and administration, sociology, social science consortium and religious studies), as a small faculty, we can not cover every possible interest area. As noted above, our priority will be to take students into the discipline who have an identified area of scholarship that complements the interests of one of our participating faculty so that we can provide the quality of educational experience that our students deserve. Consult the discipline-specific information form (available from the graduate school) for information on which faculty may have interests in various areas.

Core Program Requirements

The following are minimum requirements for students with psychology as their **coordinating-unit** discipline:

1. PSYCH 5515 Advanced History and Systems of Psychology.
2. 12 hours of coursework in statistics and research methodology (including PSYCH 5516, 5517, 5601, and one additional research/statistics course approved by the student's supervisory committee). The three required statistics and research courses must be completed in the Department of Psychology at UMKC).
3. 15 hours of coursework in general breadth areas of psychology, selected from the following list: PSYCH 5505, 5507, 5512, 5518, 5521, 5522, 5533, 5622, 5631 and 5632). Other courses may be substituted to fulfill this requirement, with the approval of the student's supervisory committee. Up to six of these hours may be completed as directed readings (PSYCH 5597) within the student's area of specialization.
4. All students are required to complete a minimum of a one-credit-hour course on professional ethics. Students can complete this requirement by taking the courses offered by the graduate school, such as the Responsible Conduct of Research (SGS 5550A, 5550B, 5550C, 5550D, 5550E, or 5550F), or by completing another course approved by the student's supervisory committee.
5. All required courses must be completed with a grade of B- or better.
6. In addition to the above coursework, students are required to complete at least 24 hours of research credit. This will consist of 12 credits of PSYCH 5590 (Directed Research), followed by 12 credits of PSYCH 5699 (Research and Dissertation). At least 12 of these credits must be completed with the student's primary mentor.

The following are minimum requirements for students with psychology as their co-discipline:

1. PSYCH 5515 Advanced History and Systems of Psychology.
2. Nine hours of coursework in general breadth areas of psychology selected from the following list: PSYCH 5505, 5507, 5512, 5518, 5521, 5522, 5533, 5622, 5631, and 5632). Other courses may be substituted to fulfill this requirement, with the approval of the student's supervisory committee. Up to three of these hours may be completed as directed readings (PSYCH 5597) within the student's area of specialization.
3. All students are required to complete a minimum of a one-credit-hour course on professional ethics. Students can complete this requirement by taking the courses offered by the graduate school, such as the Responsible Conduct of Research (SGS 5550A, 5550B, 5550C, 5550D, 5550E, or 5550F), or by completing another course approved by the student's supervisory committee.
4. All required courses must be completed with a grade of B- or better.

Psychology as the coordinating-unit discipline requires a minimum of 55 total hours (including 31 didactic hours and 24 research and dissertation hours). Psychology as the co-discipline requires a minimum of 13 total hours.

Other Discipline-Specific Special Requirements

Prior to and independent of their dissertation, Interdisciplinary Ph.D. students with psychology as a coordinating or co-discipline must complete a piece of work of a psychological nature judged by their supervisory committee to be of a publishable quality. Normally this project will be completed during the student's fourth semester of enrollment in supervised research (PSYCH 5590).

Comprehensive Examination Guidelines

The comprehensive examination will be designed by the student's supervisory committee to demonstrate proficiency in psychological principles and their relationship to the student's co-discipline(s). A wide range of formats is acceptable for the comprehensive examination. For example, in lieu of a traditional essay exam, a student, with the approval of his or her supervisory committee, may choose to conduct an independent investigation of an approved topic within the student's area(s) of interest that results in the preparation of a publishable paper adhering to the format of *Psychological Bulletin* or *Psychological Review*. Comprehensive examinations may be integrated with those in other disciplines.

Public Affairs and Administration

Discipline Coordinator

Nick Peroff, (816) 235-2341, peroffn@umkc.edu

Click here to see Public Affairs and Administration faculty who are members of the doctoral faculty.

Note: The public affairs and administration discipline is currently accepting applications for the co-discipline only.

Public Affairs and Administration is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Due to course sequencing, the doctoral faculty committee in this discipline will ordinarily only consider applications for admission for the fall term. To have their credentials included in the review process, applicants should submit GRE scores and all other necessary supporting documentation no later than Feb. 1.

The public affairs and administration (PAA) discipline in the Interdisciplinary Ph.D. program is designed to prepare students for research careers in universities, public and nonprofit agencies, or for other roles in which research training is needed. Successful applicants must show evidence of a strong interest in and ability to successfully engage in research, and when appropriate, exhibit promise as skillful teachers. The PAA doctoral faculty supports the development of strong research capacities and requires all Ph.D. students to complete an empirical study for the dissertation. The faculty expects all Ph.D. students to be competent in quantitative research; however, the faculty does not regard quantitative analyses and advanced statistical techniques as the only acceptable form of research.

Applicants are expected to submit scores for the verbal and quantitative portions of the Graduate Record Examination (GRE). Applicants must also submit official transcripts of coursework from all colleges and universities attended. No specific grade-point averages (GPA) are required. Admission is based on an applicant's overall record of academic achievement and the doctoral faculty's judgment of the applicant's likelihood of successfully completing the Ph.D. We expect that those admitted will have scored well on the GRE and have high GPAs.

Applicants should pay particular attention to the narrative statement that accompanies their application. The PAA doctoral faculty gives substantial weight to this statement. It should provide a clear description of the applicant's intellectual interests, how those interests evolved and should describe the research direction(s) that the applicant intends to pursue. A good statement also discusses the fit between the applicant's interests and the resources available at UMKC (for example, it might identify faculty with whom the applicant hopes to work). Narrative statements need not be limited to one page. Applicants should provide a writing sample (such as a master's thesis or a paper from a graduate seminar) that illustrates writing skills and a potential for scholarly work. Applicants are also encouraged to seek letters of recommendation from people who can address their potential for engaging in scholarly research.

The PAA doctoral faculty seeks to admit only students whose research interests fit the interests and capabilities of the doctoral faculty. We admit only students for whom a member of the doctoral faculty has agreed to serve as

interim adviser, and after the student's plan of study is completed, that faculty member should also be willing to serve on the student's IPh.D. supervisory committee. This commitment from a member of the PAA doctoral faculty applies to all applicants seeking PAA as a co-discipline. We strongly recommend that applicants communicate with PAA doctoral faculty about their interests and attempt to secure commitments from faculty to serve as PAA co-discipline adviser or supervisory committee member. Since applicants are reviewed beginning in mid-March, applicants should contact faculty by e-mail, telephone or in person before that time.

Suggested Compatible Disciplines

Entrepreneurship and innovation, urban leadership and policy studies in education, curriculum and instruction, economics, history, psychology, political science and sociology.

Core Program Requirements

For those students with PAA as the co-discipline, the core requirements are 4 of the following courses:

PUB-ADM 5525 Financial Accountability and Policy Development
PUB-ADM 5526 The Politics of Administration
PUB-ADM 5530 Public Management
PUB-ADM 5544 Public Policy Evaluation and Analysis
PUB-ADM 5548 Leadership for Public Service

And PUB-ADM 5510 Research Methods in Public Administration

Typically co-discipline students are expected to complete the above listed courses, plus two electives from the public administration curriculum. Any of the above courses, except PUB-ADM 5610, may be waived if a student has had substantially equivalent courses.

Comprehensive Examination Guidelines

The comprehensive examination for each PAA co-discipline student is developed, administered and evaluated by the student's co-discipline faculty adviser and supervisory committee.

Religious Studies

Discipline Coordinator

Gary L. Ebersole, (816) 235-5704, ebersoleg@umkc.edu

[Click here to see Religious Studies faculty who are members of the doctoral faculty.](#)

Religious Studies is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Generally, students who select religious studies as a discipline must begin their work during the fall semester. Applications received by **Feb. 1** will be eligible for fellowship and scholarship consideration. Applications received after that date will be considered on a rolling basis. Except in very special situations, applications that are incomplete as of April 1 will not be considered until the following year.

In addition to the general admission criteria required of all applicants, those who choose religious studies as their coordinating discipline must:

1. Possess a master's degree in religious studies or theology, or a master's degree in any of the disciplines of the humanities or social sciences (under certain conditions, a master of divinity degree is acceptable).

2. Have earned a grade-point average of 3.5 in graduate courses.

Students who choose religious studies as a co-discipline must meet the criteria for admission specified by the School of Graduate Studies and should have some academic experience in religious studies or career experience related to religion. All applicants must submit:

1. One or more samples of written work.
2. A brief statement of academic and professional goals.
3. A one- or two-page proposal outlining an interdisciplinary plan of study that tentatively specifies a dissertation topic or area of specialization.

Applicants are advised that meeting the criteria of the School of Graduate Studies and the discipline does not automatically result in admission to the Interdisciplinary Ph.D. program. When making recommendations to the School of Graduate Studies, the discipline's faculty steering committee considers other factors as well, particularly the availability of faculty qualified to work in the applicant's area of interest and the existence locally of necessary archival and library facilities.

Provisional Admission

Applicants who do not meet the requirements specified above may be recommended for provisional admission by the religious studies faculty. An applicant admitted provisionally will receive notification of deficiencies and of the conditions which must be met before full admission will be granted.

Suggested Compatible Co-disciplines

Curriculum and instruction, English, history, art history, political science, psychology, and sociology.

Core Program Requirements

The total number of courses and credits on the plan of study will vary depending on the student's degree of preparation prior to admission. All students are urged to take coursework in comparative studies of religion, as well as in cognate fields.

The core program requirement for a student whose coordinating-unit discipline is religious studies includes a minimum of 18 hours of coursework in religious studies, including the four core courses listed below, plus coursework in the student's co-discipline(s) [not to exceed 60 percent of the total coursework on the plan of study], and at least 12 dissertation credits.

Core Courses:

- RELIG-ST 5510 - Religions of the World (three credit hours)
- RELIG-ST 5584RS - Sacred Narratives and Texts (three credit hours)
- RELIG-ST 5586RS - Methodological Approaches to the Study of Religion (three credit hours)
- RELIG-ST 5680RS - Doctoral Colloquium (three credit hours)

The discipline's core requirement for a student whose co-discipline is religious studies includes RELIG-ST 5510, 5584RS, 5586RS, and 5680RS, plus other courses recommended by the religious studies member(s) of the student's supervisory committee.

Students who have taken any of the three required 5500-level core courses prior to admission may substitute other courses approved by their supervisory committee to satisfy the core course requirement. Graduate courses offered by other area institutions that have been approved by the student's supervisory committee may also be used to fulfill the core course requirements in religious studies.

Other Discipline-Specific Special Requirements

Foreign Language Requirements

All students with religious studies as either coordinating or co-discipline and whose dissertation requires work in foreign language sources must demonstrate the requisite language competency through a special examination approved by the student's supervisory committee or an alternative demonstration of competency. In addition, all Ph.D. students

must demonstrate a reading ability in either French or German.

Requirements for Retention

A doctoral student with religious studies as a discipline must maintain a 3.0 (B) grade-point average in each semester of coursework taken. A student whose term GPA falls below 3.0, or whose work is deemed unsatisfactory by his or her supervisory committee, may be placed on probation for one semester. A person receiving an F grade in a class normally will not be retained in the doctoral program.

Comprehensive Examination Guidelines

The student with religious studies as his or her coordinating discipline must take three comprehensive examinations in religious studies containing both a written and an oral component, plus an examination set by the co-discipline. The three religious studies examinations are: history and methods of the study of religion, comparative studies of religion and special area. A student's special area may be defined by religious tradition (e.g., Christianity, Judaism, Buddhism) or by geographical area (e.g., American religious history, religions of Africa, Chinese religions). The content of the comprehensive examinations will be determined by the student's supervisory committee and will vary somewhat according to the religious studies component of the student's plan of study. Students will be provided with the requirements for the comprehensive examinations at the time of admission to the Ph.D. program. Students who have religious studies as the co-discipline will take two comprehensive examinations: History and Methods of the Study of Religion and Comparative Studies of Religion. Complete information on comprehensive exams, including previous exam questions, may be found on the Religious Studies Web site.

Interdisciplinarity

Religious studies is an interdisciplinary, cross-cultural and comparative field of study. All students are expected to take coursework in a variety of traditional disciplines and to integrate the knowledge and methodological approaches used in these disciplines in their own research and writing during their graduate career and in the dissertation.

Social Sciences Consortium: Economics, Political Science and Sociology

Discipline Coordinator

Doug Bowles, (816) 235-1394, bowlesdh@umkc.edu

Doctoral Faculty Participation

See the individual entries for [economics](#), [political science](#) and [sociology](#).

Social Sciences Consortium is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

The Social Sciences Consortium is only available as a co-discipline option, not as a coordinating-unit discipline, and has no discipline-specific admission requirements. Recommendations for admission are made by a designated sub-committee of SSC doctoral faculty which reviews all applications. Newly admitted students are assigned an interim SSC faculty adviser, pending formation of their supervisory committee.

Suggested Compatible Coordinating Discipline

Curriculum and instruction, economics, geosciences (with a geography focus), history, political science, psychology, public affairs and administration, sociology and urban leadership and policy studies in education.

Core Program Requirements

The Social Science Consortium Program of Study requires 15 hours of dedicated coursework.

The following three courses (9 hours) are required:

- SOC-SCI 5610 - Introduction to Interdisciplinary Social Science
- SOC-SCI 5621 - Consensus Social Theory
- SOC-SCI 5630 - Seminar in Research Methodology

One course (3 hours) in critical interdisciplinary social theory is required. Students may select one from among the following:

- SOC-SCI 5622 - Pragmatism and Evolutionary Social Theory
- SOC-SCI 5690A - Marxian Social Theory
- SOC-SCI 5690B - Post-Modern and Interpretive Social Theory
- SOC-SCI 5690C - Critical Realism

The final course (3 hours) is elective, but must be approved by the student's SSC program adviser. Disciplinary graduate-level courses are, in general, eligible as electives, and some are pre-approved:

- ECON 5688 - Colloquium on Political Economy
- POL-SCI 5680 - Traditions, Theories, and Trends in Political Science
- SOCIOL 5503 - Controversies in Contemporary Social Theory and Practice

The 3 hour elective can also be satisfied by taking an additional critical theory course (see listing above), or with 3 hours of Directed Readings (SocSci 5690, or a disciplinary equivalent), subject to the adviser's approval.

Sequencing is a very important consideration in the program of study listed above, complicated by the constraint that most courses fulfilling the program are offered only in either fall or spring semesters. It is highly recommended that students with the SSC as their co-discipline take SOC-SCI 5610 (offered fall semesters only) as early as possible, preferably in the fall semester of the first year, followed by SOC-SCI 5621 (offered winter semesters only), and then by the preferred critical theory course(s).

The Seminar in Research Methodology (SOC-SCI 5630) is designed to assist students with preparation of a defensible dissertation proposal, providing interdisciplinary integration of the SSC program of study with the student's primary discipline. It is intended to be taken as the conclusion of both primary discipline and SSC program coursework.

Comprehensive Examination Guidelines

In addition to the comprehensive examination requirements specified by the student's supervisory committee in accordance with SGS guidelines, SSC students must pass a written qualifying exam administered and graded by the SSC faculty. Information on current qualifying exam requirements and procedures may be obtained from the SSC Director.

Sociology

Graduate Program Coordinator

Jeffrey Bennett, (816) 235-**2975**, bennettjs@umkc.edu

[Click here to see Sociology faculty who are members of the doctoral faculty.](#)

Sociology is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Note: The Sociology Discipline is currently accepting applications for the co-discipline only.

Discipline-Specific Admission Requirement

In addition to the general criteria for admission, applicants selecting sociology as their coordinating discipline must have an M.A. or M.S. in sociology or in a related discipline. Additionally, applicants must submit samples of written work and a preliminary proposal for their interdisciplinary plan of study (e.g., intended co-discipline, academic emphasis areas within sociology, intended dissertation research area). Applicants must also have three written recommendations from professors or practitioners in the field sent to the Admissions Office. Applicants must have a GPA of 3.0 or above in their M.A./M.S. program.

Applicants who designate sociology as a co-discipline must submit samples of written work and a brief statement (no more than three pages) indicating a preliminary proposal for their interdisciplinary plan of study (e.g., intended coordinating discipline, academic emphasis areas, intended dissertation research area). This statement should address how sociological studies will contribute to achievement of their academic and professional goals.

Applicants selecting sociology as either their coordinating unit or their co-discipline will be considered for admission only for the fall term. The deadline for receipt of completed applications and supporting documents is Feb. 1.

Admissions recommendations will be made by March 15. It should be understood that meeting the minimum admissions requirements is not a guarantee of admission. Applicants must be matched to faculty resources since doctoral supervision represents a substantial commitment on the part of faculty. Applicants are strongly encouraged to talk with one or more department faculty during the application process.

Alternate Admission Criteria

Applicants not meeting the minimum admission requirements nor having sufficient academic preparation (as listed in the following section) may be considered for provisional admission by the department if the faculty sees high potential for advanced work from the other credentials of the applicant. Evidence of high potential might be pertinent work or research experience, published papers or extremely high achievements in other criterion areas for admission. In any case, the required GPA must be 3.0 or higher in the M.A./M.S. program.

Qualifying Requirements for Full Admission

Prerequisites for full admission include prior graduate courses in the following core areas:

- Classical Social Theory
- 20th Century Social Theory
- Qualitative Research Methods
- Quantitative Research Methods
- Intermediate Statistics
- M.A./M.S. thesis or a research project/report (SOCIO 5595, six additional credit hours)

Provisional admission for candidates who have not yet met these requirements will be changed to full admission when a candidate passes each of these courses with a B (3.0) or higher.

Suggested Compatible Co-disciplines

English, history, art history, religious studies, economics, political science, social science consortium, psychology, public affairs and administration and urban leadership and policy studies in education.

Sociology as a Co-discipline

Those students with sociology as a co-discipline will take a minimum of 15 hours in sociology. Prior to full admission, they will have been expected to have taken and passed with a minimum of 3.0 the following courses:

- SOCIO 5501 Social Theory I (three hours)
- SOCIO 5502 Social Theory II (three hours)

These two required courses are included in the 15 required hours in sociology.

Other Discipline-Specific Requirements

Students are expected to maintain a GPA of 3.0 or higher in their coursework within the Ph.D. program. If the GPA falls below this level, students will be on probation and have one semester to raise their GPA to 3.0 or above.

Comprehensive Examination Guidelines

Students with sociology as a *co-discipline* must successfully complete three hours of comprehensive written examination within a substantive area of sociology elected in the program of study.

All comprehensive examinations must have an interdisciplinary dimension in which students will be expected to demonstrate their ability to integrate and apply the perspectives of both disciplines to social problems.

Telecommunication and Computer Networking

Discipline Coordinator

Deep Medhi, (816) 235-2006, dmedhi@umkc.edu

[Click here to see Telecommunication and Computer Networking faculty who are members of the doctoral faculty.](#)

Telecommunication and Computer Networking is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

A student who meets the minimum discipline requirements stated below will be considered for regular admission to the Ph.D. program. A student who does not meet some of the requirements but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of student's interest, the quality of previous work, etc. A student not qualifying for admission to the Ph.D. program may be considered for admission to the M.S. computer science or electrical engineering program. Requirements for admission are similar whether the applicant is requesting telecommunication and computer networking as the coordinating discipline or co-discipline.

Academic Preparation

The applicant must have a bachelor's degree and/or a master's degree in computer science, computer engineering, electronics, communications engineering or any other field requiring substantial training in at least one of the above fields and in mathematics with a GPA of 3.5 or better, cumulative as well as in the major field; and a GPA of 3.5 or better in all post-baccalaureate or post-master's degree work.

Aptitude for Advanced Work

The student must demonstrate an aptitude for advanced-level work through national/international standardized examinations such as the GRE. The expected performance level is the 85th percentile in the quantitative portion of the GRE examination.

Proficiency in English

The student must demonstrate his or her proficiency in oral and written communication in English through national/ international standardized English examinations such as TOEFL, verbal portion of the GRE, etc. The expected proficiency level is the 50th percentile in the verbal portion of the GRE or a TOEFL score of at least 550 on the paper-based test or 213 on the computer-based test. For tests taken after Sept. 26, 2005, the minimum required score is 80. UMKC students may also satisfy this requirement by obtaining an English Proficiency Certification from the English Department.

Note: As per University policy, all international students are tested for proficiency in English upon arrival on campus, irrespective of their scores in TOEFL or verbal portion of GRE, or any other test. A student's adviser may also require the student to take the above test, irrespective of the student's native language. As a result of this test, the student may be required to improve his or her oral and written communication in English before enrollment in the courses of the chosen disciplines.

Recommendations

The student must provide at least **three** recommendation letters from the professors from his or her previous institution (s). If the applicant has been out of school for several years, recommendation letters from his or her supervisors (technical) will be acceptable. However, even in this situation, a recommendation letter from his or her last academic

institution is highly recommended. A recommendation from a faculty member in the Computer Science Electrical Engineering (CSEE) Department at UMKC must be provided if the student has taken courses from or worked with the CSEE faculty.

Statement of Goals and Objectives

The applicant must provide a 250- to 500-word essay on his or her goals and objectives of pursuing the Ph.D. in the chosen fields.

Admission at an Advanced Level

An applicant who has already completed significant graduate coursework (15 or more semester hours of the post-master's work or 30 or more hours of the post-bachelor's work) toward a Ph.D. at another institution must provide reasons for changing institutions. The applicant must also provide a letter of endorsement from a doctoral faculty member in telecommunication and computer networking indicating willingness to be the student's research adviser.

Alternate Admission Criteria

The applicant may have received a bachelor's degree or a master's degree in computer science, computer engineering, electrical engineering or electronics or any other related field with substantial training in mathematics. An applicant not meeting the minimum admission requirements, or not having sufficient academic preparation (stated below under prerequisite knowledge) for advanced work in the chosen discipline(s), may be considered for provisional admission by the CSEE Department's Ph.D. committee if the committee sees high potential for advanced work from the rest of the applicant's credentials. Evidence of high potential might be pertinent work experience, published papers or extremely high achievement in related areas. In any case, the required GPA (or GPAs) must be at least 3.0 and the coursework deficiencies in software architecture must not be more than 18 semester hours. Applicants with an established research or publication record in a quantitative science are encouraged to apply to this discipline.

