

University of Missouri-Kansas City Growth Policy for Fraternities and Sororities

National social fraternities and sororities may establish or reactivate recognized chapters at the University of Missouri-Kansas City (UMKC) only through a formal invitation extended by the University. The invitation is contingent upon petitioners meeting the criteria outlined in this document. The following statement establishes the guidelines and procedures for expansion, extension, or reactivation of national fraternities/sororities at the University of Missouri-Kansas City. This policy is divided into six sections:

- Section I describes the University's Considerations for Growth and adding chapters to the fraternity and sorority community.
- Section II defines what the University considers a "national" social fraternity or sorority.
- Section III defines the requirements for recognition as a fraternity or sorority and a student organization.
- Section IV describes the benefits of being a recognized fraternity or sorority at UMKC.
- Section V outlines the processes and procedures for expansion, extension, and reactivation.
- Section VI outlines the application requirements to be considered for expansion, extension, or reactivation.

Section I: University Considerations for Growth:

The University of Missouri – Kansas City Fraternity and Sorority Affairs staff and councils should consider the following information to make a decision on whether or not expansion, extension, or reactivation is both desirable and feasible:

- Number of students participating in fraternity and sorority recruitment in relation to the number of students who join (IFC and CPC only)
- Current number of chapters and new fraternities or sororities on campus
- Current number of active and new/associate members
- Average chapter membership size and median number of members
- Number of chapters and new fraternities and sororities currently experiencing severe membership issues and an assessment with projected measures in which to assist them
- University's projection of enrollment trends

Section II: Definition

Social fraternities and sororities are student organizations whose primary purpose is the personal development of their members, as distinguished from honorary, professional, departmental, and service fraternities. The United States Department of Education has established guidelines and criteria necessary to be classified as a social sorority or fraternity (which includes a provision that allows an organization to operate as a single-sex organization.) In keeping with the criteria established by the Department of Education, the University of Missouri-Kansas City classifies social sororities and fraternities as organizations that:

- Do not limit membership to persons pursuing or having an interest in a particular field of study, profession, or academic discipline.
- Do not serve as honorary societies for academic, leadership, or any other endeavor.
- Do not permit members to hold membership in other social sororities or fraternities.

In addition, these organizations must also:

- Have tax-exempt status under Section 501(c)(7) of the Internal Revenue Code
- Limit membership to currently enrolled students at the University of Missouri-Kansas City.

Section III: Recognition

The purpose of recognizing student organizations, including social fraternities and sororities, at the University of Missouri-Kansas City is to provide structures through which students may freely associate in a common purpose or mission that unifies them to form an organization. To gain and maintain recognition at UMKC, fraternities and sororities must agree to the following:

- Adhere to the University of Missouri System Collected Rules and Regulations
- Adhere to the Office of Student Involvement Student Organization Reference Guide Policies and Procedures
- Adhere to the Fraternity and Sorority Affairs Minimum Expectations
- Have 5 members to register as a student organization and 3 members to maintain recognition; these must be full-time, active, undergraduate students at the University of Missouri-Kansas City. Exceptions can be made at the discretion of the Assistant Director for Fraternity and Sorority Affairs.
 - Chapters whose membership falls below three (3) undergraduate members, but still has a minimum of 1 member enrolled at UMKC, will be considered dormant. If a chapter loses all membership at UMKC it will automatically be considered inactive. After a chapter has become dormant, it has a period of one (1) year to reorganize on campus and raise its membership above 3 enrolled UMKC students. Chapters that fail to reorganize and do not meet the membership minimum to be a recognized fraternity or sorority within the established timeframe will be considered inactive. Chapters that become inactive through a loss of membership must apply for reactivation as indicated by the procedures outlined in this document. Exceptions can be made at the discretion of the Assistant Director for Fraternity and Sorority Affairs.
- Register as a student organization no later than the Friday prior to the start of final exams week the semester they conduct recruitment or intake.
- Charter no later than two years after the original date of approval.
- No marketing, tabling, interest meetings, participation in council sponsored events, pledging ceremonies or initiations are to occur by students, local alumni, and/or HQ staff until the organization has received written notification from the university granting permission to become or reactivate as a fraternity or sorority at the University of Missouri- Kansas City. An organization is not prohibited from identifying students interested in forming a new fraternity or sorority on campus.
- The University does not recognize citywide or metropolitan chapters and thus, all chapters must be based and chartered exclusively at the University of Missouri – Kansas City. Additionally, recognized fraternities and sororities must limit membership to currently enrolled students at the University.

Section IV: Benefits

The University of Missouri - Kansas City (UMKC) is committed to supporting a vibrant and strong fraternity and sorority community through a collection of outstanding chapters that support and live their respective values. The fraternal experience can play a critical role in the development of students throughout their college years and beyond and as such, we believe strongly that partnerships among inter/national organizations, alumni volunteers, individual chapters, and the University is essential.

In support of Inter/National Organizations efforts to extend, expand or reactivate, UMKC Fraternity and Sorority Affairs along with the respective governing council will provide:

- Access to campus facilities reserved through Fraternity and Sorority Affairs; this includes space to conduct recruitment or intake activities, tabling, meeting rooms, etc.
- Assistance from Fraternity and Sorority Affairs with student organization and council recognition and registration processes.
- Access to all resources afforded to each of our fraternities and sororities and student organizations at UMKC which includes, but is not limited to, use of the Fraternity and Sorority Council office, academic information for the purposes of membership and grade release paperwork, and marketing/promotional opportunities on campus.
- Advertisements and notices in official publications; posting and advertising privileges through Fraternity and Sorority Affairs and the respective governing council's social media pages.
- Contact information for qualified potential candidates via public email addresses.

Additional support methods as discussed and agreed upon during expansion, extension, or reactivation preparation.

Section V: Expansion/Extension/Reactivation Processes and Procedures

There are several routes for an expansion for inter/national fraternities and sororities:

- 1. Open Invitation to Expand:** In the event that a governing council wishes to seek expansion opportunities, a formal invitation shall be sent to inter/national organizations requesting Letters of Intent and application materials. This invitation will first be approved by the governing council, Fraternity and Sorority Affairs staff, and/or the Vice Provost of Student Affairs.
- 2. Student Interest Group Expansion:** A group of enrolled students may choose to form a chapter that is affiliated with an inter/national organization and may seek membership in a governing council as a result of that affiliation. The group of interested students shall submit a Letter of Intent and application materials to the governing council that includes a Letter of Endorsement from the inter/national organization.
- 3. Inter/National Fraternity or Sorority Expansion:** An inter/national fraternity or sorority can petition to join a governing council through a Letter of Intent and application materials sent to the President of said council. This includes re-establishment of a previously chartered fraternity/sorority chapter.
- 4. Reactivation after a Conduct Sanction:** If an organization receives a conduct sanction from the Office of Student Conduct and Civility with an agreed upon return date, the organization must agree to communicate with Fraternity and Sorority Affairs six (6) months prior to the return date to begin discussions and establish a timeline for return.

To assure success in the recognition process and appropriate use of council and university resources, each council may only increase by one organization per year. In addition, for the entire fraternity and sorority community, a maximum of two organizations may join during the fall semester and two may join during the spring semester of any given academic year. Expansion, extension, or reactivation cannot occur during the summer academic semester or when classes are not in session (winter break).

Procedures of Open Invitations to Expand

The process for open invitation will differ based on the governing council:
