UMKC currently offers more than 50 graduate degrees at the master's, educational specialist and doctoral levels, in addition to more than 20 graduate certificate programs. Graduate students represent about 33 percent of the total campus enrollment. The graduate student population is diverse in ethnicity, gender and racial background. As an urban university, our programs strive to accommodate adult working students. Nearly two-thirds of all graduate students are enrolled part time and the average age is 35.

The Graduate Council, representing a cross section of campus graduate faculty, sets policy, establishes minimum graduate education standards, and monitors the quality of graduate education at UMKC. The graduate faculty in the various graduate degree programs may set standards more stringent than the minimums outlined in this catalog section, and in such cases, the program standards take precedence over the campuswide minimum regulations. The School of Graduate Studies is responsible for monitoring compliance to the campuswide minimum graduate academic regulations; providing leadership and coordination of all graduate programs; and serves as the academic home for students admitted to the Interdisciplinary Ph.D. program. Information on the Interdisciplinary Ph.D. program may be found in the School of Graduate Studies section of this catalog.

Graduate Admission Policies and Procedures

Graduate Admissions Policy (p. 455)

Graduate Study Application Procedure (p. 455)

Graduate Admissions Categories - Degree-Seeking Students (p. 456)

Graduate Admissions Categories - Non-degree Seeking Students (p. 456)

Graduate Post-Baccalaureate, Non-Graduate Student Classification (p. 457)

Graduate Admissions Policy

Graduate admission committees in each academic unit review applications and make recommendations for admission to the Dean of the School of Graduate Studies for final approval. Applicants must satisfy both the general campus requirements and the program-specific admission criteria for graduate study.

The general campus requirements for admission to graduate study in all UMKC graduate programs include:

1. A bachelor's or first-level professional degree from a regionally accredited institution. If the degree is from a non-U.S. college or university, the institution must be recognized and approved by the Ministry of Education or Commission responsible for higher education in the country where the degree is earned. The degree must at least be equivalent to a four-year U.S. bachelor's degree or first-level professional degree. The Registrar will vet and make a recommendation to Dean of School of Graduate Studies for approval.
2. A satisfactory academic record.

For program-specific requirements, applicants should consult the pertinent degree program listing in the UMKC catalog.

Many UMKC graduate degree programs require satisfactory scores from national examinations (e.g., Graduate Record Exam).

Graduate degree programs at UMKC have varying schedules for receiving, reviewing and acting on applications for admission. Applicants are directed to the program listings elsewhere in this catalog. This institution reserves the right to consider applicants for the most appropriate term.

Additional International Student Admission Policies

Proof of English Proficiency

International student applicants are required to establish proof of adequate English proficiency as part of the UMKC graduate admissions process. Applicants from countries in which English might be one of the official languages, but is not necessarily the first language of the majority of the population, must attain a minimum composite score on one of the following tests to be considered for admission:

- 213 (CBT) or 79 (iBT) on the Test of English as a Foreign Language (TOEFL),
- 6.0 on the International English Language Testing System (IELTS), with score of 5.5 in all bands
- 105 on the Duolingo English Test (DET)
- 1205 (paper) or 1200 (CBT) on the Global Test of English Communication (GTEC)
- 53 on the Pearson Test of English (PTE)

The results of the examination must be received by the UMKC International Student Affairs Office before the application deadline.

Required Academic Records for International Applicants

Applicants must provide complete and official certificates of all degrees, diplomas, mark sheets, grade reports and examination records. If documents are in another language, applicants must also provide a literal English translation.

International Applicants and Student Financial Statement

International students must present evidence of sufficient finances to cover their university and personal expenses while they are attending UMKC. A prescribed financial statement must be submitted with the other application materials. UMKC will not assume any financial responsibility for international students. Students seeking admission to the graduate level after an undergraduate program must submit a new financial support statement.

Graduate Study Application Procedure

In general, applications for admission to graduate study should be submitted online (<https://www.umkc.edu/apply/>). Prior to submitting application materials, applicants are strongly encouraged to review the campus minimum requirements, program-specific requirements, consult an advisor or program director from the program(s) of interest, and review requirements for graduate level tests, when applicable.

Admission to a degree program is subject to the recommendations of the graduate faculty in the degree program area and the dean of the academic unit in which the program is offered. Graduate admission decisions by the Dean of the School of Graduate Studies or designated representative are final.

Applicants must submit an official transcript from the school where their bachelor's degree(s) were obtained. Unless the transcript of the degree-granting institution includes the complete record of undergraduate work taken at all other schools, an official transcript from each of the other institutions also must be supplied. In addition, applicants must submit an official transcript from each school where other coursework has been taken or degrees have been obtained after the bachelor's degree. All credentials submitted in support of the application for admission become UMKC property and will not be returned to students, nor will UMKC release copies of such credentials to a third party.

The graduate degree programs at UMKC have varying schedules for receiving, reviewing, and acting on applications for admission. Before applying, applicants should contact the principal graduate advisor or program director for the chosen degree to determine program-specific deadlines. Lists of the names of the current principal graduate advisors and program directors are available, on request, from the School of Graduate Studies.

Graduate Admissions Categories - Degree-Seeking Students

The following six admissions categories are used for degree-seeking graduate students at UMKC:

1. **Regular Master's Degree Seeking - (Full Admit)** Degree-seeking graduate students admitted to a master's degree program without reservation.
2. **Conditional Master's Degree Seeking - (Provisional Graduate).** Degree-seeking graduate students admitted to a master's-level degree program who have not yet fulfilled all admissions requirements specified by the academic unit responsible for the degree program.
3. **Regular Educational-Specialist Degree Seeking - (Full Admit).** Degree-seeking graduate students admitted to an Educational-Specialist degree program in the School of Education without reservation.
4. **Conditional Educational-Specialist Degree Seeking - (Provisional Graduate).** Degree-seeking graduate students admitted to an Educational-Specialist degree program who have not yet fulfilled all admissions requirements specified by the School of Education.
5. **Regular Doctoral Degree Seeking - (Full Admit).** Degree-seeking graduate students admitted to a doctoral degree program (Ph.D. or D.M.A.) without reservation.
6. **Conditional Doctoral Degree Seeking - (Provisional Graduate).** Degree-seeking graduate students admitted to a Ph.D. or D.M.A. program who have not yet fulfilled all admission requirements specified by the academic unit responsible for the degree program.

Full admission of provisional graduate students to a degree program and appropriate reclassification are subject to students' removal of deficiencies and approval of satisfactory performance.

Admission to graduate study and to a particular degree program is no guarantee that students will be advanced to candidacy or granted a higher degree. All candidates are expected to perform at a consistently high level and to satisfy all the requirements for the degree. The final determination, as to whether or not students will be recommended for a graduate degree, is made by the graduate faculty in the fields concerned. The graduate faculty reserves the right to deal with exceptional cases on individual merit.

Degree-seeking graduate students who plan to change their field of study must reapply for admission and be regularly admitted to the desired graduate program in the new department or school.

Students admitted to any of the graduate classifications will be enrolled automatically for graduate credit in courses numbered 300 to 499 unless they indicate on their enrollment forms that they do not want graduate credit for the course or the instructor specifies the course may only be taken for undergraduate credit. Courses numbered 299 and below may not be taken for graduate credit, are not calculated in a student's graduate grade-point average and cannot be included as credit courses on a graduate student's program of study.

Graduate Admissions Categories - Non-degree Seeking Students

The following three admission categories are used for non-degree-seeking graduate students:

1. **Non-Regular Graduate - Continuing Education, Non-Degree-Seeking Student (Continuing Education):** Student taking courses for graduate credit through the Continuing Education. Admission to this category does not constitute regular admission to a graduate program at UMKC. However, on the recommendation of the advisor and approval by the graduate officer, a limited number of graduate credit courses (normally no more than six credit hours) may be applied to individual degree programs after students have been regularly admitted to do graduate study.
2. **Visiting Graduate Student - (Visiting):** Students who have been properly certified as graduate students at an accredited institution other than UMKC, and have permission to enroll in specific courses (including 5000-level courses) at UMKC. Note: Students who have previously been enrolled in a UMKC graduate program must have been in good academic standing at the end of their last UMKC graduate enrollment to take graduate courses as a visiting graduate student.
3. **Graduate Special Non-Degree Seeking - (Non-Degree Graduate Special):** This classification is used for three categories of students: (1) Community access, non-degree-seeking students wanting access to graduate level courses not available through continuing education; (2) Potential graduate applicants, not meeting requirements for conditional admission and wanting to take graduate-level courses in order to qualify for admission; and (3) Community access students applying to graduate certificate programs. The following restrictions apply to Non-Degree Graduate Special Classification graduate students: Students apply to the academic unit, if declared. If undeclared, students are admitted as undeclared non-degree seeking graduate students in the School of Graduate Studies.

All graduate admissions and academic regulation policies apply.

International students may not be issued I-20 forms for admission under a Non-Degree Graduate Special classification.

At the discretion of a department or area, the graduate-level courses completed within the past 7 years with a grade of B (3.0) or better while classified as a Non-Degree Graduate Special student may be applied toward a graduate degree in that department or area. Of the courses listed on a degree, no more than 12 semester credit hours may have been completed while enrolled as a Non-Degree Graduate Special student.

All non-degree-seeking graduate students (Continuing Education, Visiting, and Non-Degree Graduate Special) wishing to enter a degree program as a degree seeking student must apply for and be regularly admitted to the department or school from which they want to receive an advanced degree.

Students admitted to any of the graduate classifications (whether degree seeking or non-degree seeking) will be enrolled automatically for graduate credit in courses numbered 300 to 499 unless they indicate on their enrollment forms that they do not want graduate credit for the course or the instructor specifies the course may only be taken for undergraduate credit. Courses numbered 299 and below may not be taken for graduate credit, are not calculated in a student's graduate grade-point average and cannot be included as credit courses on a graduate student's program of study.

Graduate post-Bacclaureate, Non-Graduate Student Classification

Students who have earned a baccalaureate degree and who are seeking only additional undergraduate courses may be admitted under a post-baccalaureate (code 4-E) classification. Students in this classification are restricted to enrollment in courses numbered 499 and below and may not take any courses for graduate credit. Courses taken while classified as a code 4-E student may not be included for credit on a graduate degree program at a later date. Code 4-E students wanting to reclassify as graduate students for a future term must reapply and be regularly admitted to the graduate programs in which they want to seek advanced degrees.

General Graduate Academic Regulations

The minimum academic regulations and degree requirements for graduate study at UMKC, as outlined in the subsections that follow, have been determined by the UMKC graduate faculty through representation on the Graduate Council and the Committee of Graduate Officers, and apply to all graduate programs. Individual schools and departments may adopt additional and more stringent requirements for admission, retention and degrees that take priority over these minimum regulations. These additional requirements are detailed under the various fields of study in this catalog.

Academic Load Policies

Full-Time Academic Load Definition for Graduate Students

Graduate students enrolled in nine or more credits during a regular semester or five credits during a summer session are considered full-time students. All students registered for fewer than those specified totals are classified as part-time students, unless they hold an assistantship position at UMKC.

Full-time enrollment for students holding at least a .50 FTE graduate assistantship appointment is six hours in a regular semester or three hours in a summer session. GTAs/GRAs are expected to make normal progress toward their degrees and should enroll in a minimum of six hours per semester (three credits in the summer session). However, GTA/GRA appointees who have completed all required coursework for the degree and who are working full time on research need only enroll for one credit hour.

These designations of full time are for academic purposes only and do not apply to assessment of fees or degree program residency requirements. Note that this policy in no way alters the residency requirements and criteria for doctoral degrees. Further, international students holding GTA/GRA appointments also must abide by requirements of the U.S. Immigration Service and should consult the international student advisor before reducing their course loads.

Special Cases: Requests for GTA/GRA Appointments Greater than Half Time and Requests for Exemption from Social Security Withholding for GTAs/GRAs

GTA/GRA appointments are normally restricted to no more than 20 hours per week (.5 full-time employee). Requests for GTA/GRA appointments greater than .5 FTE must be submitted to the School of Graduate Studies prior to the beginning of the appointment and must be accompanied by a statement from the student's major advisor that the additional work load will neither place the student at risk academically nor impede the student's academic progress.

Graduate students holding GTA/GRA appointments are automatically exempt from Social Security withholding tax as long as they are enrolled in at least six credit hours. If the student's enrollment falls below six credit hours, the student's academic unit may certify his or her eligibility for continued exemption for one of the following two reasons:

- The GRA is a doctoral student working in a research laboratory as a component of the educational requirement and is enrolled in the minimum number of research hours required for doctoral students who have passed comprehensive examinations.

- The GTA or GRA is a graduate student enrolled in fewer than six credit hours because it is the student's exit semester.

Certification forms are available in the School of Graduate Studies office. The form requires signatures from the student's major advisor and the principal graduate advisor of the student's academic unit. After these individuals have signed the form, it must be sent to the School of Graduate Studies for recommendation. The School of Graduate Studies forwards the completed request to the Payroll Office for final action on the request.

Restricted Academic Loads

Limitation on the size of the academic load for which graduate students can register might be imposed by the dean or faculty advisor. Generally, students on probation are required to restrict the academic program to a minimum full-time load until they have returned to good standing.

Interpretation of Full-Time and Half-Time Status of Graduate Students for Purposes of Certification to Lending/Funding Agencies

To be eligible for certification of full-time status as a graduate student, a student must meet at least one of the following conditions:

- Enrollment in nine credit hours.
- Ph.D., D.M.A., D.N.P. and Ed.D. candidates who have passed their doctoral comprehensive examinations and are enrolled in at least one credit hour (not to exceed 10 semesters of certification under this category).

To be eligible for certification of half-time status as a graduate student, a student must be enrolled in at least five credit hours.

Special Cases and Limitations on Registrar's Certification to Lending/Funding Agencies:

- Ph.D. D.M.A., D.N.P. or Ed.D. students who have not taken and passed their doctoral comprehensive examinations and who do not meet one of the other enrollment qualifications for certification (e.g., student has completed most/all coursework, is completing pre-dissertation work, but has not yet taken and passed comprehensive exams) may petition the principal graduate advisor in their academic unit for special consideration. If, based on a review of the student's petition, the principal graduate advisor believes the student for full-time or half-time status, the principal graduate advisor may submit a request to the Registrar's Office.
- Work to satisfy an incomplete grade or grades from a previous term or terms does not count toward certification. Therefore, a class may be used only in status calculation for one term. Since the hours are used in status calculation during the original term of enrollment, that is the only term that the hours may be counted.
- Status may not be calculated nor certified for future terms.

Graduate Enrollment Policies

Graduate Course Addition Policy (p. 458)

Graduate Course Withdrawal Policy (p. 458)

Graduate Late/Retroactive Withdrawal Policy (p. 458)

Graduate Withdrawal for Financial Delinquency (p. 458)

Graduate Course Audit Policy (p. 459)

Graduate Continuous Enrollment Policy (p. 459)

Graduate Course Addition Policy

Students who want to enroll in an additional course may do so during the first week of the term provided they have the approval of the faculty advisor. Course additions or late enrollments after the first week of the term generally are not allowed. All changes in enrollment by graduate students must be initiated in the office of the principal graduate advisor or graduate officer of the respective unit and completed in the Registration and Records Office.

Graduate Course Withdrawal

Graduate students may withdraw from a course at any time prior to the first day of the final examination period, provided the permission of the faculty advisor has been obtained and notification to the instructor has been made. However, after the mid-term, students will be academically assessed. If failing at the time of withdrawal, students will be graded "WF" (withdrawn failing). *[Note: Individual academic units may have earlier deadlines for withdrawal.]*

Graduate Late/Retroactive Withdrawal

See Campus Late/Retroactive Withdrawal Policy (p. 494)

Graduate Withdrawal for Financial Delinquency

If students fail to fulfill financial obligations with the University after adequate notice, withdrawal from all courses during that term will result.

Graduate Course Audit

A student must be admitted to the university and obtain the consent of the instructor in order to audit a graduate course. Courses that ordinarily may not be audited are studio courses, performance courses, continuing education courses, laboratory courses in the sciences, internships, and practica. Students do not receive credit when auditing a course, and audited courses do not count toward enrollment status requirements (full-time, half-time).

A student registered in a course for audit is expected to attend class and to pay full tuition and fees. No feedback will be given by the instructor to the auditor. An auditor may be administratively withdrawn from a course at any time during the semester when, in the judgement of the instructor and upon approval by the dean, the attendance or participation record justifies such action.

Change from Audit to Credit

Graduate students may change status in a course from audit to credit during the first week of the term, provided they have the approval of the faculty advisor and have notified the course instructor.

Change from Credit to Audit

Graduate students may change status in a course from credit to audit any time prior to the final examination period, provided they have the consent of the course instructor and the approval of the faculty advisor. [Note: Individual academic units may have earlier deadlines and may have program-specific restrictions on retaking audited courses for credit.]

Graduate Continuous Enrollment Policy

Graduate Continuous Enrollment Requirement

After completing all courses included in the planned programs or plans of study for degrees, all degree-seeking graduate students must remain continuously enrolled in each regular semester up to and including the semester in which their degrees are awarded. This requirement applies also to the summer term for students whose degrees are being awarded at the end of a summer term. This continuous enrollment must be for a minimum of one-hour credit in research and thesis, research and dissertation, or other work designated by the department or school. Interruption of continuous registration due to failure to comply with this requirement will result in the need for readmission under requirements then in effect. Academic units may require retroactive enrollment as a condition of readmission.

Continuous Graduate Enrollment (5899)

Graduate students in good standing who have not enrolled for only one semester may re-enroll without applying for readmission. Students who attend other schools in the interim must submit transcripts of such work from each institution attended. Graduate students are considered inactive after a lapse of two or more regular semesters of enrollment. Subsequently, inactive graduate students who want to continue must follow the same admission procedures as those required for new applicants. After a lapse of three or more terms, graduate students will re-enter under requirements in effect at the time of readmission.

Graduate Course and Grading Policies

Graduate Course Designations (p. 459)

Graduate Credit for Continuing Education Courses (p. 460)

Graduate Course Restrictions for Undergraduates (p. 460)

Graduate Course Grading Policies (p. 461)

Graduate Course Designations

Course Designations

Courses numbered 5000 and above are generally open only to regularly admitted graduate students.

Courses numbered 5580 to 5589 generally are reserved for seminars, workshops, and special topics. Consult individual degree programs for possible restrictions on such offerings. The course numbers 5590 to 5598 usually are reserved for non-thesis research, directed studies, and readings. Courses numbered 5599 are restricted to research leading to a thesis. No more than 40 percent of courses numbered 5590 to 5599, or other courses which fall in the categories listed above for that course number range, may be applied to a graduate degree program of study, with the exception of the Interdisciplinary Ph.D. study.

Courses numbered 5695 to 5699 are restricted to research leading to a dissertation. Continuous Graduate Enrollment is numbered 5899.

Courses numbered 300 to 499 are upper division undergraduate courses. Graduate students who enroll in such courses have the option of designating them, at the time of enrollment, as "not for graduate credit." If the student chooses this option, the grade will not be included in the student's graduate grade-point average and the course may not be included on the graduate program/plan of study and will not count toward a graduate degree.

Courses numbered 300- or 400-level may be accepted for graduate credit, based on the following stipulations:

1. Supplementary work (e.g., additional readings, projects, papers and contact hours with the instructor) is assigned and appropriate assessment demonstrates graduate-level competency and achievement in the subject, as approved by the Graduate Council.
2. The course must be completed with a grade of B- (2.7) or better.
3. The total number of 300- to 400-level courses applied to the requirements for a graduate degree may not exceed 40 percent. For students in the PhD in Interdisciplinary Studies program, 300-400 level courses can comprise only 33 percent of the total number of courses on the approved Interdisciplinary Ph.D. plan of study.

Courses at the 100- and 200-level are not available for graduate credit and will not be applied toward the number of hours required for a graduate degree.

Graduate Credit for Continuing Education Courses

Graduate-credit courses are offered on an irregular basis at both off-campus and on-campus locations through non-credit and/or continuing education programs at UMKC, in conjunction with various instructional divisions.

Students may enroll in such courses and earn graduate credit without being regularly admitted to a graduate program. However, application of such credits toward a graduate degree can be determined only after students have been regularly admitted to graduate study. Such application depends upon the acceptance of students and the course by the School of Graduate Studies in consultation with the respective department or division offering the degree. Students must request that the School of Graduate Studies make a determination on whether these credits will satisfy the requirements of their particular educational goals and should make such determination before registering for the course.

Graduate Course Restrictions for Undergraduates

In addition to regularly admitted graduate students, seniors who meet the requirements below, and who have obtained the necessary approvals and received permission from the School of Graduate Studies may enroll in a limited number of courses numbered in the 5000 series and above, or may enroll in appropriate 300- and 400-level courses for graduate credit.

Minimum requirements

- Seniors within 12 credits of graduation who have a 3.0 GPA or better in their college work; or
- Seniors within 30 credits of graduation who have a 3.5 GPA in their college work.

To request permission to take a graduate-level course, the senior must:

1. Obtain a request to take graduate-level course form and an advising transcript from the Registrar's Office. (Forms also are available on-line at <http://sgs.umkc.edu/forms/>)
2. Fill out the request to take graduate-level course form, with all required signatures, and attach a copy of the advising transcript.
3. Submit the form to the School of Graduate Studies for final approval no later than four weeks before regular registration.

In all cases, eligible students may enroll in no more than six credits of graduate-level courses or courses for graduate credit through this procedure. In addition, first-semester seniors who enroll in graduate-level courses are limited to a total enrollment of no more than 15 hours for the semester. Graduate-level courses (5000 and above) are to be selected from those courses generally offered to first-semester or first-year graduate students. Courses such as special topics, individual studies and directed research designed for advanced graduate students are not eligible under these provisions.

Students may petition that the courses can be taken for graduate credit or undergraduate credit. Credit may be applied to requirements for a graduate or a bachelor's degree, but not both unless the course is part of an approved Bachelor's-Master's Dual Degree program or Bachelor's-Graduate Certificate program to which the student has already been admitted.

Requests by students who meet all the requirements stated above will be approved by the Dean of the School of Graduate Studies or designated representative. In exceptional cases, students who do not meet the requirements stated above may present a petition to the Dean of the School of Graduate Studies. Such petitions must be presented to the school no later than four weeks before the beginning of the term for which enrollment is sought.

Students who do not meet the above criteria but who register for a graduate-level course will be withdrawn administratively from the course. Fees paid for the course will be refunded.

Graduate Course Grading Grading System

The following is the +/- grading scale and grade-point system used at UMKC. This +/- grading scale and grade point system is used by all faculty, in all undergraduate, graduate, and professional programs.

Letter Grade	Description	Points per Semester Hour
A	The highest grade	4.0
A-		3.7
B+		3.3
B	Work of distinction	3.0
B-		2.7
C+		2.3
C	Average work	2.0
C-		1.7
D+		1.3
D	Passing, but unsatisfactory	1.0
D-		0.7
F	Failure without credit	0.0
NR	Not Reported	0.0
WF	Withdrew Failing	0.0
W	Withdrew; no academic assessment	-
I	Incomplete	-
AT	Audit	-
CR	Credit only	-
NC	No Credit	-
P	Passing	-
S	Satisfactory	-

In terms prior to and including 1985, any of the above grades may have been preceded by an R indicating a repeated course. These grades were not included in either total hours or the grade-point average. (Examples: RC, RD, RF.) Since 1985, all grades, including those in repeated courses, are included in the GPA calculation. Starting the 1993 Fall Semester, UMKC began using the plus/minus grading system for grades A, B, C and D. The grade of A+ is valid only for students in the School of Law.

Incomplete Grades

An instructor may give a grade of incomplete (I) to students who have been unable to complete the work of the course because of illness or other valid reasons beyond their control. Students who receive an incomplete must complete the required work within one calendar year to avoid an F (failure without credit). The instructor may specify a shorter completion period. A grade of incomplete is only appropriate when enough work in the course has been completed that the student can finish the remaining work without re-enrolling in the course in question, or by attending additional classes. In other instances, students should withdraw. ***Students cannot re-enroll in a course for which an incomplete remains on the record. Furthermore, graduate students cannot graduate with an incomplete on their record.***

This policy is exclusive of those courses which are considered directed individual studies, internships, special topics, practica, research and thesis, and research and dissertation courses. Because completion of such courses will quite often span several terms, incomplete grades assigned in such courses will not automatically lapse to an "F" grade after one calendar year, but will adhere to the completion period specified by the instructor.

Repeated Graduate-Credit Courses

Whenever students repeat a graduate-credit course, they must submit a course repeat form to the Office of the Registrar no later than the fourth week of the term. Students seeking graduate degrees are limited to repeating no more than 20 percent of the credits applicable toward a graduate degree. If approved by the school or department or Interdisciplinary Ph.D. supervisory committee, students may repeat a course once to improve the grade-point average or satisfy the program requirements. The second grade received will be used to calculate the grade-point average that will be used in satisfying degree requirements.

Graduate Requirements for Retention and Eligibility

Graduate Probation Policy (p. 462)

Graduate Ineligibility Policies (p. 462)

Graduate Probation Policy

Graduate students, regardless of classification, must maintain a 3.0 (B) grade-point average (GPA) in all coursework taken for graduate credit at UMKC and must meet any additional academic requirements imposed by the school, department or program. Students are responsible for keeping apprised of their academic status by referring to term grades and their permanent academic record on file in the UMKC Registration and Records Office.

Whenever the cumulative GPA for UMKC courses taken for graduate credit by a graduate student of any classification falls below 3.0, the student's status for the next term becomes: "On Probation - See principal graduate advisor." (Interdisciplinary Ph.D. students will be directed to consult their interim advisor or research advisor.) The principal graduate advisor, interim advisor or research advisor will review the student's progress and provide counsel, and the following conditions apply:

1. While on probation, a graduate student must achieve a 3.0 term GPA in order to enroll for the following term.
2. A graduate student on probation who is not restored to good academic standing by the end of two successive regular semesters following the term in which the cumulative GPA fell below 3.0 will be declared ineligible. See the Graduate Ineligibility Policy.
3. A graduate student on probation will not be restored to good standing until a cumulative graduate-credit GPA of at least 3.0 is achieved.

Graduate Ineligibility Policies

Ineligibility Following Academic Probation

In the case of ineligibility following academic probation (see Graduate Probation Policy), the graduate student may present a petition for re-enrollment to the principal graduate advisor of the student's academic program. Petitions will be reviewed by the graduate faculty member responsible for the student's degree program. That faculty member will make a written recommendation to the Dean of the School of Graduate Studies, who will approve or deny the petition. The approval or denial action may include:

- Approval for further graduate study in the student's current field of study and in the same classification but on a restricted probation basis (as defined in written remediation plan contract).
- Approval for further graduate study in the student's current field of study in a different student classification and on a restricted basis.
- Denial for further graduate study in the student's current field but approval for undergraduate study only.
- Denial for further study, either graduate or undergraduate, in the student's current field of study.

Ineligibility Due to Unsatisfactory Progress or Performance

When a department, school or program, irrespective of a student's grade-point average, considers a graduate student's performance to be unsatisfactory, that department, school, or program may recommend to the Dean of the School of Graduate Studies that the student be reclassified or declared ineligible for further study. The Dean of the School of Graduate Studies reviews the recommendation and conveys a decision to the student, respective faculty group, and academic unit Dean.

Students who have been declared ineligible due to unsatisfactory progress or performance may appeal such decisions to the Provost, as the Chief Academic Officer of the University. Such appeals must be made in writing within 14 consecutive days after receipt of the notification to the student of the decision.

The decision of the Provost, as the Chancellor's designated representative in such cases, is final and will be communicated in writing to the following:

1. The student
2. The Dean of the School of Graduate Studies
3. The graduate faculty review group(s)
4. The academic dean or director
5. The Registrar

Requirements for Graduation

Graduate Program of Study (p. 463)

Graduate Thesis / Dissertation Preparation and Approval (p. 463)

Graduate Thesis / Dissertation Embargo (p. 464)

Graduate Application for Graduation (p. 464)

Graduate Time Limit on Degree Credit for Master's and Educational Specialist Degrees (p. 464)

Graduate Program of Study

Graduate education is intended to answer the personal needs of students and the special needs of society not satisfied through undergraduate training. Graduate degrees indicate that the holders have sufficiently mastered a program in a particular field to pursue creative projects in that specialty. The degrees are awarded for completion of a coherent program – formalized as the program or plan of study – designed to assure the mastery of specified knowledge and skills. Forms for specifying individual programs or plans of study are available from the principal graduate advisor or graduate officer of the academic unit, with final approval by the Dean of the School of Graduate Studies.

Students may elect to fulfill either the degree requirements in effect at the time of their original admission (provided there has not been a lapse in attendance at UMKC of more than two consecutive terms) or the degree requirements in effect at the time of advisement into a planned graduate program of study.

No course at the 300- or 400-level taken on a credit/no credit basis; no 300- or 400-level course with a grade below B- (2.7); and no 5000-level or higher course with a grade below C (2.0), will count toward any advanced degree program. Additionally, 80 percent of the credits for the degree must be passed with a grade of B (3.0) or better.

Students admitted to the combined J.D./MBA program must receive grades of B or better in 80 percent of Bloch School courses. Because of different grading standards, the transferred law hours are not included in the 80 percent calculation.

Degree programs may have requirements which are more stringent. If so, the program requirement takes precedence over the campus minimums. Final GPA at the time the degree is conferred (graduate certificates, masters and PhD degrees) must be 3.0 or higher for courses completed on the plan of study. Exceptions to this policy require a petition signed by the student's advisor and the Dean of the School of Graduate Studies.

Doctoral Programs of Study

See Doctoral Degree Program Academic Regulations

Master's Degree Program of Study

See Master's Degree Program Academic Regulations

Thesis / Dissertation Preparation and Approval

Formatting Regulations

The School of Graduate Studies, guided by the Graduate Council, establishes the format regulations for theses and dissertations (T/Ds) at UMKC. Degree candidates must adhere to the formatting regulations outlined in the "University of Missouri-Kansas City Guide to Formatting Theses and Dissertations" which is available on the SGS website. Academic programs must have bibliographic reference format approved by, and on file with, the School of Graduate Studies. Any variances from the standards outlined in the "University of Missouri-Kansas City Guide to Formatting Theses and Dissertations" and discipline-approved bibliographic reference styles must be requested in writing and approved in advance by the Dean of the School of Graduate Studies. The Dean's approval must be included as an appendix to the T/D.

Supervisory Committee Review and Approval of T/Ds

Approval of the T/D begins with the degree candidate's supervisory committee. The candidate's supervisory committee shall ensure that the scholarly content and style of the T/D is in keeping with recognized standards of the chosen discipline(s). The T/D supervisory committee chair has the option of asking committee members to complete a Master's Pre-Oral Defense form or Doctoral Dissertation Pre-Oral Defense form to ensure the committee members feel the work is complete and ready for final defense by the candidate.

School of Graduate Studies Review and Certification of Acceptance of T/Ds

The deadline for submitting the T/D to the School of Graduate Studies for certification of acceptance is approximately six weeks before the end of the fall or spring semesters and four weeks before the end of the summer session. The dates can be found on the School of Graduate Studies (<https://sgs.umkc.edu/current-students/ready-to-graduate/>) web site. Prior to the published deadline for the term in which the degree candidates expect to graduate, they must present the following to the School of Graduate Studies office:

- Electronic copy of the T/D emailed to sgs@umkc.edu
- The signed Preliminary Approval of T/D by Supervisory Committee form, if required by the supervisory committee chair.
- MOSpace Non-Exclusive Distribution License

T/Ds normally will not be accepted for review for graduation during the current term unless they are received in the School of Graduate Studies by the published deadline.

All T/Ds must be reviewed by the SGS Thesis/Dissertation Formatting Specialist for conformity to the campus formatting standards and by the School of Graduate Studies Dean for quality of content. Candidates are required to make all necessary formatting corrections and resubmit the T/D to the School of Graduate Studies by the semester deadline.

After the T/D defense, the candidate must submit a corrected final draft electronically to sgs@umkc.edu, and the candidate's advisor should send the final evaluation forms from all committee members. The School of Graduate Studies Dean will review the thesis or dissertation for certification of acceptance. If the T/D has significant formatting problems, it will be returned to the candidate without further review or certification. The candidate will be required to make all necessary formatting corrections and resubmit the T/D to the School of Graduate Studies. If this happens, the candidate's graduation may be delayed. Enrollment in an additional term of continuous-graduate enrollment may be required.

Preliminary approval forms, Master's Thesis Preliminary and Final evaluation forms and Doctoral Dissertation Preliminary and Final evaluation forms are available from the School of Graduate Studies website.

The School of Graduate Studies will hold the certificate of acceptance until all appropriate revisions are made and rechecked by the formatting specialist. Upon final approval, SGS will provide the candidate with the certificate of acceptance and instructions for submitting the final copy to ProQuest.

Deposit of T/Ds with the Library

Upon submission to ProQuest, the T/D is transmitted to the University of Missouri system institutional repository, MOspace, where the document is made available via the world wide web. ProQuest will handle the copyrighting process for theses and dissertations, if desired by the candidate. Students will pay an archival copy fee when they upload the document, plus an additional fee if they choose to have ProQuest handle the copyright registration.

Thesis / Dissertation Embargo Policy

The School of Graduate Studies requires that all theses and dissertations be made publicly available upon degree conferral.

The School of Graduate Studies will consider requests for delay in public access to a dissertation for up to one year if:

1. The student (which may include partnerships with advisor/collaborators) is applying for a patent on research contained in the dissertation, and does not wish to make the contents public until the patent application has been filed.
2. Patentable rights in the work or other issues in which disclosure may be detrimental to the rights or interests of the author.
3. The need to prevent disclosure of any sponsor information about persons, institutions, technologies, and proprietary information that has restricted time frames.
4. The interest of an academic or commercial press in acquiring the rights to publish a dissertation or thesis as a book or composition.
5. Content that is likely to be or has already been submitted to a peer-reviewed journal.

For instances in which the full text of thesis or dissertation will be embargoed, the title and abstract will be made available after degree conferral.

Requests must be initiated by the student, and require the approval of the committee chair/co-chair, committee, and unit dean prior to review and approval by the Dean of the School of Graduate Studies. When appropriate, and with proper documentation, extensions of up to one year can be requested.

Application for Graduation

Students are required to file an application for graduation with the Registrar no later than the end of the fourth week of the semester in which the degree(s) will be completed. Students graduating at the end of the summer session must file an application for graduation no later than the end of the second week of the summer session. An approved program/plan of study must be on file with the registrar at the time the student makes the application to graduate. Filing an application for graduation initiates a degree check in the Registrar's Office. Any student found to be missing degree requirements, based on their program requirements and approved program/plan of study at the time of the degree check will be notified by the Registrar, and missing degree requirements must be completed before the student will be cleared for graduation.

The application for graduation places the student's name in the commencement program. Once the completion of degree requirements has been certified by the Registrar, the Registrar's Office will authorize the diploma order.

Commencement

Advanced degree candidates are urged to attend commencement. Students should arrange for rental or purchase of a cap and gown at the University Bookstore at least six weeks before the graduation date.

Time Limit on Degree Credit for Master's and Education Specialist Degrees

Credit over seven years old at the time of graduation, which is included on the master's or educational-specialist program of study and has not been applied to a previous degree, may not be counted toward the fulfillment of a graduate degree program unless validated to the satisfaction of the

department or school and the School of Graduate Studies. Petitions and affidavits for this purpose may be obtained from the School of Graduate Studies. A maximum of 30 percent of the student's program of study may be validated under this procedure.

In connection with an authorized leave of absence, an exception to the time limitation may be approved in advance.

International Graduate Student Academic Regulations

Graduate International Student Policies (p. 465)

Graduate International Student Instructor and Teaching Assistant Policy (p. 465)

Graduate International Student Policies

Registration with Student Advisor

Admitted international students must clear their attendance and register at the International Student Affairs Office (ISAO) prior to their first course registration at UMKC.

Health Insurance

International students are required to purchase UMKC mandatory, exclusive health insurance.

English Proficiency Requirements

Prior to their first enrollment in classes at UMKC, newly admitted international graduate students must register with the UMKC Applied Language Institute (ALI), and unless exempt by their academic unit, they must take the English Evaluation Examination.

Based on results of the English Evaluation Examination scores, students must enroll in and successfully complete the ALI courses indicated as necessary by the student's academic unit in consultation with the UMKC Applied Language Institute.

Prospective international graduate students should be aware that required coursework in English as a second language may add extra time to their individual graduate programs of study.

International graduate students exempted from this admissions policy include the following:

Native English speakers from English-speaking countries such as Canada, England, the Republic of Ireland, Australia and New Zealand.

Non-native English speakers who hold degrees or diplomas from post-secondary institutions in English-speaking countries (such as the United States, Canada, England, the Republic of Ireland, Australia and New Zealand), provided that they have spent a minimum of two years of successful full-time study and English was the medium of instruction.

Graduate International Student Instructor and Teaching Assistant Policy

Policy on Award of Teaching Assistantships

In 1986, the Missouri State Legislature and the University of Missouri Board of Curators adopted a policy which seeks to guarantee effective, high quality instruction for undergraduates. The state has mandated, and the Board of Curators fully supports the ruling, that graduate students who did not receive both their primary and secondary education in a nation or territory in which English is the primary language **may not** hold a teaching appointment during their first term of enrollment at any public institution of higher education in the state of Missouri. In addition, all such students shall be tested for their ability to communicate orally in English in a classroom setting and, those students who have not previously lived in the United States shall be given a cultural orientation to prepare them for teaching prior to receiving an appointment.

The first two requirements are dictated by the Missouri Revised Statutes, Section 170.012, (<http://www.moga.mo.gov/mostatutes/stathtml/17000000121.html>) and do not represent a change to the UMKC certification requirements:

- Students in the above category may not hold a GTA appointment during their first term of enrollment at UMKC.
- If students in this category have not previously lived in the United States, they must participate in a cultural orientation to prepare them for their teaching appointment.

Additional UMKC Certification Requirements

In addition to the requirements dictated by Missouri law, a graduate student from a nation or territory other than the U.S. must have satisfied each of the following standards in order to be certified to accept a GTA or GI appointment at UMKC. The only exceptions are for students who have earned a degree (undergraduate for which the last two years of education were completed in the U.S. or graduate) from a U.S. institution. Admission to UMKC does not guarantee a GTA or GI appointment; consistent with Missouri law, students must fulfill separate certification requirements in order to be eligible for GTA or GI positions. The UMKC certification requirements include:

1. Attain a qualifying TOEFL or equivalent* score:

- 24+ is eligible for certification assessment (generally an oral examination in the form of a mock lecture presented to a panel presentation).
- 22-23 requires a departmental petition in order to participate in the certification assessment.
- <22 requires an Applied Language Institute oral interview in order to determine eligibility for the certification assessment.

*** GRE TOEFL Speaking Equivalency:**

TOEFL	24	22-23	<22
GTEC (paper)	433-438	412-432	<412
GTEC (CBT)	306-310	281-305	<281
IELTS Speaking Band	7.5	7	<7
PTE	72	64-71	<64

Note. The Duolingo English Test does not have a TOEFL Speaking Equivalency score and cannot be used to satisfy the GTA certification testing requirement.

2. Attend the SGS GTA/GI Cultural Orientation.

3. Certification Assessment: Obtain a passing score on an oral examination of language comprehension, fluency, vocabulary, pronunciation, and grammar. This is generally a mock lecture presented to a panel of faculty and students.

Information about the UMKC certification requirements, including the dates for the cultural orientation and procedures for the certification assessment can be found on the SGS website: <https://sgs.umkc.edu/>.

Master's Degree Academic Regulations

The following general campus regulations pertain specifically to the master's degree. Master's students also should refer to Graduate Academic Regulations (p. 454) earlier in this catalog section for regulations common to all graduate degrees at UMKC and to specific degree program requirements in other sections of this catalog.

Master's Degree Advisor-Supervisory Committee (p. 466)

Master's Degree Qualifying Examination (p. 467)

Master's Degree Program of Study (p. 466)

Master's Degree Transfer Credit Policy (p. 467)

Master's Degree Final Master's Competency Examination (p. 466)

Master's Thesis Policies (p. 467)

Final Master's Competency Examination

The final master's competency examination, if required, will be written, oral, or both at the discretion of the program or academic unit, and will be passed no later than three weeks prior to the anticipated date of graduation. The student's supervisory committee chair will report the results of the final competency examination in writing to the candidate, the School of Graduate Studies, and file a copy with Registrar.

Master's Degree Advisory / Supervisory Committee

Upon admission to a master's program, the program or academic unit will assign the student an advisor who is a member of the graduate faculty. When research and a thesis are degree requirements or the student has selected a thesis option, the program or academic unit will appoint two additional faculty members to serve on the graduate student's supervisory committee. The chair and a majority of the members of a master's student supervisory committee must be full members of the graduate faculty.

Master's Degree Program of Study

In consultation with the advisor or the supervisory committee, the master's student plans a program of study in accordance with the minimum requirements outlined in the SGS Academic Regulations and the specific degree program requirements. Upon approval from the advisor and/or supervisory committee and unit graduate officer, programs of study should be approved by the Dean of the School of Graduate Studies and filed with the Registrar prior to the completion of 50% of applicable degree coursework.

Master's degree programs of study must include a minimum of 30 graduate credits. No more than 40 percent of the credits on the program may be 300- and 400-level courses. At least 60 percent of the credits must be at the 5000 level or higher. Further, up to six credits may be allowed for Research and Thesis (5599). Other demonstrations of skills considered by the department or school as comparable to the thesis may be accepted. No more than 40 percent of the courses applied toward a master's degree program of study may be in the categories of non-thesis research, directed studies, readings or research and thesis. Such courses normally fall in the 5500 to 5599 range, but the numerical designations may vary among academic units.

Plan of study forms are available from the program director or academic unit.

Program Changes

Subsequent changes in the program of study must be approved by the student's advisor and/or supervisory committee, the unit graduate officer, and Dean of the School of Graduate Studies, and be submitted to the Registrar. If cumulative changes in courses or degree requirements exceed four, a new program of study should be filed.

Master's Degree Qualifying Examination

Programs may require a qualifying examination. If required, the examination must be passed before a master's program/plan of study is filed with the Registrar. The department or school will notify students of the date, time, and format of the examination. Programs are required to maintain documentation of the student's examination results. With the approval of the advisor and the supervisory committee, if such exists, students may take the qualifying examination a second time.

Master's Degree Transfer Credit

A maximum of 20 percent of the graduate credit hours appearing on the program of study (rounded up) may be transferred from a recognized graduate school for a master's degree at UMKC. Such transfer credits must meet with approval of the student's supervisory committee and appropriate principal graduate advisor or graduate officer and be in accordance with all of the following criteria:

1. The coursework must be:

- Offered by a regionally accredited school.
- Applied toward a graduate degree at the host institution and taken for graduate credit.
- Approved by the appropriate graduate faculty.

2. A grade of B (3.0) or higher for 300- and 400-level courses and C (2.0) or higher for 5000-level courses or other courses restricted to graduate students only must have been earned. (CR or P will be accepted on receipt of a statement from the institution where credit was received of letter grade equivalent meeting grade standards as stated above).

Transfer credit may be allowed for correspondence courses, provided the credits meet the criteria outlined in 1 and 2 above. Transfer credit will not be accepted for research and thesis/dissertation hours (defined by UMKC), travel experience or work/life experience. Foreign university transfer credit must meet the above criteria as attested by the registrar.

A majority of the coursework applicable to any graduate degree at UMKC must be completed at UMKC. UM traveling scholar credits are not considered transfer credits. However, the sum total of credits from other UM campuses, and other transfer credits (not more than 20 percent of the total credits) cannot exceed 14 credits on a 30-credit master's degree program, or a proportional equivalent (approximately 46 percent) on programs exceeding 30 credits; and must be within the limits stated above.

A student who has been awarded a master's degree at UMKC or another regionally accredited graduate school may petition the faculty to apply up to six hours of graduate credit earned on the first degree toward meeting the requirements of a second master's degree. Credit, so approved, not from UMKC will be subject to all preceding transfer credit criteria.

After approval of the program of study, graduate credit may be earned at another institution only with prior approval of the Dean of the School of Graduate Studies. Forms to request such approval are available from the Registration and Records Office. A current catalog of the institution where the course is to be taken or an official catalog description of each course must be attached to the request form. The official transcript for such work must be forwarded to the Registration Office upon completion of the course.

Master's Thesis Policies

Thesis Definition

A thesis is a process that results in an original composition that involves quality work and creativity. This may include definition of goals or research questions, a review of the existing literature or background information, collection of data or information to present as results, and/or a discussion of results and findings, and citations. The research and final document should be of appropriate scholarly quality, as judged by the thesis committee.

Thesis Preparation and Approval

Please see the Graduate Thesis/Dissertation Preparation and Approval Process Policy. (p. 463)

Final Thesis Examination and Supervisory Committee Approval

The format and procedures of the final examination in defense of the thesis are determined by the supervisory committee and its chair. The defense of the thesis is approved when a majority of the supervisory committee members recommend approval and sign the Report of the Result of Final Master's Thesis Examination form.

Within 48 hours of the defense, the supervisory committee chair shall report the results of the final thesis examination in writing to the candidate.

Programs are required to submit the Final Thesis Evaluation Forms to the School of Graduate Studies. Forms are available from the School of Graduate Studies web site (<https://sgs.umkc.edu/current-students/ready-to-graduate/>). The School of Graduate Studies reports final approval of the thesis to the Registrar.

Deposit of Approved Thesis with Libraries

Please see the Graduate Thesis/Dissertation Preparation and Approval Process Policy.

Doctoral Degree Programs (Ed.D., Ph.D., D.M.A.)

Doctoral Advisor / Supervisory Committee (p. 468)

Doctoral Qualifying Examinations (p. 470)

Doctoral Programs of Study (p. 469)

Doctoral Transfer Credit Policy (p. 470)

Doctoral Residency Requirements (p. 470)

Doctoral Comprehensive Examination (p. 468)

Doctoral Program Time constraints (p. 470)

Doctoral Dissertation Policies (p. 469)

Doctoral Advisor / Supervisory Committee

Upon admission to a doctoral program, all students will be assigned a doctoral advisor who functions as a mentor and guides the student in the completion of degree requirements and scholarly work. A temporary advisor (e.g., program director) can be assigned initially in programs that assign doctoral (research) advisors after the completion of rotations or other developmental experiences. Normally, the doctoral advisor will serve as the dissertation committee chair, once the student reaches doctoral candidacy. The dissertation committee must be chaired by a member of the UMKC doctoral faculty. In some cases, following the procedures of the specific program, the doctoral advisor need not be the dissertation committee chair but must be, at a minimum, either a graduate faculty or adjunct graduate faculty member.

Ph.D., Ed.D., and D.M.A. student dissertation committees must have at least four members. The majority of the members must be doctoral faculty or regular graduate faculty members.

See the Interdisciplinary Ph.D. academic regulations (<https://catalog.umkc.edu/colleges-schools/graduate-studies/minimum-interdisciplinary-phd-academic-regulations-degree-requirements/>) for additional specifications for Interdisciplinary Ph.D. supervisory committees.

Doctoral Comprehensive Examinations

To advance to degree candidacy, doctoral students are required to pass a comprehensive examination. D.M.A. students may satisfy the comprehensive examination requirement during their final semester. For all other doctoral students, the comprehensive examination must be successfully completed at least seven months before the date of graduation:

- For graduation in May: Nov. 1.
- For graduation in July: Dec. 1.
- For graduation in December: May 1.

The following requirements must have been met before students can take the comprehensive examination(s):

1. Assignment of a supervisory committee, if required.
2. Successful completion of the qualifying examination, if required.
3. Filing and approval of the program of study and completion of the majority of coursework required for the degree.

4. If required by the academic unit, satisfactory demonstration of foreign language proficiency through accepted coursework or other evidence specified by the student's supervisory committee.
5. Completion of residency.

The comprehensive examination may be written, oral, or both. In consultation with the Dean of the School of Graduate Studies, programs determine if the exam is scheduled on demand or is set on a calendar basis. In most cases the examination committee is also the dissertation/supervisory committee; in other cases the dissertation committee is formed after successful completion of the comprehensive examination. If an oral examination is required as part of the comprehensive examination, all members of the examining committee are required to attend the entire exam. Synchronous modes of communication or committee substitutes are allowed if approved by the unit graduate officer, in consultation with the chair of the student's examining committee, when physical presence conflicts with a major commitment.

The examination will be arranged and supervised by the advisor or other department official. It will generally terminate within one month after it starts, but longer or shorter periods may be required in specific disciplines. Upon satisfactory completion of the examination, the student's advisor sends a report of the results of the examination, with the signatures of all members of the examining committee, to the School of Graduate Studies and the Registrar.

Programs are required to use objective scoring criteria (e.g., rubric) and establish criteria for passing/failing the exam provided to the students in advance. Program criteria should be on file with the School of Graduate Studies. If failure is reported, the examining committee will either recommend termination of status as a doctoral student or suggest additional work or other remedial measures. Furthermore, a student who has failed may not take a second examination for at least 12 weeks. Failure of a second comprehensive examination shall automatically preclude candidacy at this institution.

Doctoral Dissertation Policies

Dissertation Definition

A dissertation is a written coherent treatise culminating from original in-depth research, that is of publishable quality for a peer-refereed journal, and is a requirement of the highest academic degree, a Doctor of Philosophy. The work should move the field forward by making significant contributions to the existing body of knowledge. It may include statement of goals, an in-depth review and critical analysis of the existing literature and background information, a plan of research or methodology, collection and analysis of data to present as results, a discussion of the findings, and citations.

Doctoral Dissertation Requirement

All UMKC Ph.D. degrees and the Ed.D. degree require a dissertation as the final component of the program. The dissertation is also a requirement in some D.M.A. programs and an option in others. The doctoral faculty view the dissertation as one of the most important aspects of the student's experience because:

- It is a work of original research or scholarship that makes a contribution to existing knowledge.
- It is an educational experience that demonstrates the candidate's mastery of research methods and tools of the specialized fields.

It demonstrates the candidate's ability to address a major intellectual problem. For regulations pertaining to formatting the dissertation and the process for approval, the reader is directed to Thesis and Dissertation Preparation and Approval Policy.

Final Dissertation Examination

Final examinations in defense of the dissertation are generally open to all members of the public. The format and procedures of the defense are determined by the program and communicated to the student prior to the defense. The date, time, and location must be announced and published at least two weeks before each final examination takes place. This examination may be conducted only after the dissertation has been approved by the Dean of the School of Graduate Studies. The student and all members of the dissertation committee, or substitutes approved in consultation with the chair of the committee by graduate officers in the academic units where the degree or primary discipline resides, are required to attend the entire examination. Synchronous electronic modes of communication are allowed for both the student and committee members when physical presence conflicts with a major commitment upon approval of the unit graduate officer.

The defense of the dissertation is approved when a majority of the supervisory committee recommends approval and signs the Report of the Result of Final Doctoral Examination form. Within 48 hours of the defense, the supervisory committee chair will report the results of the final dissertation examination in writing to the candidate and the School of Graduate Studies.

Students are required to submit the Report of Results of Final Dissertation Examination for PhD Candidates to the School of Graduate Studies with the final dissertation document. Forms are available from the School of Graduate Studies website (<https://sgs.umkc.edu/current-students/ready-to-graduate/>). The School of Graduate Studies reports final approval of the dissertation to the Registrar.

Doctoral Program of Study

Students should plan their programs of study in consultation with their advisors and supervisory committees (if applicable). Upon approval from the advisor and/or supervisory committee and unit graduate officer, programs of study should be approved by the Dean of the School of Graduate Studies.

and filed with the Registrar prior to the completion of 50% of applicable degree coursework. (Interdisciplinary Ph.D. students must file their proposed plans of study and form their supervisory committees within 24 months of being admitted).

No more than 40 percent of the program may be 300- and 400-level courses.

Subsequent changes in the program of study must be approved by the student's advisor and/or supervisory committee, the unit graduate officer, and Dean of the School of Graduate Studies, and be submitted to the Registrar. If cumulative changes in courses or degree requirements exceed four, a new program of study should be filed.

Forms for specifying individual programs of study are available from the principal graduate advisor or graduate officer of each academic unit.

Doctoral Program Time Constraints

The doctoral student must take and pass the doctoral comprehensive examination and advance to candidacy within five years from the beginning of doctoral coursework. After the establishment of degree candidacy, a maximum of five years will be allowed for completion of degree requirements. Failure to complete the work within the five years will necessitate re-evaluation of the entire program and may result in a notice of termination. In compelling circumstances and on the written recommendation of the student's program, the Dean of the School of Graduate Studies may grant a one-year extension. Some academic units may impose more stringent time requirements.

Doctoral Qualifying Examinations

The qualifying examination, if required, will be given before the doctoral program of study is filed with the Registrar. At the discretion of the program or unit, a master's degree from UMKC in the area of intended specialization may be considered as a substitute for the qualifying examination. The results of the qualifying examination will be reported to the School of Graduate Studies and the Registrar. With approval of the advisor, students may take the qualifying examination a second time.

Doctoral Residency Requirements

Interdisciplinary Ph.D. Students

Interdisciplinary Ph.D. students must satisfy the doctoral residency requirement by satisfactory completion of at least 18 credits in no more than 24 consecutive months following the approved Plan of Study. When satisfying the residency requirement, all Interdisciplinary Ph.D. students are subject to the following restrictions:

- The doctoral residency requirement must be satisfied no later than the end of the semester in which the student completes his or her comprehensive examinations.
- Students must achieve a cumulative graduate grade-point average of at least 3.0 in all courses counted toward satisfying the residency requirement.
- Dissertation research credits (5696 to 5699) may not be counted toward satisfying the doctoral residency requirement

Ph.D. and Ed.D. Students

The residency requirement for the PhD and Ed.D. student may be satisfied using the same guidelines stipulated for Interdisciplinary Ph.D. students, or in any one of the following alternate ways:

- Two consecutive semesters of 12 credits each term of resident coursework at UMKC.
- Three terms of eight credits each term of resident coursework at UMKC, to be completed within 18 months.
- Two consecutive semesters of nine credits each term of resident coursework at UMKC while employed at least half time for the University in teaching or research.

D.M.A. Students

The residency requirement for the D.M.A. may be satisfied in any one of the following ways:

- Two consecutive semesters with a minimum of nine credits each.
- One semester with a minimum of nine credits and two summer sessions with a minimum of five credits each, provided that the full-time semester is adjacent to one of the summer sessions. It is expected that the summer sessions be consecutive.
- Completion of 24 credits within 18 consecutive months.

Doctoral Transfer Credit

Graduate credit, offered by a regionally accredited school, earned before entering a UMKC doctoral program may be applied to the doctoral degree if it is of acceptable quality and appropriate to the student's program of study as determined by the student's academic unit and supervisory committee. The total amount of graduate credit earned from all other academic institutions before admission to a UMKC doctoral program and applied to the

doctoral degree cannot exceed half the number of credit hours, exclusive of dissertation research credits, required for the degree. For graduate coursework completed at UMKC prior to admission to a doctoral program, any number of credit hours required for the doctoral degree, exclusive of dissertation research, can be satisfied using previous UMKC graduate credit if approved by the student's academic unit and supervisory committee. All graduate coursework, completed prior to admission and not used to earn the master's degree or educational-specialist degree, must be no more than seven years old at the time the doctoral program of study is approved.

After admission to the doctoral program, if a student wishes to take graduate coursework at another institution and apply it to their doctoral program, the student must receive written approval from the doctoral program's graduate officer and from the student's supervisory committee chair, as appropriate, before the coursework is taken. Such coursework is not considered as transfer credit. Upon completion of the coursework, the student must have the official transcript forwarded to the UMKC registrar.

Dual Degree Programs at the Master's Level and Bachelors + Master's or Graduate Certificate Level

Dual-degree programs allow students to simultaneously pursue degrees at the master's level in two fields of study or a Bachelor's plus either a Master's or Graduate degree. For dual Masters degrees, students must complete at least 80 percent (rounded up) of the credit hours required for each degree separately. Students must satisfy admission, course and examination requirements of both degree programs.

For dual Bachelors plus Master's or Graduate Certificate programs, a maximum of 9 credit hours from the Bachelor's degree program may be applied toward the Master's degree, depending on what the department or home degree program has approved. The hours and grades earned on these credits will be applied toward the Bachelor's degree. The number of dual hours will also be credited toward the total hours needed for the Master's degree without the grades being computed into the GPA.

Graduate Foreign Language Proficiency

Upon approval of one's program, degree-seeking graduate students whose degree program requires foreign language proficiency may take the courses numbered 120, 211 or 221 (Elementary Level II, Second Year Level I or Second Year Level II) in one foreign language to fulfill the requirement. The degree program will determine what grade will be accepted to fulfill the degree requirement.

Students who already have the required level of proficiency, but no documented means of showing it, may choose to take the final exam associated with the appropriate class level to fulfill their degree program's language requirement (course number 120, 211 or 221). After taking the exam, a letter stating the student's results will be sent to the graduate advisor of the student's degree program. Exams are coordinated in the College of Arts and Sciences Department of Foreign Languages and Literatures.

Graduate Exceptions Policy

Campus-wide Exceptions

Petitions for an exception to a campus-wide graduate academic regulation must originate with the student. It must be processed through the graduate officer and dean or program director in charge of the student's graduate degree program and forwarded to the Dean of the School of Graduate Studies. Only the dean, or the designated representative, are authorized to grant an exception to the graduate academic regulations applying to all graduate students. Petitions must be in writing and include (1) the reason for requesting the exception and a detailed justification from the student; (2) recommendation for action by the appropriate graduate officer; (3) recommendation for action by the department or division chair (if applicable); and (4) recommendation for action by the appropriate dean or program director. The Dean of the School of Graduate Studies or designated representative will review the petition and related documentation and render a decision which will be communicated in writing to the academic dean or director, the graduate officer, the student and the Registrar.

Program-Specific Exceptions

Petitions for exception to a program-specific academic regulation are handled within the academic unit's degree program. A graduate student who has petitioned for an exception to a program-specific academic regulation and whose petition has been denied may appeal the decision to the Dean of the School of Graduate Studies if all other remedies open to the appellant have been exhausted at the department and college, school or program level. Appeals to the Dean of the School of Graduate Studies must be made in writing within 14 consecutive days from the date the student received the written notice of the petition decision. The dean of the School of Graduate Studies will investigate the case and take appropriate action in a timely manner. The decision of the graduate dean, as the chancellor's designated representative, is final and will be communicated in writing to the student, the graduate officer, the academic dean or director and the registrar.

Cooperative Doctoral Degrees

Through the UM cooperative doctoral program, graduate faculty members who hold membership in the doctoral faculty of the University of Missouri are eligible to serve as directors of doctoral dissertations on their resident campus, as well as on any of the other three campuses offering a doctoral degree in the doctoral-faculty member's academic field. Students who want to pursue doctoral degree programs in conjunction with one of the other three campuses of the University of Missouri may do so in accordance with the guidelines listed below. The registrars at University of Missouri-

Columbia (MU), Missouri University of Science and Technology S&T, or University of Missouri-St. Louis (UMSL) can provide information on admission procedures for the doctoral programs on their respective campuses.

In the following guidelines, the terms primary campus, graduate school or dean refer to that granting the degree.

- Students must be accepted by the department or area granting the degree and must comply with all the rules of the primary graduate school and discipline/area regulations.
- The dissertation advisor must be a member of the doctoral faculty of the University.
- Advisory/supervisory committees, comprehensive committees and oral committees, as required, will be appointed by the primary graduate dean in consultation with the graduate dean on the participating campus, drawing on faculty on both the cooperating and primary campus:
 - a. The makeup of each committee normally will be recommended by the major advisor with the approval of the appropriate director of graduate studies/department chair/divisional dean as per normal campus procedures.
 - b. In cases where students are on a cooperating campus:
 - i. The advisor/supervisory committee chair may or may not be on the same campus. If that person is on the cooperating campus, at least three of the five members of the committee will be from the primary campus.
 - ii. Students must complete the residency requirement on the primary campus. Exceptions to this ruling must be justified fully with emphasis on quality and cost considerations and must have the approval of the primary graduate dean.
- Selection of the cooperating departments and preparation of a program must be completed at the earliest possible moment and communicated via the primary graduate dean to the participants involved. Both graduate deans will maintain program files relative to students. Respective graduate deans are responsible for the quality of that portion of the cooperative program that is performed on their campus and under the jurisdiction of their faculty.
- Reporting of the degree shall be the responsibility of the primary campus. The cooperating campus shall be given credit in terms of student credit hours and/or dissertation credits for the work completed on that campus and shall provide suitable recognition of dissertation advisors and the committee members.

Federally Supported Sources of Financial Aid

Graduate students who are U.S. citizens or permanent residents and who are enrolled at least half-time, with financial need demonstrated via the FFS analysis, may be considered for aid through the College Work Study Program. They also may apply for a Perkins Loan (formerly NDSL) or a Guaranteed Student Loan. Additional information on these programs is available from the

UMKC Financial Aid and Scholarships Office

Administrative Center (<http://www.umkc.edu/virtualtour/administrative-center.asp>), Room 116

5115 Oak Street

Kansas City, MO 64110-2499

Staff members are available for information, inquiries and assistance with applications from 8 a.m. to 5 p.m. weekdays.

Graduate Teaching and Research Assistantships

Expectations for Graduate Research and Teaching Assistants

Graduate Research Assistants (GRAs) may receive a stipend and/or credit waiver for fulfillment of a certain number of hours assisting with research. Graduate Teaching Assistants (GTAs) may receive a stipend and/or credit waiver for fulfillment of a certain number of hours spent assisting faculty in the preparation and teaching of courses. GRAs and GTAs have different roles, as their name suggests, however sometimes these roles overlap within a department.

Both GRAs and GTAs should have a formal contract through the department that stipulates their full-time equivalent (FTE) status, and their expected weekly hours of work. An FTE of .25 indicates an expected 10 hours of work per week, while an FTE of .50 indicates an expected 20 hours of work per week.

Graduate faculty should be careful to respect the FTE appointments of their graduate students and be sensitive to the imbalance of power inherent in the advisor-advisee relationship. The employment time of GRAs and GTAs should be spent on work for the department or institution, not personal work for graduate faculty (e.g., grocery shopping, mowing lawns, babysitting).

Training

Depending on the department or the graduate student's role, various training sessions or online modules may be required. These could include training in the following areas: Family Educational Rights and Privacy Act (FERPA (<https://www.umkc.edu/registrar/records/ferpa-staff.asp>)), Institutional

Review Board (IRB ([http://ors.umkc.edu/research-compliance-\(iacuc-ibc-irb-rsc\)/institutional-review-board-\(irb\)/](http://ors.umkc.edu/research-compliance-(iacuc-ibc-irb-rsc)/institutional-review-board-(irb)/))), Discrimination Prevention and Title IX (https://www.umsystem.edu/ums/hr/ec_training/), Responsible Conduct in Research (RCR (<http://ors.umkc.edu/office-of-research-services/research-advisory-council/responsible-conduct-in-research/>)), International GTA Certification (<https://catalog.umkc.edu/general-graduate-academic-regulations-information/international-graduate-student-academic-regulations/>), and others, including discipline-specific expectations. Consult with your department and with the School of Graduate Studies to ensure these training requirements are met.

Institutionally Supported Fellowship and Award Competitions

The School of Graduate Studies administers a number of annual competitions for graduate fellowships and research grants. Fellowship stipends vary. Some include remission of portions of the graduate education fees, if applicable. Detailed information is available from the School of Graduate Studies office and website: <https://sgs.umkc.edu/current-students/grants-and-awards/>. Application deadlines, eligibility and selection criteria, and the application forms are posted on the School of Graduate Studies website.

University of Missouri (UM) System Visiting Graduate Student Program

Effective Fall 2011, the UM Visiting Graduate Student Program replaces the UM Traveling Scholars Program. The UM Visiting Graduate Student Program offers eligible graduate students a streamlined process for applying and registering for graduate courses on other UM campuses.

To participate in the UM System Visiting Graduate Student Program, a graduate student must be a degree-seeking graduate student and in good-standing on the home campus and host campus.

To apply for this program, a "UM System Visiting Graduate Student Application" should be completed and submitted to the home campus Graduate office for certification, at least two weeks before the beginning of the semester. The graduate student's home campus Graduate office will review the form; if approved, the home campus Graduate office will transmit the approved form to the host campus Graduate office. The host campus will notify the student when they are eligible to register for courses.

All course fees are paid to the host campus. Graduate students should contact their home campus Financial Aid office for more information on financial aid. International (non-U.S. citizen) students should consult the International student office on their home campus to determine eligibility for this program.

The graduate student's home campus determines transferability and the maximum number of transfer hours allowed for courses taken as a UM Visiting Graduate student. To officially transfer courses from the host campus to the home campus, students must order an official transcript from the host campus and comply with the home campus's transfer policies and processes.

For additional questions contact the School of Graduate Studies Office.

UNDERGRADUATE ACADEMIC REGULATIONS AND INFORMATION

The Registration & Records Office (Web site <http://www.umkc.edu/registrar> (<http://www.umkc.edu/registrar/>)) maintains all official academic student records. Additional responsibilities of this office include scheduling of classrooms, certifying student academic information, evaluating domestic transfer work, and reporting enrollment statistics to state and federal agencies. The Registration & Records Office, in cooperation with the academic units on campus, assumes the responsibility for monitoring and enforcing academic policies and regulations.

This section contains information on the general UMKC academic policies that apply to all undergraduate students. The departments of the academic units may have more specific rules and requirements. Students are required to learn and abide by the policies of their academic unit in addition to the general policies.

Academic Calendar

The University operates on the semester system with the academic year divided into fall, spring and summer semesters which are also called terms.

Fall semesters are 16 weeks long and start in August and end in December. Spring semesters are 16 weeks long and begin in January and end in May.

The 16 week semester is inclusive of the final exams week. Summer terms are 8 weeks long during the months of June and July.

Sessions are scheduled within a semester/term and may have durations other than 16 or 8 weeks. Courses are occasionally offered during the periods between semesters/terms in January, May, and August. These periods are called intersessions.

Professional and graduate programs may adhere to different academic calendars with the permission of the Provost.

Please refer to <http://www.umkc.edu/registrar/acal.asp> for the most up-to-date academic calendar.

Academic Credit Hour Equivalencies Policy

These equivalencies represent minimum requirements.

One academic credit hour delivered in the traditional didactic teaching/learning approach is equivalent to three hours of student work per week (1 hour of classroom or direct faculty instruction and a minimum of two hours out of class student homework – Carnegie Unit), typically delivered over a 15 week academic semester. One academic credit hour of classroom or direct faculty instruction is equivalent to 50 minutes of clock time, over 15 weeks of instruction (excluding the final examination period), for a total of 750 minutes of direct faculty instruction over the semester. A 1 credit didactic,

lecture class must meet 750 minutes during the semester, excluding the final examination period. Therefore, a 3 credit hour didactic, lecture class must meet 2250 minutes during the 15 weeks of instruction in a typical semester, excluding the final examination period.

One academic credit hour for a laboratory class is equivalent to two scheduled hours of laboratory experience per week (total minimum of 100 minutes), typically delivered over a 15 week academic semester. One academic credit hour for a laboratory class shall consist of one thousand five hundred (1,500) minutes of learning experience in the laboratory. Where a course includes arranged hours, these generally take the place of the hours assigned to homework.

However, there are additional teaching/learning approaches that include, for example, clinical experiences, studio experiences, field studies, individual lessons, recitation/discussion that may follow a modification of the equivalencies for credit hour assignment. Those equivalency models are approved by each academic unit (school/college) dean. At least an equivalent amount of work in the traditional didactic teaching/learning approach is required for these additional types of academic learning activities.

For independent studies, practicum experiences, internships and directed readings academic credit is determined by standards and requirements established in each academic unit (school/college) that is dependent on the discipline/field of study, scope of the planned educational experience(s) and the academic experience and preparation of the student(s). Minimally, these learning experiences follow the model of requiring the student to work in the placement or devote focused study for 3 hours per week, for 15 weeks during the typical semester, to earn one academic credit hour.

This translates to an estimated 45-60 hours of experience per semester for one academic credit hour. If a consistent academic equivalency is not established by the academic unit (school/college) for these types of teaching/learning experiences, an individual written agreement must be developed for each individual student experience. This written agreement will outline the scope of the work to be achieved, learning objectives/outcomes and the academic assessment standard to be applied. This written agreement must be approved by the respective chair/program director and dean. The respective dean's office will be responsible for retaining the appropriate documentation.

Any equivalencies below these minimum equivalencies must be submitted in writing for review and approval by the Provost.

Academic Loads, Full- and Part-Time Status

Full-Time Load

The optimal full-time course load for an undergraduate student is 15 credit hours. An undergraduate student who takes 15 credit hours each semester will be on track to complete their degree in 4 years. (120 credits / 4 years = 30 credits a year). The minimum enrollment required for full-time status is 12 credit hours of coursework. For Summer sessions, six or more hours constitute full-time enrollment. The designation of full-time load is for academic purposes only and does not apply to assessment of fees.

Overloads

Undergraduate registration in more than 17 semester hours must be approved by the academic unit. For Summer sessions, approval is required for programs of 9 or more semester hours.

Restricted Loads

Limitations on the size of academic load for which students register may be imposed by the dean or faculty advisor. Students on probation generally are required to restrict their academic programs to a minimal full-time load until they have returned to good standing.

Financial Aid - Summer Term - Academic Load Requirements

Undergraduate degree seeking students who are enrolled in the summer term are required to be enrolled in a minimum of 6 hours in order to be considered half-time for loan eligibility in the Financial Aid & Scholarships Office and for loan deferment reporting to the National Student Clearinghouse.

Academic Standing

- Academic Amnesty (p. 475)
- Academic Probation and Ineligibility (p. 476)
- Deans List (p. 476)

Academic Amnesty

The University of Missouri#Kansas City has an amnesty policy to enable those students who did not perform adequately during their enrollment within the University of Missouri System (UM System) to be given a second chance to pursue their academic goals. The policy is as follows:

Students who are transferring or returning to the University of Missouri – Kansas City to pursue a degree after an extended absence from all UM System schools (University of Missouri – Kansas City, Missouri S&T, University of Missouri#Columbia, and University of Missouri – St. Louis) may request permission to remove one or more of their complete academic terms for future degree and GPA

considerations.

A student may apply for amnesty if either of the following requirements are met:

1. Has not been enrolled at UMKC or any other UM System School at any time during the past two years and has documented evidence of circumstances beyond their control that led to poor performance;
2. Has not been enrolled at UMKC or any other UM System School for at least four years.

Students must apply for amnesty at the time of the application for readmission or before the end of the first semester of readmission, if already readmitted.

Amnesty will be implemented as follows:

- Students must meet the specified conditions of successfully (2.5 GPA#UG/3.0 GPA#GRAD) completing 12 hours (6 hours for grad) within the first year of readmission before amnesty will be applied. Please note that academic units may require a higher GPA than the amnesty minimum.
- Grades for ALL courses taken in the period of time for which amnesty is requested will be removed from the grade point average if the request is approved. The student may not choose specific courses within a term or period.
- The original UM System grade will remain on the student's UMKC transcript, and will be marked by an "X" preceding the grade. For plus/minus grades, the plus or minus will be dropped and the base grade will be used. For example, grades of A, B+, B, B#...F would be changed to XA, XB, ...XF. These hours and grades will remain on the transcript, but will not count toward cumulative hours nor GPA, nor can they be used to fulfill any degree requirements, regardless of the original grade.
- UMKC Academic Amnesty actions will not alter or be recorded on the student's academic record or impact GPA calculations of the originating UM System School since this is a campus#based policy and varies by UM System School. However, UMKC's Academic Amnesty policy may be applied to terms completed at any UM System school contributing to the UMKC calculation of system#wide cumulative GPA.
- A statement "Grades granted amnesty by faculty committee action" (or similar) will follow the last course on terms granted amnesty.
- Students can receive amnesty at UMKC only one time (for one or multiple terms recorded by any UM System School) in their lifetime.

Academic Probation and Ineligibility

Undergraduate degree-seeking students' academic status is assessed at the end of every term, whether the student is full-time or part-time for that term. A summer session is considered the same as a semester for the purpose of the following regulations:

1. In general, students will be placed on academic probation whenever their official UM grade-point average falls below 2.0 (C average). Some academic units may have a higher grade-point average requirement. First time college freshman admitted to UMKC on the basis of high school records, who have grade-point averages between 1.50 and 1.99 at the end of the first semester of either full- or part-time study will be placed on academic warning. Students on academic warning must achieve an overall 2.0 average by the end of their second semester or be placed on regular probation. After that, they would be subject to the regular probation requirements.
2. Students on academic probation will be restored to good standing whenever the UM grade-point average reaches 2.0 or the GPA level established by their academic units.
3. Students on academic probation must maintain the grade-point average required by their academic units during each subsequent semester or summer session while they are on probation. Otherwise they are ineligible to re-enroll without the approval of the academic units.
4. Students on academic probation must remove themselves from probation within three successive semesters (including the semester in which they originally were placed on probation). Otherwise they are ineligible to re-enroll without the approval of the academic units.
5. Students are responsible for knowing their academic status by referring to Pathway and their permanent transcript.

Deans List

The Dean's List is a unit-based student-centric recognition of excellent academic performance. Students must complete a minimum full-time program of 12 graded hours to qualify for the dean's list. The credit/no credit option may not be used as part of the 12 graded hours. The permanent academic records for qualifying students are annotated to reflect this distinction. Official semester grades indicate students who are candidates for the Dean's List.

Criteria for determining the GPA required for a student to be included on their unit Dean's List will be determined by the unit Dean. The specific criteria will be published in the unit undergraduate catalog.

Dean's List criteria will be reviewed annually by each academic unit (College/School) and changes in requirements will be submitted in writing to the Registrar by February 1 each year for inclusion in the next academic catalog.

ALEKS Math Placement

In order to qualify to take MATH 110, MATH 120, MATH 125, MATH 206, MATH 210, MATH 216, or STAT 235 at the University of Missouri-Kansas City, students must have one of the following:

- a minimum ALEKS Math Placement (<http://www.umkc.edu/mathplacement/prerequisite.cfm>) score (see <http://www.umkc.edu/mathplacement/prerequisite.cfm>)
- credit for the prerequisite course taken at UMKC, or credit for a course transferred to UMKC as equivalent to the prerequisite course; in either case, a sufficiently high grade must have been obtained in the prerequisite (see the catalog descriptions for each course for specific prerequisite requirements).
- AP/IB credit for a prerequisite course

Note: Courses offered outside the Department of Mathematics and Statistics do not fall under the above guidelines. Check with the appropriate department for prerequisite requirements for those courses.

About ALEKS:

ALEKS is an artificial-intelligence based assessment tool that measures strengths and weaknesses of a student's mathematical knowledge, reports its findings to the student, and if necessary provides the student with a learning environment to help bring this knowledge up to an appropriate level for course placement.

The University of Missouri-Kansas City requires an ALEKS mathematics placement assessment to determine readiness for various courses. The ALEKS Placement Assessment covers material from Basic Math through Precalculus and will take approximately 90 minutes to complete. You will login to take the assessment online through the following link: <http://www.umkc.edu/mathplacement/takeALEKS.cfm>. There is a \$22.50 fee that will be charged to your account upon taking the assessment.

You will be given up to **5 attempts to take the ALEKS assessment**, and will also be provided with a Prep and Learning Module that will allow you to review and practice your math skills upon completing the assessment. If you require access to the ALEKS assessment after your initial subscription has expired, you will have to purchase additional access.

For more information about ALEKS, please visit the following website: <http://www.umkc.edu/mathplacement/default.cfm>

Attendance Policy

- Students are expected to attend and participate in classes.
- In order to comply with federal regulations associated with eligibility rules for federal financial aid, students not attending a course during the first three weeks of the term will be administratively dropped from the specific course.
- Advance notice of attendance policies of academic units and individual instructors should be given, and such notice should be in writing.
- Students should notify instructors of excused absences in advance, where possible.
- Students who have an excused absence are expected to make arrangements with instructors for alternative or make-up work. Such arrangements should be made in advance of the absence, where possible.
- Instructors should accommodate excused absences to the extent that an accommodation can be made that does not unreasonably interfere with the learning objectives of the course or unduly burden the instructor.
- Attendance policies shall be applied in a non-discriminatory manner.
- Enrollment as a student is required to attend any class unless otherwise pre-approved by the instructor.
- Instructors are responsible for verifying the class roster in Pathway throughout the term.

Each academic unit and instructor may adopt an attendance policy appropriate to that unit, a particular field of study, or for a specific course. Such policy or policies must be consistent with the general principles, and must give students advance notice in writing. In the case of an academic unit, notice may be given in the appropriate section of the General Catalog, or in other materials provided to students for the purpose of informing them of the rules and regulations of the academic unit. In the case of an individual instructor, notice of an attendance policy should be given in the course syllabus.

If neither the academic unit nor the instructor has adopted an attendance policy, or if proper advance notice of the attendance policy was not given, the UMKC general attendance policy will govern. The general attendance policy is that students shall not be penalized for excused absences. "Excused absences" include absences due to illness of the student, illness of an immediate family member for whom the student must care, death of an immediate family member, religious observance (where the nature of the observance prevents the student from being present during class), representation of UMKC in an official capacity, and other compelling circumstances beyond the student's control. Students seeking an excused absence must provide documentation upon request to substantiate the excuse. Students with excused absences shall undertake appropriate make-up or alternative work to be provided by instructors of the courses in which excused absences were incurred.

Complaints concerning the application of an attendance policy or an instructor's attendance policy should be raised with the Department Chair of the instructor or with the Dean if there is no Department Chair or the instructor is the Department Chair. If the student or instructor is not satisfied with the resolution of the complaint, the matter may be appealed to the Dean and to the Division of Academic Affairs. Complaints concerning the adoption or modification of an attendance policy by an academic unit should be raised with the Division of Academic Affairs. Complaints are to be promptly addressed at each level of review.

This policy was approved July, 2002 and effective Fall, 2002; Revised Fall 2012; Revised Fall 2016

Catalog Year Policy

Graduation requirements and regulations for every academic program are provided in the UMKC catalog. Degree requirements and course descriptions are subject to change. In most cases, students will complete requirements outlined in the catalog of the year they enter as a degree-seeking student.

Transfer students from community colleges and other universities are permitted to complete degree requirements in effect at the time of their enrollment as freshmen at a community college or university, so long as their enrollment was continuous from year to year (summer semesters excluded) and programs have not been discontinued.

Changes or additions of plans of study (majors or minors) do not change a student's catalog year unless:

- A student is readmitted to the university. In this case, the student's catalog year will automatically be updated to term in which they are readmitted.
- A student is admitted into one of the following selective programs:

1. Nursing Pre-Licensure program
2. Professional Teacher Education
3. Conservatory

In this case, the student's catalog year will automatically be updated to term in which the student is fully admitted to the selective program. Students will be notified of the potential for professional program requirement changes at full-admission in this catalog. For example:

Candidates admitted to the Professional Teacher Education Program must uphold all academic and social regulations and policies established by the School of Education. ***Candidates are subject to any Missouri legislative action or State Board of Education policy that may become effective during the lifetime of this catalog.*** The responsibility of the School of Education is to recommend qualified candidates for licensure to the state and to ensure candidates meet, or exceed, these requirements. While the degree programs outlined in the catalog are aligned with state requirements, certification is dependent on both the degree requirements and successful completion of all state assessments required by the Missouri State Department of Elementary and Secondary Education.

- A student requests a change of catalog year after their first term of degree seeking status. In this case, the student must meet ALL requirements of the requested catalog year. For example, all plans of study (Majors and Minors) and Assessments, and updates to University Policy.
1. Once a student moves to a future catalog year, they cannot revert to their originally admitted catalog nor subsequently pick an older term.
 2. All multi-major/minors elected must be on the same catalog year.

Classification of Students/Student Levels

Undergraduate students are classified by the number of semester hours completed at the beginning of each semester. A student with:

- Fewer than 30 credit hours completed is classified as a freshman.
- Fewer than 60 but at least 30 credit hours completed is classified as a sophomore.
- Fewer than 90 but at least 60 credit hours completed is classified as a junior.
- At least 90 credit hours completed is classified as a senior.

A student who has completed a bachelor's degree and enrolls only for undergraduate credit will be classified as a senior.

Course Numbering and Reuse Policy

Courses are numbered according to the following plan:

Course Numbering

000#099 Remedial Courses (No college credit)

100#299 Lower Level Undergraduate Courses

300#499 Upper Level Undergraduate Courses (Some upper level courses may be taken for graduate credit)

500#2999 Currently Not Used

3000#4999 Dental Hygiene Undergraduate Courses

5000#5999 Graduate Level Courses

6000#6999 School of Dentistry Courses

7000#7999 School of Pharmacy Courses

8000#8999 School of Law Courses

9000#9999 School of Medicine Courses

Reuse of Course Numbers for New Courses:

Currently, a course number that has been used previously for a course in a specific discipline and subject cannot be

reused. With the growing numbers of Academic Units running out of numbers in select subjects, it has been proposed that course numbers can be reused if these course meet the following criteria:

1. The Subject and Course Number have been inactive and not printed in the catalog for a minimum of 20 years
2. There is no duplication of the course listed under a different subject and class number

Electronic Grade Change Policy

Electronic grade changes can be completed by the instructor of record or by the Chair of the Department or the Dean of the Academic Unit via the online student information system. The deadline to initiate an electronic grade change must occur within one calendar year after a term has ended.

The following dates are applicable to all calendar year semester grade changes:

- May 31 for the previous **Spring Semester**
- July 31 for the previous **Summer Semester**
- December 31 for the previous **Fall Semester**

Approved reason codes must be used for all electronic grade changes.

Electronic grade changes cannot be submitted for the following types of changes. These require the use of a hard copy Grade or Course Change form for Past Terms.

- Changing the credits associated with a course
- Changing the grading basis associated with a course
- Student has graduated
- Retroactively adding, deleting, or swapping a course

Electronic grade change reports will be available to run on demand by each Academic Unit to notify Deans and Department Chairs when grades have been changed on a student's record. The Registrar will send a grade change report at the end of every semester to capture all grade changes that have been submitted online.

Grade changes requested after one year will require a written appeal by the instructor and a signature from the Dean. The Registrar will review the grade change request and work with the Provost's office to determine the acceptance of the instructor grade appeal.

Final Exam Policy

It is expected that every faculty member meet their classes during the scheduled final exam period in the scheduled room(s) for the final examination or other approved instructional activity.

Whenever circumstances make necessary a deviation from the announced final exam schedule, approval for such deviation must be obtained by the appropriate department chair and unit academic dean as well as the Registrar.

Faculty should remain available to students throughout the entire semester (including finals week). If circumstances necessitate faculty unavailability at any time during the semester, students should be notified, in writing, with alternate contact information (i.e., department head).

The Provost reserves the right to alter the final exam schedule due to extenuating circumstances.

Students having more than three final exams scheduled on one day may submit a written request to their Academic Dean's Office to reschedule an exam. The Dean's Office will coordinate with faculty to reschedule the exam.

General Education Requirements

General Education

UMKC Essentials (p. 479)

Missouri Transfer Core 42 (p. 480)

Transfer students entering UMKC will elect from the UMKC Essentials General Education Program or the Missouri Core 42 General Education Curriculum. Academic advisors will meet with incoming transfer students to determine which option best serves the student's education needs. Program requirements are outlined in the tabs above.

UMKC Essentials

UMKC Essentials includes the following coursework:

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication: ¹		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus	
Any 200-level MATH or STAT course		
ACT Math Sub-score of 28 or higher; or SAT Math Sub-score of 660 or higher		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

¹ Written communication (3 hrs) may also include previously approved courses not currently taught at UMKC (MOTRENGL 110, Technical Writing).

Missouri Transfer Core 42

General Education Requirements for Transfer Students

Per a requirement passed into Missouri law in 2016, a state-wide general education curriculum specific to transfer students was created to facilitate transfer among Missouri's public colleges and universities. This new state-wide curriculum requires 42 hours of coursework spread among five knowledge areas:

- Mathematical sciences – three (3) credit hours
- Natural sciences – seven (7) credit hours, including a course with a lab
- Humanities and fine arts – nine (9) credit hours from at least two disciplines
- Social and behavioral sciences – nine (9) credit hours, including a civics course
- Written and oral communications – nine (9) credit hours (six in written communications and three in oral communications)
- Additional hours – five (5) additional credit hours distributed among the above five knowledge areas.

All transfer students to UMKC from an accredited regional institution shall be treated the same as those transferring from a public Missouri institution of higher education. Starting Fall 2018, new incoming transfer students may be eligible to complete either the UMKC Core or Core 42 general education curriculum. Students may opt-in to the Core 42 via the following link: <https://cf3.umkc.edu/registrar/motrcore42>. (<https://cf3.umkc.edu/registrar/motrcore42/>)

For more details on Core 42, please visit - <https://dhe.mo.gov/core42.php>.

Transfer Students with a Completed Core 42, an Associate of Arts degree or a Bachelor's degree

- Students who complete the CORE 42 curriculum at a participating Missouri institution, an Associate of Arts degree from any regionally accredited institution, or a Bachelor's degree from a regionally accredited institution before transferring will have met all UMKC general education requirements.

Transfer Students with General Education Coursework in Progress

- Students transferring to UMKC with at least twelve (12) post-high school college credit hours but without the completed Core 42 or Associate of Arts degree may have the option to complete either the UMKC Core or Core 42.

- Transfer guides are built based on the optimal general education curriculum to create your shortest path to graduation from UMKC.
- Your advisor will review your transfer credits with you prior to the end of your first semester at UMKC to help you determine which general education curriculum best suits your degree plan and moves you closest to graduation.
- General education requirements for some degrees – including education, engineering and nursing – differ due to professional licensing and other requirements. For these programs it is not to the student's advantage to complete the Core 42 curriculum because Core 42 likely adds hours to the student's individual plan of study to complete their UMKC degree. To avoid adding time and cost to the student's UMKC experience, transfer students are encouraged to complete the UMKC Core for the following majors:
 - Dance, Bachelor of Fine Arts
 - Early Childhood Education, Bachelor of Arts
 - Elementary Education, Bachelor of Arts
 - Jazz Studies, Bachelor of Music
 - Music Education, Bachelor of Music Education
 - Nursing, Bachelor of Science in Nursing (Pre-Licensure program)
 - Performance, Bachelor of Music (all instruments)

Transfer Credit Appeal Policy

Transfer students and/or post-secondary institutions who are not satisfied with a decision regarding the awarding of transfer credit may appeal the articulation of their coursework by completing a Transfer Articulation Appeal form. Students have 10 business days following notification of the transfer articulation decision to file an appeal. Submission of this form shall initiate a two-level review process facilitated by the university's Transfer & Articulation Officer (TAO).

Policy

UMKC Essentials General Education Curriculum Policy & Guidelines

The policy and guidelines developed for UMKC Essentials are designed to align with the following values:

- Preference the student experience provided by the UMKC Essentials program (and the work of the Gen Ed 2.0 Program Development and Implementation Task Forces, as university-wide and interdisciplinary groups) as foundational to and overarching the individual programs of each academic unit.
- Ensure the foundational curriculum that students experience in the UMKC Essentials program is preparatory to further academic success by providing transparency in the development of cognitive skills and ways of thinking.
- Minimize barriers to student academic progress by determining student learning outcomes met through academic credit earned prior to entering UMKC.
- Recognize the unique challenges of transfer students without trying to control academic programs outside of UMKC.
- Recognize the unique challenges of academic programs that have highly scripted curricular requirements from external accrediting agencies, to reconcile these expectations with UMKC Essentials.
- Provide a sound mechanism for program assessment and quality improvement.

1. Optimizing Degree Completion for Both Native and Transfer Students

1.1 Program/degree requirements, where possible, should limit requirements (credit hours) to allow students electing the Missouri Department of Higher Education & Workforce Development (MDHEWD) Core 42 or UMKC Essentials to complete program within 120 hours.

1.2 All academic programs should consider, where possible, limiting program specific requirements to 78 hours of the minimum 120 to ensure full access to transfer students utilizing the Core 42 General Education program.

1.3 Some programs will be unable to comply with this expectation due to external accreditation requirements. UMKC Transfer Guides will clearly articulate optimal pathways to degree completion, especially when completion of the Core 42 or Associates Degree increases total hours to degree completion.

2. Building a robust UMKC Essentials Curriculum with Campus-wide Contributions

All academic units are encouraged to create a UMKC Essentials course for approval as a means to:

- Promote a "way of knowing" that provides value to all majors/interests areas;
- Increase the use of high impact practices early in our students' academic careers (increasing engagement and persistence);
- Assist students' early exploration of academic interests, therefore recruitment of potential majors.

3. Designating Approved UMKC Essentials Courses for Degree-Specific/Program requirements

3.1 The use of UMKC Essentials General Education courses to fulfill individual degree/program requirements (“vertical double counting”) is allowed, at the discretion of the school/College curriculum committee. Since each academic unit has the authority to establish requirements for its degree programs, each academic unit must decide whether it will permit vertical double counting, and if so, to what extent, and in which degree programs.

3.2 Course approval for UMKC Essential General Education credit by the UMKC Essential Executive Committee must occur prior to a program modification proposal approval.

3.3 As with all undergraduate curricular changes, approval for program changes will be submitted to the Undergraduate Curriculum Committee (UCC) and recommended to the Provost for final action.

4. Using a Course to Fulfill More Than One UMKC Essentials Requirement

4.1 Using a course to fulfill more than one UMKC Essentials requirement (horizontal double counting) may not occur.

4.2 An approved course to complete the Missouri Constitution requirement may not be used to also satisfy a UMKC Essentials requirement.

5. Determining Alternative Curriculum Options to UMKC Essentials Requirements

5.1 Academic programs under external accreditation standards in which current minimum hours exceed 120 and general electives are not available may petition for alternative requirement completion:

5.1.a With prior approval of the Provost;

5.1.b Must obtain UMKC Essentials Executive Committee approval of any majors-only course signature assignment to ensure that the alternative addresses student learning outcomes in the Essential Questions area relative to the program's field of study;

5.1.c Must meet HLC expectations for faculty credentialing necessary for instruction of designated student learning outcomes; and

5.1.d Must agree to archive/submit signature assignments in ePortfolio for annual review by the UMKC Assessment Team

5.2 Satisfaction of a UMKC Essentials Requirement by completing an approved alternative course will remain even in the event that the student elects to change major or academic program.

6. Optimizing the Educational Experience for Students Entering UMKC with Academic Credit earned prior to their first term of degree-seeking status at UMKC (Credit by Exam, Transfer or Dual High School)

6.1 Credit by Exam, Transfer or Dual High School academic credit will apply to the UMKC Essentials program in a way that optimizes the student's prior educational experience. To this end, the following policy has been adopted:

6.1.a Credit related to Core Skills development (English Composition I, II, and Technical Writing; Mathematics, Oral Communication) will be based on a course-to-course equivalency evaluation and/or Core 42 MOTR course designation. UMKC Essentials Core Skills requirements will include all Core 42 approved courses, but may include additionally designated/approved UMKC courses.

6.1.b Credit for approved Core 42 courses (6 hours or more) within designated disciplines related to an Essential Questions (EQ) in Natural & Physical Sciences, the Social & Behavioral Sciences, or the Arts & Humanities will indicate that the student has met the Learning Outcomes of the EQ area and the requirement will be considered satisfied.

6.1.b.1 Six hours of coursework may be from the same academic area.

6.1.b.2 Laboratory courses approved per Core 42 will contribute to the six (6) hours to satisfy the Natural and Physical Sciences UMKC Essentials requirement.

6.1.b.3 A course satisfying the Missouri Constitution requirement may not also contribute to the minimum six (6) hours to satisfy the Social & Behavioral Sciences UMKC Essentials requirement.

6.1.b.4 A maximum of three (3) hours of MOTR PERF (approved performance based Core 42 hours) may apply to the six (6) hours to satisfy the Arts and Humanities UMKC Essentials requirement.

6.1.c Limited prior credit (less than 6 hours) within a designated discipline related to an Essential Questions in Natural & Physical Sciences, the Social & Behavioral Sciences, or the Arts & Humanities will indicate that the student would benefit from the UMKC Essential curriculum. Therefore the student must complete a UMKC Essentials approved course.

6.2 Transfer students will have the option to elect either the UMKC Essentials General Education Program or the Core 42 curriculum to meet general education requirements.

7. Students demonstrating minimum UMKC Essentials Core Skills proficiency:

7.1 Math and Quantitative Reasoning - Students may satisfy this requirement by:

7.1.a Completing one of the following UMKC or equivalent Math Pathway courses: MATH 110, MATH 116, MATH 120, or STAT 115 (completing supporting corequisite courses do not fulfill the requirement)

7.1.b Completing one of the following UMKC or equivalent calculus or statistics courses: MATH 210, MATH 266, MATH 220, MATH 268, MATH 216, STAT 235

7.1.c Completing a mathematics or statistics course from a previous institution evaluated as not specifically equivalent to a UMKC course but designated at the 200 level or above

7.1.d Possessing the minimum ACT or SAT Math subscores (below), thereby providing an exemption.

Code	Title	Credits
Test Date After 3/1/2016; ACT Math Subscore 28 or higher; SAT Math Subscore 660 or higher		
Test Date 8/1/2009-3/1/2016; ACT Math Subscore 28 or higher; SAT Math Subscore 640 or higher		
Test Date Before 8/1/2009; ACT Math Subscore 28 or higher; SAT Math Subscore 600 or higher		

Academic units may require completion of a specific Math Pathways course for degree and/or major requirements.

7.2 Written Communication - Students may satisfy this requirement by:

7.2.a Completing 6 hours of UMKC or equivalent courses: ENGLISH 110, ENGLISH 225, MOTRENGL 110

7.2.b Possessing the minimum ACT (30) or SAT (690) English subscore, and 3 hours of ENGLISH 225

7.2.c Completing a transfer course equivalent to the UMKC ENGLISH 225 course and recorded on an official transcript

8. Optimizing the Educational Experience for Students transferring from UMKC with Completed UMKC Essentials or MDHEWD Core 42 General Education Program UMKC will transcript the completion of a student's general education program once completed:

8.1 For the Core 42 following MDHEWD policy guidelines:

- Satisfactory completion of all Core 42 Program Requirements
- Satisfactory completion of a minimum of Core 42 designated credit hours

8.2 For the UMKC Essentials program under the following:

- Satisfactory completion of all UMKC Essentials Program Requirements
- Satisfactory completion of the Missouri Constitution Requirement (state-mandated)
- Satisfactory completion of a minimum of 42 credit hours of acceptable college work

Grading Options and Auditing Courses

Auditing a Course

A student must be admitted to the university and obtain the consent of the instructor in order to audit a course. Courses that ordinarily may not be audited are studio courses in art, performance courses in the Department of Communication Studies, continuing education courses, and laboratory courses in the sciences. Students do not receive credit when auditing a course, and audited courses do not count toward enrollment status requirements (full-time, half-time).

A student registered in a course for audit is expected to attend class and to pay full tuition and fees. Providing feedback to the auditor is at the discretion of the instructor. An auditor may be administratively withdrawn from a course at any time during the semester when, in the judgement of the instructor and upon approval by the dean, the attendance or participation record justifies such action.

Change from Audit to Credit

Students may change status in a course from audit to credit during the first week of the term provided they have approval of the faculty and academic unit. This change must be initiated in the advising office of the appropriate academic unit and must be completed in the UMKC Registration & Records Office.

Change from Credit to Audit

Students may change their status in a course from credit to audit any time prior to the end of the fourth week of any Fall or Spring semester, or prior to the end of the second week of any summer session. This change must be initiated in the advising office and must be completed in the UMKC Registration & Records Office.

Credit/No Credit Option

Sophomores, juniors and seniors in good standing may elect to take one course per semester on a credit/no credit (CR/NC) basis. The credit/no credit option may not be used for courses in the major nor the minor, nor for courses taken to fulfill the general degree requirements. Students may not elect this option when they are repeating a course.

The credit/no credit option must be elected at the time of initial registration for a term and cannot be changed subsequently. A grade of C- or better must be earned to earn credit; D and F grades receive no credit. Grades of CR or NC do not earn grade points and they do not affect the grade-point average. Courses elected on this option are subject to regular academic regulations, including course load, withdrawal, etc.

The credit/no credit option is not available for students pursuing a bachelor of liberal arts degree.

NR Grades

If a student appears on a grade roster and stops attending class within the semester following the administrative drop timeline (first three weeks of class), a grade of NR (Not Reported) will be assigned to the student in lieu of an F. NR's calculate in a student's GPA just like an F.

Grade Appeals

Students are responsible for meeting the standards of academic performance established for each course in which they are enrolled. The establishment of the criteria for grades and the evaluation of student academic performance are the responsibilities of the instructor.

This grade appeal procedure is available only for the review of allegedly capricious grading and not for review of the instructor's evaluation of the student's academic performance. Capricious grading, as that term is used here, comprises any of the following:

- The assignment of a grade to a particular student on some basis other than the performance in the course.
- The assignment of a grade to a particular student according to more exacting or demanding standards than were applied to other students in the course; (**Note:** Additional or different grading criteria may be applied to graduate students enrolled for graduate credit in 300- and 400-level courses.)
- The assignment of a grade by a substantial departure from the instructor's previously announced standards as stated in the course syllabus.

Appeal Procedures

1. The student should first discuss the course grade fully with the instructor of the course. This must be done within six weeks after the beginning of the succeeding regular academic semester.
2. If the matter cannot be resolved by consultation with the instructor, the student should use the departmental grade-appeal procedure. Every academic unit (school, College or department) must have a set of appeal procedures that are to be made available to students on request. These procedures will specify the manner in which the departmental review of the challenged grade will be conducted.
3. If the matter is not resolved at the departmental level, an appeal can be made to the academic dean, in accordance with the school's or College's appeals process. The decision of the dean will be communicated to the student, the instructor and the department.
4. If the matter is not resolved within the school or College, the student may appeal to the Provost (<https://www.umkc.edu/provost/downloads/StudentGradeAppealToProvost.pdf>). This appeal must be made within 10 consecutive calendar days after notification of the decision of the dean.
5. The Provost or designated representative shall review the full record of the case and appeal documents. At this level, the Provost may appoint an ad hoc academic appeals committee to review the record and provide advice on the matter. The decision of the Provost is final and will be communicated to the student, the instructor, the department and the dean of the school or College.

Grade-Point Average

The following minimum grade-point average policy applies to all undergraduate students:

- Students must maintain a 2.0 GPA in their coursework at the University of Missouri.
- Academic units may impose additional grade-point requirements.
- In general, the UM GPA is calculated by dividing the total grade points earned in courses on any UM campus by the total number of graded semester hours attempted. If a course attempted within UM is repeated, the previous hours and grade point remain in the student's GPA. Courses taken credit/no credit, courses earning grades of S, P, I or AT, and courses transferred from non-University of Missouri institutions are not included in the UM GPA calculations.

Grading

The following is the +/- grading scale and grade#point system used at UMKC. This +/- grading scale and grade point system is used by all faculty, in all undergraduate, graduate, and professional programs.

Letter Grade	Description	Points per Semester Hour
A	The highest grade	4.0
A-		3.7
B+		3.3
B	Work of distinction	3.0
B-		2.7
C+		2.3
C	Average work	2.0
C-		1.7
D+		1.3
D	Passing, but unsatisfactory	1.0
D-		.7
F	Failure without credit	0.0
NR	Not Reported	0.0
WF	Withdrew Failing (Graduate/Professional Only)	0.0
W	Withdrew; no academic assessment	-
I	Incomplete	-
AT	Audit	-
CR	Credit only	-
NC	No Credit	-

P	Passing	-
S	Satisfactory	-

Beginning Fall 2012, a WF is not calculated in the GPA for undergraduate students.

Beginning Fall 2015, **MATH 100** letter grades are not calculated in the cumulative GPA.

In terms prior to and including 1985, any of the above grades might be preceded by an R indicating a repeated course. These grades are not included in either total hours or the grade-point average. (Examples: RC, RD, RF.) Since 1985, all grades, including those in repeated courses, are included in the GPA calculation. For the 1993 Fall Semester, UMKC began using the plus/minus grading system for grades A, B, C, and D. The grade of A+ is valid only for students in the School of Law.

Incomplete Grades

An instructor may assign the grade of I (incomplete) to students who have been unable to complete the work of the course because of illness or serious reasons beyond their control. An incomplete grade is appropriate only when enough work in the course has been completed for students to finish the remaining work without re-enrolling in the course or attending additional classes. The work must be completed within one calendar year or the incomplete grade will automatically lapse to an F. Students should not re-enroll in a class for which they earned an incomplete. Students may not earn a degree or graduate with a UMKC incomplete on their transcript.

Repeated Courses & GPA Adjustment Policy

When undergraduate students repeat courses, they can request to have only the grade for the final attempt used in calculating their GPA. The Repeated Courses & GPA Adjustment Policy will not automatically be applied to a student's GPA. After completing a retaken course, a student must submit a request for GPA Adjustment Form to his/her academic advisor. The recalculation of a student's GPA is reflected only in the calculation of that student's current cumulative GPA and will not retroactively affect calculations for dean's list, graduation and honors, eligibility for financial aid and veterans' benefits and scholarships, athletic eligibility, discounts for insurance, or any other area.

- Courses in which academic dishonesty was involved are not eligible for GPA recalculation.
- A student's GPA can only be recalculated if the original and the repeated course are taken at UMKC or another UM System school.
- The original course and the repeated course must be a direct equivalent.
- Students may repeat a single course for GPA calculation twice (for a total of three completions). Please note that financial aid may not be available on a third completion if a passing grade was earned.
- Repeated courses must be taken Fall 2007 or later.
- Repeated courses may not be taken on a CR/NC basis.
- Original grades cannot be replaced with a 'W', 'WF', 'I', or 'T'.
- No more than 15 semester hours can be dropped from the calculation of a student's GPA by repeating course work.
- Requests approved for GPA recalculation will prefix the original grade with an "R." Transcripts will note that such grades are excluded from GPA calculations.
- Courses cannot be repeated for credit towards the degree unless specifically noted.
- The course repeat option is not available when requested for a term that was a part of a previous degree award.
- Once the GPA recalculation has been recorded, the action cannot be rescinded.

Refer to the appropriate School or College section of the undergraduate catalog for information on specific rules for course repeats. Some academic units may have more stringent requirements on course repeats.

Graduation

Students who anticipate graduating must file an application for graduation before the end of the fourth week of the semester in which they intend to graduate. Commencement is optional and participating in commencement does not mean that a student has graduated. The application for graduation triggers a degree check. The degree check is conducted following the recording of grades for the semester in which the student anticipates graduation. All degree requirements must be fulfilled, including documentation of all requirements in UMKC's Registration & Records Office before the next semester after anticipated graduation begins. Diplomas may be picked up in person in the Registration & Records Office beginning 40 days following the last day of the semester. Diplomas that are not picked up in person will be mailed two weeks after they are initially made available. Replacement and duplicate diplomas can be ordered for a small fee from UMKC Registration & Records Office.

Application for Graduation

Written application for graduation is required and should be filed before enrolling in the final 30 credit hours of coursework. Students should turn the graduation application form into their home School or College (Academic Unit). The academic unit will send the graduation application to the

Registration & Records Office. The application must be submitted no later than the deadline date published each semester in the on-line UMKC Academic Calendar in order to graduate for that semester.

Awarding Posthumous Degrees

The University may grant undergraduate, graduate and professional degrees posthumously. If an Academic Unit determines that a deceased student was academically eligible at the time and had completed sufficient coursework to earn a degree the Unit may recommend the awarding of a posthumous degree.

Students who completed all Degree Requirements

The diploma for the degree that the student was pursuing will be prepared in the same manner as if the student had graduated. This diploma may be presented to the family of the deceased in a special ceremony, at Commencement or in whatever manner is deemed appropriate.¹

Student Did Not Yet Complete Degree Requirements

If the student had not completed degree requirements but was making satisfactory progress at the time of death, a dean's certificate honoring the student may be provided by the appropriate academic unit(s). These certificates may be designed and presented in a manner that is fitting to the circumstances.¹

¹ In some instances, presentation of the degree or certificate to family members may be made at a remembrance ceremony.

Changes in Degree Requirements

The University of Missouri reserves the right at all times to discontinue, modify or otherwise change its degree programs when it determines it is in the best interest of the University. Students have the following options:

- Students who enter as first-time freshmen or transfer students may fulfill the degree requirements in effect at the time of their original admission to their degree program, provided there has not been a lapse in attendance at UMKC of more than one consecutive calendar year plus one term.
- Students accepted into any two-plus-two program (between UMKC and a community college) may fulfill the degree requirements in effect at the time of their original admission to the community college, provided no more than two years have elapsed since that original admission and enrollment has been continuous.
- Students may fulfill degree requirements in effect at the start of their senior year, provided that they have not had a lapse in attendance during the senior year at UMKC of more than one consecutive calendar year plus one term.

Civics Exam Requirement

Any student entering UMKC for the first time after July 2019 who is pursuing bachelor's degree shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from UMKC. The examination shall be known as the "Missouri Higher Education Civics Achievement Examination".

If a student is a currently enrolled student at UMKC prior to Fall 2019 and maintains continuous enrollment (Fall and Spring Terms), then the student is exempt from taking the Civics exam.

To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Constitution Requirement

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

Declaration of Major

Students may declare a plan of study (major and/or minor) and degree(s) at the time of admission. See the specific academic unit guidelines for admission requirements regarding declaration. If continuing students wish to change their plan of study or add additional plans, students must complete the Declaration of Major form from the UMKC's Registration & Records Office and obtain signatures from the Academic Advising unit of the school or college.

Students admitted as Exploratory (undeclared) students or admitted with only a Pre-Professional designation (i.e. Pre-medicine, Pre-law) have not declared a specific major and/or degree at the time of admissions and therefore must declare a major by the hours specifically designated by the academic unit housing the degree(s).

Exit Examinations

Exit Examinations

Policy

The University of Missouri Board of Curators, the Missouri Department of Higher Education, Missouri statute 173.030.1(9)(e) RSMo, and the Higher Learning Commission require the university to assess the effectiveness of the general education program and all academic programs. With the exceptions noted below, all undergraduate, degree-seeking students must take a test of general education achievement prior to being granted a baccalaureate degree.

There are three exceptions: 1) students who have previously earned a bachelor's degree from a regionally accredited college or university; 2) students who are seeking a bachelor of arts in education degree and teacher certification or who are seeking a bachelor of music education and teacher certification and have achieved a passing score on the general education assessment required by the State of Missouri; and 3) students in the RN to BSN program and the dental hygiene completion program who first entered the program prior to Fall 2019.

Aggregate results are analyzed and reported by the Office of Assessment. Scores are reported to the University of Missouri System by the Office of Institutional Research.

Heighten Participants:

You will receive an email notification when you become eligible to take the Heighten Exit Exam (at completion of 90 credit hours). The exam is administered remotely; please contact testingservices@umkc.edu (%20testingservices@umkc.edu) from your UMKC student email account for instructions and access code for the exam.

If you receive the email notification to take the Heighten Exit Exam and you have fulfilled one of the exceptions, contact testingservices@umkc.edu (%20testingservices@umkc.edu) from your UMKC student email account and we will input the exemption on your record.

ALL EMAIL COMMUNICATIONS REGARDING EXIT EXAMS ARE SENT TO YOUR UMKC STUDENT EMAIL ACCOUNT ONLY.

Exit exams are a degree requirement - **failure to take your required exit exam before the end of the semester in which you plan to graduate will delay your graduation and you will need to reapply for a later term.**

Graduation with Latin Honors

Students are eligible to be awarded their degrees with Latin honors (Summa Cum Laude, Magna Cum Laude, Cum Laude) as determined by each of the academic units (College/School) using fixed overall GPA requirements. These fixed GPA requirements will be reviewed annually by each academic unit (College/School) and changes in requirements will be submitted in writing to the Registrar by February 1 each year for inclusion in the next academic catalog.

Latin Honors may be published for commencement but will be provisional until the degree is conferred.

The calculation for Latin Honors will be made using the GPA of a minimum of the last 60 hours earned at UMKC, including all credits earned in the semester when the student reaches or exceeds 60 hours.

Because Latin Honors is calculated by GPA and there is only one GPA, there will only be one Latin Honors awarded regardless of the number of degrees the student earns.

Junior-Senior Hours

Undergraduate degree-seeking students are required to earn credit in at least 36 credit hours of coursework numbered 300 and above at UMKC. In the case of transfer credit, the coursework must be numbered as junior-senior level work by the transferring institution. For additional restrictions, please also see the Residence Requirements Policy (p. 489).

Minimum Hours

The general minimum UMKC requirement in semester hours of acceptable college work for an undergraduate degree is 120 semester hours (150 for a double degree or a second degree). However, a number of undergraduate and first professional degrees have higher minimum requirements as indicated in the specific school's section of this catalog. A minimum of 30 hours must be earned at UMKC, regardless of the number and level of hours earned at another institution.

UMKC graduates returning to UMKC to complete requirements for additional majors or minors, must complete all requirements for a second degree including the accumulation of a minimum of 150 hours. UMKC does not award stand-alone majors or minors on transcripts at any time. Transcripts will reflect all attempted courses, regardless of graduation status.

Multiple Major & Double Degree Policy

A multiple (double or triple) major may be earned when a student completes two or more full majors, generally within the 120 hours required for a single degree. The specific major requirements of each major must be fulfilled. The diploma will indicate all majors. If the two or more degree programs are administered by different academic units, the major requirements of each academic program must be fulfilled. The general education requirements must be fulfilled as specified by the department or academic unit responsible for the primary major only. The double or multiple major is only available in B.A./B.A. or B.S./B.S. combinations.

A *double degree* may be earned when a student completes a minimum of 150 hours, completing the general education and major requirements for each of two majors. Students who earn a double degree will receive two diplomas simultaneously. If the two degree programs are administered by different academic units, the general degree requirements and major requirements of both academic units must be completed.

The B.A./M.D. *dual degree* program has different requirements and is subject to separate regulations. See the School of Medicine section of the catalog.

All dual degree programs must follow the established guidelines in the UMKC catalog.

Residence Requirements

Candidates seeking undergraduate degrees from UMKC must meet the following minimum residence requirements*:

1. Must be admitted and academically eligible to enroll in the College or School during the semester in which the degree is awarded.
2. Successfully complete through UMKC at least 30 credit hours of course work.
3. Successfully complete through UMKC at least 12 hours of upper division credit (300+) required by the recorded major(s) to be awarded.
4. If pursuing a minor, successfully complete through UMKC at least 6 credit hours required by the recorded minor(s) to be awarded.

*Academic units may have additional residence requirements.

Time Limit on Degree Credit

Credit over 15 years old at the time of application for graduation may not be applicable to a degree. Such credit may be subject to validation, at the discretion of the school/ department involved, before it can be used to satisfy degree requirements.

Leave of Absence Policy

UMKC's Leave of Absence Policy provides a means for students to take an approved leave of absence from a degree program without being required to go through the re-admission process upon return to the University. Students who are approved for a leave of absence will be allowed to register for classes during the "priority registration time period" for the next semester they return from their approved leave of absence period. Students who are enrolled in the Interdisciplinary Ph.D. program in the School of Graduate Studies and the Schools of Dentistry, Law, Medicine, Nursing, Pharmacy, and the Conservatory must adhere to their school's leave of absence policies and procedures as these schools may have more stringent requirements or additional procedures.

1. Students who want to take an approved leave of absence are required to fill out the "Request for Leave of Absence Form" and are required to fill out a "Return from Leave of Absence Form" in order to be allowed to enroll and return to their previous academic program.
2. The deadline for applying for a leave of absence if the student has not been attending classes and is enrolled is no later than the fourth week of the semester. Students who need to apply for a leave of absence during a semester for which they have been attending will have until the last week of classes for the current term in accordance with the academic calendar.

The deadline for applying for a return from a leave of absence is 30 days prior to the first class date of the semester in which the student plans to enroll. Students who request a leave of absence that is not planned in advance due to a medical emergency or other extenuating circumstance beyond the control of the student will be reviewed on a case-by-case basis.

Academic program and graduation requirements may change during a student's leave of absence. It is at the discretion of the college/school to define the program and graduation requirements once the student has been approved to return from a leave of absence. Some programs may approve students to return on a space available basis.

Eligibility requirements:

1. Be a degree seeking student
2. Be registered and enrolled in classes for the current term
3. Be eligible to enroll and be in academic good standing, on probation, or on continuing probation with his or her academic unit
4. Have submitted all outstanding high school or transfer transcripts if conditional admission was granted for the student to enroll for the previous semester
5. Provide a personal statement and official documentation for why a leave of absence is being requested

Please note: a student who returns from a leave of absence will continue on the same academic standing that was in place at the time that the leave of absence began.

Leave of Absence Duration

A leave of absence will be granted for a maximum of two semesters (e.g. Fall and Spring or Summer and Fall). A student can request an extension for his or her leave of absence; however, the request for an extension cannot extend more than one year beyond the original date requested. Students who do not return by the date noted on their approved leave of absence form and who are not granted an approved extension will be required to reapply through the Office of Admissions.

Leave of Absence Duration for Military Personnel

A leave of absence will be granted for all uniformed service members called to duty (whether voluntary or involuntary) for the duration of their time served. The student must fill out a Request for Leave of Absence form and provide the Registration and Records office with a copy of their written orders. Service members will be re-admitted to the university upon their return under the same re-admittance policies as all students who have been on a leave of absence from the university. Service members will not experience any added penalties from the University for fulfilling their military obligations.

Student Status During the Leave of Absence

A student granted a leave of absence retains his/her admitted student status. However, he/she is not registered and, therefore, does not have all the rights and privileges of a registered student and should be aware of the following consequences:

1. Financial Aid & Scholarships Office - A student is not eligible for any financial aid disbursements during the semesters while on leave of absence. A student on a leave of absence can be reported to lenders and loan service agencies as "non-attending" and may need to contact his/her lenders for information on possible repayment requirements, deferments and forbearances.
2. Enrollment verification requests - Enrollment verifications for other entities, such as parents' health or auto insurance companies, will also be reported as "non-attending."
3. Campus health - A student on a leave of absence for a particular semester is not registered for any credit hours and, therefore, not eligible to use the Student Health and Wellness Service Office.
4. Computing resources - A student on a leave of absence will not have access to computing resources, including computing labs. Students will be able to maintain their UMKC exchange email accounts.
5. Other student services - A student on a leave of absence will not have access to any campus or university service that is usually available only for currently enrolled students.

Leave of Absence Appeal

A student who has been denied a leave of absence or a student who has been granted a leave of absence but believes that either the period of leave awarded or the conditions specified are unreasonable, shall have a right to appeal the decision. All leave of absences that originate in the academic

units of Medicine, Law, Pharmacy, Nursing, and Dentistry must continue through that unit's administrative appeals process. The process for filing an appeal is defined below.

Process for Obtaining a Leave of Absence

1. Schedule an appointment with your college/school to meet with an academic advisor or other designated administrator to review the leave of absence application's impact on the following issues:
 - Impact on progress toward degree.
 - Catalog year and status after leave of absence.
 - Previous semester's academic standing at the time of the requested leave.
 - Transfer policies, incomplete grades, agency requirements (e.g., state licensing/certification) and other academic issues, if applicable.
 - a. Requesting a change of major at the same time the leave of absence is being requested.
 - b. Review the policy and complete the Request for Leave of Absence Request Form. Forms are available online by visiting <http://www.umkc.edu/registrar/forms.asp>. The deadline for applying for a leave of absence if the student has not been attending and is enrolled is no later than the fourth week of the semester. Students who need to apply for a leave of absence during a semester for which they have been attending will have until the last week of classes for the current term in accordance with the academic calendar.
 - c. Obtain the signature of the designated administrator in your college/school to approve the leave of absence.
 - d. Schedule a meeting with the Financial Aid & Scholarships Office to meet with a financial aid counselor if you are receiving financial aid and/or scholarships for the term in which you want to apply for a Leave of Absence.
 - e. Contact other offices, if applicable:
 - International Student Affairs Office - International students must receive mandatory advisement, including signature, from the International Student Affairs Office (ISAO) to discuss the impact of the leave of absence on their immigration status. An international student on an approved leave of absence must contact the ISAO prior to his/her return to UMKC to clear visa status and request appropriate immigration documents.
 - Financial Aid & Scholarships Office - Students who have received financial aid and/or scholarships should request information from the office about the impact a leave of absence has on current aid and future eligibility. Students should specifically request information about possible deferments for scholarships and/or loans.
 - Cashier's Office – Students who have outstanding balances on their accounts should talk with the Cashier's Office about payment arrangements to ensure there will be no delinquencies, late charge or collections associated with their accounts during their extended leave of absence period. Once a plan has been created, the Cashier's Office will provide sign-off on the leave of absence form which is returned to the next appropriate office for processing.
 - Residential Life - Students living on campus must formally petition to be released from their Residential Life License Agreement. If future housing is needed, students must reapply for housing during the return from leave of absence if applicable.
 - Campus Dining - Students with meal plans must formally apply for a release from their meal plan contract and should contact the Campus Dining sales office for further details.
 - Veterans' Services - Students with veterans' educational benefits and/or students leaving the university due to a military activation should contact Veterans' Services in the Registration & Records Office for information and assistance.
 - Parking Office - Students who purchased parking hangtags should notify the office in writing and return the decal and gate access card (if applicable) prior to leaving, so that the appropriate prorated refund can be issued.
 - Campus Health & Counseling Services - Students on leave of absence are not eligible to purchase UMKC student health insurance. NOTE: A student covered under his/her parents' insurance policy most likely has to be a full-time student (enrolled in at least 12 credit hours) to qualify for coverage and should check with the appropriate company representative for further information.
 - Residency Classification - Students with questions about maintaining his or her current status or applying for reclassification should contact the residency coordinator in the Office of Admissions.
 - Fee Refunds Schedule – Students who request a Leave of Absence are subject to the established fee refund schedule. Students who wish to petition for an exception to the refund policy will need to attach the form to their Leave of Absence Request.
2. Submit the Request for Leave of Absence Form
 - Once all required signature(s) have been obtained, the application is returned to the Registration & Records Office for review/approval. The student may return the form in person or the form may be sent through campus mail by the student's advising office.
 - The student follows the established procedures for withdrawing if registered for the current term as well as the procedures for canceling any future term registrations during the requested leave of absence. Note: Students receiving financial aid must visit the Financial Aid & Scholarships Office for information on how withdrawal impacts their financial aid.
 - The student updates his or her mailing address on the Pathway system, if necessary.

UMKC's Registration & Records Office Procedures for Processing a Leave of Absence

1. Notify the student of the result of his or her leave of absence request in writing to their UMKC email address.
2. Process the leave of absence request and note the expected return date in the Pathway system.
3. Notify the Academic Unit of the student's approved leave of absence and the semester the student is expected to return.

Leave of Absence Appeal Process

1. All leave of absence appeals not originating from the Interdisciplinary Ph.D. program in the School of Graduate Studies, Schools of Medicine, Law, Pharmacy, Nursing, and Dentistry must be presented in writing to the Assistant Vice Chancellor of Student Affairs and Enrollment Management (AVCSAEM) within five (5) working days of receipt of the leave of absence denial and contain the following information:
 - The reason(s) for the appeal including any hardships the leave of absence denial poses to the student's future continued academic status.
 - Any additional evidence deemed necessary to reverse the original decision.
2. On receipt of a formal appeal, the AVCSAEM or designee will:
 - Acknowledge the receipt of the appeal within five (5) working days on receipt of the written leave of absence appeal.
 - Investigate the claims outlined in the appeal.
 - Notify the student, in writing, of the decision within five (5) working days of acknowledgement of the written appeal.
3. The decision of the AVCSAEM or designee is final.
4. If a student considers that they have been unfairly or improperly treated in the appeals process, they have the right to file a grievance with the appropriate officer as outlined in the University of Missouri Student Grievance policy, http://www.umsystem.edu/ums/rules/collected_rules/grievance/ch390/grievance_390.010.

Steps for Returning from a Leave of Absence

1. A student should be physically, mentally and emotionally ready to return to school.
2. At the time of return, a student must complete a Return from Leave of Absence Form and must be eligible to register for the term in which they want to register (e.g. no financial holds, no academic holds, no disciplinary holds, etc.).
3. A student returning from a leave of absence that is earlier than the date originally agreed upon should provide notice to all applicable offices as soon as possible as noted on the Return from Leave of Absence Form.
4. A student must meet all financial aid requirements as outlined by the Financial Aid & Scholarships Office for the upcoming academic year or term for which the student is returning from their leave of absence.
5. The Student Affairs Office in conjunction with the other offices that require signatures from a return from leave of absence will assist in identifying any outstanding issues associated with advising, registration, etc.
6. The Registration & Records Office will send notification to the student's UMKC email address that their Leave of Absence has been processed.

The Leave of Absence policy is effective as of Summer 2010 and applies to all students, regardless of the catalog year the student entered the University.

Minor Policy

A minor is an academic program of at least 18 credits (9 at the junior/senior level) that supplements a major degree program. Students cannot be awarded a minor in the same academic discipline as their major or emphasis area.

Major discipline faculty determine and indicate on the degree audit system any minors that cannot be awarded due to both major and minor drawing from the same discipline content.

Completion of an approved minor is recorded on a student's transcript. Minors are included in program requirements, the degree audit system, and the UMKC Catalog.

Privacy Rights

UMKC complies with the Family Educational Rights and Privacy Act (FERPA), which governs the release of student academic records. Student academic records are considered confidential between the student and the University, and will not be released to a third party without the written consent of the student except as provided within FERPA and UMKC policy.

Certain information about students is considered directory information and directory information may be released to anyone without a student's signed written consent unless the student submits a written request to restrict release of directory information. All students will be listed by name with address, e-mail and telephone number in a student directory which may be in electronic format. If release of information is restricted, a student's name and related information will be excluded from the student directory. Directory information restrictions may take up to 15 working days to process after the request is submitted by the student. All students' names will be printed in the commencement program regardless of the directory information restriction.

Registration

Eligible students may register during the registration period that is announced in Pathway and via UMKC e-mail. Students who are not registered will not receive academic credit and cannot attend classes. All registration and changes in registration must be processed by the UMKC Registration and Records Office either in person or using an approved electronic format such as Pathway.

A class schedule is published prior to each semester in Pathway and lists courses offered, meeting times and locations. The University reserves the right to cancel without notice any course listed in the schedule for any semester, or to withdraw any course that does not have adequate enrollment at the close of the registration period.

Additions

Eligible students may register during the registration period that is announced in Pathway and via UMKC e-mail.

Students who are not registered will not receive academic credit and cannot attend classes.

All registration and changes in registration must be processed by the UMKC Registration and Records Office either in person or by using an approved electronic format such as Pathway.

A class schedule is published in Pathway prior to each semester and lists courses offered, meeting times and locations. The University reserves the right to cancel any course listed in the schedule without notice.

Adding a Class

Students may add a class to their official records through the first week of classes for a regular session.

Students who are not enrolled at the time a semester begins are subject to an additional fee.

Additions of courses after the first week of classes are deemed unusual and therefore require the approval and signatures of advisors and the instructor of record.

Administrative Drop Policy

In order to comply with federal regulations associated with eligibility rules for federal financial aid, UMKC instructors will utilize an Administrative Attendance Survey to confirm attendance for all students during the first three weeks of the term and administratively drop students who are not attending specific courses. For the purposes of this survey a student is considered to have begun attendance or participated in the course if they have demonstrated one of the following acceptable academically related activities:

- Physically attending a class with direct interaction;
- Submitting an academic assignment;
- Taking an exam, interactive tutorial, or computer-based instruction;
- Attending a school-assigned study group;
- Participating in online discussion about academic matters;
- Initiating contact with a faculty member to ask about subject studied.

Students will have 48 hours to respond to the notification and request to re-enroll in the course with instructor permission. Instructors may evaluate the student's request in the same manner as other late enrollment requests.

All refunds will be based upon the date of the drop in accordance with the UMKC Academic Calendar.

Cancellation of Enrollment for Financial Delinquency

Students who fail to make a minimum payment and/or accept anticipated aid may be subject to administrative withdrawal for nonpayment during the Fall and Spring semesters. However, classes are not automatically canceled. It is the responsibility of all students to withdraw from classes if they will not be attending the semester. If a student withdraws from classes, he or she may still owe the University full or partial fees in accordance with the UMKC fee refund policy. A minimum payment is required by the first payment deadline regardless of when a student registers in courses for a given semester. Pending financial aid and scholarships do not constitute a minimum payment of fees if an outstanding balance remains. If anticipated financial aid is not received or is not sufficient to cover charges, the student remains responsible for all or remaining charges incurred for the semester.

Class Waitlist

A class waitlist provides an option for students to indicate they want to enroll in a class that has reached its authorized capacity and is closed. A student on a waitlist is not officially enrolled in that course and thus is not eligible to receive a grade in that course.

Each department determines which classes will be available for waitlist and the waitlist capacity. Each section with a waitlist may have a different maximum number of students who can be on the waitlist at the same time.

Waitlists will be available through the end of the third day of classes at the beginning of each term's open add/drop period.

A student gets on the waitlist at the time he/she attempts to enroll in a full class section by checking the "OK to Waitlist" checkbox that will be displayed when enrolling in a class. If there is no waitlist or the waitlist is full, the "OK to Waitlist" checkbox will not appear as an option when a student attempts to register for a class in Pathway's Self-Service Enrollment. A student can be moved from the waitlist to enrolled status by:

System intervention: An automated nightly process will automatically move eligible students from the waitlist to enrollment. After the last automated process is run at the end of the third day of classes, students will need to be signed in to the course on a registration form.

Students are ineligible to be automatically enrolled from the waitlist for the following reasons:

- They have a time conflict with another class;
- They are already enrolled in another section of the course;
- They would exceed their maximum term units;
- They do not meet requirements of the course (for example, reserved for majors only);
- They have a registration hold;
- The class is full.

Students who are enrolled via the waitlist are responsible for reviewing and making any other changes to their schedule. Instructors have the right to increase course capacity to allow specific students to enroll in their class. Students will only be enrolled from the waitlist provided the enrollment does not exceed the room capacity designated for the class.

Concurrent Enrollment

Students may not earn and apply degree credit from another college or university at the same time as earning degree credit at UMKC *except with the prior approval* of the UMKC academic unit involved. Notification of this exception when approved by the academic unit must be forwarded to the UMKC Registration & Records Office.

Late/Retroactive Withdrawal Policy

A student may petition for Late/Retroactive Withdrawal from a course(s) or from the university (all courses taken during that semester), if circumstances of a serious and compelling nature prevented the completion of coursework and extenuating circumstances prevented withdrawal by the deadline on the Academic Calendar. In filing a Petition for Late/Retroactive Withdrawal, withdrawal from all courses taken during the term in question is normally expected since 'extenuating circumstances' are not course-specific.

Petitions must be submitted to the University Late/Retroactive Withdrawal Committee, after consultation with student's academic advisor. A University Late/Retroactive Withdrawal Committee is designated to make decisions on all retroactive withdrawal petitions. Approved retroactive withdrawal petitions which require a change of grade will follow standard change of grade procedures. A copy of the approved petition and supporting documentation should be attached to the grade change form when it is submitted to the Registration and Records office.

Students who submit a retroactive withdrawal are not typically candidates for fee refunds.

For courses taken while enrolled in the Interdisciplinary Ph.D. program in the School of Graduate Studies and in the Schools of Dentistry, Law, Medicine, and Pharmacy, students should refer to the retroactive withdrawals policies and procedures of these schools, as they may have more stringent requirements.

Students are not a candidate for late/retroactive withdrawal if any of the following conditions are true:

- You are applying because you are not satisfied with the grade you earned.
- You are applying because you neglected to formally withdraw from the course(s) in question.
- You were not aware of the withdrawal deadlines.
- You changed your major and are now working towards a major or degree which does not require this course.
- You assumed non-academic activities which restricted your time for academic pursuit.
- You were ill or you suffered stress as the result of an accident, death, family crisis, or other crisis early enough in the semester to have withdrawn during the semester.
- You have already received a UMKC degree for which the course(s) in question were applied towards degree requirements and/or your UM GPA.

If any of the above are found to be true of your case, your request for retroactive withdrawal will be denied.

Students may be candidates for late/retroactive withdrawal if any of the following conditions are true:

- There was a documented administrative error that affected your enrollment in one or more courses.
- You have documentation of a serious illness that affected your ability to complete all of your coursework after the withdrawal date.

- You encountered documented extreme and unusual circumstances which a) were beyond your control, b) occurred after the withdrawal date, and c) could not have been addressed during the term in which the course(s) was taken.

The retroactive withdrawal policy is effective as of Summer 2010 and applies to all students, regardless of the catalog year the student entered the University.

Total Withdrawals

Official withdrawals may be done by mail when a student is unable to appear in person (for example, if you are out of town or suffering from an illness or accident) or if the Registration & Records Office is closed or Pathway is down (for example, during a power outage) and you wish to receive a refund. The postmark on the envelope is used as the refund date.

Transcript notations are determined based on the time of the semester the withdrawal occurs.

Students wishing to withdraw from all of their classes must complete an exit interview questionnaire available at <https://www.umkc.edu/stu-aff/exit/login.cfm>.

The following actions are **not** considered official notification of withdrawal.

- Assuming classes will be cancelled because of nonpayment of tuition and fees by the student.
- Failure to attend class.
- Giving notice to an instructor.
- Stopping payment on a check used to pay fees.
- Crossing out courses on a schedule.
- Returning only partial payment to the Cashier's Office.
- Verbal notice to any University office or employee.

Withdrawals

Eligible students may withdraw from their classes during the withdraw schedule period that is provided for each session of a semester/term in the Academic Calendar.

Students in a 16-week session follow the following schedule:

- After the fourth week through the twelfth week students will receive an automatic W on their transcript.
- After the twelfth week, students will need to follow the Late/Retroactive Withdrawal Policy.

Students who want to withdraw from all of their classes must follow the Total Withdraw Policy.

Students in 8-week courses follow a similar schedule. See the academic calendar for specific dates.

Tools for Planning and Fulfilling Academic Requirements

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Transcripts

Official transcripts are issued only to other educational institutions, employers, state departments of education and similar agencies. Transcripts are issued at the written request or authorization of students. Students may secure a transcript of their UMKC permanent academic records from the UMKC Registration & Records Office. Transcripts stamped "Issued to Student" are not considered official by UMKC. Partial transcripts of permanent academic records which contain only a portion of the courses completed at UMKC are not issued. No transcript may be issued to or for students who are indebted to the University until the debt has been cleared.

Transfer and External Sources of Credit

Transfer students should refer to the policies and procedures outlined in the Undergraduate Admissions (p. 498) section of the catalog when seeking admission to the University. UMKC accepts credit in transfer from regionally accredited institutions of recognized standing, both public and private. It also awards credit through examination programs as described in the Credit by Examination section of the catalog.

The Registration & Records Office applies established guidelines and precedents in determining transfer course equivalencies and applicability, as listed below. A student's academic unit is responsible for all final decisions on the applicability of transfer coursework, and must review and approve any exceptions that may be made for an individual student.

Transfer credit is evaluated and posted according to the following general guidelines:

- *All undergraduate college coursework attempted* at accredited institutions will be recorded on the UMKC transcript of students seeking an undergraduate degree, regardless of whether or not it is applicable to a UMKC degree. Credit accepted from another institution may or may not be applicable to specific degree programs. The University reserves the right to make the decision regarding applicability.
- Courses that are *remedial, preparatory or non-college-level* will not be added to the total hours or used to satisfy degree requirements. The Registrar's Office will refer to the transcript key or catalog of the sending institution in making a determination as to the level or purpose of the course in question.
- Transferred courses will be considered upper-division (junior-senior level) and count toward the total number of *upper-division hours* required if they are earned at a four-year institution and designated by that institution's course numbering system as upper division courses.
- A transferred course will retain the *original number of credit hours* for which it was taken at the previous institution, even if the equivalent UMKC course is worth a different number of hours.
- Courses transferred from institutions which award *quarter hours* will be converted into semester hours at the rate of 1 quarter hour = 2/3 semester hour.
- In general, courses with a grade of *D or higher* will receive full credit in transfer. For some degree programs, a course with a grade of D may not be used to satisfy specific requirements. A transfer student would be required to repeat a specified course on the same basis as a "native" UMKC student who earned a D in the equivalent course.
- Coursework of *any age* will be accepted in transfer to satisfy general education requirements and electives. If transfer credit is more than 15 years old, or of a specific technical or scientific nature, students may be required to repeat courses that are part of a major or field concentration. Individual UMKC academic units may impose more restrictive coursework age requirements.
- Non-University of Missouri System *grades and grade points* do not transfer, although the grades earned in transfer courses are printed on the transcript. An admission grade-point average that considers all attempted coursework is computed at the time of application, and an overall GPA will be computed at any time a student applies for admission to a more selective program within the University. The UMKC transcript reflects the total number of accepted hours earned from all sources, but only calculates the UMKC/UM grade-point average. Students transferring into UMKC with a certified core should see the appropriate School or College section of this catalog for requirements beyond the core to complete a specific baccalaureate degree.

Credit for Military Training

Students who have served in the armed forces may be eligible to receive college credit for courses completed through the military or occupational specialty training. The American Council of Education recommendations in *A Guide to the Evaluation of Educational Experiences in the Armed Services* generally serve as a basis for granting such credit. To count toward a degree, the credit recommended must be appropriate to the student's curriculum. UMKC does not grant credit for military science or for courses that are strictly military/vocational in content.

Credit for Prior Learning Policy

UMKC allows a maximum of 30 credit hours* for prior learning toward the completion of an undergraduate bachelor's degree. Prior learning must be documented, evaluated, and appropriate to the level of degree awarded. Students may earn prior learning credit at UMKC through the following options:

Advanced Placement (AP) examinations may count for UMKC degree credit if the exams and scores are acceptable. (Note: UMKC awards credit for specific scores on certain Advanced Placement exams that are administered by the College Board, not simply for enrollment in advanced placement

courses at the high school level. In order to receive AP credit, students must have official AP score reports sent to UMKC directly from the College Board. Credit cannot be determined from high school or previous college transcripts.)

International Baccalaureate (IB) examinations are tests taken as the culmination of a special high school study program. Several of the Higher Level exams count for credit if the score earned is a 5 or higher.

College Level Examination Program (CLEP) exams are acceptable for credit in certain areas of study. UMKC accepts only the CLEP Subject Exams. Not all subjects are accepted. Credit is not given for any CLEP General examination. No CLEP Subject Exam may be taken in the final 30 hours of coursework leading to a degree.

Credit by Departmental Examination may be earned if a student has previous knowledge or proficiency in an area of study and arranges to take a departmentally administered examination. If a department chooses to offer credit by examination, the department must provide a test that measures the same level of proficiency as is required to earn credit for enrollment in the course. Frequently this is the final exam for the course. Before taking a departmental examination, students must register in the Registration and Records office and obtain a Credit by Departmental Examination form:

(http://www.umkc.edu/registrar/forms/credit_by_exam.pdf).

The charge for attempting credit by departmental exam is equal to one credit hour.

Eligibility for credit by departmental examination requires:

1. Enrollment at UMKC in the semester in which the examination is administered
2. No enrollment in the course that is subject of the examination during the last three terms.
3. Achieve a grade of C or above on the examination in order to receive credit.

*This does not apply to courses transferred from other institutions.

Missouri Higher Education Articulation Agreement

General Education Requirements for Transfer students:

All UMKC undergraduate students complete general education requirements. The UMKC General Education Core (UMKC Core) curriculum is designed to provide knowledge and skills that are important for all students, no matter their major or field of study. For full details, see [umkc.edu/core](http://www.umkc.edu/core) (<https://www.umkc.edu/core/>).

Per a requirement passed into Missouri law in 2016, a state-wide general education curriculum specific to transfer students was created to facilitate transfer among Missouri's public colleges and universities. This new state-wide curriculum requires 42 hours of coursework spread amongst five knowledge areas:

- Mathematical sciences – three (3) credit hours
- Natural sciences – seven (7) credit hours, including a course with a lab
- Humanities and fine arts – nine (9) credit hours from at least two disciplines
- Social and behavioral sciences – nine (9) credit hours, including a civics course
- Written and oral communications – nine (9) credit hours (six in written communications and three in oral communications)
- Additional hours – five (5) additional credit hours distributed among the above five knowledge areas.

All transfer students to UMKC from an accredited regional institution shall be treated the same as those transferring from a public Missouri institution of higher education. Starting Fall 2018, new incoming transfer students may be eligible to complete either the UMKC Core or Core 42 general education curriculum. For more details on Core 42, please visit - <https://dhe.mo.gov/core42.php>.

Transfer Students with a Completed Core 42, an Associate of Arts degree or a Bachelor's degree

- Students who complete the CORE 42 curriculum at a participating Missouri institution, an Associate of Arts degree from any regionally accredited institution, or a Bachelor's degree from a regionally accredited institution before transferring will have met all UMKC general education requirements.

Transfer Students with General Education Coursework in Progress

- Students transferring to UMKC with at least twelve (12) post-high school college credit hours but without the completed Core 42 or Associate of Arts degree may have the option to complete either the UMKC Core or Core 42.
- Transfer guides are built based on the optimal general education curriculum to create your shortest path to graduation from UMKC.
- Your advisor will review your transfer credits with you prior to the end of your first semester at UMKC to help you determine which general education curriculum best suits your degree plan and moves you closest to graduation.

Below are the UMKC courses students must take if they wish to complete the 42-credit core prior to transferring to another Missouri institution:

1. DISC 100
2. DISC 200
3. DISC 300
4. Anchor I
5. Anchor II
6. Anchor III
7. Focus A
8. Focus B
9. Focus C
10. Focus Elective
11. Additional credit hours to total 42

Transferring Within the University of Missouri System

University of Missouri Policy states that *"Any course that leads to an undergraduate degree on any campus of the University of Missouri shall be accepted in transfer toward the same degree on each campus of the University offering said degree."* Students transferring within the UM system are still required to satisfy the course and residency requirements of the campus from which they wish to graduate. Grades, including D and F grades, and grade points earned will also transfer and be included in the cumulative UM grade-point average.

Application for Admission

Qualified Students Seeking Admission

1. Complete the application for admission online at <https://www.umkc.edu/admissions/apply/freshman-application-process.html> or through the Common Application. Students applying to the six-year medical program cannot submit the Common Application. Domestic students include Permanent Residents and students who have been granted refugee or assylee status. International students should contact the International Student Affairs Office for more information on applying as an international student.
2. A nonrefundable application fee is required. The application fee is \$45 for domestic students and \$75 for international students.
3. High school transcript with class rank (if available).

4. ACT or SAT score (unless applying under test optional admissions process).
5. Official transcript from each previous institution where college credit was attempted.

Appeal of Admission Decisions

Students who are denied admission as a freshmen or transfer student may submit a statement of appeal to the Office of Admissions by emailing admissions@umkc.edu. Include the reason for appeal, a letter of recommendation from a counselor or teacher, and any other information relevant to the appeal.

Students who are denied readmission must direct their appeal to the appropriate dean's office of the academic unit to which they were denied readmission.

Former Student Readmission

Requirements to re-enroll:

Readmitted (returning) students must meet ALL of the following requirements.

- You have not attended another school since leaving UMKC.
- You were not academically dismissed by your academic unit at UMKC.
- You are a graduate student and have not been out of your program for more than two consecutive semesters (not including summer).
- OR -
You are an undergraduate student and have not been out of your program for more than three consecutive semesters (not including summer).
- You wish to re-enroll in the same academic unit and the same degree program in which you were previously enrolled. Note: You cannot be readmitted to a program in which you have already earned a degree. If you wish to enroll in a different degree program, you will need to fill out a new application.
- You were not a Visiting/Community Student or enrolled through the Office of Continuing Education in the preceding semester.
- You are not a student in Dentistry, Law, Medicine, Pharmacy, Conservatory, Counselor Education, Graduate Biological Sciences Programs, Graduate Nursing Programs or Graduate Theatre Programs.

Application options:

- If you meet the requirements, complete and submit the request to enroll form (<https://futureroo.umkc.edu/register/readmit-request/>). You will not need to resubmit the general UMKC application fee.
- If you do not meet the requirements, please submit a new application (<https://futureroo.umkc.edu/apply/>). You will not need to resubmit the general UMKC application fee if you were ever enrolled at UMKC as a degree seeking student.

Freshman Admission

Students interested in applying to UMKC have several options:

- Automatic admission
- Test-optional admission
- Competitive admission
- Provisional/Trial Admission
- Mature Adult Admission

Regardless of the process under which you may be admitted, you should complete the high school 17 core requirements, submit high school transcripts, and, if necessary, submit an ACT or SAT score.

The 17 core requirements include the following courses (each unit equals one year in class):

- Four units of English, one of which may be in speech or debate (two units emphasizing composition or writing skills are required).
- Four units of mathematics (Algebra I or higher). This requirement may be satisfied by the completion of courses in middle school, junior high or senior high.
- Three units of science (not including General Science). The three units of science must include a laboratory course and must include units from at least two of the following areas: physical science, biology, physics, chemistry and earth sciences. This requirement may be satisfied by the completion of courses in middle school, junior high or senior high.
- Three units of social studies.
- One unit of fine arts, to be taken in visual arts, music (e.g., band, orchestra, music appreciation, music theory), dance or theater.

- Two units of a single foreign language or American sign language. This requirement may be satisfied by completion of courses in middle school, junior high or senior high.

Automatic Admission

The following chart outlines the minimum requirements for automatic admission within those academic units who allow automatic admission. Applicants who self-report completion of the 17 core requirements, and who self-report a GPA and test score within the parameters outlined below, may be offered automatic admission. Students admitted under automatic admission must submit official, final high school transcripts before matriculating to UMKC.

Students interested in the following programs should look at the information under competitive admission: Architecture, Urban Planning, and Design; Conservatory, School of Dentistry; School of Medicine; School of Nursing; School of Pharmacy; and School of Law.

UMKC reserves the right to rescind an offer of admission if any misrepresentations on the application or in the supporting documentation are found.

Test-Optional Admission

Under the UMKC test-optional admission process, applicants with a 2.75 or University of Missouri System (UM) core GPA may be admitted to UMKC without submitting an ACT or SAT score. Depending on UM core GPA and completion of the required high school core curriculum (outlined above), students may be fully admitted to UMKC or conditionally admitted to one of the academic support programs below.

*Does not include Architecture.

**Only includes the Bachelor of Health Studies and the Bachelor of Public Health.

Students interested in the following academic programs are not eligible to be considered under the test-optional process and must submit an ACT or SAT score:

- Architectural Studies
- Conservatory
- School of Computing and Engineering
- School of Dentistry
- School of Medicine
- School of Nursing and Health Studies
- Honors College

The following types of students must also submit an ACT or SAT score:

- Students interested in automatic scholarships
- Students who are home-schooled
- Student-athletes

Students who apply test optional but do not meet certain core curriculum requirements may be admitted to UMKC conditionally, pending completion of an academic support program. These free support programs are designed to help the student transition successfully to UMKC.

- **Peer Academic Leadership (PAL) Program** connects incoming students with a dedicated Peer Academic Leader as they begin their studies at UMKC. We strive to empower each student to achieve personal, academic and financial success by connecting students to resources and partners in their educational journey.
- **Summer Bridge Scholars Program** is an academically rigorous, eight-week summer experience to prepare first-time college students for success at UMKC. In addition to earning college credit and improving their academic skills, Summer Bridge Scholars develop a sense of connectedness to the UMKC campus and the larger Kansas City community. Learn more about Summer Bridge (<https://www.umkc.edu/asm/summer/>).

Competitive Admission

Applicants interested in the following programs have special admission processes and must submit transcripts, test scores, and additional application materials (if required) in order to be considered for admission.

- Architectural Studies
- Conservatory
- School of Dentistry and Dental Hygiene
- School of Medicine Six-Year B.A./M.D. Program
- School of Nursing and Health Studies
- School of Pharmacy Early Assurance Program
- Six-Year Law Scholars Program

- Institute for Urban Education in the School of Education
- Honors College

Please go to <https://www.umkc.edu/admissions/apply/freshman-application-process.html> for more information on specific competitive admission requirements.

Provisional/Trial Admission

Applicants who do not qualify for admission under the automatic admission, test-optional admission or competitive admission processes may still be considered for provisional or trial admission. The Office of Admissions will conduct a holistic review of high school GPA, test score, and other relevant information in the application to determine if the applicant will be offered admission. (Additional documentation may be requested before a final admission decision can be made.) If offered admission, students may be required to participate in an academic support program.

Provisional or trial admission are not options for students interested in the following programs: Six-Year Medicine, Conservatory, Architectural Studies, School of Computing and Engineering.

Mature Adult Admission

Students who graduate from high school more than five years from the time of application and have fewer than 24 transferable college credit hours may be considered for admission as a mature adult. Students who qualify must submit high school transcripts, GED or HSET, college transcripts for any college coursework attempted, and ACT/SAT scores or a test waiver.

Heartland Rate

Heartland Rate

With the Heartland Rate (<https://www.umkc.edu/heartland-rate/>), undergraduate students from these states pay 150% of in-state tuition, which represents a \$10,000 value:

- Arkansas
- Illinois
- Indiana
- Iowa
- Kentucky
- Michigan
- Minnesota
- Nebraska
- North Dakota
- Ohio
- Oklahoma
- South Dakota
- Tennessee
- Texas
- Wisconsin

Rates are effective beginning in Fall 2018 for undergraduate students.* Residency rules apply. Rates will be applied automatically for students in the Heartland Rate states, including those who have already been admitted.

To learn more about the Heartland Rate, contact our Admissions team (admit@umkc.edu?subject=Heartland%20Rate%20inquiry%20from%20website) today.

* Savings amount of \$10,000 is based on cost of tuition for full-time non-resident undergraduate students taking 30 credit hours annually. Graduate and professional medical, dental, pharmacy and law students are not eligible. If you are an undergraduate student currently receiving a discount through the Midwest Student Exchange Program (MSEP), you will now receive the Heartland discount. Some graduate and professional students are still eligible for the MSEP rate. Find out more (<http://msep.mhec.org/institution/university-missouri-kansas-city/>) about whether your program is included.

Kansas Rate

Kansas Rate

Why offer the Kansas Rate (<https://www.umkc.edu/kansas-rate/>)? Because we know the cost of college isn't just about tuition. By using the Kansas Rate, you'll save nearly \$14,000 each academic year – money you can use on textbooks, technology, housing or just the cost of life.

Rates are effective beginning in Fall 2018 for undergraduate students.* Residency rules apply. Rates will be applied automatically for Kansas residents, including students who have already been admitted.

To learn more about the Kansas Rate, contact our Admissions team (admit@umkc.edu?subject=Kansas%20Rate%20inquiry%20from%20website) today.

Graduate students in the following Kansas counties are still eligible for the in-state rate:**

- Atchison
- Douglas
- Franklin
- Jackson
- Jefferson
- Johnson
- Leavenworth
- Miami
- Osage
- Shawnee
- Wyandotte

* Savings amount of \$14,000 is based on cost of tuition for full-time non-resident undergraduate students taking 30 credit hours annually.

** In-state rates are not in effect for graduate students pursuing professional degrees in medicine, dentistry, pharmacy and law.

Policies on Admission of International Students

Students Served by the International Student Affairs Office (ISAO)

ISAO is responsible for processing the admission of any student who does not hold US citizenship including those awaiting approval of permanent residency or asylum, and those currently holding Temporary Protected Status (TPS).

The UMKC Admissions Office processes all applicants in the below categories.

- US Permanent Residents
- DACA recipients
- Undocumented
- U visa holders
- Refugee and Asylum status holders
- Citizens of Micronesia, Palau, or the Marshall Islands

Application for Academic Admission

All international students must submit an application to be considered for admission. The UMKC general application can be found at <https://futureroo.umkc.edu/apply/>

All new applicants are required to

- Pay the non-refundable \$75.00 application fee
 - Application fee waivers are not available to international applicants.
- Submit exact line-by-line English translations of all academic records issued in other languages
- Provide proof of English language proficiency. (Please refer to section below entitled English Proficiency Requirement for more information.)

- Provide documentation of all previous academic work as is outlined below INCLUDING any English language study completed in the United States.
- See below for specific requirements by application type.

First Time College/Freshman Application

Students who plan to attend UMKC after graduating high school should submit the following along with their application:

1. Academic transcripts and proof of graduation from secondary school
2. Statement of Purpose
3. Any other documentation required by the academic program

Transfer Students

Students who plan to transfer from another recognized higher education institution in order to complete a degree at UMKC should submit the following along with their application:

1. Academic transcript from all previous higher education institutions.
2. Academic transcripts and proof of graduation from secondary school (required for transfer students who have completed fewer than 24 credit hours)
3. Statement of Purpose
4. Any other documentation required by the academic program.

Exceptions to Admissions Policies for International Students

Exceptions to admission policies must be approved by the appropriate authority in the college or school to which the applicant is applying. International Student Affairs should be contacted regarding all forms and procedures.

Visa Services and Document Requirements

New Initial F-1/J-1

Students who plan to apply for an initial F-1 or J-1 visa to study at UMKC must submit the following once they have been academically accepted to the university.

- Copy of valid passport
- Financial statement- This must contain proof of the ability to afford at least one academic year of study.

SEVIS Transfer F-1/J-1

Current F-1 or J-1 students who plan to transfer their SEVIS records to study at UMKC must submit the following once they have been academically accepted to the university.

- Copy of valid passport
- Financial statement- This must contain proof of the ability to afford at least one academic year of study.
- Copy of current visa
- Copy of most recent I-94
- Copy of pages 1 & 2 of current/most recent I-20 or DS-2019
- Transfer-In Form (to be completed with assistance from a DSO at the previous institution.)

Other Visa Types

Students currently in the United States holding any other visa status determined to be reviewed by the International Student Affairs Office must submit the following once they have been academically accepted to the university.

- Proof of current status in the US. This may include
 - Copy of passport
 - Copy of current visa
 - Copy of most recent I-94

Financial Statement Guidelines

Per regulations outlined by the US Federal government, F-1 and J-1 international student applicants must prove the ability to afford at least one year of study in order to be issued a Form I-20 or Form DS-2019.

Financial statements in the name of a family member, friend, or non-governmental sponsor must be accompanied by a completed Financial Statement and Affidavit of Support (<https://info.umkc.edu/ISAO/wp-content/uploads/2018/08/Affidavit-of-Support.pdf>) form signed by the account holder. Any family members accompanying F-1/J-1 students as dependents must be disclosed on this form and proof of additional funds for each dependent must be provided.

UMKC ISAO reserves the right to verify financial documentation with the issuing bank or financial institution.

Application Deadlines

Applicants should refer to the deadlines set by the academic program they are applying to. If no deadline exists, applications are accepted on a rolling basis. ISAO processing staff will inform the applicant if his or her application should be deferred to a later semester. ISAO recommends students applying from outside of the United States to apply at least 3 to 4 months before the beginning of the semester they plan to attend.

UMKC reserves the right to consider applicants for the most appropriate semester.

Requirements for Submission of Academic Records

Unless otherwise specified by an academic department, international students may submit PDF copies of their transcripts for admission review. If admitted before final, official/original transcripts and degree certificates/diplomas are received, the student is considered to be **provisionally admitted**. Official academic records can be mailed directly to

International Student Affairs Office
University of Missouri – Kansas City
5000 Holmes Street, ASSC G-04
Kansas City, Missouri 64110

Enrolled students are required to submit OFFICIAL or ORIGINAL academic records to ISAO before enrolling in their second semester of coursework. Original academic documents will be photocopied and returned to the student. Students will be informed at the point of admission which records they must arrange to provide. Students are responsible for arranging to provide UMKC ISAO with the requested documents.

UMKC reserves the right to verify submitted academic records with the issuing institution for authenticity and accuracy.

Third Party Credential Evaluation Reports

ISAO evaluates all foreign credentials. It is not necessary for admission to submit an international credential evaluation report from a third party service. However, ISAO will accept the grade point average conversion of any AICE (<https://owa.missouri.edu/owa/auth/logon.aspx?replaceCurrent=1&url=https%3a%2f%2fowa.missouri.edu%2fowa%2f%23authRedirect%3dtruehttp://aice-eval.org/members/>) or NACES (<https://www.naces.org/members.php>) accredited international credential evaluation service. ISAO will not accept degree equivalency recommendations given by these services if they do not align with already existing UMKC practices and policies. All 3rd party credential evaluations must be sent directly from the evaluator service to ISAO/ Admissions to be considered. These documents will not be accepted for evaluation purposes if sent directly by the student.

English Proficiency Requirements

International students are required to establish proof of adequate English proficiency as part of the admission process. Applicants from countries in which English is not the native language (or if it is one of the official languages but is not necessarily the first language of the majority of the population) are required to provide proof of English proficiency. Applicants may do so through the following methods:

- Provide UMKC with official test scores from:
 - TOEFL (Test of English as a Foreign Language) with a minimum score of 61
 - IELTS (International English Language Testing System) with a score minimum of 5.5 with 5.5 in each band
 - PTE (Pearson Test of English) with a minimum score of 44
 - DET (Duolingo English Test) with a minimum score of 90
 - SAT (Scholastic Aptitude Test) with a minimum score of 460 in the Evidence-Based Reading and Writing section
- Completion of 24 credit hours at a US, Canadian, UK, New Zealand or Australian institution
- Completion of Composition I and II with grades of C or better at a US institution
- Successful completion of ELS Language Centers Level 112

Conditional Admission

Students with **no proof of English proficiency** or **low English proficiency test scores** may be considered for admission to certain academic programs. Contact International Student Affairs for more information.

English Proficiency Evaluation

All international students subject to the proof of English proficiency requirement with low or no test scores must be evaluated by the Applied Language Institute (<https://info.umkc.edu/ali/>) staff at UMKC regarding the level of their English proficiency. If any weakness in that level of proficiency is revealed, appropriate coursework will be required to assure that the student's success is not jeopardized.

Other Policies

Residency

International applicants on H, L, or A visa records will be considered for the residency using the same guidelines imposed on domestic applicants. International students on F, J, or M visa records are not eligible for reduced tuition rates based on residency status. Students holding any visa type not listed above are eligible to submit a residency petition to be considered by the Residency Committee.

See here for more information. (<https://umkc.edu/residency/>)

Credit by Examination/Transfer Credit

ISAO reviews all new undergraduate students with previous university coursework completed for possible transfer credit upon receipt of official, final transcripts. Students with previous university work completed at an international university are strongly encouraged to submit course descriptions for each successfully completed course as well as direct English translations of the descriptions if necessary.

Students who have completed more than 12 years of study by the end of their secondary education may be eligible for college credit upon review and approval by appropriate UMKC staff and faculty.

Admission Deferral

An offer of admission, granted on a regular basis for a given term, may be deferred for up to one calendar year from the term first granted. However, if the applicant attends another college or university after the original offer of admission, a new application must be submitted and official transcripts of the additional work must be furnished.

Applicants must request a deferral for a specific term by contacting International Student Affairs. This request can be submitted through ISAO's website here. (<https://info.umkc.edu/ISAO/admitted-students/deferred-admission/>) Individual financial support documentation must be renewed annually.

Arrival in the US

International students should plan to arrive no earlier than one month before the program start date indicated on their Form I-20. They should plan to arrive no later than 7 days prior to the program start date indicated on their Form I-20.

Registration with International Student Advisor

Admitted international students must report to the International Student Affairs Office for a Check-In Session (<https://info.umkc.edu/ISAO/admitted-students/>) prior to their first registration at UMKC. International students must adhere to all regulations of their given visa, including any requirements regarding full-time enrollment and work authorization. Students may work directly with an international student advisor to understand their regulatory obligations and opportunities available through their given visa.

Health Insurance

Effective fall 1998, international students on F or J visas are required to purchase exclusive, mandatory UMKC health insurance.

International Orientation

All degree-seeking international students new to UMKC are required to attend International Orientation and will be assessed a \$50 fee. International Orientation is held the Thursday before the start of classes for the Fall and Spring semesters. Students who begin their studies in the Summer will be required to attend Fall Orientation.

A make-up Orientation will be held mid-semester in the Fall and Spring. If a student misses both the Orientation for their starting term and the make-up Orientation that term, they will be assessed another \$50 fee and will be required to attend the next possible Orientation. Students will continue to be charged \$50 each semester until they have successfully completed this requirement.

More Information

International applicants to undergraduate programs who want more information and forms to apply for admission can go to <http://www.umkc.edu/isao> (<http://www.umkc.edu/isao/>) or email ISAO at isao@umkc.edu. (<http://catalog.umkc.edu/undergraduate-academic-regulations-information/undergraduate-admission-policy-procedures/policies-on-admission-of-international-students/isao@umkc.edu>)

Policies on Regular Admission - Medicine

General

The School of Medicine's Council on Selection carefully reviews applicants to the six-year combined baccalaureate/M.D. program. Academic potential, as evidenced by the quality of high school courses, rank in class and admission test scores, and personal qualities such as leadership in school or community, stamina, reliability, motivation for medicine and range of interests, are considered. Applicants who appear to be well qualified are invited to the UMKC campus for interviews. If invited, the applicants are notified in writing and required to be present at the scheduled date and time of the interviews. Residency in Missouri will be considered before all other factors in selecting students for this program. (See the School of Medicine section of the catalog for complete details.)

Admissions Test - Medical Program

The American College Testing Program, called the ACT, examination is required for all in-state applicants. The Scholastic Aptitude Test, called the SAT, is accepted for out-of-state applicants in some instances.

Deadline for Application - Medical Program

The deadline for application for Year 1 is Nov. 1 of the year preceding the one for which the student is applying. By this date, a completed application form must be received, and all other required credentials, application supplements, test scores, references and six-semester high school transcript, should be in process and sent as soon as possible. The earliest date for applying is Aug. 1 of the year preceding entry.

Special Admission Cases

Trial Admission

High school graduates who do not meet the standards for regular admission from high school may, in some cases, be admitted to the University on a conditional trial basis. If admitted, students may be required to participate in an academic support program as a condition of their admission. The student must earn a 2.0 grade-point average to be eligible to enroll the following semester.

Students can choose from several options during their senior year in high school or the summer before their freshman year to be considered for regular admission:

- Take coursework in the required area during the summer prior to the fall semester of their freshman year.
- Enroll in college-level coursework in the required area at an accredited community college or four-year institution.
- Complete the required coursework through correspondence or independent study.

Early Admission from High School

Superior high school students who have completed all of the requirements for graduation from high school but who will not receive a high school diploma until their class graduates will be considered for admission based on the criteria under Regular Admission from High School (p. 499). The applicant's high school principal or counselor must certify that graduation requirements have been met and written parental approval is required.

Dual High School-University Enrollment

High school students may be admitted in a special student category for the purpose of taking University courses concurrently with high school courses.

Students interested in enrolling in dual credit classes taken at their high school for both high school and college credit should contact the High School College Partnerships. (<http://www.umkc.edu/hscp/>)

High school students wanting to take college courses on UMKC's campus must submit a special application (<https://futureroo.umkc.edu/apply/>) that includes high school authorization.

GED High School

Any individual may apply for admission on the basis of passing the General Educational Development (GED) tests. Passing scores must be achieved in each area of the GED. The student also is required to present an ACT composite score of 24. Students not meeting this criteria may be considered for a trial admission.

Home Schooled

Graduates of home schooled programs are required to have a minimum ACT composite score of 24 and completion of the 17 units of college-preparatory curriculum. Students not meeting this criteria may be considered for a trial admission.

Mature Adults

Students who graduated high school five or more years ago and have not attempted college level course work may apply for admission without submitting ACT or SAT scores.

Timing of Applications

The Office of Admissions will begin accepting admission applications August 1 of the year preceding the Fall Semester for which the student is applying. High school seniors will be evaluated on the basis of six or more completed semesters of high school work.

Dates of Application

The preferred dates for admission application from high school are as follows:

- Fall Semester: January 15
- Spring Semester: November 1
- Summer Session: May 1

However, applicants are urged to apply well before the above dates. To be considered for scholarships, students should be admitted by **January 15th**. Some academic units have earlier deadlines. Refer to those sections of the catalog.

Six-Year Medical Program

Students interested in applying to the Six-Year Medical Program should refer to the School of Medicine section of the catalog to get information on application deadlines.

PharmD. Program

Students interested in applying to the PharmD. program should refer to the School of Pharmacy section of the catalog to get information on application deadlines.

Transfer Admission

Students who have completed 24 or more semester hours of college-level work are eligible for admission if they have attained an overall grade-point average (GPA) of at least 2.0 (on a 4.0 scale) in all college-level courses attempted at previous institutions.

Note: Academic units may have more stringent requirements. Check the section of the catalog that describes the degree program and major you are seeking.

Regular Admission

Students transferring from other colleges or universities should submit the following to the Office of Admissions:

1. Completed UMKC application form at <http://www.umkc.edu/admissions/apply> (<http://www.umkc.edu/admissions/apply/>). Domestic students, including Permanent Residents, Assylees, and Refugees, apply through the Office of Admissions; International students apply through International Student Affairs. Contact the appropriate office for paper application forms.
2. Nonrefundable application fee. The fee for a domestic online application is \$45; the fee for an international student application is \$75.
3. Official transcripts from all colleges and universities where coursework was attempted.

A transferring student who has completed fewer than 24 hours of college-level coursework must apply under the procedures for admission as a freshman and must have at least a 2.0 overall GPA in all college work attempted. These students must submit the following to the Office of Admissions:

1. High school transcript with class rank and ACT score (if less than 24 college credits).
2. Official transcript of all college courses completed and courses in which the student is currently enrolled.

Special Admission

Transfer students who do not have a 2.0 GPA are welcome to apply for admission; however, admission is not guaranteed and a student may be admitted on a probationary status.

Transfer Within the University of Missouri System

Students may transfer among campuses within the University of Missouri System. Any course that leads to an undergraduate degree on any campus of the University of Missouri System is accepted in transfer toward the same degree on each campus of the UM System offering that degree.

Students will have two cumulative grade-point averages. One is the campus GPA that will be calculated by procedures defined at the campus. The second is the University of Missouri GPA, which will include all grades and credits attempted at any University of Missouri campus, including all grades, credits and points for any courses that are repeated.

Any student attempting to transfer between University of Missouri campuses to UMKC should be aware that their cumulative University of Missouri GPA will be used to determine their admissibility.

Transfer of College Credit from Other Colleges and Universities

Refer to the Undergraduate Academic Regulations and Information section of the catalog.

Students who have completed an associates degree (AA or AS) from an accredited college or university and have a cumulative GPA of 2.0 (on a 4.0 scale) are admissible to the University, but not necessarily to specific programs. For the additional admission requirements of specific degree programs, refer to the appropriate sections of the catalog.

Transfer Credit Policy

Transfer credit is entered and reviewed on a course-by-course basis from the sending institution. If the course has been previously evaluated by an Academic Unit, the course equivalency is stored in the transfer credit database and credit is assigned based on those prior decisions. If the transcript is for a new course, new institution, or out-of-state institution, equivalencies for general education courses are determined by the Transfer Credit Coordinator in the Registration and Records Office. If the course is college level and an exact equivalency is unknown, elective credit is assigned and review of the course is completed by the Academic Unit to determine degree applicability. If the Transfer Credit Coordinator is unable to determine if a course should receive elective credit, the process for an Academic Unit evaluation is initiated by sending a course description (and syllabus, if available) to the Academic Unit for review. The transfer credit database is updated with the Academic Unit evaluation to ensure consistency in credit assignment going forward for that course.

Transfer credit evaluations may find coursework to be an exact UMKC equivalency, non-exact equivalent that are identified as elective credit, or not accepted in transfer. The sending institution determines the level (lower level/upper level) of the course. The Office of Registration and Records maintains a transfer equivalency database of all evaluated courses. This database is available to both current and prospective students within Pathway, (UMKC's course enrollment system) and Transferology (UMKC's course transfer database). Only transfer credit from a UM-system school is including in the UMKC GPA calculation.

Veteran Residency

The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition purposes:

- A participant using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program), chapter 31 (Vocational Rehabilitation and Employment), or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the State of Missouri while attending a school located in the State of Missouri (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.
- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in the State of Missouri while attending a school located in the State of Missouri (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor's discharge from a period of active duty service of 90 days or more.
- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the State of Missouri while attending a school located in the State of Missouri (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member's death in the line of duty following a period of active duty service of 90 days or more.
- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same school. The person so described must have enrolled in the school prior to the expiration of the three year period following discharge or death described above and must be using educational benefits under chapter 30, chapter 31, or chapter 33, of title 38, United States Code.

Visiting and Community Student Admission

Students from other institutions who wish to attend UMKC to transfer courses back to their home institutions may be admitted as Visiting Students for a term. Students are encouraged to check with officials at their home institution to guarantee that UMKC courses are transferable and fulfill their program's degree requirements.

Students who are members of the community and who do not wish to earn a degree at UMKC, but are not currently seeking a degree at another institution, may apply as Community Students.

Students may obtain a Visiting/Community Student Application form at <http://www.umkc.edu/apply/visiting.asp> or from the Office of Admissions. Not all academic programs are open to visiting/community students. Some academic units require that the non-degree seeking student be certified by the home institution as a student in good standing. Consult the application for specific program and course eligibility.

Policy on Admission Credentials

All credentials submitted in support of the application for admission become the property of UMKC.

Undergraduate Research & Creative Scholarship

Undergraduate Research & Creative Scholarship at UMKC

As Kansas City's urban research university, UMKC offers undergraduate students exciting opportunities to enrich their education by joining in the cutting-edge research, innovative scholarship, and groundbreaking artistic work of the faculty. Undergraduates can enroll in EUREKA classes (Experiences in Undergraduate Research); apply for small grants through SEARCH (Students Engaged in the Arts and Research) and SUROP (Summer Undergraduate Research Opportunity); participate in research sponsored by external funders, such as the National Science Foundation, National Institutes of Health, and National Endowment for the Humanities; and use their federal work-study awards to gain experience as Undergraduate Research Associates. Full details about Undergraduate & Creative Scholarship at UMKC are available at <https://www.umkc.edu/searchsite/>.

Students may also apply for the honorary designation "Undergraduate Research Fellow," which will appear as a milestone on their transcripts. The designation "Undergraduate Research Fellow" also appears in the Commencement Program during the semester when a student earning the honor applies for graduation.

To be considered for this honor, students will have been involved in all major phases of their research or artistic projects, including the conception and implementation of their research, scholarly, or artistic work and its circulation to an audience beyond the classroom. Applicants are also required to submit an endorsement from their faculty mentor(s).

Generally, students awarded the distinction of "UMKC Undergraduate Research Fellow" will have been engaged with their projects over multiple semesters, resulting in an original contribution to their field, and will submit their application to UMKC's Undergraduate Research Advisory Board in their final few semesters at UMKC. The Undergraduate Research Advisory Board reviews each application and presents a recommendation to UMKC's Director of Undergraduate Research, who is solely responsible for awarding the honorary designation.

Deadlines for applying for the designation of Undergraduate Research Fellow are October 1 in the Fall semester and March 1 in the Spring semester. Application guidelines can be found at <https://www.umkc.edu/searchsite/fellow/index.shtml> (<https://www.umkc.edu/searchsite/fellow/index.shtml/>).

Writing Intensive

Writing Intensive Courses

Writing Intensive courses at UMKC are undergraduate courses of at least 3 credit hours, at the junior or senior level, generally designated by WI or WL following the course number.

At the end of a Writing Intensive course at UMKC, students should be able to:

- Write in genres, participate in activities, and perform assignments that are appropriate to the respective discipline.
- Demonstrate their ability through writing to read closely and analyze critically the texts of their disciplines.
- Produce writing through the recursive process of brainstorming, research, drafting, peer review, and revising.
- Articulate and support a coherent thesis or purpose in their writing and develop it according to the conventions of a given discipline or audience.
- Use research methods and documentation that meet the standards of the discipline.
- Articulate and discuss their work with peers or the instructor.

For example, to achieve these goals Writing Intensive course design emphasizes and teaches writing as a recursive process, some class time is devoted to helping students complete writing assignments, writing assignments are distributed throughout the semester, and differ in length and purpose, the course requires 5,000-10,000 words (approximately 20-40 double-spaced pages) of revised, final-draft quality writing, and writing assignments account for at least 40 percent of the course grade. Complete guidelines and mandatory requirements for the design of and best practices for teaching a Writing Intensive course at UMKC appear on the University Writing and Reading Board (UWRB) website, <http://www.umkc.edu/uwr/>, or can be obtained by contacting the UWRB at uwr@umkc.edu.

PRE-MEDICINE/PRE-HEALTH

Among the fastest-growing career areas are the health-related professions and this trend is likely to continue in the 21st century, according to the U.S. Department of Labor. These employment opportunities require specialized training and one to four years of college-level studies in the appropriate pre-professional curricula. The pre-medicine/pre-health tracks are designed to help prepare students for future careers in the health arena and guide them through the process of applying to the various professional programs in health care.

The pre-medicine/pre-health tracks designed by the College of Arts and Sciences and the School of Biological and Chemical Sciences assist students following a traditional path toward ultimately earning a professional degree in a medical or health care field. Most students first earn a bachelor's degree, followed by training in a professional program such as a four-year medical or dental school or a master's degree program. These tracks are distinctly different from the unique six-year programs offered by UMKC in medicine and pharmacy described elsewhere in this catalog. For information about dentistry please see the UMKC Dental Program in the Graduate Catalog.

Some of the pre-professional programs in health care include:

- Pre-Dental Hygiene
- Pre-Dentistry
- Pre-Health, which includes advising for careers in:
 - Anesthesiologist Assistant
 - Chiropractic
 - Clinical Perfusion
 - Health Administration
 - Health Information Management
 - Nutrition/Dietetics
 - Occupational Therapy
 - Optometry
 - Physical Therapy
 - Physician Assistant
 - Podiatry
 - Respiratory Therapy
 - Veterinary Medicine
- Pre-Medicine (allopathic and osteopathic)
- Pre-Nursing
- Pre-Pharmacy
- Medical Technology (see section under School of Biological Sciences)

Advising

Experienced advisors in the College of Arts and Sciences and the School of Biological Sciences are knowledgeable about the professional school admission processes.

Advisors guide students in:

- Choice of majors
- Choice of courses
- Volunteer and shadowing opportunities
- Undergraduate research options
- Other health care professions
- Career alternatives

Advisors also give students invaluable help with:

- The professional school application process
- Preparation for professional school admission tests (MCAT, DAT, OAT, VCAT, etc.)
- Letters of recommendation
- Writing the personal statement
- Successful interview strategies

Choosing an Undergraduate Major

Following the pre-medicine or pre-health track means taking specific courses that professional programs require for admission, but "pre-medicine" or "pre-health" **are not actual degrees**. Students need to choose a major field of study to combine with one of these tracks. Students can choose to follow these tracks through the College of Arts and Sciences or the School of Biological Sciences, depending on the major selected. Professional schools accept individuals from a variety of educational backgrounds and majors. When choosing a major, it is wise for students to consider their personal interests and strengths as well as possible alternative career goals.

The School of Biological Sciences offers degrees in biology, including a bachelor of science in biology with an emphasis in the cellular and molecular basis of health and disease for pre-medicine students, and a pre-dentistry concentration for pre-dentistry students. Undergraduate students in the biological sciences also have the opportunity to work with faculty mentors in life sciences research.

The College of Arts and Sciences offers degree choices and medically related undergraduate research in areas spanning the sciences, social sciences and humanities. Popular majors to combine with pre-medicine and pre-health include psychology, chemistry, communication studies, physics, English, Spanish, and philosophy. Many other combinations in the 18 academic departments are possible, and advisors in the tracks will help students apply their interests to design the right combination.

College of Arts and Sciences Track

Cynthia Eick McDonald

Coordinator of Pre-Health Programs

Scofield Hall (<http://www.umkc.edu/virtualtour/scofield.asp>), Room 9

711 E. 51st Street

(816) 235-6098

mcdonaldce@umkc.edu (shafferjohnsonc@umkc.edu)

Students following the pre-medicine/pre-health track can enhance their preparation for health care careers through any major in the College of Arts and Sciences. While the relationship to majors such as chemistry or physics is clear, students may be surprised to discover how their interests in other majors within the College of Arts and Sciences (p. 554) will strengthen their abilities as future health care providers. For example:

- Students combining a major in psychology with the pre-medical/pre-health track will learn how psychology influences health and wellness, the prevention of disease and the healing process.
- Students majoring in communication studies will learn the critical importance of communication in health care, from the doctor-patient relationship to the interpersonal communication between members of a health care team to the power and politics of mass media.
- Philosophy majors will apply bioethical principles to "real world" dilemmas such as physician-assisted suicide.

Pre-medical and pre-health students can easily combine any major within the College of Arts and Sciences with the prerequisites for medical, dental or other health professions schools. First-year students in the College of Arts & Sciences pre-professional tracks who have not yet declared a major are required to enroll in the A&S Career Development sequence during their first two to three semesters. A&S 115, A&S 215 and A&S 315 are for one credit hour each and they are offered in a sequence starting in the fall semester. These courses are also highly recommended for all pre-professional freshman students with a declared major. UNIV 102, a two credit hour course, also satisfies the expectations for A&S 115 and A&S 215.

The College also offers:

- **The pre-medical/pre-dental curriculum** which may be combined with any major within the College of Arts and Sciences. This allows students the opportunity to complete the necessary prerequisite courses for admission to medical/dental schools in the United States and Canada.
- **Interdisciplinary courses that examine the complicated nature of health care.** Topics include the doctor-patient relationship, other aspects of health communication, health promotion and prevention and controversial issues in bioethics.
- **Medically related research projects** in such areas as clinical health psychology, chemistry, and physics. Current topics include disease prevention, psychological and communication barriers to adherence, and factors linking obesity, smoking, alcohol abuse, diet and exercise with cancer, cardiovascular disease and HIV/AIDS. Research partners include the Mid-America Heart Institute, Saint Luke's Hospital, UMKC Schools of Dentistry and Medicine and the Kansas City Free Health Clinic.
- **Dental-related research projects** which investigate topics such as pain management, disease prevention, psychological barriers in the healing process and the use of chemistry and physics to identify and construct new polymers for use as posterior restorations.
- **The Gerontology Certificate** allows students to explore relevant medical and social issues of the new millennium as people live longer, our population ages, and "care" becomes as important as "cure."
- **The Bioethics and Medical Humanities Minor.** Students can combine a minor in Bioethics and Medical Humanities in conjunction with any other major or as part of the BLA degree. See the Bioethics and Medical Humanities Minor (p. 911) for more information.

Pre-Medicine/Dentistry

The purpose of the pre-medicine/dentistry curriculum is to prepare the student for application to medical/dental schools. Students may complete the pre-medicine/dentistry curriculum within any major.

The courses recommended in the pre-medicine/dentistry curriculum do not constitute an academic major but are the courses required for entrance into the majority of medical/dental schools in the United States and Canada. They also provide students with the information needed to obtain top scores on the Medical College Admission Test (MCAT) and Dental Admissions Test (DAT), which are required for entrance into medical and dental schools.

In addition to gaining a strong foundation in the sciences, pre-medicine/dentistry students also will receive support services to help them best prepare for application to medical or dental school.

For students considering other health professions or seeking admission to specific programs with additional prerequisite courses, the curriculum may be tailored to meet these requirements.

Medical/Dental School Admission Requirements

1. Two semesters of general biology with corresponding laboratories:

Code	Title	Credits
BIOLOGY 108	General Biology I	3
BIOLOGY 108L	General Biology I Laboratory	1
BIOLOGY 109	General Biology II	3
BIOLOGY 109L	General Biology II Laboratory	1
Total Credits		8

2. Two semesters of general chemistry with corresponding laboratories:

Code	Title	Credits
CHEM 211	General Chemistry I	4
CHEM 211L	Experimental General Chemistry I	1
CHEM 212R	General Chemistry II	4
CHEM 212LR	Experimental General Chemistry II	1
Total Credits		10

3. Two semesters of organic chemistry with corresponding laboratories:

Code	Title	Credits
CHEM 321	Organic Chemistry I	3
CHEM 321L	Organic Chemistry Laboratory I	1
CHEM 322R	Organic Chemistry II	3
CHEM 322L	Organic Chemistry Laboratory II	1
Total Credits		8

4. Two semesters of physics including laboratories:

Code	Title	Credits
PHYSICS 210	General Physics I	4
PHYSICS 220	General Physics II	4
Total Credits		8

5. Two semesters of English composition:

Code	Title	Credits
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Total Credits		6

In addition to the admission requirements listed above, most medical and dental schools recommend more advanced courses in biology, such as cell biology, genetics and biochemistry, and/or additional chemistry courses. Students should also take upper-level courses that demonstrate the requisite intellectual discipline and analytical and problem solving skills necessary to succeed in medical or dental school. Students are strongly encouraged to balance their work in the sciences with courses in communication studies, computer science, English literature, philosophy, psychology and sociology. A broad understanding of health care and medicine is also expected and work and/or volunteer experiences, including physician shadowing, in settings such as health care agencies, hospitals and physician offices is recommended.

UMKC School of Medicine MD Completion Program

While the UMKC School of Medicine is primarily a combined-degree (BA/MD) program, it annually accepts a limited number of MD-only students who have completed their pre-medical studies and baccalaureate degrees. Students completing their pre-medical studies at UMKC and applying to the School of Medicine have the advantage of taking courses with medical students, interacting with faculty who also teach at the medical school and securing recommendations from individuals familiar with the School of Medicine's curriculum and faculty. For more information about this program or to request an application, contact the Admissions Office at the School of Medicine.

UMKC School of Dentistry Reserved Admission Program

The Reserved Admission Program for the Doctor of Dental Surgery (DDS) degree at the UMKC School of Dentistry enables highly motivated, ambitious, talented students to pursue their dream of becoming a dentist. Because admission to the Reserved Admission Program is very competitive, qualified reserved admission program students will have a reserved seat in a future UMKC School of Dentistry DDS Program class of their choosing, and they will not have to compete further for admission into the UMKC dental school. Entry into the program is available to students from Missouri and Kansas.

To be eligible to apply for Reserved Admission you must have completed a minimum of but not more than four semesters of college credit while being continuously enrolled in full-time course loads (a minimum of 15-18 credit hours per semester). Your science grade point average must be at least 3.60 in a degree-seeking program including prerequisite courses.

For more information about this program or to request an application, contact the Office of Student Programs at the School of Dentistry, (816) 235-2080.

School of Biological and Chemical Sciences - PreMedicine/Pre-Health

Students interested in the scientific aspects of medicine or dentistry may find the School of Biological Sciences to be the right place for them. A major in biology incorporates courses in biology, chemistry and physics with a broad foundation in the social sciences and humanities. By meeting the degree requirements for the bachelor of science in biology with the cellular and molecular basis of health and disease emphasis, students will automatically fulfill all of the prerequisites and the upper-level biology courses which are highly recommended by most medical schools. The bachelor of science in biology with the pre-dentistry concentration allows students to complete all of the prerequisites and upper-level biology courses strongly suggested by most dental schools. More information about this can be found in the School of Biological and Chemical Sciences section of this catalog.

- **Investigate the molecular basis of disease.** Courses such as genetics, cell biology, biochemistry and molecular biology examine the essential elements of modern biological sciences. Electives like neurobiology, endocrinology, immunology and virology emphasize experimental approaches that lay the foundation for the treatment and prevention of disease.
- **Perform hands-on experiments** with cells and tissues in facilities equipped with cutting-edge technology. Laboratory courses such as microbiology and histology bring textbook topics to life and allow students to learn the basics of research.
- **Discover and create new knowledge.** In cooperation with faculty, students apply powerful techniques like automated DNA sequencing, robotic genomic analysis and electron and confocal microscopy, to current biomedical problems. Students electing to do their own research may open many doors for their future.
- **Pursue personal interests in biology.** From the study of plants to the study of insects, students can explore practical applications like drug discovery and disease control by selecting from a variety of courses. Field trips and outings allow students to observe biological principles in action.

Student Organizations

There are more than 200 active student organizations (including Greek) at UMKC that promote student leadership, volunteerism, community service and socialization. Some of the popular organizations among pre-health students include:

Alpha Eta Chapter of Alpha Phi Omega

This organization carries out service programs aimed at serving the chapter, campus, community and nation with emphasis on serving primarily the UMKC campus and the Kansas City area.

Arts and Sciences Student Council

The council aims to provide an interdisciplinary body in which Arts and Sciences students can provide input on decisions and policies of the College. The council works to enhance student-faculty interaction and communication, allocate its authorized budget and insure that Arts and Sciences students' needs, desires and attitudes are correctly represented to the administration.

Biological Sciences Student Government (BSSG)

The BSSG plans informational and social activities for students. Past activities include guest speakers from the Kansas City Police Department Forensics Unit, Children's Mercy Hospital and the Missouri Department of Natural Resources, picnics and group ice-skating. Pre-medical students can participate in the School of Biological Sciences' annual hosting of distinguished biomedical scientists, including Nobel Prize winners and National Academy of Sciences members, addressing frontier issues in biomedicine.

Institute for Leadership and Service

This university-wide organization focuses their mission on meeting community needs, improving participant's lives, strengthening communities, and building partnerships. Through ILS activities, participants hone their leadership skills and community service experiences to complement their dedication to service in the health professions. Since health professional schools value these experiences, pre-health students can benefit from being involved with the ILS program.

Pre-Dental Society

This is a university-wide student organization that provides various extracurricular opportunities for students to learn about dental-related professions and to network with other like-minded students. Previous meetings have focused on the application process for dental schools, preparation for the DAT, and volunteer opportunities in the community. Guest speakers include current dental students, practicing dentists, and dental school admission representatives.

Pre-Dental Hygiene Society

This newly formed student organizations allows pre-dental hygiene students to network together and learn about the profession of dental hygiene.

Meeting topics include tours of the UMKC School of Dentistry and how to prepare for entry into dental hygiene programs. Guest speakers include dental hygiene faculty, students, and current practitioners.

Pre-Medical Society

This is a university-wide student organization that provides various extracurricular opportunities for students to learn about the health care professions and to network with other like-minded students. Previous meetings have included discussions on Bioethics, HMOs, organ donation, complementary medicine, genetics and gene therapy, cloning, HIV/AIDS and taking patient histories. The society regularly hosts recruiters from medical schools as well as representatives from volunteer opportunities in the community.

Pre-Physician Assistant Society

The purpose of this organization is to provide UMKC students with information regarding a career as a Physician Assistant. The organization meets regularly to provide members with networking opportunities and experience hands-on activities such a suturing clinics.

Major Map

Non-Degree Statement

It is the student's responsibility to ensure that all program admission requirements are met. Students are responsible for checking prerequisites to any course. While each medical school requires the completion of a four-year degree from an accredited institution, the premedical coursework requirements vary from school to school. Every medical school determines their own list of required or recommended premedical coursework, and some accept AP, online, and community college courses while others do not. Some require you to complete a specific classes while others have progressed to competency-based admissions and do not require students to complete a particular list of courses prior to applying. Each school also has unique requirements for coursework, lab experience, volunteer experience, and "shadowing" experience. In general, students will likely complete the following types of courses:

One year of Biology

One year of English

Two years of Chemistry (through Organic Chemistry)

School-specific requirements for each U.S. and Canadian medical school, see the following link: <https://apps.aamc.org/msar-ui/#/landing>

*Biochemistry and Statistics are included on the MCAT but may not be an admission requirement

First Year

Fall Semester	Credits	Spring Semester	Credits
BIOLOGY 108 & 108L (or BIOLOGY 109 & 109L) ^{CC}	4	BIOLOGY 109 & 109L (or BIOLOGY 108 & 108L) ^{CC}	4

Academic Honesty and Student Code of Conduct

The Board of Curators of the University of Missouri recognizes that academic honesty is essential for the intellectual life of the University. Faculty members have a special obligation to expect high standards of academic honesty in all student work. Students have a special obligation to adhere to such standards. Academic dishonesty, including cheating, plagiarism or sabotage, is adjudicated through the University of Missouri Student Conduct Code (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct/) and Rules of Procedures in Student Conduct Matters (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.020_rules_of_procedures_in_student_conduct_matters/).

There are also academic honor codes in the schools of pharmacy, dentistry, medicine, nursing and law.

- School of Pharmacy Honor Codes
- School of Medicine Honor Codes (p. 524)
- School of Dentistry Honor Codes (p. 517)
- School of Nursing and Health Studies Honor Codes (p. 534)
- School of Law Honor Codes (p. 518)

School of Dentistry Honor Codes

Standards of Professional Conduct

(Approved by the Faculty of the School of Dentistry: 9/12/2002, Curator approval 4/2004)

Definition: In this document, "student" shall refer to any person having once been admitted to the School of Dentistry who has not completed a course of study and who intends to or does continue a course of study in or through the School of Dentistry. For the purpose of these rules, student status continues whether or not the University's academic programs are in session.

Students at the University of Missouri at Kansas City School of Dentistry are seeking special knowledge, skills, and privileges. The confirmation of a professional degree, inferring the acquisition of knowledge and privileges, places the graduate of this institution in a unique position of assuming direct responsibility for health issues of those persons and institutions who place their trust in the University and the dental and dental hygiene professions. It is a demonstration of, and commitment to, special knowledge, protection of privileges, and assumption of responsibility and trust that, by definition, delineates a professional. Therefore, those who would aspire to receive the confirmation of a professional degree are expected to provide satisfactory evidence that exceeds knowledge and technical competence. Evidence that the well-being of patients, trust of society and respect of colleagues is a primary goal must be demonstrated. Accordingly, students must subscribe to principles of ethics and a code of professional conduct that gives testimony to their commitment and ability to deserve the privileges and trust with which society and their patients will honor them. This document serves as a guide for students.

The Standards of Professional Conduct are drawn from the Principles of Ethics and Code of Professional Conduct of the American Dental Association, and the American Dental Hygienists' Association Code of Ethics. The former recognizes that students are under the supervision of graduate dentists and dental hygienists and other faculty during interactions with patients. Students should aspire to meet the high ideals of their professions which may exceed their legal duties, but must meet the minimum standards expressed in the School of Dentistry's Code of Professional Conduct.

1. Dental and dental hygiene students must achieve and consistently demonstrate acceptable levels of personal hygiene and dress.
2. Dental and dental hygiene students must achieve and consistently demonstrate concern for patients, peers, and others. Dental and dental hygiene health care providers have a duty to ensure:
 - a. Patients are treated according to their desires and must be included in treatment decisions.
 - b. Patient confidentiality in the entire range of the provider-patient relationship which includes dental records.
 - c. That no harm or potential harm is done to the patient either through intent, ignorance, lack of preparation for the patient encounter, lack of skill, personal impairment of any kind.

- d. That no patient is “abandoned” which is defined as discontinuance of care without just cause and without giving the patient adequate notice and the opportunity to obtain the services of another provider.
 - e. That the patient’s welfare (i.e. the provision of competent and timely delivery of dental care within the bounds of clinical circumstances as presented by the patient such as needs, desires and values) is paramount and takes precedence above all else. This also includes the obligation to a) identify and report perioral signs of abuse and neglect and to consult with faculty to report suspected cases to proper authorities as required by law; and, b) report instances of faulty treatment whether intentional or not, to the appropriate faculty member.
 - f. That all people including patients, staff, faculty and all other individuals are treated fairly, respectfully, and without prejudice.
 - g. All standards and requirements of patient care established by the School of Dentistry are followed.
3. Dental and dental hygiene students’ behavior must exemplify the highest moral and ethical standards. The following represents conduct that is incompatible with these standards:
- a. Any behavior that tends to gain an unfair advantage for any student in an academic matter. This includes, but is not necessarily limited to, the following guidelines:
 - i. No student shall, during an examination have, use or solicit any unauthorized information or material (written or oral), copy from another student’s paper or discuss the examination with any other person.
 - ii. No student shall during an examination knowingly give any unauthorized aid to another student.
 - iii. No student shall acquire by any means knowledge of the contents of an examination yet to be given.
 - iv. No student shall fraudulently claim for credit any classroom, clinical, laboratory, or other procedure or assignment performed by an unauthorized person, including a fellow student.

Anyone who has reasonable cause to believe that a student has acted unethically is obligated to bring the matter to the attention of the Assistant Dean for Student Programs or his/her designee who will follow the process identified in the Preliminary Procedures section of the UMKC School of Dentistry Honor Council Due Process Procedures for Violations of the Standards of Professional Conduct, to determine whether there has been a violation and whether charges should be brought.

School of Law Honor Codes

I. Preamble

We, the students at the University of Missouri - Kansas City School of Law, recognizing that the recorded evaluation of our academic pursuits must reflect the products of intelligence guided by integrity, do hereby establish this Honor Code so that all who may inquire can be assured that our individual accomplishments were honestly achieved; and so all who achieve may welcome inquiry. Wherefore we pledge ourselves, each and all, to careers founded in integrity and to the enforcement of the standards herein defined. Each student shall have the affirmative duty of assisting in the implementation of this Code.

II. Definitions

1. **Academic Matter:**
All examinations, writing assignments, and programs or activities (such as Moot Court, Law Review or Urban Lawyer) which in any manner affect or result in a Law School grade or satisfaction of a requirement for graduation.
2. **Accused:**
Student who is the subject of a hearing on an Honor Code violation.
3. **Class:**
Group of students, based on year in Law School and academic progress. For the purposes of this code, those who are in their post third-year or are working on advanced degrees, shall be deemed third-year students.
4. **Gender:**
Any use of grammatical gender reference shall be interpreted as applying equally to males and females.
5. **Matter Relating to Academic Credentials:**
Any representation made to any person concerning academic achievements or performance in Law School sponsored programs affecting a requirement for graduation.
6. **SBA President:**
President of the Student Bar Association.
7. **Student:**
A student (as defined in 200.020.B.8. of the University’s Collected Rules and Regulations) at the University of Missouri-Kansas City School of Law.
8. **Unauthorized Sources:**
All written material and persons except as otherwise authorized by the instructor.

III. Violations

1. Jurisdiction:

Any conduct by a student that tends to gain or give an unfair advantage for any student in any academic matter or in any matter relating to academic credentials is considered unethical and a violation of the Code. It shall not be necessary for the Prosecutor to prove that any advantage was, in fact, achieved. Any conduct by a student impeding the fair operation of this Code is also a violation of this Code

2. Specific Violations:

Prohibitions of the Code include, but are not limited to, the following:

- During an examination, no student shall have, consult, give to another, receive from another, or solicit from another any information or material unless specifically authorized by the instructor.
- No student shall knowingly convey, directly or indirectly, to another student any information about the contents of an examination that the other student has yet to take.
- No student, with the intent to improve his or her grade, shall convey to
- an instructor any information that tends to identify his or her authorship of an examination yet to be graded.
- No student shall work on his or her examination other than during the time prescribed, nor in a room other than one designated for the taking of the examination.
- For any assignment that counts toward a grade or is required for graduation, no student shall consult unauthorized sources of information.
- No student shall remove or withhold library material from the library, or secrete such material in the library, or destroy or mutilate such material, or use such material in a manner calculated to gain an unfair advantage for either him or herself or another student in connection with any academic matter.
- No student shall make any false representation on a resume, transcript or other written material relating to his or her Law School credentials. Nor may any student falsely represent his or her Law School credentials in any other way to a potential employer or academic institution.
- No student shall plagiarize. Violation of the plagiarism policy adopted by the faculty of the Law School on October 11, 1990 is a violation of the Code. A statement of the offense and definition of plagiarism is incorporated in this Code by reference and linked to this Code at the following Web address: <http://law.umkc.edu/pdfs/plagiarism-policy-and-guidelines.pdf>
- No student other than the accused shall fail to report a suspected violation of this Code or fail to give information about such violation, testify, or attend hearings authorized by the Code, except for good cause shown.
- No student witness shall fail to appear at a hearing held under the Code, unless good cause exists.
- No student shall improperly induce a person not to comply with this Code.
- No student shall fail to use best efforts in the performance of his or her duty under this Code.

3. Mens Rea:

Unless otherwise specifically stated in this Code, a student is not guilty of a violation unless he or she acted knowingly or recklessly with respect to each material element of the violation.

4. Specific Exclusions:

The Code does not cover:

- Infractions of rules limiting smoking, soft drinks and coffee, etc., to certain designated examination rooms.
- Disciplinary matters not related to academic credentials or academic matters. The University of Missouri Standards of Conduct details these matters not covered by this Honor Code.

IV. Honor Court and Prosecutor

.01 Honor Court. There shall be a body known as the Honor Court composed of a Chief Justice and four Associate Justices. The Chief Justice shall be selected by a majority vote of the entire Court to serve at the pleasure of the Court.

The Honor Court shall hear all cases involving alleged violations of this Code by students, excepting those cases disposed of informally per 6.03. The proper Court to hear a charge shall be the Court sitting at the time of the hearing rather than at the time of the violation. The Court shall also make advisory opinions.

Four (4) Justices shall constitute a quorum. Each of the justices shall have one (1) vote. The Chief Justice shall be entitled to vote on all matters before the Court.

The Chief Justice, or his or her designee, shall inform new students of this Code during orientation. A copy of the Code shall be published in each edition of the Law School Student Handbook and available in the law building in the Dean's office.

.02 Student Prosecutor. There shall be a Student Prosecutor and an Assistant Student Prosecutor. The Prosecutor shall conduct investigations and present the case against the accused. The Student Prosecutor shall not make plea agreements at any time.

V. Appointments and Qualifications

.01 General. The Justices of the court shall be two third-year students, two second-year students and one first-year student. There shall be alternate justices in the same number and composition.

The Student Prosecutor shall be a third-year student. The Assistant Student Prosecutor shall be a second-year student.

.02 Appointment and Term of Office:

1. Justices. One first-year justice, one first-year alternate justice, one second-year justice, and one second-year alternate justice will be selected by the SBA President on the basis of applications submitted to him or her. The selection will be made at the first SBA meeting of the fall semester that includes the first-year representatives.
Justices will serve three one-year terms unless they re-sign, graduate, are removed for cause or become otherwise ineligible. Justices who graduate may serve until the first-year justices are appointed.
Justices seated at the time this Code becomes effective are deemed to have been appointed in accordance with this section.
2. Prosecutor. The student prosecutor shall be the person who was the assistant student prosecutor during the previous academic year, provided, however, that if that person is no longer eligible, the SBA President shall select a student prosecutor. The selection of the assistant student prosecutor shall be made by the SBA President before the end of winter semester classes. Selections shall be made on the basis of the designee's class for the following year.
The Prosecutor's term of office shall begin on the first day of the summer session, provided, however, that cases arising before or during the winter semester final examination period shall be conducted by winter semester office-holders.

.03 Forfeiture of Office for Cause. A student is ineligible to continue as a Justice, Prosecutor or an alternate if he or she is placed on academic or disciplinary probation, or if for any other reason his or her continuation in office may not be in the best interest of the School of Law as determined by the Board of Governors.

.04 Disqualified from Duty. Justices or Prosecutors shall disqualify themselves from performing their duties when they feel that they cannot impartially perform those duties. The accused can raise or suggest grounds for such disqualification of a justice. The failure of Justices to disqualify themselves may be raised on appeal as a possible abuse of discretion.

Disqualification of a Justice or Prosecutor creates a temporary vacancy and shall be filled pursuant to 5.05(b).

.05 Vacancies.

1. Permanent Vacancies. If by graduation, or for any other reason, a permanent vacancy occurs during a normal term of office, such vacancy shall be filled in a manner consistent with 5.01. If for any reason a vacancy is not filled when needed, it may be treated as a temporary vacancy and filled as prescribed. 5.05(b).
2. Temporary Vacancies. Vacancies that are created when a student is unavailable, disqualifies him or herself or the Court sustains a challenge for cause, shall be filled by the SBA President who shall ask the alternate from the same class to serve. If the alternate is not available, the SBA President shall select another member of the class who is not ineligible to serve.

IV. Violation and Investigation Reports

.01 Reports Made. Any person may report a suspected violation of the Honor Code. Reports may be made to either the SBA President or to the Associate Dean.

If reported to the SBA President, the SBA President shall notify the Associate Dean of the report of a suspected violation as soon as possible.

.02 When Made. Reports of suspected Honor Code violations must be made within 45 days of the discovery of the suspected violation.

.03 Informal Disposition or Submission of Case to Student Prosecutor. The Associate Dean shall have the authority to investigate the reported suspected violation of the Honor Code before initiating formal disciplinary procedures and give the student the opportunity to present his/her personal version of the incident or occurrence. After doing so, the Associate Dean may, for good cause shown, informally dispose of the case, and, after explaining to the student the various options available, shall fix a reasonable time within which the student suspected to have violated the Honor Code shall accept or reject a proposed informal disposition. If no informal disposition is deemed appropriate by the Associate Dean or the student rejects a proposed informal disposition, the Associate Dean shall notify the student prosecutor of the report of a suspected violation of the Honor Code. Should the Prosecutor disqualify him or herself pursuant to 5.04, the SBA President shall fill the temporary vacancy pursuant to 5.05(b). Any statements made by the student suspected of violating the Honor Code to the Associate Dean in the course of the informal disposition process shall not be communicated to the student prosecutor or be admissible against the student in subsequent Honor Court proceedings.

.04 Investigation by the Prosecutor. Upon notification by the Associate Dean of the report of a suspected violation of the Honor Code, the Prosecutor shall conduct an investigation.

Any student called upon to supply information relevant to the investigation, other than the accused, shall comply as fully as possible.

At the completion of the investigation, if the Prosecutor feels the evidence is insufficient to justify prosecution.

The Prosecutor shall so notify the SBA President and the Associate Dean, and with their concurrence the case may be dropped.

If the Prosecutor determines that probable cause exists to prosecute a person for a violation of the Honor Code, he or she shall send notice of this finding to the Associate Dean of the Law School.

.05 Submission of Case to Grand Jury.

1. Upon notice that the Prosecutor has determined that probable cause exists to prosecute a person for a violation of the Honor Code, the Associate Dean shall convene a grand jury hearing.
2. The Associate Dean shall select six names at random from the Law School student body. The Associate Dean shall summon the people selected to attend a meeting with himself and the SBA President. At this meeting the Associate Dean shall inform the students selected that the first three qualified students selected will be required to serve on a grand jury to determine whether or not probable cause exists to believe the Honor Code has been violated. The Associate Dean may excuse any grand juror for cause and replace that grand juror with an alternate. The Associate Dean shall inform the grand jury of their membership on the grand jury and all grand jury proceedings are confidential. The SBA President and the grand jurors shall select a date, time and place for the grand jury proceeding, providing that the selection of such a date will not unreasonably delay the Honor Court proceedings. The SBA President shall inform the Chief Justice and the Prosecutor of the date of the hearing.
3. The Prosecutor shall have the duty of providing the Chief Justice with a copy of the items of evidence that form the basis for his or her determination that probable cause exists to prosecute for a violation of this Honor Code. The copies provided by the Prosecutor to the Chief Justice shall have all identifying characteristics removed except as necessary to establish probable cause that a violation of this Code has been committed. The Prosecutor shall place a copy of these items of evidence and a summary of why he or she believes probable cause exists in a signed and sealed envelope. The envelope of evidence shall be delivered to the Chief Justice before the grand jury proceeding. If the suspected violation is plagiarism, the Prosecutor shall provide the Chief Justice with the original sources that the grand jury needs to adequately evaluate the evidence provided in the packet. The Chief Justice shall make arrangements to provide the grand jury with the source material. This packet shall also contain a form for the grand jury to report its findings.
The investigative power of the grand jury is strictly limited to the evidence presented by the Prosecutor. The grand jury shall not independently investigate the matter. The grand jury may submit written questions to the prosecutor through the Chief Justice.
4. The Chief Justice of the Honor Court will initiate the grand jury proceeding by informing the grand jury that the grand jury proceedings are to be confidential. The Chief Justice should elicit from the grand jurors signed statements that the grand jurors understand fully the duty of confidentiality. The Chief Justice shall advise the students that the information presented to the grand jury will be known only to the student prosecutor and themselves and that a breach of confidentiality may be an Honor Code violation.
5. After the Chief Justice has fulfilled the obligations imposed by section (d), he or she should give the grand jury the sealed envelope provided by the Prosecutor containing the evidence and remove him or herself from the grand jury proceedings.
6. After the Chief Justice has left the grand jury room, the grand jury will break the seal on the evidence envelope and examine the contents. The grand jury shall examine the evidence and determine whether probable cause exists for finding a violation of this Code. A decision shall be made within a reasonable period of time, not to exceed ten (10) days.
7. The finding of probable cause or the lack of probable cause will be determined by a majority vote of the grand jurors. This vote is binding on all members of the grand jury.
8. After the grand jury has reached a decision, it shall record that decision on the form provided for such purpose in the envelope described in 6.04(c) and sign it. The evidence shall be returned to the envelope provided by the Prosecutor, sealed, and signed. The envelope shall be delivered to the Chief Justice in a place and manner prescribed by the Chief Justice.
9. The Chief Justice shall deliver the envelope with the grand jury finding to the Associate Dean. The Associate Dean shall break the seal on the envelope in the presence of the Prosecutor who shall verify that the envelope contains all the items of evidence the Prosecutor originally placed in the envelope.
10. The Associate Dean shall reveal the finding of the grand jury only in furtherance of the procedures of this Honor Code and then only to the necessary parties.

.06 Hearing Date and Notice. A hearing shall be held as soon as possible after the grand jury has determined that there is probable cause to believe the accused has violated the Honor Code. In no case shall more than 45 days elapse between the suspected violation report and the hearing, unless a later date is agreed upon by the Prosecutor and the student charged.

The student shall be notified of a hearing in writing by the Chief Justice. The notice shall set forth the date, time and place of the alleged violation, the conduct to be inquired into, and the date, time, and place of hearing before the Honor Court. The notice shall be given at least seven (7) days in advance of the scheduled date of the hearing, unless a shorter time be fixed for good cause.

VII. Hearing Procedure

.01 Confidentiality. Honor Court hearings shall be closed to the public unless the accused requests a public hearing, in which case one shall be provided. An audio recording shall be made of the proceeding and shall become part of the record.

.02 Ex Parte Communication. Except as to procedural matters, there shall be no ex parte communication with any Justice by the Prosecutor, by defense counsel or by the accused.

.03 Pre-Trial Motions. All pre-trial motions, including motions in limine, shall be in writing and given to the Chief Justice at least four days prior to the hearing. The Court may set a time limit on hearing pre-trial motions. The Court shall hear pre-trial motions no later than the day before the trial.

.04 Evidence. A student defendant or prosecutor appearing before the Honor Court shall have the right to present any evidence by witness or affidavit relating to any charge or defense. The formal rules of evidence shall not apply and the Court may consider relevant testimony of witnesses, affidavits, written reports, and any other relevant evidence.

.05 Witnesses. At least two (2) days in advance of the scheduled date of the hearing, witnesses shall be notified by the party calling them of their obligation to appear. Witnesses shall bring with them whatever documentation is requested. Failure of a student witness to appear, without good cause, is a violation of this Code.

The Prosecutor may not call the defendant as a witness. The defendant may elect to testify or not, as he or she chooses. No unfavorable inference may be drawn should the defendant choose not to testify.

.06 The Court. The Chief Justice shall preside at the hearing. The Prosecutor shall present the case against the accused. The accused may represent him or herself or may be represented by an advisor or legal counsel.

.07 The Hearing. The Prosecutor shall make an opening statement and present the evidence against the accused. The Accused or his or her representative may elect to make an opening statement either at the conclusion of the Prosecutor's opening or after the Prosecution's evidence has been presented. At the conclusion of the Prosecution's case-in-chief, the accused may present his or her evidence.

Each party shall have the right to cross-examine the opposing party's witnesses. Either party may present further rebuttal evidence when, in the discretion of the Chief Justice such evidence is relevant and will not unduly delay the proceedings. After all evidence has been presented, the Prosecutor may make a closing argument, if so elected, the Prosecutor may present a rebuttal.

.08 Court's Decision. The Court shall promptly deliberate and make its findings and determinations in executive session. If seventy-five percent (75%) of the members of the court find by clear and convincing evidence that the accused has committed the violations charged, it shall recommend to the Dean one or more of the sanctions prescribed in 8.02, subject to the mitigating circumstances exception in 8.03.

If at all possible, the Court shall render a decision immediately following its deliberations. In no event shall its decision be announced later than three (3) days following the conclusion of the hearing. An oral presentation of the Court's findings and recommendations is permitted following the hearing, but a written report including findings of facts, conclusions and recommended disposition shall be filed within one week after conclusion of the hearing. Concurring or dissenting opinions may be filed according to the same terms.

The report of the Court, including any concurring or dissenting opinions, and the entire record of the proceedings shall be submitted to the Dean and the accused as soon as possible after issuance.

.09 Procedural Questions. Procedural questions arising during the course of proceedings that are not covered by these rules shall be resolved by the Chief Justice. All objections concerning procedure shall be made/raised in writing to the Chief Justice. The Chief Justice shall answer all objections in writing and forward both the objection and the decision to both the Prosecutor and defense counsel and to all other justices sitting on the Court for that hearing.

The decision of the Chief Justice on a procedural question may be challenged by the accused, the prosecutor, or a sitting member of the Court. The Chief Justice shall present any challenge to the sitting Court and the ruling of the majority of the Court shall be final. There shall be a form, prepared by the Chief Justice, for appealing a procedural decision. The party challenging the decision shall complete the form and forward a copy to all sitting justices. All such challenges must be made on a timely basis.

.10 Review of Record by Dean. Upon receipt of the Court's report, the Dean will, within a reasonable amount of time, review the entire record, including the Court's findings of facts, conclusions and recommendations and render a decision in the case.

The Dean may remand for further consideration of specific issues. A decision by the Dean to remand shall include a list of questions for the Court. The Court shall then respond in writing within fourteen (14) calendar days. The Dean may not reverse a finding of not guilty by the Court.

The Dean's decision shall be transmitted in writing to the accused and to the Chief Justice of the Honor Court. Where the accused has been found guilty by the Court, a copy of the Dean's decision will be placed in the student's official file.

VIII. Sanctions

.01 Report of Misconduct. Where a finding that the accused has violated the Code has been made, the misconduct may be called to the attention of the proper University authorities, Bar authorities or any other affected parties for appropriate action.

.02 Sanctions. The following sanctions may be recommended by the Court to the Dean and imposed by the Dean:

1. Expulsion. Permanent separation of the student from the School of Law.
2. Dismissal. An involuntary separation of the student from the School of Law. It does not imply or state a minimum separation time.
3. Suspension. Separation of the student from the School of Law for a definite period of time, after which the student is eligible to return. Conditions for readmission may be specified.
4. Probation. Disciplinary probation, subject to any appropriate terms or conditions.
5. Reprimand. Written or oral reprimand.

.03 Mitigating Circumstances. When considering a recommended sanction upon finding that a violation has occurred, the Court may consider mitigating circumstances such as, but not limited to, any physical, mental, financial, or emotional problems of the accused. If the severity of mitigating circumstances requires, the Court may recommend no sanction be levied on the accused, even though a violation has occurred.

If the Court considers mitigating circumstances when recommending a sanction, the written report of the Court shall include a full explanation thereof.

IX. Appeals

.01 Right to Petition for Review (other than dismissal or suspension). In all cases where the discipline imposed by the Dean is other than dismissal or suspension, the accused may petition the Chancellor in writing for a review of the decision within ten (10) consecutive calendar days after notification. A copy of the Petition for Review must also be served upon the Dean within such time. The Petition for Review shall state the grounds or reasons for review, and the Dean may answer the petition within ten (10) consecutive calendar days if he or she so desires.

The Chancellor or his or her designated representative may grant or refuse the right of review. In all cases where the Petition for Review is refused, the decision shall be final. If the Chancellor or representative reviews the decision, the action of the Chancellor shall be final unless it be to remand the matter for further proceedings.

.02 Right of Appeal (dismissal or suspension only). When a student is dismissed or suspended from the University for an Honor Code violation by the Dean, the student may appeal such decision to the Chancellor within twenty (20) consecutive days after notification of the decision of the Dean. A copy of the notice of appeal will contemporaneously be given by the student to the Dean. The student may file a written memorandum for consideration by the Chancellor with the notice of appeal, and the Chancellor may request a reply to such memorandum by the appropriate party. The Chancellor or his/her designee shall review the full record of the case and the appeal documents and may affirm, reverse, or remand the case for further proceedings and shall notify the Dean and the student in writing of the decision on the appeal. The action of the Chancellor shall be final unless it be to remand the matter for further proceedings.

.03 Status During Appeal. In the cases of suspension or dismissal where a notice of appeal is filed within the required time, a student may petition the Chancellor in writing for permission to attend classes pending final determination of appeal. The Chancellor may permit a student to continue in school under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not seriously disrupt the University or constitute a danger to the health, safety or welfare of the University community. In such event, however, any final disciplinary action imposed shall be effective from the date of the action of the Dean.

X. Advisory Opinions

.01 When required to do so, the Court may render advisory opinions on matters relating to the application of the Code.

.02 A box shall be located in a public area of the Law School for the purpose of receiving written requests by students of the Law School for advisory opinions.

.03 The Honor Court shall submit its advisory opinion, in writing, to the Dean and the SBA President.

.04 The Dean, within a reasonable time, shall respond to the advisory opinion.

.05 The advisory opinion and the Dean's response shall be appropriately posted and made available to the students in the library.

.06 Conduct consistent with an advisory opinion shall be presumed not to be in violation of the Code.

XI. Amendments

.01 Amendments to the Honor Code may be proposed by petition of any ten (10) students, by the Board of Governors of the Student Bar Association on its own motion, or by petition of a majority of the Honor Court.

.02 A proposed amendment shall be adopted if at the adoption election at least two-thirds (2/3) of the students voting shall vote favoring the proposed amendment.

XII. Adoption

This Honor Code shall be in effect when approved by a two-thirds vote of the students voting, by the Dean of the School of Law, the Chancellor, and by the Board of Curators.

School of Medicine Honor Codes

Standards of Professional Conduct and Honor Council Procedures

STANDARDS OF PROFESSIONAL CONDUCT

Approved by the University of Missouri Board of Curators: December 1994, revised January 31, 2013 and updated December 2014

I. Preamble

Patient care professionals are characterized by 1) a prolonged specialized training in a body of knowledge and skills; 2) ethical principles; 3) a service orientation; and 4) judgment. These professions determine their own standards of education, training, licensure, and practice and have long subscribed to a body of ethical statements developed primarily for the benefit of the patient. As a potential future member of these professions, a student must recognize responsibility and an obligation not only to patients, but also to society, other health professionals, and self to behave in a manner compatible with the medical profession's standards of conduct.

One of the goals of a medical school is to educate a student during the transition to a professional life. The University of Missouri-Kansas City School of Medicine has an obligation to evaluate our students pursuing the M.D. and other patient care related degrees administered by the School of Medicine as thoroughly as possible for their cognitive abilities, their academic and professional knowledge and skills, their integrity, and their suitability for the practice of medicine. Accordingly, the Standards of Professional Conduct detailed in this document have been developed to guide the pre-professional behavior of students in patient care degree programs of the University of Missouri-Kansas City School of Medicine and to prepare the students to meet the ethical standards of these medical professions.

II. Standards of Professional Conduct

A. Professional Integrity

1. Honesty

A student shall deal honestly with people including, but not limited to, colleagues, instructors, representatives of the University, patients, attending physicians, and other members of the health care team. Students are expected to demonstrate honesty and integrity in all aspects of their interaction with patients and staff — particularly in assuring accuracy and completeness of their part of the medical record. The student shall be willing to admit errors and must not mislead others or promote himself/herself at the patient's expense. The student shall strive to report, by utilizing the Honor Council Procedures for Violations of the Standards of Professional Conduct, those students deficient in character or competence, or who engage in fraud or deception.

The basic principle underlying all research is *honesty*. Scientists and students who participate in research have a responsibility to provide research results of the highest quality; to gather facts meticulously; to keep impeccable records of work done; to interpret results realistically, not forcing them into preconceived molds or models; and to report new knowledge through appropriate channels. Co-authors of research reports must be sufficiently acquainted with the work of their co-workers that they can personally vouch for the integrity of the study and validity of the findings, and must have been active in the research itself.

In all cases of academic dishonesty, the instructor shall make an academic judgment about the student's grade on that work and in that course. The instructor shall report the alleged academic dishonesty to the Chair of the Honor Council.

Examples of academic dishonesty include, but are not limited to, the following:

Cheating — 1) use of any unauthorized assistance in taking quizzes, tests, or examinations; 2) dependence upon the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; or 3) acquisition or possession without permission of tests or other academic material belonging to a member of the University faculty or staff; 4) in any way giving assistance to others who are participating in any of the three preceding types of behavior; or, 5) falsifying attendance records or other official documents.

Plagiarism — 1) use by paraphrase or direct quotation of the published or unpublished work of another person without fully and properly crediting the author with footnotes, citations or bibliographical reference; 2) unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials; or 3) unacknowledged use of original work/material that has been produced through collaboration with others without release in writing from collaborators.

The detection may involve the use of commercially available software.

Sabotage — unauthorized interference with, modification of, or destruction of the work or intellectual property of another member of the University community.

Examples of dishonesty related to clinical practice include, but are not limited to, the following:

Falsification of Patient's Medical Record — writing progress notes regarding the patient's status, including, but not limited to, clinical observations or results in the patient's chart when the student has not seen or evaluated the patient, or using incorrect times of data entry.

Falsification of Patient's Medical Information — reporting medical information such as physical examination findings, lab values, test results, and any other relevant patient information to other students, residents, attending physicians, the patient, the patient's family, or other relevant medical personnel that has been fabricated by the student.

2. Responsibility

A student must acquire competencies with the appropriate concepts, knowledge, and skills which the faculty determines to be essential. These competencies shall be utilized to care for the sick and to promote the health and welfare of society. A student shall recognize a responsibility to participate in activities contributing to an improved community.

Students in the care of patients must not be harmful, dangerous, or negligent to the mental or physical health of a patient or the public. Negligent means the failure to use that degree of skill and learning ordinarily used under the same or similar circumstances by other students.

Students must pay tuition and other University fees, such as the medical equipment or disability fees, on time. Students must complete required forms of evaluation, degree forms, examination applications, etc. on time.

Students must be familiar with and follow the rules and regulations of the School of Medicine, the University, and related professional organizations.

B. Medical Professional Behavior

1. Nondiscrimination

A student shall be dedicated to providing supervised competent medical service with compassion, respect for human dignity, and without discrimination.

It is against University regulations to discriminate on the race, color, religion, sex, sexual orientation, national origin, age, disability and status as a Vietnam era veteran. The University has an AIDS policy statement consistent with state law that prohibits discrimination against persons with AIDS or who are HIV positive.

2. Representation

A student shall accurately represent himself/herself to others including, but not limited to, colleagues, instructors, representatives of the University, patients, attending physicians, and other members of the health care team.

Examples of misrepresentation include, but are not limited to, the following:

- (a) A student shall never use the title of "Doctor" or M.D., as this clearly misrepresents the student's position, knowledge, and authority.
- (b) Use of fraud, deception, lies, or bribery in securing any certificate of registration or authority, diploma, permit or license issued, or in obtaining permission to take any examinations.
- (c) Impersonation of any person holding a certificate of registration or authority, permit, license or allowing any person to use his/her certificate of registration or authority, permit, license, or diploma from any school.
- (d) Forgery, alteration, or misuse of a patient's medical records or knowingly furnishing false information to the medical team and/or professional organizations.

3. Confidentiality

A student shall respect the rights of patients, colleagues, and other health professionals, and shall safeguard patient confidences within the constraints of the law. The patient's right to confidentiality in regard to his/her medical record, which includes confidentiality of personal and social history, is a fundamental tenet to medical care.

The discussion in public of the problems of an identified patient, without the patient's permission, by professional staff (including students) violates patient confidentiality and is unethical. Under no circumstances can any medical record be removed from the institution. Photocopying of the entire record is never permitted for presentations or rounds; students are permitted to extract information, but not copy "wholesale" parts of the chart. Names of patients should be omitted from any documents used for these presentations.

4. Disclosure

While the student is a member of the medical team and under faculty supervision, a student shall continue to study, apply, and advance scientific knowledge, make relevant information available to patients, colleagues, and the public, obtain consultation, and use the talents of other health professionals when indicated.

Sharing of medical information appropriately with a patient and colleagues involved in the care of the patient is a fundamental ethical requirement. The patient must be well informed to make health care decisions and work intelligently in partnership with the medical team. Information that the patient needs for decision making shall be presented in terms the patient can understand. If, for some reason, the patient is unable to comprehend, there shall be disclosure to the patient's authorized representative.

Failure of a student to share medical information relevant to a patient with the patient and colleagues involved in the care of the patient is unethical. Providing inaccurate information with these individuals is also unacceptable.

5. Assessment of Personal Competence (Self-Evaluation)

Students shall seek consultation and supervision whenever their ability to play their role in the care for a patient is inadequate because of lack of knowledge or experience.

Students are expected to respond to constructive criticism by appropriate modification of behavior.

It is unacceptable for a student to attempt procedures or to prescribe therapies without supervision.

6. Professional Demeanor

The student is expected to be thoughtful and professional when interacting with patients and their families, attending physicians, supervising residents, and other students, and whenever his/her behavior may influence adversely the judgments of others about the professional school or University.

Students shall maintain a neat and clean appearance, and dress in attire that is generally accepted as professional by the patient populations served.

Inappropriate behavior includes, but is not limited to, the use of offensive language, gestures, or remarks. Attempting, directly or indirectly, by way of intimidation, coercion or deception, to obtain or retain a patient or discourage the use of a second opinion or consultation is not appropriate.

7. Informed Consent

Students are to understand the physician's obligation to obtain informed consent from patients, but are **not** responsible for obtaining it for a physician. Simply, it is the **physician's** responsibility to ensure that the patient or his/her surrogate be appropriately informed as to the nature of the patient's medical condition, the objectives of proposed treatments, treatment alternatives, and risks involved. The patient's or surrogate's concurrence must be obtained without coercion.

8. Conflict of Interests

If a conflict of interest arises, the moral principle is clear – the welfare of the patient must be, at all times, paramount. For example, gifts, hospitality, or subsidies offered by manufacturers and distributors of medical and pharmaceutical equipment/goods shall not be accepted if acceptance would influence the objectivity of clinical judgment.

9. Misconduct with Patients

The student will not engage in romantic, sexual, or other non-professional behaviors with a patient – even upon the apparent request of a patient – while the student is involved with the patient's care.

10. Impairment

The student will not use alcohol or drugs in ways that impair his/her ability to perform the work of the profession or results in compromised patient care. It is the responsibility of every student to strive to protect the public from an impaired colleague and to assist that colleague whose capability is impaired because of alcohol or drug use.

11. Criticism of Colleagues

Professional relations among all members of the medical community shall be marked by civility. Scholarly contributions shall be acknowledged and each person shall recognize and facilitate the contributions of others to this community; slanderous comments and acts are not acceptable. Students shall deal with professional, staff, and peer members of the health team in a considerate manner and with a spirit of cooperation.

It is unethical and harmful for a student to disparage, without sufficient evidence, the professional competence, knowledge, qualifications, or services of a colleague to anyone. It is also unethical to imply without reliable evidence – by word, gesture, or deed – that a patient has been poorly managed or mistreated by a colleague.

12. Teaching

The word “doctor” (for the Latin “docere” – to teach) implies a responsibility to share knowledge and information with colleagues and patients. It is incumbent upon those entering this profession to teach what they know of the science, art, and ethics of medicine. It includes communicating clearly and teaching patients so that they are properly prepared to participate in their own care and in the maintenance of their health.

III. The University of Missouri Student Conduct Code

In addition to the conduct detailed in the preceding sections, a student is subject to the University of Missouri Student Conduct Code, as administered by the UMKC Office of the Vice Chancellor for Student Affairs, except for provisions dealing with academic dishonesty, in Section 200.010 B.1. of the Collected Rules and Regulations of the University (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct)).

As of the date of this document, such conduct falls into the following categories, and is provided for the convenience of patient care professional students at the University of Missouri School of Medicine:

1. **Academic dishonesty**, such as cheating, plagiarism, or sabotage. The Board of Curators recognizes that academic honesty is essential for the intellectual life of the University. Faculty members have a special obligation to expect high standards of academic honesty in all student work. Students have a special obligation to adhere to such standards. In all cases of academic dishonesty, the instructor shall make an academic judgment about the student's grade on that work and in that course. The instructor shall report the alleged academic dishonesty to the Primary Administrative Officer. (*see section II.A.1. Honesty above*)
2. **Forgery, alteration, or misuse of University documents, records or identification, or knowingly furnishing false information to the University.**
3. **Obstruction or disruption of teaching, research, administration, conduct proceedings, or other University activities, including its public service functions on or off campus.**
4. **Physical abuse or other conduct which threatens or endangers the health or safety of any person.**
5. **Stalking** another by following or engaging in a course of conduct with no legitimate purpose that puts another person reasonably in fear for his or her safety or would cause a reasonable person under the circumstances to be frightened, intimidated or emotionally distressed.
6. **Violation of the University's Equal Employment/Education Opportunity Policy** located at Section 320.010 of the Collected Rules and Regulations. These violations include, but are not limited to:
 - a. **Harassment.** Harassment in violation of the University's antidiscrimination policies, is unwelcome verbal or physical conduct, on the basis of actual or perceived membership in a protected class as defined in the University's anti-discrimination policies, that creates a hostile environment by being sufficiently severe or pervasive and objectively offensive that it interferes with, limits or denies the ability of an individual to participate in or benefit from educational programs or activities or employment access, benefits or opportunities.
 - b. **Sex Discrimination, Sexual Harassment and Sexual Misconduct** as further defined in Section 600.020 and/or referenced in Section 200.010B7 below.
 - c. **Bullying.** Bullying is defined as repeated and/or severe aggressive behavior likely to intimidate or intentionally hurt, control or diminish another person, physically or mentally on the basis of actual or perceived membership in a protected class.
 - d. **Retaliation.** Retaliation is any adverse action taken against a person because of that person's participation in protected activity. The University strictly prohibits retaliation against any person for making any good faith report or for filing, testifying, assisting, or participating in any investigation or proceeding involving allegations of discrimination in violation of the University's Equal Employment/Education Opportunity Policy.
 - e. **False Reporting.** False reporting is making an intentional false report or accusation as opposed to a report or accusation, which, even if erroneous, is made in good faith.
7. **Violation of the University's Sex Discrimination, Sexual Harassment and Sexual Misconduct in Education/Employment Policy in Section 600.0020 of the Collected Rules and Regulations.** These violations include:
 - a. **Sex Discrimination.** Sex discrimination occurs when a person has been treated inequitably on the basis of sex, gender identity, or gender expression. Specifically, the University of Missouri System upholds Title IX, which states in part that “[n]o person

in the United States shall on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity." Sexual harassment, sexual misconduct, sexual exploitation, stalking on the basis of sex and dating/intimate partner violence are forms of sex discrimination.

b. Sexual Harassment. Sexual harassment is defined as:

1. Unwelcome sexual advances or requests for sexual activity by a person or persons in a position of power or authority to another person, or
2. Other unwelcome verbal or physical conduct of a sexual nature by a person to another person, when:
 - a) Submission to or rejection of such conduct is used explicitly or implicitly as a condition for academic or employment decisions; or
 - b) Such conduct creates a hostile environment by being sufficiently severe or pervasive and objectively offensive that it interferes with, limits or denies the ability of an individual to participate in or benefit from educational programs or activities or employment access, benefits or opportunities.

c. Sexual Misconduct. Sexual misconduct is: 1) nonconsensual sexual intercourse; 2) nonconsensual sexual contact involving the sexual touching of the genitals, breast or anus of another person or the nonconsensual sexual touching of another with one's own genitals whether directly or through the clothing; 3) exposing one's genitals to another under circumstances in which he or she should reasonably know that his or her conduct is likely to cause affront or alarm; or 4) sexual exploitation.

d. Stalking on the Basis of Sex. Stalking on the basis of sex is following or engaging in a course of conduct on the basis of sex with no legitimate purpose that puts another person reasonably in fear for his or her safety or would cause a reasonable person under the circumstances to be frightened, intimidated or emotionally distressed.

e. Dating/Intimate Partner Violence. Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the recipient of the violent behavior.

f. Sexual Exploitation. Sexual exploitation occurs when one person takes nonconsensual or abusive sexual advantage of another person for his/her own advantage or benefit or for the advantage or benefit of anyone other than the person being exploited and which behavior does not constitute any other form of sexual misconduct. Examples of sexual exploitation include, but are not limited to, the following activities done without the consent of all participants:

1. Invasion of sexual privacy;
2. Prostituting another person;
3. Taping or recording of sexual activity;
4. Going beyond the boundaries of consent to sexual activity (letting your friends hide to watch you engaging in sexual activity);
5. Engaging in voyeurism;
6. Knowingly transmitting and STI, STD, venereal disease or HIV to another person;
7. Inducing another to expose their genitals.

g. Retaliation. Retaliation is any adverse action taken against a person because of that person's participation in protected activity. The University strictly prohibits retaliation against any person for making a report required by Section 600.020 of the Collected Rules and Regulations, for making any good faith report to a Title IX Coordinator or for filing, testifying, assisting, or participating in any investigation or proceeding involving allegations of sex discrimination, sexual harassment or sexual misconduct.

h. False Reporting. False reporting is making an intentional false report or accusation as opposed to a report or accusation, which, even if erroneous, is made in good faith.

8. Threatening or Intimidating Behaviors, defined as written or verbal conduct that causes a reasonable expectation of injury to the health or safety of any person or damage to any property or implied threats or acts that cause a reasonable fear of harm in another.

9. Participating in attempted or actual theft of, damage to, or possession without permission of property of the University or of a member of the University community or of a campus visitor.

10. Unauthorized possession, duplication or use of keys to any University facilities or unauthorized entry to or use of University facilities.

11. **Violation of University policies, rules or regulations or of campus regulations** including, but not limited to, those governing residence in University-provided housing, or the use of University facilities, or the time, place and manner of public expression.
12. **Manufacture, use, possession, sale or distribution of alcoholic beverages or any controlled substance without proper prescription or required license or as expressly permitted by law or University regulations**, including operating a vehicle on University property, or on streets or roadways adjacent to and abutting a campus, under the influence of alcohol or a controlled substance as prohibited by law of the state of Missouri.
13. **Disruptive conduct.** Conduct that creates a substantial disruption of University operations including obstruction of teaching, research, administration, other University activities, and/or other authorized non-University activities that occur on campus.
14. **Failure to comply with directions of University officials acting in the performance of their duties.**
15. **The illegal or unauthorized possession or use of firearms, explosives, other weapons, or hazardous chemicals.**
16. **Hazing**, defined as an act that endangers the mental or physical health or safety of a student, or an act that is likely to cause physical or psychological harm to any person within the University community, or that destroys or removes public or private property, for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in a group or organization. Participation or cooperation by the person(s) being hazed does not excuse the violation. Failing to intervene to prevent (and/or) failing to discourage (and/or) failing to report those acts may also violate this policy.
17. **Misuse of computing resources in accordance with University policy**, including but not limited to:
 - a. Actual or attempted theft or other abuse.
 - b. Unauthorized entry into a file to use, read, or change the contents, or for any other purpose.
 - c. Unauthorized transfer of a file.
 - d. Unauthorized use of another individual's identification and password.
 - e. Use of computing facilities to interfere with the work of another student, faculty member, or University official.
 - f. Use of computing facilities to interfere with normal operation of the University computing system.
 - g. Knowingly causing a computer virus to become installed in a computer system or file.

Details of current policies, procedures, sanctions, and due process for violations of the University of Missouri Student Conduct Code are found in http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct/) and http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.020_rules_of_procedures_in_student_conduct_matters (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.020_rules_of_procedures_in_student_conduct_matters/) and in the University of Missouri-Kansas City General Catalogue. Students should check and be familiar with these rules and procedures.

HONOR COUNCIL PROCEDURES FOR VIOLATIONS OF THE STANDARDS OF PROFESSIONAL CONDUCT

Approved by the University of Missouri Board of Curators: December 1994, Revised January 31, 2013

I. Jurisdiction of the Honor Council

The Honor Council shall be concerned with incidents of alleged violations by University of Missouri-Kansas City School of Medicine students enrolled in either the M.D. or graduate Professional programs involving direct patient care at the UMKC School of Medicine of the School's Standards of Professional Conduct, Sections II.A and II.B., whether such violations occur on the Volker campus or in classes or clinical experiences at affiliated hospitals and clinics through the UMKC Medical School. Violations of Section III will be referred to the Office of the Vice Chancellor for Student Affairs. The standards identify areas of conduct which are judged unacceptable for individuals either who are in or aspire to the profession of medicine. The Standards of Professional Conduct and Honor Council Procedures is a published document of the School of Medicine. It is distributed to all newly accepted students during orientation. When a student has been charged with one or more acts of misconduct according to these standards, the Honor Council shall adhere to the following procedures detailed herein. The Honor Council shall have the authority to recommend sanctions upon any student appearing before the Council. The disciplinary proceedings described are not to be construed as judicial trials. Care shall be taken, however, to comply as fully as possible with the spirit and intent of these procedural safeguards.

II. Organization of the Honor Council

A. Composition

The Honor Council voting members shall consist of the Chair representing the Dean's Office, six faculty/staff members (1 Doцент, 1 Basic Scientist, 2 Clinical Scientists, 1 Humanities/Social Sciences representative, and 1 Graduate faculty member), and two student members (1

Years 3-6 and 1 graduate student). Four members constitute a quorum. Two nonvoting Honor Council staff, the Council Coordinator and the Administrative Assistant, assist the Chair in investigations and generation of reports and may be present at the hearings to take minutes.

B. Eligibility and Appointment

The Chair, faculty/staff, and student members shall be appointed to the Honor Council by the Dean of the School of Medicine.

C. Chair

The Chair shall count as one member of the Honor Council and shall be entitled to vote on all matters before the Council.

D. Time of Appointment and Term of Office

The Chair and faculty/staff members of the Honor Council shall serve for the duration of their appointments by the Dean. The student members of the Honor Council shall serve for one year.

A student is ineligible to continue as a member of the Honor Council if he/she is placed on academic or disciplinary probation, or if for any other reason his/her continued membership on the Council may not be in the best interest of the School of Medicine as determined by the Dean.

III. Procedures for Report of Violation, Investigation, Informal Disposition, and Notice

A. Report of Violation

An alleged violation of the Standards of Professional Conduct should be reported to the Chair or his/her designee of the Honor Council as soon as possible after discovery of the incident.

B. Preliminary Procedures and Investigation

The Chair of the Honor Council or his/her designee shall investigate any reported student misconduct before initiating formal conduct procedures. The reporter will be requested to meet with the Chair or his/her designee to discuss the alleged violation.

The Chair is responsible for notifying, in writing, the accused student of the charge brought against him/her prior to the commencement of the investigation. In addition, the student charged with misconduct shall receive a copy of these Procedures for Violations of the Standards of Professional Conduct along with the written notice. The Chair shall meet with the accused student to give the student the opportunity to present a personal version of the incident or occurrence.

C. Informal Disposition

After conducting an investigation, the Chair or his/her designee shall provide a written report to the Dean, the accused student, and the Honor Council members.

The Chair shall have the authority to dismiss a charge that is determined unfounded or to impose appropriate sanctions and shall fix a reasonable time within which the student shall accept or reject a proposed informal disposition.

A failure of the student either to accept or reject within the time fixed shall be deemed to be an acceptance and, in such event, the proposed disposition shall become final upon expiration of such time.

If the student rejects informal disposition, it must be in writing and shall be forwarded to the Honor Council.

The Chair may refer cases to the Honor Council for formal investigation and hearing without first offering informal disposition.

The Dean or his/her designee may at any time temporarily suspend or deny readmission to a student from the School of Medicine pending formal procedures when the Dean or his/her designee finds and believes from available information that the presence of a student on campus would seriously disrupt the School of Medicine or constitute a danger to the health, safety, or welfare of members of the School of Medicine community. The appropriate procedure to determine the future status of the student will be initiated within seven calendar days.

D. Notice of Hearing

Upon completion of the investigation, when a student rejects informal disposition or the charge justifies a formal hearing, in the judgment of the Honor Council Chair, the Chair will schedule a formal hearing as soon as possible.

The reporter, witnesses, and accused student will be given written notice of the hearing by email or personal delivery. The notice shall set forth the date, time, and place of the alleged violation, the conduct for inquiry, the date, time, and place of the hearing before the Council, request for attendance of the parties involved, and a reference for the accused student to the Rights of the Accused Student Upon Hearing which are outlined in these Procedures.

Notice by certified mail may be addressed to the mailing address currently on record with the university. Failure by the accused student to have a current correct local address on record with the School of Medicine shall not be construed to invalidate such notice.

The notice shall be given at least seven (7) consecutive calendar days prior to the hearing, unless a shorter time is fixed by the Chair for good cause.

Any request for continuance shall be made in writing to the Chair who shall have the authority at his/her discretion to postpone the hearing if he/she determines the request is timely and made for good cause. The Chair shall notify the Honor Council members, the accused student, the reporter, the witnesses, and any other relevant individuals of the new date for the hearing.

If the accused student fails to appear at the scheduled time, the Honor Council may hear and determine the matter in the student's absence.

IV. Procedure for Honor Council Hearing

A. Rights of the Honor Council

The Honor Council shall have the right to:

1. hear together cases involving more than one student which arise out of the same act of misconduct, but in that event shall make separate findings and determinations for each student;
2. permit a stipulation of facts by the Honor Council member who performed the investigation and the student involved;
3. permit the incorporation in the record by a reference of any document, affidavit, or other material produced and desired in the record by the School of Medicine or the student charged;
4. question witnesses or challenge other evidence introduced by either the School of Medicine or the student at any time;
5. hear from the Council Chair about dispositions made in similar cases and any dispositions offered to the student appearing before the Council;
6. call additional witnesses or require additional investigation;
7. dismiss any action at any time or permit informal disposition as otherwise provided;
8. permit or require at any time, within a reasonable time as determined by the Council, amendment of the Notice of Hearing to include new or additional matters which may come to the attention of the Council before final determination of the case; provided, however, that in such event the Council shall grant to the student or the School such time as the Council may determine reasonable under the circumstances to answer or explain such additional matters; and,
9. dismiss any person from the hearing who interferes with or obstructs the hearing or fails to abide by the rulings of the Council Chair on any procedural question or request of the Chair for order.

B. Rights of the Accused Student

A student scheduled to appear before the Honor Council pursuant to formal notice of charges and disciplinary hearing shall have the right to:

1. submit a written response to the charge outlined in the Notice before the scheduled hearing is to commence;
2. request in advance of the scheduled hearing a review of any materials contained in his/her hearing file. ;
3. submit a written request for the identities of witnesses to be called to testify before the Council;
4. be present at the hearing;
5. have an adviser or counselor appear with him/her and to consult with such an adviser or counselor during the hearing; however, the adviser/counselor will not be allowed to question witnesses and/or members of the Council;
6. hear or examine evidence presented to the Honor Council against him/her;
7. question witnesses present who are testifying against him/her at the hearing;
8. present evidence by witness, affidavit, written report, other memoranda, photographs, drawings, and any other relevant evidence of any defense the student desires;
9. make any statement to the Honor Council in mitigation or explanation of the conduct in question;
10. remain silent to avoid self-incrimination;
11. be informed in writing of the findings and any decisions imposed by the Honor Council, Coordinating Committee, and the Dean; and,
12. appeal the decision and/or disposition to the Chancellor, as herein provided.

C. Rights of Witnesses

Witnesses shall be notified of the scheduled time, date, and location of the hearing. Witnesses shall bring with them whatever documentation is requested. Failure of a student witness to appear, without good cause, is a violation of the Standards of Professional Conduct.

D. Record of Hearing

All proceedings of the Honor Council are to be held in the strictest confidence by the members and all other persons involved. The hearings shall be audio taped, and written minutes are also recorded. The notice, exhibits, hearing record, verdict, and disposition of the Honor Council shall become the "Record of the Case". This official document shall be filed under strictest security in the permanent records. The record shall be accessible at reasonable times and places to both the University and the student for the purposes of review or appeal.

E. Conduct of the Hearing

The Honor Council Chair shall preside at the hearing, call the hearing to order, call the roll of the Honor Council members in attendance, ascertain the presence or absence of the student charged with misconduct, read the Notice of Hearing and charge and verify the receipt of notice of charge by the student, report any continuances requested or granted, establish the presence of any adviser or counselor of the student, call to the attention of the student charged and the adviser any special or extraordinary procedures to be employed during the hearing, and permit the student to make suggestions of or objections to any procedures for the Honor Council to consider.

All requests to address the Council shall be addressed to the Chair. The Chair will rule on all requests and points of order and may consult with Council's legal adviser prior to any ruling. The Chair's ruling shall be final, and all participants shall abide thereby, unless the Chair shall present the question to the Council at the request of a member of the Council, in which event the ruling of the Council by majority vote shall be final.

Rules of common courtesy and decency shall be observed at all times. An adviser or counselor may be permitted to address the Council at the discretion of the Chair. An adviser or counselor may request clarification of a procedural matter or object on the basis of procedure at any time by addressing the Chair after recognition.

Opening Statements: 1) The Honor Council Chair or his/her designee shall make opening remarks outlining the general nature of the case and testify to any facts the investigation has revealed. 2) The accused student may make an opening statement to the Council about the charge at this time or at the conclusion of the School of Medicine's presentation.

School of Medicine Evidence: 1) School of Medicine witnesses are to be called by the Chair of the Honor Council and identified or written reports of evidence are introduced as appropriate. 2) The Council may question witnesses at any time. 3) The student may question witnesses or examine evidence at the conclusion of the School of Medicine's presentation.

Student Evidence: 1) The student shall have the opportunity to make a statement to the Honor Council about the charge. 2) The student may present evidence through witnesses or written memoranda. 3) The Council may question the student or witnesses at any time.

Rebuttal Evidence: The Honor Council may permit the School of Medicine or the student to offer a rebuttal of the other's presentation.

If it appears that essential testimony is unavailable, or that for other good cause the hearing should be deferred, the Council may continue, recess, or discontinue the hearing without prejudice.

V. Determination of the Honor Council

Following the hearing, the Council shall promptly deliberate in closed session out of the presence of the student charged. Determination is to be made regarding both the validity of the misconduct charge and on the discipline, if any, to be imposed.

A. Violation of the Standards of Professional Conduct

The Honor Council shall determine if the evidence presented in the hearing supports the charge of violation of the Standards of Professional Conduct. The Council shall render a decision, by simple majority vote, of whether a violation has been committed by the accused. Each charge of misconduct, if there is more than one, shall be considered individually and/or collectively at the discretion of the Council.

B. Discipline Imposed

The Honor Council shall determine the discipline to be imposed, if any, based upon its deliberations. One of the following forms of discipline is to be recommended by means of simple majority vote of the Council members. Where there are multiple violations, there can be separate sanctions for each violation. The sanctions include, but are not limited to, the following:

No Disciplinary Action. Given when the student is not found in violation of the Standards of Professional Conduct.

Warning. A written reprimand to the student that the student has violated the Standards of Professional Conduct. A copy is to be placed in the student's file.

Probation. A written reprimand to the student for violation of the Standards of Academic Conduct that includes a designated period of time, the probability of more severe sanctions if the student violates any institutional regulation(s) during the probationary period, and subject to any appropriate terms or conditions, such as loss of privileges, restitution, and discretionary assignments.

Suspension. An involuntary separation of the student from the School of Medicine for a specified period of time or until a special conditions have been met, with a statement whether suspension should relate back to the date of the offense, begin at the time imposed, or begin at a date specified in the future. At the conclusion of the period of suspension, the suspended student is automatically returned to student status. Conditions for readmission may be specified.

Dismissal. An involuntary separation from the School of Medicine for an indefinite period of time. The order of dismissal may specify a date before which the faculty will not consider a petition for readmission from the dismissed student.

Expulsion. Permanent separation of the student from the School of Medicine.

The above sanctions apply to the status of the accused student in the School of Medicine. Any sanction impacting a student's enrollment status and/or privileges will be forwarded to the Vice Chancellor for Student Affairs or designee for information purposes.

An oral presentation of the Council's findings and recommendations is permitted following the hearing, but a written document including findings of fact, verdict, and recommended disposition shall be completed as soon as possible after the hearing. This Final Report of the Council shall be submitted to the Coordinating Committee, the Dean, and the Office of the Vice Chancellor for Student Affairs.

VI. Decision of the Coordinating Committee

The findings and determination of the Honor Council serve as recommendations to the Coordinating Committee and to the Dean of the School of Medicine. The Coordinating Committee, chaired by the Associate Dean for Academic Affairs and composed of members detailed in *The Academic Plan for the School of Medicine*, reviews the charge of misconduct, the findings of fact, the decision of the Council, and the recommended discipline to be imposed from the Honor Council.

After deliberation and careful consideration, the Coordinating Committee approves, by simple majority vote, one of the following actions: 1) to sustain the recommendations of the Honor Council; 2) to amend the recommendations of the Honor Council to another type of sanction; 3) to remand the Honor Council's recommendations; or, 4) to reverse the Honor Council's recommendations.

The findings and determinations of the Honor Council and the Coordinating Committee shall be transmitted to the Dean in writing within seven (7) consecutive calendar days following the Coordinating Committee meeting. A copy of this recommendation shall also be transmitted to the accused student by email or personal delivery in the indicated time frame.

VII. Decision of the Dean

Upon receipt of the documents from the Honor Council and the Coordinating Committee, the Dean shall review the entire record that includes the following: 1) formal notice of the charges; 2) minutes of the Honor Council hearing; 3) written findings of the Honor Council and its recommendations to the Coordinating Committee; and 4) written decision of the Coordinating Committee concerning the sanction passed.

The Dean will, within a reasonable amount of time, make a decision to affirm, amend, or reverse the Coordinating Committee's sentence, or remand the Coordinating Committee for further proceedings.

The Dean shall notify the student in writing by certified mail or personal delivery of his/her final decision. Copies of the letter will be sent to the Honor Council Chair and the Coordinating Committee Chair, and will be placed in the student's file and in the official hearing file.

VIII. Right of Appeal

When a recommendation from the Honor Council and the Coordinating Committee is made for some form of disciplinary action other than "none", and this is upheld by the Dean, or if a recommendation of "no disciplinary action" is revised to one of greater severity by the Dean, the student may appeal such decision to the Chancellor or his/her designated representative by filing written notice of appeal with the Chancellor within ten (10) consecutive calendar days after notification of the decision of the Dean. A copy of the Notice of Appeal will also be given by the student to the Dean of the School of Medicine at the time of filing. The student may file a written memorandum for consideration by the Chancellor with the Notice of Appeal.

The Chancellor or his/her designated representative shall review the full record of the case and the appeal documents and may affirm, reverse, or remand the case for further proceedings and shall notify the Dean and the student in writing of the decision on the appeal. The action of the Chancellor shall be final unless it is to remand the matter for further proceedings.

Status during Appeal: In cases of suspension, dismissal, or expulsion where a Notice of Appeal is filed within the required time, a student may petition the Chancellor in writing for permission to attend classes pending final determination of appeal. The Chancellor may permit a student to continue in school under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not disrupt the University or constitute a danger to the health, safety, or welfare of the University community. In such event, however, any final disciplinary action imposed shall be effective from the date of the action of the Dean.

IX. Status of the Standards of Professional Conduct

Amendments to the Standards of Professional Conduct and/or Honor Council Procedures for Violations may be proposed by petition of any twenty-five members of the student body, the Honor Council on its own motion, or the faculty.

A proposed amendment in the Standards of Professional Conduct and/or Honor Council Procedures for Violations must be approved by the Honor Council, the Coordinating Committee, the Dean, the Chancellor, and the Board of Curators.

The Standards of Professional Conduct and/or Honor Council Procedures for Violations may be terminated at any time by action under the general amending procedure.

All students in the School of Medicine, including students enrolled in either the M.D. or graduate Professional programs involving direct patient care at the UMKC School of Medicine are subject to the jurisdiction of the Standards of Professional Conduct and Honor Council Procedures for Violations upon enrollment. To insure their knowledge of the Standards of Professional Conduct and Honor Council Procedures for Violations, the presentation of these documents shall be an integral part of the orientation of newly accepted students in these programs to the School of Medicine.

School of Nursing Honor Codes

Honor Code Procedures for Violations of the Standards of Professional and Ethical Behavior

University of Missouri-Kansas City School of Nursing

I. Jurisdiction of the School of Nursing

The School of Nursing (SON) shall have jurisdiction over incidents of alleged violations of the University of Missouri-Kansas City School of Nursing's Standards of Professional and Ethical Behavior, Sections IIA and IIB by students accepted into degree programs in the School of Nursing while at the School of Nursing or enrolled in any nursing course or on clinical rotations at affiliated institutions. Alleged violations of the University of Missouri Student Conduct Code as described in Section III will be referred to the Office of the Vice Chancellor for Student Affairs. The Standards of Professional and Ethical Behavior identify areas of conduct which are judged unacceptable for individuals who are either in or aspire to be in the profession of nursing. The Standards of Professional and Ethical Behavior and these Procedures will be distributed to all newly enrolled students during orientation. When a nursing student has been charged with one or more acts of misconduct according to these standards, the Honor Council shall adhere to the following procedures detailed herein.

The Honor Council shall have the authority to recommend sanctions upon any accused appearing before the Council. The disciplinary proceedings described are not to be construed as judicial trials. Care shall be taken, however, to comply as fully as possible with the spirit and intent of these procedural safeguards.

II. Sanctions

The following sanctions may be imposed upon any nursing student found to have violated Sections IIA and IIB of the University of Missouri – Kansas City School of Nursing Standards of Professional and Ethical Behavior:

- Warning – A notice in writing that the student is violating or has violated the Standards of Professional and Ethical Behavior.
- Probation – A written reprimand for violation of specific provisions of the Standards of Professional and Ethical Behavior that includes a designated period of time and the probability of more severe sanctions if the student violates any institutional regulations(s) during the probationary period.
- Loss of Privileges - Denial of specified privileges in the School of Nursing for a designated period of time. Discretionary Sanctions. Work assignments in the School of Nursing, service to the School of Nursing, or other related discretionary assignments in the School of Nursing.
- Suspension from the School of Nursing – An involuntary separation from the School of Nursing for a specified period of time after which the student is eligible to return. Conditions for readmission may be specified.
- Dismissal from the School of Nursing – An involuntary separation from the School of Nursing for an indefinite period of time. It does not imply or state a minimum separation time.
- Expulsion from the School of Nursing – Permanent separation from the School of Nursing.

III. Organization of the Honor Council

A. Composition

The Honor Council members shall consist of the Chair; three voting faculty members, one representing each program, BSN, MSN, PhD (3 votes); five student members, 4 from the BSN program and one from the MSN or PhD program. Five members or their alternates (2 faculty, excluding the chair, and three students) constitute a quorum. An assigned staff member will assist the Chair in generation of reports and will be present at the hearings to take minutes.

B. Eligibility and Appointment

Faculty members Voting members of the faculty who have no more than a 50% administrative appointment are eligible to serve as chair or members of the honor council. Voting members of the School of Nursing Faculty Forum shall elect the chair of the Honor Council and the undergraduate and graduate faculty representatives. Alternates for each position will also be elected.

Student members In order to be eligible for election to the Honor council, students must be in good standing within the School. A student who is placed on academic or disciplinary probation is ineligible for service on the Honor council. In addition, a student may be determined ineligible for service if his or her membership on the Council is assessed by the Chair not to be in the best interest of the School.

Each BSN class shall elect their student representative and their alternates. The graduate representative and alternate shall be elected from among students in all SON graduate programs.

C. Time of Appointment and Term of Office

All members shall serve a one-year appointment, with the exception of the chair who will serve 2 years. Members may be serve more than one term if they are re-elected in subsequent years. Members will serve until they resign or a new member is voted into their position.

Election of student members shall be held on an annual basis at the beginning of the academic year, no later than September 15.

Election of faculty will occur at the last spring faculty forum meeting of the year for the next academic year during regular School committee elections.

Faculty vacancies are filled by special election.

After fall elections, a preliminary meeting of all members (including the chair) will be held within two weeks in order to discuss the role and function of the Honor Council.

D. Hearing Panel of the Honor Council

All faculty representatives including alternate and the three most senior students not in the accused student's class will serve as a hearing panel for the honor code violation. A chair of the Hearing Panel will be elected by simple majority vote of the members of the panel.

Voting by the hearing panel will take place by secret ballot.

The chair of the hearing panel will not vote except in case of a tie among the rest of the hearing panel in which case, the chair shall vote to break the tie.

Proxy votes will not be allowed.

E. Primary Administrative Liaison (PAL)

A primary administrative liaison (PAL) will be appointed by the Dean for a minimum of a two year term. The PAL is not eligible to serve as a member of the Honor Council while serving as the PAL. The PAL and the Chair, when possible, should be serve overlapping terms. The PAL will draft the charge and represent the School of Nursing in all cases.

IV. Procedures for Report of Violation, Investigation, Informal Disposition, and Notice

A. Report of Violation

An alleged violation of the Standards of Professional and Ethical Behavior should be reported to the PAL of the Honor Council or designee as soon as possible after discovery of the incident. The PAL shall inform the chair and Honor Council of the alleged violation within one week if a hearing will be required. The Chair shall notify the Dean of all accusations. If the PAL determines that no violation occurred then the Dean and the Honor Council will be informed via an annual report submitted at the end of each academic year.

B. Preliminary Procedures and Meeting

The PAL shall determine whether the allegations fall within Sections IIA or IIB, or Section III of the Standards of Professional and Ethical Behavior, and shall refer any allegations of violations of Section II to the UMKC Office of Student Affairs. The PAL shall investigate any reported violation of Sections IIA or IIB before initiating formal conduct procedures.

The PAL will notify the accused, in writing by certified mail, of the allegations brought against him/her prior to the commencement of the preliminary meeting between the PAL and the student. In addition, the student shall receive a copy of these Procedures for Violations of the Standards of Professional and Ethical Behavior along with the written notice. The PAL shall meet with the accused student to give the student the opportunity to present a personal version of the incident or occurrence.

Following the investigation the PAL shall determine the appropriate preliminary outcome: no formal charge of misconduct, informal disposition, or formal disposition involving an honor council meeting. The PAL will notify the Chair and the Dean of the outcome as required in section IV A.

C. Informal Disposition

The PAL shall have the authority to propose appropriate sanctions to the accused student and within a week the student shall accept or reject a proposed informal disposition.

A failure of the student either to accept or reject the informal disposition within the 10 working days shall be deemed to be an acceptance and, in such event, the proposed disposition shall become final upon expiration of such time.

If the student rejects informal disposition, it must be in writing and the matter shall then be forwarded to the Honor Council for a formal hearing.

D. General Statement of Procedures

A student charged with a breach of the Standards of Professional and Ethical Behavior is entitled to a written notice of the charge against him or her and a formal hearing unless the matter is disposed of under the rules for informal disposition. Honor Code Procedures are not to be construed as judicial trials and need not wait for legal action before proceeding; however, care shall be taken to comply as fully as possible with the spirit and intent of the procedural safeguards set forth herein. The University of Missouri Office of the General Counsel shall be legal advisor to the Committee and to the PAL.

E. Notice

The PAL shall initiate formal proceedings by arranging with the chair to call a meeting of the Honor Council and by giving written notice to the accused student by email and by certified mail to the student's last address currently on record with the Office of the Registrar. Failure of the student to have

a current correct local address on record shall not be construed to invalidate such notice. The notice shall set forth the date, time and place of the alleged violation and the date, time and place of the hearing before the Honor Council.

F. Conflicts of Interest

Any member of the Honor Council may recuse him or herself if he or she believes he or she has a conflict of interest. The PAL or the accused student may raise the question of a member's Conflict of Interest at the initial meeting of the Honor Council to hear the charge against the student, and the Chair will determine whether the member should be recused. The member will be replaced by his or her alternate. If both the member and the alternate are recused, the appropriate electing body will choose a second alternate for this case only. [See Section IIB for election procedures.].

G. Temporary Suspension

The Dean or his/her designee may at any time temporarily suspend or deny readmission to a student from the School of Nursing pending formal procedures when the Dean or his/her designee finds and believes from available information that the student would seriously disrupt the School of Nursing or constitute a danger to the health, safety or welfare of members of the School of Nursing Community. The appropriate procedure to determine the future status of the student will be initiated within seven calendar days.

V. Procedure for Honor Council Hearing

A. Rights of the Honor Council

- Hear together cases involving more than one accused student which arise out of the same transaction or occurrence, but in that event shall make separate findings and determinations for each accused;
- Permit a stipulation of facts by the involved accused and the PAL;
- Permit the incorporation in the record by a reference of any documentation produced and desired in the record by the PAL or the accused student;
- Question witnesses or challenge other evidence introduced by either the PAL or the accused student at any time;
- Hear from the PAL about dispositions made in similar cases and any dispositions offered to the student appearing before the Committee;
- Call additional witnesses or require additional investigation; · Dismiss any action at any time;
- Permit or require at any time amendment of the Notice of Hearing to include new or additional matters which may come to the attention of the Council before final determination of the case; provided, however, that in such event the Council shall grant to the accused or the PAL such time as the Council may determine reasonable under the circumstances to answer or explain such additional matters; and,
- Dismiss any person from the hearing who interferes with or obstructs the hearing or fails to abide by the rulings of the Council Chair.

B. Rights of the Accused Student Upon Hearing – An accused student appearing before the Honor Council shall have the right to:

Submit, if he or she should choose to do so, a written response to the charge outlined in the Notice before the scheduled hearing is to commence;

- Review and obtain copies, in advance, of any materials that will be presented by the PAL at the hearing;
- Submit a written request for a list of witnesses to be called by the PAL at the hearing;
- Be present at the hearing;
- Have an advisor or counselor appear with the accused and to consult with such an advisor or counselor before and/or during the hearing; however, the advisor/counselor will not be allowed to question witnesses and/or address members of the Council. The accused student must notify the chair at least 48 hours in advance with the name and relationship of the advisor and the name of any witness that will attend the hearing;
- Hear or examine evidence presented to the Honor Council; · Question the PAL and any witnesses who testify at the hearing;
- Present evidence by witness, affidavit, or documents in any media; · Make any statement to the Honor Council in mitigation or explanation of the conduct in question;
- Be informed in writing of the findings and any decisions imposed by the Honor Council;
- Appeal the decision and/or disposition to the Dean and to the Chancellor, as herein provided.

C. Conduct of the Hearing

All proceedings of the Honor Council are to be held in confidence by the members. The hearings shall be taped or stenographically recorded. The notice, exhibits, hearing record, verdict, and findings and determination of the Honor Council shall become the record of the Case and shall be filed in the Dean's office at the School of Nursing. The record shall be accessible at the reasonable times and places to both the PAL and the accused student for the purpose of review or appeal.

The Honor Council Chair shall preside at the hearing, call the hearing to order, call the roll of the Honor Council members in attendance, ascertain the presence or absence of the accused student, read the Notice of Hearing and Charge and verify the receipt of Notice of Charge by the accused, report any continuances requested or granted, establish the presence of any advisor or counselor of the accused student, call to the attention of the accused student and the advisor any special or extraordinary procedures to be employed during the hearing, and permit suggestions for or objections to any procedures for the Honor Council to consider. NOTE: Advisors will not be allowed to question the PAL, witnesses, and/or address members of the Council.

All requests to address the Council shall be addressed to the Chair. The Chair will rule on all requests and points of order and may consult with Council's legal advisor prior to any ruling. The Chair's ruling shall be final, and all participants shall abide thereby, unless the Chair shall present the question to the Council at the request of a member of the Council, in which event, the ruling of the Council by majority vote shall be final.

Rules of common courtesy and decency shall be observed at all times.

1. Opening Statements:

- The PAL may make an opening statement outlining the general nature of the case.
- The accused student may make an opening statement to the Council about the charge at this time or at the conclusion of the School of Nursing's presentation.

2. School of Nursing's Evidence:

- Witnesses of the School of Nursing are to be called, identified and questioned by the PAL, and any written reports or evidence introduced by the PAL as appropriate.
- The Council may question witnesses at any time.
- The accused student may question witnesses or examine evidence at the conclusion of the PAL's presentation.

3. Accused Student's Evidence:

- If the accused student has not elected to make an opening statement previously, he or she shall have the opportunity to make a statement to the Honor Council about the charge at this time.
- The accused student may present evidence through questioning witnesses or by written memoranda or other documents.
- The Council may question the accused student or witnesses at any time.
- The PAL may question witness or examine evidence at the conclusion of the accused student's presentation.

4. Rebuttal Evidence:

The Honor Council may permit the PAL or the accused to offer a rebuttal to the other's presentation.

VI. Determination of the Honor Council

Following the hearing, the Council shall promptly deliberate in closed session out of the presence of the accused, the witnesses, and the PAL. The Honor Council shall determine by a simple majority vote based on the evidence presented in the hearing whether they believe the student violated the Standards of Professional and Ethical Behavior as charged, and if so what sanction, if any, is appropriate. Separate findings shall be made as to the conduct of the student and as to the sanction, if any, to be imposed. The Council shall promptly submit its findings and determination in writing to the accused student and to the PAL.

The findings and determination of the Honor Council shall serve as a decision for the School of Nursing.

VII. Appeal to the Dean

If the student so desires, he or she may appeal the decision of the Council to the Dean within 10 business days of the Honor Council decision. A copy of the Notice of Appeal shall be given by the student to the PAL. The student may file a written memorandum for consideration by the Dean with the Notice of Appeal, and the Dean may request a reply from the PAL. The Dean shall review the record of the case and the appeal documents, and may affirm, reverse, or remand the case for further proceedings before the Honor Council.

The Dean shall notify the accused of his or her decision in writing, by certified mail. Copies of the letter will be sent to the Honor Council Chair, the PAL, and will be included with the official hearing file.

VIII. Appeal to the Chancellor

The accused student may appeal from the Dean's decision to the Chancellor or designated representative by filing written notice of appeal with the Chancellor within ten (10) business days after notification of the decision of the Dean. A copy of the Notice of Appeal will also be given by the accused to the Dean of the School of Nursing and to the PAL at the time of filing. The accused student may file a written memorandum for consideration by the Chancellor with the Notice of Appeal.

The Chancellor or designated representative shall review the record of the case and the appeal documents and may affirm, reverse, or remand the case for further proceedings and shall notify the Dean and the accused student in writing of the decision on the appeal. The action of the Chancellor shall be final unless it be to remand the matter for further proceedings.

IX. Status during the Appeal

In cases of suspension, dismissal or expulsion where a Notice of Appeal is filed within the required time, the accused student may petition the Chancellor in writing for permission to attend classes pending final determination of appeal. The Chancellor may permit the accused student to continue in school under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not disrupt the University or constitute a danger to the health, safety or welfare of the University Community. In such event, however, any final disciplinary action imposed shall be effective from the date of the action of the Honor Council.

X. Status of the Standards of Professional and Ethical Behavior

Amendments to the Standards of Professional and Ethical Behavior and/or Honor Council Procedures for Violations may be proposed by petition of any twenty-five members of the student body, or the Honor Council on its own motion, or the faculty.

A proposed amendment in the Standards of Professional and Ethical Behavior and/or Honor Council Procedures for Violations must be approved by a 2/3 majority vote of the Honor Council members present (all members have the right to vote on amendments = 9 votes), by a 2/3 majority vote of the faculty present, by the Chancellor, and by the Board of Curators.

The Standards of Professional and Ethical Behavior and/or Honor Council Procedures for Violations may be terminated at any time by action under the general amending procedure.

Standards of Professional and Ethical Behaviour

University of Missouri – Kansas City School of Nursing

I. Preamble

One of the goals of a school of nursing is to educate student nurses during the transition to a professional life. The University of Missouri – Kansas City School of Nursing (UMKC-SON) has an obligation to society¹ to evaluate students pursuing the B.S.N., M.S.N., and Ph.D. degrees, as thoroughly as possible. This responsibility includes their cognitive abilities, their academic and professional knowledge and skills, their integrity, and their suitability to practice nursing in their desired professional role. Accordingly, the Standards of Professional and Ethical Behavior detailed in this document have been developed to guide students who are enrolled at all levels with the UMKC-SON, including undergraduate and graduate students, and are designed to assure accountability for the professional and ethical standards of the nursing profession.

II. Integrity

A. Personal and Professional Integrity

1. Honesty

A student nurse shall deal honestly with people including, but not limited to, colleagues, instructors, representatives of the University, patients, attending physicians, nursing staff, any representative of our clinical agencies, and other members of the health care team. Student nurses are expected to demonstrate honesty and integrity in all aspects of their interaction with patients and staff – particularly in assuring accuracy and completeness in their actions and documentation. The student nurse shall be willing to admit errors and must not mislead others or promote himself or herself at the patient's expense. The student nurse shall strive to report, by utilizing the Honor Council Procedures for Violations of the Standards of Professional and Ethical Behavior, those student nurses deficient in character or competence, or who engage in fraud, deception, and/or dishonesty.

A basic principal underlying all research is honesty. Scientists and student nurses who participate in research have a responsibility to provide research results of the highest quality; to gather facts meticulously, to keep impeccable records of work done; to interpret results realistically, not forcing them into preconceived molds or models; and to report new knowledge through appropriate channels. Co-authors of research reports must be sufficiently acquainted with the work of their co-workers that they can personally vouch for the integrity of the study and validity of the findings, and must have been active in the research itself.

- Examples of academic dishonesty include, but are not limited to, the following:

i. Cheating

- Use of any unauthorized assistance in taking quizzes, tests, or examinations;
- Dependence upon the aid of unauthorized sources in writing papers, preparing reports, solving problems, or carrying out assignments;
- Acquisition or possession without permission of tests or other academic material belonging to a member of the University faculty or staff;
- Use of assignments or papers prepared in one class for another class without disclosing such information to the faculty
- In any way giving assistance to others who are participating in any of the three preceding types of behavior; or
- Falsifying attendance records or other official documents.

ii. Plagiarism

- Use by paraphrase or direct quotation of the published or unpublished work of another person without fully and properly crediting the author with footnotes, citations or bibliographical reference;
- Unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials; or
- Unacknowledged use of original work/material that has been produced through collaboration with others without release in writing from collaborators.

iii. Sabotage

- Unauthorized interference with, modification of, or destruction of the work or intellectual property of another member of the University.

iv. Falsification of Patient's Medical Record or Information

- Examples of dishonesty related to clinical practice include, but are not limited to, the following:
 - Writing progress notes or other documentation regarding the patient's status, including, but not limited to, clinical observations, medication administration or results in the patient's chart when the student nurse has not seen or evaluated the patient, or using incorrect times of data entry.
 - Reporting medical information such as physical examination findings, lab values, test results, medications, or any other relevant patient information to other students, nurses, nursing supervisors, residents, attending physicians, the patient, the patient's family or other relevant health care personnel that has been fabricated by the student nurse.

2. Responsibility

A student nurse must acquire competencies with the appropriate concepts, knowledge and skills that the faculty determine essential. These competencies shall be utilized to care for the sick and to promote the health and welfare of society². A student nurse shall recognize a responsibility to participate in activities contributing to an improved community.

Student nurses in the care of patients must not be harmful, dangerous, or negligent to the mental or physical health of a patient or the public. Negligent means failure to exercise that degree of skill and learning ordinarily used under the same or similar circumstances by other student nurses.

Students must be familiar with and follow the rules and regulations of the School of Nursing, the University, and professional organizations which they are required to follow as nursing students. Copies of such rules and regulations are attached herewith.

B. Professional Nursing Behavior

1. Nondiscrimination

A nursing student shall provide care to patients without discriminating based on race, color, creed, sex, age, national origin, disability or Vietnam Era Veterans status.

It is against the University regulations to discriminate on the basis of race, color, creed, sex, age, national origin, disability, or Vietnam Era Veterans status. The University has an AIDS policy statement consistent with state law that prohibits discrimination against persons with AIDS or who are HIV positive.

2. Confidentiality

A student nurse shall respect the rights of patients, colleagues, affiliated institutions, and other health professionals, and shall safeguard patient confidences within the constraints of law. The patient's right to confidentiality in regard to his or her medical record, which includes confidentiality of personal and social history, is a fundamental tenet to health care.

The discussion in public of the problems of an identified patient, without the patient's permission, by professional staff (including other students) violates patient confidentiality and is unethical. Under no circumstances can any medical record be removed from any institution. Photocopying of the entire record is never permitted for presentations, rounds, or conferences; if permitted by the health care institution or provider students are permitted to extract information, but not copy 'wholesale' parts of the chart. Names of the patients should be omitted from any documents used for these presentations.

3. Disclosure

While the student nurse is a member of the patient care team and under direct or indirect faculty supervision, a student nurse shall continue to study, apply and advance scientific knowledge, make relevant information available to patients, colleagues, and the public, obtain consultation and use the talents of other health professionals when indicated.

Sharing of medical information appropriately with a patient and colleagues involved in the care of the patient is a fundamental ethical requirement.

The patient must be well informed to make health care decisions and work intelligently in partnership with the patient care team. Information that the patient needs for decision-making shall be presented in terms that patient can understand. If, for some reason, the patient is unable to comprehend, there shall be disclosure to the patient's authorized representative.

Failure of a student nurse to share medical information relevant to a patient with a patient and colleagues involved in the care of the patient is unethical. Providing inaccurate information with these individuals is also unacceptable.

4. Misconduct with Patients

The student nurse will not engage in nonprofessional behaviors with a patient – even upon the apparent request of a patient – while the student nurse is involved with the patient's care.

5. Representation

A student nurse shall accurately represent himself or herself to others including, but not limited to, colleagues, instructors, representatives of the University and their affiliates, partner institutions, patients, nurses, and other members of the health care team.

Examples of misrepresentation include, but are not limited to the following:

- Misrepresentation of the student's position, knowledge, and authority, including use of the title "nurse" by an undergraduate student nurse, or by use of the titles advanced practice nurse (APRN), nurse practitioner (NP), clinical nurse specialist (CNS), nurse midwife (NM), or nurse anesthetist (CRNA) by a graduate student.
- Use of fraud, deception, lies, or bribery in securing any certificate or registration or authority, diploma, permit or license issued, or in obtaining permission to take any examinations.
- Impersonation of any person holding a certificate of registration or authority, permit, license or allowing any person to use his/her certificate of registration or authority, permit license, or diploma from any school.
- Forgery, alteration, or misuse of a patient's medical records or knowingly furnishing false information to the other members of the health care profession and/or professional organizations.

6. Assessment of Personal Competence (Self-Evaluation)

Student nurses shall seek consultation and supervision whenever their ability to play their role in the care for a patient is inadequate because of lack of knowledge or experience.

Students are expected to respond to constructive criticism by appropriate modification of behavior.

7. Professional Demeanor

The student nurse is a representative of UMKC, and should realize that their behavior may positively and negatively affect the judgments of others about UMKC-SON.

UMKC-SON students are expected to be thoughtful and professional when interacting with faculty, patients and their families, nurses, attending physicians, nursing preceptors, affiliated institutional staff, other students, and other members of the health care team.

Students shall maintain a neat and clean appearance, and dress in attire that is generally accepted as professional by the patient populations served.

Inappropriate behavior includes, but is not limited to, the use of offensive language, gestures, or remarks. Attempting, directly or indirectly, by way of intimidation, coercion or deception, to obtain or retain a patient or discourage the use of a second opinion or consultation is not appropriate.

8. Impairment

The student nurse will not use alcohol or drugs in ways that impair his/her ability to perform the work of the profession or results in compromised patient care. It is the responsibility of every student nurse to strive to protect the public from an impaired colleague and to assist that colleague whose capability is impaired because of alcohol or drug use.

9. Conflict of Interest

If a conflict of interest arises, the moral principle is clear – the welfare of the patient must be, at all times, paramount. For example, gifts, hospitality, or subsidies offered by manufacturers and distributors of medical and or other equipment/goods shall not be accepted if acceptance would influence the objectivity of clinical judgment.

10. Criticism of Colleagues

Professional relations among all members of the medical community shall be marked by civility. Scholarly contributions shall be acknowledged and each person shall recognize and facilitate the contributions of others to this community; slanderous comments and acts are not acceptable. Student nurses shall deal with professional, staff, and peer members of the health team in a considerate manner and with a spirit of cooperation. It is unethical and harmful for a student nurse to disparage, without sufficient evidence, the professional competence, knowledge, qualifications, or services of a colleague to anyone. It is also unethical to imply without reliable evidence – by word, gesture, or deed – that a patient has been poorly managed or mistreated by a colleague.

11. Teaching

It is incumbent upon those entering this profession to teach what they know of the science, art, and ethics of nursing care. It includes communicating clearly and teaching patients so that they are properly prepared to participate in their own care and in the maintenance of their health.

III. The University of Missouri Student Conduct Code

In addition to the conduct detailed in the preceding sections, a student nurse is subject to the University of Missouri Student Conduct Code, as administered by the Office of the Vice Chancellor for Student Affairs, except for provisions dealing with academic dishonesty, Section 200.01 0 B. 1.

Conduct for which students are subject to sanctions falls into the following categories:

1. Forgery, alteration, or misuse of University documents, records or identification, or knowingly furnishing false information to the University.
2. Obstruction or disruption of teaching, research, administration, conduct proceedings, or other University activities, including its public service functions on or off campus.
3. Physical abuse or conduct which threatens or endangers the health or safety of any person.
4. Attempted or actual theft of, damage to, or possession without permission of property of the University or of a member of the University community or of a campus visitor.
5. Unauthorized possession, duplication, or use of keys to any University facilities or unauthorized entry to or use of University facilities.
6. Violations of University policies, rules or regulations or of campus regulations including, but not limited to, those governing residence in University-provided housing, or the use of University facilities, or the time, place and manner of public expression.
7. Manufacture, use, possession, sale or distribution of alcoholic beverages or any controlled substance without proper prescription or required license or as expressly permitted by law or University regulations.
8. Disruptive or disorderly conduct or lewd, indecent, or obscene conduct or expression.
9. Failure to comply with direction of University officials acting in the performance of their duties.
10. Illegal or unauthorized possession of firearms, explosives, other weapons, or dangerous chemicals.
11. Actual or attempted theft or other abuse of computer time, including but not limited to:
 - Unauthorized entry into a file to use, read, or change the contents, or for any other purpose;
 - Unauthorized transfer of a file;
 - Unauthorized use of another individual's identification and password;
 - Use of computing facilities to interfere with the work of another student, faculty member, or University official;
 - Knowingly causing a computer virus to become installed in a computer system or file.

Details of the policies, procedures, sanctions, and due process for violations of the University of Missouri Student Conduct Code are found in the University of Missouri – Kansas City General Catalogue and the student handbook.

School of Pharmacy Honor Codes

Honor Council Procedures for Violations of the Standards of Professional Growth and Ethical Behavior

University of Missouri-Kansas City School of Pharmacy

I. Jurisdiction of the Honor Council

The Honor Council shall be concerned with specified incidents of alleged violations by University of Missouri-Kansas City School of Pharmacy students of the School's Standards of Professional and Ethical Behavior, Sections IIA and IIB. Violations of the University of Missouri Student Conduct Code as described in Section III will be referred to the Office of the Vice Chancellor for Student Affairs. The standards identify areas of conduct which are judged unacceptable for individuals who are either in or aspire to be in the profession of pharmacy. The Standards of Professional and Ethical Behavior are distributed to all newly enrolled students during orientation. When a pharmacy student has been charged with one or more acts of misconduct according to these standards, the Honor Council shall adhere to the following procedures detail herein. The Honor Council shall have the authority to recommend sanctions upon any accused appearing before the Council. The disciplinary proceedings described are not to be construed as judicial trials. Care shall be taken, however, to comply as fully as possible with the spirit and intent of these procedural safeguards.

II. Organization of the Honor Council

A. Composition

The Honor Council members shall consist of the Chair; three voting faculty members, one from each division (3 votes); and one student member from each year 2-6 of the professional degree programs (5 students). The three most senior students no in accused's class will vote. Voting will take place by secret ballot. The chair and faculty members will not be administrators or division chairs. Four members or their alternates (2 faculty (to exclude the chair), 2 students) constitute a quorum. One nonvoting Honor Council staff member will assist the Chair in generation of reports and will be present at the hearings to take minutes. In case of a tie among the Honor Council as a whole, the chair shall vote in order to make the final determination upon recommendations from the other members. Proxy votes will not be allowed.

B. Eligibility and Appointment

The chair of the Honor Council shall be elected by the full faculty. An alternate will also be elected. The three division representatives and an alternate for each shall be elected by their respective divisions. The student representatives and their alternates shall be elected by their class officers. All elections shall be held on an annual basis at the beginning of the academic year, no later than September 15. After elections, a preliminary meeting of all members to discuss the role and function of the Honor Council will be held within two weeks.

C. Time of Appointment and Term of Office

All members shall serve a one year appointment or until replaced by election but may be re-elected in subsequent years. A student is ineligible to continue as a member of the Honor Council if placed on academic or disciplinary probation, or if for any other reason membership of the Council may not be in the best interest of the School of Pharmacy as determined by the Honor Council chair. In this case, the alternate would assume membership on the Council, and another alternate would be chosen by the class officers.

D. Primary Administrative Liaison (PAL)

A primary administrative liaison (PAL) will be appointed by the Dean for a minimum of a two year term. The PAL will draft the charge and represent the School of Pharmacy in all cases. The PAL will include all references to the School of Pharmacy within this document.

III. Procedures for Report of Violation, Investigation, Informal Disposition, and Notice

A. Report of Violation

An alleged violation of the Standards of Professional and Ethical Behavior should be reported to the PAL of the Honor Council or designee as soon as possible after discovery of the incident. The Chair shall notify the Dean of all accusations.

B. Preliminary Procedures and Meeting

The PAL shall investigate any reported student misconduct before initiating formal conduct procedures. The PAL is responsible for notifying the accused, in writing by certified mail, of the allegations brought against him/her prior to the commencement of the preliminary meeting and shall receive a copy of these Procedures for Violations of the Standards of Professional and Ethical Behavior along with the written notice. The PAL shall meet with the accused student to give the student the opportunity to present a personal version of the incident or occurrence.

C. Informal Disposition

The PAL shall have the authority to dismiss an allegation or propose appropriate sanctions to the accused student and shall fix a reasonable time within which the student shall accept or reject a proposed informal disposition. A failure of the student either to accept or reject within the time fixed shall be deemed to be an acceptance and, in such event, the proposed disposition shall become final upon expiration of such time. If the student rejects informal disposition, it must be in writing and shall be forwarded to the Honor Council.

D. Prior to Formal Hearing

The PAL shall draft the charge and call the Honor Council into session for a preliminary meeting within 10 working days of receipt of a written accusation of misconduct. The Chair of the Honor Council shall approve meeting dates. In the case that an elected member and an alternate have a conflict of interest in the case, the electing body would choose another member for the one case at the time of the preliminary meeting. [See section IIB for election procedures.] If the case is found to be within the jurisdiction of the Honor Council, a formal hearing will be held. If it is not within the jurisdiction of the Honor Council, the case will be forwarded to the Office of the Vice Chancellor for Student Affairs or other appropriate action.

will be taken. The PAL and the accused may meet with the Chair separately to discuss these policies and procedures. The Dean, designee, or other appropriate university official(s), may at any time temporarily suspend or deny readmission to the accused from the School of Pharmacy pending formal procedures when the Dean or the Chancellor or the Chancellor's designee finds and believes from available information that the presence of the accused on campus would seriously disrupt the School of Pharmacy or constitute a danger to the health, safety, or welfare of members of the School of Pharmacy community. The appropriate procedure to determine the future status of the accused will be initiated within seven calendar days of any action taken.

E. Notice of Formal Hearing

If the accusation is found at the preliminary meeting to be within the jurisdiction of the Honor Council, the formal hearing will be held within 15 working days of mailing of the official notice. Notice by certified mail will be sent to the address currently on record with the UMKC Registrar's Office. Failure by the accused to have a current local address on record with the Registrar's Office shall not be construed to invalidate such notice. The PAL, witnesses, and the accused will be given written notice of the hearing by certified mail. The notice shall set forth the date, time, and place of the alleged violation, the conduct for inquiry, the date, time and place of the hearing before the Council, request for attendance of the parties involved, and a reference for the accused to the Rights of the Accused Student Upon Hearing which are outlined in these Procedures. The notice shall be given at least seven (7) consecutive calendar days prior to the hearing, unless a shorter time be fixed by the Chair for good cause. Any request for continuance shall be made in writing to the Chair who shall have the authority to postpone the hearing if it is determined that the request is timely and made for good cause. The Chair shall notify the Honor Council members, the accused, the PAL, the witnesses, and any other relevant individuals of the new date for the hearing. If the accused fails to appear at the scheduled time, the Honor Council may hear and determine the matter in the accused's absence.

IV. Procedure for Honor Council Hearing

A. Rights of the Honor Council

The Honor Council shall have the right to:

- hear together cases involving more than one accused which arise out of the same act of misconduct, but in that event shall make separate findings and determinations for each accused;
- permit a stipulation of facts by the accused involved and the PAL;
- permit the incorporation in the record by a reference of any document, affidavit, or other material produced and desired in the record by the PAL or the accused charged and make a determination of whether the information is relevant to the case at hand.
- question witnesses, the accused, and/or the PAL or challenge other evidence introduced by either the PAL or the accused at any time;
- hear from the Council Chair about dispositions made in similar cases;
- call additional witnesses or require additional investigation,
- dismiss any action at any time;
- permit or require at any time, within a reasonable time as determined by the Council, amendment of the Notice of Hearing to include new or additional matters which may come to the attention of the Council before final determination of the case; provided, however, that in such event the Council shall grant to the accused or the School such time as the Council may determine reasonable under the circumstances to answer or explain such additional matters; and,
- dismiss any person from the hearing who interferes with or obstructs the hearing or fails to abide by the rulings of the Council Chair on any procedural question or request of the Chair for order.

B. Rights of the Accused Upon Hearing

The accused scheduled to appear before the Honor council pursuant to formal notice of charges and disciplinary hearing shall have the right to:

- submit a written response to the charge outlined in the Notice before the scheduled hearing is to commence;
- request in advance of the scheduled hearing a review of any materials contained in the accused's hearing file which will be kept in the Student Affairs Office;
- submit a written request for the identities of witnesses to be called to testify before the Council;
- be present at the hearing;
- have an advisor or counselor appear with the accused and to consult with such an advisor or counselor before and/or during the hearing: however, the advisor/counselor will not be allowed to question witnesses and/or address members of the Council;
- hear or examine evidence presented to the Honor Council
- question the PAL and/or witnesses present who are testifying at the hearing.
- present evidence by witness, affidavit, written report, other memoranda, photographs, drawings, and any other relevant evidence of any defense the accused desires:
- make any statement to the Honor Council in mitigation or explanation of the conduct in question;
- remain silent to avoid self-incrimination;
- be informed in writing of the findings and any decisions imposed by the Honor Council, the Executive Committee; and, • appeal the decision and/or disposition to the Chancellor, as herein provided.

C. Rights of School of Pharmacy

The Primary Administrative Liaison (PAL) has the right to:

- be present at the hearing;
- present evidence by witness, affidavit, written report, other memoranda, photographs, drawings, and any other relevant evidence the PAL desires;
- offer rebuttal at the appropriate time as determined by the Chair;
- question witnesses or the accused;
- have an advisor or counselor appear with the PAL and to consult with such an advisor or counselor before or during the hearing; however, the advisor/counselor will not be allowed to question witnesses and/or address members of the Council;
- hear or examine evidence presented to the Honor Council by witnesses or the accused; and,
- be informed in writing of the findings and any decisions imposed by the Honor Council or the Executive Committee.

D. Rights of Witnesses

Witnesses shall be notified of the scheduled time, date, and location of the hearing. Witnesses shall bring with them whatever documentation is requested. Failure of a student witness to appear, without good cause, is a violation of the Standards of Professional and Ethical Behavior.

E. Record of Hearing

All proceedings of the Honor Council are to be held in the strictest confidence by the members and all other persons involved. The hearings shall be audio taped, and written minutes will also be recorded. The notice, exhibits, hearing record, verdict, and disposition of the Honor Council shall become the record of the Case. This official document shall be filed under strictest security in the permanent records of the Students Affairs Office of the School of Pharmacy. The record shall be accessible at the reasonable times and places to both the University and the accused for the purpose of review or appeal.

F. Conduct of the Hearing

The Honor Council Chair shall preside at the hearing, call the hearing to order, call the roll of the Honor Council members in attendance, ascertain the presence or absence of the accused, read the Notice of Hearing and Charge and verify the receipt of Notice of Charge by the accused, report any continuances requested or granted, establish the presence of any advisor or councilor of the accused, call to the attention of the accused and the advisor any special or extraordinary procedures to be employed during the hearing, and permit suggestions for or objections to any procedures for the Honor Council to consider. NOTE: Advisors will not be allowed to question the PAL, witnesses, and/or address members of the Council. All requests to address the Council shall be addressed to the Chair. The Chair will rule on all requests and points of order and may consult with Council's legal advisor prior to any ruling. The Chair's ruling shall be final, and all participants shall abide thereby, unless the Chair shall present the question to the Council at the request of a member of the Council, in which event, the ruling of the Council by majority vote shall be final. Rules of common courtesy and decency shall be observed at all times.

1. Opening Statements

- The Honor Council Chair or designee shall make opening remarks outlining the general nature of the case.
- The accused may make an opening statement to the Council about the charge at this time.
- The PAL may make an opening statement and may add additional clarification to other opening statements as necessary.
- Witnesses of the School of Pharmacy are to be called by the PAL and identified or written reports of evidence are introduced as appropriate.
- The Council may question witnesses at any time.
- The accused may question witnesses or examine evidence at the conclusion of the PAL's presentation.

2. School of Pharmacy's Evidence

- The PAL may question own witnesses.
- The accused shall have the opportunity to make a statement to the Honor Council about the charge.
- The accused may present evidence through witnesses or written memoranda.
- The Council may question the accused or witnesses at any time.
- The PAL may question witnesses or examine evidence at the conclusion of the accused's presentation.
- the accused may question own witnesses.
- Accused's Evidence:

3. Rebuttal Evidence:

The Honor Council may permit the PAL or the accused to offer a rebuttal to the other's presentation. If it appears that essential testimony is unavailable, or that for other good cause the hearing should be deferred, the Council may continue, recess or discontinue the hearing without prejudice.

V. Determination of the Honor Council

Following the hearing, the Council shall promptly deliberate in closed session out of the presence of the accused, the witnesses, or the PAL. Determination is to be made regarding both the validity of the charge and the discipline, if any, to be imposed.

