Welcome to the University of Missouri-Kansas City 2014-2015 catalog! We are pleased to provide an interactive and searchable catalog online.

Use the search box above, or click on the left hand menus to navigate through the catalog. There is also a PDF version available through the Print Options link above.

We welcome your feedback and suggestions to make this catalog better for the future. We would also appreciate reports of any broken links inside the catalog. Feedback may be provided by sending an email to catalog@umkc.edu.

Doug Swink
University Registrar

UMKC Summary Profile

Located in the heart of Kansas City, Mo., the University of Missouri-Kansas City is a public research university focused on urban issues. At UMKC, your mind will be opened to knowledge, diverse people and outstanding experiences, allowing you to further explore those areas of your life in which you are already engaged. Here’s what else you’ll find at UMKC:

• 15,746 - undergraduate and graduate students enrolled at UMKC
• 8 - percent of students that live on campus
• 64.6 - percent of undergraduate students received financial aid or scholarships in 2013
• 120+ - majors and programs
• 57 - percent of classes have fewer than 20 students
• 21 - average class size
• 13:1 - student to faculty ratio
• 16 - NCAA Division I sports teams
• 91 - percent of classes have fewer than 50 students
• 25 - percent of minority students enrolled
Introduction

University of Missouri - Kansas City (UMKC)

Catalog Archives (http://www.umkc.edu/catalog/archive/default.asp)

General undergraduate academic rules and regulations and graduate academic regulations and information apply to all undergraduate and graduate programs, respectively.

Prospective students should be aware that the University reserves the right to make changes in admission requirements, fees and other specifications in the catalog.

The web site address for the UMKC catalog is http://umkc.edu/catalog.

The UMKC catalog is the official record of degree program requirements. Students are expected to become thoroughly familiar with all academic regulations and requirements of this catalog pertaining to their program of study and to comply with its provisions.

The University of Missouri-Kansas City (UMKC) is one of four campuses that constitute the University of Missouri (http://www.umsystem.edu/ums/about). Established in Columbia in 1839 on the ideals of Thomas Jefferson, the University of Missouri became a land-grant institution upon passage of the Morrill Act by Congress in 1862.

The University is governed by the Board of Curators (http://www.umsystem.edu/curators), whose members are appointed by the governor of Missouri and confirmed by the Missouri Senate. The University president (http://www.umsystem.edu/president) directs and coordinates the programs of the four campuses, with staff assistance in finance, business management, research, extension, development, public information and other UM system services.

The activities of each campus are supervised by a chancellor, who directs campus affairs within policies established by the Board of Curators and the president.

UMKC Administrative Divisions and Offices (http://www.umkc.edu/administration)

UMKC History (http://www.umkc.edu/history)

UMKC Strategic Plan (http://www.umkc.edu/provost/strategic-plan.asp)

Accreditation

“Accreditation” is the primary means of assuring and improving the quality of higher education institutions and programs in the United States. Active for the past 100 years, this private, voluntary system of self-examination and peer review has been central to the creation of a U.S. higher education enterprise that is outstanding in many respects.

-- Council for Higher Education Accreditation

The University of Missouri - Kansas City is accredited by The Higher Learning Commission and is a member of the North Central Association.

The Higher Learning Commission

North Central Association of Colleges and Schools

30 North LaSalle Street, Chicago, IL 60602

(312) 263-0456

http://www.ncahlc.org

The Higher Learning Commission accredits UMKC as a whole. Specific undergraduate, graduate, and professional programs, are also accredited by other programmatic accrediting agencies. The accredited programs and their accrediting agencies are identified in the applicable academic unit and/or program information sections of the catalog.

Mission

Mission statement

UMKC's mission is to lead in life and health sciences; to deepen and expand strength in the visual and performing arts; to develop a professional workforce and collaborate in urban issues and education; and to create a vibrant learning and campus life experience.
Goal 1. Place student success at the center
To provide the optimal learning environment for all students: outstanding academic programs and experiences, seamless student support and a vibrant campus community.

- Challenge all undergraduate, graduate, and professional students to the highest levels of achievement by providing excellent academic programs.
- Engage and retain students by providing “high-impact” educational practices, such as first-year and capstone seminars, undergraduate research, study abroad and internships.
- Empower all students to contribute to a demographically and technologically complex world.
- Offer superior services to students through a model that allows a one-stop approach (real and virtual) to meet students’ needs.
- Support student success with new, proactive intervention systems and programs.
- Provide on-campus, co-curricular experiences that encourage student engagement and community participation.

Goal 2. Lead in life and health sciences
To attain national recognition for excellence in research, expand opportunities for clinical practitioner training and provide outstanding health care delivery.

- Become an essential partner with other members of the Kansas City area life and health sciences community.
- Establish a unified strategic approach to the UMKC life and health sciences research mission emphasizing translational research.
- Implement innovative life and health sciences graduate, doctoral, professional and interprofessional education initiatives.
- Expand clinical practice initiatives and research opportunities that address community health needs.
- Enhance collaborative and cross-disciplinary research and educational programs both within the science and engineering communities, and across disciplines.

Goal 3. Advance urban engagement
To become a model urban university by fully engaging with the Kansas City community to enhance education, public health, the arts and economic development.

- Expand relationships in the Kansas City area to ensure that UMKC is embedded in the fabric of the community and that the community is embedded in the University.
- Facilitate the exchange of the rich intellectual and cultural assets of UMKC and of the Kansas City community.
- Strengthen the PK-20 educational pipeline through strategic alliances with area school districts and community colleges.
- Promote environmental responsibility by integrating sustainability into the curriculum, research and institutional practices.

Goal 4. Excel in the visual and performing arts
To create excellent programs in visual and performing arts that are central to campus life and support Kansas City’s initiatives in entrepreneurship, urban education and innovation.

- Enhance UMKC’s reputation as a national leader in artistic excellence.
- Enhance all students’ education through infusing the arts into campus life.
- Collaborate with local and regional partners to provide community arts programming and experiences.
- Demonstrate the relationships between artistic creativity, entrepreneurial innovation and economic development.

Goal 5. Embrace diversity
To celebrate diversity in all aspects of university life, creating inclusive environments, culturally competent citizens, and globally-oriented curricula and programs.

- Cultivate an environment committed to civility and respect where all students, faculty and staff are empowered to pursue their personal, academic and professional goals.
- Provide a diverse learning and life experience to create culturally competent citizens.
- Recruit and retain a diverse campus community.
- Ensure diversity initiatives are actively reviewed and owned by the University community.

Goal 6. Promote research and economic development
To produce world-class scholarship and creative activity, encourage entrepreneurship, foster innovation, increase technology transfer, and build relationships that create economic and workforce development.

- Expand opportunities for extraordinary scholarship and creative activity.
- Create cross-disciplinary programs, at all levels, and align with strong community partnerships that support research, innovation and economic development.
• Strengthen workforce development programs to address current and future market needs.
• Encourage innovation within science and technology communities to increase technology transfer.
### Academic Programs

Fields of study are listed in the first column. The actual undergraduate and graduate degrees or certificates to be earned are listed to the right of each field of study. Only programs and degrees displayed on this table will appear on students’ official transcripts.

Statement of Purpose

The primary academic missions of the College of Arts and Sciences are teaching, research and service. Through these functions, the College serves the community, the state and society at large. The research and scholarship of the College’s faculty not only expand the body of knowledge generally, but also enrich and enhance its teaching and instructional programs.

Most departments of the College offer both undergraduate and graduate study. The College enables students to develop the creative, analytical and communication skills which sustain a lifelong educational process. In addition to serving its own students, the College provides instruction in the liberal
arts and sciences for students in the UMKC professional schools. Through its continuing education division and certificate programs, the College also
serves individuals and groups in the community.

The College's degree requirements, in coordination with the UMKC general education core, give students a breadth of knowledge, enabling them to
understand and appreciate the many facets of human experience, to make meaningful relationships between the various fields of knowledge, and to
increase their understanding of themselves, their interests and special abilities. The general requirements and introductory courses allow for maximum
freedom in selection of a field of study and provide the basic knowledge for that particular program.

Work in a field of study provides students with a comprehensive and systematic introduction that prepares them to function in the professional fields of
their choice. The objective of the total academic program of the College is to engage students in study that will enable them to work competently in their
chosen fields or pursue graduate work, while at the same time developing a breadth of knowledge in the arts and sciences. In that way, students can
understand their specializations in the larger context of the intellectual and social life of the community.

Graduate-level studies provide students with advanced instruction and/or independent research in a major field of study. Students pursuing master's-
level work in a major field or a Ph.D. in Clinical Psychology are directed to the relevant department or program listing in the Arts and Sciences section
of this catalog and to the General Graduate Academic Regulations and Information section of this catalog. Those planning other Ph.D.-level studies are
directed to UMKC's Interdisciplinary Ph.D. program listing in the School of Graduate Studies section of this catalog.

James Sheppard, Ph.D., (assistant professor, philosophy);
Department Description

The Department of Architecture, Urban Planning and Design has two degree tracks to choose from.

One degree track is a B.A. in Urban Planning and Design. This degree program is a four-year degree and can be completed at UMKC in its entirety.

The second track leads to a degree in one of the following professional areas: architecture, landscape architecture and interior architecture. This track is a two-year program, offered in conjunction with Kansas State University’s College of Architecture, Planning and Design.

UMKC is an urban university, and architecture, urban planning and design is consistent with our vision for our community and region. Kansas City is a great urban laboratory. Few American cities have the planning and design tradition of Kansas City. We think this sets us apart, and places the students within a professional community with unmatched resources, whether one is studying architecture, interior architecture, landscape architecture or urban planning and design.

As the United States population continues to grow and is concentrated in metropolitan areas, urban planning and design is becoming a societal imperative. Planners address diverse public issues affecting where people live, work, and play; where they shop and receive health care; how they get from place to place; what our communities look like; and how we use our resources.

Admission and Advising

Admission to the Department of Architecture, Urban Planning and Design is selective. Seats are limited to 36 incoming students in the Architectural Studies curriculum. Interested students can call or e-mail the department and schedule an appointment for a visit with one of our advisors. On-campus location, contact information and mailing address appear at the beginning of this section.

Financial Aid

Many scholarships and student financial aid alternatives are available. Every year approximately 80 percent of our students have some form of scholarship. For students who qualify, UMKC can be a great resource for scholarship assistance. Contact the UMKC Financial Aid Office (phone: (816) 235-1154) for scholarship information.

Student Activities

The department supports two student organizations, AIAS and PDS, on the UMKC Campus.

The American Institute of Architecture Students (http://www.aias.org) (AIAS) is a national student organization for students studying architecture and related fields. Many times the professionals serve as mentors to students on various capacities. Every year students attend national and regional AIAS meetings around the country.

Planning and Design Students (PDS) is a student organization for students studying Urban Planning and Design. The students interact with the local APA (American Planning Association (http://www.planning.org)) chapter in a variety of activities. A group of students attend the national conventions that are held in various locations around the country every year.

The American Public Works Association (http://www.apwa.net) (APWA) is a student organization that consists of a multi-disciplinary group of students (i.e. Engineering, Geosciences, Public Administration) from across the campus. The APWA’s national office is in Kansas City, and UMKC is the first campus to initiate an APWA student group. This organization allows students to interact with private industry, as well as governmental agency professionals.

Faculty

John Eck assistant teaching professor of architecture, urban planning and design; B.Arch. (Kansas State University); M.Arch. (University of Virginia); R.A.

Stephanie Frank assistant professor of architecture, urban planning and design; M.A. (University of Maryland); Ph.D (University of Southern California)

Michael Frisch Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=frisch); associate professor of architecture, urban planning and design; M. City Planning (Massachusetts Institute of Technology); Ph.D. (Rutgers University); A.I.C.P.

Sungyop Kim Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=kim); associate professor of architecture, urban planning and design; M. Urban and Regional Planning (University of Hawaii); Ph.D. (University of Washington).

Theodore H. Seligson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=seligson); adjunct professor of architecture, urban planning and design; B.Arch. (Washington University); F.A.I.A.

Joy D. Swallow Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=swallow); chair, department of architecture, urban planning and design, and associate professor of architecture; B.Arch. (Kansas State University); M.Arch. (University of Pennsylvania); F.A.I.A.
Undergraduate Degrees:

- Architectural Studies Major (p. 34)
- Bachelor of Arts in Urban Planning and Design (p. 34)

Architectural Studies Major

Architectural Studies is a two-year cooperative program with Kansas State University that began in 1987. The accredited curriculum at the KSU College of Architecture Planning and Design is offered at UMKC for the first two years of study. After successfully completing the coursework at UMKC, students are eligible for entry to Kansas State University, College of Architecture Planning and Design. There, students can study architecture, interior architecture and landscape architecture.

Architectural Accreditation

The Kansas State University College of Architecture, Planning and Design (with which the UMKC Architectural Studies Program collaboratively participates) is accredited by the National Architectural Accrediting Board (NAAB).

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes two types of degrees: the bachelor of architecture and the master of architecture.

A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.

Master’s degree programs may consist of a pre-professional undergraduate degree and professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

B.A. (Urban Studies) - M.P.A. Program

Student Learning Outcomes

Students graduating with a baccalaureate degree in this field will:

- Students appreciate how gender, ethnicity, and race play important roles in understanding the city. They will be exposed to the broader public through internships in the community.
- Students will be able to demonstrate knowledge of how local, regional, and state governments and related institutions interact. They will understand how the urban economy is structured in interrelated sectors that influence each other locally and interact with sectors beyond the local city. They will understand how to interpret demographic patterns at various scales, from the city block to the metropolitan area.
- Either at least qualitatively or quantitatively students will demonstrate the ability of critical thinking about urban space.

This program allows Urban Studies majors to complete a B.A. in Urban Studies in The College of Arts and Sciences and a master’s in public administration in the Henry W. Bloch School of Business and Public Administration in five years. The program allows students to take M.P.A. courses to satisfy Urban Studies and M.P.A. requirements, which reduces the number of courses needed to complete both degrees.

Students interested in this option should first contact the Director of Urban Studies at (816) 235-6053 during the final semester of the junior year or early in the first semester of the senior year.

Bachelor of Arts in Urban Planning and Design

The Urban Planning and Design program provides an innovative curriculum that incorporates a combination of broad liberal arts courses, with a core of professional planning classes, coupled with a series of design studios. The design studio represents a forum where students employ a creative process,
infused with knowledge gained from supporting courses, to generate holistic urban planning and design solutions. Urban design projects will engage professionals, civic officials, neighborhood leaders and government officials into an important dialogue.

**Student Learning Outcomes**

Students graduating with a baccalaureate degree in planning should have significant exposure to each of the basic subject areas of knowledge, skills and values.

**Knowledge of**

- Structure and functions of urban settlements.
- History and theory of planning processes and practices.
- Administrative, legal and political aspects of plan-making and policy implementation.
- Familiarity with at least one area of specialized knowledge of a particular subject or set of issues.

**Skill in**

- Problem formulation, research skills and data gathering.
- Quantitative analysis and computers.
- Written, oral and graphic communication.
- Collaborative problem solving, plan-making and program design.
- Synthesis and application of knowledge to practice.

**Value in**

- Issues of equity, social justice, economic welfare and efficiency in the use of resources.
- The role of government and citizen participation in a democratic society and the balancing of individual and collective rights and interests.
- Respect for diversity of views and ideologies.
- The conservation of natural resources and of the significant social and cultural heritages embedded in the built environment.
- The ethics of professional practice and behavior, including the relationship to clients and the public, and the role of citizens in democratic participation.

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

**Bachelor of Arts: Urban Studies**

**Student Learning Outcomes**

Students graduating with a baccalaureate degree in this field will:

- Students appreciate how gender, ethnicity, and race play important roles in understanding the city. They will be exposed to the broader public through internships in the community.
- Students will be able to demonstrate knowledge of how local, regional, and state governments and related institutions interact. They will understand how the urban economy is structured in interrelated sectors that influence each other locally and interact with sectors beyond the local city. They will understand how to interpret demographic patterns at various scales, from the city block to the metropolitan area.
- Either at least qualitatively or quantitatively students will demonstrate the ability of critical thinking about urban space.

**Program Requirements**

It is recommended that students planning an Urban Studies major take ENV-SCI 110R, ENV-SCI 210, or GEOLOGY 220 to satisfy part of the natural sciences area general degree requirements of the College. ENV-DSN 110 should be elected as one of the humanities area courses. In preparation for the core requirements of the urban studies major, the student should take ECON 201, SOCIOL 101, GEOG 105 and PSYCH 210.

### Concentration (18 hours)

In addition to the core requirements, 18 hours must be taken in an area of concentration:

- Community Development and Housing
- Community Organization and Social Services
- Urban Policy/Management

In consultation with an advisor, selected by the student or designated by the program director, students are expected to develop a program (reflecting interest and applicability to career goals) in one area of concentration: a required course and five electives from those listed under the concentration chosen. Students may not double count any core courses toward the 18 hours.

NOTE: Courses counted towards the core requirements can not be double-counted for the Area of Concentration

Internship (6 hours)

In developing internships, students should first contact the urban studies director.

The student is expected to participate in work activities in a community organization and receive instruction from agency staff. For each three hours of internship the student must spend 120 hours on site. In addition, the student is evaluated academically.

The internship may be repeated up to a maximum of three semesters and should be taken as URBAN ST 495. Other internship courses may satisfy this requirement with approval of the advisor.

Summary

During the first 60 hours of coursework, students are advised to fulfill prerequisites for core courses and for required courses in the urban studies concentration they choose. At the same time, students should fulfill general graduation requirements, where possible, through completion of courses listed under General Degree Requirements in Arts and Sciences.

When prerequisites and general requirements have been satisfied, students must complete for the urban studies major:

• Core course requirements: 24 hours
• Concentration requirements: 18 hours
• Internship: 6 hours

Total hours required for the major in urban studies: 48

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Minor in Urban Studies

Student Learning Outcomes

Students graduating with a minor degree in this field will:

• Students appreciate how gender, ethnicity, and race play important roles in understanding the city. They will be exposed to the broader public through internships in the community.
• Students will be able to demonstrate knowledge of how local, regional, and state governments and related institutions interact. They will understand how the urban economy is structured in interrelated sectors that influence each other locally and interact with sectors beyond the local city. They will understand how to interpret demographic patterns at various scales, from the city block to the metropolitan area.
• Either at least qualitatively or quantitatively students will demonstrate the ability of critical thinking about urban space.

Total Hours Required: 18 Minimum of 9 hours from UMKC (not transfer credits)

Courses selected to meet minor requirements cannot be double-counted. Academic Minors are optional. They will be noted on the academic transcript.

Department Description

The Department of Art and Art History is a dynamic environment that aims to provide all UMKC students with education and experience to develop their creative- and critical-thinking skills, art-making abilities, and their versatility in professional and personal situations. The Department serves a variety of students, ranging from the non-major to the professionally oriented. The department offers programs leading to the Bachelor of Arts and Master of Arts degree in Art History or Studio Art, as well as minors in each area. Art History also participates in the Interdisciplinary Ph.D. program.

Students studying Art History or Studio Art obtain a broad liberal arts foundation during their educational career and receive sound fundamental training in the arts. Small class sizes combined with interactive teaching methods offer a comprehensive learning environment for the aspiring arts professional. The department also collaborates with other departments and schools, and works with the School of Education (http://education.umkc.edu) on Art Education (http://info.umkc.edu/art/programs/ba-arted) degrees.

Kansas City is nationally known for its vibrant arts scene, with the UMKC Gallery of Art (http://info.umkc.edu/art/umkcgallery/contact), Urban Culture Project (http://www.charlottestreet.org/category/urban-culture-project), Plug Projects (http://www.plugprojects.com), Grand Arts (http://www.grandarts.com) and the many galleries in Crossroads Arts District (http://www.kccrossroads.org). Our department has partnerships with art organizations like Charlotte Street Foundation (http://www.charlottestreet.org), ArtsKC (http://www.artskc.org), Studios Inc (http://thestudiosinc.org), and others structure internships, networking, entrepreneurial mentoring and other professional development opportunities. Visiting artists and scholars (http://info.umkc.edu/art/about/lectures), gallery exhibitions (http://info.umkc.edu/art/umkcgallery/exhibitions), and enrichment programs supplement course work.

Outside of the classroom, physical proximity and close professional connections to the museums, studios, galleries, and art organizations in the Kansas City community offer students additional opportunities for exposure to new ideas, media, and special events. The extensive collection of The Nelson-Atkins Museum of Art (http://www.nelson-atkins.org) is located three blocks away, and there are also major contemporary collections nearby, including those of the Kemper Museum of Contemporary Art (http://www.kemperart.org), H&R Block Artspace (http://www.kcai.edu/hr-block-artspace), the Belger Arts Center (http://www.belgerartscenter.org), and the Nerman Museum of Contemporary Art (http://www.nermanmuseum.org).

Special Resources/Programs

UMKC Gallery of Art

The department is home to the UMKC Gallery of Art (http://info.umkc.edu/art/umkcgallery/contact). The gallery organizes curated shows from visiting local, national, and international artists, as well arranging shows of student and alumni work. The annual Student Art Exhibition is a guest-juried exhibition that features the work of the current student body.

Visual Resources Library (VRL)

The department is also home to the Visual Resources Library (http://info.umkc.edu/art/about/vrl), which hosts an online collection of approximately 45,000 digital images representing significant works of Western art and architecture, ancient through contemporary; the history of photography, printmaking, decorative arts and design; and art of Islam, Asia, Africa and the Americas. The VRL is also a space that hosts workshops for student needs and development, such as informational sessions about department events/opportunities as well as special events like the VRL Book Sale.

The Nelson-Atkins Museum of Art

The University of Missouri-Kansas City is fortunate to be adjacent to one of the most comprehensive and distinguished art museums in the country: The Nelson-Atkins Museum of Art (http://www.nelson-atkins.org). In addition to having ready access to the gallery’s collection, advanced students may be privileged to use the museum’s other facilities, such as the reference library, the acquisition records or the museum’s collections. Use of these facilities is undertaken only after consultation with a member of the faculty. Admission to the museum is free to everyone.

The Department maintains a close relationship with the museum through joint appointments, curator-taught seminars, student internships and other cooperative programs.

Undergraduate Admission Information

In undergraduate studies, the Studio Art (http://info.umkc.edu/art/programs/ba-studioart) and Art History (http://info.umkc.edu/art/programs/ba-arthistory) programs offer Bachelor of Arts degrees. For incoming freshmen, there are no special requirements beyond those for admission to the University. Transfer students to UMKC need to meet with both a department and a general education advisor prior to beginning classes to evaluate their transcripts to determine course equivalencies.

Program Overview

Degree programs in Studio Art and Art History at UMKC are the B.A. and the M.A. Art History also participates in the Interdisciplinary Ph.D. program. All the programs provide an exciting educational experience in a liberal arts setting.

The Studio Art faculty is comprised of accomplished and actively exhibiting artists, offering courses in drawing, painting, graphic design, print media, digital imaging, motion design, and photography. The faculty of six art historians, one a joint appointment with the Nelson-Atkins Museum, offer courses in the art and architecture of Ancient, Northern Renaissance, Baroque, Modern European, Contemporary, and American, Native American, African, and African-American cultures. The strong adjunct faculty consists of local artists, art educators and professionals. Curators from The Nelson-Atkins Museum
of Art (http://www.nelson-atkins.org) regularly offer advanced Art History courses, most recently on topics like Decorative Arts, Art and Patronage in 16th Century Rome, Islamic Art and the Spiritual in Contemporary Art.

Outside of the classroom, physical proximity and professional connections to the museums, studios and art organizations in Kansas City community offer students additional opportunities for internships, visiting artists, and enrichment programs to supplement coursework. Classes make use of the extensive collections at The Nelson-Atkins located three blocks away, as well as the major contemporary collections in Kansas City, including those of the Kemper Museum of Contemporary Art (http://www.kemperart.org), the Belger Arts Center (http://www.belgerartscenter.org) and the Nerman Museum of Contemporary Art (http://www.nermanmuseum.org). Kansas City is nationally known for its vibrant arts scene, with the UMKC Gallery of Art, the Urban Culture Project (http://www.charlottesstreet.org/urban-culture-project), the H&R Block Artspace (http://www.kcai.edu/hr-block-artspace), Grand Arts (http://www.grandarts.com) and the many galleries in Crossroads Arts district (http://www.kcccrossroads.org). Research in Art History is supported by the Miller-Nichols Library (http://library.umkc.edu/node) at UMKC, the Spencer Art Reference Library (http://www.nelson-atkins.org/education/Library.cfm) at the Nelson-Atkins Museum, and the Linda Hall Library (http://www.lindahall.org).

Career Opportunities

Career opportunities in Studio Art include education, arts administration and practicing art and design in fields of graphic design, interactive design, video arts, print media, photography, digital arts, painting and illustration. Graduates in the Studio Art programs at UMKC have found employment with Artist Inc (http://www.kcartistlink.org/artistinc), Hallmark (http://www.hallmark.com), Barkley (http://www.barkleyus.com), Epsten Gallery at Village Shalom (http://www.villageshalom.org), Review Publishing (http://ereview.org), the Kansas City Municipal Commission and as successful independent artists. Students have been accepted into graduate programs at institutions including the University of Missouri at Columbia (http://www.missouri.edu), Sam Fox School at Washington University (http://www.samfoxschool.wustl.edu/node/4145), Ohio State (http://www.osu.edu), Guildhall at Southern Methodist University (http://guildhall.smu.edu) and the Rhode Island School of Design (http://www.risd.edu).

Career paths in Art History include work in museums and galleries, educational institutions, and arts administration. Other career choices that mesh well with an Art History degree are publishing, art appraisal, non-profit art or history organizations, archival work, and library science. Graduates from the Art History M.A. program at UMKC have found positions at the Los Angeles County Museum of Art (http://www.lacma.org), Rhode Island School of Design, the Nelson-Akins Museum, the H&R Block Artspace, the Kemper Museum of Contemporary Art, Avila University (http://www.avila.edu), the Wadsworth Athenaeum (http://www.wadsworthatheneum.org), and the University of North Carolina at Chapel Hill (http://www.unc.edu), as well as right here at UMKC. The M.A. degree at UMKC provides an excellent preparation for doctoral work. Degree requirements are structured to give students a thorough background in research methodology, and courses are taught by faculty actively involved in research. Our graduates have continued their work toward the Ph.D. at institutions including the University of Chicago (http://www.uchicago.edu), Princeton University (http://www.princeton.edu), Case Western Reserve University (http://www.case.edu), the University of Michigan (http://www.umich.edu), and the University of Kansas (http://www.ku.edu).

Undergraduate

Undergraduate Degrees

Bachelor of Arts: Art History (p. 44)
Bachelor of Arts: Studio Art (p. 45)

Graduate

Graduate Degrees:

• Master of Arts: Art History (p. 47)
• Master of Arts: Studio Art (p. 48)

Bachelor of Arts: Art History

Student Learning Outcomes

1. Students graduating with a B.A. degree in Art History will:
   • Have a basic knowledge of both Western and Non-Western art history.
   • Cultivate aesthetic understanding and a life-long enthusiasm for history and the arts.
   • Develop skills and perspectives to understand art and architecture as complex cultural products.
   • Develop effective writing skills.
   • Be able to understand the context of information contained in scholarly publications.

2. Students graduating with a B.A. degree in Art History will be prepared for entry into a graduate program or the job market.
Art History Curriculum

Formal study of Art History begins with introductory survey courses. There are two courses in Western art (ART-HIST 201 and ART-HIST 202), a survey in contemporary art (ART-HIST 303), and two in non-Western art (ART-HIST 315 and ART-HIST 319). There are no prerequisites for these courses. Students are encouraged to take the survey sequence in Western art sequentially, if possible.

Lectures are intermediate-level courses and are assigned 400-level numbers. Seminars are advanced-level courses and are assigned 400- and 5000-level numbers. The prerequisite for these courses is the relevant survey course, or permission of the instructor.

Independent Study (ART-HIST 493: Directed Studies) and Internship classes (ART-HIST 497Q) may also help fulfill Art History Electives with the approval of an Art History advisor. Enrollment in these courses is granted only by the instructor who will supervise the study.

Program Requirements

</tr>
</tbody>
</table>

A 400-level course in non-Western art can count for this requirement OR towards the six 400-level courses requirement, but not both).

Grade-point Average Requirements

All art history majors are required to maintain a minimum of 2.5 GPA in art history courses.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts: Studio Art

Student Learning Outcomes

1. Students graduating with a B.A. degree in Studio Art will:
   - Have the basic skills for the practice of art in one or more specialized disciplines.
   - Develop creative, conceptual and technical skills in a variety of visual media to produce work that can effectively contribute to the larger creative community.
   - Develop professional skills appropriate to the discipline, including awareness of the latest advances in adapting technology for the creation of works of art, including appropriate software and hardware skills.
• Communicate ideas visually, verbally, and through the written word.
• Recognize and understand the relevance of global art history to the current practice of art.

2. Students graduating with a B.A. degree in Studio Art will be prepared for entry into a professional school, a graduate program or the job market.

**Studio Art Curriculum**

Formal study in Studio Art begins with foundation courses: ART 112, ART 114, ART 121, and ART 131. There are no prerequisites for these courses and non-majors and exploratory students are also encouraged to take foundation courses. They cannot be taken for graduate credit.

Intermediate and advanced courses typically require the foundation series and possibly other prerequisites. The areas of study are digital imaging, drawing, motion design, graphic design, photography, printmaking, and painting. ART 495: Special Topics may be offered that can count towards the Studio Electives. Recent Special Topics include screenprinting, art book publishing, and advertising campaigns (with Communication Studies).

Independent Study (ART 493: Directed Projects) and Internship classes (ART 498O and ART 498Q) may also help fulfill Studio Electives with the approval of a Studio Art advisor. Enrollment in these courses is granted only by the instructor who will supervise the study. Graduate credit is possible only when a student is admitted to graduate study.

Another important part of the Studio Art program is the Junior Portfolio Reviews that happen each spring semester. Students gather around 10 of their strongest pieces to present to a group of faculty and guests for a comprehensive critique of their work with suggestions for areas of growth, classes to take before graduating, and more. Many students benefit from this process so much that they do it again as a senior.

**Program Requirements**

Formal study in Studio Art begins with foundation courses. These are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 112</td>
<td>Foundation Drawing</td>
<td>3</td>
</tr>
<tr>
<td>ART 114</td>
<td>Foundation Digital Design</td>
<td>3</td>
</tr>
<tr>
<td>ART 121</td>
<td>Foundation 2D Design</td>
<td>3</td>
</tr>
<tr>
<td>ART 131</td>
<td>Foundation 3D Design</td>
<td>3</td>
</tr>
</tbody>
</table>

Studio Electives selected from at least 3 different areas: digital imaging, drawing, motion design, graphic design, photography, printmaking, and painting. At least 12 credit hours from Studio Electives must be on the 300 or 400 level.

Capstone:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 499WI</td>
<td>Senior Seminar</td>
<td>3</td>
</tr>
<tr>
<td>or ART 423WI</td>
<td>Design Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

Art History requirements

Select three from 200- and 300-level survey courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART-HIST 201</td>
<td>From Cave Paintings to Cathedrals</td>
</tr>
<tr>
<td>ART-HIST 202</td>
<td>From Michelangelo to Modernism</td>
</tr>
<tr>
<td>ART-HIST 303</td>
<td>World Currents of Contemporary Art</td>
</tr>
<tr>
<td>ART-HIST 315</td>
<td>The Arts Of African and New World Cultures</td>
</tr>
<tr>
<td>ART-HIST 319</td>
<td>Asian Art</td>
</tr>
</tbody>
</table>

One 400-level Art History course (with appropriate 200- or 300-level prerequisite).

Total Credits 51

1. Up to 6 additional credit hours in Art History can be counted toward the 24 Studio Elective credit hours with preapproval from a studio faculty advisor.

**Grade-point Average Requirements**

All studio art majors are required to maintain a minimum 2.5 GPA in studio art courses.

**Tools for Planning and Filling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.
Master of Arts: Art History

Applications for Graduate Study

Applications for the M.A. degree in Art History are reviewed continually during the calendar year. However, students must have their applications completed by November 15 for admission for the spring semester and by June 15 for the fall term. To be considered for graduate assistantships (GTAs) and fellowships during the following academic year, and for maximum choice in coursework for the first semester, fall candidates need to have their application submitted by February 1.

How to Apply for the M.A. in Art History:

- To Office of Admissions (http://www.umkc.edu/admissions)
  - Application ($35 online, $45 paper)
  - Transcripts
- To Department of Art & Art History (http://info.umkc.edu/art/about/contact), Attention: Graduate Advisor in Art History
  - Writing Sample
  - Two letters of recommendation
  - Personal statement, addressing: 1) Reason(s) for pursuing admittance into graduate-level study, 2) Reason(s) for choosing UMKC’s Department of Art & Art History as educational institution, 3) Ultimate professional ambitions, and 4) Why you should be selected for the M.A. program.

Art History Classification of Entering Students

Admission to the graduate program in art history requires a B.A. or equivalent degree and sufficient undergraduate study in art history to provide a sound foundation for advanced study. Ideally, this foundation would include a solid grounding in the history of Western art, some study of non-Western art, and sufficient advanced-level work to indicate that a student can succeed in the specialized or topical courses and seminars associated with graduate study. Admission review is done by the graduate advisor in Art History.

The applicant should have, in addition to a good general education in the humanities, 18 to 24 credit hours in art history with a grade-point average of 3.0 or better. Students with fewer hours and/or a restricted exposure to other humanities and fine arts courses, or having inconsistent grades, are eligible for admission to the graduate program on the basis of recent evidence indicating the potential for success, such as performance in 400-level courses, or through papers and exams for courses elsewhere. If there are some deficiencies in preparation that can be met readily by one or two undergraduate survey courses, a student will be admitted to graduate study. However, the survey courses must be taken for undergraduate credit before the student is allowed to take the qualifying examination that is required for advancement to degree candidacy.

Applicants lacking the minimum preparation deemed necessary for admission to graduate-level study in art history may make up their deficiency through enrollment in selected undergraduate courses offered by the department. These will be determined after consultation with a faculty advisor and in all cases must include 400-level work. Progress will be reviewed at the end of each term, and if warranted, reclassification to graduate status will occur prior to the start of the next semester.

Student Learning Outcomes

1. Students graduating with an MA in Art History will:
   - Have an advanced knowledge of specialized areas of art history.
   - Cultivate independent and original thinking.
   - Employ comprehensive communication through written, oral, and technological methods.
   - Express aesthetic appreciation of art and architecture.
   - Explain works of art and architecture as complex cultural products.

2. Students graduating with an MA in Art History will be prepared for entry into a PhD program or the job market.

Requirements for Graduation

All degree candidates are required to take a minimum of 30 graduate credits, including ART-HIST 5501, and a maximum of 6 credit hours of ART-HIST 5999. Other courses are determined in consultation with the advisor and the supervising committee for the thesis.

Special Requirements

Requirements for Retention

A student must maintain a graduate grade-point average of 3.0. In extenuating circumstances, a student may petition the Department of Art and Art History to be continued as a graduate student for one term (or 6 hours) if the graduate GPA falls below 3.0. The deficiency must be remedied during the approved probationary period if the student is to be continued.
Reading Knowledge in Foreign Language

M.A. students must acquire a reading knowledge of one foreign language considered essential to advanced study in art history before beginning the M.A. thesis. Students are encouraged to acquire this skill as early as possible in their graduate studies, so they may use it in graduate seminars and research papers. This requirement is most often fulfilled by three semesters at the college level, with a grade of B or better in the third semester. Students who believe they have acquired a sufficient reading knowledge, but have not completed three semesters of language training at the college level, may petition the graduate advisor to take a reading exam in that language. Normally, however, three semesters of college-level study are necessary to achieve sufficient mastery.

Thesis

The final requirement for the M.A. degree in Art History is the M.A. thesis, which is normally begun two semesters before a student completes the degree. The thesis is an approved project that demonstrates capacity for independent work of a suitably high level of proficiency, one utilizing the primary sources available on the topic in English and in the foreign language that meets the program requirement, as well as the major relevant secondary sources. This project, selected in conjunction with the thesis advisor most often develops from a seminar paper, and its presentation must conform to the requirements of the School of Graduate Studies.

Summary of Forms

1. Master’s Degree Program of Study – filled out by the student and the graduate advisor/principal advisor in the department.
2. Recommendation for Appointment of Advisor or Supervisor/Examination Committee form – filled out by the student and the graduate advisor in the department.
3. Report of Results of Examination for Master’s Degree Students Form – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.
4. Intent to Graduate – filled out by the student at the Records Office in the Administrative Center (no faculty signature required)
5. Thesis Review/Examination – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.

Master of Arts: Studio Art

M.A. in Studio Art Overview

For Studio Art, the UMKC Department of Art and Art History only offers the Master of Arts Degree, which is not the terminal degree in studio art and will not qualify candidates to teach on the University level. The M.A. in studio art has the following emphasis areas: painting, drawing, printmaking, photography, digital imaging, motion design, and graphic design. Most students will take the majority of their coursework as independent study classes under the direction of one faculty member in the graduate student’s area of emphasis. Students must decide which single emphasis area they plan to pursue before they apply for graduate school in the Department of Art and Art History.

Applications for Graduate Study in Studio Art

Application deadline is February 1 for the Fall semester and October 15 for the Spring semester. There is no summer semester admission.

How to Apply:

- To Office of Admissions (http://www.umkc.edu/admissions)
  - Application ($35 online, $45 paper)
  - Transcripts
- To Department of Art & Art History, Attention: Graduate Advisor in Studio Art
  - Portfolio of recent work on CD is with 15-20 images (jpeg/bmp/QT/AVI/Flash)
  - Listing the images’ titles, dates, sizes and media (hard-copy)
  - CV/resume
- Personal statement, addressing:
  i Reason(s) for pursuing admittance into graduate-level study,
  ii Reason(s) for choosing UMKC’s Department of Art & Art History as educational institution,
  iii Focus of art work,
  iv Ultimate professional ambitions, and
  v Why you should be selected for the M.A. program.
- Three letters of recommendation from art professionals or professors

Applications are reviewed by a committee of Studio Art faculty.
Student Learning Outcomes

1. Students graduating with an M.A. in Studio Art will:
   - Have an advanced knowledge of a specialized area of studio art.
   - Develop creative, conceptual and technical skills in a variety of visual media to produce work that can effectively contribute to the larger creative community.
   - Communicate ideas visually, verbally, and through the written word.
   - Recognize and understand the relevance of global art history to the current practice of art.
   - Develop professional skills.
   - Be proficient in adapting technology for the creation of works of art, including computer skills and digital photography.

2. Students graduating with an M.A. in Studio Art will be prepared for entry into an M.F.A. program or the job market.

Degree Requirements

A minimum of 36 graduate credit hours is required for the M.A. degree in studio art, including a minimum of six hours of ART 5599, and three courses in Art History on the 400- or 5000-level. Additional courses are determined in consultation with the discipline advisor and the supervising thesis committee. Courses are usually three credit hours each and are offered at both the 400 and 5000 levels. Any course counted as part of the required 36-hour minimum must be taken for credit. Students may take no more than 14 hours of 400-level classes (40 percent of a 36-hour program). Any 400- or 5000-level course taken for graduate credit must be completed with a grade of B- (2.7) or better in order to be counted toward the M.A. degree.

Each student’s program of study is designed in consultation with the lead professor in the primary discipline, who will be their principal art advisor. There is no general distribution requirement within the studio courses taken, but the student’s choice and mix of classes needs to be approved by their art advisor. Courses in disciplines outside the Art and Art History department may be applied toward the degree with the preapproval of the student’s principal art advisor.

Thesis Committee

After completion of an 18 to 21-hour minimum, the student selects a thesis committee. Normally, the faculty member in the student’s major studio discipline is requested to act as chair of the thesis committee in addition to two other faculty members who have been asked by the student to serve on the committee. The chair of the thesis committee must be on the graduate faculty. Members of the thesis committee may include other studio faculty, an art historian or a faculty member from another department within the University. Typically, all three members of the thesis committee are faculty with whom the student has had some association. At this stage, the thesis chair consults with the student, who then submits a Master’s Degree Program of Study form to the principal graduate advisor. This form is forwarded to the chair of the Department of Art and Art History, the dean of The College of Arts and Sciences and the Graduate Office.

M.A. Qualifying Exam (Review)

At some appropriate time after the completion of 18 to 21 hours toward the M.A. degree and before the beginning of the thesis, a review of the student’s studio work by the chosen thesis committee is held. The purpose of this review is to determine the readiness of the student to engage in thesis-level work. For this review, the candidate presents a body of studio work representing both their present accomplishments and the potential for a thesis project. The student will also submit a prospectus for the intended thesis work. In an oral discussion with the thesis committee, student will explain the concept of the thesis and how this work will contribute to their continued art production. The committee will ask questions of the student and assess the progress of the work in order to determine whether the student should be allowed to advance to the final hours of class work leading to thesis. The thesis committee must approve the research plan and has a right to refuse it if the student does not have an available thesis project. If the prospectus is refused, the committee will make suggestions on how to improve the thesis proposal and a second review will be scheduled at a future date. Additional coursework may be recommended.

Thesis Procedure

The student plans a body of work to pursue a clearly identified artistic concept in consultation with his/her committee. An Appointment of Thesis Committee form with the names of the student’s committee members is filled out by the student in consultation with the departmental principal graduate studio advisor and sent to the associate dean for graduate studies of the College of Arts and Sciences as well as to the Office of Graduate Faculties and Research. If, at any point during the thesis process, the student’s committee is changed, an updated version of the form must be resubmitted. It is the responsibility of students to notify the principal graduate studio advisor of any changes in the composition of their committee, allowing the proper forms to be corrected.

At the beginning of the final semester of the student’s program of study, he or she must fill out Intent to Graduate form, available online and from the Office of Registration and Records. This form enables the student to be placed on the graduation roll and on a mailing list to receive materials concerning graduation and other important information. If, for some reason, the student does not graduate that semester, he or she is required to file another form the subsequent semester. The deadline for the Intent to Graduate form is listed in the front part of each semester’s catalog of courses.
Review of Thesis

(Defense/Public Manifestation of Work)

Upon completion of the thesis body of work, the student presents the work to his or her thesis committee for final review and approval. This review must be in the form of a public exhibit or performance. This exhibit can be held in the UMKC Gallery of Art or any other public location within the Kansas City metropolitan area.

Summary of Forms

1. Master’s Degree Program of Study – filled out by the student and the graduate advisor/principal advisor in the department.
2. Recommendation for Appointment of Advisor or Supervisor/Examination Committee form – filled out by the student and the graduate advisor in the department.
3. Report of Results of Examination for Master’s Degree Students Form – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.
4. Intent to Graduate – filled out by the student at the Records Office in the Administrative Center (no faculty signature required)
5. Thesis Review/Examination – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.

Bioethics

Online Degree Certificate Program in Bioethics

The Department of Philosophy, in conjunction with the Department of History and the Sirridge Office of Medical Humanities and Bioethics, offers an online graduate certificate program in Bioethics. The program provides a foundation in the history and theory of bioethics, a deeper understanding of healthcare law and policy, and the skills necessary to engage in ethics consultation and case review. Students who complete the program receive training in ethical issues related to clinical care and research involving human subjects.

Students working toward an Interdisciplinary Ph.D., Master of Arts in Liberal Studies, or any other graduate degree program will be able to complete the required courses and receive a graduate level certificate in bioethics. In addition to students completing other degrees at UMKC, students with appropriate academic credentials may apply solely to the certificate program.

Office Location:

Cockefair Hall, Room 222
5121 Rockhill Road
(816) 235-1331
Fax: (816) 235-2819

Graduate Certificate in Bioethics

The Department of Philosophy, in conjunction with the Department of History and the Sirridge Office of Medical Humanities and Bioethics, offers an online graduate certificate program in Bioethics. The program provides a foundation in the history and theory of bioethics, a deeper understanding of healthcare law and policy, and the skills necessary to engage in ethics consultation and case review. Students who complete the program receive training in ethical issues related to clinical care and research involving human subjects.

The goal of the online certificate program in bioethics is to provide health professionals with the knowledge and skills necessary to effectively resolve ethical dilemmas they encounter in clinical practice.

Students working toward an I.Ph.D., Master of Arts in Liberal Studies, or any other graduate degree program will be able to complete the required courses and receive a graduate level certificate in bioethics. In addition to students completing other degrees at UMKC, students with appropriate academic credentials may apply solely to the certificate program.

Student Learning Outcomes:

By the end of the program the student will

• Identify key historical events in bioethics
• Identify foundational principles of bioethics
• Understand key legal cases and concepts
• Have an understanding of health policy and ethics
• Be able to identify and utilize resources in bioethics
• Be able to effectively identify and resolve ethical conflicts in healthcare

Program Requirements

The certificate program consists of four courses, 3 credit hours each (12 credit hours total). They include PHILOS 5550 History and Philosophy of Bioethics, PHILOS 5551 Healthcare Law and Policy, PHILOS 5552 Clinical Ethics Case Consultation, and PHILOS 5690 Research in Selected Fields: Graduate Study.

Program Description

The UMKC Black Studies Program is an academic unit that holistically investigates the experience, contributions and conditions of African-descent people in the formation and evolution of American society and culture. In accordance with these objectives, our focus extends to an examination of the active role of Africa and the African Diaspora in global society and human culture. The Black Studies Program – through both a social science and a humanities orientation – provides a unique and rich approach to exploring and comprehending the human experience.

The Black Studies Program is focused on the acquisition and dissemination of an instructive body of knowledge. The curriculum prepares students with a critical skillset that will enable them to pursue diverse employment opportunities. The Program makes available to students the foundational research for undergraduate, graduate and professional training in the discipline of Black Studies.

The Program currently offers undergraduate courses that can lead to a minor in Black Studies. Students can also obtain an Emphasis Area in Black Studies through the Bachelor of Liberal Arts Program. Black Studies offers students from any graduate discipline coursework toward a Graduate Certificate. In addition, coursework is available at the graduate level leading to an Informal Emphasis in Black Studies under the Master of Arts in Liberal Studies Degree (http://cas.umkc.edu/mals).

Faculty

Program Director:
Adrienne Walker Hoard, EdD

Program Advisors:
Dr. Adrienne Walker Hoard - Undergraduate
Dr. Clovis E. Semmes - Graduate

Professor(s):
Adrienne Walker Hoard, MFA, EdD
• Art/Studio Art (Color Theory, African/African American Art), Art-History, African American Art-History and Black Studies.
Clovis E. Semmes, PhD
• Black Studies and Sociology (African American Business Development, the Black Family, Critical Health Issues).

Associate Professor:
Jacqueline E. Wood, PhD
• Black Studies and English (Drama, Literature, Poetry).

Visiting Professor:
Veronica N. Wilson-Tagoe, PhD
• Black Studies, Black Atlantic Studies, Gender Studies, Literature (African, African American, Black British, British, Caribbean and Comparative), Literary Theory and Postcolonial Studies.

Library Co-Liaison(s):
Tracey Hughes, MISLT, MAL
• Library Instruction and Reference
Gloria Tibbs, MLS
• Collection Development and Reference

Administrative Assistant:
LaDonna McCullough

**Undergraduate**

The Black Studies Program at UMKC provides instruction for undergraduate students to develop proficiency in written and oral communications regarding the study of African descent people in the Americas and in the African Diaspora. Our curriculum offers in-depth knowledge regarding an African perspective on political systems, humanities contributions and social science research in higher education. While contributing to the general education requirements of UMKC in both the humanities and the social sciences, our program serves to enhance the global literacy and professional development of our undergraduate populations.

**Undergraduate Degrees:**
- Bachelor of Liberal Arts: Black Studies Emphasis (p. 53)

**Undergraduate Minor:**
- Minor in Black Studies (p. 58)

**Graduate**

The Black Studies Program provides critical skill sets in written and oral communication, research, analysis, theory building, multicultural understanding and global awareness. Through a holistic examination of the African American experience, we are committed to enhancing general education and to promoting professional development as well as the training of scholars in the field.

**Graduate Degrees:**
- Master of Liberal Studies: Black Studies Informal Emphasis (p. 56)

**Graduate Certificates:**
- Certificate in Black Studies (p. 55)

**Bachelor of Liberal Arts: Black Studies Emphasis**

**Student Learning Outcomes:**

1. Demonstrate a holistic understanding of the experience, contributions, and condition of African-descent peoples in the evolution and formation of American society and culture.

2. Illustrate a basic understanding of the active role of Africa and the African Diaspora in global society and human culture.

3. Apply Black Studies curriculum as a critical tool to understand the human experience generally.

4. Identify the breadth and depth of perspectives that give respect and voice to the Black experience.

5. Apply social science and humanistic approaches to examine human society and culture.

6. Demonstrate advanced skills in critical thinking, written and oral communication, research, analysis, theory building, multicultural understanding, and global awareness.

**Program Requirements:**

The emphasis area in Black Studies assists undergraduate students who want to obtain graduate and professional degrees in a variety of fields (master’s degrees, Ph.D.’s, law, public health, counseling, social work, educational administration, business, journalism, social work, medicine, library or information science, public policy, public administration, and so on) where specialized knowledge of the broad-based experiences and perspectives of African descent peoples would be useful. At the same time, students learn skill sets that are applicable to a wide variety of circumstances, which prepare them for entry-level positions in private industry, government, and public or non-profit agencies.

Students must take **30 hours of Black Studies courses** to complete the emphasis area in Black Studies under the Bachelor of Liberal Arts Degree. A minimum of 24 hours of Black Studies courses must be at the 300 or 400 level or above. A minimum of 24 credit hours must be earned at UMKC.

Students declaring the Black Studies Emphasis under the Bachelor of Arts in Liberal Studies must meet with the Black Studies undergraduate adviser (http://cas.umkc.edu/blackstudies/faculty.asp) to begin a plan of study prior to enrolling in courses.

Twelve of the 30 hours of coursework must include the **Core Black Studies courses:**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLKS 201</td>
<td>Global Systems and the Origins of Black American Culture and Institutions</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 302</td>

<td>3</td>
</tr>
<tr>
<td>BLKS 403WI</td>
<td>Writing for African American Studies</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 404</td>
<td>Research Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>
Beyond the 12 hours of required core courses, students must pursue either a **humanities focus** in Literature and Culture or a **social science focus** in Institutions and Social process (within the field of Black Studies), two focus areas already existing as divisions in the BLA degree.

**Humanities Focus—Literature and Culture (15 credits):**

- Under this focus the Black Studies emphasis will require four courses (12 credits) from the humanities track and one course (3 credits) from the social science track.

**Social Science Focus—Institutions and Social Process (15 credits):**

- Under this focus the Black Studies emphasis will require four courses (12 credits) from the social science track and one course (3 credits) from the humanities track.

Examples of elective undergraduate courses in Black Studies are:

<table>
<thead>
<tr>

<td>3</td>
</tr>
</tbody>
</table>

Examples of Black Studies, BLKS 5580 Special Topics courses with a **Humanities Focus** are:

- African American Art History, Pt. 1: 1600-1960
- African American Art History, Pt. 2: 1960-Present Day
- African American Experience in Literature (1773-1960)
- African American Migrations in Literature
- Africana Arts Survey: Symbols and Codes in the Diaspora
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of Black Studies, BLKS 5580 Special Topics courses with a **Social Science Focus** are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop’s Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining **3 hours of coursework** as an **approved community engagement project/research** under **Directed Study**, BLKS 490 or through **Internship**. Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

Students cannot earn credit toward the Emphasis Area in Black Studies with a grade below a "C" in a Black Studies course.

To graduate with an Emphasis Area in Black Studies, students must achieve a minimum grade-point average of 2.0 in all courses accepted toward the emphasis area.

For more information on the Black Studies Program, please visit [http://cas.umkc.edu/blackstudies/](http://cas.umkc.edu/blackstudies/).

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps ([http://www.umkc.edu/majormaps](http://www.umkc.edu/majormaps)) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.
UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

**Graduate Certificate in Black Studies**

**Graduate Certificate in Black Studies:**

The Black Studies Program at the University of Missouri-Kansas City offers a graduate certificate in Black Studies. The certificate permits students to augment their graduate and professional work with specialized training in Black Studies.

Black Studies is a liberal arts specialty that typically draws from multiple fields of inquiry. The graduate certificate in Black Studies advances students’ awareness of the multidisciplinary and trans-disciplinary character of the field, key theoretical issues that form the parameters of this specialty, and important tools for producing knowledge in Black Studies. The graduate certificate familiarizes students with the expansive character of existing knowledge in Black Studies and shows how this knowledge can be used to understand the human experience generally.

The graduate certificate offers a coherent and focused course of study for any graduate student. The certificate also prepares students to seek advanced degrees with an emphasis is Black Studies if they choose to do so. **Applicants seeking to enroll in the graduate certificate may do so as a free-standing option or within a UMKC degree program.**

**Admission Criteria:**

To be admitted to the graduate certificate program in Black Studies, students must be admitted as a graduate student to the University of Missouri-Kansas City and have an overall grade-point average of 3.25. They must have had an acceptable introductory course in the field of Black Studies (which may come from programs or departments of Black Studies, African American Studies, African Studies, Pan African Studies, and the like) from an accredited college or university.

If a student has not had an introductory course in the field, he or she must pass BLKS 201, with a grade of C or better.

Applicants whose undergraduate GPA is less than 3.25 may be considered for admission upon petition to the Graduate Admission Committee for the Black Studies Program.

**Prospective students applying for admission must:**

1. Complete the online UMKC Graduate Application.
2. Submit official transcripts from an accredited institution showing the awarding of an undergraduate degree. Transcripts are considered official if they are received in a sealed envelope from the institution or sent electronically to the UMKC Office of Admissions (admit@umkc.edu).
3. Provide an Academic Writing Sample.
4. Provide three letters of recommendation to the Black Studies Graduate Admission Committee at the Black Studies Program, 5305 Holmes Road, Kansas City, Missouri 64110

The *priority deadline* to apply for Fall Semester is March 1. The *final deadline* to apply for Fall semester is August 1. The *deadline* to apply for Spring semester is November 1.

**Student Learning Outcomes**

1. Demonstrate knowledge of the historical development of African American studies as an academic field.
2. Be able to review and evaluate the work of key scholars in the field of African American studies.
3. Demonstrate the ability to apply foundational ideas in African American studies in the interpretation of historical, political and social phenomena.

**Program Requirements:**

To earn the graduate certificate in Black Studies students must complete 18 hours of graduate course work in Black Studies, which does not include BLKS 201. At least 12 hours must be at or above the 5500 level. Students must maintain a 3.0 grade-point average while enrolled. The requirements for the certificate must be completed within two (2) years. Students should seek advising from the Black Studies Program graduate advisor prior to beginning a Plan of Study and to make sure they have met the requirements for the certificate.

The 18 hours of course work must include the three core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLKS 5502</td>
<td>Conceptual and Theoretical Foundations in African American Studies</td>
<td>(must be taken during the first year)</td>
</tr>
<tr>
<td>BLKS 5503</td>
<td>Writing for African American Studies</td>
<td>(must be taken during the first year; fulfills MALS introductory seminar requirement)</td>
</tr>
<tr>
<td>BLKS 5504</td>
<td>Research Seminar</td>
<td>(must be taken during the final year; fulfills MALS capstone seminar requirement)</td>
</tr>
</tbody>
</table>
Students who may have taken undergraduate versions of these courses must complete them at the required graduate level.

Beyond the three required core courses, students must complete 6 hours of electives in Black Studies, which includes any graduate level course with a Black Studies prefix (BLKS).

Examples of elective graduate courses in Black Studies are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLKS 5520</td>
<td>Critical Health Issues in Black Communities (Social Science Focus)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5521</td>
<td>The Black Family &amp; Male-Female Relationships (Social Science Focus)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5525</td>
<td>African American Business Development (Social Science Focus)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5534</td>
<td>From Field Shout to Hip Hop: African American Poetic Traditions (Humanities Focus)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5535</td>
<td>Stages toward Freedom: African American Dramatic Traditions (Humanities Focus)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5537</td>
<td>The Civil Rights Movement in African American Literature (Humanities Focus)</td>
<td>3</td>
</tr>
</tbody>
</table>

Electives may also be Special Topics courses, BLKS 5580. At least one of the electives courses may have a humanities focus, and at least one of the elective courses may have a social science focus.

Examples of Black Studies, Special Topics (BLKS 5580) courses with a Humanities Focus are:

- African American Art History, Pt. 1: 1600-1960
- African American Art History, Pt. 2: 1960-Present Day
- African American Experience in Literature (1773-1960)
- African American Migrations in Literature
- Africana Arts Survey: Symbols and Codes in the Diaspora
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of Black Studies, Special Topics (BLKS 5580) courses with a Social Science Focus are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining 3 hours as an approved community engagement project/research under Directed Study, BLKS 5590, or Internship, BLKS 5580. Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

To learn more about the Graduate Focus in Black Studies, please click here (http://cas.umkc.edu/blackstudies/pdfs/BLKS-graduate-certificate.pdf). For more information on the Black Studies Program, please click here (http://cas.umkc.edu/blackstudies).

**Master of Arts in Liberal Studies: Black Studies Informal Emphasis**

**Admission Requirements:**

Students may be admitted to the Informal Emphasis in Black Studies if they have a baccalaureate degree in Black Studies or an equivalent degree from an accredited college or university with an overall grade-point average of 3.25. Applicants whose undergraduate GPA is less than 3.25 may be considered for admission upon petition to the Graduate Admission Committee for the Black Studies Program.

Students who have a baccalaureate degree with an overall GPA of 3.25 or better and who did not major in Black Studies may be conditionally admitted to the Program upon consultation with the program’s graduate adviser (http://cas.umkc.edu/blackstudies/faculty.asp) and enrollment into the Black Studies introductory course, BLKS 201.

Upon satisfactory completion of the above course, the student must receive final approval from the Black Studies Director for full admission to the Informal Emphasis Area.

Prospective students applying for admission must submit, in addition to the UMKC application, the following documents:

1. A “Statement of Purpose” in the form of a personal essay of approximately 1,000 words outlining the focus area the applicant wishes to pursue. The statement should include the student’s reasons for applying to the Program along with their academic plans and goals.
2. An Academic Writing Sample.
3. 3 Letters of Recommendation.
4. Official transcripts from an accredited institution showing the awarding of an undergraduate degree. Transcripts are considered official if they are received in a sealed envelope from the institution or sent electronically to the UMKC Office of Admissions (admit@umkc.edu).

These documents (except the UMKC application) should be sent directly to the Master of Arts in Liberal Studies Program. The documents can be sent in print form to: Ms. Marsha Carothers, Research Associate, MALS Program, 106 Cockefair Hall, UMKC, 5100 Rockhill Road, Kansas City, MO 64110.

Electronic copies may also be submitted as either Word or PDF attachments to an email to carothersm@umkc.edu.

Applications that indicate Black Studies as the focus area will be forwarded to the respective program for review by the Graduate Admission Committee for Black Studies.

Prior to submitting an application, prospective students should speak with the Black Studies graduate advisor (http://cas.umkc.edu/blackstudies/faculty.asp).

The priority deadline to apply for Fall Semester is March 1. The final deadline to apply for Fall semester is August 1. The deadline to apply for Spring semester is November 1.

**Student Learning Outcomes:**

1. Demonstrate knowledge of the historical development of African American studies as an academic field.
2. Be able to review and evaluate the work of key scholars in the field of African American studies.
3. Demonstrate the ability to apply foundational ideas in African American studies in the interpretation of historical, political and social phenomena.

**Program Requirements:**

The degree is a 36 credit hour program. Students who elect to participate in the Black Studies Informal Emphasis area should begin by enrolling in the Black Studies core courses, BLKS 5502 and BLKS 5503 (fulfills MALS introductory seminar requirement) and during their last year of the program, students should enroll in BLKS 5504 (fulfills MALS capstone seminar requirement).

**Thesis Option**

A written thesis is not required, however students who have a particular interest that lends itself to detailed research are especially encouraged to consider the thesis option. Students who wish to complete a thesis project may apply three credit hours from BLKS 5599 toward their degree requirements. With the thesis option, the students must select a Black Studies faculty member as their thesis advisor who will direct the plan of study and research.

**Plan of Study**

Students who elect to earn an Informal Emphasis in Black Studies under the Master of Arts in Liberal Studies Program are strongly encouraged to meet with the Black Studies graduate adviser (http://cas.umkc.edu/blackstudies/faculty.asp), prior to enrolling in courses, in order to begin their Plan of Study worksheet. Graduate students should complete the three core courses listed below. Please note, that those students who may have taken undergraduate versions of the core courses must complete them at the graduate level.

The three core courses are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLKS 5502</td>
<td>Conceptual and Theoretical Foundations in African American Studies (must be taken during the first year)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5503</td>
<td>Writing for African American Studies (must be taken during the first year; fulfills MALS introductory seminar requirement)</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5504</td>
<td>Research Seminar (must be taken during the final year; fulfills MALS capstone seminar requirement)</td>
<td>3</td>
</tr>
</tbody>
</table>

Students should work with the Black Studies graduate adviser (http://cas.umkc.edu/blackstudies/faculty.asp), prior to the start of each semester, in order to review their plan of study worksheet and make sure they are accurately fulfilling the additional 27 hours of elective course work that is relevant to the field. Recommended courses include all graduate-level courses with a Black Studies prefix and other courses approved by the Director of the Black Studies Program.

Examples of elective graduate courses in Black Studies are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLKS 5520</td>
<td>Critical Health Issues in Black Communities</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5521</td>
<td>The Black Family &amp; Male-Female Relationships</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5525</td>
<td>African American Business Development</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 5534</td>
<td>From Field Shout to Hip Hop: African American Poetic Traditions</td>
<td>3</td>
</tr>
</tbody>
</table>
Electives may also be Special Topics courses, BLKS 5580, or the Research Thesis, BLKS 5599. Students are encouraged to take elective courses in both the humanities and the social sciences.

Examples of Black Studies, Special Topics (BLKS 5580) courses with a Humanities Focus are:

- African American Art History, Pt. 1: 1600-1960
- African American Art History, Pt. 2: 1960-Present Day
- African American Experience in Literature (1773-1960)
- African American Migrations in Literature
- Africana Arts Survey: Symbols and Codes in the Diaspora
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of Black Studies, Special Topics (BLKS 5580) courses with a Social Science Focus are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining 3 hours of course work as an approved community engagement project/research under the Directed Study, BLKS 5590 or through Internship, BLKS 5580. Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

To learn more about the Black Studies Informal Emphasis, please click here (http://cas.umkc.edu/blackstudies/pdfs/RecommendedProgramMALSRevised.pdf). For more information on the Master of Arts in Liberal Studies Degree, please click here (p. 187).

Minor in Black Studies

Student Learning Outcomes

1. Demonstrate a holistic understanding of the experience, contributions, and condition of African-descent peoples in the evolution and formation of American society and culture.
2. Illustrate a basic understanding of the active role of Africa and the African Diaspora in global society and human culture.
3. Apply Black Studies curriculum as a critical tool to understand the human experience generally.
4. Identify the breadth and depth of perspectives that give respect and voice to the Black experience.
5. Apply social science and humanistic approaches to examine human society and culture.
6. Demonstrate advanced skills in critical thinking, written and oral communication, research, analysis, theory building, multicultural understanding, and global awareness.

Program Requirements:

Students who elect to earn a minor in Black Studies must meet with the Black Studies undergraduate advisor (http://cas.umkc.edu/blackstudies/faculty.asp) to begin a plan of study prior to enrolling in courses toward the minor. There are 18 credit hours of prescribed coursework, of which nine hours must be at the 300 or 400 levels, and a minimum of nine hours must be earned at UMKC.

The four Black Studies Core Courses are required for the minor:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BLKS 201</td>
<td>Global Systems and the Origins of Black American Culture and Institutions</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 302</td>
<td>Conceptual and Theoretical Foundations in African American Studies</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 403WI</td>
<td>Writing for African American Studies</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 404</td>
<td>Research Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>
To complete the minor, students must take three (3) hours of elective credit under Black Studies. Courses approved for the minor will appear under the Black Studies prefix (BLKS), this includes Special Topics, BLKS 480.

Examples of elective undergraduate courses in Black Studies are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

<tr>
<td>BLKS 337</td>
<td>The Civil Rights Movement in African American Literature</td>
<td>Humanities Focus</td>
<td>3</td>
</tr>
<tr>
<td>BLKS 338</td>
<td>Women's Literature in Africa and the African Diaspora</td>
<td>Humanities Focus</td>
<td>3</td>
</tr>
</tbody>
</table>

Examples of Black Studies, Special Topics (BLKS 480) courses with a Humanities Focus are:

- African American Art History, Pt. 1: 1600-1960
- African American Art History, Pt. 2: 1960-Present Day
- African American Experience in Literature (1773-1960)
- African American Migrations in Literature
- Africana Arts Survey: Symbols and Codes in the Diaspora
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of Black Studies, Special Topics (BLKS 480) courses with a Social Science Focus are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining 3 hours of coursework as an approved community engagement project/research under Directed Study, BLKS 490 or through Internship. Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

Students wishing to graduate with a Minor in Black Studies must achieve a minimum grade-point average of 2.0 (cannot be below a "C") in Black Studies courses.

To learn more about the Black Studies Program, please click here (http://cas.umkc.edu/blackstudies/default.asp).

University of Missouri-Kansas City
Department of Chemistry
SCB 205
5100 Rockhill Road
Kansas City, MO 64110-2499
Department Chair:
Kathleen V. Kilway

Professors Emeriti:
John W. Connolly, Wesley Dale, Henry A. Droll, Peter Groner, Eckhard W. Hellmuth, Y.C. Jerry Jean (Curator’s Distinguished Teaching Professor Emeritus), Peter F. Lott, Layton L. McCoy, Timothy F. Thomas, Charles J. Wurrey (Curator’s Distinguished Teaching Professor Emeritus and James C. Olson’s Professor of Chemistry)

Curators’ Professors:
Jerry R. Dias (chemistry), James R. Durig (chemistry and geosciences), Kathleen V. Kilway (chemistry and chair)

Professors:
Keith R. Buszek, Andrew J. Holder, Zhonghua Peng (principal graduate advisor), Thomas C. Sandreczki (associate dean, arts and sciences), Kenneth S. Schmitz

Associate Professors:
J. David Van Horn

Associate Teaching Professors:
Andrea Drew Gounev (coordinator: organic chemistry laboratories and undergraduate advisor), Todor K. Gounev (program director)

Assistant Professors:
Xiaobo Chen, Nathan A. Oyler, Fedor Rudakov

Assistant Teaching Professors:
Paul Barron (coordinator: general chemistry laboratories and undergraduate advisor)

Department Description
The Department of Chemistry offers programs of study leading to the bachelor of arts, bachelor of science and master of science degrees, and participates in UMKC’s Interdisciplinary Ph.D. program. To the extent that each program is flexible (see degree requirements), it is possible to specialize at the graduate level in the areas of analytical, inorganic, organic, physical or polymer chemistry.

Research Facilities

Major Instrumentation
- Varian Inova 400 MHz NMR spectrometer.
- Bruker 250 MHz NMR spectrometer with solid state probe.
- IBM 200 Electron Spin Resonance Spectrometer.
- AA and ICP-AA spectrophotometers.
- CARY-1 UV-Visible dual beam spectrophotometer.
- Cambridge Structural Database Subscription (Van Horn).
- Raman and Infrared Spectroscopy Lab (Durig).
- Positron Annihilation and Gamma-ray Spectroscopy Lab (Jean).
- ABI Pioneer peptide synthesizer.
- Sprint BioCad liquid chromatography system.
- Finnigan MAT Double Focusing mass spectrometer.

Research Instrumentation
- Ocean Optics UV-Vis-NIR and other UV-Visible spectrophotometers.
- Metrohm Titrando system with “PC Control” software.
- BAS Epsilon electrochemistry apparatus (Peng).
- Shimadzu HPLC (Van Horn).
- Shimadzu RF-5301PC Fluorescence spectrophotometer.
- Perkin Elmer Polarimeter (Buszek).

Support Facilities
- Computer and Electronics Shop.
- Chemical Stores.
On Campus Resources

- Jasco J-710 Circular Dichroism Spectropolarimeter (School of Biological Sciences).
- Varian 600 MHz NMR Spectrometer (School of Biological Sciences, Lally).
- ESI-mass spectrometer and Triple-Quad LC-ESI MS with nanospray adaptor (School of Pharmaceutical Sciences).
- Machine Shop (Department of Physics).

Computer facilities include UMKC’s Academic Research servers using HP’s Itanium technology and numerous personal computers located in the Spencer Chemistry Building and Flarsheim Hall for teaching and research purposes. A computational research laboratory is also housed in the department with a number of high-speed workstations and modern software.

Faculty

Paul M. Barron Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=barron); assistant teaching professor of chemistry, coordinator of general chemistry laboratories, principal undergraduate advisor and lecturer; Ph.D. (University of Nebraska).

Keith R. Buszek Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=buszek); professor of chemistry; B.S. (University of California, Irvine); Ph.D. (University of California, Los Angeles).

Xiaobo Chen Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=chen); assistant professor of chemistry; B.S. (Peking University, China); M.S. (Chinese Academy of Sciences); Ph.D. (Case Western Reserve University).

John W. Connolly; professor emeritus of chemistry; B.S. (Xavier University); Ph.D. (Purdue University).

Jerry R. Dias Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=dias); curators’ professor of chemistry; B.S. (San Jose State College); Ph.D. (Arizona State University).

Andrea Drew-Gouvev Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=dr3ew); associate teaching professor of chemistry, coordinator of organic laboratories, principal undergraduate advisor and lecturer; B.S. Ph.D. (University of South Carolina).

Henry A. Droll; professor emeritus of chemistry; B.S., M.S. (George Washington University); Ph.D. (University of Pennsylvania).

James R. Durig Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=durig); curators’ professor of chemistry and geosciences; B.A. (Washington and Jefferson College); Ph.D. (Massachusetts Institute of Technology).

Todor K. Gouvev Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=gouvev); associate professor of chemistry and program director; B.S., M.S. (University of Sophia, Bulgaria); Ph.D. (University of South Carolina).

Peter Groner Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=groner); retired associate professor of chemistry and director of laboratories; Diploma, Ph.D. (Swiss Federal Polytechnic Institute).

Eckhard W. Hellmuth; professor emeritus of chemistry; B.S., M.S., Ph.D. (University of Marburg, Germany).

Andrew J. Holder Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=holder); professor of chemistry; B.S. (Mobile College); Ph.D. (University of Southern Mississippi).

Y. C. Jerry Jean Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jean); curators’ emeritus professor of chemistry and physics; B.S. (Taipei Institute of Technology Taiwan); Ph.D. (Marquette University).

Kathleen V. Kilway Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=kilway); chair and curator’s teaching professor of chemistry; B.S. (St. Mary’s College); M.S., Ph.D. (University of California-San Diego).

Peter F. Lott; professor emeritus of chemistry; B.S., M.S. (St. Lawrence University); Ph.D. (University of Connecticut).

Layton L. McCoy; professor emeritus of chemistry; B.S., Ph.D. (University of Washington).

Nathan A. Oyler Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=oyler); assistant professor of chemistry; B.S. (University of Arizona); Ph.D. (University of Washington).

Zhonghua Peng Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=peng); professor of chemistry; B.S. (University of Science and Technology of China); M.S. (Chinese Academy of Sciences); Ph.D. (University of Chicago).

Fedor Rudakov; assistant professor of chemistry
Thomas C. Sandreczki Contact Information; interim chair of social work and professor of chemistry; B.A. (Houghton College); M.S., Ph.D. (University of Rochester).

Kenneth S. Schmitz Contact Information; professor of chemistry; B.A. (Greenville College); Ph.D. (University of Washington-Seattle).

Timothy F. Thomas; professor emeritus of chemistry; A.B. (Oberlin College); Ph.D. (University of Oregon).

J. David Van Horn Contact Information; associate professor of chemistry; B.A. (Point Loma Nazarene College); Ph.D. (University of Utah).

Charles J. Wurrey Contact Information; curators’ distinguished teaching professor emeritus and James C. Olson professor of chemistry; B.S. (Northern Michigan University); Ph.D. (Massachusetts Institute of Technology).

3 Members of UMKC Doctoral Faculty
4 Located at UM-St. Louis campus

Undergraduate

Undergraduate Degrees:
- Bachelor of Science: Chemistry (p. 65)
- Bachelor of Arts: Chemistry (p. 64)
- Minor in Chemistry (p. 71)

Career Implication of the Bachelor’s Degree

The Department of Chemistry offers two bachelor of science degree programs. Both require a minimum of 43 credit hours of chemistry courses; they are designed for those who want to work in the field of chemistry. The American Chemical Society approved degree is based on the guidelines established by the American Chemical Society (ACS) and specifically requires Organic and Inorganic Synthesis (CHEM 382) and a Biochemistry course (either CHEM 367 or LS BIOCHEM numbered 341 or higher). Many of those receiving the bachelor of science degree have gone on to graduate work, professional schools, and advanced degrees. Others have gone directly into the chemical industry (laboratory assistants).

In contrast, the bachelor of arts degree is more flexible because it requires only a minimum of 26 credit hours of chemistry. The bachelor of arts student is shown a minimum of what chemistry is about. By choosing suitable courses, this degree prepares the individual with the chemical background for work in other areas. Examples include technical librarian, medical technologist, business administration, public health, and sales or advertising in the chemical industry. The majority of students pursuing the bachelor of arts in chemistry do so in preparation for professional schools, such as medicine, dentistry, and pharmacy. The bachelor of arts can also provide a student with a background in chemistry equivalent to that of a bachelor of science, but tailored to the individual’s desires.

Teacher Certification in Chemistry

Certification as a middle school (grades 5-9) or secondary (grades 9-12) chemistry teacher in either Kansas or Missouri requires that a student complete specific requirements in biology, chemistry, environmental science, geology, physics and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Admission Requirements

Other than University of Missouri admission requirements, there are no special prerequisites for beginning either the bachelor of arts or the bachelor of science program. High-school chemistry and a good working knowledge of algebra and arithmetic are desirable for entering the bachelor of science program. It should be noted that much of the bachelor of science program, and some of the bachelor of arts program, are highly structured in the order which chemistry courses must be taken. It is assumed that transfer students, Associates degree students, and junior college students should have begun the appropriate course sequence in their previous schools. All students are required to consult with the Chemistry Undergraduate Advisor before their registration at UMKC.

Advising

Those seeking either a bachelor of science or a bachelor of arts degree should see the Chemistry Department’s principal undergraduate advisor or the department chair at the earliest possible time. Students who major in Chemistry must see the Undergraduate Advisor each semester prior to enrolling in courses.
Honors Program
Students with outstanding records of achievement may be eligible to enroll in special honors courses. Such courses are designated by the letter H preceding the course number, or special arrangements can be made with instructors of regular courses. Students enrolled in the special courses should consult with their faculty advisor to arrange for optimal degree planning.

Prerequisites and Corequisites
A minimum grade of C- or higher is required for all prerequisite and corequisite courses for all students taking courses within the Department of Chemistry. In exceptional cases, students may receive written consent from the Chemistry Undergraduate Advisor to waive this requirement. Students must be concurrently enrolled in all corequisite courses. In exceptional cases, students may receive written consent of the Curriculum Committee by obtaining a petition form from the Department to waive this requirement.

Graduate
Graduate Degrees:
• Master of Science: Chemistry (p. 67)
  • Thesis Based M.S. Program (p. 70)
    • Emphasis areas (p. 70):
      • Analytical
      • Inorganic
      • Organic
      • Physical
      • Polymer
    • Non-Thesis M.S. Program (p. 68)

Graduate Study in Chemistry
The Chemistry Department offers the master of science degree, with an emphasis in analytical, inorganic, organic, physical, or polymer chemistry.

Doctor of philosophy (Ph.D.) programs at UMKC are interdisciplinary. Students desiring to study at the doctoral level in the discipline of chemistry (as the coordinating unit) must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific admission requirements for the doctoral degree may be found in the Graduate Academic Regulations and Information section of this catalog.

Students pursuing an Interdisciplinary Ph.D. degree, who have selected chemistry as one of their disciplines, should consult the School of Graduate Studies section of this catalog for degree requirements, and other academic regulations applicable to their degree programs.

General Nature of the Graduate Program
Both the master of science degree and interdisciplinary Ph.D. degree with chemistry as the coordinating discipline have the basic aim of training students to work independently in chemistry. Both programs train the student through a broad but flexible base of coursework for further education, but the interdisciplinary Ph.D. places a greater emphasis on original research.

There are two programs or tracks that lead to the master of science in chemistry: the research and the non-thesis tracks. The interdisciplinary Ph.D. with chemistry as the coordinating unit is only research track. (For further information on the Interdisciplinary Ph.D. Program, see the chemistry discipline within the School of Graduate Studies section of this catalog.)

Master of Science: Chemistry
The Department of Chemistry offers two master of science degrees. The non-thesis M.S. program has an emphasis on coursework, while the thesis-based degree has an emphasis on both coursework and original research. Graduating chemistry M.S. students will be exposed to the most recent advances in chemical sciences. In addition, thesis-based M.S. students will experience the excitement of performing guided research.

Students, who have received a grade of B- (2.7) or better in graduate coursework taken as part of a degree program at another institution, may transfer up to 6 credit hours of this work on approval of a majority of the student’s committee. A written request for this approval must be submitted within one year of full admission to the program.

Seminar Presentation (CHEM 5611)
Students must present a one-hour seminar based on their thesis research project. This seminar will include an exhaustive review of the literature pertinent to their project, a description of the objectives, the proposed methodology, and the significance of this research. Students must register for CHEM 5611 and present this seminar during the semester following selection of their research adviser and committee.
Thesis Defense

The candidate’s thesis must be prepared following all of the guidelines required by the UMKC School of Graduate Studies. All supervisory committee members must receive a final draft of the thesis for approval of form and content at least two weeks before submission to the Dean of the School of Graduate Studies. Candidates should submit preliminary drafts of their thesis to their supervisory committee well in advance of this deadline. After the thesis is certified for acceptance by the Dean of the School of Graduate Studies, the student must present an oral defense of his/her research in the form of a thesis seminar. The supervisory committee will make a final determination of the acceptability of the thesis immediately following this presentation. Only minor changes may be made to the thesis at this point.

Bachelor of Arts: Chemistry

Student Learning Outcomes

1. Students graduating with a baccalaureate degree in chemistry should be proficient in the basic skills of chemistry. They will:
   - Have a functional knowledge of all the basic areas of chemistry including analytical, organic, physical, inorganic and biochemistry.
   - Be able to integrate their knowledge in these areas and use their critical thinking skills in order to become problem solvers.
   - Be proficient in chemistry laboratories, especially with respect to:
     - Following and understanding general laboratory practice guidelines, especially proper laboratory safety.
     - Performing chemical analyses.
     - Performing simple chemical synthesis.
     - Understanding and using modern chemical instrumentation.
   - Be able to articulate clearly scientific information, both in written and oral forms.
   - Be able to use effectively the scientific literature.

2. Students graduating with a baccalaureate degree in chemistry will be prepared for entry into professional schools (e.g., medical, dental, pharmaceutical, or veterinary), graduate programs, or chemical industries. Student

Degree Requirements

The minimum departmental requirements for this degree are:

1. The equivalent of one year of general chemistry:
   CHEM 211 General Chemistry I 4
   CHEM 211L Experimental General Chemistry I 1
   CHEM 212R General Chemistry II 4
   CHEM 212LR Experimental General Chemistry II 1

2. All of the following:
   PHYSICS 210 General Physics I 4
   PHYSICS 220 General Physics II 4
   MATH 110 College Algebra (or math exception based on high school math courses) 3

3. CHEM 341WI (writing intensive, for which the RooWriter is an enforced prerequisite.)

4. Any combination of 300-level and 400-level chemistry courses (exceptions noted below; see 5, 6, 7 and 11) to bring the total credit hours to 26. Certain biochemistry courses (offered by the School of Biological Sciences) also may be included in this total. Please confer with the principal undergraduate advisor.

5. No more than three hours total in CHEM 395, CHEM 399, CHEM 495 and CHEM 499 may be used in meeting the major course requirements.

6. CHEM 320 and CHEM 321 may not both be counted toward the required number of credit hours. (CHEM 321 + CHEM 322R and CHEM 320 + CHEM 322R are both acceptable combinations for meeting, in part, the bachelor of arts departmental course requirements, although the CHEM 320 + CHEM 322R combination is not preferred. The combinations CHEM 320 + CHEM 321 and CHEM 320 + CHEM 321 + CHEM 322R are not acceptable.)

7. Similarly, either CHEM 330 or the combination CHEM 431 + CHEM 432 is acceptable, but the combination CHEM 330 + CHEM 431 + CHEM 432 is not acceptable.

8. All majors must receive a C- or better in all chemistry courses with an overall chemistry GPA of 2.0 for graduation.

9. A minimum grade of C- is required for all prerequisite courses (including physics and mathematics courses). In exceptional cases, students may receive written consent of the instructor and the Chemistry Undergraduate Advisor to waive this requirement.

10. Each chemistry major must be advised by the Chemistry Undergraduate Advisor every semester.

11. In order to meet the College’s residency requirement for a major in Chemistry, a minimum of 12 credit hours must be completed in the Department of Chemistry at UMKC, of which 9 of the 12 hours must be at the 300/400 level. While credit as a result of advanced placement (AP) scores and
courses in Biochemistry (LS-BIOC 341, LS-BIOC 365, or LS-BIOC 366) may be used towards meeting major requirements, they do not count towards the residency requirement.

Total Chemistry Credit Hours: 26 (or more)

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science: Chemistry

Student Learning Outcomes

1. Students graduating with a baccalaureate degree in chemistry should be proficient in the basic skills of chemistry. They will:
   • Have a functional knowledge of all the basic areas of chemistry including analytical, organic, physical, inorganic and biochemistry.
   • Be able to integrate their knowledge in these areas and use their critical thinking skills in order to become problem solvers.
   • Be proficient in chemistry laboratories, especially with respect to:
     • Following and understanding general laboratory practice guidelines, especially proper laboratory safety.
     • Performing chemical analyses.
     • Performing simple chemical synthesis.
     • Understanding and using modern chemical instrumentation.
   • Be able to articulate clearly scientific information, both in written and oral forms.
   • Be able to use effectively the scientific literature.

2. Students graduating with a baccalaureate degree in chemistry will be prepared for entry into professional schools (e.g., medical, dental, pharmaceutical, or veterinary), graduate programs, or chemical industries.

Degree Requirements

The Chemistry Department bachelor of science degree is approved by the American Chemical Society (ACS). There are two types of bachelor of science degrees. Both require a minimum of 43 credit hours in chemistry. An ACS-approved B.S. degree requires taking 2 credit hours of CHEM 382, and 3 credit hours of CHEM 367 or LS-BIOC 341 or higher\(^1\). The other type of B.S. degree does not require CHEM 382 or CHEM 367, or LS-BIOC 341. This program includes:

1. General Chemistry:
   - CHEM 211: General Chemistry I
   - CHEM 211L: Experimental General Chemistry I
   - CHEM 212R: General Chemistry II
   - CHEM 212LR: Experimental General Chemistry II

2. Organic Chemistry:
   - CHEM 321: Organic Chemistry I
   - CHEM 321L: Organic Chemistry Laboratory I
   - CHEM 322R: Organic Chemistry II
   - CHEM 322L: Organic Chemistry Laboratory II

3. Analytical Chemistry:
   - CHEM 341: Analytical Chemistry I: Quantitative Analysis
   - CHEM 442R: Analytical Chemistry II: Instrumental Analysis

4. Physical Chemistry:
   - CHEM 431: Physical Chemistry I
   - CHEM 437WI: Experimental Physical Chemistry I (writing intensive for which the WEPT is an enforced prerequisite)
   - CHEM 432: Physical Chemistry II
5. Chemical Literature:
   CHEM 410 Chemical Literature 1

6. Inorganic Chemistry:
   CHEM 382 Inorganic And Organic Synthesis 1
   CHEM 451R Inorganic Chemistry 3

7. A biochemistry course:
   LS-BIOC 341 Basic Biochemistry (or higher) 3
   or CHEM 367 Bioorganic Chemistry

8. A minimum of 3 credit hours of advanced work in either chemistry (courses numbered 400 or higher), mathematics (courses other than MATH 250 that have MATH 220 as a prerequisite), biology (courses numbered 300 or higher), or physics (courses numbered 300 or higher).

9. Math:
   MATH 210 Calculus I 4
   MATH 220 Calculus II 4
   MATH 250 Calculus III 4

10. One year of Engineering Physics:
    PHYSICS 240 Physics For Scientists and Engineers I 5
    PHYSICS 250 Physics For Scientists and Engineers II 5

11. The total credit hours of laboratory time in the required courses and any advanced elective laboratories must be at least 12. No more than 3 hours of CHEM 495 and CHEM 499 may be used in meeting the major course requirements.

12. CHEM 499 cannot be used to meet both laboratory requirements and the 3 hours of advanced work.

13. All majors must receive a C- or better in all chemistry courses with an overall chemistry GPA of 2.0 for graduation.

14. A minimum grade of C- is required for all prerequisite courses (including physics and mathematics courses). In exceptional cases, students may receive written consent by submitting a petition to the Chemistry Undergraduate Curriculum Committee which has to be approved to waive this requirement.

15. Each chemistry major must be advised by the Chemistry Undergraduate Advisor every semester.

16. In order to meet The College’s residency requirement for a major in Chemistry, a minimum of 12 credit hours must be completed in the Department of Chemistry at UMKC, of which 9 out of the 12 hours must be at the 300/400 level. While credit as a result of advanced placement (AP) scores and courses in Biochemistry (LS-BIOC 341, LS-BIOC 365, or LS-BIOC 366) may be used towards meeting major requirements, they do not count towards the residency requirement.

   1 Required for ACS-approved degree.

**Suggested Plan of Study**

Because plans of study are dependent on the students’ backgrounds and preparation, each student admitted should develop a plan of study in conjunction with an advisor in the department. General chemistry, organic chemistry, calculus and physics should be completed by the end of the second year. Physical chemistry should be taken in the third year. Students should note that although a fair amount of flexibility is available for setting up a plan of study, the structured nature of prerequisites and corequisites in chemistry, physics, and mathematics necessitates very careful organization of any program.

For students starting at UMKC as freshmen, the department recommends the following plan of study to fulfill the major requirements for a bachelor of science degree in chemistry:

<table>
<thead>
<tr>
<th>Freshman Year</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 211</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 211L</td>

Total Credits: 9

---

1. Required for ACS-approved degree: CHEM 367, LS-BIOC 341, CHEM 382
2. For non-ACS-approved degree
3. CHEM 3XX - or- 4XX may be taken instead of CHEM 367 or LS-BIOC 341

### Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

### Master of Science: Chemistry

The Department of Chemistry offers two master of science degrees. The non-thesis M.S. program has an emphasis on coursework, while the thesis-based degree has an emphasis on both coursework and original research. Graduating chemistry M.S. students will be exposed to the most recent advances in chemical sciences. In addition, thesis-based M.S. students will experience the excitement of performing guided research.

### Requirements for Admission

Applicants should have the equivalent of an American Chemical Society (ACS)-approved bachelor’s degree in chemistry. This degree includes the equivalent of: one year of general chemistry, quantitative analysis, one year of organic chemistry, one year of physical chemistry, physical chemistry laboratory, instrumental analysis, inorganic chemistry, one year of physics, and three semesters of calculus, and the ACS-recommended distribution of advanced courses and course credits. (For example, see UMKC’s B.S. program in chemistry in the undergraduate catalog.) Applicants should take particular note of the physical chemistry requirement. They may be admitted as provisional students if they have a limited number of undergraduate
deficiencies. At the time that admission is offered, applicants will be notified of any requirements to be met for reclassification as fully admitted. Undergraduate courses included in these requirements must be completed with grades of C- or higher.

Applications are only accepted through the online system, and include:

1. Official, confidentially transmitted transcripts.
2. Statement of purpose.
3. Two confidentially transmitted letters of recommendation (academic and/or professional).
4. Official Graduate Record Exam (General Test) score, less than six (6) years old.
5. English language proficiency requirement.

An official Graduate Record Exam score (general test) is required as part of the application to the program. The GRE score will be evaluated as part of the entire application.

Applicants from foreign countries, who have an official language other than English, must achieve scores of at least 550 (paper-based), 213 (computer-based), or 79 (internet-based) on the Test of English as a Foreign Language (TOEFL) to be considered for admission.

Placement Examinations

Incoming students must take placement examinations in analytical, inorganic, organic, and physical chemistry. Placement examinations are typically administered the week before the first week of classes of the fall and spring semesters. Students scoring below the 50th percentile in the organic and/or physical chemistry exams are required to enroll in CHEM 5520R and/or CHEM 5530A/CHEM 5530B, respectively. Enrollment in other graduate organic or physical chemistry courses is not permitted until CHEM 5520R or CHEM 5530A/CHEM 5530B, respectively, is (are) successfully completed. CHEM 5530A/CHEM 5530B is currently offered concurrently with CHEM 431 or CHEM 432. A student is required to take either CHEM 5530A/CHEM 431 or CHEM 5530B/CHEM 432 or both, depending on his/her performances in the various sub-disciplines of the physical chemistry placement exam. Should a student be required to take both CHEM 5530A/CHEM 431 and CHEM 5530B/CHEM 432, the average grade of the two CHEM 5530 courses will be considered for the fulfillment of the physical chemistry deficiency. Two grades of C+ (2.3 out of 4.0) or lower, or one grade of less than C- (1.7 out of 4.0) in CHEM 5520R or CHEM 5530, will result in termination from the degree program. These courses may not be counted toward the M.S. coursework requirements listed below. Students must complete all additional coursework required as a result of the placement exams by the end of their first three regular semesters.

Graduate Program Committee

Upon admission to M.S. program in chemistry, students will be advised by the department’s principal graduate advisor, acting on behalf of the chemistry graduate program committee. Based on the committee’s evaluation of the students’ transcripts and placement exam scores, the principal graduate advisor will inform students of any deficiencies and how they should be removed. The principal graduate advisor also will advise students on course curriculum. For the thesis degree, the curriculum advising is performed by the research advisor (once they have been selected). The graduate program committee serves as the supervisory committee for non-thesis M.S. students.

Seminar Attendance

Full-time M.S. students are required to attend all regularly scheduled and special departmental seminars and colloquia. Part-time students are also required to attend these seminars but may petition the Chair of the Department of Chemistry to waive this requirement all but one semester. Such students will be required either to attend and participate fully during one semester, including the presentation of a one-hour seminar (see details below), or to present two one-hour seminars in lieu of full participation.

Minimum Requirements for Master of Science Degree

In addition to the requirements listed here, all M.S. students are subject to the all general M.S. requirements of the University. See the School of Graduate Studies (p. 480) section of this catalog for a complete listing.

Time Constraints and Financial Assistance

The non-thesis M.S. degree program is intended primarily for students currently employed in a chemically related industry. Full-time, non-thesis M.S. students are required to complete all of the requirements for their degree within four years. Part-time non-thesis M.S. students are required to complete all requirements for their degree within seven years. Non-thesis M.S. students are not eligible for financial support from the Department of Chemistry.

Non-Thesis Master of Science in Chemistry

Student Learning Outcomes

The Department of Chemistry offers two master of science degrees. The non-thesis M.S. program has an emphasis on coursework, while the thesis-based degree has an emphasis on both coursework and original research. Graduating chemistry M.S. students will be exposed to the most recent advances in chemical sciences. In addition, thesis-based M.S. students will experience the excitement of performing guided research.
The following student learning outcomes are expected for our educational process:

At the end of their studies, students will:

- Have an extensive knowledge of the basic areas of chemistry (inorganic, organic, physical, analytical, and biochemistry).
- Be familiar with the recent advances in the basic areas of chemistry.
- Have the ability to communicate scientific information clearly and precisely, both written and oral forms.
- Have the ability to read, understand, and use scientific literature.
- Have had the opportunity to work with others as part of a team to solve scientific problems.

Coursework

The emphasis of this program is coursework. Non-thesis M.S. students are required to complete a minimum of 31 credit hours of graduate-level coursework. Non-thesis M.S. Students are required to complete:

1. Three credit hours must be from Organic Chemistry courses:
   - CHEM 5521R Mechanisms Of Organic Reactions
   - or CHEM 5522 Synthetic Organic Chemistry

2. Three credit hours from Physical Chemistry courses:
   - Select one of the following:
     - CHEM 5531 Classical Thermodynamics
     - CHEM 5532 Chemical Kinetics
     - CHEM 5533 Quantum Chemistry
     - CHEM 5534 Molecular Spectroscopy
     - CHEM 5535 Statistical Thermodynamics

3. Nine additional credit hours from graduate level chemistry courses numbered CHEM 5521 - CHEM 5589 excepting CHEM 5520R and CHEM 5530.

4. One credit hour seminar presentation (CHEM 5611).

5. The remaining 15 credit hours, among which up to 6 credit hours of CHEM 5590, CHEM 5599, or CHEM 5699 may be applied, may be taken from courses approved by the graduate program committee.

Students who receive a grade of C+ (2.3) or less in more than two courses applicable to the M.S. program, or who have a cumulative grade-point average of less than 3.0 on courses applicable toward the M.S. degree after completing 18 or more credit hours of such courses, will be terminated from the degree program. Grades received for CHEM 5590 and any undergraduate-level courses are not included in the minimum GPA calculation.

Students who have received a grade of B- (2.7) or better in graduate chemistry coursework taken as part of a degree program at another institution may have up to 6 credit hours of equivalent required coursework waived upon approval of a majority of the graduate program committee. A written request for this approval must be submitted within one year of full admission to the M.S. program.

Seminars

Students must present a one-hour literature seminar based on a topic of their choice which has been approved by the Department of Chemistry Chair (or a designee). Students must register for CHEM 5611 the semester of this presentation. This seminar will include an exhaustive review of the pertinent literature and discussion of both present and future implications of research in this area. An abstract is to be posted and distributed one week prior to the presentation date.

Time Constraints and Financial Assistance

Full-time thesis M.S. students are required to complete all of the requirements for their degree within four years. In compelling circumstances, and on the written recommendation of a majority of the Supervisory Committee, a single extension for up to one year may be requested for approval by the Chair of the Department of Chemistry. Part-time thesis M.S. students are required to complete all of their requirements for their degree within seven years.

Full-time thesis M.S. students may receive financial support from the Department of Chemistry for a maximum of two-and-one-half years. Students from countries having an official language other than English, and who wish to be supported as GTAs, must take the SPEAK test before the end of their first semester on campus if necessary. Part-time thesis M.S. students are not eligible for financial support from the Department of Chemistry.
Research Advisor and Supervisory Committee

Full-time students must select a research advisor from the graduate faculty of the Department of Chemistry and a supervisory committee by the end of their first regular (i.e., fall or spring) semester on campus. Part-time students must select their research advisor and supervisory committee by the end of their third year after enrollment in their first course as an M.S. student at UMKC.

The research advisor becomes the chairperson of the supervisory committee, which includes at least two additional members of the graduate faculty. Students and their supervisory committee shall plan a program of study which, when met, will qualify students for the M.S. degree. This program of study must be approved by the supervisory committee, the department chair, and the principal graduate advisor prior to the completion of 15 hours of coursework applicable to the degree. The supervisory committee is responsible for conducting the final thesis examination for students in the thesis program.

Thesis-Based Master of Science in Chemistry

Student Learning Outcomes

The Department of Chemistry offers two master of science degrees. The non-thesis M.S. program has an emphasis on coursework, while the thesis-based degree has an emphasis on both coursework and original research. Graduating chemistry M.S. students will be exposed to the most recent advances in chemical sciences. In addition, thesis-based M.S. students will experience the excitement of performing guided research.

Students, who have received a grade of B- (2.7) or better in graduate coursework taken as part of a degree program at another institution, may transfer up to 6 credit hours of this work on approval of a majority of the student’s committee. A written request for this approval must be submitted within one year of full admission to the program.

The following student learning outcomes are expected for our educational process:

At the end of their studies, students will:

- Have an extensive knowledge of the basic areas of chemistry (inorganic, organic, physical, analytical, and biochemistry) with an extensive knowledge in at least one area.
- Have done extensive research through a project.
- Have the ability to recognize scientific problems, formulate questions and answers, and carry out strategies for solving them.
- Have the ability to read, understand, and use scientific literature.
- Have the ability to communicate scientific information clearly and precisely, both written and oral forms.
- Have some understanding of the principles and applications of modern instrumentation, computation, experimental design, and data analysis.

Coursework

The emphasis of this program is research. A minimum of 31 credit hours (including research and thesis) is required. Full-time, research M.S. students should be able to complete the formal coursework requirement no later than the end of their second year. Thesis M.S. students are required to complete:

1. Three credit hours in one of the following Physical Chemistry courses:
   Select one of the following:
   - CHEM 5531 Classical Thermodynamics
   - CHEM 5533 Quantum Chemistry
   - CHEM 5534 Molecular Spectroscopy

2. Three credit hours in Organic Chemistry:
   - CHEM 5521R Mechanisms Of Organic Reactions
   - CHEM 5522 Synthetic Organic Chemistry

3. Six additional credit hours from graduate level chemistry courses numbered CHEM 5521R - CHEM 5899, excepting CHEM 5520R, CHEM 5530, and CHEM 5541R.

4. Two additional graduate-level courses for a minimum of 6 credit hours.
5. One credit hour seminar presentation (CHEM 5611).
6. In addition to the formal course work requirements, a minimum of 6 credit hours of research and thesis (CHEM 5599) are required. Research and thesis (CHEM 5599) work must be done under the direction of the student’s research advisor.
7. Up to 6 credit hours of directed studies (CHEM 5590) may be applied toward the degree requirements. Additional coursework may be substituted for part or all of CHEM 5590 on approval of the student’s supervisory committee.
The selected courses must be approved by the student’s supervisory committee. Students who receive a grade of C+ (2.3) or lower in more than two courses applicable to the M.S. program or who have a GPA lower than 3.0 on courses (not including CHEM 5590, CHEM 5599 or any undergraduate courses) applicable toward the M.S. degree after completing 18 or more credit hours of such courses, will be terminated from the degree program.

Students, who have received a grade of B- (2.7) or better in graduate coursework taken as part of a degree program at another institution, may transfer up to 6 credit hours of this work on approval of a majority of the student’s committee. A written request for this approval must be submitted within one year of full admission to the program.

Seminar Presentation (CHEM 5611)

Students must present a one-hour seminar based on their thesis research project. This seminar will include an exhaustive review of the literature pertinent to their project, a description of the objectives, the proposed methodology, and the significance of this research. Students must register for CHEM 5611 and present this seminar during the semester following selection of their research advisor and committee.

Thesis Defense

The candidate’s thesis must be prepared following all of the guidelines required by the UMKC School of Graduate Studies. All supervisory committee members must receive a final draft of the thesis for approval of form and content at least two weeks before submission to the Dean of the School of Graduate Studies. Candidates should submit preliminary drafts of their thesis to their supervisory committee well in advance of this deadline. After the thesis is certified for acceptance by the Dean of the School of Graduate Studies, the student must present an oral defense of his/her research in the form of a thesis seminar. The supervisory committee will make a final determination of the acceptability of the thesis immediately following this presentation. Only minor changes may be made to the thesis at this point.

Minor in Chemistry

Student Learning Outcomes

1. Students graduating with a minor degree in chemistry should be proficient in the basic skills of chemistry. They will:
   - Have a functional knowledge of all the basic areas of chemistry including analytical, organic, physical, inorganic and biochemistry.
   - Be able to integrate their knowledge in these areas and use their critical thinking skills in order to become problem solvers.
   - Be proficient in chemistry laboratories, especially with respect to:
     - Following and understanding general laboratory practice guidelines, especially proper laboratory safety.
     - Performing chemical analyses.
     - Performing simple chemical synthesis.
     - Understanding and using modern chemical instrumentation.
   - Be able to articulate clearly scientific information, both in written and oral forms.
   - Be able to use effectively the scientific literature.

2. Students graduating with a baccalaureate degree in chemistry will be prepared for entry into professional schools (e.g., medical, dental, pharmaceutical, or veterinary), graduate programs, or chemical industries.

Program Requirements

Students may elect to obtain a minor in chemistry in conjunction with a major in another academic discipline. The minimum departmental requirements are 18 credit hours of chemistry with at least 9 of these hours from courses at the 300 or 400 level. To meet The College’s residency requirement for a minor in Chemistry, students must complete 9 credit hours from the Department of Chemistry at UMKC, and 6 of those 9 hours must be courses at the 300 or 400 level. While credit as a result of advanced placement (AP) scores and courses in Biochemistry (LS-BIOC 341, LS-BIOC 365, or LS-BIOC 366) may be used towards meeting minor requirements, they do not count towards meeting the residency requirement. In addition, the minor courses must be selected from more than one area of chemistry and a minimum grade of a C- is required for all minor and prerequisite courses.

Classical and Ancient Studies Program

5317 Holmes, 2nd Floor
(816) 235-1305
(816) 235-1308
http://cas.umkc.edu/classics

Mailing Address:
University of Missouri - Kansas City
Classical and Ancient Studies Program
Cockeafar Hall 106
5100 Rockhill Road
The field of Classics is the original interdisciplinary university field of study, illuminating the foundations of Western experience through the study of language, literature, religion, philosophy, art, archaeology and other subjects. Modern Classics programs continue to focus on the ancient Mediterranean world, particularly Greek and Roman culture, but also encompass the study of non-Western cultures and post-Greco-Roman societies. The broad scope and intellectual rigor of the Classical and Ancient Studies major and minor options help students to understand the contemporary world and to prepare for a wide range of careers.

The Classical and Ancient Studies program provides several options for the study of history, literature, art, culture, and language of the Ancient Mediterranean world. Students can major in English and complete the track in Classical, Medieval, and Early Modern Literature; major in History with a concentration in Antiquity and Medieval history; major in Foreign Languages with an emphasis in Greek and Latin; or pursue a minor in Classics in conjunction with either of the degrees above or with any other degree program in the college.

Faculty

Faculty:
Jeff Rydberg-Cox, Contact Information (http://www.umkc.edu/lookup/details.cfm?id=%28%26%3F7%5F%40L%2FWML%20%0A) Professor, Department of English; Classical and Ancient Studies Program Director
Elpida Scott, Contact Information (http://www.umkc.edu/lookup/details.cfm?id=%28%26%3F7%5E0%20%29V%5DX%20%0A) Instructor, Classical and Ancient Studies Program

Undergraduate

Undergraduate Degrees That Offer a Classics Emphasis:

The Classical and Ancient Studies program provides several options for the study of history, literature, art, culture, and language of the Ancient Mediterranean world. Students can major in English and complete the track in Classical, Medieval, and Early Modern Literature; major in History with a concentration in Antiquity and Medieval history; major in Foreign Languages with an emphasis in Greek and Latin; or pursue a minor in Classics in conjunction with either of the degrees above or with any other degree program in the college.

- English Department: Emphasis in Classical, Medieval, and Early Modern Literature (p. 72)
- Foreign Languages and Literatures Department: Emphasis in Greek and Latin (p. 73)
- History Department: Antiquity and Medieval History Concentration (p. 73)
- Minor in Classical and Ancient Studies (p. 73)

English Department: Emphasis in Classical, Medieval, and Early Modern Literature

Students wishing to focus on ancient literatures in translation can pursue a degree in English with an emphasis in Classical, Medieval, and Early Modern Literature. This track involves a core of three survey courses to give students grounding in each of the three periods. Students also take one elective from each time period that allows them to study each period in more depth, a course such as ‘Shakespeare In Film’, ‘The Ancient World in Film’, or ‘Arthurian Legends’ that allows them to study how these literatures have been received in modern society; a course such as ‘History of English’, ‘Old English’, ‘Ancient Greek’, ‘Classical Latin’, or the ‘History and Principles of Rhetoric’ that allows students to understand the linguistic backgrounds of
these literatures. Students complete the degree with three electives that can be taken in the English department or many other departments in the college including Classics, History, Art History, Philosophy, and Geosciences. For more information, see the relevant catalog section for the English Department (p. 111).

**Foreign Languages and Literatures Department: Emphasis in Greek and Latin**

If you would like to focus on the study of ancient languages, you can pursue a degree in Foreign Languages with an emphasis in Greek and Latin. This track involves a core set of language courses that allow you to become a proficient reader of Ancient Greek and Latin texts. This language core is supplemented with electives offered by the Classics Program, the History Department, the English Department, the Art and Art History Department, and the Philosophy Department. These electives are taught using translated texts, and these courses allow you to tailor your program of study to your specific interests in history, art or literature. In addition to these electives, students must also complete a capstone course. For more information, see the relevant catalog section for the Foreign Languages and Literatures Department (p. 135).

**History Department: Antiquity and Medieval History Concentration**

Students who are interested in ancient and medieval history can pursue a concentration in Antiquity and Medieval History as part of a history major. The history major includes two foundation courses that survey world history, four courses in the Classics area of concentration, four courses in areas outside the area of concentration, and a two-semester final research sequence: History 301WI “Historiography and Method,” and History 498WI “Senior Capstone Seminar.” For the Antiquity and Medieval history concentration, students take four courses in Ancient or Medieval History. Two of these courses can be taken in departments other than history including Classics, English, Art History, Philosophy, and Geosciences. For more information, see the relevant catalog section for the History Department (p. 172).

**Minor in Classical and Ancient Studies**

**Student Learning Outcomes**

1. Knowledge of Historical, Literary, Artistic, and Cultural Contexts
   Students will be able to reproduce in broad outline the main periods of Ancient Mediterranean history, along with significant events and/or developments in each period. Students will also be able to demonstrate their awareness of basic literary, philosophical, social, and cultural developments that affect the interpretation of texts, artifacts, and historical events from cultures and across the Mediterranean.

2. Understanding of the Reception of the Ancient World
   Students will be able to demonstrate knowledge of at least one of the ways in which material from the Ancient Mediterranean World has been received and integrated into other later artistic, literary, historic, or cultural contexts.

3. Proficiency With Primary Sources
   Students will be able to identify and articulate scholarly problems based on interaction with primary source materials from the ancient world. Students who elect to take Greek or Latin will demonstrate further proficiency working with primary source materials in the original languages.

4. Proficiency in Research Methods
   Students will demonstrate knowledge of current research methods and contemporary sources and be able to describe current scholarly conversations about the ancient world.

5. Communication of Knowledge
   Students will be able to communicate results of their work effectively to others in expository prose, oral presentations, or electronic media such as films or web pages.

Students can also pursue a minor in Classics in conjunction with any of the degrees above or with any other degree program in the college. The minor is an 18 hour program that allows students the flexibility to pursue their individual interests in the ancient world. To complete the minor students take 18 hours of credit selected from any of the courses in the college about the ancient world (http://cas.umkc.edu/classicalstudies/pdfs/AdvisingSheetForClassicsMinor.pdf). Nine of these hours must be at or above the 300 level. For students choosing to pursue both the minor and one of the majors above, six credit hours can be counted towards both the major and the minor.

Mailing Address
University of Missouri-Kansas City
The department offers courses leading to a Bachelor of Arts in Communication Studies.

The Bachelor of Arts in Communication Studies degree offers three areas of emphasis:

- Interpersonal and Public Communication
- Journalism and Mass Communication
- Film and Media Studies

Department Description

The Interpersonal and Public Communication emphasis offers study in the areas of public address and rhetoric, interpersonal and intercultural communication, organizational communication and areas associated with human communication behavior including advertising and public relations.

The Journalism and Mass Communication emphasis offers concentrated study in select areas including print and electronic journalism, radio, television, journalism, advertising and public relations.

The Film and Media Studies emphasis offers a comprehensive approach to film, digital video and new media production.

The UMKC debate program operates from the Department of Communication Studies. UMKC offers a great blend of quality education, extremely competitive debate program and a wonderful city to spend your college years in.

- UMKC Debate Team is open to all UMKC students including those with no previous debate experience. Interested students can find information at http://umkcdebate.com/ or by emailing the Director of Debate: vegam@umkc.edu.
- Travel Schedule: UMKC has a full travel schedule and travels the NDT/CEDA policy debate circuit. This includes tournaments throughout the region and across the country.
- Squad Size: UMKC has a medium-sized squad which has the benefit of allowing all debaters the ability to go to many tournaments throughout the year. Each debater will have the chance to flourish at regional and national tournaments.
- Coaching: UMKC currently has an excellent coaching staff. Our excellent student-to-coach ratio guarantees hands-on coaching and extensive focus for each debater.

Special Laboratories

The department has media classrooms and production spaces for student projects, that include a video production studio with multi-camera and “green-screen” capabilities, a sound recording facility with narration booth and radio console, and post production media labs outfitted with latest software, including Final Cut Pro, Avid, Pro Tools, Photoshop, After Effects, Flash, etc. These software packages provide the tools to not only edit sound and video, but to produce animation, motion graphics, and rich media content for the web. A student equipment check-out lab maintains an extensive inventory of production equipment ranging from traditional film cameras, such as Super 8 and 16mm; to the latest HD video cameras providing the
capabilities for professional digital cinematography. Location lighting equipment includes tungsten, fluorescent & HMI instruments. Pro sound gear packages are also available to students including a wide variety of microphones, booms, mixers and digital recorders. Our facilities foster the ability to light, shoot and edit professionally, allowing the students to tell compelling stories that make an impact on audiences.

K-ROO Radio is a student-run multimedia organization that aims to provide students, faculty, staff, and the Kansas City community with quality entertainment and information about UMKC events and organizations. Through Internet radio and live events, www.k-roo.org (http://www.k-roo.org) provides a platform to reach a worldwide audience to promote and support student endeavors, as well as create programming in music, sports, news, and spoken word/comedy/drama productions. K-ROO Radio, which reports to the Office of Student Involvement, is open to all students of any major and is located on the third floor of the Student Union at 5100 Cherry St. in room 303B. Internships for production and promotions are available through the Communication Studies Department.

The nationally syndicated public radio program, New Letters on the Air, features creative writers from around the world and is produced in association with the internationally distributed New Letters magazine and the Communication Studies department. Broadcast locally on KCUR-FM, the weekly program is also available via www.newletters.org/radio (http://www.newletters.org/radio) and podcasts. KCUR-FM http://kcur.org/ is the 100,000-watt public radio station licensed to UMKC. Programming includes offerings from National Public Radio and Public Radio International, as well as local news from the award-winning news department. Internships are available year round to Communication Studies students.

Special Awards and Scholarships
The Alex and Josephine B. Coleman Scholarship is awarded each year to an outstanding junior- or senior-level student. The award recognizes meritorious undergraduate work in communications and encourages program completion. The Suzanne Crispin Williams Scholarship is awarded annually to a non-traditional returning female student in Communication Studies or Women’s Studies. A Film Finishing Fund provides grants to intermediate and advanced production students and the Student Film League holds showcases of student film and video projects. Cash prizes may be awarded for winning entries. The Faye Kircher Public Speaking Contest is held in the fall and spring semesters. Students enrolled in COMM-ST 110 courses are selected by their classmates for participation in the public speaking contest. Cash prizes are awarded. The Fred G. Andrews Jubilee Creative Cinema Fund will provide support for sponsored or co-sponsored workshops, programming for Film and Media Arts, as well as internships and scholarships for students majoring in Communication Studies with an emphasis in Film and Media Arts. The Carol Koehler Memorial Scholarship is awarded annually to a Communication Studies student enrolled in a three hour internship. Scholarship information can be found on the Communication Studies website at http://cas.umkc.edu/Communication_Studies/scholarships.cfm.

Career Implications
Communication students may find rewarding careers in the multifaceted communication industry. The program is excellent preparation for careers in business, industry, health, public relations, advertising, radio, video and film production, Non-profit organizations and Human resources.

Further Educational Opportunities
The B.A. in communication studies prepares students for advanced study in communication studies, film and media, as well as in graduate programs such as law, medicine, business, public administration and those associated with the applied and performing arts.

Internship Program
Communication Studies 484 (Internship) COMM-ST 484 is required for all students completing an emphasis in Journalism and Mass Communication. Although an Internship is not required for students completing the emphasis in Interpersonal/Public Communication or Film and Media Arts, the Communication Studies Department strongly recommends the internship experience as a means of linking theory to practice, and preparing students to work effectively in professional settings. Internships provide students with on-the-job experience which is both practical and purposeful. The internship program allows opportunities for experience on a national and international level.

The Internship course number is COMM-ST 484. Each intern is required to enroll in at least one credit hour. One credit hour requires 75 hours of internship work. Two credit hours require 150 hours of internship work. Three credit hours require 225 hours of internship work. Four credit hours require 300 hours of internship work.

Information on Internship Opportunities is available in the department office and at http://cas.umkc.edu/Communication_Studies/internships.cfm, and through the Roo Career Network https://umkc-csm.symplicity.com/. The coordinator for the Internship Program is Linda Kurz. 816-235-5846.

Advising System
Current program requirements are available in the department office. Students must file a formal declaration of major with a departmental adviser. The department highly recommends that students meet with their major adviser before enrolling in classes each semester. At 90 hours or one year prior to graduation, students should file for a final degree audit with their major adviser and with the College of Arts and Sciences. Undergraduate advisers are Linda Kurz 816-235-5846 kurzl@umkc.edu and Judith McCormick 816-235-1120 mccormickjk@umkc.edu. Students in the Film and Media Studies Emphasis should contact Caitlin Horson mailto:horsonc@umkc.edu 816-235-2735 or Lyn Elliot mailto:elliott@umkc.edu 816-235-1708 for advising in that emphasis area.
Financial Aid

Students with University work-study assignments are welcomed as student assistants in various aspects of the department’s activities.

Ye Wang Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wang); assistant professor of communication studies; B.A. (Beijing University of Posts and Telecommunications); M.A. Linguistics (Beijing Foreign Studies University); M.A., Ph.D. Journalism (University of Missouri).
Undergraduate

Undergraduate Degrees:

- Bachelor of Arts: Communication Studies
  - Film and Media Studies Emphasis
  - Journalism and Mass Communication Emphasis
  - Interpersonal and Public Communications Emphasis
- Minor in Communication Studies
- Online Minor in Communication Studies
- Minor in Film Studies

Bachelor of Arts: Communication Studies

Student Learning Outcomes

1. Students will understand social science research using analytical skills by demonstrating the ability to conduct historical and contemporary research using print and online resources.
2. Students will understand how human values determine communication outcomes. Included in this understanding are cultural, political, legal and philosophical perspectives.
3. Students will demonstrate the ability to recognize his/her bias, identify argument fallacies and increase their objectivity to view their ideas from all sides of an issue.
4. Students will demonstrate that they can communicate effectively in oral, written, and/or visual styles; as well as establish relationships with others based on respect and equality. This includes supportiveness, empathy, collaboration, and conflict management in personal and professional behaviors.
5. Students will develop reasoned and supported arguments in a logical progression with both requisite competence and grammatical precision.

Core Program Requirements

The department provides a multidisciplinary approach so students can satisfy their educational and occupational needs across multiple, firmly grounded degree tracks. Regardless of the emphasis, students are required to satisfactorily complete the department’s core courses. Students must maintain a 2.0 GPA in their major field. A grade of "D" in a course within the major will not be accepted for credit in the program. With prior permission, three hours of elective credit from another department may be accepted as Communication Studies elective credit. At least 18 of 33 credit hours must be at the 300 or 400 level. Transfer students may transfer a maximum of 15 hours from another institution, and in addition, must complete a minimum of 18 credit hours within the department.

</tbody>
</table>

The program of study for the Bachelor of Arts in Communication Studies consists of 33 total credit hours. COMM-ST 110 and COMM-ST 483 are required for all three emphasis areas. COMM-ST 483 must be taken during a student’s final semester. Students are expected to work closely with a departmental advisor in designing an undergraduate program of study for their emphasis. Only three credit hours within the 33 hours for a major may be taken in one-credit-hour courses. Students are required to take one writing intensive course within their emphasis area with the exception of Film and Media Studies. Film and Media Studies students must take one designated writing intensive course in any discipline.

Note: Students must complete the RooWriter before enrolling in any writing intensive courses. As noted in Pathway, the following classes do not count toward electives in Communication Studies:

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts: Communication Studies - Film and Media Arts

Student Learning Outcomes

The Department of Communication Studies offers a variety of program areas, including interpersonal communication, public communication, print and electronic journalism, advertising, public relations, media theory and history, as well as radio, television, and film/video production. While each of these program areas have distinct outcomes in regard to professional competence, the faculty makes a strong effort to work collaboratively to assure that the measure of success in earning a degree in Communication Studies is defined in three departmental outcome goals which we seek to make one in the learning process:

1. Oral and written communication competence.
2. The development of critical thinking skills.
3. The development of both social and professional skills.

We recognize that the development of “professional skills” involve both general and specific outcomes. General outcomes include producing students who display professional standards in regard to interpersonal, intercultural, and organizational communication skills, as well as professional work habits (punctuality, reliability, ethical discernment, teambuilding, etc.). Specific professional skills taught in the Department prepare students to succeed in the professional areas of business communication, health communication, advertising, public relations, film, broadcasting, and journalism.

The Department makes a conscious effort to assess our curricula, teaching, as well as learning processes, and student/faculty competence, on the basis of student learning outcomes. We take pride in our reputation as a “teaching” department.

These outcome goals must equally serve students who will be immediately entering the workplace following the attainment of their undergraduate degree, as well as those who will be entering graduate school programs in a wide variety of academic areas (law, business, interpersonal communication, public communication, journalism, film, among others).

In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above.

Degree Requirements - Film and Media Arts Emphasis

In addition to the 6 credit hours of the department’s core courses (COMM-ST 110, COMM-ST 483), the Film and Media Arts emphasis requires COMM-ST 330, COMM-ST 339 and 21 hours of Film and Media Arts electives for a total of 33 credit hours. Students are required to take one writing intensive course in any department.

Bachelor of Arts: Communication Studies - Interpersonal and Public Communication Emphasis

Student Learning Outcomes

The Department of Communication Studies offers a variety of program areas, including interpersonal communication, public communication, print and electronic journalism, advertising, public relations, media theory and history, as well as radio, television, and film/video production. While each of these program areas have distinct outcomes in regard to professional competence, the faculty makes a strong effort to work collaboratively to assure that the measure of success in earning a degree in Communication Studies is defined in three departmental outcome goals which we seek to make one in the learning process:

1. Oral and written communication competence.
2. The development of critical thinking skills.
3. The development of both social and professional skills.

We recognize that the development of “professional skills” involve both general and specific outcomes. General outcomes include producing students who display professional standards in regard to interpersonal, intercultural, and organizational communication skills, as well as professional work habits...
(punctuality, reliability, ethical discernment, teambuilding, etc.). Specific professional skills taught in the Department prepare students to succeed in the professional areas of business communication, health communication, advertising, public relations, film, broadcasting, and journalism.

The Department makes a conscious effort to assess our curricula, teaching, as well as learning processes, and student/faculty competence, on the basis of student learning outcomes. We take pride in our reputation as a "teaching" department.

These outcome goals must equally serve students who will be immediately entering the workplace following the attainment of their undergraduate degree, as well as those who will be entering graduate school programs in a wide variety of academic areas (law, business, interpersonal and public communication, journalism, film, among others).

In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above.

**Degree Requirements - Interpersonal and Public Communication Emphasis**

In addition to the department’s six hours of core courses (COMM-ST 110, COMM-ST 483), COMM-ST 308, COMM-ST 341WI and COMM-ST 377 are required for this emphasis. Three hours of Interpersonal and 3 hours of Public Communication courses are required. Twelve hours of Interpersonal and Public electives complete the emphasis for a total of 33 credit hours. Students are required to take one writing intensive course within the emphasis area.

Bachelor of Arts: Communication Studies - Journalism and Mass Communications Emphasis

Student Learning Outcomes
The Department of Communication Studies offers a variety of program areas, including public address, print and electronic journalism, advertising, public relations, media theory and history, as well as radio, television, and film/video production. While each of these program areas have distinct outcomes in regard to professional competence, the faculty makes a strong effort to work collaboratively to assure that the measure of success in earning a degree in Communication Studies is defined in three departmental outcome goals which we seek to make one in the learning process:

1. Oral and written communication competence.
2. The development of critical thinking skills.
3. The development of both social and professional skills.

We recognize that the development of “professional skills” involve both general and specific outcomes. General outcomes include producing students who display professional standards in regard to interpersonal, intercultural, and organizational communication skills, as well as professional work habits (punctuality, reliability, ethical discernment, teambuilding, etc.). Specific professional skills taught in the Department prepare students to succeed in the professional areas of business communication, health communication, advertising, public relations, film, broadcasting, and journalism.

The Department makes a conscious effort to assess our curricula, teaching, as well as learning processes, and student/faculty competence, on the basis of student learning outcomes. We take pride in our reputation as a “teaching” department.

These outcome goals must equally serve students who will be immediately entering the workplace following the attainment of their undergraduate degree, as well as those who will be entering graduate school programs in a wide variety of academic areas (law, business, speech communication, journalism, film, among others).

In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above.

Degree Requirements - Journalism & Mass Communication Emphasis
In addition to the department’s six credit hours of core courses (COMM-ST 110, COMM-ST 483), the Journalism and Mass Communication emphasis requires nine hours: COMM-ST 220 COMM-ST 303WI OR COMM-ST 351WI and COMM-ST 484. An additional 18 hours of Journalism and Mass Communication electives are required, for a total of 33 hours. Students are required to take one writing intensive course within the emphasis area.

Department’s Core Courses
COMM-ST 110  Fundamentals Of Effective Speaking And Listening  3
COMM-ST 483  Research Seminar In Communication Studies  3

Required Courses

In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above.

A minor in communication studies may be earned by completing two required courses (COMM-ST 110 and COMM-ST 308), plus another 12 credit hours in any 300-400 level courses within the department, with the exception of those courses listed below. Students may declare their minor by meeting with the undergraduate advisor and filing a completed Declaration of Major Form (available in 202 Haag Hall) with a current copy of their transcript. A grade of "D" in a course within the minor will not be accepted for credit in the program.

Online Minor in Communication Studies

Student Learning Outcomes

The Department of Communication Studies offers a variety of program areas, including interpersonal communication, public communication, print and electronic journalism, advertising, public relations, media theory and history, as well as radio, television, and film/video production. While each of these program areas have distinct outcomes in regard to professional competence, the faculty makes a strong effort to work collaboratively to assure that the measure of success in earning a degree in Communication Studies is defined in three departmental outcome goals which we seek to make one in the learning process:

1. Oral and written communication competence.
2. The development of critical thinking skills.
3. The development of both social and professional skills.

We recognize that the development of "professional skills" involve both general and specific outcomes. General outcomes include producing students who display professional standards in regard to interpersonal, intercultural, and organizational communication skills, as well as professional work habits (punctuality, reliability, ethical discernment, teambuilding, etc.). Specific professional skills taught in the Department prepare students to succeed in the professional areas of business communication, health communication, advertising, public relations, film, broadcasting, and journalism.

The Department makes a conscious effort to assess our curricula, teaching, as well as learning processes, and student/faculty competence, on the basis of student learning outcomes. We take pride in our reputation as a "teaching" department.

These outcome goals must equally serve students who will be immediately entering the workplace following the attainment of their undergraduate degree, as well as those who will be entering graduate school programs in a wide variety of academic areas (law, business, interpersonal and public communication, journalism, film, among others).
In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above.

A minor in communication studies may be earned online by completing two required courses (COMM-ST 110 and COMM-ST 308), plus another 12 credit hours in any 300-400 level online courses within the department. Students may declare their minor by meeting with the undergraduate advisor and filing a completed Declaration of Major Form (available in 202 Haag Hall). A grade of "D" in a course within the minor will not be accepted for credit in the program.

Administrative Assistant:
Tricia Falk

Department Description

The Department of Criminal Justice and Criminology offers programs of study leading to the following degrees:
• Bachelor of Arts in Criminal Justice and Criminology
• Master of Science in Criminal Justice and Criminology

A program minor is available in Criminal Justice and Criminology.

The mission of the department is to extend knowledge about the nature of crime and criminal justice. This mission includes continuing participation by faculty in significant criminological research; other scholarly endeavors; and inviting students to join in that activity by:

• Learning the core materials of the discipline.
• Acquiring research skills.
• Assisting in faculty research.
• Becoming involved in student activities that supplement coursework and research.

Within the context of a liberal arts education, the program offers an interdisciplinary approach to study the criminal justice system. The program is designed to develop the intellectual skills required to function effectively as a field practitioner and to provide the knowledge base for careers as planners, administrators and researchers. The course offerings emphasize issues and problems relevant to policy considerations in criminal justice.

Department Activities

Undergraduate Academic Advising

Student academic advising is a continuous process in the department. Undergraduate advisors are available for consultation throughout the academic year. The department recommends that students check the program requirements in the department office before filing the declaration of major form. Undergraduate majors are encouraged to consult with the department to establish a tentative plan of study. Students should leave their mail and e-mail addresses with the department office so that they can receive notifications concerning class time tables, new classes, and other departmental information of interest to majors.

Financial Assistance

Students can receive financial assistance through various campus scholarships, loan programs, grants and the work-study program. Students who are interested should contact the Financial Aid and Scholarships Office.

Alvin Brooks Scholarship

Award Amount: Varies

Qualifications: Full-time undergraduate student majoring in Criminal Justice & Criminology, who is in good academic standing with a minimum GPA of 2.0. Preference given to students who are a first generation college student, who graduated from an accredited Kansas City, Missouri high school or transferred from a Kansas City area community college. The student must demonstrate financial need.

How to Apply: The College of Arts and Sciences’ Scholarship Application.

Criminal Justice Club and Honor Society

The Criminal Justice and Criminology Club is open to all students interested in criminal justice topics; students do not have to be a Criminal Justice and Criminology Major. Club activities include service projects in the community, sponsorship of community speakers on campus, participation in local and regional professional meetings, and learning about internships and research opportunities. The department also has a chapter of Alpha Phi Sigma, a national honor society for Criminal Justice students. Students must meet certain academic qualifications and pay an initiation fee to join this national honor society.

Cooperative Programs

The department cooperates with several other programs on the campus by jointly listing courses at the undergraduate level. Students may benefit from combining one of these areas of study with their major:

• Gerontology
• Honors program
• Urban Studies
• Women’s and Gender Studies
• Black Studies

Graduate Academic Advising

Student academic advising is a continuous process in the department. The principal graduate advisor is available for consultation throughout the academic year. Graduate students are required to consult with the department to establish a tentative plan of study. A master’s degree program of study form, and a form appointing a supervisory committee, should be submitted by the end of the student’s first semester in the program. Students
should leave their mail and e-mail addresses with the department so they can receive notifications concerning class time tables, new classes and other departmental news and opportunities.

Faculty

Cathleen Burnett Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=burnett); professor of sociology/CJC; B.A. (St. Lawrence University); M.S., Ph.D. (Vanderbilt University).

Andrew M. Fox Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=fox); assistant professor of criminal justice and criminology; B.A. (Aquinas College); M.S., Ph.D. (University of Cincinnati).

Jessica Hodge Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hodge); assistant professor of criminal justice and criminology; B.A. (University of Minnesota); M.S. (Western Oregon University); Ph.D. (University of Delaware).

Alexander Holsinger Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=holsinger); associate professor of criminal justice and criminology; B.A. (Aquinas College); M.S. (Illinois State University); Ph.D. (University of Cincinnati).

Kristi Holsinger Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=holsinger); associate professor of criminal justice and criminology; B.A. (Aquinas College); M.S., Ph.D. (University of Cincinnati).

Toya Z. Like-Haislip Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=like); assistant professor of criminal justice and criminology; B.S., M.A., Ph.D. (University of Missouri-St. Louis).

Wayne L. Lucas Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=lucas); professor of criminal justice and criminology; B.S., M.S. (Illinois State University); Ph.D. (Iowa State University).

Ken Novak Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=novak); associate professor of criminal justice and criminology; B.S. (Bowling Green State University); M.S., Ph.D. (University of Cincinnati).

Lori Sexton Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=sexton); assistant professor of criminal justice and criminology; B.S. (Cornell University); M.A. (University of Pennsylvania); Ph.D. (University of California, Irvine).

• Minor in Criminal Justice and Criminology (p. 90)

Graduate

Graduate Degrees:

• Master of Science in Criminal Justice and Criminology (p. 89)

BA in Criminal Justice and Criminology

Career Implications

The B.A. curriculum is designed to prepare students for entry-level positions and middle-management careers in the public and private sectors of police and security services, adult and juvenile justice systems and post-adjudicatory services such as probation, parole and related private organizations, as well as federal, state and local administrative agencies. The program is intended to augment skills that are developed in the training programs and academies of service agencies and to develop new talent for the wide variety of agencies and organizations that administer our legal institutions. In addition to the foregoing variety of career roles, CJC majors can exercise career options in consulting, government, human services, journalism and urban planning, and with the appropriate graduate training, in teaching social work, criminology and law.
Student Learning Outcomes

The mission of the Bachelor of Arts in Criminal Justice and Criminology is to offer students the opportunity to learn how to analyze and interpret the systems of social control that are applied through the criminal justice system and throughout society, as well as how to explain the causes and consequences of these social structures. This major focuses on crime, criminals, and professionals who handle these concerns through arrest, court processing and punishments. As such the major emphasizes community engagement and service so to prepare students for the jobs and leadership opportunities that will be necessary for their role as future change agents. The major offers skills in critical thinking and in conducting and evaluating research which promote evidence-based decision-making and effective communication. Always striving for best practices, this major is especially relevant to the urban engagement mission of the university, and its domain is always situated within inclusive learning environments which demand students become culturally competent individuals in order to understand and thrive in society.

Graduates of the UMKC’s Undergraduate Criminal Justice & Criminology Degree Program will:

• Demonstrate ability to integrate, critique, synthesize, and apply content.
• Demonstrate strong oral and written communication skills.
• Demonstrate understanding of skills.
• Possess an understanding of job and career paths.
• Demonstrate ability to link theory, research and policy.
• Demonstrate ability to engage with and address existing social problems.
• Demonstrate ability to communicate as is appropriate for CJC practitioners and professionals.

Degree Requirements

The B.A. degree requires a total of 36 credit hours in addition to the general education requirements for a degree in The College of Arts and Sciences.

For students selecting the CJC major:

Required Courses

<table>

Electives

CJC Electives (see restrictions below) 15

Total Credits 36

1 STAT 235 is not a substitute for CJC 210.

2 Students are expected to take CJC 495WI after they finish all other CJC courses. CJC 495WI is open only to CJC majors in their last semester of coursework who have completed the RooWriter.

Students must receive a grade of no lower than C- in the core required courses (CJC 101, CJC 210, CJC 215, CJC 220, and CJC 495WI) and achieve an overall GPA of 2.0 in the major. Students with more than one academic major may apply only 9 credit hours from another degree program toward the CJC major.

It is suggested that students broaden their course choices by selecting related offerings in English (especially those courses that stress writing skills), philosophy, history, geography, political science, psychology, sociology and public administration.

Transfer students may be credited with a maximum of 15 Criminal Justice and Criminology credit hours (the introductory course plus 12 hours of electives) from other institutions.

In selecting courses to fulfill the 15 credit hours of CJC electives, CJC majors and minors should be aware of the following restrictions:

• No more than 6 credit hours of Directed Studies in Criminal Justice and Criminology (CJC 490) may be used to fulfill CJC elective requirements.
• Participation in only one Internship in Criminal Justice (CJC 491) may be used to fulfill CJC elective requirements.
• No more than 3 credit hours of Topics in Criminal Justice (CJC 492) may be used to fulfill CJC elective requirements.
Students who are pursuing the CJC major or minor are strongly encouraged to meet with a CJC advisor each semester to review their progress toward degree completion, as well as to determine the appropriateness of coursework selected.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Master of Science: Criminal Justice and Criminology

MS-CJC Program Description

The M.S. degree in CJC offers coursework that emphasizes policy analysis of criminal justice and criminology issues. The M.S.-CJC degree may serve as a terminal degree for those seeking appropriate study and academic credentials to qualify for management and administrative positions in justice-related agencies. The degree may also serve as preparation for advanced study in criminology and criminal justice at the doctoral level. Depending upon personal academic or career goals, students may concentrate studies in the treatment and research area, or the area of justice agency development and management.

Application Procedures

Applicants must submit an application for admission to UMKC and transcripts of their undergraduate work to the university Office of Admissions. Additionally, applicants must submit a writing sample to the department’s Admissions Committee (i.e., the Principal Graduate Advisor). This writing sample should be two to three pages in length (double-spaced) and should identify how the applicant’s undergraduate education and their work or personal experience has prepared them for graduate study in the area of criminal justice and criminology. Applicants are also encouraged to express how they view study in our graduate program as fitting with their future career or educational goals. It is recommended students review the MS in CJC program’s course offerings (available via the department’s web site) as well as the concentration areas of the faculty (also available on-line) in order to glean additional information about what the academic programming has to offer. The writing sample is to be sent directly to the principal graduate advisor for the M.S.-CJC program at the department address. Applicants for the spring term must have all materials to the admissions committee by November 1, and those applying for fall semester or summer term admission must have materials in by April 1.

The department strongly recommends that application materials be submitted well in advance of the posted due date to ensure all materials will be on hand in time for review.

Decisions regarding admission to the graduate program are made by the graduate faculty of the program. Materials are reviewed with attention to past academic performance and substantive areas of study that would prepare students for CJC graduate study.

Admission Requirements

The minimum admission requirements for entrance into the M.S.-CJC program include the following:

1. Completed an undergraduate degree, from an accredited university or college, with coursework in the socio-behavioral sciences sufficient to prepare for graduate-level study in the criminal justice and criminology field.
2. Achieved a minimum cumulative GPA of 3.0 in all undergraduate work.
3. Completed three undergraduate courses one each in statistics, research methods, and theories of crime.
4. Two letters of recommendation: Applicants should ask at least two individuals to provide references on their behalf using the form that can be found at http://cas.umkc.edu/cjc/admissions.asp. Please note that references may also include a written letter of reference, that speaks to the applicant’s scholastic aptitude, and their level of preparation for graduate-level education. References should be provided by individuals who are not related to the applicant, and ideally will come from individuals who have direct knowledge of the applicant’s academic credentials and preparedness.

The application process is competitive. Satisfaction of the minimum criteria stated above does not guarantee admission to the graduate program of study. Students are admitted according to their rank in the applicant pool and consideration of the adequacy of departmental resources.

Students who do not meet admission requirements, but who otherwise may show promise for graduate work, may be admitted provisionally to the program. Provisional admission means deficiencies must be corrected before a student is fully admitted as a degree-seeking student in the M.S.-CJC program. Typical deficiencies include a need to take undergraduate coursework to prepare for graduate study in this program, or to demonstrate scholastic ability in graduate-level courses.
Student Learning Outcomes

The Department of Criminal Justice and Criminology’s mission is to lead in graduate education within the area of Criminal Justice and Criminology; to deepen and expand scientific understanding of America’s justice systems; to develop a graduate-educated workforce and collaborate in urban issues and education; to create a vibrant learning and campus life experience for our master’s students.

Graduates from the Master of Science in Criminal Justice and Criminology program will demonstrate:

• A comprehensive understanding of policies and practices
• An advanced knowledge of criminological theory
• Competency in research and analysis

The M.S.-CJC degree requires successful completion of 30 credit hours of graduate work. Within these 30 hours, students may elect to complete a thesis or pursue the non-thesis option.

A core of five courses is required of all students. The required courses include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CJC 5511</td>
<td>Sociological Methods II</td>
<td>3</td>
</tr>
<tr>
<td>CJC 5515</td>
<td>Qualitative Research Methods in Criminal Justice</td>

<tr>
<td>CJC 5516</td>
<td>Intermediate Statistics</td>
<td>3</td>
</tr>
<tr>
<td>CJC 5518</td>
<td>Advanced Criminological Theory</td>
<td>3</td>
</tr>
<tr>
<td>CJC 5580</td>
<td>Seminar: Policy And Decision Making In Criminal Justice</td>
<td>3</td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>15</td>
</tr>
</tbody>
</table>

One of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CJC 5551</td>
<td>Seminar In Policing</td>
<td>3</td>
</tr>

<td>CJC 5570</td>
<td>Contemporary Corrections And Correctional Policy</td>
<td>3</td>
</tr>
<tr>
<td>CJC 5575</td>
<td>Correctional Rehabilitation And Treatment</td>
<td>3</td>
</tr>
</tbody>
</table>

The required graduate courses in statistics, research methods and theory demand completion of prerequisite courses in these areas from the student’s undergraduate work. Those who have not had such courses may be required to take the prerequisite course(s) prior to enrolling in the graduate course. Beyond the required courses, students must complete an additional 15 hours of academic work. This work may include thesis hours, courses in independent directed studies, classes from the CJC curriculum, or courses from other disciplines as well as those listed above. The content of those 15 hours of study will reflect the student’s choice after consultation with their faculty advisor, with respect to thesis or non-thesis options.

Thesis Option

Those electing to write a thesis as part of their graduate work can receive up to 6 hours credit (CJC 5599) for preparation of the thesis. In addition to writing the thesis students must successfully complete an oral defense of that thesis before their supervisory committee. The research topic of the thesis will address some issue of specific interest to the student. Through courses, literature review, and analyses conducted in developing the thesis, students are expected to become proficient in their specific thesis topic area.

Non-Thesis Option

Those electing the non-thesis option will take additional coursework in lieu of the 6.0 credit hours allotted for the thesis option outlined above.

Demonstration Project

During their final semester, students pursuing the non-thesis option must successfully complete a demonstration project. The demonstration project will require the student to write an independent research paper that outlines solutions to a given scenario. After completion and submission of the paper, the student will meet with a panel of two faculty members where an assessment of the paper will be given ("Pass", "Revise and Resubmit", "Fail"). Students doing the demonstration project will take 3 credit hours of Directed Studies in Criminal Justice and Criminology (CJC 5590), under the direction of the principal graduate advisor. These three hours will be counted toward the fifteen hours of electives for the program of study. See the Principal Graduate Advisor for more information regarding the demonstration project option.

Minor in Criminal Justice and Criminology

Student Learning Outcomes

The mission of the minor in Criminal Justice and Criminology is to prepare future leaders in the field of Criminal Justice with the knowledge to understand and the skills to utilize resources for creative and effective problem-solving.
Graduates of the UMKC’s Undergraduate Criminal Justice & Criminology Degree Program will:

- Demonstrate knowledge of the Criminal Justice System, its subsystems (the institutions and structures of police, courts, and corrections) and their interactions (processes).
- Demonstrate knowledge of the major theoretical explanations for individual motivations to commit crime as well as the nature/occurrence of crime which includes the prominent schools of criminological thoughts - the Positivist, Classical and Chicago Schools of Criminology - and emergent theories.
- Demonstrate the ability to analyze criminal justice literature, through reading comprehension and interpretation.

Program Requirements

Undergraduate students can obtain a CJC minor. A minimum of 18 credit hours is required, including the introductory course CJC 101. At least 9 of the 18 credit hours must be in courses at the 300 or 400 level, and at least 9 of the 18 credit hours must be taken at UMKC. Only 6 credit hours from the major field of study may be applied toward a CJC minor, and only 3 credit hours may overlap between two minors. Students should receive a grade no lower than a C- in the required course and should have an overall 2.0 GPA for the minor.

The Department of Economics is committed to promoting excellence in broad-based undergraduate programs; graduate and interdisciplinary doctoral education; research; and community, university and professional service. The department focuses its research, teaching and service efforts on the urban mission of the University by fostering a diversity of research and teaching perspectives for faculty and students.

The department offers an undergraduate major that can be completed either through day or evening classes and is a major participant in PACE (Program for Adult College Education).

Our Students

The department offers programs leading to a Bachelor of Arts, Master’s of Arts and Interdisciplinary Ph.D., in Economics. It also provides undergraduate service courses to the College of Arts and Sciences, the Bloch School, and the School of Computing and Engineering. Undergraduate major participate in a variety of visiting lecture programs and faculty colloquialism through the Economics Club and the Omicron Delta Epsilon (the economics honorary society).

Faculty and Facilities

Faculty members of the department maintain active, extensive research programs and a strong commitment to teaching -- holding four outstanding teaching awards. Faculty members have served as presidents for national and regional economic associations and lectured and conducted research in the Fulbright Program, the Ford Foundation, the U.S. Department of Commerce, and the U.S. Department of Labor. Faculty members have established national and international reputations in a number of research fields. For a small faculty, the department has ranked high among other economics departments at comparable institutions nationally.

The Department of Economics and the Center for Economic Information are housed in Haag Hall. Faculty and other department programs are housed in Manheim Hall. Students have access to state-of-the-art computer labs and classrooms.

Center for Economic Information

Haag Hall (http://www.umkc.edu/virtualtour/haag.asp), Room 210
5120 Rockhill Road
(816) 235-1394
http://www.umkc.edu/cei/

The Center for Economic Information was established in November 1994 with the goal of making local, regional and national information accessible to economic decision-makers in the Kansas City metropolitan area. The CEI is affiliated with the Department of Economics and the College of Arts and Sciences.

The center is involved in research, teaching and outreach activities. The primary expertise of the center is in application of information technology for economic analysis.

Missouri Council for Economic Education

The department houses the Missouri Council for Economic Education (MCEE). MCEE is the statewide provider of economic education training for elementary and secondary education. It is located in Manheim Hall.

Karen S. Vorst, Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vorst), professor of economics; B.S. (Bowling Green State University); Ph.D. (Indiana University).

F. Eugene Wagner, Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wagner), professor emeritus of economics; B.A., M.S. (University of Missouri-Kansas City); Ph.D. (Syracuse University).

John O. Ward, Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ward), professor emeritus of economics; B.A., M.A. (University of Toledo); Ph.D. (University of Oklahoma).

L. Randall Wray, Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wray), professor of economics; B.A. (University of the Pacific); M.A. (Washington University); Ph.D. (Washington University).

Ben Young, lecturer, Ph.D. (University of Oklahoma).

1 Associate or Adjunct Graduate Faculty
2 Members of UMKC Graduate Faculty
3 Members of UMKC Doctoral Faculty
4 Located at UM-St. Louis campus

Undergraduate Degrees:

- Bachelor of Arts: Economics
- Minor in Economics
Graduate

Graduate Degrees:

• Master of Arts: Economics
• Interdisciplinary Ph.D.

Bachelor of Arts: Economics

Career Implications

The undergraduate degree in economics is excellent preparation for graduate study in economics and most other academic disciplines, as well as law and business. A degree in economics opens a wide range of career choices including teaching, government service, finance, banking and insurance. It is excellent preparation for a career in business, public administration and management.

Advising System

Students in the program should consult Professor Karen Vorst, (816) 235-5875 and E-mail: mailto:vorstk@umkc.edu, for undergraduate advising.

Program of Study

The department offers a bachelor of arts in economics.

Honor Society

The Zeta chapter of the Omicron Delta Epsilon International Honor Society in Economics is on campus. Information on this organization can be obtained from Ben Young. The society is open to all undergraduate students with at least 12 hours of economics and a 3.0 GPA in economics and related courses. Graduate students in economics with a 3.0 GPA also may join.

Special Awards and Scholarships

The Joe E. Brown Institutional Economics Award is given each year to an undergraduate or graduate student for outstanding academic performance in the study of institutional theory. The department also offers the Robert Greene Scholarship, Frank Wagner Scholarship and the James Crew Scholarship for undergraduates.

The Bachelor of Arts in Economics

Student Learning Outcomes

Upon graduating with a B.A. degree in Economics:

• Students will be able to distinguish the attributes of a variety of economic theories and policies.
• Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
• Students will have knowledge of statistical methods that will become part of their problem-solving toolset.
• Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
• All students will have undertaken a research project in conjunction with a local community development corporation as part of an academic service learning assignment. In fact, there will be many opportunities to be actively engaged with the Kansas City community through our community service requirement in various courses.
• Students will be better problem solvers and better-informed citizens.

This program requires a minimum of 36 hours and a maximum of 45 hours of courses in the department. A minimum 2.0 GPA in the major is required for graduation.

Related courses in anthropology, English, geography, philosophy, history, political science, psychology, sociology, accounting and computer programming are recommended to satisfy the College of Arts and Sciences requirements for graduation.

The following courses are required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 201</td>
<td>Introduction To Economics I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 202</td>
<td>Introduction To Economics II</td>
<td>3</td>
</tr>
<tr>
<td>ECON 301</td>
<td>Macroeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 302</td>
<td>Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 425</td>
<td>Intermediate Economic Statistics</td>
<td>3</td>
</tr>
</tbody>
</table>
Six track-specific electives. See the specific track for details.

Total Credits

1  MATH 110 and STAT 235 or their equivalents are prerequisites for ECON 425.

2  ECON 421 is recommended for students who plan to do graduate work in economics.

**General Economics Track**

**Student Learning Outcomes**

- Students will be able to identify important issues related to the economy, from both a macro (broad policy questions) and micro (firm-specific questions) perspective.
- Students will be able to determine what information is needed to evaluate the issues and identify/construct appropriate data sets and other information for analysis.
- Students will develop and use their problem-solving skills and be able to analyze specific issues in order to formulate a variety of solutions.
- Students will be able to communicate their analysis effectively through written and oral presentations.
- Students will gain experience working in teams either in the classroom and/or on the job through an internship experience.

**Money and Finance Track**

**Student Learning Outcomes**

- Students will be able to identify important issues related to money and finance from both a macro (broad policy questions) and micro (firm-specific questions) perspective.
- Students will be able to determine what information is needed to evaluate the issues and identify/construct appropriate data sets and other information for analysis.
- Students will develop and use their problem-solving skills and be able to analyze specific issues in order to formulate a variety of solutions.
- Students will be able to communicate their analysis effectively through written and oral presentations.
- Students will gain experience working in teams either in the classroom and/or on the job through an internship experience.
Two electives at the 300 or 400 level from outside the track. These 2 electives may come from outside the Department of Economics, subject to approval by the Undergraduate Advisor.

Total Credits 36

Political Economy Track

Student Learning Outcomes

• Students will explain, analyze, and critically evaluate different market structures.
• Students will be able to analyze specific economic issues using different methodologies of both a quantitative and qualitative nature.
• Students will be able to undertake independent research into an examination of an issue of current social concern.
• Students will assess the role of domestic and international institutions and norms in shaping economic outcomes.
• Students will address and critically evaluate policy proposals from different theoretical perspectives.
• Students will understand why different theoretical perspectives lead to different policy recommendations.
• Students will examine a specific issue from a standpoint that incorporates social and political concerns in the economic inquiry.

ECON 201 Introduction To Economics I 3
ECON 202 Introduction To Economics II 3
ECON 301 Macroeconomic Analysis 3
ECON 302 Microeconomic Analysis 3
ECON 425 Intermediate Economic Statistics 3
ECON 451 Institutional Economic Theory 3
Select 4 of the following electives: 12
ECON 308 Challenges Facing The US Economy
ECON 312 Theory Of Economic Development
ECON 314 Race, Class And Gender: Theory, History, And Policy
ECON 395 Current Economic Issues
ECON 420 Environment, Resources And Economic Growth
ECON 438 Economic Policy
ECON 488 Radical Political Economy
ECON 497 Internship

Two electives at the 300 or 400 level from outside the track. These 2 electives may come from outside the Department of Economics, subject to approval by the Undergraduate Advisor.

Total Credits 36

Urban Economic Development

Student Learning Outcomes

• Students will become familiar and conversant with the full range of private, public, and non-profit sector organizations and activities which contribute to the process of urban economic development.
• Students will develop comprehensive and advanced skills in spatial analysis and the operation of Geographic Information Systems (GIS) in the support of urban economic development.
• Students will learn and develop competency in the theory and methods of the field of Urban Economics.
• In collaborative partnerships with local organizations, students will demonstrate the ability to integrate and apply the knowledge and skills acquired in learning outcomes 1-3 to practical problems in urban economic development.

ECON 201 Introduction To Economics I 3
ECON 202 Introduction To Economics II 3
ECON 301 Macroeconomic Analysis 3
ECON 302 Microeconomic Analysis 3
ECON 425 Intermediate Economic Statistics 3
ECON 451 Institutional Economic Theory 3
Electives: 12
ECON 336 The Kansas City Economy
**Teacher Certification in Social Studies**

**Student Learning Outcomes**

Upon graduating with a Teacher Certification in Social Studies:

- Students will be able to distinguish the attributes of a variety of economic theories and policies.
- Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
- Students will have knowledge of statistical methods that will become part of their problem-solving toolset.
- Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
- All students will have undertaken a research project in conjunction with a local community development corporation as part of an academic service learning assignment. In fact, there will be many opportunities to be actively engaged with the Kansas City community through our community service requirement in various courses.
- Students will be better problem solvers and better-informed citizens.

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

**PACE Degree in Liberal Arts**

**Student Learning Outcomes**

Upon graduating with a PACE degree in liberal arts:

- Students will be able to distinguish the attributes of a variety of economic theories and policies.
- Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
- Students will have knowledge of statistical methods that will become part of their problem-solving toolset.
- Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
- All students will have undertaken a research project in conjunction with a local community development corporation as part of an academic service learning assignment. In fact, there will be many opportunities to be actively engaged with the Kansas City community through our community service requirement in various courses.
- Students will be better problem solvers and better-informed citizens.

The department participates in several courses in PACE: leading to concentrations in human resources or a program for working adults in a weeknight/weekend format. These courses include:

**Economics Pace Courses**

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Interdisciplinary Ph.D.

The Department of Economics participates in the Interdisciplinary Ph.D. program.

For further information see School of Graduate Studies (p. 480) section in this catalog, contact the Department of Economics, (816) 235-1314, or Peter Eaton Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=eaton), Interdisciplinary Ph.D. Coordinator, (816) 235-2832 or eatonp@umkc.edu

Master of Arts: Economics

Career Implications

The master of arts in economics is designed as a preparation for further graduate training at the doctoral level and for professional positions in industry, business, government, teaching and research. Courses may be taken in areas other than economics with the approval of the graduate adviser.

Advising System

Students should consult with the graduate advisor, Fred Lee (816) 235-2543, leefs@umkc.edu, to plan their graduate program of study.

Admission Requirements

Students may be admitted for graduate study in economics if they have a baccalaureate degree in economics from an accredited college or university with an overall grade-point average of at least 2.5 on the 4.0 scale (or the equivalent). Applicants whose undergraduate GPA is less than 2.5 may be considered for admission upon petition to the Graduate Admission Committee of the Department of Economics.

Students who have a baccalaureate degree with an overall undergraduate GPA of 2.5 or better and who did not major in economics may be admitted to the program upon consultation with the department’s graduate adviser and on demonstrating proficiency in the following areas:

- Intermediate Macroeconomic Analysis
- Intermediate Microeconomic Analysis
- Introductory Statistics

All students with less than a 2.5 (4.0 scale) GPA prior to admission shall be required to take the general Graduate Record Examinations (GRE) and obtain a score of 153 in verbal, a score of 144 in quantitative, and a score of 4.0 on the analytical portion or better.

International students who have studied less than two years (full time) in a U.S. academic program or a comparable program in an English-speaking country are required to have TOEFL score of 550 or above or 213 on the computer-based test.

Student Learning Outcomes

Students graduating with a master’s degree in economics will:

- Have an advanced knowledge of the basic areas of the field.
- Be able to integrate their knowledge with critical thinking skills.
- Be able to articulate their knowledge, both orally and in writing.
- Be able to effectively research the literature of this field.
The Department of Economics offers a master of arts degree. The M.A. program seeks to provide students with a broad level of competence in economics. Students are encouraged to extend the reach of their scholarship to acquire a wide-ranging foundation in addition to technical mastery of theory and quantitative methods. This is done through the combination of required and elective courses.

### Degree Requirements

Thirty hours of graduate work are required for the M.A. in economics. The following required courses (15 hours) and their prerequisites are listed:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5501</td>
<td>Advanced Macroeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5502</td>
<td>Advanced Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5521</td>
<td>Mathematical Economics 1,2</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5525</td>
<td>Econometric Methods 3</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5551</td>
<td>Advanced Institutional Theory 4</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Additional hours of coursework 5</td>
<td>15</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td>30</td>
</tr>
</tbody>
</table>

1. ECON 5521 is waived if students have completed ECON 421 or its equivalent. In the event students have not had ECON 421 they should take ECON 5521. Calculus is strongly recommended as a prerequisite for ECON 5521.
2. For students not entering in the fall semester, it is strongly recommended that ECON 5521 be taken at the first opportunity.
3. ECON 425 is required for all students who have not had it, or something very much like it. (See Professor Eaton)
4. ECON 451 is required for all students who have not had an approved substitute - see graduate adviser.
5. An additional 15 hours of coursework must be completed. Up to nine of these hours may be in selected 400-level courses in economics and related disciplines, upon consultation with the graduate adviser. Graduate credit toward the M.A. in economics is not given for courses at the 300 level. No more than 6 hours of ECON 5590, may be counted toward graduation.

Substitutions for the above prerequisites may be approved by the graduate adviser.

The prerequisites for graduate courses are very important and must be completed prior to enrollment in courses with prerequisites. Graduate students in economics must also comply with the general graduate academic regulations as found in the School of Graduate Studies section of this catalog.

### Requirements for Retention

Students are expected to maintain a high degree of academic excellence. Students must maintain a minimum 3.0 graduate grade-point average. A student who receives a grade of C+ or lower will receive an academic warning. Students who receive a grade of C or C- in two classes, or a grade of D+ or lower in one class, will be dropped from the program. A 3.0 (B) must be earned in all undergraduate courses approved for graduate credit and in ECON 5590 and ECON 5599.

A student is required to fill out a "program of study" with the graduate adviser before the completion of 15 hours of coursework. At that time, the graduate committee will consider the student's performance and make a recommendation with regard to retention of the student. After being approved by the College of Arts and Sciences graduate officer, the program of study is filed with the UMKC Records Office and may be amended upon consultation with the graduate adviser.

### Requirements for Graduation

Students on the elective courses track are required to complete 15 hours beyond the required courses. Of these, 6 hours must be at the 5500 level or above. Students on the project track complete a supervised applied research project which counts as part of the 15 hours beyond the required courses. The number of hours for the project depends on its scope and is determined by students and their project adviser. For more information about the project, see the graduate adviser. Depending on the scope of the project, students are required to take 3 to 6 hours from among the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5591</td>
<td>Research And Planning Seminar (required)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5599</td>
<td>Research And Thesis 1</td>
<td>1-6</td>
</tr>
</tbody>
</table>

1. ECON 5591 prerequisite.

### Minor in Economics

**Student Learning Outcomes**

Upon graduating with a minor in Economics:
• Students will be able to distinguish the attributes of a variety of economic theories and policies.
• Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
• Students will have knowledge of statistical methods that will become part of their problem-solving toolset.
• Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
• All students will have undertaken a research project in conjunction with a local community development corporation as part of an academic service learning assignment. In fact, there will be many opportunities to be actively engaged with the Kansas City community through our community service requirement in various courses.
• Students will be better problem solvers and better-informed citizens.

Program Requirements

The minor in economics is open to all students and consists of a minimum of 18 hours (six courses) in economics.

The courses are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 201</td>
<td>Introduction To Economics I</td>
<td>3</td>
</tr>
<tr>
<td>ECON 202</td>
<td>Introduction To Economics II</td>
<td>3</td>
</tr>
<tr>
<td>ECON 3XX or 4XX</td>
<td></td>
<td>12</td>
</tr>
</tbody>
</table>

Total Credits 18

1 Twelve hours in 300- to 400-level courses must be approved by the economics undergraduate adviser.

Associate Professors Emeriti:
Ralph Berets, James A. Reeds, Jonas Spatz

Department Description
The Department of English Language and Literature offers programs of study that lead to the Bachelor of Arts, the Master of Arts, the Master of Fine Arts, and the Interdisciplinary Doctor of Philosophy degrees. In the undergraduate program, students may pursue a general English program, they may elect to focus on language and rhetoric, British and American literature, Classical, Medieval and Early Modern literature, or they may choose an emphasis in creative writing or secondary English education. Four minors in English are offered: Language and Literature; Creative Writing; Writing; and Manuscript, Print Culture, and Editing. M.A. in English students may focus their studies on Literature or may elect the Language and Literature track or the Manuscript, Print Culture, and Editing track. A Graduate Certificate in Teaching of Writing is also available. The M.F.A. in Creative Writing and Media Arts is an interdisciplinary program leading to a terminal degree. English is an academic discipline eligible for full participation in the University’s Interdisciplinary Ph.D. program.

The Department of English includes faculty who have a broad range of professional competence in the study of literature and language, and who are trained to teach courses in British and American literature, linguistics, American culture, film, creative writing, and composition. The department believes the study and teaching of literature and language to be an important means of preserving and vitalizing our humanistic tradition.

Publications
The Department of English and the College of Arts and Sciences publish New Letters, a continuation of The University Review, which for over 50 years published the works of new and distinguished writers. New Letters continues to provide a medium for the best imaginative writing available.

The Department of English sponsors the publication of Number One, a magazine of student poetry and fiction, and The Sosland Journal, a collection of award-winning student essays from the Ilus W. Davis contest.

BkMk Press, operated under the auspices of the College of Arts and Sciences and housed in the Department of English, publishes books of high-quality poetry and prose by professional writers.

Greater Kansas City Writing Project
The English Language and Literature Department, in conjunction with several local school districts, sponsors the Greater Kansas City Writing Project (GKCWP), a graduate in-service program for teachers of writing (K-18). This program consists of summer graduate credit workshops and school district in-service sessions throughout the academic year. The GKCWP is an official National Writing Project affiliate.

Related Information, Opportunities, and Conferences
The Department of English sponsors undergraduate and graduate student conferences, a writers’ reading series, summer creative writing workshops, and annual contests for the Barbara Storck Poetry and Short Story Award and the Ilus W. Davis Award in Expository Writing. The Department offers additional scholarships for creative writers and students in literature, including the Diversity in English Scholarship for undergraduates. Graduate students are also eligible for the Farnsworth Fellowship. I-PhD students can apply for the Ilus Davis Doctoral Teaching Fellowship. The Department also offers courses and an annual conference for English teachers as part of its continuing education function. Four student groups provide social and literary activities for majors and interested others: Undergraduate English Council, English Graduate Student Association, Graduate Students in Creative Writing, and Sigma Tau Delta (the national English honor society).

Career Implications of the Undergraduate Degree
The English major is recommended for students interested in a broad, general background in the humanities and in the skills of analysis, synthesis, and self-expression. It is excellent preparation for medicine, business, and law, as well as for further literary study in graduate school.

In addition to careers in education, writing, and editing, English majors with writing and editorial skills find that they are desirable candidates for positions in businesses where effective communication and written evaluation are required.

Advising System
All undergraduate English majors are assigned to the Director of Undergraduate Studies.

Internships and Other Opportunities
Through the resources of the metropolitan media and publishing houses, as well as the on-campus facilities of the national literary journal New Letters, the literary publisher BkMk Press, and the academic journal, Eighteenth Century Theory & Interpretation, students may gain experience in writing and editing. With the approval of the supervising faculty, as well as the Director of Undergraduate Studies, students may intern with these media for credit. In addition, a number of other on- and off-campus internships are available for writers and editors.
Honors Credit
The letter H appearing before undergraduate English courses in the regular schedule designates honors credit.

Graduate Degrees
The Department of English offers three graduate programs: the Master of Arts: English; the Master of Fine Arts: Creative Writing and Media Arts; and the Interdisciplinary Ph.D. The Department also offers a Graduate Certificate in the Teaching of Writing.

Faculty
Elpida Anthan Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=anthan); lecturer in English & Classics; B.A., M.A. (University of Kansas).

Hadara Bar-Nadav contact information; associate professor of English; B.A. (William Paterson College); M.A. (Montclair State University); Ph.D. (University of Nebraska-Lincoln).

John C. Barton contact information; associate professor of English; B.A. (University of California-Berkeley); M.A., Ph.D. (University of California-Irvine).

Ralph A. Berets, contact information; associate professor emeritus of English; B.A., M.A., Ph.D. (University of Michigan).

Virginia Blanton contact information; professor of English; B.A. (Southwestern College); M.A., Ph.D. (Binghampton University).

Michelle A. Boisseau contact information; professor of English; B.A., M.A. (Ohio University); Ph.D. (University of Houston).

Norma Cantú Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=cantu); professor of English & Latina/o Studies; B.S. (Texas A&M University-Laredo); M.S. (Texas A&M University-Kingsville); Ph.D. (University of Nebraska-Lincoln).

Joan F. Dean contact information; curators’ teaching professor of English; A.B. (Canisius College); M.A., Ph.D. (Purdue University).

Stephen Dilks contact information; professor of English; B.A. (University of Stirling, Scotland); M.A., Ph.D. (Rutgers University).

Crystal Gorham Doss Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=doss); lecturer in English; B.A. (William Jewell College); M.A. (University of Kansas); Ph.D. (University at Buffalo).

Laurie Ellinghamausen contact information; associate professor of English; B.A. (University of Houston); M.A. (Ohio State University); Ph.D. (University of California-Santa Barbara).

Robert M. Farnsworth, professor emeritus of English; B.A. (University of Michigan); M.S. (University of Connecticut); Ph.D. (Tulane University).

Moira Ferguson, professor emerita of English; B.A. (University of London, Birkbeck College); M.A., Ph.D. (University of Washington, Seattle).

Jennifer Frangos contact information; associate professor of English; B.A. (Vassar College); M.A. (State University of New York-Buffalo); Ph.D. (State University of New York-Stony Brook).

Jane Greer contact information; associate professor of English; B.A. (Hanover College); M.A., Ph.D. (Ohio State University).

Nicole Higgins Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=higgins); lecturer in English; B.S. (Missouri State University); M.A. (University of Missouri-Kansas City); M.F.A. (University of Georgia)

Christie Hodgen contact information; associate professor of English; B.A. (University of Virginia, Charlottesville); M.F.A. (Indiana University, Bloomington); Ph.D. (University of Missouri, Columbia).

Sheila Honig Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=honig); lecturer in English; B.A., M.A. (University of Missouri, Columbia).

Daniel Freeman Jaffe; professor emeritus of English; B.A. (Rutgers University); M.A. (University of Michigan).
Cynthia Jones  
Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jones); lecturer in English & Classics; B.A., M.A., Ph.D. (University of Missouri-Kansas City).

Katie Kline  
Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=kline); lecturer in English; B.A. (Western State College, Gunnison, CO); M.A. (University of Missouri-Kansas City).

Daniel Mahala  
Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mahala); associate professor of English; B.A. (State University of New York at Binghamton); M.A. (New York University); D.A. (State University of New York at Albany).

James C. McKinley; professor emeritus of English; B.J., M.A., Ph.D. (University of Missouri, Columbia).

Ben Moats  
Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=moats); lecturer in English; B.A. (Rockhurst University); M.A. (University of Missouri-Kansas City).

Jennifer Phegley  
Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=phegley); professor of English; B.A. (Southwest Texas State University); M.A., Ph.D. (University of Missouri-Kansas City).

Michael Pritchett  
Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pritchett); associate professor of English; B.J. (University of Missouri, Columbia); M.F.A (Warren Wilson College).

David Ray; professor emeritus of English; B.A., M.A. (University of Chicago).

Undergraduate

Bachelor of Arts: English

To major in English is to devote oneself to the study of culture, past and present; to books, their readers, writers, and publishers; to critical thinking and the interpretation of what it means to be human; to language and the communication of ideas in both written and spoken form. An education in English allows for a command of the written and spoken word. It is this command that allows those that have pursued a degree in English to find success in a
Students who choose to major in English Literature and Language develop their abilities to read and analyze texts written in the English language. They study British and American literature of the past and present and learn to view texts through a variety of interpretive lenses. English majors also develop their abilities as flexible, effective writers, capable of moving among a variety of genres, including creative and expository writing.

Within the 36-credit hour program, English majors take a core set of courses, including survey courses on the history of British and American literature, a course devoted to Shakespeare, and courses in linguistics and rhetoric. Beyond this core, students may choose to emphasize in the study of literature, rhetoric, creative writing, or classical, medieval, and early modern literature. In their final year, all students select from a menu of capstone options, including a senior thesis (recommended for students interested in graduate school), a seminar on teaching writing (recommended for students seeking certification to teach in secondary schools), or one of many upper-level seminars.

Undergraduate Admission Requirements

Preparation
Transfer students should enter the English major with soundly developed writing and reading skills and a general familiarity with the major authors and literary movements of English and American literature. Transfer students should meet with the Director of Undergraduate Studies immediately upon admittance to discuss requirements and any possible transfer credits towards the major. With the approval of the Director of Undergraduate Studies, the Department accepts up to 18 hours of transfer credits in English for courses fulfilling major requirements.

Undergraduate Programs

Bachelor of Arts: English (p. 105)
Bachelor of Arts: English Creative Writing Emphasis (p. 108)
Bachelor of Arts: Classical, Medieval, & Early Modern Literature Track (p. 111)
Bachelor of Arts: Language and Rhetoric Track (p. 114)
Teacher Certification in English (p. 117)
Minor in Creative Writing (p. 117)
Minor in Language and Literature (p. 119)
Minor in Manuscript, Print Culture, and Editing (p. 121)
Minor in Writing (p. 122)

Graduate

Graduate Degrees:
• Master of Arts: English (p. 123)
• Master of Fine Arts: Creative Writing and Media Arts (p. 127)
• Graduate Certificate in the Teaching of Writing (p. 129)
• Interdisciplinary Ph.D. in English (p. 130)

Assistantships
The Department of English offers a limited number of Graduate Teaching Assistantships on a competitive basis. Applications for Graduate Teaching Assistantships are considered in January for the following fall semester. All Graduate Teaching Assistants are expected to enroll in at least six hours per semester. Graduate Teaching Assistantships may be awarded to students who demonstrate readiness to become teachers in freshman- and sophomore-level writing courses. Graduate Teaching Assistants must undergo a pre-semester orientation and attend mentoring meetings twice monthly with the GTA mentor and fellow graduate teachers. GTAs are also required to enroll in ENGLISH 5519. Normally M.A. and M.F.A. students will receive a maximum of two years of GTA funding; Interdisciplinary Ph.D. students will receive a maximum of three years of GTA funding, and those who complete both an M.A. and an Interdisciplinary Ph.D. in the department will receive a maximum of four years of GTA funding. These terms are contingent upon a successful yearly review of performance in the classroom and adequate academic performance. M.A. students who have completed 21 hours or more of coursework may not have their assistantships renewed without making a special appeal to the Graduate Committee justifying the need for continuing support. All GTAs must submit a brief statement of their intent to renew their GTA position to the Graduate Committee each year before the January 15 admissions deadline.
Bachelor of Arts: English

Program Requirements for the B.A. in English

The Bachelor of Arts in English program is recommended for students interested in literature and language, in writing and reading, in texts of all types and how they influence and reflect our world. The English major is also an excellent choice for those interested in obtaining a firm foundation for graduate study in programs as wide-ranging as business or law school, communications, cultural studies, and, of course, English and Creative Writing. English majors planning to attend graduate school are strongly urged to take courses in all periods of English and American literature.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC. Students complete a capstone project in their final year.

No more than one course in Creative Writing may be counted toward the 36-hour requirement for the Literature major. No courses in expository writing or journalism may be used to fulfill the 300- or 400-level elective requirements.

Learning Goals

During the overall 36-hour program of study for the Major in English Language and Literature, students should learn to demonstrate:

1. A working understanding of mainstream and emerging literary and cultural production in English from antiquity to the present.
2. A deep understanding of specific literary periods, movements, authors, and genres.
3. A critical understanding of rhetorical strategies and linguistic analysis.
4. An engaged understanding of issues of diversity as they shape literary and cultural production.

Student Learning Outcomes

By the time a student completes the Program of Study for the Major in English Language and Literature, s/he should be able to demonstrate the ability to:

1. Create coherent academic arguments that are built upon multi-leveled textual analysis.
2. Integrate close reading of primary texts.
3. Situate texts in cultural and/or historical contexts.
4. Engage in critical conversations.
5. Present an essay in ways that reflect a sense of professional rules and conventions.

**Capstone Experience**[^2]

Select one of the following:
- Any 400 level English course in literature or linguistics that is cross-listed with a graduate level course in English
- ENGLISH 499 Senior Tutorial[^3]

[^2]: Only one English course at the 100- or 200-level may be used to fulfill an elective requirement. At least two of the four electives must be at the 400-level. Two of the four electives must cover periods prior to 1900.

[^3]: Approval is required by a tenure-line faculty member and the Director of Undergraduate Studies for enrollment in ENGLISH 499.
Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts: English Emphasis in Creative Writing

Program Requirements for the B.A. in English, Creative Writing Emphasis

The Bachelor of Arts in English with Creative Writing Emphasis combines intensive writing workshops with courses in literature to foster discovery and mastery in Creative Writing. Our program is based on the belief that successful writers grow from the study of writing and the study of literature, which enables students to learn the traditions and adapt them to their own art. Students complete a capstone project in their final year.

To graduate with a Major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC.

Learning Goals

During the overall 36-hour program of study for the Major in English, Creative Writing Emphasis, students should learn to:

1. Produce a polished and complete manuscript of poetry or prose.
2. Demonstrate proficiency in evaluating their writing and the writing of others.
3. Engage in the writing process in all of its stages, from conceptualization, to drafting, to revision.
4. Critically analyze literary texts and formulate interpretations and arguments based on advantage of the department's many resources, from attending readings to working on the staff of literary magazines to completing internships.

Student Learning Outcomes

By the time a student completes the program of study in the Major in English, Creative Writing Emphasis, s/he should be able to demonstrate:

1. A thorough understanding of poetics or storytelling craft through the production of creative works that are structurally sound, polished, and complete.
2. Effective problem-solving and revision strategies in the composition of poems or stories.
3. A strong, deliberate command of style, grammar, and mechanics.
4. A general knowledge of literary history, especially the literary traditions of their chosen genre.
5. The ability to analyze texts critically and the ability to recognize how a text displays a writer’s artistic decisions.
6. A working vocabulary with which to discuss the technical and aesthetic aspects of their craft.

Total Credits 36

1. Requires permission of the Director of Creative Writing or the Director of Undergraduate Studies.
2. Please see the Director of Undergraduate Studies to apply for the Capstone course. All students must complete a Capstone contract, signed by the instructor and submitted to the Director of Undergraduate Studies before the end of the third week of the semester in which the Capstone course is being taken.
3. Students must complete a poetry or prose sequence with distinguished work before applying to a tenure-line faculty member and the Director of Creative Writing or the Director of Undergraduate Studies for permission to enroll in ENGLISH 499.

Tools for Planning and Filling Academic Requirements

UMKC's Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC's Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student's officially recorded (Office of Registration and Records) and "what if" plans of study. This evaluation is used to certify all graduation requirements.

Classical, Medieval, & Early Modern Literature Track

Program Requirements for the B.A. in English, Classical, Medieval, and Early Modern Literature Track

The Bachelor of Arts in English with a focus on Classical, Medieval, and Early Modern Literature is recommended for students interested in a broad background in the humanities with a concentration in literature and language and for those interested in obtaining a firm foundation for further study in graduate school. This major involves a core of three survey courses to give students grounding in each of the three periods. Students also take one elective from each time period: a course such as “Shakespeare in Film,” “The Ancient World in Film,” or “Arthurian Legends” that allows for the study of how these literatures have been received in modern society; and a course on the linguistic backgrounds of these literatures, such as “History of English,” “Old English,” “Ancient Greek,” “Classical Latin,” or the “History and Principles of Rhetoric.” The remaining three electives can be taken in the English Department or many other departments in the college including Classics, History, Art History, Philosophy, and Geosciences.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the Department of English at UMKC. Students complete a capstone project in their final year.

Learning Goals

During the overall 36-hour program of study for the Major in English Classical, Medieval, and Early Modern Literature, students should learn to demonstrate:

1. A working understanding of mainstream and emerging literary and cultural production in English from antiquity to the modern period.
2. A deep understanding of specific literary periods, movements, authors, and genres.
3. A critical understanding of rhetorical strategies and linguistic analysis.
4. An engaged understanding of issues as diversity as they shape literary and cultural production.

**Student Learning Outcomes**

By the time the Program of Study for the Major in English, Classical, Medieval, and Early Modern Literature is completed, students should be able to demonstrate the ability to:

1. Create coherent academic arguments that are built upon multi-leveled textual analysis.
2. Integrate close reading of primary texts.
3. Engage in critical conversations.
4. Present an essay in ways that reflect a sense of professional rules and conventions.

| CLASSICS 499   | Senior Tutorial ²                                            |

| Total Credits | 36 |

Students may also select any three courses from the list above, which have not already been used to satisfy another requirement.

1. Please see the Director of Classics to apply for the Capstone course. All students must complete a Capstone contract signed by the instructor and submitted to the Director of Classics before the end of the third week of the semester in which the Capstone course is being taken. Approval is required by a tenure-line faculty member and the Director of Classics for enrollment in ENGLISH 499 or CLASSICS 499.

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.
Language and Rhetoric Track

Program Requirements for the B.A. in English, Language and Rhetoric Track

The Bachelor of Arts in English with a focus on Language and Rhetoric is recommended for students interested in a broad background in the humanities with a concentration in language and rhetoric and for those interested in obtaining a firm foundation for further study in graduate school. Students in this program will receive intensive concentration in the study of rhetoric and linguistic analysis. This program is especially relevant for students considering law school and careers in communications, marketing, and business.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC. Students complete a capstone project in their final year.

No more than one course in Creative Writing may be counted toward the 36-hour requirement for the Language and Rhetoric major. No courses in expository writing or journalism may be used to fulfill the 300/400-level elective requirements.

Learning Goals

During the overall 36-hour program of study for the Major in English, Language and Rhetoric track, students should learn to demonstrate

1. A working understanding of mainstream and emerging literary and cultural production in English from antiquity to the present.
2. A deep understanding of specific literary periods, movements, authors, and genres.
3. A critical understanding of rhetorical strategies and linguistic analysis.
4. An engaged understanding of issues of diversity as they shape literary and cultural production.

Student Learning Outcomes

By the time a student completes the Program of Study for the Major in English, Language and Rhetoric track, s/he should be able to demonstrate the ability to

1. Create coherent academic arguments that are built upon multi-leveled textual analysis.
2. Integrate close reading of primary texts.
3. Situate texts in cultural and/or historical contexts.
4. Engage in critical conversations.
5. Present an essay in ways that reflect a sense of professional rules and conventions.

**Capstone Experience** 3

Select one of the following: 3

Any 400 level English course in literature or linguistics that is cross-listed with a graduate level course in English.
ENGLISH 499  
Senior Tutorial  4

Total Credits  36

1. No course may be used to fulfill more than one requirement, but courses not used for "Language" or "Rhetoric" categories above may be taken for the "Language/Rhetoric/Theory" category.

2. Only one course at the 100- or 200-level may be used to fulfill an elective requirement.

3. Please see the Director of Undergraduate Studies to apply for the Capstone course. All students must complete a Capstone contract, signed by the instructor and submitted to the Director of Undergraduate Studies before the end of the third week of the semester in which the Capstone course is being taken.

4. Approval is required by a tenure-line faculty member and the Director of Undergraduate Studies for enrollment in ENGLISH 499.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Teacher Certification in English

Program Requirements

Certification as a middle school (grades 5-9) or secondary (grades 9-12) English teacher in either Kansas or Missouri requires that a student complete specific requirements in English and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Minor in Creative Writing

Program Requirements for the Minor in Creative Writing

The Minor in Creative Writing is designed for students who are eager to give focused attention to developing their talents in poetry, fiction, or creative nonfiction writing.

To graduate with a Minor in Creative Writing, students must achieve a grade-point average of at least 2.0 in the 21-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement.

Minor in Manuscript, Print Culture, and Editing

Program Requirements for the Minor in Manuscript, Print Culture, and Editing

The Minor in Manuscript, Print Culture, and Editing examines the social, cultural, economic, and political history of the written word. It considers relationships among authors, editors, publishers, printers, illustrators, and booksellers as well as the reception of texts by readers, reviewers, and critics. This minor allows students to study the production of texts through the centuries while also gaining hands-on editing experience through internal and external internships. Students take a wide variety of courses covering a range of historical periods that have a significant emphasis on the history of reading, writing, and authorship as well as courses that focus on aspects of contemporary publishing and editing.

To graduate with a Minor in Manuscript, Print Culture, and Editing, students must achieve a grade-point average of at least 2.0 in the 21-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement.

**Minor in Writing**

**Program Requirements for the Minor in Writing**

The Minor in Writing is designed for students interested in a focus on writing of all types and genres. Students select from a menu of courses in writing, rhetoric, and linguistics.

To graduate with a Minor in Writing, students must achieve a grade-point average of at least 2.0 in the 18-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. No more than two courses in Creative Writing may be counted toward the Minor in Writing. One writing-intensive (WI) course in a discipline other than English may be counted toward the Minor in Writing.

Master of Arts: English

The Department of English offers the Master of Arts in English, which focuses on literary study, as well as two tracks that allow students to concentrate their studies in a particular area: 1) Language and Literature, and 2) Manuscript, Print Culture, and Editing. Through courses in English and American literature, creative and expository writing, film, linguistics, composition/rhetoric, literary criticism, the history of books and print culture, as well as editing, these programs of study are designed to prepare students for teaching, research, and writing careers, for careers in editing, and for further study at the doctoral level. The 31-hour M.A. in English is designed for students desiring a general background in English and American literature and is strongly recommended for students planning further graduate study in English and/or American literature.

The Language and Literature track is designed for students who wish to combine graduate study of literature with the study of linguistics and/or composition and rhetoric. This track is recommended for students interested in teaching in community colleges or secondary schools and for students interested in pursuing the Ph.D. in composition and rhetoric or linguistics.

The Manuscript, Print Culture, and Editing track is designed for students who wish to combine the study of literature with the study of book history, print culture, and editing. This track is recommended for students interested in editorial careers, offering several internship experiences in print and online media, and for students interesting in pursuing the Ph.D. in book history and print culture.

Members of the graduate faculty are assigned as advisors to newly admitted M.A. students. New graduate students should meet with their advisors as soon as possible to prepare an official program of study.

Admission

The application process is competitive. Satisfying the admission requirements does not guarantee admission to the program.

The applicant must hold:

• a B.A. in English, or a B.A. degree that includes at least 30 hours of sophomore-, junior- or senior-level English courses, or the equivalent. Applicants with fewer than 30 hours of undergraduate English courses may be admitted and assigned additional coursework as part of their program. These extra hours are added to the hours required for graduation.

• a 3.0 cumulative grade-point average in undergraduate work and a 3.0 average in undergraduate English coursework. In unusual circumstances, the graduate committee may consider applicants with lower grade-point averages.

The applicant must submit:

• a complete application to the university. The university application should be sent to the UMKC Admissions Office. All other materials should be sent to Graduate Programs, Department of English, Cockefair Hall 106.

• a complete Application for Admission to the Master of Arts: English.

• a recommended 60 percent or higher score on the verbal aptitude portion of the Graduate Record Exam (GRE).

• a writing sample that demonstrates the applicant’s writing abilities in up to 15 pages of recent academic prose.

• a statement of purpose that describes the applicant’s academic and professional objectives. In an essay of 400 to 500 words, applicants should discuss in detail their interest in their emphasis area and their research or writing in the area.

• three letters of recommendation that evaluate the applicant’s readiness for graduate study written by three professors or others who know the applicant’s abilities and potential well.
Students may not take more than six hours of graduate credit in English before entering the program as a "fully admitted" student.

**Student Learning Outcomes**

Students graduating with an M.A. in English will be able to:

1. Create sophisticated academic arguments that situate texts within aesthetic, social, and historical context.
2. Produce work in dialogue with current and historical conversations in the field;
3. Evaluate and engage methodological approaches appropriate to academic discourse;
4. Develop and defend, both orally and in writing, their critical perspectives;
5. Synthesize an understanding of interrelations across diverse fields of study;
6. Demonstrate a broad grounding in the diversity of fields in English studies.
7. Produce written work in a vivid, appropriate style that demonstrates mastery of mechanics and grammar.

**Degree Requirements**

Students must earn 31 graduate credits to complete the M.A. in English. Of these credits, at least 15 hours must be at graduate level (courses numbered 5000 and above) and taught by a member of the graduate faculty and at least 9 hours must be in 5000-level seminars or other 5000-level courses which are not cross-listed with 400-level courses.

Students must take ENGLISH 5500 and successfully complete one hour of ENGLISH 5601, ENGLISH 5602, or ENGLISH 5603 for their "Culminating Experience," as is appropriate depending on the focus of their studies.

Students must maintain a 3.0 (B) grade-point average to remain in the M.A. program and to complete the degree.

By the time of graduation from the M.A. program, students must fulfill a foreign language requirement by satisfactorily completing (with a C or better) one year (two university semesters) of the same foreign language. Alternatively, the foreign language requirement may be satisfied by scoring a "C" on the final exam of the first-year, second-semester course in a foreign language.

Students must remain continuously enrolled, except in summer, for a minimum of 1 credit hour per semester. ENGLISH 5899 is the continuous enrollment course number.

Students must complete a formal Program of Study and have it signed within a year after admission. A final Program of Study must be submitted and signed during the semester a student files to graduate.

Students must complete all coursework within seven years.

Students must take at least one course from five of the seven designated areas, including at least one course from areas I & II, one course from areas III & IV, and one course from areas V-VII:

\(^1\) Satisfies 18th- or 19th-Century requirement, depending on the content.

\(^2\) Satisfies 19th- or 20th-Century requirement, depending on the content.

Other courses in the catalog may satisfy an area requirement if the content is appropriate, e.g., ENGLISH 5550H or ENGLISH 433.

Students who focus on Literature must complete ENGLISH 5601 on a topic related to the study of Literature.

**Language and Literature Track**

If desired, a student may elect the Language and Literature Track when obtaining the M.A. in English. At least 12 hours selected from the following list of courses are required:
### College & Schools

**ENGLISH 445/5545**  
History And Principles Of Rhetoric  
3

**ENGLISH 447/5547**  
Introduction To Literary Criticism  
3

**ENGLISH 470**  
Introduction To Descriptive Linguistics  
3

**ENGLISH 5519**  
Teaching Writing: Theories, Histories, Contexts, Practices  
3

**ENGLISH 5520**  
Greater Kansas City Writing Project  
3

**ENGLISH 5550G/5555G**  
Graduate Seminar Literary Criticism  
3

**ENGLISH 5550J/5555J**  
Graduate Seminar: History Of The English Language  
3

**ENGLISH 5550M/5555M**  
Graduate Seminar In Rhetoric And Composition  
3

**ENGLISH 5550P**  
Graduate Seminar: Sociolinguistics And Dialectology  
3

**Total Credits**  
27

For students interested in teaching in community colleges or secondary schools or in pursuing a Ph.D. in composition and rhetoric, **ENGLISH 5519** is highly recommended. **ENGLISH 5519** is required for graduate teaching assistants.

In addition to the requirements for areas I & II, students must take at least one course from three of the five remaining areas (III-VII), including at least one course from areas III-IV and at least one course from areas V-VII.

Students who focus on Language & Literature must complete **ENGLISH 5602** on a topic related to the study of Language & Literature.

---

**Manuscript, Print Culture, and Editing Track**

If desired, a student may elect the Manuscript, Print Culture, and Editing Track when obtaining the M.A. in English. This track examines the social, cultural, economic, and political history of the written word. It considers relationships among authors, editors, publishers, printers, illustrators, and booksellers as well as the reception of texts by readers, reviewers, and critics. In addition, it allows students to study the production of texts through the centuries while also gaining hands-on editing experience through internal and external publishing internships. Students will take a wide variety of courses covering a range of historical periods that have a significant emphasis on the history of reading, writing, and authorship as well as courses that focus on aspects of contemporary publishing and editing.

This track also follows the distribution requirements for the M.A. in English, and it requires that students take twelve (12) of the 31 required credit hours in courses that have been designated as ones fulfilling the goals of the concentration in Manuscript, Print Culture, and Editing; some courses will always be so designated, including the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

<td>Histories Of Writing, Reading, And Publishing</td>
<td>3</td>
</tr>
<tr>
<td>ENGLISH 5541</td>
<td>Girls And Print Culture</td>
<td>3</td>
</tr>
</tbody>
</table>

The following courses may also be used to fulfill the requirements for the concentration in Manuscript, Print Culture, and Editing if approved by the Graduate Committee. Each semester, courses so designated will be listed in the Department of English course descriptions handout, available in the Department office:

</table>

New courses may receive the designation if approved by the Department of English’s Graduate Committee.

Students who elect the MPCE track must complete ENGLISH 5603 on a topic related to the study of Manuscript, Print Culture, and Editing.

**Culminating Experience**

At the end of their M.A. course work (either in the last semester or the second to last semester), all M.A. students in English will revise a seminar paper (written in a previous course and/or in their area of interest) under the guidance of a faculty mentor. The goal of the revisions will be to create a polished paper of about 20-30 pages that could be the basis for a conference paper, a writing sample, or a publishable article.

Students will enroll in and successfully complete one hour of ENGLISH 5601, ENGLISH 5602, or ENGLISH 5603 for their “Culminating Experience,” as is appropriate depending on the focus of their studies. Enrollment is required in order to work on this final paper with their chosen faculty mentor.

Final papers will be reviewed by a faculty committee that will rotate each semester. The committee will consist of two assigned members of the graduate faculty appointed by the Director of Graduate Studies, who will work with the student’s faculty mentor.

Students will turn in their revised papers to their mentors and the review committee at least two weeks prior to the end of the semester. The mentor is responsible for arranging a meeting with the student and the review committee before the end of the semester in which the Culminating Experience is taken. After conducting a defense about the paper and providing feedback for the student, the mentor and the review committee will assign a grade of pass or fail. Students must complete the oral defense in order to pass.

In addition to the department requirements above, graduate students in English must comply with the requirements listed in the General Graduate Academic Regulations and Information section of this catalog.

**Master of Fine Arts: Creative Writing and Media Arts**

The Department of English offers the degree Master of Fine Arts (M.F.A.) in Creative Writing and Media Arts. This interdisciplinary degree includes coursework in allied programs in Communication Studies and Theatre. The 42-hour program provides learning opportunities in writing, literary publishing, broadcasting, screen and stage writing, and production skills. The M.F.A. is a terminal degree in the field of Creative Writing and is designed to prepare students for careers as literary artists, authors, playwrights, poets, teachers, and screenwriters.
Admission

The application process is competitive. Satisfying the admission requirements does not guarantee admission to the program.

The applicant must hold:

• a B.A. in English, or a B.A. degree that includes at least 30 hours of sophomore-, junior- or senior-level English courses, or the equivalent. Applicants with fewer than 30 hours of undergraduate English courses may be admitted and assigned additional coursework as part of their program. These extra hours are added to the hours required for graduation.

• a 3.0 cumulative grade-point average in undergraduate work and a 3.0 average in undergraduate English coursework. In unusual circumstances, the Graduate Committee may consider applicants with lower grade-point averages.

The applicant must submit:

• a complete application to the university. The university application should be sent to the UMKC Admissions Office. All other materials should be sent to Graduate Programs, Department of English, Cockefair Hall 106.

• a complete application for admission to the M.F.A. in Creative Writing and Media Arts.

• a recommended 60 percent or higher score on the verbal aptitude portion of the Graduate Record Exam (GRE).

• a writing sample that demonstrates the applicant’s writing abilities. A sample in a single emphasis area (no more than 10 pages for poetry; no more than 20 pages for all other disciplines: fiction, creative nonfiction, playwriting or screenwriting) is required (poems [6-10] or stories, essays, novel chapters, or dramatic-work excerpts).

• a statement of purpose that describes the applicant’s academic and professional objectives. In an essay of 400 to 500 words, applicants should discuss in detail their interest in their emphasis area (poetry, fiction, creative nonfiction, playwriting or screenwriting), and their experience and goals in the area.

• three letters of recommendation that evaluate the applicant’s readiness for graduate study written by three professors or others who know the applicant’s abilities and potential well.

Students may not take more than six hours of graduate credit in English before entering the program as a “fully admitted” student.

Student Learning Outcomes

Graduates of M.F.A. program in Creative Writing & Media Arts will be able to demonstrate:

• Mastery of poetics or storytelling craft through the creation of a full-length manuscript of poetry, fiction, non-fiction, plays, or screenplays that are structurally sound, polished, and complete, and have a distinct voice;

• Effective problem-solving and revision strategies in the composition of poems, fiction, non-fiction, plays, or screenplays;

• A deliberate, masterful command of language, including style, grammar, and mechanics;

• Proficiency in at least one genre outside of their primary field and the ability to apply the techniques of their secondary genres to the work they produce in their primary field or study;

• Sophisticated critical analyses of literary texts, including an understanding of how a text displays a writer’s artistic techniques and the ability to incorporate those techniques into their own writing; and

• Thorough knowledge of the literary traditions of their primary genre and the ability to situate their own work within current literary conversations.

Degree Requirements

Students must earn 42 graduate credit-hours beyond the bachelor’s degree. Of these, at least 27 hours must be at the graduate level (courses numbered 5500 and above) and taught by a member of UMKC’s graduate faculty.

Students must maintain a 3.0 (B) grade-point average to remain in the M.F.A. program and to complete the degree.

Foreign Language Requirement: By the time of graduation from the M.F.A. program, students must have completed one year (two university semesters) of a single foreign language. Alternatively, the foreign language requirement may be satisfied by scoring a “C” on the final exam of the first-year, second-semester course in foreign language. Previous undergraduate coursework may be used to satisfy this requirement.

Students must remain continuously enrolled, except in summer, for a minimum of 1 credit hour per semester. ENGLISH 5899 is the continuous enrollment course number.

Students must complete a formal Program of Study and have it signed within a year after admission. A final Program of Study must be submitted and signed during the semester a student files to graduate.

Students must complete all coursework within seven years.

Students must focus on one or more of the following genres:
• Creative Nonfiction
• Fiction
• Playwriting
• Screenwriting
• Poetry

Residency requirements: a minimum of 33 hours must be completed at UMKC.

Requirements for M.F.A. Thesis

In consultation with the faculty, the student will choose a thesis committee comprised of three members: a thesis director from the M.F.A. faculty and two other faculty members approved by the director and selected from the M.F.A. faculty, the faculty of another institution, or the faculties of the Departments of English, Communication Studies, or Theatre. Under the guidance of the thesis director, the student will complete a publishable or producible manuscript of one of the following:

- a book of poems (48-80 pages, single spaced); or
- a book of short stories or creative nonfiction essays (180 pages, double spaced); or
- a novel or novel-length nonfiction book (180-page minimum, double spaced); or
- a full-length play or several one-act plays; or
- a feature-length screenplay (95-120 pages) or a series bible and two 1-hour episodes (20 pages + two 45-page episodes); or
- a full-length cross-genre work, with Committee Chair permission.

At the completion of the writing project, the student will meet with his or her committee for a one-hour defense of the thesis.

Advisors may approve courses in other departments that may be highly valuable for particular student programs, e.g., History for documentary film, Foreign Language for translation work, Philosophy for aesthetics and theoretical/experimental approaches, and Art. Collaborative directed studies may be offered to allow two or more students to use two or more genres/media. Students may also seek collaborative opportunities in the Conservatory of Music and Dance and in Computer Science.

In addition to the department requirements above, graduate students in English must comply with the requirements listed in the General Graduate Academic Regulations and Information (p. 774) section of this catalog.

Graduate Certificate in the Teaching of Writing

Student Learning Outcomes

Upon completion of the Graduate Certificate in Teaching Writing, participants will be able to:

1. Understand the writing process as it translates to the teaching of writing in varied genres and contexts;
2. Develop writing assignments that demonstrate how writing can be used as a tool for learning and critical inquiry;
3. Design effective writing tasks using or situated within new media environments;
4. Create a personal writing pedagogy that leads to consistency in practice when teaching, assigning, responding to, and assessing writing;
5. Collaborate with a professional community of educators, pre-K through University, who reflect on their own teaching and writing;
6. Fulfill leadership roles in professional development programs related to improved literacy instruction.

Program Requirements

The Graduate Certificate in Teaching Writing is an 18-credit-hour program offered through the Greater Kansas City Writing Project housed in the Department of English at the University of Missouri-Kansas City. Certificate courses may be applicable to the MA or MFA in English and is especially appropriate for post-master’s degree candidates who wish to pursue a specialization in teaching writing. The Certificate requires a minimum of 12 hours at the 5000 level or above.

ENGLISH 5541  Girls And Print Culture
ENGLISH 5545  History And Principles Of Rhetoric
ENGLISH 5550M  Graduate Seminar In Rhetoric And Composition
ENGLISH 5550P  Graduate Seminar: Sociolinguistics And Dialectology
ENGLISH 5555M  Graduate Seminar: Composition

Suggested electives applicable to the Med in Education:

EDUC-C&I 5547  Second Language Acquisition
EDUC-C&I 5547  Second Language Acquisition
EDUC-C&I 5562  Teaching For Equity And Social Justice
EDUC-C&I 5546  Intercultural communication

Total Credits 18

1 Other English and Education courses may also be approved.

Admission Process

Applicants must be admitted to the UMKC Graduate School and by the Department of English. Application materials can be obtained from our website (http://cas.umkc.edu/english/gctw.asp).

Interdisciplinary Ph.D in English

English is an academic discipline eligible for full participation in UMKC’s Interdisciplinary Ph.D. Program. Interested students should review the School of Graduate Studies catalog for general and discipline-specific admission criteria, academic regulations, and degree requirements and also contact the Department’s I.Ph.D. Coordinator.

Suggested Focus Areas: American Studies; Manuscript and Print Culture; Medieval Studies; Rhetoric and Composition; Transatlantic Studies; Women’s and Gender Studies.

English as a Primary Discipline coordinates well with the co-disciplines of Art History, History, and the Humanities Consortium.

Environmental Studies Program

Program Description

Environmental Studies Program provides students with the most innovative preparation in urban environmental issues and sustainability. The ES program engages a diverse student body with a strong foundation in environment and geosciences. It includes covering relationships between human beings and the environment. In addition to core courses in environmental science, environmental courses emphasizing the humanities and social sciences provide necessary balance for addressing physical Earth issues in a societal context. Undergraduate students gain essential life skills, an appreciation for complex environmental processes, and respect for the diversity of the urban environment in both Environmental Studies BA and Environmental Science BS degrees.

The department has offered geography and geology courses since 1934. The geography and geology programs of the Department of Geosciences include both bachelor of arts and bachelor of science degrees. The department also offers a master of science degree in environmental and urban geosciences (formerly the master of science in urban environmental geology degree). Students who designate geosciences as their coordinating discipline for the interdisciplinary doctoral program must meet admission and other requirements available from the department. See the School of Graduate Studies section of the graduate catalog for more information about doctoral programs.

Faculty

Program Director:
Caroline P. Davies

Participating Architecture, Urban Planning and Design Faculty:
Joy Swallow, Michael Frisch, Sungyup Kim, and Jacob Wagner

Participating Biology Faculty:
Aaron Reed

Participating Business Faculty:
Sandy Price, David Renz, and Li Sun
Participating Chemistry Faculty:

Undergraduate
- Minor in Family Studies (p. 131)

Family Studies Minor

Through its Family Studies Program, the College of Arts and Sciences offers a family studies minor for matriculated undergraduate students interested in the welfare and empowerment of American families. This interdisciplinary academic curriculum introduces participants to the sociological and psychological foundations of families, as well as the historical, political and social climates in which they exist. Students who complete the 18-hour (nine hours core and nine hours elective) course of study will have expanded career opportunities in areas such as human services, health care, law, communications, program development and academic research.

Students wishing to complete a minor must declare their intention to their advisor. Completion of the minor is recorded on the student’s transcript.

The following classes can be used toward the nine credit hours of core requirements:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 310R/PSYCH 453P</td>
<td>Families And The Life Course</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 211</td>
<td>Social And Psychological Development Through The Life Cycle</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 322</td>
<td>Child Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>
Other classes can be used toward the required electives for the family studies minor

<table>
<thead>
<tr>
<th>Total Credits</th>
<th>18</th>
</tr>
</thead>
</table>

1. Note: These two classes are equivalent. Do not take both SOCIOL 310R and PSYCH 453P.

2. PSYCH 210 is a prerequisite for this course.

For a list of classes fulfilling the Family Studies Minor elective requirements each semester, please consult the website: http://cas.umkc.edu/familystudies/fspminor.asp or contact the Family Studies Program Director.

**Department of Foreign Languages and Literatures**

Scofield Hall (http://www.umkc.edu/virtualtour/scofield-hall.asp), Room 216  
711 E. 51 Street

**Mailing Address:**
University of Missouri-Kansas City  
Department of Foreign Languages and Literatures  
Scofield Hall, Rm 216  
5100 Rockhill Road  
Kansas City, MO 64110-2499

**Department Chair:**
K. Scott Baker

**Professors Emeriti:***
Patria P. Brodsky, Rafael Espejo-Saavedra, Iman O. Khalil, Timothy A.B. Richards, Raymond T. Riva

**Professors:**
Louis Imperiale, Kathy M. Krause

**Associate Professors:**
K. Scott Baker (chair), Gayle Levy, Larson Powell, Alice R. Reckley Vallejos, Alberto Villamandos

**Assistant Professors:**
Matthew Edwards, Nacer Khelouz

**Assistant Teaching Professors:**
Lindsay Myers

**Department Description**

The Department of Foreign Languages and Literatures offers programs of study leading to the bachelor of arts degree in Languages and Literatures, with an emphasis in French Language and Literature, German Language and Literature, Spanish Language and Literature, or Classical Languages and Cultures; and graduate-level work leading to a master of arts in romance languages and literatures (French and Spanish). In addition, undergraduate minors are offered in French, German, German Studies, Spanish, and Classics.

Language instruction also is offered in Arabic, Ancient Greek, Italian and Latin.

**Career Implications**

Aside from pursuing teaching careers, holders of degrees in foreign languages are in demand by government, the media and international business in growing numbers, as the need for increased sophistication and expertise in international affairs continues to expand. Multinational companies and organizations now view foreign language skills as an asset in a prospective employee. In the past 10 years this notion has become widespread in such areas as business, industry, commerce, civil service, education, law, communications media and health services. The changing conditions of international economics, politics and communications indicate that this trend will continue.

**Higher Educational Applications**

Reading knowledge of a foreign language is a requisite for many graduate degrees. Foreign language proficiency, moreover, is gaining increasing importance on all levels of university instruction as curricula are internationalized. Scholars and professionals in many fields have long recognized
the need for, and advantages of, foreign language competency for improved international communication and effective conduct of basic and applied research.

Special Resources

Credit by Exam

Beginning-level courses (110, 120) are not applicable toward requirements for the major. College credit for them may be earned by examination.

CLEP credit is available for French, German or Spanish (110 and 120). Contact Testing Services to arrange for the exam. A passing score is necessary to receive credit. (No more than 30 of a student’s total hours may be earned by examination, and students with senior standing cannot earn credit via CLEP.)

Departmental testing or “Credit by Examination,” is also available for 211-level credit. Students should first speak to the appropriate language advisor. The form is available online here (http://www.umkc.edu/registrar/forms/credit_by_exam.pdf). A minimum grade of C is necessary to receive credit.

Study Abroad

UMKC has exchange and study agreements with other institutions in many parts of the world. Students have an opportunity to spend a year or a semester of study at the University of Seville in Spain, the University of Lyon II in France, the University of Klagenfurt in Austria and the University of Veracruz in Xalapa, Mexico. Summer programs are held at the University of Veracruz, Mexico; the University of Granada, Spain; the University of Bonn, German; and the University of Lyon II, France.

The department encourages students to travel and study abroad on our programs or those offered by any accredited American university. It should be noted, however, that the department must approve in advance any courses taken abroad for major or graduate credit. Interested students should contact the appropriate departmental advisor.

Language Resource Center

A modern facility housing audio, video and computer equipment and both general use and specialized software is located in 109 Scofield Hall. The purpose of the lab is to supplement and support in-class foreign language learning. Tutoring services for students of French, German and Spanish are provided free of charge. Conversation hours are also held in the Language Resource Center. All language students are encouraged to take advantage of the resources of the LRC.

Requirements for Teacher Certification in Foreign Languages

Certification as a Foreign Language teacher (K-12) in either Kansas or Missouri requires that a student complete specific requirements in Spanish, French or German and the School of Education. A separate application for teacher education is required. For further information about the program, contact Dr. Reckley Vallejos, reckleya@umkc.edu, and the School of Education at (816) 235-2234.

Faculty

Professors Emeriti

Patricia P. Brodsky
Professor Emerita of German
B.A. (University of Iowa); M.A., Ph.D. (University of California, Berkeley)

Rafael Espejo-Saavedra
Professor Emeritus of Spanish
B.A., M.A. (Occidental College); Ph.D. (University of California, Los Angeles)

Iman Osman Khalil
Associate Professor Emerita of German
M.A., Dr.Phil. (University of Munich)

Timothy A.B. Richards
Professor Emeritus of Spanish
B.A. (Bristol University, U.K.); M.A. (University of Wisconsin, Madison); Ph.D. (University of Colorado, Boulder)

Raymond T. Riva
Professor Emeritus of Spanish
B.A., Ph.D. (University of Illinois); A.M. (Middlebury College)

Undergraduate

Undergraduate Degrees:

• Bachelor of Arts: Languages and Literatures (p. 135)
• Minor in French, German, Spanish, or Classics (p. 140)
• Minor in German Studies (p. 138)

Graduate

Graduate Degrees:

• Master of Arts in Romance Languages (p. 141)

Bachelor of Arts: Languages and Literatures

Attendance and Course Level

Class attendance

The nature of language acquisition is such that regular attendance, throughout the semester, is expected of all students enrolled for credit.

Course Levels

Course levels are generally indicated by the first digit of the course number. For example, 100-level courses are first-year courses, 200-level classes represent second-year courses, etc. Accordingly, students entering a 200-level French course must have completed FRENCH 110 and FRENCH 120, their equivalent, or show proof of second-year skill-level (such as Placement Test score). Successful completion of a second-year course (normally 211 and 221, their equivalent, or proof of appropriate skill-level) is required of all students who want to enroll in 300- or 400-level courses. Exceptions must have the approval of the student's foreign language advisor.

The Department of Foreign Languages and Literatures offers a program of study leading to the bachelor of arts in Foreign Languages with emphases in French, German, Spanish or Classics.

Undergraduate Advisors

French: Lindsay Myers
(816) 235-2826, myersll@umkc.edu

German: K. Scott Baker
(816) 235-2823, bakerks@umkc.edu

Spanish: Alberto Villamandos
(816) 235-2324, villamandosa@umkc.edu

Classics: Jeff Rydberg-Cox
(816) 235-2560, rydbergcoxj@umkc.edu

General Information

Initial Advising and Placement

A language placement exam is strongly recommended for all students with previous foreign language experience in French, German or Spanish. The placement exam or the recommendation of a foreign language advisor will best determine a student’s level, contributing to his or her success. Contact the department office for more information. Placement test website: http://cas.umkc.edu/ForeignLanguages/PlacementExam.asp

Consultation with an advisor is recommended for students who intend to major or minor in foreign languages.
Transfer Credit

Transfer students normally may expect to continue their foreign language study at the next comparable level. On consultation with their advisors or the course instructors, and after taking the placement exam, students may be advised to do either remedial or more advanced coursework. No more than nine hours of transfer credit for 200- to 400-level courses are normally allowed toward degree requirements. Usually a maximum of six transfer credits can be applied to the minor.

Credit for study at a foreign institution will be granted, provided the courses proposed for study abroad have been approved in advance by a departmental advisor and endorsed by the chair of the department. When advance endorsement for credit is not obtained from the department, the credit is subject to approval by the department chair.

In cases where students have been engaged in an extended period (e.g., a year) of formal study at an approved academic institution abroad, transfer credit of more than nine hours may be granted, if approved by the chair of the department.

Credit by Examination

Beginning-level courses (110, 120) are not applicable toward requirements for the major. College credit for them may be earned by examination.

CLEP credit is available for French, German or Spanish (110 and 120). Contact Testing Services to arrange for the exam. A passing score is necessary to receive credit. (No more than 30 of a student’s total hours may be earned by examination, and students with senior standing cannot earn credit via CLEP.)

Departmental testing or “Credit by Examination,” is also available for 211-level credit. Students should first speak to the appropriate language advisor. The form is available online here (http://www.umkc.edu/registrar/forms/credit_by_exam.pdf). A minimum grade of C is necessary to receive credit.

Student Learning Outcomes

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines:

• To attain advanced reading, writing, listening and speaking proficiency in the language studied.
• To obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
• To understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
• To understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
• To develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

Degree Requirements

Major Requirements

Total: 36 credits at or above the 200 level

The Foreign Language major consists of two parts: an Emphasis and a Breadth Requirement.

Foreign Language majors must complete the requirements of one of the following Emphases:

Emphasis: French Language and Literature

30 credit hours at or above the 200 level

<table>
<thead>
<tr>
<th>Requirement</th>

Greek, Latin, or Classics 300-level courses 9
Greek, Latin, or Classics 400-level courses 9
Breadth Requirement See below 6
CLASSICS 499 Senior Tutorial (Capstone) 3
Total Credits 36

**Breadth Requirement**

The Breadth Requirement may be met by completing one of the following:

1. A second Foreign Language Emphasis;
2. A minor in another foreign language offered by the Department;
3. Six (6) credit hours of coursework at the 200-level or higher among foreign language courses outside the Emphasis (including courses taught in English). These classes must focus on language, literary or cultural studies. Appropriate courses offered by other departments (e.g. History of Latin America) can fulfill the breadth requirement with the prior approval of the undergraduate advisor.

**Other Requirements and Regulations**

1. A capstone course is required for the completion of the BA in Foreign Languages.
2. Higher-level courses may be substituted for lower-level coursework, eg. a 300-level class can be taken instead of a 200-level class. A minimum of two 400-level courses is required for each Emphasis in addition to the Capstone, 499.
3. A 2.0 grade-point-average in Foreign Languages courses is required for graduation.
4. Study-abroad is strongly recommended for all majors and minors in Foreign Languages, but not required for degree completion.
5. FRENCH 435 does not count toward the major in Foreign Languages.
6. Native speakers studying their own languages will complete a minimum of 21 credit hours in courses numbered 300 and above, but normally not including 315 or 325, and they will complete the breadth requirement. A native speaker is defined as a person who speaks the target language fluently and who has completed formal schooling through the secondary school level, or equivalent, in the target language.

## Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

## German Studies Minor

### Student Learning Outcomes

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines:
• To attain advanced reading, writing, listening and speaking proficiency in the language studied.
• To obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
• To understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
• To understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
• To develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

Program Requirements

The German Studies minor consists of 18 hours selected from the list of approved courses, of which a minimum of 6 credits must be in German Language and a minimum of 9 credits must be upper-division coursework. Up to 6 credits may come from classes listed in the Associated Course List, but these courses apply only if the student’s project focuses on a German topic. A capstone project is also required. A maximum of six hours may apply to both a German minor and a German Studies minor.

**Art History:**
- ART-HIST 302: Survey Of Western Art II
- ART-HIST 303: World Currents of Contemporary Art
- ART-HIST 415WI: Romanticism
- ART-HIST 416WI: Later 19th Century Painting And Sculpture
- ART-HIST 424: Early 20th Century European Painting And Sculpture
- ART-HIST 445: Northern European Art: 15th And 16th Centuries

**Interdisciplinary Cluster Courses:**
- HISTORY 400CF: Cluster Course: Courts and Culture in the High Middle Ages

**History:**
- HISTORY 413/5513: Renaissance
- HISTORY 414/5514: Reformation
- HISTORY 417R/5517: Nations & Empires: 19th Century Europe
- HISTORY 415B: 17th and 18th Century European History
- HISTORY 418R/5518: The Age of Extremes 20th Century History
- HISTORY 419R/5519: Contemporary Europe: 1930-2000

**Philosophy:**
PHILOS 332: Existentialism

**Musical (Conservatory):**
- CONSVTY 5554: Music of the Medieval Era
- CONSVTY 5557: Music of the Classical Era
- CONSVTY 5558: Music of the Romantic Era
- CONSVTY 5559A: Music Since 1900: 1900-1945
- CONSVTY 5560B: Seminar: Nineteenth-Century Nationalism In Music

**Political Science:**
- POL-SCI 220: Introduction To Comparative Politics

### The Minor: French, German, Spanish, Classics

#### Student Learning Outcomes

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines:

- To attain advanced reading, writing, listening and speaking proficiency in the language studied.
- To obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
- To understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
- To understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
- To develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

The growing need for experts in the international aspects of academic and professional fields has led to a renewed interest in the foreign language minor as a complement to a student’s training in a major field. In increasing numbers, students completing baccalaureate degrees in the Henry W. Bloch
School of Business and Public Administration, in the Conservatory of Music and in other departments of The College of Arts and Sciences have selected a course of study that includes a minor in a foreign language. Majors in all fields are urged to discuss this possibility with their advisors.

Requirements for Program Minor

An academic minor in a given language requires a minimum of 18 hours consisting of six hours of second-year courses or above plus 12 hours of courses at the 300 and 400 levels. FRENCH 435 does not count toward a minor. Usually a maximum of six transfer credits can be applied to the minor.

Master of Arts: Romance Language and Literature

The master of arts degree program provides necessary training in French or Spanish language and literature for those who want to teach those languages at the secondary school or junior college level. It also serves students who plan to continue with studies at the doctoral level. Other employment opportunities can be found in government, business and industry, publishing houses, foundations, etc.

Admission Requirements

A bachelor’s degree from an accredited institution with a 3.0 (B) grade-point average in the subject area and a 2.75 overall GPA is required for admission.

The Graduate Record Examination (Advanced Achievement) is recommended, and two letters of recommendation are required. Students’ transcripts with accompanying data are carefully evaluated.

Applicants with inadequate preparation may be required to make up deficiencies by taking more than the standard 30 hours of coursework.

Courses taken prior to admission into a graduate program will not count for graduate credit.

Requirements for Retention

If students’ graduate grade-point averages fall below 3.0 (B), they may take coursework only on the 300 and 400 levels until a 3.0 graduate grade-point average has been achieved. Coursework completed under this condition will not count toward the master’s degree.

Transfer Credit

No more than 6 hours of transfer credit are normally allowed toward degree requirements.

Advising

Students interested in pursuing a master’s degree in Romance languages should meet with the appropriate principal graduate advisor before beginning studies:

French: Gayle A. Levy
(816) 235-2820, levyg@umkc.edu

Spanish: Louis Imperiale
(816) 235-2822, imperialel@umkc.edu

In consultation with the advisor, a course of study will be planned listing the courses that will satisfy requirements for the degree. Prior to registration at least once each year, candidates must meet with their advisors for approval of their course programs. They also must seek their advisor’s endorsement whenever a change in the agreed course of study is necessary.

M.A. Degree Requirements

1. Students must earn 30 graduate credit hours to complete the M.A. in Romance Languages. Of these credits, at least 21 hours must be at the graduate level (courses numbered 5500 and above). When appropriate and/or necessary, students may count up to 9 hours of 400-level courses taken while enrolled as a graduate student towards the M.A. A minimum GPA of 3.0 is required in all graduate work. Students must take courses in a variety of areas, genres and periods in order to achieve both breadth and depth of knowledge. See below for specific course and distribution requirements for each emphasis area (Spanish & French). Students must obtain approval of their study programs by the graduate advisor for their area at least once a year.

2. Students must demonstrate ability to read, speak and write, idiomatically and with accuracy, the language in which the M.A. degree is being pursued.

3. Final Examination: Students must take a final examination consisting of both written and oral sections. See details below for each emphasis area.

4. Second Language Proficiency: In addition to the mastery of the target language, students must demonstrate a reading knowledge of a second language in one of the following ways:
   • Taking a reading examination in French, Spanish, Italian, German or Latin administered or approved by the department or given by the Educational Testing Service.
• Achieving a grade of 3.0 (B) or better in a 211 (3 credit hour), or equivalent, language course.
• Achieving a grade of 2.0 (C) or better in each of two 300-level courses or in one 400-level literature or civilization course taught in the second language.

M.A. in Romance Languages: French Emphasis

Student Learning Outcomes

Students graduating with an M.A. in romance languages will:

• Obtain specialized knowledge of either Hispanic or French and Francophone cultures, especially of their literatures as foundational paradigms for inquiry into language and cultural phenomena.
• Develop skill in reflective inquiry.
• Analyze cultural products, process and perspectives with a variety of interpretive strategies.
• Attain superior reading, writing, listening and speaking proficiency in the primary language studied, and intermediate reading proficiency in the secondary language studied.

1. Distribution of courses
   a. Students will choose courses covering five out of the seven following periods or fields:
      i Medieval/Early Modern
      ii Renaissance
      iii 17th and 18th Centuries
      iv 19th Century
      v 20th and 21st Centuries
      vi Linguistics or Pedagogy
      vii Francophonie
   b. In addition, as part of their 30 credit hours of study, students will take one course in advanced French stylistics.

2. Exams. The final exam will be comprised of a written and an oral portion.
   a. Written exam
      i In consultation with the French faculty, students will draw up a list of eight subjects covering most periods/fields and one explication de texte of a poem.
      ii The written exam will consist of 2-3 questions, written by the faculty and based on the subjects from the student’s list. The student will have two hours in which to write the essays. No notes are allowed, but the student may consult the texts during the exam.
   b. Oral exam
      On a subsequent day, the student will take the one-hour oral exam, which will consist of the explication de texte and follow-up questions to the written exam. The student may bring brief notes, on index cards, to help in the explication de texte.

M.A. in Romance Languages: Spanish Emphasis

Student Learning Outcomes

Students graduating with an M.A. in romance languages will:

• Obtain specialized knowledge of either Hispanic or French and Francophone cultures, especially of their literatures as foundational paradigms for inquiry into language and cultural phenomena.
• Develop skill in reflective inquiry.
• Analyze cultural products, process and perspectives with a variety of interpretive strategies.
• Attain superior reading, writing, listening and speaking proficiency in the primary language studied, and intermediate reading proficiency in the secondary language studied.

1. Distribution of courses
   a. Students will choose courses covering six out of the eight following periods or fields:
      i Medieval/Early Modern
      ii Golden Age
      iii 18th and 19th Centuries
      iv 20th and 21st Centuries
      v Spanish or Romance Linguistics
      vi Foreign Language Pedagogy
vii Pre-Columbian / Indigenous/ Colonial Literature
viii U.S.-Latino Studies

b. In addition, a student’s coursework must include at least one course in each general category of Peninsular or Latin American.

2. Exams. The final exam will be comprised of a written and an oral portion.
   a. Written Exam
      Questions will be based on a reading list prepared in advance by the students and their graduate advisor, based on the periods and fields covered in all their graduate courses; it will consist of 15 (out of 30 possible) identifications, two short and two long essays. The student will have four hours in which to write the essays. No notes, texts or dictionaries will be allowed.
   b. Oral Exam
      On a subsequent day, the student will take the one-hour oral exam, which will consist of a textual analysis. Prior to the exam, the student will be given a text and will have 30 minutes to prepare the analysis.

Department of Geosciences

Robert H. Flarsheim Science and Technology Hall

Mailing Address
University of Missouri-Kansas City
Department of Geosciences
RHFH 420
5100 Rockhill Road
Kansas City, MO 64110-2499

Department Chair:
James B. Murowchick

Professors:
Steven L. Driever (principal undergraduate Geography adviser), Syed E. Hasan (Director, CAER), Daniel P. Hopkins (undergraduate Environmental Studies BA adviser), Wei Ji (graduate Geography adviser and GIS Program Director), Tina M. Niemi (principal undergraduate Geology adviser)

Associate Professors:
Jimmy O. Adegoke, Caroline P. Davies (undergraduate Environmental Science BS adviser; Director, Environmental Studies program), Jejung Lee (principal graduate adviser; IPhD coordinator), James B. Murowchick (Chair)

Associate Teaching Professors:
Julie L. Urbanik

Professors Emeriti:
Raymond M. Coveney, Jr., Richard J. Gentile, Paul L. Hilpman, Eldon J. Parizek

Department Description

The Department of Geosciences offers programs of study leading to bachelor of science degrees in Environmental Science, Geography, and Geology and bachelor of arts degrees in Environmental Studies, Geography and Geology. The department offers a master of science degree in Environmental and Urban Geosciences. The department also participates in the Interdisciplinary Ph.D. program. The department also offers a graduate-level Waste Management Certificate Program. Students who designate Geosciences (Environmental Studies, Geology or Geography focus) on their application for admission to the doctoral program must meet admission and other requirements available from the department. See the School of Graduate Studies section in the Graduate Catalog for more information about doctoral programs. The department takes a leading role in the undergraduate interdisciplinary Environmental Studies program. Courses offered by the department can be used to fulfill the requirements of the Missouri Department of Education for earth science, science-math, and social science teaching specialties.

Students majoring in Environmental Studies, Environmental Science, Geography, or Geology obtain a broad liberal arts education during their undergraduate career and at the same time receive sound fundamental training in the geosciences. Departmental faculty members are committed to educating non-majors about the earth and environmental sciences as well as those students who plan to pursue careers in the geosciences.

All undergraduate majors in the Department of Geosciences (including Environmental Studies) must maintain a minimum grade-point average above 2.0 in all courses taken to fulfill departmental degree requirements. This minimum GPA also applies to all credit hours transferred from other institutions.
Special Resources and Services

Geosciences Museum

The Geosciences Museum, founded by Richard L. Sutton, M.D., is located in Room 271, R.H. Flarsheim Hall. It contains relief models and interactive displays, along with a full range of 2,500 spectacular mineral and fossil specimens from all over the world. Hours of operation are 8:30 a.m. to 4:30 p.m. Monday through Friday. Admission is free.

Center for Applied Environmental Research (CAER)

The Center for Applied Environmental Research http://cas.umkc.edu/caer is administered by the Geosciences Department and directed by Professor Syed E. Hasan. The center is a resource for governmental agencies, private firms, and the general public in matters of the environment. Its programs address such matters as environmental geophysics, geochemistry, underground space, foundation stability, waste management, geologic hazards, environmental justice, natural resource assessment, and land-use planning.

Undergraduate Admission Requirements

Prospective students desiring to major in the Geosciences programs should enroll in as much work as possible in mathematics, English composition and sciences during their high school years.

Students transferring from other colleges or universities should have taken required non-departmental 100- and 200-level courses listed under degree programs in this catalog prior to arriving at UMKC. For example, geology students should take mineralogy during their first fall semester and should have already completed the chemistry prerequisite by that time. In addition, it would be desirable for B.S. majors to have completed a semester of calculus. To assure that students transferring from other institutions of higher education can continue in an uninterrupted plan of study in the fields of geology, geography or environmental studies, it is advisable that they acquaint themselves with the departmental degree requirements listed in this catalog as well as the two-year timetable of course offerings available from the department advisors, prior to registration.

Natural Science/Social Sciences Area Requirements

All Geology courses

Social Science Area Requirements

All Geography courses except the above count toward the social science requirements of the College of Arts and Sciences.

Career for Geography, Geology and Environmental Studies/Science Graduates

Geography

Students of geography at UMKC are offered a well-rounded education leading to promising career prospects; the market for geographers is global. Geography is centrally concerned with the whole range of interrelations between human beings and the natural and built environments. Geography graduates find work in commerce; government and public administration; city and regional planning; natural resource management and environmental conservation; historic preservation; landscape design; pollution control; weather-forecasting; climatological and agricultural analysis; statistical analysis;
government and commercial map-making; transportation; the travel and tourism industry; market analysis and development; diplomacy; and national and international economic development programs. Experience with geographic information science (GIS) and remote sensing technologies is a great advantage in all these fields. Well-educated geographers are often involved in the crafting of policy and legislation, in the practice of law, in consulting, in publishing and in education.

Geology

Geology graduates have numerous employment opportunities, especially in areas relating to the environment, to engineering and to applied geology. Training in urban and environmental geology will prepare graduates to develop and evaluate environmental impacts, deal with waste management issues; model groundwater flow; handle laboratory and field instrumentation; and assess natural hazards. Geologic studies of soils, energy, mineral and water resources, and the environment are essential for private industry, as well as for governmental agencies. Graduates may also join state and federal geological surveys. The petroleum industry was for many years the principal employer of geologists. However, currently the best employment opportunities are in the area of the environment.

Environmental Studies

Environmental issues such as climate variation, atmospheric pollutants and non-point-source water pollution are complex issues. The general public is ill-equipped to evaluate these issues and must rely on experts. The need for environmental education and professionals in the field of the environment has never been greater. Given these needs, employment opportunities are unlimited and are likely to remain so for decades. Specific careers available to those who hold an environmental studies degree lie with companies and agencies that deal with engineering, environmental geology, environmental law, environmental health and safety, emergency response, environmental training, environmental chemistry, politics and social issues.

Departmental Activities

Advising System

Students who wish to major in Geology, Geography or Environmental Studies should seek advice from the department at the earliest possible time. Transfer students, including those from local community colleges, should see faculty advisors in the department prior to admission to UMKC. All full-time faculty members serve as department advisors, but lead roles are designated to particular faculty for each discipline. Individuals may inquire about advising appointments at any time during the semester by phone at (816) 235-1334 or by e-mail at geosciences@umkc.edu.

Practicums and Internships

The nature of the fields of atmospheric science, environmental studies, geology, and geography necessitates practical in-class and laboratory exercises; field trips and fieldwork; working seminars and independent projects of a practical nature. More explanation of specific courses can be found in the individual course descriptions. Internships are available with local organizations.

Financial Aid and Transportation Costs

A variety of scholarships and student financial aid alternatives are available to students accepted for regular enrollment. (See the Financial Aid Web site http://www.umkc.edu/finaid for more information.) Scholarships available solely to Geosciences students include the Richard J. Gentile Scholarship, the Peck-Williams-Garstang Scholarship, the Truman Stauffer Scholarship, the Denis Ward Scholarship, and the Greater Kansas City Gem and Mineral Show Association Scholarship. Please note that certain field courses and field trips necessitate that some travel costs are at the expense of the individual student.

Teacher Certification in Earth Science or Social Science

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Earth Science teacher in either Kansas or Missouri requires that a student complete specific requirements in Biology, Chemistry, Environmental Studies, Geology, Physics and in the School of Education. Certification as a middle school (grades 5-9) or secondary (grades 9-12) Social Science teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and in the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Environmental Studies Program

Program Description

Environmental Studies Program provides students with the most innovative preparation in urban environmental issues and sustainability. The ES program engages a diverse student body with a strong foundation in environment and geosciences. It includes covering relationships between human beings and the environment. In addition to core courses in environmental science, environmental courses emphasizing the humanities and social sciences provide necessary balance for addressing physical Earth issues in a societal context. Undergraduate students gain essential life skills, an appreciation for complex environmental processes, and respect for the diversity of the urban environment in both Environmental Studies BA and Environmental Science BS degrees.

The department has offered geography and geology courses since 1934. The geography and geology programs of the Department of Geosciences include both bachelor of arts and bachelor of science degrees. The department also offers a master of science degree in environmental and urban geosciences (formerly the master of science in urban environmental geology degree). Students who designate geosciences as their coordinating discipline for the interdisciplinary doctoral program must meet admission and other requirements available from the department. See the School of Graduate Studies section of the graduate catalog for more information about doctoral programs.

Faculty

Program Director:
Caroline P. Davies

Participating Architecture, Urban Planning and Design Faculty:
Joy Swallow, Michael Frisch, Sungyup Kim, and Jacob Wagner

Participating Biology Faculty:
Aaron Reed

Participating Business Faculty:
Sandy Price, David Renz, and Li Sun

Participating Chemistry Faculty:
Yanching (Jerry) Jean, Kathleen Kilway, Ken Schmidtz, J. David VanHorn, and Charles Wurrey

Participating Engineering Faculty:
ZhiQiang Chen, John Kevern, Deborah O’Bannon, and Jerry Richardson

Participating Economics Faculty:
Mathew Forstater and Michael Kelsay

Participating Education Faculty:
A. Louis Odom

Participating Geosciences Faculty:
Jimmy Adegoke, Caroline Davies, Steven Driever, Syed Hasan, Daniel Hopkins, Wei Ji, Jejung Lee, James Murowchick, Tina Niemi, and Julie Urbanik

Participating History Faculty:
John Herron

Participating Law Faculty:
John Ragsdale

Participating Philosophy Faculty:
James Sheppard

Participating Political Science Faculty:
Reginald Bassa

Bachelor of Arts: Environmental Studies

Student Learning Outcomes

- Environmental Studies students can describe the components and function of Earth systems, have knowledge of environmental policy and ethical approaches to environmental issues, and have engaged in global challenges such as climate change, global water scarcity and ocean acidification, energy, consumption and waste management, and urban sustainability.
• Environmental Studies students will be actively involved with diverse communities throughout their course work and understand environmental challenges from multiple cultural perspectives and through world experiences.
• Environmental Studies students will demonstrate this learning through the application, across the curriculum, of advanced geographical knowledge, quantitative, and analytical skills in their application to new settings and complex problems.
• Environmental Studies students will have the ability to characterize environmental elements analytically and communicate their findings effectively.

Total Credits 32-34

1 BA students need at least one course taken from each of the three divisions of learning: Natural Sciences (NS), Social Sciences (SS), & Ethics, Jurisprudence, & Culture (E). Core courses cannot also be counted for credit in this section.

Minimum Core Courses from Above: 35 Distribution Electives and General Education Requirements: 85 Minimum Total Hours: 12

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science: Environmental Science

Student Learning Outcomes

• Environmental Science students can describe the components and function of Earth systems, have knowledge of environmental policy and ethical approaches to environmental issues, and have engaged in global challenges such as climate change, global water scarcity and ocean acidification, energy, consumption and waste management, and urban sustainability.

• Environmental Science students will be actively involved with diverse communities throughout their course work and understand environmental challenges from multiple cultural perspectives and through world experiences.

• Environmental Science students will demonstrate this learning through the application, across the curriculum, of advanced geographical knowledge, quantitative, and analytical skills in their application to new settings and complex problems.

• Environmental Science students will have the ability to characterize environmental elements analytically and communicate their findings effectively.

B.S. Program Coordinator: Caroline P. Davies, (816) 235-1334

Minimum Core Courses from Above: 53 Distribution Electives and General Education Requirements: 70 Minimum Total Hours: 123 Note: The B.S. degree requires at least 60 credit hours of science and mathematics. In addition to the core courses and other required courses listed above, Environmental Studies majors seeking a bachelor of science degree and selecting a geosciences emphasis must take a minimum of an additional 12 credit hours in Geology or physical Geography.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Environmental Studies Minor

Environmental Studies Minor (B.A.)

Student Learning Outcomes

• Environmental Studies students can describe the components and function of Earth systems, have knowledge of environmental policy and ethical approaches to environmental issues, and have engaged in global challenges such as climate change, global water scarcity and ocean acidification, energy, consumption and waste management, and urban sustainability.

• Environmental Studies students will be actively involved with diverse communities throughout their course work and understand environmental challenges from multiple cultural perspectives and through world experiences.

• Environmental Studies students will demonstrate this learning through the application, across the curriculum, of advanced geographical knowledge, quantitative, and analytical skills in their application to new settings and complex problems.

• Environmental Studies students will have the ability to characterize environmental elements analytically and communicate their findings effectively.

B.A. Program Coordinator:
Daniel P. Hopkins, Geosciences, (816) 235-2973;

Students pursuing the bachelor of arts degree who wish to obtain a minor in environmental studies must take at least 18 credit hours of coursework from the following list, a minimum of nine credit hours at the 300- or 400-level and a minimum of nine credit hours at UMKC. The program of study is to be planned with a program coordinator.

Total Credits

1 Eighteen credit hours

1 May not be counted in both required and elective categories.

Courses which do not apply as credit in the Minor program are:

GEOG/GEOLOGY 417 Special Topics 1
GEOG 489 Tutoring in Geography 1
GEOG/GEOLOGY 398 Field Trip 1
GEOG/GEOLOGY 499WI Geography Seminar 3

Environmental Studies Minor (B.S.)

Student Learning Outcomes

- Environmental Studies students can describe the components and function of Earth systems, have knowledge of environmental policy and ethical approaches to environmental issues, and have engaged in global challenges such as climate change, global water scarcity and ocean acidification, energy, consumption and waste management, and urban sustainability.
- Environmental Science/Studies students will be actively involved with diverse communities throughout their course work and understand environmental challenges from multiple cultural perspectives and through world experiences.
- Environmental Studies students will demonstrate this learning through the application, across the curriculum, of advanced geographical knowledge, quantitative, and analytical skills in their application to new settings and complex problems.
- Environmental Studies students will have the ability to characterize environmental elements analytically and communicate their findings effectively.

B.S. Program Coordinator:
Caroline Davies, Geosciences, (816) 235-1335;

Students pursuing the bachelor of science degree who wish to obtain a minor in environmental studies must take at least 18 credit hours of coursework from the following list, a minimum of nine credit hours at the 300- or 400-level and a minimum of nine credit hours at UMKC. The program of study is to be planned with a program coordinator.

1 May not be counted in both required and elective categories.

Courses which do not apply as credit in the Minor program are:

GEOG/GEOLOGY 417 Special Topics 1
GEOG 489 Tutoring in Geography 1
GEOG/GEOLOGY 398 Field Trip 1
GEOG/GEOLOGY 499WI Geography Seminar 3
Environmental Sustainability Minor

Program Description

Global populations are becoming predominantly urban and the state of the environment is central to issues of quality of life, health and safety. The Sustainability minor program provides students with the most innovative preparation in urban environmental sustainability through course work that cross cuts multiple disciplines and focuses on integrative solutions. Students develop a foundation knowledge in Earth systems. Students engage the challenges of sustainability through course work and community problem solving in sustainable thinking, planning, policy, and design. Undergraduate students gain essential life skills, a foundation in complex environmental and human systems, and critical problem solving skills.

Student Learning Outcomes

- Sustainability students can describe the interactions and feedbacks of Earth systems, have knowledge of environmental policy and urban planning, and are engaged in sustainability issues at many scales.
- Sustainability students will be actively involved with diverse communities throughout their course work, and assess sustainability challenges from multiple cultural perspectives and through world experiences.
- Sustainability students will demonstrate this learning through the application of advanced sustainable knowledge, quantitative, and analytical skills in their application to new settings and complex problems.
- Sustainability students will have the ability to characterize human-environmental interactions analytically and communicate their findings effectively.

Program Requirements

Required

Take three hours of the following:

- GEOG/GEOLOGY 499WI  Geography Seminar  3

Requirements

Minimum of 18 hours, Minimum of 9 hours from UMKC (not transferred)

Minimum of 9 Junior/Senior (300/400) level courses, Total hours determined by department. Academic Minors are optional. The minor will not appear on the Commencement Program or diploma but will be noted on the transcript.

Geography and Geology Programs

Program Description

The department has offered geography and geology courses since 1934. The geography and geology programs of the Department of Geosciences include both bachelor of arts and bachelor of science degrees. The department also offers a master of science degree in environmental and urban geosciences (formerly the master of science in urban environmental geology degree). Students who designate geosciences as their coordinating discipline for the interdisciplinary doctoral program must meet admission and other requirements available from the department. See the School of Graduate Studies (p. 480) section of the graduate catalog for more information about doctoral programs.

Faculty

Professors:
Steven L. Driever (principal undergraduate geography advisor), Syed E. Hasan (Director, CAER), Wei Ji (graduate Geography advisor and GIS Program Director), Tina Niemi (principal undergraduate Geology advisor)

Associate Professors:
Jimmy Adegoke, Caroline P. Davies (undergraduate Environmental Studies advisor, BS; Director, Environmental Studies Program), Daniel P. Hopkins (undergraduate Environmental Studies advisor, B.A.), Jejung Lee (principal graduate advisor and IPhD Coordinator) and James B. Murowchick (Chair)

Associate Teaching Professors:
Julie L. Urbanik

Professors Emeriti:
Raymond M. Coveney, Jr., Richard J. Gentile, Paul L. Hilpman, Eldon J. Parizek

Bachelor of Science/Bachelor of Arts: Geography

Bachelor of Arts: Geography

Student Learning Outcomes

- Geography students are expected to understand human-environmental relationships and their spatial dimensions in various geographic areas, from local places to the entire world.
- Geography students integrate knowledge from the humanities, social sciences, and natural sciences and apply that information to places.
- Geography students also know how to design, produce, and interpret maps using modern technology. Evidence of success is provided by performance on our exit examinations, admission to graduate schools, and ultimately the successful careers in geosciences pursued by our graduates.

**Total Credits:** 48-52

---

1. For a B.S. degree, a minimum of 60 hours of physical sciences and mathematics is required. A minimum of 26 hours of courses in the major at the 300-level or above is required for all programs in the Department of Geosciences leading to the B.A. or B.S. degree.

2. B.S. students in the Department of Geosciences are not required to take foreign languages.
Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science/Bachelor of Arts: Geology

Bachelor of Arts: Geology

Student Learning Outcomes

- Geology graduates will understand the forces and processes that build and shape the Earth.
- Students will be able to identify minerals and rocks and understand their formation processes.
- Students will understand evolution, earth history, and the role of fossils in geologic time.
- Students will be able to utilize techniques to describe the three-dimensional geometry of Earth layers and deformation processes.
- Students will collect and interpret field data, produce maps, and use them to solve geologic and environmental problems.
- Students will be able to critically analyze published literature and have experience with technical writing and presentations.

Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Geography and Geology Minors

Academic minors are offered in geography (18 hours) and in geology (18 hours). At least nine of the hours needed for the minor must be taken at UMKC. The minor programs are sufficiently flexible to enable students with diverse backgrounds to choose relevant coursework from the department’s offerings. The programs are structured to ensure that students gain an appreciation of the breadth of the minor field. The minor should be declared as early as possible, but not later than the beginning of the student’s senior year. Up to eight hours of coursework may simultaneously count in both the major and minor areas, where applicable. This applies to departmental and non-departmental students.

Undergraduate Minor in Geography

Student Learning Outcomes

- Geography students are expected to understand human-environmental relationships and their spatial dimensions in various geographic areas, from local places to the entire world.
- Geography students integrate knowledge from the humanities, social sciences, and natural sciences and apply that information to places.
- Geography students also know how to design, produce, and interpret maps using modern technology. Evidence of success is provided by performance on our exit examinations, admission to graduate schools, and ultimately the successful careers in geosciences pursued by our graduates.

A minor in geography may be obtained with a minimum of 18 semester hours of coursework in this discipline (at least nine of which must be at the 300- and 400-level).

Either ENV-SCI 110R (5 hours with lab) -or- GEOG 105 (3 hours) is required.

Note: GEOG 398, GEOG 417, GEOG 489 and GEOG 499WI do not count as credit in a minor program in geography.

Undergraduate Minor in Geology

Student Learning Outcomes

- Geology graduates will understand the forces and processes that build and shape the Earth.
- Students will be able to identify minerals and rocks and understand their formation processes.
- Students will understand evolution, earth history, and the role of fossils in geologic time.
- Students will be able to utilize techniques to describe the three-dimensional geometry of Earth layers and deformation processes.
- Students will collect and interpret field data, produce maps, and use them to solve geologic and environmental problems.
- Students will be able to critically analyze published literature and have experience with technical writing and presentations.

A minor in geology may be obtained with a minimum of 18 semester hours of coursework in this discipline (at least nine of which must be at the 300- and 400-level).

GEOLGY 220 (5 hours with lab) -and- GEOLOGY 250L (Campus) (3hours) -or- GEOLOGY 251 (Off-campus) (3 hours) are required.

Note: GEOLOGY 398, GEOLOGY 417 and GEOLOGY 499WI do not count as credit in a minor program in geology.

Undergraduate Certificate Program in GIS

Geographic Information Systems (GIS) and related geo-spatial techniques are fast-growing and increasingly applied to almost all sectors of our society. Examples include environmental mapping, urban planning, and public resource management. This Missouri State-approved, transcripted undergraduate certificate program offers GIS-related multidisciplinary courses through several academic programs of the College of Arts & Sciences, such as Geosciences, Urban Planning and Design, Sociology, Economics, and Criminal Justice and Criminology. The curriculum is designed to prepare students for a variety of careers in the rapidly growing job market.

This undergraduate certificate program is open to any degree-seeking undergraduate students at UMKC with appropriate academic backgrounds.
Student Learning Outcomes

1. Students will be able to identify geospatial issues and technical needs in problem-solving in relation to relevant academic disciplines, industrial production, or public services
2. Students will be able to design geospatial technical approaches for problem-solving
3. Students will be able to analyze geospatial data and produce maps using relevant GIS software
4. Students will be able to present geospatial study findings with oral presentation and written reports

For completion of the certificate program, the student is required to finish the coursework of 17-19 credit hours with a 3.0 GPA or higher.

GEOG 203  Introduction to Geographic Information Systems  4
GEOG 401  Advanced Geographic Information Science  4

Electives

Select three of the following:  9-10
GEOG 402  Environmental Remote Sensing and Digital Image Analysis  4
GEOG 404  Biogeography and Landscape Ecology  3
GEOG 417  Special Topics  3
GEOG 444  Spatial Data Analysis  3
GEOG 448  Satellite Climatology  4
ECON 411  Geographic Information Systems (GIS) for Urban Economic Development  3
UPD 300  Quantitative Planning Methods And Techniques  3
UPD 400  Advanced GIS For Urban Planning  3
SOCIOL 434  Spatial Thinking in Social Science  3

Graduate Certificate Program in GIS

Student Learning Outcomes

• Students will be able to identify geospatial issues and technical needs in problem-solving in relation to relevant academic disciplines, industrial production, or public services
• Students will be able to design geospatial technical approaches for problem-solving
• Students will be able to analyze geospatial data and produce maps using relevant GIS software
• Students will be able to present geospatial study findings with oral presentation and written reports

Geographic Information Systems (GIS) and related geospatial techniques are fast-growing and increasingly applied to almost all sectors of our society. Examples include environmental mapping, urban planning, and public resource management. This Missouri State-approved, transcripted graduate certificate program offers GIS-related multidisciplinary courses through several academic programs of the College of Arts & Sciences, such as Geosciences, Urban Planning and Design, Sociology, Economics, and Criminal Justice and Criminology. The curriculum is designed to prepare students for a variety of careers in the rapidly growing job market.

This graduate certificate program is open to any students with a bachelor’s or a graduate degree and appropriate academic backgrounds, such as degree-seeking graduate students and working professionals.

For completion of the certificate program, the student is required to finish the coursework of 17-19 credit hours with a 3.0 GPA or higher.

Required Core Courses

GEOG 450  Gis Fundamentals for Research Applications  4
GEOG 5507  Advanced Geographic Information Science  4

Electives

Select three of the following:  9-10
GEOG 5502  Environmental Remote Sensing and Digital Image Analysis  4
GEOG 5504  Biogeography and Landscape Ecology  3
GEOG 5544  Spatial Data Analysis  3
GEOG 5548  Satellite Climatology  4
GEOG 5598D  Special Topics in Advanced GIS and Remote Sensing  3
CJC 5592  Advanced GIS For Crime Analysis  3
ECON 5511  Geographic Information Systems (GIS) for Urban Economic Development  3
Graduate Certificate in Waste Management

Student Learning Outcomes

- Waste Management students can describe the components and function of Earth systems, have knowledge of environmental policy and ethical approaches to environmental issues, and have engaged in global challenges such as climate change, global water scarcity and ocean acidification, energy, consumption and waste management, and urban sustainability.
- Waste Management students will be actively involved with diverse communities throughout their course work and understand environmental challenges from multiple cultural perspectives and through world experiences.
- Waste Management students will demonstrate this learning through the application, across the curriculum, of advanced geographical knowledge, quantitative, and analytical skills in their application to new settings and complex problems.
- Waste Management students will have the ability to characterize environmental elements analytically and communicate their findings effectively.

Program Requirements

In keeping with the demand for trained professionals in the field of waste management, a new Graduate Certificate Program in Waste Management was launched in 2003. The program is designed for professionals working in the waste management industry who desire advanced knowledge in the field but do not have the time to enroll in a graduate degree program that may take up to two years to complete. The graduate certificate program is designed to meet this need and also to enable students holding a bachelor’s degree in an appropriate discipline to improve their knowledge in the waste management field and to prepare them to enter industry with advanced knowledge at the graduate level. The carefully designed curriculum for this program consists of 15 credit hours of course work that covers every important aspect of waste management. Field visits to waste facilities and the 40-hour OSHA-approved Hazardous Waste Operator Training (HAZWOPER) course are included in the curriculum.

Master of Science: Environmental and Urban Geosciences

The Department of Geosciences offers a master of science degree in Environmental and Urban Geosciences, the only such program in North America. This unique program prepares students, depending on their emphasis area, for advanced study of different facets of the environment including: environmental issues and geospatial methods (GIS and Remote Sensing), natural hazards, environmental remediation, waste management, air and water pollution, resource evaluation and management, geoarchaeology, historical geography, and urban land use and planning. Although the program requires students to select an area of concentration, all students must complete a core curriculum and a thesis.

Admissions Requirements

For full admission to the graduate degree program in environmental and urban geosciences (Code 6, degree-seeking status), the following requirements must be met:

1. Completion of an undergraduate degree with a major in a geosciences field (such as Environmental Sciences or Studies, Geography, and/or Geology) and a grade-point average of at least 3.0 (A = 4.0) overall, as well as in the major.
2. Submission of scores on the Graduate Record Examination (GRE) is not required but highly recommended. GRE scores may be used to award assistantships.
3. Two letters of recommendation from academic and/or professional references.
4. The student must declare one of the three degree emphasis areas in his or her application.
5. All application materials must be submitted to the Admissions Office by March 31 for fall semester and October 1 for spring semester for final consideration.

With department approval, students with non-geoscience undergraduate degrees may be provisionally admitted on a non-regular degree-seeking basis (Code 6-V). After successfully completing recommended courses for the appropriate undergraduate geoscience degree, provisionally-admitted students may be granted degree-seeking status.
Graduate Assistantships
Teaching assistantships are awarded on a competitive basis to incoming fully-admitted graduate students. Assistantship applications and all supporting materials should be submitted by March 31 for fall enrollment and October 1 for spring enrollment.

Students whose native language is not English must take the iBT test prior to holding a teaching assistantship. Specific scoring requirements for the iBT may be found here (p. 796).

Areas of Concentration

Students must select one of the following areas of concentration:

Environmental Geography and Geographic Information Science

Student Learning Outcomes

Geography
• Geography students are expected to understand human-environmental relationships and their spatial dimensions in various geographic areas, from local places to the entire world.
• Geography students integrate knowledge from the humanities, social sciences, and natural sciences and apply that information to places.
• Geography students also know how to design, produce, and interpret maps using modern technology. Evidence of success is provided by performance on our exit examinations, admission to graduate schools, and ultimately the successful careers in geosciences pursued by our graduates.

Geology
• Geology graduates will understand the forces and processes that build and shape the Earth.
• Students will be able to identify minerals and rocks and understand their formation processes.
• Students will understand evolution, earth history, and the role of fossils in geologic time.
• Students will be able to utilize techniques to describe the three-dimensional geometry of Earth layers and deformation processes.
• Students will collect and interpret field data, produce maps, and use them to solve geologic and environmental problems.
• Students will be able to critically analyze published literature and have experience with technical writing and presentations.

The Environmental Geography and Geographic Information Science area of concentration will prepare students with a wide range of knowledge on environmental issues and geospatial methods (GIS, remote sensing, and environmental modeling). Required courses for students in this area are:

Hours

<table>
<thead>
<tr>

<td>Global Environmental Change</td>
<td>3</td>
</tr>
<tr>
<td>GEOG 5507</td>
<td>Advanced Geographic Information Science</td>
<td>4</td>
</tr>
</tbody>
</table>

Based on student interest and departmental research priorities, students may also take courses in such areas as biogeography, climatology, ecosystem management, hydrology, and quaternary environments.

Environmental Geology

Student Learning Outcomes

• Geology graduates will understand the forces and processes that build and shape the Earth.
• Students will be able to identify minerals and rocks and understand their formation processes.
• Students will understand evolution, earth history, and the role of fossils in geologic time.
• Students will be able to utilize techniques to describe the three-dimensional geometry of Earth layers and deformation processes.
• Students will collect and interpret field data, produce maps, and use them to solve geologic and environmental problems.
• Students will be able to critically analyze published literature and have experience with technical writing and presentations.
The Environmental Geology area of concentration provides opportunities for advanced study of geology with emphasis on human interaction with the environment. Hydrogeology, neotectonics, geochemistry, and environmental hazards and remediation are among the possible specialties a student could pursue in this emphasis area. Required courses for students in this area are:

**Hours**

</tr>
<tr>
<td>GEOLOGY 5541</td>
<td>Environmental Geophysics</td>
</tr>
</tbody>
</table>

Other coursework may include appropriate geology courses, as well as related departmental courses, especially those in geographic information science.

**Urban and Cultural Geography**

**Student Learning Outcomes**

- Geography students are expected to understand human-environmental relationships and their spatial dimensions in various geographic areas, from local places to the entire world.
- Geography students integrate knowledge from the humanities, social sciences, and natural sciences and apply that information to places.
- Geography students also know how to design, produce, and interpret maps using modern technology. Evidence of success is provided by performance on our exit examinations, admission to graduate schools, and ultimately the successful careers in geosciences pursued by our graduates.

Students choosing this area of concentration can pursue studies in cultural geography, historical geography, history of cartography, geoarchaeology, regional analysis and development, and urban geography and planning. Required courses for students in this area are:

**Hours**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tr>
<tr>
<td>GEOG 5509</td>
<td>Urban Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

Other coursework may include appropriate geography courses, as well as related departmental courses and cognate courses in other departments.

**Requirements for Retention**

1. All fully-admitted students are required to pass a qualifying examination administered by the department during their first year.
2. A 3.0 (B) average or better must be maintained in all graduate coursework. In addition, a 3.0 (B) average and a satisfactory balance of grades must be maintained in the approved program of study, or the student will be subject to either probationary status or dismissal from the program.

**Requirements for Graduation**

1. Formal acceptance of a planned program of study and research is required by the department and the graduate officer of the College. Such a program must comprise at least 30 graduate credit hours (approved by the supervisory committee), including 3 to 6 hours of thesis credit, and completion of the core curriculum and emphasis area requirements. No more than 40 percent of the program may be 300- to 400-level courses, and at least 18 credit hours must be at the 5500 level or above.
2. A formal written thesis is required of all students, and its format must be in accordance with guidelines of School of Graduate Studies.
3. A final examination is required, including oral examination of thesis research and related coursework.
4. Satisfactory compliance with all applicable requirements of the School of Graduate Studies is required, including continuous enrollment and residency.

**Gerontology**

**Program Director:**
Joan McDowd, Director, Aging Studies Programs, (816) 235-2490

**Program Advisor:**
Linda M. Breytspraak (816) 235-1744
Cherry Hall, Room 306  
(816) 235-5415

• Graduate Certificate in Gerontology (p. 166)

Graduate Certificate in Gerontology

With the rapid aging of the population along with the consequences this brings to nearly every sector of our lives it is important to prepare for this changed world. A graduate gerontology certificate can be either a way to begin to explore a new career or it can bring added value to what one already does. This eighteen-credit program can be taken either as a free-standing curriculum or in some cases integrated with a graduate degree program at UMKC. Students from such diverse fields as social work, counseling, nursing, psychology, pharmacy, dental hygiene, sociology, law, architecture, and education have completed the certificate. Students should contact the gerontology advisor to discuss enrollment and a plan of study. The certificate may also be integrated with the Master of Arts in Liberal Studies degree.

Curriculum

Interdisciplinary Core
A&S 5500  Interdisciplinary Colloquium On Aging  3

Sociology Core
Select one of the following:  3

SOCIOL 5550  Sociology Of Aging
SOCIOL 5554  Sociology Of The Aging Woman
SOCIOL 5560  Sociology Of Death And Dying

Psychology Core
PSYCH 5543  Adult Development And Aging  3

Health/Biology Core
A&S 5501B  Special Topics: Critical Thinking In Social Studies (The Experience of Health in Aging (on-line))  3

Field Practicum
A&S 5592  Field Practicum In Aging  3

Elective Courses
Electives  3
Total Credits  18

1  The practicum requirement should be enrolled in after all other core requirements are completed.
2  Three elective credit hours can be taken to complete the program. Students should contact the gerontology program advisor for a list of 3-credit semester-long courses and 1-credit special topics weekend electives for the upcoming semester.

Minor in Gerontology

Undergraduate students in any major in the College of Arts and Sciences may seek an interdisciplinary minor in gerontology designed to increase awareness of issues of our aging population. The minor will augment career paths into service provision, administration, the health professions, and education or research.

Students complete an 18-credit program of study that includes a nine-credit core, six credits of electives, and a three-credit practicum as outlined below. The minor may be integrated with the Bachelor of Liberal Arts (BLA) degree. Completion of the gerontology minor is recorded on the student’s transcript. Students must declare their intention to pursue the minor on the “Declaration of Major” form and should meet with the gerontology advisor. No more than 6 credits may be transferred from another institution.

## Healing and Humanities

Scofield Hall (http://www.umkc.edu/virtualtour/scofield-hall.asp), Room 9 711 E. 51st Street

**Faculty Coordinator/Program Advisor:**
Denise Todd, Director of Pre-Health Programs, (816) 235-6270

The interdisciplinary minor in healing and humanities enables students to explore the complicated nature of health care issues by integrating knowledge from the arts and humanities with the social and natural sciences. The minor is particularly appropriate for students considering health-related professions, complementing other scientific, clinical and professional preparation. Health care careers are projected to be among the fastest-growing fields in the 21st century. America’s changing health care environment increasingly calls for individuals who understand the complexity of factors affecting healing and who are able to take a humane, holistic approach.

### Undergraduate

#### Minor in Healing and Humanities

**Student Learning Outcomes**
- Understand the complexity of factors affecting healing
- Develop an understanding of holistic and biopsychosocial dimensions of patient care
- Develop an interdisciplinary foundation for future careers in the world of health care

The healing and humanities curriculum enables pre-health and health professional students to develop an interdisciplinary foundation for a future health care career.

**Requirements**

To earn a minor in healing and humanities:
- Students must earn at least 18 credit hours from the list of approved courses below and other courses as approved by the program advisor
- Three core courses are required for all students seeking the minor:
  - PHILOS 221 Contemporary Moral Issues 3
  - SOCIOL 211 Social And Psychological Development Through The Life Cycle 3
  - or NURSE 252 Human Growth and Development
  - COMM-ST 431 Colloquium In Interpersonal Dynamics 3
- At least nine credit hours must be upper-division (i.e., 300-499)
- At least nine hours must be earned at UMKC
- Complete an exit interview that will consist of one essay question that will address concepts leaned in the three core courses

Students may select from among a wide variety of courses offered by many participating departments. The program advisor is available to provide academic advice on course selection and degree requirements, as well as career guidance. Students interested in the healing and humanities minor should consult with the program advisor to plan a program of study.

Department Description

History is an essential component of a liberal arts education. As an important part of the curriculum, historical study enables students to understand the interaction of many aspects of state, society and culture, and the dynamics of human change. History offers a valuable perspective on contemporary problems as well as knowledge of the past for its own inherent interest.

Departmental offerings, at the undergraduate and graduate levels, include the major areas of historical concern such as American history and ancient, medieval, and modern European history. In recognition of the role of a university in its community, the department also offers courses in urban and
social history, the history of science, Asian and Middle Eastern history, Judaic Studies, religious studies, women's and gender studies, black studies, as well as public history and museum studies. The department is also vitally involved in interdisciplinary courses and programs.

Desirable Preparation for Undergraduate Admission

Students wishing to major in history should acquire as broad a background as possible in subjects related to their historical interests. Both secondary school and community college courses in history should be supplemented with courses in other social sciences and the humanities. Students interested in the history of science should emphasize studies in physical and biological sciences.

The discipline is broad in scope and methods. Faculty members believe a logical and systematic selection of courses in other disciplines will complement the study of history. They encourage prospective majors to consult with them in preparing an integrated course of study.

Career Implications of the Bachelors Degree

The bachelor of arts degree in history provides students with general preparation for a wide range of occupations. Most majors follow business and professional careers and receive benefits both personally and professionally from the development of analytical skills and examination of relevant subject matter in history courses. A common misconception is that the only thing available after graduation is to teach history. That is a possible path, but certainly not your only option.

Among the many jobs you can consider are: advertising, analyst, archivist, broadcaster, campaign worker, consultant, congressional aide, editor, foreign service, foundation staffer, information specialist, intelligence, journalist, legal assistant, lobbyist, museum curator, nonprofit leader, personnel manager, public relations. . . the list is almost endless. It sounds cliché, but the career path for a history majors is limited only by your imagination.

More specifically, with your degree in history you can work as an educator (primary, secondary or post-secondary schools, historic sites and museums); as a researcher (museums, think tanks, cultural resources management, preservation); as a communicator (writers, archivists, librarians); as an advocate (lawyers, legislative staff, foundations.); and in business (contract historians, non-profits, corporation staff).

Why so many opportunities? Consider this: the study of history trains us how to think—not in a small or proscribed way, but in an analytical way. In our courses, you will discover that a flexible and perceptive mind is the most practical tool imaginable. You will become excellent writers and communicators with the ability to analyze complex problems with dexterity and finesse, a skill that will help you regardless of your chosen career path. Beyond this—and this remains a much less practical concern—as we hope you discover, history is more than names and dates. At best, the study of history can be a cure for ignorance, prejudice, and provincialism. And at the very least, it is an interesting story about who we are as a community, a nation, and a people.

If your interests remain in the academic world, know that our students have gone on to many top-flight colleges and universities. Recent UMKC history majors have pursued graduate study at the state universities of Virginia, Texas, Connecticut, Iowa, New York, Mississippi, Nebraska, Kansas, Colorado, Kentucky, Florida, Michigan, and California-Berkeley as well as Ohio State, Southern Methodist, Marquette, Notre Dame, Washington University, University of British Columbia, Texas Tech, Columbia, Georgetown, Northwestern, London School of Economics, NYU, Queen's College-Belfast, King's College-London, and Cambridge.

Individuals seeking careers as teachers and professional historians may pursue advanced degrees on this campus. The department offers the Master of Arts degree and participates in the Interdisciplinary Ph.D. program. Students interested in graduate studies should contact the principal graduate advisor, Miriam Forman-Brunell Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=forman), or for the Interdisciplinary Ph.D. program, contact Diane Mutti Burke Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=burke).

Departmental Activities

Advising

Counseling is key to a meaningful and profitable course of study in the department. Students should consult the principal undergraduate faculty advisor regarding selection of courses and for help in academic matters. Students may select an advisor, or an advisor can be appointed by the principal undergraduate advisor. Faculty office hours and prospective schedules of courses are posted in the department office, located in 203 Cockefair Hall and on the department Web site http://cas.umkc.edu/history. The department offers printed guides to the requirements for its graduate degrees.

Special Programs

Teaching Certification in Social Studies

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in history, political science, economics, geography, behavioral sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Applied History

Courses offered by the department prepare graduates for a variety of careers in historical agencies or in the study and preservation of cultural artifacts. For further information concerning archival methodology, consult Chris Cantwell Contact Information (http://www.umkc.edu/lookup/search.cfm?
For course offerings in material culture, contact Miriam Forman-Brunell Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=forman).

The History Club
Founded in 1999, with the purpose of promoting the study of history, the History Club is open to all UMKC students, history majors and non-majors. The club sponsor is Diane Mutti Burke Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=burke).

The History Graduate Student Association
Students participating in the Masters and PhD program are automatically members of the History Graduate Student Association (HGSA). Each year the HGSA sponsors two events: the Graduate Student Orientation and the Graduate Student Conference. The faculty advisor is John Herron Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=herron).

Faculty

- Bachelor of Arts: History (p. 172)
- Minor in History (p. 174)

Graduate Degrees:

- Master of Arts: History (p. 174)
- Interdisciplinary Ph.D. in History (p. 181)

Bachelor of Arts: History

Student Learning Outcomes

The Department of History has developed a set of carefully crafted learning objectives. Simply put, history majors are expected to acquire specified levels of knowledge, perspectives and skills through the study of the past. The learning objectives are designed to help students succeed in their undergraduate history major, as independent, creative and self-directed learners. More important, they will help students to be successful in their pursuit of a career and to hold a lifelong appreciation for the humanities and social sciences. The objectives are enumerated as follows:

Knowledge of the Past

Students studying history will:

- Acquire knowledge of the world’s civilizations and peoples, and their political, economic, social and cultural histories.
- Gain in-depth knowledge of a historical field by specializing in one of several departmental concentrations.
- Gain exposure to a range of historical subjects outside the concentration.
- Complete at least one course that examines a non-western society.

Perspectives

Students studying history will:

- Develop a historical understanding of an increasingly multicultural society and interdependent world.
- Understand the variety and complexity of the human experience and foster an appreciation for processes of change.
- Comprehend how constructions of class, race and gender dynamically shape social structures, national identities and all forms of human relationships.
- Realize the interlocking relationships among science, technology, the environment and society.
- Appreciate the value of interdisciplinary perspectives and methods.

Analysis and Interpretation

Students studying history will:
• Critically evaluate secondary, textual evidence by identifying a thesis, noting sources and methods used in argument, discerning the conclusions and determining the perspective, bias and reliability of the argument.

• Think critically, and master the art of interpretive analysis based on the widest possible array of primary sources: written, material and other cultural texts.

Research and Communication
Students studying history will:

• Locate printed and online information sources to research a topic exhaustively.
• Write clear, well organized, properly documented and grammatical prose.

Requirements
College of Arts and Sciences
Each student must fulfill the requirements of the College of Arts and Sciences, including the university’s general education program as described in UMKC’s Undergraduate Academic Regulations and Information.

History Department
The program of study for the Bachelor of Arts in History consists of 36 total credit hours.

Two courses, or 6 credit hours, are required in World History (HISTORY 206 and HISTORY 208) or European History (HISTORY 201 and HISTORY 202) are required for students in all concentrations. These courses may also fulfill UMKC general education requirements.

At least four courses, or 12 credits, must be inside the student’s field of concentration. The history department divides all upper division courses into areas of interest, or “concentrations.” All majors are required to choose a primary concentration. The idea is that with focused study, students will gain an in-depth understanding of their topic. Students will also take additional courses from other concentrations to enlarge the scope of their historical knowledge. The concentrations are: Antiquity and Medieval; Early Modern and Modern Europe; United States; and Asia, Middle East and Latin America, or a thematic concentration devised by the student and advisor, then approved by the department chair.

At least four courses, or 12 credits, must be outside of the student’s field of concentration and include at least one non-western course. In our department non-western courses include those that deal primarily with Africa, Asia, Latin America, Middle-East and indigenous North Americans.

The final two courses, or 6 credits, come from HISTORY 301WI and HISTORY 498WI. These courses cannot be taken in the same semester and are not offered in the summer.

NOTE: Students must complete the RooWriter before enrolling in any writing intensive courses.

Independent-study courses (HISTORY 496, HISTORY 497) and Internship classes (HISTORY 392B) may also help fulfill History electives. Enrollment in these courses is granted only by the instructor who will supervise the study.

All history majors at UMKC are required to establish and maintain a portfolio of their undergraduate work. The portfolio is a measurement tool that will allow students and faculty mentors to monitor intellectual growth, acquisition and sharpening of skills, and mastery of historical knowledge.

Two World History Surveys:

<table>
<thead>
<tr>

Please note that one-hour courses and PACE courses cannot be counted toward a concentration.
Tools for Planning and Filling Academic Requirements

UMKC's Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Minor in History

Student Learning Outcomes

The Department of History has developed a set of carefully crafted learning objectives. Simply put, history majors are expected to acquire specified levels of knowledge, perspectives and skills through the study of the past. The learning objectives are designed to help students succeed in their undergraduate history major, as independent, creative and self-directed learners. More important, they will help students to be successful in their pursuit of a career and to hold a lifelong appreciation for the humanities and social sciences. The objectives are enumerated as follows:

Knowledge of the Past

Students studying history will:

• Acquire knowledge of the world’s civilizations and peoples, and their political, economic, social and cultural histories.
• Gain in-depth knowledge of a historical field by specializing in one of several departmental concentrations.
• Gain exposure to a range of historical subjects outside the concentration.
• Complete at least one course that examines a non-western society.

Perspectives

Students studying history will:

• Develop a historical understanding of an increasingly multicultural society and interdependent world.
• Understand the variety and complexity of the human experience and foster an appreciation for processes of change.
• Comprehend how constructions of class, race and gender dynamically shape social structures, national identities and all forms of human relationships.
• Realize the interlocking relationships among science, technology, the environment and society.
• Appreciate the value of interdisciplinary perspectives and methods.

Analysis and Interpretation

Students studying history will:

• Critically evaluate secondary, textual evidence by identifying a thesis, noting sources and methods used in argument, discerning the conclusions and determining the perspective, bias and reliability of the argument.
• Think critically, and master the art of interpretive analysis based on the widest possible array of primary sources: written, material and other cultural texts.

Research and Communication

Students studying history will:

• Locate printed and online information sources to research a topic exhaustively.
• Write clear, well organized, properly documented and grammatical prose.

Program Requirements

A minor in history may be earned with a minimum of 18 credit hours of coursework in the discipline (at least 12 of which must be at the 300- and 400-level). A maximum of six of the 18 credit hours may be taken in two of the survey courses.

Master of Arts: History

This master’s program is designed for students who already have completed a non-terminal baccalaureate degree with a major in History or a related field. Students may pursue this master’s degree as a terminal degree or may leave open the option of continuing to a doctorate.
In this program, students will typically develop an in-depth knowledge of three fields of historical scholarship in their areas of interest, including chronology, bibliography, major themes and interpretations. Students may find that they develop these interests in the process of their interaction with the department faculty.

In the process of developing this advanced knowledge, students will also be expected to master the skills of historical scholarship. They will learn: How to recognize, demonstrate, and apply appropriate knowledge of the world’s civilizations and peoples as well as their political, economic, social, and cultural histories.

**Fields of History Offered by Regular Graduate Faculty**

- **William B. Ashworth, Jr.** Science, Renaissance, Early Modern European
- **Andrew S. Bergerson** Modern European, Modern German, Everyday Life, Material Culture, German Studies
- **Christopher Cantwell** Religious, Public History, Digital History, 19th and 20th Century U.S.
- **Gary L. Ebersole** Religious, Japanese, Cultural
- **Miriam Forman-Brunell** Everyday Life, Material Culture of Girls and Women/Gender in U.S. History
- **David Freeman** Early Modern European, Dutch, Religion, German Studies
- **Viviana Grieco** Colonial and Modern Latin American, Gender and Sexuality, Political Culture, Economic and Social
- **John Herron** Environmental, Western United States, 19th and 20th Century United States
- **Dennis Merrill** U.S. Diplomatic, Contemporary U.S., Modern Latin America, Globalization, International Relations
- **Linda E. Mitchell** Medieval British Isles, Women & Gender, Medieval Legal & Administrative, Ancient Greece & Rome
- **Diane Mutti Burke** 19th Century America, American South, Civil War, Early American Women, U.S. Social History
- **Matthew Warner Osborn** Early America
- **Lynda S. Payne** Modern British, Science, Medicine, Gender, The Body, Women, Early Modern European
- **Massimiliano Vitiello** Ancient History, Late Antiquity

**Tracks**

In addition to these topical areas, students may opt to focus their graduate studies on a particular track. Tracks allow students to develop a specialization in a particular approach to or application of history. The tracks currently available to students are:

**Public History**

Public history refers to the application of cutting-edge historical research to make it accessible to a wider, typically non-academic public. This track prepares students for professional positions in archives, museums, humanities councils, and governmental agencies as well as for work in broadcast and electronic media. Public historians interrogate the operation of history and memory in the present and seek to foster critical engagement about the past.

**Microhistory**

Microhistory refers to a study of the past that interrogates small-scale contexts and proximate interactions. It includes biography and autobiography, community studies, ethnography, everyday life, material culture, and oral history. This track can prepare students for any career but it particularly applicable to academia or teaching. Students in this track are encouraged to study abroad for one semester through exchange programs to universities associated with the Microhistory Network, including the MAUI-Utrecht Network Exchange which allows students to pay UMKC tuition to study in many different European universities. With the approval of the student’s committee, students may transfer up to 12 credits from a recognized graduate school in courses specifically focused on Microhistory. Students in the Microhistory track must take the Research Seminar (HISTORY 5587RA) in one of the following topics: Life Histories, Everyday Life, or Material Culture. As part of their program of study, they must also take one or two relevant courses in Anthropology, Art History, English, Foreign Languages & Literatures, Religious Studies, or Sociology. All courses and coursework throughout the program must involve Microhistory. All curricular decisions must be approved in advance by the student’s committee.

Tracks may be combined with any fields of study offered in our department. Students interested in tracking their studies may announce their interest in their application or at any time before the completion of their 12th credit hour.

**Program Options**

The Department of History offers two options leading to the Master of Arts degree—the M.A. in History, requiring 30 hours, and the M.A. in Public History, requiring 36 credit hours.

**Student Learning Outcomes**

1. How to recognize, demonstrate, and apply appropriate knowledge of the world’s civilizations and peoples as well as their political, economic, social, and cultural histories.
2. How to identify and employ primary and/or secondary sources to research a topic exhaustively.
3. How to relate the events in his/her particular story to the general history of the topic; and the student relates his/her interpretation to the interpretations of other historians, or to theorists or scholars in other disciplines.
4. How to use primary and secondary sources to construct an original historical interpretation, demonstrating competency in identifying a problem, posing a hypothesis, proposing a methodology, and engaging the data.
5. How to critically appraise alternative readings of the past, create a coherent historical interpretation, and take a critical position in these debates.
6. How to compose and present clear, well-organized, properly documented grammatical prose.

**Requirements**

Students seeking to fulfill either program option are required to complete the minimum number of credit hours of graduate-level work which must include the following courses with a grade of 2.67 (B-) or better:

### For the MA in History

**Foundational Courses:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

<td>Required Graduate Enrollment</td>
<td>1</td>
</tr>
</tbody>
</table>

**Total Credits:** 30

---

1. The department encourages students to take graduate level electives in the History department at the 5500 level. With the approval of the student’s faculty advisor, however, students may take up to 6 credits at the 400 level if these fit with their overall program of study. Students may also take up to 9 credits in courses outside the department provided:
   1. They are demonstrably graduate level courses.
   2. They clearly relate to the student’s program of study.

### For the MA in Public History

**Foundational Courses:**

<table>
<thead>
<tr>

**Total Credits:** 36

---

1. The department offers the following concentrations for the MA in Public History:
   1. Historical Administration: Students in this concentration will focus on the intellectual and administrative issues involved with leading historic sites and historical organizations. These include the art of historical interpretation, exhibit design, digital history methods, and nonprofit management.
   2. Archives and Collections Management: Students in this concentration will focus on the best practices and professional standards libraries, archives, museums, and rare book rooms use to manage their collections. These include preservation, digitization, and object curation.

   The student’s committee must approve all curricular decisions in regard to the concentrations.
Courses

How To-History

These foundational courses in the doing of history are offered in a two-semester sequence.

In Part I (HISTORY 5581GR), students will learn about the major trends in historiography by reading the “great books” of historical scholarship and learn the basics of historical criticism; the major assignment is a literature review that will aid the students in preparing for How To-History II.

In Part II (HISTORY 5582GR), students will learn the research methodologies and professional obligations of historians; the major assignment is a viable research prospectus that will aid the students in preparing for their Research Seminar (HISTORY 5587RA)

Colloquia

These courses form the knowledge base for the graduate program. Divided for purely administrative reasons into “American” and “World”, students are encouraged to take as many of these as can fit into their Program of Study. One of each is offered each Fall and Spring semester in the evening. In them, students will

1. Read broadly and learn about the major trends in the historiography of a particular historical problem, place, period, or specialization.
2. Develop fundamental skills of the professional historian such as the ability to write academic book reviews, make conference-style presentations, and discuss among peers the work of other historians critically.

This course typically culminates in the production of a term paper and/or literature review on a subject of the student’s interest that could serve as the context for a future research project or comprehensive examination field.

Research Seminars

As the title implies, these courses, organized around large historical themes or topics, are focused around individual research projects. Students will produce an original work of scholarship anchored in primary sources that reflects their larger course of study.

Graduate Capstone Course

In this 1 credit course, taken near the completion of the program of study, students will complete, and orally defend, their capstone project. For the MA program, this capstone experience can take one of three forms: a journal-length professional paper, based on original research (10,000-12,000 words); a public history interpretative plan (8,000-9,000 words plus mock ups); or for educators, an extensive unit plan. After completion of the research seminar, students will submit to their faculty advisory committee a proposal for the completion of their professional paper. We expect candidates for the M.A. degree who choose the professional paper to produce an original piece of historical scholarship based on their research in primary sources. Students will also:

1. Meet regularly with the faculty advisor during research and writing
2. Solicit the advice of the other members of the committee before submitting a final draft to the full committee

Professional Paper

The completed professional paper, an original piece of scholarship anchored in primary sources, will:

1. Summarize the literature/s relating to this area of research and take a critical position in it/them, engaging questions about chronology, bibliography, major themes, and interpretations.
2. Explain and justify its theory and methodology.
3. Tell a story about the past eloquently on the basis of primary sources.

Paper Defense

Students will also be required to defend their thesis in an oral examination, advertised and open to the public, in which the student will

1. Make a 20-30 minute conference-style presentation of his/her research.
2. Respond to questions from the audience and the committee about events, interpretation, theory, method and historiography.

Each examiner will evaluate the thesis according to the following scale: Superior, Good, Acceptable, Acceptable with Revisions, and Unacceptable (Fail). A grade of Acceptable or better by all members of the committee is required for the award of the master’s degree.

Public History Interpretative Plan

Candidates for the M.A. in Public History degree will produce an interpretive plan for a public history project, including wireframes and mock ups, based on their own research in primary sources. The completed interpretive plan will:
1. Summarize the literature(s) relating to this area of research. Students will take a critical position in their work and engage questions about chronology, bibliography, major themes, and interpretations.

2. Narrate a creative and compelling public project grounded in primary sources that communicates a scholarly argument to a public audience.
   a. This project can be, but is not limited to, an exhibit, walking tour, digital project, documentary film, oral history, archival collection finding aid, conservation plan, or national register nomination.

3. Explain and justify the project’s theory and methods.

4. Identify the project’s target audience and provide a plan to reach them.

5. Comply with all academic standards of honesty and professional best practices.

While an interpretive plan of a potential project will fulfill the requirements for the Public History degree, students can receive approval to have the installation or execution of an actual public history project for which they are the primary curator count as their HISTORY 599 project. In this case, the length of the interpretive plan will be greatly reduced. All decisions regarding the final project must be made with approval of the student’s advisory committee.

### Education/Unit Plan

For students interested in a career in K-12 education, they will be required to produce an extended unit plan. This project, developed with the student’s committee and representatives from the School of Education, will contain multiple related lessons and projects. The unit plan will illustrate the integration of the student’s historical training and teaching experience with other content areas. The plan will include an explanation and defense of the purposes and goals of the unit as well as the various teaching strategies used to teach the unit. The project will also illustrate how the unit goals relate to state curriculum benchmarks and will identify teaching methods used to assess student learning levels and needs.

### Dual-Numbered Courses (300/5500 & 400/5500)

Offered at a variety of times each semester, these courses expose graduate students further to major trends in the historiography of larger historical problems, places, periods, or specializations and allow them to hone their skills at academic history. Often taught in conjunction with undergraduate courses in the same subject area, graduate students in these courses will be held to a higher standard of knowledge and performance.

### Language Requirements

The M.A. in History will require demonstration of foreign language competency if the subject matter requires it. The faculty advisor will determine how this requirement should be fulfilled.

### Admissions

The Department of History will consider for admission as a regular graduate student any student:

- Whose undergraduate major was History.
- Who had a 3.0 grade-point average in History courses and a 3.0 grade-point average overall.

Applicants who do not hold an undergraduate degree in History, but whose baccalaureate program included substantial training in History and/or related subjects, may also be considered for regular admission. In order to be admitted into the program, applicants must provide evidence that they have scored a minimum of 150 on the GRE, or a minimum score of 80 (internet) or 550 (paper) or 213 (computer) on the TOEFL and a minimum score of 4.0 is required for English as Second Language speakers.

Applicants must submit all of the following supplemental materials in addition to the basic admissions application:

1. An autobiographical essay (typically 2 pages long),
2. An essay detailing your scholarly interests, including if possible: the faculty with whom you wish to study (typically 2 pages long),
3. A sample of your scholarly writing,
4. Three letters of recommendation, and
5. A completed admissions application.

It is crucial that the entire application be completed and supplementary materials submitted in three steps:

1. Send copies of your official test results to the Office of Admissions.
2. Complete the admissions application online at [www.umkc.edu/admissions/](http://www.umkc.edu/admissions/).
3. Send copies of your official test results and letters of recommendation to:
   
   **Mailing Address**
   University of Missouri-Kansas City
   Office of Admissions, Administrative Center, Room 120
   5115 Oak Street
   Kansas City, MO 64110-2499
4. Complete the supplementary application process online at www.umkc.edu/grasp/ (http://www.umkc.edu/grasp) Please take great care to answer all questions. You submit application materials, including letters of recommendation and writing samples, by faxing them directly to (573) 884-4898 for domestic students or -4894 for international applications.

Do not send anything directly to the Department of History. It is your responsibility to confirm the receipt of all materials by the due date.

Completed applications are due by March 15, for admission in the Fall semester of the new academic year and October 1, for admission in the Spring semester of the following calendar year. The History Department does not accept students for admissions beginning in the Summer semester.

Financial Aid

There are a limited number of Graduate Teaching Assistantships available. For information and forms, contact the History office directly. The School of Graduate Studies also administers graduate fellowships and scholarships. For all other inquiries about financial aid, contact:

Financial Aid and Scholarships Office
Administrative Center, Room 101
5115 Oak Street
(816) 235-1154 (Kansas City Metro)
1-800-775-8652 (Outside of Metro)
Fax: (816) 235-5511
finaid@umkc.edu
http://www.umkc.edu/finaid

Student Orientation

If admitted, students will be asked to sign a letter of intent to enroll.

The History Graduate Student Association will host an annual Graduate Student Orientation during the weeks prior to the start of the Fall semester. At which students will be:

• introduced to the program curriculum and administration and
• encouraged to build working relationships with faculty and peers.

Minimum Expectations

Students must demonstrate satisfactory progress towards the completion of their degree. In all courses students must

1. Receive a grade of 2.67 or higher in all courses taken in the History Department.
2. Maintain a minimum cumulative 3.0 graduate GPA.
3. Adhere rigorously and conscientiously to academic standards of honesty (see below).
4. Demonstrate serious commitment to scholarship and intellectual engagement.
5. Abide by all requirements of the School of Graduate Studies (see School of Graduate Studies section of the Graduate and Professional Catalog), in addition to those of the Department of History.

In terms of administrative procedures, students must punctually file the following forms, each of which must be approved by the M.A. advisor, the faculty advisor and the other members of the supervisory committee:

1. A tentative program of study, and the form listing the initial members of the Supervisory Committee, by the 15th of October or 15th of March before the completion of the student’s 15th credit hour.
2. A final program of study, and the form listing the final members of the supervisory committee, by the 15th of October or 15th of March before the completion of the student’s 30th credit hour.
3. The student must have identified a Faculty Advisor who has agreed to serve as the student’s lead instructor for the semester of study. Faculty Advisors, like tentative programs of study, may be changed over the course of a student’s study.

Each year students are required to submit a formal report of their progress toward their degree. The narrative statement should include a description of students’ coursework, exam preparation, research activities (including progress toward the thesis/dissertation/final project, conference activities, publications, exhibits, and the status of grant applications), awards, and internships, as applicable. In addition, students should outline their goals for the coming academic year.

Students in the microhistory or public-history tracks must declare their intent to track their studies by the completion of their 12th credit hour by forming a viable committee and completing a program of study.
Advisors and Committees

Once enrolled, students should schedule a meeting with the Masters Advisor. During this meeting, the student will be assigned a faculty mentor. The faculty mentor will:

• serve as a personal connection to the department
• assist the student in all matters professional during their study in the department
• and may continue even after the student has identified a Faculty Advisor (their content specific instructor).

Supervisory Committee

The supervisory committee consists of three full-time, regular members of the UMKC History Department who are also members of the graduate faculty, with the student’s faculty advisor serving as chair of this committee.

With the approval of the faculty advisor:

• One member of the committee may be a full-time, regular member of another UMKC department (this committee member must also be a member of the graduate faculty).
• A fourth member may be added to the committee from the adjunct graduate faculty or from the graduate faculty of another institution.

Students tracking their studies in Public History or microhistory are encouraged to have at least one member of the faculty whose scholarship involves the appropriate approach. Public History students are also permitted, and indeed strongly encouraged, to include members of the adjunct graduate history faculty on their committees who work professionally in the field of public history in the Kansas City region.

Extenuating Circumstances

Students incapable of meeting administrative deadlines may request an extension from the M.A. advisor. These requests must be made in writing in advance of the deadlines. Incompletes will be given only when there are legitimate reasons for not completing course requirements on time, and only when there are reasonable expectations that work can be completed within the time allowed by the School of Graduate Studies (maximum of one year).

Probation

Failing any of these conditions means that the student is not making satisfactory progress towards the completion of her/his degree. In that case, the student will be placed on probation and will have to petition the department, through a letter to the M.A. advisor and graduate committee, for permission to resume his or her studies the following semester. The department will then recommend a reasonable plan for remediation. If the student fails to meet the standards set by the department, the student will be declared ineligible for enrollment and dropped from the program.

Academic Dishonesty

Plagiarism is an inexcusable act in the view of the History faculty. Any student guilty thereof will be liable to expulsion from the program. A detailed statement by the faculty is available in the History office. Please refer to the UMKC Student Standard of Conduct (p. 828).

Research dishonesty refers to any conduct that is intended to mislead or communicate false research data or results, or which communicates such data or results in reckless disregard of their false or misleading character. Illustrations of research dishonesty include, but are not limited to, the following:

• False or misleading statements or publications concerning research data or results
• Intentional or reckless distortion or misinterpretation of research data or results
• Use of research methods which the researcher knows to be unreliable or which produce erroneous results, unless appropriately explained in publications and reports of the research
• Release of research data or scholarly efforts of other persons, and representing them as one’s own or failing to give appropriate credit to their sources
• Misuse of the work of others or misrepresentation of authorship as that of the student

The Supervisory Committee

The supervisory committee consists of three full-time, regular members of the UMKC History Department who are also members of the graduate faculty, with the student’s faculty advisor serving as chair of this committee.

• For non-thesis students, the supervisory committee will ordinarily serve as the final examining committee. In consultation with the supervisory committee, the student should select fields for examination.
• For thesis students, the supervisory committee will serve as the readers for the thesis.

With the approval of the faculty advisor:
• One member of the committee may be a full-time, regular member of another UMKC department so long as that person is also a member of the graduate faculty.
• A fourth member may be added to the committee from the adjunct graduate faculty or from the graduate faculty of another institution.

Students tracking their studies towards Microhistory or Public History are required to have at least one member of the faculty whose scholarship involves the appropriate approach. Public-History students are permitted, and strongly encouraged, to include one or two members of the adjunct graduate history faculty on their committees who work professionally in the field of public history in the Kansas City region.

Honorary Organizations
The department sponsors a chapter of the national history honorary, Phi Alpha Theta. Admission into the honorary requires a 3.2 grade-point average in a minimum of 12 credits of graduate work. The honorary sponsors programs and lectures during the school year, and members are often invited to read papers at the regional conventions. Membership in Phi Alpha Theta is noted on each honoree’s official transcript.

Students should strongly consider membership in professional organizations for historians, such as the American Historical Association (http://www.historians.org) and others.

The Annual Graduate Student Conference
The History Department will host an annual Graduate Student Conference in the Spring Semester (typically the last week in April or the first week in May). Graduate students should plan to attend as required by the program. In it, students will

• demonstrate their expertise in a research agenda of their own creation,
• present their research to peers and faculty,
• comment constructively and critically on the research of others,
• engage critical questions in public, and
• celebrate their academic achievements that year.

At the conclusion to this conference, the faculty will present two student participants with the Carla Klausner Award for the Best Paper Presentation in History and the Lynda Payne Award for the Best Poster Presentation in History.

Interdisciplinary Ph.D. in History
History is an academic discipline eligible for full participation in UMKC’s Interdisciplinary Ph.D. Program. Students interested in this study should review the School of Graduate Studies section for general and discipline-specific admission criteria, academic regulations, and degree requirements. Interested students should contact the department’s doctoral program advisor, Diane Mutti Burke Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=burke).

Program Description
The UMKC Honors Program seeks to attract exceptionally motivated and academically talented undergraduates from every school and college at the University to participate in an environment that encourages excellence and challenges students to realize their greatest potential.
The UMKC Honors Program is designed to enrich the college experience of the most outstanding students through the integration of traditional and novel approaches to learning from the behavioral and social sciences, the humanities, the hard sciences and other divisions of the University.

**Honors Credit**

In order to accomplish these goals, all honors students have the opportunity to enroll in honors seminars and a weekly interdisciplinary Colloquium taught by some of the best faculty on campus. Colloquium allows honors students to meet on a regular basis to discuss and debate important issues. Students follow a different theme each semester, selected based on faculty and student research interests. In Colloquium, all the honors students, freshmen and seniors alike, meet with UMKC faculty and distinguished guest lecturers to study and discuss subjects ranging from the environment to religion, from the fine arts to sports.

Honors credit may also be received from:

- Specially designed honors seminars
- Independent study
- Undergraduate research
- Honors contracts
- Honors discussion groups
- Senior Honors Thesis
- Study Abroad

Honors students are encouraged and supported in the conduct of research and the publication and presentation of their work regionally and nationally. As seniors, honors students have the option to complete a six-credit-hour project, the Senior Honors Thesis. Upon graduation, those who complete an honors thesis in addition to the basic honors requirements are designated as Honors Scholars.

**Program Initiatives**

UMKC offers a supportive atmosphere to encourage integrative thinking through an exciting Living/Learning Community and specialized advising with Honors Faculty Fellows. Leadership skills are honed through special institutes and unique seminars where students reflect on and analyze their community-service experiences. Finally, with an eye toward giving students a leg up on their graduate school and career goals, honors students are strongly encouraged to conduct innovative individual and collaborative research or artistic activity in the form of the Senior Honors Thesis.

Some of the other advantages that the UMKC Honors Program offers students include:

- Priority enrollment during registration.
- Specially designated general education courses for honors students.
- Tickets to all UMKC Theatre productions.
- Graduate-level borrowing privileges at Miller Nichols Library.
- Individual advising to prepare honors students to compete for national scholarships (i.e., Rhodes, Marshall, Truman and Goldwater).

**Admission to the Honors Program**

To be considered for admission, a first-year student should:

1. Score in the top 10 percent on the ACT or SAT
2. Rank in the top 10 percent of their high school class

Students not meeting these criteria may apply for admission to the Honors Program and will be given consideration on a case by case basis. For incoming freshmen, a total of 28 hours of honors credit is required to receive a bachelor’s degree with general honors.

Transfer students generally need to meet at least one of the following criteria in addition to providing recommendations from two instructors:

- Fulfill those criteria set for first-year students
- Have a GPA of at least 3.7
- Have participated in their previous college’s Honors Program

Continuing UMKC students are encouraged to apply to the Honors Program. Minimum requirements for admission are a 3.5 UMKC grade-point average and the recommendation of two UMKC professors.

For transfer and continuing students, a total of 25 hours of honors credit is required if the student enters the Honors Program with more than 25 credits but less than 50, and a total of 21 hours of honors credit is required if the student enters the program with 50 or more credits.
The Honors Program application may be found at the Honors website http://cas.umkc.edu/honors. Applications for fall semester are accepted during the previous spring semester and are due by March 15. Late applications will be given consideration by the review committee. Applications for the spring semester are due by October 31.

Continued Participation in the Honors Program
Honors students are required to register for the Honors Colloquium at least three-fourths of the time they are enrolled in the UMKC Honors Program. Additionally, a minimum overall grade-point average of 3.2 is required for all honors students for continued participation in the Honors Program. Students whose overall grade-point average drops below a 3.2 have a one-semester grace period during which time they can remain in the Honors Program while they work on bringing their cumulative grade-point average above the 3.2 minimum. If, at the end of the grace period, the student’s grade-point average is still below a 3.2, the student will be dropped from the program.

Honors Certificate for Pharmacy Program Students
Honors Program students who are Pharmacy majors will be awarded an honors certificate of recognition upon successful completion of their undergraduate and Honors Program requirements. This certificate will serve as the equivalent of the honors notation for the baccalaureate diploma and transcript.

Honors Living/Learning Community
The UMKC Honors Program, in collaboration with the Department of Residential Life, sponsors the Honors Living/Learning Community. Located in UMKC’s Oak Street Hall, this community of honors students has the opportunity to live and learn together through cohort classes, special programs and events, informal interaction with UMKC faculty, social activities and community service. The program is designed to build cohesive community among the honors students, promote student and faculty engagement, and provide continuity of the intellectual learning experience outside of the classroom.

Lucerna, the Honors Program Undergraduate Journal
The Honors Program produces Lucerna, UMKC’s only research journal open to papers written by UMKC undergraduates. The honors students oversee all aspects of production of the journal, from soliciting submissions to publicity to editing the chosen papers. Lucerna is published annually.

Study Abroad
Members of the UMKC Honors Program are strongly encouraged to spend a summer, a semester, or a year studying in a foreign country. Taking classes and living abroad is one of the most personally and intellectually fulfilling experiences a student can have while an undergraduate. The Honors Program organizes a summer study abroad program to either Uppsala, Sweden, or Cork, Ireland; however, in consultation with the Honors Director, students can earn honors credit by participating in any study abroad program. For more information on Study Abroad, see http://www.umkc.edu/international.

The Honors House
The Honors Program is pleased to invite all honors students to make use of the Honors House: 5317-19 Holmes, 3rd Floor. Members of the Program have free access to space where they can meet, study, and conduct discussion sessions.

SEARCH: Students Engaged in Artistic and Academic Research
Honors students completing the senior honors thesis or undergraduate research are encouraged to present their findings at the annual SEARCH Symposium for Research and Creative Achievements. The purpose of this symposium is to display and celebrate undergraduate participation in outstanding research and other creative endeavors. Presentations may be in the form of poster presentations or other performance media displaying creative works. For more information, see the SEARCH website.

Latina/Latino Studies

Latina/Latino Studies program
Haag Hall (http://www.umkc.edu/virtualtour/haag-hall.asp), Room 204

University of Missouri-Kansas City
Latina/Latino Studies
Haag Hall 204
Program Description:

The mission of Latina/Latino Studies (LLS), a program based in the College of Arts and Sciences, is to function as a vehicle for interdisciplinary and multidisciplinary teaching, research and outreach focusing on Latinas/os-Chicanas/os in the U.S. The LLS program will provide an awareness and understanding of the wide diversity of Latino communities, cultures and backgrounds. The development and expansion of our curricula will serve to empower our students with the concepts and skills to better understand a rapidly growing Latina/o population. The LLS program will engage students, scholars and the greater Kansas City community in collaborative projects, programs and service learning efforts. These efforts will foster new curricula and advance research and outreach scholarship to create new knowledge to better understand the cultural, economic, and historical experiences and contributions of U.S. Latinas/os-Chicanas/os and their diasporic origins.

Program Activities:

• Provide all UMKC students with critical understanding of the historical, political and social context in which Latino/Chicano communities have evolved and continue to be established in the U.S., with particular attention to the greater Kansas City metropolitan area and the Midwest region. Crucial to this goal is the understanding of the transnational nature of these community ties.
• Provide access to a quality education for Latina/o students and other students interested in Latina/o-Chicana/o Studies and at the same time enhance diversity on the campus.
• Strengthen ties with UMKC Latina/o alumni
• Engage other area Latina/o professionals in LLS activities
• Strengthen ties between the UMKC and the Latino community.
• Establish UMKC as a center of teaching, learning and research on Latino/Chicano populations.
• Establish and/or strengthen alliances with local Latina/o community organizations, e.g. Guadalupe Center (KCMO), El Centro (KCK), Dos Mundos, KC Hispanic News, Mattie Rhodes Art and Counseling Center, The Mexican Consulate, Latino Writers Collective
• Create alliances/connections with local non-Latina/o organizations, e.g. Nelson-Atkins Art Museum, Kauffman Center for the Performing Arts, Kansas City Public Libraries and Kansas City Museum

Latino/Latina Studies Minor

The minor in Latina/Latino Studies is comprised of 18 hours. Nine (9) credit hours must be in upper division (300 or 400) level courses. A minimum of nine (9) of the 18 hours are required in Latina/Latino Studies.

• Our core gateway course - LLS 201 Introduction to Latina/o Studies (3 s.h.) is required for the minor.
• The remaining minimum of six (6) hours in Latina/Latino Studies may be taken from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LLS 210</td>
<td>Crossing Boundaries: The Latina/o Immigrant Experience</td>
<td>3</td>
</tr>
<tr>
<td>LLS 300</td>
<td>Special Topics in Latina/Latino Studies</td>
<td>3</td>
</tr>
<tr>
<td>LLS 310</td>
<td>The World of Latino Youth and Adolescents in the U.S.</td>
<td>3</td>
</tr>
</tbody>
</table>
LLS 380 Introduction to Latina/Latino Literature 3
LLS 397 Independent Readings in Latina/Latino Studies 1-3
LLS 400 Special Topics in Latina/Latino Studies 1-3

- A maximum of six (6) hours may count for the minor from the following Arts and Humanities courses:
  ART-HIST 443 Meso-American Art 3
  SPANISH 365 The Search For Mexican Identity 3
  SPANISH 415 Advanced Conversation And Composition I 3
  SPANISH 460 U.S.-Latino Literature 3

- A maximum of six (6) hours may count for the minor from the following Social Science courses:
  GEOG 342 Geography of Mexico, Central America and the Caribbean 3
  HISTORY 406 Modern Latin America 3
  SOCIOL 348 Latin American Immigrants & Refugees in the U.S. 3

Judaic Studies

The Department of History (http://cas.umkc.edu/history) is a major participant in the Judaic Studies Minor and Concentration.

For a minor in Judaic Studies, students must complete a minimum of 18 hours of coursework. These courses should include:

  HISTORY 475WI The History of Ancient Israel 3
  HISTORY 476 Medieval Jewish History 3
  HISTORY 477 Modern Jewish History 3

In addition, students should take several semesters of Hebrew language. The remaining credits may consist of electives approved by the Interim Judaic Studies advisor.

For a concentration in Judaic Studies, a student must complete 15 hours of coursework that includes the History courses listed above. Those pursuing the concentration are also encouraged to include study of the Hebrew language.

For further information, contact Dr. Carla Klausner Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=klausner), Professor of History and Interim Director of Judaic Studies. Judaic Studies Minor and Concentration

Program Description

The College of Arts and Sciences offers the bachelor of liberal arts (B.L.A.) degree for individuals who seek scientific literacy, an understanding of the social sciences and an appreciation of the humanities. The B.L.A. is an alternative to the B.A./B.S. degree programs and is for individuals who do not wish to commit themselves to a specialty, whose aspirations are not served by a traditional major, and who desire maximum flexibility in course selection.

Students who have found the B.L.A. degree particularly beneficial are those who have matriculated into the six-year medical program and pursue the combined B.L.A./M.D. degrees and those students wishing to apply to the UMKC School of Law through the Early Entry Law Program.

The BLA degree can also be earned by students in the online degree completion program in the College of Arts and Sciences. This option allows students with at least 80 hours of applicable college credit to complete the Bachelor of Liberal Arts (BLA) degree at UMKC through a series of online courses. These courses, which include offerings from the humanities, the social sciences, and the natural sciences, align with the mission of UMKC and cover issues of contemporary concern. For more information, see the web pages for the BLA Online Degree Completion program (http://cas.umkc.edu/blaonline/).

The B.L.A. degree can also be earned through the Program for Adult College Education, PACE. This program makes it possible for individuals with full-time work or home responsibilities to complete a baccalaureate degree in a reasonable time by attending class in the evenings and on weekends, by registering for the corresponding independent study courses, by connecting to online courses via the Internet, and through approved internships. For a detailed description of this program, see the Program for Adult College Education (PACE) (p. 198) section in the program listings under the College’s section of the catalog.

Black Studies Emphasis Area (p. 53)

Potential for Graduate Study

Students completing the B.L.A. degree have the potential to pursue graduate study in many areas. One option is the Master of Arts in Liberal Studies, a master’s degree similar in structure to the B.L.A., which continues the tradition of interdisciplinary work in the College at the intermediate level between baccalaureate and doctoral work. Students completing the B.L.A. degree who wish to continue their education at the graduate level are strongly encouraged to seek counsel from a graduate adviser in that discipline early in their undergraduate career.

Student Learning Outcomes

1. Students will be able to identify and articulate scholarly questions based on evidence and approaches from more than one disciplinary area.
2. Students will be able to demonstrate the ability to gather and organize scholarly literature and raw data needed to answer scholarly questions.
3. Students will be able to demonstrate the ability to analyze and evaluate scholarly literature and raw data to answer scholarly questions.
4. Students will be able to effectively communicate the results of their work via either expository rhetoric or a creative work to an audience that does not specialize in their area of study or share their disciplinary perspective.
5. Students will be able to effectively craft their program of study for intellectual and professional purposes as the foundation for life-long learning.
Program Requirements

Curriculum Degree Requirements

Hour Requirements and Eligibility

A 2.0 GPA is required to declare intent to pursue the B.L.A. and a 2.0 overall GPA is required by the University of Missouri for graduation.

A minimum of 120 hours is required for graduation. At least 36 of the total hours must be at the junior/senior (300-400) level at the University of Missouri - Kansas City.

The credit/non-credit option is not available for students pursuing this degree.

Area Requirements and Limitations Applicable to This Degree

The B.L.A. degree is separated into three divisions:

- Humanities
- Natural Sciences/Math
- Social Sciences

At least 18 hours must be earned from each division above; however, no more than 60 hours from any one division may be applied toward the B.L.A. degree. Additionally, coursework must be taken from at least two departments in each division.

Students should note that some departments within the College of Arts and Sciences (for example, geosciences and history departments) offer coursework that can be applied to more than one division. Students should consult with an adviser in selecting coursework to ensure that they receive proper credit in the various divisions required for the degree.

Minor Requirement

Students must complete a minor offered by an interdisciplinary program or department in the University or an MDHE approved emphasis area. Students will work with the faculty adviser corresponding to the selected minor or emphasis area. Black Studies is currently the only MDHE approved emphasis area for the B.L.A.

General Education Requirements

In addition to the above listed requirements for the B.L.A. degree, students must also complete the general education requirements for the University and the College of Arts and Sciences. Refer to the general education section of the catalog for complete information about these course requirements.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Master of Arts in Liberal Studies

Program Description

The Master of Arts in Liberal Studies (MALS) degree program enables individuals to pursue interdisciplinary studies at the graduate level. Courses provide participants the opportunity to extend the best experiences of baccalaureate liberal education to the graduate level.

Students admitted to the program will be encouraged to select one of the graduate certificate programs or informal focus areas listed below and will develop a program of study with the cooperation of the assigned advisor.

- Bioethics (graduate certificate)
- Black Studies (graduate certificate or informal focus area)
- Film and Media Studies (informal focus area)
- Gerontology (graduate certificate)
- Holocaust Studies (graduate certificate)
- Humanities Consortium (informal focus area)
- Medieval and Early Modern Studies (graduate certificate)
- Public Humanities (informal focus area)
Teaching Writing (graduate certificate)
Women’s and Gender Studies (informal focus area)

Alternatively, students with a strong interest in a different interdisciplinary area of study within the College of Arts and Sciences may submit a statement indicating interest in designing an individualized plan of study. In order to ensure that courses to support a proposed individualized plan of study are available at UMKC, students who want to pursue this option should suggest a list of courses offered in the College of Arts and Sciences that could contribute to their desired area of study. Students wishing to pursue this option should contact the MALS advisor for assistance developing this list of courses.

Student diplomas will list the degree as a Master of Arts in Liberal Studies. The subject field of approved graduate certificates will be designated on a student transcript. Students pursuing informal focus areas with the Master of Arts in Liberal Studies will not have these subject designations on their transcript.

The end result of each participant’s matriculation should be a challenging experience that samples the richness of literature, the fine arts, history and those principles of the social and natural sciences that affect our lives.

Admission to the Program

Individuals admitted to the program must have a baccalaureate or equivalent degree and mature academic interests. A minimum undergraduate 3.25 GPA is desirable but can be offset by professional and career accomplishments outside academe.

Individuals applying for admission should submit, in addition to the UMKC application, the following documents:

- a statement of purpose in the form of a personal essay of approximately 1,000 words outlining the focus area the applicant wishes to pursue, his or her reasons for applying, and his or her academic plans and goals. Any applicant who does not choose one of the specific certificate programs or focus areas listed for the MALS program should also include a statement indicating interest in designing an individualized plan of study. Such a statement should indicate the proposed area of study and a list of courses offered in the College of Arts and Sciences that would contribute to the area of study.
- a sample of recent academic writing
- 3 letters of recommendation

These documents (except the UMKC application) should be sent directly to the Master of Arts in Liberal Studies Program. They can be sent as Word documents or PDFs attached to an email to carothersm@umkc.edu or in print form to Ms. Marsha Carothers, Research Associate, MALS Program, Cockefair Hall 106, UMKC, 5100 Rockhill Road, Kansas City, MO 64110.

Prior to submitting an application, prospective students should speak with the program advisor or a member of the faculty who works in their chosen focus area.

The priority deadline to apply for Fall Semester is March 1. The final deadline to apply for Fall Semester is August 1. The deadline to apply for Spring Semester is November 1.

Student Learning Outcomes

1. Students will be able to identify and articulate scholarly problems and questions based on evidence and approaches from more than one disciplinary area at an advanced level.
2. Students will be able to gather and organize the primary source materials and raw data needed to answer these questions at an advanced level.
3. Students will be able to analyze relevant primary source materials and raw data to create a coherent answer to a scholarly problem or question at an advanced level.
4. Students will be able to critically appraise scholarly conversations in multiple fields, create a coherent interpretation, and take a critical position in these debates.
5. Students will be able to effectively communicate, at an advanced level, the results of their work via either expository prose or a creative work to an audience that does not specialize in their area of study or share their disciplinary perspective.

Requirements for Completion of the Degree

The degree is a 36 credit hour program. Generally, each participant’s plan of study will consist of three parts.

Program participants begin by enrolling in A&S 5509. On completion of this required three hour introductory seminar, participants earn 30 credit hours based on the study plan associated with their graduate certificate program, informal focus area, or their individual study plan. At the conclusion of the program, individuals enroll in a required three hour capstone seminar, A&S 5520.

Please consult the MALS website at cas.umkc.edu/MALS for advising worksheets for each of the graduate certificate programs and informal focus areas that can be pursued in conjunction with the MALS.
A written thesis is not required, but individuals who wish to complete a thesis project may apply three credit hours toward their degree requirements. An individual who works well independently and who has a particular interest that lends itself to detailed research is especially encouraged to consider the thesis option. With the thesis option, the participant will select a faculty advisor other than the director of the program, who will direct the plan of study and research.

Two courses (6 hours) may be taken from another school at the university outside of The College of Arts and Sciences. No more than 12 hours at the 400 level (or 300 level when permitted by the department) can be applied to the plan of study.

**Relationship of the MALS to Interdisciplinary Doctoral Degrees**

The College of Arts and Sciences has a strong tradition of interdisciplinary studies at both the baccalaureate and doctoral levels.

The Master of Arts in Liberal Studies degree continues the tradition of interdisciplinary work in the college at the intermediate level between baccalaureate and doctoral work. In a few cases, students completing this degree may find the transition to doctoral work as the appropriate next step. However, students should recognize that the degree is not designed to provide students in the program with specific subject skills usually associated with targeted career objectives in traditional research areas.

Students interested in coordinating their M.A. in Liberal Studies coursework with future doctoral work at UMKC are strongly encouraged to make this intent known at the outset of their work. Without initial planning conducted with a committee of doctoral faculty, a student’s master’s coursework may not be appropriate to later doctoral studies.

**Student Learning Outcomes**

**MALS Student Learning Outcomes**

1. Students will be able to identify and articulate scholarly problems and questions based on evidence and approaches from more than one disciplinary area at an advanced level.
2. Students will be able to gather and organize the primary source materials and raw data needed to answer these questions at an advanced level.
3. Students will be able to analyze relevant primary source materials and raw data to create a coherent answer to a scholarly problem or question at an advanced level.
4. Students will be able to critically appraise scholarly conversations in multiple fields, create a coherent interpretation, and take a critical position in these debates.
5. Students will be able to effectively communicate, at an advanced level, the results of their work via either expository prose or a creative work to an audience that does not specialize in their area of study or share their disciplinary perspective.

Department Description
The Department of Mathematics and Statistics (http://cas.umkc.edu/math) offers coursework leading to the Bachelor of Arts and Bachelor of Science degrees in Mathematics. At the graduate level, the department offers a Master of Science degree in Mathematics and a Master of Science degree in Statistics, and participates in the UMKC School of Graduate Studies Interdisciplinary Ph.D. program. Qualified students can select Mathematics as the coordinating unit or a co-discipline when applying for admission or preparing their plans of study. See the School of Graduate Studies (p. 523) section in the Graduate Catalog for more information about the Ph.D. program.

These programs are designed to develop the student’s own knowledge of mathematics or statistics, and to provide the tools and understanding necessary for the study of other scientific and quantitative fields.

The Department of Mathematics and Statistics has an institutional membership in the American Mathematical Society.

Advising System
Advising is on an individual basis with senior mathematics faculty members. Appointments for advising may be made by contacting the department, the undergraduate advisor, the principal graduate advisor, or the interdisciplinary Ph.D. coordinator.

Library Resources
In addition to the Miller Nichols Library, the department has full access to the holdings and services of the Linda Hall Library of Science and Technology (http://www.lindahall.org), a privately endowed institution of international prominence. The Linda Hall Library subscribes to more than 700 mathematics journals and maintains a large and growing collection of mathematics books.

Liana Sega Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=sega); associate professor of mathematics; B.S. (University of Bucharest, Romania); Ph.D. (Purdue University).

David Spade Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=spade); assistant professor of statistics; Ph.D. (Ohio State University).

Naveen Vaidya Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vaidya); assistant professor of mathematics; Ph.D. (York University, Canada).

Stephanie Van Rhein Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vanrhein); lecturer in mathematics; B.S., M.S. (Missouri University of Science and Technology).

Hristo D. Voulov Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=voulov); associate professor of mathematics; M.S., Ph.D. (Sofia University, Bulgaria).

Brent Wilson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wilson); lecturer in mathematics; M.S. (University of Missouri-Kansas City)

Yong Zeng Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=zeng); associate professor of statistics; B.S. (Fudan University, China); M.S. (University of Georgia); Ph.D. (University of Wisconsin - Madison).

1 Associate or Adjunct Graduate Faculty
2 Members of UMKC Graduate Faculty
3 Members of UMKC Doctoral Faculty
4 Located at UM-St. Louis campus

Undergraduate

Undergraduate Degrees:
• Bachelor of Arts in Mathematics and Statistics (p. 191)
• Bachelor of Science in Mathematics and Statistics (p. 192)
• Minor in Mathematics (p. 193)
• Teacher Certification in Mathematics (p. 193)

Graduate

Graduate Degrees:
• Master of Science in Mathematics/ Master of Science in Statistics (p. 194)
• Interdisciplinary Ph.D. in Mathematics (p. 195)

Bachelor of Arts in Mathematics and Statistics

Student Learning Outcomes

Students graduating with a B.A. degree in Mathematics and Statistics are expected to:

• Be able to read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
• Be able to reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
• Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.

Degree Requirements

For a B.A. degree in mathematics, students must satisfy the requirements of the College of Arts and Sciences and of the UMKC General Education Core curriculum, and complete the program described below.

Departmental Requirements

MATH 210  Calculus I (Focus B)  GE  4
MATH 220  Calculus II  4
MATH 250  Calculus III  4

Select a minimum of 21 hours of coursework in mathematics or statistics at the 300 level or above, including the following: 1

- MATH 300  Linear Algebra I
- MATH 402  Advanced Analysis I
- MATH 410  Modern Algebra
  or MATH 420  Linear Algebra II

Total Credits 33

1 At least four of the courses at the 300 level or above must be completed in the Department of Mathematics and Statistics at UMKC.

GE See http://www.umkc.edu/core/courses/

Suggested Plan of Study

Because of the diversity of acceptable programs available, a four-year plan of study is not suggested. Students are cautioned, however, that certain mathematics courses must be taken in the appropriate sequence. Students should consult with a department undergraduate advisor to plan a program of study.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science in Mathematics and Statistics

Student Learning Outcomes

Students graduating with a B.S. degree in Mathematics and Statistics are expected to:

• Be able to read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
• Be able to reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
• Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.

Degree Requirements

For a B.S. degree in mathematics, students must satisfy the requirements of The College of Arts and Sciences and of the UMKC General Education Core curriculum, and complete the program described below.

Departmental Requirements

MATH 210  Calculus I (Focus B)  GE  4
MATH 220  Calculus II  4
MATH 250  Calculus III  4
Select a minimum of 21 hours of coursework in mathematics or statistics at the 300 level or above, including the following:

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Minor in Mathematics

Student Learning Outcomes

Students graduating with a minor degree in Mathematics are expected to:

- Be able to read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
- Be able to reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
- Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.

Departmental requirements

A minor in mathematics may be obtained by completing a total of 20 hours of mathematics courses at the 200-level or above, including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>

<td>Three courses at the 300-level or above in the department</td>
<td>12</td>
</tr>
</tbody>
</table>

Total Credits: 20

GE: See http://www.umkc.edu/core/courses/

Teacher Certification in Mathematics

Student Learning Outcomes

Students graduating with a B.A. or B.S. degree in Mathematics and Statistics are expected to:
• Be able to read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
• Be able to reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
• Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.

Program Requirements
Certification as a middle school (grades 5-9) or secondary school (grades 9-12) Mathematics teacher in either Kansas or Missouri requires that a student complete specific requirements both in Mathematics and in the School of Education. A separate application for teacher education is required. For further information, consult the School of Education (p. 408) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Master of Science in Mathematics and Master of Science in Statistics
The department offers an M.S. degree in Mathematics and an M.S. degree in Statistics. The master’s program gives the students broad training in basic higher-level mathematics or statistics.

Student Learning Outcomes
Students graduating with an M.S. degree (in either Mathematics or Statistics) are expected to:

• Have a broad understanding of several branches of mathematics and how they are related. Be able to read and/or listen to documents and discussions having mathematical content, with an appropriate level of understanding, and exhibit a high level of mathematical literacy.
• Be able to clearly articulate mathematical information accurately and effectively, using a form, structure and style that suits the purpose, including written and face-to-face presentation.
• Be able to independently acquire further mathematical knowledge without guidance.
• Be prepared for entry into professional schools, doctoral programs, or the job market.

Degree Requirements
At least 30 credit hours of approved coursework in the department are required. At least 18 credit hours (of the 30 minimum total credits) must be at the 5500 level in the department. Courses numbered below 400 do not carry graduate credit for mathematics and statistics graduate students. Courses numbered at the 400 level will NOT be credited to the master’s degree if they were previously taken from UMKC or are equivalent (content wise) to courses previously taken from any other accredited colleges/universities for the undergraduate degree. Independent Reading courses (MATH 490 or MATH 5590 or STAT 5590) are not counted toward the degree unless approved by the department Graduate Program Committee prior to taking the course. (Normally, more than 3 credit hours of Independent Reading will not count toward the master’s degree, but in any case the department Graduate Program Committee will make the decision based on the student’s petition, which should clearly explain the need of counting such a course toward the master’s degree.)

In addition to the minimum 30 credit hours of course work, master’s degree seeking students are required to attend five Departmental Graduate Seminars per semester.

Master’s degree candidates are required to submit a Master Plan of Study Form prior to the completion of 15 credit hours of course work.

In the last semester before graduation, the student will make a presentation on a Master’s research project (based on either small scale original research or a research paper chosen from those published in relevant research journals). The presentation will be given in one of the department series of talks to an audience of faculty, students, and outside guests. This talk will be assessed by the Project Advisory Committee.

All master’s degree candidates must take six core courses (all at the 5500 level) in the selected area.

For the M.S. in Mathematics, those courses are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 5509</td>
<td>General Algebra I</td>
<td>3</td>

Interdisciplinary Ph.D. in Mathematics

Student Learning Objectives

Students are expected to:

- Have a broad understanding of several branches of mathematics and how they are related. Be able to read and/or listen to documents and discussions having mathematical content, with an appropriate level of understanding, and exhibit a high level of mathematical literacy.
- Be able to clearly articulate mathematical information accurately and effectively, using a form, structure and style that suits the purpose, including written and face-to-face presentation.
- Be able to independently acquire further mathematical knowledge without guidance.
- Be prepared for entry into professional schools, doctoral programs, or the job market.

Degree Requirements

UMKC offers an Interdisciplinary Ph.D. program. Students desiring to study at the doctoral level in mathematics must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific requirements appears in the School of Graduate Studies section of this catalog. For more details visit the department Web site: http://cas.umkc.edu/math.

Medieval and Early Modern Studies

Graduate Certificate in Medieval and Early Modern Studies (MEMS)

The Graduate Certificate in Medieval and Early Modern Studies (MEMS) (p. 195) offers students an interdisciplinary opportunity to focus their studies in early literatures, history, and culture (ca. 500-1500). The certificate not only benefits graduate students pursuing MA, MALS, MFA, and Interdisciplinary Ph.D. degrees in traditional fields, such as Art History, English, History, and Theatre but also provides an opportunity for education professionals to pursue further study in the pre-modern period as professional development and enhancement.

</tr>
</tbody>
</table>

Electives

Four three-hour graduate medieval or early modern courses

Total Credits 18
The Capstone Experience or Thesis could be a written academic thesis or another kind of project, as developed by the student and his/her committee.

The four elective courses must be distributed between at least two academic disciplines (e.g. English and History) and must include at least one three-credit medieval course and one three-credit early modern course.

Strongly recommended: Two Years College-level Proficiency in Latin

**Admission Process**

Applicants must be admitted to UMKC’s School of Graduate Studies and by a graduate program in the College of Arts and Sciences. Application materials can be obtained from SGS.

**Contact**

Dr. Virginia Blanton, Department of English blantonv@umkc.edu (816) 235-2766

Dr. Linda E. Mitchell, Department of History mitchelli@umkc.edu (816)235-2734

**List of Courses for the Graduate Certificate in Medieval and Early Modern Studies**

Courses in Medieval and Early Modern Studies are found primarily in the departments of the College of Arts and Sciences, but there is also an opportunity to collaborate with faculty members at the Conservatory of Music and Dance. The courses that would fulfill the requirements of the graduate certificate include graduate colloquia focusing on the pre-modern period, undergraduate/graduate hybrid courses (at the 300-400 level for undergrads and 5500 for graduates), special topics courses, directed readings courses with affiliated faculty, and independent studies courses with affiliated faculty. Courses appropriate to the program will be approved on a case-by-case basis.

**Military Science**

5322 Rockhill Road  
(816) 235-1152  
armyrotc@umkc.edu

**Mailing Address**  
University of Missouri-Kansas City  
Department of Military Science  
5100 Rockhill Road  
Kansas City, MO 64110-2499

**Assistant Professors:**  

**Program Description**  
The Army Reserve Officers Training Corps provides college-trained officers for the U.S. Army and Army Reserve. With the exception of a five-week paid summer camp, all instruction is presented on campus. Various field training exercises are conducted to further enrich students’ leadership skills.

A commission as a second lieutenant in the U.S. Army, Army Reserve or National Guard is awarded to individuals who have successfully completed the ROTC program and obtained a baccalaureate degree from UMKC. Currently, college graduates who are commissioned through ROTC are placed on either active duty, the reserves or National Guard duty, depending on their desires and on the needs of the service at the time of graduation. The length and type of obligation will depend on the scholarship awarded.

**Financial Assistance**  
Financial assistance is available through the U.S. Army Scholarship Program. Two-, three- and four-year scholarships are awarded each year to selected students who are enrolled or will enroll in the Army ROTC program. The scholarships provide payment of tuition, fees, textbooks and a monthly
tax-free payment of $200 for the duration of the scholarship, not to exceed 10 months for each year of the scholarship. These scholarships are available for both undergraduate and graduate students. Non-scholarship contracted cadets in the advanced portion of ROTC receive $200 each month, not to exceed 10 months per year for two years. Students are furnished free textbooks for military science classes.

The Simultaneous Membership Program (SMP) allows students to be a member of a National Guard or Reserve unit while enrolled in ROTC. Advanced course SMP students receive E5 pay, plus $200 per month from ROTC, plus any Active Duty GI Bill entitlement.

Curriculum

All students are eligible to take Military Science 100- and 200-level courses without any military obligation. However, Military Science 300- and 400-level courses are reserved for students who have a signed contract with ROTC to become an officer upon graduation.

Undergraduate

Undergraduate Program:

• Two-Year Instruction (p. 198)

Two-Year Instruction

ROTC instruction usually is presented over the four years of traditional full-time study. This also allows commissioning at the same time graduation requirements are met. However, a two-year program is available for students who were unable to take the first two years of instruction and want to earn a commission.

Program Description

The Program for Adult College Education (PACE) provides an alternative for students who have difficulty pursuing a bachelor's degree due to employment, family responsibilities or other obligations. PACE provides nontraditional course offerings and comprehensive student services support; tailored to the needs of adult students. Many PACE courses are presented in blocks, arranged by theme or issue. These courses are offered in a special weeknight, weekend and independent study format. There are also numerous Internet, web-assisted, first and second eight week courses.

PACE Academic Advising

The PACE program takes a highly personalized and comprehensive approach to the needs of nontraditional students. Students will work with a student services coordinator who will assist them from admissions, through the academic process, to graduation. Students can consult the Student Services Coordinator from the PACE Office, on nearly any issue which might impact their academic success. Students wishing to combine PACE coursework with other academic programs and degrees should consult the major field advisor as well as a PACE Student Services Coordinator/Advisor.

Undergraduate

Bachelor of Liberal Arts Degree (B.L.A.) with a Minor

The B.L.A. with a minor is the most popular degree offered through PACE. This degree program allows enhanced flexibility in selection of academic areas of study for students whose aspirations are not served by a traditional major. Research has shown that individuals with the breadth of knowledge and skills provided by a liberal arts education are in demand by employers. The B.L.A. provides:
• Broad knowledge and understanding of the natural sciences, social sciences, arts and humanities.
• Maximum flexibility in course selection.
• Critical thinking and problem-solving abilities.
• Personal satisfaction and self-esteem.
• Multicultural issues awareness.
• Ability to adapt and work as a team.
• Increased awareness of values and ethical questions.
• Interpersonal skills.
• Written and oral communication skills.

The B.L.A. with a minor is designed to allow all the advantages of a liberal arts education while providing students with an academic specialization. Minors earned in conjunction with the B.L.A. are reflected on official transcripts. Typically it is necessary for students pursuing a minor to take a required course outside of the PACE curriculum. However, select academic departments within the College of Arts and Sciences endeavor to offer their Minor requirements through PACE or as regular evening/online courses. Generally, 18 to 24 credit hours are required for a Minor. Before embarking on a BLA with a Minor through this program; students should consult with both a PACE and the respective departmental academic advisor. The following minors are recommended in conjunction with PACE course offerings:

• Black Studies
• Chemistry
• Commercial Economics
• Communication Studies
• Criminal Justice and Criminology
• Economics
• English
• Environmental Studies
• Family Studies
• Gerontology
• History
• Political Science
• Psychology
• Sociology
• Spanish
• Studio Art

Bachelor of Arts or Bachelor of Science Majors in Conjunction with PACE

Students can meet many of the B.A./B.S. general degree requirements through the PACE program and, in conjunction with designated disciplines, pursue a major. Degrees associated with an academic unit’s evening division or online courses are also recommended for this process. Students should refer to the requisite departmental requirements in the UMKC undergraduate catalog and consult a Department Advisor as well as a PACE Student Services Coordinator or Academic Advisor.

Graduate

Entry into Graduate/Professional Degree Programs and PACE

The PACE Program provides to students the ability to achieve rigorous academic preparation for graduate and professional degree programs. The B.L.A. is recognized as an appropriate degree for a number of graduate/professional programs at UMKC and elsewhere (e.g., Master of Arts in Liberal Studies, Accounting, Law, Education, Public Administration, Business Administration (MBA), Medicine and Health degrees). Many PACE students continue their studies in graduate degree programs.

James Sheppard (architecture, urban planning and design)

Assistant Professor:
Andrew Graham, Susanna Rinard

Undergraduate Advisor:
James Sheppard

Department Description
The Department of Philosophy offers a program of study leading to the bachelor of arts degree in philosophy. Courses are offered that develop critical and analytical skills, acquaint students with the history of philosophy and apply philosophy to issues of living.

Students who major in other disciplines can gain special insight into their majors with a philosophy minor. There is a focused minor on bioethics, targeted at students interested in the medical and health care professions.

Career Implications of the Degree
The dynamism of American economic life guarantees that change will be a constant, especially in employment – most people will change careers several times during their working lives. How can you prepare yourself for the inevitable challenges of your career? The most important traits that will serve you well in the Twenty First century are flexibility and discipline, the capacity to quickly assess and understand new environments, to recognize opportunities and the ability to deploy tools that will guarantee success. The study of philosophy will prepare you for the challenges of this evolving world. Studying philosophy provides you with the ability to read complex materials with care and comprehension, to write with clarity and economy and to express your ideas forcefully and succinctly. If you are interested in honing the skills that will allow you to succeed in any endeavor requiring focused thought, if you recognize that the best way to prepare for the challenging world of our knowledge-based economy is to hone your mind and sharpen your intellect, then philosophy is the major for you.

Advising System
Although all faculty members of the department are available for student advising, the department has an undergraduate advisor to whom questions about the philosophy program should be directed.

Special Services
The Philosophy Department is committed to having a strong student community, and has a very active Honors Society, Phi Sigma Tau. Events include everything from inviting guest speakers, movie nights, reading/discussion groups (both with and without faculty members) to socializing, and are open to anyone interested in philosophy. Students are highly encouraged to be active participants in both Phi Sigma Tau and departmental life in general.

Scholarly Presentations
Many visiting philosophers present scholarly papers to the Philosophy Department during the academic year. In addition, organizations such as the Kansas City Area Philosophical Association, the Central States Philosophical Association and other professional societies occasionally meet in Kansas City. Students are cordially invited to attend these activities.

Faculty
Bruce Bubacz Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=bubacz); curators’ professor of philosophy and professor of law; B.A. (Ripon College); M.S., Ph.D. (University of Washington-Seattle).
Henry R. Frankel Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=frankel); professor emeritus of philosophy; A.B. (Oberlin College); Ph.D. (Ohio State University).

George D. Gale, Jr. 2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=gale); Olson professor emeritus of philosophy; B.A. (University of Santa Clara); M.A. (San Francisco State University); Ph.D. (University of California-Davis).

Andrew Graham Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=graham); assistant professor of philosophy; B.A. (Acadia University); Ph.D. (Massachusetts Institute of Technology).

Clancy W. Martin 2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=martin); chair, department of philosophy; professor of philosophy; B.A. (Baylor University); Ph.D. (University of Texas at Austin).

Susanna Rinard Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=rinard); assistant professor of philosophy; B.A. (Stanford University); Ph.D. (Massachusetts Institute of Technology).

James Sheppard 2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=sheppard); assistant professor of philosophy; B.A. (University of Wisconsin-Eauclaire); M.A. (Michigan State University); Ph.D. (Binghamton University).

Undergraduate

Undergraduate Degrees:

• Bachelor of Arts: Philosophy (p. 201)
• Minor in Philosophy (p. 202)
• Minor in Bioethics and Medical Humanities (p. 202)

Bachelor of Arts: Philosophy

Student Learning Outcomes

Students graduating with a baccalaureate degree in philosophy will:

• Have an understanding of the central figures and themes in the history of philosophy.
• Possess the critical reasoning skills necessary to effectively analyze and critique abstract concepts and arguments.
• Be able to develop and defend philosophical arguments, both orally and in writing.
• Be able to apply critical reasoning skills in a wide range of career settings.

Degree Requirements

Philosophy majors are required to complete 30 credit hours of philosophy coursework. Required courses include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHILOS 210</td>
<td>Introduction to Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 222</td>
<td>Foundations Of Logic and Scientific Reasoning</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 310WI</td>
<td>Ancient Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 320WI</td>
<td>History of Modern Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 321</td>
<td>Ethics</td>
<td>3</td>
</tr>
</tbody>
</table>

No more than nine credit hours of the 30 required hours may be at the 100- or 200-level. To graduate with a major in philosophy, students must pass all courses included in the 30 credit hours required for the degree with a grade of C or higher. This requirement also applies to transfer courses.
Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps ([http://www.umkc.edu/majormaps](http://www.umkc.edu/majormaps)) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System ([http://www.umkc.edu/registrar/majors-degrees/dars.asp](http://www.umkc.edu/registrar/majors-degrees/dars.asp)) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Minor Bioethics and Medical Humanities

Requirements for the Minor

Students wishing to complete the interdisciplinary minor in Bioethics and Medical Humanities must complete 18 hours of coursework. Students will be required to take PHILOS 221 or PHILOS 321, one course in the History of Medicine (e.g. HISTORY 412B, HISTORY 428A, HISTORY 428B, OR CLASSICS 391WI) and at least one course in Bioethics (PHILOS 451, PHILOS 452, or PHILOS 453). They must also complete 9 additional elective hours of 300/400 level courses in bioethics and medical humanities from the approved course list or as approved by the program director. Students must receive a C or better in all coursework applied toward the minor. Students can combine a minor in Bioethics and Medical Humanities in conjunction with any other major or as part of the BLA.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHILOS 221</td>
<td>Contemporary Moral Issues</td>
<td>3</td>
</tr>
<tr>
<td>or PHILOS 321</td>
<td>Ethics</td>
<td></td>
</tr>
<tr>
<td>Select one course in the History of Medicine, for example:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>HISTORY 412B</td>
<td>The Black Death and Late Medieval Society</td>
<td>3</td>
</tr>
<tr>
<td>HISTORY 428A</td>
<td>History Of The Body</td>
<td></td>
</tr>
<tr>
<td>HISTORY 428B</td>
<td>Gender &amp; Medicine: Patients &amp; Practitioners From Antiquity to Present</td>
<td></td>
</tr>
<tr>
<td>CLASSICS 391WI</td>
<td>Ancient Greek and Roman Medicine</td>
<td></td>
</tr>
<tr>
<td>Select at least one course in Bioethics:</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>PHILOS 451</td>
<td>History and Philosophy of Bioethics</td>
<td></td>
</tr>
<tr>
<td>PHILOS 452</td>
<td>Healthcare Law and Policy</td>
<td></td>
</tr>
<tr>
<td>PHILOS 453</td>
<td>Clinical Ethics and Case Consultation</td>
<td></td>
</tr>
<tr>
<td>300/400 level elective courses in bioethics and medical humanities</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>18</td>
</tr>
</tbody>
</table>

1. From the approved course list or as approved by the program director.

Minor in Philosophy

Student Learning Outcomes

Students graduating with a minor in philosophy will:

- Have an understanding of the central figures and themes in the history of philosophy.
- Possess the critical reasoning skills necessary to effectively analyze and critique abstract concepts and arguments.
- Be able to develop and defend philosophical arguments, both orally and in writing.
- Be able to apply critical reasoning skills in a wide range of career settings.

Requirements for the Minor

Philosophy minors are required to complete a total of 18 credit hours, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHILOS 210</td>
<td>Introduction to Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>or PHILOS 222</td>
<td>Foundations Of Logic and Scientific Reasoning</td>
<td></td>
</tr>
<tr>
<td>PHILOS 310WI</td>
<td>Ancient Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>PHILOS 320WI</td>
<td>History of Modern Philosophy</td>
<td>3</td>
</tr>
<tr>
<td>Any 300- or 400-level philosophy courses</td>
<td>9</td>
<td></td>
</tr>
<tr>
<td>Total Credits</td>
<td></td>
<td>18</td>
</tr>
</tbody>
</table>
Students must achieve a grade of C or better in a course for it to count toward the minor. Students can work with the departmental advisor to tailor focused minors that coordinate with their major.

**Department of Physics and Astronomy**

**Welcome**

These catalog pages are here to guide you regarding the central facts of the degree programs offered by the Department of Physics and Astronomy. To learn about the student activities, faculty members, research programs, resources, and culture of the Department of Physics and Astronomy, please visit our Departmental Web Site (http://cas.umkc.edu/physics).

**Degree Programs**

**Undergraduate**

The Department of Physics and Astronomy offers programs of study leading to the Bachelor of Arts (BA) and Bachelor of Science (BS). The Physics BS degree may be taken with an Emphasis in Astronomy. Through coordination with the School of Computing and Engineering, a program of study can be designed for motivated students that results in a Physics BS and an Electrical & Computer Engineering BS double degree within five years. The department also offers minors in Physics or Astronomy and provides courses for students in the School of Education to meet the requirements for Teacher Certification in Physics.

**Graduate**

The Department of Physics and Astronomy offers a Master of Science (MS) degree in Physics with thesis and non-thesis options through the College of Arts and Sciences. The Department of Physics is an academic discipline that is eligible for full participation in UMKC’s Interdisciplinary Ph.D. (IPhD) program. Qualified students may select Physics as their coordinating unit or co-discipline when applying for admission or preparing their IPhD plan of study. (Visit the School of Graduate Studies (Catalog (p. 480), Web (http://sgs.umkc.edu)) for details about the IPhD program.)

**Student Support**

**Advising System**

Students who wish to major or minor in Physics should seek the advice of the undergraduate advisor, Professor Fred Leibsle (leibslef@umkc.edu).

Students who wish to minor in Astronomy or pursue the Physics BS with an Emphasis in Astronomy should seek the advice of the undergraduate advisor for astronomy, Professor Dan McIntosh (mcintoshdh@umkc.edu).

Students who wish to pursue graduate studies (MS / IPhD) should seek the advice of the graduate advisor, Professor Anthony Caruso (carusoan@umkc.edu).

**Tutoring**

Tutoring is freely available for undergraduate students taking courses from the department. The tutoring room is #259, Flarsheim Hall. Ask your instructor for the tutoring schedule.

Physics & Astronomy Faculty

Department Chair:
Jerzy M. Wrobel

Undergraduate Advisor (Physics):
Fred M. Leibsle

Undergraduate Advisor (Astronomy):
Daniel H. McIntosh

Graduate Advisor:
Anthony N. Caruso

Curators’ Professors:
Wai-Yim Ching, Michael B. Kruger

Professors:
Jerzy M. Wrobel (chair), Da-Ming Zhu

Associate Professors:
Anthony N. Caruso, Fred M. Leibsle, Elizabeth P. Stoddard

Assistant Professors:
Mark Brodwin, Daniel H. McIntosh, Paul M. Rulis

Assistant Teaching Professor:
Robert C. Riggs

Professors Emeriti:
Paul J. Bryant, Richard D. Murphy, Marvin R. Querry (Curators’ Professor), George A. Russell (President Emeritus, University of Missouri), John R. Urani

Associate Professors Emeriti:
James R. Beacham, Richard C. Waring

James R. Beacham; associate professor emeritus of physics; B.S., M.S., Ph.D. (Purdue University).

Mark Brodwin Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=brodwin); assistant professor of physics; B.S. (McGill University); M.S., Ph.D. (University of Toronto).

Paul J. Bryant; professor emeritus of physics; B.S. (Rockhurst College); M.S., Ph.D. (St. Louis University).

Anthony Caruso Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=caruso); associate professor of physics; B.A. (Bethany College); M.S., Ph.D. (University of Nebraska).

Wai-Yim Ching Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ching); curators’ professor of physics; B.S. (University of Hong Kong); M.S., Ph.D. (Louisiana State University).

Y. C. Jerry Jean Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jean); professor of chemistry and physics; B.S. (Taipei Institute of Technology Taiwan); Ph.D. (Marquette University).

Michael B. Kruger Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=kruger); chair, department of physics, and curators’ professor of physics; B.S. (State University of New York-Stony Brook); Ph.D. (University of California-Berkeley).

Fred M. Leibsle Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=leibsle); associate professor of physics; B.S. (University of Wisconsin); Ph.D. (University of Illinois).

Daniel H. McIntosh Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mcintosh); assistant professor of physics; B.S. (University of California, LA); Ph.D. (University of Arizona).
Undergraduate Admissions

There are no special prerequisites for beginning either the Bachelor of Arts (BA) or the Bachelor of Science (BS) degree programs in Physics. High-school physics and a good working knowledge of algebra and arithmetic are desirable for entering the BS program. However, any deficiencies may be overcome by taking the appropriate coursework. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for physics (Professor Fred Leibsle, leibslef@umkc.edu) or the undergraduate advisor for astronomy (Professor Dan McIntosh, mcintoshdh@umkc.edu) before beginning the major.

Students that are interested in pursuing Teacher Certification in Physics should contact the School of Education (Catalog (p. 408), Web (http://education.umkc.edu)) for admissions and advising.

Undergraduate Degrees

- Bachelor of Science: Physics (p. 206)
- Bachelor of Science: Physics with an Emphasis in Astronomy (p. 207)
- Bachelor of Science: Physics and Electrical & Computer Engineering Double Degree (p. 208)
- Bachelor of Arts: Physics (p. 208)
- Physics Minor (p. 209)
- Astronomy Minor (p. 210)
- Teacher Certification in Physics (p. 214)

Career Implications of the Bachelor’s Degree in Physics

The BS/BA degree is recommended for students interested in seeking employment in any organization that requires a strong science or technology background. Graduates with a physics degree who enter fields other than science and technology generally find that the reasoning skills and quantitative problem-solving strategies that are developed in a physics program will help their career advancement.

Students that earn a BS degree in Physics are well positioned for continuing their education in graduate school and professional/medical school while those attaining a BS or BA degree in Physics are well positioned for entering the job market in virtually any field of endeavor. There are many career opportunities for holders of either the BS or BA degree in Physics including such possibilities as: researcher in a government/corporate lab, engineer
Graduate

Graduate Degrees:

- Master of Science in Physics (p. 211)
- Interdisciplinary Ph.D. Program in Physics (School of Graduate Studies Catalog Section) (p. 536)

Bachelor of Science: Physics

Description of the Bachelor of Science Program

The Bachelor of Science (BS) degree in Physics is recommended for students interested in seeking employment in industrial, governmental, or private organizations that require a strong scientific background and for those students that are seeking to continue their academic careers in either graduate school or professional/medical school.

Physics advising questions should be directed to Professor Fred Leibsle (leibslef@umkc.edu).

Student Learning Outcomes

Students graduating with a BS degree in Physics will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Students graduating with a BS degree in Physics will be prepared for entry into professional schools, graduate programs, or the job market for career employment.

Course Requirements for the Physics BS Program

In addition to the below requirements, any other requirements set by The College of Arts and Sciences and The University must be satisfied.

Formulating a Plan of Study

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for physics (Professor Fred Leibsle, leibslef@umkc.edu) before beginning the major.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science: Emphasis in Astronomy

Description of the Bachelor of Science Program with an Emphasis in Astronomy

The Bachelor of Science (BS) degree in Physics with an Emphasis in Astronomy is recommended for students that are seeking to continue their academic careers in graduate school or for those that are interested in seeking career employment in industrial, governmental, or private organizations that require a strong scientific background.

Astronomy advising questions should be directed to Professor Daniel McIntosh (McIntoshDH@umkc.edu).

Student Learning Outcomes

Students graduating with a BS degree in Physics with an Emphasis in Astronomy will:

• Have a functional knowledge of the basic areas of astronomy, astrophysics, and physics.
• Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
• Be able to clearly articulate scientific information, both orally and in writing.
• Be able to effectively use the scientific literature.

Students graduating with a BS degree in Physics with an Emphasis in Astronomy will be prepared for entry into graduate programs or the job market for career employment.

Course Requirements for the Physics BS Program with an Emphasis in Astronomy

In addition to the below requirements, any other requirements set by The College of Arts and Sciences and The University must be satisfied.

COMP-SCI 101 Problem Solving and Programming I 3
MATH 210 Calculus I 4
MATH 220 Calculus II 4
MATH 250 Calculus III 4

PHYSICS 472 Introduction To Quantum Mechanics 3
Formulating a Plan of Study

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for astronomy (Professor Dan McIntosh, mcintoshdh@umkc.edu) before beginning the major.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Physics/Engineering Double Degree

Description of the Physics and Electrical & Computer Engineering Double Degree Program

The combined Bachelor of Science (BS) degree in Physics and BS in Electrical & Computer Engineering five year double degree program is recommended for students interested in seeking employment in industrial, governmental, or private organizations that require a strong theoretical science and applied engineering background and for those students that are seeking to continue their academic careers in either graduate school or professional/medical school.

Physics advising questions should be directed to Professor Fred Leibsle (leibslef@umkc.edu).

Student Learning Outcomes

Students graduating with a BS degree in Physics and a BS degree in Electrical & Computer Engineering will:

• Have a functional knowledge of the basic areas of physics and electrical & computer engineering.
• Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
• Be able to clearly articulate scientific information, both orally and in writing.
• Be able to effectively use the scientific literature.

Students graduating with a BS degree in Physics and a BS in Electrical & Computer Engineering will be prepared for entry into professional schools, graduate programs, or the job market for career employment.

Course Requirements for the Physics BS and Electrical & Computer Engineering BS Double Degree Program

Because of the condensed format of the program, students are strongly advised to contact the Physics undergraduate advisor (Prof. Fred Leibsle (leibslef@umkc.edu)) and the Electrical & Computer Engineering undergraduate advisor (p. 325) as early as possible before beginning this program.

Bachelor of Arts: Physics

Description of the Bachelor of Arts Program

The Bachelor of Arts (BA) degree in Physics is recommended for students interested in seeking employment in science, technology, engineering and math (STEM) areas that require a strong scientific and quantitative background. The BA degree offers greater flexibility than either the Physics BS or the Physics/Engineering Double Degree program because it requires fewer credit hours of physics in contrast to the BS.

Physics advising questions should be directed to Professor Fred Leibsle (leibslef@umkc.edu).

Student Learning Outcomes

Students graduating with a BA degree in Physics will:
• Have a functional knowledge of the basic areas of physics.
• Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
• Be able to clearly articulate scientific information, both orally and in writing.
• Be able to effectively use the scientific literature.

Students graduating with a BA degree in Physics will be prepared for entry into the high-tech job market.

Course Requirements for the Physics BA Program

In addition to the below requirements, any other requirements set by The College of Arts and Sciences and The University must be satisfied.

The BA program requires a minimum of 31 credit hours of Physics plus 13 credit hours of Mathematics and Chemistry. This is in contrast to 46 credit hours of Physics plus 22 credit hours of Mathematics and Chemistry that are required for the BS.

Formulating a Plan of Study

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for physics (Professor Fred Leibsle, leibslef@umkc.edu) before beginning the major.

Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Physics Minor

Description of the Program

The minor in Physics is designed for students desiring a general background in Physics.

Physics advising questions should be directed to Professor Fred Leibsle (leibslef@umkc.edu).
**Student Learning Outcomes**

Students graduating with a minor in Physics will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their basic scientific knowledge with critical thinking skills to quantitatively solve physics problems.

**Program Requirements**

Students majoring in any other discipline in the University may elect to minor in Physics.

The Physics minor requires a minimum of 18 credit hours in Physics courses, with a minimum of 9 credit hours at the 300-400 level. Students must receive grades of C or better in each course. Advising questions regarding the Physics minor should be directed to Professor Fred Leibsle (leibslef@umkc.edu).

Select one of the following:  

<table>
<thead>
<tr>

</tr>
<tr>
<td>Any combination of other physics courses with at least 9 credit hours at the 300-400 level and a total of 18 credit hours.</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 17-20

**Formulating a Plan of Study**

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for physics (Professor Fred Leibsle, leibslef@umkc.edu).

**Astronomy Minor**

**Description of the Program**

The minor in Astronomy is designed for students desiring a general background in Astronomy.

Astronomy advising questions should be directed to Professor Daniel McIntosh (McIntoshDH@umkc.edu).

**Student Learning Outcomes**

Students graduating with a minor in Astronomy will:

- Have a functional knowledge of the basic areas of physics as they apply to astronomical phenomena.
- Be able to integrate their basic scientific knowledge with critical thinking skills to quantitatively solve astrophysical problems.
- Become broadly conversant on key astronomical topics.

**Program Requirements**

Students majoring in any other discipline (including Physics) in the University may elect to minor in astronomy.

There are two tracks (Track One, Track Two) each requiring a minimum of 18 credit hours in Physics and Astronomy courses, with a minimum of 9 credit hours at the 300-400 level. It is highly recommended that students follow Track One because the upper level courses will be very challenging without the solid foundation obtained in the calculus-based physics courses (PHYSICS 240/PHYSICS 250). Students must receive grades of C or better in each course.

**Track One (Recommended)**

### Formulating a Plan of Study

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for astronomy (Professor Dan McIntosh (McIntoshDH@umkc.edu)).

### Master of Science: Physics

### Description of the Master of Science in Physics Program

#### Degree Options

The Master of Science (MS) degree in Physics may be earned by fulfilling the requirements for the MS with thesis or the MS without thesis. A full-time graduate student seeking the MS degree in physics is expected to take the thesis option and is required for Graduate Teaching Assistants (GTAs). The without-thesis option is designed specifically for part-time students who already have career employment.

#### Career Implications

The career implications for students with an MS degree in Physics and seeking employment are similar to those with a BS degree in Physics, except that they will have a more advanced standing and will be recognized as having more experience in science/technical activities. Similarly, for students that intend to pursue further academic or professional training, the MS degree in Physics will give greater weight to your applications.

#### Student Categories Targeted

The MS programs in Physics are intended to serve the following groups:

- Those who wish to obtain a MS degree in Physics but do not expect to go further in graduate work.
- Those who intend to work toward a PhD in Physics after obtaining the MS degree in Physics.
- Those who wish to take graduate physics courses as part of a program in some other discipline or for educational or professional reasons.
- Those who wish to obtain an Interdisciplinary PhD degree from UMKC in two or more academic disciplines, one of which is Physics.

#### Research Advisor

A student who is entering the graduate program with the objective of earning a MS degree in Physics with a thesis will select or be assigned an advisor. The student-advisor pairing should be made during the first semester, if possible. Together, the student and the advisor will work out the complete program of study for the MS degree in Physics.

#### Departmental Examination

All graduate students in physics who have completed more than 6 graduate credit hours must take the written departmental examination (p. 212) that is offered each January.

#### Graduate Advising

Graduate student advising questions should be directed to Professor Anthony Caruso (carusoan@umkc.edu), Flarsheim Hall 250H, (816) 235-2505.
Admission to the Master of Science in Physics Program

Admissions Requirements

To be admitted to the graduate program, an undergraduate major in physics is not required, and deficiencies in completed coursework may be overcome by taking additional undergraduate-level courses for graduate credit. Applicants are encouraged to take both the Graduate Record Examination (GRE) aptitude test and physics test. International students must take the Test of English as a Foreign Language (TOEFL). Admission will be based on academic record and other information such as letters of reference, GRE score, and a personal interview.

Scholarships, Fellowships, and Assistantships

Financial support is available through fellowships, teaching assistantships, research assistantships or hourly student wages.

Students wishing to be considered for an assistantship must so specify in their letters and application forms.

Student Learning Outcomes

Students graduating with an MS degree in Physics will:

• Have an advanced knowledge of the basic areas of physics.
• Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
• Be able to clearly articulate scientific information, both orally and in writing.
• Be able to effectively use the scientific literature.

Students graduating with an MS degree in Physics will be prepared for entry into professional schools, graduate programs, or the job market for career employment.

Program Requirements

General Regulations for all MS Degree Seeking Students

1. All graduate students must maintain a grade-point average of 3.0 (A = 4.0).
2. There are no secondary language requirements as part of the MS degree in Physics.
3. Students must satisfy the general requirements set forth by the School of Graduate Studies.
4. Completion of the written departmental examination (p. 212) passed at the “MS Comprehensive” level.

Additional Requirements Specifically for the MS Degree in Physics With Thesis

1. 30 graduate credit hours with the following constraints:
   a. At least fifteen (15) hours from MS Core Courses;
   b. No more than twelve (12) credit hours of 400-level courses;
   c. At least fifteen (15) hours of MS Elective Courses with no more than six (6) hours from PHYSICS 5599;
2. Maintenance of satisfactory progress toward completion of research project and the associated written thesis.
3. A satisfactory\(^1\) thesis defense with the following constraints:
   a. The thesis defense is administered by the student’s supervisory committee and can be taken only after the student has passed the written departmental examination (p. 212) at the “MS Comprehensive” level.
   b. The defense may be oral, written, or both and it may include the student’s thesis proposal and associated background material.

Additional Requirements Specifically for the MS Degree in Physics Without Thesis

1. 33 graduate credit hours with the following constraints:
   a. At least fifteen (15) credit hours of core MS courses;
   b. No more than twelve (12) credit hours of 400-level courses;
   c. At least six (6) credit hours of 500-level MS Elective courses.

Note: Graduate students should consult with the Department of Physics and Astronomy graduate advisor, Professor Anthony Caruso ([carusoan@umkc.edu], Flarsheim Hall 250H, (816) 235-2505), prior to enrollment.

Written Departmental Examination
(a.k.a. MS Comprehensive Exam, PhD Qualifying Exam)

During January of each year, the Department of Physics and Astronomy will administer a written, MS Comprehensive/PhD Qualifying examination of all MS-level physics students and Interdisciplinary PhD students with physics as their primary discipline. The two-part examination will be given during
two sessions (morning and afternoon) of four hours each on the first Saturday after the start of the Spring Semester. Each part of the examination will contain approximately eight questions at varying levels of difficulty (introductory to advanced undergraduate). The following subject areas will be addressed in the given order by the two examination sessions:

2. Quantum Mechanics and Thermodynamics.

Students may pass the written examination at the following ascending levels of achievement:

1. “MS Comprehensive” - necessary for the MS degree in physics.
2. “PhD Qualifying” - necessary for invitation to take the comprehensive examination in fulfillment of the Interdisciplinary PhD program requirements.

Students need only pass the written examination once at any given achievement level. But, all graduate students must attempt the exam every year until they pass it at the appropriate level, unless they are granted an exception via a petition to the physics and astronomy faculty.

A maximum of two attempts at each level (MS Comprehensive, PhD Qualifying) will be permitted, and any student who does not attempt the examination when required to do so will be deemed to have failed the examination on that attempt, unless they have been given prior permission to delay taking the exam. Students who are required to take this examination are encouraged to consult with the Department of Physics and Astronomy graduate advisor, Professor Anthony Caruso ([carusoan@umkc.edu], Flarsheim Hall 250H, (816) 235-2505), for detailed information concerning procedures and regulations for the examination.

¹ ‘Satisfactory’ is determined by the student’s committee.
Interdisciplinary Ph.D. Program Regulations

Regulations

The Department of Physics and Astronomy is a full participant in the Interdisciplinary Ph.D. Program. The doctoral studies committee of the department has the primary responsibility for administering the program within the department. The committee consists of all physics doctoral faculty members with an elected committee chairperson.

See the School of Graduate Studies (p. 480) section in this catalog and the departmental graduate brochure for general and discipline-specific regulations for Interdisciplinary Ph.D. study with physics as a coordinating unit discipline or co-discipline.

Teacher Certification in Physics

Description of the Teacher Certification in Physics Program

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Physics teacher in either Kansas or Missouri requires that a student complete specific requirements from the School of Education and take coursework in Biology, Chemistry, Environmental Science, Geology, and Physics.

Students will enter this program through the School of Education. For further information about the program, consult the School of Education section of this catalog (p. 408), visit the School of Education web site (http://education.umkc.edu), or contact the Education Student Services Office at (816) 235-2234.

Lecturers:
David Brichoux, Robert Collins, David Sprick

Department Description

The Department of Political Science offers programs of study that lead to the Bachelor of Arts and Master of Arts degrees. The undergraduate major in Political Science equips students with the analytic, writing, and presentation skills to investigate, create and convey knowledge of the political and social environment. After completing two core introductory courses, students have complete flexibility in the substantive emphasis of their coursework. Some students focus on one of the main sub-disciplines of American politics, comparative politics, international relations and political theory, while others take a broad array of courses across these sub-disciplines. The political science minor is completely flexible with regard to substantive emphasis and requires only the completion of 18 credit hours of political science courses.
The Master of Arts degree provides students with analytic, quantitative and presentation skills to critically assess debates and arguments in the political science literature. After completing three core seminars in American politics, comparative politics and international relations, students have considerable flexibility in developing their program of study. The degree can be completed with a thesis or a non-thesis option.

**Undergraduate Admissions**

Students planning to major or minor in political science should declare their choice officially by filling out a Declaration of Major form (http://www.umkc.edu/registrar/forms/declaration-of-major.pdf), and consult the Department Chair for a signature and program advice as early as possible.

**Career Implications of the Bachelor’s Degree**

Political science, in addition to serving as an excellent core discipline for a liberal arts education, may also serve as vocational and professional preparation for students with interests in the following areas:

- Law school and legal careers
- Electoral politics
- Government service
- Not-for-profit and public-interest organization employment
- Business and finance
- Teaching and research
- Public and private political research and consulting services
- Electronic and print journalism

Additionally, before they take a regular job or go to graduate or professional school, many of our graduates have gone into the Peace Corps, Teach for America or other temporary - but exciting - service organizations.

**Department Activities**

**Advising**

Initially, students are assigned advisors from the faculty in the department based on last name. However, students who wish to choose a specific advisor from the department may do so by notifying the Chair. A faculty member other than the chair serves as principal graduate advisor.

**Honor Society**

UMKC has an active chapter of Pi Sigma Alpha, the national political science honor society. Each year Pi Sigma Alpha seeks to recognize the best students in political science in order to -- according to its national constitution -- "stimulate productive scholarship and intelligent interest in the subject of government." The local Pi Sigma Alpha chapter regularly presents films and speakers, organizes an annual picnic and sponsors the department monthly informal discussion group known as the Lunch Bunch. Open to all students, the Lunch Bunch provides an informal environment for enjoying a pizza lunch and discussing current events among faculty and students.

**Internships and Study Abroad**

The department has an active internship program. Information on local, regional, national and international programs of interest to undergraduates in political science is posted on departmental bulletin boards and is available from faculty members. Credit is given for successful completion of internship programs approved by the department. Further information regarding internship opportunities and requirements can be found at http://cas.umkc.edu/politicalscience/internships.asp.

UMKC has a large study abroad program, and the department strongly encourages students to participate in approved programs. Credit toward the degree can be earned for approved courses and competitive scholarships are available. For more information see http://www.umkc.edu/international/default.aspx.

**Research**

Students are encouraged to participate in faculty research and/or to develop their own research project in conjunction with the undergraduate research program, UMKC SEARCH (http://www.umkc.edu/searchsite/). Faculty invitation is required to assist with faculty research and course credit is available. Students who wish to develop their own research project should select a faculty mentor and develop a proposal in conjunction with the mentor. Successful proposals can receive up to $1250 to support student independent research through SEARCH.

**Independent Study**

Independent study in the form of tutorials is available in two courses: POL-SCI 497 and POL-SCI 498 (depending on student qualifications). In either case, without exception, the student must propose a topic for study, have the approval of the advisor and have the written consent of the instructor with whom the tutorial is to be taken before registration for the course. UMKC Honors Program participants may take any course in the department for honors credit by making special arrangements with the instructor at the beginning of the semester.
Political Science Scholarships

The department awards five scholarships each year to outstanding sophomores and juniors. The Ruth L. Gant Memorial Scholarship, the Cornelius Roach Scholarship, the Randall L. Miller Scholarship, the Dan Bishop Scholarship, and the David N. Atkinson Scholarship in Political Science are awarded specifically to political science majors and can provide from $500 to $3,400 to exceptional students. The department announces the competition and the process for application every year in the spring. Political Science students are also eligible for College of Arts and Sciences general scholarships, and students are encouraged to apply. The department has historically had considerable success in winning general College scholarships.

Faculty

Rebecca Best Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=best); assistant professor of political science; B.A. (East Carolina University); M.A., Ph.D. (University of North Carolina - Chapel Hill).

Robert Collins Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=collins); part time lecturer; B.A. (University of Missouri - Kansas City); M.A. (University of Missouri - Kansas City); M.U.P. (University of Michigan - Ann Arbor).

Robert K. Evanson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=evanson); associate professor emeritus of political science; B.A. (University of Illinois-Urbana); M.A., Ph.D. (University of Wisconsin-Madison).

Robert E. Gamer Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=gamer); professor emeritus of political science; B.A. (Monmouth College); Ph.D. (Brown University).

Debra Leiter Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=leiter); assistant professor of political science; B.A. (University of California - San Diego); M.A., Ph.D. (University of California - Davis).

Mona Lyne Contact Information; chair and associate professor of political science; B.S. (University of California - Berkeley); M.A. (Monterey Institute of International Studies); Ph.D. (University of California - San Diego).

Dale Allen Neuman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=neuman); professor emeritus of political science; A.B. (Kenyon College); Ph.D. (Northwestern University).

Max J. Skidmore Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=skidmore); curators’ professor of political science; B.S., B.S. Ed. (Southwest Missouri State); M.Ed. (University of Missouri-Columbia); Ph.D. (University of Minnesota).

Ross Stephens; professor emeritus of political science; B.A. (Park College); M.S., Ph.D. (University of Wisconsin-Madison).

Elizabeth Vonnahme Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vonnahme); associate professor of political science; B.A. (Angelo State University); M.A., Ph.D. (Rice University).

Greg Vonnahme Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vonnahme); assistant professor of political science; B.S. (University of Iowa); M.A., Ph.D. (Rice University).

Benjamin Woodson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=woodson); assistant professor of political science; B.S. (Indiana University); M.A., Ph.D. (Stony Brook University).

1 Associate or Adjunct Graduate Faculty
2 Members of UMKC Graduate Faculty
3 Members of UMKC Doctoral Faculty
4 Located at UM-St. Louis campus

Undergraduate

Undergraduate Degrees:

• Bachelor of Arts: Political Science (p. 217)
• Minor in Political Science (p. 218)
• Teacher Certification in Social Studies (p. 220)
Graduate

Graduate Degrees:
• Master of Arts: Political Science (p. 219)
• Interdisciplinary Ph.D. (p. 220)

Bachelor of Arts: Political Science

Student Learning Outcomes
By the time a student completes the Program of Study in Political Science s/he should be able to:

2. Demonstrate knowledge of key debates in political science.
3. Demonstrate competency in political analysis.
4. Demonstrate competency in analyzing a key theme in depth.
5. Demonstrate effective communication.

Degree Requirements
The department requirement for a major is 30 hours of political science credit. Students must achieve a GPA of at least 2.0 in political science and no credit will be given for courses in which the grade is below C-.

At least 21 hours of political science coursework must be at the 300- to 400- level, and at least 12 hours must be earned at UMKC. Students transferring from other institutions should check as soon as possible to determine which of their credits will transfer as 300- to 400-level political science courses.

Required Courses (9 hours)
Students must take the following political science courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>POL-SCI 210</td>
<td>American Government</td>
<td>3</td>

<td>Introduction To Comparative Politics</td>
<td>3</td>
</tr>
<tr>
<td>POL-SCI 492WI</td>
<td>Senior Seminar (Capstone)</td>
<td>3</td>
</tr>
</tbody>
</table>

Remaining Coursework (21 hours)
Political science majors are required to take at least one course in three of the four subfields, which include American Politics, Comparative Politics, International Relations, and Political theory. Twelve additional political science hours must be completed.

American National Politics

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Minor in Political Science

Student Learning Outcomes

The Political Science minor is a part of the Liberal Arts curriculum. We provide the tools and information to enable students to critically evaluate their political and social environment. Political Science students should obtain an understanding of the workings of government and politics, and develop skills in critical thinking, analysis and communication.

Requirements

A minor in political science requires the successful completion of 18 hours of coursework within the discipline. At least 9 hours must be at the 300- to 400-level. In addition, at least 9 hours must be earned at UMKC. Only courses in which a grade of C- or better is earned will count towards the minor. It is advisable for students to talk with the department advisor regarding course selection.
Master of Arts: Political Science

Student Learning Outcomes

Students completing the Master of Arts in Political Science should demonstrate:

1. Knowledge of fundamental theories and concepts in political science.
2. Knowledge of key literature in political science.
3. Advanced knowledge of political science research.
4. An ability to utilize knowledge for analysis.
5. Effective communication.

Requirements for Graduation

The Master of Arts degree in political science offers study of the major theories, concepts and practices of politics in the United States and throughout the world. The M.A. is designed to serve both as a terminal degree and as preparation for doctoral study at other institutions. In addition, students earning a graduate degree in the UMKC School of Education may take graduate courses in Political Science in fulfillment of their subject area.

To be admitted to the graduate program in political science, an applicant should have had some previous study in the social sciences. An undergraduate degree in political science is recommended but not required. The department normally requires applicants to have earned a 3.0 grade-point average in their last 60 credit hours of undergraduate coursework, as well as in their major field of study.

The application process is competitive. Satisfying minimum criteria does not guarantee admission to the graduate program; students are admitted according to their rank in the applicant pool and the adequacy of departmental resources. Applicants must submit:

1. A completed UMKC application for admission.
2. Official transcripts of all previous college work.
3. Scores from the Graduate Record Examination (General).
4. A letter of application to the principal master's advisor expressing personal plans and interest in graduate work in political science.
5. Two letters of recommendation from professors or others qualified to assess academic potential.

All application materials should be sent to the UMKC Office of Admissions for transmittal to the Department of Political Science for an admissions decision.

Applicants whose records do not meet the requirements of undergraduate academic performance, or whose application submissions are incomplete, may be admitted as non-regular graduate students, depending on individual circumstances. Only regular graduate students may apply for the M.A. degree. Admission under any circumstances is no guarantee of retention.

Admissions

Graduate students are expected to maintain a high degree of academic excellence. After completion of nine credit hours of coursework in political science at UMKC, the academic performance and status of each student will be reviewed by the faculty and a departmental decision will be made as to retention of the student in the graduate program.

Students whose grade-point averages fall below 3.0 (B) for more than two semesters may be dropped from the program. A 3.0 grade-point average is required for graduation.

Temporary grades of "incomplete" will be granted only rarely by political science faculty, only in extraordinary circumstances beyond the control of the student, and only if there are reasonable expectations that the work can be completed. Except for thesis hours, all grades of incomplete will be automatically converted to F’s after one year.

The faculty of the Department of Political Science views plagiarism and academic dishonesty as inexcusable. Any student found guilty of these will be dropped from the program.

Students also should consult the School of Graduate Studies section in this catalog for general academic regulations that apply to all graduate students at UMKC.

Requirements for Retention

The Master of Arts degree in political science requires the successful completion of either of the following sets of requirements:
• Non-Thesis Option - 33 semester hours of approved coursework.
• Thesis Option - 24 semester hours of approved coursework and 6 hours of thesis (POL-SCI 5599). Students must gain permission to write a thesis. Permission to do so depends on the quality of the thesis proposal, the student’s writing skills, and the ability of the Department to supervise the student in the subject area of the proposed thesis. An oral defense of the thesis is required.

All M.A. candidates must successfully complete POL-SCI 5501; POL-SCI 5530; and POL-SCI 5580. With permission of the principal M.A. advisor, students may transfer six credit hours of graduate work from other institutions, and may count no more than six credit hours of pre-approved graduate coursework in other UMKC departments.

Candidates also may take up to six credit hours of 300- or 400-level coursework in political science at UMKC and count them toward the M.A. degree. For a 300- or 400-level course to be accepted for graduate credit, a student must arrange with the instructor in advance to do supplementary work (such as additional reading, writing, and contact hours) and earn at least a B in the course. In addition, the student must not have previously taken an equivalent course at UMKC or elsewhere.

In either the 30-hour thesis option or the 33-hour non-thesis option, no more than six hours of readings, independent study or directed studies credit (other than thesis hours) may be counted toward the requirements for the M.A.

In all cases, students in the M.A. program must take at least 15 hours of graduate-level (5500-level) courses in political science at UMKC in fulfillment of their degree requirements. In addition, University of Missouri rules mandate that students in graduate programs must take at least 60% of their coursework at the graduate level. Applied to the M.A. program in political science, this means that students taking the thesis option must complete at least 18 hours at the graduate level, and students in the non-thesis option must complete at least 21 graduate hours. Graduate courses taken at UMKC in political science and other programs, graduate transfer hours, and thesis hours all count toward fulfillment of this requirement.

Students should consult the principal master’s advisor in selecting approved courses to assure progress toward completion of the degree and to meet their needs and interests in graduate study.

**Interdisciplinary Ph.D.**

**Program Opportunities**

The Department of Political Science participates as a co-discipline in the Interdisciplinary Ph.D. program.

For further information contact the Department of Political Science, (816) 235-1326, or Max Skidmore, Graduate Director, (816) 235-2535 or skidmorem@umkc.edu.

**Teacher Certification in Social Studies**

**Teacher Certification in Social Studies**

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education (http://education.umkc.edu) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

UMKC Pre-Law Program

The UMKC Pre-law Program is designed to help you make wise decisions about becoming a lawyer. It provides advice and information concerning the best possible path for each individual student, from the first semester of undergraduate courses to admission into law school.

The first thing to note about joining the Program is that it is not a major. There is no one major that prepares you for law school. In fact, there are over 30 majors at UMKC that a student may choose from and be on track for entrance into law school.

To garner the skills necessary for success, the pre-law student should select a curriculum that hones and develops superior writing skills, along with excellent oral communication, logical reasoning, and critical reading skills.

It is not enough, however, to be prepared for the academic rigors of law school. You’ll want to ask yourself the following questions:

• Do you really want to become a lawyer?
• What law schools should you apply to?
• What does it mean to be a lawyer?
• What area of the law do you want to practice in?
• What are the alternative careers available to someone with a law degree?

When you have made the decision to pursue acceptance into law school, you’ll need details on how to go about successfully presenting yourself to the admissions committee in your application. The Program provides answers to the following questions:

• What do you need to do to apply to law school?
• What do you need to do to succeed in law school?
• How can you afford law school?

90+ Program and Six-Year Law Scholars

UMKC’s School of Law and The College of Arts and Sciences offer the motivated student a faster track to a legal education. While an undergraduate degree is usually a requirement for admission into law school, UMKC offers students the opportunity to start law school after completing as little as 90 undergraduate credit hours. Students then complete their undergraduate degree with law school credits. By overlapping credits, students can shorten the length of time necessary for completing their education by as much as one year.

90+ Participation

A student’s first 30 hours at UMKC’s School of Law may fulfill as many as 30 credit hours of non-Arts and Sciences electives towards an undergraduate degree. Therefore, if a student completes all of the general education, major, and upper-level requirements, leaving only elective credits to receive an undergraduate degree, the student may apply to the law school at UMKC.

If accepted, the student can start law school without having actually received an undergraduate bachelor’s degree. The student will receive the undergraduate degree after earning the requisite amount of law school credits necessary to fulfill the remaining amount of undergraduate elective credits (up to 30 hours).

Any student who is pursuing a degree in The College of Arts and Sciences may participate. The 90+ program does not guarantee admission into UMKC’s School of Law. Participants must apply and otherwise qualify for law school admission by having a competitive undergraduate GPA and LSAT score.

Road to Admission

Any interested student should meet early and often with the pre-law advisor. Given the number of requirements that must be satisfied in such a short period of time, potential 90+ students must monitor their progress with great care.

There are a number of necessary tasks to be completed by the student in order to qualify for the 90+ Program:

• The final 30 hours prior to enrolling in UMKC’s School of Law must be from courses in UMKC’s College of Arts and Sciences.
• Requirements to be completed prior to enrollment at UMKC’s School of Law:
  • All general education requirements
  • All major requirements (and those for a minor if student chooses to complete a minor)
  • 36 hours of junior/senior (300/400-level) coursework
• Application for Graduation: After earning approximately 60-75 credit hours, the interested student should apply for graduation in the Arts and Sciences Advising Office (Scofield Room 9). Students should note on the application for graduation that they are 90+ Program candidates. As part of the graduation process, the student must schedule an audit with her/his major/minor advisors after applying for graduation. A general education audit will also be done, requiring the student to meet again with an advisor in the A&S Advising Office. The audit should be completed by the end of the fall semester prior to starting law school.
Students that are able to finish any necessary requirements prior to enrollment at the School of Law are encouraged to create a plan with the pre-law advisor directly after all audits are complete.

- Letter of Interest: After applying for graduation and completing the audit, the student must contact the pre-law advisor to arrange to have a letter sent to UMKC's School of Law stating that there is a plan in place that will allow the student to complete all requirements prior to enrolling in the law school the following fall. The advisor will send the letter to the law school at the end of the semester after all the required course work is completed. This process should be done during the student’s last year of undergraduate study.

**Six-Year Law Scholars**

The Six-Year Law Scholars program allows high-achieving high school students to earn guaranteed admission to UMKC School of Law through the 90+ program described above, but it has a specific application process, admission standards, and a cumulative GPA requirement to remain in the program.

- First-time college freshmen who have a minimum comprehensive ACT score of 28 (or SAT score of 1240 or 1980 on the new chart) and high school GPAs demonstrating success in a demanding curriculum, may apply for admission to this program by completing the general application for admission to UMKC as well as the supplemental application for the Six-Year Law Scholars program. Prior to admission, students will be interviewed by faculty in UMKC’s School of Law as part of the review process.
- To participate in this program, students must be selected for the program by the School of Law Admissions Committee. Students will be admitted to the College of Arts & Sciences as undergraduate Pre-Law students, and may choose to major in any undergraduate degree program in the College of Arts & Sciences.
- Six-Year Law Scholars will meet regularly with an advisor to ensure that they can complete their undergraduate requirements prior to early entry into UMKC School of Law.
- Six-Year Law Scholars who maintain a minimum 3.3 UG cumulative GPA may remain in the program and will be automatically accepted to the School of Law without being required to take the LSAT.
- After students have completed 60 credit hours, they will meet with the pre-law advisor to complete a Final Degree Audit, to apply for graduation, and to create a plan of study for the remaining course work. The pre-law advisor will send a letter to the School of Law reflecting the individual student’s current status, the plan of study and the start date process.
- After completing at least 90 credit hours and all specific undergraduate degree requirements (including general education, major requirements, and upper level hourly requirements), Six-Year Law Scholars take the remaining elective credit hours for their undergraduate degree in the School of Law during their first year of Law School.
- Upon completion of a Six-Year Law Scholar’s final undergraduate semester and as soon as final grades have been posted, the pre-law advisor will verify that the student has completed his or her plan of study and is fully qualified for early entry to the UMKC School of Law.
- To hold their guaranteed seat, students in the Six-Year Law Scholars program must, within thirty days after the pre-law advisor verifies qualification for early entry into the School of Law, (1) notify the School of Law of their intent to enroll in the law school (2) complete the paperwork the School of Law requires at that time, including an update of the character and fitness information in the original application, and (3) pay a required seat deposit.
- Students who wish to take an additional undergraduate year or otherwise defer enrollment in the School of Law may do so if they reach an agreement with the School of Law about the timing and circumstances and pay a seat deposit to hold their place in the entering class. The deposit will be non-refundable, but may be credited to their law school tuition and expenses pursuant to the agreement.
- Once Six-Year Law Scholars begin their course work in the School of Law, they will be classified as professional students. They cannot take courses in A&S and the School of Law simultaneously unless those courses are graduate level and are being counted toward the J.D. degree.
- When the Six-Year Law Scholars have obtained the remaining credit hours in the School of Law to complete the 120 credit hour requirement for their undergraduate degree, they will be awarded their undergraduate degree from the College of Arts & Sciences. If the graduation date has changed from the original application submitted after the completion of 60 credit hours, students must reapply for graduation by the application deadline.
- Students who do not qualify for this selective program or who do not maintain the 3.3 required undergraduate GPA can still apply for the early entry 90+ option, but must take the LSAT. Admission to the School of Law will be based on the application, the LSAT and the undergraduate record and will not be guaranteed.

Department Chair:
Jennifer D. Lundgren contact information (http://www.umkc.edu/lookup/search.cfm?LastName=lundgren)

Professors:
Delwyn Catley, Diane L. Filion, Joan McDowd, Tamera B. Murdock

Associate Professors:
Jared M. Bruce, Jennifer D. Lundgren (Chair), Melisa Rempfer, Lisa Terre

Assistant Professors:
Kymberly K. Bennett, Jannette Berkley-Patton, Amanda S. Bruce, Seung-Lark Lim

Department Description

The Department of Psychology is focused on behavioral science contributions to health and healthcare. Our faculty members are national and international leaders in research on areas such as HIV/AIDS, tobacco use, obesity and eating disorders, neuropsychological functioning, safety and violence and community factors in health. We have strong and active collaborations with important community partners such as Saint Luke’s Hospital, Mid America Heart Institute, KC Care, University of Kansas Medical Center, Truman Medical Center and the Calvary Community Outreach Network. At the undergraduate level, the department offers a general program of study leading to the bachelor of arts degree in psychology. A psychology minor is available to students majoring in other disciplines. Graduate programs are also offered by the Department of Psychology. See the “Degree Programs” (http://cas.umkc.edu/psychology) link at the Department of Psychology Web site for information on current graduate degree offerings.

Career Implications of the Degree

Psychology is a broad discipline incorporating material from the natural sciences, other social sciences and the humanities. The study of psychology entails an examination of the human condition that is relevant to a wide range of occupations. A psychology major serves as the basis for an excellent liberal arts education and also serves as an excellent introduction to the world of scientific inquiry. Psychology students learn about the important concepts that underlie current scientific thought and they receive training in the application of psychological research methods.

The educational background obtained by a student majoring in psychology will prove useful in a variety of professional settings and will provide adequate preparation for entry-level positions in a variety of fields. Graduates with bachelor’s degrees in psychology have established careers in such diverse areas as:

- Business and industry
- Child care
- General healthcare
- Gerontology
- Mental health services
- Probation and parole
- Public relations and marketing
- Research or laboratory assisting
- Services for the developmentally disabled
- Social services

For students interested in pursuing a career in the field of psychology, a psychology major is clearly a logical beginning. There are positions available to job candidates with bachelor’s degrees in psychology; however, most professional opportunities in psychology require advanced degrees (i.e., master’s, doctorate). Students who want to pursue a career in psychology are advised to prepare for graduate study. The psychology major at UMKC offers a solid educational foundation for students who plan to work toward advanced degrees in the field.

Department of Activities

Honor Society

The department has a chapter of Psi Chi, the national honor society in psychology. Each year Psi Chi presents a variety of educational and social programs. Membership is open to students at both undergraduate and graduate levels. Regular meetings are held throughout the academic year. Please visit the Psi Chi & Psychology club website (http://cas.umkc.edu/psyc/PsiChiPsychClub.asp).
Psychology Club
The department also has a Psychology Club. The members of the Psychology Club join with the members of the Honor Society for educational social programs. Membership is open to students at both undergraduate and graduate level who have an interest in psychology. Regular meetings are held throughout the academic year jointly with PsiChi. Please visit the Psi Chi & Psychology club website.

Bernard Lubin Memorial Speaker Series
This speaker series is sponsored by UMKC’s Department of Psychology and is named in memory of Dr. Bernard Lubin, Curators’ Professor Emeritus, to honor his contributions and dedication to the field of psychology. To learn about scheduled speaker events, see our Department Website (http://cas.umkc.edu/psyco).

Graduate Psychology Activities Committee
The focus of the Graduate Psychology Activities Committee (GPAC) is to coordinate graduate student and student-faculty social events, enhance communication between the members of various graduate programs in the department, and coordinate educational events to support the professional development of students in the graduate programs. The committee and the events planned are open to graduate students within the Department of Psychology.

Advising System
For Undergraduate Psychology Program information, please contact the Psychology Advising Office at umkpcuga@umkc.edu or (816) 235-1092.

For UMKC College of Arts & Sciences general education requirements, please contact the College of Arts & Sciences Advising Office directly at (816) 235-1148. See the Undergraduate Psychology Program Advising website (http://cas.umkc.edu/psychology/undergrad/advising.asp) for more information.

Financial Aid
Financial aid information can be found on the UMKC Financial Aid website at: http://www.sfa.umkc.edu/site2/

Part-time graduate teaching and research assistantship positions may be available to Psychology doctoral students. These opportunities will be discussed with students at the time of their acceptance into the program.

Faculty
For the most current listing, see the Department of Psychology (http://cas.umkc.edu/Psychology) website.

Kymberley K. Bennett2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Bennett); director, undergraduate psychology program and assistant professor of psychology; B.A. (University of Redlands); Ph.D. (University of Nevada, Reno)

Jannette Berkley-Patton2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=berkley); assistant professor of psychology; B.S., M.A., Ph.D. (University of Kansas)

Amanda S. Bruce2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=bruce); assistant professor of psychology; B.A. (University of Kansas); M.S., Ph.D. (Pennsylvania State University).

Jared M. Bruce2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=bruce); assistant professor of psychology; B.A. (University of Maine); M.S., Ph.D. (Pennsylvania State University).

Carl Calkins2 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=calkins); director, UMKC institute for human development and professor of psychology; B.A. (State University of New York); M.A. (Southern Connecticut State College); Ph.D. (Vanderbilt University).

Delwyn Catley2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=catley); professor of psychology; Bachelor of Commerce (University of the Witwatersrand, Johannesburg, South Africa); M.S. (Purdue University); Ph.D. (State University of NY at Stony Brook).

Diane L. Filion2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=filion); associate dean, college of arts and science and professor of psychology; B.A. (Eastern Washington University); M.A., Ph.D. (University of Southern California).

Seng-Lark Lim2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=lim); assistant professor of psychology; B.A., M.A. (Korea University); Ph.D. (Indiana University).

Jennifer Lundgren2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=lundgren); chair, department of psychology and associate professor of psychology; B.S. (Oklahoma State University); M.A., Ph.D. (University at Albany, State University of New York).
Joan M. McDowd Contact Information; director, Ph.D. program: experimental health psychology track and professor of psychology; B.A. (Washington University); M.A., Ph.D. (University of Toronto).

Tamera Burton Murdock Contact Information; professor of psychology; B.A., M.S. (University of Pennsylvania); Ph.D. (University of Delaware).

Melisa Rempfer Contact Information; director of clinical training, Ph.D. program; clinical psychology (health emphasis) track and associate professor of psychology; B.S. (University of Iowa); M.A., Ph.D. (University of Kansas).

Lisa Terre Contact Information; director of the ma in psychology program and associate professor of psychology and medicine; B.A. (Rutgers University); M.A. (Roosevelt University); Ph.D. (Auburn University).

Retired Faculty
Jim Collins, associate professor emeritus of psychology.

Jay Hewitt, associate professor emeritus of psychology.

Joseph B. Hughey Contact Information; professor emeritus of psychology; B.A., M.A. (Wichita State University); Ph.D. (University of Tennessee).

Charles L. Sheridan, professor emeritus of psychology.

Student Learning Outcomes

Students graduating with a B.A. in Psychology will:

1. Demonstrate knowledge of the major theories, concepts, research, and historical trends in psychology and breadth in the following four domains: biological bases of behavior - developmental changes - learning and cognition - individual differences, personality, psychometrics, and social processes.
2. Understand and apply basic research in psychology, including research design, statistical analysis, and interpretation of results.
3. Be able to effectively approach, consider, and solve problems through clear, logical, critical, and scientific thinking.
4. Apply theories, terms, statistical methods, and empirical findings in psychological science to real-world contexts.
5. Understand and recognize the necessity for ethical behavior in all aspects of the science and practice of psychology.
6. Demonstrate effective written and oral communication skills.
7. Recognize the complexity of human diversity and understand the influence of macro and micro contexts on people’s psychological functioning and development.
8. Identify relevant course work, experiences, and skills that will facilitate entry into the work force, post-baccalaureate education, or both.
Program Requirements

Majors are required to complete a minimum of 31 hours of coursework in psychology. Of the 31 hours of required coursework in psychology, a minimum of 22 hours must be completed at UMKC. The major is comprised of general, core area and elective courses.

### General Courses

Select a minimum of two (300-400 level) elective courses in psychology

<table>
<thead>
<tr>
<th>Electives</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>6</td>
</tr>
</tbody>
</table>

Total Credits: 31

1. PSYCH 316, PSYCH 302WI and PSYCH 415 must be completed at UMKC.
2. The remaining hours comprise a minimum of four core area courses and two 300-400 level elective courses. A minimum of one course must be taken from each core area.
3. See Undergraduate Advising (http://cas.umkc.edu/psychology/undergrad/advising.asp) for a complete list of undergraduate psychology courses that may serve as these electives. A maximum of 3 credit hours for PSYCH 490, may be used toward fulfilling elective requirement.

Music Therapy/Psychology Double Majors

For students double-majoring in Music Therapy and Psychology:

- CONSVTY 260 can fulfill one of the two required psychology elective courses.
- CONSVTY 435 can fulfill either the core area C or D requirement.

Other Requirements

Students may be able to transfer core area courses and/or psychology electives approved by the Department of Psychology. However, a minimum of 22 credit hours must be taken from the Department of Psychology at UMKC. Students wishing to transfer credits to the Undergraduate Psychology Program should contact the Undergraduate Psychology Advising Office at (816) 235-1092 to discuss courses that may be eligible for transfer.

A grade of "C-" or higher must be achieved for any course to apply toward the major in psychology. When you have completed 90 credit hours, contact Arts and Sciences Advising (Scofield Hall, room 9) to conduct a final degree audit. You will then meet with one of the Psychology Undergraduate Advisors to complete a major degree audit (completed at the Undergraduate Psychology Advising Office located at Cherry Hall, Room 330).

Suggested Plan of Study

Before beginning a psychology major or minor, students should meet with a Psychology Advisor as the choice of electives strongly depends on students’ educational and career intentions.
In general, students should complete PSYCH 316 and PSYCH 302WI as early as possible. PSYCH 415 is to be taken during the senior year.

For students planning to attend graduate school in psychology, it is also desirable to complete PSYCH 490 well before graduation. Students wishing to take PSYCH 490 must contact a professor who will agree to supervise their work. Together they will discuss the possibility of doing research in an area of mutual interest. Additionally, students must complete a PSYCH 490 application prior to course registration. PSYCH 490 must be taken with a full-time faculty member.

**Example Plan of Study**

PSYCH 210 must be completed prior to enrollment in upper division (300- or 400-level) psychology courses. The department recommends completing this course as part of the General Education requirements.

**Semester 1 of Psychology Major Course Requirements**

1 The plan of study requires a minimum of one course from each of the four Core Areas.

**General Advice for Developing a Plan of Study**

Note that the Department of Psychology varies course offerings each semester. **Not all courses are offered every year.** Students with the required prerequisite courses who are interested in a particular elective or core area course should enroll when it is offered.

Do not plan to complete coursework by taking courses during the summer. The department usually offers some courses during the summer term, but doesn’t guarantee that all required courses will be offered.

Make sure the pre-requisites for courses are met prior to enrollment. Students who do not meet course pre-requisites will be asked to drop from the course during the first week of the term. At that time alternative courses may no longer be open.

For questions regarding the Undergraduate Psychology Program, or to schedule an appointment with a Psychology Advisor, please contact the Psychology Advising Office at umkcpuga@umkc.edu or (816) 235-1092.

The Undergraduate Psychology Program is designed to provide majors with a base of scientific knowledge in psychology, as well as a broad background in the field for students who want to pursue graduate study.

See Undergraduate Advising (http://cas.umkc.edu/psychology/undergrad/advising.asp) for more information.

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.
Psychology Minor

Student Learning Outcomes

Students graduating with a minor in Psychology will:

1. Demonstrate knowledge of the major theories, concepts, research, and historical trends in psychology and breadth in the following four domains: - biological bases of behavior - developmental changes - learning and cognition - individual differences, personality, psychometrics, and social processes.

2. Understand and apply basic research in psychology, including research design, statistical analysis, and interpretation of results.

3. Be able to effectively approach, consider, and solve problems through clear, logical, critical, and scientific thinking.

4. Apply theories, terms, statistical methods, and empirical findings in psychological science to real-world contexts.

5. Understand and recognize the necessity for ethical behavior in all aspects of the science and practice of psychology.

6. Demonstrate effective written and oral communication skills.

7. Recognize the complexity of human diversity and understand the influence of macro and micro contexts on people’s psychological functioning and development.

8. Identify relevant course work, experiences, and skills that will facilitate entry into the work force, post-baccalaureate education, or both.

Program Requirements

Eighteen hours of coursework in psychology are required for a psychology minor with at least 12 of those hours at the upper-division level. Of the 18 hours a minimum of nine hours must be completed at UMKC. Also, six of the 18 hours must be at the 300- or 400-level and selected from courses taught in the Department of Psychology at UMKC. A grade of "C-" or higher must be achieved for any course to apply toward the minor in psychology.

The following are required of all psychology majors and minors:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 210</td>
<td>General Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 302WI</td>
<td>Experimental Psychology</td>
<td>4</td>
</tr>
<tr>
<td>PSYCH 316</td>
<td>Quantitative Methods In Psychology</td>
<td>3</td>
</tr>
<tr>
<td>PSYCH 415</td>
<td>History And Systems Of Psychology</td>
<td>3</td>
</tr>
</tbody>
</table>

PSYCH 302WI, PSYCH 316, and PSYCH 415 must be completed at UMKC.

Psychology Double Major

Student Learning Outcomes

Students graduating with a double major will:

1. Demonstrate knowledge of the major theories, concepts, research, and historical trends in psychology and breadth in the following four domains: - biological bases of behavior - developmental changes - learning and cognition - individual differences, personality, psychometrics, and social processes.

2. Understand and apply basic research in psychology, including research design, statistical analysis, and interpretation of results.

3. Be able to effectively approach, consider, and solve problems through clear, logical, critical, and scientific thinking.

4. Apply theories, terms, statistical methods, and empirical findings in psychological science to real-world contexts.

5. Understand and recognize the necessity for ethical behavior in all aspects of the science and practice of psychology.

6. Demonstrate effective written and oral communication skills.

7. Recognize the complexity of human diversity and understand the influence of macro and micro contexts on people’s psychological functioning and development.

8. Identify relevant course work, experiences, and skills that will facilitate entry into the work force, post-baccalaureate education, or both.
Program Requirements

Conservatory of Music and Dance students in the bachelor of arts in music with a music therapy emphasis program, who also want to major in psychology, may apply up to six hours of courses taken in the Conservatory toward the psychology major. Specifically, CONSVTY 260, can be counted as one of the two required electives; and CONSVTY 435, may fulfill psychology core area C or D (PSYCH 308/PSYCH 418 or PSYCH 304/PSYCH 405/PSYCH 450).

Master of Arts: Psychology

Note. Beginning academic year 2012-2013, The Department of Psychology is no longer accepting new students into the Master of Arts in Psychology program. The information that follows is applicable to students accepted to the program prior to Fall 2012. Students enrolled in the Doctor of Philosophy (PhD) in Psychology degree program are eligible for a Master of Arts in Psychology degree as part of the PhD in Psychology degree program. A detailed list of requirements for obtaining a Master of Arts in Psychology degree as part of the PhD in Psychology degree program can be found in the PhD program handbook.

Program Description

Contact Person: Cathy Rawlings Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=rawlings)

The Master of Arts in Psychology Program prepares students for research careers in academic or community psychology settings. The program involves training in theory, research design and statistics, and the application of principles to real world situations. The program provides advanced training both for recent graduates and for individuals who have been in the work force for a number of years. Although some students subsequently enter doctoral programs and complete Ph.D.s, many immediately accept challenging jobs in the public, private or non-profit sector. Students may complete the program on a full- or part-time basis. However, to ensure the timeliness of training, all program requirements must be completed within five years from admission.

The program is research oriented and provides many opportunities to gain valuable experience in conducting research and includes experimental studies working with human participants in a variety of areas. See faculty interests and on-going projects on the Department of Psychology website. (http://cas.umkc.edu/psychology)

Potential applicants should be aware that the Master of Arts in Psychology program is not designed to prepare students for professional practice as a psychologist. Further, completion of the Master of Arts in Psychology program is not adequate preparation for either the practice of psychology or use of the term “psychologist,” both of which are regulated by state statute. Students interested in the practice of psychology should consider the Clinical Psychology Ph.D. program described under the Department of Psychology listing.

Student Learning Outcomes

1. To provide students with knowledge and skills in the evaluation, conduct, and dissemination of psychological research.
2. To provide students with knowledge of ethical principles and to promote ethical conduct and high professional standards in research and applied situations.
3. To provide students with knowledge and skills working with diverse individuals in professional contexts.

Suggested Plan of Study

The program is designed for students who seek rigorous training in research design and statistical analysis. Acquiring skills in these areas will prepare students for additional graduate training as well as for immediate application in a work setting. Quantitatively skilled professionals are employed in a variety of settings including: university departments such as psychology, marketing, management, education, medical and biological research programs, personnel management programs, government, industry, market research firms, large-scale mental testing corporations, software development companies and consulting firms.

One key component of training is six credit hours of a capstone research project, either research and thesis or directed research program evaluation, in which students will, under the direct supervision of faculty, apply the skills they have learned in the classroom to real-world problems and research questions.

Psychology Elective ¹ 3
Electives ² 12
Total Credits 36

¹ Psychology electives must be 5500 level or above, unless prior written approval is obtained from your psychology advisor and the course instructor. Documentation of completion of additional work in undergraduate courses must be filed with the department in order to obtain graduate credit. Refer to the MA in Psychology handbook for elective options.

² Courses at the 5500 level or above from other UMKC departments may be used to fulfill these requirements; however, prior written approval from your psychology advisor is required.

Requirements for Retention

Note. Beginning academic year 2012-2013, The Department of Psychology is no longer accepting new students into the Master of Arts in Psychology program. The information that follows is applicable to students accepted to the program prior to Fall 2012. Students enrolled in the Doctor of Philosophy (PhD) in Psychology degree program are eligible for a Master of Arts in Psychology degree as part of the PhD in Psychology degree program. A detailed list of requirements for obtaining a Master of Arts in Psychology degree as part of the PhD in Psychology degree program can be found in the PhD program handbook.

A detailed list of requirements for retention can be found in the Master of Arts Psychology Degree Program Handbook.

Doctor of Philosophy: Clinical Psychology (Health Emphasis) Track

Contact Person: Cathy Rawlings http://cas.umkc.edu/psychology/GCPhD.asp

Note: The information on the Department of Psychology web pages (link above) supersedes information in this Department of Psychology catalog section, as the catalog is updated only once per year.

The Clinical Psychology (Health Emphasis) Program is a full-time program of graduate study that provides professional education in the science and practice of clinical psychology. Within this broader context, the program also integrates clinical and epidemiological research with the health and life sciences, providing specialized training in clinical health psychology. The program seeks to enhance public health, broadly defined, through rigorous training of students (education mission); provide an accessible resource for the integration of behavioral sciences and health research and healthcare (service mission); and incorporate integrity and respect for human and intellectual diversity in all our activities (human mission). Based on a scientist-practitioner model, the program’s clinical training and services are grounded in a commitment to the integration of science and practice. Consistent with the mission of our University to lead in the life and health sciences, our program faculty and students are actively involved in research, communities, and healthcare systems to promote a high quality of life for all.

Note: UMKC also offers a Ph.D. in Counseling Psychology through the School of Education. For information on that program, please see http://education.umkc.edu/CEP.

Admission Criteria

The program is designed for applicants with a prior bachelor’s or master’s level degree. New students are admitted in fall semester only. Because the program receives applications from many more qualified individuals than can be admitted, admission is competitive (see links to detailed information below). All application materials must be received by December 5 to be considered for admission the following fall. Visit the Clinical Psychology (Health Emphasis) Track (http://cas.umkc.edu/psychology/GCPhD.asp) web page for current application procedures and links to other helpful application resources.

The following are minimum criteria recommended for admission:

1. A bachelor’s degree in Psychology, Counseling, Special Education or other health-related discipline such as Pre-Med or Nursing. Satisfactory completion of prior coursework in Introductory/General Psychology, Experimental Methods/Research Design and Statistics/Quantitative Methods is required. Satisfactory completion of prior coursework in at least two of the following areas is also strongly recommended: Abnormal Psychology, Personality, Biopsychology, Sensation and Perception, Cognitive Psychology, Motivation, Social Psychology.

2. Undergraduate GPA of 3.0 or graduate GPA of 3.5. Alternative criteria may be accepted at the discretion of the admissions committee if there is good reason to believe the regular criteria do not adequately portray the student’s potential to do quality work in the program. However, admission to the program is highly competitive, and we seek to admit students with a general history of excellence. A disclosure of the average GPA of students recently admitted to the program can be accessed through the program Web page.

3. Competitive Graduate Record Examination scores from the general test (GRE Math + Verbal greater than 300; Analytical Writing score of at least 4.5). Students whose scores fall below this recommended minimum may present additional evidence of their capacity to do quality doctoral-level work. Such additional evidence will be considered and accepted at the discretion of the Clinical Admissions Committee. A disclosure of the GRE
scores of students recently admitted (http://cas.umkc.edu/psychology/grad/full-disclosure10.asp) to the program can be accessed through the program web page.

4. Demonstrated evidence of interest in clinical health research. The program follows a mentorship model. Therefore, applicants whose research interests are similar to those of the faculty will be given higher consideration. A listing of program faculty interests and research can be accessed through the Department of Psychology People (http://cas.umkc.edu/psychology/People.asp) web page.

5. History of personal conduct consistent with the ability to adhere to high standards of student conduct, as outlined in the UMKC Standard for Student Conduct (p. 828), and professional conduct as outlined by the American Psychological Association (http://www.apa.org) and state licensure boards.

Because clinical and health psychology are empirically-based disciplines, the program emphasizes continuous involvement in research and practice. For this reason, students primarily interested in psychotherapy and clinical or counseling practice without a strong interest in the scientific aspect of the scientist/practitioner model would be better served by other programs.

The program typically accepts four students each year. Applicants are evaluated based on the following dimensions:

1. Academic potential
2. Research potential
3. Interpersonal skills and other indications of potential for clinical work
4. Professional identity and involvement
5. Evidence of high ethical standards

The program follows the American Psychological Association (http://www.apa.org) Guidelines for Graduate School Offers and Acceptances.

Admission Procedure

New students are admitted in fall semester only. Because the program receives applications from many more qualified individuals than can be admitted, admission into the program is highly competitive. A disclosure of relevant data for students recently admitted (http://cas.umkc.edu/psychology/grad/full-disclosure10.asp) to the program can be accessed through the Clinical Psychology (Health Emphasis) Track web page. All application materials must be received by December 5 to be considered for admission in the following fall. Please see the Clinical Psychology (Health Emphasis) Track (http://cas.umkc.edu/psychology/GCPhD_apply.asp) web page for current application procedures (http://cas.umkc.edu/psychology/GCPhD_apply.asp).

The program follows the American Psychological Association (http://www.apa.org) Guidelines for Graduate School Offers and Acceptances.

Student Learning Outcomes

The Clinical Psychology (Health Emphasis) program is organized around the following training goals and student learning outcomes:

Training Goal 1: To provide students with knowledge and skills in the evaluation, conduct, and dissemination of general psychological and clinical health related research

Student Learning outcomes:

1. Students will demonstrate the ability to critically evaluate literature relevant to the science and practice of psychology
2. Student will demonstrate the ability to conduct empirically sound research, including research design and implementation and statistical analysis

Training Goal 2: To provide students with entry-level skill in the delivery of evidence-based psychological and clinical health services

Student Learning outcomes

1. Students will demonstrate the ability to select, administer, and interpret assessment and diagnostic tools in the context of clinical service delivery
2. Students will demonstrate the ability to select, administer, and evaluate evidence-based psychological and clinical health interventions

Training Goal 3: To provide students with knowledge of ethical and professional principles and to promote ethical conduct and high professional standards in research and clinical situations

Student Learning outcomes

1. Student will demonstrate the ability to identify and appropriately respond to ethical issues raised in research contexts
2. Student will demonstrate the ability to identify and appropriately respond to ethical issues raised in clinical contexts

Training Goal 4: To provide students with knowledge and skills in working with diverse groups of individuals in professional contexts

Student Learning outcomes
1. Student will demonstrate the ability to identify the nature and impact of diversity on the administration and interpretation of assessments and the delivery of health services
2. Student will demonstrate the ability to identify the nature and impact of diversity in the conduct of research and its dissemination

## Program Requirements

</tr>
</tbody>
</table>
Students are required to officially enroll and accumulate 6 hours of research credit over their first 2 years in the program (6 credit hours of graduate level research credit are required to receive the M.A.). If the master’s thesis project has been waived or completed, formal enrollment in directed research is still required. It is expected that all students will be actively involved in research and evaluated on their research performance every fall and winter semesters. Students who have had the M.A. requirement waived need only take 1 credit hour of research in each semester of the second year. However, students will still need to accumulate the additional 8 research credit hours required over and above the master’s thesis requirement to reach the graduate school minimum of 12 research credit hours for the Ph.D.

The program requires that students enroll in practicum each regular Fall and Winter semester of the second, third, and fourth years. Students may complete additional clinical hours in summer practicum to improve their competitiveness for internships. Official enrollment is optional, although documentation of supervised hours is required for those to be included.

This may be taken during the third year (same semester) instead of the second year.

Evidence Based Clinical Practice and Health Psychology Interventions are both required, however, these courses will offered in alternate years.

There are 5 core course requirements (see list at the bottom of the table). In some areas (e.g., Developmental) alternative courses may be used to fulfill the requirement.

The graduate school requires at least 12 hours of graduate research credit to graduate with a Ph.D. Our program requires a total of 8 research credit hours (pre-dissertation and dissertation) beyond the 6 required for the master’s thesis for graduation. You may accumulate these hours in any way you wish as long as you complete the additional 8 hours prior to graduation. However you must first pass comps before enrolling in dissertation units.

Due to variable internship start and end dates you may only officially complete you internship after the end of the Spring semester. In these cases an incomplete grade will be given until official completion of the internship. Note that the university generally requires students to be enrolled in the semester that they graduate. However, providing all other program requirements have been completed by the end of the spring semester (such as the dissertation) the DCT will request that summer enrollment be waived for students graduating in the summer. If all other requirements are not completed you will be required to enroll in at least one credit (for example, if you dissertation is not yet defended you will enroll in 1 credit of research for the summer semester).

Students who defend their dissertations prior to the 5th year do not register for continuing dissertation hours. Students, fifth year or beyond, who have not successfully defended the dissertation are required to enroll in 1CH of Dissertation each fall and winter semester until it is completed.

### Core Psychology

### Footnotes about the Core Curriculum

Note: A course number of 5580 denotes a “Special Topics” course. If more than one special topics course is offered in a semester, individual courses will be denoted with letters (e.g., 5580A, 5580B).

+ This represents the currently recommended sequencing of courses. Students may be allowed to alter this sequencing, with prior approval of the faculty advisor and DCT. This sequencing is also subject to change based on course availability in a given semester as determined by the program.

### Requirement for Retention

A detailed description of program policies and procedures, including the requirements for retention, is available in the student handbook which can be accessed through the Clinical Psychology (Health Emphasis) Track (http://cas.umkc.edu/psychology/GCPhD.asp) web page.

### Doctor of Philosophy: Psychology: Experimental Health Psychology Track

Contact Person:
The mission of the Experimental Health Psychology Track at UMKC is to enhance health outcomes, broadly defined, for individuals and communities. In service of this mission, we offer advanced training in the fundamental areas of experimental psychology, health psychology, and quantitative and methodological approaches for applied psychology. The program emphasizes the development of research skills and empirical investigation of real-world problems in the life and health sciences. Graduates are prepared for careers in academia, allied health, industry, and government agencies.

Experimental Health Psychology at UMKC is a full time program of graduate study. Didactic instruction is integrated with research from the beginning of students’ training. Students are paired with a faculty mentor and become part of a lab where they learn how basic research is applied to practical problems and develop the knowledge and skills to carry out original research. These experiences are graded in complexity and designed to foster the development of cumulative knowledge and skill as the student progresses through the program.

Admission Criteria

The program is designed for applicants with a prior bachelor’s or master’s level degree. The following are minimum criteria recommended for admission:

1. A bachelor’s degree in Psychology or related discipline. Satisfactory completion of prior coursework in Introductory/General Psychology, Experimental Methods/Research Design and Statistics/Quantitative Methods is required. Satisfactory completion of prior coursework in at least two of the following areas is also strongly recommended: Biopsychology, Cognitive Psychology, Learning, Motivation, Neuroscience, Sensation and Perception, and Social Psychology.

2. Undergraduate GPA of 3.0 or graduate GPA of 3.5. Alternative criteria may be accepted at the discretion of the admissions committee if there is good reason to believe the regular criteria do not adequately portray the student’s potential to do quality work in the program. However, admission to the program is highly competitive, and we seek to admit students with a general history of excellence.

3. Competitive Graduate Record Examination scores from the general test (GRE Math + Verbal greater than 300; Analytical Writing score of at least 4.5). Students whose scores fall below this recommended minimum may present additional evidence of their capacity to do quality doctoral-level work. Such additional evidence will be considered and accepted at the discretion of the Admissions Committee.

4. Demonstrated evidence of interest in health research. The program follows a mentorship model. Therefore, applicants whose research interests are similar to those of the faculty will be given higher consideration. A listing of program faculty interests and research can be accessed through the Department of Psychology web page.

5. History of personal conduct consistent with the ability to adhere to high standards of student conduct, as outlined in the UMKC Standard for Student Conduct.

A detailed description of program policies and procedures, including the requirements for retention, is available in the student handbook that can be accessed through the Experimental Health Psychology Track web page.

Admission Procedure

New students are admitted in fall semester only. Because the program receives applications from many more qualified individuals than can be admitted, admission is competitive. All application materials must be received by December 5 to be considered for admission the following fall. Visit the Experimental Health Psychology Track web page for current application procedures and links to other helpful application resources.

Student Learning Outcomes

Students completing the Experimental Health Psychology Track will demonstrate:

1. Competence in the evaluation, conduct, and dissemination of research to support independent activity at the next level (e.g., post-doctoral research, academic research, applied research),

2. Ethical conduct and high professional standards in research, including sensitivity to issues of diversity,

3. Knowledge of the theoretical and scientific foundations of health psychology, and

4. Understanding of the breadth of scientific psychology and its application to health psychology.

Program Requirements

The following represents the program’s core curriculum.
### Year I

<table>

Total Credits: 60

---

1. At completion of master’s degree: 36 total credits, 12 research credits
2. If students do not defend their dissertation by the end of the 4th year, they must enroll in 1 credit of Dissertation in each succeeding semester until it is completed.
3. Post-master’s degree: 24 total credits, 12 research credits

**Psychology Core Courses**

Select four of the following: 12

- PSYCH 5521 Advanced Social Psychology
- PSYCH 5507 Cognitive Psychology
- PSYCH 5518 Advanced Biopsychology
- PSYCH 5515 Advanced Systems And History Of Psychology
- PSYCH 5543 Adult Development And Aging

**Possible Electives**

- PSYCH 5533 Psychopathology
- PSYCH 5632 Health Psychology Interventions
- PSYCH 5580 Special Topics (Health Psychology: Community Based Participatory Research)
Requirements for Retention

A detailed description of program policies and procedures, including the requirements for retention, is available in the student handbook that can be accessed through the Experimental Health Psychology Track (http://cas.umkc.edu/Psychology/EHPPhD.asp) web page.

Description of Program

The Center for Religious Studies (http://cas.umkc.edu/Religious_Studies) offers an interdisciplinary, cross-cultural and socio-historical approach to the study of religion. The Center is a consortium of several area institutions of higher education that have pooled their resources to participate in the UMKC Interdisciplinary Ph.D. program. Students in religious studies are introduced to the many dimensions of religious belief, practice and expression found in human cultures across time and space.

In addition to graduate courses, the Center offers a number of undergraduate courses on topics such as gender and religion, women and religion, the anthropology of religion, and religion in America. Related courses relevant to the study of religion will be found under the listings of other departments and programs.

Bob Prue, Ph.D., Assistant Professor (social work research methods, open source and freely available software for social workers, interface of indigenous health and healing supports with mainstream, spirituality and social work, veterans’ issues, post-traumatic stress)

Lee Rathbone-McCuan, Ph.D., Professor (social policy and aging, families, international social work)

Patricia Scott, Ph.D., Assistant Teaching Professor (mental health, practice, substance abuse, disabilities)

Elaine Spencer-Carver, Ph.D., Assistant Clinical Professor, Director of Field Education (intimate partner violence, complex trauma, trauma impact on children and families, qualitative research, child welfare)

Department Description

The School of Social Work offers a program of study leading to the master's in social work degree and a professional career in social work. Started in 1999, the MSW program is the result of collaborative efforts by the University of Missouri System, UMKC and many social service agencies in the Kansas City metropolitan area. The MSW program received initial accreditation in May 2003 with reaffirmation of accreditation granted in 2007.

Mission of the School of Social Work

The mission of the School of Social Work is to "Prepare competent, advanced generalist social work practitioners to meet the needs of multicultural diverse populations in a dynamic mid-western metropolitan context; to be culturally proficient, ethical leaders and service providers engaged in knowledge-driven, inter-professional, multi-systemic, community-based practice; who advocate for social and economical justice, enhance human well being, and support individuals’ capacity to address their own needs.”

Mission-derived goals of the School of Social Work are to:

• Prepare culturally proficient advanced generalist social work leaders and practitioners to provide human services for diverse populations.
• Prepare advanced generalist social work leaders and practitioners to engage in interdisciplinary scientific inquiry, and critical thinking.
• Prepare advanced generalist social work leaders and practitioners to develop and implement multi-systemic, multilevel, evidence-based practices.
• Prepare advanced generalist social workers that understand and identify with the social work profession and are committed to upholding the values and ethics of the profession that serve to guide professional practice.
• Prepare advanced generalist social workers to advocate for social and economic justice through collaboration with multicultural diverse communities.

Vision of the School of Social Work

UMKC School of Social Work will become a model urban, professional school recognized for its partnership within diverse communities to effectively collaborate and sustain a safe, more economically secure, and socially just quality of life.

