How to Recycle Campus Pack Sites
(Audience: Instructors)

Campus Pack allows Instructors to recycle Campus Pack sites by selecting what to remove from the Campus Pack site.

1) Select **Recycle** at the top of the Campus Pack site.

2) You can either delete all the content on the site, or delete the content based on the type of user who added the content. For example, if an instructor wanted to keep all the content they added to a wiki, but wanted to clear out any content added by students, they would click **Delete content by role** and select **Student**.

3) Click **Recycle**.
