

UMKC Case Management Team:  
Resources for faculty about concerning student behavior.

Purpose

The case management team is assembled by the Vice Chancellor for Student Affairs and Enrollment Management and meets every other week in order to:

- coordinate and share information with each other related to reports of concerning student behavior.
- provide consultation, recommendations for action, and coordination of campus resources in response to reports of concerning student behavior.

Members provide on-call type strategic consultation to faculty about student issues such as:

- concerning student behavior.
- classroom management.
- student peer relations.
- the development of individual behavioral agreements.
- mediations between faculty members and students.
- bringing awareness of and support for referring students to campus resources and services.

\* All student behavioral concerns on campus requiring immediate attention such as criminal, violent, threatening, or imminent suicidal behavior should be directed to the UMKC Police as soon as possible.
