

## Campus Decision-Making Scenarios for AY 2020-2021

**Process:** UMKC leadership will maintain weekly check-ins with KC Public Health, Rockhurst University, Avila University, and the Kansas City Art Institute; the purpose of check-in is to report campus positivity rate and patterns, community incidence and patterns, and healthcare capacity so that decision scenarios can be evaluated. The campus will be classified in one of three decision-making states: Green, Yellow, Red. The variables impacting these states are described below.

For the purpose of evaluating decision-making states, the following assumptions have been established:

1. The jurisdiction for comparison and decision-making is Kansas City, Missouri and the Kansas City Department of Public Health.
2. The baseline campus incidence will be established Monday, September 14—three weeks after the start of the fall semester. This baseline will be used as a comparison between the campus and community and across time within our campus community.
3. The denominator for establishing incidence within a given time period will be the estimate of all students, faculty, and staff who are on campus at some point during the fall semester. The current estimate is 10,000, based on enrollment in face-to-face and hybrid courses and faculty/staff work arrangements.
4. The variables/thresholds included in the decision making scenarios can change over time as new information about COVID is known and/or as the KC Health Department provides updated guidance.

| Decision-Making States and University Functions  |  |  |  |  |  |
|--|--|--|--|--|--|
|  | Courses  | Student Services   | Residential Life   | Campus/Building Access   | Auxiliary Functions (e.g., Berkley CFCD)   |
| <p><b>Green State</b></p> <p>Community is open, not sheltering-in-place; face covering and physical distancing required</p> <p>Community testing resources are available and healthcare system is not overwhelmed</p> <p>Campus incidence is not significantly different from community incidence (per capita) at September 14 baseline date.</p> <p>No evidence of super-spreader events.</p>             | Mix of Face-to-Face, Hybrid, Online  | <p>Mix of Face-to-Face, Hybrid, Online</p> <p>Most services by appointment only</p>  | Open at capacity; with health and safety measures in place | Open to the public with health and safety measures in place  | Open with health and safety measures in place                                      |
| <p><b>Yellow State</b></p> <p>Campus incidence is significantly greater than the community incidence (per capita), either in total or by age group, for &gt; one week.</p> <p>If over 5% of individuals in a building or on campus positive any day, 4% test positive over 2 days in a row or 3% test positive for 3 days in a row.</p> <p>Campus contact tracing cannot be completed within 48 hours.</p> | <p>Courses online*</p> <p>*Transition could result in portions of campus going online or the entire campus. Time period for online coursework could be variable.</p> | <p>Student services online*</p> <p>*Transition could result in portions of student services going online or all student services. Time period could be variable.</p> | Possibly remain open; Evaluate based on pattern of cases   | Evaluate ability to offer open number of critical student support spaces open with masks/social distancing (e.g., computer rooms by appointment) | Consider on a case-by-case basis with health department, based on pattern of cases |

|   |                       |                                |   |                   |                   |
|---|-----------------------|--------------------------------|---|-------------------|-------------------|
| <p>Campus quarantine and isolation spaces are near or at capacity (5% of residence hall capacity).</p> <p>Evidence of uncontained transmission in the campus population.</p> <p>Evidence of pockets of transmission or super-spreader transmission across campus (on or off campus events).</p> <p>Recommendation by KC Health Department to modify approach.</p> |                       |                                |   |                   |                   |
| <p><b>Red State</b></p>   | <p>Courses online</p> | <p>Student services online</p> | <p>Limited capacity/emergency cases in residence only</p> | <p>Depopulate</p> | <p>Depopulate</p> |
| <p>Community Shelter-in-place issued by KC, MO</p>  |                       |                                |   |                   |                   |