A. Violation of the Standards of Professional and Ethical Behavior

The Honor Council shall determine if the evidence presented in the hearing supports the charge of violation of the Standards of Professional and Ethical Behavior. The Council shall render a decision, by simple majority vote, of whether a violation has been committed by the accused. Each charge, if there are more than one, shall be considered individually and/or collectively at the discretion of the Council.

B. Discipline Imposed

The Honor Council shall determine the discipline to be imposed, if any, based upon its deliberations. The following forms of discipline are to be recommended by means of a simple majority vote of the Council members. Where there are multiple violations, there can be separate sanctions for each violation. The sanctions include, but are not limited to, the following:

- **No Disciplinary Action –**
Given when the student is not found in violation of the Standards of Professional and Ethical Behavior.
- **Warning –**
A written reprimand that the student has violated the Standards of Professional and Ethical Behavior.
- **Probation –**
A written reprimand for violation of the Standards of Academic Conduct that includes a designated period of time, the probability of more severe sanctions if the student violates any institutional regulations(s) during the probationary period, and subject to any appropriate terms or conditions, such as loss of privileges, restitution, and discretionary assignments.
- **Suspension –**
An involuntary separation from the School of Pharmacy for a specified period of time or until special conditions have been met, with a statement whether suspension should relate back to the date of the offense, begin at the time imposed, or begin at a date specified in the future. At the conclusion of the period of suspension, the suspended student is automatically returned to student status. Conciliation for readmission may be specified.
- **Dismissal –**
An involuntary separation from the School of Pharmacy for an indefinite period of time. The order of dismissal may specify a date before which the faculty will not consider a petition for readmission from the dismissed student.
- **Expulsion –**
Permanent separation from the School of Pharmacy. A copy of the imposed sanction is to be placed in the student's non-academic file.

C.

An oral presentation of the Council's findings and recommendations is permitted following the hearing, but a written document including findings of fact, verdict, and recommended disposition shall be completed as soon as possible after the hearing. This Final Report of the Council shall be submitted to the Executive Committee and the Office of the Vice Chancellor for Student Affairs. All parties will be notified in writing of the Honor Council's recommendation by certified mail within seven calendar days.

VI. Decision of the Executive Committee

The findings and determination of the Honor Council serve as recommendations to the Executive Committee. The Executive Committee, as described in the School of Pharmacy By-Laws, chaired by the Dean or designee, reviews the charge, the finding of fact, the decision of the Council, and the recommended discipline to be imposed from the Honor Council. They also assured that the procedures outlined for the Honor Council were successfully followed. The Executive Committee has the right to request further information from either party. Either party can also request to address the Executive Committee. In either case, both parties will be notified of the request, the nature of the request, and be asked to attend if deemed necessary by the Executive Committee. Both parties will have the same rights as they have upon hearing as outlined in IV B & C of this document. The Executive Committee hearings shall be audio taped, and written minutes will also be recorded. The notice, exhibits, hearing record, verdict, and disposition of the Executive Committee shall become the record of the Case. This official document shall be filed in the permanent records of the Student Affairs Office of the School of Pharmacy. The record shall be accessible at the reasonable times and places to both the University and the accused for the purpose of review or appeal. After deliberation and careful consideration, the Executive Committee approves, by simple majority vote, one of the following actions:

- to sustain the recommendations of the Honor Council;
- to amend the recommendations of the Honor Council to another type of sanction;
- to remand the Honor Council's recommendations; or,
- to reverse the Honor Council's recommendations.

The Dean shall notify the accused of the findings of the Honor Council and the Executive Committee in writing, by certified mail, within seven calendar days of the Executive Committee meeting. Copies of the letter will be sent to the Honor Council Chair, the PAL, and the Office of Student Affairs for placement in the accused's file and in the official hearing file.

VII. Right of Appeal

When a recommendation from the Honor Council and the Executive Committee is made for some form of disciplinary action other than 'no disciplinary action', the accused may appeal such decision to the Chancellor or designated representative by filing written notice of appeal with the Chancellor within ten (10) consecutive calendar days after notification of the decision of the Executive Committee. A copy of the Notice of Appeal will also be given by the accused to the Dean of the School of Pharmacy at the time of filing who will transmit copies to the Executive Committee and the Honor Council. The accused may file a written memorandum for consideration by the Chancellor with the Notice of Appeal.

The Chancellor or designated representative shall review the record of the case and the appeal documents and may affirm, reverse, or remand the case for further proceedings and shall notify the Dean and the accused in writing of the decision on the appeal. The action of the Chancellor shall be final unless it be to remand the matter for further proceedings.

Status During Appeal

In cases of suspension, dismissal or expulsion where a Notice of Appeal is filed within the required time, the accused may petition the Chancellor in writing for permission to attend classes pending final determination of appeal. The Chancellor may permit the accused to continue in school under such conditions as may be designated pending completion of appellate procedures, provided such continuance will not disrupt the University or constitute a danger to the health, safety or welfare of the University Community. In such event, however, any final disciplinary action imposed shall be effective from the date of the action of the Executive Committee.

VIII. Status of the Standards of Professional and Ethical Behavior

Amendments to the Standards of Professional and Ethical Behavior and/or Honor Council Procedures for Violations may be proposed by petition of any twenty-five members of the student body, or the Honor Council on its own motion, or the faculty.

A proposed amendment in the Standards of Professional and Ethical Behavior and/or Honor Council Procedures for Violations must be approved by a 2/3 majority vote of the Honor Council members present (all members have the right to vote on amendments = 9 votes), by a 2/3 majority vote of the faculty present, by the Chancellor, and the Board of Curators.

The Standards of Professional and Ethical Behavior and/or Honor Council Procedures for Violations may be terminated at any time by action under the general amending procedure.

Standards of Professional and Ethical Behavior

University of Missouri-Kansas City School of Pharmacy

I. Preamble

One of the goals of a pharmacy school is to educate a pharmacy student during the transition to a professional life. The University of Missouri-Kansas City School of Pharmacy has an obligation to evaluate students pursuing the B.S. and Pharm.D. practice degrees as thoroughly as possible for their cognitive abilities, their academic and professional knowledge and skills, their integrity, and their suitability for the practice of pharmacy. Accordingly, the Standards of Professional and Ethical Behavior detailed in this document have been developed to guide the pre-professional behavior of **professional degree-seeking** pharmacy students of the University of Missouri-Kansas City School of Pharmacy and to prepare the pharmacy students to meet the ethical standards of the pharmacy profession.

Students enrolled in the graduate programs in pharmaceutical sciences and pharmacology will be governed by the University of Missouri Student Conduct Code.

II. Professional Integrity

A. Professional Integrity

1. Honesty

A pharmacy student shall deal honestly with people including, but not limited to, colleagues, instructors, representatives of the University, patients, attending physicians, and other members of the health care team. Pharmacy students are expected to demonstrate honesty and integrity in all aspects of their interaction with patients and staff – particularly in assuring accuracy and completeness in their actions and documentation. The pharmacy student shall be willing to admit errors and must not mislead others or promote himself/herself at the patient's expense. The pharmacy student shall strive to report, by utilizing the Honor Council Procedures for Violations of the Standards of Professional and Ethical Behavior, those pharmacy students deficient in character or competence, or who engage in fraud or deception.

The basic principle underlying all research is honesty. Scientists and pharmacy students who participate in research have a responsibility to provide research results of the highest quality; to gather facts meticulously, to keep impeccable records of work done; to interpret results realistically, not forcing them into preconceived molds or models; and to report new knowledge through appropriate channels. Co-authors of research reports must be sufficiently acquainted with the work of their co-workers that they can personally vouch for the integrity of the study and validity of the findings, and must have been active in the research itself.

- Examples of academic dishonesty include, but are not limited to, the following:

- **Cheating**

- use of any unauthorized assistance in taking quizzes, tests, or examinations;
- dependence upon the aid of unauthorized sources in writing papers, preparing reports, solving problems, or carrying out other assignments;
- acquisition or possession without permission of tests or other academic material belonging to a member of the University faculty or staff;
- in any way giving assistance to others who are participating in any of the three preceding types of behavior; or
- falsifying attendance records or other official documents.

- **Plagiarism**

- use by paraphrase or direct quotation of the published or unpublished work of another person without fully and properly crediting the author with footnotes, citations or bibliographical reference;
- unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials; or
- unacknowledged use of original work/material that has been produced through collaboration with others without release in writing from collaborators.

- **Sabotage**

- unauthorized interference with, modification of, or destruction of the work or intellectual property of another member of the University community.
- Examples of dishonesty related to clinical practice include, but are not limited to, the following:
 - **Falsification of Patient's Medical Record or Information**
 - Writing progress notes or other documentation regarding the patient's status, including, but not limited to, clinical observations or results in the patient's chart when the pharmacy student has not seen or evaluated the patient, or using incorrect times of data entry.
 - Reporting medical information such as physical examination finds, lab values, test results, and any other relevant patient information to other students, residents, attending physicians, the patient, the patient's family, or other relevant health care personnel that has been fabricated by the pharmacy student.

2. Responsibility

A pharmacy student must acquire competencies with the appropriate concepts, knowledge, and skills which the faculty determine to be essential. These competencies shall be utilized to care for the sick and to promote the health and welfare of society. A pharmacy student shall recognize a responsibility to participate in activities contributing to an improved community.

Pharmacy students in the care of patients must not be harmful, dangerous, or negligent to the mental or physical health of a patient or the public. Negligent means the failure to use that degree of skill and learning ordinarily used under the same or similar circumstances by other pharmacy students.

Students must be familiar with and follow the rules and regulations of the School of Pharmacy, the University, and related professional organizations.

B. Pharmacy Professional Behavior

1. Nondiscrimination

It is against University regulations to discriminate on the basis of race, color, creed, sex, age, national origin, disability, or Vietnam Era Veterans status. The University has an AIDS policy statement consistent with state law that prohibits discrimination against persons with AID or who are HIV positive.

2. Representation

A pharmacy student shall accurately represent himself/herself to others including, but not limited to, colleagues, instructors, representatives of the University, patients, pharmacists and other members of the health care team.

Examples of misrepresentation include, but are not limited to the following:

- A pharmacy student shall never use the title of "pharmacist", as this clearly misrepresents the student's position, knowledge, and authority.
- Use of fraud, deception, lies, or bribery in securing any certificate of registration or authority, diploma, permit or license issued, or in obtaining permission to take any examinations.
- Impersonation of any person holding a certificate of registration or authority, permit, license or allowing any person to use his/her certificate of registration or authority, permit, license, or diploma from any school.
- Forgery, alteration, or misuse of a patient's medical records or knowingly furnishing false information to the other members of the health care profession and/or professional organizations.

3. Confidentiality

A pharmacy student shall respect the rights of patients, colleagues, and other health professionals, and shall safeguard patient confidences within the constraints of the law. The patient's right to confidentiality in regard to his/her medical record, which includes confidentiality of personal and social history, is a fundamental tenet to medical care. Proprietary information from clerkship and/or externships shall not be shared.

The discussion in public of the problems of an identified patient, without the patient's permission, by professional staff (including other students) violates patient confidentiality and is unethical. Under no circumstances can any medical record be removed from the institution. Photocopying of the entire record is never permitted for presentations or rounds; students are permitted to extract information, but not copy 'wholesale' parts of the chart. Names of patients should be omitted from any documents used for these presentations.

4. Disclosure

While the pharmacy student is a member of the patient care team and under faculty supervision, a pharmacy student shall continue to study, apply and advance scientific knowledge, make relevant information available to patients, colleagues, and the public, obtain consultation, and use the talents of other health professionals when indicated.

Sharing of medical information appropriately with a patient and colleagues involved in the care of the patient is a fundamental ethical requirement. The patient must be well informed to make health care decisions and work intelligently in partnership with the patient care team. Information that the patient needs for decision making shall be presented in terms the patient can understand. If, for some reason, the patient is unable to comprehend, there shall be disclosure to the patient's authorized representative.

Failure of a pharmacy student to share medical information relevant to a patient with the patient and colleagues involved in the care of the patient is unethical. Providing inaccurate information with these individuals is also unacceptable.

5. Assessment of Personal Competence (Self-Evaluation)

Pharmacy students shall seek consultation and supervision whenever their ability to play their role in the care for a patient is inadequate because of lack of knowledge or experience.

Students are expected to respond to constructive criticism by appropriate modification of behavior.

It is unacceptable for a pharmacy student to dispense prescription medications or to prescribe therapies without supervision.

6. Professional Demeanor

The pharmacy student is expected to be thoughtful and professional when interacting with faculty, patients and their families, attending physicians, pharmacy preceptors, other students, and other members of the health care team and whenever his/her behavior may influence adversely the judgments of others about the professional school of University.

Students shall maintain a neat and clean appearance, and dress in attire that is generally accepted as professional by the patient populations served.

Inappropriate behavior includes, but is not limited to, the use of offensive language, gestures, or remarks. Attempting, directly or indirectly, by way of intimidation, coercion or deception, to obtain or retain a patient or discourage the use of a second opinion or consultation is not appropriate.

7. **Conflict of Interest**

If a conflict of interest arises, the moral principle is clear – the welfare of the patient must be, at all times, paramount. For example, gifts, hospitality, or subsidies offered by manufacturers and distributors of medical and pharmaceutical equipment/goods shall not be accepted if acceptance would influence the objectivity of clinical judgment.

8. **Misconduct with Patients**

The pharmacy student will not engage in romantic, sexual, or other nonprofessional behaviors with a patient – even upon the apparent request of a patient – while the pharmacy student is involved with the patient's care.

9. **Impairment**

The pharmacy student will not use alcohol or drugs in ways that impair his/her ability to perform the work of the profession or results in compromised patient care. It is the responsibility of every pharmacy student to strive to protect the public from an impaired colleague and to assist that colleague whose capability is impaired because of alcohol or drug use.

10. **Criticism of Colleagues**

Professional relations among all members of the medical community shall be marked by civility. Scholarly contributions shall be acknowledged and each person shall recognize and facilitate the contributions of others to this community; slanderous comments and acts are not acceptable. Pharmacy students shall deal with professional, staff, and peer members of the health team in a considerate manner and with a spirit of cooperation.

It is unethical and harmful for a pharmacy student to disparage, without sufficient evidence, the professional competence, knowledge, qualifications, or services of a colleague to anyone. It is also unethical to imply without reliable evidence – by word, gesture, or deed – that a patient has been poorly managed or mistreated by a colleague.

11. **Teaching**

It is incumbent upon those entering this profession to teach what they know of the science, art, and ethics of pharmaceutical care. It includes communicating clearly and teaching patients so that they are properly prepared to participate in their own care and in the maintenance of their health.

III. The University of Missouri Student Conduct Code

In addition to the conduct detailed in the preceding sections, a pharmacy student is subject to the University of Missouri Student Conduct Code, Section 200.010 Section B of the Collected Rules and Regulations of the University of Missouri (except for provisions dealing with academic dishonesty) (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.010_standard_of_conduct/)), which is enforced with the procedures appearing in Section 200.020 (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.020_rules_of_procedures_in_student_conduct_matters (http://www.umsystem.edu/ums/rules/collected_rules/programs/ch200/200.020_rules_of_procedures_in_student_conduct_matters/)).

Summary:

- Details of the policies, procedures, sanctions, and due process for violations of the Standards are available on the School of Pharmacy website.
- Details of the policies, procedures, sanctions, and due process for violations of the University of Missouri Student Conduct Code are found in the University of Missouri-Kansas City General Catalogue and the student handbook.
- Please contact the School of Pharmacy Associate Dean for Student Affairs if you have questions or need additional information about any of the policies covered in this document.

Revision: 12/18/13 – Non-substantive/clerical revision only.

Acceptable Use Policy

(110.005 Acceptable Use Policy; Bd. Min. 9-14-00.)

This policy is also available at http://www.umsystem.edu/ums/rules/collected_rules/facilities/ch110/110.005_acceptable_use_policy (http://www.umsystem.edu/ums/rules/collected_rules/facilities/ch110/110.005_acceptable_use_policy/).

This policy applies to all users including faculty, staff, students, and guest users of University of Missouri computer networks, equipment, or connecting resources.

1. **University Inspection of Personal Electronic Information**

Electronic information on University networks or equipment, including, but not limited to, electronic mail and personal information, is subject to examination by the University where:

- a. It is necessary to maintain or improve the functioning of University computing resources;
- b. Where there is a suspicion of misconduct under University policies, or suspicion of violation of Federal or State laws; or
- c. It is necessary to comply with or verify compliance with Federal or State law.

2. Acceptable Use Guidelines

- a. Responsibilities of Users of University Computer Resources:
 - i. Respect the intellectual property rights of authors, contributors, and publishers in all media.
 - ii. Protect user ID, password, and system from unauthorized use.
 - iii. Adhere to the terms of software licenses and other contracts. Persons loading software on any University computer must adhere to all licensing requirements for the software. Except where allowed by University site licenses, copying software licensed for University use for personal use is a violation of this policy.
 - iv. Adhere to other University and campus policies, including the Collected Rules and Regulations of the University of Missouri, and, if applicable, the University Business Policy Manual, Human Resources Manual and policies established for a specific resource.
 - v. Adhere to data access policies of the University or those established by law.
 - vi. Use University computer resources in a manner that is compliant with University policies and State and Federal law.
- b. Prohibited Uses of University Computer Resources:
 - i. Unauthorized or excessive personal use. Use may be excessive if it overburdens a network, results in substantial use of system capacity, or otherwise subjects the institution to increased costs or risks (employees additionally may be subject to discipline for unauthorized or excessive personal use of computer resources).
 - ii. Uses that interfere with the proper functioning of the University's information technology resources.
 - iii. Uses that unreasonably interfere with the ability of others to make use of University computer resources.
 - iv. Attempting to gain or gaining unauthorized access to the computer system, or files of another.
 - v. Use of University computer resources to infringe the intellectual property rights of others.
 - vi. Use of University computer resources for personal profit, except as permitted under the University's conflict of interest policy.

3. Enforcement of Acceptable Use Policy

Violation of the Acceptable Use Policy may result in a denial of access to University computer resources, and those disciplinary actions provided or authorized by the Collected Rules and Regulations of the University of Missouri.

Students who violate these guidelines will be subject to sanctions as outlined in section 200.010 (<http://www.umkc.edu/umkc/catalog/html/append/policy/conduct.html>) of the Student Conduct Code. All such cases will be forwarded to the Primary Administrative Officer in the Student Life Office for appropriate action.

Faculty or staff who violate these guidelines will be subject to disciplinary measures as outlined within the University Policy Manuals.

Violations of some of the above guidelines may constitute a criminal offense. Individuals using UMKC computing resources are urged to review the University Policy Manual, Computer Crimes Bill passed by the Missouri State Legislature (<http://www.umkc.edu/is/cio/policy/mo-crime.html>) and the MOREnet Acceptable Use Policy (<http://www.more.net/>), all of which are stored on-line for easy access.

Equal Opportunity & Title IX

Equal Opportunity & Educational Access

UMKC is committed to providing equal opportunities to all students without unlawful discrimination on the basis of a protected identity, or their race, color, national origin, ancestry, religion, sex, pregnancy, sexual orientation, gender identity, gender expression, age, disability, protected veteran status, or any other status protected by applicable state or federal law.

Discrimination & Harassment: Compliance with UM System Collected Rules and Regulations (CRRs) 600.010 (https://www.umsystem.edu/ums/rules/collected_rules/equal_employment_educational_opportunity/ch600/) (link) is monitored by the Office of Affirmative Action (<https://info.umkc.edu/title9/>) (link), but it is the responsibility of the entire university community to provide equal opportunity through relevant practices, initiatives, and programs. If you or someone you know has experienced discrimination or harassment based on their protected identity, we encourage you to visit Making a Report (<https://info.umkc.edu/title9/makingareport/>) (link). Also included under CRR 600.010 (https://www.umsystem.edu/ums/rules/collected_rules/equal_employment_educational_opportunity/ch600/) is sexual harassment and sexual misconduct by a student, employee, volunteer, or visitor that is not prohibited under CRR 600.020 (https://www.umsystem.edu/ums/rules/collected_rules/equal_employment_educational_opportunity/ch600/) and Title IX, and that occurs within a UMKC educational program or activity, on- or off-campus, as well as when the conduct occurs off-campus and interferes with or limits the ability of any person to participate in or benefit from UMKC's educational programs or activities or employment. For those who have experienced discrimination or harassment, the Roos Respond Resource Guide (<https://info.umkc.edu/title9/resources/>) (link) provides a list of campus and community support services.

Failure to Accommodate Students with Disabilities: UM System Collected Rules and Regulations (CRRs) 600.010 (https://www.umsystem.edu/ums/rules/collected_rules/equal_employment_educational_opportunity/ch600/) (link) prohibits discrimination against students with disabilities and ensures these students receive educational accommodations as issued by Student Disability Services (<https://info.umkc.edu/disability-services/>) (link). If you believe an employee of the university has failed to accommodate your disability, visit Making a Report (<https://info.umkc.edu/title9/makingareport/>) (link).

Sexual Harassment under Title IX: UM System Collected Rules and Regulations (CRRs) 600.020 (https://www.umsystem.edu/ums/rules/collected_rules/equal_employment_educational_opportunity/ch600/) (link) prohibits all students, employees, volunteers, and visitors from engaging in sexual harassment, including sexual assault, dating violence, domestic violence, and stalking, in a university education program or activity against a person in the United States. If you or someone you know has experienced any of these forms of prohibited conduct, you can access the Roos Respond Resource Guide (<https://info.umkc.edu/title9/resources/>) (link) for a list of support services on campus and in the community. For information on how to make a report to the university, visit Making a Report (<https://info.umkc.edu/title9/makingareport/>) (link).

Mandated Reporting: Nearly all UMKC employees, including your course instructors, advisors, and other support staff, are required to report all information related to any known or suspected discrimination, harassment, or sexual misconduct to the Office of Affirmative Action and cannot offer confidentiality. However, students may seek confidential support from RISE: Resources, Intervention, Support, & Education (<https://info.umkc.edu/vpr/>) (link), Counseling Services (<https://info.umkc.edu/counseling-services/>) (link), and Student Health & Wellness (<http://catalog.umkc.edu/info.umkc.edu/studenthealth/>) (link). Employees of these offices are exempt from mandated reporting so long as the disclosure of prohibited conduct occurs in a confidential communication while they are acting as support advocates, professional counselors, or medical personnel. An exemption does not extend to these employees when the disclosure is made in non-confidential setting. If you have a question about confidentiality when making a disclosure to RISE, Counseling Services, or Student Health & Wellness, you should first ask whether the exemption applies.

Minimum Standards of Progress for Veterans

Veterans Affairs regulations require that all veterans drawing VA educational benefits at UMKC must comply with the Veterans Affairs Minimum Standards of Progress. These standards dictate that the veteran must be making satisfactory progress toward a degree while enrolled. The University's academic and probation policies have been approved by the Veterans Affairs as those Minimum Standards of Progress.

Undergraduate Student

Undergraduate degree-seeking students' academic status is assessed at the end of every term, whether the student is full-time or part-time for that term. A summer session is considered the same as a semester for the purpose of the following regulations:

1. In general, students will be placed on academic probation whenever their official UM grade-point average falls below 2.0 (C average). Some academic units may have a higher grade-point average requirement. New freshman admitted to UMKC on the basis of high school records, who have grade-point averages between 1.50 and 1.99 at the end of the first semester of either full- or part-time study will be placed on academic warning. Students on academic warning must achieve an overall C average by the end of their second semester or be placed on regular probation. They then would be subject to the regular probation requirements.
2. Students on academic probation will be restored to good standing when their UM grade-point average reaches 2.0 or the GPA level established by their academic units.
3. Students on academic probation must maintain the grade-point average required by their academic units during each subsequent semester or summer session while on probation. Otherwise, they are ineligible to re-enroll without the approval of the academic units.
4. Students on academic probation must remove themselves from probation within three successive semesters (including the semester in which they originally were placed on probation). Otherwise, they are ineligible to re-enroll without the approval of the academic units.
5. Students are responsible for knowing their academic status by referring to the term grade reports and their permanent academic records in the UMKC Records Office.

Graduate and Professional Students

Because there may be some variation in the academic and probation policies in the various graduate and professional schools within the University, reference should be made to the appropriate sections in this catalog.

Conduct

Institutional policy relating to conduct for veteran students is the same as for all other students. Statement of requirements is shown elsewhere in this catalog.

Student Records

Adequate records are kept by the school to show the progress of each eligible veteran. The records are sufficient to show continued pursuit at the rate for which enrolled and the progress being made.

These records include the final grade in each subject completed and a record of the date of withdrawal from any class the veteran does not complete. The last date of attendance must be reported to the Veterans Affairs.

No veteran will be considered to have made satisfactory progress when the veteran fails all subjects undertaken except with a show of mitigating circumstances, when enrolled in two or more unit subjects. This is immediately reported to Veterans Affairs. The determination for the continuance of benefits is made by the regional office of the Veterans Affairs.

Policy on Student Records

UMKC conforms to federal regulations known as the Family Educational Rights and Privacy Act, or FERPA. The purpose of FERPA is to provide rights to students and their families with regard to access and privacy of academic records. FERPA guarantees students at the postsecondary level the right to inspect and view their academic records. It also prohibits UMKC from releasing information from a student's record to any third party unless the student authorizes the release.

The UM System policy on student records is available at: http://www.umsystem.edu/ums/rules/collected_rules/information/ch180/180.020_student_records (http://www.umsystem.edu/ums/rules/collected_rules/information/ch180/180.020_student_records/).

Student's Right-To-Know

In accordance with Public Law 101-542.

The UMKC Police Department publishes an annual campus report on personal safety and crime statistics. The report includes statistics for the previous three years concerning reported crimes that occurred on campus; in certain off-campus buildings owned or controlled by UMKC; and on public property within, or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault and other matters.

The report is available at the UMKC Police Department, Room 214B, 4825 Troost Building or via the Web site: <http://www.umkc.edu/safetyreport> (<http://www.umkc.edu/safetyreport/>).

Various state and federal laws, specifically the Higher Education Opportunity Act (<http://www2.ed.gov/policy/highered/leg/hea08/>), require the University of Missouri—Kansas City to provide information and notice to students on a variety of topics. Federal disclosure requirements for student consumer information can be found at the following website: <http://www.umkc.edu/registrar/procedures/student-consumer-info.asp>.

Telecommunications Services for the Speech and Hearing Impaired

UMKC offices and departments may be reached through Relay Missouri, a telecommunications relay service for those who are hearing or speech impaired. Trained relay agents ensure the calls are completed. The toll-free Relay Missouri access numbers:

- (800)735-2966 (Text Telephone)
- (800)735-2466 (Voice)

UMKC AIDS Policy Statement

To address special needs of the University of Missouri-Kansas City, the following policy is in effect:

Faculty, staff and students should be aware that discrimination on the basis of race, color, religion, national origin, ancestry, sex, sexual orientation, age and handicap (to include AIDS), is prohibited by state law. All are expected to conduct university-related activities without any such discrimination. Failure to fulfill these obligations may subject faculty, staff and students to disciplinary action. Such action shall be taken in accordance with the following University of Missouri procedures: Rules of Procedure in Student Disciplinary Matters and the Dismissal for Cause Procedure.

Those who feel they may have been discriminated against may use the Grievance Procedure for Administrative, Service and Support Staff; Discrimination Grievance Procedure for Students; and Academic Grievance Procedures.

This statement is based on the recommendations of the Missouri Human Rights Commission and is in accordance with the statements of professional responsibility and codes of ethics of the Association of American Medical Colleges, the American Medical Association, the American Dental Association, and the National League of Nursing.

Veterans Benefits and Transition Act of 2018

The University of Missouri-Kansas City (UMKC) Cashiers Office (<https://www.umkc.edu/finadmin/cashiers/>) waives any late fees or finance charges that assess on balances paid by CH33 or CH31 benefit recipients when the payment from the VA is received. Any late fees or finance charges that accrue on balances not covered by VA benefits will be the student's responsibility to pay.

Students will be able to attend classes and utilize campus facilities while the US Dept of Veterans Affairs works to disburse funds to UMKC for a given term. Ch33 & Ch31 benefit recipients are exempt from being dropped for non-payment while the US Dept of Veterans Affairs works on disbursing funds to UMKC.

Ch33 & Ch31 students are free to take out loans if they so wish but it is not required. Any refundable excess from student financial aid will be refunded when payment from the US Dept of Veterans Affairs is received and there is an overage on the student account.

STUDENT SUCCESS SERVICES

Student Success Services: academic support, health and well-being, student engagement

UMKC recognizes that in order for students to be successful in the classroom, students need to be supported outside of the classroom and throughout all stages of their college journey. From first connections with the Office of Admissions, engagement with student organizations and programs, and mentorship of faculty and staff, students can expect to receive an enriching and engaging campus experience that supports personal and professional development and academic success.

The University offices and programs listed below provide students with a wide variety of co-curricular support services.

More details can be found in the UMKC Student Handbook (<https://info.umkc.edu/saem/students/student-handbook/>). In addition, feel free to contact the [UMKC Dean of Students Office \(https://info.umkc.edu/saem/\)](https://info.umkc.edu/saem/) and the Student Services Offices located in the Academic Units (<https://info.umkc.edu/saem/students/student-handbook/student-services-offices/>).

You may also contact the UMKC Student HelpLine (<https://info.umkc.edu/saem/helpline/>) at 816.235.2222 for questions about policies, procedures, resources, complaints, and general questions about the university.

Beth Vonnahme (Interim)

Statement of Purpose

The primary academic missions of the College of Arts and Sciences are teaching, research and service. Through these functions, the College serves the community, the state and society at large. The research and scholarship of the College's faculty not only expand the body of knowledge generally, but also enrich and enhance its teaching and instructional programs.

Most departments of the College offer both undergraduate and graduate study. The College enables students to develop the creative, analytical and communication skills which sustain a lifelong educational process. In addition to serving its own students, the College provides instruction in the liberal arts and sciences for students in the UMKC professional schools. Through its continuing education division and certificate programs, the College also serves individuals and groups in the community.

The College's degree requirements, in coordination with the UMKC general education core, give students a breadth of knowledge, enabling them to understand and appreciate the many facets of human experience, to make meaningful relationships between the various fields of knowledge, and

to increase their understanding of themselves, their interests and special abilities. The general requirements and introductory courses allow for maximum freedom in selection of a field of study and provide the basic knowledge for that particular program.

Work in a field of study provides students with a comprehensive and systematic introduction that prepares them to function in the professional fields of their choice. The objective of the total academic program of the College is to engage students in study that will enable them to work competently in their chosen fields or pursue graduate work, while at the same time developing a breadth of knowledge in the arts and sciences. In that way, students can understand their specializations in the larger context of the intellectual and social life of the community.

Graduate-level studies provide students with advanced instruction and/or independent research in a major field of study. Students pursuing master's-level work in a major field or a Ph.D. in Clinical Psychology are directed to the relevant department or program listing in the Arts and Sciences section of this catalog and to the General Graduate Academic Regulations and Information section of this catalog. Those planning other Ph.D.-level studies are directed to UMKC's Interdisciplinary Ph.D. program listing in the School of Graduate Studies section of this catalog.

Department Description

The Department of Architecture, Urban Planning and Design has three degree programs to choose from.

One degree program is a B.A. in Urban Planning and Design. This accredited degree program is a four-year degree and can be completed at UMKC in its entirety.

The second degree program leads to a degree in one of the following professional areas: architecture, landscape architecture and interior architecture. This track is a two-year program, offered in conjunction with Kansas State University's College of Architecture, Planning and Design.

The third degree program is a B.A. in Urban Studies. The urban studies program prepares students for careers dedicated to understanding the city and improving the life of urban societies. The program provides students with analytical skills vital to the study of the city and urban life. Working to fulfill UMKC's mission of urban engagement, the program and its students actively participate in community partnerships.

UMKC is an urban university, and architecture, urban planning and design is consistent with our vision for our community and region. Kansas City is a great urban laboratory. Few American cities have the planning and design tradition of Kansas City. We think this sets us apart, and places the students within a professional community with unmatched resources, whether one is studying architecture, interior architecture, landscape architecture or urban planning and design.

As the United States population continues to grow and is concentrated in metropolitan areas, urban planning and design is becoming a societal imperative. Planners address diverse public issues affecting where people live, work, and play; where they shop and receive health care; how they get from place to place; what our communities look like; and how we use our resources.

Financial Aid

Many scholarships and student financial aid opportunities are available. Every year approximately 80 percent of our students have some form of scholarship. For students who qualify, UMKC can be a great resource for scholarship assistance. Contact the UMKC Financial Aid Office, phone: (816) 235-1154, website: <http://www.umkc.edu/finaid> (<http://www.umkc.edu/finaid/>) for scholarship information.

Student Activities

The department supports two student organizations.

Planning and Design Students (PDS) is a student organization for students studying Urban Planning and Design. The students interact with the local APA (American Planning Association (<http://www.planning.org/>)) chapter in a variety of activities. A group of students attend the national conventions that are held in various locations around the country every year.

The American Public Works Association (<http://www.apwa.net/>) (APWA) is a student organization that consists of a multidisciplinary group (i.e. engineering, geosciences, public administration) from across the campus.

Faculty

John Eck Associate Teaching Professor of Architecture; B.Arch. (Kansas State University); M.Arch. (University of Virginia); R.A.

Stephanie Frank¹ Assistant Professor of Urban Planning and Design; M.A. (University of Maryland); Ph.D (University of Southern California).

Michael Frisch¹, Chair, Associate Professor of Urban Planning and Design; M. City Planning (Massachusetts Institute of Technology); Ph.D. (Rutgers University); A.I.C.P.

Clara Irazabal-Zurita^{1,2} Professor of Urban Planning and Design, Director of the Latinx and Latin American Studies Program; M.S.(Central University of Venezuela); M.Arch and Ph.D. (University of California at Berkeley).

Sungyop Kim^{1,2} Professor of Urban Planning and Design; M. Urban and Regional Planning (University of Hawaii); Ph.D. (University of Washington).

Jacob A. Wagner Associate Professor of Urban Planning and Design; B.A.,M.S. (University of Oregon); Ph.D. (University of New Orleans).

¹ Members of UMKC Graduate Faculty

² Members of UMKC Doctoral Faculty

Undergraduate

Undergraduate Degrees:

- Architectural Studies Major (p. 560)
- Bachelor of Arts in Urban Planning and Design (p. 561)
- Bachelor of Arts in Urban Studies (p. 565)
- Minor in Urban Studies (p. 572)

Graduate

Graduate Programs (p. 571)

- Graduate Certificate in Historic Preservation (p. 571)

Architectural Studies Courses

ENV-DSN 110 The Meaning Of Architecture Credits: 3

Architecture is a visual and physical expression of civilization. This course will introduce to the student an understanding and appreciation of architecture and our built environment through a broad examination of cultural and aesthetic paradigms. May not be taken for credit by students enrolled in the Architectural Studies curricula.

ENV-DSN 201 Environmental Design Studio I Credits: 4

Foundation studies introducing the principles, processes and vocabularies of environmental design. Instruction in two and three dimensional visualization of objects and spaces. Instruction in the use of instrument-aided drawing, freehand drawing and model building to represent and communicate design ideas at different scales of observation.

ENV-DSN 202 Environmental Design Studio II Credits: 4

Continuation of ENV-DSN 201.

Prerequisites: ENV-DSN 201.

ENV-DSN 203 Survey of the Design Professions Credit: 1

Overview of the design professions. Comparative study of the roles of the architect, interior architect, interior designer, landscape architect, and planner; their working methods, collaborative endeavors, and interaction with consultants and specialists. Description of career paths, educational alternatives, licensure, and professional organizations.

ENV-DSN 248 Fundamentals of Architectural Technology Credits: 3

Instruction in the fundamentals of architectural technology with emphasis on the concepts and principles necessary for developing an integrated approach to building design.

ENV-DSN 250 History of the Designed Environment I Credits: 3

This course will present an overview of the developments in architectural, urban, landscape and interior design which have had an impact on the physical environment from ancient times through the medieval up to the gothic period. A central objective of the course is to gain an understanding of why these developments occurred and how the needs and aspirations of a given time were manifested in physical form.

ENV-DSN 251 History of the Designed Environment II Credits: 3

This course will present an overview of the developments in architectural, urban, landscape and interior design which have had a consequential impact on the physical environment of the Western world from the Italian Renaissance (starting in the 15th century) up to the present day.

ENV-DSN 252 History of the Designed Environment III Credits: 3

The history of the designed environment from the mid-18th century to the present.

ENV-DSN 301 Architectural Design Studio I Credits: 5

Instruction in architectural design focusing on the application of elements and principles of form and space in design. Instruction in the use of techniques for visually representing design ideas.

Prerequisites: ENV-DSN 202.

ENV-DSN 302 Architectural Design Studio II Credits: 5

Instruction in architectural design focusing on the synthesis of basic social, functional, technical, and aesthetic factors in design. Continued instruction in techniques for visually representing ideas.

Prerequisites: ENV-DSN 301.

ENV-DSN 347 Structural Systems in Architecture I Credits: 4

Introduction to structure as a building system. Overview of contemporary structural systems and their components, including wood, timber, steel, concrete, masonry, and hybrid structures. Discussion of building code requirements for structure, general guidelines for building structures, including appropriate application, and methods for schematic estimation of structural member sizing. Basic understanding of how gravity and lateral forces are propagated through a structural frame from load to building foundation. Recommended preparation: PHYSICS 210.

Prerequisites: MATH 110 or MATH 120 or higher.

ENV-DSN 433 Building Construction Systems in Architecture I Credits: 3

In this lecture course, students develop an understanding of how materials and systems assembly reinforce and extend the intentions of the designer as well as an understanding of the strategies and techniques for integration and coordination of the building components.

Prerequisites: ENV-DSN 248.

Urban Planning Design Courses

UPD 203 GIS For Urban Planning Credits: 3

This introductory level GIS course is designed to expose planning students to Geographical Information Systems (GIS). Students will learn basic concepts and theories of GIS and applications of GIS software with hands-on experience. Students will also learn how to search for demographic, socio-economic, land use, transportation, and geospatial data, and how to use such data for their academic research and professional planning work with GIS. Students will apply GIS to the multiple scales of planning work.

UPD 260 History Of Planning And Urban Design Credits: 3

An overview of planning history with an emphasis on the 19th and 20th centuries. The historic framework will include urban history, the rise and development of urban planning, urban design, and social theory and how these areas have affected the shape of our cities.

UPD 280 Land Use Planning Credits: 3

This course explores the basic principles of plan making, land use development and regulation. Students are introduced to contemporary planning and policy issues. Including land use conflicts and alternative models for sustainable planning, design and management. Students will learn how to develop a land use plan using Geographic Information Systems (GIS) and other design tools. An introductory GIS course (UPD 203) is highly recommended.

UPD 300 Quantitative Planning Methods And Techniques Credits: 3

Statistical analysis and other analytic techniques of data gathering. Data and problems framed from complex, real world situations. Competence in firsthand research; survey design; case study method; data gathering methods such as observation, open-ended interviewing and questionnaires.

Prerequisites: MATH 110 or higher; or ALEKS score of 61 or higher; or ACT MATH sub-score of 28 or higher, or SAT MATH sub-score of 660 or higher.

UPD 310 Planning And Design Studio I Credits: 4

This Urban Planning + Design studio course will introduce methods for analyzing urban spaces at the site and neighborhood level. Students will actively solve problems related to the physical planning of cities and communities while continuing to develop abilities in methods of written, oral and graphic presentation.

Prerequisites: ENV-DSN 202 or equivalent.

UPD 312 Planning And Design Studio II Credits: 4

Studio instruction in urban planning and design focusing on the synthesis of land use analyses, regulatory reviews, urban design issues, and public participation facilitation. Continued instruction in techniques for visually presenting planning and design ideas.

Prerequisites: UPD 310.

UPD 320 Planning Theory And Practice Credits: 3

This course examines contemporary urban planning and design practice. Theories about planning practice and related case studies will be the basis of this course. Topics covered will include the definition of urban planning, the idea of the "public realm," planning/design expertise and the rational model, the role of diversity, public participation, communicative planning, advocacy and equity planning, ethics comprehensiveness and the limits of planning. The course will include assignments that will build student's ability to write quick and analytical assessments, often required in planning practice. Students will be required to attend public planning forums in and around the region.

UPD 332CZ Environmental Sustainability Credits: 3

This course will introduce the concept of sustainability and review how sustainability might work at the individual, neighborhood, state, nation and global scales. Students will participate in some form of community engagement on sustainability as well as reflect upon how their own practices impact the environment. Counts toward AS Interdisciplinary "Cluster course." Key course in sustainability minor.

UPD 340 Neighborhood And Community Development Credits: 3

Course provides a comprehensive introduction to the field of community development and neighborhood planning. The development of theoretical models that explain neighborhood change and history in the U.S. will serve as the basis. Issues explored include: community organizing, social movements, federal and state policies, and the role of planning organizations and community development corporations in neighborhood revitalization.

UPD 400 Advanced GIS For Urban Planning Credits: 3

This advanced level GIS course is designed to expose students to high level GIS techniques and geospatial analyses in urban planning. Students will learn advanced theories and geographic information tools with hands-on experiences. Students will have an opportunity to apply their knowledge and skills in GIS to a real world planning project in class.

Prerequisites: UPD 203 or UPD 403 or equivalent.

UPD 403 GIS for Urban Planning Credits: 3

The introductory level GIS course is designed to expose graduate students to Geographical Information Systems (GIS). Students will learn basic concepts and theories of GIS and application of GIS software with hands-on experience. Students will also learn how to search for demographic, socio-economic, land use, transportation, and geospatial data.

UPD 410 Planning and Design Studio III Credits: 4

Instruction in problem analysis and plan development for defined urban or suburban location with multiple constituencies.

Prerequisites: UPD 312.

UPD 411 Professional Practice I Credit: 1

A seminar preparing students for professional practice in urban planning + design including the preparation of a professional resume and portfolio.

UPD 412WI Planning and Design Studio IV Credits: 5

Capstone course that incorporates a topical plan or a comprehensive plan for a client comprising a development subdivision, a community or a redevelopment area.

Prerequisites: UPD 410, RooWriter.

UPD 413 Professional Practice II Credit: 1

A continuation of professional practice seminar addressing issues of professional writing in Urban Planning and Design practice.

UPD 420 Transportation Planning Credits: 3

The course provides fundamental theories, methods, and contemporary issues in transportation planning. The topics covered in this course include the transportation planning process, transportation systems, travel demand analysis, and policy issues such as the linkage between land use and transportation, urban transportation finance, social and environmental justice, transportation and environmental impacts, and traffic congestion.

UPD 430 Planning For Historic Preservation Credits: 3

The course provides a survey of major issues in the field of historic preservation and heritage studies from a planning perspective. Will focus primarily on the built environment of the United States, as well as world heritage sites and international perspectives. The course will include the urban planning techniques used for preserving historic buildings, neighborhood and districts, as well as some of the landmark legal decisions and legislation that have shaped heritage preservation practice in the U.S. Recommended Preparation: UPD 260.

UPD 432 Urban Environment Planning And Design Credits: 3

The built environment does not exist in a vacuum. Cities operate within broad ecological processes. Effective environmental planning can protect important natural resources while providing for a higher quality of life for urban residents. As a survey course in a subfield of urban planning, this course introduces students to environment planning approaches and techniques.

UPD 450 Planning Law And Practice Credits: 3

Introduction to legal procedures basic to urban planning; including legal, constitutional, legislative, and administrative concepts, controls, and land-use regulations.

UPD 472 Urban Redevelopment Credits: 3

Contemporary issues of urban redevelopment, with an emphasis on American cities, will be examined. Redevelopment processes recently completed or underway in the greater Kansas City region will be the subject of a case study and a theoretical review by each student.

UPD 475 American Housing Credits: 3

Students will explore housing in cultural, design, and historical terms and examine contemporary American housing policy.

UPD 490 Urban Planning Internship Credits: 3

Urban planning work experience off-campus with an approved professional, Government, or non-profit agency sponsor. A contract specifying the expected product of the internship is required between the student, agency, and faculty coordinator.

Prerequisites: UPD 203.

UPD 496 Directed Studies In Urban Planning Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 499 Special Topics In Urban Planning Credits: 1-3

Advanced independent research and analysis in urban planning. Topics and methods used in research, to be established by student and academic supervisor prior to enrollment.

UPD 5526 History of Urban Planning & Design Credits: 3

The course provides a survey of the history of urban planning and design with emphasis on the nineteenth and twentieth centuries in the United States. The course also teaches basic historic research methods.

UPD 5596 Directed Study In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5596A Directed Study In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5596B Directed Study In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5596C Directed Study In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5599 Special Topics In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5599A Special Topics In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5599B Special Topics In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5599C Special Topics In Urban Planning And Design Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor.

UPD 5630 Quantitative Planning Methods I Credits: 3

This course introduces graduate students to quantitative methods in urban planning analysis. Topics include relating built form to function, demographic forecasting, economic impact analysis, trip generation, and housing market dynamics.

Prerequisites: STAT 235.

UPD 5700 Advanced Planning Theory & Practice Credits: 3

Exploration of contemporary planning theory and practice, including planning knowledge, skills, values, and ethics.

UPD 5710 Historic Preservation Studio Credits: 3

Studio instruction in historic preservation planning focusing on research, context, evaluation, policy, and plan creation for historic resources.

UPD 5740 Advanced GIS for Urban Planning Credits: 3

This advanced level GIS course is designed to expose graduate students to high level GIS techniques and geospatial analysis in the urban planning context. Students will learn data management skills in GIS and advanced geoprocessing tools with hand-on experiences. Students will also have an opportunity to work on a real world GIS project as part of course requirements.

Prerequisites: UPD 203.

UPD 5742 Transportation Planning Credits: 3

This course provides fundamental theories, methods, and contemporary issues in transportation planning. The topics covered in this course include the transportation planning process, transportation systems, travel demand analysis, and policy issues such as the linkage between land use and transportation and environmental impacts, and traffic congestion.

UPD 5743 Introduction to Historic Preservation Credits: 3

The course introduces the history and theory of historic preservation through a survey of major issues in the field from a planning perspective. The course focuses on preservation through cultural, social, historical, legal, policy, and economic lenses, primarily in the United States.

UPD 5744 History of the Built Environment Credits: 3

Survey of the built environment concentrating on nineteenth and twentieth century design in the United States.

UPD 5745 Historic Preservation Methods Credits: 3

Exploration of historic preservation methods, including survey, documentation, policy, and management approaches used in practice.

UPD 5746 Urban Environmental Planning Credits: 3

Urban environmental planning examines ecological change due to urbanization. It looks at ways to measure and demonstrate ecological change at the site, neighborhood, and regional scales. Students incorporate environmental ideas and policies into plans developed for a client.

UPD 5747 Urban Redevelopment Credits: 3

This course examines techniques of urban redevelopment within urban planning and real estate. Graduate students learn about the development process, real estate markets, techniques of development finance and local policy approaches to urban redevelopment incentives.

UPD 5750 American Housing Credits: 3

Students will explore housing in cultural, design, and historical terms and examine contemporary American housing policy.

UPD 5790 Historic Preservation Internship Credits: 3

Off-campus work experience with an approved professional, government, or nonprofit agency sponsor.

Prerequisites: UPD 5743.

Urban Studies Courses

URBAN ST 346 Urban Latin America Credits: 3

Introduction, overview, and analysis of major contemporary urban issues in Latin America.

URBAN ST 495 Urban Studies Internship Credits: 1-6

Students obtain directed practical experience working with non-profits, governments, or private enterprises. Duties will vary based on contractual agreement between the student, host organization, and the professor.

URBAN ST 499WI Urban Studies Seminar Credits: 3

This is the capstone course in the Urban Studies Program and is required for majors in the junior/senior year. Students critique urban research and prepare a paper and an oral presentation on an approved topic.

Architectural Studies Major

Architectural Studies is a two-year cooperative program with Kansas State University that began in 1987. The accredited curriculum at the KSU College of Architecture Planning and Design is offered at UMKC for the first two years of study. After successfully completing the coursework at UMKC, students are eligible for entry to Kansas State University, College of Architecture Planning and Design. There, students can study architecture, interior architecture and landscape architecture. Students must maintain a minimum 2.75 GPA in the Architectural Studies program.

Architectural Accreditation

The Kansas State University College of Architecture, Planning and Design (with which the UMKC Architectural Studies Program collaboratively participates) is accredited by the National Architectural Accrediting Board (NAAB).

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes two types of degrees: the bachelor of architecture and the master of architecture.

A program may be granted a five-year, three-year, or two-year term of accreditation, depending on its degree of conformance with established educational standards.

Master's degree programs may consist of a pre-professional undergraduate degree and professional graduate degree, which, when earned sequentially, comprise an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Bachelor of Arts in Urban Planning and Design

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Students use planning knowledge to create planning solutions for a project.
- Students demonstrate written, oral, and graphic communication skills and professional work capacity required in planning and design practice.
- Students can articulate and exercise professional ethics and responsibility.

The Urban Planning and Design program provides an innovative curriculum that incorporates a combination of broad liberal arts courses, with a core of professional planning classes, coupled with a series of design studios. The design studio represents a forum where students employ a creative process, infused with knowledge gained from supporting courses, to generate holistic urban planning and design solutions. Urban design projects will engage professionals, civic officials, neighborhood leaders and government officials into an important dialogue.

Admission to the program is selective and reviewed by the UPD program.

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	

COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		10

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits
MATH 110	Precalculus Algebra (satisfies Math Pathway)	3

SOCIO 433	Immigration and the City	

Total Credits	70
---------------	----

¹ The Department will review other related urban social science classes as needed.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		10

Minimum GPA: 2.0 (2.5 in all major coursework)

Total Credit Hours 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: Urban Studies

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Be able to analyze how gender, ethnicity, and race play important roles in understanding the city. They will be exposed to the broader public through internships in the community.
- Be able to analyze how local, regional, and state governments and related institutions interact.
- Be able to describe how the urban society is structured in interrelated sectors that influence each other locally and interact with sectors beyond the local city.
- Be able to interpret demographic patterns at various scales, from the city block to the metropolitan area.
- Be able to design and implement a research project analyzing a specific urban issue.

SOCIOL 362	Methods Of Sociological Research	
UPD 300	Quantitative Planning Methods And Techniques	
Interest Area Electives (see below)		18
Total Credits		43

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		37

Minimum GPA: 2.0

Total Credit Hours: 120

Interest Areas (18 hours)

In addition to the core requirements, 18 hours should be taken in an interest area:

- Community Development and Housing
- Community Organization and Social Services
- Urban Policy/Management

In consultation with an advisor, selected by the student or designated by the program director, students are expected to develop a program (reflecting interest and applicability to career goals) in one interest area: a recommended course and five electives from those listed under the interest area chosen. Students may not double count any core courses toward the 18 hours.

NOTE: Courses counted towards the core requirements cannot be double-counted for the Interest Area Internship (3-6 hours)

In developing internships, students should first contact the urban studies director.

The student is expected to participate in work activities in a community organization and receive instruction from agency staff for a minimum of 240 hours on site by the end of the program.

The internship may be repeated up to a maximum of two semesters and should be taken as URBAN ST 495. Other internship courses may satisfy this requirement with approval of the advisor.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Graduate Certificate in Historic Preservation

Student Learning Outcomes

Students graduating from this program will:

- demonstrate the ability to identify, synthesize, and interpret historic resources.
- demonstrate the ability to apply historic preservation methods and techniques.
- demonstrate effective professional writing and communication skills.

The highest standard for historic preservation education is membership in the National Council for Preservation Education (NCPE). Once approved, the program will seek membership. The program has been designed in accordance with NCPE membership standards, which are found at the following link: <http://www.ncpe.us/about-ncpe/standards/>

The certificate requires 18 credits (six 3-credit courses), as follows:

Program Requirements:

Code	Title	Credits
UPD 5743	Introduction to Historic Preservation	3
UPD 5744	History of the Built Environment	3
UPD 5745	Historic Preservation Methods	3
UPD 5700	Advanced Planning Theory & Practice	3
UPD 5710	Historic Preservation Studio	3
or UPD 5790	Historic Preservation Internship	
Electives selected from below or as approved by advisor		3
UPD 5526	History of Urban Planning & Design	
UPD 5740	Advanced GIS for Urban Planning	
UPD 5746	Urban Environmental Planning	
UPD 5747	Urban Redevelopment	
UPD 5750	American Housing	
HISTORY 5556	Rise of the City in the U.S.	
HISTORY 5556R	Kansas City: History of a Regional Metropolis	
HISTORY 5570	Introduction to Material Culture	
HISTORY 5579	Public History: Theory and Method	
HISTORY 5594	Public History and New Media	
ART-HIST 5562	History of Modern Design	
PUB-ADM 5535	Urban Policy And Administration	
PUB-ADM 5555	Topics In Nonprofit Fundraising	
GEOG 5508	Archaeological Field Survey Methods	
GEOG 5509	Urban Geography	
GEOG 5512	Global Tourism	
LAW 8729	Preservation Law	
LAW 8729C	Cultural Preservation Law

Minor in Urban Studies

Student Learning Outcomes

Students graduating from this program will:

- appreciate how gender, ethnicity, and race play important roles in understanding the city.
- be able to demonstrate knowledge of how local, regional, and state governments and related institutions interact. They will understand how the urban economy is structured in interrelated sectors that influence each other locally and interact with sectors beyond the local city. They will understand how to interpret demographic patterns at various scales, from the city block to the metropolitan area.
- will demonstrate the ability of critical thinking about urban space.

Department Description

The Department of Art and Art History is a dynamic environment that aims to provide all UMKC students with education and experience to develop their creative- and critical-thinking skills, their art-making abilities, and their versatility in professional and personal situations. The Department serves a variety of students, ranging from the non-major to the professionally oriented. The department offers programs leading to the Bachelor of Arts and Master of Arts degree in Art History or Studio Art, as well as minors in each area. Art History also participates in the Interdisciplinary Ph.D. program.

Students studying Art History or Studio Art obtain a broad liberal arts foundation during their educational career and receive sound fundamental training in the arts. Small class sizes combined with interactive teaching methods offer a comprehensive learning environment for the aspiring arts professional. The department also collaborates with other departments and schools, and works with the School of Education (<https://catalog.umkc.edu/colleges-schools/education/>) on Art Education degrees.

Kansas City is nationally known for its vibrant arts scene, with the UMKC Gallery of Art, Plug Projects (<http://www.pluginprojects.com/>), and many galleries located in the Crossroads Arts District (<http://www.kccrossroads.org/>). The department's partnerships with art organizations like Charlotte Street Foundation (<http://www.charlottestreet.org/>), ArtsKC (<http://www.artskc.org/>), Studios Inc (<http://thestudiosinc.org/>), and others structure internships, networking, entrepreneurial mentoring and other professional development opportunities. Visiting artists and scholars (<http://info.umkc.edu/art/visiting-artist-and-scholar-lecture-series/>), gallery exhibitions (<http://info.umkc.edu/art/>), and enrichment programs supplement course work.

Outside of the classroom, physical proximity and close professional connections to the museums, studios, galleries, and art organizations in the Kansas City community offer students additional opportunities for exposure to new ideas, media, and special events. The extensive collection of The Nelson-Atkins Museum of Art (<http://www.nelson-atkins.org>) is located three blocks away, and there are also major contemporary collections

nearby, including those of the Kemper Museum of Contemporary Art (<http://www.kemperart.org>), H&R Block Artspace (<http://www.kcai.edu/hr-block-artspace/>), the Belger Arts Center (<http://www.belgerartscenter.org>), and the Nerman Museum of Contemporary Art (<http://www.nermanmuseum.org>).

Special Resources/Programs

UMKC Gallery of Art

The department is home to the UMKC Gallery of Art (<http://info.umkc.edu/gallery/>). The gallery organizes curated shows from visiting local, national, and international artists, as well as arranging shows of student and alumni work. The annual Student Art Exhibition is a guest-juried exhibition that features the work of the current student body.

Visual Resources Library (VRL)

The department is also home to the Visual Resources Library (<http://info.umkc.edu/art/about/>), which hosts an online collection of approximately 45,000 digital images representing significant works of Western art and architecture, ancient through contemporary; the history of photography, printmaking, decorative arts and design; and art of Islam, Asia, Africa and the Americas. The VRL is also a space that hosts workshops for student needs and development, such as informational sessions about department events/opportunities as well as special events like the VRL Book Sale.

The Nelson-Atkins Museum of Art

The University of Missouri-Kansas City is fortunate to be adjacent to one of the most comprehensive and distinguished art museums in the country: The Nelson-Atkins Museum of Art (<http://www.nelson-atkins.org>). In addition to having ready access to the gallery's collection, advanced students may be privileged to use the museum's other facilities, such as the reference library, the acquisition records or the museum's collections. Use of these facilities is undertaken only after consultation with a member of the faculty. Admission to the museum is free to everyone.

The Department maintains a close relationship with the museum through joint appointments, curator-taught seminars, student internships and other cooperative programs.

Undergraduate Admission Information

In undergraduate studies, the Studio Art (p. 587) and Art History (p. 583) programs offer Bachelor of Arts degrees. For incoming freshmen, there are no special requirements beyond those for admission to the University. Transfer students to UMKC need to meet with both a department and a general education advisor prior to beginning classes to evaluate their transcripts to determine course equivalencies.

Program Overview

Degree programs in Studio Art and Art History at UMKC are the B.A. and the M.A. Art History also participates in the Interdisciplinary Ph.D. program. All the programs provide an exciting educational experience in a liberal arts setting.

The Studio Art faculty is comprised of accomplished and actively exhibiting artists, offering courses in drawing, painting, graphic design, print media, digital imaging, motion design, and photography. The faculty of six art historians, one a joint appointment with the Nelson-Atkins Museum, offer courses in the art and architecture of Ancient, Northern Renaissance, Baroque, Modern European, Contemporary, and American, Native American, African, and African-American cultures. The strong adjunct faculty consists of local artists, art educators and professionals. Curators from The Nelson-Atkins Museum of Art (<http://www.nelson-atkins.org/>) regularly offer advanced Art History courses, most recently on topics like Decorative Arts, Art and Patronage in 16th Century Rome, Islamic Art and the Spiritual in Contemporary Art.

Outside of the classroom, physical proximity and professional connections to the museums, studios and art organizations in Kansas City community offer students additional opportunities for internships, visiting artists, and enrichment programs to supplement coursework. Classes make use of the extensive collections at The Nelson-Atkins (<http://www.nelson-atkins.org/>) located three blocks away, as well as the major contemporary collections in Kansas City, including those of the Kemper Museum of Contemporary Art (<http://www.kemperart.org/>), the Belger Arts Center (<http://www.belgerartscenter.org/>) and the Nerman Museum of Contemporary Art (<http://www.nermanmuseum.org/>). Community arts organizations such as the UMKC Gallery of Art (<http://info.umkc.edu/art/umkcgallery/contact/>), the H&R Block Artspace (<http://www.kcai.edu/hr-block-artspace/>), and various art galleries located in the Crossroads Arts District (<http://kccrossroads.org/>) lend unique learning opportunities for studio art and art history majors to experience. Research in Art History is supported by the Miller-Nichols Library (<http://library.umkc.edu/node/>) at UMKC, the Spencer Art Reference Library (<http://www.nelson-atkins.org/research/library/>) at the Nelson-Atkins Museum, and the Linda Hall Library (<http://www.lindahall.org/>).

Career Opportunities

Career opportunities in Studio Art include education, arts administration and practicing art and design in fields of graphic design, interactive design, video arts, print media, photography, digital arts, painting and illustration. Graduates in the Studio Art programs at UMKC have found employment with Artist Inc, Hallmark (<http://www.hallmark.com/>), Barkley (<http://www.barkleyus.com/>), Federal Reserve Bank of Kansas City (<https://www.kansascityfed.org/>), Epsten Gallery at Village Shalom (<http://www.villageshalom.org/>), mySidewalk (<http://www2.mysidewalk.com/>), the Kansas City Municipal Commission (<http://kcmo.gov/generalservices/municipal-art-commission-2/>) and as successful independent artists. Students have been accepted into graduate programs at institutions including the University of Missouri at Columbia (<http://www.missouri.edu/>), Sam Fox School at Washington University (<http://www.samfoxschool.wustl.edu/node/4145/>), Ohio State (<http://www.osu.edu/>), Guildhall at Southern Methodist University (<http://guildhall.smu.edu/>) and the Rhode Island School of Design (<http://www.risd.edu/>).

Career paths in Art History include work in museums and galleries, educational institutions, and arts administration. Other career choices that mesh well with an Art History degree are publishing, art appraisal, non-profit art or history organizations, archival work, and library science. Graduates from the Art History M.A. program at UMKC have found positions at the Los Angeles County Museum of Art (<http://www.lacma.org/>), Rhode Island School of Design, the Nelson-Atkins Museum, the H&R Block Artspace, the Kemper Museum of Contemporary Art, Avila University (<http://www.avila.edu/>), the Wadsworth Athenaeum (<http://www.wadsworthatheneum.org/>), and the University of North Carolina at Chapel Hill (<http://www.unc.edu/>), as well as right here at UMKC. The M.A. degree at UMKC provides an excellent preparation for doctoral work. Degree requirements are structured to give students a thorough background in research methodology, and courses are taught by faculty actively involved in research. Our graduates have continued their work toward the Ph.D. at institutions including the University of Chicago (<http://www.uchicago.edu/>), Princeton University (<http://www.princeton.edu/>), Case Western Reserve University (<http://www.case.edu/>), the University of Michigan (<http://www.umich.edu/>), and the University of Kansas (<http://www.ku.edu/>).

Faculty

Cristina Albu^{1,2}; Associate Professor of Art History; B.A. (University of Bucharest); M.A. (University of Warwick); M.A., Ph.D. (University of Pittsburgh).

Richard W. Allman¹; Associate Professor of Studio Art; B.F.A. (Massachusetts College of Art); M.F.A. (Rhode Island School of Design).

Barry Anderson¹; Professor of Studio Art; B.F.A. (University of Texas at Austin); M.F.A. (Indiana University - Bloomington).

Eric J. Bransby; Professor Emeritus of Studio Art; B.A., M.A. (Colorado College); M.F.A. (Yale University).

Robert Cohon; Research Associate Professor of Art History & Joint Appointment with The Nelson-Atkins Museum of Art; B.A. (Columbia University); M.A., Ph.D. (New York University).

William G. Crist; Professor Emeritus of Studio Art; B.A. (University of Washington, Seattle); M.F.A. (Cranbrook Academy of Art).

Nancy DeLaurier; Instructor Emeritus of Studio Art; B.S. (Northwestern University).

Burton L. Dunbar III^{1,2}; Professor of Art History; B.A. (Park College); M.A., Ph.D. (University of Iowa).

George Ehrlich; Professor Emeritus of Art History; B.S., M.F.A., Ph.D. (University of Illinois).

Stephen J. Gosnell; Associate Professor Emeritus of Studio Art; M.A. (State University of New York).

Elijah Gowin¹; Professor of Studio Art; B.A. (Davidson College); M.F.A. (University of New Mexico).

Joseph R. Hartman; Assistant Professor of Art History; B.A. (Goshen College); M.A. (University of North Texas); Ph.D. (Southern Methodist University)

Leonard I. Koenig; Professor Emeritus of Studio Art; B.A. (Adelphi College); M.A. (University of Iowa); M.F.A. (University of Wisconsin-Madison).

Barbara A. Mueller; Professor Emeritus of Studio Art; B.A. (Maryville College); M.A. (University of Iowa).

HyeYoung Shin; B.F.A. (Kyung-Sung University); B.F.A. (Hong-Ik University); M.F.A. (University at Buffalo)

Craig A. Subler Professor Emeritus of Studio Art; B.F.A. (Dayton Art Institute); M.A., M.F.A. (University of Iowa).

Kati Toivanen¹; Associate Dean of Undergraduate Programs (College of Arts & Sciences); Professor of Studio Art; B.F.A. (Clark University); M.F.A. (School of the Art Institute of Chicago).

Paul Tosh¹; Associate Professor of Studio Art; B.F.A. (Middle Tennessee State University); M.F.A. (University of Arizona).

Davin Watne; Full-Time Lecturer of Studio Art; B.F.A. (Kansas City Art Institute); M.F.A. (Maryland Institute College of Art)

Art Courses

ART 105 Introduction to Photography Credits: 3

An introduction to the general practice of photography. The course centers on the basic technical and aesthetic aspects of the medium. A fully adjustable digital camera is required.

ART 112 Foundation Drawing Credits: 3

This course focuses on developing skills and techniques of observational drawing. No previous drawing experience required.

ART 114 Foundation Digital Design Credits: 3

This is an introductory course on techniques, practical applications, and aesthetic considerations for digital arts, graphic design, and computer multimedia. Students will create visual projects and learn to participate in a creative class community.

ART 114 - MOTR PERF 105GA: Studio Art-Graphic Arts

ART 121 Foundation 2D Design Credits: 3

The principles of visual thinking with emphasis on color theory and perception of form and space.

ART 206 Photography I Credits: 3

An introduction to photography as a means of creative self-expression. The course centers on the technical and aesthetic aspects of the medium. A fully adjustable digital camera is required.

Prerequisites: ART 105 or ART 114.

ART 212 Intermediate Drawing Credits: 3

Continuation of foundation drawing. Emphasis is on gaining technical facility with various drawing mediums and expanding conceptual approaches.

Prerequisites: ART 112.

ART 218 Graphic Design I Credits: 3

A beginning level introduction to Graphic Design principles, such as layout, design, concept, basis design theory, graphic design production, and use of industry-level design software and tools.

Prerequisites: ART 112, ART 114, and ART 121.

ART 221 Painting I Credits: 3

Exploration of the visual language in paint with continued emphasis on color and design.

Prerequisites: ART 112, ART 114, and ART 121.

ART 224 Print Media I Credits: 3

Through hands-on lessons, students will learn printmaking methods, including relief and screen printing, to practice historical and contemporary approaches.

Prerequisites: ART 112, ART 114, and ART 121.

ART 230 Fibers I Credits: 3

From altering the surface of fabric to three-dimensional construction, students are taught the basics of fiber arts. This is a hands-on introduction to surface design and soft sculptural hand processes. The course will cover dyeing, shibori, screen-printing, knitting, crochet, and basic sewing. Projects are individualized by expertise, availability of supplies, and students' own objectives.

ART 230 - MOTR PERF 105M: Studio Art-Multimedia Crafts

**ART 309 Print Media II Credits: 3**

A continuation of ART 224, this course deepens students' understanding of the historical conventions of and contemporary approaches to print media. Explores concepts and techniques through material involvement.

Prerequisites: ART 224.

ART 310 Digital Video and Motion Design Credits: 3

This course provides an overview of techniques and concepts in contemporary video and animation practices for art and graphic design. Intended for studio art majors and minors, the course features lectures, demonstrations, discussions and projects.

Prerequisite: ART 114.

ART 311 Painting II Credits: 3

Painting in oil or acrylic on the intermediate level with continued emphasis on color.

Prerequisites: ART 221.

ART 312 Figure Drawing I Credits: 3

A study of the structure of the human figure with emphasis on the dynamics of figure movement.

Prerequisites: ART 212.

ART 330 Fibers II Credits: 3

Intermediate study of surface design and soft sculptural hand processes. Projects are individualized by expertise, availability of supplies, and students' own objectives.

Prerequisites: ART 230.

ART 337 Graphic Design and Typography I Credits: 3

This course is an introduction to the theory and practice of graphic design and typography. It covers page layout, type, concept development, basic design history and theory, and the use of industry-standard design software. Students will create their own designs based on lectures and demonstrations.

Prerequisites: ART 114 and ART 121.

ART 338 Graphic Design II Credits: 3

Intermediate study of graphic design theory, methodology and techniques, stressing a visual approach to problem solving in design, image making techniques, materials, and production processes standard to the industry.

Prerequisites: ART 218.

ART 340 3D Modeling and Animation Credits: 3

This course addresses the usage of virtual three-dimensional modeling and animation in the contemporary art and design fields.

ART 348 Introduction To Typography Credits: 3

This course explores the formal and applied aspects of typography as tools for design and artistic expression. Focus is on how type relates to art, layout, and design. Both hand produced typography and computer assisted design software will be incorporated.

Prerequisites: ART 112, ART 114, and ART 121.

ART 375 Interdisciplinary Studio Projects Credits: 3

This course explores and combines a variety of media to investigate and examine relevant topics across visual arts. Students develop their creative expression and professional practices through individual and collaborative projects in the classroom and community engagement.

Prerequisites: At least one of the following: ART 206, ART 212, ART 224, ART 221, ART 230, ART 310, ART 337, ART 312, ART 340.

ART 405 Practices in the Visual Arts Classroom Credits: 3

Candidates preparing to student teach will master the use of current research in art education, and apply theoretical and practical educational knowledge.

Prerequisites: Departmental consent.

ART 411 Painting III Credits: 3

Painting on the intermediate level with a focus on experimentation and developing a personal visual language and expression.

Prerequisites: ART 311.

ART 412 Figure Drawing II Credits: 3

A continuation of ART 312. Drawing on the advanced level with study of the figure in environmental context.

Prerequisites: ART 312.

ART 421 Painting IV Credits: 3

Painting on the advanced level with supervised individual selection of technique and subject matter.

Prerequisites: ART 411.

ART 439 Egghead: Student Advertising Agency Credits: 3

This course operates as a faculty-supervised advertising/design agency that works with clients to produce visual marketing materials.

Prerequisites: ART 337.

ART 488 Creative Project Development Credits: 3

In this class students evaluate their creative goals and styles, as well as artistic abilities, in relation to their professional aspirations. Specific artistic and appropriate technological skills are developed through projects.

Prerequisites: ART 114 and ART 121.

ART 492 Advertising Campaigns Credits: 3

This course focuses on branding, re-branding or development of an identity program, and combines advertising planning with creative execution.

Students will learn how to develop advertising/marketing/creative campaign plans for a specific client(s), conceptualize, design and develop all creative aspects including but not limited to logo/identity, copy, advertising, website development, app design, etc., and complete a presentation of the plans/briefs and final creative developments of the plans/briefs and creative to the client(s).

ART 493 Directed Projects in Studio Art Credits: 1-6

With permission of instructor, advanced students pursue independent research and production of a significant semester-long project. Acceptable for graduate credit with approval.

ART 495 Special Topics in Studio Art Credits: 1-6

In-depth exploration of a special topic in Studio Art. Course may be repeated if topic is unique for each repeated effort. Acceptable for graduate credit with approval.

ART 498Q Special Studies in Art: Internship Credits: 1-6

Advanced students gain invaluable practical experience in a professional setting in the field of art.

ART 499WI Senior Seminar Credits: 3

Capstone course for studio majors in all media. Course addresses contemporary theoretical and practical issues in studio art practice, and prepares students for graduation. Multiple papers, class presentations, and a portfolio preparation are required.

ART 5405 Practices in the Visual Arts Classroom Credits: 3

Students preparing to student teach in the spring semester read, reflect on and master the use of current research in art education and study, practice and master the use of general education thoughts of today.

ART 5506 Graduate Photography Credits: 3-6

Photography on the graduate level with individual selection of media and technique. May be repeated up to a total of 15 hours.

ART 5510 Graduate Painting Credits: 3-6

Painting on the graduate level with individual selection of medium and technique. May be repeated up to a total of 15 hours.

ART 5513 Graduate Graphic Design Credits: 3-6

Graphic design on the graduate level with individual selection of medium and technique. May be repeated up to a total of 15 hours.

ART 5515 Graduate Drawing Credits: 3-6

Drawing on the graduate level with individual selection of media and technique. Student may pursue selected projects on a group or individual basis. May be repeated up to a total of 15 hours.

ART 5520 Graduate Print Media Credits: 3-6

Print media on the graduate level with individual selection of medium and technique.

ART 5540 Graduate Digital Imaging Credits: 3-6

Digital imaging on the graduate level with individual selection of subject and technique.

Prerequisites: Departmental consent.

ART 5550 Graduate Performance Art Credits: 3-6

Performance art on the graduate level with individual selection of medium and technique. May be repeated up to a total of 15 hours.

ART 5576 Graduate Digital Video and Motion Design Credits: 3-6

Digital video and motion design on the graduate level with individual selection of subject and technique.

Prerequisites: Departmental consent.

ART 5588 Graduate Studio Art Seminar Credits: 3

Studio art seminar for graduate students in any medium. Course will focus on professional practices, as well as the development of a sustainable artistic career. Individual artistic production and shared critiques will be required.

Prerequisites: Studio Art Graduate Students.

ART 5591 Directed Technical Studies Credits: 2-4

Individually directed studies or research in selected projects of a technical nature in studio art. May be repeated up to a total of six hours applicable to a degree program.

ART 5599 Research And Thesis Credits: 1-9

Production and/or writing of thesis. Usually taken in the last term of candidacy.

ART 5899 Required Graduate Enrollment Credit: 1

Art History Courses

ART-HIST 110 Introduction to the History of Art: Pyramids to Picasso Credits: 3

This is an introduction to the history of art, with in-depth discussions of painting, sculpture, prints, and architecture. Students will be introduced to significant works from major historical periods; their cultural roles, style and composition, and the artistic processes involved in their creation. Emphasis is placed upon Western art history, with attention paid to important interactions with other world traditions, including the arts of Islam, Japan, and Africa. The comprehensive collections of The Nelson-Atkins Museum of Art contribute an important component to the course.

ART-HIST 110 - MOTR ARTS 100: Art Appreciation

**ART-HIST 201 From Cave Paintings to Cathedrals Credits: 3**

Students will learn to analyze and place in an art historical context Western art and architecture from approximately 35,000 BCE to 1250 CE. Art and architecture from all relevant cultures and religions - pagan, Christian, and Islamic - will be covered; particular emphasis will be placed on the accomplishments of Egyptian and Greek artists.

ART-HIST 201 - MOTR ARTS 101: Art History I

**ART-HIST 202 From Michelangelo to Modernism Credits: 3**

This course will examine major monuments of Western art and architecture during the late Middle Ages through the Modern period. Art will be examined in its cultural context stressing artistic intent, issues of gender, changing patterns of patronage, and the ascending status of the artist in society.

ART-HIST 202 - MOTR ARTS 102: Art History II

**ART-HIST 264 The Grotesque in Art and Culture Credits: 3**

This course explores the vibrant and subversive role of the grotesque in the visual arts from 1500 to the present day. The grotesque comprises an alternate image tradition that is often overlooked, or even actively suppressed. This course will explore the distinct strands of the grotesque: witty and inspired improvisation, from Michelangelo to Picasso; rowdy and subversive carnivalesque, from Bruegel to Hogarth to DeKooning; and the monstrous and uncanny, from Bosch to Goya to Kahlo.

ART-HIST 303 World Currents of Contemporary Art Credits: 3

This survey course provides an introduction to the densely interconnected trajectories of contemporary art in different parts of the world. It explores the continuities and discontinuities between modern and contemporary art in the context of intensifying transnational exchanges since the 1960s. Students will become familiar with the intersections of contemporary art with everyday life, mass media, politics and technology.

ART-HIST 315 Arts Of African and New World Cultures Credits: 3

This historical survey of ethnographic arts examines the diasporas of African art and the influences of Africans on the arts of new world cultures (in Brazil, Surinam, Cuba, Haiti, and the United States) and Meso-American art and the influence of Meso-Americans on the arts of the Native North American cultures.

ART-HIST 319 Asian Art Credits: 3

The survey will emphasize the philosophical and cultural context of the arts of India, Southeast Asia, China, Korea and Japan. The course will stress the elements that give an underlying unity to the arts as well as those qualities which distinguish the art of each country as unique.

ART-HIST 421 Made in the USA: Latinx Art and Experience Credits: 3

This course focuses on art of and by members of the U.S. Latinx community. Students in this course will engage with the politics of representation, gender, sexuality, race, class, and ethnicity in Latinx art, as well as visual and popular culture.

ART-HIST 469 Sensing, Feeling, Thinking: Contemporary Art and the Mind Credits: 3

Contemporary artists are challenging viewers to reflect on how they perceive, feel and think. This seminar provides an introduction to the mental processes underlying emotion and visual cognition and familiarizes students with contemporary art practices that reveal the dynamic correlations between body, mind and subjectivity.

ART-HIST 470 Art Museums: History and Practice Credits: 3

This course will familiarize students with the history of art museums and collecting practices. It will cover theories of museum government, curating, and object interpretation. Students will explore changes in the functions of art museums and will develop practical skills for future museum employment.

ART-HIST 476 Site-Specific Art: Within and Beyond the Museum Walls Credits: 3

At a time of increased transnational mobility, contemporary artists are conceiving artworks that catalyze an enhanced awareness of the geographical and socio-political conditions of existence and art making. This seminar examines artworks that are produced outside the studio and are inspired by specific natural environments, museum settings and public spaces.

Prerequisites: ART-HIST 303.

ART-HIST 482 Scope & Methods Of Art History Credits: 3

An exploration of the discipline of art history, including theoretical issues, guiding questions and problems, diverse approaches (historical and current), and research tools. The undergraduate capstone course for art history majors.

ART-HIST 493 Directed Studies in Art History Credits: 1-6

With permission of instructor, advanced students pursue independent research and production of a significant semester-long research project. Acceptable for graduate credit with approval.

ART-HIST 495 Special Topics in Art History Credits: 1-6

In depth exploration of a special topic in Art History. Course may be repeated for up to 18 credit hours if topic is unique for each repeated effort. Acceptable for graduate credit with approval.

ART-HIST 497Q Special Studies in Art History: Internship Credits: 1-6

Advanced art history students gain invaluable practical experience in a professional setting in the field of art.

ART-HIST 5501 Scope And Methods Of Art History Credits: 3

An exploration of the discipline of art history, including theoretical issues, guiding questions and problems, diverse approaches (historical and current), and research tools. Required of all Art History graduate students and best taken early in one's studies.

ART-HIST 5539 Paris in the Age of Rococo Credits: 3

In the early 18th century, Paris overtook Rome as the artistic center of Europe. We explore all of the visual arts during the vibrant "Rococo," the age of Watteau, Chardin, and Boucher.

ART-HIST 5540 Seminar in French Art: Renaissance and Baroque Credits: 3

A history of French art from the time of Louis XII through the Age of Louis XIV, with emphasis on painting and architecture.

ART-HIST 5541 Seminar in Northern Baroque Art: The Age of Rubens, Rembrandt, and Wren Credits: 3

The arts of England and the Low Countries in the 17th and early 18th centuries. Emphasis on painting and the graphic arts in the Spanish and Dutch Netherlands, and on architecture in England.

ART-HIST 5547 Seminar in Italian Baroque Art: The Age of Caravaggio, Bernini, and Borromini Credits: 3

Painting, sculpture, and architecture in Italy from the creation of the Baroque style in the late 16th century to the beginnings of the Barochetto era.

ART-HIST 5548 Seminar in Span Art: El Greco to Goya Credits: 3

A study of Spanish art from the later 15th Century to the Napoleonic invasion.

ART-HIST 5561 Traditional and Contemporary Native American Art Credits: 3

This course aims to inspire students to appreciate the history and aesthetics of traditional and contemporary Native North American arts. We examine cultural and aesthetic continuities between Meso-American and Native North American Arts. Then we explore how Native American arts reflect the history of North America, including influences from Europeans, and conclude with contemporary Native American artists and their incorporation of various global influences.

ART-HIST 5562 History of Modern Design Credits: 3

This course examines innovations in design, beginning with the Arts and Crafts movement in the 19th century, surveying all the major design trends of the twentieth century, and concluding with contemporary developments in the age of the computer.

ART-HIST 5563 Primitivism and Its Aftermath Credits: 3

This course explores one of the seminal movements of the modern era and its ramifications for the visual arts today. Class discussions will consider the complexities and contradictions of primitivism and its rejection through their appropriations from archaic, folk, and non-western art traditions, from 1800-on, while also situation these creative endeavors within the cultural and political contexts of the period.

ART-HIST 5564 Modern Art and the Grotesque Credits: 3

The course explores how the grotesque shaped the history, practice and theory of art in the nineteenth and twentieth centuries. The grotesque plays a major role in many modern styles, and its expressive possibilities encompass the capriccio, the carnivalesque and burlesque, the fantastic, and the abject and uncanny. Artists have incorporated the grotesque as a means to push beyond established boundaries, explore alternate modes of experience, and to challenge cultural and aesthetic conventions.

ART-HIST 5565 Seminar In American Art Credits: 3

Graduate-level seminar dealing with an announced area in American art. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5566 Seminar In 19th-Century Art Credits: 3

Graduate-level seminar dealing with an announced area in 19th-century art. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5567 Seminar In 20th-Century Art Credits: 3

Graduate-level seminar dealing with an announced area in 20th-century art. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5568 Participatory Forms of Spectatorship in Contemporary Art Credits: 3

This course explores art practices from the second half of the 20th century that challenge spectators to become more actively involved in the reception and even in the production of art. The course will examine the sociopolitical conditions and technological developments which have contributed to the strengthening of participatory tendencies in contemporary art.

ART-HIST 5569 Sensing, Feeling, Thinking: Contemporary Art and the Mind Credits: 3

Contemporary artists are challenging viewers to reflect on how they perceive, feel and think. This seminar provides an introduction to the mental processes underlying emotion and visual cognition and familiarizes students with contemporary art practices that reveal the dynamic correlations between body, mind and subjectivity.

ART-HIST 5570 Seminar In Renaissance Art Credits: 3

Graduate-level seminar dealing with an announced area in Renaissance art. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5571 Seminar In Art Of Africa, Oceania And New World Cultures Credits: 3

Seminar in art of Africa, oceania and new world cultures. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5572 Seminar In Asian Art Credits: 3

Seminar dealing with an announced area in Asian Art. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5573 Visual Arts Administration Credits: 3

This course on professional arts administration includes assignments in: copyright laws, database management, ethics issues, evaluation design, gallery museum management, grant writing and budgeting, public relations, resume design, tax laws, and website design and management. Students are required to learn relevant computer programs. This course is also open to music and theatre majors. Research requirements for graduate credit are more comprehensive and professional.

ART-HIST 5575 Seminar In Baroque Art Credits: 3

Graduate-level seminar dealing with an announced area in Baroque art. May be repeated once, provided there is a change in the area of concentration.

ART-HIST 5576 Site-Specific Art: Within and Beyond the Museum Walls Credits: 3

At a time of increased transnational mobility, contemporary artists are conceiving artworks that catalyze an enhanced awareness of the geographical and socio-political conditions of existence and art making. This seminar examines artworks that are produced outside the studio and are inspired by specific natural environments, museum settings and public spaces.

ART-HIST 5577 Contemporary Artists of the African Diaspora Credits: 3

This course examines cultural and aesthetic continuities between traditional and contemporary arts and artists in Africa and in the Americas, including the study of contemporary Africans whose cultures had the greatest influence in the Americas, as well as contemporary African-American artists in Brazil, Cuba, Haiti, and the United States.

ART-HIST 5579 From the Parthenon to the Altar of Peace Credits: 3

The course centers on the many different styles of Greek and Roman art from the fifth century B.C. to the early first century A.D. Attention is also paid to the political and literary forces behind its imagery. Three monuments serve as the pillars upon which the course rests: the Parthenon, Pergamon Altar, and the Ara Pacis. The lessons learned about style, the interaction of politics, literature, and art and the foibles of scholarship are intended to be applied to other fields of art history.

ART-HIST 5580 Art Museums: History and Practice Credits: 3

This course will familiarize students with the history of art museums and collecting practices. It will cover theories of museum government, curating, and object interpretation. Students will explore changes in the functions of art museums and will develop practical skills for future museum employment.

ART-HIST 5590 Directed Studies In Art History Credits: 1-6

Individually directed studies or research in selected topics or problems in art history. May be repeated up to a total of six hours applicable to a degree program.

ART-HIST 5599 Research & Thesis Credits: 1-9

Production and/or writing of thesis. Usually taken in the last term of candidacy.

ART-HIST 5699 Research And Dissertation Credits: 1-12

Dissertation Research and writing in Art History.

ART-HIST 5899 Required Graduate Enrollment Credit: 1

Bachelor of Arts: Art History

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Have a basic knowledge of both Western and Non-Western art history.
- Cultivate aesthetic understanding and a life-long enthusiasm for history and the arts.
- Develop skills and perspectives to understand art and architecture as complex cultural products.
- Develop effective writing skills.
- Be able to understand the context of information contained in scholarly publications.

Program Requirements

UMKC Essentials

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above)		3
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		13

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Students graduating with a B.A. degree in Art History will be prepared for entry into a graduate program or the job market.

Formal study of Art History begins with introductory survey courses. There are two courses in Western art (ART-HIST 201 and ART-HIST 202), a survey in contemporary art (ART-HIST 303), and two in non-Western art (ART-HIST 315 and ART-HIST 319). There are no prerequisites for these courses. Students are encouraged to take the survey sequence in Western art sequentially, if possible.

Lectures are intermediate-level courses and are assigned 400-level numbers. Seminars are advanced-level courses and are assigned 400- and 5000-level numbers. The prerequisite for these courses is the relevant survey course, or permission of the instructor.

Code	Title	Credits
Two Western Surveys:		6
ART-HIST 201	From Cave Paintings to Cathedrals	
ART-HIST 202	From Michelangelo to Modernism	
Contemporary Survey:		3
ART-HIST 303	World Currents of Contemporary Art	
Two non-Western courses: ¹		6
ART-HIST 315	Arts Of African and New World Cultures	
ART-HIST 319	Asian Art	
At least six 400-level courses, chosen in consultation with department advisor.		18
ART-HIST 421	Made in the USA: Latinx Art and Experience	
ART-HIST 470	Art Museums: History and Practice	
ART-HIST 476	Site-Specific Art: Within and Beyond the Museum Walls	
ART-HIST 478	Pompeii and Herculaneum: The Archaeology of the Roman World	
ART-HIST 495	Special Topics in Art History	
ART-HIST 497Q	Special Studies in Art History: Internship	
COMM-ST 346	Art of the Short Film	
HISTORY 379	Museums, Monuments, and American Life: An Introduction to Public History	
HISTORY 406	Modern Latin America	
At least three studio arts courses. Recommended classes include:		9
ART 112	Foundation Drawing	
ART 114	Foundation Digital Design	
ART 206	Photography I	
Additional studio electives may include:		
ART 212	Intermediate Drawing	
ART 218	Graphic Design I	
ART 221	Painting I	
ART 224	Print Media I	
ART 230	Fibers I	
ART 310	Digital Video and Motion Design	
ART 312	Figure Drawing I	
ART 330	Fibers II	
ART 338	Graphic Design II	
ART 439	Egghead: Student Advertising Agency	
Capstone Course:		3
ART-HIST 482	Scope & Methods Of Art History	
Total Credits		45

¹ A 400-level course in non-Western art can count for this requirement OR towards the six 400-level courses requirement, but not both).

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		29

Minimum GPA: 2.5

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses

are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: Studio Art University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Create artwork demonstrating effective formal qualities
- Recognize and apply the specific characteristics of student's own creative expression
- Explain own artwork clearly and thoughtfully, using vocabularies of the discipline
- Develop professional skills necessary for their art practice

Program Requirements

Students graduating with a B.A. degree in Studio Art will be prepared for entry into a professional school, a graduate program or the job market.

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Intermediate and advanced courses typically require the foundation series and possibly other prerequisites. ART 495: Special Topics may be offered that can count towards the Studio Electives. Recent Special Topics include screenprinting, art book publishing, and advertising campaigns (with Communication Studies).

Another important part of the Studio Art program is the Junior Portfolio Reviews that happen each spring semester. Students gather around 10 of their strongest pieces to present to a group of faculty and guests for a comprehensive critique of their work with suggestions for areas of growth, classes to take before graduating, and more. Many students benefit from this process so much that they do it again as a senior.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		26

Minimum GPA: 2.0; 2.5 in the major

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

Fall Semester	Credits	Spring Semester	Credits
ART 112, 114, or 121 ^{CC}		3 ART 112, 114, or 121 ^{CC}	3

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Master of Arts: Art History

Student Learning Outcomes

Students graduating from this program will:

- Demonstrate advanced knowledge of specialized areas of art history.
- Cultivate independent and original thinking.
- Employ comprehensive communication through written, oral, and technological methods.
- Express aesthetic appreciation of art and architecture.
- Explain works of art and architecture as complex cultural products.
- Students graduating with an M.A. in Art History will be prepared for entry into a Ph.D. program or the job market.

Applications for Graduate Study

Applications for the M.A. degree in Art History are reviewed continually during the calendar year. However, students must have their applications completed by November 15 for admission for the spring semester and by June 15 for the fall term. To be considered for graduate assistantships (GTAs) and fellowships during the following academic year, and for maximum choice in coursework for the first semester, fall candidates need to have their application submitted by February 1.

How to Apply for the M.A. in Art History:

- To Office of Admissions (<http://www.umkc.edu/admissions/>)
 - Application (\$35 online, \$45 paper)
 - Transcripts
- To Department of Art & Art History (umkcarthistorygrad@umkc.edu), Attention: Graduate Advisor in Art History
 - Writing Sample
 - Two letters of recommendation
 - Personal statement, addressing: 1) Reason(s) for pursuing admittance into graduate-level study, 2) Reason(s) for choosing UMKC's Department of Art & Art History as educational institution, 3) Ultimate professional ambitions, and 4) Why you should be selected for the M.A. program.

Art History Classification of Entering Students

Admission to the graduate program in art history requires a B.A. or equivalent degree and sufficient undergraduate study in art history to provide a sound foundation for advanced study. Ideally, this foundation would include a solid grounding in the history of Western art, some study of non-Western art, and sufficient advanced-level work to indicate that a student can succeed in the specialized or topical courses and seminars associated with graduate study. Admission review is done by the graduate advisor in Art History.

The applicant should have, in addition to a good general education in the humanities, 18 to 24 credit hours in art history with a grade-point average of 3.0 or better. Students with fewer hours and/or a restricted exposure to other humanities and fine arts courses, or having inconsistent grades, are eligible for admission to the graduate program on the basis of recent evidence indicating the potential for success, such as performance in 400-level courses, or through papers and exams for courses elsewhere. If there are some deficiencies in preparation that can be met readily by one or two undergraduate survey courses, a student will be admitted to graduate study. However, the survey courses must be taken for undergraduate credit before the student is allowed to take the qualifying examination that is required for advancement to degree candidacy.

Applicants lacking the minimum preparation deemed necessary for admission to graduate-level study in art history may make up their deficiency through enrollment in selected undergraduate courses offered by the department. These will be determined after consultation with a faculty advisor and in all cases must include 400-level work. Progress will be reviewed at the end of each term, and if warranted, reclassification to graduate status will occur prior to the start of the next semester.

Requirements for Graduation

Option I: Non-thesis Option

(33 hours of approved coursework), including:

Code	Title	Credits
ART-HIST 5501	Scope And Methods Of Art History	3
Graduate Seminars		18
Choose from the following:		12
ART-HIST 5569	Sensing, Feeling, Thinking: Contemporary Art and the Mind	
ART-HIST 5576	Site-Specific Art: Within and Beyond the Museum Walls	
ART-HIST 5580	Art Museums: History and Practice	
ART-HIST 5590	Directed Studies In Art History	
HISTORY 5579	Public History: Theory and Method	
Total Credits		33

Option II: Thesis Option

(30 hours of approved coursework), including:

Code	Title	Credits
ART-HIST 5501	Scope And Methods Of Art History	3
Graduate Seminars		12
ART-HIST 5599	Research & Thesis	6
Choose from the following:		9
ART-HIST 5569	Sensing, Feeling, Thinking: Contemporary Art and the Mind	
ART-HIST 5576	Site-Specific Art: Within and Beyond the Museum Walls	
ART-HIST 5580	Art Museums: History and Practice	
ART-HIST 5590	Directed Studies In Art History	
HISTORY 5579	Public History: Theory and Method	
Total Credits		30

- Students must obtain permission to pursue the thesis option. Permission to do so depends on the quality of the student's thesis proposal submitted to the Department, the student's writing skills, and the ability of the Department to supervise the student in the subject area of the proposed thesis topic. An oral defense of the thesis is required. Those students who anticipate further graduate work toward the doctorate are strongly advised to elect the thesis option.

Non-Course Requirements:

- No more than 12 hours of coursework taken at the 400-level
- A minimum G. P. A. of 3.0

- As soon as possible, but no later than after 18 hours are completed, the student will select Option I or II. For students admitted to the Thesis Option, the student will select a thesis committee with the consultation of the Graduate Advisor.
- In either the 30-hour thesis option or the 33-hour non-thesis option, no more than 6 hours of readings, independent study, or directed studies credit (other than thesis hours) may be counted toward the requirements for the M.A. Exceptions may be made for credits granted for professional internships approved by the Department.

Special Requirements

Requirements for Retention

A student must maintain a graduate grade-point average of 3.0. In extenuating circumstances, a student may petition the Department of Art and Art History to be continued as a graduate student for one term (or 6 hours) if the graduate GPA falls below 3.0. The deficiency must be remedied during the approved probationary period if the student is to be continued.

Reading Knowledge in Foreign Language

M.A. students must acquire a reading knowledge of one foreign language considered essential to advanced study in art history before beginning the M.A. thesis. Students are encouraged to acquire this skill as early as possible in their graduate studies, so they may use it in graduate seminars and research papers. This requirement is most often fulfilled by three semesters at the college level, with a grade of B or better in the third semester. Students who believe they have acquired a sufficient reading knowledge, but have not completed three semesters of language training at the college level, may petition the graduate advisor to take a reading exam in that language. Normally, however, three semesters of college-level study are necessary to achieve sufficient mastery.

Thesis

The final requirement for the M.A. degree in Art History is the M.A. thesis, which is normally begun two semesters before a student completes the degree. The thesis is an approved project that demonstrates capacity for independent work of a suitably high level of proficiency, one utilizing the primary sources available on the topic in English and in the foreign language that meets the program requirement, as well as the major relevant secondary sources. This project, selected in conjunction with the thesis advisor most often develops from a seminar paper, and its presentation must conform to the requirements of the School of Graduate Studies.

Summary of Forms

1. Master's Degree Program of Study – filled out by the student and the graduate advisor/principal advisor in the department.
2. Recommendation for Appointment of Advisor or Supervisor/Examination Committee form – filled out by the student and the graduate advisor in the department.
3. Report of Results of Examination for Master's Degree Students Form – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.
4. Intent to Graduate – filled out by the student at the Records Office in the Administrative Center (no faculty signature required)
5. Thesis Review/Examination – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.

Master of Arts: Studio Art

Student Learning Outcomes

Students graduating from this program will:

- Have an advanced knowledge of a specialized area of studio art.
- Develop creative, conceptual and technical skills in a variety of visual media to produce work that can effectively contribute to the larger creative community.
- Communicate ideas visually, verbally, and through the written word.
- Recognize and understand the relevance of global art history to the current practice of art.
- Develop professional skills.
- Be proficient in adapting technology for the creation of works of art, including computer skills and digital photography.
- Students graduating with an M.A. in Studio Art will be prepared for entry into an M.F.A. program or the job market.

M.A. in Studio Art Overview

For Studio Art, the UMKC Department of Art and Art History only offers the Master of Arts Degree, which is not the terminal degree in studio art and will not qualify candidates to teach on the University level. The M.A. in studio art has the following emphasis areas: painting, drawing, printmaking, photography, digital imaging, motion design, and graphic design. Most students will take the majority of their coursework as independent study classes under the direction of one faculty member in the graduate student's area of emphasis. Students must decide which single emphasis area they plan to pursue before they apply for graduate school in the Department of Art and Art History.

Applications for Graduate Study in Studio Art

Application deadline is February 1 for the Fall semester and October 15 for the Spring semester. There is no summer semester admission.

How to Apply:

- To Office of Admissions (<http://www.umkc.edu/admissions/>)
 - Application (\$35 online, \$45 paper)
 - Transcripts
- To Department of Art & Art History, Attention: Graduate Advisor in Studio Art
 - Portfolio of recent work on CD is with 15-20 images (jpeg/bmp/QT/AVI/Flash)
 - Listing the images' titles, dates, sizes and media (hard-copy)
 - CV/resume
 - Personal statement, addressing:
 - i. Reason(s) for pursuing admittance into graduate-level study,
 - ii. Reason(s) for choosing UMKC's Department of Art & Art History as educational institution,
 - iii. Focus of art work,
 - iv. Ultimate professional ambitions, and
 - v. Why you should be selected for the M.A. program.
 - Three letters of recommendation from art professionals or professors

Applications are reviewed by a committee of Studio Art faculty.

Degree Requirements

A minimum of 36 graduate credit hours is required for the M.A. degree in studio art, including a minimum of six hours of ART 5599, and three courses in Art History on the 400- or 5000-level. Additional courses are determined in consultation with the discipline advisor and the supervising thesis committee. Courses are usually three credit hours each and are offered at both the 400 and 5000 levels. Any course counted as part of the required 36-hour minimum must be taken for credit. Students may take no more than 14 hours of 400-level classes (40 percent of a 36-hour program). Any 400- or 5000- level course taken for graduate credit must be completed with a grade of B- (2.7) or better in order to be counted toward the M.A. degree.

Code	Title	Credits
ART 5599	Research And Thesis	6

ART 5515	Graduate Drawing	
ART 5520	Graduate Print Media	
ART 5540	Graduate Digital Imaging	
ART 5576	Graduate Digital Video and Motion Design	
ART 5599	Research And Thesis	
Total Credits		36

Each student's program of study is designed in consultation with the lead professor in the primary discipline, who will be their principal art advisor. There is no general distribution requirement within the studio courses taken, but the student's choice and mix of classes needs to be approved by their art advisor. Courses in disciplines outside the Art and Art History department may be applied toward the degree with the preapproval of the student's principal art advisor.

Thesis Committee

After completion of an 18 to 21-hour minimum, the student selects a thesis committee. Normally, the faculty member in the student's major studio discipline is requested to act as chair of the thesis committee in addition to two other faculty members who have been asked by the student to serve on the committee. The chair of the thesis committee must be on the graduate faculty. Members of the thesis committee may include other studio faculty, an art historian or a faculty member from another department within the University. Typically, all three members of the thesis committee are faculty with whom the student has had some association. At this stage, the thesis chair consults with the student, who then submits a Master's Degree Program of Study form to the principal graduate advisor. This form is forwarded to the chair of the Department of Art and Art History, the dean of The College of Arts and Sciences and the Graduate Office.

M.A. Qualifying Exam (Review)

At some appropriate time after the completion of 18 to 21 hours toward the M.A. degree and before the beginning of the thesis, a review of the student's studio work by the chosen thesis committee is held. The purpose of this review is to determine the readiness of the student to engage in thesis-level work. For this review, the candidate presents a body of studio work representing both their present accomplishments and the potential for a thesis project. The student will also submit a prospectus for the intended thesis work. In an oral discussion with the thesis committee, student will explain the concept of the thesis and how this work will contribute to their continued art production. The committee will ask questions of the student and assess the progress of the work in order to determine whether the student should be allowed to advance to the final hours of class work leading to thesis. The thesis committee must approve the research plan and has a right to refuse it if the student does not have an available thesis project. If the prospectus is refused, the committee will make suggestions on how to improve the thesis proposal and a second review will be scheduled at a future date. Additional coursework may be recommended.

Thesis Procedure

The student plans a body of work to pursue a clearly identified artistic concept in consultation with his/her committee. An Appointment of Thesis Committee form with the names of the student's committee members is filled out by the student in consultation with the departmental principal graduate studio advisor and sent to the associate dean for graduate studies of the College of Arts and Sciences as well as to the Office of Graduate Faculties and Research. If, at any point during the thesis process, the student's committee is changed, an updated version of the form must be resubmitted. It is the responsibility of students to notify the principal graduate studio advisor of any changes in the composition of their committee, allowing the proper forms to be corrected.

At the beginning of the final semester of the student's program of study, he or she must fill out Intent to Graduate form, available online and from the Office of Registration and Records. This form enables the student to be placed on the graduation roll and on a mailing list to receive materials concerning graduation and other important information. If, for some reason, the student does not graduate that semester, he or she is required to file another form the subsequent semester. The deadline for the Intent to Graduate form is listed in the front part of each semester's catalog of courses.

Review of Thesis

(Defense/Public Manifestation of Work)

Upon completion of the thesis body of work, the student presents the work to his or thesis committee for final review and approval. This review must be in the form of a public exhibit or performance. This exhibit can be held in the UMKC Gallery of Art or any other public location within the Kansas City metropolitan area.

Summary of Forms

1. Master's Degree Program of Study – filled out by the student and the graduate advisor/principal advisor in the department.
2. Recommendation for Appointment of Advisor or Supervisor/Examination Committee form – filled out by the student and the graduate advisor in the department.
3. Report of Results of Examination for Master's Degree Students Form – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.
4. Intent to Graduate – filled out by the student at the Records Office in the Administrative Center (no faculty signature required)
5. Thesis Review/Examination – filled out by the chair of the thesis committee and mailed to the Office of Graduate Records.

Minor in Art and Visual Communication

Student Learning Outcomes

Students graduating from this program will:

- Be able to create logos and layouts using digital tools.
- Be able to produce competent visual content that demonstrates both aesthetic and technical abilities.
- Be able to communicate a message visually or use visuals to strengthen a message.
- Be able to articulate stylistic differences or similarities of art and architecture from different periods and/or geographic areas.

Program Description

The UMKC Black Studies Program is an academic unit that holistically investigates the experience, contributions and conditions of African-descent people in the formation and evolution of American society and culture. In accordance with these objectives, our focus extends to an examination of the active role of Africa and the African Diaspora in global society and human culture. The Black Studies Program – through both a social science and a humanities orientation – provides a unique and rich approach to exploring and comprehending the human experience.

The Black Studies Program is focused on the acquisition and dissemination of an instructive body of knowledge. The curriculum prepares students with a critical skill set that will enable them to pursue diverse employment opportunities. The program makes available to students the foundational research for undergraduate, graduate and professional training in the discipline of Black Studies.

The program currently offers undergraduate courses that can lead to a Minor in Black Studies. Students can also obtain an Emphasis Area in Black Studies through the Bachelor of Liberal Arts Program. Black Studies offers students from any graduate discipline coursework toward a Graduate Certificate (p. 608). In addition, coursework is available at the graduate level leading to an Informal Emphasis in Black Studies under the Master of Arts in Liberal Studies Degree (p. 610).

Faculty

Interim Program Director:

Michael K. McDonald, Ph.D.

Associate Professor:

Jacqueline E. Wood, Ph.D.

- Black Studies and English (Drama, Literature, Poetry).

Library Co-Liaison(s):

Tracey Hughes, M.I.S.L.T., M.A.L.S.

- Library Instruction and Reference

Gloria Tibbs, M.L.S.

- Collection Development and Reference

Administrative Assistant:

Patricia C. Charles

Undergraduate

The Black Studies Program at UMKC provides instruction for undergraduate students to develop proficiency in written and oral communications regarding the study of African descent people in the Americas and in the African Diaspora. Our curriculum offers in-depth knowledge regarding an African perspective on political systems, humanities contributions and social science research in higher education. While contributing to the general education requirements of UMKC in both the humanities and the social sciences, our program serves to enhance the global literacy and professional development of our undergraduate populations.

Undergraduate Degrees:

- Bachelor of Liberal Arts: Black Studies Emphasis (p. 603)

Undergraduate Minor:

- Minor in Black Studies (p. 612)

Graduate

The Black Studies Program provides critical skill sets in written and oral communication, research, analysis, theory building, multicultural understanding and global awareness. Through a holistic examination of the African American experience, we are committed to enhancing general education and to promoting professional development as well as the training of scholars in the field.

Graduate Degrees:

- Master of Liberal Studies: Black Studies Informal Emphasis (p. 610)

Graduate Certificates:

- Certificate in Black Studies (p. 608)

BLKS 201 Global Systems and the Origins of Black American Culture and Institutions Credits: 3

This multidisciplinary course examines global capitalism, European contact with Africa, the development of the African Diaspora, and the origins of Black American institutions and culture. Applying a Black studies perspective, the course explores such themes as cultural and gendered oppression, institutional destabilization, economic dislocation, liberation struggles, and creative impulses and aesthetics and the social and historical experiences of Black people in the Americas.

BLKS 302 Conceptual and Theoretical Foundations in African American Studies Credits: 3

This course will provide an in-depth examination of the theoretical and conceptual parameters of African American studies. We will study the evolution of the field, key scholars and creative intellectuals, and seminal categories of thought.

Prerequisites: BLKS 201.

BLKS 315 Arts of African and New World Cultures Credits: 3

This historical survey of ethnographic arts examines the diasporas of African art and the influences of Africans on the arts of new world cultures (in Brazil, Surinam, Cuba, Haiti, and the United States) and Meso-American art and the influence of Meso-Americans on the arts of the Native North American cultures.

BLKS 320 Critical Health Issues in Black Communities Credits: 3

Beginning with the African context and the opposition of chattel slavery, this course examines social, cultural and historical factors affecting the health status of African Americans to the present era.

Prerequisites: BLKS 201.

BLKS 321 The Black Family and Male-Female Relationships Credits: 3

This course examines the historical evolution and current status of the African American family in the United States. Utilizing the African experience as its starting point, the course conveys a broad understanding of the role of the family in human survival and progress. We investigate such issues as male-female relationships, sexual practices, dating, marriage, single parenting, the education and socialization of children, and so on. We also examine an array of social and economic issues, including institutionalized inequality, that affect the viability of today's African American family.

Prerequisites: BLKS 201.

BLKS 325 African American Business Development Credits: 3

This course investigates the various challenges to African American business development and entrepreneurship in the United States. We study the lives of successful, pioneering African American businesswomen and men in order to assess how they managed to transcend the barriers of racism and structured inequality. We explore why certain kinds of enterprises emerged among African Americans and why others did not, and we scrutinize the traditional business problems for African Americans of capitalization, distribution, market penetration, and wealth creation.

Prerequisites: BLKS 201.

BLKS 330 African American Migrations in Literature Credits: 3

The course examines representations of two different trajectories of migration in African American literature: African American journeys from the south to northern and mid-western regions of America, and concurrent migrations of Caribbean people to the US in the early twentieth century.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 331 African American Literature I Credits: 3

This course provides a survey of African American literature from its beginnings to the Harlem Renaissance of the 1920s and 1930s. Areas of interest will include abolitionist literature (especially slave narratives), turn-of-the-century literature and the Harlem Renaissance. This course will examine any or all of the following literary forms: fiction, poetry, drama, autobiography and essay. It will view African American literature in its historical and cultural contexts.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 332WI African American Novel Credits: 3

This course will examine the African American novel in the 19th and 20th centuries; the emphasis will be on the period from the 1920s to the present. The novels will be examined in their historical and cultural contexts.

BLKS 333 African American Literature II Credits: 3

A survey of African American literature from the end of the Harlem Renaissance to the present, covering a range of authors, texts, and contexts.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 334 From Field Shout to Hip Hop: African American Poetic Traditions Credits: 3

This course examines the development of African American poetry from its early forms as field shouts, ballads, and blues to present forms including spoken word and hip hop. Includes authors such as Phillis Wheatley, Paul Lawrence Dunbar, Langston Hughes, Gwendolyn Brooks, Tupac Shakur, and Jessica Care Moore.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 335 Stages Toward Freedom: African American Dramatic Traditions Credits: 3

This course explores the development of African American dramatic traditions from the eighteenth century through the Harlem Renaissance Black Arts Movement, to current postmodernism. Includes authors such as W.W. Brown, Zora N. Hurston, Amiri Baraka, Sonia Sanchez, August Wilson, Suzan-Lori Parks.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 337 The Civil Rights Movement in African American Literature Credits: 3

This course examines how African American literature shaped ideas about freedom, rights, citizenship and race in the civil rights movement. It draws on a variety of literary forms-speeches, essays, autobiographies, fiction, drama, poetry and film-to explore the movement's impact on communities and cultures as well as its various debates and competing visions.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 338 Women's Literature in Africa and the African Diaspora Credits: 3

This course is a comparative examination of the variety of literary works produced by women of African descent in the United States, the Caribbean and Africa. Students will explore the cross-cultural implications of texts in light of the intersections of gender, race and class.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 349 Symbols and Codes from the Diaspora: African American Visual Arts Survey Credits: 3

This course provides an examination of the theoretical and conceptual parameters of African and African American visual aesthetics. Through the writings of key scholars in African American aesthetics, students will study symbolic forms and patterns from various African cultures throughout the Diaspora and investigate formal image categories within African Diaspora visual culture.

Prerequisite: BLKS 201.

BLKS 351 African American Art History: Part I, 1600-1960 Credits: 3

This course presents a comprehensive survey of African American visual art from 1600 through 1960. Critical issues in early American art history highlight the expressions of African American artists and scholars. Students will investigate artistic expressions of this period.

Prerequisite: BLKS 201.

BLKS 403WI Writing for African American Studies Credits: 3

This course instructs students in how to produce advanced knowledge in the field of African American studies. It provides training in the construction of quality research papers for graduate, scholarly, and professional work and exposes students to a wide array of scholarly journals, databases, and authoritative resources in African American studies. Each time the courses taught, students will develop their research around a specific topic defined by the instructor.

BLKS 404 Research Seminar Credits: 3

This course introduces the logic, theory, and techniques of empirical research and applies them to African American Studies. It exposes students to a variety of research approaches in order to examine their utility for producing knowledge within the field.

Prerequisite: BLKS 201.

BLKS 410 African American Art History: Part II, 1960-Present Day Credits: 3

This course presents a survey of African American visual arts from 1960 to the present. Visual arts include new media and processes for Diaspora artists. Students investigate contemporary artists within African Diaspora visual culture.

Prerequisite: BLKS 201.

BLKS 458 Slave Narratives: Race, Gender, and Writing Freedom Credits: 3

A truly American, home grown genre and powerful force in the development of American political and social realities, the African American Slave Narrative is an established, recognized influence in the development of African American and American literary history. In this course you will have the opportunity to explore the historical trajectory of the Slave Narrative, looking at early formulations of its structure, purpose and conventions—especially in terms of gender and race, subsequent various permutations, and the eventual development of the Neo-slave Narrative as its resurrection, which adds to the complexity and theoretical impact of the literary autobiography from black perspectives.

Prerequisites: DISC 200 or ENGLISH 225.

BLKS 480 Special Topics/Seminar Credits: 1-3

In-depth exploration of special topics in Black Studies. When available, topics will be announced prior to registration. Course may be repeated for up to six credit hours.

Prerequisite: BLKS 201.

BLKS 490 Directed Study/Research Credits: 1-3

Individual research and learning projects supervised by a faculty member. Course may be repeated for up to six credit hours.

Prerequisite: BLKS 201.

BLKS 496 Internship in Black Studies Credits: 1-3

This Internship course presents an opportunity for undergraduate students to integrate their academic studies in the discipline of Black Studies with community service and engagement. As a student intern within a business or professional organization in the urban Metropolitan community, the student gains critical information about the processes and procedures of this business entity in relation to African American community members.

Prerequisite: Departmental consent.

BLKS 5502 Conceptual and Theoretical Foundations in African American Studies Credits: 3

This course will provide an in-depth examination of the theoretical and conceptual parameters of African American studies. We will study the evolution of the field, key scholars and creative intellectuals, and seminal categories of thought.

BLKS 5503 Writing for African American Studies Credits: 3

This course instructs students in how to produce advanced knowledge in the field of African American studies. It provides training in the construction of quality research papers for graduate, scholarly, and professional work and exposes students to a wide array of scholarly journals, databases, and authoritative resources in African American studies. Each time the course is taught, students will develop their research around a specific topic defined by the instructor.

BLKS 5504 Research Seminar Credits: 3

This course introduces the logic, theory, and techniques of empirical research and applies them to African American Studies. It exposes students to a variety of research approaches in order to examine their utility for producing knowledge within the field.

BLKS 5510 African American Art History: Part II, 1960-Present Day Credits: 3

This course presents a survey of African American visual arts from 1960 to the present. The Black Arts Movement, the Black Aesthetic, mainstream arts institutions and Black collectors are reviewed. Visual arts include new media and processes for Diaspora artists. Students investigate contemporary artists within African Diaspora visual culture.

BLKS 5520 Critical Health Issues in Black Communities Credits: 3

Beginning with the African context and the imposition of chattel slavery, this course examines social, cultural, and historical factors affecting the health status of African Americans to the present era.

BLKS 5521 The Black Family & Male-Female Relationships Credits: 3

The course examines the historical evolution and current status of the African American family in the United States. Utilizing the African experience as its starting point, the course conveys a broad understanding of the role of the family in human survival and progress. We investigate such issues as male-female relationships, sexual practices, dating, marriage, single parenting, the education issues, including institutionalized inequality, that affects the viability of today's African American family.

BLKS 5525 African American Business Development Credits: 3

This course investigates the various challenges to African American business development and entrepreneurship in the United States. We study the lives of successful, pioneering African American businesswomen and men in order to assess how they managed to transcend the barriers of racism and structured inequality. We explore why certain kinds of enterprises emerged among African Americans and why others did not, and we scrutinize the traditional business problems for African Americans of capitalization, distribution, market penetration, and wealth creation.

BLKS 5530 African American Migrations in Literature Credits: 3

The course examines representations of two different trajectories of migration in African American literature: African American journeys from the south to northern and mid-western regions of America, and concurrent migrations of Caribbean people to the US in the early twentieth century.

BLKS 5534 From Field Shout to Hip Hop: African American Poetic Traditions Credits: 3

This course examines the development of African American poetry from its early forms as field shouts, ballads, and blues to present forms including spoken word and hip hop. Includes authors such as Phillis Wheatley, Paul Lawrence Dunbar, Langston Hughes, Gwendolyn Brooks, Tupac Shakur, and Jessica Care Moore.

BLKS 5535 Stages toward Freedom: African American Dramatic Traditions Credits: 3

This course explores the development of African American dramatic traditions from the eighteenth century through the Harlem Renaissance, Black Arts Movement, to current postmodernism. Includes authors such as W.W. Brown, Zora N. Hurston, Amiri Baraka, Sonia Sanchez, August Wilson, Suzan-Lori Parks.

BLKS 5537 The Civil Rights Movement in African American Literature Credits: 3

This course examines how African American literature shaped ideas about freedom, rights, citizenship and race in the civil rights movement. It draws on a variety of literary forms-speeches, essays, autobiographies, fiction, drama, poetry and film-to explore the movement's impact on communities and cultures as well as its various debates and competing visions.

BLKS 5538 Women's Literature in Africa and the African Diaspora Credits: 3

This course is a comparative examination of the variety of literary works produced by women of African descent in the United States, the Caribbean and Africa. Students will explore the cross-cultural implications of texts in light of the intersections of gender, race and class.

BLKS 5539 Slave Narratives: Race, Gender and Writing Freedom Credits: 3

A truly American, home grown genre and powerful force in the development of American political and social realities, the African American Slave Narrative is an established, recognized influence in the development of African American and American literary history. You will have the opportunity to explore the historical trajectory of the Slave Narrative, looking at early formulations of its structure, purpose and conventions—especially in terms of gender and race, subsequent various permutations, and the eventual development of the Neo-slave Narrative as its resurrection, which adds to the complexity and theoretical impact of the literary autobiography from black perspectives.

BLKS 5549 Symbols and Codes from the Diaspora: African American Visual Arts Survey Credits: 3

This course provides an examination of the theoretical and conceptual parameters of African and African American visual aesthetics. Through the writings of key scholars in African American aesthetics, students will study symbolic forms and patterns from various African cultures throughout the Diaspora and investigate formal image categories within African Diaspora visual culture.

BLKS 5551 African American Art History: Part I, 1600-1960 Credits: 3

This course presents a comprehensive survey of African American visual art from 1600 through 1960. Critical issues in early American art history highlight the expressions of African American artists and scholars. The Negro Crafts Movement, New Negro Movement and Harlem Renaissance. Students will investigate artistic expressions of this period.

BLKS 5580 Special Topics/Seminar Credits: 1-3

In-depth exploration of special topics in Black Studies.

BLKS 5590 Directed Study/Research Credits: 1-6

Individual research and learning projects supervised by a faculty member.

BLKS 5596 Internship in Black Studies Credits: 1-6

This Internship course presents an opportunity for graduate students to integrate their academic studies in the discipline of Black Studies with community service and engagement. As a student intern within a business or professional organization in the urban Metropolitan community, the student gains critical information about the processes and procedures of this business entity in relation to African American community members.

BLKS 5599 Research Thesis Credits: 1-6

Individually directed research leading to preparation and completion of a thesis.

BLKS 5699 Research and Dissertation Credits: 1-12

Individually directed research leading to preparation and completion of a doctoral dissertation.

BLKS 5899 Required Graduate Enrollment Credit: 1

Enrollment required during the completion of a thesis/dissertation.

BLKS 5XX Grad Black Studies Elective Credits: 99

Transfer credit

BLKS 5XY Grad Black Studies Elective Credits: 99

Transfer credit

Bachelor of Liberal Arts: Black Studies Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Analyze the experience, contributions, and condition of African-descent peoples in the evolution and formation of American society and culture.
- Examine the active role of Africa and the African Diaspora in global society and human culture.
- Apply Black Studies curriculum as a critical tool to analyze the human experience generally.
- Compare the breadth and depth of perspectives that give respect and voice to the Black experience.
- Apply social science and humanistic approaches to examine human society and culture.
- Demonstrate professional written and oral communication skills.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course		
ACT Math Subscore of 28 or higher; or SAT Math Subscore of 660 or higher		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above); Satisfied in program requirements below		
	Laboratory Science Experience	1
Total Credits		1

B.L.A. Requirements with Black Studies Emphasis

Code	Title	Credits
Humanities Area		18
Natural Sciences Area		18
Social Sciences Area		18
Total Credits		54

The Emphasis Area Requirements outlined below may contribute to completion of BLA distribution requirements above.

Black Studies Emphasis Area Requirements

The emphasis area in Black Studies assists undergraduate students who want to obtain graduate and professional degrees in a variety of fields (master's degrees, Ph.D's, law, public health, counseling, social work, educational administration, business, journalism, social work, medicine, library or information science, public policy, public administration, and so on) where specialized knowledge of the broad-based experiences and perspectives of African descent peoples would be useful. At the same time, students learn skill sets that are applicable to a wide variety of circumstances, which prepare them for entry-level positions in private industry, government, and public or non-profit agencies.

Students must take **30 hours of Black Studies courses** to complete the emphasis area in Black Studies under the Bachelor of Liberal Arts Degree. A minimum of 24 hours of Black Studies courses must be at the 300 or 400 level or above. A minimum of 24 credit hours in Black Studies must be earned at UMKC.

Students declaring the Black Studies Emphasis under the Bachelor of Liberal Arts (p. 867) (B.L.A.) must meet with the Black Studies undergraduate advisor (<http://cas.umkc.edu/blackstudies/faculty.asp>) to begin a plan of study prior to enrolling in courses.

Twelve of the 30 hours of coursework must include the **Core Black Studies** courses:

Code	Title	Credits
BLKS 201	Global Systems and the Origins of Black American Culture and Institutions	3
BLKS 302	Conceptual and Theoretical Foundations in African American Studies	3
BLKS 403WI	Writing for African American Studies	3
BLKS 404	Research Seminar	3
BLKS 490 or BLKS 496	Directed Study/Research Internship in Black Studies	3
Interest Area Electives		15
Total Credits		30

Beyond the 15 hours of required core courses, students may pursue either a **Humanities interest area** in Literature and Culture or a **Social Science interest area** in Institutions and Social Process (within the field of Black Studies), two areas already existing as divisions in the B.L.A. degree.

Humanities Interest Area—Literature and Culture (15 credits):

- Under this interest area the Black Studies emphasis will require four courses (12 credits) from the humanities interest area and one course (3 credits) from the social science interest area.

Social Science Interest Area—Institutions and Social Process (15 credits):

- Under this interest area the Black Studies emphasis will require four courses (12 credits) from the social science interest area and one course (3 credits) from the humanities interest area.

Examples of elective undergraduate courses in Black Studies are:

Code	Title	Credits
BLKS 315	Arts of African and New World Cultures (Humanities Focus)	3
BLKS 320	Critical Health Issues in Black Communities (Social Science Focus)	3
BLKS 321	The Black Family and Male-Female Relationships (Social Science Focus)	3
BLKS 331	African American Literature I (Humanities Focus)	3
BLKS 332WI	African American Novel (Humanities Focus)	3
BLKS 333	African American Literature II (Humanities Focus)	3
BLKS 325	African American Business Development (Social Science Focus)	3
BLKS 334	From Field Shout to Hip Hop: African American Poetic Traditions (Humanities Focus)	3
BLKS 335	Stages Toward Freedom: African American Dramatic Traditions (Humanities Focus)	3
BLKS 337	The Civil Rights Movement in African American Literature (Humanities Focus)	3
BLKS 338	Women's Literature in Africa and the African Diaspora (Humanities Focus)	3
BLKS 349	Symbols and Codes from the Diaspora: African American Visual Arts Survey (Humanities Focus)	3
BLKS 351	African American Art History: Part I, 1600-1960 (Humanities Focus)	3
BLKS 410	African American Art History: Part II, 1960-Present Day (Humanities Focus)	3
BLKS 496	Internship in Black Studies (Designate Focus with Adviser)	1-3

Examples of **Black Studies, Special Topics** BLKS 480 courses with a **Humanities Focus** are:

- African American Experience in Literature (1773-1960)
- African American Migrations in Literature
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of **Black Studies, Special Topics** BLKS 480 courses with a **Social Science Focus** are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining **3 hours of coursework** as an **approved community engagement project/research** under **Directed Study**, BLKS 490 or through **Internship**, BLKS 496. Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

Students cannot earn credit toward the Emphasis Area in Black Studies with a grade below a "C" in a Black Studies course.

To graduate with an Emphasis Area in Black Studies, students must achieve a minimum grade-point average of 2.0 in all courses accepted toward the emphasis area.

For more information on the Black Studies Program, please visit <http://cas.umkc.edu/blackstudies/>.

Code	Title	Credits

Minimum GPA: 2.0		
Total Credit Hours: 120		

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Graduate Certificate in Black Studies

Student Learning Outcomes

Students graduating from this program will:

- Demonstrate knowledge of the historical development of African American studies as an academic field.
- Be able to review and evaluate the work of key scholars in the field of African American studies.
- Demonstrate the ability to apply foundational ideas in African American studies in the interpretation of historical, political and social phenomena.

Graduate Certificate in Black Studies:

The Black Studies Program at the University of Missouri-Kansas City offers a graduate certificate in Black Studies. The certificate permits students to augment their graduate and professional work with specialized training in Black Studies.

Black Studies is a liberal arts specialty that typically draws from multiple fields of inquiry. The graduate certificate in Black Studies advances students' awareness of the multidisciplinary and trans-disciplinary character of the field, key theoretical issues that form the parameters of this specialty, and important tools for producing knowledge in Black Studies. The graduate certificate familiarizes students with the expansive character of existing knowledge in Black Studies and shows how this knowledge can be used to understand the human experience generally.

The graduate certificate offers a coherent and focused course of study for any graduate student. The certificate also prepares students to seek advanced degrees with an emphasis in Black Studies if they choose to do so. *Applicants seeking to enroll in the graduate certificate may do so as a free-standing option or within a UMKC degree program.*

Admission Criteria:

To be admitted to the graduate certificate program in Black Studies, students must be admitted as a graduate student to the University of Missouri-Kansas City and have an overall grade-point average of 3.25. They must have had an acceptable introductory course in the field of Black Studies (which may come from programs or departments of Black Studies, African American Studies, African Studies, Pan African Studies, and the like) from an accredited college or university.

If a student has not had an introductory course in the field, he or she must pass BLKS 201, with a grade of C or better.

Applicants whose undergraduate GPA is less than 3.25 may be considered for admission upon petition to the **Graduate Admission Committee** for the Black Studies Program.

Prospective students applying for admission must:

1. Complete the online UMKC Graduate Application.
2. Submit official transcripts from an accredited institution showing the awarding of an undergraduate degree. Transcripts are considered official if they are received in a sealed envelope from the institution or sent electronically to the UMKC Office of Admissions (admit@umkc.edu).
3. Provide an Academic Writing Sample.
4. Provide three letters of recommendation to the **Black Studies Graduate Admission Committee** at the **Black Studies Program, 5305 Holmes Road, Kansas City, Missouri 64110**

The **priority deadline** to apply for **Fall Semester** is **March 1**. The **final deadline** to apply for **Fall semester** is **August 1**. The **deadline** to apply for **Spring semester** is **November 1**.

Program Requirements:

To earn the graduate certificate in Black Studies students must complete 18 hours of graduate course work in Black Studies, which does not include BLKS 201. At least 12 hours must be at or above the 5500-level. Students must maintain a 3.0 grade-point average while enrolled. The requirements for the certificate must be completed within two (2) years. Students should seek advising from the Black Studies Program graduate advisor (<http://cas.umkc.edu/blackstudies/faculty.asp>) prior to beginning a *Plan of Study* and to make sure they have met the requirements for the certificate.

The 18 hours of course work must include the three core courses:

Code	Title	Credits
BLKS 5502	Conceptual and Theoretical Foundations in African American Studies (must be taken during the first year)	3
BLKS 5503	Writing for African American Studies (must be taken during the first year)	3
BLKS 5504	Research Seminar (must be taken during the final year)	3

Beyond the three required core courses, students must complete **6 hours of electives** in Black Studies, which includes any graduate level course with a Black Studies prefix (BLKS). One elective should be taken in the Humanities Focus and the second in the Social Science Focus.

Examples of elective graduate courses in Black Studies are:

Code	Title	Credits
BLKS 5510	African American Art History: Part II, 1960-Present Day (Humanities Focus)	3
BLKS 5520	Critical Health Issues in Black Communities (Social Science Focus)	3
BLKS 5521	The Black Family & Male-Female Relationships (Social Science Focus)	3
BLKS 5525	African American Business Development (Social Science Focus)	3
BLKS 5530	African American Migrations in Literature (Humanities Focus)	3

BLKS 5534	From Field Shout to Hip Hop: African American Poetic Traditions (Humanities Focus)	3
BLKS 5535	Stages toward Freedom: African American Dramatic Traditions (Humanities Focus)	3
BLKS 5537	The Civil Rights Movement in African American Literature (Humanities Focus)	3
BLKS 5538	Women's Literature in Africa and the African Diaspora (Humanities Focus)	3
BLKS 5539	Slave Narratives: Race, Gender and Writing Freedom (Humanities Focus)	3
BLKS 5549	Symbols and Codes from the Diaspora: African American Visual Arts Survey (Humanities Focus)	3
BLKS 5551	African American Art History: Part I, 1600-1960 (Humanities Focus)	3

Electives may also be **Special Topics courses** (BLKS 5580).

Examples of **Special Topics** (BLKS 5580) courses with a **Humanities Focus** are:

- African American Experience in Literature (1773-1960)
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of **Special Topics** (BLKS 5580) courses with a **Social Science Focus** are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the **remaining 3 hours** as an **approved community engagement project/research** under **Directed Study** (BLKS 5590) or **Internship** (BLKS 5596). Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

Master of Arts in Liberal Studies: Black Studies Interest Area

Admission Requirements:

Students may be admitted to the Black Studies Interest Area if they have a baccalaureate degree in Black Studies or an equivalent degree from an accredited college or university with an overall grade-point average of 3.25. Applicants whose undergraduate GPA is less than 3.25 may be considered for admission upon petition to the **Graduate Admission Committee** for the Black Studies Program.

Students who have a baccalaureate degree with an overall GPA of 3.25 or better and who did not major in Black Studies may be conditionally admitted to the Program upon consultation with the program's graduate advisor (<http://cas.umkc.edu/blackstudies/faculty.asp>) and enrollment into the Black Studies introductory course, BLKS 201.

Upon satisfactory completion of the above course, the student must receive final approval from the Black Studies Director for full admission to the Interest Area.

Prospective students applying for admission must submit, in addition to the UMKC application, the following documents:

1. A "Statement of Purpose" in the form of a personal essay of approximately 1,000 words outlining the focus area the applicant wishes to pursue. The statement should include the student's reasons for applying to the Program along with their academic plans and goals.
2. An Academic Writing Sample.
3. Three (3) Letters of Recommendation.
4. Official transcripts from an accredited institution showing the awarding of an undergraduate degree. Transcripts are considered official if they are received in a sealed envelope from the institution or sent electronically to the UMKC Office of Admissions (admit@umkc.edu).

These documents (except the UMKC application) should be sent directly to the Master of Arts in Liberal Studies Program. The documents can be sent in print form to: **MALS Program, 106 Cockefair Hall, UMKC, 5100 Rockhill Road, Kansas City, MO 64110.**

Electronic copies may also be submitted as either Word or PDF attachments to an email to mals@umkc.edu.

Applications that indicate Black Studies as the focus area will be forwarded to the respective program for review by the Graduate Admission Committee for Black Studies.

Prior to submitting an application, prospective students should speak with the Black Studies graduate advisor (<http://cas.umkc.edu/blackstudies/faculty.asp>)

The **priority deadline** to apply for **Fall Semester** is **March 1**. The **final deadline** to apply for **Fall semester** is **August 1**. The **deadline** to apply for **Spring semester** is **November 1**.

Student Learning Outcomes:

1. Demonstrate knowledge of the historical development of African American studies as an academic field.
2. Be able to review and evaluate the work of key scholars in the field of African American studies.
3. Demonstrate the ability to apply foundational ideas in African American studies in the interpretation of historical, political and social phenomena.

Program Requirements:

The degree is a 36 credit hour program. Students who elect to participate in the Black Studies Interest area should begin by enrolling in the Black Studies core courses, BLKS 5502 and BLKS 5503 (fulfills MALS introductory seminar requirement) and during their last year of the program, students should enroll in BLKS 5504 (fulfills MALS capstone seminar requirement).

Thesis Option

A written thesis is not required, however students who have a particular interest that lends itself to detailed research are especially encouraged to consider the thesis option. Students who wish to complete a thesis project may apply three credit hours from BLKS 5599 toward their degree requirements. With the thesis option, the students must select a Black Studies faculty member as their thesis adviser who will direct the plan of study and research.

Plan of Study

Graduate students should complete the three core courses listed below. *Please note, that those students who may have taken undergraduate versions of the core courses must complete them at the graduate level.*

The three core courses are:

Code	Title	Credits
BLKS 5502	Conceptual and Theoretical Foundations in African American Studies (must be taken during the first year)	3
BLKS 5503	Writing for African American Studies (must be taken during the first year; fulfills MALS introductory seminar requirement)	3
BLKS 5504	Research Seminar (must be taken during the final year; fulfills MALS capstone seminar requirement)	3

Students should work with the Black Studies graduate advisor (<http://cas.umkc.edu/blackstudies/faculty.asp>), prior to the start of each semester, in order to review their **plan of study worksheet** and make sure they are accurately fulfilling the additional **27 hours of elective course work** that is relevant to the field. Recommended courses include all graduate-level courses with a Black Studies prefix and other courses approved by the Director of the Black Studies Program. Students are encouraged to take elective courses with both humanities and social science focuses.

Examples of elective graduate courses in Black Studies are:

Code	Title	Credits
BLKS 5510	African American Art History: Part II, 1960-Present Day (Humanities Focus)	3
BLKS 5520	Critical Health Issues in Black Communities (Social Science Focus)	3
BLKS 5521	The Black Family & Male-Female Relationships (Social Science Focus)	3
BLKS 5525	African American Business Development (Social Science Focus)	3
BLKS 5530	African American Migrations in Literature (Humanities Focus)	3
BLKS 5534	From Field Shout to Hip Hop: African American Poetic Traditions (Humanities Focus)	3
BLKS 5535	Stages toward Freedom: African American Dramatic Traditions (Humanities Focus)	3
BLKS 5537	The Civil Rights Movement in African American Literature (Humanities Focus)	3
BLKS 5538	Women's Literature in Africa and the African Diaspora (Humanities Focus)	3
BLKS 5539	Slave Narratives: Race, Gender and Writing Freedom (Humanities Focus)	3
BLKS 5549	Symbols and Codes from the Diaspora: African American Visual Arts Survey (Humanities Focus)	3
BLKS 5551	African American Art History: Part I, 1600-1960 (Humanities Focus)	3

Electives may also be Special Topics (BLKS 5580) or Research and Thesis (BLKS 5599).

Examples of **Special Topics** courses with a **Humanities Focus** are:

- African American Experience in Literature (1773-1960)
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of **Special Topics** courses with a **Social Science Focus** are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining **3 hours of course work** as an **approved community engagement project/research** under the **Directed Study** (BLKS 5590) or through **Internship** (BLKS 5596). Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

For more information on the **Master of Arts in Liberal Studies Degree**, please click here (p. 871).

Minor in Black Studies

Student Learning Outcomes

Students graduating from this program will:

- Construct knowledge based timeline which outlines evidence of seminal African American contributions to American history and American society.
- Interpret and compare current events and other contexts of human struggle based on their knowledge of historical global systems within the paper collected from core courses.
- Examine the origins and historical experience of Blacks in the Americas from the perspective of several African American scholars.
- Evaluate seminal ideas through researching the works of major scholars in the various disciplines encompassing the canon of African American Studies.
- Create well-written critical responses to articulate and communicate their analyses of course lectures and activities.

Program Requirements:

Students who elect to earn a minor in Black Studies must meet with the Black Studies undergraduate advisor (<http://cas.umkc.edu/blackstudies/faculty.asp>) to begin a plan of study prior to enrolling in courses toward the minor. There are 18 credit hours of prescribed coursework, of which nine hours must be at the 300- or 400-levels, and a minimum of nine hours must be earned at UMKC.

Code	Title	Credits
Required Coursework		
BLKS 201	Global Systems and the Origins of Black American Culture and Institutions	3
BLKS 302	Conceptual and Theoretical Foundations in African American Studies	3
BLKS 403WI	Writing for African American Studies	3
BLKS 404	Research Seminar	3
Electives		
BLKS 315	Arts of African and New World Cultures (Humanities Focus)	3
BLKS 320	Critical Health Issues in Black Communities (Social Science Focus)	
BLKS 321	The Black Family and Male-Female Relationships (Social Science Focus)	
BLKS 331	African American Literature I (Humanities Focus)	
BLKS 332WI	African American Novel (Humanities Focus)	
BLKS 325	African American Business Development (Social Science Focus)	
BLKS 333	African American Literature II (Humanities Focus)	
BLKS 334	From Field Shout to Hip Hop: African American Poetic Traditions (Humanities Focus)	
BLKS 335	Stages Toward Freedom: African American Dramatic Traditions (Humanities Focus)	
BLKS 337	The Civil Rights Movement in African American Literature (Humanities Focus)	
BLKS 338	Women's Literature in Africa and the African Diaspora (Humanities Focus)	

BLKS 349	Symbols and Codes from the Diaspora: African American Visual Arts Survey (Humanities Focus)	
BLKS 351	African American Art History: Part I, 1600-1960 (Humanities Focus)	
BLKS 410	African American Art History: Part II, 1960-Present Day (Humanities Focus)	
Directed Studies or Internship		3
BLKS 496	Internship in Black Studies	
or BLKS 490	Directed Study/Research	
Total Credits		18

Examples of **Black Studies, Special Topics** (BLKS 480) courses with a **Humanities Focus** are:

- African American Experience in Literature (1773-1960)
- African American Migrations in Literature
- Contemporary African American Literature
- Film Adaptations in African American Literary Text
- Introduction to Caribbean Literature and Film

Examples of **Black Studies, Special Topics** (BLKS 480) courses with a **Social Science Focus** are:

- From Vaudeville to Rhythm and Blues
- Hip-Hop's Influence on African Americans and American Society
- Kansas City and the Black Experience
- Race, Class and Justice
- Racial and Ethnic Relations

Students are strongly encouraged to take the remaining **3 hours of coursework** as an **approved community engagement project/research** under **Directed Study**, BLKS 490 or through **Internship**, BLKS 496. Because faculty consent is required in order to enroll in the Directed Study or Internship options, students should begin building an academic relationship with the Black Studies faculty member whose academic background can best guide them.

Students wishing to graduate with a Minor in Black Studies must achieve a minimum grade-point average of 2.0 (cannot be below a "C") in Black Studies courses.

University of Missouri - Kansas City

Classical and Ancient Studies Program

Cockefair Hall 106

5121 Rockhill Road

Kansas City, MO 64110-2499

The field of Classics is the original interdisciplinary university field of study, illuminating the foundations of Western experience through the study of language, literature, religion, philosophy, art, archaeology and other subjects. Modern Classics programs continue to focus on the ancient Mediterranean world, particularly Greek and Roman culture, but also encompass the study of non-Western cultures and post-Greco-Roman societies. The broad scope and intellectual rigor of the Classical and Ancient Studies major and minor options help students to understand the contemporary world and to prepare for a wide range of careers.

The Classical and Ancient Studies program provides several options for the study of history, literature, art, culture, and language of the Ancient Mediterranean world. Students can major in English and complete the track in Classical, Medieval, and Early Modern Literature; major in History with a concentration in Antiquity and Medieval history; major in Foreign Languages with an emphasis in Classical Language and Cultures; or pursue a minor in Classical and Ancient Studies in conjunction with any of the degrees above or with any other degree program.

Faculty

Faculty:

Jeff Rydberg-Cox, Ph.D., Professor, Department of English; Classical and Ancient Studies Program Director

Elpida Scott, M.A., Instructor, Classical and Ancient Studies Program

Cynthia Jones, Ph.D., Instructor, Classical and Ancient Studies Program

James Falls, Ph.D., Associate Professor Emeritus, Department of History

Affiliated Faculty:

Virginia Blanton, Ph.D., Chair, Department of English

Robert Cohon, Ph.D., Research Associate Professor, Department of Art and Art History; Curator of Ancient Art, Nelson-Atkins Museum of Art

Laurie Ellinghausen, Ph.D., Associate Professor, Department of English

Linda Mitchell, Ph.D., Martha Jane Phillips Starr/Missouri Distinguished Professor of Women's and Gender Studies

Tina Niemi, Ph.D., Professor, Department of Geosciences

Ann Raab, Ph.D., Adjunct Lecturer

L. Mark Raab, Ph.D., Adjunct Lecturer

Massimiliano Vitiello, Ph.D., Assistant Professor, Department of History

Undergraduate

Undergraduate Degrees That Offer a Classics Emphasis:

The Classical and Ancient Studies program provides several options for the study of history, literature, art, culture, and language of the Ancient Mediterranean world. Students can major in English and complete the track in Classical, Medieval, and Early Modern Literature; major in History with a concentration in Antiquity and Medieval history; major in Foreign Languages with an emphasis in Classical Languages and Cultures; or pursue a minor in Classical and Ancient Studies in conjunction with any of the degrees above or with any other degree program.

- English Department: Emphasis in Classical, Medieval, and Early Modern Literature (<http://catalog.umkc.edu/colleges-schools/arts-sciences/academic-departments-programs/classical-ancient-studies-program/english-department-emphasis-in-classical-medieval-early-modern-literature/>)
- Foreign Languages and Literatures Department: Emphasis in Greek and Latin (p. 810)
- History Department: Antiquity and Medieval History Concentration (p. 850)
- Minor in Classical and Ancient Studies (p. 617)

Classics Courses

CLASSICS 119 Myth and Literature Credits: 3

A study of classical myth including readings from Homer to Ovid, analysis of selected myths in later literature, art, and music, and a study of contemporary definitions and approaches to myth.

CLASSICS 119 - MOTR LITR 201: Mythology

CLASSICS 131 Seven Wonders and Beyond: Archaeological Wonders of the Ancient World Credits: 3

This is a survey of the archaeology of Egypt and the Near East, the Aegean cultures of Crete and Mycenae, and the world of classical Greece and Italy. In addition, archaeological wonders of Europe and the New World will be discussed.

CLASSICS 210 Foundations Of Ancient World Literature I Credits: 3

This course studies ancient world literature such as The Descent of Inanna, Egyptian love poetry, Hebrew Scriptures, the epics of Homer and Virgil, the Analects of Confucius, and the wisdom of Laozi. The course also considers ancient creation epics such as the cosmic battle between Marduk and Tiamat, the Metamorphosis of Ovid, and the great Indian epic The Ramayana.

CLASSICS 210 - MOTR LITR 200A: World Lit-Beg w/Antiquity End 1660

CLASSICS 300 Special Topics Credits: 1-3

A course about a selected field, genre or individual figure from the ancient world that is not part of the program's regular offerings. May be repeated for credit.

CLASSICS 300CY Ancient World in Cinema Credits: 3

This course will explore the tradition of depicting the ancient Mediterranean world in film from the early silent era to the present. Topics to be covered include the ways that filmmakers respond to literary and historical sources from the ancient world, interact with the artistic tradition of films about the ancient world, the relation of these films to other works by the same creative personnel (directors, actors, writers, producers, etc.), and the political and cultural contexts in which the films were released.

CLASSICS 300CZ Archaeology Of Ancient Disasters Credits: 3

Remarkable human achievements are revealed by archaeological research, but the human past was frequently shaped as well by disasters of natural and human origin. Drawing on case studies that include data from the geosciences, archaeological excavations, and historical sources, this class examines how earth processes, the biosphere, and human cultural behavior were all sources of catastrophe. The study of ancient disasters not only gives us a wider understanding of human history, it may offer lessons for coping with future catastrophes.

