

QUESTIONS FOR CHANCELLOR AGRAWAL
12-17-2019
UMKC Faculty Senate

(NEW) The basic and clinical sciences faculty would like to tap into the funding resources available through Veterans Administration Grand Funds. Right now, UMKC faculty cannot although the VA hospital and research facility is in KC, MO. School of Pharmacy administrators say that VA resource is under your radar. If possible, can you please provide an update?

(NEW) What is the plan is for conducting 3 Dean searches at the same time on the Hospital Hill campus and what will be the impact of not having a Provost in place who might impact those searches?

What are your thoughts about the proposed reorganization of CAS?
Will the rest of campus have any input?

The provost recommended a fast track approach in deciding whether or not to reorganize CAS. How, if at all, will the process change and how will this impact the search for a new dean?

When are we going to renovate and/ or build classrooms?

What is the plan for finding a new provost?
How are you going to work with us to select the faculty-controlled Search Committee for the new Provost?

What is the plan to engage in an effective marketing campaign to increase student enrollment?

How is our progress on enrollment?

How can faculty help enact the strategic plan?
