How to View a Wiki Page’s History
(Audience: Instructor)

Campus Pack allows users to view previous versions of a wiki page, to see what changes have been made, and to see who has made those changes.

1) Select **History** in the top right corner.

   ![History Menu](image1)

2) To view previous versions of the page:
   A. Select the version
   B. Click on **View** at the top of the window

   ![Version List](image2)

3) Select which version to compare with by selecting it in the drop down menu and clicking **Compare**.

   ![Compare Version](image3)
4) Both versions of the wiki page are shown side by side with any changes made highlighted. The Editors name is displayed at the top of the display.