Career Implications

Why consider an advanced degree in social work? Above all, the degree is flexible and versatile. For example, social workers are employed in public social service agencies, nonprofit organizations, medical settings, schools, community-based clinics and residential settings. The social work perspective looks not only at individual thoughts, feelings and actions, but also at the social environment as a primary arena for opportunities for change. On behalf of the people they serve, social workers have strong interests in social policy and advocacy, as well as social science research and policy and program evaluation.

• Social workers have the right education, experience, and dedication to help people help themselves whenever and wherever they need it.
• Social workers help people in all stages of life, from children to the elderly, and from all situations from adoption to hospice care.
• Professional social workers are the nation’s largest providers of mental health services.
• According to the Bureau of Labor Statistics, the need for social workers is expected to grow twice as fast as any other occupation, especially in gerontology, home healthcare, substance abuse, private social service agencies, and school social work (BLS, 2010).

**Program Description**

The program educates Advanced Generalist Social Work practitioners for professional responsibilities at various levels with complex and dynamic human service organizations. To accommodate working students’ schedules, many classes are scheduled for late afternoons, evenings and weekends.

Faculty members and students co-create empowering learning environments through group discussions, role play, experiential occurrences and readings that enable transformational learning.

The practice-oriented curriculum is focused on advanced generalist social work practice in an urban environment. The curriculum provides: theoretically based understanding to assess diverse human behaviors in varied social environments; skills for operating in a multidisciplinary agency and community environment; research methods with practical application to agency practice; and approaches to working with culturally diverse populations.

The full-time, regular MSW program offers a two-year, 60-credit curriculum combining classroom and field experience. For students who already have a B.S.W. degree, the full-time Advanced Standing program includes 36 credits during a spring or summer semester and one full-time year of coursework with a supervised field practicum. Students may attend the part-time program schedule, but must complete the MSW in four years.

The foundation year curriculum includes coursework in generalist social work practice, theory and skills, social policy, human behavior in the social environment, social work research and a generalist field practicum experience in a human service agency approximately 16 hours a week.

The concentration year curriculum focuses on advanced generalist methods within an urban context. The required curriculum includes courses in program evaluation, advance practice methods, and a capstone course (Integration Seminar). Under the guidance of their academic advisor and in light of their career plans, students select four electives with a requirement of at least one elective in Integrative content area and at least one elective in Advanced Methodological approaches to Social Work practice. Finally, a second field practicum for approximately 16 hours a week provides advanced generalist experience and supervision.

**Field Practicum**

The practicum program uses agencies throughout the metropolitan area to offer experiences at both foundation and advanced levels. Students typically spend approximately two days in the field and are mentored by an MSW practitioner employed by the agency. Students spend a required number of hours in face-to-face contact with clients, in agency meetings, in individual or group supervision, and in the community. In some cases, students who already are social service employees can arrange to complete one year of their field placements at their own agencies. Practicum can also be completed in a student’s human service oriented work site, provided the Director of Field Education approves the same.

**Admissions**

The majority of applicants to MSW programs have a variety of undergraduate degrees. Some people have life or work experience in other fields and are ready for a career change. Others have worked in the human service field and are ready to pursue an MSW degree to advance in their careers.

• Applicants who hold a baccalaureate degree that, preferably, reflects a broad liberal arts base in the social, behavioral, or psychological sciences, or related disciplines, are encouraged to apply. The baccalaureate degree should be from an institution accredited in a manner accepted by UMKC.

• B.S.W. degrees from accredited programs may be considered for the advanced standing program if students have received a B.S.W. degree within the last five years.

• A minimum cumulative GPA of 3.0 is preferred. However, lower GPAs will be considered for provisional admission when combined with volunteer and work experience, or when there are extenuating circumstances.

• GRE is not required.

• The UMKC application and School of Social Work application are both required. Applicants must provide narratives addressing the following:
  a. **Statement of Values and Ethics**
     Attach a brief essay (2-5 typewritten, double-spaced pages) in which you address the following: The NASW Code of Ethics may be found at http://www.socialworkers.org/pubs/code/default.asp
     i Discuss your purpose for pursuing a Master’s in Social Work.
     ii Compare and contrast your personal value framework with the NASW Code of Ethics’ values and principles.
     iii In light of the Code of Ethics, what human needs do you hope to address as a professional social worker?
     iv In light of the Code of Ethics, how will you infuse all of the six ethical principles into your future social work practice?
     v Describe a personal life experience that challenged your values and ethics. How did you respond to this challenge?
  b. **Preparation for Professional Training**
     Read the prompts below and provide complete answers including specific examples (2-5 typewritten, double-spaced pages).
     i Please explain any particular difficulties or successes in your undergraduate academic career.
     ii How would you evaluate your academic experience up to this point in time?
iii Identify how you manage personal and professional challenges in your life.
iv What social supports do you have in place (or can you put in place) to assist with managing work, family and academic commitments?
v Identify the areas in which you need further learning and growth.

• Advanced Standing Only
Please provide a 3-5 page typewritten, double-spaced response to the following:
a. Provide an overview of your field practicum experiences.
b. Describe lessons learned from your field experiences. Provide specific examples.
c. How do you think these lessons-learned will affect your future social work field experiences?
d. In relation to the social work profession, in what areas do you need to further your personal and professional growth?

• Additional Information
a. Use the forms provided to supply three references. Include a person able to judge your potential for social work (a social worker who has supervised you, an employer, or field instructor) and a person able to judge your writing, critical thinking, and academic potential.
b. While personal interviews are not required, the MSW Admissions Committee may request a meeting with an applicant. Applicants with questions about the program may attend public information sessions, which are scheduled once a month in the Social Work office. See website for details (cas.umkc.edu/socialwork (http://cas.umkc.edu/socialwork)).
c. The program is inclusive and draws from a diverse applicant pool. Toward this end, program faculty members make regular community presentations to diverse groups. The program works with student organizations representing women, people of color, gay, lesbian, bisexual, and transgender people, international students, and students with disabilities. Individuals from diverse groups are encouraged to apply.
d. For additional details, please refer to the Student Handbook pdf file at the School of Social Work website: http://cas.umkc.edu/socialwork/pdfs/2012-2013-Student-Handbook.pdf
e. UMKC University Application for Admission and its application fee are required. In addition you are required to submit all of the School of Social Work application material.

• Application Checklist
Please refer to the following checklist before sending materials:
a. Send to the School of Social Work:
   • Social Work Application for Admission: Online application for both the regular and advanced standing programs is available at http://cas.umkc.edu/socialwork.
   • Statement of Values and Ethics Narrative
   • Preparation for Professional Training Narrative
   • Advanced Standing Narratives (if applicable)
   • Letters of Reference (3): References are submitted with the name of the applicant written across the flap of the envelope.
   • Mailing Address:
     University of Missouri-Kansas City
     School of Social Work
     5053 Cherry Street
     Cherry Hall Room 225
     Kansas City, MO 64110-2499

1. Send to UMKC Office of Admissions:
   • All undergraduate and graduate transcripts.¹
   • University Application for Admission: Go to https://www.umkc.edu/apply to begin the online application process.
   • Application fee

• Mailing Address:
  UMKC Office of Admissions
  120 Administrative Center
  5100 Rockhill Rd, Kansas City
  MO 64110-2499

¹ You must personally request transcripts from previous schools you have attended. Requests for official transcripts should be made as soon as possible to ensure timely receipt of these documents. In addition, applicants who either currently attend or have attended UMKC must make a new request for transcripts to be reported to the School of Social Work. For transcript assistance, please call (816) 235-1125. Individuals with speech or hearing impairments may call Relay Missouri at (800) 735-2966 (TT) or (866) 735-2460 (voice).
Application Deadlines

Advanced Standing

- October 1 to begin courses in Spring Semester
- February 1 to begin courses in Summer Semester

Regular Program

- March 1 to begin courses in Fall Semester

Note: All completed applications will be reviewed on a first-come, first-served basis

Midwest Student Exchange Program (MSEP)

MSEP is an interstate initiative established by the Midwestern Higher Education Commission to increase educational opportunities for students in its member states. MSEP enables residents of Kansas, Michigan, Minnesota, Missouri, Nebraska and North Dakota to enroll in designated institutions and selected programs outside their home state at reduced tuition levels.

Student Advising

Upon admission into the program, students must:

1. Read student handbook available on our website: cas.umkc.edu/socialwork. (http://cas.umkc.edu/socialwork)
2. Attend student orientation in the Fall/Spring semester.
3. Schedule a meeting with their academic advisor during the academic year to develop a plan of study.
4. Report any changes they make to the plan of study to their advisor.
5. Full-time students must meet the Director of Field Education and complete a field application form to select and finalize field placement.
6. Part-time students must meet the Director of Field Education at the end of their first year in the program, fill out the field application form and finalize field placement before the beginning of their second year in the program.

Professional Status

After graduation, students are well prepared to accept professional social work positions with populations at-risk in a variety of human service, mental health, medical, or community settings.

Both Missouri and Kansas offer an exam to license specialist clinical social workers after two years of supervised practice in direct services. For social workers who plan to practice at this level, Kansas statutes require completion of graduate or continuing education courses in psychopathology and diagnostic skills. Students who are considering clinical licensure in Kansas are encouraged to take SOC-WK 5560 as an elective prior to graduation from the MSW program.

Both Missouri and Kansas offer the following licenses for professional social workers:

- LBSW-Licensed Bachelor’s Social Worker
- LMSW-Licensed Master Social Worker

Missouri also offers:

- LAMSW - Licensed Advanced Macro Social Worker

Master of Social Work

Student Learning Outcomes

Upon graduating from the MSW Advanced Generalist program at UMKC, students will be able to:

2. Articulate and demonstrate the NASW Code of Ethics in professional practice.
3. Assess and apply multiple sources of knowledge and information to make practice and program decisions.
4. Demonstrate diversity-related knowledge, values, and skills to improve practice and practitioner growth.
5. Promote social and economic justice in practice through policy and programmatic advocacy.
6. Evaluate practice and use results of research and evaluation to improve programs, policy, and service delivery.
7. Use a theoretical framework addressing context, population, and culture in order to analyze, evaluate, assess, and intervene with client systems.
8. Integrate policy practice within and across systems to make intervention more effective and comprehensive.
9. Provide leadership to recognize and respond to ever-changing population needs.
10. Establish a process that encourages participants to be equal partners.
11. Select and modify multi-systemic assessment of contributing factors to a practice situation.
12. Demonstrate the use of appropriate interventions to address assessed contributing factors to a practice situation.
13. Use evaluation of process and outcomes to refine or develop evidence-based practice interventions.
14. Utilize personal power and professional privilege for ethical leadership.

Plan of Study

The following course of study is a typical schedule for a full-time student. A student must complete all foundation level courses before taking any electives and concentration level courses. The plan of study is subject to change.

<td>3</td>
</tr>
</tbody>
</table>

Advanced standing students then complete concentration level courses.

The graduate social work program grants the M.S.W. degree when students have completed the following degree requirements:

1. 60 credit hours of class (48 hours) and field (12 hours) for regular program students.
2. 36 credit hours of class (30 hours) and field (6 hours) for advanced standing students.
3. To remain in good standing, students must maintain a cumulative GPA of 3.0.
4. Part-time students must complete the program within four years.
5. Students take four electives (12 credit hours) in the concentration year.

Note: For students with disabilities or special learning needs, the program works closely with the Office of Disabled Student Services regarding special accommodations.

Department Description

The Department of Sociology offers programs of study leading to:

- Bachelor of Arts in Sociology - two options:
  - General Sociology
  - Cultural Anthropology Emphasis
- Master of Arts in Sociology

Program minors are available in:

- Sociology
- Anthropology

The mission of the department is to extend knowledge about the nature of social life. In the process of learning about social life, students will have opportunities to develop critical thinking and research skills and to apply classroom learning through experiences in community organizations and agencies. Department faculty members are committed to excellence in teaching and work to assist students in developing a foundation for moving into a career.

Department Activities

Academic Advising

Student academic advising is a continuous process in the department. Undergraduate advisors are available for consultation throughout the academic year. The department recommends that students check the program requirements in the department office before filing the Declaration of Major form. Undergraduate majors are encouraged to consult with the department to establish a tentative plan of study and to meet with a department advisor each
semester. Students should leave their mail and e-mail addresses with the department office so that they can receive notifications concerning the class
time table, new classes, and other departmental information of interest to majors.

Financial Assistance
Students can receive financial assistance through various campus scholarships, loan programs, grants and the work-study program. Students who are
interested should contact the Financial Aid and Scholarships Office.

Sociology Club and Honor Society
The Sociology Club is open to all students majoring in Sociology as well as students who are interested in this field but have not yet declared a major.
Club activities include service projects in the community, sponsorship of community speakers on campus, participation in local and regional professional
meetings, and learning about internships and research opportunities. The department has a chapter of Alpha Kappa Delta, a national honorary society
for Sociology students.

Undergraduate Student Award
A special award was established as a memorial to Edward Tomich, Ph.D., professor of Sociology from 1964 to 1976. Students must submit an
application to the department to be considered for the award. On the recommendation of the department faculty, the Edward Tomich Award is
given annually to a senior student majoring in Sociology who exemplifies an indomitable spirit; a commitment to the struggle for human welfare; an
unquenchable thirst for knowledge and personal growth; an unwillingness to be cowed by authority or the superficialities of status; a readiness to ask the
more difficult questions while being ready to accept the uncertainty of answers; and an appreciation of the value of theoretical knowledge about human
interaction in everyday life.

Cooperative Programs
The department cooperates with other programs frequently by jointly listing courses at the undergraduate level. Students may benefit from combining
one of these areas of study with their major in sociology:

- Black Studies
- Family Studies
- Gerontology
- Honors
- Latina/Latino Studies
- Women’s and Gender Studies

Undergraduate Admission Requirements
High school students are encouraged to take a general college preparatory curriculum. Additional courses in Mathematics, English, foreign languages
and the social sciences, such as Economics, Anthropology, Psychology and Sociology are recommended. Students planning to transfer from a
community college are encouraged to take at least 6 credit hours of Sociology (including introductory Sociology), and college Algebra. A maximum of 12
hours of transfer credits, including introductory Sociology, can be counted toward satisfaction of the major field requirements.

Faculty

Jeffrey S. Bennett Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=bennett); associate professor of anthropology and
religious studies; B.A. (University of Washington); M.A., Ph.D. (University of Chicago).

Linda M. Breytspraak Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=breytspraak); professor emeritus of sociology and

Undergraduate
Undergraduate Degrees:
• Bachelor of Arts: Sociology (p. 245)
• Bachelor of Arts: Sociology with Cultural Anthropology Emphasis (p. 245)
• Minor in Sociology (p. 248)
• Minor in Anthropology (p. 247)

Graduate
Graduate Degrees:
• Master of Arts: Sociology (p. 248)

Bachelor of Arts: Sociology

Career Implications
The B.A. curriculum in sociology is designed to prepare students for a variety of career paths, including:
• Future graduate work in sociology in order to become a professor, researcher, or applied sociologist.
• Entry-level positions throughout the business, human services, and government sectors. Employers look for people with the skills that an undergraduate education in sociology provides.
• Careers in journalism, politics, public relations, business, or public administration—fields that involve the kind of investigative skills and ability to work with diverse groups that students encounter in the curriculum our faculty’s expertise.
• Professions such as law, education, medicine, social work, and counseling—fields that all draw on the rich fund of knowledge from sociology.

Student Learning Outcomes

Graduates of the Bachelor of Arts in Sociology degree program will be able to:

• Examine the role and relevance of the sociological perspective for contemporary social life. Thus students will gain knowledge of the fundamentals in Sociology, such as the foundations of human practice, belief, and organization.
• Reflect on contemporary issues and controversies in the academic discipline of Sociology. Thus students will be able to examine issues of inequality, cultural difference, and social stratification from a comparative perspective, applying sociological principles and concepts to their own lives.
• Explore the basic theoretical and methodological perspectives, both in the social sciences and in a chosen specialty area. Thus students will have the capacity to critically evaluate and engage contemporary issues, trends in theory, and instruments of social analysis.
• Advance the critical research, thinking, and writing skills that are integral to professional development and civic engagement. Thus students will apply the fundamentals of sociology to both experience and an enhanced interest in community engagement.

Bachelor of Arts: Sociology Degree Core Requirements

The bachelor of arts degree in sociology requires a total of 33 credit hours in addition to the general requirements for a degree in the College of Arts and Sciences.

Courses required for Bachelor of Arts in Sociology:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 101</td>
<td>Sociology: An Introduction</td>
<td>3</td>
</tr>
<tr>
<td>ANTHRO 103</td>
<td>Introduction To Cultural Anthropology</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 263</td>
<td>Introduction to Statistics in Sociology/Criminal Justice</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 361</td>
<td>Social Theory</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 362</td>
<td>Methods Of Sociological Research</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 404WI</td>
<td>The Sociology Capstone: Senior Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

1. STAT 235 is not a substitute for SOCIOL 263.
2. All majors are required to take a writing intensive course within the Department of Sociology (SOCIOL 404WI fulfills this requirement).

Other degree requirements include:

1. A minimum grade of C- in all required courses listed above.
2. A 2.0 grade-point average in the 33 major credit hours.
3. Completion of the general degree requirements of the College of Arts and Sciences with a minimum GPA of 2.0.
4. No more than three one-credit courses of Special Topics in Sociology (SOCIOL 300__) may be used to fulfill sociology elective requirements.
5. Students may apply a maximum of 12 credit hours of Sociology courses from other schools toward the major (introductory sociology, introductory cultural anthropology, and/or sociology electives).
6. Students are restricted to 6 credit hours of any combination of field experience, directed individual study and/or research toward the 33 hours required in the sociology major.

Bachelor of Arts: Sociology Electives

To earn the undergraduate degree in sociology with no emphasis, in addition to the core requirements students take 15 elective credits. Six of the 15 electives must be at the 300-level or higher.

Bachelor of Arts: Sociology with Cultural Anthropology Emphasis Electives

Starting Fall Semester 2014 sociology majors can earn a cultural anthropology emphasis within the undergraduate degree. As the comparative study of human societies, a cultural anthropology emphasis is uniquely poised to develop diversity awareness which is increasingly critical as the world becomes more global. To earn the cultural anthropology emphasis, in addition to the core major requirements, students must take 15 elective credit hours from the course list below. Nine of these 15 credit hours must be at the 300-level or higher. Completion of the emphasis is recorded on the student’s transcript.

**Field Experience and Directed Individual Study**

Several courses at the 300 and 400 level are set aside for individual study—either as readings or research courses. The readings course (SOCIOL 397/ANTHRO 397) has variable credit from 1 to 3 credit hours, and individual contracts are made with faculty members prior to a student selecting the course. The individual research course, SOCIOL 398, has variable credit from 1 to 6 credit hours, and individual contracts must be made with faculty prior to enrolling in the course. The department also offers internship courses (SOCIOL 390R and SOCIOL 391), which require considerable work outside the classroom, often in an agency setting. Students are restricted to 6 credit hours of any combination of field experience, directed individual study and research toward the 33 hours required in the sociology major.

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

**Minor in Anthropology**

Students are urged to confer with a department advisor to plan a minor. To declare a minor in anthropology, students must file a completed declaration form with a current copy of their transcript with the Anthropology Program Coordinator. Completion of the minor is recorded on the student’s transcript.
Student Learning Outcomes

Graduates with a minor in Anthropology will be able to:

- Examine the role and relevance of the sociological perspective for contemporary social life. Thus students will gain knowledge of the fundamentals in Sociology, such as the foundations of human practice, belief, and organization.

- Reflect on contemporary issues and controversies in the academic discipline of Sociology. Thus students will be able to examine issues of inequality, cultural difference, and social stratification from a comparative perspective, applying sociological principles and concepts to their own lives.

- Explore the basic theoretical and methodological perspectives, both in the social sciences and in a chosen specialty area. Thus students will have the capacity to critically evaluate and engage contemporary issues, trends in theory, and instruments of social analysis.

- Advance the critical research, thinking, and writing skills that are integral to professional development and civic engagement. Thus students will apply the fundamentals of sociology to both experience and an enhanced interest in community engagement.

Anthropology is a holistic and cross-culturally comparative science that is uniquely qualified to prepare students for multicultural work and social environments in the U.S. and abroad. Careers for Anthropologists, however, lie in all areas of human interaction. Anthropologists are especially attractive to companies and government agencies that work with and for national minorities and in foreign countries.

Students will be introduced to the subject and methods of cultural anthropology, examining its foundations and current trends in theory and applications. Students earning a minor in Anthropology take 6 credit hours of required coursework (ANTHRO 103) and 15 credit hours of elective courses, which result in a total of 18 hours. Electives can be planned around an area of specialization. At least 9 of the 18 credit hours must be in courses at the 300- or 400-level. Where courses are cross-listed in the major and minor, only 6 credit hours can be applied to both. Students should consult with the program coordinator to select the appropriate courses. A minimum grade of C in ANTHRO 103 and a minimum overall GPA of 2.0 in the minor must be attained. No more than 6 of the 18 credits may be transferred from another institution.

Minor in Sociology

Students are urged to confer with a department advisor to plan a minor. To declare a minor, students must file a completed declaration form with the College of Arts and Sciences Advising Office. Completion of the minor is recorded on the student’s transcript.

Student Learning Outcomes

Graduates with a minor in Sociology will be able to:

- Examine the role and relevance of the sociological perspective for contemporary social life. Thus students will gain knowledge of the fundamentals in Sociology, such as the foundations of human practice, belief, and organization.

- Reflect on contemporary issues and controversies in the academic discipline of Sociology. Thus students will be able to examine issues of inequality, cultural difference, and social stratification from a comparative perspective, applying sociological principles and concepts to their own lives.

- Explore the basic theoretical and methodological perspectives, both in the social sciences and in a chosen specialty area. Thus students will have the capacity to critically evaluate and engage contemporary issues, trends in theory, and instruments of social analysis.

- Advance the critical research, thinking, and writing skills that are integral to professional development and civic engagement. Thus students will apply the fundamentals of sociology to both experience and an enhanced interest in community engagement.

Undergraduate students can complete an 18-credit minor in Sociology. Course work must include the introductory course, SOCIOL 101, and at least 9 credits at the upper-division (300 or 400) level. Where courses are cross-listed in the major and minor, only 3 credit hours can be applied to both. A minimum grade of C- in SOCIOL 101 and a minimum overall GPA of 2.0 in the minor must be attained. No more than 6 of the 18 credits may be transferred from another institution.

Master of Arts in Sociology

Career Implications of the M.A. in Sociology

Some M.A. recipients go directly into teaching at the community college or high school level. Others enter the corporate, nonprofit and government worlds in areas such as directors of research, policy analysis, consulting, human resource management and program management. Some may become a director in a social service agency. For outstanding students, the M.A. is preparation for doctoral level studies.

Admission Requirements

Regular admission to the Sociology Master’s program typically requires a baccalaureate degree from an accredited college or university in Sociology (or related discipline such as Political Science, Anthropology, or History) with a minimum overall undergraduate GPA of 2.75, and a GPA of 3.0 in both (a) the junior and senior years and (b) Sociology coursework.

Students who do not meet these above requirements may be accepted conditionally to the program. For students to gain full admission to the program, they must first demonstrate aptitude for coursework in Sociology by passing three critical undergraduate courses with at least a B- (80%): Introduction
to Sociology, Social Theory, Research Methods, and Statistics (equivalent to SOCIOL 101, SOCIOL 361, SOCIOL 362 and SOCIOL 363). We strongly advise applicants to have completed at least two (preferably all four) of these courses prior to applying to the program.

Application Procedures

Application Deadlines:

- **November 1**: Winter/Spring semester admission
- **February 15**: Fall semester admission. To be considered for departmental teaching or research assistant positions, applicants must submit the GTA/GRA assistantship application in addition to the MA application packet by **February 15**. The graduate assistantship application form is available at [http://cas.umkc.edu/sociology/images/documents/gtagra-application.pdf](http://cas.umkc.edu/sociology/images/documents/gtagra-application.pdf).
- **April 1**: Fall semester admission (deadline for applicants who are not applying for a departmental teaching or research assistantship position).

A complete application packet includes the application fee, as required, and these materials submitted to the university’s Office of Admissions:

- The UMKC general application form, available at [http://www.umkc.edu/admissions](http://www.umkc.edu/admissions)
- All undergraduate transcripts;
- Three letters of recommendation, preferably from former instructors;
- One undergraduate written assignment that best illustrates your ability to think analytically; and
- A two to three page statement outlining your goals for graduate study, the nature of your interest in Sociology, and at least one current UMKC faculty member whose areas of expertise match your interests, any past experiences that are relevant, as well as your future plans. (This is in place of completing the statement of purpose section on the UMKC application.)

We strongly encourage the student to contact directly the principal graduate advisor, Dr. Sookhee Oh (ohso@umkc.edu), or other faculty members who share your research interests prior to or during the admission process.

Student Learning Outcomes

Students who earn a Master of Arts in Sociology should be able to:

- **Examine** the role and relevance of the sociological perspective for graduate students who will have the knowledge and skills necessary to pursue either a Ph.D. in a related field or to engage in enhanced study, research, and/or application of sociological method and theory.
- **Reflect on** contemporary issues and controversies in Sociology, and advance sociological research through their own creative engagement with social theories and methods.
- **Explore** the theoretical and methodological perspectives in a chosen specialty area to elaborate the historical development and contemporary manifestation of social inequalities.
- **Advance** critical research and writing skills for professional development and civic engagement such that graduate students will deepen their professional commitment to community.

Curriculum Requirements

This program requires 30 credit hours of coursework. The following core courses (15 credits) are required of all students and should be taken early in the program:

### Required Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCIOL 5501</td>
<td>Social Theory I</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 5502</td>
<td>Social Theory II</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 5510</td>
<td>Sociological Methods I</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 5511</td>
<td>Sociological Methods II</td>
<td>3</td>
</tr>
<tr>
<td>SOCIOL 5516</td>
<td>Intermediate Statistics</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>15</strong></td>
</tr>
</tbody>
</table>

In addition to these required courses, students must complete an additional 15 credit hours, generally fulfilled by taking graduate-level courses from the Sociology curriculum. Specifically, these 15 hours beyond the core courses may include up to 6 credit hours of thesis research, up to 3 credit hours of independent/directed studies, up to 6 credit hours of 400-level coursework in the department, and/or up to 6 credit hours of graduate coursework from other disciplines with the approval of the Sociology principal graduate advisor. In no case can more than 3 one-credit courses be part of the program of study.

Students are expected to earn a GPA of 3.0 or above in the core courses and an overall GPA of 3.0. Those who do not meet this requirement will be subject to review by the departmental graduate standards committee. Students who do not perform at a satisfactory level during their time in the program may be reviewed by the Graduate Standards Committee and subsequently can be placed on probation and/or terminated from the program.
Students must complete at least 3 credit hours of graduate work each semester (fall and spring) for the first 2 years of the program and at least 1 credit hour each subsequent semester (fall and spring) to maintain their standing in the program.

By the midpoint of the program, a student should have selected at least 3 faculty members to serve on the master’s committee and filed a program of study.

Students may complete the M.A. requirements in Sociology through either: (a) the thesis option, or (b) the comprehensive exam option. We strongly advise students to pursue the thesis option as this provides the greatest flexibility for future study and employment choices.

**Thesis Option**

For this option, 6 credits of the 30 required hours are used for the completion of the master’s thesis. An oral defense of the thesis is required. Students who aspire to further study at the doctoral level should select the thesis option.

**Comprehensive Exam Option**

This option requires 30 hours of graduate coursework. Near completion of all coursework, students choosing this option must pass a comprehensive exam comprised of 3 parts:

1. sociological theory;
2. research methods and statistics; and
3. a substantive area of the student’s choice in consultation with the principal graduate advisor or the student’s committee chair.

If a student is unable to pass any component of the comprehensive exam on a second try, the graduate standards committee will evaluate the situation and decide if circumstances warrant a third attempt. Under no circumstances, will a student be given more than three attempts at passing the comprehensive exam.

**Department of Theatre**

**Address:**
4949 Cherry Street
Honorary Patricia McIlrath Street #404
Kansas City, MO 64110
(816) 235-2702
Fax: (816) 235-6552
theatre@umkc.edu
http://cas.umkc.edu/theatre

**Department Description**

The Department of Theatre offers the following degrees:

- Bachelor of Arts,
- Master of Arts centered in theatre history and dramatic literature or playwriting, either of which may include dramaturgy,
- Master of Fine Arts in acting or design and technology.

The department has a unique mandate. It is the only department in the state university system of Missouri empowered to grant the M.F.A. degree in theatre, the terminal degree for candidates preparing for a career in the professional theatre. Accordingly, the main thrust of the department is its master of fine arts programs that prepare professional actors, designers and technicians for the regional repertory and commercial production companies of the United States. Training in the master of fine arts programs is performance and production oriented. The unique arrangement by which the Department of Theatre and the Kansas City Repertory Theatre coexist, interact and support each other while using the same facilities provides ideal opportunities for candidates.

A training ensemble of experienced professionals is maintained to teach classes and address candidates’ needs. In addition to the regular faculty, guest directors and visiting teachers are brought in from the professional world outside and from the ranks of the Kansas City Repertory Theatre to enhance training opportunities. Accreditation is by the National Association of Schools of Theatre. The Department is also a member of the University/Resident Theatre Association.

**Faculty**

Erika Bailey Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=bailey); associate professor of theatre; B.A. (Williams College); M.F.A. (Brandeis University); M.A. (Central School of Speech and Drama).
Charles (Chaz) Bell Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=bell); teaching assistant professor of technical theatre; B.A. (Southwest Baptist University); M.F.A. (University of Missouri-Kansas City).

Lindsay Davis Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=davis); professor of theatre; B.A. (Harvard College); M.F.A. (New York University-Tisch School of the Arts).

Jeff Dreisbach; adjunct associate professor of theatre; B.F.A. (Wayne State University).

John EZell Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ezell); Hall Family Foundation Professor of Design; B.F.A. (Washington University); M.F.A. (Yale University).

Gene Friedman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=friedman); associate professor of theatre.

Undergraduate

Undergraduate Degrees:
- Bachelor of Arts: Theatre (p. 252)
- Minor in Theatre (p. 253)

Graduate

Graduate Degrees:
- Graduate Assistantships (p. 253)
  - Master of Arts: Theatre (p. 254)
  - Master of Fine Arts: Acting and Directing
  - Master of Fine Arts: Design and Technology (p. 255)

Bachelor of Arts in Theatre

Student Learning Outcomes
Upon completion of the B.A. in Theatre, a student will have:

- demonstrated an ability to communicate ideas in clear and correct writing.
- studied a sampling of world dramatic literature.
- experienced an overview of the working theatre: in performance, design, direction, and technical production.
- learned the basic skills that will make it possible to pursue an advanced degree in performance, design, technical production or theatre history.
- assimilated the etiquette and ethics of interacting with others in the theatrical profession.

Program Requirements
The main objective of the B.A. in Theatre is to give students a broad education. The degree requirements for the B.A. in Theatre furnish our majors with a well-rounded education in all aspects of theatre. While the program is broad in its scope, it allows students the opportunity to develop specific areas of interest by choosing from one of three tracks.

General THEATRE Track
The general Theatre track is for students who want the flexibility to explore all areas of theatre. They can choose from a wide variety of courses including stage management, design, performance and playwriting.

Performance Track
Students interested in performance may select the performance track. Courses are geared toward students who want a professional career as an actor or want to prepare for placement in a top graduate program. Students receive instruction in voice, movement, acting, Shakespeare and specialty areas such as stage combat or physical theatre.

Design/Tech Track
The design/tech track offers students interested in areas of technical theatre and design the opportunity to develop the skills necessary to work in the professional theatre or attend a top graduate school. Within this track students might choose to emphasize a particular area of design. Students can focus their studies in scenic design, costume design, lighting design, sound design or stage management.

All Tracks
Production experience as well as internship opportunities give undergraduate theatre majors the chance to apply classroom theory to practical situations. Taking part as a crewmember, designer or performer in one of the departmental productions is an integral part of the theatre experience at UMKC. In a typical year there are two undergraduate productions in addition to as many as seven department productions, providing plenty of opportunity. The department also has relationships with many professional theatres. Internships and job opportunities frequently occur from these relationships.

Departmental Requirements

Required Courses

<table>
<thead>
<tr>
<th>Course Code</th>

</tr>
</tbody>
</table>
THEATRE 210  Introduction To Design For The Theater  3
THEATRE 350  Theatre History I  3
THEATRE 351WI  Theatre History II  3
THEATRE 378  Stage Management I  3
THEATRE 403  Theatre Company & Production  8
THEATRE 415  Beginning Directing  3
THEATRE 497  Repertory Theatre  3-6

Track Requirements
Undergraduates can choose from the following tracks: 2

- General Theatre
- Performance
- Design/Technology

Total Credits  18

1 Due to the number of shop/production hours required, THEATRE 113 and THEATRE 378 should be taken in different semesters.
2 Contact the Theatre Department for track requirements.

Non-Departmental Requirements
Six credits total in music and art (three hours each):

- ART-HIST 110  Introduction to the History of Art: Pyramids to Picasso  3
- CONSVTY 120  Music Appreciation  3

Total Credits  6

Minimum Grade Requirements
Students must earn a grade of C (-) or above in all courses required by the major.

Tools for Planning and Fulfilling Academic Requirements
UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Theatre Minor
A minor in theatre consists of a minimum of 18 credit hours, including THEATRE 1301, and 15 additional hours approved by the theatre academic advisor. A minimum of nine hours must be completed at the 300-400 level.

It is the intention of the theatre faculty that the minor be general with courses from various areas of theatre, rather than a speciality in one area.

Students must earn a grade of C(-) or above in all courses required by the minor.

1 Theatre minors must enroll in the “for majors” section of THEATRE 130 offered in the Spring semester. For a class permission to enroll, contact academic advisor Cindy Stofiel, (816) 235-6683, stofielc@umkc.edu, 120 PAC.

Graduate Assistantships
Graduate assistantships are available in the following areas: acting, costume, lighting, stage management, scene shop carpentry, scene painting, sound, property construction, house management, technical direction, publicity and departmental assistance with THEATRE 130.
Master of Arts in Theatre

Student Learning Outcomes

Upon completion of the M.A. in Theatre, students will:

- Be well-read, appreciative of, and able to discuss a broad sampling of world dramatic literature
- Be able to converse about and teach a survey of theatre history, as well as some specialized knowledge of a chosen era, aesthetic movement or artist in a historical-cultural context
- Demonstrate research skills that will make it possible to pursue the Ph.D.
- Communicate ideas in clear and correct writing and spoken English
- Be familiar enough with various components of the art of the stage to be able to interact with theatre professionals.

Program Requirements

The M.A. degree in theatre is a research-oriented, two-year degree that will prepare students for admission to Ph.D. programs. A minimum of 36 hours is required. Students may plan their programs centered on theatre history and dramatic literature or on playwriting, either one with an optional component in dramaturgy. Opportunities exist for M.A. students to serve as dramaturg or assistant to the director of academic and professional productions. A thesis is required to complete the degree. M.A. students are subject to the General Graduate Academic Requirements of the University for graduate study.

M.A. candidates are expected to maintain at least a 3.0 grade point average.

Master of Fine Arts in Acting and Directing

Student Learning Outcomes

Students graduating with an M.F.A. in Acting from UMKC should be expected to demonstrate the following:

- A detailed understanding of their individual processes as actors through which they find the physical, vocal, emotional and intellectual availability to meet the requirements of a given role. This shall include but not be limited to:
  - A working knowledge of the human voice as a primary means of communication.
  - A working knowledge of the human body as a primary means of communication.
  - A working knowledge of the human psyche as a primary means of motivation.
  - A working knowledge of research methods through which to gain an understanding of the circumstantial life of a character.
- An experiential knowledge of theatrical performance genres from classical roots through contemporary theatre.
- A strong familiarity with a wide range of dramatic literature.
- The ability to work with directors of varying working processes and communication styles.
- The ability to work in collaboration with an ensemble of artists.

Program Requirements

The acting program is a three-year, minimum 60-credit-hour professional actor-training program interacting with the Kansas City Repertory Theatre, a professional Equity LORT B Theatre. M.F.A. students are subject to the General Graduate Academic Requirements (http://cat-edit.umkc.edu/~Catalog/ViewCatalog.aspx?pageid=viewcatalog&topicgroupid=54138) of the University for graduate study.

First Year

The first year of training is a highly disciplined, process-oriented period of study including: a morning group warm-up; collaboration class which integrates students and faculty from each area of study; intensive breath and vocal production; basic speech work; introductory dialect work; text analysis; individualized fitness and nutritional programs, alignment and self-use process; physical approaches to characterization including physical isolations and effort shape; neutral, extreme and character mask work; ballroom dance. We pursue intensive exploration of creative technique, based on Constantin Stanislavski, Stella Adler and Morris Carnovsky’s principles of theatrical truth; building a character; and ensemble play. Performance work includes the first-year “Creativity Project”, that usually is inspired by classical material. Other projects may center around social issues of the day or character searches.

Second Year

In the second year of training the student actor continues with a morning warm-up; collaboration class; Fitzmaurice voice production along with continued speech and dialect work and a focus on heightened text and extended voice; private and ensemble singing tutorials; stage combat (unarmed, rapier, dagger, broad sword and quarter staff); subtle energy work; period-style movement including social convention and dance; Commedia dell’ arte characterization, mask work and personal clown; continued work on acting Shakespeare; intensive work on Moliere verse text integrated with the period-style movement and comic technique; restoration or other heightened language text; and application of the actor’s process to audition technique and
contemporary text. Essential Meisner work is folded into exploration of creative technique. Second-year actors begin public performance work with
guest and faculty directors on new, contemporary and period plays chosen specifically for the training. Occasionally, roles at the Kansas City Repertory
Theatre, and other professional theatres in town, are available for second-year actors.

Third Year
Third year actors continue to apply their craft to challenging studies in many styles of plays; they deepen their understanding and application of Meisner
 technique and work on ongoing solo and ensemble exploration in personal clown; foil and saber fencing; singing; tutorials in speech and movement as
well as voiceover workshops and acting for the camera. Public performance work intensifies with specific productions chosen to challenge the actor’s art
within the training program. Actors also, when applicable, audition for Kansas City Repertory productions and are cast, when appropriate, in roles or as
understudies. Actors also audition and perform, when appropriate, in other Kansas City professional Equity theatres. In May, the actors are showcased
in New York, as part of the New League Showcase sponsored by the Alliance for the Development of Theatre Artists, Inc., and sometimes showcased in
Chicago and/or Los Angeles. All students who are considered “in good standing” participate in showcase.

Retention
In addition to being expected to maintain at least a 3.0 grade-point average, all M.F.A. acting candidates will be evaluated by the performance faculty at
the end of each semester to determine whether they have shown satisfactory progress to warrant continuation in the program.

Master of Fine Arts in Design and Technology

Student Learning Outcomes
Students graduating with an M.F.A. in Design and Technology from UMKC will have a detailed understanding of their individual processes as designers
through:

• Design - mastering interpretation, collaboration and idea development; developing the graphic tools needed to superlatively communicate design
  ideas visually.
• Technical Skills - mastering the tools of production, and the processes associated within each design/technology discipline.
• History - mastering research, text analysis and dramatic history.
• Production - mastering the artistic merging of design, history and technical skills through the experiences of numerous and varied productions.
• Entrepreneurship - mastering the business of the profession and career growth.

Upon completion of the course of study, graduates will have created portfolios of such quality as to effectively introduce themselves to the profession as
artists ready for assignments.

Program Requirements
This is a three-year program requiring a minimum of 60 credit hours.

Students majoring in design and technology may choose to specialize in:

• Design (scenic design, costume design and technology, lighting design, sound design).
• Technical direction.
• Stage management.

Design Emphasis
Those choosing a design emphasis will be prepared to compete for United Scenic Artist Local 829 membership as scenic designers, lighting designers,
costume designers or sound designers. They also will be prepared to design in professional theatre centers and in major universities and colleges.

Technology Emphasis

Technical Direction
Candidates specializing in technology will be trained to compete for jobs as technical directors or assistant technical directors and other supervisory
technical positions, or other entertainment-business-related positions.

Stage Management
Stage management candidates serve as assistant stage managers the first semester or first year, as stage managers the second year, and serve a
residency in the last semester. They also work as production assistants for the Kansas City Repertory Theatre shows. Candidates in stage management
are trained to compete for jobs as Actors’ Equity stage managers and take classes on the Actors’ Equity LORT rule book.

General Requirements
The portfolio to be presented for admission should include:
1. Artistic renderings.
2. Drafted materials.
3. Photographs and slides.
4. Resume and references.

MFA candidates are expected to maintain at least a 3.0 grade point average.

Only students who have demonstrated satisfactory progress in required skills and professional discipline during the first year (or sooner at faculty discretion) will be invited by the faculty to continue the program. During the second year, the design and technology students will concentrate on areas of interest, choosing advanced courses and working in the appropriate production areas. Third-year residency allows students to continue to emphasize design or technology coursework while undertaking major design or technology projects with productions in the Department of Theatre, the Kansas City Repertory Theatre or other professional environments. The concluding requirements of the M.F.A. degree for the design and technology candidate will be classroom projects, produced work and final presentations of portfolios. M.F.A. students are subject to the General Graduate Academic Requirements (p. 774) of the University for graduate study.

Women's and Gender Studies

(816) 235-5854
wgs@umkc.edu
http://cas.umkc.edu/wgs

Mailing Address
Dr. Brenda Bethman, Director
Women's and Gender Studies Program
University of Missouri-Kansas City
Haag Hall, Room 204
5100 Rockhill Road
Kansas City, MO 64110-2499

Program Description
First established in the 1980s, Women's and Gender Studies (WGS) at UMKC is one of 650 such programs in the United States. WGS is both an inter- and multi-disciplinary academic program devoted to the critical analysis of how gender, race, class, ethnicity, and sexuality contribute to the diversity of women's and men's experiences. The program's interdisciplinary nature and cross-cultural academic training broadens students' understanding of gender and the experiences of women and men, girls and boys, in all cultures and societies. By placing gender at the center of scholarly inquiry, we not only examine the assumptions, methods, insights, and claims of the traditional academic curriculum but broaden it through our research interests, publications, and courses to add cutting edge feminist research, scholarship, and activism.

The WGS program offers an undergraduate minor and concentration, as well as an internship. WGS courses are offered by numerous UMKC departments, and a full list of courses scheduled is available every semester from the WGS office. In addition, Women's and Gender Studies is available as an informal focus area for the MALS program (Master of Arts in Liberal Studies).

A minor in Women's and Gender Studies requires 18 credits. Nine credits must be in upper division courses (that is, 300 and 400) and no more than nine credits may overlap with your major. Reading courses on selected topics may be arranged with individual faculty members.

More information is available at the Women's and Gender Studies program website at http://cas.umkc.edu/wgs.

Educational Goals and Student Learning Outcomes
The educational goals for students in the Women's and Gender Studies program are:

• To explore the historical development and contemporary manifestation of gender-based inequalities.
• To generate new knowledges about women's lives and resistances in U.S. and global contexts.
• To advance critical research, thinking and writing skills as integral to professional development and political engagement.
• To foster understandings about how to transform inequalities of race, class, gender and nations through direct engagement with communities in service learning.

Specifically, students will have the opportunity to acquire certain knowledge, skills and experience:

Knowledge
Students studying Women's and Gender Studies will acquire knowledge about:
• The multidisciplinary nature and interdisciplinary methods of Women's and Gender Studies scholarship.
• The historical and contemporary cultural, social, political and economic contexts of gender in the United States and globally.
• The interaction of gender with other culturally constructed categories, such as race, age, etc., in order to foster a greater understanding of diversity.

Skills
Students studying Women's and Gender Studies will have the skills to:

• Think across disciplines.
• Understand and utilize the theories and methods of the various disciplines that contribute to Women's and Gender Studies.
• Apply their knowledge to a variety of careers in business, nonprofit work and the public sector, as well as be qualified for graduate studies in any social science.
• Be knowledgeable activists for the human rights of all women and men, irrespective of cultural biases and stereotypes.

Experience
Students studying Women's and Gender Studies will be experienced in:

• Academic research and analysis in a variety of academic fields and disciplines.
• Professional and respectful interactions with disagreeing others in public discussions of gender issues (students will become teachers).
• Maintaining a recognition of human diversity and analyzing each human issue from a race, class and gender perspective (at a minimum).

Undergraduate
Undergraduate Degrees:
• Concentration in Women's and Gender Studies (p. 257)
• Minor in Women's and Gender Studies (p. 260)
• Interdisciplinary Women's and Gender Studies Course Listing (p. 258)

Concentration in Women's and Gender Studies

Educational Goals and Student Learning Outcomes
The educational goals for students in the Women's and Gender Studies program are:

• To explore the historical development and contemporary manifestation of gender-based inequalities.
• To generate new knowledges about women's lives and resistances in U.S. and global contexts.
• To advance critical research, thinking and writing skills as integral to professional development and political engagement.
• To foster understandings about how to transform inequalities of race, class, gender and nations through direct engagement with communities in service learning.

Specifically, students will have the opportunity to acquire certain knowledge, skills and experience:

Knowledge
Students studying Women's and Gender Studies will acquire knowledge about:

• The multidisciplinary nature and interdisciplinary methods of Women's and Gender Studies scholarship.
• The historical and contemporary cultural, social, political and economic contexts of gender in the United States and globally.
• The interaction of gender with other culturally constructed categories, such as race, age, etc., in order to foster a greater understanding of diversity.

Skills
Students studying Women's and Gender Studies will have the skills to:

• Think across disciplines.
• Understand and utilize the theories and methods of the various disciplines that contribute to Women's and Gender Studies.
• Apply their knowledge to a variety of careers in business, nonprofit work and the public sector, as well as be qualified for graduate studies in any social science.
• Be knowledgeable activists for the human rights of all women and men, irrespective of cultural biases and stereotypes.
Experience

Students studying Women's and Gender Studies will be experienced in:

- Academic research and analysis in a variety of academic fields and disciplines.
- Professional and respectful interactions with disagreeing others in public discussions of gender issues (students will become teachers).
- Maintaining a recognition of human diversity and analyzing each human issue from a race, class and gender perspective (at a minimum).

The WGS concentration provides greater depth and breadth than the 18-credit minor while still preserving the flexibility and focus of an interdisciplinary approach to the study of women and changing notions of gender. The concentration also serves as a valuable complement to any major field of study leading to a bachelor of arts or science degree.

Unlike the traditional discipline-based major, the Women's and Gender Studies Concentration encourages students to pursue their studies systematically across the Arts and Sciences curriculum by providing a broad range of courses on women, gender, girls and masculinities. The three required courses are designed to introduce students to:

1. The study of women.
2. Theories of gender.
3. The diverse methods of inquiry employed by gender scholars.

The concentration also requires students to take classes in no less than three different disciplines (e.g., history, English and sociology) in order to:

- Identify the parallels between disciplines.
- Foster critical thinking about accepted categories and constructs.
- Acquire key concepts and knowledge of fundamental issues.
- Develop a basic vocabulary.
- Expand familiarity with major works, thinkers and directions in the field of Women's and Gender Studies.

Students may choose from an approved list of courses in which women and/or gender are the central category of analyses. Individualized readings courses on selected topics also may be arranged with WGS faculty members. And, as new courses with a significant Women’s Studies component are offered, students pursuing the concentration may request course approval from the UMKC Advisement Center.

Minor in Women’s and Gender Studies

The minor in WGS offers an excellent inter- and multi-disciplinary curriculum that examines women, girls and gender throughout history and across cultures. WGS courses teach critical thinking through an examination of the historical and contemporary problems facing women locally, nationally and globally. Students expand their understanding of gender difference, cultural diversity and social change as they complete an 18-hour program of study from among a wide variety of classes in numerous fields and disciplines. WGS courses in history, sociology, psychology, criminal justice, English, religion, political science, law and other areas enable students to pursue a specialized focus which enhances their major in the humanities, social sciences or natural sciences. The minor also provides sufficient flexibility to allow for the creation of a course of study especially suited to the individual interests of students.

Student Learning Outcomes

The educational goals for students in the Women’s and Gender Studies program are:

- To explore the historical development and contemporary manifestation of gender-based inequalities.
- To generate new knowledge about women’s lives and resistances in U.S. and global contexts.
- To advance critical research, thinking and writing skills as integral to professional development and political engagement.
- To foster understandings about how to transform inequalities of race, class, gender and nations through direct engagement with communities in service learning.

Specifically, students will have the opportunity to acquire certain knowledge, skills and experience:

Knowledge

Students studying Women’s and Gender Studies will acquire knowledge about:

- The multidisciplinary nature and interdisciplinary methods of Women’s and Gender Studies scholarship.
- The historical and contemporary cultural, social, political and economic contexts of gender in the United States and globally.
- The interaction of gender with other culturally constructed categories, such as race, age, etc., in order to foster a greater understanding of diversity.

Skills

Students studying Women’s and Gender Studies will have the skills to:

- Think across disciplines.
- Understand and utilize the theories and methods of the various disciplines that contribute to Women’s and Gender Studies.
- Apply their knowledge to a variety of careers in business, nonprofit work and the public sector, as well as be qualified for graduate studies in any social science.
- Be knowledgeable activists for the human rights of all women and men, irrespective of cultural biases and stereotypes.
Experience

Students studying Women’s and Gender Studies will be experienced in:

• Academic research and analysis in a variety of academic fields and disciplines.
• Professional and respectful interactions with disagreeing others in public discussions of gender issues (students will become teachers).
• Maintaining a recognition of human diversity and analyzing each human issue from a race, class and gender perspective (at a minimum).

Requirements for the Minor

A minor in Women’s and Gender Studies requires 18 credits. Nine credits must be in upper division courses (that is, 300 and 400) and no more than nine credits may overlap with your major. Reading courses on selected topics may be arranged with individual faculty members.

Additional Courses

Approved social sciences and humanities courses ¹ 12

Total Credits 18

¹ The remaining 12 hours must be evenly split between the social sciences and humanities and chosen from an approved list of courses. A list of approved courses is published every semester.

Students are encouraged to take WGS 484: Women’s & Gender Studies Internship.

Our Vision

Guiding, supporting, and inspiring students to achieve academic excellence

Our Mission

The mission of the UMKC College of Arts and Sciences Academic Advising Office is to guide students toward academic success in higher education.

Advisors within the College are directly responsible for advising current and prospective Arts and Sciences students on general education requirements and how to apply them to their degree program. Advisors assist students with selecting majors, monitoring academic progression, and fulfilling graduation requirements while educating them on campus resources, university policies and procedures, and options for graduate or professional schools. Advisors are role models who teach students how to navigate through the educational journey, encouraging students to actively engage themselves in their education. The Academic Advising Office creates an atmosphere promoting autonomous life-long learning where students accept responsibility and ownership for their personal academic progression, degree completion, and goal achievement.

Advisors within the College are committed to serve as a bridge among students, faculty, and staff. The Academic Advising Office provides training and development for professional and faculty advisors to ensure they are effectively meeting the needs of students. Advisors support the College’s commitment to educate students in the arts and sciences, providing them with a breadth of knowledge valuable to the intellectual and social community. Advising allows for the promotion of understanding of these general education goals which play a key role in the development of students becoming
productive contributors to society. Due to the unique relationship between advisors and students, advisors play an integral role in recruitment, retention, and student success for the College of Arts and Sciences and UMKC as a whole.

As students progress through their higher education journey at UMKC, the Academic Advising Office fosters and encourages students toward achieving academic success.

**Faculty and Staff Advisors**

- Assist students in choosing majors and planning their academic programs.
- Inform students about the general education requirements of the College and relate them to their major requirements.
- Advise students on class selection and registration.
- Offer advice on educational and career goal setting.
- Assist students in locating support services on campus.
- Perform degree audits and graduation status checks.
- Connect students with faculty on campus.
- Review academic policies and procedures with students.
- Help students with other related issues and problems of an academic nature.

Academic advising responsibilities are distributed among faculty advisors and professional advisors in the College of Arts and Sciences in the following manner:

- Undergraduate and graduate faculty advisors in each department or program:
  - Advise students in their major field of study.
  - Advise students about departmental student organizations as well as internship or undergraduate research opportunities within the department.
  - Advise students concerning graduate study requirements.
- Professional and graduate-student advisors in the Arts and Sciences Academic Advising Office:
  - Advise students for general education and overall degree requirements.
  - Advise bachelor of liberal arts students, including students in the Program for Adult College Education (PACE).
  - Advise students who have not yet declared a major or are on probation.
  - Help all undergraduates with special requests and problems.
  - Evaluate transfer courses.
  - Conduct degree audits prior to graduation on all bachelor's degree-seeking students.
  - Communicate with individual students and with the Registration and Records Office to confirm that all degree requirements will be met in the graduating semester.

While academic advising is not required for all students, it is recommended that students seek academic advising each semester to avoid problems later. Certain undergraduate majors do require academic advising each semester. Students required to secure an advisor's approval and release before enrolling include:

- All freshmen.
- All sophomores with 45 or fewer credit hours.
- General studies with 60 or more credit hours.
- Probationary students.
- Students requesting overloads or credit/no credit option.
- Undergraduate majors in art, chemistry, physics and theatre.
- Graduate majors in chemistry, English, geosciences, sociology, and theatre.

When the next semester's course schedule is published on the UMKC Web site, students should contact their academic advisor. Students who promptly seek academic advising have a better chance of securing their first choice of courses and times. While the Arts and Sciences Advising Office sees students on an appointment as well as walk-in basis, most faculty advisors require an appointment.

Faculty advisors in each department assist students in planning their academic programs and inform them about the degree requirements of the programs. Graduate students required to secure an advisor's approval before enrolling include majors in chemistry, English, geosciences, sociology and theatre.

**PACE/Program for Adult College Education**

Scofield Hall (http://www.umkc.edu/virtualtour/scofield-hall.asp), Room 104
711 E. 51st Street
Program Description

The Program for Adult College Education (PACE) provides an alternative for students who have difficulty pursuing a bachelor's degree due to employment, family responsibilities or other obligations. PACE provides nontraditional course offerings and comprehensive student services support; tailored to the needs of adult students. Many PACE courses are presented in 12-hour blocks, arranged by theme or issue. These courses are offered in a special weeknight, weekend and independent study format. There are also numerous Internet, web-assisted, first and second eight week courses.

Bachelor of Liberal Arts Degree (B.L.A.) with a Minor

The B.L.A. with a minor is the most popular degree offered through PACE. This degree program allows enhanced flexibility in selection of academic areas of study for students whose aspirations are not served by a traditional major. Research has shown that individuals with the breadth of knowledge and skills provided by a liberal arts education are in demand by employers. The B.L.A. provides:

- Broad knowledge and understanding of the natural sciences, social sciences, arts and humanities.
- Maximum flexibility in course selection.
- Critical thinking and problem-solving abilities.
- Personal satisfaction and self-esteem.
- Multicultural issues awareness.
- Ability to adapt and work as a team.
- Increased awareness of values and ethical questions.
- Interpersonal skills.
- Written and oral communication skills.

The B.L.A. with a minor is designed to allow all the advantages of a liberal arts education while providing students with an academic specialization. Minors earned in conjunction with the B.L.A. are reflected on official transcripts. Typically it is necessary for students pursuing a minor to take a required course outside of the PACE curriculum. However, select academic departments within the College of Arts and Sciences endeavor to offer their Minor requirements through PACE or as regular evening/online courses. Generally, 18 to 24 credit hours are required for a Minor. Before embarking on a BLA with a Minor through this program; students should consult with both a PACE and the respective departmental academic advisor. The following minors are recommended in conjunction with PACE course offerings:

- Black Studies
- Chemistry
- Commercial Economics
- Communication Studies
- Criminal Justice and Criminology
- Economics
- English
- Environmental Studies
- Family Studies
- Gerontology
- History
- Political Science
- Psychology
- Sociology
- Spanish
- Studio Art
Bachelor of Arts or Bachelor of Science Majors in Conjunction with PACE

Students can meet many of the B.A./B.S. general degree requirements through the PACE program and, in conjunction with designated disciplines, pursue a major. Degrees associated with an academic unit’s evening division or online courses are also recommended for this process. Students should refer to the requisite departmental requirements in the UMKC undergraduate catalog and consult a Department Advisor as well as a PACE Student Services Coordinator or Academic Advisor.

Entry into Graduate/Professional Degree Programs and PACE

The PACE Program provides to students the ability to achieve rigorous academic preparation for graduate and professional degree programs. The B.L.A. is recognized as an appropriate degree for a number of graduate/professional programs at UMKC and elsewhere (e.g., Master of Arts in Liberal Studies, Accounting, Law, Education, Public Administration, Business Administration (MBA), Medicine and Health degrees). Many PACE students continue their studies in graduate degree programs.

PACE Academic Advising

The PACE program takes a highly personalized and comprehensive approach to the needs of nontraditional students. Students will work with a student services coordinator who will assist them from admissions, through the academic process, to graduation. Students can consult the Student Services Coordinator from the PACE Office, on nearly any issue which might impact their academic success. Students wishing to combine PACE coursework with other academic programs and degrees should consult an academic advisor in the College of Arts and Sciences Advising Office and a PACE Student Services Coordinator.

Study Abroad Programs

International Academic Programs
Student Success Center, Room 120
(816) 235-5759
http://www.umkc.edu/international

In collaboration with International Academic Programs, the College helps make available to its students a variety of study abroad programs that provide an exciting way to add a global dimension to their UMKC education through exploring and sharing the cultures of other countries.

Study abroad programs are available for a summer, a semester or an academic year. Students can earn credit towards their degree, and with careful planning, they should lose no time toward graduation. Study abroad is affordable since financial aid and scholarships are applicable to many programs, and other grants and scholarships are available specifically for study abroad.

The exchange university consortium, Mid-American Universities International, InterFuture, foreign exchanges offered through the Department of Foreign Languages and Literatures, and the Missouri-London program are among the many program choices available. Among the possible destinations are:

• Argentina
• Australia
• Austria
• Belgium
• Chile
• Costa Rica
• Czech Republic
• Denmark
• England
• Finland
• France
• Germany
• Greece
• Iceland
• Ireland
• Italy
• Korea
• Lithuania
• Malta
• Mexico
• Netherlands
• New Zealand
• Norway
• Portugal
• Scotland
• Slovenia
• South Africa
• Spain
• Sweden
• Switzerland

For more information regarding study abroad and related scholarships, please visit http://www.umkc.edu/international. Additionally, the UMKC Study Abroad Coordinator is available at (816) 235-5790.

General Undergraduate Degree Requirements & Information

Registration Approvals

In addition to the information below, see the earlier College section entitled Advising System.

All new students and freshmen are required to secure an advisor’s approval to register for classes. In addition, undergraduate majors in studio art, chemistry, physics and theatre, and graduate students in chemistry, English, geosciences, sociology and theatre must secure an advisor’s approval to register.

Any student on academic probation, requesting an overload, or requesting the credit/no credit option, must secure an advisor’s approval before completing registration.

Students must have permission of the instructor or faculty advisor before they are allowed to register in Directed Field Experience, Directed Readings, Individual Research or any other courses specified by a department.

All students in the College are also subject to any special signatures required by other academic units at UMKC.

Repeated Courses

If a course is repeated at one of the four UM campuses, the hours and grade points of both the original and repeated courses are used in computing the grade-point average. Only the earned hours from the last repeated enrollment will apply toward degree requirements or total hours required for graduation.

Hour and GPA Requirement

A minimum of 120 hours is required for graduation. Of those hours, 36 must be at the 300-400 level. A minimum cumulative grade-point average of 2.0 is required as well as a 2.0 in the major. (Some majors have additional GPA requirements. Students should consult the appropriate section of this catalog for their major.)

Professional School Credit

A maximum of 30 acceptable semester hours (2.0 GPA or better) of study in professional schools may be applied toward the bachelor’s degree. Acceptable professional schools for this purpose are law and medicine. This credit is elective credit and does not satisfy any specific degree requirement.

Residence Requirement

The general minimum residence requirement for the undergraduate degree is the final 30 consecutive semester hours of coursework. In the case of students using 30 hours in a UMKC professional school to complete their undergraduate degree, the residence requirement becomes the final consecutive 30 hours of the College’s coursework prior to entrance into the professional school.

Writing Intensive Requirement

Writing Intensive courses, designated with WI, PW, or LW following the course number, are intended to help students learn to express themselves formally and coherently in discursive prose. Writing in this connection is to be regarded not as a corpus of art or information to which students should be
exposed, but as a crucial skill, the teaching of which is among the primary missions of the College. It is assumed that extended and intensive writing can be equated with contemplation and concentration on the subject matter; students learn by writing in any field.

Each Writing Intensive course includes several writing assignments and these assignments form an integral part of students’ efforts to progress in the course. A review and revision cycle is used with systematic feedback. The students’ writing might address philosophical concerns, methods, or specific topics, but their work is always based on exposure to published expository writing. While the exercises may take different forms, they may include:

1. Prewriting; e.g., outlines, journals, free-writing exercises and organizational notes.
2. Submission of preliminary drafts for oral and written responses by the instructor (peer response also might be incorporated).
3. Revision of content, organization, mechanics and style.

Students will prepare a number of different assignments of varying lengths and intent. An extended essay or term paper is expected in all Writing Intensive classes. Examinations may incorporate essay questions.

Students enrolling in Writing Intensive courses must have completed the RooWriter Assessment, which must be taken after successful completion of Discourse II or equivalent.

RooWriter Assessment

Candidates for all baccalaureate degrees must take the UMKC RooWriter writing assessment before they have completed 90 credit hours. Students may take the RooWriter at any time while enrolled at UMKC as a personal diagnostic, but it will only satisfy the undergraduate graduation requirement after a student has completed Discourse II (or equivalent).

Certain Colleges, Schools, Departments, Majors, Writing Intensive courses, etc. may also require the RooWriter to be taken multiple times, and some might further require a certain minimal level of achievement be attained for advancement. The RooWriter supports and is supported by the University-wide General Education Core requirements.

The RooWriter is offered online. Students should visit the RooWriter website for contact information, writing improvement resources, and other general information.

Graduation Procedure

After completion of 90 credit hours, students should file an “Application for Graduation” form in the Arts and Sciences Academic Advising Office, Scofield 9. After the application is filed, a review of the student’s transcript is prepared, and the student is contacted through UMKC student e-mail to come to the Advising Office for an audit of the general education requirements. During this degree audit process, the following are checked:

- The student’s transcript is compared to the general education requirements. All remaining general education requirements are outlined and discussed.
- The student’s information is reviewed to insure all majors and minors, as appropriate, have been declared.
- The student’s total hours, junior/senior level hours, residence requirements, the minimum major and minor hours, and grade-point average are reviewed.

After the general education portion of the degree audit is complete, the student is given a major degree audit form and a copy of his/her transcript to take to the major advisor for completion. When the major portion of the degree audit has been completed, the student is responsible for returning it to the Arts and Sciences Advising Office. This process is repeated for any additional majors and/or minors.

There are several other important components of the graduation process that the student is solely responsible for completing:

- All students are required to take the MAPP, administered by the Assessment Office.
- Students with majors must also check with their department to see if a Major Field Exam is required.
- Students should have their degree audit updated every semester to make sure they are still making progress towards graduating during the semester for which they have applied.
- Students are responsible for making sure their address and telephone numbers are correct in the student information system. This should be checked each semester.
- Students must check their UMKC e-mail account regularly for important and relevant graduation and other information.
- Any incomplete grade on a student’s transcript must be completed and recorded in the Registrar’s Office by the end of the semester in which he/she is graduating.
- Any missing transcripts must be received by the Office of Admissions by the end of the semester in which a student is graduating.

Reapplying for Graduation

If a student does not graduate in the semester for which he/she has applied, he/she must reapply for graduation in the Arts and Sciences Advising Office. The College cannot extend a student’s application to the next semester without written notification from the student.
Exceptions

Exceptions to academic regulations must be approved by the Academic Standards Committee of the College of Arts and Sciences. To seek exceptions, students must file a "Petition for Exception" form in the Arts and Sciences Advising Office, 9 Scofield Hall.

Major and Minor Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. The College strongly encourages students to consult faculty advisors and the UMKC Career Services Office counselors for assistance in choosing suitable academic and career goals. To select a major or minor, students must file a "Declaration of Major" form in the Arts and Sciences Academic Advising Office, 9 Scofield Hall. For specific major or minor requirements, see the program requirements described in the appropriate academic departmental section of the catalog.

Degree Program Major

The undergraduate degree-seeking student in the College must fulfill the requirements for a degree program (major) as specified in the appropriate part of this catalog. The minimum is 26 semester hours.

A minimum of 12 semester hours in the degree program (major) must be earned in the major department at UMKC. A minimum of a C average in the major is required.

The College encourages students to seek advising early in their academic careers regarding choice of a major. Students must file a formal "Declaration of Major" form in the Arts and Sciences Academic Advising Office.

Multiple Majors

See Multiple Major & Double Degree Policy (p. 761) under Undergraduate Regulations and Information.

Combined and Double Degree Programs

For information on Double Degree, see Multiple Major & Double Degree Policy (p. 761) under Undergraduate Regulations and Information.

In coordination with several of the professional schools, the College of Arts and Sciences students may earn combined degrees. Combined degree programs are offered in law and medicine. In the combined degree program, 30 credit hours in the professional schools may count toward the fulfillment of the baccalaureate degree. All degree requirements of the College must be fulfilled. The professional hours are generally considered upper-level elective (blanket) credit. In this manner, the two degrees are earned concurrently and the student's program is accelerated considerably. Students are advised to check with the advising offices of the appropriate schools before making their plans.

Earning a Second Bachelor's Degree

Students wishing to earn a second bachelor's degree, whether or not the first was earned at UMKC or another college or university, must complete a minimum of 30 additional hours. Of those 30 additional hours, a minimum of 12 must be taken in the major department. The student must also fulfill any additional major and degree-specific requirements in effect when the student is admitted or readmitted to pursue the second bachelor's degree.

Minor Program

An academic minor in the College of Arts and Sciences is required for the bachelor of liberal arts program, but is optional for the bachelor of arts and bachelor of science programs, and must be declared no later than the beginning of the student's senior year.

A minimum of 18 hours is required in a minor area. At least nine of those hours must be upper-division courses. The courses and total number of hours are determined by the College department or interdisciplinary program granting the minor. A minimum of nine hours for the minor must be earned at UMKC.

A student interested in a minor should consult a departmental advisor. Minors offered in the College include the following: anthropology; art history; astronomy; studio art; bioethics and medical humanities; black studies; chemistry; classical and ancient studies; communication studies; criminal justice and criminology; economics; English creative writing; English language and literature; English manuscript, print culture, and editing; English writing; environmental studies; family studies; film studies; French; geography; geology; German; German studies; gerontology; history; healing and the humanities; Judaic studies; mathematics; philosophy; physics; political science; sociology; Spanish; sustainability; theater; urban studies; and women's and gender studies.

Exceptions

Exceptions to A&S policies must be approved by the Academic Standards Committee of the College of Arts and Sciences. To seek exceptions, students must file a "Petition for Exception" form in the Arts and Sciences Academic Advising Office, 9 Scofield Hall.
Pre-Professional Programs

Prerequisites for advanced professional programs in law and the health professions can be satisfied as a part of any degree program in the College of Arts and Sciences.

Pre-Medicine, Pre-Dentistry and Pre-Health Advising

Please see the additional catalog section on Pre-Medicine/Pre-Health for more detailed information on pre-medicine, pre-dentistry and pre-health.

Program Director:

Dennise Todd
Scofield Hall (http://www.umkc.edu/virtualtour/scofield.asp), Room 9
711 East 51st Street
(816) 235-6270
todddn@umkc.edu

Some of the most popular pre-professional programs in health care include:

• Pre-Dental Hygiene
• Pre-Dentistry
• Pre-Medicine (allopathic and osteopathic)
• Pre-Occupational Therapy
• Pre-Optometry
• Pre-Pharmacy
• Pre-Physical Therapy
• Pre-Respiratory Therapy
• Pre-Veterinary Medicine

Pre-Law Advising

Specific details on the College’s pre-law program can be found in the Pre-Law section of this catalog.

Degree Requirements

Requirements for Bachelor’s Degrees

The College values the distinctive benefits of a traditional liberal arts education for students and society and therefore adds these degree requirements to work in tandem with the UMKC General Education Core (p. 758).

The College offers three degree options: the bachelor of arts, the bachelor of liberal arts, and the bachelor of science.

General Differences between B.A., B.L.A and B.S. General Requirements

The CAS degree requirements for the bachelor of arts and bachelor of liberal arts degrees are the same, with one exception:

• The bachelor of liberal arts requires a minor, not a major.

The CAS degree requirements for the bachelor of arts, bachelor of liberal arts, and bachelor of science degrees are the same, with two exceptions:

• The bachelor of science degree requires a minimum of 60 hours in math and science.
• The bachelor of science degree does not require any foreign language.

Students may earn a bachelor of science degree in the following disciplines:

• Chemistry
• Environmental Science
In all instances, students should contact the appropriate department concerning its requirements for a bachelor of science degree.

CAS Degree Requirements

1. Six (6) credit hours in the Social & Behavioral Sciences Division of CAS.

2. Six (6) credit hours in the Arts & Humanities Division of CAS. (ENGLISH 110, ENGLISH 225, COMM-ST 110, and foreign language courses at 211 or below are not eligible to fulfill this requirement.)

3. Six (6) credit hours in the Science & Math Division of CAS.

PLEASE NOTE:

a. See table below for the College of Arts and Sciences degree programs identified by Division.

b. Courses taken to fulfill the CAS degree requirements are to be taken outside of the major department (for B.A. and B.S. degrees). However, if the major requires courses outside of the major department, those courses may count toward the CAS degree requirements.

c. Classes may not be double-counted for both UMKC general education core and CAS degree requirements.

Upper-level (300/400 level) Writing Intensive courses are designated with WI, PW or LW following the course number. Writing Intensive courses should be completed during the junior or senior year and after completion of Discourse II (or its equivalent) and the RooWriter.

5. Foreign Language

Bachelor of arts and bachelor of liberal arts students are required to demonstrate competence at the third-semester level of a foreign language.

a. Students with high school or other foreign language experience are strongly recommended to take the language placement exam, which can be accessed on the Department of Foreign Languages and Literatures website (http://cas.umkc.edu/foreignlanguages).

b. Students who have satisfactorily completed two years of a foreign language in high school will be exempt from the 110 college-level course and will be required to complete only two additional courses (120 college-level and above) in the same foreign language. Students who completed four years of the same foreign language in high school must complete only one additional sophomore level (211 or above) course in the same language.

c. Credits earned in HSCP dual enrollment courses in high school count as courses taken in the Foreign Languages and Literatures department.

d. UMKC currently recognizes specific scores on the AP and IB foreign language exams to count as credit earned, so these credits would be recognized as fulfilling the first year (110 and 120) of the language requirement. Inquiries may be directed to an academic advisor in the Arts and Sciences Academic Advising Office, 9 Scofield Hall.

e. Students whose education through eighth grade or the equivalent has been in a language other than English shall be exempt from the foreign language requirement for the CAS degree requirements. Students must contact the Department of Foreign Languages and Literatures to obtain a letter of exemption. Other speakers of a foreign language (i.e., heritage speakers) do not automatically qualify for a complete exemption.

f. Students who have had more than two years of a foreign language in high school may not enroll in the 110-level course of that language at UMKC without specific permission of either the section head/coordinator for that language or the chair of the Department of Foreign Languages and Literatures in cases where there is no course coordinator (i.e., students who have taken three or more years of French may not enroll in FRENCH 110, those who have taken three or more years of Spanish may not enroll in SPANISH 110, and the same for all other languages taught at UMKC).

h. Heritage speakers may not enroll in 110-level courses without permission of the language coordinator or section head for their language, or the chair of the Department of Foreign Languages and Literatures in cases where there is no course coordinator. (Note: A heritage speaker is someone who grows up with a certain family language in the home which is different from the dominant language in the country. In the case of the United States, the dominant language is English. A student who grows up in a family in which they speak Spanish, Chinese, Arabic, Russian, etc., would be a heritage speaker of that language.)

6. Capstone Course

All students in a major must complete a course designated as a capstone course in their major.

7. The following requirements may be fulfilled by courses from either the UMKC General Education Core or the College of Arts and Sciences Degree Requirements.

   a. MATH 110, MATH 116 or any 200-level or above MATH/STAT course

   b. Laboratory Science experience

   c. Missouri Constitution course. Every student must fulfill the Missouri state requirement to take a course covering the United States Constitution and the Missouri State Constitution before graduation. Courses that satisfy this requirement are:
• CJC 320;
• HISTORY 101, HISTORY 102, HISTORY 360R;
• POL-SCI 210, or POL-SCI 409.

8. Additional Requirements and Restrictions:
   a. A minimum of 120 total credit hours is required for graduation.
   b. The final 30 consecutive credit hours of coursework must be taken at UMKC.
   c. At least 36 credit hours must be at the 300/400 level.
   d. A 2.0 overall GPA is required for graduation. However, the required major GPA may be higher, as determined by each department individually.
   e. A maximum of 3 hours of one-credit activity courses in physical education may be applied toward the 120 credit-hour minimum.
   f. The RooWriter Assessment.

Transfers with Certified 42-hour block from another Missouri Institution

Students transferring into the College of Arts and Sciences with an Associate of Arts degree or a certified 42-hour block of general education credit from another Missouri institution must complete the following requirements for baccalaureate degrees in the College:

Bachelor of Arts and Bachelor of Liberal Arts

- Foreign Language 211 (or equivalent).
- RooWriter Assessment.
- Junior/senior-level Writing Intensive course.

 Bachelor of Science

- RooWriter Assessment.
- Junior/senior-level Writing Intensive course.
- 60 credit hours minimum (including hours in the major) in math and science.

UMKC's 42-Credit Hour Certified General Education Core for Students Transferring to Another Missouri Institution

College of Arts and Sciences students wishing to complete the 42-hour core should consult with an academic advisor in the Arts and Sciences Academic Advising Office, 9 Scofield Hall.

Credit by Examination

Students may gain credit by any or all of the four methods listed below:

- International Baccalaureate (IB) (http://www.umkc.edu/registrar/transfer-credit/default.asp).
- Advanced Placement (AP) (http://www.umkc.edu/registrar/transfer-credit/default.asp).
- College Level Examination Program (CLEP) (http://www.umkc.edu/registrar/transfer-credit/default.asp).
- Departmental Exam (http://www.umkc.edu/registrar/transfer-credit/default.asp).

See the General Undergraduate Academic Regulations and Information section of this catalog for additional information.

Special Opportunities

Fellowships and Awards

International Academic Programs (IAP) assists students who want to apply for major fellowships that support continued undergraduate study and graduate school. The IAP Web site identifies an extensive list of these fellowships for both national and international study, including, but not limited to the Truman, Goldwater, Udall, Fulbright, Rhodes, Marshall, Jack Kent Cooke, NSEP Boren, and Rotary. These are highly competitive awards that demand careful planning and a commitment of time and effort. All fellowships require applicants to have a high GPA. In addition, typical eligibility criteria include a record of community service, evidence of undergraduate research or original work, strong faculty references, and a commitment to future academic or public service. A number of the fellowships require an on-campus review and nomination before a candidate can move forward to the national competition. Most of these fellowships provide substantial financial support as well as opportunities for travel and specialized seminars with fellow grantees. For additional information please call (816) 235-5759 or visit http://www.umkc.edu/international.

Honors Program

Details of the Honors Program can be found in the Honors Program section of the College’s portion of this catalog.
Dual Credit High School/College Partnerships (HSCP)

The College offers advanced students in many Kansas City area high schools the opportunity to earn UMKC credit prior to high school graduation through High School/College Partnerships (http://www.umkc.edu/hscp). Qualified students may enroll in introductory college courses that meet general requirements for a bachelor's degree.

Independent Study

The opportunity to undertake independent study is offered by many departments in the College to students who qualify. Generally, the student receives the individual attention of a professor in the chosen field of study and completes a project that may involve any topic considered appropriate by that professor to the academic needs of the student. Typical kinds of independent study include: special reading topics, creative work in the humanities, research projects, performances in the arts or fieldwork experiences.

Scholarships

For scholarship information please visit http://cas.umkc.edu/scholarships/

Arts and Sciences Student Council

The council aims to provide an interdisciplinary body in which Arts and Sciences students can provide input on decisions and policies of the College. The council works to enhance student-faculty interaction and communication; allocate its authorized budget; and ensure that Arts and Sciences students' needs, desires and attitudes are correctly represented to the administration.

Study Abroad

International Academic Programs
Student Success Center, Room 120
(816) 235-5759
http://www.umkc.edu/international

In collaboration with International Academic Programs, the College helps make available to its students a variety of study abroad programs that provide an exciting way to add a global dimension to their UMKC education through exploring and sharing the cultures of other countries.

Study abroad programs are available for a summer, a semester or an academic year. Students can earn credit towards their degree, and with careful planning, they should lose no time toward graduation. Study abroad is affordable since financial aid and scholarships are applicable to many programs, and other grants and scholarships are available specifically for study abroad.

The exchange university consortium, Mid-American Universities International, InterFuture, foreign exchanges offered through the Department of Foreign Languages and Literatures, and the Missouri-London program are among the many program choices available. Among the possible destinations are:

- Argentina
- Australia
- Austria
- Belgium
- Chile
- Costa Rica
- Czech Republic
- Denmark
- England
- Finland
- France
- Germany
- Greece
- Iceland
- Ireland
- Italy
- Korea
- Lithuania
- Malta
• Mexico
• Netherlands
• New Zealand
• Norway
• Portugal
• Scotland
• Slovenia
• South Africa
• Spain
• Sweden
• Switzerland

For more information regarding study abroad and related scholarships, please visit http://www.umkc.edu/international. Additionally, the UMKC Study Abroad Coordinator is available at (816) 235-5790.

Undergraduate Research

Undergraduate research opportunities are available in many disciplines within the College. Interested students should speak with faculty members in their major department. When selecting a faculty mentor for undergraduate research, students should consider their own research or creative project ideas, courses they have taken, as well as faculty research interests.

History and Description

The School of Biological Sciences was established (originally as the School of Basic Life Sciences) in 1985. The School’s vision is “to better the quality of life through excellence in education and research.” This vision is realized through the provision of quality education at the undergraduate and graduate levels, the expansion of knowledge through scientific research, and the application of scientific information for the advancement of human welfare. The School has been designated as an eminence program by the curators of the University of Missouri, and as such is a unit targeted for expansion and development.

Research by faculty, as well as graduate and undergraduate students, is focused on cellular and molecular aspects of modern biology, with emphases in molecular genetics, cell biology and structural biology. Advances in these areas will provide fundamental knowledge for biotechnology, molecular
Students are encouraged to gain hands-on research experience, involving them in the process of creating knowledge and equipping them to shape the future.

Quality curriculum combined with research-active faculty and state-of-the-art equipment, provide students with an outstanding opportunity to expand critical thinking and problem solving skills while developing an in-depth understanding of the molecular, cellular, and genetic foundations of biological sciences.

**Laboratories**

The School of Biological Sciences has modern, well-equipped laboratories organized into the following divisions:

**Division of Cell Biology and Biophysics**

This division houses the laboratories of anatomy, biophysics, developmental biology, cell biology, microbiology, neurobiology, structural biology and virology.

**Division of Molecular Biology and Biochemistry**

This division houses the laboratories of biochemistry, genetics, genetic engineering, membrane biochemistry, molecular biology, macromolecular structure, neurophysiology and cellular and molecular physiology.

**Organizations and Activities**

A campus wide biological sciences seminar program is organized and administered by the school. Throughout the year, weekly advanced research seminars are held, featuring presentations by nationally recognized visiting scientists and campus faculty.

The School of Biological Sciences has both graduate and undergraduate student organizations that meet periodically for scientific discussions and social events.

**Faculty**

Karen J. Bame Contact Information; graduate programs officer and associate professor of biological sciences; B.S. (University of California-Santa Barbara); Ph.D. (University of California-Los Angeles).

James M. Benevides Contact Information; research assistant professor of biological sciences; B.S. (University of Massachusetts); M.S., Ph.D. (University of Rhode Island).

Donald J. Black Contact Information; research instructor in biological sciences; B.S. (Fresno State University); Ph.D. (Ohio State University).

Samuel Bouyain Contact Information; assistant professor of biological sciences; Diploma of Engineer (École Nationale Supérieure de Chimie de Paris); D.Phil. (University of Oxford).

Raymond L. Burich Contact Information; associate professor emeritus of biological sciences; B.S., M.S. (Kent State University); Ph.D. (Iowa State University).

Gerald M. Carlson; adjunct professor of biological sciences; B.S. (Washington State University); Ph.D. (Iowa State University).

Julia Chekonova Contact Information; assistant professor of biological sciences; M.S. (Moscow State University); Ph.D. (USSR Academy of Sciences, Moscow).

Leonard L. Dobens, Jr. Contact Information; associate professor of biological sciences; B.S. (Boston College); Ph.D. (Dartmouth College).

Lawrence A. Dreyfus Contact Information; dean, school of biological sciences, and professor of biological sciences; B.A. (University of Kansas); M.S. (Michigan State University); Ph.D. (University of Kansas).

Alfred F. Esser Contact Information; professor emeritus; M.S., Ph.D. (J.W. Goethe University, Germany).

Mark T. Fisher; adjunct professor of biological sciences; Ph.D. (University of Illinois-Urbana).

David R. Garris Contact Information; teaching associate professor of biological sciences; B.S. (Eastern Michigan University); Ph.D. (Wayne State University).
Brian V. Geisbrecht Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=geisbrecht); associate professor of biological sciences; B.S. (St. Vincent College); Ph.D. (The Johns Hopkins University School of Medicine). 

Erika R. Geisbrecht assistant professor of biological sciences; B.S. (University of Wisconsin-Madison); Ph.D. (The Johns Hopkins University School of Medicine). 

Edward P. Gogol Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=gogol); associate professor of biological sciences; A.B. (Cornell University); M. Phil., Ph.D. (Yale University). 

Regina R. Grindstaff teaching assistant professor of biological sciences; B.S. (Missouri Southern State University); Ph.D. (University of Missouri-Columbia). 

R. Scott Hawley adjunct professor of biological sciences; Ph.D. (University of Washington). 

Saul M. Honigberg Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=honigberg); associate professor of biological sciences; B.S. (University of Georgia); Ph.D. (Yale University). 

Chi-Ming Huang Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=huang); associate professor of biological sciences; B.S. (National Taiwan University, Taiwan); M.S., Ph.D. (University of California-Los Angeles). 

Alexander Idnurm assistant professor of biological sciences; B.S., Ph.D. (University of Melbourne). 

Ana J. Iriarte Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=iriarte); associate professor emeritus of biological sciences; M.S., Ph.D. (University of Navarre, Spain). 

Chris L. Jordan Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jordan); research instructor in biological sciences; B.S. (Central Missouri State University), M.S. (Purdue University); Ed.S. (University of Missouri-Kansas City). 

Tamas Kapros Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=kapros); teaching associate professor of biological sciences; B.S., Doctor Universitatis in Genetics, Ph.D. (Jozsef Attila University of Sciences, Szeged, Hungary). 

J. Andrew Keightley Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=keightley); research associate professor of biological sciences; B.S., Ph.D. (University of New Mexico- Albuquerque). 

Peter Koulen adjunct professor of biological sciences; m.s., ph.D. (Johnnes Gutenberg University, Germany). 

John H. Laity Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=laity); associate professor of biological sciences; B.A. (Rutgers University), M.S. (Columbia and Cornell Universities), Ph.D. (Cornell University). 

Douglas Law Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=law); teaching associate professor of biological sciences; B.S., Ph.D. (Duke University). 

Lee Likins Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=likins); research instructor in biological sciences; B.S. (University of West Florida-Pensacola); M.A. (University of Kansas). 

Ronald A. MacQuarrie Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=macquarrie); professor emeritus of biological sciences; B.S. (University of California-Berkeley); Ph.D. (University of Oregon). 

Marino Martinez-Carrion professor and dean emeritus of biological sciences; B.A., M.A., Ph.D. (University of California-Berkeley). 

Joseph R. Mattingly, Jr. Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mattingly); teaching assistant professor of biological sciences; B.A. (Bellemine College); Ph.D. (University of Notre Dame). 

Malcolm McCallum Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mccallum); assistant teaching professor of biological sciences; B.S. (Illinois State University); M.S. (Eastern Illinois University); Ph.D. (Arkansas State University). 

Kevin McCluskey Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mccluskey); research associate professor in biological sciences; B.S., M.S. (Stanford University); Ph.D. (Oregon State University). 

Denis Medeiros Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=medeiros); professor of biological sciences; B.S., M.S. (Central Connecticut State University); M.S. (Illinois State University); Ph.D. (Clemson University). 

Thomas M. Menees Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=menees); associate professor of biological sciences; B.S., M.S. (University of California Irvine); Ph.D. (Yale University).
Henry M. Miziorko²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=miziorko); head, molecular biology and biochemistry division, Marion-Merrell-Dow Missouri professor and professor of biological sciences; B.S. (St. Joseph’s University); Ph.D. (University of Pennsylvania).

William T. Morgan; professor emeritus of biological sciences; B.S. (University of Pittsburgh); Ph.D. (University of California-Santa Barbara).

Michael O’Connor²³; associate professor of biological sciences; B.A. (Trinity College Dublin); Ph.D. (National University of Ireland).

Anthony Persechini²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=persechini); professor of biological sciences; B.A. (University of New Hampshire), Ph.D. (Carnegie-Mellon University).

Lynda S. Plamann Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=plamann); associate dean for academic affairs and associate professor of biological sciences; B.A. (Augustana College); Ph.D. (University of Iowa).

Michael Plamann²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=plamann); associate professor of biological sciences; B.S. (University of Wisconsin); Ph.D. (University of Iowa).

Jeffrey L. Price²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=price); associate professor of biological sciences; B.S. (College of William and Mary), Ph.D. (Johns Hopkins University).

G. Sullivan Read²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=read); professor of biological sciences; B.A. (Williams College); M.S. (Yale University); Ph.D. (Pennsylvania State University).

Aaron Reed; research assistant professor of biological sciences; B.S. (Kansas State University); M.S. (University of Memphis); Ph.D. (Kansas State University).

Garth E. Resch Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=resch); associate professor of biological sciences; B.A., M.A., Ph.D. (University of Missouri-Columbia).

Ann Smith²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=smith); professor of biological sciences; B.Sc. (University of Hull, England); Ph.D. (University of London, England).

Salvatore L. Stella Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=stella); adjunct assistant professor of biological sciences; B.S (University of Nebraska Medical Center); Ph.D. (San Diego State University).

George J. Thomas, Jr.²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=thomas); professor emeritus; B.S. (Boston College); Ph.D. (Massachusetts Institute of Technology).

Jakob H. Waterborg²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=waterborg); associate professor of biological sciences; B.S., M.S., Ph.D. (Katholieke Universiteit Nijmegen, The Netherlands).

Tammy S. Welchert Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=welchert); student services coordinator in biological sciences; B.S., M.S. (Southwest Missouri State University); Ed.S. (University of Missouri-Kansas City).

Theodore C. White; head, cell biology and biophysics division, Marion Merrell Dow professor in biological sciences; B.S. (Cornell University); Ph.D. (University of Michigan).

Gerald J. Wyckoff²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wyckoff); associate professor of biological sciences; B.S. (Cornell University); Ph.D. (University of Chicago).

Xiaolan Yao²³; assistant professor of biological sciences; B.S., M.S. (Zhenghou University, China); Ph.D. (Iowa State University).

Lynwood R. Yarbrough¹; adjunct professor of biological sciences; Ph.D. (Purdue University).

Marilyn Yoder²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=yoder); associate professor of biological sciences; B.S. (University of Kentucky); Ph.D. (University of California-Riverside).

Yu, Xiao-Qiang(Sean)²³ Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=yu); associate professor of biological sciences; Ph.D. (Kansas State University).

² Members of UMKC Graduate Faculty
Undergraduate

Undergraduate Degrees:

- Bachelor of Science in Biology (p. 281)
- Bachelor of Science in Biology, Biomedical Sciences Emphasis (p. 286)
- Bachelor of Science in Biology, Bioinformatics Emphasis (p. 284)
- Bachelor of Science in Biology, Biotechnology Emphasis (p. 288)
- Bachelor of Science in Biology, Cellular and Molecular Basis of Health and Disease Emphasis (p. 291)
- Bachelor of Science in Biology, Clinical Laboratory Science Emphasis (p. 293)
- Bachelor of Science in Biology, Pre-Dentistry Concentration (p. 295)
- Bachelor of Arts in Biology (p. 297)
- Bachelor of Arts in Biology, combined BA/MD dual degree (p. 299)
- Biology Honors Program (p. 301)
- Minor in Biology (p. 302)
- Elective Courses for the Non-Biology Major (p. 303)

Courses taught by the School of Biological Sciences support academic programs within the schools of Nursing, Dentistry, Medicine, Pharmacy and Education, and departments within the College of Arts and Sciences. An undergraduate minor in biology and a variety of courses that may interest non-biology majors are available to complement other fields of study, or to satisfy general education requirements of other academic units. A background in biology combined with non-science skills creates many career possibilities.

Students interested in pursuing undergraduate degree programs offered by the School of Biological Sciences are admitted through the UMKC Office of Admissions (http://www.umkc.edu/admissions). Transfer students should contact the University admissions office and the School of Biological Sciences for information about transfer admissions and evaluation of transfer coursework. Transfer admission eligibility includes an overall grade-point average of at least 2.0 for all college-level coursework attempted at previous institutions, an overall GPA of at least 2.0 in courses used to fulfill School of Biological Sciences major requirements, and a University of Missouri Biology GPA of at least 2.0.

General Information About Undergraduate Programs

Career Implications of a Bachelor’s Degree in Biology

Our programs prepare students for a variety of career opportunities. Some students choose careers in the pharmaceutical or biotech industries, while others opt for graduate study in areas such as bioinformatics, forensics, or cell biology. In addition, a biology major is an excellent choice for students planning careers in medicine, veterinary medicine, dentistry, optometry, physical therapy, and other health professions.

The bachelor of science in biology curriculum fulfills the admissions requirements for most medical schools and dental schools and incorporates intermediate and upper-level biology courses specifically recommended by medical/dental school admissions officers. Those who wish to follow the pre-med track have the option to pursue the bachelor of science in biology with the cellular and molecular basis of health and disease emphasis, or apply in Spring of their Sophomore year for admission to the competitive biomedical sciences emphasis. Students pursuing admission to dental school may earn a bachelor of science in biology while completing coursework in the a pre-dentistry concentration. Those who are interested in a career as a clinical laboratory scientist/medical technologist may choose to pursue the bachelor of science in biology with the clinical laboratory science emphasis.

Undergraduate Advising

The School of Biological Sciences’ team of well-trained academic advisors assists undergraduate students in developing individual plans of study. As teaching faculty, the advisors are uniquely qualified to help students understand and address course selection and professional development issues. Students will find the School of Biological Sciences Undergraduate Programs Handbook, which contains the latest information about degree requirements, academic rules, and related matters, on Blackboard under Biological Sciences Advising. Information on time management, reading and note-taking skills, communicating with professors, and taking exams can also be found on the Biological Sciences Advising site in Blackboard. To facilitate progress toward the student’s degree, and to ensure that courses selected provide an appropriate academic program, students are required to participate in advising each semester before registering for classes.

Students enrolled in double majors or degree programs are advised by both academic units. The primary academic unit generally has the major advising responsibility. However, for issues pertaining specifically to a biology degree, an advisor at the School of Biological Sciences must be consulted.

Students are responsible for becoming familiar with all academic regulations of the campus as outlined in the catalog and in other University documents, including the SBS Undergraduate Programs Handbook.
Pre-Medicine, Pre-Dentistry and Pre-Health Professions Academic Advising

The School of Biological Sciences’ experienced team of advisors is knowledgeable about admission requirements and application processes for health profession programs. It is important for students considering eventual application to medical, dental, or veterinary school or other professional programs to consult early and often with a School of Biological Sciences advisor about appropriate course selection and additional preparation.

Advisors assist the student in investigating programs throughout the country and in planning an individualized undergraduate course of study. In addition they host informational meetings/workshops about aspects of planning for a health professions career, provide information on admission exam preparation, assist in the application process and in developing a personal statement, and help the student work with Career Services to compile a letter of recommendation file. Each student receives support and encouragement during all phases of the application process. Students are strongly encouraged to take advantage of advisor expertise by discussing their career plans beginning with their first semester at UMKC. Please see the additional catalog section on Pre-Medicine/Pre-Health (p. 741) for other information.

Graduate

Graduate Degrees:

• Master of Science in Cellular and Molecular Biology (p. 304)
  • Emphasis in Bioinformatics (p. 304)
• Master of Arts in Biology (p. 305)
• Doctor of Philosophy Study (p. 306)

The School of Biological Sciences offers programs of study leading to a master of science degree in cellular and molecular biology. In addition, a master of arts degree in biology is offered. The school participates in UMKC’s Interdisciplinary Ph.D. program in Cell Biology/Biophysics and Molecular Biology/Biochemistry.

Graduates with research experience in cell biology and biophysics or molecular biology and biochemistry may enter careers in many areas, including biotechnology, pharmaceutics, academia or governmental research involving the environment, agriculture, energy, defense or health.

General Information About Graduate Programs

Advising

New students will be advised by the principal graduate advisor until they have selected their permanent research advisor. The graduate programs office will contact students in advance of their first semester for information about advising and registration.

Students are responsible for becoming familiar with all academic regulations of the campus as outlined in the catalog and in other University documents.

Graduate Admission

Admission to the school’s graduate programs is competitive and students are encouraged to apply early. Applications are reviewed by an admissions committee that evaluates students on the basis of past performance and evidence of ability to pursue graduate studies successfully. The school admits students to its doctoral and master’s degree programs throughout the year; however, early application (by Feb. 15) is advised to receive consideration for assistantships and other financial support.

Information on admission to master’s or Ph.D. degree programs may be found at the Graduate Programs Web site at http://www.umkc.edu/sbs/graduate/, in the Graduate Academic Regulations and Information (p. 774) section of this catalog, by e-mail to sbs-grad@umkc.edu, or by writing to our graduate programs office at the mailing address at the beginning of this section.

Graduate teaching assistantships, graduate research assistantships and fellowships are available through the school and are awarded on a competitive basis. Currently, all fully admitted, full-time doctoral students receive financial support.

To be eligible for admission to the School of Biological Sciences’ graduate programs, the applicant must:

• Possess a bachelor’s degree in biological sciences or a related field with a minimum of 120 credit hours, or possess an advanced degree in a health sciences field.
• Have an undergraduate GPA of at least 3.0.
• Have sufficient background coursework to undertake graduate studies in biological sciences.
• Have acceptable scores in the Graduate Record Examination aptitude tests.
• Submit three letters of recommendation from individuals familiar with the student’s academic performance and scientific abilities.

Students may be admitted with certain deficiencies, with the stipulation that these can be removed early in the course of study.
Requirements for Retention
General requirements for retention of graduate students are described in the Graduate Academic Regulations and Information section of this catalog. For all graduate students, a 3.0 (B) GPA is required for satisfactory progress. No F grades are permitted.

Any doctoral student who receives more than one C grade in a basic course will be dropped from the doctoral program.

Any master’s student who receives more than two C grades or more than one C and one D grade in graduate courses will be dropped from the program.

General Education Requirements
To earn a bachelor’s degree in a program administered by the School of Biological Sciences, students must satisfy requirements in each of the areas listed below:

1. Communicating (9 credit hours)
   To develop students’ effective use of the English language and quantitative and other symbolic systems essential to their success in school and in the world. Students should be able to read and listen critically, and to write and speak with thoughtfulness, clarity, coherence and persuasiveness.
   a. Writing and Critical Analysis: Students must satisfactorily complete ENGLISH 110 and ENGLISH 225. In addition, students must pass the Written English Proficiency Test (WEPT) or satisfactorily complete ENGLISH 299. A student earning a score of 30 or better on the ACT English subtest or 690 or better on the SAT Verbal, may be exempt from the ENGLISH 110 requirement.
   b. Oral Augmentation/Speech: Students must satisfactorily complete COMM-ST 110 or COMM-ST 140.

2. Higher Order Thinking, Managing Information, and Valuing (6 credit hours)
   To develop students’ ability to distinguish among opinions, facts, and inferences; to identify underlying or implicit assumptions; to make informed judgments; and to solve problems by applying evaluative standards. To develop students’ abilities to locate, organize, store, retrieve, evaluate, synthesize, and annotate information from print, electronic, and other sources in preparation for solving problems and making informed decisions.
   To develop students’ abilities to understand the moral and ethical values of a diverse society and to understand that many courses of action are guided by value judgments about the way things ought to be. Students should be able to make informed decisions through identifying personal values and the values of others and through understanding how such values develop. They should be able to analyze the ethical implications of choices made on the basis of these values. Students must successfully complete 6 hours from at least two different fields, chosen from the following list:
   PHILOS 210 Introduction to Philosophy 3
   or PHILOS 222 Foundations Of Logic and Scientific Reasoning
   History:
   HISTORY 201 European History to 1600 3
   HISTORY 202 European History since 1600
   HISTORY 206 World History To 1450
   HISTORY 208 World History since 1450
   ANTHRO 103 Introduction To Cultural Anthropology 3
   SOCIO 101 Sociology: An Introduction 3
   COMP-SCI 100 Computer Fundamentals and Applications (or above ) 3

   Mathematics and Statistics:
   MATH 210 Calculus I 3
   MATH 216 Biomath I: Calculus and Modeling
   STAT 235 Elementary Statistics

   These courses, in addition to the remainder of the general education block of 42 hours, satisfy the three skill area goals of Higher Order Thinking, Managing Information, and Valuing. Courses chosen from this list may also be used to satisfy other general education requirements where appropriate.

3. Social and Behavioral Sciences (9 credit hours)
   To develop students’ understanding of themselves and the world around them through study of content and the processes used by historians and social and behavioral scientists to discover, describe, explain and predict human behavior and social systems. Students must understand the diversities and complexities of the cultural and social world, past and present, and come to an informed sense of self and others. (Students must fulfill the state statute requirements for the United States and Missouri constitutions.)
   a. Constitution course:
   Select one of the following: 3
   HISTORY 101 U.S. History to 1877
   HISTORY 102 U.S. History Since 1877
b. Six additional credit hours from at least one field other than above, chosen from economics, history, political science, psychology, sociology, social science, geography, criminal justice (6 hours).

4. Humanities and Fine Arts (6 credit hours)
To develop students’ understanding of the ways in which humans have addressed their condition through imaginative work in the humanities and fine arts; to deepen their understanding of how that imaginative process is informed and limited by social, cultural, linguistic, and historical circumstances; and to appreciate the world of the creative imagination as a form of knowledge.

a. One 3 credit hour course chosen from English, communication studies, foreign Language, or philosophy.

b. One 3 credit hour course chosen from art/art history, conservatory or theater.

5. Mathematics (3 credit hours)
To develop students’ understanding of fundamental mathematical concepts and applications. Students should develop a level of quantitative literacy that would enable them to make decisions and solve problems, and which could serve as a basis for continued learning. (The mathematics requirement for general education should have the same prerequisite(s) and level of rigor as college algebra.)

a. MATH 110 or higher (including MATH 116).

b. Students majoring in Biology will fulfill this requirement with the biology major’s mathematics requirement:
Select one of the following: 3

<table>
<thead>
<tr>
<th>MATH 210</th>
<th>Calculus I</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 216</td>
<td>Biomath I: Calculus and Modeling</td>
</tr>
<tr>
<td>STAT 235</td>
<td>Elementary Statistics</td>
</tr>
</tbody>
</table>

Total Credits 3

6. Life and Physical Sciences (8 credit hours)
To develop students’ understanding of the principles and laboratory procedures of life and physical sciences and to cultivate their abilities to apply the empirical methods of scientific inquiry. Students should understand how scientific discovery changes theoretical views of the world, informs our imaginations, and shapes human history. Students should also understand that science is shaped by historical and social contexts.

a. One life science and one physical science, to include at least one laboratory component.

b. Students majoring in biology will fulfill this requirement as a part of their major.

7. Total Credit Hours
In addition to the specific area requirements listed above, students must meet other University graduation requirements including, but not limited to, 120 total credit hours, 60 credit hours from a four-year institution if coursework is transferred from a non-Missouri institution, unless described otherwise in a specific articulation agreement with the School of Biological Sciences; 36 junior/senior level credit hours, taking the EPP Exam and the Major Field Exam, residency requirements, minimum GPA standards, and other requirements that may be specified.

**Graduate Admissions**

Admission to the school’s graduate programs is competitive and students are encouraged to apply early. Applications are reviewed by an admissions committee that evaluates students on the basis of past performance and evidence of ability to pursue graduate studies successfully. The school admits students to its doctoral and master’s degree programs throughout the year; however, early application (by Feb. 15) is advised to receive consideration for assistantships and other financial support.

Information on admission to master’s or Ph.D. degree programs may be found at the Graduate Programs Web site athttp://www.umkc.edu/sbs/graduate/, in the Graduate Academic Regulations and Information (p. 774) section of this catalog, by e-mail tosbs-grad@umkc.edu, or by writing to our graduate programs office at the mailing address at the beginning of this section.

Graduate teaching assistantships, graduate research assistantships and fellowships are available through the school and are awarded on a competitive basis. Currently, all fully admitted, full-time doctoral students receive financial support.

To be eligible for admission to the School of Biological Sciences’ graduate programs, the applicant must:
• Possess a bachelor’s degree in biological sciences or a related field with a minimum of 120 credit hours, or possess an advanced degree in a health sciences field.
• Have an undergraduate GPA of at least 3.0.
• Have sufficient background coursework to undertake graduate studies in biological sciences.
• Have acceptable scores in the Graduate Record Examination aptitude tests.
• Submit three letters of recommendation from individuals familiar with the student’s academic performance and scientific abilities.

Students may be admitted with certain deficiencies, with the stipulation that these can be removed early in the course of study.

**Bachelor of Science in Biology**

**Student Learning Outcomes**

Plan of Study (p. )

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.
2. Describe cellular structure and explain the major biochemical processes that occur in cells.
3. Describe and explain the mechanisms of heredity and the flow of genetic information.
4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.
5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.

The B.S. degree program is a rigorous curriculum designed for students interested in preparing for graduate studies or a professional school, or pursuing entry level employment in a science-related field.

**Program Requirements**

In addition to the UMKC General Education Core (http://www.umkc.edu/core) requirements, students pursuing the B.S. degree in biology must meet the following requirements:

1. **Biology Course Requirements**
   a. The following core courses are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOLOGY 108</td>
<td>General Biology I</td>
<td>3</td>
</tr>
<tr>
<td>BIOLOGY 108L</td>
<td>General Biology I Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>BIOLOGY 109</td>
<td>General Biology II</td>
<td>3</td>
</tr>
<tr>
<td>BIOLOGY 109L</td>
<td>General Biology II Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>BIOLOGY 202</td>
<td>Cell Biology</td>
<td>3</td>
</tr>
<tr>
<td>BIOLOGY 206</td>
<td>Genetics</td>
<td>3</td>
</tr>
<tr>
<td>LS-BIOC 341</td>
<td>Basic Biochemistry</td>
<td>3</td>
</tr>
</tbody>
</table>

   **Total Credits**: 17

   b. Two of the following laboratory courses are required for a minimum of 5 credit hours. One of these courses must be a Writing Intensive (WI) course. The second may be taken using the non-WI option.

   Select two of the following: 5-6

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

Total Credits: 118-122

1  General Biology II may be taken before General Biology I if desired.
GE  See list of Anchor and Focus courses at the UMKC General Education Core website (http://www.umkc.edu/core/courses).

Students must complete a total of 42 credit hours of biology courses with grades of C- or better and maintain a cumulative UM Biology GPA of at least 2.0. 26 of these credit hours must be junior/senior level and must include LS-BIOC 341, a biology synthesis course, and two laboratory courses. One Biology Lab must be Writing Intensive.

Tools for Planning and Fulfilling Academic Requirements
UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science in Biology Bioinformatics Emphasis

Student Learning Outcomes
Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.
2. Describe cellular structure and explain the major biochemical processes that occur in cells.
3. Describe and explain the mechanisms of heredity and the flow of genetic information.
4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.
5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.

Program Requirements
This instructional program incorporates courses from biology, computer science and mathematics. Students will obtain skills for the analysis of complex data, extraction of information from genomic and proteomic databases, and the design and development of software and algorithms to support these activities.

The curriculum of UMKC General Education Core (http://www.umkc.edu/core) and biology majors courses, combined with the mathematics, chemistry and physics components is designed to provide undergraduate students with a clear program for the undergraduate background needed for a career in bioinformatics or to provide them with a solid, biologically oriented curriculum to pursue graduate level research in this area.

1. Biology course requirements
   a. The following core courses:

<table>

</tbody>
</table>

¹ Students may choose LIFE-SCI 401, as an alternative to PHYSICS 250.

A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Tools for Planning and Fulfilling Academic Requirements
UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science in Biology, Biomedical Sciences Emphasis

Biomedical Sciences Emphasis
The B.S. Biology, Biomedical Sciences Emphasis is designed to prepare highly motivated students for entrance into medical school, dental school, physician assistant programs, anesthesia assistant programs, and other graduate or professional programs in the life and health sciences. Entrance into the emphasis is competitive. Students seeking the B.S. in Biology may apply for admission to the Biomedical Sciences Emphasis during the Spring semester of their sophomore year. Please contact the Undergraduate Programs Office in the School of Biological Sciences at (816) 235-2580 for more information.
In addition to the UMKC General Education Core (http://www.umkc.edu/core) requirements, students pursuing the B.S. Biology, Biomedical Sciences Emphasis must meet the following requirements:

**A. Biology course requirements**

1. The following core courses (17 credit hours)

Students may choose LIFE-SCI 401 Biophysical Principles as an alternative to PHYSICS 250. A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC's Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student's officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science in Biology Biotechnology Emphasis

Student Learning Outcomes

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.

2. Describe cellular structure and explain the major biochemical processes that occur in cells.

3. Describe and explain the mechanisms of heredity and the flow of genetic information.

4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.

5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.

The curriculum of UMKC General Education Core and biology majors courses, combined with the mathematics, chemistry and physics components is designed to provide undergraduate students with a clear program for the undergraduate background needed for a career in biotechnology or to provide them with a solid, biologically oriented curriculum to pursue graduate level research in this area.

Total Credits: 39-42

1 Students may choose LIFE-SCI 401, as an alternative to PHYSICS 250.

A minimum of 120 credit hours is required, and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Tools for Planning and Fulfilling Academic Requirements
UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.
Bachelor of Science in Biology Cellular and Molecular Basis of Health and Disease Emphasis

This instructional program fully prepares individuals for admission to a professional school in medicine, including allopathic, osteopathic or podiatric medicine programs. By completing the requirements of the bachelor’s of science in biology with the cellular and molecular basis of health and disease emphasis, students will complete all of the minimum prerequisites and the upper level biology electives which are highly recommended by most medical schools.

The courses selected provide a foundation of knowledge in modern cellular and molecular biology, essential for understanding medical science. The curriculum of general education and biology majors courses, combined with the mathematics, chemistry and physics components, provides the background essential to understanding the latest diagnostic and treatment technologies.

UMKC General Education Core (http://www.umkc.edu/core) requirements are the same as for all students seeking a bachelor’s degree in biology. Completion of the emphasis requirements will be noted on the UMKC transcript. Through proper planning with a School of Biological Sciences advisor, biology majors can use their electives and general education requirements to complete the healing and humanities minor.

Student Learning Outcomes

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.
2. Describe cellular structure and explain the major biochemical processes that occur in cells.
3. Describe and explain the mechanisms of heredity and the flow of genetic information.
4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.
5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.

Program Requirements

1. Biology course requirements
   a. Core courses:
      BIOLOGY 108  General Biology I  3
      BIOLOGY 108L General Biology I Laboratory 1
      BIOLOGY 109  General Biology II  3
      BIOLOGY 109L General Biology II Laboratory 1
      BIOLOGY 202  Cell Biology  3
      BIOLOGY 206  Genetics  3
      LS-BIOC 341 Basic Biochemistry  3
      Total Credits  17
   b. Emphasis course requirements:
      LS-PHYS 316 Principles of Physiology  3
      LS-MCRB 313 Microbiology  3
      BIOLOGY 409 Developmental Biology  3
      LS-BIOC 430 Molecular Biology and Genetic Engineering  3
      LS-MCRB 431 Virology  3
      or LS-MCRB 435 Immunology  3
      Total Credits  15
   c. Laboratory course requirements:
      LS-MCRB 313WL Laboratory in Microbiology (WI)  3
      Select one of the following:  2-3
      BIOLOGY 312WL Laboratory in Developmental Biology, Genetics and Cell Biology
      BIOLOGY 328L Laboratory in Histology and Cellular Ultrastructure
or BIOLOGY 328WL  Laboratory in Histology and Cellular Ultrastructure
LS-BIOC 360L  Laboratory in Biochemistry and Molecular Biology
or LS-BIOC 360WL  Laboratory in Biochemistry and Molecular Biology
LS-ANATO 118L  Introductory Anatomy Laboratory

Total Credits  5-6

Students may choose LIFE-SCI 401, as an alternative to PHYSICS 250.

A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

**Bachelor of Science in Biology, Clinical Laboratory Science Emphasis**

The SBS offers a program leading to a BS degree in Biology with the Clinical Laboratory Science emphasis. The typical student spends the first three years on the UMKC campus completing the general education and basic science course requirements of the baccalaureate degree. A final 12 month course of clinical studies is completed in an affiliated hospital clinical program, which is approved by the Council on Medical Education of the American Medical Association and accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Affiliated clinical programs are located at North Kansas City Memorial and Saint Luke’s hospitals. After completing the clinical program and earning a bachelor’s degree, students are eligible to take a national certification board examination. Passing the certification examination is not a condition for receiving the BS degree in Biology with the Clinical Laboratory Science emphasis but is often required for employment in the field.

Acceptance into a hospital clinical program is competitive. Admission into the BS degree in Biology with the Clinical Laboratory Science emphasis at UMKC does not guarantee acceptance of the student by an affiliated hospital clinical program. Clinical instruction in the hospital is a 12-month, full-time day program.

Application to the clinical program is made directly by the student to any (or all) of the affiliated hospitals. The student should apply during the summer or fall of his/her junior year. A list of program contacts is available from an SBS Advisor. Hospital programs differ in admission criteria, application deadlines and early admission options. Early application is advised.

**Student Learning Outcomes**

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.
2. Describe cellular structure and explain the major biochemical processes that occur in cells.
3. Describe and explain the mechanisms of heredity and the flow of genetic information.
4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.
5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.
Program Requirements

1. **General education requirements** are the same as for all students pursuing a Bachelor’s degree in SBS.

2. **Physical sciences and mathematics requirements.** The following are required. A grade of C- or better is required in each course used to fulfill these requirements.

   MATH 210  
   or MATH 216  
   or STAT 235  
   PHYSICS 210  
   PHYSICS 220  
   CHEM 211  
   CHEM 211L  
   CHEM 212R  
   CHEM 212LR  
   CHEM 320  
   CHEM 320L  
   CHEM 341  

   3. **Biology course requirements.** Biology courses that fulfill the BS in Biology with the Clinical Laboratory Science emphasis requirements are listed below. A total of 32 credit hours of biology courses is required and at least 16 of these must be at the 300 or 400 level. A minimum of 16 credit hours of Biology courses must be earned from UMKC SBS. A grade of C- or better is required in each course used to fulfill these requirements.

   A. The following courses are required of all students seeking the BS degree in Biology with the Clinical Laboratory Science emphasis.

      BIOLOGY 108  
      BIOLOGY 108L  
      BIOLOGY 109  
      BIOLOGY 109L  
      BIOLOGY 202  
      BIOLOGY 206  
      LS-BIOC 341  
      LS-MCRB 313  
      LS-MCRB 313WL  
      LS-MCRB 435  
      LS-MCRB 431  

   B. In addition, students must take 3 or more additional hours to be chosen from:

      BIOLOGY 328  
      BIOLOGY 328WL  
      LIFE-SCI 401  
      LS-ANATO 118  
      LS-ANATO 118L  
      LS-BIOC 360WL  
      LS-BIOC 430  
      LS-MCRB 431  

   4. Satisfactory completion of a clinical program at an affiliated hospital. This will allow the student to earn 30 credit hours toward the bachelor’s degree. Ten of the clinical hours are allowed as upper level biology toward the 42 hours required for the BS. Twenty of the clinical hours are allowed as upper level general science credit. Completion of the clinical program also fulfills the Biology Synthesis requirement.

   5. The UM Biology GPA must be at least 2.0.

   6. A total of 120 credit hours (minimum) is required; these may be taken from any area once other degree requirements have been met. For most students, more than 120 credit hours will be needed to meet all requirements.
Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science in Biology Pre-Dentistry Concentration

Student Learning Outcomes

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.
2. Describe cellular structure and explain the major biochemical processes that occur in cells.
3. Describe and explain the mechanisms of heredity and the flow of genetic information.
4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.
5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.

This instructional program fully prepares individuals for admission to a professional school in dentistry. By completing the requirements of the bachelor’s of science in biology with the pre-dentistry concentration, students will complete all of the minimum prerequisites and upper level electives suggested by dental schools across the United States. The courses selected provide a foundation of knowledge in modern dentistry, essential for understanding dental science. The curriculum of general education and biology majors courses, combined with the mathematics, chemistry and physics components, provides the background essential to understanding the latest diagnostic and treatment technologies.

UMKC General Education Core (http://www.umkc.edu/core) requirements are the same as for all students seeking a bachelor’s degree in biology. Through proper planning with a School of Biological Sciences advisor, biology majors can use their elective general education requirements to complete the healing and humanities minor.

1. Biology course requirements
   a. Core courses
      
      | Course       | Title                     | Credits |
      |--------------|---------------------------|---------|
      | BIOLOGY 108  | General Biology I         | 3       |
      | BIOLOGY 108L | General Biology I Laboratory | 1       |
      | BIOLOGY 109  | General Biology II        | 3       |
      | BIOLOGY 109L | General Biology II Laboratory | 1       |
      | BIOLOGY 202  | Cell Biology              | 3       |
      | BIOLOGY 206  | Genetics                  | 3       |
      | LS-BIOC 341  | Basic Biochemistry        | 3       |
      | **Total Credits** |                         | **17**  |

   b. Concentration course requirements
      
      | Course       | Title                     | Credits |
      |--------------|---------------------------|---------|
      | LS-ANATO 118 | Introductory Anatomy      | 3       |
      | LS-PHYS 316  | Principles of Physiology  | 3       |
      | LS-MCRB 313  | Microbiology              | 3       |
      | BIOLOGY 409  | Developmental Biology     | 3       |
      | BIOLOGY 328  | Histology                 | 2       |
      | LS-MCRB 435  | Immunology                | 3       |
      | or LS-BIOC 430 | Molecular Biology and Genetic Engineering | 3 |
      | **Total Credits**: |                          | **17**  |
c. Required laboratory courses (BIOLOGY 328WL must be taken using the writing intensive option.)

CHEM 211L  Experimental General Chemistry I  1
CHEM 212R  General Chemistry II  4
CHEM 212LR  Experimental General Chemistry II  1
CHEM 321  Organic Chemistry I  3
CHEM 321L  Organic Chemistry Laboratory I  1
CHEM 322R  Organic Chemistry II  3
CHEM 322L  Organic Chemistry Laboratory II  1

Total Credits  34-36

1 Students may choose LIFE-SCI 401 as an alternative to PHYSICS 250.

A minimum of 120 credit hours is required; and 36 of these must be at the junior/senior level.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts in Biology

Student Learning Outcomes

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.
2. Describe cellular structure and explain the major biochemical processes that occur in cells.
3. Describe and explain the mechanisms of heredity and the flow of genetic information.
4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.
5. Employ techniques and procedures commonly used in modern biology laboratories.
6. Analyze and critically evaluate scientific data.
7. Write clearly about topics in the biological sciences for a peer or professional audience.

The B.A. degree program in biology is designed to accommodate students who want a solid background in the biological sciences, but who need less rigorous studies in the supporting sciences of chemistry, mathematics and physics. It is also recommended for students who plan to pursue double majors.

Degree Requirements

In addition to meeting the UMKC General Education Core (http://www.umkc.edu/core) requirements outlined previously, students pursuing the B.A. degree in biology must meet the following requirements:

Biology Course Requirements

**Additional Biology Majors Course work**

16

**Total Credits**

38

---

1. Students must complete additional biology majors coursework to total at least 38 credit hours of biology courses with grades of C- or better. At least 24 of these must be at the 300- or 400-level. One of these courses must be writing intensive. A minimum of 21 credit hours of biology courses must be taken from the School of Biological Sciences. The UM Biology GPA must be at least 2.0.
Additional Science and Mathematics Course Requirements

The following courses must be completed with grades of C- or better:

- MATH 216 Biomath I: Calculus and Modeling 3-4
  or MATH 210 Calculus I
  or STAT 235 Elementary Statistics

- PHYSICS 210 General Physics I 4
- CHEM 211 General Chemistry I 4
- CHEM 211L Experimental General Chemistry I 1
- CHEM 212R General Chemistry II 4
- CHEM 212LR Experimental General Chemistry II 1
- CHEM 320 Elementary Organic Chemistry 4
- CHEM 320L Experimental Organic Chemistry 1

Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts in Biology for combined BA/MD Dual Degree Program

Student Learning Outcomes

Students who complete an undergraduate degree in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.

2. Describe cellular structure and explain the major biochemical processes that occur in cells.

3. Describe and explain the mechanisms of heredity and the flow of genetic information.

4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.

5. Employ techniques and procedures commonly used in modern biology laboratories.

6. Analyze and critically evaluate scientific data.

7. Write clearly about topics in the biological sciences for a peer or professional audience.

Degree Requirements

1. UMKC General Education Core (http://www.umkc.edu/core) requirements are the same for all students pursuing a Bachelor’s degree in SBS. Students in the 6 yr BA/MD program will apply specific courses required by the medical program to fulfill these requirements.

2. Physical sciences and mathematics requirements: All of the following courses are required.
   A grade of C- or better is required in each course used to fulfill these requirements.

   Select one of the following: 3-4

   - MATH 216 Biomath I: Calculus and Modeling
   - MATH 210 Calculus I
   - STAT 235 Elementary Statistics
   - PHYSICS 210 General Physics I 4-5
     or PHYSICS 240 Physics For Scientists and Engineers I
   - CHEM 211 General Chemistry I 4
   - CHEM 211L Experimental General Chemistry I 1
   - CHEM 212R General Chemistry II 4
   - CHEM 212LR Experimental General Chemistry II 1
3. Biology course requirements. Biology courses that fulfill the BA degree requirements are listed below. A total of 38 credit hours of biology courses is required and at least 24 of these must be at the 300 or 400 level. A minimum of 21 credit hours of biology courses must be earned from UMKC SBS. A grade of C- or better is required in each course used to fulfill these requirements.

   a. All of the following courses are required of all students seeking the BA degree in Biology. These core curriculum requirements constitute a total of 17 credit hours plus 2 credit hours of elective upper level biology.

</table>
f. Additional 3 credit hours of upper level biology coursework is needed to complete the total of 38 required credit hours in biology, 24 of which must be junior/senior level and one of which must be a writing intensive course.

4. The UM Biology GPA must be at least 2.0.

5. A minimum of 120 credit hours is required (with a maximum of 30 credit hours of professional credit allowed toward the degree) and 36 of these must be at the junior/senior level. Electives may be taken from any area once other degree requirements have been met.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Honors Program

The School of Biological Sciences offers a biology honors program for bachelor of science undergraduate students interested in pursuing rigorous preparation for advanced professional training and scientific careers. The program combines a requirement for high levels of academic achievement with hands-on undergraduate research with a faculty mentor. Biology honors students are included in all scholarly and social events of the School of Biological Sciences graduate program. Students are encouraged to apply by contacting the School of Biological Sciences Undergraduate Programs Office.

Freshman students may be accepted into the honors program if they are in the top 10 percent of their high school graduating class and have a composite score greater than 1300 on the SAT, 1350 on the recentered SAT, or 30 on the ACT. Eligible students may also be accepted at the end of their freshman year or later (until the beginning of their junior year or 70 credit hours). Requirements for admission at the end of the freshman or sophomore year for UMKC students or transfer students include:

1. A 3.5 minimum undergraduate GPA.
2. A 3.5 undergraduate GPA in sciences/mathematics.
3. Satisfactory progress to that point in the B.S. degree program, including completion (minimally) of the following (with grades of B or better):
   - CHEM 211 General Chemistry I 4
   - CHEM 212R General Chemistry II 4
   - MATH 210 Calculus I 4
   - or MATH 216 Biomath I: Calculus and Modeling 4
   - BIOLOGY 108 General Biology I (or equivalent) 3
   - BIOLOGY 109 General Biology II (or equivalent) 3
4. An interview to explore the student’s interests and identify an appropriate faculty mentor.

Graduation with a B.S. in biology with honors will be noted on the official university transcript and records of those students who:
1. Complete all of the B.S. degree requirements.

2. Complete at least two semesters (4 credit hours total) of LIFE-SCI 499M with a grade of B or better.

3. Maintain a 3.5 UM GPA; 3.5 science/mathematics UM GPA.

4. Successfully complete a semester of LIFE-SCI 490WI.

5. Satisfactory completion of of an undergraduate (senior) research thesis.

Requirements for retention in the Biology Honors Program include the following:

1. Students must maintain a 3.5 minimum UM cumulative GPA and a 3.5 minimum Math-Science GPA to be in good standing in the biology honors program.

2. Should either the cumulative or Math-Science GPA drop below 3.5, but not below 3.2 in any given semester, the student will be retained in the biology honors program for an additional semester. The student must restore the GPA to the 3.5 minimum at the end of that semester. A student who has less than a 3.2 cumulative UM GPA at the end of any semester will be dropped from the biology honors program.

3. Students must make satisfactory progress in the biology honors program, as determined by the SBS Academic Standards Committee, in order to be retained in the program.

**Minor in Biology**

**Student Learning Outcomes**

Students who complete a minor in biology will be able to:

1. Identify fundamental concepts in the biological sciences, including
   a. the relationship between structure and function at all levels of biological organization,
   b. evolution and the role of natural selection in the process,
   c. ecological relationships between organisms and their environment.

2. Describe cellular structure and explain the major biochemical processes that occur in cells.

3. Describe and explain the mechanisms of heredity and the flow of genetic information.

4. Apply knowledge in basic mathematics, chemistry, and physics to solve biological problems.

5. Employ techniques and procedures commonly used in modern biology laboratories.

6. Analyze and critically evaluate scientific data.

7. Write clearly about topics in the biological sciences for a peer or professional audience.

Upper-level Courses

1 Upper-level courses for which prerequisites have been satisfied are recommended for those students who wish to gain a strong foundation in biological sciences.
Students enrolling in these biology majors’ courses should have a solid background in high school biology and chemistry.

**Master of Science in Cellular and Molecular Biology**

**Student Learning Outcomes**

Students who complete a master of science in cellular and molecular biology will be able to:

1. Describe structures and functions of key biological molecules
2. Describe storage, transmission and expression of genetic information
3. Develop oral and written communication skills
4. Understand and develop approaches to test hypotheses about biological mechanisms

**Degree Requirements**

## Emphasis in Bioinformatics

The emphasis in bioinformatics is a degree option with specific requirements.

This degree option trains students in the fundamental principles of bioinformatics and prepares them for careers in research, medical and corporate settings. Students will learn how to manage and analyze data stored in databases, become familiar with the various computational tools and techniques available to analyze biological data, become familiar with the types of questions and problems within biology that lend themselves to bioinformatics analysis and gain proficiency with a variety of statistical techniques necessary to analyze genomic, proteomic and integrated biological data sets.

Emphasis requirements, in addition to the specified degree requirements.

## Master of Arts in Biology

### Student Learning Outcomes

Students who complete a master of arts in biology will be able to:

1. Understand basic fundamentals of biology and apply them to clinical anesthesia
2. Describe principles of anesthesia in the clinical setting
3. Perform clinical procedures necessary to be practicing nurse anesthetist

### Degree Requirements

The master of arts program of study requires a minimum of 36 credit hours. No more than 40 percent of the program may be at the 300- to 400-level; the balance must be at the 5500-level or above. BIOLOGY 5592, is required on an approved topic for an extensive investigation with oral presentation. This
investigation may be accomplished through literature search or laboratory experimentation. No more than six hours of BIOLOGY 5591, may be applied to this program.

Students typically pursue the master of arts in biology and a certificate in the Truman Medical Center Nurse Anesthesia Program concurrently. For information about admission and degree requirements, students interested in the CRNA certificate should first contact the School of Nurse Anesthesia (http://www.trumed.org/crna) at Truman Medical Center, and then contact the School of Biological Sciences. Admission by both programs is required.

**Doctor of Philosophy Study**

**Degree Requirements**

The Ph.D. program at UMKC is interdisciplinary. Students interested in studies at the doctoral level in the disciplines of cell biology and biophysics, or molecular biology and biochemistry, should apply to the Interdisciplinary Ph.D. program in the School of Graduate Studies. Students interested in a combination of cell biology and biophysics with molecular biology and biochemistry should apply to our graduate programs at http://sbs.umkc.edu/graduate_application.cfm or by writing to the mailing address at the beginning of this section (p. 273).

Detailed information on the general and discipline-specific admission requirements for the Ph.D. is found in the School of Graduate Studies (p. 480) section of this catalog, with specific details on the school’s Web site at http://www.umkc.edu/iphd.

Students pursuing Interdisciplinary Ph.D. studies who have selected cell biology and biophysics, or molecular biology and biochemistry as one of their disciplines should consult the School of Graduate Studies (p. 480) section of this catalog for degree requirements and other academic regulations applicable to their degree program.

**School of Computing and Engineering**

See CSEE Catalog (p. 325) and CSEE Website (http://sce.umkc.edu/our-school/csee-department.asp)

History
The University has offered engineering degree programs since 1956. Increased technology demands during the mid-80s, combined with a generous gift from United Telecom (now Sprint Nextel), led to the development of UMKC's high-tech Computer Science and Telecommunications Program in 1984. These programs were combined in 2001 to form the School of Computing and Engineering (SCE).

Mission
The mission of the School of Computing and Engineering is to provide competitive educational opportunities and focused research in computing and engineering generating the technical work force and research needed for economic development.

Departments and Degree Programs
The School of Computing and Engineering has two departments:

- Civil and Mechanical Engineering (http://www.sce.umkc.edu/cme)
- Computer Science Electrical Engineering (http://sce.umkc.edu/our-school/csee-department.asp)

The School also participates in UMKC's Interdisciplinary Ph.D. program through four disciplines: computer science, electrical and computer engineering, engineering (for civil and mechanical engineering) and telecommunications and computer networking. (See the School of Graduate Studies section of this catalog for details about the Interdisciplinary Ph.D. Program.)

Financial Assistance
The University has several financial aid programs, scholarships and awards for the benefit of our students: see http://sfa.umkc.edu/site for opportunities available to all UMKC students. There are several School of Computing and Engineering scholarships available exclusively for SCE students. To be eligible, applicants must be accepted to both UMKC and and SCE degree program. All award recipients must maintain full-time student enrollment (minimum 12 credit hours/semester for undergraduate; 9 credit hours/semester per graduate) throughout the academic year of the award.

Applications are due by January 31 for full consideration for the next fall semester's scholarship awards; however applications are accepted and kept on file year-round should additional awards become available. Current SCE scholarship recipients must re-apply each year before January 31 to be considered for the next academic year. For the most current list of scholarships, qualifications and applications please visit the SCE Scholarship Web page at http://sce.umkc.edu/scholarships/sce-scholarships.asp or e-mail UMKC-SCEScholarships@umkc.edu for additional information.

Undergraduate Scholarships
SCE scholarships include:

- Ankit Agarwal Computer Science Scholarship
- James E. Allen Engineering Scholarship
- John & Phyllis Anderson Engineering Scholarship
- American Society of Civil Engineers (ASCE), Kansas City Section, GeoTechnical Group/Peck-Williams-Garstang Scholarship
- Bayer Scholarship
- Black & Veatch Scholarship
- Dr. C. Quinton Bowles Memorial Scholarship Endowment
- Building A World of Difference Scholarship
- Newton A. Campbell Engineering Excellence Scholarship
- Computing and Engineering Alumni Scholarship
- Dean's Excellence Scholarship
- DST Systems Computer Science Scholarship
- JE Dunn Scholarship
- EyeVerify Scholarship
• FIRST Robotics Scholarship
• Robert C. Harmon Engineering Scholarship
• HDR Engineering Scholarship
• Henderson Engineers Scholarship
• Dave Hermance Memorial Scholarship
• Richard G. & Terry Hetherington Scholarship
• Hill Family Scholarship
• Information Products, Inc. Scholarship
• Kansas City Association of Healthcare Engineers (KCAHCE) Scholarship
• Kansas City Power & Light Engineering Scholarship
• Kiewit Power Scholarship
• Kristin Jane Loeffelholz Memorial Scholarship in Engineering
• Forrest & Joan Lowe Scholarship
• National Action Council for Minorities in Engineering (NACME) Scholars Program
• Dr. & Mrs. Stanley Niu Engineering Scholarship
• Olsson Associates Scholarship
• Mary Anne and William Osborne Scholarship
• Project Lead the Way (PLTW) Scholarship
• Saravan Rajendran Scholarship
• Lee & Mary Louise Rankin Memorial Scholarship
• SCE Faculty/Staff Scholarship
• Jerrold F. Stach Memorial Scholarship
• Doris Markham Swinney Scholarship
• Martin Ashton Swinney Memorial Scholarship
• Western Chapter Missouri Society of Professional Engineers Auxiliary Scholarship

Other scholarships are available through the UMKC Financial Aid and Scholarship Office. For more information, refer to http://www.sfa.umkc.edu.

Graduate Scholarships and Awards

The following are available to SCE students:
• Chandra Scholarship
• Mahatma Ghandi Scholarship
• Balaji Kirthikaivasan Memorial Graduate Fellowship Fund

Additionally, the following are available to first-time, full time degree applicants to UMKC:
• The Chancellor’s Nonresident Award (CNR) is available to new SCE domestic nonresident applicants. The CNR is not available to international SCE students.
• The Dean’s International Scholar Award (DISA) is available to new SCE international applicants.

Both CNR and DISA awards are decided when the admission decision is made; therefore, no specific application form is required. The CNR and DISA are competitive awards and awarded only to the best prepared and qualified applicants. Decisions are made on the basis of the applicant’s academic record, performance and preparation in core courses, GRE and TOEFL scores, the strength of the undergraduate program and institution, and the timing of the application. CNR and DISA awards are renewable for students in good academic and disciplinary standing. Awardees must carry and complete a full load (minimum 12 credit hours/semester for undergraduate; 9 credit hours/semester for graduate) and maintain a GPA of at least 3.00 (for undergraduate students) or at least 3.50 (for graduate students.) Student progress and performance is reviewed in September, February and June.

The amount of the DISA scholarship for 2014-2015 is $4,000.00/semester (Graduate) and $4,250.00/semester (Undergraduate).

For the value of the CNR award, please see http://www.umkc.edu/isao/cnr_info.cfm.

In addition to the CNR and DISA awards, mentioned above, there are assistantships.

There are Graduate Research Assistantships available through various faculty conducting funded research, and information on these can be obtained from individual faculty. Most faculty with funded research programs will award research assistantships to students whose performance they have been able to observe in the class room.
A limited number of graduate assistantships are available to fully-enrolled graduate students with excellent academic performance and solid communications skills.

Typically, awards are for quarter-time, three-eights, or half-time support, and may include tuition fee waivers. Priority will be given to students with excellent communication skills and to students in the Interdisciplinary Ph.D. program. International students who wish to be considered for a Graduate Assistantship must have TOEFL SPEAK score 24 and higher and must attain IGTA certification from the School of Graduate Studies during their first semester at UMKC. Students must apply for these opportunities by sending their application materials to the Department of Civil and Mechanical Engineering (alberts@umkc.edu) or to the Department of Computer Science Electrical Engineering (griffiths@umkc.edu). International students can be considered for a Graduate Research Assistantship during their first semester of enrollment, but cannot be considered for a Graduate Assistant or Graduate Teaching Assistant position.

Educational Objectives (PEOs)

The Civil Engineering program educational objectives (PEOs) support the missions of the institution and SCE. The PEOs are published on the Civil & Mechanical Department web-site (http://sce.umkc.edu/our-school/cme-department.asp) under the CME mission statement.