Qualifying Requirements for Full Admission

Prerequisite Knowledge

A Ph.D. student selecting telecommunication and computer networking as the coordinating discipline is expected to have the level of preparation represented by the following courses before attempting advanced study. Every student must have coursework in mathematics at Math 250 or above level, and at least five of the following course sequences (or their equivalent):

- COMP-SCI 291 Discrete Structures II
- COMP-SCI 352 Data Structures and Algorithms
- E&C-ENGR 380 Signals and Systems
- COMP-SCI 394R Applied Probability
- COMP-SCI 420 Introductory Networking and Applications
- COMP-SCI 421A / E&C-ENGR 476 Foundations of Data Networks/Introduction To Wireless Communication Systems
- COMP-SCI 431 Introduction To Operating Systems
- E&C-ENGR 474 / COMP-SCI 411 Introduction To Communication Systems/Introduction To Telecommunications Systems
- COMP-SCI 481 / E&C-ENGR 426 Advanced Computer Architecture/Microcomputer Architecture and Interfacing

A Ph.D. student selecting telecommunication and computer networking as a co-discipline is required to have at least three of the CS/ECE courses listed above.

Length of Time to Complete Qualifying Requirements

When a student is admitted provisionally, the CSEE Ph.D. committee will specify, and the UMKC Interdisciplinary Executive Committee will confirm, the conditions and length of time available to satisfy conditions to achieve regular-admission status.

Suggested Compatible Co-disciplines

Computer science, electrical and computer engineering, mathematics, physics, engineering (civil and mechanical focus), geosciences and economics. A co-discipline outside of this list may be considered only in exceptional cases.

Core Program Requirements

The amount of work required for the Ph.D. depends on the student's level of preparation. For example, a student entering the Ph.D. program after earning a bachelor's degree may expect to do significantly more work compared to a student who enters after earning a master's degree.

Qualifying and Comprehensive Examination Guidelines

The Qualifying Exam is a written test administered by the CSEE Department's Ph.D. committee. The test questions are from a set of fundamental courses spanning computer science, electrical and computer engineering, and telecommunication and computer networking. The Comprehensive Exam is administered by the doctoral committee of the candidate. A student can either take a written test or opt for an oral presentation covering both coordinating and co-discipline areas. Discussion with and agreement from the student's doctoral committee is required before choosing the best option.

The candidates should contact the CSEE Division office and the chair of their doctoral committee for more information.

Telecommunication and Computer Networking as a Co-Discipline

The student who chooses telecommunication and computer networking as a co-discipline may obtain information on qualifying and comprehensive exams requirements from the discipline coordinator.

Financial Aid

Various forms of financial aids (such as graduate research assistantships, graduate teaching assistantships, graduate fellowships) are available through the Computer Science and Electrical Engineering Department and the School of Graduate Studies. Contact the discipline coordinator for more information.

Urban Leadership and Policy Studies in Education

Discipline Contact

Gina Sanders, (816) 235-2716, sandersgm@umkc.edu

[Click here to see Urban Leadership and Policy Studies in Education faculty who are members of the doctoral faculty.](#)

Urban Leadership and Policy Studies in Education is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Applicants who designate urban leadership and policy studies in education as their coordinating unit will be expected to have a grade-point average of at least 2.75 (on a 4.0 scale), covering all college work taken prior to the bachelor's degree, or a GPA of at least 3.5, covering all post-baccalaureate work completed to date.

Applications are normally only reviewed once a year, for admission beginning with the next summer or fall term. To be considered, applications must be submitted to the Admissions Office by Feb. 15.

The applicant must provide the following supplementary documentation:

1. Written recommendations from appropriate professors and practitioners in the field (selected by the applicant).
2. An autobiographical sketch. (This should be a brief resume of academic and professional goals and the applicant's personal, academic and career history as it relates to those goals. It should also include reasons for choosing urban leadership and policy studies in education as a field of study.)
3. Evidence of graduate-level writing ability provided by writing samples, prior scholarly writing or the successful completion of an essay examination.

Applicants are required to provide official GRE test scores. GRE scores will be used by doctoral faculty in the discipline as one of several criteria used to evaluate the strength of the application. No other assessment results will be substituted for the GRE. When evaluating applications, faculty members will take into account evidence in the applications of such factors as demonstrated leadership skills, commitment to education, communication and academic skills, a clear and important research agenda, cultural background, etc. There is no minimum aggregate GRE score required for applications to be considered for urban leadership and policy studies in education. Applicants must meet the GRE requirements for their other discipline.

In addition, an applicant, the applicant's adviser or any member of the division may request that the applicant meet with and be interviewed by the division faculty.

Alternate Admission Criteria

International applicants will be considered for admission to the Ph.D. program on the basis of background, experience and educational attainments in their home countries. Exceptions to the general criteria for admission to Interdisciplinary Ph. D. study may be made for students whose potential for success in the doctoral program may not be reflected in the general criteria.

Qualifying Requirements for Full Admission

In some cases, the division may ask that 12 hours of work at UMKC, including an education foundations course, be taken prior to full admission.

Students admitted under alternate criteria will be notified upon acceptance of any coursework deficiencies they must satisfy or other preparation they must undertake prior to full admission.

Suggested Compatible Co-disciplines

Curriculum and instruction , public affairs and administration, history, economics, political science, the social science consortium and sociology.

Core Program Requirements

Students with urban leadership and policy studies in education as a co-discipline will be required to take a minimum of 15 credit hours of core courses. The core curricula will vary, depending on whether students' research is primarily in educational leadership or the social-philosophical foundations of education and on the types of educational setting upon which they wish to focus. Specific courses will be selected with the advice and consent of the student's faculty adviser and supervisory committee. The supervisory committee may elect to accept coursework in an educational-specialist program or other post-master's degree program as counting toward the 15-credit-hour requirement.

Students seeking administrative certification for public school positions should check with their advisers to be sure they include all courses currently required in the states in which they wish to become certified.

The amount of required coursework, beyond the minimum 15-credit-hour core requirement, taken by students with urban leadership and policy studies in education as their coordinating-unit discipline, will depend upon their previous preparation in the discipline, their previous research competencies, their personal career goals and their research interests.

All students with urban leadership and policy studies in education as either the coordinating-unit discipline or the co-discipline are required to take and complete EDUC-UL 5685, the seminar on problems and issues in education and urban leadership.

Other Discipline-Specific Special Requirements

The student, at a minimum, will be required to take and complete 12 hours of coursework that provides extensive preparation in research methodologies relevant to her or his professional goals and intended dissertation project. The student will select specific courses with the advice and consent of her or his faculty adviser and supervisory committee. Typical courses which would satisfy this requirement include (but are not limited to): EDUC-R&P 5505, EDUC-R&P 5508, EDUC-R&P 5605, EDUC-R&P 5608, EDUC-R&P 5610, HISTORY 5591, HISTORY 5687, SOCIOL 5510, SOCIOL 5511, SOCIOL 5512, EDUC-UL 5601 and EDUC-UL 5603.

Comprehensive Examination Guidelines

Students with urban leadership and policy studies in education as the coordinating-unit discipline must pass a comprehensive examination including both the coordinating-unit discipline and the co-discipline areas.

J.D./MBA and J.D./M.P.A. Combined-degree Programs

The School of Law has established combined-degree programs with the Henry W. Bloch School of Business and Public Administration. The program allows students to earn a juris doctor degree and a master of business administration or a master of public administration degree on an accelerated basis through cross-acceptance of some credit hours.

Applicants to the program must satisfy the admission requirements of each school and, if admitted into the program, may enroll in the first year of law school either before or after beginning M.B.A. or M.P.A. courses. Further information on admission and dual-degree requirements is contained on the School's Web site at <http://www1.law.umkc.edu/Academic/index.htm>.

LL.M./M.P.A. Joint Degree Program

A joint LL.M./M.P.A. degree program between the School of Law and the Henry W. Bloch School of Business and Public Administration can be arranged with the approval of the Law School graduate studies committee.

History

In 1895, three young lawyers with energy and vision, William P. Borland, Edward D. Ellison and Elmer N. Powell, founded the Kansas City School of Law with the active assistance of leading members of the bench and bar. Borland, the first dean of the school, was elected to Congress in 1910 and was succeeded by Ellison, who served as dean until the School of Law merged with the University of Kansas City in 1938. After affiliation with the University of Missouri System in 1963, the school assumed its present name as the University of Missouri-Kansas City School of Law.

Accreditation

The school is accredited by the American Bar Association and is a member of the Association of American Law Schools.

Academic and Professional Training at UMKC

UMKC School of Law provides academic and professional training to students seeking careers in law. Our faculty are outstanding scholars who have extensive practice experience. Faculty at UMKC are actively engaged with students both inside and outside the classroom. Our classes are relatively small (by law school standards) and many of our substantive courses incorporate simulations and service learning opportunities. Our faculty and students are collegial and the school provides many opportunities for interaction and development of close personal relationships that will last throughout one's career. We like to think of ourselves as the urban, public law school with the small, liberal arts feel.

We are a law school that teaches students to become lawyers in the best tradition of the profession and introduces them to the opportunities and obligations of the legal profession and its role in the greater community. We appreciate the work of lawyers and their many contributions, which include educating people and institutions about their rights, helping to design prosperous business and community ventures, and working towards the effective and efficient resolution of disputes. We maintain a faculty devoted both to professional service and to advancing knowledge through the production of excellent academic scholarship.

UMKC School of Law is a community of scholars, with faculty and students working together to address the legal issues and problems confronting society today on the local, state, federal and international levels. Because we train many of the region's practitioners, business people, judges and politicians, we have a special responsibility to see that they are

competent members of the bench and bar, advisers and administrators; technically proficient, professionally responsible, and knowledgeable about the range of social, political, and economic ideas that influence our society. In doing so, we are aware that our graduates must be comfortable in a variety of professional settings with people from a variety of experiences, from land-use planning meetings with the local town council to trade negotiations in Mexico City, from an opening statement in the county courthouse to an appellate argument before the [United States Supreme Court](#). While the details of such settings change over time, we can prepare students for such varied work by concentrating always on the foundations of good lawyering: respect for people, respect for knowledge and ideas, and respect for justice.

As a Law School, we build on a strong tradition of advocacy, civic engagement and academic excellence - a program that has not only produced some of the region's best lawyers and judges, but one that has also trained a U.S. Supreme Court Justice (Charles Whittaker) and an American President (Harry Truman). We embrace and foster a collegial, collaborative model of professional education and maintain an intellectual and cultural environment that fosters broad thinking, local and global awareness and creative problem-solving.

Law Building

Nestled among giant oak trees on the corner of 52nd and Oak streets, in the center of Kansas City and at the center of the nation, is the home of the UMKC School of Law. Among the unique features of this building are office suites shared by faculty and students. The school continues to take great pride in its efforts to foster faculty-student interaction. One ongoing initiative involves assigning many second- and third-year students to offices located within suites that also house their professors' offices. This "intellectual migration" was designed to foster the exchange of ideas and more generally to promote collegiality between faculty and students. Additionally, lounges or conference rooms within the suites provide opportunities for both formal and informal meetings of students and faculty.

The school has more than 121,000 square feet of modern, usable space, including classrooms equipped with Internet-connected teaching workstations with audiovisual and video conferencing capabilities. The recently renovated E. E. "Tom" Thompson Courtroom, located on the ground floor, is equipped with audiovisual equipment used to augment the advocacy training program of the school. Auxiliary rooms allow for live trials and hearings of the many area courts and agencies in its courtroom and a unique viewing theatre above the courtroom allows for real-time commentary on court proceedings. A spacious student commons area, including the Truman Terrace (a scenic outdoor courtyard filled with tables, benches and fountains) and a vending area, is located near classrooms. Offices for many student organizations are located near the student commons area as well.

Wireless Technology Environment

The School has installed technology in the building which provides freedom from wired connections--enabling students, staff and faculty to access e-mail and multiple databases on the Internet of use to lawyers and law students using personal computers with wireless capability from offices, classrooms, study areas, the suites and the Leon E. Bloch Law Library.

Leon E. Bloch Law Library

The Leon E. Bloch Law Library is not only a place to study, but a laboratory for students to master legal research skills, both in traditional print and electronic media. It is also a forum for self-directed learning, a place students take control of their educational experience through researching selected paper topics and their own law review notes. The library contains holdings in major areas of legal scholarship and practice. It is home to rare, early seventeenth century editions of Sir Edward Coke's treatises and case reports. It also preserves the Charles D. Gould Jr. Collection, consisting of photographs and memorabilia from the Nuremberg trials. The collection focuses on trial advocacy, urban law, family law, small business entrepreneurship and tax law. The library's foreign law holdings are targeted for increase and access to historical materials have dramatically expanded. What is not held in print in the library, or in its many database services, is conveniently available through the library's online catalog request and delivery service. This service provides access to seventy Missouri libraries and about 18 million items. The service includes access to the holdings of the three other law school libraries in Missouri. Additional hard to locate items can usually be retrieved through other specialized interlibrary loan services. Besides its collections, the UMKC's law library is especially strong with respect to the expertise of its librarians, most of whom teach courses in legal research and have practiced law for many years or worked as paralegals.

Electronic Resource Center

Technology has reshaped legal publishing in ways that will forever alter how attorneys and judges approach their work. The information professionals of the Leon E. Bloch Law Library have embraced this transformation in creating an ElectronicResourceCenter. The Center, comprising over forty computers, provides a teaching lab for instruction in the use of legal research databases, and access for research to the Internet, printing, and numerous database services. A fee is charged for some law student printing and for all other patron printing. The ElectronicResourceCenter also provides a scanner and a dedicated workstation for the visually impaired. In addition to access to the ElectronicResearchCenter, each law student receives a password free of cost for accessing law school and university databases from home or at other locations on campus. Wireless access to the Internet is provided to students throughout the law school and library. Perhaps, unique among law schools, the Electronic Resource Center hosts a free laptop clinic, where law students can go with computer and technology problems, many of which can be fixed at the clinic.

Study Spaces in Suites

The design for the school's modern building manifests a commitment to providing desirable spaces for study and interaction by students who live throughout the metropolitan area. Double- or single-occupancy offices are provided to most second-year students, research assistants and teaching assistants. Most third-year students are assigned carrels or space in Club 3L, a communal area for studying or lounging. Library study spaces, far in excess of the number of first-year students, also are available.

The second and third-year assigned spaces are located in suites that include faculty offices. Each suite is named after a distinguished former justice of the United States Supreme Court. This innovative building plan fosters student-faculty interaction, the exchange of ideas and general collegiality.

The School of Law in the Community

UMKC takes pride in being the urban law school in the University of Missouri system. From this unique vantage point, faculty and students actively lead and participate in professional activities with greater Kansas City bar associations, continuing legal education programs, lawyers and law firms located in both Kansas and Missouri and the judiciary.

The School of Law community enjoys strong partnerships with many area causes and concerns. A variety of community-based projects, ranging from the rehabilitation of inner-city houses to tax preparation services, receive benefits from this involvement. Students work with faculty on research of value to the community and are often involved in drafting or commenting on pending legislation. The LawSchool houses and assists the Kansas City Youth Court, a diversion program from juvenile court, where high school students act as lawyers and judges. Faculty, students, staff and alumni volunteers also help introduce inner-city high school students to careers in law.

Graduates of the UMKC School of Law have important responsibilities in legal arenas throughout the city, state and country. From corporate counsel positions in more than 25 national companies to the library of the Supreme Court of the United States, Law School alumni provide distinguished service.

On a local level, the annual listing of "Outstanding Lawyers in the Kansas City Metropolitan Area" names more UMKC alumni than from any other school. In addition, only two women have served as president of the Kansas City Metropolitan Bar Association and only one African-American has served as president of the Missouri Bar; all are UMKC Law School alumni. A majority of the active judges of both the U.S. District Court for the Western District of Missouri, the Missouri Court of Appeals (Western District) and the Sixteenth Judicial Circuit of Missouri are graduates of the School of Law, as is the first African-American Chief Justice of the Missouri Supreme Court. Courts throughout the multi-county metropolitan area are populated with UMKC alumni.

The Law School is proud of the fine reputation of its alumni and the outstanding contributions they have made and continue to make in both the legal and non-legal communities.

The Law Foundation

The Law Foundation was incorporated in 1959 by outstanding alumni and leading citizens of Missouri, including Harry S. Truman, Charles E. Whittaker, H. Roe Bartle and other judges, lawyers, government officers and friends, to promote and advance the cause of legal education. The Law Foundation is a fiscally autonomous 501(c)(3) organization whose purpose is to raise money and steward endowed funds for the benefit of UMKC School of Law. Operating with its own board of trustees but working closely with the School of Law leadership to meet the long- and short-term financial needs of the school, the Law Foundation funds programs that are not met by other sources of revenue to the LawSchool. With the support of the Law Foundation, the school is able to sustain and cultivate diverse aspects of a superior education program.

The Law Foundation funds scholarships on an annual basis. In addition, it provides significant financial assistance for student competition participation; faculty development; library acquisitions and research materials; technology improvements; and the school's public communications program.

Over the years, the foundation and its many friends have successfully built an endowment of more than \$5 million for the benefit of UMKC School of Law.

Nondiscrimination Policy

The Board of Curators of the University of Missouri and the University of Missouri-Kansas City are committed to the policy that there shall be no discrimination on the basis of race, color, creed, sex, sexual orientation, age, national origin, disability or Vietnam era veteran status. For additional information, see the Statement of Human Rights information included in the Introduction section of this catalog.

Disabled Student Services

The University of Missouri-Kansas City endeavors to make all activities, programs and services accessible to students with disabilities. A campus coordinator is available to assist students with a documented disability to arrange for reasonable accommodations concerning all aspects of campus life. It is important that students contact the coordinator at least six weeks prior to the beginning of classes to arrange appropriate documentation and reasonable accommodations in the classroom. For information call (816) 235-5696. Individuals with speech or hearing impairments may use Relay Missouri, 1-800-735-2966 (TT) or 1-800-735-2466 (voice).

Admission to the Bar

Graduation from law school does not guarantee admission to the bar. Each applicant should get information on the character and other qualifications for admission to the bar in the state in which the applicant intends to practice. Information regarding law student registration and bar admissions in Missouri is made available to all first-year students.

Law Alumni Association

The UMKC Law Alumni Association, the primary friend-raising organization for the law school, was revitalized in 1992 as a division of the university-wide Alumni Association. It strengthens and extends the educational mission of the law school and its energies are devoted to bridging the passage between student and professional life, encouraging service and illustrating a commitment to a society based on law and justice. The Law Alumni Association sponsors events that facilitate student-faculty-alumni interaction.

Annual activities include alumni recognition events; assistance in student recruitment, mentoring and advising; assisting with social and professional activities connected to local and state bar associations; support to student programs and activities.

Continuing Legal Education

The Office of Continuing Legal Education is the law school's principal contact with the practicing bar and is a nonprofit revenue-generating unit for the University. The CLE office produces domestic and international educational programs, national audio conferences, practice manuals and other educational material designed to promote the competency of the bar and other professions in support of the practice of law.

UMKC law school students may attend any UMKC CLE-sponsored event free of charge and purchase CLE publications at cost. Attendance at these events exposes students to the practical aspects of law practice and provides meaningful opportunities for contact with potential employers.

The CLE office coordinates ABA-accredited for-credit study abroad programs to China and Ireland. These programs are designed to broaden law students' understanding of different legal systems while introducing them to the cultures on which those systems are built. The CLE office also coordinates courses taught by volunteer adjunct professors and the Advanced Professional Studies program, which permits practicing attorneys and other professionals to take for-credit law school courses for non-degree credit.

The CLE office administers two cash prizes given exclusively to UMKC law school students: the Estate Planning Prize Competition and the Heart of America Tax Institute Prize.

Career Services

The Law School Career Services Office (CSO) assists students and alumni obtain professional employment. Law firms, government agencies, businesses, the judiciary and other employers seeking law graduates for permanent positions use the Career Services Office's resources to hire UMKC School of Law graduates. The Office also assists students seeking part-time and summer clerking opportunities. The Office maintains a library of employment materials for the use of law students and alumni. We have a strong on-campus interviewing program allowing many employers to come to the LawSchool to recruit our students for positions with prosecutors' and public defenders' offices, legal service organizations and federal and state government agencies, in addition to law firms. Branches of the United States military come on campus to recruit lawyers for service in the Judge Advocate General's Corps.

The University of Missouri-Kansas City School of Law is committed to its policy against discrimination. The military's hiring practices are inconsistent with the School's non-discrimination policy and the AALS bylaws. Because Congress enacted the Solomon Amendment, the LawSchool allows military recruitment on Campus. However, the Law School remains committed to the policy of non-discrimination. We take steps to ameliorate the adverse effect of any on-campus interviewing by military recruiters and provide all of our students with a hospitable environment in which to apply and interview for positions.

CSO provides individual career counseling to students and alumni, as well as advice and assistance in resume preparation and interviewing skills. The Office sponsors a series of programs to introduce students to a variety of career opportunities. We offer mock interviews with practicing attorneys.

We sponsor an annual Volunteer Fair to provide students with information about service opportunities in the community. The Office works closely with the Public Interest Law Association, which raises funds to provide public-interest law internships to selected law students. These funds provide stipends for law students entering their second or third year to work in public interest organizations. UMKC students have been placed at the Public Interest Litigation Clinic, the Missouri Public Defender's Office and the Kansas City, Missouri, City Attorney's Office, as well as other organizations.

CSO collaborates with the Kansas City Metropolitan Bar Association's Summer Law Internship Program and Black Law Students Association to introduce minority high school students to the rigors of college life in general and to law school student life specifically. The Office participates with the Kansas City Metropolitan Bar Association in its Heartland Diversity Legal Job Fair as well as its 1L Summer Diversity Clerkship Program to promote law clerk opportunities for diverse students.

