Wimba Classroom Guest Access

Instructors can allow guest access for a Wimba Classroom, so people who do not have UMKC Blackboard accounts can access the session via a web link.

1) When creating a new room, click the drop down arrow next to Maximum users and Guest Access.
   (If the room is already created, click the Settings icon to go to the Modify Room page)

2) Select Enable guest access.

3) Click <Submit>.

4) Click on the name of the classroom.

5) Give the Guest Access Link to the guests.

   Guest Access Link: https://umkc.wimba.com/auncher.cgi?room=umkc_s_73869_1684677