CLASSICS 340AWI Classical Literature In Translation Credits: 3

This course will focus on representative authors and works from the Greek and Roman Classical periods, such as Homer, Sophocles, Euripides, Aeschylus, Aristophanes, Plato, the Greek Lyrics, Virgil, Horace, Juvenal, Ovid and Plautus.

CLASSICS 369 Introduction to Prehistoric and Classical Archaeology Credits: 3

An introduction to archaeological research methods that traces human origins and cultural development from the earliest fossil evidence to the threshold of written history and civilization. This class emphasizes the evolutionary and cultural developments that allowed our ancestors to colonize the continents and develop lifeways involving hunting and gathering, farming and urbanism.

CLASSICS 384 Frauds, Myths and Mysteries in Archaeology Credits: 3

Using archaeological hoaxes, myths, and mysteries from around the world – including local and regional examples - students will use science to make good judgments about information they receive in today's world. This course will demonstrate how science approaches questions about human antiquity and will show where pseudoscience falls short. (Lecture/on-line asynchronous).

CLASSICS 391WI Ancient Greek and Roman Medicine Credits: 3

This course explores the practice of medicine in the Ancient Greek and Roman Worlds from 800 BCE until 300 CE. Students will read primary sources in English and will also be introduced to Greek and Latin grammar and medical vocabulary so that they can understand and study essential terms from the history of medicine in their original language.

CLASSICS 471 Ancient Greece Credits: 3

This course begins with a survey of the pre-classical Minoan and Mycenaean civilizations and then describes the rise of prominent Greek city-states (with particular emphasis upon the evolution of Sparta and the political, social and cultural contributions of Athens). The course concludes with the rise of Macedon and Alexander's conquests and significance.

CLASSICS 499 Senior Tutorial Credits: 3

A three-hour comprehensive reading and research tutorial leading to the writing of a senior paper. It consist of tutorial sessions and independent research leading to a major paper using original source materials.

Greek Courses

GREEK 110 Elementary Ancient Greek I Credits: 3

The goal of this course is an ability to read classical Greek. The student will be introduced to the fundamentals of grammar and the basic vocabulary of the language and will do exercises in the reading and writing of sentences. Continuous passages of Greek will be presented by the end of the semester.

GREEK 110 - MOTR LANG 105: Foreign Language I

**GREEK 120 Elementary Ancient Greek II Credits: 3**

A continuation of the study of the grammar and vocabulary of classical Greek, with an increasing emphasis on developing skills in translation. By the middle of the semester students will be introduced to selections from Plato, Herodotus or Homer.

Prerequisites: Greek 110 or MOTR Equivalent.

GREEK 120 - MOTR LANG 106: Foreign Language II

**GREEK 211 Intermediate Ancient Greek I Credits: 3**

Instruction of Greek on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses. May not be repeated for credit.

Prerequisites: Greek 120 or MOTR Equivalent.

GREEK 221 Intermediate Ancient Greek II Credits: 3

Continuation of GREEK 211. May not be repeated for credit.

Prerequisites: Greek 211 or MOTR Equivalent.

GREEK 301 Herodotus Credits: 3

Selected readings in Ancient Greek from Herodotus' Histories.

Prerequisites: GREEK 211.

GREEK 302 Homer Credits: 3

Selected readings in Ancient Greek from Homer's Iliad or Odyssey.

Prerequisites: GREEK 211.

GREEK 310 Selected Readings in Ancient Greek and Rhetoric Credits: 3

Selected readings in Ancient Greek from works by Plato, Aristotle, or the Attic Orators.

Prerequisites: GREEK 211.

GREEK 311 Drama and Lyric Poetry Credits: 3

Selected readings in Ancient Greek from plays by Aeschylus, Sophocles, Euripides, or the Lyric Poets.

Prerequisites: GREEK 211.

GREEK 312 Greek Narrative Prose Credits: 3

Selected readings in Ancient Greek from Herodotus, Thucydides, Xenophon, Lucian, etc.

Prerequisites: GREEK 211.

GREEK 490 Special Readings in Greek Credits: 1-3

Intensive readings in period or genre or literary figure to be selected by the student in consultation with the instructor. Available only to advanced Greek students.

Latin Courses

LATIN 110 Elementary Latin I Credits: 3

Elementary Latin I introduces students with no previous Latin experience to the fundamentals of Latin grammar. The course is continued with LATIN 120.

LATIN 110 - MOTR LANG 105: Foreign Language I

LATIN 120 Elementary Latin II Credits: 3

Elementary Latin II is a continuation of LATIN 110. This course focuses on the fundamentals of Latin grammar and morphology, and students will read longer Latin passages.

Prerequisites: LATIN 110 or MOTR Equivalent.

LATIN 120 - MOTR LANG 106: Foreign Language II

LATIN 211 Second Year Latin Readings I Credits: 3

This course introduces students to extended readings from Roman authors in Latin. Students' knowledge of basic Latin grammar, vocabulary, and morphology will be reviewed and reinforced.

Prerequisites: LATIN 120 or MOTR Equivalent.

LATIN 221 Second Year Latin Readings II Credits: 3

Prerequisites: LATIN 211 or MOTR Equivalent.

LATIN 280 Special Intermediate Latin Topics I Credits: 2-4

Instruction of Latin on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses. May not be repeated for credit.

Prerequisites: LATIN 120.

LATIN 290 Special Intermediate Latin Topics II Credits: 2-4

Continuation of LATIN 280. May not be repeated for credit.

LATIN 301 Virgil Credits: 3

Selected readings in Classical Latin from the works of Virgil.

Prerequisites: LATIN 211.

LATIN 302 Ovid Credits: 3

Selected readings in Classical Latin from Ovid's Metamorphoses.

Prerequisites: LATIN 211.

LATIN 314 Lyric and Elegiac Poetry Credits: 3

Selected readings in Classical Latin from Catullus, Horace, Martial, Ovid, etc.

Prerequisites: LATIN 211.

LATIN 490 Special Readings In Latin Credits: 1-3

Intensive readings in period or genre or literary figure to be selected by the student in consultation with the instructor. Available only to advanced Latin students.

Foreign Languages and Literatures Department: Emphasis in Greek and Latin University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
	Writing Intensive Course (300-level or above)	3
	Foreign Language (3rd Semester Level)	9
	Laboratory Science Experience	1
Total Credits		13

If you would like to focus on the study of ancient languages, you can pursue a degree in Foreign Languages with an emphasis in Greek and Latin. This track involves a core set of language courses that allow you to become a proficient reader of Ancient Greek and Latin texts. This language core is supplemented with electives offered by the Classics Program, the History Department, the English Department, the Art and Art History Department, and the Philosophy Department. These electives are taught using translated texts, and these courses allow you to tailor your program of study to your specific interests in history, art or literature. In addition to these electives, students must also complete a capstone course. For more information, see the relevant catalog section for the Foreign Languages and Literatures Department (p. 810).

History Department: Antiquity and Medieval History Concentration

Students who are interested in ancient and medieval history can pursue a concentration in Antiquity and Medieval history as part of a history major. The history major includes two foundation courses that survey world history, four courses in the Classics area of concentration, four courses in areas outside the area of concentration, and a two-semester final research sequence: History 301WI "Historiography and Method," and History 498WI "Senior Capstone Seminar." For the Antiquity and Medieval history concentration, students take four courses in Ancient or Medieval History. Two of these courses can be taken in departments other than history including Classics, English, Art History, Philosophy, and Geosciences. For more information, see the relevant catalog section for the History Department (p. 850).

Minor in Classical and Ancient Studies

Student Learning Outcomes

Students graduating from this program will:

- Knowledge of Historical, Literary, Artistic, and Cultural Contexts Students will be able to reproduce in broad outline the main periods of Ancient Mediterranean history, along with significant events and/or developments in each period. Students will also be able to demonstrate their

awareness of basic literary, philosophical, social, and cultural developments that affect the interpretation of texts, artifacts, and historical events from cultures and across the Mediterranean.

- **Understanding of the Reception of the Ancient World** Students will be able to demonstrate knowledge of at least one of the ways in which material from the Ancient Mediterranean World has been received and integrated into other later artistic, literary, historic, or cultural contexts.
- **Proficiency With Primary Sources** Students will be able to identify and articulate scholarly problems based on interaction with primary source materials from the ancient world. Students who elect to take Greek or Latin will demonstrate further proficiency working with primary source materials in the original languages.
- **Proficiency in Research Methods** Students will be able to analyze secondary source materials and describe current scholarly conversations about the ancient world.
- **Communication of Knowledge** Students will be able to communicate results of their work effectively to others in expository prose, oral presentations, or electronic media such as films or web pages.

Students can pursue a minor in Classical and Ancient Studies in conjunction with any degree program. The minor is an 18 hour program that allows students the flexibility to pursue their individual interests in the ancient world. To complete the minor students take 18 hours of credit selected in consultation with program advisor. Nine of these hours must be at or above the 300-level. A maximum of six credit hours can count towards both a major and the Classical and Ancient Studies minor.

Department Chair

Ye Wang

Professors Emeriti:

Joan E. Aitken, Gregory Black, Michael Neer, Robert Unger

Associate Professor Emeriti:

Gregory Gutenko, Larry G. Ehrlich, G. Thomas Poe

Professors:

Lyn Elliot (Undergraduate Advisor for Film and Media Arts)

Associate Professors:

Caitlin Horsmon (Undergraduate Advisor for Film and Media Arts), Jason Martin, Peter Morello, Ye Wang

Associate Teaching Professors:

Linda Kurz (Undergraduate Advisor), Judith K. McCormick (Undergraduate Advisor), Mitchell Brian, Steve Kraske, Steven Melling

Assistant Teaching Professors:

Angela Elam

Lecturers:

Jean Dufresne, Michael Schaefer

The department offers courses leading to a Bachelor of Arts in Communication Studies and a Bachelor of Arts in Film & Media Arts.

The Bachelor of Arts in Communication Studies degree offers three areas of emphasis:

- Interpersonal and Public Communication
- Journalism and Mass Communication
- Film and Media Studies

Department Description

The Department of Communication Studies produces students who think creatively and critically and who have developed oral, written, and visual communication skills essential to professional and personal collaboration, media production and analysis, cultural awareness, and community engagement. The Department of Communication Studies offers a variety of program areas, including interpersonal communication, public communication, print and digital journalism, advertising, public relations, media theory and history, as well as radio, digital media, and film/video production.

Students graduating from the Department of Communication Studies Will:

- Demonstrate proficiency in formal writing, oral presentation and visual communication.
- Create messages and media works appropriate to their audience, purpose and context.
- Explain, synthesize and apply Communication research methods, theories, perspectives, principles and concepts.
- Articulate the connection between communication and culture.

The **Bachelor of Arts in Film & Media Arts** provides rigorous training in media production focused on individual creative development and cinematic storytelling. The degree integrates the study of film history with hands-on production in a variety of filmmaking practices including narrative, documentary, experimental and animation.

The **Interpersonal and Public Communication** emphasis offers study in the areas of public address and rhetoric, interpersonal and intercultural communication, organizational communication and areas associated with human communication behavior including advertising, public relations and strategic communication.

The **Journalism and Mass Communication** emphasis offers concentrated study in print and electronic journalism, radio, television, advertising and public relations.

The **Film and Media Studies** emphasis provides an interdisciplinary study of film and media, including the history and theory of global cinema culture, critical media studies and media production.

UMKC Debate

The UMKC debate program operates from the Department of Communication Studies. UMKC offers a great blend of quality education, extremely competitive debate program and a wonderful city to spend your college years in.

- UMKC Debate Team is open to all UMKC students including those with no previous debate experience. - Interested students can email the Director of Debate: vegam@umkc.edu.

- **Travel Schedule:** UMKC has a full travel schedule and travels the NDT/CEDA policy debate circuit. This includes tournaments throughout the region and across the country.
- **Squad Size:** UMKC has a medium-sized squad which has the benefit of allowing all debaters the ability to go to many tournaments throughout the year. Each debater will have the chance to flourish at regional and national tournaments.
- **Coaching:** UMKC currently has an excellent coaching staff. Our excellent student-to-coach ratio guarantees hands-on coaching and extensive focus for each debater.

Special Laboratories

The department has media classrooms and production spaces for student projects that include a video production studio soundstage with lighting grid and green-screen, sound recording facility with radio console and podcast capabilities, a multi-camera digital broadcast studio outfitted for newscast, interviews & webinars, in addition to iMac based post production media labs running the latest versions of video, audio and digital imaging software. An equipment check-out lab for film and journalism students, maintains an extensive inventory of portable production equipment including cameras, audio equipment, lights, tablets, stationary and mobile camera support. Our facilities foster the ability to light, shoot, record and edit professionally, allowing the students to tell compelling stories that make an impact on audiences.

K-ROO Radio is a student-run multimedia organization that aims to provide students, faculty, staff, and the Kansas City community with quality entertainment and information about UMKC events and organizations. Through Internet radio and live events, www.k-roo.org (<http://www.k-roo.org/>) provides a platform to reach a worldwide audience to promote and support student endeavors, as well as create programming in music, sports, news, and spoken word/comedy/drama productions. K-ROO Radio, which reports to the Office of Student Involvement, is open to all students of any major and is located on the third floor of the Student Union at 5100 Cherry St. in room 303B. Internships for production and promotions are available through the Communication Studies Department.

The nationally syndicated public radio program, *New Letters on the Air*, features creative writers from around the world and is produced in association with the internationally distributed *New Letters* magazine and the Communication Studies department. - Broadcast locally on KCUR-FM, the weekly program is also available via www.newletters.org/radio (<http://www.newletters.org/radio/>) and podcasts - KCUR-FM <http://kcur.org/> is the 100,000-watt public radio station licensed to UMKC. - Programming includes offerings from National Public Radio and Public Radio International, as well as local news from the award-winning news department. - Internships are available year round to Communication Studies students.

Special Awards and Scholarships

The Alex and Josephine B. Coleman Scholarship is awarded each year to an outstanding junior- or senior-level student. The award recognizes meritorious undergraduate work in communications and encourages program completion. The Suzanne Crispin Williams Scholarship is awarded annually to a non-traditional returning female student in Communication Studies or Women's Studies. A Film Finishing Fund provides grants to intermediate and advanced production students and the Student Film League holds showcases of student film and video projects. Cash prizes may be awarded for winning entries. The Faye Kircher Public Speaking Contest is held in the spring semester. Students enrolled in COMM-ST 110 courses are selected by their classmates for participation in the public speaking contest. Cash prizes are awarded. The Fred G. Andrews Jubilee Creative Cinema Fund will provide support for sponsored or co-sponsored workshops, programming for Film and Media Arts, as well as internships and scholarships for students majoring in Communication Studies with an emphasis in Film and Media Arts. The Carol Koehler Memorial Scholarship is awarded annually to a Communication Studies student enrolled in a three hour internship. Scholarship information can be found on the Communication Studies website at http://cas.umkc.edu/Communication_Studies/scholarships.cfm.

Career Implications

Communication students may find rewarding careers in the multifaceted communication industry. The program is excellent preparation for careers in media production, marketing, public relations, advertising, radio, nonprofit organizations and human resources.

Further Educational Opportunities

The B.A. in Communication Studies prepares students for advanced study in communication studies, film and media, as well as in graduate programs such as law, medicine, business, public administration and those associated with the applied and performing arts.

Internship Program

All students completing the B.A. in Film & Media Arts and emphasis in Journalism and Mass Communication are required to complete an internship. - Although an internship is not required for students completing an emphasis in Interpersonal and Public Communication or Film and Media Arts, the Communication Studies Department strongly recommends the internship experience as a means of linking theory to practice, and preparing students to work effectively in professional settings. - Internships provide students with on-the-job experience which is both practical and purposeful. The internship program allows opportunities for experience on a national and international level.

The Internship course number is COMM-ST 484. Each intern is required to enroll in at least one credit hour. One credit hour requires 75 hours of internship work. Two credit hours require 150 hours of internship work. Three credit hours require 225 hours of internship work. Four credit hours require 300 hours of internship work.

Information on Internship Opportunities is available in the department office and at <https://cas.umkc.edu/communication-studies/internships/>, and through the Career Service <https://career.umkc.edu/>. - The coordinator for the Internship Program is Linda Kurz (KurzL@umkc.edu)

Advising System

Current program requirements are available in the department office. Students must file a formal declaration of major with a departmental advisor. The department highly recommends that students meet with their major advisor before enrolling in classes each semester. At 90 hours or one year prior to graduation, students should file for a final degree audit with their major advisor and with the College of Arts and Sciences. Undergraduate advisors are Linda Kurz Contact Information (<https://cf1.umkc.edu/intapps/lookup/?LastName=kurz>) and Judith McCormick Contact Information (<https://cf1.umkc.edu/intapps/lookup/?LastName=mccormick>). Students in the Film and Media Studies Emphasis should contact Caitlin Horsmon Contact Information (<https://cf1.umkc.edu/intapps/lookup/?LastName=horsmon>); or Lyn Elliot Contact Information (<https://cf1.umkc.edu/intapps/lookup/?LastName=elliott>) for advising in that emphasis area.

Financial Aid

Students with University work-study assignments are welcomed as student assistants in various aspects of the department's activities.

Faculty

Joan E. Aitken; Retired Professor Emerita of Communication Studies; B.A. (Michigan State University); M.A., Ed.D. (University of Arkansas).

Gregory D. Black; Retired Professor Emeritus of Communication Studies; B.S. (Bowling Green State University); M.A. (California State); Ph.D. (University of Kansas).

Mitchell Brian; Associate Teaching Professor of Communication Studies; B.A. (California State University, Northridge); M.A. (University of Missouri-Kansas City).

Linda M. Collier; Retired Associate Professor of Communication Studies; B.A., J.D. (University of Missouri-Kansas City).

Jean Dufresne; Lecturer, Communication Studies; B.A. (Morningside College); M.A. (University of Iowa); Ph.D. (University of Nebraska-Lincoln).

Angela C. Elam; Assistant Teaching Professor of Communication Studies and Radio Producer; B.A. (Clemson University); M.F.A. (University of Georgia-Athens).

Lyn Elliot^{2,3}; Professor of Communication Studies; B.A. (Carleton College); M.A., Ph.D. (University of Iowa); M.F.A. (University of Iowa).

Gregory Gutenko; Associate Professor of Communication Studies; B.A., M.A. (University of Missouri-Kansas City); Ph.D. (University of Missouri-Columbia).

Caitlin M. Horsmon^{2,3}; Associate Professor of Communication Studies; B.A. (Oberlin College); M.A., M.F.A. (University of Iowa).

Steven Kraske; Associate Teaching Professor of Communication Studies; B.A. (University of Wisconsin-Madison).

Linda Kurz (kurzl@umkc.edu); Associate Teaching Professor of Communication Studies; BA (University of Texas-Austin); M.A. (Baylor University); Ph.D. (Baylor University).

Gaylord V. Marr; Retired Professor Emeritus of Communication Studies; B.A., M.A. (University of Nebraska).

Jason Martin^{2,3}; Assistant Professor of Communication Studies; B.B.A., B.S. (University of Kentucky); M.A. (The Ohio State University); Ph.D. (University of Kentucky).

Judith McCormick; Associate Teaching Professor of Communication Studies; B.A., M.A. (Texas Tech University); Ph.D. (Kansas State University).

Steven P. Melling²; Associate Teaching Professor of Communication Studies; B.S. (Northwestern Missouri State University); M.A., Ph.D. (University of Kansas).

Peter Morello²; Associate Professor of Communication Studies; B.A. (University of Wisconsin-Madison); M.S. (Columbia University).

Michael Neer; Retired, Professor Emeritus of Communication Studies; B.A., M.A., Ph.D. (University of Missouri-Columbia).

Michael W. Schaefer; Lecturer of Communication Studies; B.A., M.A. (University of Missouri-Kansas City).

Robert B. Unger; Retired, Professor Emeritus of Communication Studies and English; B.A. (University of Missouri-Columbia); M.P.A. (Harvard University).

Ye Wang^{2,3}; Assistant Professor of Communication Studies; B.A. (Beijing University of Posts and Telecommunications); M.A. Linguistics (Beijing Foreign Studies University); M.A., Ph.D. Journalism (University of Missouri).

- Minor in Communication Studies
- Minor in Film Studies

Courses

COMM-ST 110 Fundamentals Of Effective Speaking And Listening Credits: 3

An introduction to the dimensions of effective platform speaking with special emphasis on developing critical listening skills. Lecture, performance, and discussion.

COMM-ST 110 - MOTR COMM 110: Fundamentals of Public Speaking

COMM-ST 140 Principles Of Communication Credits: 3

An interdisciplinary introduction to the study of contemporary communication studies including a consideration of intrapersonal, interpersonal and public communication.

COMM-ST 140 - MOTR COMM 100: Introduction to Communications

COMM-ST 203 Introduction to Journalism Credits: 3

Introduction to the styles and techniques of reporting and writing basic news through assignments in straight news, features and in-depth stories. Exposure to the history and principles of American journalism. Practical application in writing news and news feature articles.

COMM-ST 212 Argumentation And Debate Credits: 3

A study of the nature of logical discourse generated through the preparation and presentation of oral argument within the framework of the debate format. Lecture, performance and discussion.

COMM-ST 212 - MOTR COMM 220: Argumentation Debate

COMM-ST 220 Introduction: Modern Communications Media Credits: 3

A comprehensive survey of the content, structure and control of the communications media in American society--newspaper, motion pictures, radio and television; providing an informational frame of reference that will enable discerning students to formulate and apply useful critical concepts in evaluating America's media environment.

COMM-ST 220 - MOTR SBSC 100: Intro to Mass Communications

COMM-ST 230 Introduction to Film Studies Credits: 3

The course is an introduction to the study of film as an art form and industrial practice. Students will study the basics of film analysis, cinematic formal elements, genre, narrative structure and the cultural functions of cinema.

COMM-ST 230 - MOTR FILM 100: Introduction to Film Studies

COMM-ST 250 Introduction to Film and Video Production Credits: 3

This course teaches the fundamentals of media making using digital video. Students will learn techniques in pre-production planning, camera, sound, and editing by creating a series of short videos. Students will also learn to think analytically about film, and to apply insights about what gives an image impact and meaning to their own work. It is the foundation and prerequisite for all film and video production courses in the department.

COMM-ST 260P Introduction To Web Communications Credits: 4

This four credit hour web-based multimedia course will examine the process of critically evaluating information delivered on the Internet. It is designed as an introduction for adults and students who use Internet information for work and/or school. The process of critically evaluating Internet information will be described in four modules: traditional evaluation techniques; searching and researching strategies; Internet evaluation techniques and Internet evaluation resources.

COMM-ST 270 Introduction to Digital and Mobile Journalism Credits: 3

An introduction to the practices and principles of creating video, combined with audio, graphics, and data information, by newsgathering in the field, for both current and emerging mobile, non-broadcast, digital and social media platforms.

COMM-ST 277 Interpersonal Communication Credits: 3

An intensive analysis of the dimensions of intrapersonal and interpersonal communication designed to identify the philosophies and methods which underwrite effective human communication.

COMM-ST 277 - MOTR COMM 120: Interpersonal Communication**COMM-ST 300CY Ancient World in Cinema Credits: 3**

This course will explore the tradition of depicting the ancient Mediterranean world in film from the early silent era to the present. Topics to be covered include the ways that filmmakers respond to literary and historical sources from the ancient world, interact with the artistic tradition of films about the ancient world, the relation of these films to other works by the same creative personnel (directors, actors, writers, producers, etc.), and the political and cultural contexts in which the films were released.

COMM-ST 308 Introduction To The Study Of Human Communication Credits: 3

This course serves to introduce students to the basic theories, perspectives and methodologies used (historically and currently) in the study of speech, interpersonal and mass communication.

COMM-ST 311 Radio & Television Performance Credits: 3

A study of the specialized radio and television performing and operating situations and techniques simulated and evaluated in studio sessions. Lecture, discussion and performance.

COMM-ST 312 Advanced Public Speaking Credits: 3

Advanced study of rhetorical theory and its application to the presentation and criticism of public discourse.

Prerequisites: COMM-ST 110.

COMM-ST 317 Persuasion Credits: 3

A study of the rhetorical, psychological and ethical principles of influencing and controlling individuals and groups, and of the methods of adapting to various attitudes and audiences through the preparation, presentation and evaluation of persuasive speeches. Lecture, discussion and performance.

Prerequisites: COMM-ST 110.

COMM-ST 323 Concepts of the Hero in Ancient Literature and World Cinema Credits: 3

This course explores how concepts of heroism are related to the principles of values and civic duty in a wide range of ancient world cultures and contemporary world cinemas. Students will also demonstrate an understanding of how these values impact individual heroes and their interactions with others in their society.

COMM-ST 339 Introduction to Film Theory Credits: 3

A survey of the history of theoretical and critical approaches to film theory/philosophy. Students will be introduced to major foundational and contemporary theoretical approaches to cinema that may include but are not limited to formalism, realism, auteurism, psychoanalysis, genre studies, structuralism, feminism, semiotics, cultural studies, post-structuralism, queer theory and digital studies.

COMM-ST 341WI Rhetorical Theory And Criticism Credits: 3

Writing intensive. An analysis of significant public discourse within the context of social protest and political rhetoric with attention to applying methods of communication criticism in evaluating the effectiveness of persuasive advocacy aimed at social change.

COMM-ST 343 Group Dynamics Credits: 3

A study of strategies and communication relationships unique to non-dyadic situations, with an emphasis on the integral structure of leadership, roles, norms and task functions.

COMM-ST 344 Communication In Organizational Settings Credits: 3

An examination of the major elements of interpersonal, group, and oral communication competence essential to human interaction in organizational settings. The course focuses on developing communication competencies and increasing theoretical understanding of the communication process within the organizational context.

COMM-ST 344WI Communication In Organizational Settings Credits: 3

An examination of the major elements of interpersonal, group, and oral communication competence essential to human interaction in organizational settings. The course focuses on developing communication competencies and increasing theoretical understanding.

Prerequisites: COMM-ST 110 or COMM-ST 308.

COMM-ST 345 German Film Credits: 3

This course introduces students to the important contributions of German films to the development of movies as a unique literary art form. The class will cover important terms and concepts in film theory, the specifically German context of film, and important themes and periods in German film history. Taught in English with subtitled films.

COMM-ST 346 Art of the Short Film Credits: 3

Art of the Short Film examines the social, economic and aesthetic histories of narrative, documentary and experimental short form films from the birth of cinema to today.

COMM-ST 347 Topics in Film Genre Credits: 3

A topics course that examines the history and theory of film genres. Repeatable up to six hours when the topic changes.

COMM-ST 348 The Art of the Interview Credits: 3

This course will introduce students to the styles and techniques of conducting professional interviews with the goal of eliciting insightful, thoughtful answers fit for print or broadcast. Students will prepare QA interviews and articles for publication while gaining the confidence needed to work in professional newsrooms or office settings.

COMM-ST 351WI Fundamentals Of Writing For The Media Credits: 3

Analysis of individual differences and common characteristics of copy for eye and ear, with emphasis on the application of both verbal and visual imagery in the process of communicating the writer's ideas and intentions. Weekly written assignments and critical analysis of the student's work.

COMM-ST 353 Covering Urban Latinx Communities Credits: 3

This course focuses on journalistic methods of reporting Latinx communities in urban areas and bringing the voice of the Latinx communities into news stories. It covers topics on immigration, health care, policy, cultural diversity, race, legal issues, and education. Skills taught in this course will prepare students to cover the Latinx communities in urban areas and beyond.

COMM-ST 354 Introduction to Screenwriting Credits: 3

An introduction to the form and language of the motion picture screenplay. Students will learn to create a workable blueprint for a movie and undertake an in-depth examination of visual storytelling. This will include understanding the basics of dramatic structure, scene and sequence construction and the role of dialogue. Emphasis will be placed on students mastering the accepted movie industry format of the screenplay. They will also adapt a short story and revise it after giving and receiving feedback in small groups.

COMM-ST 355WI The New Feature Writing Credits: 3

An intensive practicum in the art of writing feature stories with a special emphasis on shorter stories that will grab reader interest in an era of short-attention spans.

Prerequisites: COMM-ST 203 or ENGLISH 203.

COMM-ST 356 U News Practicum Credits: 3

This course is workshop-based for students producing UMKC's weekly newspaper, U News. It also focuses on contemporary issues in American journalism and engaging with the university community.

Prerequisites: COMM-ST 203 or ENGLISH 203.

COMM-ST 363 Radio Production I Credits: 3

A study of the techniques of producing audio material for use in radio, in concerts, on film, on television and in the recording studio.

COMM-ST 373 Intermediate Media Production Credits: 3

An intermediate-level production course emphasizing hands-on skills in cinematography and lighting, sound, and editing.

Prerequisites: COMM-ST 250.

COMM-ST 376 History Of The Film Industry Credits: 3

A history of the development of the American film industry from 1900 to the end of the studio era. The course will stress such issues as studio production, censorship, the economics of production and the selling of mass culture through the film medium. Term paper required.

COMM-ST 380 Contemporary Media Topics Credits: 3**COMM-ST 381 Narrative Production Credits: 3**

This course covers the creative, technical, and practical aspects of short-form narrative film production.

Prerequisites: COMM-ST 250.

COMM-ST 383 Cross-Cultural Journalism & Mass Media Credits: 3

Cross-Cultural Journalism Mass Media provides journalistic tools for traditional and new media coverage of diverse ethnic, gender, ability and ideological groups inside and outside the United States. The critical role of diverse voices in a democracy will be discussed. Students at UMKC and the Missouri School of Journalism participate in joint lectures transmitted by UMKC and MU instructors from their respective campuses.

COMM-ST 384 Documentary Film History Credits: 3

Documentary Film History is an overview of the history and theory of documentary cinema. The course surveys the documentary tradition with special attention to the relationship between content and style and the issues central to documentary film making, including ethical and legal questions, the relationship between representation and power and the ways in which film speaks to notions of truth and truth telling.

COMM-ST 385 Documentary Production Credits: 3

This course is designed to familiarize students with the basics of documentary production from an artistic, ethical, and practical results-oriented perspective.

Prerequisites: COMM-ST 250.

COMM-ST 386 Animation Credits: 3

This course provides an introduction to animation production techniques and an overview of the history of American animation arts. We will address both stop-motion and computer animation using industry standard software.

Prerequisites: COMM-ST 250.

COMM-ST 387 Strategic Communication Research Credits: 3

This course will examine different research methods and research stages in advertising and public relations, including quantitative and qualitative research methods. Students will learn how to plan, conduct, and evaluate strategic communication research. Students are also expected to develop a greater appreciation for the role that research plays in effective campaigns.

COMM-ST 388 Media Ethics Credits: 3

This course is designed to sensitize the ethical considerations the underlie the conventions and practices of print, broadcast, and internet media. By placing traditional and new media in a wider intellectual context than is generally possible under the daily demands of producing news, information, and entertainment, it seeks to produce a larger sense of media as industry and as a career choice.

COMM-ST 390 Forensic Activities Credits: 1-4

Participation in the intercollegiate forensic program. A practicum in debate, discussion, oratory and other forensic activities.

COMM-ST 392 Topics in World Cinema Credits: 3

A variable topics course focused on the histories and theories of international cinemas. Repeatable up to 6 hours when the topic changes.

COMM-ST 393 Topics in Sound & Cinema Credits: 3

A variable topics course that focuses on the histories and aesthetics of sound in cinema. Repeatable up to 6 hours when the topic changes.

COMM-ST 394 Topics in Gender and Cinema Credits: 3

A course focused on the relationship between popular culture, film history and the construction of gender and sexuality. Repeatable up to 6 hours when the topic changes.

COMM-ST 400 Special Studies Credits: 1-3

(A-N) This is an upper-level course on a subject which is not a part of the regular department offering. The course results from one or more of the following: (1) the expressed desire of students (2) the broadened or refocused scholarship of a member of the communication studies faculty (3) the temporary presence of a scholar whose specialization is not reflected in the department's regular offerings (4) the conclusion by the department that the course meets a community need (5) the effort of the Communication Studies faculty to provide an interdisciplinary approach to an era or topic.

COMM-ST 406CD CC: Film Adaptation Credits: 3

The class will explore the process of adapting both fiction and non-fiction literary works into motion pictures. Students will examine the original literary source, then the interim screenplay and finally the completed motion picture.

COMM-ST 411 Seminar in Film and Media Arts Credit: 1

This course covers special topics and professional practices within Film and Media Arts. Course is repeatable. Required of B.A. in Film and Media Arts majors for every semester enrolled.

Prerequisites: B.A. in Film and Media Arts Major.

COMM-ST 415 Global Journalism: Cultures, Trends, & Conflicts Credits: 3

This course examines media coverage of international issues including the dissemination of news and information throughout the world. The course has both a practical and academic focus. It introduces students to best practices of global journalism and to the enormous challenges of covering world events and issues. Research on global media trends are applied to current reporting methods and include diverse international perspectives. The course assists students who plan to pursue careers in global journalism and allied fields like international non-profit agencies or non-governmental organizations. The course also prepares students to become effective communicators in global communities.

Prerequisites: COMM-ST 314.

COMM-ST 431 Colloquium In Interpersonal Dynamics Credits: 3

An examination of the practical application of communication principles and theories, with focus on one of the following: health, organizational, nonverbal, intrapersonal, conflict management, computer mediated, or intercultural communication.

COMM-ST 432 Press, Politics And Public Policy Credits: 3

An advanced course in the study of the press and political establishments in the formation of public policy.

COMM-ST 439 Egghead: Student Advertising Agency Credits: 3

This course operates as a faculty-supervised advertising/design agency that works with clients to produce visual marketing materials.

Prerequisites: ART 337.

COMM-ST 441 Applications of Interpersonal Communication Theory Credits: 3

This course examines interpersonal communication theory as it pertains to a variety of interpersonal relationships. The course employs class discussions of theory and assignments that apply those theories to real life interactions.

Prerequisites: COMM-ST 277.

COMM-ST 444WI Intercultural Communication Credits: 3

A consideration of communication phenomena in multicultural settings. A study of the public forum with an emphasis on the interpersonal aspects of international, intercultural, and co-cultural communication.

Prerequisites: Junior standing.

COMM-ST 446 Principles Of Advertising Credits: 3

A survey of advertising as an industry and a career field, examining its history and development in America, and its application in mass and special media. Specific procedures are studies for linking the development of advertising strategies, messages and campaigns to the marketing process, and for evaluation and selection of appropriate media to carry the advertising message.

COMM-ST 447 Interactive and Social Media Advertising Credits: 3

This course examines advertising on the Internet as a form of interactive communication, with a special focus on social media and search engines. It addresses basic concepts, current issues, and the development of interactive advertising strategies and plans. The coverage includes interactivity, pricing models, online targeting strategies, search engine optimization and advertising, social media advertising, and online video advertising.

COMM-ST 448 Principles Of Public Relations Credits: 3

An overview, presenting the function, purposes, procedures and practices of public relations, its role in society, industry, government and politics, and its potential as a career field. This is a survey course with primary emphasis on theory, supplemented with applied techniques.

COMM-ST 453 Urban Journalism Practicum Credits: 4

This course engages student journalists to produce stories with an urban focus across radio, online, and television platforms. By practicing convergence journalism, students gain practical story-telling experience for professional news organizations.

Prerequisites: COMM-ST 203 or ENGLISH 203.

COMM-ST 454 Advanced Screenwriting Credits: 3

This course provides students with advanced theory in narrative screenwriting, training in industry standard script analysis (called "coverage") and story editing. Students will be required to draft, revise and workshop a short film screenplay or will focus on a feature screenplay, delivering a draft and revision of the first act and a detailed outline for the rest of the script. Students will workshop feature screenplays in small groups, emphasizing the art of constructive story editing.

Prerequisites: COMM-ST 354.

COMM-ST 456 Electronic Journalism Credits: 3

A practical approach to the practices and principles of broadcasting news media, including preparing copy for microphone and camera, editing wire copy, reporting public affairs and public relations, and an intensive scrutiny of the concepts of freedom and responsibility as they apply to the press and current legislation.

COMM-ST 457 Client-Based Media Production Credits: 3

This course teaches the process of creating media for a professional client. Students will take on specialized crew positions and work together to plan, write, direct, shoot, edit, and distribute a short video for a local non-profit client.

Prerequisites: COMM-ST 250.

COMM-ST 466 Advanced Electronic Journalism Credits: 3

An advanced study of television and Internet news gathering, field production and performance for electronic media.

Prerequisites: COMM-ST 456.

COMM-ST 471 Advanced Media Production Credits: 3

An advanced course in media production techniques focused on the creation of a significant individual media work and professional development.

Prerequisites: COMM-ST 373.

COMM-ST 473 Directing Actors and Scenes Credits: 3

This intensive workshop class seeks to deepen the student director's understanding of the acting process and provide ways of clearly and creatively communicating with actors. The course will deepen students' understanding of blocking scenes and designing camera coverage. It will explore the role of the director as a guiding creative force in the making of a film through collaboration and provide techniques for scene analysis and preparation. Students will cast, rehearse and present a live performance for their final project and design appropriate camera coverage.

Prerequisites: COMM-ST 250.

COMM-ST 483 Research Seminar In Communication Studies Credits: 3

This is the departmental capstone course and is required for majors in their last semester of their senior year. The course summarizes and extends student's theoretical and applied understanding of the role of communication competence in the work place and beyond. The course also focuses on refining student's research competencies and their appreciation of the cultural role of modern communication methods.

Prerequisites: Senior standing.

COMM-ST 484 Communication Studies Activities Credits: 1-4

Internships opportunities for advanced students involved in community and campus activities. Student must receive approval of advising professor in semester prior to enrollment. No more than four hours with any one project.

COMM-ST 492 Advertising Campaigns Credits: 3

The course content focuses on branding, re-branding or development of an identity program, and combines advertising planning with creative execution. Students will learn how to develop advertising/marketing/creative campaign plans for a specific client(s), conceptualize, design and develop all creative aspects including but not limited to logo/identity, copy, advertising, website development, app design, etc., and complete a presentation of the plans/briefs and final creative developments of the plans/briefs and creative to the client(s).

Prerequisites: Sophomore standing.

COMM-ST 498 Special Problems In Communication Studies Credits: 1-3

Research and/or projects for advanced upper class students. Student must receive approval of advising professor in semester prior to enrollment. No more than three hours with any one instructor.

COMM-ST 5554 Graduate Seminar: Screenwriting Credits: 3

Students will complete their feature screenplay, focusing on acts two and three and then ready the script for submission to contests and industry contacts. We will focus on in-depth scene work, polishing dialogue and deepening theme.

Prerequisites: COMM-ST 454 or ENGLISH 429B.

COMM-ST 5597 Directed Graduate Studies: Readings Credits: 1-6

Special Projects on the graduate level.

COMM-ST 5598 Directed Graduate Studies: Non-Thesis Research Credits: 1-6

Special projects on the graduate level.

Bachelor of Arts: Communication Studies - Film and Media Studies

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Assess films, film culture and film history using film theory.
- Specify relationships between film form and meaning using close textual analysis.
- Identify social, political and aesthetic elements of cinema
- Research and formulate theoretical questions and synthesize original scholarship in appropriate written form.

- * Construct short films in a variety of modes possibly such as narrative, documentary, animated and promotional. (*media production courses are encouraged but not required.)

Program Requirements

The **Film and Media Studies** emphasis provides an interdisciplinary study of film and media, including the history and theory of global cinema culture, critical media studies and extensive training in media production. Our courses emphasize critical thinking, creative exploration and skill development by combining the study of film history and theory with the art and practice of film-making. Students write, produce, direct and edit several narrative, documentary and experimental shorts while studying histories and theories of the moving image. Internships and extracurricular activities prepare students for creative success, professional careers and advanced graduate studies. The program is aligned with UMKC's visual and performing arts mission.

The department has media classrooms and production spaces for student projects, that include a video production studio with multi-camera and "green-screen" capabilities, a sound recording facility with narration booth and radio console, and post production media labs. A student equipment checkout lab maintains an extensive inventory of production equipment providing the capabilities for professional cinematography, lighting and audio recording. Our facilities foster the ability to light, shoot and edit professionally, allowing the students to tell compelling stories that make an impact on audiences.

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (Satisfied in program requirements below)		
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus	
Any 200-level MATH or STAT course		
ACT Math Sub-score of 28 or higher; or SAT Math Sub-score of 660 or higher		
Critical Thinking in Arts & Humanities (GECERT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3

Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		10

Major Requirements

Film and Media Studies Emphasis

In addition to the 6 credit hours of the department's core courses (COMM-ST 110, COMM-ST 483 or COMM-ST 471), the Film and Media Studies emphasis requires COMM-ST 230, COMM-ST 339 and 21 hours of Film and Media Studies electives for a total of 33 credit hours. Students are required to take one writing intensive course in any department.

Students must maintain a 2.0 GPA in their major courses. Only major courses with a grade of C- or higher will be accepted for credit in the major, and counted toward the major GPA. With prior permission, three hours of elective credit from another department may be accepted as Communication Studies elective credit. Students must complete a minimum of 18 credit hours within the department.

Students must successfully complete the major requirements below with at least 18 credit hours taken in the department at UMKC with 12 of those hours at the 300-level or above.

Code	Title	Credits
Department's Core Courses		
COMM-ST 110	Fundamentals Of Effective Speaking And Listening (satisfies Oral Communication requirement)	3

¹ Elective courses may be offered on a rotation basis. Please consult advisor for current availability.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		44

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: Communication Studies - Interpersonal and Public Communication Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Demonstrate effective oral, written, and visual communication
- Conduct basic research through the identification, evaluation, application, and citation of appropriate scholarly sources.
- Identify key interpersonal communication theories and concepts as they pertain to relationships and interactions with others from diverse backgrounds and across different settings.
- Identify key rhetorical theories and concepts and how they relate to the design and evaluation of effective messages.
- Explain how cultural diversity presents challenges and opportunities in interpersonal and public communication.

Program Requirements

The **Interpersonal and Public Communication** emphasis offers study in the areas of public address and rhetoric, interpersonal and intercultural communication, organizational communication and areas associated with human communication behavior including advertising, public relations and strategic communication.

Bachelor of Arts: Communication Studies - Journalism and Mass Communications Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Produce work applying best practices in short- and long-form news, feature and investigative reporting for print, broadcast and digital journalism
- Research and develop methods in data collection.
- Produce writing that meets or exceeds professional standards.
- Demonstrate reporting skill that meets or exceeds professional standards.
- Adapt the dissemination of information appropriate to cross-cultural audiences.
- Identify and express ethical news writing and reporting in the best traditions of American journalism and mass communication.

Program Requirements

The **Journalism and Mass Communication** emphasis offers concentrated study in select areas including print and electronic journalism, radio, television, journalism, advertising and public relations.

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		10

Major Requirements

Journalism and Mass Communication Emphasis

Students must maintain a 2.0 GPA in their major courses. Only major courses with a grade of C- or higher will be accepted for credit in the major, and counted toward the major GPA. With prior permission, three hours of elective credit from another department may be accepted as Communication Studies elective credit.

Students must successfully complete the major requirements below with at least 18 credit hours taken in the department at UMKC with 12 of those hours at the 300-level or above.

Code	Title	Credits
Department's Core Courses		
COMM-ST 110	Fundamentals Of Effective Speaking And Listening (satisfies Oral Communication requirement)	3
COMM-ST 483	Research Seminar In Communication Studies	3

Total Credits		33

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		47

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: Film and Media Arts

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Analyze the complex social, political, economic and aesthetic history of the cinema in critical writing.
- Assess films and film culture in relationship to a variety of theoretical traditions.
- Identify and describe key terms and concepts and major trends and periods related to film history and theory.
- Apply film theory concepts to film texts in written form and in their creative work.
- Demonstrate knowledge of media making craft as a collaborative and creative process applying theoretical historical and aesthetic concepts.
- Demonstrate the ability to create quality media productions including skills in audio, cinematography, editing and producing.

Program Requirements

The Film and Media Arts B.A. offers undergraduate students a rigorous course of study in film and video production, with supporting courses in film studies and art. Students in the program practice all aspects of filmmaking: screenwriting, pre-production planning, cinematography, lighting, audio recording, editing, and sound design. The program emphasizes individual creative development, with each student building their own portfolio of original film and media work. Professional preparation for careers in film and media arts is also a strong component of the degree. In our production classes, we teach a small-crew, independent-artist approach to filmmaking. Students gain experience in all phases of film production, including idea development, writing, pre-production planning, producing, directing, cinematography, sound design and editing.

Minor in Communication Studies

Student Learning Outcomes

Students graduating from this program will:

- Oral and written communication competence.
- The development of critical thinking skills.
- The development of both social and professional skills.

The Department of Communication Studies offers a variety of program areas, including interpersonal communication, public communication, print and electronic journalism, advertising, public relations, media theory and history, as well as radio, television, and film/video production. While each of these program areas have distinct outcomes in regard to professional competence, the faculty makes a strong effort to work collaboratively to assure that the measure of success in earning a degree in Communication Studies is defined in three departmental outcome goals which we seek to make one in the learning process:

1. Oral and written communication competence.
2. The development of critical thinking skills.
3. The development of both social and professional skills.

We recognize that the development of "professional skills" involve both general and specific outcomes. General outcomes include producing students who display professional standards in regard to interpersonal, intercultural, and organizational communication skills, as well as professional work habits (punctuality, reliability, ethical discernment, teambuilding, etc.). Specific professional skills taught in the Department prepare students to succeed in the professional areas of business communication, health communication, advertising, public relations, film, broadcasting, and journalism.

The Department makes a conscious effort to assess our curricula, teaching, as well as learning processes, and student/faculty competence, on the basis of student learning outcomes. We take pride in our reputation as a "teaching" department.

These outcome goals must equally serve students who will be immediately entering the workplace following the attainment of their undergraduate degree, as well as those who will be entering graduate school programs in a wide variety of academic areas (law, business, interpersonal and public communication, journalism, film, among others).

In every departmental course/lab, we consciously seek to employ specific learning process options that reinforce the three goals above.

A minor in communication studies may be earned by completing two required courses (COMM-ST 110 and COMM-ST 308), plus another 12 credit hours in any 300- or 400-level courses within the department, with the exception of those courses listed below. Students may declare their minor by meeting with the undergraduate advisor and filing a completed Declaration of Major Form (available in 202 Haag Hall) with a current copy of their transcript. Only minor courses with a grade of C- or higher will be accepted for credit in the minor.

Code	Title	Credits
Required Courses		
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	3
COMM-ST 308	Introduction To The Study Of Human Communication	3

Additional 300 or 400 level courses within the department except for those listed below. ¹	12
Total Credits	18

COMM-ST 390 does not count toward the minor in Communication Studies.

¹ Courses may be offered on a rotation basis. Please consult advisor for current availability.

Minimum GPA: 2.0

Minor in Film Studies

Student Learning Outcomes

Students graduating from this program will:

- Assess films, film culture and film history using film theory.
- Specify relationships between film form and meaning using close textual analysis.
- Analyze the relevance of global cinema history to film production.
- Identify social, political and aesthetic elements of cinema.
- Research and formulate theoretical questions and synthesize original scholarship in appropriate written form.
- * Construct short films in a variety of modes possibly including narrative, documentary, animated and promotional.

The Film Studies minor emphasizes an interdisciplinary study of film and media, critical thinking, creative exploration and skill development by combining the study of film history and theory with the art and practice of filmmaking. Students may write, produce, direct and edit narrative, documentary and experimental shorts while studying histories and theories of the moving image.

Only minor courses with a grade of C- or higher will be accepted for credit in the minor.

Department Description

The Department of Criminal Justice and Criminology offers programs of study leading to the following degrees:

- Bachelor of Arts in Criminal Justice and Criminology
- Master of Science in Criminal Justice and Criminology

A program minor is available in Criminal Justice and Criminology.

The mission of the department is to extend knowledge about the nature of crime and criminal justice. This mission includes continuing participation by faculty in significant criminological research; other scholarly endeavors; and inviting students to join in that activity by:

- Learning the core materials of the discipline.
- Acquiring research skills.
- Assisting in faculty research.
- Becoming involved in student activities that supplement coursework and research.

Within the context of a liberal arts education, the program offers an interdisciplinary approach to study the criminal justice system. The program is designed to develop the intellectual skills required to function effectively as a field practitioner and to provide the knowledge base for careers as planners, administrators and researchers. The course offerings emphasize issues and problems relevant to policy considerations in criminal justice.

Department Activities

Undergraduate Academic Advising

Student academic advising is a continuous process in the department. Undergraduate advisors are available for consultation throughout the academic year. The department recommends that students check the program requirements in the department office before filing the declaration of major form. Undergraduate majors are encouraged to consult with the department to establish a tentative plan of study. Students should leave their mail and email addresses with the department office so that they can receive notifications concerning class time tables, new classes, and other departmental information of interest to majors.

Financial Assistance

Students can receive financial assistance through various campus scholarships, loan programs, grants and the work-study program. Students who are interested should contact the Financial Aid and Scholarships Office (<http://www.sfa.umkc.edu/site2/>).

Alvin Brooks Scholarship

Award Amount: Varies

Qualifications: Full-time undergraduate student majoring in Criminal Justice & Criminology, who is in good academic standing with a minimum GPA of 2.0. Preference given to students who are a first generation college student, who graduated from an accredited Kansas City, Missouri high school or transferred from a Kansas City area community college. The student must demonstrate financial need.

How to Apply: The College of Arts and Sciences' Scholarship Application.

Clarence Kelley Memorial Scholarship

Award Amount: Varies

Qualifications: Full-time undergraduate student majoring in Criminal Justice & Criminology, who is in good academic standing. Preference will be given to students who have demonstrated a commitment to high academic achievement.

How to Apply: The College of Arts and Sciences' Scholarship Application

Criminal Justice Club and Honor Society

The Criminal Justice and Criminology Club is open to all students interested in criminal justice topics; students do not have to be a Criminal Justice and Criminology Major. Club activities include service projects in the community, sponsorship of community speakers on campus, participation in local and regional professional meetings, and learning about internships and research opportunities. The department also has a chapter of Alpha Phi Sigma, a national honor society for Criminal Justice students. Students must meet certain academic qualifications and pay an initiation fee to join this national honor society.

Cooperative Programs

The department cooperates with several other programs on the campus by jointly listing courses at the undergraduate level. Students may benefit from combining one of these areas of study with their major:

- Honors College
- Women's and Gender Studies
- Black Studies

Graduate Academic Advising

Student academic advising is a continuous process in the department. The principal graduate advisor is available for consultation throughout the academic year. Graduate students are required to consult with the department to establish a tentative plan of study. A master's degree program of study form, and a form appointing a supervisory committee, should be submitted by the end of the student's first semester in the program. Students should leave their mail and e-mail addresses with the department so they can receive notifications concerning class time tables, new classes and other departmental news and opportunities.

Faculty

Lindsey Arbuthnot Clancey; assistant teaching professor of criminal justice and criminology; B.A. (University of Missouri); M.S. (University of Missouri-Kansas City).

Cathleen Burnett professor emerita of sociology/criminal justice and criminology; B.A. (St. Lawrence University); M.S., Ph.D. (Vanderbilt University).

Janet Garcia-Hallett^{2,3}; assistant professor of criminal justice and criminology; B.A. (City University of New York Hunter College); M.A., Ph.D. (Rutgers University).

Alexander Holsinger^{2,3}; professor of criminal justice and criminology; B.A. (Aquinas College); M.S. (Illinois State University); Ph.D. (University of Cincinnati).

Kristi Holsinger^{2,3}; professor of criminal justice and criminology; B.A. (Aquinas College); M.S., Ph.D. (University of Cincinnati).

Toya Z. Like^{2,3}; associate professor of criminal justice and criminology; B.S., M.A., Ph.D. (University of Missouri-St. Louis).

Wayne L. Lucas; professor emeritus of criminal justice and criminology; B.S., M.S. (Illinois State University); Ph.D. (Iowa State University).

Ken Novak^{2,3}; professor of criminal justice and criminology; B.S. (Bowling Green State University); M.S., Ph.D. (University of Cincinnati).

Jennifer Lynn Owens^{2,3}; associate professor of criminal justice and criminology; B.S. (University of Nebraska at Lincoln); M.A. (University of Nebraska at Omaha); Ph.D. (University of Missouri-St. Louis).

Lori Sexton^{2,3}; associate professor of criminal justice and criminology; B.S. (Cornell University); M.A. (University of Pennsylvania); Ph.D. (University of California, Irvine).

- Minor in Criminal Justice and Criminology (p. 654)

Graduate Graduate Degrees:

- Master of Science in Criminal Justice and Criminology (p. 660)

Courses

CJC 101 Introduction To Criminal Justice Credits: 3

This introductory overview course is designed to familiarize students with the three main components of the adult criminal justice system: police, courts, and corrections. The course will investigate the viewpoints of offenders, victims, social scientists, the general public, and workers in the system on diverse issues of social control, criminal behavior, treatment and punishment.

CJC 101 - MOTR CRJS 101: Introduction to Criminal Justice

CJC 280 Gangs and Crime Credits: 3

This course will provide students with an overview of what is known about street gangs. Specifically, the course will cover definitional issues, gang organization and structure, gang culture, gang member onset and desistance, among other issues related to criminal street gangs. This course will also encourage students to think critically about communities, crime, and group formation.

CJC 282 Criminal Justice & Criminology in Popular Media Credits: 3

This course examines criminology and criminal justice as it is represented in popular film to explore critically the impact media has on the public's perception of the criminal justice system, the origin of criminal behavior, and the broad sociological constructs of criminology. A key focus is the media's power to shape criminal justice policy and practice.

CJC 301 Theoretical Criminology Credits: 3

A comprehensive examination of the major criminology theories, their philosophical assumptions, and the socio-historical context in which they were articulated.

CJC 302 Methods of Criminological Research Credits: 3

A seminar which explores the interrelationships between sociology theory, research methods, and statistics. May focus on major contemporary issues building on and integrating knowledge obtained in previous courses.

CJC 303 Introduction to Statistics in Sociology and Criminal Justice Credits: 3

A first course in the statistical analysis of quantitative data. Course emphasizes descriptive statistics, probability theory, parameter estimation, bivariate hypothesis testing, and computer applications.

Prerequisites: MATH 110 or MATH 116 or STAT 115 or MOTRMATH 110 or higher level math (with a grade of C- or higher); or ALEKS Score of 61 or higher.

CJC 332 Race, Class and Justice Credits: 3

This course examines the intersection of race and class as it relates to crime and justice. Specifically, the course focuses on race and class in relation to criminological theory and the application of justice system practices and policies.

CJC 335 Blackness as Threat Credits: 3

This course examines from a criminological and socio-legal perspective the historical and contemporary influence of race on perceptions of threat/danger, violence, and justice. The class focuses particularly on the experiences of African Americans in these regards, using recent high-profile cases as empirical lenses through which to discuss this topic.

CJC 338 Immigration and Crime Credits: 3

This course examines concerns regarding a purported connection between immigration and crime in the United States. We will begin through an examination of how immigrants have become increasingly criminalized, shaping an overlap between immigration and criminalization. This class explores the threat narrative regarding the Latinx population, generally, and explore gender disparities in these depictions of Latina women compared to Latino men. Discussions will incorporate details about the immigrant population in the Kansas City metropolitan area and look at examples of how local community agencies and activists are working to address human rights issues.

CJC 351 Policing In The Community Credits: 3

The purpose of this class is to introduce the student to police operations and the effectiveness of different police programs. The material discussed in class focuses on empirical evaluations of police effectiveness, and the role of the police in today's society. This class is divided into four broad areas: the nature and effectiveness of patrol; criminal investigations; special operations including crackdowns, responses to domestic assaults, and hot spot policing; and the latest crime prevention strategies, such as community oriented policing and problem solving.

CJC 354 Policing in America Credits: 3

A comparison of law enforcement and peace-keeping functions of the police provides a basic theme for the course, with examination of several topics related to police accomplishing these functions. Some of the topics covered include police discretion, police professionalism, the police officer as a bureaucratic agent, and police-community relations.

CJC 357 Crime Scene Investigation Credits: 3

This course will examine contemporary issues in crime scene investigation and its relevance to the criminal justice system. It will include an overview of legal issues, proper evidence collection techniques, and the preservation of evidence. Several different types of crime scenes will be explored.

CJC 361 Principles & Practices of Criminal Courts Credits: 3

The course examines the American criminal judicial system, including the history, philosophy, and changing nature of criminal courts. The activities of lawyers, judges, and related professionals are emphasized, and current topics involving the criminal court are discussed.

CJC 364 The Supreme Court And The Criminal Process Credits: 3

Course examines recent Supreme Court decisions on the constitutional aspects of the administration of justice. Topics include the nationalization of the Bill of Rights and jurisdiction with an emphasis on problems involving the Fourth, Fifth, Sixth, Eighth, and 14th Amendments.

CJC 370 Principles Of Corrections Credits: 3

This course explores adult institutional and community-based corrections in the United States. Major areas examined include the evolution of corrections, the process of correctional reform, adult offenders and prison culture, treatment and rehabilitation of offenders, intermediate sanctions, and correctional workers.

CJC 371 Community Corrections Credits: 3

This course will examine intermediate sanctions in the United States, such as probation, halfway houses, boot camps, among others. Specifically, the origin and proliferation of the use of corrections in the community will be explored in depth. The effectiveness of several major community correctional strategies will be explored through a review of the research literature base. Several issues will be highlighted including (but not limited to) ethical constraints, political problems, and treatment effectiveness in light of the use of community sanctions.

CJC 381 Advocacy and Crisis Intervention Credits: 3

This course focuses on the dynamics of sexual violence, advocacy skills, and how communities respond. The course will examine sexual violence in America, dynamics and trauma response to sexual violence, advocacy skills, and the role of community responders, including new strategies for response.

CJC 382 Human Trafficking Credits: 3

This course is designed to equip prospective Criminal Justice professionals with a comprehensive, trauma informed understanding of the issue of human trafficking, as it exists within the context of a modern, developed society. Students will learn the elements of a comprehensive strategy to address this crime; identification, exit, restoration, legal reforms, and prevention.

CJC 385 Victimology Credits: 3

This course addresses the study of crime, criminals and victims. It examines the relationship between victims and offenders. Special treatment is given to criminological as well as victimological theories. A segment of the course will address the sporadic nature of juvenile crime. The course will examine viable strategies to reduce levels of victimization. In the final analysis the course will offer crime prevention strategies.

CJC 390 New Dimensions In Criminal Justice Credits: 3

Examination of contemporary topics, issues or problems related to the development of justice and/or operations in response to criminal and related behaviors addressed by the justice system. May be repeated for credit when the topic changes.

CJC 395 Criminal Justice and Criminology Career Exploration Credits: 3

The course examines opportunities in US Criminal Justice and Criminology within law enforcement, courts, and corrections, local, state, federal, private sector and academia. Students will learn ethics and professionalism, securing internships, preparing for interviews, effective networking and career-building.

CJC 430 Women, Crime And Criminal Justice Credits: 3

This course will focus on the experiences of women and girls with crime in America. The primary areas studied will be females as victims, offenders, and professionals in the criminal justice system. Various criminological theories and research will also be examined in light of gender.

CJC 431 Hate & Bias Crimes Credits: 3

The purpose of this course is to examine the development and enforcement of hate crime law within our legal system. Discussion focuses on the causes and consequences of hate crimes, the constitutional issues associated with bias crime statutes, and the effectiveness of formal and informal social controls for eliminating hate and bias crimes.

CJC 481 Restorative Justice Credits: 3

This course is an introduction to the concept of restorative justice. The course examines the roots of the concept, its theoretical perspective, and its applications in juvenile justice, mediation and correctional settings.

CJC 488 Mentoring Juvenile Justice System-Involved Youth Credits: 3

Youth mentoring experience in a juvenile justice setting with required training and classroom study. Requires successful background check completion.

CJC 490 Directed Studies In Criminal Justice And Criminology Credits: 1-5

Individual research and study in the student's field of interest as approved and directed by major professors. The work involves examination and reporting of selected problems affecting the various agencies of our legal system. Only two of the 490 sequence courses and up to 3 credit hours can be applied to the major. A. Law Enforcement B. Court Operations and Administration C. Corrections D. Legal Theory and Philosophy E. Criminological Theory F. Sociology of Law.

CJC 491 Internship In Criminal Justice Credits: 3-6

Intern experience under faculty supervision in local, state, federal or private agencies working with justice system involved offenders.

Prerequisites: Junior or Senior CJC student.

CJC 492 Topics In Criminal Justice Credit: 1

Specialized, short courses with focused examination of particular topics germane to the study of the justice system. May be repeated for credit.

CJC 495WI Capstone: Criminal Justice And Criminology Credits: 3

This course is designed to integrate student's program of study in the major of criminal justice and criminology. The class examines current conditions of the justice system with respect of race, gender and social class.

Prerequisites: Senior CJC student.

CJC 5500 Sociology Of Law Credits: 3

A sociological study of the legal system with focus on organizational analyses of the legal profession, courts as a social system, the bureaucratization of the legal process, stratification and the allocation of legal services and careers.

CJC 5511 Sociological Methods II Credits: 3

Quantitative research is the primary focus of the course; emphasis is placed on problem formulation; research design; sampling procedures, questionnaire construction and interviewing techniques; data collection; problems of scaling, computer statistical programs; linking appropriate statistical analyses with data analysis; and report writing.

Prerequisites: CJC 483.

CJC 5515 Qualitative Research Methods in Criminal Justice Credits: 3

This course focuses on qualitative research methods, such as interviewing techniques, focus groups, content analysis, and field observation. Emphasis is placed on research design, data collection, and data analysis.

Prerequisites: CJC 483.

CJC 5516 Intermediate Statistics Credits: 3

A systematic development of the logic and practice of selected statistical methods used in sociological research. Included are analysis of variance and covariance, regression analysis, multiple contingency, and non-parametric tests.

Prerequisites: CJC 363.

CJC 5518 Advanced Criminological Theory Credits: 3

This course provides an understanding of past as well as present criminological theories by examining each criminological tradition (beginning in the 18th century and continuing into the present.) The primary aim of the course is to determine the root causes of deviant and criminal behaviors. Moreover, this course offers special attention to how society has historically reacted and responded to crime and deviant behavior. Furthermore, by examining crime and deviant behavior from a historical context, the students are able to determine how criminological theories have influenced public policies designed to reduce and control criminal behavior. In the final analysis, students will examine the rationales that society use to justify efforts toward punishment and treatment.

Prerequisites: CJC 319.

CJC 5520 Juvenile Justice Credits: 3

This course provides a historical and contemporary overview of the juvenile justice system via a critical examination of the function of this system and theories explaining delinquency in adolescence. We will explore special topics within juvenile justice and proposals for juvenile justice reform.

CJC 5551 Seminar In Policing Credits: 3

This course addresses the important topics related to the institution of policing. Through readings and class discussions, students will gain a better understanding of both historical aspects of policing as well as the future of policing. Topics include selection, training and socialization, police management, deviance and corruption, use of force, community oriented policing.

CJC 5565 Seminar In Crime Prevention Credits: 3

This seminar examines variations in methods to reduce crime in America, including strategies from the criminal justice system as well as other institutions. Building on established criminological theory, this seminar will evaluate the best practices to prevent crime across a variety of social contexts.

CJC 5570 Contemporary Corrections And Correctional Policy Credits: 3

Present-day correctional alternatives are considered regarding the correctional policy that is, or potentially can be, carried out within the various programs. Prisons, probation, parole community-based programs are evaluated as to the theory of punishment demonstrated within these programs. Emphasis is placed on what constitutes a rational and workable corrections policy and the form of correctional programs needed to realize such policy.

CJC 5575 Correctional Rehabilitation And Treatment Credits: 3

This course will begin with a thorough examination of the rise, fall, and recent resurrection of "rehabilitation and treatment" in American correctional strategies. Both past and current treatment strategies will be studied regarding their effectiveness in reducing recidivism. This will be done through a survey of the quantitative literature base. There will be some emphasis on treating special needs offenders (e.g., sex offenders, juvenile offenders, offenders with developmental disabilities or mental illnesses.)

CJC 5576 Seminar In Criminal Justice And Criminology Issues Credits: 3

This course is an advanced exploration of the relationship between the criminal justice system and criminal behavior from at least one of the following perspectives: psychological, sociological, economic, legal, political or administration/ management. Will include discussions and analysis of contemporary readings and on-going research in the selected perspective.

CJC 5580 Seminar: Policy And Decision Making In Criminal Justice Credits: 3

The focus of the course is assessment of the character and recent crime trends in the United States, with attention to identifying elements that shape justice system policies in response to crime. Consideration is given to the nature and scope of policy and decision-making processes in legal institutions and law enforcement bureaucracies, how such policies have impacted crime, and alternative policies address the problem of crime.

CJC 5590 Directed Studies In Criminal Justice And Criminology Credits: 1-3

Individual research and study in the student's field of interest as approved and directed by major professors. The work involves examination and reporting of selected problems affecting the various agencies of our legal system. A. Law Enforcement B. Court Operations and Administration C. Corrections D. Legal Theory and Philosophy E. Criminological Theory F. Sociology of Law.

CJC 5592 Advanced GIS For Crime Analysis Credits: 3

This course provides an overview of crime mapping as it relates to the spatial and temporal analysis of crime. Utilizing theory related to criminal offending, this course will provide students with hands-on experience in geographic profiling and crime prevention strategies.

Prerequisites: GEOG 203.

CJC 5595 Crime Analysis Internship Credits: 3

This experience involves working with crime analysts in the field. Students will learn and hone practical skills while being supervised by department faculty or staff.

Prerequisites: CJC 5592.

CJC 5599 Research And Thesis Credits: 1-6

Directed specialized research. Before writing a thesis, the student must clear the topic and research design with the Supervisory Committee.

CJC 5699 Dissertation Research Credits: 1-12

Individual directed research leading to preparation and completion of doctoral dissertation.

Prerequisites: Ph.D. course requirements completed.

CJC 5899 Required Graduate Enrollment Credit: 1

Minor in Criminal Justice and Criminology

Student Learning Outcomes

Students graduating from this program will:

- Demonstrate knowledge of the Criminal Justice System, its subsystems (the institutions and structures of police, courts, and corrections) and their interactions (processes).
- Demonstrate knowledge of the major theoretical explanations for individual motivations to commit crime as well as the nature/occurrence of crime which includes the prominent schools of criminological thoughts - the Positivist, Classical and Chicago Schools of Criminology - and emergent theories.
- Demonstrate the ability to analyze criminal justice literature, through reading comprehension and interpretation.

Program Requirements

Undergraduate students can obtain a CJC minor. A minimum of 18 credit hours is required, including the introductory course CJC 101. At least 9 of the 18 credit hours must be in courses at the 300 or 400 level, and at least 9 of the 18 credit hours must be taken at UMKC. Only 6 credit hours from the major field of study may be applied toward a CJC minor, and only 3 credit hours may overlap between two minors. Students should receive a grade no lower than a C- in the required course and should have an overall 2.0 GPA for the minor.

Bachelor of Arts: Criminal Justice and Criminology

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- be able to communicate professionally and effectively orally and in writing for the identified audience.
- identify the diverse skills needed to succeed in this field and utilize these skills to address real-world problems.
- evaluate different careers paths resulting from their CJC undergraduate degree.
- demonstrate the ability to link theory, research and policy.
- demonstrate the ability to engage with and address existing social problems.

The mission of the Bachelor of Arts in Criminal Justice and Criminology is to offer students the opportunity to learn how to analyze and interpret the systems of social control that are applied through the criminal justice system and throughout society, as well as how to explain the causes and consequences of these social structures. This major focuses on crime, criminals, and professionals who handle these concerns through arrest, court processing and punishments. As such, the major emphasizes community engagement and service so to prepare students for the jobs and leadership opportunities that will be necessary for their role as future change agents. The major offers skills in critical thinking and in conducting and evaluating research which promote evidence-based decision-making and effective communication. Always striving for best practices, this major is especially relevant to the urban engagement mission of the university, and its domain is always situated within inclusive learning environments which demand students become culturally competent individuals in order to understand and thrive in society.

Career Implications

The B.A. curriculum is designed to prepare students for entry-level positions and middle-management careers in the public and private sectors of police and security services, adult and juvenile justice systems and post-adjudicatory services such as probation, parole and related private organizations, as well as federal, state and local administrative agencies. The program is intended to augment skills that are developed in the training programs and academies of service agencies and to develop new talent for the wide variety of agencies and organizations that administer our legal institutions. In addition to the foregoing variety of career roles, CJC majors can exercise career options in consulting, government, human services, journalism and urban planning, and with the appropriate graduate training, in teaching social work, criminology and law.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3

COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9

Total Credits		36

Students must receive a grade of no lower than C- in the core required courses (CJC 101, CJC 301, CJC 302, CJC 303, and CJC 495WI) and achieve an overall GPA of 2.0 in the major. Students with more than one academic major may apply only 9 credit hours from another degree program toward the CJC major.

It is suggested that students broaden their course choices by selecting related offerings in English (especially those courses that stress writing skills), philosophy, history, geography, political science, psychology, sociology and public administration.

CJC Elective Restrictions

In selecting courses to fulfill the 15 credit hours of CJC electives, CJC majors and minors should be aware of the following restrictions:

- No more than 3 credit hours of CJC 490 may be used to fulfill CJC elective requirements.
- No more than 3 credit hours of CJC 491 may be used to fulfill CJC elective requirements.
- No more than 3 credit hours of CJC 492 may be used to fulfill CJC elective requirements.

Students who are pursuing the CJC major or minor are strongly encouraged to meet with a CJC advisor each semester to review their progress toward degree completion, as well as to determine the appropriateness of coursework selected.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		41

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC’s Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC’s PlanMyDegree ‘Audit’ (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students’ officially recorded (Office of Registration and Records) and “what if” exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC’s PlanMyDegree ‘Plans’ (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student’s officially recorded (Office of Registration and Records) and “what if” exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC’s Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program’s individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student’s responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year			
Fall Semester	Credits	Spring Semester	Credits
CJC 101 ^{CC}		3 CJC 301 ^{CC}	3
GEFSE 101		3 ENGLISH 225	3
ENGLISH 110		3 STAT 115, MATH 110, or MATH 116	3
GECRT-SS 101		3 GECRT-AH 101	3
Foreign Language Requirement (110 or higher)		3 Foreign Language Requirement (120 or higher)	3

Second Year

Fall Semester	Credits	Spring Semester	Credits
CJC 302 ^{CC}		3 CJC 303 ^{CC}	3
COMM-ST 110, 140, or 277		3 CJC 3XX/4XX Systems Course 1	3
HISTORY 101, 102, or POL-SCI 210		3 GECUE 201	3
GECDV 201		3 GECRT-SC 101	3
Foreign Language course (211)		3 Lab Science ^{LO}	1
		General Elective	3
	15		16

Third Year

Fall Semester	Credits	Spring Semester	Credits
CJC 3XX/4XX Systems Course 2		3 CJC 2XX/3XX/4XX Major Elective	3
CJC 2XX/3XX/4XX Major Elective		3 CJC 3XX/4XX Major Elective	3
General Elective		3 General Elective	3
General Elective		3 General Elective	3
General Elective		3 General Elective	3
	15		15

Fourth Year

Fall Semester	Credits	Spring Semester	Credits
CJC 495WI		3 CJC 3XX/4XX Major Elective	3
CJC 3XX/4XX Major Elective		3 General Elective (3XX/4XX if needed)	3
General Elective (3XX/4XX if needed)		3 General Elective	3
General Elective		3 General Elective	3
General Elective		3 General Elective	2
	15		14

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Master of Science: Criminal Justice and Criminology

Student Learning Outcomes

Students graduating from this program will:

- demonstrate broad and deep knowledge of the prevailing explanations for criminal behavior (both macro/social causes, as well as micro/individualistic causes). Students will understand the historical origins of the prevailing theoretical explanations for criminal behavior, and will become fluent in the empirical literature that has served to test and further develop those theories.
- demonstrate the ability to design and execute research. Specifically, students will learn how to fully develop and execute a research proposals/projects of both a qualitative and quantitative nature. Students will also demonstrate the ability to analyze data, interpret findings, and communicate those findings in an accessible way to a general audience.
- demonstrate comprehensive knowledge regarding trends in crime, including crime trends throughout American history, and reasons for shifts in crime trends. Likewise students will demonstrate how and why policy develops within the Criminal Justice System, as well as what impact major policy shifts have had on the Criminal Justice System.

Program Description

The M.S. degree in Criminal Justice and Criminology (CJC) offers coursework that emphasizes policy analysis of criminal justice and criminology issues. The M.S. in CJC prepares those seeking appropriate study and academic credentials to qualify for management and administrative positions in justice-related agencies. The degree may also serve as preparation for advanced study in criminology and criminal justice at the doctoral level.

Application Procedures

Applicants must submit an application for admission to UMKC and transcripts of their undergraduate work (and other graduate work if applicable) to the university Office of Admissions. We use a rolling admission process but the priority deadline for spring is November 1st. For fall and for graduate teaching assistantships (GTAs), the priority deadline is April 1st. The department strongly recommends that application materials be submitted well in advance of the posted due date to ensure all materials will be on hand in time for review. Decisions regarding admission to the graduate program are made by the graduate faculty of the program. Materials are reviewed with attention to past academic performance and substantive areas of study that would prepare students for CJC graduate study.

Admission Requirements

The minimum admission requirements for entrance into the M.S. in CJC program include the following:

1. Completed an undergraduate degree, from an accredited university or college, preferably with coursework in the socio-behavioral sciences sufficient to prepare for graduate-level study in the criminal justice and criminology field.
2. Achieved a minimum cumulative GPA of 3.0 in all undergraduate work.
3. Additionally, applicants must upload a personal statement. This statement should be two to three pages in length (double-spaced) and should identify how the applicant's undergraduate education and their work or personal experience has prepared them for graduate study. Applicants are also encouraged to express how they view study in our graduate program as fitting with their future career or educational goals. It is recommended that students review the M.S. in CJC program's course offerings as well as the concentration areas of the faculty in order to glean additional information about what the academic programming has to offer.
4. Two letters of recommendation: Applicants should provide contact info for at least two individuals who have agreed to provide references on their behalf. Letter writers will be asked to submit these electronically. References should be provided by individuals who are not related to the applicant, ideally will come from individuals who have direct knowledge of the applicant's academic credentials and preparedness, and describe the applicant's scholastic aptitude and their level of preparation for graduate-level education.

The application process is competitive. Satisfaction of the minimum criteria stated above does not guarantee admission to the graduate program of study. Students are admitted according to their rank in the applicant pool and consideration of the adequacy of departmental resources. Students who do not meet admission requirements, but who otherwise may show promise for graduate work, may be admitted provisionally to the program. Provisional admission means deficiencies must be corrected before a student is fully admitted as a degree-seeking student in the M.S. in CJC program. Typical deficiencies include a need to take undergraduate coursework to prepare for graduate study in this program, or to demonstrate scholastic ability in graduate-level courses.

The Department of Criminal Justice and Criminology's mission is to lead in graduate education within the area of Criminal Justice and Criminology; to deepen and expand scientific understanding of America's justice systems; to develop a graduate-educated workforce and collaborate in urban issues and education; to create a vibrant learning and campus life experience for our master's students.

The M.S. in CJC degree requires successful completion of 30 credit hours of graduate work. Within these 30 hours, students may elect to complete a thesis or pursue the Demonstration Project.

A core of five courses is required of all students. The required courses include:

Code	Title	Credits
CJC 5511	Sociological Methods II	3
CJC 5515	Qualitative Research Methods in Criminal Justice	3
CJC 5516	Intermediate Statistics	3
CJC 5518	Advanced Criminological Theory	3
CJC 5580	Seminar: Policy And Decision Making In Criminal Justice	3
Total Credits		15

The required graduate courses in statistics, research methods and theory demand completion of prerequisite courses in these areas from the student's undergraduate work. Those who have not had such courses may be required to take the prerequisite course(s) prior to enrolling in the graduate course. Beyond the required courses, students must complete an additional 15 hours of academic work. This work should include the available M.S. in CJC electives (which include the three courses listed above, of which at least one must be taken), other graduate-level courses from other departments that have been approved by the student's Thesis Committee or the Graduate Committee prior to enrollment, and other coursework from the CJC curriculum that has been approved by the Graduate Committee prior to enrollment. These hours may also include Thesis hours, or Directed Study hours per the Demonstration Project depending on the desires of the student. The content of the 15 hours of study will reflect the student's choices after consultation with their Thesis advisor, and/or the Graduate Committee, as well as the student's decision regarding the Thesis or the Demonstration Project option.

In sum, the following generally reflects the two options - Thesis Option and Demonstration Project Option:

- Thesis Option: 15 credit hours of required courses + 9 hours of M.S. CJC graduate elective coursework + 6 hours of Thesis = 30.0 credit hours.
- Demonstration Project Option: 15 credit hours of required courses + 12 hours of M.S. CJC graduate elective coursework + 3 hours of Directed Studies = 30.0 credit hours.

Thesis Option

Those electing to write a thesis as part of their graduate work can receive up to 6 hours credit (CJC 5599) for preparation of the thesis. In addition to writing the thesis students must successfully complete an oral defense of that thesis before their supervisory committee. Thesis defenses are also open to the public. The research topic of the thesis will address some issue of specific interest to the student under the advisement of their thesis chair. Through courses, literature review, and analyses conducted in developing the thesis, students are expected to become proficient in their specific thesis topic area.

Demonstration Project Option

Students electing the Demonstration Project Option will take 3.0 credit hours of CJC 5590: Directed Studies, during their final semester of coursework. In addition, students conducting Demonstration Projects will take one additional 3.0 credit hour elective. These 6.0 credit hours (CJC 5590 - Directed Studies for the Demonstration Project along with one additional 3.0 credit hour elective) are in lieu of the 6.0 credit hours of CJC 5599 that a student electing to conduct a Thesis would take.

The demonstration project will require the student to write an independent research paper that outlines solutions to a given scenario. The process is designed to reflect the academic peer-reviewed protocol and will involve two stages of blind review. Please see the Graduate Guidebook and/or the graduate director for more detail regarding the Demonstration Project.

Dual BA/MS Degree

Student Learning Outcomes

Students graduating from this program will:

- Students will be able to communicate professionally and effectively orally and in writing for the identified audience.
- Students will identify the diverse skills needed to succeed in this field and utilize these skills to address real-world problems.
- Students will evaluate different careers paths resulting from their CJC undergraduate degree.
- Students will demonstrate the ability to link theory, research, and policy.
- Students will demonstrate the ability to engage with and address existing social problems.
- Student will be able to analyze research on criminal justice topics.
- Student will be able to communicate professionally and effectively orally and in writing for the identified audience.
- Students will be able to design and execute research on a criminal justice topic.

- Students will apply a broad and deep knowledge of the prevailing explanations for criminal behavior to understand criminal justice problems.
- Students will be able to identify and evaluate the most appropriate policy or program to address criminal justice issues.

Student Learning Outcomes BA CJC

- Students will be able to communicate professionally and effectively orally and in writing for the identified audience.
- Students will identify the diverse skills needed to succeed in this field and utilize these skills to address real-world problems.
- Students will evaluate different careers paths resulting from their CJC undergraduate degree.
- Students will demonstrate the ability to link theory, research, and policy.
- Students will demonstrate the ability to engage with and address existing social problems.

The mission of the Bachelor of Arts in Criminal Justice and Criminology is to offer students the opportunity to learn how to analyze and interpret the systems of social control that are applied through the criminal justice system and throughout society, as well as how to explain the causes and consequences of these social structures. This major focuses on crime, criminals, and professionals who handle these concerns through arrest, court processing and punishments. As such, the major emphasizes community engagement and service so to prepare students for the jobs and leadership opportunities that will be necessary for their role as future change agents. The major offers skills in critical thinking and in conducting and evaluating research which promote evidence-based decision-making and effective communication. Always striving for best practices, this major is especially relevant to the urban engagement mission of the university, and its domain is always situated within inclusive learning environments which demand students become culturally competent individuals in order to understand and thrive in society.

Student Learning Outcomes MS CJC

- Student will be able to analyze research on criminal justice topics.
- Student will be able to communicate professionally and effectively orally and in writing for the identified audience.
- Students will apply a broad and deep knowledge of the prevailing explanations for criminal behavior to understand criminal justice problems.
- Students will be able to identify and evaluate the most appropriate policy or program to address criminal justice issues.
- Students will be able to design and execute research on a criminal justice topic.

The Department of Criminal Justice and Criminology's mission is to lead in graduate education within the area of Criminal Justice and Criminology; to deepen and expand scientific understanding of America's justice systems; to develop a graduate-educated workforce and collaborate in urban issues and education; to create a vibrant learning and campus life experience for our master's students.

The M.S. in CJC degree requires successful completion of 30 credit hours of graduate work. Within these 30 hours, students may elect to complete a thesis or pursue the Demonstration Project.

Proposed Curriculum Requirements

Dual BA/MS Program

Department of Criminal Justice and Criminology

BA Requirements

The undergraduate major in criminal justice and criminology (CJC) requires 36 credit hours. Students must achieve a grade of no lower than a C# in the core requirement courses and achieve an overall GPA of 2.0 in the major. Students with more than one academic major may apply only 9 credit hours from another degree program toward the CJC major. Students must complete 21 hours at UMKC. It is suggested that students broaden their program of study by selecting related offerings in English (especially those courses that stress writing skills), philosophy, history, geography, political science, psychology, sociology public administration, urban planning, and Black, Latinx and Latin American, Women's, Gender, and Sexuality Studies.

Code	Title	Credits
Foundation Courses		
CJC 101	Introduction To Criminal Justice	3
CJC 301	Theoretical Criminology	3
CJC 302	Methods of Criminological Research	3
CJC 303	Introduction to Statistics in Sociology and Criminal Justice	3
Systems Courses		
Select one course from two different systems:		6
Policing:		
CJC 351	Policing In The Community	

CJC 354	Policing in America	
Courts:		
CJC 361	Principles & Practices of Criminal Courts	
CJC 364	The Supreme Court And The Criminal Process	
Corrections:		
CJC 370	Principles Of Corrections	
CJC 371	Community Corrections	
Capstone Course		
CJC 495WI	Capstone: Criminal Justice And Criminology	3
Major Electives (see restrictions below)		15
Total Credits		36

Remaining Coursework: CJC Electives (15 hours)

In selecting courses to fulfill the 15 credit hours of CJC electives, CJC majors and minors should be aware of the following restrictions.

- No more than 3 credit hours of CJC 490 may be used to fulfill CJC elective requirements.
- No more than 3 credit hours of CJC 491 may be used to fulfill CJC elective requirements.
- No more than 3 credit hours of CJC 492 may be used to fulfill CJC elective requirements.

Students who are pursuing the CJC major or minor are strongly encouraged to meet with a CJC advisor each semester to review their progress toward degree completion, as well as to determine the appropriateness of coursework selected.

MS Requirements

The M.S. in CJC degree requires successful completion of 30 credit hours of graduate work. Within these 30 hours, students may elect to complete a thesis or pursue the Demonstration Project.

Code	Title	Credits
Required Courses		
CJC 5511	Sociological Methods II	3
CJC 5515	Qualitative Research Methods in Criminal Justice	3
CJC 5516	Intermediate Statistics	3
CJC 5518	Advanced Criminological Theory	3
CJC 5580	Seminar: Policy And Decision Making In Criminal Justice	3
Thesis or Demonstration Project Option (see below)		15
Total Credits		30
Code	Title	Credits
Thesis Option		
CJC Electives		9
CJC 5599	Research And Thesis	6
Total Credits		15
Code	Title	Credits
Demonstration Project Option		
CJC Electives		12
CJC 5590	Directed Studies In Criminal Justice And Criminology	3
Total Credits		15

The required graduate courses in statistics, research methods and theory demand completion of prerequisite courses in these areas from the student's undergraduate work. Those who have not had such courses may be required to take the prerequisite course(s) prior to enrolling in the graduate course. Beyond the required courses, students must complete an additional 15 hours of academic work. This work should include CJC graduate electives, other graduate-level courses from other departments that have been approved by the student's Advisor prior to enrollment, and other coursework from the CJC curriculum that has been approved by the Graduate Committee prior to enrollment. These hours may also include Thesis hours, or Directed Study hours per the Demonstration Project depending on the desires of the student. The content of the 15 hours of study will

reflect the student's choices after consultation with their Advisor, as well as the student's decision regarding the Thesis or the Demonstration Project option.

In sum, the following generally reflects the two options - Thesis Option and Demonstration Project Option:

- Thesis Option: 15 credit hours of required courses + 9 hours of M.S. CJC graduate elective coursework + 6 hours of Thesis = 30.0 credit hours.
- Demonstration Project Option: 15 credit hours of required courses + 12 hours of M.S. CJC graduate elective coursework + 3 hours of Directed Studies = 30.0 credit hours.

Thesis Option

Those electing to write a thesis as part of their graduate work can receive up to 6 hours credit (CJC 5599 (<https://catalog.umkc.edu/search/?P=CJC%205599>)) for preparation of the thesis. In addition to writing the thesis students must successfully complete an oral defense of that thesis before their supervisory committee. Thesis defenses are also open to the public. The research topic of the thesis will address some issue of specific interest to the student under the advisement of their thesis chair. Through courses, literature review, and analyses conducted in developing the thesis, students are expected to become proficient in their specific thesis topic area.

Demonstration Project Option

Students electing the Demonstration Project Option will take 3.0 credit hours of CJC 5590 (<https://catalog.umkc.edu/search/?P=CJC%205590>): Directed Studies, during their final semester of coursework. In addition, students conducting Demonstration Projects will take one additional 3.0 credit hour elective. These 6.0 credit hours (CJC 5590 (<https://catalog.umkc.edu/search/?P=CJC%205590>) - Directed Studies for the Demonstration Project along with one additional 3.0 credit hour elective) are in lieu of the 6.0 credit hours of CJC 5599 (<https://catalog.umkc.edu/search/?P=CJC%205599>) that a student electing to conduct a Thesis would take.

The demonstration project will require the student to write an independent research paper that outlines solutions to a given scenario. The process is designed to reflect the academic peer-reviewed protocol and will involve two stages of blind review. Please see the Graduate Guidebook and/or the graduate director for more detail regarding the Demonstration Project.

Revised

Criminal justice and criminology (CJC) majors may apply for admission to the combined program no earlier than the end of the sophomore year, but must apply to the combined program prior to applying for graduation from the BA program. Applicants must have a minimum 3.0 overall GPA and a minimum 3.0 major GPA; have completed 12 credit hours of criminal justice and criminology coursework, including CJC 101 (or equivalent).

Applicants must provide a letter of application to the Graduate Director expressing personal plans and interest in graduate work in criminal justice. The application process is competitive, and satisfying minimum requirements does not guarantee admission to the program. Admission to the combined program is provisional pending the award of the Bachelor's degree.

Students must apply after completion of 60 hours toward their BA degree and prior to the start of the anticipated undergraduate graduation term. Student applications will be reviewed and approved or denied at the discretion of the Graduate Committee. **The deadline for decision is December 1 for a May Graduation and May 1 for a December graduation.**

Admission to the combined program does not guarantee retention in the program. A student whose GPA falls below 3.0 for more than two semesters or who is found guilty of academic dishonesty will be dropped from the combined program. A student who has been dropped from the combined BA/MS program will not automatically be dropped from the criminal justice and criminology BA. Students enrolled in the BA/MS combined program may choose to leave the program before completing the requirements for the MS degree and still receive their BA, conditional upon completing the requirements for that degree.

To apply, students must submit an application (Application form) and a completed Declaration of Major form to the Department of Criminal Justice and Criminology (Declaration forms).

Department of Earth and Environmental Science

Professors Emeriti:

Raymond M. Coveney, Jr., Steven L. Driever, Richard J. Gentile, Syed E. Hasan, Daniel P. Hopkins, James B. Murowchick

Department Description

The Department of Earth and Environmental Sciences offers programs of study leading to bachelor of science degrees in Earth and Environmental Sciences with emphases in Environmental Science, Geography, and Geology and bachelor of arts degrees in Environmental Studies. The department offers a master of science degree in Environmental and Urban Geosciences and participates in the Interdisciplinary Ph.D. program. The department also offers an undergraduate and graduate certificate in Geographic Information Systems (GIS). Students who designate Earth and Environmental Sciences on their application for admission to the doctoral program must meet admission and other requirements available from the department. See the School of Graduate Studies section in the Graduate Catalog for more information about doctoral programs. The department takes a leading role in the undergraduate interdisciplinary Environmental Studies program. Courses offered by the department can be used to fulfill the requirements of the Missouri Department of Education for earth science, science-math, and social science teaching specialties.

Students majoring in Earth and Environmental Sciences obtain a broad liberal arts education during their undergraduate career and at the same time receive sound fundamental training in the geosciences. Departmental faculty members are committed to educating non-majors about the earth and environmental sciences as well as those students who plan to pursue careers in the geosciences.

All undergraduate majors in the Department of Earth and Environmental Sciences must maintain a minimum grade point average above 2.0 in all courses taken to fulfill departmental degree requirements. This minimum GPA also applies to all credit hours transferred from other institutions.

Students in the Earth and Environmental Sciences address earth-related questions and problems facing society today. Environmental studies focuses on environmental processes and policy. Geography deals with place and the relationships between people and the environment. Geology explores the materials and processes of the earth and its evolution and history.

We offer unique university experiences such as field courses and excursions. The Earth and Environmental Sciences' faculty and students have conducted research in many countries such as Jordan, Mexico, Chad, China, Korea, Cameroon, the Bahamas, Denmark, Spain, India and Turkey.

Special Resources and Services

Geosciences Museum

The Geosciences Museum, founded by Richard L. Sutton, M.D., is located in Room 271, R.H. Flarsheim Hall. It contains relief models and interactive displays, along with a full range of 2,500 spectacular mineral and fossil specimens from all over the world. Hours of operation are 8:30 a.m. to 4:30 p.m. Monday through Friday. Admission is free.

Center for Applied Environmental Research (CAER)

The Center for Applied Environmental Research <http://cas.umkc.edu/caer> (<http://cas.umkc.edu/caer/>) is administered by the Geosciences Department and directed by Professor Jimmy O. Adegoke. The center is a resource for governmental agencies, private firms, and the general public in matters of the environment. Its programs address such matters as environmental geophysics, geochemistry, underground space, foundation stability, waste management, geologic hazards, environmental justice, natural resource assessment, and land-use planning.

Undergraduate Admission Requirements

Prospective students desiring to major in the Earth and Environmental Sciences programs should enroll in as much work as possible in mathematics, English composition and sciences during their high school years.

Students transferring from other colleges or universities should have taken required non-departmental 100- and 200-level courses listed under degree programs in this catalog prior to arriving at UMKC. For example, geology students should take mineralogy during their first fall semester after transferring and should have already completed the chemistry prerequisite by that time. In addition, it would be desirable for B.S. majors to have completed a semester of calculus. To assure that students transferring from other institutions of higher education can continue in an uninterrupted

plan of study in the fields of geology, geography or environmental studies, it is advisable that they acquaint themselves with the departmental degree requirements listed in this catalog as well as the two-year timetable of course offerings available from the department advisors, prior to registration.

Careers for Geography, Geology and Environmental Studies/Science Graduates

Geography

Students of geography at UMKC are offered a well-rounded education leading to promising career prospects; the market for geographers is global. Geography is centrally concerned with the whole range of interrelations between human beings and the natural and built environments. Geography graduates find work in commerce; government and public administration; city and regional planning; natural resource management and environmental conservation; historic preservation; landscape design; pollution control; weather-forecasting; climatological and agricultural analysis; statistical analysis; government and commercial map-making; transportation; the travel and tourism industry; market analysis and development; diplomacy; and national and international economic development programs. Experience with geographic information science (GIS) and remote sensing technologies is a great advantage in all these fields. Well-educated geographers are often involved in the crafting of policy and legislation, in the practice of law, in consulting, in publishing and in education.

Geology

Geology graduates have numerous employment opportunities, especially in areas relating to the environment, to engineering and to applied geology. Training in urban and environmental geology will prepare graduates to develop and evaluate environmental impacts, deal with waste management issues; model groundwater flow; handle laboratory and field instrumentation; and assess natural hazards. Geologic studies of soils, energy, mineral and water resources, and the environment are essential for private industry, as well as for governmental agencies. Graduates may also join state and federal geological surveys. The petroleum industry was for many years the principal employer of geologists. However, currently the best employment opportunities are in the area of the environment.

Environmental Studies

Environmental issues such as climate variation, atmospheric pollutants and non-point-source water pollution are complex issues. The general public is ill-equipped to evaluate these issues and must rely on experts. The need for environmental education and professionals in the field of the environment has never been greater. Given these needs, employment opportunities are unlimited and are likely to remain so for decades. Specific careers available to those who hold an environmental studies degree lie with companies and agencies that deal with engineering, environmental geology, environmental law, environmental health and safety, emergency response, environmental training, environmental chemistry, politics and social issues.

Departmental Activities

Advising System

Students who wish to major in Geology, Geography or Environmental Studies should seek advice from the department at the earliest possible time. Transfer students, including those from local community colleges, should see faculty advisors in the department prior to admission to UMKC. All full-time faculty members serve as department advisors, but lead roles are designated to particular faculty for each discipline. Individuals may inquire about advising appointments at any time during the semester by phone at (816) 235-1334 or by email at geosciences@umkc.edu.

Practicums and Internships

The nature of the fields of atmospheric science, environmental studies, geology, and geography necessitates practical in-class and laboratory exercises; field trips and fieldwork; working seminars and independent projects of a practical nature. More explanation of specific courses can be found in the individual course descriptions. Internships are available with local organizations.

Financial Aid and Transportation Costs

A variety of scholarships and student financial aid alternatives are available to students accepted for regular enrollment. (See the Financial Aid website <http://www.umkc.edu/finaid> (<http://www.umkc.edu/finaid/>) for more information.) Scholarships available solely to Geosciences students include the ASCE-AEG Scholarship Fund, Association of Earth Sciences Clubs Fund, Richard J. Gentile Scholarship, The Geosciences Scholarship, the Truman Stauffer Memorial Scholarship, and the Denis Ward Scholarship. Please note that certain field courses and field trips necessitate that some travel costs are at the expense of the individual student.

Teacher Certification in Earth Science or Social Science

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Earth Science teacher in either Kansas or Missouri requires that a student complete specific requirements in Biology, Chemistry, Environmental Studies, Geology, Physics and in the School of Education. Certification as a middle school (grades 5-9) or secondary (grades 9-12) Social Science teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and in the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education (p. 1430) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Faculty

Jimmy O. Adegoke^{2,3}; Professor of Geosciences; B.S. (Ahmadu Bello University); M.S. (University of Ibadan); Ph.D. (Pennsylvania State University).

Raymond M. Coveney, Jr.; Professor Emeritus of Geosciences; B.S. (Tufts University); M.S., Ph.D. (University of Michigan).

Caroline P. Davies; Associate Professor of Geosciences; B.A. (College of William-Smith); M.S. (University of Maine); Ph.D. (Arizona State University).

Steven L. Driever; Professor Emeritus of Geosciences; B.A. (University of Virginia); M.S. (Northwestern University); Ph.D. (University of Georgia).

Richard J. Gentile; Professor Emeritus of Geosciences; B.A., M.A. (University of Missouri-Columbia); Ph.D. (University of Missouri-Rolla).

Alison Graettinger; Assistant Professor of Geosciences.

Syed E. Hasan^{2,3}; Professor Emeritus of Geosciences; B.S. (Patna University); M.S. (Indian Institute of Technology, formerly Roorkee University); Ph.D. (Purdue University).

Daniel P. Hopkins Professor Emeritus of Geosciences; B.A. (Tulane University); Ph.D. (Louisiana State University)

Paul L. Hilpman Professor Emeritus of Geosciences; A.B. (Brown University); M.A., Ph.D. (University of Kansas).

Wei Ji^{2,3}; Professor of Geosciences; B.S., M.S. (Peking University); Ph.D. (University of Connecticut).

Jejung Lee^{2,3}; Professor of Geosciences; B.S., M.S. (Seoul National University); Ph.D. (Northwestern University).

Tina M. Niemi^{2,3}; Professor of Geosciences; B.A. (College of Wooster); M.S., Ph.D. (Stanford University).

Fengpeng Sun^{2,3}; Assistant Professor of Geosciences; B.S. (Nanjing University); M.S., Ph.D. (University of California-Irvine).

³Members of UMKC Doctoral Faculty

Environmental Science Courses

ENV-SCI 110L Understanding the Earth Laboratory Credits: 2

Laboratory and field demonstration and exercises in environmental science. Weekly exercises or field trips.

ENV-SCI 110L - MOTR PHYS 110LES: Essent. Physical Sciences w/Lab

ENV-SCI 110R Understanding the Earth: Introduction to Environmental Science and Laboratory Credits: 3

This introductory course surveys the processes that shape our planet. Topics include: plate tectonics and mountain-building, rivers and oceans, atmospheric circulation, weather and climate, and the amazingly complex relationships between life on Earth and the physical environment.

ENV-SCI 110R - MOTR PHYS 110ES: Essentials in Physical Sciences

ENV-SCI 210 Issues in Environmental Science Credits: 3

Explores important environmental issues such as air and water pollution, water supply, climate change, agriculture and food supply, environmental health, ecosystem disruption, environmental management, environmental ethics, and energy resources. Topics may vary depending on current events.

ENV-SCI 220 Ecosystem Science for Decision Makers Credits: 3

This course addresses the fundamentals of ecosystem science with an emphasis on human-induced change in natural systems. Course content characterizes the biological patterns found in nature emphasizing application of underlying principles. Scientific tools are provided to evaluate ecosystem concerns and make informed decisions.

ENV-SCI 303 Weather and Climate Credits: 4

Overview of weather processes and the main components of the climate system. Emphasis is on the physical basis of daily weather patterns, seasonal climate variability and longer-term climate change at local, regional, and global scales. The theme throughout the course will be the importance of weather and climate as major drivers of environmental change.

Prerequisites: ENV-SCI 110R or GEOLOGY 220.

ENV-SCI 321 Climate Change Impact Assessment and Policy Response Credits: 3

This course introduces how scientists assess observed climate change and predict future climate change. Lectures, discussions, problem sets, and term papers help students explore interactions among climate change, human activities and policy responses. It helps students achieve an appreciation for the role of accurate scientific information as foundation for shaping political agreements and policies on climate change.

Prerequisites: ENV-SCI 110R.

ENV-SCI 332CZ Environmental Sustainability Credits: 3

This course will introduce the concept of sustainability and review how sustainability might work at the individual, neighborhood, state, nation and global scales. Students will participate in some form of community engagement on sustainability as well as reflect upon how their own practices impact the environment.

ENV-SCI 416 Understanding and Living with Volcanoes Credits: 3

This course will examine the distribution, tectonic setting, and morphology of a range of volcano types on Earth and a few examples from other planets. Students will study volcanic processes including explosive and passive processes and how we investigate them. This will involve discussion of volcanic hazards and hazard assessment, risk communication, and the challenges of volcanic crises response. The course will also cover how volcanoes impact the local and global economy and Earth's climate. Recommended preparation: GEOG 314 / GEOLOGY 314 or GEOLOGY 325 or GEOLOGY 342.

Prerequisites: GEOLOGY 220 or ENV-SCI 110R/ENV-SCI 110L, and GEOG 203 or GEOG 402.

ENV-SCI 449 Global Water and Sustainability Credits: 3

This course examines the physical characteristics of water and its role in Earth systems. The challenges facing societies in an era of rapidly-changing climate are explored.

ENV-SCI 496 Environmental Internship Credits: 1-4

Students obtain practical experience working for local engineering and environmental firms, or governmental agencies. Specific duties and application requirements will vary depending on the funding organization's needs. Junior or senior standing required for undergraduates.

ENV-SCI 5550 Ecotoxicology Credits: 3

This course addresses the fundamentals of ecotoxicology, integrating the sciences of ecology and toxicology. Students will learn the biological basis for pollutant effects on individuals and populations of plants and animals, how pollutant intensity varies as a function of bioavailability, the basics of risk assessment, and how pollutant effects are modified by ecological interactions within communities and ecosystems. The ultimate goal of ecotoxicology is to predict the effects of pollution within an ecological context.

Prerequisites: BIOLOGY 108, CHEM 211, CHEM 212R.

Environmental Studies Courses

ENV-STDY 325 Cultural Perspectives on the Environment Credits: 3

This course explores the history of conservation practices in American agriculture from the 1700s through the present. Additionally, the course examines the past and present legal implications of environmental statutes for minority farmers from a social and environmental justice perspective.

ENV-STDY 412 Global Tourism Credits: 3

This course is a regional survey of world tourism. Topics include the uniqueness of place, the marketing of tourist destinations, and the cultural, economic, and environmental impacts on host societies.

Prerequisites: GEOG 105 or GEOG 200 or GEOG 202.

ENV-STDY 450 Ecotoxicology Credits: 3

This course addresses the fundamentals of ecotoxicology, integrating the sciences of ecology and toxicology. Students will learn the biological basis for pollutant effects on individuals and populations of plants and animals, how pollutant intensity varies as a function of bioavailability, the basics of risk assessment, and how pollutant effects are modified by ecological interactions within communities and ecosystems. The ultimate goal of ecotoxicology is to predict the effects of pollution within an ecological context.

Prerequisites: BIOLOGY 108, CHEM 211, CHEM 212R.

ENV-STDY 499WI Environmental Studies Practicum Credits: 3

Students conduct research, participate in discussions, and prepare written reports on selected topics concerning the environment.

Prerequisites: Senior standing, RooWriter.

Geography Courses

GEOG 105 Introduction to the Elements of Geography Credits: 3

A survey of major elements of physical and human geography, with a concise overview of the world's regions. Emphasis on global relationships and distributions, both environmental and cultural. Climates, natural vegetation, land forms, cultural origins and diffusions, economic patterns.

GEOG 105 - MOTR GEOG 101: World Regional Geography

GEOG 150 Introduction to Physical Geography Credits: 3

This course is an introduction to the study of the natural environmental systems of earth—the atmosphere, the hydrosphere, the biosphere, and the lithosphere. The primary objective of the course is to provide a broad overview of these systems at a global scale. This overview will entail descriptions of natural systems and the variations they exhibit both from place to place and through time. It will also entail explaining how natural systems operate and interact with each other, thereby providing a necessary foundation for understanding the tremendously diverse physical geography of earth. Applies to natural science requirement.

GEOG 150 - MOTR GEOG 100: Physical Geography

**GEOG 200 World Geography I Credits: 3**

A survey of the physical and human geography of the regions and nations of Europe and the Americas, with Australia and New Zealand. The approach is strongly historical, emphasizing interconnections, shared colonial backgrounds and broader global contexts in the modern world. The course is aimed at non-specialists.

GEOG 202 World Geography II Credits: 3

A survey of the physical and human geography of the regions and nations of Russia and the other former Soviet republics, the Middle East, Africa, South Asia, East Asia Southeast Asia and the Pacific Realm. The approach is strongly historical emphasizing interconnections shared colonial backgrounds, and broader global contexts in the modern world. The course is aimed at non-specialists.

GEOG 203 Introduction to Geographic Information Systems Credits: 4

An introductory course covering the basic principles of geographic information systems focusing on such software programs as ARC-INFO and ARC-VIEW.

GEOG 210 Human Geography Credits: 3

A study of the geographical underpinnings and distribution of the main elements of culture, including population patterns, language, religion, political territorial organization, settlement, and economic livelihood. The environmental settings, geographic origins, diffusion, and geographic interrelationships of these culture traits are emphasized.

GEOG 215 Weather and Climate Credits: 4

Overview of weather processes and the main components of the climate system. Emphasis is on the physical basis of daily weather patterns, seasonal climate variability, and longer-term climate change at local, regional, and global scales. The theme throughout the course will be the importance of weather and climate as major drivers of environmental change.

GEOG 309 Urban Geography Credits: 3

Historical development, morphology and functions of urban places, including intercity relationships and the relationship between cities and their hinterlands; emphasis on American cities.

GEOG 311 Economic Geography Credits: 3

A systematic study of the modern world economy that includes discussion of the location of production and consumption, the nature and role of multinational enterprises in trade, resource limitations to growth, and cultural responses to globalization.

GEOG 314 Principles of Geomorphology Credits: 4

Explores the processes that shape the earth's surface. Focuses on the development and description of fluvial, glacial, eolian, and coastal landforms. Studies the influence of tectonic and climatic factors. Field trip.

Prerequisites: ENV-SCI 110R (or GEOLOGY 220).

GEOG 321 Climate Change Impact Assessment and Policy Response Credits: 3

This course introduces how scientists assess observed climate change and predict future climate change. Lectures, discussions, problem sets, and term papers help students explore interactions among climate change, human activities and policy responses. It helps students achieve an appreciation for the role of accurate scientific information as foundation for shaping political agreements and policies on climate change.

Prerequisites: ENV-SCI 110R.

GEOG 325 Cultural Perspectives on the Environment Credits: 3

This course explores the history of conservation practices in American agriculture from the 1700s through the present. Additionally, the course examines the past and present legal implications of environmental statutes for minority farmers from a social and environmental justice perspective.

GEOG 329 World Political Geography Credits: 3

An analysis of the influence of geographic factors (both physical and human) on the economic and political relationships of the nations of the world. Emphasis will be placed on population size and political viability of states, boundaries and frontiers as limits of national space, problems related to the spatial integration of states, and the independence and interdependence of states within the larger world political system.

GEOG 332 Cultural Geography Credits: 3

A study of the distribution and interpretation of cultural patterns throughout the world. Examined are material and non-material elements of culture such as settlement, land use, technology and belief systems. The geographic origins and diffusion of culture traits are emphasized.

GEOG 333 Geographic Elements of Urban Planning Credits: 3

Analysis of the changing form and structure of urban places from a planning viewpoint. The focus will be on land-use trends on both the intraurban and interurban levels. Covered will be such topics as planning for urban transportation, new towns, land-use planning, urban renewal, and environmental planning.

GEOG 340 Geography of the United States and Canada Credits: 3

A survey of the physical and human geography of the United States and Canada. The approach is strongly historical emphasizing interconnections, shared colonial backgrounds, and broader international contexts in the Americas and around the globe. This course is aimed at non-specialists.

GEOG 341 Geography of South America Credits: 3

A study of the physical and human geography of South America, with an emphasis on cultural processes and the historical record. Contemporary issues such as economic development, trade, urbanization, and geopolitical conflicts are discussed.

GEOG 342 Geography of Mexico, Central America and the Caribbean Credits: 3

A study of the physical and human geography of Middle America, with an emphasis on cultural processes and the historical record. Contemporary issues such as economic development, trade urbanization, and geopolitical conflicts are discussed.

GEOG 350 Geography of Europe Credits: 3

A survey of the physical and human geography of the regions and nations of Europe. The approach is strongly historical, emphasizing international interconnections and broad global contexts. The course is aimed at non-specialists.

GEOG 351 Regional Geography of the Middle East Credits: 3

A study of human imprint upon the land through settlement patterns, institutions of land organization, and types of economy. Strategies for the economic development of various regions in the Middle East are discussed.

GEOG 360 Principles of Biogeography Credits: 4

This course is an introduction to biogeography that explores the patterns of plant and animal distributions from both ecological and historical perspectives. We examine past geologic and climatic conditions, as well as interactions between organisms and their environment to explain modern distributions of flora and fauna. Human interactions with plants and animals have increasingly profound consequences on distributions of flora and fauna from destruction to management. We explore the increasing importance of issues and strategies in conservation. The laboratory portion of the course builds on core ecological concepts and provides experiences of field observation, data collecting and data analysis.

Prerequisites: ENV-SCI 110R.

GEOG 398 Field Trip Credit: 1

Three-day field trip in March or April (at student's expense) for department majors. An opportunity to observe and study physical and cultural features and collect materials. Brief descriptive report of trip required. Recommended preparation: 6-9 hours of upper-level geography.

GEOG 401 Advanced Geographic Information Science Credits: 4

This course is designed for the students knowledgeable in the fundamentals of geographic information systems, who wish to gain expertise in advanced topics and applications in geographic information systems, remote sensing, and related environmental informatics. Classes are organized to encourage active learning. Students are encouraged and guided to develop their research projects by integrating related techniques of geographic information science.

Prerequisites: GEOG 203 or GEOG 450.

GEOG 402 Environmental Remote Sensing and Digital Image Analysis Credits: 4

This course will provide students with innovative techniques for landscape-level environmental analysis, geographic and geological studies, earth science research, and environmental resources management using remotely sensed data including satellite images. Students will be taught basic remote sensing concepts and technical skills, including energy radiative transfer processes in remote sensing, sensors and resolutions, computer-based image processing and classification, and remote sensing/GIS integration.

Prerequisites: GEOG 203 or GEOG 450.

GEOG 403WI History and Philosophy of Geoscience Credits: 3

A survey of geoscientific thought since antiquity. The substance of geography, geology, and environmental studies will be sought primarily in scholarly treatise and formal analytical systems including cartography, but the course also addresses geoscientific principles emerging from the history of environment, government, law, economy, religion, literature, and material culture. Readings, lectures, discussions, research, writing.

GEOG 406 Global Environmental Change Credits: 3

This course will examine the current rates of global environmental change and potential causes in the context of Earth's natural climate variability. The course will follow a seminar format. Students will read and discuss published articles on current and emerging theories of forcing mechanisms in the Earth's systems.

GEOG 412 Global Tourism Credits: 3

This course is a regional survey of world tourism. Topics include the uniqueness of place, the marketing of tourist destinations, and the cultural, economic, and environmental impacts on host societies. Recommended preparation: GEOG 105 or GEOG 200 or GEOG 202.

GEOG 416 Understanding and Living with Volcanoes Credits: 3

This course will examine the distribution, tectonic setting, and morphology of a range of volcano types on Earth and a few examples from other planets. Students will study volcanic processes including explosive and passive processes and how we investigate them. This will involve discussion of volcanic hazards and hazard assessment, risk communication, and the challenges of volcanic crises response. The course will also cover how volcanoes impact the local and global economy and Earth's climate.

Prerequisites: GEOLOGY 220 or ENV-SCI 110R/110L, and GEOG 203 or GEOG 402.

GEOG 417 Special Topics Credits: 1-3

Individual research and study of a selected topic in geography, meteorology or earth science.

GEOG 426 Paleoecology: Microfossils and Climate Change Credits: 3

Paleoecology will focus on questions addressing past environments and past climates based on the ecology of microfossils. Micro-organisms are very sensitive to a wide variety of environmental conditions including temperature, precipitation, hydrology, water chemistry, salinity, habitat, and pollution. The fossil remains of these organisms are used as proxy indicators for reconstructing past environmental conditions, climate change, vegetation dynamics, and human impacts. Students will have the opportunity to process microfossils and make interpretations based on analysis data.

GEOG 437 Population Geography Credits: 3

This course analyzes human populations: how they grow, how their compositions change, and how and why people migrate from one place to another. Students will study basic demographic processes- mortality, fertility, and migration- and underline theory and techniques. Students will also examine relationships between population growth and population planning, immigration, urbanization and cities, and the environment.

GEOG 444 Spatial Data Analysis Credits: 4

Quantitative techniques and applications of spatial data analysis. The course will cover basic geospatial analysis techniques including hypothesis testing, kriging, variogram analysis, multivariate analysis and reliability analysis. Emphasis is on practical applications rather than theories. Intended for Geology, Geography, Environmental Studies, and relevant fields. Three hours lecture and one hour computer lab per week.

GEOG 448 Satellite Climatology Credits: 4

Use of satellite observations to study the climate system. Discussions consider the development of satellite climatology, sensors, platforms and methodologies used to estimate climate variables from radiance measurements. Aspects of climate that are emphasized include cloud climatologies, cloud systems, atmospheric moisture, radiation budget, and land-surface conditions. Three hours lecture and one hour lab per week.

Prerequisites: GEOG 303.

GEOG 449 Global Water and Sustainability Credits: 3

This course examines the physical characteristics of water and its role in Earth systems. The challenges facing societies in an era of rapidly changing climate are explored.

GEOG 450 Gis Fundamentals for Research Applications Credits: 4

This course will address the needs of upper level undergraduate and graduate students who desire to learn and apply fundamental Geographic Information Systems concepts and techniques for their research projects. This course will draw on the content of the Introductory GIS course offered by the department but will also be flexible such that the individual needs or interest of students can be met through guided reading and/or tailored laboratory sessions. The Department of Geosciences GIS computer laboratory, with a variety of GIS and Remote Sensing software, will be available for this course. Only for upper-level undergraduate and graduate students.

GEOG 460 Transportation Geography Credits: 3

Relation between transportation and spatial organization, selected analytical models dealing with traffic demand, network configuration, and allocation of transport facilities; application to specific problem areas including commuting. Seminar with discussions of briefs and term paper.

GEOG 496 Geography Internship Credits: 1-6

Students obtain directed practical experience working with non-profits, governments, or private enterprises. Duties will vary based on contractual agreement between the student, host organization, and the professor.

Prerequisites: Junior standing or higher.

GEOG 499WI Geography Seminar Credits: 3

Students critique geographic research and prepare a paper and an oral presentation on an approved topic.

Prerequisites: Senior standing.

GEOG 5502 Environmental Remote Sensing and Digital Image Analysis Credits: 4

This course will provide students with innovative techniques for landscape-level environmental analysis, geographic and geological studies, earth science research, and environmental resources management using remotely sensed data including satellite images. Students will be taught basic remote sensing concepts and technical skills, including energy radiative transfer processes, in remote sensing, sensors and resolutions, computer-based image processing and classification, and remote sensing/GIS integration.

Prerequisites: GEOG 203.

GEOG 5503WI History and Philosophy of Geoscience Credits: 3

A survey of geoscientific thought since antiquity. The substance of geography will be sought primarily in scholarly treatises, formal analytical systems, and cartography, but the course also addresses geographical principles emerging from the history of such matters as government, law economy, religion, and material culture. Readings, lectures, discussions, research, writing.

GEOG 5504 Biogeography and Landscape Ecology Credits: 3

Principles and applications of biogeography and landscape ecology, emphasizing distribution of major ecosystems and related plants and animal species on earth, biodiversity, landscape patterns and processes, and physical, biological, and human interactions. The course explores ecosystem and landscape analyses using advanced GIS, remote sensing, and spatial modeling methods for real problem solving in environmental and biological research, ecosystem conservation, and urban planning and studies.

Prerequisites: GEOG 203, GEOG 402 (or GEOG 5502).

GEOG 5506 Global Environmental Change Credits: 3

This course will examine the current rates of global environmental change and potential causes in the context of Earth's natural climate variability. The course will follow a seminar format. Students will read and discuss published articles on current and emerging theories of forcing mechanisms in the Earth's systems. Additional in-depth research and written evaluation are required for graduate credit.

GEOG 5507 Advanced Geographic Information Science Credits: 4

Prerequisites: GEOG 203.

GEOG 5509 Urban Geography Credits: 3

Historical development, morphology and functions of urban places, including intercity relationships and the relationship between cities and their hinterlands; emphasis on American cities. Students will complete a series of reports and a term paper.

GEOG 5510 Landscape, Language, Literature, and Law Credits: 3

An examination of the geographic underpinnings and implications of languages, literatures, and jurisprudence. The course explores languages' historic rootedness in the interactions between human beings and their surroundings; the varying geographic expressiveness and discrimination of languages; the effect and significance of literary evocations of landscapes; and the cultural and environmental geographic content of the language of law. Readings, lectures, discussions, writing.

GEOG 5512 Global Tourism Credits: 3

This course is a regional survey of world tourism. Topics include the uniqueness of place, the marketing of tourist destinations, and the cultural, economic, and environmental impacts on host societies.

Prerequisites: GEOG 105 (or GEOG 200, or GEOG 202).

GEOG 5526 Paleocology: Microfossils and Climate Change Credits: 3

Paleocology will focus on questions addressing past environments and past climates based on the ecology of microfossils. Micro-organisms are very sensitive to a wide variety of environmental conditions including temperature, precipitation, hydrology, water chemistry, salinity, habitat, and pollution. The fossil remains of these organisms are used as proxy indicators for reconstructing past environmental conditions, climate change, vegetation dynamics, and human impacts. Students will have the opportunity to process microfossils and make interpretations based on analysis of data.

GEOG 5530 Location Theory Credits: 3

An analysis and evaluation of the basic theories that have been developed to account for the spatial arrangements of economic activity. Emphasis on urban areas as nodes of economic interaction. Three hours lecture and discussion per week.

Prerequisites: GEOG 311, six hours in economics or urban studies.

GEOG 5537 Population Geography Credits: 3

An analysis of human population: how they grow, their changing compositions, and how and why people migrate from one place to another. Basic demographic processes-mortality, fertility, and migrate- and theory and techniques for their study are discussed. The relationships between population growth and population planning, immigration, urbanization and cities, and the environment.

GEOG 5544 Advanced Spatial Data Analysis Credits: 4

This course will focus on advanced computation methods for the analysis and modeling of complex and often non-deterministic processes in the spatial and environmental sciences. Students will be introduced to innovative techniques for analyzing large datasets with attribute spaces of very high dimensionality, including hyper-spectral remote sensing data. Three hours lecture and one hour computer lab per week.

Prerequisites: GEOG 444, elementary statistics, or permission of instructor.

GEOG 5546 Global Water and Sustainability Credits: 3

This course examines the physical characteristics of water and its role in Earth systems. The challenges facing societies in an era of rapidly changing climate are explored.

GEOG 5548 Satellite Climatology Credits: 4

Use of satellite observations to study the climate system. Discussions consider the development of satellite climatology, sensors, platforms and methodologies use to estimate climate variables from radiance measurements. Aspects of climate that are emphasized include cloud climatologies, cloud systems, atmospheric moisture, radiation budget, and land-surface conditions. Three hours of lecture and one hour of lab per week.

GEOG 5597 Graduate Seminar in Geosciences Credits: 3

This graduate seminar examines emerging and current issues in Environmental and Urban Geosciences. Most environmental issues and their solutions are inherently multidisciplinary and are characterized by significant interactions between oceans, atmosphere, land, and society. In addition to examining these issues, this seminar engages students in the process of critically evaluating Earth and human systems studies. The course provides students with a fundamental background of today's important environmental challenges and experience doing the craft of science through critically reading, thinking, writing, and speaking.

GEOG 5598 Special Topics in Geography Credits: 1-3

Advanced independent research in Cultural or Physical Geography.

Prerequisites: Baccalaureate degree.

GEOG 5598A Special Topics in Cultural Geography Credits: 1-3

Advanced independent research in Cultural Geography.

Prerequisites: Baccalaureate degree.

GEOG 5598B Special Topics in Physical Geography Credits: 1-3

Advanced independent research in Physical Geography.

Prerequisites: Baccalaureate degree.

GEOG 5598D Special Topics in Advanced GIS and Remote Sensing Credits: 1-3

Advanced independent research in geographic information science (GIS) and remote sensing.

GEOG 5598F Special Topics: Geostatistics and Modeling Credits: 1-3

Advanced independent research in geostatistics and modeling techniques.

GEOG 5599 Research and Thesis Geography Credits: 1-9

Students will conduct research and writing in support of a thesis topic, which will have been approved in advance by the appropriate graduate advisory committee. Credit load will also be approved in advance by the student's graduate advisor.

Prerequisites: Baccalaureate degree.

GEOG 5690 Special Research Topics Credits: 1-3

Student will produce a major research paper suitable for publication under the direction of their instructor.

GEOG 5699R Research And Dissertation Credits: 1-10

Research for dissertation in partial fulfillment of the Geosciences requirements for the Ph.D. degree.

Geology Courses

GEOLOGY 220 General Geology Credits: 3

Geology is the study of Earth, the materials that make up the Earth, and the forces and processes that build and shape the continents, oceans, and life on Earth. The goal of this course is for students to gain an understanding of the fundamental concepts and scientific principles that underlie the physical, chemical, and biological processes that shape our Earth and to learn to think critically about scientific information and how geologic processes affect us every day.

GEOLOGY 220 - MOTR GEOL 100: Geology

GEOLOGY 220L General Geology Laboratory Credits: 2

Laboratory and field investigations of principles of the geology designed to complement the topics covered in GEOLOGY 220 through the use of inquiry-based investigations in the laboratory and field.

GEOLOGY 220L - MOTR GEOL 100L: Geology with Lab

GEOLOGY 250L Field Methods in Earth and Environmental Science Credits: 3

A field-based course covering basic methods used by earth scientists for environmental, geographic, and geologic investigations. Students will collect field data at off-campus sites, conduct periodic monitoring, and analyze samples using departmental and personal instrumentation. Students will work on collaborative projects and will present their results. Class will meet weekly for four hours in the field.

GEOLOGY 250L - MOTR PHYS 110LES: Essent. Physical Sciences w/Lab

GEOLOGY 251L Field Methods in Earth and Environmental Science: Off-Campus Credits: 3

This course will provide students with an introductory, inquiry-based learning experience that focuses on the application of field methods for understanding surface and subsurface earth processes and environmental issues. Students will collect field data at off-campus sites, conduct periodic monitoring, and analyze samples using departmental Instrumentation. Students will work on collaborative projects and will present their results. Class will meet at an off campus location during break (added cost) plus have four on campus meetings.

GEOLOGY 313 Evolution and the Geologic Record Credits: 4

An introduction to the history of life by studying the geologic record. Students will examine major features of the fossil record including: invertebrates, vertebrates, and plants. Students explore what the fossil record tells us about geologic time, evolution, past environments and distributions of organisms. Three hours of lecture and two hours of laboratory a week. The course will include field trips to collect and interpret fossils and paleoenvironments.

GEOLOGY 314 Principles of Geomorphology Credits: 4

Explores the processes that shape the earth's surface. Focuses on the development and description of fluvial, glacial, eolian, and coastal landforms. Studies the influence of tectonic and climatic factors. Three hours lecture and two hours lab per week. Field trip.

Prerequisites: ENV-SCI 110R (or GEOLOGY 220).

GEOLOGY 321 Climate Change Impact Assessment and Policy Response Credits: 3

This course introduces how scientists assess observed climate change and predict future climate change. Lectures, discussions, problem sets, and term papers help students explore interactions among climate change, human activities and policy responses. It helps students achieve an appreciation for the role of accurate scientific information as foundation for shaping political agreements and policies on climate change.

Prerequisites: ENV-SCI 110R.

GEOLOGY 322 Earth Materials Credits: 4

Introduction to the formation, occurrence, and classification of minerals and igneous and metamorphic rocks. Three hours lecture and discussion with two hours laboratory a week.

Prerequisites: CHEM 212R, GEOLOGY 220 OR ENV-SCI 110.

GEOLOGY 325 Sedimentology/Stratigraphy Credits: 4

Study of sedimentary rocks with special emphasis given to hand specimen identification based on mineral composition and textural features. Characteristics of sediments, transportation and environment of sediment deposition. Principles of stratigraphy, facies analysis and interpretation. Measurement and description of stratified rocks. Three hours lecture and two hours lab per week. Field trips.

Prerequisites: GEOLOGY 220.

GEOLOGY 326CZ Archaeology of Ancient Disasters Credits: 3

Remarkable human achievements are revealed by archaeological research, but the human past was frequently shaped as well by disasters of natural and human origin. Drawing on case studies that include data from the geosciences, archaeological excavations, and historical sources, this class examines how earth processes, the biosphere, and human cultural behavior were all sources of catastrophe. The study of ancient disasters not only gives us a wider understanding of human history, it may offer lessons for coping with future catastrophes.

GEOLOGY 335 Introduction to Waste Management Credits: 3

Overview of issues in waste management. Nature and classification of waste. Municipal solid waste: disposal methods, design, construction and maintenance of sanitary landfills. Nature and sources of hazardous waste, storage, transportation, treatment and disposal of hazardous waste. Types and sources of nuclear waste; disposal of high level and low level nuclear wastes. Sources, nature, handling and disposal of biologic waste. Pollution prevention, recycling and resource conservation.

Prerequisites: ENV-SCI 110R, GEOG 150, GEOLOGY 220.

GEOLOGY 350 Earth Structures and Tectonics Credits: 4

This course is designed to teach students the basic techniques and approaches for problem solving in structural geology. The course will cover the fundamentals of crustal deformation and discuss joints, faulted and folded rocks in their plate tectonic context. Two hours of lectures and three hours of laboratory a week. Course will include local field trips and one weekend field trip.

Prerequisites: GEOLOGY 220, PHYSICS 210 (or PHYSICS 240).

GEOLOGY 370R Hydrogeology Credits: 3

Geology and hydrologic factors controlling the occurrence, movement, quality, recovery and development of water supply and distribution. Problems relating to urbanization of flood plains.

GEOLOGY 398 Geology Midcontinent Field Trip Credit: 1

A study of a selected area of the midcontinent U.S. with emphasis on locations to be visited during a three-day field trip (at the student's expense). An opportunity to observe and study physical features and collect materials. Several scheduled one-hour meetings in addition to field trip. Lectures, discussion and reading assignments provide a background to place the area covered by the field trip into the overall geologic framework of the Midcontinent U.S. Descriptive report or written examination. Limited enrollment.

Prerequisites: Junior or senior level.

GEOLOGY 411 Mineral Deposits Credits: 3

Distribution, origin and environmental implications of extractable resources including non-metallic deposits, ores, and selected energy resources.

GEOLOGY 416 Understanding and Living with Volcanoes Credits: 3

This course will examine the distribution, tectonic setting, and morphology of a range of volcano types on Earth and a few examples from other planets. Students will study volcanic processes including explosive and passive processes and how we investigate them. This will involve discussion of volcanic hazards and hazard assessment, risk communication, and the challenges of volcanic crises response. The course will also cover how volcanoes impact the local and global economy and Earth's climate. Recommended preparation: GEOG 314 / GEOLOGY 314 or GEOLOGY 325 or GEOLOGY 342.

Prerequisites: GEOLOGY 220 or ENV-SCI 110R/110L, and GEOG 203 or GEOG 402.

GEOLOGY 434 Hazardous Waste Operations Management Credits: 2

Overview of federal regulations dealing with hazardous waste management, toxicology, hazard communication, site management, air monitoring, operating procedures, and health and safety. The course includes hands-on training on spill control, equipment use and emergency response. Practical training involves physical stress and participants must be in good physical health. This course satisfies OSHA's 40 hour training requirement for hazardous waste personnel.

GEOLOGY 441 Environmental Geophysics Credits: 3

Fundamental theory and near-surface applications of the geophysical methods; (1) seismic refraction, (2) seismic reflection, (3) gravity, and (4) magnetics. Emphasis will be placed on the use of these methods in environmental and engineering investigations, addressing such issues as water resources, contaminant transport, geotechnical properties and archaeological protection. Course will include a field component illustrating application of selected techniques to local environmental problem.

GEOLOGY 446 Petroleum Geology Credits: 3

Study of the origin, concentration, exploration for and recovery of petroleum.

Prerequisites: GEOLOGY 220.

GEOLOGY 456 Field Methods in 3D Imaging of the Environment Credits: 3

This course is designed to teach students techniques to create high-resolution, 3D images of the environment and detailed topographic maps using digital technologies. The class will include instruction on various aerial systems and hand-held photography and the software required for data acquisition, processing, and interpretation.

GEOLOGY 460 Introduction to Geochemistry Credits: 3

Basic principles governing the origin, distribution and migration of the elements and the geochemical cycles operating in the earth's atmosphere, hydrosphere and lithosphere.

Prerequisites: CHEM 212R, GEOLOGY 312.

GEOLOGY 471 Tectonics Credits: 3

A detailed inquiry into plate tectonics and the geophysical and geological data that define the motion of lithospheric plates. Global examples of divergent, convergent, and transform plate boundaries will be studied through lectures, discussions, problem sets, and term papers.

Prerequisites: GEOLOGY 325, GEOLOGY 350.

GEOLOGY 472 Earthquake Geology Credits: 3

A detailed inquiry into the study of present and past earthquakes as they are preserved in the seismological, geophysical, and geologic record. Global examples of earthquakes will be studied through lectures, discussions, problem sets, term papers, field trips and field projects.

GEOLOGY 490 Geology Field Camp Credits: 6

Study and practical involvement in the methods of geological mapping. The six-week course is conducted during the summer, partially in a field camp away from the Kansas City area. Students pay their own travel expenses to and from the field. Participation in the course involves individual mapping in the field area and field reports.

GEOLOGY 498 Undergraduate Field Research Credits: 1-5

The student will collaborate with fellow students and instructors in collection of original field geologic data at a location remote from campus. Field research will be carried out during semester intersessions or summer semesters.

GEOLOGY 499WI Geology Seminar Credits: 3

Students participate in discussions; present formal talks; and prepare written papers on selected topics.

Prerequisites: Senior standing.

GEOLOGY 5507 Archeological Resources Management Credits: 3

This class examines contemporary issues managing archaeological resources. This class is intended for students seeking work in Cultural Resources Management (CRM); those already working CRM, or student anthropology, environmental studies, geology, geography, public administration and other fields likely to deal with archaeological and historical research or employment setting. This class does not require a background in archaeology.

GEOLOGY 5508 Archaeological Field Survey Methods Credits: 3

this class offers instruction in the basic skills required to conduct field surveys in archaeology and other geosciences disciplines. In the classroom, students learn about the development of archaeology as a scientific discipline and how to recognize some of the basic field data sought by archaeologists. Students learn about mapping and land navigation techniques. The field phase of instruction includes visits to archaeological sites in the region.

GEOLOGY 5509 Field Study in Archaeology Credits: 1-5

This class offers students an opportunity to attend a field school in archaeology. Students will be taught how to: design archaeological research, set-up excavation, keep a wide range of excavation records, make maps and drawings, take photographs related to excavation problems, identify and recover a broad spectrum of artifact and faunal remains, collect samples for specialized analyses and use a wide range of excavation tools. This course will also introduce students to recording and analyzing excavated materials in the archaeological laboratory.

GEOLOGY 5512 Geology and Hazardous Waste Management Credits: 3

Nature, sources and characterization of hazardous waste; collection, transportation and disposal of hazardous wastes. Fundamentals of toxicology and risk assessment. Application of geologic principles and methods in the assessments and remediation of abandoned hazardous waste sites and contaminated aquifers. Review of selected case histories. Experts from government and private organizations will be invited to deliver guest lectures. An out-of-town field trip to a hazardous waste site is required. A term paper based on library research or an approved experimental project is required for graduate credit.

Prerequisites: GEOLOGY 325, GEOLOGY 342, GEOLOGY 350.

GEOLOGY 5513 Advanced Mineral Deposits Credits: 3

Distribution, origin and environmental implications of extractable resources including non-metallic deposits, ores, and selected energy resources.

Prerequisites: GEOLOGY 312, GEOLOGY 325, graduate standing.

GEOLOGY 5516 Understanding and Living with Volcanoes Credits: 3

This course will examine the distribution, tectonic setting, and morphology of a range of volcano types on Earth and a few examples from other planets. Students will study volcanic processes including explosive and passive processes and how we investigate them. This will involve discussion of volcanic hazards and hazard assessment, risk communication, and the challenges of volcanic crises response. The course will also cover how volcanoes impact the local and global economy and Earth's climate.

GEOLOGY 5521 Advanced Methods for Earth and Environmental Science Credits: 3

This course will provide students with an inquiry-based learning experience that focuses on the application of field methods for understanding surface and subsurface earth processes and environmental issues. Students will collect field data at off campus site, conduct periodic monitoring, and analyze samples using departmental instrumentation.

Prerequisites: GEOLOGY 220 (or ENV-SCI 110R), GEOLOGY 220L (or ENV-SCI 110L).

GEOLOGY 5525 Quaternary Geology Credits: 3

The study of Quaternary processes, surficial deposits, and land forms. Course content will cover both the glaciated and nonglaciated portions of the United States as well as the interrelations between Quaternary geology and urbanization. Three hour lecture. Field trips.

Prerequisites: GEOLOGY 314, baccalaureate degree in geology.

GEOLOGY 5531 X-Ray Diffraction and Fluorescence Methods: X-Ray Mthds Geol/Anly Credits: 2

Theory and practical application of x-ray diffraction and fluorescence methods in characterizing geologic materials. Two hours lecture and one 2-hour lab per week for 8 weeks.

GEOLOGY 5532 Icpms Applications in Geology Credits: 2

Theory and practical application of Inductively-Coupled Plasma Mass Spectrometry in the geosciences and environmental sciences. Two hours lecture and discussion, and one 2-hour lab per week for 8 weeks.

GEOLOGY 5534 Hazardous Waste Operation Management Credits: 2

Overview of federal regulations dealing with hazardous waste management, toxicology, hazard communication, site management, air monitoring, operating procedures, and health and safety. The course includes hands-on training on spill control, equipment use and emergency use and emergency response. Practical training involves physical stress and participants must be in good physical health. This course satisfies OSHA's 40 hour training requirement for hazardous waste personnel.

GEOLOGY 5535 Aqueous Geochemistry Credits: 3

This course is directed to two objectives. First it will equip the students with a basic understanding of the geochemical principles and calculations which are directly related to environmental problems and second, it will provide the student with a basic understanding of specific problem areas in environmental geochemistry.

Prerequisites: CHEM 211, CHEM 212R, Baccalaureate degree in geology.

GEOLOGY 5536 Introduction to Scanning Electron Microscopy Methods Credits: 2

Practical introduction to the use of the scanning electron microscope and its accessories, including image production, elemental analysis, and elemental mapping of solid materials. Geological applications will be emphasized, but the methods presented will be useful for microscopic examination of solid materials in any discipline. 2 hours of lecture and lab per week for 8 weeks.

Prerequisites: Permission of the instructor.

GEOLOGY 5541 Environmental Geophysics Credits: 3

Fundamental theory and near-surface applications of the geophysical methods including seismic methods, potential methods, and electrical methods. Emphasis will be placed on the use of these methods in environmental and engineering investigations, addressing such issues as water resources, contaminant transport, geotechnical properties, and archaeological protection. Course will include a field component illustrating application of selected techniques to a local environmental problem.

Prerequisites: Baccalaureate degree in Geology.

GEOLOGY 5542 Electrical Methods in Environmental Geophysics Credits: 3

Fundamental theory and near-surface applications of the electrical geophysical methods; (1) electrical resistivity, (2) electromagnetics, (3) ground penetrating radar, and (4) induced polarization. Emphasis will be placed on the use of these methods in environmental and engineering investigations, addressing such issues as water resources, contaminant transport, geotechnical properties and archaeological protection. Course will include a field component illustrating application of selected techniques to a local environmental problem.

Prerequisites: Baccalaureate degree in Geology.

GEOLOGY 5546 Petroleum Geology Credits: 3

This course addresses the geological habitat of oil and natural gas, the impacts of petroleum on society, subsurface mapping techniques, and the acquisition and interpretation of subsurface and production data.

Prerequisites: GEOLOGY 220, baccalaureate degree in geology.

GEOLOGY 5551 Geotechnics Credits: 4

Integration of the basic principles and concepts from material sciences, rock and soil mechanics, and civil engineering. Mechanical properties, geologic aspects and engineering classifications of earth materials and the effects of physical forces on their engineering behavior will be emphasized. Three hours of lecture and two hours of laboratory each week. Field trips.

Prerequisites: PHYSICS 210, PHYSICS 220, GEOLOGY 350.

GEOLOGY 5555 Environmental Impact Analysis Credits: 3

A systematic analysis of the spectrum of environmental changes related to human use and occupancy in urban settings. Study of the nature of activities such as industrialization, mining, urbanization and transportation, and their effect on the specific site and general region. Methods of measuring aesthetic and economic quality of the urban areas will be explored in an attempt to facilitate writing environmental impact statements.

Prerequisites: Baccalaureate degree in geology.

GEOLOGY 5559 Inquiry-Based Field Studies for Teachers Credits: 3-6

Inquiry-based studies in environmental science, environmental chemistry and geology involving collaborations between course participants, practicing scientists and professional educators. The course is designed especially for pre- and in-service teachers of all levels and contact areas to enhance critical thinking, problem solving and process skills as defined by state and national standards. Projects will balance field and lab studies with analysis and presentation of results through electronic, oral and written means.

GEOLOGY 5561 Geologic Mapping Credits: 3

Analysis of the stratigraphic section in the greater Kansas City area by field investigation. Compilation of descriptive data and the construction of detailed geologic maps. Practical problems to determine the most beneficial use of the land in an area that is rapidly becoming urbanized. Previous field mapping experience highly recommended.

Prerequisites: Baccalaureate degree in geology.

GEOLOGY 5570 Advanced Hydrogeology Credits: 3

This course will focus on advanced groundwater hydrology with emphasis on flow equations and computational modeling in various geologic settings. Students will be introduced to basic analytical skills to derive dynamics of groundwater flow, comprehensive understanding of aquifer characteristics, and interpretation of field based groundwater data using computational simulations.

Prerequisites: Baccalaureate degree in Geosciences, GEOL 370R, or permission of instructor.

GEOLOGY 5571 Tectonics Credits: 3

A detailed inquiry into plate tectonics and the geophysical and geological data that define the motion of lithospheric plates. Global examples of divergent, convergent, and transform plate boundaries will be studied through lectures, discussions, problem sets, and term papers.

Prerequisites: GEOLOGY 325, GEOLOGY 350.

GEOLOGY 5572 Earthquake Geology Credits: 3

This course is detailed inquiry into the study of present and past earthquakes as they are preserved in the seismological, geophysical, and geological record. Global examples of earthquakes will be studied through lectures, discussions, problem sets, term papers, field trips and field projects.

Prerequisites: GEOLOGY 350.

GEOLOGY 5597 Graduate Seminar in Geosciences Credits: 3

This graduate seminar examines emerging and current issues in Environmental and Urban Geosciences. Most environmental issues and their solutions are inherently multidisciplinary and are characterized by significant interactions between oceans, atmosphere, land, and society. In addition to examining these issues, this seminar engages students in the process of critically evaluating Earth and human systems studies. The course provides students with a fundamental background of today's important environmental challenges and experience doing the craft of science through critically reading, thinking, writing, and speaking.

GEOLOGY 5598 Special Topics in Urban Environmental Geology Credits: 1-3

Individual research into practical geoscience problems in the urban environment. Provides opportunity for individual research in applied geology. Topic and method to be established by student and academic supervisor prior to enrollment.

GEOLOGY 5598A Special Topics In Urban Environmental Geology: Petroleum Geology Credits: 1-3

GEOLOGY 5598B Spec Topics In Urban Environmental Geology: Soil/Rock Mechanics Credits: 1-3

GEOLOGY 5598C Sp Topics In Urban Environmental Geol: Stratigraphy/Paleontology Credits: 1-3

GEOLOGY 5598D Spec Topics In Urban Environmental Geology-Environmental Geology Credits: 1-3

GEOLOGY 5598E Special Topics in Energy and Mineral Resources Credits: 1-3

This course provides students an opportunity for advanced independent research in energy and mineral resources.

GEOLOGY 5598H Special Topics in Urban Environmental Geology - Geochemistry and Mineralogy Credits: 1-3

Special Topics In Urban Environmental Geology - Geochemistry and Mineralogy

GEOLOGY 5598I Special Topics In Urban Environmental Geology Credits: 1-3

GEOLOGY 5598J Special Topics In Urban Environmental Geology: Environmental Sci Credits: 1-3

GEOLOGY 5598K Issues in Waste Management Credit: 1

This course focuses on the critical problems of managing the waste materials generated in our society. The course includes discussion of various types of waste-municipal solid waste, hazardous (industrial) waste, nuclear and medical wastes. Sources, handling, storage, transportation, treatment and disposal of these wastes are reviewed. Experts from government and the waste management industry give guest lectures.

GEOLOGY 5598M Special Topics in Geostatistics and Modeling Credits: 1-3

Advanced independent research in geostatistics and modeling techniques.

GEOLOGY 5599 Research and Thesis: Geology Credits: 1-9

Individual directed research by the student leading to the preparation of a formal written thesis and oral defense.

GEOLOGY 5690 Special Research Topics Credits: 1-3

Student will produce a major research paper suitable for publication under the direction of their instructor.

GEOLOGY 5699R Research And Dissertation Credits: 1-10

Research for dissertation in partial fulfillment of the Geosciences requirements for the Ph.D. degree.

GEOLOGY 5899 Required Graduate Enrollment Credit: 1

Bachelor of Arts: Environmental Studies

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- interpret human & environmental patterns using spatial analysis.
- describe the components and functions of socio-ecological systems.
- analyze the complex relationships between humans and the natural environment.

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience (Satisfied in program requirements below)		
Total Credits		9

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits

Total Credits: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Interpret spatial patterns using mapping concepts.
- Describe the components and function of environmental systems.
- Analyze natural phenomena using quantitative data, critical thinking, and problem-solving skills.
- Explain the complex relationships between humans and the natural environment (Environmental Science Emphasis).
- Analyze data to quantify geologic features and structures (Geology Emphasis).
- Extract new geospatial information using remote sensing imagery and digital analyses (Physical Geography Emphasis).

Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Laboratory Science Experience (Satisfied in program requirements below)		
Total Credits		0

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits
Mathematics Coursework		
MATH 110	Precalculus Algebra (satisfies Math Pathway)	3
STAT 235	Elementary Statistics	3
or CJC 303	Introduction to Statistics in Sociology and Criminal Justice	
or SOCIOL 363	Introduction To Statistics In Sociology/Criminal Justice	
Science Coursework		
CHEM 211 & 211L	General Chemistry I and Experimental General Chemistry I	5
CHEM 212R & CHEM 212LR	General Chemistry II and Experimental General Chemistry II	5
Pick one of the two following sequences (total of 8 credits):		8
BIOLOGY 108 & 108L	General Biology I and General Biology I Laboratory	
or MOTRBIOL 100LB	MOTR Essentials in Biology w/ Lab - Botany	
or MOTRBIOL 150LB	MOTR Biology with Lab	
BIOLOGY 109 & 109L	General Biology II and General Biology II Laboratory	
or MOTRBIOL 100LZ	MOTR Essentials in Biology with Lab	
or MOTRBIOL 150LZ	MOTR Biology w/Lab	
OR		
PHYSICS 210	General Physics I	
PHYSICS 220	General Physics II	
Earth and Environmental Science Coursework		
ENV-SCI 110R & ENV-SCI 110L	Understanding the Earth: Introduction to Environmental Science and Laboratory and Understanding the Earth Laboratory	5
or GEOLOGY 220 & 220L	General Geology and General Geology Laboratory	
or MOTRGEOL 100L	MOTR Physical Geography with Lab	
Coursework common to all emphasis areas:		
GEOG 203	Introduction to Geographic Information Systems	4
GEOLOGY 250L	Field Methods in Earth and Environmental Science	3
or GEOLOGY 251L	Field Methods in Earth and Environmental Science: Off-Campus	
GEOG 215	Weather and Climate	4
ENV-STDY 325	Cultural Perspectives on the Environment	3

GEOG 444	Spatial Data Analysis	4
GEOG 499WI	Geography Seminar	3
or ENV-STDY 499WI	Environmental Studies Practicum	
or GEOLOGY 499WI	Geology Seminar	
or GEOG 403WI	History and Philosophy of Geoscience	
Environmental Science Coursework		
ENV-SCI 321	Climate Change Impact Assessment and Policy Response	3
GEOG 360	Principles of Biogeography	4
or GEOLOGY 314	Principles of Geomorphology	
GEOLOGY 370R	Hydrogeology	3
ENV-SCI 416	Understanding and Living with Volcanoes	3
or GEOLOGY 472	Earthquake Geology	
Environmental Science Electives (choose 11 hours from the following):		11
BIOLOGY 305	Marine and Freshwater Biology	
ENV-STDY 450	Ecotoxicology	
GEOLOGY 313	Evolution and the Geologic Record	
GEOG 402	Environmental Remote Sensing and Digital Image Analysis	
GEOG 406	Global Environmental Change	
GEOLOGY 322	Earth Materials	
GEOLOGY 325	Sedimentology/Stratigraphy	
GEOG 448	Satellite Climatology	
ENV-SCI 449	Global Water and Sustainability	
For the pairs listed below, students may only take courses for elective credit if not already taken for major requirements:		
GEOG 314	Principles of Geomorphology	
or GEOG 360	Principles of Biogeography	
GEOLOGY 472	Earthquake Geology	
or ENV-SCI 416	Understanding and Living with Volcanoes	
Total Credits		74

Math and Science Requirements

The Bachelor of Science degree requires a minimum of 60 hours in math and science coursework. The number of credit hours needed to meet this minimum requirement are listed below.

Code	Title	Credits
Additional Math and Science Coursework		0

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		16

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Science: Earth and Environmental Science - Geology Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Interpret spatial patterns using mapping concepts.
- Describe the components and function of environmental systems.
- Analyze natural phenomena using quantitative data, critical thinking, and problem-solving skills.
- Explain the complex relationships between humans and the natural environment (Environmental Science Emphasis).
- Analyze data to quantify geologic features and structures (Geology Emphasis).
- Extract new geospatial information using remote sensing imagery and digital analyses (Physical Geography Emphasis).

- ¹ Students interested in continuing their studies in a graduate program should consider taking Physics For Scientists and Engineers I (PHYSICS 240, 5 s.h.) and Physics For Scientists and Engineers II (PHYSICS 250, 5 s.h.). and the required corequisite Calculus I (MATH 210) and Calculus II (MATH 220).

Math and Science Requirements

The Bachelor of Science degree requires a minimum of 60 hours in math and science coursework. The number of credit hours needed to meet this minimum requirement are listed below.

Code	Title	Credits
Additional Math and Science Coursework		0

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		16

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

Math and Science Requirements

The Bachelor of Science degree requires a minimum of 60 hours in math and science coursework. The number of credit hours needed to meet this minimum requirement are listed below.

Code	Title	Credits
Additional Math and Science Coursework		0

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		16

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC’s Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student’s evaluation of progress and major “fit”. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC’s Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC’s PlanMyDegree ‘Audit’ (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students’ officially recorded (Office of Registration and Records) and “what if” exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC’s PlanMyDegree ‘Plans’ (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student’s officially recorded (Office of Registration and Records) and “what if” exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC’s Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program’s individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student’s responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Graduate Certificate: Geographic Information Systems (GIS)

Student Learning Outcomes

- Students will be able to identify geospatial issues and technical needs in problem-solving in relation to relevant academic disciplines, industrial production, or public services
- Students will be able to design geospatial technical approaches for problem-solving
- Students will be able to analyze geospatial data and produce maps using relevant GIS software
- Students will be able to present geospatial study findings with oral presentation and written reports

Geographic Information Systems (GIS) and related geospatial techniques are fast-growing and increasingly applied to almost all sectors of our society. Examples include environmental mapping, urban planning, and public resource management. This Missouri State-approved, transcribed graduate certificate program offers GIS-related multidisciplinary courses through several academic programs of the College of Arts & Sciences, such as Geosciences, Urban Planning and Design, Sociology, Economics, and Criminal Justice and Criminology. The curriculum is designed to prepare students for a variety of careers in the rapidly growing job market.

This graduate certificate program is open to any students with a bachelor's or a graduate degree and appropriate academic backgrounds, such as degree-seeking graduate students and working professionals.

For completion of the certificate program, the student is required to finish the coursework of 17-20 credit hours with a 3.0 GPA or higher.

Code	Title	Credits
Required Core Courses		
GEOG 450	Gis Fundamentals for Research Applications	4
GEOG 5507	Advanced Geographic Information Science	4
Electives		
Select three of the following:		9-12
GEOG 5502	Environmental Remote Sensing and Digital Image Analysis	4
GEOG 5504	Biogeography and Landscape Ecology	3
GEOG 5544	Advanced Spatial Data Analysis	4
GEOG 5548	Satellite Climatology	4
GEOG 5598D	Special Topics in Advanced GIS and Remote Sensing	3
CJC 5592	Advanced GIS For Crime Analysis	3
ECON 5511	Geographic Information Systems (GIS) for Urban Economic Development	3
UPD 5740	Advanced GIS for Urban Planning	3
SOCIOL 5534	Spatial Thinking in Social Science	3

Master of Science: Environmental and Urban Geosciences

Student Learning Outcomes

Students graduating from this program will:

- be able to conduct an independent geospatial research project.
- be able to analyze and interpret environmental data.
- review ethics in research and career goals, conduct literature searches, and critically evaluate scholarly information.
- assess and defend research findings through oral and written communication.

The Department of Earth and Environmental Science offers a Master of Science degree in Environmental and Urban Geosciences (M.S. EUG). This program prepares students for advanced study in natural hazards, paleoseismology, geology, geochemistry, climate variability, water resources, wetland dynamics, air and water pollution, geoarchaeology, paleoenvironments, geography, urban and human systems, GIS, and environmental remote sensing. The program provides students with either a thesis or non-thesis option. All students must complete the core curriculum and additional coursework.

Admissions Requirements

For full admission to the graduate degree program in environmental and urban geosciences, the following requirements must be met:

1. Completion of an undergraduate degree with a major in a geosciences field (such as Environmental Sciences or Studies, Geography, and/or Geology) and a grade-point average of at least 3.0 (A = 4.0) overall, as well as in the major.
2. Submission of scores on the Graduate Record Examination (GRE) is not required but highly recommended. GRE scores may be used to award assistantships.
3. Two letters of recommendation from academic and/or professional references.
4. The student must declare either a thesis or non-thesis degree option in his or her application. If you are declaring a thesis option admission, you must secure a thesis advisor in the Geosciences Department before admission and declare this in your application. For assistance, contact the Graduate Advisor.
5. All application materials must be submitted to the Admissions Office by March 31 for fall semester and October 1 for spring semester for final consideration.
6. All admitted M.S. EUG students must take a mandatory assessment during "Orientation" before the first day of class each semester.

With department approval, students with non-geoscience undergraduate degrees may be provisionally admitted on a non-regular degree-seeking basis. After successfully completing recommended courses for the appropriate undergraduate geoscience degree, provisionally-admitted students may be granted degree-seeking status.

Graduate Assistantships

Teaching assistantships are awarded on a competitive basis only to incoming fully-admitted, graduate students in the thesis option degree program. Assistantship applications and all supporting materials should be submitted by March 31 for fall enrollment and October 1 for spring enrollment. International Graduate Teaching Assistants (GTA) must be certified by the School of Graduate Studies (<http://sgs.umkc.edu/>) prior to serving in any GTA position. Interested international students should contact the School of Graduate Studies for more information.

Core Curriculum

Hours (Total 11 Credit Hours)

Code	Title	Credits
GEOG 5507	Advanced Geographic Information Science	4
GEOG 5544	Advanced Spatial Data Analysis	4
GEOG/GEOLOGY 5597	Graduate Seminar in Geosciences	3

Thesis Option Program

An additional 19 credit hours of graduate-level geosciences courses must be taken, of which 3-6 credit hours must be GEOG 5599 or GEOLOGY 5599. These courses will be selected in consultation with your thesis advisor.

Non-Thesis Option Program

An additional 19 credit hours of graduate-level geosciences courses must be taken. Please choose from the following courses:

Code	Title	Credits
ENV-SCI 5550	Ecotoxicology	3
GEOG 5502	Environmental Remote Sensing and Digital Image Analysis	4
GEOG 5504	Biogeography and Landscape Ecology	3
GEOG 5506	Global Environmental Change	3
GEOG/GEOLOGY 5508	Archaeological Field Survey Methods	3
GEOG 5509	Urban Geography	3
GEOG 5526	Paleoecology: Microfossils and Climate Change	3
GEOG 5535	Geoarchaeology	3
GEOG 5542	Quaternary Environments	3
GEOG 5546	Global Water and Sustainability	3
GEOG 5548	Satellite Climatology	4
GEOLOGY 5507	Archeological Resources Management	3
GEOLOGY 5509	Field Study in Archaeology	1-5
GEOLOGY 5513	Advanced Mineral Deposits	3
GEOLOGY 5521	Advanced Methods for Earth and Environmental Science	3
GEOLOGY 5531	X-Ray Diffraction and Fluorescence Methods: X-Ray Mthds Geol/Anly	2

GEOLOGY 5534	Hazardous Waste Operation Management	2
GEOLOGY 5535	Aqueous Geochemistry	3
GEOLOGY 5536	Introduction to Scanning Electron Microscopy Methods	2
GEOLOGY 5541	Environmental Geophysics	3
GEOLOGY 5551	Geotechnics	4
GEOLOGY 5570	Advanced Hydrogeology	3
GEOLOGY 5571	Tectonics	3
GEOLOGY 5572	Earthquake Geology	3

Requirements for Retention

1. For newly admitted graduate students, elimination of all undergraduate deficiencies (if any) in the undergraduate major and its supporting prerequisites is required upon or before the completion of the first 12 hours of coursework for graduate credit.
2. A 3.0 (B) average or better must be maintained in all graduate coursework. In addition, a 3.0 (B) average and a satisfactory balance of grades must be maintained in the approved program of study, or the student will be subject to either probationary status or dismissal from the program.
3. Thesis-option M.S. EUG students are required to pass a qualifying examination administered by the department during first year orientation.

Requirements for Graduation

1. Formal acceptance of a Program of Study, including thesis research proposal for thesis option students, is required by the department and the School of Graduate Studies upon completion of the GEOG/GEOLOGY 5597.
2. No more than 12 credit hours of the program may be 300- to 400-level courses, and at least 18 credit hours must be at the 5000-level or above.
3. A formal written thesis and final oral examination are required of thesis option M.S. EUG students. The format of the thesis must be in accordance with guidelines of the School of Graduate Studies.
4. Satisfactory compliance with all applicable requirements of the School of Graduate Studies is required, including continuous enrollment and residency. Please refer to the General Graduate Academic Regulations and Information (p. 454) section of this catalog.

Minor: Environmental Studies

Student Learning Outcomes

Students graduating from this program will:

- describe the components and function of Earth systems, have knowledge of environmental policy and ethical approaches to environmental issues, and have engaged in global challenges such as climate change, global water scarcity and ocean acidification, energy, consumption and waste management, and urban sustainability.
- actively involved with diverse communities throughout their course work and understand environmental challenges from multiple cultural perspectives and through world experiences.
- demonstrate this learning through the application, across the curriculum, of advanced geographical knowledge, quantitative, and analytical skills in their application to new settings and complex problems.
- have the ability to characterize environmental elements analytically and communicate their findings effectively.

Environmental Studies Minor

Program Coordinator:

Caroline Davies, Earth and Environmental Science, (816) 235-1335;

Students pursuing the bachelor of arts degree who wish to obtain a minor in environmental studies must take at least 18 credit hours of coursework from the following list, a minimum of nine credit hours at the 300- or 400-level and a minimum of nine credit hours at UMKC. The program of study is to be planned with a program coordinator.

Code	Title	Credits
Required Courses		
ENV-SCI 110R	Understanding the Earth: Introduction to Environmental Science and Laboratory	3
ENV-SCI 110L	Understanding the Earth Laboratory	2
ENV-SCI 210	Issues in Environmental Science	3
Electives		
Select a minimum of one of the following:		3
ECON 420	Environment, Resources And Economic Growth ¹	

PHILOS 370	Environmental Ethics And Policy ¹	
See the electives listed under B.A. and B.S. Environmental Studies		7
Total Credits		18

¹ May not be counted in both required and elective categories.

Courses which do not apply as credit in the Minor program are: GEOG 417, GEOG 398, GEOG 499WI, GEOLOGY 398, GEOLOGY 499WI

Minor: Environmental Sustainability

Student Learning Outcomes

Students graduating from this program will:

- Sustainability students can describe the interactions and feedbacks of Earth systems, have knowledge of environmental policy and urban planning, and are engaged in sustainability issues at many scales.
- Sustainability students will be actively involved with diverse communities throughout their course work, and assess sustainability challenges from multiple cultural perspectives and through world experiences.
- Sustainability students will demonstrate this learning through the application of advanced sustainable knowledge, quantitative, and analytical skills in their application to new settings and complex problems.
- Sustainability students will have the ability to characterize human-environmental interactions analytically and communicate their findings effectively.

Program Description

Global populations are becoming predominantly urban and the state of the environment is central to issues of quality of life, health and safety. The Sustainability minor program provides students with the most innovative preparation in urban environmental sustainability through course work that cross cuts multiple disciplines and focuses on integrative solutions. Students develop a foundation knowledge in Earth systems. Students engage the challenges of sustainability through course work and community problem solving in sustainable thinking, planning, policy, and design. Undergraduate students gain essential life skills, a foundation in complex environmental and human systems, and critical problem solving skills.

Program Requirements

Code	Title	Credits
Required		
Take three hours of the following:		3
ENV-SCI 496	Environmental Internship	
Earth Systems and Resources		
Select one of the following:		3-4
GEOG 215	Weather and Climate	
GEOG 406	Global Environmental Change	
ENV-SCI 449	Global Water and Sustainability	
GEOG 360	Principles of Biogeography	
Sustainable Thinking		
Select one of the following:		3
PHILOS 370	Environmental Ethics And Policy	
POL-SCI 380	Political Science And Politics	
Sustainable Planning and Policy		
Select one of the following:		3
ANTHRO 331	Urban Anthropology	
ENV-SCI 321	Climate Change Impact Assessment and Policy Response	
SOCIOL 431	Social Organization Of The City	
UPD 430	Planning For Historic Preservation	
Sustainable Design		
Select one of the following:		3
ECON 420	Environment, Resources And Economic Growth	
LAW 8757N	Entrepreneurship & New Venture Creation	
UPD 432	Urban Environment Planning And Design	

Analytical Tools

Select one of the following:		3-4
GEOG 401	Advanced Geographic Information Science	
GEOG 450	Gis Fundamentals for Research Applications	
GEOG 444	Spatial Data Analysis	
UPD 420	Transportation Planning	
Total Credits		18-20

Courses which do not apply as credit in the Minor program are: GEOG 417, GEOG 398, GEOG 499WI, GEOLOGY 398, GEOLOGY 499WI

Requirements

Minimum of 18 hours, Minimum of 9 hours from UMKC

Minimum of 9 Junior/Senior (300/400) level courses.

Minor: Geography

Student Learning Outcomes

Students graduating from this program will:

- Understand human-environmental relationships and their spatial dimensions in various geographic areas, from local places to the entire world.
- Integrate knowledge from the humanities, social sciences, and natural sciences and apply that information to places.
- Know how to design, produce, and interpret maps using modern technology. Evidence of success is provided by performance on our exit examinations, admission to graduate schools, and ultimately the successful careers in geosciences pursued by our graduates.

Academic minors are offered in geography (18 hours) and in geology (18 hours). At least nine of the hours needed for the minor must be taken at UMKC. The minor programs are sufficiently flexible to enable students with diverse backgrounds to choose relevant coursework from the department's offerings. The programs are structured to ensure that students gain an appreciation of the breadth of the minor field. The minor should be declared as early as possible, but not later than the beginning of the student's senior year. Up to eight hours of coursework may simultaneously count in both the major and minor areas, where applicable. This applies to departmental and non-departmental students.

Minor in Geography

A minor in geography may be obtained with a minimum of 18 semester hours of coursework in this discipline (at least nine of which must be at the 300- and 400-level).

Either ENV-SCI 110R (5 hours with lab) -or- GEOG 105 (3 hours) is required.

Note: GEOG 398, GEOG 417, and GEOG 499WI do not count as credit in a minor program in geography.

Minor: Geology

Student Learning Outcomes

Students graduating from this program will:

- Understand the forces and processes that build and shape the Earth.
- Be able to identify minerals and rocks and understand their formation processes.
- Understand evolution, earth history, and the role of fossils in geologic time.
- Be able to utilize techniques to describe the three-dimensional geometry of Earth layers and deformation processes.
- Collect and interpret field data, produce maps, and use them to solve geologic and environmental problems.
- Be able to critically analyze published literature and have experience with technical writing and presentations.

Academic minors are offered in geography (18 hours) and in geology (18 hours). At least nine of the hours needed for the minor must be taken at UMKC. The minor programs are sufficiently flexible to enable students with diverse backgrounds to choose relevant coursework from the department's offerings. The programs are structured to ensure that students gain an appreciation of the breadth of the minor field. The minor should be declared as early as possible, but not later than the beginning of the student's senior year. Up to eight hours of coursework may simultaneously count in both the major and minor areas, where applicable. This applies to departmental and non-departmental students.

Minor in Geology

A minor in geology may be obtained with a minimum of 18 semester hours of coursework in this discipline (at least nine of which must be at the 300- and 400-level).

GEOLOGY 220 (5 hours with lab) -and- GEOLOGY 250L (3 hours) are required.

Note: GEOLOGY 398, and GEOLOGY 499WI do not count as credit in a minor program in geology.

Undergraduate Certificate: Geographic Information Systems (GIS)

Student Learning Outcomes

Students graduating from this program will:

- Identify geospatial issues and technical needs in problem-solving in relation to relevant academic disciplines, industrial production, or public services.
- Design geospatial technical approaches for problem-solving.
- analyze geospatial data and produce maps using relevant GIS software.
- Present geospatial study findings with oral presentation and written reports.

Geographic Information Systems (GIS) and related geospatial techniques are fast-growing and increasingly applied to almost all sectors of our society. Examples include environmental mapping, urban planning, and public resource management. This Missouri State-approved, transcribed undergraduate certificate program offers GIS-related multidisciplinary courses through several academic programs of the College of Arts & Sciences, such as Geosciences, Urban Planning and Design, Sociology, Economics, and Criminal Justice and Criminology. The curriculum is designed to prepare students for a variety of careers in the rapidly growing job market.

This undergraduate certificate program is open to any degree-seeking undergraduate students at UMKC with appropriate academic backgrounds.

For completion of the certificate program, the student is required to finish the coursework of 17-18 credit hours with a 3.0 GPA or higher.

The Department of Economics is committed to promoting excellence in broad-based undergraduate programs; graduate and interdisciplinary doctoral education; research; and community, university and professional service. The department focuses its research, teaching and service efforts on the urban mission of the University by fostering a diversity of research and teaching perspectives for faculty and students.

Our Students

The department offers programs leading to a Bachelor of Arts, Master's of Arts and Interdisciplinary Ph.D., in Economics. It also provides undergraduate service courses to the College of Arts and Sciences, the Bloch School, and the School of Computing and Engineering. Undergraduate majors participate in a variety of visiting lecture programs and faculty colloquialism through the Economics Club and the Omicron Delta Epsilon (the economics honorary society).

Faculty and Facilities

Faculty members of the department maintain active, extensive research programs and a strong commitment to teaching – holding four outstanding teaching awards. Faculty members have served as presidents for national and regional economic associations and lectured and conducted research in the Fulbright Program, the Ford Foundation, the U.S. Department of Commerce, and the U.S. Department of Labor. Faculty members have established national and international reputations in a number of research fields. For a small faculty, the department has ranked high among other economics departments at comparable institutions nationally.

The Department of Economics and the Center for Economic Information are housed in Haag Hall. Faculty and other department programs are housed in Mannheim Hall. Students have access to state-of-the-art computer labs and classrooms.

Center for Economic Information

Haag Hall, Room 210
5120 Rockhill Road
(816) 235-1394

Douglas Bowles, Director

The Center for Economic Information (CEI) was established in November 1994 with the goal of making local, regional and national information accessible to economic decision-makers in the Kansas City metropolitan area. The CEI is affiliated with the Department of Economics and the College of Arts and Sciences.

The center is involved in research, teaching and outreach activities. The primary expertise of the center is in application of information technology for economic analysis.

You may request information about economics programs by calling the department's main number, (816) 235-1314; visiting the website at <https://cas.umkc.edu/economics/>; or sending an information request via email to economics@umkc.edu.

For specific information on the undergraduate degree program, contact Mathew Forstater, undergraduate advisor, forstaterm@umkc.edu. For master's program inquiries, contact Sirisha Naidu, M.A. Advisor, snaidu@umkc.edu, (816)-235-5715. For PhD program inquiries, contact Scott Fullwiler, scottf@umkc.edu, (816) 235-5701.

Faculty

W. Robert Brazelton; professor emeritus of economics; B.A. (Dartmouth College); M.A., Ph.D. (University of Oklahoma).

William Black; associate professor of economics and law; Ph.D. (University of California at Irvine).

Doug Bowles¹; assistant teaching professor, director, CEI, director, SSC, Ph.D., (University of Missouri-Kansas City)

Peter J. Eaton; associate professor emeritus of economics; B.A. (University of Santa Clara); Ph.D. (University of Florida).

Mathew Forstater^{2,3}; professor of economics; B.A. (Temple University); M.A. (New School for Social Research); Ph.D. (New School for Social Research).

Scott Fullwiler^{2,3}; associate professor of economics; B.A., Ph.D. (University of Nebraska-Lincoln)

L. Kenneth Hubbell; professor emeritus of economics; B.A., M.A. (Texas Christian University); Ph.D. (University of Nebraska).

Michael Kelsay¹; Adjunct professor of economics; Ph.D. (University of Tennessee).

Zhongjin Li^{2,3}; assistant professor of economics; B.A. Renmin University of China, M.A. and Ph.D. University of Massachusetts Amherst.

Sirisha Naidu^{2,3}; associate professor of economics; B.A. Stella Maris College, M.SC. Madras School of Economics, M.A. and Ph.D. University of Massachusetts Amherst.

Erik K. Olsen^{2,3}; associate professor of economics; B.S. (Northeastern University); Ph.D. (University of Massachusetts at Amherst).

Ross Shepherd; professor emeritus of economics; A.B. (Harvard University); M.A., Ph.D. (Syracuse University).

James Sturgeon; professor emeritus of economics, Ph.D. University of Oklahoma.

Linwood Tauheed^{2,3}; associate professor of economics; Ph.D. (University of Missouri at Kansas City).

Karen S. Vorst; professor emeritus of economics; B.S. (Bowling Green State University); Ph.D. (Indiana University).

F. Eugene Wagner; professor emeritus of economics; B.A., M.S. (University of Missouri-Kansas City); Ph.D. (Syracuse University).

John O. Ward; professor emeritus of economics; B.A., M.A. (University of Toledo); Ph.D. (University of Oklahoma).

L. Randall Wray; professor emeritus of economics, B.A. (University of the Pacific); M.A. and Ph.D. (Washington University in St. Louis).

Undergraduate Undergraduate Degrees:

- Bachelor of Arts: Economics
- Minor in Economics

Graduate Graduate Degrees:

- Master of Arts: Economics
- Interdisciplinary Ph.D.

Courses

ECON 100 Economics Explained Credits: 3

Everything you need to know about how the economy works and where it's going. This course simplifies and clarifies the vocabularies and concepts used to describe all the important economic phenomenon in our society today: unemployment, trade deficits, government budget deficits or surpluses, inflation, investments, and customer debt. It describes where we've been (economically) and assess the future of the economic system we call capitalism.

ECON 100 - MOTR ECON 100: Introduction to Economics

ECON 150 Introduction To Labor Studies Credits: 3

This interdisciplinary course offered by The Institute for Labor Studies, covers the role of workers and the labor movement in society and the American political and economic system. Students will gain an overview, from a labor viewpoint, of the organization of work and workers, collective bargaining and representation, and labor's rights, roles, and strategies in a democracy and in the global economy. A particular focus will be the image of the working class and organized labor in the media and among public perception.

ECON 201 Introduction to Economics I Credits: 3

Economics I deals primarily with macroeconomic or national economic concepts, the economics of the determination of recession, inflation, maintenance of full employment and economic growth, with an emphasis upon the economics of modern Keynesian analyses. It further introduces the economics of Marx and Ayres and discusses relevant and current economic issues. ECON 201 and ECON 202 are prerequisites for most other economics courses.

ECON 201 - MOTR ECON 101: Introduction to Macroeconomics

ECON 202 Introduction To Economics II Credits: 3

Economics II deals primarily with microeconomics, firm analysis, the principles of demand, supply, elasticity, price determination, costs, income distribution, market structures, trade, and other related social, economic issues. ECON 201 and ECON 202 are prerequisites for most other economics courses.

ECON 202 - MOTR ECON 102: Introduction to Microeconomics

ECON 301 Macroeconomic Analysis Credits: 3

This course provides more in-depth analysis of the macroeconomy. It examines the economic system as a whole and the ways in which its functioning is affected by the behavior of the interdependent sectors of which it is composed. It details the major factors affecting national income and the use of sectoral accounts in analyzing economic prospects and policies.

Prerequisites: ECON 201.

ECON 302 Microeconomic Analysis Credits: 3

This course provides in-depth analysis of the microeconomy. It examines the functioning of the individual enterprise and households. It specifically details problems confronting business enterprises operating under different types of market situations. It features analyses of the influence of the prices factors of production on methods of production and the effects that changes in income levels and in relative prices have on sales of different types of goods and services.

Prerequisites: ECON 202.

ECON 303H Special Issues In Economic Credits: 3

Readings and discussions of selected economic topics. Content varies over time as economic conditions change. Designed for outstanding students in Principles of Economics.

ECON 314 Political Economy of Race, Class And Gender: Theory, History, And Policy Credits: 3

Analyzes how the political economy of race, class and gender discrimination result in differences in opportunities and outcomes in society. Begins with an introduction to political economy. Then moves to an historical overview of the origins of oppression based on gender (patriarchy), class and race and their relation to the rise and development of capitalism. Discursive and non-discursive factors are investigated. Alternative theoretical approaches to understanding the intersections of race, class, and gender are evaluated. Policy debates on issues related to affirmative action, education, welfare, employment, and others are considered.

ECON 331 Money And Banking Credits: 3

A study of the structure, operations and problems of banks and other financial institutions with emphasis on their macroeconomic performance. The importance of banking in the financial system and the influence of Federal Reserve monetary policies are also studied.

Prerequisites: ECON 301.

ECON 336 The Kansas City Economy Credits: 3

This course explores the Kansas City economy in depth from both a micro and macro perspective. The macro approach details how important the Kansas City economy is to the state of Missouri, to the US economy, and in the international arena. The micro approach details the contribution of the many different sectors of the KC area to the overall local economy.

ECON 340 Collective Bargaining Credits: 3

This course involves a study of the economics and process of collective bargaining in the labor sphere, including contract negotiations, contract enforcement, and methods to resolve bargaining disputes. Both theoretical and applied issues in collective bargaining will be addressed. Students will participate in a contract bargaining simulation.

ECON 341 Union Leadership and Administration Credits: 3

This course focuses on the roles and challenges of union leadership in a changing environment. Topics include the union leaders' role as a representative, organizer and educator as well as administrative responsibilities within the union and the relationship with enterprise management in both adversarial and participatory situations. Options for leadership styles and organizational models will be discussed and explored in both theory and practice. Leaders will develop their skills of motivation, speaking, strategic planning and managing complex campaigns and diverse organizations.

ECON 353 Financial Analysis And The Economy Credits: 3

This course examines techniques of financial evaluation used by individuals, corporate managers, and portfolio analysts. Focus of the course will be on the interaction of the mechanics of analytical methods and economic activity. Topics covered will include individual portfolio building, asset evaluation, and financial market theory.

Prerequisites: ECON 301.

ECON 395A Economic Issues Credit: 1**ECON 395C The Economics Of Energy Credit: 1****ECON 402 Labor and the Global Political Economy Credits: 3**

This course will examine current issues, trends, and developments which are shaping labor in today's global economy. Students will analyze the shifting balance of power between labor and capital, the role of government, and evaluate the strategic options for workers and unions operating in a global environment.

ECON 404R American Economic History Since 1865 Credits: 3

The course deals with the emergence of Industrial American since 1865. It covers the rise to dominance of the large modern corporation, the problem of economic and social instability and stability, the rise of trade associations, cartels, and government regulation in an unstable economy, and the evolution of American economic policy and national economic planning.

ECON 404RR American Labor History Credits: 3

This course examines history of work and the working class in the U.S. from 1750 to the present. We will focus on the transformation of the workplace, the rise of the union movement, the nature of cultural and political organizations, workers' relationships with other social groups, and the role played by gender, race, and ethnicity in uniting or dividing the working class.

ECON 406WI History Of Economic Thought Credits: 3

Analysis of basic concepts of economic thought, their historical sources and significance.

ECON 411 Geographic Information Systems (GIS) for Urban Economic Development Credits: 3

An advanced quantitative methods course featuring the application of Geographic Information Systems (GIS) to the problems of urban economic development. Surveys federal, state, and local geospatial and attribute data resources, including Census Bureau TIGER files, and provides training in geodatabase construction and management. Geospatial processing, editing, and address geocoding are also covered. Formal analytical methods (cartographic aesthetics and visualization, spatial analysis, exploratory data analysis, network analysis, crime analysis, etc.) are all applied in the context of the problematics of urban and regional economic development.

Prerequisites: GEOG 203 or UPD 203.

ECON 412 International Trade And Development Credits: 3

This course emphasizes the global allocation of resources and distribution of income in the analysis of economic development and international trade. Major topics include various theories of economic development, comparative advantage, terms of trade, tariffs, quotas, economic integration and the use of trade to foster economic development.

Prerequisites: ECON 301.

ECON 416 Law And Economics Credits: 3

This course will examine the use of economic principles in the analysis and application of public and private law. Emphasis will be given to the efficiencies of laws in meeting social objectives, how laws can be modified to become more economically efficient, and the uses of economics in the actual practice of the law. Issues covered will include proofs of liability in antitrust, contracts and employment law using statistical and economic analysis, and the calculation of economic damages in commercial, employment and personal injury/death litigation. Graduate students will be assigned a specific research paper.

ECON 420 Environment, Resources And Economic Growth Credits: 3

This course focuses on the theory and policy issues involved in resource recreation and depletion; environmental destruction, preservation and recreation; and the interrelation of these problems of and prospects for economic growth.

ECON 421 Mathematical Economics Credits: 3

An introduction to mathematical methods as applied to the questions addressed by economists. The principal methods to be applied are matrix algebra and differential calculus in the context of optimization. Other topics may include integral calculus, differential equations, difference equations, or linear and non-linear programming.

Prerequisites: ECON 301, ECON 302 and (MATH 206 or MATH 210).

ECON 425 Intermediate Economic Statistics Credits: 3

An introduction to the empirical side of economics. Estimation theory and the properties of commonly used estimators are covered. Some of the more important topics dealt with are: multiple regression, heteroscedasticity and autocorrelation in regression analysis, analysis of variance and the use of qualitative variables in regression analysis. Hands-on work with computer software designed for econometrics is stressed. No experience with computers necessary.

Prerequisites: ECON 301 and ECON 302.

ECON 429 Environment, Resources And Economic Growth Credits: 3

This course focuses on the theory and policy issues involved in resource creation and depletion; environmental destruction, preservation and recreation; and the interrelation of these problems of and prospects for economic growth.

Prerequisites: ECON 201, ECON 202.

ECON 431 Monetary Theory And Policy Credits: 3

A study of the nature and functions of money and the financial system, with emphasis on monetary theory and its application to current banking and financial problems. Recent contributions to monetary theory and current literature.

Prerequisites: ECON 201, ECON 202, ECON 301.

ECON 435 Public Finance Credits: 3

Problems of public and private sector decision making of revenue-expenditure policies and an examination of the actual legal, political and economic policies for revenues and expenditures of federal, state and local governments.

Prerequisites: ECON 201, ECON 202, ECON 302.

ECON 437 State And Local Government Finance Credits: 3

This course investigates the role, problems and relative importance of municipal governments in the United States. Such areas as the demand for public services, tax and expenditure policies, and intergovernmental fiscal relations will be explored in detail. Case studies of state and local governments will be introduced to emphasize the problems and proposed solutions arising in modern municipal governments.

Prerequisites: ECON 201, ECON 202, ECON 302.

ECON 438 Economic Policy Credits: 3

Analysis of the confluence of political and economic behavior, the economics of collective action.

Prerequisites: ECON 201, ECON 202, ECON 301 and ECON 302.

ECON 442 International Finance Credits: 3

This course emphasizes the global activity and balance of payments implications of government taxation, expenditure and monetary policies under various capital market conditions. Major topics include: exchange rates and the balance of payments; national income determination in an open economy; integrated and non-integrated capital markets; economic growth stabilization policies and the quest for global economic stability.

Prerequisites: ECON 201, ECON 202, ECON 301.

ECON 451 Institutional Economic Theory Credits: 3

Analysis of impact of modern philosophy and developments in social sciences on economic theory.

ECON 458 Urban Economics Credits: 3

An inquiry into the economics of location decisions and the influence of these on urban growth and on the real estate market; the evaluation of urban transportation and other public services; an examination of economic development of ghetto neighborhoods.

Prerequisites: ECON 302.

ECON 460 Industrial Organization Credits: 3

The structure, conduct, and performance of American industry. Historical evolution of American industry; alternative industrial systems. Antitrust policies and their alternatives. Technological change and industrial performance.

Prerequisites: ECON 302.

ECON 475 Economics Institutions and Policies Credits: 3

This course focuses on the economic system analysis of labor market phenomena in the context of historical-institutional development and labor market policies, this course is offered winter semester only.

Prerequisites: ECON 201 and ECON 202.

ECON 486 Labor Economics Credits: 3

An examination of the theories of wage determination, the economic effects of wage determination upon the wage structure, the distribution of national income, employment, and an introduction to collective bargaining.

Prerequisites: ECON 301 and ECON 302.

ECON 488 Radical Political Economy Credits: 3

This course will cover the ideas that constitute radical political economy. It will show how radical political economy can be used to examine current economics and social problems and will outline possible economic structures of utopian visions.

Prerequisites: ECON 201, ECON 202.

ECON 490 Readings In Economics Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the professor in any of the following fields: (a) economic theory, (b) history of economic thought, (c) labor economics, (d) urban economics, (e) monetary and fiscal policy and theory, (f) international economics, (g) economic development, (h) comparative economic systems, (i) public finance, (j) public policy toward business, (k) quantitative economics.

Prerequisites: ECON 201, ECON 202.

ECON 496 Practicum in Urban Economic Development Credits: 3

The Practicum in Urban Economic Development provides students with the opportunity to integrate and apply the knowledge and skills developed through previous coursework to real-world problems of urban economic development. Working on collaborative, service-learning projects in partnership with both community and metropolitan-level organizations, students will engage with the process of applied urban economic development in a team-structured context. Student teams will be each be responsible for one term project over the course of the semester. The course will culminate with the public presentation of project outcomes.

Prerequisites: ECON 336, ECON 458.

ECON 497 Internship Credits: 1-6

The course allows the student to participate in cognate, approved internships of a professional nature.

Prerequisites: ECON 201 and ECON 202; completion of 75 credit hours and undergraduate major or graduate student in Economics.

ECON 5501 Advanced Macroeconomic Analysis Credits: 3

Basic theoretical concepts of national income and statistical tools utilized in its measurement. Aggregate demand and supply as problems of economic dynamics. The course includes examination of the primary competing theoretical approaches: neoclassical, Keynesian, new classical, real business cycle, new Keynesian supply side, Austrian, and Post Keynesian. Topics covered include growth, money, labor markets consumption, investment, expectations formation, role of time and uncertainty, equilibrium and disequilibrium analysis, exchanges rates, international trade, and optimal currency areas. Policy implications of the various macroeconomic theories are explored.

Prerequisites: ECON 301 and ECON 302.

ECON 5502 Advanced Microeconomic Analysis Credits: 3

The course first provides a critical survey of neoclassical microeconomic theory, including methodology, demand theory, production and cost theory, theory of competitive and non-competitive markets, distribution, welfare, and general equilibrium. It then introduces heterodox microeconomic theory, covering its historical origins, methodology, structural organization of economic activity, in-put-output models, flow of funds, agency and institutions, and the business enterprise.

Prerequisites: ECON 302, ECON 5521.

ECON 5503 Advanced Heterodox Economics Credits: 3

The course examines various theoretical approaches and topics, both historically and currently, that constitute heterodox economics. In particular the course deals in depth with the mathematical and economic properties of heterodox production and price models. After reviewing the mathematics of linear production-price models, the module will examine Leontief, Sraffian, and other heterodox price and production models.

Prerequisites: ECON 301, ECON 302, and MATH 210.

ECON 5504R American Economic History Since 1865 Credits: 3

The course deals with the emergence of Industrial America since 1865. It will cover the rise to dominance of the large modern corporation, with the problem of economic and social instability and stability, with the rise of trade associations, cartels, and government regulation in an unstable economy, and with the evolution of American economic policy and national economic planning.

ECON 5504RR American Labor History Credits: 3

This course examines the history of work and the working class in the U.S. from 1750 to the present. We will focus on the transformation of the workplace, the rise of the union movement, the nature of cultural and political organizations, workers' relationships with other social groups, and the role played by gender, race, and ethnicity in uniting or dividing the working class.

Prerequisites: Graduate standing.

ECON 5505 Advanced Comparative Economic Systems Credits: 3

Contents vary depending upon the instructor's design for the course.

Prerequisites: ECON 301, ECON 302.

ECON 5506 Advanced History Of Economic Thought Credits: 3

This seminar uses issues raised in the reading of two 'classic' primary texts, Adam Smith's *An Inquiry into the Nature and Causes of the Wealth of Nations* (1776) and John Maynard Keynes's *The General Theory of Employment, Interest and Money* (1936), as points of departure for the examination of a series of topics in the history and development of economics and alternative paradigms in the discipline. These investigations will lead us to the study of a number of other seminal articles, representing alternative approaches in the field. Topics include competition, accumulation, path dependence and endogenous technical change, cumulative causation, the laws of return, money and credit, capital theory, and more.

Prerequisites: ECON 301, ECON 302.

ECON 5508 Controversial Issues In Recent Economic Literature Credits: 3

This course will focus on theoretical and policy-oriented controversies that have occurred in economic in the 20th century. The type of controversies covered include, but are not restricted to, money, unemployment, business cycles and economic growth, pricing and administered prices, capital controversy, labor theory of value controversy, and free trade vs. protectionism. While the course concentrates on recent debates, it identifies the origins of the modern disputes in earlier controversies. For each controversy, its real world importance and policy implications are discussed.

ECON 5511 Geographic Information Systems (GIS) for Urban Economic Development Credits: 3

An advanced quantitative methods course featuring the application of Geographic Information Systems (GIS) to the problems of urban economic development. Surveys federal, state, and local geospatial and attribute data resources, including Census Bureau TIGER files, and provides training in geodatabase construction and management. Geospatial processing, editing, and address geocoding are also covered. Formal analytical methods (cartographic aesthetics and visualization, spatial analysis, exploratory data analysis, network analysis, crime analysis, etc.) are all applied in the context of the problematics of urban and regional economic development.

Prerequisites: GEOG 203 or UPD 203.

ECON 5512 Advanced Economic Development Credits: 3

Contents vary depending upon the instructor's design.

Prerequisites: ECON 301, ECON 302.

ECON 5513 Economic Cycles And Growth Credits: 3

A critical review and evaluation of economic analysis and the forces of economic fluctuation and growth; and analysis of statics, dynamics, monopolistic competition, the role of the interrelationships of the market structure and other institutional forces as they relate to fluctuations and growth. An emphasis will be made on the critical evaluation of recent literature in the field of economic analysis related to fluctuations, growth, statics, dynamics, market structure and the reinterpretation of economic fluctuations, growth, forecasting and overall economic behavior. An analysis of the technological, monetary, and fiscal policy implied by economic trends and growth will also be discussed.

Prerequisites: ECON 5501.

ECON 5516L Law And Economics Credits: 3

This course will examine the use of economic principles in the analysis and applications of public and private law. Emphasis will be given to the efficiencies of laws in meeting social objectives, how laws can be modified to become more economically efficient, and the uses of economics in the actual practice of the law. Issues covered will include proofs of liability in antitrust, contracts and employment law using statistical and economic analysis, and the calculation of economic damages in commercial, employment and personal injury/death litigation.. Graduate students will be assigned a specific research paper..

Prerequisites: ECON 302.

ECON 5521 Mathematical Economics Credits: 3

An introduction to mathematical methods as applied to the questions addressed by economists. The principal methods to be applied are matrix algebra and differential calculus in the context of optimization. Other topics may include integral calculus, differential equations, difference equations or linear and nonlinear programming.

Prerequisites: ECON 301, ECON 302 and MATH 110.

ECON 5525 Econometric Methods Credits: 3

Continuation of ECON 425. The major problems encountered in building and testing economic models are treated and alternative solutions to these problems are discussed. Major topics include corrections for heteroscedasticity and autocorrelation, maximum likelihood and BLUE estimation, simultaneous equations methods, probit and logit analysis and distributed lags. Other topics may include ARIMA or other series analytic methods, three stage least squares and dynamic multipliers or simulation. Work with econometric software is stressed. No programming experience necessary.

Prerequisites: ECON 425 and ECON 5521.

ECON 5529 Readings In Quantitative Economics Credits: 3

Readings from the economic literature which stress advanced mathematical or econometric tools. A general subject matter is selected by the student with the consent of the instructor.

Prerequisites: ECON 5521, ECON 5525.

ECON 5531 Monetary Theory And Policy Credits: 3

A study of the nature and functions of money and the financial system, with emphasis on monetary theory and its application to current banking and financial problems; recent contributions to monetary theory and current literature.

Prerequisites: ECON 301.

ECON 5535 Theory Of Public Finance Credits: 3

An inquiry into the scope and nature of economics with emphasis on the nature of the public sector including a brief study of welfare criteria along with the study of ability to pay, benefit theory of taxation, and expenditure theories.

ECON 5537 State And Local Government Finance Credits: 3

This course investigates the role, problems and relative importance of municipal governments in the United States. Such areas as the demand for public services, tax and expenditure policies, and intergovernmental fiscal relations will be explored in detail. Case studies of state and local governments will be introduced to emphasize the problems and proposed solutions arising in modern municipal governments.

Prerequisites: ECON 302.

ECON 5538 Economic Policy Credits: 3

Analysis of the confluence of political and economic behavior, the economics of collective action.

Prerequisites: ECON 301 and ECON 302.

ECON 5540 Advanced International Trade Credits: 3

This course emphasizes the global allocation of resources and distribution of income under various commodity market conditions and government trade policies. Major topics include: comparative advantage; terms of trade; the distribution of gains and losses from trade; perfect vs. imperfect competition; tariffs, quotas and other barriers to trade; exchange rates and the balance of payments; preferential trading arrangements; international factor movements and multinational corporations.

Prerequisites: ECON 302; graduate standing.

ECON 5542 Advanced International Finance Credits: 3

This course emphasizes the global activity and balance of payments implications of government taxation, expenditure and monetary policies under various capital market conditions. Major topics include: exchange rates and the balance of payments; national income determination in an open economy; integrated and non-integrated capital markets; economic growth, stabilization policies and the quest for global economic stability.

ECON 5548 Advanced Socialist Economic Systems Credits: 3

The course will deal with the theoretical analysis of socialist economic theory, Marxian and non-Marxian, and/or of socialist economics systems such as those of Eastern Europe, the Chinese mainland and elsewhere. The emphasis of the course will vary depending upon the instructor's design for the course.

Prerequisites: ECON 301 and ECON 302.

ECON 5550 Regional Economics Credits: 3

The economics of spatial relations, emphasizing basic location and land utilization theory and the role of transport will be considered at the micro-level. Keynesian and neoclassical growth theories and contemporary policy approaches to regional growth and decline are analyzed.

Prerequisites: ECON 302.

ECON 5551 Advanced Institutional Theory Credits: 3

Evolution, organization and allocation functions of the modern industrial economy. Contributions and limitations of conventional economic concepts. Philosophical and theoretical interpretations of the economy in light of modern developments in philosophy and social science.

Prerequisites: ECON 451.

ECON 5558 Advanced Urban Economics Credits: 3

The study of the city as a dynamic system of interrelated and interdependent markets. Significant markets in cities include land, housing, labor, transportation and public services.

ECON 5560 Industrial Organization Credits: 3

The structure, conduct and performance of American industry. Historical evolution of American industry; alternative industrial systems, antitrust policies and their alternatives. Technological change and industrial performance.

Prerequisites: ECON 301, ECON 302.

ECON 5575 Labor Economics, Institutions and Policies Credits: 3

This course focuses on the economic analysis of labor market phenomena in the context of historical-institutional development and on labor market policies. This course is offered winter semester only.

Prerequisites: ECON 201 and ECON 202.

ECON 5583 Racial Inequality & Public Policy Credits: 3

This course will provoke open debate and discourse about public policy responses to racial inequality. The emphasis is on stimulating participants to think about and to analyze critically the range of strategies offered for reducing racism and racial economic inequality.

ECON 5587 Human Resource Economics Credits: 3

An analysis of the factors determining the productivity of human resource: education, nutrition, job training and work environment. An analysis of work patterns, wage patterns, and the impact of automation. Graduate students will be assigned a specific research paper on a topic to be decided with the instructor.

Prerequisites: ECON 302.

ECON 5588 Advanced Political Economy Credits: 3

This course gives students a comprehensive introduction to the history and modern practice of political economy, with particular emphasis on Marxian and Classical political economy. Topics include: value theory, class theory, economic reproduction, economic crisis, the theory of history, and methodology.

ECON 5589 Graduate Seminar In Labor Economics Credits: 3

Content of seminar will vary from semester to semester depending upon the instructor's design for the course.

ECON 5590 Special Topics Credits: 1-3

Selected topics in theoretical and applied economics.

ECON 5590A Special Topics Credits: 1-3**ECON 5590B Special Topics Credits: 1-3****ECON 5590C Special Topics Credits: 1-3****ECON 5591 Research And Planning Seminar Credits: 3**

The objective of this research seminar is to apply the quantitative techniques and theoretical constructs of economics to an urban-regional problem. Students are required to formulate and evaluate present economic models, and then complete a research project.

Prerequisites: ECON 5502 and ECON 5521.

ECON 5599 Research And Thesis Credits: 1-6

Directed specialized research.

ECON 5601 Colloquium In Advanced Macroeconomics Credits: 3

The course will deal with analyses of topics in Macroeconomic analysis and Macroeconomic policies and investigation of current literature in diverse areas of Macroeconomic analysis. A written report(s) will be made upon the selected assignment(s).

Prerequisites: ECON 5501.

ECON 5602 Colloquium In Advanced Microeconomics Credits: 3

As a continuation of Economics 502, this course deals with the business enterprises-including production, costs, pricing, and investment-markets, market demand, market governance, general price-quantity models of the economy, microfoundations of the heterodox macroeconomics, and social welfare.

Prerequisites: ECON 5502.

ECON 5606 Colloquium on Advanced History of Economic Thought Credits: 3

The course examines advanced topics in history of economic thought.

Prerequisites: ECON 5506.

ECON 5608 Topics In Economic Theory Credits: 3

This course deals with advanced topics in Institutionalism, Post Keynesian, and other heterodox economic theory. May be repeated with different topic.

ECON 5616 History Of Economics In The 20th Century Credits: 3

The history of 20th century economics is concerned with a number of interdependent issues, including the institutional organization of economics at universities; the historical development of the structures and social networks that make-up the economic paradigms of neoclassical economics, Marxian economics, Post Keynesian economics, and other heterodox economics; and the role of institutional and state power to maintain the dominance of the neoclassical paradigm. The aim of the course is to introduce students to this institutional/organizational history.

ECON 5625 Colloquium In Econometrics Credits: 3

This course treats advanced topics in econometrics such as non-linear estimation techniques, model development, simultaneous equation estimation techniques, and simulation. Topics are developed from theoretical and application perspectives. Familiarity with personal computer is necessary.

Prerequisites: ECON 5501, ECON 5502, ECON 5521, ECON 5525, or equivalents.

ECON 5631 Colloquium on Monetary Theory and Policy Credits: 3

This course explores advanced monetary theory and policy, examining recent debates and current research practices, as well as classic articles on monetary theory and policy.

Prerequisites: ECON 5601 or ECON 5501 and ECON 5531.

ECON 5645 Financial Macroeconomics Credits: 3

This course will introduce the student to the central role of financial analysis in macroeconomic analysis and to theories of macroeconomics instability based on the integration of finance and macroeconomics. It will examine modern finance theory and modern approaches to financial analysis, paying particular attention to the contributions made by Fisher and Keynes.

ECON 5660 Evolution Of American Industrial Society Credits: 3

Drawing on economic and organizational theory, the course will concentrate on the evolution of American industrial technology, the American business enterprise, and the organization of American industries and markets since 1870.

ECON 5665 Colloquium In Advanced Health Economics Credits: 3

This course is designed as a seminar with a special emphasis on analysis of econometric methods to assess issues in health care. The topics are developed from a theoretical and applied perspective. Familiarity with personal computers is necessary. Special emphasis will be given in the selection of course topics to the interests and backgrounds of participants.

Prerequisites: ECON 5521, ECON 5525, ECON 5565.

ECON 5680 Teaching Methods And Course Design Credits: 3

This course is designed to prepare students for the challenge of teaching economics. Students will be taught how to write a syllabus; how to prepare for class; how to plan learning activities; how to become skillful in leading discussion; how to present an effective lecture; how to test and assess student learning; how to develop effective group projects; how to motivate their students for lifelong learning. Students will be required to design a course to be taught at the 200-, 300 or 400-level. The student will prepare a complete set of course materials, including a lecture outline, a list of required readings, useful handouts, course materials, including a lecture outline, a list of required readings, useful handouts, course assignments, exams, etc. The course should incorporate an interdisciplinary approach and should emphasize an "active learning" component, designed to promote a "rich learning experience." The student will work closely with an appropriate member of the faculty.

Prerequisites: Must have completed/passed Comprehensive Exams.

ECON 5688 Colloquium On Political Economy Credits: 3

This course is designed as a seminar and will take into account theory and policy analysis from alternative perspectives. The topics covered will include philosophical foundations of contemporary theory and policy, the organization of production information and finance, resource and environment, wealth and income distribution, public and private policy and planning. Stress is placed on contemporary research and students are expected to become involved in research projects.

ECON 5690 Special Doctoral Readings In Economics Credits: 1-3

Special research topics in Economics at the Doctoral level.

ECON 5699 Doctoral Dissertation Credits: 1-12

Directed selected research for Economics in the interdisciplinary doctoral program.

ECON 5899 Required Graduate Enrollment Credit: 1

Bachelor of Arts / Master of Arts: Economics - Dual Degree Program

Student Learning Outcomes

Students graduating from this program will:

- Apply the theory and methods of the 'standard' approaches in both micro and macroeconomics given a variety of social and economic issues.
- Have a capacity for critical thinking and its role in challenging the 'standard' approach to economic problems.
- Demonstrate well-developed written and verbal communication skills.
- Demonstrate competency in a variety of qualitative and quantitative methods that will become part of their problem-solving toolkit.
- Have an advanced knowledge of the basic areas of the field.
- Be able to integrate their knowledge with critical thinking skills.
- Be able to articulate their knowledge, both orally and in writing.
- Be able to effectively research the literature of this field.

This program offers students the opportunity to fulfill the requirements of the BA and MA degrees in less time, and for less money, than the separate degree programs. Students earning a UMKC BA degree in Economics may count up to 9 credit-hours of 400-level undergraduate credit toward the MA degree. A student completing the requirements for the BA degree with 9 credit-hours of 400-level coursework (including ECON 425 and 451) can earn the MA degree with seven additional Economics courses (as specified below). For a full-time student this additional coursework can be completed in one year of study.

The requirements for this program are:

- Students must apply after completion of 60 hours toward their BA degree and prior to the start of the anticipated undergraduate graduation term.
- To apply, students must submit an application and a completed Declaration of Major form to the Department of Economics.

- Student applications will be reviewed and approved or denied at the discretion of the MA Program Advisor in the Department of Economics. **The deadline for decision is December 1 for a May Graduation and May 1 for a December graduation.**
- Students must pass a college-level calculus course before entering the program. MATH 206 Brief Calculus and Linear Algebra or an equivalent is recommended; MATH 210 Calculus I is also acceptable.

BA-MA Requirements

BA Component – see the requirements for the BA-Economics program (<https://catalog.umkc.edu/colleges-schools/arts-sciences/academic-departments-programs/economics/bachelor-of-arts-economics/>).

MA Component

Code	Title	Credits
Required Undergraduate Courses		
ECON 425	Intermediate Economic Statistics	3
ECON 451	Institutional Economic Theory	3
One ECON 400-Level Elective		3
Required MA Courses		
ECON 5501	Advanced Macroeconomic Analysis	3
ECON 5502	Advanced Microeconomic Analysis	3
ECON 5521	Mathematical Economics	3
ECON 5525	Econometric Methods	3
ECON 5551	Advanced Institutional Theory	3

Elective Graduate Economics Courses: Two Economics courses at the 5500 level or higher.

Bachelor of Arts: Economics

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Apply the theory and methods of the 'standard' approaches in both micro and macroeconomics given a variety of social and economic issues.
- Have a capacity for critical thinking and its role in challenging the 'standard' approach to economic problems.
- Demonstrate well-developed written and verbal communication skills.
- Demonstrate competency in a variety of qualitative and quantitative methods that will become part of their problem-solving toolkit.

Career Implications

The undergraduate degree in economics is excellent preparation for graduate study in economics and most other academic disciplines, as well as law and business. A degree in economics opens a wide range of career choices including teaching, government service, finance, banking and insurance. It is excellent preparation for a career in business, public administration and management.

Advising System

Students in the program should see the Economics website for more information about undergraduate advising.

Honor Society

The Zeta chapter of the Omicron Delta Epsilon International Honor Society in Economics is on campus. Information on this organization can be obtained from the Department Chair. The society is open to all undergraduate students with at least 12 hours of economics and a 3.0 GPA in economics and related courses. Graduate students in economics with a 3.0 GPA also may join.

Special Awards and Scholarships

The Joe E. Brown Institutional Economics Award is given each year to an undergraduate or graduate student for outstanding academic performance in the study of institutional theory. The department also offers the Hodges Scholarships for Economics, James Crew Scholarship, Gene Wagner Honorary Scholarship, and the Karen Vorst Scholarship for undergraduates.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
	Writing Intensive Course (300-level or above)	3
	Foreign Language (3rd Semester Level)	9
	Laboratory Science Experience	1
Total Credits		13

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

This program requires a minimum of 36 hours of courses in the department. A minimum 2.0 GPA in the major is required for graduation.

Code	Title	Credits
Major Prerequisites		
MATH 110	Precalculus Algebra (satisfies Math Pathway)	3
STAT 235	Elementary Statistics	3
Major Requirements		
ECON 201	Introduction to Economics I	3
ECON 202	Introduction To Economics II	3
ECON 301	Macroeconomic Analysis	3
ECON 302	Microeconomic Analysis	3
ECON 425	Intermediate Economic Statistics	3
ECON 451	Institutional Economic Theory	3
Major Electives (choose from the following)		18
Any 300 or 400-level ECON course not included in Major Requirements is a major elective. 5500-level courses may be taken as a B.A. major elective with permission of department.		
ECON 340	Collective Bargaining	
ECON 402	Labor and the Global Political Economy	
ECON 404RR	American Labor History	
ECON 412	International Trade And Development	
ECON 416	Law And Economics	
ECON 421	Mathematical Economics	
ECON 427	Labor Economics	
ECON 460	Industrial Organization	
ECON 475	Economics Institutions and Policies	
Total Credits		42

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		35

Minimum GPA: 2.0

Total Credit Hours: 120

Teacher Certification in Social Studies

Student Learning Outcomes

Upon graduating with a Teacher Certification in Social Studies:

- Students will be able to distinguish the attributes of a variety of economic theories and policies.
- Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
- Students will have knowledge of statistical methods that will become part of their problem-solving toolset.
- Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
- All students will have undertaken a research project in conjunction with a local community development corporation as part of an academic service learning assignment. In fact, there will be many opportunities to be actively engaged with the Kansas City community through our community service requirement in various courses.
- Students will be better problem solvers and better-informed citizens.

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education (p. 1430) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

Fall Semester	Credits	Spring Semester	Credits
ECON 201 or 202 ^{CC}		3 ECON 201 or 202 ^{CC}	3

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.

- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Economics

Discipline Coordinator

Scott Fullwiler, (816) 235-5700, scottf@umkc.edu

Economics is a discipline in the Interdisciplinary Ph.D. (p. 1543) Program administered by the School of Graduate Studies.

Note: The discipline-specific requirements listed here are *in addition* to the requirements listed in [Interdisciplinary Ph.D. Application Procedure and Minimum Criteria for Admission](#) and Minimum Interdisciplinary Ph.D. Academic Regulations and Degree Requirements.

Discipline-Specific Admission Requirements

In addition to the general criteria for admission, the criteria for admission to the Interdisciplinary Ph.D. program in Economics are:

1. A score of at least 154 in verbal reasoning, a score of at least 154 in quantitative reasoning and at least a 4.0 on the analytical portions of the general Graduate Record Examination.
2. A grade-point average of at least 3.0 (on a 4.0 scale) covering all college work taken prior to the bachelor's degree, or a grade-point average of at least 3.0 (on a 4.0 scale) covering all post-baccalaureate work completed to date.
3. Recommendations for provisional or full admission by the doctoral faculty review group in at least two participating disciplines.
4. Applicants for whom English is not the native language and have studied less than two years (full time) in a U.S. academic program or a comparable program in an English-speaking country are required to obtain a TOEFL score of at least 550 on the paper-based test or 213 on the computer-based test. In addition, to qualify for **full admission** status, international students must achieve a score of at least 4.0 on the Test of Written English (TWE) portion of the TOEFL examination. Students admitted provisionally because of the TWE requirement may take a TWE equivalency test through UMKC's Applied Language Institute once they arrive on campus.
5. Applicants must have at least 18 undergraduate semester credit hours in economics, including intermediate microeconomics and macroeconomics and a course in elementary statistics. In addition, it is strongly recommended that applicants have some of the following courses: econometrics, mathematical economics, history of economic thought, heterodox economics, economic history, calculus and linear algebra. Students with fewer than 18 credit hours will be admitted only on a provisional status.
6. Applicants matriculated into the M.A. Economics program at UMKC may apply for admission to the Interdisciplinary Ph.D. program in Economics as soon as they have completed 15 credit hours and have earned a grade-point average of 3.25 or better.
7. Applicants who wish to transfer to the UMKC Interdisciplinary Ph.D. program in Economics from other institutions must have obtained a grade-point average of at least 3.0 covering all their graduate work. Transfer students must apply for transfer credits toward the Interdisciplinary Ph.D. as soon as possible after completion of a minimum of 12 credits at UMKC with a grade-point average of 3.0 or better. Up to 30 transfer credit hours may be granted. No transfer credit will be granted for any courses not relevant to the Interdisciplinary Ph.D. in Economics or for any course with a GPA of less than 3.0.

The deadline for receipt of completed applications and supporting documentation is Feb. 1 for the fall semester and Sept. 1 for the spring semester.

Alternate Admission Criteria

Applicants who do not fit the above criteria may petition the Economics doctoral committee with evidence of scholarly publication, research and recommendations, but the decision rests with the committee.

Qualifying Requirements for Full Admission

At the time admission is offered, provisional students will be notified of any course deficiencies or qualifying requirements to be met for full admission. The faculty will make a decision with regard to full admission based upon the student's performance in meeting the qualifying requirements.

Suggested Compatible Co-disciplines

Curriculum and Instruction (p. 1568), Educational Leadership Policy and Foundations (p. 1572), History (p. 1584), Public Affairs and Administration (p. 1605), Social Science Consortium (p. 1607)

Core Program Requirements

For Students with Economics as a Primary Discipline

The Interdisciplinary Ph.D. in Economics consists of a minimum of 18 required coursework credit hours in Economics—including:

Code	Title	Credits
ECON 5506	Advanced History Of Economic Thought	3
ECON 5551	Advanced Institutional Theory	3
ECON 5601	Colloquium In Advanced Macroeconomics	3
ECON 5602	Colloquium In Advanced Microeconomics	3
ECON 5625	Colloquium In Econometrics	3
ECON 5688	Colloquium On Political Economy	3
Total Credits		18

If the student has not taken the prerequisites to ECON 5601, ECON 5602 and ECON 5625, he/she will be required to take ECON 5501, ECON 5502, ECON 5521, and ECON 5525 --an additional 12 coursework credit hours (or, a total of 30 hours). All students are strongly urged to take two fields in Economics, each consisting of two three-credit hour courses for a total of 12 additional coursework credit hours. These courses will be taken in Economics and at least one additional field such as sociology, history, public administration, education, mathematics, political science, geosciences, computer science or others, provided that such fields participate in the doctoral program.

Code	Title	Credits
Required Courses		
ECON 5501	Advanced Macroeconomic Analysis	3
ECON 5502	Advanced Microeconomic Analysis	3
ECON 5506	Advanced History Of Economic Thought	3
ECON 5521	Mathematical Economics (Calculus I strongly recommended)	3
ECON 5525	Econometric Methods	3
ECON 5551	Advanced Institutional Theory	3
ECON 5601	Colloquium In Advanced Macroeconomics	3
ECON 5602	Colloquium In Advanced Microeconomics	3
ECON 5625	Colloquium In Econometrics	3
ECON 5688	Colloquium On Political Economy	3
Additional Requirements		
Coursework in an outside field or fields, depending upon the requirements of co-discipline regulations		
Dissertation and oral examination		12
Total Credits		42

For Students with Economics as a Co-discipline

Those students taking Economics as a co-discipline will take a minimum of 12 hours in Economics, at the graduate level, including:

Code	Title	Credits
ECON 5501	Advanced Macroeconomic Analysis	3
ECON 5502	Advanced Microeconomic Analysis	3

Comprehensive Examination Guidelines

Primary discipline students are required to pass a qualifying examination in Economics theory--micro, macro and political economy, and in quantitative methods. Students taking field concentrations must pass a Comprehensive Examination in those fields, or meet the requirement by an alternative means that is accepted by the department.

Co-discipline students must receive grades of "B" or better in ECON 5501 and ECON 5502. In addition, the oral portion of the Comprehensive Examination will require students to integrate knowledge between topics in Economics and the student's coordinating unit.

Master of Arts: Economics

Student Learning Outcomes

Students graduating from this program will:

- Have an advanced knowledge of the fundamental areas of the field.
- Be able to integrate their knowledge with critical thinking skills.
- Be able to articulate their knowledge, both orally and in writing.
- Be able to effectively research the literature of this field.

Career Implications

The master of arts in economics is designed as a preparation for further graduate training at the doctoral level and for professional positions in industry, business, government, teaching and research. Courses may be taken in areas other than economics with the approval of the M.A. advisor.

Advising System

Students should consult with the M.A. advisor, Sirisha Naidu, snaidu@umkc.edu, 816-235-5715 to plan their graduate program of study.

Admission Requirements

Students may be admitted for graduate study in economics if they have a baccalaureate degree in economics from an accredited college or university with an overall grade-point average of at least 2.5 on the 4.0 scale (or the equivalent). Applicants whose undergraduate GPA is less than 2.5 may be considered for admission upon petition to the Graduate Admission Committee of the Department of Economics.

Students who have a baccalaureate degree with an overall undergraduate GPA of 2.5 or better and who did not major in economics may be admitted to the program upon consultation with the department's M.A. advisor and on demonstrating proficiency in the following areas:

- Intermediate Macroeconomic Analysis
- Intermediate Microeconomic Analysis
- Introductory Statistics

All students with less than a 2.5 (4.0 scale) GPA prior to admission shall be required to take the general Graduate Record Examinations (GRE).

International students who have studied less than two years (full time) in a U.S. academic program or a comparable program in an English-speaking country are required to have TOEFL score of 550 or above or 213 on the computer-based test or 79 on the internet test; or obtain a IELTS score of 6.0 or more.

Degree Requirements

Thirty hours of graduate work are required for the M.A. in economics. The following required courses (15 hours) and their prerequisites are listed:

Code	Title	Credits
ECON 5501	Advanced Macroeconomic Analysis	3
ECON 5502	Advanced Microeconomic Analysis	3
ECON 5521	Mathematical Economics ^{1,2}	3
ECON 5525	Econometric Methods ³	3
ECON 5551	Advanced Institutional Theory ⁴	3
Additional hours of coursework ⁵		15
Total Credits		30

¹ A course in Calculus is strongly recommended as a prerequisite for ECON 5521. MATH 206 at UMKC, or an equivalent course elsewhere, recommended.

² For students not entering in the fall semester, it is strongly recommended that ECON 5521 be taken at the first opportunity.

³ ECON 425 or an equivalent undergraduate course in econometrics.

⁴ ECON 451 or an alternative course approved by the instructor of ECON 5551.

⁵ An additional 15 hours of coursework must be completed. Up to nine of these hours may be in selected 400-level courses in economics or graduate courses in closely related disciplines, upon consultation with the graduate adviser. Graduate credit toward the M.A. in economics is not given for courses at the 300 level. No more than 6 hours of ECON 5590, may be counted toward graduation, and no Special Topics courses in other related disciplines are permitted to count towards the requirements of the M.A. degree.

Substitutions for the above prerequisites may be approved by the M.A. advisor.

The prerequisites for graduate courses are very important and must be completed prior to enrollment in courses with prerequisites. Graduate students in economics must also comply with the general graduate academic regulations as found in the School of Graduate Academic Regulations and Information (<https://catalog.umkc.edu/general-graduate-academic-regulations-information/general-graduate-academic-regulations/>) section of this catalog.

Requirements for Retention

Students are expected to maintain a high degree of academic excellence. Students must maintain a minimum 3.0 graduate grade-point average. A student who receives a grade of C+ or lower will receive an academic warning. Students who receive a grade of C or C- in two classes, or a grade of D + or lower in one class, will be dropped from the program. A 3.0 (B) must be earned in all undergraduate courses approved for graduate credit and in ECON 5590 and ECON 5599.

A student is required to fill out a "program of study" with the M.A. advisor before the completion of 15 hours of coursework. At that time, the graduate committee will consider the student's performance and make a recommendation with regard to retention of the student. After being approved by the College of Arts and Sciences graduate officer, the program of study is filed with the UMKC Records Office and may be amended upon consultation with the M.A. advisor.

Requirements for Graduation

Elective Courses Option

Students are required to complete 15 hours beyond the required courses. Of these, 6 hours must be at the 5500 level. Economics 5591 and 5599 cannot be counted towards graduation requirements.

Project Option

Students are required to complete 15 hours beyond the required courses. Of these, 6 hours must be at the 5500-level or above. Students complete a supervised applied research project that counts as part of the 15 hours beyond the required courses. The number of hours for the project depends on its scope and is determined by the student and his/her project advisor. For more information about the project, see the M.A. Advisor. Depending on the scope of the project, students are required to take 3 to 6 hours from among the following courses:

Code	Title	Credits
ECON 5591	Research And Planning Seminar (required)	3
ECON 5599	Research And Thesis ¹	1-6

¹ ECON 5591 prerequisite.

Minor in Economics

Student Learning Outcomes

Students graduating from this program will:

- Students will be able to distinguish the attributes of a variety of economic theories and policies.
- Students will be able to use their economic knowledge to examine a wide variety of problems that are economic, social and/or political in nature, on both the micro and macro levels.
- Students will become proficient writers through assignments in regular classes, as well as intensive-writing experiences in the capstone course.
- Students will be better problem solvers and better-informed citizens.

Program Requirements

The minor in economics is open to all students and consists of a minimum of 18 hours (six courses) in economics.

The courses are:

Code	Title	Credits
ECON 201	Introduction to Economics I	3
ECON 202	Introduction To Economics II	3
ECON Upper Level Electives		12
ECON 301	Macroeconomic Analysis	
ECON 302	Microeconomic Analysis	
ECON 314	Political Economy of Race, Class And Gender: Theory, History, And Policy	
ECON 331	Money And Banking	

ECON 336	The Kansas City Economy
ECON 340	Collective Bargaining
ECON 353	Financial Analysis And The Economy
ECON 402	Labor and the Global Political Economy
ECON 404RR	American Labor History
ECON 406WI	History Of Economic Thought
ECON 411	Geographic Information Systems (GIS) for Urban Economic Development
ECON 412	International Trade And Development
ECON 416	Law And Economics
ECON 420	Environment, Resources And Economic Growth
ECON 421	Mathematical Economics
ECON 425	Intermediate Economic Statistics
ECON 427	Labor Economics
ECON 431	Monetary Theory And Policy
ECON 435	Public Finance
ECON 438	Economic Policy
ECON 442	International Finance
ECON 451	Institutional Economic Theory
ECON 458	Urban Economics
ECON 460	Industrial Organization
ECON 475	Economics Institutions and Policies
ECON 488	Radical Political Economy
ECON 496	Practicum in Urban Economic Development

Total Credits

18

Students must maintain a 2.0 GPA within the minor coursework to be awarded the minor in Economics.

Hadara Bar-Nadav, Virginia Blanton, Stephen Dilks, Laurie Ellinghausen, Jane Greer, Christie Hodgen, James McKusick, Jennifer Phegley, Jeffrey Rydberg-Cox

Associate Professors:

John Barton, Jennifer Frangos, Michael Pritchett, Anthony Shiu, Whitney Terrell

Assistant Professors:

Antonio Byrd

Associate Teaching Professors:

Crystal Gorham Doss

Associate Research Professors:

Robert Stewart

Full-time Lecturers:

Sheila Honig, Cynthia Jones

Professors Emeriti:

Joan Dean, Robert M. Farnsworth, Moira Ferguson, Daniel F. Jaffe, James McKinley, David Ray, Lois Spatz, Thomas Stroik, Linda Voigts, David Weinglass, Robert Willson

Associate Professors Emeriti:

Ralph Berets, Daniel Mahala, James A. Reeds, Jonas Spatz, Jacqueline Wood

Department Description

The Department of English Language and Literature offers programs of study that lead to the Bachelor of Arts, the Master of Arts, the Master of Fine Arts, and the Interdisciplinary Doctor of Philosophy degrees. In the undergraduate program, students may pursue a general English program, or they may select an emphasis in American Literary and Cultural Studies; Classical, Medieval and Early Modern Literature; Language and Rhetoric; or Creative Writing. Four minors in English are offered: Creative Writing, Language and Literature; Manuscript, Print Culture, Editing; and Writing. Master's in English students may focus their studies on Literature, or may select from two emphases: Language and Literature or Manuscript, Print Culture, and Editing. The M.F.A. in Creative Writing and Media Arts is an interdisciplinary program leading to a terminal degree. English is an academic discipline eligible for full participation in the University's Interdisciplinary Ph.D. program.

The Department of English includes faculty who have a broad range of professional competence in the study of literature and language, and who are trained to teach courses in British and American literature, linguistics, American culture, film, creative writing, and composition. The department believes the study and teaching of literature and language to be an important means of preserving and vitalizing our humanistic tradition.

Publications

The Department of English and the College of Arts and Sciences publish *New Letters*, a continuation of *The University Review*, which for over 50 years published the works of new and distinguished writers. *New Letters* continues to provide a medium for the best imaginative writing available.

The Department of English sponsors the publication of *Number One*, a magazine of student poetry and fiction, and *The Sosland Journal*, a collection of award-winning student essays from the Ilus W. Davis contest.

BkMk Press, operated under the auspices of the College of Arts and Sciences and housed in the Department of English, publishes books of high-quality poetry and prose by professional writers.

Related Information, Opportunities, and Conferences

The Department of English sponsors undergraduate and graduate student conferences, a writers' reading series, summer creative writing workshops, and annual contests in creative and expository writing. The Department offers additional scholarships for creative writers and students in literature, including the Diversity in English Scholarship for undergraduates. Graduate students are also eligible for the Farnsworth Fellowship. Interdisciplinary Ph.D. students can apply for the Ilus Davis Doctoral Teaching Fellowship. The Department also offers courses and an annual conference for English teachers as part of its continuing education function. Four student groups provide social and literary activities for majors and interested others: English Graduate Student Association, Graduate Students in Creative Writing, and Sigma Tau Delta (the international English honor society).

Career Implications of the Undergraduate Degree

The English major is recommended for students interested in a broad, general background in the humanities and in the skills of analysis, synthesis, and self-expression. It is excellent preparation for medicine, business, and law, as well as for further literary study in graduate school.

In addition to careers in education, writing, and editing, English majors with writing and editorial skills find that they are desirable candidates for positions in businesses where effective communication and written evaluation are required.

Advising System

All undergraduate English majors are assigned to the Director of Undergraduate Studies.

Internships and Other Opportunities

Through the resources of the metropolitan media and publishing houses, as well as the on-campus facilities of the national literary journal *New Letters*, the literary publisher BkMk Press, and the academic journal, *Eighteenth Century Theory & Interpretation*, students may gain experience in writing and editing. With the approval of the supervising faculty, as well as the Director of Undergraduate Studies, students may intern with these media for credit. In addition, a number of other on- and off-campus internships are available for writers and editors.

Graduate Degrees

The Department of English offers three graduate programs: the Master of Arts: English; the Master of Fine Arts: Creative Writing and Media Arts; and the Interdisciplinary Ph.D.

Faculty

Hadara Bar-Nadav^{2,3}; professor of English; B.A. (William Paterson College); M.A. (Montclair State University); Ph.D. (University of Nebraska-Lincoln).

John C. Barton^{2,3}; associate professor of English; B.A. (University of California-Berkeley); M.A., Ph.D. (University of California-Irvine).

Ralph A. Berets associate professor emeritus of English; B.A., M.A., Ph.D. (University of Michigan).

Virginia Blanton^{2,3}; curators' distinguished professor of English; B.A. (Southwestern College); M.A., Ph.D. (Binghamton University).

Antonio Byrd^{2,3}; assistant professor of English; B.S. (Auburn University at Montgomery); M.L.A. (Auburn University at Montgomery); Ph.D. (University of Wisconsin-Madison).

Joan F. Dean^{2,3}; curators' distinguished teaching professor emerita of English; A.B. (Canisius College); M.A., Ph.D. (Purdue University).

Stephen Dilks^{2,3}; professor of English; B.A. (University of Stirling, Scotland); M.A., Ph.D. (Rutgers University).

Crystal Gorham Doss; associate teaching professor in English; B.A. (William Jewell College); M.A. (University of Kansas); Ph.D. (University at Buffalo).

Laurie Ellinghausen^{2,3}; professor of English; B.A. (University of Houston), M.A. (Ohio State University), Ph.D. (University of California-Santa Barbara).

Robert M. Farnsworth professor emeritus of English; B.A. (University of Michigan); M.S. (University of Connecticut); Ph.D. (Tulane University).

Maira Ferguson professor emerita of English; B.A. (University of London, Birkbeck College); M.A., Ph.D. (University of Washington, Seattle).

Jennifer Frangos^{2,3}; associate professor of English; B.A. (Vassar College); M.A. (State University of New York-Buffalo), Ph.D. (State University of New York-Stony Brook).

Jane Greer^{2,3}; curators' distinguished teaching professor of English; B.A. (Hanover College); M.A., Ph.D. (Ohio State University).

Christie Hodgen^{2,3}; professor of English; B.A. (University of Virginia, Charlottesville); M.F.A. (Indiana University, Bloomington), Ph.D. (University of Missouri, Columbia).

Sheila Honig; lecturer in English; B.A., M.A. (University of Missouri, Columbia).

Daniel Freeman Jaffe professor emeritus of English; B.A. (Rutgers University); M.A. (University of Michigan).

Cynthia Jones; lecturer in English & Classics; B.A., M.A., Ph.D. (University of Missouri-Kansas City).

Daniel Mahala^{2,3}; associate professor emeritus of English; B.A. (State University of New York at Binghamton); M.A. (New York University); D.A. (State University of New York at Albany).

James C. McKinley; professor emeritus of English; B.J., M.A., Ph.D. (University of Missouri, Columbia).

James McKusick^{2,3}; professor of English; B.A. (Dartmouth College); M.A. (Yale University); M.Phil. (Yale University); Ph.D. (Yale University).

Jennifer Phegley^{2,3}; professor of English; B.A. (Southwest Texas State University); M.A., Ph.D. (Ohio State University).

Michael Pritchett^{2,3}; associate professor of English; B.J. (University of Missouri, Columbia); M.F.A. (Warren Wilson College).

David Ray professor emeritus of English; B.A., M.A. (University of Chicago).

James A. Reeds associate professor emeritus of English and linguistics; B.A., M.A. (University of Iowa); A.M., Ph.D. (University of Michigan).

Jeffrey A. Rydberg-Cox^{2,3}; curators' distinguished professor of English and classics; B.A. (Colorado College); M.A., Ph.D. (University of Chicago).

Anthony Shiu^{2,3}; associate professor of English; B.A. (Ohio University); M.A. (University of Vermont), Ph.D. (Michigan State University).

Robert Stewart²; associate research professor of English and editor of New Letters; B.A. (University of Missouri-St. Louis), M.A. (University of Missouri-Kansas City).

Thomas Stroik^{2,3}; curators' distinguished professor emeritus of English; B.A., M.A., Ph.D. (University of Wisconsin-Madison).

Whitney Terrell^{2,3}; associate professor of English; B.A. (Princeton University); M.F.A. (University of Iowa).

Linda E. Voigts; curators' distinguished professor emerita of English; B.A. (William Jewell College); M.A. (University of Missouri-Kansas City); Ph.D. (University of Missouri, Columbia).

Robert F. Willson, Jr.; professor emeritus of English; B.A. (Wayne State University); M.A., Ph.D. (University of Wisconsin).

Jacqueline Wood; associate professor emerita of English & Black Studies; B.A. (Ohio Wesleyan University); M.A. (Florida Atlantic University); Ph.D. (University of Florida).

² Members of UMKC Graduate Faculty

³ Members of UMKC Doctoral Faculty

Undergraduate Bachelor of Arts: English

To major in English is to devote oneself to the study of culture, past and present; to books, their readers, writers, and publishers; to critical thinking and the interpretation of what it means to be human; to language and the communication of ideas in both written and spoken form. An education in English allows for a command of the written and spoken word. It is this command that allows those that have pursued a degree in English to find success in a variety of arenas through their ability to persuade and interpret, clarify ideas, think independently and creatively, and their overall commitment to the cultural repository that an English degree offers.

Students who choose to major in English Literature and Language develop their abilities to read and analyze texts written in the English language. They study British and American literature of the past and present and learn to view texts through a variety of interpretive lenses. English majors also develop their abilities as flexible, effective writers, capable of moving among a variety of genres, including creative and expository writing.

Within the 36-credit hour program, English majors take a core set of courses, including survey courses on the history of British and American literature, a course devoted to Shakespeare, and courses in linguistics and rhetoric. Beyond this core, students may choose to emphasize in the study of literature, rhetoric, creative writing, or classical, medieval, and early modern literature. In their final year, all students select from a menu of capstone options, including a senior thesis (recommended for students interested in graduate school), a seminar on teaching writing (recommended for students seeking certification to teach in secondary schools), or one of many upper-level seminars.

Students majoring in English may also consider a minor in another area of English studies, provided that there be no more than 9 credit hours of overlap between the major/emphasis and the minor

Undergraduate Admission Requirements Preparation

Transfer students should enter the English major with soundly developed writing and reading skills and a general familiarity with the major authors and literary movements of English and American literature. Transfer students should meet with the Director of Undergraduate Studies immediately upon admittance to discuss requirements and any possible transfer credits towards the major. With the approval of the Director of Undergraduate Studies, the Department accepts up to 18 hours of transfer credits in English for courses fulfilling major requirements.

Undergraduate Programs

Bachelor of Arts: English (p. 746)

Bachelor of Arts: English American Literary and Cultural Studies Emphasis (p. 751)

Bachelor of Arts: English Creative Writing Emphasis (p. 761)

Bachelor of Arts: English Classical, Medieval, & Early Modern Literature Emphasis (p. 756)

Bachelor of Arts: English Language and Rhetoric Emphasis (p. 766)

Teacher Certification in English (p. 795)

Minor in Creative Writing (p. 791)

Minor in Language and Literature (p. 792)

Minor in Manuscript, Print Culture, and Editing (p. 794)

Minor in Writing (p. 795)

Graduate

Graduate Degrees:

- Master of Arts: English (p. 773)
- Master of Fine Arts: Creative Writing and Media Arts (p. 777)
- Interdisciplinary Ph.D. in English (p. 773)

Assistantships

The Department of English offers a limited number of Graduate Teaching Assistantships on a competitive basis. Applications for Graduate Teaching Assistantships are considered in January for the following fall semester. All Graduate Teaching Assistants are expected to enroll in at least six hours per semester. Graduate Teaching Assistantships may be awarded to students who demonstrate readiness to become teachers in first- and second-year writing courses. Graduate Teaching Assistants must undergo a pre-semester orientation and attend mentoring meetings twice monthly with the Director of Composition and fellow graduate teachers. First-semester GTAs are also required to complete successfully ENGLISH 5519.

Courses

ENGLISH 100T TOEFL Preparation Credits: 1-3

This course will prepare students to take the TOEFL (Test of English as a Foreign Language), in either the paper-based (PBT) or internet-based (iBT) form, and/or to improve their scores from previous attempts. Exercises focus on developing the skills and strategies necessary for navigating TOEFL questions while continuing to develop the general English language skills that support success on the TOEFL. The course will provide students with a personal awareness of strengths and weaknesses so they may focus their test preparation work in and outside of class. This course carries no credit toward graduation in the College of Arts and Sciences.

ENGLISH 110 English I: Introduction To Academic Prose Credits: 3

This course introduces students to college-level reading, writing, and discourse analysis: it engages students in the analysis and creation of texts that reveal multiple perspectives about specific rhetorical situations and cultural issues. In addition to learning how to revise by analyzing their own writing, students will learn to edit their own work and use proper academic documentation.

ENGLISH 110 - MOTR ENGL 100: Composition I

ENGLISH 119 Myth and Literature Credits: 3

A study of classical myth including readings from Homer to Ovid, analysis of selected myths in later literature, art, and music, and a study of contemporary definitions and approaches to myth.

ENGLISH 120 Literary Monstrosities Credits: 3

This course explores representations of monsters in literature. Students are introduced to different ways of thinking about monstrosities from a range of cultural and historical perspectives, as well as through a variety of materials in order to approach this question from an interdisciplinary perspective.

ENGLISH 123 True Lives: Autobiographical Arts and Acts Credits: 3

This course explores life writing and other autobiographical practices. Students will read and analyze a variety of life writing forms and think critically about life writing in various cultural, historical, and social contexts. They will also examine autobiography as a form of self-expression, as an articulation of personal and social values, as a public art, and as a way to study human experience in different contexts. Genres may include memoir, autobiography, diaries, etc., at the discretion of the instructor.

ENGLISH 124 Writing About Literature Credits: 3

This course is designed to be taken either prior to or concurrent with a student's first literature course. It introduces students to literary criticism in its broadest, most generic sense, as a stylized response to reading. Students in the course will be introduced to different approaches to writing about literature, to methods of generating ideas, and focusing and developing a topic.

ENGLISH 126 Popular Literature Credits: 3

This course is designed to help students develop a fuller understanding of the human condition by exploring a range of accessible, bestselling fiction and non-fiction from a variety of periods and places, historic and contemporary. The course may include popular stories, songs and ballads, the scripts of blockbuster plays and films, best-selling novels, and widely distributed nonfictional prose.

ENGLISH 126 - MOTR LITR 100: Introduction to Literature

ENGLISH 141 Women and Literary Culture/The Heroine in Literature Credits: 3

This course explores the role of the heroine in literature. Students will examine how the heroine is crafted by a variety of writers and think critically about the role of the heroine in various cultural, historical, and social contexts. Genres may include science fiction/fantasy, mystery, romance, etc. at the discretion of the instructor.

ENGLISH 200 Introduction To Undergraduate Study In English Credits: 3

An investigation of reading, writing, and research practices associated with studies in English. Students will learn about multiple forms, genres, and critical approaches, as well as encounter texts from various historical periods and places.

ENGLISH 200 - MOTR LITR 100: Introduction to Literature

**ENGLISH 203 Introduction to Journalism Credits: 3**

Introduction to the styles and techniques of reporting and writing basic news through assignments in straight news, features and in-depth stories. Exposure to the history and principles of American journalism. Practical application in writing news and news feature articles.

ENGLISH 207 World Literature in English Credits: 3

This course helps students develop a fuller understanding of the human condition by exploring accessible literary texts in English by non Euro-American writers. The course provides historical, economic and political contexts and is designed for students who enjoy learning about global cultures by reading and discussing a diverse range of bestselling literature.

ENGLISH 207 - MOTR LITR 200: World Literature

**ENGLISH 213 Introduction To Drama Credits: 2-3**

Beginning with an intensive study of a few plays analyzed to elicit general principles, the course moves on to consider several representative examples of each of the major periods and types of Western drama, from the Greeks to the present.

ENGLISH 213 - MOTR LITR 100D: Introduction to Literature-Drama

**ENGLISH 214 Introduction To Fiction Credits: 3**

Students will be introduced to the study of fiction as a literary art form. Students will continue to develop their understanding of fiction-writing in preparation for more advanced courses in literature and creative writing. Coursework will focus on close reading of short and long forms of fiction selected from a range of literary periods and world literature. Students are expected to interpret and analyze various forms of fiction and write critically about the role of fiction as a form of cultural discourse.

ENGLISH 214 - MOTR LITR 100F: Introduction to Literature-Fiction

**ENGLISH 215 Introduction To Poetry Credits: 3**

An introduction to the study of poetry for students desiring a basic course either to develop a greater appreciation of poetry or to prepare for more advanced courses in literature or creative writing. Class discussions will focus on close readings of poems and analysis of poetic techniques. Writing assignments will complement reading and class discussion and will enable students to develop their own critical and creative skills.

ENGLISH 215 - MOTR LITR 100P: Introduction to Literature-Poetry

**ENGLISH 216 The Craft of Creative Writing Credits: 3**

This course introduces students to the key techniques that writers of imaginative literature use. Students will develop skills at writing and reading in multiple genres.

ENGLISH 225 English II: Intermediate Academic Prose Credits: 3

This course extends the work of ENGLISH 110 with an additional emphasis on research. Each section of ENGLISH 225 uses a combination of book-length and shorter texts on focus on specific historical and/or cultural issues. As they learn to participate in scholarly conversations, students will find and evaluate library and internet sources. As with ENGLISH 110, this course emphasizes revision, editing, and proper academic documentation.

Prerequisites: ENGLISH 110 or DISC 100 or ACT sub-score of 30 or SAT writing sub-score of 690.

ENGLISH 225 - MOTR ENGL 200: Composition II

ENGLISH 242 Women Writing/Women Reading Credits: 3

This course investigates women as producers and consumers of literature. Students will become acquainted with diverse women writers, explore women's reading practices, and interrogate the cultural, historical, and social contexts that influence women's writing and reading.

ENGLISH 242 - MOTR LITR 106: Women's Literature

**ENGLISH 250 Introduction to Language Acquisition and Diversity Credits: 3**

Investigation of the basic principles of first and second language acquisition. Topics addressed include language competency, socio-cultural factors in language, dialects, acquisitional principles, and language diversity. Students will take part in monitored classroom observations in public schools, and will critically analyze how the topics addressed in class apply to real life and to teaching situations.

ENGLISH 270 Writing Tutor Training Seminar Credits: 3

This course covers the basics of serving as a tutor for writers. Students acquire hands-on experience in consulting with writers at all stages of the writing process, including invention work, drafting, revising, documenting, and editing. Students will also become conversant in theories of peer tutoring and research on Writing Centers.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 273 Science Fiction Credits: 3

This course focuses on a range of science fiction texts from a variety of periods and traditions. Students will examine the relationship between different types of science fiction from various periods and the related social, economic, and political contexts.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 278 Asian American Literature Credits: 3

This course examines literary and cultural texts produced by Asian Americans from the nineteenth century to the present. Texts will be drawn from a variety of genres and from several Asian American groups in order to examine how Asian American literature engages, challenges, revises, and reinvents American literary traditions. The course will identify and explore specific cultural and political issues that have shaped the writings, including trans-nationalism, immigration, racial identity, group identity, and community. Authors may include Carlos Bulosan, Maxine Hong Kingston, John Okada, Bienvenido Santos, and Hisaye Yamamoto.

ENGLISH 278 - MOTR LITR 105AS: Multiculture Literature

**ENGLISH 300CB Women in the Ancient World Credits: 3**

This course focuses on the history, representation, literature, social lives, and political roles of women in ancient civilization including Egypt, Mesopotamia, the Biblical World, Greece, and Rome. It integrates methodologies from history, art history and archaeology, literary studies, and women's studies.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 300CD American Social Film: Silver Screen & American Dream Credits: 3

This course will combine American social history and film history in the sound era. Using Hollywood entertainment films, the course will look at Hollywood as an indicator of social, political and economic conditions in the United States since the 1930s. The main topics are representations of the American dream and nightmare, poverty and affluence, success and failure.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 300CE Radical Changes Since 1945 Credits: 3

This course will focus on modernism, post-modernism and expressionism in the visual arts and literature since World War II. Common lectures will address intellectual movements—such as existentialism and formalism—and cultural development—such as the increased impact of technology and mass media—in contemporary society. By focusing on these movements, the cluster course hopes to provide an integrated view of the literature and visual arts of the period and to draw upon analogous developments in contemporary architecture, music, philosophy and film.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 300CW Critical Issues in Women's & Gender Studies Credits: 3

This class is an interdisciplinary upper-level course that will examine critical issues in women's and gender studies by focusing on the intersections of gender, race, class, sexuality, and social context. Through their study of these intersections, students will be more sensitive to the impact of social structures on gender and the experiences of women and men.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 300CX Empire Credits: 3

This is an interdisciplinary, team-taught course designed to teach students ways to think about the complexities of human cultures, past and present, helping them examine how imperialism continues to shape contemporary understandings of personal, institutional, and cultural identities (both of selves and others). The course engages students in the analysis of global cultures with a focus on the economic, environmental, political and social consequences of specific imperial regimes and the ongoing impact of these regimes on particular groups that continue to live with the legacies of empire.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 300CY Ancient World in Cinema Credits: 3

This course will explore the tradition of depicting the ancient Mediterranean world in film from the early silent era to the present. Topics to be covered include the ways that filmmakers respond to literary and historical sources from the ancient world, interact with the artistic tradition of films about the ancient world, the relation of these films to other works by the same creative personnel (directors, actors, writers, producers, etc.), and the political and cultural contexts in which the films were released.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 300F SS:Academic English/International Grad Teaching Assistants Credits: 3

The study and practice of standard spoken English combined with the study and practice of classroom teaching techniques. Exercises focusing on improvement of pronunciation, and formal (classroom presentation) and informal (conversation) English speaking are combined with techniques for lecture organization, strategies for clear content presentation, and with analysis of the American post-secondary educational culture. This course is designed for prospective International Graduate Teaching Assistants who need to improve their English communication skills and obtain an understanding of American educational culture.

ENGLISH 301WI Writing And The Academy Credits: 3

This course examines social and ethical issues raised by academic reading and writing. While some attention is paid to the formal aspects of academic prose within specific disciplines, the main emphasis of the course is on the cultural consequences of the different ways that academic knowledge is created and taught. In addition to studying the language and structure of academic reading and writing, the course explores the various rhetorics of the academy in terms of a broad range of subjects including economics, gender, education, history, and myth. This course satisfies the junior-level writing requirement and counts towards the writing minor.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 304WI Workplace Writing Credits: 3

This writing intensive course focuses on the rhetorical principles of workplace communication, providing students with opportunities to analyze complex rhetorical situations, to study various workplace genres, and to compose texts that meet the needs of diverse stakeholders.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 305WI Theory And Practice Of Composition Credits: 3

A course in expository writing that will include reading on composition theory and the nature of literacy. Frequent short essays and a long paper.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 306WI Advanced Composition Credits: 3

Further study of writing for those who wish to continue the study beyond the two semesters of composition. Emphasis will be placed on translating critical thinking into effective writing. Required of business and public administration majors.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 307WI Language, Literacy, Power Credits: 3

This course uses discourse analysis to investigate language and literacy. Students will explore how the discourses of institutional and cultural identities act as instruments of power and legitimacy.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 308 Rhetorics of New Media Credits: 3

This course will focus on the rhetorical study of new media texts (such as hypertext, networked multimedia, multimedia art and performance, virtual spaces, and so on) and theories of new media. The course will consider the rhetorical possibilities and constraints of new media and critically examine their impact on democratic discourse and literacy in the public sphere. Specialized knowledge of multimedia equipment and software is neither expected nor required.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 309WI Rhetorics of Public Memory Credits: 3

This course explores how museums and other cultural institutions function as rhetorical agents in creating and preserving public memory. Students will explore how processes of collection, arrangement, and visual display operate as modes of persuasion and make arguments about civic identities and community values.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 310 Introduction To Linguistics/Language Science Credits: 3

This course is a comprehensive introduction to the theory, methodology, and applications of the science of language. It examines properties of human language, covers all branches of language science, and provides a foundation for a critical understanding of language issues.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 311 American Literature I Credits: 3

A survey of American literature and culture from its beginnings to 1865. This course will cover a range of authors, several genres, and culture forms, which may include fiction, poetry, drama, autobiography, oral, contact and/or slave narratives, folklore, and songs.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 311 - MOTR LITR 101A: American Literature-Pre-Civil War**ENGLISH 312 Creative Writing I Fiction Credits: 3**

A course centered on the short story. Emphasis is placed on three areas: general principles governing the writing of fiction; practice in short fiction (primarily the short story, but including the novella); criticism; and technical skills (including editing and rewriting).

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 313WI Reporting Credits: 3

A seminar of practical application in advanced reporting. Assignments to cover news events and to pursue in-depth news reports on the campus and off.

Prerequisites: COMM-ST 203 or ENGLISH 203.

ENGLISH 315 Creative Writing Poetry Credits: 3

Writing and rewriting poems, with discussion of techniques needed to produce desired effects. Analysis and evaluation of student work. Examination of technical means utilized in selected poems by accomplished poets.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 316 Literary Nonfiction Credits: 3

Literary Nonfiction studies the reading and writing of nonfiction prose as a literary art. We'll survey the historical development of literary nonfiction (especially the essay), sample contemporary authors of the genre, write critical commentary on works we read, and compose personal essays of our own. The course is not exclusively a literary seminar nor a creative writing workshop, but seeks to mix and make connections between these modes, in the tradition of the essay itself.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 316WI Literary Nonfiction Credits: 3

Literary Nonfiction is a writing intensive course in the reading and writing of nonfiction prose as a literary art. We'll survey the historical development of literary nonfiction (especially the essay), sample contemporary authors of the genre, write critical commentary on works we read, and compose personal essays of our own. The course is not exclusively a literary seminar nor a creative writing workshop, but seeks to mix and make connections between these modes, in the tradition of the essay itself.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 317 British Literature I Credits: 3

A survey of British Literature and culture from its beginnings to the 18th century, including works by Chaucer and Milton.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 317 - MOTR LITR 102A: British Lit-Beg to 18th Cent.**ENGLISH 318 Bible As Literature Credits: 3**

A critical study of the major portions of the Old and New Testaments and the Apocrypha, with special attention to the development of literature from oral tradition, the literary genres, themes and archetypes represented in the collection, and the diction and style which have influenced later literature. Consideration also of the relation of Biblical literature to the historical, religious, and cultural milieu of the ancient Near East.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 320 Structure Of English Credits: 3

Not a remedial grammar course. Methods of linguistic inquiry and grammatical description. Study of traditional and modern schools of syntax, especially transformational grammar. Practice describing the structure of sentences. Application to the teaching of grammar in high schools.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 321 American Literature II Credits: 3

A survey of American literature and culture from 1865 to the present. This course will cover a range of authors, several genres, and culture forms, which may include fiction, poetry, drama, autobiography, essay, lyrics, and film.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 321 - MOTR LITR 101B: American Literature-Post-Civil War**ENGLISH 323 Shakespeare Credits: 3**

An intensive critical study of William Shakespeare's writings in various contexts (historical, social, political, literary, contemporary, for example). Readings will encompass at least eight plays and will include at least one comedy, history, tragedy, and romance. Required of all English majors.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 325 Arthurian Legends Credits: 3

Focusing on writers such as Marie de France, Chretien de Troyes, Sir Thomas Malory, Alfred, Lord Tennyson, Sara Teasdale, Bernard Malamud, and Marion Zimmer Bradley, this course examines the legend of King Arthur and his Round Table as a recurring myth, repeatedly manifested in time through literature, art, history, music, and film.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 326 Modern And Contemporary Irish Literature Credits: 3

This course examines a range of texts written by Irish-born writers from the end of the nineteenth century on. While it is likely the course will include texts by the most famous Irish writers, such as Yeats, Joyce, Beckett, O'Brien, Heaney, and Friel, course materials will vary from semester to semester and may focus on a specific genre, historical period, or area of interest.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 327 British Literature II Credits: 3

A survey of British Literature and culture from the late 18th century to the present. This course will cover a range of authors and genres, including at least one novel.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 327 - MOTR LITR 102B: British Lit-Late 18th Cent-Present**ENGLISH 330 History Of The English Language Credits: 3**

The study of English beginning with the Indo-European language family up to and including varieties of English spoken around the world today. Both outer history and the inner history of phonology, morphology, syntax, and lexicon will be addressed.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 331 African American Literature I Credits: 3

This course provides a survey of African American literature from its beginnings to the Harlem Renaissance of the 1920's and 1930's. Areas of interest will include abolitionist literature (especially Slave Narratives), turn-of-the-century literature and the Harlem Renaissance. This course will examine any or all of the following literary forms: fiction, poetry, drama, autobiography and essay. It will view African American literature in its historical and cultural contexts.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 331 - MOTR LITR 105AA: Multiculture Lit-African American**ENGLISH 332WI African American Novel Credits: 3**

This course will examine the African American Novel in the 19th and 20th centuries. The novels will be examined in their historical and cultural contexts.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 333 African American Literature II Credits: 3

A survey of African American literature from the end of the Harlem Renaissance to the present, covering a range of authors, texts, and contexts.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 336 Contemporary American Literature Credits: 3

This course focuses on contemporary American literature, concentrating on literary and cultural change. Topics, genres, and authors discussed will vary each semester.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 337 Introduction to American Literary and Cultural Studies Credits: 3

This course focuses on American literary and cultural production in an interdisciplinary manner. It explores how social, political, and economic conditions interact with the fields of art, film, history, and literature from colonial times to the present.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 339 Introduction to Screenwriting Credits: 3

An introduction to the form and language of the motion picture screenplays. Students create a blueprint for a movie and examine visual storytelling in-depth, including basic dramatic structure, scene and sequence construction and dialogue. Students will master the industry screenplay format, adapt a short story for the screen, and learn to receive feedback in small groups.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 342WI Women And Rhetoric Credits: 3

A study of the position of women within the traditions of western rhetoric. Students will examine the rhetorical practices of women as they pursue both public and private goals. Christine de Pizan, Sor Juana Ines de la Cruz, Hannah More, Maria Stewart, Frances Willard, Ida Wells-Barnett, Meridel Le Sueur, and Gloria Anzaldua are among the female rhetorians who may be studied in this course.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 344WI Women & Literary Culture: Genre Focus Credits: 3

A study of women writers that focuses on genre, i.e., texts that share a common set of conventions. The course will explore the conventions associated with a particular genre in various historical periods and consider the ways in which gender and genre intersect in shaping texts and their interpretation.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 345WI Women And Literary Culture: Historical Focus Credits: 3

A study of women's literary culture in a specific historical period either as broadly defined as Medieval or Renaissance or as narrowly defined as a decade or movement (e.g., 1960's, abolitionist movement). This course includes women writers across multiple boundaries (e.g., national, generic, racial, sexual, socio-economic). Content will change depending on the instructor.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 350 The 18th Century Novel Credits: 3

A detailed examination of the development of the novel in the 18th century. The course emphasizes the evolution of the novel from such predecessors as rogue literature, the picaresque story and the romance, due to changing social realities. The novelists studied may include Austen, Behn, Fielding, Godwin, Haywood, Richardson, Smollett, and Sterne.

Prerequisites: ENGLISH 110 or DISC

ENGLISH 351 Special Readings Credits: 1-3

Readings in a period, genre or theme to be selected by the instructor with attention to the needs of students who are interested in literary topics not covered in regular offerings. Proposals for a course in such readings require the approval of the department.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 351A Special Readings: Detective Fiction Credits: 3

This course will focus on a specific period, sub-genre, or theme related to Detective fiction.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 355 The Novel Before 1900 Credits: 3

Intensive attention to novels in English written before 1900, which may include comparative or analytical studies of genre; critical reception of novels; serialization, gender issues; authors and editors; and valuation.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 356 Studies in Poetry Credits: 3

An intensive study of poetry through the examination of a specific topic or the works of particular poets, for instance: Love, Seduction, and Betrayal; Form and Change; Death, Grief, and Consolation; Whitman, Dickinson, and the Soul; Sacred Poetry; Poetry and Metaphysics; The Long Poem; The Comic Poem; Sonnet, Sonnet Sequence and the Lyric; The Voyage; Nature, Self, and the Romantic Poet.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 360 The Modern Novel Credits: 3

This course focuses on selected novelists between 1900 and 1945 and is organized around particular literary themes, sub-genres, or contemporary issues.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 365WI Contemporary Novel Credits: 3

This course focuses on selected novelists since 1945 and is organized around particular literary themes, sub-genres, or contemporary issues.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 367 Introduction to Latinx Literature Credits: 3

An introduction to the literary production by US Latinx, the course introduces students to writings by authors from various Latinidades—such as Chicana/Chicano, Puerto Rican, Chilean American, Cuban American, Dominican American, and Mexican American—in multiple genres, including poetry, fiction, drama, personal essay, and film.

Prerequisites: ENGLISH 110 or DISC 100.

ENGLISH 380 Composing in the Digital Age Credits: 3

This course will focus on the study and creation of multimodal texts (such as webpages that include hypertext, video, and images). The course will consider the rhetorical possibilities and constraints of various modalities. Specialized knowledge of multimedia equipment and software is neither expected nor required.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 381 Writing for Social Media Credits: 3

This course will focus on the rhetorical study of social media and practical strategies for using social media effectively. The course will critically examine how the design and use of popular and emergent social media platforms affect democratic discourse and the public sphere. Specialized knowledge of social media platforms and software is neither expected nor required.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 400TC Advanced Studies in 20-21st Century Works Credits: 3

Advanced Studies in 20-21st Century Works. Approved topics include: Modern and Contemporary Irish Literature, Modern Poetry, Contemporary Poetry, Postcolonial Literature, and The Romantic Period.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 404 Old English Credits: 3

This course is a study of Old English, its grammar, its poetic style, and its literature, both poetry and prose.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 405 Magazine Editing Credits: 3

A course combining academic study of editorial management, publishing operations and language skills, with "hands on" experience in article evaluation, editing, magazine production, and legal matters such as copyright and libel. Class work concentrates on authentic and effective language use, with attention given to copy editing, grammar, typography, printing processes, financing and distribution for commercial and small-press publications.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 408 Harlem Renaissance Credits: 3

This course examines the period from 1920 to 1940, known as the Harlem Renaissance, a time of unprecedented literary and cultural creativity by Black artists. This course explores a variety of cultural productions, not only traditional forms of literature such as novels, short stories, plays and poetry, but also nonliterary objects of study such as painting, sculpture, and music.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 410 Black Women Writers Credits: 3

This course explores the writings of African American Women Writers. The course examines how these writers have interacted with and often revised stereotypical representations of African American womanhood typically found within canonical and African American male literatures. The course will examine literature (which might include fiction, poetry, autobiography, and drama) of the nineteenth and twentieth centuries; the majority of the works will be by modern and contemporary authors such as Nella Larsen, Zora Neale Hurston, Toni Morrison, and Terry McMillan. By placing the works in this sort of cultural and historical context, it will be possible to examine the unique tradition of African American women's writing as well as individual texts.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 412 Chaucer Credits: 3

Readings from Chaucer's most important works, especially "The Canterbury Tales" and "Troilus and Criseyde" with emphasis on them as types of medieval genres and on the Middle English language.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 413 Renaissance Literature I Credits: 3

English literature from the time of Wyatt and Surrey to the beginning of the 17th century, including the works of Spenser, Marlowe, Sidney, Shakespeare and others.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 414 Milton Credits: 3

A study of Milton's prose and poetry, with special attention to "Paradise Lost".

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 415 Restoration And Early 18th-Century British Literature Credits: 3

British literature from the late 17th century to the mid 18th century. Selected writers may include Addison and Steele, Behn, Congreve, Defoe, Dryden, Finch, Milton, Pope, Rochester, Swift, and Wortley Montagu.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 416 The Romantic Period Credits: 3

An extensive study of selected writers (such as Austen, Barbauld, Byron, Coleridge, Hazlitt, Hemans, Keats, Gilpin, the Shelleys, Wollstonecraft, and Wordsworth) organized around literary themes and/or cultural issues important to the Romantic period.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 417 Modern Poetry Credits: 3

Study of works by modernist poets such as Hopkins, Yeats, Frost, Stevens, Williams, Moore, Pound, H.D., Eliot, Millay, Hughes.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 418 19th-Century American Literature Credits: 3

An intensive study of either selected major American writers in the 19th century or of 19th -century literary movements.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 422 Medieval Literature Credits: 3

Western religious and secular verse and prose to the 15th century. Late Middle English works are read in the original; all other selections in translation.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 423 Renaissance Literature II Credits: 3

English literature from 1600 to the beginning of the Restoration, including the works of Donne, Jonson, Milton and other contemporaries.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 425 18th-Century British Literature II Credits: 3

British literature in its critical and historical context from 1750 to 1798. The writers studied may include Blake, Burney, Collins, Johnson, and Gray.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 426 The Victorian Period Credits: 3

An intensive study of selected writers (such as Arnold, Braddon, the Brontes, the Brownings, Dickens, Darwin, Eliot, Gaskell, Hardy, Ruskin, and the Rossetts) organized around literary themes and/or cultural issues important to the Victorian period.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 427 Contemporary Poetry Credits: 3

Study of works by contemporary poets (post World War II), such as Auden, Bishop, Hayden, Berryman, Rukeyser, Larkin, Rich, Plath, Heaney, Boland, Komunyakaa.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 428 20th-Century American Literature Credits: 3

An intensive study of either selected major American writers in the 20th century or of 20th-century literary movements.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 429B Advanced Screenwriting Credits: 3

This course provides students with advanced theory in narrative screenwriting, training in industry standard script analysis (called "coverage") and story editing. Students will be required to draft, revise and workshop a short film screenplay or will focus on a feature screenplay, delivering a draft and revision of the first act and a detailed outline for the rest of the script. Students will workshop feature screenplays in small groups, emphasizing the art of constructive story editing.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 339 or COMM-ST 354.

ENGLISH 430WI Advanced Technical Writing Credits: 3

This course is designed for those who plan to do or teach professional, business, or technical writing. Beginning with a brief background in the history of technical writing, the course will deal with current theories and methods of teaching technical and professional writing, and will cover such areas as business usage; technical linguistic problems and theories; the language of contracts, specifications, and other binding documents; and computer-oriented problems.

Prerequisites: ENGLISH 225 (or equivalent) or DISC 200.

ENGLISH 431 18th-Century British Literature Credits: 3

British literature from the mid to late 18th century. Selected writers may include Blake, Burney, Collins, Equiano, Fielding, Gray, Johnson, Sheridan, and Wollstonecraft.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 432WI Advanced Creative Writing Prose Credits: 3

A course for advanced students of fiction writing. Open to students who have taken English 312 or its equivalent. The class will proceed through analysis of models, discussion of general principles, critique of student work. Students will simultaneously be encouraged to experiment and to refine the form and subjects best suited to their talents. Emphasis will remain on the short story, though there may be units in other forms—novella, film script, the non-fiction essay.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 312 or ENGLISH 315 or ENGLISH 316WI.

ENGLISH 433 Histories Of Writing, Reading, And Publishing Credits: 3

A study of selected topics concerning the material practices of writing, reading, and publishing within specific cultural and historical contexts. Issues examined may include authorship, education, information technologies, libraries, literacy, periodicals, popular literature, publishers, and communities of readers.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 434 Postcolonial Literature Credits: 3

An exploration of postcolonialism through the study of literary and theoretical texts created by or representing peoples whose historical experience has been decisively shaped by the experience or legacies of colonialism. Texts will be drawn from a variety of genres and from several countries. The course will consider several definitions of postcolonialism and related terms such as cosmopolitanism, hybridity, diaspora, and nationalism.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 435WI Advanced Creative Writing Poetry Credits: 3

An advanced poetry workshop that includes intensive reading of contemporary poetry and aims at each student creating a portfolio of publishable poems. The focus of the course will vary to address a variety of topics such as metaphor and closure; imitation and the line; form and voice. May be repeated once for credit.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 312 or ENGLISH 315 or ENGLISH 316WI.

ENGLISH 436WI Poetic Forms Credits: 3

An advanced creative writing course that focuses on intensive study of and practice in metrics and traditional and nonce forms. May be repeated once for credit.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 312 or ENGLISH 315 or ENGLISH 316WI.

ENGLISH 437WI Prose Forms Credits: 3

The making of a work of prose requires expertise with the structure of the chosen form, and an understanding of the relationship of form to content. This class teaches the techniques for planning and drafting major prose forms which could include the very-short story, the story, novella, novel, linked-story collection, episodic novel, essay novel, the play, the creative nonfiction book, and others. Students will learn how to create particular prose forms and how to use content as a guide to inventing new forms. We will examine some of the best examples of both traditional and newly invented forms by writers such as Anton Chekhov, Katherine Anne Porter, Tim O'Brien, and Sandra Cisneros.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 312 or ENGLISH 315 or ENGLISH 316WI.

ENGLISH 438 The "New Letters" Writing Conference Credits: 1-3

An intensive weekend conference for creative writers of varying genres and levels of experience, published and unpublished – fiction, poetry, nonfiction, stage and screen. The conference includes creative and interdisciplinary sessions on writing and publishing, genre-specific workshops, socializing and networking opportunities, and private manuscript consultations. The course of study for two-and three-credit students includes selected reading and post-weekend tutorial time conducted by accomplished, working writers. The conference may be repeated once for credit. Two- and three-credit students need the instructor's consent and must have taken a 300-level creative-writing course in the focus genre prior to enrolling.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 439 Shakespeare and Film Credits: 3

Grounded in the close analysis of texts, this course examines film adaptations of Shakespeare's plays across the range of dramatic genres (history plays, tragedy, comedy, and romance). This course is open to seniors and graduate students only. Graduate students will be responsible for supplemental critical readings.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 440 American Culture Credits: 3

Texts that offer perspectives on key historical themes of American culture. Texts may be grouped around any culturally significant principle (e.g. region, race, gender, class, ethnicity, religion) or theme (e.g. the mythology of the frontier, marriage and domesticity, the American Dream). The course may be taken twice for credit, provided substantive changes in topic.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 441 Girls And Print Culture Credits: 3

This course deals with girls' relationships to the continually evolving print culture. Students will examine various literary representations of girlhood by adult writers, explore texts directed at girls (e.g., conduct books, periodicals, textbooks), and study the writing and reading practices of girls themselves.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 442 Playwriting I Credits: 3

Theory and practice of writing for the theatre with emphasis on the basic techniques.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 443 Playwriting II Credits: 3

Theory and practice of writing for the theatre with emphasis on advanced techniques.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 445 History And Principles Of Rhetoric Credits: 3

A study of selected writings of ancient, and modern rhetoricians illustrating key issues in the development of Western discourse theory and practice.

Issues examined include the relationships between rhetoric and knowledge, orality and literacy, and rhetoric and poetics. Attention will also be given to the implications of rhetorical theory for modern language instruction.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 447 Theory and Criticism in English Studies Credits: 3

A survey of major schools and methods of literary theory and criticism. Authors and texts to be determined by the instructor of the course.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 448 External Internship Credits: 1-3

Students may complete an external internship involving writing and editing with a publishing company, trade magazine, literary or academic journal, other print or electronic media organization, or with advertising, public relations, or non-profit firms. Internships are granted on a competitive basis. Students will compile a portfolio of their work under the direction of the internship supervisor to be submitted for evaluation to the department's internship coordinator.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 449A Publication Practicum Credits: 1-3

This course provides practical experience with New Letters magazine, New Letters on the Air, and BkMk Press in business analysis/reporting, copy-editing, manuscript evaluation, promotion/grant development, library research, market research, and other skills. The practicum is limited to three students per semester, to be chosen on the basis of demonstrated writing and organizational skills. References are required. May be taken for no more than three credit hours over a maximum of two semesters.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 449B Publication Practicum Credits: 3

This course covers the basics of producing an issue of an academic journal. Students acquire hands-on experience at all stages of production.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 449C Publication Practicum Credits: 1-3

This course allows students to work with a faculty member on an ad hoc project for publication such as a special journal issue or festschrift, book manuscript, a new scholarly edition of a primary text, or a digital edition. Course may be repeated once for continued work on the same project.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 450 Special Readings Credits: 1-3

Intensive individual readings in a field, genre, or individual figure to be selected by a student or a group of students in consultation with an instructor willing to direct the project. Generally limited to graduating seniors who have completed the majority of the work for their major. Not open to students in their first semester at UMKC. May be repeated for credit.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 451 Shakespeare Comedies And Histories Credits: 3

A study of Shakespeare's major comedies and history plays with special emphasis on his dramatic works before 1600.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 452 Early English Drama Credits: 3

English religious and secular drama prior to Shakespeare. Mystery and morality plays are studied, with emphasis on their literary and social backgrounds. Close reading of such works as "Everyman," "The Wakefield Second Shepherd's Play," and "The Spanish Tragedy."

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 453 Modern Drama, 1880-1945 Credits: 3

A study of modern drama: Continental, British, and American, including history and development, critical theory, and literary evaluation. This course will focus on the earlier modern playwrights from Ibsen and Shaw, with special attention to naturalism.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 454 The Civil Rights Movement in African American Literature Credits: 3

This course examines how African American literature shaped ideas about freedom, rights, citizenship and race in the civil rights movement. It draws on a variety of literary forms-speeches, essays, autobiographies, fiction, drama, poetry and film-to explore the movement's impact on communities and cultures as well as its various debates and competing visions.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 455 Studies In The Novel 1740-1900 Credits: 3

An intensive study of no more than three major novelists of the eighteenth or nineteenth century. The content of the course will change, depending on the instructor.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 456 From Field Shout to Hip Hop: African American Poetic Traditions Credits: 3

This course examines the development of African American poetry from its early forms as field shouts, ballads, and blues to present forms including spoken word and hip hop. Includes authors such as Phillis Wheatley, Paul Lawrence Dunbar, Langston Hughes, Gwendolyn Brooks, Tupac Shakur, and Jessica Care Moore.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 457 Stages Toward Freedom: African American Dramatic Traditions Credits: 3

This course explores the development of African American dramatic traditions from the eighteenth century through the Harlem Renaissance Black Arts Movement, to current postmodernism. Includes authors such as W.W. Brown, Zora N. Hurston, Amiri Baraka, Sonia Sanchez, August Wilson, Suzan-Lori Parks.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 458 Slave Narratives: Race, Gender, and Writing Freedom Credits: 3

A truly American, home grown genre and powerful force in the development of American political and social realities, the African American Slave Narrative is an established, recognized influence in the development of African American and American literary history. In this course you will have the opportunity to explore the historical trajectory of the Slave Narrative, looking at early formulations of its structure, purpose and conventions—especially in terms of gender and race, subsequent various permutations, and the eventual development of the Neo-slave Narrative as its resurrection, which adds to the complexity and theoretical impact of the literary autobiography from black perspectives.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 459 African American Migrations in Literature Credits: 3

The course examines representations of two different trajectories of migration in African American literature: African American journeys from the south to northern and mid-western regions of America, and concurrent migrations of Caribbean people to the US in the early twentieth century.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 460 Special Offerings Credits: 1-4

The instructor who gives this course determines what its content shall be. All aspects of literature and linguistics are within its possible range.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 461 Shakespeare Tragedies And Romances Credits: 3

A study of Shakespeare's major tragedies and late romances with special emphasis on his dramatic literature after 1600.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 462 Restoration And 18th-Century Drama Credits: 3

The drama after the restoration of the monarchy and the reopening of the theaters through the 18th century. Special emphasis is placed on the comedy of manners and the heroic drama in the Restoration and the sentimental comedy in the 18th century. Includes such playwrights as Dryden, Congreve, Etherege, Wycherley, Steele, Lillo, Cumberland, Sheridan, and Goldsmith.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 463 Contemporary Drama II Credits: 3

A study of contemporary drama: Continental, British, and American, including history and development, critical theory and literary evaluation. This course will focus on the more recent writers, including the absurdists, with special attention to experimental drama.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 464 Medieval Methods & Paleography Credits: 3

This course examines the methodology and historiography of Medieval Studies. Through an introduction to paleography, the study of medieval handwritings, it prepares students for advanced work in Medieval and Renaissance studies. Using an interdisciplinary approach, this course will examine the historical and cultural settings for medieval texts, their physical form and production, as well as the tradition of textual transmission in the medieval world. In addition to gaining familiarity with the many different types of primary sources, such as literary, artistic, legal and notarial sources, students will be exposed to methods for practical archival work in various European nations. Recommended preparation: First Year Latin.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 465 Studies In The Modern Novel Credits: 3

An intensive study of no more than three major 20th-century novelists. The content of the course will change, depending on the instructor.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 468 Women's Literature in Africa and the African Diaspora Credits: 3

This course is a comparative examination of the variety of literary works produced by women of African descent in the United States, the Caribbean and Africa. Students will explore the cross-cultural implications of texts in light of the intersections of gender, race and class.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 470 Introduction To Descriptive Linguistics Credits: 3

General introduction to linguistics science. Linguistic analysis, structures and change. Language families. Historical reconstruction. Generative grammar.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 310.

ENGLISH 475 Creative Nonfiction Credits: 3

This course emphasizes the study and crafting of creative nonfiction. special attention is given to developing the writing techniques required to shape publishable narratives out of experience.

Prerequisites: ENGLISH 225 or DISC 200, and ENGLISH 312 or ENGLISH 315 or ENGLISH 316WI.

ENGLISH 477CS Classical Studies Credits: 3

Advanced study in Classical literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 477DH Studies in Digital Humanities Credits: 3

Advanced study in in Digital Humanities. Subject varies and will be visible when students enroll.

ENGLISH 477EM Early Modern Studies Credits: 3

Advanced study in Early Modern literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 477ES 18th-Century Studies Credits: 3

Advanced study in eighteenth-century British or American literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 477MS Medieval Studies Credits: 3

Advanced study in Medieval literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 477NS 19th-Century Studies Credits: 3

Advanced study in nineteenth-century British or American literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 477RC Studies in Rhetoric and Composition Credits: 3

Advanced study in rhetoric and composition. Subject varies and will be visible when students enroll.

ENGLISH 477SA Studies in Authorship Credits: 3

Advanced study of individual authors or groups of authors in a variety of periods or literary and cultural movements. Subject varies and will be visible when students enroll.

ENGLISH 477SG Studies in Genre Credits: 3

Advanced study in a single genre such as the novel, the short story, poetry, drama, or non-fiction. Subject varies and will be visible when students enroll.

ENGLISH 477TS 20th- and 21st-Century Studies Credits: 3

Advanced study in twentieth- and twenty-first-century British or American literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 487FI Creative Writing Workshop Credits: 3

Advanced creative writing workshop. Subject varies and will be visible when students enroll.

ENGLISH 487MG Multigenre Workshop Credits: 3

Advanced creative writing workshop in multiple genres. Subject varies and will be visible when students enroll.

ENGLISH 487NF Nonfiction Workshop Credits: 3

Advanced creative writing workshop in nonfiction. Subject varies and will be visible when students enroll.

ENGLISH 487PO Creative Writing Workshop Credits: 3

Advanced creative writing workshop. Subject varies and will be visible when students enroll.

ENGLISH 499 Senior Tutorial Credits: 3

A comprehensive tutorial for students who have a faculty-approved research project. The project will culminate in a critical study of 20-25 pages or a creative writing portfolio of similar length. This course is appropriate for students who intend to continue their studies at the graduate level.

Prerequisites: ENGLISH 225 or DISC 200.

ENGLISH 5447EM Early Modern Studies Credits: 3

Advanced study in Early Modern literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5477CS Classical Studies Credits: 3

Advanced study in Classical literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5477DH Studies in Digital Humanities Credits: 3

Advanced study in Digital Humanities. Subject varies and will be visible when students enroll.

ENGLISH 5477EM Early Modern Studies Credits: 3

Advanced study in Early Modern literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5477ES 18th-Century Studies Credits: 3

Advanced study in eighteenth-century British or American literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5477MS Medieval Studies Credits: 3

Advanced study in Medieval literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5477NS 19th-Century Studies Credits: 3

Advanced study in nineteenth-century British or American literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5477RC Studies in Rhetoric and Composition Credits: 3

Advanced study in rhetoric and composition. Subject varies and will be visible when students enroll.

ENGLISH 5477SA Studies in Authorship Credits: 3

Advanced study of individual authors or groups of authors in a variety of periods or literary and cultural movements. Subject varies and will be visible when students enroll.

ENGLISH 5477SG Studies in Genre Credits: 3

Advanced study in a single genre such as the novel, the short story, poetry, drama, or non-fiction. Subject varies and will be visible when students enroll.

ENGLISH 5477TS 20th- and 21st-Century Studies Credits: 3

Advanced study in twentieth- and twenty-first-century British or American literature and culture. Subject varies and will be visible when students enroll.

ENGLISH 5487FI Fiction Workshop Credits: 3

Advanced creative writing workshop in fiction. Subject varies and will be visible when students enroll.

ENGLISH 5487MG Multigenre Workshop Credits: 3

Advanced creative writing workshop in multiple genres. Subject varies and will be visible when students enroll.

ENGLISH 5487NF Nonfiction Workshop Credits: 3

Advanced creative writing workshop in nonfiction. Subject varies and will be visible when students enroll.

ENGLISH 5487PO Poetry Workshop Credits: 3

Advanced creative writing workshop in poetry. Subject varies and will be visible when students enroll.

ENGLISH 5500 Graduate Study In English Credits: 3

An introduction to methods of research and scholarship related to English studies. The course uses a wide spectrum of print and digital materials, library facilities (including archives and Special Collections), databases, and other resources to explore English studies as an academic discipline and profession.

ENGLISH 5500P Special Topics Credits: 3**ENGLISH 5501 Magazine Editing Credits: 3**

A course combining academic study of editorial management, publishing operations, and language skills, with "hands on" experience in article evaluation, editing, magazine production, and legal matters such as copy right and libel. Class work concentrates on authentic and effective language use, with attention given to copy editing, grammar, typography, printing processes, financing and distribution for commercial and small-press publications.

ENGLISH 5502 Magazine Nonfiction Credits: 3

This course emphasizes the origination and execution of nonfiction magazine articles for a variety of publications. Special attention is given to successful queries and the various writing techniques required for different kinds of articles. Students learn re-structuring and revision and the legalities affecting writers. Students are expected to complete three publishable articles.

ENGLISH 5503 Old English Credits: 3

This course is a study of Old English, its grammar, its poetic style, and its literature, both poetry and prose.

ENGLISH 5508 Harlem Renaissance Credits: 3

This course examines the period from 1920 to 1940, known as the Harlem Renaissance, a time of unprecedented literary and cultural creativity by Black artists. This course explores a variety of cultural productions, not only traditional forms of literature such as novels, short stories, plays and poetry, but also nonliterary objects of study such as painting, sculpture, and music.

ENGLISH 5510 Black Women Writers Credits: 3

This course explores the writings of African American Women Writers. The course examines how these writers have interacted with and often revised stereotypical representations of African American womanhood typically found within canonical and African American male literatures. The course will examine literature (which might include fiction, poetry, autobiography, and drama) of the 19th and 20th centuries; the majority of the works will be by modern and contemporary authors such as Nella Larsen, Zora Neale Hurston, Toni Morrison, and Terry McMillan. By placing the works in this sort of cultural and historical context, it will be possible to examine the unique tradition of African American women's writings as well as individual texts.

ENGLISH 5512 Chaucer Credits: 3

Readings from Chaucer's most important works, especially "The Canterbury Tales" and "Troilus and Criseyde" with emphasis on them as types of medieval genres and on the Middle English language. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5513 Renaissance Literature I Credits: 3

English literature from the time of Wyatt and Surrey to the beginning of the 17th century, including the works of Spenser, Marlowe, Sidney, Shakespeare and others. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5514 Milton Credits: 3

A study of Milton's prose and poetry, with special attention to "Paradise Lost". Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5515 Restoration And Early 18th-Century British Literature Credits: 3

British literature from the late 17th century to the mid-18th century. Selected writers may include Addison and Steele, Behn, Congreve, Defoe, Dryden, Finch, Pope, Rochester, Swift, and Wortley Montagu.

ENGLISH 5516 The Romantic Period Credits: 3

An extensive study of selected writers (such as Austen, Barbauld, Byron, Coleridge, Hazlitt, Hemans, Keats, Gilpin, the Shelleys, Wollstonecraft, and Wordsworth) organized around literary themes and/or cultural issues important to the Romantic period.

Prerequisites: ENGLISH 327.

ENGLISH 5517 Modern Poetry Credits: 3

Study of works by modernist poets such as Hopkins, Yeats, Frost, Stevens, Williams, Moore, Pound, H.D., Eliot, Millay, Hughes. Students will make in class presentations and submit papers requiring research and bibliographic work.

ENGLISH 5518 19th-Century American Literature Credits: 3

An intensive study of either selected major American writers in the 19th century or of 19th-century literary movements. Students will make in class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5519 Teaching Writing: Theories, Histories, Contexts, Practices Credits: 3

This course focuses on issues related to the teaching of English at the high school and college levels, with an emphasis on the teaching of writing. Issues addressed may include assignment design, teaching invention and revision, response to and evaluation of writing, collaborative learning, relationships between reading and writing, classroom uses of electronic media, and institutional contexts within which teachers work. The course is required of Graduate Teaching Assistants in the UMKC Composition Program, to be taken either prior to or concurrently with their first semester of teaching. Secondary English teachers and others interested in English teaching are also welcome.

ENGLISH 5520 Greater Kansas City Writing Project Credits: 3

Studies in methods and objectives for the teaching of English with special attention to secondary school teaching. This course is repeatable for credit with advisor approval.

ENGLISH 5520A Greater Kansas City Writing Project Credits: 3**ENGLISH 5520B Greater Kansas City Writing Project Credits: 3****ENGLISH 5520D Greater Kansas City Writing Project Credits: 3****ENGLISH 5522 Medieval Literature Credits: 3**

Western religious and secular verse and prose to the 15th century. Late Middle English works are read in the original; all other selections in translation. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5523 Renaissance Literature II Credits: 3

English literature from 1600 to the beginning of the Restoration, including the works of Donne, Jonson, Milton, and other contemporaries. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5526 The Victorian Period Credits: 3

An intensive study of selected writers (such as Arnold, Braddon, the Brontes, the Brownings, Dickens, Darwin, Eliot, Gaskell, Hardy, Ruskin, and the Rossetis) organized around literary themes and/or cultural issues important to the Victorian period.

Prerequisites: ENGLISH 327.

ENGLISH 5527 Contemporary Poetry Credits: 3

Study of works by contemporary poets (post- World War II), such as Auden, Bishop, Hayden, Berryman, Rukeyser, Larkin, Rich, Plath, Heaney, Boland, and Komunyakaa. Students will make in class presentations and submit papers requiring research and bibliographic work.

ENGLISH 5528 20th Century American Literature Credits: 3

Major American writers or literary movements of the 20th century. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5529 Graduate Seminar: Screenwriting Credits: 3

A seminar on advanced theory in narrative screenwriting, script analysis and constructive story editing. Students draft, revise and workshop a short film script or a feature screen play, and deliver a pitch, treatment, draft and revision of the first act and detailed outline of the whole script. Students workshop feature screenplays in small groups.

Prerequisites: ENGLISH 429B or COMM-ST 454.

ENGLISH 5531 Late 18th-Century British Literature Credits: 3

British literature from the mid to late 18th century. Selected writers may include Blake, Burney, Collins, Equiano, Fielding, Gray, Johnson, Sheridan, and Wollstonecraft.

ENGLISH 5532 Advanced Creative Writing: Fiction Credits: 3

A course for advanced students of fiction writing. The class will proceed through analysis of models, discussion of general principles, and critique of student work. Students will simultaneously be encouraged to experiment and to refine the form and subjects best suited to their talents. Emphasis will remain on the short story, though there may be units in other forms—novella, film script, the non-fiction essay. May be repeated once for credit.

Prerequisites: Graduate Standing.

ENGLISH 5533 Histories Of Writing, Reading, And Publishing Credits: 3

A study of selected topics concerning the material practices of writing, reading, and publishing within specific cultural and historical contexts. Issues examined may include authorship, education, information technologies, libraries, literacy, periodicals, popular literature, publishers, and communities of readers.

ENGLISH 5534 Postcolonial Literature Credits: 3

An exploration of postcolonialism through the study of literary and theoretical texts created by or representing peoples whose historical experience has been decisively shaped by the experience or legacies of colonialism. Texts will be drawn from a variety of genres and from several countries. The course will consider several definitions of postcolonialism and related terms such as cosmopolitanism, hybridity, diaspora, and nationalism.

ENGLISH 5535 Advanced Creative Writing: Poetry Credits: 3

An advanced poetry workshop that includes intensive reading of contemporary poetry and aims at each student creating a portfolio of publishable poems. The focus of the course will vary to address a variety of topics such as metaphor and closure; imitation and the line; form and voice. May be repeated once for credit.

Prerequisites: Graduate Standing.

ENGLISH 5536 Poetic Forms Credits: 3

An advanced creative writing course that focuses on intensive study of and practice in metrics and traditional and nonce forms. May be repeated once for credit.

Prerequisites: ENGLISH 315.

ENGLISH 5537 Prose Forms Credits: 3

This course covers techniques for planning and drafting major prose forms. Students will learn how to use content as a guide to inventing new forms (i.e. novella, novel, linked-story collection, episodic novel, essay novel, and creative nonfiction book).

Prerequisites: ENGLISH 432WI, ENGLISH 435WI.

ENGLISH 5538 Women's Literature in Africa and the African Diaspora Credits: 3

This course is a comparative examination of the variety of literary works produced by women of African descent in the United States, the Caribbean and Africa. Students will explore the cross-cultural implications of texts in light of the intersections of gender, race and class.

ENGLISH 5540 American Culture Credits: 3

Texts that offer perspectives on key historical themes of American culture. Texts may be grouped around any culturally significant principle (e.g. region, race, gender, class, ethnicity, religion) or theme (e.g. the mythology of the frontier, marriage and domesticity, the American Dream). Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5541 Girls And Print Culture Credits: 3

This course deals with girls' relationships to the continually evolving print culture. Students will examine various literary representations of girlhood by adult writers, explore texts directed at girls (e.g., conduct books, periodicals, textbooks), and study the writing and reading practices of girls themselves.

ENGLISH 5545 History And Principles Of Rhetoric Credits: 3

A study of selected writings of ancient and modern rhetoricians illustrating key issues in the development of Western discourse theory and practice. Issues examined include the relationships between rhetoric and knowledge, orality and literacy, and rhetoric and poetics. Attention will also be given to the implications of rhetorical theory for modern language instruction. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5546 From Field Shout to Hip Hop: African American Poetic Traditions Credits: 3

This course examines the development of African American poetry from its early forms as field shouts, ballads, and blues to present forms including spoken word and hip hop. Includes authors such as Phillis Wheatley, Paul Lawrence Dunbar, Langston Hughes, Gwendolyn Brooks, Tupac Shakur, and Jessica Care Moore.

ENGLISH 5547 Theory and Criticism in English Studies Credits: 3

A survey of major schools and methods of literary theory and criticism. Authors and texts to be determined by the instructor of the course.

ENGLISH 5548 External Internship Credits: 1-3

Students may complete an external internship involving writing and editing with a publishing company, trade magazine, literary or academic journal, other print or electronic media organization, or with advertising, public relations, or non-profit firms. Internships are granted on a competitive basis. Students will compile a portfolio of their work under the direction of the internship supervisor to be submitted for evaluation to the department's internship coordinator.

ENGLISH 5549A Publication Practicum Credits: 1-3

This course provides practical experience with New Letters magazine, New Letters on the Air, and BkMk Press in business analysis/reporting, copy-editing, manuscript evaluation, promotion/grant development, library research, market research, and other skills. The practicum is limited to three students per semester, to be chosen on the basis of demonstrated writing and organizational skills. References are required. May be taken for no more than three credit hours over a maximum of two semesters. Permission of the instructors required.

ENGLISH 5549B Publication Practicum Credits: 1-3

This course covers the basics of producing an issue of an academic journal. Students acquire hands-on experience at all stages of production.

ENGLISH 5549C Publication Practicum Credits: 1-3

This course allows students to work with a faculty member on an ad hoc project for publication such as a special journal issue or festschrift, book manuscript, a new scholarly edition of a primary text, or a digital edition. Course may be repeated once for continued work on the same project.

ENGLISH 5550 Graduate Seminar Credits: 3

Authors, works and intellectual currents which form the basis of these seminars may vary from semester to semester, depending upon the instructor's design for the course. May be repeated for credit. Continued in ENGLISH 5555.

ENGLISH 5550A Graduate Seminar Medieval Literature I Credits: 3**ENGLISH 5550B Graduate Seminar Renaissance Literature I Credits: 3****ENGLISH 5550C Graduate Seminar Neo-Classical Literature I Credits: 3****ENGLISH 5550D Graduate Seminar 19th Century Literature I Credits: 3****ENGLISH 5550E Graduate Seminar American Literature I Credits: 3****ENGLISH 5550F Graduate Seminar Modern Literature I Credits: 3****ENGLISH 5550G Graduate Seminar Literary Criticism Credits: 3****ENGLISH 5550H Graduate Seminar Studies In Fiction I Credits: 3****ENGLISH 5550I Graduate Seminar In Dramatic Literature I Credits: 3****ENGLISH 5550J Graduate Seminar: History Of The English Language Credits: 3****ENGLISH 5550K Graduate Seminar: Creative Writing Prose Credits: 3****ENGLISH 5550M Graduate Seminar In Rhetoric And Composition Credits: 3****ENGLISH 5550MA Greater Kansas City Writing Project: Invitational Credits: 3****ENGLISH 5550MC Greater K.C. Writing Project: Writing & The Teaching Of Literature Credits: 3****ENGLISH 5550MD Greater Kc Writing Project: Critical Thinking & Process Writing Credits: 3****ENGLISH 5550ME Greater K.C. Wrtg Project: Researching The Theories Of Tchng Wrtng Credits: 3****ENGLISH 5550N Graduate Seminar: Criticism Credits: 3****ENGLISH 5550P Graduate Seminar: Sociolinguistics And Dialectology Credits: 3**

Seminar focusing on the role of social factors in language use, and on the origin and development of regional and urban dialects in English. Special attention will be paid to sociolinguistic motivations for change, variation and merger in dialects and languages in contact, and Black English.

ENGLISH 5551 Shakespeare Comedies And Histories Credits: 3

A study of Shakespeare's major comedies and history plays with special emphasis on his dramatic works before 1600. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5552 Early English Drama Credits: 3

English religious and secular drama prior to Shakespeare. Mystery and morality plays are studied with emphasis on their literary and social backgrounds. Close readings of such works as "Everyman," "The Wakefield Second Shepherd's Play," and "The Spanish Tragedy." Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5553 Modern Drama 1880-1945 Credits: 3

A study of modern drama: Continental, British, and American, including history and development, critical theory, and literary evaluation. This course will focus on the earlier modern playwrights from Ibsen to Shaw, with special attention to naturalism. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5554 The Civil Rights Movement in African American Literature Credits: 3

This course examines how African American literature shaped ideas about freedom, rights, citizenship and race in the civil rights movement. It draws on a variety of literary forms-speeches, essays, autobiographies, fiction, drama, poetry and film-to explore the movement's impact on communities and cultures as well as its various debates and competing visions.

ENGLISH 5555 Graduate Seminar Credits: 3

Graduate Seminar - second half.

Prerequisites: ENGLISH 5550.

ENGLISH 5555A Graduate Seminar Medieval Literature II Credits: 3**ENGLISH 5555B Graduate Seminar Renaissance Literature II Credits: 3****ENGLISH 5555C Graduate Seminar Neo-Classical Literature I Credits: 3****ENGLISH 5555D Graduate Seminar In 19th-Century Literature II Credits: 3****ENGLISH 5555E Graduate Seminar American Literature II Credits: 3****ENGLISH 5555F Graduate Seminar In Modern Literature II Credits: 3****ENGLISH 5555G Graduate Seminar Literary Criticism Credits: 3****ENGLISH 5555H Graduate Seminar Studies In Fiction II Credits: 3****ENGLISH 5555I Graduate Seminar In Dramatic Literature II Credits: 3****ENGLISH 5555J Graduate Seminar English Language Credits: 3****ENGLISH 5555K Graduate Seminar In Creative Writing:Poetry Credits: 3****ENGLISH 5555M Graduate Seminar: Composition Credits: 3****ENGLISH 5555N Graduate Seminar: Prose Fiction Credits: 3****ENGLISH 5556 Studies In The Novel 1740-1900 Credits: 3**

An intensive study of no more than three major novelists of the eighteenth or nineteenth century. The content of the course will change, depending on the instructor. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5557 Stages toward Freedom: African American Dramatic Traditions Credits: 3

This course explores the development of African American dramatic traditions from the eighteenth century through the Harlem Renaissance, Black Arts Movement, to current postmodernism. Includes authors such as W.W. Brown, Zora N. Hurston, Amiri Baraka, Sonia Sanchez, August Wilson, Suzan-Lori Parks.

ENGLISH 5558 Slave Narratives: Race, Gender and Writing Freedom Credits: 3

A truly American, home grown genre and powerful force in the development of American political and social realities, the African American Slave Narrative is an established, recognized influence in the development of African American and American literary history. In this course you will have the opportunity to explore the historical trajectory of the Slave Narrative, looking at early formulations of its structure, purpose and conventions—especially in terms of gender and race, subsequent various permutations, and the eventual development of the Neo-slave Narrative as its resurrection, which adds to the complexity and theoretical impact of the literary autobiography from black perspectives.

ENGLISH 5559 African American Migrations in Literature Credits: 3

The course examines representations of two different trajectories of migration in African American literature: African American journeys from the south to northern and mid-western regions of America, and concurrent migrations of Caribbean people to the US in the early twentieth century.

ENGLISH 5560 Special Topics Credits: 1-4

The professor who gives this course determines what its content shall be. All aspects of English studies are within its possible range.