Career Opportunities

UMKC Law School graduates have a wide variety of job opportunities available. The largest number of graduates join law firms, ranging in size from one to more than 500 attorneys. Some of these firms specialize in specific areas of law practice. Many firms offer a general practice that spans corporate, civil and criminal law. Some law graduates do not want to practice law in a traditional law firm setting, desiring instead to use their legal skills in the business world as executives, bankers and corporate tax experts. Therefore, corporations, accounting firms, title companies, banks and insurance companies recruit them. The legal departments of state and municipal government agencies also employ graduates. Prosecutors' offices, public defenders and legal service organizations recruit at the school. Branches of the United States military recruit lawyers for service in the Judge Advocate General's Corps, and federal government

agencies, such as the Department of Labor and the Environmental Protection Agency, hire graduates to staff their legal departments. Other graduates become law clerks for judges or administrators in law schools. Some become professors of law.

The Career Services Office assists our students and alumni in many ways with planning careers and obtaining positions which utilize the Juris Doctor degree.

Academic Rules and Regulations

Academic Rules and Regulations for Juris Doctor Degree Program

- Attendance

- Appeal of Grades
- Withdrawal from Courses
- Scholastic Probation and Dismissal
- Latin Honors
- Dean's Honor List
- Acceleration
- Employment by Juris Doctor Degree Candidates

Attendance

Attendance

Preamble

All ABA-accredited law schools are required to abide by the Standards for Approval of Law Schools of the American Bar Association, including the rule that, "A law school shall require regular and punctual class attendance"* . This provision carries with it a clear, affirmative duty on the part of each institution:

- A law school shall demonstrate that it has adopted and enforces policies insuring that individual students satisfy the requirements of this Standard, including the implementation of policies relating to class scheduling, attendance and limitation on employment** .

Consistent with these directives, the UMKC School of Law faculty believes that dependability is an essential characteristic of a good lawyer. The Law School's objective is not only to ensure academic success, of which attendance is a major component, but also the development of good professional habits.

Over the years the Law School faculty has experimented with different attendance policies and has found that, without such a policy, attendance becomes noticeably lax, which in turn can contribute to poor performance on the bar examination.

Moreover, the faculty recognizes that sound academic reasons exist for adopting a uniform attendance policy that allows some classes to require even more stringent attendance requirements.

Finally, the faculty recognizes that, if it imposes a mandatory attendance policy on students, the faculty also needs to impose compulsory attendance-taking on itself, using a standardized system, to ensure uniformity, fairness and predictability in the implementation of its attendance policy.

* Standard 304(d), Standards for Approval of Law Schools of the American Bar Association.

** Interpretation 304-6, Standards for Approval of Law Schools of the American Bar Association.

Procedures

1. Every faculty member shall take attendance each day of class by distributing a sign-in sheet consisting of a current class roster, or a suitable alternative. If a sign-in sheet is used, each student in attendance must sign the roster next to his or her name. The faculty member or her administrative assistant shall deliver completed attendance sheets or the results of the suitable alternative method of taking attendance to the Director of Student Services promptly.
2. Each student shall be allowed absences up to, but not exceeding, two times the number of credit hours in a course. (For example, a student in a three-hour class that meets in two 75-minute sessions each week may miss a total of four such sessions. A student in a three-hour class that meets in three 50-minute sessions may miss a total of six such sessions.) In their discretion, faculty members may require fewer, but may not allow more, absences. If a faculty member intends to impose a more stringent attendance policy, he/she must notify students of the policy by announcement in class or in writing or by electronic posting during the first week of the semester.
3. Each absence exceeding the limitation imposed by paragraph 2, above, shall result in a one-step letter grade reduction for the course to be assessed by the Dean's Office, e.g., from "B" to "B-" or from "A-" to "B+". (For example, a student who misses five classes in a three hour class that meets in two 75-minute sessions will be assessed a one-step grade penalty. If that student misses a sixth class, he or she will be assessed an additional one-step grade penalty.) A faculty member may in his or her discretion in consultation with the Associate Dean impose other academic requirements in lieu of the grade reduction.
4. Accumulated absences exceeding three times the number of credit hours in a course shall result in the student's administrative withdrawal from the course provided the student is in good standing at that time, i.e., provided the student has not earned the grade of "F" for work completed at the time of withdrawal. Students who are not in good standing will receive a grade of "WF" for the course.
5. Students may appeal a grade-assessment or involuntary course withdrawal to the Associate Dean in writing within one week of notification of the assessment/withdrawal.
6. This policy does not affect a faculty member's guidelines for the turning in of out-of-class assignments and papers. The individual faculty member, not the Dean's office, has the sole discretion to award late penalties for failing to turn in an assignment or paper on time or to excuse the late handing in of assignments and papers. For this reason, the Dean's office only oversees student absences from class.
7. Students and faculty will be responsible for monitoring their own compliance with this policy.
8. Falsification of attendance records constitutes a violation of the UMKC School of Law Honor Code.

Examinations and Grades

In most courses, the final grade is based on the student's achievement on an examination given at the end of the semester. Examinations are anonymous, and papers are identified solely by number. Each student is expected to take examinations at the scheduled times. For failure to do so, a grade of F is assigned.

Grading of student work is on a 4.0 system:

A+ = 4.3	A = 4.0	A- = 3.7
B+ = 3.3	B = 3.0	B- = 2.7
C+ = 2.3	C = 2.0	C- = 1.7
D+ = 1.3	D = 1.0	D- = 0.7
F = 0		

Some courses are graded on a pass/fail basis.

A student receiving a grade of F in a required course must repeat and pass the course. Grades of F remain on a student's transcript and count toward a student's grade-point average even if a course for which an F is given is repeated and passed.

The temporary grade of I (incomplete) is recorded when the student has not completed the work required for the course. It may only be entered with the written permission of the professor teaching the course. If the work is not completed and a permanent grade not submitted to the school's records office by the end of the following semester, the I grade will be replaced with a grade of F.

Final Examination Rescheduling Policy

A student may request that one or more final examinations be rescheduled under the following circumstances:

- Two final examinations in the same calendar day.

- An evening final examination followed by a morning final examination the next calendar day.
- Three final examinations on three consecutive days (in the first week of examinations only).
- Four final examinations in five days (in the first week of examinations only).
- An emergency warrants rescheduling (request must be documented).

The policy with respect to take-home final examinations is as follows:

- If the take-home final examination is "floating," (e.g. the student may choose when to take it within a defined timeframe) the student may not **create** a conflict by opting to take it during an interval conflicting with another final examination.
- A take-home final examination does not conflict with the preceding final examination(s) under the first or third rules above (two exams in the same calendar day or three exams on three consecutive days), if it may be checked out at least four hours after the prior examination is scheduled to conclude.
- A take-home final examination does not conflict with the preceding final examination(s) under the fourth rule above (four exams in five days), if it may be checked out on Friday, at least four hours after the prior final examination is scheduled to conclude.
- Perceived conflicts involving take-home final examinations of greater than 48 hours in length will be dealt with on a case-by-case basis.

Requests to reschedule a final examination should be directed to the School's Director of Student Support Services.

Once a conflict has been identified, the director will determine which final examination(s) to move, and to what day and time, in order to eliminate the conflict.

Requests to reschedule a final examination on short notice because of severe illness or an emergency must be documented, and will be considered on a case-by-case basis. All such requests must be presented to the Director of Student Support Services for the School of Law **immediately** (See [Student Support Services \(Law\)](#)).

The policy with respect to requests to reschedule based upon disability is as follows:

- All disability-based requests must be approved by the Assistant Director for Student Disability Services (See <http://www.umkc.edu/disability> and [Non-Discrimination Policy](#), above).
- The Director of Student Support Services will reschedule a final examination because of disability only on request of the Assistant Director for Student Disability Services.

Credit in Lieu of Grade Option

After completion of the first year, a student may take one elective course ordinarily graded (except a 4-credit-hour class) on an ungraded basis. For a "pass" to be posted on the student's record, work done for the course must be equivalent to a grade of C- or better; otherwise, the actual grade received will be posted.

The student must make this election before the beginning of the semester by completing and filing the appropriate form (available at the Law School) in person at Registration and Records ([Administrative Center](#), Room 115, 5115 Oak).

Latin Honors

Three types of Latin honors are awarded to those UMKC School of Law graduates who have achieved academic distinction, they are:

- Summa Cum Laude ("with highest honor")
- Magna Cum Laude ("with great honor")
- Cum Laude ("with honor")

While the University's degree regulations provide some restrictions on the number of graduates in each class that may receive Latin honors which may reduce the percentage of students graduating with Latin honors in each category, in general, Latin honors are awarded as follows:

1. Summa: A student with at least a 3.7 GPA who is also ranked in the top 5 percent of the graduating class.
2. Magna: A student with at least a 3.5 GPA who is also ranked in the top 10 percent of the graduating class.
3. Cum Laude: A student who is in the top 20 percent of the graduating class.

Appeal of Grades

Students are responsible for meeting the standards of academic performance established for each course in which they are enrolled. The establishment of the criteria for grades and the evaluation of student academic performance are the responsibilities of the professor.

The school's grade appeal procedure is available only for the review of allegedly capricious grading, and not for review of a professor's evaluation of a student's academic performance.

Capricious grading, for grade appeal purposes, consists only of any of the following:

- The assignment of a grade to a particular student on some basis other than the performance in the course.
- The assignment of a grade to a particular student by resort to more exacting or demanding standards than were applied to other students in the course.
- The assignment of a grade by a substantial departure from the professor's previously announced standards.

Step 1: The student should first discuss the course grade fully with the professor. This must be done within six weeks after the professor turns in the grade or the beginning of the succeeding regular academic semester, whichever is later.

Step 2: If the matter is not resolved through consultation with the professor, the student may appeal to the dean. This must be done within 10 days after notification of the decision of the professor. The appeal to the dean shall be in writing, and shall state which of the three charges of capricious grading is alleged to have been violated and shall specify such facts as are relied upon to support the charge.

Step 3: The dean shall review the appeal and, if found to be without merit, shall dismiss it. If it is determined that the appeal may have merit, the dean shall appoint an ad hoc faculty committee to review the record and provide advice on the matter. The grade in any course that is based on an anonymously-graded examination shall be presumed not to be capricious.

Step 4: If the dean believes a change in the grade to be warranted, he or she shall present a report to the faculty of the Law School in order that the faculty may act on the matter.

Step 5: If the student is dissatisfied with the action of the dean or the faculty, the student, within 10 calendar days of the decision of the dean, may appeal to the chancellor in accordance with the University of Missouri-Kansas City Procedure for the Appeal of Grades.

Withdrawal from Courses

A student enrolled in a course cannot unilaterally withdraw from it but must secure permission from the associate dean to do so, and must follow prescribed withdrawal procedures. A student who is not in good standing in the course at the time of withdrawal (has earned a grade of F at that point) will receive a grade of F for the course.

Scholastic Probation and Dismissal

A student who obtains a GPA below 1.8 in his/her first semester will be automatically dismissed from law school. Such student may apply for readmission in the summer of that academic year as under then existing standards and procedures for readmission, and may apply for admission, as a new student to the law school beginning no earlier than the following fall semester. Only under extraordinary circumstances beyond the student's control will the Student Affairs Committee consider a student's petition prior to that summer. If extraordinary circumstances exist, at least one faculty member of the committee and its chair must grant permission for early consideration.

A student will be placed on academic probation if his/her cumulative GOA falls below 2.0. Any student on probation will have one semester to raise the cumulative grade-point average to the required level (2.0) or be dismissed for academic deficiency. A student on academic probation may not work or engage in significant law school extracurricular activities.

Students readmitted to the School after dismissal on the grounds of academic deficiency will have one semester to raise the academic average to the required level, unless the faculty decides that a longer period is warranted.

If a probationary student successfully raises his or her average to the required level at the end of the probationary period and subsequently falls below 2.0 again, the student will be dismissed and a second probationary period will be granted only after a petition and favorable faculty action.

Readmissions Policy Guidelines

I. Readmissions Committee

The Faculty Readmissions Committee considers all petitions for readmission in the first instance. Petitioners are afforded the opportunity for a personal interview with the Readmissions Committee.

II. Criteria for Petitions for Readmission

A. No petition for readmission will be granted unless the petitioner establishes to the satisfaction of the Readmissions Committee in the first instance or the faculty upon appeal under III(B)(2)-(3) that:

(1) there is a substantial likelihood that the student will be able to make up his or her grade deficiency within an appropriate time and manner in accordance with a plan approved by the Readmissions Committee or the faculty, and

(2) the grade deficiency is substantially attributable to circumstances or events which do not reflect on the student's abilities to perform in law school and which do not reflect the absence of qualities which bear on the ability of a person to successfully deliver legal services.

Circumstances that may meet this test are:

- (a) serious personal illness or other medical problems, or
- (b) the occurrence of an event or series of events causing severe emotional stress (e.g., death of a family member, divorce or separation from a longstanding partner, assault), or
- (c) documented disability that can be, but has not previously been, reasonably accommodated, or
- (d) any other serious problem significantly affecting law school performance.

B. Any situation which the student feels contributed to his or her academic difficulties should be clearly stated in the petition for readmission and documented to the extent practicable. Remedies the student wishes to see taken should also be addressed in the petition. The petitioner must certify the truthfulness of all statements provided in the petition.

III. Decisions to Admit or Deny Readmission

A. Decisions to Admit

(1) If the decision of the Readmissions Committee is to readmit, that decision is final.

(2) Upon a decision to readmit, the Readmissions Committee or the faculty shall construct a plan and specify conditions for remedying the grade deficiency. Ordinarily, the student will be required to raise his or her cumulative grade point average to a 2.0 within one semester. In appropriate cases, the Readmissions Committee or the faculty may specify additional conditions for remedying the grade deficiency.

B. Decisions to Deny

(1) If the decision of the Readmissions Committee is to deny readmission and that decision is unanimous, there is no appeal permitted, except as detailed in B(3) below.

(2) If the decision to deny readmission is not unanimous, the student has a right of appeal to the full faculty. [Automatic right to appeal]. If the faculty votes to deny readmission, that decision is final and no possibility of appeal within the LawSchool, campus, or university exists.

(3) If there is no entitlement to appeal in accordance with the above provisions, then the Dean or his or her designee may, in that person's discretion but only in extraordinary circumstances, refer an appeal from a Readmissions Committee decision to the faculty. Such referral shall be accompanied by a written explanation for the granting of the appeal. [Discretionary appeal]. A student must request the Dean's review within ten days of notification of the committee's decision. If the Dean or his or her designee decides not to refer to the faculty, that decision is final.

IV. Notification of Decision of the Committee

A. After the Readmissions Committee deliberates, the petitioning student shall be notified either that

(1) the student is readmitted, or

(2) the student is denied readmission and the decision is final, but that the student may seek leave to appeal from the Dean upon a showing of extraordinary circumstances or

(3) the student is denied readmission but has the right to appeal to the faculty.

B. The full faculty shall constitute the appellate body for petitions after the fall semester. The executive committee of the faculty shall constitute the appellate body for petitions after the spring semester. Faculty may participate at their request in the faculty deliberations by teleconference.

V. Attendance in Classes Pending Petition

A. Initial Petition

Students may continue in their classes until either the dean makes a determination to deny referral to the faculty under III(B)(3) or the faculty makes a determination under III(B)(2)-(3). At that time, the student must cease attending classes if the decision is to deny readmission.

B. Subsequent Petitions

Students may not attend classes until the Readmissions Committee has made a decision to readmit under III(A) or the faculty has made a decision to readmit under III(B)(2)-(3).

C. Dismissal as a First Semester Student

Students dismissed from the LawSchool for achieving a grade point average under 1.8 after their first semester must cease attending classes immediately upon notification. The student may make their initial petition in the summer following their dismissal. These students do not have the right to enroll or continue in any classes during the pendency of their petition.

VI. Subsequent Petitions

A. Re-Petitions After Denial

A subsequent petition is a petition that has previously been denied. A subsequent petition may be considered by the Readmissions Committee only if it presents new evidence. New evidence is evidence not available or not reasonably discoverable with a prior petition. Subsequent petitions shall be determined by the same process and standard of review as petitions for readmission.

B. Petitions By Persons Who Have Previously Been Readmitted.

Only in exceptional circumstances will a student who has previously been readmitted and subsequently dismissed be readmitted again.

Dean's Honor List

Acceleration

Juris doctor degree students may graduate in two and one-half years. To do so requires attending at least two summer sessions in order to accumulate enough credit hours to meet the 91-credit-hour requirement and the residency requirement. Each summer session may be considered one-half of a semester toward satisfying the residency requirement.

Employment by Juris Doctor Degree Candidates

Full advantage of the opportunity for a sound legal education only can be gained by devotion of sufficient energy and attention to legal studies. The excessive diversion of time and energy to employment can seriously impair success in law school and preparation for law practice. For this reason, full-time first-year law students should not engage in any outside work, and upper-class students should not engage in excessive outside work.

Accreditation requirements mandate that a student may not be employed more than 20 hours per week in any week in which the student is enrolled in more than twelve class hours. The School has the obligation to adopt and enforce policies assuring that its students meet this requirement.

Students on academic probation may not work.

Administrative Rules

School of Law Administrative Rules

Snow Policy

University policy mandates that the University will always remain open even during inclement weather, and classes will generally be held. In the event of a major snow or ice storm creating potentially dangerous conditions, a decision may be made to suspend some or all classes. Announcement of such a decision will be made on local radio and TV. Efforts will be made to establish a call-in line for students to determine whether a class or classes will be held.

Alcoholic Beverages

There shall be no drinking or serving of alcoholic beverages in the law building or on other campus property without the approval of the vice chancellor for administrative affairs.

Student groups desiring approval must request the approval at least two weeks prior to the date of the intended use. Request forms are available in the dean's office.

Parking

The parking lot and driveway on the north side of the law building are for faculty and staff parking. Violators deprive faculty and staff of parking spots they pay for and violators will be ticketed and their vehicles may be towed or locked by a "boot." A number of metered spots are in the lot and may be used by students who have registered their vehicles. After 4:30 p.m., a portion of the lot is open to students provided they have purchased a student parking permit. Students must register vehicles with the Campus Police.

Activities and Services

School of Law Activities and Services

- Urban Mission
- Professional and Social Activities
- Scholarly Publications
- Competitions
- Fee Information
- Financial Aid

Competitions

The School of Law has a comprehensive program of advocacy training that involves both intra-school competition and participation in external programs. The school has established a strong tradition of excellence in inter-school competition both at the regional and national levels. The program receives strong support from the School, alumni and friends, both financially and through assistance from leading members of the bar.

National Mock Trial Competitions

Students compete in intra-school competition to demonstrate their abilities in trial skills. Those achieving the best scores represent the school in regional and national mock trial competitions, including the National Trial Competition (coordinated by the American Bar Association's Section on Litigation and the Texas Young Lawyers Association) and the American Association for Justice Mock Trial Competition. Our trial team was the Regional winner for 2008 and advanced to Nationals in Texas.

National Moot Court Competitions

All students may participate in intra-school moot court competition. Additionally, students showing outstanding appellate advocacy abilities represent the school in annual regional and national moot court competitions, including the National Moot Court Competition, sponsored by the Association of the Bar of the City of New York. UMKC teams have been very successful in advancing into the elimination rounds at regional tournaments.

Outstanding student advocates also participate in a variety of other competitions, including the ABA National Appellate Advocacy Competition, the Frederick Douglass Moot Court Competition, the Judge Conrad B. Duberstein National Moot Court Competition (Bankruptcy Law), the Family Welfare and Adoption Law Competition and the Jessup International Law Moot Court Competition. Teams compete locally, nationally and internationally in these competitions.

Client Counseling and Negotiation Competitions

Each year the School selects teams to compete in the ABA Negotiation Competition and the National Client Counseling Competition. Selection is based on intra-school competitions open to all students. Our Negotiating Team has an outstanding record, having advanced to Nationals almost every year and finishing in the "final four" nationally four times in the past twenty years.

The Scott Welch Memorial Advocacy Fund

This fund was endowed by alumnus Lantz Welch in memory of his son, and by memorial contributions of friends of the family. The fund provides travel expenses and recognition for students representing the School of Law in national appellate advocacy and mock trial competitions.

The UMKC Law Foundation also provides significant support for internal competitions and travel to regional and national competitions.

Viewing Actual Court Proceedings

The E.E. "Tom" Thompson Courtroom, attached to the law building, is one of the premier teaching courtrooms in the country. It contains computer-controlled audiovisual equipment, together with a 70-seat sound-proof observation balcony, providing a full opportunity for teaching and team practice with the aid of audiovisual critique. A complement of ancillary rooms enables the courtroom to be used by state and federal trial and appellate courts, providing special learning experiences for students.

Scholarly Publications

The UMKC School of Law offers several opportunities for students to develop research, writing and editorial skills through journal participation.

Law Review

The *UMKC Law Review* is a scholarly legal publication, managed by the UMKC Law Review Editorial Board and edited by the board and staff. Law students are invited to become a member of the *Law Review* based on their scholastic performance and achievement in a writing competition, which occurs during the spring semester. *Law Review* membership is considered one of the highest Law School honors. The *Law Review* is responsible for publishing four issues a year. [One issue of the *Law Review*](#) each year contains a Law Stories section that publishes stories about personal experiences or lessons learned in legal practice, unique clients or enlightening client interactions, or illuminating episodes in legal education. [The *UMKCLaw Review*](#) is the only law review in the country with a section devoted to law and narrative. Each quarterly issue contains contemporary articles by leading authorities in the legal community, comprehensive comments on legal topics written by members of the editorial board and senior staff members and notes by staff members analyzing recent legal developments. By actively participating in the publication process, staff members greatly improve their writing, analytical and editing skills.

Urban Lawyer

The *Urban Lawyer* is a prestigious and widely-read journal covering the areas of urban and public law. It is published quarterly by the American Bar Association's Section on State and Local Government Law. The articles are collected, annotated and edited by student editors and faculty members at the Law School. As a member of the staff, the student is provided with an opportunity to enhance research, writing, and analytical skills, and to gain a wide spectrum of knowledge of urban law. Selection for staff positions is by a writing competition at the beginning of the spring semester.