The Civil Engineering Program at UMKC expects the graduates within a few years of graduation to attain the following:

• Graduates are successfully employed in an engineering or related field or accepted into a graduate program.
• Graduates apply the necessary problem-solving, design, and application skills for successful careers in Civil Engineering.
• Graduates utilize their educational foundation and communication skills to effectively lead, work, and communicate in diverse career paths.
• Graduates succeed in the complex social, business, and technical environment in which their engineering contributions will be utilized.

The Mechanical Engineering program educational objectives (PEOs) support the missions of the institution and SCE. The PEOs are published on the Civil & Mechanical Department web-site (http://sce.umkc.edu/our-school/cme-department.asp) under the CME mission statement.

The Mechanical Engineering Program at UMKC expects the graduates within a few years of graduation to attain the following:

• Graduates are successfully employed in an engineering or related field or accepted into a graduate program.
• Graduates apply the necessary problem-solving, design, and application skills for successful careers in Mechanical Engineering.
• Graduates utilize their educational foundation and communication skills to effectively lead, work, and communicate in diverse career paths.
• Graduates succeed in the complex social, business, and technical environment in which their engineering contributions will be utilized.

Scholarships

A list of scholarships and financial aid is available on the Financial Aid webpage at http://www.sfa.umkc.edu/. Application information regarding these scholarships is available from the department office. Engineering students are also eligible to apply for SCE Scholarships (http://sce.umkc.edu/scholarships/default.asp). Information regarding these scholarships may also be obtained from the Department office.

Advising and Registration

The civil and mechanical engineering programs assign a faculty member to be the student’s academic advisor throughout the duration of their study. Students may request a change of advisor assignment. Students are required to meet with their faculty advisor every semester prior to registration for the following semester. The faculty advisor guides the student in selecting courses that are necessary for completion of degree requirements, and answers questions regarding elective course programs and options. During the advising period, the faculty advisor determines whether the student is meeting degree requirements by reviewing the program advisement form. Any exceptions to the normal procedure must be approved by written petition. Specific information regarding registration is found in the UMKC Class Schedule and on the UMKC Web site.

Program Activities

Students enjoy many group activities outside the classroom. They participate in regional and national competitions, design and erect bridges and concrete canoes, and participate in Engineers’ Week activities. They have been winning their share of awards and have had fun doing it.

The School of Computing and Engineering has a number of societies open to all engineering students. These include the SCE Student Council, and the student chapters of the American Society of Civil Engineers (ASCE), the Missouri Society of Professional Engineers (MSPE), the National Society of Black Engineers (NSBE), the Society of Women Engineers (SWE) and the Structural Engineering Association of Kansas and Missouri (SEAKM). In these organizations, students have an opportunity to develop their career through association with other civil engineering students, the faculty, and active members of the profession. The chapters hold monthly meetings, field trips and other activities such as competing in the steel bridge and concrete canoe competitions. Membership is open to all engineering students.

Several national engineering honorary societies have also been established to recognize academic excellence. Tau Beta Pi is for all engineering majors. Assembly of Civil Engineering Scholars (ACES) is an honorary society for civil engineering students.
Undergraduate

Undergraduate Degrees:
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Mechanical Engineering

Admissions

First-Time Admission
First-time college student applicants to the undergraduate program will be admitted if they obtain: (1) an ACT mathematics score of at least 25; and (2) an ACT composite score of at least 24, or a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the standard criteria but do meet UMKC general admission requirements, and have other indicators that demonstrate potential for success, may be conditionally admitted to the Civil and Mechanical Engineering Department. The student may apply for acceptance into the civil or mechanical engineering discipline after meeting the terms of the conditional admission.

High school students planning to apply to the civil or mechanical engineering program should pursue a college preparatory program that emphasizes mathematics, science and communication skills.

Re-admission
Students seeking re-admission into either civil or mechanical engineering must have been in good academic standing in the CME degree program when last enrolled, otherwise, re-admission requires a formal review by the department upon written appeal by the student.

Transfer Admission
Students with 24 or more transferrable credits (transfer students) will be admitted based upon the general UMKC transfer policy and must have completed coursework equivalent to MATH 210, CHEM 211, and either PHYSICS 240 or MATH 220, with a grade of ‘C’ or better. The minimum overall GPA of transferrable engineering degree coursework must be 2.5 or higher. The 2.5 GPA is computed using all degree applicable attempts from all institutions when determining admission of transfer students. Students must also meet UMKC’s general admission requirements including the 2.0 or higher cumulative GPA from all institutions attended.

Transfer students not meeting the above criteria may be admitted based on a formal review by the departmental academic committee. A written appeal by the prospective student is required by the academic committee in order to be considered for admission.

Transfer credits of engineering courses will be accepted provided they are either from an ABET-accredited engineering program or have been approved as part of a transfer articulation agreement. All transferable coursework applicable towards the degree must have a grade of ‘C’ or higher.

International Transfer Credit
Unless the international institution is recognized by ABET, only sophomore level (200 level) or below coursework may be transferred by petition and review of the academic committee. Final acceptance of transfer credit by petition requires completion of one academic year of probation. Any identified deficiencies during that probation period will, on the review of the academic committee, require remedial coursework.

Visiting Student Admission
Visiting students must meet the Civil & Mechanical Engineering Department (CME) regular admission requirements. Visiting students who wish to take undergraduate civil or mechanical engineering coursework will be required to show proof of having met prerequisites to the course desired to be taken with a grade of “C” or better. Registration requires permission from the department. Enrollment of visiting students in undergraduate civil or mechanical coursework will be done the week before the start of the semester (for summer semester, registration will be done two weeks before the start of the semester) on a space available basis unless an exception is approved by the CME Department. Visiting undergraduate students cannot use the KCASE program for SCE classes.

Academic Regulations for Civil and Mechanical Engineering

Transfer of General Education Credits
Students Transferring from Other Missouri Institutions with a Certified 42-Hour General Education Core Curriculum
Students transferring into an undergraduate engineering program with a certified 42-hour block of general education credit from another Missouri institution typically would be required to complete additional degree specific coursework for baccalaureate degrees depending on the different degree programs pursued. A student should consult with an academic advisor to obtain the specific details.
UMKC’s General Education Core (p. 758) for Students Transferring to Another Missouri Institution

Civil Engineering students wishing to complete the General Education core should also consult with an academic advisor by contacting the Department Office at (816) 235-5550.

Minimum Grade Requirement

A grade of “C” (2.0) or better must be earned in every course required in the civil or mechanical engineering degree programs.

Audits

A student cannot take a course for audit and later expect to take the same course for credit in the degree program. For that reason, students must not audit any courses required in their program, unless credit has already been established. To audit an elective course, written consent from both the student’s advisor and the instructor of the course is required. After the first week of classes, a student cannot change from credit to audit or audit to credit.

Repeat of Courses

No courses taken within the University of Missouri system may be repeated if a grade of C or better has been obtained. All grades in each attempt count toward cumulative grade-point calculation.

Petitions

To receive an exception from stated departmental guidelines or curriculum, the student must file a petition in the Department Office. To receive transfer credit for courses taken at another institution after admission to Civil Engineering, the student must file a petition in the Department Office. If the petition is denied by the CME Academic Appeals Committee, the student may appeal the decision to the Dean of the School of Computing & Engineering.

Withdrawals

A student may withdraw from a course without academic assessment by completing a Drop/Add form before the deadline given in the UMKC Schedule of Classes.

Academic Standing

The University tries to assure that students progress satisfactorily toward their goals and receive clear warning when they do not. To this end, engineering adheres to a clear policy, but provides for exceptions in unusual cases. The interest of the student is paramount.

A student is in good academic standing when term and cumulative grade-point averages (GPA) from the University of Missouri system are 2.0 or higher in courses necessary for an engineering degree. Students will be placed on academic probation if, when in good academic standing, they earn a term GPA of less than 2.0 but greater than 1.0. Students may also be placed on academic probation at the time of initial admission or readmission because they do not fully meet the minimum standards. Students earning a term GPA of less than 1.0, or a term GPA of less than 2.0 while on academic probation become ineligible for continuation of studies. The academic standing statements found at the top of semester grade reports are defined as follows:

- Now In Good Standing - Term and cumulative GPA greater than 2.0.
- Now On Probation - Term or cumulative GPA less than 2.0.
- Academically Ineligible - Term GPA less than 1.0 or two consecutive semesters with term or cumulative GPA less than 2.0.

When a student becomes academically ineligible, the student is not allowed to continue academic studies. Any pre-registration of course work will be canceled. In order to continue academic studies, the student must appeal to the Civil and Mechanical Engineering Department in writing.

Now in Good Standing

A student whose term and cumulative grade-point averages (GPA) from the University of Missouri system are 2.0 or higher, in courses necessary for an engineering degree, is in good academic standing. A term is defined as a fall semester, spring semester or summer session.

Now on Probation

A student will be placed on academic probation if, when in good academic standing, the student earns a term GPA of less than 2.0 but greater than 1.0. A student may also be placed on academic probation at the time of initial admission or readmission because the student does not fully meet the minimum requirements.

Probationary Term

After being placed on academic probation, the student’s next semester of enrollment (the probationary term) must result in the completion of at least 12 hours of course work necessary for an engineering degree. A student will be returned to good standing if, at the end of the probationary term, the student’s term and cumulative GPAs are 2.0 or higher in courses necessary for an engineering degree.
Academically Ineligible
A student will become academically ineligible if any of the following apply:

- The student receives a term GPA of less than 1.0.
- The student receives a term GPA of less than 2.0 for the probationary term.
- The student receives a cumulative GPA of less than 2.0 for the probationary term.
- The student fails to complete at least 12 hours of course work necessary for an engineering degree during the probationary term.

Satisfactory Academic Progress
Students will be expected to maintain continuous satisfactory academic progress and can be removed from the civil or mechanical engineering program after evaluation by the Civil and Mechanical Engineering Academic Committee if it finds that satisfactory academic progress is not being made (see CME Student Handbook for details).

Academic Appeals
If a student has become academically ineligible, the student may be allowed to continue academic studies, provided that the student successfully appeals to the Academic Appeals Committee. The primary concern of the Appeals Committee is the likelihood of the student’s future success. Accordingly, any appeal should include causes for the student’s past poor performance and reasons for expecting better performance in the future. When the Appeals Committee allows a student to re-enroll, it may set conditions such as courses to be taken, minimum grades, total hours, etc. to which the student must adhere.

If a student has become academically ineligible and wishes to enroll on a part-time basis, the student must appeal to the Academic Appeals Committee and document the reasons for part-time enrollment. Such documentation might include a written doctor’s statement for medical reasons or a written employer’s statement for work reasons. If work is given as the reason for part-time enrollment, the following guidelines shall apply:

<table>
<thead>
<tr>
<th>Work Hours/Week</th>
<th>Minimum Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>40+</td>
<td>3</td>
</tr>
<tr>
<td>30+</td>
<td>6</td>
</tr>
<tr>
<td>20+</td>
<td>9</td>
</tr>
<tr>
<td>0-19</td>
<td>12</td>
</tr>
</tbody>
</table>

Application for Graduation
Students should apply for graduation when they register for their final semester’s course work. Requirements for graduation include the following:

1. The student’s last 30 hours must be taken at the University of Missouri-Kansas City.
2. The overall grade-point average in all enrollments in all University of Missouri course work must be at least 2.0.
3. The grade-point average in the last enrollment in all engineering course work (CE, ECE, ME) must be at least 2.0.

A grade-point average deficiency may be removed by repeating a course or by taking additional courses that qualify as eligible electives in the curriculum.

Students are required to take the Academic Profile Test, which is a general education test, before they can graduate. This test is administered by the UMKC Office of Testing Services (816) 235-5820 and may be taken any time after the student has completed a total of 80 credit hours from any institution. The object of this test is to assess the effectiveness of university course work and the score is not part of the student’s permanent record.

Students are also required to complete a department exit interview in the last semester that they are enrolled.

Graduate
- Graduate Programs
  - Engineering and Construction Project Management Certificate (p. 320)
  - Master of Science in Civil Engineering
  - Doctoral Studies in Civil Engineering
  - Graduate Courses in Civil Engineering (CIV-ENGR)

- Mechanical Engineering
  - Career Opportunities in Mechanical Engineering
  - Program Description in Mechanical Engineering
  - Graduate Programs
• Master of Science in Mechanical Engineering
• Doctoral Studies in Mechanical Engineering
• Mechanical Engineering Specialty Areas

Admissions

Engineering and Construction Project Management Certificate

The Engineering and Construction Project Management Certificate is a 12 credit hour graduate certificate offered through the School of Computing & Engineering at the University of Missouri-Kansas City. The certificate is especially appropriate for post-baccalaureate working professionals in the Kansas City area who wish to pursue further studies in engineering project management, specifically in construction management. The certificate consists of 9 credit hours of required courses and 3 credit hours of an elective course at the 5500-level or above. Students must maintain 3.0 graduate grade point average (GPA) while enrolled.

Admission Requirements

Either a baccalaureate degree in engineering or a baccalaureate degree in another field combined with construction-related work experience is required. A grade point average (GPA) of at least 3.0 in the last 60 credit hours of undergraduate coursework is required. Pre-program requirements may be specified in case the Bachelor’s degree is not in civil or mechanical engineering. The following documents are required for admission consideration:

• Application for admission
• Official transcripts of all college coursework

In addition, a statement of purpose is required for admission.

CONDITIONAL admission may be granted when minimum GPA requirements are not met; however, other indicators promise applicant’s success in the program.

After admission, the student is required to meet with a faculty advisor.

Master’s Program in Civil or Mechanical Engineering

The UMKC Civil & Mechanical Engineering Master’s Programs offer graduate students the opportunity to get a state-of-the-art education in dynamic, challenging and professionally significant specialty areas.

Degrees Offered

• Master of Science in Civil Engineering (MSCE)
• Master of Science in Mechanical Engineering (MSME)

Assistantships

The school has numerous assistantship positions available each semester. Typically, awards are for quarter-time or half-time support and may include tuition fee waivers.

Admission Requirements

A baccalaureate degree in civil or mechanical engineering or related disciplines with a grade point average (GPA) of at least 3.0 in the last 60 hours of undergraduate engineering coursework is required. Pre-program requirements may be specified in case the Bachelor’s degree is in a discipline different to which the candidate is applying.

The following documents are required for admission consideration:

• Application for admission
• Official transcripts of all college coursework
• TOEFL scores are required for international students without prior U.S. degrees. The minimum required score is 80. TOEFL requirements may be waived for applicants with a baccalaureate degree from an ABET-accredited program.
• Official results of the Graduate Record Exam (GRE) are required for all applicants. A cumulative score of at least 302 (verbal + quantitative) and a minimum of 158 on the quantitative portion of the examination is required. GRE requirements may be waived for applicants with a baccalaureate degree from an ABET-accredited program who have passed the Fundamentals of Engineering (FE) exam.

In addition, three letters of recommendation from professors at previous institutions or mentors at work are highly encouraged.

CONDITIONAL admission may be granted when the minimum GPA and GRE requirements are not met; however, other indicators promise applicant’s success in the program. To be fully admitted as a “Regular Master’s Degree Seeking” student, the candidate must obtain a grade of “B” or better in the
first nine-hours of coursework; submit a satisfactory GRE score or an FE certificate, as specified above, within the first semester of their program; and complete any other conditions.

International Students: Use the international application form and return the application, along with required supporting materials, to the University of Missouri-Kansas City, Office of International Student Affairs, 5100 Rockhill Road, Kansas City, MO 64110-2499, USA. The telephone number is (816) 235-1113.

After admission, the student is required to attend a departmental orientation session and meet with a faculty advisor.

Doctoral Program in Civil or Mechanical Engineering

For the Doctoral Program in Civil or Mechanical Engineering, admission information can be found at the School of Graduate Studies website under the link for prospective students: http://sgs.umkc.edu. The telephone number is (816) 235-1111.

UMKC offers an Interdisciplinary Ph.D. (IPHD) program which consists of two disciplines:

- Primary Discipline
- Co-Discipline

Students in civil or mechanical engineering are encouraged to choose Engineering as the Primary Discipline. Admission requirements and Co-Discipline options can be found at the School of Graduate Studies website under the link for Engineering.

Graduate Academic Regulations

- With permission of the student’s graduate advisor, up to six credit hours of transfer graduate coursework may be transferred from other non-University of Missouri institutions.
- With permission of the student’s graduate advisor, up to 14 credit hours of transfer graduate coursework may be transferred from other University of Missouri institutions.
- However, at least 16 credit hours of graduate coursework must be taken at UMKC.

A graduate student must maintain a cumulative GPA of 3.0 for all graduate coursework taken during the course of graduate studies. Should the cumulative GPA fall below 3.0, the student will be placed on probation. A student on probation must bring the cumulative GPA to a 3.0 by the end of the next semester or face possible dismissal. Students should apply for graduation when they register for their final semester of coursework. All students must complete and file with the Department Office both the UMKC Application for Graduation form and the Departmental Program of Study form. Students selecting the project or thesis option must also file a Departmental Report of the Master’s Examining Committee form. Students selecting the thesis option must file a Master’s Thesis Report form and have their thesis approved by the UMKC Graduate School.

Transfer of Graduate Credits

- With permission of the student’s graduate advisor, up to six credit hours of transfer graduate coursework may be transferred from other non-University of Missouri institutions.
- With permission of the student’s graduate advisor, up to 14 credit hours of transfer graduate coursework may be transferred from other University of Missouri institutions.
- However, at least 16 credit hours of graduate coursework must be taken at UMKC.

Academic Standing

A graduate student must maintain a cumulative GPA of 3.0 for all graduate coursework taken during the course of graduate studies. Should the cumulative GPA fall below 3.0, the student will be placed on probation. A student on probation must bring the cumulative GPA to a 3.0 by the end of the next semester or face possible dismissal.

Application for Graduation

Students should apply for graduation when they register for their final semester of coursework. All students must complete and file with the Department Office both the UMKC Application for Graduation form and the Departmental Program of Study form. Students selecting the project or thesis option must also file a Departmental Report of the Master’s Examining Committee form. Students selecting the thesis option must file a Master’s Thesis Report form and have their thesis approved by the UMKC Graduate School.

Civil Engineering

The American Society of Civil Engineers (ASCE) defines civil engineering as “the profession in which a knowledge of the mathematical and physical sciences gained by study, experience, and practice is applied with judgment to develop ways to utilize economically, the materials and forces of nature for the progressive well-being of humanity in creating, improving and protecting the environment, in providing facilities for community living, industry and transportation, and in providing structures for the use of humankind”. The CE program aims to prepare students with a breadth and depth in the technical
knowledge so that they can work immediately in most areas of the profession including geotechnical engineering; hydraulics, hydrology, environmental engineering; structural engineering; and transportation/traffic engineering.

**Bachelor of Science in Civil Engineering**

**Student Learning Outcomes**

The Bachelor of Science in Civil Engineering prepares students with a breadth and depth in the technical knowledge so that they can work immediately in most areas of the profession including geotechnical engineering; environmental engineering; hydraulics; and structural engineering. Engineering programs must demonstrate that their students attain:

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

**Curriculum Requirements**

The civil engineering curriculum requires a minimum of 127 hours of coursework and satisfies the UMKC General Education requirements.

GE  All students must take or establish credits for the following General Education Course Requirements: Discourse I, Discourse II, Discourse III, Anchor I, Anchor II, Anchor III, Focus A, Focus B, Focus C, and Focus Elective for a total of 30 credit hours of GenEd. Go to www.umkc.edu/core/courses for a list of GenEd courses.

1  The Civil & Mechanical Engineering Department recommends the following courses for Anchor I: SCE 101 and Anchor II: SCE 201.

2  Enrollment restricted. Students must pass the online Math Entrance Test prior to enrolling (http://cas.umkc.edu/math or show prerequisite requirements have been met.

Notes: Civil engineering students must complete three (3) applied skills requirements before the start of their junior year. (Machine Shop Safety class must be completed prior to using any tools in university sponsored activities and facilities.)

RooWriter must be taken following the successful completion of DISC 200 and is a requirement in order to graduate (http://www.umkc.edu/RooWriter/logon.aspx).

All UMKC students must take the ETS-PP or MAPP Assessment Test after completing 70 credit hours and before applying for graduation (http://www.umkc.edu/testingservices/assessment.asp). Engineering students take the Fundamentals of Engineering exam in lieu of the Major Field Exam (http://pr.mo.gov/engineerinterns.asp and www.ncees.org).

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Civil Engineering Career Opportunities

Kansas City is one of the premier centers of engineering design in the country. Numerous civil infrastructure design and construction firms with national and international reputation are headquartered in Kansas City. This offers a unique opportunity to our students, many of whom participate actively as interns or as employees with these firms during the course of their study, thereby, getting a balanced blend of course work and practical experience.

Job opportunities abound for engineering majors. In terms of starting salaries and the number of job offers, engineering graduates compare favorably with all other graduates. In addition, the civil engineering curriculum at UMKC equips the graduate with the analytic decision-making skills necessary to pursue diverse technical, managerial and entrepreneurial career opportunities.

Civil Engineering Program Description

The program offers the bachelor’s degree and the master’s degree in civil engineering and participates in the UMKC Interdisciplinary Ph.D. program. The Bachelor of Science in Civil Engineering is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/.

The Master of Science in Civil Engineering has both thesis and non-thesis options. Students interested in pursuing a doctoral degree in civil engineering may select engineering as a discipline when applying for admission into the Interdisciplinary Ph.D. program.

The civil engineering program has a rich history in Kansas City. The University of Kansas City offered a General Engineering degree in the 1950’s. The master’s program in civil engineering was started in 1964 and later the undergraduate program was added in the early 1970s. Since 1977,
the undergraduate program in civil engineering has been independently accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/. The program became a part of the School of Computing and Engineering (SCE) in January 2001 and is housed in Flarsheim Hall.

Civil Engineering Specialty Areas

UMKC’s Civil Engineering Program has faculty members who are active in research with funding from numerous local and national industries and government agencies.

Research and study are available in the following specialty areas:

• Environmental and Water Resources
• Structures
• Materials
• Construction Management

For more information, visit our website at http://sce.umkc.edu.

Doctoral Studies in Civil Engineering

Civil Engineering participates in the Interdisciplinary Ph.D. program of the University of Missouri-Kansas City as part of the engineering discipline. Students interested in pursuing a doctoral degree in civil engineering may select engineering as the primary discipline when applying for admission into the Interdisciplinary Ph.D. Program. See the School of Graduate Studies section of this catalog for general and discipline-specific admission requirements and regulations for Interdisciplinary Ph.D. study with engineering as one of the desired disciplines.

Engineering and Construction Project Management Certificate

Student Learning Outcomes

Engineering programs must demonstrate that their students attain:

• An ability to apply knowledge of mathematics, science, and engineering.
• An ability to design and conduct experiments, as well as to analyze and interpret data.
• An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
• An ability to function on multi-disciplinary teams.
• An ability to identify, formulate, and solve engineering problems.
• An understanding of professional and ethical responsibility.
• An ability to communicate effectively.
• The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
• A recognition of the need for, and an ability to engage in life-long learning.
• A knowledge of contemporary issues.
• An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Program Requirements

The Engineering and Construction Project Management Certificate is a 12 credit hour graduate certificate program offered through the School of Computing & Engineering. Engineering and construction companies are increasingly requiring project management skills for those who hold technical degrees to successfully complete projects and to be promoted in their organizations. This graduate certificate program is designed to meet this need and enable students holding a Bachelor’s degree in an appropriate discipline to learn higher-level project management skills that are critical to the successful planning and completion of projects across the spectrum of engineering, construction, and related disciplines. The certificate is intended for post-baccaluareate professionals working in the Kansas City area in lower- and mid-level engineering, construction, and management positions. The certificate requires a minimum of 12 credit hours at the 5500-level or above. Students must maintain 3.0 graduate grade point average (GPA) while enrolled. Students who have a Bachelor of Science degree in Civil Engineering and who complete the Engineering and Construction Project Management Certificate courses may be eligible to have up to 12 credit hours applicable to the Master of Science degree in Civil Engineering with an emphasis in Construction Management.
Master of Science in Civil Engineering

Student Learning Outcomes

Engineering programs must demonstrate that their students attain:

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- An ability to function on multi-disciplinary teams.
- An ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in life-long learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Program Requirements

The civil engineering program offers graduate students an opportunity to get a state-of-the-art education in dynamic, challenging and professionally significant specialty areas. With written approval from the faculty advisor, master’s students are allowed to take credits in other fields to encourage them to broaden their education beyond the civil engineering field. There are three degree options for earning a master’s in civil engineering: coursework only, project or thesis options. For further information call (816) 235-5550 or e-mail sce@umkc.edu.

- Master of Science with coursework only requires the completion of a minimum of 30 credit hours of approved graduate coursework (300-level or higher). The graduate coursework must include at least 18 credit hours of 5500/5600-level courses.
- Master of Science with project requires the completion of a minimum of 30 credit hours, which includes 27 credit hours of approved graduate coursework (300-level or higher) and three credit hours of independent project (CIV-ENGR 5500). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a report prepared per the advisor’s guidelines and present the project work in front of a three-member project examining committee.
- Master of Science with thesis requires the completion of a minimum of 30 credit hours, which includes 24 credit hours of approved graduate coursework (300-level or higher) and six credit hours of thesis work (CIV-ENGR 5599). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a thesis prepared per the graduate school guidelines and orally defend the thesis work in front of a three-member thesis examining committee.

A minimum of three credit hours of advanced mathematics from an approved course list is required for the M.S. degree in Civil Engineering. Exceptions are available by petition to the CME Graduate Committee.

Other specifications for students pursuing the project or thesis option:

1. The student must request to schedule a project or thesis defense in the first half of the semester in which the student plans to defend.
2. The written part of the project/thesis must be completed and given to all the committee members at least ten days prior to the defense date.
3. The defense date and an abstract must be advertised to the CME faculty and students at least one week prior to the scheduled defense date.

Mechanical Engineering

Mechanical engineering (ME) is one of the broadest of the engineering disciplines, therefore, mechanical engineers are the generalists of the engineering profession. Mechanical engineers design, construct, test and operate many types of mechanical, thermal and biological devices. They are involved in almost every industry, including aerospace, automotive, bioengineering, communications, electronics, energy, food processing, HVAC, manufacturing, power generation and refrigeration, as well as business, government and academia. The ME program aims to prepare students with a breadth and depth in technical knowledge so that they can work immediately in most areas of the profession.

Bachelor of Science in Mechanical Engineering

Student Learning Outcomes

The Bachelor of Science in Mechanical Engineering prepares students with a breadth and depth in technical knowledge so that they can work immediately in most areas of the profession. Engineering programs must demonstrate that their students attain:
• An ability to apply knowledge of mathematics, science, and engineering.
• An ability to design and conduct experiments, as well as to analyze and interpret data.
• An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
• An ability to function on multi-disciplinary teams.
• An ability to identify, formulate, and solve engineering problems.
• An understanding of professional and ethical responsibility.
• An ability to communicate effectively.
• The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
• A recognition of the need for, and an ability to engage in life-long learning.
• A knowledge of contemporary issues.
• An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

The mechanical engineering curriculum requires a minimum of 127 hours of coursework and satisfies the UMKC General Education requirements.

**Total Credits: 127**
• The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
• A recognition of the need for, and an ability to engage in life-long learning.
• A knowledge of contemporary issues.
• An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Program Requirements

The mechanical engineering program offers graduate students an opportunity to get a state-of-the-art education in dynamic, challenging and professionally significant specialty areas. With written approval from the faculty advisor, master’s students are allowed to take credits in other fields to encourage them to broaden their education beyond the mechanical engineering field. There are three degree options for earning a master’s in mechanical engineering: coursework only, project or thesis options. For further information call (816) 235-5550 or e-mail sce@umkc.edu.

• Master of Science with coursework only option requires the completion of a minimum of 30 credit hours of approved graduate coursework (300-level or higher). The graduate coursework must include at least 18 credit hours of 5500/5600-level courses.
• Master of Science with project requires the completion of a minimum of 30 credit hours, which includes 27 credit hours of approved graduate coursework (300-level or higher) and three credit hours of independent project (MEC-ENGR 5500). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a report prepared per the advisor’s guidelines and present the project work in front of a three-member project examining committee.
• Master of Science with thesis option requires the completion of a minimum of 30 credit hours of approved graduate coursework (300-level or higher). The graduate coursework must include at least 24 credit hours of approved graduate coursework (300-level or higher) and six credit hours of thesis work (MEC-ENGR 5599). At least 18 credit hours must be at the 5500/5600-level. The candidate must submit a thesis prepared per the graduate school guidelines and orally defend the thesis work in front of a three-member thesis examining committee.

A minimum of six credit hours of advanced mathematics from an approved course list is required for the M.S. degree in Mechanical Engineering. Exceptions are available by petition to the CME Graduate Committee.

Other specifications for students pursuing the project or thesis option:

1. The student must request to schedule a project or thesis defense in the first half of the semester in which the student plans to defend.
2. The written part of the project/thesis must be completed and given to all the committee members at least ten days prior to the defense date.
3. The defense date and an abstract must be advertised to the CME faculty and students at least one week prior to the scheduled defense date.

Mechanical Engineering Career Opportunities

Kansas City is one of the premier engineering centers in the country. Numerous engineering and manufacturing firms with national and international reputation are headquartered in Kansas City. This offers a unique opportunity to our students, many of whom participate actively as interns or as employees with these firms during their course of their study, thereby getting a balanced blend of course work and practical experience.

Job opportunities abound for engineering majors. In terms of starting salaries and the number of job offers, engineering graduates compare favorably with all other graduates. In addition, the mechanical engineering curriculum at UMKC equips the graduate with the analytic decision-making skills necessary to pursue diverse technical, managerial and entrepreneurial career opportunities.

Mechanical Engineering Program Description

The program offers the bachelor’s degree and the master’s degree in mechanical engineering and participates in the UMKC Interdisciplinary Ph.D. program. The Bachelor of Science in Mechanical Engineering is accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/.

The Master of Science in Mechanical Engineering has both thesis and non-thesis options. Students interested in pursuing a doctoral degree in mechanical engineering may select engineering as a discipline when applying for admission into the Interdisciplinary Ph.D. program.

The mechanical engineering program has a rich history in Kansas City. The University of Kansas City offered a General Engineering degree in the 1950’s. The master’s program in mechanical engineering was started in 1964 and later the undergraduate program was added in the early 1970s. Since 1977 the undergraduate program in mechanical engineering has been independently accredited by the Engineering Accreditation Commission of ABET, http://www.abet.org/. The program became a part of the School of Computing and Engineering (SCE) in January 2001 and is housed in Flarsheim Hall.

Mechanical Engineering Specialty Areas

UMKC’s Mechanical Engineering Program has faculty members who are active in research with funding from numerous local and national industries and government agencies.

Research and study are available in the following specialty areas:
• Biomechanics
• Materials & Manufacturing
• Thermal Sciences & Renewable Energy
• Vibrations & Controls

Chair:
Ghulam M. Chaudhry

Curators’ Professor:
Khosrow Sohraby, Deep Medhi

Professors:
Ghulam M. Chaudhry (Chair), Lein Harn, Vijay Kumar, Xiaojun Shen, Appie van de Liefvoort

Research Professor:
Mary Lou Hines Fritts (CIO and Vice Provost for Academic Programs)

Professor Emeritus:
Richard Hetherington

Associate Professors:
Cory Beard, Baek-Young Choi, Deb Chatterjee, Masud Chowdhury, Reza Derakhshani, Deendayal Dinakarpandian, Yijie Han, Jerome Knopp, Yuyung Lee, Ken Mitchell, Jerry Place (Associate Dean of Academics), Praveen Rao, Sejun Song

Associate Teaching Professor:
Eddie Burris, Brian Hare, Kevin Kirkpatrick

Assistant Professors:
Yang (Cindy) Yi, Yongjie Zheng

Assistant Teaching Professors:
Mohammed Kuhail, Jesse Sherwood

Instructors:
Michael Kelly,

Adjunct Instructors:
William Allyn, Saleh Bleha, Marian Cote, Robert Cotter, Gerald Douville, Richard Henderson, Reza Jafari, Dennis Owens, Jihad Qaddour, Soundrapandian Sankar, Mahbube Siddiki

Assistant Professor Emeritus:
David Skitek

CSEE Administrative Staff:
Coretta Carter-Muhammad
Debby Dilks
Sharon Griffith
Nan Lorenz
Department Description

The CSEE Department has 27 full-time faculty members, including two Curators’ professors, a UMKC Trustee’s professor and one Fulbright Senior Specialist. Our faculty is at the forefront in research with funding from NSF and industries. We have strong partnerships with:

- Black & Veatch
- Burns & McDonnell
- Cerner
- Cisco
- Commerce Bank
- Creative Capsule
- Garmin
- General Electric
- Henderson Engineers
- Honeywell
- Intel
- Netchemia, Inc.
- NMR
- OpenMethods
- Phonefactor
- Sprint Nextel
- Starent Networks
- 21Concepts

Most of our corporate supporters are headquartered in the Kansas City area. Additionally, within UMKC, there are ongoing collaborations with other schools. In the life sciences area, we have partnerships with life and health sciences schools at UMKC and life sciences partners in the Kansas City area through the Kansas City Area Life Sciences Institute (KCALSI).

We have research and teaching strengths in the following areas:

- Networking and Telecommunications (design, protocols, routing, security, teletraffic modeling and analysis, monitoring, performance modeling, RF/wireless communication, optical, mobile computing, sensors, queueing theory, etc.).
- Software Engineering and Systems (object-oriented design and analysis, database/information management, middleware, intelligent agents, peer-to-peer computing, mobile databases, data mining, knowledge discovery, intrusion detection, etc.).
- Biomedical Informatics (machine learning and data mining methods for biological and medical data, modeling biological systems, biomedical information representation and sequence & structural analyses of biomolecules).
- Communications, Signal and Image Processing (digital signal processing, computational electromagnetics, RF and antenna theory and design, biomedical image processing, biometrics, neural networks, etc.).
- Computer Engineering (VLSI and mixed-signals chip design, performance and design of low power devices, embedded systems, System-On-Chip (SOC) and ASIC/FPGA design).
- Algorithms (complexity, distributed and parallel computations, graph, optimization, and combinatorial algorithms).
- Power Engineering

The CSEE department is committed to excellence in teaching. We stay on the top of the technology curve and continually offer new courses in emerging/hot topics. Our graduates are sought after by regional as well as national companies.

Approximately 875 students were enrolled in the CSEE department in the fall 2013 semester: 490 at the undergraduate level (all degree programs), 350 at the masters level (both CS and EE), and 35 students participated in UMKC’s Interdisciplinary Ph.D. program through a discipline in CSEE.

Advising and Registration

For advising in regard to their degree programs, students need to contact the CSEE Department Office. Each student is assigned a faculty and staff advisor. The goal is to have the same faculty and staff member be the student’s academic advisors throughout the duration of his/her study. Students are required to meet with their faculty and staff advisor every semester prior to registration for the following semester. The student may call the CSEE Department office to schedule this appointment. The faculty advisor guides the student in selecting courses that are necessary for completion of degree requirements and answers questions regarding elective course options as well as giving career guidance. The staff advisor assists students with day-to-day university operations in admissions, registration and records guidance. During the advising period, the faculty advisor determines whether the student is meeting degree requirements by reviewing the program advisement form. The staff advisor reviews the Degree Audit Report (DARS) and
determines if the student is meeting the university requirements. Any deviations by a student are corrected immediately. Specific information regarding registration is found in the UMKC Class Schedule found in Pathway and on the UMKC Web site at http://www.umkc.edu/registrar.

### Student Organizations

CSEE encourages every student to actively participate in a student organization that matches his or her interests. The SCE Student Council addresses the needs of the students within the School of Computing and Engineering. These organizations include:

SCE Student Council (http://sce.umkc.edu/students/student-organizations/sce-student-council.cfm), who represents, supports and provides an orderly method for government for all students enrolled in the School of Computing and Engineering.

**ACM (Association for Computing Machinery)** is the leading professional organization in Computer Science and Information Technology and its student chapter is very active. Among others, it sponsors and participates in numerous programming and web design contests taking home awards from Consortium for Computing Sciences in Colleges (CCSC) and recognition in IEEE Extreme Programming Competition. Twice a year ACM has a book sale to fund their events.

**AITP (Association of Information Technology Professionals)** caters to the interest of both information technology students and business students. Their office is in the Henry W. Bloch School of Business and Public Administration.

EWB (http://sce.umkc.edu/students/student-organizations/ewb.cfm) (Engineers Without Borders) The UMKC chapter of EWB has a focus of Local and Global engineering projects. These projects are teamed with the professional chapter of EWB-Kansas City. The UMKC chapter of EWB has a global project focus right now in the Dominican Republic. They are working on sanitation solutions to provide clean drinking water to a village known as Kilometer 6. A Local Project focus is in working with the Urban Agriculture group in Kansas City to create rain collectors on roofs and buildings all across the KC area.

EIIEEE (Institute of Electrical and Electronics Engineers) is the world’s leading professional association for the advancement of engineering and technology. As such, many (if not most) electrical and computer engineers, computer scientists, and information technology professionals are members of IEEE. Formed in 1980, our student branch, won the prestigious Region 5 RAB Student Branch Membership Growth and Leadership Award, the Region 5 Student Branch Web Site Contest and was Runner Up in the IEEE International Student Branch Web Site Contest. Individual students have also received various other IEEE Region 5 awards. The UMKC student branch hosts monthly meetings, company tours and SPACS during the academic year and also sponsors the UMKC Robotics Team. The Robotics Team is involved in several community outreach activities throughout the year.

**Eta Kappa Nu** (Theta Pi Chapter) is the Honor Society in Electrical and Computer Engineering. The student chapter at UMKC was installed in 1980. Members also participate in community outreach activities teaching K-12 students about science, technology, engineering and math.

**MSPE/NSPE** (http://sce.umkc.edu/students/student-organizations/mspe-nspe.cfm) (Missouri Society of Professional Engineers) is an engineering organization dedicated to emphasizing the importance of professional engineering licensure, encouraging the safe and ethical practice of engineering and facilitating interaction between student chapter members and members of the profession.

**NSBE** (http://sce.umkc.edu/students/student-organizations/nsbe.cfm) (National Society of Black Engineers) NSBE seeks "to increase the number of culturally responsible Black Engineers who excel academically, succeed professionally, and positively impact the community."

**SWE** (http://sce.umkc.edu/students/student-organizations/swe.cfm) (Society of Women Engineers) The purpose is to stimulate women to achieve full potential in careers as engineers and leaders, expand the image of the engineering profession as a positive force in improving the quality of life, and to demonstrate the value of diversity.

**TBP (Tau Beta Pi Mo-Delta Chapter)** is the honor society for all engineering majors.

**Upsilon Pi Epsilon** is the International Honor Society for the computing and information discipline. A UPE student chapter was founded in 2004. They organize field trips to local organizations and industries with a strong CS/IT presence. In addition, they provide tutoring assistance to undergraduate students.

### Undergraduate

#### Undergraduate Degrees:

- Bachelor of Information Technology (p. 331)
- Bachelor of Science in Computer Science (p. 334)
- Bachelor of Arts in Computer Science (p. 337)
- BS/MS Computer Science Program (p. 340)
- Minor in Computer Science
- Bachelor of Science in Electrical and Computer Engineering (p. 341)
- BS/MS Electrical and Computer Engineering Program (p. 344)
A BS/MS Option for completing both an undergraduate degree and a masters degree within five years is available for CS and ECE/EE, as described below. Furthermore, a minor in computer science is available as well.

The two degrees in computer science are the bachelor of arts in computer science (B.A. with a liberal arts perspective), and bachelor of science in computer science (B.S. with a more thorough technical perspective). The B.S. degree has optional concentrations or emphasis areas in software engineering, computer networking and bioinformatics. The degree prepares the student for work in these industries, as well as for pursuing further graduate education in these areas. The bachelor of science in electrical and computer engineering (B.S.) is for students wanting to pursue a career in electrical engineering or electrical and computer engineering. The bachelor of information technology (B.I.T.) degree caters to the needs of the IT industry and uniquely blends both computer science and business coursework.

Certified General Education Core at Another Missouri Institution

Students wanting to transfer into the CSEE department with a certified 42-hour block of general education credit from another Missouri institution are strongly encouraged to consult an academic advisor in our department in addition to the advisor at their home institution. Contact the department office at (816) 235-1193. This ensures coursework taken in this block also satisfies specific degree requirements in our department.

Undergraduate Academic Regulations - All Students Pursuing an Undergraduate Degree

Academic Regulations

All students pursuing an undergraduate degree in the Department of CSEE, i.e. the Bachelor in Information Technology (IT), B.A. in Computer Science (CS), B.S. in Computer Science (CS), or B.S. in Electrical and Computer Engineering (ECE), must follow all academic regulations as specified in the following sections.

Academic Load

For a student to complete the degree in four years, it is imperative that the student takes approximately 15 credit hours worth of coursework each semester (not including summer). The 4-year program samples shown for each degree can be found in the UMKC Major Maps. http://sfa.umkc.edu/majormaps/ They are intended as a planning guideline for students. For a student wanting to complete both an undergraduate degree and a graduate degree in five years, they should consult the appropriate section on our Fast Track Program.

Academic Standing

The University tries to assure that students progress satisfactorily toward their goals and receive clear warning when they do not. To this end, this academic program adheres to a clear policy, but provides for exceptions in unusual cases. The interest of the student is paramount.

Good Academic Standing

A student is in good academic standing when term grade-point average (T-GPA), cumulative grade-point average (C-GPA), and grade-point average in courses necessary for their degree program (D-GPA) from the University of Missouri system are all 2.0 or higher. If a student starts a semester in good academic standing, and receives a T-GPA or D-GPA less than 2.00 (but higher than 1.00), then the student is placed on academic probation. If a student starts a seminar in good academic standing, and receives a T-GPA or D-GPA less than 1.00, then the student becomes ineligible to continue their degree objective.

Academic Probation

A student who is placed on probation must return to good academic standing in one or two semesters, under the following restrictions: If the T-GPA, D-GPA, and C-GPA are all 2.0 or higher at the end of the first probationary semester, then the student is returned to Good Academic Standing. If the T-GPA is 2.0 or higher for the first probationary semester, then the student will be allowed to enroll for a second and final probationary semester. If the T-GPA is less than 1.0, the student becomes ineligible to continue their degree objective. Note: Students may also be placed on academic probation at the time of initial admission or readmission because they do not fully meet the minimum standards.

Academic Ineligibility

Students become ineligible to continue their degree objective if either T-GPA or D-GPA is less than 1.0, or if the T-GPA is less than 2.0 in a probationary semester.

Grade Reports

The academic standing statements found at the top of semester grade reports are only calculated from T-GPA and C-GPA (the D-GPA is not incorporated and will be calculated by your advisor) and are defined as follows:

- Now In Good Standing - Term and cumulative GPA greater than 2.0.
- Now On Probation - Term or cumulative GPA less than 2.0.
- Academically Ineligible - Term GPA less than 1.0 or two consecutive semesters with term or cumulative GPA less than 2.0.
Repeating a Course and Grade Replacement

Please see the Request for GPA Adjustment Form (http://www.umkc.edu/registrar/forms/UGRAD_Repeat_Form.pdf) available at the Registrar’s website about retaking a course for which a D+ or less was earned. Repeating a Course and Grade Replacement

Auditing a Course

A student cannot take a course for audit and later expect to take the same course for credit in the degree program. For that reason, students must not audit any courses required in their program, unless credit has already been established.

To audit an elective course, written consent from both the student’s advisor and the instructor of the course is required. After the first week of classes, a student cannot change from credit to audit or audit to credit.

Academic Dishonesty

A student enrolling in any UMKC course is expected to exhibit high standards of academic honesty in all works, and are expected to refrain from cheating and plagiarism. Rules governing any suspected violation are clearly spelled out elsewhere in the UMKC catalog. Instructors are obligated to report any cases of suspected academic dishonesty, and any violation will result in sanctions being imposed on the student, ranging from a warning, probation, loss of financial aid, loss of privileges, suspension, and dismissal. Please note that both receiving and giving unauthorized assistance is considered academically dishonest.

Petitioning

Any exception to academic policy and regulations regarding the degree requirements (e.g. transfer courses taken elsewhere, course waivers, waivers of residency) must be requested through a written petition. The petition form is available from the CSEE Department Office. The completed petition that includes an explanation for the petition should be submitted to the CSEE Department Office with any necessary documents attached. The Degree Program Coordinator or his/her designee will review such petitions and will communicate the result to the student.

Graduation Requirement

For students to obtain an undergraduate degree in the Department of CSEE, they must have passed the courses as specified in various categories under the header Curriculum Requirement for the desired degree, B.I.T, B.A. in CS, B.S. in CS, or B.S. in ECE. In addition, there are a number of University-wide degree requirements and a number of restrictions that apply:

1. A minimum of 36 credit hours from junior/senior level courses must be included.
2. The GPA from all courses attempted at the University of Missouri must be at least 2.0.
3. The GPA from all courses attempted in the major must be at least 2.0.
4. Can count individual coursework in CS, ECE, or IT toward the degree if at least a C (2.0) is earned.
5. Can transfer individual coursework in CS, ECE, or IT toward the degree if the student received at least a C (2.0), and the coursework is from an ABET-accredited degree program in either computing or engineering or if the coursework is part of a transfer articulation agreement.
6. The final 30 consecutive credit hours of course work must be taken at UMKC.
7. Participation in University-sponsored assessment tests is a prerequisite for graduation; a degree completion survey and exit interview may also be required.

Students who have completed 90 hours of credits should file an application for graduation and make an appointment for a degree check. Appointments may be made by calling (816) 235-1193. Students who are pursuing a second undergraduate degree or a second major must complete a minimum of 30 additional credit hours from UMKC, of which a minimum of 12 credit hours are from junior/senior level courses.

Graduate

Graduate Degrees:

- Master of Science in Computer Science (p. 345)
- BS/MS Computer Science Program (p. 340)
- Master of Science in Electrical Engineering (p. 351)
- BS/MS Electrical Engineering Program (p. 344)
- Doctoral Studies in Computer Science or Electrical Engineering

Graduate Academic Regulations

For smooth completion of the degree program, a student must follow various academic regulations as described below. Should a student want to switch from the MS in CS program to the MS in EE program (or vice versa), then the student needs to petition the graduate committee to have the record evaluated for admissibility. The DICE award status will not be effected. For information on financial aid, DICE awards and graduate assistantships please refer to the SCE Financial Assistance (p. 306) page.
Program of Study

A graduate degree indicates mastery of a coherent program in a chosen field and the ability to engage in creative projects in that specialty. The program of study is vital in assuring the completion of a formal program of study designed to ensure the mastery of specified knowledge and skills.

Forms for the program of study specification may be obtained from the CSEE Department Office. It is required that the program be approved by the student's graduate advisor and the graduate committee chair in the semester in which the student will complete 12 credit hours toward the degree, which is usually during the second semester of enrollment. It is then forwarded to the graduate officer for further approval and handling.

Once a program of study has been approved, it is the student's responsibility to ensure that all curricular requirements and prerequisites are satisfied. If a change in the approved program is needed, a petition must be submitted to the student's advisor who forwards it to the graduate committee for approval. It is not expected that more than four courses will change from the original program of study. If more than four courses are changed, then a new program of study should be filed.

Advising

Initially, the student will be advised by the academic advisor assigned to them during the first semester of enrollment. In order to enroll in any course, the student must have the signature of the advisor. No student can enroll without such a signature. If a student enrolls in a class without their advisor's signature or approval, that class may not count toward graduation requirements. Also see the section "Starting the Program".

In the semester that results in 12 hours of credit toward the master's degree, students should decide between a thesis option and a non-thesis option. If students decide on a non-thesis option, they should consult with their advisor and submit a plan of study for approval. If students decide on a thesis option, they should seek a thesis advisor, who then also becomes the academic advisor. The thesis advisor must be a full member of the graduate faculty and, in collaboration with the student, will then appoint two other graduate or associate graduate faculty members to be on the student's thesis committee. The thesis committee may consist of more than three members, but the majority of committee members must have full graduate faculty status. Again, a plan of study must be submitted for approval.

Academic Loads

A graduate student enrolled in the fall or spring semester in nine or more credit hours is considered full time. A graduate student enrolled in the summer semester in five or more credit hours is considered full time. Any student enrolled in less than the above number of hours is considered part time. A student who is enrolled for six credit hours during a regular semester may be considered full time if the student has at least a quarter-time graduate assistantship. A student's academic load may be restricted as deemed fit by the student's graduate advisor or the CSEE master's committee.

International students will be required to take an English Proficiency Test administered by the International Student Affairs Office. Performance on the test may result in the requirement that the student take one or more English language courses during the first semester.

Students holding graduate assistantships should take a minimum of six credit hours during each of the fall and spring semesters and a minimum of three credit hours during the summer session. However, GA/GTA/GRAs who have completed all coursework and who are working on research need to enroll in only one credit hour. International students must abide by the requirements of the U.S. Immigration Service and should consult the International Student Affairs Office regarding this matter.

Enrollment Policies

To remain in good standing, the student must enroll for at least one semester during each calendar year until all the courses in the program of study are completed. After this time, the student must be continuously enrolled each fall and spring semester until the degree is awarded. The student must be enrolled in the semester in which the degree will be received. Students working as graduate assistants during the summer must be enrolled during the summer semester. Failure to follow the above policies will result in a need to apply for new admission to the program under the degree requirements in effect at the time of re-admission.

Academic Standing

The student must maintain at least a 3.0 GPA every semester. Deficiency courses, if any, must be passed with a B (3.0) or higher. A 400-level course in which the student receives a grade lower than B (3.0) can not be used to satisfy the degree requirements. Similarly, a 5000-level course in which the student receives a grade lower than C (2.0) can not be used to satisfy the degree requirements. However, all grades for courses taken for graduate credit shall be used in the calculation of the current GPA. No more than one grade below B (3.0) in a course taken for graduate credit can be applied toward the degree. If a student receives three grades below B (3.0) in courses taken for graduate credit or taken to fulfill a deficiency requirement, or if a student receives a grade below C (2.0) in a course taken for graduate credit or taken to fulfill a deficiency requirement, then the student will be ineligible to enroll.

Academic Dishonesty

A student enrolling in any UMKC course is expected to exhibit high standards of academic honesty in all works, and are expected to refrain from cheating and plagiarism. Rules governing any suspected violation are clearly spelled out elsewhere in the UMKC catalog (http://www.umkc.edu/umkc/catalog/html/append/policy/0040.html). Instructors are obligated to report any cases of alleged academic dishonesty, and any violation will result in sanctions being imposed on the student, ranging from a warning, probation, loss of financial
aid, loss of privileges, suspension, and dismissal. Please note that both receiving and giving unauthorized assistance is considered academically dishonest.

**Petitions**

Any exception to academic policy and regulations or to the degree requirements (e.g. deficiency waiver) must be requested through a written petition. The petition form is available from the CSEE Department Office and on the Web; the completed petition which includes an explanation for the petition should be submitted to the CSEE Department Office. The degree program coordinator or his/her designee will review petitions and communicate the result to the student. It is important that the petition include any necessary documents as attachments for a timely decision.

**Ineligibility**

Ineligible students may petition the CSEE graduate committee to be re-enrolled. Such petitions will be reviewed by the graduate committee whose ruling is final. An ineligible student will only be approved for further graduate study under the terms of a restrictive probation in the form of a written contract between the student and the CSEE department. The CSEE department may render a student ineligible regardless of the student’s GPA. Such procedures are rare and will involve a recommendation to the dean of the School of Graduate Studies.

**Auditing a Course**

A graduate student should not take a course for audit if that student plans to take the course for credit. Once a course has been audited by a student, the student cannot take the course for credit later in the program.

A graduate student cannot change a course to audit after the eighth week of the fall and spring semesters or after the fourth week of the summer semester. Changes to audit status must have the permission of the course instructor, as well as be within the allowable period.

**Bachelor of Information Technology**

**Program Description**

The Bachelor of Information Technology is accredited by the Computing Accreditation Commission of ABET. http://www.abet.org.

The use of computers in commerce and industry keeps the college educated IT professional at the forefront of occupational demand. The Bachelor of Information Technology (B.I.T.) program prepares for a career path where the student contributes to the continued deployment of technology infrastructure (operating systems, browsers, applications, software, networking, etc.). It blends both CS, IT, and Business coursework and requires an internship for the completion of the degree. Please contact our department for more information. Please call (816) 235-1193, or e-mail to csee@umkc.edu.

**Educational Objectives**

The Bachelor of Information Technology degree is designed so that graduates will attain employment in an IT related field. Some graduates will achieve appropriate certifications and/or will pursue advanced study in business, IT or other fields. Graduates will be engaged in lifelong learning and thereby advance in their careers.

**Career Implications**

There remains a large and growing number of unfulfilled IT positions both nationwide and within the Kansas City area. B.I.T. graduates are typically employed as software developers, network specialists, web developers, information system operators, programmer analysts, digital media specialists and database administrators. The need of the future is for students with an analytic and problem solving mindset who are able to adapt quickly to an ever-changing environment.

**Admission Requirements**

High school students planning to apply to the information technology program are strongly urged to take a college preparatory program that emphasizes mathematics, science and communication skills.

First-time college student applicants to the undergraduate program in information technology will be admitted if they obtain:

1. An ACT mathematics score of at least 25 and
2. An ACT composite score of at least 24 or a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the above criteria but do meet UMKC general admission requirements may be admitted on probation or into the University College.
Students without the prerequisite preparation must take the needed coursework before enrolling in courses required for the bachelor’s degree. Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the undergraduate program committee.

Transfer student (p. 772) information is available in the Undergraduate Academic Regulations section of the catalog.

**Student Learning Outcomes**

We expect that the program will enable students to attain, by the time of graduation:

- An ability to apply knowledge of computing and mathematics appropriate to the discipline
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
- An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
- An ability to function effectively on teams to accomplish a common goal
- An understanding of professional, ethical, legal, security and social issues and responsibilities
- An ability to communicate effectively with a range of audiences
- An ability to analyze the local and global impact of computing on individuals, organizations, and society
- Recognition of the need for and an ability to engage in continuing professional development
- An ability to use current techniques, skills, and tools necessary for computing practice.
- An ability to use and apply current technical concepts and practices in the core information technologies.
- An ability to identify and analyze user needs and take them into account in the selection, creation, evaluation and administration of computer-based systems.
- An ability to effectively integrate IT-based solutions into the user environment
- An understanding of best practices and standards and their application
- An ability to assist in the creation of an effective project plan

**Curriculum Requirements for the BIT Degree**

The requirements for the BIT degree are categorized into several areas totaling at least 120 hours of study.

---

Other courses are routinely available as special topics courses, such as INFO-TEC 490. Please see your advisor or check the actual course offerings.

**General Education Requirement (30 credit hours)**

All students entering UMKC in the Fall 2014 semester are required to follow the UMKC General Education guidelines outlined below. Go to http://www.umkc.edu/core for more details on courses that qualify for other Anchor and Focus requirements.

**Anchor and Discourse**

- **DISC 100** and Anchor I: Reasoning and Values (SCE 101 recommended for Anchor I) = 6 credit hours
- **DISC 200** and Anchor II: Culture and Diversity (SCE 201 recommended for Anchor II) = 6 credit hours
Focus Courses

- Focus A: Arts & Humanities
- Focus B: Scientific Reasoning and Quantitative Analysis (STAT 235 or MATH 210)
- Focus C: Human Actions, Values, and Ethics (Constitution requirement recommended for this Focus C area satisfied by taking either HISTORY 1100, HISTORY 1101, HISTORY 360R, or POL-SCI 210.)
- Focus D: Electives

Some courses may count for both the General Education requirements and the specific degree requirements to keep the degree at 120 credit hours total.

Four Year Program Sample

For suggested four year plans, please see the registrar’s website: http://www.sfa.umkc.edu/majormaps/.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Science: Computer Science

Program Description

The Bachelor of Science in Computer Science is accredited by the Computing Accreditation Commission of ABET, http://www.abet.org.

Please note that accreditation for the Bachelor of Arts in Computer Science (BACS), which we also offer, has not been requested.

This degree program serves to give the student excellent preparation for careers in computer science, for graduate study, or for fields where CS is an important ingredient. Students receive a strong technical background in computer science, which is coupled with a broad, general education. The BS degree prepares for a career path where the student contributes to the continued development of technology infrastructure (operating systems, browsers, applications, softwares, networking, etc). A BS/MS Option for completing both a BS in CS and a MS in CS in five years is available, (see below) (http://www.umkc.edu/umkc/catalog/html/sce/cs-ee/cs-fast-track.html). Furthermore, a minor in Computer Science is available as well. Contact info: (816) 235-1193, or e-mail: csee@umkc.edu.

The faculty of CSEE approved several changes effective in the fall of 2012 for the degrees of BA in CS, the BS in CS, and the Bachelor of IT in reaction to feedback received from constituents and an analysis of assessment data. These changes center on a modernization of the curriculum and help to better prepare students for careers in computer science and information technology. Students who started their degree program prior to the fall 2012 term have the option to complete the degree requirements in effect at the time they first started their program, switch to the requirements in effect when they graduate, or petition to combine aspects of both. Students should consult with an advisor for full details.

Educational Objectives

The undergraduate degrees in CS are designed so that graduates will attain employment and advance their careers in industry, government and academia. BS students will find employment in CS related fields, and BA students will find employment in fields where computing is an important ingredient. Some graduates will achieve appropriate certifications and/or pursue advanced study in computer science or other graduate fields. Graduates will be engaged in lifelong learning and thereby advance in their careers.

Career Implications

Computers and processors of all sizes and descriptions appear in every area of the public and private sectors. Consequently, employment prospects for computer science degree holders remain steady. Current projections have the demand for computer science graduates exceeding the supply for many years to come. The range of opportunities open to the new graduate in computer science is impressive.

Computer science graduates are employed as members of technical staff, software engineers, programming or systems analysts, and scientific or application programmers by some of the nation’s largest companies. These companies include internet based commerce and software based hi-tech industries, insurance, banks and financial institutions, computer and electronics manufacturers, the communications industry, the biomedical industry, the defense industry, and engineering firms.
Admission Requirements

High school students planning to apply to the computer science program are strongly urged to take a college preparatory program that emphasizes mathematics, science and communication skills.

First-time college student applicants to the undergraduate program in computer science will be admitted if they obtain:

1. An ACT mathematics score of at least 25 and
2. An ACT composite score of at least 24 or a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the above criteria but do meet UMKC general admission requirements may be admitted on probation or into the University College.

Students without the recommended preparation must take prerequisite coursework in order to prepare for enrollment in courses required for the bachelor’s degree.

Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the undergraduate program committee.

Transfer student (p. 772) information is available in the Undergraduate Academic Regulations section of the catalog.

Student Learning Outcomes

We expect that the program will enable students to attain, by the time of graduation:

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
4. An ability to function effectively on teams to accomplish a common goal
5. An understanding of professional, ethical, legal, security and social issues and responsibilities
6. An ability to communicate effectively with a range of audiences
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society
8. Recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices
11. An ability to apply design and development principles in the construction of software systems of varying complexity

Curriculum Requirements

Curriculum requirements for both of the Computer Science degrees are categorized into several areas totaling at least 120 hours of study.

**Total Credits** 31-33

1 An advisor approved junior or senior level course in Biology, Chemistry, Physics, Life Sciences, or other similar discipline.

**Software Engineering**
For the emphasis in Software Engineering, students may take CS advanced electives from the following list of courses:
COMP-SCI 456  Human Computer Interface  3
COMP-SCI 457  Software Architecture: Requirements & Design  3
COMP-SCI 458  Software Architecture: Testing & Maintenance  3
COMP-SCI 461  Introduction to Artificial Intelligence  3
COMP-SCI 464  Applied Artificial Intelligence  3

Computer and Telecommunications Networking
For the concentration in Computer and Telecommunications Networking, students may take CS advanced electives from the following list of courses:

COMP-SCI 411  Introduction to Telecommunications Systems  3
COMP-SCI 416  Telecommunications Systems: A Survey  3
COMP-SCI 420  Introductory Networking and Applications  3
COMP-SCI 421A Foundations of Data Networks  3
COMP-SCI 423  Client/Server Programming and Applications  3

Courses offered as special topics (COMP-SCI 490) that are relevant to this concentration may also count as well as courses offered in Information Technology (such as INFO-TEC 426 and INFO-TEC 427) and Electrical and Computer Engineering.

General Education Requirement (30 credit hours)
All students entering UMKC in the Fall 2014 semester are required to follow the UMKC General Education guidelines outlined below. Go to http://www.umkc.edu/core/courses/ for more details on courses that qualify for Anchor and Focus requirements.

Anchor and Discourse
- DISC 100 and Anchor I: Reasoning and Values (SCE 101 recommended for Anchor I) = 6 credit hours
- DISC 200 and Anchor II: Culture and Diversity (SCE 201 recommended for Anchor II) = 6 credit hours
- DISC 300 and Anchor III: Civic/Community Engagement (COMP-SCI 304WI proposed as Anchor III) = 6 credit hours

Focus Courses
- Focus A: Arts & Humanities
- Focus B: Scientific Reasoning and Quantitative Analysis (STAT 235 or MATH 210)
- Focus C: Human Actions, Values, and Ethics (Constitution requirement recommended for this Focus C area satisfied by taking either HISTORY 101, HISTORY 102, HISTORY 360R or POL-SCI 210)
- Focus D: Electives

Some courses may count for both the General Education requirements and the specific degree requirements to keep the degree at 120 credit hours total.

Four Year Program Sample
For suggested four year plans, please see the registrar’s website: http://www.sfa.umkc.edu/majormaps/.

Tools for Planning and Fulfilling Academic Requirements
UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts: Computer Science
Program Description
Please note that accreditation for the Bachelor of Arts in Computer Science (BACS), has not been requested.

This degree program serves to give the student excellent preparation for careers in computer science or for fields where CS is an important ingredient. Students receive a strong technical background in computer science, which is coupled with a broad, general education. The BA degree prepares for
a career path where the student contributes to advancing infrastructures tailored for specific areas, often outside the core areas of computer science. Furthermore, a Bachelor of Science in Computer Science as well as a minor in Computer Science are available.

Contact info: (816) 235-1193, or see our web page mail to: csee@umkc.edu.

The faculty of CSEE approved several changes effective in the fall of 2012 for the degrees of BA in CS, the BS in CS, and the Bachelor of IT in reaction to feedback received from constituents and an analysis of assessment data. These changes center on a modernization of the curriculum and help to better prepare students for careers in computer science and information technology. Students who started their degree program prior to the fall 2012 term have the option to complete the degree requirements in effect at the time they first started their program, switch to the requirements in effect when they graduate, or petition to combine aspects of both. Students should consult with an advisor for full details.

Educational Objectives

The undergraduate degrees in CS are designed so that graduates will attain employment and advance their careers in industry, government and academia. BA students will find employment in fields where computing is an important ingredient. Some graduates will achieve appropriate certifications and/or pursue advanced study in computer science or other graduate fields. Graduates will be engaged in lifelong learning and thereby advance in their careers.

Career Implications

Computers and processors of all sizes and descriptions appear in every area of the public and private sectors. Consequently, employment prospects for computer science degree holders remain steady. Current projections have the demand for computer science graduates exceeding the supply for many years to come. The range of opportunities open to the new graduate in computer science is impressive.

Computer science graduates are employed as members of technical staff, software engineers, programming or systems analysts, and scientific or application programmers by some of the nation’s largest companies. These companies include internet based commerce and software based hi-tech industries, insurance, banks and financial institutions, computer and electronics manufacturers, the communications industry, the biomedical industry, the defense industry, and engineering firms.

Admission Requirements

High school students planning to apply to the computer science program are strongly urged to take a college preparatory program that emphasizes mathematics, science and communication skills.

First-time college student applicants to the undergraduate program in computer science will be admitted if they obtain:

1. An ACT mathematics score of at least 25 and
2. An ACT composite score of at least 24 or
   a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the above criteria but do meet UMKC general admission requirements may be admitted on probation or into the University College.

Students without the recommended preparation must take prerequisite coursework in order to prepare for enrollment in courses required for the bachelor’s degree.

Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the undergraduate program committee.

Transfer student (p. 772) information is available in the Undergraduate Academic Regulations section of the catalog.

Student Learning Outcomes

We expect that the program will enable students to attain, by the time of graduation:

1. An ability to apply knowledge of computing and mathematics appropriate to the discipline
2. An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution
3. An ability to design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs
4. An ability to function effectively on teams to accomplish a common goal
5. An understanding of professional, ethical, legal, security and social issues and responsibilities
6. An ability to communicate effectively with a range of audiences
7. An ability to analyze the local and global impact of computing on individuals, organizations, and society
8. Recognition of the need for and an ability to engage in continuing professional development
9. An ability to use current techniques, skills, and tools necessary for computing practice
10. An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices.

11. An ability to apply design and development principles in the construction of software systems of varying complexity.

**Curriculum Requirements**

Curriculum requirements for both of the Computer Science degrees are categorized into several areas totaling at least 120 hours of study.

</tr>
</tbody>
</table>

**General Education Requirement (30 credit hours)**

All students entering UMKC the Fall semester 2014 semester are required to following the UMKC General Education guidelines outlined below. Go to umkc.edu/core (http://www.umkc.edu/core) for more details on courses that qualify for the Focus requirements and other Anchor courses.

1. Students must take and pass the Math Entrance Test called ALEKS before enrolling in this course.
2. RooWriter must be taken prior to enrollment in DISC 300 and Anchor 3 course. Go to www.umkc.edu/roowriter (https://www.umkc.edu/RooWriter/logon.aspx) for more details.
3. A minimum of one lab in either from one of the following areas: Biology, Chemistry, environmental Science, Geoscience, or Physics.
4. See academic advisor for list of course options.

GE UMKC General Education Core website (http://www.umkc.edu/core/courses/)
Focus A: Arts & Humanities
Focus B: Scientific Reasoning and Quantitative Analysis
Focus C: Human Actions, Values, and Ethics (Constitution requirement recommended for this Focus area satisfied by taking either HISTORY 1100, HISTORY 1101, HISTORY 360R or POL-SCI 210.)
Focus D: Electives

Some courses may count for both the General Education requirements and the specific degree requirements to keep the degree at 120 credit hours total.

Four Year Program Sample
For suggested four year plans, please see the registrar’s website: http://www.sfa.umkc.edu/majormaps/.

Tools for Planning and Fulfilling Academic Requirements

This evaluation is used to certify all graduation requirements.

BS/MS Program in Computer Science

BS/MS CS in Five Years
The School of Computing and Engineering established the BS/MS program to offer students an opportunity to meet the full requirements of the existing BS and MS degree programs in a shorter time period than the separate degree programs by completing a B.S. degree within four years and then completing an M.S. degree in the fifth year.

Computer Science (BS)/(MS):
- Students admitted to the program will receive the SCE BS/MS Scholarship which will cover the difference between Graduate and Undergraduate tuition rates
- Students are required to maintain full-time undergraduate enrollment (minimum 12 hours/ semester)
- Must be continuously enrolled from BS to MS programs (must enter graduate program the semester following completion of BS degree requirements)
- Students are required to maintain full-time enrollment (minimum 9 hours/semester) in the graduate phase of the program to continue to receive the BS/MS Scholarship

Admission Requirements for BS/MS Program:
Students must meet the following requirements to be eligible:
- Students must indicate their interest and apply to the program no later than the end of their junior year
- Students must complete 30 hours at SCE prior to admission to BS/MS program
- Students are expected to follow the recommended curriculum (although deviations are possible) and must maintain:
  - UMKC cumulative GPA of 3.00 or higher, and the GRE will be waived for students who meet the qualifications above and are planning to enroll in the BS/MS program

This program offers students an opportunity to meet the full requirements of the existing BS and MS degree programs in a shorter time period than the separate degree programs by completing a B.S. degree in Computer Science within four years, and then completing an M.S. degree in Computer Science in their fifth year. Please contact our department for additional information or clarification on the information below by calling (816) 235-1193, or sending an e-mail to csee@umkc.edu.

Requirements for Graduation

Credit Hour Requirements
The BS and MS program in Computer Science requires:
- 120 Undergraduate Credit Hours,
- 30 Graduate Credit Hours, and
- 150 Total Credit Hours.
Academic Requirements

The academic requirements for both degrees are identical to the requirements for the two degrees when considered separately, with a few additions and exceptions.

1. Students enrolled in the plan must maintain a 3.0 cumulative GPA for all UMKC coursework.
2. Students must receive a minimum grade of C (2.0) in every undergraduate course attempted in the CSEE Department.
3. Students must receive a minimum grade of B (3.0) for every graduate course attempted in the CSEE Department.
4. Students should follow the recommended sample program in order to graduate within five years, but variations are possible.

For additional details, please contact our Department by phone (816) 235-1193 or by e-mail mailto:sce@umkc.edu.

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Minor in Computer Science

Degree Requirements

For students to obtain a minor in Computer Science, they must satisfy all University degree requirements (see the General Undergraduate Academic Regulations and Information section in this catalog), satisfy the requirements as set forth by the major degree (major department, major academic unit) and obtain a GPA of 2.0 or higher in the eight courses specified below, with no individual computer science grade below a C (2.0).

There are no other requirements specifically required by the minor, although some of the courses do have prerequisites from outside of SCE. In particular, MATH 110 and MATH 210 are prerequisites for COMP-SCI 101, COMP-SCI 191 and COMP-SCI 303.

Bachelor of Science in Electrical and Computer Engineering

Program Description

The Bachelor of Science in Electrical and Computer Engineering (ECE) is accredited by the Engineering Accreditation Commission of ABET http://www.abet.org/.

The ECE degree program is designed to provide the key elements of both an electrical engineering and a computer engineering curriculum. It also provides additional courses that involve the business and entrepreneurial aspects of engineering. Graduates of this program are prepared for larger breadth in job opportunities than are typically available in a traditional electrical engineering program. A BS/MS Program for completing both a BS in ECE and a MS in EE in five years is available (see below). For additional information or an advising appointment, please contact our office by phone (816) 235-1193 or e-mail to mailto:csee@umkc.edu.

Educational Objectives

The undergraduate degree in ECE is designed so that graduates will attain employment in electrical and/or computer engineering and advance their careers in this field or achieve success in other areas. Some graduates will become registered professional engineers and/or pursue advanced studies.
Career Implications

Job opportunities abound for electrical and computer engineering majors. In terms of starting salaries and the number of job offers, ECE graduates compare favorably with other engineering graduates. In addition, the ECE curriculum at UMKC equips the graduate with the analytical decision-making skills necessary to pursue diverse technical, managerial and entrepreneurial career opportunities.

Admission Requirements

High school students planning to apply to the electrical and computer engineering program should pursue a college preparatory program that emphasizes mathematics, science and communication skills.

First-time college student applicants to the undergraduate program in electrical and computer engineering will be admitted if they obtain:

1. An ACT mathematics score of at least 25 and
2. An ACT composite score of at least 24 or
   a high school class rank in the upper 25 percent.

First-time college student applicants who do not meet the above criteria but do meet UMKC general admission requirements may be admitted on probation or into the University College.

Students seeking re-admission must have been in good academic standing when last enrolled. Otherwise, re-admission requires a formal review by the degree program committee.

Transfer student (p. 772) information is available in the Undergraduate Academic Regulations section of the catalog.

Student Learning Outcomes

Prior to graduation, students will have obtained the following.

• an ability to apply knowledge of mathematics, science, and engineering
• an ability to design and conduct experiments, as well as to analyze and interpret data
• an ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
• an ability to function on multidisciplinary teams
• an ability to identify, formulate, and solve engineering problems
• an ability to communicate effectively
• the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context
• a recognition of the need for, and an ability to engage in life-long learning
• a knowledge of contemporary issues
• an ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Curriculum Requirements

The curriculum requirements shown below are in effect for students entering the degree program in Fall 2013 or later. These include either new courses or slight modifications to existing courses, indicated with the footnotes in the listing below, where the anticipated title and credit hours are shown. Please ask your advisor for full details on all options available.

Total Credits 111

1 Students must have passed with a "C" or better either PreCalculus or College Algebra and Trigonometry and passed the Math Entrance Test called ALEKS.
2 Requirement may be waived if students have an ACT English score of 30; or SAT Verbal score of 630; or AP English Lang/Comp score of 4.2
3 Either General Chemistry with lab or General Biology with lab can be used
4 Students must take the RooWriter at least one semester prior to enrolling in E&C-ENGR 402WI.
5 Three of the four courses must be from E&C-ENGR; the other course can be E&C-ENGR or another technical course outside of ECE (such as COMP-SCI or PHYSICS). See advisor for details. Furthermore, qualified students might be able to take graduate level courses.

UMKC General Education Core website (http://www.umkc.edu/core/courses/)

General Education Requirement (30 credit hours)

All students entering UMKC the Fall 2014 semester are required to follow the UMKC General Education guidelines outlined below. Go to http://www.umkc.edu/core for more details on courses that qualify for the Focus requirements and other Anchor courses.

Discourse and Anchor

- DISC 100 and Anchor I: Reasoning and Values (SCE 101 recommended for Anchor I) = 6 credit hours
- DISC 200 and Anchor II: Culture and Diversity (SCE 201 recommended for Anchor II) = 6 credit hours
- DISC 300 and Anchor III: Civic/Community Engagement = (E&C-ENGR 403WI Proposed as Anchor III) = 6 credit hours
Focus
• Focus A: Arts & Humanities
• Focus B: Scientific Reasoning and Quantitative Analysis (MATH 210 or PHYSICS 240 or CHEM 211 or BIOLOGY 102)
• Focus C: Human Actions, Values, and Ethics
  (Constitution requirement recommended for this Focus C area satisfied by taking either HISTORY 101 HISTORY 102, HISTORY 360R or POL- SCI 210.)
• Focus D: Electives

Some courses may count for both the General Education requirements and the specific degree requirements to keep the degree at 125 credit hours total.

Four Year Program Sample
For suggested four year plans, please see the registrar’s website: http://www.sfa.umkc.edu/majormaps.

Tools for Planning and Fulfilling Academic Requirements
UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

BS/MS Electrical and Computer Engineering/Electrical Engineering

BS/MS Program in Electrical and Computer Engineering
The School of Computing and Engineering established the BS/MS program to offer students an opportunity to meet the full requirements of the existing BS and MS degree programs in a shorter time period than the separate degree programs by completing a B.S. degree within four years and then completing an M.S. degree in the fifth year.

Electrical and Computer Engineering (BS)/ (MS):
• Students are required to maintain full-time undergraduate enrollment (minimum 12 hours/semester)
• Must be continuously enrolled from BS to MS programs (must enter graduate program the semester following completion of BS degree requirements)
• Students admitted to the program will receive the SCE BS/MS Scholarship which will cover the difference between Graduate and Undergraduate tuition rates
• Students are required to maintain full-time graduate enrollment (minimum 9 hours/semester) to remain enrolled in the program and receive the BS/MS Scholarship

Admission Requirements for BS/MS Program:
Students must meet the following requirements to be eligible:
• The GRE will be waived for students who meet the qualifications above and are planning to enroll in the BS/MS program
• Students must indicate their interest and apply to the program no later than the end of their junior year
• Students must complete 30 hours at SCE prior to admission to the BS/MS program
• Students are expected to follow the recommended curriculum (although deviations are possible) and must maintain: UMKC cumulative GPA of 3.00 or higher

Please contact our department for additional info or clarification by phone (816) 235-1193 or by e-mail mailto:csee@umkc.edu.

Requirements for BS/MS Graduation
Credit Hour Requirements
The BS/MS combination of a Bachelor of Science in Electrical and Computer Engineering and a Master of Science in Electrical Engineering requires:
• 126 Undergraduate Credit Hours (One additional credit hour of general elective added for the BS/MS degree)
• 24 Graduate Credit Hours, and
• 150 Total Credit Hours.

**Academic Requirements**

The curricular requirements for both degrees are identical to the requirements for the two degrees when considered separately, with a few additions and exceptions.

1. Students enrolled in the plan must maintain a 3.0 cumulative GPA for all UMKC coursework.
2. Students must receive a minimum grade of C (2.0) for every undergraduate course attempted in the CSEE Department.
3. Students must receive a minimum grade of B (3.0) for every graduate course attempted in the CSEE Department.
4. Students should follow the recommended sample program in order to graduate within five years, but variations are possible.

For additional details, please contact our Department by phone (816) 235-1193 or by e-mail csee@umkc.edu.

**Five Year Program Sample**

Students should follow the sample program as listed for the BS in ECE degree and should apply for the graduate degree prior to enrolling for the fall semester of their fourth year. During their fifth year, they could enroll in 12 credit hours each semester or make use of the summer semester between their fourth and fifth year to take a course or special project, if offered.

**Tools for Planning and Fulfilling Academic Requirements**

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

**Master of Science in Computer Science**

**Program Description**

The University of Missouri-Kansas City has created an exciting and uniquely designed program of graduate study in computer science. Significant changes are always occurring within this discipline in recent years and our graduate program in computer science reflects those changes, providing in-depth education in the new technology and skills most in demand in this growing industry.

The UMKC graduate student has the unique opportunity to get a concentrated state-of-the-art education in some of the most dynamic, challenging and professionally significant specialty areas. This is made possible by unusual advantages which the UMKC program possesses:

• An interdisciplinary approach to new technology.
• Faculty who are each actively pursuing research in these areas.

Students can earn an M.S. degree in computer science with an emphasis or concentration in:

• Bioinformatics
• Database and Information Management
• Networking and Telecommunications
• Software Engineering

Many courses are offered in these emphasis areas. Contact us for more information by phone: (816) 235-1193 or send an e-mail csee@umkc.edu

**Admission Requirements**

The University of Missouri-Kansas City’s graduate program in computer science will accept college and university graduates whose past performance indicates an ability to succeed in graduate study in computer science. This ability can be demonstrated by the following undergraduate preparation.

1. A sound background in computer science as indicated by an above-average understanding (e.g. a cumulative GPA in CS coursework of 3.0 or better with no single course grade lower than 2.0) of the content of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Description</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMP-SCI 101</td>
<td>Problem Solving and Programming I</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 191</td>
<td>Discrete Structures I</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 201R</td>
<td>Problem Solving and Programming II</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 201L</td>
<td>Problem Solving and Programming II - Lab</td>
<td>1</td>
</tr>
</tbody>
</table>
### Courses Offered

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMP-SCI 281R</td>
<td>Introduction to Computer Architecture and Organization</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 291</td>
<td>Discrete Structures II</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 394R</td>
<td>Applied Probability</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 431</td>
<td>Introduction to Operating Systems</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 303 &amp; COMP-SCI 404</td>
<td>Data Structures and Introduction to Algorithms and Complexity</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one of the following:

- COMP-SCI 352 | Data Structures and Algorithms | 2 |

### Admission Requirements

2. A sound background in mathematics as indicated by an above average understanding (e.g. a GPA of 3.0 or better with no single course grade lower than 2.0) of calculus (minimum of 10 hours) and of the content of at least two additional upper-level courses in areas such as linear algebra, differential equations, abstract algebra, numerical analysis or mathematical logic.

3. An overall GPA of 3.0 or better in all undergraduate work.

4. Official results of the Graduate Record Exam (GRE) general test. The applicant must score in at least the 75th percentile on the quantitative portion of the GRE and it is recommended that the applicant score in at least the 30th percentile on the verbal portion of the GRE. Admission to our degree programs is competitive so higher scores are recommended.

5. For international students, a minimum test score of IELTS 6.5 or iBT 79 is needed. A higher score makes the application competitive for DISA (Dean’s International Student Award) consideration.

6. Prospective students who want to be considered for acceptance to the M.S. degree program should submit the following documents:

   a. Transcripts for all graduate and undergraduate work completed so far; syllabi of these courses (or a URL to these) is strongly suggested.

   b. Copies of academic and scholarly diplomas received.

   c. GRE scores and, for international students, TOEFL scores, as well as a statement of purpose, i.e. a one- or two-page essay in which the prospective students indicate their career objectives.

It is possible that a prospective student has obtained a solid understanding of either computer science or mathematics through work or other experience rather than formal study. These students must submit a detailed description of such experience and ask a supervisor to write a letter of reference supporting the application.

Applications will be reviewed by the master’s committee when all documentation is received. For full consideration for the semester indicated and priority for scholarship applications, it is recommended that completed applications be received by the following dates:

- For fall semester admission (semester starts in August):
  - U.S. students/permanent residents: June 1.
  - International students: Jan. 15.

- For spring semester admission (semester starts in January):
  - U.S. students/permanent residents: Nov. 1 of the preceding year.
  - International students: Oct. 1 of the preceding year.

U.S. citizens or permanent residents may apply online at www.umkc.edu/admissions or submit application forms and required supporting materials to:

**Mailing Address**

University of Missouri-Kansas City  
Office of Admissions  
120 Administrative Center  
5100 Rockhill Road  
Kansas City, MO 64110-2499

Their telephone number is (816) 235-1111 and their e-mail address is admit@umkc.edu.
International students may apply online at www.umkc.edu/isao or fax application to (573) 884-4894 and send all supporting documents to:

Mailing Address
University of Missouri-Kansas City
Office of International Student Affairs
5100 Rockhill Road
Kansas City, MO 64110-2499

Their telephone number is (816) 235-1113 and their e-mail address is isao@umkc.edu.

Prospective students can request additional information or request information regarding their application by contacting UMKC at the above addresses or by sending e-mail to: csee@umkc.edu.

Starting the Program

When accepted into the program, the student’s first contact is with the computer science principal graduate advisor or with members of the CSEE graduate program committee during the orientation session. The most immediate concern is for the courses to be taken in the first semester. The principal graduate advisor will help the student select those initial courses. At this initial meeting, a review will be made of the student’s status in the program and the student will be required to provide a tentative program of study within the first semester. Such a program should reflect the deficiency and prerequisite courses that have been prescribed and may have to be taken prior to taking courses for graduate credit.

Within the first semester, the student will be assigned a graduate advisor (faculty) who will then become the primary contact person for that student until a thesis advisor (for thesis option) is selected. The CS co-chair of the CSEE graduate degree program committee or his/her designee will notify the student of the identity of the specific graduate advisor. It will be the responsibility of students, in conjunction with their advisors/chairs, to devise a program of study using the degree requirements worksheet and the course planning worksheet. This should be submitted to the graduate committee, usually by the end of the second semester. The CSEE graduate degree program committee is in charge of handling procedural issues related to the M.S. program in computer science. Any request for exception to rules, regulations or policies should be directed to this committee.

Deficiencies

The CSEE graduate degree program committee reviews and evaluates all applications for admissions to the M.S. degree programs. Frequently, they review applications from students whose past academic record show strong positive indications for success as a graduate student, yet have not satisfied all courses needed for full admission. Students with an undergraduate degree in computer science from an ABET accredited program are well prepared. Others may have deficiencies in their preparation. The committee may offer these students admission to the program on a conditional basis and compile a list of “deficiency courses”. The successful completion of these courses with a grade of B or better will be a condition of full admission to the program. The student is then required to complete all such deficiencies as a contractual obligation at the earliest opportunity.

The committee creates this list based on the transcripts and syllabus submitted by the applicant. However, it is possible that applicants have indeed satisfied one or more of their listed deficiencies. In these cases, the student should contact their academic advisor as soon as possible in the first semester to initiate a petition to waive the deficiencies in question. The written petition with all the needed supporting documentation (such as course syllabus) attached, must be submitted no later than six weeks (two weeks for summer) after the start of the first semester of enrollment. The decision of the committee is final and can be one of three:

- The waiver is granted.
- The waiver is denied and the student is allowed to take an examination.
- The waiver is denied and the student must pass the class with a B (3.0) or higher (usually the course of action if the student does not pass the examination).

The committee’s decision is final, so it is important that students consult with their advisor to ensure that all the proper documentation supporting the waiver is submitted. If the student is allowed to take an examination, it must take place no later than the second semester of enrollment. Deficiency examinations are offered once each semester and the student may take the exam only once. If the student does not perform satisfactorily on the exam, then the student must enroll in the course to satisfy the deficiency requirement.

All deficiencies shall be satisfied within three semesters of admission. If deficiencies are not satisfied within this time period, enrollment will be limited to deficiency courses until all deficiencies have been satisfied.

Graduate Course Prerequisites

Note that there are graduate level courses that have an undergraduate course as prerequisite and that not all undergraduate courses can be taken for graduate credit.
### Student Learning Outcomes

Upon graduating, students will have demonstrated that they can apply the core technologies from computer science and from their chosen emphasis areas. They will have developed an analytical mindset and understand the limitations of current theories and technologies. They will be able to design a system under realistic constraints, which they are able to implement using modern tools and techniques. They will have had an opportunity to take in-depth course work in the area of computer networking, telecommunications, software engineering and bioinformatics.

### Core Requirements

All students are required to complete a core curriculum of:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMP-SCI 5592</td>
<td>Design and Analysis of Algorithms</td>
<td>3</td>
</tr>
</tbody>
</table>

Select two of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSEE 5110</td>
<td>Network Architecture I (formerly offered as COMP-SCI 5520)</td>
<td></td>
</tr>
<tr>
<td>COMP-SCI 5551</td>
<td>Advanced Software Engineering</td>
<td></td>
</tr>
<tr>
<td>COMP-SCI 5566</td>
<td>Introduction to Bioinformatics</td>
<td></td>
</tr>
<tr>
<td>COMP-SCI 5570</td>
<td>Architecture of Database Management Systems</td>
<td></td>
</tr>
</tbody>
</table>

### CS-Emphasis and CS-Concentration Areas

All students are required to complete courses in a CS-emphasis and/or concentration areas. The approved areas and their associated courses are:

1. **Bioinformatics Emphasis** -

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMP-SCI 5566</td>
<td>Introduction to Bioinformatics</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5567</td>
<td>Machine Learning in Bioinformatics</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5590CI</td>
<td>Special Topics (Computational Intelligence)</td>
<td>1</td>
</tr>
<tr>
<td>COMP-SCI 5590NN/E&amp;C-ENGR 5316</td>
<td>Special Topics (Artificial, Neural and Adaptive Systems)</td>
<td>1</td>
</tr>
<tr>
<td>COMP-SCI 5590SL/E&amp;C-ENGR 5590</td>
<td>Special Topics (Supervised Learning &amp; Feature Extraction with Applications to Biometrics &amp; Biomedical Problems)</td>
<td>1-3</td>
</tr>
</tbody>
</table>

   **Total Credits** 9-11

2. **Database and Information Management Concentration** -

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMP-SCI 5570</td>
<td>Architecture of Database Management Systems</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5572</td>
<td>Mobile Computing</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5573</td>
<td>Information Security and Assurance</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5574</td>
<td>Large Scale Semistructured Date Management</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5670</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>And others</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

   **Total Credits** 15

3. **Networking and Telecommunications Emphasis** -

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSEE 5110</td>
<td>Network Architecture I (formerly offered as COMP-SCI 5520)</td>
<td>3</td>
</tr>
<tr>
<td>CSEE 5112</td>
<td>Computer Network Design and Analysis (formerly offered as COMP-SCI 5522)</td>
<td>3</td>
</tr>
<tr>
<td>CSEE 5113</td>
<td>Network Routing (formerly offered as COMP-SCI 5526)</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5521</td>
<td>Network Architecture II (CSEE 5111)</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5523</td>
<td>Capacity Planning for Service-Oriented Architectures</td>
<td>3</td>
</tr>
<tr>
<td>COMP-SCI 5594</td>
<td>Introduction to Queuing Theory (CSEE 5130)</td>
<td>3</td>
</tr>
<tr>
<td>E&amp;C-ENGR 5570</td>
<td>Principles of Digital Communication Systems</td>
<td>3</td>
</tr>
<tr>
<td>E&amp;C-ENGR 5577</td>
<td>Wireless Communications</td>
<td>3</td>
</tr>
<tr>
<td>And others</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

   **Total Credits** 24

4. **Software Engineering and System Emphasis** -
If a student desires a concentration other than these, a petition must be submitted to the graduate committee requesting that a concentration be recognized for the student's specific degree plan. It should specifically state which courses the student wants to include in this concentration, it should explain why these courses together form a coherent group and how these courses fit the student's academic goals. Students must petition before including other courses in their program of study.

Please note that many of our bioinformatics courses also count towards a MS in Bioinformatics, administered in the Department of Informatic Medicine and Personalized Health in the School of Medicine. Please contact Dr. Stan Edlavitch for more information, 1000 East 24th Street, 5th Floor, Phone: 816-235-6617, Email: edlavitchs@umkc.edu.

Degree Requirements

The curriculum requirements shown below (approved by the faculty in December 2012) are taking effect for students entering the degree program in Fall 2013. The changes are mainly in the emphasis and concentration courses, credit hours, and the counting of courses at the undergraduate level. All students already in the program can satisfy either the program requirements in effect when they entered the program, (available in the catalog archives or from your advisor), or the program requirements below. Please ask your advisor for full details.

To earn an M.S. degree in computer science, the student must satisfy both the general master of science degree requirements of the University of Missouri-Kansas City and the requirements of the CSEE Department for either the thesis or non-thesis option as outlined below.

Specific Requirements for the Thesis Option (30 cr. hrs.):

1. Complete a minimum of 24 hours of approved COMP-SCI coursework for graduate credit with a cumulative GPA of at least 3.0.
2. Additionally, complete a minimum of six additional graduate COMP-SCI hours, including at least three hours COMP-SCI 5599. The total number of hours of COMP-SCI 5597 or COMP-SCI 5599 should not exceed six.
3. Contact a thesis advisor in the semester in which the student completes 12 hours of graduate work.
4. Present evidence of research abilities in the form of a master’s thesis resulting from enrollment in at least three hours of COMP-SCI 5599.
5. Pass a general oral examination which may cover all the work covered in the student’s graduate program.
6. Satisfy the requirements listed under the common requirements, see below.

Specific Requirements for the Non-Thesis Option (30 cr. hrs.):

1. Complete a minimum of 27 hours of approved coursework for graduate credit with a cumulative GPA of at least 3.0.
2. Additionally, complete another 3 hours of approved course work, or 3 hours of approved COMP-SCI 5597. Only 3 hours of COMP-SCI 5597 can be applied toward the degree.
3. Contact an advisor after completing 12 hours of graduate work to complete the program of study.
4. Satisfy all common requirements, see below.

Common Requirements and Limitations for both MS-CS Thesis Option and Non-Thesis Option:

1. Satisfy the core requirement:
   
   COMP-SCI 5592  Design and Analysis of Algorithms  3
   
   Select two of the following:  6
   
   CSEE 5110  Network Architecture I (formerly offered as CS 5520)
   
   COMP-SCI 5551  Advanced Software Engineering
2. Complete a minimum of nine hours (if thesis) or twelve hours (if non-thesis) in one CS-emphasis or CS-concentration area and a minimum of six hours in another CS—emphasis or CS-concentration.

3. Each student must have a plan of study approved by both the student’s supervisory committee and the graduate officer before the end of the semester in which the student completes 12 credit hours of graduate work.

4. No more than six credit hours total from any graduate coursework taken outside the CSEE department and from COMP-SCI 411, COMP-SCI 421A, COMP-SCI 423, COMP-SCI 457, COMP-SCI 470, and COMP-SCI 494R can be used to satisfy degree requirements. Each of these courses must be completed with a grade of “B” (3.0) or higher.

5. Courses cannot be identical to courses already taken for a prior degree.

6. No more than three hours of COMP-SCI 5597 can be used to satisfy degree requirements. All COMP-SCI 5597 hours to be applied to the master of science in Computer Science degree requirements must be approved by the CSEE Master’s Committee at least six weeks before classes begin.

7. No more than one course grade below “B” or 3.0 may be applied toward the degree requirements.

**Thesis Option**

Master’s degree candidates in computer science who decide to do the thesis option are required to demonstrate knowledge and maturity in the discipline by completing at least three hours of COMP-SCI 5599. Students may enroll in more than three hours of COMP-SCI 5599, however, only six hours combined from COMP-SCI 5597 and COMP-SCI 5599 may be applied toward the degree. The research program will be defined by the student in conjunction with the student’s thesis committee. Under the direction of the thesis advisor, the student will investigate a topic of current interest in computer science and prepare a master’s thesis on that topic.

The final requirement for conferral of the M.S. degree is defense of the thesis, where the supervisory committee is the examining body. The thesis must be submitted in complete typewritten form to the advisor and supervisory committee at least six weeks before the date the advanced degree is to be conferred. Also, the supervisory committee must have access to the thesis at least one week before the date of the defense. Students must comply with all rules and regulations governing theses outlined in the general catalog under General Graduate Academic Regulations and Information.

**Directed Readings Courses**

Up to three hours of COMP-SCI 5597 is allowed toward a master of science. Such a course must be approved in advance (i.e., before the student takes the course) by the professor supervising the course and the graduate committee. The following information must be furnished:

- Title of the course.
- Detailed syllabus for the course.
- Textbook and references.
- The manner in which the course will be conducted (i.e. meetings, assignments, etc.).
- The manner in which the students are assessed (i.e. how many exams, presentations, reports, etc.).
- The course which it replaces, if appropriate.
- Name(s) of the instructor(s).
- Name(s) of the student(s).
- Reasons for offering this course in a directed readings format.

**Transfer Credit**

Not more than six hours of graduate credit may be transferred from another recognized graduate school or from another academic unit within UMKC. Transfer credit may be applied toward the master’s degree requirements on the approval of the student’s graduate advisor and the Master’s Committee. No credit hours may be transferred when those hours have been used toward the completion of any other degree program, graduate or undergraduate. The total amount of transfer credit and credit from approved COMP-SCI 400-level classes shall not exceed six hours.

**BS/MS Computer Science Program**

See the BS/MS section under Computer Science in the undergraduate catalog for information about the program (p. 340).
Master of Science in Electrical Engineering

Program Description

The University of Missouri-Kansas City has created an exciting and uniquely designed program of graduate study leading to the Master of Science in Electrical Engineering. This degree offers several options: thesis or non-thesis, with the latter available with an electric power focus area. In the thesis option, the student has the opportunity to engage in research that builds upon coursework to reach the forefront in the chosen area. This degree option prepares graduates for a wide variety of future opportunities, whether it is in corporate research, product development, management or entrepreneurial endeavors. It also prepares graduates for doctoral studies. The overall goal is to put graduates into a position to be leading technology developers and innovators. The MSEE degree program provides the student with opportunities to study topics such as wireless communications, signal processing, computer architectures, digital systems, VLSI design, embedded system design, low-power chip design, image processing, computational electromagnetics, antenna theory, computer networking and neural networks. Alternately, the student can select the focus area emphasizing electric power, designed to easily fit into the schedule of full-time working engineers. The various emphasis/focus areas have been developed in consultation with industry, engineering firms and utilities. Contact info: (816) 235-1193, csee@umkc.edu.

Admission Requirements

Applicants for master’s level graduate studies in electrical and computer engineering should have a GPA of at least 3.0 on a 4.0 scale for the last 60 semester hours of relevant undergraduate coursework in Electrical Engineering and/or Computer Engineering. However, if the GPA is below 3.0 but more than 2.75, and if other academic indicators promise success in the program, rules may still allow probationary admission. The following documents are required for consideration for admission:

1. Completed application form for graduate (masters) admission.
2. Official transcripts of all college work.
3. Official results of the Graduate Record Examination (GRE) general test. The applicant must score at least 75th percentile in the quantitative portion of the GRE; a 30th percentile score in the verbal portion of the GRE is recommended.
4. For international applicants a minimum test score of 79 (IBT) or 6.5 (IELTS) is necessary. (The older TOEFL and CBT scores will no longer be acceptable.)
5. Two letters of recommendation are needed for applicants with an overall GPA less than 3.0 in the last 60 hours of their undergraduate degree program.

The complete application package is then carefully reviewed by the graduate admissions committee. The decision to admit an applicant to the graduate (MSEE) degree program with or without DISA (Dean’s International Scholarship Award) rests on this graduate admissions committee. The chair of the graduate committee communicates the recommendations of the graduate committee to the CSEE department chair, who in turn formally notifies the applicant of the decision.

Applications will be reviewed by the master’s committee when all the necessary documents are received. For full consideration for the semester indicated and priority for scholarship applications, it is recommended that completed applications be received by the following dates:

- For fall semester admission (semester starts in August):
  - U.S. students/permanent residents: June 1.
  - International students: January 15.
- For spring semester admission (semester starts in January):
  - U.S. students/permanent residents: November 1 of the preceding year.
  - International students: October 1 of the preceding year.

U.S. citizens or permanent residents may apply online at www.umkc.edu/admissions or submit application forms and required supporting materials to:

**Mailing Address**

University of Missouri-Kansas City  
Office of Admissions  
120 Administrative Center  
5100 Rockhill Road  
Kansas City, MO 64110-2499

Their telephone number is (816) 235-1111 and their e-mail address is admit@umkc.edu.

International students can apply online at www.umkc.edu/isao or fax application to 573-884-4894 and send all supporting documents to:

**Mailing Address**
Prospective students can request additional information or request information regarding their application by contacting UMKC at the above addresses or by sending e-mail to: csee@umkc.edu.

Acceptance or Denial

After thoroughly considering an applicant’s record, one of the following actions will be taken:

Normal Acceptance
The student is accepted unconditionally.

Normal Acceptance with Pre-program Requirements
This category applies to an otherwise qualified applicant who has a bachelor of science degree from an approved program, but not in electrical engineering, computer engineering, or a similarly named engineering discipline. The student will be notified in writing of any make-up requirements specified by the master’s committee.

Probationary Acceptance
Applicants with marginal credentials may be admitted conditionally. They will have to receive a B or better in each course in the first semester of graduate coursework. In addition, make-up requirements may be set forth by the master’s committee.

Non-Acceptance
The student is not admitted. The student will be notified in writing of the admission denial. The letter may specify under what conditions a future application would be more favorably considered.

The master’s committee is in charge of handling procedural issues related to the M.S. program in electrical engineering. Any request for exception to the rules should be handled as described below related to petitioning procedures.

Starting the Program

When accepted into the program, the student’s first contact is with the electrical engineering principal graduate advisor. At this initial meeting, a review will be made of the student’s status in the program and the student will be required to provide a tentative program of study within the first semester. Such a program should reflect the prerequisite courses that have been prescribed and that may have to be taken prior to taking courses for graduate credit.

The most immediate concern is for the courses to be taken in the first semester. The principal graduate advisor will help the student select those initial courses. Within the first semester, the student will be assigned an academic advisor who will be the primary contact for the student until the student graduates under the non-thesis option. If the student decides to follow the thesis option, a thesis advisor will replace the academic advisor. In either case, it is the responsibility of the student to devise, after consultation with their advisors, a program of study using the degree requirements and the course planning worksheet. This should be submitted to the graduate officer, usually by the end of the second semester.

The master’s committee is in charge of handling procedural issues related to the M.S. program in electrical engineering. Any request for exception to the rules should be handled as described below related to petitioning procedures.

Student Learning Outcomes

Upon graduating, students will have demonstrated that they can apply the core technologies from their chosen concentrations or focus areas within electrical engineering and/or computer engineering. They will have developed an analytical mindset and acquired a skill set with engineering tools to design and implement solutions to overcome engineering challenges in society. They will also have had an opportunity for in-depth course work in the areas of Computer Engineering, VLSI and Embedded Systems, R.F./Electromagnetics and Mixed-Signal Systems, Telecommunications, Networking, Digital Signal and Image processing, Power Systems Engineering.

Degree Requirements

Concentration Areas

All students are required to complete courses in a concentration or focus areas. The approved EE-concentration (or focus) areas and the associated courses are listed below. All curricular designations are E&C-ENGR, unless indicated.
### Computers, VLSI, and Embedded Systems

<table>
<thead>

E&C-ENGR 5664  Lightning and Switching Surges in Power Systems 3
E&C-ENGR 5670  Direct Current Power Systems 3
E&C-ENGR 5672  Power Systems Relaying 3

**Degree Requirements**

Beginning Fall 2013 all MSEE students (both thesis and non-thesis options) are required to complete the following course requirements:

1. The student has to complete the requirement of 4 courses from one of the 5 areas (4 concentration and one focus area). The list of these fundamental courses from each concentration/focus area is given below.

   **Computers, VLSI and Embedded Systems**
   - E&C-ENGR 5642  Advanced VLSI Design (Computers, VLSI and Embedded Systems) 3
   - or E&C-ENGR 5528  Advanced Embedded Systems

   **Communications and Networking**
   - E&C-ENGR 5570  Principles of Digital Communication Systems 3
   - or E&C-ENGR 5577  Wireless Communications

   **RF/Electromagnetics & Mixed Signal Systems**
   - E&C-ENGR 5513  Advanced Principles of RF/Microwave Engineering 3

   **Signal & Image Processing, and Biomedical Applications**
   - E&C-ENGR 5580  Digital Signal Processing 3

   **Focus Areas in Electric Power**
   - E&C-ENGR 5567  Power Systems II 3

2. The student now has to further choose 2 courses (with the E&C-ENGR designator) from the list in the above concentration/focus areas. (There is room for flexibility on how these ECE courses may be chosen.)

3. The student now has the following options to exercise for either thesis and non-thesis option areas:
   a. Student may take all the remaining 4 courses that are cross-listed with a CSEE designation and does not need any approval from the graduate (MSEE) committee (non-thesis option).
   b. Student can take all the remaining 4 courses outside the MSEE degree program in which case they have to be approved by the graduate (MSEE) committee (non-thesis option).
   c. Student can take up to 2 courses, and depending on advisor’s input, one of these two courses can be a directed reading course (thesis option).

**Note**: a MSEE thesis is a total of 6 credit hours (typically equivalent to 2 instructional/lecture courses).

For any option (thesis or non-thesis) the total number of credit hours needed for completion of the MSEE degree program is 30.

The preceding change in requirements towards completion of the MSEE degree program was approved and voted by the ECE graduate faculty on December 10, 2012. The changes to the degree program requirements were then further approved by the CSEE faculty in January 2013. These changes will be effective Fall 2013.

**Thesis Option**

The Comprehensive Final Examination is required of all candidates for the Master of Science degree under the thesis option. It is arranged by the graduate faculty advisor. It is to be conducted prior to the deadline date established by the Graduate School for the semester of intended graduation. Prior to the date of the examination, each member of the committee is furnished a copy of the candidate’s final thesis for review and discussion at the time of the final examination.

If pursuing the thesis option, the thesis must be submitted in complete typewritten form to the advisor and supervisory committee at least six weeks before the date the advanced degree is to be conferred. Also, the supervisory committee must have access to the thesis at least one week before the date of the defense. Students must comply with all rules and regulations governing theses outlined in the general catalog under General Graduate Academic Regulations and Information.
Directed Readings

Up to three hours of E&C-ENGR 5597 is allowed toward the Master of Science in electrical engineering. Such a course must be approved in advance (i.e., before the student takes the course) by the professor supervising the course and the graduate committee. The following information must be furnished:

- Title of the course.
- Detailed syllabus for the course.
- Textbook and references.
- The manner in which the course will be conducted (i.e., meetings, assignments, etc.).
- The manner in which the students are assessed (i.e., how many exams, presentations, reports, etc.).
- The course which it replaces, if appropriate.
- Name(s) of the instructor(s).
- Name(s) of the student(s.)
- Reasons for offering this course in a directed readings format.

BS/MS Electrical and Computer Engineering/Electrical Engineering

See the BS/MS section under Electrical and Computer Engineering in the undergraduate catalog for information about the Program.

Doctoral Studies in Computer Science or Electrical Engineering

The Department of Computer Science Electrical Engineering also participates in the Interdisciplinary Ph.D. program of the University of Missouri-Kansas City. This program is administered through the School of Graduate Studies at the University of Missouri-Kansas City and requires a student to select both a coordinating discipline and a co-discipline. Many doctoral students choose both coordinating and co-disciplines in our department or the School of Computing and Engineering, but other disciplines can be taken as well. Three such disciplines are housed in our department:

- Computer Science
- Electrical and Computer Engineering
- Telecommunication and Computer Networking

These were formerly known as computer networking, software architecture and telecommunications networking. See the School of Graduate Studies (http://www.umkc.edu/umkc/catalog-grad/html/sgs/0000.html) section of this catalog for details about the Interdisciplinary Ph.D. program (http://www.umkc.edu/umkc/catalog-grad/html/sgs/iphd.html).

Financial Assistance for Doctoral Students

Graduate assistantships are available to prospective doctoral students, but are highly competitive. Currently, most full-time Ph.D. students in the CSEE department are supported either as a graduate assistant or as graduate research assistant, or as graduate teaching assistant.

Doctoral students already in the program are eligible to apply for several fellowships available from the School of Graduate Studies. Check the School of Graduate Studies Web site at www.umkc.edu/sgs/financial.asp for additional information.

Dual Degree Programs

The School of Computing and Engineering collaborates with other institutions in our dual-degree program which leads to undergraduate degrees in both a liberal arts major and a professional engineering, computer science or information technology degree. Students enter UMKC SCE following three (or four) years at their first institution. Students who follow the guidelines and meet the admission requirements will earn a degree from their first institution and a degree from UMKC following two years of study at SCE.

Students who complete the dual degree program experience the benefits of a liberal arts education, allowing them to become better communicators, develop strong study skills and explore additional academic interests, while also finishing a professional degree program.

Requirements

Students must complete the following requirements prior to enrolling at UMKC. Additional guidance regarding specific curriculum is available for dual degree students.
• Completion of a minimum of 60 credit hours of coursework
• Cumulative GPA greater than 3.00
• Calculus through differential equations
• One year of calculus-based physics
• One semester of general chemistry
• One course in computer science
• One constitution course in US or Missouri government
• Courses to satisfy the General Education requirements.

Current Dual-degree Partnerships
• Baker University, Baldwin, KS
• Blackburn College, Carlinville, IL
• Eureka College, Eureka, IL
• Fontbonne University, St. Louis, MO
• Maryville University, St. Louis, MO
• Missouri Western State University, St. Joseph, MO

Faculty

Richard J. Ackerman: professor emeritus; D.D.S., M.S., Certificate, Pediatric Dentistry (University of Missouri-Kansas City); Certificate, Orthodontics and Dentofacial Orthopedics (Forsyth Dental Center); Certificate, Postdoctoral Research Fellowship (Harvard University).

Cynthia Amyot Contact Information; professor; B.S.D.H., M.S., Ed.D. (University of Missouri-Kansas City).

Bruce F. Barker Contact Information; professor emerita; D.D.S. (University of Michigan); Certificate, Oral Pathology (University of South California).

Gerry J. Barker Contact Information; professor emeritus; B.S. (University of Michigan); M.A. (University of Missouri-Kansas City).

James Beatty Contact Information; clinical assistant professor; D.D.S. (Ohio State University), Certificate GPR (VA Cleveland, OH); Certificate Prosthodontics (University of Missouri-Kansas City, VA Medical Center).

Melanie Simmer-Beck Contact Information; associate professor; B.S.D.H. (University of Missouri-Kansas City); M.S. (University of Missouri-Kansas City); PhD (University of Missouri-Kansas City).

Lianxiang Bi Contact Information; associate research professor; M.D., Hebei Medical University, Shijiazhuang, Hebei, P. R. China.

Robert E. Blundell, Jr.: clinical associate professor; D.D.S., (University of Missouri-Kansas City); Certificate Endodontics (U.S. Navy Postgraduate Dental School, Bethesda, MD)

Brenda S. Bohaty Contact Information; professor; D.D.S. (University of Nebraska); M.S.D., Certificate, Pediatric Dentistry (Baylor College of Dentistry).

Lynda F. Bonewald Contact Information; Curators’ Professor; Dr. William L. Lefkowitz/Missouri Endowed Professor in Oral Biology; B.S. (University of Texas, Austin); Ph.D. (Medical University of South Carolina-Charleston).

Bonnie Branson Contact Information; professor; B.S. (University of South Carolina); M.S., Ph.D. (Southern Illinois University-Carbondale).

Kimberly S. Bray Contact Information; professor; A.A. (Sinclair Community College); B.S.D.H., M.S. (University of Missouri-Kansas City).

Lorraine Forgas Brockmann Contact Information; associate professor; A.A.S.-DH (Pueblo Community College); B.S.D.H., M.S. (University of Missouri-Kansas City).

William G. Brockmann Contact Information; clinical associate professor; D.D.S. (Loyola University, Chicago); Ph.D. (University of Missouri-Kansas City).

Alan R. Brown Contact Information; associate professor emeritus; D.D.S. (The Ohio State University); Certificate, Oral and Maxillofacial Surgery (Fitzsimmons Army Medical Center).

Diane Dyer-Chenoweth Contact Information; clinical assistant professor; BS (Kansas State University); DDS University of Missouri-Kansas City).

Barbara R. Clark Contact Information; professor emerita; Pharm.D. (University of California).
Charles M. Cobb; professor emeritus; D.D.S., M.S. (University of Missouri-Kansas City); Ph.D. (Georgetown University).

Eileen L. Cocjin Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=cocjin); clinical associate professor; D.M.D. (Manila, Philippines); Certificate Pediatric Dentistry (University of Southern California-Los Angeles); D.D.S. (University Missouri-Kansas City).

David E. Cohen Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=cohen); clinical assistant professor, B.S., (Indiana University); D.D.S. (University of Missouri-Kansas City).

Ann Marie Corry Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=corry); associate professor emeritus; B.A. (Washburn University); M.A.L.S. (University of Denver); M.A. (University of Missouri-Kansas City).

John Cottrell Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=cottrell); clinical instructor; B.A. (Pittsbug State University); M.A. (University of Northern Iowa).

Tsau-Mau Chou Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=chou); associate professor emeritus; B.D.S. (Kaohsiung Medical College); D.Sc.D., M.Sc.D., D.M.D. (Boston University).

Robert D. Cowan professor emeritus; D.D.S. (University of Michigan); M.S., Certificate, General Dentistry (University of Texas-Houston).

Sarah L. Dallas Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=dallas); professor; B.S. Anatomical Studies (University of Birmingham); Ph.D. (University of London).

Donna N. Deines Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=deines); associate professor; A.B. (Drury College); D.D.S., M.S., Certificate, Prosthodontics (University of Missouri-Kansas City).

Nidya O. De La Torre Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=delatorre); clinical assistant professor; D.D.S. (Pontificia Universidad Javeriana, Bogota, Colombia), Certificate – Pedodontics (Howard University).

Charles L. Dunlap Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=dunlap); professor emeritus; D.D.S., Certificate, Oral Pathology (University of Missouri-Kansas City).

Shara M. Dunlap Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=dunlap); clinical associate professor; D.D.S. (University of Missouri-Kansas City).

Diane Dyer-Chenoweth Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=dyer-chenoweth); clinical assistant professor;

Robert R. Edwards Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=edwards); clinical assistant professor; B.A. (Kansas University; D.D.S. (University of Missouri-Kansas City); General Practice Residency (Veteran’s Administration, Portland, OR); Certificate Endodontics and M.S. (Northwestern University, Evanston, IL).

J. David Eick Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=eick); Curators' professor emeritus; B.S. (University of Michigan); M.S. (George Washington University); Ph.D. (State University of New York).

Dean A. Elledge Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=elledge); associate professor; B.S. (Missouri Southern State College); D.D.S. (University of Missouri-Kansas City); M.S. (University of Minnesota).

Sally Elledge Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=elledge); clinical assistant professor;

C. Weldon Elrod Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=elrod); clinical professor; D.M.D. (Medical College of Georgia); Certificate, Prosthodontics (Walter Reed Army Medical Center).

Panagiotis (Notis) Emmanouilidis Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Emmanouilidis); DDS (Hellenic Republic Aristotle University of Thessaloniki); Certificate in Prosthodontics New York University College of Dentistry.

Harvey C. Eplee Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=eplee); associate professor emeritus; B.S. (Kansas State University); D.D.S. (University of Missouri-Kansas City); M.P.A. (University of Kansas); M.J. (Loyola University).

E. Grant Eshelman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=eshelman); clinical associate professor emeritus; A.B. (Franklin-Marshall College); M.S. (University Missouri-Kansas City); D.D.S. (Columbia University).

Philip H. Feil Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=feil); professor emeritus; B.A. (Sir George Williams University); M.S. (State University of New York); Ed.D. (Indiana University).

Brett L. Ferguson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ferguson); clinical associate professor; B.S.(Lane College); D.D.S., Certificate, Oral and Maxillofacial Surgery (University of Missouri-Kansas City).
David J. Ferguson; associate professor emeritus; D.D.S., Certificate Prosthodontics (University of Missouri-Kansas City).

Hayley Ferris; Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ferris) clinical assistant professor; B.S.D.H. (University of Missouri-Kansas City).

Gerald L. Foley Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=foley); clinical assistant professor; D.D.S. (University of Missouri-Kansas City).

Kenneth Frick Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Frick); clinical assistant professor; BS (University of California, Davis); DDS (University of Missouri-Kansas City); Certificate General Practice Residency (USAF GPR Barksdale AFB); MS (Marquette University Graduate School); Certificate in Endodontics (Marquette University School of Dentistry).

Lynn Roosa Friesen Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=friesen); clinical assistant professor; B.S. (Kansas State University); D.D.S., Certificate, Periodontics and M.S. (University of Missouri-Kansas City).

Sharon A. Furby Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=furby); clinical associate professor; RPh, D.D.S. (University of Texas-Houston).

Tanya Gibson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Gibson); clinical assistant professor; BA (Capital University); DDS (Meharry Medical College School of Dentistry); Certificate in Oral and Maxillofacial Pathology (Long Island Jewish Medical Center).

Ronald E. Gier; professor emeritus; B.S. (Kansas State University); D.M.D. (Washington University); M.S.D. (Indiana University).

John A. Gilbert; associate professor emeritus; D.M.D. (University of Oregon); (Washington University); M.L.A. (Baker University).

Alan G. Glaros 1 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=glaros); professor emeritus; A.B. (Stanford University); Ph.D. (State University of New York).

Jeffrey P. Gorski 2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=gorski); professor; B.Sc-Chemistry; Ph.D. - Biochemistry (University of Wisconsin-Madison); postdoctoral fellowship in molecular immunology (Scripps Clinic and Research Foundation.)

Eric Gottman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=gottman); clinical associate professor; D.D.S. (University of Missouri-Kansas City); Certificate, Prosthodontics (University of Missouri-Kansas City).

Carrie Hanson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hanson) clinical associate professor; B.S.D.H., M.A., (Northern Arizona University).

Patrick K. Hardman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hardman); professor emeritus; B.S. (Fort Hays State University); D.D.S., M.S., Certificate, Oral Diagnosis/Oral Medicine (University of Missouri-Kansas City).

Terrance B. Harris; associate professor emeritus; B.S. (University of Kansas); D.D.S., M.S., Certificate, Oral Diagnosis/Oral Medicine (University of Missouri-Kansas City).

John I. Haynes Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=haynes); professor emeritus; B.S., D.D.S., M.A. (University of Missouri-Kansas City).

James K. Hocott; associate professor emeritus; B.S. (Kansas State University); D.D.S. (University of Missouri-Kansas City).

Tamara Jan Hoffman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hoffman); clinical instructor; B.S.D.D. (University of Missouri-Kansas City).

Lyndal G. Holmes Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=holmes) associate professor emeritus; B.S. (Drury College); D.D.S., M.S., Certificate, Periodontics (University of Missouri-Kansas City).

Lori Holt Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=holt); associate professor; B.S., M.S. (University of Missouri-Kansas City).

Gregory C. Houston Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Houston); clinical assistant professor; B.S. (University of Missouri); D.D.S. (University of Missouri-Kansas City).

Shirley H. Hung Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hung); associate professor emeritus; D.D.S. (National Taiwan University); M.S. (University of Missouri-Kansas City); D.D.S. (University of Southern California-Los Angeles).

Laura R. Iwasaki 2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=iwasaki); Leo Rogers Chair and professor; B.Sc., (University of Alberta, Edmonton, Alberta); Certificate - Orthodontics, M.S., Ph.D. (University of Manitoba, Winnipeg, Manitoba).
Gregory Johnson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=iwasaki); clinical associate professor; B.S. (Fort Hays State University); D.D.S. (University of Missouri-Kansas City); M.A. (Antioch University).

Mark Johnson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=johnson); professor; B.S. (University of Minnesota-Minneapolis); Ph.D. Biochemistry (University of Minnesota Mayo Graduate School of Medicine-Rochester).

Jay J. Jones Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jones); clinical associate professor; B.S., D.D.S. (University of Missouri-Kansas City).

Jerald O. Katz Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jones); associate professor; B.S. (Albright University); D.M.D. (University of Pittsburgh); M.S. (University of Texas).

Nancy Keselyak Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=keselyak); associate professor; B.S. (University of Maryland); M.A. (Simon Fraser University).

Beheshteh Khodakhast Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=khodakhast); clinical assistant professor; B.D.S. (Vokkaligara Sangha Dental School, Bangalore, India); certificate prosthodontics, M.S. (Medical College of Georgia, August, GA).

John W. Killip Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=killip); clinical professor emeritus; B.S. (Northern Arizona University); D.D.S. (University of Missouri-Kansas City).

William J. Killip professor emeritus; D.D.S. (Creighton University); M.S. (University of Texas-Houston).

Marvin Kramer clinical associate professor; D.D.S. (Creighton University).

James C. Kulild Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=kulild); professor emeritus; D.D.S. (University of Missouri-Kansas City); M.S. (George Washington University).

Vandana Kumar Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=lee); associate professor; B.S.D. (Rotak, India), M.S. Conservative Dentistry (Punjab Government Dental College, India), M.S. oral and Maxillofacial Radiology (University of North Carolina-Chapel Hill).

Jodie Wing Lee Contact Information (http://client-snap.dev6.leepfrog.com/UMKC/external.html?link=http://www.umkc.edu/lookup/search.cfm?LastName=lee); clinical assistant professor; B.S. (University of CA-Los Angeles); D.M.D. (Howard School of Dental Medicine, Washington, DC); Certificate, general Practice Residency (Lutheran Medical Center, Brooklyn, NY).

Ying F. Liu Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=liu); clinical assistant professor; Bachelor's (Henan Normal University); Master's (Henan Normal University); MS (University of Rhode Island); PhD (Kansas State University).

Alison Louie Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=louie); clinical assistant professor; B.S., (University of California-Los Angeles), D.D.S., (University of Pacific School of Dentistry-San Francisco)

James W. Lowe; professor emeritus; A.B. (William Jewell College); D.D.S., M.S. (University of Missouri-Kansas City).

Simon R. MacNeill Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=macneill); professor; B.D.S. (King's College, London); D.D.S. (University of Missouri-Kansas City); Certificates, General Dentistry, General Practice, Periodontics (Louisiana State University).

William E. Mayberry; professor emeritus; A.B. (Washington University); M.S. (Southern Illinois University); Ph.D. (University of Illinois).

Behjat K.H. Moghadam Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=moghadam); professor; D.D.S. (Tehran University); D.S.D., Certificate, Advanced Graduate Study in Oral Medicine (Boston University); D.D.S. (University of Missouri-Kansas City).

David L. Moore; professor emeritus; B.S. (Oklahoma State University); D.D.S., M.A., M.S. (University of Missouri-Kansas City).
Dorsey J. Moore; HGB Robinson professor emeritus; D.D.S. (University of Missouri-Kansas City).

Jack Nelson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Nelson); clinical assistant professor; BA (Ottawa University); MPA (University of Missouri-Kansas City); DDS (University of Missouri-Kansas City); Geriatric Oral Health Fellowship Certificate (University of Missouri-Kansas City).

Gerald Ogilvie Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=Ogilvie); clinical assistant professor; BA (University of Kansas); DDS (University of Missouri-Kansas City).

Pamela R. Overman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=overman); associate dean for academic affairs and professor; B.S.D.H., M.S. (University of Missouri-Kansas City); Ed. D. (University of Kansas).

Jeffrey C. Nickel Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=nickel); professor; D.M.D., M.S., Certificate - Orthodontics, Ph.D. (University of Manitoba, Winnipeg, Manitoba).

Tressa Parkinson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=parkinson); clinical associate professor; D.D.S. (University of Missouri-Kansas City); GPR (VA Leavenworth, KS).

James L. Parrott Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=parrott); clinical associate professor; B.S. (Devry Institute & Central Missouri State); D.D.S. (University of Missouri-Kansas City).

Douglas A. Pearson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pearson); clinical assistant professor; B.A. (University of KS); D.D.S. (University of Missouri-Kansas City); Certificate, General Practice Residency (Veteran’s Administration, Kansas City, MO).

Cynthia S. Petrie Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=petrie); associate professor; D.D.S. (Athens, Greece); D.D.S., M.S., Certificate, Prosthodontics (University of Missouri-Kansas City).

David J. Pippin Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pippin); associate professor emeritus; B.S., D.D.S., M.S., Certificate, Periodontics (University of Missouri-Kansas City).

Richard G. Prine Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=prine); clinical assistant professor; B.S., D.D.S. (University of Missouri-Kansas City).

John H. Purk Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=purk); professor; B.A. (University of Missouri-St. Louis); D.D.S., M.S., Ph.D. (University of Missouri-Kansas City).

Marsha A. Pyle Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pyle) dean and professor; D.D.S., (Case Western Reserve University); Certificate General Practice Residency, (Veterans Administration Medical Center, Cleveland, OH); M.Ed., (Cleveland State University).

John W. Rapley Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=rapley); professor; B.A. (University of Missouri-Columbia); D.D.S. (University of Missouri-Kansas City); M.S. (University of Texas-Houston); Certificate, Periodontics (Wilford Hall Air Force Medical Center).

G. Juliana Redford Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=redford); clinical assistant professor; D.D.S. (Universidad Santo Tomas De Aquino); Certificate, Pediatric Dentistry (Bogota, Columbia)

Ingrid Reed Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=reed); clinical assistant professor; D.D.S., certificate orthodontics, M.S. (SUNY-Buffalo).

Michael J. Reed Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=reed); professor and dean emeritus; B.Sc. Hons. (University of Durham); B.D.S. (University of Newcastle-upon-Tyne); Ph.D. (State University of New York at Buffalo).

Richard L. Reiff Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=reiff); associate professor emeritus; B.A. (William Jewell College); D.D.S., M.S. (University of Missouri-Kansas City).

Christopher D. Rice Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=rice); associate professor; B.S., D.D.S. (Creighton University); M.A. (University of Missouri-Kansas City).

Ronald Riley Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=riley); clinical associate professor; B.A. (Wichita State); D.D.S. (University of Missouri-Kansas City).

Mabel Salas-Martinez Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=salas) clinical assistant professor, D.D.S. (San Marcos University, Lima, Peru) certificate periodontology, M.S. (Ohio State University, Columbus, OH).

Keerthana Satheesh Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=satheesh); assistant professor; B.D.S. (Sharavathi Dental School, Kuvemp University, Shimoga, India); D.D.S. (University of Missouri-Kansas City), M.S. (University of Minnesota).
Catherine Saylor-Boles Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=saylor); assistant professor; B.S.D.H., M.S. (University of Missouri - Kansas City).

Sasha Schubert Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=schubert); clinical assistant professor; B.A. (University of South FL-Tampa); D.M.D. (Boston University; M.D. (Saba University, Sabha, Netherlands, Antilles); Certificates, Oral and Maxillofacial Surgery and Family Medicine (University of Missouri-Kansas City).

Rudane E. Shultz Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=shultz); professor emeritus; B.S., D.D.S. (University of Pittsburgh); Certificate, Oral and Maxillofacial Surgery (Walter Reed Army Medical Center).

Becky Smith Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=smith); clinical associate professor; B.A., D.D.S. (University of Missouri - Kansas City).

Anton P. Soldan-Els, Jr.; associate professor emeritus; B.S., D.D.S. (University of Missouri-Kansas City).

#Paulette Spencer Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=spencer); curators' professor emerita; D.D.S., Ph.D. (University of Missouri-Kansas City); M.S. (Rensselaer Polytechnic Institute).

Austin E. Stiles, Jr.; associate professor emeritus; B.A. (Gettysburg College); D.D.S. (Temple University).

John A. Stone, Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=stone) clinical assistant professor; D.D.S. (University of Missouri-Kansas City).

Timothy S. Taylor Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=stone); associate professor emeritus; B.A. (University of Missouri-Columbia); D.D.S. (University of Missouri-Kansas City).

David J. Thein Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=thein); clinical assistant professor; B.A. (Southern Methodist University); D.D.S. (University of Missouri-Kansas City); Certificate, General Practice (Hennepin County Medical Center); M.S.D. (Baylor University).

Frank C. Theisen; associate professor emeritus; D.D.S. (The Ohio State University); Certificate, Oral and Maxillofacial Surgery (Walter Reed Army Medical Center).

John W. Thurmond Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=thurmond); associate professor; D.D.S. (Creighton University); M.S. (University of Texas-Houston).

Daniel E. Tira; professor emeritus; B.S. (Benedictine University); Ph.D. (The Ohio State University).

Maxine N. Tishk; professor emerita; A.S. (State University of New York-Farmingdale); B.S.(Boston University); M.S.D.H.E. (University of Michigan).

James Trotter Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=trotter); clinical assistant professor; D.D.S. (University of Missouri – Kansas City).

Yesim Tunkuc Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=tunkuc); clinical assistant professor, B.D.S. (Istanbul University, Istanbul, Turkey); certificate prosthodontics, M.S. clinical research (New York University College of Dentistry, NYC, NY).

Yasuyoshi Ueki Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ueki); assistant professor; M.D., Molecular Biology and Human Molecular Genetics, Ph.D. (Okayama University Medical School, Japan)

Christopher J. Van Ness Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=van%20ness); research assistant professor; B.S. (Missouri Western State University), M.A., certificate clinical research (University of Missouri-Kansas City), Ph.D. General Psychology (Capella University, Minneapolis, MN).

Marsha Voelker Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=voelker); associate professor; B.S.D.H., M.S. (University of North Carolina-Chapel Hill).

Thomas A. Vopat Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vopat); clinical associate professor; B.S. (Fort Hays State University); D.D.S. (Creighton University).

Mary P. Walker Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=walker); associate dean for research and graduate programs and professor; M.S., (North Dakota State); D.D.S. (University of Nebraska); Ph.D. (University of Missouri-Kansas City).

Charles Walthall; professor emeritus; D.D.S. (University of Missouri-Kansas City).

Yong Wang Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wang); professor; M.S. Polymer Materials Science (University of Science and Technology Chengdu, China); Ph.D. Polymer Science (Sichuan University, China).
W. Kirk Weber Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=weber); clinical assistant professor; D.D.S. (University of Missouri-Kansas City).

Linda M. Wells Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wells); associate dean for clinical programs and clinical associate professor, B.A. biology, D.M.D. (Temple University School of Dentistry, Philadelphia, PA); certificate general practice residency (Cleveland Metro-Health Center, OH); M.B.A. management (Yale University School of Management, New Haven, CT).

Connie L. White Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=white); associate professor; B.A., D.D.S., Certificate, Oral Diagnosis/Oral Medicine (University of Missouri-Kansas City).

J. Craig Whitt Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=whitt); professor; D.D.S. (Virginia Commonwealth University); M.S. (Bowie State University); MBA-Finance (Webster University); Certificate, Oral Pathology (National Naval Dental Center).

Brian J. Williams Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=williams); clinical assistant professor; B.S. (Loyola Marymount University); D.D.S. (University of Missouri-Kansas City).

Derek R. Williams Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=williams); clinical associate professor; B.S. (Rockhurst College); D.D.S. (University of Missouri-Kansas City); M.S. (University of Iowa).

Terry C. Williams Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=williams); clinical assistant professor; D.D.S. (University of Missouri-Kansas City).

Robert M. Wilson Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wilson); clinical associate professor; B.S. (Kansas State University), D.D.S. (University of Missouri – Kansas City).

Gerald D. Woolsey Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=woolsey); professor emeritus; B.S. (University of Texas); D.D.S. (Baylor College of Dentistry); M.S. (University of Michigan); Certificate, Fixed Prosthodontics (Broke Army Medical Center).

Joy Wylie-Matthews Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=matthews); clinical associate professor; B.A. (Kansas State University); D.D.S. (University of Missouri-Kansas City).

Leslie Young, Jr.; associate professor emeritus; D.D.S. (University of Iowa); M.S. (University of Missouri-Kansas City).

1 Associate or Adjunct Graduate Faculty
2 Members of UMKC Graduate Faculty
3 Members of UMKC Doctoral Faculty
4 Located at UM-St. Louis campus

Undergraduate

Undergraduate Degrees:
• Division of Dental Hygiene
  • Dental Hygiene Clinical Entry Level program
  • Dental Hygiene Degree Completion Program

Graduate

Graduate Degrees:
• Master of Science in Oral and Craniofacial Sciences
• Master of Science in Dental Hygiene Education
• Oral and Craniofacial Sciences Interdisciplinary Ph.D.
• Advanced Education Programs
  • Advanced Education in General Dentistry
  • Endodontics
  • Oral and Maxillofacial Surgery
  • Orthodontics and Dentofacial Orthopedics
  • Periodontics
Professional

Professional Programs:
• Doctor of Dental Surgery Program

General Information and History

General Information
All statements in this section are announcements of present policies, requirements (admission and academic progress), curricula, fees and services. They are subject to change at any time without prior notice. They are not to be regarded as offers to contract.

History
The UMKC School of Dentistry traces its roots to 1881, when the Kansas City Dental College was founded as a department of the Kansas City Medical College. In 1919 the Kansas City Dental College merged with Western Dental College to form the Kansas City Western Dental College. It became the School of Dentistry of the University of Kansas City in 1941. In 1963 the school became the School of Dentistry at UMKC.

Continuous and distinguished service for more than 100 years has established the School of Dentistry as an important institution throughout the nation.

Over the years, the school’s educational standards and opportunities have increased as the school has consistently demonstrated its ability to educate well-qualified dentists and dental hygienists to contribute to the improvement of oral health. As an affirmation of this, the D.D.S., the graduate certificate programs: advanced education in general dentistry, periodontics, oral and maxillofacial surgery, endodontics, and orthodontics and dentofacial orthopedics, and the B.S. in dental hygiene are fully accredited by the Commission on Dental Accreditation of the American Dental Association.

The school is situated on the Hospital Hill campus, where Truman Medical Center, Children’s Mercy Hospital and the UMKC schools of medicine, nursing, and pharmacy are also located.

Vision and Mission Statements

Vision Statement
UMKC School of Dentistry will be a model oral healthcare education institution that maintains the highest ethical and scientific standards of care, serving patients and the profession in an evolving healthcare environment.

Mission Statement
UMKC School of Dentistry serves as a leader in the advancement of oral healthcare through exceptional educational programs, scientific inquiry, patient care and service to society.

Core Values

Excellence
We will achieve excellence by:
• Developing professionals through rigorous academic education and practical training.
• Performing teaching and research that incorporates best-practice techniques, setting goals that are achievable and measurable, as well as by seeking feedback from our students, colleagues and community.
• Adhering to high standards of evidence-based dentistry and clinical judgment through collaboration and leadership.

Compassion
We will practice compassion by:
• Taking a genuine interest in the needs of those we serve in order to help them live healthy and productive lives through the services we deliver.
• Interacting with others as servant leaders.
• Promoting an environment of shared strength through humility and gratitude for our shared talents.

Integrity
We will act with integrity by:
• Demonstrating that ethical behavior is a lifelong habit of honest and sincere action that benefits the profession and society.
• Fulfilling our social contract to perform our work and serve our communities with the veracity and honor that undergird our profession.
• Committing ourselves to the highest moral and ethical standards that will hold us accountable to our own actions and those of our institution, our colleagues, our students, and our community.

Justice

We will act justly by:

• Being sensitive to the complexities inherent in the diversity of our community.
• Striving to allocate the School’s limited resources in a manner that best meets the needs of our students, patients, faculty, and staff.
• Doing what is right through our exercise of collegiality, respect, and fairness in all our interactions.

Research Programs

Research plays a prominent role in the School of Dentistry. The Interdisciplinary Ph.D. program, M.S. degree programs (Oral Biology and Dental Hygiene Education) as well as the advanced dental programs all have strong research components. The intent of these programs is to expose the student to basic and translational research, and clinical application. Research and the scientific method are formal parts of the educational program of all dental school students, contributing to their education, as well as serving to advance science and dentistry. There is significant external grant funding supporting the research efforts. Many of the researchers who have obtained these grants serve as mentors for dental students participating in the Summer Scholars Program. In this selective program, a limited number of students participate in a nine-week research experience in the mentor’s area of research interest and present their project results at a national meeting.

Facilities

Clinic

Occupies 16,000 square feet; 281 fully equipped dental operatories; approximately 68,000 patient visits per year; and home to a new state-of-the-art innovation center for use by dental and dental hygiene students. Each patient treatment cubicle is equipped with electronic treatment record computer terminals. The computer-based student/patient clinical record management system is central to the efficient operation of the dental clinic.

Classrooms

Three large lecture halls and thirteen smaller classrooms/seminar rooms. Lecture halls are equipped with networked computers and modern projection systems.

Laboratories

Two dental preclinical simulation facilities with fully equipped working stations; an anatomical model laboratory.