ENGLISH 5561 Shakespeare:Tragedies And Romances Credits: 3

A study of Shakespeare's major tragedies and late romances with special emphasis on his dramatic literature after 1600. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5562 Restoration And 18th- Century Drama Credits: 3

The drama after the restoration of the monarchy and the reopening of the theatres through the 18th century. Special emphasis is placed on the comedy of manners and the heroic drama in the Restoration and the sentimental comedy in the 18th-century. Includes such playwrights as Dryden, Congreve, Etherege, Wycherley, Steele, Lillo, Cumberland, Sheridan, and Goldsmith. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5563 Contemporary Drama Credits: 3

A study of contemporary drama: Continental, British, and American, including history and development, critical theory and literary evaluation. This course will focus on the more recent writers, including the absurdists, with special attention to experimental drama. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5564 Medieval Methods & Paleography Credits: 3

This course examines the methodology and historiography of Medieval Studies. Through an introduction to paleography, the study of medieval handwritings, it prepares students for advanced work in Medieval and Renaissance studies. Using an interdisciplinary approach, this course will examine the historical and cultural settings for medieval texts, their physical form and production, as well as the tradition of textual transmission in the medieval world. In addition to gaining familiarity with the many different types of primary sources, such as literary, artistic, legal, and notarial sources, students will be exposed to methods for practical archival work in various European nations.

Prerequisites: First Year Latin.

ENGLISH 5565 Studies In Modern Novel Credits: 3

An intensive study of no more than three major 20th- century novelists. The content of the course will change depending on the instructor. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5566CA Cluster Course: Images Of The Human Body In The Renaissance Credits: 3

Focusing on Renaissance conceptions of the human body, this cluster treats the following topics as they are reflected in Renaissance literature, art, astrology, astronomy, biology, anatomy, medicine, and politics: A) The dignity of the human body B) Microcosm and macrocosm. C) The human body and the heavens D) Stranger manifestations: freaks and beasts E) The humors F) Disorders of the human body G) The body politic H) The human body as an object of study.

ENGLISH 5566CF Courts And Culture In The Middle Ages Credits: 3

This cluster course offers an interdisciplinary approach to the study of the Middle Ages, focusing on medieval cultures in Europe. Arranged around a series of themes, the cluster will read a variety of documentary and literary texts to investigate not only the "high culture" of the courts but also the interactions of people from various social backgrounds in Western Europe.

ENGLISH 5575 Advanced Creative Writing: Creative Nonfiction Credits: 3

This course is devoted to the study and crafting of the personal essay. Students will explore - and - practice many different varieties of this diverse form. Whether in the guise of aesthetic appreciation, cultural critique, personal history, political reportage, or travelogue, our course readings are first and foremost PERSONAL narratives, both troubled and enriched by their subjectivity (the essay's 'I'). Students will study the many challenges particular to this form (most of which concern notions of truth, and its rendering) and strive to overcome them as they create vivid personal narratives of their own.

ENGLISH 5582 European Literature: 18th Century Credits: 3

The 18th-century course will focus on a representative sampling from authors such as Corneille, Racine, Moliere, Voltaire, Prevost, La Bruyere, La Rochefoucauld, Montesquieu, Diderot, Rousseau, Schiller, Goethe, and Grimmshausen. Students will make in-class presentations and submit papers requiring research and bibliographical work.

ENGLISH 5591 Research In Selected Fields Credits: 1-3

Individual study under the direction of a senior member of the department, leading to the writing of a formal or scholarly paper. May be repeated for credit.

ENGLISH 5598A MFA Thesis Credits: 3-6

Under the guidance of a graduate MFA faculty member, students completing the MFA must complete and orally defend a publishable or producible manuscript. May be repeated for a maximum of six hours credit.

ENGLISH 5599 Research And Thesis Credits: 1-9

A student, with permission of the graduate committee, may write a thesis for 3 hours credit.

ENGLISH 5600 Introduction To Doctoral Study In English Credits: 3

Introduction to research skills necessary for doctoral work, particularly for writing the thesis; attention will be paid both to traditional skills such as bibliography and to computer skills.

ENGLISH 5601 Culminating Experience in Literature Credit: 1

Under the guidance of a graduate faculty member in English, students following the program of study in Literature must revise and orally defend a 20-30 page paper in Literature on a pass/no pass basis.

ENGLISH 5602 Culminating Experience in Language & Literature Credit: 1

Under the Guidance of a graduate faculty member in English, Students following the program of study in Language Literature must revise and orally defend a 20-30 page paper in Language Literature on a pass/no pass basis.

ENGLISH 5603 Culminating Experience in Manuscript, Print Culture, & Editing. Credit: 1

Under the guidance of a graduate faculty member in English, students following the program of Study in Manuscript, Print Culture, and Editing must revise and orally defend a 20-30 page paper in Manuscript, Print Culture, and Editing on a pass/no pass basis.

ENGLISH 5650 Doctoral Seminar Credits: 3

ENGLISH 5691 Doctoral Research In Selected Fields Credits: 3

Individual study under the direction of a senior member of the department leading to the writing of a formal or scholarly paper. May be repeated for credit.

ENGLISH 5699 Research And Dissertation Credits: 1-15

Research and preparation for the doctoral dissertation.

ENGLISH 5899 Required Graduate Enrollment Credit: 1

Bachelor of Arts: English

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Create coherent academic arguments that are built upon multi-leveled textual analysis.
- Integrate close reading of primary texts.
- Situate texts in cultural and/or historical contexts.
- Engage in critical conversations.
- Present an essay in ways that reflect a sense of professional rules and conventions.

The Bachelor of Arts in English program is recommended for students interested in literature and language, in writing and reading, in texts of all types and how they influence and reflect our world. The English major is also an excellent choice for those interested in obtaining a firm foundation for graduate study in programs as wide-ranging as business or law school, communications, cultural studies, and, of course, English and Creative Writing. English majors planning to attend graduate school are strongly urged to take courses in all periods of English and American literature.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC. Students complete a capstone project in their final year.

No more than one course in Creative Writing may be counted toward the 36-hour requirement for the Literature major. No courses in expository writing or journalism may be used to fulfill the 300- or 400-level elective requirements.

All students with a major in English must fulfill these requirements. Emphasis areas can be added to the major and they will not be on the diploma, but will be noted in the transcript.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		10

Major Requirements

Students must successfully complete the major requirements below with at least 18 of the 36 required hours taken in the department at UMKC with 12 of those hours at the 300-level or above.

Code	Title	Credits
All of the following in literature:

Total Credits

36

¹ Only one English course at the 100- or 200-level may be used to fulfill an elective requirement. At least three of the five electives must be at the 400-level. Two of the five electives must cover periods prior to 1900. No courses in expository writing or journalism may be used to fulfill the 300- or 400-level elective requirements. Elective courses may be offered on a rotation basis. Please consult with your advisor for availability.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		29

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

English American Literary and Cultural Studies Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Create coherent academic arguments that are built upon multi-leveled textual analysis
- Integrate close readings of primary texts
- Situate texts in cultural and/or historical contexts
- Engage in critical conversations
- Present an essay in ways that reflect a sense of professional rules and convention

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

English Classical, Medieval, & Early Modern Literature Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Create coherent academic arguments that are built upon multi-leveled textual analysis
- Integrate close readings of primary texts
- Situate texts in cultural and/or historical contexts
- Engage in critical conversations
- Present an essay in ways that reflect a sense of professional rules and conventions

The Bachelor of Arts in English with an emphasis in Classical, Medieval, and Early Modern Literature is recommended for students interested in a broad background in the humanities and for those interested in obtaining a firm foundation for further study in graduate school. This option within the English major involves a core of three survey courses to give students grounding in each of the three periods. Students also take one elective from each time period; a course such as "Shakespeare in Film," "The Ancient World in Film," or "Arthurian Legends" that allows for the study of how these literatures have been received in modern society; and a course on the linguistic backgrounds of these literatures, such as "History of English," "Old English," "Ancient Greek," "Classical Latin," or the "History and Principles of Rhetoric." The remaining three electives can be taken in the English Department or many other departments in the college including Classics, History, Art History, Philosophy, and Geosciences.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC. Students complete a capstone project in their final year.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		26

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: English Creative Writing Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Demonstrate a thorough understanding of poetics or storytelling craft through the production of creative works that are structurally sound, polished, and complete.
- Demonstrate effective problem-solving and revision strategies in the composition of poems or stories.
- Demonstrate a strong, deliberate command of style, grammar, and mechanics.
- Demonstrate a general knowledge of literary history, especially the literary traditions of their chosen genre.
- Demonstrate the ability to analyze texts critically and the ability to recognize how a text displays a writer's artistic decisions.
- Demonstrate a working vocabulary with which to discuss the technical and aesthetic aspects of their craft.

The Bachelor of Arts in English with Creative Writing Emphasis combines intensive writing workshops with courses in literature to foster discovery and mastery in creative writing. Our program is based on the belief that successful writers grow from the study of writing and the study of literature, which enables students to learn the traditions and adapt them to their own art. Students complete a capstone project in their final year.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC. Students complete a capstone project in their final year. Courses may be offered on a rotation basis. Please consult with advisor for current availability.

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

English Language and Rhetoric Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Create coherent academic arguments that are built upon complex rhetorical and/or linguistic analysis.
- Analyze the language and rhetoric of various texts and media.
- Situate media in cultural and/or historical contexts.
- Engage in critical conversations.
- Present an essay in ways that reflect a sense of professional rules and conventions.

The Bachelor of Arts in English with an emphasis in Language and Rhetoric is recommended for students interested in a broad background in the humanities with a focus in language and rhetoric and for those interested in obtaining a firm foundation for further study in graduate school. Students will receive intensive emphasis in the study of rhetoric and linguistic analysis. This option is especially relevant for students considering law school and careers in communications, marketing, and business.

To graduate with a major in English, students must achieve a grade-point average of at least 2.0 in the 36-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement. At least 18 hours must be taken in the English Department at UMKC. Students complete a capstone project in their final year.

¹ No course may be used to fulfill more than one requirement, but courses not used for "Language" or "Rhetoric" categories above may be taken for the "Language/Rhetoric/Theory" category.

² Only one course at the 100- or 200-level may be used to fulfill an elective requirement. No more than one course in Creative Writing may be counted toward the 36-hour requirement for the Language and Rhetoric Emphasis. No course in expository writing or journalism may be used to fulfill the 300-level or above elective requirement. Elective coursework may be offered on a rotation basis. Please consult with your advisor for current availability.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		29

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Dual Degree: English BA-MA

Student Learning Outcomes

Students graduating from this program will:

- Create sophisticated academic arguments that situate texts within aesthetic, social, and historical context.
- Produce work in dialogue with current and historical conversations in the field.
- Evaluate and engage methodological approaches appropriate to academic discourse.
- Develop and defend, both orally and in writing, their critical perspectives.
- Synthesize an understanding of interrelations across diverse fields of study.
- Demonstrate a broad grounding in the diversity of fields in English studies.
- Produce written work in a vivid, appropriate style that demonstrates mastery of mechanics and grammar.

B.A. / M.A. English Dual Degree

The English B.A. / M.A. dual-degree program is a pre-professional program that offers students an opportunity to complete an advanced degree in an accelerated fashion. This allows students to shorten their time to degree. This program is ideal for students interested in careers in editing, museum studies, or non-profit work. It is also ideal for students who aim to study law, medicine, or library science.

B.A. students must apply for the B.A. / M.A. English dual-degree program when they have completed 45 credit hours. Applicants should carry at least a 3.75 GPA within the major and must have completed three of the five required literature courses. Students should submit the following materials with their application: an academic, research-based writing sample from a UMKC English course, and two recommendations from UMKC Department of English faculty. The GRE examination requirement for graduate applications is waived.

Students who are admitted to the B.A. / M.A. English dual-degree program will be advised by CAS student services for general education requirements, English Department undergraduate advisors for their major requirements, and a member of the English Department graduate faculty for their M.A. requirements.

B.A. English Requirements

Students pursuing this dual-degree must satisfy all requirements of the Bachelor of Arts: English. Students pursuing this dual-degree are required to take 36 credit hours within the major as detailed in the table below.

Code	Title	Credits
B.A. Literature (take all courses)		15
ENGLISH 311	American Literature I	
ENGLISH 317	British Literature I	
ENGLISH 321	American Literature II	
ENGLISH 323	Shakespeare	
ENGLISH 327	British Literature II	
B.A. Language & Rhetoric (take one course)		3
ENGLISH 305WI	Theory And Practice Of Composition	
ENGLISH 308	Rhetorics of New Media	
ENGLISH 309WI	Rhetorics of Public Memory	
ENGLISH 320	Structure Of English	
ENGLISH 330	History Of The English Language	
ENGLISH 445	History And Principles Of Rhetoric	
B.A. Electives (take three courses - see footnote for details) ¹		9
Take at least one elective from the following pre-1900 courses:		
CLASSICS 283	Women in the Ancient World	
CLASSICS 300CY	Ancient World in Cinema	
CLASSICS 340AWI	Classical Literature In Translation	
COMM-ST 323	Concepts of the Hero in Ancient Literature and World Cinema	
ENGLISH 278	Asian American Literature	
ENGLISH 318	Bible As Literature	
ENGLISH 331	African American Literature I	
ENGLISH 355	The Novel Before 1900	
ENGLISH 404	Old English	
ENGLISH 431	18th-Century British Literature	
ENGLISH 433	Histories Of Writing, Reading, And Publishing	
ENGLISH 455	Studies In The Novel 1740-1900	
Take two more electives from the following courses or any of those not previously taken from the pre-1900 list above:		
ENGLISH 312	Creative Writing I Fiction	
ENGLISH 339	Introduction to Screenwriting	
ENGLISH 365WI	Contemporary Novel	
ENGLISH 441	Girls And Print Culture	
ENGLISH 442/THEATRE 437	Playwriting I	
ENGLISH 443/THEATRE 438	Playwriting II	
ENGLISH 447	Theory and Criticism in English Studies	
ENGLISH 449B	Publication Practicum	
ENGLISH 450	Special Readings	
ENGLISH 454/BLKS 337	The Civil Rights Movement in African American Literature	
ENGLISH 456/BLKS 334	From Field Shout to Hip Hop: African American Poetic Traditions	
ENGLISH 459/BLKS 330	African American Migrations in Literature	
ENGLISH 465	Studies In The Modern Novel	
M.A. Foundation (take all three courses)		9
Students must complete at least 90 credit hours before enrolling in graduate courses for the M.A. Any exceptions to this policy must be approved by the English Department's Director of Graduate Studies.		
ENGLISH 5500	Graduate Study In English	
ENGLISH 5547	Theory and Criticism in English Studies	

English Graduate Course Elective

Total Credits

36

- ¹ At least one of the three electives must be at the 400-level. One of the three electives must cover periods prior to 1900. No courses in expository writing or journalism may be used to fulfill elective requirements. Elective courses may be offered on a rotation basis. Please consult with your advisor for availability.

M.A. English Requirements

Students pursuing this dual-degree program must satisfy all requirements of the Master of Arts: English, including the foreign language requirement. Of the 31 credit hours required for the M.A. in English, 9 credit hours will be applied from the courses required for the B.A. in English, as listed above.

For detailed course requirements, see the Master of Arts: English Degree Requirements page (<https://catalog.umkc.edu/colleges-schools/arts-sciences/academic-departments-programs/english-language-literature/master-of-arts-english/>).

Interdisciplinary Ph.D in English

English is an academic discipline eligible for full participation in UMKC's Interdisciplinary Ph.D. Program. Interested students should review the School of Graduate Studies catalog for general and discipline-specific admission criteria, academic regulations, and degree requirements and also contact the Department's I.Ph.D. Coordinator.

Suggested Focus Areas: American Studies; Manuscript and Print Culture; Medieval Studies; Rhetoric and Composition; Transatlantic Studies; Women's and Gender Studies.

English as a Primary Discipline coordinates well with the co-disciplines of Art History, History, and the Humanities Consortium.

Master of Arts: English

Student Learning Outcomes

Students graduating from this program will:

- Create sophisticated academic arguments that situate texts within aesthetic, social, and historical context.
- Produce work in dialogue with current and historical conversations in the field;
- Evaluate and engage methodological approaches appropriate to academic discourse;
- Develop and defend, both orally and in writing, their critical perspectives;
- Synthesize an understanding of interrelations across diverse fields of study;
- Demonstrate a broad grounding in the diversity of fields in English studies.
- Produce written work in a vivid, appropriate style that demonstrates mastery of mechanics and grammar.

The Department of English offers the Master of Arts in English, which focuses on literary study, as well as two emphasis areas that allow students to concentrate their studies in a particular area: 1) Language and Rhetoric, and 2) Manuscript, Print Culture, and Editing. Through courses in English and American literature, creative and expository writing, film, linguistics, composition/rhetoric, literary criticism, the history of books and print culture, as well as editing, these programs of study are designed to prepare students for teaching, research, and writing careers, for careers in editing, and for further study at the doctoral level. The 31-hour M.A. in English is designed for students desiring a general background in English and American literature and is strongly recommended for students planning further graduate study in English and/or American literature.

The Language and Rhetoric emphasis is designed for students who wish to combine graduate study of literature with the study of linguistics and/or composition and rhetoric. This emphasis is recommended for students interested in teaching in community colleges or secondary schools and for students interested in pursuing the Ph.D. in composition and rhetoric or linguistics.

The Manuscript, Print Culture, and Editing emphasis is designed for students who wish to combine the study of literature with the study of book history, print culture, and editing. This emphasis is recommended for students interested in editorial careers, offering several internship experiences in print and online media, and for students interesting in pursuing the Ph.D. in book history and print culture.

Members of the graduate faculty are assigned as advisors to newly admitted M.A. students. New graduate students should meet with their advisors as soon as possible to prepare an official program of study.

Admission

The application process is competitive. Satisfying the admission requirements does not guarantee admission to the program.

The applicant must hold:

- a B.A. in English, or a B.A. degree that includes at least 30 hours of sophomore-, junior- or senior-level English courses, or the equivalent. Applicants with fewer than 30 hours of undergraduate English courses may be admitted and assigned additional coursework as part of their program. These extra hours are added to the hours required for graduation.
- a 3.0 cumulative grade-point average in undergraduate work and a 3.0 average in undergraduate English coursework. In unusual circumstances, the graduate committee may consider applicants with lower grade-point averages.

Applicants will be asked to submit the following materials with their online application:

1. **Academic information**, including institutions attended, degrees earned, GPA, foreign language experience, honors and awards, and relevant work experience
2. **Writing sample** that demonstrates the applicant's writing abilities in the humanities in up to 15 pages of recent academic prose (upload file)
3. **Statement of purpose** that describes the applicant's academic and professional objectives in an essay of 500-600 words, discussing in detail their interest, research, and writing in their emphasis area (upload file)
4. **Three letters of recommendation** that evaluate the applicant's readiness for graduate study written by three professors or others who know the applicant's abilities and potential well (provide email addresses and recommenders will receive instructions to upload letters)
5. **Transcripts** from all post-secondary schools attended (mail to UMKC Office of Admissions, 5100 Rockhill Road, 120 Administrative Center, 64110)
6. **Graduate Teaching Assistantship** application materials, if applying, including a 250-500 word teaching statement addressing the applicant's interest in and qualifications for teaching, and an academic writing sample from an upper-level college course (upload files)

Students may not take more than six hours of graduate credit in English before entering the program as a "fully admitted" student.

Degree Requirements

Students must earn 31 graduate credits to complete the M.A. in English. Of these credits, at least 15 hours must be at graduate level (courses numbered 5000 and above) and taught by a member of the graduate faculty and at least 9 hours must be in 5000-level seminars or other 5000-level courses which are not cross-listed with 400-level courses.

Students must take ENGLISH 5500, ENGLISH 5547, and one hour of ENGLISH 5601, ENGLISH 5602, or ENGLISH 5603 for their "Culminating Experience," as is appropriate depending on the focus of their studies.

Students must maintain a 3.0 (B) grade-point average to remain in the M.A. program and to complete the degree.

By the time of graduation from the M.A. program, students must fulfill a foreign language requirement by satisfactorily completing (with a C or better) one year (two university semesters) of the same foreign language. Alternatively, the foreign language requirement may be satisfied by scoring a "C" on the final exam of the first-year, second-semester course in a foreign language. Previous undergraduate coursework may be used to satisfy this requirement. Old English may satisfy one semester of this requirement. Foreign language credits do not apply toward the 31-hour degree requirement, unless taken at the graduate level.

Students must remain continuously enrolled, except in summer, for a minimum of 1 credit hour per semester. ENGLISH 5899 is the continuous enrollment course number.

Students must complete a formal Program of Study and have it signed within a year after admission. A final Program of Study must be submitted and signed during the semester a student files to graduate.

Students must complete all coursework within seven years.

ENGLISH 5602	Culminating Experience in Language & Literature	
Total Credits		31

Manuscript, Print Culture, and Editing Emphasis

If desired, a student may elect the Manuscript, Print Culture, and Editing Emphasis when obtaining the M.A. in English. This emphasis examines the social, cultural, economic, and political history of the written word. It considers relationships among authors, editors, publishers, printers, illustrators, and booksellers as well as the reception of texts by readers, reviewers, and critics. In addition, it allows students to study the production of texts through the centuries while also gaining hands-on editing experience through internal and external publishing internships. Students will take a wide variety of courses covering a range of historical periods that have a significant emphasis on the history of reading, writing, and authorship as well as courses that focus on aspects of contemporary publishing and editing.

Students who have selected this emphasis must complete the requirements listed below.

Code	Title	Credits
I. Required Courses		
ENGLISH 5500	Graduate Study In English	3
ENGLISH 447/5547	Theory and Criticism in English Studies	3

VI. Culminating Experience		1
ENGLISH 5603	Culminating Experience in Manuscript, Print Culture, & Editing.	
Total Credits		31

Culminating Experience

At the end of their M.A. course work (either in the last semester or the second to last semester), all M.A. students in English will revise a seminar paper (written in a previous course) under the guidance of a faculty mentor. The goal of the revisions will be to create a polished paper of about 20-30 pages that could be the basis for a conference paper, a writing sample, or a publishable article.

Students will enroll in and successfully complete one hour of ENGLISH 5601, ENGLISH 5602, or ENGLISH 5603 for their "Culminating Experience," as is appropriate depending on the focus of their studies. Enrollment is required in order to work on this final paper with their chosen faculty mentor.

Final papers will be reviewed by a faculty committee that will rotate each academic year. The committee will consist of two assigned members of the graduate faculty appointed by the Director of Graduate Studies, who will work with the student's faculty mentor.

Students will turn in their revised papers to their mentors and the review committee at least two weeks prior to the end of the semester. The mentor is responsible for arranging a meeting with the student and the review committee before the end of the semester in which the Culminating Experience is taken. After conducting a defense about the paper and providing feedback for the student, the mentor and the review committee will assign a grade of pass or fail. Students must complete the oral defense in order to pass.

In addition to the department requirements above, graduate students in English must comply with the requirements listed in the General Graduate Academic Regulations and Information section of this catalog.

Master of Fine Arts: Creative Writing and Media Arts

Student Learning Outcomes

Students graduating from this program will:

- Mastery of poetics or storytelling craft through the creation of a full-length manuscript of poetry, fiction, non-fiction, plays, or screenplays that are structurally sound, polished, and complete, and have a distinct voice;
- Effective problem-solving and revision strategies in the composition of poems, fiction, non-fiction, plays, or screenplays;
- A deliberate, masterful command of language, including style, grammar, and mechanics;
- Proficiency in at least one genre outside of their primary field and the ability to apply the techniques of their secondary genres to the work they produce in their primary field or study;

- Sophisticated critical analyses of literary texts, including an understanding of how a text displays a writer's artistic techniques and the ability to incorporate those techniques into their own writing; and
- Thorough knowledge of the literary traditions of their primary genre and the ability to situate their own work within current literary conversations.

The Department of English offers the degree Master of Fine Arts (M.F.A.) in Creative Writing and Media Arts. This interdisciplinary degree includes coursework in allied programs in Communication Studies and Theatre. The 42-hour program provides learning opportunities in writing, literary publishing, broadcasting, screen and stage writing, and production skills. The M.F.A. is a terminal degree in the field of Creative Writing and is designed to prepare students for careers as literary artists, authors, playwrights, poets, teachers, and screenwriters.

Admission

The application process is competitive. Satisfying the admission requirements does not guarantee admission to the program.

The applicant must hold:

- a B.A. in English, or a B.A. degree that includes at least 30 hours of sophomore-, junior- or senior-level English courses, or the equivalent. Applicants with fewer than 30 hours of undergraduate English courses may be admitted and assigned additional coursework as part of their program. These extra hours are added to the hours required for graduation.
- a 3.0 cumulative grade-point average in undergraduate work and a 3.0 average in undergraduate English coursework. In unusual circumstances, the Graduate Committee may consider applicants with lower grade-point averages.

Applicants will be asked to submit the following materials with their online application:

1. **Academic information**, including institutions attended, degrees earned, GPA, foreign language experience, honors and awards, and relevant work experience
2. **Writing sample** that demonstrates the applicant's writing abilities in a single emphasis area (no more than 10 pages for poetry; no more than 30 pages for fiction, creative nonfiction, playwriting or screenwriting)
3. **Statement of purpose** that describes the applicant's academic and professional objectives in an essay of 500-600 words, discussing in detail their interest, research, and writing in their emphasis area (upload file)
4. **Three letters of recommendation** that evaluate the applicant's readiness for graduate study written by three professors or others who know the applicant's abilities and potential well (provide email addresses and recommenders will receive instructions to upload letters)
5. **Transcripts** from all post-secondary schools attended (mail to UMKC Office of Admissions, 5100 Rockhill Road, 120 Administrative Center, 64110)
6. **Graduate Teaching Assistantship** application materials, if applying, including a 250-500 word teaching statement addressing the applicant's interest in and qualifications for teaching, and an academic writing sample from an upper-level college course (upload files)

Students may not take more than six hours of graduate credit in English before entering the program as a "fully admitted" student.

Degree Requirements

Students must earn 42 graduate credit hours beyond the bachelor's degree. Of these, at least 27 hours must be at the graduate level (courses numbered 5500 and above) and taught by a member of UMKC's graduate faculty.

Students must maintain a 3.0 (B) grade-point average to remain in the M.F.A. program and to complete the degree.

Foreign Language Requirement: By the time of graduation from the M.F.A. program, students must have completed one year (two university semesters) of a single foreign language. Alternatively, the foreign language requirement may be satisfied by scoring a "C" on the final exam of the first-year, second-semester course in foreign language. Previous undergraduate coursework may be used to satisfy this requirement.

Students must remain continuously enrolled, except in summer, for a minimum of 1 credit hour per semester. ENGLISH 5899 is the continuous enrollment course number.

Students must complete a formal Program of Study and have it signed within a year after admission. A final Program of Study must be submitted and signed during the semester a student files to graduate.

Students must complete all coursework within seven years.

Students must focus on one or more of the following genres:

- Creative Nonfiction (p. 779)
- Fiction (p. 788)
- Playwriting (p. 781)
- Screenwriting
- Poetry (p. 784)

With approval from the Director of Creative Writing and the instructor of the course, students may arrange to submit creative work in their core genre in a workshop of another genre.

Residency requirements: a minimum of 33 hours must be completed at UMKC.

Requirements for M.F.A. Thesis

In consultation with the faculty, the student will choose a thesis committee comprised of three members: a thesis director from the M.F.A. faculty and two other faculty members approved by the director and selected from the M.F.A. faculty, the faculty of another institution, or the faculties of the Departments of English, Communication Studies, or Theatre. Under the guidance of the thesis director, the student will complete a publishable or producible manuscript of one of the following:

- a book of poems (48-80 pages, single spaced); or
- a book of short stories or creative nonfiction essays (180 pages, double spaced); or
- a novel or novel-length nonfiction book (180-page minimum, double spaced); or
- a full-length play or several one-act plays; or
- a feature-length screenplay (95-120 pages) or a series bible and two 1-hour episodes (20 pages + two 45-page episodes); or
- a full-length cross-genre work, with Committee Chair permission.

At the completion of the writing project, the student will meet with his or her committee for a one-hour defense of the thesis.

Advisors may approve courses in other departments that may be highly valuable for particular student programs, e.g., History for documentary film, Foreign Language for translation work, Philosophy for aesthetics and theoretical/experimental approaches, and Art. Collaborative directed studies may be offered to allow two or more students to use two or more genres/media. Students may also seek collaborative opportunities in the Conservatory and in Computer Science.

In addition to the department requirements above, graduate students in English must comply with the requirements listed in the General Graduate Academic Regulations and Information (p. 454) section of this catalog.

Master of Fine Arts: Creative Writing & Media Arts - Creative Nonfiction Emphasis

Student Learning Outcomes

Students graduating from this program will:

- Show mastery of storytelling craft through the creation of a full-length manuscript of creative nonfiction that: a) is structurally sound; b) is polished and complete; c) has a distinct voice and/or vision.
- Show evidence of effective problem-solving and revision strategies
- Demonstrate a deliberate, masterful command of language, including: a) Style; b) grammar and mechanics.
- Demonstrate, in the text or critical introduction, a proficiency in at least one genre outside of their primary field and the ability to apply the techniques of their secondary genres to the work they produce in their primary field of study
- Demonstrate sophisticated critical analyses of literary texts, including an understanding of how a text displays a writer's artistic techniques and the ability to incorporate those techniques into their own writing.
- Demonstrate thorough knowledge of the literary traditions of their primary genre and the ability to situate their own work within current literary conversation.

Coursework

This emphasis follows the Master of Fine Arts in Creative Writing and Media Arts (p. 777) Program Requirements. Students must complete the following coursework for this emphasis:

I. 12 hours of craft workshop: Students choose 4 workshops in their core genre

Code	Title	Credits

MFA in Creative Writing and Media Arts: Fiction Emphasis

Student Learning Outcomes

Students graduating from this program will:

- Show mastery of storytelling craft through the creation of a full-length manuscript of poetry, fiction that: a) is structurally sound; b) is polished and complete; c) has a distinct voice and/or vision.
- Show evidence of effective problem-solving and revision strategies.
- Demonstrate a deliberate, masterful command of language, including: a) style; b) grammar and mechanics.
- Demonstrate, in the text or critical introduction, a proficiency in at least one genre outside of their primary field and the ability to apply the techniques of their secondary genres to the work they produce in their primary field of study.
- Demonstrate sophisticated critical analyses of literary texts, including an understanding of how a text displays a writer's artistic techniques and the ability to incorporate those techniques into their own writing.
- Demonstrate thorough knowledge of the literary traditions of their primary genre and the ability to situate their own work within current literary conversations.

Coursework

This emphasis follows the Master of Fine Arts in Creative Writing and Media Arts Program Requirements. Students must complete the following coursework for this emphasis:

I. 12 hours of craft workshop: Students choose 4 workshops in their core genre

Code	Title	Credits
ENGLISH 432WI or ENGLISH 5532	Advanced Creative Writing Prose	3
ENGLISH 437WI or ENGLISH 5537	Prose Forms	3
ENGLISH 5550K	Graduate Seminar: Creative Writing Prose	3
ENGLISH 5555N	Graduate Seminar: Prose Fiction	3

II. 6 hours of the interdisciplinary component. Students choose at least two craft, workshop, or production courses outside their core genre in English, Theatre, or Communication Studies.

Code	Title	Credits
ENGLISH 5501	Magazine Editing	3
ENGLISH 5502	Magazine Nonfiction	3
ENGLISH 5532	Advanced Creative Writing: Fiction	3
ENGLISH 5535	Advanced Creative Writing: Poetry	3
ENGLISH 5536	Poetic Forms	3
ENGLISH 5537	Prose Forms	3
ENGLISH 5548	External Internship	1-3
ENGLISH 475	Creative Nonfiction	3
ENGLISH 5549A	Publication Practicum	1-3
ENGLISH 5550K	Graduate Seminar: Creative Writing Prose (recommended for fiction or nonfiction options)	3
ENGLISH 5555K	Graduate Seminar In Creative Writing:Poetry	3
ENGLISH 5555N	Graduate Seminar: Prose Fiction (recommended for fiction or nonfiction options)	3

IV. 6 Hours of Thesis Portfolio: ENGLISH 5598A

V. 6 Hours Electives

From the list of literary classes above, students complete sufficient credit hours to bring the total of all requirements to 42 credit hours. With advisor's approval, students may also select electives from other departments.

Minor in Creative Writing

Student Learning Outcomes

Students graduating from this program will:

- Demonstrate a thorough understanding of poetics or storytelling craft through the production of creative works that are structurally sound, polished, and complete.
- Demonstrate effective problem-solving and revision strategies in the composition of poems or stories.
- Demonstrate a strong, deliberate command of style, grammar, and mechanics.
- Demonstrate a general knowledge of literary history, especially the literary traditions of their chosen genre.
- Demonstrate the ability to analyze texts critically and the ability to recognize how a text displays a writer's artistic decisions.
- Demonstrate a working vocabulary with which to discuss the technical and aesthetic aspects of their craft.

Program Requirements

The Minor in Creative Writing is designed for students who are eager to give focused attention to developing their talents in poetry, fiction, or creative nonfiction writing.

To graduate with a Minor in Creative Writing, students must achieve a grade-point average of at least 2.0 in the 21-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement.

Program of Study

Minor in English Language and Literature

Student Learning Outcomes

Students graduating from this program will:

- Create coherent academic arguments that are built upon multi-leveled textual analysis.
- Integrate close reading of primary texts.

- Engage in critical conversations.
- Present an essay in ways that reflect a sense of professional rules and conventions.

Program Requirements

The Minor in English Language and Literature is designed for students desiring a general background in literature written in English.

To graduate with a Minor in English Language and Literature, students must achieve a grade-point average of at least 2.0 in the 18-hour program described below, but no credit will be given for courses in which the grade is below C-. Students must take 12 of the 18 hours required at the 300- or 400-level. No course may fulfill more than one requirement. No courses in journalism or in expository writing may be counted toward the Minor in English. No more than one course in Creative Writing may be counted toward the Minor in English Literature. In addition to the following approved courses, students may petition to have other considered by the Director of Undergraduate Studies in English.

Minor in Manuscript, Print Culture, and Editing

Program Requirements

The Minor in Manuscript, Print Culture, and Editing examines the social, cultural, economic, and political history of the written word. It considers relationships among authors, editors, publishers, printers, illustrators, and booksellers as well as the reception of texts by readers, reviewers, and critics. This minor allows students to study the production of texts through the centuries while also gaining hands-on editing experience through internal and external internships. Students take a wide variety of courses covering a range of historical periods that have a significant emphasis on the history of reading, writing, and authorship as well as courses that focus on aspects of contemporary publishing and editing.

To graduate with a Minor in Manuscript, Print Culture, and Editing, students must achieve a grade-point average of at least 2.0 in the 18-hour program described below, but no credit will be given for courses in which the grade is below C-. No course may fulfill more than one requirement.

Teacher Certification in English

Program Requirements

Certification as a middle school (grades 5-9) or secondary (grades 9-12) English teacher in either Kansas or Missouri requires that a student complete specific requirements in English and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Department Description

The Department of Foreign Languages and Literatures offers programs of study leading to the bachelor of arts degree in Languages and Literatures, with an emphasis in French Language and Literature, Spanish Language and Literature, or Classical Languages and Cultures; and graduate-level work leading to a master of arts in Romance Languages and Literatures (French and Spanish). In addition, undergraduate minors are offered in French, German, German Studies, Spanish, and Classics.

Language instruction also is offered in Arabic, Ancient Greek, Italian and Latin.

Career Implications

Aside from pursuing teaching careers, holders of degrees in foreign languages are in demand by government, the media and international business in growing numbers, as the need for increased sophistication and expertise in international affairs continues to expand. Multinational companies and organizations now view foreign language skills as an asset in a prospective employee. In the past 10 years this notion has become widespread in such areas as business, industry, commerce, civil service, education, law, communications media and health services. The changing conditions of international economics, politics and communications indicate that this trend will continue.

Higher Educational Applications

Reading knowledge of a foreign language is a requisite for many graduate degrees. Foreign language proficiency, moreover, is gaining increasing importance on all levels of university instruction as curricula are internationalized. Scholars and professionals in many fields have long recognized the need for, and advantages of, foreign language competency for improved international communication and effective conduct of basic and applied research.

Special Resources

Credit by Exam

Beginning-level courses (110, 120) are not applicable toward requirements for the major. College credit for them may be earned by examination.

CLEP credit is available for French, German or Spanish (110 and 120). Contact Testing Services to arrange for the exam. A passing score is necessary to receive credit. (No more than 30 of a student's total hours may be earned by examination, and students with senior standing cannot earn credit via CLEP.)

Departmental testing or "Credit by Examination," is also available for 211-level and 221-level credit. Students should first speak to the appropriate language advisor. The form is available online here (http://www.umkc.edu/registrar/forms/credit_by_exam.pdf). A minimum grade of C is necessary to receive credit.

Study Abroad

UMKC has exchange and study agreements with other institutions in many parts of the world. Students have an opportunity to spend a year or a semester of study at a number of universities around the globe, including at the University of Seville in Spain, the University of Lyon II in France, the University of Klagenfurt in Austria and the University of Veracruz in Xalapa, Mexico. Summer programs are held at the University of Buenos Aires, Argentina; the University of Granada, Spain; and the University of Lyon II, France.

The department encourages students to travel and study abroad on our programs or those offered by any accredited American university. It should be noted, however, that the department must approve in advance any courses taken abroad for major or graduate credit. Interested students should contact the appropriate departmental advisor.

Language Resource Center

A modern facility housing audio, video and computer equipment and both general use and specialized software is located in 109 Scofield Hall. The purpose of the lab is to supplement and support in-class foreign language learning. Tutoring services for students of French, German and Spanish are

provided free of charge. Conversation hours are also held in the Language Resource Center. All language students are encouraged to take advantage of the resources of the LRC.

Requirements for Teacher Certification in Foreign Languages

Certification as a Foreign Language teacher (K-12) in either Kansas or Missouri requires that a student complete specific requirements in Spanish, French or German and the School of Education. A separate application for teacher education is required. For further information about the program, contact Dr. Reckley Vallejos, reckleya@umkc.edu, and the School of Education at (816) 235-2234.

- Bachelor of Arts: Languages and Literatures (Emphasis area in International Studies)
- Minors in French, German, Spanish, or Classics (p. 832)
- Minor in German Studies (p. 833)

Graduate**Graduate Degrees:**

- Master of Arts in Romance Languages (p. 830)

Arabic Courses

ARABIC 110 Elementary Arabic I Credits: 5

Fundamentals of the language, essentials of conversation, grammar, practical vocabulary, useful phrases, and the ability to understand, read and write simple classical Arabic.

ARABIC 110 - MOTR LANG 105: Foreign Language I

ARABIC 120 Elementary Arabic II Credits: 5

Continuation of ARABIC 110.

ARABIC 120 - MOTR LANG 106: Foreign Language II

ARABIC 211 Second Year Arabic I Credits: 3

Further development of comprehension and communicative skills in the language. Readings of moderate difficulty and grammar review. Practice in writing. The goal is attainment of intermediate proficiency in the language.

ARABIC 221 Second Year Arabic II Credits: 3

Continuation of ARABIC 211.

ARABIC 280 Special Intermediate Arabic Topics I Credits: 1-3

Instruction of Arabic on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses. May not be repeated for credit.

ARABIC 290 Special Intermediate Arabic Topics II Credits: 1-3

Continuation of ARABIC 280. May not be repeated for credit.

French Courses

FRENCH 110 Elementary French I Credits: 3

The goals of this course are an ability to speak and to understand simple (spoken) French as well as to read and write simple prose.

FRENCH 110 - MOTR LANG 101: French I

**FRENCH 120 Elementary French II Credits: 3**

Continuation of FRENCH 110.

FRENCH 120 - MOTR LANG 102: French II

**FRENCH 211 Second Year French I Credits: 3**

Further development of comprehension and communicative skills in the language. Readings of moderate difficulty and grammar review. Practice in writing. The goal is attainment of intermediate proficiency in the language.

FRENCH 221 Second Year French II Credits: 3

Continuation of FRENCH 211.

Prerequisites: FRENCH 211.

FRENCH 280 Special Intermediate French Topics I Credits: 1-4

Instruction of French on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses.

FRENCH 290 Special Intermediate French Topics II Credits: 1-4

Continuation of FRENCH 280.

FRENCH 301 Introduction to French Literary Studies Credits: 3

An introduction to the study of French literature and techniques of textual criticism. Readings include representative works from various periods. Strongly recommended for all majors, to be taken before or concurrently with other upper-level courses. Taught in French.

Prerequisites: FRENCH 221.

FRENCH 304 French Literature and Culture II Credits: 3

An introduction to the history of French literature from 1800 to the present stressing historical and cultural context, the major literary movements and the developments of the various genres and historical periods. Selected readings of the works of major authors of the period. Taught in French.

Prerequisites: FRENCH 221.

FRENCH 315 Intermediate Composition and Conversation I Credits: 3

Grammar review, practice in speaking and writing French, emphasis on writing. Required for major.

Prerequisites: FRENCH 221.

FRENCH 325 Intermediate Conversation and Composition II Credits: 3

Grammar review, practice in speaking and writing French; emphasis on speaking. Required for major.

Prerequisites: FRENCH 221.

FRENCH 340WI French Texts in Translation Credits: 3

Seminar on French texts in translation. Class will be conducted in English and no knowledge of French is necessary. May be taken for major credit.

FRENCH 351 Introduction to French Phonetics Credits: 3

Introduction to the fundamentals of pronunciation and intonation patterns in modern French.

Prerequisite: FRENCH 221.

FRENCH 352 French Civilization II: Contemporary French Civilization Credits: 3

An in-depth survey of contemporary French culture, including major historical events and movements that have shaped modern France, as well as geography, the political system, family life and education, economics, etc.

Prerequisites: FRENCH 221.

FRENCH 354 French Civilization III: Lyon, Crossroads of France and Europe Credits: 3

An introduction to French culture and civilization through the history, geography, culture and arts of Lyon and its region. Offered during the Study Abroad Program in Lyon.

Prerequisites: FRENCH 221.

FRENCH 380 Special Topics Credits: 1-3

Treatment of a particular aspect of literature, language, or culture normally not offered through regular courses. May be repeated for credit when the topic changes.

Prerequisites: FRENCH 221.

FRENCH 414 Medieval Literature & Culture Credits: 3

Selected topics in medieval French literature and culture. Emphasis will be placed on the cultural and historical contexts surrounding text production in the Middle Ages. May be repeated for credit when the topic changes.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 415 Advanced Conversation and Composition I Credits: 3

Practice in speaking and writing French, with attention to advanced grammar topics and the elements of style.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 417 Renaissance French Literature and Culture Credits: 3

Selected topics in Renaissance (16th c.) French literature and culture. May be repeated for credit when the topic changes.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 424 19th-Century French Literature Credits: 3

Selected readings in various genres from Romanticism through Symbolism.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 426 20th- and 21st-Century French Literature and Culture Credits: 3

Selected readings from the Belle Epoque to the contemporary period. Special attention given to historical, cultural, and theoretical perspectives on the texts. May be repeated for credit when the topic changes.

Prerequisites: FRENCH 315 or FRENCH 325.

This course is an introduction to a large spectrum of Francophone literatures cultures around the world with a focus on North and West Africa, Belgium, Quebec, French Antilles and Haiti.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 480 Special Topics Credits: 1-3

Each time this course is offered a particular author, genre or area of literature will be treated. Topics will be announced in advance. May be repeated for credit when the topic changes.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 490 Special Readings Credits: 1-3

Intensive readings in field or literary figure to be selected by the student in consultation with the instructor. Available to advanced students of French; available only when student cannot take regularly scheduled courses.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 499 Senior Seminar (Capstone) Credits: 3

Required for major. Covers seminal works of French literature in their historical and cultural context. Course content varies, but will include such elements as geography, politics, folklore, history of the language, architecture, art and music.

Prerequisites: FRENCH 315 or FRENCH 325.

FRENCH 5500CF Courts and Culture in the Middle Ages Credits: 3

This cluster course offers an interdisciplinary approach to the study of the Middle Ages, focusing on medieval cultures in Europe. Arranged around a series of themes, the cluster will read a variety of documentary and literary texts to investigate not only the "high culture" of the courts but also the interaction of people from various social backgrounds in Western Europe.

Prerequisites: admission to the graduate program in Romance Languages.

FRENCH 5512 17th-century French Literature Credits: 3

Selected readings in the literature of the 17th century, with an emphasis on non-dramatic works.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5513 18th-century French Literature Credits: 3

Emphasis on philosophical and social significance. Authors may include Marivaux, Beaumarchais, LeSage, L'Abbe Prevost, Montesquieu, Rousseau, Diderot.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5514 Medieval Literature Credits: 3

Selected readings in various genres including epic, romance, theater and lyric. Emphasis will be placed on the intertextual relations and the cultural and historical context surrounding text production in the Middle Ages.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5517 16th-century French Literature Credits: 3

Selected readings in prose and poetry from Marot through Astree. Authors may include Rabelais, Ronsard, du Bellay, Montaigne, Marguerite de Navarre.

FRENCH 5520 Non-Dramatic 17th-century French Literature Credits: 3

Evaluation and reading of the works of Malherbe and contemporaries, of Descartes and Pascal and contemporaries, and of the great authors at the height of the classical period.

FRENCH 5524 19th-century French Literature Credits: 3

Selected readings in various genres from Romanticism through symbolism.

FRENCH 5540 Medieval Romance Credits: 3

The various movements of French medieval romance from the 12th through 15th centuries with an emphasis on the 12th and 13th centuries. Analysis of literary technique and socio-historical context will be stressed. No knowledge of Old French is assumed.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5543 Early French Theater Credits: 3

An examination of the development of French theater from Late Antiquity through the Renaissance, including religious and secular drama. The focus is on literary analysis of the dramatic texts, with some consideration of theater history and dramaturgy.

Prerequisites: Admission to the MA in Romance Languages Literature program.

FRENCH 5544 Renaissance Poetry Credits: 3

French Poetry from the Grand Rhetoriqueurs through the Pleiade. Study of poetic forms, major poets and schools, and different approaches to analyzing poetry.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5545 Epistolarity and the Novel Credits: 3

Explorations of the genre through the analysis of 17th- and 18th-century French novels. Introduced by a theoretical review.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5546 17th-century French Drama Credits: 3

The classical period: Emphasis on Corneille, Racine and Moliere.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5547 19th-century French Poetry Credits: 3

The study of the poetry and dominant poetic movements of the 19th century, with special attention given to different approaches to its analysis.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5548 20th century French Theater Credits: 3

Analysis of major currents of French theater of the 20th Century, with emphasis upon the postwar period and its movements.

FRENCH 5552 Medieval Poetry Credits: 3

A study of medieval poetry including religious and secular poetry, Provençal and Old French lyric, the influence of poetry in other genres such as romance and theater, later medieval poetry of the 14th and 15th centuries, as well as a discussion of the origins of the lyric.

Prerequisites: Admission to M.A. in Romance Languages and Literature program.

FRENCH 5553 Lyon, Crossroads of France and Europe Credits: 3
Lyon, Crossroads of France and Europe

FRENCH 5554 The Intellectual Origins of the French Revolution Credits: 3
Study of philosophical and political texts by Montesquieu, Rousseau, Voltaire, Diderot, etc. on government, society, language, freedom and equality. Critical study of the Enlightenment.
Prerequisites: Admission to M.A. in Romance Languages and Literature program.

Intern experience under faculty supervision involving the use of the appropriate foreign language at a local school. Students will keep a journal in the foreign language.

FRN-LNG 480 Special Topics Credits: 1-3

Each time this course is offered a particular genre or area of literature will be treated. Topics will be announced in advance. May be repeated for credit when the topic changes.

FRN-LNG 494 Methods of Teaching Foreign Languages Credits: 3

Teaching methods and materials for beginning and advanced classes in French, German, and Spanish. Modern language teaching methodology and material will be evaluated and demonstrated, together with effective use of the Language Resource Center, tapes, slides, film strips, and other audio-visual materials. Does not count toward a major in foreign language.

FRN-LNG 5899 Required Graduate Enrollment Credit: 1

German Courses

GERMAN 110 Elementary German I Credits: 3

The goals of this course are an ability to speak and to understand simple (spoken) German as well as to read and write simple prose.

GERMAN 110 - MOTR LANG 105: Foreign Language I

**GERMAN 120 Elementary German II Credits: 3**

Continuation of GERMAN 110.

GERMAN 120 - MOTR LANG 106: Foreign Language II

**GERMAN 211 Second-Year German I Credits: 3**

Further development of comprehension and communicative skills in the language. Readings of moderate difficulty and grammar review. Practice in writing. The goal is attainment of intermediate proficiency in the language.

GERMAN 221 Second-Year German II Credits: 3

Continuation of GERMAN 211.

Prerequisites: GERMAN 211.

GERMAN 280 Special Intermediate German Topics I Credits: 1-4

Instruction of German on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses.

GERMAN 290 Special Intermediate German Topics II Credits: 1-4
Continuation of GERMAN 280.

GERMAN 301 Introduction to Literary Studies Credits: 3

An introduction to the study of the different genres of German literature and techniques of criticism. Readings include representative works of major authors from various periods. Strongly recommended for all majors. To be taken before or concurrently with other literature courses. Taught in German.

Prerequisites: GERMAN 221.

GERMAN 315 Intermediate Conversation and Composition I Credits: 3

Practice in speaking and writing German; emphasis on idiomatic usage. Required for major.

Prerequisites: GERMAN 221.

GERMAN 325 Intermediate Conversation and Composition II Credits: 3

Continuation of GERMAN 315. Required for major.

Prerequisites: GERMAN 221.

GERMAN 330 Graphic Narratives Credits: 3

In this class, we will read graphic narratives with a dual focus: we will investigate the literary character of these narratives and explore the ways in which text and illustration help us learn German.

GERMAN 380 Special Topics Credits: 1-3

Treatment of a particular genre or area of literature or language normally not offered through regular courses. May be repeated for credit when the topic changes.

Prerequisites: GERMAN 221.

GERMAN 415 Advanced Conversation and Composition I Credits: 3

Practice in speaking and writing German, with attention to the elements of style. First semester required of all majors and second semester recommended. Both semesters required of prospective high school teachers. Either or both semesters may be repeated. No more than six hours of credit may be applied toward a degree.

Prerequisites: GERMAN 221.

The course focuses on the role of women in German and Austrian society from the Roman era to the present, primarily through the examination of literary texts by women.

Prerequisites: GERMAN 221.

GERMAN 480 Special Topics Credits: 1-3

Each time this course is offered a particular author, genre or area of literature will be treated. Topics will be announced in advance. May be repeated for credit when the topic changes.

Prerequisites: GERMAN 221.

GERMAN 490 Special Readings Credits: 1-3

Intensive readings in a field or literary figure to be selected by the student in consultation with the instructor. Available only to advanced students of German when students cannot take regularly scheduled courses.

Prerequisites: GERMAN 221.

GERMAN 499 Senior Seminar (Capstone) Credits: 3

Required for major. Covers seminal works of German literature in their historical and cultural context. Course content varies, but will include such elements as geography, politics, folklore, history of the language, architecture, art and music.

Prerequisites: GERMAN 221.

Greek Courses

GREEK 110 Elementary Ancient Greek I Credits: 3

The goal of this course is an ability to read classical Greek. The student will be introduced to the fundamentals of grammar and the basic vocabulary of the language and will do exercises in the reading and writing of sentences. Continuous passages of Greek will be presented by the end of the semester.

GREEK 110 - MOTR LANG 105: Foreign Language I

GREEK 120 Elementary Ancient Greek II Credits: 3

A continuation of the study of the grammar and vocabulary of classical Greek, with an increasing emphasis on developing skills in translation. By the middle of the semester students will be introduced to selections from Plato, Herodotus or Homer.

Prerequisites: Greek 110 or MOTR Equivalent.

GREEK 120 - MOTR LANG 106: Foreign Language II

GREEK 211 Intermediate Ancient Greek I Credits: 3

Instruction of Greek on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses. May not be repeated for credit.

Prerequisites: Greek 120 or MOTR Equivalent.

GREEK 221 Intermediate Ancient Greek II Credits: 3

Continuation of GREEK 211. May not be repeated for credit.

Prerequisites: Greek 211 or MOTR Equivalent.

GREEK 301 Herodotus Credits: 3

Selected readings in Ancient Greek from Herodotus' Histories.

Prerequisites: GREEK 211.

GREEK 302 Homer Credits: 3

Selected readings in Ancient Greek from Homer's Iliad or Odyssey.

Prerequisites: GREEK 211.

GREEK 310 Selected Readings in Ancient Greek and Rhetoric Credits: 3

Selected readings in Ancient Greek from works by Plato, Aristotle, or the Attic Orators.

Prerequisites: GREEK 211.

GREEK 311 Drama and Lyric Poetry Credits: 3

Selected readings in Ancient Greek from plays by Aeschylus, Sophocles, Euripides, or the Lyric Poets.

Prerequisites: GREEK 211.

GREEK 312 Greek Narrative Prose Credits: 3

Selected readings in Ancient Greek from Herodotus, Thucydides, Xenophon, Lucian, etc.

Prerequisites: GREEK 211.

GREEK 490 Special Readings in Greek Credits: 1-3

Intensive readings in period or genre or literary figure to be selected by the student in consultation with the instructor. Available only to advanced Greek students.

Italian Courses

ITALIAN 110 Elementary Italian I Credits: 3

Intended to give the student the ability to read prose of ordinary difficulty and to understand and speak simple Italian.

ITALIAN 110 - MOTR LANG 105: Foreign Language I

ITALIAN 120 Elementary Italian II Credits: 3

Continuation of ITALIAN 110.

Prerequisites: ITALIAN 110.

ITALIAN 120 - MOTR LANG 106: Foreign Language II

ITALIAN 211 Second Year Italian I Credits: 3

Further development of comprehension and communicative skills in the language. Readings of moderate difficulty and grammar review. Practice in writing. The goal is attainment of intermediate proficiency in the language.

Prerequisites: ITALIAN 120.

ITALIAN 221 Second Year Italian II Credits: 3

Prerequisites: ITALIAN 211.

ITALIAN 280 Special Intermediate Italian Topics I Credits: 1-3

Instruction of Italian on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses. May not be repeated for credit.

Prerequisites: ITALIAN 110, ITALIAN 120.

ITALIAN 290 Special Intermediate Italian Topics II Credits: 1-3

May not be repeated for credit.

Prerequisites: ITALIAN 280.

Latin Courses

LATIN 110 Elementary Latin I Credits: 3

Elementary Latin I introduces students with no previous Latin experience to the fundamentals of Latin grammar. The course is continued with LATIN 120.

LATIN 110 - MOTR LANG 105: Foreign Language I

LATIN 120 Elementary Latin II Credits: 3

Elementary Latin II is a continuation of LATIN 110. This course focuses on the fundamentals of Latin grammar and morphology, and students will read longer Latin passages.

Prerequisites: LATIN 110 or MOTR Equivalent.

LATIN 120 - MOTR LANG 106: Foreign Language II

LATIN 211 Second Year Latin Readings I Credits: 3

This course introduces students to extended readings from Roman authors in Latin. Students' knowledge of basic Latin grammar, vocabulary, and morphology will be reviewed and reinforced.

Prerequisites: LATIN 120 or MOTR Equivalent.

LATIN 221 Second Year Latin Readings II Credits: 3

Prerequisites: LATIN 211 or MOTR Equivalent.

LATIN 280 Special Intermediate Latin Topics I Credits: 2-4

Instruction of Latin on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses. May not be repeated for credit.

Prerequisites: LATIN 120.

LATIN 290 Special Intermediate Latin Topics II Credits: 2-4

Continuation of LATIN 280. May not be repeated for credit.

LATIN 301 Virgil Credits: 3

Selected readings in Classical Latin from the works of Virgil.

Prerequisites: LATIN 211.

LATIN 302 Ovid Credits: 3

Selected readings in Classical Latin from Ovid's *Metamorphoses*.

Prerequisites: LATIN 211.

LATIN 314 Lyric and Elegiac Poetry Credits: 3

Selected readings in Classical Latin from Catullus, Horace, Martial, Ovid, etc.

Prerequisites: LATIN 211.

LATIN 490 Special Readings In Latin Credits: 1-3

Intensive readings in period or genre or literary figure to be selected by the student in consultation with the instructor. Available only to advanced Latin students.

Spanish Courses

SPANISH 110 Elementary Spanish I Credits: 3

The goals of this course are an ability to speak and to understand simple (spoken) Spanish as well as to read and write simple prose.

SPANISH 110 - MOTR LANG 103: Spanish I

SPANISH 120 Elementary Spanish II Credits: 3

Continuation of SPANISH 110.

SPANISH 120 - MOTR LANG 104: Spanish II

SPANISH 211 Second Year Spanish I Credits: 3

Further development of comprehension and communicative skills in the language. Readings of moderate difficulty and grammar review. Practice in writing. The goal is attainment of intermediate proficiency in the language.

SPANISH 216 Spanish For The Health Sciences Credits: 3

This course will enable the student to converse with Hispanic patients and/or hospital personnel in situations such as admissions, patient care, lab work as ordered by a physician or dentist, emergency room procedures, etc. In addition, medical readings in Spanish will give professional and paraprofessional students an increased vocabulary related to the many fields within the health sciences. This course will satisfy one semester of the AS language requirement.

SPANISH 221 Second Year Spanish II Credits: 3

Continuation of SPANISH 211.

SPANISH 280 Special Intermediate Spanish Topics I Credits: 1-4

Instruction of Spanish on the second-year/intermediate level introducing new methods of foreign language teaching or special texts and topics not normally offered through regular courses.

SPANISH 290 Special Intermediate Spanish Topics II Credits: 1-4

Continuation of SPANISH 280.

Prerequisite: SPANISH 221.

SPANISH 301 Introduction to Literary Studies Credits: 3

Emphasis will be placed on the study of literary theory and the philosophical ideas behind the literary movements, their relations and differences. A representative work or works of each genre will be thoroughly studied and analyzed. Critical reports will be written about different features of the literary works under consideration. Strongly recommended for all majors, to be taken before 400-level literature courses.

Prerequisites: SPANISH 221.

SPANISH 315 Intermediate Conversation And Composition I Credits: 3

Grammar review, practice in speaking and writing Spanish; emphasis on idiomatic usage and practical vocabulary. Required for major.

Prerequisites: SPANISH 221.

SPANISH 316 Spanish for Health Sciences II Credits: 3

The purpose of this class is to progressively develop the ability to communicate well with native speakers in a medical setting. Communicative and cultural goals are achieved through listening, speaking, reading and writing in the Spanish language.

Prerequisites: SPANISH 216 or SPANISH 221.

SPANISH 325 Intermediate Conversation And Composition II Credits: 3

Continuation of SPANISH 315. Required for major.

Prerequisites: SPANISH 221.

SPANISH 351 Latin American Civilization Credits: 3

Historical development of Latin America. Readings from representative literary works.

Prerequisites: SPANISH 221.

SPANISH 365 The Search for Mexican Identity Credits: 3

The goal of the course is to familiarize the student with the poignant search for self awareness and definition witnessed in the letters and fine arts of Mexico in the 20th-century. Readings will include works by Vasconcelos, Reyes, Ramos, Paz, Rulfo and Fuentes, and will be complemented by slide presentations of pertinent works by major artists.

Prerequisites: SPANISH 221.

A study of the development of Spanish peninsular literature and cultures from 1700 to present.

Prerequisites: SPANISH 221.

SPANISH 380 Special Topics Credits: 1-3

Treatment of a particular genre or area of literature or language normally not offered through regular courses. May be repeated for credit when the topic changes.

SPANISH 384 Spanish American Literature and Cultures II Credits: 3

The 19th and 20th-centuries. Selected readings from prose and poetry of Spanish-American writers.

Prerequisites: SPANISH 221.

SPANISH 403 History of the Spanish Language Credits: 3

An introduction to the history of the Spanish language from Latin to the present, with an overview of dialects in the Peninsula and in the Americas.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 414 Early 20th Century Peninsular Literature Credits: 3

Selected topics in early 20th century Spanish literature and culture. May be repeated for credit when the topic changes.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 415 Advanced Conversation And Composition I Credits: 3

Continued practice in speaking and writing Spanish, with attention to the elements of style. Continued in SPANISH 425. First semester required of all majors and second semester recommended. Both semesters required of prospective high school teachers. Either or both semesters may be repeated with the consent of the instructor and the Spanish section head. No more than six hours credit may be applied towards a degree.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 425 Advanced Conversation And Composition II Credits: 3

Continuation of SPANISH 415. See SPANISH 415. Required for teacher certification in Spanish.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 426 Golden Age Spanish Literature Credits: 3

Selected readings in Spanish Golden Age literature and culture. May be repeated for credit when the topic changes.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 427 Pre-Columbian And Spanish Colonial Literature Credits: 3

A study of the pre-Columbian works in drama, narrative, and poetry (Popol Vuh, Apu-Ollantay, Incan and Aztec poetry) leading into a survey of Spanish-American colonial literature.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 428 Contemporary Spanish Poetry Credits: 3

A comprehensive and intensive study of 20th-century Spanish poetry. Poets and poetry will be studied in the light of literary movements, foreign influences, political tendencies and philosophical ideas.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 436 Spain's Transition to Democracy: Literature and Film Credits: 3

This course reviews the cultural production between the death of Francisco Franco in 1975 and the entrance in the European Union in film, literature and music, within its historical and political context.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 453 Spanish-American Short Story Credits: 3

A study of Spanish-American short stories from Romanticism to the present.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 480 Special Topics Credits: 1-3

Each time this course is offered a particular genre or area of literature will be treated. Topics will be announced in advance. May be repeated for credit when the topic changes.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 490 Special Readings Credits: 1-3

Intensive readings in field or literary figure to be selected by the student in consultation with the instructor. Available, by permission only, to advanced students of Spanish; available only when student cannot take regularly scheduled courses.

Prerequisites: SPANISH 315 or SPANISH 325.

SPANISH 499 Senior Seminar (Capstone) Credits: 3

Required for major. Covers seminal works of Peninsular and Latin American literature in their historical and cultural context. Course content varies, but will include such elements as geography, politics, folklore, history of the language, architecture, art and music. To be taken during final Fall Semester of residence.

A study in depth of the poetry and drama of Federico Garcia Lorca.

SPANISH 5520 Cervantes' Don Quixote, Part I Credits: 3

An intensive reading of the first part of Cervantes' novel, Don Quixote.

SPANISH 5521 Cervantes' Don Quixote, Part II Credits: 3

An intensive reading of the second part of Cervantes' novel, Don Quixote. Part One is not a prerequisite.

SPANISH 5526 Golden Age Drama Credits: 3

A study in depth of the creation of national theater by Lope de Vega and his followers.

SPANISH 5527 Pre-Columbian and Spanish Colonial Literature Credits: 3

A study of pre-Columbian works in drama, narrative, and poetry (Popol Vuh, Apu-Ollantay, Incan and Aztec poetry) along with a survey of Spanish-American colonial literature.

SPANISH 5528 Contemporary Spanish Poetry Credits: 3

A comprehensive and intensive study of 20th-century Spanish poetry. The poets and their poetry will be studied in the light of literary movements, foreign influences, political tendencies and philosophical ideas.

SPANISH 5529 Novel of the Mexican Revolution Credits: 3

The revolution as the principal focus of 20th-century Mexican fiction. The course will examine both the evolving understanding of the event/process and the sophistication of narrative technique employed in its presentation. Among the writers to be studied are Azuela, Guzman, Lopez y Fuentes, Yanez, Revueltas, Rulfo and Fuentes.

SPANISH 5530 Spanish Mysticism Credits: 3

An examination of the development of mysticism in Oriental and Occidental civilizations, with emphasis on the great periods of mystic experience as reflected in the literary production of the Spanish Golden Age. Readings could include the works of Fray Luis de Granada, Fray Luis de Leon, Saint John of the Cross and Saint Teresa of Avila.

SPANISH 5531 The Golden Age Novel Credits: 3

A study of major prose works of the Golden Age. Possible topics include authorship, innovative narrative techniques, textual strategies and metafiction issues. Readings could include works by Alfonso Martinez de Toledo, Diego de San Pedro, Fernando de Rojas, Francisco Delicado, Cervantes, and Lope de Vega.

SPANISH 5532 Pastoral Literature Credits: 3

A study of the development of pastoral literature during the Spanish Golden Age. Possible texts: Juan del Encina's Eclogues, Montemayor's Los siete libros de la Diana and Cervantes' Galatea. These works will be examined within their historical and cultural context.

SPANISH 5533 Cervantes' Exemplary Novels Credits: 3

A study of Cervantes' Exemplary Novels within the context of 17th Century Spain. Attention will be paid to interpretive possibilities and how knowledge of historical contexts might influence readings of this rich and varied cultural output.

SPANISH 5534 The Picaresque Novel Credits: 3

A study of the development of picaresque fiction during the Spanish Golden Age. The course deals with novelists principally active during the Baroque period such as Mateo Aleman, Francisco Lopez de Ubeda, Miguel de Cervantes, and Francisco de Quevedo.

SPANISH 5535 Peninsular Poetry Credits: 3

This course is a survey of poetics and poetry in Spain from the Reconquest to the present, with emphasis on sociohistorical contexts and movements. It examines theoretical and methodological approaches to literary analysis and also provides practical experience in exploring poetic texts. Students will analyze a wide spectrum of poems, while discussing the cultural philosophical, linguistic, political and ethical considerations that surround the reception of a text.

SPANISH 5536 Spain's Transition to Democracy: Literature and Film Credits: 3

This course reviews the cultural production between the death of Francisco Franco in 1975 and the entrance in the European Union, in film, literature and music, within its historical and political context.

SPANISH 5550 Modern Classics of Latin American Literature Credits: 3

The goal of the course is to familiarize the student with the principal Latin American writers of the modern period. The focus will be dual: the progressive sophistication of literary technique, and the refinement of social conscience. Among the authors to be studied are: Asturias, Borges, Carpentier, Cortazar, Donoso, Fuentes, Garcia Marques, Paz, Rulfo, and Vargas Llosa. Pre requisite: SPANISH 315 or SPANISH 325.

SPANISH 5553 Spanish-American Short Story Credits: 3

A study of Spanish-American short stories from Romanticism to the present.

SPANISH 5580 Special Topics Credits: 1-3

Treatment of a particular genre or area of literature or language normally not offered through regular courses. May be repeated for credit when the topic changes.

SPANISH 5580D Special Topics Credits: 1-3**SPANISH 5590 Directed Studies in Spanish & Latin American Literature Credits: 1-3**

Intensive readings in a field or literary figure to be selected by the student in consultation with the instructor. Available by permission of graduate advisor or instructor, as appropriate, only when student cannot take regularly scheduled courses.

Bachelor of Arts: Languages and Literatures

General Information

Undergraduate Advisors

French: Gayle Levy

(816) 235-2820, levyg@umkc.edu (myersll@umkc.edu)

German: K. Scott Baker

(816) 235-2823, bakerks@umkc.edu

Spanish: Alberto Villamandos

Classics: Jeff Rydberg-Cox

(816) 235-2560, rydbergcoxj@umkc.edu

Initial Advising and Placement

A language placement exam is strongly recommended for all students with previous foreign language experience in French, German or Spanish. The placement exam or the recommendation of a foreign language advisor will best determine a student's level, contributing to his or her success. Contact the department office for more information. Placement test website: <https://cas.umkc.edu/foreignlanguages/student-resources/placement-exam/>

Consultation with an advisor is recommended for students who intend to major or minor in foreign languages.

Transfer Credit

Transfer students normally may expect to continue their foreign language study at the next comparable level. On consultation with their advisors or the course instructors, and after taking the placement exam, students may be advised to do either remedial or more advanced coursework. No more than nine hours of transfer credit for 200- to 400-level courses are normally allowed toward degree requirements. Usually a maximum of six transfer credits can be applied to the minor.

Credit for study at a foreign institution will be granted, provided the courses proposed for study abroad have been approved in advance by a departmental advisor and endorsed by the department chair. When advance endorsement for credit is not obtained from the department, the credit is subject to approval by the department chair.

In cases where students have been engaged in an extended period (e.g., a year) of formal study at an approved academic institution abroad, transfer credit of more than nine hours may be granted, if approved by the department chair.

Credit by Examination

Beginning-level courses (110, 120) are not applicable toward requirements for the major. College credit for them may be earned by examination.

CLEP credit is available for French, German or Spanish (110 and 120). Contact Testing Services to arrange for the exam. A passing score is necessary to receive credit. (No more than 30 of a student's total hours may be earned by examination, and students with senior standing cannot earn credit via CLEP)

Departmental testing or "Credit by Examination," is also available for 211-level credit. Students should first speak to the appropriate language advisor. The form is available online here (http://www.umkc.edu/registrar/forms/credit_by_exam.pdf). A minimum grade of C is necessary to receive credit.

Attendance and Course Level

Class attendance

The nature of language acquisition is such that regular attendance, throughout the semester, is expected of all students enrolled for credit.

Course Levels

Course levels are generally indicated by the first digit of the course number. For example, 100-level courses are first-year courses, 200-level classes represent second-year courses, etc. Accordingly, students entering a 200-level French course must have completed FRENCH 110 and FRENCH 120, their equivalent, or show proof of second-year skill-level (such as Placement Test score). Successful completion of a second-year course (normally 211 and 221, their equivalent, or proof of appropriate skill-level) is required of all students who want to enroll in 300- or 400-level courses. Exceptions must have the approval of the student's foreign language advisor.

The Department of Foreign Languages and Literatures offers a program of study leading to the bachelor of arts in Languages and Literatures with emphases in French, Spanish or Classics.

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines.

Emphasis Areas

Classical Languages and Cultures (p. 811)

French Language and Literature (p. 816)

Spanish Language and Literature (p. 826)

Bachelor of Arts: Languages and Literatures - Classical Languages and Cultures Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement

at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Attain advanced reading, writing, listening and speaking proficiency in the language studied.
- Obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
- Understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
- Understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
- Develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course

Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above)		3
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		13

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Total: 36 credits at or above the 200-level

The Language and Literatures major consists of two parts: an Emphasis and a Breadth Requirement.

Language and Literatures majors must complete 30 credit hours at or above the 200-level in one emphases.

Code	Title	Credits
Coursework at 100-level or higher:		9
ART-HIST 201	From Cave Paintings to Cathedrals	
ENGLISH 120	Literary Monstrosities	
Any GREEK, LATIN, or CLASSICS course at 100-level or higher		
Coursework at 300-level or higher:		9
ANCH 302	Archaeology of Ancient Disasters	
ANCH 307	Frauds, Myths and Mysteries in Archaeology	
COMM-ST 323	Concepts of the Hero in Ancient Literature and World Cinema	
ENGLISH 318	Bible As Literature	
PHILOS 310WI	Ancient Philosophy	
Any GREEK, LATIN, or CLASSICS course at 300-level or higher		
Coursework at 400-level or higher:		9
ENGLISH 445	History And Principles Of Rhetoric	
HISTORY 469	Archeology and Biblical History	
HISTORY 470	Ancient Egypt	
HISTORY 471	Ancient Greece	
HISTORY 472	Ancient Rome	
HISTORY 474	Late Antiquity: The Transformation of the Mediterranean World (200–600 AD)	
PHILOS 430	Plato	
PHILOS 431	Aristotle	
Breadth Requirement (see below):		6
CLASSICS 499	Senior Tutorial	3
Total Credits		36

Breadth Requirement

The Breadth Requirement may be met by completing one of the following:

- 1. A second Language and Literatures emphasis;
- 2. A minor in another foreign language offered by the Department;
- 3. Six (6) credit hours of coursework at the 200-level or higher among foreign language courses outside the Emphasis (including courses taught in English). These classes must focus on language, literary or cultural studies. Appropriate courses offered by other departments (e.g. History of Latin America) can fulfill the breadth requirement with the prior approval of the undergraduate advisor.

Other Requirements and Regulations

- 1. A capstone course is required for the completion of the B.A. in Languages and Literatures.
- 2. Higher-level courses may be substituted for lower-level coursework, e.g. a 300-level course can be taken instead of a 200-level course. A minimum of two 400-level courses is required for each Emphasis in addition to the Capstone, 499.
- 3. A 2.0 grade-point-average in Languages and Literatures courses is required for graduation.
- 4. Study abroad is strongly recommended for all departmental majors and minors, but not required for degree completion.
- 5. Native speakers studying their own languages will complete a minimum of 21 credit hours in courses numbered 300 and above, but normally not including 315 or 325, and they will complete the Breadth Requirement. A native speaker is defined as a person who speaks the target language fluently and who has completed formal schooling through the secondary school level, or equivalent, in the target language.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.

- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: Languages and Literatures - International Studies Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Be able to apply interdisciplinary perspectives to analyze ideas using diverse frames of reference and cultural complexity
- Students will attain at least Intermediate-mid reading, writing, listening and speaking proficiency in a foreign language (according to the ACTFL proficiency levels)
- Students will draw on their knowledge of their selected region to identify and describe at least two dimensions – historical, political, social, cultural, economic – of specific international issues.
- Students will present and discuss their research in compelling, coherent, clear analytical arguments

International Studies

The International Studies program fosters cultural and political literacy while also developing foreign language proficiency. Students will advance their language skills in French, German or Spanish, and gain knowledge of political structures and international relations in general and in a global region of their choice. The program straddles both Foreign Languages and Political Science departments while also offering students a broad array of interdisciplinary courses across several other departments. Intercultural competencies form the core of the program, and students are required to take part in a study abroad program or do an internship in a local organization or business that has international connections. If you are interested in the world beyond the United States, this program is for you!

International Studies Undergraduate Advisor

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
	Writing Intensive Course (300-level or above)	3
	Foreign Language (3rd Semester Level)	9
	Laboratory Science Experience	1
Total Credits		13

Major Requirements

The B.A. in Languages and Literatures with an emphasis in International Studies (INTS) requires 36 credits at or above the 200-level, with at least 9 hours numbered 400-level or higher. At least 12 hours in the major must be earned at UMKC.

Students may double count up to 12 credit hours from their major toward a minor in French, German, or Spanish. Students choosing to double-major in INTS and another emphasis area in Languages & Literatures may double count up to 18 credit hours. Students should consult the applicable catalog section to review applicability to minors in political science, economics, history, anthropology, or philosophy.

Select additional coursework in one of the two awareness areas above not already completed (Politics or Culture) 6

International Experience (see details below)

Total Credits 36

Selected Geographic Region in Politics and Culture Courses

The 18 credit hours of Politics and Culture courses should include 9 credit hours that focus on the same world area (Africa, Asia, Europe, Latin America). A list of courses in each area are available from your major advisor.

AF	Africa Region
AS	Asia Region
EU	European Union Region
LA	Latin America Region
W	World Region (applicable to any region, with approval of International Studies Advisor)

International Experience

The International Experience must be an immersion experience in the foreign culture and language, taken outside the student’s country of origin and approved by the student’s major advisor. The requirement can be fulfilled in one of the following ways:

- A for-credit internship at a company, government agency, or non-profit organization involving significant use of the foreign language (3 credits or more)
- A UMKC faculty-led study abroad program of at least 6 weeks.
- A study abroad experience of a semester or longer.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Arts: Languages and Literatures - Spanish Language and Literature Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Attain advanced reading, writing, listening and speaking proficiency in the language studied.
- Obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
- Understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
- Understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
- Develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Total: 36 credits at or above the 200-level

The Language and Literatures major consists of two parts: an Emphasis and a Breadth Requirement.

Language and Literatures majors must complete 30 credit hours at or above the 200-level in one emphases.

Code	Title	Credits
Two Spanish 200-level courses or higher		6
SPANISH 315 or SPANISH 316	Intermediate Conversation And Composition I Spanish for Health Sciences II	3
SPANISH 325	Intermediate Conversation And Composition II	3
SPANISH 415	Advanced Conversation And Composition I	3

Two 300-level Spanish courses or higher		6
SPANISH 351	Latin American Civilization	
SPANISH 365	The Search for Mexican Identity	
SPANISH 374	Spanish Literature and Culture II	
SPANISH 380	Special Topics	
Two 400-level Spanish courses		6
SPANISH 403	History of the Spanish Language	
SPANISH 414	Early 20th Century Peninsular Literature	
SPANISH 425	Advanced Conversation And Composition II	
SPANISH 427	Pre-Columbian And Spanish Colonial Literature	
SPANISH 428	Contemporary Spanish Poetry	
SPANISH 436	Spain's Transition to Democracy: Literature and Film	
SPANISH 453	Spanish-American Short Story	
SPANISH 480	Special Topics	
Breadth Requirement (see below)		6
SPANISH 499	Senior Seminar (Capstone)	3
Total Credits		36

Breadth Requirement

The Breadth Requirement may be met by completing one of the following:

- 1. A second Language and Literatures emphasis;
- 2. A minor in another foreign language offered by the Department;
- 3. Six (6) credit hours of coursework at the 200-level or higher among foreign language courses outside the Emphasis (including courses taught in English). These classes must focus on language, literary or cultural studies. Appropriate courses offered by other departments (e.g. History of Latin America) can fulfill the breadth requirement with the prior approval of the undergraduate advisor.

Other Requirements and Regulations

- 1. A capstone course is required for the completion of the B.A. in Languages and Literatures.
- 2. Higher-level courses may be substituted for lower-level coursework, e.g. a 300-level course can be taken instead of a 200-level course. A minimum of two 400-level courses is required for each Emphasis in addition to the Capstone, 499.
- 3. A 2.0 grade-point-average in Languages and Literatures courses is required for graduation.
- 4. Study abroad is strongly recommended for all departmental majors and minors, but not required for degree completion.
- 5. Native speakers studying their own languages will complete a minimum of 21 credit hours in courses numbered 300 and above, but normally not including 315 or 325, and they will complete the Breadth Requirement. A native speaker is defined as a person who speaks the target language fluently and who has completed formal schooling through the secondary school level, or equivalent, in the target language.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits

Master of Arts: Romance Language and Literature

Student Learning Outcomes

Students graduating from this program will:

- Students demonstrate Written Proficiency in the chosen language. More specifically, the writing proficiency objective is for students to attain at least an Advanced level of writing as outlined by the American Council on the Teaching of Foreign Languages (2012). These writers meet "work and/or academic writing needs" on a variety of topics generally with "precision and detail."
- Students demonstrate Oral Proficiency in their chosen language by attaining an Advanced level of speaking as outlined by the American Council on the Teaching of Foreign Languages (2012). These speakers are able to "engage in conversation in a clearly participatory manner in order to communicate information on autobiographical topics, as well as topics of community, national, or international interest. The topics are handled concretely by means of narration and description in the major time frames of past, present and future. These speakers can also deal with a social situation with an unexpected complication. The language of Advanced-level speakers is abundant, the oral paragraph being the measure of Advanced-level length and discourse. "
- Students demonstrate advanced competency in cultural and textual analysis, including appropriately sophisticated research and documentation skills. Students can effectively describe, analyze and critically evaluate multiple topics in support of an original thesis. Students can search, find and accurately identify appropriate sources for a chosen topic. They can effectively analyze, evaluate and summarize other people's thinking about a particular topic. They consistently and accurately cite relevant research. The demonstration of this competency is most often in the target language.
- Students demonstrate thematic knowledge of the culture(s) of their chosen language, including but not necessarily limited to the literature in that language. Students demonstrate a significant grasp of the history of Spanish or French-speaking countries and/or peoples and they can discuss in some depth their culture(s) and cultural production, including literary texts.

The master of arts degree program provides necessary training in French or Spanish language and literature for those who want to teach those languages at the secondary school or junior college level. It also serves students who plan to continue with studies at the doctoral level. Other employment opportunities can be found in government, business and industry, publishing houses, foundations, etc.

Admission Requirements

A bachelor's degree from an accredited institution with a 3.0 (B) grade-point average in the subject area and a 2.75 overall GPA is required for admission.

The Graduate Record Examination (Advanced Achievement) is recommended, and two letters of recommendation are required. Students' transcripts with accompanying data are carefully evaluated.

Applicants with inadequate preparation may be required to make up deficiencies by taking more than the standard 30 hours of coursework.

Courses taken prior to admission into a graduate program will not count for graduate credit.

Requirements for Retention

If students' graduate grade-point averages fall below 3.0 (B), they may take coursework only on the 300 and 400 levels until a 3.0 graduate grade-point average has been achieved. Coursework completed under this condition will not count toward the master's degree.

Advising

Students interested in pursuing a master's degree in Romance languages should meet with the appropriate principal graduate advisor before beginning studies:

French: Nacer Khelouz

(816) 235-5996, khelouznacer@umkc.edu (levyg@umkc.edu)

Spanish: Louis Imperiale

(816) 235-2822, imperialel@umkc.edu

In consultation with the advisor, a course of study will be planned listing the courses that will satisfy requirements for the degree. Prior to registration at least once each year, candidates must meet with their advisors for approval of their course programs. They also must seek their advisor's endorsement whenever a change in the agreed course of study is necessary.

M.A. Degree Requirements

1. Students must earn 30 graduate credit hours to complete the M.A. in Romance Languages. Of these credits, at least 21 hours must be at the graduate level (courses numbered 5500 and above). When appropriate and/or necessary, students may count up to 9 hours of 400-level courses taken while enrolled as a graduate student towards the M.A. A minimum GPA of 3.0 is required in all graduate work. Students must take courses in a variety of areas, genres and periods in order to achieve both breadth and depth of knowledge. See below for specific course and distribution requirements for each emphasis area (Spanish & French). Students must obtain approval of their study programs by the graduate advisor for their area at least once a year.
2. Students must demonstrate ability to read, speak and write, idiomatically and with accuracy, the language in which the M.A. degree is being pursued.
3. Final Examination: Students must take a final examination consisting of both written and oral sections. See details below for each emphasis area.
4. Second Language Proficiency: In addition to the mastery of the target language, students must demonstrate a reading knowledge of a second language in one of the following ways:
 - Taking a reading examination in French, Spanish, Italian, German or Latin administered or approved by the department or given by the Educational Testing Service.
 - Achieving a grade of 3.0 (B) or better in a 211 (3 credit hour), or equivalent, language course.
 - Achieving a grade of 2.0 (C) or better in each of two 300-level courses or in one 400-level literature or civilization course taught in the second language.

M.A. in Romance Languages: French Interest Area

Student Learning Outcomes

Students graduating with an M.A. in romance languages will:

- Obtain specialized knowledge of either Hispanic or French and Francophone cultures, especially of their literatures as foundational paradigms for inquiry into language and cultural phenomena.
 - Develop skill in reflective inquiry.
 - Analyze cultural products, process and perspectives with a variety of interpretive strategies.
 - Attain superior reading, writing, listening and speaking proficiency in the primary language studied, and intermediate reading proficiency in the secondary language studied.
1. Distribution of courses
 - a. Students will choose courses covering five out of the seven following periods or fields:
 - i. Medieval/Early Modern
 - ii. Renaissance
 - iii. 17th and 18th Centuries
 - iv. 19th Century
 - v. 20th and 21st Centuries
 - vi. Linguistics or Pedagogy
 - vii. Francophonie
 - b. In addition, as part of their 30 credit hours of study, students will take one course in advanced French stylistics.
 2. Exams. The final exam will be comprised of a written and an oral portion.
 - a. Written exam
 - i. In consultation with the French faculty, students will draw up a list of eight subjects covering most periods/fields and one *explication de texte* of a poem.

- ii. The written exam will consist of 2-3 questions, written by the faculty and based on the subjects from the student's list. The student will have two hours in which to write the essays. No notes are allowed, but the student may consult the texts during the exam.
- b. Oral exam
On a subsequent day, the student will take the one-hour oral exam, which will consist of the *explication de texte* and follow-up questions to the written exam. The student may bring brief notes, on index cards, to help in the *explication de texte*.

M.A. in Romance Languages: Spanish Interest Area

Student Learning Outcomes

Students graduating with an M.A. in romance languages will:

- Obtain specialized knowledge of either Hispanic or French and Francophone cultures, especially of their literatures as foundational paradigms for inquiry into language and cultural phenomena.
 - Develop skill in reflective inquiry.
 - Analyze cultural products, process and perspectives with a variety of interpretive strategies.
 - Attain superior reading, writing, listening and speaking proficiency in the primary language studied, and intermediate reading proficiency in the secondary language studied.
1. Distribution of courses
 - a. Students will choose courses covering six out of the eight following periods or fields:
 - i. Medieval/Early Modern
 - ii. Golden Age
 - iii. 18th and 19th Centuries
 - iv. 20th and 21st Centuries
 - v. Spanish or Romance Linguistics
 - vi. Foreign Language Pedagogy
 - vii. Pre-Columbian / Indigenous/ Colonial Literature
 - viii. U.S.-Latino Studies
 - b. In addition, a student's coursework must include at least one course in each general category of Peninsular or Latin American.
 2. Exams. The final exam will be comprised of a written and an oral portion.
 - a. Written Exam
Questions will be based on a reading list prepared in advance by the students and their graduate advisor, based on the periods and fields covered in all their graduate courses; it will consist of 15 (out of 30 possible) identifications, two short and two long essays. The student will have four hours in which to write the essays. No notes, texts or dictionaries will be allowed.
 - b. Oral Exam
On a subsequent day, the student will take the one-hour oral exam, which will consist of a textual analysis. Prior to the exam, the student will be given a text and will have 30 minutes to prepare the analysis.

Minor: French, German, Spanish

Student Learning Outcomes

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines:

- To attain advanced reading, writing, listening and speaking proficiency in the language studied.
- To obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
- To understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
- To understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
- To develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

The growing need for experts in the international aspects of academic and professional fields has led to a renewed interest in the foreign language minor as a complement to a student's training in a major field. In increasing numbers, students completing baccalaureate degrees in the Henry W. Bloch School of Business and Public Administration, in the Conservatory and in other departments of The College of Arts and Sciences have selected a course of study that includes a minor in a foreign language. Majors in all fields are urged to discuss this possibility with their advisors.

Requirements for Program Minor

An academic minor in a target language requires a minimum of 18 hours consisting of six hours of 200-level courses or above plus 12 hours of courses at the 300- and 400-levels.

Code	Title	Credits
Two 200-level courses or higher:		6
Four 300-level courses or higher:		12
Total Credits		18

Minor: German Studies

Student Learning Outcomes

Students graduating from this program will:

- To attain advanced reading, writing, listening and speaking proficiency in the language studied.
- To obtain a broad base of knowledge and perspectives on the Classical world, or on French-, German- or Spanish-speaking civilizations, and of their respective cultures—literature, the arts, socio-historical, political and economic structures, etc.—within a variety of interpretive frameworks.
- To understand and articulate cultural practices and process as dynamic elements in the construction of identity, and to appreciate and encourage cultural diversity in human endeavor.
- To understand aspects of language and culture in the world as part of all human communication, and within interdisciplinary contexts.
- To develop skills in critical thinking and analysis, including, but not limited to, textual analysis.

Learning outcomes are aligned with national and state standards on language and cultural understanding, and on national standards for language skill as reflected in the American Council on the Teaching of Foreign Language proficiency guidelines:

Program Requirements

The German Studies minor consists of 18 hours selected from the list of approved courses, of which a minimum of 6 credits must be in German Language and a minimum of 9 credits must be upper-division coursework. Up to 6 credits may come from classes listed in the Associated Course List, but these courses apply only if the student's project focuses on a German topic. A capstone project is also required. A maximum of six hours may apply to both a German minor and a German Studies minor.

Gerontology

Program Director:

Joan McDowd, PhD
mcdowdj@umkc.edu
(816) 235-2490

Program Office:

Cherry Hall, Room 314
<http://cas.umkc.edu/cas> (<http://cas.umkc.edu/cas/>)

With the rapid aging of the population along with the consequences this brings to nearly every sector of our lives, it is important to prepare for the ways in which population changes will change our world. Studying gerontology can prepare students to understand and address the challenges of an aging world. UMKC offers gerontology programs at both the graduate and undergraduate levels.

For more information about Gerontology and our programs, please see our website (<http://aging.umkc.edu/academic-programs/>).

Undergraduate

- Minor in Gerontology (p. 835)

Graduate

- Graduate Certificate in Gerontology (p. 834)

Graduate Certificate in Gerontology

Student Learning Outcomes

Students graduating from this program will:

- Utilize gerontological frameworks to examine human development and aging.
- Relate biological theory and science to understanding senescence, longevity, and variation in aging.
- Relate psychological theory and science to understanding adaptation, stability, and change in aging.
- Relate social theory and science to understanding heterogeneity, inequality, and context as they relate to aging.
- Distinguish factors related to aging outcomes, both intrinsic and contextual, through critical thinking and empirical research.
- Adhere to ethical principles to guide work with and on behalf of older persons.
- Engage, through communication with older persons, their families, and the community in personal and public issues in aging.
- Engage collaboratively with others to promote integrated approaches to aging.

A graduate Gerontology certificate can be a way to begin to explore a new career or it can bring added value to an existing career. This eighteen-credit program can be taken either as a free-standing certificate or integrated with a graduate degree program at UMKC, such as the Master of Arts in Liberal Studies (p. 871). Students from such diverse fields as social work, counseling, nursing, psychology, pharmacy, dental hygiene, sociology, law, architecture, and education have completed the certificate. Students should contact the Program Director to discuss enrollment and a plan of study.

Elective(s) ²	3
Total Credits	18

¹ The practicum requirement should be enrolled in after all other core requirements are completed.

² Students should contact the Program Director to identify appropriate course(s).

Minor in Gerontology

Student Learning Outcomes

Students graduating from this program will:

- Students will be able to describe what is known about biological, psychological, and sociocultural factors involved in adult development and aging processes.
- Students will be able to describe physical, cognitive, and social role changes associated with aging and major theories associated with each.
- Students will be able to explain and analyze variations in aging due to such factors as gender, social class, race/ethnicity, LGBT status, and mental health status.
- Students will demonstrate an understanding of attitudes and stereotypes regarding aging, their sources, and potential for change (both in themselves and others).
- Students will be able to apply knowledge from their aging courses to a practice setting.

Undergraduate students in any major in the College of Arts and Sciences may seek an interdisciplinary minor in gerontology designed to increase awareness of issues of our aging population. The minor will augment a variety of career paths, including service provision, administration, psychology, the health professions, and education or research. Students should contact the Program Director to discuss the required 18-credit plan of study. The minor may also be integrated with the Bachelor of Health Sciences or the Bachelor of Liberal Arts degree.

Andrew Stuart Bergerson, John Herron, Linda Mitchell, Diane Mutti Burke, Massimiliano Vitiello

Associate Professors:

David Freeman, Brian Frehner, Viviana Grieco, Matthew Warner Osborn

Assistant Professors:

Sandra Enríquez

Associate Teaching Professor:

Rebecca Miller Davis

Department Description

History is an essential component of a liberal arts education. Historical study enables students to understand peoples and places, societies and cultures, ideas and events. Beyond its own inherent interest, History provides important perspective on the present and makes planning for the future possible.

The department offers, at the undergraduate and graduate levels, courses in African American history; American history; ancient, medieval, and modern European history; Asian history; Classics; environmental history; Latin American history; Latinx history; public history; religious studies; the history of science; urban and social history; and women's, gender, and sexuality studies. The department is also involved in interdisciplinary courses and programs.

Desirable Preparation for Undergraduate Admission

Students wishing to major in history should acquire as broad a background as possible in subjects related to their historical interests. Both secondary school and community college courses in history should be supplemented with courses in other social sciences and the humanities. Students interested in the history of science should emphasize studies in physical and biological sciences.

The discipline is broad in scope and methods. Faculty members believe a logical and systematic selection of courses in other disciplines will complement the study of history. They encourage prospective majors to consult with them in preparing an integrated course of study.

Career Implications of the Bachelor's Degree

Among the many other fields you might consider are: business, government, journalism, law, marketing and communications, public history (e.g. museums, archives, historical societies), and publishing.

Why so many opportunities? Consider this: the study of history trains you how to think—not in a small or proscribed way, but in an expansive, analytical way. In our courses, you will discover that a flexible and perceptive mind is the most practical tool imaginable. You will become an excellent writer and communicator with the ability to research and analyze complex problems with dexterity and finesse, a skill that will help you regardless of your chosen career path.

If your interests remain in the academic world, know that our students have gone on to many top-flight colleges and universities. Recent UMKC history majors have pursued graduate study at the state universities of California, Colorado, Connecticut, Florida, Iowa, Kansas, Kentucky, Michigan, Mississippi, Nebraska, New York, Texas, and Virginia, as well as at Princeton University, Yale University, Brown University, Columbia University, Emory University, Georgetown University, Northwestern University, London School of Economics, Ohio State, Southern Methodist, Marquette, Notre Dame, University of British Columbia, Texas Tech, Queen's College-Belfast, King's College-London, and Cambridge University.

Individuals seeking careers as teachers and professional historians may pursue advanced degrees on this campus. The department offers the Master of Arts degree and participates in the Interdisciplinary Ph.D. program. Students interested in the Master of Arts degree should contact Massimiliano Vitiello, vitiellom@umkc.edu; for the Interdisciplinary Ph.D. program, contact Matthew Osborn, osbornmw@umkc.edu.

Departmental Activities

Advising

Advising is key to a meaningful and profitable course of study in the department. Students should consult with a departmental advisor regarding selection of courses and for help in academic matters. Faculty office hours are posted in the department office, located in 203 Cockefair Hall, and prospective schedules of courses are available under Student Resources (<https://cas.umkc.edu/history/student-resources/>) on the department website, <http://cas.umkc.edu/history>.

Principal Undergraduate Advisors

David Freeman, freemandf@umkc.edu; Rebecca Davis, davisrebe@umkc.edu

Principal Masters Advisor

Massimiliano Vitiello, vitiellom@umkc.edu

Interdisciplinary Ph.D. Program Advisor

Matthew Osborn, o (<https://cf1.umkc.edu/intapps/lookup/?LastName=osborn>) sbornmw@umkc.edu

Special Programs**Teaching Certification in Social Studies**

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in history, political science, economics, geography, behavioral sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education (p. 1430) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Public History

Courses offered by the department prepare graduates for a variety of careers in historical agencies or in the study and preservation of cultural artifacts. For further information, consult Sandra Enríquez, enriquezs@umkc.edu.

The History Club

Founded in 1999 with the purpose of promoting the study of history, the History Club is open to all UMKC students, history majors and non-majors alike. The club sponsor is David Freeman, freemandf@umkc.edu.

The History Graduate Student Association

Students participating in the M.A. and Interdisciplinary Ph.D. programs are automatically members of the History Graduate Student Association (HGSA). Each year the HGSA sponsors two events: the Graduate Student Orientation and the Graduate Student Conference. The faculty advisor is David Freeman, freemandf@umkc.edu.

Phi Alpha Theta

The department sponsors a chapter of the national history honor society, Phi Alpha Theta. To qualify for membership, undergraduate students must complete a minimum of 12 semester hours (4 courses) in history, earned in the classroom, online, or through AP or transfer credits (or a combination thereof). A minimum GPA of 3.1 in history and 3.0 GPA overall are required. A student need not be a history major to apply. Graduate students should have completed a minimum of 12 semester hours toward their master's degree in history and have a GPA of better than 3.5.

Faculty

Andrew Bergerson^{2,3} Professor of History; B.A. (Cornell University); M.A., Ph. D. (University of Chicago).

Rebecca Miller Davis² Associate Teaching Professor of History; B.A., M.A. (James Madison University); Ph.D. (University of South Carolina).

Sandra Enríquez^{2,3} Assistant Professor of History; Director of Public History emphasis; B.A., M.A. (University of Texas, El Paso); Ph.D. (University of Houston).

David Freeman^{2,3} Associate Professor of History; B.A. (University of Minnesota-Duluth); M.A., Ph.D. (Emory University).

Brian Frehner^{2,3} Associate Professor of History; B.A. (University of California, Los Angeles); M.A. (University of Nevada, Las Vegas); Ph.D. (University of Oklahoma).

Viviana L. Grieco^{2,3} Associate Professor of History; B.A. (Universidad de Buenos Aires); M.A., Ph.D. (Emory University).

John Herron^{2,3} CAS Interim Executive Associate Dean; Professor of History; B.A., M.A. (Montana State University); Ph.D. (University of New Mexico).

Linda Mitchell^{2,3} Professor of History; Martha Jane Phillips Starr/Missouri Distinguished Professor of Women's and Gender Studies; B.A. (Sarah Lawrence College); M.A., Ph.D. (Indiana University).

Diane Mutti Burke^{2,3} Department Chair; Professor of History; B.A. (Dartmouth College); M.A., Ph.D. (Emory University).

Matthew Osborn^{2,3} Associate Professor of History; B.A. (University of California Santa Cruz); M.A., Ph.D. (University of California Davis).

Massimiliano Vitiello^{2,3} Professor of History; Royall Professor; M.A. (University of Rome); Ph.D. (University of Messina); postdoctoral license in medieval studies (Pontifical Institute of Mediaeval Studies-Toronto).

Undergraduate Undergraduate Degrees:

- Bachelor of Arts: History (p. 850)
- Minor in History (p. 861)

Graduate Graduate Degrees:

- Master of Arts: History (p. 857)
- Interdisciplinary Ph.D. in History (p. 856)

Courses

HISTORY 101 U.S. History to 1877 Credits: 3

This course offers a broad survey of American history up to 1877.

HISTORY 101 - MOTR HIST 101: American History I

HISTORY 102 U.S. History Since 1877 Credits: 3

This course covers American history from the end of Reconstruction to the present.

HISTORY 102 - MOTR HIST 102: American History II

HISTORY 201 European History to 1600 Credits: 3

This course surveys the political, social and cultural history of Europe from ancient times to 1600. Beginning with a brief description of the riverine civilizations of the ancient Near East, the course then examines the political and cultural evolution of classical Greco-Roman civilization, the medieval world, the rise of the national state, and the essential characteristics of the eras of the Renaissance and Reformation.

HISTORY 201 - MOTR WCIV 101: Western Civilization I

HISTORY 202 European History since 1600 Credits: 3

This course surveys the political, economic, social, intellectual, and cultural history of Europe from about 1600 to the present. Emphasis is given to themes of continuity and change in European culture through the experience of political, scientific and industrial revolutions, conservative reactions, liberal reforms, nation building, imperialism, two world wars, fascism, communism and the Cold War.

HISTORY 202 - MOTR WCIV 102: Western Civilization II

HISTORY 206 World History To 1450 Credits: 3

This course surveys the cultural, social, economic, and political history of the world to 1450. It studies the development of civilizations in isolation as well as the origins, nature, and consequences of global forms of interaction and exchange.

HISTORY 206 - MOTR HIST 201: World History I

HISTORY 208 World History since 1450 Credits: 3

This course surveys the social, economic, political history of the world from 1450 to the present. It studies the development of civilizations in isolation as well as the origins, nature, and consequences of global forms of interaction and exchange.

HISTORY 208 - MOTR HIST 202: World History II

HISTORY 215 Getting High: Alcohol & Drugs in American History Credits: 3

This class will investigate historical transformations in how American society has defined and responded to problematic drinking and drug use. The class will analyze what controversies surrounding various forms of intoxication indicate about the nature of American society and culture.

HISTORY 300AM Special Topics in Antiquity and Medieval History Credits: 3

This course addresses special topics in Antiquity and Medieval History. Topics are focused and specialized based on faculty interests and change from semester to semester. Special topics courses are repeatable for credit when the topic changes. See notes in Pathway each semester for the specific topic.

HISTORY 300EM Special Topics in Early and Modern European History Credits: 3

This course addresses special topics in Early and Modern European History. Topics are focused and specialized based on faculty interests and change from semester to semester. Special topics courses are repeatable for credit when the topic changes. See notes in Pathway each semester for the specific topic.

HISTORY 300HW Special Topics in World History Credits: 3

This course addresses special topics in World History. Topics are focused and specialized based on faculty interests and change from semester to semester. Special topics courses are repeatable for credit when the topic changes. See notes in Pathway each semester for the specific topic.

HISTORY 300P Special Studies Credits: 1-3**HISTORY 300PH Special Topics in Public History Credits: 3**

This course addresses special topics in Public History. Topics are focused and specialized based on faculty interests and change from semester to semester. Special topics courses are repeatable for credit when the topic changes. See notes in Pathway each semester for the specific topic.

HISTORY 300US Special Topics in United States History Credits: 3

This course addresses special topics in United States History. Topics are focused and specialized based on faculty interests and change from semester to semester. Special topics courses are repeatable for credit when the topic changes. See notes in Pathway each semester for the specific topic.

HISTORY 300WY Decade of Dissent: The 1960s Credits: 3

The social movements and conflicts that developed during the 1960s continue to define American culture. Questions of racial and gender equity, a greater willingness to challenge authority, concerns about the environment, and a new openness about issues of sexuality all developed during the sixties and remain as arenas of debate today. This course will examine the origins, contexts, and major themes of these social and cultural movements.

HISTORY 301WI Historiography and Method Credits: 3

This basic course is required of all history majors at the beginning of the junior year. Content includes: 1) what history is; 2) its value and usefulness; 3) the diversity of our fields, approaches, and methods; and 4) the techniques of preparing and writing history papers. Texts and reading are approved by the Department (i.e.: Turabian for style). Although the emphasis is general instead of particular, the instructor will be assisted by other historians representing their main special interest areas.

HISTORY 302 Colonial North America, 1492–1763 Credits: 3

This course examines European colonization in North America, from the voyage of Christopher Columbus to the eve of the American Revolution. Students will consider the Atlantic-world context of colonization, the environmental factors that shaped colonial development, and the complex interactions of European, African, and Indian peoples.

HISTORY 303 The American Revolution, 1763-1789 Credits: 3

This course examines the history of the American Revolution, from the explosive political crisis of the 1760s to the struggle over ratification of the Constitution. Students will consider the origins and conduct of the war, as well as the Revolution's far-reaching political, social, and economic consequences.

HISTORY 304 The Early American Republic, 1789–1850 Credits: 3

This class will survey major themes in the history of the early American republic, from the passage of the Constitution in 1789 to the California Gold Rush of 1849.

HISTORY 305 America, 1828-1852: The Jacksonian Period Credits: 3

An analysis of the political, social, economic, and intellectual factors in American society, 1828-1852. The period featured the presidency of Andrew Jackson, the shaping of a new democratic ideology, the culmination of manifest destiny, the quickening of the antislavery impulse, the Mexican War, the growing sectional split, and the Compromise of 1850.

HISTORY 306 America, 1850-1877: Civil War and Reconstruction Credits: 3

A survey of the political, social and economic factors leading to the dissolution of the federal union is followed by a consideration of the major features and developments of the war period. This, in turn, leads to an analysis of the major factors and relationships involved in the "reconstruction" of the federal union. The course covers the years 1850 to 1877.

HISTORY 306A History of Christianity to the Middle Ages Credits: 3

This course examines the cultural, historical and theological development of Christianity from its origins to the High Middle Ages. The main themes follow the mechanisms and conditions shaping Christianity's expansion into a major cultural, social, institutional, and intellectual force in Western Europe with a focus on patterns of crisis and reform.

HISTORY 307A History of Christianity from the Middle Ages to Present Credits: 3

This course examines the cultural, historical and theological development of Christianity from the High Middle Ages to the present. The main themes follow the development of foundational Christian theological thought and practice into what are now mainstream Western Christian theologies, the institutional histories of Western Christianity, and the cultures of Western civilization.

HISTORY 309 World War II Film and Propaganda Credits: 3

This course examines film and propaganda, including posters, political cartoons, speeches, and other media, created in prewar or wartime conditions by both the Allies and Axis powers from 1933 to 1945 as it affected World War II.

HISTORY 334 History of Technology Credits: 3

The course examines technology as it shapes and is shaped by human society. Students will consider technology as a product of historically-specific and sometimes overlapping contexts shaped by culture, economics, natural environments, and social processes.

HISTORY 343 Oral History Credits: 3

This course focuses on the methods, theories, ethics, practices, and applications of tools in documenting and recovering the experiences of people hidden from the "traditional records." Through lectures, readings, discussions, and fieldwork, students will learn the various steps in developing a robust oral history project. Students will go out into the community to capture the histories of communities in Kansas City.

HISTORY 348 Missouri/Kansas Border Wars Credits: 3

This course explores the history of the Civil War on the Missouri/Kansas border, where residents first shed blood over the issue slavery. An exploration of this most uncivil of wars provides insight into the ways in which societies can be fragmented by ideology and ultimately rebuilt upon different lines.

HISTORY 349 Civil War in Memory and Film Credits: 3

This course explores how the era of the Civil War and Reconstruction has been portrayed in film, literature, and art, and if the popular memory of the war accurately reflects the history. We also will discuss how the understanding of this pivotal event in American History has changed over time and how cultural artifacts often say more about the time in which they were produced than the actual history of the Civil War.

HISTORY 356 Rise of the City in the U.S. Credits: 3

This course treats the background and major developments of the urbanization of the United States. Includes the American urban tradition, the scope of urbanization, colonial beginnings, urban rivalries, promotion, case studies of cities, the growth of urban services, the slum, problems of government, population trends, urban planning, and suburban growth. Consideration is also given to the methods and techniques of urban research and history of the development of this field.

HISTORY 357 The American West Credits: 3

This course deals with the relationship of the American West to the social and economic development of the United States. Major emphasis is placed on the role of the trans-Mississippi West in the economic growth of the national economy. Related cultural and political events are evaluated in the terms of the many Western frontiers. Emphasis will be placed on the Turner thesis, the Indian heritage, frontier violence, and the cow town experience.

HISTORY 358 History of the American South I Credits: 3

A study of the political, intellectual, cultural, economic, and social development of the American South up to and including the Civil War. Special topics discussed will be the plantation system, slavery, abolition, secession, the Confederacy, and the interaction of the region with the nation.

HISTORY 360R Constitutional History of the United States Credits: 3

The general question covered is: how does American society govern itself? Topics include the fusion of Anglo traditions and American environment, creation of the American republic under the Constitution of 1787, the struggle for sovereignty during the Marshall-Taney era, and the Supreme Court's utilization of the 14th Amendment to adapt the Constitution to modernity.

HISTORY 364R Nature, Culture And The Human Experience Credits: 3

This course is an introduction to various interpretations of nature with a focus on American culture and society. We will consider ideas about nature from diverse perspectives including history, literature, philosophy and religion in order to understand how human perceptions and uses shape relations with the natural world. Specific themes include such diverse topics as the aesthetic tradition, environmental thought, and environmental justice.

HISTORY 365A American Environmental History Credits: 3

This course examines the changing relationships between human beings and the natural world through time. The main argument of this course will be that American History looks very different through an environmental lens. Nature is an important category of historical analysis as well as a topic worthy of historical study itself and this course will examine themes as diverse as Native American ecology to the modern environment crusade.

HISTORY 366RR American Labor History Credits: 3

This course examines the history of work and the working class in the U.S. from 1750 to the present. We will focus on the transformation of the workplace, the rise of the union movement, the nature of cultural and political organizations, workers' relationships with other social groups, and the role played by gender, race, and ethnicity in uniting or dividing the working class.

HISTORY 369 Women and Work in Early America Credits: 3

This course examines the ways in which gender, race, region, and class have shaped the historical experiences of American women. Students will trace women's lives from pre-European contact to 1877 through an examination of a wide variety of social, cultural, economic, and political forces and factors.

HISTORY 370 Introduction to Material Culture Credits: 3

This course will consider the ways in which material culture contributes to our understanding of history. Scholars have increasingly recognized the significance of "the things they left behind," particularly as they provide insights to the lives of those who did not leave extensive written records. Students will consider all aspects of material culture, drawing largely on examples from American history: architecture, domestic utensils and furnishings, clothing, tools, and good agricultural practices. The courses will emphasize the process of handicraft technology as well as the product, and will consider the impact of modernization upon both process and product.

HISTORY 371 American History Through Film Credits: 3

This course will move through the twentieth century and highlight major themes and developments that reveal the contours of American history as depicted in film. Students will examine the ways in which filmmakers have presented history, paying particular attention to the presentation of political, cultural, and social conflicts.

HISTORY 375 Success and Failure in Nineteenth Century America Credits: 3

This course traces the social history and cultural significance of success, failure, and poverty in nineteenth-century America. The class will investigate how diverse Americans made sense of the rapidly growing disparities of wealth that accompanied the rise of industrial capitalism.

HISTORY 379 Museums, Monuments, and American Life: An Introduction to Public History Credits: 3

This course will investigate the ways America commemorates, invokes, and misremembers its history—what scholars call public history. Students will learn the skills professionals use to communicate historical scholarship to wider audiences, and will grapple with the political and ethical issues that arise when we expand the discipline's stakeholders.

HISTORY 392A Archival Internship Credits: 1-3

Students work directly with professional archivists and other personnel at the Kansas City Federal Records Center, the Truman Library, Jackson County Historical Society, and similar facilities in the area. Emphasis will be given to areas of arrangement, description and preservation of archival materials. Each student must make individual arrangements through the department.

Prerequisites: Departmental consent.

HISTORY 392B Public History Internship Credits: 1-3

Students work directly with public history and editorial personnel at the Kansas City Museum, the Kansas City Pitch Weekly, the Truman Library, and similar facilities in the area. Depending on the institutional affiliation, emphasis will be given to museum operations and displays, editing, fund-raising, historical research and writing. Each student must make individual arrangements through the department.

Prerequisites: Departmental consent.

HISTORY 398 Black Civil Rights in the 20th and 21st Centuries Credits: 3

This course examines the fight for black civil rights in the United States in the 20th and 21st centuries, focusing on the Jim Crow period, the fight to end segregation, and the enduring problem of race in the United States.

HISTORY 400 Special Studies Credits: 1-3

Courses on subjects which are not a part of the regular department offering. The courses result from one or more of the following: (1) The expressed desire of students; (2) the broadened or refocused scholarship of a member of the history faculty; (3) the temporary presence of a scholar whose specialization is not reflected in the department's regular offerings; (4) the conclusion by the department that the course meets a community need; (5) the effort of the history faculty to provide an interdisciplinary approach to an era or topic. The course is experimental in the sense that it is a one-time offering with the potential of repetition or modification—depending upon student, faculty and community response.

HISTORY 400CW Cluster Course: Critical Issues in Women's & Gender Studies Credits: 3

What does it mean to grow up female in America? How does being female influence the body, the mind, identity? This course is an interdisciplinary exploration of the issues that have shaped the lives of American women throughout the life cycle and across the timeline. This course examines the role that culture and society have played in shaping and defining what it means to be an American girl and woman.

HISTORY 400WI Special Studies Credits: 1-3

Special studies in History. Writing Intensive.

HISTORY 404 Women and Gender in Latin America Credits: 3

This course studies gender in Latin America from the eve of conquest by the Portuguese and Spanish in the fifteenth century to the present. It examines how ideas about gender affected the lives of Latin American men and women. This course additionally analyzes how gender and race contributed to the creation of a hierarchical social order. Finally, it discusses the exercise of authority within and outside households and its impact on private and public spaces.

HISTORY 405 Colonial Latin America (From the Encounter to the Early 19th Century) Credits: 3

This course discusses the conquest and colonization of Latin American by the Spanish and the Portuguese imperial powers from the time of the encounter to the early nineteenth century. It studies the Iberian, Indigenous and African cultures and their influence in the creation of a hierarchical imperial order. Emphasis is given to the impact of the conquest, the economics of exploitation, race, sexual and gender identities and, religious and legal domination.

HISTORY 406 Modern Latin America Credits: 3

This course studies social, political, economic and cultural trends in Latin America in the nineteenth and twentieth centuries. Discussion topics include nation building after independence with an emphasis on gender and race in the creation of national identities and new forms of social stratification; integration of national economies into the world economic system; the expansion of political participation and citizenship; immigration and the tensions caused by the forces of modernization and tradition.

HISTORY 407 Latin American Crises and Opportunities Credits: 3

This course studies why Latin America has experienced in the 20th and 21st centuries recurrent economic and political crises – and why it is still a land of enormous opportunity. While this is primarily a history course, it undertakes a multidisciplinary examination of the region's strengths and weaknesses by discussing theories of economic development, political and sociological models as well as the influence of crime and violence. Case studies anchored in representative countries will be used to illustrate historical trends and theories.

HISTORY 411A Medieval Civilization I Credits: 3

This course covers the period between the decline of the Roman Empire in the West and the Investiture Controversy. Topics include the rise of Christianity and early church-state relationships; the barbarian invasions and the various Germanic kingdoms; the age of Charlemagne; monasticism and feudalism. There will also be special sessions on the civilizations of Islam and Byzantium.

HISTORY 411B Medieval Civilization II Credits: 3

Medieval Civilization II.

HISTORY 412A Medieval Women & Children Credits: 3

This course explores the roles of women in the social, economic, political and cultural environments of medieval and early modern Europe. We examine the lives of women in all areas of life, from the ordinary to the extraordinary, in urban and rural environments, from the centers of religious and political power to the margins of society. Focus will be on the world of work for urban and peasant women and on the social and legal institutions of marriage, kinship and the family. The course makes extensive use of primary sources by and about women during this period.

HISTORY 414 Reformation Credits: 3

Beginning with a description and analysis of the social, intellectual and political aspects of the later Middle Ages, the course continues with an examination of those profound religious, social and political changes which mark the 16th century as the end of the Middle Ages and the beginning of the modern secular era.

HISTORY 416R The French Revolution and Napoleon Credits: 3

Narrative history concentrating on the explosive and colorful events and personalities in France, but also showing the European and Western context and impact of the revolution and Napoleon. Illustrated accounts cover such "great days" as the storming of the Bastille, the fall of Robespierre, and Napoleon's Coup of 18 Brumaire, and great battles. Main periods are: the origins of the revolution (economic, social, political, intellectual); revolution and reconstruction (1789-92); through terror to Thermidor (Jacobins and sans-culottes); Napoleon's wars and reconstruction (France and Europe). Cinema, slides and martial music periodically. Discussion of major authors and interpretations.

HISTORY 420CC World War I in Film: The World made Modern Credits: 3

This cluster course examines World War I and its legacy through the lenses of international history and film studies. It explores the origins and conduct of the "Great War," as it was called at the time, as well as its transforming effects on the modern international relations and the ongoing process of globalization. It also examines how the war spurred the growth of an infant motion picture industry, and how movies produced during the decades that followed helped shaping popular memories of the conflict-reflecting and shaping cultural discourses regarding the myth or reality of modern civilizational progress; the ethics of modern weaponry; the individual's placed in mass society; constructions of class, race, and gender; and the meaning of national identity in a globalizing world. The class will draw on selected history texts and an array of films and film clips.

HISTORY 425R European Criminal Justice History, 500-1900 Credits: 3

This course will survey European crime, criminal procedure, policing and punishment between 500 and 1900. Particular attention will be given to changing methods of proof (oaths, ordeals, juries); changing type of criminal activity (banditry, vagrancy, witchcraft, professional theft) and changing penal strategies (the stocks, breaking on the wheel, the workhouse, the prison, the penitentiary). English experiences are emphasized.

HISTORY 428B Gender & Medicine: Patients & Practitioners From Antiquity to Present Credits: 3

This course explores, in a selective fashion, the role of women in Western medicine both as health care providers and patients. The subject of the history of medicine is too broad to be covered comprehensively in a semester, and so we will focusing on diseases or physical conditions which were believed to be limited to women—childbirth, certain mental health conditions, reproductive health, breast cancer— as well as the increasing marginalization of women within the profession of health care providers to those branches concerned primarily with "women's problems."

HISTORY 430RA 'We Are The Dead': The Great War Experience Through its Artifacts Credits: 3

World War One was the "war to end all wars"; all previous wars were indeed eclipsed by its scale of destruction. And yet, it was a war that initiated a century of continual bloodshed and crimes against humanity. This course will explore the causes, nature and consequences of the Great War of 1914-18. It will be taught on different themes each Winter semester at the National World War One Memorial Museum at Liberty Memorial.

HISTORY 431R Medieval England, 1066 To 1485 Credits: 3

Beginning with the Norman conquest of England in 1066, this course traces the history of Medieval England through the establishment of the Tudor dynasty. Covered will be such items as the rise of the Angevin Empire, the conflict between monarch nobility, the evolution of Parliament, as well as the Anglo-French rivalry which culminated in the Hundred Years' War.

HISTORY 432R Tudor England, 1485-1603 Credits: 3

This course covers England from the accession of Henry VII, the first Tudor, to the death of Elizabeth I in 1603 Topics to be covered are: transformation of England into a modern state, the Reformation, the role of Parliament, conflicts with European powers, especially Spain, etc.

HISTORY 433R History of Britain 1603-1832 Credits: 3

This course surveys the history of Britain from the the rise of the Stuart dynasty through the Industrial Revolution, with particular emphasis on the cultural aspects of political, social, economic, and military changes. Topics include: the domination of the aristocracy; the rise of the Navy; the exploration of the Pacific; the monarchy of George III; the loss of the American colonies; the wars with Napoleon; the Agricultural and early Industrial Revolutions; and the social changes they brought in both Britain and the Empire.

HISTORY 436R Modern German History Credits: 3

This course traces the history of Central Europe from the fall of Bismarck to the reunification of Germany one century later. It will ask students to think critically about the relationship between state and society, elites and 'ordinary' Germans, in the various German-speaking regimes that existed over the course of this era: two empires, two interwar republics, two fascist dictatorships, and three post-fascist republics. All assigned readings will be in English; a background knowledge of European history is recommended.

HISTORY 437AWI Imperial Germanies, 1848-1918 Credits: 3

This course traces the history of German-speaking Central Europe from the Revolutions of 1848 to the collapse of the Hohenzollern and Habsburg empires at the end of World War One. It will ask students to think critically about the relationship between state and society and the role played by 'elite' and 'ordinary' people in shaping German history. This reading and writing intensive course will be run as a seminar. Final grades will be based on a portfolio of assignments of which students will select what they consider to be the best examples of their work.

Prerequisites: HISTORY 202, HISTORY 208.

HISTORY 437BWI First German Republics, 1917-1935 Credits: 3

This course traces the history of the two German Republics during the inter-war years—the First Austrian Republic and the so-called Weimar Republic—from the peace movements of the First World War to the solidification of fascist dictatorships. It will ask students to think critically about the relationship between state and society and the role played by "elite" and "ordinary" people in shaping German history. This reading-and writing-intensive course will be run as a seminar. Final grades will be based on a portfolio of assignment of which students will select what they consider to be the best portfolio of assignments of which students will select what they consider to be the best examples of their work.

Prerequisites: HISTORY 202, HISTORY 208, RooWriter.

HISTORY 437DWI Cold War Germanies, 1941-1991 Credits: 3

This course traces the history of the three postwar German Republics— the Second Austrian Republic, the German Democratic Republic, and the Federal Republic of Germany — from the initial plans of the Allies for postwar reconstruction to the Reunification of Germany in 1991. It will ask students to think critically about relationship between state and society and the role played by 'elite' and 'ordinary' people in shaping, and in the remembering, of German history. This reading-and writing-intensive course will be run as a seminar. Final grades will be based on a portfolio of assignments of which students will select what they consider to be the best examples of their work.

Prerequisites: HISTORY 202, HISTORY 208, RooWriter.

HISTORY 444R Islam and the Arabs: The Formative Period Credits: 3

The first semester of a three-semester sequence begins with a brief overview of the geography and topography of the Middle East. The course proceeds with a discussion of the conditions of pre-Islamic Arabia; the appearance of Muhammad and his mission; the rise and spread of Islam; the establishment and consolidation of the Arab dynasties in the Middle East, North Africa and Spain; Islamic institutions; and Islamic society and culture. The time span will be approximately 500 A.D. to the Mongol conquest of Baghdad in 1258.

HISTORY 445 The Ottoman Empire in the Middle East to World War I Credits: 3

The second semester of a three-semester sequence covers the transition from Arab to Turkish hegemony in most of the Middle East as well as the restoration of native Persian dynasties in Iran and their subsequent development. The emphasis is on the rise and decline of the Ottoman Turkish Empire. Attention is given to the Ottoman provinces and to the national movements of subject peoples. The course ends with an overview of World War I and the peace treaties which marked the dissolution of the Ottoman Empire.

HISTORY 446R The Middle East from World War I to the Present Credits: 3

The third semester of a three-semester sequence deals with the emergence of the modern countries of the Middle East after World War I and their history and course of development to the present day. There will be a general survey of the government and politics, economic situation, and social and cultural characteristics of each important country in the area. In addition, special topics will be discussed such as the modernization process, ideological alternatives, relations with the great powers, the economics and politics of oil, and the Arab-Israeli conflict.

HISTORY 464 Medieval Methods and Paleography Credits: 3

This course examines the methodology and historiography of Medieval Studies. Through an introduction to paleography, the study of medieval handwritings, it prepares students for advanced work in Medieval and Renaissance studies. Using an interdisciplinary approach, this course will examine the historical and cultural settings for medieval texts, their physical form and production, as well as the tradition of textual transmission in the medieval world. In addition to gaining familiarity with the many different types of primary sources, such as literary, artistic, legal, and notarial sources, students will be exposed to methods for practical archival work in various European nations.

HISTORY 468R Archaeology and the History of Antiquity Credits: 3

This course will analyze the contributions of archaeology to the understanding of ancient history. It will cover archaeological excavations and their pertinence to classical civilization in the Near East and Greece. The techniques and methodology of field archaeologists will be discussed and demonstrated. Archaeological excavations relating to the Hittite capital, to the Ugaritic tablets, to the Minoan-Mycenaean civilization and its link to the Near East will be treated.

HISTORY 469 Archeology and Biblical History Credits: 3

An examination of ancient Israel as she emerges from the ruins of the past, both lapidary and literary. Through a study of the "mute documents," artifacts man-made (storied cities, household utensils, inscribed shards from Jericho to Jerusalem) we gain an insight indispensable for Biblical studies, for ancient Near Eastern history.

HISTORY 470 Ancient Egypt Credits: 3

This course describes the political, social and cultural evolution of ancient Egypt from pre-dynastic times, with major emphasis upon the Old, Middle, and New Kingdoms (especially the 18th dynasty and the reign of Akhenaton).

HISTORY 471 Ancient Greece Credits: 3

This course begins with a survey of the pre-classical Minoan and Mycenaean civilizations and then describes the rise of prominent Greek city-states (with particular emphasis upon the evolution of Sparta and the political, social and cultural contributions of Athens). The course concludes with the rise of Macedon and Alexander's conquests and significance.

HISTORY 471P Ancient World: The Political Structure Of The Ancient World Credits: 4

The four-hour lecture period on weeknights will emphasize the historical aspects of the ancient civilizations. The lectures will be chronologically organized to focus upon their evolution from their rise to their collapse.

HISTORY 472 Ancient Rome Credits: 3

This course covers Roman history from its origins (including the Etruscans) to the decline of the imperial system. Particular emphasis is placed upon the political, social and economic developments in the Republic, the death of the Republic, the early Principate, and the factors that led to Rome's decline in the ancient world.

HISTORY 472P Ancient World: The Cul/Intellectual Dimension Of Ancient Civi Credits: 4

The four weekend periods will provide the students with a general picture of these civilizations: society, religion, economics, and culture (w.f., arts, literature, philosophy, science, etc.). Guest lecturers, slides, films and video cassettes will be used to introduce the varied aspects of these ancient peoples.

HISTORY 474 Late Antiquity: The Transformation of the Mediterranean World (200–600 AD) Credits: 3

The decline of the Roman Empire and the barbarian invasions transformed the Mediterranean and European worlds, forming the foundation of Europe and the Islamic world. Students will investigate the multicultural society of Late Antiquity and become familiar with the primary sources for the period.

HISTORY 475WI The History of Ancient Israel Credits: 3

Judaism has had a tremendous impact on our civilization and yet most Americans are only dimly aware of its origins and development. This course will trace the roots of the Jewish religion in its historical context from its beginnings through the formation of rabbinic culture. The rise of Christianity will be examined in its original Judaic context, and recent discoveries, particularly those pertaining to the Dead Sea Scrolls, will be interpreted.

Prerequisites: RooWriter.

HISTORY 476 Medieval Jewish History Credits: 3

This course covers the general period from the decline of the Roman Empire to the dawn of early modern times. It is concerned with Jewish centers of life and learning in the Diaspora, both East and West. The course considers the Jews under Islamic rule from the time of Mohammed through the Golden Age of Moorish Spain. The focus then shifts to the situation of the Jews in Christian Europe, from the period of Constantine to the expulsions from England, France and Christian Spain. The Jews in the Ottoman Empire are mentioned and the course ends with the episode of Sabbatai Zevi, the false Messiah.

HISTORY 477 Modern Jewish History Credits: 3

This course surveys modern Jewish history from the Napoleonic period to World War II. Analyzing the social status of the Jews in Medieval Europe, it proceeds towards a discussion of the growth of the national state and the breakup of the Holy Roman Empire and analyzes the growth of socialism, integral nationalism, and liberalism as they affected the Jewish communities in Europe and America. The course serves as a survey of modern political and economic trends as they affect a distinct group.

HISTORY 496 Historical Research Project Credits: 1-3

Working extensively with an individual faculty member actively engaged in his/her research, students practice the multiple facets of investigating the sources of history, developing a comprehensive analysis from such sources, and composing a persuasive interpretation.

Prerequisites: Departmental consent.

HISTORY 497 Special Topics and Readings Credits: 1-6

Intensive reading and/or research in an area selected by the student in consultation with the instructor. May be repeated for credit when the topic varies.

HISTORY 498WI Senior Capstone Credits: 3

This is the capstone course in the department and is required for majors in the senior year. It consists of tutorial sessions with a regular faculty member and independent research leading to a major paper using original source materials. Performance in this course will weigh heavily in the award of departmental honors.

Prerequisites: HISTORY 301WI.

HISTORY 5500Z Special Studies: Labor In Industrial America Credits: 3

This course examines the history of work and the working class in the U.S. from 1877 to the present. We will focus on the transformation of the workplace, the rise of the union movement, the nature of cultural and political organizations, workers' relationships with other social groups, and the role played by gender, race, and ethnicity in uniting or dividing the working class.

HISTORY 5501A Religion in America Credits: 3

An in-depth examination of selected aspects of the history of religions in America from the colonial period to the present. Special emphasis will be given to methodological issues in the study of American religious history.

HISTORY 5502 America,1000-1763: The Formative Era Credits: 3

Early American history encompasses the formative era of many institutions and attitudes which still persist in present-day America. A study of how these patterns and policies emerged will enlighten us as to our current ways our society seeks to adapt to change.

HISTORY 5503 America, 1763-1783: The Revolutionary Heritage Credits: 3

The American Revolution created American history by creating a new nation. What the American Revolution was depends to a large extent upon what Americans think they are or ought to be. The goals of this course, therefore, are twofold: (1) to probe the nature, causes and consequences of the American Revolution; (2) to assess the intentions and behavior of both the Framers of the Constitution in 1763-1783 and the inheritors of modern America.

HISTORY 5504 America, 1783-1828: The National Experience Credits: 3

HISTORY 5505 America, 1828-1852: The Jacksonian Period Credits: 3

HISTORY 5506 America, 1850-1877: Civil War and Reconstruction Credits: 3

HISTORY 5506A History of Christianity to Middle Ages Credits: 3

This course examines the historical and theological development of Christianity from its origins to the High Middle Ages. The main themes follow the mechanisms and conditions shaping Christianity's expansion into a major social, institutional, and intellectual force with a focus on pattern of crisis and reform. This course is based on the study of primary sources (both texts and objects) and modern scholarship.

HISTORY 5507 America 1877-1917: Development of Industrial America Credits: 3

HISTORY 5507A The History of Christianity from the Middle Ages to the Present Credits: 3

This course examines the historical and theological development of Christianity from the High Middle Ages to the present. The main themes follow the mechanisms and conditions shaping Christianity's expansion into a major social, institutional and intellectual force with a focus on patterns of crisis and reform. This course is based on the study of primary sources (both texts and objects) and modern scholarship.

HISTORY 5508A America 1914-1945: The Era of the World Wars Credits: 3

HISTORY 5508B America 1945-Present: Our Times Credits: 3

HISTORY 5511 Medieval Civilization I Credits: 3
Medieval Civilization I

HISTORY 5512 Medieval Civilization II Credits: 3
Medieval Civilization II

HISTORY 5512A Medieval Women & Children Credits: 3

This course explores the roles of women in the social, economic, political, and cultural environments of medieval and early modern Europe. We examine the lives of women in all areas of life, from the ordinary to the extraordinary, in urban and rural environments, from the centers of religious and political power to the margins of society. Focus will be on the world of work for urban and peasant women and on the social and legal institutions of marriage, kinship, and the family. The course makes extensive use of primary source by and about women during this period.

HISTORY 5513 Renaissance Credits: 3

HISTORY 5514 Reformation Credits: 3

HISTORY 5515B 17Th And 18Th Century European History Credits: 3

This course is designed to present the upper-division undergraduate with a firm grasp of the major intellectual, cultural, political and economic development of 17th and 18th century Europe. It considers the bitter Thirty Years War in Century Europe, the rise of the Netherlands, the fall of Italy and Spain, the rise of constitutional and absolutist styles of government, the scientific revolution, the colonization by Europeans of the Pacific and Indian Ocean Basins, Enlightenment political philosophy, the Agricultural Revolution, and the French Revolution. Also offered for undergraduates as 415B. Graduate students will be held to a higher standard in terms of additional, in-depth historiographic research, writing, and discussion.

HISTORY 5516 The French Revolution and Napoleon Credits: 3

HISTORY 5517 19th Century European History Credits: 3

This upper-division course will survey significant trends in warfare, politics, economics, social relations and culture in 19th century Europe, paying particular attention to the rise of modern ideologies and identities, world hegemony, and the social technologies of dehumanization that foreshadowed the unprecedented inhumanities of the 20th century. Graduates will be held to a higher standard in terms of additional, in-depth historiographic research, writing, and discussion.

HISTORY 5518 20th Century European History Credits: 3

This upper-division course traces the history of Europe in the 20th century. It will survey significant trends in warfare, politics, economics, social relations and culture, paying particular attention to the issues of modernity and postmodernity, imperialism and decolonization, dehumanization and genocide as well as the role of ordinary people in these systems of mass destruction. Graduate students will be held to a higher standard in terms of additional, in-depth historiographic research, writing, and discussion.

HISTORY 5519 Contemporary European History: 1950-2000 Credits: 3

This upper-division course traces the history of Europe in the period of living memory. It will survey significant trends in warfare, politics, economics social relations and culture, paying particular attention to the rise of globalization and the condition of postmodernity, decolonization and neo-colonization, European unification and everyday life. Graduate students will be held to a higher standard in terms of additional, in-depth historiographic research, writing, and discussion.

HISTORY 5521 Oral History Credits: 3

This course focuses on the methods, theories, ethics, practices, and applications of tools in documenting and recovering the experiences of people hidden from the "traditional records." Through lectures, readings, discussions, and fieldwork, students will learn the various steps in developing a robust oral history project. Students will go out into the community to capture the histories of communities in Kansas City.

HISTORY 5525R European Criminal Justice History, 500-1900 Credits: 3

This course will survey European crime, criminal procedure, policing and punishment between 500 and 1900. Particular attention will be given to changing methods of proof (oaths, ordeals, juries); changing type of criminal activity (banditry, vagrancy, witchcraft, professional theft) and changing penal strategies (the stocks, breaking on the wheel, the workhouse, the prison, the penitentiary). English experiences are emphasized.

HISTORY 5526 Modern Latin America Credits: 3

This course studies social, political, economic and cultural trends in Latin America in the nineteenth and twentieth centuries. Discussion topics include nation building after Independence with an emphasis on gender and race in the creation of national identities and new forms of social stratification; integration of national economies into the world economic system; the expansion of political participation and citizenship; immigration (national and transnational) and the tensions caused by the forces of modernization and tradition. Although the purpose of the course is to provide a general background for a large and diverse region (more than 20 countries), case studies from Argentina, Mexico and Brazil will illustrate the above-mentioned themes and will provide the basis for a comparative regional perspective.

HISTORY 5526R The Scientific Revolution 1500-1700 Credits: 3

HISTORY 5527 The Darwinian Revolution, 1650-1900 Credits: 3

HISTORY 5528A History Of The Body Credits: 3

This advanced course will explore the new field of the history of the body, with particular attention to sexuality and gender. Topics will include the history of sexualities, the body and society, body disciplines, medical practices and representations of illness, beauty, and fashion, and the relationship between sexualities and nationalisms.

HISTORY 5528B Women & Medicine: Patients & Practitioners From Antiquity-Present Credits: 3

This course explores, in a selective fashion, the role of women in Western Medicine both as health care providers and patients. The subject of the history of medicine is too broad to be covered comprehensively in a semester, and so we will focus on diseases or physical conditions which were believed to be limited to women-childbirth, certain mental health conditions, reproductive health, breast cancer-as well as the increasing marginalization of women within the profession of health care providers to those branches concerned primarily with "women's problems."

HISTORY 5531 Medieval England, 1066 to 1485 Credits: 3

HISTORY 5532 Tudor-England, 1485-1688 Credits: 3

This course covers the history of England from the accession of Henry VII in 1485 to the crowning of William and Mary in the Glorious Revolution. Its main emphasis is the Tudor dynasty 1485-1603 with special reference to the transformation of England into a modern state, Re-Reformation, the role of Parliament, etc. The course concludes with the major characteristics of the early Stuart period.

HISTORY 5533 History of Britain 1603-1832 Credits: 3

This course analyzes the rise and fall of the Stuart dynasty and the effects of civil war, rebellion, and religious turmoil on the peoples of Britain. The domination of politics and culture by the aristocracy in the eighteenth century is examined. The rise of the Navy due to constant warfare and the exploration of the Pacific are discussed. The monarchy of George III, the loss of the American colonies, and the wars with Napoleon are examined. Finally, the Agricultural and early Industrial Revolutions are considered through an analysis of the social changes they brought in Britain and the Empire

HISTORY 5534 History of Technology Credits: 3

The course examines technology as it shapes and is shaped by human society. Students will consider technology as a product of historically-specific and sometimes overlapping contexts shaped by culture, economics, natural environments, and social processes.

HISTORY 5536 Modern German History: 1890-1990 Credits: 3

This course traces history of Central Europe from the fall of Bismarck to the reunification of Germany one century later. It will ask students to think critically about the relationship between state and society, elites and 'ordinary' Germans, in the various German-speaking regimes that existed over the course of this era: two empires, two interwar republics, two fascist dictatorships, and three post-fascist republics. All assigned readings will be in English; a background knowledge of European history is recommended.

HISTORY 5537 Nazi Germany Credits: 3

Nazi Germany

HISTORY 5544 Islam & the Arabs: The Formative Period Credits: 3

HISTORY 5545 The Ottoman Empire in the Middle East to WWI Credits: 3

Cross Listings: HISTORY 445.

HISTORY 5546 The Middle East from World War I to the Present Credits: 3

HISTORY 5548 Missouri/Kansas Border Wars Credits: 3

This course explores the history of the Civil War on the Missouri/Kansas border, where residents first shed blood over the issue slavery. An exploration of this most uncivil of wars provides insight into the ways in which societies can be fragmented by ideology and ultimately rebuilt upon different lines.

Prerequisites: undergraduate degree.

HISTORY 5549 Civil War in Memory and Film Credits: 3

This course explores how the era of the Civil War and Reconstruction has been portrayed in film, literature, and art, and if the popular memory of the war accurately reflects the history. We also will discuss how the understanding of this pivotal event in American History has changed over time and how cultural artifacts often say more about the time in which they were produced than the actual history of the Civil War.

HISTORY 5552 Latin American History through the Movies Credits: 3

This course explores the national cinemas and film industries of various regions in Latin America. Students will analyze films both as artistic endeavors and as sociological documents that provide a window into the socio-historical context of the nation in question. This course will also examine the history of Latin American cinema from the beginnings of sound to present.

HISTORY 5554 Women in Modern America Credits: 3

HISTORY 5556 Rise of the City in the U.S. Credits: 3

HISTORY 5556R Kansas City: History of a Regional Metropolis Credits: 3

HISTORY 5557 The American West Credits: 3

HISTORY 5558 Black Civil Rights in the 20th and 21st Centuries Credits: 3

This course examines the fight for black civil rights in the United States in the 20th and 21st centuries, focusing on the Jim Crow period, the fight to end segregation, and the enduring problem of race in the United States.

HISTORY 5558R History of the American South Credits: 3

History of the American South

HISTORY 5559 World War II Film and Propaganda Credits: 3

This course examines film and propaganda, including posters, political cartoons, speeches, and other media, created in prewar or wartime conditions by both the Allies and Axis powers from 1933 to 1945 as it affected World War II.

HISTORY 5561R American Foreign Relations Credits: 3

HISTORY 5562J Japanese Civilization Credits: 3

A survey of Japanese civilization and cultural history from the prehistorical period to the present. Emphasis on the interplay between religion, the arts, politics, and social structure.

HISTORY 5563R Military History of the U.S. Credits: 3

Military History of the U.S.

HISTORY 5566R American Economic History Since 1865 Credits: 3

The course deals with the emergence of Industrial America since 1865. It will cover the rise to dominance of the large modern corporation, with the problem of economic and social instability and stability, with the rise of trade associations, cartels, and government regulation in an unstable economy, and with the evolution of American economic policy and national economic planning.

HISTORY 5566RR American Labor History Credits: 3

This course examines the history of work and the working class in the U.S. from 1750 to the present. We will focus on the transformation of the workplace, the rise of the union movement, the nature of cultural and political organizations, workers' relationships with other social groups, and the role played by gender, race, and ethnicity in uniting or dividing the working class.

HISTORY 5569 Women and Work in Early America Credits: 3

This course examines the ways in which gender, race, region, and class have shaped the historical experiences of American women. Students will trace women's lives from pre-European contact to 1877 through an examination of a wide variety of social, cultural, economic, and political forces and factors.

HISTORY 5570 Introduction to Material Culture Credits: 3

HISTORY 5570R Ancient Egypt Credits: 3

HISTORY 5571 American History Through Film Credits: 3

This course will move through the twentieth century and highlight major themes and developments that reveal the contours of American history as depicted in film. Students will examine the ways in which filmmakers have presented history, paying particular attention to the presentation of political, cultural, and social conflicts.

HISTORY 5571R Ancient Greece Credits: 3

HISTORY 5572R Ancient Rome Credits: 3

HISTORY 5574 Late Antiquity: The Transformation of the Mediterranean World (200-600 AD) Credits: 3

The decline of the Roman Empire and the barbarian invasions transformed the Mediterranean and European worlds, forming the foundation of Europe and the Islamic world. Students will investigate the multicultural society of Late Antiquity and become familiar with the primary sources for the period.

HISTORY 5575 Ancient Israel Credits: 3

Judaism has had a tremendous impact on our civilization and yet most Americans are only dimly aware of its origins and development. This course will trace the roots of the Jewish religion in its historical context from its beginning through the formation of rabbinic culture. The rise of Christianity will be examined in its original Judaic context, and recent discoveries, particularly those pertaining to the Dead Sea Scrolls, will be interpreted.

HISTORY 5575R The History of Ancient Israel Credits: 3

The History of Ancient Israel

HISTORY 5576R Medieval Jewish History Credits: 3

HISTORY 5577R Modern Jewish History Credits: 3

HISTORY 5578R The Holocaust and the State of Israel Credits: 3

The Holocaust and the State of Israel

HISTORY 5579 Public History: Theory and Method Credits: 3

This course explores the theoretical and methodological challenges that surround the public preservation and presentation of history in spaces like museums and historical societies. Students will learn the skills professionals use to communicate historical scholarship to wider audiences and will grapple with the issues around expanding history's stakeholders.

HISTORY 5580 The History Of The American South I Credits: 3

A study of the political, intellectual, cultural, economic, and social development of the American South up to and including the Civil War. Special topics discussed will be the plantation system, slavery, abolition, secession, the Confederacy and the interaction of the region with the nation.

HISTORY 5581 Research Methodologies Credits: 3

An introduction to a variety of research tools and techniques including such topics as evidence, critical method, verification, bibliography, book review, computers, statistics, and archival methods.

HISTORY 5581GR How To - History I Credits: 3

This foundational course in the doing of history will use the "great books" of historical scholarship to introduce graduate students to historical questions, methods, theories, and rhetorical strategies. The goal of the course is for the student to learn how to engage in historical criticism and formulate historical questions for themselves. This required course must be taken in the first year of graduate study in history.

HISTORY 5582 Colloquium In American History I Credits: 3

These courses are designed to acquaint the graduate student with the writings and theories of major American historians. Faculty lectures are combined with student bibliographical essays and the reading of important historical works in order to prepare the student for the final examination taken upon completion of M.A. course work. Books read in the course compose a large proportion of the departmental reading list.

HISTORY 5582A How To - History II A Credit: 1

This course teaches research-proposal writing including how to ask and answer a viable question and become an autonomous researcher in a scholarly community. Students will learn about career paths and development.

Prerequisites: HISTORY 5581GR.

HISTORY 5582B How To - History II B Credit: 1

This course, the second in a two-part sequence, will introduce graduate students to professional obligations and research methodologies of academic and public historians as well as examine diverse career paths for historians. Students will focus primarily on career development curriculum and experiences.

HISTORY 5583 Colloquium In American History II Credits: 3

These courses are designed to acquaint the graduate student with the writings and theories of major American historians. Faculty lectures are combined with student bibliographical essays and the reading of important historical works in order to prepare the student for the final examination taken upon completion of M.A. course work. Books read in the course compose a large proportion of the departmental reading list.

HISTORY 5583GR Medieval Methods & Paleography Credits: 3

This course examines the methodology and historiography of Medieval and Renaissance Studies. Through an introduction to paleography, the study of handwritings, it prepares students for advanced work in these fields. Using an interdisciplinary approach, this course examines the historical and cultural settings for texts, their physical form and production, as well as the tradition of textual transmission in the medieval and early modern world. In addition to gaining familiarity with many different types of primary sources, such as literary, artistic, legal, and notarial sources, students will be exposed to methods for archival work in various European nations.