Journal of the American Academy of Matrimonial Lawyers

The American Academy of Matrimonial Lawyers has chosen the School to assume editorial responsibility for its twice-yearly publication. The journal uses a symposium style format with featured articles on a selected family-law theme and an annotated bibliography of articles related to the issue's theme. The journal is edited by a faculty member with student editorial assistance. Under the faculty member's supervision, students research and write papers on a topic designated for an upcoming issue and edit submitted lead articles. Papers submitted by students are considered for publication in the journal.

Professional and Social Activities

The School of Law has a full range of professional and social activities available for students. These activities provide an opportunity for students to get to know one another as well as to interact with faculty and members of the legal community.

American Bar Association/Law School Division

The ABA/LSD is a national organization open to all law students. It was founded to encourage law students' participation in the efforts of the organized bar in forming and revising standards of legal education. Through the division, students have a voting influence on the positions taken by the ABA in regard to current issues and problems facing the legal profession. Historically, the division has enjoyed strong support from UMKC law students, many of whom have become regional and national officers.

American Civil Liberties Union/Student Chapter

The UMKC student chapter of the ACLU is open to all law students. The student chapter exists to raise awareness of civil liberties issues in both current events and the law; and as a means of gaining valuable experience through volunteer work with ACLU of Western Missouri & Kansas.

Animal Law Society

The purpose of the Animal Law Society is to foster critical thought and debate about the application of animal-rights principles to the law. The Society embraces the principles that the common law classification of non-human animals as personal property must be reformed to increase the legal status of non-human animals in order to assure them greater protection under the law; that the use of animals for scientific purposes is not beyond moral criticism; and that human beings have a responsibility to protect non-human animals and their natural habitats. The Society seeks to promote an awareness of these principles and to further their application through its activities.

Art Law Society

The purpose of the Art Law Society is to connect law school students and faculty to art related events; to spread awareness of legal issues that individuals and businesses involved in the arts could encounter; and to benefit those individuals and businesses through community service, while connecting them with individuals and organizations who can assist them with Art Law issues. The Society holds an art auction annually to benefit and spread awareness about Kansas City Volunteer Lawyers and Accountants for the Arts (KCVLAA).

Asian/Pacific Islander Law Students Association (APILSA)

The purpose of the APILSA is to articulate and promote the professional needs and goals of Asian and Pacific Islander law students by utilizing the collective resources of the law school and the legal community; to focus upon the relationship of the Asian and Pacific Islander attorneys to the American structure; to instill in the Asian and Pacific Islander law students a greater awareness of the commitment to the needs of the Asian American community; to foster and encourage professional competence; and to do all things necessary and lawful to accomplish these purposes.

Association of Women Law Students (AWLS)

AWLS is open to all law students and was formed to promote the role of women in the legal profession and its bar associations, to encourage the acceptance of qualified women in the academic and legal communities, and to exert an influence in the law, the profession, the school and the community.

BigWigs

The BigWigs is a student organization that works in conjunction with Big Brothers Big Sisters in an effort to recruit Bigs within the law school, foster a community of information-sharing about the program, and organize fun activities where Bigs who attend UMKC Law can get together with their Littles. The only requirements for membership in this organization are enrollment at UMKC School of Law and participation in Big Brothers Big Sisters in the Kansas City area.

Black Law Students Association

BLSA, founded in 1968 by black law students, is a national organization representing more than 90 percent of the nation's African-American law students. Its goals are to articulate and promote the professional needs and goals of African-American law students; to focus upon the relationship of the African-American attorney to the American legal system; to instill in the black attorney and law student a greater awareness of the importance of commitment to the needs of the African-American community; and to influence American law schools, legal fraternities and legal associations to use their expertise and prestige to bring about change within the legal system in order to make it responsive to the needs of the African-American community. The school's BLSA chapter works closely with local bar associations and area leaders to strengthen the role of the black lawyer in the Kansas City community.

Business and Tax Law Society

The Business and Tax Law Society is an organization of law students interested in Business and Tax Law.

Christian Legal Society

Founded upon Alexis de Tocqueville's notion that as a Judeo-Christian nation, America will remain great only as long as America remains good, the CLS seeks to discern the parameters of the ethical vitality and moral essence of the law. Open to all students, the CLS offers opportunities for spiritual and temporal support as well as searching dialogue and well-earned rest and fellowship during each academic year.

Constitutional Law Society

The purpose of the Constitutional Law Society of the School of Law is to explore and inform students about constitutional law. The Constitutional Law Society endeavors to meet its objectives by sponsoring speakers and workshops providing insight into the area of constitutional law.

Emissaries

The Emissaries are the official student public relations team for the School of Law. Emissaries are chosen by faculty, staff and students from a select pool of applicants. This group works closely with the Law School administration in such areas as recruitment, representation of the Law School community at special events and serving as tour guides to prospective students and visitors. Emissaries enjoy a good deal of contact with alumni and members of the Kansas City metro law community. They also participate in various community service activities.

Environmental Law Society

The Environmental Law Society is a group for those who are interested in environmental issues, especially issues in the Midwest, particularly in the Kansas City metro area. Moreover, the Environmental Law Society is available to assist and educate students who are interested in pursuing a career in Environmental Law. It is an organization valuing service and the welfare of the community in relation to its environment.

Family Law Student Association

The purpose of the Family Law Student Association is to provide law students with information and experiences within the field of family law, allow students to become acquainted with professionals in the field, promote student interest in family law and encourage family law education throughout the UMKC Law School student body.

Federalist Society

Founded in 1982, the Federalist Society has 110 chapters at law schools across the country. Its membership consists of students who are interested in legal and political topics with an emphasis on separation of powers and traditional values and views about the law. The UMKC chapter presents speakers and sponsors forums on a variety of issues. An active and growing lawyer's chapter cooperates with the UMKC chapter.

Health Law Society

The purpose of the Health Law Society is to help students of UMKC Law School gain knowledge of current issues in the world of health care and to promote education of those issues.

Hispanic Law Students Association (HLSA)

The Hispanic Law Student Association serves to protect and advance the rights of Hispanic students and other minorities in our law schools as well as local, regional, and national communities; to instill greater awareness of the cultural differences, similarities, and needs of the Hispanic population; to provide educational support and social opportunities for students interested in Spanish language and culture; and to encourage diversity and foster positive changes within the legal academic and professional communities.

Honor Court

The Student Bar Association of the Law School has adopted an honor code prohibiting any conduct which would give an unfair advantage to any student in any academic matter or in any matter relating to academic credentials. The honor code has been posted on the school's World Wide Web site.

The honor court hears all cases involving alleged violations of the honor code. It is composed of a chief justice and four associate justices appointed from the student body by the president of the Student Bar Association with the approval of its board of governors.

Intellectual Property Law Society

The Intellectual Property Law Society is an organization of law students interested in patent, copyright, trademark or trade secret law. The primary purpose of the IPLS is to promote opportunities for its members to learn more about intellectual property issues through course offerings, participation in moot court competitions, interaction with local practitioners and summer clerkships.

International Law Society

The International Law Society offers students the opportunity to focus on the many facets of law from an international perspective, from the practicalities of a legal practitioner to the theoretical applications of multinational dispute settlements. The current explosion of trade opportunities, worldwide environmental concerns and new partnerships in political and economic arenas present exciting opportunities for tomorrow's lawyers to shape the future of global cooperation.

J. Reuben Clark Law Society

The Mission of the School's Alexander Doniphan Student Chapter of the J. Reuben Clark Law Society is to affirm the strength brought to the study of the law by a law student's personal religious conviction. The members strive through public service and diligence in their studies to promote fairness and virtue founded upon the rule of law.

Jewish Law Students Association

The purpose of the organization is to meet the needs of Jewish law students at the University of Missouri-Kansas City School of Law and to promote awareness and understanding of the Jewish people, their religion, traditions and of the State of Israel.

Legal Fraternities

Chapters of three national legal fraternities, Delta Theta Phi, Phi Alpha Delta and Phi Delta Phi, have been established at the Law School. Through their professional programs and social activities, members of the student body have the opportunity to develop professionally and to interact socially with members of the bench, bar, Law School faculty and fellow students.

Missouri Association of Trial Attorneys (MATA)

The UMKC MATA chapter was formed with the basic ideals of the statewide organization and the national organization, known as the Association of Trial Lawyers of America. These ideals and goals include seeking justice, protecting those who deserve redress from injury, promoting the public good through concerted efforts to secure safe products and upholding the honor and dignity of the legal profession.

Midwestern Innocence Project Student Organization (MIPSO)

MIPSO is a part of the Mid-Western Innocence Project (MIP). Both organizations seek the exoneration of those who are incarcerated but are actually innocent. MIPSO assists MIP by having monthly clinics to screen petitions and planning awareness programs to educate the law school community about the problem of wrongful convictions. Its Web site address is: www.mipsoumkc.com.

Moot Court Board

Students who wish to further develop their appellate argument abilities may participate in the school's Appellate Advocacy Program, which is administered by a student moot court board under the general supervision of the faculty. The top 16 students in the Fall Appellate Advocacy II Competition are invited to participate in the Ellison Moot Court Competition, which provides the means for selection of students to represent the school in national appellate advocacy competitions. Membership on the board is open to students who participate in the Ellison Competition.

National Lawyers Guild

The National Lawyers Guild is a nationwide organization of lawyers, legal workers and law students with 96 chapters throughout the United States. It was founded in 1937 as the country's first integrated bar association. The guild is dedicated to seeking social justice, social equality and freedom to dissent to the end that human rights shall be regarded as more sacred than property interests.

Non-Traditional Law Students Association

The Non-Traditional Law Students' Organization coordinates social and mutual-support events and initiates discussions with academic and administrative staff members who may be able to assist with matters unique to these individuals whose student lives are complicated by other, "nontraditional" roles, responsibilities and concerns.

UMKC OUTLaws, LGBT Law Student Group

The group, open to all law students regardless of sexual orientation, seeks to create an environment where students participate in discussions with practitioners regarding LGBT legal issues, network at bi-monthly meetings with local LGBT legal professionals, explore practice areas, and develop outreach opportunities to LGBT groups. The presence of the LGBT group raises awareness of LGBT issues at the law school and campus and promotes an opportunity for constructive dialogue regarding LGBT issues.

Public Interest Law Group

The purpose of the Public Interest Law Group at UMKC is to foster awareness by students, faculty, administrators and alumni of public-interest law through financial support, educational programs and community outreach. As a student-driven nonprofit organization, the group is dedicated to the principle that law students should be encouraged to work in the public interest and that no student or graduate who wants to work in public interest law should be unable to do so for economic reasons. The group is affiliated with the National Association for Public Interest Law and administers two primary program areas: grants for summer internships and loan repayment assistance for graduates.

Securities Club

The purpose of the Securities Club of the School of Law is to explore and inform students of career options in the field of securities law. The Securities Club endeavors to meet its objectives by sponsoring speakers and workshops providing insight into the securities industry.

Sports and Entertainment Law Society

The purpose of the Sports and Entertainment Law Society of the School of Law is to explore and inform students of career options in the field of Sports and Entertainment Law.

Student Bar Association

The SBA is a member of the Law Student Division of the American Bar Association and the governing body of the Law School. It is headed by a student board of governors, which is elected annually. The board speaks for the student body as a whole, appoints committees, provides funding for all Law School student organizations and plans some of the Law School's largest and most widely attended events.

The \$1.98 Law Revue

This annual Law School theatrical production is written, produced, directed and presented by law students and faculty. It is a humorous look at the Law School, the law in general and current events. The show involves the combined talents of writers, actors, singers, stage hands, publicists, artists, makeup and costume artists and musicians. The entire law school community looks forward to the annual production.

Fee Information

Educational fees and student program/use fees are set by the University of Missouri Board of Curators. For the most current fee schedule, contact the Cashier's Office at (816) 235-**1365** or visit their Web site at <http://www.umkc.edu/adminfinance/finance/cashiers>.

Financial Aid

For information on financial aid, contact the UMKC Financial Aid and Scholarships Office at (816) 235-**1154** or visit their Web site at <http://www.sfa.umkc.edu>.

Urban Mission

The following programs and activities are illustrative of the many ways in which the School of Law serves its urban mission.

Child and Family Services Clinic

The UMKC Child and Family Services Clinic provides legal services and representation in cases involving children under the jurisdiction of the juvenile division of the Jackson County Family court. The clinic students ordinarily represent those adults seeking to give these children a permanent, safe home: family members seeking permanent guardianship, a father seeking paternity, or an adoptive family. In some instances, the clinic students will represent juveniles themselves in delinquency cases or may act as guardians ad litem on behalf of children in a variety of cases. Working under the supervision of the clinical professor, law students investigate, research and advocate legal positions necessary to ensure safe, stable family structures for children.

Inns of UMKC

The Inns of UMKC are part of a two-tier approach by the School of Law to address our students' need for additional advice and assistance from the faculty and members of the local bar and judiciary. The program stems from an understanding that students benefit from consultation regarding matters such as the stress of law school, professionalism, the challenges presented by a career in the practice of law, course selections, bar exam preparation, summer clerkships and post-graduation employment (including judicial clerkships). Each Inn is run independently through the collaboration of one prominent member of the local bar, one member of the local judiciary and two faculty members. The grouping of students in the Inns directly corresponds to the Introduction to Law workshops and faculty members also serve as the students' advisers. The goal of the Inns of UMKC program is that these Inns will grow to serve a vital role in the education and training of future community lawyers and leaders, comparable to the roles played by the old English Inns of Court.

Kansas City Metropolitan Bar Association

The School of Law enjoys a close relationship with the Kansas City Metropolitan Bar Association. Each year, the Young Lawyers Section of the Association presents a number of educational programs of interest to law students, helping them bridge the gap between theory and practice. In addition, it hosts a beginning-of-the year picnic at which students meet area lawyers and judges, and presents an end-of-the year bar examination information session. As a result of such activities, UMKC law students have access to excellent programs, make important contacts and enjoy the collegiality of an association dedicated to the highest standards of professional integrity and skill.

Kansas City Tax Clinic

The Kansas City Tax Clinic is a project of the UMKC Graduate Tax Law Foundation, with support from the UMKC School of Law. Planning for the clinic, which is housed in the law building, started back in 1996, with many faculty, staff, alumni and tax practitioners making contributions and giving generously of their time and effort to make the Kansas City Tax Clinic

a reality.

The Kansas City Tax Clinic began serving clients in the fall of 1999. UMKC School of Law students in the LL.M. in Taxation program, the combined J.D./LL.M. in Taxation program, or other students with the permission of the director of the tax program, represent clients of limited means in tax controversy matters under the supervision of the director and volunteer tax practitioners. The clinic has been awarded Internal Revenue Service grants to assist low-income taxpayers with appeals.

Law Practice

Pursuant to Missouri Supreme Court Rule 13, a student who has completed legal studies amounting to one-half of the credits required for graduation and who is in good standing and of good character, fitness and moral qualification to practice law may appear in courts or before administrative tribunals in Missouri on behalf of an indigent person, if accompanied by a supervising attorney. The student may perform other legal work, such as preparation of pleadings and briefs on behalf of an indigent, so long as the work is done under the guidance of an attorney. An eligible student also may appear in any matter on behalf of the state with the written approval of a supervising lawyer. Similar opportunities for student practice are available under Kansas Supreme Court Rule 709. Additionally, similar skills experience is possible in the Federal Government.

Midwestern Innocence Project

The Midwestern Innocence Project provides pro bono investigative and legal assistance to prisoners with persuasive actual innocence claims. Students learn legal and investigative strategies through Wrongful Convictions and the Innocence Project Clinic. In Wrongful Convictions, students learn the causes of wrongful convictions and the ways to raise successful innocence claims in both state and federal courts. The Innocence Project Clinic provides students hands on work with cases receiving transcripts, state records, and case documents in addition to the briefs and opinion in the case. Students report on the likelihood that an inmate is innocent and the strategies available for pursuing the claim of innocence.

Public Interest Litigation Clinic

The PILC is an independent non-profit legal services organization that represents innocent prisoners and prisoners facing the death penalty across the United States. The Clinic's cases include all stages of criminal litigation, including trial, appeal, post-conviction, habeas corpus, certiorari and executive clemency proceedings. The School's Death Penalty Clinic and the "Problems and Issues in the Death Penalty" course are taught in conjunction with the PILC, and the center's staff provides valuable opportunities for the students in those classes.

UMKC Entrepreneurial Legal Services Clinic

Initially funded by the KauffmanCenter for Entrepreneurial Leadership, students participating in the UMKC Entrepreneurial Legal Services Clinic, [working under the supervision of licensed attorneys](#), assist a wide variety of owners of new and existing small businesses who do not have, or cannot afford, the market price for professional assistance. Each [Fall and Spring](#) semester, up to 15 students who have taken certain courses (Business Organizations and Federal Taxation [are required](#), and Business Planning [or other business or tax law education or experience preferred](#)) are selected [for enrollment in the clinic](#).

The clinic is located in the [UMKC Institute for Entrepreneurship & Innovation building](#), at 4747 Troost. Students gain "hands-on" practical experience, under the supervision of experienced faculty [who are licensed attorneys](#), by creating clients' business entites (such as limited liability companies and corporations) and drafting documents such as operating and partnership agreements, employment contracts and non-competition contracts. Students may enroll in the clinic in the fall [or](#) spring semesters.

Scholarships

Scholarships are awarded to students based on the following criteria. Selection for most scholarships is based solely on material in the student's admission file. Information on scholarships for which applicants may apply will be included in their admission materials or financial aid packet.

Scholarships Based on Merit

Elizabeth Montague Averill Scholarship

Family, friends and alumni established this fund to enhance diversity among the UMKC School of Law student body by providing a scholarship to an older-than-average student who is returning to school to obtain a law degree. Special consideration is given to single, custodial parents. The scholarship is renewable subject to successful academic performance. Selection is based on applications by incoming students.

Timothy L. Brake Scholarship

Of Counsel with the law firm of Davis, Bethune and Jones, Timothy Brake (Law 1973) is an accomplished plaintiff's attorney. He has established scholarships at his undergraduate institution as well as UMKC School of Law. Mr. Brake believes that giving back to the institutions that provide outstanding education is a responsibility of those who have achieved success. Scholarships are awarded each year to outstanding law students. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Harry L. Browne Memorial Scholarship

Helen L. Browne established this scholarship in memory of her late husband, Harry L. Browne, who devoted his professional career to the practice of labor law and who was recognized nationally as a specialist in that field. The aim of the scholarship is to attract to the UMKC Law School an outstanding entering law student who has demonstrated academic merit and who may be expected to practice employment and labor law with distinction. The scholarship is offered once every three years and is renewed each year if the recipient's academic performance is satisfactory. Selection is based on applications by incoming students.

Judge David T. and Hope Cavanaugh Scholarship

Scholarships are awarded each year to students from a fund established by Hope Cavanaugh, widow of Judge David T. Cavanaugh. Judge Cavanaugh was a 1940 law alumnus and judge in Jackson County, Mo. Selection is based on admission files, as well as applications by current students.

Diversity Scholarships

Several honor scholarships are awarded each year to entering students who demonstrate merit, and who, based on background and experience, contribute to the diversity of the school. Funds are provided by the University and the scholarships are renewed annually if academic performance is satisfactory.

Mark A. Dover Memorial Scholarship

A scholarship for entering students was established by family and friends of Mark Dover, a 1992 graduate of the School of Law, who died after a courageous battle with cancer. Mark entered law school after several years working in the court system and had great intellectual curiosity and a love for the law. The recipient should demonstrate these qualities that distinguished Mark Dover as

a lawyer as well as have financial need. Preference may be given to students pursuing law as a second career.

Professor Robert C. Downs Recruitment Scholarship

Scholarships are awarded to recruit highly qualified incoming law students who have demonstrated excellence in academics in undergraduate and graduate work, excelled on the LSAT, and participated in community improvement activities. Selection is based solely on admission files. Professor Robert C. Downs Scholarship
One scholarship is awarded each year to a second-year student who demonstrates a commitment of service to the School of Law, the local bar and future generations of law students by virtue of being an active member of the School of Law community. Students who have earned at least 40 credit hours and not more than 65 credit hours, and who are in good academic standing at the time of application, may apply. Selection is based on applications by current students.

William P. Eckels Memorial Scholarship

Scholarships are awarded each year to outstanding entering law students from a fund established by Mr. and Mrs. Philip Eckels, John S. Eckels, Katherine Rehkopf and Elizabeth Emerson in memory of their son and brother. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Judge Jack E. Gant Scholarship

The Honorable Jack E. Gant (Law 1954) served on the bench of the Jackson County (MO) Circuit Court for 21 years following a successful 10 year career in the Missouri General Assembly and many years in private practice. In establishing this scholarship, Judge Gant leaves a legacy for recipients to aspire to public service and pursuit of justice in the law. Scholarships are awarded each year to outstanding law students. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Elizabeth Pope George Memorial Scholarship

In memory of Elizabeth Pope George, an alumna of the Class of 1924, a scholarship fund has been provided by her son and daughter. The fund awards one scholarship every three years to an outstanding female first-year student. The scholarship is renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Rollin C. Goodale Scholarship Fund

The Honorable Rollin C. Goodale (Law 1942) Scholarship Fund was established by Mr. Charles S. and Dorothy Goodale through a charitable remainder trust to memorialize Judge Goodale. Scholarships are awarded each year to outstanding law students and may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

The SFP and John Hardy Academic Achievement Scholarship

A scholarship created to honor the co-founder and executive vice president of Specialty Fertilizer Products' (SFP), John Hardy, a 1982 alumnus of the School, on the occasion of the tenth anniversary of the founding of SFP. In light of Mr. Hardy's outstanding career as an attorney, the award will be based primarily on scholastic merit and academic achievement. Recipients must be full-time students at the School. Preference will be given to incoming first-year students having a cumulative undergraduate GPA of at least 3.0, or UMKC law students having a cumulative law school GPA of 2.75 or more. Applicants are required to submit an essay of no more than 500 words explaining the value of education and his/her future contributions to society.