Library

Located on the third floor of the School of Dentistry, the Dental Library supports the curricular, scholarly and research activities of the students, faculty and staff of the School of Dentistry. There are seating areas to accommodate varying study habits and forty-eight computer stations available for creative work. Twenty-eight computers are arranged in a computer lab available for hands-on training. Housed within the library, physical collections include over four hundred journal titles and over seventeen thousand monographs.

Resources extend beyond the library walls through electronic resources offering nearly three hundred online databases, over two hundred online journal titles specific to Dentistry and thousands of journals in related Health Sciences, Chemistry, and Engineering that pertain to dental research and practice. The Dental Library is one of four libraries on the UMKC campus. All UMKC students have full access to all UMKC libraries, as well the opportunity to establish user accounts to the Linda Hall Library, the world’s foremost independent research library devoted to science, engineering and technology, located adjacent to the Volker campus.

Hospital Affiliations

Teaching relationships exist with many area community health centers as well as area hospitals, including Children’s Mercy Hospital, Saint Luke’s Hospital, Truman Medical Center Hospital Hill, Richard Cabot Medical Clinic, Samuel Rodgers Community Health Center, and Swope Parkway Health Center.

Miscellaneous

The school also supports a full-service Biomedical Communication Department that contributes significantly to its educational and administrative missions. The Health Sciences Bookstore supplies all textbook, and some supply needs of the student body; it is housed on the Hospital Hill Campus.
Academic/Student Support Services

Academic Support Services

The School of Dentistry conducts a comprehensive academic support program which includes sessions to refine learning test taking skills and to provide assistance in coursework, as needed. An interceptive system of continuous academic monitoring is in effect. Students who may be experiencing academic difficulty during a term are identified and advised. This results in an individualized plan of action to overcome any deficiencies. In addition, personal counseling assistance is available to all students who state or demonstrate a need.

Office of Student Programs

The Dental School’s Office of Student Programs is concerned with three primary areas of focus and responsibility:

- Admissions/recruitment
- Student records
- Student support services

The majority of student services are provided by this office. In other cases, the student is referred to the appropriate University student affairs offices if necessary. Student Support Services provide financial aid (initial assistance and referral), counseling services (initial assistance and referral), a housing file and referral, and other services.

Financial Aid

Financial assistance is available from a number of sources, primarily those programs supported by federal legislation (such as the Federal Direct Loan programs and Health Professions Student Loan). Information on most financial aid programs available to School of Dentistry students may be found in the School of Dentistry section of the Financial Aid Charts at http://www.umkc.edu/finaid/. Additional information may be gathered from

The student should apply for aid as soon as possible after acceptance into the particular program of study.

Academic Standards

Professional education in the health sciences manifests characteristics that are distinct from other advanced educational programs. Academic standards of the School of Dentistry are established to ensure that the public, whose health will be entrusted to graduates of the School’s programs, will receive care of professionally acceptable quality and that the care will be provided in an ethical and professional manner. The School’s academic requirements are described in the following two sets of standards, one for scholarly achievement and one for professional conduct.

Standards of Scholarship

1. Pre-doctoral dental and pre-baccalaureate dental hygiene students must maintain at least a 2.5 GPA each semester in dental school. Failure to attain a 2.5 GPA in any semester will result in the students being placed on probation for the next semester. All students who are placed on probation must review their academic progress with the chair of the Academic Standards Committee. A second consecutive semester with a GPA below 2.5 will result in dismissal from the School. A total of three semesters with GPAs below 2.5 will result in dismissal from the School. For a semester to count toward removing students from probation, they must be enrolled full-time (at least 5 hours in summer or 12 hours in fall or
Standards of Professional Conduct

1. Dental and dental hygiene students must achieve and consistently demonstrate acceptable levels of personal hygiene and dress.

2. Dental and dental hygiene students must achieve and consistently demonstrate concern for patients, peers, and others. Dental and dental hygiene health care providers have a duty to ensure:
   a. That patients are treated according to their desires and must be included in treatment decisions.
   b. Patient confidentiality in the entire range of the provider-patient relationship which includes dental records.
   c. That no harm or potential harm is done to the patient either through intent, ignorance, lack of preparation for the patient encounter, lack of skill, personal impairment of any kind.
   d. That no patient is “abandoned” which is defined as discontinuance of care without just cause and without giving the patient adequate notice and the opportunity to obtain the services of another provider.
   e. That the patient’s welfare (i.e. the provision of competent and timely delivery of dental care within the bounds of clinical circumstances as presented by the patient such as needs, desires and values) is paramount and takes precedence above all else. This also includes the obligation to: 1) identify and report perioral signs of abuse and neglect and to consult with faculty to report suspected cases to proper authorities as required by law; and, 2) report instances of faulty treatment whether intentional or not, to the appropriate faculty member.
   f. That all people including patients, staff, faculty and all other individuals are treated fairly, respectfully, and without prejudice.
   g. All standards and requirements of patient care established by the School of Dentistry are followed.

3. Dental and dental hygiene students’ behavior must exemplify the highest moral and ethical standards. The following represent conduct that is incompatible with these standards:
   a. Any behavior that tends to gain an unfair advantage for any student in an academic matter. This includes, but is not necessarily limited to, the following guidelines:
      • No student shall during an examination have, use, or solicit any unauthorized information or material (written or oral), copy from another student’s paper or discuss the examination with any other person.
      • No student shall during an examination knowingly give any unauthorized aid to another student.
      • No student shall acquire by any means knowledge of the contents of an examination yet to be given.
      • No student shall fraudulently claim for credit any classroom, clinical, laboratory, or other procedure or assignment performed by an unauthorized person, including未经授权的学生。[/Unauthorized student.]
   b. Anyone who has reasonable cause to believe that a student has acted unethically is obligated to bring the matter to the attention of the assistant dean for student programs or his/her designee who will follow the process identified in the Preliminary Procedures section of the UMKC School of Dentistry Honor Council Due Process Procedures for Violations of the Standards of Professional Conduct, to determine whether there has been a violation and whether charges should be brought.

4. Serious deficiencies in conduct as listed in the School of Dentistry Standards of Professional Conduct, or as outlined in Section 200.010, Standards of Conduct, of the University of Missouri Collected Rules and Regulations, by a dental or dental hygiene student shall be reported to the assistant dean for student programs or his/her representative, who will initiate the process as listed under “Preliminary Procedures”.

2. Failure of any course (receiving a grade of F or No Credit) will necessitate additional work to remove or replace the F or No Credit. The course may be repeated at another dental school or dental hygiene program, with the approval of the associate dean for academic affairs, or during the next offering of the course at this school. Students will receive whatever grade they earn in the repeated courses and both grades will appear on their transcript and be included in the grade-point average. Students who fail only one course in a given semester may petition the course instructor for a remediation program if their failure was the result of performance slightly below acceptable standard (e.g., 60 percent where 65 percent is required for passing, or poor performance on one section of the course with acceptable performance in other sections). Any remediation program can take whatever form the course instructor deems appropriate. Possible examples:
   • Independent study for a number of weeks followed by an examination.
   • Remedial summer laboratory work followed by a laboratory examination.
   • A series of written exercises followed by an examination.

If students successfully complete a remediation program, their grades of F or No Credit will be changed to grades of D or Credit. A second failure or No Credit in the remediated course will result in dismissal from the program.

3. Any student who fails a course will be required to meet with the Academic Affair dean to prepare an altered curriculum plan that includes the completion of this course for the Committee’s approval. An approved altered curriculum plan may result in an extension of the academic program because the student has demonstrated difficulty in dealing with the standard curriculum and may need additional coursework, review and/or supplemental instruction to successfully complete the curriculum.

Standards of Professional Conduct

1. Dental and dental hygiene students must achieve and consistently demonstrate acceptable levels of personal hygiene and dress.

2. Dental and dental hygiene students must achieve and consistently demonstrate concern for patients, peers, and others. Dental and dental hygiene health care providers have a duty to ensure:
   a. That patients are treated according to their desires and must be included in treatment decisions.
   b. Patient confidentiality in the entire range of the provider-patient relationship which includes dental records.
   c. That no harm or potential harm is done to the patient either through intent, ignorance, lack of preparation for the patient encounter, lack of skill, personal impairment of any kind.
   d. That no patient is “abandoned” which is defined as discontinuance of care without just cause and without giving the patient adequate notice and the opportunity to obtain the services of another provider.
   e. That the patient’s welfare (i.e. the provision of competent and timely delivery of dental care within the bounds of clinical circumstances as presented by the patient such as needs, desires and values) is paramount and takes precedence above all else. This also includes the obligation to: 1) identify and report perioral signs of abuse and neglect and to consult with faculty to report suspected cases to proper authorities as required by law; and, 2) report instances of faulty treatment whether intentional or not, to the appropriate faculty member.
   f. That all people including patients, staff, faculty and all other individuals are treated fairly, respectfully, and without prejudice.
   g. All standards and requirements of patient care established by the School of Dentistry are followed.

3. Dental and dental hygiene students’ behavior must exemplify the highest moral and ethical standards. The following represent conduct that is incompatible with these standards:
   a. Any behavior that tends to gain an unfair advantage for any student in an academic matter. This includes, but is not necessarily limited to, the following guidelines:
      • No student shall during an examination have, use, or solicit any unauthorized information or material (written or oral), copy from another student’s paper or discuss the examination with any other person.
      • No student shall during an examination knowingly give any unauthorized aid to another student.
      • No student shall acquire by any means knowledge of the contents of an examination yet to be given.
      • No student shall fraudulently claim for credit any classroom, clinical, laboratory, or other procedure or assignment performed by an unauthorized person, including a fellow student.
   b. Anyone who has reasonable cause to believe that a student has acted unethically is obligated to bring the matter to the attention of the assistant dean for student programs or his/her designee who will follow the process identified in the Preliminary Procedures section of the UMKC School of Dentistry Honor Council Due Process Procedures for Violations of the Standards of Professional Conduct, to determine whether there has been a violation and whether charges should be brought.

4. Serious deficiencies in conduct as listed in the School of Dentistry Standards of Professional Conduct, or as outlined in Section 200.010, Standards of Conduct, of the University of Missouri Collected Rules and Regulations, by a dental or dental hygiene student shall be reported to the assistant dean for student programs or his/her representative, who will initiate the process as listed under “Preliminary Procedures”.

spring semesters). Two semesters separated by a summer session in which the student is enrolled in less than five credit hours will be considered consecutive semesters.
Grading System

The grading and grade-point system used by all academic programs in the School of Dentistry is defined by the University. It is outlined in the General Graduate Academic Regulations and Information section of this catalog. The School of Dentistry faculty do not use the + and - grading option; grades rendered are A, B, C, etc.

Incomplete Grades

An instructor may give an incomplete grade (I) to a student who, because of illness or other valid reasons beyond the student’s control, has been unable to complete the work in a course. A student who receives an incomplete, and who subsequently does not elect to withdraw from the course, must complete the required work by a date specified by the instructor. Failure to complete required work by this date is cause for the incomplete to be changed to an F (failure without credit). This is exclusive of those courses that are considered directed individual studies, internships, special topics, practicums, and research and thesis courses.

An incomplete is appropriate when enough work in the course has been completed that the student can finish the remaining work without re-enrolling in the course in question or attending additional classes. Otherwise students should initiate withdrawal (but only with permission).

Students may not re-enroll in a course for which an incomplete remains on their records.

Degrees Offered

The School of Dentistry offers a four-year professional program leading to the doctor of dental surgery (D.D.S.) degree, and the bachelor of science degree in dental hygiene (B.S.). The School offers graduate programs leading to a master of science degree in oral and craniofacial sciences or in dental hygiene education (M.S.) (http://dentistry.umkc.edu/Future_Students/DHMasterScience.shtml), and graduate certificates in recognized dental clinical specialties. In addition, the school participates in UMKC’s Interdisciplinary Ph.D. program (p. 399) through the discipline of oral and craniofacial sciences. Please refer to the School of Graduate Studies section of the catalog for information on admission criteria and degree requirements for the IPh.D program.

Outreach Programs

In keeping with its goal of developing in its students a sense of professional and societal responsibilities, and an awareness of community needs and problems, the school offers numerous outreach opportunities to students in all of its programs. Individuals associated with more than 30 community-based organizations, agencies or projects oral health care by UMKC students and faculty.

Representative of these are the University Academy, Kansas City Free Health Clinic, Give Kids a Smile (dental care for children in the Kansas City metro area), Mission of Mercy (MO and KS programs to provide dental care for children and adults), Students Take Action (student organization dedicated to compassion and comradeship through community service), Miles of Smiles (program that enables UMKC’s dental hygiene students to deliver comprehensive preventive oral health services to low income children in the Olathe School District) and Miles of Elder Smiles (involves dental and dental hygiene students).

Advanced Education Programs

Chair, Advanced Education Committee:
Mary P. Walker, D.D.S., Ph.D.

Associate Dean for Research and Graduate Programs

The School of Dentistry offers advanced education curricula leading to graduate certificates in each of five clinical dental specialty areas (endodontics, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, and periodontics), certificates in general dentistry, and master of science degrees in either oral and craniofacial sciences or dental hygiene education. The School participates in the Interdisciplinary Ph.D. program through the Department of Oral and Craniofacial Sciences. Oral and Craniofacial Sciences’s research focus areas are: Biomaterials/Bioengineering of Biological Tissues & Replacements, Mineralized Tissue Biology and Translational and Clinical Research.

Application Information & Deadlines

Application Information

All applicants to the advanced education certificate programs (advanced education in general dentistry, endodontics, oral and maxillofacial surgery, orthodontics and dentofacial orthopedics, and periodontics) require the Postdoctoral Application Support Services (PASS) application available at www.adea.org (http://www.adea.org). All sections of the PASS application should be completed fully. Official dental school transcripts should be submitted directly to PASS. National dental board scores should be reported in the PASS “institutional evaluation” form. Since the NBDE scores are reported on the “Institutional Evaluation” official scores do not need to be sent to UMKC.
Applicants applying to the Orthodontic, and Periodontics programs are required to take the GRE. Scores should be self-reported on the PASS application. Official GRE scores should be submitted directly to UMKC (GRE code is 6872.) Be aware that approximately three weeks are required by the service to process PASS applications and deliver them to the designated programs. The length of this processing period should be considered by the candidate in order to meet relevant application deadlines. An applicant copy of the PASS application should not be sent to UMKC.

All applicants are required to submit the Institutional Evaluation AND Personal Potential Index (PPI) as part of their completed PASS application. A minimum of three professional evaluators (dental faculty) are required to submit evaluations for the PPI. Additional letters of recommendation should not be sent to UMKC.

Additional information, as identified below, must be submitted directly to the UMKC School of Dentistry, Office of Student Programs, 650 East 25th Street, Kansas City, MO 64108.

- Official transcripts from degree granting undergraduate and graduate institution(s). Additionally, if a large number of pre-dental prerequisites were taken outside the degree granting institution those transcripts should be submitted too. (Applicants do not need to submit dental school transcripts since they are provided to us through PASS).
- A copy of permanent resident card (if applicable).
- A copy of dental license (if applicable).
- A UMKC application and application fee are required of all applicants. Upon receipt of your PASS materials you will be emailed a link to the general UMKC application.

International applicants should additionally submit the following:

- International applicants must have a U.S. or Canadian D.D.S. or D.M.D. from an accredited CDA or CDAC program to be considered for advanced education programs, except the programs in Oral Biology.
- TOEFL scores (minimum of 550 on the paper test, or 80 on the internet based test) or a demonstrated proficiency in the English language (if English is not the primary language of the applicant).
- Financial statement (guarantee of full financial support or of sufficient financial resources for the entire cost of the program, including living expenses).

Additional resumes, CVs, personal photos, or information not received as part of the PASS application will be destroyed upon receipt.

The graduate certificate programs in oral and maxillofacial surgery AND orthodontics and dentofacial orthopedics participate in the National Matching Services (MATCH) process. Candidates to these programs must also register for this service within the ADEA PASS applicant portal (www.adea.org). There are two phases of the MATCH process, each with its deadline date for receipt of Rank Order List forms from applicants. The Phase I deadline (typically toward the end of November each year) is for applicants to the orthodontics and dentofacial orthopedics program. The Phase II deadline (typically in the middle of January annually) is for those applying for admission to the oral and maxillofacial surgery program.

General admissions questions concerning advanced education programs should be directed to the Office of Student Programs at (816) 235-6322. However, specific questions regarding any advanced education program should be directed to the pertinent program director. Graduate program directors along with their telephone numbers are identified in a subsequent section.

**Application Deadline**

Application deadline dates for graduate dental certificate programs are as follows:

<table>
<thead>
<tr>
<th>Program</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Advanced Education in General Dentistry</td>
<td>October 1</td>
</tr>
<tr>
<td>Endodontics</td>
<td>August 1</td>
</tr>
<tr>
<td>Oral and Maxillofacial Surgery</td>
<td>October 1</td>
</tr>
<tr>
<td>Orthodontics</td>
<td>September 1</td>
</tr>
<tr>
<td>Periodontics</td>
<td>August 15</td>
</tr>
</tbody>
</table>

The deadline date for receipt of applications at the school is one year before the anticipated enrollment in program.

**Financial Assistance**

Please be advised that the information provided here is of a general nature only.

Newly admitted advanced dental education students (such as AEGD, Endodontics, Oral & Maxillofacial Surgery, Orthodontics, and Periodontics) will receive information regarding financial aid. Students who are interested in obtaining financial aid are advised to contact the Hospital Hill Financial Aid Office for more details and guidance.

Hospital Hill Financial Aid Office - Location Address: 1418 Health Sciences Building on UMKC Hospital Hill Campus.
Office Hours: 8:00am-5:00pm Monday-Thursday
(816) 235-6783
There are three types of financial aid for advanced education students:

1. Federal Stafford Unsubsidized Loans
2. Federal Graduate PLUS Loans
3. Private Student Loans

Separate financial aid applications are required for the summer term and for the fall/spring terms. Students apply for loans via the FAFSA website www.fafsa.gov. It is advised that students consult the Hospital Hill Financial Aid Office for the priority application deadline and guidance in the application process.

Enrollment Fees

Below are outlined the various enrollment fees per term for all advanced education programs at the School of Dentistry except those for the M.S. in oral biology, the Interdisciplinary Ph.D. and the M.S. in dental hygiene education programs (see subsequent part of this catalog section). These fees assume enrollment in three or more credit hours for the summer session, and six or more credit hours for each of the fall and spring semesters. Most programs require fewer credit hours than those per term.

Note: Indicated fees are correct at time of printing. However, fees are subject to change without notice.

### Summer Term

<table>

Academic Standards/Procedures: Advanced Education/Graduate Students

The following academic standards and the procedures to be used in dealing with cases of academic difficulty apply to students in all advanced education/graduate programs of the School of Dentistry.

Standards of Scholarship

1. Graduate students, regardless of classification, must maintain a 3.0 (B) GPA for all coursework taken for graduate credit at UMKC.
2. Graduate students must maintain a 3.0 (B) GPA in their graduate dental certificate specialty coursework.
3. Grades in graduate dental certificate specialty area coursework must be B or better. Any graduate dental certificate specialty area course that is graded below B must be repeated.

Probation

1. Whenever the overall GPA for UMKC courses taken for graduate credit by a graduate student of any classification falls below 3.0 (B), the student’s status for the next term becomes "On probation - See principal graduate advisor." The principal graduate advisor will review the student’s progress and provide counsel, and the following conditions apply:
   a. A graduate student on probation who is not restored to good academic standing by the end of two successive semesters will be declared ineligible to re-enroll.
   b. While on probation, a graduate student must achieve a 3.0 term GPA to enroll for the ensuing term.
   c. A graduate student on probation will not be restored to good standing until a cumulative graduate-credit GPA of at least 3.0 is achieved.
2. Whenever the overall GPA for courses taken in the student’s graduate dental certificate specialty area falls below 3.0, the student will be placed on probation and the following conditions apply:

   1. Applies only to students enrolled in graduate dental certificate programs.
a. A graduate student on probation who is not restored to good academic standing by the end of two successive semesters will be declared ineligible to re-enroll.
b. While on probation, a graduate student must achieve a 3.0 graduate dental certificate specialty area GPA to enroll for the ensuing term.
c. A graduate student on probation will not be restored to good standing until a graduate dental certificate specialty area GPA of at least 3.0 is achieved.

1 Applies only to students enrolled in graduate dental certificate programs.

Dismissal

1. A graduate student who is on probation and fails to attain an overall GPA of at least 3.0 by the end of two successive semesters will be dismissed from the program.
2. A graduate student who is on probation and fails to attain a 3.0 term GPA for the succeeding term will be dismissed.
3. A graduate student who is on probation and fails to attain a graduate dental certificate specialty area GPA of at least 3.0 by the end of two successive semesters will be dismissed from the program.  
4. A graduate student who is on probation and fails to attain a 3.0 graduate dental certificate specialty area GPA for the succeeding term will be dismissed.
5. A graduate student who receives more than four hours of 2.0 (C) grades or below for courses included in the student’s graduate program of studies will be dismissed.

1 Applies only to students enrolled in graduate dental certificate programs.

Appeal

Any student who is dismissed from the program has the right to appeal that decision. Appeals must be made in writing to the associate dean for academic affairs within one week from the time the student receives a notice of dismissal. The associate dean for academic affairs in conjunction with the chair of the Advanced Education Committee shall select a hearing panel of five members of the Advanced Education Committee to hear the student’s appeal. At least one member of the hearing panel will be a student. The program director of the program in which the appealing student is enrolled shall be ineligible to sit on the panel. The hearing panel will be chaired by the associate dean for academic affairs. A meeting of the hearing panel will be scheduled within two weeks of the receipt of the student’s appeal. During the time the appeal process is being conducted the student shall be allowed to continue in the program.

The hearing panel shall be provided with written statements from the student and the program director as well as all relevant records and documents. The program director or designated substitute and the appealing student must attend the hearing to provide additional information and answer questions from the hearing panel. Other individuals who have information relevant to the situation may be invited to present their information and answer questions for the panel. The student may have an advisor present to advise the student, but this advisor shall be limited to providing advice to the student.

After reviewing the information and conducting the hearing, the hearing panel shall make its recommendation regarding disposition of the case to the dean. All five appointed members of the hearing panel shall have a vote. In case of a tie, the associate dean for academic affairs shall cast the deciding vote. The dean of the School of Dentistry will make the final decision and communicate that decision to the student and the program director.

Students in Cooperative Programs

Students enrolled in programs (e.g., Pediatric Dentistry, Oral and Maxillofacial Surgery) operated jointly by the School of Dentistry and other institutions, such as Children’s Mercy Hospital and Truman Medical Center, must remain in good standing with both organizations cooperating in the program. A student who is dismissed by either of the cooperating institutions is ineligible to continue in the program.

Graduate

Graduate Certificate Programs

- Dental Graduate Certificate Programs
  - Graduate Certificate: Advanced Education in General Dentistry
  - Graduate Certificate: Endodontics
  - Graduate Certificate: Oral and Maxillofacial Surgery
  - Graduate Certificate: Orthodontics and Dentofacial Orthopedics
  - Graduate Certificate: Periodontics

Dental Graduate Certificate Programs

A graduate certificate program is offered in each of the following areas:
• Advanced Education in General Dentistry (p. 368)
• Endodontics (p. 373)
• Oral and Maxillofacial Surgery (p. 377)
• Orthodontics and Dentofacial Orthopedics (p. 380)
• Periodontics (p. 382)

General Nature of Programs

Each certificate program curriculum is designed to prepare the student for specialty practice and to help the student meet the educational training requirements for examination by the appropriate American dental specialty board. All programs begin with the summer term (the first week of July) except for graduate dental hygiene education, which begins with the fall semester. Programs vary in length from 12 to 72 months.

Admission to a graduate dental certificate program is competitive. Primary focus is on the applicant’s academic record while in dental school, including national board scores. Emphasis is also placed on information gathered from PASS application materials and professional evaluations (such as quality of professional practice experience, continuing education experience, research activities, leadership and involvement and participation in professional societies and community service). Another fundamental source of information is supplied by a personal on-site interview that is required of most programs and is by invitation.

Applicants to a graduate dental certificate program must hold a D.D.S. degree or equivalent from a program accredited either by the Commission on Dental Accreditation (CDA) or the Canadian Dental Accrediting Commission (CDAC).

Admission

The Advanced Education Committee (AEC) serves as the admission review board for each of the graduate dental certificate programs. Each program has its own admission review board. At a minimum, the admission review board consists of the respective program director and at least two other full-time faculty members.

Each program’s admission review board submits its recommendations for acceptance to the AEC for consideration. Recommendations for acceptance include those identified as prime candidates (equal in number to the number of available residencies in the program) and those who serve as “alternates.” Acceptance or denial of each recommended candidate is made by the AEC.

Graduate Certificate in Advanced Education in General Dentistry

Program Description:

Director:
John W. Thurmond, D.D.S., M.S., Diplomate, American Board of General Dentistry

Faculty:

The advanced education in general dentistry residency program is a 12-month Council on Dental Accreditation (CODA) accredited program that begins in July of each year for eight residents. The program is designed to refine and advance knowledge, skills and clinical competency and proficiency in the practice of comprehensive general dentistry. The program bridges the gap between dental school and dental practice. Clinical instruction is offered in all of the clinical disciplines. The didactic component provides postgraduate training in the basic and behavioral sciences, as well as the clinical sciences and practice management. Upon completion of this program a certificate in “Advanced General Dentistry” will be awarded.

An optional second year residency is available for two of our current residents. The emphases during this year of the program are in advanced restorative and implant dentistry.

Eligibility

An applicant for this program must be a citizen of the United States or a foreign national having a visa permitting permanent residence in the United States. Applicants must also submit evidence of graduation from a school of dentistry accredited by the Commission on Dental Accreditation or the Canadian Dental Accrediting Commission, or verification from the dean of an accredited dental school that the applicant will graduate during the current academic year.

Tuition and Fees

Estimated school tuition can be obtained at the Advanced Education Enrollment Fees section of this catalog. If selected for the program there is a $500 nonrefundable acceptance fee which must be paid within two weeks of the time of acceptance of the position. There is also a partial tuition waiver. More information will be provided to the applicant once he/she is accepted into the program.

Financial Assistance
Up-to-date additional information on financial assistance can be obtained at http://www.sfa.umkc.edu/

Stipend
Residents will receive an annual stipend of $49,000.

Applications
Application to this program is through the Postdoctoral Application Support Services (PASS). Use the link http://dentistry.umkc.edu/Future_Students/AdvancedEd.shtml for greater detail on both. The deadline for receipt of application at the school is Oct. 1 of the year prior to planned enrollment.

Interview
Competitive applicants will be invited to Kansas City for an interview with the program director and other selected faculty and staff. If invited, the interview is a required part of the application process and funding is the responsibility of the applicant.

Point of Contact
To request further information, please contact either the Office of Student Programs at (816) 235-2080 or dds@umkc.edu; or the program director, Dr. John W. Thurmond at (816) 235-2164 or thurmondj@umkc.edu.

Student Learning Outcomes
Residents on completion of the AEGD program will have the knowledge and experience to provide comprehensive multidisciplinary oral health care at a level of skill and competency beyond that achieved in their pre-doctoral training. It is expected that they will be able to provide this care to a broad and diverse patient population which includes the medically compromised and those with special needs.

The objectives of the didactic and clinical experiences is to broaden and strengthen the scope and level of residents competencies and proficiencies in the practice of dentistry.

Patients are treated in a comprehensive manner with clinical emphasis on:

• Diagnosis and treatment planning of complex and multidisciplinary cares.
• Management of oral facial pain including the TMJ patient.
• The importance of occlusion in all aspects of dentistry.
• Contemporary endodontics and periodontics.
• Oral surgery including surgical principles and techniques for dental implants.
• Current esthetic dentistry techniques.
• Advanced restorative/prosthodontic treatment including dental implants.

Educational formats used are: formal courses, lectures, seminars, literature reviews, assigned readings, hands-on courses, case presentation, attendance at continuing education, guest speakers, treatment planning conferences, clinical demonstrations and chairside clinical teaching.

Graduation Requirements
Requirements for a Certificate in Advanced Education in General Dentistry (AEGD)
Successful completion includes:

1. Maintaining a 3.0 GPA for all assigned didactic and clinical course work
2. Maintenance of all required clinical documentation
3. Maintenance of a program portfolio as designed by the program director
4. Progressively increase resident’s scope of practice and increase clinical competencies beyond that of a graduate of a four year D.D.S. (D.M.D.) program
5. Provide dental care to a diverse population in an ethical, competent, compassionate and professional manner
6. Achieve established program “goals and objectives” established by the Council of Dental Accreditation (CODA) of the American Dental Association
7. Coordinate and participate in community service projects
8. Comply with all policies established by UMKC, School of Dentistry and AEGD program director

Graduate Certificate in Endodontics
Program Description:
Director:

Faculty:

Program Overview
The endodontic postgraduate program is designed to prepare a dentist for a career in clinical endodontics, research and teaching. The overall goal is to educate dentists to become competent clinical endodontists who will serve the public and the profession at a high level of excellence. It stresses the importance of knowledge and skills in the diagnosis, prevention, and treatment of diseases associated with the dental pulp and related periapical tissues. Didactic and clinical training is also conducted in other related areas within the scope of practice of the field of endodontics as established by the Endodontic Standards of the Commission on Dental Accreditation. The correlation of basic sciences and clinical sciences is an integral part of the program. A research project is required and comprehensive oral examinations must be successfully completed. The program is also designed to prepare the graduate endodontist to challenge the requirements for certification as a Diplomate by the American Board of Endodontics. Individuals who successfully complete this advanced education program will be awarded a Certificate in Endodontics. Concurrent enrollment in the Department of Oral and Craniofacial Sciences is available to those wishing to earn a Master of Science Degree in Oral and Craniofacial Sciences. An additional time commitment of three to six months would be required.

Accreditation
The program in endodontics is accredited by the Commission on Dental Accreditation and has been granted the accreditation status of “approval without reporting requirements”. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago, IL 60611.

Eligibility
An applicant for this program must be a citizen of the United States or permanent resident in the United States. Applicants must also submit evidence of graduation from a school of dentistry accredited by the American Dental Association or the Canadian Dental Association. International students must submit additional credentials through the International Student Affairs Office http://www.umkc.edu/isao/. Admission to the masters program requires successful completion of the GRE prior to admittance.

Program Duration
Beginning July 1st, the certificate program runs 24 months over six continuous semesters. Enrollment in the optional master’s program would require an additional three to six months to complete.

Number of Residents
There are generally two first-year and two second-year residents.

General Applicant Information
Application to this program is through the ADEA Postdoctoral Application Support Services (PASS). The deadline for receipt of application at the school is August 1st of the year prior to planned enrollment. Detailed application information is available at http://dentistry.umkc.edu/Future_Students/AdvancedEd.shtml

Graduate Medical Education (GME) Stipends
Currently, residents are eligible for GME stipends of approximately $21,000 per year. This is a federal, not School of Dentistry, program and is subject to current federal guidelines.

Program Stipend
Endodontic residents will receive an annual stipend of $20,000.

Tuition and Fees
Estimated school tuition costs can be found in the Fees section of this catalog. If selected for the program, there is a $2,000 nonrefundable acceptance fee which must be paid within two days of the time of acceptance of the position. More information will be provided to the applicant once he/she is accepted into the program. There is also a partial tuition waiver.

Instruments and Equipment
Residents will be required to lease their dental instruments through the school and purchase some other instruments and equipment. The school employs a centralized sterilization program for the lease instruments. Additionally, each resident is required to purchase an endodontic operating microscope head with beam splitter and attachment to accommodate a minimum 4 mega pixel digital camera which must also be purchased. A list of
other required instruments and textbooks will be provided when an applicant is selected to attend the program. Estimated cost for purchases for the 24-month program are approximately $20,000. All of these purchases go with the resident when he/she graduates from the program. Estimated lease expenses are approximately $8,800 for the 24-month program, $2,200 per each fall and spring semesters. Currently, there are no charges for leased instruments for the summer semesters.

Postgraduate Endodontic Clinic

The postgraduate endodontic clinic is a true state-of-the-art facility made possible by the generous donations of Mrs. Virginia Stowers, Dr. Ben Johnson, and other benefactors. All rooms are equipped with resident-purchased dental operating microscopes. Each room has its own x-ray head, 50” video monitor, Adec track light system, and ASI dental unit carts complete with air-driven high and low speed fiber optic handpieces, two electric handpieces, two ultrasonics, dual micro irrigators, micro air syringes, and curing light. The program is linked into the all-electronic paperless patient record management system which also integrates the digital x-ray sensors available in each operatory. Please go to the clinic web page at for a 360 degree photo tour. Also please see http://dentistry.umkc.edu/Patient_Information/stowers.shtml for more information about faculty, residents and staff.

Study Areas

Residents have excellent dedicated office space with high-speed computer and printer support connected to a high-speed LAN. The program also has a dedicated seminar room for literature reviews, case presentation, lectures, etc.

Financial Assistance

Up-to-date additional information on financial assistance can be found in the School of Dentistry portion of the Financial Aid Charts at http://www.sfa.umkc.edu

Interview

Selected applicants will be invited to Kansas City for an interview with the program director and other selected faculty and staff. If invited, the interview is a required part of the application process, and travel expenses are the responsibility of the applicant. Preference is given to those applicants who have both general practice experience and completion of an AEGD or GPR program.

Point of Contact

To request further information, please contact either the Office of Student Programs at (816) 235-2080 or dds@umkc.edu or the program director, Dr. Kenneth J. Frick, at (816) 235-2479 or frickk@umkc.edu

Student Learning Outcomes

The following listing of skills required by the Standards for Advanced Specialty Education Programs in Endodontics are assessed through seminars, examinations, one-on-one discussions, papers, presentations, laboratory exercises, mock board exercises, and clinical care on patients.

The graduate will demonstrate applied knowledge and clinical skills in the following areas:

1. Anatomy of soft and hard tissues of the head and neck with particular emphasis on the teeth and their supporting structures.
2. Embryology, histology and physiology of the pulpal/periradicular complex.
3. Microbial ecology of the oral flora and the microbiologic aspects of caries, and pulpal and periradicular diseases.
4. Infectious and immunologic processes in oral health and disease.
5. Pathophysiology as it relates to diseases of the pulpal/periradicular complex and orofacial pain.
6. Mechanisms of inflammation and wound healing with emphasis on the pulpal/periradicular/periodontal complex.
7. Oral medicine and pathology as they relate to the differential diagnosis and management of clinical conditions that may require endodontic treatment.
8. Pharmacotherapeutic agents used in the management of systemic diseases that may influence the management of patients requiring endodontic treatment.
10. Principles of biostatistics, research design, research methodology, scientific writing, and critical evaluation of the literature.
11. Biomatual science as it relates to endodontics.
12. Collect, organize, analyze and interpret data from the medical and dental histories and clinical evaluation to determine their relationship to the patient’s endodontic treatment.
13. Perform tests and clinical examinations and interpret the significance of the data in the differential diagnosis of clinical conditions arising from injury to the pathosis of pulp and periradicular tissues.
14. Expose, process and interpret radiographs and/or take and interpret digital images.
15. Establish differential interpretations of lesions and normal anatomic structures through radiographs or digital images.
16. Formulate a diagnosis, prognosis, and treatment plan for conditions that require endodontic treatment in support of the total oral health of the patient, requesting information/consultation from other healthcare professionals as needed.
17. Provide appropriate emergency treatment to relieve pain and resolve infections of endodontic origin.
18. Recognize and manage, or prevent, endodontic pain and associated anxiety using physical, chemical and psychological modalities.
20. Retreat endodontically-treated teeth using both non-surgical and surgical techniques.
21. Evaluate the results of endodontic treatment and determine whether additional evaluation/treatment is required.
22. Provide space for intraradicular restorations and cores in endodontically treated teeth.
23. Communicate to patients the nature of their endodontic conditions and the value of treatment to their overall oral health.
24. Communicate with other health care professionals, interpreting their assessments and integrating this information into the treatment of the patient.
25. Provide vital pulp therapy.
27. Evaluate, diagnose and manage traumatic injuries to teeth and their supporting structures.
28. Provide endodontic treatment for the medically compromised patient.
30. Diagnose and treat periodontal disease and defects in conjunction with the treatment of the specific tooth undergoing endodontic therapy; treatment should be provided in consultation with the individuals who will assume the responsibility for the completion or supervision of any additional periodontal maintenance or treatment.
31. Place intraradicular restorations and cores in endodontically treated teeth; when the patient is referred, this treatment is accomplished in consultation with the restorative dentist.
32. Perform non-surgical and surgical endodontic procedures using microscopy.
33. Perform intracoronal bleaching procedures.
34. The history of endodontics, teaching methodology, ethics.
35. Exposure to osseointegrated implants treatment planning and techniques for placement of implants, and orthodontic extrusion procedures.

Graduation Requirements

1. Satisfactory completion of all clinical and basic science core courses as outlined for the endodontic curriculum.
2. Satisfactory completion of all endodontic courses and seminars.
3. Achievement of clinical competency in endodontics.
4. Grades of at least “B” in all basic and clinical sciences and endodontic courses. Courses that are audited will require 100% attendance and residents will be tested on course content during the annual endodontic oral and written examinations. Failure by any resident to meet the 100% attendance requirement for any audited courses will result in written and/or oral examinations in those courses at the discretion of the Program Director. Residents are entitled to due process in accordance with guidelines contained in the Student Handbook on Academic and Other Policies.
5. The goal for each resident is to complete at least 200 clinical endodontic cases. These cases will include, but not be limited to, the following: nonsurgical, surgical, retreatment, vital pulp treatment, apexification, trauma, medically compromised, endo-perio, restoration of endodontically treated teeth, and bleaching. The cases treated should include as many as varied types of cases, in order to give the broadest exposure and experience necessary to graduate as the best qualified endodontist. A list of all cases will be maintained by the resident. The completed cases will be reviewed on a monthly and quarterly basis by the Program Director. An annual report of all cases is due July 1.
6. Preparation of a Capstone Portfolio. This portfolio of endodontic cases will showcase the resident’s best work. It will be presented in the ABE Portfolio format, with ten cases selected according to the guidelines published by the ABE. Each case will include a self assessment, completed by the resident, of CODA standards demonstrated within the case. A copy will be retrained in the Graduate Endodontic Seminar Room for future reference.

7. Documented research. A suitable project approved by the Research Advisors and the Program Director, conduct of the research, collection of data, analysis of results, and preparation of a manuscript suitable for submission to a refereed journal must be completed before the conclusion of the program. If, for whatever reason, a waiver is granted by the Program Director for an extension of the submission deadline date, the resident may forfeit the right of first-authorship. A request to submit the research findings at the oral research presentations at the Annual Session of the AAE is required.

8. Attendance at all scheduled classes, seminars, clinics, and meetings is mandatory. Attendance is also required for all consultant lecturers established by the Program Director or the person he has delegated this responsibility. This may involve an occasional evening or weekend event. Absences will not be acceptable and will be reflected in a lowering of course grades on the semester evaluation report, and could result in additional assignments such as written literature review reports.

Graduate Certificate in Oral and Maxillofacial Surgery

This six-year program, which begins in July, is open to applicants who have a doctoral degree in dentistry from an ADA-accredited dental school, and who are interested in completing both a medical degree and certificate of residency training in oral and maxillofacial surgery.

The program divides the training between the oral and maxillofacial surgery residency program and the curriculum of the School of Medicine. This program provides in-depth coverage of orthognathic surgery, reconstructive surgery, implant surgery, temporomandibular joint surgery, trauma, dentoalveolar surgery and anesthesia, as well as all required basic science and clinical medicine courses for the doctor of medicine degree. A thesis is not required; however, publication in peer-reviewed journals is a requirement of the training program.

An interdisciplinary Ph.D. program is offered through the School of Graduate Studies as an elective for qualified and interested program residents. This will require additional years of study and clinical experience, and will also require a thesis. Separate application to this program will be made after beginning the residency.

Openings are limited to two individuals each year, and new residents must be prepared to begin their training on July 1. Applicants accepted into this program must have the necessary training to obtain a permanent dental license in the state of Missouri prior to the start of their training. Residents are required to enroll in both the UMKC School of Dentistry and UMKC School of Medicine, depending on course and residency requirements being fulfilled in a given term. Appropriate fees from both schools are applicable.

To be considered for admission to the UMKC School of Medicine, one must be a United States citizen or be a permanent resident of the United States; if the applicant holds a permanent resident visa, a copy should be included in your application materials.

Interested applicants must apply through the Postdoctoral Application Support Services (PASS); this program also participates in the National Matching Services (MATCH). Use the link http://dentistry.umkc.edu/Future_Students/AdvancedEd.shtml for more details regarding additional information to be supplied by the applicant.

Deadline for receipt of application at the school is October 1 of the year prior to anticipated enrollment. A by-invitation interview is a required part of the application process.

Please note that score results of the MCAT examination are not a requirement of this program.
Questions about this program may be answered by contacting the program director's office at (816) 404-4356.

**Student Learning Outcomes**

Oral and Maxillofacial Surgery is the specialty of dentistry which includes the diagnosis, surgical and adjunctive treatment of diseases, injuries and defects involving both the functional and aesthetic aspects of the hard and soft tissues of the oral and maxillofacial regions. The following learning outcomes have been developed and adopted by the Commission on Dental Accreditation and the faculty in oral and maxillofacial surgery at the University of Missouri – Kansas City Schools of Dentistry and Medicine. The goals, skills, and knowledge every graduate must demonstrate to qualify for graduation are assessed through the classroom, the outpatient clinic, hospital/surgicenter operating rooms, mock Board exercises, seminars, presentations, and one-on-one discussions. Hospitals included are Children’s Mercy Hospital, St. Luke’s Hospital of Kansas City, Truman Medical Centers Hospital Hill and Lakewood.

The graduate in oral and maxillofacial surgery will demonstrate applied knowledge and clinical skills in the following areas:

2. Minimum duration of 72 months of full-time study with a minimum of 30 months devoted to clinical oral and maxillofacial surgery.
3. Six months of the senior year with responsibilities of Chief Resident.
4. Present patients in a pre- and post-operative format.
5. Maintenance of a surgical log.
6. Coursework and training as requirements for the medical degree at the University of Missouri – Kansas City School of Medicine, to include a general surgery residency preliminary year within the integrated MD/oral and maxillofacial surgery training program.
7. Minimum duration of four months of anesthesia to include mandated daily attendance, daily lectures, on-call participation, and an intended workload of approximately 250 general anesthesia cases.
8. Medical service will include a minimum of two months of clinical medical experience and will be at the medical student/resident intern level or higher and may include rotations on medical specialty services.
9. Surgical service will include a minimum of four months of general surgery experience and will be at the surgery student/resident with a commensurate level of responsibility (operate at a PGY-1 level or higher and is on the regular on-call schedule).
10. Two additional months of clinical surgical or medical education will be assigned.
11. Weekly departmental seminars and conferences to provide instruction in the broad scope of oral and maxillofacial surgery and related sciences and will include retrospective audits, clinical pathological conferences, tumor conferences, and guest lectures. The resident will prepare and present departmental conferences.
12. Instruction in the basic biomedical sciences will include anatomy (including growth and development), physiology, pharmacology, microbiology, and pathology. This instruction will be met through the completion of the requirements for the MD as well as the certificate in oral and maxillofacial surgery. Anatomy lectures will include surgical approaches to the maxillofacial region and graft donor sites.
13. A physical diagnosis program will be started upon entrance into the residency. This will include a structure, didactic, and clinical course in physical diagnosis and will be provided by faculty privileged to perform history/physical exams. Competency in physical diagnosis will be documented and will occur in the first year of the program.
14. Clinical oral and maxillofacial surgery will include a complete, progressively graduated sequence of outpatient, inpatient, and emergency room experiences. Exposure to major and minor surgical principles will be integrated throughout the duration of the program. Outpatient oral and maxillofacial surgery experiences will include the management of traumatic injuries and pathologic conditions, dentoalveolar surgery, the placement of implant devices, augmentations, and other hard and soft tissue surgery including mucogingival surgery.
15. Ambulatory general anesthesia and deep sedation will include both the general anesthesia rotation of four months and the outpatient surgery experience which includes general anesthesia/deep sedation on adult and pediatric patients. This includes competence in managing the airway. In addition, all residents will obtain training and experience in all aspects of parenteral and inhalation sedation techniques. Inpatient surgical experience will include admission and management of patients.
16. Major surgery will include surgery on adults and children to include trauma, pathology, orthognathic surgery, reconstructive, and aesthetic surgery. In the trauma category, surgical management of mandibular fractures, maxillary fractures, zygomaticomaxillary fractures, nasal fractures, naso frontal orbital ethmoidal fractures, and repair of facial, oral, soft tissue injuries, and injuries to specialized structures. Pathology will include treatment of sinus procedures, TMJ pathology, cystectomy of bone and soft tissue, sialolitotomy, sialoadenectomy, management of head/neck infections, fifth-nerve surgery, and surgical management of benign and malignant neoplasms. Orthognathic surgery will include correction of functional and aesthetic orofacial and craniofacial deformities of the mandible, maxilla, zygoma, and other facial bones. Reconstructive and aesthetic surgery will include bone grafting and soft tissue grafting and insertion of implants. This includes competence in harvesting of bone and soft tissue grafts. Reconstructive surgery will also include augmentation procedures, TMJ reconstruction, insertion of craniofacial implants, and management of continuity defects. Dental implant training will include didactic and clinical experience in the management of implant placement, diagnosis, treatment planning, site preparation, grafting procedures, implant placement, and management of complications. Aesthetic surgery will include rhinoplasty, scar revision, blepharoplasty, genioplasty, and lipectomy.
17. Medical school curriculum will include formal courses in biostatistics, human gross anatomy, human microscopic and developmental anatomy, human neuroanatomy, medical microbiology, general/clinical pathology, pharmacology, clinical pharmacology, behavioral science and medicine,
correlative medicine, docent rotation, psychiatry, obstetrics/gynecology, pediatrics, surgery, family medicine, emergency medicine, and continuing care clinic.

Program Overview
The Graduate Training Program in Oral and Maxillofacial Surgery at the University of Missouri-Kansas City offers two tracks: a 72-month (six-year) MD-integrated postdoctoral program and a 48-month (four-year) certificate program, both accredited by the Commission on Dental Accreditation of the American Dental Association.

Number of residents each year:
• Two (2) appointments for 6-year residency positions
• One (1) appointment for 4-year residency position

Number of one-year interns each year:
• Two (2) appointments for hospital-based positions
• Two (2) appointments for dental school-based positions

Curriculum & Objectives
1. **The Educational Program Objectives**:
   • To develop the skills of the resident through didactic preparation, clinical experience, and hospital training; to ultimately engender a state-of-the-art maxillofacial surgeon
   • To foster the attitude of continued scientific inquiry, intellectual aspirations, and pursuit of excellence for the remainder of the individual's career
   • To develop a profound sense of responsibility to the academic community, and to one's patients
   • To share one's education, training and experience through participation in scientific meetings and through publications

2. **Acquired competencies**:
   a. diagnosis and surgical management of:
      • soft and hard tissue diseases of the oral cavity, head and neck
      • precancerous lesions, benign and malignant neoplasms of the head and neck
      • cranio-maxillo-facial trauma and post-traumatic reconstruction
      • congenital and acquired cranio-maxillo-facial deformities with post-reconstructive rehabilitation
      • temporomandibular joint disorders
      • life-threatening emergencies
   b. intravenous sedation and intubated general anesthesia

3. **These broad objectives are realized by specialty courses**, daily contact with the teaching staff, interactions with patients, requirements for scientific publications, and research.

4. **The program’s objectives and academic plan** are reviewed on a continuing basis, and are modified as necessary to expand and enhance the learning experience. Faculty of both the University of Missouri-Kansas City School of Dentistry and Medicine participate in curriculum/program review.

Clinical Experience
The UMKC School of Dentistry, Truman Medical Center, Children's Mercy Hospital, Saint Lukes Hospital are the various sites employed for surgical clinical experience. Thirty-three (33) months are devoted to clinical oral and maxillofacial surgery. There is a comprehensive didactic curriculum consisting of weekly seminars, clinical pathologic conferences, morbidity reviews, case reviews, oral pathology seminars, trauma conferences, surgical-orthodontic conferences, journal club, medical decision making course and head and neck tumor board.

Didactic Activity
Literature review is mandatory; residents are required to regularly review textbooks, monthly issues of the Journal of Oral and Maxillofacial Surgery, and monitor all pertinent journals and articles to maintain a contemporary knowledge of maxillofacial surgery attendance at minimum of two scientific conferences annually is required preparation and submission for publication of at least two scientific manuscripts mandatory attendance at the annual Oral and Maxillofacial Surgery Test – a comprehensive 400 multiple choice question test, prepared by the American Board of Oral and Maxillofacial Surgery.

Resident Responsibilities, by Level of Training
The first-year resident spends the seven (7) months of his or her time on the oral and maxillofacial surgery service between the Truman Medical Center and the Children’s Mercy Hospital. Remaining five (five) months are dedicated to anesthesia service at the Truman Medical Center. The resident works closely with the senior residents, providing both inpatient and outpatient care. The resident has primary responsibility for examining, diagnosing, and
treating patients in the outpatient clinic. The resident also assumes responsibility for inpatients under the supervision of the chief resident, and assists
the chief resident and staff with operating room cases. First-year residents enrolled in the MD-integrated curriculum are required to pass the USMLE part
1 exam.

The second-year and third-year resident spends all of his or her time at the UMKC School of Medicine fulfilling the core rotation requirements, leading to
MD degree.

The fourth-year resident spends his or her time functioning as General Surgery PGY-1 intern, rotating through trauma surgery, ENT, Plastics,
Neurosurgery, Surgical Critical Care, and Maxillofacial Surgery.

The fifth-year resident functions as a Senior Resident and spends most of his or her time on the oral and maxillofacial surgery service assisting the Chief
Resident in the operating room. One (1) month is spent at the Children’s Mercy Hospital on the plastic and craniofacial surgery service and up to two
(two) months on the pediatric anesthesiology service.

The sixth-year resident spends his or her time functioning as a Chief OMS resident, assuming the responsibility for the overall function of the Oral and
Maxillofacial Service. The resident is expected to be the primary operating surgeon on all major cases. Up to two (2) months are spent in private practice
setting with fellowship-trained OMS part-time attendings.

Senior and Chief Residents alternate to cover the Implantology clinic at the UMKC School of Dentistry.

Graduate Certificate in Orthodontics and Dentofacial Orthopedics

Program Description:

Director:
Jeff Nickel, D.M.D., MSc, Ph.D.

Faculty:
Laura Iwasaki, D.D.S., MSc, Ph.D., Leo Rogers Chair; Don Thompson, D.D.S., M.S.D, Co-Clinic Director; James Osborne, D.D.S., Co-Clinic Director;
M.S.; Cameron Walker D.D.S., M.S., Ph.D.; Don Wilson, D.D.S.; Hiroshi Kurusaka, D.D.S., Ph.D.,

Program Overview

The advanced education program in orthodontics and dentofacial orthopedics has existed since 1946. UMKC Orthodontics Alumni are located in many
states and some foreign countries.

This is a full-time, 30 month program that begins in July. It is designed to prepare the student for community practice of orthodontics and dentofacial
orthopedics. Curriculum emphasis is placed on the edgewise technique and on interceptive and functional treatment. Management of craniofacial
anomalies is taught didactically and clinically in association with the craniofacial team at Children’s Mercy Hospital. Objective inquiry and statistical
validation are emphasized in all aspects of this program. Completion of an original research project and paper is required. The computerized clinic
facility is a working-research model that simulates the private practice environment. Courses, clinics, and dedicated research time are organized to
facilitate the completion of an M.S. or Ph.D. degree in oral and craniofacial sciences. A separate application is required for the M.S. or Ph.D. program.

Application and Acceptance

Applications are considered from the following groups:

• Fourth-year dental students from American Dental Association (ADA) or Canadian Dental Association (CDA) Accredited schools who are in the top 50
  percent of their graduating class.
• Graduates of ADA or CDA accredited dental schools who ranked in the top 50 percent of their graduating classes and have satisfactorily completed a
general practice residency or other dental specialty program prior to application.
• Graduates of a School of Dentistry who ranked in the top 50 percent of their class and has been in general practices.

Selection of candidates is a twofold process. First, candidates are stratified on the basis of academic and professional performance: national board
scores, GRE scores, class standing, other specialty program, practice experience, leadership roles in organized dental groups, dental school teaching,
research experience and recommendations are considered.

Secondly, applicants meeting screening criteria are invited for interviews. All interviews are conducted at the School of Dentistry on the same day and
all invited candidates must attend this session to be eligible for final selection into the class. If offered a position in a class, this offer, like all offers from
the University, is contingent upon a successful background screening. In order to begin the background screening, you must complete a Disclosure form
and return it to Human Resources within two business days. Three residents are accepted into this program annually.
Application for admission **MUST** be through the ADEA PASS program and completed on or before September 1st of the year prior to planned enrollment. For more information, check the website [http://dentistry.umkc.edu/patient_information/orthodontics.shtml](http://dentistry.umkc.edu/patient_information/orthodontics.shtml) or the Information Bulletin [http://dentistry.umkc.edu/asset/gradortho.pdf](http://dentistry.umkc.edu/asset/gradortho.pdf). Each will provide information on the Graduate orthodontic Program.

### Stipend

Orthodontic residents will receive a stipend of $20,000 per year during Program Year 1 and Year 2, and $10,000 for the last six months of the program.1

1Available to eligible program residents (i.e., those who have earned a D.D.S./D.M.D. degree from an American Dental Association or Canadian Dental Association accredited program).

### Tuition and Fees

Estimated tuition costs may be found in the fees section of this catalog. There are additional fees for books, laptop computer and required meeting attendance associated with this program.

### Instruments

Residents are required to pay an "instrument usage" fee to the school. All instruments are provided and are maintained by the Central Sterilization program of the school.

### Financial Assistance

Up-to-date information on additional financial assistance may be found in the school financial aids charts at [http://www.sfa.umkc.edu/](http://www.sfa.umkc.edu/).

### Student Learning Outcomes

Residents enrolled in the Orthodontics and Dentofacial Orthopedics Advanced Education Program must complete the following requirements:

1. Complete a 30 month program of clinical training, didactic course work, and undergraduate teaching.
2. Complete a hypothesis driven research project and produce one of the following: an MS thesis which meets the requirements of the UMKC School of Graduate Studies; or a manuscript for submission to a scientific journal accessible through PUBMED®.
3. Maintain a 3.0 GPA for 39 credit hours of core curriculum (see below).
4. Meet Student Learning Outcomes of the Orthodontics and Dentofacial Orthopedics section of the UMKC School of Dentistry.
5. Take the Phase II examination of the American Board of Orthodontics during the second year of residency.

### Program Requirements

The following learning outcomes have been developed and adopted by the faculty. These goals, skills and knowledge every graduate must demonstrate to qualify for graduation. The Department of Orthodontics and Dentofacial Orthopedics require these outcomes be assessed in the classroom, the laboratory, and through treatment of clinical cases over the 30-month program. Their competencies are assessed through examinations, presentations of papers, and clinical treatment comprehensive examinations.

1. Demonstrate a commitment to learning, professionalism, societal responsibility, and contributing to generalizable knowledge through research
2. Demonstrate a commitment to the addressing the concerns of patients and the delivery of quality care.
3. Demonstrate the level of proficiency expected of an orthodontic specialist in the areas of diagnosis, treatment planning, and analysis of treatment outcomes.

Graduate Certificate in Periodontics

Program Description:

**Director:**
Keerthana Satheesh, B.D.S., D.D.S, M.S., Diplomate, American Board of Periodontology

**Faculty:**

**Program Overview**
The periodontic postgraduate program is designed to prepare a dentist for a career in clinical periodontics, research and teaching. It enables the resident to acquire a depth of understanding in oral biology; to become acquainted with the problems in the biology and pathology of oral tissues, and to adequately treat these problems with the most current knowledge and techniques. Program students will be encouraged to use interdisciplinary approaches in the solution of research and clinical problems. The program is designed to provide for the profession and the community, competent bio-clinicians who will become key professionals in clinical practice, research, and teaching. Didactic and clinical training will also be conducted in other related areas within the scope of practice of the field of periodontics as established by the Periodontic Standards of the Council on Dental Accreditation. The correlation of basic sciences and clinical sciences is an integral part of the program. A research project is required and comprehensive examinations must be successfully completed. Original research leading to the Master of Science is possible. Admission into the M.S. program requires a separate application, and the student will apply for admission following successful enrollment into the periodontic program. Meeting all eligibility criteria of the M.S. program is necessary for acceptance into the periodontics program. The program is also designed to prepare the graduate periodontist to challenge the requirements for certification as a diplomate by the American Board of Periodontology. Individuals who successfully complete this advanced education program will be awarded a Certificate in Periodontics.

**Eligibility**
An applicant for this program must be a citizen of the United States or a foreign national having a visa permitting permanent residence in the United States. Applicants must also submit evidence of graduation from a school of dentistry accredited by the Commission on Dental Accreditation or the Canadian Dental Accrediting Commission, or verification from the dean of an accredited dental school that the applicant will graduate during the current academic year.

**Program Duration**
The 30-month program covers eight continuous semesters and begins on July 1.

**Number of Residents**
Two students are accepted into the program each year.

**General Applicant Information**
Application to this program is through the ADEA Postdoctoral Application Support Services (PASS). The deadline for receipt of application at the school is August 15th of the year prior to planned enrollment.

All applicants are required to submit the Institutional Evaluation AND Personal Potential Index (PPI) as part of their completed PASS application. A minimum of three professional evaluators (dental faculty) are required to submit evaluations for the PPI. Applicants must also submit GRE scores.
Scores should be self-reported on the PASS application; official GRE scores should be submitted directly to UMKC (GRE code is 6872.) Detailed application information is available at http://dentistry.umkc.edu/Future_Students/index.shtml

Selection is based on academic standing in dental school (grade-point average, class standing and National Board scores) and experience (years in practice, teaching or research, advanced training or degrees, publications, activity in organized dentistry and participation in continuing education).

**Stipend**

Periodontic residents will receive a stipend of $20,000 per year during Program Year 1 and Year 2, and $10,000 for the last six months of the program.

**Tuition and Fees**

Estimated school tuition can be obtained at the Advanced Education Enrollment Fees section of this catalog. If selected for the program there is a $500 nonrefundable acceptance fee which must be paid within two days of the time of acceptance of the position. More information will be provided to the applicant once he/she is accepted into the program.

**Instruments and Equipment**

Residents are required to lease their dental instruments through the Infection Control Instrument Management System of the School, and will also be required to purchase some additional equipment including a clinical camera.

**Financial Assistance**

Up-to-date additional information on financial assistance can be obtained at http://www.sfa.umkc.edu/.

**Interview**

Competitive applicants will be invited to Kansas City for an interview with the program director and other selected faculty and staff. If invited, the interview is a required part of the application process and funding is the responsibility of the applicant.

**Accreditation**

The program in periodontics is fully accredited by the Commission on Dental Accreditation. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-2500 or at 211 East Chicago Avenue, Chicago, IL 60611. Their website is: http://www.ada.org.

**Study Areas**

Residents have a dedicated office space with computer and printer support connected to a high-speed LAN. The program also has a dedicated seminar room for literature reviews, case presentation, lectures, etc.

**Point of Contact**

To request further information, contact the Office of Student Programs at (816) 235-2080 or dds@umkc.edu; or the program director, Dr. Keerthana Satheesh, at (816) 235-2075 or satheeshk@umkc.edu.

**Student Learning Outcomes**

The following learning outcomes have been developed and adopted by the faculty. These goals, skills, and knowledge must be demonstrated by every graduate to qualify for graduation. The Department of Periodontics assess these outcomes in the classroom, the laboratory, and through treatment of clinical cases over the length of the program, using examinations, presentation of papers, and review of clinical treatment.

The competencies expected of a graduate are:

- Have an understanding of the biology and pathology of the periodontium.
- Be soundly based in the interpretation of the dental literature in periodontics.
- Be clinically competent to conceptualize, rationalize and defend periodontal therapy in advanced cases. In addition, he/she should be aware of and have performed current therapeutically accepted periodontal modalities.
- Be innovative and logically reason using prior biological information.
- Be worthy of the title “Specialist”.
- Be able to communicate, motivate and educate patients and general dentists on their level.
- Believe in the necessity of continuing education and self-enrichment.
- Assume leadership in the advancement of periodontics in his/her community. He/she also should be active in the American Academy of Periodontology.
- Be able to demonstrate an organizational ability to collect and present data.
- Be able to interpret the collected data and subsequently to diagnose, prognosticate and develop a Comprehensive Treatment Plan.
• Be able to evaluate, critically, the results of therapy.
• Be able to demonstrate his/her ability to perform all the above activities in a professional manner.
• Design, conduct and present a research project. Each research project must be written in a format suitable for publication.

Program Requirements
Residents enrolled in the Periodontics Advanced Education Program must complete the following requirements:

1. Graduate students, regardless of classification, must maintain a 3.0 (B) grade point average for all course work taken for graduate credit at UMKC.
2. Graduate students must maintain a 3.0 (B) grade point average in their graduate level specialty course work.
3. Grades in specialty area course work must be B or better. Any specialty area course that is graded below B must be repeated.

Dental Hygiene Division

Dental School (http://www.umkc.edu/virtualtour/sod.asp), Room 415
(816) 235-2050

About the Undergraduate Dental Hygiene Program

Dental hygiene is a rapidly growing and increasingly dynamic allied health profession for qualified persons who wish to participate as active members of a health field. Service to mankind is the primary purpose of health professions. The dental hygienist with a baccalaureate degree accomplishes this objective through a variety of challenging and rewarding opportunities.

There is informal evidence that a nine-month dental hygiene program existed at UMKC (then the Kansas City Western Dental College) in 1922-23, as did a one-year program during the ’30s. However, concrete documentation indicates that the official program began in 1952.

The program in dental hygiene is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council on Post-Secondary Accreditation and the U.S. Department of Education.

The student at UMKC can earn a bachelor of science degree in dental hygiene in two ways. The first alternative offers an opportunity for the student who has completed two academic years of liberal arts pre-requisites at any accredited community/junior college, college or university to matriculate into the entry level clinical dental hygiene program. The second alternative provides for the licensed dental hygienist with a certificate or associate degree an opportunity to earn a baccalaureate degree (degree completion).

Undergraduate

The Division of Dental Hygiene at the UMKC School of Dentistry offers two routes to a Bachelor of Science degree in Dental Hygiene: The B.S. Clinical Entry-Level program and the B.S. Degree Completion program. The following competencies have been adopted by the faculty in the Division of Dental
Hygiene as the skills, knowledge and values every graduate must be able to consistently and independently demonstrate to qualify for graduation. The School of Dentistry, Division of Dental Hygiene assessment plan calls for theses competencies to be assessed throughout the classroom, laboratory and patient care experiences during the student’s tenure in the program in the form of papers, case study presentations, student portfolios, clinical competency examinations, community assessment and other appropriate assessment measures.

**Graduate/Professional**

**Director:**
Tanya V. Mitchell, R.D.H., M.S.

**About the Program**

The Master of Science Degree program in Dental Hygiene Education at the University of Missouri - Kansas City (UMKC) prepares students for careers in dental hygiene education. The 36 credit hour graduate program and core curriculum is offered through a combination of distance and onsite teaching and learning modalities. Out of state students who complete coursework on a part-time basis are eligible for in-state tuition. To be eligible for this, the student must enroll in no more than 6 credit hours in the fall and spring semesters and no more than 3 credit hours in the summer.

The curriculum provides academic experiences based on the career goals and interest of the graduate student. Although the curriculum is focused on preparing the student for a career in dental hygiene education, elective courses may be taken in research, gerontology, special patient care, health services administration, and community dental health, through a personalized approach – pursuing excellence together.

The graduate program has a thesis or non-thesis option. The completion of a thesis or non-thesis research project (manuscript ready for publication) is required as part of the graduate student’s academic program. The core curriculum is completed online with the exception of two (3 credit hour) courses - Research Methodology and Biostatistics/Statistics. These must be taken and transferred in from an accredited institution. However, these two courses are offered onsite at UMKC SOD. Full time students are required to attend a minimum of two academic years.

**Faculty**

Director, Division of Dental Hygiene:
Kimberly S. Bray, R.D.H., M.S.

**Bachelor of Science in Dental Hygiene**

Dental School (http://www.umkc.edu/virtualtour/sod.asp), Room 415
(816) 235-2050

**About the Undergraduate Dental Hygiene Program**

Dental hygiene is a rapidly growing and increasingly dynamic allied health profession for qualified persons who wish to participate as active members of a health field. Service to mankind is the primary purpose of health professions. The dental hygienist with a baccalaureate degree accomplishes this objective through a variety of challenging and rewarding opportunities.
There is informal evidence that a nine-month dental hygiene program existed at UMKC (then the Kansas City Western Dental College) in 1922-23, as did a one-year program during the "30s. However, concrete documentation indicates that the official program began in 1952.

The program in dental hygiene is accredited by the Commission on Dental Accreditation, a specialized accrediting body recognized by the Council on Post-Secondary Accreditation and the U.S. Department of Education.

The student at UMKC can earn a bachelor of science degree in dental hygiene in two ways. The first alternative offers an opportunity for the student who has completed two academic years of liberal arts pre-requisites at any accredited community/junior college, college or university to matriculate into the entry level clinical dental hygiene program. The second alternative provides for the licensed dental hygienist with a certificate or associate degree an opportunity to earn a baccalaureate degree (degree completion).

**Academic Standards**

Professional education in the health sciences manifests characteristics that are distinct from other advanced educational programs. Academic standards of the School of Dentistry are established to ensure that the public, whose health will be entrusted to graduates of the school's programs, will receive care of professionally acceptable quality and that the care will be provided in an ethical and professional manner. The School's Academic Requirements are described in the following two sets of standards, one for scholarly achievement and one for professional conduct, located in the Student Handbook.

**Attendance**

Regular attendance at all classes and clinical sessions is required during the professional program. The student is responsible for familiarization with all classroom and clinical requirements and assignments.

**Scholastic Honesty**

The Division of Dental Hygiene assumes all students are enrolled to learn. Any cheating is contradictory to the purposes of students and this institution. Any dishonesty detected in a course (including during examinations or in submitting plagiarized material) may result in an F grade in the course, and may be cause for dismissal or suspension from the Division of Dental Hygiene.

**Repeated Courses**

A dental hygiene student who wishes to repeat a course must submit a course repeat form to the UMKC Registration Office no later than the end of the fourth week of the term if that repeat is to be included in GPA calculations. Students who are repeating a course must have prior approval of the director of the Division of Dental Hygiene.

**Advanced Placement**

The general examination offered by the College Level Examination Program (CLEP) will not be accepted for degree credit. However, credit received through specific or subject examinations will apply toward a bachelor of science degree in dental hygiene. Although hours of credit may be received in natural sciences, it is preferred that an applicant to the dental hygiene program complete the specific science prerequisites.

For more information regarding admission to either the clinical entry level or degree completion program in dental hygiene, contact the Division of Dental Hygiene.

**Admission Requirements**

Students must complete the required writing intensive courses within the dental hygiene curriculum with a grade of "C" or higher thereby meeting the WEPT requirement for BSDH candidates.

This clinical entry level program is for the individual who wants to go into the field of dental hygiene. The primary goals of the basic preparation bachelor of science degree program in dental hygiene are to prepare dental hygienists to perform competently in clinical practice and to perform competently in clinical practice and/or community oral health program planning, clinical teaching, special patient care, practice management and research.

**Admission to the Clinical Entry Level Program**

Admission is on a selective basis and requires more than simply meeting certain course or GPA requirements. Factors considered in the selection process are the candidates' academic credentials, letters of evaluation, a personal interview, motivation and all other information submitted by the candidates. Formal applications for admission to the dental hygiene program must be submitted no later than Feb. 1 of the year that the student desires admission. Classes formally begin each year at the end of August. Minimum requirements and credentials for application are all of the following:

1. Graduation from an accredited high school or its equivalent.
2. Satisfactory completion of approximately two academic years or 60 semester hours of college. (The 60 semester hours must satisfy the general education requirements, which are specified later in this section. All general education requirements must be completed prior to entrance into the dental hygiene program.)
3. Application to UMKC.
4. Supplemental application for admission to the Division of Dental Hygiene.
5. College transcripts of all college coursework.
6. A cumulative college GPA of at least 2.5.
7. A college science GPA of at least 2.5.
8. Three evaluation and reference forms.
9. Personal interview with at least two members of the Dental Hygiene Admissions Committee (interviews will be scheduled after February).
10. For international applicants, a satisfactory TOEFL score (at least 550 on the paper test or 213 on the computer-based version).

Notification of Admission

Applications for admission are reviewed by the School of Dentistry Dental Hygiene Student Admissions Committee. After a decision is reached on an application, notification of acceptance is made by mail. The applicant has 30 days from the date of the acceptance letter to make a required non-refundable $100 deposit. This deposit is applied to enrollment fees.

Several applicants are placed on an alternates list. In the event that a position becomes available, an applicant from this list is chosen to fill the vacancy. Alternates may be accepted through the first week of the program.

Admission to the Degree Completion Program

This program is designed for students who have completed an accredited dental hygiene program at another educational institution and desire to continue their education toward a baccalaureate degree.

Formal applications for admission to this program must be submitted by Feb. 1 for the class beginning in August of each year. The program may be completed on a full- or part-time basis. Basic requirements and credentials for admission are all of the following:

1. Graduation from an accredited dental hygiene program.
2. Results and successful completion of the National Board Examination for dental hygiene.
3. High school transcripts.
5. Satisfactory grade point average.
6. Application for admission to UMKC.
7. Supplemental application for admission to the Division of Dental Hygiene.
8. Three reference forms (including one from the director of the accredited dental hygiene program attended).
9. An interview with the admissions committee
10. An admissions narrative

Degree Completion Program Requirements

Student Learning Outcomes

The following competencies have been adopted by the faculty to assure our RDH to BSDH graduates are adequately prepared to succeed in the dynamic job market of their chosen area of expertise. The assessment plan provides direct and indirect measures of these competencies through exit interview, portfolio, California critical thinking skills test, Information Competency exam, and publication rate.

The competencies expected of a graduate are:

1. Students will demonstrate effective communication and interpersonal skills allowing them to communicate with diverse individuals and groups.
2. Students will demonstrate effective management of information technology.
3. Students will utilize critical thinking and problem-solving skills to facilitate decision-making.
4. Students will demonstrate the ability to locate, evaluate, organize and use research materials from a broad range of sources to support the use of scholarly inquiry in the dental hygiene process of care.
5. Students will assume responsibility for professional actions and care based on ethical and professional behavior, accepted scientific theories and accepted standards of care.
6. Students will demonstrate the ability to manage themselves and others and work as a team member.

All students enrolled in the degree completion program must complete the general education requirements of the Division of Dental Hygiene prior to completion of the baccalaureate degree. Refer to the general education requirements stated under the description of the basic preparation program for a listing of those courses. Courses that the student has not completed will be included in the individual program of study for that student.
An individual program of study will be developed for each student depending on the number of college hours completed previously. The following courses are available through the Division of Dental Hygiene:

### Core BSDHDC Curriculum

</tr>
</tbody>
</table>

The student must complete 30 credit hours in residence and have a minimum of 124 semester credit hours to earn a baccalaureate degree in dental hygiene. Electives may be taken in the School of Dentistry, College of Arts and Sciences, School of Education or Henry W. Bloch School of Business and Public Administration. The particular choice of study will be determined by each student in consultation with the director of the degree completion program.

“Candidates for all baccalaureate degrees must take the UMKC RooWriter writing assessment before they have completed 90 credit hours. Incoming transfer students with more than 90 credit hours must take the RooWriter by the end of their first semester of enrollment. Students may take the RooWriter at any time while enrolled at UMKC as a personal diagnostic, but it will only satisfy the undergraduate graduation requirement after a student has completed Discourse II (or equivalent).

Certain Colleges, Schools, Departments, Majors, Writing Intensive courses, etc. may also require the RooWriter to be taken multiple times, and some might further require a certain minimal level of achievement be attained for advancement. The RooWriter supports and is supported by the University-wide General Education requirements.

The RooWriter is offered any time online. Students should visit the RooWriter website for contact information, writing improvement resources, and other general information.”

### Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

### Expenses and Financial Assistance

#### Expenses (Basic Preparation)

Approximate expenses for the basic preparation dental hygiene program are listed below. These do not include room and board, expenses for personal items or educational fees.
Instrument rental and supplies (entire program) $4,075
Textbooks (entire program) $2,663
Uniforms, lab coats, etc. (entire program) $600
National, regional and state licensure fees $1,500
Professional association fee $90

Note: Fees are subject to change without notice. An advance deposit of $100 is required on admission to the program. This payment shall be credited to the student’s educational fee upon enrollment. The fee is non-refundable except by special order of the dean of the School of Dentistry and as approved by the director of admissions.

Financial Assistance

In addition to the University’s financial aid services, the UMKC Dental Hygienists’ Alumni Association (UMKC DHAA) has several scholarship funds and grants for dental hygiene students who are in need of financial assistance and who qualify academically. For more information, see Scholarships and Awards.

General Education Requirements

Program Prerequisites

Students must complete the 30 hour General Education Core (www.umkc.edu/core). Alternatives to Anchor and Focus courses can be found at this site. In addition, program specific prerequisites must be met for a minimum of 28 additional (58 total) semester hours prior to entry. Student must meet the state requirement for study of U.S. and Missouri Constitutions. Credit will be granted for courses taken at other accredited institutions, which are substantially equivalent to those offered at the University of Missouri-Kansas City, provided a grad of C or above was received. Six credit hours of excess Focus coursework transferred from another institution satisfies each Anchor course.

GE UMKC General Education Core (http://www.umkc.edu/core/courses).
Job Opportunities

The major responsibilities of the dental hygienist are preventive in nature. In the private dental office, the dental hygienist may be responsible for providing patient education, exposing and processing dental radiographs, conducting head and neck examinations, as well as providing a thorough oral prophylaxis, non-surgical periodontal therapy, local anesthesia, diet analysis and other services as delegated by the licensed dentist. In some large offices the dental hygienist may serve as a manager of office procedures. Dental hygiene services vary from state to state according to the laws that govern the practice of dental hygiene.

In public health and community agencies, the dental hygienist is concerned with the oral health of the community being served. Major responsibilities may be assessing the oral health of a given population or developing and implementing a dental health program. In hospitals and nursing homes, the dental hygienist may function as a health educator, a clinician or a resource person. In other instances, hygienists are employed for clinical and descriptive research projects.

Although the majority of dental hygiene graduates are involved in private practice, the following practice settings may also be available:

- Federal, state and local health departments.
- Hospitals and nursing homes.
- School districts.
- Health maintenance organizations.
- Educational programs for dental, dental hygiene and dental assisting students.
- Private and public centers for pediatric, geriatric and other special needs groups.

Graduates can take advantage of the Dental School’s job placement assistance service. The School of Dentistry’s library maintains an extensive database of job opportunities in several states. Faculty members are available for job-placement counseling to assist graduates with placement decisions.

Licensure Examinations

To practice dental hygiene legally, the student must take and successfully pass a computer-based examination, the National Board Dental Hygiene Examination. This examination is administered to all dental hygiene students in the country. The student also must successfully complete a clinical examination and an examination on the dental laws of the desired state of licensure. After written and clinical examinations have been completed, the graduate may apply for licensure in any state. Additional information regarding these examinations and the licensure process is given during the dental hygiene program.

Professional Associations

The School of Dentistry encourages students to participate in professional association activities. Dental hygiene students are encouraged to join and participate actively in the Student American Dental Hygienists’ Association, the UMKC Dental Hygienists’ Alumni Association and the American Dental Education Association. Through participation in these associations, students can network with and become familiar with the professional opportunities and activities of area dental health professionals.

Program Requirements

Student Learning Outcomes

The Division of Dental Hygiene at the UMKC School of Dentistry offers two routes to a Bachelor of Science degree in Dental Hygiene: The B.S. Clinical Entry-Level program and the RDH to BSDH B.S. Degree Completion program. The following competencies have been adopted by the faculty in the Division of Dental Hygiene as the skills, knowledge and values every entry level graduate must be able to consistently and independently demonstrate to qualify for graduation. The School of Dentistry, Division of Dental Hygiene assessment plan calls for theses competencies to be assessed throughout the classroom, laboratory and patient care experiences during the student’s tenure in the program in the form of papers, case study presentations, student portfolios, clinical competency examinations, community assessment and other appropriate assessment measures.

The UMKC dental hygiene graduate will be competent in:

- Core competence for ethical practice, adherence to regulations, evidence-based decision making, and self assessment.
- Assessing persons of all ages and stages of life in a diverse society.
- Treatment care planning and case presentation for persons of all ages/stages of life in a diverse society.
- Health education strategies for the prevention of disease and the promotion of health.
- Provision of preventive and therapeutic dental hygiene services for persons of all ages/stages of life.
- Health and safety provisions
- Management procedures (emergency management, communication, etc.)
• Community oral health strategies in a culturally diverse society.
• Utilization of information technology to assist in evidence-based decision making.

Program Requirements

The dental hygiene program begins in August of each year and continues for two academic years with a summer session between years. For more information, contact the program director.

A minimum of 124 semester hours is required for a bachelor’s degree in dental hygiene.

Candidates for all baccalaureate degrees must take the UMKC RooWriter writing assessment before they have completed 90 credit hours. Incoming transfer students with more than 90 credit hours must take the RooWriter by the end of their first semester of enrollment. Students may take the RooWriter at any time while enrolled at UMKC as a personal diagnostic, but it will only satisfy the undergraduate graduation requirement after a student has completed Discourse II (or equivalent).

Certain Colleges, Schools, Departments, Majors, Writing Intensive courses, etc. may also require the RooWriter to be taken multiple times, and some might further require a certain minimal level of achievement be attained for advancement. The RooWriter supports and is supported by the University-wide General Education requirements.

The RooWriter is offered any time online. Students should visit the RooWriter website for contact information, writing improvement resources, and other general information.

The Division of Dental Hygiene reserves the privilege of making changes and improvements in course sequence and content to assure the best dental hygiene education for its students.
Tools for Planning and Fulfiling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Scholarships and Awards

In addition to the University and federal financial aid opportunities, the Division of Dental Hygiene has numerous scholarship sources available to dental hygiene students. Students must meet financial and academic qualifications. Contact the division for more information. The Free Application for Student Aid (FAFSA) is required for application for Division scholarships. The Division will provide scholarship information to admitted and enrolled students.

During the last semester of the program, dental hygiene students who have distinguished themselves are eligible to be selected from the graduating class to become members of Sigma Phi Alpha, a national dental hygiene honor society. Students who receive this honor exhibit outstanding character and leadership during the professional program.

The Greater Kansas City Dental Hygienists’ Association sponsors a Community Service Award; the Missouri Dental Hygienists’ Association sponsors the Outstanding Dental Hygiene Graduate Award; and the UMKC Dental Hygienists’ Alumni Association sponsors the Outstanding Clinician Award. These awards are presented annually to graduating seniors.

Master of Science: Dental Hygiene Education

Director:
Tanya V. Mitchell, R.D.H., M.S.

About the Program

The Master of Science Degree program in Dental Hygiene Education at the University of Missouri - Kansas City (UMKC) prepares students for careers in dental hygiene education. The 36 credit hour graduate program and core curriculum is offered through a combination of distance and onsite teaching and learning modalities. Out of state students who complete coursework on a part-time basis are eligible for in-state tuition. To be eligible for this, the student must enroll in no more than 6 credit hours in the fall and spring semesters and no more than 3 credit hours in the summer.

The curriculum provides academic experiences based on the career goals and interest of the graduate student. Although the curriculum is focused on preparing the student for a career in dental hygiene education, elective courses may be taken in research, gerontology, special patient care, health services administration, and community dental health, through a personalized approach – pursuing excellence together.

The graduate program has a thesis or non-thesis option. The completion of a thesis or non-thesis research project (manuscript ready for publication) is required as part of the graduate student’s academic program. The core curriculum is completed online with the exception of two (3 credit hour) courses - Research Methodology and Biostatistics/Statistics. These must be taken and transferred in from an accredited institution. However, these two courses are offered onsite at UMKC SOD. Full time students are required to attend a minimum of two academic years.

• Requirements for Admission
• Tuition and Fees Schedule
• Scholarships
• Program Goals (p. 393)
• Vision Statement (p. 393)
• Mission Statement (p. 393)
• Graduate Dental Hygiene Core Competencies (p. 393)
• Program and Graduation Requirements
• Other Requirement (p. 395)

Requirements for Admission

Graduation from an accredited school or program of dental hygiene, a baccalaureate degree from an accredited college or university, and a satisfactory academic undergraduate record are required. The deadline for application is Feb. 1 for the class beginning the following Fall semester. An interview is a required component of the admissions process. Interviews are granted to candidates for this program by invitation only. Application forms and
information may be obtained from the Director, Graduate Dental Hygiene Education, Division of Dental Hygiene, at the address at the beginning of this section. (http://cat-edit.umkc.edu/~Catalog/ViewCatalog.aspx?pageid=viewcatalog&catalogid=99&topicgroupid=55941) Enrollment is limited.

Questions about this program may be answered by contacting the program director’s office at (816) 235-2049 or villalpandot@umkc.edu.

Completed applications must be submitted to the Director of Graduate Dental Hygiene Education at the above address by Feb. 1 for the class beginning in the Fall semester of the same year. The required application materials must include:

1. UMKC application for admission.
2. Supplemental application for admission.
4. Official transcripts of all previous academic work.
5. Three completed recommendation forms (including one from the director of the dental hygiene program attended).

**Tuition and Fees Schedule**

**Master of Science Degree Program in Dental Hygiene Education**

**Tuition and Fees** (http://dentistry.umkc.edu/Future_Students/asset/pdfs/TuitionScheduleMasterdentalhygiene2013-2014.pdf)

**Scholarships**

Please see the UMKC Master of Science in Dental Hygiene Education website located at http://dentistry.umkc.edu/Future_Students/DHMasterScience.shtml for a full list of scholarships available.

**Program Goals**

**Career Opportunities**

The program will prepare the student to assume roles in a variety of employment opportunities including education, research, and administration

**Research**

The program will provide the foundational skills necessary to contribute to the body of knowledge in dental hygiene research

**Lifelong Learning**

The program will foster the skills of reflective thinking, problem-solving, scholarly inquiry, and evidence-based decision making in an effort to promote lifetime learning.

**Vision Statement**

The UMKC School of Dentistry Graduate Dental Hygiene Program will serve as a model dental hygiene graduate program that increases the education of the dental hygienist unrelated to geographic location.

**Mission Statement**

The UMKC School of Dentistry Graduate Dental Hygiene Program provides a comprehensive education of both theory and practical applications and prepares the dental hygienist to assume a variety of employment opportunities where advanced communication skills, critical thinking, problem-solving, evidence-based decision making, and lifelong learning are needed.

**Graduate Dental Hygiene Core Competencies**

**Graduate DH Core Competencies**

The Graduate Dental Hygiene Program at the University of Missouri – Kansas City School of Dentistry builds upon the foundation of the baccalaureate degree dental hygienist. The program provides a variety of coursework to ensure the framework necessary to obtain employment in education, research, or administration. Upon completion of the 36 credit hours necessary for graduation, the student will be able to do the following:
1. **Our graduates will be prepared to conduct original and scholarly research projects** (G:1,2,3).
   - Apply the research process to an identified problem using the National Dental Hygiene Research Agenda as a guide.
   - Synthesize information from evidence-based literature to apply a research problem.
   - Apply the (scientific) research process to an identified problem.
   - Develop a research proposal, obtain IRB approval, grant monies if needed, and report findings in a manuscript format ready for submission to a peer-reviewed journal.
   - Discuss research findings with peers, faculty, and other allied health professionals.
   - Demonstrate effective and professional written, oral, and electronic communication skills.
   - Design and disseminate to other professionals appropriate to your area of research a scholarly presentation at a regional, state, or national conference with other health professionals.

2. **Our graduates will utilize information technology to advance teaching and education** (G:1,2,3).
   - Discuss different technologies used in classroom and online delivery modalities in dental hygiene education.
   - Design courses that use technology to reach individuals regardless of geographic location.
   - Create teaching opportunities that employ technology to engage student learning in the clinical and classroom setting.
   - Develop an electronic program portfolio.

3. **Our graduates will have an understanding of the relationship between higher education and oral health care policy (issues) in dental hygiene** (G: 1, 2).
   - Identify issues related to higher education policy and procedures.
   - Examine methods used to facilitate access to care and development of new workforce models' impact on oral and overall health.
   - Recognize the impact of interacting with diverse communities and cultures to serve individuals of all backgrounds.
   - Evaluate the impact of legislation and policy on trends in oral health at the national, state, and local levels.

4. **Our graduates will have the knowledge to demonstrate through behavior, high standards of ethics, integrity, and responsibilities in professional situations** (G: 3).
   - Display the ability to self-assess in enhancing professional self-development.
   - Demonstrate a commitment to life-long learning in the profession of dental hygiene.
   - Recognize responsibility and accountability for actions in various roles of the dental hygienist.
   - Explain the obligation to be active in society to make changes in one’s health and welfare.
   - Foster high standards of personal and organizational integrity, honesty, and respect for people of all communities.
   - Exhibit knowledge of legal, ethical, and social issues related to developing technology and communication/social networks.

5. **Our graduates will have the ability to plan and integrate new teaching and educational programs in dental hygiene** (G: 1, 2,3).
   - Demonstrate the process of program development including assessment, planning, implementation, and evaluation to accomplish program goals.
   - Be knowledgeable in the process of seeking funds for the implementation of new programs.
   - Articulate a plan for the development of new programs.
   - Use basic organizational, administrative and human relations skills in a group environment.

6. **Our graduates will be leaders in their communities, organizations, institutions and work environments** (G: 1, 2, 3).
   - Analyze interactions of human, social, and dental hygiene theories and how they affect individuals and professions.
   - Apply leadership skills when working with groups to attain personal and professional goals.
   - Support change and improvements in the profession of dental hygiene through service and affiliations with professional associations.
   - Successfully communicate to others with effective written, oral and electronic correspondence skills.

### Program and Graduation Requirements

#### Student Learning outcomes

1: Our graduates will be prepared to conduct original and scholarly research projects

2: Our graduates will utilize information technology to advance teaching and education

3: Our graduates will understand the relationship between higher education and oral health care policy (issues) in dental hygiene

4: Our graduates will have the knowledge to demonstrate high standards of ethics, integrity, and responsibilities

5: Our graduates will have the ability to plan and integrate new teaching and educational programs in dental hygiene

6: Our graduates will be leaders in their communities, organizations, institutions and work environments
Core curriculum courses are taken in conjunction with students enrolled in the UMKC degree-completion program. In addition to a UMKC campus program orientation (usually in August), online students are required to attend on average, one campus class session per semester, held on the UMKC campus during their first year in the program - typically constituting a long weekend. Additional on-site campus visits for the graduate student are determined between the research committee chair and the student. The student is encouraged to attend another on-campus visit as their research project deems necessary.

</tr>
</tbody>
</table>

For students who do not reside in the Kansas City area (online students) some courses (DHGR510 Student Teaching and Conference I and DHGR530 Clinical Instruction and Conference I) require teaching (didactic or clinically) at a college/university setting other than UMKC. In those cases, an affiliation agreement is required. It is the student's responsibility to get permission from the sponsoring institution to teach in their facility. Once the student has initiated contact, the UMKC program director will contact the program director of the sponsoring institution.

* For students not in the Kansas City area (online students) six of the 36 credit hours must be transferred in from another institution. The six transfer credits must include a 3 credit hour course in Research Methodology and a 3 credit hour course in Biostatistics/Statistics. However, these two courses are offered onsite at UMKC SOD. Both courses must be at the graduate level and need to be approved by the program director. Prospective applicants will need to contact the program director for advising.

The total number of credit hours required for completion of the Master of Science Degree Program in Dental Hygiene Education is 36 credit hours for either the thesis or the non-thesis option.

**Graduation Requirements**

1. A minimum of a 3.0 GPA.
2. Successful completion of 36 credit hours with a thesis or graduate research project option.
3. All other requirements for graduation as stated in the General Graduate Academic Regulations and Information section of the UMKC General Catalog. For more information - please visit [www.umkc.edu/sgs](http://www.umkc.edu/sgs)
4. Design and disseminate to other professionals appropriate to your area of research a scholarly presentation at a regional, state, or national conference with other health professionals.
5. Successful completion of a portfolio as presented in DENT-HYG 5585. The final portfolio must be turned into the program director 6 weeks prior to the student's anticipated graduation date.

**Other Requirements**

Students will be expected to comply with all rules, regulations and requirements in the General Graduate Academic Regulations and Information section of this catalog.

Graduate students, regardless of classification, must maintain a 3.0 (B) grade-point average in all coursework taken for graduate credit at UMKC and must meet any additional academic requirements imposed by the school, department or Interdisciplinary Ph.D. discipline. Students are responsible
for keeping apprised of their academic status by referring to term grades and their permanent academic record on file in the UMKC Registration and Records Office.

Whenever the cumulative GPA for UMKC courses taken for graduate credit by a graduate student of any classification falls below 3.0, the student’s status for the next term becomes: “On Probation - See principal graduate advisor.” (Interdisciplinary Ph.D. students will be directed to consult their interim advisor or research advisor.) The principal graduate advisor, interim advisor or research advisor will review the student’s progress and provide counsel, and the following conditions apply:

- A graduate student on probation who is not restored to good academic standing by the end of two successive regular semesters following the term in which the cumulative GPA fell below 3.0 will be declared ineligible to re-enroll.
- While on probation, a graduate student must achieve a 3.0 term GPA in order to enroll for the following term.
- A graduate student on probation will not be restored to good standing until a cumulative graduate-credit GPA of at least 3.0 is achieved.

Department of Oral and Craniofacial Sciences

Chairman, Department of Oral and Craniofacial Sciences:
Mark L. Johnson, Ph.D.

Director of Graduate Research Programs, Department of Oral and Craniofacial Sciences:
Mary P. Walker, D.D.S., Ph.D.

Doctoral Faculty Participation:
Cynthia Amyot, Lynda Bonewald, Bonnie Branson, Charles M. Cobb (E), Sarah Dallas, J. David Eick, Jeffrey Gorski, Laura Iwasaki, Mark Johnson, Ying Liu, Carole McArthur, Jeffrey Nickel, Paulette Spencer (E), Yasuyoshi Ueki, Mary Walker, Yong Wang

General Nature of the Program

The School of Dentistry offers a program leading to an MS in oral and craniofacial sciences. A separate application is required for the master of science program in oral and craniofacial sciences. The goal of the program is to introduce students to the scientific method and to assist them in developing academic careers. The program includes advanced work in basic, behavioral and clinical sciences relating to dentistry. The coursework and thesis present an opportunity for the student to cross traditional departmental lines and undertake an interdisciplinary approach to the study of problems related to oral biology. On successful completion of all necessary coursework and thesis requirements, the student is awarded a master of science degree in oral and craniofacial sciences.

Admission Information

Eligibility

All applicants for the master of science in oral biology program must first meet UMKC requirements for admission as a graduate student (see Graduate Academic Regulations and Information (http://cat-edit.umkc.edu/~Catalog/ViewCatalog.aspx?pageid=viewcatalog&topicgroupid=54137) earlier in this catalog.)
To be eligible for admission to the master of science in oral biology program, an applicant either must hold a baccalaureate degree or a D.D.S. or equivalent degree. In general, he or she should have a minimum cumulative GPA of 3.0 (based on a 4.0 scale) for all undergraduate work, including dental school (if applicable).

Applicants must also meet the minimum GRE requirements.

**Admission Procedure**

Requests for information, including application materials, should be directed to:

Department of Oral and Craniofacial Sciences: Graduate Programs
UMKC School of Dentistry
650 East 25th Street
Kansas City, MO 64108-2795

The Department of Oral and Craniofacial Sciences has a rolling deadline and accepts MS applications year round.

**Evaluation Criteria for Admission:**

**Transcripts**
Analysis of transcripts from all prior institutions is required.

**Letters of Recommendation**
Three letters of recommendation are required from current or former teachers who are familiar with the applicant’s past achievements and research ability/potential.

**Personal Statement**
A personal statement describing why the candidate is interested in pursuing a master of science in oral and craniofacial sciences, how the experience of the program may be used by the candidate in the future, and a list of potential research interests must be submitted by the applicant.

**Interviews**
Interviews are not required. However, interviews will be arranged upon the candidate’s request at the School of Dentistry. Successful interviews may enhance the candidate’s chance of acceptance.

The chairman of the Advanced Education Committee will notify the applicant regarding acceptance status.

**Master of Science in Oral and Craniofacial Sciences**

- General Nature of the Program (p. 396)
- Admission Information (p. 396)
- Program Requirements (p. 397)
- Thesis Research & Writing (p. 399)
- Other Requirements (p. 397)

**Other Requirements**

Students will be expected to comply with all rules, regulations and requirements specified in the General Graduate Academic Regulations and Information (http://cat-edit.umkc.edu/~Catalog/ViewCatalog.aspx?pageid=viewcatalog&topicgroupid=54137) section of this catalog.

**Program Requirements**

**Objectives**
In addition to writing a research proposal, completing a research project, and writing a thesis, a minimum of 30 credit hours including the core curriculum is required for the MS Degree. The course curriculum will be developed in consultation with the Oral and Craniofacial Sciences Director of Graduate
Research Programs and faculty who serve on the supervisory committee. The developed program of study will meet the student’s individual needs and research interests, satisfy discipline-specific requirements, and assure upon graduation that students are able to:

- Demonstrate appropriate depth and breadth of knowledge in their discipline
- Use scholarship and research skills to evaluate the literature and make evidence-based decisions
- Work effectively in a collaborative environment
- Effectively communicate results of their research to diverse audiences
- Apply ethical principles to all aspects of their professional life
- Think critically and creatively as clinicians and researchers
- Develop skills to become good mentors and communicators
- Successfully complete the CITI Research Ethics Tutorial at: http://www.umkc.edu/ors/irb/training.cfm. When finished, the Certificate of Successful Completion will be printed and turned in to the Oral and Craniofacial Sciences Administrative Office to be placed in the student’s file.

The candidate enrolled in this program must complete a minimum of 30 semester hours of coursework. These courses must be listed on the Master’s Degree Program of Study form (available from the Department of Oral and Craniofacial Sciences office) and must be signed by the thesis advisor, members of the thesis committee, and chair of the Department of Oral and Craniofacial Sciences.

</tbody>
</table>

The thesis committee may require additional courses. This catalog contains listings of appropriate graduate level courses.

Of the 30 semester hours, no more than 6 semester hours of graduate work taken at institutions other than UMKC may be transferred. The transfer of 6 graduate credit hours includes those courses deemed appropriate to the student’s program of study by the thesis committee.

The student must conduct an original investigation in a basic, behavioral or clinical science area and write a thesis describing the research and reporting the results of the study. The student will be required to successfully defend the thesis in a final oral examination at a university-wide seminar.

Enrollment in BIO-SCI 5751 and in BIO-SCI 5752 is required. These courses are the foundation for writing a Research Proposal for the MS thesis project.

Within BIO-SCI 5751 the student will conduct a literature review associated with developing a research question for the thesis research proposal.

As part of BIO-SCI 5752 the student will write the thesis research proposal in consultation with the committee chair and members plus obtain appropriate IRB and/or IACUC approvals. The research proposal serves as the written portion of the Qualifying Exam. Once the written proposal has committee approval, the student will give a presentation about the proposal and answer related questions pertaining to the proposal. This serves as the Oral portion of the Qualifying Exam.

Enrollment in BIO-SCI 5799 is also required as a part of the student’s program of study. To reflect the student’s research involvement in activities that will ultimately lead to the completion of the thesis, multiple semesters of enrollment in this course are allowed. Cumulative credit for this course may not
exceed 6 hours. Until the thesis is successfully completed and defended, a grade of incomplete (I) is given for each term of enrollment in this course. Upon successful defense and completion of the thesis, incomplete grades will be changed to an appropriate letter grade.

While the MS program in oral and craniofacial sciences can be pursued simultaneously with dental specialty certificate programs, it is likely that such a student can expect to spend 6 months or longer beyond the period designated for the certificate program to obtain the master of science in oral and craniofacial sciences.

**Thesis Research & Writing**

The major criterion of the MS in oral biology is original research. This original research may be conducted in basic, behavioral or clinical sciences. Adherence to all standards established by the School of Graduate Studies is necessary for final acceptance and approval of the thesis.

**Thesis Committee**

Each student is responsible for selecting a thesis committee chair who must be an Oral and Craniofacial Sciences faculty member. The selection of a thesis chair must be completed within the students first semester of study and approved by the Department of Oral and Craniofacial Sciences Director of Graduate Research Programs. Once the chair is selected, the student and the chair will select two or more additional faculty members to serve on the thesis committee. One additional member of the thesis committee must be a member of the Department of Oral and Craniofacial Sciences and all of the faculty selected must be members of the graduate faculty. Committee members should be selected for their ability to provide additional advice and resources to augment the thesis research of the student.

Following committee selection, the Program of Study form must be completed. This document serves as the record of selected committee members and required courses for each student. The Program of Study form and example course lists (for concurrent specialty certificate program students) are available on the Oral and Craniofacial Sciences Web site at http://dentistry.umkc.edu/oralbio/MasterOralBiology.shtml. The completed Program of Study must be signed by all committee members; the Department of Oral and Craniofacial Sciences Director of Graduate Research Programs; the Department of Oral and Craniofacial Sciences Chair; and the Dean or Graduate Officer, School of Dentistry. The completed form must meet all Department of Oral and Craniofacial Sciences and School of Graduate Studies requirements.

All thesis committee members must approve a thesis research proposal before the research project is initiated. The thesis committee members also advise and guide the students in the successful completion of their research and determine when the MS thesis is complete.

**Thesis**

Original research will be used to construct a formal thesis conforming to the standards set by the School of Graduate Studies (see University of Missouri-Kansas City Guide to Formatting Graduate Theses, which can be obtained at the UMKC Dental Library). At least ten weeks prior to graduation, the completed thesis must be submitted to the thesis committee for its preliminary approval.

After all members of the thesis committee have read and given preliminary approval to the content of the thesis, and the instructor(s) of the course RES-ME 5703 has given preliminary approval to the format of the thesis, and at least six weeks prior to graduation, the original typed copy must be submitted to the School of Graduate Studies for certification by the dean of Graduate Faculties and Research. After the thesis has been certified for acceptance by the dean of Graduate Faculties and Research, the thesis committee will require the student to defend the thesis. School of Dentistry regulations require students to defend their theses by presenting university-wide seminars on their research. In addition to the required distribution of copies (see the UMKC Guide to Formatting Graduate Theses and the General Graduate Academic Regulations and Information section of this catalog), a copy of the thesis also must be received for retention by the Dental Library of the School of Dentistry.

RES-ME 5703 Thesis Writing

The methods of preparing, organizing, and presenting research findings using scientific writing format will be reviewed for completing a thesis. This course is required for the MS degrees in Oral and Craniofacial Sciences and Dental Hygiene Education.

**Oral and Craniofacial Sciences Interdisciplinary Ph.D.**

The Ph.D. program at UMKC is interdisciplinary. This program is described in more detail in the Oral and Craniofacial Sciences Interdisciplinary Ph.D. Program (p. 528) within the Graduate Studies section of this catalog.

Students interested in studies at the doctoral level in the discipline of oral and craniofacial sciences should apply to the Interdisciplinary Ph.D. program (http://cat-edit.umkc.edu/~Catalog/ViewCatalog.aspx?pageid=viewcatalog&topicgroupid=54636) in the School of Graduate Studies.

Detailed information on the general and discipline-specific admission requirements for the Ph.D. can be found in the School of Graduate Studies section of this catalog.

**Graduate/Professional**

Graduate/Professional

**Faculty**

**Doctor of Dental Surgery Program**

The UMKC School of Dentistry educates competent and caring oral health care providers through a curriculum that combines the best of the classroom and clinic. Preclinical dental and biomedical courses give our students the solid conceptual foundation they will need to successfully practice dentistry. Beginning early in the first year and increasing throughout the four-year program, students work with peers and faculty to master the clinical skills required to deliver comprehensive oral health care. Students treat their assigned patients within a "team" system of clinic organization, which is a hallmark of this program.

If you are a college student with at least 90 hours of college credit or a college graduate, you may apply for admission to the D.D.S. program. Applicants are strongly encouraged to complete a baccalaureate degree prior to starting their dental education. As a public institution financially supported by the state of Missouri, our first obligation is to qualified residents of Missouri. Additionally for many years we have had formal or informal agreements with the states of Kansas, Arkansas, New Mexico, and Hawaii to accept qualified residents of those states to our program. Preferred consideration will be given to applicants who are residents of the states listed above. Applications from other states are welcome and are considered on an individual basis for highly qualified candidates.

To apply for the D.D.S. program, you must submit an application through the American Dental Education Association’s application service (AADSAS (http://www.adea.org)). Although the UMKC deadline for submission is October 1, early applications are strongly recommended. A preference is given to applications received in the Office of Student Programs of the School of Dentistry prior to September 1. Keep in mind that AADSAS can take up to two months to process and deliver an application. Therefore, it is extremely important that you apply in June or July of the year prior to anticipated entry into dental school.

The admission process is a selective one. A number of variables will be considered: academic credentials, Dental Admission Test scores, letters of recommendation, investigation of dentistry, community service and your written responses to a series of questions. In addition, an "invitation only" interview is a part of the selection process. To be sure you fully understand the admissions process, applicants are encouraged to thoroughly review the additional admissions guidelines available here (http://dentistry.umkc.edu/Future_Students/DDSAdmissions.shtml).

This four-year program begins in August and culminates with a doctor of dental surgery degree. Click here to view the curriculum in detail. (p. 404)

A Suggested Pre-Dental Schedule of Activities can be downloaded here (http://dentistry.umkc.edu/Future_Students/asset/pdfs/SuggestedPredentalSchedule.pdf).

### Admission Information

Any college student or graduate can apply for admission to the four-year doctor of dental surgery program. A student should be a U.S. citizen or permanent resident of the U.S. Priority is given to Missouri residents. The School also has contractual or other agreements with the states of Kansas, Arkansas, New Mexico and Hawaii to consider qualified residents for acceptance from those states. Preferred consideration will be given to applicants who are residents and high school graduates of the states listed. Applications from other states are welcome and are considered on an individual basis for highly qualified candidates.

Candidates may be considered for acceptance after successful completion of a minimum of 90 hours of college credit. After completion of a minimum of 120 hours of college credit, the accepted applicant will be eligible to enroll in the School of Dentistry. All candidates for this program are encouraged to complete a baccalaureate degree before entry. In fact, college degree-holders with a broad educational background are the preference of the Dental Student Admission Committee.

Admission is on a selective basis and requires more than meeting course or college-hour requirements. Factors considered in the selection process are the candidates’ academic credentials, including Dental Admission Test (DAT) scores, letters of evaluation, personal interview, evidence of the subjective criteria identified in a later section, and all other information submitted by the candidates. Approximately 109 candidates are admitted to the D.D.S. program annually.

Those who want to apply for admission must apply online through the AADSAS Application Service administered by the American Dental Education Association at http://www.adea.org/. Candidates must submit applications no later than Oct. 1 of the year prior to desired enrollment. **Sept. 1 is the UM KC preference deadline date for UM KC to receive application materials.** Be aware that approximately 4-8 weeks are required by AADSAS to process applications and deliver them to the dental school.

Counseling by the School of Dentistry’s admissions staff is available to those interested in applying for admission. It is advisable to seek this counseling early in the undergraduate program.
GPA/College Hour Minimums

The following are the Dental Student Admission Committee’s guidelines for GPA/college semester credit hour/Dental Admission Test (DAT) minimums and preferences:

- Preference will be given to candidates with 90 or more semester hours of college credit at the time of application with a science GPA of 3.40 or higher and/or a DAT academic average of 17 or higher.
- A candidate with 90 or more semester hours of college credit at the time of application with a science GPA of 3.00 and a DAT academic average of 16 or higher can be considered for an interview.
- The minimum science GPA which will be considered for an interview is 3.0.
- It should be noted that no more than 60 hours of college credit can be earned at a community college and preference will be given to candidates who complete the science prerequisites at a four-year institution.

A broad liberal education culminating in a bachelor’s degree is strongly encouraged of applicants seeking admission into this program. Recent history indicates that admission of a candidate who does not have a B.S./B.A. degree or who is not likely have one at the time of enrollment in the D.D.S. program is rather rare.

Pre-Dental Course Requirements

There is no required college major for admission to the School of Dentistry. However, certain courses are required prior to entering:

**Biology**

A minimum of four semesters of biology with labs. In particular, we require general biology I, anatomy, physiology and cell biology. Other courses that have counterparts in the dental curriculum (i.e., histology, neuroscience, microbiology) are strongly recommended.

**Chemistry**

A minimum of two semesters of general chemistry with labs (Chemistry I and Chemistry II).

A minimum of two semesters of organic chemistry with labs (Organic Chemistry I and Organic Chemistry II).

A minimum of one semester of biochemistry (lab is recommended but not required).

**Physics**

A minimum of two semester of physics with labs (Physics I and Physics II).

**English**

A minimum of 6 credit hours of English composition. (Courses in speech are not acceptable as substitutes for English composition.)

**Other**

It is advantageous to have course credit in mathematics, formal logic, histology, business, social/behavioral sciences (such as psychology), communication skills, computer science, the humanities and applied arts (such as sculpting, drawing, etc.).

**Dental Admission Test**

All dental school applicants must take the Dental Admission Test (DAT) administered by the American Dental Association. The DAT is given throughout the year by computer at designated testing centers, and a score must be submitted to be fully considered.

DAT scores are based on a range of 1 to 30, with 19.0 generally being the national average of accepted dental students. The Dental Student Admission Committee requires a minimum DAT score of 16, but prefers that a candidate’s DAT scores be 17 or higher to be considered for admission.

For more information or to request a DAT application go to [http://www.ada.org](http://www.ada.org). Contact the School of Dentistry’s Office of Student Programs at (816) 235-2080 (local) or (800) 776-8652 (toll-free) to learn about our online DAT Prep Course.

**Personal Interview**

A personal interview at the School of Dentistry is required of applicants completing the necessary college hours, grade-point average and DAT requirements. The interview is by invitation only, an applicant for admission may not request it.
Candidate Subjective Criteria

When considering candidates for possible admission, the UMKC School of Dentistry’s Dental Student Admission Committee (DSAC) reviews the entire scope of information that is available on each applicant. For each candidate the sources of this information include the academic record (i.e., overall GPA, science GPA and Dental Admission Test scores), AADSAS essay, responses to items on the UMKC School of Dentistry’s Application Survey, letters of reference, interview assessment, and any other information provided by the candidate (e.g., personal statement). Specifically, the committee will expect evidence of the following factors in making the difficult choices among candidates:

1. Demonstrated investigation of the profession of dentistry. It is strongly suggested that candidates observe in a minimum of five different dental offices (the offices of general dentists and specialists) and acquire a minimum of 80-100 hours of dental office observation, preference is given to candidates who have worked in a dental office.
2. Evidence of social conscience and compassion (i.e., caring attitude, sensitivity to those in need, significant community activities). It is strongly suggested that this be active and ongoing participation in volunteer activities.
3. Indication of fundamental personal character (i.e., integrity, maturity, self-reliance, leadership skills).
4. Evidence of critical thinking and problem solving ability (e.g., performance in courses requiring this skill such as in laboratory segments, in formal logic or in research experiences).
5. Significant and sustained level of academic achievement based on full course loads with evidence of a broad science and liberal arts education (i.e., fine arts, business, mathematics, humanities, computer science, etc.).
6. Established effective interpersonal/communication skills (i.e., an ability to communicate orally and in writing, a capacity to listen, a personality conducive to forming personal and/or professional relationships, an involvement in a range of extracurricular activities, especially those in which significant leadership roles have been taken).
7. Demonstrated ability to balance full academic schedules with extracurricular involvement and/or employment (i.e., effective/efficient management of time).

Because the Dental School Admission Committee looks closely at information from all sources included in an applicant’s file, it is in the candidate’s best interest that this information is consistent among sources. This is especially true with information supplied directly by the candidate (i.e., AADSAS essay, UMKC School of Dentistry’s Application Survey, interview and/or personal statement). You are strongly encouraged to review all written materials for consistency and accuracy before submission.

Finally, before developing these written materials, the candidate is strongly encouraged to honestly and critically assess himself/herself on all the qualities identified. Following this process, the candidate is urged to review drafts of these documents collectively (e.g., to check for completeness, accuracy and consistency) and to evaluate himself/herself comprehensively as if he/she were a member of the Dental Student Admission Committee. Where the candidate feels a question may arise from Committee review, the applicant is encouraged to address this in a personal statement/letter to the Committee.

Technical Standards

The dental degree signifies that the holder is a dentist who has received sufficient training in dental education to practice dentistry. It follows that graduates must have acquired and demonstrated the knowledge, skills and abilities to function in a broad variety of clinical situations and to render a wide spectrum of dental care.

While each application is reviewed individually, it is necessary that each candidate be able to observe and perform each task required by the curriculum of the school. Similarly, the school does not consider the waiver of required examinations a reasonable accommodation for individuals with learning disabilities. Learning disabled students, when appropriate, may be granted additional time on required examinations, be examined in separate testing facilities, or accommodated in other reasonable ways, but they will not be exempted from the requirement to take and pass such examinations. (Candidates with disabilities should contact the UMKC Office of Services for Students with Disabilities for information regarding definition and requirements for documentation of learning disabilities.)

Candidates for admission into the D.D.S. program must possess abilities and skills in the following areas to satisfactorily complete the curriculum:

**Observation**

Candidates must be able to accurately observe laboratory experiments, preclinical demonstrations, clinical laboratory procedures and patient-care activities.

**Communication**

Candidates must be able to communicate effectively and sensitively with patients and with all members of the health care team.
Motor
Candidates must have physical dexterity to master all aspects of patient care. They must be able to execute motor movements required to arrive at a diagnosis and treatment plan, and to provide patient care, including emergency treatment.

Intellectual-Conceptual, Integrative and Quantitative Abilities
A candidate must have intellectual-conceptual, integrative and quantitative abilities that include measurement, calculation, reasoning, analysis and synthesis. Problem solving, one of the critical skills demanded of dentists, requires all of these intellectual abilities. In addition, the candidate must be able to comprehend three-dimensional relationships and understand the spatial relationship of structures.

Emotional and Behavioral Attributes
In addition to these skills, candidates must possess the high moral and ethical standards demanded of dentists and must possess the capability required for full utilization of intellectual abilities, the exercise of good judgment, the prompt completion of responsibilities attendant to the diagnosis, treatment planning and care of patients, and the development of mature, sensitive and effective professional relationships with patients. Candidates must be able to cope with taxing workloads and to function effectively under stress. A candidate must also be able to adapt to changing environments, to display flexibility and to learn to function in the face of uncertainties in the clinical problems of many patients. In addition, personal qualities such as compassion, integrity, concern for others, interpersonal skills, interest and motivation should be assessed during the admissions and education processes. Technological accommodation can be made for some inadequacies in certain areas, but a candidate must be able to perform in a reasonably independent manner.

Notification of Admission
Applications for admission are reviewed by the Dental Student Admission Committee. In accordance with the guidelines of the American Dental Education Association, no notification of the admission decision is made to a candidate before Dec. 1 of the academic year prior to that applicant’s class graduation date.

Formal Notification
After a decision is reached on an applicant, notification of acceptance is made by mail. Accepted candidates have 30 days from the date of an acceptance letter to make a required nonrefundable $200 deposit. If notification of acceptance is made after Feb. 1, the candidate must submit the deposit within 15 days of the date of acceptance.

Several individuals are placed on a list of alternates. In the event that a position becomes available, an applicant from this list is chosen to fill the vacancy. Notification of alternate status will be sent by mail.

Notification of denial is also sent by mail. If applicants are interested in reapplying, they should make an appointment with a School of Dentistry director of admissions to discuss the reason for the denial. An explanation of the admission decision and advice will be offered to applicants to enhance their future applications.

Minority Recruitment Program
The School of Dentistry has an active recruitment program to encourage and assist qualified minority students, particularly those from under-represented groups in the dental profession, to pursue careers in dentistry. Native Americans, African Americans and Hispanics are strongly encouraged to seek admission to the school. Students desiring information should contact John Cottrell or cottrellj@umkc.edu, the Director of Minority Recruitment and Special Programs within the Office of Student Programs (816) 235-2080.

Reserved Admission Program
The Reserved Admission Program for the Doctor of Dental Surgery degree at the UMKC School of Dentistry enables highly motivated, ambitious, talented students to pursue their dream of becoming a dentist. Entry into the program is available to students from Missouri and Kansas who are in the early years of their undergraduate education.

This program is composed of three stages with the first two stages requiring formal application and review. The first stage is application and acceptance as a Provisional Reserved Admission Program Student. This step may be accomplished immediately following the completion of a minimum of but not more than four semesters of college credit with a cumulative 3.6 science and math GPA while being continuously enrolled in full-time course loads. In the second stage, provisional reserved admission program students meet additional objective and subjective criteria to move to full acceptance at the end of their undergraduate junior year. Students with full admission into the Reserved Admission Program are assured a seat in the D.D.S. class matriculating in August following the completion of their undergraduate studies, provided they meet the criteria for maintaining their status. The third stage is matriculation at the School of Dentistry.
For more information about this program or to request an application, contact the School of Dentistry’s Office of Student Programs. (816) 235-2080 or dds@umkc.edu.

Disability Services

Federal law prohibits UMKC and the School of Dentistry from making pre-admission inquiry about disabilities. Information regarding disabilities given voluntarily or received inadvertently will not adversely affect any admission decision. Any accepted applicant requiring special services because of disability should notify the Office of Services for Students with Disabilities for accommodation services (816-235-5696).

Dental Education Curriculum Mission

The mission of the Doctor of Dental Surgery program is to graduate a dentist who can deliver patient care with a scientific basis and a caring manner. Through the integration of the biomedical, behavioral, and clinical sciences, the graduate dentist will be able to function effectively as the leader of the oral health care team to provide comprehensive oral health care for diverse populations in a constantly changing society. Graduates must be able to use the skills of problem solving, decision-making and evaluation so that behaviors and practices are derived from intentional choices. They must become lifelong learners, directing their professional growth during and beyond the educational programs.

Graduation Requirements

Satisfactory completion of the program including:

1. Demonstration of competencies expected of a graduating student.
2. A passing grade on Part I and Part II of the National Board Dental Examinations.
3. A cumulative grade-point average of 2.5 or higher for the student’s period as a dental student.
4. A demonstrated ability to meet the standards of professional conduct.

Program Requirements

Student Learning Outcomes

• Apply the fundamental principles of the biomedical and behavioral sciences as they relate to the promotion and provision of oral health care.
• Apply legal, ethical and regulatory principles to the provision of oral health care, including practice management.
• Apply interpersonal and communication skills to empathetically and effectively care for diverse patient populations and function in the health care environment.
• Apply critical thinking and problem solving skills to provide evidence-based patient-centered care.
• Evaluate various models of oral health management and care delivery.
• Participate in improving the oral health of individuals, families, and groups in the community through oral health promotion, education and interaction with other health professions.
• Manage medical emergencies and complications that may occur during dental treatment.
• Recognize and manage pain and anxiety, trauma, hemorrhage, and infection of the orofacial complex by selection, administration or prescription of pharmacological or non-pharmacologic agents in the treatment of dental patients.
• Demonstrate competence in providing oral health care within the scope of general dentistry for children, adolescents, adults, and special needs patients. This includes:
  • Perform a complete dental examination to arrive at a diagnosis of the patient’s oral condition/s.
  • Develop, present and implement an integrated treatment plan to address a patient’s oral health needs.
  • Prevent, identify and manage periodontal conditions.
  • Prevent, identify and manage pulpal and periradicular conditions.
  • Identify and manage patients with oral surgical needs.
  • Identify and manage malocclusions.
  • Manage restorative procedures for single defective teeth, or to restore function in patients with partial or complete edentulism.
  • Treat patients with soft tissue lesions and oral manifestations of systemic diseases.
• Demonstrate the ability to self-assess competency and the outcomes of care.

Program Requirements

The school offers a four-year, eight-semester, two-summer-term curriculum leading to the doctor of dental surgery (D.D.S.) degree. This curriculum is designed to prepare graduates in dentistry to deliver patient care with a scientific basis and a caring manner. As such, it provides a sound background in
the biomedical, behavioral and clinical sciences with an emphasis on comprehensive oral health care. Exposure to clinical dentistry in the first semester of the first year is a hallmark of this curriculum.

The first year of dental school focuses on instruction in the biomedical sciences that provide a foundation for clinical studies. The first-year student also studies introductory courses in oral diagnosis, preventive periodontics and dental restorative techniques in a pre-clinical setting. Early clinical exposure is further emphasized through clinic-based courses in both the first and the second semesters. Acquisition of basic diagnostic skills and background knowledge is a goal of the first year of the curriculum.

Biomedical science courses extend into the second year; however, the major thrust of the second year is devoted to pre-clinical technique coursework of increasing complexity. In the preclinical laboratory courses, students continue learning the fundamental procedures of dentistry: operative dentistry, prosthodontics (fixed and removable), and endodontics. Clinically, students are introduced to the basic essential skills needed in preventive periodontics. Classroom lecture sessions are also conducted in each of these areas of dentistry along with didactic courses in periodontics, oral diagnosis, oral radiology, and oral surgery.

The primary emphasis of the third year of the curriculum is the clinical practice of dentistry. The general clinic is organized into subunits called teams. Each team includes an established set of faculty and staff. Patients are assigned to students for comprehensive care, from diagnosis and treatment planning through procedures necessary for successful case completion. While the emphasis of the third and fourth years of the dental curriculum is gaining clinical experience, students also attend advanced classes in periodontics, prosthodontics, oral surgery, orthodontics, pediatric dentistry, operative dentistry and oral diagnosis/oral medicine.

The fourth year involves extensive clinical practice. There are a few seminar sessions and formal courses (e.g., practice management), but the student's major responsibility is to perfect diagnostic, patient-management and technical-treatment skills and demonstrate competence in all the skills required by the faculty of the School of Dentistry.

An outline of the four-year curriculum by semester is given below.

Cost Estimates

The estimated cost (exclusive of living costs) for the four-year D.D.S. curriculum at the School of Dentistry is $166,747. The amount is based on fees established and costs existing at the time of printing. This is itemized by type of expense and by year.

Note: Educational fees and books/equipment costs are subject to change without notice.

Non-resident students are assessed an additional $13,431 each fall and spring semester and $6,715 for each of the two summer terms.

Agreements are in place for residents of Kansas, Arkansas, New Mexico and Hawaii to receive waivers of the non-resident fees.

Tuition/Fee Policy for Elective Coursework Outside the School of Dentistry

The dental “flat-rate” tuition and fees only applies to required courses within the DDS program. Dental students who elect to enroll in courses other than those required as part of the DDS curriculum will pay tuition and fees for those courses.

A dental student's primary academic responsibility is successfully meeting the curricular expectations of the DDS program. Any coursework taken outside the curriculum requires that a student is in good standing and must be pre-approved by the Associate Dean for Academic Affairs.

Elective enrollment in coursework outside the School of Dentistry is not suggested during fall & spring semesters in years 1 & 2. Additionally enrollment in courses other than dental courses during preparation for National Board Part 1 (Summer D3) and National Boards Part II (Fall D4) should be limited.

Dental students considering coursework outside the dental curriculum should also consider the financial aid implications of the additional course work. Students should work closely with the Student Financial Aid Office. The student would only be eligible for DDS financial aid, although Grad Plus loans may be available to select students.

Student Organizations/Activities

Dental students qualify for membership in a variety of student organizations. Most are affiliated with national dental organizations. Students can also participate in other non-dentistry oriented organizations.

Active student organizations within the school include:

- American Academy of Pediatric Dentistry
- American Association of Women Dentists
• Student American Dental Hygienist’s Association
• UMKC Student Council
• Student National Dental Association
• Hispanic Dental Association
• Students Take Action
• UMKC Chapter of the Academy of LDS Dentists
• Interfraternity Council
• Delta Sigma Delta Fraternity
• Psi Omega Fraternity
• Xi Psi Phi Fraternity
• Student Professionalism & Ethics Association
• Christian Medical-Dental Association
• American Association for Dental Research-Student Research Group

Faculty

Susan A. Adler\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=adler}\); professor emeritus of education; B.A. (State University of New York-Buffalo); M.A., Ph.D. (University of Wisconsin).

Edwin R. Bailey; professor emeritus of education; A.B., B.S., M.A. (Western Michigan University); Ph.D. (Michigan State University).

Carolyn Barber\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=barber}\); assistant professor of educational psychology; B.A. (Johns Hopkins University); M.A. and Ph.D. (University of Maryland-College Park).

Rita Barger\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=barger}\); associate professor of education; B.S., M.A., Ph.D. (University of Missouri-Columbia); M.S. (Drury College).

Clare Bell\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=bell}\); assistant professor of education; B.M. (Cleveland Institute of Music); M.A., Ph.D. (The Ohio State University).

LaVerne A. Berkel\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=berkel}\); associate professor of education and associate dean; B.S. (Oakwood College); M.A. (New York University), Ph.D. (The Pennsylvania State University).

Dea Bermudez Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=bermudez}\); field placement coordinator; B.A. (University of Missouri-Columbia); M.Ed. (Northern Arizona University).

Valerie Blackwell Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=blackwell}\); teaching professor; B.A., M.A., Ph.D. (University of Missouri-Kansas City).

Wanda Blanchett Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=blanchett}\); dean, school of education, and professor of education and Ewing Marion Kauffman/Missour Endowed Chair in Teacher Education; B.S.E., M.S.E. (University of Central Arkansas); Ph.D. (The Pennsylvania State University).

S. Wheadon Bloch; professor emeritus of education; B.S., M.S. (Louisiana State University); M.S., Ph.D. (University of Wisconsin).

Chrisanthia Brown\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=brown}\); professor of education; B.S. (University of California at Los Angeles); M.S. (California State University-Long Beach); Ph.D. (University of Missouri-Kansas City).

Bonita Butner Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=butner}\); associate professor of education; B.S. (Central Missouri State University); M.A.,Ed.S. (University of Missouri-Kansas City); Ph.D. (University of Missouri-Columbia).

Loyce Caruthers\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=caruthers}\); associate professor of education; B.A., M.A., Ed.S., Ph.D. (University of Missouri-Kansas City).

Donna M. Davis\(^2,3\) Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=davis}\); associate professor of education; B.A. (San Jose State University); M.S., Ph.D. (University of Kansas).

Tricia DeGraff Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=degraff}\); assistant teaching professor; B.A. (Washington University); M.S. (University of Wisconsin-Madison).

J. Joseph Doerr; professor emeritus of education; B.S. (Northern Illinois University); M. Ed. (Kent State University); Ed.D. (University of Missouri-Columbia).

Richard S. Dunlop; professor emeritus of education; B.A., M.A. (San Diego State University); Ed.D. (Arizona State University).

Mary Phyl Dwight Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=dwight}\); clinical assistant professor, B.S. (Southwest Missouri State University); M.S. (Kansas State University).

Linda Edwards Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=edwards}\); dean emeritus, school of education, and professor emeritus of education; B.A. (University of Missouri-Kansas City); M.S. Ed., Ed.D. (University of Kansas).

Phyllis Esposito Contact Information \(\text{http://www.umkc.edu/lookup/search.cfm?LastName=esposito}\); assistant teaching professor; B.A., M.A. (Rockhurst University); Ph.D. (Kansas University).
Jennifer Friend Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=friend); associate professor of education; B.A., M.A., Ph.D. (University of Missouri-Kansas City).

Cheryl Grossman associate professor emeritus of education; B.A. (Long Island University); M.A. (New York University); Ph.D. (University of Iowa).

Gail Hackett Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hackett); provost and executive vice chancellor for academic affairs, and professor of education; B.A., M.Ed., Ph.D. (The Pennsylvania State University).

Erica Hernandez-Scott Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hernandez); assistant teaching professor; B.A. (Rockhurst University); M.A. (University of Missouri-Kansas City).

Shirley Hill; curators' professor emeritus of education and mathematics; B.A. (University of Missouri-Columbia); M.A. (University of Missouri-Kansas City); Ph.D. (Stanford University).

Etta Hollins Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=hollins); professor of education and Kauffman Endowed Chair for Urban Teacher Education; B.S.Ed. (Pittsburg State University); M.S.Ed. (University of Washington); Ph.D. (University of Texas-Austin).

Helen Huus; professor emeritus of education; B.A. (University of Northern Iowa); M.A., Ph.D. (University of Chicago).

Arthur Gus Jacob Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=jacob); clinical assistant professor of education; B.S., M.S. (Emporia State University); Ed.D. (University of Kansas).

Don A. Knight; professor emeritus of education; B.S. (Southern Utah University); M.A. (University of Utah); Ed.D. (Wayne State University).

Jack P. Krueger; professor emeritus of education; B.A., M.A. (University of Nebraska-Kearney); Ed.D. (University of Nebraska-Lincoln).

James R. Kuechler; assistant professor emeritus of physical education; B.S., M.Ed. (University of Missouri-Columbia).

Ellen Lavelle Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=lavelle); associate research professor; B.A., M.S.Ed., Ph.D. (Southern Illinois University).

Robert Leachman Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=leachman); program director; B.S.Ed. (Northwest Missouri State University); M.A. (University of Missouri-Kansas City); Ed.S. (Central Missouri State University); Ed.D. (University of Missouri-Columbia).

Robert E. Leibert; professor emeritus of education; B.S. (State University of New York-New Paltz); M.S. (University of Pennsylvania); Ed.D. (Syracuse University).

Daniel Urey Levine; professor emeritus of education; B.A., M.A., Ph.D. (University of Chicago).

William A. Lewis; professor emeritus of education; B.S., M.S., Ed.D. (University of Illinois).

Nathan Lindsay; Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=lindsay); assistant vice provost for assessment and assistant teaching professor; B.A. (Brigham Young University); M.S. (Indiana University); Ph.D. (University of Michigan).

Malcolm E. Linville Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=linville); professor emeritus of education; B.A., M.A., Ph.D. (University of Missouri-Kansas City).

Kathryn E. Loncar Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=loncar); associate professor emeritus of education; B.M.Ed. (Saint Mary College); M.A., Ph.D. (University of Missouri-Kansas City).

Anthony V. Manzo; professor emeritus of education; B.A. (St. John's University); M.S. (Hofstra University); Ph.D. (Syracuse University).

Jacob Marszalek Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=marszalek); associate professor of educational psychology; B.A. (Illinois State University); M.S. (Emporia State University); Ph.D. (University of Illinois at Urbana-Champaign).

Zachary McCall Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mccall); assistant professor of education; B.A. (Missouri State University); M.A. Humanities (University of Chicago); M.A. Special Education (University of Missouri-Kansas City); Ph.D. (University of Kansas).

S. Marie McCarther Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=mccarther); assistant professor of education; B.A. (Wilkes University); M.A., Ed.S. (University of Missouri-Kansas City); Ed.D (University of Cincinnati).

Donald W. Mocker; dean emeritus, school of education, and professor emeritus of education; B.S. (Missouri Valley College); M.S. (University of Missouri-Columbia); Ed.D. (State University of New York-Albany).

Nancy L. Murdock Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=murdock); professor of education; B.S., M.S., Ph.D. (Virginia Commonwealth University).
Gary W. Nahrstedt; professor emeritus of education; B.A. (Florida State University); M.S., Ed.D. (Auburn University).

Frank W. Neff; associate professor emeritus of education; B.A., M.S. (Indiana University); Ed.D. (Columbia University).

Johanna E. Nilsson2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=nilsson); associate professor of education; B.A. (Roger Williams University); M.A., Ed.S. (State University of West Georgia); Ph.D. (Western Michigan University).

Elizabeth Noble; assistant professor emeritus of education; B.A., M.A., Ph.D. (University of Missouri-Kansas City).

Louis Odom2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=odom); professor of education, B.S., B.A., M.Ed. (University of Arkansas); Ph.D. (University of Missouri-Columbia).

Ann Pace Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pace); associate professor emeritus of education; B.A., M.S.Ed. (University of Pennsylvania); Ph.D. (University of Delaware).

Joseph Parisi2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=parisi); assistant professor of music (music education, instrumental music); B.M. (State University College of New York at Potsdam); M.M. (Florida State University); Ph.D. (Florida State University).

Robert D. Paul; associate professor emeritus of education; B.S. (South Dakota State University); M.Ed., Ed.D. (University of Florida).

Uzziel Pecina Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pecina); assistant teaching professor; B.A., M.S.Ed. (Kansas State University); Ed.D. (University of Missouri-Columbia).

Cynthia Pemberton Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=pemberton); vice provost for academic affairs, and professor of education; B.S. (Missouri State University); M.S. (Kansas State University); Ph.D. (University of Illinois).

Sheri Robb2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=robb); assistant professor of music (music therapy); B.M. (Florida State University); M.E. (Auburn University); Ph.D. (University of Kansas).

Charles R. Robinson2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=robinson); assistant professor of music (music education, choral music); B.M.E. (Florida State University); M.A. (California State University, Long Beach); Ph.D. (Florida State University).

Dennis Schemmel; associate professor emeritus of education; B.A. (Loras College); M.Ed. (Marquette University); Ph.D. (Ohio University).

Candace Schlein; assistant professor of education; B.A., B.Ed. (McGill University); M.Ed., Ph.D. (University of Toronto).

Cynthia Schmidt2 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=schmidt); assistant professor of education; B.A. (St. Mary’s College); M.S. (The Johns Hopkins University); Ph.D. (University of Wisconsin-Madison).

Monika Williams Shealey Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=shealey); associate professor and associate dean of teacher education; B.S., M.A. (University of South Florida); Ed.S. (University of Miami); Ph.D. (University of Central Florida).

John K. Sherk, Jr.; professor emeritus of education; B.S. (Pennsylvania State University); M.S. (Temple University); Ph.D. (Syracuse University).

Dianne Smith2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=smith); professor of education; B.S., M.Ed. (Winthrop College); Ph.D. (Miami University).

William C. Smith; professor emeritus of education; A.B. (St. Benedict’s College); M.S. (Kansas State University); Ph.D. (University of Missouri-Kansas City).

George D. Spear; associate professor emeritus of education; B.A. (Baker University); M.A. (University of Missouri-Kansas City); Ph.D. (University of Michigan).

Raol Taft Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=taft); assistant professor of education; B.A. (Metropolitan State College); M.A. (University of Illinois at Urbana-Champaign); Ph.D. (The Pennsylvania State University).

Carolyn Thompson2,3 Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=thompson); associate professor of education; B.A. (San Francisco State); M.A. (Mills College); M.A., Ph.D. (University of California-Los Angeles).

Mark Turner Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=turner); assistant teaching professor and student recruiter; B.A. (Park University); M.A. (Webster University).

Priscilla Tyler; professor emeritus of education and English; B.A. (Radcliffe College); M.A., Ph.D. (Case Western Reserve University).

Priscilla Tyler; professor emeritus of education and English; B.A. (Radcliffe College); M.A., Ph.D. (Case Western Reserve University).
Omiunota Ukpokodu Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=ukpokodu); professor of education; B.S., M.A., M.S., PhD. (University of Kansas).

Edward Underwood Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=underwood); associate professor of education and Kauffman Endowed Chair; B.S., M.S. (Kansas State College); Ed.D. (University of Cincinnati).

Sue Vartuli Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vartuli); associate professor of education; B.S. (State University of New York-Oneonta); M.S., Ph.D. (Ohio State University).

Jennifer Waddell Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=waddell); assistant professor of education; B.A. (University of Montana); M.A., Ph.D. (University of Missouri-Kansas City).

Kenneth Webster; retired assistant professor of physical education; B.E.Ed., M.S.Ed. (Central Missouri State University).

Youfu (Michael) Wei Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wei); associate professor of teaching English to speakers of other languages; B.A. (Yunnan University of the Nationalities in China); M.A. (Naresuan University in Thailand); M.A. and Ph.D. in TESOL (University of Maryland-College Park).

Gary E. Widmar Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=widmar); former vice chancellor for student affairs and professor emeritus of education; B.S. (Illinois State University); M.Ed. (University of Illinois); Ph.D. (Florida State University).

Denise Wiedemann Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=wiedemann); project director; B.S., M.S. (University of Southern Connecticut); M.Ed. (Ashland University).

Lindsey Williams Contact Information; (http://www.umkc.edu/lookup/search.cfm?LastName=williams) assistant professor of music education; B.M.E., M.M.E. (University of Kansas); Ph.D. (Florida State University).

Raymond G. Williamson; professor emeritus of education; B.S. (Northeast Missouri State University); M.S. (Central Missouri State University); Ph.D. (University of Missouri-Kansas City).

Joseph L. Wolff; professor emeritus of education; B.A. (University of Chicago); M.A., Ph.D. (Indiana University).

