Adding Content in the Personal Learning Space

1) Click the <Add Content> button in the Personal Learning Space.

![Add Content button](image)

You can add new social media content here, such as blogs, wikis and podcasts, by clicking Add Content.

2) Choose the type of content to add. In this example a Blog. Add a title, Description, and click Add.

![Blog content creation](image)

Blog
A completely blank blog.

Title

PLS Blog Sample

This will be used to generate the URL, e.g. http://umkc.campuspack.net/Users/yazeli-j3/My_Content

Description

An example of adding a blog to the personal learning space

This description will typically be displayed alongside the title.

Add

3) This will open the new content area. In this example PLS Blog Sample.
4) To return to the Personal Learning Space, click on the name about the Blog title.