Rubey M. Hulen Memorial Honor Scholarships

Honor scholarships are awarded each year to outstanding entering law students from a fund provided by the will of Anna Hulen, widow of Rubey M. Hulen, a distinguished alumnus of the school. The scholarship is renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

The Randy James Commitment to Justice Scholarship

A scholarship fund established by Randy James, a 1982 graduate of the School of Law, for entering law students with demonstrated commitment to justice and to representing individuals in order to protect their rights, a commitment the donor holds in his career as a lawyer. Applicants must demonstrate superior academic achievement (minimum undergraduate gpa of 3.2) and an on-going commitment to and involvement in advancing justice and protecting individual rights. The scholarship may be renewed if the recipient maintains a 3.0 after the first year and after each subsequent semester and continues to demonstrate a commitment to justice, service and individual rights. Applicants should submit a statement demonstrating how they meet the scholarship criteria.

The Kansas City Lesbian, Gay and Allied Lawyers (KC LEGAL) Scholarship

A scholarship program has been established at the School by The Kansas City Lesbian, Gay and Allied Lawyers (KC LEGAL) to provide financial support to a student at the School who plans to work in pursuit of equal treatment of and justice for the lesbian, gay, bisexual, and transgender ("LGBT") community. Applicants should submit a statement explaining the work he/she plans to do in

that regard.

Dean and Professor Emeritus Patrick D. Kelly Scholarship Award

As Dean of the Law School from 1966-1978, Pat Kelly recognized the importance of scholarships to recruit highly qualified students to UMKC School of Law. Accordingly, he established the scholarship fund during his tenure as Dean. Beginning in 2005, alumni and friends hold an annual poker tournament to benefit the scholarship fund. Scholarships are awarded each year to outstanding entering law students and may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Law Foundation Scholarship

Honor scholarships are awarded each year to outstanding entering law students. The following funds, held by the Law Foundation, support these scholarships: the James A. Bayles Memorial Scholarship Fund, the James P. Kem Memorial Scholarship Fund and the Howard Allen Yost Memorial Fund. Selection is based solely on admission files.

Law Foundation/University Special Admissions Scholarships

Each year, up to four partial or full fee-waiver scholarships, plus cash amounts, are awarded to entering law students who have demonstrated scholastic superiority and who, because of diverse backgrounds and achievements, broaden the educational experience of all students at the school. They are supported in part by the memorial funds listed above that were established from contributions given to the Law Foundation. Recipients receive the scholarships each year if academic performance is satisfactory. Selection is based solely on admission files.

The Jack and Helyn Miller Scholars Program

The Miller Scholars Program was established to recognize students who, through academic achievements and demonstrated leadership, are likely to enhance the UMKC School of Law, the legal profession and the community. Miller Scholar awards are made on a merit basis, without regard to financial need, to first-year law students. Stipends take educational fees, books and living expenses into consideration. Selection is based on an application and interview process.

Filbert Munoz Memorial Scholarship

A memorial fund was established by the family and friends of Filbert Munoz to provide scholarships to students (including entering students) who have a demonstrated record of ability, desire and interest in using their education to help members of the Hispanic community.

The Nailling Society/Richard L. Files Scholarship

Ms. Bobbi Lou Nailling served as Executive Director of the Kansas City Metropolitan Bar Association (KCMBBA) for 24 years. Upon her retirement, the KCMBBA raised money in her honor and established a foundation. Ms. Nailling requested that the fund create a scholarship in her name and that of her late husband, businessman Richard L. Files at UMKC School of Law. The scholarship will be awarded annually to an incoming 1L student who demonstrates interest and intent to practice in the area of public service and/or the administration of justice. The recipient will have an opportunity to be introduced at the annual KCMBBA "Liberty and Justice" Gala. The award is not renewable. Recipients will be selected based on a completed application reviewed by a selection committee.

Nonresident Tuition Scholarships

A limited number of nonresident scholarships are awarded each year to entering first-year law students with outstanding credentials who are not Missouri residents and who have not otherwise qualified for in-state fees. (See Missouri Tax Scholarship.) This scholarship pays the nonresident portion (roughly half) of the student's fees. Students will be awarded this scholarship for their first year of law school and will be expected to qualify for Missouri residency their second and third years, although the scholarship may be extended upon a showing of special circumstances. Selection is based solely on admission files.

Catherine N. & Clinton T. (Duke) Paddock Fund

A fund established to provide scholarships for excellence at the School of Law. Selection is based solely on admission files.

David Wilbur Pansing Memorial Scholarship

An annual scholarship award recognizing a student who plans to use the legal education in government or political service. The scholarship may be, but is not automatically, renewed. The Pansing Scholarship was established in 1995 by Judge Jane Pansing Brown, Class of 1982, in honor of her father, a 1954 graduate of the Law School. Selection is based on applications by current students.

Polsinelli, Shalton, Flanigan, Suelthaus Scholarship

As a demonstration of their commitment to increasing diversity within the legal profession, the law firm of Polsinelli,

Shalton, Flanigan and Suelthaus has committed to fund scholarships at each of the five law schools from which they recruit most heavily, UMKC School of Law being one. Scholarships are awarded each year to outstanding entering law students from under-represented populations. Recipients have a unique opportunity to be involved with partners and associates at Polsinelli through firm events, educational programs and other offerings. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Dean and Professor Emeritus Robert Popper Scholarship

Established in 2005 by friends and family of Dean and Professor Emeritus Robert Popper, this scholarship will be awarded to an entering law student at UMKC School of Law with demonstrated interest in and commitment to civil liberties, a core principle of Dean and Professor Popper as a lawyer and teacher of law. The scholarship honors and recognizes the memory of Dean Popper, who was a proud civil libertarian, specializing in criminal law, criminal procedure and constitutional law, who had a strong love for and commitment to the UMKC School of Law. An application is required and the scholarship may be renewed provided the minimum gpa is maintained and a prescribed core of course work is successfully completed.

Ruth and John Rhiner Scholarship Fund

John Rhiner (Law 1937) was proud of his legal career and thought highly of the Kansas City Law School, the predecessor of UMKC School of Law. In his estate, Mr. Rhiner provided for a scholarship to be awarded to incoming law students at UMKC School of Law. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Omar E. Robinson Memorial Scholarships

Honor scholarships are awarded each year to outstanding entering law students from a fund established by the will of Ida C. Robinson, widow of Omar E. Robinson. The scholarships are renewed each year if academic performance is satisfactory. Selection is based solely on admission files.

Joseph A. Sherman Memorial Scholarship Fund

A 1955 graduate of UMKC School of Law, Mr. Sherman was known as a "gentleman of the bar" among his peers. Upon his death in 1997, family, friends and colleagues established a scholarship fund in Mr. Sherman's memory. Mr. Sherman had been an active volunteer with the UMKC Law Foundation and this scholarship pays tribute to his years as a member of the bar and volunteer at his law school. Scholarships are awarded each year to outstanding law students. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Edgar J. Snow Scholarship Fund

The Edgar J. Snow Scholarships are funded primarily through the generosity of Professor Patrick Randolph, the law firm of Husch Blackwell and alumni recipients of the Edgar J. Snow Scholarships. A scholarship is awarded each year to an outstanding entering international law student from China. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files and by the Dean, School of Law.

Trans World Airlines Inc. Scholarship

A scholarship is awarded each year to a student entering the second or third year of law school and who intends to pursue a career in natural resources or environmental law. Selection of the recipient, who must be a Missouri resident, is made according to procedures established by the deans of the two University of Missouri law schools. Selection is based on applications by current students.

Wal-Mart Foundation Minority Scholarship

The Wal-Mart Foundation provides a full tuition and fees scholarship to an entering full-time law student. Preference is given to minority students coming from a racial or ethnic background which is under-represented in the practice of law. Although some consideration may be given to financial need, a recipient will be chosen based primarily on scholastic merit and evidence of leadership and commitment to service. Awards may be renewed each year subject to academic performance criteria. Selection is based on an application and interview process.

Assistance to Students with Financial Need

There are various government loan programs administered by the UMKC Financial Aid and Scholarships Office. They include the Federal Stafford Subsidized and Unsubsidized Loan Programs, the Perkins Loan Program and the Access Loan Program. The office also administers a limited amount of scholarship funds in which law students may participate.

The following funds administered by the Law School and the Law Foundation provide assistance to students with financial need.

Michael J. Albano Scholarship Fund

The UMKC Alumni Association has provided an endowment honoring Michael J. Albano for need based scholarship awards to Missouri resident students in the School of Law. The recipient must be in the high need category for financial aid.

The James A. Bayless Emergency Loan Fund

A fund established to provide emergency short-term loans for law students.

The Joseph S. Chartrand Memorial Fund

This is a memorial fund established from contributions in memory of Joseph S. Chartrand, an alumnus who taught part-time at the University of Kansas City (UKC was the predecessor to UMKC). The Chartrand fund provides an annual amount to assist students in purchasing law books. Selection is based on applications by both incoming and current students.

The Tiera Farrow Memorial Scholarship

A memorial fund established by Tiera Farrow, a 1903 graduate of the Law School, provides a partial scholarship to a worthy woman law student in need of financial aid. Selection is based on applications by both incoming and current students.

Max Foust Scholarship

Established by colleagues of Max Foust, this scholarship is awarded to a law student with financial need. Preference is given to a student who has experience or skills which can be indicators of success in the area of trial advocacy. Selection is based on applications by both incoming and current students.

Judge Fernando J. Gaitan Scholarship

The Honorable Fernando J. Gaitan is the Chief Judge of the U.S. District Court, Western District of Missouri and a 1974 graduate of UMKC School of Law. The Scholarship was established in 2007 by The Honorable Ann Mesle (Law 1972) to assist the law school in its recruitment of a diverse student body. Judge Mesle chose to honor Judge Gaitan because he "has all of the attributes of leadership, character, integrity and judicial temperament that make him a person worthy of being a role model for aspiring attorneys." The scholarship may be renewed for the recipient's three years of law school, providing academic performance is satisfactory. Selections are based on admission files.

Suzanne Gilmore Memorial Scholarship

Family, friends and classmates established this scholarship in memory of Suzanne Gilmore, an alumna of the class of 1991. The scholarship is awarded to an older-than-average law student who is a single custodial parent pursuing a law degree as a second degree. The scholarship is renewed each year if the recipient remains a single custodial parent and maintains satisfactory academic performance. Selection is based on applications by both incoming and current students.

The Hispanic Bar Association of Greater Kansas City Scholarship Fund

The Hispanic Bar association of Greater Kansas City has established a fund to provide scholarships to UMKC School of Law students of Hispanic descent with financial need.

The Elmer B. Hodges Memorial Scholarship

An endowment fund established in the memory of Elmer B. Hodges provides scholarships for second- and third-year law students in need of financial aid.

Kenner & Kavanaugh Scholarship

The law firm of Kenner & Kavanaugh has provided funding to award a scholarship to one or more worthy law students with financial need. C.R.

Krimminger Scholarships

Established by a gift from C.R. (Law 1934) and Katheryn L. Krimminger, the C.R. Krimminger Scholarships are awarded each year to academically qualified students who demonstrate financial need. Scholarships may be renewed each year if the recipient's academic performance is satisfactory. Selection is based solely on admission files.

Lathrop & Gage Diversity Scholarship

The law firm of Lathrop & Gage has created an endowment for the Law School to fund a scholarship for an outstanding student with financial need whose presence in the school furthers the goal of diversity to which the Law School is committed. Selection is based solely on admission files.

Law Enforcement Scholarship

This annual scholarship will be awarded to one or more students pursuing a law degree at UMKC with financial need who are currently employed with a law enforcement agency or who have just left the agency to pursue a law degree. Preference will be given to students whose experience is with a law enforcement agency in the Kansas City metropolitan area. If no current students meet these requirements, the scholarship may be awarded to other students with financial need.

John Sublett Logan Scholarship

This scholarship was established by the John Sublett Logan Foundation in memory of Mr. Logan. It is designed to assist students in their legal education who, it is believed, will succeed in the legal profession and will give of themselves and their talents to the community in which they live. Selection is based on applications by incoming students. Preference will be given to those applicants who are natives or permanent residents of the St. Joseph, Missouri area.

The Robert B. McCreight Loan Fund

A memorial fund established by bequest from the estate of Gevene S. McCreight in memory of her husband Robert B. McCreight (Class of 1932), who had a long and distinguished career as an officer and director of stockyard companies and as president of the American Stockyards Association.

The Thomas McMorris, Jr. Scholarship Fund

A scholarship fund for the recruitment of under-represented students enrolling full-time at the School has been established to honor the memory and promote the vision of Thomas McMorris, Jr., who was active in the civil rights' movement and served as president of the local chapter of the NAACP. Mr. McMorris believed that for African-Americans to reach their potential and have a voice, they need to be represented where it matters—in the courtroom, boardroom and at every level of government. Applicants must have an undergraduate Bachelor's degree, a grade point average of 3.0 or higher and must demonstrate financial need. Selection is based solely on admission files.

Larence Schrader Scholarship

A fund was established by Diane King to endow a scholarship in her father's memory to assist a worthy student who cares about the law and has a need for financial assistance.

Shook, Hardy & Bacon Diversity in Law Scholarship

Established by the Shook, Hardy & Bacon Foundation beginning Fall 2008, the intent of this scholarship is to provide significant dollars for recruitment of person(s) to UMKC School of Law in order to increase diversity within the legal profession. The commitment is to fund one student through three years of his/her legal education. Selection is based on admissions materials.

Fred L. and Emma E. Wiese Scholarship

Established in 2005 by their daughter, Sarah (Law 2001), this scholarship is given in memory of Mrs. Emma Wiese and in honor of Mr. Fred L. Wiese. Sarah credits her parents with encouraging her to pursue a legal career, especially her mother. The scholarship intent is to provide financial assistance to highly qualified women who wish to attend law school with primary consideration given to rural applicants (Beloit & Russell counties in Kansas), an undergraduate gpa of 3.75 or better, and demonstrated financial need. The award is renewable based on satisfactory grade point average.

Minority Nonresident Scholarships

Chancellor's Nonresident Minority Scholarships

The University awards nonresident fee scholarships to students who are members of historically under-represented minority groups (African-American, Hispanic and Native-American) who are newly admitted to the University. Students must identify themselves as members of these minority groups in the application for admission in order to obtain the scholarships.

Prizes and Awards

Law School and Law Foundation

Academic Enrichment Award

The Law School recognizes graduating students who have served as teaching assistants in the Academic Enrichment Program for their significant contributions to enhance the academic achievement of other students.

The Thomas E. Deacy Trial Lawyer Award

Endowed in the memory of Thomas E. Deacy Sr., an eminent trial lawyer, by his wife and son, Mrs. Thomas E. Deacy and Thomas E. Deacy Jr., the Deacy Award is presented annually to a third-year law student who demonstrates trial skills and attributes possessed by Thomas E. Deacy Sr.

The Jay B. and Frances Dillingham Public Service Award

An annual cash award is given to a student for participation in, or the study of, public service. Preference is given to students with strong ties to Clay or Platte County, Missouri.

Emissary Award

The Law School recognizes the graduating students who have served as its Emissaries for their outstanding service to the school.

The Sanford B. Ladd Award Fund

This fund provides an annual cash prize to the student earning the highest grade in Real Estate Finance.

The Ralph S. Latshaw Award Fund

An annual award of law books is given to a graduating student who has excelled in criminal law.

Law Alumni Association Harry S. Truman Leadership Award

This prestigious award is given annually to a graduating third-year student who exemplifies commitment to the legal profession; service; and leadership standards as set by the Law School's most famous alumnus, Harry S. Truman. A cash award and plaque are presented.

Law Alumni Association Charles E. Whittaker Award

The Law Alumni Association's Whittaker Award recognizes the outstanding third-year student who has advanced the intellectual life of the Law School. Both a cash award and plaque are presented.

Mdivani Immigration Law Scholarship Award

Mira Mdivani (Law 1999), a nationally-recognized attorney in the practice of immigration law, established this scholarship in honor of her father, Archil Mdivani, in 2006. This scholarship is awarded each year to the winner of an essay contest.

The Annette Moore Award

Fund An annual cash prize provided by this fund is given to the student earning the highest grade in Commercial Transactions.

Outstanding Academic Achievement Award

This award provides a certificate to the member of the third-year class who has achieved the highest cumulative grade-point average during three years of study.

Marvin and Patricia Rich Corporate Law Prize

A merit-based annual award which recognizes second-year UMKC law students of superior character, academic achievement and potential, and who plan to pursue a corporate legal specialty after graduation.

The Candler S. Rogers Writing Award

This award was endowed in memory of Candler S. Rogers, a former UMKC law professor, by a close personal friend and colleague. It recognizes Professor Rogers' long tenure as faculty adviser to the Law Review and his distinguished achievement in legal writing. It is given annually to the student who submits the most outstanding work of legal writing to the UMKC Law Review.

The John L. Sheridan Appellate Advocacy Awards

The Sheridan Awards were endowed by Norman O. Sanders in memory of his law partner, John L. Sheridan, a distinguished alumnus of the Law School. They are presented annually to students who have shown outstanding achievement in the Ellison Appellate Moot Court Competition.

Structured Study Group Leader Award

The Law School recognizes the graduating students who have served as teaching assistants in its Structured Study Group Program for their exemplary service in that capacity.

The Trial Practice Achievement Award

Endowed by contributions from classmates in memory of Terry T. Thomas, a Law School graduate, this award provides an annual cash amount and certificate to the student who has made the most significant progress in trial advocacy.

UMB Bank's Excellence in Estate Planning Award

An annual award, consisting of both a cash prize and plaque, is presented to a graduating student who has demonstrated an outstanding aptitude for estate planning and achieved an overall excellent academic record.

The UMKC Law Review Honor Award

Endowed by attorney Wilbur L. Pollard, this award is presented annually to the student who has rendered the greatest service to the UMKC Law Review.

Law Book Publishers

West Publishing Company

Awards are provided annually to recognize outstanding scholastic achievement.

Other

American Bankruptcy Institute Medal for Excellence in Bankruptcy Studies

The American Bankruptcy Institute annually provides a medal to a UMKC graduating law student who has demonstrated excellence in the study of bankruptcy law.

The Kansas City Estate Planning Symposium Prize

The prize competition was established to encourage student participation and excellence in the study of estate planning at the UMKC School of Law. UMKC law students compete for two first place and two second place cash awards which recognize students of superior character, academic achievement, and potential who plan to pursue an estate planning practice.

The National Association of Women Lawyers

A one-year honorary membership in the association and a year's subscription to the NAWL Law Journal is awarded to an outstanding woman law graduate.

The Order of Barristers

Certificates are awarded annually by this national honorary society to 10 graduates who have excelled in moot court, mock trial and other advocacy programs.

Research Assistantships

A number of salaried positions as research or teaching assistants are available each year for second- and third-year students with superior academic records. Research assistant positions provide excellent training in legal research on important and interesting research projects being conducted by members of the law faculty. Students are selected to serve as teaching assistants for the Introduction to Law program, the Structured Study Group program and Academic Enrichment. These students work closely with program faculty to enhance first year student success.

Academic Support and Success

The School of Law is committed to its students' success. Although the study of law is a difficult and challenging endeavor, the school attempts to work with students to maximize their efforts and see them through the process successfully. Several programs contribute to this effort.

The Structured Study Group Program, which is based on the innovative Supplemental Instruction (SI) model developed by the campus Center for Academic Development, offers first-year students the opportunity to participate in guided study groups in one of their first-year courses. The groups are led by an upper-class student who has successfully completed that course. The student leader attends the class with the first-year students and conducts weekly small-group sessions in which the leader models successful learning strategies for that class.

The Academic Enrichment Program is available to all students. It is especially beneficial for those students who feel they need assistance in the transition to law study. The Academic Enrichment Program is not remedial in nature. Rather, it is designed to maximize the potential of students who participate by teaching skills and strategies for success in law school.

Academic Enrichment begins with a brief summer program immediately before orientation. This is a limited enrollment

program to give students a "jump-start" to their legal education. This program is followed up during the academic year with weekly group meetings focusing on learning styles, learning strategies, time management and development of skills necessary for law school success. Students also meet weekly with Academic Enrichment teaching assistants. The year-long program is open to all students.

Many of the materials used in Academic Enrichment are available to students through the program's Web site at <http://www.umkc.edu/law/enrichment>. Periodic lectures covering the topics addressed in Academic Enrichment are provided for all students through the Academic Enrichment Lecture Series.

Juris Doctor Degree Program

Program Description

The school's juris doctor degree program is designed to prepare students for the general practice of law and for policy-forming functions in government, business and other organizations in society. Courses provide students with a basic knowledge of the principles and processes of the Anglo-American system of law and of the integration of law into other disciplines and institutions.

The curriculum and program recognize that in order to be of the utmost service to clients, the lawyer must "see life whole" and appreciate the relationships among legal, social and political aspects of human endeavor. They also recognize that the best interests of society require a lawyer to be a thinker and scholar as well as a skilled technician.

Both the curriculum and methods of instruction are designed to meet these objectives. Although the casebook method is the predominant form of classroom instruction in larger classes, the faculty also employ other approaches. Classes such as lawyering skills, negotiating mergers and acquisitions, mediation, and law practice management combine theory with opportunities to learn about lawyering first-hand. Many of the classes use documents and "real life" problems to demonstrate concepts studied in class. The curriculum also includes opportunities for research and writing, seminar discussions, clinical instruction and skills training.

Areas of Study

Law students do not have a formal major, but have options for obtaining sequenced and advanced training in areas of interest to them, including:

- Advocacy and Litigation
- Business and Tax Law
- Commercial Law
- Estate Planning and Administration
- Criminal Law and Procedure
- Domestic Relations
- Labor and Employment
- International Law
- Property and Real Estate
- Civil Liberties and Civil Rights
- Environmental Law

In addition, through participation in the Inns of UMKC program (<http://www1.law.umkc.edu/career/UMKC%20Inns/inns.htm>), externships, competitions, journals and student organizations, students are able to develop skills and contacts in specialized areas of the law.

Students may also elect to participate in one of the Law School's newly adopted formal areas of emphasis within the Juris Doctor degree program:

- Business & Entrepreneurial Law
- Child & Family Law
- International, Comparative & Foreign Law
- Litigation
- Urban, Land Use and Environmental Law

Students interested in particular practice areas are guided by faculty members and practitioners in developing their programs. The school, in conjunction with the Student Bar Association and the Kansas City Metropolitan Bar Association, sponsors a course scheduling and registration convocation and advisement program each semester at which representatives of the various practice areas give advice and guidance to students. In addition, an Elective Course Information Handbook is prepared each semester prior to course pre-registration that provides additional details regarding course sequencing, prerequisites and relevance of courses to practice and the bar exam.

Business & Entrepreneurial Law Emphasis Area

Important Note:

Because the School is committed to keeping up with changes in the practice of law, the requirements for emphasis areas may change during the course of a student's enrollment at the School. The requirements at the time a student is granted admission into the emphasis area are the requirements that govern completion of the student's emphasis requirements. For possible revised requirements that will take effect with the next academic year, see <http://www1.law.umkc.edu/Academic/Emphasis/BusinessEntrepEmphasis.pdf>

The Emphasis in Business and Entrepreneurial Law

The Emphasis in Business and Entrepreneurial Law program is designed to provide within the J.D. degree a well-rounded course of study for students interested in an emphasis in business law and transactional practice. Reflecting the multidisciplinary nature of conducting business in compliance with a variety of modern laws and regulations, the required courses and electives for this program have been selected to expose students to a wide range of substantive law education and skills training opportunities. Thus, in addition to required and elective courses in pertinent areas of law, the curriculum requirements include a course with a practical skills component, as well as training in ethics and a research and writing project targeted at business and entrepreneurial law topics. Students who qualify for and successfully complete the credential requirements in the Business and Entrepreneurial Law program should thereby be in an excellent position to pursue and succeed in careers as advisors to entrepreneurs and to for-profit or not-for-profit businesses, whether in private practice or in company legal departments. This program would also be suitable for students destined for public sector careers, particularly in areas involving the regulation of businesses and business transactions.

Child and Family Law Emphasis Area

Important Note:

Because the School is committed to keeping up with changes in the practice of law, the requirements for emphasis areas may change during the course of a student's enrollment at the School. The requirements at the time a student is granted admission into the emphasis area are the requirements that govern completion of the student's emphasis requirements. For possible revised requirements that will take effect with the next academic year, see <http://www1.law.umkc.edu/Academic/Emphasis/famlaw.pdf>.

UMKC School of Law Emphasis in Child and Family Law

The UMKC School of Law Emphasis in Child and Family Law prepares students to serve these pressing and unique legal needs. The program prepares students to serve the whole family -- from infants to elders -- and maintains a unique collaborative and interdisciplinary framework. The emphasis program requires that students master the basic doctrine and legal theories involved when the legal system interacts with families. In addition, however, students undertake study exposing them to the perspectives of other disciplines such as psychology and social work. Students study the unique ethical dilemmas of this area of law in specialized workshops and gain hands-on experience in representing children and families in the program's clinical components. Finally, all students in the emphasis complete an in-depth capstone research and writing project.

Students who qualify for and successfully complete the credential requirements in the Child and Family Law program should be in an excellent position to pursue and succeed in careers serving children, families, and elders, whether in private or government practice or in other leadership roles.

Litigation Emphasis Area

Important Note: Because the School is committed to keeping up with changes in the practice of law, the requirements for emphasis areas may change during the course of a student's enrollment at the School. The requirements at the time a student is granted admission into the emphasis area are the requirements that govern completion of the student's emphasis requirements. For possible revised requirements that will take effect with the next academic year, see <http://www1.law.umkc.edu/Academic/Emphasis/LitigationEmphasis.pdf>.

Emphasis in Litigation

UMKC's long tradition of educating distinguished litigators is an important reason that many students choose UMKC for their legal education. To enhance that tradition, the law school has established within the J.D. degree an Emphasis in Litigation, a program designed to help outstanding students focus on those courses that will give them the skills and knowledge necessary to excel in the ever-changing world of twenty-first century litigation. In addition to taking a rigorous yet varied menu of required and elective courses, each student pursuing the Emphasis in Litigation works closely with an assigned faculty adviser and is provided with additional training in legal writing, litigation ethics, and legal research.

Urban, Land Use and Environmental Law Emphasis Area

Important Note:

Because the School is committed to keeping up with changes in the practice of law, the requirements for emphasis areas may change during the course of a student's enrollment at the School. The requirements at the time a student is granted admission into the emphasis area are the requirements that govern completion of the student's emphasis requirements. For possible revised requirements that will take effect with the next academic year, see <http://www1.law.umkc.edu/Academic/Emphasis/UrbanEmphasis.pdf>.

Emphasis in Urban and Land Use Law, Environmental Law

UMKC students can engage in a course of study within the J.D. degree with an emphasis in Urban and Land Use Law, Environmental Law or both. This program builds on a tradition of excellence in urban and land use law at the law school and on the UMKC law faculty and students' 35-year editorship of *The Urban Lawyer*, the national quarterly law journal of the American Bar Association Section of State and Local Government Law. Students in this specialized course of study will be able to choose from a variety of courses, seminars, internships, and externships in the law school and in other units and departments of the university including public administration, urban planning and architecture, geosciences, political science and economics. Students who choose to pursue this program will be prepared to enter the job market with specialized knowledge of the issues and law relevant to land use; real estate development; state, regional and local government and the environment.

Admission to the Juris Doctor Program

Eligibility

To be eligible to apply for admission to the School of Law's Juris Doctor degree program, a person must have either:

- A bachelor's degree based on a program of courses with substantial intellectual content (such as history, English, accounting, philosophy, calculus or chemistry) from an approved institution; or
- Completed at least 90 acceptable hours of credit in courses with substantial intellectual content in an approved institution, completed all non-elective coursework toward a bachelor's degree and made arrangements with the school that will award the degree to accept law school credits for the remainder of the work required to earn that degree, so that the student will earn the degree prior to the granting of the J.D. degree.

Criteria for Admission

The School of Law restricts the number of students admitted each year in order to maintain a favorable faculty-student ratio and to provide the best possible legal education for each student enrolled. Because many more people apply to the Law School than there are seats available, admission is competitive.

Students are drawn to the School of Law because of its intellectually stimulating academic environment, vibrant and diverse campus life and interaction with and in the surrounding community. In addition to being highly skilled and ethical attorneys, graduates are expected to leave UMKC able and committed to making a difference in their families, workplaces, communities, organizations and society at large. While substantial weight is given to each applicant's LSAT score and undergraduate GPA, the law school and its faculty also consider other factors in shaping an entering class. These factors, consistent with the University's values of diversity, inclusiveness and respect, include:

- Advanced or specialized educational achievement demonstrating potential for academic excellence in the study of law.
- Contributions to the cultural diversity of the School of Law.
- A history of overcoming challenges and barriers based on societal discrimination or economic disadvantage.
- Demonstrated leadership qualities.
- A significant and sustained commitment to public or community service.
- Other accomplishments or qualities that indicate the applicant will contribute to the School of Law's academic and service missions.

Admissions Process

applicants are required to submit a completed, signed application form, the application fee, a personal statement and a resume. All undergraduate transcripts and two letters of recommendation must be sent to the Law School Data Assembly Service (LSDAS). Instructions for this service may be found in the LSDAS booklet. Once all materials have been submitted, a file is considered complete and ready for an admission decision to be made.

The law school makes admission decisions on a rolling admissions basis. That is, decisions are made as files are completed. This process begins in October of the year preceding the academic year applicants are applying for and continues until sufficient admissions are granted to fill the entering class. Accordingly, applications should be submitted as early as possible.

A nonrefundable application processing fee of \$50, in the form of a check or money order payable to the University of Missouri-Kansas City, must accompany the application. In addition, a seat reservation fee must be paid by April 1 or a designated period after admission, whichever is later. The fee is nonrefundable but will be credited toward first-semester fees. An additional \$100 nonrefundable seat reservation fee is due June 15, this fee will also be credited toward first-semester fees.

LSAT/LSDAS

In order to gain admission, an applicant must take the LSAT. The test may be taken at various locations, including UMKC. It normally should be taken no later than February for purposes of admission for the following fall. Information concerning the test is available online at <http://www.lsac.org/> or by writing to the

Law School Admissions Council (LSAC)
Box 2000
Newtown, PA 18940-0998

Applicants also must arrange for evaluation of their college and university transcripts by the LSDAS. Further information and a registration form for this purpose may be obtained at the Web site and mailing address above.

Once the student applies, the school will request a copy of the law school report from LSDAS. Please make sure the report is paid for so there is no delay in transmission.

Prerequisites

No undergraduate courses are specifically required for admission to the Law School. The best preparation is a broad liberal-arts education designed to provide an understanding of the institutions and values with which the law deals and the development of those skills and habits of thought essential to legal reasoning.

Any course of study leading to an undergraduate degree will be sufficient for admission, as long as the emphasis was an intellectually demanding one that challenged the student to employ critical-thinking skills and communicate effectively. Particularly helpful to law school study, however, are courses in history, as rules of law are best understood in terms of the historical milieu in which they were pronounced or enacted. Courses in political science and economics are beneficial, because lawyers must understand the institutions of government and the economic system with which they will be dealing. Courses in speech, logic, debate and the various language arts also are useful, because they expand and sharpen reasoning and communication skills. Courses with a strong emphasis on writing are particularly encouraged in light of the crucial role effective writing plays both in law school and law practice.

Matriculation Options: Full-Time and Part-Time Progress

Most students matriculate on a full-time basis. Some students, however, may do so on a part-time basis.

The ability to proceed part-time in the day program is designed for students who are unable to enroll on a full-time basis, e.g. disabled students, or those with family or career responsibilities. These students must enroll in 8 to 9 hours of classes each semester in the first year, and 8 to 12 hours per semester thereafter. In all other respects, students enrolled part-time are required to satisfy all graduation requirements applicable to full-time students, including the requirement that they complete all degree requirements within five years. Part-time day students develop programs with the associate dean that are designed to parallel, as much as possible, the sequence of courses for full-time students. Part-time student eligibility for *Law Review*, *Urban Lawyer*, honors and other activities will parallel, as much as possible, eligibility of full-time students.

A full-time student may not become a part-time student without permission of the associate dean. Part-time students may not become full-time students until they have completed all first-year courses, unless they obtain permission to proceed full-time from the associate dean. Once part-time students have completed all required first-year courses, they may enroll full-time or part-time for remaining coursework at their option. Students are cautioned, however, that enrollment in 13 or more hours triggers the rule limiting outside work to no more than 20 hours per week.

Admission with Advanced Standing

Except for transfer applicants enrolled at the University of Missouri-Columbia (to whom transfer is granted more liberally), an applicant for admission with advanced standing must meet the requirements applicable to entering students; be eligible to return as a student in good standing to their current law school; and present a letter from the Dean of their law school showing such eligibility. In order to be considered for admission, a transfer applicant who would not have been admissible (based on LSAT score, undergraduate GPA, etc.) had such applicant applied for initial admission at UMKC, must have at least a B average after at least one full year of law study in an approved law school. Otherwise, a transfer applicant must have at least a C+ average in all law work in order to receive consideration. Admission decisions on transfer applications typically are not made before mid-July, once the number of available seats in the second-year class have been determined.

A maximum of 30 semester hours credit may be allowed for work successfully completed at another law school, with the right being reserved to refuse to transfer credit, in whole or in part, for any such coursework.

Except in the case of students transferring from the University of Missouri-Columbia, hours for a course in which less than a C was earned will not transfer, but retaking the course may be waived on an individual basis. Grades earned at another law school are not transferred, nor do such grades count for class ranking purposes. Transfer students must earn at least a C+ average in courses taken at the UMKC School of Law in order to graduate.

Admission Without Undergraduate Degree

Students who have completed at least 90 acceptable hours of credit in courses with substantial intellectual content in an approved institution, and have completed all non-elective coursework toward a bachelor's degree, may be admitted on the condition that the undergraduate degree be earned prior to or simultaneously with the granting of the J.D. degree. Usually this condition can only be met if the institution which will grant the undergraduate degree will accept credits earned in the UMKC Law School.

Since the UMKC Law School does not confer the undergraduate degree and assumes no responsibility in regard to it, it is the duty of the student to make certain that the requirements for the degree are satisfied. Questions concerning requirements for the undergraduate degree or of the transferability of law credits to complete the degree should be directed to the institution granting the undergraduate degree.

A letter from the institution confirming that it will accept credits earned in the UMKC Law School to complete the undergraduate degree must be submitted as part of the application for admission.

J.D. Degree Requirements

Student Learning Outcomes

Graduates will be prepared for admission to the Bar and effective and responsible participation in the legal profession and in their communities.

Graduates will demonstrate effective problem-solving skills by:

- Critically examining complex facts.
- Identifying client needs and determining legal issues.
- Efficiently finding relevant law, policy and factual information.
- Applying appropriate legal rules and standards to the problem.
- Generating alternative solutions and developing plans for implementation.
- Continually reviewing and reassessing a plan of action.

Graduates will demonstrate effective communication skills by:

- Communicating appropriately and effectively with relevant audiences.
- Relating effectively to professionals from other disciplines.
- Writing and speaking clearly.
- Demonstrating cultural sensitivity.

Graduates will demonstrate entry-level competence in legal skills by:

- Identifying appropriate forums and means for resolution of legal problems.
- Being able to determine legal issues for analysis and research.
- Possessing elementary skills in interviewing, counseling and negotiation.
- Drafting documents to implement basic legal transactions.
- Dealing sensitively with people in conflict.

Graduates will demonstrate knowledge of the practice of law by:

- Being aware of career and job options in law practice.
- Having systemic knowledge of legal bibliography and resources.
- Possessing basic skills to enter practice as an associate.
- Having knowledge of basic techniques of law practice operation and management.

Graduates will demonstrate commitment to justice, competence and service to the profession and the community by being:

- Aware of the history and values of the legal profession.
- Committed to ethical practice.
- Aware of the rules governing the profession.

- Able to critically assess laws and rules and propose alternatives.
- Committed to lifelong learning and self-development.
- Appreciative of the value of ideological and cultural diversity.

First Year Required Courses

All students must complete the following required courses during the first year:

Full-Time Progress

Fall Semester (15 credit hours)

LAW 8501 Contracts I	(3)
LAW 8634 Criminal Law	(3)
LAW 8531 Introduction to Law and Lawyering Processes I*	(3)
LAW 8451 Property I	(3)
LAW 8511 Torts	(3)

Spring Semester (14-15 credit hours)

LAW 8521 Civil Procedure I	(3)
LAW 8631 Constitutional Law I	(3)
LAW 8502 Contracts II	(3)
LAW 8532 Introduction to Law and Lawyering Processes II*	(2-3)
LAW 8542 Property II	(3)

Part-time Progress

Students enrolled on a part-time basis must take three of the required courses, including Introduction to Law and Lawyering Processes, in their first year. The remaining courses must be completed in their second year of study.

* Introduction to Law and Lawyering Processes I and II: These two first-year courses introduce students to legal reasoning; analytical and critical thinking; case research and analysis; legal writing, including office memoranda, briefs and letters to and on behalf of clients; advocacy; and all forms of legal research. They offer education in many of the fundamental skills and processes of legal practice through a combination of lecture classes and small group sessions. They are required of all first-year law students in order to supply a strong foundation of thinking, research and writing skills upon which all later, advanced courses will depend. In the second semester, some students will be assigned to, and others will have the option to elect, analytical sections of Introduction to Law (Intro Plus) to obtain more intensive instruction and practice in legal analysis and problem-solving.

Other Required Courses

Students must complete the following courses as a condition of graduation:

Required to be Taken During the Summer Preceding or Fall of Second Year:

LAW 8601 Business Organizations	(4)
LAW 8552 Federal Taxation	(3)
LAW 8522 Civil Procedure II	(2)

Required to be Taken During the Summer Preceding or Spring of Second Year:

Evidence	(3)
----------	-----

Required to be Taken During the Second or Third Year:

LAW 8635 Criminal Procedure I	(3)
LAW 8721 Commercial Transactions, LAW ???? Sales and Leasing or LAW 8720 Secured Transactions	(3)

LAW 8731 Professional Responsibility	(2)
A course that fulfills the school's jurisprudential requirement	(2-3)

Required to be Taken at any Time Prior to Graduation and

May be Taken During the Second Semester of the First Year:

A course that fulfills the school's
advanced torts requirement

(3)

Graduate Requirements

The requirements for the J.D. degree:

1. Completion of 91 credit hours, 80 of which must be classroom credits.
2. A cumulative GPA of at least 2.0 (see Administrative Rules and Regulations, Scholastic Probation and Dismissal, in this section).
3. Six semesters in residence carrying not less than 10 classroom credit hours each semester. Although three years of law study are usually required, students may graduate in two and one-half years. To do so requires attending at least two summer sessions. Each summer session may be considered one-half a semester for residency purposes, provided at least 10 classroom hours are completed in the two summer sessions.
4. Completion of all required courses (see Required Courses in this section).
5. Fulfilling the school's research and writing requirement. This requires students to have a rigorous writing experience evidencing legal analysis resulting in a paper of professional quality.
6. Regular and punctual class attendance.
7. Successful completion of all coursework within five years from the day students began their course of studies leading toward the degree. A student will not be allowed to enroll in any course after the five-year period.

Litigation Emphasis Area Requirements

Admission Requirements

Selection of Students for Admission to the **Emphasis in Litigation**

- Deadline for admission to the Emphasis in Litigation program: Students should apply not later than their fifth semester of law school. An application form will be available and must be submitted by the deadline for applications set by the litigation concentration advisors committee and circulated to the student body. Decisions as to whether a student will be admitted to the Emphasis in Litigation will be made in the semester in which the student applies.
- Procedure and Criteria for Selection:
 - The maximum number of students who will be permitted to enter the litigation program each year will be set by the litigation advisory committee taking into account the ability of the advisors to provide adequate supervision and advising. Each litigation adviser may set a maximum number of students that he or she will advise.
 - The litigation advisory committee will select the students to be admitted to the program. Criteria to be considered may include previous general academic performance in law school, previous academic performance in courses seen as particularly relevant to litigation, level of interest in litigation, and ability to identify an adviser willing to advise and supervise the student.
 - No student shall be admitted to the Litigation program unless he or she has a grade-point average of 2.7 or above in all law school classes previously taken.
- Part-time Students and Other Students with Unusual Schedules: The litigation advisory committee is authorized to make appropriate adjustments in the deadlines for part-time students or other students whose schedules do not substantially conform to the six semester paradigm.

General Requirements

Minimum Total Hours Required

1. A student must take a total of at least 26 hours in approved courses. Approved courses are those listed as "Required Courses," "Grouped Required Courses" and "Elective Courses".
2. No more than three hours of required upper-level courses, (including those used by the student to satisfy the UCC or Jurisprudence requirement) may count toward the required 26 hours.
3. A course (including Law 746) used to satisfy the student's writing requirement (see below) may be counted toward the total hours requirement even if it is also used to satisfy the student's Research and Writing Requirement.

Writing Requirement

1. Each student in the program must complete a written project, approved by an emphasis area supervisor, on a topic dealing directly with litigation.
2. The written project must be of a scope and quality that would satisfy the law school's research and writing requirement for a J.D. degree.
3. The written project may satisfy both the program's requirement and the J.D. requirement.

Practical Skills Component

All students in the program must take at least two of the following courses:

- Advanced Legal Writing: Litigation Drafting
- Appellate Advocacy II
- Appellate Advocacy III
- Appellate Advocacy IV
- Trial Advocacy I
- Trial Advocacy II
- Trial Advocacy III

Ethics Component

1. Each student in the program must participate in at least one, half-day, non-credit workshop on ethical issues for litigators.
2. Workshops will be organized by the program advisers and conducted by faculty, practicing lawyers, or judges.

Research Component

1. Each student in the program must participate in at least one, half-day, non-credit workshop on research materials and sources frequently consulted by litigators on issues directly related to the litigation process.
2. Workshops will be organized by the program advisers and the librarians. They will be conducted by faculty, librarians, practicing lawyers or judges.

Supervising and Advising Component

1. Each student in the program will be assigned an emphasis area adviser.
2. Each student in the program must meet with his or her adviser not less than twice a semester.

Curriculum Requirements

Distribution of Courses

A. Required Courses: All students in the program must take each of the following courses:

- Civil Procedure I
- Civil Procedure II
- Criminal Procedure I
- Evidence

B. Grouped Required Courses: All students in the program must also satisfy the Core Course Requirement, the Advanced Course Requirement, and the Skills Requirement set forth below:

1. Core Course Requirement: All students in the program must take at least two of the following core courses:
 - Conflict of Laws
 - Federal Jurisdiction
 - Remedies
 - Criminal Procedure II
2. Advanced Course Requirement: All students in the program must take at least one of the following advanced courses:
 - Alternative Dispute Resolution
 - Civil Procedure III-Post Trial Issues
 - Civil Rights Litigation
 - Complex Litigation
 - Criminal Trial Techniques
 - Mediation
 - Professional Malpractice Litigation
3. Skills Requirement: All students in the program must take at least two of the following courses:
 - Advanced Legal Writing: Litigation Drafting
 - Appellate Advocacy II
 - Appellate Advocacy III
 - Appellate Advocacy IV
 - Trial Advocacy I
 - Trial Advocacy II
 - Trial Advocacy III

C. Electives: The following electives may also help satisfy the minimum total hours requirement:

1. Clinics and Externships
 - Bankruptcy Court Clerkship
 - Child and Family Services Clinic
 - Court Clerkship
 - Death Penalty Clinic
 - Department of Labor Clinic
 - Family Law Clerkship
 - Federal Public Defender Externship Clinic
 - Legal Aid Clinic
 - National Labor Relations Board Clinic
 - Public Defender Trials Clinic
 - United States Attorney's Office Law Clinic
 - Wrongful Convictions II
2. Other Coursework
 - Administrative Law
 - Advanced Lawyering Processes (second semester only)
 - Criminal Trial Techniques
 - Criminal Sentencing Law Practice & Procedure
 - Employment Discrimination
 - Family Law Practice
 - Famous Trials
 - Independent Study (if approved by student's emphasis area adviser on the basis that the course of study relates directly to litigation)
 - The Jury: Practice and Perspectives
 - Law Review (if approved by student's emphasis area adviser on the basis that the student's note or comment

- relates directly to litigation)
- o Legal Research (if approved by student's emphasis area adviser on the basis that the student's writing relates directly to litigation)
- o Missouri Civil Procedure
- o Seminar in the Ethics of Criminal Advocacy
- o Wrongful Convictions I
- o Wrongful Convictions II
- o Any other course if, before beginning the course, the student obtains written approval from both the emphasis area litigation adviser committee and the student's emphasis area adviser. Such approval shall not be granted unless the committee and the adviser find that, in light of the student's other courses and the student's litigation-related goals, the course will advance the student's study of litigation to an extent equivalent to other litigation electives.

D. Courses may be added or deleted from the lists contained in sections A through C above with approval of the litigation emphasis area adviser committee and the faculty.

Graduation Requirements

For a student to be recognized as having graduated with an Emphasis in Litigation, the student must have fulfilled the following requirements:

- The student must have satisfied all general and curriculum requirements set forth above.
- The student must have achieved a grade-point average of at least 3.0 in the field. This grade-point average shall be computed considering all Required Courses, Grouped Required Courses, and Elective Courses in the emphasis taken by the student, including any that exceed the minimum hour requirements for the Emphasis in Litigation.

Urban, Land Use and Environmental Law Emphasis Area Requirements

Admission Requirements

Students in their second or third year may elect to specialize in the "Urban, Land Use and Environmental Law" curricular emphasis program. To do so, a student must apply no later than the end of the second year. Advice about compliance with the requirements is available from the Emphasis Faculty Advisors.

General Requirements

Minimum Total Hours Required

Students must complete seven of the listed courses: students must complete all courses in Group A, three courses from Group B and one course from Group C. All courses must be taken for a grade (with the exception of those courses for which a grade option is not available). Course work satisfying this requirement must total at least 15 hours.

Writing Requirement

Students must complete an academic research paper of high professional quality concerning a topic within the field of the emphasis area. They may fulfill this requirement in conjunction with any of the listed courses, or as part of the Research and Writing requirement, as part of an Independent Study option, through one of the Law School's journal offerings, or through a research project pursued at the Center for the City at UMKC. Unless written to meet the R&W requirement, the paper must be written for a grade. Advance approval of the topic and faculty adviser is required by one of the land-use and environment faculty.

Practical Skills Component

Students must participate for at least one semester in a practical skills component. The following opportunities satisfy this requirement: the EPA Law Clinic, Region VII; the EPA Law Clinic, Agricultural Center; or a service placement with the Center for the City at UMKC. Participation in the EPA Law Clinics can simultaneously be used to satisfy the minimum

hours requirement.

Ethics Component

Ethical considerations will be incorporated into the listed emphasis area courses.

Research Component

All students in the program must complete an advanced research offering which will provide advanced skills in research in the urban, land use and environmental law field. This may entail a separate course of study, a component of an existing course, or separate lecture, seminar or workshop offerings as designated by the Program Faculty Advisors.

Curriculum Requirements

Group A: Core Courses (must take all)

- Administrative Law
- Environmental Law
- Land Use Planning

Group B: Specialized Courses (must take three)

- Air & Water Regulation
- Cities and the Environment "J"
- Current Issues in Property Law Seminar
- Environmental Law Seminar
- International Environmental Law
- Law and the American Indian
- Natural Resources Law
- Preservation Law
- Seminar in Urbanization
- State & Local Government Law
- Toxic Torts
- Urban Lawyer Board
- U.S. Environmental Protection Agency Law Clinic: Region VII Headquarters
- U.S. Environmental Protection Agency Law Clinic: National Agricultural Compliance Assistance Center
- Water Law

Group C: Related Law Courses and Interdisciplinary Courses (must take one)

- Alternative Dispute Resolution (2)
- Complex Litigation (3)
- Economics and the Law (2) "J"
- Federal Jurisdiction (3)
- Legislation (3)
- Real Estate Finance (3-4)
- Real Estate Transactions (2)
- State and Local Government Tax (2-3)
- Biogeography and Landscape Ecology (3) (Department of Geosciences)
- Managing Urban Economic Development (3) (Bloch School)
- Urban and Regional Planning for Urban Administrators (3) (Bloch School)
- Urban Planning Theory and Practice (3) (Department of Architecture)
- Urban Planning and Design (This course would have additional assignments for law students)

Graduation Requirements

To be recognized as having graduated with an emphasis in Urban, Land Use and Environmental Law, students must complete all requirements with an average grade of B or better (and no grade below a C). Students who have met the program requirements by the time of graduation will have this distinction noted at that time.

J.D./MBA and J.D./M.P.A. Combined-degree Programs

The School of Law has established combined-degree programs with the Henry W. Bloch School of Business and Public Administration. The program allows students to earn a juris doctor degree and a master of business administration or a master of public administration degree on an accelerated basis through cross-acceptance of some credit hours.

Applicants to the program must satisfy the admission requirements of each school and, if admitted into the program, may enroll in the first year of law school either before or after beginning M.B.A. or M.P.A. courses. Further information on admission and dual-degree requirements is contained on the School's Web site at <http://www1.law.umkc.edu/Academic/index.htm>.

Combined J.D./LL.M. Degree Programs

Qualified J.D. students will be permitted to apply up to 10 credit hours (12 with the permission of the Graduate Studies Committee) of UMKC graduate courses approved for this purpose toward an LL.M. (Taxation) or LL.M. (General) with Estate Planning Emphasis degree as well as toward a J.D. degree. This will allow students to earn such LL.M. on an accelerated basis, generally requiring only one additional semester (or two summer sessions) beyond that required for the J.D. degree.

The program is available to qualified students who begin their legal studies at the UMKC School of Law, who transfer to the school or who attend as visiting/certification students during their fifth or sixth semester of law study. For further information on admissions and combined degree requirements, contact the School of Law's Admissions Office or the programs by e-mail at UMKC-LLMTax@umkc.edu.

Business & Entrepreneurial Emphasis Area Requirements

Admission Requirements

To be admitted to the Emphasis in Business & Entrepreneurial Law program, an applicant must have a cumulative law school grade point average of at least 2.5, and must have a grade point average of at least 2.8 in all program courses or prerequisites which the student has taken prior to application for admission to the program. For this purpose, prerequisite business courses will also be counted, including Business Organizations and Federal Income Taxation.

The deadline for application to the program shall be no later than the beginning of the second week of classes of the student's sixth semester of law school. Any student who applies after the beginning of his or her fourth semester must demonstrate that the program can be completed by the end of the sixth semester of law school. Appropriate adjustments will be made to deal with part-time students not on the regular semester schedule. Exceptions to the deadlines may be made with approval of the Emphasis Faculty Advisors, by majority vote.

General Requirements

Minimum Total Hours Required

The program will require a minimum of 15 hours of approved courses. Group A contains the courses that are "Required." Group B is a list of courses that students may choose among, designated as the "Grouped Required" courses. Students must take at least three of the courses from the Group B list.

Any course in Group A or B may be counted toward the required total hours even if it is also used to satisfy the student's Research and Writing Requirement.

Writing Requirement

Students must complete an academic research paper of high professional quality, sufficient to meet the Research and Writing Requirement standards of publishable quality, concerning a business or entrepreneurial law topic. The research paper must be certified as acceptable by one of the Emphasis Area Faculty Advisors. Students may fulfill this requirement in conjunction with any of the Group A or B courses, or independently as part of the general Research and Writing Requirement, as part of an Independent Study option, through one of the Law Schools' journal offerings, or through a research project pursued at the Center for the City at UMKC. There is no separate requirement that the research paper be graded.

Practical Skills Component

Students must complete at least one course containing a substantial practical skills component. The following courses satisfy this requirement:

- LAW 8757 Business Planning
- LAW 8837 Negotiating Mergers & Acquisitions
- LAW 8875 Real Estate Transactions Planning Workshop
- LAW 8757R Entrepreneurial Law Clinic
- Advanced Legal Drafting (Business)

The requirement may be met by other internships, externships, simulation courses, drafting courses, or other courses designed to provide exposure to the type of work commonly performed by lawyers in the business and entrepreneurial law field, as the Emphasis Area Faculty Advisors may find acceptable. It is intended that courses fulfilling this requirement will include at least one business drafting exercise.

Ethics Component

Each academic year, the Emphasis Area Faculty Advisors will provide four contact hours of lectures, seminars or workshops dealing with ethical issues that frequently arise in the business and entrepreneurial law field. Each student must complete this ethics requirement.

Research Component

All Emphasis Area Students must complete an advanced research offering which will provide advanced skills in research in the business and entrepreneurial law field. This may entail a separate one hour course of study, a one hour component of an existing course, or separate lecture, seminar or workshop offerings as designated by the Concentration Faculty Advisors.

Curriculum Requirements

Prerequisites or Co-requisites

- Business Organizations
- Federal Taxation

Required Courses(Group A)

- Securities Regulation
- Legal Accounting (or other approved accounting education)
- Either Taxation of Business Organizations or Corporate Tax I and Partnership Tax
- Either Secured Transactions or Real Estate Finance

Grouped Required courses (Group B) (Must take three courses)

- Business Planning
- Real Estate Finance
- Real Estate Transactions (May not count both Real Estate Finance and Real Estate Transactions.)
- Negotiating Mergers and Acquisitions
- Secured Transactions (If not taken to satisfy the UCC requirement or as a Group A course)
- Commercial Transactions (If not taken to satisfy the UCC requirement)
- Sales and Leasing (If not taken to satisfy the UCC requirement)
- Debtor/Creditor
- Problems in Bankruptcy (May not count both Debtor/Creditor and Bankruptcy.)
- Entrepreneurial Law/Practice Clinic
- Alternative Dispute Resolution
- International Business Transactions
- Labor Law
- Employment Discrimination Law
- Employment Law (No more than one course of the group including Labor Law, Employment Discrimination Law and Employment Law may be counted.)
- Administrative Law
- Intellectual Property Copyright Law (May not count both Intellectual Property and Copyright Law.)
- Antitrust and Competition Law
- Tax-Exempt Organizations

The above requirements are in addition to any hours received in connection with the Writing Component (unless done in connection with a listed course), any hours received for the Advanced Research Component, or for the Ethics Component. In addition, a course shall not be required for any student who has not had a reasonable opportunity to take the course due to limited enrollment, or due to the fact that the School has not offered the course at least once after the student has been admitted to the program.

Graduation Requirements

For a student to be recognized as having graduated with an emphasis in Business & Entrepreneurial law, the student must have achieved a grade-point average of at least 3.0 in the minimum number of emphasis course requirements listed as Required or Grouped Required; provided that a student may, at the student's option, omit a grade received in either Corporate Tax I/Sub S Tax (combined) or Partnership Tax, while still counting the course to reach the required number of academic credit hours for the emphasis; and that a student may also omit any grade received in any Grouped Required (Group B) course, so long as the student has grades from at least three (3) Group B courses to be counted in the grade point average necessary for the emphasis.

Child & Family Law Emphasis Area Requirements

Admission Requirements

Students may apply after completing their second semester (or 29 credit hours). Students who are close to completing the hourly requirements may petition for early admission for good cause shown.

An application form will be available and must be submitted by the deadline announced by the Child and Family Law Faculty. Decisions as to whether a student will be admitted to the Emphasis in Child and Family Law will be made in the semester in which the student applies.

Procedure and Criteria for Selection:

The Child and Family Law Faculty will select the students to be admitted to the program. Criteria to be considered may include previous general academic performance in law school, previous academic performance in courses seen as particularly relevant to the emphasis area, level of interest in serving children or families, and ability to identify an adviser willing to advise and supervise the student.

No student shall be admitted to the Child and Family Law program unless he or she has a grade-point average of 2.6 or above in all law school classes previously taken.

The Child and Family Law Faculty is authorized to make appropriate adjustments in the deadlines for part-time students or other students whose schedules do not substantially conform to the six semester paradigm.

General Requirements

Minimum Total Hours Required

The program will require a minimum of 15 hours of approved courses. Group A contains the courses that are "Required." Group B is a list of courses that students may choose among, designated as the "Grouped Required" courses. Students must take at least three of the courses from the Group B list.

Any course in Group A or B may be counted toward the required total hours even if it is also used to satisfy the student's Research and Writing Requirement.

Writing Requirement

Students must complete an academic research paper of high professional quality, sufficient to meet the Research and Writing Requirement standards of publishable quality, concerning a business or entrepreneurial law topic. The research paper must be certified as acceptable by one of the Emphasis Area Faculty Advisors. Students may fulfill this requirement in conjunction with any of the Group A or B courses, or independently as part of the general Research and Writing Requirement, as part of an Independent Study option, through one of the Law Schools' journal offerings, or through a research project pursued at the Center for the City at UMKC. There is no separate requirement that the research paper be graded.

Practical Skills Component

Students must complete at least one course containing a substantial practical skills component. The following courses satisfy this requirement:

- Business Planning
- Negotiating Mergers & Acquisitions
- Real Estate Transactions Planning Workshop
- Entrepreneurial Law Clinic
- Advanced Legal Drafting (Business)

The requirement may be met by other internships, externships, simulation courses, drafting courses, or other courses designed to provide exposure to the type of work commonly performed by lawyers in the business and entrepreneurial law field, as the Emphasis Area Faculty Advisors may find acceptable. It is intended that courses fulfilling this requirement will include at least one business drafting exercise.

Ethics Component

Each academic year, the Emphasis Area Faculty Advisors will provide four contact hours of lectures, seminars or workshops dealing with ethical issues that frequently arise in the business and entrepreneurial law field. Each student must complete this ethics requirement.

Research Component

All Emphasis Area Students must complete an advanced research offering which will provide advanced skills in research in the business and entrepreneurial law field. This may entail a separate one hour course of study, a one hour component of an existing course, or separate lecture, seminar or workshop offerings as designated by the Concentration Faculty Advisors.

Curriculum Requirements

Of the 19 hours required for the emphasis, the student must complete

- The basic family law course (three credit hours).
- A minimum of six hours of clinical credit (described below).
- At least six credit hours from a list of core curriculum (listed below).
- At least four credit hours which may be taken from other core curriculum courses or a list of elective courses (listed below).

Prerequisite Course

All students in the emphasis must take Family Law. Because this foundation course is a prerequisite for most other courses in the concentration, students accepted for the concentration will be given a priority in enrollment in the course.

Core Courses

Students must take at least six credit hours chosen from the classes listed below:

- Children in the Law
- Juvenile Offenders & The Law
- Family Violence
- Family Law Practice
- Estate Planning and Drafting
- Gender and Justice

Clinical Component

All students in the Child and Family Law program must take at least six credit hours of clinical coursework. This coursework may consist of

- Family Law Clerkship
- Child & Family Services Clinic
- Legal Aid Clinic
- Internship
- Guardian Ad Litem Workshop

Elective Courses

- Mediation
- Workshop on Current Issues in Family Law
- Alternative Dispute Resolution
- Elder Law For Estate Planners
- Disabilities and the Law

- Immigration Law and Process
- Education Law: Government & Legal Aspects of Education
- Independent Study (if approved by Child and Family Law adviser on the basis that the course of study relates directly to the emphasis area)
- Law Review (if approved by Child and Family Law adviser on the basis that the student's note or comment relates directly to the emphasis area)

Any other law school course if, before beginning the course, the student obtains written approval from the Child and Family Law Faculty. Such approval shall not be granted unless the Child and Family Law Faculty find that, in light of the student's other courses and the student's goals in the emphasis study, the course will advance the student's study of Child and Family Law to an extent equivalent to other Child and Family Law electives.

Courses may be added or deleted from the lists contained in sections A through C above with approval of the Child and Family Law Faculty and the Law School faculty.

Graduation Requirements

For a student to be recognized as having graduated with an Emphasis in Child and Family Law, students must have

- timely completed all concentration requirements
- received the approval of the Child and Family Law faculty of the student's portfolio and
- earned a 3.0 grade point in concentration course work (required and elective courses).

This grade-point average shall be computed considering all Required and Elective Courses in the emphasis taken by the student, including any that exceed the minimum hour requirements for the Emphasis.

Litigation Emphasis Area Requirements

Admission Requirements

Selection of Students for Admission to the Emphasis in Litigation

- **Deadline for admission to the Emphasis in Litigation program:** Students should apply not later than their fifth semester of law school. An application form will be available and must be submitted by the deadline for applications set by the litigation concentration advisors committee and circulated to the student body. Decisions as to whether a student will be admitted to the Emphasis in Litigation will be made in the semester in which the student applies.
- **Procedure and Criteria for Selection:**
 - The maximum number of students who will be permitted to enter the litigation program each year will be set by the litigation advisory committee taking into account the ability of the advisors to provide adequate supervision and advising. Each litigation adviser may set a maximum number of students that he or she will advise.
 - The litigation advisory committee will select the students to be admitted to the program. Criteria to be considered may include previous general academic performance in law school, previous academic performance in courses seen as particularly relevant to litigation, level of interest in litigation, and ability to identify an adviser willing to advise and supervise the student.
- **Part-time Students and Other Students with Unusual Schedules:** The litigation advisory committee is authorized to make appropriate adjustments in the deadlines for part-time students or other students

General Requirements

Minimum Total Hours Required

1. To complete the litigation program, a student must take a total of at least 26 hours in approved courses. Approved courses are those listed as "Required Courses," "Grouped Required Courses," and "Elective Courses".
2. No more than three hours of courses used by the student to satisfy the UCC or Jurisprudence requirement may count toward the required 26 hours.
3. A course (including Law 746) used to satisfy the student's writing requirement (see below) may be counted toward the total hours requirement even if it is also used to satisfy the student's Research and Writing Requirement.

Writing Requirement

1. Each student in the litigation program must complete a written project, approved by a supervisor, on a topic dealing directly with litigation.
2. The written project must be of a scope and quality that would satisfy the law school's research and writing requirement for a J.D. degree.
3. The written project may satisfy both the requirement of the litigation program and the J. D. requirement.

Practical Skills Component

All students in the litigation program must take at least two of the following courses:

- Advanced Legal Writing: Litigation Drafting
- Appellate Advocacy II
- Appellate Advocacy III
- Appellate Advocacy IV
- Trial Advocacy I
- Trial Advocacy II
- Trial Advocacy III

Ethics Component

1. Each student in the litigation program must participate in at least one, substantial, non-credit workshop on ethical issues for litigators.
2. Workshops will be organized by the litigation advisers and conducted by faculty, practicing lawyers, or judges.

Research Component

1. Each student in the litigation program must participate in at least one, substantial non-credit workshop on research materials and sources frequently consulted by litigators on issues directly related to the litigation process, or must complete the course Advanced Legal Research-Litigation.
2. Workshops will be organized by the litigation advisers and the librarians. They will be conducted by faculty, librarians, practicing lawyers or judges. Supervising and Advising Component Each student in the litigation program shall be assigned an adviser. Each student in the litigation program shall meet with his or her adviser not less than twice a semester.

Supervising and Advising Component

1. Each student in the litigation program shall be assigned an adviser.
2. Each student in the litigation program shall meet with his or her adviser not less than twice a semester.

Curriculum Requirements

Distribution of Courses

A. Required Courses: All students in the program must take each of the following courses:

- Civil Procedure I
- Civil Procedure II
- Criminal Procedure I
- Evidence

B. Grouped Required Courses: All students in the program must also satisfy the Core Course Requirement, the Advanced Course Requirement, and the Skills Requirement set forth below:

1. Core Course Requirement: All students in the program must take at least two of the following core courses:
 - Conflict of Laws
 - Federal Jurisdiction
 - Remedies
 - Criminal Procedure II
2. Advanced Course Requirement: All students in the program must take at least one of the following advanced courses:
 - Alternative Dispute Resolution
 - Applied Evidence
 - Applied Federal Criminal Procedure & Evidence
 - Civil Rights Litigation
 - Complex Litigation
 - Criminal Trial Techniques
 - Mediation
 - Missouri Civil Procedure
 - Professional Malpractice Litigation
3. Skills Requirement: All students in the program must take at least two of the following courses:
 - Advanced Legal Writing: Litigation Drafting
 - Appellate Advocacy II
 - Appellate Advocacy III
 - Appellate Advocacy IV
 - Trial Advocacy I
 - Trial Advocacy II
 - Trial Advocacy III

C. Electives: The following electives may also help satisfy the minimum total hours requirement:

1. Clinics and Externships
 - Bankruptcy Court Clerkship
 - Child and Family Services Clinic
 - Death Penalty Clinic
 - Department of Labor Clinic
 - Family Law Clerkship
 - Federal Court Internship
 - Federal Public Defender Externship Clinic
 - Innocence Project Clinic
 - Jackson County Prosecutor Clinic
 - Jackson County Prosecutor Clinic - Family
 - Legal Aid Clinic
 - Missouri Attorney General Clinic
 - National Labor Relations Board Clinic
 - Public Defender Trial Clinic
 - United States Attorney's Office Law Clinic
2. Electives & Other Coursework
 - Administrative Law
 - Advanced Legal Research - Litigation
 - Advanced Lawyering Processes (second semester only)
 - Criminal Trial Techniques
 - Criminal Sentencing Law Practice & Procedure
 - Employment Discrimination

- Family Law Practice
- o Famous Trials
- o Global Legal Systems
- o Independent Study (if approved by student's litigation adviser on the basis that the course of study relates directly to litigation)
- o Introduction to the Resolution of International Commercial Disputes
- o Jury Selection
- o The Jury: Practice and Perspectives
- o Law Review (if approved by student's litigation adviser on the basis that the student's note or comment relates directly to litigation)
- o Legal Research (if approved by student's litigation adviser on the basis that the student's writing relates directly to litigation)
- o Missouri Supreme Court and Constitution
- o Post Conviction Remedies
- o Seminar in the Ethics of Criminal Advocacy
- o Trans-National Litigation
- o Wrongful Convictions
- o Any other course if the student obtains written approval from the student's litigation adviser. Such approval shall not be granted unless the adviser find that, in light of the student's other courses and the student's litigation-related goals, the course will advance the student's study of litigation to an extent equivalent to other litigation electives.