Debra Woodard Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=woodard); assistant teaching professor; B.A. (Ottawa University); M.A. (Emporia State University).

• Master of Arts: Language and Literacy
• Master of Arts: Special Education
• Educational Specialist: Educational Administration
• Educational Specialist: Counseling and Guidance
• Educational Specialist: Curriculum and Instruction
• Educational Specialist: Language and Literacy
• Educational Administration, Ed.D.
• Counseling Psychology, Ph.D.
• Interdisciplinary, Ph.D. (p. 484)

Accreditation

The teacher education programs of the School of Education are accredited at the bachelor’s, master’s, educational specialist and doctoral levels by the National Council for Accreditation of Teacher Education for the preparation of elementary teachers, secondary teachers and other school personnel. Continuing accreditation was granted in Spring 2012.

The School of Education is a member of the American Association of Colleges of Teacher Education.

The Ph.D. program in Counseling Psychology is accredited by the American Psychological Association.

Programs for the preparation of teachers and other school personnel are approved by the Missouri Department of Elementary and Secondary Education.

Admission to the Teacher Education Program

In order to meet state and national accreditation standards, the implementation of an electronic assessment system is required to measure the knowledge, skills, and dispositions of teacher candidates. The UMKC School of Education has implemented LiveText in order to meet this requirement. LiveText allows for the tracking of students’ progress throughout their careers in the School of Education as well as how that progress relates to the relevant educational standards met by individual programs.

Students receive other benefits from LiveText, including:

• An online document storage area available anywhere with an internet connection, and the ability to share stored documents with fellow students
• A system for creating and sharing professional portfolios that can be disseminated to potential employers

LiveText is used to assist students in the collection, preservation, organization, evaluation, and dissemination of activities, assignments, pieces of evidence, and reflections that are associated with competencies and standards. Information about the School of Education assessment system can be found at this link (http://education.umkc.edu/LiveText).

As part of its assessment system, the School of Education has adopted the Social Equity Essay as a written assessment to measure candidates’ dispositions on issues such as social justice and equity. The written prompt will be administered at program entry and program exit. All responses are confidential and will not be used in making grading decisions.

Students new to UMKC should send transcripts and applications for admission to:

UMKC Office of Admissions
5100 Rockhill Road
Kansas City, MO 64110-2499

Current UMKC students or transfers interested in applying to the professional Teacher Education program should following the instructions below:

Students seeking entry into the professional teacher preparation program should apply for admission to the School of Education when they anticipate completion of the majority of their prerequisite coursework with a cumulative 2.75 GPA. Applications for all Teacher Education programs are due
by the end of the fall semester for admission the subsequent summer or fall semester. Specifics on the application process may be found at http://education.umkc.edu/students/admissions/.

1. Initial admission at the freshman or sophomore level will be as a pre-education major to the School of Education in accordance with regular UMKC admissions standards. For students interested in music education, admission will be to the Conservatory of Music and Dance, which is discussed further in that section of the catalog.

2. Admission to Teacher Education:
   - Completion of a majority of specific prerequisite and subject area coursework with a 2.75 cumulative GPA, a 3.0 content and 3.0 professional GPA
   - Score results from the ACT or SAT (if graduated from high school in past 5 years)
   - A score of 235 or greater on each segment of the College Basic Academic Subjects Examination (C-BASE) (NOTE: CBASE will be replaced with a new standardized test beginning in August of 2014)
   - Completion of an oral communications class, English Composition I & II and a required math class or its equivalent with grades of C or better (students who have less than a C grade in mathematics may take the subject area CLEP)
   - Clearance of an FBI background check as required by the Missouri Department of Elementary and Secondary Education
   - Interview
   - Acceptance by the Teacher Education Admissions Committee based on one essay selected from prompts on the application form and two letters of recommendation indicating an appropriate disposition to educating children
   - Passing scores on the appropriate PRAXIS II content knowledge exam are required for admission to the middle school, secondary and K-12 programs. (PRAXIS requirements will be changing after August 2014)

3. Admission to student teaching requires:
   - Recommendations from teachers.
   - A cumulative 2.75 GPA.
   - A content (subject) area 3.0 GPA (if relevant)
   - Completion of all education courses with grades of C or better.
   - Students must pass an FBI background check as required by the Missouri Department of Elementary and Secondary Education.

**Post-Baccalaureate Programs**

Students who have earned a degree in another field and wish to become certified teachers should apply to the Teacher Education program by the process outlined above. Academic work completed prior to admission will be reviewed on a course-by-course basis. Coursework in the subject area and the professional education sequence is required of all students as are general education courses specifically required for certification.

**Advising and Student Services**

The School of Education Student Services Office mission is to facilitate student success by providing quality services and support in the spirit of building a community of learners. The office is a resource for all School of Education students, providing program information as well as referrals to other campus resources and services. Primary responsibilities are to provide quality advising for undergraduates and to coordinate the processing of certification. The staff also assists with recruitment events, contact with prospective students, freshmen and transfer orientation, admissions to teacher education, School of Education scholarship materials, commencement and other student-centered activities.

Academic advisors are available to meet with undergraduate education majors and those seeking teacher certification. Academic advisors can be reached by contacting Student Services in person in room 129 Education, by phone at (816) 235-2234 or by e-mail at education@umkc.edu.

Graduate students are encouraged to contact their department within the first semester to connect with their faculty advisor.

**Bachelor of Arts: Early Childhood Education**

**Student Learning Outcomes**

The School of Education subscribes to the Missouri Standards for the Preparation of Educators found at the Missouri Department of Elementary and Secondary Education website - www.dese.mo.gov (http://www.dese.mo.gov).

**Missouri Standards for the Preparation of Educators (MoSPE)**

**Program Standards**

- **Standard 1 – Academics:** Candidates demonstrate knowledge and application of general education, content knowledge, and pedagogy.
- **Standard 2 – Design and Assessment:** The data from fair, valid, and reliable assessments will be used to measure the performance of candidates and educator preparation programs by program and certification areas.
• Standard 3 – Field & Clinical Experiences: Field and clinical experiences, offered in collaboration with PK-12 schools, support the development of educators.

• Standard 4 – Candidates: A diverse pool of candidates, who demonstrate potential for effectiveness as educators are recruited, admitted, developed and retained by educator preparation programs.

• Standard 5 – Faculty: Educator preparation faculty are qualified for their assignments, recruited from diverse populations, and model effective professional practices in teaching, learning, scholarship, and service.

• Standard 6 – Operations and resources: Operations and resources are necessary to govern, develop, support, and maintain the educator preparation program.

Program Requirements

Students who complete this program will earn the bachelor of arts in early childhood education (birth to grade 3). Successful completion of this program includes a professional teacher work sample. This results in eligibility for UMKC’s recommendation for teacher certification in a self-contained early childhood/elementary classroom setting with children birth through grade three in Missouri, contingent on meeting state testing requirements. Completing four additional classes (10 credit hours) will allow certification for grades 1-6.

A 2.75 cumulative GPA, 3.0 content GPA and 3.0 professional GPA is required at completion of the program. Grades of C or better are required in all professional education classes. Consult with an academic advisor to determine specific course requirements.

Requirements for the B.A. Early Childhood Education (http://education.umkc.edu/documents/fetch/40)

Graduation Requirements Early Childhood Education

• Completion of at least 120 credit hours including all course work listed (although your program may require more than 120 credits)
• RooWriter Exam completed
• Passing score on Praxis II or designated assessment: Education of Young Children examination
• Teacher Work Sample
• Exit Interview
• Q-Sort Belief Measure
• Social Equity Prompt

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts: Elementary Education

Student Learning Outcomes

The School of Education subscribes to the Missouri Standards for the Preparation of Educators (MoSPE) which can be found on the website of the Missouri Department of Elementary and Secondary Education - www.dese.mo.gov (http://www.dese.mo.gov).

Program Standards

• Standard 1 – Academics: Candidates demonstrate knowledge and application of general education, content knowledge, and pedagogy.

• Standard 2 – Design and Assessment: The data from fair, valid, and reliable assessments will be used to measure the performance of candidates and educator preparation programs by program and certification areas.

• Standard 3 – Field & Clinical Experiences: Field and clinical experiences, offered in collaboration with PK-12 schools, support the development of educators.

• Standard 4 – Candidates: A diverse pool of candidates, who demonstrate potential for effectiveness as educators are recruited, admitted, developed and retained by educator preparation programs.

• Standard 5 – Faculty: Educator preparation faculty are qualified for their assignments, recruited from diverse populations, and model effective professional practices in teaching, learning, scholarship, and service.
• Standard 6 – Operations and resources: Operations and resources are necessary to govern, develop, support, and maintain the educator preparation program.

Program Requirements

Students who complete this program will earn the bachelor of arts in elementary education. Successful completion of this program includes a teacher work sample and meeting Missouri state certification testing requirements. This results in eligibility for UMKC’s recommendation for elementary certification (grades first-sixth) in Missouri.

A 2.75 cumulative GPA, a 3.0 professional GPA and a 3.0 content GPA is required at completion of program. Grades of C or better are required in all subject matter and professional education classes. Consult with an academic advisor to determine specific course requirements.

Bachelor of Arts Elementary Education Course Requirements (http://education.umkc.edu/documents/fetch/41)

Graduation Requirements Elementary Education

• Completion of at least 120 credit hours including all course work listed (although program may require more than 120 credits)
• Written English Proficiency Test passed
• Passing score on Praxis II: Elementary Education: Curriculum, Instruction and Assessment examination
• Teacher Work Sample
• Social Equity Prompt

• Standard 6 – Operations and resources: Operations and resources are necessary to govern, develop, support, and maintain the educator preparation program.

Program Requirements

The Bachelor of Arts in Middle School Education is taken with an emphasis in the subject area to be taught. Successful completion of this program includes a teacher work sample and meeting Missouri state certification testing requirements. This results in eligibility for UMKC’s recommendation for middle school education certification (grades 5-9) in Missouri. The subjects available include:

• English
• Mathematics
• Science
• Social Studies

General education and subject matter requirements will vary with the field to be taught. Students must consult with an advisor to determine specific requirements. Students who already have a bachelor’s degree may be required to complete subject area requirements that were not part of their prior degree program in addition to the professional education requirements. Students must consult with an advisor concerning specific requirements. Students may complete 30 hours in a single discipline, or 21 hours in each of two separate disciplines for certification.

A 2.75 cumulative GPA, 3.0 content GPA and 3.0 professional GPA is required at completion of the program. Grades of C or better are required in all subject matter and professional education classes.

**Bachelor of Arts Middle School Education Course Requirements** (http://education.umkc.edu/documents/fetch/46)

In addition to the courses listed above, at least one Content Field must be selected from the following:

**Content Requirements for Middle School English Language Arts**

- RooWriter
- Missouri Department of Elementary and Secondary Education (DESE) approved content assessment
- Completion of requirements by DESE
- Social Equity Prompt

Tools for Planning and Filling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.
UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Bachelor of Arts: Secondary Education

Student Learning Outcomes

The School of Education subscribes to the Missouri Standards for the Preparation of Educators (MoSPE) which can be found on the website of the Missouri Department of Elementary and Secondary Education - www.dese.mo.gov (http://www.dese.mo.gov).

Program Standards

- **Standard 1 – Academics:** Candidates demonstrate knowledge and application of general education, content knowledge, and pedagogy.
- **Standard 2 – Design and Assessment:** The data from fair, valid, and reliable assessments will be used to measure the performance of candidates and educator preparation programs by program and certification areas.
- **Standard 3 – Field & Clinical Experiences:** Field and clinical experiences, offered in collaboration with PK-12 schools, support the development of educators.
- **Standard 4 – Candidates:** A diverse pool of candidates, who demonstrate potential for effectiveness as educators are recruited, admitted, developed and retained by educator preparation programs.
- **Standard 5 – Faculty:** Educator preparation faculty are qualified for their assignments, recruited from diverse populations, and model effective professional practices in teaching, learning, scholarship, and service.
- **Standard 6 – Operations and resources:** Operations and resources are necessary to govern, develop, support, and maintain the educator preparation program.

Program Requirements

The Bachelor of Arts in Secondary Education is to be taken with an emphasis in the subject to be taught. Dual degrees in secondary education and subject area are possible with additional coursework. Check with an advisor for specific information. Successful completion of this program includes a teacher work sample and meeting Missouri state certification testing requirements. This results in eligibility for UMKC’s recommendation for secondary education certification (grades 9-12) in Missouri. The subjects available include:

- Art (K-12)
- Biology
- Chemistry
- Earth Science
- English
- Foreign Language (K-12; French, German, Spanish)
- Mathematics
- Physics
- Social Sciences

*Note:* Music Education majors should check degree requirements with the Conservatory of Music and Dance.

General education and subject matter requirements vary with the field to be taught. Students must consult with an advisor to determine specific requirements. Students who already have a bachelor’s degree may be required to complete subject area requirements that were not part of their prior degree program in addition to the professional education requirements.

Subject Matter Areas

Students must consult with their academic advisor concerning specific requirements. Typically between 30 and 50 hours of subject matter specific coursework is required to attain the subject major.

A 2.75 cumulative GPA, 3.0 content GPA and 3.0 professional GPA is required at completion of the program. Grades of C or better are required in all subject matter and professional education classes. Consult with an academic advisor to determine specific course requirements.

Secondary Education Course Requirements (http://education.umkc.edu/programs/view/22)

In addition to the courses listed above, each student must select a content area and complete specific content area course work and testing.

Course Requirements for Secondary Education Art

*Students will receive certification to teach K-12 art upon completion of this program.*
ART 112  Foundation Drawing  3
ART 114  Foundation Digital Design  3
ART 121  Foundation 2D Design  3
ART 131  Foundation 3D Design  3
ART 212  Intermediate Drawing  3
ART 221  Painting I  3

Select one of the following:  3

<table>

Tools for Planning and Fulfiling Academic Requirements

UMKC’s Major Maps (http://www.umkc.edu/majormaps) are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major.

UMKC’s Degree Audit System (http://www.umkc.edu/registrar/majors-degrees/dars.asp) provides an individual evaluation of all degree requirements (General Education Core, Degree Specific, Major Specific, etc.) for student’s officially recorded (Office of Registration and Records) and “what if” plans of study. This evaluation is used to certify all graduation requirements.

Centers and Projects

Berkley Child and Family Development Center

The Berkley Child and Family Development Center provides quality care and education for young children and serves as a research training site for UMKC students. The center is administered through the School of Education and is part of the academic unit. It is accredited through the National Association for the Education of Young Children and licensed by the state of Missouri. Enrollment is open to the University population and the community for children ages 3 months to 6 years old. During the summer, programming is also provided for children ages 6 to 11 years old. Tuition assistance scholarships are available and are awarded based upon financial need. The center is accessible to children with special needs. To inquire about enrollment or a tour of the facility call (816) 235-2600.

Center for Economic Education

The UMKC Center for Economic Education is one of a network of centers across the state and nation that promotes economic and financial education in schools. The Center is affiliated with the Missouri Council on Economic Education, which in turn is a part of the National Council for Economic Education. The UMKC Center for Economic Education’s mission is to serve the economic education needs of teachers and their students. The Center achieves its mission through development and delivery of undergraduate/pre-service teacher training, in-service teacher training, student and community programs, and web-based resources and programs.

Charter School Center

As part of UMKC’s vision of active engagement with its city and its mission to collaborate in urban issues and education, the UMKC Charter School Center was created to:

• Establish and assist in the development of high quality urban schools that will retain and attract families with school-age children within the Kansas City Missouri School District.
• Sponsor charter schools which address safe and orderly climates, high attendance, increased parent involvement, high academic achievement, and effective governance practices to ensure this is the norm for all students regardless of economic standing, race, culture, or gender.
• In exchange for greater autonomy, the charter schools sponsored by UMKC are more accountable for student achievement, fiscal responsibility, and legal compliance.
• Provide schools of choice for parents and students which could encourage more effective practices and collaboration throughout the Kansas City Missouri School District.
Kansas City Regional Professional Development Center (KCRPDC)
The Kansas City Regional Professional Development Center (KCPDC) is one of nine regional professional development centers in Missouri, partially funded by the Department of Elementary and Secondary Education and serving schools, districts and educators in the Kansas City region. The mission of the KCPDC is to build the capacity of educators to maximize student performance through high quality professional development. The Center oversees several state and federally funded projects:

Migrant Education and English Language Learning (MELL)
The Missouri Migrant Education and English Language Learning program (MELL) is designed to use existing resources to better serve all English Language Learning (ELL) and migrant students in the state of Missouri. The MELL program works to prevent duplicate services and allows most funds to swiftly reach any and all Missouri school districts with children of need.

Missouri School-Wide Positive Behavior Support
Missouri School-wide Positive Behavior Support is a partnership among the Missouri Department of Elementary and Secondary Education (DESE), The University of Missouri-Columbia (MU) Center for School-wide Positive Behavior Support and the Office of Special Education Programs (OSEP) Center on Positive Behavioral Interventions and Supports, University of Oregon and Connecticut. The program facilitates teachers and administrators in implementing a behavior culture and climate to increase learning.

NASA Education Resource
Missouri’s NASA Resource Center is located at Southeast Missouri State University in Cape Girardeau. UMKC hosts a Regional Resource consultant who provides resources and instructional lessons and support in Science.

Special Education Consultants
The KCPDC provides technical assistance and instructional support to special education teachers and administrators. Services include supporting effective practices, compliance, post-secondary transition planning, and MAP-A.

Professional Learning Communities
This Missouri Professional Learning Communities Project (PLC) evolved from the Missouri Accelerated Schools Project which had served as a school reform initiative for many years. PLC consultants work with building leadership teams during a multi-year process to implement school-wide reform.

Curriculum, Instructional and Assessment Support
Consultants at the KCPDC are available to assist teachers and administrators in reviewing, designing and implementing effective curriculum, instructional strategies and assessments.

Curricula Objectives
The UMKC School of Education has been committed to professional education in the Kansas City metropolitan area for 60 years. Throughout the School’s history, faculty have an established record of involvement in educational reform - exemplified through innovative teaching methods, action-based research, and community-focused programs preparing teachers, administrators, and mental health professionals for the challenges in urban communities today and for the future.

The primary objectives of the School of Education, which stem from our conceptual framework, mission, and values, are:

• To provide sound theoretical foundations and practical skills at the undergraduate and graduate levels required for competent performance by teachers, administrators and special-services personnel in schools, colleges and universities in a culturally pluralistic society.
• To provide graduate education and research skills which are supportive of and lead to advanced levels of scholarly achievement.
• To provide a diversity of specialized education and training programs for persons engaged in educational roles in non-school settings such as governmental agencies, social service agencies, mental and physical health care institutions, business and industrial organizations and private practice.
• To provide leadership, consultation and other support services for quality improvement in planning and conducting educational programs in schools, higher education institutions, and community agencies and organizations.
• To provide professional development opportunities for educators at all levels through specially designed programs in research, continuing education instruction, in-service programs and workshops.
• To impact the student learning in classrooms and communities throughout Missouri and the Kansas City metropolitan region in positive and meaningful ways.
• To make original contributions to the broad field of professional education through basic and applied research by both faculty and students with specific emphasis on issues of urban education.
Division of Counseling and Educational Psychology

Chair:
Chris Brown, Ph.D. Contact Information (http://www.umkc.edu/lookup/details.cfm?id=%28%26%3D%3F7%5F%40%24%2CU%2DT%20%0A)(816) 235-2491

Areas of Study and Degrees

- M.A. Counseling and Guidance; Emphasis Areas: School Counseling, Mental Health Counseling, and Couples and Family Counseling (p. 453)
- Ed.S. Counseling and Guidance; Emphasis Areas: School Counseling, General Mental Health (p. 437)
- Ph.D. Counseling Psychology (p. 472)

Faculty Scholastic Activity and Research Interests

The faculty in Counseling and Educational Psychology embodies a diverse gathering of expertise and interest. Faculty members conduct research in a wide variety of counseling and education-related areas, direct grant programs, and counsel clients in therapy. Individual and cultural diversity is paramount to the division, and faculty members attend to diversity issues in both coursework and research. Faculty members are invested in advising students in research, evaluation and counseling endeavors in order to help them achieve their educational goals.

Division of Curriculum and Instructional Leadership

Chair:
Rita Barger, Ph.D. Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=vartuli)(816) 235-5655

Areas of Study and Degrees

- B.A. Early Childhood Education (p. 414)
- B.A. Elementary Education (p. 415)
- B.A. Middle School Education (p. 416) (English, Mathematics, Natural Science, Social Studies)
- B.A. Secondary Education; Certification areas: Art, English, Foreign Language (French, German, Spanish), Mathematics, Natural Sciences (Biology, Chemistry, Earth Science, Physics) and Social Studies (p. 419)

Undergraduate students may also elect to pursue a dual degree between Education and Arts and Sciences. Secondary education majors may earn a B.A. or B.S. degree in a major in the College of Arts and Sciences. Elementary and early childhood education majors may earn a bachelor of liberal arts degree in the College of Arts and Sciences. Contact the advising office of the College of Arts and Sciences for more details.

- M.A. Curriculum and Instruction; Emphasis Areas: Early Childhood, Elementary, General, Multicultural Education, Subject Matter Specialty and Teaching English to Speakers of Other Languages (p. 456)
- M.A. Language and Literacy (p. 470)
- M.A. Special Education (Mild/Moderate Cross-Categorical Disabilities) (p. 471)
- Ed.S. Curriculum and Instruction (p. 440)
- Ed.S. Language and Literacy (p. 444)
- Ph.D. Interdisciplinary (Curriculum and Instruction and other disciplines) (p. 505)

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   - Teachers recognize individual differences in their students and adjust their practice accordingly.
   - Teachers have an understanding of how students develop and learn.
   - Teachers treat students equitably.
   - Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   - Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   - Teachers expose their students to different modes of critical thinking.
   - Teachers teach students to think analytically about content.
   - Teachers command specialized knowledge of how to convey a subject to students.
   - Teachers generate multiple paths to knowledge.
   - Teachers have knowledge of available curricular resources including technological innovations.
3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
   - Teachers call on multiple methods to meet their goals.
   - Teachers orchestrate learning in small and large group settings.
   - Teachers place a premium on student engagement.
   - Teachers regularly assess student progress.
   - Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   - Teachers are continually making difficult choices that test their judgment.
   - Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   - Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
   - Teachers contribute to school effectiveness by collaborating with other professionals.
   - Teachers work collaboratively with parents.
   - Teachers take advantage of community resources.

**Student Academic Assessment Policy**

The National Council for Accreditation of Teacher Education, the accreditation body for the School of Education, has standards which require that candidates demonstrate the knowledge, skills and professional dispositions necessary for educators and educational leaders. The academic assessment of a student in the School of Education is a significant event for both the student and the faculty. It represents an evaluation by the faculty of student competency in academic skills and/or in other critical areas of professional conduct.

At any point during the student’s matriculation through the program, the faculty retains the right to review any student behavior that may affect the welfare of the student or others. Such a review may result in the student being encouraged to receive additional support and assistance or possibly not being permitted to continue in the program. The following are offered as examples of behaviors that are the basis for evaluation of student progress:

1. Failure to maintain academic standards (e.g., 3.0 GPA).
2. Academic dishonesty (e.g., cheating, plagiarism).
3. Unethical or unprofessional behavior which could include but is not limited to, dishonesty; lack of collegiality, cooperation, or responsibility; inability to handle stress; abrasiveness; lack of timeliness; to name a few.
4. Behaviors that obstruct the leadership process and/or threaten the welfare of the student or others (e.g., verbal abuse, physical abuse, active substance abuse).
5. Failure to comply with established University or Program timetables, requirements, and policies (e.g., failure to meet time limits for completion of degree program).
6. Violation of federal, state, or local laws on UMKC premises or at UMKC sponsored or supervised activities.
7. Consideration may be given to other circumstances as they arise.

**Procedures for Student Evaluation**

To protect student interests as well as the rights of faculty to uphold the academic and professional standards of the academic program, the following steps may be taken as part of the academic review process.

1. If a concern about student behavior develops within the context of a course or at a field experience, the course instructor and/or field supervisor documents concerns and notifies the student’s faculty advisor. The instructor meets with the student (and the faculty advisor if needed) to outline deficiencies and establish a remedial course of action (if appropriate). Chronological time frames may be established to evaluate performance. Others (i.e., program faculty or professionals and agents outside the university) who have university-related concerns about a student outside of the context of a course may communicate their concerns directly to the appropriate division chair or the Dean’s Office. (Such discussions are governed by the Family Educational Rights and Privacy Act.)
2. If the instructor(s) has made a reasonable determination with adequate documentation that a pattern of severe problems exists, he or she warrants additional action beyond that already taken. Then the instructor will communicate the concerns, actions taken and their outcomes to the faculty advisor and Division Chair and request a hearing panel be assembled to review the student’s status.
3. The student will be informed in writing by the Division Chair of the concerns and a hearing will be set by the Dean’s Office with the program faculty (at least three faculty, in addition to the faculty member filing the complaint, must be present) and the student. An Associate Dean will present the scenario(s) and the student will have a right to respond to the allegations. The hearing panel may ask questions of both parties. The student may bring another person of support to the hearing but this individual may not speak on behalf of the student. The student will receive copies of all written documentation related to the allegations in advance of the hearing. This hearing will determine the student’s status in the program.
4. The program faculty will notify the student in writing of the outcome of the hearing and make a recommendation to the Dean.
5. The student has a right to appeal the decision of the program faculty and must notify the Dean in writing within ten business days of the faculty decision. Another hearing will take place between the student and the Dean or his/her designee. The Dean reviews the recommendation and conveys a decision to the respective faculty group and the student.

6. Students who have been declared ineligible due to unsatisfactory progress or performance may appeal such decisions to the Dean of the School of Graduate Studies, as designee of the Chancellor. This appeal must be made in writing within 14 consecutive days after receipt of the registrar’s notification to the student of the decision. The Dean of the School of Graduate Studies will review the full record of the case and the appeal document.

7. The decision of the Graduate Dean, as the Chancellor’s designated representative in such cases, is final and will be communicated in writing to:
   a. The student
   b. The graduate faculty review group(s)
   c. The academic dean
   d. The registrar

Faculty Scholastic Activity and Research Interests
Faculty in Curriculum and Instruction have a wide variety of experiences and interests. Several faculty members conduct research on achievement and pedagogy for at-risk students, direct grant programs and work intensely and collaboratively in school settings. Faculty emphasize the importance of technology in the classroom and incorporate this content into their work. They are active in national and regional professional associations, in which many hold offices. Faculty in Curriculum and Instruction strive to facilitate high levels of professional development and leadership skills and help their students achieve their educational goals.

The student may bring another person of support to the hearing but this individual may not speak on behalf of the student. The student will receive copies of all written documentation related to the allegations in advance of the hearing. This hearing will determine the student’s status in the program.

4. The program faculty will notify the student in writing of the outcome of the hearing and make a recommendation to the Dean.

5. The student has a right to appeal the decision of the program faculty and must notify the Dean in writing within ten business days of the faculty decision. Another hearing will take place between the student and the Dean or his/her designee. The Dean reviews the recommendation and conveys a decision to the respective faculty group and the student.

6. Students who have been declared ineligible due to unsatisfactory progress or performance may appeal such decisions to the Dean of the School of Graduate Studies, as designee of the Chancellor. This appeal must be made in writing within 14 consecutive days after receipt of the registrar’s notification to the student of the decision. The Dean of the School of Graduate Studies will review the full record of the case and the appeal document.

7. The decision of the Graduate Dean, as the Chancellor’s designated representative in such cases, is final and will be communicated in writing to:
   a. The student
   b. The graduate faculty review group(s)
   c. The academic dean
   d. The registrar

Faculty Scholastic Activity and Research Interests

Faculty in Educational Leadership, Policy and Foundations have a wide variety of experiences and interests. Faculty members engage in research and consult on education-related issues in both public and higher education. The faculty are committed to multiculturalism and the importance of diversity in education settings. They advise students in research and administrative endeavors, and help them achieve their professional career goals.

ELPF Student Learning Outcomes

Student Learning Outcomes (K-12)

The mission of the UMKC division of Educational Leadership, Policy and Foundations is to prepare and professionally advance educational leaders who are in the fields of Prek-12 and higher education. Faculty members are committed to students to ensure that they become knowledgeable, skilled, and highly effective transformational educational leaders in their schools/educational institutions communities.

Program Goals for Prek-12 Educational Leadership

1. Program Goal 1 - VISION: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a shared vision of learning, strong organizational mission, and high expectations for every student.

   Applicable Standards (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)

   • MoSTEP Standard 1.3.1
     • A school administrator is an educational leader who promotes the success of all students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community.

   • ELPS Performance Expectation 1, Elements A, B, C
     • Education leaders ensure the achievement of all students by guiding the development and implementation of a shared vision of learning, strong organizational mission, and high expectations for every student.

   • ELCC Standard 1, Elements 1.1, 1.2, 1.3, 1.4, 1.5
Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.

2. **Program Goal 2 - SCHOOL CULTURE & INSTRUCTIONAL LEADERSHIP:** Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by supporting a positive and collaborative school culture committed to applying high-quality research and data-based practices to continuously improve student learning and adult professional development programs, providing a rigorous curriculum aligned with content standards, and guiding a comprehensive evaluation and assessment program that includes the role of technology in promoting student learning and professional growth.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)
- MoSTEP Standard 1.3.2
  - A school administrator is an educational leader who promotes the success of all students by advocating, nurturing, and sustaining a school culture and instructional program conducive to student learning and staff professional growth.
- ELPS Performance Expectation 2, Elements A, B, C
  - Education leaders ensure achievement and success of all students by monitoring and continuously improving teaching and learning.
- ELCC Standard 2, Elements 2.1, 2.2, 2.3, 2.4
  - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff.

3. **Program Goal 3 - ORGANIZATION & MANAGEMENT:** Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by managing the organizational and operational systems, and facilitating the equitable allocation of fiscal, human, and other resources in a way that promotes a safe, efficient, and effective learning environment.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)
- MoSTEP Standard 1.3.3
  - A school administrator is an educational leader who promotes the success of all students by ensuring management of the organization, operations, and resources for a safe, efficient, and effective learning environment.
- ELPS Performance Expectation 3, Elements A, B, C
  - Education leaders ensure the success of all students by managing organizational systems and resources for a safe, high-performing learning environment.
- ELCC Standard 3, Elements 3.1, 3.2, 3.3
  - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment.

4. **Program Goal 4 - PARENTAL & COMMUNITY INVOLVEMENT:** Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by communicating and collaborating with families and other community members, demonstrating cultural competence in sharing responsibilities with diverse members of the school community, and developing mutually beneficial relationships with community organizations to expand available resources to improve teaching and learning.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)
- MoSTEP Standard 1.3.4
  - A school administrator is an educational leader who promotes the success of all students by collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources.
- ELPS Performance Expectation 4, Elements A, B, C
  - Education leaders ensure the success of all students by collaborating with families and stakeholders who represent diverse community interests and needs and mobilizing community resources that improve teaching and learning.
- ELCC Standard 4, Elements 4.1, 4.2, 4.3
  - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by collaborating with families and other community members, responding to diverse community interests and needs, and mobilizing community resources.

5. **Program Goal 5 - INTEGRITY & ETHICAL LEADERSHIP:** Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by modeling high expectations and examining assumptions and beliefs that affect student learning, protecting confidentiality of students, staff, and families, continuously improving knowledge and skills, and acting with integrity, fairly, and in an ethical manner.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)
- MoSTEP Standard 1.3.5
  - A school administrator is an educational leader who promotes the success of all students by acting with integrity, fairness, and in an ethical manner.
- ELPS Performance Expectation 5, Elements A, B, C
  - Education leaders ensure the success of all students by being ethical and acting with integrity.
- ELCC Standard 5, Elements 5.1, 5.2, 5.3
Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by acting with integrity, fairly, and in an ethical manner.

6. Program Goal 6 - EDUCATIONAL CONTEXT: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural contexts affecting education to advocate for students’ and teachers’ needs.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)

- MoSTEP Standard 1.3.6
  - A school administrator is an educational leader who promotes the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

- ELPS Performance Expectation 6, Elements A, B, C
  - Education leaders ensure the success of all students by influencing interrelated systems of political, social, economic, legal, and cultural contexts affecting education to advocate for their teachers’ and students’ needs.

- ELCC Standard 6, Elements 6.1, 6.2, 6.3
  - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

7. Program Goal 7 - INTERNSHIP: The internship provides significant opportunities for candidates to synthesize and apply their knowledge and understanding, to practice and develop the skills, and to refine and clarify the dispositions identified in Program Goals 1-6 through substantial, sustained, standards-based work in real settings, planned and guided cooperatively by the institution and school district personnel for graduate credit.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam; MoSTEP=State Accreditation)

- ELCC Standard 7, Elements 7.1, 7.2, 7.3, 7.4, 7.5, 7.6
  - Internship. The internship provides significant opportunities for candidates to synthesize and apply the knowledge and practice and develop the skills identified in Standards 1-6 through substantial, sustained, standards-based work in real settings, planned and guided cooperatively by the institution and school district personnel for graduate credit.

### Student Learning Outcomes for Higher Education Administration

Upon completion of the Higher Education Administration program, the student will:

- Have a thorough grounding of higher education/student affairs as a field of study
- Understand organizational, management, leadership and supervision theories and issues
- Understand developmental theories as they relate to college students
- Understand professional requirements and ethics of the field
- Develop self-awareness
- Develop multicultural competencies
- Improve communication skill
- Develop skills to use technology to enhance the educational experience
- Develop the ability to analyze and interpret current research in the field
- Increase skills to apply research
- Improve ability to integrate and synthesize information

### Ed.D. - Educational Administration

The Doctorate of Education Degree (Ed.D.) in Educational Administration has been designed to meet the needs of aspiring administrators in urban and metropolitan school districts and colleges/universities. There are two focus areas within the Ed.D. program: PK-12 school administration and higher education administration.

**Criteria for Admission to PK-12 Focus**

1. Completed UMKC application.
2. Official transcripts from each college attended.
3. Master’s degree or Educational Specialist degree or equivalent from an accredited institution with G.P.A. of at least 3.65 in Education Administration. (Master’s in other fields may be provisionally accepted.)
4. Graduate Record Examination within the last five years: verbal, quantitative, and analytical writing.
5. Four professional or academic letters of reference.
6. An autobiographical statement (500 words or less) that includes your professional goals and how the doctoral degree will help you in achieving these goals, and a description of some of your leadership accomplishments.
7. A writing sample, which gives evidence of your writing ability. The sample may be a previous course paper, a chapter from thesis, a published article, etc. Send copies for documents will not be returned.
8. Successful completion of three hours or equivalent of EDUC-R&P 5505 and three hours or equivalent of EDUC-R&P 5508 with a grade of B or higher.

**Student Learning Outcomes**

The mission of the UMKC division of Educational Leadership, Policy and Foundations is to prepare and professionally advance educational leaders who are in the fields of Prek-12 and higher education. Faculty members are committed to students to ensure that they become knowledgeable, skilled, and highly effective transformational educational leaders in their schools/educational institutions communities.

**Program Goals for Prek-12 Educational Leadership**

1. **Program Goal 1 - VISION**: Educational leaders have the knowledge, skills, and dispositions required to promost the success of all students by facilitating the development, articulation, implementation, and stewardship of a shared vision of learning, strong organizational mission, and high expectations for every student.
   **Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
   - ELPS Performance Expectation 1, Elements A, B, C
     - Education leaders achieve the success of all students by guiding the development and implementation of a shared vision of learning, strong organizational mission, and high expectations for every student.
   - ELCC Standard 1, Elements 1.1, 1.2, 1.3, 1.4, 1.5
     - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by facilitating the development, articulation, implementation, and stewardship of a school or district vision of learning supported by the school community.

2. **Program Goal 2 - SCHOOL CULTURE & INSTRUCTIONAL LEADERSHIP**: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by supporting a positive and collaborative school culture committed to applying high-quality research and data-based practices to continuously improve student learning and adult professional development programs, providing a rigorous curriculum aligned with content standards, and guiding a comprehensive evaluation and assessment program that includes the role of technology in promoting student learning and professional growth.
   **Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
   - ELPS Performance Expectation 2, Elements A, B, C
     - Education leaders ensure achievement and success of all students by monitoring and continuously improving teaching and learning.
   - ELCC Standard 2, Elements 2.1, 2.2, 2.3, 2.4
     - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by promoting a positive school culture, providing an effective instructional program, applying best practice to student learning, and designing comprehensive professional growth plans for staff.

3. **Program Goal 3 - ORGANIZATION & MANAGEMENT**: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by managing the organizational and operational systems, and facilitating the equitable allocation of fiscal, human, and other resources in a way that promotes a safe, efficient, and effective learning environment.
   **Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
   - ELPS Performance Expectation 3, Elements A, B, C
     - Education leaders ensure the success of all students by managing organizational systems and resources for a safe, high-performing learning environment.
   - ELCC Standard 3, Elements 3.1, 3.2, 3.3
     - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by managing the organization, operations, and resources in a way that promotes a safe, efficient, and effective learning environment.

4. **Program Goal 4 - PARENTAL & COMMUNITY INVOLVEMENT**: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by communicating and collaborating with families and other community members, demonstrating cultural competence in sharing responsibilities with diverse members of the school community, and developing mutually beneficial relationships with community organizations to expand available resources to improve teaching and learning.
   **Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
5. Program Goal 5 - INTEGRITY & ETHICAL LEADERSHIP: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by modeling high expectations and examining assumptions and beliefs that affect student learning, protecting confidentiality of students, staff, and families, and acting with integrity, fairly, and in an ethical manner.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
- ELPS Performance Expectation 5, Elements A, B, C
  - Education leaders ensure the success of all students by being ethical and acting with integrity.
- ELCC Standard 5, Elements 5.1, 5.2, 5.3
  - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by acting with integrity, fairly, and in an ethical manner.

6. Program Goal 6 - EDUCATIONAL CONTEXT: Educational leaders have the knowledge, skills, and dispositions required to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural contexts affecting education to advocate for students' and teachers' needs.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
- ELPS Performance Expectation 6, Elements A, B, C
  - Education leaders ensure the success of all students by influencing interrelated systems of political, social, economic, legal, and cultural contexts affecting education to advocate for their teachers' and students' needs.
- ELCC Standard 6, Elements 6.1, 6.2, 6.3
  - Candidates who complete the program are educational leaders who have the knowledge and ability to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

7. Program Goal 7 - INTERNSHIP: The internship provides significant opportunities for candidates to synthesize and apply their knowledge and understanding, to practice and develop the skills, and to refine and clarify the dispositions identified in Program Goals 1-6 through substantial, sustained, standards-based work in real settings, planned and guided cooperatively by the institution and school district personnel for graduate credit.

**Applicable Standards** (ELCC=NCATE Accreditation; ELPS=SLLA Exam)
- ELCC Standard 7, Elements 7.1, 7.2, 7.3, 7.4, 7.5, 7.6
  - Internship. The internship provides significant opportunities for candidates to synthesize and apply the knowledge and practice and develop the skills identified in Standards 1-6 through substantial, sustained, standards-based work in real settings, planned and guided cooperatively by the institution and school district personnel for graduate credit.

The Doctorate of Education in PK-12 Educational Administration program is designed to expand the content competencies and applied leadership skills of candidates in educational leadership careers in elementary, middle, and secondary school settings, as well as in central office administration. Curriculum focuses on current and future educational challenges to enhance the knowledge and skill development of public school leaders in their positions, incorporating strategic planning, collaborative problem solving, interpersonal and inter-group functioning, technological proficiency, and effective communication.

**Curriculum**

The Doctorate of Education program will consist of 33 hours of inter-disciplinary course work and a 9 hour Applied Research Dissertation Project. The Doctoral Applied Research Study will include the identification of a study to be conducted that is grounded in educational policy in the public arena. A theoretical construct for the study will be developed including a research design, a review of the literature, and a presentation of the findings of the study in a public setting as well as to the doctoral committee. It is expected that students will complete this program during a four year period of time.

**Doctor of Education: Focus in Higher Education Administration**

**Student Learning Outcomes for Higher Education Administration**

Upon completion of the Higher Education Administration program, the student will:
- Have a thorough grounding of higher education/student affairs as a field of study
- Understand organizational, management, leadership and supervision theories and issues
- Understand developmental theories as they relate to college students
- Understand professional requirements and ethics of the field
- Develop self-awareness
• Develop multicultural competencies
• Improve communication skill
• Develop skills to use technology to enhance the educational experience
• Develop the ability to analyze and interpret current research in the field
• Increase skills to apply research
• Improve ability to integrate and synthesize information

The doctoral program with a focus in Higher Education Administration is designed to prepare administrative leaders for positions in community colleges and four-year colleges and universities. The program may also be appropriate for individuals working in government agencies and business and industry. Therefore, students may come to the program from a variety of fields, backgrounds, and types of higher education institutions.

Criteria for Admission to Higher Education Focus

Admission to the Higher Education doctoral program is a separate procedure from admission to the Graduate School and is based on successful acceptance into the University of Missouri-Kansas City graduate School and the Higher Education program. This requires submission of the following:

1. Completed UMKC application.
2. Official transcripts from each college attended.
3. Graduate Record Exam: quantitative, verbal and writing portion
4. A letter of intent including a brief statement of the reason for pursuing a doctoral degree in Higher Education and a brief discussion about the match between the applicant’s needs and the program offering.
5. A vita or resume providing a summary of leadership activities, work experiences, and scholarly activity.
6. Three letters of recommendation (on forms provided in application packet) are required. One letter may be from a personal reference; two letters must be professional references.
7. An interview will be scheduled with at least two faculty members as the final step in the admission process. Interview topics will be wide-ranging, including personal goals and objectives, current issues in education, and successful college experiences. The interview is designed to acquire information concerning the applicant’s oral skills and critical thinking skills. The applicant will also have the opportunity to garner additional information about the program.

Curriculum

The program consists of 90 semester hours beyond the baccalaureate degree inclusive of the dissertation. The Ed.D. is an applied degree designed for the advanced student who wishes to achieve a superior level of competency in his/her professional field with emphasis on practice and leadership in an urban setting. The degree requires students to demonstrate proficiency in independent research in higher education and make original contributions to the body of knowledge related to higher education. The program is structured on a cohort model with admission every three years. Admitted students must agree to take courses as prescribed in order to complete all courses in a three year timeframe.

Educational Specialist: Counseling and Guidance

The mission of the counseling and guidance program at UMKC’s School of Education is to prepare students to meet the psychological, social, and educational needs of individuals, couples and families in diverse urban communities. The Educational Specialist degree in Counseling and Guidance is a post-masters program designed for experienced counselors who desire to add another area to their professional expertise. The program is designed with flexibility to support the preparation of licensed professional counselors and certified school counselors. Emphasis areas include General Mental Health Counseling and School Counseling.

All students pursuing the Educational Specialist degree in Counseling and Guidance complete a minimum of 26 hours of required coursework (because of certification and licensure requirements, students may be required to complete additional courses). In addition to the core courses, students will complete 12 or more hours depending on the chosen emphasis area and certification and/or licensure requirements. The curriculum is individually designed with an adviser so each candidate meets his/her specific needs and professional objectives. Those electing the School Counseling emphasis will, upon successful completion of the coursework and passing of the state exam for counseling, become eligible for school counselor certification in Missouri. The General Mental Health Counseling emphasis area is designed for students who wish to work in a variety of settings other than the public schools. Those earning degrees in counseling become employed in community colleges, four-year colleges, specialized areas in large universities (e.g., career planning and placement, drug and alcohol counseling), the court system and community-based mental health services.

Requirements for Admission

Applicants must:

1. Hold a master’s degree in counseling from an accredited institution.
2. A grade of "B-" or better is required for courses in theories and methods of counseling.
3. A grade of "pass" or "credit" is required for counseling practicum courses.
4. Overall master’s in counseling degree GPA of at least 3.25 on a 4.0 scale.

**Admission Procedures**

Applications are accepted and reviewed on an ongoing basis. Applicants are encouraged to apply early to allow for processing and review time, which could take up to 8 weeks. Application materials must be submitted to two separate offices on campus.

Send the following materials:

1. UMKC Application for Admission.
2. Application Fee: $35 (domestic online) or $50 (international) non-refundable application fee.
3. Official transcripts from all post-secondary institutions.
4. Official GRE scores.

to the following address:

**Mailing Address**

University of Missouri-Kansas City
UMKC Admissions
120 Administrative Center
5100 Rockhill Road
Kansas City, MO 64110-2499

Send the following materials:

1. Cover sheet for the Education Specialist Degree in Counseling and Guidance Program (included in the program application packet).
2. Three applicant evaluation forms (included in the program application packet) with attached letters of recommendation.
   - Raters should address your suitability for professional studies in counseling.
   - Raters should have knowledge of your interpersonal and intellectual functioning and skills in research, counseling and written and oral communication.
   - Raters should enclose their letters of recommendation along with the provided rating sheet in an envelope, sign their names across the sealed flap, and either return to the applicant for later submission or mail directly to the Division at the address below.
   - Raters should be professional references. This excludes friends and family members.
3. Personal statement.
   - Submit a concise two to three page statement concerning your professional goals.
   - Include your professional and applied interests/experiences.
4. Additional requirements may apply for international students.

to the following address:

**Mailing Address**

University of Missouri-Kansas City
ATTN: ED.S. Counseling and Guidance Admissions Committee
215 Education Building
5100 Rockhill Road
Kansas City, MO 64110-2499

**Student Learning Outcomes**

Graduates demonstrate skills and knowledge in the following areas:

- Theories and methods of counseling supervision
- Advanced theories of counseling
- Counseling-related topics, such as couples and family counseling
- Effective counseling skills in a community or school setting
- Working with diverse clients and students
- Mental health consultation processes
Curriculum

Program of study includes a minimum of 26 credit hours of coursework, including core courses and 12 or more credit hours for emphasis area, certification, and/or licensure requirements. Additional coursework may be necessary for students who did not complete all of the program pre-requisite courses during their master’s degree in counseling. Individual coursework is dependent on the emphasis option chosen and coursework completed during the master’s degree in counseling and will be determined with the help of the student’s faculty adviser. Students must maintain a B average in all coursework associated with the Ed.S. program.

- No grade below B in professional counseling courses will be acceptable.
- Students are required to confer with advisers prior to enrolling in any course leading to the educational specialist degree.
- Courses at the 5600 level cannot be taken until students are admitted to the Ed.S. program. Please note that 5600 level coursework is likely to be offered during daytime hours.

Requirements for Graduation

Students must complete all courses in the Ed.S. program with at least a 3.0 final GPA.

Students must apply for graduation by the posted deadline during their final term of enrollment. All students must be enrolled during the term they intend to graduate.

Students must pass the state exam for school counseling.

More information about the program can be found at http://education.umkc.edu/programs/view/17

Educational Specialist: Curriculum and Instruction

Program Goal

The goal of the educational specialist degree in Curriculum and Instruction **emphasis in Curriculum Theory and Leadership** is to build on the master’s degree in curriculum and instruction on the theme of Transformative Leadership. The degree is designed for educators who want to assume positions in instructional leadership. The program requires course work in four major areas:

- Curriculum Theory
- Diverse Learners
- Becoming a Learning Leader
- Transforming Practice

It is assumed that most candidates will have a degree in an area related to the field of education. Their faculty advisor, however, may require additional course work in a specialty area such as math education. This would depend upon the applicant’s background, previous coursework and anticipated school role.

Students are not currently being admitted for the Early Childhood Education, Elementary or Middle School Specialty, Multicultural Education, or Subject Matter Specialty emphases in the Ed.S. program in Curriculum and Instruction.

Program Goals

The Educational Specialist Degree in Curriculum & Instruction is designed to further enhance the skills and knowledge necessary to collaborate with other educators and lead in the development of learning opportunities which:

- promote the learning, growth and development of all students, valuing the differences which diverse learners bring to the school experience;
- demonstrate understanding of how knowledge is created, organized and linked to other disciplines;
- convey subjects to diverse learners through multiple pathways;
- equitably manage and monitor student learning;
- promote reflective teaching and decision-making;
- encourage the development of learning communities which include education professionals, parents and communities.

Admission Requirements

Applications are accepted on a rolling basis and may be obtained from and submitted to the Office of Admissions.

Students are eligible for full admission to the Ed.S. program in curriculum and instruction if they have met two of the three following requirements:

- Master’s degree in an educational area with a minimum grade point average of 3.25
- Two years of teaching experience
- Graduate Record Exam (GRE) with score of 155 or better on Verbal component

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   - Teachers recognize individual differences in their students and adjust their practice accordingly.
   - Teachers have an understanding of how students develop and learn.
   - Teachers treat students equitably.
   - Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
• Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
• Teachers expose their students to different modes of critical thinking.
• Teachers teach students to think analytically about content.
• Teachers command specialized knowledge of how to convey a subject to students.
• Teachers generate multiple paths to knowledge.
• Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
• Teachers call on multiple methods to meet their goals.
• Teachers orchestrate learning in small and large group settings.
• Teachers place a premium on student engagement.
• Teachers regularly assess student progress.
• Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
• Teachers are continually making difficult choices that test their judgment.
• Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
• Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
• Teachers contribute to school effectiveness by collaborating with other professionals.
• Teachers work collaboratively with parents.
• Teachers take advantage of community resources.

Program Requirements
A minimum of 36 hours of approved graduate work beyond the master's degree is required for the educational specialist degree, with at least 60 percent of the courses numbered 5500 and above. Any courses on the 300 and 400 level included in the Ed.S. program of study must be accepted by the advisor and taken for graduate credit.

As soon as possible after admission to graduate study, students should seek to meet with a faculty member in the major to plan a program of study. This program must be filed in the Education Student Services Office and approved by the dean's representative when students still have at least 18 hours beyond the master's degree to complete. A majority (80%) of new coursework applied to any graduate degree to be completed at UMKC must be taken at UMKC. Transfer credit not included in a master's degree must not be more than 7 years old at the time of degree completion or graduation.

Transfer credit may be allowed for correspondence courses, provided the credits meet the criteria for graduate coursework. A maximum of 6 credit hours of continuing education credit (workshops, special topics) taken for graduate credit may be included on an Ed.S. program.

UMKC credit more than seven years old at the time of degree completion that has not been included on a master's degree is not applicable to an Ed.S. degree unless validated to the satisfaction of the School of Education and the School of Graduate Studies. A maximum of 30 percent of coursework on the student's program of study may be validated under this procedure. All validation must be completed by the end of the final semester of enrollment.

Curriculum Summary
The coursework is divided into the following study areas:

<table>
<thead>
<tr>
<th>Becoming a Learning Leader</th>
<th>12</th>

</tbody>
</table>

**Becoming a Learning Leader**
- EDUC-UL 5523: Administrative Roles For Instructional Leadership 3
- EDUC-C&I 5513: Effective Communication In The Classroom 3
- EDUC-C&I 5570: Curriculum And Instruction In Technology 3

**Working with Diverse Learners**
- EDUC-C&I 5563: Multicultural Perspectives In Education 3
- or EDUC-C&I 5562: Teaching For Equity And Social Justice 3
- EDUC-C&I 5510: Differentiating Instruction Through Teaching/Learning Styles 3
Curriculum Theory
EDUC-C&I 5505   Introduction To Curriculum Theory   3
or EDUC-C&I 5506   Curriculum Design
EDUC-C&I 5618   Survey Of Research In Curriculum   3
or EDUC-C&I 5620   Seminars In Theories Related To Curriculum

Assessment
EDUC-R&P 5522   Principles Of Testing   3
or EDUC-C&I 5620   Seminars In Theories Related To Curriculum

Transforming Practice
EDUC-R&P 5505   Statistical Methods I   3
or EDUC-R&P 5508   Principles And Methods Of Research
EDUC 5621   Practicum In Curriculum And Instruction   6
-OR-
EDUC 5621   Practicum In Curriculum And Instruction   3
AND
EDUC-C&I 5595   Action Research For Practitioners   3

1 The culminating project is an experience designed by the student with the assistance and approval of the advisor. The culminating project includes the selection of a topic relevant to the student’s course of study, a review of current research and trends, and the design of a plan of action, the implementation of that action and reflective analysis of the experience.

The Culminating experience is to be taken toward the end of the program just prior to sitting for comprehensive examination.

Residency
One full-time summer session or one full-time semester is required.

Program Committee
Final program planning is the joint responsibility of the candidate, the advisor and the candidate’s committee. The committee shall consist of three faculty members, all from curriculum and instruction or two faculty members from curriculum and instruction and a faculty member from another division of the School of Education or University.

This committee and the candidate shall work cooperatively in reviewing progress in the program, planning the culminating experience and making arrangements for the comprehensive examination.

Comprehensive Examination
Students are required to pass a comprehensive examination in curriculum upon the completion of the culminating experience. This four-hour examination may be either written or oral, at the discretion of the committee.

Educational Specialist: Educational Administration

Program Description
The educational specialist degree with emphasis in PK-12 school administration (accredited by the National Council for Accreditation of Teacher Education and the Missouri Department of Elementary and Secondary Education) prepares teachers for specialization in school leadership and administration. The program also provides an opportunity for practicing administrators to enhance their professional skills and to connect with other practitioners from the metropolitan area and region. To this end, the program’s emphasis is the development of broad understanding and experiences across the whole professional field, the acquisition of in-depth knowledge in at least one specialized field in educational administration, and integrative experiences demonstrating the application of theory to practice.

The program of study will be planned in accord with the candidates’ professional goals. Emphasis areas include:

- General administration (school superintendents and other central office administrators)
- Secondary principals or assistant principals
- Elementary principals or assistant principals

Although not essential to completion of the educational specialist degree, the master of arts may be earned by the candidate at approximately the halfway point.

EdS Beginning Principal
The Ed.S. degree with emphasis in educational administration prepares teachers for specialization in school leadership and administration. The program also provides an opportunity for practicing administrators to enhance their professional skills and to connect with other practitioners from the metropolitan area and region. Students in the program gain a broad understanding across the professional field, the acquisition of in-depth knowledge in at least one specialized field in educational administration, and integrative experiences demonstrating the application of theory to practice.

EdS Advanced Principal

The Ed.S. degree with emphasis in educational administration prepares teachers for specialization in school leadership and administration. The program also provides an opportunity for practicing administrators to enhance their professional skills and to connect with other practitioners from the metropolitan area and region. Students in the program gain a broad understanding across the professional field, the acquisition of in-depth knowledge in at least one specialized field in education administration, and integrate experiences demonstrating the application of theory to practice.

District Level Administration (100% Online)

The online Ed.S. degree with emphasis in district-level educational administration prepares experienced principals or building administrators for specialization in central office positions, including superintendent or associate superintendent roles. The program provides an opportunity for practicing administrators to enhance their professional skills and gain a deeper understanding across the professional field including facilities planning, school finance, governmental and legal aspects of special education, and other integrate experiences that bring together the application of theory to practice. Upon completion of the program of study and passing the School Superintendent’s Assessment, graduates will be recommended for District Administration/Superintendent certification.

This program is designed to prepare current building administrators and curriculum leaders for professional educator roles in a district-level setting. The degree leads to superintendent certification eligibility in Missouri and Kansas.

Requirements for Admission

Candidates must:

- Provide a copy of a valid teaching certificate
- Provide a copy of a current permanent or professional school administrator/principal license/certificate to teach.
- Have at least two years of full-time certified teaching, supervisory, or administrative experience, or any combination thereof, in elementary, middle or secondary schools under a fully licensed teaching certificate (temporary or provisional certification does not meet this requirement).
- Provide a transcript demonstrating completion of a course in psychology or education of the exceptional child.
- Possess a master’s degree with a GPA of at least 3.25

Student Learning Outcomes for Ed.S. PK-12 Administration

Upon completion of the Ed.S. Educational Administration program, the student will:

- Have a thorough grounding of higher education/student affairs as a field of study
- Understand organizational, management, leadership and supervision theories and issues
- Understand developmental theories as they relate to college students
- Understand professional requirements and ethics of the field
- Develop self-awareness
- Develop multicultural competencies
- Improve communication skill
- Develop skills to use technology to enhance the educational experience
- Develop the ability to analyze and interpret current research in the field
- Increase skills to apply research
- Improve ability to integrate and synthesize information

Curriculum

A minimum of 36 credit hours is required in the major area. Individual programs will be designed with the assistance of the faculty advisor to develop competencies in the theoretical, technical and functional aspects of educational administration. The basic prerequisite course for the PK-12 program is:

- EDUC-UL 5501

Completion of one of the following is required in all programs:

- EDUC-UL 5574
- EDUC-UL 5575
Candidates are required to complete 15-18 credit hours of work in the supporting areas in education and humanistic and behavioral studies. Courses in the field of educational psychology, history of education, philosophy of education, sociology of education, curriculum, or from the behavioral sciences or humanities are considered appropriate.

Also required are 6 credit hours of research coursework to include EDUC-R&P 5508.

Note: Students should identify a faculty advisor in Educational Leadership, Policy and Foundations at the time of admission to the School of Education. Final program planning is a joint responsibility of the candidate and, the faculty advisor.

Requirements for Graduation

In addition to the general School of Education graduate degree requirements, the Ed.S. degree in educational administration also requires:

1. EDUC-UL 5574
   -or-
   EDUC-UL 5575
2. A planned field experience
3. An action research project
4. The educational specialist degrees designed to meet state certification requirements for school superintendency and have specific course requirements in addition to the above.

Educational Specialist: Language and Literacy

Program Requirements

Requirements for the Educational Specialist (Ed.S.) Degree in Language and Literacy support the professional development of all reading or literacy specialists; including classroom teachers, reading/literacy specialists, and literacy coaches. The Ed.S. degree is intended for those who wish to develop high levels of expertise in the Standards for Reading Professionals developed by the International Reading Association’s Committee on Standards and Ethics. The objectives of the Ed.S. in Language and Literacy are:

1. To ensure that the competencies in the discipline (reading education) have been attained and meet professional agency standards.
2. To develop competencies in:
   - Organizing, supervising and evaluating reading programs and classroom literacy instruction.
   - Translating literacy research findings into practices.
   - Reading/literacy assessment and diagnostic procedures.
   - Teaching reading at the secondary, junior college, college and adult levels.
   - Conducting teacher training workshops at the teacher in-service level.
   - Performing the duties of reading specialist and literacy coach.

Requirements for Admission

Candidate must:

- Be admitted to the UMKC School of Graduate Studies.
- Possess a bachelor’s degree and a teaching certificate.
- Have at least two years of teaching experience (or its equivalent).
- Have completed a minimum of six credit hours of graduate-level (5500) courses in reading education taken at UMKC. It is not necessary to have a master’s degree to enter the program.

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   - Teachers recognize individual differences in their students and adjust their practice accordingly.
   - Teachers have an understanding of how students develop and learn.
   - Teachers treat students equitably.
   - Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   - Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   - Teachers expose their students to different modes of critical thinking.
   - Teachers teach students to think analytically about content.
• Teachers command specialized knowledge of how to convey a subject to students.
• Teachers generate multiple paths to knowledge.
• Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
• Teachers call on multiple methods to meet their goals.
• Teachers orchestrate learning in small and large group settings.
• Teachers place a premium on student engagement.
• Teachers regularly assess student progress.
• Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
• Teachers are continually making difficult choices that test their judgment.
• Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
• Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
• Teachers contribute to school effectiveness by collaborating with other professionals.
• Teachers work collaboratively with parents.
• Teachers take advantage of community resources.

Curriculum

A minimum of 60 post-B.A. hours are required including a minimum of 21 credit hours beyond the master’s degree.

Curriculum Summary

| Reading Concentration          | 21-42 |
| Supporting Area(s)             | 9-12  |
| Practicum                      | 6-12  |
| Humanistic and Behavioral Studies | 6-12  |
| Total (minimum)                | 60    |

Requirements for Graduation

Candidates must pass an examination in the major field and complete a reading/literacy field project.

General Information on Doctoral Degrees

The School of Education offers a Ph.D. degree program in Counseling Psychology that is accredited by the American Psychological Association since 1985. The School also participates, through the School of Graduate Studies, in the Interdisciplinary Ph.D. program. Two disciplines, curriculum & instruction and educational leadership, policy and foundations are offered through the School of Education. Students may select one or both of those disciplines in addition to disciplines offered through other academic units across campus.

All but a select few Ph.D. programs at UMKC are interdisciplinary. Students desiring to study at the doctoral level in curriculum & instruction and/or educational leadership, policy and foundations in education (which includes the foundation areas of educational theory and educational administration) must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific admission requirements may be found in the School of Graduate Studies (p. 480) section of the catalog.

General Information on Educational Specialist Degrees

The goal of the educational specialist degree is to develop personnel who are highly competent practitioners/specialists in specific fields of education. The program of study will place emphasis on the extension of the students’ abilities to apply theory, methodology and techniques to practical problems related to the individual’s field. The breadth of studies will be consistent with the guidelines suggested by the appropriate professional organization. Graduates are expected to be competent translators of practices and research.

The educational specialist degree can be earned in counseling and guidance, educational administration, reading education, or curriculum and instruction.

Requirements for Admission

Students are eligible for consideration for admission to the Ed.S. degree program in the School of Education when they have met at least one of the following requirements:

- Students must be eligible for regular admission to the School of Education at the graduate level (undergraduate GPA must be at least 3.0 on a 4.0 scale); if applicants have earned graduate credit, their graduate GPA must be at least 3.0.
- The completion of a master’s degree from an accredited institution of higher education and a cumulative graduate GPA of at least 3.0.

Applicants who have met one of the above requirements for admission to the School of Education at the Ed.S. level must also meet the divisional admission requirements for the specific degree program (educational administration, counseling and guidance, curriculum and instruction, or reading education). Consult the section of the catalog outlining the requirements of the divisions.

All educational specialist degree-seeking students are governed both by School of Education requirements and those of the School of Graduate Studies.

Program Requirements

A minimum of 60 hours of approved graduate work beyond the bachelor’s degree is required for the educational specialist degree, with at least 60 percent of the courses numbered 5500 and above. Any courses on the 300 and 400 level included in the Ed.S. program of study must be accepted by the advisor and taken for graduate credit.

As soon as possible after admission to graduate study, students should seek to meet with a faculty member in the major to plan a program of study. This program must be filed in the Education Student Services Office and approved by the dean’s representative when students still have at least 18 hours of coursework beyond the master’s degree to complete. A majority of new coursework applied to any graduate degree to be completed at UMKC must be taken at UMKC. Transfer credit not included in a master’s degree must not be more than 7 years old at the time of degree completion or graduation.

Transfer credit may be allowed for correspondence courses, provided the credits meet the criteria for graduate coursework. A maximum of 6 credit hours of continuing education credit (workshops, special topics) taken for graduate credit may be included on an Ed.S. program.

UMKC credit more than seven years old at the time of degree completion that has not been included on a master’s degree is not applicable to an Ed.S. degree unless validated to the satisfaction of the School of Education and the School of Graduate Studies. A maximum of 30 percent of coursework on the student's program of study may be validated under this procedure. All validation must be completed by the end of the final semester of enrollment.
The coursework is divided into the following study areas:

**Specialization (21-42 hours)**

The specialization is defined as a body of coursework associated with the area of concentration or major. Such courses might deal with the theory, research and methodology of the field.

**Supporting Area(s) (9-15 hours each)**

In addition to specific courses in a field of study, there are those courses which expand the competence of the specialist. These supporting areas might include study in one or two related areas, or study might be an intensive development of specific skills within the field.

**Culminating Experience (3-12 hours)**

All students should be able to demonstrate an ability to perform satisfactorily in situations approximating the intended role or specialization. While such experience may be included in regular coursework, at least 3 hours of supervised practicum, internship or field experience should be accomplished where the practice is the focus of the course.

**Humanistic and Behavioral Studies (6-12 hours)**

The success of a specialist may also depend on a broader understanding and interpretation of the concepts related to the problems and practices of the field, as revealed by study in humanistic and behavioral sciences. Courses or seminars in educational history, philosophy, psychology or sociology, or other appropriate courses, might be included in this area.

**Residency**

Enrollment as a full-time graduate student during one semester (5 credit hours during summer sessions, 9 credit hours during fall and spring semesters) is required for the educational specialist degree.

**Final Examination**

Students are required to pass a final examination in the major field or an oral examination upon the completion of the practicum or internship for the educational specialist degree.

**Requirements for Retention**

Students should assume responsibility for the following steps:

1. Complete all admission requirements.
2. With the faculty advisor, establish a program of study and have it approved by the dean’s representative.
3. Complete all courses listed on the program of study.
4. Maintain an acceptable GPA (Grades below B- in 300- or 400-level courses taken for graduate credit will not be accepted on the program of study. No grade lower than a C in any 5500-level course is acceptable. A minimum of 80 percent of the program must be completed with grades of A or B. Additionally, students must maintain a 3.0 (B) average in all graduate coursework, regardless of whether the courses are on the actual program of study.
5. Apply for the degree (graduation) by the posted deadline during their final term of enrollment. Students are required to be enrolled in at least one credit hour during the term the degree requirements are to be completed.

**General Information on Master of Arts Degrees**

**Requirements for the Master of Arts**

Requirements for a master’s degree include a minimum of 30 credit hours but vary according to the major and emphasis area. Regardless of program length, at least 60 percent of the coursework on the degree program must be numbered 5500 or above. At least 3.0 GPA must be maintained, with no grade lower than a C earned in any 5500-level course. A maximum of 20 percent of coursework numbered 5500 or above on the master’s program may have grades of C. Any courses on the 300 and 400 level to be included in a master of arts program must be taken for graduate credit and only by arrangement with the advisor. No grade lower than B- may be earned in any 300- or 400-level course to be used toward a graduate degree.

As soon as possible after regular admission to graduate study, the student should meet with a faculty advisor to develop a program of study. This program must be filed with the Education Student Services Office before the end of the second semester enrolled in the program. Program revisions may be requested later but also must be approved by the student’s advisor and the dean’s representative.

Twenty percent of resident graduate coursework may be transferred from other accredited universities’ graduate programs. A maximum of 49 percent of acceptable graduate work (no grade below B) may be transferred from other campuses of the University of Missouri. Credits are transferred only with the
recommendation of the advisor and the consent of the dean’s representative in the School of Education. Transfer credit must not be more than seven years old at the time of program completion.

Transfer credit may be allowed for correspondence courses, provided the credits meet the above criteria. A maximum of six semester hours of continuing education courses that have been taken for graduate credit (workshops, special topics) may be included on a master’s program. Students must provide a letter from the transfer institution clarifying the grade equivalent for transfer work posted as “credit” or “pass.”

For regular courses taken through continuing education at UMKC to apply on degree programs, the student must be admitted to graduate study and have an approved program on file, including the continuing education courses.

Credit more than seven years old at the time of degree completion must be validated. To validate a course, the student must meet with the instructor of the current equivalent course to devise a plan in which the student’s current knowledge of the coursework can be assessed. Faculty may ask the student to write a paper, review current literature, or take examinations to determine whether the student’s knowledge of the subject is acceptable. A maximum of 30 percent of the student’s program of study may be validated under this procedure. All validation must be completed prior to the completion of the final semester of enrollment for the degree.

A thesis is not required for the master of arts degree, although the option for a thesis is available. A final integrating experience or independent or group research study may be required of those not selecting the thesis option.

Requirements for Retention

Students must:

1. Meet all admission requirements.
2. File a planned program of study in consultation with a faculty advisor and have it approved by the dean’s representative in the Education Student Services Office.
3. Complete all coursework listed on the approved program of study.
4. Maintain an acceptable graduate GPA with no grades below B- (3.0) in 300- or 400-level courses, no grades below C (2.0) in any 5500-level course, at least 80 percent of the degree program completed with grades of A or B, and a 3.0 average maintained in all graduate coursework, regardless of whether the courses are on the actual degree program.
5. Apply for the degree (graduation) by the posted deadline during the final term of enrollment.
6. Enroll in at least one credit hour during the term they intend to graduate.

Graduate Certificate - Health Professions Education

Admission Requirements

- Applicants must hold a professional degree in a health profession (e.g. MD, DDS, DO, RN, PharmD) and/or a bachelor’s degree. Limited enrollment.
- Applicants must complete the graduate application found at http://www.umkc.edu/admissions/graduate.asp
- Submit all university transcripts as well as a one page goal statement, resume or CV, and two letters of recommendation to:

UMKC School of Medicine
Office of Admissions, M1-103
ATTN: Health Professions Education
2411 Holmes Street
Kansas City, MO 64108

Student Learning Outcomes

The program seeks to:

- Deliver effective, theory-based instruction in large group, small group, and clinical settings
- Develop skill in educational research as it relates to the quality of instructional practice
- Design evidence-based educational programs and materials with appropriate scope, sequence, and focus for learners
- Understand assessment and to effectively use assessment tools to track student progress and to promote student learning
- Develop skill in program and curriculum development and evaluation in health professions education
- Identify current issues in health professions education and develop skill in monitoring changes in the field

Program Requirements

The Graduate Certificate in Health Professions Education provides an educational research foundation for teaching and assessment in health professions education. The certificate, which includes six courses (18 credit hours), is based on a mix of both classroom and internet instruction. The
Graduate Certificate in Health Professions Education reflects a unique collaboration between the School of Education and the School of Medicine at UMKC, both nationally recognized for their innovation in teaching and learning.

### Graduate Certificate in Community College Leadership

#### Program Requirements

Institutions in the state of Missouri, and across the nation, have come to recognize the growing demand for community college leadership and administrator preparation in the coming decades. This 18 credit hour graduate certificate program will provide opportunities for candidates to gain knowledge, skills, and competencies essential to their career and professional development as leaders in higher education settings, specifically in community colleges, in a convenient yet rigorous online environment.

This online certificate program is designed to incorporate skills and competencies put forth by the American Association for Community Colleges (AACC), including a focus on: organizational strategy, resource management, communication, collaboration, community college advocacy, and professionalism. The certificate can be completed either in conjunction with a graduate degree program or as a free-standing credential. This program is a collaborative effort between the University of Missouri – Kansas City (UMKC) School of Education and the University of Missouri – St. Louis (UMSL) College of Education.

#### Requirements for Admission

Applicants for this certificate program must have:

- A completed application for admission
- An undergraduate degree from an accredited institution
- Two letters of recommendation

#### Student Learning Outcomes

Upon completion of the Graduate Certificate in Community College Leadership program, the student will:

- Have a thorough grounding of higher education/student affairs as a field of study
- Understand organizational, management, leadership and supervision theories and issues
- Understand developmental theories as they relate to college students
- Understand professional requirements and ethics of the field
- Develop self-awareness
- Develop multicultural competencies
- Improve communication skill
- Develop skills to use technology to enhance the educational experience
- Develop the ability to analyze and interpret current research in the field
- Increase skills to apply research
- Improve ability to integrate and synthesize information

#### Curriculum Requirements

The curriculum reflects consideration of the current issues and needs of society, of higher education, and of the student populations served by community colleges and other 2 year institutions.

EDUC-UL 5571 Internship In Higher Education 2

Elective
HigherEd 6900: Internship 1 1-10
EDUC-UL XXXX Elective 3 3

1 Taught online by UMSL Faculty.
2 Taught by UMSL.
3 Can be taken from either institution or an approved elective from the student’s home institution.

Requirements for Retention
Program candidates must maintain a minimum grade of “B” in all classes or a GPA of 3.0 on a 4.0 Scale.

Time Limit for Completion
The program can be completed in four semesters; however, students must complete the program in three years or less.

Graduate Certificate in Educational Foundations

Program Overview
The Educational Leadership, Policy, and Foundations Division in the School of Education is committed to preparing individuals to serve in a variety of educational settings and in a myriad of capacities. The online Graduate Certificate in Educational Foundations provides candidates with opportunities to explore the philosophical, sociological, historical, and cultural foundations of education through analysis of important issues that have under-girded educational systems in our society. It is designed to be comprehensive in nature, with students completing a total of five online courses for a total of 15 credit hours.

Who Does This Program Benefit?
Because this graduate certificate program is offered totally online, students in the Kansas City region and indeed across the globe can expand their knowledge and further their professional development in any number of areas. Teachers and administrators in PK-12 settings, school counselors, students in Higher Education Administration programs, individuals serving in youth programs, or individuals interested in pursuing the Interdisciplinary Ph.D. in Educational Leadership, Policy, and Foundations at UMKC should apply. Applicants are required to have a completed Bachelor’s degree upon start of the program.

What Does The Program Look Like?
This certificate program is offered 100% online, and is designed to allow students to complete in as little as four semesters.

Application Procedures
Applicants for this certificate program must complete the following:

- Complete the online UMKC Graduate Application
- Submit official transcripts from an accredited institution showing the awarding of an undergraduate degree. Transcripts are considered official if they are received in a sealed envelope from the institution or sent electronically to the Office of Admissions (admit@umkc.edu)
- Provide two letters of recommendation to the Division of Educational Leadership, Policy & Foundations (ELPF) at the UMKC School of Education: 615 E. 52nd St., Kansas City, Missouri 64110

Required Curriculum
EDUC-UL 5525 Cultural Foundations Of Education 3
EDUC-UL 5526 Philosophical Foundations Of Education 3
EDUC-UL 5527 Historical Foundations Of Education 3
EDUC-UL 5528 Sociological Foundations Of Education 3
In addition to these required courses, students must also select ONE of the following elective courses to complete the certificate program:

**Graduate Certificate in Reading Intervention**

**Reading Intervention Graduate Certificate Overview**

**Who benefits from this certificate?**

The Reading Intervention Graduate Certificate program is for certified teachers who are currently, or will be, working with struggling readers on a regular basis, providing an avenue for in-service teachers to gain additional expertise in a focused manner. Classes focus on improving the quality and effectiveness of instruction in Tier 2 and 3 reading.

**What will the program look like?**

Consisting of four courses, the certificate can be completed in just one year.

**Special Reading Certificate**

**Who benefits from this certificate?**

The Language and Literacy division regularly offers all courses needed for non-degree seeking students who are only seeking DESE Special Reading certification (not a Master’s or Education Specialist in Reading/Language & Literacy).

**What will the program look like?**

The program will be individually tailored to meet the needs of the student.

**Graduation and Certification Requirements**

All undergraduate students must abide by the School of Education Policies and Procedures and by the Undergraduate Admission Policies and Procedures in this catalog.

All students completing an undergraduate teacher education degree must meet the following conditions in order to graduate and be recommended for teacher certification:

- 2.75 cumulative GPA/3.0 content GPA/3.0 Professional GPA.
- Completion of at least 120 credit hours if earning first bachelor’s degree (although many programs will require more than 120 credits).
- "C" or higher in all Education courses.
- "C" or higher in all subject-area courses required for Middle School and Secondary degrees.
- Successful completion of the Teacher Work Sample.
- Passing score on the certification exam(s) required by the State of Missouri (Praxis II) (Note this exam will be replaced with a new standardized assessment after fall 2013).
- Passing score on the CBASE exam (Note this exam will be replaced with a new standardized assessment after fall 2013).

All students completing a baccalaureate degree program in the School of Education must apply to graduate by the posted deadline during their final semester of enrollment. The deadline for making application to graduate is posted on each term’s academic calendar and on each student’s registration materials. See your academic advisor for questions about these requirements.

**History and Mission**

**History**

The School of Education, organized officially as a separate academic division in 1954, was the result of the University of Kansas City’s involvement in professional education since 1940. At that early date the University was offering an M.A. in education, heavily liberal-arts laden, with most classes conducted in the summer and evenings. An undergraduate major in elementary education was established in 1952, and the first University of Kansas City doctoral program, the Ph.D. in education, was inaugurated with the organizing of the school in 1954. Since 1954, the school has grown to include three disciplinary divisions with 21 programs, offering bachelor of arts, master of arts, educational specialist, doctor of philosophy, doctor of education and interdisciplinary degree programs. Several degree and certification programs are offered in cooperation with the the School of Biological Sciences, the Conservatory of Music and Dance, and the College of Arts and Sciences.
Mission & Values

The mission of the School of Education is to recruit, prepare, and support outstanding teachers, mental health professionals, and administrators who will create lifelong opportunities through education for America's diverse urban communities. This mission is centered on six key values which embody the knowledge, skills and dispositions expected of our candidates across the School of Education. The goals defined by individual programs are more specific subsets of these broader values:

1. Academic excellence
2. Strategic innovation
3. Inquiry leading to reflective decision-making and problem-solving
4. Skilled and knowledgeable professionals working collaboratively
5. Democracy, diversity, and social justice
6. Creating caring and safe environments

Vision

To be a leading urban-serving school of education in the nation.

Priority Goals

1. Foster and model a collaborative environment
2. Ensure academic excellence
3. Increase research focused on urban education
4. Provide leadership for urban schools and healthy communities
5. Ensure infrastructure for achieving strategic plan
6. Optimize and increase resources

The mission of the School of Education is to recruit, prepare and support outstanding teachers, mental health professionals and administrators who will create lifelong opportunities through education for America's diverse urban communities. This mission is centered on six key values which embody the knowledge, skills and dispositions expected of our candidates across the School of Education. The goals defined by individual programs are more specific subsets of these broader goals:

2. Strategic innovation.
3. Inquiry leading to reflective decision making and problem solving.
4. Skilled and knowledgeable professionals working collaboratively.
5. Democracy, diversity and social justice.
6. Caring and safe environments.

Institute for Urban Education (IUE): Description

The Institute for Urban Education (IUE) Scholarship is an undergraduate scholarship program in the School of Education for students who are interested in teaching elementary or middle school education with a focus in the teaching of math, science, and literacy. The scholarship is specifically targeted at students who have a strong interest in becoming teachers for urban schools.

Students receiving IUE scholarships will make a commitment to teach in an urban district following graduation in exchange for financial support. Questions regarding the IUE’s programs and offerings should be directed to Student Services at (816) 235-2234.

Interdisciplinary, Ph.D.

Refer to the School of Graduate Studies (http://sgs.umkc.edu) for more information.

Master in Health Professions Education

Program Overview

The Masters Degree in Health Professions Education (MHPE) provides an educational research foundation for teaching, assessment and leadership in health professions education. The MHPE curriculum is comprised of twelve courses which focus on the application of learning principles to educational practice. All courses emphasize an applied project based on students’ professional experiences. The educational portfolio serves as an integrative tool
across courses and as a showcase for student accomplishments. The MHPE reflects a unique collaboration between the School of Education and the School of Medicine at UMKC, both nationally recognized for their innovation in teaching and learning.

- Inter-professional – For all health education professionals
- Educational research foundation – Evidence-based decision making
- Application – Based on solving real instructional problems in health professions education
- Professional Portfolio – Documents learning goals and accomplishments
- Summer Health Professions Education Mini-Conference – Student-facilitated health professions education conference
- Online and Blended – Most coursework is online with occasional in-class meetings

Student Learning Outcomes

- Understand and apply educational research in health professions education.
- Design evidence-based educational programs and materials.
- Deliver effective, theory-based instruction in large, small and clinical group settings.
- Effectively use assessment tools to reflect student progress in learning.
- Evaluate the effectiveness of programs, curricula and instructional events.
- Develop cultural awareness and commitment to diversity.
- Provide reflective and evidence-based leadership.

Master of Arts: Counseling and Guidance

The Counseling and Guidance Program is accredited by the Master's in Psychology and Counseling Accreditation Council and has as its primary purpose the preparation of professional counselors. The master's degree is the first professional degree in counseling. Graduates holding this degree will gain the basic understanding and skills necessary for professional practice as a counselor. The program currently offers three emphasis areas leading to the M.A. degree: Elementary and Secondary School Counseling, Couples and Family Counseling and Mental Health Counseling.

Those electing the school counseling emphasis will, upon successful completion of the coursework and passing of the Praxis Exam for counseling, be eligible for school counselor certification in Missouri. The other counseling emphases are designed for students who wish to work in a variety of settings other than the public schools. Those earning degrees in counseling become employed in community colleges, four-year colleges, specialized areas in large universities (e.g. career planning and placement), the court system and community-based mental health services. Many students go on for advanced degrees. Students in this program will take all of the coursework needed to be eligible for licensure as a professional counselor in the state of Missouri. Students may also arrange their internship setting placements similar to those in which they plan to work.

Admissions

Courses for the master’s program in Counseling and Guidance are primarily offered at the Volker campus. Select school counseling courses are offered at the UMKC Northland campus; however, not all courses will be made available at that site. Applications for the program are accepted twice a year: by Sept. 1 to be admitted for the spring semester or by March 1 to be admitted for the fall semester. Application materials must be sent to both the UMKC Office of Admissions and the Division of Counseling and Educational Psychology. It is suggested that students apply to the University as soon as
possible to allow for processing time. Materials sent to the UMKC Admissions Office should be received by the application deadlines; materials sent to the Division of Counseling and Educational Psychology can be postmarked by the application deadlines.

**Admission Criteria:**

- Overall undergraduate 2.75 GPA or better, or 3.0 or better (4.0 scale) in the last 60 semester hours.
- Official GRE scores obtained within the last five years. The GRE requirement can be waived if the applicant is a graduate of a post-bachelor degree program with a cumulative GPA of 3.5 or higher.

**Applying to the Program**

Students who wish to apply to the program will have to submit two separate applications, one to the University (see A. below) and one to the Division of Counseling and Educational Psychology (see B. below).

**A. Send to the UMKC Admission office:**

2. $35 (domestic online) or $50 (international) non-refundable application fee.
3. Official transcripts from all colleges/universities previously attended (in sealed envelope or sent directly from universities).
4. Graduate Record Exam (GRE) (official copy).

**Mailing Address**

University of Missouri-Kansas City
Office of Admissions
120 Administrative Center
5100 Rockhill Road
Kansas City, MO 64110-2499

**B. Send to the Counseling and Guidance office:**

2. Three letters of reference (use rating forms in the application packet).
3. Statement defining personal and professional goals.
4. Additional requirements may apply for international students.

**Mailing Address**

University of Missouri-Kansas City
ATTN: Division of Counseling and Educational Psychology
215 Education Building
5100 Rockhill Road
Kansas City, MO 64110-2499

For more specific information about the master's in Counseling and Guidance see http://education.umkc.edu/programs/view/16

**Student Learning Outcomes**

Graduates demonstrate skills and knowledge in the following areas:

- Theories and skills of counseling
- The counseling relationship
- Social and cultural foundations of counseling
- Career development
- Assessment
- Research methods
- Professional identity
- Group theory and skills
- Ethical standards and issues
- Diagnostic systems
- School counseling
- Comprehensive program development, implementation and management

Additional School Counseling Student Learning Outcomes*

- Student development
- Program implementation
- Professional relationships
- Leadership and advocacy
- Ethical and professional conduct
- Cultural competence

*The UMKC Counseling Program Goals are based on the Missouri Standards for the Preparation of Educators (MoSPE). The MoSPE Standards for School Counselors are the foundation for certification in Missouri.

**Degree Requirements**

* Note: Only courses with an asterisk may be taken prior to being admitted to the program.
# Note: Course can be taken if officially admitted to a graduate degree program.

Master of Arts: Curriculum and Instruction

Requirements for Admission

Students admitted to School of Education graduate programs are governed by School of Education requirements and those of the School of Graduate Studies. Students seeking advanced degrees also should consult the School of Graduate Studies section for regulations applicable to all graduate students.

Students with a baccalaureate degree and teacher’s certification from a school of education may apply for all graduate programs or may enter with a baccalaureate degree (including a departmental major in a liberal arts program). Work toward a master of arts degree can begin during any semester.

Criteria for admission include an appropriate GPA and an overall record of achievement. A baccalaureate degree with a 3.0 GPA or above (on a 4.00 scale), or a master’s degree or other post-baccalaureate degree from an institution accredited by a regional accrediting agency is required for regular admission to the School of Education at the graduate level. Applicants who do not possess a post-baccalaureate degree and whose undergraduate GPA is between 2.50 and 2.99 are eligible for conditional admission and are required to complete the requirements described below. Applicants who do not meet the necessary admissions requirements may appeal to the Division Chair.

Conditional applicants must meet with a faculty advisor and are required to take four courses prescribed by the division for the degree in which the student intends to pursue. Applicants must achieve a grade of B or better in each of the courses (a course may be repeated only once). Two of these courses must be at the 5500 level.

Students who successfully complete the conditional period are eligible for regular admission to the School of Education at the master’s level. Only when conditional students are reclassified as degree-seeking may they file a program of study.

Students who do not successfully complete the conditional period will be permanently reclassified to post-bachelor status and will be allowed enrollment for undergraduate credit only. Post-bachelor students may not enroll in classes numbered 5500 or above.

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   • Teachers recognize individual differences in their students and adjust their practice accordingly.
   • Teachers have an understanding of how students develop and learn.
   • Teachers treat students equitably.
   • Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   • Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   • Teachers expose their students to different modes of critical thinking.
   • Teachers teach students to think analytically about content.
   • Teachers command specialized knowledge of how to convey a subject to students.
   • Teachers generate multiple paths to knowledge.
   • Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
   • Teachers call on multiple methods to meet their goals.
   • Teachers orchestrate learning in small and large group settings.
   • Teachers place a premium on student engagement.
   • Teachers regularly assess student progress.
   • Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   • Teachers are continually making difficult choices that test their judgment.
   • Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   • Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
• Teachers contribute to school effectiveness by collaborating with other professionals.
• Teachers work collaboratively with parents.
• Teachers take advantage of community resources.

Degree Requirements

The master of arts in Curriculum and Instruction is a degree sought by teachers and others who wish to enhance their knowledge base for application in the classroom and to increase Prek-12 student learning. There are seven emphasis areas from which to choose:

• General
• Early Childhood
• Elementary
• Subject Matter (Art, English, Math, Science, Social Studies)
• Multicultural Education
• Teaching English to Speakers of Other Languages

There is an 18-credit-hour core to all programs. This core includes coursework in the humanistic, behavioral, research, assessment and multicultural and urban focus foundation areas. In addition to these core courses, students complete 18 additional hours in their emphasis area.

General Emphasis

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   - Teachers recognize individual differences in their students and adjust their practice accordingly.
   - Teachers have an understanding of how students develop and learn.
   - Teachers treat students equitably.
   - Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   - Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   - Teachers expose their students to different modes of critical thinking. Teachers teach students to think analytically about content.
   - Teachers command specialized knowledge of how to convey a subject to students.
   - Teachers generate multiple paths to knowledge.
   - Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
   - Teachers call on multiple methods to meet their goals.
   - Teachers orchestrate learning in small and large group settings.
   - Teachers place a premium on student engagement.
   - Teachers regularly assess student progress.
   - Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   - Teachers are continually making difficult choices that test their judgment.
   - Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   - Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
   - Teachers contribute to school effectiveness by collaborating with other professionals.
   - Teachers work collaboratively with parents.
   - Teachers take advantage of community resources.

Program Requirements

The general option is the most flexible and allows students to create a program to meet their desire to become an accomplished teacher. This degree may be pursued concurrently with teacher certification. Additional coursework is required for certification. In addition to the core courses, students take coursework related to their educational role and supporting coursework in curriculum and instruction.

Core Courses

| Core Courses (meet with adviser before enrolling) | 18 |

Courses Related to the Student’s Educational Role

| Approved coursework may be taken in any college or school of the University ¹ | 12 |

Supporting Courses

| Coursework offered by the Division of Curriculum and Instructional Leadership | 6 |

Total Credits

36

¹ They should form a coherent body of work related to the student’s educational goals.
Early Childhood Emphasis

   • Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   • Teachers are continually making difficult choices that test their judgment.
   • Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   • Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
   • Teachers contribute to school effectiveness by collaborating with other professionals.
   • Teachers work collaboratively with parents.
   • Teachers take advantage of community resources.

Program Requirements

The following courses are required in addition to the core courses listed.

The early childhood emphasis is for those who hold elementary or early childhood teacher certification, or for those who are interested in the field of early care and education. The master's degree alone does not lead to certification in early childhood. Additional courses are required to obtain certification to teach early childhood education. For current program plan, go to http://education.umkc.edu/programs/view/10 and check on Early Childhood.

Early Childhood Courses

Select five of the following: 15

Culminating Experience - Select one of the following: 1
An approved special project, internship or thesis is required to integrate academic work.

## Elementary Emphasis

### Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   - Teachers recognize individual differences in their students and adjust their practice accordingly.
   - Teachers have an understanding of how students develop and learn.
   - Teachers treat students equitably.
   - Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   - Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   - Teachers expose their students to different modes of critical thinking. Teachers teach students to think analytically about content.
   - Teachers command specialized knowledge of how to convey a subject to students.
   - Teachers generate multiple paths to knowledge.
   - Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
   - Teachers call on multiple methods to meet their goals.
   - Teachers orchestrate learning in small and large group settings.
   - Teachers place a premium on student engagement.
   - Teachers regularly assess student progress.
   - Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   - Teachers are continually making difficult choices that test their judgment.
   - Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   - Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
   - Teachers contribute to school effectiveness by collaborating with other professionals.
   - Teachers work collaboratively with parents.
   - Teachers take advantage of community resources.

## Program Requirements

The following courses are required in addition to the core courses listed.

This emphasis is for elementary teachers or those teachers who are interested in gaining perspective on elementary strategies. It does not lead to elementary certification.

### Curriculum in Basic Content

Emphasis in Teaching English as a Second Language

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   • Teachers recognize individual differences in their students and adjust their practice accordingly.
   • Teachers have an understanding of how students develop and learn.
   • Teachers treat students equitably.
   • Teachers’ mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   • Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   • Teachers expose their students to different modes of critical thinking. Teachers teach students to think analytically about content.
   • Teachers command specialized knowledge of how to convey a subject to students.
   • Teachers generate multiple paths to knowledge.
   • Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
   • Teachers call on multiple methods to meet their goals.
   • Teachers orchestrate learning in small and large group settings.
   • Teachers place a premium on student engagement.
   • Teachers regularly assess student progress.
   • Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   • Teachers are continually making difficult choices that test their judgment.
   • Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   • Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
   • Teachers contribute to school effectiveness by collaborating with other professionals.
   • Teachers work collaboratively with parents.
   • Teachers take advantage of community resources.

Program Requirements

This program leads to a master’s degree in teaching English to speakers of other languages. Students may take the degree program for personal enrichment and for use outside of public education.

The following courses are required in addition to the core courses listed:

Master of Arts: Educational Administration

Student Learning Outcomes

Upon completion of the MA in Educational Administration program, the student will:
• have a thorough grounding of higher education/student affairs as a field of study
• understand organizational, management, leadership and supervision theories and issues
• understand developmental theories as they relate to college students
• understand professional requirements and ethics of the field
• develop self-awareness
• develop multicultural competencies
• improve communication skill
• develop skills to use technology to enhance the educational experience
• develop the ability to analyze and interpret current research in the field
• increase skills to apply research
• improve ability to integrate and synthesize information

General Nature of the Program

The master of arts degree in educational administration, accredited by the National Council for Certification of Teacher Education and the Missouri Department of Elementary and Secondary Education, is designed to provide entry-level preparation for students planning careers in school administration.

The course of study includes a sequence of basic and advanced studies and other applied learning experiences. Students have the opportunity to develop understanding and skills through seminar courses, individual study, and the practice of inquiry in addition to study in required courses. The program is designed to support a focus on professional effectiveness and to foster research, evaluation and assessment activities for students. Instruction and mentored practical experiences will make frequent use of and reference to evaluation and assessment of student performance.

Emphasis Area: Higher Education

Master of Arts in Educational Administration: Higher Education Emphasis

Admissions

The Higher Education faculty review all admissions applications and make admission decisions. Admission for the M.A. in educational administration, with an emphasis in Higher Education, requires that the following steps be successfully completed:

Admission Requirements

1. **Full admission** to the Higher Education Program requires:
   • Completion of the UMKC graduate admission application.
   • An undergraduate 3.0 GPA or higher.
   • Cover sheet.
   • Two letters of reference with recommendation form.
   • A written statement of purpose (500 words maximum) that outlines the student’s rationale for application to the program and learning goals.

2. Students who do not meet the undergraduate grade-point average can receive conditional admission to the program. Students must complete a minimum of six hours of core requirements with a grade of “B” or better within the first two semesters of enrollment.

3. Priority application deadlines are as follows:
   • April 1 for summer term
   • July 1 for fall term
   • November 1 for spring term

Student Learning Outcomes

Upon completion of the Higher Education Administration program, the student will:

• Have a thorough grounding of higher education/student affairs as a field of study
• Understand organizational, management, leadership and supervision theories and issues
• Understand developmental theories as they relate to college students
• Understand professional requirements and ethics of the field
• Develop self-awareness
• Develop multicultural competencies
• Improve communication skill
• Develop skills to use technology to enhance the educational experience
• Develop the ability to analyze and interpret current research in the field
• Increase skills to apply research
• Improve ability to integrate and synthesize information

Program Requirements

The graduate program in Educational Administration with an emphasis in Higher Education prepares administrators and educators for the demands of leadership in colleges or universities and other institutional settings. Through a comprehensive master’s program for individuals wanting a graduate degree or through coursework taken for professional development, the program supports administrative leaders and educators who seek to enhance their professional competencies and effectiveness in today’s increasingly diverse work place.

Student programs of study at the master’s level are developed to reflect required core courses that provide all master’s level students with fundamental understandings of higher education, student development, organizational leadership and diversity. In addition, the program offers a range of cognate courses that are tailored to meet specific student interests or learning goals in administrative leadership or student affairs administration. Advising materials and meetings with faculty enable students to create academic programs that meet their unique learning needs. Unless indicated, all courses are available to non-degree seeking students for professional development.

All master’s level students will design a full-term internship in collaboration with an on-site supervisor and the instructor of the fieldwork course. The purpose of the internship is to provide students with guided opportunities to enhance skills, expand their professional experience base, and apply course learning in new settings.

1. Note: The student may select courses from other disciplines to meet elective hours. All coursework must be approved by the advisor.

**Emphasis Area: School (Grades K-12) Administration**

**Coordinator:**
Uzziel Pecina, (816) 235-2716, pacinau@umkc.edu

**Admissions**
Admission and retention for the M.A. in educational administration, with an emphasis in school (PK-12) administration, requires that the following steps be successfully completed:

**Admission into Program**
- Completion of a course in education of the exceptional child.
- Attain an undergraduate GPA of at least 2.75.
- Provide copy of a current permanent or professional teaching license/certificate.
- Provide resume showing at least one year of certified teaching experience in elementary, middle or secondary schools under a fully licensed teaching certificate (temporary or provisional certification does not meet this requirement).
- Essay statement regarding past, present and future career goals (500 words or less).
- A minimum of three letters of reference on official letterhead from a direct supervisor of professional teaching experience.

Students who do not meet all of the above admission requirements may receive conditional admission to the program. Full admission is contingent upon completion of a minimum of six hours of core requirements during the first semester of enrollment with a grade of ‘B’ or better.

**Acceptance into Practicum**
- Successful completion of all coursework (1) with a B grade or better.

**Program Completion and Recommendation for Administrative Certificate**
- Successful completion of the practicum.
- Recommendation of the faculty based on coursework completion, development of an administrative platform, and action research presentation.
- Completion of the student exit survey.

**Post-Program Completion**
- Student completion of ELPF graduate survey relative to preparation program and ELCC standards.
- Employer survey completion (supervisor).

1. No more than 6 post-undergraduate/graduate credit hours may transfer into the M.A. program.
2. Students must file a Program Plan of Study while enrolled in the course EDUC-UL 5501.
3. EDUC-UL 5501 is the prerequisite to EDUC-UL 5502 ; and EDUC-UL 5502 is the prerequisite to EDUC-UL 5503. These courses are mandatory and cannot be waived. Students must enroll in these courses in sequence.

**Master of Arts in Educational Administration: Elementary School Emphasis**

**Student Learning Outcomes**
The master’s program with emphasis in school administration is designed to prepare leaders for 21st century schools. These leaders must begin now to envision the nature of a global technical-information-based society and the schooling such a society will require. Assumptions based on available knowledge concerning these schools will be made in designing the M.A. program for students. Students will be expected to develop “Learning Organizational Culture” schools and demonstrate competency to develop:
1. Into a facilitator of relationships and outcomes that enhance the effective operation of the school.
2. Collaborative and participative planning and decision-making structures (teams).
3. Support networks from the community and in the school.
4. School organizations as cultures of renewal, risk, problem-solving, trust and caring.
5. School culture of reflective and critical thought concerning learning theory and practice.

On completion of the program, students will be equipped to envision and embrace an information-based, developmental society. Students begin their program of study with a cohort group of other potential school leaders and will take a series of 3-credit-hour block courses. Each cohort will work collaboratively throughout its studies and be led by University faculty.

Students will complete both individual and group projects, over the course of their degree program, and participate in field experiences each semester. While the three-block sequence is intended for school leaders at every level, it is expected that students will tailor their elective coursework and their culminating experience (practicum or internship) to the building level at which they hold their teaching credentials.

Students who complete the master of arts in educational administration may be recommended for initial certification as a building administrator (Kansas) or principal (Missouri). Students must complete the Educational Specialist to earn advanced principal certification in Missouri. Advanced certification is required to be a principal in an AAA-rated school district. Administrative assessment (the School Leaders Licensure Assessment) is required in Missouri and Kansas.

**Degree Requirements**

**Theoretical and Functional Aspects of Educational Administration**

---

1. Required core for all level principals.
2. EDUC-UL 5501, EDUC-UL 5502 and EDUC-UL 5503 must be taken sequentially. EDUC-UL 5501 is offered in the fall and spring semesters only.
Master of Arts in Educational Administration: Secondary School Emphasis

Student Learning Outcomes

The master’s program with emphasis in school administration is designed to prepare leaders for 21st century schools. These leaders must begin now to envision the nature of a global technical-information-based society and the schooling such a society will require. Assumptions based on available knowledge concerning these schools will be made in designing the M.A. program for students. Students will be expected to develop "Learning Organizational Culture" schools and demonstrate competency to develop:

1. Into a facilitator of relationships and outcomes that enhance the effective operation of the school.
2. Collaborative and participative planning and decision-making structures (teams).
3. Support networks from the community and in the school.
4. School organizations as cultures of renewal, risk, problem-solving, trust and caring.
5. School culture of reflective and critical thought concerning learning theory and practice.

On completion of the program, students will be equipped to envision and embrace an information-based, developmental society. Students begin their program of study with a cohort group of other potential school leaders and will take a series of 3-credit-hour block courses. Each cohort will work collaboratively throughout its studies and be led by University faculty.

Students will complete both individual and group projects, over the course of their degree program, and participate in field experiences each semester. While the three-block sequence is intended for school leaders at every level, it is expected that students will tailor their elective coursework and their culminating experience (practicum or internship) to the building level at which they hold their teaching credentials.

Students who complete the master of arts in educational administration may be recommended for initial certification as a building administrator (Kansas) or principal (Missouri). Students must complete the Educational Specialist to earn advanced principal certification in Missouri. Advanced certification is required to be a principal in an AAA-rated school district. Administrative assessment (the School Leaders Licensure Assessment) is required in Missouri and Kansas.

Principles Of Testing

Total Credits: 36

1. Required core for all level principals.
2. EDUC-UL 5501, EDUC-UL 5502 and EDUC-UL 5503 must be taken sequentially. EDUC-UL 5501 is offered in the fall and spring semesters only.

**Principal Certification**

Students seeking administrative certification must first offer proof of holding valid teaching certification at the same level (i.e., elementary or secondary), and have a minimum of two years teaching experience. The M.A. is offered with certification concentrations in elementary school administration or secondary school administration. Additional coursework is required for certification as a middle school administrator.

Those who complete the master of arts in educational administration may be recommended for initial certification as a building administrator (Kansas) or principal (Missouri). Students are encouraged to complete the educational specialist degree to further their careers. In addition to completion of the academic program, Missouri and Kansas require all prospective administrators to successfully complete the School Leaders Licensure Assessment.

**Master of Arts: Language and Literacy**

**Student Learning Outcomes**

Objectives for the master of arts vary according to candidates' career objectives. In general, candidates should expect:

1. To develop competencies in:
   - Reading instruction for elementary and/or secondary, college and adult students.
   - Individual assessment and instructional intervention strategies for diverse learners and struggling readers.
   - Knowledge of the strategies and techniques used in reading research, and experience in reading and reporting such research.
   - Performing the duties of reading specialist and literacy coach.

2. To meet requirements for certification as a Special Reading Teacher grades K-12. (Initial teaching certification at the elementary, middle or secondary level required.)

3. To meet all professional standards specified by the Professional Standards and Ethics Committee of the International Reading Association.

**Program Requirements**

The Division of Curriculum and Instructional Leadership offers a program of study leading to the Master of Arts Degree in Language and Literacy. A reading teacher certification program is also available to those who hold a prior teaching certificate for public schools and have a minimum of two years teaching experience.

The 36-credit-hour program of study consists of the reading requirements, humanistic and behavioral studies requirements, and electives.

EDUC-R&P 5513  Life Span Human Development

Multicultural and Urban Focus
Select one of the following:  3

- EDUC-C&I 5560  Teaching And Learning In The Urban Classroom
- EDUC-C&I 5561  Teaching Diverse Populations In Today's Classrooms
- EDUC-C&I 5562  Teaching For Equity And Social Justice
- EDUC-C&I 5563  Multicultural Perspectives In Education
- EDUC-SP 5516  Collaborating with Families and Other Professionals

Electives
Select two of the following:  6

- EDRD 5530  Reading Instruction for English Language Learners, K-12
- EDRD 5541  Teaching Reading Improvement: Secondary, College, and Adult Levels
- EDRD 5601  Organizing And Guiding The Reading Program
- EDRD 5650  Seminar In Dyslexia And Related Learning Disabilities

Total Credits: 36

Note: Reading courses are being revised and renumbered. The new designation EDRD will be in place beginning Spring 2010.

Coursework related to the major area of reading/literacy is needed to satisfy this requirement. This coursework must be approved by the student’s faculty advisor.

Final Examination
Students must pass a written examination covering their reading coursework.

Master of Arts: Special Education

Admission Requirements
Candidates entering the master’s program with emphasis in MM/CC disabilities must hold a baccalaureate degree and have an overall 3.0 GPA or higher on a 4.0 scale and successfully complete an interview with program faculty. Official admission to the University of Missouri-Kansas City graduate school is required. Admission deadlines are February 1st for summer and fall admission and October 1st for spring admission.

Candidates who do not hold initial teaching certification in elementary or secondary education must pass the College Basic Academic Subjects Examination (CBASE), with a score of 235 or greater at admission. Informational packets for the CBASE can be obtained from Student Services in the School of Education.

The master of arts in special education is a degree sought by teachers and others who wish to enhance their knowledge and skills in working with children and adolescents with exceptional learning needs. The Division of Curriculum and Instructional Leadership offers a program of study leading to the degree of master of arts in special education. The focus of the master’s degree is in Mild-Moderate/Cross-Categorical (MM/CC) Disabilities. The program prepares educators to teach students, to serve as advocates for children and their families, and to work collaboratively with colleagues in K-12 educational settings, including public and charter schools, and private schools.

Student Learning Outcomes

1. Teachers are committed to students and their learning. (Diversity, Core Concepts)
   • Teachers recognize individual differences in their students and adjust their practice accordingly.
   • Teachers have an understanding of how students develop and learn.
   • Teachers treat students equitably.
   • Teachers' mission extends beyond understanding the cognitive capacity of their students.

2. Teachers know the subjects they teach (Curriculum Design, Content Knowledge) and how to teach those subjects to students (Pedagogy, Technology in Instruction).
   • Teachers appreciate how knowledge in their subjects is created, organized and linked to other disciplines.
   • Teachers expose their students to different modes of critical thinking.
   • Teachers teach students to think analytically about content.
   • Teachers command specialized knowledge of how to convey a subject to students.
   • Teachers generate multiple paths to knowledge.
   • Teachers have knowledge of available curricular resources including technological innovations.

3. Teachers are responsible for managing and monitoring student learning. (Assessment, Pedagogy)
• Teachers call on multiple methods to meet their goals.
• Teachers orchestrate learning in small and large group settings.
• Teachers place a premium on student engagement.
• Teachers regularly assess student progress.
• Teachers are mindful of their principle objectives.

4. Teachers think systematically about their practice and learn from experiences. (Research, Reflection)
   • Teachers are continually making difficult choices that test their judgment.
   • Teachers seek the advice of others and draw on education research and scholarship to improve their practice.
   • Teachers understand the importance of educational research, its relevance to daily classroom practice and justify practice based on sound research outcomes.

5. Teachers are members of learning communities. (Professional Activism)
   • Teachers contribute to school effectiveness by collaborating with other professionals.
   • Teachers work collaboratively with parents.
   • Teachers take advantage of community resources.

Program Requirements
Program requirements vary depending on the combination of degree and certification desired. Three program options provide opportunities for candidates to earn a master’s degree with or without special education teaching certification.

• Program Option 1: Initial Certification plus Master’s Degree
• Program Option 2: Master’s Degree with Special Education Endorsement for Those with Previous Certification
• Program Option 3: Master’s Degree Only

For specific degree requirements, contact the Division of Curriculum and Instructional Leadership at (816) 235-2245 or e-mail education@umkc.edu.

Certification
Courses required for certification in Missouri and Kansas are typically completed as part of the MM/CC program. Arrangements can be made for obtaining temporary certification in MM/CC in Missouri only; however, employment in the field is required. Because the requirements for certification vary from state to state, it is important to plan a course of study carefully with a special education faculty advisor during the first semester of coursework at UMKC.

Ph.D. - Counseling Psychology

Overview
The Ph.D. degree in counseling psychology has been fully accredited by the American Psychological Association since 1985. The counseling psychology program emphasizes multicultural and individual diversity within a scientist-practitioner model. Consistent with the University’s urban/metropolitan mission, the diverse Counseling Psychology faculty is committed to educating future counseling psychologists to improve the welfare of individuals and communities through scholarship and applied interventions.

Student Learning Outcomes
Our program emphasizes a scientist-practitioner model in which students are informed about and contribute to scientific knowledge and are committed to life-long learning. Student practice activities are informed by research and a scientific attitude, and all professional activities are approached and critically evaluated with an ethical, multicultural, and professional mind-set. Students are also trained to work effectively and ethically with diverse clients, using interventions based on theory and informed by science. Our developmental model provides early and progressive training in both research and practice activity, culminating in professionals who can design, conduct, and evaluate research relevant to the field of psychology.

More information about the program can be found at http://education.umkc.edu/programs/view/18

Graduates demonstrate skills and knowledge in the following areas:
• Professional identity as counseling psychologists.
• Understand the importance and complexity of cultural and individual diversity. They acquire the competence to apply knowledge of diversity in all areas of science and practice.
• Understand counseling psychology as a scientific discipline. They are able to create, evaluate, and ethically contribute to the empirical knowledge base of psychological practice and theory.
Admission Criteria

The program accepts bachelor’s-level and master’s-level applicants. Approximately six to ten students are admitted to the Counseling Psychology program each year.

Recommended minimum for bachelor’s level applicants:

• The completion of a bachelor’s degree with a major in psychology.
• Official GRE scores obtained within the last five years.
• An overall undergraduate 3.0 GPA covering all college work taken prior to the bachelor’s degree, or 3.25 for the major courses or the last 60 credits of the bachelor’s degree.
• Additional requirements may apply for international students.

Recommended minimum for master’s level applicants:

• The completion of a master’s degree in counseling or a closely related area.
• Official GRE scores obtained within the last five years.
• Graduate GPA of 3.5 or above.
• Additional requirements may apply for international students.

Applicants will be evaluated using the following dimensions: academic potential, research potential, research interest, interpersonal characteristics, contribution to program diversity, commitment to multiculturalism, professional goals and interest, understanding of the profession of counseling psychology.

Alternative Criteria: students who do not meet the regular recommended criteria may be admitted under alternative criteria provided there is good reason to believe that the regular criteria do not adequately manifest the student’s potential to do quality work in the program. The Counseling Psychology faculty reserves the right to require those who are admitted under the alternative criteria to take some background core courses in psychology before or during the first year of their doctoral training in the areas of general psychology, theories of personality, tests and measurement, abnormal psychology, experimental psychology, and introductory statistics. This decision will be made by the admission committee and the student’s assigned advisor, and communicated to the student before he/she starts the program.

The admission committee will consist of three or more faculty members and one or more student members. The student member must be in his or her final year of the academic program (i.e., doing the pre-doctoral internship in the subsequent academic year). Using the above criteria, the admission committee will select approximately thirty applicants to be offered interviews. Campus interview will be recommended, but not required. Phone interviews are offered for those who cannot make the campus interview on our Interview Day. Admission will be offered to a small number of the applicants interviewed. In addition, the committee selects a list of those who were interviewed to serve as alternates. Candidates will be notified of the admissions decisions no later than April 1st. Candidates are required to act on the notifications by April 15th. If a first-round candidate does not accept, an alternate for the position will be selected from the list of the remaining candidates. Alternates will have 7 days to act on the notification, but if the offer is made on or after April 15, they will have 3 days to give a definite response. In making decisions, the Counseling Psychology Program at UMKC does not discriminate against anyone on the basis of race, gender, ethnicity, sexual orientation, age, religion, nationality, or physical disability and appearance.

Admission Requirements

Application packets for the Counseling Psychology Program can be obtained from the program’s Web site: http://education.umkc.edu/academics/doctoral-degrees/doctorate-of-philosophy-ph-d-in-counseling-psychology/.

If needed, you may contact the UMKC Office of Admissions either by phone (816) 235-1111, or by e-mail admit@umkc.edu. You may also contact the Counseling Psychology Program at (816) 235-2722.

Applications are accepted only for the fall semester and must be completed and received by January 1. Application materials must be submitted to two separate offices on campus: 1. The UMKC Admissions Office, and 2. The Counseling Psychology Admissions Committee.

1. **Materials to be sent to the UMKC Admissions Office:**
   a. UMKC application for admission (May be completed electronically at http://www.umkc.edu/admissions).
   b. Application fee (May be completed electronically at http://www.umkc.edu/admissions).
   c. Official transcripts from all post-secondary institutions.
   d. Official Graduate Record Examination (GRE) scores, sent directly from ETS.

   **Please submit the UMKC Admissions Office materials to:**
   UMKC Office of Admissions
   University of Missouri-Kansas City
2. **Materials to be sent to Counseling Psychology:**
   a. Cover sheet for the Ph.D. in Counseling Psychology (from the Counseling Psychology application packet).
   b. Personal statement. Submit a concise (two to three pages) statement concerning some or all of the following:
      - Your self reflection/perception
      - Your professional goals and interests
      - Your research knowledge, experience, and interest
      - Your views on multiculturalism and diversity
   c. Curriculum vitae including the following information:
      - Contact information
      - Educational background
      - Relevant clinical, research, and volunteer experiences
      - Honors or awards
      - Membership/leadership in professional organizations
      - Presentations and publications
   d. Three applicant evaluations forms (from the Counseling Psychology application packet) with attached letters of recommendation.
      - Raters should address your suitability for professional studies in a mental health service profession.
      - Raters should have knowledge of your interpersonal and intellectual functioning and skills in research, counseling and written and oral communication.
      - Raters should enclose their letters of recommendation along with the provided rating sheet in an envelope, sign their names across the sealed flap of the envelope, and either return to the student or mail directly to the address below.
      - References must be from professional or academic settings.

   **Mailing Address**
   University of Missouri-Kansas City
   ATTN: Counseling Psychology Admissions Committee
   215 Education Building
   5100 Rockhill Road
   Kansas City, MO 64110-2499

   **Note:** Admission to UMKC or the school of Graduate Studies does not guarantee admission to the Doctor of Philosophy degree program in Counseling Psychology.

---

**Recommendation for Teacher Certification**

Although the School of Education may recommend persons for certification to teach in Missouri, the requirements for certification are determined by the state. The State of Missouri requires that any individual seeking to be a teacher complete an accredited college or university’s teacher education program. Individuals seeking certification must meet the program requirements established by UMKC as approved and accredited by the Missouri Department of Elementary and Secondary Education regardless of previously completed college coursework. Post-baccalaureate students are encouraged to consider entering the field of education but should be prepared to complete the specific content area and professional education courses required for certification.

In cooperation with the Missouri Department of Elementary and Secondary Education and the National Council for Accreditation of Teacher Education, UMKC is responsible for recommending students and alumni for teacher certification. Requests for certification are initiated by students. The School of Education will also make recommendations to other state’s departments of education.

The certification and data manager in the School of Education Student Services Office serves as a certification officer for teachers, counselors and administrators at UMKC.

Information for Missouri certification can be accessed on-line at [http://dese.mo.gov/divteachqual/teachcert/](http://dese.mo.gov/divteachqual/teachcert/). Certification application materials and information for Kansas can be obtained directly from the state at [http://ksde.org/Default.aspx?tabid=1648](http://ksde.org/Default.aspx?tabid=1648). Students should apply for certification early in their final semester to prevent delay in receiving the certificate. Institutional recommendations for certification are made only for students who have completed a UMKC School of Education degree or the equivalent in the appropriate certification area. To establish a basis for the institutional recommendation, all students who do not earn a degree at UMKC, who are seeking an additional endorsement to teach, administer, or counsel, must take at least 12 hours of coursework planned with an advisor in the School of Education.
Most states, including Missouri and Kansas, have additional testing requirements for certification. It is the student’s responsibility to obtain this information and satisfy those testing requirements prior to applying for certification. In addition, the states of Missouri and Kansas require that all candidates for certification submit fingerprints to be used for state and national background checks before any certificate is issued.

On completion of the appropriate degree, recommendation for Missouri\(^1\) certification can be achieved in the following areas:

- Early Childhood Teacher (birth-3rd grade), B.A. early childhood education
- Elementary Teacher (1-6), B.A. elementary education
- Middle School Teacher (5-9), B.A. middle school education/subject area specialty (language arts, mathematics, science and social studies)
- Secondary Teacher (9-12), B.A. secondary education/subject matter specialty: English, mathematics, science (requires an emphasis in biology, chemistry, earth science, or physics), unified science (requires an emphasis in biology, chemistry, earth science, or physics), and social studies.
- Teacher (K-12), B.M.E. (Bachelor of Music Education) music education/choral/instrumental; B.A. secondary education: foreign language (French, German, Spanish), Art
- School Counselor (1-8), M.A. counseling and guidance/elementary
- School Counselor (7-12), M.A. counseling and guidance/secondary
- Teaching English to Speakers of Other Languages (K-12), M.A. curriculum and instruction/TESOL
- Principal (K-8) M.A. educational administration/elementary (initial); Ed.S. educational administration/elementary (advanced)
- Principal (7-12) M.A. educational administration/secondary (initial); Ed.S. educational administration/secondary (advanced)
- Middle Level Principal (5-9), M.A. educational administration
- Special Reading Teacher (K-12), M.A., Ed.S. reading education
- Mild/Moderate Cross-Categorical disabilities(K-12), M.A. special education
- Superintendency, Ed.S. educational administration

\(^1\) Kansas and other state’s certification subjects and levels are similar. Contact the School of Education Student Services Office for information.

**Provisional Certification**

The State of Missouri allows individuals who hold a bachelor’s degree to be provisionally certified to teach provided the individual is within 12 credit hours of completing a teacher certification program. The Missouri school district that wishes to employ such an individual for a teaching position must complete its segment of the on-line application before an academic contract is written and endorsed by the School of Education.

**Criminal Record Check**

Missouri State law requires all persons working in the public schools to have passed a criminal background check as done by the FBI and Missouri Highway Patrol. Students applying for teacher certification will have to request an FBI background check from DESE. Forms and instructions are available directly from DESE (http://dese.mo.gov/divteachqual/teachcert/bcindex.html) or in the Student Services Office.

**State of Missouri Grade-Point Average Requirement**

All persons certified to teach in public elementary middle, and secondary schools in Missouri, except for non-academic vocational and 45- and 90-day substitute teachers, must have an overall 2.5 GPA or higher (on a 4.0 scale).

**Missouri Certification Testing**

Missouri has established a requirement that all prospective teachers must take a competency examination prior to certification. All students must pass the Praxis II Specialty Area Test appropriate to their field of study prior to graduation for certification in Missouri. All test results must be sent directly to the UMKC School of Education. Passing scores have been established by the Missouri Department of Elementary and Secondary Education. Contact the School of Education Student Services Office for more information.

**Retention**

Education majors are expected to maintain a quality of achievement significantly above minimum UMKC standards for degree work. Individual student progress will be monitored throughout the program. Satisfactory progress is required of all students for retention in the teacher preparation program. Students are expected to maintain academic standards, perform satisfactorily in clinical courses, refrain from academic dishonesty, comply with the established University and teacher education timetables and requirements, and refrain from unethical or unprofessional behavior or behaviors that obstruct the training process or threaten the welfare of the student or others. Other circumstances involving student behavior will be addressed by the faculty on an individual basis.

Specific policies relating to academic progress and dispositions that relate to retention in the teacher preparation program can be found at http://education.umkc.edu/academics/undergraduate-programs/ where there is a link to the current Student Handbook.
Title II Notice

Title II of the Higher Education Act requires that every institution of higher education provide public information regarding the pass rate of the institution’s graduates on the teacher certification or licensure assessment of the state in which the institution is located. Additionally, Title II requires that a comparison of each program’s pass rate be made with the average pass rate in the state.

Graduates of the teacher education program at UMKC have achieved a 99 percent pass rate on the Praxis II, a nationally normed examination required by the State of Missouri for certification purposes. The average pass rate in Missouri is 97 percent.

Scholarships

School of Education Scholarship Information

Three types of scholarships are available to students: Automatic (considered when applying to UMKC); Additional scholarships to apply for through the UMKC Financial Aid and Scholarships Office, and School of Education scholarships. The SOE scholarships are available to undergraduate and graduate students in our programs. Apply to be considered for these opportunities!

Applicants

• Must be admitted to the School of Education
• Submit application by February 1st
• Must complete a new application each year
• Previous recipients may reapply
• Number and dollar amount of awards vary from year to year
• Awards are not automatically renewable
• Undergraduate students must be enrolled in at least 12 credit hours each semester during the new academic year to receive a scholarship
• Graduate students must be enrolled in at least 6 credit hours each semester during the new academic year to receive a scholarship

Procedures

• School of Education students complete a single application which is then used to determine eligibility for all scholarships.
• Application should include:

  1. 750 word essay addressing the following:

  • Discuss your past accomplishments and future goals in the field of education or counseling. Finally, please describe how you will integrate and exemplify the SOE Mission and Values in your future work.

Student names are removed from the essay and resume before they are reviewed. Applicants are asked to avoid using their name in these materials. Responses longer then 750 words will not be considered beyond the first 750 words. *NOTE: If you choose to apply for the Mazuma Credit Union Scholarship you will need to submit an ADDITIONAL essay addressing how you would incorporate personal financial management in the classroom. This essay should be submitted as part of the same attachment as your general scholarship essay, but please write it on a separate page in your document.

Resume (please remove student name and email address before submitting)

If you need assistance, contact Career Services Center here on campus. Contact information along with helpful resources can be found at http://career.umkc.edu.

Two current recommendations

A recommendation from an educator or UMKC faculty member is recommended but not required. Recommendation forms should be returned to the School of Education no later than February 11th. A copy of the recommendation form can be found here. (http://education.umkc.edu/Documents/ fetch/502)

Return forms to:

University of Missouri - Kansas City
School of Education
Room 345 - Dean’s Office
5100 Rockhill Road
Kansas City, MO 64110-2499
attn: Renique Kersh

OR Fax forms to: (816) 235-6511
To complete the online application to go [http://education.umkc.edu/CurrentStudents/SOEScholarships.html](http://education.umkc.edu/CurrentStudents/SOEScholarships.html)

**Selection Process/Timeline**

December: Scholarship application opens

February 1st: Applications are due and committee begins review

April: All applicants are notified if selected

August-September: All scholarship recipients will be honored at the SOE scholarship event scheduled in the beginning of the next academic year.

For more information about the SOE Scholarships go to [http://education.umkc.edu/CurrentStudents/SOEScholarships.html](http://education.umkc.edu/CurrentStudents/SOEScholarships.html).

**Special Services**

**Public School Placements**

The Field Placement Office in the School of Education assists in making placements to enable teachers and other school personnel to complete their various practicum experiences. All field placements require students to have a current background clearance check.

Students admitted to the Teacher Education program are required to complete practicums within one of the School of Education’s nine partner districts (Center School District, KCMO, KCKS, Grandview, Hickman Mills, Independence, North Kansas City, Raytown, Turner and UMKC-sponsored charter schools). All Teacher Education programs require students to complete at least a semester-long student teaching experience. During student teaching, students are under the guidance of cooperating mentor teachers and members of the University’s education staff. Weekly seminars are a required part of the program.

**Career Services at UMKC**

The Career Services Office offers a variety of career and job-related services to students and alumni. Through Career Services, students can receive resume, interview and job search assistance. Teacher Education and School Counseling students in their last year of coursework can interview with representatives of area school districts through a Career Day sponsored by Career Services.

Students or graduates seeking a teaching or administrative position are urged to register and keep their records current in the Career Services Office, 4825 Troost, phone (816) 235-1636 or check their Web site: [http://www.career.umkc.edu/](http://www.career.umkc.edu/).

The Career Services Office will be located in the new Student Success Center.

**Technology Learning Laboratory**

The Technology Learning Lab is located in the STAR Center in room 129 in the Education Building. The TLL is operated by the School of Education specifically for Education students. It offers specialized equipment for scanning, digital video and digital video edition. In addition, one-on-one assistance with software applications, electronic portfolio construction and technology integration techniques for the classroom is available. Customized training is available by appointment and on a first-come, first-served basis. Computers with the PC and Mac platforms are available. For more information, visit [http://education.umkc.edu/tll](http://education.umkc.edu/tll).

**Office of Continuing Education**

Through Continuing Education, hundreds of courses are offered to teachers and other community members throughout the Greater Kansas City area and beyond. Credit and non-credit courses are offered throughout the year at various locations and at various times. Continuing Education also has numerous online offerings to fit any schedule. For course topics and additional information, visit our Web site at [http://education.umkc.edu/CE/](http://education.umkc.edu/CE/) or call (816) 235-1188.

**Student Organizations**

The School of Education Student Government strives to expand the students’ academic concerns and abilities, promote students’ involvement in the School of Education and the University, act on all matters concerning students’ welfare, aid faculty and students in cooperative work and promote a professional attitude and feeling of responsibility. Community service is also a regular part of the activity of the SOESG. The organization meets on a regular basis and welcomes all students’ attendance and participation.

The American Psychological Association -- Student Affiliate Group encourages professional development within the field of counseling psychology. It also serves as a meeting time for the members to discuss issues and concerns of the counseling psychology doctoral program. It encourages students to organize educational, social and fund raising events, and to act as a liaison with the counseling psychology faculty and the UMKC community.
The Master’s of Counseling Student Organization (MCSA) is the organization for students pursuing their Master’s in Counseling and Guidance. It serves as a source of support and advocacy for students enrolled in the program. In addition to seminars and social events, MCSA has a student mentorship program. For more information, contact your MCSA officers or the division Administrative Assistant at (816) 235-2722.

The Higher Education Student Association (HESA) is a student-run organization founded to further the understanding of the purpose and practices of higher education. HESA’s purpose is to serve the specific and current needs of students enrolled in or interested in the Higher Education Administration program at UMKC. The goals of the organization are to:

- Create a community among higher education administration students, faculty, and alumni
- Provide a forum for the exchange of ideas on current issues in higher education
- Offer professional experiences in conference participation, planning and organization
- Network with other Higher Education Student associations
- Assist in the professional advancement of members

Teacher Education Student Learning Outcomes

The School of Education subscribes to the Missouri Standards for Teacher Education Programs (MoSTEP).

Missouri Standards for Teacher Education Programs (MoSTEP)

Performance Standards for Education Professionals

The School of Education ensures that candidates possess the knowledge, skills and competencies defined as appropriate to their area(s) of responsibility.

General Education for Initial Teacher Preparation

The School of Education ensures that candidates have completed general studies courses and experiences in the liberal arts and sciences.

Quality Indicators:

- The general studies include the arts, communications, history, literature, mathematics, philosophy, sciences and the social sciences.
- The general studies incorporate multi-cultural and global perspectives.

Content, Professional, Pedagogical and Integrative Studies for Initial Teacher Preparation

The School of Education ensures that candidates have completed a program of content, professional, pedagogical and integrative studies.

MoSTEP Standards/Program Goals

1. Goal No. 1: The preservice teacher understands the central concepts, tools of inquiry and structures of the discipline(s) within the context of a global society and creates learning experiences that make these aspects of subject matter meaningful for students.
   Performance Indicators: The preservice teacher:
   a. Knows the discipline applicable to the certification area(s) (as defined by Missouri State Subject Area Competencies).
   b. Presents the subject matter in multiple ways.
   c. Uses students’ prior knowledge.
   d. Engages students in the methods of inquiry used in the discipline.
   e. Creates interdisciplinary learning.

2. Goal No. 2: The preservice teacher understands how students learn and develop, and provides learning opportunities that support the intellectual, social and personal development of all students.
   Performance Indicators: The preservice teacher:
   a. Knows and identifies child/adolescent development.
   b. Strengthens prior knowledge with new ideas.
   c. Encourages student responsibility.
   d. Knows theories of learning.

3. Goal No. 3: The preservice teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.
   Performance Indicators: The preservice teacher:
   a. Identifies prior experience, learning styles, strengths and needs.
   b. Designs and implements individualized instruction based on prior experience, learning styles, strengths and needs.
   c. Knows when and how to access specialized services to meet students’ needs.
   d. Connects instruction to students’ prior experiences and family, culture and community.
4. **Goal No. 4:** The preservice teacher recognizes the importance of long-range planning and curriculum development and develops, implements and evaluates curriculum based upon student, district and state performance standards.

   **Performance Indicators:** The preservice teacher:
   a. Selects and creates learning experiences that are appropriate for curriculum goals, relevant to learners and based upon principles of effective instruction (e.g., encourages exploration and problem solving, building new skills from those previously acquired).
   b. Creates lessons and activities that recognize individual needs of diverse learners and variations in learning styles and performance.
   c. Evaluates plans relative to long and short-term goals and adjusts them to meet student needs and to enhance learning.

5. **Goal No. 5:** The preservice teacher uses a variety of instructional strategies to encourage students’ development of critical thinking, problem solving and performance skills.

   **Performance Indicators:** The preservice teacher:
   a. Selects alternative teaching strategies, materials and technology to achieve multiple instructional purposes and to meet student needs.
   b. Engages students in active learning that promotes the development of critical thinking, problem solving and performance capabilities.

6. **Goal No. 6:** The preservice teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning and self-motivation.

   **Performance Indicators:** The preservice teacher:
   a. Knows motivation theories and behavior management strategies and techniques.
   b. Manages time, space, transitions and activities effectively.
   c. Engages students in decision making.

7. **Goal No. 7:** The beginning teacher models effective verbal, nonverbal and media communication techniques to foster active inquiry, collaboration and supportive interaction in the classroom.

   **Performance Indicators:** The preservice teacher:
   a. Models effective verbal/non-verbal communication skills.
   b. Demonstrates sensitivity to cultural, gender, intellectual and physical ability differences in classroom communication and in responses to students’ communications.
   c. Supports and expands learner expression in speaking, writing, listening and other media.
   d. Uses a variety of media communication tools.

8. **Goal No. 8:** The preservice teacher understands and uses formal and informal assessment strategies to evaluate and ensure the continuous intellectual, social and physical development of the learner.

   **Performance Indicators:** The preservice teacher:
   a. Employs a variety of formal and informal assessment techniques (e.g., observation, portfolios of student work, teacher-made tests, performance tasks, projects, student self-assessments, authentic assessments and standardized tests) to enhance and monitor her or his knowledge of learning, to evaluate student progress and performances and to modify instructional approaches and learning strategies.
   b. Uses assessment strategies to involve learners in self-assessment activities, to help them become aware of their learning behaviors, strengths, needs and progress and to encourage them to set personal goals for learning.
   c. Evaluates the effect of class activities on both the individual and the class as a whole, collecting information through observation of classroom interactions, questioning and analysis of student work.
   d. Maintains useful records of student work and performances and can communicate student progress knowledgeably and responsibly, based on appropriate indicators, to student, parents and other colleagues.

9. **Goal No. 9:** The preservice teacher is a reflective practitioner who applies the ethical practices of the profession and continually assesses the effects of choices and actions on others. This reflective practitioner actively seek out opportunities to grow professionally and utilizes the assessment and professional growth to generate more learning for more students.

   **Performance Indicators:** The preservice teacher:
   a. Applies a variety of self-assessment and problem-solving strategies for reflecting on practice, their influences on students’ growth and learning, and the complex interactions between them.
   b. Uses resources available for professional development.
   c. Practices professional ethics.

10. **Goal No. 10:** The preservice teacher fosters relationships with school colleagues, parents and educational partners in the larger community to support student learning and well-being.

    **Performance Indicators:** The preservice teacher:
    a. Participates in collegial activities designed to make the entire school a productive learning environment.
    b. Talks with and listens to students, is sensitive and responsive to signs of distress and seeks appropriate help as needed to solve students’ problems.
    c. Seeks opportunities to develop relationships with the parents and guardians of students, and seeks to develop cooperative partnerships in support of student learning and well-being.
    d. Identifies and uses the appropriate school personnel and community resources to help students reach their full potential.
11. Goal No. 11: The preservice teacher understands theories and applications of technology in educational settings and has adequate technological skills to create meaningful learning opportunities for all students.

Performance Indicators: The preservice teacher:

a. Demonstrates an understanding of instructional technology concepts and operations.

b. Plans and designs effective learning environments and experiences supported by informational and instructional technology.

c. Implements curriculum plans that include methods and strategies for applying informational and instructional technology to maximize student learning.

d. Uses technological applications to facilitate a variety of effective assessment and evaluation strategies.

e. Uses technology to enhance personal productivity and professional practice.

f. Demonstrates an understanding of the social, ethical, legal and human issues surrounding the use of technology in Pre-k-12 schools and applies that understanding in practice.

Undergraduate Programs

The School of Education offers the following undergraduate degree programs:

- B.A., Early Childhood Education
- B.A., Elementary Education
- B.A., Middle School Education
- B.A., Secondary Education

Students may contact the School of Education Student Services Office for specific program information.

Students may also elect to pursue a dual degree between Education and Arts and Sciences. Secondary education majors may earn a B.A. or B.S. degree in a major in the College of Arts and Sciences. Elementary and early childhood education majors may earn a bachelor of liberal arts degree in the College of Arts and Sciences. Contact the advising office of the College of Arts and Sciences for more details.

General Information

The School of Graduate Studies is responsible for monitoring compliance to the campuswide minimum graduate academic regulations, which are explained in detail in the General Graduate Academic Regulations and Information section of this catalog. Working with and through the Graduate Council and Graduate Officers Committee, the School also provides leadership and coordination of all graduate programs, offers programs to prepare graduate students for faculty positions in a variety of educational settings, and administers a number of competitive graduate fellowships.

The School also serves as the academic and administrative home for students admitted to the Interdisciplinary Ph.D. program. All other graduate students are admitted to the school or college in which their degree programs are housed.

- Mission and Administrative Organization of Graduate Education
- Institute for Human Development
- Interdisciplinary Leadership Certificate in Disability Studies
- Graduate Certificate in College Teaching and Career Preparation
- Interdisciplinary Ph.D. Program
Mission and Administrative Organization of Graduate Education

UMKC currently offers more than 50 graduate degrees at the master’s, educational specialist and doctoral levels, plus a number of graduate certificates. Graduate students represent about 35 percent of the total campus enrollment. The graduate student population is diverse in ethnicity, gender and racial
background. As an urban university, our programs strive to accommodate adult working students. Nearly two-thirds of all graduate students are enrolled part time and the average age is 35.

The Graduate Council, representing a cross section of campus graduate faculty, sets policy, establishes minimum graduate education standards and monitors the quality of graduate education at UMKC. The graduate faculty in the various graduate degree programs may set standards more stringent than the minimums outlined in this catalog section, and in such cases, the program standards take precedence over the campuswide minimum regulations. The School of Graduate Studies is responsible for monitoring compliance to the campuswide minimum graduate academic regulations; providing leadership and coordination of all graduate programs; and serves as the academic home for students admitted to the Interdisciplinary Ph.D. program. Information on the Interdisciplinary Ph.D. program (p. 480) may be found in the School of Graduate Studies section of this catalog.

Interdisciplinary Leadership Certificate in Disability Studies

Minimum Requirements for Admission
Possession of a baccalaureate degree from a regionally accredited institution is required. Application for admission to the Leadership Certificate in Disability Studies program must be made to the School of Graduate Studies.

Student Learning Outcomes
The course requirements for the program are not predetermined, but rather formulated by the student in consultation with the UMKC doctoral faculty who will serve on their supervisory committee, to meet the student’s individual needs and research interests, satisfy discipline-specific requirements and assure upon graduation students are able to:

• Demonstrate appropriate depth and breadth of knowledge in their disciplines.
• Use skills of interdisciplinary scholarship and research to integrate multiple perspectives.
• Work effectively in a collaborative environment.
• Effectively communicate results of their research to diverse audiences.
• Understand and value diverse approaches to problems.
• Use self-reflection for personal and professional improvement.