HISTORY 5584R Colloquium In European History I Credits: 3

The European History Colloquium I will examine some of the crucial problems or watersheds in European history from antiquity through the Reformation. Course requirements include weekly discussions on specific topics and a research paper or project due by the end of the semester.

HISTORY 5585 Colloquium In European History II Credits: 3

The European History Colloquium II will examine some of the crucial problems or watersheds in European history from the Reformation through the 20th century. The course seeks to provide an in-depth study of specific topics and of the associated bibliography.

HISTORY 5585GR Colloquium in U.S. History Credits: 3

Students read broadly in the historiography of a particular historical problem, place, period, or specialization in U.S. History in order to master the relevant literature and hone their skills of historical criticism.

Co-requisites: HISTORY 5581GR.

HISTORY 5586GR Colloquium in World History Credits: 3

Students read broadly in the historiography of a particular historical problem, place, period, or specialization in world history in order to master the relevant literature and hone their skills of historical criticism.

Co-requisites: HISTORY 5581GR.

HISTORY 5587R Research Seminar Credits: 3

Students in this course will produce a major research paper under the direction of the instructor: a self-contained thesis chapter, an article for publication, or the equivalent.

Prerequisites: HISTORY 5582A.

HISTORY 5587RA Research Seminar Credits: 3

HISTORY 5587RB Research Seminar Credits: 3

HISTORY 5590 History Of The American South II Credits: 3

A study of the political, intellectual, cultural, economic, and social development of the American South since the Civil War. Topics discussed will be the molding of a "New South," twentieth century internal developments and the interaction of the region with the nation.

HISTORY 5591 Archival Methods Credits: 3

HISTORY 5592 Public History Internship Credits: 1-3

HISTORY 5593 Museum Studies Credits: 3

This course is designed to acquaint students with specific careers in museums and historical agencies; to introduce students to the wide range of operating issues facing those working in the museum profession on a day-to-day basis; and to familiarize students with the organizations, reference works and resources available to develop the skills and training required for those who choose to make this their profession.

HISTORY 5594 Public History and New Media Credits: 3

This course provides students with an understanding of how new media can advance the work of cultural heritage. While contributing to an ongoing digital project, the course will consider how historians utilize digital technology to analyze primary sources as well as how museums use social media to reach broader audiences.

HISTORY 5597 Non-Thesis Research/Reading Credits: 1-6

Individual direction of student reading or research by selected, consenting faculty. This course can be taken only when faculty supervision is unavailable in colloquia or seminars.

HISTORY 5599R Thesis Credits: 1-6

A contribution to knowledge based upon extensive research and reflective of careful analysis. Before writing a thesis, the student must clear the topic and research design with the Supervisory committee.

HISTORY 5680 Doctoral Colloquium Credits: 3

This course will examine the writings and theories of major historians in a particular field of history. The authors, works and intellectual currents which form the basis of the colloquium will vary from semester to semester, depending upon the professor's expertise and design for the course.

HISTORY 5687 Doctoral Research Seminar Credits: 3

Students in this course will produce a major research paper under the direction of the instructor. This shall consist of a self-contained chapter of the dissertation or a work of publishable quality. May be repeated for credit.

HISTORY 5687RB Doctoral Research Seminar Credits: 3

Students in this course will produce a major research paper under the direction of the instructor. This shall consist of a self-contained chapter of the dissertation or a work of publishable quality. May be repeated for credit.

HISTORY 5697 Doctoral-Level Independent Reading Credits: 1-6

Individual reading under the supervision of members of the History Doctoral Faculty in preparation for the Comprehensive Examination for the Ph.D.

HISTORY 5699R Dissertation Credits: 1-15

Course credits in dissertation.

HISTORY 5899 Required Graduate Enrollment Credit: 1

HISTORY 5990 Capstone Credits: 1-6

HISTORY H497 Special Topics and Readings Credits: 1-6

Intensive reading and/or research in an area selected by the student in consultation with the instructor. May be repeated for credit when the topic varies.

Bachelor of Arts: History

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- recognize, demonstrate, and apply general knowledge of the world's civilizations and peoples as well as their political, economic, social, and cultural histories.
- relate the events in their particular historic stories to the general history of the topic; and students relate their interpretation to existing historical scholarship.
- demonstrate the ability to identify and employ primary and/or secondary sources to research a topic.
- be able to use primary and secondary sources to construct an historical interpretation, demonstrating competency in identifying a problem, posing a hypothesis, proposing a methodology, and offering an interpretation of the evidence.
- be able to compose and present clear, well-organized, properly documented, and grammatical academic prose.

The Department of History has developed a set of carefully crafted learning objectives. Simply put, history majors are expected to acquire specified levels of knowledge, perspectives and skills through the study of the past. The learning objectives are designed to help students succeed in their undergraduate history major, as independent, creative and self-directed learners. More important, they will help students to be successful in their pursuit of a career and to hold a lifelong appreciation for the humanities and social sciences.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course		
ACT Math Subscore of 28 or higher; or SAT Math Subscore of 660 or higher

Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		10

Major Requirements

The History major consists of 36 total credit hours, but no credit will be given toward the major for courses in which the grade is below C-.

Two courses, or 6 credit hours, are required in survey courses, including United States History (HISTORY 101 or HISTORY 102), European History (HISTORY 201 or HISTORY 202), or World History (HISTORY 206 or HISTORY 208). Students will select one course, or 3 credit hours, from two of these three categories (United States, European, or World) for a total of two courses, or 6 credit hours. These courses may also fulfill UMKC general education requirements.

At least four courses, or 12 credits, inside the student's interest area. The history department divides all upper division courses into five interest areas: Antiquity and Medieval; Early Modern and Modern Europe; Public History; United States; and World. All majors should select a primary interest area in order to gain an in-depth understanding of their topic. A student can also devise a thematic interest area with approval by an Undergraduate History Advisor.

Students will also take additional courses from other interest areas to enlarge the scope of their historical knowledge. At least three courses, or 9 credits, should be outside of the student's primary interest area, and at least one non-western course, or 3 credits, should be taken covering Africa, Asia, Latin America, and/or indigenous North Americans.

The final two courses, or 6 credits, come from HISTORY 301WI and HISTORY 498WI. These courses cannot be taken in the same semester and are not offered in the summer.

Independent-study courses and Internship classes may also help fulfill History electives. Enrollment in these courses is granted only by the supervising instructor.

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits
Two Surveys, selecting one from two different categories:		6
Category 1: U.S. History		
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
Category 2: European History		
HISTORY 201	European History to 1600	
HISTORY 202	European History since 1600	
Category 3: World History		
HISTORY 206	World History To 1450	
HISTORY 208	World History since 1450	
At least four 300- or 400-level courses inside the student's interest area, chosen in consultation with department advisor (see below). ¹		12
At least three 300- or 400-level courses outside of the student's interest area.		9
At least one 300- or 400-level Non-Western course.		3
Methods Course:		3
HISTORY 301WI	Historiography and Method	
Capstone Course:		3
HISTORY 498WI	Senior Capstone	
Total Credits		36

¹ Students may petition for inclusion of up to 6 hours of relevant 300- and 400-level courses offered by other departments to be counted as major electives.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		44

Minimum GPA: 2.0

Total Credit Hours: 120

Interest Areas

Interest area electives may be taught on a rotation basis, please see advisor for current availability.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Interdisciplinary Ph.D. in History

History is an academic discipline eligible for full participation in UMKC's Interdisciplinary Ph.D. Program. Students interested in the study of history should review the School of Graduate Studies section for general and discipline-specific admission criteria, academic regulations, and degree requirements.

Master of Arts: History

This master's program is designed for students who already have completed a non-terminal baccalaureate degree with a major in history or a related field.

In this program, students will gain a broad understanding of the field of history, while developing an in-depth knowledge of historical scholarship in their areas of interest. Students may find that they develop these interests in the process of their interaction with the department faculty.

Admissions

Applications for the M.A. in History are reviewed continually during the calendar year. However, applicants must have their application completed at least six weeks prior to the desired semester of admission. To be considered for a graduate teaching assistantship or paid internship during the following academic year, and for maximum choice in coursework for the first semester, candidates intending to start in the fall term need to submit their application by February 1. There is a supplemental application for the graduate teaching assistantship and paid internship; the application forms are available under Student Resources (<https://cas.umkc.edu/history/student-resources/>) on the department website, <https://cas.umkc.edu/history/>.

Please contact the history M.A. advisor to convey your interest in applying or with questions regarding the history M.A. program. Inquiries also can be emailed to history@umkc.edu.

The History Department will consider for admission as a regular graduate student any student whose undergraduate major was history and who had a 3.0 grade point average in history courses and a 3.0 grade point average overall. Applicants who do not hold an undergraduate degree in history but whose baccalaureate program included substantial training in history and/or related subjects may be considered for regular admission.

Applying for the M.A. History Program

To the Office of Admissions (<http://www.umkc.edu/admissions/>)

- Application
- Official Transcripts and Test Scores (GRE not required)

To the History Department (<http://cas.umkc.edu/history/>)

- A two-page statement of purpose that explains your academic and professional goals, describes your academic interests (including the faculty with whom you wish to study), and presents relevant academic and work-related activities.
- A sample of your academic writing (minimum 15 pages).
- Three letters of recommendation (preferably from history professors). Letters should be on official letterhead.

It is your responsibility to confirm the receipt of all materials.

If admitted, students will be asked to sign a letter of intent to enroll.

Financial Aid

There are a limited number of graduate teaching assistantships and paid internships available. The School of Graduate Studies also administers graduate fellowships and scholarships. For all other inquiries about financial aid, contact:

Financial Aid and Scholarships Office
 Administrative Center, Room 101
 5115 Oak Street
 (816) 235-1154 (Kansas City Metro)
 1-800-775-8652 (Outside of Metro)
 Fax: (816) 235-5511
finaid@umkc.edu
<http://www.umkc.edu/finaid> (<http://www.umkc.edu/finaid/>)

Student Learning Outcomes

Students graduating from this program will:

- recognize, demonstrate, and apply in-depth knowledge of the world's civilizations and peoples as well as their political, economic, social, and cultural histories.
- relate the events in their particular historic story to the general history of the topic; and students relate their interpretations to existing historiography.
- demonstrate the ability to independently develop original scholarly inquiry, systematically researching the topic using appropriate primary and/or secondary sources.

- be able to use primary and secondary sources to independently construct an original historical interpretation: demonstrating competency in identifying a problem, posing a hypothesis, proposing a methodology, offering an interpretation of the evidence, and making an original contribution to scholarly debates.
- be able to compose and present clear, well-organized, properly documented, and grammatical prose in a form appropriate for scholarly publication.
- be able to appraise alternative readings of the past and connect them to their research in new holistic interpretations that offer new avenues for research or application to other studies.

Program Options

The Department of History offers two options leading to the Master of Arts degree—the M.A. in History and the M.A. in History with an emphasis in Public History, requiring 30 hours.

Requirements

Students seeking to fulfill either program option are required to complete the minimum number of credit hours of graduate-level work which must include the following courses with a grade of 2.67 (B-) or better:

Code	Title	Credits
For the MA in History		
Foundational Courses:		5
HISTORY 5581GR	How To - History I	
HISTORY 5582A	How To - History II A	
HISTORY 5582B	How To - History II B	
A Minimum of Three Graduate Colloquia, typically:		9
HISTORY 5585GR	Colloquium in U.S. History	
HISTORY 5586GR	Colloquium in World History	
Graduate Level Courses in Their Curriculum. ¹		12
Research Seminar:		3
HISTORY 5587R	Research Seminar	
Capstone Course:		1
HISTORY 5599R	Thesis	
HISTORY 5990	Capstone (Public History emphasis requirement)	
Total Credits		30

¹ The department encourages students to take graduate-level electives in the history department at the 5500 level. With the approval of the student's faculty advisor, however, students may take up to 6 credits at the 300-400 level if these fit with their overall program of study. Students may also take up to 9 credits in courses outside the department provided: 1) They are demonstrably graduate level courses. 2) They clearly relate to the student's program of study.

Public History Emphasis in Master of Arts in History

MA History - Public History Emphasis Website (<http://cas.umkc.edu/history/degree-options/graduate-programs/>)

Student Learning Outcomes

Students graduating from this program will:

- apply the ethical standards that govern the practice of public history in their scholarly and professional work.
- demonstrate the ability to execute a public history project.
- demonstrate the ability to interpret history for public audiences.
- demonstrate the ability to collaborate on a public history project.
- recognize, demonstrate, and apply in-depth knowledge of the world's civilizations and peoples as well as their political, economic, social, and cultural histories.
- relate the events in their particular historic story to the general history of the topic; and students relate their interpretations to existing historiography.
- demonstrate the ability to independently develop original scholarly inquiry, systematically researching the topic using appropriate primary and/or secondary sources.
- be able to use primary and secondary sources to independently construct an original historical interpretation: demonstrating competency in identifying a problem, posing a hypothesis, proposing a methodology, offering an interpretation of the evidence, and making an original contribution to scholarly debates.

- be able to compose and present clear, well-organized, properly documented, and grammatical prose in a form appropriate for scholarly publication.
- be able to appraise alternative readings of the past and connect them to their research in new holistic interpretations that offer new avenues for research or application to other studies.

Program Requirements

Code	Title	Credits
MA History Core Requirements		18
Required Field Experience, authorized by the Director of the Public History Emphasis		
HISTORY 5579	Public History: Theory and Method	3
Public History Electives:		9
HISTORY 5521	Oral History	
HISTORY 5593	Museum Studies	
HISTORY 5594	Public History and New Media	
PUB-ADM 5555A	Topics in Nonprofit Fund Raising: Organizing for Successful Fund Raising	
PUB-ADM 5555F	Topics in Nonprofit Fund Raising: Prospect Research and Proposal Writing	
UPD 430	Planning For Historic Preservation	
UPD 5526	History of Urban Planning & Design	
UPD 5743	Introduction to Historic Preservation	
Total Credits		30

Colloquia

These courses form the knowledge base for the graduate program. Students are encouraged to take as many of these as can fit into their program of study. In them, students will:

1. Read broadly and learn about the major trends in the historiography of a particular historical problem, place, period, or specialization.
2. Develop fundamental skills of the professional historian such as the ability to write academic book reviews, make conference-style presentations, and discuss among peers the work of other historians critically.

This course typically culminates in the production of a term paper and/or literature review on a subject of the student's interest that could serve as the context for a future research project.

Research Seminars

Students will produce an original work of scholarship anchored in primary sources that reflects their larger course of study. This paper will serve as the foundation of their M.A. thesis or capstone project.

Required Field Experience (for Public History emphasis)

Students pursuing the Public History emphasis must complete 200 hours of fieldwork at a cultural institution that aligns with their own professional goals. This institution could be a museum, historical society, archive, library, historic site, or cultural foundation. Public history students must receive authorization from the Director of the Public History Emphasis before beginning their field experience to ensure that it will count toward their degree.

Graduate Thesis or Capstone Course

In this course, taken near the completion of the program of study, students will complete, and defend in an oral examination, their advisor-approved thesis or capstone project. This final project can take one of three forms: a thesis, which is defined as a journal-length professional paper, based on original research using primary sources (10,000-12,000 words) (HISTORY 5599R); a public history capstone project (HISTORY 5990); or, for educators, an extensive unit plan (HISTORY 5990). See your advisor for additional guidelines about the thesis/capstone options.

Language Requirements

The M.A. in History will require demonstration of foreign language competency if the subject matter requires it. The faculty advisor will determine how this requirement should be fulfilled.

Minimum Expectations

Students must demonstrate satisfactory progress towards the completion of their degree. In all courses, students must:

1. Receive a grade of B- or higher.
2. Maintain a minimum cumulative 3.0 graduate GPA.
3. Adhere rigorously and conscientiously to academic standards of honesty.
4. Demonstrate serious commitment to scholarship and intellectual engagement.
5. Abide by all applicable requirements of the School of Graduate Studies. Please refer to the General Graduate Academic Regulations and Information (<https://catalog.umkc.edu/general-graduate-academic-regulations-information/>) section of this catalog.

In terms of administrative procedures, students must submit a program of study to the department's administrative assistant prior to the completion of 50% of applicable degree coursework. The program of study form is available on the Student Resources (<https://cas.umkc.edu/history/student-resources/>) page of the department website. Once the student completes their form, it must be approved by the faculty advisor (the faculty member who has agreed to serve as the committee chair for the student's thesis/capstone project), the other members of the supervisory committee, and the department chair.

Changes in the program of study must be approved by the student's advisor and the revised program of study must be submitted to the administrative assistant. If cumulative changes in courses or degree requirements exceed four, a new program of study should be filed.

Students who intend to complete the Public History emphasis must declare their emphasis by the completion of their 12th credit hour by forming a viable committee and completing a program of study.

Advisors and Committees

Upon their admission to the M.A. program, students will be assigned a faculty mentor. The faculty mentor:

- will serve as a personal connection to the department
- will assist the student in academic and professional matters during their study in the department
- may continue to serve as a mentor even after the student has identified a faculty advisor (their content specific instructor).

Supervisory Committee

The supervisory committee consists of three full-time, regular members of the UMKC History Department who are also members of the graduate faculty, with the student's faculty advisor serving as chair of this committee.

With the approval of the faculty advisor:

- One member of the committee may be a full-time, regular member of another UMKC department (this committee member must also be a member of the graduate faculty).
- A fourth member may be added to the committee from the adjunct graduate faculty or from the graduate faculty of another institution.

Students in the Public History emphasis are encouraged to have on their committee both a faculty advisor who specializes in the content area related to their capstone project and a faculty member who specializes in public history. Public history students are also permitted to include on their committee members of the adjunct graduate history faculty who work professionally in the field of public history in the Kansas City region.

Extenuating Circumstances

Students incapable of meeting administrative deadlines may request an extension from the M.A. advisor. These requests must be made in writing in advance of the deadlines. Incompletes will be given only when there are legitimate reasons for not completing course requirements on time, and only when there are reasonable expectations that work can be completed within the time allowed by the School of Graduate Studies (maximum of one year).

Probation

Failing any of these conditions means that the student is not making satisfactory progress towards the completion of their degree. In that case, the student will be placed on probation and will have to petition the department, through a letter to the M.A. advisor and graduate committee, for permission to resume their studies the following semester. The department will then recommend a reasonable plan for remediation. If the student fails to meet the standards set by the department, the student will be declared ineligible for enrollment and dropped from the program.

Honorary Organizations

The department sponsors a chapter of the national history honor society, Phi Alpha Theta. To be eligible for Phi Alpha Theta, graduate students should have completed a minimum of 12 semester hours towards their master's degree in history and have a GPA of better than 3.5.

Students should strongly consider membership in professional organizations for historians, such as the American Historical Association (<http://www.historians.org>) and others.

The Annual Graduate Student Conference

The History Department hosts an annual Graduate Student Conference each December. Graduate students should plan to attend as required by the program. In it, students will:

- demonstrate their expertise in a research agenda of their own creation,
- present their research to peers and faculty,
- comment constructively and critically on the research of others,
- engage critical questions in public, and
- celebrate their academic achievements that year.

History Department Graduate Student Awards

Each spring, the faculty will present three graduate student prizes: the Carla Klausner Award for the Best Original History Research Paper; the Louis Potts Award for the Best Original Research Paper on Midwestern History; and the Lynda Payne Award for the Best Public History Project. The Captain Harry S. Truman Prize is awarded annually to the best undergraduate or graduate student paper on a topic related to WWI.

Accelerated BA-MA: History

Student Learning Outcomes

Students graduating from this program will:

- Students recognize, demonstrate, and apply in depth knowledge of the world's civilizations and peoples as well as their political, economic, social, and cultural histories.
- Students relate the events in their particular historic story to the general history of the topic; and students relate their interpretations to existing historiography.
- Students demonstrate the ability to independently develop original scholarly inquiry, systematically researching the topic using appropriate primary and/or secondary sources.
- Students use primary and secondary sources to independently construct an original historical interpretation: demonstrating competency in identifying a problem, posing a hypothesis, proposing a methodology, offering an interpretation of the evidence, and making an original contribution to scholarly debates.
- Students are able to compose and present clear, well-organized, properly documented, and grammatical prose in a form appropriate for scholarly publication.
- Students are able to appraise alternative readings of the past and connect them to their research in new holistic interpretations that offer new avenues for research or application to other studies.
- Public History Emphasis Only: Students apply the ethical standards that govern the practice of public history in their scholarly and professional work.
- Public History Emphasis Only: Students demonstrate the ability to execute a public history project.
- Public History Emphasis Only: Students demonstrate the ability to interpret history for public audiences.
- Public History Emphasis Only: Students demonstrate the ability to collaborate on a public history project.

The courses offered for this program are the same as for the already existing BA and MA programs. All that will differ is the recommended order of enrolling in the courses as well as the allowance of 9 MA student credit hours to count toward the BA (substituting for History 301WI, History 498WI, and one 300/400-level elective). Please note that the BA/MA with Public History emphasis requires much of the same coursework as the BA/MA with the exception of dedicating MA elective courses to public history coursework and 200 hours of fieldwork. Attached below are sample programs of study for the BA/MA and the BA/MA with Public History emphasis programs.

Minor in History

Student Learning Outcomes

Students graduating from this program will:

- recognize, demonstrate, and apply general knowledge of the world's civilizations and peoples as well as their political, economic, social, and cultural histories

- relate the events in their particular stories about the past to the general history of the topic
- demonstrate the ability to identify and employ primary and/or secondary sources to research a historical topic
- be able to compose and present clear, well-organized, properly documented, and grammatical academic prose

Program Requirements

A minor in history may be earned with a minimum of 18 credit hours of coursework in the discipline (at least 12 of which must be at the 300- and 400-level). A maximum of 6 of the 18 credit hours may be taken in two of the survey courses. Students may petition for inclusion of up to 3 hours of relevant 300- and 400-level courses offered by other departments to be counted towards the minor. For program description and course selection, please refer to the Bachelor of Arts in History (p. 850). A history minor also may be earned online.

University of Missouri-Kansas City
 Latinx and Latin American Studies
 Haag Hall 204
 5100 Rockhill Road
 Kansas City, MO 64110-2499

Program Description:

The mission of Latinx and Latin American Studies (LLS), a program based in the College of Arts and Sciences, is to function as a vehicle for interdisciplinary and multidisciplinary teaching, research and outreach focusing on Latinas/os-Chicanas/os in the U.S. The LLS program will provide an awareness and understanding of the wide diversity of Latino communities, cultures and backgrounds. The development and expansion of our curricula will serve to empower our students with the concepts and skills to better understand a rapidly growing Latina/o population. The LLS program will engage students, scholars and the greater Kansas City community in collaborative projects, programs and service learning efforts. These efforts will foster new curricula and advance research and outreach scholarship to create new knowledge to better understand the cultural, economic, and historical experiences and contributions of U.S. Latinas/os-Chicanas/os and their diasporic origins.

Program Activities:

- Provide all UMKC students with critical understanding of the historical, political and social context in which Latino/Chicano communities have evolved and continue to be established in the U.S., with particular attention to the greater Kansas City metropolitan area and the Midwest region. Crucial to this goal is the understanding of the transnational nature of these community ties.
- Provide access to a quality education for Latina/o students and other students interested in Latina/o-Chicana/o Studies and at the same time enhance diversity on the campus.
- Strengthen ties with UMKC Latina/o alumni
- Engage other area Latina/o professionals in LLS activities
- Strengthen ties between the UMKC and the Latino community.
- Establish UMKC as a center of teaching, learning and research on Latino/Chicano populations.
- Establish and/or strengthen alliances with local Latina/o community organizations, e.g. Guadalupe Center (KCMO), El Centro (KCK), Dos Mundos, KC Hispanic News, Mattie Rhodes Art and Counseling Center, The Mexican Consulate, Latino Writers Collective
- Create alliances/connections with local non-Latina/o organizations, e.g. Nelson-Atkins Art Museum, Kauffman Center for the Performing Arts, Kansas City Public Libraries and the Kansas City Museum

Faculty

Professors:

Miguel A. Carranza^{1,2} professor emeritus of latina/latino studies and sociology; B.A. (Kearney State College); M.A., Ph.D. (University of Notre Dame).

Associate Professor:

Theresa L. Torres^{1,2}; associate professor of latina/latino studies and sociology; B.A. (Benedictine College); M.A. (Boston College); Ph.D. (Catholic University of America).

Academic Advisor:

Norma E. Cantú

¹ Members of UMKC Graduate Faculty

² Members of UMKC Doctoral Faculty

Undergraduate

Latinx and Latin American Studies Minor

Student Learning Outcomes

Students graduating from this program will:

- Examine the role and diversity of Latinxs and the Latinx diaspora in U.S. society and its transnationalism
- Analyze and interpret the history, experiences, and contributions of Latinxs in the ongoing formation of U.S. society
- Analyze the contributions of Latinx and Latin American Studies to the cultures of the world
- Employ Latinx and Latin American Studies theories and practices to assess societal challenges and promote social justice

The minor in Latinx and Latin American Studies is comprised of 18 hours. Nine (9) credit hours must be in upper division (300 or 400) level courses. A minimum of nine (9) of the 18 hours are required in Latinx and Latin American Studies.

Courses

LLS 201 Introduction to Latinx and Latin American Studies Credits: 3

This course addresses and examines the social, economic, and political factors that have influenced the historical experiences of Latinx in the U.S. and Latin Americans. Attention will focus on the major concepts, issues and debates in the field of Latinx and Latin American Studies. Particular consideration will be given to an analysis of and understanding as to how these factors have influenced the past and present status of Latinxs in U.S. society. Given the diversity existing within the Latinx population, the course will be comparative, cross-cultural, and interdisciplinary in nature.

LLS 300 Special Topics in Latinx and Latin American Studies Credits: 3

A variable content course offered in the area of Latinx and Latin American studies.

LLS 310 The World of Latinx Youth and Adolescents in the U.S. Credits: 3

This course will provide a general introduction and in-depth understanding to the largest group of racial/ethnic adolescents in the United States: Latinx youth. An historical examination of Latinx youth will provide a better understanding of their present status, with emphasis on their contact and interactions within social institutions. Additionally, students will analyze the experiences Latinx youth have within and among other groups in the broader social context based on past, present, and possible future interactions.

LLS 315 Arts Of African and New World Cultures Credits: 3

This historical survey of ethnographic arts examines the diasporas of African art and the influences of Africans on the arts of new world cultures (in Brazil, Surinam, Cuba, Haiti, and the United States) and Meso-American art and the influence of Meso-Americans on the arts of the Native North American cultures.

LLS 320 Ethnic and Minority Perspectives in Psychology Credits: 3

The theory, methods and content of psychology relevant to the interests and needs of ethnic minorities, and the contributions of ethnic groups and other minorities to psychology.

Prerequisites: PSYCH 210 with a C- or better.

LLS 322 Race and Ethnic Relations Credits: 3

The nature, origin and dynamics of ethnic and race relations in the U. S. and other societies. Specific attention will be given to the historical and contemporary contexts of prejudice discrimination and confrontation.

LLS 346 Urban Latin America Credits: 3

Introduction, overview, and analysis of major contemporary urban issues in Latin America.

LLS 348 Latinx Immigrants, Migrants, and Refugees in the U.S. Credits: 3

This course addresses the culture of societies of U.S. citizens, immigrants, and refugees of Latin American heritage living in the U.S. The course emphasizes recent anthropological, historical, cultural, and sociological studies.

LLS 353 Covering Urban Latinx Communities Credits: 3

This course focuses on journalistic methods of reporting Latinx communities, which are part of major urban areas. It covers topics on immigration, health care, policy, cultural diversity, race, legal issues, and education. It brings the voice of the Latinx communities into news stories. Various storytelling skills and ideas taught in this course will prepare students to cover the Latinx communities in urban areas and beyond.

LLS 397 Independent Readings in Latinx and Latin American Studies Credits: 1-3

Students will complete extensive readings in an area selected by the student with prior consultation with instructor.

LLS 400 Advanced Special Topics in Latinx and Latin American Studies Credits: 3

This course is a variable content course and offered as a result of specialized faculty interest, student demand, or the availability of a visiting expert in a field closely related to Latinx and Latin American Studies.

LLS 404 Women and Gender in Latin America Credits: 3

This course studies gender in Latin America from the eve of conquest by the Portuguese and Spanish in the fifteenth century to the present. It examines how ideas about gender affected the lives of Latin American men and women. This course additionally analyzes how gender and race contributed to the creation of a hierarchical social order. Finally, it discusses the exercise of authority within and outside households and its impact on private and public spaces.

LLS 405 Colonial Latin America (From the Encounter to the Early 19th Century) Credits: 3

This course discusses the conquest and colonization of Latin American by the Spanish and the Portuguese imperial powers from the time of the encounter to the early nineteenth century. It studies the Iberian, Indigenous and African cultures and their influence in the creation of a hierarchical imperial order. Emphasis is given to the impact of the conquest, the economics of exploitation, race, sexual and gender identities and, religious and legal domination.

LLS 406 Modern Latin America Credits: 3

This course studies social, political, economic and cultural trends in Latin America in the nineteenth and twentieth centuries. Discussion topics include nation building after independence with an emphasis on gender and race in the creation of national identities and new forms of social stratification; integration of national economies into the world economic system; the expansion of political participation and citizenship; immigration and the tensions caused by the forces of modernization and tradition.

LLS 407 Latin American Crises and Opportunities Credits: 3

This course studies why Latin America has experienced in the 20th and 21st centuries recurrent economic and political crises – and why it is still a land of enormous opportunity. While this is primarily a history course, it undertakes a multidisciplinary examination of the region's strengths and weaknesses by discussing theories of economic development, political and sociological models as well as the influence of crime and violence. Case studies anchored in representative countries will be used to illustrate historical trends and theories.

LLS 421 Made in the USA: Latinx Art and Experience Credits: 3

This course focuses on art of and by members of the U.S. Latinx community. Students in this course will engage with the politics of representation, gender, sexuality, race, class, and ethnicity in Latinx art, as well as visual and popular culture.

LLS 431 Hate & Bias Crimes Credits: 3

The purpose of this course is to examine the development and enforcement of hate crime law within our legal system. Discussion focuses on the causes and consequences of hate crimes, the constitutional issues associated with bias crime statutes, and the effectiveness of formal and informal social controls for eliminating hate and bias crimes.

LLS 497 Directed Research Credits: 1-3

Students will develop and conduct a research project in an area selected by the student under the supervision of a faculty member. Students may only enroll in 6 total credits of LLS 497 during their time at UMKC.

Prerequisites: Junior or Senior Level Standing.

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Be able to identify and articulate scholarly questions based on evidence and approaches from more than one disciplinary area.
- Be able to demonstrate the ability to gather and organize scholarly literature and raw data needed to answer scholarly questions.
- Be able to demonstrate the ability to analyze and evaluate scholarly literature and raw data to answer scholarly questions.
- Be able to effectively communicate the results of their work via either expository rhetoric or a creative work to an audience that does not specialize in their area of study or share their disciplinary perspective.
- Be able to effectively craft their program of study for intellectual and professional purposes as the foundation for life-long learning.

Program Description

The College of Arts and Sciences offers the bachelor of liberal arts (B.L.A.) degree for individuals who seek scientific literacy, an understanding of the social sciences and an appreciation of the humanities. The B.L.A. is an alternative to the B.A./B.S. degree programs and is for individuals who do not wish to commit themselves to a specialty, whose aspirations are not served by a traditional major, and who desire maximum flexibility in course selection.

Students who have found the B.L.A. degree particularly beneficial are those who have matriculated into the six-year medical program and pursue the combined B.L.A./M.D. degrees and those students wishing to apply to the UMKC School of Law through the Early Entry Law Program.

Potential for Graduate Study

Students completing the B.L.A. degree have the potential to pursue graduate study in many areas. One option is the Master of Arts in Liberal Studies, a master's degree similar in structure to the B.L.A., which continues the tradition of interdisciplinary work in the College at the intermediate level between baccalaureate and doctoral work. Students completing the B.L.A. degree who wish to continue their education at the graduate level are strongly encouraged to seek counsel from a graduate adviser in that discipline early in their undergraduate career.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course		
ACT Math Subscore of 28 or higher; or SAT Math Subscore of 660 or higher		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	

POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
	Writing Intensive Course (300-level or above)	3
	Laboratory Science Experience	1
Total Credits		4

BLA Requirements

Hour Requirements and Eligibility

A 2.0 GPA is required to declare intent to pursue the B.L.A. and a 2.0 overall GPA is required by the University of Missouri for graduation.

The credit/non-credit option is not available for students pursuing this degree.

Minor Requirement

Students must complete a minor offered by any interdisciplinary program or department in the University. Students may also complete a Missouri Department of Higher Education (MDHE) approved emphasis area to fulfill the minor requirement. The Black Studies Emphasis Area (p. 603) is currently the only MDHE approved emphasis area for the BLA. Students will work with the faculty adviser corresponding to the selected minor or emphasis area.

Area Requirements and Limitations Applicable to This Degree

Code	Title	Credits
	Humanities Area	18
	Natural Sciences	18
	Social Sciences Area	18
Total Credits		54

At least 36 of the total hours must be at the junior/senior (300-400) level. Twelve of these junior/senior (300-400) level hours must be taken within the BLA Area Requirements at UMKC or in the College of Arts and Sciences at UMKC. Additionally, coursework must be taken from at least two departments in each division.

Students should note that some departments within the College of Arts and Sciences (for example, geosciences and history departments) offer coursework that can be applied to more than one division. Students should consult with an advisor in selecting coursework to ensure that they receive proper credit in the various divisions required for the degree.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		29

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

Fall Semester	Credits	Spring Semester	Credits
GEFSE 101		3 ENGLISH 225	3
ENGLISH 110		3 COMM-ST 110 or 277	3

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Master of Arts in Liberal Studies

Program Description

The Master of Arts in Liberal Studies (MALS) degree program enables individuals to pursue interdisciplinary studies at the graduate level. Courses provide students the opportunity to extend the best experiences of baccalaureate liberal education to the graduate level.

Students admitted to the program will be encouraged to select one of the graduate certificate programs or informal focus areas listed below and will develop a program of study with the cooperation of the assigned advisor.

- Bioethics (graduate certificate)
- Black Studies (graduate certificate or informal focus area)
- Film and Media Studies (informal focus area)
- Gerontology (graduate certificate)
- Holocaust Studies (graduate certificate)
- Humanities Consortium (informal focus area)
- Medieval and Early Modern Studies (graduate certificate)
- Women's and Gender Studies (informal focus area)

Alternatively, students with a strong interest in a different interdisciplinary area of study within the College of Arts and Sciences may submit a statement indicating interest in designing an individualized plan of study. In order to ensure that courses to support a proposed individualized plan of study are available at UMKC, students who want to pursue this option should suggest a list of courses offered in the College of Arts and Sciences that could contribute to their desired area of study. Students wishing to pursue this option should contact the MALS advisor for assistance developing this list of courses.

Student diplomas will list the degree as a Master of Arts in Liberal Studies. The subject field of approved graduate certificates will be designated on a student transcript. Students pursuing informal focus areas with the Master of Arts in Liberal Studies will not have these subject designations on their transcript.

Admission to the Program

Individuals admitted to the program must have a baccalaureate or equivalent degree and mature academic interests. A minimum undergraduate 3.25 GPA is desirable but can be offset by professional and career accomplishments outside academe.

Individuals applying for admission should submit, in addition to the UMKC application, the following documents:

- a statement of purpose in the form of a personal essay of approximately 1,000 words outlining the focus area the applicant wishes to pursue, reasons for applying, and academic plans and goals. Any applicant who does not choose one of the specific certificate programs or informal focus areas listed for the MALS program should also include a statement indicating interest in designing an individualized plan of study. Such a statement should indicate the proposed area of study and a list of courses offered in the College of Arts and Sciences that would contribute to the area of study.
- a sample of recent academic writing
- 3 letters of recommendation

These documents (except the UMKC application) should be sent directly to the Master of Arts in Liberal Studies Program, UMKC, 5121 Rockhill Road, Cockeair 106, Kansas City, MO 64110.

Prior to submitting an application, prospective students should speak with the program advisor or a member of the faculty who works in their chosen focus area.

The deadline to apply for Fall Semester is March 1. The deadline to apply for Spring Semester is November 1.

Student Learning Outcomes

Students graduating from this program will:

- be able to identify and articulate scholarly problems and questions based on evidence and approaches from more than one disciplinary area at an advanced level.
- be able to gather and organize the primary source materials and raw data needed to answer these questions at an advanced level.
- be able to analyze relevant primary source materials and raw data to create a coherent answer to a scholarly problem or question at an advanced level.
- be able to critically appraise scholarly conversations in multiple fields, create a coherent interpretation, and take a critical position in these debates.
- be able to effectively communicate, at an advanced level, the results of their work via either expository prose or a creative work to an audience that does not specialize in their area of study or share their disciplinary perspective.

Requirements for Completion of the Degree

The degree is a 36 credit hour program. Generally, each participant's plan of study will consist of three parts.

Program participants begin by enrolling in A&S 5509. On completion of this required three hour introductory seminar, participants earn 30 credit hours based on the study plan associated with their graduate certificate program, informal focus area, or their individual study plan. At the conclusion of the program, individuals enroll in a required three hour capstone seminar, A&S 5520.

Please consult the MALS website at cas.umkc.edu/MALS for advising worksheets for each of the graduate certificate programs and informal focus areas that can be pursued in conjunction with the MALS.

A written thesis is not required, but individuals who wish to complete a thesis project may apply three credit hours of A&S 5540 toward their degree requirements. An individual who works well independently and who has a particular interest that lends itself to detailed research is especially encouraged to consider the thesis option. With the thesis option, the participant will select a faculty advisor who will direct the plan of study and research.

Two courses (6 hours) may be taken from another school at the university outside of the College of Arts and Sciences. No more than 12 hours at the 400-level (or 300-level when permitted by the department) may be applied to the plan of study.

Relationship of the MALS to Interdisciplinary Doctoral Degrees

The College of Arts and Sciences has a strong tradition of interdisciplinary studies at both the baccalaureate and doctoral levels.

The Master of Arts in Liberal Studies degree continues the tradition of interdisciplinary work in the college at the intermediate level between baccalaureate and doctoral work. In a few cases, students completing this degree may find the transition to doctoral work as the appropriate next step. However, students should recognize that the degree is not designed to provide students in the program with specific subject skills usually associated with targeted career objectives in traditional research areas.

Students interested in coordinating their M.A. in Liberal Studies coursework with future doctoral work at UMKC are strongly encouraged to make this intent known at the outset of their work. Without initial planning conducted with a committee of doctoral faculty, a student's master's coursework may not be appropriate to later doctoral studies.

Relationship of the MALS to Interdisciplinary Doctoral Degrees

The College of Arts and Sciences has a strong tradition of interdisciplinary studies at both the baccalaureate and doctoral levels.

The Master of Arts in Liberal Studies degree continues the tradition of interdisciplinary work in the college at the intermediate level between baccalaureate and doctoral work. Department Description

The Department of Mathematics and Statistics offers coursework leading to the Bachelor of Arts and Bachelor of Science degrees in Mathematics. At the graduate level, the department offers a Master of Science degree in Mathematics and a Master of Science degree in Statistics, and participates in the UMKC School of Graduate Studies Interdisciplinary Ph.D. program. Qualified students can select Mathematics as the coordinating unit or a co-discipline when applying for admission or preparing their plans of study. See the School of Graduate Studies (p. 1589) section in the Graduate Catalog for more information about the Ph.D. program.

These programs are designed to develop the student's own knowledge of mathematics or statistics, and to provide the tools and understanding necessary for the study of other scientific and quantitative fields.

The Department of Mathematics and Statistics has an institutional membership in the American Mathematical Society.

Advising System

Advising is on an individual basis with senior mathematics faculty members. Appointments for advising may be made by contacting the department, the undergraduate advisor, the principal graduate advisor, or the interdisciplinary Ph.D. coordinator.

Library Resources

In addition to UMKC's Miller Nichols Library, the department has full access to the holdings and services of the Linda Hall Library of Science and Technology (<http://www.lindahall.org>), a privately endowed institution of international prominence. The Linda Hall Library subscribes to more than 700 mathematics journals and maintains a large and growing collection of mathematics books.

Faculty

Majid Bani-Yaghoub^{2,3}; assistant professor of mathematics; Ph.D. (Carleton University, Canada).

Richard Delaware¹; teaching professor of mathematics; B.S. (Santa Clara University); M.A. (University of Kansas); Ph.D. (University of Missouri - Kansas City).

Eric J. Hall^{2,3}; associate professor of mathematics; B.A. (Carleton College); Ph.D. (University of Michigan).

Kristin Kathman; lecturer in mathematics; B.S., M.S. (University of Missouri - Kansas City).

Xianping Li^{2,3}; assistant professor of mathematics; Ph.D. (University of Kansas).

Kamel Rekab^{2,3}; professor of statistics; M.S. (Stanford University); Ph.D. (University of Michigan).

Noah H. Rhee^{2,3}; professor of mathematics; B.S. (Seoul National University, South Korea); Ph.D. (Michigan State University).

Liana Segă^{2,3}; associate professor of mathematics; B.S. (University of Bucharest, Romania); Ph.D. (Purdue University).

Stephanie Van Rhein; lecturer in mathematics; B.S., M.S. (Missouri University of Science and Technology).

Hristo D. Voulou^{2,3}; associate professor of mathematics; M.S., Ph.D. (Sofia University, Bulgaria).

Yong Zeng^{2,3}; professor of statistics; B.S. (Fudan University, China); M.S. (University of Georgia); Ph.D. (University of Wisconsin - Madison).

Mathematics Courses

MATH 109 Precalculus Algebra Fundamentals Credits: 2

This course is required for students not meeting full placement requirements for MATH 110 (Precalculus Algebra) in order to concurrently enroll in MATH 110. Fundamental topics and skills that are necessary for success in MATH 110 will be developed in close alignment with the material covered in MATH 110 over the course of the semester. Students enrolling in this co-requisite course must remain enrolled in both courses for the semester. Students will not be permitted to withdraw from one of the courses (either MATH 109 and MATH 110) and not the other. Grades are not counted toward GPA. Does not fulfill Arts and Sciences mathematics requirement. Does not count toward graduation.

Prerequisites: ALEKS Score of 35 or higher; or ACT Math Sub-score of 18 or higher; or SAT Math Sub-score of 500 or higher.

Co-requisites: MATH 110.

MATH 110 Precalculus Algebra Credits: 3

Functions and graphs. Inverses, compositions, and transformation of functions. Solving equations, systems of equations, and inequalities. Linear, quadratic, polynomial, and rational functions. Exponential and logarithm functions and applications.

Prerequisite: MATH 100 with a grade of B- or higher; or ALEKS Score of 51 or higher; or ACT Math Sub-score of 22 or higher; or SAT Math Sub-score of 540 or higher; or concurrent enrollment in MATH 109.

MATH 110 - MOTR MATH 130: Pre-Calculus Algebra

MATH 116 Mathematics For Liberal Arts Credits: 3

A survey of elementary mathematics covering such topics as: logic, sets, counting methods, introduction to probability theory, introductory statistics, plane and coordinate geometry. The course will emphasize mathematical concepts and does not require the level of computational skill of College Algebra. Topics from the history of mathematics will be presented as well as the influence of mathematics on a variety of disciplines. Recommended preparation: Three units of high school mathematics Algebra I and higher.

MATH 116 - MOTR MATH 120: Mathematical Reasoning Modeling

MATH 120 Precalculus Credits: 5

Functions and graphs. Inverses, compositions, and transformation of functions. Solving equations and systems of equations, and inequalities. Linear, quadratic, polynomial, and rational functions. Exponential and logarithm functions and applications. Trigonometric functions, trigonometric identities, triangles. Credit will be given for either MATH 110 or MATH 120, and for either MATH 120 or MATH 125.

Prerequisites: ALEKS Score of 56 or higher; ACT Math Sub-score of 24 or higher; or SAT Math Sub-score of 580 or higher.

MATH 120 - MOTR MATH 150: Pre-Calculus**MATH 125 Trigonometry Credits: 2**

Trigonometric functions, trigonometric identities, triangles, and complex numbers. Credit will be given for either MATH 120 or MATH 125.

Prerequisites: MATH 110 with a grade of C- or higher; or ALEKS Score of 63 or higher; or ACT Math Sub-score of 28 or higher; or SAT Math Sub-score of 660 or higher.

MATH 206 Brief Calculus And Matrix Algebra Credits: 3

Brief review of selected topics in algebra. Introduction to matrix algebra. Introduction to differential calculus and optimization. Applications to problems in business.

Prerequisites: MATH 110 with a grade of C- or higher; or MATH 120 or higher with a grade of C- or higher; or ALEKS Score of 63 or higher.

MATH 210 Calculus I Credits: 4

Functions and graphs, rational, trigonometric, exponential functions, composite and inverse functions, limits and continuity, differentiation and its applications, integration and its applications.

Prerequisites: MATH 120 with a grade of C- or higher; or both MATH 110 and MATH 125 both with a grade of C- or higher; or ALEKS score of 76 or higher.

MATH 220 Calculus II Credits: 4

Techniques of integration, applications of the definite integral, improper integrals, sequences and series, power series. Taylor series and convergence, analytic geometry in calculus. Recommended preparation: MATH 210 or MATH 216.

MATH 250 Calculus III Credits: 4

Vectors, solid analytic geometry, vector functions and multiple variable functions, partial derivatives, multiple integrals, line and surface integrals with applications.

Prerequisites: MATH 220 or MATH 268.

MATH 266 Accelerated Calculus I Credits: 4

An accelerated first course in calculus focusing on application of differential calculus and basic vector and matrix calculations. Enrollment in this course requires permission from the School of Computing and Engineering.

Prerequisites: MATH 120 with a grade of B or higher; or both MATH 110 MATH 125 with a grade of B or higher; or ALEKS assessment score of 76% or higher.

MATH 268 Accelerated Calculus II Credits: 3

An accelerated second course in calculus focusing on application of integral calculus, analytic geometry, and vector analysis.

Prerequisites: MATH 266; School of Computing Engineering Student.

MATH 300 Linear Algebra I Credits: 3

Linear equations, matrix algebra, real vector spaces, linear transformations, determinants, eigenvalues and eigenvectors, orthogonality, and applications.

Prerequisites: MATH 250, (or MATH 220 and COMP-SCI 191).

MATH 301 On Solid Ground: Sets and Proof Credits: 3

This course is a transition from procedural mathematics, such as calculus, to advanced mathematics where proofs are the professional language of discourse. It covers basic set theory and logic, relations and functions, and how to analyze, construct, and write clearly reasoned, well-structured elementary proofs using universal techniques. This course satisfies a state requirement for teacher certification.

Prerequisites: MATH 220.

MATH 345 Ordinary Differential Equations Credits: 3

Students will study first order equations, linear second order differential equations, Taylor series and power series solutions, Laplace transforms, elementary systems of differential equations, numerical methods, and Fourier series and boundary value problems.

Prerequisites: MATH 250.

MATH 345L Ordinary Differential Equations Lab Credit: 1

This laboratory will enable the students to numerically solve first order, second order and systems of ordinary differential equations. Topics include Curve Fitting, Parameter Estimation, Numerical Solutions of Initial and Boundary Value Problems, and Model Specification.

Prerequisites: MATH 250.

MATH 402 Advanced Analysis I Credits: 3

Numerical sequences and completeness of the real numbers, numerical series, continuity and differentiation of real-valued functions of a real variable, integration and the fundamental theorem of calculus.

Prerequisites: MATH 250, MATH 301 (with a grade of B- or better).

MATH 406 Partial Differential Equations Credits: 3

Separation of variables, boundary value problems, Fourier series and integrals, wave equation, heat equation, potential equation, problems in several dimensions, and Bessel's differential equation.

Prerequisites: MATH 345 (or E&C-ENGR 241, or MEC-ENGR 272).

MATH 407 Introduction to Complex Variables Credits: 3

Complex numbers, complex differentiation, elementary functions, contour integration and the Cauchy integral formula, Taylor series and Laurent series, residue calculus and its applications, and special functions.

Prerequisites: MATH 250 and MATH 300 (or MATH 301 or MATH 345 or E&C-ENGR 241 or MEC-ENGR 272) with a grade of B- or better.

MATH 410 Modern Algebra Credits: 3

Groups, rings, integral domains, fields and polynomial rings.

Prerequisites: MATH 300, MATH 301 (with a grade of B- or better).

MATH 412 Advanced Analysis II Credits: 3

Topics in advanced analysis such as sequences and series of functions, power series and elementary functions, Fourier series, metric spaces, analysis in Euclidean spaces, or advanced integration.

Prerequisites: MATH 402.

MATH 420 Linear Algebra II Credits: 3

The topics of MATH 300 are expanded and presented in the context of vector spaces over a field, with rigorous justification. Vector spaces and linear transformations, determinants, eigenvalues and eigenvectors, inner product spaces and orthogonality.

Prerequisites: MATH 300, MATH 301 (with a grade of B- or better).

MATH 434 Introduction to Scientific Computing Credits: 3

This course provides a comprehensive introduction to numerical methods used in scientific computing. It focuses on solving math models arising from other fields such as physics, engineering, biology, and economics. The topics include mathematical foundations, numerical linear algebra, finite difference method, finite volume method, finite element method, and parallel computing. Recommended preparation: MATH 300.

MATH 464WI History Of Mathematics Credits: 3

Topics in the History of Mathematics from Babylonian times through the invention and consolidation of Calculus, with some modern subjects as time permits. The course will emphasize proofs, ideas, and arguments as given in original sources (in translation) from around the world and throughout history. In this writing intensive course, one or two term papers, in addition to several short essays and historical proof explications are required. A field trip will be taken to the Linda Hall Library Rare Book Room. This course is of special interest to secondary mathematics teachers as well as mathematics majors. Recommended preparation: MATH 301.

MATH 469 Mathematical Modeling Credits: 3

This course introduces analytical and numerical techniques for modeling and analysis of real-world problems in areas such as economics, engineering, biology and physics. It is designed for students with basic knowledge of linear algebra and differential equations. Interdisciplinary modeling projects are the integral part of this course. Recommended preparation: MATH 300 and MATH 345.

MATH 490 Special Topics Credits: 1-3

Selected topics in various fields of mathematics. May be repeated for credit when the topic varies.

MATH 496 Internship/Practical Training in Mathematics or Statistics Credits: 1-3

This course provides an internship or other practical training arrangement using mathematics or statistics in an industrial, academic or other professional setting. Department approval of internship experience or practical experience required. Repeatable with up to a combined 3 credits toward the major. Recommended preparation: MATH 250.

MATH 5509 General Algebra I Credits: 3

Groups, rings, modules, homology, fields and Galois theory, valuations, matrices, and multilinear algebra. Continued in MATH 5519.

Prerequisites: MATH 410, MATH 420.

MATH 5510 Complex Variables I Credits: 3

The group of linear fractional transformations, complex integration, Cauchy's theorem, the maximum modulus theorem, analytic continuation, Riemann surfaces. Continued in MATH 5520.

Prerequisites: MATH 402, MATH 407.

MATH 5513 Real Variables I Credits: 3

Theory of measure with applications to analysis. Riemann and Lebesgue integration. Continued in MATH 5523.

Prerequisites: MATH 402, MATH 412.

MATH 5514 Mathematics for Secondary Teachers: Algebra and Analysis Credits: 3

Designed for secondary-school teachers. Examine high school mathematics from a higher point of view. Real and complex numbers, functions, algebraic structures of equations, integers and polynomials, number system structures; analyses of alternate approaches, extensions and applications of mathematical ideas, discussion of historical contexts and connections between ideas that may have been studied separately in different courses, relationships of ideas studied in secondary-school to those students may encounter in later study. When taken for graduate credit as Math 5514, an extra project is required.

Prerequisites: MATH 300.

MATH 5517 Matrix Theory I Credits: 3

Unitary matrices, normal matrices, Jordan canonical form, nonnegative matrices and their applications, the symmetric eigenvalue problem.

Prerequisites: MATH 420.

MATH 5519 General Algebra II Credits: 3

Prerequisites: MATH 5509.

MATH 5520 Complex Variables II Credits: 3

Prerequisites: MATH 5510.

MATH 5521 Differential Equations Credits: 3

This course offers an introduction to the qualitative theory and applications of ordinary differential equations (ODE). The presentation of the course will be a blend of fundamental theory and examples. The basic results will be proved rigorously and more advanced results will be only illustrated by examples that demonstrate when and how they may be applied.

Prerequisites: MATH 345, MATH 412, MATH 420.

MATH 5523 Real Variables II Credits: 3

Prerequisites: MATH 5513.

MATH 5524 Mathematics for Secondary Teachers: Geometry Credits: 3

Designed for secondary-school teachers. Examine high school mathematics from a higher point of view. Congruence, distance and similarity, trigonometry, area and volume, axiomatics and Euclidean geometry; analyses of alternate approaches, extensions, and applications of mathematical ideas, discussion of historical contexts and connections between ideas that may have been studied separately in different courses, relationships of ideas studied in secondary-school to those students may encounter in later study. When taken for graduate credit as Math 5524, an extra project is required.

MATH 5527 Matrix Theory II Credits: 3

Prerequisites: MATH 5517.

MATH 5532 Advanced Numerical Analysis I Credits: 3

Error Analysis, Solving Systems of Linear Equations, Solutions of Nonlinear Equations, the Least-Squares Problems, and Approximating functions. Continued in MATH 5542.

Prerequisites: MATH 402, MATH 420.

MATH 5542 Advanced Numerical Analysis II Credits: 3

Eigenvalues and Eigenvectors, Linear Programming, Optimization, Numerical Differentiation and Integration, Numerical Solution of Ordinary and Partial Differential Equations.

Prerequisites: MATH 5532.

MATH 5545 Mathematical Methods In Science And Engineering Credits: 3

This course offers applied linear algebra and Fourier analysis which are indispensable tools in science and engineering. It is designed for beginning graduate students with moderate background in linear algebra and real analysis. Many of the results that are presented in the course will be proved rigorously from mathematical point of view.

Prerequisites: MATH 402, MATH 406, and MATH 420.

MATH 5557 Functional Analysis Credits: 3

Hilbert spaces, linear operators, compact operators, Banach spaces, the Hahn-Banach theorem, the open mapping and closed graph theorems, the principle of uniform boundedness, locally convex spaces.

Prerequisites: MATH 402 and MATH 420.

MATH 5575 Stochastic Calculus for Finance Credits: 3

This course presents the basic idea and theory of stochastic calculus with the focus on the applications to finance. Topics include Brownian motion, Ito integral, Ito formula, Black-Scholes equation and formula, risk-neutral pricing, connections with partial differential equations, exotic options, American derivative securities, and term structure models for interest rates.

Prerequisites: MATH 402 and STAT 436.

MATH 5590 Special Topics Credits: 1-3

Selected topics in various fields of mathematics. May be repeated for credit when the topic varies.

MATH 5699 Research And Thesis Credits: 1-16

Doctoral dissertation.

MATH 5899 Required Graduate Enrollment Credit: 1

Statistics Courses

STAT 115 Statistical Reasoning Credits: 3

This course is intended for majors in less quantitative fields. The focus of the course will be on developing critical thinking abilities and decision making using data in everyday life. Emphasis will be on statistical reasoning underlying the methods of sampling, statistical inference in terms of evaluating the accuracy of an estimate in the context of uncertainty, drawing conclusions from data and studying relationships in data. Students will be trained to perform hands-on-analysis of real data sets using a computer package. No previous computing experience is required.

STAT 115 - MOTR MATH 110: Statistical Reasoning

STAT 235 Elementary Statistics Credits: 3

An introduction to descriptive and inferential statistics. Organization and presentation of data, averages and variations, elementary probability, random variables, special discrete distributions, normal distributions, sampling distributions, point estimation, confidence intervals, and hypothesis testing.

Prerequisites: MATH 110 with a grade of C- or higher; or MATH 120 or higher with a grade of C- or higher; or ALEKS Score of 61 or higher.

STAT 436 Introduction To Mathematical Statistics I Credits: 3

This course is the first of a calculus-based statistics sequence. It begins with basic concepts of probability, discrete and continuous distributions, expectation and variance, and ends with the central limit theorem. Recommended preparation: MATH 301 or COMP-SCI 191.

Prerequisites: MATH 220.

STAT 441 Introduction To Mathematical Statistics II Credits: 3

Sampling Distributions; point estimation; internal estimation; hypothesis testing; analysis of variance; nonparametric methods; statistical software applications; topics in Applied Statistics.

Prerequisites: STAT 436.

STAT 480 Statistical Models in Actuarial Science Credits: 3

This course covers the statistical foundation of actuarial models and their applications. Topics include survival and severity models, Kaplan-Meier and Nelson-Aalen estimators, aggregate and credibility models for insurance losses, discrete time Markov chains, ruin theory, and simulation.

Prerequisites: STAT 441.

STAT 482 Statistical Models for Life Contingencies Credits: 3

The basic statistical theory of actuarial models for life uncertainties such as time of death. Multiple life and multiple decrement models, statistical models for life and contingent insurance; last survivor, disability, withdrawal, retirement and reserving models for life insurance.

Prerequisites: STAT 441.

STAT 496 Internship/Practical Training in Mathematics or Statistics Credits: 1-3

This course provides an internship or other practical training arrangement using mathematics or statistics in an industrial, academic or other professional setting. Department approval of internship experience or practical experience required. Repeatable with up to a combined 3 credits toward the major. Recommended preparation: MATH 250.

STAT 5501 Statistical Design Of Experiments Credits: 3

This course is designed to present a variety of experimental design techniques to students with moderate mathematical and statistical background. The course includes three major components: efficient factorial designs, linear and quadratic process optimization of the location parameter, and variability reduction. Students will be trained to use the SPSS statistical software package.

Prerequisites: STAT 436.

STAT 5537 Mathematical Statistics I Credits: 3

Probability theory, distribution functions, sampling, statistical inference, topics in advanced applied statistics. Continued in STAT 5547.

Prerequisites: MATH 402.

STAT 5547 Mathematical Statistics II Credits: 3

Continuation of STAT 5537.

STAT 5551 Applied Statistical Analysis Credits: 3

Methods for analyzing data from experiments and observational studies; design-based and model-based inferences; model assessment; ANOVA; power analysis; SAS procedures.

Prerequisites: STAT 441.

STAT 5561 Time Series Analysis Credits: 3

This course is intended to present the basis knowledge (including models, methods and concepts) of time series analysis to students with a good background in intermediate mathematical statistics. Some elementary knowledge of basic linear regression analysis would be helpful but not necessary. The presentation will be balanced between theory and data analysis, with sufficient theory to understand the basis of methods and a broad variety of models and many real data examples. Case studies will be drawn from business and economics, network traffic and meteorology, and data will be analyzed by students using existing computer programs (SAS, Minitab and R). Students are also expected to understand proper use and limits of time series models.

Prerequisites: STAT 441.

STAT 5565 Regression Analysis Credits: 3

Simple linear regression; multiple linear regression; correlation analysis; model selections; checking assumptions; regression diagnostics; combating multi-collinearity; nonlinear regression.

Prerequisites: STAT 441.

STAT 5572 Multivariate Analysis Credits: 3

Random vectors; multivariate normal distributions; Hotelling's T-square distribution; Wishart distribution; inferences on one mean vector; MANOVA; inferences on covariance matrices; profile analysis.

Prerequisites: MATH 420 and STAT 441.

STAT 5575 Stochastic Calculus for Finance Credits: 3

This course presents the basic idea and theory of stochastic calculus with the focus on the applications to finance. Topics include Brownian motion, Ito integral, Ito formula, Black-Scholes equation and formula, risk-neutral pricing, connections with partial differential equations, exotic options, American derivative securities, and term structure models for interest rates.

Prerequisites: MATH 402 and STAT 436.

STAT 5576 Probability Credits: 3

Existence and extension of measure, random variable, expectation and its properties, types of convergence, law of large numbers, weak convergence, central limit theorem, and martingale.

Prerequisites: STAT 436 and MATH 5513.

STAT 5578 Advanced Mathematical Statistics Credits: 3

Exponential and location families, principles of data reduction, asymptotic distributions, advanced theory of estimation and hypothesis testing.

Prerequisites: STAT 5547.

STAT 5588 Theory of Linear Model Credits: 3

This course covers vector space, full rank linear model, general inverse, estimation under linear constraints interval estimation, hypothesis testing, distributions of quadratic forms, general distribution theory, estimability, Gauss-Markov theorem, Best Linear Unbiased Estimation (BLUE), regression on dummy variables, estimation of variance components, Scheffe and Turkey intervals, and non-full rank linear model.

Prerequisites: MATH 420, STAT 5537, and STAT 5565.

STAT 5590 Special Topics Credits: 1-3

Selected topics in various fields of mathematics. May be repeated for credit when the topic varies.

Bachelor of Arts: Mathematics and Statistics

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- write logically correct and well-structured proofs in a variety of content areas.
- translate real-world problems into mathematical or statistical language.
- demonstrate qualitative skills in analyzing and evaluating mathematical or statistical problems.
- carry out numerical computations for solving problems.
- present mathematical or statistical content effectively and professionally.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	

POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above)		3
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		13

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits
MATH 120	Precalculus (satisfies Math Pathway)	5
MATH 210	Calculus I	4
MATH 220	Calculus II	4
MATH 250	Calculus III	4
MATH 300	Linear Algebra I	3
MATH 301	On Solid Ground: Sets and Proof (a grade of B- or better is required)	3
MATH 402	Advanced Analysis I	3
MATH 410	Modern Algebra	3
or MATH 420	Linear Algebra II	
STAT 436	Introduction To Mathematical Statistics I	3
Select a minimum of 9 hours of coursework in mathematics or statistics at the 300 level or above: ¹		9
MATH 345 & 345L	Ordinary Differential Equations and Ordinary Differential Equations Lab	
MATH 406	Partial Differential Equations	
MATH 407	Introduction to Complex Variables	
MATH 434	Introduction to Scientific Computing	
MATH 464WI	History Of Mathematics	
MATH 469	Mathematical Modeling	
STAT 441	Introduction To Mathematical Statistics II	
STAT 480	Statistical Models in Actuarial Science	
STAT 482	Statistical Models for Life Contingencies	
STAT 484	Theory of Pension and Social Security	
Total Credits		41

¹ At least four of the courses at the 300 level or above must be completed in the Department of Mathematics and Statistics at UMKC.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives (Suggested Coursework Below)		36
ACCTNG 210	Introduction To Financial Accounting	
COMP-SCI 101	Problem Solving and Programming I	
COMP-SCI 101L	Problem Solving & Programming I Lab	
COMP-SCI 191	Discrete Structures I	
COMP-SCI 291	Discrete Structures II	
COMP-SCI 394R	Applied Probability	
ECON 201	Introduction to Economics I	
ECON 202	Introduction To Economics II	
ECON 425	Intermediate Economic Statistics	
DSOM 211	Business Analytics I	
DSOM 311	Business Analytics II	
FIN 325	Financial Management	
FIN 345	Investments	
GEOG 444	Spatial Data Analysis	
MKT 390	Customer Data Analytics	

Minimum GPA: 2.0 (degree and major)

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Science in Mathematics and Statistics

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- write logically correct and well-structured proofs in a variety of content areas.
- translate real-world problems into mathematical or statistical language.
- demonstrate qualitative skills in analyzing and evaluating mathematical or statistical problems.
- carry out numerical computations for solving problems.
- present mathematical or statistical content effectively and professionally.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
	Writing Intensive Course (300-level or above)	3
	Laboratory Science Experience	1
	Total Credits	4

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits
MATH 120	Precalculus (satisfies Math Pathway)	5
MATH 210	Calculus I	4
MATH 220	Calculus II	4
MATH 250	Calculus III	4
MATH 300	Linear Algebra I	3
MATH 301	On Solid Ground: Sets and Proof (a grade of B- or better is required)	3
MATH 402	Advanced Analysis I	3
MATH 410 or MATH 420	Modern Algebra Linear Algebra II	3
STAT 436	Introduction To Mathematical Statistics I	3
Select a minimum of 12 hours of coursework in mathematics or statistics at the 300-level or above: ¹		12
MATH 345 & 345L	Ordinary Differential Equations and Ordinary Differential Equations Lab	
MATH 407	Introduction to Complex Variables	
MATH 434	Introduction to Scientific Computing	
MATH 464WI	History Of Mathematics	
MATH 469	Mathematical Modeling	
STAT 441	Introduction To Mathematical Statistics II	
STAT 480	Statistical Models in Actuarial Science	
STAT 482	Statistical Models for Life Contingencies	
	Total Credits	44

¹ At least four of the courses at the 300-level or above must be completed in the Department of Mathematics and Statistics at UMKC.

Math and Science Requirements

The Bachelor of Science degree requires a minimum of 60 hours in math and science coursework. The number of credit hours needed to meet this minimum requirement are listed below.

Code	Title	Credits
Additional Math/Science Coursework		15

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		27

Minimum GPA: 2.0 (degree and major)

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses

are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

Fall Semester	Credits	Spring Semester	Credits
MATH 120 ^{CC}		5 MATH 210 ^{CC}	4
GEFSE 101		3 ENGLISH 225	3
ENGLISH 110		3 GECRT-AH 101	3
GECRT-SC 101		3 HISTORY 101, 102, or POL-SCI 210	3
		STAT 235 (or any MATH or Science Elective Course)	3
		14	16

Second Year

Fall Semester	Credits	Spring Semester	Credits
MATH 220 ^{CC}		4 MATH 250 ^{CC}	4
GECDV 201		3 MATH 301	3
COMM-ST 110, 140, or 277		3 GECUE 201	3
MATH or Science Elective Course		3 GECRT-SS 101	3
Lab Science ^{LO}		1 General Elective (ECON 201 for Actuarial Science minor)	3
General Elective		3	
		17	16

Third Year

Fall Semester	Credits	Spring Semester	Credits
MATH 300		3 MATH 410 (or MATH or STAT 3XX/4XX Major Elective)	3
STAT 436		3 MATH or STAT 3XX/4XX Major Elective (MATH 469 or STAT 496 recommended)	3

MATH or Science Elective Course (MATH 406 or 407 recommended)	3	MATH or Science Elective Course (STAT 441 for Actuarial Science minor)	3
MATH or Science Elective Course	3	General Elective (FIN 325 for Actuarial Science minor)	3
General Elective (ACCTG 210 for Actuarial Science minor)	3	General Elective (ECON 202 for Actuarial Science minor)	3
	15		15
Fourth Year			
Fall Semester	Credits	Spring Semester	Credits
MATH 420 (or MATH or STAT 3XX/4XX Major Elective, if took MATH 410)		3 MATH or STAT 3XX/4XX Major Elective (MATH 412 recommended)	3
MATH 402		3 3XX/4XX WI Writing Intensive course (MATH 464WI recommended)	3
MATH or STAT 3XX/4XX Major Elective (MATH 343 recommended)		3 General Elective	3
3XX/4XX General Elective (STAT 480 for Actuarial Science minor)		3 General Elective	3
3XX/4XX General Elective (FIN 345 for Actuarial Science minor)		3	
	15		12

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Science: Mathematics and Statistics / Master of Science: Mathematics - Dual Degree

Student Learning Outcomes

Students graduating from this program will:

- read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
- reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
- work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.
- apply logical reasoning skills towards answering theoretical and conceptual questions of the core areas of mathematics, meaning students will be able to explicate concepts, theorems, and standard proofs, provide and/or analyze relevant examples and counterexamples, and construct logically correct and mathematically rigorous proofs.
- demonstrate quantitative skills by implementing analytical or numerical techniques for a given task, as well as initiating concrete computations and approximations, and demonstrate the ability to carry them out.
- demonstrate qualitative skills, such as the ability to translate real-world problems into mathematical formulations, apply analytical or numerical strategies and techniques, provide exact or approximate solutions or partial solutions to problems as appropriate, and interpret and explain the results as well as the assumptions behind those results.
- demonstrate the ability to prepare background materials or gather data, write and produce one or more revisions seeking out peer or other reviews, and finally write a mathematics or statistics project report, an exposition of mathematics, or create and give an oral presentation tailored to a given audience.

This program offers students an opportunity to meet the full requirements of the BS and MS in a shorter time period than the separate degree programs. The students may complete a Bachelor of Science degree in Mathematics and Statistics in four years and the Master's degree in Statistics the fifth year.

Admission Requirements

1. The applicant must be a UMKC undergraduate student who has completed a minimum of 60 cumulative credit hours.
2. The applicant should complete the BS/MS application form and submit it to both the undergraduate (baniyaghoubm@umkc.edu (%28baniyaghoubm@umkc.edu)) and graduate advisors (segal@umkc.edu (%28segal@umkc.edu)).
3. The applicant must satisfactorily complete the following courses:
 - a. MATH 300 Linear Algebra I
 - b. MATH 301 On Solid Ground: Sets and Proof, or any 400-level class that has MATH 301 as a prerequisite. For instance, MATH 410, MATH 420, or MATH 402
 - c. MATH 345 Ordinary Differential Equations
4. A minimum overall GPA of 3.0 is required.
5. A minimum GPA of 3.2 in Math/Stat courses is required

B.S. Degree Requirements (total of 33 credit hours)

As listed below, there are 24 credit hours required undergraduate courses.

Code	Title	Credits
MATH 210	Calculus I	4
MATH 220	Calculus II	4
MATH 250	Calculus III	4
MATH 300	Linear Algebra I	3
MATH 345	Ordinary Differential Equations	4
or select one of the following:		
MATH 406	Partial Differential Equations	
STAT 436	Introduction To Mathematical Statistics I	
MATH 402	Advanced Analysis I	3
MATH 410	Modern Algebra	3

The student should also take at least 9 credit hours of Math or Stat elective courses at the 400 level or above.

M.S. Degree Requirements (total of 30 credit hours)

The following core courses are required for the completion of the M.S. degree:

Code	Title	Credits
MATH 5509	General Algebra I	3
MATH 5510	Complex Variables I	3
MATH 5513	Real Variables I	3
MATH 5521	Differential Equations	3
MATH 5532	Advanced Numerical Analysis I	3
MATH 5545	Mathematical Methods In Science And Engineering	3

Also a total of 12 credit hours of Math or Stat elective courses at the 400 level or above must be completed satisfactorily.

B.S./M.S. Degree Overlap (up to 9 credit hours)

Up to 9 credit hours of 400-level Math or Stat courses in the graduate degree can overlap with the courses taken towards satisfying the requirements for the undergraduate degree.

Bachelor of Science: Mathematics and Statistics / Master of Science: Statistics - Dual Degree

Student Learning Outcomes

Students graduating from this program will:

- read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
- reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
- work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.
- demonstrate an understanding of basic statistical theory by being able to synthesize statistical concepts, assumptions, and theorems, and be able to explain how such theory gives rise to the common techniques of statistical analysis.
- will demonstrate the ability to communicate the results of a statistical analysis to a non-statistician both in writing and verbally, and to explain how these results pertain to the research question at hand.
- will exhibit the ability to decide on a statistical technique to apply to a given situation, demonstrate the ability to carry out that technique, either analytically or through the use of statistical software, and demonstrate the ability to assess the appropriateness of the technique that was applied.

This program offers students an opportunity to meet the full requirements of the BS and MS in a shorter time period than the separate degree programs. The students may complete a Bachelor of Science degree in Mathematics and Statistics in four years and the Master's degree in Mathematics the fifth year.

Admission Requirements

1. The applicant must be a UMKC undergraduate student who has completed a minimum of 60 cumulative credit hours.
2. The applicant should complete the BS/MS application form and submit it to both the undergraduate (baniyaghoubm@umkc.edu (%28baniyaghoubm@umkc.edu)) and graduate advisors (segal@umkc.edu (%28segal@umkc.edu)).
3. The applicant must satisfactorily complete the following courses:
 - a. MATH 300 Linear Algebra I
 - b. MATH 301 On Solid Ground: Sets and Proof, or any 400-level class that has MATH 301 as a prerequisite. For instance, MATH 410, MATH 420, or MATH 402
 - c. STAT 436 Introduction To Mathematical Statistics I
4. A minimum overall GPA of 3.0 is required.
5. A minimum GPA of 3.2 in Math/Stat courses is required.

B.S. Degree Requirements (total of 33 credit hours)

As listed below, there are 24 credit hours required undergraduate courses.

Code	Title	Credits
MATH 210	Calculus I	4
MATH 220	Calculus II	4
MATH 250	Calculus III	4
MATH 300	Linear Algebra I	3
MATH 402	Advanced Analysis I	3
MATH 410	Modern Algebra	3
STAT 441	Introduction To Mathematical Statistics II	3
The student should also take at least 9 credit hours of Math or Stat elective courses at the 400 level or above.		

M.S. Degree Requirements (total of 30 credit hours)

The following core courses are required for the completion of the M.S. degree:

Code	Title	Credits
STAT 5501	Statistical Design Of Experiments	3
STAT 5537	Mathematical Statistics I	3
STAT 5547	Mathematical Statistics II	3
STAT 5551	Applied Statistical Analysis	3
STAT 5565	Regression Analysis	3
STAT 5572	Multivariate Analysis	3

Also a total of 12 credit hours of Math or Stat elective courses at the 400 level or above must be completed satisfactorily.

B.S./M.S. Degree Overlap (up to 9 credit hours)

Up to 9 credit hours of 400-level Math or Stat courses in the graduate degree can overlap with the courses taken towards satisfying the requirements for the undergraduate degree.

Interdisciplinary Ph.D. in Mathematics

Student Learning Objectives

Students are expected to:

- Have a broad understanding of several branches of mathematics and how they are related. Be able to read and/or listen to documents and discussions having mathematical content, with an appropriate level of understanding, and exhibit a high level of mathematical literacy.
- Be able to clearly articulate mathematical information accurately and effectively, using a form, structure and style that suits the purpose, including written and face-to-face presentation.
- Be able to independently acquire further mathematical knowledge without guidance.
- Be prepared for entry into professional schools, doctoral programs, or the job market.

Degree Requirements

UMKC offers an Interdisciplinary Ph.D. program. Students desiring to study at the doctoral level in mathematics must apply to the School of Graduate Studies. Detailed information on the general and discipline-specific requirements (p. 1589) appears in the School of Graduate Studies (p. 1538) section of this catalog. For more details visit the department Web site: <http://cas.umkc.edu/math/>. (<http://cas.umkc.edu/math/>)

Master of Science in Mathematics

Student Learning Outcomes

Students graduating from this program will:

- apply logical reasoning skills towards answering theoretical and conceptual questions of the core areas of mathematics, meaning students will be able to explicate concepts, theorems, and standard proofs, provide and/or analyze relevant examples and counterexamples, and construct logically correct and mathematically rigorous proofs.
- demonstrate quantitative skills by implementing analytical or numerical techniques for a given task, as well as initiating concrete computations and approximations, and demonstrate the ability to carry them out.
- demonstrate qualitative skills, such as the ability to translate real-world problems into mathematical formulations, apply analytical or numerical strategies and techniques, provide exact or approximate solutions or partial solutions to problems as appropriate, and interpret and explain the results as well as the assumptions behind those results.

- demonstrate the ability to prepare background materials or gather data, write and produce one or more revisions seeking out peer or other reviews, and finally write a mathematics or statistics project report, an exposition of mathematics, or create and give an oral presentation tailored to a given audience.

Degree Requirements

At least **30 credit hours** of approved coursework in the department are required. At least 18 credit hours (of the 30 minimum total credits) must be at the 5500 level in the department. Courses numbered below 400 do not carry graduate credit for mathematics and statistics graduate students. Courses numbered at the 400 level will NOT be credited to the master's degree if they were previously taken from UMKC or are equivalent (content wise) to courses previously taken from any other accredited colleges/universities for the undergraduate degree. Independent Reading courses (MATH 490 or MATH 5590 or STAT 5590) are not counted toward the degree unless approved for inclusion in the plan of study of the student prior to taking the course. Normally, more than 3 credit hours of Independent Reading will not be counted toward the master's degree.

In addition to the minimum 30 credit hours of course work, master's degree seeking students are required to attend five Departmental Graduate Seminars per semester.

Master's degree candidates are required to submit a **Master Plan of Study Form** prior to the completion of 15 credit hours of course work.

All master's degree candidates must take **six core courses** (all at the 5500 level) as follows:

Code	Title	Credits
MATH 5509	General Algebra I	3
MATH 5513	Real Variables I	3
MATH 5532	Advanced Numerical Analysis I	3
MATH 5510	Complex Variables I	3
MATH 5521	Differential Equations	3
MATH 5545	Mathematical Methods In Science And Engineering	3

The remaining 12 credit hours can be fulfilled by choosing from the 400 or 5500 level courses offered by the department. For more details about the courses offered, please refer to the departmental Web site (<http://cas.umkc.edu/math> (<http://cas.umkc.edu/math/>)).

Students have two options for completing the degree: **with thesis** or **without thesis**. The thesis option allows students to apply up to 6 Research and Thesis (MATH 5699 or STAT 5699) credit hours towards the 12 elective credit hours. Below are the additional requirements specific to each option.

For students completing a MS degree without thesis: In the last semester before graduation, the student will make an oral presentation, under the supervision of one or two faculty members. This talk will be assessed by an advisory committee.

For students completing a MS degree with thesis: Students are required to write a Master's thesis under the supervision of a graduate faculty member, give an oral presentation, and defend it before an examining committee. The examining committee is composed of a supervisor (Chair of the examining committee) and at least two other faculty members. All members of the committee need to be graduate or doctoral faculty in the department. The process of completing the thesis requirement is as follows:

- The student is required to submit a two-page proposal to the supervisory committee by the end of the 1st year.
- The student is required to provide a complete thesis to each of the examining committee members before the oral defense.
- Upon receipt of the recommendations from the examining committee members ("Thesis-Pre-Oral-Defense-Form" at <http://sgs.umkc.edu/current-students/thesis-dissertation-guidelines/>), the oral defense will be scheduled.
- After a successful oral defense followed by required revisions, the examining committee chair will forward the Master's thesis along with other forms ("Thesis-Final-Evaluation-form" and "Preliminary-Approval-by-Supervisory-Committee-Chair-1" found at <http://sgs.umkc.edu/current-students/thesis-dissertation-guidelines/>) to the School of Graduate Studies.

A student pursuing the thesis option can enroll in Research and Thesis credit hours (MATH 5699 or STAT 5699). Such classes will be counted towards the degree only if they are approved for the plan of study of the student prior to taking the class. No more than 6 credit hours combined of approved Research and Thesis and Independent Reading can be counted towards the degree.

Admission requirements

- Applicants need to hold a bachelors's degree from an accredited college or university, with a satisfactory GPA.
- If the applicant's degree is not in Mathematics or Statistics (or equivalent), then the applicant must have taken Calculus I, II, and III and at least three other Mathematics or Statistics classes beyond Calculus III, with satisfactory grades.
- Applicants need to include with their application materials a valid GRE general test score and a one page narrative outlining educational goals. Optional letters of recommendation should be sent directly to the department Principal Graduate Advisor.

- International applicants need to satisfy the requirements of the International Students Affairs Office (<http://www.umkc.edu/isao/>), including those on TOEFL or IELTS scores.

Applicants who want to apply for a GTA position in the department need to fill out the GTA application form (available on the department web site (<http://cas.umkc.edu/mathematics/>)) and have three letters of recommendation, accompanied by the "Evaluation of fitness for graduate studies" form sent directly to the department Principal Graduate Advisor.

Master of Science in Statistics

Student Learning Outcomes

Students graduating from this program will:

- demonstrate an understanding of basic statistical theory by being able to synthesize statistical concepts, assumptions, and theorems, and be able to explain how such theory gives rise to the common techniques of statistical analysis.
- will demonstrate the ability to communicate the results of a statistical analysis to a non-statistician both in writing and verbally, and to explain how these results pertain to the research question at hand.
- will exhibit the ability to decide on a statistical technique to apply to a given situation, demonstrate the ability to carry out that technique, either analytically or through the use of statistical software, and demonstrate the ability to assess the appropriateness of the technique that was applied.

Degree Requirements

At least **30 credit hours** of approved coursework in the department are required. At least 18 credit hours (of the 30 minimum total credits) must be at the 5500 level in the department. Courses numbered below 400 do not carry graduate credit for mathematics and statistics graduate students. Courses numbered at the 400 level will NOT be credited to the master's degree if they were previously taken from UMKC or are equivalent (content wise) to courses previously taken from any other accredited colleges/universities for the undergraduate degree. Independent Reading courses (MATH 490 or MATH 5590 or STAT 5590) are not counted toward the degree unless approved for inclusion in the plan of study of the student prior to taking the course. Normally, more than 3 credit hours of Independent Reading will not be counted toward the master's degree.

In addition to the minimum 30 credit hours of course work, master's degree seeking students are required to attend five Departmental Graduate Seminars per semester.

Master's degree candidates are required to submit a **Master Plan of Study Form** prior to the completion of 15 credit hours of course work.

All master's degree candidates must take **six core courses** (all at the 5500 level) as follows:

Code	Title	Credits
STAT 5501	Statistical Design Of Experiments	3
STAT 5537	Mathematical Statistics I	3
STAT 5551	Applied Statistical Analysis	3
STAT 5547	Mathematical Statistics II	3
STAT 5565	Regression Analysis	3
STAT 5572	Multivariate Analysis	3

The remaining 12 credit hours can be fulfilled by choosing from the 400 or 5500 level courses offered by the department. For more details about the courses offered, please refer to the departmental Web site (<http://cas.umkc.edu/math> (<http://cas.umkc.edu/math/>)).

Students have two options for completing the degree: **with thesis** or **without thesis**. The thesis option allows students to apply up to 6 Research and Thesis (MATH 5699 or STAT 5699) credit hours towards the 12 elective credit hours. Below are the additional requirements specific to each option.

For students completing a MS degree without thesis: In the last semester before graduation, the student will make an oral presentation, under the supervision of one or two faculty members. This talk will be assessed by an advisory committee.

For students completing a MS degree with thesis: Students are required to write a Master's thesis under the supervision of a graduate faculty member, give an oral presentation, and defend it before an examining committee. The examining committee is composed of a supervisor (Chair of the examining committee) and at least two other faculty members. All members of the committee need to be graduate or doctoral faculty in the department. The process of completing the thesis requirement is as follows:

- The student is required to submit a two-page proposal to the supervisory committee by the end of the 1st year.
- The student is required to provide a complete thesis to each of the examining committee members before the oral defense.
- Upon receipt of the recommendations from the examining committee members ("Thesis-Pre-Oral-Defense-Form" at <http://sgs.umkc.edu/current-students/thesis-dissertation-guidelines/>), the oral defense will be scheduled.

- After a successful oral defense followed by required revisions, the examining committee chair will forward the Master's thesis along with other forms ("Thesis-Final-Evaluation-form" and "Preliminary-Approval-by-Supervisory-Committee-Chair-1" found at <http://sgs.umkc.edu/current-students/thesis-dissertation-guidelines/>) to the School of Graduate Studies.

A student pursuing the thesis option can enroll in Research and Thesis credit hours (MATH 5699 or STAT 5699). Minor: Actuarial Science

Student Learning Outcomes

Students graduating from this program will:

- apply basic concepts of actuarial science and the laws of probability and statistics to solve actuarial science problems.
- apply advanced concepts of actuarial science, such as the theory of life contingencies and the theory of interest to solve actuarial science problems.
- use actuarial science software packages to complete actuarial science tasks.
- communicate the results of actuarial science quantitative analysis effectively and clearly, both in writing and orally.

Requirements for the Minor in Actuarial Science

Code	Title	Credits
Mathematics		
MATH 220 or MATH 268	Calculus II Accelerated Calculus II	4
Economics		
ECON 201	Introduction to Economics I	3
ECON 202	Introduction To Economics II	3
Accounting		
ACCTNG 210	Introduction To Financial Accounting	3
Finance		
FIN 325	Financial Management	3
FIN 345	Investments	3
Statistics		
STAT 436	Introduction To Mathematical Statistics I	3
Take one of the following courses:		3
STAT 441	Introduction To Mathematical Statistics II	
STAT 480	Statistical Models in Actuarial Science	
STAT 482	Statistical Models for Life Contingencies	
Total Credits		25

Minor in Mathematics

Student Learning Outcomes

Students graduating from this program will:

- a) demonstrate reasoning skills necessary to read and understand basic mathematical proofs.
- b) construct basic mathematical or statistical models for solving real-world problems.
- c) apply well-known analytical, statistical, or numerical techniques to analyze basic models.
- d) produce a well-written technical report or assignment related to mathematics or statistics.

Program Requirements

A minor in mathematics may be obtained by completing a total of 19-20 hours of mathematics courses, including:

Code	Title	Credits
MATH 210 or MATH 266	Calculus I Accelerated Calculus I	4
MATH 220 or MATH 268	Calculus II Accelerated Calculus II	3-4
One MATH/STAT course at 200-level or above ¹		3-4
MATH 250 STAT 235	Calculus III Elementary Statistics	
Three MATH/STAT courses at the 300-level or above in the department ²		9
MATH 300	Linear Algebra I	
MATH 301	On Solid Ground: Sets and Proof	
MATH 345	Ordinary Differential Equations	
MATH 402	Advanced Analysis I	
MATH 406	Partial Differential Equations	
MATH 407	Introduction to Complex Variables	
MATH 410	Modern Algebra	
MATH 420	Linear Algebra II	
MATH 434	Introduction to Scientific Computing	
MATH 464WI	History Of Mathematics	
MATH 469	Mathematical Modeling	
STAT 436	Introduction To Mathematical Statistics I	
STAT 441	Introduction To Mathematical Statistics II	
STAT 480	Statistical Models in Actuarial Science	
STAT 482	Statistical Models for Life Contingencies	
Total Credits		19-21

¹ One of the following courses can be taken to fulfill an elective at the 200-level: E&C-ENGR 241, MEC-ENGR 272.

² One of the following courses can be taken to fulfill for the 300-level or above elective: CIV-ENGR 319, COMP-SCI 394R, E&C-ENGR 341R, PHYSICS 330.

Teacher Certification in Mathematics

Student Learning Outcomes

Students graduating with a B.A. or B.S. degree in Mathematics and Statistics are expected to:

- Be able to read, write, understand mathematical proofs, and construct mathematical proofs as appropriate.
- Be able to reason with and apply mathematical concepts, principles and methods; analyze and evaluate problems (both theoretical and practical) and plan strategies for their solution.
- Be able to work collaboratively with others on projects requiring mathematical knowledge and input, to function effectively in a professional workplace related to mathematics, or in a graduate program.

Program Requirements

Certification as a middle school (grades 5-9) or secondary school (grades 9-12) Mathematics teacher in either Kansas or Missouri requires that a student complete specific requirements both in Mathematics and in the School of Education. A separate application for teacher education is required. For further information, consult the School of Education (p. 1430) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

Medieval and Early Modern Studies

Program Director:

Dr. Virginia Blanton
Professor of English Language and Literature
blantonv@umkc.edu

Graduate Certificate in Medieval and Early Modern Studies (MEMS)

The Graduate Certificate in Medieval and Early Modern Studies (MEMS) (p. 897) offers students an interdisciplinary opportunity to focus their studies in early literatures, history, and culture (ca. 500-1500). The certificate not only benefits graduate students pursuing MA, MFA, and Interdisciplinary Ph.D. degrees in traditional fields, such as Art History, English, History, and Theatre but also provides an opportunity for education professionals to pursue further study in the pre-modern period as professional development and enhancement.

Certificate Program Requirements (p. 897)

Minor in Medieval and Early Modern Studies (MEMS)

Undergraduate students in any major in the College of Arts and Sciences may seek an interdisciplinary minor in Medieval and Early Modern Studies (MEMS). The minor offers students an interdisciplinary opportunity to focus their studies in early literatures, history, and culture (ca. 500-1500). The minor may be integrated with the Bachelor of Liberal Arts (BLA) degree. Students complete an 18-credit program of study, with upper-level courses from at least two disciplines. Completion of the Medieval and Early Modern Studies minor is recorded on the student's transcript. Students must declare their intention to pursue the minor on the "Declaration of Major" form and should meet with the MEMS program director. No more than 6 credits may be transferred from another institution.

For a list of classes fulfilling the Medieval and Early Modern Studies Minor requirements each semester, please consult the MEMS program director. Courses in Medieval and Early Modern Studies are found primarily in College of Arts and Sciences, but there are also courses offered in the Conservatory. Courses that fulfill the requirements of the minor are those which focus on the medieval and early modern periods, as well as directed readings courses or independent studies courses with affiliated faculty. Special topics courses and similar offerings can be approved on a case-by-case basis by the program director.

Minor Program Requirements (p. 899)

Graduate Certificate in Medieval and Early Modern Studies

Graduate Certificate in Medieval and Early Modern Studies (MEMS)

The Graduate Certificate in Medieval and Early Modern Studies (MEMS) offers students an interdisciplinary opportunity to focus their studies in early literatures, history, and culture (ca. 500-1500). The certificate not only benefits graduate students pursuing MA, MFA, and Interdisciplinary Ph.D. degrees in traditional fields, such as Art History, English, History, and Theatre but also provides an opportunity for education professionals to pursue further study in the pre-modern period as professional development and enhancement.

Code	Title	Credits
Required Courses		
ENGLISH 5564/HISTORY 5583GR	Medieval Methods & Paleography	3
Capstone Experience or Thesis ¹		3
Electives		
Four three-hour graduate medieval or early modern courses ²		12
Total Credits		18

¹ The Capstone Experience or Thesis could be a written academic thesis or another kind of project, as developed by the student and his/her committee.

² The four elective courses must be distributed between at least two academic disciplines (e.g. English and History) and must include at least one three-credit medieval course and one three-credit early modern course.

Strongly recommended: Two Years College-level Proficiency in Latin

Admission Process

Applicants must be admitted to UMKC's School of Graduate Studies and by a graduate program in the College of Arts and Sciences. Application materials can be obtained from SGS.

Contact

Dr. Virginia Blanton, Department of English blantonv@umkc.edu (816) 235-2766

List of Courses for the Graduate Certificate in Medieval and Early Modern Studies

Courses in Medieval and Early Modern Studies are found primarily in the departments of the College of Arts and Sciences, but there is also an opportunity to collaborate with faculty members at the Conservatory. The courses that would fulfill the requirements of the graduate certificate include graduate colloquia focusing on the pre-modern period, undergraduate/graduate hybrid courses (at the 300-400 level for undergrads and 5500 for graduates), special topics courses, directed readings courses with affiliated faculty, and independent studies courses with affiliated faculty. Courses appropriate to the program will be approved on a case-by-case basis.

Minor in Medieval and Early Modern Studies

Student Learning Outcomes

Students graduating from this program will:

- acquire knowledge about the multidisciplinary nature and interdisciplinary methods of Medieval and Early Modern Studies scholarship.
- acquire knowledge about the historical, cultural, social, political and economic contexts of these periods.
- acquire knowledge about issues of diversity, including race, class, and gender expression in these periods.
- have the skills to understand and utilize the theories and methods of the various disciplines that contribute to Medieval and Early Modern Studies.
- have the skills to think critically across multiple disciplines.
- have the skills to identify and articulate scholarly problems based on interaction with primary source materials. (Students who elect to take Latin or other vernacular languages of the medieval period will demonstrate further proficiency working with primary source materials in the original languages.)
- have the skills to communicate the results of their work effectively to others in expository prose, oral presentations, or electronic media such as films or web pages.

Undergraduate students in any major may seek an interdisciplinary minor in Medieval and Early Modern Studies (MEMS). The minor offers students an interdisciplinary opportunity to focus their studies in early literatures, history, and culture (ca. 500-1500). The minor may be integrated with the Bachelor of Liberal Arts (BLA) degree. Students complete an 18-credit program of study, with upper-level courses from at least two disciplines.

Completion of the Medieval and Early Modern Studies minor is recorded on the student's transcript. Students must declare their intention to pursue the minor on the "Declaration of Major" form and should meet with the MEMS program director. No more than 6 credits may be transferred from another institution

For a list of classes fulfilling the Medieval and Early Modern Studies Minor requirements each semester, please consult the MEMS program director. Courses in Medieval and Early Modern Studies are found primarily in College of Arts and Sciences, but there are also courses offered in the Conservatory. Courses that fulfill the requirements of the minor are those which focus on the medieval and early modern periods, as well as directed readings courses or independent studies courses with affiliated faculty. Special topics courses and similar offerings can be approved on a case-by-case basis by the program director.

Requirements:

Total of at least 18 credits at 300-400 level from approved courses, distributed as follows:

- At least 6 credits from at least two disciplines (ex: 6 cr. English, 12 cr History OR 6 cr. French, 6 cr. Spanish, 6 cr. Philosophy)
- No more than 9 credits may also count for major field
- May replace 3 credits of traditional coursework with 3 credits of independent study/directed readings

Strongly Recommended:

- The equivalent of two years of college-level coursework in Latin (i.e. successfully completion of Latin 221 at UMKC or its equivalent)
- Medieval Methods and Paleography (HISTORY 464)

Examples of courses fulfilling the requirements:

Code	Title	Credits

Program Description

The Army Reserve Officers Training Corps provides college-trained officers for the U.S. Army and Army Reserve. With the exception of a five-week paid summer camp, all instruction is presented on campus. Various field training exercises are conducted to further enrich students' leadership skills.

A commission as a second lieutenant in the U.S. Army, Army Reserve or National Guard is awarded to individuals who have successfully completed the ROTC program and obtained a baccalaureate degree from UMKC. Currently, college graduates who are commissioned through ROTC are placed on either active duty, the reserves or National Guard duty, depending on their desires and on the needs of the service at the time of graduation. The length and type of obligation will depend on the scholarship awarded.

Financial Assistance

Financial assistance is available through the U.S. Army Scholarship Program. Two-, three- and four-year scholarships are awarded each year to selected students who are enrolled or will enroll in the Army ROTC program. The scholarships provide payment of tuition, fees, textbooks and a monthly payment of \$350 for freshman, \$400 for sophomores, \$450 for juniors, \$500 for seniors, not to exceed 10 months for each year of the scholarship. Non-scholarship contracted cadets in the advanced portion of ROTC receive monthly payments of \$450 for juniors and \$500 for seniors, not to exceed 10 months per year for two years. Students are furnished free textbooks for military science classes.

The Simultaneous Membership Program (SMP) allows students to be a member of a National Guard or Reserve units while enrolled in ROTC. Advanced course SMP students receive E5 pay, plus monthly payments of \$450 for juniors, and \$500 for seniors from ROTC, plus any Active Duty GI Bill entitlement.

ROTC scholarships are also available to graduate students. Please contact the ROTC Scholarship and Enrollment Officer at 816-235-1152 for more information.

Curriculum

All students are eligible to take Military Science 100- and 200-level courses without any military obligation. However, Military Science 300- and 400-level courses are reserved for students who have a signed contract with ROTC to become an officer upon graduation.

Undergraduate Undergraduate Program:

- Two-Year Instruction (p. 903)

Courses

MIL-SCI 102 Leadership Practicum Credits: 2

Examines leadership in basic tactical and patrolling operations, Includes a tactical application exercise and participation in physical fitness conditioning as a course requirement. Students practice leadership according to 16 principles and learn basic soldier skills.

Co-requisites: MIL-SCI 116.

MIL-SCI 112 Leadership Practicum Credits: 2

Examines advanced squad and platoon tactical operations with emphasis on patrolling operations. Topics include: leadership techniques, basic first aid, and problem-solving exercises. A tactical field application exercise and physical fitness conditioning program are included as course requirements. Students perform duties as leaders of small units.

Co-requisites: MIL-SCI 126.

MIL-SCI 116 Foundations of Officership Credit: 1

The course introduces the student to issues and competencies that are central to a commissioned officer's responsibilities. These initial lessons establish a framework for understanding officership, leadership, and Army values. Additionally, the semester addresses life skills, including physical fitness and time management. This course is designed to give the student an accurate insight into the Army profession and the officer's role in the Army.

Co-requisites: MIL-SCI 102.

MIL-SCI 126 Basic Leadership Credit: 1

This course focuses on leadership theory and decision making. "Life skills" lessons in this course include: problem solving, critical thinking, leadership theory, followership, group interaction, goal setting, and feedback mechanisms. Upon completion of this course, students are prepared to advance to more complex leadership instruction concerning the dynamics of organization. Additionally, students will be increasingly required to demonstrate knowledge of leadership fundamentals and communications (written and oral).

Co-requisites: MIL-SCI 112.

MIL-SCI 202 Leadership Practicum Credits: 2

Course examines squad and platoon offensive and defensive operations and leadership procedures in patrolling operations. Includes a tactical application exercise and participation in physical fitness conditioning as a course requirement. Students will perform various leadership roles and present classroom instruction.

Corequisite: MIL-SCI 216

MIL-SCI 212 Leadership Practicum Credits: 2

Examines advanced squad and platoon offensive and defensive operations, reaction to obstacles, and leadership procedures in patrolling operations. Includes a tactical application exercise and participation in physical fitness conditioning as a course requirement. Students will perform in various leadership roles and present classroom instruction.

Co-requisites: MIL-SCI 226.

MIL-SCI 216 Individual Leadership Series Credits: 2

This course is designed to develop within the student a knowledge of self, self-confidence and individual skills, Through experiential learning activities, students will develop problem-solving and critical-thinking skills, apply communication, feedback and conflict-resolution skills. This course delves into several aspects of communication and leadership theory. The focus of the course is on critical life skills which enable the students future success. The course concludes with a major leadership and problem-solving case study which draws upon previous instruction.

Prerequisites: MIL-SCI 126.

Co-requisites: MIL-SCI 202.

MIL-SCI 226 Leadership and Teamwork Credits: 2

This course focuses on self-development guided by knowledge of self and group processes. Experiential learning activities are designed to challenge students current beliefs, knowledge and skills. This semester takes the approach of placing students in a wide variety of group exercises designed to emphasize various leadership competencies and insights. The instructor, acting as a facilitator, helps guide student processing of the events to derive the leadership, group dynamics and problem-solving lessons that the exercises offer. Practical life skills are emphasized throughout.

Prerequisites: MIL-SCI 216.

Co-requisites: MIL-SCI 212.

MIL-SCI 302 Leadership Practicum Credits: 2

Examines squad and platoon offensive and defensive operations, the patrol leader in patrolling operations, and a tactical application exercise. Participation in physical fitness conditioning and a tactical application exercise is required. Students will perform in various leadership roles and present classroom instruction. Recommended preparation: MIL-SCI 226.

Prerequisites: Departmental consent.

Co-requisites: MIL-SCI 316.

MIL-SCI 312 Leadership Practicum Credits: 2

Familiarization with military firearms; includes assembly and disassembly; tactical communications; and the field artillery request and a tactical application exercise. Participation in physical fitness conditioning and a tactical application exercise is required. Students will perform in various leadership roles and present classroom instruction.

Prerequisites: MIL-SCI 316.

Co-requisites: MIL-SCI 326.

MIL-SCI 316 Leadership and Problem Solving Credits: 3

Following an introduction to the principles of physical fitness and healthy lifestyles, lessons will cover: the Leader Development Program, planning and conducting individual and small unit training, basic tactical principles, reasoning skills and the military-specific application of these skills in the form of the Army's troop-leading procedures. The course concludes with a detailed examination of officership, which culminates in a five-hour officership case study.

Prerequisites: MIL-SCI 226.

Co-requisites: MIL-SCI 302.

MIL-SCI 326 Leadership and Ethics Credits: 3

Continues the focus from MIL-SCI 316 on doctrinal leadership and tactical operations at the small unit level. Instructional modules include: Army branches, Army leadership, philosophy, dynamics of a group environment, oral and written presentation skills, culminating in instruction in national and Army values and ethics. This critical semester synthesizes the various components of training, leadership and team building.

Prerequisites: MIL-SCI 316.

Co-requisites: MIL-SCI 312.

MIL-SCI 397 US Military History Credits: 3

This course examines the beginnings of human military history from pre-colonial through the birth of America and into the post-Cold War era. The course focuses on the origins of tactics and techniques and emphasizes the military as an aspect of American society and its role in political, social, economic, and international environments.

Prerequisites: Departmental consent.

MIL-SCI 402 Leadership Practicum Credits: 2

Practical applications in problem analysis, decision making, planning and organization, delegation and control, and development of interpersonal skills required for effective management. Participation in physical fitness conditioning and tactical application exercise is required. Students will perform in various leadership positions and present classroom instruction.

Co-requisites: MIL-SCI 416.

MIL-SCI 412 Leadership Practicum Credits: 2

Practical applications in problem analysis, decision making, planning and organization, delegation and control, and development of interpersonal skills required for effective management, includes a tactical application exercise. Participation in physical fitness conditioning is required. Students will perform various leadership roles and conduct classroom instruction.

Prerequisites: MIL-SCI 416.

Co-requisites: MIL-SCI 426.

MIL-SCI 416 Leadership And Management Credits: 3

A series of lessons designed to enable students to make informed career decisions as they prepare for commissioning and service as Second Lieutenants. Classes concentrate on Army operations and training management, and communications and leadership skills, which support the final transition from cadet/student to Lieutenant/leader. Subjects include: The Army Training Management System, coordinating activities with staffs, and counseling skills. At the end of this semester, students should possess the fundamental skills, attributes and abilities to operate as a competent leader in the cadet battalion.

Prerequisites: MIL-SCI 326.

Co-requisites: MIL-SCI 402.

MIL-SCI 426 Officership Credits: 3

A series of lessons that provide a review of the ethical dimensions of leadership, law in leadership, organizing for military operations to include historical case studies, personnel, supply and maintenance administration and management, personal financial planning and entering the service, The semester concludes with a 12-lesson experiential exercise simulating assignment as a new Lieutenant in a unit.

Prerequisites: MIL-SCI 416.

Co-requisites: MIL-SCI 412.

MIL-SCI 497 Leadership And Management Practicum - Directed Study Credits: 1-3

Practical application in military problem analysis, decision making, planning and organization, delegation and control, and development of interpersonal skills required for effective management.

Prerequisites: Departmental consent.

Two-Year Instruction

ROTC instruction usually is presented over the four years of traditional full-time study. This also allows commissioning at the same time graduation requirements are met. However, a two-year program is available for students who were unable to take the first two years of instruction and want to earn a commission.

Professors:

Bruce Bubacz, Clancy Martin

Assistant Professor:

E. Gwendolyn Nally

Associate Teaching Professor:

Adrian Switzer

Department Description

The Department of Philosophy offers a program of study leading to the bachelor of arts degree in philosophy. Courses are offered that develop critical and analytical skills, acquaint students with the history of philosophy and apply philosophy to issues of living.

Students who major in other disciplines can gain special insight into their majors with a philosophy minor. There is a focused minor on bioethics, targeted at students interested in the medical and health care professions.

Career Implications of the Degree

The dynamism of American economic life guarantees that change will be a constant, especially in employment – most people will change careers several times during their working lives. How can you prepare yourself for the inevitable challenges of your career? The most important traits that will serve you well in the twenty-first century are flexibility and discipline, the capacity to quickly assess and understand new environments, to recognize opportunities and the ability to deploy tools that will guarantee success. The study of philosophy will prepare you for the challenges of this evolving world. Studying philosophy provides you with the ability to read complex materials with care and comprehension, to write with clarity and economy and to express your ideas forcefully and succinctly. If you are interested in honing the skills that will allow you to succeed in any endeavor requiring focused thought, if you recognize that the best way to prepare for the challenging world of our knowledge-based economy is to hone your mind and sharpen your intellect, then philosophy is the major for you.

Advising System

Although all faculty members of the department are available for student advising, the department has an undergraduate advisor to whom questions about the philosophy program should be directed.

Special Services

The Philosophy Department is committed to having a strong student community, and has a very active Honors Society, Phi Sigma Tau. Events include everything from inviting guest speakers, movie nights, reading/discussion groups (both with and without faculty members) to socializing, and are open to anyone interested in philosophy. Students are highly encouraged to be active participants in both Phi Sigma Tau and departmental life in general.

Scholarly Presentations

Many visiting philosophers present scholarly papers to the Philosophy Department during the academic year. In addition, organizations such as the Kansas City Area Philosophical Association, the Central States Philosophical Association and other professional societies occasionally meet in Kansas City. Students are cordially invited to attend these activities.

Faculty

Bruce Bubacz; chair, department of philosophy; curators' professor of philosophy and professor of law; B.A. (Ripon College); M.S., Ph.D. (University of Washington-Seattle).

Clancy W. Martin^{1,2}; professor of philosophy; B.A. (Baylor University); Ph.D. (University of Texas at Austin).

E. Gwendolyn Nally; assistant professor of philosophy; B.A. (James Madison University); M.A., Ph.D. (University of Virginia).

Adrian Switzer; associate teaching professor of philosophy; B.A. (Lehigh University); M.A., Ph.D. (Loyola University Chicago).

¹ Members of UMKC Graduate Faculty

² Members of UMKC Doctoral Faculty

Undergraduate

Undergraduate Degrees:

- Bachelor of Arts: Philosophy (p. 907)
- Minor in Philosophy (p. 911)
- Minor in Bioethics and Medical Humanities (p. 911)

Courses

PHILOS 210 Introduction to Philosophy Credits: 3

An introduction to many of the central problems of philosophy. The various dimensions of philosophy are examined as it related to our relationships with each other, our understanding of our world and our understanding of ourselves. Connections between classical philosophers and contemporary issues are explored as philosophy is considered as a deeply personal and also as a social phenomenon.

PHILOS 210 - MOTR PHIL 100: Introduction to Philosophy

PHILOS 221 Contemporary Moral Issues Credits: 3

This course offers a philosophical examination of ethical issues in contemporary society. Topics for discussion include ethical conflicts arising in business and technology, engineering, healthcare, politics, and the environment. Moral concerns addressed may include reproductive rights and technologies, warfare, capital punishment, pornography, privacy, consumerism, euthanasia, sexuality, and animal welfare.

PHILOS 221 - MOTR PHIL 102: Introduction to Ethics

**PHILOS 222 Foundations Of Logic and Scientific Reasoning Credits: 3**

This course introduces the basic concepts and methods of modern logic, beginning with premise, inference, conclusion, and argument, with emphasis on understanding and reconstructing complex patterns of reasoning, and analysis and construction of valid arguments.

PHILOS 222 - MOTR PHIL 101: Introduction to Logic

**PHILOS 250 Special Readings In Philosophy Credits: 3**

An investigation of readings on a topic, a philosophical movement, or a philosopher to be selected by the instructor. The course is designed to meet the needs of students who are interested in a specific issue or person in philosophy but do not yet possess the necessary background and skill demanded of those who have taken work beyond the introductory course (s) in philosophy.

PHILOS 310WI Ancient Philosophy Credits: 3

A survey of the central figures of classical philosophy: the pre-Socratics, Socrates, Plato, Aristotle, the Stoics, the Epicureans and other philosophers of antiquity. The contributions of major philosophers to the development of science, religion, and social and political theories are studied. Recommended preparation: PHILOS 210 and PHILOS 222.

PHILOS 320WI History of Modern Philosophy Credits: 3

A survey of the central figures of modern philosophy: Rene Descartes, Baruch Spinoza, G.W. Leibniz, Thomas Hobbes, John Locke, George Berkeley, David Hume and Immanuel Kant. In addition to the philosophical issues of the period, cultural, historical and political matters are considered. A secondary goal is the establishment of the pedigree of contemporary philosophical problems. Recommended preparation: PHILOS 210 and PHILOS 222.

PHILOS 321 Ethics Credits: 3

Attention is given to the nature of ethical ideas and the development and history of ethical theory.

Prerequisites: PHILOS 210, or PHILOS 221, or PHILOS 222.

PHILOS 325 Aesthetics Credits: 3

The basic problems of aesthetics are examined, with special emphasis on the character of the work of art, the aesthetic response of the viewer, the creative process of the artist, and the nature of aesthetic criticism. These topics are discussed in light of conflicting aesthetic theories. Recommended preparation: PHILOS 210 and PHILOS 222.

PHILOS 329 American Philosophy Credits: 3

The main trends of American thought are covered, with special emphasis on the philosophies of Peirce, James and Dewey.

Prerequisites: PHILOS 210 or PHILOS 222.

PHILOS 332 Existentialism Credits: 3

A study of the development of existentialism. Selections from the works of such thinkers as Kierkegaard, Nietzsche, Sartre, Heidegger, Camus and other related philosophers are considered. Special attention is devoted to the existential movements in literature, social science and medicine. Recommended preparation: PHILOS 222.

PHILOS 333 Social And Political Philosophy Credits: 3

A consideration of representative views of the place of man in contemporary society. Contributions in psychology, political theory, economics, sociology and anthropology are investigated philosophically with a view toward offering a critical appraisal of the nature of man in the human community.

PHILOS 335 Philosophy Of Mind Credits: 3

A study of problems arising in connection with such topics as mental phenomena, the relation of mind to body, free will and determinism, the self and personal identity, and 'thinking' machines. Classical and contemporary treatments of such concepts as 'mind', 'intention', 'sensation', 'perception', 'stimulus', etc., and their relation to action and behavior are considered. Recommended preparation: PHILOS 210 or PHILOS 222.

PHILOS 337 Philosophy Of History Credits: 3

A discussion of methodological and substantive issues, including the nature of historical explanation, whether history can be a science, and various theories of history such as those of Vico, Hegel, Marx, and Collingwood.

Prerequisites: PHILOS 210 or PHILOS 222.

PHILOS 340 Philosophy Of Law Credits: 3

An analysis of major philosophies of law, including methods of justifying legal systems through natural law, legal positivism, sociological jurisprudence, theology, etc. Contemporary legal theories are critically analyzed. Recommended preparation: PHILOS 210 or PHILOS 222.

PHILOS 370 Environmental Ethics And Policy Credits: 3

Various philosophical approaches to issues such as the value of nature, human obligations to non-human animals, species, ecosystems and future generations; environmental justice; restoration; resource use; environmental politics; and the relation between environmental issues, policy and ethics will be discussed critically.

PHILOS 430 Plato Credits: 3

Selected dialogues of Plato are studied with a view to understanding Plato's philosophy and its position in the world of Greece and antiquity. Plato's philosophy is also examined with reference to his place in the Western tradition and in modern philosophy. Recommended preparation: PHILOS 210 or PHILOS 222.

PHILOS 431 Aristotle Credits: 3

Selected portions of Aristotle's works on logic, metaphysics, science, ethics, politics, and poetics are studied with a view to understanding Aristotle's philosophy and its position in the world of Greece and antiquity. Aristotle's philosophy is examined with reference to its place in the Western tradition and in modern philosophy. Recommended preparation: PHILOS 210 or PHILOS 222.

PHILOS 448 Recent Ethical Theories Credits: 3

An analysis and investigation of modern and contemporary ethical theories. Among the theories considered are ethical relativity, the emotive theory, utilitarianism, neo Kantianism, and situation ethics.

Prerequisites: PHILOS 321.

PHILOS 451 History and Philosophy of Bioethics Credits: 3

This course will provide an overview of the history of medicine and bioethics from antiquity to the present. In addition to key historical events, the course will provide an overview of foundational ethical theories. The course will explore key events in bioethics and the responses to them in the bioethics literature.

PHILOS 480 Selected Topics Credits: 1-3

Each time this course is offered a particular philosopher or particular area of philosophy will be the topic of discussion. The course may be repeated for credit when the topic varies.

Prerequisites: PHILOS 210 or PHILOS 222.

PHILOS 480A Selected Topics Credits: 1-3

PHILOS 480B Selected Topics Credits: 1-3

PHILOS 480E Selected Topics Credits: 1-3

PHILOS 490 Special Topics And Readings Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor. May be repeated for credit when the topic varies.

Prerequisites: Departmental consent.

PHILOS 490B Special Topics And Readings Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor. By permission only. May be repeated for credit when the topic varies.

Prerequisites: PHILOS 222, PHILOS 310WI, PHILOS 320WI, PHILOS 321.

PHILOS 490F Special Topics and Readings Credits: 1-3

Intensive reading and/or research in an area selected by the student in consultation with the instructor. By permission only. May be repeated for credit when the topic varies.

Prerequisites: PHILOS 222, PHILOS 310WI, PHILOS 320WI, PHILOS 321.

PHILOS 5521 Managerial And Administrative Decision Making And Ethical Values Credits: 3

Methods of problem definition and decision making in ethics are presented with the goal of providing the student with a matrix for case review. A series of cases is offered that serve to integrate approaches to ethical reflection with management and administrative decision making. Cases are chosen on the basis of topical, curricular and conceptual relevance.

PHILOS 5540 Seminar On Philosophy And Law Credits: 2

An examination from a philosophical perspective of the historical and conceptual relationships present in the evolution, development and analysis of law. Among the systems of analysis examined will be natural law theory, legal positivism and legal realism. Ordinarily the seminar will focus on a specific area of controversy in the law.

PHILOS 5546 Ethics And Government Credits: 3

An examination of ethical issues related to government, with the primary focus on national and local governmental bodies in the United States. Ethics in the executive, legislative and judicial branches are examined. Ethical standards for elected officials and appointed public servants are reviewed. Attempts to "legislate morality" are considered. The course includes a historical review of ethics and government and an analysis of the legal implications of legislation regarding ethics in the executive branch.

PHILOS 5620 Descartes To Hume Credits: 3

PHILOS 5625 Aesthetics Credits: 3

PHILOS 5638 Philosophy Of Biology Credits: 3

PHILOS 5640 Philosophy Of Law Credits: 3

PHILOS 5690 Research In Selected Fields: Graduate Studies Credits: 3

Intensive research in an area selected by the student in consultation with the instructor. By permission only. May be repeated for credit when the topic varies.

PHILOS H310 Ancient Philosophy - Honors Credits: 3

PHILOS H321 Honors: Introduction To Ethics Credits: 3

PHILOS H332 Existentialism Credits: 3

A study of the development of existentialism. Selections from the works of such thinkers as Kierkegaard, Nietzsche, Sartre, Heidegger, Camus and other related philosophers are considered. Special attention is devoted to the existential movements in literature, social science and medicine.

Prerequisites: PHILOS 210, PHILOS 222.

PHILOS H333 Social And Political Philosophy Credits: 3

A consideration of representative views of the place of man in contemporary society. Contributions in psychology, political theory, economics, sociology and anthropology are investigated philosophically with a view toward offering a critical appraisal of the nature of man in the human community. No prerequisites.

PHILOS H370 Environmental Ethics And Policy Credits: 3

Various philosophical approaches to issues such as the value of nature, human obligations to non-human animals, species, ecosystems and future generations; environmental justice; restoration; resource use; environmental politics; and the relation between environmental issues, policy and ethics will be discussed critically.

Bachelor of Arts: Philosophy

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Have an understanding of the central figures and themes in the history of philosophy.
- Possess the critical reasoning skills necessary to effectively analyze and critique abstract concepts and arguments.
- Be able to develop and defend philosophical arguments, both orally and in writing.
- Be able to apply critical reasoning skills in a wide range of career settings.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course		
ACT Math Subscore of 28 or higher; or SAT Math Subscore of 660 or higher		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above; Satisfied in program requirements below)		
	Foreign Language (3rd Semester Level)	9
	Laboratory Science Experience	1
Total Credits		10

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Code	Title	Credits
PHILOS 210	Introduction to Philosophy	3
PHILOS 222	Foundations Of Logic and Scientific Reasoning	3
PHILOS 310WI	Ancient Philosophy	3
PHILOS 320WI	History of Modern Philosophy	3
PHILOS 321	Ethics	3
Major Electives (at least 12 hours at 300-level or above)		15
Elective coursework offered on a regular basis includes the following:		
PHILOS 329	American Philosophy	
PHILOS 333	Social And Political Philosophy	
PHILOS 335	Philosophy Of Mind	
PHILOS 340	Philosophy Of Law	
PHILOS 370	Environmental Ethics And Policy	
PHILOS 430	Plato	
PHILOS 431	Aristotle	
PHILOS 448	Recent Ethical Theories	
Total Credits		30

No more than twelve credit hours of the 30 required hours may be at the 100- or 200-level. To graduate with a major in philosophy, students must pass all courses included in the 30 credit hours required for the major with a grade of C or higher. This requirement also applies to transfer courses.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		50

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office

of Registration and Records) and “what if” exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Minor in Bioethics and Medical Humanities

Requirements for the Minor

Students wishing to complete the interdisciplinary minor in Bioethics and Medical Humanities must complete 18 hours of coursework.

Code	Title	Credits
PHILOS 321	Ethics	3
Select one course in the History of Medicine, for example:		3
CLASSICS 391WI	Ancient Greek and Roman Medicine	
Select at least one course in Bioethics:		3
300/400 level elective courses in bioethics and medical humanities ¹		9
Elective coursework offered on a regular basis includes the following:		
PHILOS 329	American Philosophy	
PHILOS 340	Philosophy Of Law	
PHILOS 370	Environmental Ethics And Policy	
PHILOS 448	Recent Ethical Theories	
Total Credits		18

¹ From the approved course list or as approved by the program director.

Students must receive a C or better in all coursework applied toward the minor.

Minor in Philosophy

Student Learning Outcomes

Students graduating from this program will:

- Have an understanding of the central figures and themes in the history of philosophy.
- Possess the critical reasoning skills necessary to effectively analyze and critique abstract concepts and arguments.
- Be able to develop and defend philosophical arguments, both orally and in writing.
- Be able to apply critical reasoning skills in a wide range of career settings.

Program Requirements

Philosophy minors are required to complete a total of 18 credit hours, including:

Code	Title	Credits
PHILOS 210 or PHILOS 222	Introduction to Philosophy Foundations Of Logic and Scientific Reasoning	3
PHILOS 310WI	Ancient Philosophy	3
PHILOS 320WI	History of Modern Philosophy	3
Any 300- or 400-level philosophy courses		9
Elective coursework offered on a regular basis includes the following (consult advisor for additional options):		
PHILOS 329	American Philosophy	
PHILOS 340	Philosophy Of Law	
PHILOS 370	Environmental Ethics And Policy	
PHILOS 448	Recent Ethical Theories	
Total Credits		18

Students must achieve a grade of C or better in a course for it to count toward the minor. Students can work with the departmental advisor to tailor focused minors that coordinate with their major.

Department of Physics and Astronomy

Welcome

These catalog pages are here to guide you regarding the central facts of the degree programs offered by the Department of Physics and Astronomy. To learn about the student activities, faculty members, research programs, resources, and culture of the Department of Physics and Astronomy, please visit our Departmental Web Site (<http://cas.umkc.edu/physics/>).

Degree Programs

Undergraduate

The Department of Physics and Astronomy offers programs of study leading to the Bachelor of Arts (BA) and Bachelor of Science (BS). The Physics BS degree may be taken with an Emphasis in Astronomy. Through coordination with the School of Computing and Engineering, a program of study can be designed for motivated students that results in a Physics BS and an Electrical & Computer Engineering BS double degree within five years. The department also offers minors in Physics or Astronomy and provides courses for students in the School of Education to meet the requirements for Teacher Certification in Physics.

Graduate

The Department of Physics and Astronomy offers a Master of Science (MS) degree in Physics with thesis and non-thesis options through the College of Arts and Sciences. The Department of Physics is an academic discipline that is eligible for full participation in UMKC's Interdisciplinary Ph.D. (IPhD) program. Qualified students may select Physics as their coordinating unit or co-discipline when applying for admission or preparing their IPhD plan of study. (Visit the School of Graduate Studies (Catalog (p. 1538), Web (<http://sgs.umkc.edu/>)) for details about the IPhD program.)

Student Support

Advising System

Students who wish to major or minor in Physics should seek the advice of the undergraduate advisor, Professor Elizabeth Stoddard (stoddarde@umkc.edu).

Students who wish to minor in Astronomy or pursue the Physics BS with an Emphasis in Astronomy should seek the advice of the undergraduate advisor for astronomy, Professor Dan McIntosh (mcintoshdh@umkc.edu).

Students who wish to pursue graduate studies (MS / IPhD) should seek the advice of the graduate advisor, Professor Paul Rulis (rulisp@umkc.edu).

Tutoring

Tutoring is freely available for undergraduate students taking courses from the department. The tutoring room is #259, Flarsheim Hall. Ask your instructor for the tutoring schedule.

Undergraduate

Undergraduate Admissions

There are no special prerequisites for beginning either the Bachelor of Arts (BA) or the Bachelor of Science (BS) degree programs in Physics. High-school physics and a good working knowledge of algebra and arithmetic are desirable for entering the BS program. However, any deficiencies may be overcome by taking the appropriate coursework. In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for physics (Professor Elizabeth Stoddard, stoddarde@umkc.edu) or the undergraduate advisor for astronomy (Professor Dan McIntosh, mcintoshdh@umkc.edu) before beginning the major.

Students that are interested in pursuing Teacher Certification in Physics should contact the School of Education (Catalog (p. 1430), Web (<http://education.umkc.edu/>)) for admissions and advising.

Undergraduate Degrees

- Bachelor of Science: Physics (p. 926)
- Bachelor of Science: Physics with an Emphasis in Astronomy (p. 931)
- Bachelor of Science: Physics and Electrical & Computer Engineering Double Degree (p. 937)
- Bachelor of Arts: Physics (p. 922)
- Physics Minor (p. 921)
- Astronomy Minor (p. 920)
- Teacher Certification in Physics (p. 938)

Career Implications of the Bachelor's Degree in Physics

The BS/BA degree is recommended for students interested in seeking employment in any organization that requires a strong science or technology background. Graduates with a physics degree who enter fields other than science and technology generally find that the reasoning skills and quantitative problem-solving strategies that are developed in a physics program will help their career advancement.

Students that earn a BS degree in Physics are well positioned for continuing their education in graduate school and professional/medical school while those attaining a BS or BA degree in Physics are well positioned for entering the job market in virtually any field of endeavor. There are many career opportunities for holders of either the BS or BA degree in Physics including such possibilities as: researcher in a government/corporate lab, engineer (electrical, mechanical, etc.), science journalist, technology entrepreneur, financial/actuarial analyst, hardware/software developer, chemist, K-12 educator, materials scientist, meteorologist/seismologist, health practitioner, legal analyst, elected political official, etc.

Graduate

Graduate Degrees:

- Master of Science in Physics (p. 935)
- Interdisciplinary Ph.D. Program in Physics (School of Graduate Studies Catalog Section) (p. 1602)

Astronomy Courses

ASTR 150 Astronomy: Motions of the Cosmos Credits: 3

An introductory exploration of modern topics in astronomy with an emphasis on developing conceptual models for the fundamental laws of gravity and motion crucial to the formation of stars and planetary systems, the growth of black holes and galaxies, and the evolution of cosmic structure.

ASTR 150 - MOTR ASTR 100: Astronomy

ASTR 155 Astronomy: Starlight and Star Stuff Credits: 3

An introductory exploration of modern topics in astronomy with an emphasis on developing conceptual models for the interactions between light and matter crucial to the life and death of stars, the analysis of starlight and interstellar chemistry, and the interpretation of cosmic history.

ASTR 155 - MOTR ASTR 100: Astronomy

ASTR 353 Practical Astronomy Credits: 3

A practical overview of the basic methods of observational astronomy research, including the principles of telescopes, detectors and measurement theory.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

ASTR 355 Stellar Astrophysics Credits: 3

A mathematical and conceptual overview of the observed properties of stars and the fundamental astrophysics of radiative transfer, hydrostatic equilibrium, atomic processes and thermonuclear energy production that govern their structure, atmospheres and remnants.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

ASTR 356 Galaxies Credits: 3

A mathematical and conceptual overview of the observed properties and astrophysics of galaxies highlighting star formation and evolution, the interstellar medium, the Milky Way, galaxy populations and demographics, active galactic nuclei, and galaxy formation and evolution.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

ASTR 465 Cosmology Credits: 3

This course provides a foundation in both physical and observational cosmology. Students will acquire both a mathematical and conceptual understanding of the formation and dynamics of the Universe.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

Physical Science Courses

PHY-SCI 110 Foundations Of Physical Sciences I Credits: 4

Fundamental principles and concepts of the various physical and mathematical sciences, integrated by the history and philosophy of science.

PHY-SCI 110 - MOTR PHYS 110L: Essentials Physical Sciences w/Lab

PHY-SCI 110L Foundations Of Physical Sciences, Laboratory I Credit: 1

General laboratory and discussion sessions on various topics in the physical and mathematical sciences.

PHY-SCI 110L - MOTR PHYS 110L: Essentials Physical Sciences w/Lab

PHY-SCI 130 Physics of Sports Credits: 3

A course intended for liberal arts students focusing on the physics involved in different sports. Physical laws and technological developments that impact sports will be studied.

PHY-SCI 140 How Things Work Credits: 3

A course intended for liberal arts students focusing on the principles of operations, histories, and relationships of objects from our daily environment. The areas of investigation include mechanical and thermal objects, electromagnetism, light, special materials and nuclear energy.

Co-requisites: PHY-SCI 140L.

PHY-SCI 140L How Things Work Laboratory Credit: 1

Simple experiments based on everyday experiences are analyzed in terms of conceptual physics. The material includes elements of mechanics of a rigid body, elastic properties of matter, fluid dynamics, thermodynamics, electromagnetism, optics and modern physics.

Co-requisites: PHY-SCI 140.

PHY-SCI 150 Astronomy: Motions of the Cosmos Credits: 3

An introductory exploration of modern topics in astronomy with an emphasis on developing conceptual models for the fundamental laws of gravity and motion crucial to the formation of stars and planetary systems, the growth of black holes and galaxies, and the evolution of cosmic structure.

PHY-SCI 153L Introductory Astronomy Laboratory Credits: 2

An introductory exploration of astronomical phenomena and concepts through quantitative laboratory activities requiring data collection, analysis and interpretation. This course is open to students from all majors. Concurrent enrollment in either PHY-SCI 150 or PHY-SCI 155 is encouraged but not required.

PHY-SCI 171 Physics For Future Presidents Credits: 3

A course intended for liberal arts students focusing on the physics they need to be informed citizens in a democracy. Energy, global warming, terrorism, and health are examples of the important topics examined from the perspective of how science should inform policy.

PHY-SCI 410A Selected Topics In Contemporary Science Credits: 3**PHY-SCI 435 Selected Topics In The History Of Science Credits: 3**

Selected Topics In The History Of Science

Physics Courses

PHYSICS 130 Physics of Sports Credits: 3

A course intended for liberal arts students focusing on the physics involved in different sports. Physical laws and technological developments that impact sports will be studied.

PHYSICS 131L Backyard Physics Credit: 1

This laboratory course uses readily available ingredients to develop a conceptual understanding of the laws of nature and mathematics. Experiments can be conducted in the residence hall, apartment, park or home using everyday, inexpensive equipment and materials.

PHYSICS 140 How Things Work Credits: 3

A course intended for liberal arts students focusing on the principles of operations, histories, and relationships of objects from our daily environment. The areas of investigation include mechanical and thermal objects, electromagnetism, light, special materials and nuclear energy.

Co-requisites: PHYSICS 140L.

PHYSICS 140 - MOTR PHYS 100L: Essentials in Physics with Lab**PHYSICS 140L How Things Work Laboratory Credit: 1**

A course intended for liberal arts students focusing on the principles of operations, histories and relationships of objects from our daily environment. The areas of investigation include mechanical and thermal objects, electromagnetism, light, special materials and nuclear energy.

Co-requisites: PHYSICS 140.

PHYSICS 140L - MOTR PHYS 100L: Essentials in Physics with Lab**PHYSICS 150 Astronomy: Motions of the Cosmos Credits: 3**

An introductory exploration of modern topics in astronomy with an emphasis on developing conceptual models for the fundamental laws of gravity and motion crucial to the formation of stars and planetary systems, the growth of black holes and galaxies, and the evolution of cosmic structure.

PHYSICS 153L Introductory Astronomy Laboratory Credits: 2

An introductory exploration of astronomical phenomena and concepts through quantitative laboratory activities requiring data collection, analysis and interpretation. This course is open to students from all majors.

PHYSICS 155 Astronomy: Starlight and Star Stuff Credits: 3

An introductory exploration of modern topics in astronomy with an emphasis on developing conceptual models for the interactions between light and matter crucial to the life and death of stars, the analysis of starlight and interstellar chemistry, and the interpretation of cosmic history.

PHYSICS 210 General Physics I Credits: 4

Introduction to mechanics, wave motion and sound and heat and thermodynamics. Three hours lecture and two hours laboratory per week.

Co-requisites: MATH 110 or MATH 120 (or higher); ACT Math Sub-score of 28 or higher; or SAT Math Sub-score of 660 or higher.

PHYSICS 210 - MOTR PHYS 150L: Physics I with Lab**PHYSICS 220 General Physics II Credits: 4**

Introduction to electricity and magnetism, light and optics and modern physics. Three hours lecture and two hours laboratory per week.

Prerequisites: PHYSICS 210.

PHYSICS 240 Physics For Scientists and Engineers I Credits: 5

Introduction to mechanics, wave motion and sound and heat and thermodynamics.

Co-requisites: MATH 210 or MATH 266.

PHYSICS 240 - MOTR PHYS 200L: Advanced Physics I with Lab**PHYSICS 250 Physics For Scientists and Engineers II Credits: 5**

Introduction to electricity and magnetism, light and optics and modern physics. Four hours lecture and two hours laboratory per week.

Prerequisites: PHYSICS 240.

Co-requisites: MATH 220 or MATH 268.

PHYSICS 310 Mechanics I Credits: 3

Advanced statics and dynamics of particles and rigid bodies including gravitation.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

PHYSICS 311 Mechanics II Credits: 3

Continuation of Mechanics I, including mechanics of continuous media, Lagranges equations, tensor algebra and theory of small vibrations.

Prerequisites: PHYSICS 310.

PHYSICS 330 Methods Of Theoretical Physics I Credits: 3

Introduction to mathematical and numerical methods used in the theoretical modeling of physical systems. Treatments of linear systems in scientific and engineering applications will be emphasized.

Prerequisites: MATH 250 or MATH 268.

PHYSICS 342 Physics of Science Fiction Credits: 3

This course will quantitatively explore the representation of physics in science fiction books, movies and television shows. Many popular science fiction concepts will be explored, spanning centuries of physics from Galileo to string theory.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 120 or MATH 125.

PHYSICS 350 Modern Physics With Engineering Applications Credits: 3

An introduction to the theories that revolutionized science and technology in the twentieth century. Topics include special and general relativity, introductory quantum mechanics and atomic structure. Inventions and applications based on these are also examined.

Prerequisites: MATH 220 or MATH 268 and PHYSICS 220 or PHYSICS 250.

PHYSICS 353 Practical Astronomy Credits: 3

A practical overview of the basic methods of observational astronomy research, including the principles of telescopes, detectors and measurement theory.

Prerequisites: PHYSICS 250 and MATH 210 or MATH 220.

PHYSICS 355 Stellar Astrophysics Credits: 3

A mathematical and conceptual overview of the observed properties of stars and the fundamental astrophysics of radiative transfer, hydrostatic equilibrium, atomic processes and thermonuclear energy production that govern their structure, atmospheres and remnants.

Prerequisites: PHYSICS 240 and PHYSICS 250, MATH 210 or MATH 220.

PHYSICS 356 Galaxies Credits: 3

A mathematical and conceptual overview of the observed properties and astrophysics of galaxies highlighting star formation and evolution, the interstellar medium, the Milky Way, galaxy populations and demographics, active galactic nuclei, and galaxy formation and evolution.

Prerequisites: PHYSICS 250 and MATH 210 or MATH 220.

PHYSICS 385L Physics of Electronics Credits: 3

An introduction to the solid state physics of basic electronic components and their operation through both theory and practical labwork.

Prerequisites: PHYSICS 220 or PHYSICS 250.

PHYSICS 395L Computer Interfacing Laboratory Credits: 3

An introduction to data acquisition and automation by computer interfacing transduction and control equipment through the serial and parallel buses. The course is multidisciplinary, balancing the physics of transduction to the computer science of automation programming to the electrical engineering of bus protocols. Both high- and low-level programming are taught within the context of automating an experimental procedure. Digital-to-analog and analog-to-digital conversion is also covered.

Prerequisites: PHYSICS 385L.

PHYSICS 410 Thermal Physics Credits: 3

A study of the laws of thermodynamics and their applications, with an introduction to kinetic theory. Statistical methods are emphasized.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

PHYSICS 420 Optics Credits: 3

Geometrical optics, physical optics and introduction to selected topics in modern optics.

Prerequisites: PHYSICS 220 or PHYSICS 250 and MATH 210 or MATH 216 or MATH 266.

PHYSICS 450 Introduction To Solid State Physics Credits: 3

Crystal structure and binding, elementary lattice dynamics and energy band theory. Free electron models, theory of semiconductors and metals.

Prerequisites: PHYSICS 310 or PHYSICS 410.

PHYSICS 460 Electricity And Magnetism I Credits: 3

Static electric fields in free space and material media; Kirchoff's laws and direct current circuits; static magnetic fields.

Prerequisites: PHYSICS 220 or PHYSICS 250; and MATH 250 or MATH 268.

PHYSICS 461 Electricity And Magnetism II Credits: 3

Magnetostatics; alternating current circuits; Maxwell's equations and radiation; special relativity; topics in electromagnetism.

Prerequisites: PHYSICS 460.

PHYSICS 465 Cosmology Credits: 3

This course provides a foundation in both physical and observational cosmology. Students will acquire both a mathematical and conceptual understanding of the formation and dynamics of the Universe.

Prerequisites: PHYSICS 240 and PHYSICS 250, MATH 210 or MATH 220.

PHYSICS 472 Introduction To Quantum Mechanics Credits: 3

Introduction to the theory and applications of quantum mechanics with emphasis on the mathematical treatment of modern physics.

Prerequisites: PHYSICS 350.

PHYSICS 476LW Advanced Laboratory Credits: 3

This course offers a selection of important experiments in physics, performed with modern instrumentation. It is designed to give students a deeper understanding of physics and help them develop experimental abilities and improve their communication skills.

PHYSICS 490 Special Problems Credits: 1-3

The kind of problem and the amount of credit to be given by arrangement with the department.

PHYSICS 499 Undergraduate Research Credits: 1-3

Independent student research on a physics/astrophysics project under the supervision of a faculty member. Projects will engage students in aspects of the scientific process including data collection and analysis, research methods and strategies, scientific discussion and written/oral communication. Requires a minimum of 3-4 hours of research per week for each credit hour.

PHYSICS 5500 Methods Of Mathematical Physics I Credits: 3

Intended to provide the student with the advanced mathematical techniques needed for beginning graduate studies in the physical sciences. Content includes real variables, infinite series, complex analysis, linear algebra and partial differential equations.

PHYSICS 5501 Methods Of Mathematical Physics II Credits: 3

A continuation of Physics 500 which includes Sturm-Liouville operators, special functions, Fourier transforms, distributions and Green functions, Laplace transforms, linear groups and tensor analysis.

PHYSICS 5505 Survey Of Recent Development In Physics Credits: 3

Specifically designed to help high school and junior college science teachers keep pace with current developments in various subdivisions of physics and their impact on society and technology. (Not applicable for graduate degree in Physics).

Prerequisite: Baccalaureate degree and one year science teaching experience.

PHYSICS 5510 Theoretical Mechanics I Credits: 3

A review of undergraduate mechanics precedes the study of generalized classical mechanics in this course. Topics include variational principles, Lagrangian and Hamilton methods, conservation laws and Hamilton-Jacobi theory.

PHYSICS 5511 Theoretical Mechanics II Credits: 3

A continuation of PHYSICS 5510, this course covers topics such as normal coordinates, small oscillations, continuum mechanics and special/general relativity.

PHYSICS 5520 Electromagnetic Theory And Applications I Credits: 3

Electrostatics, magnetostatics and various approaches in solving boundary value problems of electromagnetism, Green's functions, conformal transformations and polynomial expansions, Maxwell's equations and waves.

PHYSICS 5521 Electromagnetic Theory And Applications II Credits: 3

Waveguides, fiber optics, radiation systems and antenna for wireless communications, scattering and diffraction of electromagnetic waves, multipole fields, special relativity and relativistic particle dynamics and radiation.

PHYSICS 5530 Quantum Mechanics I Credits: 3

Review of elementary methods, formal preliminaries, axioms, commuting operators, angular momentum, static perturbation theory, Wigner-Eckart theorem.

PHYSICS 5531 Quantum Mechanics II Credits: 3

Time dependent perturbation theory, scattering, applications to atoms, molecules and nuclei, reactions, relativistic methods.

PHYSICS 5535 Optical Properties Of Matter Credits: 3

Maxwell's equations and the dielectric function, absorption and dispersion, free-electron metals, interband transitions, dispersion relations and sum rules, self-consistent field approximation, current-current correlations and the fluctuation-dissipation theorem, plasmons and characteristic energy loss.

Prerequisites: PHYSICS 450, PHYSICS 460, PHYSICS 461, PHYSICS 472, PHYSICS 5500.

PHYSICS 5537 Particle Physics Credits: 3

Essential aspects of modern particle physics are examined in a historical context, and also in terms of the standard model describing concisely the fundamental interactions among particles. Conservation laws are discussed, and recent developments such as String Theory are considered.

Prerequisites: (for undergraduates) PHYSICS 240, PHYSICS 250, and PHYSICS 350 or PHYSICS 472.

PHYSICS 5540 Statistical Physics I Credits: 3

Statistical mechanics as a basis for thermodynamics; classical distribution functions; quantum statistical mechanics, kinetic theory, transport phenomena; application to systems of interacting particles.

Prerequisites: PHYSICS 410, PHYSICS 472.

PHYSICS 5541 Statistical Physics II Credits: 3

Special topics in advanced statistical physics including: second quantization, modern many body theory, interacting Fermi and Bose systems, superfluidity and superconductivity, renormalization group and computer simulation techniques.

Prerequisites: PHYSICS 5540.

PHYSICS 5550 Atomic And Molecular Structure Credits: 3

Experimental results and theoretical models by quantum mechanics. Special emphasis on the interaction between radiation and matter.

PHYSICS 5553 Practical Astronomy Credits: 3

A practical overview of the basic methods of observational astronomy research, including the principles of telescopes, detectors and measurement theory, as well as hands-on experience with data reduction and analysis. This course is open to graduate students from all majors.

PHYSICS 5555 Stellar Astrophysics Credits: 3

A mathematical and conceptual overview of the observed properties of stars and the fundamental astrophysics of radiative transfer, hydrostatic equilibrium, atomic processes and thermonuclear energy production that govern their structure, atmospheres and remnants.

PHYSICS 5556 Galaxies Credits: 3

A mathematical and conceptual overview of the observed properties and astrophysics of galaxies highlighting star formation and evolution, the interstellar medium, the Milky Way, galaxy populations and demographics, active galactic nuclei, and galaxy formation and evolution.

PHYSICS 5560 Nuclear Physics Credits: 3

Fundamental properties of the atomic nucleus discussed in terms of experimental results and theoretical models. Quantum and statistical mechanics are used where appropriate.

PHYSICS 5565 Cosmology Credits: 3

This course provides a foundation in both physical and observational cosmology. Students will acquire both a mathematical and conceptual understanding of the formation and dynamics of the Universe.

PHYSICS 5570 Quantum Theory Of Solids I Credits: 3

Lattice dynamics and thermal conductivity. Neutron scattering. Symmetry principles in crystals and consequences. Point group, space group and irreducible representations. Energy band theory and methods of band calculation. Elementary Theory of Magnetism. Spin wave theory.

PHYSICS 5571 Quantum Theory Of Solids II Credits: 3

Topics will include crystal imperfections, impurities and defects, optical properties of metals and semiconductors, electron-lattice interaction and transport theory, superconductivity and theory of disordered systems.

PHYSICS 5580 Physics Seminar Credit: 1

Contemporary publications and research.

PHYSICS 5585 Physics of Electronics Credits: 3

An introduction to the solid state physics of basic electronic components and their operation through both theory and practical lab work.

PHYSICS 5590 Topics In Physics Credits: 1-3

Contemporary publications and research.

PHYSICS 5590A Topics In Physics Credits: 1-3

Contemporary publications and research.

PHYSICS 5590B Special Topics Credits: 1-3**PHYSICS 5590R Topics in Physics Credits: 1-3**

Contemporary publications and research.

PHYSICS 5595L Computer Interfacing Laboratory Credits: 3

An introduction to computer interfacing through the use of serial and parallel ports and digital-to-analog and analog-to-digital converters. The course also introduces digital filtering techniques, data analysis techniques, and graphical presentation of data. The programming techniques are taught using high level programming languages currently used in research and development labs.

PHYSICS 5599 Research And Thesis Credits: 1-9

Research for thesis in partial fulfillment of the master's degree in physics.

PHYSICS 5680 Research Seminar Credits: 1-2

Seminars on current research topics of research programs in the department and those of external distinguished scientists. (Must be taken by Physics Ph.D. students).

PHYSICS 5690 Special Research Topics Credits: 1-3

A lecture course presenting advanced research-level topics.

Prerequisites: Ph.D. candidacy. This course is intended to allow faculty and visiting scholars to offer special courses in selected research areas.

PHYSICS 5696 Dissertation Research Credits: 1-3

This course is individually directed research leading to the fulfillment of the Comprehensive Exam requirements of the Department of Physics and Astronomy. These include (i) completion of an NSF-style research proposal and (ii) successful oral defense of it before the student's research advisory committee.

Prerequisites: Completion of at least 80% of coursework hours, as per the student's Plan of Study and Permission of the instructor.

PHYSICS 5699 Research And Dissertation Credits: 1-9

Research for dissertation in partial fulfillment of the Ph.D. degree requirements in physics.