D. Courses may be added or deleted from the lists contained in sections A through C above with approval of the litigation advisory committee and the faculty.

Graduation Requirements

For a student to be recognized as having graduated with an Emphasis in Litigation, the student must have fulfilled the following requirements:

1. The student must have satisfied all general and curriculum requirements set forth above.
2. The student must have achieved a grade-point average of at least 3.0 in the field. This grade-point average shall be computed considering all Required Courses, Grouped Required Courses, and Elective Courses in the emphasis taken by the student, including any that exceed the minimum hour requirements for the Emphasis in Litigation.

International, Comparative & Foreign Law (ICF) Emphasis Area Requirements

Admission Requirements

After their first year and before their final semester, or with approval in other circumstances, students may be admitted to the International, Comparative, and Foreign Law ("ICF") Emphasis if their cumulative law school GPA is 2.7 or above. To graduate with the ICF Emphasis, students must have a cumulative minimum GPA of 2.7 and a minimum GPA within the emphasis area of 3.0.

Program Requirements

1. Courses:

Student will have to take a total of 16 credit hours from the below mandatory and elective courses.

a. Required: The following two mandatory classes must be taken:

- **International Law** (3 hours)
- **Global Legal Systems** (3 hours)

The above classes will include consideration of ICF professional responsibility issues.

b. Electives: The remaining hours to be satisfied from the following courses (note: not all below are offered every year):

- **Conflict of Laws**
- **Immigration Law & Policy or Immigration Law & Process**
- **International Business Transactions**
- **International Human Rights**
- **International Taxation**
- **International Trade & Finance**
- **National Security Law**
- **Transnational Litigation & Arbitration**
- **Courses offered as part of an approved overseas experience** (only one approved overseas experience will count towards the emphasis)

Other Courses may be **approved** by the ICF advisor to count towards the Emphasis. Where a course includes a substantial component of ICF law, part of that course may count towards the 16 hour requirement with advance approval from the ICF advisor.

2. Required Overseas Legal Experience

This would include such experiences as:

The **Ireland, China, Oxford** or other law summer programs; or
An **overseas Mini-Term** course (if offered); or
Another experience approved in advance by the ICF advisor.

These experiences may constitute a "skills" component, depending on the specifics of the experience. The credits earned from **ONE** approved overseas experience may be counted towards the required 16 hours for the Emphasis.

3. Required Writing Project:

A paper satisfying the R&W requirement or an equivalent independent study writing project (including law review notes or comments) must be undertaken by writing on an ICF subject (subject to be approved by the ICF advisor).

This requirement may also be satisfied through participation on the Jessup International Moot Court Team or other equivalent international competition with approval of the ICF advisor.

Class papers do not satisfy this requirement, but may be expanded as an independent paper or the R&W paper, and with approval of the ICF advisor, the expanded paper may satisfy this requirement. Any credits earned through satisfaction of this writing requirement will **NOT** be counted towards the 16 hours.

LL.M. Scholarships

Arthur Mag Graduate Law Fellowship

In recognition of Arthur Mag's service to the University of Kansas City and UMKC, the Edward F. Swinney Trust has provided a grant for the establishment of Arthur Mag graduate fellowships to support full-time graduate study at UMKC. Arthur Mag Fellows work closely with distinguished professors in their graduate degree programs. These professors serve as mentors throughout the fellows' graduate work.

One of these fellowships is designated for the School of Law, and is provided each year to an outstanding student in the School of Law's LL.M. program.

The *Arthur Mag Graduate Fellowship in Law* includes a stipend of \$10,500 for the 2006-2007 academic year; remission on non-resident fees, if applicable; and remission of 18 hours of graduate law educational fees, for a total possible compensation of nearly \$28,000.

Applicants must be U.S. citizens who are planning to pursue the graduate program on a full-time basis.

More information, including a "generic" application form that may be copied and used and a faculty recommendation form, may be obtained/downloaded from the School of Graduate Studies Web site at: <http://sgs.umkc.edu/financial.asp#arthur>.

John B. Gage Memorial Fellowships

Fellowship awards are provided annually to outstanding students entering as full-time LL.M. degree candidates from a fund endowed by friends of alumnus John B. Gage, a teacher of law, former mayor of Kansas City and eminent lawyer.

Minority Graduate Student Fellowships

The UMKC School of Graduate Studies annually awards up to three Minority Graduate Fellowships of \$600 each, applicable to the student's graduate educational fees. The fellowship is renewable for one additional year provided the student maintains a 3.0 grade-point average and the law school certifies that the student is in good standing and making normal

progress toward the degree. Those eligible for nomination for these fellowships at the law school include blacks, Hispanics, Native Americans and Asian Americans who are degree-seeking LL.M. students admitted or enrolled at UMKC for the ensuing academic year and who are U.S. citizens. Fellows must maintain a minimum enrollment of six credit hours per semester.

UMKC Graduate Tax Law Foundation Scholarship

The Graduate Tax Law Foundation provides a periodic cash award to outstanding LL.M. (Taxation) students and outstanding J. D. tax students.

Scholarships

Foreign Master of Laws Degree

The law school offers several partial tuition scholarships (valued at more than \$12,000) and one full tuition scholarship. To be considered for a scholarship, the applicant must have a complete application and must fill out the scholarship application form, which is available at the website of the foreign LL.M. program: <http://www1.law.umkc.edu/academic/china/LLM/overview.htm>

Additional Information

Foreign Master of Laws Degree

Additional information about the program, including forms, pictures, and video interviews of students, is available at the website of the foreign LL.M. program:

<http://www1.law.umkc.edu/academic/china/LLM/overview.htm>

Non-Degree Candidates

Post-J.D. study may be undertaken on a non-LL.M. basis. Applicants who wish to obtain an LL.M. degree but who do not have the required grade-point average may be permitted to enroll as a non-degree candidate. They may be considered for later admission to the degree program on the basis of performance in courses taken as a non-degree candidate.

Master of Laws Degree Requirements

1. Completion of 24 credit hours, 18 of which must be taken from the list of required and elective courses provided for each program.
2. A cumulative GPA of at least 3.0 (2.7 for the LL.M. [Taxation] and the LL.M. [General] with Estate Planning Concentration]). See the Administrative Rules and Regulations section that follows.
3. Completion of all required courses. See the "Required Courses" for each program.
4. Enrollment in a minimum of four credit hours each semester.
5. Successful completion of all coursework (including thesis, if applicable) within three years from the beginning of the course of studies leading toward the degree.

Upon enrollment in the graduate program, a student is assigned a faculty adviser. In consultation with the adviser, the student develops a plan of study that meets the requirements for the degree in the program area selected. The adviser must approve enrollment in all courses.

LL.M. Academic Rules and Regulations

Attendance, Examinations and Grades, and Withdrawal from Courses

The administrative rules and regulations set forth for the juris doctor degree program covering these matters also apply to the master of laws degree programs.

Scholastic Probation and Dismissal

A student will be placed on scholastic probation whenever the student's GPA falls below 3.0 (2.7 for the LL.M. [Taxation] degree and LL.M. [General] with Estate Planning Concentration degree). A student on probation must attain an overall 3.0 GPA (2.7 for the LL.M. in [Taxation] and LL.M. [General] with Estate Planning Concentration) by the end of the next semester of coursework, or, unless an exception is made by the Graduate Studies Committee, the student will be dismissed from the program for academic deficiency.

Foreign Student Eligibility for the LL.M. Program

Master of Laws Degree for Foreign Students

The School of Law offers a graduate program for foreign law students leading to the master of laws (LL.M.) degree. Admission generally is limited to applicants who have a College degree in law from a recognized school. There is no minimum GPA required for admission, but applicants' academic ability will be considered, and applicants must have demonstrated English proficiency, which will be evaluated by an interview and through test scores. The LSAT is not required, but students should take either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam. Successful applicants typically have a minimum TOEFL score of 550 on the paper exam, or 80 on the Internet version, or a minimum IELTS score of 5.5). The required interview, however, is an important component of evaluation, and not all students with scores in the low range will be admitted. In some cases, the law school may require additional English study at UMKC prior to the start of the LL.M. program as a condition of admission.

Foreign Student LL.M. Admissions Process

A Foreign LL.M. admission packet consists of the following:

- The Foreign LLM application form;
- The application fee;
- An autobiographical essay or personal statement
- Official academic credentials for undergraduate and, if applicable, graduate study (transcripts and, if applicable, degree certificates), including literal English translations of academic credentials if the official credentials are not in English;
- An official TOEFL or IELTS score report;
- An original or certified copy of a financial statement proving financial ability, including a notarized letter of support explaining the relationship to the applicant and pledging financial support if funding is from a family member or sponsor (non-English documents must be accompanied by an English translation)
- One signed letter of recommendation;
- A copy of the biographical information/photo page from your passport (this can be supplied later if you do not have a passport)

There is no formal application deadline, but applications should be submitted by April 1 for optimal consideration. Applications

are reviewed once the file is complete, and admission is available so long as there are seats available in the incoming class.

In addition to the admissions packet, applicants must have an interview with the Director of the program, the Associate Dean for International Programs, or a designee of one of them. Interviews in person are preferred, but can also be conducted by telephone. Information on arranging the interview is available on the website of the program:

<http://www1.law.umkc.edu/academic/china/LLM/overview.htm>

Foreign Master of Laws Degree Requirements

1. Completion of three required courses with grades of pass or better: Introduction to Law and Lawyering – International (3 credit hours), Introduction to American Law and Culture (2 credit hours), and Introduction to American Legal Skills (2 credit hours).
2. Completion of an additional 17 credit hours from courses approved by the Foreign LL.M. advisor with grades of pass or better.
3. Successful completion of all coursework within three years from the beginning of the course of studies leading toward the degree.

Upon enrollment in the graduate program, a student is assigned a faculty adviser. In consultation with the adviser, the student develops a plan of study that meets the requirements for the degree in the program area selected. The adviser must approve enrollment in all courses.

Foreign Student LL.M. Curriculum

Foreign Master of Laws Degree

Beyond the required courses, students work with their advisor to select courses suitable to their plan of study. Most students take a variety of courses that provide exposure to U.S. law and a foundation for preparing for a bar examination in a U.S. jurisdiction. However, some students may specialize in a particular field, such as one of the School's Emphasis areas (Business & Entrepreneurial Law; Litigation; Urban, Land Use & Environmental Law; Child and Family Law) or in another area with significant course offerings (such as International Law or IP). Unlike some LL.M. programs for foreign students, the students in UMKC's program have access to J.D. courses, and have the opportunity to interact with J.D. students.

Foreign Student LL.M. Academic Rules and Regulations

The academic rules and regulations set forth for the juris doctor degree program covering these matters also apply to the master of laws degree programs.

Foreign Student LL.M. Grading

Foreign Master of Laws Degree

The grading scale is as follows:

A (including + and -)

B (including + and -)

C (including + and -)

Pass

Not Pass

The A, B, C grades are given consistent with standards for juris doctor students, and if a foreign LL.M. student a student achieves this level of grade, he or she may transfer the credit to the juris doctor program. A "pass" grade signifies that the student has not performed to the level required of a juris doctor student, but that the student has demonstrated basic competency on course objectives as those objective relate to the foreign LL.M. program. If the student earns a grade of "pass" the student receives LL.M. credit, but cannot transfer the credit to the JD program. A "not pass" indicates that the student did not demonstrate basic competency on course objectives, and that course does not count towards fulfilling the graduation requirements for the LL.M. degree.

Accommodation of LL.M. students. A professor in his or her discretion may allow additional work beyond that assigned generally in the course to allow a foreign LL.M. student to achieve a "pass" grade. The professor should indicate at the beginning of the course whether he or she will allow additional work, and what conditions or standards may apply. Supplemental work is to be decided upon by the faculty member. Examples include a paper, re-taking of an exam, an oral examination, field observations and reports.

Curriculum, Master of Laws (General)

Program Requirements

There are no specific course requirements. Rather, the course of studies is one developed by the student and his/her adviser based upon a set of courses related to a specific thematic goal and approved by the graduate studies committee. It must include a thesis related to the subject area chosen.

Jurisprudential Requirement

Students must take one jurisprudential course approved by their adviser.

Thesis Requirement

A minimum of four and a maximum of eight credit hours (to be determined by students in consultation with their thesis adviser) may be given for a written thesis on a subject approved by the student's thesis committee. The thesis must show substantial evidence of original research or development of the principles of at least one interdisciplinary field related to the student's thematic goal; be at least 75 pages in length; and be of high scholastic quality, suitable for publication as a lead article in a scholarly journal.

The thesis committee, consisting of the thesis adviser (selected by the student with the adviser's consent) and the UMKC School of Law graduate studies committee, must approve the topic and the final form and substance of the thesis.

Other Courses

The UMKC Law School graduate studies committee may approve up to six credit hours of courses in other schools and departments of the University related to the student's thematic goal. Generally, students may not take required or basic bar examination J.D. courses for graduate credit.

Curriculum, Master of Laws (Taxation)

Required Courses (14 credit hours)

- LAW 8834 Tax Procedure-or- LAW 8834R Tax Clinic (2)
- LAW 8838R Tax Practicum -or- LAW 8746R Tax Research (2)
- LAW 8886 Corporate Taxation I
- LAW 8887 Corporate Taxation II
- LAW 8888R Partnership Taxation
- LAW 8893R Taxation of Property Transactions

Elective Tax Courses

- LAW 8611R Dispositions and Succession Planning of Business Interests (1)
- LAW 8612R Estate Planning with Life Insurance (1)
- LAW 8613R Special Problems in Estate Planning (1)
- LAW 8614R Estate Planning for Retirement Plan (1)
- LAW 8615 Estate Planning and Practice (3-4)
- LAW 8615R Estate Planning for Charitable Giving (1)
- LAW 8616R Fiduciary Administration for Estate Planners (1)
- LAW 8617R Elder Law for Estate Planners
- LAW 8746R Independent Study (tax topic) (0.5-3)
- LAW 8 757R Entrepreneurial Law & Practice Clinic (2-3)
- LAW 8838 Tax Accounting (1-3)
- LAW 8838L Legal Accounting (1)
- LAW 8838R Tax Practicum (1-3)
- LAW 8843 Federal Income Taxation of Trusts and Estates (2)
- LAW 8845 Deferred Compensation (2-3)
- LAW 8848R State and Local Taxation (2-3)
- LAW 8868 Trusts: Planning, Drafting, Litigating
- LAW 8868R Valuation for Transfer Tax Purposes (2-3)
- LAW 8874 Tax-Exempt Organizations
- LAW 8888A Advanced Partnership Taxation (1-2)
- LAW 8889 International Taxation (2-3)
- LAW 8889R Subchapter S Taxation
- LAW 8892R Taxation of Estates, Gifts and Trusts (2-3)
- LAW 8894R Tax Aspects of Bankruptcy(2)

Other Courses

Taken at UMKC School of Law

The Director of the Graduate Tax Program may approve a student taking up to 6 credit hours of UMKC Law School courses outside of the listed tax courses, without the necessity of obtaining Graduate Studies Committee approval, if, in the Director's judgment, such courses are suitable to prepare the student for a tax-sensitive practice area (e.g., business planning, estate planning or real estate development).

Taken at Other UMKC Graduate and Professional Schools

The Director of the Graduate Tax Program may approve up to 6 credit hours from the interdisciplinary course offerings of other UMKC graduate and professional schools.

Taken at Other Law Schools

The Director of the Graduate Tax Law Program may allow Tax, LL.M. candidates to count towards degree requirements up to 6 credit hours of tax courses taken at other law schools so long as (i) they are, in the judgment of both the Director and the applicable instructor here, of comparable coverage and quality to the corresponding required or elective tax courses eligible or required for LL.M credit at UMKC and (ii) the student earned a grade of "B" or higher in such course (s). This would normally involve reviewing the student's transcript and the syllabus and assignments list for the subject course (s) taken elsewhere. However, in no event would a combined degree student be able to count (in total) toward the LL.M more than 12 hours of credit that have been or are being applied toward their JD degree.

Curriculum, Master of Laws (General) with Estate Planning Concentration

Effective fall semester 2007, the Master of Laws (General) with Estate Planning Concentration program has been suspended. Applications are not accepted for and students may not enroll in the program at this time.

Required Courses (17 credit hours)

- LAW 8615 Estate Planning and Practice (3)
- LAW 8618R Drafting and Preparation of Estate Plans (2)
- LAW 8800 Thesis (4-8)
- LAW 8838R Tax Practicum (1)
- LAW 8843 Federal Income Taxation of Trusts & Estates (2)
- LAW 8868R Valuation for Transfer Tax Purposes (3)
- LAW 8892R Taxation of Estates, Gifts and Trusts (3)

Elective Courses

- LAW 8611R Dispositions and Succession Planning of Business Interests (1)
- LAW 8612R Tax Planning with Life Insurance (1)
- LAW 8613R Special Problems in Estate Planning (1)
- LAW 8614R Estate Planning for Retirement Plan Benefits (1)
- LAW 8615R Estate Planning for Charitable Giving (1)
- LAW 8616R Fiduciary Administration for Estate Planners (1)
- LAW 8617R Elder Law for Estate Planners (1)
- LAW 8757R Entrepreneurial Clinic (2)

Thesis Requirement

A minimum of four and a maximum of eight credit hours (to be determined by the student in consultation with the thesis adviser) may be given for a written thesis on a subject approved by the student's thesis committee. The thesis must show substantial evidence of original research or development of the principles of at least one interdisciplinary field related to the student's thematic goal; be at least 75 pages in length; and be of high scholastic quality, suitable for publication as a lead article in a scholarly journal.

The thesis committee, consisting of the thesis adviser (selected by the student with the adviser's consent) and the UMKC School of Law graduate studies committee, must approve the topic and the final form and substance of the thesis.

At the option of the Director of the Estate Planning Program, the thesis requirement may be met by satisfactory completion of Law 618R and Law 746R (for 2 credit hours), requiring the student to research and write a substantial original work in the estate planning field.

Other Courses

The UMKC graduate studies committee may approve up to six credit hours from other UMKC Law School course offerings or from the interdisciplinary offerings of other UMKC graduate and professional schools. However, such courses may not be required or be basic bar examination J.D. courses.

Curriculum, Master of Laws (Urban Affairs)

Because of the complexity and diversity of their setting, urban problems sometimes transcend traditional legal solutions. The interdisciplinary Urban Legal Affairs Program prepares lawyers for specializing in practice, public service and corporate and financial institutions dealing with metropolitan-area problems. Students may pursue the areas of Planning and Governance, Environment and Natural Resources, and Real Estate Development.

Courses Available

- LAW 8732 Alternative Dispute Resolution (2-3)
- LAW 8898 Construction Law (2)
- LAW 8773 Environmental Law (2-3)
- LAW 8766 Land Use Planning (2-3)
- LAW 8728 Law and the American Indian (2-3)
- LAW 8641R Legislation (2-3)
- LAW 8783 Natural Resources Law (2-3)
- LAW 8729 Preservation Law (2-3)
- LAW 8861 Real Estate Finance (3)
- LAW 8875 Real Estate Transactions (2-3)
- LAW 8862 Seminar in Urbanization (2)
- LAW 8770 State and Local Government Law (2-3)

Thesis

If elected, a minimum of four and a maximum of eight credit hours (to be determined by the student in consultation with the thesis adviser) may be given for a written thesis on a subject approved by the student's thesis committee. The thesis must show substantial evidence of original research or development of the principles of at least one interdisciplinary field related to the area of urban studies pursued; be at least 75 pages in length; and be of high scholastic quality, suitable for publication as a lead article in a scholarly journal.

The thesis committee, consisting of the thesis adviser (selected by the student with the adviser's consent) and the School of Law graduate studies committee must approve the topic and the final form and substance of the thesis.

Other Courses

The School of Law graduate studies committee may approve other law school courses and up to six credit hours of courses in other schools and departments of the University related to the area of urban affairs pursued. Generally, students may not take required or basic bar examination J.D. courses for graduate credit.

Before enrollment, the student will work with the associate dean toward developing an individualized urban affairs course of studies.

Admissions

Eligibility for the LL.M. Program

The School of Law offers three graduate study programs in law leading to the master of laws degree: the LL.M. (taxation); the LL.M. (urban affairs); and the LL.M. (general). In addition, as part of the LL.M. (general) program, an estate planning concentration is available to qualified applicants. Admission is limited to applicants who have attained the juris doctor or equivalent degree from an approved law school and who have a law school GPA of at least 2.7 on a 4.0 scale.

The School of Law also offers a master of laws degree program for foreign students. Eligibility criteria, admissions process, degree requirements, curriculum and other pertinent information specific to this program is detailed separately in this catalog. See, "Master of Laws Degree for Foreign Students."

Admissions Process

An LL.M. admission application, application fee and official law school and undergraduate transcripts must be submitted for admission. There is no formal application deadline, but early submission of applications is recommended.

History

The University of Missouri opened a medical school on the UMKC campus in 1971. Using an alternative approach to medical education from that of the traditional four-year school, the School of Medicine has as its primary mission the training of physicians able to meet the health-care needs of Missouri and the nation.

The approach used at this school is to grant admission to medical school directly from high school in a curriculum spread over six or more calendar years. By providing students with early and continuous patient-care experience, the curriculum fully integrates the teaching of liberal arts/humanities, basic sciences and clinical medicine. The environment for learning created at this institution de-emphasizes competition and encourages learning through close faculty-student interaction and student partnerships.