Program Requirements
The Interdisciplinary Leadership in Disability Studies certificate program is offered through the School of Graduate Studies and the Institute for Human Development. Disability Studies is a relatively new, interdisciplinary field that studies disability from a social and cultural context. The certificate can be completed either in conjunction with a graduate degree program or as a free-standing credential. Students in such diverse fields as sociology, psychology, nursing, pharmacy, law, social work, public administration, urban planning and design and education are well suited for this certificate. Students who receive the certificate will be prepared to influence public policy, professional practice, societal arrangements and cultural values that shape the meaning of disability.

Required Courses

<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>LAW 8815R</td>
<td>Disabilities And The Law</td>
<td>2-3</td>
</tr>
<tr>
<td>SOC-WK 5563</td>
<td>Life Span Issues in Developmental Disabilities</td>
<td>3</td>
</tr>
<tr>
<td>SGS 5501</td>
<td>Disability and Community Support</td>
<td>3</td>
</tr>
</tbody>
</table>

Curriculum Requirements
At least 60 percent of the certificate course work must be at or above the 500 level.

Credit Hours
A minimum of 12 credit hours is required for the certificate.

Requirements for Retention
Students must maintain a 3.0 grade point average while enrolled. The minimum acceptable grade for 400 level courses is B, and for 500 level and above courses, B-.

Time Limit for Completion of Certificate Program
All work toward the Leadership Certificate in Disability Studies must be completed in 4 years.

Contact Information
For additional information contact:
Graduate Certificate in College Teaching & Career Preparation

Minimum Requirements for Admission

Students apply for admission to this Graduate Certificate Program through the School of Graduate Studies. Interdisciplinary Ph.D. students must be recommended by the discipline coordinator in their coordinating discipline. Non-Interdisciplinary doctoral students (Ph.D., DMA, and Ed.D) must be recommended by the primary graduate advisor or program director in their degree programs. Although space in the program is limited and doctoral students will be given first preference, individuals who possess a master's degree, and who are recommended by a UMKC faculty member in their discipline area, may also be considered for admission to the program.

Student Learning Outcomes

The course requirements for the program are not predetermined, but rather formulated by the student in consultation with the UMKC doctoral faculty who will serve on their supervisory committee, to meet the student’s individual needs and research interests, satisfy discipline-specific requirements and assure upon graduation students are able to:

• Demonstrate appropriate depth and breadth of knowledge in their disciplines.
• Use skills of interdisciplinary scholarship and research to integrate multiple perspectives.
• Work effectively in a collaborative environment.
• Effectively communicate results of their research to diverse audiences.
• Understand and value diverse approaches to problems.
• Use self-reflection for personal and professional improvement.

Program Requirements

In today’s competitive academic job market, academic institutions increasingly desire faculty members who not only possess the appropriate academic credentials, but can demonstrate that they are prepared to be excellent teachers and well-rounded colleagues. The 12 credit hour graduate certificate in College Teaching and Career Preparation is intended primarily for doctoral students who are preparing for college-level teaching careers, regardless of the discipline(s) in which they plan to teach; however, individuals who possess a master’s degree and who are recommended by a UMKC faculty member in their discipline area may also be considered for admission. The structure of this graduate certificate program balances the emphases on both career exploration and teaching excellence.

The certificate complements the discipline knowledge of existing doctoral and masters programs at UMKC by (1) focusing on strategies for successful teaching, including incorporating technology into the college classroom, and (2) familiarizing students with the demands of college teaching and the nature of the academic environment in a variety of institutions of higher education. Courses that satisfy program requirements are taken for graduate credit; and, upon completion, the certificate is officially noted on the student’s transcript. All courses in the certificate program are taken in addition to those required for the student’s program of study. A nine-member faculty steering committee, with representation from multiple schools and chaired by the Associate Dean in the School of Graduate Studies, administers the program.

Curriculum Requirements

The Graduate Certificate in College Teaching and Career Preparation requires a minimum of 12 credit hours. A six-course series of Preparing Future Faculty (PFF) seminars is the core of this 12 credit hour graduate certificate curriculum. The seminars are graded on a credit/no credit basis and are offered year-round for five terms. The first four are worth one credit hour each and the final two capstone courses are taken simultaneously in the second spring term for two credits. Students in the PFF Seminar courses not only refine their teaching skills, but also explore the opportunities at, and differences among, a variety of institutions of higher education -- public, private, 2-year and 4-year. For the remaining six credits of the certificate program, students may select a 3-hour teaching practicum course in their field approved by the program director, plus one of the following 3 credit hour on-line courses: EDUC-R&P 5639 OR EDUC-C&I 5570.

Required Core Courses

Take at least 4 hours of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC-R&amp;P 5639</td>
<td>Educational Psychology: Focus on Teaching in Higher Education</td>
</tr>
<tr>
<td>or EDUC-C&amp;I 5570</td>
<td>Curriculum And Instruction In Technology</td>
</tr>
</tbody>
</table>

Seminars

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>SGS 5651A</td>
<td>Preparing Future Faculty I</td>
</tr>
<tr>
<td>&amp; SGS 5651B</td>
<td>and Preparing Future Faculty II</td>
</tr>
</tbody>
</table>
Requirements for Retention

Students must maintain 3.0 graduate GPA while enrolled and receive no grade below a B- in courses applied to the certificate program.

Time Limit for Completion of Certificate Program

3 years maximum.

Interdisciplinary Ph.D. Program

Mission, Philosophy and History

The world of the future will require scholars with a global approach to problem solving. It will no longer be enough to know one area, one discipline, one field. Inquiry and discovery are crossing disciplines. For example, the insights of the science of chaos are the products of mathematics, computer science, meteorology, astronomy and biology. Study of aging draws on sociology, psychology, pharmacy, the life sciences and education. For this reason, in 1990, UMKC developed and introduced an interdisciplinary doctoral degree program that spans traditional boundaries among disciplines.

The goal for Interdisciplinary Ph.D. studies at UMKC is to help students develop knowledge and skills for independent research on the fundamental questions of the present and the future. The program is designed to provide self-directed students with academic training at the highest level, while allowing their participation as colleagues in research of fundamental importance. UMKC is dedicated, within the framework of its interdisciplinary program leading to the Ph.D., to provide education of the highest quality.

Scholars in the program fully participate in their own learning, guided by our philosophy that facts must be tempered by values and that true excellence in scholarship demands a far-reaching context of knowledge. The program has grown rapidly. In the fall 2006 term, more than 360 students were enrolled in the Interdisciplinary Ph.D. program. Nearly 350 students have graduated during the program’s existence.

The following five core values underscore UMKC’s Interdisciplinary Ph.D. program:

Education First: Learning is enhanced by a search for knowledge across discipline boundaries. Therefore, the program:

• Is student-centered.
• Enables students to acquire the skills of interdisciplinary scholarship and research.
• Broadens students’ exposure to multiple academic fields.

Discovery and Innovation: Interdisciplinary research draws on discipline-based knowledge, generating integrated solutions to problems that cross discipline boundaries. Therefore, the program:

• Is problem-oriented.
• Integrates the attributes of a broad-based interdisciplinary approach with the grounding of a traditional academic focus.
• Provides a solid grounding in theories, concepts and methodologies of two or more disciplines.

Integrity and Accountability: Self-reflection and individual responsibility. Therefore, the program:

• Incorporates a model of continuous quality improvement.

Diversity, Inclusiveness and Respect: Learning thrives in an environment open to a diversity of ideas, cultural backgrounds, discipline perspectives and approaches to problems. Therefore, the program:

• Instills an appreciation of different disciplines.
• Integrates the disciplinary perspectives to give students the methodological and theoretical tools to thrive in a wide range of scholarly and professional environments.

Energized, Collaborative Communities: Society derives great benefit from collaborative efforts that transcend discipline boundaries to solve problems. Therefore, the program:
• Prepares individuals to be multi-functional; to combine disparate skills to solve problems.

Program Description

Applicants must meet both the general and the discipline-specific criteria for admission and be recommended for admission by the doctoral faculty review groups in at least two disciplines. Upon approval by the graduate dean, students are admitted to the School of Graduate Studies. The School of Graduate Studies monitors student progress in the program, enforces program regulations and facilitates communication among the disciplines. A discipline coordinator, usually a doctoral faculty member, coordinates admission reviews and tracking of students within each discipline.

Doctoral students in this program take coursework and conduct their research in at least two disciplines. The content of their program of study is not predetermined, but formulated by them, in consultation with UMKC doctoral faculty, to meet their individual needs and research interests and satisfy discipline-specific requirements. The program structure and these requirements follow from the five core values of UMKC:

1. Education first
2. Discovery and innovation
3. Integrity and accountability
4. Diversity, inclusiveness and respect
5. Energized, collaborative communities

These core values guide the expectations for our students, who upon graduation will be able to:

1. Demonstrate appropriate depth and breadth of knowledge in their disciplines.
2. Use skills of interdisciplinary scholarship and research to integrate multiple discipline perspectives; and effectively communicate the results of their research to diverse audiences.
3. Use self-reflection for personal and professional improvement.
4. Understand and value diverse approaches to problems.
5. Work effectively in a collaborative environment.

Disciplines participating for the fall 2014 admissions cycle:

Administrative and Information Sciences
• Entrepreneurship and Innovation (Henry W. Bloch School of Management)
• Public Affairs and Administration (Henry W. Bloch School of Management)  
  (only available as a co-discipline option)
• Educational Leadership, Policy and Foundations (School of Education)

Biological and Chemical Sciences
• Biomedical and Health Informatics (p. 494) (School of Medicine)
• Cell Biology and Biophysics (School of Biological Sciences)
• Molecular Biology and Biochemistry (School of Biological Sciences)
• Chemistry (College of Arts and Sciences)
• Oral and Craniofacial Sciences (School of Dentistry)
• Pharmaceutical Sciences (School of Pharmacy)
• Pharmacology (School of Pharmacy)

Humanities and Arts
• Art History (College of Arts and Sciences)
• English (College of Arts and Sciences)
• Humanities Consortium (p. 521) (College of Arts and Sciences)
• Music Education (Conservatory of Music and Dance)

Physical, Mathematical, Engineering and Computer Sciences
• Engineering (School of Computing and Engineering (SCE))
• Geosciences (College of Arts and Sciences)
• Mathematics (College of Arts and Sciences)
• Physics (College of Arts and Sciences)
• Telecommunication and Computer Networking (SCE)
• Computer Science (SCE)
• Electrical and Computer Engineering (SCE)

Social and Behavioral Sciences

• Economics (College of Arts and Sciences)
• Curriculum and Instruction (School of Education)
• History (College of Arts and Sciences)
• Political Science (p. 538) (College of Arts and Sciences)
• Social Sciences Consortium: Economics, Political Science and Sociology (p. 542) (only available as a co-discipline option)

The above list of participating disciplines constitutes a dynamic list that can change annually as members are added to or dropped from the doctoral faculty, or as the resources in various academic units change. Applicants should contact the School of Graduate Studies Office for information about modifications to the above list that might have occurred since this catalog was prepared.

Admission to UMKC’s School of Graduate Studies’ Interdisciplinary Ph.D. program is highly competitive. Enrollment in the program is limited, and admission is granted only to students who have a mature commitment to advanced study and scholarship. Admission is also subject to availability of adequate faculty and other resources within an applicant’s chosen disciplines.

After being admitted to the Interdisciplinary Ph.D. program, and no later than the end of the semester in which the student completes his or her comprehensive examinations, each student must satisfy the interdisciplinary doctoral residency requirement by completing at least 21 credits, exclusive of dissertation research (5696-5699), in no more than 18 months. Students may be admitted either provisionally or fully to the program; however, within 24 months of being fully admitted, each student must develop a Plan of Study proposal in consultation with the doctoral faculty members who have agreed to serve on the student’s supervisory committee. Although no fixed set of courses is required, students are expected to prepare a rigorous plan of study that includes at least 30 didactic course hours beyond the baccalaureate degree, exclusive of thesis and dissertation research credits. More credit hours may be required by either the student’s supervisory committee, the student’s disciplines, the Interdisciplinary Ph.D. Executive Committee, or the dean of the School of Graduate Studies. The number of credits included on the plan of study shall be predicated upon the extent of the student’s previous academic preparation, the discipline-specific requirements of the student’s disciplines, and the nature of the student’s field of study.

Students must take and pass a comprehensive examination containing components of each discipline to which they have been admitted to determine if they are ready to advance to candidacy and the final phases of their Ph.D. program. Typically the comprehensive examination will be conducted as the student nears completion of the didactic coursework listed on his or her plan of study. The final phases of the program shall comprise:

• Completion of significant research.
• A written dissertation acceptable to the doctoral faculty.
• Successful oral defense of the research work and dissertation.

Program Administration

Quality control of the Interdisciplinary Ph.D. program rests with those faculty members certified by the University of Missouri to chair and serve on doctoral supervisory committees. These doctoral faculty members are responsible for the design and implementation of a student’s doctoral plan of study and for the assessment of the qualifications of a student they recommend to the curators for the Ph.D. degree. To help students formulate an appropriate plan of study, the doctoral faculty are divided into five broad groups corresponding to research interests and expertise. The groupings do not preclude an interdisciplinary plan of study and research involving more than one of these five groups, but are intended only to provide a structure that will assist students and doctoral faculty in developing a plan of study for each Interdisciplinary Ph.D. student. A 15-member executive committee of the doctoral faculty, chaired by the dean of the School of Graduate Studies, formulates the policies that govern Interdisciplinary Ph.D. studies. Ten members of the committee are elected by the doctoral faculty. The chancellor, in view of the election results and in consultation with the dean of the School of Graduate Studies, appoints five members. There are three members from each of the five broad research areas. This process ensures representation from across the primary areas of responsibility assigned to the campus by the curators. The Interdisciplinary Ph.D. Executive Committee is also charged with formulating, monitoring and reviewing goals of the Interdisciplinary Ph.D. program and recommending changes in goals, procedures and policies to the faculty. Any proposed major change must be ratified by the doctoral faculty of the campus.

Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission

When preparing an application for admission, applicants must choose two or more disciplines of primary interest. The applicant also must designate which one of the disciplines is to become the applicant’s primary unit for initial advising, record-keeping and receiving/sending mail in the event that admission is granted. A student’s research advisor must be affiliated with the student’s primary unit discipline.

Application for admission to Interdisciplinary Ph.D. study is made to the dean of the School of Graduate Studies through the UMKC Admissions Office or, in the case of international applicants, through the UMKC International Student Affairs Office (ISAO). For additional program information, applicants
The general criteria for admission for Interdisciplinary Ph.D. program study are as follows:

- Graduate Record Examination (GRE) scores will be evaluated by the disciplines. If an applicant’s GRE scores are more than seven years old, and other predictors of ability to do doctoral-level work in the applicant’s file are marginal, the applicant may be asked to retake the GRE general test before an admission decision is made.
- A grade-point average of at least 2.75 (on a 4.0 scale) covering all college work taken prior to the bachelor’s degree, or a grade-point average of at least 3.0 covering all post-baccalaureate work completed to date.
- Recommendation for provisional or full admission by the doctoral faculty review group in at least two participating disciplines.

Graduates of schools outside the United States may be considered for admission to this doctoral program at UMKC, subject to the following criteria.

1. They must have completed a course of study at least the equivalent of a U.S. baccalaureate degree.
2. They must have above-average grades in previous college study.
3. They are required to establish proof of adequate English proficiency as part of the UMKC admissions process. Applicants from countries in which English might be one of the official languages, but is not necessarily the first language of the majority of the population, must attain a minimum composite score of either 79 on the iBT Test of English as a Foreign Language (TOEFL), or a score of 6.0 on the IELTS to be considered for admission. The results of the examination must be received in the UMKC International Student Affairs Office before the application deadline.

Exceptions to this policy:
- Non-native speakers who hold degrees or diplomas from post-secondary institutions in English-speaking countries (such as the United States, Antigua, Australia, Bahamas, Barbuda, Belize, Canada, Dominica, Fiji, Gambia, Ghana, Guyana, Ireland, Jamaica, Liberia, Mauritius, New Zealand, Sierra Leone, Solomon Islands, South Africa, St. Christopher (St. Kitts), St. Lucia, St. Vincent, Tobago, Trinidad, Uganda, United Kingdom [England, Scotland, Wales and Northern Ireland], Zambia and Zimbabwe), provided they have spent a minimum of two years in successful full-time study there and English was the medium of instruction.
- International transfer students from other institutions in the United States or Canada who have spent a minimum of two years in successful full-time study.

4. In addition to 1 through 3 above, international graduate students must satisfy any program-specific admission criteria. For instance, the Graduate Management Admission Test (GMAT) is required for applicants for graduate study toward the M.B.A. degree. Several programs require TOEFL scores that are well above the minimum stated previously. The Graduate Record Examination (GRE), including the appropriate Advanced Test, is either required or strongly recommended for all other international graduate applicants. International students planning to apply are directed to consult the appropriate degree program listing for additional criteria and medical requirements.

Participating disciplines may establish whatever additional criteria or higher standards they consider to be appropriate and such discipline-specific criteria will take precedence over the general criteria. Applicants should note that several discipline areas have set more rigorous admission requirements, and a number of discipline areas have established qualifying requirements for students who intend to include that discipline in their doctoral programs. These discipline-specific requirements range from specific prerequisite coursework, to successful completion of a qualifying examination, to having the equivalent of a master’s degree in the area, to having higher scores on specific segments of the GRE and are listed in greater detail later in this section.

Students may apply for admission with or without meeting the general criteria of the School of Graduate Studies and any additional criteria established by the discipline areas. Meeting these criteria does not automatically make any student eligible for admission. In exceptional circumstances, students who do not meet the general criteria of the School of Graduate Studies and the disciplines may be admitted.

The School of Graduate Studies’ minimum requirements for admission to the Interdisciplinary Ph.D. program are determined by the doctoral faculty in the academic units in which the student will be doing work, and by the UMKC doctoral faculty through representation on the Interdisciplinary Ph.D. Executive Committee. Admission to the program is subject to availability of adequate faculty and other resources within an applicant’s chosen disciplines and the approvals of the dean of the School of Graduate Studies and the Interdisciplinary Ph.D. Executive Committee.
Application Procedure

The deadlines for applications vary by discipline.

Although new students in most disciplines may be accepted in all terms, some disciplines will only consider applications for the fall term. Applicants are responsible for:

1. Submitting a completed Application for Admission or Readmission to Interdisciplinary Ph.D. Studies form to the UMKC Admissions Office, or in the case of international applicants, to the UMKC International Student Affairs Office (ISAO). All applications must be accompanied by the appropriate non-refundable application fee ($35 for domestic applicants or $50 for international applicants).

2. Submitting a one-page narrative statement outlining professional background and educational plans with the completed application form.

3. Having the following supplementary documentation sent to the UMKC Admissions Office:
   - Official test scores (GRE, TOEFL, etc.). The applicant must request the testing agency to send official GRE test scores to the School of Graduate Studies. The Educational Testing Service does not report GRE scores more than 20 years old or scores more than five years old but earned since Sept. 30, 1985.
   - Official transcripts from all colleges attended. All applicants must submit an official transcript from the school where their bachelor’s degrees were obtained. This transcript must show all courses, grades and credits attempted or completed at the undergraduate level. Unless the transcript of the degree-granting institution shows the complete record of undergraduate work taken at all other schools, an official transcript from each of the other institutions must be supplied. In addition, applicants must submit an official transcript from each school where other coursework has been taken or degrees have been obtained after the bachelor’s degree.
   - Three letters of recommendation.
   - Any supplemental material requested by the discipline(s). Note that several disciplines require professional writing samples, tentative outlines of plans of study, or other supplemental materials to complete the application packet. Applicants should consult the discipline-specific information to determine whether supplemental materials are required by the disciplines they select.
   - Resumes/vita

International applicants must submit the following additional forms:

1. Summary of Education Experiences by Years form.
2. Official Statement of Finances form.
3. If transferring from another U.S. institution, a Supplemental Information form.

All credentials submitted in support of the application for admission to the Interdisciplinary Ph.D. program become UMKC property. They will not be returned to the applicants and UMKC cannot copy them for release to a third party.

Once the UMKC Admissions Office or the ISAO has received the application, application fee (if applicable), and transcripts of previous work, the application file is transmitted to the School of Graduate Studies. The School of Graduate Studies notifies each applicant by mail when the application packet has been forwarded to them. If required test scores, recommendation forms or supplementary documentation appropriate to the applicant’s discipline selections are missing at that time, the applicant will be advised of the date by which all materials must be received in order to have the application reviewed by the faculty review groups in the specified disciplines for admission in the terms requested. The School of Graduate Studies transmits completed application files to the doctoral faculty review groups in each discipline the applicant has indicated on the application form.

Faculty review groups usually will not take action on an application unless all supporting documentation is on file. Applicants with files that are incomplete at the time the discipline(s) review applications will be so notified and asked whether they wish to have their applications updated for consideration for admission in a subsequent term.

An applicant can expect the review and recommendation process to take approximately 30 days from the time all supporting documentation has been received. The faculty review groups in some disciplines review all applications as a group, while in other disciplines, applications are reviewed and acted upon on a revolving basis, as received. The review and recommendation process within the disciplines varies in length depending upon the disciplines’ review policies.

For questions about the contents of their admission files, or to determine whether their applications have been transmitted to the School of Graduate Studies for review, applicants may call the Admissions Office (816) 235-1111. International applicants may check on the status of their applications by contacting the ISAO at http://www.umkc.edu/isao/. Once the application has been transmitted to the School of Graduate Studies, applicants may call (816) 235-1161 for information on the status of their applications.

Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements

The following requirements pertain specifically to students pursuing Interdisciplinary Ph.D. programs. However, Interdisciplinary Ph.D. students are subject to, and also should refer to, those regulations common to all graduate students and the dissertation requirements common to all doctoral students included in the General Graduate Academic Regulations and Information section of this catalog. Students should also consult the specific
requirements for the disciplines to which they have been admitted. Where discipline requirements are more stringent than the general requirements, the discipline requirements take precedence.

Change of Disciplines by Admitted Students (p. 489)
Interim Advisor (p. 489)
Qualifying Requirements for Full Admission (p. 489)
Research Advisor and Supervisory Committee (p. 489)
Interdisciplinary Ph.D. Plan of Study (p. 490)
Interdisciplinary Ph.D. Residency Requirement (p. 491)
Transfer Credit (p. 491)
Comprehensive Examination (p. 491)
Program Time Constraints (p. 491)
Dissertation Research Proposal Development and Approval (p. 491)
Dissertation and Completion of Degree (p. 492)
Interdisciplinary Ph.D. Student Appeal Process (p. 492)

Change of Discipline by Admitted Students

Once a student is admitted to Interdisciplinary Ph.D. study, any change of disciplines requires a full review process by the disciplines, similar to the initial admission review. Forms to initiate this review may be obtained from the School of Graduate Studies or downloaded from their Web site: http://www.umkc.edu/iphd.

Interim Advisor

Once an Interdisciplinary Ph.D. student is admitted to the School of Graduate Studies, the dean, upon recommendation from the student’s disciplines, identifies a doctoral-faculty member from each discipline to serve as the student’s interim advisor in that discipline. Students who have had minimal prior graduate study will be encouraged to explore research opportunities before choosing fields of endeavor.

As the student progresses and develops focused research interests, the interim advisors are expected to assist in identifying potential research advisors among doctoral-faculty members in appropriate research areas with whom the student can discuss research plans. The interim advisors also provide academic guidance until the student selects a research advisor, has satisfied all qualifying requirements and is classified as fully admitted. The interim advisor in the student’s primary-unit discipline reports on the student’s progress to the dean of the School of Graduate Studies. If another faculty member has not been identified as the research advisor by the time the student is fully admitted and ready to formulate the plan of study, the interim advisor in the primary-unit discipline will automatically become the student’s research advisor.

Qualifying Requirements for Full Admission

Admission to the Interdisciplinary Ph.D. program is granted on a provisional or fully admitted basis as determined by the doctoral faculty review group of the student’s chosen discipline(s). Upon their acceptance as provisional Ph.D. students, applicants are notified of the specific qualifying requirements they must satisfy before they can be classified as fully admitted Ph.D. students. Provisional admission does not guarantee advancement to full admission, and full admission does not guarantee advancement to Ph.D. candidacy.

At the end of each academic year, the interim adviser reports the provisional Ph.D. student’s progress toward satisfying the qualifying requirements to the dean of the School of Graduate Studies. When all qualifying requirements have been completed, the interim adviser requests that the student’s classification be changed to fully admitted.

Research Advisor and Supervisory Committee

The chair and a majority of the members of a student’s supervisory committee must be from disciplines certified as eligible to participate in the Ph.D. program. The student’s committee chair must be a regular doctoral faculty member from the student’s primary discipline, and has the final authority over the student’s program. A graduate or adjunct graduate faculty member may be the dissertation director if approved by the primary discipline.

The adviser assists the student in identifying other members of the doctoral faculty to form a supervisory committee appropriate to the student’s research goals. A request for appointment of supervisory committee is included as part of the written proposal for the student’s Ph.D. plan of study.

The supervisory committee shall consist of at least five members composed of one doctoral faculty from each of the primary and co-disciplines with a maximum of three from any one discipline. Up to two of the remaining members of each committee can hold either graduate or adjunct graduate faculty status. Final approval of the composition of each supervisory committee shall be obtained in writing by the advisor (or committee chair) from the Dean of the Graduate school. Where graduate or adjunct graduate faculty are included, the advisor shall provide a strong justification for their inclusion.

An outside reader may also be included on the supervisory committee as a non-voting member.

Annual Evaluation of Progress

During the spring semester, Interdisciplinary Ph.D. students, using forms provided by the School of Graduate Studies, must submit a summary of their accomplishments over the previous year and a projection of the progress they intend to make during the next academic year. Forms are submitted
to their interim advisers or, if their supervisory committees have been formed, to the chairs of their supervisory committee. The faculty adviser or supervisory committee chair will review the student’s report and meet with the student to discuss the student’s progress and plans for the coming year. They will provide the student and the School of Graduate Studies with a copy of the completed evaluation form. Failure to meet this requirement may result in a hold being placed on the student’s enrollment.

Plan of Study

Within 24 months of admission, a student chooses a research adviser and forms a supervisory committee. In consultation with the research advisor and other members of the proposed supervisory committee, the student prepares a proposed Ph.D. plan of study, obtains all required signatures and submits the proposed plan to the School of Graduate Studies for review and final approval by the Interdisciplinary Ph.D. Executive Committee. This submission must occur within 24 months of being admitted to the program.

In addition to any coursework completed prior to admission that is being credited toward discipline-specific requirements, the written Interdisciplinary Ph.D. plan of study includes courses and other activities at UMKC that should normally be completed approximately two years from the time the Ph.D. student is fully admitted, a statement about overall plans for study and research, and a list of the proposed members of the supervisory committee.

The Interdisciplinary Ph.D. Plan of Study Guidelines

- The plan of study must include coursework from all the student’s disciplines and must satisfy all of the applicable discipline-specific core requirements.
- The plan of study must include at least 30 didactic hours beyond the baccalaureate degree, exclusive of thesis or dissertation research hours, in courses taken at UMKC or courses taken at another institution and approved for transfer by the student’s supervisory committee.
- Didactic coursework on the plan of study will include a minimum of nine credit hours in a co-discipline area.
- No more than 60 percent of the total coursework taken at UMKC and listed on the plan of study, exclusive of thesis or dissertation research hours, will be in any one discipline.
- All plans of study must include a minimum of 12 hours of dissertation research (5696-5699) credit.
- At least two-thirds of the total courses included on the plan of study must be numbered 5500 or above if taken at UMKC, or, if taken from an institution with a course-numbering system that differs from UMKC’s, they must be courses intended primarily for graduate students.
- UMKC courses at the 100 and 200 levels, and courses with equivalent lower-division numbers taken at another institution, are not available for graduate credit and may not be applied toward the hours required for the degree nor included in the discipline percentages.
- At least 75 percent of the coursework on the plan, exclusive of dissertation credits, must be in disciplines certified as eligible to participate in the Interdisciplinary Ph.D. program.
- Students’ needs will be examined on a case-by-case basis by their supervisory committees, and appropriate language or related research skill requirements will be incorporated into each student’s plan of study.
- The plan of study will include a brief description of the course focus and the name of the supervising professor for any independent study courses listed.
- The plan of study will specify which courses are being used to satisfy the residency requirement.
- The plan of study will outline the comprehensive examination expectations.
- The plan of study will include a preliminary research proposal for the dissertation research, including key bibliographic references.

If modifications to discipline-specific requirements are made after the student is admitted, the student has the option of proceeding under either the requirements in place at the time he or she entered the Ph.D. program or the current requirements.

Plan of Study Approval Process

Once the supervisory committee members and student have agreed on and signed the plan of study, appropriate academic officers corresponding to the student’s choice of disciplines [dean(s) or program director(s), department chair(s), division head(s), etc.], must then review and certify by signature that the courses and all other resources are currently available at UMKC and in the respective units for the student to initiate the plan of study. The student then submits the certified plan of study to the dean of the School of Graduate Studies for review and approval by the appropriate subcommittees of the Interdisciplinary Ph.D. Executive Committee.

The subcommittees of the Interdisciplinary Ph.D. Executive Committee will accept Ph.D. plan of study proposals for review only if:

- The Ph.D. coursework falls within the guidelines outlined above.
- The student will enroll at UMKC for dissertation credit under the supervision of a UMKC member of the UM doctoral faculty.
- The plan includes written assurance from the appropriate academic officers that:
  a. adequate faculty, laboratories, library support and all other necessary resources are presently available at UMKC to support the proposed Ph.D. plan of study, and
  b. the courses included in the plan are either presently available at UMKC or can be taken by the student as a visiting student in a time period less than that required to satisfy the residency requirements on the other campus.
The appropriate Interdisciplinary Ph.D. executive committee subcommittees will review the certified plan of study within 60 calendar days and will either recommend to the dean of the School of Graduate Studies approval of the plan as presented or will return the plan to the student with recommendations for modification. Once the proposed plan of study and supervisory committee are approved by the Interdisciplinary Ph.D. executive committee, the dean of the School of Graduate Studies will confirm the appointment of those doctoral-faculty members who will serve as the student’s supervisory committee and file the plan with the registrar. Any further modifications of the plan of study must be made in consultation with the student’s supervisory committee and major modifications must be approved by the Interdisciplinary Ph.D. Executive Committee.

Residency Requirement

Interdisciplinary Ph.D. students must satisfy the doctoral residency requirement by satisfactory completion of at least 21 credits, exclusive of dissertation research, in no more than 18 months. When satisfying the residency requirement, all Interdisciplinary Ph.D. students are subject to the following restrictions:

1. The doctoral residency requirement must be satisfied no later than the end of the semester in which the student completes his or her comprehensive examinations.
2. Students must achieve a cumulative graduate grade-point average of at least 3.0 in all courses counted toward satisfying the residency requirement.
3. Dissertation research credits (5696-5699) may not be counted toward satisfying the doctoral residency requirement.

Transfer Credit

Ph.D. plans of study are tailored to the needs of individual students based on their prior academic work as evidenced by transcripts and other credentials. An approved plan of study may recognize class work from other institutions as determined by the student’s supervising committee, either as qualifying courses or as relevant to a program of study.

Comprehensive Examination

To advance to degree candidacy, Interdisciplinary Ph.D. students are required to pass a comprehensive examination that integrates components of each discipline to which they have been admitted. Either the written or oral or both component(s) of the comprehensive examination must include an evaluation of the student’s ability to integrate content, theory and/or methods from each specified discipline. The doctoral comprehensive examinations must be completed at least seven months before the date of graduation.

The following requirements must have been met before students can take the comprehensive examination(s):

1. Successful completion of all qualifying requirements and full admission to the School of Graduate studies.
2. Appointment of a research advisor and supervisory committee.
3. Applicable and approval of the Ph.D. plan of study and completion of essentially all coursework or other study required for the degree.

The student must be enrolled when taking the comprehensive examination. Comprehensive examinations are not administered when UMKC is not officially in session. The comprehensive examination may be written, oral or both. A student, through his or her advisor, applies to the dean of the School of Graduate Studies for an examining committee. This committee consists of members of the student’s supervisory committee and others approved by the dean of the School of Graduate Studies. The examination is arranged and conducted by the examining committee. Upon completion of the examination, the student’s research advisor sends a report of the results, carrying the signatures of all members of the examining committee, to the dean of the School of Graduate Studies, who then informs the student and the registrar. A student is considered to have passed the comprehensive examination if no more than 20 percent of the committee members vote for failure of the student. If failure is reported, the examining committee will either recommend termination as a Ph.D. student or suggest additional work or other remedial measures. Furthermore, a student who has failed may not take a second examination for at least 12 weeks. Failure of the second comprehensive examination shall automatically preclude candidacy at this institution.

Program Time Constraints

The doctoral student must take and pass the doctoral comprehensive examination and advance to candidacy within five years from the beginning of doctoral coursework (within four years if entering with a master’s degree in the same or closely related field). After the establishment of degree candidacy, a maximum of five years will be allowed for completion of degree requirements. Failure to complete the work within the periods specified will necessitate re-evaluation of the entire program and may result in a notice of termination. In compelling circumstances and on the written recommendation of a majority of the student’s supervisory committee members, the dean of the School of Graduate Studies may grant a one-year extension. Some academic units may impose more stringent time requirements.

Dissertation Research Proposal Development and Approval

The student’s supervisory committee must approve the research activities associated with a dissertation. These activities must be performed under the direct and continuing supervision of the supervisory committee chair. If the proposed research involves the use of human subjects, animals or radioactive materials, the student and the research advisor must obtain prior written approval of the proposed research by the appropriate Institutional Review Board, the Animal Care and Use Committee or the Radiation Safety Committee.
For the approval process, the Ph.D. candidate must submit a brief dissertation research proposal. The dissertation proposal shall include the following:

- An abstract.
- A statement regarding the general purpose of the research.
- Background information, including a review of the relevant literature, the rationale for the research and a concise statement of the hypotheses to be investigated and/or the research questions to be answered.
- Methods.
- Appropriate protocol or application if human subjects, animals or radioactive materials are to be used in the research.

This proposal must be approved in writing by all members of the student’s supervisory committee and filed with the School of Graduate Studies. It is in the best interest of the Ph.D. student to complete the approval process of the dissertation research proposal before significant progress is made on the completion of the dissertation. Any important changes in the research outlined in the proposal must be approved by the supervisory committee.

**Dissertation and Completion of Degree**

**Doctoral Dissertation Requirement**

All UMKC Ph.D. degrees require a dissertation as the final component of the program. The doctoral faculty view the dissertation as one of the most important aspects of the student’s experience because:

- It is a work of original research or scholarship that makes a contribution to existing knowledge.
- It is an educational experience that demonstrates the candidate’s mastery of research methods and tools of the specialized fields.
- It demonstrates the candidate’s ability to address a major intellectual problem.

For regulations pertaining to formatting the dissertation and the process for approval, the reader is directed to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this catalog section.

**Final Dissertation Examination**

Final examinations in defense of the dissertation are open to all members of the doctoral faculty, who may attend as interested observers. The format and procedures of the defense are determined by the supervisory committee and its chair. The date, time and location must be announced and published at least two weeks before each final examination takes place. This examination may be conducted only after the dissertation has been approved by the dean of the School of Graduate Studies, and may not be administered when UMKC is not officially in session.

The defense of the dissertation is approved when a majority of the supervisory committee recommend approval and sign the Report of the Result of Final Doctoral Examination form. Within 48 hours of the defense, the supervisory committee chair will report the results of the final dissertation examination in writing to the candidate.

**Deposit of Approved Dissertation with Libraries**

For regulations pertaining to deposit of the approved dissertation with the libraries, please refer to Thesis and Dissertation Preparation and Approval Process, included under Graduate Academic Regulations in this catalog section.

**Interdisciplinary Ph.D. Student Appeal Process**

Students should process any petitions for waiver of policy or other academic appeals to their interim advisors or research advisors. The advisors should attach their recommendation and forward the request to the doctoral faculty review groups within the disciplines.

If the appeal does not require a policy decision, action on the appeal may be handled at the discipline level. If a policy decision is required or if, after action by the discipline, the student wishes a higher level of review of the case, the appeal or petition, complete with documentation of all reviews up to that point, may be forwarded to the dean of the School of Graduate Studies for action or referral to the appropriate subcommittees of the Interdisciplinary Ph.D. Executive Committee.

**Interdisciplinary Ph.D. Discipline-Specific Requirements**

All Interdisciplinary Ph.D. applicants and students must first meet the general requirements of the School of Graduate Studies for admission and retention in the Interdisciplinary Ph.D. program. (General Graduate Academic Regulations and Information, Application Procedure and Minimum Criteria for Admission, Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.) In addition to these general academic regulations that have been outlined in previous sections of the general catalog, disciplines may set more stringent discipline-specific requirements that take priority over the general requirements. Discipline-specific requirements for disciplines eligible to participate in the Interdisciplinary Ph.D. program are listed in alphabetical order by name of discipline. These guidelines are subject to ongoing review and revision, and the doctoral faculty reserves the right to make judicious changes in discipline-specific requirements. The student is referred to coordinators in the disciplines for the most current information.
Student Learning Outcomes

The course requirements for the program are not predetermined, but rather formulated by the student in consultation with the UMKC doctoral faculty who will serve on their supervisory committee, to meet the student’s individual needs and research interests, satisfy discipline-specific requirements and assure upon graduation students are able to:

- Demonstrate appropriate depth and breadth of knowledge in their disciplines.
- Use skills of interdisciplinary scholarship and research to integrate multiple perspectives.
- Work effectively in a collaborative environment.
- Effectively communicate results of their research to diverse audiences.
- Understand and value diverse approaches to problems.
- Use self-reflection for personal and professional improvement.

Doctoral Faculty Participation in the Interdisciplinary Ph.D. Program

On Oct. 7, 1974, the University of Missouri Doctoral Council approved the creation of a UM doctoral faculty to identify, on all four UM campuses, qualified faculty members to direct doctoral dissertations in their disciplines. Uniform minimum standard criteria for doctoral faculty membership apply to all four campuses. In UMKC’s Interdisciplinary Ph.D. program, three members of a student’s supervisory committee must be regular, adjunct or emeritus members of the UM doctoral faculty, and the research advisor must be from the UMKC campus.

The supervisory committee shall be composed of one doctoral faculty from each of the primary and co-disciplines with a maximum of three from any one discipline. Up to two of the remaining members of each committee can hold either graduate or adjunct graduate faculty status. Final approval of the composition of each supervisory committee shall be obtained in writing by the advisor (or committee chair) from the Dean of the Graduate school. Where graduate or adjunct graduate faculty are included, the advisor shall provide a strong justification for their inclusion.

For purposes of the Interdisciplinary Ph.D. program, a discipline is defined as an academic unit, such as a department or division (with a chair/head) within a school, college or academic program. To be able to participate as a discipline in the Interdisciplinary Ph.D. program, a discipline, meeting the above definition, must have at least four regular doctoral-faculty members.

Doctoral Faculty Discipline Affiliation

Continuing doctoral faculty are reviewed for five-year reappointment and nominations for new appointments are considered throughout each academic year. Consequently, the list of doctoral faculty is dynamic and subject to change. Current lists are available from the School of Graduate Studies.

Interdisciplinary Doctoral Student Council

The UMKC Interdisciplinary Doctoral Student Council (originally called the Doctoral Student Association) was formed in 1991 to provide an opportunity for doctoral students to interact with each other and to support the students in their academic and research endeavors. The council sponsors a variety of social and academic programs throughout the year. Membership in the UMKC Interdisciplinary Doctoral Student Council is open to all dually enrolled Interdisciplinary Ph.D. students. Doctoral students in other UMKC programs are eligible to be associate members and are welcome to participate in all Interdisciplinary Doctoral Student Council activities but are not eligible to vote or serve on the executive committee. The council is governed by an executive committee consisting of three representatives with coordinating disciplines in each of the following five areas: physical, mathematical, computer and engineering sciences; biological and chemical sciences; social and behavioral sciences; humanities and the arts; and administrative and information sciences.

Art History

Discipline Coordinator
Art and Art History faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/artandhistory.asp#DeptandorPrimaryDisciplineARTARTHISTORY).

Art History is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

**Discipline-Specific Admission Requirements**

In addition to the general criteria for admission, applicants will be expected to have an undergraduate degree in art history, anthropology or history and an undergraduate minimum GPA of at least 3.0 on a 4.0 scale. An M.A. in art history is desired. Prerequisite coursework: Survey of World Arts. New students will be considered for admission for fall and spring semesters. Submit applications by Jan. 31 for fall admission or Sept. 1 for spring. In addition to the required application form, test scores, recommendations and transcripts, applicants must provide a written research plan and a research writing example. Presently only students with an interest in non-Western arts are encouraged to apply.

**Suggested Compatible Co-disciplines**

Curriculum and instruction, economics, English, and history

**Core Requirements**

**Art History as a Primary Discipline**

**Required Courses**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Seminars in African, African-American, MesoAmerican and Native American Arts

Research methodology courses.

Remaining credits depend upon what courses the student has taken before coming into the program. Students will generally design a total plan of study (primary discipline and co-discipline coursework) that includes 60 hours beyond the baccalaureate degree or 30 hours beyond the master's degree if in Art History.

**Art History as a Co-discipline**

**Required Courses**

Seminars in African, African-American, MesoAmerican or Native American Arts

Remaining credits depend upon what courses the student has taken before coming into the program.

**Requirements for Comprehensive Exams**

Oral and written comprehensive exams are required, with questions based on courses taken.

**Other Discipline-Specific Special Requirements**

Two foreign language requirements as determined by the Faculty Advisory Committee for each student. Students will master a reading knowledge of two foreign languages for art history as a primary discipline or as a co-discipline. The foreign language requirement should be satisfied by the time 18 hours of graduate credit have been taken toward the Interdisciplinary Ph.D. The Faculty Advisory Committee must include two art historians. Students must meet with their Faculty Advisory Committee at least once each semester. Students must complete Annual Evaluation forms each spring.

**Biomedical and Health Informatics**

**Discipline Coordinator**

Mary M. Gerkovich, Ph.D. (816) 235-1322, gerkovichm@umkc.edu

Biomedical and Health Informatics faculty who are members of the doctoral faculty.

Biomedical and Health Informatics is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.
Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Note: The Biomedical and Health Informatics discipline is accepting applications for the co-discipline only.

**Discipline Overview**

Biomedical and Health Informatics is the “scientific field that deals with biomedical information, data, and knowledge – their storage, retrieval, and optimal use for problem solving and decision making. It accordingly touches on all basic and applied fields in biomedical science and is closely tied to modern information technologies, notably in the areas of computing and communication, i.e. medical computer science.” (Definition from Stanford University, Medical Informatics.) The National Center for Biotechnology Information defines Bioinformatics as the “field of science in which medicine, biology, computer science, and information technology merge to form a single discipline. The ultimate goal of the field is to enable the discovery of new biological insights as well as to create a global perspective from which unifying principles in biology and health can be discerned.”

**Recommended Curriculum**

While the following courses are suggested core components for the Biomedical and Health Informatics co-discipline, students may work with the Discipline Coordinator to create an individualized plan of study.

- Clinical Research Methodology or Clinical Trials
- Clinical Epidemiology or General Epidemiology or Human Genome Epidemiology
- Introduction to Health Services Research
- Biostatistics

All students are expected to have Biostatistics as a core competency for this co-discipline; however, if students have a primary discipline in Mathematics, they may substitute Medical Informatics or Clinical Research Informatics.

For the department’s policy on academic progression, please contact the discipline coordinator.

**Suggested Primary Discipline Areas**

Mathematics (p. 523)
Cell Biology and Biophysics (p. 496)
Molecular Biology and Biochemistry (p. 524)
Oral and Craniofacial Sciences (p. 528)
Pharmaceutical Science (p. 532)
Pharmacology (p. 534)
Computer Science (p. 501)

**Admissions**

Applicants must meet both the general and the discipline specific criteria for admission and be recommended for admission by the doctoral faculty review groups in at least two disciplines. Upon approval by the graduate dean, students are admitted to the School of Graduate Studies.

**General Admissions Requirements**

Please visit the Interdisciplinary Ph.D. Admissions page (p. 486) to learn about the general application requirements.

**GPA**

- Minimum undergraduate grade-point average of 3.0 on a 4.0 scale
- Minimum graduate grade-point average of 3.5 on a 4.0 scale

**Letters of Reference**

- Three letters of recommendation that speak to the applicant’s ability to complete doctoral-level work.
- Instructions for Letters of Reference are found here: http://sgs.umkc.edu/irletter/index.asp

**Curriculum Vita or Resume**

Official college/university transcripts

Recommendation by the “Doctoral Faculty Review Group” in at least two participating disciplines
Discipline Specific Admissions Requirements

Degree Requirements

- A Bachelor of Science or Bachelor of Arts degree from an accredited institution is required.
- A Master of Science or Master of Arts degree is preferred, but not required.

Prerequisite Coursework

• Calculus (2 semesters)
• Introductory Biology (2 semesters)
• Introductory Computer Science (2 semesters)
• Statistics or Probability (1 semester)

1 If students have successfully completed a professional doctoral degree (e.g., MD, DDS, DO, PharmD), these prerequisites may be waived.

Written consent from primary academic advisor

Personal Interview

Application Deadlines

The Biomedical and Health Informatics co-discipline admits students to the spring, summer, and fall semesters yearly.

U.S. citizens and permanent resident applicants must submit all applications and application materials by April 1 (summer semester admission), June 1 (fall semester admission) and December 1 (spring semester admission).

International applicants must submit all applications and application materials by March 1 (summer semester admission), May 1 (fall semester admission) and November 1 (spring semester admission).

Cell Biology and Biophysics

Discipline Coordinator

Karen Bame, (816) 235-2243, bamek@umkc.edu

Cell Biology and Biophysics faculty who are members of the Doctoral Faculty (http://sgs.umkc.edu/faculty/bioscience.asp#DeptandorPrimaryDisciplineCellBiolBiophysics)

Cell Biology and Biophysics is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

No additional requirements. Due to the sequencing of coursework, new students selecting cell biology and biophysics as their primary discipline will normally only be admitted in the fall term.

Qualifying Requirements for Full Admission

Minimum of 16 hours of approved graduate coursework at UMKC toward the Ph.D. program with a grade-point average of at least 3.0 on a 4.0 scale. International students must establish English proficiency.

Suggested Compatible Co-disciplines

Chemistry, molecular biology and biochemistry, pharmaceutical science, pharmacology, oral and craniofacial sciences, and physics.

Core Program Requirements

Cell Biology and Biophysics as a Primary Discipline

Minimum Core

33 credit hours of courses and 15 credit hours of dissertation research for a total of 48 credit hours of post-baccalaureate credits, distributed as indicated below. The core courses should be completed by the end of the second academic year after admission to the graduate program on a full-time basis (individual arrangements will be made for part-time students).
LS-CBB 5530  Cell and Molecular Biology I  3
LS-CBB 5520  Cell and Molecular Biology II  3
LS-CBB 5596  Advanced Experimental Cell Biology I  2
or LS-CBB 5597  Advanced Experimental Cell Biology II  2
LS-CBB 5612  Seminar in Cell Biology and Biophysics (2 x 1 cr. hr.)  2
LS-CBB 5690  Analytical Methods in Cell Biology and Biophysics  1-4
or LS-MBB 5690  Analytical Methods in Molecular Biology and Biochemistry  1-4
BIOLOGY 5501  Proposal Writing  1

7 cr. hr. in discipline or related discipline courses (LS-CBB, LS-MBB, BIOL, PHARM, etc.) 15 cr. hr. LS-CBB 5699, Dissertation Research

Seminar courses are part of this component of required courses, up to a maximum of three for the program, as are additional credits of Advanced Experimental Molecular or Cell Biology (a total of four credits in experimental laboratory courses, independent of thesis research, is required). 5700-level courses may not be used to satisfy cell biology and biophysics discipline-specific course requirements.

Any of the above courses, whether part of the primary or related discipline requirements, will be credited toward the 33-credit Ph.D. course requirement if taken as part of any graduate program at UMKC and if a grade of "B" or better is received.

In addition to the basic 33-credit course core, each student’s Faculty Advisory Committee may require up to nine credit hours in additional elective courses in any University-approved doctoral discipline as preparation for specific areas of research. No more than seven credit hours of 5500-level courses, or their equivalents, can be taken at institutions outside UMKC.

For Students with Cell Biology and Biophysics as a Co-discipline

LS-CBB 5530  Cell and Molecular Biology I  3
LS-CBB 5520  Cell and Molecular Biology II  3
LS-CBB 5612  Seminar in Cell Biology and Biophysics  1

Additional SBS graduate courses (LS-CBB, LS-MBB or BIOL) for a minimum of 10 cr. hr.

A sufficient amount of other core courses to constitute the required percentage of their overall program of study. 5700-level courses may not be used to satisfy cell biology discipline-specific course requirements.

**Requirements for Comprehensive Exams**

Full-time students with cell biology as their primary discipline must take their comprehensive examination before the beginning of the third academic year after admission to Ph.D. study. Part-time Ph.D. students in this discipline must complete their comprehensive examination immediately after completion of the 25-hour course requirement on their Ph.D. plan of study.

**Format**

For students with this discipline as their primary discipline, written and oral examinations are required.

**Written Portion**

The written examination, for students who have cell biology and biophysics as their primary discipline consists of an NIH-style grant proposal that the student will prepare. The topic of the research proposal will be determined by the student in consultation with the student’s supervisory committee.

**Oral Portion**

The oral examination has two aspects: (1) questions covering the grant proposal prepared by the student for the written examination and (2) other related material in the student’s area of specialization, including fundamental knowledge of the student’s chosen disciplines.

**Other Discipline-Specific Special Requirements**

Students with this discipline as a primary discipline must participate in the teaching program of the School of Biological Sciences.

Students with this discipline as a primary discipline or co-discipline must participate in seminars.

**Retention in Program**

No more than one C grade will be permitted in basic core coursework. If a student with this discipline as the primary discipline receives more than one C grade in a basic course, he or she will be dropped from the doctoral program. Students with this discipline as a co-discipline who receive more than one C grade will be dropped from the discipline.
The doctoral faculty in cell biology and biophysics meets formally at the end of each academic year to discuss and evaluate all graduate students’ progress. Each student’s committee also meets with the student at least once a year. After the annual doctoral-faculty meeting, each student receives a written evaluation of his or her status and a report is placed in the student’s file.

Chemistry

Discipline Coordinator

Kathleen Kilway, (816) 235-2289, kilwayk@umkc.edu

Chemistry faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/artandhistory.asp#DeptandorPrimaryDisciplineCHEMISTRY).

Chemistry is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-specific Admission Requirements

Chemistry as a primary discipline

Normally, only applications to full-time academic status will be considered. To qualify for full admission (Note: full admission is unrelated to full-time academic status), applicants are expected to have the equivalent of an American Chemical Society-approved bachelor’s degree in chemistry, which includes coursework in general chemistry, analytical chemistry, one year of organic chemistry, inorganic chemistry and one year of physical chemistry requiring calculus and physics as prerequisites. (For example, see UMKC’s B.S. program in the Chemistry section in this catalog.) Applicants will be admitted as provisional students with a limited number of undergraduate deficiencies. They will be notified, at the time admission is offered, of any requirements to be met for reclassification as fully admitted. Undergraduate courses included in these requirements must be completed with grades of “C” or higher.

Applications are only accepted through the online system, and include:

1. Official, confidentially transmitted transcripts.
2. Statement of purpose.
3. Two confidentially transmitted letters of recommendation (academic and/or professional).
4. Official Graduate Record Exam (General Test) score, less than six (6) years old.
5. English language proficiency requirement.

An official Graduate Record Exam score (general test) is required as part of the application to the program. The GRE score will be evaluated as part of the entire application.

Suggested Compatible Co-disciplines

Curriculum and instruction, engineering, geosciences, mathematics, pharmaceutical sciences, physics, and pharmacology.

Chemistry as a Co-discipline

Applicants are expected to have undergraduate coursework in general chemistry and organic chemistry. Applicants accepted as provisional students will be notified, at the time admission is offered, of any requirements to be met for reclassification as fully admitted. Undergraduate courses included in these requirements must be completed with grades of “C” or higher.

Core Program Requirements

Chemistry as a Primary Discipline

Coursework Requirements

Students are to see the principal graduate advisor, or their research advisor, for advising and signature prior to registering each semester.

Students must successfully complete a minimum of one course from Group A; one course from Group B; one additional course from Group A or B; one elective course (three credit hours) from any course numbered 5500 or above, except for those excluded below; and one credit hour of chemistry seminar (CHEM 5611). A grade of C+ (2.3) or less in more than two chemistry courses applicable to the Ph.D. program will result in termination from Ph.D. candidacy.

<table>
<thead>

CHEM 5541R  Advanced Analytical Chemistry  3

**Group B**
CHEM 5521R  Mechanisms Of Organic Reactions  3
CHEM 5522  Synthetic Organic Chemistry  3
CHEM 5551R  Advanced Inorganic Chemistry I  3
CHEM 5571R  Introduction To Polymer Chemistry  3

Excluded as electives:
CHEM 5511  Laboratory Safety And Health I  1
CHEM 5520R  Survey Of Organic Chemistry  3
CHEM 5530  Systematic Physical Chemistry  3
CHEM 5590  Directed Studies  1-3
CHEM 5598  Research Methodology Conference  3
CHEM 5599  Research And Thesis  1-9
CHEM 5611  Chemistry Seminar  1
CHEM 5699  Research And Dissertation  1-16
CHEM 5899  Required Graduate Enrollment  1

In addition, students must successfully complete nine credit hours of 400-level or above coursework in their co-discipline(s). (A minimum of three of these credit hours must be at the 5500+ level.) Students may be required to take additional courses as outlined by their plan of study.

Any of the above chemistry courses will be credited toward the Ph.D. coursework requirement if taken as part of any previous graduate program at UMKC and a grade of B- (2.7) or better is received. Also, students who have received a grade of B- (2.7) or better in graduate chemistry coursework taken as part of a degree program at another institution may have up to six credit hours of equivalent required coursework waived upon approval of a majority of the supervisory committee. A written request for this waiver is to be submitted and approved before submission of the student’s plan of study.

**Courses/Experiences Providing Instruction in Research Methodology**
Expertise in research methodology will be acquired under the mentorship of the research advisor and supervisory committee. The student’s progress will be assessed annually by his/her supervisory committee and the results will be forwarded to the School of Graduate Studies.

**Number of Credit Hours Required beyond Bachelor’s Degree**
A minimum of 13 credit hours of chemistry courses (including chemistry seminar) and 24 credit hours of dissertation research, plus a minimum of nine credit hours of co-discipline courses are required. However, up to six credit hours of chemistry may be waived, as described above under Coursework Requirements.

**Chemistry as a Co-discipline**

**Coursework Requirements**
Students are required to complete a minimum of three courses (nine credit hours) at the 400-level or above from classes offered by the Department of Chemistry or in conjunction with other units as approved in the student’s plan of study. At least three of these credit hours must be at the 5500+ level and taken from courses offered by the Department of Chemistry. The systematic courses CHEM 5520R and CHEM 5530 may be used to satisfy the "400-level or above" requirement, but not the "5500+ level" requirement. CHEM 5590, CHEM 5599 and CHEM 5699 may not be used to satisfy these requirements. Students who receive a grade of C+ (2.3) or less in two or more courses used to satisfy these requirements will be disqualified from using Chemistry as their co-discipline.

Any of the above chemistry courses will be credited toward the Ph.D. coursework requirement if taken as part of any previous graduate program at UMKC and if a grade of B- (2.7) or better is received. Transfer credit from another institution cannot be applied to Chemistry's co-discipline requirement.

**Special Requirements**

**Chemistry as a Primary Discipline**

**Placement Examinations**
Incoming students take placement examinations in analytical, inorganic, organic and physical chemistry. Placement examinations are typically administered the week preceding the first week of classes of the fall and spring semesters. Students scoring below the 50th percentile in the organic and/or physical chemistry exams are required to enroll in CHEM 5520R and/or CHEM 5530, respectively. Enrollment in other graduate organic or
physical chemistry courses is not permitted until CHEM 5520R and/or CHEM 5530, respectively, is(are) successfully completed. Two grades of C+ (2.3) or lower, or one grade of less than C- (1.7) in CHEM 5520R / CHEM 5530 will result in termination from the degree program. These courses may not be counted toward the coursework requirements above. Students must complete all additional coursework required as a result of the placement exam scores by the end of their first three regular semesters.

Research Advisor
Full-time students are to select a research advisor from the doctoral faculty of the Department of Chemistry and a supervisory committee by the end of their first regular (e.g. fall or spring) semester on campus.

Seminar
Students are required to attend and participate in all regularly scheduled and special Chemistry Department seminars and colloquia. Students are required to present a one-hour chemistry seminar (CHEM 5611) during their second year following full admission to the Ph.D. program, based on their dissertation research project. This seminar will include a thorough review of the literature pertinent to their project and a description of the objectives, the proposed methodology and the significance of this research. An abstract is to be posted and distributed one week prior to the presentation date.

Time Constraints and Financial Support
Students must complete all requirements for their degree within seven years from the date of full admission to the Ph.D. program. Under compelling circumstances and on the written recommendation of a majority of the supervisory committee, a single extension for up to one year may be requested for approval by the dean of the School of Graduate Studies. Full-time (as defined in the current UMKC catalog) Ph.D. students may receive financial support (in the form of fellowships or teaching assistantships) from the Department of Chemistry for a maximum of five years. Students from countries not having English as their first language, and who are to be supported as graduate teaching assistants, are to take the SPEAK test before the end of the first week of their first semester on campus. They are to enroll in English 100E their first semester on campus if necessary.

Dissertation
Students must complete a minimum of 24 credit hours of dissertation research (CHEM 5699). All supervisory committee members are to receive a final draft of the dissertation for approval of form and content at least two weeks before submission to the dean of the School of Graduate Studies for certification. Candidates should submit preliminary drafts well in advance of this deadline. After the dissertation is certified for acceptance, the student must present an oral defense of his/her research in the form of a dissertation seminar. The supervisory committee will make a final determination of the acceptability of the dissertation immediately following this presentation. Only minor changes may be made to the dissertation at this point.

Expectations for Interdisciplinary Work
Chemistry as a Primary Discipline
Students develop and pursue a plan of study that includes coursework from the primary discipline and co-discipline(s). The interdisciplinary nature of the student’s program is emphasized in the comprehensive examination, which includes material from all disciplines in the plan of study.

Chemistry as a Co-discipline
The Department of Chemistry will cooperate with the student’s primary discipline in assessing the interdisciplinary nature of the student’s progress.

Comprehensive Examination Guidelines
Chemistry as Primary Discipline
A written comprehensive examination will be prepared and administered by the examination committee (consisting of the student’s supervisory committee and others selected by the dean of the School of Graduate Studies) before completion of the student’s third year following full admission to the Ph.D. program. This examination will be based on the student’s coursework and on general knowledge in all areas of his/her specialization. All efforts will be made to emphasize the multidisciplinary nature of the student’s program in this examination. If the student fails the written portion of the comprehensive examination, he/she may petition the examination committee to allow for a single opportunity to retake it. This second examination must be completed no earlier than 12 weeks and no later than six months from the date of completion of the first examination.

After successful completion of the written portion of the comprehensive examination, an independent research proposal will be prepared describing a research project not related to the student’s current research. The topic is to be approved by the examination committee. An abstract is to be posted and distributed, and a written copy of this proposal (in standard NSF or NIH format) given to all members of the examination committee at least one week prior to presentation in a proposal seminar. This seminar must be presented to all members of the examination committee within seven weeks of the completion date of the written portion of the comprehensive examination. The research proposal and proposal seminar are part of the comprehensive examination.

Chemistry as a Co-discipline
The comprehensive examination will be determined by the student’s primary discipline in cooperation with the co-discipline(s).
Computer Science

Discipline Coordinator
Yugyung Lee, (816) 235-5932, leeyu@umkc.edu

Computer Science faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/sce.asp#DeptandorPrimaryDisciplineComputerSci).

Computer Science is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

A student who meets the minimum discipline requirements stated below will be considered for regular full admission to the Ph.D. program. A student who meets the requirements partially but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of student’s interest, availability of advisor, the quality of previous work, etc. A student not qualifying for admission to the Ph.D. program may be automatically considered for admission to the M.S. computer science program.

Academic Preparation

The applicant must have a bachelor’s degree and/or a master’s degree in computer science, computer engineering, electronics, communications engineering or any other field requiring substantial training in at least one of the above fields and in mathematics with a GPA of 3.5 or better on a 4.0 scale, cumulative as well as in the major field; and a GPA of 3.5 or better on a 4.0 scale, in all post-baccalaureate or post-master’s degree work.

Aptitude for Advanced Work

The student must demonstrate an aptitude for advanced-level work through national/international standardized examinations such as the GRE. The expected performance level is the 80th percentile in the quantitative portion of the GRE examination. The student must also show an excellent performance in all of his or her coursework.

Proficiency in English

The student must demonstrate his or her proficiency in oral and written communication in English through national/international standardized English examinations such as TOEFL, verbal portion of the GRE, etc. The expected proficiency level is the 50th percentile in the verbal portion of the GRE or a TOEFL score of 263 or above (230 CBT). UMKC students may also satisfy this requirement by obtaining an English Proficiency Certification from the English Department. [Note: As per University policy, all international students go through the English proficiency test upon arrival to the campus, regardless of their scores in TOEFL or verbal portion of GRE or any other test. A student’s advisor may also require the student to take the above test, irrespective of the student’s native language. As a result of this test, the student may be required to improve his or her oral and written communication in English before enrollment in the courses of the chosen disciplines.]

Recommendations

The student must provide at least three recommendation letters, identifying clearly his or her academic achievements and exceptional quality, from the professors from his or her previous institution(s). If the applicant has been out of school for several years, recommendation letters from his or her supervisors (technical) will be acceptable. However, even in this situation, a recommendation letter from his or her last academic institution is highly recommended. A recommendation from a faculty member in the Computer Science Electrical Engineering (CSEE) Department at UMKC must be provided if the student has taken courses from or worked with the CSEE faculty.

Statement of Goals and Objectives

The applicant must provide a 250- to 500-word essay on his or her goals and objectives of pursuing the Ph.D. in the chosen fields. This is an important document for reviewing the application. Applicants, therefore, are advised to provide a clear account of their academic achievements and plans for higher study.

Admission at an Advanced Level

An applicant who has already completed significant graduate coursework (15 or more semester hours of post-master’s work or 30 or more hours of post-bachelor’s work) toward a Ph.D. at another institution must provide reasons for changing institutions. The applicant must also provide a letter of endorsement from a computer science doctoral faculty member indicating willingness to be the student’s research advisor.

Alternate Admission Criteria

The applicant may have received a bachelor’s degree or a master’s degree in computer science, computer engineering, electrical engineering or electronics, or any other related field with substantial training in mathematics. An applicant not meeting the minimum admission requirements, or not having sufficient academic preparation (stated below under prerequisite knowledge) for advanced work in the chosen primary discipline(s), may be
considered for provisional admission by the CSEE Department Ph.D. committee if the committee sees high potential and preparation for advanced work from the rest of the applicant’s credentials. Evidence of high potential might be pertinent work experience, published papers or extremely high achievement in related areas. In any case, the required GPA (or GPAs) must be at least 3.0 on a 4.0 scale, and the coursework deficiencies for doctoral study in computer science must not be more than 18 semester hours. Applicants with an established research or publication record in a quantitative science are encouraged to apply.

Qualifying Requirements for Full Admission

Prerequisite Knowledge

It is expected that a Ph.D. applicant selecting Computer Science as the primary discipline have the level of preparation represented by the following courses. An applicant with only a B.S. degree in computer science must have at least a GPA of 3.25/4.0 and an applicant with at least a year of graduate work must have at least a GPA of 3.5/4.0 before attempting advanced study.

Length of Time to Complete Qualifying Requirements

When a student is admitted provisionally, the CSEE Ph.D. Committee will specify, and the UMKC Interdisciplinary Executive Committee will confirm, the conditions and length of time available to satisfy them to achieve full admission status.

Suggested Compatible Co-disciplines

Telecommunications and computer networking, electrical and computer engineering, mathematics, physics, chemistry (p. 498) (computational focus), engineering (p. 512) (civil and mechanical focus), cell biology and biophysics, molecular biology and biochemistry, oral and craniofacial sciences, pharmaceutical sciences, pharmacology, geosciences, and economics. A co-discipline outside of this list may be considered in exceptional cases.

Core Program Requirements

The amount of work required for the Ph.D. depends on the student’s level of preparation. For example, a student entering the Ph.D. program after earning a bachelor’s degree may expect to do significantly more work compared to the student who enters after earning a master’s degree.

Computer Science as a Co-Discipline

A Ph.D. student selecting Computer Science as co-discipline is expected to have the level of preparation represented by the following courses before attempting advanced study:

<table>

A Ph.D. student must clear the qualifying test and comprehensive test before defending his or her dissertation. The discipline’s course requirements and qualifying test procedure is described below.

**Discipline Course Requirements and Qualifying Test**

The total Interdisciplinary Ph.D course credit (didactic) requirement is 30 hours which is divided into (a) primary discipline (12 credits), (b) co-discipline (9 credits), and (c) the remaining 9 credits can be completed either by doing graduate level courses at UMKC in any participating discipline or credits can be transferred from students’ previous institutions. This credit transfer must be approved by the CSEE Department Ph.D. committee.

**Ph.D. Qualifying Test for Computer Science Discipline**

The qualifying test is conducted to confirm that the student has a sound understanding of the fundamentals of computer science and has developed good problem-solving skills and research potential. This document includes the syllabus and describes the procedure for taking the qualifying test in the Computer Science discipline.

**Eligibility**

The student must be fully admitted to the Ph.D program at UMKC. Students admitted provisionally will have to satisfy all requirements stipulated in the letter of admission before being fully admitted.

**Duration for Clearing Qualifying Test**

A student, irrespective of being full-time or part-time, must take the qualifying test by the third semester from the date he or she is fully admitted. For example, if a student is fully admitted in fall 2014, then he or she must take the qualifying test in fall 2015. Failure to do so will disqualify the student from continuing in the Ph.D. program. Upon consultation with his/her interim adviser, a student may opt to clear the qualifying test earlier than the third semester. If a student fails the qualifying test in the first attempt then he or she MUST retake it in the subsequent semester. Failure to clear the test in the second attempt disqualifies the student from remaining in the Ph.D. program with CS as the primary discipline.

**Qualifying Test Dates**

Qualifying tests are administered twice a year, on the second Friday of April and November.

**Qualifying Test Procedure**

1. **Registration:** Eligible Ph.D. students must register to take the test. The registration deadline is March 31 for the April test and October 31 for the November test. Eligible students should send an e-mail with the following information to the Student Services Coordinator (Coretta Carter-Muhammad) and the Discipline Coordinator.
   a. Name
   b. Student ID
   c. E-mail
   d. Primary discipline and Co-discipline
   e. Interim advisor’s name
   f. Preferred semester for taking the test.

2. **Registration Notification:** Students will be notified by e-mail.

3. **Taking the Test:** Students take the test on the prescribed date.
   **Test Duration:** Four hours.

**Test Result**

The Discipline Coordinator will make the result of the test available within two weeks from the date of the test. The minimum passing grade is 70%. The result could be one of the following.

1. **Pass:** The student proceeds to the next level of the Ph.D. curriculum. He or She prepares the plan of study and finalizes the composition of his or her supervisory committee. The plan is submitted to the graduate office for approval.

2. **Fail:** If a student fails then he/she must retake and clear the test in the subsequent semester. Failure to clear the test in the second attempt disqualifies the student from remaining in the Ph.D. program with CS as the primary discipline.

**Test Format**

The test will cover the following topics: Discrete Structures, Data Structures and Algorithms, Basic Probability and Modeling, Operating Systems, Bioinformatics, Cryptography, Databases, Design and Analysis of Algorithms, Performance Modeling, and Software Engineering. A student will answer a set of questions from each topic as indicated on the test.
The qualifying test will contain questions from the topics listed below. The questions will be based on the material typically taught in the specified undergraduate and graduate courses. The students must have a sound understanding of these topics and are expected to demonstrate this in their answers.

1. Discrete Structures (Based on COMP-SCI 191 and COMP-SCI 291)
2. Data Structures and Algorithms (Based on COMP-SCI 303)
3. Basic Probability and Modeling (Based on COMP-SCI 394R)
4. Operating Systems (Based on COMP-SCI 431)
5. Bioinformatics (Based on COMP-SCI 5566)
6. Cryptography (Based on COMP-SCI 5596A).
7. Databases (Based on COMP-SCI 470 and COMP-SCI 5570).
8. Design and Analysis of Algorithms (Based on COMP-SCI 5592)
9. Performance Modeling (Based on COMP-SCI 494R and COMP-SCI 5594)
10. Software Engineering (Based on COMP-SCI 451R and COMP-SCI 5551)

Computer Science as Co-discipline

There is no qualifying test for student selecting Computer Science as co-discipline.

Ph.D. Qualifying Test Syllabus

The syllabus lists the main topics in each area. Students are strongly advised to consult the listed textbooks to prepare for the test.

1. Discrete Structures
   Mathematical induction, Relations, Counting methods (Permutation, Combination, Pigeon-hole principle), Recurrent relations, Graph theory.
   Reference book
   • Discrete Mathematics by Richard Johnsonbaugh.

2. Data Structures and Algorithms
   Basic knowledge of algorithm complexity (Big-Oh, Big-Omega, Big Theta, best, worst, and average case analysis, etc.), Binary trees, Binary search trees, AVL trees, Heaps, B-trees, B+ trees, Graphs, Hashing (Static, Dynamic, and Extendible), Huffman codes, Divide-and-conquer, Searching, Sorting, In-order, Pre-order, and Post-order traversals, Breadth first, Depth first graph traversal), Spanning trees and Shortest path.
   Reference books
   • Data Structures and Algorithm Analysis in C++ by Mark Allen Weiss, Addison Wesley.
   • A Practical Introduction to Data Structures and Algorithm Analysis by Clifford A. Shaffer, Prentice Hall.

3. Basic Probability and Modeling
   Sample spaces and events; Conditional probabilities; Discrete random variables (Binomial, Geometric, Poisson), Continuous random variables (Uniform, Exponential, Normal, Gamma), Moment generating functions, Moments and expectation, and Conditional expectation.
   Reference books
   • Introduction to Probability Models by Ross, Academic Press.

4. Operating Systems
   Process Management (synchronization, concurrency, deadlock), Memory management, Process and Job scheduling, Performance models (expected behavior), and File Systems.
   Reference books
   • Operating System Concepts by Silberschatz and Galvin, John Wiley.
   • Operating Systems: Design and Implementations by Tannenbaum, Prentice Hall.

5. Bioinformatics
   Algorithms for Sequence and Structural analysis of Biopolymers (Pairwise Sequence analysis, Multiple Sequence Analysis, Structural alignment, Structure prediction, Phylogenetics), Bioinformatic Databases & Ontologies, Bioinformatic Approaches to System-wide studies.
   Reference books

6. Cryptography
   Conventional and Public-key crypto-algorithms, including DES, RSA, Discrete-Logarithm based algorithms, Diffie-Hellman public-key distribution algorithm, mental poker, secret sharing, secure email, SSL, X.509, and Wireless security.
   Reference books

7. Database Systems
Database Design (Functional Dependencies and Modification anomalies), Relational Algebra, Transaction structure, transaction processing, serial and concurrent execution, and concurrency control mechanisms, Database Recovery.

Reference books

8. Design and Analysis of Algorithms
Divide and Conquer method, Dynamic programming, Greedy algorithms, Depth-first and Breadth-first search, Shortest path algorithms, Minimum spanning trees, NP-completeness.

Reference books

9. Performance Modeling
Construction of probabilistic models for performance prediction of computer systems or components, The Poisson Process, Properties of the exponential distribution, State classification (Periodic, Irreducible, Homogeneous, and Ergodic Markov chains), and M/M/1 type models.

Reference books
- Queuing Systems I, (Chapters 1-4), by L. Kleinrock, John Wiley
- Probability Models, (Chapters 4, 5, and 8.1-8.3) by S. Ross, Academic Press
- Probability, Statistics & Queuing Theory, (Chapters 4-5.2) by A. Allen, Academic Press
- Probability & Statistics with Reliability, Queuing (Chapters 6-8.4) by K. Trivedi, Wiley.

10. Software Engineering
Software process models, Software measurement, Metrics for software quality, Software project estimation techniques and models, Requirement analysis and analysis modeling, Software architecture, Software design methods, and Software design patterns, Real-time Software design, Software testing methods, Object-Oriented concepts and principles (UML analysis/design/testing), Formal methods for software engineering, Software reuse, CASE tools.

Reference books
- Object-Oriented methods: Principles & Practice by Ian Graham, Addison-Wesley

Requirements for Comprehensive Exams
The comprehensive exam is administered by the student’s supervisory committee. A student can either take a written test or opt for an oral presentation covering both primary and co-discipline areas. Discussion with and agreement from the student’s supervisory committee is required before choosing the desired option.

The candidates should contact the CSEE Division office and the chair of their doctoral committee for additional information.

Financial Aid
All admitted international and non-resident Ph.D. students automatically receive financial aid in the form of significantly reduced fees. In addition, they can apply to various forms of financial aid (such as graduate research assistantships, graduate teaching assistantships, graduate fellowships) through the CSEE Department and the School of Graduate Studies. Note that a GTA can only be awarded to a student after the student has successfully demonstrated his or her teaching potential to a committee and has successfully passed the English language test. Contact the discipline coordinator for more information.

Curriculum and Instruction

Discipline Coordinator
Omiunota Ukpokodu, (816) 235-2469, ukpokodun@umkc.edu

Curriculum and Instruction faculty who are members of the doctoral faculty. (http://sgs.umkc.edu/faculty/education.asp#DeptandorPrimaryDisciplineEducation)

Curriculum and Instruction is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.
Discipline-Specific Admission Requirements

Applicants who designate curriculum and instruction as their primary discipline will be expected to have a Master’s degree; and a GPA of at least 3.5 on a 4.0 scale, covering all post-baccalaureate work completed to date.

If the discipline is selected as the primary discipline and the dissertation research will have a primary orientation in curriculum and instruction, the student must obtain the agreement of a member of the doctoral faculty in curriculum and instruction to serve as research advisor before the student can be admitted.

The applicant must provide the following supplementary documentation:

1. Written recommendations from appropriate professors and practitioners in the field (selected by student).
2. Brief narrative stating research interest
3. GRE score requirement of a combined minimum score of 295 on the verbal and quantitative section and 4.00 on the analytic writing section
4. Sample research or scholarly writing

Suggested Compatible Co-disciplines

Educational Leadership, Policy and Foundations (p. 509), music education, chemistry, history, mathematics, physics, and public affairs and administration.

Core Program Requirements

All students with curriculum and instruction as primary discipline are required to complete:

<table>

In addition to the general criteria for admission, the criteria for admission to the Interdisciplinary Ph.D. program in economics are:

**Discipline-Specific Admission Requirements**

**Minimum Criteria for Admission**

The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

**Discipline-Specific Admission Requirements**

In addition to the general criteria for admission, the criteria for admission to the Interdisciplinary Ph.D. program in economics are:

1. A score of at least 154 in verbal reasoning, a score of at least 154 in quantitative reasoning and at least a 4.0 on the analytical portions of the general Graduate Record Examination.
2. A grade-point average of at least 3.0 (on a 4.0 scale) covering all college work taken prior to the bachelor’s degree, or a grade-point average of at least 3.0 (on a 4.0 scale) covering all post-baccalaureate work completed to date.
3. Recommendations for provisional or full admission by the doctoral faculty review group in at least two participating disciplines.
4. Applicants for whom English is not the native language and have studied less than two years (full time) in a U.S. academic program or a comparable program in an English-speaking country are required to obtain a TOEFL score of at least 550 on the paper-based test or 213 on the computer-based test. In addition, to qualify for full admission status, international students must achieve a score of at least 4.0 on the Test of Written English (TWE) portion of the TOEFL examination. Students admitted provisionally because of the TWE requirement may take a TWE equivalency test through UMKC’s Applied Language Institute once they arrive on campus.
5. Applicants must have at least 18 undergraduate semester credit hours in economics, including intermediate microeconomics and macroeconomics and a course in elementary statistics. In addition, it is strongly recommended that applicants have some of the following courses: econometrics,
mathematical economics, history of economic thought, heterodox economics, economic history, calculus and linear algebra. Students with fewer than 18 credit hours will be admitted only on a provisional status.

6. Applicants matriculated into the M.A. economics program at UMKC may apply for admission to the Interdisciplinary Ph.D. program in economics as soon as they have completed 15 credit hours and have earned a grade-point average of 3.25 or better.

7. Applicants who wish to transfer to the UMKC Interdisciplinary Ph.D. program in economics from other institutions must have obtained a grade-point average of at least 3.0 covering all their graduate work. Transfer students must apply for transfer credits toward the Interdisciplinary Ph.D. as soon as possible after completion of a minimum of 12 credits at UMKC with a grade-point average of 3.0 or better. Up to 30 transfer credit hours may be granted. No transfer credit will be granted for any courses not relevant to the Interdisciplinary Ph.D. in Economics or for any course with a GPA of less than 3.0.

The deadline for receipt of completed applications and supporting documentation is Feb. 1 for the fall semester and Sept. 1 for the spring semester.

Alternate Admission Criteria
Applicants who do not fit the above criteria may petition the economics doctoral committee with evidence of scholarly publication, research and recommendations, but the decision rests with the committee.

Qualifying Requirements for Full Admission
At the time admission is offered, provisional students will be notified of any course deficiencies or qualifying requirements to be met for full admission. The faculty will make a decision with regard to full admission based upon the student's performance in meeting the qualifying requirements.

Suggested Compatible Co-disciplines
Curriculum and instruction, history, public affairs and administration, educational leadership, policy and foundations, and the Social Science Consortium.

Core Program Requirements
For Students with this Discipline as their Coordinating Unit
The Interdisciplinary Ph.D. in economics consists of a minimum of 18 required coursework credit hours in economics— including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5506</td>
<td>Advanced History Of Economic Thought</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5551</td>
<td>Advanced Institutional Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5601</td>
<td>Colloquium In Advanced Macroeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5602</td>
<td>Colloquium In Advanced Microeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5625</td>
<td>Colloquium In Econometrics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5688</td>
<td>Colloquium On Political Economy</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>18</strong></td>
</tr>
</tbody>
</table>

If the student has not taken the prerequisites to ECON 5601, ECON 5602 and ECON 5625, he/she will be required to take ECON 5501, ECON 5502, ECON 5521, and ECON 5525 —and additional 12 coursework credit hours (or, a total of 30 hours). All students are strongly urged to take two fields in economics, each consisting of two three-credit hour courses for a total of 12 additional coursework credit hours. These courses will be taken in economics and at least one additional field such as sociology, history, public administration, education, mathematics, political science, geosciences, computer science or others, provided that such fields participate in the doctoral program.

Required Courses
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5501</td>
<td>Advanced Macroeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5502</td>
<td>Advanced Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5506</td>
<td>Advanced History Of Economic Thought</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5521</td>
<td>Mathematical Economics (Calculus I strongly recommended)</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5525</td>
<td>Econometric Methods</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5551</td>
<td>Advanced Institutional Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5601</td>
<td>Colloquium In Advanced Macroeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5602</td>
<td>Colloquium In Advanced Microeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5625</td>
<td>Colloquium In Econometrics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5688</td>
<td>Colloquium On Political Economy</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional Requirements
Coursework in an outside field or fields, depending upon the requirements of co-discipline regulations
For Students with this Discipline as a Co-discipline
Those students taking economics as a co-discipline will take a minimum of 12 hours in economics, at the graduate level, including:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 5501</td>
<td>Advanced Macroeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ECON 5502</td>
<td>Advanced Microeconomic Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

Comprehensive Examination Guidelines

Coordinating-discipline students are required to pass a qualifying examination in economics theory—micro, macro and political economy, and in quantitative methods. Students taking field concentrations must pass a comprehensive examination in those fields, or meet the requirement by an alternative means that is accepted by the department.

Co-discipline students must receive grades of "B" or better in ECON 5501 and ECON 5502. In addition, the oral portion of the comprehensive examination will require students to integrate knowledge between topics in economics and the student’s coordinating unit.

Educational Leadership, Policy and Foundations

Discipline Contact
Janelle Laudick, (816) 235-2716, laudickj@umkc.edu

Educational Leadership, Policy and Foundations faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/education.asp#DeptandorPrimaryDisciplineULAPSIE).

Educational Leadership, Policy and Foundations is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Applicants who designate educational leadership, policy and foundations as their primary discipline will be expected to have a grade-point average of at least 3.0 on a 4.0 scale, covering all college work taken prior to the bachelor’s degree, or a GPA of at least 3.5 on a 4.0 scale, covering all post-baccalaureate work completed to date.

Applications are only reviewed once a year, for admission beginning the next fall term. To be considered, applications must be submitted to the Admissions Office by February 15.

The applicant must provide the following supplementary documentation:

1. Written recommendations from appropriate professors and practitioners in the field (selected by the applicant).
2. An autobiographical sketch. (This should be a brief resume of academic and professional goals and the applicant's personal, academic and career history as it relates to those goals. It should also include reasons for choosing educational leadership, policy and foundations as a field of study.)
3. Evidence of graduate-level writing ability provided by writing samples, prior scholarly writing or the successful completion of an essay examination.

Applicants are required to provide official GRE test scores. GRE scores will be used by doctoral faculty in the discipline as one of several criteria used to evaluate the strength of the application. No other assessment results will be substituted for the GRE. When evaluating applications, faculty members will take into account evidence in the applications of such factors as demonstrated leadership skills, commitment to education, communication and academic skills, a clear and important research agenda, cultural background, etc. There is no minimum aggregate GRE score required for applications to be considered for educational leadership, policy and foundations. Applicants must meet the GRE requirements for their other discipline(s).

In addition, an applicant, the applicant’s advisor or any member of the division may request that the applicant meet with and be interviewed by the division faculty.

Alternate Admission Criteria

International applicants will be considered for admission to the Ph.D. program on the basis of background, experience and educational attainments in their home countries. Exceptions to the general criteria for admission to Interdisciplinary Ph.D. study may be made for students whose potential for success in the doctoral program may not be reflected in the general criteria.
Qualifying Requirements for Full Admission

In some cases, the division may ask that 12 hours of work at UMKC, including an education foundations course, be taken prior to full admission.

Students admitted under alternate criteria will be notified upon acceptance of any coursework deficiencies they must satisfy or other preparation they must undertake prior to full admission.

Suggested Compatible Co-disciplines
Curriculum and instruction, public affairs and administration, history, economics, political science, and the social science consortium.

Core Program Requirements

Students with educational leadership, policy and foundations as a co-discipline will be required to take a minimum of 15 credit hours of core courses. The core curricula will vary, depending on whether students’ research is primarily in educational leadership or the social-philosophical foundations of education and on the types of educational setting upon which they wish to focus. Specific courses will be selected with the advice and consent of the student’s faculty advisor and supervisory committee. The supervisory committee may elect to accept coursework in an educational-specialist program or other post-master’s degree program as counting toward the 15-credit-hour requirement.

Students seeking administrative certification for public school positions should check with their advisors to be sure they include all courses currently required in the states in which they wish to become certified.

The amount of required coursework, beyond the minimum 15-credit-hour core requirement, taken by students with educational leadership, policy and foundations as their primary discipline, will depend upon their previous preparation in the discipline, their previous research competencies, their personal career goals and their research interests.

All students with urban leadership and policy studies in education as either the primary discipline or the co-discipline are required to take and complete EDUC-UL 5685, the seminar on problems and issues in education and urban leadership.

Other Discipline-Specific Special Requirements

The student, at a minimum, will be required to take and complete 12 hours of coursework that provides extensive preparation in research methodologies relevant to her or his professional goals and intended dissertation project. The student will select specific courses with the advice and consent of her or his faculty advisor and supervisory committee. Typical courses which would satisfy this requirement include (but are not limited to):

- EDUC-R&P 5505 Statistical Methods I
- EDUC-R&P 5508 Principles And Methods Of Research
- EDUC-R&P 5605 Quantitative Analysis I: Regression And Analysis Of Variance
- EDUC-R&P 5608 Introduction To Graduate Research
- EDUC-R&P 5610 Research Design & Methodology
- HISTORY 5591 Archival Methods
- HISTORY 5687 Doctoral Research Seminar
- SOCIOL 5510 Sociological Methods I
- SOCIOL 5511 Sociological Methods II
- EDUC-UL 5601 Research In Education Administration: Qualitative Theory & Design
- EDUC-UL 5603 Research In Education Administration: Qualitative Data & Analysis

Requirements for Comprehensive Examinations

Students with educational leadership, policy and foundations as the primary discipline must pass a comprehensive examination including both the primary discipline and the co-discipline areas.

Electrical and Computer Engineering

Discipline Coordinator
Ghulam M. Chaudhry, (816) 235-5214, chaudhryg@umkc.edu

Electrical and Computer Engineering faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/sce.asp#DeptandorPrimaryDisciplineElec).

Electrical and Computer Engineering is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.
Discipline-Specific Admission Requirements

A student who meets the minimum discipline requirements stated below will be considered for regular admission to the Ph.D. program. A student who does not meet some of the requirements but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of student’s interest, the quality of previous work, etc. A student not qualifying for admission to the Ph.D. program may be considered for admission to the M.S. computer science or electrical engineering program. Requirements for admission are similar whether the applicant is requesting electrical and computer engineering as the primary discipline or co-discipline.

Academic Preparation

The applicant must have a bachelor’s degree and/or a master’s degree in electrical and/or computer engineering, electronics, communications engineering or any other field requiring substantial training in at least one of the above fields and in mathematics with a GPA of 3.5 or better on a 4.0 scale, cumulative as well as in the major field; and a GPA of 3.5 or better on a 4.0 scale in all post-baccalaureate or post-master’s degree work.

Aptitude for Advanced Work

The student must demonstrate an aptitude for advanced-level work through national/international standardized examinations such as the GRE. The expected performance level is the 85th percentile in the quantitative portion of the GRE examination.

Proficiency in English

The student must demonstrate his or her proficiency in oral and written communication in English through national/international standardized English examinations such as TOEFL, verbal portion of the GRE, etc. The expected proficiency level is the 50th percentile in the verbal portion of the GRE or a TOEFL score of 213 or above. UMKC students may also satisfy this requirement by obtaining an English Proficiency Certification from the English Department. (Note: As per University policy, all international students are tested for proficiency in English upon arrival on campus, irrespective of their scores in TOEFL or verbal portion of GRE, or any other test. A student’s advisor may also require the student to take the above test, irrespective of the student’s native language. As a result of this test, the student may be required to improve his or her oral and written communication in English before enrollment in the courses of the chosen disciplines.)

Recommendations

The student must provide at least three recommendation letters from the professors from his or her previous institution(s). If the applicant has been out of school for several years, recommendation letters from his or her supervisors (technical) will be acceptable. However, even in this situation, a recommendation letter from his or her last academic institution is highly recommended. A recommendation from a faculty member in the Computer Science Electrical Engineering (CSEE) Department at UMKC must be provided if the student has taken courses or worked with the CSEE faculty.

Statement of Goals and Objectives

The applicant must provide a 250- to 500-word essay on his or her goals and objectives of pursuing the Ph.D. in the chosen fields.

Admission at an Advanced Level

An applicant who has already completed significant graduate coursework (15 or more semester hours of the post-master’s work or 30 or more hours of the post-bachelor’s work) toward a Ph.D. at another institution must provide reasons for changing institutions. The applicant must also provide a letter of endorsement from a doctoral faculty member in electrical and computer engineering indicating willingness to be the student’s research advisor.

Alternate Admission Criteria

The applicant may have received a bachelor’s degree or a master’s degree in computer science, computer engineering, electrical engineering or electronics, or any other related field with substantial training in mathematics. An applicant not meeting the minimum admission requirements, or not having sufficient academic preparation (stated below under prerequisite knowledge) for advanced work in the chosen discipline(s), may be considered for provisional admission by the CSEE Department’s Ph.D. committee if the committee sees high potential for advanced work from the rest of the applicant’s credentials. Evidence of high potential might be pertinent work experience, published papers or extremely high achievement in related areas.

Qualifying Requirements for Full Admission

Prerequisite Knowledge

A Ph.D. student selecting electrical and computer engineering as the primary discipline is expected to have the level of preparation represented by a four-year undergraduate degree in electrical/computer engineering.

A student not having an undergraduate degree in electrical/computer engineering may be admitted provisionally if the admission committee determines that the student has a strong aptitude for research and is willing to take prerequisite courses as determined by the admission committee based on the student’s academic record.
Suggested Compatible Co-disciplines

Computer science, telecommunication and computer networking, mathematics, physics and engineering (p. 512) (civil and mechanical focus). A co-discipline outside of this list may be considered only in exceptional cases.

Core Program Requirements

The amount of work required for the Ph.D. depends on the student’s level of preparation. For example, a student entering the Ph.D. program after earning a bachelor’s degree may expect to do significantly more work compared to a student who enters after earning a master’s degree.

Requirements for Qualifying and Comprehensive Examinations

The Qualifying Exam is a written test administered by the CSEE Department’s Ph.D. committee. The test questions are from a set of fundamental courses in electrical and computer engineering.

The Comprehensive Exam is administered by the doctoral committee of the candidate. A student can either take a written test or opt for an oral presentation covering both primary and co-discipline areas. Discussion with and agreement from the student’s doctoral committee is required before choosing the best option. Candidates should contact the CSEE Department’s office and the chair of their doctoral committee for more information.

Electrical and Computer Engineering as a Co-Discipline

The student who chooses electrical and computer engineering as a co-discipline may obtain information on qualifying exam and comprehensive exam requirements from the discipline coordinator.

Financial Aid

Various forms of financial aids (such as graduate research assistantships, graduate teaching assistantships, graduate fellowships) are available through the CSEE Department and the School of Graduate Studies. Contact the discipline coordinator for more information.

Engineering

Discipline Coordinator
Ganesh Thiagarajan, (816) 235-1288, ganesht@umkc.edu

Engineering faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/sce.asp#DeptandorPrimaryDisciplineEngineering).

Engineering is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

A student who satisfies the general requirements for admission and also meets the minimum discipline requirements stated below will be considered for regular admission to the Ph.D. program with engineering as a discipline. A student who does not meet some of the requirements but shows high potential for advanced-level work may be considered for provisional admission. Admission also depends on factors such as number of seats available, resources available in the area of the student’s interest, the quality of previous work, etc. Requirements for admission are the same whether the applicant is requesting engineering as the primary discipline or the co-discipline.

1. The applicant must have a bachelor’s degree or a master’s degree in civil or mechanical engineering or related disciplines with a grade-point average of at least 3.0 on a 4.0 scale in the last 60 hours of undergraduate engineering coursework. In addition, a GPA of 3.5 or better in all post-baccalaureate coursework is required. Pre-program requirements may be specified in case the bachelor’s degree is in a discipline different than that to which the candidate is applying.

2. The student must demonstrate an aptitude for advanced-level work by obtaining a cumulative GRE score of at least 302 (verbal + quantitative) and a minimum of 158 on the quantitative portion of the examination. GRE requirements may be waived for applicants with a baccalaureate from an ABET accredited program who have passed the fundamentals of Engineering (FE) exam.

3. TOEFL scores are required for international students without prior U.S. degrees. The minimum required score is 80. TOEFL requirements may be waived for applicants with a baccalaureate from an ABET accredited program.

4. The student must provide at least three recommendation letters from professors at previous institutions or mentors at work.

5. The applicant must provide a 500- to 750-word essay on his or her goals and objectives in pursuing the Ph.D. in the chosen fields.

6. Provisional admission may be granted if the minimum GPA and GRE requirements are not met, but other indicators promise the student’s success in the program. To be fully admitted to the Interdisciplinary Ph.D. program, the provisionally admitted student must obtain a grade of B or better in the first nine hours of coursework and submit a satisfactory GRE score within their first year of the program.
Suggested Compatible Co-disciplines
Chemistry, computer science, electrical and computer engineering, geosciences, mathematics, molecular biology and biochemistry, oral biology, physics, and telecommunication and computer networking.

Core Program Requirements

Engineering as Primary Discipline
A minimum of 60 credit hours of approved graduate coursework (300-level or higher) beyond the baccalaureate, including dissertation research hours (CIV-ENGR 5699, E&C-ENGR 5699 or MEC-ENGR 5699), are required. Of these, at least two-thirds must be at ythe 5500/5600-level. The graduate coursework may include courses taken at UMKC or other institutions and approved for transfer by the student's supervisory committee. A minimum of 12 credit hours of dissertation research (CIV-ENGR 5699, E&C-ENGR 5699 or MEC-ENGR 5699) is required.

Example Minimum Requirements Beyond Master of Science Degree

<tr>
<td><strong>Total beyond M.S. degree (minimum of 30 hours)</strong></td>
<td><strong>33</strong></td>
</tr>
</tbody>
</table>

Engineering as Co-discipline
A student electing engineering as co-discipline will be required to complete a minimum of 9 credit hours in engineering graduate courses, of which at least six hours must be at the 5500/5600-level.

Qualifying Examination Guidelines
A qualifying exam will be completed by the Ph.D. student as a core program requirement. The exam will be administered by the graduate committee in conjunction with the research advisor in the first year of study. The exam will consist of two parts: (1) a written exam based on core areas in civil/mechanical engineering OR an engineering problem related to the student’s emphasis area AND, (2) an oral defense of the exam and other discipline fundamentals or the problem solution. The department will keep a record of whether the student has passed or failed the exam. The student may request one more attempt to retake the exam in the event of a failed grade. The student will be recommended for termination from the doctoral program after two failed attempts.

Comprehensive Examination Guidelines
To advance to degree candidacy, an Interdisciplinary Ph.D. student is required to pass a comprehensive examination administered by the student’s research advisor and supervisory committee. This comprehensive exam will consist of two parts. Part One will be a written exam over the student’s Ph.D. coursework or the submission of a grant proposal to the committee. Part Two will be an oral defense of the student’s dissertation research proposal.

English

Discipline Coordinator
Anthony Shiu Contact Information (http://www.umkc.edu/lookup/search.cfm?LastName=shiua), (816) 235-5205, shiua@umkc.edu

English faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/artandhistory.asp#DeptandorPrimaryDisciplineENGLISH).

English is a discipline in the Interdisciplinary Ph.D. Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements
For new students selecting English as a discipline, admission will normally be for the fall term. Application dossiers must be complete by Jan. 15.

Applicants who select English as their primary discipline will be expected to have the M.A. in English or equivalent coursework as determined by the English department doctoral committee. Applicants who select English as a co-discipline should have completed a master’s degree or equivalent coursework. In most cases, students will be expected to have completed, with a grade of B or better, 12 hours of English courses at the 300- or 400-level (or appropriate equivalents) that are approved by the English department doctoral committee.
An applicant who plans to pursue a degree with English as a discipline is required to provide the English department doctoral committee with the names of three individuals who are academically or professionally qualified to assess the applicant’s ability to pursue doctoral work. References submitted to the School of Graduate Studies for admission to doctoral studies may be judged by the English department doctoral committee as sufficient evaluation, but the department reserves the right to request further information.

Applicants also are required to submit samples of written work to the English department doctoral committee. The applicant’s narrative statement, submitted with the application form, should provide a well-focused justification of the proposed course of study that is compatible with the department’s resources. Applicants should consult with the Interdisciplinary Ph.D. coordinator in English for advice on the preparation of the narrative. Applicants may also seek advice on the narrative from doctoral committee members with special expertise in the applicant’s chosen fields of study.

Applications will be evaluated by a committee of the doctoral faculty in the English department; the committee will recommend to the department chair and dean of the School of Graduate Studies whether the applicant should be admitted. These English-specific requirements apply to all applicants intending to have English as primary discipline or co-discipline.

Students who expect to write a dissertation that draws primarily on research in English must apply for English as their primary discipline.

In cases where an applicant has not yet met the foreign language requirement or GRE scores are still pending, provisional admission may be recommended.

Alternate Admission Criteria

The department’s required GRE score is independent of, and takes precedence over, the School of Graduate Studies’ minimum of 1500 points.

Qualifying Requirements for Full Admission

In addition to the below criteria, the committee considers the applicant’s writing sample, letters of recommendation, personal statement, and the overall viability of the applicant’s proposed dissertation project.

English as Primary Discipline

GRE scores
Either (1) a general verbal score in the 60th percentile or better; or (2) a score in the 60th percentile or better in the English subject examination.

Relevant Foreign Language Skills

Applicants must demonstrate facility in a foreign language relevant to study in English. The language requirement will ordinarily be met by two years of satisfactory college-level language study. Students may be required to demonstrate additional language skills to undertake or complete their dissertations.

English as a Co-discipline

GRE scores
A general verbal score in the 60th percentile or better.

Foreign Language Skills

Demonstrate foreign language competence in the same manner as students with English as the primary discipline.

Suggested Compatible Co-disciplines

Curriculum and instruction and history

Core Program Requirements

All students who list English as a discipline, whether as primary discipline or co-discipline, are required to take ENGLISH 5500 or its equivalent.

Students admitted with English as the primary discipline are subject to the following requirements:

• Only English courses numbered 400 or above will be accepted for the Ph.D. degree. Courses taken in other disciplines may be taken at the 300-level or above.
• No grade below B in any course will be accepted to apply toward the Ph.D. degree.
• In most cases, no more than one-third of coursework in English, exclusive of credit for dissertation work, that is classified as independent study will be accepted for the Ph.D. degree.
• Students will be expected to complete the majority of their coursework at UMKC.
• In certain cases, exceptions to these requirements may be allowed.
Other Discipline-Specific Special Requirements

For foreign language requirement, see "Qualifying Requirements for Full Admission" for this discipline.

Comprehensive Examination Guidelines

Before advancing to Ph.D. candidacy, students whose primary discipline is English will take three examinations: a written general examination, an oral interdisciplinary subject examination and a co-disciplinary examination. The examinations must be taken within a year of completing coursework. Prior to taking exams, students must have an assigned supervisory committee, an approved plan of study on file with the School of Graduate Studies and completed all required coursework. See Comprehensive Examination guidelines (p. [X]) from the School of Graduate Studies for full details.

The general examination is a six hour exam, written in two three-hour sittings. This exam is administered by the English faculty on the supervisory committee, led by the chair of the committee. The subject examination is a two-hour oral interdisciplinary exam that is administered by the entire supervisory committee, led by the chair of the committee. The co-disciplinary exam will be administered by the co-disciplinary faculty on the supervisory committee.

Exam areas shall be designated at the time of the submission of the program of study. These may be changed only with the consent of the entire supervisory committee. Exam questions shall not be distributed in advance for either the general or subject examination. At least six months before the student plans to take his or her exams, the student shall notify committee members of his or her choice of areas/periods and submit a tentative reading list of primary and critical works for all examinations. The supervisory committee shall then meet to approve the areas, review the proposed reading list and address any oversights or imbalances.

The general examination consists of two parts, each covered in a three-hour sitting and each receiving equal weight. The examination is designed to test the breadth of the candidate’s knowledge in the fields in question. The student will choose two areas in which he or she wishes to be examined, whether periods of literary history (e.g., British 19th century, American literature from 1865, British and American literature since 1945) or other areas of expertise (e.g., linguistics, history of the language, rhetoric, genre studies, literacy studies). The reading list, which is subject to the approval of the supervisory committee, should consist of works from the selected periods or areas of expertise which have achieved broad recognition or influence.

For the oral interdisciplinary subject examination, the student will prepare in advance, in the period specified above, a tentative reading list on the subject of the proposed dissertation for approval or revision by the supervisory committee. The subject examination will deal with current scholarship and methodology as well as with primary sources and other standard works in the field. The exam will be administered in a single two-hour sitting.

For students whose co-discipline is English, a single three-hour written examination will be designed in consultation with the coordinating discipline.

Doctoral Dissertation Requirement

The dissertation defense will be a one and a half hour discussion of the dissertation that includes all members of the Supervisory Committee. The majority of the committee must vote for approval of the dissertation in order for the student to graduate. See the School of Graduate Studies guidelines for further procedures and deadlines.

Entrepreneurship

Discipline Coordinator

Michael Song, (816) 235-5841, songmi@umkc.edu

Entrepreneurship and Innovation faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/bloch.asp#DeptandorPrimaryDisciplineEntrep).

Entrepreneurship and Innovation is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Program Intent

The Ph.D. program in Entrepreneurship and Innovation is designed to train and develop research and teaching scholars in entrepreneurship and innovation. The Institute for Entrepreneurship and Innovation (IEI) has established a research agenda that focuses on the ways in which entrepreneurs develop, lead and transform today’s dynamic global businesses. Specifically, the Institute is assessing the values and risks of emerging technologies and investigating effective techniques for market opportunity analysis and the identification of new ventures in high-tech industries. In addition, the Institute is examining the success and failure factors of high-tech start-up firms, as well as the links between entrepreneurship, government policy, innovation, economic development and global competitiveness.
**Discipline-Specific Admission Requirements**

We expect prospective students to hold an undergraduate or master’s degree in business administration, entrepreneurship, marketing, mathematics, economics, statistics, engineering or science. Students are expected to have completed a master’s level intermediate statistical analysis course prior to enrolling in the program. All students must submit an application to the Interdisciplinary Ph.D. Program and to the IEI. The student must complete the Interdisciplinary Ph.D. application and prepare a formal written statement outlining his or her interests in and preparation for the program. To enter the entrepreneurship program, the applicant is expected to have an overall GPA of at least 3.3 on a 4.0 scale on all quantitative course work. Applicants should pay particular attention to the narrative statement that accompanies their application. The IEI doctoral faculty gives substantial weight to this statement. It should provide a clear description of the applicant’s intellectual interests, how those interests evolved and should describe the research direction(s) that the applicant intends to pursue.

**Suggested Compatible Co-disciplines**

Economics, mathematics, social science, engineering, computer science, physics, and public administration.

**Program Requirements**

Students who select entrepreneurship and innovation as their primary discipline must complete 12 credit hours of coursework in entrepreneurship theory and 12 credit hours in research methods. In addition, students must select 16 credit hours in electives from classes offered by their co-discipline or other departments. Students in the entrepreneurship program will take nine hours of coursework a semester for the first two years and three to six hours of coursework a semester for the third year while working as research assistants for designated faculty. The fourth and fifth years will be devoted to graduate research assistance and the dissertation. Upon completion of the coursework, students are expected to successfully complete a written examination in entrepreneurship. During the doctoral program, students are also required to participate in the Teaching Effectiveness Training program and teach two courses. In addition, each student must complete at least one academic paper per year that will be submitted to a national research conference (by the end of the first year) or to top refereed academic journals.

**Requirements for Entrepreneurship as a Co-discipline**

Students who select entrepreneurship as a co-discipline must complete four doctoral seminars (12 credits) in Entrepreneurship Theory. Specific classes must be approved by the program director.

**Other Discipline-Specific Special Requirements**

A faculty supervisory committee is appointed by the program director at the end of the second year to assist each student in constructing a program of study that fits that individual’s background and interests. Students select one major area of specialization and complete requirements in an additional minor area that supports their major area of specialization. Throughout the program, doctoral students receive support and training that hone their skills as researchers, teachers and course developers. Any deviations from the program requirements must be recommended by the supervisory committee and must be approved by the program director.

**Research Paper**

Each student must complete at least one academic paper per year. The first-year paper must be submitted to a national research conference by the end of the first year of the program. All other papers must be submitted to top refereed academic journals. Each student must have at least two “revise/resubmit” or accepted academic papers before graduating from the program. Failure to meet these research and publication requirements will result in the student being placed on probation or being dismissed from the program. Faculty will set a deadline by which doctoral students must complete an independent research paper and present their findings in a research workshop. The research project is supervised by a faculty advisor on a topic selected by the student and approved by the faculty advisor.
Comprehensive Examination and Admission to Candidacy

To be eligible to apply for candidacy, students must maintain an overall GPA of at least 3.3. Admission to candidacy is a formal University process signifying that a student has completed specific degree requirements and that the faculty expects that the student will successfully complete the degree program. Students are admitted to candidacy upon completion of the comprehensive examination in entrepreneurship. The supervisory committee administers this test after all area requirements are completed.

Dissertation

After earning candidacy, students must successfully complete a dissertation that demonstrates their ability to identify a significant research question or problem in entrepreneurship and apply appropriate research techniques to its resolution. The dissertation must be an original and independent piece of work. Dissertations are supervised by a reading committee. After the dissertation has been written to the satisfaction of the reading committee, the student defends his or her dissertation research in a final oral examination by program faculty.

In-Residence Study

A doctoral student must spend at least four years of full-time, in-residence study beyond the baccalaureate degree. Experience has shown that the probability of successful completion of the program diminishes substantially unless the student is committed to full-time, in-residence work until all requirements are fulfilled. Prospective students should plan on full-time studies, including the summer semester, from the time of enrollment until the completion of the dissertation.

Teaching Effectiveness Training

Each year, the academic market places increasing weight on teaching skills. Many business schools, in fact, now require teaching presentations of all prospective faculty. All students are required to participate in the Teaching Effectiveness Training Program. Students will observe other instructors, including someone teaching their spring course assignment, draft a syllabus, and receive feedback on a microteaching session. Teaching assistants assigned to teach core courses will receive additional guidance from faculty course coordinators.

During the doctoral program, students will be required to teach two courses. They will receive feedback from peer classroom observations and an opportunity to share experiences and ideas informally at lunch gatherings of teaching assistants. Students are expected to put together formal teaching presentations that aid them both in the interview process and in the transition to full-time, tenure-track faculty.

Application Review Process and Timetable

Applications for admission and financial aid must be complete, including all supporting materials, by February 1 of each year. Applicants should take the GMAT or GRE in November or earlier because scores from later examinations will not arrive by the admissions deadline.

Geosciences

Discipline Coordinator

Jejung Lee, (816) 235-6495, leej@umkc.edu

Geosciences faculty who are members of the doctoral faculty [http://sgs.umkc.edu/faculty/artandhistory.asp#DeptandorPrimaryDisciplineGEOSCIENCES].

Geosciences is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Specific admission requirements defined by the faculty of the Department of Geosciences follow the guidelines established by the School of Graduate Studies. Typically, a student would be expected to hold an undergraduate or master’s degree in environmental sciences, geology, geography or a closely-related field. Opportunities within the department range from the physical sciences to the humanities. Because of the wide range of faculty expertise, and in keeping with the general spirit of the entire interdisciplinary program, the faculty of the Department of Geosciences has deliberately chosen to establish broad guidelines for admission of Interdisciplinary Ph.D. students. All prospective graduate students must attain a GPA of 3.0 or above, on a 4.0 scale, in all university work prior to admission. Three letters of recommendation from professors as well as a proposal from the prospective student detailing goals and expectations are needed for an evaluation of the application. Students are expected to have an advisor at the time of admission.

Non-native English-speaking applicants seeking geosciences as a primary discipline must demonstrate proficiency in English. This requirement can be satisfied by obtaining English proficiency certification from UMKC.
Suggested Compatible Co-disciplines

Faculty members in the Department of Geosciences conduct research in applied geophysics, atmospheric sciences, engineering geology, and environmental geology, stratigraphy, geochemistry, GIS, mineral deposits, neotectonics, geoarcheology, geomorphology, Quaternary environments, cultural and historical geography (Europe, Latin America, the Caribbean and West Africa) and historical cartography. Suitable co-disciplines for the Interdisciplinary Ph.D. program are practically unlimited (see http://cas.umkc.edu/geosciences/phd.asp for possibilities). Consultation with the principal graduate advisors for geology and geography would be a good way for the student to explore the possibilities. Previous and existing geology students have designated co-disciplines of chemistry, curriculum and instruction, engineering, computer science, and physics. Previous geography Ph.D. students have designated the social sciences consortium (p. 542) and curriculum and instruction as a co-discipline. Other excellent possibilities would include political science, economics, and history.

Core Program Requirements

Specific core program requirements follow the guidelines established by the School of Graduate Studies and are otherwise defined by the student’s supervisory committee in consultation with each individual student.

Other Discipline-Specific Special Requirements

While there is no set minimum number of hours for all students, at least 50 percent of the course credit hours for students who select geosciences as their primary discipline must be taken in the Department of Geosciences. Students who have selected geosciences as a primary discipline or a co-discipline are expected to take no less than three courses from the Department of Geosciences as determined by their supervisory committee. Other special requirements are defined by the student’s supervisory committee in individual consultation with each student.

Requirements for Comprehensive Examinations

Comprehensive examinations of all Ph.D. students who select the Department of Geosciences as the primary discipline will contain both written and oral components and may include questions from each of the co-disciplines and from related fields as determined by the student’s examining committee. The examining committee consists of the student’s supervisory committee and others who may be appointed by the dean of the School of Graduate Studies.

Interdisciplinary Work

The faculty of the Department of Geosciences are committed to an interdisciplinary approach and expect that all Ph.D. students, whether enrolled in the primary or the co-disciplinary category, will complete courses and conduct research with this principle in mind.

History

Discipline Coordinator

Andrew Bergerson, (816) 235-5728, bergersona@umkc.edu

History faculty who are members of the doctoral faculty.

History is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements. Please refer to the UMKC History Department website for up-to-date information on the Interdisciplinary Ph.D. program in History.

Discipline-Specific Admission Requirements

Except in unusual circumstances, students who select History as a discipline in the Interdisciplinary Ph.D. program must begin their work during the fall term. Applications must be received by the School of Graduate Studies no later than January 15. The doctoral faculty of the Department of History will review applications and make their recommendations for admission by the end of February. Applications that are incomplete as of January 15, and completed applications submitted after this deadline, may not be considered until the following year.

Applicants who choose History as their primary discipline, or applicants whose coursework in History will comprise at least 50 percent of the Ph.D. plan of study, must meet the criteria for admission specified by the School of Graduate Studies. In addition, they must:

1. Possess a master’s degree in History or its equivalent.
2. Have earned a GPA of 3.5 on a 4.0 scale in graduate courses.

Students who choose History as a co-discipline and whose coursework in History will constitute less than 50 percent of the Ph.D. plan of study must meet the criteria for admission specified by the School of Graduate Studies. In addition, they must fulfill other entrance requirements specified by the doctoral faculty of the Department of History.

1) Co-discipline applicants who have a background in History will be considered as candidates for full admission.
2) Co-discipline applicants who have little or no background in History will normally be considered only as candidates for provisional admission. These applicants, if provisionally admitted, will be required to take a certain number of content courses at either the undergraduate or graduate level, to be determined by the student’s prospective mentor, and maintain a B+ average before being considered for full admission. 

All applicants for admission must submit in addition to the requirements specified by the School of Graduate Studies:

1. A sample of written work.
2. A brief statement of academic and professional goals.
3. A 1,000-word essay that specifies a dissertation topic, demonstrates its interdisciplinary nature and shows how historical methods and approaches would be utilized.
4. A signed mentorship form.

Primary discipline students must have a statement of support from at least two members of the department willing to serve on the student’s supervisory committee.

Co-discipline students must have a statement of support from at least one member of the department willing to serve on the supervisory committee.

Primary and Co-discipline applicants granted provisional admission will receive notification of deficiencies and of the conditions that must be met before full admission can be considered.

The doctoral faculty of the Department of History, in consultation with the History faculty as a whole, makes recommendations to the dean of the School of Graduate Studies on each application for admission. These recommendations reflect the majority vote of the doctoral faculty.

Applicants are advised that meeting the criteria of the School of Graduate Studies and the Department of History does not automatically result in admission to the Interdisciplinary Ph.D. program. When making recommendations to the School of Graduate Studies, the History faculty considers other factors as well, particularly the availability of faculty qualified to work in the applicant’s area of interest and the availability of library resources and research materials.

Alternate Admission Criteria

In exceptional cases, candidates who do not meet either the School of Graduate Studies’ or the History Department’s minimum requirements for admission may be admitted under alternate criteria. The doctoral faculty of the department have adopted the following alternate criteria, one or more of which will be used to assess the applicant’s ability: satisfactory performance in 5500- or above-level classes taken in the department’s master’s degree program; positive, written recommendations of our faculty willing to work with the applicant who have evaluated his or her previous work; satisfactory completion of specified courses in the department before consideration or reconsideration of a candidate’s application; publications or comparable professional achievements related to the study of History.

The Plan of Study

If full admission is granted, the student who chooses History as a discipline must satisfy the residency requirements of the School of Graduate Studies, and must fulfill the course requirements of the Ph.D. plan of study as prepared by the student and his or her advisor(s) and approved by the Interdisciplinary Ph.D. Executive Committee.

A student whose primary discipline is History will be required to list at least 18 hours of graduate-level history courses (exclusive of dissertation credits) on the plan of study. These will include: 3 hours of HISTORY 5581GR (How To History I) if this course or its equivalent has not been taken before; 3 hours of HISTORY 5582GR (How To History II); 3 graduate colloquia; and at least one graduate-level research seminar. The remainder of the program must be in courses numbered 5500 or above.

Students for whom History is a co-discipline will be required to take, at the minimum, the five core courses of the department’s M.A. program: HISTORY 5581GR (How To History I); HISTORY 5582GR (How To History II); two graduate colloquia; and one graduate-level research seminar. In exceptional or unusual circumstances, some of these hours may be waived upon petition to the student’s supervisory committee.

Any student who switches disciplines in the course of his or her graduate career, either adding history as the primary or co-discipline, or changing History from the co-discipline to the primary discipline, must fulfill all of the requisite doctoral requirements in History for that level (e.g., number of course hours, distribution requirements, exams).

Requirements for Comprehensive Examinations

The School of Graduate Studies guidelines for the comprehensive examination can be found here.

The History Department requires that the comprehensive examination of a student listing History as a discipline include both a written and an oral component. The History members of the supervisory Committee will determine the structure and duration of the History component of the comprehensive exam.

For students with History as the primary discipline, there is a list of doctoral fields appended below. The written comprehensives will consist of three examinations, the first from a Chronological/National field; the second from a Topical/Interdisciplinary field; and the third from either the Chronological/National or Topical/Interdisciplinary list of fields.
For co-discipline students, the written comprehensives will consist of questions drawn from one of the Chronological/National fields, and questions from one of the Topical/Interdisciplinary fields appended below.

For both primary and co-discipline students, it is assumed that each examination will include a historiographical component.

Written comprehensives will be administered in the first two weeks of November and the first two weeks of March, unless the supervisory committee has allowed an exception.

In the oral examination conducted by the supervisory committee, both primary and co-discipline students will be expected to answer questions of an interdisciplinary nature.

A student with History as either a primary or co-discipline is considered to have passed the comprehensive examination if the History member/s of the examining committee vote that the candidate passes, and if no more than 20 percent of the examining committee vote to fail the student. If failure is reported, the examining committee will either recommend termination as a Ph.D. student or suggest additional work or other remedial measures. Furthermore, a student who has failed may not take a second examination for at least 12 weeks. Failure of a second comprehensive examination shall automatically preclude candidacy at this institution.

Dissertation Requirements

A student for whom History is a discipline must meet the requirements of the History Department for the discipline, as well as those of the School of Graduate Studies. On a Ph.D. plan of study, where history is the primary discipline, there must be a minimum of 12 credits in HISTORY 5699R (dissertation hours).

The final examination in defense of the dissertation is open to all members of the doctoral faculty, who may attend as interested observers. The supervisory committee and its chair will determine the format and procedures of the defense. The date, time and location must be announced and published at least two weeks before each final examination takes place.

For a student with History as a discipline, this examination may be conducted only after the dissertation has been approved by the History member/s of the supervisory committee, and may not be administered when UMKC is not officially in session.

The defense of the dissertation is approved when a majority of the supervisory committee, including the History member/s of the committee, recommends approval and signs the Report of Result of Final Doctoral Examination form. Within 48 hours of the defense, the supervisory committee chair will report the results of the final dissertation examination in writing to the candidate.

Language Requirements

Those students for whom History comprises their Primary discipline must complete a competency examination in at least one foreign language that will be relevant to their dissertation research and/or future career. The language exam format will be determined by the student’s supervisory committee and will be assessed by a member of the department of foreign languages and literatures or another expert in the field. Students can also choose to complete two years of undergraduate language study in lieu of a challenge exam. Students with research interests that require competency in more than one language will be encouraged to be certified in relevant languages, but will be examined at the discretion of the supervisory committee.

Those students with History as their co-discipline will ordinarily not be required to demonstrate language competency unless their research topic requires it. It is strongly recommended, however, that all I PhD students choosing History as either primary or co-discipline should pursue some kind of language study or equivalent research skill, such as in quantitative methods.

Retention in the Doctoral Program

A doctoral student must maintain a 3.0 grade-point average in each semester of coursework taken at UMKC. A person receiving a failing grade in a class will normally not be retained in the doctoral program. In exceptional cases, such a student may petition to be placed on probation for one semester.

A student who falls below a 3.0 grade-point average, or whose work is deemed unsatisfactory at any stage of doctoral work by the History member/s of the supervisory committee, with the concurrence of a majority of the resident doctoral faculty of the department, may be declared ineligible for further study.

History Department Policies Regarding Doctoral Faculty

No doctoral student shall be permitted to form a supervisory committee on which the only History faculty members are former faculty at UMKC or adjunct faculty members. Refer to the Web site of the School of Graduate Studies for a list of current doctoral faculty.

Ordinarily, emeritus professors of doctoral faculty status in History shall be allowed to serve on doctoral committees for no more than five years after retirement. Such service shall only be on committees that the required faculty member was already on at the time of retirement. Emeritus faculty members can have their doctoral status extended beyond five years only if at least two-thirds of the members of the History doctoral faculty vote to approve this.
Emeritus professors in History cannot chair dissertation committees. They can, however, co-chair with the approval of a majority of the regular resident doctoral faculty.

The History department adheres to the guidelines of the American Historical Association with regard to student ethics and the responsible conduct of research. The AHA Statement on Standards of Professional Conduct can be found at http://www.historians.org/pubs/Free/ProfessionalStandards.cfm.

**Humanities Consortium**

**Discipline Coordinator**

Larson Powell, (816) 235-1316, powelllar@umkc.edu

Humanities Consortium is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

**Note:** The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

**Discipline-Specific Admission Requirements**

The Humanities Consortium is only available as a co-discipline option, not as a primary discipline.
Application dossiers for the Humanities Consortium must be complete by January 15 for fall admission or September 1 for spring admission. Dossiers should include:

- an application for graduate study
- a brief statement of academic and professional goals (1 page)
- three (3) letters of recommendation from individuals who are academically or professionally qualified to assess the applicant’s ability to pursue doctoral work
- transcripts from all post-secondary schools attended
- a well-focused research proposal that demonstrates the applicant’s rationale for application to the Humanities Consortium as a co-discipline and the interdisciplinary nature of the plan of study (1 pages)
- a sample of academic writing (20 pages or less)

Qualifying Requirements for Full Admission to the Humanities Consortium

Applicants to the Humanities Consortium as a co-discipline will be expected to hold a master’s degree (MA, MFA, MM, or appropriate MS) or equivalent coursework in a Humanities-related field.

- TOEFL minimum composite score of 550 or IELTS score of 6.0 (international applicants). Applicant should be able to demonstrate facility in English appropriate for graduate work
- a GPA of 3.5 or better in previous graduate study

Applicants who do not meet the requirements above may be granted provisional admission for one year by the doctoral faculty in the Humanities Consortium. An applicant admitted provisionally receives notification of deficiencies and of the conditions which must be met within the first year before the doctoral faculty will consider an applicant for full admission. At the end of the first year, the provisional admission will be reviewed.

Applicants are advised that meeting the criteria of the School of Graduate Studies and the Humanities Consortium does not automatically result in admission to the Interdisciplinary Ph.D. program. When making admission decisions, the doctoral faculty of the Humanities Consortium considers other factors as well, particularly the availability of faculty qualified to work in the applicant’s area of interest and the availability of library resources and research materials.

Recommendations for admission are made by a sub-committee of the Humanities Consortium doctoral faculty which reviews all applications. Newly admitted students are assigned an interim Humanities Consortium faculty advisor, pending formation of their supervisory committee.

Foreign Language Study

Applicants must demonstrate competency in the foreign language or languages necessary to pursue the stated research plan (or describe a plan of study to achieve this facility). Students may be required, at the discretion of their dissertation committees, to demonstrate or acquire additional language skills to undertake or complete their dissertations.

Suggested Compatible Coordinating Disciplines

Art history (p. 493), Curriculum and instruction (p. 505), English (p. 513), and history (p. 518).

Core Program Requirements

As a means of introducing doctoral students to interdisciplinary work and to the various fields of inquiry in the Arts & Humanities, the Humanities Consortium Program of Study requires 15 hours of dedicated coursework.

The following three courses (9 hours) are required:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>HMNTY 5510</td>
<td>Methods in Critical Theory</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>Two additional courses (HMNTY 5500, Introduction to Interdisciplinary Humanities and HMNTY 5520, Research &amp; Creative Methodologies in Humanities are also required)</td>
<td>6</td>
</tr>
</tbody>
</table>

Total Credits 9

Two graduate-level courses (3 credits each, numbered at the 400 level or above) are also required, totaling 6 hours. The two elective courses may be in any discipline except the student’s primary discipline, but these courses are subject to approval by the student’s primary advisor, the Humanities Consortium Director, and the instructors of the chosen courses. No more than one course that is classified as independent study may be used as an elective course in the Humanities Consortium.

No grade below B in any course will be accepted to apply toward the Ph.D. degree.

Transfer credit will be at the discretion of the dissertation committee in consultation with the Humanities Consortium Coordinator. No more than 6 hours of transfer credit will be allowed.
Retention in the Doctoral Program

Students are expected to maintain a 3.0 GPA during their program of study. A student who falls below a 3.0 GPA, with the concurrence of the doctoral faculty in the Humanities Consortium, may be declared ineligible for further study. A student receiving the grade of F in any graduate course during the program of study will not normally be retained in the program.

Comprehensive Examination Guidelines

The School of Graduate Studies guidelines for the comprehensive examination can be found here.

Before advancing to Ph.D. candidacy, students in the Humanities Consortium will take a comprehensive examination that includes both written and oral components. Each student’s dissertation committee will be charged, in accordance with SGS guidelines, with setting the requirements for the comprehensive examination and for evaluating the results of this exam.

Interdisciplinarity

Students in the Humanities Consortium will be expected to devise a program of study that demonstrates a commitment to interdisciplinary work and to develop a dissertation that illustrates interdisciplinary practices.

Mathematics

Discipline Coordinator

Noah Rhee, (816) 235-2854, rheen@umkc.edu

Mathematics faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/artandhistory.asp#DeptandorPrimaryDisciplineMATHEMATICS).

Mathematics is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

Mathematics as a Primary Discipline

To get full admission, an applicant should have

1. Preferably a Master’s degree in mathematics/statistics with strong records that include graduate level courses in mathematics/statistics courses offered by an accredited college or university;
2. An overall grade-point average of at least 3.0 out of 4.0 scale;
3. At least 155 on Quantitative Reasoning in GRE;
4. In the case of foreign students, at least 80 on the internet based TOEFL test.

An applicant may be given a provisional admission if the condition (1) in the above is not met, provided one of the following two conditions is satisfied:

a Bachelor’s degree in mathematics/statistics from an accredited college or university, or a Bachelor’s degree in another subject including evidence of a strong performance in at least three mathematics courses beyond Calculus I, II, and III.

Mathematics as a Co-discipline

To get full admission, an applicant should have a Bachelor’s degree in mathematics/statistics from an accredited college or university, or a Bachelor’s degree in another subject including evidence of a strong performance in at least three mathematics courses beyond Calculus I, II, and III. An applicant with mathematics as Co-discipline may get a provisional admission if the above conditions are not fully satisfied at the time of application.

Qualifying Requirements for Students with Mathematics as a Coordinating Discipline

A student who has a Master’s degree in mathematics or statistics from an accredited university with full admission may be qualified to the interdisciplinary Ph.D. program in the Department of Mathematics and Statistics if s/he has met the qualifying course requirements (if not, s/he has to take the deficient courses to be qualified). See the department website for details and the list of Interdisciplinary Ph.D. qualifying courses.

Suggested Compatible Co-disciplines

Cell biology and biophysics (p. 496), molecular biology and biochemistry (p. 524), computer science, (p. 501) telecommunication and computer networking (p. 543), electrical and computer engineering (p. 510), chemistry (p. 498), curriculum and instruction (p. 505), physics (p. 536), geosciences (p. 517), and engineering (p. 512).
Core Program Requirements

The requirements for the Ph.D. fall into five major categories: coursework, special requirements set by the supervisory committee, interdisciplinary work, comprehensive examination and dissertation.

Mathematics as Primary Discipline

A student can have either mathematics or statistics as the emphasis area when the student declares mathematics as the coordinating unit.

After fully qualified, students must take the doctoral core courses in their area of emphasis, and one additional doctoral core course from the other emphasis area. For the doctoral core courses, see the department website for details. Students may need to take additional graduate elective mathematics or statistics courses deemed necessary by the Interdisciplinary Ph.D. supervisory committee of the student. Transfer credit may be accepted (in accordance with the minimum 21 credit residency requirement set by the School of Graduate Studies). Students must satisfy the co-discipline work requirement set forth by the co-discipline. The student with mathematics as the primary discipline must pass a comprehensive examination in mathematics or statistics after completing the doctoral core courses and completing any special requirements and interdisciplinary requirements. An oral examination will be given after a student passes a written comprehensive examination. Students must pass the comprehensive examination. Student’s dissertation must represent a significant contribution to mathematics.

The student with mathematics as the primary discipline must pass a comprehensive examination in mathematics or statistics after completing the doctoral core courses and completing any special requirements and interdisciplinary requirements. An oral examination will be given after a student passes a written comprehensive examination.

Mathematics as a Co-discipline

The number of hours required in mathematics for a student who chooses mathematics as a co-discipline will be at least 12 graduate credit hours. Up to six of these credit hours may be at the 400-level. After completing the required course work, students must file the form entitled “Department of Mathematics and Statistics Comprehensive Examination Approval Form for Interdisciplinary Ph.D. Students with Mathematics as the Co-discipline” with the Interdisciplinary Ph.D. coordinator of Mathematics.

Molecular Biology and Biochemistry

Discipline Coordinator
Karen Bame, (816) 235-2243, bamek@umkc.edu

Molecular Biology and Biochemistry faculty who are members of the Doctoral Faculty (http://sgs.umkc.edu/faculty/bioscience.asp#DeptandorPrimaryDisciplineMolBiolBiochem)

Molecular Biology and Biochemistry is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are in addition to the requirements listed in Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

No additional requirements. Due to the sequencing of coursework, new students selecting molecular biology and biochemistry as their primary discipline will normally only be admitted in the fall term.

Qualifying Requirements for Full Admission

Minimum of 16 hours of approved graduate coursework at UMKC toward the Ph.D. program with a grade-point average of at least 3.0 on a 4.0 scale. International students must establish English proficiency.

Suggested Compatible Co-disciplines

Chemistry, cell biology and biophysics, pharmaceutical sciences, pharmacology, oral and craniofacial sciences and physics.

Core Program Requirements

Molecular Biology and Biochemistry as a Primary Discipline

Minimum core requirement is 33 course credit hours and 15 dissertation research credits in molecular biology and biochemistry for a total of 48 post-baccalaureate credit hours, distributed as indicated below:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LS-MBB 5561</td>
<td>General Biochemistry I</td>
<td>3</td>
</tr>
<tr>
<td>LS-MBB 5562</td>
<td>General Biochemistry II</td>
<td>3</td>
</tr>
<tr>
<td>LS-MBB 5596</td>
<td>Advanced Experimental Molecular Biology I</td>
<td>2</td>
</tr>
</tbody>
</table>
or LS-MBB 5597  Advanced Experimental Molecular Biology II
LS-MBB 5611  Seminar in Molecular Biology and Biochemistry ((2 x 1 cr hr.)  2
LS-MBB 5690  Analytical Methods in Molecular Biology and Biochemistry  1-4
or LS-CBB 5690  Analytical Methods in Cell Biology and Biophysics
BIOLOGY 5501  Proposal Writing  1

7 cr. hr. in discipline or related discipline courses (LS-CBB, LS-MBB, BIOL, PHARM, etc.) 15 cr. hr. LS-MBB 5699 Dissertation Research.

Related Discipline Courses Required
Ten additional course credit hours in one related discipline or combination of disciplines. Related disciplines are defined as cell biology and biophysics, chemistry, pharmaceutical sciences, pharmacology, oral biology or other. Seminar courses may be part of this component of required courses, up to a maximum of three for the program, as are two additional credits of advanced experimental molecular or cell biology.

Electives
Each student’s supervisory committee may require additional courses in any University-approved doctoral discipline as preparation for specific areas of research. These additional requirements may not exceed nine credit hours beyond the 33 credits required for the basic course core. These electives may be taken at any time during enrollment as a graduate student, up to the semester prior to that in which the dissertation defense will occur. No more than seven course credit hours of 5500-level courses, or their equivalent, can be taken at institutions outside UMKC. Remember that 5700-level courses may not be used to satisfy course requirements for the program.

Molecular Biology and Biochemistry as a Co-discipline

Required courses
LS-MBB 5561  General Biochemistry I  3
LS-MBB 5562  General Biochemistry II  3
LS-MBB 5611  Seminar in Molecular Biology and Biochemistry  1

Additional SBS graduate courses (LS-CBB, LS-MBB or BIOL) for a minimum of 10 cr. hr.

Other Discipline-Specific Special Requirements

Research
The School of Biological Sciences offers research opportunities in many areas of modern life sciences that address problems of basic life processes at the cellular, subcellular and molecular levels. Graduate studies offered with primary participation of the faculty in the Division of Molecular Biology and Biochemistry are based on the belief that training for research can be best accomplished by having an appropriate breadth of background coursework, combined with a depth of specialization in a particular research area. The faculty have established guidelines that have a minimum of formal requirements so that students have the flexibility to advance at a pace consistent with development of the individual. Diligence, creativity and independent thinking are the qualities desired in the candidate’s dissertation work.

Teaching
As part of their graduate training, all Ph.D. students with molecular biology and biochemistry as the primary discipline participate in the teaching program of the School of Biological Sciences. This is an important component of preparation for a career in academia or other institutions and aids in the development of effective communication skills.

Seminars
Students will participate in seminars in which current developments in various areas of life sciences will be discussed and explored. Students also will present seminars on their own work or on work in the current scientific literature. The latter is taken as part of the core of graduate-level courses in the primary or co-disciplines.

Course Restrictions
5700-level courses may not be used to satisfy molecular biology and biochemistry discipline-specific course requirements.

Dissertation
The dissertation abstract and proposal must be submitted to and approved by the supervisory committee prior to beginning the third academic year of study after enrollment in the Ph.D. program.
Retention in Program
For students with this discipline as their primary discipline, no more than one C grade in a core course or two C grades in any course, and no D or F grades, are permitted. A student who receives more than two C grades will be recommended for termination from the doctoral program. A student who receives a D or F grade will be dropped from the program.

The doctoral faculty in molecular biology and biochemistry meets formally at the end of each academic year to discuss and evaluate the progress of all graduate students. Each student’s committee also meets with the student at least once a year. After the annual doctoral faculty meeting, all students receive written evaluations of their status and a report is placed in each student’s file.

Requirements for Comprehensive Examinations
To become a Ph.D. candidate, the student must pass a comprehensive exam that may be taken on completion of essentially all of the coursework specified in the student’s study plan and on satisfactorily fulfilling the requirements for full admission. This must be done before the beginning of the third academic year after admission to UMKC with graduate student status, or (for part-time students) immediately after completion of 25 credit hours approved by the discipline-doctoral program at UMKC. This exam will be administered by the student’s supervisory committee and will test the student’s knowledge of background material, as well as the student’s ability to analyze and interpret information and solve problems.

Written Portion
The written examination for students who have molecular biology and biochemistry as their primary discipline consists of an NIH-style grant proposal that the student will prepare. The topic of the research proposal will be determined by the student in consultation with the student’s supervisory committee.

Oral Portion
The oral examination also has two aspects: (1) questions covering the grant proposal prepared by the student for the written examination and (2) other related material in the student’s area of specialization, including fundamental knowledge of the primary and secondary disciplines.

Music Education

Discipline Coordinator
Lindsey Williams, (816) 235-2354, williamslin@umkc.edu

Music Education faculty who are members of the doctoral faculty (http://sgs.umkc.edu/faculty/conservatory.asp#DeptandorPrimaryDisciplineMusicEducation).

Music Education is a discipline in the Interdisciplinary Ph.D. (p. 484) Program administered by the School of Graduate Studies.
