

In the event of a campus emergency or pending danger that could affect your health or safety, the University may use UMKC Alert to send a message to your cell phone, text device, University e-mail, local phone number, and alternate personal e-mail address. You can update this information in Pathway.

1. Log into [Pathway](#) and select the **Personal Information** tile

2. Click on **Emergency Mass Notification** in the left-hand menu

3. You may enter contact information by entering your data in the following fields.
 - a. **Local Phone Number** will generate a phone call
 - b. **Cell Phone Number** will generate a phone call
 - c. **Text Number** will generate a text message
 - d. **Alternate Email Address** will generate an email
 - e. **Numeric Pager** and **Alphanumeric Pager** will generate a page
4. Once your updates are complete, click **Done Updating**

University Email Address	gttf3@mail.umkc.edu
Local Phone Number	<input type="text" value="816/235-6000"/>
Cell Phone Number (voicemail alert)	<input type="text" value="816/235-1125"/>
Text Messaging Number (text message alert)	<input type="text"/>
Alternate Email Address	<input type="text" value="registrar@umkc.edu"/>
Numeric Pager	<input type="text"/>
Alphanumeric Pager	<input type="text"/>

Note: The alternate personal email address is for emergencies only; the university will only use your official university email address to conduct official University business.