PHYSICS 5899 Required Graduate Enrollment Credit: 1**PHYSICS H150 Honors: Introduction To Astronomy Credits: 3**

Honors: Introduction To Astronomy

PHYSICS H220 General Physics II Credits: 4

Fundamental principles of physics including sound, electricity, magnetism, optics, elementary modern physics, and applications of these principles to different interdisciplinary natural science.

Prerequisites: PHYSICS 210 (or equivalent).

PHYSICS H240 Physics For Science And Engineering I Credits: 5

Introduction to mechanics, wave motion and sound and heat and thermodynamics.

Co-requisites: MATH 210.

PHYSICS H250 Physics For Science And Engineering II Credits: 5

Introduction to electricity and magnetism, light and optics and modern physics.

Prerequisites: PHYSICS 240.

Co-requisites: MATH 220.

Astronomy Minor

Student Learning Outcomes

Students graduating from this program will:

- demonstrate competency in stellar astrophysics, galaxies, cosmology and practical astronomy in homework and exam questions.
- translate complicated mathematical expressions of astrophysics laws into concrete calculations and test these.
- clearly articulate scientific information both orally and in writing.

Description of the Program

The minor in Astronomy is designed for students desiring a general background in Astronomy.

Astronomy advising questions should be directed to Professor Daniel McIntosh (McIntoshDH@umkc.edu).

Program Requirements

Students majoring in any other discipline (including Physics) in the University may elect to minor in astronomy.

There are two tracks (Track One, Track Two) each requiring a minimum of 18 credit hours in Physics and Astronomy courses, with a minimum of 9 credit hours at the 300-400 level. It is highly recommended that students follow Track One because the upper level courses will be very challenging without the solid foundation obtained in the calculus-based physics courses (PHYSICS 240/PHYSICS 250). Students must receive grades of C or better in each course.

Track One (Recommended)

Code	Title	Credits
PHYSICS 240 & PHYSICS 250	Physics For Scientists and Engineers I and Physics For Scientists and Engineers II	10
Select three of the following:		9
PHYSICS 350	Modern Physics With Engineering Applications	
ASTR/PHYSICS 353	Practical Astronomy	
ASTR/PHYSICS 355	Stellar Astrophysics	
ASTR/PHYSICS 356	Galaxies	
ASTR/PHYSICS 465	Cosmology	
Total Credits		19

Track Two (Approval Required)

Code	Title	Credits
PHYSICS 210 & PHYSICS 220	General Physics I and General Physics II	8
Select one of the following:		2-3
ASTR/PHYSICS 150	Astronomy: Motions of the Cosmos	
ASTR/PHYSICS 153L	Introductory Astronomy Laboratory	
ASTR/PHYSICS 155	Astronomy: Starlight and Star Stuff	
Plus three of the following:		9
PHYSICS 342	Physics of Science Fiction	
PHYSICS 350	Modern Physics With Engineering Applications	
ASTR/PHYSICS 353	Practical Astronomy	
ASTR/PHYSICS 356	Galaxies	
Total Credits		19-20

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for astronomy, Professor Dan McIntosh (McIntoshDH@umkc.edu).

Physics Minor

Student Learning Outcomes

Students graduating from this program will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their basic scientific knowledge with critical thinking skills to quantitatively solve physics problems.

The minor in Physics is designed for students desiring a general background in Physics.

Physics advising questions should be directed to Professor Elizabeth Stoddard (stoddarde@umkc.edu).

Program Requirements

Students majoring in any other discipline in the University may elect to minor in Physics.

The Physics minor requires a minimum of 18 credit hours in Physics courses, with a minimum of 9 credit hours at the 300-400 level. Students must receive grades of C or better in each course. Advising questions regarding the Physics minor should be directed to Professor Elizabeth Stoddard (stoddarde@umkc.edu).

Code	Title	Credits
Take the following coursework:		18
Any combination of other physics courses with at least 9 credit hours at the 300-400 level and a total of 18 credit hours.		
Select one of the following:		
PHYSICS 210 & PHYSICS 220	General Physics I and General Physics II	
PHYSICS 240 & PHYSICS 250	Physics For Scientists and Engineers I and Physics For Scientists and Engineers II	
Total Credits		18

In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for physics, Professor Elizabeth Stoddard, (stoddarde@umkc.edu (stoddarde@umkc.edu)).

Bachelor of Arts: Physics

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Description of the Bachelor of Arts Program

The Bachelor of Arts (BA) degree in Physics is recommended for students interested in seeking employment in science, technology, engineering and math (STEM) areas that require a strong scientific and quantitative background. The BA degree offers greater flexibility than either the Physics BS or the Physics/Engineering Double Degree program because it requires fewer credit hours of physics in contrast to the BS.

Physics advising questions should be directed to Professor Elizabeth Stoddard (stoddarde@umkc.edu).

Students graduating with a BA degree in Physics will be prepared for entry into the high-tech job market.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		27

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above)		3
Foreign Language (3rd Semester Level)		9

Laboratory Science Experience (Satisfied in program requirements below)

Total Credits	12
---------------	----

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

Students must complete 31 hours of Physics coursework, of which 21 hours must be at the 300-level or above.

Code	Title	Credits
MATH 120	Precalculus (satisfies Math Pathway)	5
MATH 210	Calculus I	4
MATH 220	Calculus II	4
MATH 250	Calculus III	4
CHEM 211 & 211L	General Chemistry I and Experimental General Chemistry I	5
Choose One Introductory Series		8
PHYSICS 210 & PHYSICS 220	General Physics I and General Physics II	
PHYSICS 240 & PHYSICS 250	Physics For Scientists and Engineers I and Physics For Scientists and Engineers II	
Required Upper Division Theory Courses		9
PHYSICS 310	Mechanics I	
PHYSICS 330	Methods Of Theoretical Physics I	
PHYSICS 472	Introduction To Quantum Mechanics	
Required Upper Division Lab Course (Choose one)		3
PHYSICS 385L	Physics of Electronics	
PHYSICS 395L	Computer Interfacing Laboratory	
PHYSICS 476LW	Advanced Laboratory	
Additional ASTR/PHYSICS Electives to equal 31 credit hours of Physics coursework. Restrictions: no more than 3 credit hours of PHYSICS 490 / PHYSICS 499.		11
Regular elective offerings include the following. Please consult with advisor for additional course options.		
ASTR 353	Practical Astronomy	
ASTR 355	Stellar Astrophysics	
ASTR 356	Galaxies	
ASTR 465	Cosmology	
PHYSICS 311	Mechanics II	
PHYSICS 350	Modern Physics With Engineering Applications	
PHYSICS 410	Thermal Physics	
PHYSICS 420	Optics	
PHYSICS 450	Introduction To Solid State Physics	
PHYSICS 460	Electricity And Magnetism I	
PHYSICS 461	Electricity And Magnetism II	
PHYSICS 490	Special Problems	
PHYSICS 499	Undergraduate Research	
Total Credits		53

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		25

Major Minimum GPA: 2.0

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

First Year

Fall Semester	Credits	Spring Semester	Credits

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Bachelor of Science: Physics

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a

Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Have a functional knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Description of the Bachelor of Science Program

The Bachelor of Science (BS) degree in Physics is recommended for students interested in seeking employment in industrial, governmental, or private organizations that require a strong scientific background and for those students that are seeking to continue their academic careers in either graduate school or professional/medical school.

Physics advising questions should be directed to Professor Elizabeth Stoddard (stoddarde@umkc.edu).

Students graduating with a BS degree in Physics will be prepared for entry into professional schools, graduate programs, or the job market for career employment.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (satisfied in major requirements below)		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Math and Science Requirements

The Bachelor of Science degree requires a minimum of 60 hours in math and science coursework. The number of credit hours needed to meet this minimum requirement are listed below.

Code	Title	Credits
Additional Math/Science Coursework (Satisfied in program requirements above)		

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		17

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

Bachelor of Science: Physics - Astronomy Emphasis

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Have a functional knowledge of the basic areas of astronomy, astrophysics, and physics.
- Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Description of the Bachelor of Science Program with an Emphasis in Astronomy

The Bachelor of Science (BS) degree in Physics with an Emphasis in Astronomy is recommended for students that are seeking to continue their academic careers in graduate school or for those that are interested in seeking career employment in industrial, governmental, or private organizations that require a strong scientific background.

Astronomy advising questions should be directed to Professor Daniel McIntosh (McIntoshDH@umkc.edu).

Students graduating with a BS degree in Physics with an Emphasis in Astronomy will be prepared for entry into graduate programs or the job market for career employment.

Master of Science: Physics

Student Learning Outcomes

Students graduating from this program will:

- Have an advanced knowledge of the basic areas of physics.
- Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Admission to the Master of Science in Physics Program

Admissions Requirements

For admission to the program, an applicant must meet both the School of Graduate Studies (p. 454) and specific Department of Physics and Astronomy admission requirements described below. The graduate studies committee of the Department of Physics and Astronomy will review applications and make admission recommendations to the School of Graduate Studies. Admission to the graduate program is determined by a student's ability to do graduate-level work in physics. An undergraduate major in physics is not required, however a background in a related area of science or engineering is expected. A student's deficiencies in completed coursework and/or background may be overcome by taking certain additional undergraduate-level courses for graduate credit.

Admission decisions are based on the student's academic transcripts and English language abilities (for international students). International students must take the Test of English as a Foreign Language (TOEFL) or sit for an International English Language Testing System (IELTS) exam. Other optional information such as letters of reference (maximum of three), a statement of purpose, standardized test scores, and a personal interview can be provided to support a student's application. Although not required, applicants are encouraged to take both the Graduate Record Examination (GRE) aptitude test and the GRE physics subject test.

Description of the Master of Science in Physics Program

Degree Options

The Master of Science (MS) degree in Physics may be earned by fulfilling the requirements for the MS with thesis or the MS without thesis options.

Career Implications

The career implications for students with an MS degree in Physics and seeking employment are similar to those with a BS degree in Physics, except that they will have a more advanced standing and will be recognized as having more experience in science/technical activities. Similarly, for students that intend to pursue further academic or professional training, the MS degree in Physics will give greater weight to your applications.

Graduate Academic Advising

Graduate student academic advising questions should be directed to Professor Paul Rulis (rulis@umkc.edu), Flarsheim Hall 250D, (816) 235-5945 or Professor Mark Brodwin (brodwin@umkc.edu), Flarsheim Hall 250L, (816) 235-2508. Academic topics include, for example: the application and admission procedures, coursework plans of study, graduation credit hour requirements, administrative processes, participation in departmental social activities, and advice on how to find a research group, etc.

Graduate Research Advising

Graduate students are strongly encouraged to pursue research activities. Those that wish to do so will need to establish a research relationship with a faculty mentor who will then become the student's graduate research advisor. Because the time and resources of faculty are limited, a specific student-faculty research relationship cannot be guaranteed. Interested graduate students are encouraged to set up appointments to speak with individual faculty about their research activities so as to learn if/how research activities can be integrated into their plan of study.

Scholarships, Fellowships, and Assistantships

Financial support is available through fellowships, teaching assistantships, research assistantships or hourly student wages. Students wishing to be considered for an assistantship must so specify in their letters and application forms.

Program Requirements

General Regulations for all MS Degree Seeking Students

1. Students must satisfy the general (<https://catalog.umkc.edu/general-graduate-academic-regulations-information/general-graduate-academic-regulations/>) regulations and MS degree (<https://catalog.umkc.edu/general-graduate-academic-regulations-information/masters-degrees-academic-regulations/>) regulations set forth by the School of Graduate Studies (<https://catalog.umkc.edu/general-graduate-academic-regulations-information/masters-degrees-academic-regulations/>).
2. All graduate students must maintain a grade-point average of 3.0 on a 4.0 scale.
3. No more than twelve (12) credit hours of 400-level undergraduate courses may be taken for graduate credit.
4. No more than six (6) credit hours of 5599 Research and Thesis may be applied toward the degree whether pursuing a thesis-based MS degree or not.

Additional Requirements Specifically for the MS Degree in Physics Without Thesis

1. Completion of thirty-three (33) credit hours of Physics and Astronomy coursework taken for graduate credit.
 - a. Select a minimum of fifteen (15) credit hours of core MS courses.
 - b. Select no more than eighteen (18) credit hours of elective MS courses.

Additional Requirements Specifically for the MS Degree in Physics With Thesis

1. Completion of thirty (30) credit hours of Physics and Astronomy coursework taken for graduate credit.
 - a. Select a minimum of fifteen (15) credit hours of core MS courses.
 - b. Select no more than eighteen (18) credit hours of elective MS courses.
2. Maintenance of satisfactory progress toward completion of a research project and the associated written thesis as determined by your graduate research advisor.
3. A satisfactory¹ thesis defense with the following constraints:
 - a. The defense may be oral, written, or both and it may include the student's thesis proposal and associated background material.
 - b. The thesis defense is administered by the student's supervisory committee.
 - c. The thesis defense is publicly accessible.
4. **Note:** Graduate students should consult with either of the Department of Physics and Astronomy graduate academic advisors prior to enrollment.

Professor Mark Brodwin (brodwinm@umkc.edu), Flarsheim Hall 250L, 816-235-5945

Professor Paul Rulis (rulis@umkc.edu), Flarsheim Hall 250D 816-235-5945

PHYSICS 450	Introduction To Solid State Physics
PHYSICS 460	Electricity And Magnetism I
PHYSICS 461	Electricity And Magnetism II
PHYSICS 472	Introduction To Quantum Mechanics

¹ 'Satisfactory' is determined by the student's committee.

² No more than twelve (12) credit hours of 400-level courses.

³ No more than six (6) hours from PHYSICS 5599.

Interdisciplinary Ph.D. Program Regulations

Regulations

The Department of Physics and Astronomy is a full participant in the Interdisciplinary Ph.D. Program. The doctoral studies committee of the department has the primary responsibility for administering the program within the department. The committee consists of all physics doctoral faculty members with an elected committee chairperson.

See the School of Graduate Studies (p. 1538) section in this catalog and the departmental graduate brochure for general and discipline-specific regulations for Interdisciplinary Ph.D. study with physics as a coordinating unit discipline or co-discipline.

Physics/Engineering Double Degree

Description of the Physics and Electrical & Computer Engineering Double Degree Program

The combined Bachelor of Science (BS) degree in Physics and BS in Electrical & Computer Engineering five year double degree program is recommended for students interested in seeking employment in industrial, governmental, or private organizations that require a strong theoretical science and applied engineering background and for those students that are seeking to continue their academic careers in either graduate school or professional/medical school.

Physics advising questions should be directed to Professor Elizabeth Stoddard (stoddarde@umkc.edu).

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
	Writing Intensive Course (300-level or above)	3
	Foreign Language (3rd Semester Level)	9
	Laboratory Science Experience	1
Total Credits		13

Student Learning Outcomes

Students graduating with a BS degree in Physics and a BS degree in Electrical & Computer Engineering will:

- Have a functional knowledge of the basic areas of physics and electrical & computer engineering.
- Be able to integrate their knowledge with critical thinking skills in order to become quantitative problem solvers.
- Be able to clearly articulate scientific information, both orally and in writing.
- Be able to effectively use the scientific literature.

Students graduating with a BS degree in Physics and a BS in Electrical & Computer Engineering will be prepared for entry into professional schools, graduate programs, or the job market for career employment.

Course Requirements for the Physics BS and Electrical & Computer Engineering BS Double Degree Program

Because of the condensed format of the program, students are strongly advised to contact the Physics undergraduate advisor (Prof. Elizabeth Stoddard (stoddarde@umkc.edu)) and the Electrical & Computer Engineering undergraduate advisor (p. 1308) as early as possible before beginning this program.

Teacher Certification in Physics

Description of the Teacher Certification in Physics Program

Certification as a middle school (grades 5-9) or secondary (grades 9-12) Physics teacher in either Kansas or Missouri requires that a student complete specific requirements from the School of Education and take coursework in Biology, Chemistry, Environmental Science, Geology, and Physics.

Students will enter this program through the School of Education. For further information about the program, consult the School of Education section of this catalog (p. 1430), visit the School of Education web site (<http://education.umkc.edu/>), or contact the Education Student Services Office at (816) 235-2234.

Kansas City, MO 64110-2499

Department Chair:

Greg Vonnahme

Administrative Assistant:

Nathan Milburn

Emeriti Faculty:

Robert Evanson, Robert E. Gamer, Dale A. Neuman, Max Skidmore

Curators' Professor:

Max J. Skidmore (Graduate Advisor)

Associate Professors:

Debra Leiter, Mona Lyne, Beth Vonnahme, Greg Vonnahme, Benjamin Woodson

Assistant Professors:

Rebecca Best

Adjunct Faculty:

David Sprick, Dan Stroud

Department Description

The Department of Political Science offers programs of study that lead to the Bachelor of Arts and Master of Arts degrees. The undergraduate major in Political Science equips students with the analytic, writing, and presentation skills to acquire, create and convey knowledge of the political and social environment. After completing two core introductory courses, students have complete flexibility in the substantive emphasis of their coursework. Some students focus on one of the main sub-disciplines of American politics, comparative politics, international relations and political theory, while others take a broad array of courses across these sub-disciplines. The political science minor is completely flexible with regard to substantive emphasis and requires only the completion of 18 credit hours of political science courses. With the international studies minor, students explore contemporary global issues, politics, and cultures from a multitude of perspectives.

Undergraduate Admissions

Students planning to major or minor in political science should declare their choice officially by filling out a Declaration of Major form (<http://www.umkc.edu/registrar/forms/declaration-of-major.pdf>), and consult the Department Chair for a signature and program advice as early as possible.

Career Implications of the Bachelor's Degree

Political science, in addition to serving as an excellent core discipline for a liberal arts education, may also serve as vocational and professional preparation for students with interests in the following areas:

- Law school and legal careers
- Electoral politics
- Government service
- Not-for-profit and public-interest organizations
- Business and finance
- Teaching and research
- Public and private political research and consulting services
- Electronic and print journalism
- International careers and non-governmental organizations

Department Activities

Advising

Undergraduates with questions about fulfilling Political Science requirements should meet with the Political Science advisor.

Honor Society

UMKC has an active chapter of Pi Sigma Alpha, the national political science honor society. Each year Pi Sigma Alpha seeks to recognize the best students in political science in order to – according to its national constitution – "stimulate productive scholarship and intelligent interest in the subject of government." The local Pi Sigma Alpha chapter regularly presents films and speakers, information sessions for law school and graduate school, and sponsors the department monthly informal discussion group known as the Lunch Bunch. Open to all students, the Lunch Bunch provides an informal environment for enjoying a pizza lunch and discussing current events among faculty and students.

Internships and Study Abroad

The department has an active internship program. Information on local, regional, national and international programs of interest to undergraduates in political science is posted on departmental bulletin boards and is available in the main office. Credit is given for successful completion of internship programs approved by the department. Further information regarding internship opportunities and requirements can be found at <http://cas.umkc.edu/politicalscience/internships.asp>.

UMKC has a large study abroad program, and the department strongly encourages students to participate in approved programs. Credit toward the degree can be earned for approved courses and competitive scholarships are available. For more information see <http://info.umkc.edu/international/>.

Research

Students are encouraged to participate in faculty research and/or to develop their own research project in conjunction with the undergraduate research program, UMKC SEARCH and SUROP (<http://www.umkc.edu/searchsite/>). Faculty invitation is required to assist with faculty research and course credit is available. Students who wish to develop their own research project should select a faculty mentor and develop a proposal in conjunction with the mentor. Successful proposals can receive up to \$1250 to support student independent research through SEARCH and SUROP.

Independent Study

Independent study in the form of tutorials is available in two courses: POL-SCI 497 and POL-SCI 498 (depending on student qualifications). In either case, without exception, the student must propose a topic for study, have the approval of the advisor and have the written consent of the instructor with whom the tutorial is to be taken before registration for the course. UMKC Honors Program participants may take any course in the department for honors credit by making special arrangements with the instructor at the beginning of the semester.

Political Science Scholarships

The department awards six scholarships each year to outstanding sophomores and juniors. The Ruth L. Gant Memorial Scholarship, the Sallie Millard and Cornelius Roach, Sr. Scholarship, the Dan Bishop Scholarship in Public Policy, Delia Wong Stephens Scholarship, the Pat Gray Memorial Scholarship, and the David N. Atkinson Scholarship in Political Science are awarded specifically to political science majors and can provide from \$500 to \$4000 to exceptional students. Political Science students are also eligible for College of Arts and Sciences general scholarships.

Faculty

Rebecca Best^{1,2}; assistant professor of political science; B.A. (East Carolina University); M.A., Ph.D. (University of North Carolina - Chapel Hill).

Robert K. Evanson; associate professor emeritus of political science; B.A. (University of Illinois-Urbana); M.A., Ph.D. (University of Wisconsin-Madison).

Robert E. Gamer; professor emeritus of political science; B.A. (Monmouth College); Ph.D. (Brown University).

Debra Leiter^{1,2}; associate professor of political science; B.A. (University of California - San Diego); M.A., Ph.D. (University of California - Davis).

Mona Lyne^{1,2}; associate professor of political science; B.S. (University of California - Berkeley); M.A. (Monterey Institute of International Studies); Ph.D. (University of California - San Diego).

Dale Allen Neuman; professor emeritus of political science; A.B. (Kenyon College); Ph.D. (Northwestern University).

Max J. Skidmore; curators' professor emeritus of political science; B.S., B.S. Ed. (Southwest Missouri State); M.Ed. (University of Missouri-Columbia); Ph.D. (University of Minnesota).

Elizabeth Vonnahme^{1,2}; chair and associate professor of political science; B.A. (Angelo State University); M.A., Ph.D. (Rice University).

Greg Vonnahme^{1,2}; associate professor of political science; B.S. (University of Iowa); M.A., Ph.D. (Rice University).

Benjamin Woodson^{1,2}; associate professor of political science; B.S. (Indiana University); M.A., Ph.D. (Stony Brook University).

Undergraduate

Undergraduate Degrees:

- Bachelor of Arts: Political Science (p. 944)
- Minor in International Studies (p. 948)
- Minor in Political Science (p. 950)
- Teacher Certification in Social Studies (p. 951)

Courses

POL-SCI 210 American Government Credits: 3

American government and politics, with special reference to the U.S. Constitution. This course meets the state requirement for study of the U.S. and Missouri Constitutions.

POL-SCI 210 - MOTR POSC 101: American Government

POL-SCI 220 Introduction To Comparative Politics Credits: 3

Introduces students to general concepts of political authority and systematically analyzes the causes and consequences of variation in political institutions, processes and policies across countries, illustrating concepts and themes with case studies of major European and Asian countries.

POL-SCI 220 - MOTR POSC 202: Introduction to Comparative Politic

POL-SCI 221 Introduction to Comparative Politics and Research Credits: 3

This course introduces students to general concepts of political authority, and systematically analyzes the causes and consequences of variation in political institutions, processes and policies across countries. This course also introduces students to research in comparative politics, with students developing an independent research project.

POL-SCI 230 International Relations Credits: 3

An analysis of relations among nations, with emphasis on structures of international power, causes of war, and approaches to peace.

POL-SCI 230 - MOTR POSC 201: International Relations

POL-SCI 301 Western Political Philosophy Credits: 3

An examination of the major theories of politics from Plato to today.

POL-SCI 303 Political Behavior Credits: 3

This course will survey research on conventional and unconventional forms of mass political behavior. Topics to be discussed include campaign participation, voting behavior, public opinion, the media, and participation in protests and revolutions. This course will also cover the methodological approaches to the study of political behavior.

POL-SCI 304 Politics of Developing Countries Credits: 3

The course examines the key arguments that have been advanced to account for differences across countries in rates and levels of economic and political development.

POL-SCI 308 Parties and Interest Groups Credits: 3

Introduction to parties and interest groups in the United States and their important role in the political process. Topics include the formation, organization, activities, and impact of political parties and interest groups in American politics.

POL-SCI 309 Public Opinion Credits: 3

Explores public opinion in the United States, surveying theories and empirical research on the measurement, formation, and distribution of public opinion.

POL-SCI 313 Politics In The American States Credits: 3

A study of the structures, functions, and politics of the institutions of American state governments and an assessment of their role in the federal system. This course is particularly interested in the extent to which political economy and political culture, broadly defined, influence public policy within the states.

POL-SCI 316 Terrorism And Political Violence Credits: 3

This course explores terrorism and armed struggle from theoretical and historical perspectives, and analyzes a number of violent movements with nationalist, ideological, and religious motivations.

POL-SCI 318 Political Psychology Credits: 3

The field of political psychology is an interdisciplinary field that draws on both psychology and political science to address topics in the political world. This course will focus on a variety of topics including inter-group conflict, stereotyping and prejudice, political socialization, attitude formation and change, political communication, decision heuristics and biases, public opinion, and the future of political psychology.

POL-SCI 319 Campaigns And Elections Credits: 3

This course will examine the role of campaigns in determining the outcome of both congressional and presidential elections and the way that electoral rules structure both campaign strategies and electoral outcomes. This course focuses on topics such as the role of the media, campaign advertising, campaign financing, public opinion, registration requirements, and the role of interest groups.

POL-SCI 336 American Foreign Policy Credits: 3

Understanding the contemporary debate over American foreign policy in terms of the premises and perspectives of several competing schools of thought.

POL-SCI 345 Women and Politics Credits: 3

This course investigates the role that women play in the political realm and how political institutions, laws, and norms shape women's experience in politics as citizens, activists, candidates and political leaders, plus the causes and consequences of women's participation and barriers to same.

POL-SCI 348 Constitutional Law: The Federal System Credits: 3

A study of the president, congress and state governments from the perspective of the Constitution, emphasizing powers and limitations on the exercise of authority.

POL-SCI 349 Constitutional Law: Civil Liberties Credits: 3

A study of civil liberties in American society, emphasizing factors and forces that restrict or enlarge their scope, as understood through constitutional interpretation.

POL-SCI 357 Western European Politics Credits: 3

This course explores democratic representation and political institutions in Western Europe.

POL-SCI 360 Labor, Politics and Society Credits: 3

This course explores many aspects of unions and the labor movement in society and the vital role organized labor plays as a pillar of democratic society. Unions impact the economy, growth, and the distribution of wealth, and the impact racial and gender equality, social security health and job safety, energy and the environment, and even foreign relations. As a social movement, labor has had a major impact on American history. This course covers these topics from a labor perspective. It examines current obstacles for union organizing, recent union campaigns, labor's political role, and the relationship between labor and the media. This course is part of the Certificate Program in Labor Studies and is offered on the University of Missouri Interactive Video Network at UMKC, UMSL, and UMC.

POL-SCI 362 Latin America and International Relations Credits: 3

This course we will survey the relations between Latin American states and between Latin America and the world. Taking the Latin American states as the key actors, we examine the history of US-Latin American relations, including current issues such as drug trafficking, immigration and terrorism. We will also study the region as a player on the international stage, examining Latin America's changing role in the world arena related to trade, development, and the environment. Finally we examine the emergence of new leadership in Latin America.

POL-SCI 365WI Congress and Parliaments Credits: 3

The objective of this course is to examine the election and behavior of legislators and legislatures in the United States compared to other countries' political systems, especially how these differences affect representation and policy making. Students will write and think critically about how structures of legislatures affect political outcomes.

POL-SCI 366 British Politics Credits: 3

This course focuses on the contemporary politics of the United Kingdom, particularly elections, institutions, and political parties.

POL-SCI 370 Labor Law Credits: 3

In this course, participants will examine the role of government in the regulation of labor-management relations in the United States. While the focus of the course will be on federal laws regulating private sector labor relations, parallel issues addressed in the Railway Labor Act and state public sector labor relations law will also be covered. Specific topics include the legal framework for the organization of workers, definition of prohibited or unfair labor practices of employers and unions, legal regulation of the collective bargaining process, regulation of the use of economic weapons in labor disputes, enforcement of collective bargaining agreements and the regulation of internal trade union activities.

POL-SCI 380 Political Science And Politics Credits: 1-6

Offered as a special course in the individual faculty member's area of research specialization. The course may be repeated for credit when the topic varies. The topic and instructor will be announced in advance.

POL-SCI 401 Legitimacy, Power, and the Survival of Political Systems Credits: 3

This course examines what allows political systems to survive, exert power, and maintain control over their population. It focuses on the concept of legitimacy – i.e. whether people believe a government has the right to make decisions that are binding on the mass public. The course covers how political systems and institutions develop legitimacy, how that legitimacy helps maintain control of the mass public, and why people sometimes choose to willingly follow commands issued by political authorities and other times choose to resist or rebel.

POL-SCI 404 Conflict Resolution Credits: 3

This course examines theories of peace and conflict resolution in the international system. Students will assess the challenges to conflict resolution, international cooperation, and peace as well as the means through which states and non-state actors overcome those challenges. Students will critically evaluate theories of conflict resolution and peace, while learning to apply those theories to current events.

POL-SCI 408 Judicial Politics Credits: 3

An examination of the judiciary in the American political process, emphasizing the role of judges, lawyers and the Supreme Court.

POL-SCI 425WI Seminar in Comparative Politics Credits: 3

A survey of the major research in comparative politics including state building, nationalism, democracy, nondemocratic regimes, economic development, and political violence. This course satisfies the College of Arts and Sciences Writing Intensive requirement.

Prerequisites: POL-SCI 220 or POL-SCI 221.

POL-SCI 452 Concepts in International Relations Credits: 3

This course exposes advanced undergraduate students to major conceptual and theoretical approaches to international relations. Recommended preparation: Prior course in international relations, politics, economics, or history.

POL-SCI 480 Government And Politics Credits: 1-6

This variable credit course will explore different contemporary issues and problems related to government and politics. Credit may apply to the major but will not satisfy any of the four subfields distribution requirements.

POL-SCI 491 Internship Credits: 1-6

With the written consent of the department chairman, students may participate in structured internship programs approved by the department for a maximum of six hours.

POL-SCI 493 Study Abroad Credits: 1-6

With prior approval from the department advisor, students may complete coursework at an approved foreign university and receive up to 6 hours of political science credit.

POL-SCI 497 Political Science Tutorial Credits: 2

Senior political science majors may apply to do independent study under a selected professor. Must have written consent of the professor prior to registration. Only one tutorial will count toward the major.

POL-SCI 498 Honors Tutorial Credits: 1-3

Senior political science majors with a grade point average of 3.4 or above in political science may apply to do independent study under a selected professor. Must have written consent of professor prior to registration. Only one tutorial will count toward the major.

POL-SCI 5501 Seminar in American Government Credits: 3

A seminar involving intense examination of the foundations, development, and structure of American national government through study of a broad range of classic materials and current research findings; course will prepare a political science graduate student to teach an introductory college course in American government.

Prerequisites: Graduate Standing.

POL-SCI 5506 Research Design and Analysis Credits: 3

This course focuses on methods of data gathering, management, and analysis used in political science research. Students gain an understanding of different types of data including surveys, experiments, and archival records. The curriculum will also include ways that these data are managed and analyzed, and how the results are presented in a useful manner.

POL-SCI 5513 Seminar in Comparative Politics Credits: 3

A survey of the major research in comparative politics including state building, democracy, economic development, and political violence.

POL-SCI 5522 Seminar In The Presidency Credits: 3

Critical examination of the American presidency, with in-depth research into selected themes and presidents.

Prerequisites: POL-SCI 406.

POL-SCI 5530 Seminar in International Relations Credits: 3

This course examines major schools of thought and contemporary research in international relations. Topics discussed include international systems, the causes of war and peace, collective security, and international political economy.

POL-SCI 5541 American Political Thought Credits: 3

This course will focus on intellectual reactions to the major periods in American history (the movement for independence, the writing of the constitution, the Jacksonian period, the civil war debate, the growth of big business, the rise of the positive state and contemporary America). Contemporary theorists will be included along with Jefferson, Madison, Hamilton and Marshall.

POL-SCI 5570 The Politics Of Social Security Credits: 3

This course will concentrate upon the principles of social insurance in general, and of the American Social Security system in particular. It will consider the system in relation to the history and traditions of American society. It will analyze popular misconceptions and will pay special attention to the political, economic, and demographic issues relevant to Social Security's current operation and to the program's future.

POL-SCI 5575 Political Ideologies Credits: 3

Consideration of political ideologies and their effects, with in-depth research into selected topics.

POL-SCI 5580 Government And Politics Seminar Credits: 3

Offered as a special seminar in the individual faculty member's area of research specialization. The seminar may be repeated for credit when the topic varies. The topic and instructor will be announced in advance.

POL-SCI 5590 Directed Studies And Research Credits: 1-6

Under the direction of the instructor, students in this course will produce a major research paper: a self-contained thesis chapter, an article for publication or the equivalent. May be repeated for credit.

POL-SCI 5599 Thesis Credits: 1-6

Directed specialized research.

POL-SCI 5688 Doctoral Research Seminar Credits: 3
Students will produce a major research paper under the direction of the instructor. The research project will consist of a self-contained chapter of the dissertation or a work of publishable quality. May be repeated for credit.

POL-SCI 5697 Doctoral-Level Independent Readings Credits: 3
Individual readings under the supervision of members of the Political Science Graduate or Doctoral Faculty in the specified topic or topics. May be repeated. May not be taken during an academic year in which a graduate course or seminar is offered on the topic.

POL-SCI 5699 Research And Dissertation Credits: 1-12
Directed specialized research.

POL-SCI 5899 Required Graduate Enrollment Credit: 1

Bachelor of Arts: Political Science

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Describe the basic structures and processes of government systems
- Summarize fundamental concepts and theories in political science.
- Analyze political problems, arguments, information, and/or theories.
- Demonstrate effective written communication.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	

STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course		
ACT Math Subscore of 28 or higher; or SAT Math Subscore of 660 or higher		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have "satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions."

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above)		3
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		13

Major Requirements

Students must successfully complete the major requirements below with at least 12 hours of the noted upper division (300+) course requirements completed at UMKC.

The department requirement for a major is 30 hours of political science credit. Students must achieve a GPA of at least 2.0 in political science and no credit will be given for courses in which the grade is below C-.

At least 21 hours of political science coursework must be at the 300- to 400- level. Students transferring from other institutions should check as soon as possible to determine transferability.

Code	Title	Credits
Required Courses		6
POL-SCI 210	American Government (Satisfies Constitution Course Requirements)	
POL-SCI 220	Introduction To Comparative Politics	
or POL-SCI 221	Introduction to Comparative Politics and Research	
Electives		
Three Subfield Electives (see options below)		9
Additional Political Science Electives ¹		15
Total Credits		30

¹ These hours can include POL-SCI 491, POL-SCI 497, and POL-SCI 498.

Political science majors are required to take at least one course in three of the four subfields, which include American Politics, Comparative Politics, Political Theory, and International Relations. Courses may be offered on a rotation basis. Please consult with advisor for current availability.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		47

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Interdisciplinary Ph.D.

Program Opportunities

The Department of Political Science participates as a co-discipline in the Interdisciplinary Ph.D. program. Detailed information on the general and discipline-specific requirements (p. 1605) appears in the School of Graduate Studies (p. 1538) section of this catalog.

Minor: International Studies

Student Learning Outcomes

Students graduating from this program will:

- Discuss the political and economic features of regimes around the world
- Identify the structures and foundations of the international system

- Describe the history and culture of another region of the world
- Describe the political and economic structures that influence how countries interact with each other

Degree Requirements

- The requirement for the International Studies (IS) minor is 18 hours of International Studies coursework. Courses will only count toward the minor if a grade of C- or better is earned.
- At least 9 hours must be at the 300/400 level. At least 9 hours must be earned at UMKC unless the student participates in a study abroad program, in which case up to 12 hours may be transferred.
- Students may count up to 6 hours from their major, with approval, toward the minor.
- Additional courses may fulfill requirements with the approval of the International Studies minor advisor.
- Minors are encouraged to study abroad and students can count up to 9 hours of study abroad coursework toward the minor with approval of the IS minor advisor.
- Students are encouraged to complete an internship and can count up to 3 hours of an internship toward the minor with approval of the IS minor advisor.

Minor in Political Science

Student Learning Outcomes

Students graduating from this program will:

- critically evaluate their political and social environment.
- obtain an understanding of the workings of government and politics.
- develop skills in critical thinking, analysis and communication.

Requirements

A minor in political science requires the successful completion of 18 hours of coursework within the discipline. At least 9 hours must be at the 300- to 400-level. In addition, at least 9 hours must be earned at UMKC. Only courses in which a grade of C- or better is earned will count towards the minor. It is advisable for students to talk with the department advisor regarding course selection as some are offered on a rotation basis.

Teacher Certification in Social Studies

Teacher Certification in Social Studies

Certification as a middle school (grades 5-9) or secondary (grades 9-12) social studies teacher in either Kansas or Missouri requires that a student complete specific requirements in History, Political Science, Economics, Geography, Behavioral Sciences and the School of Education. A separate application for teacher education is required. For further information about the program, consult the School of Education (p. 1430) section of this catalog or contact the Education Student Services Office at (816) 235-2234.

UMKC Pre-Law Program

The UMKC Pre-law Program is designed to help you make wise decisions about becoming a lawyer. It provides advice and information concerning the best possible path for each individual student, from the first semester of undergraduate courses to admission into law school.

The first thing to note about joining the Program is that it is not a major. There is no one major that prepares you for law school. In fact, there are over 30 majors at UMKC that a student may choose from and be on track for entrance into law school.

To garner the skills necessary for success, the pre-law student should select a curriculum that hones and develops superior writing skills, along with excellent oral communication, logical reasoning, and critical reading skills.

It is not enough, however, to be prepared for the academic rigors of law school. You'll want to ask yourself the following questions:

- Do you really want to become a lawyer?
- What law schools should you apply to?
- What does it mean to be a lawyer?
- What area of the law do you want to practice in?
- What are the alternative careers available to someone with a law degree?

When you have made the decision to pursue acceptance into law school, you'll need details on how to go about successfully presenting yourself to the admissions committee in your application. The Program provides answers to the following questions:

- What do you need to do to apply to law school?
- What do you need to do to succeed in law school?
- How can you afford law school?

90+ Program

UMKC's School of Law and The College of Arts and Sciences offer the motivated student a faster track to a legal education. While an undergraduate degree is usually a requirement for admission into law school, UMKC offers students the opportunity to start law school after completing as little as 90 undergraduate credit hours. Students then complete their undergraduate degree with law school credits. By overlapping credits, students can shorten the length of time necessary for completing their education by as much as one year.

90+ Participation

A student's first 30 hours at UMKC's School of Law may fulfill as many as 30 credit hours of non-Arts and Sciences electives towards an undergraduate degree. Therefore, if a student completes all of the general education, major, and upper-level requirements, leaving only elective credits to receive an undergraduate degree, the student may apply to the law school at UMKC.

If accepted, the student can start law school without having actually received an undergraduate bachelor's degree. The student will receive the undergraduate degree after earning the requisite amount of law school credits necessary to fulfill the remaining amount of undergraduate elective credits (up to 30 hours).

Any student who is pursuing a degree in The College of Arts and Sciences may participate. The 90+ program does not guarantee admission into UMKC's School of Law. Participants must apply and otherwise qualify for law school admission by having a competitive undergraduate GPA and LSAT score.

Road to Admission

Any interested student should meet early and often with the pre-law advisor. Given the number of requirements that must be satisfied in such a short period of time, potential 90+ students must monitor their progress with great care.

There are a number of necessary tasks to be completed by the student in order to qualify for the 90+ Program:

- The final 30 hours prior to enrolling in UMKC's School of Law must be from courses in UMKC's College of Arts and Sciences.
- Requirements to be completed prior to enrollment at UMKC's School of Law:
 - All general education requirements
 - All major requirements (and those for a minor if student chooses to complete a minor)
 - 36 hours of junior/senior (300/400-level) coursework
- Application for Graduation: After earning approximately 60-75 credit hours, the interested student should apply for graduation in the College of Arts and Sciences Student Services Office (Schofield Room 9). A student will review their degree audit(s) with the pre-law advisor as well as faculty advisors in major/minor programs to confirm status towards degree completion. This should be completed by the end of the fall semester prior to starting law school.
- Letter of Interest: After applying for graduation and completing the audit review, students must contact the pre-law advisor to arrange to have a letter sent to UMKC's School of Law stating that there is a plan in place that will allow the student to complete all requirements prior to enrolling in the law school the following fall. This process should be done during the student's last year of undergraduate study.

Six-Year Law Scholars

The Six-Year Law Scholars Program allows high-achieving high school students to prepare for their application to UMKC School of Law through a selective cohort as part of the 90+ Program described above while earning their undergraduate degrees.

- First-time college freshmen who have a minimum comprehensive ACT score of 26 or an equivalent SAT score, and a minimum high school core GPA of 3.5 may apply for admission to this program by completing the general application for admission to UMKC.
- Six-Year Law Scholars will meet regularly with an advisor to ensure that they can complete their undergraduate requirements prior to application to early entry into UMKC School of Law.

Admission Expectations for the UMKC School of Law under the Six-Year Law Scholars Program

- Students who have completed at least 90 degree-acceptable undergraduate hours of credit may be admitted to the UMKC School of Law as long as they have completed all non-elective course work towards their bachelor's degree.
- Competitive applicants to the Law School will have a cumulative grade point average of 3.3 or higher at the point at which the student applies to the Law School and an LSAT score that is equal to or greater than UMKC Law School's 50th percentile of the most recent entering class (in 2017, 152).
- All candidates for this program must, during the Law School application process, complete a satisfactory interview with the UMKC School of Law Admissions Committee. Candidates must also demonstrate potential to be a successful law student and an absence of disqualifying character or fitness issues.
- Applicants must otherwise complete all the normal requirements of the law school application process, including but not limited to application through LSAC, personal statement, transcript, letters of recommendation, etc.
- Students admitted under this program must be able to document completion of an undergraduate degree prior to starting their second year of study at the UMKC School of Law.

Associate Professors:

Kymberly K. Bennett, Seung-Lark Lim, Jacob Marszalek, Ricardo Marte, Melisa Rempfer

Assistant Professors:

Oh-Ryeong Ha, Erin P. Hambrick, Joah L. Williams

Department Description

The Department of Psychology is focused on behavioral science contributions to health and well-being. Our faculty members are national and international leaders in research on areas such as cognitive aging, development in children, obesity and eating disorders, neuropsychological functioning, child trauma, affective neuroscience, psychophysiological approaches to cognition and emotion, transnational methodology & motivational theories, international issues and populations, serious mental illness, consequences of trauma exposure and violence, and community factors in health. We have strong and active collaborations with important community partners such as Saint Luke's Hospital, Mid America Heart Institute, KC Care, University of Kansas Medical Center, Truman Medical Center and the Calvary Community Outreach Network. At the undergraduate level, the department offers a general program of study leading to the bachelor of arts degree in psychology. A minor in psychology is available to students majoring in other disciplines. Graduate programs are also offered by the Department of Psychology (<http://cas.umkc.edu/Psychology/>).

Career Implications of the Degree

Psychology is a broad discipline incorporating material from the natural sciences, other social sciences and the humanities. The study of psychology entails an examination of the human condition that is relevant to a wide range of occupations. A psychology major serves as the basis for an excellent liberal arts education and also serves as an excellent introduction to the world of scientific inquiry. Psychology students learn about the important concepts that underlie current scientific thought and they receive training in the application of psychological research methods.

The educational background obtained by a student majoring in psychology will prove useful in a variety of professional settings and will provide adequate preparation for entry-level positions in a variety of fields. Graduates with bachelor's degrees in psychology have established careers in such diverse areas as:

- Business and industry
- Child care
- General healthcare
- Gerontology
- Mental health services
- Probation and parole
- Public relations and marketing
- Research or laboratory assisting
- Services for people with developmental disabilities
- Social services

For students interested in pursuing a career in the field of psychology, a psychology major is clearly a logical beginning. There are positions available to job candidates with bachelor's degrees in psychology; however, most professional opportunities in psychology require advanced degrees (i.e., master's, doctorate). Students who want to pursue a career in psychology are advised to prepare for graduate study. The psychology major at UMKC offers a solid educational foundation for students who plan to work toward advanced degrees in the field.

Department of Activities

Honor Society

The department has a chapter of Psi Chi, the national honor society in psychology. Each year Psi Chi presents a variety of educational and social programs. Membership is open to students at both undergraduate and graduate levels. Regular meetings are held throughout the academic year. Information about membership and current events is available on RooGroups (<https://roogroups.umkc.edu/>).

Psychology Club

The department also has a Psychology Club. The members of the Psychology Club join with the members of the Honor Society for educational social programs. Membership is open to students at both undergraduate and graduate level who have an interest in psychology. Regular meetings are held throughout the academic year jointly with PsiChi. Information about membership and current events is available on RooGroups (<https://roogroups.umkc.edu/>).

Bernard Lubin Memorial Speaker Series

This speaker series is sponsored by UMKC's Department of Psychology and is named in memory of Dr. Bernard Lubin, Curators' Professor Emeritus, to honor his contributions and dedication to the field of psychology.

Graduate Psychology Activities Committee

The focus of the Graduate Psychology Activities Committee (GPAC) is to coordinate graduate student and student-faculty social events, enhance communication between the members of various graduate programs in the department, and coordinate educational events to support the professional development of students in the graduate programs. The committee and the events planned are open to graduate students within the Department of Psychology.

Advising System

For Undergraduate Psychology Program information, please contact the Psychology Advising Office (<http://cas.umkc.edu/psychology/degree-programs/undergraduate-programs/advising-2/>) at umkcnpuga@umkc.edu or (816) 235-1092.

For UMKC College of Arts & Sciences general education requirements, please contact the College of Arts & Sciences Student Services Office (<https://cas.umkc.edu/student-services/>) directly at (816) 235-1148.

See the Undergraduate Psychology Program Advising website (<http://cas.umkc.edu/psychology/degree-programs/undergraduate-programs/advising-2/>) for more information.

Financial Aid

Financial aid information can be found on the UMKC Financial Aid website (<http://finaid.umkc.edu/>).

Part-time graduate teaching and research assistantship positions may be available to Psychology doctoral students. These opportunities will be discussed with students at the time of their acceptance into the program.

Faculty

For the most current listing, see the Department of Psychology (<http://cas.umkc.edu/psychology/>) website.

Kymerly K. Bennett^{1,2}; director, undergraduate psychology program and associate professor of psychology; B.A. (University of Redlands); Ph.D. (University of Nevada, Reno)

Carl Calkins; director, UMKC institute for human development and professor of psychology; B.A. (State University of New York); M.A. (Southern Connecticut State College); Ph.D. (Vanderbilt University).

Diane L. Filion^{1,2}; professor of psychology; B.A. (Eastern Washington University); M.A., Ph.D. (University of Southern California).

Oh-Ryeong Ha^{1,2}; assistant professor of psychology; B.A. (Seoul Women's University); M.A. (Korea University); Ph.D. (University of Louisville).

Erin P. Hambrick^{1,2}; assistant professor of psychology; B.A. (Furman University); M.A. (Western Carolina University); Ph.D. (University of Kansas).

Seung-Lark Lim^{1,2}; associate professor of psychology; B.A., M.A. (Korea University); Ph.D. (Indiana University).

Jennifer Lundgren^{1,2}; dean, school of graduate studies and professor of psychology; B.S. (Oklahoma State University); M.A., Ph.D. (University of Illinois).

Jacob Marszalek^{1,2}; associate professor of psychology; B.A. (Illinois State University); M.A. (Emporia State University) Ph.D. (University of Illinois at Urbana-Champaign).

Ricardo Marte¹; associate teaching professor of psychology; B.A. (State University of New York at Binghamton); M.A., Ph.D. (University of Nevada, Reno).

Joan M. McDowd^{1,2}; chair, department of psychology and professor of psychology; B.A. (Washington University); M.A., Ph.D. (University of Toronto).

Johanna Nilsson^{1,2}; professor of psychology; B.A. (Roger Williams University); M.A., Ph.D. (State University of West Georgia).

Alexis Petri; associate research professor of psychology and director of PROPEL program; B.A. (University of Missouri, Kansas City; University of Massachusetts, Boston); M.A., Ph.D. (University of Missouri, Kansas City).

Melisa Rempfer^{1,2}; director of clinical training, Ph.D. program; clinical psychology (health emphasis) option and associate professor of psychology; B.S. (University of Iowa); M.A., Ph.D. (University of Kansas).

Joah Williams^{1,2}; assistant professor of psychology; B.A. (The University of the South); M.S. (The University of Memphis); Ph.D. (Medical University of South Carolina, Department of Psychiatry / Ralph Johnson VAMC Consortium).

Retired Faculty

Jim Collins, associate professor emeritus of psychology.

Jay Hewitt, associate professor emeritus of psychology.

Joseph B. Hughey; professor emeritus of psychology; B.A., M.A. (Wichita State University); Ph.D. (University of Tennessee).

Tamera B. Murdock, professor of psychology

Charles L. Sheridan, professor emeritus of psychology.

Courses

PSYCH 151 College Study Skills and Resources Credits: 3

Course helps Propel students develop critical thinking, time management and academic skills, necessary for success in college and future employment. Students will learn about their individual learning styles and skills as well as the academic resources available to help them develop new skills. They will also explore and use various software and apps to help them stay organized and build self-sufficiency.

Prerequisites: Propel Student.

PSYCH 152 Developing a Person-Centered Life Plan Credits: 3

In this course students in the Propel Program will develop a person-centered plan that will serve as a foundation for their college experience and their future. The course approaches the topic with the belief that people with disabilities are people first and therefore the person-centered life engages the whole person and ensures person-centered supports.

Prerequisites: Propel Student.

PSYCH 153 Communication Skills for Networking, Employment, and Friendship Credits: 3

Through this course, students in the Propel program will gain communication skills, networking skills; learn how to build friendships; and gain important insight on personal safety.

Prerequisites: Propel Student.

PSYCH 154 Personal Finance and Disability Services Credits: 3

This course will introduce Propel students to disability services and systems that they will need in their adult lives. A second focus on personal finance will help students understand how disability benefits affect their personal finances.

Prerequisites: Propel Student.

PSYCH 155 Developing a Career Credits: 3

Career development is a journey of self-assessment and decision-making. Using an interactive discovery process, students identify possible careers that would match personality type, strengths, interests, skills, and/or values. With Career Center resources, Propel students identify strategies for leveraging the college experience to jumpstart a career.

Prerequisites: Propel Student.

PSYCH 156 Transition Skills Credits: 3

Propel students will learn how to identify, report and avoid abuse, neglect, and exploitation. They will also learn about their personal rights, including the right to confidentiality.

Prerequisites: Propel Student.

PSYCH 207 Orientation to the Psychology Major Credit: 1

This course provides an introduction to the field of Psychology, and to the Department of Psychology at UMKC. Students will explore major requirements, behaviors associated with academic success, campus resources, and faculty research and teaching interests.

Co-requisites: PSYCH 217.

PSYCH 210 General Psychology Credits: 3

A survey of the fundamental principles, theories, and methods of psychological science.

PSYCH 210 - MOTR PSYC 100: General Psychology

**PSYCH 212 Social Psychology Credits: 3**

Survey of behavior in the actual, imagined, and implied presence of others, including attitudes, the self, conformity, altruism, aggression, prejudice, and group processes.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 217 Academic and Career Opportunities in Psychology Credits: 2

This course explores post-BA career options for students majoring in Psychology. Students will examine psychology-related career opportunities with a bachelor's degree, and options for psychology-related careers after earning a graduate degree. Emphasis will be placed on students developing academic plans that will prepare them for professional success.

Prerequisites: PSYCH 207 (or coreq) and PSYCH 210 with C- or better. Must be Psychology BA major and have completed a minimum of 15 credit hours.

PSYCH 222 Child Psychology Credits: 3

Survey of child development from conception to adolescence, including major theories, developmental milestones and research related to the physical, cognitive, social and emotional growth of children.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 252 Psychology of Communicating Your Lived Experience Credits: 3

This course provides frameworks for people interested in communicating their lived experiences with disabilities. This course will not satisfy the College of Arts and Sciences' Social and Behavioral Science distribution or Humanities distribution degree requirements.

PSYCH 253 Disability Civil Rights Movements Credits: 3

A survey of disability civil rights movements. The course includes such topics as institutionalization and deinstitutionalization, education, protests, civil rights advocacy, and the Americans with Disabilities Act. Students will develop a timeline of disability history milestones and conduct oral history interviews with Kansas City area individuals with disabilities.

Prerequisites: Propel Student.

PSYCH 255 Accessible, Inclusive Internships Credits: 3

Through this experiential learning opportunity, students complete an internship with a company, non-profit, governmental or community-based organization. Through a combination of direct observation, reflection, and evaluation, students relate the experience to their academic study and to their career exploration.

Prerequisites: Propel Student.

PSYCH 257 Disability History and Culture Credits: 3

An examination of selected political, cultural, economic and social forces shaping disability from historical and present day perspectives. The course is taught with discussions and reflections with local disability leaders.

Prerequisites: Propel Student.

PSYCH 258 Leadership and Disabilities Credits: 3

Students learn about leadership theories and develop leadership skills as they apply theory to practical situations.

Prerequisites: Propel Student.

PSYCH 302 Research Design in Psychological Science Credits: 3

An overview of research designs and data collection methods used in psychological science. Emphasis is placed on comparing strengths and limitations of various research designs and data collection methods as well as identifying appropriate uses of those research designs and data collection methods.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 305 Psychology of Gender Credits: 3

An examination of theory and research on the biological, psychological, and social aspects of gender. Differences and similarities in men's and women's affect, cognition, and behavior will be explored. Perceptions of how gender affects cognitions and behaviors will also be discussed.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 316 Quantitative Methods In Psychology Credits: 3

Introduction to the use, calculation, reporting, and interpretation of descriptive and elementary inferential statistical techniques in psychological science.

Prerequisites: PSYCH 210 with a C- or better; and MATH 110 or MATH 116 or STAT 115 or MOTRMATH 110 or higher level math (with a grade of C- or higher); or ALEKS Score of 61 or higher.

PSYCH 320 Ethnic and Minority Perspectives in Psychology Credits: 3

The theory, methods and content of psychology relevant to the interests and needs of ethnic minorities, and the contributions of ethnic groups and other minorities to psychology.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 323 Theory and Methods of Personality Credits: 3

The development, organization, dynamics and determinants of personality. May not be taken for graduate credit.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 405 Motivation and Emotion Credits: 3

A review of the principles of both human and animal motivation from classical drive, behavioral, and cognitive perspectives. May not be taken for graduate credit.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 407 Cognitive Psychology Credits: 3

Historical foundations and current state of knowledge regarding human information processing and the mental processes that underlie human behavior.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 418 Brain and Behavior I Credits: 3

Introduction to the neural bases of human behavior, including movement, learning and memory, sensation and perception, emotion, cognition, psychological, and neurological disorders.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 433 Abnormal Psychology Credits: 3

Introduction to major psychological problems and disorders as well as consideration of some of the many interacting biopsychosocial influences viewed from an empirically-informed perspective. May not be taken for graduate credit.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 440 The Psychology Of Aging Credits: 3

Survey of concepts, theory, and methods in the psychology of aging, including biological and social influences on behavior.

Prerequisites: PSYCH 210 with a grade of C- or better.

PSYCH 450 Special Topics Credits: 1-3

Offered as the result of student demand, specialized faculty interests, or the availability of a visiting expert in a field related to psychology.

Prerequisites: PSYCH 210 with a grade of C- or better.

PSYCH 461 Field Practicum Credits: 1-6

Provides supervised human services experience in an external community agency or organization that addresses human or social problems.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 490 Directed Individual Research Credits: 1-6

Students work on an individual research project under the supervision of a departmental faculty member.

Prerequisites: PSYCH 210 with a grade of C- or better.

PSYCH 491 Psychology Research Externship Credits: 1-6

Provides supervised research experience in an external community agency or organization that examines basic or applied research questions.

Prerequisites: PSYCH 210 with a C- or better.

PSYCH 495WI Contemporary Issues in Psychology Credits: 3

In-depth analysis of a contemporary issue in psychology. Emphasis will be placed on reading and writing about empirical approaches to contemporary challenges in psychological science.

Prerequisites: PSYCH 210 and PSYCH 302 both with a C- or better.

PSYCH 5504 Contemporary Issues In Learning Credits: 3

A discussion and analysis of recent research and theoretical papers in learning. The student will have to demonstrate undergraduate competence in learning in the first few weeks of this course in order to remain enrolled.

PSYCH 5505 Motivation Credits: 3

The definition of the concept of motivation is explored. Emphasis is placed upon integration of the concept of motivation into comprehensive theoretical explanations of phenomena. Students should have in their background a foundation in Learning Theory (or at least Theory Construction) and Experimental (Scientific Method). Previous laboratory experiences are desired.

PSYCH 5507 Cognitive Psychology Credits: 3

An advanced study in the intersection of cognition and emotion, focusing on the topics of attention, memory, and executive function, and how these abilities influence and are influenced by emotional processes and by individual difference variables such as health, mental health, age, gender, and ethnicity.

PSYCH 5509 Assessment 1: Intellectual And Cognitive Assessment Credits: 3

This course is designed to provide students with a foundation in the use of intellectual and cognitive assessment instruments in clinical evaluation. The course covers theoretical issues pertinent to intellectual and cognitive assessment, as well as basic assessment skills including administration, scoring, interpretation, and communication of results for commonly used measures.

PSYCH 5510 Assessment Methods In Professional Counseling Credits: 3

This course provides an understanding of assessment process and assessment techniques. Skills and practice in selection, administration, and interpretation of representative assessment instruments. Two semester hours lecture, two semester hours lab experience per week.

Prerequisites: Course on assessment of intellectual functioning.

PSYCH 5511 Principles Of Assessment In Psychology Credits: 3

This will be a field practicum course in which test batteries will be used to assess and evaluate the intelligence, personality, and aptitude of the individual.

Prerequisites: PSYCH 5510.

PSYCH 5512 Contemporary Issues In Social Psychology Credits: 3

A critical survey of the recent literature in social psychology with emphasis on experimental investigations.

PSYCH 5515 Advanced Systems And History Of Psychology Credits: 3

In depth review of the major theoretical systems of psychology in terms of historical assumptions, methodologies and developments with the goal of enabling the student to better evaluate current theories and assumptions in psychology.

PSYCH 5516 Quant Analysis 1: Regression And Analysis Of Variance Credits: 3

This graduate level statistics course for students in education and the behavioral sciences provides a strong conceptual understanding of two major statistical procedures with the context of the general linear model: multiple regression and numerous analysis of variance (ANOVA) models. Students will learn to select appropriate statistical techniques, tests the assumptions of the techniques, analyze data using statistical software, and report the results of their analyses in the format of the American Psychological Association (APA, 2002).

Prerequisites: EDUC-R&P 5505, PSYCH 316.

PSYCH 5517 Quantitative Analysis II: Advanced Topics In Regression And Mda Credits: 3

This graduate level statistics course for students in the behavioral sciences and education provides a strong conceptual understanding of advanced topics in regression (interaction effects, logistic regression, path analysis) and various multivariate techniques (MANOVA, canonical correlation, factor analysis). Students will complete a series of data based projects that allow them to demonstrate their skills in analysis, reporting and interpretation of findings.

Prerequisites: EDUC-R&P 5605 / PSYCH 5516 and EDUC-R&P 5505.

PSYCH 5518 Advanced Biopsychology Credits: 3

This course assumes that the student has mastered the basics of biopsychology, and deals with this topic in greater depth and scope than PSYCH 418. It will begin with a brief review and update of basic materials of neuroanatomy, neuronal conduction, and synaptic transmission but will quickly turn to an emphasis on biological influences on human psychology, in particular those biological factors that are of practical significance in the lives of patient and non-patient populations.

Prerequisites: PSYCH 418 (or equivalent).

PSYCH 5521 Advanced Social Psychology Credits: 3

The study of the individual in a social context. How social structure and interaction influence the behavior of an individual. Several contemporary systematic positions will be compared.

PSYCH 5522 Contemporary Issues In Developmental Psychology Credits: 3

A discussion of recent research literature in developmental psychology leading to an individual research project in this area.

PSYCH 5523 Seminar Personality Theory And Methodology Credits: 3

A study of the social-cultural, trait, learning, perceptual, motivational, and field theories of personality with special emphasis on research studies and the methodology of personality research.

Prerequisites: PSYCH 323.

PSYCH 5530 Addressing Health Disparities through Community-based Participatory Research Credits: 3

The purpose of this course is to familiarize students with the principles of community-based participatory research as a strategy to reduce health disparities. Students will learn how CBPR principles are applied across the research continuum for developing new community partnerships, conducting needs assessments, developing culturally-appropriate health promotion interventions in collaboration with community-based organizations, and packaging health interventions for dissemination in minority communities. This class is organized with a service learning component which will require students to work with a local community-based organization on a health issue for which there is joint interest.

PSYCH 5533 Psychopathology Credits: 3

A review of the experimental-clinical literature concerning the behavior disorders with special reference to their classification and etiology. Course generally will be restricted to students enrolled in license-eligible specialties who have had an undergraduate course in abnormal psychology.

PSYCH 5538 Development And Evaluation Of Assessment Tools Credits: 3

This survey course examines test theories, construction, and measurement theories. Within the context of a variety of conceptual frameworks and examples, students become knowledgeable about the various purposes, approaches, and computer software tools for measurement.

Prerequisites: PSYCH 5516 and PSYCH 5517.

PSYCH 5540 The Psychology Of Aging Credits: 3

This course will identify major issues concerning psychology related to aging. The major influences on the behavior, cognitive functioning and emotions of older adults will be examined. Consideration will be given to individual, group and environmental influences. Possible interventions will be identified. Cross-sectional and longitudinal research will be reviewed in order to examine the changes in individuals due to aging and the differences between cohort groups. Three major areas of information will be the focus: concepts, theory and methods in psychology of aging; biological and social influences on behavior; and behavioral processes. There will be a review of current literature.

PSYCH 5543 Adult Development And Aging Credits: 3

This course will identify major themes and issues of mid-life and older adults. It will examine major developmental theories of adult development and aging. A contextual approach is stressed, including research and theory on the impact of cohort, gender, race/ethnicity, socioeconomic status, and culture on development. Application to real life is integrated throughout the course. There will be a review of current literature.

PSYCH 5550 Field Practicum Credits: 4

Provides supervised experience working in community agencies/ organizations which address various human and social problems. Students receive training in community service oriented skills and approaches, e.g., advocacy, community organizing, program assessment, development and evaluation, outreach, and applied research. Ten hours per week at practicum site and class attendance are required.

PSYCH 5575 Professional Issues And Ethics In Psychology Credits: 3

Ethical and legal problems of research and practice will be discussed. Professional organizations in psychology and their publications will be reviewed.

PSYCH 5575A Professional Issues & Ethics Credits: 3**PSYCH 5580 Special Topics Credits: 1-3****PSYCH 5580AD Special Topics Credits: 1-3****PSYCH 5580SM Special Topics Credits: 1-3****PSYCH 5582 Community Mental Health Credits: 3**

A review of current theory and research. The emphasis is on prevention rather than treatment of mental health problems. The assets and liabilities of neighborhood communities for mental health problems will be discussed. Recent methods in crisis intervention are reviewed. Each student will be required to become familiar with a neighborhood with a high incidence of application for mental health care.

PSYCH 5586 Theory, Research And Practice Of Consultation Credits: 3

Theory and research on community, mental health, organizational and agency consultation. Entry, process, outcome and ethical issues surrounding each model of intervention will be explored. Each student will be expected to conduct and report on a consultation project.

PSYCH 5590 Directed Research Credits: 1-6**PSYCH 5597 Directed Readings In Psychology Credits: 3**

Intensive readings in areas of joint interest to the enrolled student and the cooperating faculty.

PSYCH 5599 Research And Thesis Credits: 1-9**PSYCH 5601 Experimental Methods In Design And Analysis I Credits: 3**

An examination of multifactor and multilevel designs and interactions. Topics covered will include randomized block designs, Latin square designs, complex trend analysis designs, covariance designs and multiple comparison of treatment means.

PSYCH 5604 Field Practicum In Community Psychology Credits: 3

Supervised experience in health care, social welfare, correctional, political, ethnic, and neighborhood agencies. May be repeated six times for up to 18 credit hours.

PSYCH 5610 Structural Equation Modeling Credits: 3

Students will learn core techniques in structural equation modeling, including path analysis, confirmatory factor analysis, structural regression models; and be introduced to advanced topics such as multi-group SEM and latent growth models. There will be multiple lab sessions using appropriate computer applications.

Prerequisites: PSYCH 5517 (or EDUC-R&P 5606) and PSYCH 5538 (or EDUC-R&P 5609).

PSYCH 5611 Theories & Methods Of Assessment & Intervention/Community Psych Credits: 3

Review of the assessment and intervention literature in social situations will be conducted. Students will design and carry out an assessment and an intervention project.

PSYCH 5612 Program Evaluation And Research Dissemination Credits: 3

A study of the area of applied research in which process and outcome characteristics of programs are related explicitly to a set of values, such as program goals, objectives and costs.

PSYCH 5614 Prevention Science I: Theories, Principles And Methods Credits: 3

Course provides a comprehensive overview of the field of prevention emphasizing basic concepts, conceptual models, and approaches associated with prevention in the field of psychology. The goal is to provide knowledge that will allow students to critically evaluate prevention programs in their communities. Students apply their learning by conducting a critical analysis of an existing community prevention and/or health promotion initiative.

PSYCH 5615 Prevention Science II: Applications Credits: 3

This advanced seminar is the follow-up course to Prevention Science I. Emphasis is placed on the application of prevention science to specific content areas (e. g., substance abuse, violence in schools physical or sexual abuse, AIDS/HIV infection, infant mortality, cardiovascular disease, promoting social competence.) A semester project involves an in-depth review of prevention efforts in the chosen area of interest, resulting in a comprehensive research proposal and/or public policy analysis.

Prerequisites: PSYCH 5614.

PSYCH 5620 Hierarchical Linear Models Credits: 3

Students will be introduced to hierarchical linear modeling techniques. Foundational topics include the rationale for using hierarchical linear models, issues related to assumptions and data screening, and a dissection of the components of a two-level organizational effects hierarchical linear model. Special topics to be discussed include growth modeling, three-level models, dyadic models, and models with categorical outcome variables (i.e., hierarchical generalized linear models). Multiple class sessions will be devoted toward use of software to build and analyze these models.

Prerequisites: PSYCH 5517 (or EDUC-R&P 5606) and PSYCH 5538 (or EDUC-R&P 5609).

PSYCH 5622 Theoretical And Ethical Issues In Professional Psychology Credits: 3

This course is designed to introduce first year doctoral students to the fundamental concepts and methods of psychology conceived as the application of scientific and ethical reasoning to human problems. It will provide an in-depth examination of the American Psychological Association code of ethics and its application to the conduct of psychologists. Critical and analytical thinking will be emphasized in all aspects of the course. The course will cover broad models of clinical and counseling psychology and their historical and scientific foundations, issues in diagnosis, cross-cultural applications and professional problems in light of ethical principles, professional standards, scientific data multicultural contexts.

PSYCH 5623 Methods Of Counseling In Professional Psychology Credits: 3

This course is designed to introduce students to the fundamental concepts and methods of counseling in professional psychology. Students will apply ethical and multicultural principles to the helping relationship while learning the basic methods of humanistic, psychodynamic, and cognitive behavioral approaches as they related to the helping process. A main focus of this course is the acquisition of basic helping skills. Students will also become familiar with counseling outcome research and will increase their level of counselor self-awareness.

Prerequisites: PSYCH 5622.

PSYCH 5625 Health Research Methods: Intro To Epidemiology & Clinical Trials Credits: 3

This course will introduce graduate students in health-related disciplines to research methods utilized in understanding disease and health risk in humans and conducting intervention trials. Students will learn about how epidemiology contributes to: 1) identifying factors that cause diseases; 2) assessing the public health importance of diseases; 3) describing the natural history of diseases; and 4) evaluating procedures for preventing or treating diseases. After completing this course, students should be able to read and summarize epidemiological research papers and answer questions about a study's purpose, design, methods of procedure, results, and major strengths and weaknesses.

Prerequisites: graduate standing; PSYCH 5601.

PSYCH 5631 Theoretical Foundations Of Health Psychology Credits: 3

This course will introduce students to the theoretical foundations of health psychology, including the Biopsychosocial model, individual and systems level theories of behavior change, stress and coping, disease prevention and health promotion, as well as adherence and relapse models. Upon completion of this course students will possess a broad understanding of how cognitive, behavioral, and social factors interact with biological parameters in influencing morbidity and mortality. In addition, students will become familiar with several substantive areas (e.g., chronic pain, HIV/AIDS, cancer, sleep disorders, cardiovascular risk reduction), research methods, and multicultural and ethical issues in health psychology.

PSYCH 5632 Health Psychology Interventions Credits: 3

This course will introduce students to a wide range of psychological assessment and intervention strategies that can be used in health care settings. Individual, group, community and policy interventions will be discussed. This course may be used for credit in the Health Psychology Discipline of the Interdisciplinary Ph.D. Program.

Prerequisites: PSYCH 5631.

PSYCH 5638 Seminar In Health Care Leadership Credits: 3

This course is designed to offer an educational experience that fosters both the knowledge and skills needed for leaders of healthcare in the future. The instructors will guide students through the process of generating new thinking, creating new knowledge, and enhancing interpersonal and professional effectiveness. Course topics will include what creates health and quality of life, social capital and health, healthcare policy, collaborative problem-solving, and transformational leadership and systems thinking.

PSYCH 5650 Clinical Practicum Credits: 1-6

Advanced supervised assessment and psychotherapy with individuals and groups in applied settings. Preregistration by application to instructor at least 60 days prior to the beginning of the semester. Approval by Psychology Director of Clinical training required.

Prerequisites: PSYCH 5623.

PSYCH 5660 Clinical Health Psychology Internship Credits: 1-6

Planned sequence of training experiences in an organized program designed to prepare students for the practice of professional psychology.

PSYCH 5696 Pre-Dissertation Credits: 1-12

Individualized research experiences to prepare students for the conduct of the dissertation.

PSYCH 5699 Research And Dissertation Credits: 1-16**PSYCH 5899 Required Graduate Enrollment Credit: 1****PSYCH H210 General Psychology Credits: 3**

A survey of the fundamental principles, theories, and methods of psychological science.

Prerequisites: Departmental consent.

Bachelor of Arts: Psychology

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Describe major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- Engage in integrative, science-based reasoning to interpret behavior and solve problems.
- Apply ethical standards outlined by the American Psychological Association to science and practice.
- Effectively write, speak, and interact with others.
- Apply psychological content and skills to career goals, and develop professional direction for life after graduation.

Program Requirements

UMKC Essentials

Code	Title	Credits
First Semester Experience Course (GEFSE)		3
Written Communication:		
ENGLISH 110	English I: Introduction To Academic Prose	3
ENGLISH 225	English II: Intermediate Academic Prose	3
Oral Communication (choose one of the following):		3
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
COMM-ST 140	Principles Of Communication	
COMM-ST 212	Argumentation And Debate (offered via dual credit only)	
COMM-ST 277	Interpersonal Communication	
Math Pathway (choose one of the following):		3
MATH 116	Mathematics For Liberal Arts	
STAT 115	Statistical Reasoning	
MATH 110	Precalculus Algebra	
MATH 120	Precalculus (5 credit hours)	
Any 200-level MATH or STAT course		
ACT Math Subscore of 28 or higher; or SAT Math Subscore of 660 or higher		
Critical Thinking in Arts & Humanities (GECRT-AH)		3
Critical Thinking in Natural & Physical Sciences (GECRT-SC)		3
Critical Thinking in Social & Behavioral Sciences (GECRT-SS)		3
Culture & Diversity Course (GECDV)		3
Civic & Urban Engagement Course (GECUE)		3
Total Credits		30

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.

- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits
Writing Intensive Course (300-level or above)		3
Foreign Language (3rd Semester Level)		9
Laboratory Science Experience		1
Total Credits		13

Major Requirements

Majors are required to complete a minimum of 36 hours of coursework in psychology. The major is comprised of general, core area, and elective courses.

Code	Title	Credits
Required Courses		
PSYCH 207	Orientation to the Psychology Major	1
PSYCH 210	General Psychology	3
PSYCH 217	Academic and Career Opportunities in Psychology	2
PSYCH 302	Research Design in Psychological Science	3
PSYCH 316	Quantitative Methods In Psychology	3

PSYCH 222 or PSYCH 440	Child Psychology The Psychology Of Aging	3
Diversity		
PSYCH 305 or PSYCH 320	Psychology of Gender Ethnic and Minority Perspectives in Psychology	3
Social		
PSYCH 212	Social Psychology	3
Major Electives		
Select a minimum of six hours of elective coursework ¹		6
PSYCH 461	Field Practicum	
PSYCH 490	Directed Individual Research	
PSYCH 491	Psychology Research Externship	
PSYCH 495WI	Contemporary Issues in Psychology	
Total Credits		36

¹ See Undergraduate Advising (<http://cas.umkc.edu/psychology/undergrad/advising.asp>) for a complete list of undergraduate psychology courses that may serve as these electives. A maximum combination of 3 credit hours of PSYCH 490 and PSYCH 491 and a maximum of 3 credit hours of PSYCH 461 may be used toward fulfilling elective requirement.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		38

Other Requirements

Double majors with Sociology or Criminal Justice & Criminology may use the statistics courses taught in those departments (SOCIOL 363 or CJC 303) to fulfill PSYCH 316.

Double majors with the Conservatory may apply up to 6 credits from CONSVTY 342, CONSVTY 395, or CONSVTY 435 toward their psychology electives.

A grade of "C-" or higher must be achieved for any course to apply toward the major in psychology. The Undergraduate Psychology Advising Office encourages students to visit each semester to check on degree requirements and registration for courses, and to discuss professional development issues that will prepare students for their careers post-graduation.

Minimum GPA: 2.0

Total Credit Hours: 120

General Advice for Developing a Plan of Study

The department usually offers some courses during the summer term, but we cannot guarantee that all required courses will be offered. In addition, any courses offered during the summer must meet a threshold of minimum enrollment. If a course has not met this threshold and needs to be cancelled, students will be notified in a timely manner so that they can make alternative arrangements. Our academic advisors can assist you with summer course planning once the summer schedule is released (typically at the half-way point of the spring semester).

Please make sure prerequisites for courses are met prior to enrollment in Pathway. Students who do not meet course prerequisites will not be allowed to enroll through Pathway. Exceptions to prerequisites are made by instructors on a case-by-case basis.

For questions regarding the Undergraduate Psychology Program, or to schedule an appointment with a Psychology Advisor, please contact the Psychology Advising Office at umkcputa@umkc.edu or (816) 235-1092. See Undergraduate Advising (<http://cas.umkc.edu/psychology/undergrad/advising.asp>) for more information.

The Undergraduate Psychology Program is designed to provide majors with a base of scientific knowledge in psychology that can be used to pursue a professional career with a BA or a graduate/professional degree.

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. *(Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.)*
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. *(The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.)*
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Doctor of Philosophy in Psychology: Applied Cognitive and Brain Sciences

The mission of the Applied Cognitive and Brain Sciences Option at UMKC is to enhance health outcomes, broadly defined, for individuals and communities. In service of this mission, we offer advanced training in the fundamental areas of experimental psychology, health psychology, and quantitative and methodological approaches for applied psychology. The doctorate training emphasizes the development of research skills and empirical investigation of real-world problems in the life and health sciences. Graduates are prepared for careers in academia, allied health, industry, and government agencies.

The Applied Cognitive and Brain Sciences Option at UMKC provides full time Ph.D. study. Didactic instruction is integrated with research from the beginning of students' training. Students are paired with a faculty mentor and become part of a lab where they learn how basic research is applied to practical problems and develop the knowledge and skills to carry out original research. These experiences are graded in complexity and designed to foster the development of cumulative knowledge and skill as the student progresses through their training.

Admission Criteria

Our doctoral training is designed for applicants with a prior bachelor's or master's level degree. The following are minimum criteria recommended for admission:

1. A bachelor's degree in Psychology or related discipline. Satisfactory completion of prior coursework in Introductory/General Psychology, Experimental Methods/Research Design and Statistics/Quantitative Methods is required. Satisfactory completion of prior coursework in at least two of the following areas is also strongly recommended: Biopsychology, Cognitive Psychology, Learning, Motivation, Neuroscience, Sensation and Perception, and Social Psychology.
2. Undergraduate GPA of 3.0 or graduate GPA of 3.5. Alternative criteria may be accepted at the discretion of the admissions committee if there is good reason to believe the regular criteria do not adequately portray the student's potential to do quality work while in the doctorate degree. However, admission is highly competitive, and we seek to admit students with a general history of excellence.
3. Competitive Graduate Record Examination scores from the general test (GRE Math + Verbal greater than 300; Analytical Writing score of at least 4.5). Students whose scores fall below this recommended minimum may present additional evidence of their capacity to do quality doctoral-level work. Such additional evidence will be considered and accepted at the discretion of the Admissions Committee.

4. Demonstrated evidence of interest in health research. The training follows a mentorship model. Therefore, applicants whose research interests are similar to those of the faculty will be given higher consideration. A listing of faculty interests and research can be accessed through the Department of Psychology (<http://cas.umkc.edu/psychology/>) web page.
5. History of personal conduct consistent with the ability to adhere to high standards of student conduct, as outlined in the UMKC Standard for Student Conduct.

A detailed description of the doctorate policies and procedures, including the requirements for retention, is available in the student handbook that can be accessed through the Applied Cognitive and Brain Sciences Option (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/applied-cognitive-and-brain-sciences-ph-d-option/>) web page.

Admission Procedure

New students are admitted in fall semester only. Because we receive applications from many more qualified individuals than can be admitted, admission is competitive. All application materials must be received by December 5 to be considered for admission the following fall. Visit the Applied Cognitive and Brain Sciences Option (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/applied-cognitive-and-brain-sciences-ph-d-option/>) web page for current application procedures and links to other helpful application resources.

Student Learning Outcomes

Students completing the Applied Cognitive and Brain Sciences Option will demonstrate:

1. Competence in the evaluation, conduct, and dissemination of research to support independent activity at the next level (e.g., post-doctoral research, academic research, applied research),
2. Ethical conduct and high professional standards in research, including sensitivity to issues of diversity,
3. Knowledge of the theoretical and scientific foundations of health psychology, and
4. Understanding of the breadth of scientific psychology and its application to health psychology.

Requirements for Retention

A detailed description of policies and procedures, including the requirements for retention, is available in the student handbook.

Doctor of Philosophy in Psychology: Clinical Psychology Option

The Clinical Psychology Ph.D. Option is a full-time program of graduate study designed to train health service psychologists who are competent scientist-practitioners with expertise in clinical psychology. The program seeks to enhance the health of our communities, broadly defined, through: providing rigorous training of students (education mission); serving our communities through the integration of behavioral sciences, health research and health service (service mission); developing knowledge and enhancing health outcomes through empirical research (research and evaluation mission); and incorporating integrity and respect for human diversity in all our activities (human mission). Based on a scientist-practitioner model, the program's clinical training and services are grounded in a commitment to the integration of science and practice. Consistent with the mission of our University to lead in the life and health sciences, our program faculty and students are actively involved in research, communities, and health service systems to promote a high quality of life for all.

Note: UMKC also offers a Ph.D. in Counseling Psychology through the School of Education. For information on that program, please see <https://education.umkc.edu/>.

Admission Criteria

Our doctorate is designed for applicants with a prior bachelor's or master's level degree. New students are admitted in fall semester only. Because we receive applications from many more qualified individuals than can be admitted, admission is highly competitive (see links to detailed information below). All application materials must be received by *December 5* to be considered for admission the following fall. Visit the Clinical Psychology Option web page for current application procedures and links to other helpful application resources.

The following are minimum criteria recommended for admission:

1. A bachelor's degree in Psychology, Counseling, Special Education or other health-related discipline such as Pre-Med or Nursing. Satisfactory completion of prior coursework in Introductory/General Psychology, Experimental Methods/Research Design and Statistics/Quantitative Methods is required. Satisfactory completion of prior coursework in at least two of the following areas is also strongly recommended: Abnormal Psychology, Personality, Biopsychology, Sensation and Perception, Cognitive Psychology, Motivation, Social Psychology.
2. Undergraduate GPA of 3.0 or graduate GPA of 3.5. Alternative criteria may be accepted at the discretion of the admissions committee if there is good reason to believe the regular criteria do not adequately portray the student's potential to do quality work in the doctoral degree. However, admission to the doctorate is highly competitive, and we seek to admit students with a general history of excellence. A disclosure of the average GPA of students recently admitted to the program can be accessed through the doctorate's web page.
3. Competitive Graduate Record Examination scores from the general test (GRE Math + Verbal greater than 300; Analytical Writing score of at least 4.5). Students whose scores fall below this recommended minimum may present additional evidence of their capacity to do quality doctoral-level work. Such additional evidence will be considered and accepted at the discretion of the Clinical Admissions Committee. A disclosure of the

GRE scores of students recently admitted (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/clinical-ph-d-option/>) can be accessed through our web page.

4. Demonstrated evidence of interest in clinical psychology research. Our training follows a mentorship model. Therefore, applicants whose research interests are similar to those of the faculty will be given higher consideration. A listing of faculty interests and research can be accessed through the Department of Psychology Faculty Research (<http://cas.umkc.edu/psychology/research/faculty-research/>) web page.
5. History of personal conduct consistent with the ability to adhere to high standards of student conduct, as outlined in the UMKC Standard for Student Conduct (p. 517), and professional conduct as outlined by the American Psychological Association (<http://www.apa.org/>) and state licensure boards.

Because clinical psychology is an empirically-based discipline, our training emphasizes continuous involvement in research and practice. For this reason, students primarily interested in psychotherapy and clinical or counseling practice without a strong interest in the scientific aspect of the scientist/practitioner model would be better served by other programs.

Typically four students are accepted each year. Applicants are evaluated based on the following dimensions:

1. Academic potential
2. Research potential
3. Interpersonal skills and other indications of potential for clinical work
4. Professional identity and involvement
5. Evidence of high ethical standards

Our training follows the American Psychological Association (<http://www.apa.org/>) Guidelines for Graduate School Offers and Acceptances.

Admission Procedure

New students are admitted in fall semester only. Because we receive applications from many more qualified individuals than can be admitted, admission is highly competitive. A disclosure of relevant data for students recently admitted (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/clinical-ph-d-option/>) can be accessed through the Clinical Psychology Option web page (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/clinical-ph-d-option/>). All application materials must be received by December 5 to be considered for admission in the following fall. Please see the Clinical Psychology Option (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/graduate-admissions/>) web page for current application procedures (<http://cas.umkc.edu/psychology/degree-programs/graduate-programs/graduate-admissions/>).

Our training follows the American Psychological Association (<http://www.apa.org/>) Guidelines for Graduate School Offers and Acceptances.

Student Learning Outcomes

The Clinical Psychology Option is organized around the following training goals and student learning outcomes:

Training Goal 1: To provide students with knowledge and skills in the evaluation, conduct, and dissemination of general psychological and clinical health related research

Student Learning outcomes:

1. Students will demonstrate the ability to critically evaluate literature relevant to the science and practice of psychology
2. Student will demonstrate the ability to conduct empirically sound research, including research design and implementation and statistical analysis

Training Goal 2: To provide students with entry-level skill in the delivery of evidence-based psychological and clinical health services

Student Learning outcomes

1. Students will demonstrate the ability to select, administer, and interpret assessment and diagnostic tools in the context of clinical service delivery
2. Students will demonstrate the ability to select, administer, and evaluate evidence-based psychological and clinical health interventions

Training Goal 3: To provide students with knowledge of ethical and professional principles and to promote ethical conduct and high professional standards in research and clinical situations

Student Learning outcomes

1. Student will demonstrate the ability to identify and appropriately respond to ethical issues raised in research contexts
2. Student will demonstrate the ability to identify and appropriately respond to ethical issues raised in clinical contexts

Training Goal 4: To provide students with knowledge and skills in working with diverse groups of individuals in professional contexts

Student Learning outcomes

1. Student will demonstrate the ability to identify the nature and impact of diversity on the administration and interpretation of assessments and the delivery of health services
2. Student will demonstrate the ability to identify the nature and impact of diversity in the conduct of research and its dissemination

Program Requirements

The following represents the program's core curriculum.

First Year

Fall Semester	Credits	Spring Semester	Credits	Summer Semester	Credits
CPCE 5503	3	PSYCH 5510	3	PSYCH 5650 (optional) ²	1
PSYCH 5509	3	PSYCH 5517	3

PSYCH 5699 ⁸	1	PSYCH 5699 ⁸	1
2		2	

Total Credits: 83-93

¹ Students are required to officially enroll and accumulate 6 hours of research credit over their first 2 years in the program (6 credit hours of graduate level research credit are required to receive the M.A.). If the master's thesis project has been waived or completed, **formal enrollment in directed research is still required**. It is expected that all students will be actively involved in research and evaluated on their research performance every fall and

winter semesters. Students who have had the M.A. requirement waived need only take 1 credit hour of research in each semester of the second year. However, students will still need to accumulate the additional 8 research credit hours required over and above the master's thesis requirement to reach the graduate school minimum of 12 research credit hours for the Ph.D.

² The program requires that students enroll in practicum each regular Fall and Spring semester of the second, third, and fourth years. Students may complete additional clinical hours in summer practicum to improve their competitiveness for internships. Official enrollment is optional, although documentation of supervised hours is required for those to be included.

³ This may be taken during the third year (same semester) instead of the second year.

⁴ Some courses will offered in alternate years

⁵ There are 5 core course requirements (see list at the bottom of the table). In some areas (e.g., Developmental) alternative courses may be used to fulfill the requirement.

⁶ The graduate school requires at least 12 hours of graduate research credit to graduate with a Ph.D. Our program requires a total of 8 research credit hours (pre-dissertation and dissertation) beyond the 6 required for the master's thesis for graduation. You may accumulate these hours in any way you wish as long as you complete the additional 8 hours prior to graduation. However you must first pass comps before enrolling in dissertation units.

⁷ Due to variable internship start and end dates you may only officially complete you internship after the end of the Spring semester. In these cases an incomplete grade will be given until official completion of the internship. Note that the university generally requires students to be enrolled in the semester that they graduate. However, providing all other program requirements have been completed by the end of the spring semester (such as the dissertation) the DCT will request that summer enrollment be waived for students graduating in the summer. If all other requirements are not completed you will be required to enroll in at least one credit (for example, if you dissertation is not yet defended you will enroll in 1 credit of research for the summer semester).

⁸ Students who defend their dissertations prior to the 5th year do not register for continuing dissertation hours. Students, fifth year or beyond, who have not successfully defended the dissertation are required to enroll in 1CH of Dissertation each semester until it is completed.

Code	Title	Credits
PSYCH 5521	Advanced Social Psychology	3
PSYCH 5507 or PSYCH 5505	Cognitive Psychology Motivation	3
PSYCH 5518	Advanced Biopsychology	3
PSYCH 5515	Advanced Systems And History Of Psychology	3
Developmental Requirement, for example:		
PSYCH 5522	Contemporary Issues In Developmental Psychology	
PSYCH 5543	Adult Development And Aging	

Leadership, Employment, and Community Engagement Certificate (PROPEL)

Student Learning Outcomes

Students graduating from this program will:

- Be able to advocate for their disability needs effectively.
- Be able to apply academic knowledge and social proficiencies in a work-based setting.
- Be able to create networks with peers and others.
- Be able to identify possible careers that would match personality type, strengths, interest, skills, and/or values.

The Propel Program is a comprehensive college experience for young adults with intellectual developmental disabilities. Students enrolled in Propel attend UMKC for two years, full-time (12 credit hours/semester; fall and spring semesters) and participate in college courses with students without intellectual disabilities 60% to 70% of the time. The curriculum focuses on the following domains: academic learning; work-based learning and career exploration; social learning; independent living skills; and self-determination. In addition to full-time coursework, students will also have the option of participating in other student activities such as student organizations and service-learning/community engagement. Propel Undergraduate Certificate is housed in the UMKC College of Arts and Sciences, Department of Psychology. Propel is supported through a grant from the Office of Postsecondary Education, US Department of Education to build a model comprehensive transition program for college students with intellectual developmental disabilities.

Program Requirements

Code	Title	Credits
Required Courses		24
PSYCH 151	College Study Skills and Resources	
PSYCH 152	Developing a Person-Centered Life Plan	
PSYCH 153	Communication Skills for Networking, Employment, and Friendship	
PSYCH 154	Personal Finance and Disability Services

Electives		24
Psychology Electives		
PSYCH 252	Psychology of Communicating Your Lived Experience	
PSYCH 253	Disability Civil Rights Movements	
PSYCH 257	Disability History and Culture	
Propel students take a variety of elective courses on campus offered by the College of Arts & Sciences and other Schools and Departments. Fifteen courses Propel students frequently enroll in are:		
ART 105	Introduction To Photography	
ART 112	Foundation Drawing	
COMM-ST 110	Fundamentals Of Effective Speaking And Listening	
ENGLISH 126	Popular Literature	
ENV-SCI 110R	Understanding the Earth: Introduction to Environmental Science and Laboratory	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
MATH 116	Mathematics For Liberal Arts	
PHYSICS 130	Physics of Sports	
PHYSICS 140	How Things Work	
PHYSICS 140L	How Things Work Laboratory	
SOCIOL 101	Sociology: An Introduction	
Total Credits		48

To complete the program, the Propel student needs to finish required Propel certificate courses with a 2.0 GPA or better. Elective courses may be taken pass/fail.

Students who successfully completed the Propel undergraduate certificate may apply to be a UMKC bachelor's degree-seeking student by following the steps below.

1. Inform the Propel Program and identify a transition plan for the spring semester of year two.
2. Successfully complete all of the requirements for earning the Leadership, Employment, and Community Engagement Certificate.
3. Meet with a UMKC advisor in the area of study to have Propel coursework evaluated that will be applicable to an undergraduate degree program.
4. Apply to UMKC as a degree-seeking student, noting successful completion of Propel.
5. The application decision will be made by UMKC's Office of Admissions.

Students admitted to Propel who feel they do not need the Propel student support structures may apply to become a bachelor's degree-seeking student by completing an appeal to the Director of Admissions.

Master of Arts: Psychology

Student Learning Outcomes

Students graduating from this program will:

- To provide students with knowledge and skills in the evaluation, conduct, and dissemination of psychological research.
- To provide students with knowledge of ethical principles and to promote ethical conduct and high professional standards in research and applied situations.
- To provide students with knowledge and skills working with diverse individuals in professional contexts.

Note. Beginning academic year 2012-2013, The Department of Psychology is no longer accepting new students into the Master of Arts in Psychology program. The information that follows is applicable to students accepted to the program prior to Fall 2012. Students enrolled in the Doctor of Philosophy (PhD) in Psychology degree program are eligible for a Master of Arts in Psychology degree as part of the PhD in Psychology degree program. A detailed list of requirements for obtaining a Master of Arts in Psychology degree as part of the PhD in Psychology degree program can be found in the PhD program handbook.

Program Description

The Master of Arts in Psychology Program prepares students for research careers in academic or community psychology settings. The program involves training in theory, research design and statistics, and the application of principles to real world situations. The program provides advanced training both for recent graduates and for individuals who have been in the work force for a number of years. Although some students subsequently enter doctoral programs and complete Ph.D.s, many immediately accept challenging jobs in the public, private or non-profit sector. Students may complete the program on a full- or part-time basis. However, to ensure the timeliness of training, all program requirements must be completed within five years from admission.

The program is research oriented and provides many opportunities to gain valuable experience in conducting research and includes experimental studies working with human participants in a variety of areas. See faculty interests and on-going projects on the Department of Psychology website. (<http://cas.umkc.edu/psychology/>)

Potential applicants should be aware that the Master of Arts in Psychology program is not designed to prepare students for professional practice as a psychologist. Further, completion of the Master of Arts in Psychology program is not adequate preparation for either the practice of psychology or use of the term "psychologist," both of which are regulated by state statute. Students interested in the practice of psychology should consider the Clinical Psychology Ph.D. program described under the Department of Psychology listing.

Suggested Plan of Study

The program is designed for students who seek rigorous training in research design and statistical analysis. Acquiring skills in these areas will prepare students for additional graduate training as well as for immediate application in a work setting. Quantitatively skilled professionals are employed in a variety of settings including: university departments such as psychology, marketing, management, education, medical and biological research programs, personnel management programs, government, industry, market research firms, large-scale mental testing corporations, software development companies and consulting firms.

One key component of training is six credit hours of a capstone research project, either research and thesis or directed research program evaluation, in which students will, under the direct supervision of faculty, apply the skills they have learned in the classroom to real-world problems and research questions.

Code	Title	Credits
PSYCH 5516	Quant Analysis I: Regression And Analysis Of Variance	3
PSYCH 5517	Quantitative Analysis II: Advanced Topics In Regression And Mda	3
PSYCH 5530	Addressing Health Disparities through Community-based Participatory Research	3
PSYCH 5538	Development And Evaluation Of Assessment Tools	3
PSYCH 5601	Experimental Methods In Design And Analysis I	3
Take (6) hours of the following:		6
PSYCH 5590 or PSYCH 5599	Directed Research Research And Thesis	
Psychology Elective ¹		3
Electives ²		12
Total Credits		36

¹ Psychology electives must be 5500 level or above, unless prior written approval is obtained from your psychology advisor and the course instructor. Documentation of completion of additional work in undergraduate courses must be filed with the department in order to obtain graduate credit. Refer to the MA in Psychology handbook for elective options.

² Courses at the 5500 level or above from other UMKC departments may be used to fulfill these requirements; however, prior written approval from your psychology advisor is required.

Psychology Minor

Student Learning Outcomes

Students graduating from this program will:

- Describe psychology's content domains.
- Engage in integrative, science-based reasoning to interpret behavior and solve problems.
- Apply ethical standards to science and practice, and promote community at local, national, and global levels.
- Effectively write, speak, and interact with others.
- Apply psychological content and skills to career goals, and develop professional direction for life after graduation.

Program Requirements

Eighteen hours of coursework in psychology are required for a psychology minor with at least 9 of those hours at the upper-division level. Of the 18 hours a minimum of 9 hours must be completed at UMKC. A grade of "C-" or higher must be achieved for any course to apply toward the minor in psychology.

The following is required of all psychology minors:

Code	Title	Credits
PSYCH 210	General Psychology	3
Psychology Electives (choose from the following): ¹		15
PSYCH 207	Orientation to the Psychology Major	
PSYCH 212	Social Psychology	
PSYCH 217	Academic and Career Opportunities in Psychology	
PSYCH 222	Child Psychology	
PSYCH 302	Research Design in Psychological Science	
PSYCH 305	Psychology of Gender	
PSYCH 316	Quantitative Methods In Psychology	
PSYCH 320	Ethnic and Minority Perspectives in Psychology	
PSYCH 323	Theory and Methods of Personality	
PSYCH 407	Cognitive Psychology	
PSYCH 418	Brain and Behavior I	
PSYCH 433	Abnormal Psychology	
PSYCH 440	The Psychology Of Aging	
PSYCH 461	Field Practicum	
PSYCH 490	Directed Individual Research	
PSYCH 491	Psychology Research Externship	
PSYCH 495WI	Contemporary Issues in Psychology	
Total Credits		18

¹ A maximum combination of 3 credit hours of PSYCH 490 and PSYCH 491 and a maximum of 3 credit hours of PSYCH 461 may be used toward fulfilling elective requirement.

Minimum GPA: 2.0

Total Credit Hours: 18

Psychology/Music Therapy Double Major

Student Learning Outcomes

Students graduating with a double major will:

- Describe psychology's content domains.
- Engage in integrative, science-based reasoning to interpret behavior and solve problems.
- Apply ethical standards to science and practice, and promote community at local, national, and global levels.

- Effectively write, speak, and interact with others.
- Apply psychological content and skills to career goals, and develop professional direction for life after graduation.

Program Requirements

Double majors with the Conservatory may apply up to 6 credits from CONSVTY 342, CONSVTY 395, or CONSVTY 435 toward their psychology electives.

Race, Ethnic, and Gender Studies

The Race, Ethnic, and Gender Studies (REGS) mission is to foster teaching, research, and service on the social, cultural, and historical processes that shape human and group identities and experiences, and to foster intersectional understandings about the formations of inequalities of race, class, gender, sexuality, and other axes of privilege and/or oppression, as well as knowledge and commitment to redress them.

Description of Program

The Center for Religious Studies (http://cas.umkc.edu/Religious_Studies/) offers an interdisciplinary, cross-cultural and socio-historical approach to the study of religion. The Center is a consortium of several area institutions of higher education that have pooled their resources to participate in the UMKC Interdisciplinary Ph.D. program. Students in religious studies are introduced to the many dimensions of religious belief, practice and expression found in human cultures across time and space.

In addition to graduate courses, the Center offers a number of undergraduate courses on topics such as gender and religion, women and religion, the anthropology of religion, and religion in America. Related courses relevant to the study of religion will be found under the listings of other departments and programs.

Courses

RELIG-ST 400 Special Topics In Religious Studies Credits: 1-3

Special topics in religious studies which are not offered regularly. The focus of the course varies by semester and instructor.

RELIG-ST 497RS Special Topics And Readings Credits: 1-6

Intensive reading and/or research in an area selected by the student in consultation with the instructor. May be repeated for credit when the topic varies.

RELIG-ST 5500 Special Topics In Religious Studies Credits: 1-3

Special topics in religious studies. The focus of the course will vary by semester and instructor.

RELIG-ST 5500A Special Topics In Religious Studies Credits: 1-3**RELIG-ST 5500B Special Topics In Religious Studies Credits: 1-3****RELIG-ST 5500C Special Topics In Religious Studies Credits: 1-3****RELIG-ST 5500D Special Topics in Religious Studies Credits: 1-3****RELIG-ST 5500E Special Topics In Religious Studies Credits: 1-3****RELIG-ST 5500F Special Topics In Religious Studies Credits: 1-3****RELIG-ST 5501A Religion In America Credits: 3**

An in-depth examination of selected aspects of the history of religions in America from the colonial period to the present. Special emphasis will be given to methodological issues in the study of American religious history.

RELIG-ST 5502 Religion & Colonialism in Latin America Credits: 3

The study of selected aspects of the history of religions in the Americas. Primary focus is on the complex ways that European, Native American Africans religions helped to structure and negotiate the experiences and the significance of cultural contact and colonialism through lived worlds of meaning.

RELIG-ST 5503 Visions, Dreams, and Prophecies as Religious Phenomena Credits: 3

This course explores the way visions, dreams, and prophecies have acquired religious significance in Western and non-western contexts from the ancient to the present.

RELIG-ST 5504 Gender and Religion Credits: 3

Cross-cultural and comparative study of how religious groups create and transmit gender roles and expectations.

RELIG-ST 5506 The History of Christianity to the Middle Ages Credits: 3

This course examines the historical and theological development of Christianity from its origins to the the High Middle Ages The main themes follow the mechanisms and conditions shaping Christianity's expansion into a major social, institutional and intellectual force with a focus on patterns of crisis and reform. This course is based on the study of primary sources (both texts and objects) and modern scholarship.

RELIG-ST 5507 The History of Christianity from the Middle Ages to the Present Credits: 3

This course examines the historical and theological development of Christianity from the High Middle Ages to the present. The main themes follow the mechanisms and conditions shaping Christianity's expansion into a major social, institutional and intellectual force with a focus on patterns of crisis and reform. This course is based on the study of primary sources (both texts and objects) and modern scholarship.

Cross Listings: HISTORY 5507A.

RELIG-ST 5508 Anthropology of Religion Credits: 3

This course explores the ways anthropologists have gone about studying religion from the opening decades of the 20th century to present. The course introduces students to the diversity of human religious expression and experience through anthropological literature and to the diversity of anthropological expression especially as it has been revealed in social scientific studies of religious life. The course is designed to generate a critical dialogue about the special role that religion has played in the ongoing anthropological engagement with "other" societies and cultures over time.

RELIG-ST 5510 Religions Of The World Credits: 3

This course is designed to introduce graduate students to the major religions of the world, as well as to selected small-group religions. Our goal will be to learn to appreciate the similarities and differences in the structure and history of these religions. A primary focus will be on using the categories of the history of religions to examine and analyze the various dimensions of religion (e.g., historical, sociological, ritual, mythological, aesthetic). In addition, methodological issues of comparison will be addressed.

RELIG-ST 5567 Myth and Ritual Credits: 3

Myth and "ritual" have long been fundamental categories in the study of religion. This course will briefly survey some of the major theories and approaches to the study of myth and ritual from the Enlightenment to the present. Will not only trace the shifting meanings of "myth" and "ritual," but will critically evaluate the utility of diverse approaches to the study of religious phenomena designated by these terms. Reading will include theoretical works, as well as selected case studies.

RELIG-ST 5584RS Sacred Narratives And Texts Credits: 3

This course will study the "social lives" of sacred narratives and texts as they circulate within religious communities. Among the topics to be studied are methods of exegesis in different religious traditions, orality and literacy (including the reoralization of written texts), the canonization process, the emergence of interpretive specialists, text as amulets, reading and meditative practices and techniques, and narratives and the arts. The course is comparative, cross-cultural, and interdisciplinary in nature.

RELIG-ST 5586RS Methodological Approaches To The Study Of Religion Credits: 3

This course examines the various disciplines that undertook the critical, objective study of religion beginning in the second half of the nineteenth century and continuing into the present. The course examines how the disciplines of the social sciences and humanities emerged in the last century and how the study of religion emerged from its roots in Jewish scholarship and Christian theology to be included under the umbrella of the humanities and social sciences. The historical development of religious studies as a historical and intellectual contexts.

RELIG-ST 5587 Contemporary Approaches to the Study of Religion Credits: 3

A survey of major scholars and theorists of religion from 1950 to the present, with an emphasis on significant shifts in the field.

RELIG-ST 5587RS Research Seminar Credits: 3

Students in this course will produce a major research paper under the direction of the instructor: a self-contained thesis chapter, an article for publication or the equivalent.

RELIG-ST 5592 Cults Sects, And New Religious Movements Credits: 3

In this course, students will experience: (a) a variety of methods for analyzing and understanding new religious movements in society: sociological, historical, and textual; (b) an introduction to the broad spectrum of religious beliefs which exist (and flourish) outside the cultural mainstream; and (c) an introduction to some of the means by which dominant religious and secular culture has confronted the presence of NRMs-e.g., deprogramming exit counseling, and theologically oriented countermovement.

RELIG-ST 5593 Sex And Religion Credits: 3

The course is designed to highlight issues related to the various ways in which religions of the world have integrated, embraced, or repressed one of the basic human experiences sexual expression. This is an elective course designed for graduate students with Religious Studies either as their coordinating or co-discipline. This is an advanced seminar, and as such does assume a certain measure of theoretical familiarity and background of study.

RELIG-ST 5594RS Death In The History Of Religions Credits: 3

As a biological "fact," death would appear to be a human universal. Yet, human beings have imagined—and, thus experienced—the meaning of death in many diverse ways in different cultures and over time. This course explores the conceptualization and representation of death and dying, as well as the ritual activities surrounding death, found in selected religious communities. The goals are to gain insight into how people have sought to (re) create a world of meaning in the face of death and to gain a critical perspective on our own contemporary situation.

RELIG-ST 5595RS Time And Space In The History Of Religions Credits: 3

Time and space are essential components of the lived worlds of human beings, yet the cultural and historical constructions of these are remarkably diverse and, moreover, are subject to change. This course is a cross-cultural, interdisciplinary, and comparative exploration of the constructions and experiences of time and space found in selected religious communities and historical periods. In addition, it investigates the pivotal role the categories of "sacred and profane time and space" have played in theorizing religion and in the study of religious myths and rituals in the modern period. Time and space are essential components of the lived worlds of human beings, yet the cultural and historical constructions of these are remarkably diverse and, moreover, are subject to change. This course is a cross-cultural, interdisciplinary, and comparative exploration of the constructions and experiences of time and space found in selected religious communities and historical periods. In addition, it investigates the pivotal role the categories of "sacred and profane time and space" have played in theorizing religion and in the study of religious myths and rituals in the modern period.

RELIG-ST 5596RS Body In The History Of Religions Credits: 3

The human body is the site of extensive imaginal and ritual activities in all religious traditions. This course explores some of the diverse ways religious communities have imagined and experienced the human body, as well as how the body had been manipulated and worked on in an effort to transform the human situation in the world.

RELIG-ST 5597RS Non-Thesis Research/Reading Credits: 1-6

Individual direction of student reading or research by selected, consenting faculty. This course can be taken only when faculty supervision is unavailable in colloquia or seminars.

RELIG-ST 5598RS Seminar In The History Of Religions Credits: 3

Advanced graduate seminar on a selected topic or problem in the History of Religion. Topic varies, but the seminar will have a methodical or theoretical focus. May be repeated for credit when topic is different.

RELIG-ST 5680RS Doctoral Colloquium Credits: 3

This course will examine the writings and theories of major scholars in a particular area of Religious Studies. The authors, works and intellectual currents which form the basis of the colloquium will vary from semester to semester depending upon the professor's expertise and design for the course.

RELIG-ST 5687RS Doctoral Research Seminar Credits: 3

Students in this course will produce a major research paper under the direction of the instructor. This shall consist of a self-contained chapter of the dissertation or a work of publishable quality. May be repeated for credit.

RELIG-ST 5697RS Doctoral-Level Independent Readings Credits: 1-6

Individual reading under the supervision of members of the Religious Studies Doctoral faculty and adjuncts in preparation for the Comprehensive Examination for the Ph.D.

RELIG-ST 5699RS Dissertation Credits: 1-15

Course credits in dissertation.

RELIG-ST 5899 Required Graduate Enrollment Credit: 1

Department Chair:

Shannon Jackson

Professors:

Deborah B. Smith

Associate Professors:

Jeffrey S. Bennett, Marc Garcelon (Coordinator, Sociology Program), Jennifer Huberman, Shannon Jackson (Coordinator, Anthropology Program), Sookhee Oh, Theresa Torres

Assistant Professor:

Michelle Smirnova (Principal Graduate Advisor), Joseph Workman

Associate Teaching Professor:

Ann Marie Wood

Administrative Assistant:

Nathan Milburn

Professors Emeriti:

Linda Breyspraak, Miguel Carranza, Thomas Carroll, Burton Halpert, Philip G. Olson, Peter Singelmann

Department Description

The Department of Sociology offers programs of study leading to:

- Bachelor of Arts in Sociology - two emphasis options:
 - General Sociology
 - Cultural Anthropology Emphasis
- Master of Arts in Sociology

Program minors are available in:

- Sociology
- Anthropology

Sociology is a wide-ranging discipline that strives to understand how the organization of society affects people's lives and experiences. Our mission is to help students develop a sociological perspective and use this perspective to question and understand the world around them. Students in our program have opportunities to develop critical thinking and research skills and to apply classroom learning through experiences in community organizations and agencies. Department faculty members are committed to excellence in teaching and work to assist students in developing a foundation for moving into a career.

Department Activities

Academic Advising

Student academic advising is a continuous process in the department. Undergraduate advisors are available for consultation throughout the academic year. The department recommends that students check the program requirements in the department office before filing the Declaration of Major form.

Undergraduate majors are encouraged to consult with the department to establish a tentative plan of study and to meet with a department advisor each semester. Students should leave their mail and email addresses with the department office so they can receive notifications concerning the class time table, new classes, and other departmental information of interest to majors.

Financial Assistance

Students can receive financial assistance through various campus scholarships, loan programs, grants and the work-study program. Students who are interested should contact the Financial Aid and Scholarships Office.

Sociology/Anthropology Club and Sociology Honor Society

The Sociology Club is open to all students majoring in Sociology as well as students who are interested in this field but have not yet declared a major. Club activities include service projects in the community, sponsorship of community speakers on campus, participation in local and regional professional meetings, and learning about internships and research opportunities. The department has a chapter of Alpha Kappa Delta, a national honorary society for Sociology students.

Undergraduate Student Award

A special award was established as a memorial to Edward Tomich, Ph.D., professor of Sociology from 1964 to 1976. Students must submit an application to the department to be considered for the award. On the recommendation of the department faculty, the Edward Tomich Award is given annually to a senior student majoring in Sociology who exemplifies an indomitable spirit; a commitment to the struggle for human welfare; an unquenchable thirst for knowledge and personal growth; an unwillingness to be cowed by authority or the superficialities of status; a readiness to ask the more difficult questions while being ready to accept the uncertainty of answers; and an appreciation of the value of theoretical knowledge about human interaction in everyday life.

Cooperative Programs

The department cooperates with other programs frequently by jointly listing courses at the undergraduate level. Students may benefit from combining one of these areas of study with their major in sociology:

- Black Studies
- Family Studies
- Gerontology
- Honors
- Latina/Latino Studies
- Women's, Gender, and Sexuality Studies

Desirable Preparation for Undergraduate Admission Requirements

High school students are encouraged to take a general college preparatory curriculum. Additional courses in mathematics, English, foreign languages and the social sciences, such as economics, anthropology, psychology and sociology are recommended. Students planning to transfer from a community college are encouraged to take at least 6 credit hours of sociology (including introductory sociology), and college algebra. A maximum of 12 hours of transfer credits, including introductory sociology, can be counted toward satisfaction of the major field requirements.

Faculty

Jeffrey S. Bennett^{1,2}; associate professor of anthropology and religious studies; B.A. (University of Washington); M.A., Ph.D. (University of Chicago).

Linda M. Breytspraak; professor emeritus of sociology and medicine;

Miguel A. Carranza professor emeritus of sociology and latina/latino studies program.

Thomas E. Carroll associate professor emeritus of sociology.

Marc Garcelon¹; associate professor of sociology; B.A. (University of Washington); M.A., Ph.D. (University of California at Berkeley).

Burton Halpert associate professor emeritus of sociology and medicine.

Jennifer Huberman; associate professor of anthropology; B.A. (Boston University); M.A., Ph.D. (University of Chicago).

Shannon Jackson^{1,2}; associate professor of anthropology; B.A., M.A. (University of Connecticut); Ph.D. (University of Chicago).

Sookhee Oh^{1,2} associate professor of sociology; B.A. (Ewha Woman's University, Korea); M.C.P. (Seoul National University, Korea); Ph.D. (Milano Graduate School of Management and Urban Policy, The New School).

Philip G. Olson; professor emeritus of sociology.

Clovis Semmes; retired professor of sociology and black studies; B.A., Ph.D. (Northwestern University); M.A. (University of Illinois, Chicago).

Peter M. Singlemann professor emeritus of sociology.

Michelle Smirnova^{1,2}; associate professor of sociology; B.A. (Washington University); M.A. (University of Maryland); Ph.D. (University of Maryland).

Deborah B. Smith^{1,2}; chair; department of sociology; professor of sociology and director of family studies; B.S., Ph.D. (Cornell University); M.A. (University of Minnesota).

Theresa L. Torres^{1,2}; associate professor of sociology and latina/latino studies; B.A. (Benedictine College); M.A. (Boston College); O.S.B. (Order of St. Benedict); Ph.D. (Catholic University of America).

Ann Wood¹; associate teaching professor of sociology; B.A. (Grinnell College); M.A., Ph.D. (University of Kansas).

Joseph Workman^{1,2}; assistant professor of sociology; B.A. (Ohio State University); M.A. (University of Notre Dame); Ph.D. (University of Notre Dame)

Undergraduate Undergraduate Degrees:

- Bachelor of Arts: Sociology (p. 986)
- Bachelor of Arts: Sociology with (p. 991)Cultural Anthropology Emphasis
- Minor in Sociology (p. 996)
- Minor in Anthropology (p. 995)

Anthropology Courses

ANTHRO 103 Introduction To Cultural Anthropology Credits: 3

An introduction to culture and the basic concepts of anthropology. Topics include kinship, language, and cultural change.

ANTHRO 103 - MOTR ANTH 201: Cultural Anthropology

ANTHRO 300 Special Topics in Anthropology Credits: 1-3

Each time this course is offered, a different area of anthropology, to be announced, will be examined.

ANTHRO 302 Social Stratification Credits: 3

The distribution of power, privileges and prestige are examined in a historical and comparative perspective. The process whereby distribution systems develop, become institutionalized, and become transformed are analyzed.

ANTHRO 305 Language and Culture Credits: 3

This course is designed to familiarize students with the basic objects, aims, and methods of linguistic anthropology. Students will acquire this familiarity by studying both theoretical and ethnographic articles that focus on some of the major areas of concern within the field including: the evolution of human language, linguistic particularity and universality, the relationship of language to thought, structuralism and semiotics, trope theory, language and emotion, sociolinguistics, the development of writing systems, and language conservation and change.

ANTHRO 306 Culture, Emotion, and Identity Credits: 3

This course introduces students to some of the key theoretical perspectives and debates within the field of psychological anthropology. By drawing upon cross-cultural studies of emotion, personhood, sexuality, illness, and consciousness it seeks to understand some of the ways that culture and society influence human psychology and experience.

ANTHRO 308 The Social Life of Things Credits: 3

This course examines the connections between people and things. It explores how social relationships are created and changed through the use and exchange of objects, and how objects themselves take on particular meanings and values in these processes.

ANTHRO 322 Race And Ethnic Relations Credits: 3

The nature, origin and dynamics of ethnic and race relations in the U. S. and other societies. Specific attention will be given to the historical and contemporary contexts of prejudice, discrimination and confrontation.

ANTHRO 326 Consumer Society Credits: 3

This course explores the emergence of Consumer Society as both a sociohistorical development and as an object of social scientific inquiry. Students will explore how the study of Consumer Society has been animated by different scholarly questions, debates, and analytic approaches.

ANTHRO 328 Body and Society Credits: 3

Body and Society is an interdisciplinary and comparative approach to the study of the body as the subject and object of social processes. Interdisciplinary approaches to topics such as meaning, ritual, performance, and practice will provide a framework for classical as well as contemporary explorations of bodily representation and experiences across a variety of cultural contexts.

Prerequisites: ANTHRO 103.

ANTHRO 331 Urban Anthropology Credits: 3

A course designed to apply anthropological methods to the study of various urban environments. The approach to the subject is comparative, seeking to spell out those features of the urban setting which vary from culture to culture as well as those which are common to all.

ANTHRO 348 Latinx Immigrants, Migrants, and Refugees in the U.S. Credits: 3

This course addresses the culture of societies of U.S. citizens, immigrants, and refugees of Latin American heritage living in the U.S. The course emphasizes recent anthropological, historical, cultural, and sociological studies.

ANTHRO 358 Culture and Society Credits: 3

This course examines the "culture concept" at the heart of the contending theories of society, which is used to describe a society or way of life, a whole social order, or particular aesthetic styles and objects. The course links these various topics together in a concluding section on culture in the age of the Internet and globalization.

ANTHRO 359 Media and Society Credits: 3

This course examines the rise, development, and change of mass media in American society from broadsheets and news flyers through contemporary media formats.

ANTHRO 373 Anthropology of Religion Credits: 3

This course explores the ways anthropologist have gone about studying religion from the opening decades of the 20th century to present. The course introduces students to the diversity of human religious expression and experience through anthropological literature and to the diversity of anthropological expression especially as it has been revealed in social scientific studies of religious life. The course is designed to generate a critical dialogue about the special role that religion has played in the ongoing anthropological engagement with "other" societies and cultures over time.

ANTHRO 380 Technology and Society Credits: 3

This course will help students explore the ways technology shapes and is shaped by human interaction. Students will read interdisciplinary literature that builds theoretical and interpretive frameworks around classical and contemporary case studies. A fundamental question to be addressed throughout the course: how does the comparative study of technology help us understand what it means to be human?

ANTHRO 397 Independent Readings in Anthropology Credits: 1-3

Intensive readings in an area selected by the student with prior consultation with instructor.

Prerequisites: Twelve hours of anthropology.

ANTHRO 407 Writing Culture: The Craft of Ethnography Credits: 3

This course will explore the ways anthropologists document and write about cultural practices, processes, and beliefs. Students will become familiar with debates about representation while they consider differences in the ways ethnographic writing rhetorically conveys culture. Students will also compare ethnographic methods, theories, and styles of writing as these have changed over time.

ANTHRO 441 Globalization and Development Credits: 3

Focuses on issues of economic development, social stratification, political institutions, and political mobilization in societies where colonialism provided the context for their long-term disadvantages in the international economic order. Specific attention is paid to the intersection of the international components that define the options and limits for societal development (e.g., market shifts, international institutions and contracts, foreign policies, and migration) and the distinct social, political and cultural implications of these factors for developing societies.

Sociology Courses

SOCIOL 101 Sociology: An Introduction Credits: 3

An introduction to the study of society and the basic concepts of sociology.

SOCIOL 101 - MOTR SOCI 101: General Sociology

**SOCIOL 201 Introduction To Social Psychology Credits: 3**

Exploration of the relationships between human behavior and social context. The course focuses on how realities are socially constructed and sustained, the role of symbol systems, definitions of the situation, the self as a product of interaction, and the relationship between language, thought and culture.

SOCIOL 203 Social Problems Credits: 3

An examination of major social problems of modern Western society, including issues of racial conflict, war, civil rights, youth movements, the mass media, urban poverty, and crime. The topics will vary from year to year depending upon the instructor.

SOCIOL 211 Social And Psychological Development Through The Life Cycle Credits: 3

A survey of significant psychosocial issues, events and crises throughout the human life span. The life cycle of the family is examined as the primary context within which individual development occurs. Although the primary emphasis will be on normal adjustment and development, attention will also be given to the occurrence of special problems and deviations at each life stage.

SOCIOL 300 Special Topics in Sociology Credits: 1-3

Each time this course is offered, a different area of sociology, to be announced, will be given. On demand.

SOCIOL 300A Special Topics In Sociology Credits: 1-3

Each time this course is offered, a different area of sociology, to be announced, will be given.

SOCIOL 302 Social Stratification Credits: 3

The distribution of power, privileges and prestige are examined in a historical and comparative perspective. The process whereby distribution systems develop, become institutionalized, and become transformed are analyzed.

SOCIOL 306 Culture, Emotion, and Identity Credits: 3

This course introduces students to some of the key theoretical perspectives and debates within the field of psychological anthropology. By drawing upon cross-cultural studies of emotion, personhood, sexuality, illness, and consciousness it seeks to understand some of the ways that culture and society influence human psychology and experience.

SOCIOL 310R Families And The Life Course Credits: 3

This course is an upper level introduction examining the sociological, historical, and social psychological research on the family, focusing primarily on the United States. The course examines families of varied ethnicity, as well as family compositions at different stages of the life course. Emphasis is placed on the interdependence of family members, as well as how society and policy influence the family.

SOCIOL 313R Sociology Of Gender Credits: 3

This course is an introduction to the sociological study of gender in contemporary U.S. society. Special attention is directed to how gender is experienced inter-sectionally with other social categories, including social class, race, sexuality, and age.

SOCIOL 316 Sociology Of Death And Dying Credits: 3

Examination of attitudes, behaviors and institutions related to death and dying in contemporary American society. Topics include the status of death in American society, effects of the setting on dying, interaction with the dying, funeral practices, bereavement customs, surviving spouse, and suicide.

SOCIOL 317 Policies Of Drug Use And Control Credits: 3

Utilizing both historical and contemporary information, this course provided an assessment of the "drug problem" in the U.S. and policies of control developed in response to the problem. Drug use criminalization, legalization, medical treatment and prevention strategies and related issues are considered in regard to scientific knowledge related to the patterns, causes and impact of substance abuse.

SOCIOL 320 Social Deviance Credits: 3

The dominant sociological perspectives on deviance will be discussed with special attention given to the processes that define behavior and persons as deviant and the impact of such definitions on social relationships and identity.

SOCIOL 322 Race And Ethnic Relations Credits: 3

The nature, origin and dynamics of ethnic and race relations in the U. S. and other societies. Specific attention will be given to the historical and contemporary contexts of prejudice discrimination and confrontation.

SOCIOL 326 Consumer Society Credits: 3

This course explores the emergence of Consumer Society as both a sociohistorical development and as an object of social scientific inquiry. Students will explore how the study of Consumer Society has been animated by different scholarly questions, debates, and analytic approaches.

SOCIOL 328 Body and Society Credits: 3

Body and Society is an interdisciplinary and comparative approach to the study of the body as the subject and object of social processes. Interdisciplinary approaches to topics such as meaning, ritual, performance, and practice will provide a framework for classical as well as contemporary explorations of bodily representation and experiences across a variety of cultural contexts.

Prerequisites: ANTHRO 103.

SOCIOL 332 Sociology Of Political Life Credits: 3

The concept of power, community power structure and decision making. The social basis of liberal democracy; consensus and legitimacy; political stability and instability. Power and politics in a mass society; elites and masses; democracy and oligarchy; alienation; bureaucracy; pluralism and totalitarianism. Ideology and social movements.

SOCIOL 337 Community Development In Urban America Credits: 3

The focus in this course is on experiential learning in which the student participates in several urban community development projects that allow for learning about collaboratives, networking, problem-solving, and requisite skills to successfully manage a project. Principles of community development are presented to give the student background for understanding the projects visited.

SOCIOL 348 Latinx Immigrants, Migrants, and Refugees in the U.S Credits: 3

This course addresses the culture of societies of U.S. citizens, immigrants, and refugees of Latin American heritage living in the U.S. The course emphasizes recent anthropological, historical, cultural, and sociological studies.

SOCIOL 357 Social Movements Credits: 3

This course focuses on the link between social movements and political change in the modern world. Social movements arise outside official channels and against established political orders. Students will develop an understanding of the relation between social mobilization and institutional change in various countries, especially in the United States.

SOCIOL 358 Culture and Society Credits: 3

This course examines the "culture concept" at the heart of the contending theories of society, which is used to describe a society or way of life, a whole social order, or particular aesthetic styles and objects. The course links these various topics together in a concluding section on culture in the age of the Internet and globalization.

SOCIOL 359 Media and Society Credits: 3

This course examines the rise, development and change of mass media in American society from broadsheets and news flyers through contemporary media formats.

SOCIOL 361 Social Theory Credits: 3

A survey of the major orientations in social theory, their historical development, and contemporary issues and controversies in social theory.

Recommended preparation: A course in social science.

SOCIOL 362 Methods Of Sociological Research Credits: 3

Experimental and observational schemes; survey analysis; interview and questionnaire designs; scaling techniques; sampling. Recommended preparation: A course in Social Science.

SOCIOL 363 Introduction to Statistics in Sociology/Criminal Justice Credits: 3

A first course in the statistical analysis of quantitative data. Course emphasizes descriptive statistics, probability theory, parameter estimation, bivariate hypothesis testing, and computer applications.

Prerequisites: MATH 110 or higher, or STAT 115 or MOTRMATH 110.

SOCIOL 380 Technology and Society Credits: 3

This course will help students explore the ways technology shapes and is shaped by human interaction. Students will read interdisciplinary literature that builds theoretical and interpretive frameworks around classical and contemporary case studies. A fundamental question to be addressed throughout the course: how does the comparative study of technology help us understand what it means to be human?

SOCIOL 390R Directed Field Experience I Credits: 1-6

The student will work within one or more social agencies or organizations in the city under the joint supervision of a professional within the organization and a member of the Sociology Department. In-class discussion will cover the major problems of social organization.

SOCIOL 391 Directed Field Experience II Credits: 1-6

A continuation of SOCIOL 390R.

SOCIOL 397 Independent Readings In Sociology Credits: 1-3

Intensive readings in an area selected by the student with prior consultation with instructor. Recommended preparation: Twelve hours of sociology coursework.

SOCIOL 398 Independent Research In Sociology Credits: 1-6

Intensive research in an area selected by the student with prior consultation with instructor.

Prerequisites: Twelve hours of sociology.

SOCIOL 404WI The Sociology Capstone: Senior Seminar Credits: 3

This seminar explores the interrelationships between sociology theory, research methods, and statistics. It may focus on major contemporary issues building on and integrating knowledge obtained in previous courses. Recommended preparation: SOCIOL 362.

Prerequisites: SOCIOL 363.

SOCIOL 410R Aging In Contemporary Society Credits: 3

Attitudes and stereotypes, the status of the aged in American society; the social psychology of the aging process; the response of societal institutions such as the family and political system to the aging of the population as a whole. Applications and potentials of research are considered.

SOCIOL 411 Sociology Of Human Sexuality Credits: 3

A cross cultural examination of the most fundamental dichotomy in human society: male and female. Considering sex both as a biological and social category, this course compares diversity and similarity in the interrelationships of male and female in patterns of behavior and social organization found in human societies across time and space.

SOCIOL 418 Feminist Theories Credits: 3

This class introduces the major feminist theories and their primary authors over the last 200 years. The class takes both a historical view (beginning with two millennia of male-centered theories about women) and a conceptual approach (theories are grouped by common ground) and familiarizes the student with both the historical processes that necessitate feminist theories as well as with the breadth and depth of the historically and currently available scholarship.

Prerequisites: WGS 201.

SOCIOL 431 Social Organization Of The City Credits: 3

An examination of the social structure of the American city with special reference to the historical development of American cities. Attention will be focused on the role of social institutions as they have changed in relation to urban problems.

SOCIOL 433 Immigration and the City Credits: 3

This course examines key issues and controversies in immigration research. Special attention will be paid to the social, economic, and historical developments of urban immigrant communities.

SOCIOL 434 Spatial Thinking in Social Science Credits: 3

This course will review ways in which social scientists have incorporated the concepts of space, place, and distance into their theories and research. Readings will be drawn from interdisciplinary work in the areas of urban sociology, criminology, health and demography that deal with spatial organization of communities and cities, spatial disparity of health and crimes, and mobility.

Prerequisites: junior, senior, or graduate standing.

SOCIOL 440R Sociology Of Medicine Credits: 3

Relationship of basic concepts in sociology to health and medical care. Cultural and class variations in health status. Social and cultural aspects of health. Recommended preparation: A course in social science.

SOCIOL 441 Globalization and Development Credits: 3

Focuses on issues of economic development, social stratification, political institutions, and political mobilization in societies where colonialism provided the context for their long-term disadvantages in the international economic order. Specific attention is paid to the intersection of the international components that define the options and limits for societal development (e.g., market shifts, international institutions and contracts, foreign policies, and migration) and the distinct social, political and cultural implications of these factors for developing societies.

SOCIOL 5501 Social Theory I Credits: 3

Examines the development of social theory in Europe up to the beginning of the twentieth century, with a focus on its intellectual precursors of social theory, debates over the nature of society, and controversies over the distinct features of sociology as an emerging academic discipline. The major perspectives covered include the intellectual origins of sociological thought in Great Britain, France, and Germany, and the debates as reflected in the writings of Karl Marx, Emile Durkheim, Max Weber, and Georg Simmel.

Prerequisites: undergraduate course in Sociological Theory.

SOCIOL 5502 Social Theory II Credits: 3

Examines the major sociological theories developed during the twentieth century and contemporary debates over the nature of society and the nature of our knowledge about society. Theories to be examined include behaviorism, symbolic interactionism, structural functionalism, phenomenology, conflict theory, postmodernism, those that attempt to integrate social agency and structure, and feminist theory.

Prerequisites: SOCIOL 5501.

SOCIOL 5503 Controversies In Contemporary Social Theory And Practice Credits: 3

This course critically examines central issues in contemporary debates among social theorists over the nature of society and how it should be studied.

SOCIOL 5510 Sociological Methods I Credits: 3

A survey of methods used by sociologists: selection and formulation of problem, research design, survey research, participant observation, sampling, reliability and validity, use of scales, and data analysis.

Prerequisites: SOCIOL 362.

SOCIOL 5511 Sociological Methods II Credits: 3

Quantitative research is the primary focus of the course; emphasis is placed on problem formulation; research design; sampling procedures; questionnaire construction and interviewing techniques; data collection; problems of scaling, validity and reliability; uses of secondary data sets; data analyses and report writing.

Prerequisites: SOCIOL 362.

SOCIOL 5516 Intermediate Statistics Credits: 3

A systematic development of the logic and practice of selected statistical methods used in sociological research. Included are analysis of variance and covariance, regression analysis, multiple contingency, and non-parametric tests.

Prerequisites: SOCIOL 363 or CJC 303.

SOCIOL 5530 Anthropology Of Gender Credits: 3

This class explores theories of the social construction of gender in cross-cultural contexts. It will also explore global issues of diversity, local and international politics, the economy and work, education, etc.

SOCIOL 5531 Feminist Theories Credits: 3

This class introduces the major feminist theories and their primary authors over the last 200 years. The class takes both an historical (we begin with two millennia of male-centered theories about women) and a conceptual approach (theories are grouped by common ground) and familiarizes the student with both the historical processes that necessitate feminist theories as well as with the breadth of the historically and currently available scholarship. Graduate students are expected to fulfill all undergraduate requirements at graduate-level quality, including independent research components; in addition, graduate students are required to be prepared to lead class discussions.

Prerequisites: WGS 201.

SOCIOL 5534 Spatial Thinking in Social Science Credits: 3

This course will review ways in which social scientists have incorporated the concepts of space, place, and distance into their theories and research. Readings will be drawn from interdisciplinary work in the areas of urban sociology, criminology, health and demography that deal with spatial organization of communities and cities, spatial disparity of health and crimes, and mobility. Generic computer file management skills are required and knowledge of research methods is desirable.

SOCIOL 5537 Anthropology of Religion Credits: 3

This course explores the ways anthropologists have gone about studying religion from the opening decades of the 20th century to present. The course introduces students to the diversity of human religious expression and experience through anthropological literature and to the diversity of anthropological expression especially as it has been revealed in social scientific studies of religious life. The course is designed to generate a critical dialogue about the special role that religion has played in the ongoing anthropological engagement with "other" societies and cultures over time.

SOCIOL 5538 Gender, Work And Social Change Credits: 3

This course examines the role of gendered work and consumption in global social change. Drawing from sociological perspectives on gender and work, this course foregrounds a global comparative analysis of societal development and working contexts, including tourism employment, sex work, domestic work, and agricultural, garment, and informatics production. Graduate students are required to carry out independent research or complete work in the area of public sociology and academic-service learning. Students will write a conference paper or journal quality article from this research.

SOCIOL 5540 Urban Social Structure Credits: 3

An examination of the social structure of the American city with special reference to the historical development of American cities. Attention will be focused on the role of social institutions as they have changed in relation to urban problems.

SOCIOL 5550 Sociology Of Aging Credits: 3

A seminar in which theoretical orientations, methodologies, and findings from crosscultural and community research in gerontology are systematically reviewed, within a social change framework.

SOCIOL 5554 Sociology Of The Aging Woman Credits: 3

An exploration of the intersection of gender and aging issues with special attention to cultural images of women, the development of self-concept and identity in mid-life and beyond, caring roles in the family, work and retirement, and health and mental health issues. These issues are examined within the context of social class, race, and ethnicity. Implications for community programs and social policy are considered. Graduate students will be expected to carry out a research project and to lead a class session.

SOCIOL 5556 Aging And Developmental Disabilities Credits: 2

This course explores the experience of aging with a developmental disability or mental retardation within the context or normative aging. Among the comparisons made between older persons with and without developmental disabilities are their demographic characteristics, physical and cognitive functioning, role transitions and losses, identities and self-concepts, and family and caregiving issues. Policies, programs, and emerging concepts of best practices are considered within the context of quality of life, ethical, and community inclusion bases.

SOCIOL 5557 Practicum In Aging And Developmental Disabilities Credit: 1

Students gain experience in working with and defining issues of older persons with developmental disabilities through placements in sheltered workshops, senior centers, residential group homes, and other community-based programs.

Co-requisites: SOCIOL 5556.

SOCIOL 5560 Sociology Of Death And Dying Credits: 3

This course examines attitudes, behaviors, and institutions related to death and dying in contemporary American society. Topics include the meanings of death in American society, social settings for dying, interaction with the dying, customs and practices surrounding death, role transitions of survivors, and suicide. Special attention is given to issues of aging and dying.

SOCIOL 5573 Latin American Immigrants and Refugees in the U.S. Credits: 3

This course is the study of history, culture and societies of immigrants and US citizens of Latin American heritage living in the U.S.

SOCIOL 5580 Special Studies In Sociology Credits: 1-3

An opportunity to explore in depth topics not included in usual course offerings. One or more topics will be announced in advance of registration.

SOCIOL 5595 Directed Research Experience Credits: 3

Research project supervised by faculty.

SOCIOL 5597 Independent Readings Credits: 1-3

Intensive readings in an area selected by the student with prior consultation with the instructor.

SOCIOL 5599 Thesis And Research Credits: 1-6

Directed specialized research. Before writing a thesis, the student must clear the topic and research design with the Supervisory Committee. The course also involves the writing of the thesis.

SOCIOL 5699 Dissertation Research Credits: 1-12

Individual directed research leading to preparation and completion of doctoral dissertation.

SOCIOL 5899 Required Graduate Enrollment Credit: 1

Bachelor of Arts: Sociology

University Requirements

General Education

UMKC Essentials is the university-wide curriculum that all undergraduate students will complete. The 30-credit hour program includes a First Year Experience course; three critical thinking courses in the areas of Arts & Humanities, Natural & Physical Sciences, and Social & Behavioral Sciences; a Culture and Diversity course; a Civic & Urban Engagement course; two courses in Composition and one course in Communication; and a Math Pathway course.

Constitution Course

Every undergraduate student must take a course covering the United States Constitution and the Missouri State Constitution before graduation. Course options are included in the program requirements section below.

Exit Examinations

Information on exit examinations is available in the Undergraduate Academic Regulations and Information (p. 488) section of the catalog.

Missouri Higher Education Civics Achievement Examination

In accordance with Missouri Senate Bill 807 (section 170.013.1), 'any student entering a public institution of higher education for the first time after July 2019 who is pursuing an associate's or bachelor's degree from such institution shall successfully pass an examination on the provisions and principles of American civics with a score of seventy percent or greater as a condition of graduation from such institution'. To satisfy this requirement at UMKC, students access the exam through the Canvas site. This requirement will be listed in the degree audit system as, 'Take State Mandated Missouri Higher Education Civics Achievement Examination', and listed on the transcript as 'Missouri Civics Examination'.

Student Learning Outcomes

Students graduating from this program will:

- Examine the role and relevance of the sociological perspective for contemporary social life. Thus students will gain knowledge of the fundamentals in Sociology, such as the foundations of human practice, belief, and organization.
- Reflect on contemporary issues and controversies in the academic discipline of Sociology. Thus students will be able to examine issues of inequality, cultural difference, and social stratification from a comparative perspective, applying sociological principles and concepts to their own lives.
- Explore the basic theoretical and methodological perspectives, both in the social sciences and in a chosen specialty area. Thus students will have the capacity to critically evaluate and engage contemporary issues, trends in theory, and instruments of social analysis.
- Advance the critical research, thinking, and writing skills that are integral to professional development and civic engagement. Thus students will apply the fundamentals of sociology to both experience and enhanced interest in community engagement.

Career Implications

The B.A. curriculum in sociology is designed to prepare students for a variety of career paths, including:

- Graduate level work in sociology degrees in order to become a professor, researcher, or applied social scientist.
- Entry-level positions throughout the business, human services, and government sectors. Employers look for people with the skills that an undergraduate degree in sociology provides.
- Careers in journalism, politics, public relations, business, or public administration—fields that involve the kind of investigative skills and ability to work with diverse groups that students encounter in the curriculum our faculty's expertise.
- Professions such as law, education, medicine, social work, and counseling—fields that all draw on the rich fund of knowledge from sociology.

Constitution Course Requirement

Section 170.011.1 of the Missouri Revised Statutes, 2015, states that all candidates for a degree issued by a college or university in the state of Missouri must have “satisfactorily passed an examination on the provisions and principles of the Constitution of the United States and of the state of Missouri, and in American history and American institutions.”

Courses at UMKC that satisfy this state requirement are:

Code	Title	Credits
Choose one of the following:		3
CJC 364	The Supreme Court And The Criminal Process	
HISTORY 101	U.S. History to 1877	
HISTORY 102	U.S. History Since 1877	
HONORS 230	Honors American Government	
POL-SCI 210	American Government	
Total Credits		3

There are a few other ways this requirement can be satisfied for students transferring to UMKC:

- Take an equivalent course from the list above at a regionally accredited institution.
- Earn credit for one of the above courses through AP, IB, or CLEP.
- Take a course that directly satisfies the Missouri Constitution Requirement at another Missouri institution.
- Have a previous bachelors degree (or higher) from a regionally accredited institution.
- Have an Associate of Arts degree from a regionally accredited institution.
- Complete the 42 Hour Core at a Missouri institution and have it listed on the official transcript.

College of Arts & Sciences Degree Requirements

Students pursuing the bachelor of arts and bachelor of science degrees must complete a major. Students pursuing the bachelor of liberal arts degree must complete a minor. Additional details are available in the Student Services (p. 1011) section of the catalog.

Code	Title	Credits

Total Credits		33

¹ All majors are required to take a writing intensive course within the Department of Sociology (SOCIOL 404WI fulfills this requirement).

Other degree requirements include:

1. A minimum grade of C- in all required core courses.
2. A 2.0 grade-point average in the 33 major credit hours.
3. Completion of the general degree requirements of the College of Arts and Sciences with a minimum GPA of 2.0.

4. No more than three one-credit courses of Special Topics in Sociology (SOCIOL 300__) may be used to fulfill sociology elective requirements.
5. A maximum of 6 hours from any combination of field experience, directed individual study and research will count toward the requirements.

General Electives

Students must take elective credit hours to meet the minimum credit hour requirement for their degree, including at least 36 credit hours of coursework at the 300-level or above. The minimum required by the university is 120 credit hours, of which at least 30 credit hours must be taken at UMKC, but some degree programs require more.

Code	Title	Credits
General Electives		44

Minimum GPA: 2.0

Total Credit Hours: 120

Tools for Planning and Fulfilling Academic Requirements

UMKC's Major Maps are detailed, semester by semester plans that lead a student to complete all degree requirements within four years. Plans include benchmarks and critical courses by term that assist a student's evaluation of progress and major "fit". In order to ensure that the appropriate courses are taken, students are encouraged to consult with the undergraduate advisor for this major. Please see the tab above to view the major map for this program.

UMKC's Transfer Guides (<https://www.umkc.edu/admissions/transfer-guides.html>) provide detailed guidance on recommended transfer coursework, plans of study, transfer timelines, and transfer contact information. To ensure a seamless transfer experience, students are encouraged to work with both their community college advisor and a UMKC advisor when planning their coursework.

UMKC's PlanMyDegree 'Audit' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree audit system provides an individual evaluation of all degree requirements (General Education, Degree Specific, Major Specific, etc.) for students' officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. This evaluation is used to certify all graduation requirements.

UMKC's PlanMyDegree 'Plans' (<https://www.umkc.edu/registrar/academic-programs/plan-my-degree.html>) degree planning tool enables students to develop a personalized semester by semester plan of study towards completion of degree requirements for student's officially recorded (Office of Registration and Records) and "what if" exploratory plans of study. Update and edit your full plan to degree completion each term and confirm accuracy each semester with your Academic Advisor(s).

Major Map

Four Year Graduation Plan - Courses & Critical Benchmarks for First Time College Students:

UMKC's Major Maps are detailed, undergraduate four-year course outlines that inform students on the classes they should take and when to take them. Outlines are updated yearly. Graduate students should visit their program's individual school for program outlines.

The following is a sample course of study. Your path to graduation may vary based on factors such as college credit you earned while in high school, transfer work from other institutions of higher learning, and placement in Mathematics. You are responsible for checking prerequisites to any courses. It is the Student's responsibility to ensure that all program requirements are met. This guide is not a substitute for academic advisement.

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

		15	14

Total Credits: 120

CC Critical Courses provide feedback regarding major fit and help indicate likelihood of successful completion of chosen academic program and degree.

LO Lab Science course may be paired with associated Lecture course fulfilling General Elective hours

Recommendations to Maintain Progress toward 4-Year Degree Completion

- Completion of the First Semester Experience (FSE) course in first term.
- Early completion of Written Communication, Oral Communication, and Math Pathway requirements.
- Maintain the minimum GPA required for academic Good Standing for your degree program.
- Completion at least 15 credit hours toward degree each regular semester. (*Students may use the summer to ensure completion of 30 hours per academic year or to lighten Fall and Spring course loads.*)
- Enrollment in Critical Courses as listed on the Major Map is recommended in order to maintain timely progress and completion of prerequisite coursework.
- Early and continuous enrollment in Foreign Language through completion of level required for degree program is recommended. (*The Foreign Language placement exam is highly recommended to ensure placement in the correct course level.*)
- Regular consultation with Academic Advisor(s) for program(s) of study is strongly recommended and may be required for some degree programs..

Minor: Anthropology

Student Learning Outcomes

Students graduating from this program will:

- Examine the role and relevance of the anthropological perspective for contemporary social life. Thus students will gain knowledge of the fundamentals in Anthropology, such as the foundations of human practice, belief, and organization.
- Reflect on contemporary issues and controversies in the academic discipline of Anthropology. Thus students will be able to examine issues of inequality, cultural difference, and social stratification from a comparative perspective, applying anthropological principles and concepts to their own lives.
- Explore the basic theoretical and methodological perspectives, both in the social sciences and in a chosen specialty area. Thus students will have the capacity to critically evaluate and engage contemporary issues, trends in theory, and instruments of social analysis.
- Advance the critical research, thinking, and writing skills that are integral to professional development and civic engagement. Thus, students will apply the fundamentals of anthropology to both experience and enhanced interest in community engagement.
